GUIDE TO THE LOCATION OF STREETS.

EXPLANATIONS.

The chief object this Guide has in view, is to show the location of each street, indicating also what other streets end on it, run from it or intersect it, with, whenever possible, the corner numbers where such streets end, commence or intersect. It will be noticed that the names of the streets are given in Alphabetical order giving the course which they run, according, as near as possible, to the points of the compass.

This Guide is also intended to indicate at a glance the proximate locality of any number on any street, for example: if you desire to know where *CHERRIER'S DIRECTORY OFFICE*, established in 1858, 72, St. Peter street, is located, this Guide tells you that being an even number, it will be found on the east or right side of St. Peter street, cor. of St. Antoine.

A.—denotes that there is no number on the corner.
