## STAMP CLUB ARRANGES FOR ANNUAL EXHIBITION TAKING PLACE IN MARCH

Fifth Annual Event to be Held in Victoria Hall Coincides With Hundredth Anniversary of the Postage Stamp — Over 40 Exhibitors Will Participate in Show

The Westmount Stamp Club will hold its Fifth Annual Exhibition of Postage Stamps in Victoria Hall, on Thursday, Friday and Saturday, March 7th, 8th and 9th.

This being its fifth annual exhibition, and the fact that it falls in 1940, the One Hundredth anniversary of Postage Stamps, the club is anxious to make this one of the finest exhibitions ever held on the island of Montreal. There will be over 200 frames of postage stamps issued in 1840, the birth year of postage stamps and the year when the famous penny black was issued, to the very latest issues, issued within the past few days.

## NEW POWERS ARE GIVEN OFFICERS OF POLICE FORCE

Seven Members of Department Empowered by Council to Institute Prosecutions

Authority to institute prosecution in the future of anyone violating the city's by-law or the provisions of the Quebec Motor Vehicles Act, was given to seven officers of the Westmount Police Department by the City Council at a regular meeting Monday night.

These officers, recommended by Ald. W. B. Scott were named as follows: Inspector Robert Byford, Lieut. Richard Edmondstone, Sgts. Thomas Beaton, Rene Tremblay, Charles Baker and Fred Porter, and Desk-Constable Stanley Brooks.

Appointment of Lieut. Edmondstone and Sgts. Baker and Porter as bailiffs of the Recorder's Court of Westmount was announced at the meeting.

The city's Board of Assessors was instructed to prepare its evaluation roll for 1940 to be deposited at City Hall on or before July 31.

Council granted a permit to N. P. Pitt for the construction of a residence on Surrey Gardens. Mayor Walter A. Merrill presided at the meeting.

## No Announcement Is Made Regarding Elections Here

No official announcement regarding Federal nominations in St. Antoine-Westmount Division had been made at press time last night by either of the Conservative associations of the two divisions or the Westmount C.C.F. Association. There were indications that Ald. J. Alex. Edmond might be a Liberal candidate.

The Conservative associations of the two former divisions now composing St. Antoine-Westmount are expected to hold a joint meeting next week when it is probable that nominations will be made.

R. S. White, dean of the House of Commons, and member for the riding until dissolution of the Government, will again present

himself for re-election if nominated by his party.

Mr. White, in an exclusive interview given to the Examiner last August, then stated that if an election was called, he would again run if nominated by the party. He said at that time that he did not intend to canvass his electors for support but desired that they have a free hand to nominate a person who would best serve their interests.

As regards Ald. Edmond, he has also been asked by some electors to run in St. Lawrence-St. George, and also in Mount Royal. None of the requests, however, are official offers of nomination, and Mr. Edmond is conferring with party chieftains as to whether he should be the candidate in any one of the three.

## Westmount Examiner Now In 6th Year of Publication

Inaugurated in February, 1935, the Westmount Examiner this month enters its sixth year of publication, a suburban newspaper that has won the faith of its readers by a news coverage of local affairs that has been both complete and accurate. Its advertising columns have reflected the reader-interest that its editorial contents have created and today it carries more advertising lines than ever before.

The Examiner, in its sixth year of publication, will continue to follow the policy set down by its publishers at the outset, that of maintaining strict political inde-

pendence and honest interpretation of all news affecting the municipality.

News coverage of activities of local churches, women's clubs, and associations of varied nature functioning within the confines of Westmount has always been given special attention and has won for The Examiner countless readers.

Abetted by increased experience, this newspaper will continue in the future to serve the municipality to the best of its ability and welcomes at all times advice and criticism that will help it to achieve this end.

## Importance Of Business Training Is Stressed

"Unless she intends taking up a professional career, no girl should consider her education complete if it does not include a business course," Rotarian Victor D. Spratt, president of the Spratt Commercial College, stated while addressing the regular weekly luncheon meeting of the Westmount Rotary Club in Victoria Hall yesterday.

A girl who does not intend going into business when she finishes her normal education often finds later in life that it is necessary for her to find a position. In such a circumstance this is practically impossible if she has no business training, the speaker said.

**Selling Qualifications**  
Mr. Spratt, who had as his subject "Training for Business," stressed the necessity of including in a business course instruction in selling the pupil's qualifications to potential employers.

A great many students who possess the necessary qualifications fail to secure employment because they have received no instruction in how to go about finding work. The first impression made by a job-seeker on employers often decides on whether he gets a position or not.

Speaking on the operation of a business college, Mr. Spratt stated that not only must it get its business, as does the average firm, but it must train the business it gets. Positions, also, must be found for its pupils if it is to succeed, he said.

The principal requirements

most employers demanded today when hiring applicants with business training, are accuracy and speed in dictation and typewriting, a knowledge of bookkeeping, good appearance, neatness, and personality.

**Want Young Employees**  
Business heads, today, almost invariably demand that new employees be young, this factor applying particularly in the case of girls, the speaker stated.

Business heads consider a person over 25 as being "old," and refuse to employ them. Usually when they ask a business college for a girl stenographer, they specify that she must be about 18 years old, he declared.

Mr. Spratt asked business executives to be tolerant in their treatment of new employees. No one is a hundred per cent perfect in spelling and many young persons starting work for the first time are made nervous by the strangeness of their surroundings. Supervisors have entered into keen competition as to who will collect the most magazines during the month.

Sunday morning a number of the boys attended Divine service at Melville Church with Captain Richardson, being addressed by their Chaplain, Rev. Wm. Orr, Mulligan, D.D.

This week will witness an end to the trumpet section of the band as it has been found more practical to adopt regular "G" bugles. Boys who have been playing these instruments up to now have already received bugles and will be able to continue a more varied group of bugle marches as half the instruments will be equipped with crooks to permit change of key. Bandmaster King is making excellent progress with new recruits, several of whom will be transferred into the regular section shortly.

A new form of physical training will be introduced to the Company this Friday. The boys will prepare for entry into the Battalion's annual display in the spring and for their shield competition.

Warrant Officer Robert Beal is supervising the Life Boy Team, consisting of the younger boys under twelve years of age. This group is making strides forward in their program, giving the boys active, wholesome fun and education each Friday evening.

The company Bible Class committee looks forward to the addition this week of new Brigade Hymn slides.

## P. E. JARMAN HEADS SLEIGH DRIVES TAKE TRAFFIC COMMITTEE PLACE THIS WEEK-END

P. E. Jarman, general manager of the city of Westmount, has accepted membership on the technical traffic committee of the Province of Quebec Safety League. Others in the group are Major Renaud Milville-Dechene, director general of provincial highway police; Athanase Latour, associate deputy minister of roads and J. C. Brosseau, superintendent of public works, city of Verdun. De Gaspe Beaubien is president and Sergeant Howard Baker, of Montreal, secretary.

The sleigh drives under the auspices of the Shaar Hashomayim Junior Congregation will be held this week-end. The senior drive, for boys and girls over 12 years old takes place on Saturday evening. The Junior drive, for boys and girls, under 12, will take place on Sunday afternoon.

Irwin Cabott, Raymond Levy, Edward Levinson, David Solomon and Seymour Pressman participated in the junior congregation service at Shaar Hashomayim on Saturday morning. Harry J. Halperin addressed the gathering on "Youth Aliyah, and Shirley explained the Torah reading.

## TUNA FISHING IN N.S. DESCRIBED BY J. W. HARLOW

Although Taken On Rod And Line, Huge Fish Often Weighs Half-Ton, Club Is Told

"Catching Living Torpedoes" was the topic of an illustrated address delivered by J. W. Harlow of Liverpool, Nova Scotia, now a student at McGill, before the Young Men's Square Circle Club of Calvary United Church on Sunday afternoon.

The tuna or "living torpedo," as Mr. Harlow nicknamed it, was known to the ancient Greeks, Romans and Phoenicians and reference to them is found in the writings of Aristotle, Strabon, Plutarch, Pliny, Oplian, and many others. Oplian, who wrote in 200 B.C. describes methods of catching these giant fish. Mention has been made of the tuna throughout subsequent history, but it is only during this century that tuna fishing has become a major sport, having been brought in prominence in Nova Scotia by Zane Grey, whose catch of a 750 pound tuna, off Liverpool, N.S., held the world's record for nine years.

Following this brief history of tuna fishing, Mr. Harlow described the tuna itself and the conditions under which they are now caught in Nova Scotia waters, displaying slides which showed in detail the make-up of the tuna and equipment used.

Much to the amazement of most members, it was learned that this fish, although taken on rod and line, sometimes weighs half a ton, and the largest one ever taken in this manner weighed 956 lbs. This was landed off Liverpool in 1934 by Thomas Howell of Chicago, but due to technicalities an official record was not claimed and at present, the official world record is held by John Manning of Los Angeles, whose 879 lb. tuna was landed in 1939. It was also stated that the world's record for length of time in landing a tuna is 62 hours although the average is 3 to 4 hours.

After mention of the various Tuna clubs and tournaments, and a very realistic description of a typical day of tuna fishing in Nova Scotia, the address was followed by two reels of motion pictures. These portrayed various fishing scenes, and a complete movie of the actual landing of one of these "living torpedoes."

## SKIING FACILITIES ON WESTMOUNT MOUNTAIN ARE IMPROVED BY CITY

Summit Circle, From Summit Road to Oakland Avenue, Is Closed to Traffic — Potential Run From Area Lengthened by Hundreds of Feet — Road Little Used by Motorists in Wintertime

Westmount Mountain, in future, will provide skiers with a run hundreds of feet longer than any they could hitherto find in this city.

In order to make the run possible municipal authorities have closed to motorists the portion of Summit Circle extending from Summit Road, at the east, to Oakland Avenue, at the west.

Closing of the road will give skiers the opportunity to ski from the north side of the Mountain down its slope away from the City for a distance of approximately 1,600 feet. They will be able to go, from their starting point at the summit, to within a short distance of the Montreal Ski Club.

Skiers, starting out from the centre of the area which in summertime is maintained as a wild flower sanctuary, will now be able to ski across Summit Circle on the north slope of the hill, without fear of danger from passing vehicles.

City authorities closed the road in the interest of skiers partly because it provides little usefulness to motorists in wintertime anyway, there not being a single residence located on the area from Summit Road to Oakland Avenue.

The step marks the second move made by the City in the past two weeks to provide better facilities for skiers in Westmount. Last week a permanent ski instructor was appointed to King George Park where he gives instruction in this popular winter sport each day.

## Rev. Scott Ends Y Series Tonight

Rev. R. DeWitt Scott will conclude his study group at the Y.M.C.A. tonight, on Christians in an Unchristian Society. His topic will be "Christians and the World."

## NEW WAR SERVICE IS INAUGURATED BY YMCA BRANCH

Conducts Class in Conversational French For Soldiers of Scottish Regiment

A class in conversational French for soldiers of the Toronto Scottish Regiment now billeted at the Westmount Athletic Ground is the latest war service endeavor of the local branch of the "Y."

When a Scotie expressed a desire to learn French, W. Spearman, branch secretary, was able to take the problem in his stride. In no time a group of soldiers, all anxious that they should be able to talk French before they went overseas, was formed and W. Parsons, French teacher at Sir George Williams College, started a course of weekly lectures Tuesday night.

Organizing such a group was no task for Mr. Spearman who has been consistently occupied in arranging entertainments, excursions, educational programs and a multitude of other facilities ever since the Toronto Scottish arrived in Montreal.

**GUEST SPEAKER**  
Emile Vaillancourt will be the guest speaker at the regular monthly meeting of St. Stephen's Women's Association, on Tuesday afternoon at 2:15 o'clock. The meeting will be held in the church hall, Wexdale Park.

## "A CLEVER UPSTART"

In a Toronto address Dr. R. J. M. Veit Valentin, a German historian and author who was forced to leave his native land in 1933 due to his political views, brands Herr Hitler as a "clever upstart."

There is no denying the accuracy of this description of the Nazi leader. He is an upstart. A mediocre painter, without education in national or international affairs; without training in political or economic philosophy, he was able to gain control of Germany by ruthless, unprincipled tactics. And there is no denying his cleverness.

This, of course, is what made Hitler dangerous. A man of greater knowledge would see where his aggressive policies were leading him and his country. Hitler, knowing nothing of Britain, was gullible enough to listen to those who told him he could bully his way about Europe without anyone daring to stop him. Puffed up with his own successes, achieved largely because Britain and France wished to keep Europe at peace, he considered he could brazenly continue his plan of domination.

Herr Hitler will be a much more well-informed, and educated, man after this war is over. It may be that he has enough sense to some day agree that he has been only a "clever upstart." It is tragic that Europe should have to administer a costly lesson, in men and money, to such a man.

## NO SURPRISE

Those who have watched the Nazi developments will not be surprised at the persecution of Roman Catholics in Poland. That is part of the German campaign against the church.

The Nazi theory is like the communist as far as Christianity is concerned. Hitler realizes that he must crush the Christian doctrine, if he is to make himself a deity in the eyes of the German people.

It was Lenin in Russia who said that religion is an opiate for the people. He, and Stalin after him, understood that the church stood in the path of Communism. With that thought uppermost in their minds, Lenin and Stalin carried on a determined campaign against Christianity. They have succeeded in large measure because they were able to stifle religious teaching among the boys and girls. As these children of the revolution grew to mature years, they had no grounding in religious education. They did not know God, neither had they any idea of Christianity.

Hitler is attempting to repeat the same procedure in Germany and in German-dominated countries. Poland has been an intensely devout Roman Catholic nation. The Fuehrer knows that in any comparison between himself and God, the people will realize that Hitler is a bad second. So, to overcome that situation, Hitler has set out to crush the church and to push into oblivion religious teaching.

There is nothing especially surprising about the indignities heaped upon the nuns and the sentences meted out to priests. They are part of the reign of terror and ridicule, by which the Nazis hope to smash the church in Poland. By doing that, Hitler intends to start a new generation in Poland that knows not God.

The Nazis and Communists have a common hatred of religion. They know it stands in the way of aggression. That is why both Hitler and Stalin are ruthless in their attempts to crush Christianity.

## CONFEDERATION PLAN

No one can now predict what will be the state of Europe when the present war ends. Consequently, no one can say what arrangement will best suffice to re-establish a war-torn continent.

It is worthy of note, however, that thinking men are studying a confederation plan. The latest to support such is Dr. Thomas Mann, exiled German novelist and professor. He proposes a "democracy of states where freedom and equality will strike a new creative balance."

Some realists may regard the confederation idea as impractical and Utopian. It is true that it might be very difficult to bring into effect. That, however, is no reason why it should not be attempted. If a confederation were achieved it might give greater assurance of a permanent peace than any other system. And if ever a continent is to want an enduring cessation of warfare, it will be bruised and battered Europe.

# STOP ME..

IF YOU'VE HEARD THIS ONE

### One for All

A passenger on board ship found that he had left his toothbrush in the washroom. Returning to recover it, he found a man using it.

"Sir," he exclaimed in amazement, "that is my brush you are using!"

"Oh," replied the man apologetically, "I'm so sorry. I thought it belonged to the boat."

### Explanation Required

The householder called at a plumber's and asked: "Are you the man who came to my house today to mend a leak in the pipes?"

"Yes, sir," was the reply.

"Didn't you tell my wife that you knew your work and never made mistakes?"

"Yes, sir, I may have done."

"How is it, then, that the chandelier in my dining room is spraying like a fountain and the bathroom tap's on fire?"

### Party Fun

The party was dull, and the guests were sitting round, looking and feeling much bored. The hostess, in an endeavor to infuse a little pep into the proceedings, said brightly, "Well, what shall we do next? Does anyone know a really good game we can play?"

"Well," a normally gay young man suggested, "I know a decent guessing game and it's somewhat original."

"How do you play it?"

"Well, first of all, I go out as if I was going home—and everyone spends the rest of the evening trying to guess where I've gone!"

### The Ovation

Stage Hand: "You received a tremendous ovation; they're still clapping. What did you say?"

Actor: "I told them I would no go on with my act until they quieted down."

# The Examiner's Hidden Titles Contest

The Westmount Examiner's Hidden Titles Contest is run with the kind co-operation of Mr. Godel, manager of the Westmount Theatre. Each week twelve passes are given to the six lucky winners who comply with the following requirements:

Simply find the two "ads." in the current issue of The Westmount Examiner in which the names of the two feature pictures being shown at the Westmount Theatre during the first half of the coming week are hidden.

## In Which Subjects of General Interest Are Discussed

The opinions expressed in this Forum are not necessarily those of this newspaper and it does not accept responsibility for them.

"Nevertheless it is true that brains are at a premium in the Roosevelt Administration. There is undoubtedly more diligent use of strict scientific method under the New Deal than under any other government or administration of modern times. Special significance might be found in the fact that Adolf Berle, who is today probably the most important single producer of brain waves around the White House, was an intellectual prodigy who went through Harvard at an age when most boys are playing with marbles. Their (the New Deal agencies) devotion to facts, the collection, collation and scientific elucidation of facts has delayed the achievement of an over-all integrated program. But if it is an error it is an error far less serious than that of most European social reformers—Marxian Socialists in particular—whose theorizing has been so far removed from the world of facts that in action they have often seemed mere hack politicians." — Alfred M. # CHRISTIAN SCIENCE SERVICES

"Spirit" is the subject of the Lesson-Sermon to be read in Churches of Christ, Scientist throughout the world on Sunday, February 11.

The Golden Text is from John 4:25, "God is a Spirit; and they that worship him must worship him in spirit and truth."

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Let your light so shine before men, that they may see your good works, and glorify your Father which is in heaven."—Matthew 5:16.

The Lesson-Sermon also includes the following passages from the Christian Science textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Christian Scientists must live under the constant pressure of the apostolic command to come out from the material world and be separate. . . They must not only seek, but strive, to enter the narrow path of Life, for 'wide is the gate, and broad is the way, that leadeth to destruction, and many there be which go in thereat.' If our hopes and affections are spiritual, they come from above, not from beneath, and they bear as of old the fruits of the Spirit."—Page 451.

# BOOK REVIEW

BY HOWARD S. ROSS

## THE POOR AND OURSELVES

By Daniel-Rops Translated by Barbara Wall

Burns Oates & Washbourne Ltd., publishers to The Holy See, London, G.B. Price 2s. 6d.

The author is one of the leading figures in the intelligentsia of the religious revival among the post-war generation in France. He describes what he has seen around him in destitution and moral suffering through modern condition, and he applies the teaching of Christianity with a passionate urgency which reveals the heart-searchings of the younger generation in France during a period of intense social conflict and upheaval.

Some of the chapters are: They near us and we are neglectful; Destitution Is Not a Political Question; Was Bossuet a Bolshevik?; Social Justice and the Common Good; Charity or Alms? and The Damned of the Earth.

The Translator's Note reads: The French title of this book is La Misere et Nous; and throughout the word misere constantly recurs. There is no English equivalent. Poverty is inaccurate, as in the text 'misere,' which implies something more hopeless and insecure, is contrasted with poverty. I have therefore used the word 'destitution.'

The following words show the spirit of the author's vigorous appeal for a social order based on justice to all. "We hope with all our might that our civilization will be spared bloodshed as much as possible. We desire that everything should be accomplished in the order of charity and not in violence. But it is essential that this state of affairs should change. In this world, rich to the point of excess, destitution is more unacceptable than ever. Let no one tell us to concentrate on the final things of this world to 'practical' men. We do not accept this cleavage between the spiritual and the temporal: we want a city that is just for our bodies, so that our souls may not be crushed."

For a delicious new flavor, use maple syrup in place of sugar to sweeten whipped cream.

Sharps, Flats and NATURALS by FRANCES GOLTMAN

Just as there are definite types of voices, which were described in last week's article, so there are special forms and examples of songs to suit each individual kind of vocal organ. The thoughtful singer will first study many types of songs and then decide which suit him best. After discovering which form is his particular field he will devote his energies to attain perfection.

Frances Goltman will shall essay to illustrate and explain a few of the most used kinds of vocal compositions.

The "Ballad" is a short unaffected melody with a delicate accompaniment and is really a narrative song which is popular with lyrical singers on the concert platform. The "Aria," which is most often heard in opera (though many artists sing these songs on concert programmes) is the type of vocal display in which a singer can show off his technical dexterity. A poem intended for singing is called a "Lied" and many of Schubert's most famous songs are in this form. This type is sometimes called the "Lyric" song and the text of the poem is brought out by the emotional stress of the music. The greatest classical composers of this type are Schubert, Schumann, Franz, Mendelssohn and Brahms.

"Folk" songs are the songs of everyone since these are the tunes that are passed on from generation to generation and show national characteristics. This form can be enjoyed by all as the songs are not difficult technically and do not require great efforts. Simple entrancing melodies that are beloved of each country are often sung in concert in contrast to the heavy dramatic art-songs of strictly musical classification. Two famous singers who made a study of folk songs and gave recitals in national costumes are Isa Kramer and Frieda Hempel.

The "Art-Song" made its bow at the beginning of the nineteenth century. This form lacks the artificial showiness of the operatic aria because it has high musical qualities and demands intense study and sound musicianship. Many countries show different styles in singing; the Italians preferred the operatic type; the Germans the intellectual Lied; the French, the Chanson which placed the attention on the voice rather than the song and the English are noted for their delightful ballads.

Virginia Dale, nee Paxton, now a budding thespian at Paramount studio and appearing in "Buck Benny Rides Again," starring Jack (Buck) Benny, today discloses that's how she obtained her cinematic name of Dale.

# Canadian Legion Plans Post-War Assistance

With two divisions of Canadian troops due for France and an extensive war organization growing in Canada, the Canadian Legion realizes that an enormous crop of fresh problems is bound to arise immediately after the present war. One of the biggest will be that of veteran rehabilitation.

What can be done with the man whose job has melted away while he was at the war? Will he go to his alderman for the dole? Will he stand on Dominion Square begging dimes — with a veteran's badge and a couple of medals to encourage charity? That's no way for a nation to reward its heroes — at least, in the opinion of the Canadian Legion. They want \$80,000 from the people of the province of Quebec to guarantee that that will not happen to the men being sent overseas today. The Legion believes Canada owes to every soldier training for some kind of job, and the Legion has entered

into an agreement with the Canadian Association for Adult Education, whereby the Legion will provide the material means and the C.A.A.E. will provide educational facilities and organization. Co-operating with the C.A.A.E. are the education departments of the nine provinces; all the universities in Canada, the Y.M.C.A. and many colleges and educational institutions.

For this purpose the Canadian Legion has created a new body — The Canadian Legion War Services, Inc., which will procure the money for the training, education, and rehabilitation of soldiers and ex-soldiers and will obtain facilities such as classrooms, books, transportation, stationery, equipment.

In a campaign opening February 12, the Legion will ask Canada to provide \$80,000 to get this work under way. Of this sum, the Legion hopes to secure \$80,000 from the Province of Quebec.

# PROGRAMS WILL BE SUSPENDED FOR ELECTIONS

Periodic interruption of regular CBC program schedules will be necessary during the progress of the Dominion election until March 23rd, which will be the last date for political broadcasts.

The agreement just reached by the CBC and Canadian Association of Broadcasters with representatives of the four political parties, whereby twelve and three quarter hours of free time on the national network will be divided among them, will mean the cancellation of a corresponding amount of regular program time.

In as much as all political broadcasts will consist of talks, the regular talks schedules of the CBC will suffer most. Already, some talks have had to be postponed until after the election. Chief among these is the series on Cooperation carried over the national network each Wednesday evening, at 9:00 p.m., by the CBC in cooperation with the Canadian Association for Adult Education. Five of these have already been delivered next Wednesday when Dr. M. M. Coady, of Saint Francis Xavier University Antigonish, N.S., will tell what cooperation has done for the fishermen and farmers of Eastern Nova Scotia.

The postponement of the remainder of the series on Cooperation has been rendered necessary in accordance with the statement of policy of the CBC with respect to controversial broadcasting published on July 8th, 1939, which provides that on and after the commencement of a Dominion election campaign, non-party broadcasts of a controversial character, especially those on economic, social or political subjects will be cancelled. It is expected that the series on Cooperation as well as others which may be interfered with will be renewed immediately after the election.

# Canadian Legion to Open \$500,000 Appeal Monday

On February 12 The Canadian Legion War Services will launch a nation-wide appeal for \$500,000. Considered in the cold light of the eventual value to Canada, and without weighing its benefits as a contribution to the peace of mind of the members of the naval, land and air force, the work undertaken by this great wartime organization is a sound investment in Canada's future welfare. That the investment will be productive of dividends is assured already, being foreshadowed by the amazing response from the men of all ranks who are eager to accept the facilities offered them to continue their education even though on active service.

Wide In Scope The magnitude and importance of the education program offered by The Canadian Legion War Services, in collaboration with the Canadian Association for Adult Education, may tend to attract attention only as the first time in man's history that an organized, well-planned effort has been made to help men in wartime prepare themselves for peace. But, underlying the undertaking, there is the paramount objective of winning the war. Surely a man who has offered himself for his country's defence, and who devotes some of his time to thoughtful consideration of his personal position as a citizen, is a man who realizes the value of carefully-planned action and restraint? Such a man reveals himself as a better citizen in uniform and a better citizen among his neighbours. His will be a greater contribution in peace or war.

In addition to education, The Canadian Legion War Services' program includes personal services, entertainment (including development of soldier-concert parties and moving picture presentations), recreation huts and leave hostels (with facilities for reading, writing and games), publication of unit newspapers, travel information, and sports.

# HOME AND SCHOOL GROUP TO HEAR DR. H. SOUTHAM

Will Address King's Association on "After Sixth Year, What?" Monday

Dr. H. D. Southam of the Department of Education at McGill University will be the guest speaker at the next meeting of the King's Home and School Association on Monday evening, at 8:15 p.m. Dr. Southam is an educationalist of note both in Canada and England, where he has done post-graduate work. He has had valuable experience in High School work and research in British Columbia and the United States, and for the past six years has been at McGill.

Just now, with interest being shown in the Protestant Education Survey which recommended the 6-3-3 system in the schools of Quebec—that is, six grades in the Primary School, three grades in Junior High and three Senior High School, Dr. Southam's talk on "After Sixth Year, What?" is very timely and should be of interest to parents everywhere.

If there is a change in the educational system in Westmount it is going to affect all those attending school as well as their parents, most especially those now connected with the primary grades. They are the ones who will either as they are now or as they may be changed. A clear view of the present set-up as well as a discussion of possible changes should be valuable, the club believes. The meeting is open to anyone who is interested in education, either parents or pupils, so a large turnout is anticipated.

# DISTINGUISHED VISITOR WILL SPEAK AT 'Y'

She will address a public meeting on Tuesday, February 13 at 8:15 p.m. in the Prince of Wales Salon of the Windsor Hotel, on the subject "Czechoslovakia in the European Conflict." The Rt. Rev. Arthur Carlisle, Bishop of Montreal, will act as chairman.

On Thursday and Friday, February 15 and 16 at 10:15 A.M. she will conduct discussion groups on Christianity and Democracy at the Y.W.C.A. These meetings are open to the public.

Special events for members of the Association include a Youth Night, when topics of special interest to club members will be discussed. On Wednesday, February 14, a luncheon will be held at the Central Building at which Miss Matouskova will address the Board, Committee Members, Staff and General Membership on a topic of special interest to all members of the Association: Program for Youth in the National Y.W.C.A. **DINNER:** Broiled halibut steaks, lemon parsley butter, parsley potatoes, scalloped onions and tomatoes, romaine salad, Valentine Fancies, coffee, milk.

**Valentine Fancies**  
Paste: 1/4 cups water, 1/2 cup butter, 1/2 teaspoon salt, 1/4 cups sifted all-purpose flour, 4 eggs.  
Filling: 1/2 cups cooked prunes, 4 tablespoons granulated sugar, 1 teaspoon cinnamon, 1-3 cup prune juice, few grains salt, 1 tablespoon plain gelatin, 2 tablespoons cold water, 1/2 cups whipping cream, 1/2 cup sliced candied or maraschino cherries.  
Cream for garnish.  
Paste: Combine water, butter and salt, and bring to a boil. Add flour while stirring briskly. Cook and stir until paste leaves sides of kettle clean

when stirred (2 or 3 minutes). Cool slightly. Add unbeaten eggs one at a time, beating well after each addition. Cut heart shapes from brown paper, and brush with oil. Place paper hearts on cookie sheet (do not crowd) and outline with paste, forced through a pastry gun or paper cone. Build outline about 3/4 inch high by making first a straight line on the paste and then covering with zig-zag line and topping with a second straight line.

Bake in a moderately hot oven (400 degrees F.) for 40 to 50 minutes; cool. Pull off paper and place on serving plates. Fill centers with prune filling. Top each with a small red heart cut from gelatin, cranberry sauce or firm jelly. Garnish with whipped cream. Makes 1 large and 6 small hearts.

Filling: Pit prunes and cut into small pieces. Combine with sugar, spice, prune juice and salt, and heat to boiling. Moisten gelatin in water, add to hot prunes and stir to dissolve. Cool. Whip cream and fold with cherries into prune mixture. Chill.

# CITY TO SPONSOR TWO MASQUERADE ICE CARNIVALS

## EVENTS RUN BY MUNICIPALITY TO BE HELD AT KING GEORGE PARK, STAYNOR PLAYGROUND

King George Park Carnival Takes Place on February 16 — Staynor Festivities Planned for February 23 — Scenes will be Colorful Ones — Final Arrangements Are Now Being Completed

Two masquerade ice carnivals will be sponsored by the municipality this year, it was announced yesterday.

The first is to be held at King George Park on Friday, February 16, to be followed by a second one at Staynor Playground on Friday, February 23, a week later.

In past years ice carnivals staged under the jurisdiction of the City have attracted thousands of persons and the events planned for this year are expected to prove even more popular than ever.

The scenes will be colorful ones, as they have in the past, with the rinks decorated with colored lights.

Although definite arrangements have not yet been completed it is expected that the program will include races, exhibition skating, a broom ball, and a costume parade.

There will also be a display of fireworks.

## YMCA TO HOLD SECOND PARK SLIDE NIGHT

Success of Function Last Week Reason for Second Event on Feb. 16

The Park Toboggan Club was the scene of a very successful evening last Friday night. The occasion was "Westmount 'Y' Night." The slides opened at seven o'clock, and tobogganing continued until eleven. There was skating on Beaver Lake and skiing on the hill under the floodlights. Dancing started at nine o'clock, and continued until one. As a result of the success of the evening, the event is to be repeated on Friday, February 16. The program will be for the most part the same, but in addition that night will be a moonlit one. A cup engraved "Westmount 'Y' Night Ski Champ 1940" will be awarded as a prize for skiing. It will again be in charge of the committee which handled it last time. This is headed by Jack Charters, Tom Chown, and Sandy Morrison.

COMBINATION LOCOMOTIVE  
Russia reports the making of a combined steam and diesel locomotive.

## "Y" Notes

Henri Denis of Yellow Knife, North West Territories, will speak at the Junior and Intermediate Club Supper on Friday evening at six. He will also show three reels of movies.

**Swimming Club**  
Friday evening at 8.30 Vic Soucisse will put the boys through a work out. The swimmers are getting in training for the spring swimming meets including the Hobby Show west which comes off about the middle of March.

**Vocational Guidance**  
Older boys interested in securing vocational information should sign up at the Y office. A series of tests, addresses and interviews should help them in the choice of their life work.

The response to last week's appeal for old Victor Records was encouraging. There were over 600 records turned in and that leaves 1900 to go. Every Saturday evening the soldiers of the Toronto Scottish Regiment come to the Y for an evening of recreation and they must have music. This is an opportunity to help get a new R.C.A. Victor Electro. The R.C.A. use the old records to melt down or grind up to make new records. Last Saturday evening the Ladies of the I.O.D.E. were the hostesses for the Toronto Scottish Dance.

## About Scouts

The Boy Scouts of Gibraltar have offered to collect wastepaper around "The Rock" to ship to England as a contribution to the country-wide wastepaper campaign being carried on by the Scouts of the Old Country.

Sir Percy Everett, Deputy Chief Commissioner of Imperial Headquarters of the Boy Scouts Association, a last autumn visitor to Canada, has interestingly recorded his experiences in a book, "Fifty-two Days."

The formation of "Anti-Rumor Patrols" is one of the original wartime activities of the Boy Scouts of Trinidad and Tobago. They aim to nip any false and alarming news in the bud, as a contribution toward maintenance of a steady morale on those islands.

Proving that wartime service is not preventing British Scouts carrying on with their usual humanitarian activities, comes announcement of a gallantry award to a Scout of the 13th Prestwich Troop, Lancashire. He rescued a cat from the River Irwell.

An X-ray machine was the last valuable contribution of the Scouts of Montreal to the equipment of the Children's Memorial Hospital. The apparatus was purchased by the Montreal Scout "Good Turn Fund." For some years a Cub Pack and Scout Troop for the young patients of the hospital have been carried on by Montreal Scouters.

The erection of a 25 x 50 foot Scout hall in a day, was the feat of a group of citizens, including Rotarians, of Gunnedah, New South Wales. The work was begun at 6 a.m., and the volunteers, including practically every carpenter, bricklayer and plumber in town, had completed their task by 6 p.m. The building material had previously been brought to the site.

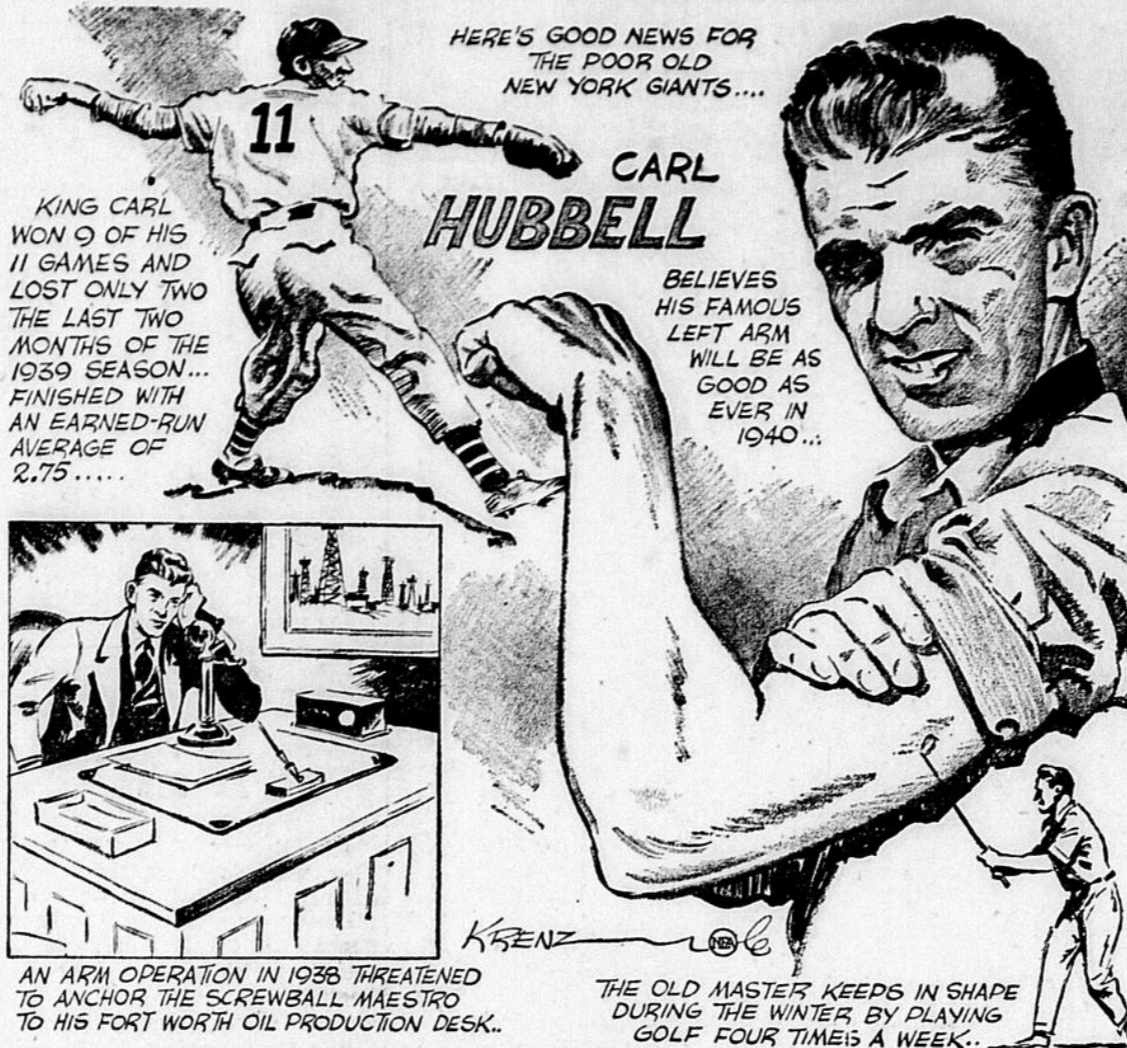

"The first Hallowe'en on which no damage was done, and due to the Boy Scouts," was the recent tribute of the Reeve of Oil Springs, Ont. The Scouts had that night put on a party for all the boys of the village.

A clubroom for overseas and other Scouts in His Majesty's forces, has been opened at Imperial Boy Scout Headquarters, London. The club is open daily from 9 a.m. to 11 p.m., and meals are obtainable at all hours. A special welcome is extended former overseas Scouts.

Scouts and Scout leaders of the Canadian West who regularly travel long distances to attend meetings have their long-distance brothers in New South Wales. A lady Cubmaster at Lockhart, N.S.W., cycles 28 miles each week over bush roads to take her Cub Pack meeting. Six Walgett Patrol Leaders wheeled 114 miles to attend a Patrol Leaders' Training Course, then wheeled the same distance home.

Few Boy Scouts are more busy at wartime service activities than those of Gibraltar. They have provided the entire boy messenger

## Baseball Starts Second Century; Prexy Reviews

The centennial celebration made the 1939 baseball season one which no fan will ever forget. It left its impress on the baseball world in the form of celebrative pageantry. It made an even deeper mark in the baseball records, because it wasn't just coincidence that in 1939 the number of sandlot and semipro ball teams jumped to a new all-time high; that there were more high school teams in action than for many years past, and in many high schools and prep schools throughout the country baseball reached again its old-time place as the No. 1 Spring sport.

Whether or not the opening of the door into baseball's second century means the beginning of a definitely new era remains to be seen. The nationwide quickening of interest in baseball on the campuses and playgrounds, however, marks an encouraging and inspiring answer to forward-looking queries about the national game's future.

The National League's traditionally hard-fought pennant race was in tune with the centennial picture of clean, close, neck-and-neck championship competition, and a fair chance of all. The increase in the season-total attendance at National League games jotted down in black and white the vote of the fans in favor of coliseum-race baseball.

As for the American League, I don't think anybody can overlook the excellence of that circuit's standard-bearer—the New York Yankees, a team which every baseball man must be proud of. Throughout the minor leagues the centennial year evidenced baseball's universal revivification—an increase of total attendance over and above the natural rise due to the bevy of new minor leagues which became members of the national association.

Looking forward to 1940 there seems no reason to doubt that this revived baseball interest will continue. At the major league convention in Cincinnati, birthplace of professional baseball, came inspiring evidence of this continued growth in the formation of several new minor leagues to increase the total of last year's roll-call. In a world saddened by the voice of war across the oceans, not too much good cheer can be hoped for in any direction, but baseball can and will play a part in the American scene in 1940, which will be on the brighter side.

## Gardenias Bloom At Cypress Gardens

Snowy, waxy gardenias, filling the air with perfume, attract winter visitors to Cypress Gardens, near Winter Haven, Fla. During nine months of the year, the gardens are filled with the gardenia blossoms, every month new colors predominating. In early winter, the Camellia Japonica presents a picture of the Old South. In January and February, the Flame Vine sends forth a blaze of brilliant orange as it covers walls, fences and tallest pines. Spring months exploit tropical lilies from Africa and the Orient.

Electric boats, gliding through picturesque lagoons, provide a spectacle of an overhead grove, with moss draperies hanging from the branches of leaning liveoaks. From the water's edge rise strange and curious "cypress knees," resembling grotesque carvings. The bog winds in and out of canals to Lake Eloise, passing under rustic bridges and giving a view of collections of rare and fantastic plants brought from far corners of the earth.

## JOCKEY SAYS SOME START TOO EARLY

Young jockeys who push the bangtails around go to Frankie Otis—veteran turfman and the rider who booted home three \$10,000 winners back in 1902—for pointers on fine horsemanship. Otis now makes a living as padlock and patrol judge, working from track to track. Twenty-five years ago he was one of the country's leading jockeys.

He says this modern age is soft for jockeys. When he was riding, a boy had to take two years of punishment and apprenticeship living with horses, working them day after day, and mastering the fine art of pace and rhythm. "Now," Otis says, "many lads are rushed into colors before they are really ready. "Little chance do they get to learn about handling a horse or to make a study of the important item of pace. Frequently a youngster makes his debut after but a six or seven months' period as an exercise boy."

Otis believes the current popularity of jockey club schools eventually will mean more experienced jockeys on the country's tracks. Back in the old days — from 1901 to 1914, when Otis was in the saddle virtually all the time — there were many outstanding artists of the whip and saddle such as Carroll Schilling, the Reed brothers, Johnny and Lester; Johnny Reach, "Monk" Coburn, Johnny Bullman and others.

"To my way of thinking there never was a greater jockey performing than Schilling," Otis insists. "He had everything — a strong pair of hands, beautiful form, a keen sense of pace and a wide-awake manner at the post. "Emulating Tod Cloan, he was incomparable in riding on a horse's withers and taking his weight off his mount's back.

## ST. LEO'S WILL LINE UP AGAINST DANIEL O'CONNELL IN FIGHT FOR MEMORIAL CUP

Will Play Two 15 Minute Periods — Lemay Brothers And Gordie Poirier Will be Seen in Action — Paul Haynes Will Handle Referee Job

St. Leo's School has been selected from among the strongest contenders to oppose Daniel O'Connell for the Canon Heffernan Memorial Trophy, emblematic of bantam hockey supremacy among Catholic schools.

The game, consisting of two 15-minute periods with no time out, will be played tomorrow night in the Forum as one of the events on the program of the annual ice carnival of the Xavier Apostolate Guild.

Highlight of the carnival will be an all-star game between players who played last year in England, drawn largely from the P.S.H.L., and players who remained in Canada during the exodus of puck-chasers to the Old Country.

Appearing with the English team will be the Lemay brothers and Gordie Poirier, of St. Hyacinthe Gaulois, who refused a \$24,000 contract to turn professional with Canadians.

This line has scored more than 200 points this year. They were responsible last week-end for the 4-3 defeat of Toronto Godyears at the hands of the St. Hyacinthe squad, figuring in every one of the winner's goals.

Their performance proves that they play just as hard in exhibition games as they do in regular P.S.H.L. fixtures, according to Doc Clement, prominent local sportsman, who is organizing the carnival with the aid of the Gentlemen Ushers of St. Augustine's.

Daniel O'Connell won the Canon Heffernan cup last year, defeating the Loyola "pee-wee" representatives.

The bantams will line-up as follows:  
O'Connell: Girouard, Lambert, Toohy, Neville, Slou, Munn.  
St. Leo's: McCrory, Bulger, Boyle, Petersen, Shea, Munro.  
O'Connell alternates: Benson, St. Pierre, Rheume, Cosgrove, Gray, McQuillan, Onesime and Manamon.
