Germans Have Started Counter Offensive

Attack Falls Heavily On American Positions

Indications are that Enemy Seeks to Hold or Advance Present Line—Hopes to Avoid Further Retreat—Americans Give Some Ground in First Rush—Enemy Also Active Further North.

(Associated Press Despatch)

LONDON, July 30.—The Germans have been counter-attacking very heavily along virtually the entire battlefield, according to news that reached London shortly after noon today. Their attack was an especially heavy one in the American sector, resulting in driving the Americans out of the village of Cierges, about five and a half miles southeast of Fere-En-Tardenois. Another thrust drove the Americans back from Bougneux, near Grand Rosoy, northwest of Fere-En-Tardenois.

ENEMY ACTIVE NORTH OF ALBERT.

(Associated Press Despatch)

LONDON, July 30.—The Enemy artillery was active in the region northwest of Albert, throwing in gas shells. It also displayed activity between La Basse Canal and Ypres.

The text of the statement reads: "We captured a few prisoners last night in a successful raid in the neighborhood of Aytte."

"Shortly after midnight Australian patrols entered the enemy's positions about Merris. Forty prisoners have been taken by our troops in this locality."

GERMANS MAY MAKE STAND NOW.

(Associated Press Despatch)

PARIS, July 30.—The fierceness of the fighting Monday, it is believed here, is a sign that the German retreat has reached its limit and that the enemy will make a stand with his right wing on the plateau south of the Crise and with his left on the hills south of the Ardre. For the defence of this line, it is held, the Germans will devote all of General Von Boehm's army and the reserve divisions taken from Crown Prince Rupprecht of Bavaria.

NO CHANGE, SAYS FRENCH WAR OFFICE.

(Associated Press Despatch)

PARIS, July 30.—There was no change in the situation north of the Marne last night, says the statement from the War Office this morning. The statement reads:

"During the night no event of importance was reported from the front north of the Marne."

TURK AND HUN NOW HAVE DIFFERENCES

Falling Out Reported With Regard to Caucasus Questions.

(Canadian Press Despatch)
AMSTERDAM, July 30.—Turkey is going to handle the situation in the Caucasus according to her own ideas. This is indicated in a telegram from Constantinople dated July 28th, which quotes an article in the newspaper, Nasfiri Ekfari presenting the Turkish viewpoint.

"We have nothing to say against the principles laid down in the Brest-Litovsk treaty," says the article, "but when the Caucasus, newly re-organized, turned toward us, and, master of its own destinies, refused to be bound by the treaty, what was more natural for us than to take into consideration the necessities of this new situation created on our important eastern front? Could we close our ears to the appeal of the government of a people largely of the same race and same creed as ourselves?"

"We are aware of the action, and its present progress, to place under German control Tiflis and Baku. That is a logical consequence of the application of the Brest-Litovsk treaty. How could this treaty be taken into consideration in the affairs of the Caucasus, seeing that the Bolshevik Government has not even been able to return to us, in accordance with the treaty, our eastern frontier, and that in the Caucasus influences entirely independent of the Bolshevik Government have arisen."

This reported attitude on the part of Turkey may account in part for the report received through Copenhagen that Turkey and Germany had severed relations.

ENEMY LAUNCHED HEAVY ATTACKS NEAR OURCQ.

WASHINGTON, July 30.—Severe fighting resulting from heavy counter-attacks by fresh enemy troops beyond the line of the Ourcq was reported in General Pershing's communique for yesterday, received today at the War Department.

GERMANS AROUSE HATRED OF RUSSIANS

Reports Tell of Growing Feeling of Hostility Against Huns.

(Canadian Press Despatch)
PETROGRAD, June 15.—(Correspondence of the Associated Press)—Refugees from the Russian provinces occupied by Teuton troops bring reports of constantly growing hatred among the peasants for the Germans. In the Pskov region, it is declared, the Germans have confiscated all the foodstuffs they can carry away except for a small allowance of grain for each individual.

There is starvation among the working classes in Riga, on the Baltic, according to reports reaching here. Under the Germans the bread allowance has often been as low as one pound a month per person.

IMPORTANCE ATTACHED TO NEW RUSSIAN FEELING.

NEW YORK, July 30.—Much political importance is attached to reports from Bolshevik sources that there is a decided revulsion of feeling against the Germans among the Russian peasantry, by Hans Vorsk, writing in the Tageblatt of Berlin on June 15, a copy of which has been received here. He says that the same peasants who only a few months ago could not be kept in the trenches are now in a state of exasperation.

TURK AMBASSADOR TO BERLIN DEAD

(Associated Press Despatch)
AMSTERDAM, July 30.—Hakky Pasha, Turkish ambassador to Germany, died last night in Berlin after a short illness, a Berlin despatch announces today.

AMERICAN CASUALTY LIST

(Associated Press Despatch)
WASHINGTON, D.C., July 30.—The United States army casualty list today contains 1,048 names.

DARK DAYS OVER BUT HARD WORK AHEAD

(Canadian Press Despatch)
PARIS, July 30.—Andre Tardieu, French High Commissioner to the United States, at a dinner in his honor last night at the American University Union, declared the dark days are over but there are hard months ahead.

"The first great battle in which your own troops have participated extensively, has been a great victory," he said.

"Your rank and file, officers and staffs are deserving of the same praise as the soldiers of France."

AN INTER-ALLIED FOOD COUNCIL

Allied Countries Preparing to Meet Food Difficulties.

(Canadian Press Despatch)
LONDON, July 30.—The conference in London between the Food Controllers of the United Kingdom, United States, France and Italy, is continuing its labors. Meetings are being held almost daily and it is expected that the controllers will conclude their discussions by the end of the week. Satisfactory progress has been made, and the establishment of an Inter-Allied Food Council, composed of the controllers, is now an accomplished fact. A resolution adopted yesterday emphasizes the need for economy and the elimination of waste, as well as increased production in order to build up the stocks as insurance against all possibilities. It concludes:

"We cannot administer the food problem on the basis of one year's wants. We must prepare for long continuance, if we are to insure absolute victory."

HEAVY FIGHTING NEAR BUZANCY

NO LIKELIHOOD OF ROUNDING UP BIG MASS OF GERMANS.

(Canadian Press Despatch)
LONDON, July 30.—There has been heavy fighting near Buzancy, five miles south of Soissons, and also in Plessier Wood, about five miles further south. In this latter locality 45 prisoners were taken belonging to three divisions of the enemy now engaged in the Marne salient. There are 71 such divisions, of which ten belong to the northern army of Crown Prince Rupprecht. The enemy's withdrawal is reported still orderly and military opinion in London discounts the possibility of rounding up of Germans in the salient.

AUSTRALIANS CAPTURE FORTY

(Canadian Press Despatch)
LONDON, July 30.—German positions in the Merris region, on the Flanders front, were entered last night by Australian troops, who took forty prisoners, the War Office announced today.

CASUALTIES

THREE QUEBEC PROVINCE NAMES APPEAR IN TODAY'S LIST.

OTTAWA, Ont., July 30.—Today's list of 80 casualties includes ten killed in action, five died of wounds, five died, one missing, eight missing, believed prisoners; fifty-six wounded, five gassed and four ill.

Only three from Quebec are mentioned, namely:

Infantry—Wounded, E. Levesque, Fraserville, Que.

Forestry Corps—Died, Lieut. R. W. Strong, Cambria, Que.

Machine-gun Company—Wounded, W. P. A. Crabtree, Joliette, Que.

A WILD WEST TRICK PLAYED

(Associated Press Despatch)
CHARLOTTESVILLE, Va., July 30.—An express car on a westbound Chesapeake and Ohio Passenger train passing through here early today, was robbed by an identified white man, who bound and gagged express messenger Marshall, of Washington. The safe was emptied of all valuables.

SUBS ATTACK SHIPS OFF THE ATLANTIC COAST

Liners Escape After Running Fight—A Decoy Submarine Sighted.

(Canadian Press Despatch)
AN ATLANTIC PORT, July 29.—Three great trans-Atlantic liners which arrived here today reported having been attacked by German submarines, each of them when about two hundred miles off the Atlantic coast in latitude 38.35, longitude 70.40. All three vessels by superior speed escaped undamaged after a running fight which lasted several hours.

The master of another vessel in port today said that three days ago wireless calls were caught by his ship coming from a vessel in plain sight, asking for assistance, but which upon closer investigation proved to be a submarine with telescopic masts and which was in many respects made up to imitate a sailing vessel in a sinking condition.

DEMAND PUNISHMENT OF HUN LEADERS

A German Captain Says They Were Guilty of Appalling Deceits in Startling of War.

(Associated Press Despatch)
AMSTERDAM, July 30.—A memorandum demanding ruthless action against the men at the helm of the German Government in 1914, as guilty criminals, has been issued by former Captain von Boerfelde, says a Berlin telegram quoting the Cologne Volks Zeitung. The memorandum is entitled "a necessary correction of the German White Book," and was sent to the members of the Reichstag last week by the captain, who was prominent in connection with the Prince Lichnowsky affair, brought about by the prince, who was German ambassador to London in 1914, declaring that Germany was responsible for this war.

Captain von Boerfelde's memorandum says that the German leaders at the beginning of the war were guilty of appalling deceits, and acted in the service of traitors.

He demands the immediate arrest of former Chancellor von Bethmann-Hollweg, and declares that if the Reichstag does not fulfill his demand, the curse of this and all succeeding generations will fall upon it for cowardly neglect of duty.

In case of the Reichstag's refusal, Captain von Boerfelde declares, he will immediately request passes for himself and family for Switzerland, because he will no longer share Germany's shame and dishonor.

CONFLICT IN MURMAN REGION

German and Finnish Troops are Moving Against the Allies in North Russia.

(Canadian Press Despatch)
LONDON, July 30.—A conflict between Entente forces in the Murman region and combined Finnish and German troops is imminent near Eneerjesen, according to passengers on the first steamer to arrive at Vardo, Norway, from Archangel since the autumn of 1917, says a Christiania despatch to the Daily Express.

The Germans are reported to be moving toward Petcheeng, on the coast from Eneerjesen and are repairing a road built some years ago by the Russo-Finnish Government. It is believed the Entente forces are constructing a road from Petcheeng to Salsijervi to meet the foe half way.

NOT A TRAIN MOVING ON UKRAINIAN RAILWAYS.

LONDON, July 30.—The Ukrainian railway strike is extending and is assuming a permanent character, according to a Russian Government wireless despatch. The higher officials are in sympathy with the strike, which was occasioned not only by economic causes, but because the Germans confiscated food reserved for the railway men. Many strikers have been arrested, and it is rumored that several have been shot.

There has been no train service on the Ukrainian railways recently, with the exception of one train, which was despatched under threat of shooting its crew in case of refusing to obey orders. Latest information received says that the strike has extended as far as Gomel, 125 miles southwest of Mohilev.

GERMAN STATEMENT ON SUB WARFARE

Why They Fail to Get Transports—Claim General Piracy Going Well.

(Canadian Press Despatch)
AMSTERDAM, July 29.—Admiral von Holtzendorff, Chief of the German Admiralty Staff, interviewed by the Cologne Gazette on a statement attributed to Sir John Jellicoe, the former British First Sea Lord, that the U-boat war was a failure, that it would cease to constitute a danger, and that more U-boats were being destroyed than were being built, said:

"The statement is incorrect, and if credited would prove a fatal error for our opponents. The fact is that merely by appropriating neutral tonnage the situation has undergone a temporary amelioration, especially regarding military supplies from America."

Admiral von Holtzendorff asserted that the German policy in attacking every ship sailing in the enemy's service resulted, apart from the destruction of large quantities of war material and supplies, in the infliction of enormous economic damage upon the enemy.

"The enemy's losses in ships and cargoes alone to July 1, 1918, are estimated to surpass fifty billion marks."

Asked for the reason why few American transports were sunk, the Admiral replied:

"The Americans have at their disposal for debarkation the coastal region from the northern point of Scotland to the French Mediterranean ports, with dozens of debarkation places. Must we put our boats to lurk off these harbors on the chance of getting shot at by the strongly guarded convoys of fast American transports? The convoys do not come with the regularity and frequency of freight trains at a big railway station, but irregularly with long interruptions, and often by night and in fog."

"When one remembers all that, one realizes what little prospect of success it offers to set the U-boats, especially at American transports."

"We must always remember that it is the task of our U-boats to reduce the entire cargo space in the enemy's service, for on this depends his existence and ability to carry on the war."

RAIN STORM DID QUITE A LITTLE DAMAGE HERE

Wash-Out Held Up Quebec Train—Flower and Vegetable Gardens Suffered to Considerable Extent.

Quite a little damage was done by the terrific rain storm which broke forth shortly after the midnight hour, awakening residents and forcing them to close their windows and doors in a hurry in order to prevent the rain from entering their houses. A number of trees were considerably shattered by the strong wind which accompanied the rain, while in one or two instances electric wires were torn down. The rain also did a little damage to the flower gardens as well as the vegetable gardens.

Probably the greatest damage was suffered by the railways. There was a slight tie-up on the Canadian Government Railway between Levis and Harlaka Junction, while the heavy and severe electric storms in the Bonce district throughout yesterday afternoon and evening caused some slight wash-outs on the Quebec Central Railway main line between Levis and East Broughton, and necessitated the transshipment of trains. The highways throughout this district were also severely washed out. No 6 passenger train from Quebec, owing to necessity for transshipment and careful running, only arrived at Sherbrooke at five o'clock this morning.

This rain fall was something similar to what took place in the district on July 31st last year. It will be remembered that last year the whole country was inundated and all the bridges on the Chaudiere River carried away. The interruption to traffic on the Quebec Central will only be of a slight character and it is expected that all trains will be running through today, according to the official statement issued by Manager J. H. Walsh.

Evidently Sherbrooke did not receive the full storm which raged in this district. According to the figures at the Experimental Farm, supplied by Mr. J. A. McClary, the rain fall here was only half an inch.

BRITAIN'S AIMS MADE CLEAR TO RUSSIA

Expell the German Enemy—No Interference With the Internal Affairs.

(Canadian Press Despatch)
LONDON, July 30.—The British Government has defined its aims regarding Russia, in a reply to the Provisional Government of Siberia, according to the Daily Mail's correspondent at Vladivostok. The statement as telegraphed by the correspondent follows:

"The aim of His Majesty's Government is to secure the political and economical restoration of Russia without internal interference of any kind and to bring about the expulsion of enemy forces from Russian soil. His Majesty's Government categorically declares that it has no intention of infringing to the slightest degree the territorial integrity of Russia."

TRIAL IN ENGLAND RESULTS IN FINE

FORMER LORD MAYOR OF SHEFFIELD MUST PAY £2000 FOR GIVING INFORMATION TO ENEMY.

(Canadian Press Despatch)

LONDON, July 29.—Sir Joseph Jonas, former Lord Mayor of Sheffield, was fined £2,000, and Charles Alfred Vernon, former employee in the Ministry of Munitions, was fined £1,000, with costs, in the Old Bailey Court today in connection with charges that they had conspired to violate the Official Secrets Act by obtaining and communicating information that might be useful to the enemy. The jury found that they were not guilty of a felony, but had committed a misdemeanor. Carl Hahn, another defendant in the case, was acquitted.

The charges against the three men were based on information given to Germany in 1913 relative to the intention of a British firm to manufacture rifles.

GIANT PLANES WHICH WILL CARRY 100 MEN

Revolution in Aerial Warfare in Near Future is Predicted.

(Canadian Press Despatch)
PARIS, July 29.—"A giant plane carrying a hundred men and equipped with engines equal in power to those in a medium sized steamship will be developed within three years," said Gianni Caproni, inventor of the Caproni bombing planes, in an interview.

"There is a surprise in store for the Germans. Instead of the forty and fifty machines necessary to start on a bombing expedition, it will be possible to do the same work with a new machine as powerful as the whole squadron."

"The new machines will be much more efficacious and will prove a great saving in operation. A trip across the Atlantic could be accomplished with the present-day machines during July, August and September, and probably October."

LAKE MEGANTIC

The July bulletin of the Megantic Fish and Game Club furnishes a number of interesting items. The number of members and guests at the different camps on the reserve this spring was quite large, although there were not so many at the club house on Lake Maccannamac as usual. The fishing has been extra good in the ponds and rivers, in fact the best in many years, and some good catches have been made.

Sixty thousand trout fry have been put into Chain of Ponds, and forty-thousand salmon fry into Arnold Pond. These young fish came from one of the fish hatcheries in Maine.

Two new camps are to be built at Northwest Pond this season. An interesting item is that after leaving the club house on the way to Arnold Pond, and coming to Frenchman's Clearing in Louise Township, which puts out into the Preserve, each householder has put up a six rail fence across the trail, each of which has to be crossed, and this is not an easy matter with a pack on your back.

It is satisfactory to know that Mr. and Mrs. John Boyle, who have been caretakers for several winters back, are continuing on as stewards at the club house for this season. At present there are very few parties either coming or going at the club house. The fall season will commence late in August.

CHAUTAUQUA NOT A SUCCESS FINANCIALLY

However, Richmond Residents Were Well Pleased With Entertainments and Chautauqua is to Become an Annual Affair.

RICHMOND, July 30.—(Special)—The Richmond Chautauqua was a success in every way except financially. It was the first Community Chautauqua and it was a big undertaking—a bigger one than most people realized when they started and the biggest thing they have yet had in Richmond. The guarantors state that it has put Richmond in a better position before the rest of the Townships than it ever occupied before and these same guarantors are entitled to know, for they have to pay the price. Yet none of them complained when notified to put a hand in his pocket.

The community spirit is strong and next year there will be no deficit, and the Chautauqua will become a permanent institution here. There were only forty-seven names on last year's guarantee; next year's already carries more than that and will carry double. The people did not understand that the season ticket sales was what helped the town committee, so many that bought the single admissions this past year will buy season tickets next year.

The members of the committee who did the most toward completing the arrangements and in selling tickets were: Messrs. Duboyce, Glassey, McMorine, J. D. Smith, E. L. Hall, W. J. Ewing, G. J. Alexander, E. A. Bailey, B. Faraday, E. C. Atkinson, M. T. J. McKee, R. E. Skilten, S. H. McCourt, H. E. Bieber, A. E. Dyson, L. V. Parent, E. J. Pearson, A. W. McCabe. The location for the big tent was ideal and the grounds committee were strictly efficient. Superintendent Powell found the platform and tent arrangements first class. The thanks of this committee are extended to the Richmond School Commissioners for the loan of their fine piano; to the Agricultural Society for the ideal location; to the Southern Canada Power Company for excellent tent-poles; to the Town Corporation and to the Methodist and Presbyterian churches for the loan of settees and chairs and to the Hisses Gouin for the use of their land for a commodious entry to the grounds. The advertising committee extend thanks to Mr. C. A. Kennedy of the moving picture theatre for having run many advertisements of the Chautauqua. As to the entertainments themselves, they were the same as rendered in Sherbrooke.

IF YOU WERE LOOKING FOR a house or apartment you would naturally read the classified ads, and you would properly reason that you would find among them an offering which you would wish to personally investigate. You would not expect to answer all of these ads. Some offerings would bar themselves from your consideration because of the location—yet even these will appeal to somebody else, with other needs. But you would eventually select a place which had first come to your notice through an advertisement—and, if you would do this, your prospective tenant will be very likely to do the same.

WAR GARDEN BULLETIN.

"I will have to keep my hoe busy for a while yet, and then it is up to the women folks and the canning industry of the kitchen."

"Thanks, old chap. You certainly helped out a whole lot. My gardener wouldn't look like anything if it hadn't been for your shining countenance."

"But now—well, I'm rather proud of it. Just look at those peas and beans! See my beets and carrots! It looks as if we are going to have a fine cellar-full of preserves and roots this year."

"You have done your bit, Old Sol."

THEY'RE ON TO IT ALREADY. Yankee—Say, boys, I brought in a couple of Huns last night on the end of my bayonet.

Sceptical Tommy—Yer quite certain there was two of 'em? Yankee—Betcher life, bo! I heard one of 'em say, "Move up a bit, Fritz, I'm slipping off." — Passing Show.

CHANGE OF WATER CAUSED DIARRHOEA.

People moving from one place to another are very much subject to diarrhoea on account of the change of water, change of climate, change of diet, etc., and what at first appears to be but a slight looseness of the bowels should never be neglected or some serious bowel complaint will be sure to follow.

The safest and quickest cure for diarrhoea, dysentery, colic, cholera infantum, cholera morbus, pains in the stomach, seasickness and all looseness of the bowels is Dr. Fowler's Extract of Wild Strawberry.

Mr. T. T. Allard, Parry Sound, Ont., writes: "In the fall of 1914 I was working on the new 'Chiclet Gum' factory, on Carlaw Ave., in Toronto, when I had a violent attack of diarrhoea, owing, I think, to the change of water. One of the foremen advised me to get a bottle of Dr. Fowler's Extract of Wild Strawberry, which I did, with the result that I hadn't taken it all before I was completely cured." Dr. Fowler's Extract of Wild Strawberry has been a national remedy for the past 72 years, and is sold by medicine dealers everywhere at 35c. a bottle. Don't let anyone palm off a substitute on you. When you pay your money for the genuine, you're a right to get it. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

ROBERGE FAMILY SETTLED CASE OUT OF COURT

Judge Mulvena Adjourned Court at Thetford Mines Yesterday to Enable the Parties to Try and Reach Suitable Understanding.

Judge Mulvena acted the part of the Good Samaritan at Thetford Mines yesterday afternoon by settling what appeared to be a rather complex case of family troubles, to the apparent satisfaction of all parties concerned, without being called to pass sentence. Joseph E. Roberge appeared in the Court as the complainant against his wife, Sara Lacroix, and his two sons, Joseph Roberge, Jr., and Roland Roberge. He charged all three with assault causing bodily harm, and all pleaded not guilty.

Judge Mulvena, instead of proceeding immediately with the cases, requested the parties to come together and try to reach a satisfactory understanding. This they agreed to do, and the Court adjourned. When the parties appeared after a conference in private, they informed the Court that they had reached an understanding and had decided to bury the hatchet. Consequently the three cases were dismissed.

FOOD BOARD FLASHES FOR FEMINE FOLK

Whose fault is it that housekeepers cannot always get the varieties of fish that the Food Board is advocating? Take the case of pollock, for instance, which is fine fish and cheap. The following is an incident that occurred recently in Fredericton, N.B., when a woman who happens to be interested in the food question asked her dealer if he handled pollock. "We don't handle pollock." "I would take one a week, and ten of my friends would do likewise." "We don't handle pollock." "Are they often caught here?" "Yes." "If a demand was started for them, would you get the fishermen to bring them to you?" "We don't handle pollock." "Dr. Kierstead, of the Food Board, wants you to get a supply of the cheaper fish in this market." "Yes, I know." "Well, what are you going to do about it?" "We don't handle pollock." "Then she gave up."

Munitions Workers

The cost of war is reckoned in blood, in treasure, and in the labour of those behind the lines. Of these, the desire is always to save blood at any cost.

The battle of Langemarck and St. Julien in April, 1915, cost the First Canadian Division 7,000 casualties.

A portion of the cost lies buried in Flanders: some of it languishes in German prisons: the balance of it you see in the maimed men hobbling about your streets.

Ask yourself: Is not any cost easier to pay than that?

It is a fact that the spending of shell saves life and limb.

It is a fact that the spending of shell is limited only by the quantity available.

It is a fact that the output of Canadian munitions has been a large percentage of the amount used by the British Forces. This output, man for man and woman for woman, is now less than it has been, less than it should be, less than it could be.

What do you make of these facts?

Will you work while your brain, your nerve, your sinew lasts, or will you spend men's lives to save yourself a little extra labour?

The cost of war must be paid. Shall it be in work or blood?

The answer lies with you.

Speed Up Your Output!

Maximilian Harden Mocks the War Lord.

"THE ETERNAL SICKNESS"

Daring German Writer Denounces the Men in Power in His Country, and He Points Out the Inconsistency of the Kaiser's Stand Now and in the Days Gone By.

THE Daily Telegraph's Rotterdam correspondent, says that a recent number of Max. Harden's Zukunft is as scathing an indictment of Germany's policy and her rulers and statesmen as yet has seen the light. It is entitled, "The Eternal Sickness," by which the writer means the desire for world dominion, and he clearly implies that it is in Germany that this sickness is raging.

Not only does Kuehlmann fall under Harden's scornful lash, but also the Kaiser himself, in connection with whose recent outburst against the Anglo-Saxon world conception

MAX HARDEN.

Harden recalls the contrary view expressed by the Emperor in his famous London Telegraph interview. Referring to the Kaiser's speech, Harden writes:

"He did not always think thus—he who, as the son of a British woman, once, in an unhappily famous interview, declared himself England's only friend in an Anglophobe nation.

"In his opinion now, the peoples of the world are under the yoke of the Anglo-Saxon dominating race, for whom they are working as slaves, and the war cannot and before one of the different world conceptions has unconditionally conquered—Prussian-Germanic freedom, right, honor and morality or Anglo-Saxon idolizing of money.

"Why was Kuehlmann's speech discussed in foreign countries only with contempt, and abused at home with fury? Because there was nothing in it which convinced them of the uprightness of its author. The restoration of Belgium to its condition of July, 1914, must be guaranteed, or the answer put off until America, Great Britain and France have been so defeated that even after a period of years they will not be able to raise themselves, and will declare themselves conquered. Anything else is sham fighting.

"He who loudly counts Belgium as among the hostages, that is, among the territories gained after the open declaration of war, increases thereby in foreign countries the crowds of those who do not attribute to the Prussian-Germanic spirit of freedom, right, honor and morality."

For a full appreciation of Harden's daring it must be remembered that his concluding five words, quoted with ironical reiteration in the course of the article, are from the Kaiser's "Two world conceptions" speech.

A Harpoon Gun.

Says Walter B. Raynor in Popular Mechanics: "A harpoon gun that I have made and used successfully for taking fish may be made from an old large-bore single-shot rifle. A cylinder 1 1/2 in. in diameter is fastened with clips near the end of the barrel to hold a coiled line. The harpoon is then made and fastened with a swivel. The head of the harpoon should be hardened slightly, and is welded to the shaft after the swivel has been put in place. Blank cartridges loaded with a heavy charge of black powder are used to fire the harpoon, which for distances up to 25 feet has almost the accuracy of a bullet. Before using such a spear for spearing fish one should determine whether or not the practice is legal in his particular province.

Willing to Try.

Host (to new cook)—We want you to show us what you can do to-night, Jane. We have some rather special people coming for a musical evening. Do your very best, you know.

Cook—Sure, sir, that I will. It's a long time since I did any singing, but you can put me down for a couple of comic songs if you like.

Careful.

"How does Gladys manage to preserve her complexion so well?"
"Easily. She keeps it in air-tight lava."

THIRTY PERSONS DEAD WHEN MUNITIONS EXPLODE AT SHIMONOWSKI, JAPAN

Statement Says that Explosion Occurred in the Harbor and that Sixty Others Were Injured.

(Associated Press Despatch)
LONDON, July 30.—Thirty persons were killed and sixty others injured by an explosion of munitions at Shimonowski, Japan, on Saturday, says a Central News despatch from Tokyo. The munitions were being transported from the railroad station at Shimonowski to barges in the harbor. They blew up while a crowded train was standing in the station.

Adam's Skull.

The myth of Adam's skull has its origin in the ancient tradition according to which the first man is buried at Golgotha, beneath the very spot on which later the cross of Christ was erected. It is for this reason that, in the presentations of the crucifixion, painters and sculptors were wont to place a skull at the foot of the cross. The fact that a skull embedded on a natural rock could be seen behind the iron gate of the Church of the Holy Cross at Jerusalem, was calculated to give credence to the tradition. It has, however, been discovered that the skull in question was artificial, made of brass and painted over with gray color to give it the appearance of a natural skull.—N. Y. Tribune.

HATLEY AND DISTRICT NOTES

The intense heat of the past few days was somewhat relieved by a fall of rain on Sunday evening and last night. In many instances farmers of this vicinity have completed haying. The fine weather afforded them every advantage.

While attempting to lead a refractory colt into its stall on Sunday morning, Mr. Nelson McCoy met with a painful injury to his left hand when the index finger was caught upon a sharp bit of wire and deeply lacerated.

The members of St. James Guild will hold their regular fortnightly session at Guild Hall on Wednesday afternoon, the gentlemen of the village and vicinity being invited at the tea hour.

Passed Her 79th Year.

On Monday, one of Hatley's esteemed and life-long residents, Mrs. I. Leavitt, completed her 79th year. Mrs. Leavitt, who is the eldest daughter of the late James Thwaites, has with the exception of a few years in the Old Bay State, passed her long and active life in this town, where she is the present owner of one of the many valuable farm properties in the neighborhood of the historic old North Church. Since the death of her husband, the late I. Leavitt, which took place a few years ago, Mrs. Leavitt has ably conducted the affairs of her farm until the present season when an attack of illness induced her to drop the reins. The Spy in War-Times.

Since the subject of espionage is very much to the fore these days, I will go briefly into the theory and practice of espionage, condoning myself to what is known to all general staffs as "secret field intelligence." This polite term is given by a general staff only to its own agents; the agents of the other side are known as spies. This is a little inconsistent, of course.

Whether an intelligence officer is a spy or mere scout depends entirely on how he is dressed at the time. If in uniform he becomes a prisoner of war when captured and as a rule he is confined in a fortress. If he has assumed disguise he faces the firing squad next morning.

The fact that an officer has spied upon the enemy in civilian clothing does not make him the less honored among his brothers-in-arms. On the contrary, being selected for the "secret field intelligence service" is looked upon by the more daring as a rare distinction. A commander would be court-martialed if it became known that he had failed to avail himself, for reasons of "honor," of important information brought in by his agents and had for that reason mismanaged an action. Espionage is a necessary adjunct to any military establishment—so necessary, in fact, that the spies of the antagonists are done to death when caught.—Geo. A. Schreiner in Harper's Magazine.

MEMORIAL FOR LATE PTE. JAMES H. STEVENSON

Special Service Held at the Federated Church at Danville on Sunday Last.

DANVILLE, July 30.—(Special)—A memorial service for the late Pte. James H. Stevenson, son of Mrs. (Rev.) Stevenson, was held in the Federated Church on Sunday morning. The church was comfortably filled with a sympathetic congregation. The sacred edifice had been beautifully trimmed with the emblems of mourning, with the Union Jack in the forefront. The pastor preached an eloquent and earnest sermon from the words: "No man having put his hand to the plow and turning back is fit for the Kingdom of Heaven." Special hymns were sung by the choir, amongst which was an old favorite of the deceased. "O love that will not let me go." The anthem "Come Unto Me" was also sung. During the service Miss Beatrice Webb rendered on the violin "Traumerie," another of the dead soldier's favorites. Pte. Stevenson enlisted at the outbreak of the war in British Columbia and shortly afterwards went overseas. He had been previously wounded. Upon recovery he went back to the trenches and was killed at the front while performing his duty.

"THE RENTING SEASON" runs through twelve months of every year, in every month, there are people who require places in which to live or places in which to conduct businesses. If you have something to offer you will find that there is a tenant to be had—assuming, of course, that your property meets requirements.

YOUR URGENT NEED OF "HELP" should translate itself into a classified advertising campaign—to run until your need has been met. To most business men it is a new experience to find that almost every good position must "seek the man"—or the woman. Personal efficiency is at a premium. Your competitor advertises for helpers. If you do not, he will gain an advantage which cost you, in the end, a great deal.

MR. HITCHCOCK SAVES LIFE OF YOUNG BOY

Mr. Percy's Eldest Son Had a Narrow Escape from Death When He Fell Into Dam at Bedford.

BEDFORD, July 30.—(Special)—Only the heroic and timely action on the part of Mr. Foster Hitchcock saved the eldest son of Mr. A. Percy from death by drowning in the Upper Bedford dam on Saturday afternoon. The lad was playing near the dam, when he suddenly lost his balance and fell into the water. Mr. Hitchcock, who was near at the time, rushed to the boy's assistance, and after some difficulty managed to get hold of him and bring him to shore. The boy was unconscious when recovered, but first aid methods succeeded in bringing him to after hard work. The boy is reported to be making good progress toward recovery.

In a recent letter to his parents, Pte. W. Creller writes that he had recently met two Bedford boys, namely, Ptes. A. Sharpe and L. Gould. Pte. Creller also said that on his last leave he had taken a trip to Scotland.

The hot weather of the past week has had an excellent effect on the crops, especially in the case of corn, which has been very backward. Barley and wheat in many cases will be ready for harvesting as soon as the hay is in. The yield of hay has far exceeded the expectations of the farmers here, and the weather has been very favorable for haying, although help has been rather hard to secure.

The annual report of the wardens of St. James' Church is complete. The report shows a satisfactory condition, for after paying all expenses and making some improvements a good balance is left on hand.

The Bedford Branch of the Red Cross met as usual in the Town Hall on Tuesday, with a good attendance. The club is pleased to have two of the young boys identifying themselves with the Red Cross in the persons of Masters Chester Howe and Ellison Gould, who are collecting discarded articles such as old rubbers, metals, etc., which will be sold for the benefit of the Red Cross. The Branch gratefully acknowledges the sum of \$5 from the Girls' Patriotic Society.

An unusual number of tourists have been noticed in town during the past week. In the majority of cases the cars bore American numbers.

The ladies of St. George's Church, Mystic, will hold an ice cream social on the church grounds on August 7, for the purpose of raising funds to pay for the work recently completed on the church property.

As August 4 is the anniversary of the beginning of the war, and as it falls on Sunday next, the day will be observed as a day of intercession for the successful completion of the war in the churches.

DESERTERS GIVEN AS CAUSE OF DEFEAT

AUSTRIA THUS EXPLAINS HER DEFEAT IN ITALY. AMSTERDAM, July 30.—A long communication from the Austro-Hungarian war press headquarters was telegraphed here today from Vienna. The statement endeavored to explain away the failure of the late offensive on the Piave by asserting that deserters had betrayed the Austrian plans to the Italians. The latter, the statement says, were found to be exactly informed as to the extent of the attack and the day and hour when it was to be made, and that they prepared counter-attacks accordingly. The communication enlarges on alleged Italian propaganda among the Austrian, Hungarian and Slav subjects.

(Associated Press War Summary) The Germans have thrown nearly a million men into the gigantic battle between Soissons and Rheims and have been viciously counter-attacking all around the circular line that stretches from Soissons to the neighborhood of Rheims.
Even this formidable force, however, appears to have made not more than a dent or two in the Allied front in its latest effort, while at various points progress for the Allies, slight but important, is reported.

He believed that in the meeting of the Imperial War Cabinet lay the solution of the problem which had bewildered them for years. This machinery would now have to take a more permanent shape.

RUSSIA IS OUT FOR THE GOODS

(Associated Press Despatch) LONDON, July 29.--Americans arriving here from Russia agree in the belief that this country will not participate in the war again on either side.

"She was so big that there were enough shattered remnants to create an impression of activity for some time afterward, but her strength declined steadily. If the Allies strike a heart blow on the western front within a few months it will paralyze the German tentacles in Russia."

PULLED MAN OUT OF THE RIVER AT EARLY HOUR

Constable Messier and Wilfred Bourke Found Man Standing Waist Deep in the St. Francis River Shortly After Midnight.

Wilfred Bourke was rather rudely awakened from the land of slumber and Constable Messier was forced to rush into action shortly after the clock had tolled off the midnight hour by the loud cries for help which were being made at regular intervals of five seconds somewhere in the vicinity of Aylmer bridge. Police officer and citizen rushed to the assistance of the man in trouble, for the cries were undoubtedly those of a male person, and finally located the man standing waist deep in the St. Francis river.

The gentleman, who gave his name as Gagnon, of Thetford Mines, was not in immediate danger of being drowned unless he waded out into the deeper waters, but he evidently was pretty well frightened. Constable Messier told him to remain where he was and wait for a rope which was thrown out to the man and Gagnon was pulled safely ashore. The man had evidently wandered into the river unknowingly. He was asked how long he had been in the water and his reply was: "About an hour."

The men had been working with the Zionist and Socialist organizations. Their disappearance, it is added, is apparently due to the mysterious arrests connected with the persecution of Jews now going on throughout Poland, Germany and Austria.

IMPERIAL PREFERENCE

NOT FATAL TO LEAGUE OF NATIONS SAYS BONAR LAW

(Canadian Press Despatch) LONDON, July 29.—(Via Reuters' Ottawa Agency)—Replying to Mr. Lee Smith in the House of Commons, Mr. Bonar Law, Chancellor of the Exchequer, said he did not in the least admit that the policy of Imperial preference was fatal to a league of nations.

Replying to further questions Mr. Bonar Law said there would be no opportunity of carrying out the policy in war time, but the Imperial Government had put itself in line with the Dominions' Governments by accepting the principle (Cheers).

Mr. Bonar Law: "No, but the Government has always a mandate to commit itself."

SUTTON COUNCIL DONATE \$600 TO THE RED CROSS

Mrs. E. D. Cook Seriously Hurt in Fall Down the Stairs at Her Home—An Egg Curiosity Was Brought to Light.

(Special)—At a special meeting of the Sutton town council, held in the town house, it was voted that the sum of \$600 be appropriated to the Red Cross Society of Sutton, and the secretary-treasurer was authorized to pay the same by monthly instalments of \$200 each, beginning with the month of August.

AN EGG CURIOSITY.

Rev. J. S. Rough found an oddity in the shape of a perfect large egg, and in the place of an ordinary yolk was another well-formed egg, but of course much smaller in size.

Mrs. E. D. Cook's left leg was fractured above the knee in her recent fall on her cellar stairs. Her injuries were attended to at the Royal Victoria Hospital, and Dr. Dyer, who attended the unfortunate woman, reports the prospects good that she will be able to come home in three or four weeks at most.

Pte. Westover had been in the fighting line for several months.

Mr. Geo. A. Shepard was in Montreal on Thursday; Mrs. Charles Bowers and daughter Sylvia, also Mrs. Mary Greeley, have returned from a ten days' outing at Putton Springs; Mr. Wm. The young people's tea in the Methodist Church basement in aid of the Red Cross fund netted around \$35.

Mr. F. C. Boright, who is working in Montreal, has rented his bungalow for the summer to Mr. Copeland.

Chamber of Deputies.

The resolution demands further that the preliminary negotiations for a league of nations be commenced at once in accordance with the terms and the spirit indicated by President Wilson.

LANGEVIN MUST STAND TRIAL ON TWO CHARGES

Police Believe that His Arrest Will Serve to Clear Up Another Robbery Which Took Place Some Time Ago in the City.

Napoleon Langevin was condemned to stand his trial on two charges, this morning, in the District Magistrate's Court, over which Judge Mulvena presided. The first charge made against him was that of robbery. He had engaged Mr. J. H. Jalbert to drive him to Riverside Park on Sunday last and he agreed to pay \$2.00 for the trip. When he reached his destination, it is alleged, he wanted the driver to take him back to Sherbrooke for nothing, and when Jalbert told him he would not, Langevin jumped on him, punching and kicking him several times. After severely assaulting Jalbert, it is charged Langevin went through his victim's pockets and stole the sum of \$25.00, and incidentally made threats to kill him if he tried to resist.

The second charge brought against the accused is for attempted murder but the Court reduced the charge to that of grievous assault causing bodily harm, as the evidence was not of a character to establish that the accused's intention was to cause death, but was more to the effect that he wished to assault him sufficiently so as to be able to rob him of his money.

Langevin asked for a speedy trial in both cases and pleaded not guilty. Judge Mulvena thereupon fixed his trials for tomorrow morning at ten o'clock.

From the various articles found on the person of the accused, the police believe that they have clues to follow which will enable them to clear up another robbery that took place a fortnight ago.

Other Cases Heard.

Euclide Brault, hotelkeeper of East Angus, appeared before Judge Mulvena this morning and pleaded not guilty to a charge of allowing gambling in his hotel. The complaint was laid by Messrs Oughtred & Bissonnet, Collectors of Provincial Revenue. The trial was fixed by Judge Mulvena for two o'clock tomorrow afternoon.

On Saturday Judge Mulvena condemned Stanislas Moisan to pay a fine of \$25, or spend two months in jail at hard labor, for non-support of his wife and family. On a second charge of making threats of bodily harm, the accused was ordered to furnish security to keep the peace for one year and to pay the costs, or in default spend two months in jail.

Moisan is an old offender, having been convicted some years ago of robbery and sentenced to ten months in jail, and he has been in trouble since that time.

THREE PREMIERS TESTIFY IN MALVY TRIAL

Viviani, Briand and Ribot Give Evidence Favorable to Accused.

(Canadian Press Despatch)

PARIS, July 29.—Former Premier Viviani, Briand and Ribot were heard today at the trial of Louis J. Malvy, former Minister of the Interior, charged with holding communication with the enemy. This was known as premier's day, all three witnesses having been President of the Council when Malvy was head of the Interior Department.

M. Viviani protested against the report that M. Malvy had been the creature of M. Caillaux. He said Malvy had always done his duty.

M. Briand said that when he formed a cabinet he intended to exclude Malvy, as he was no personal friend of his and differed in politics, but at the eleventh hour he decided to confide the portfolio of the Interior to Malvy as the best man available.

M. Ribot testified that during the three years he was the colleague of M. Malvy, nothing occurred for which the Minister could be reproached.

MACHINE GUNS FOR HUN STRIKERS

HOW TROUBLE IS SUPPRESSED IN PRUSSIA.—OUTBREAK AT KALK.

(Canadian Press Despatch)

AMSTERDAM, July 30.—A new strike has broken out at Kalk, Rhinish Prussia, near Cologne, according to the Echo Belge. Machine guns were used to suppress the movement and the leaders were arrested, the paper declares.

The police, it is added, were still busy when the report was sent, dispersing the crowds which continued to gather in the streets.

TWENTY YEARS FOR ALLINSON, CHICAGO SLACKER

ROCKFORD, ILL., July 30.—Brent Dow Allinson, Chicago slacker, has been sentenced to fifteen years in a Federal prison. A court-martial at Camp Grant found him guilty of violating the eighty-fifth article of war. The technical crime of which he was convicted was that of deserting military duty.

EVIDENCE NOT SUFFICIENT TO WARRANT ACTION

Inquests Held Last Night Re Drowning Fatalities Which Occurred Near Riverside Park on Sunday Last.

Owing to the fact that the evidence they had been able to secure was not deemed to be sufficiently strong enough to warrant such a serious charge being laid against the party under suspicion, the police officials last night arrived at the conclusion that it would be best to adjourn indefinitely the inquest into the death of the infant child which was found some time ago in the refuse behind the Lansdowne Market.

The inquest had already been adjourned twice to enable the police officials to follow up clues, but the witnesses heard last night when the case was continued, were not able to furnish strong enough evidence.

Verdicts of Accidental Death.

Coroner Dr. Bachand held the inquest into the deaths of Arthur Therrien, of Thetford Mines, and Arthur Plouffe, of Short street, who were drowned in the Magog River near Riverside Park on Sunday. After hearing the evidence submitted by witnesses of the fatal accidents, the coroner's jury in both instances returned verdicts of accidental death.

WAR PRISONERS DEPEND NOW ON THE RED CROSS

The Cost of Supporting Canadian Prisoners Has Been Put Down at \$600,000 Per Annum.

Early in the war the Canadian Red Cross Society began to send to our boys who are prisoners in enemy countries an occasional parcel of comforts, for which \$2.50 a month was sufficient, and many persons and societies were able to subscribe that sum. Now, however, the number of prisoners is not only much larger but the prisoners depend upon the Red Cross for their very existence, and the cost of supporting each prisoner of war is reckoned at \$200 per annum. Then, too, this amount is liable to be increased at any time as the price of food advances, and there are now upwards of twenty-five hundred Canadian prisoners.

The Canadian Red Cross Society has undertaken the full responsibility of feeding and clothing these men, and in its budget for 1918 has estimated that it will require \$600,000 in order to care for our Canadian prisoners.

From funds provided by the public, the Society will continue to send to each Canadian prisoner in enemy countries the maximum amount of food and clothing permitted, and the Provincial branches of the Red Cross, through their local branches and auxiliary organizations, have undertaken to raise the necessary funds.

However, the task has become so great that it is found impossible to continue the present system of adoption in favor of a simpler and more workable system. The present system of "adoption" which was easy to work when there were only a few prisoners and all their parcels cost only \$25 a year, has become impracticable now that there are so many prisoners and their upkeep is often too costly to be borne by one individual or society. In the attempt to keep up the "personal touch" with prisoners, sometimes as many as five persons or organizations are "adopting" or contributing to the upkeep of one individual prisoner. Anyone who multiplies by twenty-five hundred the amount of letter-writing and book-keeping for each man necessitated under such a system will realize that it is too complicated to be continued or even expanded if the number of prisoners should be increased. Already, by relieving the London office of this clerical work, we have enabled them to undertake the actual packing of the parcels by their own voluntary staff.

The Society recognizes fully the right of the next-of-kin to "adopt" his own friend or relative even if he can only afford part of his upkeep. If you are the legal next-of-kin of any Canadian prisoner, please indicate his name and number and state whether or not you desire to "adopt" him, wholly or in part, as outlined above. The Society does not solicit contributions for this purpose from the friends of prisoners. It gratefully receives their subscriptions if offered, and assures them that if such support is a burden it will be gladly borne by the Society.

In order to preserve local links with the prisoners, the Society is arranging to allot to the Provincial branches of the Red Cross Society the support of prisoners who reside, or whose next-of-kin reside, within that province. The head office will send to the headquarters of provincial branches all cards of acknowledgment received from the prisoners so allotted. It will then be in order for the Provincial branch to forward the cards to individual adopters or to advertise in any way it may see fit the names of those prisoners who are acknowledging their parcels.

The prisoners' parcels of food will continue to be sent six times a month from the London office as before to Canadian prisoners in enemy countries, together with the maximum allowance of bread and clothes, smokes and chocolates, as permitted by the regulations of the Central Committee for prisoners of war. The support of the Prisoners of War Department will be a first charge on the general funds of the Canadian Red Cross Society, so that there will
