## Au Public

---

Quoique ce catalogue soit particulièrement fait pour les nombreux touristes anglais et américains qui, chaque année visitent Québec, j'ai cru devoir y ajouter une liste en français des vues de l'étranger pour le public canadien.

C'est afin de lui faire connaître pareillement toutes les vues stéréoscopiques des lieux les plus célèbres et les plus intéressants de notre répertoire, classées par numéros. Ces vues sont toujours des sujets intéressants et attrayants, tout en étant instructives.

J'attire particulièrement l'attention du public sur ma galerie photographique, où je prends des portraits de toute grandeurs ; les portraits sont pris instantanément, et il n'est plus besoin de poser jusqu'à ce que l'expression de la figure soit perdue par suite de la fatigue.

Le temps sombre est préférable aux journées de grande chaleur dans les mois d'été, la matinée est aussi préférable à l'après-midi.

Pour les enfants il est beaucoup mieux qu'ils soient habillés de blanc ou en couleur claire.

## MEZZOTEINTE

Ce genre de portrait mérite une attention toute particulière ; ils sont d'un fini remarquable, coloriés d'une teinte neutre qui est parfaitement permanente, ce sont des portraits de grande dimension, la grandeur ordinaire du cadre est de  $14 \times 17$ , nous pouvons les faire d'après de toutes petites photographies pourvu qu'elles soient bonnes. Ce sont de véritables portraits de salon, qui contrairement aux portraits à l'huile peuvent être inspectés de très près.

Venez les voir s'il vous plait.

L. P. VALLÉE.
