EXPLANATIONS

Names in LOWER CASE are those of Subscribers; and Names in UPPER CASE are those of Advertisers.

A SUPPLEMENT

will be found at the end of this book for such few names the addresses of which have been received too late for regular insertion.

The object of the ALPHABETICAL DIRECTORY is to enable you to find a person's address knowing his or her name; the object of the STREET KEY is to enable you to find a person's name knowing the street and no. When hill, lane, place, road, square or any other such word does not follow the residence, the word *street* is to be understood: for example: Abgrall Victor, laborer, Champlain 813, means Champlain street 813.

When two numbers are given in connection with one name, and only one street mentioned, the number first given is the place of *business*, and the second the *residence*—which is always indicated by the letter *r* when both are in the same street; for example: Alain Joseph E, manufacturer's agent, de la Couronne 80, r 80½.

It will be noticed that the names of all members of a firm are added in *italics* directly after the name of said firm. This, it must be understood, does not interfere with the regular insertion of the same names in their *Alphabetical order*.

Our advertising patrons may be found by referring to the Index page 6. We feel justified, after many years acquaintance, in saying we believe them to be among the very best in their vocations in the cities of Quebec and Montreal.

Names of residents in houses of ill-fame not being inscribed in the Street Key, will not as a consequence, be found in the Alphabetical Directory.

There are about 1,800 proprietors in the city. The number of landlords in each ward, including women, are about as follows: Champlain 100; St Jean 200; Montcalm 250; du Palais 125; St Roch 375; St Pierre 100; St Louis 200; Jacques-Cartier 450. The number of voters in the city is about as follows: for Aldermen 1750; for Councillors 3075.

At the time of going to press, 15th of April, there were still 195 lodgings, stores and offices not rented, a fact which, to a certain extent, will account for the few omissions that may be found during the year.
