

DOCKERS RAID LABOR PARTY

Trade Union Congress In
Dublin, Compelling Dele-
gates To Erect Barricades

Dublin, Aug. 8.—A party of 150 men, said to be dock strikers, successfully rushed a side door leading to the ground of the Dublin Mansion House, where the Labor party Trades Union Congress was in session today. The Congress immediately adjourned and the delegates barricaded the doors with chairs. The police arrived quickly on the scene and kept the crowds away from the doors, while the session was resumed.

TRAINS KILLED 13 PERSONS

On Level Crossings In Buffalo
District Within Three Days
—Others Injured

Buffalo, Aug. 8.—Five persons were killed and five were injured in the vicinity of Buffalo last night and today and three day total of crossing fatalities was brought to thirteen.

In railroad crossing accidents and Sunday three families were completely or partly wiped out.

One man was killed and five persons were injured, possibly fatally when their auto turned over on the Hamburg Turnpike near the Buffalo City line this morning. All were Buffalo residents.

James Bohlen, 27 years old, was pinned under the car. His neck was broken and he was dead when aid reached him. The car is believed to have skidded on the wet pavement after rounding a curve. Charles Pratte, Mrs. Leha Brooks, his niece and Mrs. Brooks' two sons, one year old and five years old, were killed yesterday when the light truck which Pratte was driving stalled on the Wheatfield Highway Crossing of the New York Central, one mile east of Lasalle. Three of the victims were ground to death under the wheels of the train. One of the children lived only long enough to reach a hospital.

Sunday nine persons were killed and one seriously injured when a New York Central train crashed into a truck load of Italian picnickers at the Sugar Road crossing near Niagara Falls.

The Weather

Toronto, Aug. 8.—An area of high pressure over the Lake Region and the weather is fair and cool from Ontario eastward. Scattered showers have occurred again in Manitoba and Saskatchewan.

Maritime—Moderate west and northwest winds; fair with stationary or lower temperature.

GOVERNMENT CONFERENCE ON NATURAL RESOURCES

Winnipeg, August 8.—The conference with the Federal Government on the natural resources dispute, which was scheduled for Ottawa this week, has been postponed indefinitely. John Bracken announced today. The meeting was postponed owing to the inability of some of the Premiers to attend while the wheat pool conferences were in session.

C.P.R. HARVESTER TRAIN DERAILED AT SUDBURY

Several Passengers Were In-
jured, But None Seriously,
Says C.P.R.

7 COACHES DERAILED

Accident Attributed To Broken
Rail, Though Definite In-
formation Not Available

Montreal, Aug. 8.—Canadian Pacific Railway headquarters here issued the following statement tonight:—

The Harvester train which left Montreal at midnight Tuesday had seven coaches derailed, 45 miles west of North Bay, Ontario at 5.29 this afternoon. The cause of the derailment has not yet been definitely ascertained, but indications are that it was due to a broken rail. Several passengers were injured, but not seriously.

Sudbury, Ont., Aug. 8.—The Harvester special derailed at Warren to-night carried between four hundred and five hundred excursionists bound for the Western wheat fields. It is thought mainly from the province of Quebec.

Immediately the wreck was reported a special train was rushed from Sudbury carrying a number of medical men and train officials. East bound traffic is being transferred at Sudbury to-night to the Canadian National lines, trains numbers 13 and 2 being routed to North Bay via Capreol. Latest reports are that only two have been severely injured and ten or twelve more or less injured. As yet no official word has come from the scene of the wreck and the list of the injured is not yet available.

SOCIALIST SPLIT IN ITALY

Section Of Party Plan To Es-
tablish Collaboration With
Mussolini Gov't.

Rome, Aug. 8.—A new split in the Socialist party a portion of which is favorable to collaboration to the Mussolini Government seems probable through the action of Deputy Alessandri, who supported by several colleagues has founded a newspaper with the avowed intention of bringing his party around to the idea of cooperation.

It seems probable that at the next meeting of the Socialist Party which is likely to be held at the end of this month, Deputy Alessandri and his supporters will be expelled.

GOV'T. TO ASSIST WHEAT POOL

In Manitoba, Premier Bracken
Stated After Attending A
Conference In Saskatoon

Winnipeg, Aug. 8.—Government assistance will be lent any effort to form a cooperative wheat, selling pool in Manitoba, Hon. John Bracken, Premier of Manitoba, said today on his return from Saskatoon where he attended a conference for formation of the voluntary selling agencies for Saskatchewan and Alberta.

"I cannot speak for the farm organizations of Manitoba, but in case they should decide that it is desirable to proceed immediately to organize a voluntary pool on the contract basis the Government will only be too glad to lend its moral support," Mr. Bracken stated.

KRUPP APPEALS TO BE HEARD

Today By Court Of Causation,
Highest French Criminal
Appeal Court

Paris, Aug. 8.—The appeal of Baron Krupp von Bohlen, head of the Krupp plant at Essen, and the three other directors of the Krupp Company, convicted by a French court martial at Verdun and sentenced to various prison terms will be heard tomorrow by the Court of Cassation the Highest French Criminal Court of Appeal.

The Krupp directors were convicted on charges of indirect complicity in the disorders at the Krupp plant on March 31, last as a result of which 14 workmen were killed. Dr. Krupp von Bohlen got a 10 year term and a fine of 100,000,000 marks. Directors Harwig and Osterlen were given 15 year terms and director Burghae a 10-year term with fines of 100,000,000 marks each. The French Court of Revision in May confirmed the sentences and counsel took an appeal to the Court of Cassation.

U.S. BOATS WON'T HANDLE GRAIN

From Canadian West This
Season, According To State-
ment To Commissioners

Winnipeg, Aug. 8.—Assistance of United States vessels in the moving of Canada's 1923 wheat crop across the Great Lakes will not be given, according to a telegram made public at a meeting of grain men and members of the Board of Grain Commissioners here today. Grain States steamship owners are opposed to filing tariffs and have no desire to evade Canada's new Lake Freight Act, it was declared in the telegram received today from the Cleveland representatives of the steamship owners.

The telegram reads:—"Your message conveyed suggestion managers at Cleveland commit themselves to violation or evasion of a Canadian law. Cleveland owners will not knowingly violate or evade any law. You and other Winnipeg brokers are familiar with the fact that Cleveland managers do not care to discuss laws of Canada which have already been enacted.

So far owners have shown no disposition to take Canadian grain when we have negotiated future charters.

The conference failed to reach an agreement on the question of demurrage, it was announced, when the meeting adjourned this afternoon. The steamship representatives will insist demurrage charges should be taken care of by the grain shipper.

The Commissioners will leave for Ottawa to-night to discuss the whole situation with Hon. J. A. Robb, Minister of Trade and Commerce and officials of the Department of Justice.

It was mutually agreed that the question of pre-payment of brokers commission should be dealt with privately between the grain, shipper, brokers and steamship companies.

BEATIFICATION OF BELOVED SISTER THERESA WAS COMPLETED

Lisieux, France, August 8.—The ceremonies of the Beatification of Beloved Sister Theresa were completed today. This morning there was a procession in which the silver and gold reliquary was taken from the Carmel Chapel to St. Peter's Church where Cardinal Bourne celebrated solemn High Mass and Cardinal Touchet delivered the sermon.

This afternoon the reliquary was taken in a procession back to Carmel Chapel where it will remain permanently.

"LADDIE BOY" SAID GOOD-BY TO HIS DEAD MASTER

Washington, Aug. 8.—Laddie Boy said good-bye to his master in the east room of the White House this morning. Mrs. Harding who loves Laddie Boy no less than her husband did, told the attendant to take him in the east room for a moment because he seemed to want to go.

Alertly, Laddie Boy sniffed the heavy air, freighted with the fragrance of funeral blooms, walked solemnly around the bier lying under the great crystal chandelier and poked his nose in the flowers, as though looking for the master he knew was there but could not see. Then he turned his brown eyes on the White House attaches with an enquiring look.

Submission to the "merciless obstinacy" of the French Government, he declared, would have to be sealed with a document which would be worse than the Treaty of Versailles.

The latter agreement, he contended, "weighs like a curse upon the peoples of Europe."

GERMANY WILL NOT ABANDON RESISTANCE

Chancellor Cuno Said, Adding
Negotiations With France
Were Impossible

NO SYMPATHY EXPECTED

Germany Must Fight Her Own
Battle In Spirit Of Self-
Defence

Berlin, August 8.—Passive resistance will be continued with all the strength of the German people, "free from mad acts of violence and terror," and the people in the unoccupied territory will "support actively" those in the occupied region, Chancellor Cuno asserted in addressing the Reichstag when it convened for a short extraordinary session today.

When the Chancellor rose to begin his long address he was prevented from speaking for some time by the Communists who greeted him with epithets such as "traitor," "swindler" and "the President of the Stinnes Companies Board is going to speak."

One Communist deputy got very excited, shook his fist at the Chancellor and was called to order twice.

Herr Cuno was subjected to continual interruption during the speech, which was received somewhat coldly by the House.

"If there is no light on the horizon which promises us speedy help, then it is for us to keep alive by means of our own iron determination," said the Chancellor in his peroration, "and to make every sacrifice in this we must rely solely on ourselves. We stand alone and must and will help ourselves."

The Chancellor asserted that France was receiving only one-fifth the coal and coke which she formerly received and declared that she could not hope for better deliveries as the workers and employers refused to work "at the point of the bayonet for the benefit of the oppressor."

No Civil War.
He counselled his hearers to have nothing to do with civil war and announced that the Government would suppress with the strongest hand any civil disorder. He pleaded for open discussion as a means of saving the nation and said that he himself was ready to resign when it was felt the people had lost confidence in him.

At the opening of the sitting President Loeb paid tribute to the late President Harding, the members and the occupants of the public galleries standing during Herr Loeb's address.

At the opening of the short extraordinary session of the Reichstag today to dispose of urgent financial measures, Chancellor Cuno made a long speech, reviewing the internal and external situation and alluding to the British draft reply of the German note to say that the principles upon which Great Britain placed her proposals were not pleasant for Germany.

There were many suggestions in the draft which appeared impossible to the German Government as far as it was able to judge without knowledge of the supplementary documents, asserted the Chancellor, adding that in an endeavor to maintain good relations with the "comrades-in-arms" of yesterday, Great Britain had gone extraordinarily far in her concessions to the French standpoint.

"It is not our business," declared Herr Cuno, "to expatiate on what Great Britain considers her interests and we are not so foolish as to imagine sympathies for Germany where there are none."

Emphasizing the danger and futility of conjectures pending the publication of the British document, the German Chancellor said the only thing certain was that there was no reason for any great hopes.

"Germany must be prepared for a long period of suffering," he added, "and to accommodate itself to such circumstances and not expect to work wonders. We must believe in ourselves and manifest that belief, not to fatalistic resignation but by combined action."

Will Not Cease Resistance.
Alluding to France's demand for cessation of passive resistance before she is willing to open negotiations or say what she wants, the Chancellor emphatically declared that it was impossible to ask the people of the Ruhr and the Rhineland to abandon their sole weapon conditionally.

"What we cannot do and will not do is to abandon a German land and betray fellow countrymen," he asserted. "We refuse to work under the bayonets of our oppressors."

Submission to the "merciless obstinacy" of the French Government, he declared, would have to be sealed with a document which would be worse than the Treaty of Versailles.

The latter agreement, he contended, "weighs like a curse upon the peoples of Europe."

Referring to the British draft reply, Chancellor Cuno said: "This proposal, which practically sacrifices the German standpoint to the

BRITISH TASK MADE HARDER

By Tone Of Cuno's Speech To
Reichstag—Baldwin Trou-
bled By Die-Hards

London, Aug. 8.—The Cabinet Council which was to have been held today has been postponed until to-morrow and, according to the latest reports, the publication of the documents constituting the British case in the reparations problem has been delayed until the end of the week. Premier Baldwin and Lord Curzon the Foreign Secretary were both in London and in close consultation today over the next step, and Lord Curzon again received the Belgian Ambassador.

Lord Derby and Lord Robert Cecil are expected back from their Paris visit to-morrow and it is supposed that some development may come of Lord Roberts' interview with Premier Poincare.

No strong hopes are entertained that the Cabinet will agree upon any decisive action. Reports are growing insistent that Premier Baldwin is experiencing great difficulty in converting to his view the Die-Hard section of his party led by Lord Derby and the Marquis of Salisbury, which ever since it succeeded in overthrowing Lloyd George, has had a great ascendancy in the Government councils.

Moreover, the tone of Chancellor Cuno's speech before the Reichstag today is little calculated to make the British task easier.

ONTARIO FUEL SITUATION

Is Not Giving Cause For
Alarm At Present, Says
Fuel Controller

Toronto, Aug. 8.—J. A. Ellis, Vice-Chairman of the Ontario Railway and Municipal Board, and Fuel Controller of Ontario, is being retained by the Ferguson Government in his capacity as fuel controller. He said in an interview here today that he wished to retire from the fuel controllership, but was induced to stay in the position for a while.

The fuel situation in Ontario is not giving alarm at present Mr. Ellis says, fair prices being maintained and the public placing orders to the limit of delivery possibilities.

FOUND GUILTY OF FIRST DEGREE MURDER SENTENCED FOR LIFE

Cleveland, Ohio, Aug. 8.—John L. Whitfield was found guilty of first degree murder with recommendation for mercy by a jury in Judge Phillips' Court late today for the murder of Patrolman Dennis Griffin on May 11. Judge Phillips immediately sentenced Whitfield to life imprisonment in the Ohio penitentiary.

French standpoint, has been rejected by the ruler and destroyer of Europe."

He then continued: "If it is the case that there are no practical possibilities for reaching an understanding with France, which is desired by us, but rejected by Paris, and if there is no light on the horizon which promises speedy help, then it is for us to keep alive by means of our own iron determination and to make every sacrifice. In this we must rely solely on ourselves. We stand alone and must and will help ourselves."

Therefore, Chancellor Cuno concluded, "It is necessary to continue with all our strength passive resistance, free from mad acts of violence and terror against the people in the occupied region and to support actively from the unoccupied territory the population which is persevering in a passive resistance of its own will."

Berlin, Aug. 8.—The French procedure in the Ruhr and the Rhineland makes negotiations with France wholly impossible, Chancellor Cuno told the Reichstag this afternoon in the course of his promised review of the internal and foreign situation referring to the present stage of the Anglo-French conversations on the reparations question the Chancellor said:—

"In her endeavor to continue cordial relations with her former comrades-in-arms, England undoubtedly made liberal concessions to France and while it is not up to us to pass judgment on them we at the same time believe ourselves free of the folly of expecting sympathies in quarters where we know they are not present."

"If the current pourparlers among the Entente nations are not productive of tangible results, Germany will be wholly reconciled, said the Chancellor, to the realization that she is dependent upon herself and that her battle will be fought in a spirit of self-reliance.

The Chancellor announced plans for the various financial and economic measures which the Government will forthwith put into effect for the purpose of strengthening the nation's internal structure. Chief among these are the internal gold loan and the establishment of the taxation's budget on a fixed currency unit.

CAPITAL PAYS ITS LAST TRIBUTE TO DEAD CHIEF

Warren Harding's Body Left
Last Night For Home Town
Of Marion

IMPOSING PARADE

Religious Ceremonies Were
Strikingly Simple By Con-
trast With Background

Washington, August 8.—Warren Harding left Washington tonight for ever. His short, eventful moment of power and heavy care was ended; his eternity of rest begun.

Grim voiced, distant guns spoke the nation's farewell as the funeral train drew out. A legion of armed men stood with rifles and sabres at salute. Great folk and small, in their thousands stood silent, and with heads bared, and the dead president was gone.

But behind him lingered memories such as he would be proud to know filled men's minds as they thought of him.

From the dim east room and its heavy scented flowers the dead President was borne out into a day vivid with sunshine.

The pealing of a trumpet sent long lines of steel flashing to salute, a moment later it marshalled the orderly array of soldiers and sailors down the avenue to the Capitol with General Pershing riding ahead in command.

Along the way, banked, motionless and in silence, were thousands upon thousands who had stood waiting since daylight to add to the great tribute to the dead.

Down through that long valley of sorrow the cortege wound to the Capitol with that other, living President, up-thrust overnight to high responsibility, first among the nations mourners after the family of the dead. Chief Justice Taft followed President Coolidge, then Woodrow Wilson. All the great folks of Washington followed after.

Coming thus to Capitol Hill the bands ceased for the climb, to the wide plaza on the east front where new presidents take oath. The muffled drums took up the tale as the column climbed up the winding, tree-shaded way.

And as the distant throbbing of the drums that carried word of their coming to those waiting in the flower-filled chamber beneath the towering dome, throbbing that grew nearer and nearer until at last it gave place to the softly rising tones of a great army band that played "Lead Kindly Light" as the flag wound casket was lifted slowly up the long, wide stone steps.

Flanked by its honor guard of high generals and admirals, the heavy casket was carried slowly to its place, a single wreath of bright colors resting above the sleeper. Then the erect, slender figure of the sorrowful widow moved with her escort of those who served most intimately with the dead chief to a place near the head of the bier. Her face was almost invisible behind the black veil she wore.

The religious ceremonies were striking in their simplicity against the background of military pomp and grandeur given by the funeral parade, just the short prayers, the murmuring of low voices joined in the words of the Lord's Prayer, the scriptural readings and the blending voices of a male quartette in the same hymn that marked the funeral everywhere, "Lead Kindly Light" the hymn best beloved by the dead President and at the end "Nearer My God to Thee."

That was all, save the benediction. It was as simple as Warren Harding himself would have it.

When Mrs. Harding had gone, the new President and his Cabinet, the diplomats and generals and admirals, all filed slowly out and the great chamber was cleared except for the armed sentries about the bier and the others who quickly carried away the chairs and set long lines of floral offerings in place to form a broad aisle from east to west across the stone floor. Then the flag was gently drawn back, the heavy steel of the cover was set aside and those who knew him in life saw again the face of Warren Harding.

It was a peaceful face untouched by the ravages of his brief illness. The broad brow was tranquil and save for the slight pallor of death he might have been asleep. It hardly seemed that the spirit could have fled; that the lids would not lift presently to show the kindly, thoughtful eyes beneath. There was very little of death about him and much of peace and rest.

The eastern doors were thrown open again and waiting at the foot of the long stairways between ranks of soldiers a mile long column of people stretched. They had been ranked four abreast and at the word came trooping slowly up to pass down the flower-woven corridor that had been made for them.

The human tide flowed by on both sides of the casket and echoed down just a moment before moving on to the west door and thus to the streets.

There were men and women from all States of the Union in that long column. There were those from almost every nation in the world. Some came weeping, some lifted little children to gimbles at that calm dead face beneath the glass. All came in reverent silence.

When the moment came that

August Opportunities in FUR COATS

While all of our fur garments are specially priced for August selling, we have selected a number of very fine coats on which we have placed reductions of more than ordinary proportions.

We list only a few of the opportunities offered you in this August event.

A clever full length coat in dark, rich muskrat in loose back effect. Very desirable and an excellent value. Regular price \$350. **AUGUST PRICE \$250.**

A smart 36 inch coat of fine quality Hudson Seal with trimmings of handsome Australian Opossum. Regular price \$395. **AUGUST PRICE \$350.**

A sport length model in electric seal has shawl collar and cuffs of dyed Raccoon. Regular price \$150. **AUGUST PRICE \$105.**

A handsome imported model in straight line effect is made more beautiful by a deep tuxedo collar and wide cuffs of Siberian Squirrel. Regular price \$675. **AUGUST PRICE \$550.**

A full length coat in rich Canadian Beaver, dark and full furred. This is an excellent value. Regular price \$750. **AUGUST PRICE \$600.**

Another luxurious model in Russian effect, made of finest quality Hudson Seal, has rich trimmings of Mink. Regular price \$750. **AUGUST PRICE \$600.**

ALL OTHER FUR GARMENTS ARE SPECIALLY PRICED FOR AUGUST SELLING.

must see the doors closed against them more than 3,000 persons had witnessed the body, it was estimated and as many more were turned back disappointed after hours in the slow moving lines.

President Coolidge and the Cabinet officers and the admirals and generals of the honor guard came again in motor cars to enter the rotunda for a few minutes. The casket was borne out and down to the calson white tin-troopers raised their sabres in salute and the ordered rows of the guns ranked behind them showed every figure erect in saddle or on limber.

Again the slow music of the band marked the slow progress of the casket, playing "Nearer My God to Thee."

At the station the casket was again placed in the position when tens of thousands saw in the long homeward journey from San Francisco.

When the moment came that

Mrs. Harding reached the station soon after the casket had been placed back aboard the funeral car. She came direct from the White House. Other members of the party who travelled with the dead President on his last journey, were already aboard the train by Mrs. Harding's personal request to be with the dead to the last in Marion.

The group of officials, mourners stood bareheaded on the platform. A hand waved in silent signal. Without sound of bell or whistle the train began to move slowly down the track.

Warren Harding was gone from Washington, forever.

**ITALIAN PRINCE
DIED YESTERDAY**
Rome, Aug. 8.—Prince Fabrizio Colonna died late today. The Prince was vice-president of the Senate and the head of one of the most noble Italian families.

CONVERT LINERS INTO FREIGHTERS?

Harriman Interests Consider-
ing Change Of Two Of Its
Passenger Boats

The United American Lines are reported as having asked proposals from several shippers for converting the passenger liners Mount Clinton and Mount Carroll to freighters. Officials of the company admitted that estimates had been requested and that the matter was under consideration with other plans in connection with the inter-coastal trade. No further information was divulged. It was said that C. J. Beck, vice-president, who has been conducting negotiations for a consolidation of intercoastal services, was not ready to make formal announcement.

The fact that the Harriman interests were considering the conversion of the passenger ships into cargo carriers came as a surprise to shipping men, and was regarded as confirmation of extensive plans for developing an intercoastal service. This information explained a report earlier in the week that the two passenger liners were to be placed in the trade. The Mount Carroll and Mount Clinton are sister ships of 7,500 gross tons each, oil burners, built in 1921 by the Merchant Shipbuilding Corporation of Chester, Pa. They were designed originally as cargo carriers, but were changed to passenger ships to meet the demand for immigrant accommodations after the war. At present they are equipped to carry about 1,100 third-class travelers each. It was estimated that the reconditioning as contemplated would make the vessels 12,000 to 13,000 tons deadweight. They make thirteen knots speed.

Withdrawal of the Mount Carroll and Mount Clinton will balance the services maintained by the United American and the Hamburg American, as provided in their agreement. This will leave the Harriman Line with the Reliance, Resolute, Cleveland and Mount Clay, comparing with the Albert Ballin, Deutschland, Westphalia and Thüringia of the Hamburg American Line.

It is understood also the United American contemplates adding three other freighters to the intercoastal service, making five on the route in addition to any ships that may be acquired through the proposed consolidation.

NORTHERN LIGHT WENT ASHORE

On Petit Island Manan—
Captain, Wife And Crew
Were Rescued

Portland, Maine, August 8.—Word was received here today that the two-masted Canadian schooner Northern Light went aground last night near Petit Manan Island, to the eastward of Frenchman's Bay and that Captain George Newcombe, his wife and the four men in the crew were taken off this morning by two men who put out from the lighthouse on the island. The Harbours tender Zisania left here today to assist in an effort to float the schooner, which was said to be in a dangerous position. The vessel was bound to St. John, N.B., her home port, with a cargo of pitch, resin and tar.

TIME BALL

The Time Ball is dropped every day at 1 p.m. Standard Time. (6 p.m. Greenwich Time) from the King's Bastion here during the season of navigation.

SHIPPING MOVEMENTS.

Port of Montreal, August 8—

HEMORRHOIDS

Do not suffer another day with itching, bleeding, or protruding piles or hemorrhoids. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 60c a box all druggists or Edmanon, Bates & Co., Limited, Toronto. Sample box free.

BRITONS TO GARNER HARVEST.

Nearly six thousand Britons will land in Canada shortly to work in the harvest fields of the prairie provinces. Much more than half of these have been recruited in the British Isles by agents of the Canadian Pacific Railway Company, and the first contingent is expected to arrive on the C. P. S. Montclair. Special return fares have been offered and the accepted applicants, all of whom are of the finest physique, may return to their own land should they not find conditions here agreeable after harvest. The photograph was taken outside the London, England, offices of the Canadian Pacific, and shows a crowd of applicants for reduced transportation awaiting admission.

DIAMOND TRADE IN SOUTH AFRICA

Is Improving And Gold Output
Increasing—Bank Clear-
ings Still Falling

"Bank deposits fell from £107,075,745 on December 31st, 1919, to £81,405,753 on June 30th, 1921 and £82,940,544 on March 31st, 1923. Advances stood at £81,655,021 on December 31st, 1919, £79,262,798 on June 30th, 1921, and £60,820,974 on March 31st, 1923. The ratio of advances to deposits was 89 per cent on December 31st, 1920, and 78 per cent on March 31st, 1923. Deposits fell by £24,136,131, whereas advances decreased by £20,534,047 during the same period. The totals of the Bank Clearing House were £40,680,513 for December, 1919, £26,803,679 for December, 1921, £26,317,906 for December, 1922, and £24,810,169 for April, 1923," says the Monthly Review of the Standard Bank of South Africa, Ltd.

"The general features of the situation in South Africa might be briefly summarized as follows: The cost of living figures show a rise of 11 points for May for food only, and a rise of 7 points for food, fuel, light and rent, over the figures for April. Satisfaction prices were realized for wool and in view of the continued demand the outlook is promising. Mohair remains quiet.

"The Maize crop is up to expectations but prices rule low, while the Tobacco crop is estimated to be over 20 per cent below that for last year. The Natal sugar crop is excellent, but in the absence of rains may not be so large as anticipated. The cotton crop is now estimated at 2,000,000 lbs. which is about double last year's.

"The May coal output for Natal was a record, reaching 375,962 tons. The labor troubles in the Australian coal mines, continue and there is an anxiety for coal from Australia. The bunker trade continues to show improvement. The May gold output was 786,564 ounces for January—the next highest output for this year.

"There has been an increased demand for diamonds, especially from the United States, England and the East, and in the United States the market for second-grade stones is extending. The better prices ruling for tin and copper have stimulated an increased production of these metals. The building trade continues active throughout the country and during May, the Cape Town City Engineer's Department passed 178 plans for new buildings and alterations at an estimated cost of £132,565. An encouraging feature in the South African economic situation is that the Union railroads and harbors show an excess of £81,096 over the estimated earnings for the period 1st April till the 2nd June of the present year."

General Motors Trucks

now sold by

GENERAL MOTORS TRUCK COMPANY of Canada, Limited

GENERAL Motors Trucks are now distributed throughout Canada by General Motors Truck Company of Canada, Limited, with headquarters at Oshawa, Ontario.

General Motors Trucks are an addition to the other units of General Motors of Canada, Limited, and bring new and exclusive features that will develop more economical and better motor truck transportation.

We have been appointed authorized dealers for General Motors Trucks in this city and vicinity. General Motors trucks include a complete line from one to five ton capacity. Our sales and service station has been established for the accommodation of General Motors Truck users. A complete stock of genuine parts will be carried. Expert service strictly according to General Motors standards will be given.

INQUIRY INTO
LOSS OF MARVALE

Was Opened In London Yesterday—Evidence Given By Captain Lewis

(Canadian Press Cable)
London, Aug. 8.—An official enquiry into the loss of the Canadian Pacific liner Marvale, which sank off the Southern Coast of Newfoundland on May 20 last without loss of life, was opened in London today. Butler Aspinall, K.C., representing the Board of Trade described the circumstances of the wreck. Captain Lewis of the Marvale gave evidence.

He dwelt on the unfavorable conditions and he attributed the stranding of the steamer to the unusual atmospheric conditions and the abnormal current which was nearer to coast than had been anticipated.

The Captain said he had been in command of sixteen ships since 1914 and this was his first casualty. The enquiry was adjourned.

It is not a lucky word—impossible—and no good comes of those that have it often in their mouths.

50,000 Harvesters Wanted!

Going To Winnipeg \$15-00
plus 5 cent per mile beyond to all points in Manitoba, Saskatchewan & Alberta (to and including Edmonton, Calgary and Medicine Hat).

NEW POST OFFICE FOR KENOGAMI

H. Tremblay Succumbed To
Injuries Received in Paper
Mills Saturday

Fatal Accident.
Kenogami, P.Q., Aug. 6.—(Special Correspondence)—This morning Hypolite Tremblay, fils de Xavier, succumbed to injuries received in the Paper Mills shortly after midnight on Saturday. An inquest was held late this afternoon by Dr. Rivest of Chicoutimi, Coroner for the District, and after a careful enquiry a verdict of accidental death was returned, with a rider exonerating anyone from responsibility. The deceased man had resided in Kenogami for many years, and leaves a widow and a large family. His age was forty-eight.

Proposed New Post Office.
Dr. Savard, M.P., was here today to look into the question of a permanent post office building. He met a Committee of the Municipality and discussed the matter with them at some length, with the result that he promised to send down an official to select a site, with a view to starting the erection of a suitable and permanent building early next spring. This will fill a long felt want. The postal business is a considerable one, and for several years has overgrown the accommodation provided. The news that a permanent and suitable building is to be provided will be hailed with satisfaction.

Baseball—Kenogami vs. Chicoutimi.
Visits to Chicoutimi seem disastrous to Kenogami baseballers, and that made on Sunday to play a League fixture was no exception to the rule. They were out-played and beaten to the tune of 17-9. The game was a very slow one, and the Kenogamians showed evident signs of lack of practice.

The teams lined up as follows:
Kenogami—G. McNaughton, A. Dumont, A. Richard, P. Leblanc, R. DeCew, W. Murphy, W. Cornell, G. Sissons, G. Treggett.
Chicoutimi—A. Lavoie, E. Bergeron, Quenneville, Letourneau, Bergeron, Petit Tremblay, Yveline Tremblay, Fortin and Fortune.

Umpires—Pop. Dumaine and Blais.

Next Sunday—St. Joseph d'Alma at Kenogami.

PORTNEUF, QUE., SOCIAL NOTES

Portneuf, Aug. 8.—(Special Correspondence)—Mr. and Mrs. Harold Lee of Grand'Mere were the guests of Mrs. Lee's parents, Rev. Mrs. W. A. Adcock over Sunday.

Rev. and Mrs. John Lindsay and son Ford, having motored from their home in Erin, Ont., are the guests of Mrs. Lindsay's sister Mrs. Carl Sewell, for a couple of weeks.

Mr. Charles Bebe of New Carlisle who has been visiting his aunt Mrs. C. E. Ford, returned to his work in New York on Monday.

Mr. Dutton of Montreal spent the week-end here the guest of Mr. and Mrs. Parkin Bishop.

Miss Constance Ford is spending a few days the guest of Mrs. F. A. Cowie at their camp on Lake Clair.

Mr. J. Shields of Edinburgh, Scotland, is visiting his cousin, Mr. John MacRae.

Miss Muriel Baxter of Three Rivers spent the week-end with friends in Portneuf.

Misses Viola Sissons and Marjorie Lafache of Quebec are visiting friends here.

Mrs. C. E. Ford entertained at cards on Thursday evening.

Portneuf has been somewhat disturbed by the several motor accidents which have occurred in the vicinity. Among the most severe was that of Mr. Harry Henshal whose car was badly damaged, and his mother who was with him was severely shaken and bruised. We are glad to say that she is getting over the effects of it very nicely.

Ye Olde Time Dance.
A very enjoyable evening was spent by both old and young on Friday evening, August 3rd, in the Dance Hall. All the old fashioned dances were revived, into which everybody entered wholeheartedly. Many thanks are due to the Committee: Mrs. Robert Bishop, Mrs. Robert C. Rowley, Mr. Alfred Bishop and Mr. Harry Henshal, also to Messrs. Frenette and Newbold who provided the music.

**EIGHT HOUR DAY
IN STEEL MILLS**

IN CHICAGO SOON
Chicago, Aug. 8.—Establishment of the eight hour day in certain units of the Steel Mills in the Chicago district is expected to start next Monday although no official announcement had been made.

The three shifts of eight hours each, it is understood, will start in the blast furnaces, and merchant mills of the United States Steel Corporation at Gary, Ind., and the Illinois Steel Company's plants here.

GUARANTEE PACTS OF CONTINENTAL APPLICATION

Recommended By Special
Mixed Committee Of The
Nations' League Yesterday

NOT UNANIMOUS
Canada And U. S. Would Not
Be Obligated To Intervene In
European Conflict

Paris, Aug. 8.—The temporary Mixed Commission for the reduction of armaments of the League of Nations this afternoon adopted the text of the proposed Treaty of mutual guarantees designed to bring about reduction of armaments which it will submit to the Assembly of the League at its meeting in September.

Some of the important features of the project were adopted without an unanimous vote and consequently will be the subject of contention at Geneva.

The text, as it will be submitted, provides for a general treaty to be signed by all the members of the League whereby they agree to aid members who are victims of aggression or threatened invasion. This agreement, so far as it implies the use of military force, is of continental application only, no signatory being obliged to contribute military efforts on a continent other than that on which it is situated. Thus, the South American countries and Canada would not be signing the treaty incur any obligation to intervene in a European conflict.

By the terms of the accord the Council of the League may decide to apply a blockade and to call upon the signatory members for military forces or to prepare a plan for financial cooperation among the members in the defence of and with the consent of the state that had been attacked. The Council also may appoint a Commander-in-Chief to take charge of the combined forces contributed by the signatories.

ST. MALACHIE, QUE., PERSONAL NOTES

St. Malachie, Aug. 8.—(Special Correspondence)—Rev. and Mrs. Gerald Hibbard, St. Malachie arrived in Quebec on the steamer Saguenay and are staying at Lady Price and will return to St. Malachie Thursday by motor.

Master James Hibbard, who has been spending a month in Halifax with his brother, S. Godfrey M. Hibbard is a guest at Col. and Mrs. Wilson's and will return to St. Malachie with his parents on Thursday.

LA TUQUE, QUE., PERSONAL NEWS

La Tuque, Aug. 8.—(Special Correspondence)—Mr. and Mrs. Chas. Cox returned to town on Saturday night, after spending two weeks at Montmorency, Que.

Mrs. W. McClintock and family are in town, and will spend the next few weeks with Mrs. Chas. Cox, St. Eugene Street.

Mrs. Albert Griffiths had a musical evening on Saturday at her home, St. Benoit street.

Miss Currie returned home to Montreal on Wednesday morning, after having spent a couple of weeks with Mrs. Armand Page of La Tuque.

Mrs. J. Barracough was hostess to a few friends at tea at her residence on Monday afternoon.

Mrs. Albert Griffiths and family will leave, on Wednesday morning for Kamouraska where they will spend the next few weeks.

Mrs. J. Barracough will leave on Thursday morning for Quebec, from where she will sail for England on Friday afternoon.

Miss Charles Barracough leaves on Thursday morning for Quebec where she will spend a few days.

Miss Nellie Waites leaves on Thursday morning for Quebec, where she will spend a few days.

Mrs. A. Carter is spending a few days in Quebec, the guest of her mother Mrs. T. Martin.

Apex Club Dance.
The Apex Club held a very enjoyable dance at the Community Club on Tuesday evening the 7th.

Life is most enjoyed when courted least—most worth-while when disesteemed.

SWEPT OVER DAM AND INTO RAPIDS

After Boat Had Capsized Two
Old Men Of Montreal Had
Narrow Escape

Montreal, Aug. 8.—Swept over a dam and down nearly half mile, a mile of Rapids after the flat-bottomed boat in which they were fishing broke loose from its moorings and capsized, two 65-year-old men had a narrow escape from drowning in the dangerous stretch of water between Heron Island and the Mainland opposite Verdun, at noon today.

The victims of the accident are Michael McArar, and Michael Paley, both of this city. The former suffered from heart trouble for years and being utterly unable to swim was in considerable danger when the boat upset. His companion appeared to be none the worse for the trying experience.

DELOME TRIAL IN NOVEMBER

**Crown Prosecutor Calder
Does Not Think Case Will
Come Up In September**

Montreal, Aug. 8.—That the second trial of Father Adelard Delorme charged with the murder of his half brother Raoul, will not proceed until the November term of the Court of King's Bench here was the opinion expressed this afternoon by R. L. Calder, K.C., Crown Prosecutor. Much depended, however, on the attitude taken by the Defence lawyers, said Mr. Calder, and it was possible they might apply for a trial at the September term as every prisoner charged with a major offence had a right to be delivered from jail as soon as possible, if innocent.

"In fairness to the other prisoners awaiting trial, I think the trial should go over until the November term," said Mr. Calder.

"The Crown is in the same position as any other litigant in criminal matters and for good reason may ask for a postponement of the case. But if the judge refuses to grant a postponement of course the trial will have to proceed. Every one charged with a major offence has the right to be delivered from jail. A great deal depends on the defence."

**DROVE OVER CLIFF
BUT IS EXPECTED
TO RECOVER**

Halifax, Aug. 8.—Lance-Corporal William McLeod of the Royal Canadian Regiment, who with his comrade, The same regiment Private James Watt drove a horse and wagon over a high cliff near Sydney Saturday and escaped death. He was dangerously ill last night in Camp Hill Hospital here but was reported this morning as much better and with good chances for recovery. His left leg was amputated above the knee.

Little Willie Jones gives out a bulletin on his mother's condition which had them all guessing.

"She mus' be feelin' better cos th' doctor is makin' her pertend she's a radio"

Although similar charges had been laid against a number of others, Sam Lichtman and his sister, Minnie, decided to shoulder the burden of a test case while prosecution of the others was held in abeyance.

The charge against the accused was that of publishing betting information contrary to the Ontario Betting Information Act. Lichtman assumed full responsibility for the publication of the last minute racing and sporting news.

D. L. McCarthy, K.C., who, associated with Controller Jos. Seymour, acted for the defence, put forward a lengthy argument to uphold his contention that the Ontario legislation was ultra vires.

**OFFICERS ARE INSTRUCTED
TO WEAR MOURNING.**

The officers of the Quebec Garrison Club have received instructions from Military Headquarters at Ottawa to wear mourning until after the funeral of the late president of the United States. All flags on military and public buildings will remain at half-mast until after the services.

All incoming and outgoing vessels have flown their flags at half mast while passing up and down the river since the death of Mr. Harding.

**WILL MAKE THE TRIP
TO SAGUENAY RIVER.**

Three hundred members of the Brooklyn N.Y. Board of Trade will visit Quebec shortly. They will be in Montreal for Labor Day and will sail from the Metropolis on one of the Canada Steamships boats for the Saguenay. On their way to the "River of Deep Waters" they will spend a few hours in the ancient capital.

A farthing saved is twice earned

APPROVAL OF ADMINISTRATION OF MANDATES

Given By League Of Nations
Was Accorded By Permanent Mandates Comm.

LIQUOR QUESTION
Mandates Would Be Violated
If Nations Were Recruited
For The Army

Geneva, Aug. 8.—General approval of the administration of the mandates given by the League of Nations was accorded today by the Permanent Mandates Commission at a public session closing its three-weeks hearing on the reports submitted by the Mandatory Powers.

The Commission found that the mandatory powers have fully protected the rights of the native populations. As outlined, the measures taken by the mandatory powers against the abuse of alcohol in the mandatory areas was considered satisfactory, but the Commission decided to recommend to the Council of the League an act pertaining to the importation of alcohol into the African territory under British Mandate.

The Commission held that the spirit, if not the letter, of the mandates would be violated if the natives were recruited for the army. It was intended that they should be utilized only for defence and the maintenance of order in Togo and French Kamerun.

E. Beau who represents France on the Commission, said the Commission could not dictate a mandatory regarding complaints that competition between different organizations had become inconvenient as the mandates accord religious freedom as long as order is maintained.

DEATH FOLLOWS DRUNKEN BRAWL

**In Montreal—Two Men Arrested Say Dead Man Fell,
And Struck Head**

Montreal, Aug. 8.—Two men are under arrest in connection with the death of A. Lavery, 35 years old, of this city, who died yesterday morning following an alleged fight outside a tavern on Monday night.

The men's names are given as Mathieu Kearney and Barney O'Neill, and they are said to be both residents of Point St. Charles. The police say that the two prisoners claim that Lavery was knocked down during a drunken brawl outside the tavern, and that, in falling, he struck the curb and received the injuries which caused his death.

Local Ball Team Was Defeated By Shawinigan—Round Robin Tennis Tourney

Grand'Mere, P.Q., Aug. 8.—Last Sunday, on the local baseball ground Grand'Mere suffered defeat at the hands of Shawinigan Falls, by a score of nine to seven runs. Shawinigan's third innings proved to be the undoing of the locals, seven runs being made, chiefly through faulty fielding, there being no less than five errors. Barretts who was decidedly off form was replaced by Brunelle in the sixth, and although he held his opponents, it was too late to pull the game out of the fire. Each team has now won two games the next one of the series will be staged in Shawinigan next Sunday and should prove a big attraction.

The annual match between Quebec and Grand'Mere, for the St. George Garneau Cup will be played this week-end. The present arrangements are for twenty local players to journey to Quebec and fourteen Quebec players to come to Grand'Mere, both teams will play simultaneously on their respective links. The present holders of the cup are the Grand'Mere Golf Club.

To incite a keener interest in tennis which has somewhat relaxed this season, Mr. S. Harvey Smith, chairman of the Tennis Section of the Golf Club, issued invitations for a round robin tournament, mixed doubles to which fourteen responded. The winners were Miss J. Acer and Mr. H. McEwen, while Miss D. Philn and Mr. T. E. Blinco were the runners up. After the tournament the players were entertained to supper as the guests of the chairman, in the Golf Club House, where a very enjoyable time was spent by all.

The handsome sum of \$1,250.00 net, was realized at the Garden Fete held last Friday. Of this \$500.00 will be set apart for hospital care and attention, while the balance of \$750.00 will be devoted to alleviate the wants of the needy poor.

Dr. F. C. Martin, of Montreal, is spending a few days in town, the guest of Dr. B. L. Wyatt. The visit will include a day at the Laurentian Club, fishing.

Dr. H. S. Hooper, of Third Ave., has returned from a business trip to Montreal.

"UNTAMED SHREW"
SLID IN ORCHESTRA

Vivacity And New Shoes Carried French Actress Over Footlights

Paris, August 8.—Mlle. Cecile Sorel, playing the part of Katharine in 'The Taming of the Shrew' at the Comedie Francaise last night, made such a vivacious entrance in a new pair of shoes that she slid several feet and tumbled over the footlights into the front row of seats.

She was caught by Daniel de la Rose, Judge of the Supreme Court. The audience was greatly alarmed, but the artiste was unhurt and resumed her part immediately. She received an ovation for her courage.

GRAND'MERE SPORTING NEWS

Local Ball Team Was Defeated By Shawinigan—Round Robin Tennis Tourney

Grand'Mere, P.Q., Aug. 8.—Last Sunday, on the local baseball ground Grand'Mere suffered defeat at the hands of Shawinigan Falls, by a score of nine to seven runs. Vivacity And New Shoes Carried French Actress Over Footlights

Paris, August 8.—Mlle. Cecile Sorel, playing the part of Katharine in 'The Taming of the Shrew' at the Comedie Francaise last night, made such a vivacious entrance in a new pair of shoes that she slid several feet and tumbled over the footlights into the front row of seats.

She was caught by Daniel de la Rose, Judge of the Supreme Court. The audience was greatly alarmed, but the artiste was unhurt and resumed her part immediately. She received an ovation for her courage.

Dr. F. C. Martin, of Montreal, is spending a few days in town, the guest of Dr. B. L. Wyatt. The visit will include a day at the Laurentian Club, fishing.

Dr. H. S. Hooper, of Third Ave., has returned from a business trip to Montreal.

K. OF C. ELECT OFFICIALS FOR ENSUING YEAR

Wm. E. Fox, Of Indianapolis,
Elected For His Fourth
Term To Board

FLAHERTY RE-ELECTED
Martin Carmody Was Re-Elected Deputy Supreme Knight By 78 Majority

Montreal, Aug. 8.—Their terms expiring September 1st next the following three members of the Supreme Board of the Knights of Columbus were re-elected here today at the 41st International Convention of the Order now in session in this city:

William E. Fox, of Indianapolis, for his 4th. term; Frank X. Loneragan of Portland, Oregon, for his second term; and Edward Houlihan of Chicago, for his second term.

Directors: James J. McGraw of Tulsa, Okla., and Joseph J. Meyers, of Carroll, Iowa, declined to stand again for the office and they were succeeded, respectively by Edward Gibbons, of Kansas, Past State Deputy and Leo F. Craig, State Deputy of South Dakota. Both were administration candidates.

Officers elected during the day session of the convention were, in addition to Supreme Knight James A. Flaherty, the following:—Martin H. Carmody, Deputy Supreme Knight, of Grand Rapids, Mich., was re-elected by a majority of 78 votes. His opponent was D. Joseph Coyne, Past State Deputy of California, who received 119 votes against 197 for the Deputy. Mr. Carmody has held this office for 14 years.

Luke E. Hart, of St. Louis, Mo., Supreme Advocate, was re-elected with a majority of 99 votes over Ernest A. O'Brien, Past State Deputy of Michigan. Mr. Hart has served but one year, elected at last convention to fill in the unexpired time of his predecessor David F. Supple, Supreme Warden, of San Francisco, California was re-elected by a majority of 96 votes of Morris J. Sullivan State Deputy of Littleton, N. H.

Wm. J. McKinley, Supreme Secretary, of New Haven, Conn., D. J. Callahan, Supreme Treasurer, of Washington, D.C., and Dr. E. W. Buckley, Supreme Physician, of St. Paul, Minn., were re-elected by acclamation. The two former have served in the same office 14 years, while the latter has occupied the same office for 16 years.

ONTARIO LAW ON BETTING NEWS

Judge Reserved Judgment In
Test Case Brought Before
Him For Eight Days

Toronto, August 8.—At the conclusion of argument in the betting information case heard in the afternoon Police Court today, Judge Denton said he would reserve judgment for eight days and might reserve his decision even longer than that if he considered it necessary.

Although similar charges had been laid against a number of others, Sam Lichtman and his sister, Minnie, decided to shoulder the burden of a test case while prosecution of the others was held in abeyance.

The charge against the accused was that of publishing betting information contrary to the Ontario Betting Information Act. Lichtman assumed full responsibility for the publication of the last minute racing and sporting news.

D. L. McCarthy, K.C., who, associated with Controller Jos. Seymour, acted for the defence, put forward a lengthy argument to uphold his contention that the Ontario legislation was ultra vires.

**OFFICERS ARE INSTRUCTED
TO WEAR MOURNING.**

The officers of the Quebec Garrison Club have received instructions from Military Headquarters at Ottawa to wear mourning until after the funeral of the late president of the United States. All flags on military and public buildings will remain at half-mast until after the services.

All incoming and outgoing vessels have flown their flags at half mast while passing up and down the river since the death of Mr. Harding.

**WILL MAKE THE TRIP
TO SAGUENAY RIVER.**

Three hundred members of the Brooklyn N.Y. Board of Trade will visit Quebec shortly. They will be in Montreal for Labor Day and will sail from the Metropolis on one of the Canada Steamships boats for the Saguenay. On their way to the "River of Deep Waters" they will spend a few hours in the ancient capital.

A farthing saved is twice earned

"HONEST JOHN" B.C.'S PREMIER

Wouldn't Wear Spats At
Harding Reception As
Ordered By "Black Rod"

Premier John Oliver of British Columbia is a brusque, honest Englishman who has been long enough in Canada to imbib Canadian independence. He has no use for all the forms of toadyism, formality and red tape that sometimes do not make life worth living. A paragraph in a recent issue of The Vancouver Province illustrates Premier Oliver's independence of formalities. On the occasion of President Harding's visit to Canada there was an earnest desire on the part of everybody to give him a whole-hearted, homely welcome, and at the Canadian Pacific Hotel, which is the largest and most attractive hotel on the coast outside of the "Empress" in Victoria, the city officials tendered the President a banquet luncheon to which some 250 citizens, without official capacity, were granted seats by lot. At 7 o'clock he was the guest of some seventy officials of the municipal, provincial and Dominion Governments.

To tell the story in the words of The Vancouver Province:

Much amusement has been created, even among Canadians, ordinarily sticklers on formality, over the democratic manner in which the British Columbia Premier, "Honest John" Oliver, upset the programme set forth for strictly formal attire. From Ottawa came the "Gentleman Usher of the Black Rod", to advise Vancouver officials on the proper etiquette for the public functions by which the American President, the first ever to visit Canada while holding office, should be received.

He prescribed swallow tail coat, gray-striped trousers and spate high hats, etc. He said women should wear only a gown that they had never worn before.

"I'll wear what I bloody, blooming please", stoutly declared the Premier, "and I advise all others to do the same."

"Honest John" appeared in a straw hat and a blue business suit, shoes none too recently shined and no spats.

QUEBEC, AUGUST 9, 1923.

ONE VIEW OF OUR PROBLEM.

Considerable attention is being paid by our Canadian newspapers to an article published in the Western Mail, of Cardiff, by Mr. George F. Forsdike, a prominent stock broker and former Mayor of that city, who was recently in the Dominion on behalf of the debenture stock-holders of the Grand Trunk Pacific Railway. The article deals with "Canada's chief problem," which is defined as how to obtain a greater population for its vast territories, and discussed with some diffidence from the viewpoint of the observant visitor.

Two things are declared by Mr. Forsdike to be "patent." That Canada wants British people while the British Isles have a surplus and that, such being the case, it only remains to get the movement under way. Among the difficulties interposed he refers to the "superior wage attraction of the United States," an economic condition which he regards as merely temporary. The era of extravagance in America cannot last; "they will be awakened in the fullness of time." Labor and the farmers of Canada come in for criticism. Provincial politics usurp too large a place in the minds of the Canadian people, Mr. Forsdike thinks, to the detriment of great national questions. "A widened outlook on the question of immigration is a paramount duty of every Canadian."

It is helpful to get the opinions of outsiders on these great domestic problems, observes the Hamilton Spectator. Especially valuable are such contributions when they deal with subjects of mutual importance. No sane Canadian will deny the need of increased population. It is the only way by which the financial burdens can be borne and liquidated, and it is the only way by which the country can secure its full development. There has been a strange hesitancy and at times actual discouragement of immigration. "But Mr. Forsdike should understand," the Hamilton paper goes on to say, "that there is already in existence a scheme such as he suggests, for assisting agricultural settlers until such time as their economic independence is secured. The guarantee he desires for the workers in other industries, as to employment, wages, living conditions, etc., offer greater difficulties. If there is any real fear in Great Britain of the ultimate union of Canada with the United States—a movement which Mr. Forsdike imagines may come "as the result of trade and labor conditions"—such a bugaboo may be given its quietus by a more aggressive policy on the part of British manufacturers and capitalists. They will always have the preference over their American rivals, and the additional employment thus given to Canadian labor will check the exodus to the south as well as afford practical assistance to the inter-imperial migration movement."

FRANCE'S DEVASTATED REGIONS TO-DAY.

The well known French newspaper L'Information recently published a study of the present state of reconstruction operations in the north of France and also of the payments made for carrying out such operations.

Despite all the efforts made in the reconstruction of property within the limit of France's national resources, a vast amount of work still remains to be done. The following figures show the position as regards the damages done, the number of inhabitants, etc., at the date of the armistice; the extent of reconstruction or restoration on January 1st, 1923; and the reconstruction or restoration work still remaining to be done:

Dwellings: Number of houses destroyed or seriously damaged, November, 1918, 741,993; January, 1923, 553,977; to date, 188,016.

Number of dwellings temporarily rebuilt and of huts erected, January, 1923, 152,250.

Number of inhabitants in the district, November, 1918, 2,075,067; January, 1923, 4,074,970; to date, 615,213 not yet returned.

Damage done to agriculture. Extent of ground damaged, in acres, November, 1918, 8,266,375; January, 1923, 7,545,000; to date, 720,375.

Extent of trenches originally existing and subsequently filled up (in cubic feet), November, 1918, 8,991,000,000; January, 1923, 6,212,760,000; to date, 2,778,240,000.

Barbed-wire entanglements and their removal (in square feet), November, 1918, 1,125,000,000; January, 1923, 861,602,445; to date, 263,397,555.

Number of farm buildings temporarily reconstructed and repaired, January, 1923, 50,700.

Number of buildings repaired, January, 1923, 75,260.

Number of head of livestock supplied by the Government or by private persons. Cattle, November, 1918, 834,933; January, 1923, 523,848; horses, mules, asses, November, 1918, 373,393; January, 1923, 299,690; sheep and goats, November, 1918, 890,794; January, 1923, 407,782; swine, November, 1918, 331,656; January, 1923, 194,251.

Damage done to industries: Number of factories, November, 1918, 22,900; January, 1923, 19,967; to date, 2,933.

Public services: Railways, miles, November, 1918, 1,500; January, 1923, 1,500.

Local railways, miles, November, 1918, 1,500; January, 1923, 952; to date, 548.

Canals, miles, November, 1918, 773; January, 1923, 655; to date, 117.

Municipalities, number of communes destroyed and restored, November, 1918, 3,255; January, 1923, 3,238; to date, 17; schools, November, 1918, 7,401; January, 1923, 7,125; to date, 276; number of scholars in the schools, November, 1918, 668,692; January, 1923, 484,800; to date, 183,892.

It will be seen from the above figures that the chief work still remaining to be done consists of the rebuilding of dwelling houses. When it is remembered that almost the whole of the former population some time ago returned to the devastated areas and that about one-third is sheltered in huts that are rather uncomfortable to live in, the necessity for concentration on this class of reconstruction work becomes sufficiently apparent.

A BITTER DISAPPOINTMENT.

The Lausanne Treaty, which is even more conspicuously defective than the Treaty of Versailles, comes as a bitter disappointment to those who had hoped against hope for the final ejection from Europe of the unspeakable Turk. Through the divisions and the conflicting interests of the Allies the representatives of Islam have once again been able

to score a sweeping diplomatic victory of which Christendom will be called upon to pay the price—in all human probability a heavy one—in due course. Everyone has heard of losing the substance by grasping at its shadow, but the Great Powers at Lausanne reversed the process and lost the spiritual issue by grasping at the material one.

Ostensibly the opening of the Dardanelles is an important concession and one made in the interests of peace. Actually the concern of the Allies, it is to be feared, was rather its availability as a trade route and the value of the concession is nil, since it is impossible to prevent Turkey closing them at any moment and once closed, the task of re-opening them will be as formidable in the future as it has been in the past. The return for this new arrangement whereby the waterways connecting the Black Sea and the Mediterranean are supposed to be open henceforth to the merchantmen and warships of all nations, Turkey has secured the abolition of what have been known as the judicial capitulations which, curiously enough, were originated centuries ago by the Turks themselves. Regarding the sons of Islam as superior to the followers of Christ they declined to allow their courts to adjudicate between the latter; their declared policy being to "leave the Christian dogs to keep order among themselves."

The resulting system became gradually extended until in time each foreign nation had on Turkish soil its own tribunals to administer civil and criminal justice. In disputes between a Turk and a foreigner the latter was entitled to have the suit tried in the presence of a representative of his consulate. In recent years, the Turks have noted that other nations have reserved to themselves the sole right to administer justice among their own nationals on Turkish territory. Thus the abolition of the capitulations was one of the principal demands of the Turkish envoys at Lausanne. Foreigners, on the other hand, are to be allowed the assistance of their own legal advisers and the consulates can act upon complaints arising out of the arrest of foreigners—a somewhat doubtful protection.

Syria, Mesopotamia and Palestine have been detached from the Turkish Empire and the people of those countries, under mandates of European nations, are free. Egypt, once claimed by the Sultan, has become, irrespective of the treaty, an independent nation with Great Britain as guide and ally. Territorially, the Turks have thus lost immensely to the advantage of civilization it is true, but they have succeeded in holding Constantinople and Eastern Thrace, as against this, by way of salvage from the wreck in which they were previously involved. That being so, the Ankara Nationalists may well regard the Lausanne agreement as an improvement which it supercedes.

It is too soon, of course, to predict whether or not the Treaty of Lausanne, dealing as it does with many complicated and delicate questions, will assure a permanent peace in the Near East. Our hope must be that it will, but the treaty is by no means a settlement over which the Allies are entitled to indulge in unqualified rejoicings and we are frankly pessimistic over the prospects for the Near East under its influence.

Battle Creek was an appropriate place to stage that triple killing.

The Government Liquor Board having been named Manitoba is beginning to have visions of quenching its long accumulated thirst.

Cyrus McCormick invented the well known reaper of the same name and made a fortune. Schools and churches now reap the benefit to the extent of a million dollars under his widow's will.

Everyone will agree that the foremost aims of Canadian forest policy should be the rehabilitation of degraded areas and the protection of virgin areas, but what most of us are looking for is someone who will tell us just how these aims can be realized in actual practice.

A Verse Or Two

TO A NORTH WOODS CANOE.

There's a clean, swift craft in the Northland
With the water want in her heart,
And a paddle to bend her outward,
And a load for the after thwart.

There's a man for the other paddle,
A hand for the portage mire,
And a fish for the singing fly reel
And a song for the day end fire.

The current's pulling me Northward,
And the white water's mist in my face;
The spruce deep's reaching to fold us
As we swing to the camping place.

Give us sun for the lakes,
The wind on our backs
And luck for wild water,
And wings for our packs!

For only a wish can reach us now
With nothing but water before the bow;
And nothing but bubbles to mark our trail,
And only a mountain to catch our hail.
—Evan A. Woodward, in Boston Transcript.

Press Comment

NEEDS A BOOST.
(Brandon Sun.)

Seems to us some of this uplift movement would be valuable on the wheat market.

A SIGN OF THE TIMES.
(Hamilton Spectator.)

Lemonade was served when Ontario's new Cabinet was sworn in. Will that be taken as an ominous portent by the moderationists?

SECTIONAL, NOT POLITICAL.
(Regina Leader.)

The older Provinces are still disinclined to accord to their younger sisters all of the perquisites of complete provincial autonomy. The surrender of the natural resources of the Prairie Provinces to their rightful owners long ago ceased to be a political question and became a sectional one.

JEKYLL DENOUNCES HYDE
(Ottawa Journal.)

"Truth is stranger than fiction." If you disbelieve it, compare the dual antics of Lord Atholstan with Stevenson's Jekyll and Hyde. Atholstan is reputed to be the owner of the Montreal Herald. He is likewise the owner and publisher of the Montreal Star. In the Star he is a Tory Imperialist; in the Herald a Grit and autonomist. In the Star he holds Mr. King a paltry traitor; in the Herald he paints him as patriot. In the Star Conservatives are the Chosen People; in the Herald they are anathema and worse. It is a Janus-like role that Stevenson might have immortalized, and last week it reached its climax.

LAWLESSNESS
IN GERMANY

Communist Agitations And
Riots Causing Considerable
Concern To Authorities

Berlin, July 24—(By Mail)—

There can be no doubt that Bolshevist tendencies have been gaining ground among the German working classes since the collapse of the mark completely upset all standards of value in wages and prices. I do not want to be misleading. There is no likelihood of Germany's going Bolshevist in the Russian sense. But outbreaks of lawlessness which help to make the chaos worse are occurring with increasing frequency. It may come to pass that the Communists may gain the upper hand for a time in certain parts of Germany, and then there will be the risk of a Monarchist Putsch elsewhere, for the Monarchists are waiting for the Communists to let fly in order to gather all the order-loving middle classes into their camp. When they feel they have sufficient backing they will show their hand. One of these outbreaks of lawlessness took place last week in Breslau. The commercial centre of the town was looted by a mob led by Communist agitators. Thousands of pounds worth of damage was done.

Quick Lunch; Home or Office.

As a result six persons were killed and over fifty are still in hospital. The same sort of thing happened yesterday in Frankfurt. The Communists held an anti-Fascist demonstration at which banners were displayed with such inscriptions as "No rights without bloodshed." "The profiteers to the gallows."

After the meeting the demonstrators marched through the main streets, compelling many onlookers to join their procession and carry banners. All the shops had their shutters closed so that there was little looting, but a lot of windows were broken. The crowd included about two hundred of the worst characters in the city. These were responsible for the ugliest feature of the whole affair, which was the murder of a Staatsanwalt, Dr. Haas. (A Staatsanwalt is a Government law officer who carries out criminal investigations and prosecutions.)

Dr. Haas was in the act of locking his garden gate when the crowd surged down the street. Somebody fired two revolver shots. Dr. Haas

had a revolver in his hand, and the crowd thought they came from him. They rushed the gate, broke into the house, and sacked the rooms. Someone in the crowd apparently recognised Dr. Haas as a law officer; he was pulled out on to the pavement and there brutally stabbed and battered to death. His wife and his father, a very old man, were also mishandled.

Both the riots at Breslau and Frankfurt and this murder may be traced to the character of the Communist agitation, which tempts an underpaid and hungry workman to acts of violence. The Communists are proposing to hold a gigantic anti-Fascist demonstration next Sunday all over Germany, with its centre point in Potsdam. The demonstration has already been forbidden in Brunswick and Hanover, where Herr Noske, formerly Minister of Defence, is head of the local Administration. After the events in Frankfurt it is to be expected that Herr Severing, the Prussian Minister of the Interior, will take steps to prevent similar excesses in Potsdam.

Good proof of the success of the Communist agitation among the working classes is given by the results of the elections held by the metal workers all over Germany to appoint delegates for their annual congress. In Berlin the Communists held well over twice as many votes as the Socialists. This sweeping victory is evidently the result of discontent among the workers over settlement of the recent strike. In the Ruhr the Communists also won pretty handsomely.

It is interesting to note that in Saxony, where the Communist policy has had a greater say than anywhere else in Germany, the Socialists got away with a small majority in most centres.

LOCALS WERE EASY FOR CANADIANS; ROYALS WON

LOCALS DISPLAYED LOOSE FIELDING AND CANADIANS WON BY A SCORE OF 7-1

Fly Balls That Should Have Been Easy Outs Went For Extra Base Hits—Visitors Played Snappy Ball And Gave Lawson Splendid Support

Canadians experienced little difficulty in disposing of the locals here yesterday in the second game of the series, the visitors winning by a score of 7-1. Loose fielding by the home team was responsible for the defeat, the locals playing like a crowd of schoolboys for the greater part of the game.

Ten hits were secured off Thorpe who was assigned the pitching burden, though half of this number should have been chalked up as outs instead of safeties with any kind of fielding. Quebec is short of an outfielder since Martin has been out of the game and Desrosiers has been moved to third base, so Aran, who has been doing some catching was shifted to rightfield. This position did not suit the boy and he was responsible for three runs going over the plate following an out. Four high flies went in his direction, two of which he caught while the others although they would have been easy picking for the average outfielder went for hits, one of them a three-bagger by Curtis. On another occasion he almost collided with Kramer in going after a fly with the result that the ball fell between them and Army was credited with a two-bagger.

Major was responsible for another bonhead play when he spoiled Kramer of making a catch over second base. Kramer who was playing short centre was rushing in to make the catch and suddenly Major took it into his head to go after the ball with the result that both players stopped, looked at each other and the ball fell between them.

That was the brand of baseball the locals served yesterday. The visitors on the other hand were just the opposite. O'Rourke's help displayed a snappy brand of ball and gave Lawson splendid support. Lawson by the way was in fine form and held the locals to six hits while he sent back six by the strikeout route. Thorpe also pitched a good game and with any kind of support would have had a pretty pitching duel with "Blondy."

Canadians broke into the scoring column in the first inning when one run on one hit, a fielder's choice, sacrifice fly and an error. O'Rourke singled, got to second safely when Kramer dropped the throw on Army's fielder's choice, went to third on Weimer's out at first and crossed the plate on a long sacrifice fly by Delisle. They added two more in the third on a fielder's choice to left and Army who had reached first on Grenier's error and Delisle who had singled, scoring on a two-bagger by Cusick.

The locals tallied their only run in the fourth. Major walked and stole second but was caught between second and third on Carmel's fielder's choice. Desrosiers filed to left and Kramer sent Carmel to second with a single. Grenier followed with another one-base blow and Carmel scored. Klinger ended the inning by hitting into a fielder's choice on which Kramer was caught at third.

The visitors added another to their total in the fifth on a sacrifice fly followed by another by Curtis. In the sixth they added two more on a walk, a hit and an error. O'Rourke was given free transportation and stole second. Army followed with a double which scored O'Rourke and the first-baseman crossed the plate on Weimer's grounder and a wild throw by Desrosiers to first base.

A mis-judged fly by Aran on which Curtis made three bases and an error by Major was responsible for the final tally of the match, in the seventh inning.

A number of officers and sailors of H.M.S. Calcutta and H.M.S. Cape Town, to whom an invitation had been extended by the management of the Quebec team, assisted at the match.

OXFORD-CAMBRIDGE TEAM LOST AGAIN
Ottawa, August 9 — Before the largest crowd which has witnessed a lacrosse match in Ottawa in years, the touring Oxford-Cambridge team went down to defeat before the Ottawa Shamrocks here last night by a score of 14 to 7. While the locals won handily the tourists extended them on occasions and showed a fearless, consistent and finished game throughout.

Right: Hon. W. L. Mackenzie King, faced the ball at the start of the game and welcomed the visitors.

FOOTBALLERS' NEWS AND VIEWS

Montclair And C.N.R. In Return Match This Evening—Good Game Promised

What promises to be the best soccer game of the season is slated for this evening, when the Montclair and C.N.R. eleven clash in a return league fixture. The game is scheduled for 6:30 o'clock, and should be chock-full of excitement from start to finish. The Montclair footballers have indulged in several practices since their game on Saturday and have discovered, so they claim, some remarkable talent that was hidden on board ship. Captained by Jimmy Lawson, who played right back for Third Lanark in the Scottish League last year, and who has also served with Bolton Wanderers, Southampton United, Hartlepool United and Tranmere Rovers, practically a new team will take the field against the Railroaders, and will do their utmost to wipe out last Saturday's defeat.

The local players are fully determined to score another win and thus keep their record clean, and will trot out a strong eleven. A newcomer will be seen in the person of W. Jones, who will play inside left. The game will be refereed either by Bob Morton or an officer of one of the warships, while Capt. Turnbull, skipper of the Montclair, will probably be on hand, and may kick-off.

All sailors from both the Calcutta and the Cape Town are cordially invited to take in the game, there being no admission charged at the game.

The teams are as follows: Montclair—T. Murphy, goal; Lawson, (capt) and Henshaw, backs; Phillips, J. Green and J. Murphy, half-backs; Shearwood, Hughes, T. Green, McLean and Newell, forwards.

C.N.R.—Jordan, goal; Arnold and Rose (capt.) backs; Taylor, H. Warner and Pont, half-backs; Timmons, Theobald, McQueen, S. Jones and W. Jones, forwards.

Efforts are being made to arrange a friendly game for Saturday afternoon between the C.N.R. and a team from either the Calcutta or the Cape Town, or a picked team from both vessels.

THREE TIED IN CHESS TOURNEY

Hodges, Javowski And Schapiro Are On Even Terms—Canadian Well Up

Lake Hopatcong, N.J., August 8—Victories gained by Schapiro, of Columbia University and Janowski, of Paris, enabled these experts to tie Hodges, of New York, for first place in the Masters' Tournament of the Ninth American Chess Congress at the Hotel Almaco today. Schapiro defeated Black of Syracuse and Janowski won from Bigelow, of New York.

The standing of the players follows:

Players.	Won.	Lost.
Hodges	2½	½
Janowski	2½	½
Schapiro	2½	½
Kupchik	2	0
Lasker	2	1
Marshall	2	1
Chajes	1½	1½
Sourin	1½	1½
Tenner	1½	1½
Black	1½	1½
Morrison	1½	1½
Palmer	1½	1½
Santasiere	1½	1½
Bigelow	0	2

The pairing for the fourth round follows:—Marshall and Chajes, Palmer and Santasiere, Black and Hodges, Bigelow and Schapiro, Sourin and Janowski, Morrison and Kupchik, and Tenner and Lasker.

Sporting Notes.

T. M. Beattie, of the Q. S. A. C., made a good showing in the Bridge to Bridge swimming race at Montreal Saturday. The local lad, who was pitted against such stars as Vernot, Monty, Bourne, and Mitchell, finished seventh, slightly over five minutes behind Vernot, the winner of the event. The second place winner finished over three minutes behind Vernot.

Johnny Dundee and Benny Leonard may fight for the lightweight championship on September 5th. Dundee boxes Eddie Wagner at Philadelphia August 27th.

The local baseball artist certainly played below par yesterday. Well it may be that they wanted to get that game out of their systems. If this is what they wanted, they certainly succeeded, and with a vengeance. They have another game with the Red Sox to play today, so here's hoping that they put over something better than yesterday.

SAILORS WILL BATTLE MONDAY

Lightweight Champion Of The British Navy To Appear In Eight Round Bout

An added attraction for next Monday night has been provided for the fight fans of Quebec and district by promoter Montminy in the shape of an eight round scrap between Sailor "Tug" Wilson of the Capetown and Marine "Nobby" Clarke of the Calcutta.

Wilson is the recognized lightweight champion of the British Navy, and has fought all of the top notches that are to be found in any country that his ship has visited, and these are many. His most recent set-to was in Halifax, where he defeated the lightweight champion of the Maritime Provinces in handy style.

Clarke is no slouch himself, 'tis reported, and will do his best to make things extremely interesting for his opponent. In addition to the fact that the men are from rival ships, and therefore likely to scrap like cat and dog, there is the fact that the winner will get a bigger percentage of the purse that has been hung up by the promoter, the retailers having been arranged to the satisfaction of both.

Meanwhile everything is sailing smoothly for the other bouts, and there should be something doing when Williams and Laliberte stop into the ring, also when Mitchell and Connors mix it up. The out-of-town boys are expected here tomorrow afternoon, and will train at No. 3 fire station in order to be in the best shape possible for Monday. Both Williams and Mitchell are ready to step into the ring right now, and are just keeping themselves fit for Monday.

LIGHT WEATHER FOR YACHT RACES

King George's Britannia Finished Second But Was Disqualified—Myria Won

Cowes, Isle of Wight, Aug. 8 — The second day's racing of the Royal Yacht Squadron was carried out in light weather, with several shifts in the wind which necessitated considerable manoeuvring. Eleven events were on the program. The chief of these was a handicap race for yachts exceeding 100 tons. King George's Britannia was the scratch boat, but the weather conditions were not suited to her and she was led home by Mrs. E. R. Workman's Myria, to which Britannia conceded seven minutes.

Britannia finished second but was disqualified, the second prize going to Colonel J. Grettton's Kitch Kat ad.

K. H. Preston's Paula H. was an easy winner in the class for vessels under 100 tons. J. S. Highfield's Dorina, formerly the Tulga was second, Moonbeam, winner of the King's Cup, was third.

Frederick Last's Noreen won the 12 metre class race by five seconds from Mr. O'Connor's Kelpie, Mr. Payne's new life boat, Vanily, being third.

Jean captured the six metre class race, with Capelle second and Reg. third.

The standing of the players follows:

Governor McCray Requested That Bout Not Be Held In Memory Of Harding

Players.	Won.	Lost.
Hodges	2½	½
Janowski	2½	½
Schapiro	2½	½
Kupchik	2	0
Lasker	2	1
Marshall	2	1
Chajes	1½	1½
Sourin	1½	1½
Tenner	1½	1½
Black	1½	1½
Morrison	1½	1½
Palmer	1½	1½
Santasiere	1½	1½
Bigelow	0	2

The pairing for the fourth round follows:—Marshall and Chajes, Palmer and Santasiere, Black and Hodges, Bigelow and Schapiro, Sourin and Janowski, Morrison and Kupchik, and Tenner and Lasker.

After being informed that the bout would not be held, Hughie Gartland, manager of Firpo and Biddy Bishop, manager for Downey expressed their willingness to return next Wednesday night to carry out the program.

SHIPPING MOVEMENTS.

Steamer arrivals: New York, Aug. 8—President Monroe, London, Cameronia, Glasgow. Hamburg, Aug. 6—Empress of Britain, Quebec. Naples, Aug. 3—Conterosso, New York. Libau, Aug. 1—Estonia, New York. Hamburg, Aug. 7—Empress of France, Quebec.

DESCHAMPS LOST DECISION TO BULL

Toronto Boy Won Dominion Lightweight Title — Rioux Scored Technical K.O.

Montreal, August 8 — Frankie Bull of Toronto, champion lightweight of Ontario, made his provincial title a dominion one when he won the judges' decision over Oscar Deschamps the Quebec champion in a feature twelve round bout here tonight.

The fight was mostly a give-and-take one, a few of the earlier rounds accorded Deschamps being more than balanced by Bulls improvement towards the end. The Toronto man got the most of his points from a knockdown in the fifth and a marked superiority over the local man in the final round.

Early in the 5th. round a right cross to the jaw sent Deschamps to the mat for the count of two and by the end of the round he was groggy. In the eighth round Deschamps was warned against hitting in the clinch, the ninth round was Bulls while the tenth was generally conceded a draw. Deschamps' mouth was bleeding in the eleventh and an aggressive final round by Bull was enough to gain him the title. Bull weighed 136 pounds, Deschamps 135.

In the preliminaries Elzear Rioux local heavyweight was awarded a technical knockout when the referee stopped his bout Paul Lahaye in the fourth round to have him further punishment.

Lahaye was showing signs of fatigue as early as the second round but rallied in the third and fought back desperately.

Early in the fourth Rioux opened a gash under his opponent's left eye and following up with a series of brute-like blows sent Lahaye down for the count of nine. Lahaye staggered up, but before he could straighten out, Rioux sent him reeling to the ropes, the crowd bellowing loudly. Here referee Benny Cohen stopped the fight, a lot of doubt as to the actual circumstances was afterwards felt until the referee made a statement explaining his action. Many thought that Lahaye had been counted out and that Rioux, misapprehending, had hit him again. Others claimed that Lahaye had himself given up, and had signalled Rioux to that effect when rising at the first count.

Rioux's victory was not a popular one and the opinion was very freely vouchsafed among prominent boxing men that any championship aspirations in the heavyweight class (145) the former might hold would reach the zero mark, after two rounds with Jack Renault or any boxer of similar ability. Young Mack knocked out Jimmy Knox in the fourth round of a ten round preliminary and Georges Olivier was awarded the decision over Danny Coogan. These men are all local lightweights.

MORE DAVIS CUP MATCHES TODAY

Australians Will Play Japs In American Zone Competition — Doubles Saturday

Chicago, August 8 — John H. Hawkes, of Australia, and Zeno Shimizu of Japan will face each other tomorrow in the opening singles match of the American zone competition of the Davis Cup teams of their countries. This was announced as the result of the draw today.

The second match tomorrow will bring together James O. Anderson, Australia and Masamune Fukuda, Japan.

On Sunday the singles will find Shimizu, tied against Anderson and Fukuda opposed by Hawkes. The doubles will be played Saturday, play being suspended on Friday out of respect to the late President Harding.

MASKED MOB FLED BEFORE SHOT GUN

School Supt. Frightened Mob That Demanded Possession Of Negro And Negress

Atlanta, Ga., Aug. 9—Unmasked men carrying guns visited the Georgia Training School for Boys at Milledgeville, Ga., last night and demanded of Dr. H. C. Wood, acting superintendent, that he turn over to them a negro and negress, employees of the institution. Dr. Wood stated yesterday in a telephone communication. The men left when he threatened them with a shot gun, he said.

The superintendent denied the report that the visitors whipped two negro employees.

AMERICAN CHOR WON FIRST PLACE IN WALES COMPETITION.

Mold, Wales, August 8. — The Orpheus male voice choir of Cleveland, Ohio, composed mostly of steel workers, who years ago emigrated from South Wales, won first place today in the choral competition at the Welsh National Ostaeddfod, the greatest song and poetry festival of Great Britain.

LOUQUE SUSPENDED FOR FIGHTING

Cincinnati Pitcher Rushed From Mound To Giants' Dugout After Stengel

Cincinnati, August 8—Pitcher Adolfo Louque, of the Cincinnati Nationals was suspended today as a result of the clash that occurred in the eighth inning of the Red-Giants game here yesterday. President August Herrmann of the Cincinnati Club, received a telegram from President John P. Heyd, who was in Chicago for the day, stating that Louque was suspended for violation of the playing rules.

Louque, in the eighth inning of yesterday's game, rushed from the pitchers' box to the Giants dugout and aimed a blow at Casey Stengel. Stengel ducked the blow. Further trouble was averted by players and park policemen.

MAINE COAST RESORTS

To many thousands of people there is no holiday than can compare with a vacation spent at the seashore. The smooth, sandy beaches, the rocky coves, the murmur of the restless ocean, the invigorating breezes, the cool refreshing nights, the delights of bathing, boating and fishing, combine to make a well-nigh irresistible appeal to the vacation seeker. The Canadian National Railways has just issued a handsome illustrated publication entitled "Seashore Holidays" giving a hotel directory, map, etc. Copy may be had free on application to any Agent of the Canadian National Railways or to H. J. Nestor, City Passenger Agent, 10 St. Ann Street, Quebec.

STONEHAM HARVESTERS OFF.

A party of Stoneham Harvesters, including Messrs. Alwyn McKee, Stanley Dacres, Harold McKee, Lionel McKee, Wallace Dacres and Russell McKee, left last evening via C. N. R. for points in Saskatchewan and Alberta.

RAILWAY TIES

The Canadian National Railway are in the market to purchase the tie requirements for 1924. Parties wishing to produce Ties for the Railway Company should communicate with Mr. W. H. Grant, General Tie Agent, Room 302, Canadian National Express Building, Montreal, Que., on or before August 15th, 1923, and give the following information. The location of the timber from which the ties are to be produced, the kind of timber, quantity of ties, either sawn or hewn. As far as possible, Ties must be produced on Canadian National Lines.

W. H. Grant,

General Tie Agent.

July 28, 31, Aug. 4, 6, 9, 14, 15.

In too much disputing truth is apt to be lost.

Peace begins where ambition ends.

GLOW-WORM'S
VARIED FIREBelieved Primitive Forms, Of
Life Once Had Greater
Power Of Signalling

Glow-worms shine on summer nights with a varied fire, red as Mars when the day has been hot and bright, but often paling to a blue-green glimmer when the garden banks are fanned by a moist wind. Their light is at all times precise and defined, and burns with a steady flame; and in this, as well as in its more cheerful colour, the glow-worm excels that other small creeping creature with a nocturnal beam, the sinuous and dusky millipede.

Millipedes gleam on the walls of shady outhouses with a flickering phosphorescence, paler than the greenest flame of the glow-worm under the open sky. Neither of these live lamps have much attraction to human eyes, except for its light. Millipedes have not, as their name implies, a thousand legs, but they have so many as to inspire repulsion in creatures with only two. The surge of motion along that dense double fringe of limbs has the horror of the infinite in miniature. Glow-worms when their light is quenched have the ugliness of a crawling shape and livid markings. Though beetles, they lack most beetles' firm outline and burrished mail; they are more like the larvae of beetles than the perfect insect. Only the female shines brightly, and the luminous area is the under side of the last few segments of her soft tapering body, which she twists so as to display her light more fully. When the light is turned off, the mottled surface which casts it is peculiarly unattractive; so that, when once we have examined a glow-worm, we may be content with its fairy lustre at a distance.

Everyone knows how moths and flies and beetles are attracted to the light of lamps on summer nights, but it is difficult to account for a habit so little to their advantage. The effect of a lamp or candle by an open window on the insect population of the garden is

much as if all the inhabitants of Sicily were irresistibly impelled to hurl themselves into the crater of Etna in eruption, as one philosopher once did. The problem is conjecturally illumined by the glow-worm's light. It is singular that this shining beetle is of such primitive form; and this fact gives a little further support to the theory that while insect life was being moulded to its present shape the power of signalling to a mate by light was far more general. It is thought that the instinct of response to light is so deeply implanted in many sects that though the faculty only survives in a few species the flame of a lamp has still an overmastering fascination.

An incandescent abdomen, in a singular means of communication, effective only within certain limits. Like every visual method of signalling, it requires an uninterrupted field, such as must often be lacking to small insects passing their lives among the grass and leaves. A method for more inexplicable and subtle has been evolved by certain moths. Take a newly hatched female of certain species of silk-spinners into the woods, and in a minute or two the male moths, if any are present, will be flocking from all quarters, though the lady is shut up in a box. Because the male moths which so behave have fern-like antennae of unusual complexity and size, these are thought to be the receivers of the message; but the mystery of its despatch and transmission throws the glow-worm's lamp-signal into the shade.

HEAT PROSTRATED

MANY WITNESSES OF
FUNERAL CORTEGE

Washington, Aug. 8.—Numerous heat casualties—none of them reported serious—took place in the great crowd which saw the Harding funeral cortege and among the uniformed troops which took part. A broiling sun and a high degree of humidity combined to prostrate scores. For most of the casualties first aid was sufficient and a smaller number were taken to the hospitals.

RAILWAY SHOPMEN'S

WAGE CONFERENCE.

Montreal, Aug. 8.—A further joint meeting of the Railway Association of Canada and the Rail Shopmen's Committee on the new wage schedule for rail shopmen on Canadian lines will take place tomorrow when the Railway Association is expected to present its reply to the men's demands.

The Great Western Stampede

Stampeding steers and unbroken horses featured the Stampede. Top right, Mayor Webster interrogates a brave.

in gaudy-colored shirts, telephone operators as cow-girls, cow-boy sports, cow-boy yells, bucking horses, made a week, famous in the annals of sport in the world.

Back about 1905, Alberta cow-boys visiting Calgary, gave up the practice of hitching their ponies on Eighth avenue, but during stampede week, the chuck wagons were parked in front of modern retail buildings, horses were tied in front of dignified banks—the cow-boy literally "pitched camp on the main drag."

To add to the great wild west picture was to see "Tony," a black pony ridden by a typical westerner, make his way through a crowd or to see Mrs. Duck Thiel making her way up Eighth avenue, just previous to winning the first prize for travels turn-out. The tepee poles crossed over her horse, dragging behind and the family followed, quite comfortable except for the car track crossings.

The buffalo barbecue was a new interest to the present generation, even if old-timers were quite at home in enjoying their buffalo sandwiches. Five buffalo were obtained from the Wainwright herd and the committee served over twelve thousand sandwiches.

Of all the striking pictures of the old, wild west, that have ever been presented to the world, the great Calgary stampede will live forever in the minds of those whose imagination grasps in significance the passing of the last great west. And it is thus passing in pictures that are a dazzling succession of brilliant colors.

The new Banff-Windermere motor highway, forming as it does a link in a 6,000 mile chain of good roads, was used by hundreds of visitors who motored from the western States and from British Columbia, and who afterwards toured the Canadian Pacific Rockies. From every viewpoint the great Stampede was an unprecedented success.

SUGGESTING
BUYERS' STRIKE
TO END CRISISU.S. Coal Board May Use
This Weapon In Anthracite
Deadlock

SUBSTITUTES URGED

Flood Of Bituminous Coal Included In Commission's
Plan

Washington, Aug. 8.—Plans to flood New England and other anthracite sections with bituminous coal, it developed today, originated with the United States Coal Commission, which proposes to inaugurate an anthracite "buyers' strike" as a means of breaking the Atlantic City deadlock.

Without authority to act in the crisis to force an agreement, the Coal Commission has decided that this is the most effective weapon that can be used in bringing the warring operators and miners together.

In effect, the miners and operators are told that if they persist in their fight, the public will find a way of getting along without their product. The move was first disclosed in the initial paragraph of the Coal Commission's report, which urges the use of hard coal substitutes, especially bituminous and coke. With these substitutes the country can be kept warm and at a rate much cheaper than that usually paid for anthracite.

The bituminous producers are in sympathy with the anthracite operators on the one question of opposition to the "check-off," but aside from that will play their cards with the United States Coal Commission, and without regard to the susceptibility of their brother operators in the anthracite region. The National Coal Association has already let it be known that they will furnish the necessary soft coal at prices to be fixed by some designated agency of the Government, furnishing cost sheets showing production expenses daily as a means of reaching this price.

The bituminous coal industry is in an excellent position to aid the Coal Commission in applying this form of pressure upon the conflicting agencies. About 60 per cent. of the bituminous mines are unionized, while 40 per cent. are run on the open-shop plan. The union mines have contracts with their operators running to April 1 and no sympathetic strike could be staged by the bituminous miners until that time without violating their agreement. Even in the event they should do so, the bituminous mines, according to John G. Brydon, president of the National Coal Association, and chairman of the Bituminous Operators' Committee, could operate at 80 per cent. capacity.

In addition to this they have been producing in large quantities, during the present summer, with the result there is a generous reserve on hand. The situation in New England is better than ever before at this season of the year, an unusual amount of coal, both anthracite and bituminous, having been shipped to that region both by rail and water during the past few months.

WHEAT POOL COMMITTED

GOT DOWN TO WORK

IN CALGARY

Calgary, Aug. 8.—Selection of the personnel of the Wheat Board Organization Committee has been practically completed and all of the sixteen members so far appointed were attending the sessions today. The Committee under the Chairmanship of H. W. Wood, President of the United Farmers of Alberta, got down to real work this morning and it is expected that the organization of the pool, the drawing up of contracts and arrangement for "signing up" week will not be delayed.

Great quantities of tea are now being grown on the island of Java, in the Dutch East Indies. Photo shows girls doing the sorting by sieves.

NEW YORK HAD SHARPER REACTION; MONTREAL FIRM

SHARP PRICE RECESSIONS, AFTER MODERATE STRENGTH IN NEW YORK MARKET

Resulted From Heavy Selling Of Shipping Shares, Leather And A Few Specialties—Ralls Offered Best Resistance Call Money Held At 4 3/4 Per Cent. All Day

New York, Aug. 8.—Heavy selling of leather and shipping shares and a few specialties because of poor trade conditions led to a withdrawal of buying support by short interests in today's stock market, and brought about a sharp recession of prices after an early interval of moderate strength. In view of the absence of a number of large traders because of the 90 minutes' suspension of business today and the Friday holiday, price changes were not regarded as very conclusive. Considerable short selling developed in the leather group with the result that Central Leather Common and preferred and American Hide and Leather preferred dropped to new low records for the year. The net loss in each case being about 1 1/2 points.

International Mercantile Marine Common and Preferred, American International Corporation, Burns Bros. A. and Allied Chemical and Dye also touched new lows. Selling of Allied Chemical was predicted on the loss of that company's suit to stop the steel and tube merger as a result of which it is reported the company will receive only \$13 a share for its steel and tube common which is said to have cost the company about \$40 a share.

Baldwin, which had been selling around 114 in the morning trading dropped back later to 111 3/4 for a net loss of 2 3/4 on the day. United States Steel, Pan American B. American Locomotive, Studebaker, American Can. and Anaconda also closed 1 to 2 points below yesterday's final prices.

Rails offered better resistance to selling pressure, the average of 20 leading stocks showing a net loss of about 1-2 point on the day. The Government crop report issued after the close of the market yesterday was interpreted by the grain traders as bullish but it received a moderate response in the commodity markets.

Foreign exchanges were again heavy. French and Belgian francs and German marks establishing new low records for the year. Demand sterling held fairly steady just above \$4.56.

Call money held at 4 3/4 per cent all day. The time money and commercial paper rates were unchanged with business quiet.

Total sales were 411,300 shares.

30 Industrials averaged 88.65; net loss .92.

High 1923, 108.38; low 86.91.

30 railroads averaged 77.85; net loss .50.

High 1923, 80.63; low 76.73.

After moving forward moderately in the early trading bond prices fell off somewhat later, but generally closed slightly higher than final quotations yesterday.

Active U.S. Government bonds held steady and foreign issues improved slightly.

Most of today's trading centered in the railroad division a score or more of these mortgages registering fractional gains.

A gain of two points by Steel and Tube 7s reflected formal approval by the courts of the company's merger with the Youngstown Sheet and Tube Company. Other changes in the industrial group were nominal.

(By BARRY & McMANAMY.)

Daily Gossip On Leading Stocks

With the value of the mark sloping downward, apprehension was felt today that all shopkeepers other than those dealing in food-stuffs would be forced out of business.

League of retailers in many cities have announced that there is definite danger of their being forced to suspend business entirely.

The retailers point out that it is impossible to continue buying and selling when the mark at night is often worth but half what it was in the morning.

Berlin shops dealing in linen and textiles have already announced that they will close Thursday as a protest against the Government's restriction regarding profiteering.

Production of bituminous coal increased in July from a weekly rate of 10,600,000 tons to 10,880,000 at end of month. Early returns for last week indicated output of 10,900,000 tons. Geological Survey reports. Coal output is estimated at 10,799,000. Anthracite output continues to exceed 2,000,000 tons a week.

Total trade of Philippine Islands for first half of 1923 amounted to 217,770,400 pesos, compared with 174,072,400 pesos in same period of 1922; exports totalled 134,218,800 compared with 101,673,000 pesos and imports 83,551,600 pesos compared with 74,399,500.

"Developments in the Stock Exchange during the past few weeks have served to emphasize very clearly the vital importance of a real and permanent settlement of the Reparations question," says a prominent British financial house in a recent market letter.

"Uncertainty is one of the worst enemies of progress, and until this all-important matter is satisfactorily disposed of, there cannot be real stability in markets or the virile trade recovery to which the present complex European situation is the primary obstacle."

According to returns received at the Dominion Bureau of Statistics for the week ending July 27th, 1923, the quantity of grain in store showed a net decrease of 3,937,034 bushels. Rye showed increase of 574,648 bushels, while wheat, oats, barley and flax showed decreases of 3,230,980 bushels; 1,105,044 bushels; 149,105 bushels and 28,873 bushels respectively.

On Monday, August 13th, the Canadian Connecticut Cotton Mills, Limited, of Sherbrooke are listing on the Montreal Stock Exchange three classes of stock, i.e. \$3,000,000 of 8 per cent Cum. participating preferred stock, par value \$10; \$500,000 of Class "B" Common stock, par value \$10, all issued and outstanding in the hands of the public.

All of the above stock is fully paid and non-assessable and no personal liability attaches to the holder. The duration of the charter is perpetual.

The company's mills are situated in Sherbrooke, Que. the buildings occupying ten acres, and there are about eight acres of unoccupied land, making a total area of approximately 18 acres owned by the company. The store houses and power plant adjoin the railroad track, thus making easy the handling of goods.

In the current issue of the Quebec Official Gazette notice is given that the City of Three Rivers will receive until August 20th, tenders for the purchase of bonds amounting to \$240,500. Both principal and interest on these debentures will be payable at the office of the Bank of Hochelaga, in the City of Three Rivers, or in the city of Montreal, or in the city of Quebec.

A report from Sydney, N.S. states that Sir Newton Moore, director of the British Empire Steel Corporation, who has just returned to Sydney after an inspection of the company's iron ore areas at Wabana, says that at the moment what the company needs is a market for the raw iron as mined at Bell Island.

Owing to complications in the Ruhr district, Germany is not in a position to take the same quantity of ore this season as last. Most of the blast furnaces in Germany, he said, are now idle and only individual cargoes are being received. Even with this curbed shipment, great difficulties are met and considerable additional expense is entailed as they have to be discharged in lighters.

Last year over 800,000 tons of ore were delivered and contracts were entered into for 600,000 tons, but owing to restrictions enforced by the French, only a small portion can be received.

An effort is being made in England to develop a market for surplus ore, Sir Newton says, and the Baldwin Works have contracted for 60,000 tons. A few cargoes will be shipped to Philadelphia.

The amount unused at Sydney annually has been somewhat curtailed owing to the strike, but it is hoped that the mills there will catch up before the end of the year and consume their customary allotment.

CANADIAN CONVERTERS MADE GREATEST GAIN OF THE DAY IN STRONGER TONED MARKET

Abitibi Was Market Leader In Activity, With Steel Of Canada Second, And Brazilian Third—43 Issues Appeared, 11 Gaining, And 5 Losing—Bonds Active

Montreal, Aug. 8.—There was a stronger tone present in today's trading in listed shares on the local stock exchange.

Of the 43 issues appearing, eleven gained ground, five suffered losses; six were unchanged; and 21 came out in broken lots.

Abitibi was the market leader in activity and closed at \$9 for a net gain of 1-4. Steel of Canada came second and was up 1-8 at 67 1/2. Brazilian was third and was down 1-2 at 45 ex-dividend.

The greatest gain of the day of 1-2 points was scored by Can. Converters at 38 ex-dividend. Dom. Textile at 35 and Spanish preferred at 97.

Other price changes included Can. Car preferred off 1-2; Canada Cement preferred up 1-2; Smelters up 5-8; Dom. Glass up 1; Montreal Power up 1-2; National Breweries up 1; St. Lawrence Flour off 1-2 which made it the weak spot of the list; and St. Maurice Paper up 1-4.

Total sales listed 2190.

Trading in listed bonds on the local stock exchange today was somewhat heavier than previous days but without special feature.

Total sales \$55,300.

Your Home Town

What causes the Scotsman's eye to kindle when he hears the accent of a brither exile?

It's the home-town feeling.

The voice tells its own story. It carries him back home. All the longings, be they for the purple hills, the green fields or the murky streets of a city, are quickened. The sympathy between speaker and listener becomes complete.

Remember, when your thoughts drift back to your home town and its people, that many old friends who would like to hear your voice are listed in the telephone directories.

Long Distance will take you back. Station-to-Station evening and night rates make it inexpensive.

L BELCOURT,
Manager.

EXCRUCIATING PAINS, CRAMPS

Entirely Remedied by Lydia E. Pinkham's Vegetable Compound

Eberts, Ont. — "I started with cramps and bearing-down pains at the age of eleven years, and I would get so nervous I could hardly stay in bed, and I had such pains that I would scream, and my mother would call the doctor to give me something to take. At eighteen I married, and I have four healthy children, but I still have pains in my right side. I am a farmer's wife with more work than I am able to do. I have taken three bottles of Lydia E. Pinkham's Vegetable Compound and I feel that it is helping me every day. My sister-in-law, who has been taking your medicine for some time and uses your Sanative Wash, told me about it and I recommend it now, as I have received great relief from it." — Mrs. NELSON YOTT, R. R. 1, Eberts, Ont.

Lydia E. Pinkham's Vegetable Compound is a medicine for ailments common to women. It has been used for such troubles for nearly fifty years, and thousands of women have found relief as did Mrs. Yott, by taking this splendid medicine.

If you are suffering from irregular, painful periods, nervousness, headache, backache or melancholia, you should at once begin to take Lydia E. Pinkham's Vegetable Compound. It is excellent to strengthen the system and help to perform its functions with ease and regularity.

HOME-MAKING HELPS.

"Everything About the House Helps to Make the Home."

By WANDA BARTON.

Easy Ways to Make Your Porch More Attractive.

Home-grown oddities in porch cushions make the fitting very smart and individual in appearance, and the addition of a new one frequently keeps up the interest. The cushions are not expensive as regards the "making," for it is the time put into the work and the oddity of the designing that give them the distinctive touch. The color of the porch furniture, hammock-covers and awnings is used in the cushions, and as many odd shapes are chosen as there is room to display them.

There are charming fancies in old-blue denim with the work done in narrow stripes of black patent leather in geometrical designs which are unusual and most attractive. The pillows are in rolls for the hammock-ends and in oblong and heart-shapes for back-rests. Then again the light shade of old rose denim is appliqued with motifs in the dark shade, the couching being done in a heavy, black floss sewed down with the darker shade of pink, or with pastel colors that give it the effect of tapestry.

A charming set for a porch where the cane furniture was painted in old blue was made of burlap dyed the same shade of blue, then embroidered with the coarse wool in purple and lavender iris with their long spike-like leaves. The hammock-couch was covered with linen in blue and green stripes bound with tan braid. The porch dishes were nautical ware in the green and blue shades, the entire effect was charming. Awnings were made of the rust-colored sailcloth which gave the needed color contrast.

Another set of odd cushions was covered with braided raffia. This material, after making up, was painted a soft nut-brown, then stenciled in a pattern of yellow daisies and brown-eye Susans—and the furniture was painted in the same warm brown with pinks and purples of the same shade of yellow to match the petals of the daisies. The linen covers on the hammock were in brown and yellow stripes, the awnings in the same shade of yellow canvas, and the dishes were of brown pottery. The contrast was achieved by a pale blue, a rose pink and a lavender pillow, each covered with linen with ruffled edges.

Of course, in choosing the porch coloring, it was wise for everything to be harmonious. There are the most fascinating wicker flower pots that may be painted to match to hold the potted plants and seem to be part of nearly all porch decorations. The pots come in all sizes. Wicker footstools are another comfort that should not be overlooked for the home porch, and, of course, they are painted to match the furniture. Wee, flat pillows are some times used on the stools and are tied in place at the corners by tapes leather thongs or dark, durable ribbons matching the design of decoration, or whatever materials the cushion happens to be made of.

White cushions made of unbleached muslin with applique or stenciled decorations appear quite frequently, though they are rather delicate and soil quickly. To overcome this, the covers are made so that they may be removed and laundered quickly. One attractive set was done with morning glories of the huge most frequently seen on the vines applied in linen. The leaves and tendrils in green formed the contrast needed to set off the colors. Among these pillows there were two in triangular shape which are rather new and of festive in appearance.

Quite pretty covers for cushions are made by using black satin and "rimming" them in colored motif, made of the same material. The applique pieces are fastened in place with black floss by buttonhole stitching.

There are numbers of leather cushions used for porch comfort but they are really and they look badly when they become spotted. The spots do not respond to the ordinary cleaning agents like benzine or gasoline, which seem to spread them instead of removing them. But there is a rubber film preparation which is spread over the spots and allowed to get a "good dry" and is then taken off when it brings the spot with it. If milk washes are allowed to remain any length of time on leather, the only way of removing them is to have the leather dyed a darker shade which will show on the surface.

Chronicle Files 100 Years Ago

Agricultural Report.

The first part of the month, as late as the 22nd, was dry, although not warmer than usual; this retarded materially the growth of all the crops, and was particularly injurious to the grasses—subsequently to the 22nd the weather changed into an unusually heavy and cold rain with a violent east wind. The same unsettled weather continued to the end of July. The wheat crops are as productive as in common years, with every appearance of being good in quality—the quantity sown is as great as usual—it is the principal object of cultivation. Oats which are pretty good, have suffered partially from the blight and rust. The same may be said of barley. The hay crops are throughout the District very deficient, and those which will be secured will not be more than two-thirds of the usual quantity. The Clover and Timothy with Grasses have proved on moist soils considerably more productive than material meadows. The Turnip crops have a remarkably fine appearance and the Potato crops look well.

Chronicle Files 25 Years Ago

The Hay Crop.

In many places the recent rains have very seriously interfered with the harvesting of the hay. In fact so much was this the case that the Cures of St. Jean Crispostome, St. Joseph de Lévis and St. Michel, seeing that Sunday's weather was favorable for the harvesting of the crop, gave their congregations permission to work at it. In many localities much of the hay is housed, while in others it is not all covered.

Anticosti Island.

Mr. Menier is greatly interested in Canada's growing pulp wood industry, and he has large areas of forest available for the purpose. On Anticosti, he proposes working a mill on the island and manufacturing pulp. Mr. Menier went to Grand'Mere yesterday to view the mills there. He was accompanied by His Worship the Mayor, Hon. Pierre Garneau, H. M. Price and others.

A Brave Rescue.

On Saturday afternoon last, while two well-known young men of this city, were out sailing in a cat-boat on Lake St. Joseph, a heavy squall of wind struck the sail and overturned the craft, precipitating them into the water. As they were struggling in the waves, two ladies who were spending the summer at the Lake, saw their plight and pluckily put out to their aid in a small skiff, though the lake was, no means calm. The victims of the accident were rescued in a very short time, thanks to the promptness of the ladies, and were landed on terra firma without much ado, none the worse save for their wetting.

BANK OF ENGLAND MAKES ADVANCE TO THE GREEKS

Athens, Aug. 8.—The Greek Premier, Colonel Gonatas, has made the announcement that the Bank of England has agreed to advance £1,000,000 on account of the refugee loan. He also announced government measures of controlling profits on the Greek exchange. This produced an upward tendency of the drachma and promises to be effective. The Minister of Finance declared on the 1923-24 budget promise that a balance is assured.

Only when genius is married to science can the highest results be produced.

ATTRACTIVE BUNGALOW DRESS

This one-piece dress of printed percale, cotton crepe or gingham would be ideal to wear when you putter about the garden or are making the beds, and the nice part of it, you won't have to change when you go a-marketing or take the baby out for a walk. You'll like it, too, because it won't take long to make and you'll find the task very easy. The pattern No. 1828 can be had in sizes 16, 20, 24, 28, 32, 36, 40 and 42 inches bust measure. The 36-inch size requires 2 1/2 yards 36 or 40-inch material with 1/4 inch of 3/4 inch contrasting for the vest and 3/4 yards of binding is required. Price 15c, stamps in for the sash. Address all orders to Station Department, Quebec Chronicle.

PARIS FASHIONS

An Interview.

There are no new fashions to invite comment and no old ones that permit of it; but the wardrobe may be reviewed and the budget examined. Practical women neither run into debt nor waste money in trying to make old clothes new. They know that debt leads to trouble and renovations to dowdiness. One's policy should be clear when no money can be spared for mistakes. There must be no overcrowding of shelves, or page, a sense of fitness should be observed. To be too well set up in evening dresses but inadequately supplied with morning and afternoon clothes, to have enough stockings but not enough shoes, or to have richly and poorly furnished underneath, to have pretty hat boxes but inappropriate hats in them—are errors due to want of thought and power of selection.

A girl who often goes out must have variety: one who leads a secluded life needs few, but good clothes. The requirements of youth and maturity are different. The first step towards dressing well is to know what fits the circumstances. The extravagances of the rich and the cheap finery of the poor come from untrained taste. No one can dress well unless she knows how to be simple. There is the simplicity of the rich and the simplicity of the poor. Both are pleasant. A rich woman may refine fashion to an art; a poor woman may put fashion behind her and aspire to neatness. Nothing is in practice so democratic as dress. Maid and mistress, shop assistant and millionaire's daughter all wear silk stockings today. Clever imitations of expensive fashions can be had if knowledge and taste rule the selection. Social position has nothing to do with fashion, but individual taste is slowly asserting itself, and in all classes of society there are women who by choice dress simply.

The ethical side of clothing is hidden behind fashion, and it is only between seasons that it may be disclosed. At those moments, and this is one of them, there is time to think. Bills, unpleasantly high, come in. Unbecoming dresses that have only been worn once, are turned over with dislike to be sold for a few shillings. But when the new models are shown next month, the same mistakes may easily be made unless the wearer's taste has, in the meantime, improved. She will be offered many eccentricities and extravagances and some fashions from which she will be able to choose. It is a usual thing to make a new fashion in colour. Trained taste knows that that fashion will look better in black. Some fashions lose their style altogether if the colour is changed; others are improved. Experience can tell at a glance when two fashions can be put together to make one, and when it is possible to change the original material, its length or width of a skirt, the waist line, and other such details.

Practical simplicity demands economy in upkeep. The white washing dress, though in plain twill, is not economical. The light woolly coat-frock is expensive for the winter, since it will need regular cleaning. If light things are chosen they should be figured, since materials with patterns on them do not show marks or dust as much as plain surfaces. Velvet marks easily, fine poplin creases. It is well to know these things for marks and creases are not neatness. The wisdom of having a scheme of colour for a season dress allows holds good, and does not entail monotony. Bright colours should be used sparingly on a dark background. The use of colours with black is a help. On navy blue dress changes can be made. Such things as a bright hat, a coloured silk sash, or light stockings correct dullness and allow of change.

STYLISH DRESS FOR THE MATRON

In this design, which embodies both the popular vogue for pleats and lines that lend dignity and charm to the mature figure, you will find the task of making extremely simple. You will like the slight ruffles at each side of the waist, and the oval neckline is certain to be becoming. The pattern No. 1822 can be had in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust measure. For the 40-inch size 2 1/2 yards of 40-inch material with 1/4 inch of 3/4 inch contrasting for the vest and 3/4 yards of binding is required. Price 15c, stamps in for the sash. Address all orders to Station Department, Quebec Chronicle.

Social and Personal

Miss Therese Falardeau has left on a trip down the Saguenay.

Mr. A. M. Deschamps of Ottawa, is in town a guest at the Chateau.

Mr. U. L. Giguere of La Tuque, is in town a guest at the Chateau.

Mr. H. C. Fyfe has returned to town after spending a few days at St. Patrick.

Mrs. John W. Cook, Peel street, Montreal, has returned home from a trip to Murray Bay.

Mrs. W. J. Stethem, of Montreal, has left to spend a few weeks at Laurendeau and Grand-Mere.

Miss Jeannette Lalonde has returned to town after spending some time visiting the Eboulements.

Miss Muriel of Ottawa will leave this week for Elmwood, Que., to be the guest of Miss Allyn Fleet.

Mr. Paul H. Dubar has returned to town after spending a few days at Trois Plateaux visiting his family.

Mrs. J. E. Fortier and children have returned to the city from Pointe-au-Pic, where they spent a month.

Mr. and Mrs. Leon Casgrain and Miss Adrien Casgrain have returned to town from an automobile trip to Jasper.

Miss May Matthews of Montreal is in town visiting her sister, Mrs. S. A. LeMessurier, Bougainville, Avenue.

La. Col. G. E. Marquis has returned to the city after spending a few days at Les Eboulements with his family.

Mr. and Mrs. David A. Lewis, Drummond Apartments, Montreal, have returned home from an extended motor trip.

Lady Hickson of Montreal who has spent the past several weeks at York Harbor, expects to return to the city shortly.

Sir Lomer Gouin is in Ottawa for a few days from Pointe-au-Pic, where he and Lady Gouin are spending the summer.

Miss Marcelle Brunet, has returned to town after spending several days at Pointe-au-Pic, the guest of Mrs. Adalard Turgeon.

Mr. Ronald McDonald has returned to town from St. Irene where he was the guest of his aunt, Lady Forget, for several weeks.

Mrs. McQuiff Lamb, Mackay Ave. Montreal and her two daughters, are spending the remainder of the summer at Kennebunk Beach.

Mr. and Mrs. J. F. Kidd have returned to Ottawa from Fernbank, where they were the guests of Mr. and Mrs. F. W. Carling for two weeks.

Mr. and Mrs. Walter Thompson of Ottawa, are the guests of Col. and Mrs. A. T. Thompson at their summer home at Southview Park, Cayuga.

Leon Dr. Beland and Mrs. Beland have returned to Ottawa from Quebec where they were the guests of Mr. and Mrs. Mathieu on their way home from St. Joseph de Beauce.

Mrs. C. B. Keenan, Mount Street, Montreal, is leaving this evening for B.C. where she will spend the next three weeks. Mrs. Keenan will be accompanied by her sister, Miss Mildred Hager.

Rt. Hon. W. L. Mackenzie King, the Prime Minister, enquired of Hon. F. C. Larkin, High Commissioner for Canada in London, at dinner Monday evening at Laurier House. Members of the Cabinet were also present.

The following guests are registered at the Chateau: Mr. J. H. Peters, Kansas City, Mo.; Miss Dorothy McVicar, New Haven, Conn.; M. L. Gilman, La Tuque; A. M. Deschamps, Ottawa; Mr. J. Giguere, Montreal; Mr. H. L. Pellet, Montreal; Mr. and Mrs. E. W. Rawson, Vancouver, B. C.; Mr. and Mrs. A. E. Martin, New York City; J. D. Egan, Galt, Ont.; Miss Alice J. Ray, Ashland, Mass.; Mr. Ed. Brodeur, Montreal; R. A. Garrett, Toronto; Dr. and Mrs. A. W. MacVey, Brooklyn, N.Y.; Mr. and Mrs. W. H. Jewell, New York City; H. G. Smith, New York City; Mrs. E. J. Magre and daughter, Boston; Geo. L. Forsyth, Hamilton, Ont.; Mr. and Mrs. Henry Lonahan, S. Orange, N.J.; Miss Mae R. Halligan, Brooklyn; Misses F. Walsh, Elizabeth, N.J.; and Anna C. Keefe, Metuchen, N.J.; Major and Mrs. J. W. Blackland, Washington, D.C.; Mr. and Mrs. O. P. Thompson, Des Moines, Iowa.

SWITCH GEAR FOR MINES.

In "flery" coal mines, where the tiniest exposed electric spark may ignite the explosive atmosphere, with results disastrous to life and property, electrical machinery is nevertheless used on an enormous scale—and where proper equipment is employed—with complete safety. The most remarkable part of the equipment is perhaps the switchgear used to control the various motors by closing or opening the electrical circuit. There is, of course, inevitably an arc between the switch contacts at the moment when they are thrown apart, and it is essential to make such arrangements that this arc cannot ignite fire damp or coal dust in the surrounding atmosphere. Merely to enclose the switch in an "air-tight" chamber is not sufficient. No casing which meets the requirements of the service can be sealed really hermetically. The only safe policy is that adopted by British manufacturers, which recognizes that explosive gases will collect within the casing, which must therefore be designed to withstand and confine an internal explosion. The standard test applied to British switchgear for use in mines, or other explosive atmospheres, consists in filling the casing of the apparatus with the most explosive mixture of firedamp and air, placing the whole apparatus in a chamber filled with a similar mixture, and exploding the mixture inside the switch by an electric spark. The explosion must not be communicated to the mixture in the outer chamber, nor must the casing of the switch or any internal part be injured by the force of the explosion. It is also arranged that no contact can be made or broken with the "live" parts whilst the casing is open for purposes of inspection. The means by which these results are secured are the outcome of long experience in design, manufacture, and use.

That ought to be called a loss at is gained by the sacrifice of character.

PULPWOOD EXPORTS TO UNITED STATES ARE INCREASING

"That the prospects of an embargo on exports of pulpwood going into effect has induced the American paper making industry to increase to stock up with wood, is quite evident from the pulp and paper export figures for June, which show that exports of pulpwood to the United States totalled 197,544 cords, or an increase of about 150 per cent over those of June, 1922," says the current issue of the Pulp and Paper Magazine.

"During the three months ending June, the total shipments to the United States were 586,611 cords, or 185,000 more than during the same period last year. If the rate of shipment attained throughout the current fiscal year, the total will exceed 2,000,000 cords, as compared with about 1,000,000 in an average year."
