

MR. J. P. POTHIER MET TRAGIC DEATH IN AUTOMOBILE ACCIDENT

Car Turned Double Somersault When Hind Wheel Broke, Pinning Him Beneath It—Father and Two Brothers Were With Him and Had Miraculous Escape—Was Speeding Along a Mile and a Half This Side of Birchton.

The citizens of this city were shocked yesterday afternoon, to hear of the tragic death of Mr. J. P. Pothier, the well known real estate broker, who was killed while speeding along from Cookshire to Sherbrooke, at a point about a mile and a half this side of Birchton.

Mr. Pothier, accompanied by his father and two brothers, Oliva and Theodore, were enjoying a ride in his sixty horse power Jackson car, and were on their way back from Cookshire. After striking an exceptionally good piece of road this side of Birchton, Mr. Pothier started to speed along at a fast clip, going at the rate of about forty miles an hour. Judging from the tracks made by the car Mr. Pothier, who was driving, must have found his car going to one side and steered over to the other side. The rate he was going sent the car to the other side and in an endeavor to get back he must have turned too quickly and one wheel gave way. The car turned over twice, pinning the unfortunate man beneath it. His father and brothers were thrown out, but miraculously escaped serious injury. His father, in addition to being badly shaken up, suffered a broken rib.

UNCONSCIOUS WHEN PICKED UP.

The two brothers and father were soon at work taking Philip from underneath the demolished car. He was unconscious, and after trying in vain to revive him he was taken to a farm house. He regained consciousness and asked for his wife and children.

TRAINED NURSE FORTUNATELY ON HAND.

Following Mr. Pothier were several automobiles, including one in which was Miss Rose Griffith, trained nurse. As soon as she arrived she assisted in every way to make the injured man comfortable. Mr. Fred Bouthillier, Mr. Panetton and Mr. Fred Hovey were soon on the scene, and a car was immediately sent for a physician. Dr. E. J. Williams of this

city was reached, but arrived at the spot too late, although he made the distance from Sherbrooke, twelve miles, in about twenty four minutes.

LIVED FOR OVER AN HOUR.

Mr. Pothier lived for over an hour after the accident and realized that he was fatally injured. His aged father, who is sixty-three years old, and his two brothers were present with him when the end came.

MR. OLIVA POTHIER TELLS THE STORY.

Mr. Oliva Pothier, who was in the car with his brother, told the Record the following story this morning:—“We were travelling about thirty-five miles an hour, when all of a sudden the car began to slide to the side of the road. Philip then steered over more to the other side and like a flash my brother and I were thrown out, the car turned over twice, and there was Philip lying unconscious underneath. My brother and I were thrown right into the air and landed quite a distance from the car. Father was between the rear wheels, with his coat caught. It all happened so quick that I can not tell all that did happen.”

NEPHEW OF LATE J. A. GAUTHIER.

The late Mr. Pothier was thirty-three years of age on Wednesday last and was a nephew of the late J. A. Gauthier, who was buried this morning. He was to have been one of the bearers. Four years ago he married Miss Eugenie LaJolie of St. Leger, who is stricken with grief at her husband's tragic death. Two small children also survive.

HIS PARENTS WERE IN THE CITY.

His father and mother, Mr. and Mrs. Moise Pothier of Pointe-de-Lac, came to the city to attend the funeral of Mr. Gauthier, the former being with him when the accident occurred. In addition to his parents he leaves six brothers, Joseph, Theodore, Charles and Lucien of Three Rivers; Oliva and Francois Xavier of this city.

ORDINATION SERVICE AT ST. PETER'S CHURCH

Four Candidates Were Raised to the Priesthood

REV. C. G. HEPBURN, REV. CECIL STEVENS, REV. N. H. SNOW AND REV. W. H. MOORHEAD.

At St. Peter's Church yesterday morning a beautiful and impressive ceremony took place when the following candidates, who had already been ordained to the diaconate, were raised to the priesthood: Rev. Channel G. Hepburn, Rev. N. H. Snow, Rev. Cecil G. Stevens and Rev. W. H. Moorhead. There was a large and reverent congregation, the church being filled and the service began with the traditional hymn, "Ye servants of the Lord, each in his office wait," in which the choir of men and boys, the clergy and the venerable bishop, imposing in his scarlet robes, entered, the Rev. Dr. Parrock acting as the bishop's chaplain and carrying the staff. The clergy present were Rev. Canon Allnatt D.D., Rev. Principal Parrock D.D., Bishop's College; Rev. G. H. Parker, Lennoxville; Rev. H. M. Little, S.T.L., Montreal; Rev. James Hepburn, M.A., Richmond; Rev. Albert Stevens, M.A., Coaticook; Rev. Canon Shreve D.D., and Rev. Vere E. Hobart, Sherbrooke, together with the candidates.

The sermon was preached by the Rev. H. M. Little, S.T.L., of the Church of the Advent, Montreal, who took for his text Matt. 14-15, "The miracle of the loaves and fishes." "The importance of this miracle," he said, "might be gauged by the fact that every one of the four apostles record it. Out in the desert, where multitudes had followed our Lord, when the time came that they hungered the ordinary counsel was 'send them away.' Then came the command, 'make the multitude sit down.' Everything must be done quietly and with precision. They must sit down in their appointed places, there must be avenues among the multitude so the disciples can go in and feed them. That great crowd, comprising every kind of character and disposition, quietly took their places and the miracle is wrought—the bread is blessed and broken and put into the hands of the twelve who began their task to feed the people. It is not enough, but the bread is multiplied. What did it mean to these apostles? Surely it was to teach them that when they went forth on the apostolic mission they would find the multitude restless, hungering, and they would be provided with the bread of life. There must be a man to feed the hungry multitude. But there must be sitting down in the orderly household of God and there must be in those apostles a consciousness of their power to do as Christ did, to take all classes of people in all kinds of communities and make them sit down in the household in the Church of God. 'As my Father sent me even so send I you. There was their authority. Whose sins they do forgive they are forgiven; whose sins they retain, they are retained,' and so the church from the apostolic days to this time has been doing this same work—sending forth her clergy, acting with the commission and authority and power of Jesus Christ, not relying on their own personal endowments and powers of their own nature, but clothed with the power of God, the Holy Ghost, to go forth and do the work our Lord has committed to them. There must be an inner power which comes of conviction to do this work of gathering souls into the household of God and feeding them with the bread of life. The members of a parish should not let the clergyman feel that he stands alone. They also have been ordained to God's work when they kneel before the bishop in the rite of confirmation. There are many organizations which can be contacted by the laity, as well as by the clergy. And to you, my brothers, who Jesus Christ sends forth to-day, happy are ye that he has called you to this glorious work, because it is the one calling that brings you nearer to the heart of our Lord himself. Go forth to that work empowered by the gift of the Holy Ghost; go forth in courage to the work committed to your charge and be thus faithful in your calling, even until the end."

The service then proceeded in due order, the candidates being presented by Rev. Canon Allnatt, Dean of the Faculty of Divinity and Vice-principal of Bishop's College, Lennoxville. The litany and the ante-communion office was popular in SHERBROOKE.

The George Mestach mentioned in the above despatch was very popular during his stay in Sherbrooke, when he made flights in his monoplane at the Fair.

When the accident occurred the crowd surged out onto the field around the wrecked planes.

MESTACH'S STORY OF ACCIDENT

Mestach said that just before the monoplane in an effort to win the race, he had made a decidedly favorable impression on the audience. Miss Helen Baird as Flora McGilp, the maid, had a difficult part to play, but was equal to every demand. Mr. G. W. Robb, as Hugh Menzies, and Miss Lila Barclay as his wife, faultlessly sustained important parts. In fact, it would hardly be fair to criticize any one member of the cast, or say that one was better than another. They were all good and sustained their parts ably.

The play will be repeated this evening, when it is expected there will be a full house, as the production is certainly deserving of support.

The following is a list of the characters in the order of their appearance:

Oppie Oliphant Inglis, Miss Jean Evans; Flora McGilp, Miss Helen Baird; Mrs. Baikie, Miss Adah Barton; George Fow, Mr. J. Crichton Russell; Hugh Menzies, Mr. W. G. Robb; Shepherd, Mr. Fawcett Lomax; Leezie Inglis, Miss Agnes Bartholomew; Mattha Inglis, Mr. Carl Lyle; Jean Louther or Menzies, Miss Lila Barclay; Peter Dalkeith, Mr. Edward Chester; Miss Pringle, Miss Jean Hamilton; Tuffy Knot, Miss Marie Stuart; Mrs. MacAllister, Miss Jean Power; Village Natural, Mr. Angus Adams; Bridesmaid, Miss Kate Evans; Alec Inglis, Mr. Leopold Proffit; Watty Weir, Mr. Roy Cochran; Bernie Scott, Miss Helen Macgregor.

GOOD ADVICE

Mr. Editor of the Daily Record. I would just like to remark that anybody and nair especially Scotchmen in Sherbrooke or the country round about who has seen the "Scrape of the Pen" play, should make an effort to be there the night. It's the real thing. It will bring them back to the old days in Bonnie Scotland. Be sure and gang down to the theatre the night, Monday.

FALL KILLS ONE AVIATOR.

Geo. Mestach, Who Flew At Sherbrooke, Also Seriously Injured.

HOWARD GILL, DEAN OF CANADIAN FLIERS DIED FROM IN-

Chicago, Sept. 16.—One aviator was whirled to his death and another severely injured Saturday at Cicero Field.

Howard Gill, often called the dean of American fliers, was killed. His machine was in collision in midair with that of George Mestach of France, while the biplane and monoplane races were in progress. Both machines were sent crashing to the ground, 40 feet below.

Gill's machine tumbled over in the fall, collapsing like an egg shell, and the aviator was buried in the wreckage. The ruins caught fire at once and Gill was dying when he was picked up and started for St. Anthony de Padua's Hospital in the same auto that carried Paul Fack after his fatal accident.

Five thousand persons saw the accident which resulted in the death of Gill and the serious injury of Mestach. It came when the last event of the day's program, the biplane and monoplane race, was taking place in the fading light.

Four machines were in the air, three being grouped together in the fourth pylon of the course.

GILL'S MACHINE HITS MESTACH'S.

Eighty feet in the air was Anthony Jannus in a Tractor Benoist. Right under him was Mestach in a Borel monoplane, and a little lower was Gill in his machine.

Mestach was a tripe behind Gill and was endeavoring to pass above him as the American aviator rounded the fourth pylon. In the dim light few of the spectators were able to see exactly what occurred.

Gill's machine suddenly shot upward, directly in front of the machine in which Mestach was riding. A plane of Gill's craft hooked Mestach's machine. The two stood motionless for a fraction of a second and then both shot downward.

In falling Gill's machine overturned and when it struck the ground whirled over for 150 feet, finally burying Gill under it. He fell in such a way that he was pinned to the ground by his own engine. It was some time before Gill could be extricated.

Mestach was more fortunate. His machine fell nose first and the engine, instead of being a menace to him, served to break his fall. He was severely injured, however, and was taken to St. Anthony de Padua's Hospital.

When the accident occurred the crowd surged out onto the field around the wrecked planes.

SCRAPE O' THE PEN A DELIGHTFUL PLAY

Accurate Portrayal of Scottish Life.

WILL BE REPEATED AT HIS MAJESTY'S THEATRE THIS EVENING.

In these days when there is so much of the artificial in theatrical productions it is refreshing to see a play in which nothing but actual conditions are portrayed. Such a play is "The Scrape of the Pen," by Graham Moffat, author of "Banty Falls the Strings." A well-known local Scotchman, who was born and brought up in Scotland, was present on Saturday night, and after the play was over stated to the Record that every scene was the exact reproduction of common scenes in Scotland. "You can believe me when I say that everything was real," was his parting remark.

The production is a Scottish comedy in three acts and four scenes, and Saturday night was its first appearance in America. The play was first produced by Mr. Moffat at the Haymarket Theatre, London, on Wednesday, September 4th. The company now playing in America under the direction of Weber & Fields, was personally selected and rehearsed by Mr. Moffat in Scotland, and is composed exclusively of Scotch players, with the exception of one English woman who plays the role of a South African colonist.

"The Scrape of the Pen" is superior to any of Mr. Moffat's works in that he has given it a heart interest and an absorbing domestic story that has not been so dominating in any of his other works.

Coming back to the scenery once more, the kitchen scene is realistic in every detail, the essence of cleanliness and comfort. The best scene, however, is the one depicting the celebration of the birth of the new year in the Highland village of Minniehieve. It is a marvel of stage realism.

Another scene that brought back fond recollections to the minds of every Scot in the audience was the one in which Mr. and Mrs. Ingles and household were engaged in family worship.

The story of the play is historically interesting. The action takes place on the 31st of December, 1874 and in the early morning of January 1st, 1875. It portrays the old customs practiced by the Scottish people at New Year, known as "Hogmanay." The old legend of "the first fittin'" is pictured showing the desire of every home to have a dark man cross their threshold first after the advent of the new year, as good fortune would then be theirs.

Through the entire story the well-known tender heart of the Scottish mother is apparent, tempered with her equally well-known spirit of justice. It is difficult to tell the story in words, as the scenes and actions play such an important part in rounding it out.

In picking out the members of his company Mr. Moffat displayed rare judgment. Each member filled his or her part to perfection. Mr. Carlyle and Miss Agnes Bartholomew, as Mr. and Mrs. Ingles, carried off the honors of the evening. Artists of rare ability and supporting important roles, they both made a decidedly favorable impression on the audience. Miss Helen Baird as Flora McGilp, the maid, had a difficult part to play, but was equal to every demand. Mr. G. W. Robb, as Hugh Menzies, and Miss Lila Barclay as his wife, faultlessly sustained important parts. In fact, it would hardly be fair to criticize any one member of the cast, or say that one was better than another. They were all good and sustained their parts ably.

The play will be repeated this evening, when it is expected there will be a full house, as the production is certainly deserving of support.

Yesterday, the Festival of Our Lady of the Seven Sorrows, the annual visit of the different Roman Catholic congregations of the city to the cemetery took place, an immense number of the faithful assembling. Carriages, automobiles and street cars conveyed many hundreds to the God's acre on the hill, and the ceremonies were most solemn and deeply impressive. Mgr. Larocque, Bishop of Sherbrooke, standing near the great cross in the centre of the Cemetery, preached an eloquent sermon, both in French and English, dwelling on uncertainty of life and approach, sooner or later, of death, and the great necessity of being prepared for what must come to all mankind. The preacher's words were particularly appropriate in view of the sad accident which occurred almost at the moment of their utterance.

A Libera was sung by the massed choirs of the Cathedral, St. Jean Baptiste and St. Patrick's Churches, with splendid effect in the stillness of the autumn afternoon. THE REPORT ON IMMIGRATION.

Outline of the Recommendation of the Government's Commissioner—Co-operation Essential

The report on immigration by Mr. Arthur Hawkes, who was appointed a Special Commissioner by the Hon. Robt. Rogers, Minister of the Interior, to propose measures of co-operation between the Dominion and Provincial Governments contains a scheme of re-organization of the Immigration Department.

"Immigration to Canada," says the report, "is the crucial economic factor in the progress of the Dominion. Every financial responsibility that has been assumed for the development of Canada, whether in pledging public credit for railways or for civil expansion, or for industrial enterprise, has been assumed in expectation of a greater increase of population than the natural increase.

"Continuous immigration to keep pace with, and get ahead of continuous inflow of capital, is therefore a fundamental constructive necessity of government."

"The function of the Dominion is to demonstrate that the interests of the provinces are not antagonistic but complementary. A scheme is required by which the provinces will uphold the major responsibility where the provincial interest is primary, and the Dominion will carry the major responsibility where the credit and effect of Canada as a whole are the paramount concern.

ROYAL DIVORCE

Behind the announcement from Madrid that the Infanta Eulalia of Spain is shortly to marry Jules Bois, the well-known French writer, is the shadow of Royal divorce. It is asserted that the Infanta Don Antonio of Orleans, husband of the Infanta Eulalia, is seeking a divorce and that to that end efforts are being made to obtain French nationality for the estranged couple. The Infanta Eulalia recently published a book of memoirs, which was the subject of an incident between her Royal Highness and her nephew, King Alfonso. She is credited with the intention of publishing another book explaining her past and present attitude.

EX-M.P.'S ESTATE

Royal Relics Bequeathed by Sir Arthur Otway. Sir Arthur Otway, of London, who died leaving an estate of about a quarter of a million dollars, bequeathed some interesting relics to his daughter. Among other articles were a telescope given to his father by Lord Nelson; an engraved portrait of King Edward VII, when Prince of Wales and the Dowager-Empress of Germany, then Princess Royal of England, given to his father by the Prince Consort by command of Queen Victoria; an engraved portrait of Queen Adelaide given by her to his father; a silver teapot given by Queen Adelaide to his late sister Adelaide; a silver vase with inscription presented to his father by Louis Philippe, King of the French, in recognition of his services in the Mediterranean; a silver statuette presented to him by his constituents on the passing in the House of Commons of his resolution for the abolition of flogging in the Army.

STRANGE EXECUTION

There were remarkable scenes at Blackburn, England, in connection with the execution of a weaver of the name of Arthur Birkett, who killed his sweetheart through reasons of jealousy. The vicar held a service in the house in which Birkett had resided, which was very impressive. Among those present was the mother of the murdered girl. A table in the centre of the room was covered with floral tributes. Outside the house a crowd of several hundred collected, and on the stroke of the fatal hour, when the drop fell, began singing "Nearer, My God, to Thee."

GUNFIRE FROM BI-PLANE

Successful Test Made While 400 Feet up in Stiff Breeze. Experiments with a quick-firing gun in an aeroplane made by the Royal Flying Corps of Farnborough proved entirely successful and are regarded as another step in the advance of the aeroplane and waterplane as a means of land and sea defence. The test with the quick-firing gun was made in a stiff breeze, at a height of 400 feet. Some twenty rounds of ammunition were fired at imaginary objects on the plane directly beneath the aeroplane. The result had little effect upon the machine. The biplane used was built in the army factory and was specially strengthened in order to carry the weight of the gun and ammunition. The gunner sat in a box-shaped seat in front of the pilot, and had a clear view of the gun, which worked on a pivot and could fire in all directions. As the trial proved so satisfactory, several more biplanes will be equipped with guns. Already provision has been made to carry bombs in most of the army biplanes as a result of experiments at Farnborough.

GUNFIRE FROM BI-PLANE

Successful Test Made While 400 Feet up in Stiff Breeze. Experiments with a quick-firing gun in an aeroplane made by the Royal Flying Corps of Farnborough proved entirely successful and are regarded as another step in the advance of the aeroplane and waterplane as a means of land and sea defence. The test with the quick-firing gun was made in a stiff breeze, at a height of 400 feet. Some twenty rounds of ammunition were fired at imaginary objects on the plane directly beneath the aeroplane. The result had little effect upon the machine. The biplane used was built in the army factory and was specially strengthened in order to carry the weight of the gun and ammunition. The gunner sat in a box-shaped seat in front of the pilot, and had a clear view of the gun, which worked on a pivot and could fire in all directions. As the trial proved so satisfactory, several more biplanes will be equipped with guns. Already provision has been made to carry bombs in most of the army biplanes as a result of experiments at Farnborough.

ROYAL DIVORCE

Behind the announcement from Madrid that the Infanta Eulalia of Spain is shortly to marry Jules Bois, the well-known French writer, is the shadow of Royal divorce. It is asserted that the Infanta Don Antonio of Orleans, husband of the Infanta Eulalia, is seeking a divorce and that to that end efforts are being made to obtain French nationality for the estranged couple. The Infanta Eulalia recently published a book of memoirs, which was the subject of an incident between her Royal Highness and her nephew, King Alfonso. She is credited with the intention of publishing another book explaining her past and present attitude.

NEW MEMBERS OF PROTESTANT COMMITTEE.

Quebec, Sept. 16.—Orders-in-Council have been passed by the Lieutenant-Governor, appointing Mr. Robert Bickerdike, M.P., of Montreal, Mr. W. H. KILLED AT LEVEL CROSSING.

Quebec, Sept. 16.—By being struck by an I.C.R. train at Trois Pistoles, Joseph Gagnon and Arsene Puellet, of Trois Pistoles, were instantly killed. The accident occurred at a level crossing, and the two men, who were driving along the road, attempted to cross before the train came along, with the result that the horse and both men were instantly killed, and the vehicle was reduced to splinters.

ELDERLY FOLKS? CALOMEL, SALTS AND CATHARTICS AREN'T FOR YOU

Harmless, gentle "Syrup of Figs" is best to cleanse your stomach, liver and bowels of sour bile, decaying food, gases and clogged-up waste. You old people, Syrup of Figs is particularly for you. You who don't exercise as much as you need to; who like the easy chair. You, whose steps are slow and whose muscles are less elastic. You must realize that your liver and ten yards of bowels have also become less active. Don't regard Syrup of Figs as physic. It stimulates the liver and bowels just as exercise would do if you took enough of it. It is not harsh like salts or cathartics. The help which Syrup of Figs gives to a torpid liver and weak, sluggish bowels is harmless, natural and gentle. When eyes grow dim, you help them. Do the same with your liver and bowels when age makes them less active. There is nothing more important. Costive, clogged-up bowels mean that decaying, fermenting food is clogged there and the pores or ducts in these thirty feet of bowels suck this decaying waste and poisons into the blood. You will never get feeling right until this is corrected—but do it gently. Don't have a bowel washday; don't use a bowel irritant. For your sake, please use only gentle, effective Syrup of Figs. Only you are not drugging yourself, for Syrup of Figs is composed of only luscious figs, senna and aromatics which cannot injure. A teaspoonful to-night will gently, but thoroughly, move on and out of your system by morning all the sour bile, poisonous fermenting food and clogged-up waste matter without gripe, nausea or weakness. But get

McInnis in town. Mrs. Thomas Gilpin, from Berlin, N.H., has been visiting the family of Mr. Thos. Livingston on the Capetown Road. Mr. Ernest Armstrong, who was the guest recently of Mr. and Mrs. D. W. Armstrong, Montreal street, has returned to his home at Revere, Mass. Mr. Robert W. Elkins, of East Orange, N.J., is the guest of Mrs. W. Amherst Hale at "Sleepy Hollow," Brompton Road. Mr. and Mrs. Walter Cady, of Rock Island, are the guests of Mr. and Mrs. Wells J. Bean at "Maplewood Farm," Brompton Road. Mrs. John Reid, of Leeds, accompanied by her son, is the guest of Mr. and Mrs. John R. Andrews, Prospect street. The marriage is announced to take place on Wednesday, 18th inst., of Miss Sara Hall, only daughter of Mrs. Wm. Hall, to Mr. Geo. H. Parsons, of this city. The Right Rev. Dr. Dunn, Bishop of Quebec, returned to the Ancient Capital to-day after officiating at the ordination service at St. Peter's yesterday. There will be a meeting of the Y. L.A. of St. Andrew's Church in the Church Hall on Tuesday evening at 7.30 o'clock. As it is the first meeting of the new year, all members are requested to be present. Mrs. Thos. R. Scott, Miss Scott and Miss Beard, of Augusta, Ga., and Mrs. J. W. Warren, of New York, who have been at North Hatley for the summer, were in town for the week-end, guests at the Magog House. So great an interest is being taken in the production of "A Scrape of the Pen" at His Majesty's to-night, more especially by our Scotch citizens that a double quartette, composed of the very best Scotch singers, will sing the songs by Auld Scotia between the acts. On Monday, September 9th, the funeral took place of Mrs. Anastasia Thout, wife of Nazaire Thout, of 55 Windsor street, East Sherbrooke. Rev. Father Laporte presided at the funeral service. The bearers were Messrs. Provost, M. Janelle, J. Brault, H. Prevost, P. Desjardins and Thos. Coley. Among the members of the family and relatives present were Arthur Thout, J. Thout, E. Thout, P. Thout, sons; Mrs. P. Desjardins, Mrs. A. Cateau, Mrs. G. Harper, Mrs. A. P. Coley, daughters; Mr. F. Prevost, Mr. J. Provost, Mr. J. Provost, Mr. H. Provost, Mr. and Mrs. C. Thout, Mdm. M. Charbonneau, the Misses A. Leblanc and P. Desjardins, Mrs. Joseph Thout, sr., and Mrs. Frank Provost. Mrs. A. Thout, Mrs. L. Provost and others from the States. The interment took place at St. Michael's Cemetery where a large number of friends were present. A Woman Contractor Mrs. Margaret Kelly is described as Boston's only woman contractor. She has been in the business more than seventeen years, and has brought up six children. "Before my marriage I was a dressmaker," Mrs. Kelly said. "My husband owned a small mill and contracting business, and I looked out for the milk end of the work. At death, when my children were quite small, it didn't take me long to concentrate on the contracting business. There's nothing mysterious about the business, and there's no reason why a woman shouldn't be able to figure on a contract as well as a man. Any bright girl who makes up her mind to win can do it." Mrs. Kelly declares that she has never been discriminated against because she is a woman, and that people who know she does good work are always willing to give her an equal chance with men contractors. Helping the Children Miss Clara Grant is at the head of an unusual settlement which was opened in Bromley-by-Bow, London, England. Miss Grant and her fellow workers, most of whom are trained nurses, concern themselves only with the families of children attending the school of that district. Daily treatment is given any number of these families by the nurses in the schools, their homes, or the settlement house. That even the youngest may have its chance at health and strength a nurse visits every new baby born in the school group of families. During the first year these babies are visited at least once a month. Another trained nurse runs a sick club and pays special friends visits in cases of troubles of a serious nature. There are four weekly sales of clothing to parents and a working bureau for those who are unable to pay in money.

HAYES DISMISSED FROM N. Y. POLICE

Police Inspector Found Guilty After Hearing Evidence.

OFFICER IS ALLEGED TO HAVE MADE FALSE CHARGE AGAINST COMMISSIONER.

New York, Sept. 16.—Cornelius G. Hayes, the demoted police inspector who was recently placed on trial for making a statement alleged to be false, reflecting on Police Commissioner Waldo, was found guilty of the charges on Saturday and dismissed from the department. First Deputy Commissioner McKay who presided at the trial, announced his findings this afternoon.

The statement by Hayes which led to his demotion from the rank of inspector to captain and his suspension from duty was made in the presence of four other inspectors at police headquarters and was to the effect that Waldo had enjoined him from raiding disorderly houses without express instructions. Hayes thus declared himself not long after the murder of Herman Rosenthal, the gambler, at a time when there were inquiries afoot to determine what the police were doing to better conditions in the "Tenderloin."

At the trial Hayes reiterated this statement and defended his course on the ground that he was carrying out what he understood to be Mayor Gaynor's policy of "outward order and decency." Records were introduced to show that in so acting Hayes had not raided a disorderly house since February last.

KING MISTOOK HIS MAN.

London, Sept. 16.—King George in a recent message of congratulation to airman S. F. Cody, addressed him as Colonel, apparently confusing him with Buffalo Bill. Cody seized the opportunity thus afforded and makes the interesting announcement that henceforth he will adopt the title permanently. HOUSEBREAKER GETS LARGE HAUL

St. Sebastien Merchant Had \$500 Stolen From House.

HIGH CONSTABLE BOISVERT IS ON TRAIL OF THE CULPRIT.

Sweetsburg, Sept. 16.—(Special)—High Constable Boisvert has a case of housebreaking on hand at present. Last Thursday night the dwelling house occupied by Mr. Courveau, merchant, St. Sebastien, Que., was entered and money to the amount of about \$500 stolen. The burglar, for it is believed to be the work of one person, gained an entrance through a cellar window, and after securing the booty left by a door which he unlocked.

The money stolen was in a tin box, in which Mr. Courveau also kept his cheques and other valuable papers. This box was in the room adjoining his sleeping room, and he did not learn of the robbery until he got up in the morning.

Later in the day the tin box, with cheques to the value of \$200 and other papers, was found lying by the roadside not far from the house.

Before retiring Mr. Courveau says he went round the house and saw that everything was secure.

The robbery is believed to be the work of someone well acquainted with the premises, and the fact that Mr. Courveau kept large sums of money in the house.

The High Constable is of the opinion that he will be able to bring the culprit to justice.

NAVAL APPRENTICES WERE DROWNED

Five Lost Their Lives and Five Are Missing.

LADS WERE OUT IN A CUTTER ON LAKE SUPERIOR WHEN ACCIDENT OCCURRED.

Chicago, Sept. 16.—Five naval apprentices were drowned and five are missing as the result of the capsizing of a cutter from the United States Naval Training Station at North Chicago, Ill., late yesterday afternoon. The bodies of five victims were recovered and identified, and it is believed that the five boys unaccounted for were drowned.

The party, in which were 24 apprentices, left the training station shortly after 2 o'clock in charge of Gunnery Mate Negis, and after cruising about for two hours headed for North Chicago.

A few minutes later, while the cutter was north of Lake Forest, a squall struck the boat, the sails were lowered and an anchor was thrown out. Negis, it is said, planned to let the cutter ride out the storm, but the waves soon were running so high that the boat dragged its anchor and gradually was being driven on to the shore.

When about 200 feet from the shore the boat was upset and the occupants thrown into the water.

PEACE NEGOTIATIONS ARE DECLARED OFF

No Prospect of Settlement Between Italy and Turkey

TURKISH DELEGATES HAVE LEFT FOR SWITZERLAND ON THEIR WAY HOME.

London, Sept. 16.—The Constantinople correspondent of the Daily Mail telegraphs that he has word that the unofficial negotiations for peace between Turkey and Italy, which have been proceeding in Switzerland, have been broken off, and the Turkish delegates are on their way home.

The final obstacle was Italy's insistence on the proclaiming of the independence of Tripoli and Cyrenaica by Turkey after which Italy was to declare these "independent" countries to be annexed by herself. This was the furthest concession which Italy would make to Turkey's determination not to recognize the annexation already proclaimed.

FIERCE FIGHT ON FOOTBALL FIELD

Sixty Persons Injured in Row in Belfast, Ireland.

FLAG WAVING CAUSED COUNTER DEMONSTRATION WITH RIVAL SUPPORTERS.

Belfast, Ireland, September 16.—A fierce fight was waged in the Celtic Park football grounds Saturday afternoon, in which sixty persons were severely injured, two of them being in a critical condition. Five of the injured are suffering from shot wounds.

The fight took place at half-time in a game in the league series between the Belfast Celtic team and a team representing Linfield. The Linfields were leading by a score of 1 to 0. Some Celtic supporters unfurled a green and white flag and started to parade. Linfield partisans displayed a Union Jack. Immediately stones, bricks and clinkers were hurled through the air. The police were powerless. Men were seen falling bleeding in all directions. The opposing mobs, thousands strong, surged toward the playing pitch where a regular battle was fought in full view of the spectators in the grand stand.

The report of a revolver caused a lull and many left the grounds, but the stone throwing was soon resumed both inside and outside the grounds. More revolver shots were fired, but police reinforcements arrived and separated the mobs.

Ambulances were summoned and started to remove the injured lying on the field, some of whom were in a shocking state, covered with blood. Altogether 25 persons were taken to the hospitals.

NEWTON PROTESTS THE GRAND TRUNK

Engineers Ran a Line That Bisects The Municipality.

HOMES, LARGE ESTATES, AND CHURCH AND SCHOOL THREATENED WITH EXTINCTION.

Boston, Sept. 16.—A storm of protest has been created in Newton since it became known that engineers of the Grand Trunk Railway have surveyed a line that practically bisects the city from north to south. Homes, large estates, a church and a school are threatened with extinction if the railway is built along the line of survey and it is probable that concerted action may be taken by the citizens at an early date.

The line enters from West Watertown, passing through Newtonvale, Newton Centre, Newton Highlands, Newton Upper Falls and the Oak Hill section, finally running into West Roxbury on a line parallel with the Brookline boundary. From there the survey swings toward the Neponset River and in the direction of South Boston.

In one of the districts of Newton that are affected legal opinion has been advanced that the engineers who staked out the survey have violated the wording of the statute empowering the Southern New England Railroad Corporation to locate in this vicinity.

TEN DEGREES OF FROST IN ALBERTA

Actual Damage Cannot be Told Just Yet.

ALL THE WHEAT AND OATS HAVE BEEN OUT IN PROVINCE OF SASKATCHEWAN.

Winnipeg, September 16.—Ten degrees of frost were registered on Saturday night in Alberta and Saskatchewan. Manitoba escaped this severity of the cold following the rain. While it is really impossible to tell the actual damage done until the farmers get to the fields and report to-day there does not seem much fear about it. A warm wave too is likely to succeed and threshing will commence, meantime the cutting is far advanced and in Alberta the flax harvest has begun. Saskatchewan has practically all wheat and oats cut. While some backward wheat and uncut oats may be affected by Saturday's frost and a likely one last night, it is not believed much damage will accrue even to the wheat in stock. No sprouting is reported to any extent in any province from the west, mostly the complaint is the delay in the threshing.

All parts report coolness last night and anticipate a frost possibly not so severe as Saturday night.

PREMIER GOUIN GOES WEST

EUCCHARISTIC CONGRESS IS OVER

Vast Crowds Witnessed Procession in Downpour of Rain.

SPLENDOR OF THE DAY WAS PARTIALLY MARRIED BY UMBRELLAS CARRIED BY CATHOLIC SOCIETIES

Vienna, September 16.—The brilliancy of the great procession concluding the twenty-third Eucharistic Congress yesterday was greatly marred by a continuous downpour of rain and a chilly temperature. From seven o'clock in the morning until one in the afternoon, when the Emperor followed by Papal Legate, Cardinal Von Rossum, with the Host through the Burgtor, rain fell unrelentingly, drenching many thousands walking in the procession as well as the thousands of spectators along the route.

Farts of the parade showed little but the tops of umbrellas, beneath which tramped Catholic societies, clergy, venerable bishops in full canonicals, and others through mud ankle deep and under such conditions that it was impossible to hold the celebration of mass in the open air on the top of the Burgtor court, as was intended. The procession simply passed through the Helden-Platz from the Ring-Strasse into the inner court of the Hofburg, where the Papal legate, the cardinals, the Emperor, and Archduke Franz Ferdinand entered the Hofburg chapel and deposited the Host.

Vast crowds, principally women, lined the route from the Cathedral of St. Stephen to the Hofburg, standing patiently for hours for the procession to pass. The weather cleared somewhat for a few minutes while the court division, which started at noon, passed, enabling the spectators to enjoy an extraordinary imposing pageant.

HAYWOOD, LABOUR LEADER, ARRESTED

Charged With Conspiracy in Connection With Lawrence Strike

STRIKE OF NEW ENGLAND WORKS AS A PROTEST.

Lawrence, Mass., Sept. 16.—(Special)—William D. Haywood of Denver, Colo., general organizer for the Industrial workers of the world is prepared to appear in Court here today to answer to an indictment charging him with conspiracy in connection with the big textile strike here last winter. His arrest occurred yesterday afternoon after a mass meeting on Boston Common to protest against the jailing of Ettore Giovannitti and Caruso, leaders in the recent textile strike.

Attorney Fred H. Moore of Los Angeles, who will defend the strike leaders, was prepared to represent Haywood in Court.

Just before his arrest, Haywood in addressing a mass meeting of 15,000 persons on Boston Common, had sounded a call for a general strike of New England workers. It will be a nation-wide movement, he said, as a protest against the "Arrest, imprisonment and trial of Ettore, Giovannitti and Caruso."

These three I. W. W. leaders, who were active during the Lawrence strike, are charged with complicity to murder in connection with the shooting of striker Anna Lopizzo during the riot in Lawrence last January.

NEW ZEALAND'S DEFENCE ESTIMATES

Nearly Half a Million Sterling Has Been Appropriated.

MINISTER SAYS THE DAY OF COMPULSORY TRAINING HAS PASSED AWAY.

London, Sept. 16.—The Wellington correspondent of the Times says the defence estimates amounting to \$4,000,000 have been passed. In reply to complaints of extravagance, Mr. Allen, Minister of Defence, said that Lord Kitchener's estimate was exceeded owing to initial non-recurrent expenses for equipment. He was satisfied that when fully working the £400,000 limit would be observed. Mr. Myers, Minister of Finance, in the previous cabinet, concurred and declared that compulsory training had passed the experimental stage and this was largely due to the experience tact and wholeheartedness of General Godley. An amendment extending the privileges of conscientious objectors was rejected by 69 votes to five. The minority included three members of the Labor party. The fourth declared that the allegation that labor organizations were generally opposed to compulsion was utter nonsense and denied that the workers were so disloyal as to refuse to share in the defence of their country.

NEW CUSTOMS CRUISER.

Ottawa, Sept. 16.—It is expected that a Government contract for the construction of a new customs cruiser to be placed upon the St. Lawrence will be announced shortly. The vessel, which will cost from \$350,000 to \$400,000, will be constructed by one of the well-known Clyde ship building companies, the details of the contract having been, it is said, prac-

FOUR PERSONS MET DEATH

SWEPT OVER ONONDAGA LAKE AND TOWN OF SALANA YESTERDAY AFTERNOON.

Syracuse, N.Y., Sept. 16.—(Special)—Four persons met death, two others are missing, and fifty were injured by a tornado that swept over Onondaga Lake and the town of Salana, adjoining this city late yesterday afternoon.

The property loss will exceed half a million dollars.

The known dead are: R. Hein, of Colamer; C. W. Dopp, of Fulton; Charles Chapman of Cicero; William Madison, of Salina.

Mr. and Mrs. C. H. Madison of this city, who were canoeing on Seneca River, have not yet been found. It is feared that they were caught in the storm and probably drowned.

tically completed. The new cruiser will be specially built for speed and will be efficiently armed for all needs of the service. The minister of customs intends to have ample provision for enforcing the customs laws in the St. Lawrence.

PICKPOCKETS AT RICHMOND

South Dunham Farmer Relieved Of \$60.00.

WAS WAITING IN FAIR CROWD AT RICHMOND STATION WHEN "TOUCHED."

Richmond, Sept. 16.—(Special)—Mr. Thos. C. Lyster, of South Dunham, had his pocket picked and relieved of \$60 in bills while standing in the crowd at the station here on Friday afternoon. He had attended the fair grounds and was waiting for the west bound train at 5 o'clock, when the "dip" got next to him.

It was not until some time afterwards that the money was missed.

So far as can be learned this is the only case of pocket-picking during the two days' fair.

P. O. CLERK SENT TO PENITENTIARY.

Quebec, Sept. 16.—Leon Blondin, an employee of the Quebec Post Office, was Saturday morning sentenced to three years in penitentiary for theft. Blondin, who had been suspected of late, was closely watched, with the result that he was caught stealing a letter containing the sum of \$2.50.

In the Court of Sessions he pleaded guilty to the charge and was sent up for three years.

IMMUNITY FOR M. P.'S.

Budapest, Sept. 16.—The Hungarian Premier, Herr Lukacs, in an interview Saturday said that the Government would introduce a bill securing for the deputies immunity from arrest. He added, however, that a parliamentary guard would be placed at the disposal of the President to enable him in case of disturbances in the chamber to preserve order without calling in the police.
