## Book on Osama bin Laden raid lifts veil on US special operations' shadow war

By Kimberly Dozier  
THE ASSOCIATED PRESS

A Navy SEAL's firsthand account of the raid that killed Osama bin Laden pulls back the veil on the secret operations conducted almost nightly by elite American forces against terrorist suspects.

Former SEAL Matt Bissonnette's account contradicted in key details the account of the raid presented by administration officials in the days after the May 2011 raid in Abbotabad, Pakistan, that killed the al-Qaida leader, and raised questions about whether the SEALs followed to the letter the order to only use deadly force if they deemed him a threat.

Bissonnette wrote that the SEALs spotted bin Laden at the top of a darkened hallway and shot him in the head even though they could not tell whether he was armed. Administration officials have described the SEALs shooting bin Laden only after he ducked back into a bedroom because they assumed he might be reaching for a weapon.

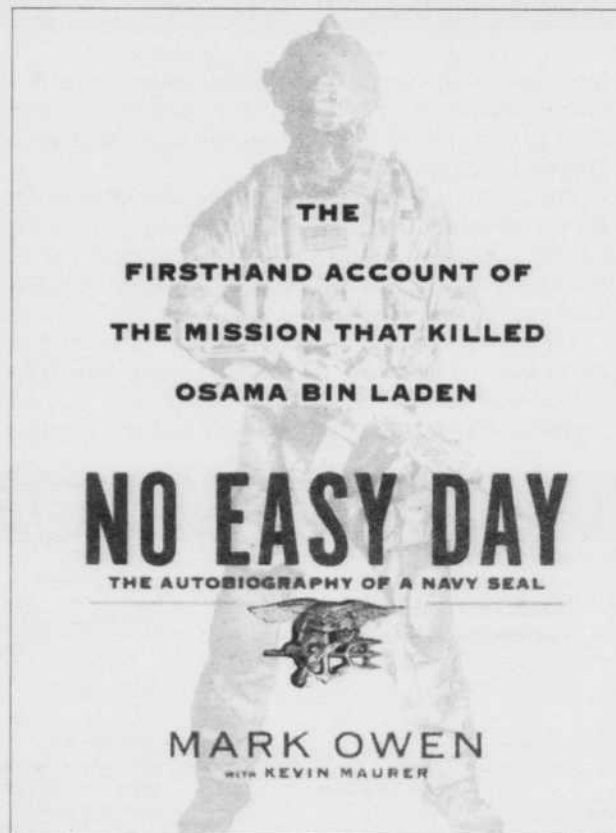

Military experts said Wednesday that if Bissonnette's recollection is accurate, the SEALs made the right call to open fire on the terrorist mastermind who had plenty of time to reach for a weapon or explosives as they made their way up to the third level of the house where he hid.

Bissonnette wrote the book, "No Easy Day," under the pseudonym Mark Owen as one of the men in the room when they killed bin Laden. The book is to be published next week by Penguin Group (USA)'s Dutton imprint. The Associated Press purchased a copy Tuesday.

For years, the primary weapon in the war on terror has been unmanned drones firing missiles from the sky. But the Bissonnette book reveals a more bloody war waged by special operators, one the public almost never gets to see close up.

The book offers intimate details of a special operations mission. The most memorable scenes are also the most human moments. Bissonnette describes one of the SEALs dressing the wounds of a woman who was shot when she lunged toward the SEALs. In another scene, a terrified mother clutches her child and a young girl identifies the dead man as Osama bin Laden, seemingly unaware of the significance of those words.

In that regard, the bin Laden raid seems destined to become an anachronism. Nearly every top al-Qaida figure killed by the United States since the 9-11 attacks has died in a remote-controlled strike by unmanned drone aircraft — their deaths seen back in Washington via high-definition video. An estimated 80 top terrorist leaders have been killed in places like Pakistan and Yemen, according to The Long War Journal.com, which

tracks such airborne strikes.

Special operations troops often conduct raids similar to the bin Laden strike a dozen times a night in Afghanistan, and previously in Iraq, killing thousands of mostly mid- and lower-level terrorists. It's all part of a war on terror that is winding down and giving way to the drone war outside traditional war zones, given the scheduled drawdown of most US troops in Afghanistan by the end of 2014.

"No Easy Day" shows how routine such operations have become. But the public rarely hears about them unless the target is as historic as bin Laden.

The SEALs, according to Bissonnette's description, were prepared as they had been in other raids for a gunfight in close quarters, which likely would last only a few seconds, with no margin for error. By the time the SEALs reached the top floor of bin Laden's compound, roughly 15 minutes had passed, giving the terror leader adequate time to strap on a suicide vest or get a gun, he said.

Bissonnette says he was directly behind a point man going up the stairs in the pitch black hallway. Near the top, he said, he heard two silenced shots fired by the first SEAL into the hallway. He wrote that the point man had seen a man peeking out of a door on the right side of the hallway, but Bissonnette could not tell from

his vantage point whether the bullets hit the target.

The author writes that the man ducked back into his bedroom and the SEALs followed, only to find him crumpled on the floor in a pool of blood with a hole visible on the right side of his head and two women wailing over his body. Once they wiped the blood off his face, they were convinced it was bin Laden.

Bissonnette says the point man pulled the two women out of the way and shoved them into a corner. He and the other SEALs trained their guns' laser sights on bin Laden's still-twitching body, shooting him several times until he lay motionless.

The SEALs later found two weapons stored by the doorway, untouched, the author said.

National Security Council spokesman Tommy Vietor late Tuesday would not comment on the apparent contradiction between the administration's account and the book's version.

Bissonnette writes that during a pre-raid briefing, an administration lawyer told them that they were not on an assassination mission. According to Bissonnette, the lawyer said if bin Laden did not pose a threat, they should detain him.

"If they didn't feel like there was a threat, they would have captured him," co-author Kevin Maurer told the AP on Wednesday. "But from when they first hit the ground, all the way until they got to the third deck, they had encountered armed men, which made the use of force essential," said Maurer, a former AP reporter.

A former deputy judge advocate general for the Air Force defended the decision to shoot the man the SEALs saw in the hallway.

"In a confined space like that where it is clear that there are hostiles, the SEALs need to take reasonable steps to ensure their safety and accomplish the mission," said the former JAG, ret. Maj. Gen. Charlie Dunlap, who now teaches at Duke University law school.

The Pentagon and the CIA, which commanded the mission, are examining the manuscript for possible disclosure of classified information, and could take legal action against Bissonnette.

In a statement provided to the AP, the SEAL author says he did "not disclose confidential or sensitive information that would compromise national security in any way."

The book does include information not previously reported about specific CIA officers' involvement in the raid.

Bissonnette's real name was first revealed by Fox News and confirmed to the AP.

Jihadists on al-Qaida websites have posted purported photos of the author, calling for his murder.

Associated Press writers Matt Apuzzo and Adam Goldman contributed to this report.

# Just what the Doctor ordered

By Alex Strachan  
Postmedia News

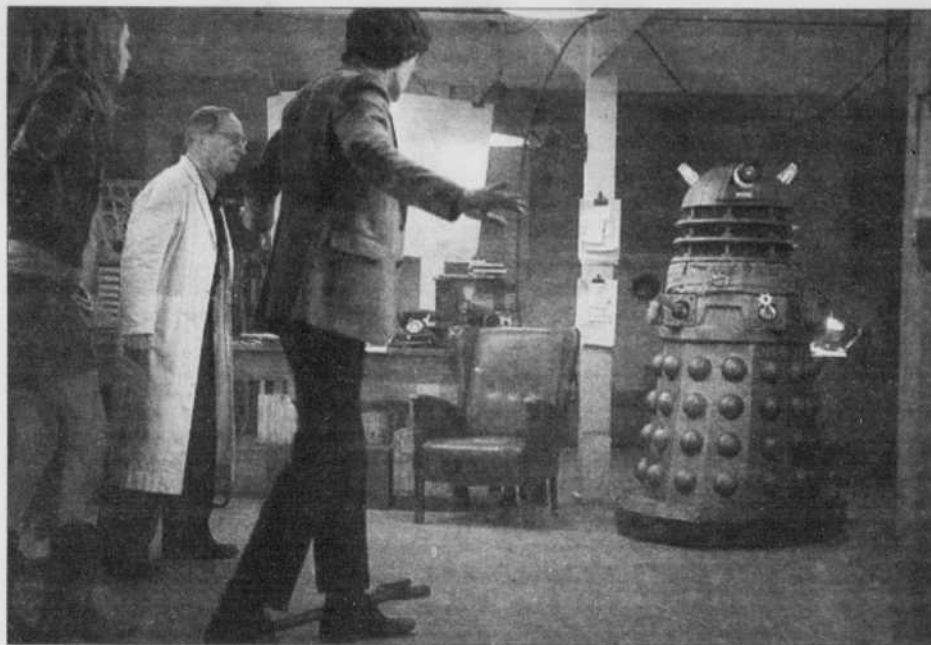

Doctor Who is the very definition of a cult hit - which means, as one veteran industry insider wryly told a group of TV critics recently, that hardly anyone watches.

Under normal circumstances, that is.

Nothing about Doctor Who is normal. And when the re-imagined, reinvented reboot returns for its seventh season with Matt Smith once again at the helm of the TARDIS, a potentially vast worldwide audience will be waiting with bated breath, in both the U.K. and across North America. In an unusual move - and a sign of just how big this supposed "cult hit" has become - parent company BBC Worldwide has decided to show the first episode on the same day, virtually at the same time, on two separate continents.

How time flies. The decision was hastened in part by the explosion in social media and the hard truth that spoilers are now a fact of 21st-century existence. If Doctor Who were to air even a day earlier in either the U.K. or North America, its secrets would be out and the story would be ruined for a legion of fans.

And there are plenty of secrets in the coming season, showrunner and Doctor Who guru Steven Moffat teased at last weekend's Edinburgh International Television Festival. The coming season will mark the end of the Amy Pond era, the Doctor's most recent companion as played by Inverness ingenue Karen Gillan. Gillan is poised to take on a feature-film career - forgive the

GOOGLE IMAGES

pun - across the pond, and Who devotees are already teary-eyed over the prospect of her inevitable goodbye - said to be a "blockbuster chase" through the streets of Manhattan at the season's end.

The entire season is poised to be a blockbuster, Moffat promised. BBC spared little expense, despite budget cutbacks, in backing what has become the U.K. public broadcaster's most-watched, highest-rated and most profitable export program.

Doctor Who is one of those cable dramas that produces only a handful of new episodes per season. Last season was split in two, with seven episodes at the beginning, six episodes at the end and a two-month

break in between. The pattern is likely to repeat itself this season. That means each episode counts for a lot with Who devotees, and Moffat has said his ambition this season is to make every episode a standout, stand-alone blockbuster in its own right.

Doctor Who's original baddies, the Daleks, return in the season opener, and Moffat promises a meaner, nastier Dalek than Doctor Who devotees have become used to. That's not a spoiler: The episode is named Asylum of the Daleks, after all. But the days when a Dalek could be dismissed as a tin garbage can with a giant knob on the end are long gone: These Daleks are an altogether different, more malevolent breed than the Daleks of yore.

"There is a tremendous temptation to go kitsch and sweet with the Daleks," Moffat explained. "You shouldn't. They are insane tanks."

The season opener finds the Doctor (Smith) kidnapped by an old foe and compelled to venture inside "the asylum," an interplanetary prison that harbours only the insane and the universe's most desperate. To say more would spoil the surprise. And as Doctor Who devotees know, Who is all about surprises.

The program has survived as long as it has, Moffat reasons, because each season it takes a different turn. This season will be no different.

"Last year we did a particular story arc," Moffat said. "Next year we will do something else. Every year we

## Entertainment news briefs

### New film to chronicle Rolling Stones' journey

A documentary with newly-released historic footage will trace The Rolling Stones' 50-year journey from teenagers to rock icons, publicists for the band said Thursday. The film, titled "Crossfire Hurricane" - from a lyric in "Jumping Jack Flash" - is due for release in some British cinemas in October.

At Venice: Michael Shannon darkens 'Iceman' role

VENICE - Michael Shannon is film-dom's newest Mafia hit man, playing a killer-for-hire who conceals the truth of his occupation from his picture-perfect suburban family in "The Iceman." Israeli director Ariel Vroman says he fought for years to get Shannon into the role, fending off "more obvious choices."

Paramount and 'Godfather' author heirs clash

The dispute over the future of "The Godfather" franchise is moving to federal court in Manhattan as Paramount Pictures and heirs of the story's author face off at a hearing Thursday. The son of "The Godfather" creator Mario Puzo wants a judge to end Paramount's rights to make future "Godfather" films.

Pippa Middleton writes party book

Pippa Middleton is publishing her first book: A guide to home entertaining. The 28-year-old younger sister to the Duchess of Cambridge, formerly known as Kate Middleton, says that the book is based on her experience in her family's party business and work in an events company.

## Dr. Who

CONT'D FROM PAGE 2

have to go in a different direction. It should never feel like good old cozy Doctor Who."

As for how long Doctor Who might last - the original Who dates back to 1963, after all - Moffat told his audience, "I truly believe it could be a show that outlives everybody in this room."

Then again, chances are you weren't in the room when he said that. Enjoy the show while you can, in other words. And remember, this time next year, Amy Pond will be just another Who memory. Get out those handkerchiefs.

"The Georgeville Story" an exhibition created by the Stanstead Historical Society to be held at the Elephant Barn in Georgeville. The show covers the history of Georgeville from the early settlers, lake transportation and boating, development of the town, it's Inns and stately homes, farming and daily life until the late 1900's. Unique collection of artifacts from the S.H.S and G.H.S. collections and private collectors. A unique opportunity to explore the history of this charming corner of the Townships in a unique setting. The Elephant Barn, 21 Elephant Road, corner Magoon Point Road, Georgeville. Open daily from 2-4 p.m. Entrance is free.

until September 9

Uplands Cultural & Heritage Centre is privileged to present the works of Prudence, Ross and John Heward. Each of them are accomplished artists in their own right; these siblings grew up with a personal connection to the art world which few can boast. Their aunt, Prudence Heward (1896-1947) was an acclaimed Canadian painter in Montreal during the 30's and 40's. The exhibit will run until Sept. 9. Uplands is located at 9 Speid St. in Lennoxville and is open Tuesday to Sunday from 10 a.m. to 4:30 p.m. Entrance is free. Information: 819-564-0409 / uplands@uplands.ca / www.uplands.ca.

September 8

Saturday, September 8th at 7 p.m., Studio Georgeville (20 carré Copp) presents "Where the Heart is: the Idea of Home" - an emotionally compelling evening of poetry and music, as performed by reputed Canadian artists Kathy Fisher and Ian Ferrier, both of whom have previously called the Eastern Townships home. Tickets are \$10. studiogeorgeville@gmail.com or 819-843-9992. The Studio is open 11 a.m. to 5 p.m. Tues. through Sun.. Farmers' Market every Saturday morning 10 to noon.
