## CLAIM ORDER HAS BEEN RESTORED IN GERMANY Large Number Have Been Arrested On Theft Charges

### COMMUNISTS HAVE BEEN DRIVEN OUT OF EISLEBEN --- BLEW UP THE RAILWAY STATION AT HETTSTEDT

The Work of Restoring Order Has Been Carried On by the Prussian Security Police—Rioters at Hettstedt Retired to the Hills and Are Directing Machine Gun Fire at the Security Police—Halle Was Reported Quiet Last Night—Communists Throw Away Their Guns and Many Are Captured by the Police.

(Associated Press Despatch)

BERLIN, March 26.—Order has been restored at Eisleben and Hettstedt, it is announced by the German Government. The rioters at Hettstedt blew up the railroad station, however, before they retired to the hills surrounding the town and set up machine guns, and are reported to be firing at Security Police in the city.

Halle was quiet last night, it was reported, and municipal and utility plants were again in operation. Organizations known as "Councils of Action" are being organized at Bitterfeld. Government troops have not participated in the operation of suppressing Communist rioting in Central Germany, it is officially declared, and the work of restoring order has been carried on by Prussian security police and local organizations.

### COMMUNISTS RETREAT BEFORE THE SECURITY POLICE

(Associated Press Despatch)

OBERROEBLINGEN, Prussian Saxony, March 26.—Reports that the Communist forces which have been fighting in Eisleben against the Security Police, for three days had been driven out of that city were brought here last night by men breathless from running the twelve miles which lie between Eisleben and this little Saxon village. They said that the Communists were retreating across the fields for the most part, in good order, but had thrown away their guns, and others had been taken prisoners.

The tidings were received without emotion by men and boys who stood rifles in hand ready to report for duty to the commanders of the Communists. In a few minutes however, these men and boys began to struggle away, apparently to join their Communist comrades in another stand against the police. In spite of the fact that heavy fighting was going on only a few miles away, church bells were ringing in this little village last evening, women were praying in the churches and children were laughing and playing about the streets. All communication between this town and Eisleben has been cut off, and automobiles cannot be secured to go to Eisleben unless the full price of the machine engaged is paid. As a consequence of this interruption of traffic there is a food shortage here.

### COMMUNIST AGITATION IN MUNICH CONTINUES

(Associated Press Despatch)

PARIS, March 26.—The Communist agitation in Munich is continuing according to dispatches to the foreign office, which represent the breaking up by the police of a procession displaying red flags. Another message says that rioters broke into the railroad station at Breisau and carried off the cash box.

### ALL RESIDENTS TO HAVE FINGER PRINTS TAKEN

Police Making Desperate Efforts to Locate Murderer of Two School Teachers.

(Associated Press Despatch)

CLEVELAND, O., March 26.—In an effort to find the murderer of two school teachers, who were strangled to death, after which their bodies were mutilated in a lonely grove near Parma on February 17, every resident of the little village where they lived will have finger prints taken. Sheriff Stannard sent out orders to that effect yesterday, following five weeks of unsuccessful efforts to apprehend the slayer.

### TO MAKE NO MODIFICATION IN THE TARIFF BILL

Emergency Bill to Come Before Special Session of Congress.

(Associated Press Despatch)

WASHINGTON, March 26.—Delegated with requests for changes in the emergency tariff bill to be put before the special sessions of Congress precisely as vetoed by former President Wilson, the House ways and means committee reiterated yesterday that the measure would be submitted without modification.

### BOLD HOLD-UP AT QUEENSTON.

NIAGARA FALLS, ONT., March 26.—Three masked men, armed with revolvers, entered the hydro-canal camp, below Queenston, near the power house site, late Thursday night and held up the boarding house boss and thirty-five of the inmates, making away with about two thousand dollars. No trace of them has been found.

### STATE OF SIEGE HAS BEEN DECLARED.

(Associated Press Despatch.)  
WARSAW, March 26.—A state of siege has been declared at Beuthen, Katowitz, and other cities of Upper Silesia, at the request of the Polish authorities, according to the newspapers, because of German attacks on the Poles.

### WOULD RESUME THE DIPLOMATIC RELATIONS WITH THE VATICAN

Premier Briand of France Urges that Bill Be Passed as Soon as Possible.

(Associated Press Despatch.)

PARIS, March 26.—Premier Briand appeared before the Senate Commission on foreign affairs yesterday and requested that the Senate pass as soon as possible on the bill providing for the resumption of diplomatic relations with the Vatican, which was vetoed by the Chamber three months ago, and has been held since.

### UNITED STATES ISSUES REPLY TO THE SOVIETS

Resumption of Trade Cannot Be Considered at Present Time, States Reply.

(Associated Press Despatch.)

WASHINGTON, March 26.—The United States Government notified the Soviet authorities in Russia yesterday that resumption of trade between Russia and the United States could not be considered until safety of human life, guarantee of property right, free labor and observance of the sanctity of contracts were assured.

### EX-PRESIDENT WILSON RECOVERING.

(Associated Press Despatch.)  
WASHINGTON, March 26.—Former president Wilson was said last night to be recovering satisfactorily from an acute attack of indigestion, which he suffered shortly after noon yesterday.

### LARGE QUANTITY OF ARMS CAPTURED AT DUBLIN.

(Associated Press Despatch.)  
DUBLIN, March 26.—The capture of a large quantity of arms, ammunition and scoundrel literature, and also three intending emigrants to the United States, are reported in two official statements issued from general headquarters yesterday.

### CORPORATION OF COATICOOK SUED BY A BUTCHER

Claimed His Application Was the First One Under Consideration Before the Market Committee.

The following cases were heard at the term of the Superior Court, presiding His Lordship Mr. Justice Glensky.

Dame Dufresne vs. Corriveau et al.—Proof and hearing on the merits. Possessory action taken by plaintiff in order that she may be declared the lawful possessor and owner of an immovable situated in the seventh range of the Township of Windsor, and in view of putting an end to the disturbance caused to her enjoyment, and of preventing the defendants from taking possession of a certain piece of land, and for damages to the amount of \$190.

After hearing and argument by the attorneys of record, His Lordship took the case en delibere. Poulin vs. the Corporation of the Town of Coaticook.—Proof and hearing on the merits. Action in damages taken by plaintiff against the corporation defendant for the sum of \$399 as the result of the defendant's refusal to let into him a butcher's stall at Coaticook's public market, plaintiff alleging in his declaration that he had the right to said stall because his application was the first one under consideration before the Market Committee.

After hearing of the evidence and argument by the attorneys of record, His Lordship took the case en delibere. Bissonnet et al. vs. the Corporation of the County of Stanstead.—Proof and hearing on the merits. Action for \$934.81 taken by plaintiffs in their quality of Collectors of Provincial Revenues for the payment of part of the costs of keeping, maintenance and treatment of Eugene Mollere, of the Township of Barford, in the County of Stanstead, who had been admitted as a patient in the asylum known as St. Jean de Dieu, on the 12th day of November, 1920.

After hearing and argument by the attorneys of record, His Lordship took the case en delibere.

Tanguay vs. Gouette.—Proof and hearing on the merits. Action in damages for the sum of \$999. Plaintiff alleges in his declaration that on the 22nd December, 1920, in the Township of Barford, defendant without cause or justification struck him with fists and feet, causing him serious injuries to his eye and nose, which injuries necessitated a doctor's attendance and treatment.

After hearing and argument by the attorneys of record, His Lordship rendered the following judgment: Both condemn the defendant to pay to plaintiff the sum of \$100, according to defendant's own offer of settlement, with interest and costs of an action to the amount of one hundred dollars.

by a companion, Harold Holmes, fifteen years old, near Leaside, Ont., yesterday afternoon as they were returning to their homes in this city after a shooting expedition in the country. It is said the shooting was accidental.

### Systematic Robberies Involving \$45,000 And Arrest Of Twenty-Six Said To Have Occurred In Lisgar And South Durham

Claimed that Pilfering from Grand Trunk Railway Includes Everything from Sugar to Pianos—Stated that Band of Thirty-five Men Were Operating Together—Two Well Known South Durham Citizens Said to Be Hiding in the States.

(Special to the Record.)

ICHMOND, March 26.—Unusual local interest is being evidenced in connection with the alleged arrest of some twenty-six individuals accused of pilfering and stealing articles belonging to, or carried by, the Grand Trunk Railway system. Information to hand leads us to understand that the alleged pilfering took place in the district of Lisgar and South Durham and that the amount of the goods involved is in the neighborhood of forty-five thousand dollars.

It is further contended that the pilfering is the work of an organized band of some thirty-five men, presumably familiar with conditions in the immediate district, and the systematic series of robberies are supposed to include any and everything from parcels of sugar to pianos.

Reports are freely circulated to the effect that representatives of the Pinkerton Detective Agency are at work in the district and that some twenty-six arrests have already been made, including two men connected with the Grand Trunk Railway System. Further reports are current to the effect that two well known citizens of South Durham are at present hiding in the United States.

It is intimated that additional arrests will be made during the course of the next few days and there is an uncomfortable feeling that certain retail merchants in the district may become associated with the case, through acceptance of stolen goods.

THREE CHARGES HEARD BEFORE LOCAL MAGISTRATE  
Coming on top of the alleged discovery of a sensational and carefully organized system of thefts effected on the Grand Trunk Railway, it is interesting to note that three charges brought before Judge McIvema involved the theft of produce from the Grand Trunk Railway in the district in which the robberies are said to have occurred.

Charles Fournier vs. J. E. Bridge, Railway Conductor. The accused was charged with stealing, in December last, a quantity of sugar from the Grand Trunk Railway Company at Lisgar. The amount of sugar stolen is valued at about \$500.

The defendant pleaded not guilty and was admitted to bail in the sum of \$1000 personal security and one bondsman for \$1000, and the preliminary hearing was fixed for March 31st.

Wm. Mahoney vs. John Bridge, Railway Conductor. The accused was charged with having stolen fifteen bags of clover seed having a value of about \$750.00 from the Grand Trunk Railway.

The defendant pleaded not guilty and was admitted to bail in the sum of \$1000, personal security and one bondsman for \$1000, and the preliminary hearing was fixed for March 31st.

A similar charge was laid against William Hudson a railway conductor, of Coaticook, who was allowed out on bail under the same conditions. Whether the above cases can be connected with the reports received from Richmond is a matter of considerable conjecture. The Record immediately got in touch with counsel for the plaintiff and was advised that while other arrests might reasonably be expected, the reports emanating from Richmond were likely to be found somewhat exaggerated.

### ANTI-SOVIET MOVE AT KAZAN IS REPORTED

Declared that Several of the Soviet Officials Have Been Killed

(Associated Press Despatch)

STOCKHOLM, March 26.—An anti-Soviet rising is reported to have occurred at Kazan, about 550 miles east of Moscow on the Volga according to despatches received here today.

Some of the members of the extraordinary commission in the city are said to have been killed, and the Commission's headquarters burned. Many other Soviet officials have been killed, it is declared.

The insurgents, the advices state, are masters of the entire city and vicinity, and have ordered a general mobilization in the district.

In Western Russia anti-Soviet movements also are reported. Fighting in White Russia between Soviet troops and peasants is continuing and Pskov is said to be in the hands of revolutionists. The White Russian peasants have been reinforced by deserters from the Red Guards, the message asserts.

Another disturbed section is said to be the Minsk region, where conflicts between soldiers and insurgents are reported raging, the revolutionary activities so far having resulted, it is asserted, in twenty Soviets in various parts of the region being driven out.

### Ex-Secretary Of State Throws All The Blame On Woodrow Wilson In His Book

Ex-President Is Pictured in Every Chapter as Committing a Blunder, Abandoning a Principle, Displaying Ignorance of the Limits of His Powers, Falling into Obvious Traps or Surrendering Weakly Before a Bluff.

(Associated Press Despatch)

NEW YORK, March 26.—Woodrow Wilson is charged with the blame for the "secret diplomacy" at Paris, for the long delay in making peace, for the Shantung settlement and for many other alleged mistakes in the treaty, in the long awaited book by Robert Langsing, former Secretary of State.

This contribution to the battle of books agitating about the personality of the former president in the Paris peace negotiations will be placed on sale today. Mr. Langsing appeals to the public to judge between himself and Mr. Wilson. Though written to justify Mr. Langsing, almost every word of the book relates to Mr. Wilson. It is a study of the uniquely interesting character of the ex-president observed at close range through the spectacles of his Secretary of State. Mr. Wilson is pictured in every chapter as committing a blunder, abandoning a principle, displaying a curious ignorance of the limits of his powers, falling into an obvious trap, or surrendering weakly before a bluff. Mr. Wilson is represented as being unfitted by his very high mindedness to detect the purposes of sagacious and astute men, who sought to use him for their own ends. Referring to the Shantung matter, Mr. Langsing, in one of his rare lapses from polite language, says "the ex-president was made a cat's paw."

### BIG INCREASE IN THE VALUE OF GOODS IMPORTED INTO CANADA DURING PAST TWELVE MONTHS

The Increase Amounted to \$296,191,543 as Compared With the Figure for the Previous Year—Goods Valued at \$1,290,067,516 Imported During the Past Year, as Compared with a Total of \$993,876,003 the Previous Year.

(Special to the Record)

OTTAWA, March 26.—An increase of \$296,191,543 in the value of goods imported into Canada during the twelve months ending February, 1921, as compared with a similar period ending February, 1920, is shown by a statement issued from the office of the Dominion Bureau of Statistics. The statement shows that during the twelve-month period ending with the close of last month free goods were imported into Canada to the value of \$419,043,468, and dutiable goods to the value of \$871,023,983, making a total of \$1,290,067,516.

For a similar period ending with February, 1920, free goods to the value of \$344,793,448 found their way into Canada, and dutiable goods to the value of \$649,082,535, or a total of \$993,876,003.

The duty collected on imports during the period just ended totalled \$190,327,407, as compared with \$177,766,266 in the previous twelve months.

### BATTLESHIPS SENT BY JAPS TO KAMCHATKA

This Action Taken to Protect the Japanese Fishing Enterprises There.

(Associated Press Despatch)

TOKIO, March 26.—The Japanese, it is understood, have decided to despatch a battleship and four destroyers to Kamchatka for the purpose of protecting Japan's fishing enterprises there. It is said this action was taken following reports that the Far Eastern republic has ceded part of the peninsula of Kamchatka to the Soviet Government of Moscow.

Viscount Uchida, Japanese Foreign Minister, declared in the House of Representatives at Tokio on Tuesday that Japan would be obliged to adopt whatever action might be necessary to preserve her rights in Kamchatka. He said the Japanese Government had protested against the cession of a part of Kamchatka to the Soviet Government, and had made five demands relative to territory there, but that the Far Eastern Government, the seat of whose government is at Chita, had not answered.

### ADVANCES ARE CLAIMED BY THE GREEK TROOPS

Continued Successes Against the Turkish Nationalists Are Reported.

ATHENS, March 26.—Continued successes against the Turkish Nationalists in Asia Minor are reported from the Ushak and Brusa fronts, according to an official statement issued here. The Greeks, it is declared, are not encountering much resistance in their advance toward Eski-Shehr.

"On Thursday," says the statement, "the Greeks continued to advance in the Ushak sector. The enemy, who feebly resisted, was driven back from a fortified ridge between Agar and Bonnar to a line about thirty miles east of Ushak. Two hundred of the enemy were taken prisoners."

"In the Brusa sector the enemy was driven from positions east of the city, and the Greeks occupied a line running through the villages of Gieneuch, Veresid and Diledjik, about six miles from the town. The Greek losses have been insignificant."

### GERMAN NOTE IS HANDED BACK TO THE DELEGATES

Reparations Commission Members State that German Note in Present Form Is Unacceptable.

PARIS, March 26.—The Allied Reparations Committee yesterday decided that the German reply received yesterday to the Commission's note of Thursday calling for payment of twelve billion gold marks before May 1st was unacceptable in its present form, and handed it back to the German delegates. The latter agreed to draft another reply which, however, will not be ready before next week.

### AVIATOR FRACTURED HIS BACK.

NATCHEZ, MISS., March 26.—An X-ray examination of Lieutenant L. A. Coney, the transcontinental aviator, who crashed near Crowville, La., yesterday, disclosed last night that his back was fractured and that he had about one chance in ten of recovering.

Bringing Up Father

SAVED FROM LIFELONG MISERY

And a Dangerous Operation, by Taking "FRUIT-A-TIVES"

MRS. M. J. GORSE

3928 Union St., Vancouver, B.C.

"I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. Then, I started taking 'Fruit-a-tives'; and from the outset, I felt better, and this medicine has completely relieved me of all my misery and suffering. My weight was only 143 pounds and now it is 188 pounds. I am free of pain and headaches and the terrible Constipation; and what saved me from misery is the splendid fruit medicine, 'Fruit-a-tives'."

PITTSBURG MAN MAKES WONDERFUL STATEMENT

Declares Tanlac Enabled Him to Eat Better, Sleep Better and Work Better - Has Gained Thirty Pounds.

"I consider Tanlac the grandest medicine in the world, for I have actually gained 30 pounds in weight since I began taking it. It has just simply filled me with new life and energy and for the first time in years I can sit down to the table and enjoy three square meals a day like other people. In fact Tanlac has made me eat better, feel better, sleep better and work better, and I guess that is all a man can expect of a medicine."

"Before I took Tanlac, I was off 25 pounds in weight and was so badly run down I was hardly able to do my work. Nothing seemed to agree with me and my food invariably soured on my stomach. I would always have an uncomfortable bloated up feeling in my stomach, and although I tried many kinds of medicines, I never got relief until I took Tanlac."

"I also suffered considerably at times from Rheumatism, but this has all disappeared. In fact, this wonderful medicine has made a new man out of me in every way. I feel years younger and can do as much work as in any day of my life."

"Of course, I am only too glad to give you my testimonial because I want other people who are suffering as I did to take this medicine and get relief."

The above remarkable statement was made by Harry M. Allen, residing at 1069 Saint Martin Street, Pittsburgh, Pa., a well known em-

If you have roaring, buzzing noises in your ears, are getting hard of hearing and fear Catarrhal Discharge, go to your druggist and get 1 ounce of Parmitin (double strength), and add to it 1-4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing becomes easy and the mucus stop dropping into the throat. It is easy to prepare, taste little and is pleasant to take. Anyone who has Catarrhal trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.

MANY CASES OF RHEUMATISM NOW

Says We Must Keep Feet Dry. Avoid Exposure and Eat Less Meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine.

The pores of the skin are also a purifier. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water; and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities. Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.

could do was done, but unavailingly, and he passed away on March 4.

The body was taken from the hospital to his late home, where a short service was held, then brought here for burial, accompanied by his father, brother and brother-in-law, Mr. Alex. Olliphant.

The funeral service was held in the Baptist Church, about two hundred people being present, who desired to express their sympathy to the family in their sad bereavement and pay their respect to the departed one. The coffin was covered with flowers from relatives and a very large wreath from the young men of Sawyerville, with whom Donald was a great favorite. The Revs. Shier, Vibert and Dick were present and took part in the service. Robt. R. Dick preached the sermon from Revelations, 21st chapter, 1st verse. The body was buried in Eaton's Cemetery beside his mother. He leaves to mourn his loss a wife and baby boy, his father, six sisters and three brothers.

FRECKLES

March Worst Month for This Trouble - How to Remove Easily.

There's a reason why nearly everybody freckles in March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of Ochine—double strength, from your druggist and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all Summer, and spoil an otherwise beautiful complexion. Your money back if Ochine fails.

"We Saw Your Letter In the Newspaper"

"YES." "And is that correct what is said about Dr. Chase's Nerve Food?" "Yes, it is absolutely true."

"But why do you recommend it?" "For two very good reasons. First, because it fully restored my health and strength when I was weak, wornout and very greatly discouraged, and second, because I believe it is a duty as well as a pleasure to let other women know about so superior a treatment."

"I never used Dr. Chase's Nerve Food, but I got interested in that Woman's Advertising Contest they had, and nearly every woman I

met seemed to be talking about it. Then I saw your letter, and knew you would tell me about it."

"Well, you know how weak and miserable I was for years in spite of all the doctors could do for me. I was nervous, irritable, restless and sleepless. Thought sometimes I would go out of my mind from worry and depressed spirits. I need not tell you how well I am now. You can see for yourself. There is the whole story, and all the credit is due to Dr. Chase's Nerve Food."

"I get your viewpoint now. It would be a sin and a shame if you did not tell others."

### EASTER MUSIC AT ST. PETER'S.

The special music for Easter Day at St. Peter's will be a special Te Deum (Warrick-Jordan in C), and Tour's Communion service in C. at the morning service.

In the evening the choir will sing a special Magnificat and Nunc Dimittis, Brewer's in F., and the anthem will be Handel's "Hallelujah." Mr. Whitehead will play for the organ Postlude, march on the theme of Handel's "Lift Up Your Heads," by Guilmant.

### EASTER SERVICES AT PLYMOUTH CHURCH

The Easter festival will be appropriately observed tomorrow in Plymouth Church. At the morning service Dr. Read will take for the subject of his sermon, "Christ Triumphant." The anthem by the choir will be, "Let the Righteous Be Glad" (R. F. Lloyd). The offertory will be "Spring Song" (Holbrooke). This service will be followed by the Communion of the Lord's Supper and reception of members.

At the evening service the sermon will be on "Christ's Answer to Man's Age-Long Question." The anthem, "Come, Ye Saints," by H. Elliott Button, will be sung by the choir, and during the offertory the junior choir will sing the Easter carol, "Jesus Lives" (Gauntlett). Mrs. Gordon Richards will be the soloist.

Stevens, City Passenger and Ticket Agent, 1 Marquette St., or to W. Harrison, Station Ticket Agent.

### MERCHANT AWARDED DAMAGES

The case of H. Boutara, merchant of Sherbrooke, against the Sherbrooke Street Railway was heard before His Lordship Justice Globensky. The plaintiff who is the owner of an automobile alleges that on the 26th, June last, as he was crossing the railway track on Alexander Street, opposite his store, his automobile was struck by a car coming from Aberdeen Street; that before he undertook to cross the track he gave a signal pointing in the direction he was driving his car; that previously he had looked to see if any car was coming, but that the car which struck him was standing at the corner of Aberdeen and Alexander Streets, over 325 feet from where he was; that the motorman was driving the car at a great speed and did not stop, nor ring his bell before the accident which happened through the fault and negligence of its employee; that the automobile was considerably damaged and plaintiff had to pay \$58.25 for repairs, and plaintiff claimed further the sum of \$85, for loss of time, etc.

The defendant denied all the allegations of plaintiff's declaration, and further stated that the accident happened through the entire fault and

#### FAMOUS PAINTINGS OF CHRIST A FEATURE OF GOOD FRIDAY SERVICE IN WESLEY HALL.

An audience that nearly filled Wesley Hall to its capacity, both gallery and main floor, sat almost spellbound as the production of some of the greatest artists of the passion week of our Lord were thrown on the screen. These famous paintings were explained by the pastor, Rev. B. B. Brown. Beginning with Palm Sunday, the pictures led the congregation up to Calvary, and as Michael Angelo's "Crucifixion" filled the screen, the people stood and softly sang in the darkness that immortal hymn of Isaac Watts, "When I Survey the Wondrous Cross." The effect was most impressive. Following that were resurrection scenes perhaps the most arresting of which were Bouguereau's two paintings of "Easter Morn" and "The Women at the

### Temp.

Mr. B. C. Howard was chairman. Mr. A. G. Campbell read the scripture and Messrs. D. G. Loomis and S. W. Farnham led in the opening prayers. Mr. E. M. Armitage and the choir made helpful contributions to the service. Mr. E. O. Grundy has officiated at the piano every night most acceptably.

One of the oldest members of the church remained that not within his memory had such services as these been held in the Sherbrooke Church. The special helpfulness of the cottage meetings in different homes has been a matter of general comment.

The Easter services tomorrow promise to be of exceptional interest.

### FLOWER "TAGS" ARE MUCH IN EVIDENCE

The "flower girls" were very busy yesterday afternoon and evening, at the market and on all the principal streets, with the result that the little violet "tags" were much in evidence as impromptu boutonnières.

The workers, however, had a good supply ready for this morning's campaign, and the general verdict was: "If you're not already tagged, you will be."

The "flower day" is an annual event, planned by the Sisters of Charity, in aid of the "Hospital General," and this year, as on former occasions is proving very successful.

**CITY BRIEFLETS**

**GOOD FRIDAY SERVICES.**

The story of the passover was told again Good Friday at St. Peter's Church by vivid lantern slides, accompanied by an address from the rector. Many children and young people were in the large congregation and the quiet solemnity of the service, heightened by the darkened church, the lifelike pictures and the simple, earnest words of the speaker was a striking feature.

After the opening hymn, Rev. Mr. Bigg spoke in part as follows: "We are assembled here once more on Good Friday night, my dear friends, to listen to the old story of the passover, and this story will be illustrated in order to help us to realize that what happened on earth more than nineteen hundred years ago is absolutely true; that in the days when Augustus Caesar and Tiberias Caesar reigned over the Roman Empire a man lived in Palestine who was called Jesus the Nazarene, the son of Mary, brought up in a carpenter's shop in Nazareth, who, when He began His ministry on earth, went about doing good. His ear was even open to the cry of the poor, the helpless and the distressed. He healed the sick, raised the dead, preached to the people, and many believed in Him. Yet, although He was the divine Son of God who had taken our humanity upon Him, and came to save a world which needed Him so much, He was betrayed by one of His own disciples and suffered death upon the cross on that first Good Friday which we have been commemorating today.

The pictures shown included the entrance of Christ into Jerusalem on Palm Sunday, with the joyful shouting multitudes, who thought their promised King had come; Jesus at Bethany with His friends, the last supper, the washing of the disciples' feet, from which a special

lesson was drawn by the speaker, of humility and service to others; the sorrowful scene in the Garden of Gethsemane, the court of Pilate, the road to Calgary, and finally the crucifixion, all were portrayed on the screen and dwelt upon by the rector, who told of the cruel crown of thorns, the scourging and the mocking, the rending of the veil of the temple, the darkness which overshadowed the earth, in the simple words of the New Testament narrative, more effective and appealing than words of eloquence.

The hymns "Rock of Ages" and "O Sacred Head" were sung by the congregation, with organ accompaniment, and at its close, "Abide With Me" was beautifully rendered by Mrs. H. C. Pawson.

High mass was celebrated at St. Michael's Cathedral this morning, and the consecration of the holy waters and fire took place, many priests being present. At the Gloria, the bells which had been silent since Holy Thursday, were again heard in chimes.

The Good Friday service at Plymouth Church yesterday was characterized by the solemnity and reverence befitting the day of the crucifixion. The sermon by Rev. Dr. G. Ellery Read, the pastor, was a meditation on the seven words from the cross, and the hymns of the passover were sung by the choir. Mr. Albert Bier rendered the solo, "There is a Green Hill Far Away" (Lord Henry Scemmet) and part of the fine organ music was the magnificent funeral march of Grieg.

EASTER. The Easter season, so significant to the Christian world, returns again. Throughout the land, worshippers will rededicate themselves to service and join in the hymns of praise to the Risen Lord.

Though nearly two thousand years have passed since the events which are commemorated by the Easter festival, the problem of "Peace on Earth and Good Will Toward Men," has not been solved. Disturbed conditions prevail in many Christian countries. Possibly progress towards the ideal state is being made. Let us hope so.

A sincere and whole-hearted acceptance of the Easter spirit by all peoples who profess Christianity would solve the most serious problems of the nations of the world. In communities the effect would be equally wholesome.

Easter comes again with its appeal to all to seriously consider the problems of life, here and hereafter, and their relations to their fellow-men and to the Higher Power which directs the destinies of mankind.

ADVERTISE SHERBROOKE.

There is need of a more systematic plan for advertising Sherbrooke's advantages than has been yet undertaken. Sherbrooke has grown steadily and even rapidly. Its opportunities for future development are even greater than in the past. The power factor becomes more important year by year. Sherbrooke's great investment in power development has created a surplus of electric energy which seeks a market. The Southern Canada lines enter the city offering another source of extensive electric power.

If the city's electric interests were under private ownership an extensive advertising programme would have been in operation some time ago, as in the case of the Southern Canada Company which has done such effective work in interesting industrial concerns in the Southern Quebec territory.

The City Electric Department should consider very carefully the inauguration of a vigorous publicity campaign on behalf of Sherbrooke. The Board of Trade could co-operate effectively, but the city, which will benefit most, should take the lead officially.

There are many ways of advertising a city. An expert publicity man could apply these effectively.

Sherbrooke now has a population of about 25,000. "Thirty-five Thousand in Five Years," adopted as a slogan could be realized by the employment of right methods. There would be expense but the cost would be returned to the city treasury ten fold as results were achieved.

Hand in hand with this should go a carefully developed scheme of city planning. It would be the height of folly to build up a populous city without those essentials which make a city a pleasant, attractive and healthful place in which to live.

The opportunity is here. Sherbrooke can be made in ten years what the citizens will it to be.

MORE POPULATION CANADA'S MOST URGENT NEED.

The question of immigration is one of the big problems with which Canada has to deal. We have a vast area and a scattered population. Eight or nine million people inhabit the Dominion. This is not a tenth of the population that this country could comfortably accommodate. Mr. S. W. Beatty, President of the C.P.R., declares that more population is Canada's most urgent need.

In an interview on this subject, published recently in the Montreal Gazette, Mr. Beatty said in part:

"I am afraid that many people in Canada do not sufficiently realize that the most urgent and essential need today is increase in population, not only to provide traffic for the railways, but also to help pay our enormous national indebtedness. So far as the railways are concerned, the National Railways are even more concerned in this demand for population than the Canadian Pacific, owing to the extent of sparsely populated country in which so much of their mileage is located."

"It was an aggressive immigration propaganda that built up the Canadian Pacific, and without immigration the prospects of the Canadian National are, in my opinion, hopeless. Any legislation which would stem the tide of desirable immigration must inevitably pile up further deficits, for immigration is Canada's great salvation. Mr. Cramer, who was speaking particularly in the interests of the National Railways, struck the right note when he declared before the Canadian Club of Montreal that a wise and vigorous immigration

policy would help solve the problem.

"Mr. Cramer also referred in another address to the foreign born immigrants, commending the progress they had made in Western Canada, and pointing out that over fifty per cent. of the students at Manitoba University were of foreign parentage.

"The same evidence is contributed in an interesting article in the 'Grain Growers Guide,' in reference to the three hundred thousand Ukrainians in Western Canada, in which it is stated that these people of sturdy farming stock from Central Europe have four large educational institutes at Saskatoon, Winnipeg and Edmonton respectively, and had become a real asset to Canada.

"The people from the Scandinavian countries have made admirable settlers. During the year 1920, nearly 1,600 of these came as immigrants to Canada, of whom only 10 were deported. All of them are thrifty, hard-working people.

"I quite agree with those who object to the immigration of city-bred Continentals of poor physique and doubtful health, who would at once drift into slums, or of large communities of foreign born who frankly declare they do not intend to assimilate with English-speaking Canadians, but I consider it absolutely necessary to the immediate betterment of Canadian financial, commercial and traffic conditions, that the gates of Canada be once more opened not only to the British, French and American immigrant, also to the Scandinavian and the more desirable type of Continental.

"It is not only farm hands and domestics who are required. What progress can Canadian industry make if the skilled mechanic is to be practically shut out? And without Canadian industry where are we to find exports for the Canadian Merchant Marine?"

"We neither can, nor dare stop this tide of desirable immigration, or say to it like Canute: 'Thus Far and No Further.' Policies which are perfectly appropriate in the case of the United States would not necessarily be applicable to this country. By all means let us exclude the undesirable immigrant, but admit those who in time will contribute to this country's commercial prosperity and economic strength."

EASTER LILY IS A SYMBOL OF EASTERTIDE

Beautiful Flower Denotes Majesty and Purity—Lower Prices for Flowers.

There are many flowers whose meanings are well established through poetry and usage of nations. The Easter lily, which is the most predominant at this season of the year, denotes majesty and purity, and expresses well the meaning of Eastertide. While the chrysanthum is the national flower emblem of Japan, the people of that country found time to cultivate other plants, and not the least of these are the bulbs from which the Easter lily springs into being.

The raising of flowers and plants for commercial purposes has grown into an important industry. Florists everywhere supply flowers to those city people who have neither the time, the place nor the means to grow them, and to those who wish to pay the price, they furnish rare plants or flowers, which must be carefully grown under glass.

Canada imports fully 750,000 Easter lily bulbs each October, and sends them forth in all their glory at Eastertide. This year Easter comes earlier than usual, and the growers had to force them a little to bring them out in bloom at the right time. The mild winter helped a good deal.

Where Japan failed in her supply of Easter lily bulbs, Holland made up with supplies of tulip, daffodil and hyacinth bulbs, which are now being sent out to make up the scarcity of Easter lilies.

The winter just closing has been a good one for florists. There has been a big saving in coal owing to the mild weather. Prices of fuel are just about half what they were a year ago. Glass for greenhouses is down in price, too, as are also fertilizers. While wages have not been cut, there has been greater production.

The good weather has helped greatly in making deliveries, and fewer shipments by express have suffered from frost, which has been a big item in other years. Good times are now in sight for the lovers of flowers. Prices are soon to drop within reach of all.

Easter Welcome at Home.

When the boys and girls come home for school for the Easter holidays they like to see things looking cheerful around the house and every little alteration helps even "if it's nothing more than a new drape or cushion, or a coat of paint in the wood shed. This time we've almost made over the living-room, and I can hardly wait to hear the verdict of the young people.

The room, as you know, was furnished in dark furniture of good design, the floor was brown, and the side wall beige. Inoffensive enough, but deady monotonous.

We decided to freshen it up, and this is what we did. We bought a few yards of very lovely cretonne printed in rosegay pattern on a walnut-brown ground. The colors predominant in the figures are soft rose, dull turquoise, sgt green, and a touch of lemon yellow. This we made into scalloped valances for the windows and into chair cushions of different shapes and sizes.

But one new piece of furniture was added to the room, and that was a wicker chair. The old voile curtains, turning the ruffles backwards brought a few yards of old-rose organdy, and cut it up into narrow little ruffles with plicated edges. With these we trimmed the curtains, turning the ruffles backwards instead of forwards. We added the same edge as a finishing touch to the scalloped valances.

We bought some rose-colored silk and made an outside cover for the old tan silk lampshade, then we copied some of the posies shown in the cretonne on the furniture. And the result is a new, bright room, diaped the neighbor from the Corner House.

Painting of furniture is not such a very difficult thing to do. Often the cretonne designs or portions of them can be traced on transparent paper, then transferred by means of carbon paper onto the furniture. Light yellow or white carbon paper may be used.

In painting do not attempt (unless you are an expert) to do the work on upright surfaces. Take each drawer out and lay it flat-side up, so that the paint may not run while you are working. Use oil paints. Set out the colors, adding a tiny bit of brown to each color you use to key it to the wood if you are painting on walnut. Thin the colors by dipping the brush frequently in Japan drier. This will dry the paint almost as fast as it is painted on.

A new curtain, a renovated sofa, a gay cushion for the easy chair, a cover for the old table, and so it goes the "freshening up" for the happy Easter holiday makers.

FRENCH WOMAN OUTWITTED THE GENEVA POLICE

Woman Went to Hospital and Married Dying Patient.

(Associated Press Despatch.) GENEVA, March 26.—An order of expulsion from the Geneva canton issued against a French woman, will not be carried out, the woman, less than thirty years old, cleverly outwitting the police. She visited a local hospital and inquired whether there was an incurable or dying Genevese patient. A nurse introduced the woman to John Baudit, 59 years old, who was in the last stages of tuberculosis. He agreed to marry the woman in consideration of thirty dollars cash and ten dollars monthly during his life.

**Our Citizen Soldiers**

This space is devoted to the interests of the local units of the Active Militia by the management of the Sherbrooke Record.

Major General Sir Henry Burstall, Inspector General of the Militia Forces of this Dominion, while addressing a public meeting at Calgary, Alta., used these words:—

"A distinct duty reposes on those who are chief stockholders in this country, to support the Militia, as it is their interest and their honor which are protected by such a force."

There are many ways in which this distinct duty can be carried out depending on the physical, financial or social status of this individual, but every man, woman and child in this Canada of ours should study the words of Sir Henry and ask themselves if they are doing their duty, or if they are permitting others possibly not so well fitted for the burden as themselves to undertake their obligations and responsibilities.

A busy week has just past, culminating in the visit of Colonel Lambert, the paymaster, who visited the Armories of the different units on Wednesday last. Rolls were called and personnel checked up, and pay will be forthcoming as soon as the pay sheets have been passed by the Auditor General.

It is refreshing to think that there are many young men, willing to give up their time to the Militia. They are not attracted by the pay, which is almost negligible, and in the case of officers goes into the regimental expense account, so that it must be that this old world is not quite so matter of fact as some pessimists would have us believe, and that many of us have an idea which we endeavor to live up to.

Tuesday evening was the occasion of a gathering of officers of the Sherbrooke Regiment to do honor to Capt. Hugo Poston, who has been in charge of instruction during the season. It took the form of a friendly dinner at the St. Georges Club, at which covers were laid for twenty-one, including the guest of honor.

The toast of the evening was given by Co. E. B. Worthington, and was a typical example of the kindly humor which has made the O. C. so popular, and was seconded by the Adjutant, Lieut. G. Sampson.

Capt. Poston expressed his satisfaction with the results that had been obtained—there being no failures, either amongst the officers or men—and quoted Co. Alexander, G. S. O. L., as saying that the officers of the Sherbrooke Regiment compared most favorably with any bunch of officers in the Militia of Canada.

Altogether the occasion was most

feature of the sensational struggle was not the flashy Nighbor. It wasn't Darragh, whose rush and shot put Ottawa on even terms in the second period, nor was it Broadbent, who notched the winning goal.

It was big Sprague Cleghorn. Ottawa took a chance in starting Cleghorn on the defence and shifting Boucher to the line, and in the first five minutes it looked as though the management had made a bloomer, but Cleghorn quickly regained his old time form and thereafter he was the most useful man on the ice. He stepped into, the Vancouver forwards time after time, sent Mackay, Adams and others sprawling with heavy body checks and intercepted pass after pass when goals seemed certain. Cleghorn carried the puck down for

Dempsey thinks he is probably back in Alaska by now.

BRITISH NAVY HERO SAVES MANY LIVES IN LATEST EXPLOIT

Capt. Evans Goes to Rescue of Chinese Coolies in a Storm Tossed Sea.

PLUNGES OVER SIDE

Noted for Part in Polar Expedition and Fight With German Fleet.

(Special Despatch.) LONDON, Saturday. Capt. E. R. Evans, commander of H. M. S. Carlisle, who was the last man to see Capt. Robert Falcon Scott, the Antarctic explorer, alive, added another chapter to the history of his heroic exploits when he went to the rescue of drowning Chinese coolies from the passenger steamer Hong Moh off Swatow (China) last Thursday, according to despatches just received here.

The Carlisle has arrived at Hong Kong with 260 survivors of the 1,200 persons on board the Hong Moh, the rescued men full of highest praise for what they call the amazing heroism of Capt. Evans, who was personally responsible for saving more than a hundred of them from drowning.

Capt. Evans put off from the Carlisle in a motor boat in a raging sea, and when he found it was impossible for him to get alongside the wrecked Hong Moh he plunged into the water with a life line, upon which many Chinese were clung for safety. Then his motor boat's rudder was fouled in a piece of wreckage from the Chinese vessel and the small craft was being tossed helplessly in the sea. Capt. Evans again plunged into the water and freed the propeller of the obstruction, thus making it possible to continue the rescue work and save many Chinese.

Capt. Evans has previously been associated with two great stories of the sea, one of them being the Scott Antarctic expedition and the other the encounter between H. M. S. Broke and six German submarine destroyers which attacked Dover in April, 1917.

The Broke, with H. M. S. Swift, attacked a superior force of German destroyers. Capt. Evans, commander of the Broke, torpedoed one of the German vessels by open fire and then rammed another, whereupon the English and the German crews engaged in a fierce hand to hand fight. Then Capt. Evans tried to ram another of the German vessels, but failed. He succeeded, however, in torpedoing the German's consort, two of the raiders being sunk.

PROFITEER, SQUEEZED IN SLUMP, ENDS LIFE

Element of Poetic Justice in Frenchman's Suicide.

(Special Despatch.) PARIS, Saturday. An element of poetic justice entered into the suicide at Rambouillet of Jean Chastang, a prominent coal and wood merchant, according to the verdict of a coroner's jury. During the war Chastang joined the ranks of profiteers, reaping his fortune of a few thousand francs more than 3,000,000 francs by purchasing timber rights along the lines of communication.

After the war Chastang continued purchases, with the result that when the price of lower prices arrived he discovered that he had 500,000 cords of wood stored away, but little cash left with which to meet his maturing obligations.

After spending the night in a vain effort to unravel his complicated accounts he wrote a letter to his friends advising them not to try to control more than an ordinary share of the world's wealth and then fired two shots into his head.

NERVOUS INFLUENZA AFFECTS LONDON

New Form of Malady Does Not Yield to Drugs.

(Special Despatch.) LONDON, Saturday. Nervous influenza is the latest form of malady that has visited London, according to Dr. Bernard Hollander, an eminent Harley street physician, who says that although the new form of "flu" is not prevalent to any alarming extent, there are undoubtedly many cases of it in London. Dr. Hollander remarked a similar form of influenza thirty years ago, and believes that the present attack cannot be prevented with drugs, the only chance to escape being by keeping fit.

FRENCH'S FAMOUS SHIP TO PLY THE IRISH SEA

Will Be Reconstructed After Two Years Under Water.

(Special Despatch.) LONDON, Saturday. Capt. Fyatt's famous ship, the Brunel, in which he defied the Germans, has been sent to the Lish docks for reconstruction. After this work is completed she will join the fleet of the Dublin and London Steamship Company, engaged in the cattle trade between Ireland and England. The Brunel will require a thorough overhauling, having been under water for two years, after being badly damaged when sunk by the Germans. Capt. Fyatt, it will be recalled, was shot by the Germans for sinking a U-boat.

FASHION MAKERS OF PARIS WOEFUL AS TRADE SLUMPS

Alert Customs Agents on This Side Said to Deter American Women From Buying Gowns Despite Dollar's High Purchasing Power in France.

(Special Despatch.) PARIS, Saturday. The Rue de la Paix dressmakers are complaining of a new era of hard times despite the fact that the exchange rate makes the dollar buy more here than in the United States. Apparently it is the fault of American customs agents, who are accused of inspecting more closely than ever the trunks and valises of homeward bound tourists and levying tremendous fees whenever they find French gowns and cloaks which have not been declared dutiable.

"The result is that American women instead of buying our creations by the thousands as they did a year ago, are buying material at the department stores," said the manager of a prominent dressmaking establishment.

"They then pay a small customs fee and have their Fifth avenue dress-makers do the creating for them. Even the Argentines and Brazilians who before the war visited Paris no longer are seen in our salons."

"A few Scandinavians keep up their traditional preference for French gowns, while the Russian women, forgetful of their incomes in rubles of doubtful value, still inspect the models which deliciously adorn the graces of the mannequins—then sigh and go away to wait until prices are lower. It is certain that unless something happens to inspire foreign buyers to come to us soon the fashion makers of Paris face a dire crisis."

MOVING SIDEWALK URGED FOR PARIS

Municipal Council Estimates Cost of Constructing Initial System.

(Special Despatch.) PARIS, Saturday. With taxicabs, motor lorries and omnibuses sending unwary pedestrians into the hospitals at the rate of fifty a day the Paris Municipal Council has just decided to adopt a scheme of installing rolling sidewalks beneath the boulevards and has actually estimated the cost of constructing an initial system between the Madeleine and the Bastille.

However, this will not be the first experiment in Paris along this line, as a trial sidewalk was laid out during the 1909 exposition when a slimy looking structure was built by De Moccimble, a French engineer, which carried American and British visitors along the Grand Canal, the Invalides Esplanade and around the exposition grounds. The French at first hesitated to trust themselves to the platform moving eight miles an hour, not knowing that a rolling sidewalk was a feature of the Chicago exposition of 1893.

Since the beginning of the century M. de Moccimble has improved his plans and believes it will be possible to build a tubular case under the present sidewalks wherein a mobile platform could reach a speed of fifteen miles an hour. This would transport 10,000 persons an hour over the entire length of the boulevards. M. de Moccimble has convinced the Council that accidents would be greatly reduced, as during the entire operation of the 1909 exposition moving sidewalks only thirty-seven were injured and only one was slightly bruised.

FRANCE DENIES LARGER SUBSIDY TO OPERA

Daily Deficit 12,000 Francs and 'Valkyrie' Best Payer.

(Special Despatch.) PARIS, Saturday. Strangely enough, one of the only two operas which when sung is covering expenses at the Paris Opera is a German composition, "Die Valkyrie." The other sharing this distinction is "Faust." This fact was brought out in a recent debate in the Chamber over the proposed increase of 2,800,000 francs in the annual subsidy of the Opera. The increase was denied, however, although it was shown that the daily deficit of the Opera was 12,000 francs.

PARIS PHONE SYSTEM TO BE RUN ON U. S. PLAN

1,500,000,000 Francs to Be Used in Making Improvement

(Special Despatch.) PARIS, Saturday. Contact with American methods during the war is to have at least one beneficial effect on French affairs, the Minister of Posts and Telegraphs decided this week to adopt the American plan of installing telephones at a moderate fee and then charging according to the number of conversations. During the next six months 1,500,000,000 francs are to be spent on extensions and improvements involving an additional 100,000,000 francs of new lines from Paris to the provinces.

In efforts to replenish the treasury preceding ministries have doubled and then tripled the expense of telephone installations until it now costs 2,000 francs for the first year and 1,400 francs for the second year for telephone service in Paris. M. Laffont, however, believes it is possible to reduce this charge to 500 francs a year, the public to pay four cents for each call after the allotment of 1,000 calls a year is reached.

The Minister intends to carry on an extensive campaign until every building in Paris is provided with one telephone at least. At present there is only one telephone for every 300 population, less than 5 per cent. of the record of the United States in this respect, and far below that in other European countries.

LLOYD GEORGE GRANDPA AGAIN

Premier Finds Time to Wire Congratulations to Parents.

(Special Despatch.) PARIS, Saturday. Premier Lloyd George has another granddaughter, this one being the daughter of Major and Mrs. Carey Evans. Their elder daughter is staying in Downing street, under the care of her maternal grandmother, and the Premier had time amid conferences and his work in the House of Commons this week to wire his congratulations and make daily inquiries about the health of the latest member of the family.

AMERICAN ARTISTS' WORKS ON VIEW IN LONDON GALLERY

More Than 150 Paintings Shown by Mrs. H. P. Whitney and Francis Howard.

OF UNFACILE MEDIOCRITY

Some Win Unstinted Praise, but Most Suffer From Unsound Technique.

(Special Despatch.) LONDON, Saturday. To-day London had a private view of Mrs. Harry Payne Whitney's and Francis Howard's venture for the exhibition in England of contemporary American art. The Grafton Galleries in Bond street showed to a fair cross section of London intelligentsia and society a fair cross section of American art. Some items met with unstinted praise from the critics, such as Robert Chandler's brilliantly intricate deep sea screen design and George Bellows's grisly rendition of Edith Cavell leaving her cell for execution, but on the whole the critics said American art though showing greater life and initiative than that of their British brethren, seemed to suffer even greater handicaps in the matter of unsound technique.

Among the sound landscapes and portrait studies appeared several lacking either inspiration or skill, while other sketches on the famous walls displayed the same unfacile mediocrity about which British critics have complained in most of the important exhibitions here. The works for exhibition, numbering more than 150, arrived in the middle of the week and were rushed in motor trucks to London, the hanging having barely been completed before the preview yesterday, and the catalogue was still wet from the printer when the show opened to-day. Society, nevertheless, was well represented and was kind to the exhibition.

Among the exhibitors are William J. Glackens, Childs Haxson, John Sloan, George Bellows, Thomas E. Atkins, E. Lawson, Clifford Seal, Guy Pene Dubois, Rockwell Kent, Robert Chandler, Allen Tucker, Arthur B. Davies, Max Kuehne, Samuel Halpert, E. W. Reiffend, Robert Henri, George Luks, Randall Davey, Kenneth Frazier, John H. Twachtman, Eugene F. Speicher, Maurice Stearn, William Riney, Paul Burlin, Countess Beatty, Countess of Donoughue, Countess of Essex, Countess Howe, Countess of Sandwich, Countess of Stafford, Countess of Suffolk, Mrs. Algonzo Starbuck, Countess Harcourt, Lady Barrymore, Lady Bingham, Lady Gairthorne, Lady Channing, Lady Cheylesmore, Lady Deedes, Lady Ellenborough, Lady Hamilton, Lady Newburgh, Lady Ribblesdale, Lady Waverley, Lady Herbert, Lady Lowther, Lady Malcolm, Lady Ross, Lady Cunard, Lady Hawkins, Lady Lister Kaye, Lady Randolph Churchill, Lady Lyle, Lady Lavery, Lady Pazel, Lady Forbes Robertson, Mrs. Cecil Bevington and Mrs. Coventry, Mary Anderson Navarro, Burton, Carnegie, Spender, Mrs. J. P. O'Connor, most of whom were present at the private view.

There is a story that he picked it up in Switzerland, but this is doubted, because the Count was attached to the Austro-Hungarian Embassy in Paris and remained in the city during the period of the Communist disturbances. How this bedroom, which long ago was estimated to be worth \$200,000, came into the possession of Count Palffy is a mystery.

But the bureau is not the only interesting feature of the collection. Among the fine examples of Adam work are a desk and a writing table, the latter being a superb furniture or jewelry could be bought for almost nothing. It is surmised, therefore, that the young Hungarian attaché was in that way able to obtain the famous bureau, which had been stolen from the Turks.

The portrait recalls the visit of the Iron Chancellor to Vienna on the occasion of the marriage of Count Herbert Bismarck to the Countess Marguerite Hoyos in June, 1892, when he received a rebuff from the headstrong Wilhelm II, which he never forgot. Bismarck had taken it as a matter of course that he would be received by the Emperor Franz Joseph, but the Emperor's decision was determined to prevent the meeting, so he sent a direct personal request to the Austrian Emperor asking him not to receive Bismarck.

The present subdivision of 500,000 francs when first granted in 1871 was considered a generous amount, but now it falls sadly short of answering the purpose. But the eloquent plea of M. Leon Bernard, Minister of Public Instruction, for an increase having failed, the Opera will have to worry along as best it can until France strikes a more prosperous era.

DIVORCE IN INDIA IS NOT VALID IN ENGLAND

Decision Makes Many Remarriages Necessary.

(Special Despatch.) LONDON, Saturday. A far reaching divorce judgment was delivered by Sir Henry Duke, when he decided that a decree by a court in India dissolving a marriage contracted in India, but one of the parties to which was domiciled in England, has no validity.

Capt. Reginald Keyes asked for dissolution on the grounds of improper conduct of his wife with a brother officer. A divorce had been granted to him in India, but he was doubtful as to the legality of the decree and so brought action here. Despite arguments from the India Office holding that the Indian court had the same competence as the English court, Sir Henry said that such decision would make illegitimate thousands of children born of second marriages of persons divorced in India since the passage of the Indian divorce law of 1914. Sir Henry gave judgment in favor of Keyes. He held that Keyes was domiciled in England, that the said marriage still prevailed and that he was entitled to a decree which Sir Henry said would be granted with costs against the respondent agents.

NEW FRENCH RESORT TO RIVAL MONTE CARLO

Britons Have Eye on American Tourists' Pocketbooks.

(Special Despatch.) PARIS, Saturday. Monte Carlo and Deauville are threatened with losing their glamour for American tourists if the scheme of a British syndicate which bought the controlling interest in Hardelot Plage near Boulogne materializes. For nearly fifteen years Hardelot has slumbered in the midst of its pine trees, pointed out to casual visitors only as one of King Edward VII's summer homes and seldom was recommended to foreign visitors, although the temperature and surroundings compare favorably with any of the larger French resorts.

LOUVAIN LIBRARY IS TO SHOW U. S. SKILL

Dr. Butler and Other American Educators Will Be at Stone Laying in July.

(Special Despatch.) PARIS, Saturday. The cornerstone of the Louvain Library, destroyed by the Germans and which is being replaced under the direction of Whitney Warren, will be laid early in July, with Dr. Nicholas Murray Butler, president of Columbia University, present, according to Mr. Warren, who has begun the plans with the help of three assistants, Carroll Greenwood, Ronald Pearce and Lesing Williams, well known American architects.

Mr. Warren's assistants have been sent to study the Flemish buildings in the small towns of Belgium in order that the final structure may harmonize with the best Belgian architecture. Mr. Warren has decided that it is impossible to rebuild the structure on the old site, but will select a plot of ground convenient to Louvain's system of municipal parks and boulevards.

Although the original library had 2,000,000 volumes, only 500,000 have been returned, and these have not yet been unpacked, as there is no place to store them. To overcome this difficulty the architects intend to begin immediately to construct the stack room on the American plan, around which the architectural facade and reading rooms can be built. This work will make the edifice not only a tribute to American capability but the equal of any public monument in Europe.

Mr. Warren and his assistants have been guests of the Government at dinners where Cardinal Mercier was present, the latter declaring that he intends to issue an appeal so as to make the July dedication of the scene of a great international university festival, to which will be invited representatives from every American university and college that has promised to aid in collecting the \$500,000 necessary to complete the structure.

SEEK LARGER OUTPUT BY FRENCH WORKMEN

Officials Also Would Improve Children's Health.

(Special Despatch.) PARIS, Saturday. How to induce the French working classes to prove their patriotism by increasing their industrial output as well as by producing not only more, but healthier children is a problem that has been occupying the attention of French socialists since recent reports showed that the birth rate, which had increased promptly immediately after demobilization, had now slackened.

Gustave Dolans, Counselor-General of the Seine, who has headed several important commissions on child welfare, considers this to be the most disquieting problem facing the French nation and he has decided that there is only one solution possible, which he states as follows: "In every family the third child must no longer represent a burden but a profit, causing the family to find the situation so materially improved immediately after the birth of the third child that they will not have to serve unburdened bread to the rest of the family in order to provide milk to the newly born."

M. Doussain recommends the passage of a law which will automatically give an increase in salary to the father on the birth of the third child and any children after that, the state paying half of this increase and the employer the balance. He proposed also a general revision in taxes whereby childless families would have to pay an increase sufficient to recap the treasury for the sums paid the parents who had numerous children.

PARIS HOPES TO LURE WOMEN TO BULL FIGHTS

Believes They'll Turn Out as at Boxing Matches Here.

(Special Despatch.) PARIS, Saturday. The interest shown recently by American women in boxing contests has encouraged the promoters of entertainment at the Pershing stadium to hope that French women will take a similar delight in the bull fighting exhibitions soon to be given in the arena in an effort to make the big stadium pay.

Many believe that if the idea now proposed of not actually killing the bulls is adhered to a large feminine audience is sure to be attracted, while others argue that the women will be the first to demand the undiluted article, just as is done in Spain and Mexico, or perhaps in any event, the question will soon be decided, as the promoters are said already to have engaged several of Spain's foremost toreros for performances which they hope will fill the stadium. The American doughboys gave to the French nation.

PICTURE AND TALK REEL OFF AT ONCE

BY RANKINE'S PLAN

Movie Invention by Originator of Telephoning Fluctuating Beams of Light.

REVOLUTION IS PROMISED

Actor Without Good Speaking Voice Will Have to Quit Film Business, Is Contention.

(Special Despatch.) LONDON, Saturday. New talking "movies" have been invented, according to Dr. A. O. Rankine of the University College of London, who is celebrated as the scientist who perfected the method of telephoning by fluctuating beams of light through selenium cells, a system which was used in the naval services during war time. His talking film is a combination of his light telephone and the ordinary method of projecting motion pictures.

An actual reproduction of spoken words has been made by Dr. Rankine on a film by the use of a selenium cell camera. This film can be run through an ordinary "movie" projector, the beam of which is trained on Dr. Rankine's light telephone and the spoken words are then repeated simultaneously with the action on the screen, through a telephone trumpet, the sound being sufficient to fill a large hall. Experts believe that when the discovery is developed it may be possible to film pictures and the speeches of the actors at the same time, with the result that there will be real talking films.

Motion picture people, probably jealous of their art, say the chief objection to the general use of such an apparatus is that in speaking, except for casual words, it is not permissible in good acting before a camera for an actor to open his mouth, as it photographs black, while facial distortion caused by talking would spoil a carefully acted film.

Dr. Rankine asserts he has perfected something on which the world's greatest scientists have been working for a long time and he predicts a new era of motion picture film business soon. He says an actor without a good speaking voice will not be able to make good in films any more than he would be able to do on the stage. His success in his work commands great respect for his new invention among experts who have studied it.

TWO COLOR RAINCOATS EDICT FROM LONDON

Pajama Coat Without Collar Also Decreed by Fashion.

(Special Despatch.) LONDON, Saturday. A marked drop in some cases amounting to 50 per cent. in the cost of men's clothing is indicated at the second annual exhibition by clothing outfitters and the woolen trade. Among the interesting features is what is obviously a determination of the manufacturers to break away from some coloring in raincoats and two color waterproofs will soon be worn here, the collar and cuffs being of a color different from that of the coat itself.

The death knell of the shirt with silk front is sounded in the exhibition. Silk shirts always have caused considerable trouble to laundries because of the amount of washing necessary, for the non-silk portion of them destroyed the silk.

Men's outfitters find a large demand for silk pajamas, the price of them having dropped 20 per cent. recently. A pajama coat without a collar is the latest thing.

LONDON'S HISTORIC BREWERY FOR SALE

Documents Show It Flourished in Days of Queen Elizabeth.

(Special Despatch.) LONDON, Saturday. The oldest brewery in London is for sale. This institution holds the distinction of being the only brewery in the City of London surviving the days of Queen Elizabeth. Known as the City of London Brewery, it occupies nearly two acres adjoining Cannon Street Station in Thames street and has a considerable river frontage.

The historic brewery was founded so long ago that it is next to impossible to fix the exact year. Documents in the archives of the brewery prove that it was a flourishing institution as early as 1580. A brewery was a thing of considerable importance in those days, and so Stow mentions it in his *Chronicles* as follows: "At the West end of the Church of Allhallows the moor goes down a lane called Gray Wharfe Lane. Now lately a great Brewhouse was builded there by one Pot. Henry Camplatt. Four a beere brewer used it and Abraham his sons now possesseth it."

The most notable man who brewed beer with Thames water on this site were the Calverts, a family of brewers celebrated for the quality of their porter. Sir William Calvert in 1749 ranked as the fourth brewer in London, and Calvert and Reward of Whitecross street were the first. The former brewed 61,789 barrels of beer in that year and the latter 74,784. Not much of the original buildings remain, as part of the structures were burned in the fire of London of 1666. It was rebuilt and at the end of the eighteenth century important additions and alterations were made. Some of the walls of the present building date back to 1772.

The taphouse beside the brewery in Thames street, with its old hour glass sign, is not for sale, as its fresh bit belongs to a private company.

# LABOR MEMBERS PROFESS TO BE UNPERTURBED

### Claims Lloyd George's Speech Is an Incitation to a Class War.

(Associated Press Despatch)  
LONDON, March 26.—British laborites profess to be unperturbed by the declarations of Lloyd George in his speech on Wednesday, which politicians took as an announcement of his intention to line up the electorate against the Labor party in the next election with a campaign cry of

ON EASTER MONDAY, MARCH 28, THERE WILL BE NO ISSUE OF THE DAILY RECORD.

"Down with Bolshevism." Labor leaders point out that the Premier has sent up trial balloons before and J. B. Clynes, leader of the parliamentary labor party, accused Lloyd George of uttering an incitation to a class war.

"This speech will do more to bring about a class war than anything the professed advocates of a class war could do," said Mr. Clynes. "It distorts the purpose of the Labor party which, if raised to power, would have the greatest possible interest in increasing the prosperity of the entire nation rather than the interests of one class. We realize that any harm that befell the nation would fall most heavily on the working classes, and we are not such fools as to support any policy that would cause harm."

# HUGE TREE CUT AT DANVILLE; OTHER NEWS

### Society Meetings Held—Other Interesting Newsy Notes.

DANVILLE, Que., March 26.—Mr. Chas. Horan had occasion to cut a hemlock tree this winter on his farm here which is said to be the largest tree felled in this vicinity for many seasons, measuring in all over 1,750 feet of lumber. This particular tree was struck and killed by lightning recently, otherwise Mr. Horan would not have cut it and it would undoubtedly have gained still greater proportions. This tree standing was in the neighborhood of eighty-five feet tall and measured approximately three feet across the butt. This is not a surprising size for the base of a tree, but this size was held well up toward the top, and the great length ran into lumber fast. Mr. Horan cut six logs in all from this tree besides the top, as follows: One nine feet, three fifteen feet, one five feet, and one twelve feet.

**Guild to Hold Tea.**  
The Ladies' Guild of St. Augustine's Church will hold an Easter tea and sale of fancy work, candy, jams, pickles, etc., in the town hall on Thursday next, March 31. A novel contest will be introduced at this tea, which we will call a "Pie Lady Guessing Contest." This will be a "free for all," and will consist of the contestants viewing a lovely pie and then guessing the weight of the lady who made the pie. The only disadvantage we see is that the contestants will not know who the "pie lady" is.

**General Notes.**  
Mrs. A. E. Raymond entertained the Women's Home and Foreign Missionary Society of the Advent Christian Church at the Parsonage on Thursday last. The regular routine work took up the afternoon, and at tea time refreshments were served. During the evening the programme included discussion on foreign missions and Bible translations. A very interesting dialogue was also given by several young ladies, entitled "How Not to Do It," which was much enjoyed by all. The gathering dispersed before the weather became too inclement.

The regular March meeting of Doric Lodge, No. 34, A. F. & A. M., was held on Wednesday evening last.

The local troupe of Wolf Cubs appear very trim in their new regulation sweaters, which, with their caps, etc., almost complete their uniforms.

Several local sugarmakers to whom we have spoken have expressed themselves as much pleased with this season's sugar yield. The amount made to date is highly satis-

factory, both as to quality and quantity, and many indications point to an extended sugar season. The teachers on the staff of the Danville High School have gone to their respective homes for the Easter holidays as follows: Miss Blampin to Montreal, Miss Pennett to Inverness, Miss McCaskill to Gould, Miss McCurdy to Lennoxville and Miss Mackintosh to Atholston, Que.

Mr. O. M. J. Ingalls successfully underwent a serious operation at the Royal Victoria Hospital, Montreal, last Thursday, and is reported to be resting comfortably.

Mr. and Mrs. Seth P. Leet, of Montreal, are the guests of Mr. and

Mrs. A. E. Morrill for a few days. Mr. J. N. Greenshields and a party of friends from Montreal spent the week-end at Mr. Greenshields's farm, Isleigh Grange.

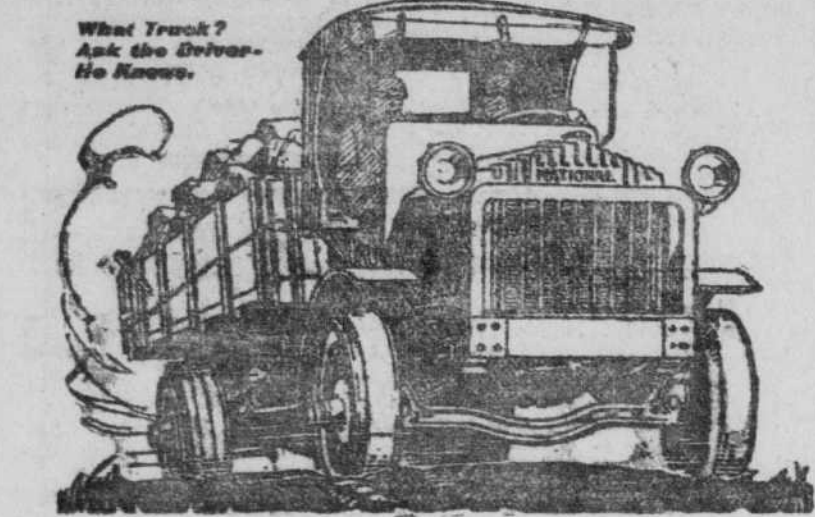

Miss Alice Cleveland, of St. Lambert, was in town recently.

Mrs. R. A. Sampson entertained a few friends Thursday evening in honor of her sister, Miss Constance Fuller, of Sherbrooke.

Miss Florence Findley, of Magog, was the guest of her parents, Mr. and Mrs. Richard Findley, for the week-end.

Rev. E. G. Warren was in Sherbrooke last week attending an executive meeting of the Religious

Education Association, which was held in St. Andrew's Church. Mr. Astley Campbell is spending a few days in Montreal with his brother, Mr. Donald Campbell. Miss Chariotte Morrill, of Montreal, is spending the Easter holidays with her parents, Mr. and Mrs. E. J. Morrill. Miss Mary Campbell, of Montreal, is the guest of her parents, Mr. and Mrs. O. R. Campbell, for a few days. Mr. and Mrs. George E. Yale spent a few days with Mr. and Mrs. E. B. Baker, at Sunnyside farm, before returning to their home in Calgary, Alta.
