LONDON AND LANCASHIRE FIRE AND LIFE INSURANCE COMPANIES,

ESTABLISHMENT

FOR THE

Board and Education of Young Ladies,

CONDUCTED BY

MRS. SIMPSON,

MANSFIELD STREET,

MONTREAL.

Commercial Union Assurance Company,

19 CORNHILL, LONDON.

CAPITAL, - - - - - - - - $12,500,000

CANADA BRANCH OFFICE.

221 & 223 ST. PAUL STREET, MONTREAL.

Fire Department.

The distinguishing feature of this Company is the introducing of an equitable adjustment of charges proportionate to each risk incurred, instead of being bound to an indiscriminating and unvarying tariff.

This office insures against loss or damage by Fire of property of every description, including Mills and Manufactories; and the Goods, Merchandise and Machinery in the same, will be made good.

Losses occasioned by Lightning will be made good, when the property insured has been actually set on fire thereby.

Loss or damage caused by Explosion of Gas is covered by this Company's Policies.

All reasonable expenses incurred at the time of fire, in the removal of Goods insured by this Office, will be paid.

Losses settled and paid in Canada, without reference to the London Directors.

Life Department.

Among the prominent advantages offered by this Company are the following:

Perfect security, the Capital being one of the largest amongst Assurance Companies.

The total expenses of Management to be charged against the Life Department are limited, by Resolution of the Shareholders, to a small per centage on the annual Premium Income. The rapid accumulation of the Life Funds, with the certainty of good Bonuses, is thus secured.

80 per cent. of the entire Profits—including those on the Non-Participating Branch—appropriated for division every five years, among the Policies on the Participating scale.

40 per cent. at least of the premiums received on Participating Policies will be allowed for surrender, after Premiums have been paid for three years.

Claims are paid one month after proof of death.

Policies that have been in force five years, may, without extra charge, be freed from all restrictions as to foreign residence (see Prospectus.)

LONDON AND LANCASHIRE FIRE AND LIFE INSURANCE COMPANIES,

From the Montreal Gazette of October 23, 1863.

Mr. Lovell's School Books.

We find in the Halifax *Morning Journal* of October 12th the short article which we subjoin. We are glad to notice the statements contained in it. They prove that the labors of our enterprising Montreal publisher are appreciated as they deserve to be in the Sister Provinces:

"On Thursday last, Mr. McGRATH, the intelligent Agent "of Lovell, the great publisher of Montreal, Canada, ap- "peared before the Provincial Teachers' Association, then in "session at Windsor, for the purpose of explaining the ad- "vantages possessed by the series of Lovell's School Books "over those now in use in the Provinces; which he did in so "clear, concise, and able a manner, that a vote of thanks to "him was proposed and passed by the assembled Teachers. "A Committee has been appointed to prepare a list of school "books for general use, to be submitted to Rev. Dr. Forrester, "Superintendent of Education, for approval; to be again "approved of by the Legislature; and from a cursory "examination of Lovell's Series, we hope to see a large portion "of it officially authorized for general use in the schools of "our Province."

NOTE.

Two millions of persons receive injury every year in Great Britian from Accidents of a more or less serious character. Of these, ten thousand are killed or die from the direct effects of the accident. Others are maimed for life; and nearly all are disabled from following their avocations from the time the injury takes place until its reparation.

By Accidental Death the families of the killed are entirely deprived of their natural help; and by Accidental Injury the injured person himself is prevented from earning his accustomed pay.

The peculiarity of death from Accident is its awful suddenness. It cannot be anticipated. The transition from health to death is instantaneous, and a family in wealth in the morning are often paupers at night.

To make provision for the families of those killed, and to afford a maintenance during the time the injured person is disabled from following his business, the ACCIDENTAL DEATH INSURANCE COMPANY was founded in the year 1849.

Since that date nearly $1,200,000 have been paid in claims, which evidences the magnitude of the operations of the Society, and its paramount advantage to the public.

All classes have taken advantage of its benefits—noblemen, clergymen, doctors, professional men, tradesmen, clerks, porters, mechanics, have here been enrolled for the common object of providing for their families after death, or obtaining an allowance to cover the expenses attending a broken bone or other accidental injury. The amount which has been paid has far exceeded all orignal computation. The immense experience of this large Company shows that all former statistics were erroneous, and that the casualities which befel the communitiy were far larger than could have been anticipated unless tested by experience.

The whole scheme of the Society is to provide any amount at death, from $250 to $5000; or any amount of weekly provision during complete disablement, from $2 50 to $100 a week; or a sum at death and weekly compensation together, at rates which are furnished. Persons may insure a further sum whilst partially disabled, if they so elect.

Instead of a sum at death, a Pension for a widow, or child, or other nominee may be insured, which is generally a preferable provision to a sum of money.

The Company undertake to insure every risk, however hazardous, whether it be the perils of the sea, the perils of the railroad, the perils of travelling, the perils of mining, or working hazardous substances. The office seeks to fix a fair premium in each case, and as long as the premium is rightly estimated, absolute security is obtained for the assured.

There is one risk only which the Company decline to insure, and that is the vague and uncertain risk of Drunkenness. They will not insure the drunkard at any price, nor will they continue the insurance of one who falls into that state. The drunkard not only continually meets with accidents, but his constitution fails to repair an injury, and so renders his risk a burden upon the Society.

All other classes are insured from 16 years to 60, and the insured are allowed to be members of the Volunteer Corps.

Accidents from Railway travelling may be insured separately at rates proportioned to the risk.

The Premiums which have been received from all sources during the past year amount to upwards of £100,000 sterling, which is largely in excess of former years; and the present rate of income is £120,000 per annum.

The especial and particular advantage of Accidental Insurance is to provide against sudden death, by receiving a large sum for a small premium, or a provision against a loss of time. Every head of a family ought to be thus insured, and every head of a family is invited to insure at once in this Office.

AN ACCIDENT MAY HAPPEN AT ANY MOMENT;
INSURE BEFORE IT OCCURS.

DENTISTRY,

210 NOTRE DAME STREET.

DR. NELSON EDWARDS,

DENTAL SURGEON,

(Eighteen years' practice in New York City,)

MECHANICAL DENTIST,

AND MANUFACTURER OF

ARTIFICIAL TEETH.

TEETH FILLED without PAIN, and without destroying the NERVE

All operations, and all artificial work warranted to be satisfactory.

Those who have amalgam fillings in their teeth may have that injurious substance removed, and the teeth, though turned quite black, restored to their normal whiteness, and re-filled with gold.

By permission, reference to gentlemen of respectability in Montreal will be given, whose teeth I have restored in this manner from unsightly blackness to life-like whiteness.

☞Teeth which have become dark by the decay of the dental pulp, and by the death of the animal matter which they contain, may be restored to their primal whiteness by a process peculiarly my own.

Scurvy in the gums, so offensive to the sight, and so polluting to the breath, is not at all difficult to cure.

Irregularities in children's teeth may be easily corrected, without the use of plates, if attended to in due season.

No arsenic or other poisonous substances are employed in my practice.

Respectfully,

N. EDWARDS,

GUARANTEE DEPARTMENT.

In addition to the Business usually transacted by Life Assurance Associations, this Society is specially constituted to grant Bonds of Indemnity to Bankers, Merchants, Public Companies, Municipal Corporations and others, against losses occasioned by the dishonesty or infidelity of their Employees.

TO EMPLOYERS

The system of this Society offers great advantages, inasmuch as it not only secures to them the prompt payment of any loss so sustained; but affords them the means of avoiding the unpleasantness, and to a great extent uncertainty, attendant upon Private Suretyships; and as the Society, *for its own safety*, takes all steps to ascertain the character of an applicant for employment, Employers are relieved of that necessarily delicate and troublesome task, and are assured by the fact of the Society's consenting to grant a guarantee, that the Candidate for such employ has been found, as far as it is possible to be known, fully worthy of their confidence and trust.

TO EMPLOYEES,

It obviates the unpleasant necessity of resorting to their personal friends, and enables them by payment of a small annual premium, to be their own independent sureties—with the satisfaction of feeling that the security they give is of the most substantial nature, and at the same time, a convincing proof of their well-established trustworthiness.

TO BONDSMEN,

It affords, in approved cases, the means of immediate release from the liability under which they have placed themselves: every facility being given to substitute the Society's Bonds for existing suretyships—no expense beyond the actual premium being incurred.

This system of Guarantee has been thoroughly tested, and its advantages largely made use of by the Mercantile and Commercial Communities in Great Britain, and most of her dependencies—the various departments of Government, in addition, being authorized by special Act of the Imperial Parliament to accept the Bonds of *this Society only*.

The Rates of Premium in all cases are commensurate with the risk incurred.

LIFE DEPARTMENT.

This Society, from its peculiar constitution and the large amount of its income, from both premiums and invested Capital, is in a position to transact Life Assurance business upon terms unusually favorable to Assurers.

The following are the more prominent features in this Department:—

All Life Policies issued upon the faithful representations of Assurers, are indisputable.

Policies, on which five full premiums have been paid, are purchased the Society.

THE EUROPEAN ASSURANCE SOCIETY.

On Policies for over £200 stg. for the whole of Life, one half the premiums for first five years may remain unpaid at interest at five per cent. per annum.

Three-fourths of the entire profits of the Society are divisible amongst the Life Policy Holders on the Profit scale of Premiums.

In consequence of the profits of the Guarantee Department, (which shew a large annual increase,) already more than paying the whole expenses of the management of the Society, Life Policy-holders are placed in a peculiarly advantageous position in respect of Bonuses, seeing that in addition to the uncumbered profits of the Life Business, they participate in the continually increasing profits of the Guarantee also. Thus persons assuring with this Society, not only pay a very low rate of premium for Life Assurance, but get in addition to three-fourths of the Life profits, *three-fourths of the Guarantee also*—the two together being equal to, if not more than the whole of the profits of the Life Business.

All the advantages of a Mutual Society are thus at once obtained, without incurring the liabilities attendant thereon; and the Assurers have, in addition, the security of a large *Subscribed Capital*, the prudent employment of which gives a still further ratio of increase to profits.

Thirty days' grace is allowed for payment of Premiums, and in the event of death before the expiry of such grace, the claim will be paid, less amount of premium due.

Policies lapsed by non-payment of premiums may be subsequently renewed by paying the premium, and a small fine, on the production of satisfactory evidence of the good state of the life assured.

All claims, Life or Guarantee, paid without reference to London.

EXAMPLE.—A person 25 years of age, by paying £2 2s. 9d. Stg. ($10.40) annually, can secure £100 Stg ($486.67) whenever death may happen, together with such addition as may have been appropriated to the Policy by way of Bonus.

Premiums are also made payable Quarterly.

THE EUROPEAN ASSURANCE SOCIETY.

Assurances are also granted upon Joint Lives; for Short Terms; or for sums payable at a Stated Age.

SPECIAL NOTICE.—The next investigation of the affairs of the Society with reference to the Division of Profits, will fall to be made at the close of the year 1865, and all persons Assuring during the present year on the "With Profits" Table, will then be entitled to **Two Years' Bonus**, which may either be received in cash, appropriated to the reduction of Premiums, or added to the amount Assured.

The Combination of Life Assurance with Guarantee, which is a feature *introduced by this Society*, affords the following important advantages to the Assured:—

When the Life and Guarantee Policies are for an equal amount, (the rate of Premium of the Guarantee not exceeding one and a half per cent.,) an abatement equal to half of the Guarantee Premium is made in the Life Premium.

When the Life Assurance is for DOUBLE the amount of the Guarantee, (the rate being as before stated,) the whole of the Guarantee Premium is appropriated to the Life Premium.

For example, a Guarantee Policy is required by A. B. for **£500** Stg., and the Premium being one and a half per cent. for the character of the risk undertaken, he pays **£7 10s.** Stg. a year. He Assures his Life for an equal amount, and the age being, say **35** next birthday, the Annual Premium, *with Profits* as per Table of Rates annexed, is **£2 15s.** Stg. per cent., equal to **£13 15s.** Stg., for **£500** Stg.; but an abatement equal to half of the Guarantee Premium being allowed, the Life Premium is reduced to **£10** Stg., thus presenting the advantage of an immediate reduction of the Premium equal to **27** per cent., or a prospective Bonus of **£135** Stg. on the amount assured.

Or, suppose the Guarantee to be as above stated, **£500** Stg., and the Life Assurance **£1,000** Stg., the yearly Life Premium, as above specified, would be **£27 10s.** Stg.; but the whole of the Guarantee Premium (**£7 10s.** Stg.) being allowed, the Life Premium is reduced to **£20** Stg., being equal to **26** per cent. immediate reduction of premium, or a prospective addition of more than **£230** Stg. to the sum assured.

In other cases than those specified, the reductions are matter of special arrangement, and depend on the class of risk, rate of premium, and the relative proportion of Life and Guarantee.

The foregoing benefits are available by existing Guarantee Policy holders, who may be disposed to effect a Life Assurance, or by Life Policy holders who may hereafter require Guarantee.

Prospectuses, Forms of Proposals, Agency Applications, and all information may be obtained from the Canada Head Office, Montreal.

EDWARD RAWLINGS,
Secretary.

Terms and Conditions on which all Messages are received by this Company.

In order to guard against and correct as much as possible some of the errors arising from atmospheric and other causes appertaining to telegraphy, every important message should be *repeated*, by being sent back from the station at which it is to be received to the station from which it is originally sent. Half the usual price will be charged for repeating the message, and while this Company in good faith will endeavor to send messages correctly and promptly, it will not be responsible for errors or delays in the transmission or delivery, nor for the non-delivery of *repeated messages*, beyond two hundred times the sum paid for sending the message, unless a special agreement for insurance be made in writing, and the amount of risk specified on this agreement, and paid at the time of sending the message. Nor will the Company be responsible for any error or delay in the transmission or delivery, or for the non-delivery, of *any unrepeated message* beyond the amount paid for sending the same, unless in like manner specially insured, and amount of risk stated hereon, and paid for at the time. No liability is assumed for errors in cipher or obscure messages; nor for any error or neglect by any other Company over whose lines this message may be sent to reach its destination, and this Company is hereby made the agent of the sender of this message to forward it over the lines extending beyond those of this Company. No agent or employé is allowed to vary these terms, or make any other or verbal agreement, nor any promise as to the time of performance, and no one but a Superintendent is authorized to make a special agreement for insurance.

No liability is assumed for any error or neglect by any other Company over whose lines a message may be sent to reach its destination.

CANADA BRANCH OFFICE.

221 & 223 ST. PAUL STREET, MONTREAL.

Fire Department.

The distinguishing feature of this Company is the introducing of an equitable adjustment of charges proportionate to each risk incurred, instead of being bound to an indiscriminating and unvarying tariff.

This office insures against loss or damage by Fire of property of every description, including Mills and Manufactories; and the Goods, Merchandise and Machinery in the same, will be made good.

Losses occasioned by Lightning will be made good, when the property insured has been actually set on fire thereby.

Loss or damage caused by Explosion of Gas is covered by this Company's Policies.

All reasonable expenses incurred at the time of fire, in the removal of Goods insured by this Office, will be paid.

Losses settled and paid in Canada, without reference to the London Directors.

Life Department.

Among the pre-eminent advantages offered by this Company are the following:

Perfect security, the Capital being one of the largest amongst Assurance Companies.

The total expenses of Management to be charged against the Life Department are limited, by Resolution of the Shareholders, to a small per centage on the annual Premium Income. The rapid accumulation of the Life Funds, with the certainty of good Bonuses, is thus secured.

80 per cent. of the entire Profits—including those on the Non-Participating Branch—appropriated for division every five years, among the Policies on the Participating scale.

40 per cent. at least of the premiums received on Participating Policies will be allowed for surrender, after Premiums have been paid for three years.

Claims are paid one month after proof of death.

Policies that have been in force five years, may, without extra charge, be freed from all restrictions as to foreign residence (see Prospectus.)

FIRE DEPARTMENT.

Insurances effected at the lowest rates of Premium corresponding to the risk.

Losses by fire from lightning made good, also damage sustained by the explosion of Gas, occurring within Buildings on or in which the Company has insurances.

LIFE DEPARTMENT.

The leading features of the Office are:—

1. Entire security to Assurers.
2. The large Bonus additions already declared, and the prospect of a further Bonus at the next investigation.
3. The advantages afforded by the varied Tables of Premiums—unrestricted Conditions of Policies—and general liberality in dealing with the Assured.

New and Important Advantages.

1. Half Premium System.

By this Table a person may insure his life at one-half of the usual rate, and thus secure all the benefits of the Half Credit System, without any debt being incurred.

2. Double Insurance System.

By this Table, for a moderate Premium, a Policy may be effected which will increase to double the amount originally assured. This system is particularly advantageous to young lives.

Indisputable Certificates.

Upon application, and on certain conditions, the Company's Policies are declared unchallengeable and free from extra premium for Foreign Residence.

Application of Bonus.

The Assured have the option of applying their Bonuses in either of the following ways—

1. To be added to the Sum Assured—and payable with the sum in the Policy.
2. To surrender them for an immediate payment in Cash.
2. To the reduction and ultimate *extinction* of the future premiums.

Lapsed Policies.

Such Policies may be revived at any period within six months from the expiry of the twenty-one days of grace, on payment of the premium with interest, without any Medical examination or certificate.

The full power of settling losses is invested in the Montreal Board of Directors.

Forms of Proposal and every information will be furnished upon application at the
