

METHODIST CONFERENCE MEETING IN QUEBEC

General Session Will Open To-morrow, But Preliminary Meetings Have Been Held All Week.

STATIONING COMMITTEE'S FIRST DRAFT

Although the twenty-fifth session of the Montreal Conference of the Methodist Church only opens here on Friday morning at 9 o'clock, preliminary work has been in progress during the week. The Stationing Committee and the Statistical Committee have held daily sessions, and yesterday afternoon the Ministerial Session assembled at 2.30 o'clock. Already some 150 Ministerial and 30 lay delegates have arrived for the conference, but this number is expected to be greatly augmented before the general conference opens.

These sessions are open to the public and will no doubt, be largely attended. The Stationing Committee gave out the first draft of its report last evening, the changes involved being as follows:— MONTREAL DISTRICT. St. James Church—H. Marshall, M.A., B.D., D.Sc., President Alberta University; Thos. H. Billings, Samuel Tuson. Wesleyan College—W. M. Paton, Professor of Old Testament Exegesis and English Bible. Dominion Square—E. J. Hart, B.A., E. C. Scott. Centenary—S. J. Hughes, M.A. Montreal (Ebenezer Church)—F. O. Read. Hochelaga—B. B. Brown. Montreal—Fairmount Avenue—J. T. Ritchie. St. Lambert—Dr. Jackson. Montreal South—J. A. McNeil. Lac des Isles—G. H. Poirier. St. Anne de Bellevue—M. Robinson. Hudson—G. D. Armstrong, B.A. Lachine—W. G. Henderson. Calumet and Grenville—A. Mathews. Arundel and Ponsonby—W. Bridgette. Rawdon—Wm. Hollingsworth. MATILDA DISTRICT. Matilda—A. T. Jones. Moulins—A. L. Boyd, B.D. Avonmore—E. S. Howard. Finch—G. A. Bell. BROCKVILLE DISTRICT. Athens—G. I. Campbell, B.D. Augusta—J. Peniel. McConnell, B.D. Ulverton—F. C. McConnell. STANSTEAD DISTRICT. Stanstead—W. S. Jamieson, M.A. Beebe Plain—W. T. Smith. East Bolton—J. J. Fletcher. WATERLOO DISTRICT. Sutton—W. A. Hamilton. Danham—R. Calvert. Phillipsburg—J. R. Hodgson. Farnham—Dr. Tucker. Granby—W. E. Reynolds. HUNTINGDON DISTRICT. St. John's G. W. Fisher. Clareville—D. Mick. Franklin Centre—T. Vicary. Dr. Workman, of the Montreal Wesleyan College, is listed as a minister in Montreal District without appointment, the Stationing Committee having yet to decide. With regard to Dr. Paton's appointment, Dr. Workman expressed great surprise. "The committee has not the power to do it. He is not a member of our church," he declared. "I am sure there must be some mistake. They would not dare to do this." Dr. Shaw has not yet arrived.

GYMNASTIC EXHIBITION. The officers and members of the Gymnastic Association of the Petit Seminary, will hold their second exhibition at the Drill Hall, Grande Allee, on Friday evening at eight o'clock.

Cook's Cotton Root Compound. The great Uterine Tonic, and only safe effective Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, \$1; No. 2, 10 degrees stronger, \$2; No. 3, for special cases, \$5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Manufacturing Co., Toronto, Ont. (Formerly W. D. Young).

Four priests formed the first party of Jesuits to come to Canada, and among these were Jean de Brebeuf and Charles Lalemant. Of the 32 Jesuits who in all labored in Canada, Brebeuf was the greatest. Dr. Colby read extracts from leading historians to prove him to be possessed of the highest physical and mental qualities. "He was no plaster saint," declared the lecturer. "He was a man who could do and dare and suffer." The classic period of the Jesuit missions to the Hurons, their greatest in Canada, was between 1632-49. The struggle against savage superstition and cruelty, the difficulties with the language, and the many other troubles of the day, made the mission of which Brebeuf was the head, most interesting. The history of the period had been kept in the often voluminous records of the Jesuits. The election of officers of the Theological Union resulted in Rev. Dr. Wright being chosen as President, and Rev. T. Anson Hallpeny, Sherbrooke street Methodist Church, as Lecturer for next year. This evening the Missionary anniversary will take place in the Methodist Church at 8 o'clock. The chairman will be Lorne Webster, Esq., and the speakers will be Rev. James Henderson, D.D., and J. Hilliard, Esq.

BOURASSA WILL OPPOSE GOUIN

Accepts Nomination for St. James Division TO RUN FOR TWO SEATS

News has Created a Considerable Amount of Disturbance in the Liberal Ranks.

(Special to the Chronicle.) Montreal, May 27.—Henri Bourassa to-day formally accepted the nomination in St. James division of Montreal, where he will have for his opponent Premier Gouin. The official announcement of Mr. Bourassa's decision came as a great surprise in Liberal circles, and by no means a pleasant one, especially after the splendid triumph he achieved a few nights ago at his Monument National meeting. When Mr. Bourassa did not accept the St. James nomination immediately after that meeting it was thought that he would not attempt to beard the lion in his den, but would content himself with running in St. Hyacinthe. As it is Bourassa will run in both ridings, as his opponent will run in two, St. James and Portneuf, near Quebec. Mr. Bourassa's decision is considered a wise move, as it is feared that if he ran in only one rural constituency, the Provincial Government organization would pour in every resource at their disposal in the way of money and workers to defeat him, as they did in Bellechasse. With a contest in two ridings this will not be so easy. The Liberal forces are a good deal disturbed at Mr. Bourassa's decision to run against Hon. Mr. Gouin, as even they admit that the young voters of the city are enthusiastic in supporting the movement started by the ex-member for Labelle. Hon. Mr. Gouin left this afternoon for Portneuf before Mr. Bourassa's decision was given out.

GUNNESS CEMETERY

Entire Store Will be Raked to Bring to Surface Secreted Bodies.

Laporte, Ind., May 27.—Several hogs wallowing in the pond at the edge of a lot on the Guinness farm near here, to-day, brought up a bone of a human arm. This convinced Sheriff Smutzer that other bodies have been buried beneath the mud at the bottom of the pond. The entire shore will be gone over with long rakes in an effort to bring any bodies the water may secret to the surface.

SOCIAL EVENT

A very pleasant event took place at the Auditorium Cafe yesterday evening, the occasion being the presentation of a magnificent cutlery service to Mr. Emile Gaboury, who is to be united in the bonds of matrimony to Miss Marie Blanche Dube, on Monday next. The presentation was made by Mr. E. W. LaRue in a very able manner, and Mr. Gaboury acknowledged by suitable reply in appropriate words. During the evening several songs and speeches were delivered by Messrs. L. Beauchamp, Chs. Gauvreau, Art. Matte, Adj. Turcotte, jr., Edmond Tanguay, Dr. Vaillancourt and Oscar Belanger. After a pleasant time spent, all friends retired delighted with their evening. The cutlery service was presented by Mr. E. W. LaRue, on behalf of Messrs. Adj. Amyot, E. E. Amyot, J. J. Allaire, G. J. P. Baillet, C. E. Bazin, E. O. Beauchamp, E. E. Beauchamp, Henri Beaudry, R. Beaudry, H. A. Beaudry, G. Belanger, Boivin & Grenier, C. A. Bouchard, Chas. Cloutier, G. Carrier, J. E. Charron, C. J. Vaillancourt, Wm. Vincent, F. Voyer.

PRESENTATION TO MR. TENNY

Mr. Chas. E. Tenny, City Ticket Agent of the Grand Trunk Railway at Portland, Maine, and until recently the occupant of a like position in this city, and who has been in town for the past day or two previous to removing his family permanently to the Maine city, was the object of a flattering testimonial of the esteem with which his friends and fellow-members of the Quebec Transportation Club regard him, at the St. Louis Hotel on Tuesday afternoon, when in the presence of Messrs. F. S. Stocking, J. A. Everell, Jules Hone, jr., Dr. A. E. Lebel, W. J. Lynch, A. Rawland, J. S. Blanchet, F. L. Wade, and H. N. Bartlett, Mr. Alex. Hardy, President of the Club, presented Mr. Tenny with a pair of handsome gold cuff links and a gold pin as a souvenir for Mrs. Tenny. Mr. Tenny, who was evidently touched, acknowledged the tribute of his friends most feelingly, and voiced his own appreciation and that of Mrs. Tenny in appropriate terms.

ARMAND LAVERGNE HAS RESIGNED

His Seat in Dominion House for Montmagny

DEADLOCK UNCHANGED

Mr. Foster Connects Sir Fred. Borden With Some Cold Storage Operations.

(Special to the Chronicle.) Ottawa, May 27.—The Speaker announced in the House to-day that he had received from Armand Lavergne his resignation as member for Montmagny, and had given instructions for a new writ to be issued. Mr. Borden was told by Mr. Brodeur that the Government steamer Champlain had made a trip from River Quella to Baie St. Paul last Sunday for the convenience of the public, but the Minister was not informed that the steamer was used on that occasion by Mr. Taschereau to prosecute his provincial campaign. After yesterday's all night session the House was in a tranquil mood to-day. When a motion to go into supply was made, Mr. Foster exposed the connection of Sir Frederick Borden with the New Brunswick Cold Storage Co., claiming that through the Minister, the company obtained more easily substantial aid amounting to over \$50,000 under the provisions of the new cold storage bill put through by Mr. Fisher last session. The Minister made a spirited defence. To-morrow being a holiday the House will not sit. The deadlock over the Aylesworth Election Bill remains unchanged.

The two candidates in Levis will address joint meetings to-day at St. Henri after mass and at St. Lambert after vespers.

It is rumored that a meeting will be held after mass to-day in St. Saviour to choose a candidate to oppose Dr. Cote.

The returning officer in Chicoutimi and Saguenay, Mr. Bosse, has fixed June 20th as the date of the elections in that county.

The Liberal convention to choose a candidate in Portneuf will be held to-day at Point Rouge.

The Quebec correspondent of the Presse gives currency to a rumor that Hon. T. C. Casgrain may be a candidate against Mr. Louis Letourneau and Dr. Jobin in Quebec East.

It is stated that Messrs. Couture, independent candidate, and P. Gagnon, opposition Liberal, will retire in Matane in favor of Mr. J. E. Gagnon, who will present himself against Mr. Caron.

Hon. A. Turgeon and Mr. Ephrem Audet will address a joint meeting at Buckland after mass to-day.

Mayor Payette will not be a candidate in Hochelaga, giving as his reason that the Premier had assured him that the constituency would be divided, and then there will be room for all aspirants. Of course, everyone else in the city knew that Hochelaga was to be divided, and the Premier confirmed the news when he opened the campaign in the old Patrie building ten days ago. It is stated that Sir Wilfrid Laurier had to be called in before the mayor would let go. The Conservatives will place a strong man in the field.

Hon. Lomer Gouin's reception in Valleyfield on Saturday evening is the subject of conversation. Not a single one amongst the local leaders at Valleyfield was present at the station when the Prime Minister arrived, although a band had been hired for the occasion, and the same thing was noticeable on the platform at the evening demonstration, and on the leader's departure in the evening. It is said that Mr. Gouin complained to some friends at such treatment, and was answered that they had nothing against him personally, but that a change would have to be made in the County of Beauharnois as he wanted the old friends to turn to and work as in the old days.

Mr. W. Jos. Brown, the Independent Conservative candidate for Quebec West, visited the Cove last night, and on Friday night will open his campaign in the Sarsfield rooms when he will have the pleasure of addressing the electors of Champlain Ward.

GENERAL ASSEMBLY

Of U.S. Presbyterian Church Recommend Simplification of the Shorter Catechism.

Kansas City, May 27.—Foreign missionary work was reported on and discussed at the General Assembly of the Presbyterian Church in the United States of America to-day. Great progress in this field of Evangelism was indicated by the report of the Foreign Missionary Board. The board reported that more money was contributed this year for foreign missions through the board than during any other previous year in its history, the total amount being more than \$1,300,000. A catechism, which shall be couched in simpler language than the "Shorter Catechism" now in use by the church, was recommended by the committee on bills and overtures.

#### THE TER-CENTENNIAL PAGEANTS.

Thanks to Sir Frederick Borden and the Department of Militia and Defence, one of the great spectacular items of the Tercentennial Celebration programme, the great military review on the Plains of Abraham, is likely to be considerably shorn of its original dimensions, and though it will be undoubtedly interesting, yet it can scarcely hope to be anything extraordinary and out of the way. There is all the more reason therefore why every effort should be put forward to increase the effect and to ensure the success of the kindred display of the pageants, now being got up under the direction and supervision of Mr. Lascelles, and a committee appointed to assist him in the preparations, which bears to history similar relation to that borne by the review to military matters. In order to give these pageants the imposing appearance which they should afford, two things are pre-eminently necessary, brilliant and apposite costuming, and full ranks, the second thing being quite as important as the first, for, however brilliant and suited to the occasion the costumes of those taking part in the pageant may be, they rather lend an air of absurdity to the performance if the numbers of those participating in it are few. In theatrical parlance, the "supers" are greatly in demand, and for a supply of these in adequate numbers the promoters must rely on the zeal and patriotic spirit of the citizens. There should be no difficulty in securing volunteers from the younger part of the population, from the Laval students, the Seminaries and the schools, who would enter into the spirit of the pageants with zeal and intelligence, and would incidentally, derive great benefit from their participation in the scenes, which recall to the mind the principal historic events of old Canada. The costumes appropriate to the pageant will be forthcoming, and in amply sufficient numbers for all those who will apply in time, it remains to provide an amply sufficient number of wearers, and the young people of our university and schools, French and English, are just in the position to do this. To them the appeal is made.

#### MR. BOURASSA IN MONTREAL

Mr. Bourassa addressed a large and enthusiastic meeting in the Monument National at Montreal, on Monday night, and made the political situation so far as concerns himself and his supporters, perfectly plain. He and they are Liberals, but Liberals opposed to graft and to the tortuous ways of the Gouin administration. He considers that the party needs a great deal of purifying, and if an alliance with the Conservatives is the only method of effecting this, he is doing the Liberal party a service by adopting it. What he wants is honest, prudent and progressive government, which he despairs of obtaining from the Gouin faction, and if the Conservatives will give it, as he believes they will oppose them, as he opposes the Gouin Liberals, who have failed in the performance of their promises.

With regard to the Nationalism which is laid to his charge, Mr. Bourassa explained that it consists only in the desire for the advancement and progress of the Province of Quebec, which is essentially a French Province, and which will remain so, and for this he desires the active and cordial co-operation of both races in the Province, living amicably side by side, enjoying the same rights and privileges, respecting each other's feelings, and working together for the common weal in the province. There is nothing in a Nationalism like this to which any one can reasonably take objection.

But he has been accused of appealing to race prejudices. Those who know how such appeals have been made in the past on every political occasion - by La Solle and other French organs of the Dominion and Provincial Governments, who remember how English speaking citizens both

here and outside the province have been denounced in them as "fanatics," "bigots," "orangistes," foes of the French religion and race, who recall the campaign against Mr. T. C. Casgrain when he last contested a constituency here, will do well to contrast those utterances of the government press with the following part of Mr. Bourassa's speech in the Monument National on Monday last. "He had been taxed with race appeals. He did appeal to his race to be worthy of themselves and their traditions. In this great land there was room for all. Let the people of his race rise and give themselves the government worthy of their best traditions and work hand in hand with the people of other races, doing their full share towards the development of the country, and striving to place their province in the lead." This is no stirring up of hatred and distrust between the two races; it is on the contrary, an appeal for mutual confidence and co-operation. That it was addressed to his own countrymen is natural, and that his efforts should be to stir them up to a greater appreciation of their prospects and responsibilities, and the pursuit of high national aims is also natural. A man who would not do this, as far as it lay in his power, whether French, English or any other nationality would not be worthy the name of a man.

The alliance, for it cannot be called a fusion, between the Conservatives and the Nationalists has been stigmatized by our opponents as corrupt and immoral. Mr. Bourassa contradicts this; he declares that neither party has made any concession and that he has no claim to make except that the Conservatives should govern wisely and well if returned to power. "In conclusion, he declared that his relations with the Conservative party were such as an honest man need not blush for. He had made it a condition of co-operation that he should not be invited to form part of a Conservative ministry, but had told the Conservative leaders that if they avoided the mistakes of the men in power he would support them, but if they kept up the present system, he would oppose them as well. He did not ask anything, but merely that the Government make efforts to improve conditions."

#### AUTOMOBILING.

In our comment on automobiling yesterday we took occasion to say that there were not infrequent complaints of the practice of over-speeding in this city, and that the occurrence of these implied a certain amount of remissness on the part of the municipal officials. As a result of our remarks we have received a letter from a citizen who suggests that it would be well if the police would pay a little attention to a certain automobile, which, our informant claims, races through the city at top speed and utterly regardless of consequences. This machine is described as large, and of a dark red color, and it does not carry a register number in front and rear as required by law. It is a new comer in this place, and may not have taken out a licence as yet, but, if it has, the number is so small as to be invisible to the naked eye, or is perhaps placed in an obscure position where the public cannot see it, rendering it difficult to trace the owner in the event of an accident, and equally so in the case of a transgression of the speed regulations, which our correspondent leads us to infer this particular car is frequently guilty of.

We are aware that there is considerable difficulty in dealing with this class of offenders, against the lives and limbs of their fellow-citizens. Our police constables are a stalwart body of men, too stalwart indeed to have any chance of overtaking a fast driven automobile, and it would require a considerable amount of training to enable them to spring after and arrest a car proceeding at a rate beyond that allowed by the city and provincial regulations, and it is useless to expect that they would receive any aid from the law abiding citizens, or that some one would boldly rush in front of the infuriated automobile and stop it at the peril of his life. But it is very evident that some steps must be taken to check and suppress the evil before it becomes greater and more permanent. When an instance of over-driving comes under the notice of any one, it is his duty to make complaint, not to the press, but to the proper authorities, affording them all the information that it is in his power to give; and it is the duty of the authorities, not the press, or even the police, to pay prompt and courteous attention to the complaint, and if it be ascertained after due investigation to be well-founded, to exact the fullest penalty possible for the offence, without any regard to the offender. It is not a case in which it is feeling that justice should be tempered by mercy, or by anything else; the lives of peaceable citizens are recklessly endangered, and the more exposed are those who have the greatest claims for sympathy and protection, the little children, the women, and the aged and infirm.

#### A CONFIDENCE GAME.

There is nothing like whistling to keep the spirits up, and just at this moment Premier Gouin is the champion political whistler of the day. A short time ago he was much depressed in mind, together with all his following, calling on all the little Tin Gods of Ottawa, and their chief, Jupiter Laurier to save them from the consequences of their own short-comings, and the Conservative onslaught; now, according to Mr. Gouin, there is not the least cause for alarm; the Quebec district will go solid for the government, so will that of Three Rivers where the prospect of converting a bachelor Cabinet minister from the error of his ways has been found very enticing; in the Montreal district the government will hold its own; and in the Eastern Townships the two Conservative representatives will disappear, thanks to the judicious application by Mr. Weir of the moneys which he successfully wrested from the control of the Council of Public Education. It is a glorious prospect for the government, and if it should be realized, one thing is very certain, and that is that the Caisse Electorale will be rapidly replenished, and become fat and well-favored, that the assets of the Province will be exploited for the benefit of political friends, and the great bulk of the profits on pulp wood will be conducted on the same happy-go lucky plan as before, settlers scattered far and wide and wholly at the mercy of the government, and the more sensible policy, practiced with such success by the Quebec & Lake St. John Colonization Society of gathering them together in groups and parishes will be ignored; that the courts will still continue to be difficult of access, and dear when access is obtained; that the Private Bills Committee will still exist as a by word and a hissing; that when the members of the Legislature have their own private ends to serve, the government cannot control its own following, and Cabinet members will still frequently be found on the same side of the division lists as the Conservative minority left, which according to Mr. Gouin, they will not be. The government has only got to win seven seats to accomplish this, and says Mr. Gouin, it is going to do it. After that all will be rose-colored, and the government will be allowed to fall into pieces through its own corruption undisturbed, like the over-distended corpse of a drowned puppy-dog. Surely it might allow the Opposition one member, if it were only to keep the flees off.

### You Blame the Stomach

But chronic indigestion will disappear when the liver, kidneys and bowels are enlivened to action.

You are skeptical. For you have tried many medicines and still suffer from indigestion with all its annoying symptoms. Take a new line. Leave the stomach alone, for the source of trouble is in the intestines and healthy digestion can be restored by the use of Dr. A. W. Chase's Kidney-Liver Pills. In some ways this treatment is unique. It has a specific and combined action on liver, kidneys and bowels, brings about a thorough cleansing of the filtering and excretory symptoms and thoroughly cures indigestion and constipation. The first dose will convince you that you are being benefited and you will soon know what it is to have a healthful, natural appetite and good digestion. Together with the reliability of his Receipt Book, the extraordinary success of this medicine has made Dr. A. W. Chase world famous, his portrait and signature are on the box. Dr. A. W. Chase's Kidney-Liver Pills, one pill a dose, 25 cts. a box, all dealers or Edmondson, Bates & Co., Toronto, Ont.

#### QUEEREST STREET IN THE WORLD

Canton, in China, possesses the queerest street in the world in spite of the fact that in nearly all the big towns in this country there are some remarkable streets. The chief thing of interest attaching to this eccentric thoroughfare is the fact that it is roofed in with glazed paper fastened on bamboo and contains more sign-boards to the square foot than any other street in any other country. The next interesting fact about this Canton byway is that, though a business street, it contains no other shops but those of apothecaries and dentists' parlors, no professional men but doctors. It is a sick man's paradise and a physician's Klondike. They call it Physic street, which is descriptive if not picturesque.

#### MARRIED LIFE.

Young married people are surprised when they discover that the honeymoon is not entirely composed of honey. Even the first year of married life is not always the happiest, though it ought always to be very happy. Living together happily is an art which the most affectionate couple cannot ordinarily learn in a year. Each has to make some unpleasant discoveries and to overcome some fixed inclinations. True happiness begins when these discoveries have been made, and each is thoroughly resolved to make the other as happy as possible for all time.

#### CRUSHED.

Lord Roberts was on one occasion introduced to a London stockbroker (who was about six feet in height) at one of his clubs. The stockbroker, shading his eyes with his hand, said: "Ah, Lord Roberts, I have heard a great deal of you, but I see very little." "Oh," replied Lord Roberts, "I see a great deal of you, but I never heard anything about you."

## This is the Way to Keep Well without Cascarets

Live outdoors, and let your work be exercise. Else walk ten miles a day. Eat little meat, no white bread, no rich pastries. Eat many green vegetables, plenty of fruit, and bread made of whole wheat. Do that, and you'll have little need of a laxative while you keep young. But when you grow old, and the bowels become less active, you will need this help anyway.

Cascarets are for those who live indoors, who eat rich foods, who eat and drink too much. This vegetable laxative does for them exactly what proper living would do. It causes no irritation, as pill cathartics, salts and castor oil do. Its action is

just as natural—just as gentle—as the action of laxative foods. So choose your own way. Give Nature the aid of proper food and exercise, else the help of Cascarets. One way serves as well as the other. But some way is essential. For one cannot keep well unless the bowels move freely once every day.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure to get the genuine, with C.C.C. on every tablet. The box is marked like this:

3,000 YOUNG VOICES

Sang in Honor of New Bishop at the Drill Hall Yesterday.

The staid military edifice on Grande Allee was the scene of a most inspiring demonstration of filial devotion yesterday afternoon, when some three thousand five hundred pupils of the Christian Brothers schools of this city assembled in the Drill Hall to greet Mgr. Paul Eug. Roy, Bishop of Eleutheropolis and Auxiliary Bishop of Quebec, and tender him their respects.

The building was crowded, the parents and friends of the students occupying the galleries, while the floor was reserved for the pupils and guests. Mgr. Roy, occupied the seat of honor on the stage, which had been erected for the occasion, and to his right sat Sir Francis Langelier, Mgr. Payquet, Senaon and Mrs. Choquette, and to his left Rev. Brother Genet-Martyr, Lt.-Col. Roy, D.O.C., Hon. Boucher de la Bruere, Mgr. Gagnon, Rev. Father Bouffard, Superior O.M.I., St. Malo, Rev. Father Tetu, Chaplain of Commercial Academy; Rev. Father Girard, Superior Holy Cross; Rev. Father Meyer, Superior-General Missionaries of the Sacred Heart of France. Others on the stand included Mr. O. Frechette, Consul for Spain, Mr. Cyrille Tessier, N.P., Mr. J. E. Belard, K.C., the Rev. Fathers Camille and Albert C. J. Magan, Rev. Fathers Le Roy, Rev. Fathers Ladame, Lavergne, Brunet, Chaplain of Bellevue Convent, and Casault.

The following was the programme: "Benedictus".....Choir, 3,000 Voices. Accompanied by R.C.G.A. Band. Marche des Pretes.....F. Mendelssohn Orchestra, Symphony Society and the Commercial Academy. Les Spartiates—M.....J. Denevre Academy Choral Union Orchestral Accompaniment. Congratulatory Address..... M. Maurice Roy. Selection—Mariana.....Wallace R.C.G.A. Band. Cantata to St. John Bte. de la Salle. Father Albert des Anges. Choral Union Commercial Academy, Orchestral Accompaniment. Presentation..... Messrs. Jos. Lapointe, M. Delage. Overture—Zampa.....Herold R.C.G.A. Band. Reply of Mgr. Roy.....Choir, 3,000 Voices. Accompanied by R.C.G.A. Band. God Save the King.

The two vocal numbers rendered by the choir of 3,000 youthful voices to the accompaniment of the splendid musical organization of the permanent military corps were the gems of the afternoon, and undoubtedly will ring in the ears of those who assisted for a long time to come.

The congratulatory address was beautifully illuminated and enmeshed in a handsome frame. The address was accompanied by a presentation of a purse of gold. Mgr. Roy was visibly affected when he rose to reply. He declared himself overjoyed at the attendance, particularly so, as his motto was—"Ad Vinit regnum tuum" (that the reign of Jesus Christ may flourish.) In his gifted manner he proceeded to elaborate on this noble theme, being listened to with rapt attention by the entire assemblage.

SACRED CONCERT

In St. Andrew's Church—New Tercentennial Song of Organist Popular.

The sacred concert given last evening, under Mr. Reed's direction, proved most successful and was thoroughly enjoyed by the large audience present. The different numbers three were very well rendered by the choir, among them being Mr. Reed's new song for the Tercentennial, which we venture to predict, will speedily become popular. Mrs. Pym, as violinist, played with that fine taste and finish for which she is so well known; while the singing of Mr. T. Reid was effective and the song chosen by him well interpreted.

Miss Ciffin, who at short notice, filled the gap created by the unavoidable absence of Miss Gillespie, delighted everyone by her singing of two noted sacred numbers. Of Mr. Reed's work at the organ it is only necessary to say that it was marked by that good taste and easy mastery of difficulties for which he is widely recognized. As accompanist, Mrs. Reed played the vocal and violin accompaniments with care and sympathy. Considering the enjoyment afforded by last night's concert, we venture to hope that Mr. Reed will follow it up next season with others of a like nature.

The following was the programme of last evening: Organ, Grand Choeur.....W. R. Spence Choir, Te Deum.....M. Dykes Solo (vocal) "O For the Wings of a Dove".....Mendelssohn Miss Ciffin. Solos (violin) a Romanza—Simonetti b Andante.....Tours Mrs. Pym. Solo (vocal) "Jerusalem".....Parker Mr. J. Reed. Organ, a Chanson d'Este.....Lemare b Tocatta.....Dobois b "Our Canadian Commonwealth".....Reed (words by J. M. Harper) Solo (vocal) Ave Maria.....Gomrad Miss Ciffin. Violin Obligato.....Mrs. Pym Organ, a "The Seraph's Strain".....Wolstenholme b Nuptial March.....Guilmant Choir, "No Shadows Yonder".....Gaul Organ, Triumphal March.....Reed

A WORD ABOUT

STERLING SILVER SPOONS AND FORKS

Henry Birks & Sons, Limited, guarantee their Sterling Silver Spoons and Forks (taking weight into consideration) to be lower in price than any other Silver offered for sale in the Canadian Market.

Names of Designs

- Victorian Thread New Queens Bead Louis XV Old English Chantilly Strasbourg New Kings Cambridge Kensington Gadroon Lancaster Poppy Baronial Fiddle Newcastle

Commercial weight Teaspoons (full size) weigh 8 ounces to the dozen. The lightest Teaspoons (full size) made in Birks' Silver, weigh 40 ounces to the dozen. Commercial weight Dessert Spoons and Forks weigh 15 1/2 to 16 ounces to the dozen. The lightest Dessert Spoons and Forks made in Birks' Silver weigh 18 ounces to the dozen. Commercial weight Table Spoons and Forks weigh 20 ounces to the dozen. The lightest Table Spoons and Forks made in Birks' Silver weigh 24 ounces to the dozen.

Weight therefore is an important factor to be taken into consideration when comparing dozen prices. Birks' Silver Spoons and Forks are only made in serviceable weights. The weights instanced above are the lightest at which they can be made and be serviceable. Their heavy weights are proportionately heavier than any Spoons and Forks sold in the regular way. The firm desire to impress upon the public these facts, because of their determination to maintain their high standard of quality, even in the face of so much light weight and unserviceable Silver being offered for sale at the present time. A comparison of prices and weights is always welcomed.

ANNULMENT SUIT

Of Mrs. Thaw Results in Relations Being Strained to the Highest Tension.

New York, May 27.—That the relations between Evelyn Nesbit Thaw and her husband's family are strained to the highest tension was made apparent to-day when she gave out a statement vigorously assailing "The insincere attitude assumed toward her by Mr. Thaw's relatives since the beginning of his trouble." The statement followed an exchange of formal statements between Mrs. Thaw and Franklin Bartlett, counsel for Harry K. Thaw's mother, which were given out after the discontinuance yesterday of the proceedings which young Mrs. Thaw had begun for an annulment of her marriage. She declared at that time that she had practically been forced to begin the action by pressure exerted by her husband's relatives, and that she withdrew her suit because she believed her husband, in his present predicament, merited her loyalty. A little later Mr. Bartlett, acting for Mrs. Wm. Thaw, gave out a statement in which he denied emphatically that either he or any of Thaw's relatives had anything whatever to do with the institution of the annulment suit. He said Mrs. Wm. Thaw desired that Evelyn Thaw be treated not only fairly but generously and that at the present time she is given an allowance of one thousand dollars a month. In her reply to that statement, young Mrs. Thaw reiterates that the annulment suit was begun at the behest, persuasion and solicitation of Colonel Bartlett and Mr. A. Russell Peabody, representing the Thaw family, and declares that she has written proof to back up her statement. She declares that "counsel who are harassing her have at the least provocation sought to air their views through the newspapers," and adds: "This may be one of the many methods to influence her husband to their desire."

ADRIFF TWO DAYS

Remarkable Adventure of Five People on the High Seas.

Avalon, Island of Santa Catalina, Cal., May 27th.—Captain A. Crist, of the launch Zeus, of Avalon, and C. E. Rooline, ordinary seaman on the United States converted cruiser Buffalo, were drowned, and E. E. Easton and wife and two small children and a colored nurse were rescued by the Buffalo on the high seas last night after drifting helplessly for two days in a launch. Easton is a former war correspondent of Harper's Weekly, an author of considerable reputation, and was formerly secretary to Webster Davis, assistant secretary of the interior under President McKinley. Easton and his family were brought to Avalon to-day by the Buffalo. They had a frightful experience being two days without food, and all were in a state of nervous collapse when landed from the cruiser. After landing the Easton party here the Buffalo returned to the scene of the drownings and is engaged about, hoping to pick up Captain Crist and the body of the drowned sailor. Easton came to Avalon from Los Angeles with his family several days ago. On May 17th they engaged Captain Crist and his launch for a camping trip of several days at San Clemente Island, 30 miles south of Santa Catalina Island. Sunday on their return to Avalon, the craft encountered a heavy sea and when day dawned Monday Easton found that Captain Crist was missing from the launch together with the small row boat towed at the stern. How Crist disappeared is a mystery. The gasoline engine of the launch was still running, but Easton knew nothing of its mechanism. A heavy fog obscured the island shore and all bearings were lost. A heavy storm came up, tossed the craft about and threatened to swamp it every moment. The engine kept going until the gasoline was exhausted. By Tuesday Easton and his family had been carried far out to sea. Tuesday evening the cruiser Buffalo, Capt. Pond, sighted the little craft with the occupants wildly waving signals of distress. While rescuing the party, Rooline was thrown from the deck of the cruiser and drowned.

PICTURES AT BENNETT'S.

Last night a new series of views were shown which were as bright and clear as a crystal. The machine is under the personal supervision of Mgr. Aloz, who is an expert in this line of work. The subjects that are now being shown are very interesting as well as amusing. The "Ship-owner's Daughter" is a drama in itself and depicts a story which is complete in every detail. The daughter of the rich and haughty ship-owner falls in love with a poor sailor and pledges her heart and hand. Her father has already selected her future husband, and vows that she will marry him. The girl refuses the offer, and the father swears vengeance against the girl's sweetheart. As he is preparing for sea, the father gains admittance to the vessel in which he is about to embark, and saves the mainmast partly through, so that should a heavy wind arise, it would easily break and render the vessel practically helpless at the mercy of the cruel sea. The vessel is wrecked and all are given up for lost, when a bottle is picked up upon the beach, with a note inside telling the finder that all were safe on a huge rock. The finder notified the friends of the unfortunate ones, and they are rescued and everything ends happily, and the poor sailor marries the girl he loves. The remainder of the films are of the comedy order, and are very funny. Mrs. Aloz is singing "Yesterday," a beautiful sentimental ballad, which gives her ample opportunity of displaying her excellent well-trained voice. X RAY APPARATUS PLEADED GUILTY

Presented to Jeffery Hale's Hospital by Mr. F. W. Ross.

Through the generosity of Mr. F. W. Ross, Jeffery Hale's Hospital has at last been placed in a position to take rank with the great hospitals in the Dominion in so far as electrical and X ray work is concerned. Mr. Ross, who has always taken a deep interest in this particular branch of the science, has just presented the hospital with an X ray apparatus, which has been installed and is now in operation. It is one of the most modern and most complete of its kind, that it was possible to procure, and Mr. Ross has spared no expense to place the electrical department of the hospital in a position to cope with every demand which may be made upon it in those days of modern treatment for the ills to which flesh is heir.

Under the guidance of Dr. James Stevenson, whose devotion to this branch of the hospital's manifold work has been very keen, a Chronicle representative had the privilege yesterday of viewing and appreciating to the full the value of the equipment of its electrical department, and this section is now in no way behind in the modern conditions which mark all the rest of the hospital's branches of work. Dr. Stevenson spoke most enthusiastically of the facilities which afforded for the promotion of the beneficent work of the hospital. He gave a number of instances in which its benefits has already been felt. One in particular is worthy of note. A victim of a revolver accident, brought in to the hospital a day or two ago, with a bullet in his head, was placed under the X rays and a photograph taken and developed within twenty minutes, the position of the bullet located, and the operation for its extraction was successfully performed the same afternoon.

It is safe to say that in no hospital in the country is this particular department of work better equipped or so ready to attend to any case which may claim its care nor can better results be attained than at Jeffery Hale's, and it should be a matter for pride among residents of the ancient capital that they have so well-equipped an institution in their midst and one which so well deserves their most hearty support.

THEATRE POPULAIRE.

There was an interesting event at the Theatre Populaire, when Mr. Ls. Guyon, the author of the patriotic drama "Denis le Patriote," now running there, was present to witness the production of his piece. The occasion was taken advantage of to present Mr. Guyon, on behalf of the management, with a handsome bouquet of flowers. The latter, in acknowledging the compliment, felicitated both management and company on the successful result of the play which was produced. A large and well-pleased audience was in attendance.

DEATH OF MRS. TALBOT.

The many friends of Mr. Arthur Talbot, of the Provincial Secretary's Department, will regret to learn of the death of his wife which occurred at his residence last evening after a lingering illness. The deceased was well and favorably known in this city where she had a large circle of friends, who will regret to hear of her demise. Mrs. Talbot was the sister of the late Hon. Mr. Decheue, and of the late Senator Decheue, and sister-in-law of Lieut. Colonel Talbot, M.P., and of Major A. Talbot, Deputy Clerk of the Crown and Peace of this District. Her funeral will take place on Saturday morning next.

River du Loup Man Sent Blackmailing Letters to Residents.

A man named Cyrian Dionne, a former merchant of Riviere-du-Loup (on base), pleaded guilty in the District Magistrate's Court there on Tuesday to a charge of having sent blackmailing letters to prominent residents of the town.

He was sentenced by Judge Panel Angers to three months' gaol. The prisoner was ordered to be brought to Quebec to serve his sentence in the district gaol here.

DROWNED IN WELL

Little Boy Mee's Sad Fate at the Island of Orleans.

Dr. Bedard, Deputy Coroner, held an inquest yesterday at St. Laurent, Island of Orleans, on the body of a five year old boy, son of Francis Cote, who was drowned by falling into a well the previous day.

The little fellow was playing with his sister near the well, when he suddenly tripped and fell in. The girl at once summoned assistance, but when the boy was taken out he was dead.

A verdict of accidental drowning was returned by the coroner's jury.

AMBULANCE HORSE Fell While Descending Palace Hill Yesterday Afternoon

The driver of the city ambulance had an exciting experience on Palace Hill yesterday afternoon, and a man with a broken leg, who was being transported from the Hotel Dieu to his home, had a narrow escape from further injury. The ambulance was being driven slowly down the hill between 5 and 6 o'clock, and had just reached the intersection with St. Valier street, when the horse suddenly stumbled and fell over on the three or four steps which connect the two levels of the street at that point. Fortunately the horse in its fall snatched the shaft, but did not overturn the ambulance. A considerable amount of difficulty was experienced in getting the horse out of its peculiar position, but this was finally done. The other injured man was then sent for, and the ambulance man, whose name is Bourassa and who had his leg broken the previous evening while unloading coal at the Basin, was transferred to it and taken to his home.

ROCHETTE IS CONFIDENT.

It is stated that Omer Rochette, now under sentence of death at the gaol for the murder of his wife, is supremely confident of the representations recently made to the Minister of Justice by his counsel, Messrs. J. N. Green-shields and M. A. Lemieux, for a commutation of his sentence. He eats and sleeps well and exhibits no apparent inquietude at his position. The prisoner receives visits from Mgr. Gauvreau, his spiritual adviser, and from his wife.

FOR FRIDAY MORNING.

From 8 to 11 o'clock we will sell 300 yards of tapestry, worth 45 cents for 33 cents only. Don't forget this.

MARCEAU & CIE., 135 St. Joseph Street.

AT THE NICKEL.

Last night's performance at the Nickel, in spite of the bad weather, was a grand success. The bill which was the second change this week was fully as good as that of the first two days of the week. The audience was a large one, and were highly pleased with the performance. The pictures were as follows:—

Romance of the Fur Trade.

This story deals with the fur trade of the far north, in which a trader who has just received a sum of money for pelts is followed by a treacherous half-breed, who later robs his home, after knocking the trader's wife senseless. He is followed by an Indian who is friendly with the trader and is killed.

Rival Cyclists.

A laughing comedy, is exceptionally strong, and is a case of he who laughs last, laughs longest. Jugglers Juggle, another comedy, and one hard to beat. The juggler who is an amateur, tries everything handy, and succeeds in breaking a number of articles, and doing considerable damage, besides undergoing severe punishment himself.

The Singing was also very fine, two songs being rendered at each performance.

This bill will be repeated to-day, with possibly an addition.

THE REV. EGERTON RYERSON.

Rev. Mr. Ryerson, the Canadian Missionary in Japan, returned to Quebec yesterday, and sails for England by the Empress of Ireland on Friday. The members of St. Matthew's Board of the Women's Auxiliary, are invited to meet him at St. Matthew's Rectory this afternoon at 4 o'clock.

LOST HIS MONEY.

A man employed on Transcontinental construction work and who came to town on a short vacation is reported to have had his pocketbook, which contained some \$63, stolen during Tuesday night. It appears that he met some friends and they had several drinks together. A row started among them near the corner of St. Dominique and St. Valier streets, and his friends cleared off, not without, however, taking with them the Transcontinental man's purse.

WORKING DOTS.

Just at present satin and eyelid stitch are used most to embroider dots. To become proficient in working these perfectly round a great many must be worked. They may be done in a frame or they may be done equally well in the hand.

THE TENTED CITY

Work will Likely be Started on Project Within a Few Days.

Quebec's tented city, for the accommodation of the multitude of visitors who will flock here for the Tercentenary celebration now seems to be an assured fact, and it is quite likely that a start toward its realization will be made within a very few days.

A meeting of the shareholders was held at the chambers of the Board of Trade yesterday morning, Major Bethington presiding and Mr. J. Levasseur acting as secretary pro tem. Those present included Messrs. W. H. Wiggs, J. Savard, J. M. Tardivel, Jos. Cote, Senator Choquette, Wm. Price, Honore Blouin, Jules Hone, jr., M. Gauvin, J. L. Lavery, W. A. Macpherson, G. A. Vandry, L. A. Cannon, J. H. Botterell, J. F. Burstell, Wm. A. Marsh, V. Chateauvert, Nap. Kirouac, Wm. Shaw, John H. Holt, H. Smith, J. P. Garneau, E. E. B. Raty, Wm. M. Dobell, V. E. Bourvaire.

Mr. W. H. Wiggs, on behalf of the three delegates who went to Montreal to interview the heads of the big transportation companies, reported that the C. P. R. had subscribed \$4,000 towards the stock of the company. They had been unable to see the managers of the G. T. R. and the R. & O. Navigation Co., but had reason to believe that they would be equally as liberal as the C. P. R.

Mr. J. Hone reported that the disposition had waited on Mayor Garneau that morning, and had been assured by His Worship that the city would install the drainage and water service on the grounds of the tented city without cost to the promoters, which will mean a saving to the enterprise of some \$3,000.

The directors were instructed to continue the work of getting in subscriptions and to interview the other transportation companies, the Q. C. R., Q. & L. Ferry Co., Q. R. L. & P. Co., and Canadian Northern, and the electric light companies.

Upon motion of Mr. Wm. M. Dobell, seconded by Mr. John H. Holt, it was decided that so soon as the subscriptions reached the necessary \$50,000, the amount specified by the National Commission in order to receive its grant of \$15,000, the Board of Directors be authorized to at once proceed to the work of putting the project into active operation. As the necessary amount has now been almost fully subscribed, it looks as if work would be begun with but little further delay.

FELL FROM A LADDER.

A workman engaged on a building on Palace Hill fell from a ladder yesterday morning, but escaped with a bad shaking up. He was taken to his home.

DISAPPOINTED IN LOVE.

One of the French papers announces that a young woman of Levis, who had been disappointed in love, attempted to throw herself into the river on Tuesday afternoon, but was prevented from doing so by a passer-by.

TERCENTENARY SONG.

"Meet me in dear old Quebec" is a Tercentenary waltz song to be sung by Mr. Rhume for the first time at the Auditorium. The song is the joint production of two young Quebecers, Messrs. C. R. Beatin and George S. Quart, and should prove a first class advertisement for the coming celebration should the committee see fit to put it in circulation outside the city.

FOR TO-MORROW (FRIDAY).

Fresh Gaspé Salmon. "Brook Trout." "Roe Shad." "Mackerel." "Halibut." "Finnan Haddies." "Boiled Lobsters." "Smoked Herrings." "Caracatque Oyster." At H. DEROME, Finlay Market.

FISHING TACKLE TIME.

We wish to draw the attention of all disciples of Isaac Walton to the advertisement of J. J. Shaw & Co., which appears elsewhere. This well-known firm carries in stock a large and fine assortment of fishing rods and tackle of every description besides all other piscatorial requisites. They also supply tents, canoes and camp outfits. In fact you just require to give your order, and on arriving at your pleasure ground you will find everything complete and ready for you to ply the rod.

A Good Complexion

It's a joy to every woman's heart, and a man is vain enough not to despise it. Beautiful complexion means pure blood, or in other words a healthy body. Tens of thousands of women take Ferrozone because it's a splendid blood builder, keeps the system in perfect order and helps the complexion wonderfully. "I consider Ferrozone the best remedy to give you a clear, ruddy complexion I know of," writes Miss Ada E. Brandon, of Pembroke. "My skin used to be sallow, but after taking a few boxes of Ferrozone a rosy tint was noticeable on my cheeks. I can recommend Ferrozone as a tonic also." For good health and beauty use only Ferrozone. Price 50c. at druggists.

JUNIOR LACROSSE WOODBINE RACES Preliminary Meeting Held Last Evening to Discuss Organization. Results of the Contests Held There Yesterday.

A meeting was held last evening at the Q.A.A. club house to discuss the matter of a reorganization of the Junior Lacrosse League for the present season. Representatives from four clubs were in attendance, and an informal interchange of views on the subject was indulged in. The clubs represented were the Crystals (Sillery) National II, Maple Leaf and Frontenac. The re-organization of a junior league was favorably considered, but a number of questions in regard to the rules which should govern it produced much diverse opinion. One proposal was to limit the age of players who should figure on the teams taking part in the series and this aroused a good deal of opposition. The proposition was that no player over the age of 22 years should be allowed to participate and this was discussed for some time without any definite conclusion being reached. The question of grounds was also talked of, and it was finally decided to adjourn the meeting until Monday evening next, when it is hoped that officers will be elected and a permanent organization effected. It is also expected that some other clubs may in the meantime make application for membership.

VICE OF GAMBLING

Toronto Preacher Declares it Most Rampant Failing of Canadian People.

Rev. Canon Cody on Sunday last preached in St. Paul's Church, Toronto, on the evils of the present day. Gambling, he described as the twin brother of drunkenness, and was perhaps the most rampant vice of the Canadian people. Gambling and betting had long ceased to be the pastime of the wealthy few, and was now spontaneous and organized throughout all classes. The bookmakers, in small armies, went hither and thither, and the wage-earners were induced to part with money they could ill afford, and the whole tendency was demoralizing. In England it was computed that as much as \$25,000,000 was filtered away by the wage-earners on the racecourses. Lord Beaconsfield had found betting the most demoralizing of all the vices. The late Sir Henry Campbell-Bannerman thought it as a great a curse as drink, and throughout the State of New York Governor Hughes was making the fight of his life against all forms of betting and gambling, that was debauching the whole people. A law officer in Toronto had stated that gambling was responsible for 50 per cent of all the crime. Gambling at the race tracks was condoned by the civil authority and indulged in by "society" and the leaders of the people. In the commercial world the craze for "get rich quick" was responsible for all manner of illegitimate schemes to take the money from men who could not afford to lose a dollar. The whole principle in the lives of many people of the present day was to obtain something for nothing. In the eternal law of average and compensation, in the law of cause and effect, there was an eternal balancing that evaded everything, paying nothing for it, he secures it at the expense of others, who are robbed. The spirit of friendship and hospitality was destroyed by the host who took money from his friends in the quiet game of bridge. Gambling, said the preacher, was fatal to every good intention, destructive to every manly virtue, and ruined the disposition. It fostered avarice and cowardice, and robbed the home of love. It brought about dishonesty in many forms, the more common of which were frauds, forgeries, embezzlements, and finally the destruction of life itself. With life robbed of all that was noble, good and pure, men sought the grave as a relief from the tortures, as the result of gambling.

\$50,000 IN PURSES

Will be Awarded at Belmont Park on Decoration Day.

New York, May 27—From \$10,000 to \$50,000 will be awarded horse-owners in purses and stakes Saturday afternoon at Belmont Park, and the greatest racing of the season to date should result from the contests for this fortune. Of the six events to be run that day, four are stake races, one having the enormous guaranteed value of \$25,000. The latter is the Belmont stakes, which will have its forty-second running.

The rich Belmont stands out as the greatest attraction of the day, with Colin, the Keene champion, as a sure starter. This race is at a mile and three furlongs with thirty-three eligibles—among the best of the three-year-olds in training. The stars of the Belmont, Whitney, Hildreth, as well as Keene, barns are in this race, but it is possible a small field will go to the post, with Colin the odds-on choice.

Next to the Belmont, interest centres in the running of the National Stallion Stakes for two-year-olds. This has an added value of \$5,000, which will make it worth near double that amount. It is at five furlongs, and 52 youngsters are eligible to start. A rather good-sized field is sure to start, with the Madden, Keene and Whitney stars standing out choices over the less fashionable horses. Fred Forsythe has two good youngsters eligible, and they will divide attention with any which go to the post.

The Grand National Steeplechase, at two and a half miles, will bring out the best of the jumping division. It has \$5,000 added, and 32 horses stand nominated for the big race. The Van Cortlandt, at seven furlongs, with \$2,000 added, stands out, in the limelight, as some of the really good horses ineligible for the Belmont are entered in it. Hessian is one of this number, and he is expected to surely start. The other two events on the card will be worth more than \$1,000 each, the first being a highweight handicap at six furlongs, and the last a seven-furlong selling affair for high-class platers.

OLYMPIC LACROSSE TEAM. Toronto, May 27—Mr. Foran, who is a member of the Olympic Committee, was in Toronto yesterday viewing the Olympic trials. Those who are already chosen from the east for the Olympic team are Hoobin and Brennan, of the Shamrocks; Hamilton and McKerrow, of Montreux; and W. Broderick, of Cornwall. All these men are amateurs, and have taken the necessary declarations as to their standing. One man will be picked from Ottawa. He will have to come from the juniors as all the N.L.U. men have taken nonny.

Asked as to who would most likely be chosen from the west, Mr. Foran replied that the names had not been definitely settled. "We need a goal-keeper," said Mr. Foran, "and this man Bruce Mitchell will have a good chance." Marra, of the Young Toronto, and Lalley, of Yarmouth, were also mentioned, and providing Mr. Frank Nelson is agreeable will most likely represent this part of the country. Three men will also come from the west.

Mr. Foran also said that Coley, who did not qualify yesterday, and Longboat, if he does not get in shape for the 25-mile Marathon trial June 6th, may go over to the British Olympiad and compete, but their own clubs, in that event, must pay their expenses. Any person may compete at the Olympic games, no matter what his class is, provided his standing is good, and his expenses are not borne by the Olympic committees.

EMPRESS VS. R.C.R. A match between the Empress crew and the R.C.R. will take place on the Q.A.A. this afternoon at 3.30. The following is the line-up for both teams:

Empress of Ireland—J. Widdick, C. Mullin, W. Thompson, W. Chislett, S. Burns, P. McGoldrick, J. Hayes, C. Burns, Ironsides, O. Brady, Welsh. R.C.R.—Massey, Thompson, Sarazin, Carr, Mills, Lexmond, Wyndham, Robinson, Kingwell, Mills, Massey.

JOHNSON CLAIMS TITLE. Of Heavyweight Championship, on Burns' Refusal to Keep Agreement. The following from the New York Telegraph says:

On behalf of Jack Johnson, the negro prizefighter, Sam Fitzpatrick, has written a letter to the Sportsman claiming the heavyweight championship of the world for Johnson. This action, he explains in his letter, is made necessary by the latest attempt of Burns to dodge a fight after having practically agreed to meet Johnson at Goldfield, Nev., on Memorial Day.

In order to induce Burns to enter the ring, Fitzpatrick offers to wager \$15,000 to Burns' \$12,500. He also says that he is willing that the winner take all of the \$12,500 stake offered for the match by the National Sporting Club.

ENGLISH PLAYERS WIN.

London, May 27—In a four-hand lawn tennis match at Queen's Club this afternoon Eustace Miles and V. H. Pennell, the English players, vanquished Jay Gould and C. E. Sands, of New York, by the score of 3 sets to 2.

ORIGIN OF MARATHON RACE.

The Marathon race is most probably the oldest sporting event in the world. It is said to have had its origin when Miltiades, the Greek general, won his victory over the Persians at Marathon. On that occasion a herald ran the whole twenty-six miles to Athens to give the news to his fellow countrymen. No one knows the name of the athletic herald; but his performance has been commemorated in song and story by hundreds of poets, and will live forever.

LACROSSE IN HONOLULU.

The Pacific Commercial Advertiser, of Honolulu, Hawaii, says:—O. Switzer, a passenger to the colonies by the ss. Marama, was much interested in the sports of Honolulu and, stated before leaving that he would return in September and inaugurate the game of lacrosse, which he thinks would make a great hit here.

Switzer, who is a Jew, has done almost everything in the athletic line. He is as clever a boxer as Abe Attell and holds the weight-lifting championship of Sydney at his weight.

Switzer thinks that the game of lacrosse would catch on with the natives and that in time a team could be sent out from here which would have a chance of winning the world's championship.

The colonial sportsman is a very wealthy man and when he returns he will defray all the expenses incidental to getting the game on a footing locally, out of his own pocket.

NOT PROFESSIONAL PLAYERS.

To the Sporting Editor of Chronicle:— Sir,—There has been a current rumor amongst Association footballers in Quebec that Grs. Woods, Reve and Fry are ex-professional players from England, and that on them the honor of winning the Quebec Cup and league depends, but they themselves wish to deny this. Neither of the three soldiers ever played on a professional team in England, in fact, they only started football three years ago in an amateur team in Bootle, while Woods played for Wigan for a short time, and also captained the Seaford and Bootle XI. in the Liverpool Cup. So they hope that you will deny this rumor through your paper, as these rumors cause those little tiffs between the soldiers and the civilian clubs.

Thanking you for many other favors, I remain, Yours, etc., Adam's Own. Quebec, May 27, 1908.

### STRANGE PLAYERS.

Many players still recall Signor Donato, a one-legged dancer, who appeared in the dress of a Spanish bull-fighter and danced with surprising agility. Foote furnishes perhaps the best-known instance of a one-legged player. He lost his leg by an accident and wrote his comedy of The Lane Lover to introduce his false leg to the public, and as Sir Luke Limp, in a of Rabelaisian pleasantry, dwell upon the advantages which attended the sacrifice. "A leg, a redundancy, a mere nothing at all! Man is from nature an extravagant creature. In my opinion we might all be full as well as we are with but half the things we have." George Vandenhoff mentions his dismay on finding in his legs a man with a sleeve containing a simulated arm. In Anthony Paquin's Life of Edwin mention is made of an actor with a paralyzed arm and a glass eye who used to play Richard the Third. Mr. Ira Aldridge, the African Rocius, was a black, Buckstone in his later years was quite deaf, and learned from the movement of the lips when his one arrived. Elliston, and many an actor before and since, squinted. On one occasion the hero of the tragedy of Oedipus was impersonated at Drury Lane by a man totally blind; and in a Staffordshire company the heroes of tragedy and the lovers of comedy were all played by an actor similarly afflicted.

### OLD SIDEBOARDS.

A new use for the old Chippendale sideboards that are now considered too small to serve in the capacity for which they were originally intended is to convert them into dressing tables, and most attractive and serviceable dressers do they make, with their rows of small drawers at each side and the large space on top for the innumerable silver and ivory jars, boxes and flasks that are so necessary for nriady's toilet. A glass top can be fitted for this dresser if desired and laid over a cover of fine fllet lace and embroidered linen or else placed directly upon the wood if it is of particularly handsome marking.

### A NEW DAIRY INDUSTRY.

A company has been formed at Picton, Prince Edward Co., to make why butter. Eleven factories in the district have agreed to sell their why to this company.

## GILLETT'S PERFUMED LYE

### CAUTION.

Put a strong glass on the label and examine it closely every time. Always look for the name "Gillett's."

Like all good articles, which are extensively advertised, Gillett's Lye is frequently and very closely imitated. In some instances the imitators have actually copied directions and other printed matter from our label word for word. Be wise, and refuse to purchase imitation articles for they are never satisfactory.

### Insist On Getting Gillett's Lye

and decline to accept anything that looks to be an imitation or that is represented to be "just as good" or "better," or "the same thing." In our experience of over fifty years in business we have never known of an imitation article that has been a success, for imitators are not reliable people. At the best the "just as good" kinds are only trashy imitations, so decline them with thanks every time.

# PROPOSED CENTENARY FESTIVAL TO BE HELD IN WINNIPEG IN THE YEAR 1912

(Reproduced from Manitoba Free Press.)

EREWITH the Free Press presents a couple of articles on a subject which should prove of interest to the whole of Canada, from the pen of that distinguished author, Ernest Thompson-Seton. The first deals with the centenary of the settlement of the northwest and the second with the formation of a Roll of Fame for the Far West. With both schemes, few will be found to disagree and their promulgation should excite a lively exchange of ideas. The father of them, although born in England, came to this country at an early age, that he is to all intents and purposes Canadian. For over twenty years he lived in the backwoods of Canada or the western plains and he has always been a close observer of nature. As will be remembered, he was official naturalist for the government of Manitoba. In 1858 he published the Mammals of Manitoba and a few years later the Birds of Manitoba. While Mr. Thompson-Seton is a prolific writer, he is also well known as an animal painter and illustrator. Probably his best known book is "Wild Animals that I Have Known." He is to-day one of the most sought after lecturers in America, having delivered considerably over a thousand lectures. This is the man who proposed the scheme for holding a year's fair in Winnipeg in commemoration of our centenary. This is what Mr. Thompson-Seton says:

## MR. SETON'S PROPOSALS.

Ninety-six years ago last August, were landed here on the banks of the Red river a little band of Scottish Highlanders, who came by boat from Norway house and York Factory as the advance guard of Lord Selkirk's pioneers.

Many explorers, missionaries, hunters and adventurers had entered the northwest before them, but these were the earliest settlers, the very first white men that came here with their families to establish homes, to possess the land and till the soil.

**Magnitude of Future.**

Gibraltar Point, then is the Plymouth Rock of the northwest, and in four years we shall be in a position to celebrate the centenary of that auspicious event. How great an event that was, the world does not realize. It rests with us to show its importance by blazing forth the facts.

No one who has visited and studied the continent of grain lands that lies to the northwest of Winnipeg can have any doubt as to the magnitude

of its future. No one who has been on the ground and seen the tremendous energy with which its occupation and civilization are being pushed can doubt that our people have risen to the greatness of their opportunity, and no one who has followed its history, but will heartily join in honoring the names and deeds of the heroic pioneers and far-sighted statesmen, who founded this great empire of the gold that grows.

In what form then can we who have seen give greatest publicity to the facts? How can we best demonstrate to the world the wealth and coming power of this white man's last great opportunity and at the same time do justice to those whose heroism or wisdom made possible all that we today are proudest of as colonists.

Ernest and Grace Gallatin Thompson-Seton.

Tradition, feasibility, and results elsewhere, all show an exposition to be the fittest celebration we can have for the centenary of the founding of the colonies. I propose, therefore that:

**Nature of Proposals.**

In 1912 we hold at Winnipeg a world's fair that shall be worthy of this great country and worthy of the men who won it for us.

Expositions elsewhere have commonly been crippled by two great errors:

1. They began too late, allowing a year or at most two, for preparation, whereas three or four are needed.

2. Each has tried to outdo the last in point of size. Each wanted to be "the biggest thing on earth."

Let us be warned, let us begin now to prepare a definite scheme that will

## Ernest Thompson-Seton Suggests Celebrating the Landing of Lord Selkirk's Pioneers on the Banks of the Red.

make this not the biggest show that has been, but the best, the most admirably conceived and harmonious and at the same time, throughout a product of Canadian brains and energy. The central thought and most important building should be, I think:

The hall of fame—a building, small, permanent, fire-proof, of the highest art. It should have four doorways—the cardinal points and representing the original gateways of the northwest, viz. York Factory, on the north; Fort William, on the east; Winnipeg, on the south; Vancouver, on the west. In the hall should be fifty niches with provisions ready to amend. As committee, I suggest the president of each college and all public librarians in the northwest, each with one assistant nominated by himself.

The Hall of Fame should be of a size and plan to answer as a permanent hall of history and archives, the proper home of all historical documents and precious relics of the northwest, as well as an ornamental to Winnipeg. Doubtless it would be placed in the custody of a permanent archivist and should be located not on the Fair Grounds, but at the place best suited for such a permanent establishment. The value of such an undertaking has already been seen. The mere preparation of the list has stirred up a wide interest in the history of the country, and at mention of the name of the hall, many who are possessed of historical documents, have indicated their readiness to present or deposit them in the collection as soon as we shall have provided a fire-proof place, where they will be properly cared for and used. Among the new features of the fair I would propose also to make outdoors a relief map of the northwest. It is a remarkable fact that a map is usually impressive in the west, the men who as pioneers, teachers or statesmen, were pre-eminent in the winning of our west. Under glass below the portrait of each, should appear a map of his travels, and a brief life, setting forth time and place of his birth and death, and the achievements which entitle him to a place in this hall.

**Preliminary Suggestions.**

The preparation of the list will naturally lead to many contentions, but also to much valuable history now hidden away and in danger of being lost. The fullest discussion will be given to each name, then the vote of a large and representative committee will be final. This I present as my preliminary roll, inviting criticism and amendment.

## H. B. Co. Promise Aid.

The Hudson Bay company have already promised to take an active interest to help with all their stores of unique historical documents. They will probably establish a model primitive post in which the goods of current times can be bought by the old method of barter and also run an old style voyageur brigade from the Fair Grounds down to the old fort, whence the return can be made by train. Officials of the great railroads have already promised zealous support and no doubt the governments of the provinces will respond when the matter is brought to their notice.

Besides new ideas, we must adopt many features of world's fairs elsewhere, such as art galleries, displays of manufactures, products of industry and agriculture, keeping in mind always that we do not wish this to be "the biggest show on earth," but the best of the world's fairs—best in the sense of being complete, on time, well conceived, representative, harmonious and tasteful. With which characteristics it is much more likely to be a financial success—leaving us without a deficit, with some new permanent

buildings and with a happy gain in self respect, as well as the respect of other nations.

**THE SECOND ARTICLE.**

In a second article, Mr. Thompson Seton gives a list of the men whom in his opinion did most of the opening and civilizing of the Canadian northwest, by which term he means all of Canada west and north of Lake Superior. The distinguished writer invites criticism of his list.

He states that in the preparation of his list he has been greatly assisted by the Rev. Dr. G. Ryce, by his honor Judge Prud'homme and C. N. Bell. In composing this article he makes the following stipulations:

**The Roll of Fame.**

(a) The list is limited to 50.  
(b) No living man admit ed.  
(c) The order to be chronological with reference to their most important achievements, or their arrival in the country.  
(d) The more important names in capitals.  
(e) Ultimately the date and place of birth and death and grounds for including each will appear.

1. Capt. Henry Hudson—Born in England. Died in Hudson Bay 1611. Discovered (1610) and explored Hudson Bay.  
2. Robt. Hood—(Pierre Esprit de La Roche) born in Paris. Came into Canada on May 24, 1651. Taken prisoner by the Iroquois in 1652. Saved from being burned by an Indian woman who adopted him as her son. In 1651 he set out with his brother-in-law, des Groseilliers. Early in the spring of 1652 they reached James Bay, being the first white men to reach the bay by land. It was on their report that the Hudson's Bay company was organized.  
3. Prince Rupert—Born Prague, 1619; died Nov. 29, 1682. Founder (1670) and first governor of the Hudson's Bay Co. which for 200 years was the sole and sovereign representative of law and order in the northwest and carried out the responsibilities of its great power with humanity and consistency that won the respect alike of the white pioneer and the native.  
4. La Verandrye—(Pierre Gaultier de Verandrye) born in France, 1705. Founder of Three Rivers, P.Q., Nov. 17, 1655. The discoverer of the northwest. He reached Lake Nipigon in 1728 and started for the west Aug. 26, 1731. Built that year Fort St. Pierre at the mouth of Rainy river. In 1732 erected Fort St. Charles, on the north side of northwest Angle Inlet, near Bunkete Island and later Fort La Reine, now Fortage in Prairie. From 1738 to 1743 he explored the Red river, the Assiniboine, Lakes Manitoba, Dauphin, Winnipegosis and the Sas-

## Another Great Pioneer.

12. Sir Alexander Mackenzie—Born at Inverness, Scotland, about 1755; died in Scotland, March 22, 1820. Northwest trader on the Athabasca, 1781 to 1783. Discovered Mackenzie river, 1789, tracing it from source to Arctic ocean. There he first reached the Arctic ocean by the river route. In 1793 he followed the Columbian river west to the Pacific thus being the first man to cross the continent north of Mexico.  
13. Edward Umfreville—Author of a standard work, "The Present State of Hudson's Bay." London, 1790.  
14. Capt. Geo. Vancouver—Born in England, 1758; died in England, 1798. Surveyed the west coast from latitude 30 northwest. Explored and named Vancouver Island, 1792. (It was discovered 1592 by Juan de Fuca.)  
15. J. H. Cadotte, Jr.—Fur trader and explorer of Red river, 1795.  
16. Simon Fraser—Discoverer of the Fraser river (1808) and the first white man to descend it to the Pacific.  
17. Alexander Henry II.—An energetic fur trader and explorer on the Red river and Saskatchewan, 1795 to 1814. He left a copious journal, now among our most prized records. He was drowned at the mouth of the Columbia, May 22, 1814.  
18. David Thompson—The first geo-

## grapher of the Assiniboine, Red river Athabasca and Thompson rivers. He lived and worked in the end of the eighteenth and early part of the nineteenth century.

19. Peter Pond—An energetic fur trader, adventurer and explorer in the Peace River country about 1800.

20. Daniel Wm. Harmon—Born 1771 in United States. A Northwest company officer. Served with distinction on both sides of the Rockies from 1800-1819. Wrote a graphic and interesting journal of his travels, 1820.

21. Alexander Ross—The first historian of the Columbia and Red rivers. Resident of New Caledonia 1812-25, of Red River 1825-56. His history of Manitoba (1854) is a standard.

## Founder of Northwest.

22. Lord Selkirk—Baron of Dair and Shortleugh, born June, 1771. Founder of the Northwest colonies. In 1811 he purchased from the Hudson's Bay company 15,000 square miles of land on the Red River valley to found a settlement. His first party arrived in August, 1812. This was the foundation of the Canadian Northwest. His agent, Miles Macdonell, was appointed by the Hudson's Bay company governor of the colony of Assiniboia. The two rival white companies waged wars against Lord Selkirk. It culminated in 1816 in the battle of "Seven Oaks," when Governor Semple and 20 of his followers were killed by a band of the Northwest company men. Lord Selkirk hurried to the assistance of his settlement, arriving on Red river in 1817. Died in Pau, France.

23. Hubert Grant—Leader of the half-breeds of Red River and although opposed to Selkirk's settlement, he saved it from massacre (1816) on the score of humanity.

24. Bishop Provencher—(Joseph Norbert) Arrived on Red river 1818. Bishop 1822-1853.

25. Father de Smet—(Peter John) Jesuit missionary, born Belgium, Dec. 31, 1801, came to America, 1821. He published several volumes of traveling. Died at St. Louis, May 25, 1875.

26. John McLeod—The explorer of the Peace river.

27. Robert Campbell—The explorer of the Laird and Yukon rivers.

28. Sir John Franklin—Born at Spilsby, York, England, April, 1768; died in the Arctic regions, June 11, 1847. The chief explorer of the north coast and country. Made several expeditions down Mackenzie river, and many explorations in the far north and Arctic regions, 1819 to 1825, discovering the northwest passage, 1846.

29. Sir John Richardson—Born at Dumfries, Scotland, 1787; died in 1845. Accompanied Franklin as surgeon, 1819 and 1825; later led his own expedition (1848) to exploring the Mackenzie river valley. Now known as one of the world's greatest naturalists in the northern localities.

30. Rev. John West—Church of England missionary on Red river, 1820-1823.

31. Sir James Douglas—The founder of British Columbia, and Governor of the West's Land in 1859.

32. Sir George Simpson—Victoria of the West's Land in 1859.

# REMINISCENCES OF THE LATE CONSUL TAYLOR

COLLATED AND NARRATED BY THE LATE WILLIAM COLDWELL

IT IS SAFE to promise that the interest taken for a long time of years by the late Consul Taylor in the opening up and development of this land—his accurate, and to a large extent, personal acquaintance with the resources of the country to his own people, and its prospective and the estimation in which he held in his social and official capacity—will combine to keep his memory green among us. It is pleasant to recall the sayings and doings of such a one—to catch glimpses of him as he moved in our midst, cheerful and unpretentious, with a fund of information on most topics, on which he drew liberally.

The feeling uppermost is that it is well to glean what we can of one whose influence on good was so widespread, and however trivial the citations given here, they have a significance all their own from their identification with him.

With that conviction, the subjoined fragmentary notes of conversations with him prior to 1882, are submitted. Such of his narrations as are here reproduced in more extended form, are published with accuracy, also previous to that date—statements which continue to be amply verified.

It will be observed that, for the most part, the consul appears throughout in a non-official capacity—many of his advanced public services, as our great transcontinental road. The first took place at St. Boniface, September 29, 1877, when the governor-general and the Countess of Dufferin drove silver spikes—some into the eastern and the other into the western rail. Eight years afterwards, on November 7, 1885, the completion of the C. P. R. was marked by Donald A. Smith (now Lord Strathcona) by driving home an iron spike—not gold, as reported, at Cragside, in the Eagle pass, Rocky mountains.

A third scene of spike driving, of which the consul used to speak, occurred at Donnelly City, Manitoba, on

December 3, 1878, when the St. Paul and Pacific railway (now the Great Northern), having built their line to the boundary, and received from the Canadian authorities permission to build towards St. Boniface, pushed on and effected a junction at Roseau river (now Dominion City) with the Pembina branch of the C. P. R. The consul takes up the tale himself here: "The main construction, and the presence of parties of ladies and gentlemen from Winnipeg, St. Boniface, Emerson, West Lynne and Pembina, but at embarrassment, attended by some friction, arose. The Minnesota superintendent of construction, H. H. Wells, in acknowledgment of courtesies and assistance from the collector of customs at Winnipeg, the late Geo. B. Spencer, had invited that gentleman to give the last spike, when the lines should meet, and the invitation had been accepted; but the friends of J. H. Rowan, engineer in charge of the Canadian construction, claimed for him that distinction. At the suggestion of Mr. Rowan or Mr. Spencer it would have been characteristic of either gentleman, both declined the honor in favor of the ladies of the party. But then followed another obstruction. Many ladies, more familiar with a needle than an anvil, declined the sledge-hammer exercise; and those who ventured made the final issue very uncertain by their nervous inexperience.

**Irish Girl to the Rescue.**

"At this juncture, observing a couple in the door of the only house where Dominion City now stands, and asking who they were, I received the reply, 'Oh, that is young Sullivan, whose homestead is here, and the young lady is his sister, who has come to keep house for him.' Of course, it occurred to me to suggest to the young woman to bear a hand. After a brief explanation, Miss Sullivan accepted my invitation and arm, without the slightest hesitation or apology for her household costume, and the crowd readily parted before our advance. The lady assumed the necessary pose, slowly raised with both hands and steadily poised the ponderous sledge-hammer, and by a concerted movement of figure and instrument, drove home the recalcitrant spike with a single blow, followed by the cheers of the crowd, to which was added a cordial invitation to Mr. and Miss Sullivan to be honored guests at a subsequent entertainment. Without taking exception to the outburst of an enthusiastic Hibernian (Och, and it

spoke), I hope to be excused for the opinion of the consul at that time, that the spike of the railway from Minnesota to Manitoba—by proxy."

**The Promised Land.**

One of the themes on which the consul was accustomed to dwell, enthusiastically, the magnificence of our domain in this northland, was urged by him in the press and on the platform, in the United States and Canada, when as yet the country was little known, or lightly spoken of as "No Man's Land," "The Great Lone Land," or some other belittling phrase. Going into details in corroboration of his theory, he pointed out that the area north of the latitude of St. Paul and west of the longitude of Fort Arthur and Port Churchill—25 degrees of latitude and 70 of longitude—was equal to all Europe, except the Mediterranean peninsula and islands. Throughout this extent of country, though the growing season about three days—making the end makes up the difference. He called attention to the fact that every degree northward in the central district of the continent, shortens the growing season about three days—making a difference of about a month between Illinois, in latitude 40, and Manitoba, in 50; but when the summer comes in Manitoba, about the middle of May, all nature, under the prolonged solar heat and the electrical quality of the atmosphere, develops wonderful celerity of movement and the earth yields abundantly. As an illustration, he mentioned that in 1871 he received from the United States commissioner of agriculture a parcel of Fultz wheat, grown in Pennsylvania. It arrived too late for any fall growth, but was sown by the Hon. James McKay, of Deur Lodge, Manitoba, on October 28. Next spring, at the earliest possible moment it sprang up, and pushed forward by the favorable conditions of soil, climate and culture, it fully matured and was harvested on August 20—transformed into a spring wheat in a single season; and, as such, has since been cultured.

Mr. McKay, Hon. A. J. B. Bannatyne, of Winnipeg, obtained a remarkable result, in quantity and quality, from spring wheat sown November 2, 1880, which promptly germinated in spring, and was harvested August 8, 1887. Mr. Robt. McBeath, of Kildonan, is brought in as another witness. In 1871 he commenced to cultivate a large, soft variety of spring wheat from Illinois, known as

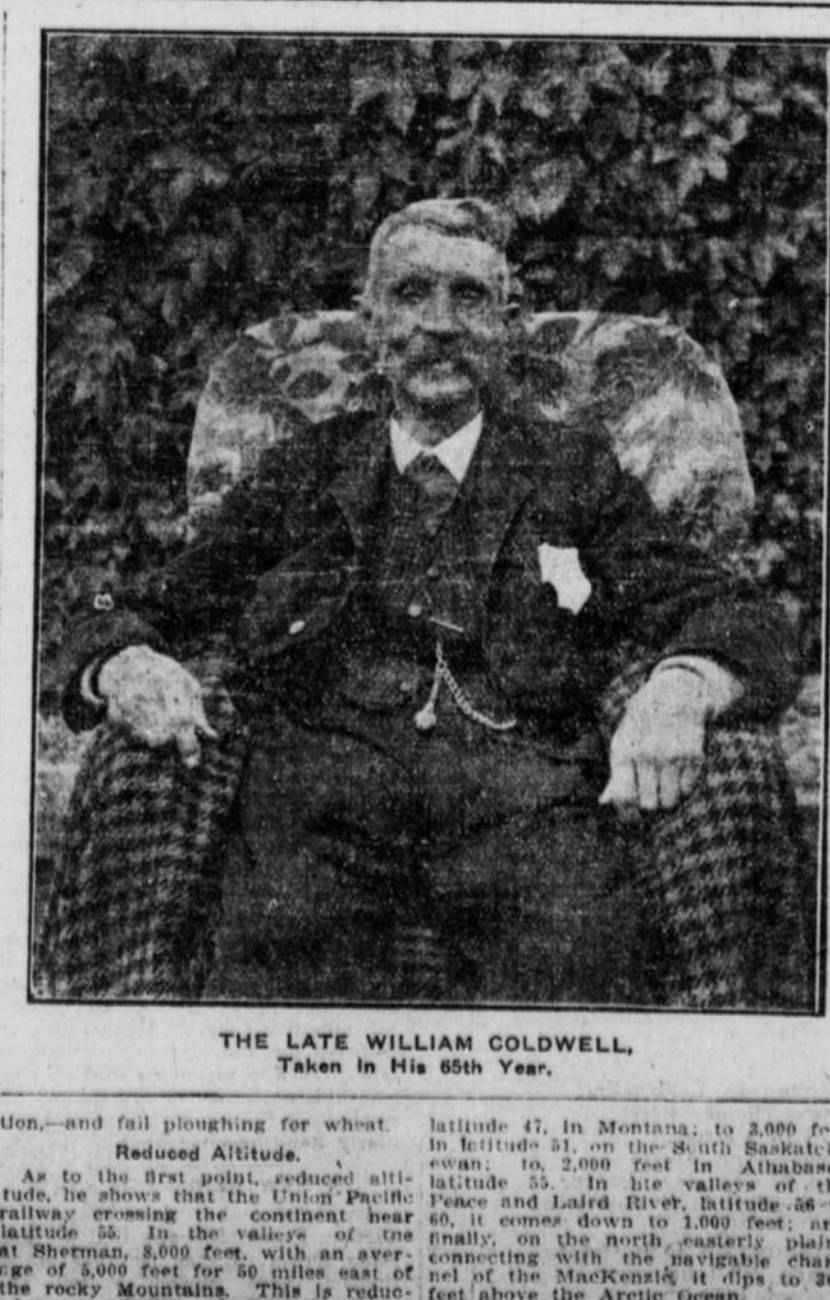

field where wheat had been grown, with only a few intervals of rest or rotation of crops, and without manure for 54 years; and even in the unfavorable season of 1879 produced at the rate of thirty bushels to the acre. The same wheat, grown a thousand miles west, would hardly rate No. 2, but when a sample of the Kildonan product was lately exhibited in Minneapolis, it was pronounced, to the surprise of experts, to be equal to Scotch Pyle, with a weight of 66 pounds to the measured bushel.

**Acclimatization of Plants.**

These illustrations of the physical changes which often ensue from the acclimatization of plants, encourages the expectation, as he believed it, that the sylvia of the Mississippi valley, forest and fruit, may be transferred in an unexpected degree to the Winnipeg basin.

At the instance of the late Lieutenant Governor Sir John Schultz I think it was a committee was appointed at Ottawa to enquire into the resources of the Mackenzie river country. The consul being called upon for information supplied them with the results of a special enquiry instituted by him into the capacity for colonization of the valleys of the Athabasca and Peace rivers between latitudes 54 and 60, and longitudes 110 and 120, and an additional block of territory on the head waters of the Liard river from latitude 57 to 60, and longitude 120 to 125—these streams being the most southern tributaries, and indeed the source of the great Mackenzie of the southern section of the Athabasca, estimated by Prof. Dawson to have an area of 31,550 square miles, he says that "by far the largest part may be classed as fertile." The consul to show the fertility and resources generally of the Peace river country, or northern part of Athabasca, uses the evidence obtained by his special enquiry, and demonstrates that wheat, oats, barley and all the usual root crops ripen in that section of country. Testimony on this point is given from Sir Alex. Mackenzie, Hudson Bay Factors W. McMurray, Robt. Campbell and Richard Hardisty, Sir Jno. Richardson, Bishop Clut, Bishop Bompas, and P. G. Lacombe.

The consul given, very fully, the causes of this remarkable northwestern extension of cereal production, classifying them chiefly under six heads—the reduced altitude of the land—the Pacific winds—summer molasses—

and fall ploughing for wheat. In latitude 47, in Montana, to 2,000 feet in latitude 51, on the 80th Saskatchewan; to 2,000 feet in Athabasca latitude 55. In the valleys of the Peace and Liard River, latitude 56 to 60, it comes down to 1,000 feet; and finally, on the north, nearly plains, connecting with the Pacific, the level of the Mackenzie it dips to 300 feet above the Arctic Ocean.

As to the first point, reduced altitude, he shows that the Union Pacific railway crossing the continent bears latitude 55. In the valley of the Peace at Sherman, 8,000 feet, with an average of 5,000 feet for 50 miles east of the rocky mountains. This is reduced

Prof. Dawson, of the Canadian Geological survey: "In addition to the favorable climatic conditions indicated by the thermometer, the length of the day in the summer in the higher northern latitudes favors the rapid and vigorous growth of vegetation, and takes the place to a certain extent of heat in this respect. This has been supposed to be the cause of the luxuriance of vegetation of some northern regions, but Alphonse de Candolle has put the matter beyond doubt by subjecting it to direct experiment. In latitude 55, which may be taken as representing much of the Peace River country, sunrise occurs on June 20 at three hours, twelve minutes; sunset at eight hours, fifty minutes; while six degrees in the south, in latitude 50, which may be assumed to represent Manitoba, sunrise occurs on the same day at three hours, forty minutes; sunset at eight hours, thirteen minutes; the duration of daylight in the first place being seventeen hours and thirty minutes; in the second, sixteen hours and twenty-four minutes, or one hour and a quarter in excess in the northern locality.

**Fertilizing North.**

It is established as a universal fact, that the cultivated plants yield their greatest products near the northernmost limit at which they will grow." He works out the formula by bringing forward some important facts, which are not as widely known as they ought to be. For instance: to find cotton in perfection, one must go from a southern to a temperate latitude; and flax, hemp, etc. are not at their best in Europe; but in the Baltic they are far north. Rice is tropical, yet Carolina and Florida grow the finest in the world. Indian corn flourishes best near the northern limits of its range. In the West Indies, where it grows thirty feet high, it bears only a few grains on a cob. In N.W. England it is prolific, giving returns, in some instances, of 115 bushels per acre. Wheat is a more certain crop in parts of the northern States and in the Baltic than in the south of either Europe or America. It is only in the northern regions or moist or elevated tracts that oats come to their highest perfection. And so on with rye, barley, buck-wheat, millet and other plants.

In the north alone animals are raised from meadows, kept fat and in good condition without grain, and the richest butter and cheese are made from cattle fed in this way. So it is with roots. They do best in their most northerly homes.

**Correspondence**  
 Quebec, May 27, 1908.  
 To the Editor of the Chronicle:  
 Sir,—If the authorities do not act upon the Honorable John Sharples' timely letter, in your issue of yesterday's date, and take some rigid steps to put a stop to some of the automobile drivers who are impeding the public, by their wild and unreasonable driving, there certainly will be some sore hearts and maimed bodies to bear evidence to the note of warning, given by the above referred gentleman.  
 How any reasonable and good citizen could drive a machine at the rate of speed that some of them are being dashed at through the streets at present, or how any citizen can keep in his employ a chauffeur, who persistently rides rough shod through the streets, and which is simply brutal, is more than I can conceive, and it is high time that some means be taken by the authorities, failing which, then by the public in general, towards ridding the community of men, who for the gratification of their own pleasure and vanity, and who are liable at any moment to cause loss of life and limb, and which cannot be amended afterwards, no matter how willing the proprietor of the machine may be, by any sums of money, or protestations of sorrow or apologies.  
 Mr. Sharples' suggestion of stoning these wild drivers, is not effective enough, the cat-of-nine tails would serve the purpose better, and rid the community of a class that cannot be ranked as citizens, for no good citizen will persistently go on as these individuals are doing, few as they are, and pronounced as some of them are, without sacrificing their rights to the privilege of same.  
 Yours truly,  
 F. H. ANDREWS.

To the Editor of the Chronicle:  
 Sir,—Last night there appeared in one of the city papers a communication from an individual, apparently with more leisure than brains, signing himself "Ajax," (whatever that means) in which a lot of nonsense is indulged in about the coming contest in Quebec West. "Ajax" claims that your correspondent with the "outlandish" name has made a "discovery" when he states that Mr. Breen is honest, straightforward, etc. It is no "discovery" at all. Mr. Breen has always and at present bears a character above reproach, and can defy "Ajax" or anyone else to show a single instance where he has acted crooked. But he has had the audacity to oppose Mr. Kaine! This in the eyes of "Ajax" and others of his ilk constitutes a grave crime. Has he not this right? And is he not just as capable in every respect to fill the office as Mr. Kaine? The assertions which he makes on hearsay and which he would have the public, and especially the electors of Quebec West, accept as a gospel truth, are not likely to carry much weight. His reference to a St. Patrick's Day procession is too ridiculous to be commented upon at any length. It shows, however, that while Mr. Breen was sacrificing his time preparing for the celebration of St. Patrick's Day in a becoming manner, Mr. Kaine was conspicuous by his absence. It is not difficult to see why this imaginary offence is brought to the front. Mr. Breen is too well and favorably known to the residents of Champlain street to allow such an assertion to influence their vote. Besides they are too intelligent to swallow such poorly disguised bait. It is to be regretted that personalities should have been resorted to, but a drawing man will grasp a straw. The fact of the matter is Mr. Kaine and his friends are trembling in their shoes, and not without good cause. And how did "Ajax" come to know that your correspondent was an Irishman? Mr. Breen's friends are not confined to Irishmen alone, but can be found in every race and creed in the community. Let his friends rally around him and show this would-be prophet at the close of the polls on June 8th that the snow drifted the other way.  
 Yours truly,  
 DERRY.

**Have You a Sneezing Cold?**  
 Is your head stuffed up? Are you sniffling—gag in the throat—fullness in the nostrils—eyes watery and weak?  
 You have all the symptoms of Catarrh, the kind that hangs right on till sultry July unless stamped out now.  
 For quick relief and sure cure, inhale the soothing vapor of Catarrh-ozone. It passes over the raw irritated membranes, leaves antiseptic, soothing balsams on the spots that need medication. You feel better in an instant—every breath of Catarrh ozone means cure—in half an hour you're well. Nothing so magical, so safe, so pleasant as Catarrh-ozone. It's good for Catarrh, Bronchitis and Asthma—cures them as thoroughly as it does a simple cold—all dealers sell Catarrh-ozone, 25c., 50c. and \$1.00.

The United States Secretary of War and Mrs. Taft. The ceremony was performed by the Rev. Roland Cotton Smith, rector of St. John's Episcopal Church.
