St. Louis Plans Big Reception For Lindbergh

New York to Paris Flier Hopped Off This Morning for St. Louis in His Monoplane After Four Days of Unprecedented Receptions in New York.

BIG CROWD OF ADMIRERS AT FIELD TO SEE HIM OFF

Possibility that Aviator May Visit Canada Was Mentioned in His Address to Aeronautical Chamber of Commerce of America, Which Tendered Him a Dinner Last Night.

(Associated Press Despatch)
ST. LOUIS, Mo., June 17.—Poised on the brink of the greatest public reception in its annals, this city today stretched out its arms to receive and clasp to its bosom the celebrated flier, Col. Charles A. Lindbergh, who in a few short weeks has risen from the ranks of an air mail pilot to that enviable position of being the world's greatest air hero of the day.

EXPECTS TO REACH ST. LOUIS EARLY TONIGHT

MITCHEL FIELD, N.Y., June 17.—Col. Charles A. Lindbergh hopped off at 8:17 (daylight saving time) for St. Louis in his monoplane "The Spirit of St. Louis" after four days of unprecedented receptions in New York.

There was a large crowd of enthusiastic admirers at the field to see him off. They lined the runway and police had a difficult time to keep them away from the path of the plane. The take-off, however, was perfect and in a few moments the nine hundred miles from St. Louis in seven hours and fifteen minutes, establishing a new record for the route.

The possibility of the aviator visiting Canada was mentioned in his address to the Aeronautical Chamber of Commerce of America which tendered him a dinner last night.

"After a few days in St. Louis, and two weeks in Canada or some place like that, I'm coming back to New York, when I hope to have a chance to go around the city and to meet some of my old friends," he said.

A despatch from Ottawa, yesterday, said the Dominion committee in charge of the Confederation Jubilee celebration was considering the possibility of inviting Lindbergh and the other fifty per cent. of the famous partnership, "we" to participate in the festivities at the Capital.

W.C.T.U. CONVENTION IS BROUGHT TO A CLOSE

Annual Budget Was Presented—Deficit Since Last Conference \$2,297—Planned to Ask for Per Capita Donation of 25 Cents from Members.

VANCOUVER, B. C., June 14.—The twenty-fourth biennial convention of the National Canadian Women's Christian Temperance Union in Chown United Church closed last night with a meeting of the full executive when plans for executive and sub-executive meetings were discussed and matters of business completed.

Prior to the closing session, superintendents of the various Dominion departments were appointed.

Mrs. James Mabon, of Montreal, treasurer of the Dominion executive, presented the annual budget. She stated that only two provinces, Manitoba and Alberta, had met the budget allocation since the last conference. Failure of the other provinces to meet their obligations was responsible for a deficit of \$2,297. The expenditures since the last conference have been \$5,722 and receipts \$3,425. It is planned to ask a per capita donation of twenty-five cents from members.

NEWFOUNDLAND TERMS TO U.S. PAPER FIRMS

Prepared to Grant American Firms Concessions Similar to Those Given by Provinces of Quebec and Ontario.

(Associated Press Despatch)
ST. JOHN'S, Nfld., June 17.—Terms on which American Pulp and Paper interests may enter the Newfoundland field were outlined yesterday by the government to agents of the International Paper Company, New York, seeking to purchase mills in this colony.

In its reply to a request for sanction of the purchase by the International of the great pulp and paper industry at Corner Brook, on the west coast, the government stipulated that Labrador must be excluded entirely from the operations of the company.

Reporting the forest areas of Newfoundland proper, the government said it was prepared to grant the American Company concessions similar to those given by the Canadian provinces of Ontario and Quebec to paper making enterprises on terms substantially the same as required by those provinces. Special consideration would have to be given, however, to the peculiar circumstances of the paper industry in Newfoundland, the government insisted.

The great plant at Corner Brook was founded by Newfoundland and English capital, the two governments guaranteeing the enterprise jointly. It was understood that the terms set forth in the government's statement would form the basis of an agreement with the international to take over the property.

Moscow Press Describes Assassin Case Sentence A Travesty Of Justice

Declare that Sentence Is Proof of Insincerity of Poland's Assurances of Good-Will to Soviet Union—Claim Made that Accused Received Ridiculously Mild Sentence for a Heinous Crime, Responsibility for Which Falls Upon Polish Government.

STATE SENTENCE PROOF OF ENGLAND'S GUIDING HAND

(Associated Press Despatch)
MOSCOW, June 17.—Describing the sentence imposed upon Boris Kowceda, young assassin of Peter Voikoff, Soviet minister at Warsaw, as a travesty of justice, the afternoon Moscow press yesterday declared that the sentence was a proof of insincerity of Poland's assurances of good-will to the Soviet Union.

The sentence, which was life imprisonment with a recommendation that it be commuted to fifteen years, also was described as proof of England's guiding hand in the conduct of Poland's political affairs.

Rosochaya Gazeta, the first paper to publish news of the Polish court's finding, issued an extra in which it declared the Kowceda had received a ridiculously mild sentence for a heinous crime, responsibility for which falls upon the Polish government.

FINLAND NOT SATISFIED WITH SOVIET EXPLANATION

HELSINGFORS, Finland, June 17.—The explanation of the Soviet Government for the execution of the Finnish General Elvengren, one of the twenty whose execution was announced officially at Moscow several days ago, is considered unsatisfactory here and the Finnish minister has been instructed to ask for a further explanation.

A report coming from Helsingfors several days ago said that General Elvengren was actually put to death some time ago after undergoing a series of tortures from which he became insane. This report could not be verified.

Elvengren was one of several men, including George Sidney Riley, believed to have been a captain in the British Royal Flying Corps, arrested on the Finnish border in 1925. He was specifically accused of being involved in an alleged attempt to kill Foreign Minister Tehtcherin.

IT IS ESTABLISHED THAT LIGHTS SEEN ARE NOT DISTRESS SIGNALS

(Canadian Press Despatch)
QUEBEC, June 17.—Hope of finding Nungesser and Coli is dying hard. Despite the fact that it was proved to the hilt that the lights which have been seen in the St. Germain and Begin townships and thought to be signals made by the missing French airmen, were not flares but merely the lights of the power house at Chuteaux Gales, reports were still coming to hand of the light being seen and appearing to be unusual.

No explanation has been found of the reported hearing of an aeroplane on the night of May 9th by George Rousseau near St. Marguerites river in the Saguenay districts.

COSGRAVE DOES NOT INTEND TO BARGAIN TO SECURE SUPPORT

President of Irish Free State Executive Council in Statement Says He Does Not Intend to Form Another Government on Ground that His Party Would Be in Minority in Dail as Consequence of Last Week's Elections.

EXPLANATION OF STAND TAKEN BY COSGRAVE

Ministry, It Is Stated, Will Not Take Office "in Leading Strings" and Therefore Efforts Are Under Way to Bring About a General Request that Cosgrave Stay On.

DUBLIN, June 17.—William T. Cosgrave, president of the Free State executive council, issued a statement last night that he did not intend to form another government on the ground that his party would be in the minority in the Dail Eireann as a consequence of last week's election.

Mr. Cosgrave's attitude is said to be that seeing the president is elected by a majority of the Dail, and as his party is in the minority, he and his colleagues will be unable to form a government without usurping the rights and duties of the majority, which they have neither the power nor wish to do.

His statement may be explained, these authorities say, by Free State parliamentary practice. The president of the executive council, following a general election or in event of death of the office holder, is nominated by the Dail Eireann, and his name then goes to the Governor-General. The president in turn nominates the members of his cabinet and submits the names to the Governor-General.

When Mr. Cosgrave speaks of the Opposition being in the majority, it

DEGREES ARE CONFERRED ON SIR V. MEREDITH, E. W. BEATTY, REV. F. H. COSGRAVE AND HON. J. NICOL

Annual Convocation at Bishop's University Attended by Large Throng of People and Marked by Presence of Outstanding Men—Three M.A., Twenty-Six B.A., One Music Bachelor and Six L.S.T. Degrees Conferred—Speeches by Mr. Beatty, Chancellor Meredith and Bishop of Quebec—Prizes Presented.

THE conferring of the degree of Doctor of Civil Law, honoris causa, on Sir Henry Vincent Meredith, LL.D., aged president of the Bank of Montreal, Mr. E. W. Beatty, K.C., LL.D., president of the Canadian Pacific Railway and chancellor of McGill University; Rev. F. H. Cosgrave, M.A., B.D., provost and vice-chancellor of the University of Trinity College, Toronto; and Hon. Jacob Nicol, M.A., K.C., M.L.A., Provincial Treasurer of Quebec, was the feature of the 84th annual Convocation of the University of Bishop's College yesterday afternoon. The stately Bishop Williams Hall, where the ceremony was held, was crowded with the graduating class, the largest in the history of the University, other undergraduates, "old grads" who had come back for the occasion, and friends and guests of the University. Every seat was occupied and many were standing at the back and in the halls.

Dr. F. E. Meredith, K.C., M.A., president for the first time since his installation as chancellor of Bishop's and carried out his office in dignified manner. On the platform with the chancellor sat the Lord Bishop of Quebec, Rt. Rev. Dr. Williams, the principal, Rev. A. H. McGreer, M.A., D.D., the gentlemen who were to be honored with degrees of law, Grant Hall, D.C.L., vice-president of the Canadian Pacific Railway, James MacKinnon, D.C.L., Sherbrooke, chairman of the Board of Governors, the Venerable Archdeacon F. G. Scott, M.A., D.C.L., of Quebec, the Ven. Archdeacon Longhurst, of Granby, Dr. Albert Ham, Toronto, eminent Canadian organist and musician, Professor Oertel, of McGill University, Rev. Prof. F. G. Vial, acting dean of divinity, members of the faculty, and J. C. Stewart, M.C., bursar of the college. There were many other prominent men present from all parts of the province, including Hon. Walter Mitchell, K.C., Lord Shaughnessy, K.C., G. H. Montgomerie, K.C., D.C.L., and Gilbert Ferrabe, of Montreal, Mr. Justice White, and Mr. J. P. Wells, K.C., Sherbrooke. Ven. Archdeacon Wright, Lennoxville, G. M. Stearns, of Lake Megantic, and others.

Mr. Beatty's Witty Address.
The whole proceedings, made colorful by the scarlet, purple, white, blue and golden gowns and hoods of the men on the platform, the purple and white stoles of the graduating class, and the multi-colored gowns of the ladies present, went off in happy manner.

Mr. E. W. Beatty, K.C., president of the Canadian Pacific Railway, was the chief speaker, giving his witty address at the conclusion of the ceremony of conferring degrees. Himself the least worthy of the honor, said the chancellor of McGill, he had nevertheless been chosen to give the chief speech for the distinguished guests. "The selection of speaker," he continued in a dry manner, "has almost disrupted the life-long friendship between your chancellor and myself. When informed of the honor to be conferred upon me, I was told that all expected of me was to arrange free transportation for the chancellor and the other guests from Montreal out here. It seemed reasonable enough, but too easy to be true, and I felt there must be some catch in it. My worst fears were realized for when I was in Vancouver recently I received a message saying that I was to say a few words at Convocation, after which I could depart in peace—provided I gave free transportation to the chancellor back to Montreal."

Mr. Beatty was also humorous at the expense of Dr. Meredith's many degrees. "I consider," he said, "that no man with such an alphabet after his name could have conferred degrees myself in other institutions, and one gentleman had the temerity to reply in Latin. But as the dead languages are very dead to me, I didn't know whether he was expressing his gratitude or was insulting the university."

Turning to more serious things, Mr. Beatty declared that the mistake made by most university graduates was in believing that they could step out into the world and secure a fine position without any work and without the arduous apprenticeship at the bottom. Nothing was further from the truth. But the loss in time at work during the college course was soon overcome if the college graduate were a real worker.

Mr. Beatty was an advocate of thinking, for everyone must think for himself to succeed. Once he had told a woman she should think, she immediately told him just what she thought of him.

His other advice besides working hard and thinking was to learn and practice economy in both money and spare time. Mr. Beatty was loudly applauded at the conclusion of his address.

Chancellor Speaks.
Having declared Convocation open, the chancellor spoke of the growth in Canadian universities since Confederation. "There is widespread disagreement as to what education really is and we do not need to search for a definition which will harmonize all the ideas which men still hold about its purpose and the methods by which that purpose is to be achieved. But I venture to suggest that the university man or woman who has had the right environment for his or her training and has availed himself or herself of the opportunities which a university offers should have as their distinctive marks the two characteristics following:

"In the first place, the university student should acquire the habit of logical and clear thinking and the art of expressing his thoughts with precision. Unfortunately this is not a conspicuous characteristic of the age in which we live. Whether it be the result of the increase of (Continued on Page 8.)

CZECH PEASANT NOW IN PALACE WHERE BOHEMIAN KINGS RULED

Masaryk's Romantic Rise Great Drama in Modern European Politics.

By MILTON BRONNER
NEA Service Writer.

PRAQUE, Czechoslovakia, June 15.—The recent re-election of Thomas Garrigue Masaryk to the presidency of Czechoslovakia adds one more reel to the most striking romance in modern European history. It is the romance of a man who conceived a dream-state and built it, making an oppressed people into a strong nation—a romance that equals anything Hollywood has to offer.

Reel One
Masaryk's father was a gamekeeper on one of the imperial estates in Moravia.

Once a year in the autumn shooting season the game-keeper's little boy saw the Austrian emperor and all the oppressors of the Czech people come to Moravia to shoot game. They were respident in rich furs. In one night they spent enough money on champagne to keep the Masaryk family in comfort for a whole year. The little boy conceived an inextinguishable hatred of the monarchy. He conceived his dream—that of a nation resurrected after three hundred years of oppression.

Reel Two
A clergyman gave the little working boy his first lesson. Then the lad went to a German school at Hustopec. By superhuman efforts, by making all kinds of sacrifices, he went to Prague University, then later to the Universities of Vienna and Leipzig. At the latter he met a young girl from Brooklyn. They became sweethearts. They married and lived in perfect union until her death in 1923.

Reel Three
His schooling finished in 1882, the

young scholar, now prepared for his life's work, was called to a professorship in the University of Prague, where he taught history and philosophy. He encouraged them to write and speak their own tongue. He was elected to the Austrian Parliament, where he became one of the most savage critics of the manner in which Austria treated the Slav peoples within her empire.

Reel Four
In 1914 the war broke out. The university professor and parliamentary critic of Austrian misrule became a marked man. He fled from the empire and came to London, where he was made a professor of Slav studies in the University of London.

America came into the war in 1917. Masaryk came to Washington as the head of a dream state whose territory was in the hands of the enemy. Masaryk sold his dream at last. Wilson was pledged to the new Czech nation.

Reel Five
Back to Europe in 1918, triumphant. The allies recognized the Czech provisional government as a belligerent. The Czech flag flew over Czech divisions fighting on the fronts in Italy and France.

Reel Six
The war over and the treaty signed, Czechoslovakia is now a real state. In 1920 the first independent Czechoslovakia Parliament elected Masaryk president for a term of seven years.

The republican dreamer sits now in the ancient castle of Hradcany, on the heights of Prague, where once Bohemian kings ruled.

Miss Tillie Baker, of New York, spent a few days recently with her mother.

Rev. C. C. Gilbert went to Montreal for the general conference remaining from Tuesday until Friday.

A well attended W.M.S. meeting was held at the home of Mrs. W. E. Solomon on June 8th. After the devotional exercises and business meeting, excellent papers were read. Lunch was served and a pleasant social time enjoyed.

Mr. Kenneth La Grange is visiting his aunt, Mrs. Solomon, and Mr. Solomon.

One of the interesting events of the season took place in the town hall on Friday evening, June 10, 1927, occasion being a surprise presentation to Mr. and Mrs. Chas. Stevens. Their many friends and neighbors took this way to show their appreciation and friendship for Mr. and Mrs. Stevens, who are highly esteemed by a wide circle of friends. A short programme was given, then Rev. C. C. Gilbert, in a very pleasing address, made the presentation of a dinner set, no other dishes, and an envelope of money. Mr. and Mrs. Stevens, who were taken by surprise, thanked their friends for the kindness and love shown them in this way. The evening closed with dancing.

The many friends of Mrs. Wm. Jameson, who is in the Sherbrooke Hospital, wish her a speedy recovery.

Major and Mrs. Boutelle, of Danville, were calling at Mr. W. E. Solomon's on Sunday.

Extract Tablets Fine For Thin Frail Kids

Children Love Them Because They Are Sugar Coated and as Easy to Take as Candy

It's your duty, Mother, to see that the frail, peaked, sickly youngster grows up to be strong in body, keen in mind and robust in health.

Extracted from the livers of the lowly codfish are the health, weight and strength producing vitamins that are found in McCoy's Cod Liver Extract Tablets, which are sold by pharmacists all over North and South America.

Doctors know about them and so does Chagnon's Drug Store and druggists everywhere and if your children need building up ask for these tablets today if you want to give your loved ones a good appetite and put pounds of good healthy flesh on their bones. But be sure and get McCoy's.

They are not expensive—50 tablets—50 cents and if you are not pleased with the improvement after thirty days—your money back.

HATLEY UNITED CHURCH REPORT SHOWS BIG GAIN

Rev. J. L. Hodgson Reviews Work Accomplished Since Assuming Charge—Is Leaving in Near Future for Ontario. Rev. D. H. McFarlane Appointed Successor—Personals and Other Newsy Notes.

HATLEY, Que., June 17.—The following report will give a clear and concise idea of the work of the past year in connection with the United Church, under the pastor, Rev. J. L. Hodgson, who after two years is leaving in the early part of July, for his new field of labor in Ontario. The successor upon the Hatley Way's Mills and Cassville pastorate, Rev. D. H. McFarlane, will assume duty in the near future.

Except from the annual report of the Hatley-Way's Mills pastoral charge of the United Church of Canada for the year beginning April 1st 1926 and ending March 31st 1927.

Number of communicants at beginning of year, 102; number of communicants at end of year, 117; an increase of fifteen, of which number Hatley-church claims 14.

There are seventeen members on the official board, eight from Hatley-church, six from Way's Mills church and three from Cassville church.

One hundred and thirty-five families reported as being under pastoral oversight, with 425 persons.

Fifteen baptisms, five marriages, seven burials and twelve registrations of births were registered during the year.

Three Sunday schools, (with a total registration of 112 officers, teachers and scholars) and two Ladies' Aid societies, (with an enrollment of fifty-five ladies), are reported. These two Ladies' Aid societies raised upwards of \$876, during the past year and report a balance still in their treasuries of \$91.

The Church properties on the pastoral charge are valued at \$21,000, with covering insurance of \$8,500.00.

Approximately \$880 was given this past year, to the Maintenance and Extension Fund of the United Church of Canada, divided up among the three churches as follows: Hatley, \$100; Way's Mills, \$136; Cassville, \$45.

\$1672 was paid towards ministerial support.

The actual total income from all three churches on this pastoral charge was \$3,788 made up as follows: Hatley, \$2,524; Way's Mills, \$686; Cassville, \$396. This amount was very favorably with the total income, reported a year ago, of \$3,640.

Wednesday, June 1st, was observed very quietly at "Maple Lawn Farm", as the seventy-ninth birthday of Mr. O. H. Parker, who has been an invalid for the past year and a half. A large number of cards and messages were received from friends, both near and far, expressive of sympathy and esteem.

Mr. L. H. Parker drove to Way's Mills on Tuesday, accompanied by her young daughter, Geraldine, to spend a short time with her sister, Mrs. M. Hetherington.

The duties of organist at St. James' Church, on Sunday, at Evansong, were filled by Mrs. Hugh E. Bowen, of Hillhurst.

Preparations are going briskly forward, for an unprecedented display of loyalty and patriotism, by a variety of means, on the occasion of the Diamond celebration of Confederation, when it is hoped there may be the usual large attendance.

Following the street parade, which will be beautified by gaily decorated cars, as well as the usual mirth-provoking turn-outs, dinner will be served beneath the shade of the century old maples, in the historic old "common". Sports and games of various kinds will contribute to the enjoyment of this national holiday.

Mr. and Mrs. Victor Larson, of Westmount, and the latter's mother, Mrs. E. B. Pope, attended service at the United Church on Sunday and were dinner visitors at "The Butternuts".

Mr. and Mrs. Keet, of Ayer's Cliff, was here for a short time on Monday afternoon.

Mr. and Mrs. C. J. Wilson and daughter, Doris, also Mrs. Greenfield, of Lennoxville, were Sunday guests at Mr. and Mrs. J. W. Foot's, "Maple Row".

KINGSEY
Mr. Wm. Dalton, of Quincy, Mass., has been visiting in this neighborhood, after an absence of many years.

Mr. Edouard Caille has returned from spending a few days in Quebec.

Mr. H. Beisle's saw mill was destroyed by fire Friday night, June 10th. The blaze was discovered a few minutes before midnight, but too late to save the mill. This is especially unfortunate as Mr. Beisle had the same bad luck a few years ago.

LEARNED PLAIN
Mr. and Mrs. Elliott Pirie and two children and Mr. and Mrs. J. Little, from Graniteville, Vt., were recent guests at Mr. John McKee's and at Mr. John McVetty's.

RECENT INVENTIONS OF INTEREST TO EASTERN TOWNSHIPS FARMERS

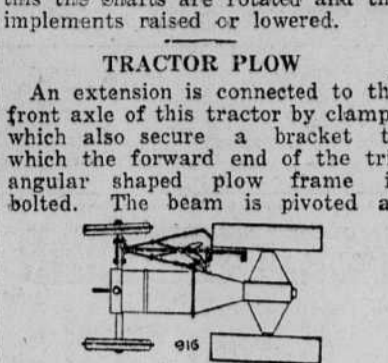

(By K. E. Cameron, 664 Old Orchard Avenue, Montreal)

TRACTOR DISK HARROW
The draft member of this harrow, consisting of two angle bars, slides in keepers under the front and rear frame members. Rods are carried from the inner ends of the gangs through a slotted bracket under the

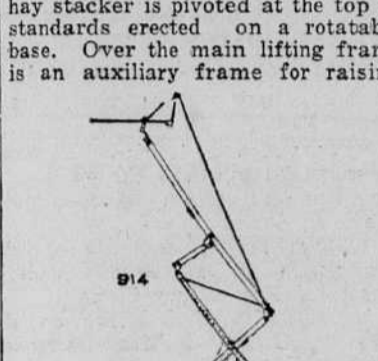

connected by gears and shafts to a hand wheel near the drive. Through this the shafts are rotated and the implements raised or lowered.

TRACTOR PLOW
An extension is connected to the front axle of this tractor by clamps which also secure a bracket to which the forward end of the triangular shaped plow frame is bolted. The beam is pivoted at

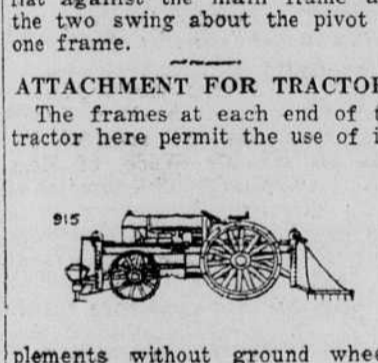

the front end of the frame. A vertical frame is supported on the plow frame and the tractor, and this carries the hand lever which raises and lowers the plow.

HAYSTACKER
The main lifting frame of this hay stacker is pivoted at the top of standards erected on a rotatable base. Over the main lifting frame is an auxiliary frame for raising

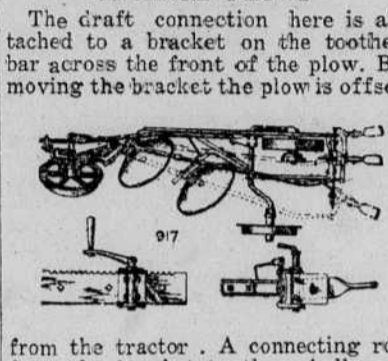

the stacker to its greatest height. When not required this frame lies flat against the main frame and the two swing about the pivot as one frame.

ATTACHMENT FOR TRACTORS
The frames at each end of the tractor here permit the use of im-

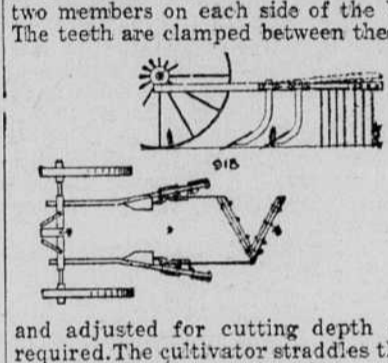

plements without ground wheels. Two verticle bars at each end are connected by a rotatable shaft on which are the arms for the supporting chains. The rotatable shafts are

DRAFT CONNECTION FOR ORCHARD PLOWS
The draft connection here is attached to a bracket on the toothed bar across the front of the plow. By moving the bracket the plow is offset

from the tractor. A connecting rod from the tractor to the spindle of the furrow wheel turns the latter to conform with the deflection of the bracket.

CULTIVATOR ATTACHMENT
This attachment is pivotally connected to the cultivator. There are two members on each side of the V. The teeth are clamped between these

and adjusted for cutting depth as required. The cultivator straddles the row and the teeth work right on the row, but are sufficiently resilient not to injure any plants they may strike.

How to make a Bovril Sandwich

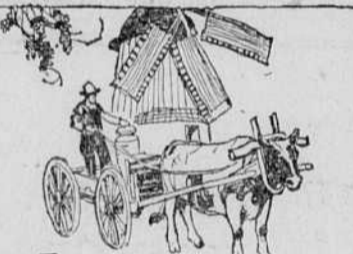

Just spread a little Bovril between two thin slices of bread and butter—it's the easiest and tastiest sandwich you can make.

Excellent for afternoon teas, parties, or for any occasion where time is lacking for the preparation of a heavier meal. Bovril Sandwiches are particularly admirable when something more sustaining than "just the ordinary sandwich" is needed.

As an addition to the Traveler's lunch basket there is nothing to beat Bovril Sandwiches.

Bovril is the Cook's best friend at all times.

AUNT OPHELIA AND HER COUNTRY COUSINS AGAIN PLEASE AUDIENCE.

Aunt Ophelia and her country cousins again delighted an audience at the Cambridge School last night by their amusing songs and jokes. They had a few new items on their programme, while the principal songs given at the former presentation were repeated and again enjoyed very popular.

Mr. Cochrane, as Aunt Ophelia, was very good in his part and delighted the audience with his characterization. The other members of the cast were also good and put originality and interest into their parts. The audience was friendly and appreciative, and thoroughly enjoyed the entertainment. Gandy was sold during the evening.

The play was given by the members of the Princess Rebekah Lodge and their friends, and was under the auspices of the King George V Chapter I.O.O.F. It was given in aid of the War Memorial Hospital.

MEETINGS HELD IN CONNECTION WITH JUBILEE

Decoration Committee Made Further Plans Yesterday, While Merchants of the City Met Last Evening—Expect City Will Be Very Gaily Decorated.

Further arrangements were made and plans discussed regarding the Dominion Day jubilee celebration yesterday when two different meetings were held. At five o'clock in the afternoon the decorating committee gathered at the City Hall and considered a number of matters in connection with their part of the celebration, while at eight o'clock last evening the merchants of the city met to decide what course they would take regarding the closing of business places for two days, Dominion Day, which is Friday, and Saturday, which was then proclaimed a public holiday.

At the meeting of the decoration committee a number of further suggestions were brought up for consideration. It was decided that the committee would build an arch at the corner of King and Wellington streets, which it was thought would add greatly to the appearance of the street. It is understood that there has been some opposition in connection with the erection of this arch, as some citizens felt that too much decoration was being made on Wellington street, as compared with the rest of the city. It is pointed out, however, that the committee could not undertake the decoration of the entire city and therefore restricted their efforts to the business section of the city, where the parade and chief activities are to be held. It is now up to the private residents of the residential streets of the city to decorate their homes in an appropriate manner.

Another matter which was decided at the meeting yesterday was to place pennants across Wellington street, while it had already been decided to place shields with flags on each lamp post. Arrangements have also been made with the Street Railway Company to have their fly streamers or flags from the trolley line of each car. It is also quite likely that the committee will have two towers erected in the vicinity of King street, possibly at the upper end.

Prizes Offered

The committee also decided that it would hold competitions for the best decorated building, three prizes will also be given for the three best decorated windows. The decoration is expected to be of a patriotic nature, preferably depicting some scene in Canadian history. A committee, consisting of Messrs. O'Brien and Glenn Sampson was appointed to interview the different merchants in this respect.

Six cash prizes are also to be offered, three for the best decorated pleasure car and three for the best decorated business floats. The winners of these prizes have been turned over to the Sherbrooke Auto Club, who announce that they would like to have all the decorations of a patriotic nature. It is felt that owing to the nature of the great event which Canada is to observe that comic floats would be quite out of place.

All Stores Will be Closed on Friday

At the meeting of the merchants it was decided that all stores of the city would be closed on Friday, which is Dominion Day, while the question of Saturday closing was left optional. Another meeting is to be held shortly, when the matter will be given further consideration. It is understood that possibly the stores will remain open one evening earlier in the week as they will be closed on Friday. The meeting of the merchants was presided over by Messrs. E. A. Bernard and G. W. Murphy and was attended by a large number of merchants.

The parade committee announced this morning that it had invited all fraternal, social and sporting organizations to participate in the parade, and that if any club or organization had been overlooked the committee hoped that the officers of the club would understand the situation and turn out for the celebration with the other clubs.

Meeting of Parade Committee This Evening

A meeting of the parade committee has been called for eight o'clock this evening at the City Hall. Messrs. Judge Lemay and J. W. McKee are joint-chairmen of this committee, and it is earnestly hoped by them that every member of the committee will be on hand for this meeting.

MATERIALISM OF MODERN LIFE MUST BE WARDED

Rev. F. H. Cosgrave Sounds Warning Against Materialistic Tendencies Resulting from Canadian Prosperity—Annual Convocation Service at Lennoxville.

A warning against the ultra-materialism of modern life resulting so often in forgetfulness of higher things and nobler works and aspirations, was sounded by the Rev. F. H. Cosgrave, M.A., B.D., provost and vice-chancellor of the University of Trinity College, Toronto, in his sermon at the annual Convocation service in the chapel of St. Mark, Bishop's University, yesterday morning. Mr. Cosgrave took as his text a passage from the eighth chapter of Deuteronomy, "Beware lest thou forget the Lord thy God," which was represented as the last words of Moses. The words were very interesting, thought the speaker, because the later history of the Israelites showed that the warning was justified.

The situation which confronted Moses near the end of his life and regarding which he gave this advice, was compared to the situation in Canada today. "It is 60 years ago," said Mr. Cosgrave, "that Canada's national life was established by the fathers of Confederation who desired to found a nation in the northern part of the British Empire. The past 60 years have been ones of great achievement and we have attained a very considerable prosperity."

"But what Moses saw as the danger confronting his people is also the danger facing Canada today. Spiritual progress has not been in proportion to the progress of what is called our modern civilization. That civilization gives us a wonderful control over nature, but that power may be abused as well as used. At the present time there is a dangerous medley of civilization and barbarism instead of civilization in the real sense." Mr. Cosgrave warned against the idea that mere material education was the means of obtaining peace and prosperity in the world, for the ultimate greatness of a nation lay rather in the character of the individuals.

"Here at Bishop's University," he continued, "I know you have labored for more than 80 years to preserve the spiritual side of education and of the nation at large. We have found that the idea which was held 20 years ago that science could achieve everything, amounts to nothing. Institutions like Bishop's are the greatest guarantee against such an idea, for they exist to lead men and women back to God." The provost of Trinity concluded by saying that he believed his words to be worthy of consideration. "It is a high and holy task which is yours. You have to take your place in the task of regenerating society, which can only be done through your personality."

The chapel was crowded with undergraduates, members of the faculty and visitors. A large number of clergy from all parts of the province were present, most of them robed. The college choir sang the Choral Communion service, with Mr. A. F. Dowdell at the organ. The Lord Bishop of Quebec, who conducted the service, was attended by Rev. F. G. Vial, M.A., D.C.L., as chaplain, while the chancellor, Dr. F. E. Meredith, K.C., M.A., was attended by Prof. E. E. Boothroyd, M.A.

EGG CONTEST IS STILL LED BY BEEBE PEN

Thirty-Second Week Concluded—Efforts of Other Nineteen Pens Still Unsuccessful in Passing Entry Which Assumed Lead at End of First Week.

Thirty-two weeks of the Quebec Western egg-laying contest, which is being conducted at the Lennoxville Experimental Farm, have been concluded and still the pen of white wyandottes entered by Miss R. G. Knight, of Beebe, holds first place, with a total of 1526.0 points. With 1484.6 points, the pen entered by Mr. Fred Bell, of Ayer's Cliff, continues in second place, while third place again goes to Mr. Bond Little, of North Hatley, whose pen has attained 1400.9 points. The individual honors for the past week goes to the pen entered by Mr. H. R. Drew, North Hatley, which produced fifty-nine eggs during the past week. To date the twenty pens entered have produced 22,032 eggs, while the total production for the past week was 881 eggs.

The following is the standing of the pens to date:

RED CROSS CAMPAIGN

REPORTS FROM OUTSIDE DISTRICTS

In Cowansville, Miss Williams reports that the work is progressing very satisfactorily and that they expect to commence the canvass on Monday.

Waterloo meetings were held yesterday both afternoon and evening when Mrs. Moeckil, of Sherbrooke, addressed the workers. The canvass will commence at an early date. The Bury Women's Institute held a meeting recently at which committees were formed and arrangements made for a house to house canvass of the town. Collecting cards are being mailed from the office today to all the out-of-town districts.

AT MANSONVILLE

The campaign at Mansonville has been started by a meeting of the citizens held on the 10th, instant, which was very representative. A committee was formed consisting of Messrs. J. A. Giroux, mayor; Rev. C. Gaukroger, Mr. C. Oliver, M.L.A., Mr. E. F. Cowan, secretary of the town and Mr. J. Lemay, manager of the Canadian Bank of Commerce. Miss Laura Bailey was appointed to look after collections.

LIME RIDGE

This place has been heard from and Mr. and Mrs. C. H. Mann have consented to undertake the campaign here.

LETTER OF COMMENDATION FOR RED CROSS FROM REV. FATHER SIMARD.

Mrs. C. H. Bowen, President, Canadian Red Cross Society, Sherbrooke, Que., Madame:—Please accept, with my expression of deepest sympathy for the work being carried on by the Red Cross throughout the whole world as well as among our citizens of Sherbrooke, the humble offering which my modest means permit, yet which I would indeed like to make many times greater.

The Red Cross is one of those associations which have a definite aim which must be obvious to all who have a heart capable of sympathizing with the sufferings of others.

The City of Sherbrooke may well be proud of its splendid charitable institutions which undertake such creditable work in all places and at all times. Sufferings do not always lead the individual to the hospitals and other institutions, so that there is a wide and vast field open to the charitable efforts of generous women who make it their duty to locate pain and sorrow even in the private home, incidentally alleviating distress wherever it is met.

The Red Cross of which you are president in Sherbrooke is one of those noble associations of charitable women which are a credit to the civilized world inasmuch as the members assume the responsibility of seeking the poor and the sick for the sole purpose of administering to their requirements.

I sincerely trust that the Sherbrooke Red Cross will meet with the greatest of success in its present campaign. I am confident Sherbrooke will not fail to show its appreciation of your splendid work and I feel sure that this will be evidenced by the generosity of its citizens in contributing largely and generously towards your objective. Believe me, Mr. President, respectfully yours,

(Signed) H. A. Simard, Priest The Bishopric, Sherbrooke, Que., June 15th, 1927. This letter was accompanied by a cheque for twenty-five dollars.

FIRST SHERBROOKE PACK HELD MEETING

A fine meeting of the First Sherbrooke Pack was held last evening with a good attendance. Wilfred Blackwell was appointed acting sixer for the evening and Harold Green acting second.

Two games played by the Pack were greatly enjoyed, namely, "Snatch the Scarf" and "Soldiers and Sailors". The feature of the meeting was the story of the young Cub named Mowgli which was told by Akela, Cubmaster Blake.

The neckerchief offered by D.S. M. Govetti for competition in securing recruits was won by Wilfred Blackwell and announced by Akela, the presentation to be made shortly. The closing of the competition, however, does not mean that the limit of the membership of the Pack has been reached and Cubmaster Blake will be pleased to welcome any boy between eight and twelve years wishing to join at the regular meeting of the Pack to be held at seven o'clock on Thursday evening, June 23rd, in the Church of the Advent Hall on Bowen Ave., South.

It is expected that a hike for this Pack will be held in the near future.

CELEBRATION AT RICHMOND ON JULY 1ST

Richmond County Citizens' Association Makes Plans for Diamond Jubilee—Excellent Programme to be Presented.

Elaborate preparations are being made for the Dominion Day Diamond Jubilee celebration at Richmond on July 1st next.

The programme will include a procession of all the national, civic and military organizations of the locality, including a big historic pageant, depicting scenes of federal, provincial and historic interest. In the afternoon there will be games and sports on the fair grounds, comprising athletic contests, baseball, races, community singing, distribution of commemorative medals to the school children of the town and vicinity. Band music and military display by the 11th Hussars with bugle band will be another interesting feature. A tag day for Catholic and Protestant hospitals of Sherbrooke has also been authorized. In the evening a grand illumination of the citizens' residences and places of business will be the appropriate setting for a band concert and musicale.

The arrangements are being carried out by the citizens' celebration committee, the officers of which are, president, J. McMorine secretary, John Hayes, M.D., and treasurer, P. J. Girard and J. M. O'Halloran.

BOARD OF TRADE BANQUET

The proposal of a citizens' dinner, under the auspices of the Board of Trade, and complimentary to the City Council, is meeting with general favor. It is well for the citizens of a community to get together occasionally. The close co-operation existing between the Council and the Board in the Sherbrooke promotion work, also, justifies the invitation that is to be extended to the members of the Council to attend the function as guests of the Board.

KING'S HALL, COMPTON.

King's Hall, Compton, formerly Compton Ladies' College, has achieved remarkable success in recent years under the direction of its capable principal, Miss Joll. The institution is today known throughout the Dominion and has many more applicants than it can accommodate. Girls from every province in Canada have been pupils there and the school has an enviable reputation for the fine training it gives.

MONEY GETTING CHEAPER.

Investment returns have been steadily declining for the past year or two. And financial men predict that the world money market is headed for still lower rates. Says one writer, "All the great money markets of the world have witnessed during the last few years a remarkable increase in the supply of investment capital as compared with the ordinary demand for it for business enterprise, resulting in a steady downward trend of interest rates. This tendency, which was at first explained (and may still in part be explained) as a continuance of the saving habit developed in individuals during the war, is now so pronounced as to call for a deeper and more scientific account of its origin. Foremost among these is undoubtedly the marked reduction in the lapse of time between extraction of raw materials and delivery of the finished product to consumers. More scientific methods, both of manufacturing and of buying and selling, have combined to effect this end with a much improved system of transportation, which by its speed and reliability makes it possible for smaller stocks of merchandise to be carried at all stages of the producing and distributing process. This cuts down greatly the amount of 'inventory' for which credit is needed. As against this, the growth of instalment selling has slightly extended the term during which credit is employed at the retail end of the process; but this is a small matter compared with the economies just referred to. Another factor is undoubtedly a better adjustment between industrial capacity and production, and the putting of production on a less seasonal and fluctuating basis. This reduces the amount of fixed capital required to carry on a given amount of production, and at the same time by stabilizing employment increases the productive power of each individual worker, enabling him in turn to add both to the accumulated savings of the community and to the demand of current goods."

THE PHILOSOPHER.

Great minds have purposes, others have wishes. Little minds are tamed and subdued by misfortune; but great minds rise above them.—Washington Irving.

TOO MANY FOLKS

Professor E. A. Ross, of Wisconsin, says that the earth's population will multiply itself by 32 by 2027. Then the population of the world will be sixty billion, instead of 1,900,000,000, as now. That is only one hundred years away and will swiftly come around.

Ever since the days of Malthus, people have been alarmed by the rapid increase of population in the world.

As far as we can see, the number of people is multiplying more and more rapidly. There are no famines now and the casualties in war are smaller. The birth rate continues to gain upon the death rate.

But we need not be alarmed. The entire population of the world could now be taken care of by the State of Texas.

We are learning more and more how to maintain human life more easily. As we harness electricity and utilize the power of streams, more and more food sustenance and other articles of human necessity are being manufactured.

I once lived in a community where some men had very small farms and others farms of three or four thousand acres. I asked a small farmer once, whose name was Bill Johnson, just how much land a man needed to make a living on. His answer was characteristic. He said: "About all he needs is room enough to stand on if he's got sense enough."

We have not begun yet to make inroads upon the tremendous supply of life found in the seas.

We have just scratched the tropics. Beside this, governments are just learning that the best thing they can do for their respec-

tive countries is to turn water on their desert lands, and otherwise improve the productive area of the land.

The trend of progress seems to be in the way of making the sustenance of human life more abundant.

The sixty billion people of 2027 will not only greatly outnumber the present population, but they will be a great deal more intelligent and know a lot more about making a living.—Cpt. 1927.

PRESS COMMENT

A BOY AND A DOG.

A nine-year-old boy living in Aurora, Ill., plunged into water in an abandoned stone quarry to save a mongrel pup which had fallen in. The bodies of the lad and the dog were recovered from the water one hour later, the dog firmly clasped in the boy's arms. "Foolish boy," says some one. But that some one fails to understand boys and knows nothing about dogs.

FATHER HEALY AND GLADSTONE.

(From a Review of Stephen Gwynn's Book) The best yarn in Mr. Gwynn's autobiography was told to the author by Father Healy, who was noted for his ready wit. One day, in a talk about Gladstone, Father Healy said: "He asked me to breakfast in his own house one day, and there were a lot of big men there; ministers and men of science, and writers and what not; but he seemed the master of every one of them on his own subject. Well, after breakfast Gladstone began declaiming about the doctrine of indulgence, and, seeing where I was, I tried to make myself as little as I could. It was no use; he turned round on me there, with his eyes flashing: 'Father Healy, I saw with my own eyes in a church at Verona a notice offering to remit 40,000 years in purgatory for the sum of 200 lire. Now—what do you say to that?' Well, I was in a fix with all those fellows looking at me, but I thought of a way; so said I: 'It's a fair offer, and I don't know where you'd do better.'"

WELCOMING THE AUTOMOBILE TOURIST.

(Christian Science Monitor) With the increase in automobile travel American cities are making a bid for business through the erection of great signs at their gateways notifying tourists of their industrial activities, their recreational advantages, their historical points and such other information as may be appropriately set forth in a manner that he who rides may read.

A few years ago automobilists touring in strange territory often passed through cities and towns without seeing anything that would provide them means of identification. If they happened to pass the railroad station it might inform them of their whereabouts or perhaps some sign on a store might indicate the name of the place.

The practice, therefore, of notifying the touring public that "This is Squeedunk" or "You Are Now Entering Milltown" or "Five Miles From Here Is Shootown," is entirely an innovation. These signs do more than merely inform the traveller as to where he is. Though inanimate things, they radiate welcome. They give the incoming visitor the feeling that they have been waiting for him, that the town is his, so to speak, as long as he cares to stay.

In many of the cities and towns which have thus extended the glad hand of welcome at the outskirts, arrangements have been made within further to greet the touring visitor. Signs tell him that the Chamber of Commerce has a "booth" on "the common" or "in the square" or at the leading hotel, where information of any kind awaits only the asking.

Other signs may tell him that a municipal "sawp site" is close at hand and that the touring automobilist will find there practically "all the comforts of home." And that there may be no mistake as to the sincerity of the welcome oftentimes committees appear to lend their ministrations in meeting whatever demands the well-being of their guests may require.

It is "hospitality" in capital letters that these municipalities are generating and its effect will rise far and above any commercial benefits that may accrue. Underneath and above and around it all is the love of man for his fellow man and the development of a brotherhood that ultimately must spread its influence over the entire civilized world.

Social and Personal

Mrs. C. Marston, of Warden, is spending a few days here with her daughter, Mrs. E. G. Graves.

Miss Beatrice Drury, of Toronto, arrived here yesterday and will be the guest of her sister, Mrs. C. Boucher, Portland Avenue, for some time.

Mrs. S. R. Fuller will be the hostess tomorrow at the tea at the Sherbrooke Country Club. She will be assisted by Miss Hale and Misses Lois and Peggy Fuller.

Mrs. Margaret Wark announces the engagement of her daughter, Charlotte Mildred, to Burward Carroll Wilmot, of Barre, Vt., son of Mr. and Mrs. G. C. Wilmot, of Randolph, Vt. The marriage will take place early in July.

Mrs. Henry Ingram and Miss Florence Ingram entertained at a bridge last evening in honor of Miss Jennie Moe. The prizes were won by Miss Jennie Moe, Mrs. Frederick Rugg and Mrs. Guy Bryant. Supper was served in the Rose Room, where the table was decorated with sweet peas and lilies of the valley. A miniature bride was suspended in a swing over the table, and streamers of pink and white fell from this. The guest of honor was presented with a silver tea pot, creamer and sugar bowl.

A very pleasant event took place in St. Paul's Mission Hall last evening, when about sixty-five members of the congregation of the church gathered there to welcome Rev. H. G. Goodfellow, who has been placed in charge of the west ward parish. The guests were received by Mrs. S. Robinson in the absence of the president of the Guild, Mrs. E. King. Mr. T. Oak acted as chairman, and a very interesting programme was given as follows: A piano duet by Misses Pearl Loveland and Norma Hope a piano solo by Miss Dorothy Robinson a vocal solo by Mr. H. Cuthbert a piano solo by Mrs. C. St. Jean a vocal solo by Mrs. Perry accompanied by Miss Dorothy Robinson; a piano solo by Miss Doris Hillard, and a piano solo and recitation by Miss Dorothy Barton. Some interesting stories were told by Rev. H. G. Goodfellow, after which games were played. Refreshments were served by the ladies of the Guild, and the singing of the National Anthem brought a very pleasant evening to a close.

Among the guests registered at the New Sherbrooke House are Mrs. Frederick Palmer, New York City, N.Y.; Miss Louise B. Cabana, Montreal, Que.; Mr. and Mrs. George E. MARRIAGES

HOPPER-SARRASIN

A pretty wedding was solemnized on Wednesday, June 8th, at St. Andrew's, when Miss Evelyn Sarrasin, youngest daughter of Mr. and Mrs. Clement Sarrasin, of Waterville, was united in holy bonds of matrimony to Mr. Samuel Hopper, son of Mr. Samuel Hopper, Rev. Alfred Bright performed the ceremony.

The bride was prettily attired in ivory champagne satin, with bridal veil made in cap effect, caught with orange blossoms, and carried a bouquet of Premier roses. Her only attendant was her sister, Mrs. S. G. McHarg, as matron-of-honor, who wore a gown of white brocade satin and carried pink carnations. The groom was supported by Mr. S. G. McHarg.

After the ceremony a reception was held at the home of the bride's parents, where a bountiful repast was served, the dining-room being prettily decorated in pink and white with spring flowers. A large wedding cake centered the table. The groom's gift to the bride was a gold brooch set with a ruby; to the matron-of-honor a gold brooch set with an opal and to the best men, gold cufflinks.

Later the bridal couple left by motor, amid showers of confetti and good wishes, for a trip to Providence, R.I., Boston, Lowell, Mass., St. Johnsbury and Lyndonville, Vt., the bride travelling in a frock of blue flat crepe with gendarme blue charmelaine coat and small blue hat with grey trimmings. The bride and groom received many useful and beautiful gifts which they show the highest esteem in which the young couple is held.

On their return Mr. and Mrs. Hopper will reside at Huntingville.

Miss Mary MacLean, of Ottawa, Ont., is the guest of Mr. and Mrs. Frank Norcross, Fulton avenue, for a few days.

Mrs. B. Cohen, Gillespie street, has returned from Montreal and Ottawa, where she spent the past few days.

Mr. and Mrs. R. W. Hovey and son, of St. John, N.B., have returned home after visiting Mr. and Mrs. Fred Hovey and Mr. and Mrs. Philip Hovey, of this city.

Mr. and Mrs. Frank Norcross, of Fulton avenue, have returned from Ottawa, where they were guests at the wedding of Mr. Ashley Norcross and Miss Jean Hutchison.

Mrs. E. J. Young and little daughter, Joyce, who have been visiting Mrs. Young's mother Mrs. Mary Johnson, Lennoxville, have returned to their home in North Bay, Ont.

Miss M. A. Dearden, of South Hadley, Mass., arrived in the city yesterday to spend the summer months with her sister, Mrs. A. M. Stevens, and Mr. Stevens, King Street west.

Following the Convocation exercises at Bishop's College, yesterday afternoon, tea was served on the lawn. Principal and Mrs. McGreer received the guests and delicious refreshments were served. Music was played and the lawn presented a very pretty appearance. Congratulations were extended to the students who had graduated and to those who had received medals or prizes.

A meeting of the Mothers' Auxiliary for the 2nd Troop Boy Scouts was held on Wednesday evening at the home of Mrs. Baker, Wellington street, with a large number of members present. Being the last meeting of the season, considerable business was completed. Final arrangements were made for the rummage sale to be held at the market on July 8th, and committees were formed for the ice cream social to be held on Portland Square on July 4th. Reports from the different committees were given. The flag committee stated that many flags had been sold, especially during the last week. A report was also given by the committee which is serving tea each afternoon to the Red Cross workers. The members of the Auxiliary will have a picnic some time in July. After the meeting a social hour was spent and refreshments served by the hostess, assisted by Mrs. Brodeau and Mrs. Dearborn.

The W.M.S. of Trinity United Church met yesterday afternoon in Wesley Hall. The president, Mrs. J. A. Miller, was in the chair and the devotional exercises were conducted by Mrs. George Hall. Mrs. M. Fuller took up the last chapter of the study book, after which Mrs. Matthews gave an interesting and comprehensive report of the branch meeting of the W.M.S. held at Ottawa and to which she was official delegate from the Quebec Presbytery in Sherbrooke. At the close of the meeting tea was served. Mrs. J. H. Bruce poured tea and a number of visitors were present. After tea there was a joint meeting of the executive of the W.M.S. of Plymouth United Church, Lennoxville, and Trinity United Church to arrange for a special Confederation Jubilee meeting of the W.M.S. of these three churches to be held on Wednesday evening, June 29th.

A colored lady had accompanied her mistress to an entertainment where a medium had aroused much interest by reading a newspaper through a thick black cloth while blindfolded. At this juncture the colored lady got up to leave. "You are not going, are you, Aunt?" asked her mistress. "Ah snah is," replied Aunt. "Dis heah am no place for a 'spe' b' cull'ahad lady 'wid nothin on but a thin calico dress."

AUSTRALIAN IS MADE DEAN OF DIVINITY

Announcement of Appointment of Rev. Philip Carrington to Important Post at Bishop's—Brilliant Academic Career.

The Reverend Philip Carrington, M. A. (Cantab.), warden of St. Barnabas' College, Adelaide, Australia, has been appointed dean of the faculty of divinity of Bishop's University, it was announced yesterday. The new dean, who will take up his duties some time next autumn, succeeds Rt. Rev. R. Rockborough Smith, who left Lennoxville a year ago upon his election to the see of Algoma. The position of dean had not been filled until yesterday, Rev. Dr. Vial having acted as dean during the past year. The appointment was in the hands of the Lord Bishops of Quebec and Montreal.

Although only 33 years of age, the Rev. Philip Carrington has already had considerable experience in educational work in Australia, and has a brilliant career of scholarship in England to his credit. He was a scholar and student of Selwyn College, Cambridge, where he won the chancellor's gold medal for English verse in 1915, the Carus Greek Testament prize in 1916, and the Hulsean prize in 1916. In the latter year he graduated with the degree of B.A., securing a first class in the Theological Tripos, part 2. In 1923 he received his M. A. He also studied at the University of New Zealand.

Ordained deacon in 1918, Mr. Carrington was raised to the priesthood in the following year. He was canon of Christ Church, Adelaide, from 1918-22, and was made priest of the cathedral church of the city and diocese of Adelaide in 1923. For two years he served as examining chaplain to the bishop of the diocese, and in 1923 was appointed to the principality of St. Barnabas' College, Adelaide, which position he holds at the present time.

Rev. Mr. Carrington is the author of "Christian Apologetics in the Second Century". He is at present in Australia, but will arrive soon for England, and will arrive in Lennoxville probably late in the autumn.

PRELIMINARY INQUIRY WAS OPENED TODAY

Sam Smith, Member of Sherbrooke Iron, Metal and Hide Company, Facing Charge

The preliminary inquiry was opened today at the Magistrate's Court, presided over by Judge J. H. Lemay, in the case of Sam Smith, a member of the Sherbrooke Iron, Metal and Hide Company, who is facing a charge of receiving scrap copper and brass alleged to have been taken from the store rooms of the Brompton Pulp and Paper Company, Limited, East Angus.

Alfred Kerr, of East Angus, who is awaiting his trial at the next session of the Court of King's Bench on a charge of stealing copper and brass alleged to have been taken from the store rooms of the Brompton Pulp and Paper Company, Limited, East Angus, was the first witness called.

During the course of his evidence, Kerr stated that on the fall of 1925 he had approached the accused regarding the purchase of the brass and copper scrap and was offered from six to seven cents per pound. Kerr added that he accepted the terms and said that he would bring the "stuff" at about twelve o'clock at night. The accused, according to the evidence, told the witness to wake a man in his (Smith's) employ by the name of McHarg if the office was in darkness, and that his load would be weighed. The witness said these details were carried out, McHarg giving him a slip with the weight on it, and Smith paying for the copper and brass some two days later.

"Did Smith know that the scrap had been stolen?" was the next question asked by Col. E. Rioux, the company's attorney, and was answered to the effect that Smith had been told to be careful of "the stuff," but received the answer that "there was no danger from that end." McHarg had paid Kerr for several more loads, sometimes at his house and sometimes at a hotel bar, "so that no suspicion would be directed against me," stated Kerr. The witness stated Smith had also asked him if he could bring a ton of the "stuff" and was answered that "it was too risky," and that he would not sanction it for a minute. A detailed explanation of the copper and brass delivered to the accused

was then given, the principal items dwelt upon being the rolls of copper wire and the screens. The evidence of the witness was brought to a close by his stating that all the scrap metal which he had sold to Smith came from the Brompton Pulp and Paper Company, Limited, East Angus.

At the time of going to press the case was still continuing. The accused is not the Sam Smith of 192 King Street West.

CHAPTER XLI

Sally's Wish 67

Following his conversation with Sally, Philip Sanderson seemed to take it for granted that she would marry him as soon as matters could be arranged.

He was a man to whom eloquence was always difficult, but the few words he had spoken had meant so much to him that he was sure they must have conveyed as much to Sally.

He was fully aware that she did not love him as he loved her, but he was obstinately convinced that once she was his wife he could break down any barriers between them and show her that there were no limits to what he could become for her sake.

All his life he had been more or less forced back upon himself and unable to give full expression to his feelings, and he longed more than he realized for somebody of his own with whom he could be perfectly frank and free from restraint.

Perhaps he had always placed Sally upon too high a pedestal; perhaps he had overrated her intellect and also her capacity for loving, but he would not have believed it had anyone told him so; in his eyes even her faults were virtues.

When he believed that matters were settled between them he told her of the money which he had inherited from his half-brother.

"I shall settle it all on you, Sally, of course, I'm much older than you, and I dare say I shall be pushing up the daisies long before you have grown tired of pretty frocks and frilleries. Besides, my wife must be properly provided for."

Sally smiled with her lips though her eyes were sad.

"You're very good to me, Philip," she said, but there was a lack of interest in her voice. Money no longer seemed the infallible god she had always believed it to be; she had begun to realize that there

LAWRENCE PAQUETTE, Sutton, Que., June 17th, 1927.

IN MEMORIAM.

In affectionate remembrance of our dear daughter-in-law, Gladys Paquette, who departed this life June 17th, 1926.

In our hearts your memory lingers Sweet and tender, good and true, There is not a day, dear Gladys, That we do not think of you.

Inserted by Father and Mother-in-law, MR. AND MRS. E. PAQUETTE, Sutton, Que., June 17th, 1927.

IN MEMORIAM.

In loving memory of our dear daughter and sister, Gladys Bennett Paquette, who entered into eternal rest on June 17th, 1926.

One year has gone, our hearts still sore, Each day that passes, we miss her more, Sad and sudden was the call, Of her so dearly loved by all. For oft is shed a silent tear, A bitter grief, a shock severe, To part with daughter dear.

God knows how much we miss you, He counts the tears we shed, And whispers, "Hush," she only sleeps, Your loved one is not dead.

When sorrowing o'er some stone we bend, Which cover what was once a friend, And from her voice, her hand, her smile, Divides us for a little while, Then, Saviour, mark the tears we shed, For thou didst weep o'er Lazarus dead.

Inserted by FATHER AND MOTHER, BROTHER AND SISTERS, MR. AND MRS. ARTHUR BENNETT, Sutton, Que., June 17th, 1927.

NEW FAST SERVICE BETWEEN SHERBROOKE AND QUEBEC ON CANADIAN NATIONAL RAILWAYS

The ever increasing passenger traffic between Sherbrooke and Quebec of the Eastern Townships and Quebec of the Ancient Capital has created a demand for a faster and more convenient train service. The Canadian National Railways with their short mileage are in a position to fulfill the demand and effective Monday, June 13th, will operate a new fast train, in both directions, between Sherbrooke and the Ancient Capital.

Trains will operate from the conveniently located Canadian National Railway station on Depot Street, Sherbrooke, to and from Palais Station, Quebec, via the Quebec bridge.

ferent point of vantage. "I've been thinking," she said half-shyly, half in a business-like way, "that if we're to be married, and if I'm supposed to be engaged to you now, I ought to have a ring."

"A ring?" Sanderson stared down at her from beneath his frowning brows, then he laughed and the shadows cleared as he sat down beside her on the couch where she had been resting, and took her hand in his.

"What sort of a ring, Sally?" "Any sort. You choose." "That pleased him."

"I'll go to London tomorrow and bring some down," he said. "No. You choose. It will be much more fun if you choose," she insisted gently.

She was not really interested in a ring, but she was interested in seeing Sanderson happy. As each day passed she seemed to realize more vividly how much he had done for her, how great was her debt to him. "If I can't be happy myself, at least I can try to make him happy," was the way she argued it out to her conscience.

That was a great step forward for Sally. In the past it had been only of herself that she thought; she had used everyone as stepping stones by which she might further her own advancement. "I'll choose the prettiest ring in London," Sanderson promised recklessly.

PIRATES STILL HOLD ONE GAME LEAD ON CUBS

Chicago Yesterday Stretched Its Winning Streak to Twelve Games—Ruth Registered His Twenty-Second Home Run.

(Associated Press Despatch) NEW YORK, June 17.—With a season's record of twelve straight victories to their credit, the Chicago Cubs today were being counted in on the National League pennant party.

Pittsburgh had to beat the Boston Braves to stay in the van and the bespectacled Lee Meadows showed the way in a 6 to 0 walk-over.

The Buccaneers pounded Kent Greenfield, the former Giant, and he retired for a pinch hitter after six innings on the mound.

Rogers Hornsby helped to bring the Giants out of their losing streak at St. Louis by clubbing out four hits in as many times at bat, one of them a home run. The score was 10 to 5.

Jess Petty was no puzzle for the Cincinnati Reds and Brooklyn took one on the chin by a 10 to 1 count. Louie held the Robins to seven scattered hits and was not scored on until the eighth.

The ponderous bats of "Babe" Ruth and Lou Gehrig beat a first inning tattoo on old Tom Zachary and the Yanks clouted out an 8 and 1 victory in the first game of the series with the St. Louis Browns.

The "Babe" socked out his twenty-second home run of the season in the fifteenth. Hoyt scattered the seven hits he allowed the Browns.

The White Sox got to Howard Ehmke and batted out a 4 to 0 win over Philadelphia. Sox hammered out an 11 to 10 victory over Cleveland. Eight pitchers were pressed into service during a barrage of thirty-one base hits. Ira Flagstead celebrated his return to the Boston line-up with three hits in four tries.

Detroit played tight baseball and downed Washington by 6 to 1.

ASBESTOS WILL PLAY AT MAGOG ON SUNDAY (Special to the Record) MAGOG, Que., June 19.—The Prue Baseball Club will line-up against the Asbestos nine here on Sunday and not against the Montreal A.A.A. as stated in last night's issue.

The Prue Club has been playing great baseball, but it is expected that they will meet stiff opposition from the Asbestos and an interesting game is therefore anticipated by the fans.

GOLF AS CHAMPIONS PLAY IT

A PUTTER MAY BE USED FROM A TRAP LIKE THIS—

BUT IT IS NECESSARY TO "PITCH" FROM ONE LIKE THIS

Under what conditions would you use a putter in making a shot out of a bunker?

By LAURIE AYTON Former Scotch Amateur and Professional Champion.

Of times a putter can be used to good advantage in making a shot out of a bunker. This is particularly true when the face of the bunker is sloping from you.

It may be interesting to golfers to know that traps and bunkers on 75 per cent. of the golf courses in America are comparatively easy to play out of.

THREE LEAGUE SOCCER GAMES FOR TOMORROW

Quebec Central Will Travel to Magog to Play Textile Eleven, Windsor Mills Will Be at Home to Beebe, While East Angus and 1st Regiment Clash at Parade Grounds.

Soccer this season is about at its best, the teams of the Eastern Townships Football League having rounded into fine shape for the sprint that will bring to the victor the championship of the Eastern Townships.

Tomorrow should witness some of the best games seen to date, for the League standing is now assuming a definite form and a win or lose may have some bearing on the season's outcome.

Quebec Central, last year's title holders, have yet to meet defeat and are topping the league with a comfortable margin of points above the runner up.

Windsor Mills will be at home to Beebe. Although at the foot of the league, the Windsor boys held the Soldiers to a tie in the Charity Cup game last Saturday, which is evidently an indication that they have at last struck their stride.

For the first time this season the yellow and black of East Angus will be seen here. The First Regiment eleven being their opponents.

ARMOUR AND COOPER TO PLAY OFF FOR TITLE

Bobby Jones Out of Picture—Golf Honors to Be Decided This Afternoon.

(Associated Press Despatch) OAKMONT, Pa., June 17.—Bobby Jones today for the first time in his golfing life will watch two other golfers play off a tie for the open championship of the United States.

Tommy Armour, of Washington and Harry Cooper, of Los Angeles, tied at the end of seventy-two holes with scores of 301, have removed the champion from the picture.

There have been two other play offs since Jones began to take an active part in open championships seven years ago, but he was a player instead of a spectator in both.

Although the champion will not be named until Cooper and Armour have fought out an extra eighteen holes this afternoon, one victory has already been awarded.

The Oakland course, a nightmare to many of the participants, won hands down from all competitors.

No player was able to string four rounds of approximately par together. Only two players were able in any one round to beat the seventy-two par at all, and if any one had been able to club the traps into submission sufficiently to compile four seventy-fives he would have won.

The eighteen hole play off, starting at two o'clock this afternoon, was expected to be full of fireworks. It was suggested before the play that the scores may be in the high 70's or in the low 80's.

The honors of the first twenty minutes of play went to the Green Shirts. The Frenchmen opened the attack, but were forced to give ground to the Irish squad, who swept up the field and forced the Nationals to play on the defensive.

ANNUAL MATCH AT DANVILLE COURSE. Danville, Que., June 17.—The President's vs. Captain's match took place at the Danville Country Club on June 17th, and resulted in a win for the President's side by two points.

President's team: Stevenson (1); Bodden (1); Lockwood (1); Bryne (1); Lussier (1); Watterson (0); LaFleur (0); Gain (0).

Y.M.C.A. AT DRUMMONDVILLE TOMORROW. The Y.M.C.A. soccer eleven will travel to Drummondville tomorrow afternoon and match up against the undefeated Colanese squad in an exhibition encounter.

Q.C.R. LINE-UP AGAINST MAGOG. The Quebec Central line-up against Magog tomorrow afternoon will be composed of the following men: McGinty, G. Jackson, Webb, Twyman, Scott, Loach, Shand, Grimes, T. Jackson, McNally and Penland.

QUALIFYING ROUND FOR TURNBULL CUP TOMORROW. The first major trophy competition of the season will be played over the St. Francis course on Saturday afternoon (tomorrow) under the auspices of the Sherbrooke Country Club.

LADIES PLAYED ANNUAL MATCH. The ladies of the Sherbrooke Country Club held their annual President vs. Vice-President match on the local course yesterday afternoon. This resulted in a win for the Vice-President by three points.

RESULTS OF BOUTS LAST NIGHT. The results of the fights last night are: Chicago—Mike Dundee, Rock Island, Ills, defeated King Tut, Minneapolis, in ten rounds; Freddie Muller, Buffalo, won from Sid Barbarian, Detroit, in ten rounds; Babe Ruth, Louisville, and Joey Medill, Chicago, fought an eight round draw.

LOMSKY DEFEATED MAYS NEW YORK, June 17.—Leo Lomsky, Aberdeen, Wash, heavy-weight, was awarded a Judges' decision over Harold Mays, of Bayonne, N. J., in their ten round bout last night.

CORONACH WON HARDWICKE STAKES. ASCOT, England, June 17.—Lord Woolvington's Coronach, by Hurry On out of Wet Kiss, won the Hardwicke Stakes today. Lord Beakverbr's Restigouche was second and Somerville Tattersall's Folliation third.

£2,000 with extras. Sir J. Buchanan Jardine's Nothing Venture, by Prince Galahad out of Risky, won the Wokingham Stakes for three-year-olds and upwards. The race was at six furlongs and carried £1,000 added.

Two to Two Score in Lacrosse Contest at Parade Grounds Last Night—No Overtime Owing to Darkness—Close Watch Kept by Referee on Players.

Two to two was the final count in a fast lacrosse contest at the Parade Grounds last night before a large number of spectators staged between the Nationals and St. Patrick's teams.

The game was as clean as a hard-fought sixty minutes of play could be, any roughness being closely checked by the referee, Mr. James Watson, who kept a close tab on the players by handing out several three minute penalties for infractions of the playing rules.

The St. Pat's boys opened up the tallying in the first twenty minutes of play, only to have the Frenchmen equalize shortly after. Good work on the part of the Irish forwards resulted in their second goal in the final minutes of the session, and it was not until the second stanza was well under way that the Nationals were able to equalize, owing to the good defensive tactics of the Green Shirts.

The St. Pat's defence, coupled with the Frenchmen's excellent work in the Irish nets held back the invaders until the final whistle, which found the two squads deadlocked two to two. The league rules, however, call for thirty minutes overtime, which was not played.

mechanical devices which perform such valuable services for men or whatever the cause may be, men are inclined to be careless in their thinking, to be content with approximations in speech, and to seek consolation for neglect of the discipline of the mind in vigorous and abundant action. There is so much to be done in the way of developing the great resources of our country that a man can always find all and more than he can do. But Canada needs men and women trained in the processes of logical thought, leaders who will bring to bear on their country's problems the advantages of the trained mind.

"In the second place, I think the university student should possess the grace of humility. Humility is born of knowledge and a knowledge of the past is the most effective antidote for whatever may exist in the mind of ourselves as a very superior people. When we compare the inventions, the material civilization of today, our accumulated stores of knowledge with those of the Golden Age of Greece, our superiority is beyond dispute and beyond measure. But when we compare any philosopher of today with Aristotle, any saintly preacher with St. Francis of Assisi, any dramatist with Shakespeare, the result is totally different. In fact, when we enter the realm of mental and moral accomplishments (or matters of the mind) which depend on will, on effort, on aspiration, we find that in respect of values and ages that are behind us were often vastly richer than our own.

"One other point I like to stress, and that is moral courage. There has never been a time when countries have been in want of man of daring, physical strength and force. We justly admire these qualities. But we are apt to underestimate them in comparison to the infinitely greater value of a courage which sacrifices itself to those principles of truth and culture which are the great treasures of mankind and which distinguish us from animals and savages. We look to the universities to send us men, not only fit in mind and body, but forever inspired to serve, and, in the words of the old Latin proverb: "to be themselves consumed in serving others."

"I do not propose to detain you longer with reflections upon a subject which is incomparable for richness of suggestion. I would only say that because it is the aspiration of this university to send out from its halls men and women who will enrich our national life in ways which I have indicated that I have pride in the office which it has given me, and I look forward with confidence to a future of abundant opportunity and service for it."

Principal's Report.
The principal, Rev. Dr. McGreer, presented the following report:

"My report for the past year will be brief, but happily it is an encouraging one. 43 students have written the university examinations in the faculties of arts and divinity. 2 students will receive the degree of M.A., 26 students will receive the degree of B.A., 1 will receive the degree of Mus. B., and 5 will receive the title of L.S.T. This year the graduating class is the largest which we have had in the university. In it are several who have done extremely well, and who have attained to the highest scholarship which gives us confidence that they will some day win distinction in the professional careers which they have chosen. To all who are graduating I wish to offer the assurance that their Alma Mater wishes them abundant success in life and has confidence in their loyalty to those principles of right living which are the strength of men and nations. The good name and prestige of Bishop's will be faithfully upheld by them all.

"Although we regret the loss of those who will leave us this year, I am happy to say that the prospect for new students is better than any we have known before. There is little doubt that we shall have far more students than we can accommodate in our present buildings in September next.

"By the will of the late Lady Smith, the university has been given a capital sum which will provide an annual prize of \$20 in the subject of political economy. Such a bequest is greatly appreciated by the university, as it provides a stimulus to good work on the part of the students.

"This Honor the Lieut.-Gov. of the province has kindly given two medals for competition in the university exams. A silver medal is offered for the students taking highest marks in the first class of a division of the science option. A bronze medal is offered for the student taking highest marks in the first class division of the history honors course of the third year.

Mr. Beatty Honored.
In introducing the gentlemen for honorary degrees, Dr. McGreer, said:

"It is my great privilege to present for the degree of D.C.L. (honoris causa) today, four distinguished Canadians who on their respective spheres have made notable contributions to the building up of a strong and cultivated life for this division.

spirit of brotherhood. It is a great thing to formulate sound administrative policies and to have them successfully carried out, but it adds nobility to the achievement when such a spirit of brotherhood is created and maintained. Mr. Beatty is one of our greatest advocates of Canadian solidarity and Canadian unity. Few men are doing as much as he to strengthen the bonds of unity throughout Canada.

Rev. Mr. Cosgrave.
The Rev. F. H. Cosgrave, M.A., B.D., provost of Trinity College, Toronto, comes to us as the head of a sister university in the province of Ontario. Mr. Cosgrave is a distinguished graduate of Trinity College, Dublin, who has spent much of his ministry in Canada. As lecturer, and later as dean of the faculty of Divinity of Trinity College, and now as provost, he has done a great work in guiding the affairs of that seat of learning in accordance with the best traditions of the universities of the empire. Trinity is enjoying unprecedented success under his wise and courageous leadership, and we rejoice in the fact that the great financial problems with which it is confronted bid fair to have a happy solution during his term of office. We count it a signal pleasure to add his name to the list of those who hold an honorary degree from this university.

Sir Vincent Meredith.
Sir Vincent Meredith, Bart., is the bearer of a name honored not only in this university but throughout Canada. He is a Canadian, an alumnus of the Bank of Montreal, he holds an exalted place amongst those Canadians who by their foresight and sound judgment have raised the credit of our country to a high level in the world of finance and have fostered with great wisdom and skill the industrial and commercial development of this land. It is not, however, Sir Vincent's achievements as a financier that we would recognize today, but his work as a philanthropist as well. To mention but one institution with which he is connected, the Royal Victoria Hospital, of which he is president, probably is not surpassed by any hospital in this continent. There the highest medical and surgical skill is available for all classes of society. There large numbers of Canadian physicians, surgeons and nurses are trained. It is an institution the work of which carries its influence to every part of the dominion. To that work Sir Vincent gives not only administrative guidance and generous financial support, but unflinching personal attention, and we recognize in that the spirit of the performance of a great benefactor of mankind.

Mr. Nicol Praised.

Hon. Jacob Nicol, M.A., has a high place amongst the very able men who have held the portfolio of treasurer in the government of Quebec, not only because of the administration which he and his confederates are giving this province, leading it to a position of industrial and commercial pre-eminence amongst the provinces of the dominion, but because they are giving special attention to the work of education in all our schools, colleges, and universities.

Following the principal's report, the acting dean of divinity, Rev. Dr. Vial, made a brief report of his faculty. He mentioned that the academic year 1926-27 had been marked by the election of two alumni to the episcopate, Dr. Rockborough Smith, and the Dean of Quebec, Dr. Sherman. Reference was made to the aid given during the past year by Rev. E. K. Moffatt and Mr. C. T. Teakle, temporary lecturers. A new dean, Dr. Vial announced, had been appointed and provision made for a new lecturer in divinity.

The principal then brought the four gentlemen to be honored to the chancelor who conferred the degrees.

Dr. Albert Ham, of Toronto, gave a brief report of the faculty of music.

Thirty-Six Degrees.

A total of 36 degrees and titles were then conferred by the chancelor, as follows:
M. A. (In Course)—Miss M. O. Mackenzie, B. A. Stanstead; C. T. Teakle, B.A., Montreal; D. Barlow, B.A., East Angus.

WHY IT IS ECONOMY TO CHANGE SPARK PLUGS ONCE A YEAR

Differences Shown

The illustrations at the left show how a hot, full spark thoroughly fires the compressed mixture so that it is completely consumed and full power extracted from the fuel. In those at the right the faulty firing of a weak spark and how live gas is wasted are shown.

In the general movement to conserve the country's natural resources, considerable attention has been paid to motorists explaining the action of spark plugs and their bearing on the use of gasoline and oil. As a result, many thousands of motorists are replacing their spark plugs regularly each year or every 10,000 miles. They have found it real economy to do so.

Saving Pays For Plugs
Not only is engine operation improved in every way and the need of tinkering and repairs lessened, but the saving in gasoline and oil actually pays for the new spark plugs.

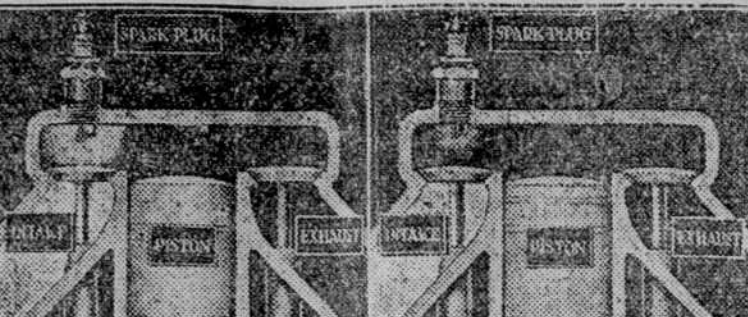

Why this is so becomes readily apparent when a study is made of how an engine operates. As the engine turns over, gasoline is drawn through the carburetor. There it is mixed with air and enters the cylinder as a highly inflammable gas. This mixture is compressed by the upward stroke of the piston.

At the proper time it is fired by the spark which leaps across the electrodes of the spark plug and expands greatly as it burns with great rapidity, thus generating power.

Now if the spark plug is firing properly, the spark produced is hot and full and instantly ignites the compressed mixture, which is completely burned, only the burned gas passing out the exhaust.

But constant use of the spark plug burns carbon into the insulator and pits the electrodes, no matter how well made the spark plug may be. This results, after a period of months, in a weakened spark.

Such a spark does not instantly and completely ignite the gas mixture. Consequently it does not burn completely before the exhaust valves

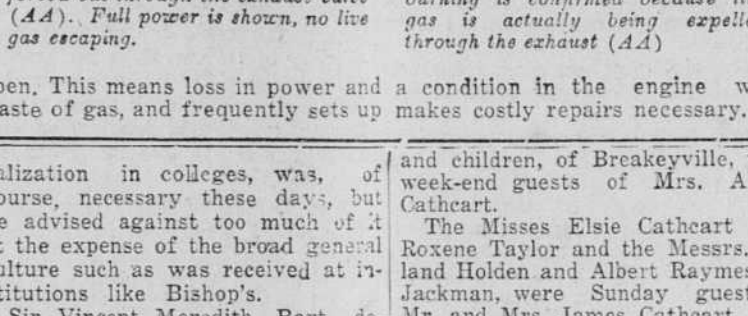

Here we have a hot, intense spark, igniting the cylinder mixture of gas and air.

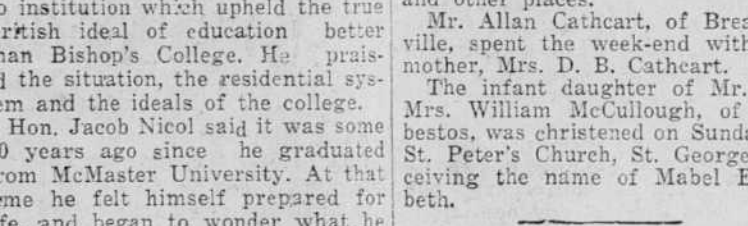

A weak spark has not the force to fully ignite the mixture. This is the beginning of imperfect combustion.

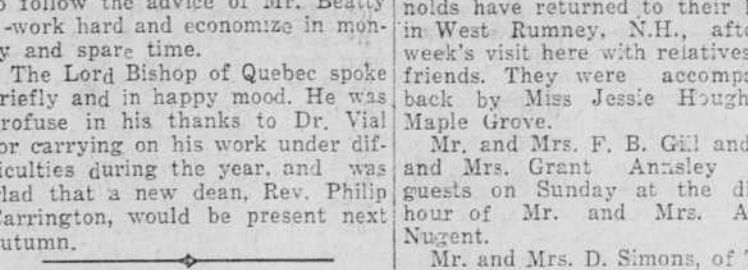

Here we see that this hot spark has resulted in the cylinder mixture being entirely burned. Complete combustion shown by white.

Here the weak spark is producing so much slower burning that combustion is not completed, as at the left. White shows consumed gas.

Here the burned gas is being forced out through the exhaust valve (A). Full power is shown, no live gas escaping.

Here loss of power shown by slow burning is confirmed because live gas is actually being expelled through the exhaust (A).

open. This means loss in power and a condition in the engine which makes costly repairs necessary.

MAN HAS BEEN IDENTIFIED AS THE STRANGLER

Will Be Arraigned in Winnipeg Police Court Today, Charged With Two Murders.

WINNIPEG, Man., June 17.—A prisoner named Earle Nelson, alias Virgil Wilson, will be arraigned in the Winnipeg police court today charged with the murder of Mrs. Emily Patterson and Lola Cowan of that city. In a police statement issued last night confidence was expressed that the man captured yesterday at Killarney, Man., is the one known as the "strangler" who had been terrorizing this district with brutal murders and who is thought to be responsible for over a score of murders of women in the United States. According to the police, the prisoner, who was rushed back to Winnipeg on a special police train following his arrest has been identified by many persons as the one sought after. Some seventeen persons viewed the prisoner and linked him up with the events which surrounded the two slaying in this city.

The arrest of Nelson was the culmination of a widespread search spreading over the entire country between Winnipeg and Regina. When first taken into custody and placed in the jail at Killarney, he picked the lock and got away. Then followed a chase which resulted in his recapture yesterday.

WILL LIKELY BE INVITED TO RESUME OFFICE
(Associated Press Despatch)

LONDON, June 17.—The Westminster Gazette suggests that President Cosgrave's refusal to form a government probably will result in the other pro-treaty sections of the new Dail inviting him to resume office, and intimates that he is desirous of such an invitation.

THE LAND OF CONTRASTS

"If there were no clouds, we would not enjoy the sun." This can truly be said of that land of contrasts—Alaska. Without its ever-changing beauty, fox farms, salmon, Indians, curious totem poles, and masses of color, it would fail to appeal to the eye. The lure of gold was the magnet that drew men and women within its folds many years ago, and although the lye is much fainter, it still has its romance, which, combined with its never-ending beauty, still retains its magnetic influence to entangle the sight-seeing tourist within its web. The journey to this land of magnificent scenery is through an almost landlocked channel amid grandeur of such a character unknown elsewhere. You be the Judge

We say these new-type socks outwear others 3 to 4 times

You pay only one dollar

THE world's best known weaver of men's socks has made a new discovery. Wear is increased 3 to 4 times by a new way of knitting.

Merely adding thickness at the toe was long ago proved unsuccessful. That's why old-time socks wear out there first.

Now in a different way a special wear-resisting thread is woven at the tip and over the top of the toe. And that gives these new-type socks 3 to 4 times longer wear.

Ex Toe comes in light and heavier silks. Smart and trim fitting. See the new colors that have become so popular. Silks \$1 and \$1.25. Other materials as well. Be sure to ask for Ex Toe. At leading stores.

This diagram illustrates the Ex Toe idea. Yet you can neither feel nor see it in the socks themselves.
