EXTRACT.

“The above was a fair trial, and was to us a convincing proof  
 “of the superiority of *this Salamander Safe* over all others; and  
 “considering that it was exposed to an intense heat for a period  
 “of *eight hours*, while each of the others was destroyed by the  
 “same heat in less than *two hours*, we have no hesitation in  
 “saying, that we consider *this Salamander Safe really fire-proof*,  
 “and affording perfect security to books and papers in case of  
 “fire.”

## MONKLANDS HOTEL.

### TEA GARDENS AND PLEASURE GROUND,

MR. COMPAIN has the honor to announce to the public, that he has LEASED, for a term of years, MONKLAND FARM, containing about 200 acres of Land, beautifully wooded, the late Residence of the Governor General, which he has fitted up as a PUBLIC HOTEL and RESTAURANT.

Gentlemen desirous of giving Dinner Parties, or Pic-nic Parties, may be accomodated by giving notice the day before.

Ice Creams, and other Refreshments of various kinds, always ready.

The Healthy Situation of MONKLANDS, (which contains upwards of SIXTY ROOMS, on the rising ground to the West end of Montreal Mountain, and commanding a Splendid View of the River St. Lawrence, and Lachine Rapids, the Ottawa River, and the adjacent country,) is too well known to require any remark; and the Extensive Grounds attached, afford a large and perfectly safe PLEASURE GROUND, in which children may roam at pleasure.

He has established a LINE of OMNIBUSSES from his house in Place D'Armes, to Monkland, which run 5 times daily each way.

For Terms, apply at the Restaurant Place D'Armes.

N. B.—Extensive Stabling and Coach-Houses, in first-rate order.

Read the Analyses and Certificates relating to this Water on the two following pages.

# CALEDONIA SPRINGS DEPOT,

No. 9 corner Place d'Armes, and Great St. James Street,  
MONTREAL.

The Proprietor of these justly celebrated Mineral Waters, now so long and favourably known to the public of Canada and the United States, has established a Depot for their sale as above, where the Waters of the Intermittent, Saline, Sulphur and Gas Springs will constantly be received fresh from the Springs.

The following certificates of the efficacy of these Waters are respectfully submitted to the public. Here follows a certificate from the late Dr. Robertson to the Proprietor, which is entitled to the careful perusal of every person, coming as it does from so eminent a Physician:—

“Having derived much benefit from drinking the Waters of the Caledonia Springs, last summer, I have only to add that the favourable opinion I then entertained of their efficacy is more and more confirmed, from the favourable reports of persons who have also experienced relief from the use of the different Springs. The complaints, as far as my experience extends, in which they prove most beneficial, are Dyspepsia, affections of the Urinary Organs, and some diseases of the Skin.

But the disease, above all others, in which their good effects are most decided, is *Rheumatism*. Some cases of this complaint came under my observation within the last few years, in which the benefit derived from the use of the Caledonia Water, was extraordinary. I have also known a few individuals who suffered from the improper use of Mercury and the effects of disease, for the cure of which this medicine is generally administered, who were restored to health, by the use of these Waters. Several cases of the disease designated *Chlorosis*, (a disease of young females) have been perfectly cured. Pulmonary diseases are not benefited by these Waters.”

I remain, Dear Sir, your obdt. servant,  
WM. ROBERTSON, M. D.”

To WM. PARKER, Esq. Caledonia Springs.  
*Montreal, June, 1839.*

Dr. Douglas of Grosse Isle says:—

“I use a bottle every morning, and so does Dr. Jacques my assistant. Whether the Water may be a preservative against Typhus, by keeping the general health in good order, or whether it possesses specific powers of its own, I do not pretend to say; but this I can say, that Dr. Jacques and myself are the only two, out of fourteen medical men who were in June, on duty, that have escaped the pestilence. All took fever, and two have died, and the others remain very ill. I have already had the fever, the first season of my arrival. Our duties expose us more than any

others to infection, for not only do we visit the Hospitals on shore, but every floating pesthouse on arrival, when the vessel reeks with filth and abomination, and through which we have to wade ankle-deep into the hold, to seek out the sick and dying. I feel convinced that the Waters possess wonderful healing properties, by improving the digestion and general health, and that they are also a *Prophylactic* against disease."

James R. Chilton, M. D., of New York, writes thus, with regard to those waters:—

"The Waters of the Caledonia Springs will prove highly serviceable in the treatment of various Chronic diseases.

They possess those happy natural combinations of Medical ingredients which are almost universally acknowledged by Medical men, to be more beneficial as remedial agents than any imitation of them which we are capable of forming.

It affords me great pleasure to hear that they are becoming extensively known, and that many invalids have already received signal benefit from their use.

New York, July 10, 1837.

JAMES R. CHILTON, M. D.

# PLANTAGENET WATER DEPOT,

ANDREW MANN AGENT,

*No. 4 Place d'Armes, Montreal.*

The proprietor of this highly salubrious water would respectfully call attention to the following certificates of its efficacy, being a few out of hundreds of a similar nature which he has received.

---

MONTREAL, *March 23, 1850.*

MY DEAR SIR,—I have pleasure in complying with your request, that I should inform you of my opinion in regard to the medical value of the Plantagenet Spring Water.

It is now about twelve months since I became familiar with its employment in practice, and my observation of its effects fully confirms the accuracy of the opinion which I expressed to you in April, 1849, and which I based at the time upon its chemical composition, as revealed by the analysis of Mr. Hunt.

I have used the water rather freely, and have never been disappointed in my expected result. It has gently operated on the bowels, freely relieving them, and this more or less actively, in accordance with the quantity used. It is emphatically an antacid laxative of value, and will be found serviceable in all cases; especially requiring that indication to be fulfilled.

My experience of it, in cutaneous affections is more limited; too limited indeed to permit me to offer any positive opinion of curative efficacy. I do not doubt, from the presence of Iodine and Bromine in the water associated with Magnesia, that it will prove serviceable in these cases also. It would require a more extended observation than that of a few months to confirm this opinion,

As an ordinary laxative in pregnancy, I know of none safer, more palatable, or more generally acceptable to patients.

I remain,

Yours, very truly,

A. HALL, M. D.,  
Lecturer on Materia Medica,  
M'Gill College.

---

MONTREAL, 12th February, 1850.

SIR,—It is now nearly ten months since I commenced using the Plantagenet Waters in my practice; and I have now to state, that the high expectations I then formed of them, from the publication of Hunt's Analysis have been fully confirmed by my experience of their beneficial effects.

I have found them a most agreeable and efficacious antacid laxative, and their continued use seems to answer the purposes of a tonic, by improving the digestive powers, and increasing the appetite.

I remain, Sir.

Your obedient servant,  
 GEORGE W. CAMPBELL, M. D.,  
 Lecturer of Surgery, McGill College.

Montreal

To Mr. Larocque.

MONTREAL. April 10, 1850.

Sir,—I have now prescribed this Plantagenet Water for upwards of a year, and I am very happy in being able to state to you, that the opinion which I formed of their probable usefulness based on Mr. Hunt's Analysis, at the time of my commencing, to use them, has been fully and satisfactorily verified by subsequent experience. I now recommend them extensively, and I have frequent opportunities of hearing from my patients that their employment has been attended with all the beneficial results for which they were prescribed.

I am, Sir.

Your obedient servant,  
 FRANCIS BADGLY, M. D.,  
 Lecturer on Med. Juris., McGill College.

To Mr. C. Larocque, Agent.

I, the Mayor of the City of Montreal in Canada, certify and attest, as being within my own knowledge the facts hereafter mentioned;—

1, The physicians who have given certificates setting forth the virtues of the Plantagenet Water are well known to me, as enjoying a large practice, and occupying a distinguished rank among the members of the profession.

2. On my own behalf, I may say that I have used the Plantagenet Water, and know by experience its beneficial effects during the intense summer heats. I have often preferred this natural fluid to the Soda Waters and refreshing syrups commonly used in hot climates.

I think myself fortunate in being able to add my disinterested testimony to that of the physicians of this city, and confidently recommend to the public the use of the Plantagenet Mineral Waters. In doing so, I believe that I fulfil a duty imposed on all good citizens, that of assisting in the maintenance of the public health.

E. R. FABRE, Mayor.

THE rates demanded by this Company on the various scales of Life Assurance, have been frequently asserted by the Board, to be lower than those of any other Life Office transacting business in Canada. In evidence of this, the public attention is called to the following comparisons of the premiums charged by this Company, and by the different British Agencies seeking business in the Province.

To ascertain in this System which Company is really the cheapest, requires a careful examination of the Profits which have been returned by each Company, and the prospect there may be for a continuance or increase of the same. THE CANADA, at its Second Annual Meeting, declared a return of *twenty-five per cent.* or *one-fourth* of the *Premium received*—the corresponding Bonus added to the Policy, being from £22 8s. 3d. to £34 7s. 8d. per £1000 Assured, and decidedly more than the Bonus declared by ANY British Company, even in the seventh year of its existence.

This proportion of the Profits the Directors feel sure will be increased; but in itself, it reduces the above Rates at 20 years of age, to £1 8s.; at 30, £1 17s.; at 40, £2 9s. 8d.; and at 50, £3 9s. 10d.

**T**HE Advantages offered to the Public by this Institution are MANY and IMPORTANT, and the Rates of Premium quite as LOW as security to the Assured, and safety to the Office, will admit of.

The following are some of the advantages offered by this Society:—

The peculiar Benefits secured to the Assured by the principle of the LOAN Department.

One half of the Premium for the first five years may be paid by the Assured's own Note. These Notes need not be paid, but may remain on Interest, to be deducted from the Policy on the death of the Assured.

Insurers can at all times demand, as a right, a Loan to the extent of two-thirds the amount of Premium they have paid—upon deposit of their Policy, and guaranteeing it will be kept in force. This important advantage removes the fear so many entertain of being obliged, through pecuniary embarrassment, to let their Policies lapse, and at a time such a provision is absolutely needed for their families.

No Charge for Stamp Duty, nor for Medical Examination.

The Bonuses divided *Annually*, either in Cash, Reduction of Premium, or in addition to the sum Assured, whichever of these three ways the Assured may *each year* desire, after being a Policy holder for Four Years, at which period a Bonus is payable for the Four Years,—Annually afterwards.

THIRTY DAYS allowed after each Payment of Premium becomes due, without Forfeiture of Policy.

The General Agency for the British North American Colonies being established in Montreal, RISKS will be accepted by the General Agent and Temporary Policies at once granted.

The Local Board meet regularly at the Office, and by them the business of the Colonies is conducted, thereby affording to the Assured every facility.

LOANS will be Granted, and LOSSES PAID, at the General Agency, without referring to London.

The travelling leave allowed by this Society, is more liberal and extensive than that of almost any other doing business in America, as will be seen on referring to the Prospectus.

Pamphlets, Blanks, and all requisite information, may be had on application at the MONTREAL OFFICE, or to the AGENTS throughout the Province, through whom proposals for Assurance will be transmitted.

## LIFE INSURANCE.

“It is an institution contemplating unmixed good to mankind.”

We invite the attention of the public to the principles of the *National Life Insurance Company*.

The Charter is liberal and particularly adapted to the wants of all who may desire to embrace such an Institution. It should be embraced—

1st. By *Husbands* and *Fathers*, to make provision, after their death, for their *widows* and *children*.

2d. By the *young* to provide for themselves in infirm age.

3d. By *creditors*, to insure the loss which the death of the debtor might occasion.

4th. By the *borrower* to enable his representatives, in case of his death, to repay the loan.

5th. Those who save a little from their daily labor, or yearly income should invest it in this SAVINGS BANK, that it may be beyond the reach of accident, and that the widow and the child may receive “their own with usury.”

## REASONS WHY PERSONS SHOULD INSURE IN THIS COMPANY.

It is located in a HEALTHY CLIMATE: among a people of vigorous constitution, and of FIXED and regular habits: for these reasons—

Its RISKS will be LESS: the ECONOMY of its management GREATER.

Its investments will be SAFER. Its business directed with the greater PRUDENCE and ENERGY.

All the profits, at the end of every five years will be put to the credit of the LIFE POLICIES.

## RATES OF PREMIUM,

*Payable annually, to insure \$100. The party in good health.
