THE COLONIES AND THE EMPIRE.

MR. CHAMBERLAIN'S SIGNIFICANT SPEECH ON JULY 1ST.

It is Interpreted as a Hint That the Imperial Government is Willing to Give the Colonies a Share in Imperial Administration — Sir Louis Davies Speaks.

(Special by Cable from the Special Correspondent of the Star in London.)

LONDON, July 3.—Everyone is asking to-day what Hon. Joseph Chamberlain exactly meant by what Lord Derby called his prophetic words at the Dominion Day banquet.

It was clearly a bid for colonial suggestions for closer Imperial unity.

Having quoted Laurier's demand: "Call us to your counsels," Mr. Chamberlain used these words:

"In this movement, which I think is progressing, nothing can be more fatal than to be premature. The movement is one that must come from the colonies. It must not be unduly pressed upon them by us; but if they desire this closer connection; if they are willing to assist us not merely with their arms, but with their counsel and advice, I believe there is nothing that the people of this country will more readily welcome."

This is interpreted as meaning that the Imperial Government will cordially welcome any definite colonial proposals for colonial representation in the Imperial administration.

It is noteworthy that Mr. Chamberlain let slip no hints on the fiscal side of the problem.

SIR LOUIS DAVIES' SPEECH.

Sir Louis Davies, in a vigorous speech, declared that Canada had enough problems on hand to engross all her attention for many years. He repudiated the notion that Canada had been dragged into the South African war. "We fought for a righteous cause," he said, "with our whole heart." Mr. Bourassa was not present at the banquet, but he fills a column in the pro-Boer Daily News with forebodings of an anti-Imperial reaction in Canada.

COLONIALS IN LONDON.

(Special to the Star.)

NEW YORK, July 3.—The Tribune's London correspondent cables: The pretence of a strong group of Canadian and colonial ministers and officials in London has acted like a tonic in invigorating the jaded Government. Answers to enquiries respecting the fate of free institutions in Cape Colony have been frankly made by Mr. Chamberlain, who has easily proved that the Home Government has not interfered with the right of colonists to govern themselves, and that the constitution of the chief colony in South Africa has not yet been suspended, although warrants have been issued for the expenditure of money in the public service.

This constitutional question, with the trenchant speech delivered by Mr. Chamberlain at the Dominion Day banquet, gave the Canadian Ministers and colonial guests enough to talk about at the luncheon ordered for them yesterday at the Constitutional Club by Mr. C. A. Duff Miller, agent in London for New Brunswick. Messrs. Blair, Fielding, Mills, Fisher and Sir Louis Davies, were the most conspicuous figures; but South Africa, Australia and other self-governing sections of the Empire were represented. It was an informal conference over the present phases of imperial policy, and the necessity for adopting broad-minded, comprehensive measures for binding the Empire together. This luncheon demonstrated anew the strength of Mr. Chamberlain among men representing the Greater Britain which lies outside the United Kingdom.

MR. CHAMBERLAIN AND THE COLONIES.

Bystander Puts a Number of Pertinent Questions Bearing on the Colonial Secretary's Utterances.

(Special to the Star.)

TORONTO, July 3.—Bystander in the Weekly Sun writes: Mr. Chamberlain it seems, is "firmly convinced" that the advice of the Colonies will henceforth be accepted in Imperial and Colonial affairs. But convictions, however firm, are of little value unless it can be shown that the measure proposed is practicable. And how it is to be carried into effect? Through what organ and in what manner is the advice of each of the colonies or all of them to get to be tendered to the British foreign or Colonial Office? Would the tendering of advice amount to anything beyond a complaisant letter of some colonial premier, probably a knight, to the British Foreign or Colonial Minister, blindly assented ing to whatever the minister proposed? Would any colony ever be really consulted on any question of peace or war?

OTTAWA'S CHIEF OF POLICE.

(Special to the Star.)

OTTAWA, July 3.—It seems probable that the charges against the chief of police will be allowed to drop. Nothing will be done for a fortnight, and in the meantime no effort is being spared to effect a settlement.

A SUICIDE AT CARDINAL.

(Special to the Star.)

BROCKVILLE, Ont., July 3.—A case of suicide occurred the other day at Cardinal. A man, a stranger in the village, was noticed to be acting in a queer manner. He was on the Starch Company's works asking a lot of questions. It was thought he was employed on Davis' dredge, as it had just been moored opposite the factory. He disappeared and turned up at the head lock. The men there noticed his peculiar behaviour, such as trying to pull open the lock-gates, stubbing posts, etc. After a while he was missed and later on a portion of the man's clothes were found. Search was made and his body was recovered at 6 o'clock on Sunday evening. His name was Downey, and he came from Griffintown, Montreal.

Mrs. McDougall Tells the Story of the Savona's Misfortunes — Her Husband and Three of the Crew Killed.

(Special to the Star.)

HALIFAX, N.S., July 3. — Mrs. McDougall, wife of Captain McDougall, who together with three of the crew were killed on the ship Savona, 400 miles off Cape Horn, arrived to-night from Montevideo, having made the passage alone. She was an eye-witness to the death of her husband and his men, and recites a thrilling narrative of the trip of the Savona. She says the ship was struck by a wall of water, which suddenly came upon the vessel. The weather was fine and the ship was sailing under a slight breeze. There was no indication of bad weather. Suddenly, a wall of water arose aft of the ship about forty feet high, from an almost tranquil sea, which she believes to have been the result of volcanic or earthquake errurption. It fell upon the vessel, killing instantly the captain and three of the crew. The captain was standing near the wheel at the time. Tons of water swept the after-house and smashed it into splinters. Four of the boats were carried away, the main deck-house was destroyed, and the sails were rent. The dead were buried at sea amidst the debris on deck.

Mrs. McDougall was on deck at the time, but escaped.

Later, the ship encountered a pampero storm, which arose very suddenly when the Savona was five miles off Lagos. All hope was abandoned. The vessel was then on her beam ends, but was righted by a huge wave. She was stripped of all her canvas, and was fast approaching a rocky coast, when a vessel was sighted and the Savona was piloted to Montevideo.

Other members of the crew were injured, and Mrs. McDougall took a hand in and helped save the vessel. She said that it was the coolness and determination of Mate Kiffin that saved the ship.

THE TWO SHAMROCKS RACE.

The Old and New Challengers Given a Thorough Racing Trial To-day.

ROTHESAY, Firth of Clyde, July 3.—The two Shamrocks started on a thorough racing trial to-day over a 43-mile course. A brisk breeze was blowing when the start was made. The yachts carried jib-headers. In order to give the Shamrocks a thorough test in open water, a triangular course was laid out for to-day's race, starting at Garrock Head, thence to Holy Island, around the Erin, thence ten or twelve miles to the south-eastward, around the Erin again, and a reach back to the starting point.

Sir Thomas Lipton invited the reporters aboard the Erin to witness the racing, but Mr. Watson cancelled the invitation, desiring to preserve the secrecy with which he has futilely endeavoured to surround all the challenger's movements.

The boats fetched out of the bay under jib-headed top-sails. A brisk easterly breeze was ruffling the water and giving a fine racing wind all the way down. Although the formal racing commenced off Garrock Head, the boats were sent off from Craigmore pier in racing order. The challenger took up a position on the weather bow of the older boat, as she crossed the line, and rapidly opened a way, the Shamrock I. following in her wake.

Off Ascog, three miles out, the challenger led by about half a minute. Finding the wind paltry, the original race plans were abandoned in favour of a trial inside the Firth, and the two yachts started on a reach across. Off Cumbrae the challenger was leading by 53 seconds. Soon after they sailed into a calm, and the Shamrock I. passed the Shamrock II. wide to windward. Fetching up the Firth, the wind headed the boats, and their jib top-sails were taken in. The breeze freshened, but the challenger gained very little. Later she bore away and passed wide to leeward of the Shamrock I., left the older boat in a stud or plain h. and she was soon able ling. Per pov e Shamrock II., and slight[illegible]

HANGED WHILE BIRD-NESTING.

A Bride Sees Her Husband Strangled to Death—He Was An Ornithologist and Was Hunting for Specimens.

ALBUQUERQUE, N. M., July 13.—Prof. Francis J. Birtwell, widely known as an ornithologist, was accidentally hanged a few days ago in the Rio Pecos forest reserve, in Mexico, in the presence of his wife, whom he had married a month ago in this city. The professor and Mrs. Birtwell were spending their honeymoon in the reserve and were out in a lonely place gathering specimens when the accident happened.

Prof. Birtwell had climbed a tall pine tree after a bird's nest. His wife and two men stood on the ground watching him. He carried with him a rope with which to lower himself. He had secured the nest and then threw the rope over a limb, one end of it reaching the ground.

A few feet down the rope there was a loop that had been made on some former occasion, and as the professor descended his neck slipped into the noose. The rope tightened and the unfortunate man hung thirty feet in the air, strangling to death, while his wife and the two men looked helplessly on. There were no means of reaching him, and he died while the frenzied persons at the foot of the tree watched his death struggles.

The two men made heroic efforts to reach the dying man, urged on by the frantic entreaties of Mrs. Birtwell, but as the professor had the only pair of climbers in the party they could make no headway. It was not until a ladder was secured from a camp a mile away that the body was recovered. The body was brought here Monday, the first details of the tragic affair coming from the undertaker who bore it. Mrs. Birtwell will take her husband East for burial.

Prof. Birtwell was a Harvard man, and held a high place as a scientific specialist.

ANTHRACITE PRICES HIGHER.

(Special to the Star.)

NEW YORK, July 3.—Despite prevailing weather conditions, the prices of coal at wholesale were advanced to-day ten cents per ton for all grades, and coal agents, in their cool offices on the river and bay front, insisted that business was very active. The advance was due to the fact that the coal companies in the spring agreed to advance prices ten cents a month, until a maximum was reached in September, and in that month the reduction of fifty cents announced in April will have been made up by the monthly advances of ten cents. Stove and chestnut coal is now quoted at tidewater at $4.45 per ton, as against about $4.25 per ton at this time a year ago, before the advances brought about by the strike were put into effect.

MERCURY ALMOST TOUCHED 100 MARK.

HIGHEST JULY EQUALLED IN NEW YORK YESTERDAY.

It is Cooler To-day, But the Percentage of Humidity Was 72 This Morning—Washington Bureau Does Not Promise Any Break in Hot Wave.

(See also page three.)

(Special to the Star.)

NEW YORK, July 3.—Over 200 deaths in all boroughs and over 300 cases of prostration in Manhattan alone, two heat records smashed to smithereens, and two furious black squalls which brought some relief, was the result of yesterday's meteorological record.

The maximum temperature came at 2.15 in the afternoon, when the mercury reached the 99 degree mark, within one degree of the highest record in the history of the weather bureau and equal to the highest previous July record.

The heat was so intense that the entire city was as if paralyzed.

Many big companies and wholesale houses closed their doors as early as noon, to give the stenographers and clerks a chance to flee from the city. Almost all insurance companies closed their doors.

The Metropolitan Street Railway Company was unable to run its cars on strict schedule time for want of men to take the places of those who gave out.

WORK WAS SUSPENDED.

All work on the rapid transit tunnel, as well as on buildings and construction work throughout the city, was suspended, and even the hospitals were affected. Many hospitals were unable longer to send out ambulances, because the horses had given out.

Patients were taken to the hospitals in the police patrol waggons, and even in private delivery waggons.

Up to 6 o'clock last evening the total number of ambulance calls for heat prostrated persons was 500, and throughout the night calls continued to come in.

Over 250 horses were stricken with the heat, and the Health Department was unable until last night to remove all the bodies of the animals.

THE THERMOMETER'S CLIMB.

The rise of the thermometer began with the coming of the sun, surrounded by a sickly coppery glare, which announced another day of torture. All night long the temperature had made sleeping impossible for thousands of worn-out human and animal creatures that make up the population of the city.

EFFECT OF THE STORM.

The storm caused loss of life at Coney Island, and caused much damage to trees in the suburbs. Considerable rain fell. The precipitation was only a third of an inch, and the hot wave almost immediately resumed its sway.

Thousands again slept in the parks and on the sands at Coney Island and Rockaway.

A LITTLE COOLER TO-DAY.

But the Percentage of Humidity is Greater Which Makes it Very Uncomfortable.

NEW YORK, July 3.—It was not so hot in this city this morning as it was yesterday, but the percentage of humidity was much greater. At 8 o'clock the weather bureau thermometer showed a temperature of 85 degrees, as compared with 93 at the same time yesterday. The percentage of humidity was 72. Yesterday morning it was 59.

From 2 to 9 a.m. eleven deaths, due to heat, were reported in New York and Brooklyn.

THE MERCURY CLIMBING UP.

WASHINGTON, July 3. — The mercury is again climbing upwards and at 9.45 o'clock this morning the official thermometer at the weather bureau registered 86, a rise of six degrees since 8 o'clock. The weather bureau reiterated to-day its announcement that there is no permanent break in the hot spell in sight. Sixteen deaths in the past six days have been either directly or indirectly attributable to the heat.

SCORCHER AT PHILADELPHIA.

PHILADELPHIA, July 3.—A cool breeze from the south tempered the heat slightly this morning, but a jump of eight degrees in one hour indicated another scorching to-day.

The minimum temperature during the night was 81 degrees, and at 8 o'clock to-day the weather bureau thermometer registered that figure. At 9 o'clock the mercury had risen to 89, four degrees cooler than at the same hour yesterday.

Up to 9 o'clock eleven deaths had occurred and the hospitals reported about 35 prostrations. The total number of deaths from heat in this city since the beginning of the present hot spell is 89.

NEW ENGLAND'S DEATH RECORD.

BOSTON, July 3.—The city entered on its seventh day of oppressive heat. The thermometer registered 86 at 8 o'clock a.m. and the wind light from the southwest.

During the six days of excessive heat which have prevailed in New England, nearly 100 deaths have occurred, which have been attributed to the weather conditions. Of this number 22 have died in Boston. The number of prostrations in New England reached several hundred. In Boston there have been nearly 150.

HUMIDITY IS GREAT.

ST. LOUIS, Mo., July 3.—At 8 a.m. the weather bureau thermometer registered 82 degrees. This was six degrees cooler than at the same time yesterday, but there is about 15 per cent. more humidity.

DEPRESSING AT CHICAGO.

CHICAGO, July 3.—Although the temperature at 8.30 to-day was down to 73, the humidity showed 85 per cent., the weather conditions were rather depressing despite a cloudy sky and a fair breeze.

NO BREEZE AT KANSAS CITY.

KANSAS CITY, July 3.—At 8 a.m. the mercury registered 89, or five degrees more than at the same time yesterday. Without a breath of air stirring last night, the suffering was great. Four prostrations, one fatal, were reported.

PITTSBURG'S DEATH ROLL.

PITTSBURG, July 3.—Eighty-six deaths directly attributable to the excessive heat have occurred in Pittsburg since last Wednesday. Of this number 64 were reported since Saturday night.

THE HEAT IN VERMONT.

BENNINGTON, July 3.—Yesterday was the sixth consecutive day that the mercury climbed above 93 degrees, it registering 96 at noon and 94 at 3 o'clock in the afternoon. A good breeze from the west has made the day more bearable, although work has not been rushed in any out of door places. Thunder late in the afternoon cooled the atmosphere somewhat. It had been the hottest week recorded in 25 years in this section and though there have been several prostrations no deaths have occurred.

FARMERS SHOWER THEIR HOGS.

VERGENNES, July 3.—The heat has been intense in this vicinity for the last few days. In many instances the thermometer registered from 95 to 100 degrees in the shade. Horses, cattle and hogs have suffered severely from the heat. In some cases farmers have been obliged to pour water upon their swine to keep them alive.

DAMAGE BY LIGHTNING.

NEW YORK, July 3.—During the thunderstorm yesterday afternoon, lightning struck and set fire to a number of buildings throughout Greater New York, destroying property valued at nearly half a million dollars. Among the losses were: St. Agnes church, Brooklyn, $250,000; apartment house, 95th street and West End avenue, $150,000; three residences in vicinity of West End avenue, $18.000. Old Riverside Drive Hotel, near West End ave. and 95th street, $10,000; several residences in the boroughs of Queen's and Richmond, $30,000.

ANOTHER STORM AT QUEBEC.

(Special to the Star.)

QUEBEC, July 3.—Yesterday's electric storm demolished some of the flower beds of the Hotel Dieu, but failed to injure the building.

Mrs. Alexander Laurie, 122 St. Augustine street, was sitting at her window with her children, when a bolt of lightning struck so near her that she was rendered unconscious, and when she recovered her senses it was found that she had one side paralyzed.

STORM IN MICHIGAN.

DETROIT, Mich., July 3. — Rain and thunder storms in various parts of this State did considerable damage late yesterday. At Jackson a small cyclone demolished a couple of dwellings and uprooted trees. At Saginaw James Davenport was killed by lightning and at Coldwater a small tornado overturned a dwelling and several barns. Similar reports of wind and rain come from other towns.

KILLED BY LIGHTNING.

TROY, N.Y., July 3.—A severe thunder storm prevailed in the section East of Troy last night, during which William Findlay, who conducts a candy stand at Averill Park, was struck by lightning and killed. The storm cooled the atmosphere, and at 10 a.m. to-day 88 degree was the record in this city. This is five degrees lower than at the same time yesterday.

HOT DAY STORIES.

There is a dramatic relish for heat horrors, says the New York Commercial Advertiser. People will not own up to it, but a good many of them are enjoying themselves in a quiet ghoulish way. They pick out neat little anecdotes of prostration and insanity from the papers and recount them to one another on the elevated cars. May be one has seen something rather hideous and exciting with his own eyes. The emotion of the narrator is unmistakably pleasurable, and he lingers affectionately on details. As we read the newspapers we feel we are all dying off like flies. And as we start off after breakfast we wonder if we shall drop before we reach the corner and be in the morgue by noon, or go delirious and run amuck. It is a good plan after reading the morning papers to write your address on an express label and tie it through your lapel. It is terrible and may be worse yet, and if it keeps on it will be a "national calamity," says one of the weather chiefs—a good theme for a friendly chat and should be passed along. Likely as not it will start a stream of molten garrulity that will last an hour or so. So it goes, and the only marplot is the man who would make the best of it or says he has seen anything of the kind before.

Spare no emphasis and spoil no hot tale in the telling, is the motto of the day.

THE WEATHER COOLER

Forecast for the next twenty-four hours as predicted for the Star at 11 a.m. to-day: Westerly to northerly winds; fine, with a little lower temperature.
Thursday—Fine.

Maximum and minimum temperatures during the past twenty-four hours: Victoria, 60, 52; Kamloops, 72, 54; Calgary, 60, 44; Edmonton, 48, 48; Qu'Appelle, 70, 54; Winnipeg 78, 58; Port Arthur, 80, 56; Parry Sound, 82, 56; Toronto, 90, 66; Ottawa, 92, 66; Montreal, 90, 76; Quebec, 86, 61; Halifax, 76 & 58.

MONTREAL, July 3.

Readings by Hearn & Harrison's Standard barometer at noon yesterday, 29.92; at 8 a.m. to-day, 29.91; 11 a.m. to-day, 29.94; temperature to-day, maximum, 84; minimum, 65; yesterday, maximum, 88; minimum 67.

SUCCEEDS LATE MR. CABANA.

Mr. Simeon Fraser, of Richmond, Appointed Joint Prothonotary of Sherbrooke.

(Special to the Star.)

QUEBEC, July 3.—At yesterday afternoon's sitting of the Executive Council of the province of Quebec, Mr. Simeon Fraser, notary public, of Richmond, one of the prominent French-Canadian Liberals of the place, was appointed Joint Prothonotary of Sherbrooke with Mr. Genest, to replace the late Mr. Cabana. Mr. Mackenzie, M. L. A., of Richmond, and Dr. Pelletier, M.L.A., of Sherbrooke, were both here yesterday in connection with the appointment.

HOTEL KEEPER FINED.

(Special to the Star.)

KINGSTON, July 3. — This morning George Scheffer, proprietor of the Brunswick Hotel, Colborne, and caterer at the late military camp for the officers of the 40th battalion, was called at the Police Court and charged with selling liquor at his canteen. The case was proven and he was fined $50 and costs.

Irene Chalaupka, a ten-year-old girl, who was recently vaccinated in common with other school children at Brantford, Ont., is dead of lockjaw, alleged to have developed from the vaccination.

THE MILITIA CAMP AT THREE RIVERS.

INSPECTION TOOK PLACE IN A DRENCHING RAIN.

The Site of the Camp is Very Satisfactory—Social Gaieties in the Trifluvian City — A Ball This Evening — The Men are Looking Fit.

The rain, which interrupted the inspection of the 4th division by Major-General O'Grady-Haly, at Three Rivers yesterday, proved one of the heaviest storms of the season.

The general officer in command was drenched to the skin by the violent downpour, as were also all the troops taking part. The rain poured down in sheets, and the infantry were compelled to quickly seek the shelter of the tents. The cavalry retired in better order, as there was a danger of some one being hurt in a wild rush.

Major-General O'Grady-Haly, after inspecting the line of each corps, the kitchens and hospitals, left by the C. P. R. for Montreal en route for Ottawa. He expressed himself after the inspection as having been much pleased with what he had seen of the work of the men.

The storm, which took place during the inspection, was a continuation of one which took place about two o'clock the same morning. The troops were in their tents at the time, and did not mind the downpour in the least. Tents, in one or two instances, were blown down, but with these exceptions the troops were quite dry and comfortable during the downpour.

Orders were issued during the day for the men to be ready at three o'clock this morning to begin operations in connection with a sham battle which was fought later in the day. Regular drill has taken place daily since the troops went into camp. With the exception of the rain storms referred to, excellent weather has been experienced by those in camp. The men are brown and healthy looking and seem in excellent spirits.

It is some fifteen years since the camp was held at Three Rivers, and the presence of the military in such substantial numbers has quite transformed the old town. The officers speak of the hospitality of the citizens towards the visiting troops in terms of the warmest praise. Already a ball has been given in their honour, and another takes place this evening. At night the town is a mass of brilliant colour with the presence of so many bright uniforms.

To a Star representative who visited the camp yesterday, the officers acknowledged many excellent features in connection with its situation, the majority esteeming it far above Laprairie. The only faults which could be found were perhaps a too circumscribed area and a too sandy soil. In other respects the place was perfectly satisfactory.

KINGSTON'S TRIAL TRIP.

New R. & O. Steamer Arrives at Kingston Where Mr. Gildersleeve Was Presented With Flags.

(Special to the Star.)

KINGSTON, Ont., July 3.—The new steamer Kingston, owned by the Richelieu and Ontario Navigation Company made her trial trip to-day between Toronto and Prescott. She had a good passenger list and her machinery worked beautifully. She arrived here at five o'clock this morning, and was met by hundreds of citizens. Among those who went on board were the Mayor, R. Kent, Aldermen Behan, Craig, Dunlop, Robertson, Graham, White, ex-Mayor Pense, ex-Mayor Dr. Smythe, City Clerk Shannon, City Treasurer Ireland, Market Clerk McCammon and Chief Glinn. Shortly after the steamer left the dock, Mayor Kent presented Manager Gildersleeve with a set of handsome flags. The manager made a very pleasing reply. The Council and officials will be the guest of the company during the day.

Herr Schwedler, a wool merchant of Leipzic, drowned himself at Zwickau. His suicide was in connection with the failure of the Leipzerger Bank.

THE DROP OF THE FLAG.

The athletic clouds are gathering.

Inspector Starke had better take warning.

The little cardboard tracts defining "amateur" will be needed in great numbers at the end of July.

In view of the threatening attitude of the smaller clubs, will it be safe to go to any preliminary expenses for the Dominion Championships?

Sir Thomas Lipton does not seem inclined to run the chances of having another boat prove faster than Shamrock II. But suppose she proves faster than Shamrock I; what then?

The Dominion C. W. A. Meet at the Point was a failure, and it should teach two lessons. One is that only the greatest exertion can make a bicycle meet a success nowadays, and the other, that to be good fellows, popular sportsmen, and hospitable entertainers is far from sufficient to successfully carry out important sporting undertakings. The idea that there is any fun to be gotten out of running sporting organizations, beyond the satisfaction which the success of an event provides, and the pleasure with which one figures out how a good gate will enable the executive to make improvements and extend the usefulness of the organization, has long since been exploded. Business ability, prompt and unremitting attention to business and details, personal influence with the members, economy, and the knowledge of how and when to advertise, are things without which no Athletic Association can manage to pull along in the present day.

THEY ARE AFTER C. A. A. U. OFFICERS.

CONVENTION CALLED FOR THE END OF JULY.

The Ontario Hockey Association Now are the Prime Movers and the C. L. A., the Ontario Rugby Union and the Ontario Football Association Join Them.

TORONTO, July 3.—Inspector Starke and the Executive of the Canadian Amateur Athletic Union may well look out for themselves. There are several after their scalps, and the mutterings of discontent with the doings of the C. A. A. U. have been growing louder and more threatening. At first it was principally the C. L. A. that was rebelling against the C.A.A.U. authority, but now several other organizations have openly taken part in the revolt.

CRICKET

CANADIANS GOOD WORK.

PHILADELPHIA, July 3.—The Canadian cricket team concluded its second game here yesterday with the Germanstown Club, the result being a draw. The Quakers yesterday batted first and rolled up a total of 297. Against this the Canadians made 81 for four wickets. At this stage of the game the contest was resumed yesterday morning. The visitors needed 157 to save a follow on. This they failed, only getting a total of 168 for their 12 men. The Quakers decided to take the field again and set their opponents the task of saving a single innings defeat. This they did, and before they were all retired, scored 197 runs. F. K. Rooke played a brilliant though careful innings, of 43, going in at the third wicket down and remaining till the end, being the last man out. Lounsburgh also played well, making 40 in exactly one hour.

This gave the Canadians a lead of 68, with Germantown an innings in hand. The local men essayed the impossible task of trying to knock off the runs. In this they failed and lost 3 wickets for 19 runs.

MOUNT ROYAL ELEVEN WON.

A match was played at the Driving Park, Point St. Charles, between the Montreal Woollen Mills (second eleven) and the Mount Royal Club, resulting in an easy victory for the Mount Royal team by four wickets and eight runs. Following are the scores:

THESE SYMPTOMS ARE A WARNING TO YOU

That the blood is losing its richness and the very life itself is being sapped from brain and nerves. You feel weak and run down. You get pale and sallow, with dark rings under the eyes. You lose flesh and the food you eat does not seem to nourish you. Your hands and feet get cold. You are nervous and irritable. Little things worry you. You suffer with headache, neuralgia and nervous dyspepsia. You grow melancholy and depressed at times, find your memory failing and feel unable to concentrate your thoughts.

This is the train of symptoms which lead to nervous prostration and paralysis or land their victim in the epileptic hospital or insane asylum. Nearly everybody needs a nerve restorative and blood builder at certain periods in his life. When nerve cells are being wasted away more rapidly than nature can replace them callapse is certain, unless some means is used to assist in enriching the blood and creating new nerve force. Dr. Chase's Nerve Food is the most effective preparation obtainable for thoroughly restoring richness to the blood and strength and vitality to the nervous system.

AQUATICS

CORNELL VARSITY WON THE BIG RACE.

AND THE TIME MADE WAS A WORLD'S RECORD.

The Point St. Charles People Welcome the Grand Trunk Boat Club Boys Who Did So Nobly at the Races of the Pan-American Exhibition at Buffalo.

POUGHKEEPSIE, July 3.—The intercollegiate boat races over the Hudson River course were decided yesterday as follows:

'Varsity eight — Cornell, first; time, 18.53 1-5; Columbia, second; time, 18.58, Wisconsin, third; time, 19.06 4-5; Georgetown, fourth, time, 19.21. The best previous record for 'Varsity eight was 19.44 3-5. No time was taken for Syracuse and Pennsylvania who were many lengths behind. In the 'Varsity four Cornell was first; time, 11.39 3-5; Pennsylvania, second; time, 11.45 2-5; Columbia, third; time, 11.51 3-5. The best previous record for this distance was 10.31 1-5.

In the freshmen race, Pennsylvania was first; time, 10.20 1-5 Cornell, second; time, 10.23; Columbia, third; time, 10.36 1-5; Syracuse, fourth; time, 10.44.

The previous record for freshmen eight for this distance was 9.19 12.

The first crews in the 'Varsity eight rowed the following stroke during the race:

College	1st mile.	2nd mile.	3rd mile.	4th mile.
Cornell	34	35	35	36
Columbia	35	38	37	37
Wisconsin	35	35	37	37

A new record for 'Varsity eights was made on the Hudson River, and what is more remarkable, four leading crews in the race each broke the old record by many seconds. The 'Varsity eight, of Cornell University, made the new record of four miles, 18.53 1-5, the previous record being 19.44 3-5, made by the Pennsylvania crew last year.

Columbia finished second, making the course in 18.58; Wisconsin third, in 19.06 4-5; Georgetown fourth, in 19.21.

The race was rowed in water that was phenomenally advantageous, and while this may have helped the time, still it did not seem to assist the freshmen, under almost the same conditions. The 'Varsity race was the most exciting of the day, although the other two caused a flurry. The fact that Pennsylvania had been picked as a sure winner of the four-oared event, but that Cornell beat her out, easily, whetted the appetite of the thousands upon the shore and observation train for the other contests.

The phenomenal feature of the day is that had not the Cornell freshmen boat broken in the last half mile, Cornell would to-night have three victories to her credit. Columbia is happy to-night, for her oarsmen have gone up from a very bad last place to second place in a six-sided contest, after giving the winners a terribly hard fight, and coming in but a few seconds behind. Georgetown, a new rival for honours, and to whom little attention had been paid, got inside the time record, and hung on to the leaders with a tenacity that surprised everybody. Pennsylvania was never in the race with its second crew, and Syracuse, with its very light oarsmen, were out-classed, although they pulled through to the end.

Although the race was one of the most severe ever rowed, there was not a sign of distress in any boat. It was a minute after half-past five when the six 'Varsity crews lined up at the start, there being a slight delay because of the breaking away of Cornell's stake boat. The referee gave the usual warnings, and at the pistol the start was phenomenally uniform, Cornell having the only advantage, because, in the absence of a stake-boat, she had to make a flying start.

It was evident before 25 strokes had been rowed that the pace was too much for the light Syracuse crew, and the second crew from Pennsylvania, for they began to drop behind in a second section. At the half mile, there was not 25 feet between the first three boats, while Georgetown had dropped about a half length behind them. Columbia was leading at this point. At the mile Cornell had taken the lead away from Columbia, and had a half length advantage. Wisconsin had tried in vain to steal second place from Columbia, and from this point, although sticking close to Columbia's stern, never managed to draw up on her. From the mile and a half point to the three mile point, was one of the most remarkable feats of endurance and skill ever witnessed. Cornell kept the nose of her shell just a scant half length in front of Columbia, who made desperate efforts to reach her rival. Wisconsin, half length behind Columbia, made gallant great efforts, but they seemed of no avail, and Georgetown held on to her trio of pacemakers with tenacity. At the three mile point Columbia made a desperate attempt to take the lead, her stroke quit up the swing and her boat in less than five seconds had evened up to Cornell's, and in another five had showed its nose a few feet to the front.

The Ithaca boat had been [illegible] forward at the lowest stroke, [illegible] any of the crews, and when the C[illegible] boat rushed to the front they raised [illegible]ghtly, and taking the lead again passed [illegible]ard the finish line, increasing the lead until, when the line was crossed, they had a length and a quarter advantage over Columbia. Wisconsin had found herself unable to get any more speed in the last mile, and finished two lengths and a half behind Columbia. Georgetown had hung like a young bulldog and finished only a scant two lengths behind the Wisconsin crew. Syracuse and Pennsylvania were distanced. No distress was evident in any of the boats, a most remarkable thing when the pace set is taken into consideration.

THE FOUR-OAR RACE.

The four-oared race for the Davison-Kennedy Challenge Trophy, was called first, the competing crews being Pennsylvania, Columbia and Cornell, arranged in this order from the west shore toward the middle of the river. Pennsylvania's four caught the water first, but they were quickly followed by Cornell and Columbia.

At the one-mile mark Pennsylvania still retained the lead by half a length, and Columbia was a half length ahead of Cornell. Cornell was slowly decreasing Columbia's lead, and all three boats were holding their course in a beautiful manner. Nearing the last quarter, Cornell spurted and again decreased Pennsylvanias lead, while Columbia dropped to the rear. The Ithacans seemed to have plenty of reserve power left, and made another spurt when near the finish, closing up the gap between the two shells, and taking the lead over Pennsylvania, winning the race by a length and a half. Columbia was not expected to make a showing, but by her heroic struggle she finished third by only a length and a half behind Pennsylvania.

THE FRESHMAN RACE.

The freshman race between the crews representing the Universities of Cornell, Pennsylvania, Columbia and Syracuse for the Stewarts Cup, presented by Francis R. Barge, was a beautiful struggle. The crews got away at 4.19.50, and all but Syracuse seemed to catch the water at the same time. After the first ten strokes Cornell and Pennsylvania took a slight lead over the other crews, and at the end of the first quarter Cornell was leading by a length, with Penns. second and Columbia and Syracuse almost on a line for third place. Approaching the bridge at the mile mark, Cornell was still retaining its lead, with Pennsylvania second, open water between the Pennsylvania and Columbia shell, and Syracuse fourth by a full length. All four crews were rowing from 33 to 34 strokes to the minute. When the crews went under the bridge Cornell had increased her lead a quarter of a length over the Pennsylvania boat, and Columbia was but a length behind Pennsylvania, while Syracuse had dropped back, putting her 2 lengths to the bad. Entering the last half-mile Pennsylvania's oarsmen hit up their strokes and made a desperate effort to overcome Cornell's lead and they were partly successful. Pennsylvania's spurt caused two lengths of open water to show between her shell and the Columbia boat, while Syracuse followed in almost all the wash of the Pennsylvania crew. Nearing the last quarter Cornell held her lead by a length, with Pennsylvania second, Columbia third, and Syracuse a very bad fourth. Stroke Pepper, of the Pennsylvania crew, again lifted the stroke to 34, and then to 36, to try and overcome Cornell's lead, and the gap was gradually closed up, the Pennsylvania freshies capturing the lead from the Ithacan oarsmen. Cornell began splashing badly at this time and it was discovered that Torney at No. 5 had broke his oar lock. The Cornell eight were unable after that to regain the lead and Pennsylvania won out by half a length. Columbia was third by three lengths, and Syracuse fourth by two lengths and a half.

THE HENLEY REGATTA.

Opening of the Big Race Meeting on the Thames To-day.

HENLEY-ON-THE-THAMES, July 3. — The Henley Royal Regatta opened to-day formally, although, owing to the large number of entries for the Thames Challenge Cup, three heats in the contest for that trophy were rowed yesterday afternoon and were won by Trinity Hall, Cambridge; the School of Mines Rowing Club, and the Kingston Rowing Club. The results to-day were as follows:

Wyfold Challenge Cup—First heat: Kingston Rowing Club beat Trinity College, Oxford. Kingston's time was 8.08.

The Grand Challenge Cup—First heat: Leander Rowing Club beat New College, Oxford. Time, 7.09.

Grand Challenge Cup — Second heat: Pennsylvania University beat London Rowing Club by three lengths. Time, 7.01 2-5.

Ladies' Challenge Plate — First Heat: Worcester College, Oxford, beat Jesus College, Cambridge. Time, 7.17.

Thames Challenge Cup—Fourth heat: Trinity Hall, Cambridge, beat the London Rowing Club.

The regatta began under favourable conditions. The sun was bright and warm and a cool breeze was blowing off the tow path. The attendance, however, does not equal expectations. Comparatively few American flags or prominent Americans were visible.

The Pennsylvanians came down to their boat house at 11.30 a.m. They all declared themselves fit and confident. Leander, which was to meet New College at 12.35 p.m., went out for a spin, but the Pennsylvanians did not embark till they went to the starting point.

"Bob" Cook, in his final summary of the Pennsylvanians prospects, said:

"No American crew was ever at Henley with better prospects. They are in splendid condition and confident. They will, in my opinion, meet Leander in the finals when, I fear, the Englishmen will beat them."

Is Your Catarrh any Better?

You ought to treat it now. The weather is so favourable. In the winter you catch cold, nose and throat are kept inflamed despite all you can do. It's hard to cure Catarrh in the winter, but in the summer it's different — everything is favourable. Now, there's that delightful remedy, so pleasant to use and so effective—Catarrhozone. In the summer it cures Catarrh in a very short time. You see, it heals, then removes the cough and bad breath; in fact, I cannot say too much in its praise; it's just splendid. I am sure your druggist sells Catarrhozone, and recommends it also. 25c and $1. 154 1

POINT BOYS ARE HONOURED.

Crowds Gave Them a Hearty Reception Last Night With the Accompanyment of Music.

Bands, and fireworks, and music were some of the component parts that characterized the reception of the Grand Trunk Boating Club members who went to Buffalo to take part in the International races.

The Point people took a night off to honour them, and notwithstanding the heat, they turned out in crowds to take part in the home coming celebration.

Mr. M. O'Brien, upon whose shoulders, as chairman, fell the lions share of the preparatory work, the youthful veteran of great snowshoeing days, managed things well and aided by his trusty lieutenants made a great success of the reception.

ILLUMINATED BOAT PARADE.

One of the features of the entertainment was a sort of a miniature fete-de-nuit, the principal attraction of which was a very pretty illuminated water parade.

The men in whose honour the festivities were gotten up were: Messrs. C. McLean, C. N. Marshall, A. Veary, and C. L. Marshall, who carried the colours of the Grand Trunk Club to victory at the Pan-American regatta at Buffalo, and at the Dominion Day regatta in Toronto. Between them they captured nineteen prizes. Charlie McLean won the international single canoe championship at Buffalo against the best paddlers in the world, and the crew won the world's championship at Buffalo in the four-in-canoe events, and captured the first prizes in the same event on Dominion Day in Toronto.

The Grand Trunk Boat club house was crowded by the members of the crew and their lady friends, and the building and boat houses were beautifully decorated for the occasion. A large bonfire was kept blazing on the island opposite the boat house. The procession of boats and canoes, in which about fifty took part around Price's Island, previous to the official reception, and the prize which was offered for the best illuminated boat was won by Messrs. Huntley and Dawson. It was a magnificent sight as the beautifully decorated boats and canoes filled with bright young fellows and laughing maidens, were slowly propelled around the island in the moonlight.

THE OFFICIAL RECEPTION.

The final business of the night took place in the big room of the club house, when the four members of the crew who had brought such credit on themselves and the Grand Trunk Boating Club were seated on the platform with President James Powell, who made a short but eloquent speech, congratulating the boys on their victories. A programme of songs, musical selections and recitations was furnished by the members of the club and their friends, in which the following took part Messrs. R. J. Holgate, A. C. Wilson, Geo. Morgan, A. E. Clifforn, T. Johnson, W. Cunningham, Wiley and Marshall, A. May, O. Borne, Fellowes, Ashton and R. Dougherty.

LACHINE ANNUAL REGATTA.

Preparations are already being made by the Lachine Boating and Canoeing Club for the annual regatta, which is always held on the last Saturday in July. A feature of the regatta will be the four-oared competition for pewters, presented by Captain Cumming, of the club. Enough names were posted to make up twelve crews, and these were selected last evening by the racing committee. The preliminary heats will be rowed before the regatta. The crews picked are as follows:

No. 1.—Bow, R. M. Charlton; 2, J. A. Wilson; 3, F. K. Bennett; stroke, G. Davison.

No. 2.—Bow, J. Lows; 2, Fred Elliott; 3, W. C. Hagar; stroke, T. Birchall.

No. 3.—Bow, A. Y. Paxton; 2, W. L. Charlton; 3, H. Casbourn; stroke, J. G. Young.

No. 4.—Bow, C. Nichol; 2, T. Church; 3, J. P. Kelly; stroke, G. Snow.

No. 5.—Bow, W. Barnes; 2, J. M. Oxley; 3, A. Snider; stroke, P. Ward.

No. 6.—Bow, K. Strathy; 2, W. B. Johnston; 3, A. Thorne; stroke, C. Jack.

No. 7.—Bow, A. Robert; 2, L. Wigfield; 3, J. A. Dawson; stroke, P. C. Howard.

No. 8.—Bow, W. Pomphrett; 2, F. Finlay; 3, H. Dawson; stroke, H. E. Nichol.

No. 9.—Bow, L. A. W. Brooks; 2, J. McDonald; 3, F. Roberts; stroke, C. Stratny.

No. 10.—Bow, W. Frye; 2, J. D. Paxton; 3, W. E. Norton; stroke, R. Major.

No. 11.—Bow, F. Elliott; 2, H. Johnston; 3, J. Cameron; stroke, N. Manson.

No. 12.—Bow, L. Baby; 2, J. McDonough; 3, D. Campbell; stroke, H. L. Troutbeck.

MR. CLARK GETS COLDER.

ROTHESAY, July 3.—Kenneth M. Clark, owner of the new Watson cutter, Kariad, proposes to challenge Sir Thomas Lipton, through the Royal Ulster Yacht Club, to a series of races between the Shamrock II. and the Kariad, under the American time allowance scale, to decide which shall have the honour of competing for the America's Cup.

Mr. Clark's proposal has been unfavourably received in yachting circles. It seems improbable that any negotiations will result, or even that Sir T. Lipton will adopt the formality of rejecting the proposition.

The Kariad was built by the Hendersons, of Glasgow, last year, for C. D. Rose, and was at first named Distant Shore. She is a composite cutter, designed by George L. Watson, and, according to Lloyds' Register, has a length of 97.2 feet. She has sailed some close contests this year with the Shamrock I., the German Emperor's yawl, Meteor, and Whitaker Wright's yawl Sybartia. She has been defeated by all three.

CHALLENGE DECLINED.

ROTHESAY, July 3.—The Royal Ulster Yacht Club has notified Kenneth M. Clarke, that it must decline to take up his challenge.

INDEPENDENCE DOCKED.

NEW LONDON, July 3.—Thomas F. Lawson's sloop, Independence, which arrived from Vineyard Haven on Sunday evening, was towed up the river this morning, and at noon was on the ways. Two expert divers adjusted the blocking under the sloop's keel and there was no hitch whatever in hauling the racer out of the water. A number of kodak fiends were on hand and many pictures of the vessel were taken as she appeared on and off the river. B. B. Crowinshield, designer of the Independence, was at the shipyard and waited until the sloop was hauled out safely, when he returned to Boston.

LIPTON BARS SHAMROCK II.

ROTHESAY, Forth of Clyde, July 3.—Sir Thomas Lipton refuses to entertain the challenge of Kenneth M. Clark, owner of the Kariad, for trial races between the Kariad and the Shamrock II., but with the consent of Sir Thomas, W. G. Johnson the well-known yachtsman and representative of Sir Thomas Lipton on the Shamrock II., offers to sail the Shamrock I. against the Kariad in five matches, each match to be for £500.

METROPOLITANS WIN AT GOLF.

DEFEAT THE LENNOXVILLE AND SHERBROOKE TEAM.

Metropolitans Had 53 Holes Up When Play Was Completed—A Return Match is to be Played on the Metropolitan Links in the Autumn.

The match between the Metropolitan Golf Club (of Montreal), and a team picked from the Lennoxville and Sherbrooke Golf clubs, took place at the Lennoxville Links resulting in a victory for the Metropolitan's by 53 holes up.

Although the course was new to most of the players a good game was put up and a very enjoyable day put in. Mr. Herbert, of the Lennoxville Club, had the distinction of being the only man up for their team and most certainly deserved his victory, as his score in the second round of 38 for the nine holes makes a new record for the course, and proved too much for his partner, although in Mr. Hutchison he had a worthy opponent. A return match is expected to come off in the fall on the links of the Metropolitan Club, and a pleasant day's outing is looked forward to.

Following is the score:

	Lennoxville and Sherbrooke	Metropolitan

CONDENSED

E. H. Miles beat Yorke by a score of 3—0 in the final round of the tennis tournament of the Marylebone Cricket Club. Miles will meet Sir Edward Grey, the holder of the silver racquets. The winner will then play Gribble, the holder of the gold racquet.

Holcombe Ward, and Dwight F. Davis, the American players, won the final round in the Wimbledon tennis championship doubles, easily defeating Messrs. Dagger and Simond by three sets to love. The score of the first set was 7 to 5 and of the second and third sets 6 to 4 respectively.

A meeting of the M.A.A.A. Revolver Club was held at the gymnasium last evening, when it was decided to hold the opening shoot on July 16 at 6 o'clock. The conditions will be ten shots at Dominion Rifle Association standard targets, and the handicaps will be adjusted by pistol and record of shooter. There will be three prizes and the match is open daily to members of the M.A.A.A. Regular practices are held every Monday and Thursday, and hitherto they have been very well attended.

George Towns, the oarsman, is bound to meet Jacob Gaudaur, the world's champion. The Canadian's answer to Towns' last message did not discourage him, and he now declares his willingness to race Gaudaur for the championship on Canadian waters, provided the Evening Telegram, of Toronto, is the final stakeholder, and that all moneys are posted before Towns leaves England. Towns, in his anxiety to arrange a contest with Gaudaur, has dropped two of the conditions named in his last proposition by cable to the Rat Portage man.

At a meeting of the executive of the Ontario Hockey Association last night, the president was instructed to call a conference in Toronto at the end of July of representatives from the Canadian Lacrosse Association, the Ontario Rugby Football Union, the Ontario Football Association, the Canadian Association of Amateur Oarsmen and other bodies not affiliated with the Canadian Amateur Athletic Union to discuss the necessity for re-organization of the Central Athletic body on more popular lines. At present the C. A. A. U. permits individual clubs the same rights in its councils as unions of clubs, and the intention is to try and confine membership to associations.

Applications by E. Howell, of Paris, and J. Carmichael, of Toronto, for reinstatement, were not granted.

THE TOURNAMENT ENDS.

(Special to the Star.)

SHERBROOKE, Que., July 3.—The Interstate Association's tournament was brought to a close yesterday, and the visitors departed on the evening trains. They express themselves as well pleased with the tournament and with their treatment at the hands of the Sherbrooke Gun Club. Ten events were shot, all being at fifteen targets, except the third, sixth and ninth, which were 20 targets. The scores of each competitor in each of the ten events yesterday were as follow:

E. C. Fort—14, 13, 15, 14, 13, 19, 15, 15, 17, 14.

H. D. Bates—15, 13, 20, 15, 11, 20, 15, 14, 17, 14.

NOTES OF THE NEWS.

A joint stock company has been formed at Winnipeg for the purpose of building an immense abattoir.

The Toronto City Council has voted two hundred dollars in aid of the people burned out at Cache Bay on Saturday.

An "Old Boys' Reunion" is being held at St. Catharines, Ont., with a large number of ex-residents of the place in attendance.

An old man, named Schilter, deliberately threw himself in front of an engine at Berlin, Ont., on Tuesday, and was instantly killed.

The plant of the National Fireproof Company, near Keyport, N. J., was burned on Tuesday. It started in a brick kiln. The loss was $200,000.

The keeper of the Government Lighthouse at Cape Race wires that the steamer Sapra reports the Straits of Belle Isle to be full of floating ice.

It is reported at Ottawa that the International Commission will meet in Quebec in September unless in the meantime the Ontario elections are announced.

The Dominion Iron and Steel Company has put a stop to all unnecessary Sunday labour at Sydney. The loading and discharging of vessels, construction, etc., will in future be performed on week days.

The Militia Department has received a check covering Imperial arrears of pay for about 75 members of the Royal Canadian Dragoons. The individual amounts range from a few shillings up to about 100 pounds.

Ten boys were caught like rats in a trap in a tunnel leading to the old Keeling mine, owned by the Pittsburg Coal Company at Pittsburg on Tuesday. Two were killed and eight were overcome by the foul fumes of the place.

A fire raged in the heart of Huntingdon, W. Va., for several hours on Tuesday, resulting in a loss of $300,000. The flames started on the Adelphi Hotel from an electric wire and had gained great headway before being discovered.

A coroner's inquest at Elkhorn, Man., concerning the death of the child, found murdered the other day, has rendered the verdict that Mrs. Campbell killed her three-year-old girl by cutting its throat with a butcher knife, while insane.

The Ontario Government has granted a concession covering 147 square miles of Hunters Island on the boundary between Ontario and Minnesota to a syndicate headed by the Messrs. Wiley, of Fort Arthur, who agree to spend $120,000 in three years in thoroughly exploring it, developing any minerals found.

The Minister of Militia says he hopes the Canadian Government will be able to retain for some time to come the services of Major-General O'Grady-Haly as officer commanding the Canadian militia. He says that the despatch extending his appointment for three months from July was only a formal one, and did not mean that the Imperial authorities were desirous of his return to England.

BASEBALL.

MONTREAL IN FIFTH PLACE.

AND MAY BE IN FOURTH BY THIS EVENING.

Will Play Two Games in Hartford To-morrow—Away From Home Now Until July 20 When They Return Here With Toronto — A Row at Rochester.

Look out, Hartford, we're a-coming;
Likewise "Provies" clear the way.
Up the pike we go a-humming—
Can't stand any more delay.

Three times winners, no use trying
For to stop us—'twouldn't pay.
Got to reach the top a-flying—
Can't stand any more delay.

Might have been there had we hustled;
Time enough, though, yet; but, say,
Wouldn't know we'd fought and tussled—
Can't stand any more delay.

Got the Wor'sters on the run now,
"Provies" ain't so far away.
Goin' to play baseball like fun now—
Can't stand any more delay.

The third and last of the home games with Worcester was won by Montreal yesterday. It would have been a shut out if McFarlan had not been suffering from a bad arm and weakened a little in the eighth inning. He gave Rickert three bad balls, and then, to save himself from giving a pass to first, had to give a straight one. It was dead easy, and Rickert promptly lifted it over the left field fence for a home run. It was the only run the Worcesters made.

The fact of the matter is that the Worcester team has been terrifying people with

its aggregation of weird and awful names, but Montreal has grown to learn that the devil is sometimes not so bad as he is painted, and men are sometimes not as difficult as the pronunciation of their names.

Thus they batted Mr. Klobedanz out of the box on Monday, found the teeth of the Griffin were not so sharp, and yesterday didn't do a thing to Pappalau. They also declined to be frightened at the conversation carried on by Mr. Wiggley, hit fearlessly over the head of Unglaub, and made three basers over the district smutted by Smoot.

The seven games out of the last eight won by Montreal against Hartford and Worcester were the result of better playing on the part of the home team than the visitors showed. It demonstrated, too, that when Montreal is doing its best there is no stronger aggregation in the Eastern League.

They go away now for a trip around the circuit, and will return on July 20 to play a double-header with Toronto. Felix is to rejoin the team in Hartford, which will give the club their full complement of twirlers. Playing every other day, as the pitchers have had to since Felix was laid up, is a little too much. There is no reason why they should not continue to mount from the fifth place, which they attained yesterday, till they are contesting for first place.

In yesterday's game the scoring did not begin until the fifth inning. Up to that time Pappalau had held pretty good control and been well supported. After that Montreal simply seemed to hit him whenever and wherever they wanted to.

In the fifth, Sheehan, who is developing into as sure a bat as he is rapid third baseman, made a two-bagger. Johnson struck out, but as Doran didn't hold the last ball, Johnson started on the run for first, and while the ball was being picked up and thrown to Klobedanz, Sheehan skipped along to third. Johnson was put out, but it was as good as a sacrifice in its result. Then Quinlan, who is also picking up immensely in his batting, hit out a two-bagger, and Sheehan came home. McFarlan hit to Unglaub and beat out the throw to first. Wilson went out and Shearon hit to Shannon, who made a low throw to first, which Klobedanz failed to grasp, and while this was going on, Quinlan waltzed home. Shearon stole second, but the side was retired by Delehanty's out.

In the seventh, Johnson made a single, was sacrificed along by Quinlan and scored on McFarlan's single. Wilson put out a splendid liner to left, but it was caught by Rickert with one hand and he secured it with the other while on the dead run. It was a veritable juggler's catch. Then Shearon made a three-bagger to the southwestern corner of the grounds, McFarlan going

A savage swipe by Rickert, and over the fence went the ball, making the one solitary point scored by Worcester yesterday.

home. Shearon scored on Delehanty's single, before the side was retired.

Worcester had the home run before referred to, and Shannon also got home by apparently beating out a throw in to the plate, but as he had left the third base before the ball was caught and the umpire happened to see him, the run did not count, because the ball was thrown to third before he got back there, which put him out.

SLUGGING GAME AT TORONTO.

TORONTO, July 3.—Miller's wildness, Shoch's errors, and three singles gave Toronto six runs in the third, and practically won them the game. Altrock was batted hard, but Hartford only succeeded in bunching them in the third. Toronto fielded fast and sharply. Two fast double plays spoiled the visitors' chances for runs. Bonner and Bruce made sensational plays. The score by innings:

		R.	H.	E.

SYRACUSE DROPPED ANOTHER.

BUFFALO, July 3.—Buffalo won yesterday's game after a hard struggle. Fisher, of Toledo, has been signed to play short, and he put up a fair game. The score by innings:

		R.	H.	E.
Buffalo	0 0 0 0 0 2 1 0 x—3		10	2
Syracuse	0 0 1 0 1 0 0 0 0—2		10	1

TACK HEAD WORK.

ROCHESTER, N.Y., July 3.—Umpire Lanigan was taken sick in the second inning, and was unable to go on with the game yesterday. By mutual agreement, Malarkey, for Rochester, and Crisham, for Providence, were substituted. In the fourth inning a wrangle over a technical decision on ground rules netted Providence seven runs and delayed the game twenty-five minutes. Later in the seventh McAuley split his hand, and Crisham volunteered to take his place. Providence insisted on furnishing another substitute umpire, and after Crisham had caught one ball Captain Smith objected, claiming that Malarkey was the only one in authority. Providence refused to play under this ruling, and the game was forfeited to Rochester, 9 to 0. Score by innings:

OFF THE BAT.

Near the first division.

Won seven of the eight games played.

Delehanty had his eye on the ball again.

A nice pleasant time at Rochester yesterday.

The home series resulted in eleven wins and seven losses.

Montreal leaves for Hartford to-night, where Felix will join them.

If Buffalo disposes of Syracuse to-day, Montreal slides into fourth place.

Jim Delehanty has been released by Chicago and will return to Worcester.

Frankie Shannon was caught starting from third before a fly was caught.

Cap. Dooley is nursing a very sore arm. Magee hit him with the ball Monday morning.

Quinlan has old man Schiebeck beaten a mile at short. He has commenced to hit the ball too.

Carey had 24 fielding chances in the 13-inning game at Buffalo the other day, and accepted them all.

St. Louis has signed a new pitcher, named Burns, who has been making a fine record for the Ashtabula, O., club.

Umpire Hunt was to have gone to Hartford with Montreal, but yesterday received instructions to go to Syracuse. Why?

Out in Cincinnati they are singing "We Don't Care if They Never Come Back." The Reds have lost 13 out of the last 15 games.

The three leading base runners in the National League are Hans Wagner, of Pittsburg; Heidrich, of St. Louis; and Hartsel, of Chicago.

"You! You with the megaphone! Do what you like, but don't get personal with the players." Hunt handed this out to a loud mouth on the grand stand yesterday.

Charlie Pittenger has a batting average of .034 for his work with Boston. Pit isn't one of those hard-hitting pitchers so often talked about, but at times he appears to be a hard-to-hit pitcher.

Tom Daly's record in the seven games last week was 13 hits in 27 times at bat, an average of nearly .500; 8 runs, 3 triples, 3 doubles, 2 stolen bases, a sacrifice hit and 34 fielding chances without an error. Pretty fast going for an old timer!

The Buffalo Inquirer is after the Bisons. It describes them thus: "As an organization of misfits, glass arms, pudding heads, broken down, spavined, careless, putty-fingered, porch-climbing ball players, Buffalo's team in the Eastern League to-day cannot be beaten."

This comes from the farm, near Hamilton:

"Bring out he drums, and toot the loud bazoo!
Trumpet the horns, the cymbals clang a few—
Then jam the bleachers at the proper place—
Our team will soon be leading in the race!"

"Just because they couldn't hit the ball. Oo-oo-oo!" sang the golden-haired rooter.

STILL SUFFERING FROM THE SUN.

YESTERDAY WAS TERRIBLE IN MANY CITIES.

Two Hundred and Twenty Deaths in One Day in New York — Over Fifteen Thousand Sleep on the Beach—Families Make Their Beds on the Streets.

NEW YORK, July 3.—At 2.15 yesterday the Weather Bureau thermometer touched 99, within one degree of the high record in this city. At 3 o'clock the temperature had receded one degree, registering 98 at that time.

The deadly heat was somewhat mitigated late in the afternoon by a succession of thunderstorms, which cleared the atmosphere and sent the mercury tumbling down ten degrees between the hours of 4.30 and 8 p.m.

In the twenty-four hours ending at midnight 220 deaths and 327 prostrations were reported in Greater New York.

The suffering caused by the heat was unprecedented. All the ambulances in the city, as well as the patrol waggons and many other vehicles, were kept busy answering calls. At the rate of about one a minute the calls came in over the police wires throughout the day, breaking all records of demands upon the ambulance service, and providing patients enough to crowd all the hospitals in the city as they have never before been crowded.

On the beach at Coney Island on Monday night thousands of persons were sleeping. The police said the number of sleepers was twice as great as on the night before, due, no doubt, to the announcement in the morning papers that the police would not interfere with them, and would see that no one else molested them.

They began to come down to sleep on the sand early in the evening. They came in droves, bringing shawls and wraps. Some of them had also provided themselves with oil-cloths,and after scooping out a hole in the sand, they placed the oil-cloth in it to keep it dry. At 11 o'clock there were over fifteen hundred persons asleep on the beach and hundreds more were arriving.

Hundreds upon hundreds of the poor inhabitants, unable to exist longer in their close, stifling quarters, brought their mattresses from inside the houses and camped in the street. When the policemen on beat along Hester and Davidson streets made their early rounds they had to take to the roadway, for it was impossible, without stepping on exhausted sleepers, to walk the sidewalk.

Whole families camped out, fathers anxious to keep their young together, mothers with crying babies, and children who were too exhausted to care where they slept. And while the street was blocked with these, the roofs of the tenements for blocks around were covered with others, and the fire escape landings were crowded with still others, driven to the point of desperation to find rest and comfort.

As the sun rose on this multitude, for thousands there were throughout the entire district, it came with a still further promise to torture the exhausted people. Gradually the beds began to disappear from the streets, but the fire escapes remained crowded with bedding all day long in anticipation of another frightful night. Many there were who were too exhausted to go to work, and it was common to see able-bodied men lying on their doorsteps all day long, half asleep.

OTHER CITIES SUFFER.

WASHINGTON, July 3.—Reports as to the terrible effect of the heat continue. The Weather Bureau has received the following bulletins concerning yesterday's experience:

At Pittsburg—50 deaths and 70 prostrations occurred up to midnight.

At Philadelphia—52 deaths and 300 prostrations were reported to midnight.

At Newark, N.J.—41 deaths and 60 prostrations were reported to 9 p.m.

A WARNING TO BOXERS.

SIMLA, July 3.—Advices received here from the Sikkim border say that an edict signed by the Emperor and Empress of China, has been posted in Chinese Thibet, announcing that the European powers have been victorious in Northern China and ordering that the lives of missionaries and Christian converts be respected on pain of decapitation.

THE GERMAN BANK FAILURE.

LEIPSIC, July 3.—Two companies of this city have failed as a result of the recent collapse of the Leipzieger Bank. A prominent resident at Coburg, in despair as a result of his losses in the Liepzizer Bank, shot at and severely wounded his wife and daughter and then shot himself dead.

JAPAN AND COREA.

WASHINGTON, July 3—Reports received here from Seoul say Corea has suddenly requested Japan to close the latter's post offices in Corea and withdraw the Japanese officials, thus increasing the tension between the two countries. The newspapers contain veiled allusion to Russian intrigue.

CANADIANS AT BUFFALO FAIR.

A CIVIC RECEPTION IS TENDERED THEM.

The Mayor of Buffalo Talks in Favour of Reciprocity—Hon. Mr. Borden Thinks it Would be Desirable, But is Not So Necessary to Canada as Formerly.

BUFFALO, July 3.—The civic reception to the visiting Canadians was given yesterday. The following Canadians were escorted to the City Hall by members of the entertainment committee: Hon. Dr. Borden, Minister of Militia and Defence; Col. Pinault, Deputy Minister of Militia and Defence; Hon. Mr. Aylmer, Adjutant-General; Col. McDonald, Director of Military Stores; Col. Evanturel, of Quebec, extra aide-de-camp to the Governor-General; Col. W. G. Hurdman, commanding the 2nd Field Battery; Col. W. E. Hodgins and Col. Pellatt, commanding the Queen's Own, of Toronto.

The Mayor received them in his private office, making the following address:

"Hon. Mr. Borden and gentlemen,—I wish, on behalf of the citizens of Buffalo, to first say that your troops yesterday made a most creditable showing and to assure you that they made a great impression upon our citizens at large.

"Now I wish to speak upon the subject of reciprocity, which the world is being brought to believe in slowly but surely. I believe that our present friendly relations may be even more soundly cemented, and I wish you to convey to the Governor-General of Canada, from me, the hope that he will aid us in that cementation, as I might call it. You can see for yourself how kindly Buffalonians feel toward you, and I assure you we feel most highly honoured by your visit. It is true, as you say, that the Canadians came with muskets, but I think you will have to admit that we captured the muskets."

In reply to the Mayor's remarks, Dr. Borden said: "Your Honour, we called to express to you our appreciation of the splendid and truly American hospitality extended to us yesterday, and to tell you how much we enjoyed ourselves. Speaking not only for myself, but also for the 48th Highlanders, I can say that they enjoyed themselves more than they ever did before.

"I sincerely hope that what you have said as to reciprocity will be true. I may say that we had reciprocity with the United States before Confederation of the provinces, and it was wholly successful. To be frank, I must say that for a time we were extremely anxious and feared that our prosperity was conditional upon securing it. However, that critical period has passed, and we have learned that we can get along without it. Still, I think it would be most beneficial to both countries. You know yourself that the best customers that the United States has in the world are those who live above the line. Per capita, we buy far more, in fact, I think three or four times as much as any other foreign country. I think it is a good business proposition. That is all we propose. We ask no favours, but think it would strengthen the ties and bonds of friendship. I hope that what you suggest—that the exposition will result in a tangible improvement in trade conditions—will be realized."

A FLAG INCIDENT.

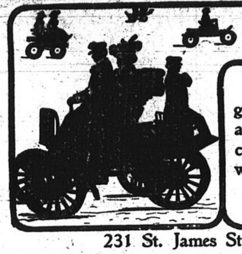
TORONTO, July 3.—The ordering down of the British flag at the Pan-American Exhibition is a subject of comment. It appears that the director of the Ethnological building took it upon himself to lower a festoon of twenty-four British flags, which had been placed over Ontario's archaeological exhibit, and when asked to replace them refused to comply with the request. He gave no satisfactory explanation of his unwise act and could only say that some one had objected to the presence of the English ensigns. An official in charge of the display, called on Director Buchanan, but he was not acquainted with the details of the affair and could do nothing in the matter. The Minister of Education and Mr. David Boyle curator of the Ontario archaeological museum, were seen to-day by a reporter, but they refused to state what steps, if any, would be taken to have the flags replaced.

SHIPPERS' GRIEVANCES.

TORONTO, July 3.—Prof. J. S. McLean, who holds the chair of Economics in Arkansas University and is a noted expert on questions of shipping and railway rates, has arrived in the city to conduct on behalf of the Dominion Government, an enquiry into shippers' grievances. The report has been asked for by Hon. Mr. Blair as a preliminary to the promised legislation for the regulation of traffic rates by the Government. Mr. McLean will visit Ottawa and afterwards make investigations at the chief shipping centres in Canada.

A TORONTO SUICIDE.

TORONTO, Ont., July 3.—Mrs. Adolphe Dundas, aged 25, wife of a tailor's cutter, residing at 71 Strachan avenue, committed suicide yesterday afternoon by swallowing ten grains of morphine, while at home. She died shortly afterwards without leaving any explanation of the act. That it was premeditated was apparent, for laudanum in a considerable quantity was also found in the house.



In "Semi-ready" clothes for gentlemen, you get a combination of quick-delivery methods and high-grade custom-tailoring — the good careful kind that all men like and always will like.

BERNHARDT TRIED PATIENCE OF A CROWD

152 1

Who Gathered to Do Her Honour at Vagabond Club—Kept Them Waiting 45 Minutes.

(Special to the Star.)

NEW YORK, July 3.—The correspondent of the Tribune in London says: Mme. Sarah Bernhardt subjected 400 English authors, actors and artists to a rigourous discipline yesterday. She was the chief guest at a luncheon in the large hall of the Hotel Cecil, given by the Vagabond Club. She kept the company waiting 45 minutes after time, although the wines were opened and the soup was cold. Mr. Anthony Hope stood for nearly an hour at the foot of the staircase with a wreath in his hand to crown her before the dilatory goddess appeared. A distinguished company, which included Mr. Arthur Balfour, Mme. Rejane, Carl Hentschel, Lady Jeune, the Duchess of Sutherland, Lady Colin Campbell, Mrs. Geo. Cornwallis West, the Lady Mayoress, Mr. Maurice Hewlett, and many more were forced to wait the convenience of the French genius. Her arrival was the signal for hearty applause. The King and President Loubet were toasted in silence and Mr. Anthony Hope made a poor and windy speech in honour of the French actress. Mme. Bernhardt responded in three broken sentences, which proved that she had a good deal to learn before she could play Romeo. She thanked the company for their kindness, confessed that she could not speak English and ended with the homely benediction, "All right." A large number of guests were then presented to her, including a bewildering Japanese actress, now playing at the Criterion Theatre.

BREAKING THE LORD'S DAY.

The Lord's Day Alliance After Dr. Borden and the Hamilton Kilties for Travelling on Sunday.

TORONTO, July 3.—The executive of the Lord's Day Alliance, in session, passed a resolution stating that "it had learned with deep and sincere regret of the going by special excursion on the Lord's Day of the Minister of Militia and the 48th Highlanders, representing in an important sense the Dominion of Canada, to attend the opening of the Canadian exhibit at Buffalo on the following day. The Alliance rejoices that the Government saw fit to close its exhibit on Sunday, and feels that the action of the Minister of Militia will greatly offend the Christian conscience of the Canadian people, especially at the present moment, when the integrity of our Canadian Sabbath is being so seriously assailed on every side."

KING EDWARD'S ROYAL CIPHER

Design Selected by British Sovereign for Use Throughout His Army.

King Edward VII has personally selected a design for the Royal cipher which is worn on badges, buttons and other devices throughout the army wherever the Royal cipher is at present borne. This cipher, of which an illustration is given from the London Daily Graphic, consists of "E" and

"R" impaled, with "VII" inserted in the lower loop of the "E," the whole surmounted by a crown. The design has been made plain, without foliation, at His Majesty's express wish. No decoration whatever will be permitted, and no device or ornament will be placed above or upon it. Special instructions are given as to the crown, there being in use at present some half dozen crowns of different patterns, some of them of foreign shape, or deviations differing from the British. That now be adopted and to become the sealed pattern for the army is the Tudor "Henry VII" crown, stated to have been chosen and always used by Queen Victoria personally, and all other patterns are to be abolished.

HAMILTON SHOOTING CASE.

HAMILTON, July 3. — Geo. Mills, 32 Stuart street east, retired grocer and liquor seller, was committed for trial by the Magistrate yesterday, on a charge of shooting with intent at William Clark. The men are neighbours, but have quarrelled frequently. Mills says Clark threatened to strike him and he drew the revolver in self-defence and fired twice. Clark's leg was skinned by one of the balls.

BISHOP ROGERS HONOURED.

CHATHAM, July 3.—The 50th anniversary of the ordination of the Right Rev. Bishop Rogers to the priesthood was observed Wednesday. High mass was celebrated with twenty-four priests in attendance. After the services the congregation presented Bishop Rogers with an address and a purse of $400. The priests presented a handsome gold chalice.

LIGHTNING STRUCK FISHERMEN.

ST. LOUIS, July 3.—A bolt of lightning instantly killed three men, fatally injured a boy, seriously injured a man and a boy, members of a St. Louis fishing party who had sought refuge from the fierce storm of yesterday afternoon beneath the shelter of a massive sycamore on the banks of the Dead Creek at Cahokia, Ills.

GARRISON ARTILLERY CAMP.

It Will be Held at the Island of Orleans During the Month of August.

OTTAWA, July 3.—The Garrison Artillery of the Dominion will go into camp at the Island of Orleans from August 19 to 24. The following garrisons and garrison companies will be present in camp: Cobourg, Ont.; Montreal, Que.; St. John, N. B.; and Charlottetown, P.E.I. These are all the garrison artillery regiments and companies in Canada, excepting the Victoria, B.C., garrison, and the first regiment at Halifax, which latter is now undergoing training with the Imperial forces at the artillery school at Halifax. The 5-inch howitzer and the 40 pounder will be used for the first time in the history of artillery practice in Canada. The Militia Department is seeking now-a-days to do more for the artillery arm of the service than previously. Heretofore, it has been treated more or less as a superfluous adjunct; but the way in which Canadian artillery in South Africa distinguished themselves has brought the service into greater prominence. Hence the greater attention paid to improving the shooting, and having something of a competitive system by centralizing and mobilizing the heavy gun forces of the Dominion. The ranges at Orleans might well be improved upon, as the targets float about at high water, and are used only when the tide is out.

NOTES OF THE NEWS.

W. D. Ross, of Charlottetown, has entered upon his duties as chief clerk of the Department of Finance, Ottawa.

The body of an infant was found in one of the raceways at Booth's mill, Ottawa, on Sunday. Murder is suspected.

The Liberals of North Wentworth, Ont., have chosen A. Thompson to contest the constituency at the next provincial elections.

Mr. Schreiber, Deputy Minister of Railways and Canals, has gone up to the Canadian Soo to inspect the locks and canal there.

At Quebec the heat for the last few days has been excessive, and an unusual number of deaths have occurred among children.

Arrangements have been completed for making a suitable display of the dairy products of Ontario at the Pan-American Exposition.

The Socialist Labour party of London, Ont., have decided to run Fred. J. Darch against Col. Leys at the coming bye-election for the Legislature.

The British Government has decided that the navy shall be supplied with home-grown beef wherever proper slaughtering arrangements are possible.

The semi-annual law examinations of the bar of the Province of Quebec began in Quebec on Tuesday. There are 61 students for practice, and 53 for study.

A heavy C. P. R. freight train, from Toronto, struck a turned rail near Chatsworth, Ont., on Tuesday, and eight cars were thrown down the embankment.

The Conservatives of West Lambton met and nominated Wm. Hanna, of Sarnia, as their candidate to contest the seat in the Local Legislature, now held by F. F. Pardee.

There was a damaging storm at Haverstraw, N. Y., on Tuesday. Roofs were blown off houses, trees on the public highways were blown down, and a brick yard shed was wrecked.

His Excellency has been invited by R. E. Menier, owner of the Island of Anticosti, and who is now on the Island, to visit him. His Excellency has accepted the invitation and will probably be there on July 12.

As expected, Dr. P. Delarey, the former member, and Mr. Albert Theriault, both Liberals, have been nominated to contest the Magdalen Islands for the seat in the Quebec Legislature. The voting will take place on July 22.

An attempt was made near Midland, Ont., to wreck the special train on which Mr. Tarte was travelling. An obstruction of ties and stones was piled upon the track, but it was seen by the engineer, and no damage resulted.

The Scotch iron and steel makers are preparing to send an influential deputation of manufacturers to the United States in September to study trade conditions with a view of devising means for better meeting American competition in neutral markets.

Two soldiers named Harvey and Redden, who disappeared from the R.C.R.I. barracks on Saturday night, were drowned. They went out in a sailboat and capsized. Both served in South Africa with the First Contingent. Harvey's body has been found.

Honore Bernier, the son of an Ottawa hotelkeeper, for a wager, dove from the centre span of the Inter-provincial bridge into the Ottawa River, a distance of 90 feet, and swam to the Hull shore. The only ill effects of his dive was a slight abrasion over one of his eyes.

Mr. Thomas Birkett, M.P., Ottawa, was examined for discovery on Tuesday before W. L. Scott, master in chancery, in connection with the petition of Dolor Poirier to upset his election. Mr. Aylesworth, Q.C., and J. Lorne Macdougall represented the petitioner, and Mr. R. G. Code, the respondent.

Mr. Turgeon, M.P., for Gloucester, N.B., is organizing an extensive reception at Caraquet for the vice-regal party during Their Excellencies' Maritime Province tour. Caraquet is one of the largest fishing stations on the coast and the entire fishing fleet which ordinarily sails out every Monday or Tuesday morning will remain over for the reception to the Governor-General.

Negotiations have been in progress for some time looking to the establishment of a parcel post between Canada and Mexico. It has been discovered, however, that under the United States postal regulations, closed parcels cannot enter that country, so no parcels can be allowed transmission between Canada and Mexico across the territory of Uncle Sam.

A DESTRUCTIVE STORM.

(Special to the Star.)

DIXVILLE, Que., July 3.—A terrific electrical storm passed over this vicinity yesterday, doing considerable damage. About four o'clock lightning struck the barn of Mr. Bryan, which was entirely consumed. Quite a quantity of hay and grain was destroyed. The loss is covered by insurance.

MISSISQUOI ELECTION CASE.

Petition for An Enlargement of the Delay to Fix Date of Trial Dismissed.

(Special to the Star.)

SWEETSBURG, July 3. — Proceedings were had in the Missisquoi election case on Tuesday, on a petition by the petitioner's attorney, for an enlargement of the delay to fix a day for the hearing of the case.

Proceedings were suspended during the last session of Parliament, and the six months within which the case must proceed expires shortly unless an extension is granted.

The principal ground in support of the petition was that the respondent had appealed from a judgment of the Superior Court dismissing the preliminary exception, and that if this judgment is reversed by the higher courts and the objections sustained, the election petition will then be quashed and there will be no necessity of fixing a day for the trial.

The learned judge, in rendering judgment, pointed to the law in the Election Act, which provides that an appeal from a judgment upon preliminary exceptions shall not stay proceedings in the principal action unless it is so ordered by the court rendering the judgment, and in this case there is no such order, and therefore this appeal does not constitute a ground for enlarging the delay, and the petition was dismissed with costs.

THE WRECKED ARMENIAN.

Port Wardens Condemn Vessel and Recommend Her Sale for Benefit of All Concerned.

ST. JOHN, N.B., July 3.—Diver Lahey inspected the wrecked Armenian yesterday, and found her starboard side under water stove in, some of the openings being from 5 to 25 feet.

Yesterday afternoon two port wardens examined the ship and condemned her, and recommended a sale for the benefit of all concerned. The date of sale will be fixed to-day. The vessel is still in the same position as when she struck, except that she has listed a little more.

ST. ROCH IS DIVIDED.

(Special to the Star.)

QUEBEC, July 3.—The parish of St. Roch de Quebec has been divided, and a new parish has been formed out of that part of it lying between Dorchester street and Boulevard Langelier, and reaching from the cliff to the St. Charles River. It is to be known as the parish of Notre Dame des Anges. The Rev. Eugene Roy will be the first cure, and his parish church will be that now known as the Church of the Congregation, on St. Joseph street.

FRONTENAC CONSERVATIVES.

(Special to the Star.)

KINGSTON, July 3.—On Saturday the Liberal-Conservatives of the County of Frontenac will meet in convention at the Court House to select a candidate for the coming provincial elections. Mr. John Gallagher, M.L.A., who carried the county at the last election by a large majority, will be unanimously selected to carry the standard.

CANNOT APPEAL THE CASE.

LONDON, July 3.—Leave to appeal from the recent judgment of the Supreme Court of Canada in Consumers Cordage Company and Connolly has been refused by the Privy Council.

SIR PERCY IN LONDON.

LONDON, July 3.—Sir Percy Girouard, K.C.M.G., director of South African railways, has arrived from the Cape on business. He will return about September without visiting Canada.

FED ON MILK.

Could Eat Absolutely Nothing—Kept Body and Soul Together with Milk — Dodd's Dyspepsia Tablets have worked a Wonderful Change.

Many a sufferer from Dyspepsia cannot eat the food of ordinary healthy mortals. Certain meats, certain dishes of various kinds must not be taken. "It disagrees with me," explains the victim when pressed to take some, oftentimes, quite ordinary and wholesome article of diet. "I never touch it." Pains and penalty follow if this rule is disregarded.

Dodd's Dyspepsia Tablets liberate such people from slavery, the tyranny of ailing digestion. This is their usual everyday work all over the world, and may also be taken as a matter of course, it happens so often.

But the case of Joseph J. Arbour, of Perce, Que., is greater than this. For six months Mr. Arbour could not eat a scrap of solid food. His stomach had absolutely broken down. He was literally starving. Life was kept in his body only by feeding him milk.

This man was not only saved from ... ery by Dodd's Dyspepsia Tablets. He ... saved from death by slow starvation. T... is no doubt about it. Reduced to a gl... milk a day, and digesting even tha... more and more difficulty as time w... Mr. Arbour positively could not ha... body and soul together had it not ... Dodd's Dyspepsia Tablets.

To-day Mr. Arbour's stomach c... anything in the way of food he lik... He used seven boxes of Dodd's ... Tablets. They digested the food ... stomach rested; he was able to ... nourishment; he grew strong and ... ach finally regained its power of perfect digestion.

"I cannot recommend Dodd's Dyspepsia Tablets too highly."

In cases where Dyspepsia is accompanied by Constipation, the small brown tablets included in every box of Dodd's Dyspepsia Tablets will be found of inestimable service. They act on the liver firmly but gently, stimulating that organ to do its duty, and securing a prompt, easy movement of the bowels. 154 1

In the year most women have to suffer for a week. At the best this suffering interferes with household activities and social enjoyments. At the worst it shuts the woman in a darkened room or confines her to bed. Most women can be completely cured of irregularity by the use of Dr. Pierce's Favorite Prescription. It regulates the periods, stops enfeebling drains and cures female weakness.

"All praise is due to you for your wonderful 'Favorite Prescription,'" writes Mr. John W. Coffman, Hillsburg, Casey Co., Ky. "My wife suffered with female irregularity; was confined to bed every three weeks. After using two bottles of Dr. Pierce's Favorite Prescription was cured, and has not suffered any derangement since. Your 'Favorite Prescription' is a boon for delicate women."

TRADE RELATIONS WITH THE UNITED STATES.

The importance of Canada as a market for the products of the United States is fully recognized by the boards of trade over the border, and other bodies of thoughtful men in touch with the business feeling, and having knowledge of the facts bearing on the commerce of the country. In proportion to our population we give the United States the best market in the world. Even without regard to population, Canada, as we have before pointed out, is the largest purchaser of United States goods in the world, outside Great Britain and Germany.

We buy more of the goods manufactured by our neighbours and the products of their farms than the whole continent of South America; more than all of Asia and Africa put together; more than three or four European countries combined. Yet the fact remains that the ambition of the great mass of the unthinking people of the neighbouring Republic is to cultivate the friendship of the other foreign markets, and treat with indifference the best they have, right next door to them.

The prospects of reciprocal trade relations of an improved character between Canada and the United States, which were long regarded as so essential to our prosperity, are becoming more and more remote. Fortunately, the commercial unfriendliness of the ruling powers of the United States has been continued so long that our people have grown accustomed to it, and are fast learning those lessons of self reliance which are so necessary to true national progress and lasting prosperity.

The signs now point to the improbability of the negotiations for improving relations between this country and that adjoining being renewed. At least we must agree with our friends of the Boston Transcript, that the mind of the Canadian public is decidedly being prepared for an early announcement of failure. The condition of public feeling in Canada is pretty accurately guaged by the Transcript in its editorial of Monday, "Canada's last offer." We are discovering that we can do for ourselves much that we formerly paid our neighbours to do for us, and we are finding in other lands a market for much that we could have profitably sold next door if the tariff had not shut us out. The Transcript attributes much of this to the Dingley tariff and says wherein it has worked harm to some United States industries. As for instance to the business in dressed lumber, where the Canadian tariff, made as it is assumed in consequence of the Dingley tariff, has compelled manufacturers to move to this side of the line.

"There seems to be a widespread impression that the Canadians have already done this in many lines of trade. The lumber industry is the only American industry yet affected by tariff changes. There have been some tariff concessions to British imports, but there has as yet been no increase of duty on the imports from the United States. That may come as the protectionist sentiment in Canada grows stronger and stronger, but it has not yet come about. The tariff changes on almost all imports from the United States have remained entirely unchanged. The Dingley tariff, which at first seemed a great calamity to Canadians, is now regarded as a stimulus which will force the people to start and to maintain great home industries to protect the interests of the national currency system and to preserve their financial prosperity.

"The argument of the new protectionist school of Canada is simple and exact. If Canada can sell so little to the United States and must buy so much from that quarter (for Canada is the largest importer of American products, per capita, in the outside world), it will be merely a matter of time until Canada is drained of all her available gold, and a financial crisis must follow. In order to avert such a catastrophe in the future, Canada must act soon, and the sooner the better for Canada. One may pick flaws in this argument, but the fact remains that it appeals not only to the voters in the old Conservative party but also to many of the Canadian Liberals. Its strength is candidly admitted by some of the foremost Liberal leaders in Canada. The latter say frankly that no reciprocal trade treaty can be negotiated with the United States, the Liberal party must make some concessions to this protectionist public sentiment or give way to a change of government. The very fact that Canada has been so good a market for the United States in late years is, they think, a sufficient reason for some timely effort on the part of Americans to give some help to the Laurier Government's attempt to negotiate a permanent settlement of the trade and boundary disputes; for the disputes must be settled by some lasting agreement if they are to be settled at all."

Our Boston contemporary is, however, of the opinion that the facts are fully appreciated by President McKinley and that he will try to push the treaty idea farther than it has yet been developed. But there is admittedly a not particularly friendly Senate, and the question it seems will be whether the "public will side with the Republican and Protectionist President, or with the rebellious Senate." Perhaps, if the Senate should triumph, it may not be an unmixed evil for Canada, as it will settle things as far as we are concerned for a generation, probably, and the settlement may be the best thing for us.

The close approach of the "Glorious Fourth" leads the Boston Herald to long for what it calls a boon to distressed humanity—a noiseless firecracker. A Boston paper ought to know better than this. The demand of the age, for those who wish to combine a certain amount of safety with an unlimited amount of glorification, is not for the noiseless firecracker, but for the firecrackerless noise.

In view of the fact that the charming little "Garden of the Gulf," Prince Edward Island, has been part of the Dominion of Canada for close upon thirty years, it almost seems as though those who get up her steamboat and railway time tables might recognize the boundaries of Canada. It does not help the tourist in his geography to read on the Island that he can make "connection at Moncton with train for Canada and N.B., at St. John with C.P.R. and railway for U. S. and Canada," etc.

The awful fatality of the past few days' heat in New York shows us how much we have to be thankful for in our climate. Our worst of the hot wave, after all, has been accompanied by a pleasant breeze, and the heat has not been marked by the prostrating humidity of New York. Then our evenings are always moderate and delightful. It is the communities where long days of fierce heat are followed by hot and stifling nights, which look upon the summers with dread.

In Boston the city authorities are making themselves beloved just now by running free icewater fountains in all public places. It almost saves the lives of many people and keeps others from seeking iced beverages, which are like the frolicsome honey bee, in that they have a hot sting in the end. In Montreal such an advance as furnishing gratuitous ice water would make the people afraid that some awful crime must be contemplated by the powers that be, but it would not be a bad idea to have baseball masks hung across the openings of such drinking fountains as we have that the larger sized animals might be prevented from getting out and biting rash users of raw water.

UNIFICATION BILL CAUSES MUCH DISUNION.

Buenos Ayreans Indulge in a Riot Over the Argentine Government's Debt Conversion Scheme—The Bill Will Probably Carry.

NEW YORK, July 3.—Rioting has occurred in Buenos Ayres, a Herald despatch says, because of the bill for the unification of the Argentine debt. Several persons were wounded.

Many students made a demonstration against the unification plan, and Dr. Jose Terry, a former Minister of Finance, in a lecture to show the disastrous consequences that the acceptance of the bill would entail upon the country, declared that the unification scheme might bring about the interference of the powers. At the close of the lecture persons who had been in the audience paraded the streets and made a hostile demonstration. They broke the windows of the offices of La Tribuna and El Pais, newspapers, which are supporting the bill. The police charged upon them and several were wounded.

Congress will receive to-morrow a memorial signed by thousands of citizens, petitioning that the Unification Bill be not passed. The acceptance of the bill, however, is very possible, as the Government has a large majority in Congress.

DEATHS REPORTED

To the Star To-day.

ST. JOHN, N.B.—Rev. James Bennet, D. D., died after a long illness. He was born in Ireland and came here as pastor of St. John Presbyterian Church in the early fifties. He leaves two sons, F. G. THE PASSING HOUR.

BLIGGERSON'S DEGREE.

Thomas Henry Bliggerson
Longed for a degree.
"Like to sign
This name of mine
With a tail of LL. D.,"
Said he,
"Or a Ph. D., or a plain A. B.,
Or any old letters would give me glee."
And he gave away
All his cash one day
To a school and a college and a library.

Thomas Henry Bliggerson
Looked for his degree—
Watched the mail
Till hope would fail,
For a note to give him glee.
You see,
He fully expected he would be
At once created an X. Y. Z.,
Or an LL. D.,
Or a plain A. B.;
But the poor man wasn't even 1-2-3.

Thomas Henry Bliggerson
Now has his degree.
Each thing sent
His establishment
Bears mystic letters three.
You see,
There was no more cash in his treasury,
And he went down into bankruptcy,
So the credit men,
With a large fat pen,
Write "T. H. Bliggerson, C.O.D."

NOT THAT KIND OF A RANCH.

Fanny Fields has toured through California and vouches for the truth of the following incident.

A German, who was driving through a large Californian cabbage farm, met with an accident to his waggon; one of the wheels came off, so he walked to the nearest house and knocked at the door, which was opened by a negro.

"I vant," said the German, "I vant—yes, is it—a monkey wrench?"

"Naw, gitta long!" exclaimed the coon. "Dis ain't no monkey rench; dis yah is a cabbage rench!"

THE DUST OF AN EARTHY TO-DAY.

There was a time when the people of the Island of Montreal could point with pride to the roads controlled by the Turnpike Trust. Now-a-days, when a grateful Islander speaks of the Trust or of the roads he speaks in a voice choked with emotion and dust. There is a project to take up a section of one of the roads and send it to the Pan-Am. as a specimen of what a road ought not to be. The summer pleasure traffic would be ten-fold what it is and the revenue of the Trust greatly increased if there were two inches less dust on the roads.

THE FLAGS AT BUFFALO.

"Flag incidents" are beginning to lose the element of novelty. The latest is a yarn from Buffalo to the effect that the directors of the Ethnological Building has pulled down twenty-four British flags placed over an Ontario provincial exhibit. Pending further information the story had better be received with a grain of salt. There is no bigger fool than the fool who tries to get cheap glory by pulling down or insulting flags. And we have no reason to believe the Pan-American authorities would put in a responsible position a chump who would be likely to go out of his way to insult people whom they expect to patronize the exhibition by hundreds of thousands.

CHURCH AND STAGE.

Mrs. Brown Potter, gowned in white and wearing a picture hat, recited from the chancel of the Gorleston Church, near Yarmouth, England, after evensong, Pope's "Vital Spark of Heavenly Flame," and another poem, "The Queen's Last Ride," delivering both to organ and choral accompaniment. She recited on the invitation of the vicar, the Rev. Forbes Phillips, who writes plays under the nom de plume "Athol Forbes," and who is now writing a piece for Mrs. Brown Potter.

The Chicago Journal says: The clergyman who introduced Mrs. Potter to his congregation said he believed that the stage is a greater moral power than the pulpit. Of course it is. See what it has done for Mrs. Potter.

SNAP SHOTS.

The answer to the literary enigma, What made Daniel Deaf-oh? is, of course, to be found in the fact that Robinson Crew so.

The reason so much doggerel is written is said to be that a poetic license costs so much and the bards do the best they can with a dog license.

"John, how dare you come home at 1 o'clock in the morning?"

"W-w-w-h-y, Mary, you can't 'spect me t' stay out all night on dollar'n forty cents."

We cannot undertake to name the most popular commentators of the present century, but the "Early Purple" and Ashleaf Kidney are among the most common 'tators and are presumably popular.

Nothing definite is known about the honours to be conferred by the Duke of Cornwall and York, but it is almost certain that H. R. H. will make Pares Hope a Companion of the Bath.

SOMETHING TO A DOOR.

"One lock," the lover cried,
"One tress I would implore
Something near my heart to hide
Something to adore."

THE KING'S ENGLISH.

The Candid Friend, of London, says the King, the Queen and the Duke of Cornwall all speak with a marked German accent, and quotes a young English girl as saying that "After all the Kaiser is the only member of the Royal Family who can really speak English."

A HAMILTON MAN IN COLD STORAGE.

It was a Hamilton hotelkeeper who shut himself up in his own refrigerator to find out if the door fitted tightly. He had the satisfaction of finding out that the door fitted so tightly that it took him twenty minutes to break out. Twenty minutes in a refrigerator sounds rather better this weather than it really is.

PENNY A PINT.

Lord Stanley made the gratifying announcement to the House of Commons that a pint of good beer for one penny, is provided on the transports for the returning soldiers. If the Government would make the same provision for Britons on shore as for British troops afloat, what a cry it would be to go to the country with.

THE KING AND SIR THOMAS.

There's a good story going the rounds about the King and Sir Thomas Lipton. Of course, it is an invention; but it is funny, and the joke carries no sting. It is represented that the King, after he had distributed the medals to the South African soldiers, said something to Sir Thomas about the new orders which would come by-and-bye to those whom he intended to honour; and "an order may come your way," said His Majesty—so goes the story—to Sir Thomas. "It shall be promptly attended to," is the alleged reply of the great merchant.

A BLOT ON THE LANDSCAPE.

An esteemed contemporary refers to the man who roams the streets of Montreal and other cities with a handkerchief tucked inside his collar as "a blot on the landscape." This is putting it rather strongly. Granted that the arrangement is not a thing of beauty, but perhaps it is not as uncomfortable as it looks. Then it saves a lot of hot weather remarks. It is a signal which says to every passer-by, "The weather is hot," and "I am fat." It may not be necessary, or even desirable, to have these things emphasized, but then we are not obliged to return to signals.

WHAT THE WORKMAN WONDERED.

In connection with the C.P.R. strike a good story is told at the expense of one of the men at St. Eugene.

Mr. C. W. Spencer, the superintendent of the Eastern division, was persuading this man to return to work. He hesitated long and then replied:

"I would for go for work me, but I'm afraid for my life."

Mr. Spencer replied: "Well, my man, what good is your life to you if you are starving?"

Quick as a flash the workman replied: "Dats all very well, but for what good my life for me when I'm dead?"

The superintendent gave him up.

THE WAR SITUATION IN SOUTH AFRICA.

The Invasion of Cape Colony is a Fiasco—Hertzig Wishes to Surrender, But Beyers Still Holds An Impregnable Position.

LONDON, July 3.—The Daily Mail's correspondent reports from Kroonstadt as follows upon the war situation:

The projected renewed invasion of Cape Colony was a fiasco, owing to the unwillingness of the Boer leaders to risk similar treatment to that of DeWet. Hertzog is in disgrace owing to expressing a wish to surrender, and it is reported that he has been relieved of his command.

The military situation is as follows: Commandant Beyers, one of the most dangerous of the Boer leaders, is laagered still at Zand River Poort, two attempts to dislodge him from which resulted in little more than the capture of a few prisoners and some stock. Colonels Grenfell, McMicking, Wilson and Colenbrander were engaged. Zand River Poort is thirty miles northwest of Warmbaths, and the laager is situated in the centre of a deep kloof, which is almost impregnable.

In the western Transvaal there has been a concentration of columns. In the northeast of Orange River Colony, the columns under General Elliot, comprising Colonels Lowe, De Lisle and Bethune, had sharp fighting with portions of De Wet's, Delarey's and Roo's burghers, capturing 45 prisoners and 71 waggons, and bringing in a number of Boer families, including the wife of Delarey. The prisoners, unlike their comrade in the western Transvaal, are miserably dressed, and in a deplorable condition. One man was reduced to wearing a woman's skirt.

West of Edenburg, General Bruce Hamilton's sweep was very effective. A number of burghers surrender daily. An officer informs me that he has never seen the Boers so ready to surrender on the slightest excuse.

THE WAR IN PARLIAMENT.

LONDON, July 3.—Replying to Mr. Black in the House of Commons, Mr. Chamberlain said: "B.-P.'s" Police were available in any part of South Africa. When the force was reduced to 6,000 after the war was over, the Imperial Government would be relieved of its share of the cost.

Answering Mr. Lewis, Mr. Brodrick said that the position of any new corps of concentration must be determined by Lord Kitchener. Cases of women separated from their children would be treated with all possible consideration.

"A pint of good beer for one penny," announced Lord Stanley, in answer to Mr. Llewellyn, "is provided for soldiers on transports returning from South Africa."

STRICT CENSORSHIP.

LONDON, July 3.—The reason that so little war news comes from South Africa is explained in a despatch from the Daily Mail's correspondent at Johannesburg. He says: In consequence of the exaggeration of the importance of engagements in the home papers, in future the length of correspondents' cables must be in proportion to the importance of the action. The censoring of despatches is becoming stricter generally.

MORE LOOTING.

CAPE TOWN, July 3.—The Boer invaders of Cape Colony, after passing between Yellow Woods and Fort Beaufort, separated, one commando proceeding to Blinkwater, where it looted the Winterberg Hotel. It is now hovering about the vicinity of Piet Relief, collecting horses and foraging generally.

HIGH WIND AT SING SING.

NEW YORK, July 3.—A tornado struck the shores of the Hudson river, near Ossining, yesterday afternoon, cutting a path two miles or more long and several hundred feet wide. It struck the village of Ossining and all along its course trees were uprooted, buildings unroofed and windows blown in. Almost every window on the water side of Sing Sing prison was blown in and the roofs were blown from the administration building and the bake-shop.

NOMINATION AT LONDON.

LONDON, Ont., July 3.—The nomination of Col. F. B. Leys and F. J. Darch, yesterday, to contest London at the provincial by-election of July 9 was the most quiet affair of the kind that ever took place in the city. The nomination was as informal as an official occurrence could well be. There were not more than fifty electors in the chamber. The polling takes place next Tuesday.

PUBLIC OPINION

As Represented by the Political Papers.

MR. TARTE'S TOUR.

(Hamilton Spectator, Cons.)

"They may say what they like about Mr. Tarte; but there have been few Ministers of public works who took so much interest in their work as to brave the dangers and discomforts of a long canoe voyage in order to get personal and accurate knowledge of what is needed."—Hamilton Herald.

Dangers! Discomforts! Dangers and discomforts of a midsummer picnic. What more delightful in this world than to glide along a cool river with men to do the paddling, portaging, cooking, tent work — everything. What more appetizing than an outing of that sort, with the finest fish in the world fresh from the water into the pan, supplemented with every conceivable food and drink that Mr. Tarte's Paris education could suggest. What more resting than a sleep in the cool, resin-laden air of the northern woods, carefully protected from insects by elaborate nettings? And what more invigorating than the beginning of a new day with a plunge in the cool, clear, clean water of the flowing river! Dangers! Discomforts! Many a man would be glad to pay a high price for the privilege of such dangers and discomforts.

CANADA NOT FOR SALE.

(Halifax Chronicle, Lib.)

Canadian loyalty and Canadian nationality are not in the market. They are not in the question of reciprocity. They are not in question in any way. Neither concessions nor coercion would affect them. The United States are just as likely to re-enter the British Empire as Canada is to become a part of the United States. The very strongest passion in the average Canadian's breast is attachment to his British nationality and institutions.

What material advantages could ever repay Canadians for the sacrifice of their self-respect which would necessarily be involved in the desertion of their own and their father's flag for that of another country, however worthy and admirable, in itself, that other country may be? To speak of annexation to Canadians is to gratuitously and outrageously insult them. Will our amiable but rather too self-centred neighbours kindly make an effort to get this idea into their heads. We should like them ever-so-much better if they could and would.

POLITICAL PATRONAGE.

(Calgary Herald, Cons.)

It seems that civil servants are not yet safe from the spoilsmen. A. L. Lunan, who has been governor of Regina gaol for over 15 years has been dismissed and Wm. McIvor, a very worthy man, but a partisan Liberal, has been appointed in his place. As long as this sort of thing continues the government will not get efficient service. No civil servant can be sure of his position. The man who gets advancement is the one who neglects his duties for political intrigue. The life of a servant of the government under this system is passed in fear and trembling and as a consequence good men do not care to accept positions. The party that comes out strongly in favour of the abolition of the present system of political patronage is the party that is going to win the confidence of the people.

CANADA AND THE STATES.

(Hamilton Times, Liberal.)

The policy of our Governments, local and federal, is to develop our country's resources, and it is succeeding well. If you wish to come over and be with us, you may invest your money and share in the gains. We tried long and patiently to convince you that it would pay you to play fair and treat us as neighbours; now we've quit trying and leave you to learn by observation what your selfish policy has lost. But in any dealings please bear in mind that we make the terms hereafter. The resources are ours, and they're considerable. Doubtless you didn't realize their importance before, and we don't wonder; many Canadians didn't.

Rev. E. Wood in the pulpit of S. John the Evangelist Church, gives his promised explanation and refutation of the charges against him of being a ritualist. A tract setting forth the belief of the Ritualists had been received and the charge made that it had been widely circulated. This he denied. He also repudiated the belief set forth in the tract and expressed the opinion that the action of the Bishop in passing a severe sentence upon a clergyman of that church (S. John's) was strange and quite unprecedented. There had been no formal charge made against the clergyman and no enquiry instituted, nor was he ever called upon for explanation or defence of any accusation. This was contrary to civil and ecclesiastical law and excited the deep regret and sorrow of well-wishers of the Church of every shade of opinion. Rev. Mr. Wood said if he himself subscribed to the doctrines set forth in the tract, he would immediately cease to be a member or minister of the Church of England.

FISH POACHING ON THE SAGUENAY.

THE POACHERS ARE BECOMING VERY DARING.

The Authorities are Determined to Suppress the Illegal Fishing, and Dangerous Conbicts Between the Poachers and Fish Wardens—More Stringent Measures to be Taken.

(Special to the Star.)

QUEBEC, July 3.—Masked poachers have been giving the provincial authorities a vast amount of trouble in the Saguenay, and one or two dangerous conflicts have already taken place betewen them and the fish wardens of the district. They even went so far as to upset a canoe containing two of the wardens, but fortunately failed to drown them. On another occasion, they threatened to use their guns upon the officers of the law. The opposition to the authorities is now a thoroughly organized one; but heroic measures will, if necessary, be taken to crush it. Mr. Caron, the Mayor of Tadoussac, was in town yesterday and conferred with the authorities of the Fish and Game Department on the subject.

Since the Province took over the charge of the fisheries, in accordance with the judgment of the Privy Council, it has followed the practice observed by the federal authorities for many years past, of refusing to issue licenses for netting salmon in the Saguenay, on the ground that such a system of fishing would ruin the splendid salmon streams tributary to that river, such as the St. Jean and the Mars, which yield an anual rental of $600.00 a year, and the St. Marguerite which yields nearly as much. Under the federal management of the fisheries, loud complaints were made of the work of poachers in the Saguenay, and the lessee of the Little Saguenay, Mr. Gawtryi of New York, threw up his lease in consequence of the havoc they were working. The provincial authorities, last year, made an arrangement with the Ste. Marguerite Salmon Club, by which they agreed to pay four guardians to prevent netting between Tadoussac and the mouth of the Ste. Marguerite River, providing the club would do the same. The proposition was accepted and acted upon, some of the poachers were arrested, but leniently dealt with, being let off on payment of the costs, and a number of nets were seized. They were stolen, however, where they had been left out to dry, presumedly by the poachers, and this year the poaching has been carried on more vigourously than ever, a powerful opposition having been organized to combat the efforts of the officials. The poachers have provided themselves with masks to conceal their identity, and with firearms to overawe any who might attempt to interfere with them in their lawless operations. Some of them live in the vicinity of Tadoussac, while others come from St. Alexis and the vicinity of Ha! Ha! Bay. They have been selling their fish at the latter place at five cents per pound. Their habit is to set their nets at night in some of the bays of the Saguenay and conceal themselves in the woods. The guardians recently seized some twenty-six nets which they found in the river, though resistance was offered them. They also secured a couple of canoes and succeded in unmasking nine of the poachers, for whose arrest warrants have been issued. Judge Angers, accompanied by Mr. L. Z. Joncas and a couple of officers of the law, will leave to-morrow for Tadoussac to try the chagres against the accused, and if convictions are secured, no leniency will be shown the guilty parties.

As an illustration of the difficulties with which the authorities of the Fish and Game Department have to contend in the execution of the laws, a good story is current here. A member of the Legislature applied to the department some time ago for the appointment of a couple of his political friends as fish and game wardens in his county. His recommendation was acted upon, and full instructions were sent the new officials from the department, in accordance with which a number of parties were arrested and prosecuted for violation of the game laws. They proved to be also friends of the member, who hastened to Quebec to ascertain why his friends were thus interfered with. Of course he was told that they had been duly proceeded against in conformity with the reports made against them by the officials of his own selection. With apparent surprise at what had occurred, the deputy declared that he had asked for the appointment of the wardens to protect his friends from prosecution and not to prosecute them. Mr. Parent, of course, immediately cancelled the appointment that had been recommended for such an avowedly illegal purpose.

TUBERCULOSIS CONFERENCE.

Two Canadian Delegates Appointed to Attend the Gathering Called by His Majesty the King.

OTTAWA, July 3.—Dr. Montizambert, Director-General of Public Health, and Dr. McEachran, chief veterinary inspector for the Dominion, have been delegated by the Government to attend the conference called by the King to be held in London on July 22nd, to consider the question of prevention and cure of tuberculosis.

ASHMEAD BARTLETT'S DEBTS.

LONDON, July 3. — At an adjourned meeting of the creditors of Sir Ellis Ashmead-Bartlett, against whom a receiving order was made May 21, it transpired that his brother, William L. Ashmead-Bartlett Burdet-Coutts, had proposed to provide the funds to pay a composition of 7 shillings 6 pence in the pound. The accounts filed show the bankrupt's debts to be £83,214 and assets £27,485.

STARTS FOR NORTH POLE.

LONDON, July 3. — Evelyn D. Baldwin, of the Boldwin-Ziegler Arctic expedition, left London last night for Hamburg. He expects to reach Christiania July 5, and there to take the Bolgica, arriving at Tromsoe, Norway, July 10.

RIOTOUS SCENE IN HOUSE.

BRUSSELS, July 3.—There was a riotous scene between the Socialists and Ministerialists in the Chamber of Representatives yesterday. It was provoked by a Socialist interpellation over the recent speech of the General in command of the Civil Guard, who is reported to have told his men in case of a riot to fire on the mob. M. Poiullo, a Socialist, promised in case of a riot occurring to kill the General in question. "Liar" and "Assassin" were among the epithets hurled at the Ministerialists. The House ultimately approved the Government's position in the matter.

HE DID NOT WANT TO BE AN ICEMAN.

Thomas Powers Has a Hot Time in a Refrigerator—He is Locked in for 40 Minutes and Faints on Coming Out.

HAMILTON, Ont., July 3. — Thomas Powers, the proprietor of the Mansion Hotel, came near losing his life by accidentally locking himself in a big refrigerator in the cellar of his hotel. The refrigerator was a new one, holding nearly a ton of ice, he went inside to see if the door fitted tightly. Thoughtlessly he pulled the door close after him, and a spring lock fastened it. He kicked on the door for a long time, but no one heard him. Finally he got an oak strip in front of the ice box and pounded the door. He felt himself becoming weaker, but he renewed his efforts, and finally forced open the door, which is 14 inches thick. He fell in a faint and did not recover for several hours. He was in the refrigerator about 40 minutes.

REV. BYRON SUNDERLAND DEAD

He Had Been Chaplain of the Senate and Was President Cleveland's Pastor.

NEW YORK, July 3.—The Rev. Dr. Byron Sunderland died at Catskill, N. Y. He was born in Shoreham, Addison sounty, Vt., November 22, 1819. He came from Revolutionary stock, both his grandfathers having been soldiers in that war. His mother belonged to the New England family of Walcotts. After graduating from Middlebury College in 1838, he entered the Union Theological Seminary, New York City, and was graduated in 1843. He served as pastor of the Presbyterian Church, in Batavia, N. Y., until 1851, when he was called to the Park Presbyterian Church, Syracuse, but before he took his pastorate he was called to Washington in February, 1853, and served until 1898, since which time he has been pastor emeritus. He acted as chaplain of the Senate from 1861 to 1864, and from 1873 to 1879, and was in charge of the American chapel in Paris for about a year in 1864-65.

The day before the Emancipation proclamation was signed he visited President Lincoln and urged him to sign it. Dr. Sunderland was President Cleveland's pastour and performed the marriage ceremony between the President and Miss Folsom, and baptized their children.

CONSUL'S LIFE IN DANGER.

Fear of the Paterson "Reds" Will Cause Italy's Representatives in New York to Leave.

NEW YORK, July 3.—The World says: As a result of the many threats against his life by anarchists an indefinite leave of absence has been granted Giovanni Branchi, the Italian Consul-General in this city. It is said that he has gone back to Italy, where he will remain until the Paterson "reds" are less active. For weeks before he left the Consul employed a body guard and kept his place of residence a secret. His personal mail was received at the Lotus Club, but he was seldom seen there, and sent a messenger daily to get his letters. The Italian Consulate is left in charge of the vice-consul, and is carefully guarded. All visitors are closely inspected and questioned as to their business in an outer office. Only those who satisfy the inquisitor that their business is of a legitimate character are admitted to the presence of the acting consul. He, to, it is alleged, has recently changed his residence, keeping his present abode secret. It was the activity of Consul-General Branchi in exposing the plot to kill King Humbert that turned on him the hatred of the anarchists.

ORDAINED TO PRIESTHOOD.

(Special to the Star..)

QUEBEC, July 3.—The Lord Bishop of Quebec ordained four young clergymen on Sunday, to the priesthood, in the Cathedral, namely, Rev. J. K. Taunar, who is working in Megantic under Rev. W. J. Falconer; Rev. F. G. Le Gallais, who has been working in Labrador, with the Rev. C. P. Pye, making his headquarters at Mutton Bay; Rev. Phillip Callais, who goes to the St. Maurice mission; and Rev. C. W. Balfour, nephew of Rev. A. J. Balfour, rector of St. Peters Church, Quebec, who has been appointed assistant at Sherbrooke. The new priests are all graduates of Bishop's College, Lennoxville, and were presented by the Vice-Principal, and Professor of Divinity, Rev. Dr. Allnatt, who also preached the sermon.

BANKS FOR THE SCHOOLS.

OTTAWA, July 3.—It is learned that satisfactory banking arrangements can be made by the Public School Board in connection wtih the proposed savings banks in the Ottawa schools. One of the local banks has offered to take charge of the deposits and pay interest to all depositors no matter how much or little they may deposit. If the School Board decides to authorize the establishment of the banks there will be one in each school, and once a week the principals of the schools will send the money to the banks, and every month each pupil who is a depositor will get a statement about his account.

PREMIER FARQUHARSON'S TRIP.

(Special to the Star.)

WINNIPEG, Man., July 3.—Premier Farquharson, of Prince Edward Island, arrived in the city yesterday, accompanied by Mrs. Farquharson, on a pleasure trip to Vancouver and return via the United States. When questioned regarding his political intention the Premier informed your correspondent that he had decided to resign and contest the seat which will shortly be left vacant by Sir Louis Davies, Minister of Marine.

The prohibition act, passed by his Government, he said, was working well.

SEVENTH NATIONAL BANK.

WASHINGTON, July 3.—Comptroller Dawes yesterday sent the following telegram to Forest Raynor, receiver of the Seventh National Bank, New York:

"Confirming my telephone to you to-day, if, after a careful and complete examination of the books of the Seventh National Bank, you find no evidence of criminal violations of the National Banking Act, you will ask the United States District Attorney to make a thorough investigation on his own account, affording him access to the books of the bank for that purpose."

MORE EASTERN OUTRAGES.

BELGRADE, Servia, July 3.—Albanian and Turkish troops are again pillaging and outraging Servian villages of Sandjak and Novi Bazaar, under the pretence that they are searching for concealed arms.

CONSTANTINOPLE, July 3.—Reports from Mush in Kurdistan, say that the Kurds are plundering villages and have killed 14 Armenians, in consequence of the belief that the latter murdered a Kurdish notable who was sheriff of Aghan.

FAMOUS ENGINEER DEAD.

(Special to the Star.)

NEW YORK, N.Y., July 3.—Jacob S. Rogers, of the Rogers Locomotive Works at Paterson, N.J., and one of the most famous builders of engines in the world, was found dead in his room at the Union League Club. Death probably was caused by the effects of the heat.

THE NEW OXYGEN TREATMENT.

Maybe you read the other day an account of an "Oxygen Hospital," and the manner in which scientific men are applying this element to the cure of disease. Medical men are beginning to understand that we can do a lot of things with oxygen besides breathe it.

Powley's Liquified Ozone is demonstrating every day the many different applications oxygen can be made use of in relieving disease.

In treating stomach disorders, dyspepsia, dysentery, catarrh, and other summer ailments Powley's Liquified Ozone is invaluable. It can be made a most refreshing beverage, and it prevents other and more serious disorders by keeping the system healthy.

John Small, Esq., Collector of Customs for the port of Toronto, has given us permission to refer enquiries to him as to the value of Powley's Liquified Ozone in curing stomach and summer ailments.

You should experience the cooling effect of drinking diluted Ozone whenever you feel hot and cross. It quenches your thirst.

Powley's Liquified Ozone is oxygen in stable form. You use it externally or internally. It forms healthy flesh and makes a sound system.

Its use has cured many cases of consumption, Bright's disease of the kidneys, rheumatism, stomach disorders and catarrh. Its effect is just what you would expect of oxygen.

50c bottles of Powley's Liquified Ozone are given away every Friday from 10 a.m. to 4 p.m. to any person afflicted with any chronic disease.

CHAPTER III.—(Continued.)

Nora had won Stanchion's heart, far away in England, on the very first night when her great soft eyes had offered him sympathy; and though he still looked down from a superior height upon the stage as a profession, he made an exception in her favour, just as he did in his master's, saying to himself that only by an accident had these two become actress and actor. Stanchion did not like Lilith Raphael, but D'Arcy's friendship with Nora had his august approval; and now he ambled along at a distance, purposely keeping out of earshot.

Suddenly, however, the tones of the couple walking ahead grew louder. He heard them utter the name of "Louis Van Wyck," and almost unconsciously pricked up his ears; for he knew what part the millionaire had played in D'Arcy's downfall. Before he realized that he had actually been guilty of eavesdropping, Stanchion had drunk in the information that Van Wyck was in Johannesburg, had been to the theatre, and was stopping at the Grand National Hotel, where the "Charity Ball" company were now engaged in supping with him.

"The carrion!" Stanchion muttered beneath his breath. "So he's done Miss Nora an ill turn of some sort, too! This is his country, the cowardly dog, and here we all are in it. I wonder if he's had a hand, somehow, in fetchin' the company to this God-forsaken Transvaal? 'Twould be like the sly ways of him. Some folks say there's war brewin'. We'd be in a nice fix if it should break out one day, and the lot of us seven or eight thousand miles from home! Perhaps that's what the scoundrel's thinkin' of, for some purpose of his own."

Stanchion became more and more reflective. If D'Arcy had still been in his old position, and he himself had not left the service, the word "war" would have sounded like music in his ears; but in present circumstances the strange fancies which began to buzz in his head were wholly disagreeable.

D'Arcy said good night to Nora at the door of the house where she was staying, and then called Stanchion to his side: but Stanchion was unusually taciturn. When, a little later, he had made his master as comfortable as surroundings permitted in their temporary home, he did not go to his own room, but walked out again, finding his way at last to the neighbourhood of the Grand National Hotel.

There had been no definite intention in his mind in going there. He had merely been drawn towards the place by the fascination of his hate for the man who had ruined his hero; for hate can be as compelling in its influence as love.

As Stanchion came near to the hotel, he saw that the actors and actresses were leaving. Van Wyck himself had come to the door to see them off, or, more particularly, it appeared, to see Miss Raphael off. She was with Mrs. and Mrs. Patmore, and the millionaire bade her good-bye with empressement. Stanchion, hovering in the distance and darkness, saw it all in the lights at the door of the hotel.

When every one had gone, instead of returning to the house, Van Wyck put on the hat he had had in his hand, and began walking slowly down the street towards Stanchion's hiding-place.

"If I thought he meant more mischief," the ex-soldier said to himself, "hang me if I wouldn't——"

He did not finish his sentence, but his hands clenched together, and there was a light in his eyes very different from that which never failed to kindle there for D'Arcy.

As the words framed themselves in his mind, a man came hurriedly out of the hotel, looking up and down the street, and finally, catching sight of Van Dyk's gigantic figure, hastily followed it.

"Mr. Van Wyck!" exclaimed an obsequious voice; and the millionaire turned to find the newcomer at his shoulder. By this time the two were very close to Stanchion, who stood still in the shadow of a deep doorway.

"Another telegram, sir," said the man who had followed. "I opened it also, according to your instructions, and, as no answer was required, I didn't interrupt you in the presence of your guests.

"From Pretoria again or Lourenco Marques?"

"Lourenco Marques. The ship's in, sir, and cargo complete. That's all. But I thought you'd be glad to know without further delay."

"You thought right," said Van Wyck. Then, in a different tone: "Half a million of money, and a ship load of guns from my own factory. They'll call me a patriot, Synman, when they know."

"And it will be the truth, sir!"

"Perhaps. You think I am paying a big price for the compliment eh, Synman?"

"You can afford the price, sir. You are one of the richest men in the world. Were it not for what you have done, and are doing, President Kruger's difficulties would be trebled. It might be that the Transvaal would have to lie still, like a whipped dog, under England's lash. Ah, sir, if the world hears of your generosity, your name will live in the history of days about to come!"

"The world is not to hear, Snyman," said Van Wyck. "I don't want my name to live in history. I only want one thing. That thing I've moved heaven and earth to get, and now I think it's mine!"

CHAPTER IV.
THE MILLIONAIRE'S MOTOR.

Nora Anson was reading a letter. It was from D'Arcy, and had been sent with a bunch of white arums—"pig lilies," as they call them in South Africa. He asked if he might come and see her for a few moments in the afternoon. He confessed to being in a miserable, restless mood, and he felt that, if he could talk to her, it would do him all the good in the world.

The girl sat at a little writing-table by the shaded window and was just about to begin a note, bidding her friend to call, when ringed fingers tapped smartly on the door.

"May I come in?" inquired Mrs. Patmore's voice.

Nora jumped up and ran towards the door, blushing as if she had been caught in some nefarious act.

"My dear, I've rushed in in an awful hurry to ask if you'll do me a tremendous favour!" breathlessly announced the manager's wife. "You know that Lilith had promised to recite at a bazaar this afternoon? You didn't? Well, it's at the Esselsteyns', those very decent Boers who've been, so nice to Monty and me since the company came here, despite all the war rumours. They've a bazaar at their house for the benefit of a local charity. Lil was to have recited something or other, but she's got a sick headache and vows she can't go. Will you be a little angel, and take her place?"

Nora's heart sank. She glanced at the flowers and D'Arcy's open letter lying on the writing-table, beside the sheet of paper and envelope she had just laid out. She hated reciting, and she and Lilith Raphael were hardly friends. It was scarcely fair that she should be sacrificed for Lilith, who was utterly selfish, and had never been known to give up her own way for anyone. But, after all, this wasn't for Lilith. And even if it were, just because they were not friends it was "noblesse oblige" to grant the favour.

Perhaps Nora's hesitation partly arose from an odd sort of presentiment which strove to hold her back. But she thought it was her desire to see D'Arcy, and with hardly an appreciable delay she said: "I'll do my best, if you think the people won't mind the change."

"If you want to know what I really think, then my opinion is that they'll be delighted," said Mrs. Patmore. "They probably asked Lilith instead of you because she's leading lady, and they thought they must. Can you be ready to start by three?"

"Yes," returned the girl. "I've only to change my dress and—and write a note."

"Good! Then I'll run away and tell Monty the good news. He'll be so pleased. We'll wire the Esselsteyns to send their carriage here instead of for Lilith. Goodbye, and a thousand thinks. You're sure to make a hit."

Kissing her hand to Nora (Mrs. Patmore never bestowed kisses in any other way, as her lips were not warranted a fast colour) she had the door half-open to go out, when suddenly she came back again.

"Oh, I nearly forgot Lilith's letter," she exclaimed. "She was lying down, but insisted on writing to you a note of explanation or something of the sort. I was only to hand it to you in case you consented to go and recite in her place. Here it is. I don't suppose it's of the least importance."

Nora took the sealed envelope, but did not open it. Already it was two o'clock, and she must send her answer to D'Arcy—a very different answer from the one that had been in her mind. Then she must change her morning frock for something smart enough to grace a bazaar, and Lilith's note could wait until these more important things had been accomplished.

She wrote only a page or two to D'Arcy, but fifteen minutes at least were occupied in doing it, for twice or three times she tore up a sheet of paper and began all over again. She wanted to tell him how sorry she was, and yet she was afraid to say it lest it should seem too much. They were such friends—such friends. At one time Nora had thought that she hated men because one man was a villain; but D'Arcy had made her ashamed, in her own heart, of ever having held a creed so crude and narrow.

When the note was finished at last, more or less to her satisfaction, she rang and begged that the landlady's little boy might take it to "Mr. Terence's lodgings." Perhaps, after all, she said to herself with a sigh, when the letter had gone beyond recalling, it was better that he should not come to-day. He was unhappy, and perhaps would have been confidential. Her mood would have responded to his, and she might have told him things that she would wish afterwards that she had kept to herself. Ever since that first night in Johannesburg—not so very long ago, though it seemed long in looking back—she felt that Terence D'Arcy wished, yet did not wish, to make some revelation, and she had had the same curious impulse where he was concerned. Maybe she would be glad afterwards that he had not come to stay; but, try as she would, she could not make herself glad now. And as she put on a pretty white dress and a big "picture" hat of black Leghorn, she thought not of her own appearance, but of D'Arcy and his unknown trouble.

Meanwhile, her letter had been put into the hands of a small lad by the landlady-mother with directions. The boy had gone once before to D'Arcy's house, and he knew the way very well. He knew, also, that he was sure of a "tip" on his return.

As he strolled leisurely out of the house, to his great delight the motor-car, which was the admiration of all Johannesburg, came slowly round the corner—more slowly than the child had ever seen it come before. The motor-car was the property of Mr. Louis Van Wyck, the millionaire, whose striking person was known to nearly every one in town. On this occasion, the owner himself was in the vehicle, accompanied only by a servant, and the boy had the pleasure of seeing that he was observed by the great man, whose name he did not know, though he had often seen his face.

With a reckless impulse little Piet Stroom waved Nora's letter over his head and uttered a whoop, which was a tribute of admration to the car and its driver. Hardly had the shout died on his lips when, to his astonishment—almost alarm—the splendid conveyance stopped, its machine still working. Was the owner about to inflict summary chastisement upon him for his temerity?

But Mr. Van Wyck beckoned, with what appeared to be an encouraging smile. Hardly believing his own eyes, Piet sidled on until he stood close to the quivering motor-car and just out of sight from his mother's house.

"Want a drive, youngster?" enquired Van Wyck.

"Yes, sir," faltered the astonished boy.

"Jump in, then; my man will give you a hand."

"Please sir, I've got to take this letter," said Piet, remembering duty, and holding out the big square envelope of peculiar blue paper, of a kind which Nora Anson always used and had used for years.

"I'll see that it goes to the right address," returned Van Wyck. "I suppose there's no great hurry if it's delivered in half an hour or so?"

"No—o, sir," stammered Piet, who could not sacrifice the great and unexpected joy.

"Give me the letter then," commanded Van Wyck, taking it from the child's hand. "And now for a good spin, my little hero."

The next few moments were the most glorious of Piet Stroom's short life. He was whirled through familiar streets which somehow seemed quite different fromordinary days. Then—it might have been after ten minutes or an hour, Piet could never have said which—the motor-car stopped.

Mr. Van Wyck dropped a coin into the boy's palm. "That's for you to buy something to remember your drive by," said the great man. "Over there's a sweet shop."

THE NEW FRENCH REMEDY

TRADE THERAPION MARK.

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind and surpasses everything hitherto employed.

THERAPION No. 1 in a remarkably short time, often a few days only removes all discharges from the urinary organs, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2 for impurity of the blood, scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

THERAPION No. 3 for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of early error, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.

THERAPION is sold by all the principal Chemists and Merchants throughout the World. Price in England 2/9 & 4/6. In ordering, state which of the three numbers is required, and observe above Trade Mark, which is a fac-simile of word "THERAPION" as it appears on the Government Stamp (in white letters on a red ground) affixed to every package by order of Her Majesty's Hon. Commissioners, and without which it is a forgery.

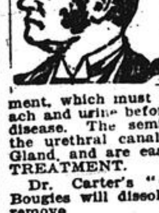
WHY IT CURES MEN

Why the Frightful Tension of Stricture is Dissolved Like Snow Beneath the Sun IN FIFTEEN DAYS.

Why Weak Men Are Restored by the Magic St. James Treatment Applied Locally and Directly to the Affected Parts.



We answer the questions briefly. If you cut an artery in your arm you do not take internal medicine to stop the flow of blood. YOU USE LOCAL APPLICATIONS. Similarly when the urethral ducts become weakened and relaxed, it is ridiculous to take internal treatment, which must pass through the stomach and urine before it reaches the seat of disease. The seminal ducts project into the urethral canal through the Prostate Gland, and are easily reached by LOCAL TREATMENT.

Dr. Carter's "Gran-Solvent" soluble Bougies will dissolve, digest and for ever remove

Stricture

in 15 days, without pain, injury or inconvenience. The bougies are inserted at night and act while you sleep. "Gran-Solvent" removes every symptom of stricture, leaving the canal as healthy as when nature formed it. No BRUTAL CUTTING OR DILATING. NO INJECTIONS TO IRRITATE THE MEMBRANE. NO INTERNAL DRUGGING TO RUIN THE STOMACH. The St. James treatment is local, direct and positive.

The St. James treatment is prepared in the form of crayons, very narrow, smooth, flexible and wholly soluble, which are inserted into the water passage at night, where they dissolve and deposit the medication in its full strength upon the Prostate Gland, contracting and strengthening the ducts and FOR EVER STOPPING DRAINS AND EMISSIONS, and curing while the patient sleeps.

Varicocele.

Varicocele is an accumulation of sluggish blood in the veins of the scrotum, due solely to imperfect circulation, and has its origin in a diseased and torpid Prostate Gland. Operations in this disease are only temporary, and no mechanical device yet discovered has cured a single case. Gran-Solvent heals the Prostate and restores healthy circulation. Varicocele disappears and the sluggish accumulation is replaced by pure, healthy red blood.

Thousands of men strictured, weak, wasting and despondent were cured and restored by the St. James method last year. A vast army of men in whom the light of life has penetrated the fearful nightmare of stricture and seminal decay.

Space will not permit a complete description of the Incomparable St. James Treatment in urethral diseases. Every sufferer from Stricture and its offspring, Prostatitis and Seminal Weakness, should write to the St. James Association, 77 St. James building, Cincinnati, Ohio, for their wonderful illustrated work showing the parts of the human system involved in urethral ailments, which they will send securely wrapped in plain package, prepaid.......... **FREE**

SLAUGHTER OF THE INNOCENTS.

INFANT MORTALITY ATTRIBUTED TO IMPROPER FEEDING.

Instructions Issued by the Provincial Board of Health as to the Feeding and Care of Young Children — The Preparation of Milk.

The terrible death rate among infants reported in this city last week draws attention more closely to the precautions which should be taken in the feeding of young children. The Provincial Board of Health has been dealing with this question, as well as many others. The result of the experience of doctors skilled in their profession and with special knowledge concerning all questions of hygiene is embodied in the following article, which should be brought to the attention of every mother who has an infant in the nursing stage:

It is recognized in this country, as well as abroad that diarrhoeal diseases among infants are mostly due to their not being given proper food, proper quantities of it, and at proper intervals. The trouble is that mothers generally think they know more about infant feeding than they really do and therefore they do not consult often enough their physician.

Mother's milk should be given to an infant whenever the mother is able to do it, and therefore the feeding bottle should be used only when there is no possibility of doing otherwise.

As a rule the child should be kept on mother's milk up to 9 months of age. Weaning should be made gradually, so as to be complete at the age of one year. If the child is to be nine months old at the approach of summer only, it is better to postpone his weaning until the fall, if possible to do so.

To render cow's milk as similar as possible to mother's milk the following modifications, that is, addition of water and sugar, are generally admitted by authors. It is always better, however, to consult one's own physician:

AGE OF THE CHILD.	MILK AND WATER.	SUGAR.
During the 1st month	Milk, one part. Water (previously boiled) 2 parts.	A teaspoonful of sugar for each 6 ounces of the mixture of milk and water.
2nd and 3rd months.	Milk, one part. Water (previously boiled) 1 part.	do
4th and 5th months.	Milk, two parts. Water (previously boiled) 1 part.	do
6th to 9th months.	Pure milk.	½ teaspoonful of sugar for each 6 ounces of the mixture of milk and water.

N.B.—Two tablespoonfuls make one ounce.

Instead of dilution of milk with pure water as above indicated, some physicians recommend giving the child a mixture of top milk and barley water. (Top milk is the upper portion which may be taken off after the milk has stood six or eight hours. Usually six ounces may be taken from a quart;— if the milk is very rich seven ounces, if poor not more than five. Skim off carefully with a spoon from the top of a jar or bottle. Barley water is more conveniently made from Robinson's Barley Flour. Put one teaspoonful of the flour to each half pint (10 ounces) of water, add a little salt and boil 15 minutes. Barley water will keep in winter two days; in summer it should be made fresh every day and kept on ice.

To prepare the food:—When the barley water is cold, mix one part of top milk with two parts of barley water, adding one heaping teaspoonful of milk-sugar to every four ounces of food, or if cane-sugar is used, one teaspoonful to every six ounces of food. These proportions may be kept until the child is seven or eight months old, when an equal quantity of top milk and barley water is given.

Quantities of prepared milk to be given at intervals between meals.

Age.	No. of meals.	Intervals by day between meals.	Night feedings 10 p.m. to 6 a.m.	Quantity for each meal.	Quantity for 24 hours.
1 week	10	2 hours	2	1 oz.	10 oz.
1 to 3 weeks	10	2 hours	2	1½ oz.	15 oz.
[illegible] weeks	9	2 hours	1	2¼ oz.	20 oz.
[illegible] weeks	8	2½ hours	1	3 oz.	24 oz.
[illegible] months	7	3 hours	1	4 oz.	28 oz.
[illegible] months	6	3 hours	.	5½ oz.	33 oz.
[illegible] months	6	3 hours	.	6 oz.	36 oz.
[illegible] months	5	3 hours	.	7½ oz.	37½ oz.
[illegible] months	5	3 hours	.	8 oz.	40 oz.

If mother's milk is given to the child, he should not be kept at the breast over 20 minutes.

The child must be fed at regular intervals. The breast or the feeding bottle is not a toy and therefore should not be given to the child as soon as he cries, when it is not his time to drink.

Unless otherwise prescribed by a physician, no pap (bouillie) should be given to a child before the first teeth have appeared. The stomach is not usually prepared for such foods until then. Milk is a complete food; too many mothers forget it.

No meat should be given to a child before he be two years old.

Pasteurized milk or sterilized milk are to be recommended, specially during the summer months. But one must be careful that the milk is sterilized within eight hours from the milking in winter, and within three hours in summer. Otherwise fermentation having set in, heat will destroy the ferments, but will not destroy the products of fermentation, and then a milk already corrupted is given to the infant (Marfan).

The feeding bottle known as the long tube bottle should be entirely discarded; in some countries its use has been prohibited by legislation, its use having been regarded as criminal, and with reason. It is impossible to clean the inside of the tube perfectly and moreover it is even rarely attempted to clean the tube at all. As a consequence, milk remains in the tube in a state of fermentation and from the beginning to the end of the year the child drinks milk contaminated through its passage in this microbe lined tube. Feeding bottles without tubes (see figure) are nowadays to be found in all respectable pharmacies and therefore there is no excuse to buy the long tube bottle.

WESTMOUNT CHURCH THE CAUSE OF TROUBLE

The Plans Prepared for a Much More Costly Edifice Than Agreed Upon by the Parishioners.

A good deal of trouble is being caused among the Catholic property holders in Westmount over the erection of a church in the town. When a public meeting was called by Archbishop Bruchesi, and it was decided to form a new parish, it was understood that the new church would not cost more than $30,000, so that the tax for it would not fall too heavily on large property holders. When the tenders were called for the different contracts according to the plans drawn up by Mr. G. A. Monette, the architect, and accepted by the wardens of the church, it was found that the church would cost a good deal more than $40,000. When this fact leaked out a number of the property holders protested very earnestly to Rev. F. Perron, the parish priest, and said that if the contracts were awarded for such an expensive church they would even bring the matter before the Archbishop.

Since then nothing has been done in the way of starting the new church, which is to be erected at the corner of Western and Clarke avenues. It is understood that new plans are now being drawn which will allow of a fair compromise as to price between the figure first mentioned and the one called for by the plans accepted by the wardens. Some of the property holders have objected from the start to the erection of a Catholic Church in Westmount, contending that the number of Catholic families in the town was not large enough to necessitate the same, and that there were churches to be found close to the different limits of the town.

ORDINATION CEREMONY

Celebrated by His Grace Archbishop Bruchesi at the Church of the Immaculate Conception.

At the Church of the Immaculate Conception on Sunday, His Grace Archbishop Bruchesi officiated at a very imposing ordination service. Those who were ordained priests were Fathers Theophile Hudon, S.J.; H. Lefebvre, S.J.; J. Desautels, S.J.; D. Labelle, S.J., I. Marechal and Fathers Timothy Malone, Benjamin Hazelton, Wefers Doyle, and Alex. Gagnieur, formerly well known professors at Loyola College, Drummond street. The orders of sub-deacon were conferred on T. J. Maynard, S.J. The following Jesuit scholastics received the tonsure and minor orders: W. Dunn, T. McMahon, W. Hingston, G. Combe, G. Leclerc, W. Reynolds, A. Masson and A. Messier. On Monday morning Rev. Father Marechal celebrated his first mass at the parish church of St. Henri. Fathers Doyle, Gagnieur, Malone and Haselton celebrated their first mass at the Church of the Immaculate Conception. This interesting ceremony was attended by a large number of friends.

THE BODY WAS FOUND.

Remains of Mr. Pacifique Valiquette Brought to the City for Burial.

(See also page eleven.)

The body of Mr. Pacifique Valiquette, drowned at Valois yesterday afternoon, was found this morning. The coroner decided that an inquest was unnecessary. The remains were brought into town this afternoon and conveyed to his father's residence, 616 St. Denis street.

TORONTO BEAT MONTREAL.

For the first time in the history of the two corporations, the Toronto Street Railway earnings have exceeded those of the Montreal Street Railway.

On Dominion Day the Toronto system earned $7,804, while the Montreal Street Railway was able to bank $7,768 as the day's receipts. All Toronto, apparently, took a ride or two on the cars during the day, while the majority of Montreal's population went to more distant points.

EXCURSION TO LAKE ST. PETER.—The committee of management of St. Patrick's Society met last night, and decided to charter the steamer Three Rivers for its annual excursion, to take place August 1. The entire proceeds of the excursion will be devoted to assisting the poor during the coming winter. The boat will leave at 1.30 p.m. and return about 10 o'clock.

A BEQUEST OF $25,000 TO LAVAL UNIVERSITY.

Left by the Late Senator Villeneuve —Small Donations to Charitable Institutions.

The late Senator Villeneuve, by his will, left a sum of $25,000 to be devoted to aiding in the construction of the Polytechnical School, in connection with Laval University. He also left $5000 to the St. Vincent de Paul Society of St. Jean Baptiste parish; $3000 to the Grey Nuns; $2500 to the Little Sisters of the Poor; $5000 to Notre Dame Hospital; 1000 to the Home for Incurables conducted by the Sisters of Providence.

To Madame Villeneuve he left an annual pension of $3000 besides the enjoyment of the residence and property on St. Denis street. The whole estate amounts to about $500,000.

The legacies are made payable in five years, in equal annual payments.

The proprietorship of the properties left is vested in the grandchildren, but his sons have the enjoyment of the revenues of the estate.

MR. DAFOE'S NEW POSITION.

Mr. John W. Dafoe, who commenced his journalistic career on the Star eighteen years ago, subsequently resided in Winnipeg, as a member of the staff of the Free Press, and returned to the Star in 1895, has just effected an arrangement whereby he returns to Winnipeg as Editor of the Free Press.

Mr. Dafoe leaves the Star carrying the best wishes of all connected with it. He is an exceedingly good journalist, sincere in his convictions, of downright sterling character, and faithful to the last detail. The Free Press is to be congratulated.

PUNCTURED THE BALLOON.

The startling story recently published by a local paper about the wonderful discovery of a long lost son at the Buffalo Fair by Mr. and Mrs. James Millican, of St. John, N.B., is thus referred to by the St. John Globe:

"When Mr. and Mrs. Millican were returning from their recent western trip they went to Buffalo to visit their son, Fred Millican, who is managing the theatre in the Indian Congress on the Midway. Some reporter hearing that Fred had been showing his father and mother about the grounds, from his own brain evolved a sensational story of an accidental meeting of Mr. and Mrs. Millican with their son, who as a mere child had run away with Barnum's circus and had been mourned as lost for over twenty years. As a matter of fact Mr. Fred Millican, up to ten years ago was employed on the I.C.R. and since leaving St. John, he has always informed his parents as to his whereabouts.

J. M. CALLAGHAN'S FUNERAL.

The funeral of Mr. John M. Callahan, late of the firm of Hart & Tuckwell, will take place to-morrow morning from his late residence, Selby avenue, Westmount, to St. James' Cathedral, and thence to Cote des Neiges Cemetery. The solemn requiem mass will be sung by Rev. Luke Callaghan, assisted by Rev. Martin Callaghan, as deacon. The members of St. Patrick Branch of C. M. B. A., and the Canadae Council of the Knights of Columbus will attend in a body.

THE FIRE COMMISSIONERS.

A new position has been created in connection with the Fire Commissioners' Office. At yesterday's meeting of the Cabinet Council, held in Quebec, Mr. J. C. Hanley, official stenographer, employed at the Court House, was appointed to take the depositions in English before the Fire Commissioners. Mr. Lanctot, advocate, formerly secretary to Mr. Justice Robidoux, will take the French depositions.

LAKE CHAMPLAIN INWARDS.

The Elder, Dempster steamship Lake Champlain passed Cape Race at 8.30 o'clock yesterday evening. She is due in Quebec Friday morning, and Montreal Friday evening or Saturday morning.

BECKER MISSING, WIFE MOURNING.

A ROMANTIC MARRIAGE IN LONDON, ON JUNE 16TH.

A Trip to Canada, a Few Days at the St. Lawrence Hall and Now Husband Has Disappeared and So Has Her Money—Said He Was An Hotel Keeper.

Any one knowing the whereabouts of Edward Becker, who was a guest at the St. Lawrence Hall between last Sunday evening and Tuesday morning, should communicate with the man's [illegible] is anxiously awaiting his return.

This morning Mrs. Edward Becker was seen in the Allan Steamship Company's office, whether she had gone for advice and what consolation the members of the firm and the office staff were able to offer. From her own story it seems that the young woman was married in London on the fourteenth of June, after knowing the man to whom she was wedded something like thirty days. On the twentieth of June Mr. and Mrs. Becker sailed from Liverpool on the Allan Line steamship Parisian, having obtained saloon passage on the vessel to Montreal.

Upon arriving in the city the couple took apartments in the St. Lawrence Hall. On Tuesday morning Mr. Becker kissed his wife, said that he would be back by dinner time, went downstairs, obtained a handbag which had been previously left below and away from the other baggage, left the hotel, and has not been seen since.

Mrs. Becker's maiden name was Florence Millis, and she is a native of London. She is about thirty years of age and is a woman of some education. About the middle of May, she noticed an advertisement in a London paper, the same purporting to be from the owner of an American hotel. The advertiser desired a sort of a managing housekeeper.

Miss Florence Millis answered the advertisement, the advertiser proving to be Edward Becker. Mr. Becker became assiduous in his attentions and proposed marriage, she accepting the offer. In the interval Mrs. Becker had, with every confidence in the man, told him that she possessed a few pounds sterling, and on the voyage over entrusted him with between £65 and £70, practically all the available cash she had in the world.

Mrs. Becker produced a business card this morning, on which was printed: Colorado River Grand Canon Hotel; Henry Becker, George Becker, Emil Becker, Otto Becker, proprietors; Edward Becker, special partner. Beckersville, Garfield County, Utah, U.S.A.

She stated that Becker purported to be a wealthy man, and that while he had money spent it freely. She knew, however, that he was short of cash when they reached Montreal, but it was at that time her impression that this was only a temporary embarrassment. He had told her that after seeing Montreal they would proceed together to Chicago, where he proposed to sell his Utah hotel to a syndicate and from there, they would proceed to New York, where he had promised to expend something like $2,000 on her wardrobe.

In London Becker had told her that he was a native of Germany, though a naturalized American citizen. He is a man of between fifty-five and sixty years of age, has a gray beard, heavy moustache, and is giving to greasing his hair so that it will appear black. He speaks with a German accent. Becker claimed to have fought through the Franco Prussian war, and to have had seven brothers engaged in the same conflict.

Mrs. Becker said this morning that while she formerly had no suspicion that the man wished to desert her, she had now come to the conclusion that the whole affair was premeditated. As she looked back over the past week, everything pointed to this conclusion. On board ship Becker appeared to be worried, and while he was kind to her, she thought she could see now that his disappearance was premeditated. On reaching the St. Lawrence Hall he insisted that the travelling bag, containing the most valuable portion of his apparel, be kept in the hall on the ground floor.

Again he made it a point to settle his bill every day, so that they might leave with their baggage at a moment's notice.

On Tuesday morning Becker left his wife for the alleged purpose of visiting a sister whom he claimed resided in the country, seven miles from Montreal. The sister's name Mrs. Becker did not know. In fact, she knew nothing concerning her beyond the statement which Becker had made. The man had claimed that his sister was the widow of a well-to-do farmer, and that he proposed obtaining some money from her to tide him over his temporary embarrassment.

Mrs. Becker states that she worked as a dressmaker in London and that she has some sisters, but that both her parents are dead.

THE SEIZURE MAINTAINED.

Mr. Justice Mathieu on Saturday last rendered judgment maintaining the saisie revendication taken by the Countess de Beaujeu of a diamond tiara which was in the hands of Rev. Canon Dauth, of St. James Cathedral. When the Count was leaving for the Klondyke he borrowed some money on the security of the jewel, which was left in the hands of Canon Dauth. The money was duly returned by the Count, but the lady claimed the jewel as her own property. As the parties are separate as to property the suit was taken to fix the ownership of the jewellery, which was awarded to the Countess.

A RIOT AT VALLEYFIELD.

Considerable trouble was caused on the New York Central train at Valleyfield on Monday night. A large number of excursionists had spent the day in the town, and wanted to return home. Two cars were added on and there was not sufficient room. Some of the men tried to force their way aboard the Pullman cars. A stiff encounter resulted between the porters and conductors, and mob, in which a number of blows were given, and several panes of glass broken. One of the Pullman cars was badly damaged.

INJURED IN GAS EXPLOSION.

Ivan Hutchins, aged 15 years, of 105 Ash avenue, Point St. Charles, met with a severe accident at the Grand Trunk General Offices this morning. He was going into a vault when he struck a match. A gas explosion resulted, in which he had both his hands and his face severely burned. He was taken to the General Hospital. A similar accident happened some six months ago, in which two of the clerks received bad injuries.

MUSICAL DEGREES.

The following pupils of Prof. Emery Lavigne (organist of the Church of the Messiah) were awarded musical degrees at the examination of the Academy of Music of Quebec, on July 2: Second-class diploma —Miss Marie Jeanne Beaudreault. First-class diploma—Miss Josephine Boutette, and Miss Alma Rochon. Laureate—Miss Germaine Bourassa, Miss Bessie Morris, Miss Emilia Sauvageau, and Mr. Arthur Plamondon.

Mr. Walter L. Fellowes, Mrs. Fellowes and family have gone to The Point, Riviere du Loup, for July and August. Mr. Fellowes will return to the city in a fortnight.

MARRIAGES.

IVES-DENOON—In this city, July 2nd, 1901, by Rev. Dr. Campbell, Charles K. Ives to Agnes, daughter of Colin C. Denoon.

47 NEW YORK HEAT VICTIMS.

TO-DAY THEY NUMBERED ALMOST FIFTY UP TO NOON.

Morgue is So Full of Bodies That the Compartments Could Not Hold Them All—Remains of Sixty Persons Sent to Potter's Field.

(See also pages one and three.)

NEW YORK, July 3.—At 11 o'clock the thermometer had risen to the 92 mark, but the humidity had fallen to 53 per cent. The temperature at 11 a.m. yesterday was 93 degrees. Up to noon the total number of deaths from the heat in New York and Brooklyn after 2 a.m. was 47. The action of the Board of Governors of the Stock Exchange to close the exchange on Friday and Saturday, and the decision of the banks to restrict business as much as possible on those days, were due entirely to the intense heat.

There were so many bodies in the morgue to-day that the compartment could not hold them all. Two dead-waggons and police patrol waggons were bringing in others constantly, and it was necessary to send the remains of sixty persons to the Potters' Field before the expiration of the five days usually allowed for identification or reclamation.

HEAT RECORD FOR TO-DAY.

Louisville and Baltimore Have the Highest Temperatures With Other Cities Close Behind.

WASHINGTON, July 3.—Louisville and Baltimore were the two hottest cities in the United States at 8 o'clock this morning, according to official figures, the thermometers at that hour registering 84 degrees in both places. Their closest competitors for first honours are Boston, New York, Philadelphia and Scranton, in the East, Charleston and Savannah, in the South, and Cincinnati and Kansas City, in the West, all with 82 recorded at that hour of the day. An even score of other cities registered the 80 mark at 8 o'clock. These ranged all the way from Portland, Maine, to Key West and Kansas and Texas points. The mercury is crawling steadily upward through the middle Western States, the only fall it has sustained being in the section between here and New York, varying from 6 to 10 degrees for the day, as compared with yesterday and due to storms that swept over portions of that territory. These thunder storms, under the present conditions of extreme heat, are likely to occur anywhere within the field of the hot wave at any time, but they will be local according to the weather bureau and will bring but little relief. No permanent break in the hot spell can yet be predicted by the weather bureau officials. The record of minimum temperature for the past 24 hours shows better sleeping conditions in most of the cities in the East last night. The highest minimum temperature for the night was at Kansas City, where the mercury never fell below 80. In Washington at 10.45 this morning the official thermometer pointed to 90, with a prospect of further rise.

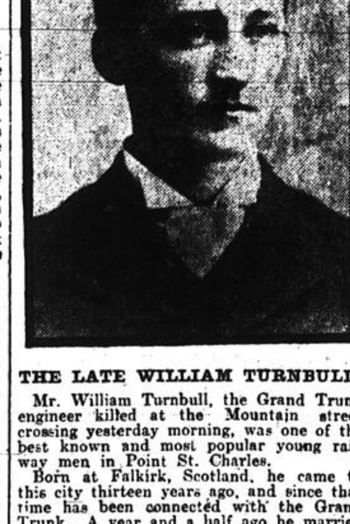
JUDGE BUCHANAN DEAD.

He Passed Away at His Residence, 324 Prince Arthur Street, in His 76th Year.

The Honourable G. C. V. Buchanan, retired Judge of the Superior Court, died at his residence, 324 Prince Arthur street, this morning, in his 76th year.

Judge Buchanan was a son of the late Alexander Buchanan, Queen's Counsel of Montreal, and for some years practised before the Montreal Courts.

He was a partner of the late Sir Francis Johnson and of the late John Monk, and moved to Cowansville on the establishment of the judicial district of Bedford. He practised law there until 1881, when he was appointed Judge of the Superior Court, retiring in 1886. His widow, and two children, C. Ernest Buchanan, and Mary Maud, wife of George G. Foster, K.C., survive him.



THE LATE WILLIAM TURNBULL.

Mr. William Turnbull, the Grand Trunk engineer killed at the Mountain street crossing yesterday morning, was one of the best known and most popular young railway men in Point St. Charles.

Born at Falkirk, Scotland, he came to this city thirteen years ago, and since that time has been connected with the Grand Trunk. A year and a half ago he married Miss Hall. Their only child died in February last. Mr. Turnbull was a prominent member of the Brotherhood of Locomotive Engineers.

IN AND AROUND THE CITY.

GONE TO OTTAWA.—President Shaughnessy, of the Canadian Pacific Railway, went up to Ottawa this morning.

A SUDDEN DEATH—William Gamble, a shoemaker, of 1887 Notre Dame street, died suddenly at Stilwell's hotel, at the corner of Craig and Alexander streets, at noon yesterday. The remains were removed to the morgue, but as the autopsy showed that death had been caused by heart failure, the coroner did not think it necessary to summon a jury.

STRATHCONA HORSE DISCHARGES.—For the information of non-commissioned officers and men of Strathcona's Horse, the statement is authorized by Mr. F. W. Taylor, of the Bank of Montreal that "discharges" have been mailed by Sergeant Moir, Ottawa, to the next of kin of members of the Regiment. The following is a list of exceptions, no address having been given. These discharges can be obtained from Mr. Taylor on application: Archer, Barton, Bourne, Cameron, Cassidy, Cunning, Eastmead, Gooding, Grey, Harris, Hazeldine, Hawthorne, Hayes, Morris, McNaught, Norton, Palmer, Paton, Peterson, Rushe, Shaw, Shuckburgh, Skirving, Steedman, Townshend, Townsend, Treston, Webb, Edw.; Webb, Hy.; Wilkins, Wilkin, Williams, Winearls.

COST OF PAPER AND PAPER PULP.

THE ENQUIRY CONTINUED BY MR. JUSTICE TASCHEREAU.

Testimony Given by Mr. J. R. Barber, of Georgetown, Ont., and Mr. John Macfarlane, of the Canada Paper Company—Cost of Manufacturing Has Increased.

The investigation into the charges of the existence of a paper combine was continued to-day by Mr. Justice Taschereau.

At the opening of the proceedings, Mr. W. J. White, K.C., moved that the manufacturers be not bound to give the details of the cost of manufacture. He contended that they should not be obliged to do this, because it had not been shown that there existed any illegal combine. They freely admitted the existence of an association, and the fixing of a rate for the goods. The complaints, however, he claimed, had entirely failed to prove anything illegal. They had tried to show that they could get the goods at certain factories in the United States cheaper. This was an argument for reducing the duty, but it had nothing to do with the present enquiry.

Mr. A. B. Aylesworth, on behalf of the Press Association, demurred entirely from the view taken by Mr. White. It might be convenient for the manufacturer to get the opinion of the commissioner at this stage, but it would hardly be right. He believed that His Worship was appointed to receive evidence by whomsoever offered and to weigh that evidence. The present proceedings were not like a jury trial, but rather like a coroner's investigation or inquest.

Mr. Justice Taschereau remarked that he had no authority to order that anything be done as a result of the investigation, and did not wish to express an opinion. He would hear whatever evidence was laid before him, and form his conclusions therefrom, and report accordingly. The motion just made would be more properly made at the close of the investigation, when the argument comes up.

MR. BARBER EXAMINED.

Mr. J. R. Barber, proprietor of two paper mills at Georgetown, testified that the price of paper had not gone up unproportionately with the cost of production. He produced a statement which he had compiled, showing the cost of the production and the selling price at different times. This he did not wish to make public, but he was willing to show it to the counsel for the Press Association. Among the items of cost was the bill for sulphide pulp. This had gone up from $33, in 1899, to over $44, in 1900. The cost of ground pulp had gone up from $18 to $23.50 at the same time. The reason for the increase was the boom in the paper trade caused by the Boer war and other causes which made the sales greater. The witness stated that he received more than the association price for nearly all lines of goods he manufactured. He has been in the business since 1856, and a member of the association two years. The only changes made by the association was the reduction of credit from four to three months, or three per cent. discount, and doing away with the return of waste paper. Mr. Barber, in reply to Mr. Aylesworth, stated that the loss through waste when the market was at the mercy of the buyer was all the way from five to fifteen cents on a hundred pounds.

MR. MACFARLANE HEARD.

Mr. John Macfarlane, president of the Canada Paper Company, stated that he had been a member of the association for 20 years. He considered a diminution of the duty would be a severe blow to the trade, which engaged a capital of $20,000,000. The removal of the duty altogether he would consider fatal. This would throw out of employment from 5,000 to 6,000 persons in the mills and also a number who were engaged in getting out the wood.

The enquiry will be continued this afternoon.

IN THE RACES AT HENLEY PENNSYLVANIA ROWED WELL

They are Looked Upon Just Now as An Extremely Dangerous Crowd—New Brunswicker Was Defeated.

(See also page two.)

HENLEY, July 3.—The Pennsylvanians undoubtedly won their heat in great style. They were never extended, and it is now freely admitted by those who thought the Leanders had a certainty for the Grand Challenge Cup that the Americans are extremely dangerous.

"I don't like the looks of it," said the London crew's coach. "I thought we might be beaten but I never thought the Americans would show such capabilities."

When umpire Pitman's launch arrived at the starting point both crews were waiting. The American showed perfect nonchalance while waiting. Without delay Mr. Pitman sent them on their journey, Pennsylvania rowing 40 and London 41. At the end of the islands the Americans led by half a length. Opposite Fawley Court, which they did in 3.24, the Americans were clear and rowing 36. They seemed to be rowing a little short opposite the Leander enclosure, and there the London crew made their final effort. But it was no good. The Pennsylvanians increased the distance rapidly and near the grand stand hit up the stroke to 40 and then to 48, crossing the line at a terrific pace. There was practically no cheering.

The Diamond Challenge Sculls, first heat, J. Johnson beat A. H. Cloutte.

Second heat—G. Ashe beat W. C. Bond. Ashe's time was 8.48.

Third heat—S. T. Blackstaffe beat W. A. Hickman, of St. John, N.B.

Ladies' Challenge Plate — Second heat, Eton Rowing Club beat Trinity College, Dublin. Eton's time 7.25.

Thames Challenge Cup—Fifth heat: The Royal School of Mines beat the Twickenham Rowing Club.

Thames Challenge Cup, sixth heat, Kingston Rowing Club beat Exeter College, Oxford. Kingston's time was 7.21.

Thames Challenge Cup—Seventh heat—Worcester College, Oxford, beat Caius College, Cambridge. Worcester College's time was 7.29.

Wyfold Challenge Cup—second heat: The Royal Artillery Rowing Club beat Christ College, Cambridge. The Royal Artillery's time was 8.06.

Wyfold Challenge Cup, third heat—The Thames Rowing Club beat the London Rowing Club. Time, 8 minutes.

Visitors' Challenge Cup, Henley, —First heat, New College, Oxford, beat Trinity College, Oxford. New College's time was 8.14.

THE TAYLOR FAILURE.

(Special to the Star.)

TORONTO, July 3.—Assignee Clarkson has prepared an approximate statement of the affairs of Taylor Bros. brick and paper manufacturers, which shows assets of $80,000 and liabilities of $134,535.19, leaving a deficit of $54,523.19. The assets are made up of paper stock, $15,000; brick yard, $52,000, and sundries, $13,000. Making up the liabilities are direct, $43,216.45; secured, a total of $345,224.44, from which after deducting the value of the security held $162,142.96 a balance is left of $83,081.48, and preferred $8,228.26, making a total of $134,523.19.

MR. BELL'S CONDITION.

(Special to the Star.)

NAPANEE, July 3.—The condition of J. W. Bell, M.P., who had a stroke of paralysis recently, is somewhat improved. He is still speechless, but can move a little, and it is thought he will recover.

NEW WIRELESS TELEGRAPHY PLAN.

A SYSTEM WHICH WILL REVOLUTIONIZE TELEGRAPHY.

It is Superior to Marconi's System, Because No Tall Poles are Required—Earth Waves are Used Instead of Aerial Waves—A Successful Demonstration Given.

PARIS, July 3.—An exposition of the new system of wireless telegraphy was given the other day, with great success, at Le Vesinet, a suburban hamlet on the St. Germain-en-Laye road.

The inventors or discoverers of this system are Colonel Pilowski, an engineer officer in the Russian army, and M. Victor Popp, a well known electrical engineer, whose name has been attached to several useful and valuable inventions. Within the narrow limits imposed for the experiments on this occasion, they were a complete success.

Although the electrical installation at Le Vesinet is of the most primitive and temporary character, a number of messages were despatched by the transmitting instrument in a villa in the Rue Pasteur and received in another villa situated about six hundred metres distant, without the slightest hitch.

One striking feature about Mr. Popp's system is its extreme simplicity. No tall masts are required, as is necessary with the Marconi method. It is terrestrial rather than aerial; that is to say, the electric waves follow the surface of the earth. There is, consequently, nothing spectacular in the apparatus. It consists simply of two electrodes separated by a distance that varies according to the distance of the place with which it is desired to communicate. The negative is placed on a sheet of glass as isolator on the surface. The positive is buried in the earth at a depth of from three and a half to four metres. These two electrodes are connected to the transmitting apparatus.

The same arrangement is followed at the receiving station. This is all that is necessary for the despatch and registration of messages, as was conclusively proved by M. Popp yesterday.

The most astounding claim made by M. Popp for his system is that its radius of action is virtually unlimited, wireless telegraphy with America, for example, being merely a matter of detail, such as the distance separating the electrodes and the energy of the transmitting apparatus. In addition M. Popp has devised a sort of reflector isolator that allows of the electric waves being compelled to travel in a given direction.

The possibilities contained in M. Popp's discovery are incalculable. In the first place, the apparatus is so simple that it is not liable to get out of order. It is so transportable that four men can establish a telegraph station in thorough working order within an hour anywhere. This, in the case of a city like Paris, is a desideratum not to be despised. Furthermore, the absence of the telltale tall poles, necessary with the Marconi system, is an invaluable advance, as they would infallibly betray to an enemy the fact that a wireless telegraph station was in the neighbourhood.

HEAT IN THE PHILIPPINES.

(Oscar K. Davis, in Everybody's Magazine for July.)

I once read a moving description of thirst in the Soudan. The man who wrote it said that thirst such as he had endured there was a good thing, because it made so very good indeed the long, fizzy drinks that he got when the drouth was ended. Sometimes in the Philippines nothing fizzed but the blood, and you felt that bubbling and steaming within you. In Cavite there is a long, high ridge with no streams and no wells. In peace times an irrigating ditch waters it, but war had dried it up. We marched before daybreak. By ten o'clock the sun had been shining for a million years straight into the brain of every man in the column. The tall, heat-withered grass, the yellow, dead rice in the abandoned fields, the faded bamboos in the low stretches that once had been swales, joined with the myriads of heat devils in their fantastic dance. The still air seemed alive with them. The earth quivered. I saw a man throw out his hands and pitch forward on his face. Somebody tried to shift him into a comfortable position, but when he was lifted up he was dead. Men fell out by scores. Not even the excitement of the fight could keep them up. They lay where they fell, nor cared that the advance of the column would leave them in the hands of any enemy that might come back over the line of march. Those who camped at nightfall were scarcely more than half of all who started. Once, early in the afternoon, we came to a pond of stagnant water. When they had brushed back the green scum that covered it, the men drank their fill of the yellow filth. The vision of typhoid fever through all their campaigning was hid behind the reality of their thirst.

COLONIAL CONNECTION.

(New York Commercial Advertiser.)

Mr. Chamberlain, speaking last night at the Dominion Day dinner in London, made one of those broad allusions to imperial federation which captivate the colonial mind by their prophecy of greatness without suggesting any practical, well-defined plan. If the colonies, he said, desired closer connection with Great Britain and were willing to assist with counsel and advice in addition to their arms, there was nothing the Mother Country would more readily welcome. Nothing could be more frank and positive than this expression of general intention; but it means nothing more than that the Mother Country is willing to consider suggestions originating with the colonies. The movement for closer union must originate there, not in London. That, however, is a distinct point gained, and the public men of Great Britain little know what the colonial statesmen may build upon it. It is a peg on which Australia or Canada in a few years may hang a broad plan of federal representation, or a few imperial council of state, quite out of the insular reckoning of Great Britain and difficult to put aside without offense. It is evident at least that the genial repetition of after-dinner platitudes will not serve any practical end much longer unless the keeping up of good temper on both sides can only be secured that way. It is in order now for the colonial statesmen to get together and produce some definite plan for British consideration. They have had an invitation from a responsible statesman to do so.

WHEAT IS FIRMER.

(From the Star's Special Correspondent on the Chicago Board of Trade.)

CHICAGO, July 3.—To-day's markets were of a holiday character, trade being light in all the pits. Wheat was firmer at the advance at Liverpool, which amounted to ⅝d at the close.

This, in turn, was undoubtedly due to the reports from Russia, which are becoming somewhat sensational. The wheat in the Volga Valley is said to be rapidly withering from intense heat, and fears are entertained that famine conditions may result.

A moderate cash business continues to be done, both here and via Gulf ports.

The bearish sentiment is still too unanimous to be altogether correct. The chances are that the next important change of price will be in an upward direction.

Further showers in Iowa and Nebraska caused an easier feeling in corn, but there was a good demand on the decline. Nebraska has received temporary relief from drought, but Kansas and Missouri are still dry in some sections.

Local bulls appear to be buying corn quite as much on the prospect of a scarcity of cash stuff this fall as on weather conditions, though there is a general fear that we shall not get through the month without serious injury.

STREET MOST ACTIVE STOCK.

PRICE ADVANCED TO 304 1-2 ON ACTIVE TRADING.

Some of the Mines Were Soft Spots and Were Soft Under, But Slight Pressure—Molsons Bank Advanced to 202—Canadian Pacific Remains Practically Unchanged.

The special correspondents of the Star in Wall Street and on the Chicago Board of Trade report in this column that stocks were sluggish, while wheat was strong. In the local market stocks were steady, excepting mines. Yesterday sales on the New York Stock Exchange numbered 199,022 shares.

The New York Stock Exchange will be closed from 3 p.m. to-day until Monday, July 8th.

Another spurt in Montreal Street was again the feature of the trading in the local market. In fact without Street stock to dabble with, the market would be almost dead. Another incident in connection with the forenoon business, was some selling of mining shares, which put some of them on a lower level. There is not much more room at the bottom.

Montreal Street seemed to be in good demand at the opening, and from 301¾, the closing price yesterday, the price opened up at 303½, and jumped to 304½, a gain of 2¾ points above yesterday's closing. Subsequently a little pressure was put on the stock and the price reacted to 303¼. New Street sold at 302 to 301½. Toronto Rails remained unchanged at 109, while Twin City was fractionally lower at 93 to 93¼.

Canadian Pacific was quoted at 106⅜ to 106⅝ in London and sold locally at 105, and in Wall Street at 104⅞. Montreal Light and Power was steady at 98½ and Dominion Cotton was unchanged at 78.

Dominion Coal common continued steady at 40. Payne and War Eagle both sold down to 19 and Republic at 9. Some odd lots of different stock, some bonds and bank stocks completed the mornings transactions. A feature of the bank shares was the advance in Molson's Bank to 202.

The opening of the Wall Street stock market was listless and so sluggish that the price movement was scarcely perceptible. The principal dealings were in United States Steel, which opened a quarter higher on the declaration of the dividend, but ran off ⅜ on large realizing.

Messrs. L. J. Forget and Co.'s London cable to-day quoted: Grand Trunk first 95¼, second 80½, third 34⅜, Canadian Pacific 106⅝, Anaconda £9 11-16.

The earnings of the Detroit United Railway for the week ending June 27th, were: $59,924.63, an increase of $9,244.46 over the same period last year, an average increase of $1320.66 per day.

Toronto Street Railway earnings last week compared with the same period a year ago, were:

DULNESS IN WALL STREET.

Speculators Stay Out of the Market in View of the Long Holiday.

(From the Special Correspondent of the Star in Wall Street.)

NEW YORK, July 3.—London sent in irregular price changes for Americans this morning, but later the market for Americans hardened somewhat. Here the market opened extremely dull and steady. Trading was the lightest of any since election day. There were no important news developments over night, except the U.S. Steel Corporation dividend declaration. Some disappointment was expressed by the street owing to the fact that the directors did not specify that the 1 per cent. dividend on the common was a quarterly payment. This led to light sales of common. Firm features of the market were Erie, Brooklyn Rapid Transit and Tennessee Coal and Iron. Among the early gains were 3-8 in United States Steel preferred, ½ in Erie, ½ in Tennessee Coal, 3-8 in St. Paul, and 3-8 in Brooklyn. Later, Steel common lost 1¼ and Minneapolis and St. Louis gained 1½. There seemed to be a general inclination to keep out of the market in view of the long holiday, the Exchange having decided to close over the fourth, and also Friday and Saturday.

MOUNTED POLICE FOR THE STREETS.

THE PRESENT POLICE PATROL WAGGONS TO BE ABOLISHED.

An Alderman's Scheme to Reform Police Force of the City—Claimed That it Would Not Cost Much More Than the Methods at Present Used.

As is but natural, there is a great deal of interest at the present time as to what reforms will be inaugurated in the Police Department, now a new Chief of Police has been appointed.

Apart from the changes contemplated by the new chief, the Police Committee intend to make some radical reforms. It has just come out that the most interesting change in administration to be made is the patrolling of the city with mounted police.

In order that this may be accomplished the present patrol waggons will be abolished.

A member of the Police Committee, upon being seen by a Star reporter as to the truth of the rumour that a proposition was about to be made in committee to abolish the patrol waggons, and give the city mounted police, said: "I do not know who could have let out the scheme, some of the members of the Police Committee have, for getting the city a mounted police patrol; but the news is correct. There are more aldermen than the members of the Police Committee, too, who are convinced that a mounted patrol is just what the city needs."

"It is the intention, too, to do away with the present patrol waggons, then?"

"It certainly is. Experience has proven that they are practically useless; that they are very costly, and that they are not needed for a city like Montreal."

"Just what is the scheme for the starting of a mounted police patrol?"

"It is very simple; as usual, the most difficult question we have to face is that of funds. We have figured out the problem, and have found that some twenty mounted police could be employed for the merest shade over what it cost to keep the useless patrol waggons going. Attached to these waggons are twelve horses. They have to be fed and officers have to be employed to look after them. In addition to this, repairs to the waggons, etc., costs no less than $3,000 per annum. With six or eight more hourses than what are now attached to the waggon patrol department we would have some twenty animals to start a mounted patrol."

BENEFITS TO BE DERIVED.

"By the abolition then of the waggons we could have a mounted patrol for little or no extra cost. As to the benefits to be derived by a mounted patrol they are numerous. In the first place a mounted policeman could get over more ground than could ten policemen on foot. A few months ago a scandal cropped up in the police force by policemen being shown to be playing cards, etc., when they were supposed to be on duty. This kind of thing was demonstrated to have been going on for years; in fact the officers had formed a kind of a card club. All the time spent at the club was stolen from the city. Now such a state of affairs could never have existed if we had had a mounted police patrol; these loafing officers would then have been spotted in no time and dismissed.

Again, there are portions of the city that at the present time are not very well patrolled, but with mounted policemen the outlying districts could be as well taken care of as the heart of the city. There is the question of fires too. With a really good patrol system there would not, many fires have a chance to practically gut a building before it was seen and an alarm sent in. In fact there are scores of reasons why a mounted patrol should be established in this city. The new chief of police would be far better able to control the different sections of the city with a swift mounted patrol.

"This then is the scheme which we contemplate bringing before the Police Committee and the City Council. I do not think it will be long, before the noisy police waggons, with their bluster and roar as they dash through the streets to give a jaunt to some drunken man, are a thing of the past. Montreal is a modern city now, and a mounted patrol is absolutely necessary."

ST. LAWRENCE AND ADIRONDACK

A special general meeting of the shareholders of the St. Lawrence and Adirondack Railway Company was held yesterday afternoon, in the office of the company, St. Sacrament street. Mr. Herbert S. Philips occupied the chair, Mr. M. E. McClary, acting as secretary. There were 11,000 shares out of a total of 13,000 represented at the meeting. The act respecting the St. Lawrence and Adirondack Company, which recently passed Parliament, was unanimously accepted, and approved, and it was decided to issue debenture bonds to the amount of $300,000 for the purpose of equipment.

ORDAINED TO PRIESTHOOD.

On Sunday morning, His Grace Archbishop Bruchesi officiated at a very imposing ordination service at the Jesuit College of the Immaculate Conception, corner of Rachel street and Papineau road. Among those upon whom the rights of priesthood were conferred were four Jesuit Fathers, Alexander Gagnieur, Benjamin Hazelton, Timothy Malone and Wifers Doyle, formerly a well known professor at Loyola College, Drummond street. Yesterday morning the four newly ordained priests celebrated their first mass in the presence of a large number of their friends.

IRON MOULDERS' EXCURSION.

The iron moulders' excursion to Valleyfield on Dominion Day was a success. The only thing that marred the pleasures of the day was the misunderstanding on the part of the Valleyfield iron moulders. They were under the impression that the excursion from Montreal had been cancelled. The Excursion Committee are at a loss to know who gave them this information. On arrival at Valleyfield the excursionists were given to understand that the St. Jean Baptiste parade had taken place at 9.30, and consequently the Montreal moulders and their friends did not participate in the festivities as had been arranged for. Immediately after lunch the moulders and their friends to the number of about five hundred, proceeded to the Exhibition grounds, where a lacrosse match was played between Valleyfield and Montreal. The game was well contested, and resulted in a draw, each team securing one game, after playing for an hour and a half. Owing to darkness, the match had to be suspended, and will likely be played off in Montreal on Labour Day.

Mr. Harrigan, of the P. A. A. A., had charge of the match, and did not have to send anybody to the fence for violating the rules. The citizens of Valleyfield turned out en mass to see the excursionists off, and the Windsor station was reached about midnight.

THE LATE MR. ALLAN.

The Directors of the Merchants Bank of Canada Put on Record Their Appreciation of His Worth.

At a meeting yesterday of the directors of the Merchants Bank of Canada, Hon. Robert Mackay, John Cassils, Jonathan Hodgson, C. R. Hosmer, and J. P. Dawes being present, the following resolution was unanimously adopted:

"That the Board has heard with deep regret of the death of their esteemed president, Mr. Andrew Allan. He was one of the original founders of the bank, and its president for the last nineteen years. He was remarkable for the conscientious discharge of all his duties and for his quiet, unassuming manner and sound judgment. His kindly disposition also made itself felt with every one with whom he came in contact. He was a man with many interests and responsibilities in the community,and he carried an irreproachable name through a long life. In placing on record the deep sense of the great loss which the bank has sustained, as well as the community at large, the directors would also express their sympathy and condolence with the family and relatives of the deceased, to whom the chief consolation can only be the honoured name which the deceased has left behind.

It was further resolved that a copy of this resolution be forwarded to the relatives of the deceased president.

IN AND AROUND THE CITY.

BAD MEAT.—Mr. A. Hamel, meat inspector, recently confiscated 50 pounds of meat, 80 pounds of veal and 40 pounds of fish. The stuff was found in butchers' stalls and in markets. It was unfit for food.

A PUBLIC MEETING.—The Municipal Reform Association will hold a public meeting on Chaboillez square on Friday evening next at 8 o'clock, to discuss the civic lighting contract. It is said Mayor Lighthall of Westmount will be one of the speakers.

FOUND DEAD.—On Sunday morning, Mrs. Olivier Toupin, 55 years old, was found dead in her bed. She had been ailing for some time, but on Saturday evening had not seemed worse than usual. After making the necessary enquiries, the coroner disposed of the case without summoning a jury.

NEW DEPUTY PROTHONOTARY.—Mr. E. Lamontagne, who for the past twenty-four years has been deputy prothonotary at the court house in this city, and who for some years has been in charge of the Tutelles office, has resigned to go into financial insurance business. He has been replaced by Mr. Z. J. Larochelle.

FELL OFF A POLE.—While at work for the Royal Electric Company on Cote des Neiges road yesterday afternoon, Charles DeBlois, of Quebec, fell off a pole breaking both wrists and his right arm. He was removed to the Royal Victoria Hospital, where he rested well during the night. He is not yet considered out of danger.

THE HOSPITALS.—During the past six months 1,371 patients have been admitted to the Royal Victoria Hospital. Divided as to sex, there were 708 males and 663 females; as to religion, 7793 Protestants, 531 Catholics, 28 Jews and 19 of other religions. The daily average for the half year was 202. The ambulance responded to 251 calls.

CURATOR NAMED.—Mr. J. McD. Haines was to-day appointed curator to the insolvent estate of A. T. Forbes, doing business as a trunk maker under the name of A. T. Forbes & Co. Mr. A. W. Stevenson was appointed curator to the insolvent estate of S. Poplliger, clothier, of St. Lawrence street, who assigned some days ago.

WILL GIVE GARDEN PARTY.—The ladies' auxiliary of the Anglican Mission in Boulevard St. Denis will give a garden party and bazaar beginning Friday evening and continuing until Saturday night, at Zotique street. The entertainment is in aid of the mission in that part of the city. The St. Denis street cars run within a stone's throw of the grounds.

SMALL FIRES.—A shed and stable in rear of the residence of Mde. Bertrand, 102 Dufferin street, was almost entirely destroyed by fire about 2 o'clock on Sunday afternoon. Shortly after midnight on Monday morning the firemen were called out to Craig street, where car number 185 had taken fire. The blaze was extinguished without doing any serious damage.

FLUSHING THE STREETS.—The Road Department, Monday, acting under a new rule, used the hydrants, to which lengths of hose were connected, to wet the streets. Portions of Notre Dame and St. James streets were washed clean in this way. The new scheme did not work well, however, on portions of St. Lawrence and Ontario streets, on account of the bad state of the asphalt.

DIVIDEND DECLARED. — The earnings on the Calgary and Edmonton Railway, together with the Dominion Government subsidy for the last six months, have been such as to permit of the distribution of a 2 per cent. dividend on the first mortgage sterling bonds in England. The dividend is being paid out at the office of Messrs. Chaplin, Milne, Grenfell & Co., Limited, London, E.C.

A GAMBLING RAID.—The police raided the premises, 541 Amherst street, Monday night, and arrested six men, who they charged with gambling. The keeper was Henry McDuff. The others were Adelard Beaubien, Jos. Menard, Adolphe Lapointe, Alphonse Dauzon and Charles Latour. Before Judge Choquet this morning they all pleaded guilty, and were sentenced to a find of $20 each, except in McDuff's case. He must pay double the amount.

EXPLORE WIDER CREEK.—Mr. J. U. Janne de Lamarre, inspector-general of the Mining Society of British Columbia, and Mr. Alphonse Prevost are in Montreal. Mr. de Lamarre is making preparations to explore Wider Creek, the fall of which is very marked, and where hydraulic machinery to the extent of $80,000 has already been installed. Mr. Meradex, a mechanical engineer, will accompany the expedition, which will start in a few days for the Pacific coast.

MR. SMITH'S LECTURE—At the Church of St. James the Apostle, last evening, Rev. C. Ernest Smith, D.D., D.C.L., rector of the Church of St. Michael and All Angels, Baltimore, delivered an interesting address on "A Cavalier in Search of a Home." The cavalier of whom he spoke was George Calvert, the founder of the colony of Maryland. He gave a very fine character sketch of this great man, showing how he had always been actuated by a desire of bettering himself. During the evening Miss Marie Hollinshead contributed a number of songs.

JEWISH LADS' CADET BATTALION.—The Jewish Lads' Battalion had a most successful field day, Monday, under the command of Major Baker, the commanding officer. The muster was not quite equal to that expected, but there were two full companies, with bugle and drum band. The officers on parade were Adjt. Solomon. Quartermaster Rosenthal. Capts. Levinson and Caplan, Lieuts. Vineberg, Rell, Tannenboum and Hancher, with Capt. Harris unattached. The regiment marched to Mount Royal Vale, where they were entertained by the commanding officer and Mrs. Baker. After a short drill, the afternoon was spent in sports and baseball, in the latter No. 2 company defeated No. 1 by a score of 21 to 9. The march back was a most pleasant and enjoyable one, and the lads after their long walk arrived at headquarters in excellent condition, and as they passed down St. Lawrence street looked equal to any good seasoned soldiers.

A STIMULANT.

And a Sorry Friend to Some Systems.

"Coffee acts as a stimulant to me. I can for a time accomplish considerable more work, but then I am dull, spiritless, nervous, weak and irritable. Coffee acts like a slow poison on my father, giving him inward pains and a feeling of being generally upset. Continued use always used to make him ill.

He used to be very fond of the beverage and was in the habit of drinking it two mornings, say, then skipping a few days and taking it two mornings again. If he took it the third morning he was invariably sick. It is two years now since we had the first package of Postum. We have been using it ever since, to our very great benefit.

A lady friend who is the wife of a prominent clergyman in New Haven (whose name I am not at liberty to give) was a complete nervous wreck from the use of coffee. About a year ago she began the use of Postum and continued it. Six weeks after starting she had lost all her former nervousness, had grown plump in the face, and her health better than it had been for years. She is a splendid walking advertisement, and is most enthusiastic in the praise of Postum, telling all her callers [illegible] merits and urging them to try it." A NUMBER OF PROMOTIONS ON THE GRAND TRUNK.

A Large Number of Changes in the Operating Department.

Official announcement was made yesterday afternoon of the following promotions in the operating department of the Grand Trunk Railway:

Mr. A. S. Begg is appointed superintendent of St. Clair tunnel and terminals, embracing Port Huron tunnel and city, and Fort Gratiot Yards in Michigan; he will also assume the duties of agent at Port Huron tunnel, vice Mr. C. S. Cunningham, transferred.

Mr. Begg formerly held the position of assistant superintendent at London, Ont.

Mr. C. S. Cunningham is appointed assistant superintendent of first, second and third districts of the eastern division, in charge of matters pertaining to transportation and stations. Office at Island Pond, Vt.

Mr. W. W. Ashall is appointed trainmaster of fourth and fifth districts of the eastern division, vice Mr. C. H. Bevington transferred. Office at Bonaventure station, Montreal.

Mr. O. F. Clark is appointed trainmaster of sixth and seventh districts, vice Mr. W. W. Ashall transferred. Office at Belleville, Ont.

Mr. F. N. Egan, superintendent of the western division, has issued a circular approved by General Superintendent McGuigan, announcing the following changes and appointments:

Mr. R. P. Dalton, trainmaster at Battle Creek, Mich., is hereby appointed assistant superintendent twenty-fifth district, main line, Port Huron to Battle Creek, and 26th district, in charge of matters pertaining to transportation and stations. Office at Battle Creek, Mich.

Mr. X. H. Cornell, trainmaster, is relieved of the twenty-fifth district, Port Huron to Battle Creek and is appointed trainmaster of C., S. and M. section of twenty-fifth district, and twenty-seventh, twenty-eighth and twenty-ninth districts, vice Mr. J. Irwin, assigned to other duties. Office at Durand, Mich."

Mr. Fred. Price, formerly chief clerk of the car service department of the Grand Trunk, has been promoted to the chief clerkship of the General Superintendent's office, vice Mr. W. S. Rollo, resigned.

THE GRANBY SMELTER.

Mr. J. P. Graves, vice-president and general manager of the Granby Consolidated Mining and Smelting Company, is at the Windsor Hotel. Mr. Graves states that by September 1st the Granby will have a 1,200 ton daily capacity, or a yearly handling power of 500,000 tons. During the past six months the underground workings of the Ironsides, Knob Hill, Gray Eagle, Etna and Victoria have been connected, the total length of these workings being 2 1-2 miles.

One-half the machinery for the increased capacity is delivered and a good share of it is in position. Half of the steel required for the converter building is also on the spot. The additional ore bins and sampling works are all completed.

QUEBEC RIFLE ASSOCIATION.

The annual prize meet of the Province of Quebec Rifle Association will be held at Pointe aux Trembles, on August 13th and the two following days. The programme includes nursery, extra series, merchants, association, active militia, Carslake, military (skirmishing and volley firing) matches, for which the total prize money amounts to $2,306, besides cups, trophies, salver, badges and medals. There are four nursery matches, with fifty individual, twenty aggregate and two team prizes. The Lee-Enfield rifle will be used in all matches. Copies of the programme will be mailed in reply to a request addressed to the secretary, P. O. Box 889, Montreal.

BODY FOUND IN LUMBER PILE.

The decomposed remains of a man were found yesterday afternoon in a lumber pile at the corner of William and Guy streets. There is nothing to indicate the age or identity of the man. Judging by appearances the man must be dead at least a month.

FAILURES IN JUNE.

Liabilities of failures in the three weeks of June were $6,313,180; in the same weeks last year $5,102,815. Failures this week numbered 204 in the United States against 207 last year, and 23 in Canada against 21 last year.

NUMEROUS FOG SIGNALS ARE IMPERATIVELY NEEDED

On the Newfoundland Coast Says Captain Eversfield, Who Was a Passenger on the Lusitania.

In the opinion of Captain G. A. Eversfield, late of the steamship Lagoon, and who was a passenger on the now wrecked steamship Lusitania, the captain, the officers and crew of the vessel behaved like heroes. Captain Eversfield, who is a guest at the St. Lawrence Hall, said, in speaking of the accident, that Captain McNay was navigating his vessel with caution, and had every reason to think that the course he was taking was correct. They had spoken the Parisian on her way outward, and Captain McNay continued to cast the lead almost constantly. Indeed, just before the Lusitania struck the lead had been cast, and there was every indication of plenty of water and sea room.

Captain Eversfield states that the wrecking of the Lusitania saved another vessel from going on the rocks. About three hours after the Lusitania struck a strange steamship loomed up out of the fog, making straight for the rocks which held the Lusitania fast. Using what little steam the Lusitania still had in her boilers, the whistle was sounded and the oncoming steamship changed her course and disappeared in the fog. It was thought for a time that the strange vessel was coming to the assistance of the Lusitania, but it proved otherwise.

Of the causes of these disasters, Captain Eversfield states that in his opinion there should be numerous signals put on the Newfoundland coast. At the present time there was not one fog signal between Cape Race and St. John's, Newfoundland. This was to his mind a deplorable state of affairs. On the night the Lusitania was wrecked, her whistle was sounded at regular intervals, but no response was discernible by those on board the vessel.

MISS STEPHENS' ACADEMY.

The closing exercises of Miss Stephens' Academy took place Friday morning, June 21st, before the parents and friends of the pupils, Rev. Father Donnelly presiding. A programme of songs and recitations was very creditably rendered by the pupils. The following is the prize list:

1st, Miss May Foley, general proficiency; Miss Beatrice Hayman, 2nd prize, general proficiency; Miss Annie Kearney, prize geography, grammar, spelling, recitation.

Junior Class.—Miss Marie Vanier, 1st prize general proficiency; Master Eddie Sait, prize geography, spelling, tables, catechism; Miss Mabel O'Brien, prize reading, spelling, French, tables, catechism; Miss Gertie Foley, prize reading, French, tables, catechism; Miss Eva Gardner.

Primary Class.—Master Marcus Mullin, Miss Frances M. Carroll, Master Neilsen Collins, Master Harry Sait, Miss May McCrory, Master John Kearney, Master Henry Bartley, Master James Downs.

POINT AUX TREMBLES RANGES

Caretaker Allan has taken possession of his house by the riverside at the foot of the new range at Pointe aux Trembles, and reports that in the few days he has been there great progress has been made in the work. He says that the ranges will certainly be ready about August 1, and everything will be in apple-pie order for the matches of the Province of Quebec Rifle Association, which open on August 13, and for which great preparations are being made.

Pain in the Joints

may be muscular or rheumatic. The joints are hard to get at, and it requires a powerful, penetrating remedy to reach the affected parts. Polson's Nerviline exactly meets the requirements, for it is both powerful and penetrating. The pain is expelled as if by magic, for one drop of Nerviline equals in strength five drops of other remedies. You won't often call the doctor if Nerviline is in the house. Price 25 cents. 154 1

CANADIAN TRADE.

Jobbing trade is slow at St. John, but indications for fall are favourable, says Dun's Bulletin. The catch of lobsters and other fish is large, with good demand and profitable prices. Overtrading at Sydney makes the situation unsatisfactory, and payments slow. Crop prospects in Nova Scotia are bright. Montreal reports business very fair for the season, collections prompt and money easier. General quiet prevails at Quebec, but collections come in fairly. Warmer weather stimulates trade in summer wear at Toronto, and country merchants give liberal orders. Crop prospects are encouraging and the general outlook bright. Hamilton reports more activity in dry goods, and crop prospects satisfactory, especially for small fruits. Retail trade in Vancouver and other towns of British Columbia is quiet and collections slow, but northern shipments continue brisk, especially of hardware.

FREEDOM OF ST. JOHN, N. B.

Extended to a Resident of Cape Town Who Was Good to Canadian Soldiers.

(Special to the Star.)

ST. JOHN, N.B., July 3.—The City Council has passed the following resolution:

"That in recognition of the great services and unremitting attention tendered by R. Stuart Solomon, Esq., of Cape Town, South Africa, to the Colonial, and especially the Canadian forces taking part in the war in South Africa, the Common Council of the City of St. John do hereby confer upon Mr. Solomon the freedom of the City of St. John."

Mr. and Mrs. Solomon and daughter are now in St. John, the guests of Col. Armstrong. On the evening of the day of his arrival, Saturday last, Mr. Solomon was the guest of the Cliff Club, by invitation of Col. Markman. On Monday Mr. and Mrs. Solomon spent the day up the St. John River, and Miss Solomon was present at a picnic at Rothesay. This afternoon Mr. and Mrs. Solomon will be entertained at lunch by Colonel and Mrs. McLean, and to-night Mr. Solomon will be banquetted at the Union Club by a number of leading citizens.

REPAIRS TO THE DRUID.

(Special to the Star.)

QUEBEC, July 3.—The Federal Government has decided to make thorough repairs to the SS. Druid, in order that it may be utilized in the spring and autumn for rendering assistance to vessels that may require aid in the river or Gulf. It is possible that it may also be employed to test the practicability of winter navigation between Quebec and the north shore of the Gulf, in which case it would also carry the mails.

MURDERED IN THE YUKON.

(Special to the Star.)

QUEBEC, July 3.—Two young men belonging to Levis, who have just returned from the Klondike, confirm the report that another native of Levis was recently murdered at Dawson, and state that he was cowardly killed while tied between two trees, by parties who claimed that he had stolen a piece of meat from them. His friends had not heard of him since he left home two years ago.

LACROSSE IN THE STADIUM.

BUFFALO, July 3.—The Crescents of Brooklyn and the Senecas of the Cattaraugas reservation played a game of lacrosse in the Stadium at the Pan-American grounds this morning, the former winning by 4 goals to 2.

THE CANADIAN CRICKETERS.

PHILADELPHIA, July 3.—The Canadian cricket team began the third match of the series to-day with the Merion Club at Haverford, a suburb. The weather conditions were good and the true wicket gave promise of large scoring.

SAND PIPER II. WINS.

LONDON, July 3.—Frank Gardner's Sand Piper II. (C. Jenkins), won the race for a plate at the Newmarket first July meeting to-day. Richard Croker's Minnie Dee was second and Halka third.

GOVERNMENT NOT NOTIFIED.

OTTAWA, July 3.—The Government has not been notified about the flag incident at Buffalo.

SAUSAGES—Bolognas, 7c lb.; all other sausages, 8c lb.

FANCY BUTTER IS VERY SCARCE.

THE MAKE IS AFFECTED BY THE HOT WEATHER.

One Buyer Reports There Was No Fancy to be Had Here To-day—Portion of City Storage is Impaired—Hot Weather Makes Heavy Loss in Eggs.

CHEESE—The quality of the goods arriving is still decidedly off, and will continue so long as the hot weather lasts. The market for both cheese and butter is affected by the hot weather, and also by the fact that a considerable quantity of the cold storage in the city upon which merchants have been depending has been greatly impaired of late. Ontarios are quoted to-day at 9 to 9¼c; Townships at 8⅞ to 9c, and Quebecs at 8⅝ to 8¾c. Receipts keep up, being 14,071 boxes to-day. Heated goods sell down to 4¼c.

BUTTER.—The market is steady, but not very decided. The continuation of hot weather is knocking the quality out of the make, it being difficult to pick up fancy goods to-day. The butter suffers little or nothing by transportation owing to the cold storage cars. Fancy goods would probably bring 19¾c to-day, could they be found; fine quality is quoted from 19 to 19½c. Receipts reported on the Board of Trade today were fair, being 5,386 packages.

EGGS—The market is steady to firm, and receipts are light, being but 946 cases today. The loss is now heavy, owing to the muggy weather. We quote: Straight candled stock at 11½ to 12c, and No. 2 at 9 to 10c. Montreal dealers, for the most part, are holding f.o.b. prices down, as they are not specially anxious to deal at higher figures.

HONEY—Stocks are very light, and it is difficult to find any comb out of retailers' hands. Dark strained is quoted at 9c to jobbers, and light strained at 10c a lb.

MAPLE PRODUCTS—Kegs are being offered at 6c a pound, though tins are still held at 7c. Good sugar, 8½c.

BEANS—Primes in 6-bag lots are worth about $1.35 to $1.40 a bushel, hand-picked being 10 to 15c more.

THE GRAIN MARKET.

Trade is Very Dull Everywhere and the Market Shows But Few Changes.

The Liverpool wheat market was stronger to-day, September closing ⅝d up at 5s 6¼d. December closing ¾d up at 5s 7½d. Paris was steady, June closing 5 down at 20.80, September closing steady at 21.90. Antwerp was unchanged at 16½ for No. 2 red winter. London reported No. 1 standard Cala., passage, 28s 11½d; Walla Walla, passage, 28s 7½d; La Plata, July and August, 27s 6d; English and French weather cloudy.

The wheat crop of Chili in 1900 was a partial failure, and the decrease in the exportation of that cereal was $1,337,556—in fact, instead of being an exporter of wheat Chili has imported several cargoes from the United States and Australia during the present year.

Bartlett, Frazier and Co.'s private Chicago wire quoted grain fairly steady this forenoon. At noon, Sept. wheat was steady at 66¼c; September corn unchanged at 46⅝c; September oats unchanged at 27⅝c. Pork showed a decided decline, September being 20c down, at $14.50.

LOCAL MARKET—Holders were demanding 35¼ cents for oats to-day, and buyers would grant only 35c afloat. Trade was consequently very dull. Peas firm at 77 cents afloat. Barley was steady at 51½c afloat for No. 2; buckwheat, 60c afloat; red and white Ontario wheat, 73½c, and No. 2 spring, sellers, at 75c afloat.

FLOUR—Manitoba spring patents, $4.30; best strong bakers', $4; winter wheat patents, $3.60 to $4; straight rollers, $3.20 to $3.40; in bags, $1.60 to $1.65.

ROLLED OATS—Trade is dull and prices are actually lower than in the west. Quotations are $3.60 in barrels and $1.75 in bags.

FEED—Manitoba bran, in bags, $13 to $14; shorts in bags, $14.50 to $15; Ontario bran, in bulk, $13 to $13.50, and shorts, $14 to $14.50 in bulk; moullie, $18 to $25.

HAY—The market is easy. Prices are $11 for No. 1, $9.25 to $10 for No. 2, and $8.50 to $9.25 for clover.

TORONTO, July 3.—Wheat—Read and white are quoted by exporters at 62c north and west, and 63c middle freight, and holders are asking 64 and 65c. Goose No. 2 sold at 62c east and 61c middle freights. Spring No. 1, 67c east. Manitoba No. 1 hard, 83½c; No. 2, 81½c, and No. 3, 76½c g.i.t.

Flour—Quiet; 90 per cent. patents, $2.60 in buyers' bags, middle freights. Choice brands are held at 15c to 20c higher. Hungarian patents are $4.25, and strong bakers $3.95 in car lots, bags included, Toronto.

Millfeed—Steady; shorts, $12.50, and bran, $10.50 to $11 in car lots west.

Barley—Dull; No. 2, 42½c, and No. 3 extra, 41c, middle freights.

Rye—Steady at 49c east.

Corn—Steady; Canada yellow, 39½c west, Canada yellow on track here, 45c.

Oats—Easy; No. 2 white, 29c north and west, and 29½c to 30c middle freights; No. 1, 31c east.

Oatmeal—Steady; barrels, $3.75, and bags, $3.65, in car lots on track here; 20c more for smaller lots.

Peas—Firm at 69c middle freights.

MANITOBA WHEAT.

(Special to the Star.)

WINNIPEG, July 3.—Wheat, Fort William freight rate, 70c; Brandon freight rate, 57c.

THE CATTLE MARKET.

London reported Canadian cattle and sheep selling at 11½c, while Liverpool reported the same price for cattle, but a decline to 10½c for sheep. Owing to the continued discouraging cable advices from all the leading markets, new business in export live stock circles is very slow. The competition between buyers of export cattle in the west has subsided to some extent, and in consequence prices have found a lower level, and with increased offerings of grass fed stock, which are coming forward in good condition, shippers have no difficulty in filling their wants. For choice steers prices have declined from the top 20c per 100 lbs., and now rule at $5.10 to $5.25, with medium at $4.50 to $4.90, and export cows at $4 to $4.50.

TORONTO, July 3.—Thirty-eight loads in to-day, including 730 hogs, 500 sheep and lambs, and 36 calves. Export cattle, choice, $4.75 to $5.10 per 100 lbs.; export cattle, light, $4 to $4.75; export bulls, choice, $3.80 to $4.25; butchers' cattle, picked lots, $4.25 to $5.00; butchers' cattle, medium mixed, $3.40 to $3.80; butchers' cattle, common, $2.50 to $3.25; feeders, heavy, $4 to $4.60; feeders, light, $3.25 to $3.80; stockers, $2.50 to $3.25; milk cows, each, $25 to $47; export ewes, $3.50 to $3.65 per 100 lbs.; export rams, $2.50 to $3 each; lambs, $2.50 to $4; calves, per head, $1 to $8; hogs, singers, $7.25; fats and lights, $6.75 per 100 lbs. off cars. Trade very bad for all kinds of cattle.

IRON AND STEEL.

Bessemer pig is still freely taken, although there is complaint that orders are for prompt delivery only, says Dun's Bulletin, of New York. In structural shapes activity continues, and the new plant of the Colorado Company takes a large quantity. Hardware, especially for builders, is a feature, and an enormous fall trade is anticipated. Of agricultural implements and railway supplies there is a liberal movement. Steel rails are being produced at an unprecedented rate, and billets are sufficiently scarce to command top prices. Predictions that this manufacture is being overdone are heard less frequently, and the markets have settled into a regular position without efforts to secure easier terms. Present conditions are in marked contrast to the declining quotations and general inactivity of a year ago.

MORE HORSES FOR SOUTH AFRICA.

A SHIPMENT OF ONE THOUSAND HEAD TO BE TAKEN

On the Leyland Line Steamer Indian Which is Now on Her Way to Montreal—She Will Sail About the Middle of July From This Port.

On or about the fifteenth of July another cargo of Canadian horses will leave the port for South Africa. The Leyland Line steamship Indian has been chartered by the Imperial Government for the duty and is now on her way out from London, having sailed from that port for Montreal on June 25.

Mr. Thomas Harling, Canadian representative of the Leyland Line, stated this morning that the Indian would take out between 800 and 1,000 horses. This vessel is one of the largest cargo carriers, probably the largest, engaged in the Canadian trade, and sailed from Quebec some weeks ago with a phenomenal cargo. The Indian desires upon reaching this side to take on three thousand tons of steam coal, and it is not at all unlikely but that she will for this purpose be ordered back to Sydney when she reaches Father Point on her way up.

THE TRACKMEN'S STRIKE.

Local Committee at Winnipeg Said to be Short of Funds—Mr. Wilson Interviewed.

TORONTO, Ont., July 3.—There is no truth in the report that the striking C. P. R. trackmen have been in any way successful in their effort to get the men on the Grand Trunk, west of Kingston, to strike, the object lesson the latter experienced about a year ago not having been forgotten yet.

WINNIPEG, July 3.—The local committee of Canadian Pacific Railway striking trackmen here are evidently getting short of funds, and are appealing to Montreal committee for financial aid. The large amount of wages already lost by the section-men is a source of anxiety amongst store-keepers who are wondering where they are going to get their pay for goods supplied.

MR. WILSON'S CLAIMS.

OTTAWA, July 3.—President John T. Wilson, of the Brotherhood of Railway Trackmen, accompanied by Mr. A. E. Baker, of Merrickville, is in the city to interview the Deputy Minister of Labour and ask him to take steps to prevent aliens from being brought into the country to take the places of the striking trackmen on the Canadian Pacific Railway. Mr. Wilson, speaking about the strike says the wages paid the trackmen on the C. P. R. are altogether too low, but the men only struck when they found all their efforts to make an amicable settlement were met with rebuffs by the C. P. R. officials. He says aliens are being brought into the country to take the places of the strikers. Ninety-five per cent. of the trackmen all over the C. P. R. system are out on strike and although five thousand people are affected, Mr. Wilson says there have not been fifty deserters in the lot.

Later.—Mr. John F. Wilson, president of the International Brotherhood of Railway Trackmen, who is directing the strike of the C. P. R. trackmen, to-day called on Mr. King, deputy Minister of Labour, and complained to him that the C. P. R. is importing men to take the places of the strikers. Mr. King told Mr. Wilson that he would write to the C. P. R. pointing out that the complaint had been made and enclosing a copy of the alien labour act.

NEW YORKER GETS BRITISH WAR MEDAL.

A. M. Blenus Rendered Important Services During the Siege of Ladysmith.

(Special to the Star.)

WASHINGTON, D.C., July 3.—Ambassador Choate, at London, has informed the Department of State that a South African war medal has been awarded to Mr. A. M. Blenus, of New York city, in recognition of valuable services rendered to the English troops commanded by Sir George White, imprisoned at Ladysmith.

When Ladysmith was enduring siege, awaiting relief by General Buller, the water supply became exhausted. There was a small lake within the English lines, however, and American ingenuity suggested that an old fire engine be utilized to pump water from this lake into the camp. General White assigned Blenus to attend to the engine. At times the position was perilous, being within range of the Boer guns. It was for gallantry in standing by his post of duty that the war medal was awarded to Mr. Blenus.

A COLUMBIA ACCIDENT NOW.

BATEMAN'S POINT, R. I., July 3.—Thoroughly repaired and newly groomed the two big 90-footers, Constitution and Columbia came out to-day for another race under the auspices of the New York Yacht Club over a triangular course of 30 miles, ten miles on a side.

The Columbia was the first to come out of the harbour about 10.30, beating down under mainsail, two head sails and club topsails. The Constitution followed five minutes later under a similar suit of sails. Getting outside, the yachts found a fine breeze from the south-west and stood out to the starting point.

The weather off shore was quite thick and there was very little hope that much of the race could be seen from the land.

As on Monday, the start was five miles off Brentone Reef lightship, owing to the direction of the wind. The Columbia went across the starting line the first at 12.25.33; Constitution at 12.25.54 (unofficial timing).

12.43 p.m.—Columbia has met with an accident and looks as if she has carried away her bob stay. Both boats' sails are being taken in. Constitution is also taking in her baby jib topsail. The race is apparently over.

ENORMOUS LAKE TONNAGE.

SAULT STE. MARIE, Mich., July 3.—All monthly records in the history of lake commerce passing through the ship canals at this point were broken during June, when the enormous total of 4,519,075 tons of freight passed through. It exceeded the next largest month's traffic, June 1900, by over four hundred thousand tons. The largest items were: Iron ore, 3,161,982 tons; wheat, 3,421,802 bushels, other grains, 1,667,757 bushels. The vessel passages numbered 3,197 and the registered tonnage was 3,975,392.

HIGHLANDERS HOME AGAIN.

TORONTO, Ont., July 3. — The 48th Highlanders arrived home from Buffalo on their special train about midnight last night, tired, but happy, in the recollection of a most enjoyable three days full of novelty and excitement. Officers and men were delighted with their reception at Buffalo. They all declared they met with unbounded hospitality, and that the arrangements for their comfort were perfect.

MARRIED FOR FIFTY YEARS.

TORONTO, Ont., July 3. — A. McLean Howard, clerk of the first division court and Mrs. Howard, celebrated their golden wedding anniversary yesterday. Mr. Howard was born in Toronto in 1825, his father being the second postmaster of Toronto. Captain Howard, of the N.W.M.P., who went through the South African campaign as a subaltern in the Strathcona's Horse is a grand-son.

TRUST TO CONTROL BITUMINOUS COAL.

COMBINE TO BE FORMED SECOND TO STEEL TRUST.

J. P. Morgan, Who is the Leader, Said to Have Made First Step Three Years Ago and Will Now Complete Combination—All Eastern Mines Involved.

(Special to the Star.)

CLEVELAND, Ohio, July 3.—The Leader says:

"Before September 1 all the big companies producing bituminous coal will have been gathered into one organization similar to the United States Steel Corporation. The capitalization will be enormous, probably second only to that of the big Steel Trust.

From what can be learned, work on the Coal Trust has been under way for a greater length of time than any of the other industrial combinations. J. P. Morgan, the advocate of coalition, first started with his coal combinations three years ago, making the first movements along the line of controlling the products of the Ohio and West Virginia fields. At that time he obtained complete control of the mining property in the Hocking and Shawnee valleys. In order to give an outlet for this coal he purchased certain railway property, and this started the combination mania along the line of railway ownership, which has gone to extraordinary lengths.

The proceedings in the present combination are similar to those in the formation of the Steel Trust. All the coal properties in the Pittsburg district which ship coal to the lakes were collected into one organization, known as the Pittsburg Coal Company. The same interests which ship coal down the river formed what has since been known as the Monongahela Coal Company. An organization was completed in Chicago 10 days ago, known as the Illinois Coal Company, which owns two-thirds of all the coal land in Illinois and Western Indiana. About the same time it became known that M. A. Hanna and others in this territory had about completed the absorption of most of the coal properties in the Massillon district.

The West Virginia coal production is virtually owned by one company, the Fairmount Coal Company, which, in turn, is the property of the Baltimore and Ohio Railway. The other interests in the territory are owned by the Norfolk and Western Railway, the Chesapeake and Ohio Railway, or the Pennsylvania Railway, all of which, with the Baltimore and Ohio, form practically one organization, being owned by one company. Now the Illinois Coal Company, Pittsburg Coal Company, Monongahela Coal Company, Fairmount Coal Company, Hocking Coal Company and Massillon Coal Company are all to be collected into one big organization, all operated from one general office. The aim is to effect a monopoly of bituminous coal production in the territory east of the Mississippi and north of the Ohio and Potomac. To the accomplishment of this end Mr. Morgan is said to have given himself without reserve, and will take it up as soon as he returns from Europe.

THE GREAT STEEL STRIKE.

Thirty-seven Thousand Men Directly Affected by it, and Many More Indirectly.

(Special to the Star.)

NEW YORK, July 3.—The very large number of 37,000 men are affected by the steel strike now in progress.

The cities and towns affected and the number of men employed at each place are:

In Pennsylvania—Pittsburg, 8,000; Sharpsburg, 1,000; Sharon, 1,200; Greenville, 800; McKeesport, 1,000; Chartiers, 600; Vandergrift, 800; Apollo, 2,000; Scottdale, 1,200; Leechburg, 800; Saltsburg, 900; Hyde Park, 600; Shousetown, 500; Monessen, 800; Duncansville, 600.

In Ohio—Bridgeport, 3,500; Cambridge, 800; Youngstown, 2,500; Canton, 800; New Philadelphia, 900; Canal Dover, 1,000; Struthers, 900; Wellsville, 500; Dennison, 400; Dresden, 400; Niles, 2,000; Coshocton, 800; Piqua, 600; Pomeroy, 800; Warren, 500.

In Indiana—Muncie, 1,200; Hammond, 500.

In West Virginia—Chester, 400.

The above does not include miners, coke workers, ore handlers, etc., employed by the American Sheet Steel and American Steel Hoop companies, who will be thrown idle by the strike. They will bring the total up to forty-five or fifty thousand men

BETTER PAY FOR THE MEN.

The Ottawa Street Car Company Comes to Terms With Its Employes.

OTTAWA, Ont., July 3.—The motormen and conductors employed by the Ottawa Electric Railway Company have come to an amicable agreement with the company in connection with their request for higher wages. The men were getting thirteen cents an hour for the first year, fourteen cents for the next two years, and fifteen cents after three years. The Sunday rate was two cents an hour higher. The company paid half the cost of the clothing. By the new schedule the men will get 14 cents per hour for the first year, and 15 cents an hour afterwards. They will get an increase of two cents an hour for Sunday work. All the men who have been in the service of the company for three years will get their clothing for nothing. Stars will be given for every five years' service, the stars to be worn on the collars of the coat. The increase to men means an addition of $7,000 or $8,000 yearly. The men are said to be satisfied with the increase.

THE TWELFTH OF JULY.

Preparations for a Grand Celebration at Various Points in Manitoba.

(Special to the Star.)

WINNIPEG, July 3.—A programme has been arranged for a grand twelfth of July celebration throughout Manitoba. Parades will be held at Neepawa, Emerson, Boissevain, and Dominion City, with monster gathering here of Orangemen from all over the province who will attend from their several districts. Hon. N. C. Wallace and other eastern speakers are expected, and Hon. D. H. McFadden, Grand Master for Manitoba, will superintend the celebration at Neepawa where 500 Orangemen from Winnipeg will congregate.

BUFFALO BANK FAILURES.

BUFFALO, July 3.—William H. Hotchkiss, counsel for the City National Bank, said to-day: "Acting on the instructions of the Comptroller of the Currency, we are formulating plans which, in my judgment, will render the appointment of a permanent receiver for the City National Bank unnecessary and will bring order out of chaos in a very short time."

A meeting of the directors of the City National Bank was held this morning at which the plan of Mr. Hotchkiss referred to above, was discussed, but inasmuch as it must be approved by the Comptroller of Currency, Mr. Hotchkiss declined to make any further statement whatever. He believes the bank will pay 100 cents on the dollar, and that the stockholders will realize something.

July Clearing Sale!

All our departments are acting on the principle for July of clearing out stock regardless of profit. The process is imperative once or twice a year to keep a large business healthy. The public is the direct gainer in money-saving, but an indirect gain results to the seller. This season we mean to out-do former clearing records if big "cuts" can accomplish it. Read the undernoted values, they speak for themselves:

QUEBEC SHIP LABOURERS.

(Special to the Star.)

QUEBEC, July 3.—Judgment has been rendered by Judge Caron, ordering the Ship Labourers' Society to pay over $3,000, the balance of its funds, to Mr. Lefaivre, who was appointed curator on petition of some of its members. After the passage of the act to repeal the charter of the society, the pretence of the society was that the present body being practically identical with that whose charter was repealed nobody else had a claim to its funds but itself.

THE CUSTOMS REVENUE.

The Receipts From Tariff Taxation are Still Increasing—An Increase of $200,000 Last Year.

(Special to the Star.)

OTTAWA, July 3.—The actual amount received at the Accountant's office, Ottawa, as Customs revenue for June last was $2,340,201, an increase of $148,463 over the same month of last year, when the receipts were $2,191,737. For the fiscal year, ending June 30, the revenue was $81,236 in excess of the preceding twelve months. The figures are: 1901, $28,990,254; 1900, $28,909,018. The receipts from customs duties at outlying points, which will probably amount to $100,000, have yet to be received. When these are in hand, they will make the aggregate increase of revenue for the year $200,000. The Customs revenue has increased by the amount of $9,000,000 since 1896. In that year the customs receipts were $20,219,037; in 1897, $19,891,996; in 1898, $22,157,788; in 1899, $25,734,228; in 1900, $28,909,018; and in 1901, $28,990,254.

BRITISH CEMENT TRADE.

Makers are Accused of Not Being Able to Compete With the Americans and Germans.

(Special to the Star.)

LONDON, July 3.—Mr. Bell, British Commercial Agent in the United States, in reporting on the cement industry there, says he thinks British cement makers are not paying sufficient attention thereto. Apart from the increased employment of home-made cement, which rose from 13.2 per cent. to 73.9 per cent. of the total used in America between 1891 and 1899, that of the German and Belgian makers is supplanting the British, which for the nine months ended in March, 1901, was only 11 per cent. of the total imported. Mr. Bell quotes an expert and importer as saying that the decline in the importation of British cement is due to the better quality of the German article, and the cheapness of the Belgian, while the British makers are unwilling to improve the quality of their product.

CRISIS IN THE LIBERAL PARTY.

SIR HENRY CAMPBELL-BANNERMAN MAY RESIGN.

He Delivers a Resentful Speech at Southampton, and Calls a Meeting of the Party for Tuesday — The Asquith Faction Hoping for Lord Rosebery's Co-operation.

(Special to the Star.)

LONDON, July 3.—Sir Henry Campbell-Bannerman made a speech at Southampton last evening, in which he said that the great body of the Liberal party was composed of sound, sensible and loyal Liberals, anxious to act with moderation, and to subordinate their individual prejudices to the general interests of the party. He added: "I have endeavoured as leader, to act in co-operation with these men. I have not allied myself wiht any extreme section; but it has always been difficult, and it is now seemingly impossible, for me to preserve unity, owing to the persistent schemes and efforts of a few, who, under the influence of some personal jealousy or antipathy, are constantly magnifying and embittering such differences as exist. It is time to be done with these practices. I shall appeal to my fellow Liberals in the House of Commons, and, if necessary, to all true Liberals in the country, for support to put down this disorder and restore the efficiency of the party."

THE IMPERIALISTS' PLANS.

LONDON, July 2.—A meeting of the Liberal party has been convened for next Tuesday, at which it is expected Sir Henry Campbell-Bannerman will virtually tender his resignation as leader.

The Imperialist section of the Liberal party, headed by Herbert H. Asquith, former Liberal home secretary, has been doing its utmost to enlist Lord Rosebery on its side, but up to the present time the latter has made no sign of meeting its desires. Lord Rosebery arrived at Vienna from Castein yesterday on his way to England. He will arrive in Londoon next Friday. Should he be willing to resume the leadership and support Mr. Asquith, it is probable the latter would become the party leader in the House of Commons.

It was understood that Mr. Asquith would have long ago been selected as leader of the Imperial party had he been possessed of ample means. This financial difficulty would be surmounted by the re-umption of the leadership by Lord Rosebery.

AN IMPORTANT MEETING.

NEW YORK, July 3.—The Tribune's London correspondent cables: Sir Henry Campbell-Bannerman has not, by his speech at Southampton last night, succeeded in healing the breach in the Liberal party. The leader of the Opposition has, in fact, adopted a decidedly militant attitude. His defiant statement that he withdraws nothing, and his suggestion that Mr. Asquith and his supporters are influenced by jealousy, can only aggravate the crisis. In the meantime, the outcome of the meeting of the entire party, which is to be held next Tuesday, at the Reform Club, is awaited with great interest in political circles. It is understood that the meeting has been called at the request of the leader of the Opposition, who regards the present developments as a direct personal attack on himself. In the circumstances, Sir Henry Campbell-Bannerman may contemplate resignation.

EARL RUSSELL IS NOW IN THE HANDS OF BLACK ROD.

He Appears at the Bar of the House of Lords and Asks for a Postponement of His Trial.

LONDON, July 3—Earl Russell appeared at the Bar of the House of Lords yesterday. He was formerly taken into custody, on the charge of bigamy, by Black Rod, General Sir Michael Biddulph. When asked if he had any application to make, Earl Russell requested that the trial be postponed beyond July 18, in order to enable him to prepare his defence. His application will be heard July 4. The Earl was released on bail. The proceedings were private.

BERESFORD WANTS TO RESIGN.

(Special to the Star.)

LONDON, July 3.—It is stated that Rear Admiral Lord Charles Beresford is desirous of resigning command of the Mediterranean Squadron next February, in order to be free to criticize the Government's naval and military policy and its administration of affairs in general.

Shape-retaining,

When you step down, your foot sinks into the Resilia Centresole, away from the toe cap.

This makes the shoe a size larger inside, when your foot is widest, so the upper leather is never stretched out of shape over ball.

When you lift your foot, the insole expands from the outsole, thus taking up slack in the leather, preventing wrinkling and over running on sides.

The shoe thus retains shape and wears longer, because it is never over-stretched.

TRANS-CANADA RAILWAY.

Work on the Road Has Been Formally Inaugurated and Will be Rapidly Pushed Now.

(Special to the Star.)

QUEBEC, July 3.—An interesting event that occurred on Saturday last at Roberval, is reported from that place, in connection with the inauguration of the Quebec and James Bay Railway, to be known in future, under the name given by its Dominion charter, as the trans-Canada Railway. The charter stipulated that the work should begin not later than the 29th June, and to conform to this requirement of the law the contractor, Mr. Joseph Paquet, of Levis, had had quite a force of men at work for some days previously, upon the first section of ten miles, the location of which had just been completed by Mr. Doucet, chief engineer, assisted by Messrs. O'Sullivan, Ord and Gauvin.

On Saturday, a number of gentlemen from Quebec and Chicoutimi, who are financially interested in the new road, met at Roberval and formally inaugurated the beginning of the work in the presence of a large assemblage of spectators. The Rev. Mr Paradis, cure of Roberval, after a few graceful remarks, recited the usual prayer of benediction prescribed by the ritual of the church, and then turned the first sod, after which some of the ladies present, including Mrs. B. A. Scott, wife of the Mayor of Roberval; Mrs. Reginald Gardiner, and Mrs. E. E. Ling, of Quebec, and Mrs. Sloane, of Syracuse, N.Y., followed his good example and wielded shovels with great dexterity.

The party then adjourned to the verandah of the Hotel Roberval, near which the new road commences, where speeches by Messrs. Joseph Girard and George Tanguay, the Federal and provincial members for the county, and by Mr. J. D. Guay, the Mayor of Chicoutimi, terminated the day's proceedings. A pleasant feature of the celebration was the arrival during the ceremony, of the special train bringing home the 18th Saguenay Regiment, under Lieut.-Col. B. A. Scott and Major Savard, which had just completed its annual training in camp at Levis. The presence of so many redcoats and the music of the regimental band did much to add to the eclat of the proceedings. The work of construction will now be rapidly pushed.

MEETINGS.

PAST AND FUTURE.

DIVISION NO. 3, A.O.H.—Division No. 3, A.O.H., will hold its semi-monthly meeting to-night at the hall, No. 1863 Notre Dame street. Business of importance is to be submitted to the division.

HACKMEN'S UNION.—A big meeting of hackmen will be held this evening in the Monument National, in room 4. Several aldermen, including the police committee, have been invited to address the gathering.

TO DISCUSS LIGHTING CONTRACT.—The brass workers will meet to-night in the Oddfellows' Hall, 251 St. James street, and will discuss the lighting question. President Griffiths will tell the members how Detroit got cheap lighting.

WHOLESALE CLOTHING CUTTERS' UNION.—The Wholesale Clothing Cutters met last night in St. Joseph's Hall. After attending to the correspondence the meeting adjourned until the third Wednesday in July, owing to the extreme heat. The new officers are to be installed at the next meeting.

SHEET METAL WORKERS' UNION.—The Amalgamated Society of Sheet Metal Workers met last night. A letter was read from the Canadian Socialistic League, asking for co-operation and financial assistance for the purpose of placing an organizer in the field. It was decided to join with the plumbers and steamfitters and hold a monster picnic at St. Hilaire on the 10th of August.

MUNICIPAL REFORM ASSOCIATION.—There will be a mass meeting of citizens in St. Joseph's Hall to protest against awarding the contract to the highest tenderers for the civic lighting. Hon. G. A. Nantel will preside. The public is invited to turn out. The Municipal Reform Association will hold a public meeting in Chaboillez square on Friday evening to discuss the lighting contract. Mayor Lighthall, of Westmount, and others will speak.

EXCELSIOR LODGE, NO. 12, I.O.O.F.—The regular weekly meeting of the Excelsior Lodge, No. 12, I.O.O.F., was held in the Oddfellows' Hall, 251 St. James street. Bro. Emo, N.G., was in the chair. One candidate was initiated into the mysteries of Oddfellowship. It was decided to elect representatives to the Grand Lodge meeting next Tuesday evening. The Grand Lodge will meet on the 20th of August in Unity Hall, Point St. Charles. The new officers will be installed by D.D.G.M. Parker and Grand Lodge officers at the next meeting.

BROTHERHOOD OF CARPENTERS AND JOINERS.—At last night's meeting of the Brotherhood of Carpenters and Joiners, held in the Trades Council Hall, 209 Dorchester street, ten new candidates were initiated. Addresses were delivered by prominent members of the Building Trades League. It was stated that of 214 cities in which the United Brotherhood of Carpenters and Joiners of America had strikes during the year 1900, they were defeated in only six of them. In seventeen of the said cities compromises were effected, leaving 191 cities in which the strikers won their point.

WILL OPPOSE BARBERS' ASSOCIATION.—The boss and journeymen barbers who are opposed to the Provincial Barbers' Association, met on Sunday afternoon at 236 Roy street, formed a union and elected the following officers: President, Louis J. Paradis; secretary, C. J. Dagois; treasurer, M. Foster. It was decided to send delegates and legal advisers to the next session of the Quebec Legislature to oppose the bill incorporating the Provincial Barbers' Association. It was decided to hold another meeting next Sunday in the east end of the city at 1154 Ontario street, at 2 p.m.

LADY MACCABEES ENTERTAINED.—A very pleasant time was spent last evening, when the members of De Jersey Tent, No. 10, K.O.T.M., entertained the Lady Maccabees and their friends to a splendid programme and refreshments. The chair was occupied by Sir Knight Hollingsworth, deputy supreme commander for the Province of Quebec, ably assisted by Mrs. Burrough, lady commander of Regal Hive, Ladies of the Maccabees, and Sir Knight Dewar, chaplain of No. 10, who was chairman of the entertainment committee. After a very lengthy programme of songs and speeches, refreshments were provided, and the evening was much enjoyed by a large number.

MEETINGS THIS EVENING.

Wellington Lodge, No. 20, I.O.O.F., in Royal Bank of Canada Chambers, corner Seigneurs and Notre Dame streets.

Lansdowne Lodge, No. 9, I.O.O.F., at 6 Craig street.

The British Imperial Army and Navy Veterans' Association, at 132 St. James street. Nine candidates will be initiated.

Plasterers' Union in the Federated Trades and Labour Council Hall, 569 Dorchester street.

Heavy Carters' Union, in Chatham Hall, 154 Chatham street.

Merchant Clerks' Union, at 122 St. Denis street.

Printing Pressmen's Union, at 123 McGill street.

BANQUET TO RABBI ASHINSKY.

A banquet was last night tendered at the Standard Hall, St. Catherine street, to Rabbi Aaron M. Ashinsky on the occasion of his re-election for five years more as Rabbi of the Congregation B'nai Jacob, Cadieux street synagogue. The officers and past officers of all the congregations, as well as several other prominent citizens were invited to partake of the good things provided. Mr. L. Kerr acted as chairman. Rabbi Ashinsky addressed those present in his usual eloquent manner. Mr. D. Sperber, president of the congregation, and the representatives of the other congregations, also spoke.

Rabbi Ashinsky first came to the congregation five years ago. He was elected for three years, then re-elected for the same term. Only two years of the second term have elapsed, but the congregation held a special meeting, and made the re-election to date for five years from the present. He is recognized as Rabbi by the whole community, and the Provincial Government also recognize him as the Jewish chaplain.

MORE CASES OF SMALLPOX.

Several cases of smallpox have been reported to the Provincial Board of Health from Franklin Centre, in Huntingdon Co. An inspector of the board has been sent out to look after the matter. Dr. H. G. Martin, of Carleton, Bonaventure Co., an inspector of the board, has been sent to Barachois de la Maibale, where there are eight cases reported. A fresh case has been reported from the town of St. Jerome. On the other hand, the town of Valleyfield has been declared exempt from the disease.

Dr. Pelletier, secretary of the Board of Health, expressed some fear that the epidemic might spread in spite of the precautions taken here. Certain States of the Republic to the south have no adequate regulations for dealing with epidemics of this nature, and, as a consequence, the travellers who come here from all parts of the States are liable to bring in the disease.

MARRIED ON DOMINION DAY.

Mr. Jules Crepeau, of the City Clerk's Department, Wedded—Dined by His Friends.

Mr. Jules Crepeau, the popular chief clerk of the City Clerk's office, was married on Dominion Day to Miss Maria Roy. Rev. Father Adam performed the ceremony. Before the marriage Mr. Crepeau was entertained to dinner at the Riendeau Hotel by the clerks at the City Hall. During the evening Mr. Crepeau was the recipient of a very handsome present. Among those present were: Ald. Raby, Ulric Richard, R. Drouin, R. Dore, Arthur Benoit, Max Groulx, F. A. Pinoteau, G. Lebel, F. A. Durand, E. Dupre, J. G. R. Flynn, J. Asselin, Eug. Langlois, A. Berthiaume, F. Filiatrault, Jos. Vignault, J. R. Mainville, notary; A. Parent, J. McCall, Ad. Benoit, Auguste Boite, Ed. Bolte, O. Primeau, C. Lalumiere, P. Kenehan, A. Poullot, Louis Morin, de Lyon, France; T. Sullivan, Isaac Slomensky, Abraham Conwesky, P. Morgan, Chs. Lalumiere, Oscar Primeau, W. R. G. Harden, J. A. Denault.

THEATRE FRANCAIS LICENSE.

The license commissioners yesterday afternoon granted a license for the Theatre Francais cafe. It has been tastily fitted up and will soon be open to the public. The following license transfers were signed: Jos. R. Lesage, to C. Labelle, 431 Craig street; C. Lareau, to Mrs. F. X. Lafrancois, 945 St. Lawrence street; Edward Brophy, to Alfred Thompson, 1031 St. James street; Francis Brophy, to Edward Brophy, 33 Aylmer street; Hugh Lechir, to Jos. B. Dorion, 56 Bonaecours street; J. C. Macrae, to Francis Gallagher, 154 St. James street; and H. Viau, to Jacob N. Fried, 131 Common street.

THE KNABE PIANO AT THE VATICAN.

The Distinguished Baltimore Pianoforte Makers Appointed Purveyors to the Pope and the Vatican.

(By Telegraph to Music Trades.)

Baltimore, June 16, 1901.

Wm. Knabe & Co., who are represented in Montreal by Messrs. Willis & Co., 2470 St. Catherine street, have just received a cablegram from Rome, through Cardinal Moceni, Prefect of the Apostolic Palaces, that the house of Wm. Knabe & Co. have received the appointment of purveyor to His Holiness Pope Leo XIII., as well as to the Apostolic Palaces of the Vatican.

This is the first and only appointment of this nature ever made, and is a distinguished honour to the house of Knabe.

SUBURBAN NOTES.

Mr. T. Harrison, of Montrose avenue, Westmount, has left on a visit to the Pan-American.

A series of trial races will be held at the Grand Trunk Boating Club, Point St. Charles, this evening.

Miss M. Ker, Wellington street, Point St. Charles, is gradually recovering from a severe attack of typhoid fever.

The Point St. Charles Athletic Association are arranging for a series of bicycle races, to be held at Queen's Park on Friday evening.

Mr. W. J. Cleghorn, of the Westmount Gun Club, is doing some good shooting at the interstate trap shoot that is being held at Sherbrooke.

The Point St. Charles baseball team is out to win the championship in the Amateur Baseball League. Up to the present they have not been defeated.

During the thunderstorm early yesterday morning the barn and stables of Mr. Joseph Corbell at Sault au Recollet were struck by lightning. The loss will amount to $500.

Rev. Charles B. Ross, B.D., pastor of St. Andrew's Presbyterian Church at Lachine, announces that Rev. Prof. James Ross, D.D., will occupy the pulpit at Sunday services during the months of July and August.

The two swans presented to the town of Westmount by the Mayor of Victoria, B.C., are dead. As already announced, the male bird died in the early part of last week. The female one seemed to stand the climate better, but the extreme heat of the last couple of days proved too much for it.

Yesterday morning the marriage of Miss Jennie Lonergan, eldest daughter of Captain John Lonergan, of Point St. Charles, to Mr. J. A. Brosseau, of the Dominion Transport Company, took place at St. Ann's Church, Rev. F. Caron officiating. After the wedding breakfast Mr. and Mrs. Brosseau left on a trip to Portland and Old Orchard Beach.

At the Grand Trunk Boating Club, Point St. Charles, last evening, an enthusiastic reception was tendered to the club representatives who did so well at the recent races at the Pan-American. They were Messrs. C. McLean, C. N. Marshall, A. Veary and C. L. Marshall. An enjoyable concert was given, and as nearly every member of the club had turned out to do honour to the boys, the affair proved a decided success.

A business meeting of the Westmount Town Council was held at half-past four o'clock yesterday afternoon. Mayor Lighthall presided, and there were present Councillors McIntosh, Walker, Bulmer and Knowles. Councillor Walker, in the absence of Councillors Redfern and Evans, presented the reports of the Finance and Road Committees. The Road Committee asked that a notarial protest be served upon the executors of the Murray estate, calling upon them to show that the town had a right to use the road recently opened at the eastern extremity of the town park. The report also asked that orders be given to the Montreal Turnpike Trust Company to move the tollgate at the corner of Clarement avenue and Cote St. Antoine road to the limits of the town. Adopted. The report of the Police Committee was submitted by the chairman, Councillor Knowles. It asked that the application of the Empire Electric Laundry, to run a steam boiler on their premises, be not considered until all the by-laws were complied with. A request was also made that the St. George's Snowshoe Club, which has its club house on the Boulevard west of Argyle avenue, be prosecuted for selling liquor without a license if sufficient evidence could be found against them. This recommendation caused a great deal of discussion. Councillor Walker protested against such a course being followed, and claimed that the committee should not make such a recommendation to Council until sufficient evidence had been found. Councillor Bulmer was also of this opinion, and the matter was voted back to the Police Committee to be considered. A letter was read from the Mayor of Jamestown, N.Y., extending an invitation to the town officials to attend the annual convention of leading American municipalities to be held in that town from August 20 to 24, adjourning in time to attend the Buffalo Fair on Municipal Day, August 26. Mayor Lighthall thought that it would be more advisable to attend the meeting of the leading Canadian municipalities to be held in Toronto on the same dates, and to go on to Buffalo to meet the members of the American municipalities on August 26th. Mayor Lighthall and Councillor Knowles were appointed a special committee to attend the Canadian convention. It was resolved that work on the Westmount avenue extension should be proceeded with as soon as the necessary papers were signed. All the proprietors have agreed to accept the offer made by the town. The residents of Burton avenue sent in a petition protesting against the nuisance caused by two stagnant pools near the avenue. Secretary Minto said that the work of filling them in had already been started. The Montreal Water and Power Company wrote asking the Council to reconsider its refusal to pay the damages caused to the company's reservoir by the blasting in the quarry of the town. The town had refused to pay the damages, claiming that they had not been caused by the blasting. The company threatened to take action in court if the Council persisted in its refusal to pay. On motion of Councillor Walker, seconded by Councillor Bulmer, the matter was referred to the Road Committee with special instructions to get legal advice as to what position should be held by the town. A letter was read from residents on the north side of Dorchester street, near Greene avenue, protesting against the nuisance caused by the running of a steam boiler on the premises of the Empire Electric Laundry on St. Catherine street. As the company had not obtained permission to run the steam engine and it was therefore doing so contrary to the by-law, orders were given to the Chief of Police to have it stopped at once. Councillor Knowles alone objected to such a course being followed. The meeting was then adjourned. No monthly meeting will be held in August.

HAWKESBURY TO SEE LIGHT.

Mr. Henry J. Cloran, Mayor of Hawkesbury, was in the city yesterday, and stated that the municipal council had unanimously resolved to submit a by-law to the people providing for $100,000 to be used in supplying water and lighting the streets of the town. In the last four years the town of Hawkesbury has increased its population from 2,500 to 5,000, and Mr. Cloran feels sure that the new by-law will be carried at the polls.

CHILDREN'S FRESH AIR FUND.

The Children's Fresh Air Fund is administered by a volunteer committee of ladies and gentlemen of which Rev. James Paterson is chairman and Mr. Charles Alexander treasurer. Subscriptions may be sent to Mr. Alexander or the Star office.

LOOKING FOR HIS SISTER.

Jules Magnan, 92 Years Old, Walked All the Way From Portland to Montreal.

A distressing story is that of Jules Magnan, an old man, 92 years of age, who applied for help at the Night Refuge last evening. Magnan told the authorities he had just walked all the way from Portland to Montreal in search of his sister, who is his only relative. When he last heard of her, she lived in this city, but he does not know her address. Forty years ago, the father of six boys, he left Canada to go to the States, settling at Aroostook, Me. For fifteen years everything went on nicely, and then in two years he lost his wife and six boys. Losing his reason, he was placed in an insane asylum, where he remained for five years. At the end of that time—finding that he had recovered his reason—he escaped from the asylum and went to Lewiston, where he has been trying to make a living. Not being able to do so, he decided to return to Canada, in the last hope of finding his sister.

MISS CLARKE'S SUDDEN DEATH.

Miss Maggie Clarke, eldest daughter of Mr. Robert Clarke, of 219 Chatham street, died very suddenly, as a result of the great heat. The young lady had been suffering somewhat from heart disease, and was about to go on a visit to some relatives in Brockville, with a hope of benefiting her health by the change. Her physician, Dr. Hall, who had advised the trip, expressed a wish to see his patient before her departure. She accordingly called on him on Saturday, and on her way to his house said she felt entirely recovered from her recent illness, and seemed as well as she had ever been in her life. When nearing the house she complained, however, that the intense heat was affecting her strangely. The doctor was engaged when she arrived at the house. After a few minutes he invited her into his study, but just as she was entering the room, she fell to the ground, and despite the efforts of the physician and her sister, she never recovered consciousness, but passed away within a short time.

WILL NOT DISALLOW ACT.

Hon. G. A. Nantel, who appealed to the Dominion Government to disallow the bill for choking off contested elections, passed at the last session of the Legislature, was informed yesterday by Sir Wilfrid Laurier that the Government has come to the conclusion that the best interests of the province would not be served by the disallowance of the act. The effect of the act was to put an end to the contestations of seven protested elections. Six of the seats were held by Liberals and one by Hon. E. J. Flynn, the Conservative leader in the Legislature.

AN ADDRESS AND PRESENTATION.—The teachers and friends of education in connection with St. Mary's School, presented their principal, Mr. P. J. Leitch, with a well worded address and a present in the shape of a beautiful walking stick. Mr. Leitch made a suitable reply, expressing his gratitude for the gift and the kind words expressed in the address.

STRIKES HERE AND ACROSS THE LINE.

END OF THE OTTAWA STRUGGLE NOT IN SIGHT.

Employers of Carpenters Met Last Night, But Did Not Decide to Make An Offer to the Men — Struggle at Pittsburg Will be a Prolonged One.

(Special to the Star.)

OTTAWA, July 3.—The employers of carpenter labour met again last night and discussed the strike.

No decision was reached to make an offer to the men, notwithstanding a rumour early in the evening that the end of the strike was near.

The employers discussed the mass meeting, to be held at the City Hall to-night, but did not select any one to voice their interest.

THE STRIKE AT PITTSBURG.

Real Struggle Will Not be on for Several Weeks When Repairs are Completed.

PITTSBURG, Pa., July 3.—No important developments in the strike of the sheet steel and hoop workers of the Amalgamated Association are expected for a few weeks, when the manufacturers, having all necessary repairs at their mills completed, would be anxious to resume operations. The struggle will then begin in earnest. The belief is quite general, however, that the real test will not come until the close of the hot weather, and the general resumption of business in the early fall.

The money collected by the assessments of lodges will be forwarded to Pittsburg, where it will be placed in the general fund of the association.

This fund is said now to amount to between $200,000 and $300,000.

The announcement that the sheet combine had cut prices occasioned surprise, as it is known that all the mills have been busy and that many orders remain unfilled. The heaviest cut is on number 28, the standard gauge, which is reduced from $3.35 per 100 pounds to $3.10. The lighter gauges have been cut in price from $1 to $3 a ton. The move puzzled the Amalgamated officials and President Shaffer said:

"It has been merely for the purpose of having an effect on the independent sheet manufacturer who have signed our scale.'

The advisory board of the Amalgamated Association has not yet been called to meet to consider the situation, but a meeting will be soon if the American Sheet Steel Company shows no disposition to re-open negotiations.

President Shaffer says the call for another conference will not come from the Amalgamated Association, as the ultimatum of that organization was given to the last conference.

ADVICE TO OTTAWA STRIKERS

Vicar-General Routhier Tells Them Not to be Dictated to by American Labour Leaders.

OTTAWA, July 3.—In a sermon in the Basilica, Vicar-General Routhier referred to the present strike troubles in a manner not satisfactory to the strikers. He told those in his congregation who were on strike to pray that the difficulty might soon be settled, for they in the end would suffer the most. Mgr. Routhier asked why strikers should be dictated to by American labour leaders, who are well paid and ignore a board of arbitration which exists in Canada for the amicable adjustment of such difficulties. Mgr. Routhier further said that there were many who did not know what they were striking for; they were simply striking because the unions told them to do so. The parish priest reminded the strikers that while he sympathized with them, they had the duty of providing for their families, and that duty should be their first consideration. Many of those whom the church assisted last winter when out of work, were now neglecting work at a season when there was plenty of it. He is even stated to have gone so far as to say that were any of the strikers to die their chances of absolution would be small.

SITUATION AT CHICAGO.

CHICAGO, July 3.—At a conference between representatives of the National Founders' Association and Iron Moulders' Union, the employers asked for time to consider the propositions before a strike should be ordered. They were granted until Wednesday, July 10, on which date they promised to give a definite and final answer.

Two propositions are under consideration, one for a straight minimum wage scale of $2.80 a day, and the other for a differential of ten cents a day between bench and floor moulders, making the minimum scale $2.75 for bench moulders, and $2.85 for floor moulders.

The present scale is $2.50 and $2.75 a day, and the men are desirous of wiping out the differential altogether and placing both classes of workmen on an equal foting.

NEGOTIATIONS CALLED OFF.

CINCINNATI, Ohio, July 3.—All negotiations between the manufacturers and the striking machinists were called off last night. The representatives of both sides have held several conferences during the past two days, but were unable to reach a satisfactory agreement.

THE WOMEN INTERFERE.

NEW YORK, July 3.—The wives of all striking 'longshoremen at Erie, Pa., according to a World despatch, have been enjoined from talking or in any way to interfere with the non-union men who have taken the strikers' places at the Anchor Line or docks. Five hundred 'longshoremen are on strike. They refuse to work under the contract system. Contractors Kane and Coyle managed to get 200 men at work on the docks. The strikers' wives taunted them as they came from work. Contractors Kane and Coyle applied for an injunction. Judge Walding issued it and the women are being enjoined as fast as notices can be served on them.

Six hundred striking machinists employ by the Gould Manufacturing Company, of Seneca Falls, returned to work on Tuesday morning, nearly all their demands having been granted.

The Reading Railway striking shop hands at Reading, Pa., ratified the agreement between Chairman Boscher and President Baer, and it was decided to return to work on Friday morning. Over 1,200 men were present at the meeting.

Police Magistrate Edminson, of Peterboro, Ont., yesterday committed John Hays, a bailiff and constable of Arden, to trial on two charges of intimidating the employes of the C.P.R., and obstructing the free use and maintenance of the railway. The evidence went to show that the accused acted as ringleader of a crowd who on June 24 compelled a gang of men, who took the place of the C. P. R. striking trackmen, to quit work. Bail was fixed at $2,000.

CANADIAN TRADE ENQUIRIES.

(Special to the Star.)

OTTAWA, July 3.—The following enquiries have been made at the High Commissioner's Office:

A firm in Hamburg, having a large outlet for evaporated apples, canned lobsters, etc., desires to be placed in communication with Canadian shippers of these goods, and other products suitable for the German market.

Inquiry is made for the names of Canadian firms who require the services of a representative or sole agent who can provide office accommodation and promote the interests of his principles in the English markets.

A Liverpool firm is willing to act as agents in the North of England for a Canadian exporter of furniture wood.

A firm of metal brokers in South Wales ask for names of Canadian firms having metal residues for disposal.

REVENUE OFFICIAL DEAD.

(Special to the Star.)

OTTAWA, July 3.—The Inland Revenue Department received a letter yesterday from A. McAllister, collector at Belleville, recommending an official for leave of absence. A few minutes later, a telegram was delivered at the Department, stating that McAllister had died at 2. a.m.

Mayor Boulanger, of Quebec, accompanied by five officers and twelve men of the Quebec Field Battery will leave on Saturday next for Deseronto to take part in the firing competition there.

WAS DROWNED AT VALOIS.

MR. PACIFIQUE VALIQUETTE LOSES LIFE WHILE BATHING.

The Deceased Was a Son of Mr. Alphonse Valiquette and Was Well Known in the City — Search Parties Dragged for the Body, But Without Success.

The ordinarily quiet summer resorts of Valois and Lakeside were thrown into a state of excitement last evening when it was announced that Mr. Pacifique Valiquette, a well known young Montrealer, had lost his life by drowning.

Immediately from all sides came offers of assistance, and search parties were organized to drag the lake in all directions. Lakeside sent down about twenty of its summer inhabitants, and the people of Valois turned out in large numbers, but all in vain. No trace of the body was found up to midnight. This morning a diver was secured, and the search kept up.

The deceased was a son of Mr. Alphonse Valiquette, a member of the firm of Bastien & Valiquette, contractors, and also owners of the "Old St. George" dry goods store on Notre Dame street. His son, who was twenty-eight years of age, went out to Valois to visit Mr. Odilon Bastien, who had been his father's partner for years at the Old St. George.

Mr. Bastien and two of his children were in taking a bath about five o'clock, when young Valiquette expressed his determination to take a dip also as the heat was bothering him. He accordingly undressed and went in. Mr. Bastien left the water, and went to his house near by. He knew that young Valiquette was a strong and expert swimmer, and was in no way uneasy about him. A few minutes later, when the young man did not come up to the house, Mr. Bastien went to the shore, and was alarmed at seeing young Valiquette's clothes left on the beach, while the young man himself was nowhere visible. Fearing an accident, Mr. Bastien made enquiries, and received contradictory information from several different persons. One had seen the young man at one point, and another at some other place, but no one had seen him making for the shore, and it soon became evident that he had been drowned. Search parties were quickly organized and worked with right good will, but without result.

To add to the difficulty of the situation for the relatives of the deceased, Mrs. Valiquette, his mother, is seriously ill at her residence, 616 St. Denis street, and is in too weak a condition to be informed of the death of her son. The deceased young man was widely known and well thought of by his friends and acquaintances in and about the city.

A LIFE SAVING EXPERIMENT.

The New Modified Milk Dispensary.

In a few days, the new Modified Milk Dispensary, in connection with the Babies' Hospital, 43 Argyle avenue, will be open to the public. Following the lead of Rochester, N.Y., and other American cities, where the infant mortality during the summer months has been greatly reduced, by the use of modified milk, Montreal, which has always been remarkable for its high death-rate among the infant population, will now adopt the latest scientific and humane method of preserving the feeble lives of helpless babes in the homes of the poor. Private philanthropy has been quietly at work during the winter months, preparing the ground for the operations of the proposed dispensary. To Lieut.-Col. Jeffrey H. Burland, is due the credit for the inception of the idea, as well as for a large part of the actual work and financial support required to carry it out.

His services in connection therewith have been ably supplemented by the valuable aid and advice of the attending medical staff of the Foundling or Baby Hospital, Doctors D. J. Evans, Andrew Macphail, Rildey Mckenzie, Wylde, Fred. Fry and the superintendent of the hospital, Miss Phillips, who has had much useful experience in similar work in Boston. The hearty co-operation of the above-named gentlemen and lady are a sufficient guarantee of the success of the new venture.

The methods employed in the best existing dispensaries have been carefully investigated, and the most desirable features of all, in so far as they are applicable to the conditions prevailing in the city, have been introduced into the workings of the Montreal Dispensary.

The milk is modified with scientific accuracy to suit the requirements of each individual infant presented for treatment, the age and weight of the child being the factors that determine the proportions of constituent parts entering into the composition of the modified milk. It is put up in feeding bottles, each containing sufficient for one feeding only. The sealer is removed and replaced by a rubber nipple immediately before giving it to the child, thus the milk is preserved from contact with the air, or any foreign substance laden with poisonous germs from the time it leaves the dispensary until the actual moment of consumption.

Ten bulbs constitute the feeding for one infant for a day and a night. They are delivered in wicker baskets, with compartments to guard against accidents. A deposit of one dollar and ten cents is required of each applicant for milk as a guarantee for the return of the bottles, stoppers and basket. The milk is to be sold at cost price, which it is thought will be from 15 cents to 20 cents a basket, all the incidental expenses, including the equipment of the laboratory, fuel, service of nurses, medicine, etc., being generously met by Lieut.-Col. Burland.

A member of the medical staff of the Baby Hospital will be in attendance at the Dispensary every morning from 8 a.m. to 9.30 a.m. for consultation.

An interesting feature in the mechanical routine of the Dispensary will be the introduction of the metric system, in place of the old-fashioned weights and measures system, which, from present indications, is likely, before many years, to give way in the commercial world at large to the growing demand for a universal standard. This is only one illustration of the up-to-date methods employed in the new institution, from the workings of which it is hoped the city will derive marked benefits during the torrid heat of the next few months.

The Dispensary offers a new and inviting field for private charity, as any persons desirous of helping in the good work of saving infant life may defray the expenses of particular cases in whole or in part, by depositing at the Dispensary a specified sum for the benefit of one or more infants named, or by leaving an offering to be expended at the discretion of the medical staff, or with the secretary of the charity organization society.

A neat little booklet, entitled "How to take care of a baby in warm weather," has been printed for free distribution, with acknowledgments to the Rochester Board of Health.

The results of this new life-saving experiment so urgently called for by existing conditions in our city will be watched with keen interest by all public-spirited citizens and friends of humanity at large.

AMUSEMENTS.

PROCTOR'S.

"The Baby Chase" and the curtain-raiser, "Pink and White," have scored successes at Proctor's Theatre. On Thursday afternoon the bill will be changed, and Nat. Goodwin's comedy, "Turned Up," will be put on; "Pink and White" being retained as the curtain-raiser. Next week still another section of the Proctor company will appear. The first half of the week will be devoted to "Niobe" and "My Lady Help," and during the last half "All the Comforts of Home" will be given. The specialities will include Minnie Allen, a Montreal girl, who will be seen in a monologue.

THEATRE FRANCAIS.

Michael Strogoff fills out the balance of the week at the Francais, and on Monday next the Baldwin-Melville Company will produce "Northern Lights." It is an American military drama and deals with life in the Far West, and Indian fighting on the frontier. It is ingenious in construction and is full of original ideas.

THEATRE NATIONAL FRANCAIS.

The Theatre National Francais is to produce "Trilby" next week. The management is paying particular attention to the translation and production of English plays, and the large audiences which gather testify to the popularity of the pieces.

SOHMER PARK.

Sohmer Park will have an entirely new programme for the coming week. Mr. Lajoie has been in New York engaging acts that will doubtless please the immense crowds that are visiting this popular resort.

HOT WEATHER AND CRIME.

Magistrate Lafontaine has left for a month's vacation and the general run of lawbreakers seem to have compassion on Judges Choquet and Desnoyers, who have now the work of three men to do. There was not a single case on the list in the Magistrates' Court to-day.

BORDEN BANQUET AT HALIFAX.

A BRILLIANT GATHERING AT NOVA SCOTIA'S CAPITAL.

The Principal Speakers of the Evening Were the Leader of the Opposition and Mr. Monk, Who Made a Good Impression — Mr. Borden in Good Form.

(Special to the Star.)

HALIFAX, N. S., July 3.—The Liberal-Conservatives, of Halifax followed up the popular demonstration of Monday in honour of Robert L. Borden, M.P., with a complimentary banquet to him last night, at the Halifax Hotel. The company was brilliant, and it was democratic. The man in evening dress was there, as well as those in tweed or worsted, but all were uniform in one thing—the desire to do honour to the senior member for Halifax, the leader of the Liberal-Conservative hosts of Canada. He was the guest of honour, but with him were other leaders of the party in this province and in Quebec and New Brunswick.

The motto back of the chairman was: "Welcome to our Leaders."

The arrangements for the banquet were excellent. The dinner itself was good. The music by St. Patrick's Band and by the vocalists was unexceptionable, and the speaking was vigorous, eloquent and to the point.

J. F. Stairs, ex-M.P., seconded the keynote when he spoke of Mr. Borden as "The man whom we delight to honour."

The company was just large enough to comfortably occupy the seating capacity of the hotel.

The speakers were John F. Stairs, R. L. Borden; F. D. Monk, M.P.; A. C. Bell, M.P.; C. S. Wilcox, M.L.A.; C. E. Tanner, M.L.A., and M. H. Fitzpatrick, M.L.A.

Mr. Borden was in fine form, and his speech was felicitous to a degree.

Mr. Monk was received with a perfect storm of applause, and was unable to obtain a hearing for several minutes. He thanked his auditory for its very hearty welcome. He had met with many surprises since he entered this magnificent province. He believed that the citizens had not yet realized the wonderful development of this section of Canada. He felt that Mr. Borden had every reason to feel proud of the reception accorded him. He (Mr. Monk) had travelled a long distance to be present, but he would have gone to the coast of the Pacific to do homage to such a leader. His speech was a grand one throughout.

The Conservative party in Nova Scotia is ready to do battle against the Local Government when an appeal is made to the country. An enthusiasm marked last nights' gathering that could not be mistaken.

DEPORTED FOREIGNERS.

Lord Roberts Gives Evidence Before Commission Investigating Their Claims.

LONDON, July 3.—Lord Roberts testified to-day before the Royal Commission which is considering the claims of foreigners deported from South Africa. The commander-in-chief dealt with the plots against his life and the deportation of the ringleaders. He said the officers and employes of the Netherlands Railroad were so hostile to the British that many of them had to be deported. Every consideration was shown them. He personally investigated the great majority of cases, and sanctioned none unless on adequate grounds. No difference was made on account of nationality.

SITUATION AT PEKIN.

PEKIN, July 3.—The meeting of the Foreign Ministers to-day was barren of results, only matters of minor importance being discussed, despite the efforts of two of the Ministers to force consideration of the indemnity question so that a satisfactory reply might be given to China, accepting the offer of 450,000,000 taels ($378,000,000), at 4 per cent. interest.

FIRE AT SOUTH BOSTON.

BOSTON, July 3.—The fire which started in the Metropolitan Coal Company's stables at South Boston last night practically destroyed all the company's property, at that point, including coal sheds and wharves and several small buildings, and barge Buenavista. Twelve horses were burned to death. The total loss is estimated at $200,000.

TOWN DESTROYED BY FIRE.

LOS ANGELES, Cala., July 3.—A special to the Times from Phoenix, Ariz., says: The town of Williams, Arizona, was practically destroyed by fire yesterday. The loss is estimated at $500,000. Williams is a railway and lumbering town on the Santa Fe-Pacific Railway, and has a population of about 2,000.

KINGSTON MINING CASE.

(Special to the Star.)

KINGSTON, July 3.—This morning the adjourned case of Mr. A. W. Chisholm, manager of the Helena Gold Mines, charged with obtaining money under false pretences, was called at the Police Court. He could not appear on account of illness, and the trial was further adjourned.

Bought Yesterday—Cured To-day.— Mrs. O. C. Burt, of 26 Broadway, New York, says: "I am surprised and delighted at the change for the better in my case in one day from the use of Dr. Agnew's Catarrhal Powder. It worked like magic—there's no excuse for a person suffering pain with this remedy within reach.—9.

SHOULD NEVER HAVE BEEN MADE.

JUDGE'S REMARK IN ACQUITTING MR. D. K. KENNEDY

Of a Charge of Perjury Laid Against Him by Alexander Mitchell — Charge Arose Over a Dispute in Regard to a Lodge Transaction.

David J. Kennedy was yesterday honourably discharged by Judge Desnoyers, who said that the charge of perjury should never have been made against him in view of the absolute lack of any evidence that perjury had been committed.

The accuser was Alexander Mitchell. Both had been members of St. George's Lodge A. F. & A. M., and the case decided yesterday arose out of a claim made in 1890 by one of the members of the lodge upon a note of $30 signed by a former officer of the lodge and said to have been for money advanced to said officer for lodge purposes. A committee was appointed to enquire into the claim, the committee being composed of David R. Kennedy, M. B. White and Joseph Horsfall (the latter being then treasurer of the lodge). The claim was repudiated by the lodge, but subsequently a resolution was passed authorizing the treasurer, in order to avoid litigation, to make a present out of the lodge funds of $30 to the holder of the note. The treasurer paid the money and took a receipt, but did not get back the note. Some years afterwards disputes arose between Mitchell and Kennedy over this same transaction, and about a year ago Mitchell sued Kennedy for damages. In September last Kennedy was examined at the instance of Mitchell on discovery, and it was in connection with this evidence that the charge of perjury was made.

WILL ASK A FRANCHISE FOR CARS IN ST. LOUIS.

The Council So Informed by the Mayor—A Committee Appointed to Study Question.

At the meeting of the St. Louis Council last night, it was announced by the mayor, Mr. Gelinas, that he had received official information, through Mr. Wanklyn, that the Montreal Street Railway would apply to the council for a franchise.

When the application came before them, the council should be ready to discuss the question and deal with it promptly. To do this it would be necessary to be in possession of all the facts. Much valuable time would be saved if the necessary information was obtained now, so that it might be at hand when wanted.

After some discussion a committee to study the question and make recommendations to the council, was appointed as follows: Councillors Martel, Chausse, Goyer and Collerette.

The third reading of the by-law to authorize the issue of $150,000 in debentures was again postponed, to consider an offer received from Hon. Louis Beaubien as to the condition on which he will make cession of the land required for new streets on the north side, and which was referred to a general committee.

INCINERATOR BURNED AT SAULT AUX RECOLLET

It Was Used by Mr. Lesage, Who Has the Contract for Destroying Dead Animals Found in the City.

Mr. Lesage, who has the contract from the city for the removal of all dead animals, had his incinerator, at St. Sault aux Recollet, burned down yesterday morning. It is thought that the fire was caused by a lot of lime that had been dumped in the basement of the building. After the fire, it was found that the incinerator, itself, had not been very greatly damaged. All the woodwork of the place was burned to cinders.

MONTREAL IS FREE OF SMALLPOX CASES.

The Death Authorities Raised the Quarantine on the Last House To-day.

This morning the health officials released from quarantine the last house that had been closed up on account of contact with smallpox. The house was on St. Elizabeth street. There are now no houses quarantined in the city. There are only three or four patients at the smallpox hospital, and it is expected they will be released in the course of a few days.

THE TRACKMEN'S STRIKE.

Mr. McNicoll Says Things are Lovely —The Trackmen are Sorry Now.

Mr. McNicoll stated to-day that there was nothing particularly new about the strike. "We are getting along nicely, thank you," he remarked. The men all over the system are apparently disgusted at the mess they have allowed themselves to be led into, and wish to return to work." He added, "I get this information both from the men who are still on strike, as well as from those who have returned."

INVITED TO HALIFAX.

Mr. Champagne, boiler inspector, received a letter this morning, from the military officials at Halifax, which gave him much pleasure. It asked him if he would consent to test a boiler, for the Department of the Royal Engineers, Halifax, which had recently been purchased. Mr. Champagne has written that he will be glad to comply with the request. The boiler was purchased in Montreal, too, from the Jas. Cooper Mfg. Company.

RELAYING NOTRE DAME STREET

The Montreal Street Railway Company commenced to-day the work of relaying the track on Notre Dame street between McGill and St. Lambert Hill. It will take about a week, and during that time the Windsor and St. Lawrence, Ontario and Wellington and Notre Dame street cars, which go east on Notre Dame street, will go by Craig street.

HUTCHISON STREET FENCE.

The fence that was put up on Hutchison street some time ago has now been taken down, much to the joy of the tenants on the street. It appears that the party who held he should be expropriated, and hence put up the fence, has disposed of his rights to a well known real estate firm, with the result that this firm has removed the fence.

THE LIGHTING CONTRACT.

The Workingmen's Educational Association held a meeting last night for the purpose of discussing the lighting question. Mr. B. Rose delivered a strong speech in favour of giving the contract to the lowest tenderer.

PARK VANDALISM.

To the Editor of the Star:

Sir,—Will you allow space in your columns to draw the attention of the proper authorities to the vandalism which I have observed year after year takes place in one of our best patronized breathing spaces, and, as is usually the case, where it is every one's business it becomes no one's business to call attention to the same.

I, like many others of the citizens of Montreal who cannot remove to the country during the hot season, like to spend a few hours under the shade trees of the park, and am grieved to see the branches broken from the trees. It is no exaggeration to say that I have seen as many as one hundred boys and youths at one time round the different trees, throwing stones, sticks, baseball bats, etc., in the trees, while others climb into the trees and shake and break down the branches, and I am sorry to say in many cases their parents look on with indifference or even help, and for what? To obtain apples by the time they are half the size of walnuts. In no single year since the orchard was included in the park proper, have I ever seen a single apple allowed to remain on the trees until they were larger than walnuts.

The part of the park to which I allude is at the base of the mountain from the Incline Railway northward.

Sundays and holidays the greatest damage is done.

In some parts of Germany, apple, pear and plum trees are planted both sides the roadway, and cherry trees for miles into the country, and are a source of revenue for the municipality, as when they are ripe the fruit is sold by auction, a wisp of straw being tied round each tree as it is sold. I am not advocating for a revenue for Montreal, but simply for the preservation of the trees, although to me it seems a shame that the apples on Mount Royal Park should not be allowed to come to maturity. A few special constables in plain clothes should be soon able to put a stop to this vandalism.

B. BAKER.

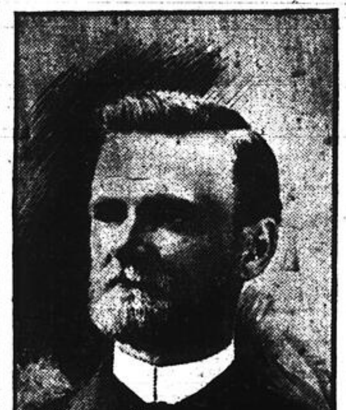
(35 Church street, Montreal.)

CROWN PROSECUTOR OF MONTREAL DISTRICT.

Mr. Eugene Lafontaine Appointed to Succeed Mr. Desmarais.

Mr. Eugene Lafontaine, K. C., of the legal firm of Beique, Lafontaine, Turgeon & Robertson, has been appointed Crown Prosecutor for the Montreal District to succeed Mr. Odilon Desmarais, M. P., who has just been appointed district judge of the Superior Court for Three Rivers.

The appointment of Mr. Lafontaine is



MR. EUGENE LAFONTAINE, K.C.,
New Crown Prosecutor.

one that meets with general approval. His legal ability entitled him to such a position, while his political acts have not been of a nature to inspire any hard feelings at any time to his opponents. For a short time Mr. Lafontaine represented Napierville in the House of Commons, but most of his time has been devoted to his profession in which he occupies an enviable position. He is this year the syndic of the Bar of the District, and has held other high positions within the gift of his confreres.

IN AND AROUND THE CITY.

THE PRACTICE COURT.—Mr. Justice Doherty is presiding at the Practice Court this week on Tuesdays and Fridays, and is on hand when needed for matters in the Insolvency Court. Each of the judges of the Superior Court will take a week of this work until September, when the long vacation comes to an end.

DISMISSED CASE. — Judge Choquet this morning dismissed the charge against Louis Vallee of selling liquor on a Sunday. The offence was alleged to have been committed on the same day for which the defendant was already convicted in the Recorder's Court. His Honour held that under these circumstances Mr. Lambe had no right to proceed against the accused.

CALEDONIAN GAMES. — There will be a meeting of the Games Committee of the Caledonian Society on Thursday evening, at the St. Andrew's Home, Aqueduct street. Arrangements are to be made for the football matches for the Caledonian trophy, which is to take place at their annual outing.

CONTRACTOR GETS JUDGMENT.—Mr. Justice Lynch, in the Superior Court, gave judgment the other day in the case of Sleep vs. Bevington, awarding damages to the plantiff to the amount of $325. The plaintiff, George Sleep is a builder and contractor. Last summer he built a house for John Bevington, of Knox street, Point St. Charles. When the house was about completed the defendant refused to pay according to contract, claiming that the plaintiff had not done the work as called for in the specifications. The amount awarded by the Court to the plaintiff was in full of the balance claimed.

OTTAWA MILITARY NOTES.

(Special to the Star.)

OTTAWA, July 3.—Permission has been given Company "B," Hibernian Knights, of Portland, Maine, to visit Montreal with side arms, between 1st and 7th inst.

Lieut.-Col. Coutlee will continue to perform the duties of D. A. A. G. until the completion of the artillery camp.

On Dominion Day a new system of registration of documents was inaugurated at headquarters, to which the attention of district commanding officers and others is specially invited. The details of the scheme appears to the ordinary mind involved, and are given at length in militia orders. A new series of numbers will commence with each calendar year. Confidential and secret documents will be marked "C" and "S" respectively, and other changes all technical, will be introduced.

DEATH OF PROF. WORKMAN.

OTTAWA, Ont., July 3.—Prof. W. G. Workman, for many years music master in the Ottawa Model school died yesterday at Caselman, aged fifty-nine years. The late Mr. Workman spent his early years in Cobourg, until he received his musical teaching. He was appointed music teacher to the public and model schools in 1870 and for many years he held that position. He leaves a family of three sons, two daughters and a widow. The funeral will be held at Ottawa.

FIRE IN TIMBER LIMITS.

OTTAWA, July 3.—Mr. Alex. Lumsden, M. L. A., received a telegram last night announcing that disastrous fires had broken out in the timber limits on the Kippewa River. Ottawa interests are extensive, the Hull lumber company and Gillies Brothers, owning large limits, besides those owned by Mr. Lumsden. The Mills have been closed down and the men reinforced by a large number of others have been sent out to fight the flames. The fire is raging over an extensive area.

HOMESTEAD HOTEL BURNED.

RICHMOND, Va., July 3.—The Homestead, the well known hotel at the Virginia Hot Springs, in Bath County, was totally destroyed by fire at an early hour this morning. No lives were lost, although a great many guests were in the building at the time. The origin of the fire is a mystery. While the guests all escaped without injury, many of them lost their valuables.

CIGAR STRIKE IS STILL ON.

THE MANUFACTURERS GIVE OUT A STATEMENT.

They Ridicule the Assertions Made by Mr. Strasser, of Buffalo, and Advise the Union to Use the Million Dollars in Starting a New Factory.

The meeting of the Cigar Manufacturers' Association was held this morning. A number of the prominent manufacturers were present. It was stated that the factories are now in a position to handle their trade fairly well, and are not worrying as to when the strike will end. In so far as they are concerned it is now at an end.

The following statement was given out for publication:

"We are amused to notice that Mr. Strasser, from Buffalo, the third or fourth gentleman from the United States who has been here to encourage the strikers, is of the opinion that it is "about time the manufacturers came to their senses, and made a settlement with the 'boys.'

"The manufacturers flatter themselves that they are quite capable of conducting their own business, and that they do not require the advice of any such party, who is here only to do what he can to keep the employes together, the majority of whom, we have reason to know, would much prefer to go back to work, if it were not for the many promises made at different times, such as starting a co-operative factory, etc.

"Inasmuch as the manufacturers are rapidly filling the places of the strikers, and will not, under any circumstance, give in, they would advise that the union use the "million dollars" Mr. Strasser claims they have on hand, in starting their factory, and give employment to the strikers, for whom the manufacturers have the most genuine sympathy.

"We are satisfied that if the strikers were allowed to use their own judgment, and not be carried away by the many encouraging, though misleading, statements made to them from time to time by paid officials from the United States and local agitators, they would not hesitate for a moment to return to their employment

Lady Marjorie Gordon's debut was celebrated on June 11th by a dance given by the Earl and Countess of Aberdeen at their house in Grosvenor street, London. The White Viennese Band was in attendance, and dancing was kept up very late in spite of the many other entertainments going on that evening. Lady Aberdeen's rooms looked charming, and were profusely decorated with pale pink flowers, everywhere interspersed with palms and ferns. The Countess wore black with a splendid diamond tiara and stomacher of diamonds; Lady Marjorie wearing palest mauve with a long white sash. The Duchess of Northumberland, also in black and wearing many fine diamonds, brought Lady Victoria Campbell; and the Marchioness of Tweeddale, Lady Clementina Hay, the Marchioness of Hamilton. The Countess of Powys, beautifully gowned in black and gold, wore her diamond tiara, as also did Her Grace of Montrose, who brought both the Ladies Graham. The Duchess of Roxburghe was with Lady Isabel and Lady Victoria Innes Ker; Lady Percy St. Maur and Lady Heathcote Amory arrived together; and there were also present the Earl and Countess of Dartmouth and Lady Mary Legge, Lady Mabel Coke, Ellen Lady Inchiquin and Hon. Clare O'Brien, the Countess of Onslow and Lady Brabourne, who both brought their newly come-out daughters, the Countess of Ancaster, the Ladies Willoughby, the Countess of Jersey, Lady Arthur Hill and Miss Hill, the Countess of Rosse and Lady Muriel Parsons, the Countess of Lichfield and Ladies Anson, Lady Annabel Milnes and Lady Kathleen Cole, Count Deym and Countess Isabella Deym, Lady Balfour of Burleigh with her daughter, Lady Isabel Larnach, Lord and Lady Belper; Lord and Lady Barnard brought Miss Cecil, and Earl Carrington came with Lady Alexandra Carrington. There were also present Viscount Oxmantown, Hon. Henry Tufton, Lord Frederick Blackwood, Lord and Lady Saville and Miss Helyar, Lord Wilfrid Seymour, Lady Hilda Brodrick and Miss Brodrick, Hon. Thomas Coke and Mr. Wickham (Scots Guards), Lady Victoria Dawnay and Miss Dawnay, and Hon. G. Brabazon.

SPAIN'S YOUNG KING NEARING THRONE.

ALFONSO XII. WILL RULE IN REALITY AFTER NEXT YEAR.

Although Only Only 17 Years of Age and Frail of Health, He Has Been Educated Thoroughly for the Difficult Position He Will Soon Assume.

On the 17th of May Alfonso XIII. completed his fifteenth year, and, as in Spain a Sovereign comes of age at 16, this will be the last anniversary of his birth before the termination of the present Regency and the assumption of full powers by the young King. It has accordingly been arranged that henceforth the boy should have some practical experience of the difficult task which will so soon devolve upon him, and it has been announced that during the next twelve months he is to be present as a spectator at all Cabinet Councils. A journey through the east and south of Spain in the autumn is also being planned, and I was told the other day at Elche that Don Alfonso was expected to visit that beautiful oasis of palms. It is, indeed, well that the lad should learn something about his kingdom, of which so far he has seen little save Madrid and San Sebastian, his summer bathing-place, and that his subjects should see among them the son of Alfonso XII., whose posthumous birth was hailed with such joy in the May days of 1886. For the future of the Spanish monarchy undoubtedly depends upon this frail, delicate youth, and he alone stands between Spain and a revolution. The unpopularity of his sister's recent marriage was due to the fear of having her as a Queen with a Carlist or ex-Carlist, as her Consort; and this fear would be realized if anything were to happen to her brother. No wonder that the advent of Alfonso XIII. to the position so long held by his mother, and her retirement from affairs, perhaps even from Spain, are awaited with some anxiety in the native land of pronunciamientos. The recent disturbances at Barcelona, always in the van of all Spanish agitations, from the time of Espartero to the present day, have yet further increased the risks which surround the throne. The workmen's movement all over the industrial cities of the Peninsula, the desire of the Catalans for a large measure of autonomy, and the anti-clerical crusade—these constitute the triple dangers of the hour. When Catalan meetings at Barcelona cry out: "Death to Spain!" it is a serious symptom of anti-national feeling, just as the shout of "Death to the friars!" prove the unpopularity of the religious bodies. Such is the inheritance into which Alfonso XIII. will so soon enter.

THE KING'S EDUCATION.

The young King is admittedly delicate, and with such a father how could he be otherwise? Nor is the fatal wind of Madrid, which, according to the local saying, "kills a man yet will not put out a candle," and is responsible for a death-rate double that of London, beneficial to this weak and narrow chested boy. Just as many mediaeval Popes were killed by the chilly rooms of the Lateran, so not a few Spanish sovereigns have succumbed to the deadly blasts from the freezing sierra outside the Spanish capital. Still, Don Alfonso has stood the climate so far, thanks to his mother's assiduous care, and he may grow stronger as he grows older. Physical exercise he has never had to any extent, and it was ludicrous, yet sad, to see the poor little King taken down by two gorgeously-dressed officers, each holding one of his hands, from the Royal pavilion to the edge of the sea at San Sebastian last summer. He has had military instruction, though not of so strictly professional a kind as that of his father, who was a capable officer; at times the public hears of his rifle practice, under the supervision of his tutors, and he is said to be studious. He certainly looks intelligent, and, if not handsome, is, by no means as plain as most modern Spanish sovereigns have been. The greatest disability under which he labours is that he was King in name from the moment of his birth, and therefore his education, in a country so attached to etiquette as Spain, was from the first mist difficult. Even in humbler walks of life Spanish parents hardly ever rebuke their children, who are therefore a nuisance to everyone who does not humour their whims. But the training of a juvenile Spaniard, who is also a King, is a thousand times more deficient in discipline from the nature of the case. Don Alfonso does not, however, look a spoilt child, as was his grandmother, the "angelic" Isabel II., who had the misfortune, like him, to become Queen when she was a baby, and whose education was scandalously neglected. Clerical influence has been the predominant one in his schoolroom. But it is quite possible that a natural reaction may soon set in, and that the young King, when once he has been emancipated, may treat his ultramontane pastors and masters with scant honour. Clericalism can never be a strong support of an Alfonsist monarchy, because from 1833 onwards it has regarded Carlism as its own peculiar cause. If Alfonso be wise, he will be a Liberal monarch; but, it must be admitted, he has not had much chance so far of acquiring wisdom. Nowhere is the business of kingship more arduous than in Spain, where the advocates of a Federal Republic, the Carlists, and the advanced men of other parties have little respect for the monarchy, unless the monarch should be a man of iron will. After all said and done, resolute government has always been what Spaniards appreciated most. But Alfonso XIII. has not the face of a leader of men—a Napoleon I. on a Bismarck. He is an amiable boy, who would have been much happier if he had not been born in the purple. Nor does he possess among his mother's Ministers any man of ability and character to play the part of mentor, which Lord Melbourne enacted so admirably in guiding the early steps of Great Britain's late Queen.

THE QUEEN REGENT.

It is an interesting question to know what will become of the Queen Regent on her son's attainment of his majority a year hence. Maternal affection—and she is a very devoted mother—suggests that she should stay on in Spain, to watch over her son. But political arguments may be adduced in favour of her return to Austria. The other Dona Maria Cristina, mother of, and Regent for, Isabel II., found it undesirable to remain on in Spain after her daughter's coming-of-age. The present Dona Maria Cristina, though a woman of far loftier character than her namesake, is, like her, a foreigner, and the Spaniards, as they showed by their treatment of Amadeo and his Queen, do not like to be governed by foreigners, however excellent the latter may be. Hitherto the Regency has been a necessity, and the Regent has been treated with respect, as one who, under most difficult circumstances, performed her duty well. But she is not, and never has been, personally popular, despite her tact at the time of the Spanish-American war, and of late she has been identied with clericalism. If she remains on in Spain, after her son takes her place on the throne, she is sure to be accused by unscrupulous people of influencing him unduly, of trying to upset his Ministers and so on. Spanish politics are full of such slanders as this, and "the Palace" has always been accused of every conceivable intrigue, often without the least vestige of proof. On the other hand, a boy of sixteen can know nothing of men and affairs, while his mother, with her ripe knowledge of Spanish politics, could remedy this defect if she stayed to advise him with her counsel. Between these alternatives the Queen will have to choose, when she ceases to be Regent on May 17 1902, and a wise choice will not be the least of her many services to her adopted country.

MRS. HOPPER'S FORTUNE.

Her Mother's Estate Said to be Worth More Than $250,000.

OAKLAND, Cal., July 3.—The will of Mrs. Josephine Dunsmuir, mother of Edna Wallace Hopper, and widow of the late Alexander Dunsmuir, makes the well-known actress residuary legatee after the provisions of a trust clause shall have been carried out, establishing a fund of $50,000 for the benefit of Mrs. Dunsmuir's son and only other child, William Wallace, of Chicago. The value of the estate is not given, but it is supposed to be more than $250,000.

SEALED TENDERS, marked "For Mounted Police Clothing Supplies," and addressed to the undersigned, will be received up to noon on Tuesday, 16th July.

Printed forms of tender containing full information as to the articles and quantities required, may be had on application to the undersigned.

No tender will be received unless made on such printed forms. Patterns of articles may be seen at the office of the undersigned.

Each tender must be accompanied by an accepted Canadian bank cheque for an amount equal to five per cent. of the total value of the articles tendered for, which will be forfeited if the party declines to enter into a contract when called upon to do so, or if he fails to supply the articles contracted for. If the tender be not accepted the cheque will be returned.

No payment will be made to newspapers inserting this advertisement without authority having been first obtained.

Reasons why you should

BUY YOUR

Furniture, Bedding and Carpets

FROM US AT PRESENT.

Because we are quoting specially low prices for cash, before the new company, now forming, take over the business.

Because we are giving liberal terms to those wishing to furnish on easy payments.

Because we enjoy the reputation of keeping the best furniture than can be produced, both in medium and highest grades.

Because our assortments are unequalled.

Because our pric.. are always the lowest at which furniture of standard quality can be sold.

Because the prices we quote below will prove our assertions.
