Sweetburg, June 21.—The trial in the
Brome county election case, which
resumed here on Monday, before the
Hon. Mr. Justice Archibald, came to
a sudden termination by the respondent
throwing up the sponge and admitting
bribery by agents sufficient to annul
the election.
This action on the part of the Hon.
C. C. McCorkill was unexpected. It will
be remembered that when the election

TORONTO NEWS CALLS FOR RESIGNATION OF SIR FREDERICK BORDEN

In yesterday's edition, the Toronto
News, commenting editorially on Lord
Dundonald's statement, called for the
immediate resignation of Sir Frederick
Borden unless he can clear himself from
the direct charge of falsification which
now lies against him. The editorial
reads as follows:

Lord Dundonald's statement im-
mensely increases the gravity of the
entire transaction which has involved
his dismissal. The position of the Gov-
ernment was awkward enough last
week. The accusation now is far more
serious. Of immediate and grave im-
portance is the charge of deliberate false-
hood laid at Sir Frederick Borden's
door. Behind that lies the deliberate
assertion that the Ministry, while
spending two million dollars a year on
nominal defence, has refused to take
practical measures to enable the coun-
try to protect itself. So little has it
cared for the national safety that it
has made a practice of regarding the
militia as a fit subject for political pat-

HIS DROWNING IS FEARED

Organized Search for Him Along the
Lake Falls to Reveal Any Trace
of Him.

What is apparently to prove another
of those sad drowning accidents which
only too often plunge a summer colony
in sadness, is reported from Beau-
repaire.
Mr. Wilfrid Maclean, son of Mr.
John Maclean, St. Matthew street, has
been spending some days with a num-
ber of friends at Beaurepaire.
About 11 a.m. Saturday morning, Mr.
Maclean, unaccompanied, set out in
a canoe rigged with a sail. Shortly after-
wards, he was noticed paddling about

and eastern division, was postponed
until July 18th, to be held in Taylor

Royer Struck the Blow.

At last night's inquest concerning the
death of John Whalley, of St. Armand
East, who died in the General Hospital
on Sunday morning, the coroner's jury
returned a verdict to the effect that
Whalley died from the effects of a blow
on the head from a hammer in the
hands of Elise Royer, a brother-in-law
of the deceased. Royer admitted to
High Constable Bolsover, of the dis-
trict of Bedford, that he had struck

Landlord Pays Damages.

A judgment of interest to tenants
and landlords was decided by Mr. Jus-
tice Curran yesterday, when he con-
demned Albert E. Brown to pay Hugh
McEnery \$100 damages for injury to
furniture and wearing apparel belong-
ing to plaintiff, who was a tenant of
the defendant. The spout carrying the
rain from the roof was in bad repair
and the landlord refused to fix it, say-
ing that it was the business of the
tenant to arrange the matter. The
Court took a different view and
ruled that the landlord for damages.

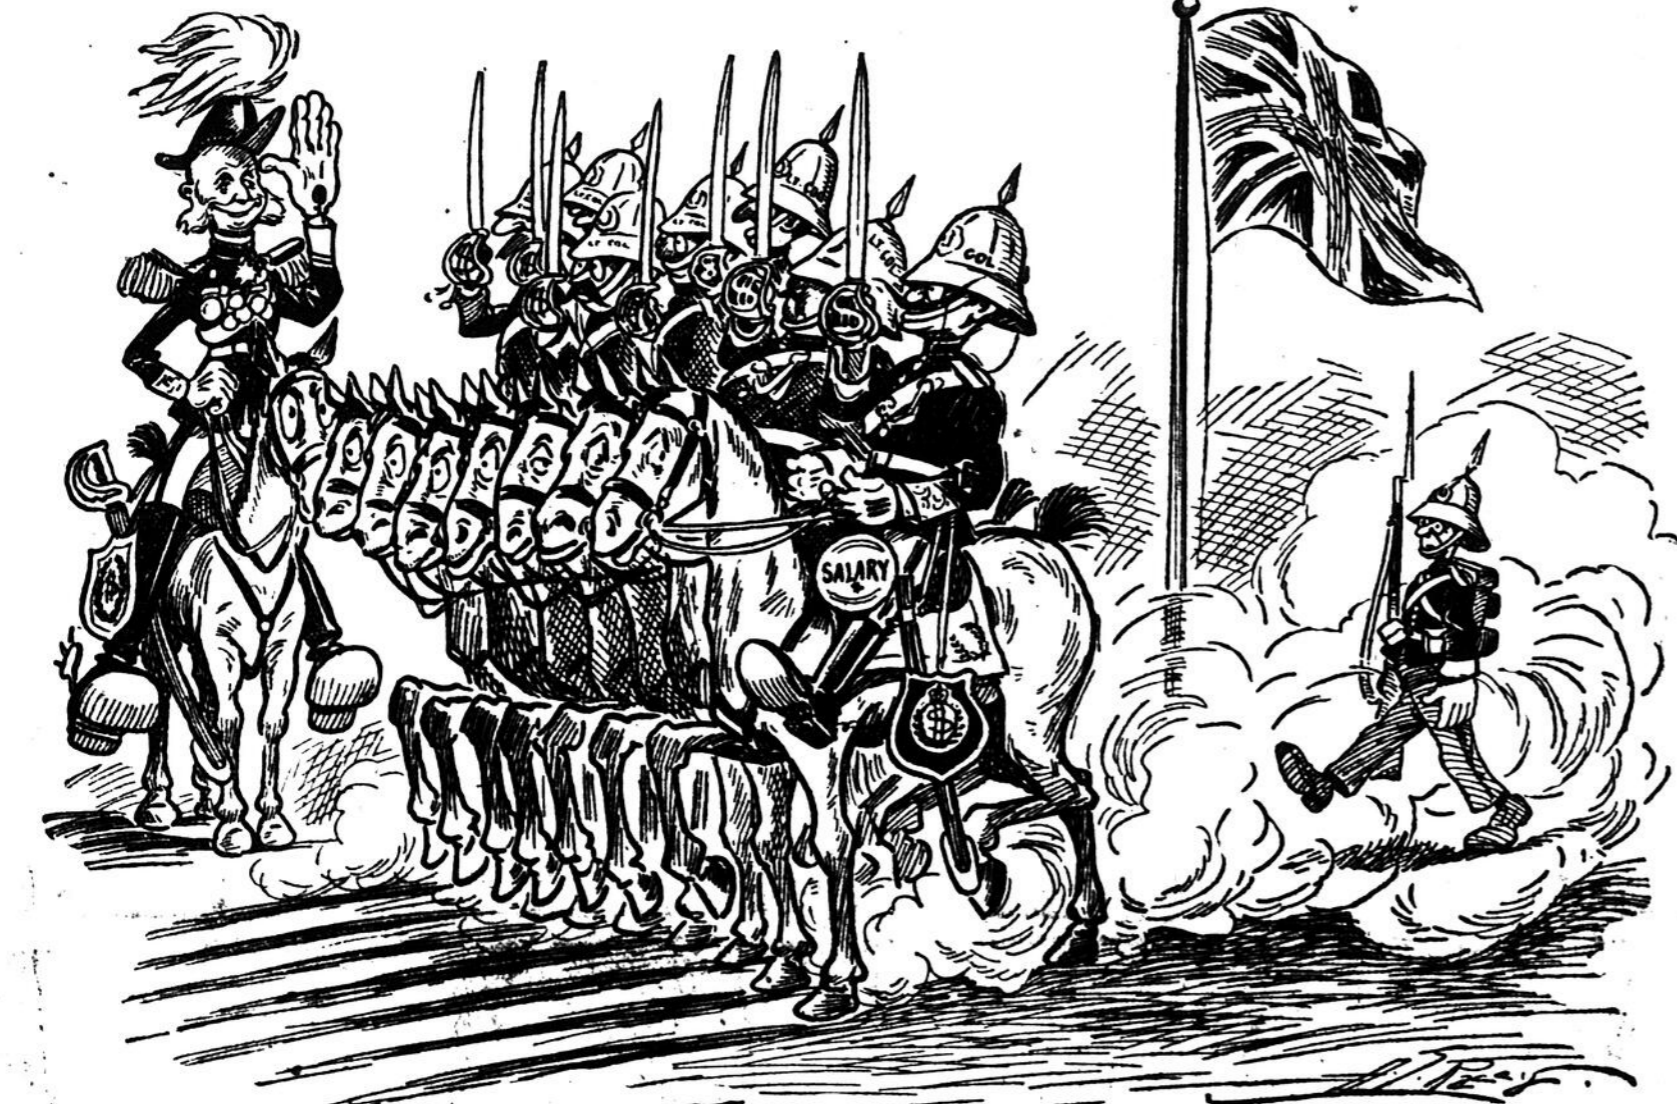

BIRD DONE TO DEATH.

Victim of Vicious Sparrows in Viger
Square.

For some weeks past pedestrians
crossing Viger Square have been in-
terested in observing the fittings of a
small bird of milk-white plumage, fre-
quently the mate of one of the
large birds. Invariably when it made
its appearance it was attacked by
numerous sparrows who did not re-
cognize in this strange freak of na-
ture one of their own kind and kin. It
was an exceedingly pretty bird and
evidently not long out of the nest.
Whether from motives of jealousy or
not the whole tribe of sparrows were
evidently antagonistic and never failed
when opportunity offered to peck
at the supposed interloper. On Satur-
day morning the body of the friend-
less bird was found floating on the
water.

SIR FREDERICK BORDEN REVIEWS HIS "ORDINANCE CORPS."

annulment of his election, he was re-
peatedly reported by the Liberal press
as having declared in personal inter-
views, that no corruption whatever took
place and that his election was the free
expression of the electorate of Brome.
Something has since changed the hon-
ourable gentleman's opinion, and from
now until the case comes up for final
disposal before the Court of Review in
Montreal, the Provincial Treasurer will
be holding his appointment through a
mandate of the people confessedly ob-
tained by bribery and corruption.
A resignation would be in order, but
it must be remembered that the pro-
vince is under a Liberal Government
and an excuse for any action of one of
its members, however reprehensible,
will no doubt be advanced.
The petitioner, in view of the uncer-
tainty of clearly establishing personal
charges, did not insist upon that branch
of the petition, and the respondent is
therefore entitled to all the benefit aris-
ing from that position of the case. But
the important fact remains that the
local election in Brome was carried
confessedly by illegal and corrupt in-
fluences, a fact that is more regrettable
in view of the profession of purity so
loudly proclaimed on behalf of that
constituency.

DETAILS OF PROCEEDINGS.

The charges in the case were made
by Albert J. Dyer and William Cor-
ley, of Sutton.
Judge Archibald, of Montreal, sat on
the bench instead of Mr. Justice Lynch,
who was ill at the time. The hearing
began last spring. The petitioners
were represented by Messrs. Baker and
Baker, of Sweetburg, while the re-
spondent pleaded his own case, with
the assistance of his partner, Mr.
K. McKewen and Ernest Racicot,
K.C.
The forenoon was taken up with the
hearing of several objections. The
respondents first made a motion to
number the paragraphs of the peti-
tioners' allegations. His Lordship in
recognizing the importance of this
measure ruled that the numbering be
made as the case went along. Mr. Mc-
Corkill then moved to have the bill
of particulars dismissed on the ground
that the alleged corrupt practices were
not sufficiently specified.
At the afternoon session, Judge Ar-
chibald refused to give any decision
on this motion for the time being, and
ordered the trial to proceed, general-
ly reserving to the respondent the
right of refusing to answer any al-
legation not sufficiently specified. Where-
upon Mr. McCorkill, after taking ex-
ception to this ruling, submitted an
admission to the effect that corrupt
practices were carried on without his
knowledge by agents, but maintaining
the objection regarding personal re-
sponsibility.

THE JUDGE'S DECISION.

After some discussion Judge Archi-
bald maintained that such an admis-

ronage. The personal issues between
Lord Dundonald and the Ministers sink
into insignificance beside the great
question thrust before the people of
Canada.
Sir Frederick Borden could hardly be
in a worse position. He repeatedly has
asserted that Part II. of Lord Dun-
donald's first annual report was a se-
cret and confidential document. Lord
Dundonald, in the most explicit terms,
told the public that the report, so far
from being secret, was intended for
publication. That means that Sir Fre-
derick Borden lied—lied from his seat
in the House, lied in an official state-
ment to the House of Commons, and
lied to the public. Unless the Minis-
ter of Militia can clear himself from
this charge, he must retire from public
life. We hardly can conceive Sir Wil-
frid Laurier retaining a cabinet
whose honour has been so fatally
compromised.

Of more permanent importance than
Sir Frederick Borden's case is the fac-
tured upon the people of Canada, that
their land is defenceless. Lord Dun-
donald's assertion cannot be gainsayed.
We have less than 40,000 rifles. We
have not cartridges enough to fight one
day's battle. Our great North-west is
bare. If our present militia force were
ordered out, the men would die by hun-
dreds of the hardships caused by the
lack of equipment.

Previous governments did little for
the defence of the country. Present
governments, however, lived in the old-
era of dependence on Great Britain.
In their times, moreover, the revenues
of the country were narrow and pinched,
and something may have been said
for a policy of trusting to British help
to put every available dollar into
development work. The Government
has held office during a period of na-
tional expansion and self-confidence. It
has held its head high in its dealings
with the Motherland. It has talked
of demanding the treaty-making power.
It has had abundant revenues. For-
mer governments had no military equip-
ment, cannon enough, equipment
enough, to enable her own sons to sa-
feguard themselves.

SHOT BY A CONSTABLE.

Policeman Fires at Stone Wall and
Hits Escaping Prisoner.

Constable Melin was on duty on the
wharves last night and he saw a man
carrying away a box of lemons from
the Thomson line. He gave chase,
and the man ran. A warning to stop
was not heeded, and the constable
then fired his revolver towards a
stone wall, with the intention of
frightening the man. The constable's
surprise may be imagined when he
saw the man drop. The bullet hit the
wall and glanced off struck the flee-
ing man in the back of the head. He
was taken to the Notre Dame Hospi-
tal, where it was found that the
wound, though painful, was not seri-
ous, and he was able to appear in
court to-day. He gave his name as
Joseph Lachance. When arraigned
yesterday before Judge Lafontaine he
pleaded not guilty. He will be tried on
Wednesday.

MR. E. S. CLOUSTON,

A MINTO CUP TRUSTEE,
DISCUSSES SITUATION.

Expresses Interesting Opinion
About the C. A. A. U. Rule
Which Will Professionalize
Brantford. — Refers to the

Against Professionals.

For the first time in the history
of the Minto Cup, embel-
lomatic of the Lacrosse Cham-
pionship of the World, has an-
other Trustee besides Mr. E. S.
Ross, of Ottawa, cared to make
a statement about the troubles
which at different times have
attended the big trophy.

Mr. E. S. Clouston, the gen-
eral manager of the Bank of
Montreal, who is co-trustee
with Mr. Ross and Sir Henry
Joly, Lotbiniere, in a
statement to-day to The Star
which will be read with great
interest, particularly on account
of his reference to professional-
ism.

When Mr. Clouston was asked
for his opinion, more particu-
larly in regard to the position
of the Shamrocks, who have no
desire to shirk the duty of play-
ing Brantford because they
have been challenged to do so,
and who yet do not want to be
professionalized, he replied:

"As I have but lately returned
from Europe and have not had
much opportunity to look into
the matter, it is difficult for me
to express an opinion. At the
same time, the ruling by which
Brantford has been or is going
to be professionalized seems to
me a rather peculiar one, name-
ly, the professionalizing of an
amateur team, and the playing
against another team upon
which there were some profes-
sionals."

"When I played cricket, we
often played against profes-
sionals without jeopardizing our
amateur standing.

"The matter of going to talk
to the matter over carefully with
Mr. Ross."

Royals in First Division.

Montreal started the season in the lead and remained there for weeks. Then they began to climb and have steadily ascended until they are now in the first division.

At this time they have been seeking new blood to strengthen the outfit. They took revenge from Newark, which was one of the teams that they had found particularly tough, and one which had basted them right in Montreal, too.

Four scattered hits were all that Newark could get out of Pappalau, while seven came to Montreal, and they were placed where they were as useful as ice cream on a summer day.

Rochester rose to the occasion, yesterday, and got the Jersey City bunch a fit of unappetizing white Providence scattered mud over Buffalo.

Toronto received her usual at the hands of Baltimore.

Special to The Montreal Star.

Newark, N. J., June 21.—Because the Montreal won yesterday from Newark in a close and well played game they displaced the latter from the first division and are now fourth themselves.

Pappalau's effectiveness and a little well pitched batting by the Royals, aided by several presents in the way of a game to first by Hesterfer, did the trick.

There was somewhat of a change in Montreal's batting order and the change seemed to work well. Adams distinguished himself by making three clean drives out of four times at bat.

There was a deal of clever fielding on both sides and many good chances were spoiled by scientific play.

It was one, two, three order most of the time for Newark, their efforts to connect with Pappalau's curves resulting in almost every instance in infield outs on long flies.

Montreal got the first tally of the game in the third, a single by Adams to left, with two out doing the trick.

Yeager and Hartman had got bases on balls and the former, according to Joyce's foul to Cockman entered the half. There was no more scoring until the seventh, when Pappalau drove a safe fly to Cockman, who took second on Clancy's sacrifice, and third on Yeager's infield out.

Hearne was suffering from an abscess in a tooth, and had to be relieved by Robinson in the eighth.

Lewis' drive far out to left in the third was held up just long enough for Joyce to get under the ball by a great run.

Bishop, released by Montreal some time ago, has accepted an offer from the South Orange, N.J., semi-professional team.

Princeton defeated Yale in the final game of this year's baseball championship by the score of 10 to 4. Each team had won a game before.

J. Deleahanty of the Bisons, promises to follow in the footsteps of his late brother in the hitting department. He is batting at a .313 clip for the Bisons.

Milligan of the Clam Diggers used to be a sure hitter. He has been put in to bat in the last inning several times this season, but has failed to secure one safe drive.

Jennings' bunt near first base line in the first, furnished a peculiar play. Clancy, c. the ball and stood still watching the runners making for third and second. Jennings, believing that the hit was foul, stopped.

Lepine is hitting the ball. In the Rochester-Providence game Saturday he secured five hits, one of them being a home run. Flournoy also was conspicuous in the game with the stick.

"Doc" Amole lost another game for Providence yesterday, and does not seem able to shake the hoodoo that has followed him since the opening of the season.

Thoney is still with the New York Americans, and although Rochester claims to have signed him, it is doubtful if he will join the Bronchos. He is too good a man for C. X. Griffith to part with.

It is hard to believe, but the fall-enders won another game from Providence on Sunday. This makes two straight from the clam diggers by Rochester.

Hearne's fourth ball in the fourth was a wild pitch, and the Oriole tried to get it.

Ban Johnson, president of the American League of Baseball Clubs, is quoted as saying: "There is complaint everywhere against the rule. It was a mistake to

THREATENED GRIFITH WITH TROUBLE.

The owner of the Rochester Baseball club, the Rochester Amusement Co., has given Clark Griffith, manager of New York Americans, ultimatum regarding the coming of Thoney. Thoney is to be with the Rochester by Tuesday, or Griffith will be in trouble.

He was found in St. Louis, over the laws of the National Association of baseball clubs and the law of the land. If Thoney is not here at the time stated, an injunction will be promptly served.

Bliss' foul to the limit of the grand stand in the sixth gave Hearne a chance to display his sprinting powers.

McLaren's law foul in the seventh gave Gibson a chance to distinguish himself, which was promptly accepted.

Hearne was suffering from an abscess in a tooth, and had to be relieved by Robinson in the eighth.

MacDonald (halves), and the rest of the defence, played well, while for the M.A.A.A. Hayes (goal), Rogers (back), Chinn (half), Usher, Porter and Stewart (forwards) were the most conspicuous. Mr. Norman gave satisfaction with the whistle, but was a little too lenient on rough play.

Linesman—Mr. James Wilson, Mr. F. Calder. Goal Judge—Mr. Ernest Way, Mr. A. Goodman. Westmount had decided to make the

fourth consecutive year, defeating E. E. Leonard, Wright easily disposed of his opponent in straight sets, 6-2, 6-3, 6-2.

H. H. Hackett and J. A. Allen, former Yale champion, defeated the former intercollegiate champion team of Princeton, F. B. Alexander and R. D. Little, by a score of 6-3, 6-4, 8-6, in the opening match of the round robin doubles tournament on the courts of the Crescent A. C. at Bay Ridge.

The programme of weekly handicaps for the M. A. A. is as follows: 16 lb. shot, July 6-20 yards, one mile, broad jump, July 7-75 yards, 440 yards, hurdles, high jump, July 14-100 yards, 880 yards, broad jump, July 21—Midsummer meet, July 28-220 yards, one mile, high jump, August 4-75 yards, 110 yards hurdles, 16 lb. shot, August 11-100 yards, 880 yards, broad jump, August 18-220 yards, one mile, broad jump, August 25-75 yards, 110 yards, 16 lb. shot.

The rules and regulations are: 1. Rules of C. A. A. U. will govern events. 2. Silver and bronze medals will be given to competitors winning, for the first time during the season, first and second places; and silver and bronze clasps to such competitors on winning any subsequent first or second places during the season. 3. All members competing for these prizes must enter their names with the chairman, when handicaps will be made up and posted in club house. 4. Handicaps will be revised by the committee after each evening's races. 5. Competition will start at 6.30 p.m. 6. The committee reserve the right to alter the programme. There are a lot of men getting into condition for these events and Mr. Alf Bennett, the trainer, says that he will have a good string ready for the opening on Thursday evening. Mr. Leslie H. Boyd is the chairman of the department, and the members of the committee are as follows: Alf Leithead, Chas. M. Cameron, E. S. Ostler, R. C. Irwin, Jas. MacDonald, W. E. Findlay.

At the Outrigger links the semifinals for the Try-Davies cup have been played, and resulted in the candidates being reduced to the four following men: Harry vs. Tees and Brock vs. F. R. Redpath. These gentlemen will play off during the coming week, and next Saturday the final will be pulled off.

The final round for the women's Metropolitan Golf Association championship, between Mrs. E. A. Manice, Bal-turol, and Mrs. M. D. Paterson, Englewood, brought a large gallery of golf enthusiasts to the Apawamis Club links near Rye Saturday, to follow the match over the course. Mrs. Manice again won the championship, defeating Mrs. Paterson by two up and one to play. Miss Travers defeated Mrs. Lofferts for the consolation prize by one up.

The second half was all in favour of the Westmount boys, and only the splendid exhibition of goal-keeping by Hayes saved the M.A.A.A. from a larger defeat. For the winners, Nairn, arrived with Westmount leading by two to nil, Anderson having headed a beautiful shot that just sailed under the bar, and completely beat Hayes. This sudden reverse made the M.A.A.A. boys hustle, and only the relief and play was transferred to mid-field. A pretty piece of combination game and the Westmount boys, supporting the forwards very nicely, MacDonald being perhaps the best of the trio. Usher and Stewart were occasionally dangerous, but the defence was too good for them. THE JAPANESE READY TO ADVANCE

Kuroki's Main Force Will Soon Be on the Move.

SITUATION AT PORT ARTHUR

The Japanese Recently Made An Unsuccessful Attack—Escape of Vladivostok Fleet.

St. Petersburg, June 21.—Lieut. General Shakhov, in command of the First Siberian Army Corps, has sent the following report to the general staff, under date of June 19:

"Since June 16, indications have begun to manifest themselves that the Japanese are preparing to advance by three roads to the North-west.

"On the first of these roads a small detachment of the advance guard has approached the position of the enemy on the second road the advance guard has occupied a mountainous defile between Nandabai and Pantchal. On the third road the advance guard of the enemy has approached the villages of Khilniak and Lamlarichan and has occupied the positions of the enemy.

"The main body consisting of five regiments of infantry with cavalry and artillery, has taken up a position between Kian Chu defile and Kuhnza.

"During the last few days our advanced troops these roads against the enemy and lost about ten men in killed, wounded and prisoners taken. Lieut. Naarov, who was in command of three wounded Cossacks, were taken prisoners.

"On June 17, the only patrols observed were at Seluchan. They retired rapidly towards Feng-Wang-Cheng. There was an exchange of rifle shots, as the result of which two of our soldiers were wounded.

"Salmatze has been evacuated by the Japanese since June 16, when one of the Japanese detachments advanced towards Feng-Wang-Cheng. Rain has fallen uninterruptedly since last night."

ATTACK ON PORT ARTHUR.

Lieut. General Zillinsky, chief of staff to Viceroy Alexieff, has sent the following telegram to the Minister of War, under date of June 19:

"According to information received from Port Arthur, June 14, three Japanese battalions advanced towards across the Siao-lindar Mountains towards Lounantun. Two detachments of Captain Loumbinsky's rifles and company of frontier guards stopped the advance. The enemy's torpedo boats bombarded the semaphore station, but they retired precipitately on the approach of the cruiser Novik and other torpedo boats, which opened fire on them.

"On June 13, our rifles drove the Japanese from two positions east of the Siao-Blindar Mountains. Lieutenant Hiltzeff and a rifleman were killed, and Lieutenant Zerobinsky and four other men were wounded. Lieutenant Zerobinsky has since died."

St. Petersburg, June 20.—A despatch from Vladivostok, under the command of the Russian military forces at Port Arthur, dated June 17, just received here, reports that no serious fighting has occurred since Port Arthur. Only a few skirmishes have taken place. The siege operations have not yet begun.

FROM KUROPATKIN.

The Emperor has received the following despatch from General Kuropatkin:

"The enemy in the direction of Salmatze and Feng Wang Cheng have not only stopped, but have made a retrograde movement. They have advanced several points towards the north of Feng Wang Cheng, which until recently they occupied. The movement of Japanese troops towards the Dalme defile has been stopped, but a rather important movement of the Japanese forces has been discovered in the direction of Yau Yen and Hai Cheng or Shi Yen and Tashichiao.

General Kuropatkin has telegraphed to the Emperor under date of June as follows:

"General Stakberg reports that the enemy has not advanced beyond Vangfangou."

"It is reported that three bodies of troops are extending their front between Vangfangou and Tachonjin."

"After two days of fighting and two string night marches by difficult mountainous roads the troops have been able to rest. Their moral is excellent. It has not yet been possible to procure precise details of our losses. Accurate numbers are only procurable in the following divisions:

"First Division, East Siberian Rifles, fifteen officers killed and 49 wounded, twelve of whom remained on the battlefield; 386 soldiers killed and 922 wounded, 568 of whom remained on the battlefield, but some of them, however, were picked up and sent to the train. In the Thirty-third, Thirty-fifth and Thirty-sixth Regiments, one officer and 129 soldiers were killed, and 19 officers and 894 soldiers were wounded. Twenty-six of these soldiers remained on the battlefield.

"The first artillery brigade lost ten officers and 103 soldiers killed, the ninth brigade of artillery, one officer and 25 soldiers killed, the Tobolsk Regiment, one officer and three soldiers killed, and three missing; the Marschank Regiment, six officers and 131 men wounded, eleven men killed and eight missing."

JAPANESE ADMIRAL'S REPORT.

Tokio, June 21.—Vice-Admiral Kamimura, in an official report, expressed great regret at having failed to encounter the ships of the Russian Vladivostok squadron, despite every effort to get in touch with them. Kamimura returned to his base yesterday. It is understood that the Russian ships are now in Vladivostok harbor.

Vice-Admiral Kamimura, in his report, describes the movements of his fleet in searching for the Russian fleet. It lasted for three days and nights and the Admiral thinks he was unfortunate in having no accident, considering the thick weather since the 15th inst. He regrets that the search had no results. The loss of the transports on Sunday was due to the fact that the fleet was too small to watch both the Russian fleet and cover the smaller transports also. Kamimura says he was informed by wireless telegraph that the Russian fleet was within forty miles of the Russians at that time, but heavy weather hid them and prevented him from hearing the guns. He could only guess that they had been taken and he wrongly guessed they had been making for Vladivostok. The authorities greatly regret the incident and will make plans in future for the protection of transports. The

Sunlight Soap Washes the Clothes White and won't Injure the Hands

LEVER BROTHERS LIMITED, TORONTO

Sunshine Furnace

Strong Grates.

Sunshine grates never break because they are made of extra heavy bars with thick, short bull-dog teeth—the kind that break clinkers—but never break themselves.

Bars are so thick that not even white heat can twist or warp them.

Teeth are set to squeeze and break clinkers but coal is squeezed and forced upwards.

There is no waste coal in a Sunshine ash tray.

The Sunshine Furnace is the strongest furnace built—it weighs less than any other furnace of equal heating capacity.

G. T. R. ENQUIRY RE-OPENS AT WINNIPEG.

Out of Eleven Witnesses Nine Were Americans—The Majority of Tender Age.

Special to The Montreal Star. Winnipeg, Man., June 21.—Eleven witnesses were examined on the resumption of the Grand Trunk Pacific railway inquiry. Nine were specimens of educated and talented engineers imported by the G. T. P., owing to lack of capable Canadians.

Some of the Americans were men of weight and standing in their profession. For instance, one gentleman had gained his experience under Government engineers in the Klondike and under the skillful cross-examination of the Government solicitor, the expert statements, if mining, ditching and similar work. This gentleman had graduated from the Y.M.C.A. at Tacoma.

Another gentleman had more than one year's experience as railway work before he was employed at \$100 a month on the G.T.P.

An even brighter specimen was a raw lad who swore to being twenty, but who looked to be about seventeen. Most of his examination was conducted by the foot and ankle, and he was on the floor with the other. Two other gentlemen who admitted to being of the ages of 22 and 23, also gave evidence. They both started as assistants but being gifted with "American brains" soon reached the top of the ladder as transit men and levelers. The statements, if mining, ditching and similar work. This gentleman had graduated from the Y.M.C.A. at Tacoma.

The garrison consists of between fifty and sixty thousand troops, the health of both soldiers and civilians is good.

"The damaged battalions have all been repaired and the harbour entrance cleared of obstructions. Immense new forts have been constructed, and in my opinion, the place is no longer a danger zone, falling into the hands of the Japanese.

"The Japanese attack by land and sea, made on the 18th inst. was easily repulsed. I was the first to command to enter Port Arthur since the blockade began."

Celebration at St. Hyacinthe.

Special to The Montreal Star. St. Hyacinthe, June 21.—St. Jean Baptiste Day was celebrated here yesterday in a manner befitting the occasion. In the morning at 8 o'clock a procession consisting of allegorical wagons and various local societies was formed at the City Hall and marched through the principal streets.

Earl Percy Makes Statement re Negotiations With the United States.

London, June 21.—Earl Percy, the Under Secretary of State, replying to a question in the House of Commons yesterday, said that representations had been made to the United States regarding the disadvantage under which West Indian sugars laboured in the markets of the United States as compared with Cuban sugars, but no reply had been received indicating any prospect of any arrangement more favourable to British trade.

Death of John T. Sullivan.

New York, June 21.—The Telegraph says John T. Sullivan, actor, one of the best known leading men in dead at his apartments in the Hotel Barclay-Cathart. He was 70 years of age. Mr. Sullivan was for a long time a prominent lawyer in Michigan. His first appearance on the stage was in Madam Phe's company. Sullivan married Rose Coghlan, from whom he was divorced recently.

Death of American Senator.

Sherbrooke, June 21.—Senator Jas. Hopkins, of Washington, D.C., died suddenly of heart disease on Saturday, at his summer cottage at North Hatley. He had been ailing for several days, but nothing serious was appreciated. His appreciation of his past life was under control at 5 p.m. His origin is unknown.

PASTOR'S FAREWELL.

Rev. James Lawson, who has just concluded his term of pastorate at St. Henri Methodist Church, preparatory to removing to Chicago, Que., preached his farewell sermon on Sunday night. At the close of the congregation testified their appreciation of his past life by a standing vote.

BEAUTY OF SKIN PURITY OF BLOOD

Recent and Modern Ideas on These Interesting Subjects.

P-T-O-DATE METHODS

For Purifying and Beautifying the Skin, Scalp, Hair and Hands.

Socrates called beauty a short-lived rhapsody, Plato a privilege of nature, Boetius, a delightful prejudice, Theophrastus a silent chat, Carnades a solitary kingdom, Homer a glorious gift of nature, Ovid a favor of the gods. Aristotle affirmed that beauty was better than all the letters of recommendation in the world, and yet some of these distinguished authorities has left us even a hint of how beauty is to be perpetuated, or the ravages of age and disease defied. Time soon seizes the eye, the hair, the skin, the pallor of age, disease dots the fair face with cutaneous disfigurements and eruptions the Roman nose with unsightly bushes, moth, if not rust, corrupts the glory of eyes, teeth and lips yet beautiful by defacing the complexion, and fills the sensitive soul with agony.

It is in the treatment of torturing, disfiguring humours and affections of the skin, scalp and blood, with loss of hair, that the P-T-O-DATE has achieved their greatest success. Original in composition, scientifically compounded, absolutely pure, unchangeable in any climate, always ready, and never by its use, does it produce any untoward effects, they present to young and old the most successful curatives of modern medicine.

MR. J. H. PLUMMER ARRIVES AT SYDNEY.

Special to The Montreal Star. Sydney, N.S., June 21.—J. H. Plummer, president, and Graham Fraser, general manager of the Dominion Iron and Steel Company, arrived in the city last night from Montreal. To-day they are making an enquiry into the strike situation. It is possible a delegation representing the men will interview them. At least overtures looking to a settlement of the strike are expected. There are now 400 men working on the plant, most in general labour about the yards. Mr. James Ross, President of the Dominion Iron and Steel Company, has arrived from Quebec on the yacht "Gundreda." He remains here several weeks.

THE ZIONIST COLONY

In British East Africa Discussed in British Commons.

London, June 21.—In a discussion in the House of Commons, last night, on the proposed grant of British land in East Africa for Jewish colonization, Major Evans Gordon expressed the view that there was little probability of the plan becoming a reality, at least on any considerable scale. The Zionist Congress, he said, had sent a committee to East Africa to investigate the situation, and their report showed such enormous difficulties that it was questionable whether any attempt would be made at colonization.

FIRE IN STABLE—A fire last night in a stable in 51 Britannia street called out the men of No. 5 fire station at about 1.30 o'clock.

There was some trouble in rescuing the horses, but they were finally got out. The loss was about \$50.

"MY FRIEND MCCORKILL" OUT.

The Hon. J. C. McCorkill has admitted corrupt practices by agents in his election and consequently forfeits his seat in the Legislative Assembly.

This saves "the responsible Minister from the district," the Hon. Sydney Fisher, from the necessity of having to go into the witness box and testify upon oath with regard to the personal charges made against him in connection with "my friend McCorkill's" election.

Of course, if Mr. Fisher is particularly anxious to go into the box, and subject himself to cross-examination with reference to the charges of corruption made against him, it would be only fair to give him an opportunity.

ANOTHER ROYAL COMMISSION PROPOSED.

The Witness has discovered a way out of the Dundonald difficulty, for the Government until after the elections.

There is nothing strikingly original about the method suggested. Just the old dodge, a royal commission.

Our esteemed contemporary concludes an editorial article favourable to Lord Dundonald in these words: "Lord Dundonald's words have revealed or created a situation which will cause grave disquietude in the minds of the people, which can probably only be relieved by the appointment of a commission, composed of men in whom the public has confidence to report upon the whole matter."

Splendid idea! A royal commission beats a plebiscite or a referendum hollow, every time.

Now what about the personnel? Shall we say, the Hon. Sydney Fisher, the responsible minister from the district; Sir Frederick Borden, the responsible head of the Militia Department; and for a third, how would "My friend McCorkill" (who is temporarily out of a job) do?

AN APPEAL TO CANADIANS.

The local manager of the bank knew beyond question that the general manager was improperly using the bank's funds.

What was to be done? If the local manager complained to the general manager, the latter would dismiss him, and pigeon-hole his report.

That would be the "etiquette" of the situation. But would not everyone say the local manager was right? Would he not be applauded by the shareholders?

The general manager would have observed the rules of etiquette, but he would have, then, to reckon with the shareholders.

So in the Dundonald case, He may be likened to the bank manager.

He first reported military defects to the Minister. They were pigeon-holed. He protested against abuses in the militia. Again the pigeon-hole.

Finally he violated the rules of etiquette; he appealed to the shareholders—the people.

Now we shall see what we shall see.

THE WAR SITUATION.

A number of reports, all somewhat lacking in detail, make it reasonably certain that a great battle has been fought, or is even now in progress in the neighbourhood of Halcheng. The losses are reported to be heavy on both sides, and a despatch from St. Petersburg places the number of Russian casualties at five thousand. There is no official confirmation of the story. A despatch from Paris intimates that most of the Japanese troops in front of Port Arthur have been withdrawn, and are being rapidly marched northward to co-operate with the other two Japanese armies in delivering a smashing blow at General Kuropatkin's army before the commencement of the rainy season. Kuropatkin would be quite willing to postpone the encounter until after the rains, by which time he hopes to receive reinforcements. This move of the Japs does not mean that the siege of Port Arthur has been raised. Enough Japanese troops have been left to maintain the blockade, and it is expected that the capture of the fortress will be entrusted to yet another Japanese army, under General Nogai, which will land on the peninsula near Port Arthur.

THE LATE G. W. STEPHENS.

The news of the sudden death of the Hon. George Washington Stephens yesterday came as a shock to the community with which he has been so conspicuously identified during his long and active life. In his public career, Mr. Stephens was before all things a Montrealer. Although he took considerable interest in provincial politics and had occupied a seat in the Quebec Cabinet, he will be remembered chiefly as the vigorous champion of civic reform, as the alderman and the keen and intelligent critic of aldermen. Perhaps because of his large personal interests in this city he had devoted an immense amount of time and hard work to the study of municipal questions generally, especially as they affected the city of Montreal. Although always a Liberal in politics, Mr. Stephens was a man of exceptionally independent mind. He preferred at all times to do his own thinking; and it was impossible for any one who knew him intimately to imagine him allowing himself to be dragged by any leader, caucus or clique. It is a great thing to say of any man in these days of abusive politics, that notwithstanding his energetic aggressiveness in municipal affairs he was never accused, much less suspected, of abusing public office for his own personal gain. Mr. Stephens never sought office for the sake of the spoils, and although most of his adult life was spent in serving the public in some capacity, he seemed to hold office so lightly, that his resignation was always waiting like a chip on his shoulder, for somebody to knock off. This was one secret of his power and of the great personal influence he exercised for many years in this community. He had the courage of his convictions and everybody knew it. Consequently a word from him was worth more to his party than a long speech from a party hack. Mr. Stephens was exceptionally qualified by wealth, intelligence and education for the important role he played in this city. His death will be generally regretted and the warmest sympathy will be felt for his family.

AFTER THE MANITOBA LISTS.

It is stated that the Dominion Government contemplates taking power to alter the Manitoba voters' lists for use in the Dominion elections. Hints that such a step might be ventured upon have been so common of late as to be disquieting, but there were still many who felt that the Government would hardly venture to so brazenly ignore the principles which its members preached in Opposition and which they hastened to apply the moment they came into power.

The Liberal contention has always been that the voters' lists should be in the hands of the local or provincial authorities. They have presented this to the country as a great principle akin to "States' rights" or "local autonomy." When they gained a majority, they promptly repealed the Dominion Franchise Act, which provided for Federal control of Federal voters' lists, and returned to the use of Provincial lists for Dominion purposes.

This was all for principle's sake. They were not influenced at all by the fact that the local Governments in every province in the Dominion except one were Liberal, the exception being Ontario. No one but a suspicious Tory would imagine such a thing. Then an unfortunate accident happened. Manitoba went Conservative. And, at the next elections, it remained Conservative. Consequently the Manitoba voters' lists, which would be used for the next Dominion elections, would be compiled under Conservative law. And now we are told that this mighty principle of provincial control of the voters' lists is to be set aside. It is not to be set aside for all the provinces, but only for one. And, by a curious coincidence, that province is to be Manitoba!

So long as the Conservatives are in office in Manitoba, the Nova Scotia system of list manipulation cannot be transported to that province. So the Ottawa party workers will take the matter there into their own keeping. They will break from their party principles, and enact an exception to the rule still in force in every other part of the Dominion, in order to get control of the Manitoba lists. What do you imagine they want to do with the lists?

THE WORSHIP OF "GET THERE."

According to a street car conductor who writes to the New York Times, if the public of New York experience rude treatment at the hands of street car employees, they have themselves to thank for it. "The New York public," he says, "in the mass is a big ill-mannered brute, and until it respects itself, shows proper regard for each other's rights, we railway men have nothing but contempt for it." He adds

that strangers visiting the city say that "the New York public is composed of the most ill-mannered persons to be found anywhere." We do not quote these observations with any desire to pass judgment on the citizens of the great American metropolis, for that is not our affair. The lesson which the conductor's letter teaches is plain—that bad manners breed bad manners. The man evidently means what he says, and he does not expect even the mass of outwardly respectable people, for he declares that "even the well-dressed men are a mass of cads." The chief root of the trouble is the frenzied determination of the New York man and woman to "get there." To take a car one minute later than a car they might have taken by a supreme effort of push and drive, gives these singular beings a humiliating sense of defeat, it is not that the minute is so precious to them, or that they put their minutes to any better use than other people. It is simply that they are fascinated by the movement around them, and by a sense of present sense of competition. Are others going to catch a particular car? Then they must catch it, at whatever sacrifice of breath or manners. Every one who has travelled has witnessed this madness, and has noticed the puerile, we might almost say infantile, sense of satisfaction which accompanies the successful performance of a hustling feat. Of all the idolatries that ever existed in this world, the worship of "get there," when it takes this form, is one of the silliest, if not one of the most degrading.

TERCENTENARY OF ANNAPOLIS.

Celebration to Mark Historic Event Opens With Ecstacy.

LANDING OF EXPEDITION An Eloquent Explanatory Address Was Delivered by Archbishop O'Brien, of Halifax.

Special to the Montreal Star. Annapolis, June 21. — The celebration of the tercentenary of the landing of the first expedition to Annapolis, for many years known as Port Royal, commenced on Monday. The celebration commemorates the landing of what is now British North America. Among those present are: Governor Jones, Major-General Sir Charles Parsons, Admiral Douglas, Hon. J. W. Longley, president of the Nova Scotia Historical Society; Charles Francis Adams, president of the Massachusetts Historical Society; Mr. Kleczkowski, French Consul-General to Canada; Archbishop O'Brien, John A. Cooper, of the Halifax, and the Royal Historical Society of London, and many other prominent men, are here to take part in the celebration.

On Annapolis, the French warship Topeka, and the United States warship Topeka, while below, in Annapolis basin in the British flag ship Arctique. The other United States warship, the Detroit, has not yet arrived. Charles Francis Adams has brought with him from Boston "the key of the city of Port Royal," which was delivered to Nicholson when the French Government surrendered Port Royal to the New England General in 1758. The key is the property of the Massachusetts Historical Society.

Attorney-General Longley, president of the Nova Scotia Historical Society, on behalf of that body extended to the distinguished gentlemen assembled to take part in the celebration a warm and cordial welcome to the guests. After Hon. Mr. Longley's remarks the Mayor of Annapolis read an address on behalf of the town of Annapolis to His Honor Lieutenant-Governor Jones.

His Honor, after replying to the address of welcome, dwelt interestingly on the great event that was being commemorated. Hon. A. Turgeon, representing the Quebec Government, made an interesting speech. ARCHBISHOP O'BRIEN'S ADDRESS. His Grace Archbishop O'Brien's address, a brilliant and thoughtful one followed. He said in part: "Events not years are the time measure of a nation's historic renown. The more pregnant an achievement has been of beneficial results to mankind, the more worthy it is of commemoration, even though in manner of its accomplishment may not have been accompanied by any of those spectacular deeds of prowess which appeal so powerfully to the imagination. "Greatness of soul may be as fully displayed in daring unknown dangers as in facing real ones and in enduring expected hardships as in attacking the entrenched positions of an enemy. Moral courage is surely no less admirable than physical. We see principles would justify, were justification necessary, the celebration of to-day. Three hundred years is a short period in the history of the world, we fully admit that, but the event we commemorate, the planting of civilization on these shores, three hundred years ago, and the subsequent arrival of such importance to mankind, will have such far-reaching effects, and have been accomplished by such a display of noble qualities, as to fill up many cycles of time. With the exception of Mexico, practically the whole of North America, as we see it to-day, is the result of the settlement of Port Royal. Because of its expeditions were sent, not only around the coasts of the Bay of Fundy, but also into the Gulf of St. Lawrence and up the great river of that name, resulting in the founding of trading and

THE PASSING HOUR.

The Lib. party seems to be full of little syndes, but none are littler than Sydney. Sir Frederick Borden will notice that Lord Dundonald can write "good English."

Grand opera has given way to the silver music of the tinkle of ice against the glass.

Radium is coming down in price, but the coal barons still hope to undersell it.

The Government appears to regard "confidential" as synonymous with "inconvenient."

Perhaps the Libs. will want to treat the returns from the next elections as "confidential."

The Government believes in having more colonies to the square inch than Virginia could boast.

It is the irony of fate to see the driver of a watering cart enveloped in a cloud of dust from his own machine.

It is said that this open-air Shakespeare is very popular with those eminent musical artists, the mosquitoes.

If the automobile fever grows, we will have the farmers forming a Bad Roads Association as a means of defence.

Lord Dundonald couldn't get his report into the Government's blue books, so now he has got into the Libs' books.

Since the Dundonald matter came out, Lord Gray is doing very well, so that he will not come to Canada in an official position.

It looks as if the only possible G.O.C. who would quite appreciate the Lib. idea of what the militia is for would be the Hon. "Cap." Sullivan.

"Lieut." McCorkill of the Fisher forces now has a "military experience" to his credit. When he saw the gun pointed, he decided to come down.

New York, June 21.—The New York Sun says, in its reports from many sources, and particularly from Chicago at the present time, indicate a strong current of dissatisfaction with the existing centralization, almost individualization, of Governmental power, and proceeds: "It appears that our neighbour to the north is not free from a similar ailment." The Sun then quotes the Montreal Star's recent article on the subject referred to, and says: "Hands across the border, neighbour."

ishing stations, which later on became centres of civilization. . . . "Looking then, at this northern continent and its wonderful development, and considering that the initial impulse to its civilization was given by the founding of Port Royal, we can surely claim that this latter event was one of transcending importance to mankind. Peering into the future we can, with the spirit of prophecy, confidently predict, in the case of our own beloved Canada, that its effects will also be far-reaching. The future of this Dominion, which is the great storehouse of the treasures of nature, future millions will reap bounteous harvests from our mines, new fortunes from our forests, and drag riches from the waters surrounding shores. Hence the great problem of civil government, of economic systems, of economic questions, which have exercised and fretted the genius of man, will be worked out to a satisfactory solution. Canada shall cease to be benefited to the human race, only when that race has ceased to exist."

ROMANTIC ACADIA.

"Finally greatness of soul, resourcefulness in difficulties, adaptability to surrounding conditions, and patient courage to endure the romantic story of the founding and development of Acadia, whatever blots there may be on the bright pages which record the deeds of our heroes, have been years are due to the ever-present weakness of human nature, their brightness and glory bear testimony to the chivalry of the great races which straggled and toiled in this fair land. Good reason then have we, Gaul or Saxon, or Celt to rejoice of."

REMARKABLE COOLNESS OF NINE-YEAR-OLD GIRL.

La Broquerie, Man., June 21.—The nine year old daughter of David Smith, of Clear Springs, near here, has become famous for her unique coolness. Her father was attacked by a vicious bull, which knocked him down and ran his horns into his body. His wife seeing the accident, swooned, but the young girl ran into the house, got her father's gun, and shot the bull. Unfortunately she was too late, and her father died half an hour after the accident.

Irish Leader Will Visit America.

A New York despatch says that John Redmond, M.P., will visit America soon. He is coming under the auspices of the National committee of the United Irish League of America. He will be accompanied probably by several other members of the Irish Parliamentary party and will take part in the second National convention of the organization to be held in this city August 20 and 21. His stay will not be of long duration.

CATARRH IS OFTEN A DISGUISED ENEMY. PE-RU-NA CURES CATARRH.

MR. GEO. PARRETT. Glencoe, Ont. is a member of the Noble Grand Lodge, No. 133, I. O. O. F., Glencoe, Ont. He writes:

"I have been using Peruna for some time for a cough and catarrh of the throat with very satisfactory results. Having no other remedy, I purchased Peruna and after two years I have been a sufferer from catarrh in my head and throat. It was treated by two very skillful physicians with little or no result, and I gradually became worse. Seeing your ad in the papers, I was induced to try your Peruna. I had taken scarcely one bottle when I felt much relieved. I have used five bottles and am now completely cured. I cheerfully recommend Peruna to any one suffering with catarrh, as it is a complete specific for that dreaded disease."—Mr. George Malloux.

Chronic catarrh often makes its approach in disguise. Before a person knows it, he may become a victim of chronic catarrh. Its onset may be gradual, its development insidious, and at last the victim finds himself in the clutches of a tenacious disease. A slight cold, a tendency to sneeze, a puffiness in the nose and head, fullness or crackling in the ears, stringy mucus in

the throat, slight cough or wheeziness, sneezing during sleep—any one of these two years I have been a sufferer from catarrh in my head and throat. It was treated by two very skillful physicians with little or no result, and I gradually became worse. Seeing your ad in the papers, I was induced to try your Peruna. I had taken scarcely one bottle when I felt much relieved. I have used five bottles and am now completely cured. I cheerfully recommend Peruna to any one suffering with catarrh, as it is a complete specific for that dreaded disease."—Mr. George Malloux.

What can be cured in the beginning in a week or two, by using Peruna. It is allowed to become chronic may require months of faithful treatment. You had better take Peruna now, for by and by you may be obliged to take it for some time in order to get well. Peruna is the remedy for catarrh. Almost everybody knows that by hearsay and thousands know it by experience. Peruna can be purchased at any first class drug store at \$1.00 per bottle. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

RESOLUTION WILL BEAR NO FRUIT Motion to Confine Preference to Canadian Ports Passed.

THE ANTI-CIGARETTE BILL Awaits Third Reading, But Government Holds Whip Hand—More Dundonald Letters.

Special Staff Correspondence. The Press Gallery, House of Commons, Ottawa, June 21.—Two pieces of bonhomie occupied most of the attention of the House yesterday. One was a resolution that the preferential tariff should apply only to goods imported through Canadian ports. This met with no opposition worth mentioning, and was passed with unanimous approval, but it means nothing at all since the Government has no intention of embodying it in legislation. Mr. MacLaren's bill to prohibit the manufacture, importation and sale of cigarettes was the other important matter that occupied the attention of the representatives of the people. Notwithstanding that everybody knows this bill to be a joke, it has now advanced to a point where only one more move is required to put it through. That move, however, is not at all likely to be made. The consent of the Government will be required to bring it up again, and the pressure of public business for the rest of the session will probably prevent any such consent from being given. The Senate amendments to the act respecting the Real Estate Title Guarantee and Trust Company were considered in. So also were the Senate amendments to the act to incorporate the Monarch Life Assurance Company. Col. Sam. Hughes was informed by Sir Frederick Borden that Major William Hamilton Merritt was gazetted last month to the command of the Government's 100th Regiment of Infantry, and that the command will date from June 11, 1903. EMIGRATION FRAUDS. Hon. Mr. Sifton read a statement to the effect that certain individuals in Great Britain were engaged in making fraudulent representations to induce emigrants to Canada, by guaranteeing positions or otherwise. The Government is doing its utmost to stop the fraud by advertising in the papers and by communicating with the Imperial authorities with a view to having the guilty parties prosecuted. Mr. Monk obtained from Mr. Emerson the information that the contract for crushed stone for the Cham-

by canal has been awarded to J. E. Hebert, of St. Johns, Que., at \$2.66 per cubic yard. MR. LOGAN'S MOTION. A motion that "in the opinion of this House, the preferential tariff should only apply to importations through Canadian seaports," was offered by Mr. Logan, of Cumberland. The motion has been on the order paper in Mr. Logan's name for the greater part of last session and the whole of this session. The remarks made by Mr. Logan, he was careful to say that he did not expect anything to be done this year, but he hoped the idea would bear good fruit in the future. Hon. Mr. Fielding said the subject was one as to which a process of education was required, both inside and outside the House, for himself he was heartily in favour of such a policy, but of course nothing could be done about it this year. Dr. Sproule thought the spectacle of a minister making such a speech was amusing. If the Government favoured such a policy it was easier for them to carry it out. He congratulated Mr. Logan on his caution in not bringing the matter forward until there was no further danger of it having any practical result. Mr. W. R. Brock described the motion as thoroughly insincere. When it was put to the vote the Government trunk Pacific built to Montreal, Mr. Logan had forced the Government to do it at the point of the bayonet, why did he not do it then? Simply because he was not in earnest about it and desired only to make a little political capital. Another charge that such a policy would raise freight rates and consequently the price to the consumer. Mr. Brock said that in his own business he imported everything possible through Canadian channels, and yet he managed to compete. THE PREMIER'S DECLARATION. Sir Wilfrid Laurier said that as to the general proposition advanced by Mr. Logan, there could be no difference of opinion. The trouble was that this was a business government and they must think before they jumped. Before making such a change as was proposed, due notice should be given as not to disturb any line of business. Mr. R. L. Borden remarked that Mr. Fielding was in favour of the motion but he was not in favour of acting on it. The subject was one on which the Government was bound to have a policy. If the project for a fast Atlantic service had been carried out the difficulty which this motion sought to obviate would not arise, because such a service would bring goods to Canadian ports in 10 to 15 days. He trusted that if the Government allowed this motion to pass it would not be regarded as a mere idle form, but that the tariff would be amended accordingly. NO BILL WILL FOLLOW. The motion was then put and declared carried. When will the right honorable gentleman introduce the bill? asked Mr. Borden. He got no reply. The Premier refused to say nothing.

Mr. Stewart, of Lisgar, secured an order of the House for all correspondence between the Government of Manitoba and the Government of the Dominion, relating to the selection or survey of 250,000 acres of land, earned by the forest in Winnipeg and Hudson's Bay Railway Company, now the Canadian Northern Railway Company, and to which the Government of the Province of Manitoba is entitled. FAVOURS FOR CONSTRUCTION COMPANIES. On Mr. Cowan's bill to amend the Companies' Act, Mr. Fitzpatrick offered the amendment which cleared that the clause referring to the construction and working of railways, telegraphs and telephone lines, meant the company and not the contractor engaged in the actual work of construction. To the mind of Dr. Sproule this looked suspicious. He wanted to know why extra facilities for the formation of construction companies should be given just at this juncture when another trans-continental railway was to be built. At this remark Mr. Fitzpatrick became angry. He declared that he had no interest in the bill, but he had offered the amendment merely to carry out Mr. Cowan's intentions. He added that if Mr. Cowan did not take enough interest in the bill to be in the House and look after it himself, he (Mr. Fitzpatrick) would have nothing more to do with it. He accordingly moved that the bill be referred to a select committee and ask leave to sit again. This was done. Mr. Cowan is now in a bad fix as he can only bring the bill up again by the distinct permission of the Government and by getting a day set apart for that purpose. However, as he is a good Government supporter, he may get his special day if he wants it bad enough. CABINET PRIVATE CARS. Mr. Tolton, of North Wellington, asked for a return, showing how many private cars the Government has for the use of the members of the Cabinet directly, and how many there are on the I.C.R.; also what amount has been spent on these cars since 1896, and also whether they have been used by persons not strictly entitled to do so. The Premier was unwilling to grant the request. In this form, and on his motion it was amended to read 1880 instead of 1896. Mr. Lancaster made a strong effort to secure the passage of his amendment to the railway act. He wanted to enact that where a highway crosses a railway on the level grade within a village, town or city, a watchman and other proper protection shall be provided if the train runs more than ten miles an hour. This bill was introduced by Mr. Lancaster some time ago and reported back with a recommendation that it be not passed; but Mr. Lancaster was not satisfied and fought hard. Mr. Fitzpatrick refused to accept the amendment, on the ground that the railway committee already has power to order whatever protection may be thought necessary at any particular crossing.

THE ANTI-CIGARETTE BILL. The bill to prohibit the importation, manufacture or sale of cigarettes was taken up in committee. "The effect of this bill," said Mr. Fitzpatrick, "is to say that children of any age whatever may use tobacco in any shape whatever except cigarettes. It would create a race of hypocrites. Unless you also prohibit the importation of cigars and pipes," said Mr. Clarke, "you might as well drop the whole thing." He again pleaded that this impracticable measure be dropped, and an amendment made to the criminal code to safeguard minors. "If the bill in its present form is not perfect," said Mr. Ross, of Victoria, "to carry this was to defeat it in favour of it, then let the Minister of Justice set himself to make it perfect." The bill was discussed until after midnight. There were divisions on several clauses, and all the clauses were carried. Once it was near destruction. That was when Mr. Gallinger moved that the committee rise and report progress, and ask leave to sit again. To carry this was to defeat the bill. The vote was a tie 37 to 37, and the chairman voted against the committee rising. Finally the bill was put through committee and now stands for its third reading. TO EXCLUDE AMERICAN MASTERS. Mr. Lancaster urged the second reading of his bill to amend the act respecting certificates to masters and mates of ships. His chief object is to prevent American citizens from holding such positions on Canadian ships on the Great Lakes. It also provides for an improved system of examinations for such certificates. Mr. Prefontaine replied that there was no need for hurry. The law on the subject now requires consolidation and some minor amendments, but this could not be dealt with during the present session. Mr. Clancy and Mr. Clarke both urged that on Canadian boats preference should be given to Canadian navigators.

Women and Subjects of Interest to Women.

HER DAILY TRIALS. He and his mother got on a car the other day, and from the moment of their appearance it was evident that the latter was not amiable. She looked as if she worked for her living, not merely in the domestic circle, but as if she went out to do laundry work or scrubbing for some of the unpleasant forms of labour, that some poor women past their prime are compelled to practice in order to earn a living. He was about four and of an inquiring mind. His sailor suit was immaculately clean and his hair was as bright as yellow soap could make it. It was evident the pair were taking a holiday even before the small boy began to ask questions or explain things to his own satisfaction. "Maw, why's that man so red?" he queried at last, as he pointed with a fat little forefinger at a well known Montrealer who was seated opposite. "Keep quiet, Johnny," admonished his mother. "But why is he so red?" persisted Johnny. "Is it 'cause he's more like sister Mary's baby?" "The Montrealer who had slumbered peacefully through the short dialogue, was awakened by the laughter of some of the passengers, and looked round indignantly to see what was the matter. Johnny took advantage of the wide open eyes to lean over and say, confidentially, "We was talking 'bout you, and Maw won't tell me why you're so red. You'll tell me, won't you?" The highly coloured passenger grew purple, and most dangerously apoplectic. Johnny's mother grasped her offspring by the hand, and signalled the car to stop. "Confound it," she commanded, in a voice that boded ill for that small boy's immediate future. "But Johnny didn't see it that way, and I want to see what the matter is." The conductor stood impatient as Johnny's mother began to drag him towards the rear platform. "I want to go out the front door," he insisted. "You can't, this is the only door you can go out of," she said as she hurried him along. "But why, Maw," he inquired between his sobs, "don't the car stop at both doors?" C. C. M.

PRIZES FOR SNAPSHOTS. The editor of The Star's Woman's Page is holding a weekly "Snapshot" competition, and offers a first prize of \$5, a second prize of \$2 and a third prize of \$1 for the best snapshots taken by women readers and submitted by them. Entries for the fifth competition must be received by Monday, June 27th, and should be addressed "Photo Competition, Woman's Page, The Montreal Daily Star, 114 St. James Street." In submitting photographs for the competition their suitability for reproduction should be taken into consideration. The pictures should be clear, those which are foggy and blurred are useless for reproduction. No such prize can be given for a picture which is not clearly defined. Write their names and addresses on the back of all entries; to enclose stamps for return of photographs; and not to enter more than two photographs in any one competition. Prize winners in the fourth competition will be announced on Wednesday, June 22nd.

TO-DAY'S RECIPE. The following cream for ice cream calls for no eggs, and consists simply of cream, sugar and strawberries: Mash a quart of berries thoroughly with two large cups of sugar, and let them stand about three hours in a moderate steam bath. Then add a quart of cream boiling hot. When cold, freeze after pressing the whole through a sieve fine enough to exclude the seeds. The cream does not need to be thinned with milk, but it is better to add a little of the sweetened and mashed berries will thin it sufficiently. Two quarts of this ice cream, flavoured with a little sherry or maraschino, will serve for a dessert when served with a quart of ripe strawberries. After the cream has formed scoop out a hollow place in the centre, but one deep enough to reach to the bottom of the mould. Fill in the hollow with the berries, sweetened, and turn out as a matter of course immediately on to a dessert platter. The berries should be completely concealed when the mould is turned out, and the dessert served with simple slices of white cake. It is important that the fruit be added the moment before serving, so that the berries are not frozen stiff. No ripe fruit should be added to an iced dish any length of time before serving unless it has been soaked some hours previous in wine or liquor.

Hiam have returned to town, and are at 324 Sherbrooke street, where they will not receive until the autumn. Mr. Justice and Mrs. Robidoux, accompanied by their daughter, leave very shortly for Mr. Clements, for the benefit of Judge Robidoux's health. Miss Mary MacGillivray, daughter of the late Mr. Neil J. MacGillivray, Inverness, Scotland, is the guest of Mrs. William Scialer, 4876 Sherbrooke street. Mrs. John Trainor, of New York City, accompanied by her little daughter, Miss Helen Trainor, is in town for a few weeks, the guest of her father, Mr. J. Maloney, Dorchester street. The marriage of Miss Jennie Bell, daughter of Mr. Thomas Bell, to Mr. Charles Bisson, took place very quietly on June 15th, at St. James Church, the Rev. Father Rousseau officiating. A pretty wedding was solemnized at the Presbyterian Manse, Campbellford, last week, when Miss Jean Louise Dickson, daughter of Mr. Stephen Dickson, of Lamsden, Assa, and sister of Mrs. A. C. Reeve, was married to Dr. James McBride, of Campbellford. Rev. A. C. Reeve, brother-in-law of the bride, assisted by Rev. Hugh Thomson, of Madon East, performed the ceremony. Little Isabel Reeves acted as maid of honour. The bride was gowned in white silk and carried a bouquet. The bridegroom's gift to the bride was a gold pendant set with pearls and diamonds, and to the little maid of honour a gold locket and chain. Dr. and Mrs. McBride have gone for a trip to the Pacific Coast, and upon their return will reside at Campbellford. The wedding took place quietly on Thursday afternoon, at St. John's Evangelist Church, of Miss Robertina Taylor, eldest daughter of Mr. William Taylor, and Mr. John B. Cullen, in the presence only of relatives and intimate friends. The ceremony was performed by the Rev. Arthur French. The bride, who was given away by her father, wore a gown of white and pink pine coloured cloth, with trimming of gold braid and silk, white silk blouses, and hat to match. Her bouquet was of white roses. The bridesmaid was Maude Taylor, sister of the bride, wore white Swiss muslin, with a large black picture hat, and carried American Beauty roses. Mr. E. M. Hays was best man. After a reception at the home of the bride's parents Mr. and Mrs. Cullen left for Boston, Lowell and Portland. The bride was the recipient of a large number of handsome presents.

The Stowmarket Mystery, Or A LEGACY OF HATE.

By Louis Tracy, Author of "Wings of the Morning," "The Final War," Etc., Etc. CHAPTER XIX. THE THIRD MAN APPEARS. The Rev. Wilberforce Layton raised no objection to his daughter's excursion to London with Miss Capella. In Whitby a week later, and remain there during August. Mrs. Eastman pleaded age and the school term. It was, therefore, a comparatively youthful party which Brett joined at dinner in one of the great hotels in Northumberland Avenue. Someone had exercised rare discretion in ordering a special meal; the wines were good, and two at least of the company merry as emancipated school children. The barrister soon received ample confirmation of the discovery made by the Stowmarket waiter. Robert Hume-Fraser was undoubtedly in love with his cousin, or, to speak correctly, for the ex-sailor was a gentleman, he had been in love with her as a boy, and now secretly grieved over a hopeless passion. Whether Margaret was conscious of the devotion of her cousin was unable to decide. By neither word nor look was Robert indiscreet. When she was present he was lively and talkative, entertaining the others with matches of strange memories drawn from an adventurous career. It was only when she quitted their little circle that Brett detected the mask of angry despair that settled for

moment on the young man's face, and rendered him indifferent to other influences, until he resolutely aroused himself. Yet, on the whole, a great improvement was visible in Fraser. Attired in one of David's evening dress suits, carefully groomed and trimmed, he no sooner donned the garments which gave him the outward semblance of an aristocrat, than he dropped the coarseness, somewhat coarse, mannerisms which hitherto distinguished him from his cousin. Beyond a more cosmopolitan style of speech, he was singularly like David in person and deportment. They resembled twins rather than first cousins. They were both remarkable fine-looking men, tall, wiry, and in splendid condition. It was only the slightly more attenuated features of Robert that made it possible, even for Brett, to distinguish one from the other at a little distance. Helen was pleased to be facetious on the point. "Real Davie," she said, "now that your cousin has come amongst us, you must remove your beard at once." "Why?" he asked. "Because you're all alike that some evening, in these dark corridors, I shall mistake Mr. Fraser for you." "That won't be half bad," laughed Robert. Nellie blushed, and endeavoured to evade the consequences of her own remark. "My cousin," she exclaimed, "that you would be sure to laugh at me if I treated you as Davie." "Not at all. I would consider it a cousin's duty to make you believe I was Davie and not myself." "Then," she cried, "I will guard against any possibility of error by giving both of you as Mr. Robert Hume-Fraser until I am quite sure." "Walter!" said David, "where is the barber's shop?" Helen became redder than ever, but they enjoyed the joke. Her expense the waiter politely informed his questioner that the barber would not be on duty until the morning at 8 a.m. "Then book the first chair for me!" said David. "And the second for me!" joined in Robert. "Mr. Brett," said Margaret, "don't you consider this competition perfectly disagreeable?" "It appears to me that the result must be personally most satisfactory." "In what way?" "It is obvious that you have no resource but to accept my willing salary. Miss Layton having monopolized the attentions of your two cousins." "Hello!" cried Fraser. "This is an unexpected attack. Miss Layton, I resign. Have no fear. In the darkest corridor I will warn you that my name is Robert!"

DECORATION DAY.—On Saturday next the firemen of the city and their friends will turn out in force in honour of Decoration Day. An impressive ceremony will be held at the cemetery, where the graves of firemen will be decorated.

DUPUIS FRERES, The Big East End Departmental Store. - 1571 to 1589 St. Catherine Street.

Though the words were carelessly good-humoured, they were just a trifle emphatic. The incident passed, but they recalled it subsequently under very different circumstances. Brett went home about ten o'clock. Next day at noon he was arranging for the immediate delivery of a typewriter machine, sold by Mr. Numagawa Hiro to a West End exchange, when a telegram reached him: "Come at once. Urgent.—Hume." He drove to the hotel, where David and Helen were sitting in the foyer awaiting his arrival. Hume had kept his promise and sent the barber. He no longer desired to alter his appearance in any way, and had only grown a beard on account of his sensitiveness regarding his two trials at the Assize. But the fun of the affair had quite gone. Helen was pale, David greatly perturbed. "A terrible thing has happened," he said, in a low voice, when he grasped the barrister's hand. "Some one tried to kill Bob an hour ago." The blank amazement on Brett's face caused him to add hurriedly: "It is quite true. He had the narrowest escape. He is in bed now. The doctor is examining him. We have secured the next room to his, and Margaret is there with a nurse."

MR. STEPHENS' BODY ARRIVES IN CITY

Death of Well-Known Citizen Appaling in Its Suddenness.

DEAD WITH HAND TO BREAST

Long Career in Militia—A High School Veteran—His Forestry Report.

(See also page twelve.) Mr. C. H. Stone, of this city, who was in the company of the Hon. G. W. Stephens, the time of his death, arrived in the city this morning with Mr. G. W. Stephens, Jr., and the funeral cortege will be held on Thursday evening.

Mr. Stone was very much overcome at the death of his friend and patron, and left shortly after his arrival for his summer home at Dorval. A gentleman named G. W. Stephens, Jr., who was in the company of the late Hon. G. W. Stephens, was well known, remarked this morning that the deceased had stated at a recent public dinner in Montreal, that he was the oldest journalist in the city.

HIS FORESTRY REPORT.

At a recent session of the Quebec Legislature, on the occasion of the submission of the report of the last Colonization Committee, it was pointed out that the report as submitted agreed almost exactly with a report submitted by the late Mr. Stephens on the same occasion. The latter report, however, was not submitted to the committee, but was prepared by Mr. Stephens, thus vindicating him.

SMOKE WITHOUT FIRE.

False Alarm at the Robert Reford Company's Premises.

About 1:30 this afternoon some overzealous person gave the fire brigade a run to the office of the Robert Reford Company. Smoke was seen escaping beneath the gate leading to the yard in rear of the company's premises, and this was what, doubtless, suggested the idea of fire.

KILLED BY DYNAMITE.

While engaged in the work of drilling a well for Robert Hampden, at Elwood Farm, Longue Pointe, yesterday afternoon, Alexander Taillefer, blacksmith, 49 years of age, was instantly killed as the result of a dynamite explosion.

ALD. ST. DENIS AND SUNDAY SHAVES

Proposal to Permit Them in the Large Hotels.

MANY PETITIONS ARE FILED

Some Think Sunday Shaving Should Be General—Some Barbers Don't Want to Work on Sunday.

A proposed by-law amending the law in regard to the closing of barber shops on Sunday, has been introduced in the City Council by Ald. St. Denis, chairman of the Police Committee. The new by-law asks that barber shops in large hotels be allowed to remain open and do business on the Sabbath.

It is urged by Ald. St. Denis that the position of affairs in such regard to the foreign travel, that the city should allow big hotels to have their barber shops open on Sunday. Numerous requests in favour of this move have been made to Mr. St. Denis by the owners of big hotels.

SHOCKED TO DEATH ON TRANSFERRING TABLE.

Man Killed This Afternoon at New C. P. R. Shops.

G. B. Flint, residing at 823 Cuvilla street, Hochelaga, was killed this afternoon, while at work in the new Angus shops of the Canadian Pacific Railway at Hochelaga. The deceased was standing on the transferring table, which is operated by electricity, and it is thought by those who saw the accident, that the man was shocked to death by the body to be taken to the morgue where an inquest will be held to-morrow morning at ten o'clock.

MANY CELESTIALS SENT HOME TO CHINA.

A batch of 210 Chinamen, many of whom have been confined in the detention house at Malone, N.Y., for several months, some of them as long as eight months, passed through the city yesterday on their way back to China. They have been deported by an order of the Court of Appeal—a body that has been set up to deal with the cases of the United States Immigration Department in this city. It is the opinion of the court that the men, who are being deported, will have the effect of discouraging further attempts upon the part of Chinamen to gain admission to the United States. All along Malone has been a favourite point of entry for Chinese seeking admission to the United States, and hundreds of them have managed to slip through at that point, incidentally enriching a number of lawyers in that locality. The Chinese in question have been sent to Hong Kong via Vancouver over the Canadian Pacific Railway.

Alleged Insurance Fraud.

A man from Toronto was arrested last night by Detective McLaughlin on a charge of fraud. It is alleged that he got a number of insurance policies belonging to the London and Mutual Insurance Company and then commenced a series of fires, which he collected various sums as part of the premiums. The direct charge in question has been sent to Hong Kong via Vancouver over the Canadian Pacific Railway.

PAPER MILL ACCIDENT.

Yesterday afternoon Edwin Davidson, 38 years of age, fell from an elevated passage at Riordan's paper mill at Hawkesbury. He dropped three feet and landed on his head. It is believed that he received a bad fracture of the left thigh, internal injuries and bruises about the head. He was brought to the city on a Grand Trunk train, and was taken to the Royal Victoria hospital in the ambulance. To-day he is in a serious condition, and is being attended by the officials of the institution.

MR. HARDWELL'S SUCCESSOR.

Mr. W. H. Olive has been appointed assistant general freight agent of the Intercolonial Railway. Mr. Olive was formerly travelling agent of the railway, but on the recent appointment of Mr. James Hardwell as traffic expert to the Railway Commission, Mr. Olive secured well-merited promotion.

TRUSTEES TO ORDER CUP MATCHES PLAYED

That Is the News From the Ottawa Conference.

THE SHAMROCKS TO MEET

Lord Minto Gave Trustees Power to Change Rules to Fit Any Circumstances That May Arise.

Special to The Montreal Star. Ottawa, June 21.—The conference, between Mr. F. L. Ross, who is recognized as the spokesman of the Minto Cup trustees, and the representatives of the Shamrock and Brantford Lacrosse Clubs in regard to the Minto Cup matches scheduled for the first of July and the week after is in full blast to-day.

President Frank of the Canadian Lacrosse Association, and Messrs. O'Connell and McGee, of the Shamrocks were present at the meeting which was private, but the rumours that are being circulated and emanate from pretty reliable sources, it looks as if the decision of the trustees will be that under the peculiar circumstances existing, the Shamrocks will either have to defend the cup or relinquish it and the world's championship it represents.

Actions Against Company for Baggage Lost by Passengers.

The crop of law suits which, as was to be expected, follow the sinking of the R. O. Steamer Canada on Sunday last, at St. John's, has begun to come in. To-day Messrs. Jacobs and Garneau took out actions in the name of four claimants for baggage lost in the wreck.

PERSONALS.

(Continued on page five.)

THE LATE MADAME TARTE.

The deceased lady had been ill for a couple of years, but within the last few months her illness has grown more and more acute. Her death is expected some days. Her death removes one of the most devoted workers of the city contained in all charitable enterprises. Devoted to her family, she rarely took part in the social entertainments which she might have been expected to frequent.

By Channel Island Authorities on Charge of Being Spy.

SON OF LATE TORONTO JUDGE

Governor Refused to Communicate With Lord Strathcona in Regard to Identification.

Canadian Associated Press. London, June 21.—The widow of the late Justice Moss, of Toronto, and her son have just arrived from the Channel Islands. The Canadian Associated Press learns that during their visit to the islands the son, while taking photographs, was arrested and placed in the military authorities charging him with being a spy. His mother offered every proof that she and her son were Canadians and that the object of their visit to the islands was entirely with the hope of benefit to her son's health.

GRIEVANCES OF THE GLOVE-CUTTERS

Strike of the Montreal Men Still in Full Swing.

WILL NOT MARK TWO THUMBS

Would Sooner Go to Gloversville Than Do Double Work for Single Pay in Montreal.

The strike of the glove cutters in the factory of T. Gilbert, of 91 St. Catherine street, is in full swing to-day, but it is thought by the men that an amicable settlement will be reached in a day or two, as there is not a glove cutter in the Dominion who is out of employment, and the cutting department of the factory is completely tied up. The men say that just as soon as the stock on hand is made up, all the other employees will be out of work and the factory will then have to close down. They regret this state of affairs, but they claim they were forced to go on strike as a result of the rules and regulations introduced in the factory recently. One of the representatives of the men made the following statement to the Star:

"We offered to meet the management half way and were willing to mark both thumbs for an advance of five cents per dozen. We would have lost money at this rate, but we wanted to avert a strike. Now that the fight is on, we intend to hold out until an agreement is reached. We are not at all concerned as being arrived at. We will leave the city and go to Gloversville, where there is plenty of work before we will consent to do double work for single pay."

TOPICS OF THE STREET.

The policy of allowing goods via Canadian ports to take advantage of the preferential, which is advocated by the Boers and the House of Lords, M. P. for Cumberland, and other members of Parliament, is naturally attracting considerable attention in business circles in this city.

Among business men generally, and particularly those interested in the shipping business, both directly and indirectly, there is a very general tendency to favour such a proposition, though at the same time there is an appreciation of the many objections which will likely spring up.

If the bonding privilege was abrogated to-morrow, the Western and Border of Trade office, "The Western and Border of Trade office," would be hurt more than we think. Chicago and other western cities would lose the advantage of a sea going and railway competition which is being made by all who are on the occasion to pay freight rates in that country.

CANADIAN PACIFIC WAS PROMINENT IN TORONTO.

Toronto, June 21.—Interest in the Toronto stock market this morning centred largely on the Canadian Pacific. The Toronto Electric Light—124 at 121 1/2, 125 at 121 1/2, 126 at 121 1/2, 127 at 121 1/2, 128 at 121 1/2, 129 at 121 1/2, 130 at 121 1/2.

BUYING OF CANADIAN PACIFIC IN NEW YORK MARKET.

New York, June 21.—It is estimated that the Canadian North-West crop of wheat is about 100,000,000 bushels. This is a tremendous tonnage to the Canadian Pacific and "800" in other issues.

METAL MARKETS GENERALLY LOWER.

New York, June 21.—Following were the prices of metals at the close of business yesterday: Iron, east, No. 2, 97.00; Iron, west, No. 2, 97.00; Steel, east, No. 2, 97.00.

LIVE STOCK FOR THE ENGLISH MARKET.

Summer Shows at the Theatres.

Summer Opera at the Arena.

Possibly the most striking defect in the initial performance of the comic opera season at the Arena last evening was the length of the production.

Starting punctually at 8.15 o'clock, the curtain did not ring down until 11.15, thus giving, with but two slight intermissions, three solid hours of music and laughter. Some trimming needs to be done in order to bring the entertainment within reasonable bounds as regards length; there is such a thing as giving the public too much for their money.

The Arena has never been better prepared for the presentation of opera than it has been upon this occasion, and if having done everything that

can conduce to the comfort of the audience will make a summer season of light opera a success certainly the management deserve such a return in no small measure. The auditorium is much smaller than has been the case in the past, presenting more the appearance of an amphitheatre. The result is that from practically all parts of the house, the singers and the comedians can be heard. Decorations are bunting and flags detract from the severity of the building.

Musically, the New York Opera Company is strong, the cast of characters for "The Isle of Champagne" last evening being:

King Pommeroy, The Second, Mr. Claude Amaden

Appoinaris Frappe (His Prime Minister), Mr. Hilliard Campbell

Prince Kissengen (his son), Mr. Jethro Warner

Mort and Chandon, his standing army, Mr. W. J. McGraw, Mr. Chas. Giblyn, Sammy Binnacle, a sailor,

Mr. Harry Williams

Perrier Janet, Monopole, Heidsteck, Conspirators,

Mr. George Calhoun, Mr. Ed. Powers, Mr. Wm. Rowan,

Priscilla, in love with Kissengen,

Miss Lois Garneau,

Diana, the Belle of the Isle,

Miss Mae Kilcoyne,

Brigitte, her companion,

Miss Ada Bernard,

Abigail Peck, looking for trouble,

Chorus of Miss Hazel Davenport, citizens, etc.

It is perhaps a little too late in the week to commence a detailed description of the plot that has made the opera in question deservedly popular for so many years. Suffice it to say, for the benefit of those who commenced theatre going since the days when their fathers and mothers first laughed at the recital of the modern fable of the prodigal son, that the action of the piece has to do, in the main, with the difficulties of the king of a mythical kingdom in which water was unknown and champagne was the only beverage. As a result everybody in the kingdom had a headache; it was a chronic condition.

Shortly after the action of the piece

commences there is washed upon the shores of the islands an uncompromisingly known as Abigail Peck, who is constantly looking for trouble and usually get it. She was the means of introducing war into the kingdom, and thus enriched the king to such an extent that, out of gratitude, he marries her. Then the fun commences. The most finished of the singing in the piece is done by Miss Garneau, her beautiful soprano being frequently heard to advantage. Mr. Warner's rendition of Star of My Life, which was interpolated for the occasion, was also most effective. Indeed all along the line the opera has been retributed and brought up to date in a manner that produces an agreeable effect. Mr. Amaden has charge of most of the comedy work.

The Francals' Attraction.

"A Spy of Port Arthur" at the Francals attracted a considerable crowd last evening. Incidents of the present Russo-Japanese war were strikingly portrayed. The play is filled with sensational surprises. The Japanese attaché, Mr. Beckwith, and the French attaché, Mr. Lund, played their parts admirably.

The play should attract good houses this week. The Comedy Stock Company is seen at its best. Miss Bertine Robinson and Miss Maud Scott, as Anne Willoughby and Susan McNair, respectively, are very good. Mr. Billy Walsh, in the comic role of Wellington, the black servant, was as popular as ever.

The Royal's Bill.

The closing week at the Theatre Royal sees one of the best bills they have had during the supplementary season. The opening skit "Casey, the Fiddler," is full of fun. It is helped out by a large chorus, which sings well and introduces some good dancing. In the olio, there are some very good turns. Caprice Lewis does a trapeze act that is the prettiest thing of the kind seen here for a long time. The Burdock Sisters are as cute as they are clever. Eddie Russel and Edna Tillyne are again seen in their bright acrobatic dances and the Johnson Brothers, from well known Flynn and Healy did some dancing that was thoroughly enjoyable and the Kinetoscope pictures of the smugglers were graphic. The most daring thing of the programme is the bicycle riding of Cleo. In a perpendicular frame he rides so that he is in a horizontal position. The act is short but sensational. There is to be a big programme for Amateur Night, Friday, and a special bill for the Saturday closing.

Sohmer Park's Programme.

Sohmer Park has a programme this week that will appeal to all of the many classes who flock to this popular resort during these warm evenings. The park is delightfully cool and nothing is left undone by the management to make everything comfortable. Leavie's band has never played better than it is doing at the present time. This week it has a selection of popular numbers that are very welcome. Claudius and Corbin, the banjoleists, made a decidedly good impression, the Foet and Posaunt being the principal number of their act. McEneaney and Hill are clever horizontal bar performers and the Marco Twins are continuing to make people laugh

as they did last week. McCurt's dogs and cats are retained, and they will continue to be a welcome attraction, particularly in the afternoons, when a large number of ladies and children visit the park.

Riverside Park.

Riverside Park has a programme that should attract big crowds throughout the week. The Living History of the Star of My Life, a recent view of interesting events, such as the review of colonial troops by Queen Alexandra, views of Japanese and Russian soldiers, a Spanish bull fight, a panoramic scene of the Rhine, and a remarkable view of the scenes along the route of the Imperial Lighthouse from Windsor station, Montreal, to Vancouver, besides some comic slides, which provoke much amusement. Al E. Read and Tom Ward made a hit with a sketch at the opening, while Eddie Horan's Chinese personation specialty is a good valuable turn.

MR. LIGHTHALL AT ST. JOHN.—Among the passengers who left by the intercolonial last night for the St. John festivities, was Mr. W. D. Lighthall, who is vice-president of the section of English literature at the yearly meeting of the Royal Society of Canada, which convenes at St. John this week. Besides being a member of the American Historical Association, Mr. Lighthall is also a member of the Scottish Society of Literature and Arts, and one of the leading members of the Montreal Antiquarian Society here.

A Physician on Food.

A physician of Portland, Oregon, has views about food. He says: "I have always believed that the duty of the physician does not cease with treating the sick, but that we owe it to humanity to teach them how to protect their health, especially by hygienic and dietetic laws.

"With such a feeling as to my duty I take great pleasure in saying to the public that in my own experience and to from personal observation I have found no food to equal Grape-Nuts and that I find there is almost no limit to the great benefit this will bring when used in all cases of sickness and convalescence.

"It is my experience that no physical condition forbids the use of Grape-Nuts. To persons in health it is nothing so nourishing and acceptable to the stomach, especially at breakfast, to start the machinery of the human system on its daily work, as a complete breakfast can be made of Grape-Nuts and cream, and I think it is necessary not to overeat during these warm morning meals. I also know the great value of Grape-Nuts when the stomach is too weak to digest other food.

PRESCRIBING A FACTORY DISTRICT

Complaints That Factories Are Invading Residential Quarters. CITY AND MILITARY SCHOOL

Demand That All St. Helen's Island Be Transferred to City—Carters' Complaint.

There was a long discussion at the meeting of the City Council yesterday over proposals which were made to keep warehouses, factories, etc. out of residential districts of the city.

For some time past petitions have been received by Council protesting against manufacturing concerns encroaching on what are termed "residential" districts.

At the meeting yesterday, Ald. Vallieres read a proposed by-law in regard to the matter. It was as follows: "It is forbidden to erect, occupy or operate any factory, workshop, machinery or plant of which is worked by steam or electricity within the limits of the district of the city bounded as follows: viz. On the south-east from the western limits of the city to Windsor street, by the C. P. R. tracks, and from Windsor street to Amherst street by Lagache street.

On the north-east by Amherst street, by the C. P. R. tracks, and from the north-west by Mount Royal avenue to the western limits of the city including Mount Royal Park.

It was explained by Ald. Vallieres that he deemed such an enactment necessary, as fine residential districts should not be ruined by the construction of factories in their midst.

In reply to this, members of Council said nothing ought to be done which would tend to restrict trade in the city.

Ald. Couture—"Before we undertake to pass such a by-law we should consult those interested in big industrial undertakings and see what they think about it. It may be some people have suffered through the building of factories in certain districts; at the same time the trade of the city must not be hampered."

WESTERN SECTION OF CITY.

In regard to the western section of the city, Ald. Ames proposed the following amendment: "From the western limits of the city to the Pacific Railway tracks, to Aqueduct by a line 200 feet southwest of Dorchester (parallel thereto) between Aqueduct and Dorchester to Catherine street, to Catherine street, to St. Alexandre street, to St. Catherine, to Amherst."

This amendment was completed for the City Council by the following: proposed by Ald. Vallieres: "By Amherst to Ontario, to Parthenon, by Chausse to the eastern limits, to Papineau avenue, to Mount Royal avenue."

The question came up as to what would be done with the factories that are now built in residential districts should the proposed by-law be adopted.

Ald. Vallieres—"Oh, the by-law I propose would not be retroactive. It was then decided to leave the whole matter over till the next meeting, when plans will be considered which will show at a glance what the proposed proscribed district is.

MILITARY SCHOOL AND CITY.

A report was read asking that the council sanction the giving of \$25,000 to the Government for the purpose of establishing a military school in Montreal. In return for the \$25,000, it is understood the Government will turn over the whole of St. Helen's Island to the city.

The Mayor favoured the agreement, and also favoured a scheme whereby exhibitions could be held at the island.

As they did last week, McCurt's dogs and cats are retained, and they will continue to be a welcome attraction, particularly in the afternoons, when a large number of ladies and children visit the park.

EXPLANATION TO THE PUBLIC.

The old family apothecaries, Carleton & Hovey of Lowell, established in 1827, have in their possession the old prescription book in which is filed the original and correct copy of Father John's Medicine as written by the eminent specialist who prescribed it for the late Father John O'Brien, of Lowell, by whom it was recommended to his mother, and from whom it derived its name—and was advertised with his knowledge and approval. It is not a patent medicine. The money is refunded for any bronchial trouble, cough or cold it does not cure. It makes strong and prevents pneumonia. Fifty years in use. Father John's medicine is for sale by all druggists. The Leeming, Miles Co., wholesale distributors.

A Preventive of Dangerous Summer Complaints.

Infant mortality increases as summer advances. This is largely due to the fact that many children are not properly fed. Thousands of little ones are too often fed on cow's milk that is unfit for human consumption. To mothers who are anxious for the safety of their babies in hot weather, we would confidently recommend Lactated Food, now so generally prescribed by the leading physicians of Canada, and so generally used by mothers who understand its life-giving qualities. Lactated Food prevents cholera infantum, dysentery, and other diseases that destroy the digestion. Give Lactated Food a trial, dear mother, if you would have your baby well and strong.

LACTATED FOOD Saves Babies' Lives.

He showed there were very few sites now in Montreal where a big exhibition could be held.

This idea was approved of. Ald. L. A. Lapointe—"If we give this \$25,000, the city should have full control of the Island of St. Helen's."

This was also agreed to. A deputation will discuss the project with the Government.

The by-law, changing the boundaries of Hochelaga Ward and to annex to St. Mary's Ward that portion of the said Hochelaga Ward comprised between the middle of Harbour street and that of Iberville, was adopted.

There was a short discussion on the petition, signed by the citizens, to have the St. Denis street tunnel named after Ald. Vallieres. But as the petition was not accompanied by a report, it was referred back to the Finance Committee.

Ald. Sadler was named to succeed Ald. Carter on the Legislation Committee.

A letter was read from carters on Dominion square, complaining that a company called "Seeling Montreal," was allowed to solicit fares while carters were not. It was asked that fair play be given to all. The matter will be looked to.

HAYCOCK & DUDGEON

Proper Clothes for Real Boys.

"Progress" Clothes are strong clothes. They won't rip—won't show white in the seams—won't fade—won't shrink. They are clothes to resist the "wear and tear" that sturdy, active boys give their garments.

"PROGRESS" Brand Clothing

is many clothing—with a "snap" and style that "tickles" the youngsters—and make them proud of their "new suits." It is this recognized quality which makes "Progress" Brand the favorite with mothers.

Sold by Leading Clothiers Throughout Canada.

All Good Cooks and all Good Eaters Use LEA & PERRINS' SAUCE

THE ORIGINAL AND ONLY GENUINE WORCESTERSHIRE with Soups, Meats, Fish, Game and Fowl, for it is a seasoning that is almost as necessary as salt to make them perfectly palatable and digestible. It is superb and stands to-day as it did over 60 years ago, "The Sauce that has absolutely no equal."

Montreal Water Works COAL.

SEALED TENDERS, addressed to the City Clerk, and deposited in the office of the said City Clerk, City Hall, endorsed "Tenders for Coal" will be received until 12 o'clock noon, on the 5th July next, for the supply and delivery of 5,000 tons, more or less, of Soft Steam Coal for the Low Level Pumping Station, Point St. Charles.

Also for 500 tons, more or less, of Soft Steam Coal, or Coke, for the High Level Pumping Station, McTavish street.

Deliveries are to be arranged for as soon as the contract is awarded, and at the rate of at least 50 tons per day for the Low Level, and 12 tons per day for the High Level.

Also for 50 tons American Anthracite Egg coal and 65 tons American Anthracite Stove coal, to be delivered to the various shops and stations of the Water Works, as required.

Parties tendering must state the kind and quality of the coal they have to offer, with the name of the mine, and a certified cheque on the City Treasurer for a sum amounting to forty cents (40c) per ton of the coal he has to tender, must accompany the bid of each tenderer.

The tenders will be opened in the presence of the interested parties at the next meeting of the Water Committee following the reception of the tenders.

The Water Committee do not bind themselves to purchase coal of any kind or quality, or in any quantity, but they may divide the amount taken between any of the tenderers, and it is expressly understood that they are at full liberty to reserve, and they do hereby reserve the right to reject any and all tenders.

TAKE NOTE OF THE DATE
On Thursday, June the 30th, there will be in this space something most interesting for you—Watch out for it.

THE HAMILTON COY.,
St. Catherine and Peel Sts., Dominion sq.
CHASED ASSAILANT OF WESTMOUNT CHILD.
While on her way to Sunday school yesterday afternoon a fifteen-year-old daughter of a Westmount family was knocked down by a stranger on Lewis avenue. Further assault was prevented by the appearance of Mr. Alfred Walford. The man at once ran away with Mr. Walford close on his heels. The fear of capture evidently lent speed to his efforts, and a long hard chase followed, with Mr. Walford determined not to let the man escape. There was no one in sight to whom Mr. Walford could ask for assistance and he continued until much ground was covered. Just as he was beginning to gain upon the pursued, Mr. Walford felt a dizziness come over him and fell in a faint. It was some little time before he recovered sufficiently to be taken home, but he is still suffering from the effects of the fall.

Prof. Dr. Linner, Director of the "Scientific Station for the Brewing Industry of Bavaria at Munich," upon analyzing "Pilsener Urquell," the beer of the "Breweries of Pilsener, Bohemia," and "Anheuser-Busch's Budweiser" under date of May 17, 1904, makes the following statement sworn to before Dr. Pulster, Royal Notary, and verified by Hon. James H. Worman, U.S. Consul-General at Munich, Bavaria:
"Upon subjecting the several beers to a careful analysis, I find that the 'Budweiser Beer,' submitted by the Anheuser-Busch Brewing Ass'n., St. Louis, U.S.A., is very similar in all its characteristics to the finest Pilsener beer. It is effervescent, clear and sparkling, has a beautiful creamy foam and is possessed of a pure, wholesome taste and an exquisite hop flavor. Its keeping qualities by far exceed those of the Pilsener beers, resulting from the use of the very best materials in brewing and the thorough maturity of the product. The analysis further shows that no acids or other preservatives have been used in its production and in a measure of gratification and in a great source of competition to the Anheuser-Busch people for their unceasing efforts to produce the finest beer that can be made."

THE WEATHER

Phew! Wasn't it a scorcher? The night seemed to be red hot and the great humidity with a total absence of anything approaching a refreshing breeze made everything sizzle.

This is the first real warm spell of the year, and it can be safely said that the average Montrealer is not prepared for the sudden change.

And the humidity! Phew! The heat will set the exodus to wood and lake in real earnest.

CLOTHING STRIKE THREATENED.

Disatisfaction at Working Overtime on Government Contract.

Trouble is brewing in one of the large clothing factories, and it is feared by the labour leaders that the dissatisfaction will culminate in a strike in a day or two.

It appears that the house in question has just been granted a large Government contract, which is being won in a hurry. As a result, the employees are compelled to work from 5 a.m. until 9 p.m., with a half an hour for dinner and the same amount of time for supper.

HON. MR. STEPHENS' SUDDEN DEATH MUCH REGRETTED THROUGHOUT THE CITY.

Deceased Gentleman Was Suddenly Called Away While on a Fishing Trip—A Long Career Identified With Many and Varied Civic Interests—Record at City Hall Earned for Deceased the Title "Watch-Dog of the Council"—A Minister Without Portfolio in Parent Government—Real Estate Holdings Throughout City Were Very Large.

THE LATE HON. GEORGE WASHINGTON STEPHENS.

Flags are flying at half mast throughout the city to-day in token of the general sorrow which is felt at the unexpected death of one of Montreal's oldest and most respected citizens.

The news of the sudden death of the Honourable George Washington Stephens, as announced in yesterday's Star, came as a great shock to a wide circle of friends and acquaintances.

Only last week the deceased gentleman was in the city and apparently was enjoying the same good health which had long made him the envy of his friends.

Friday morning he left the city for his fishing lodge at Lac au Claire. The following day a letter was received by the family stating that he was in perfect health and enjoying the best of spirits.

On the news reaching Major G. W. Stephens, the eldest son, he at once left on a special for St. Alexis des Monts via C.P.R. The body will be brought to Montreal for burial.

Mr. Stephens, who was 72 years of age, was one of the wealthiest of Montreal's citizens. His real estate holdings are among the largest in Montreal. The latter are said to have doubled in value in the last ten years.

Mr. Stephens' career. George Washington Stephens was a son of the late Harrison Stephens, a native of the State of Vermont, who came to Montreal in 1828, and who, beginning business in a small way, died a millionaire.

FOUGHT A CELEBRATED CASE. The firm of Perkins & Stephens fought the celebrated case of Connolly vs. Woolrych and Mr. Stephens personally conducted it to a successful issue, thereby proving the validity of an Indian marriage as celebrated according to the custom of the tribe.

A prominent Southern lady, Mrs. Blanchard, of Nashville, Tenn., tells how she was cured of backache, dizziness, painful and irregular periods by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Gratitudes cannot be adequately expressed for the great benefit of your Vegetable Compound. I have suffered for four years with irregular and painful menstruation, also dizziness, pain in the back and lower limbs, and fitful sleep. I dreaded the time to come which would only mean suffering to me.

"Better health is all I wanted, and when I possibly could I tried Lydia E. Pinkham's Vegetable Compound and brought me health and happiness in a few short months. I feel like another person now. My nerves and pains have left me. Life seems now as sweet to me, and everything seems pleasant and easy.

"Six bottles brought me health, and was worth more than months under the doctor's care, which really did not benefit me at all. I am satisfied there is no medicine so good for sick women as your Vegetable Compound, and I wish to say to my lady friends in need of medical help, 'Buy a Box of Lydia E. Pinkham's Vegetable Compound, 438 Broad St., Nashville, Tenn.—25000 bottles of original of above letter proving this to be true.'"

Lyng of the Mountain Park. Zealous and alert in the interests of the town, steadfastly opposed to boodling and wrong-doing and favouring an economical and efficient administration, he earned the title of "Watch-dog of the Council." He served several terms as pro-Mayor, during which time he received several distinguished visitors to the city.

ORGANIZED A CAMPAIGN.

He was a life long Liberal, but became dissatisfied with the Mercier regime. He joined the opponents of the Quebec Premier, and became a warm supporter of the party of "Equal Rights," he and the late Edward L. Bond organizing a rousing campaign not only in the city, but throughout the province.

HE WAS A GREAT READER. He was a great reader, had one of the best libraries in the city and was possessed of a fund of general information in his numerous scrap books over which he spent so much of his spare time.

MASON AND RISCH

I will be readily recognized how important the action of a piano is. To get a perfectly clear tone the hammers must be adjusted so as to strike the strings at a certain point and with exactness.

The Mason and Risch action is known for its accuracy—discriminating musicians paying tribute to it for its elasticity, sensitiveness, and evenness of touch.

All the felt used in our action is of the very finest quality, manufactured expressly for us. Our patent fly spring secures a most ready response to the performer's touch.

Intelligent effort, best facilities and years of experience have placed the Mason and Risch Piano in the highest place.

Write to us or call at our warerooms for descriptive literature. It will interest you.
