

SCENE IN COURT.

LIVELY TIME AT THE SHORTIS TRIAL IN BEAUAHARNOIS. MR. SMITH, OF VALLEYFIELD, HAS AN UNPLEASANT TIME.

MADE REMARKS THAT HURT MRS. SHORTIS' FEELINGS. MR. SHORTIS EXCITEDLY CALLS THE JUDGES' ATTENTION. An Exciting Debate Follows the Order for Mr. Smith's Removal—The Defence Concludes.

(Special to the Herald.) Beauharnois, Que., Oct. 18.—Celebrated as has been the Shortis murder trial it will carry with it into history the story of a scene that will be remembered and quoted when the sad facts of the tragedy itself have been forgotten.

Dr. Bucke, of London, was being cross-questioned by Mr. Macmaster, and those most interested in his replies were listening to every word that fell from the lips of the venerable physician. In the left corner of the enclosure reserved for the attorneys, the press, a few witnesses and privileged visitors, and immediately under the jury box, sat Mr. and Mrs. Shortis, one on either side of Monsieur O'Bryan, of Rome, who in the morning had occupied a seat with His Honor. Mrs. Shortis was at the further end, and within a few feet of her sat a number of visitors, among them several from Valleyfield, including Mr. David Frank Smith, the secretary-treasurer of the Cotton Mills.

Running conversation had been kept up by some of the visitors, and it was quite evident that Mrs. Shortis frequently heard words which went like a knife to her heart. Despite her efforts the tears came to her eyes, and she was soon weeping violently. It is to be presumed that no one but she knew the real cause. Suddenly Mr. Smith said: "I will cover anything from one dollar to one hundred thousand dollars that there is not a man on the jury insane enough to bring in any verdict than guilty."

Whether or not Mrs. Shortis heard this remark she alone can tell, but at that moment her head dropped upon the back of the bishop's chair. He turned and spoke to her and she replied in a low tone something which the prelate at once communicated to Mr. Shortis. The latter slowly arose and taking his wife by the hand led her to his seat, he seating himself in her chair, and turning round to the gentlemen he said: "I think a little manners would be a good thing."

"I think it would," replied Mr. Smith, and with a look of scorn sprang to his feet, facing the judge. His face was as white as marble, his lips quivering with excitement and his voice choking with emotion as he almost shouted: "Your Honor, I'd like to call your attention to this man who sits here day after day passing remarks and laughing with his friends. I don't mind for myself, but it's for my poor wife who sits here breaking her heart."

The excitement was simply intense as Judge Mathieu sternly said: "Put that man out." Mr. Shortis: "That's the man, Your Honor, facing round and pointing his finger at Mr. Smith." The latter protested that he was not to blame, when Mr. Greenishields jumped up and said: "Yes, it is he going on day after day, and a Crown witness, too."

With this all the lawyers arose and Shortis and Smith faced each other, the one white and trembling, the other crimson and eager to explain. Mr. Macmaster, hearing the words "Crown witness," at once said: "If Mr. Smith has anything to say, let him have a chance to explain."

"Silence, silence, silence," called the little high constable with all the voice he could command, and then Mr. Smith made himself heard. He said: "I have done nothing ungentlemanly. I leave it to everybody. I protest." Still the order of the judge remained unobeyed, and someone suggested he should go to the other end of the court. "I can go," he declared, "but I can be myself."

Before he could move Mr. Shortis advanced to him, and with clenched fists exclaimed: "You'll have to behave yourself while I'm near you." "Stop," said Mr. Macmaster, as Mr. Smith started for the other side of the enclosed square. "I want to know what he has done."

SOLID FOR GUERN.

SPLENDID MEETING AT POINT ST. CHARLES. Addresses by Dr. Guerin, Hon. James McShane, C. Devlin, M.P., and Others.

There was a very enthusiastic meeting of electors who favor Dr. Guerin's candidature in Lomas Hill, Point St. Charles, last evening. The meeting was held in the hall of the Conservative party, and the meeting showed itself unmistakably opposed to the Tallon Government, and determined that Dr. Guerin should be elected. The speeches were all listened to with great attention, and were punctuated by cheers and applause.

Charles Devlin, M.P., made an eloquent speech. He pointed out the fact that this was a provincial election, and that over protection or free trade, as was being alleged in the course of the Conservative canvass. This latter question they might have a chance to vote their sentiments on, and his single day the division had been without a representative in Ottawa. Great contests had been waged in the past in the division between the Conservatives and the late W. P. Ryan. Since then, Mr. Curran had represented the division, and was now elevated to the bench. When the time came to elect a successor, the Liberals would do so, and he would be at present they had only to consider what was in the interests of the Province of Quebec. Dr. Guerin, who was the popular candidate, had attained distinction in every branch of his profession, and he had not been surprised that he should be called upon as a candidate. (Applause.)

He had nothing to say against Mr. McDonnell, but as a representative of the Conservative party, he should be left at home. It would be noticed all through the contest that Mr. Tallon never came before the electors with a clear defence of his policy. He and his associates to raise false issues by saying the election would revive the extravagance of the Mercier Government. They had nothing to say against the mercantile interests, but had nothing to say against Dr. Guerin, but went back to attack Mr. Mercier, who did not receive the ordinary respect which the most humble dead received. They talked of the purpose of the word of the immense debt which existed when he came into power. In Mr. Angers' time the party wished to impose the present taxes—(A Voice: "An unjust tax.")—but Mr. Joly was in the office eighteen months, was able to conduct the affairs of the province without them. The railway subsidies given by the Mercier Government had been condemned by the Conservative members of the Local House voted for those subsidies. Montreal Centre received no share of the money spent by the province, but was left upon the same footing as to the revenue. The business tax was most unfair and unjust. A poor shopkeeper who hardly cleared \$300 a year had to pay twice as much as the lawyer who carried \$20,000 a year.

Madame Dandurand's comedy, entitled "The Lancers," will be repeated this evening by special request. Among those who carried the banner of the "Article de Paris" booth. The public have more than a treat in store for them at the 26th inst. of the Grand Opera Company promises to give one of the best, if not the best concert, that has been held in this city for a very long time. The prima donna is Mme. Robert, who is a native of this province, with a strong and melodiously flexible soprano voice. Her career with the celebrated Glimour was a whole sea of uninterrupted triumphs. The sympathy of the audience makes her so charming that she is able to sway an audience to laughter or to tears. She has already won the hearts of Paris and New York, where audiences are so difficult to please. She is accompanied by artists of distinct merit and ability. Signor Dante del Papa was for years the leading tenor of the Grand Opera House, Milan. His voice is beautifully trained, and few can sing with such pathos, grace and fluency. The baritone, Mr. Perry Averill, has such magnificent press notices that it would be like painting the city to add to them. Whenever he appears he is met with such a storm of applause that he has been the order of the day. So much so that he lost an engagement because he received more applause than the prima donna of a well-known management. His special feature and his magnificent technique and extraordinary rendition of the most difficult passages have won for him the enclomiums of the press and plaudits from the multitudes. A wonderful rendition of the grand concerto is Mme. Helena von Doenhoff, the contralto of the Metropolitan Opera House, New York. Her wealth of expression and intense dramatic powers at once made her a favorite with the people. The orchestra is strong in soloists. Some of the beautiful costumes to be used in the second part of the programme were designed specially for the occasion.

THE MAYOR'S PLANS. He Will Raise Legal Objections to the Gas Contract. Mayor Villeneuve may attend the meeting of the City Council this evening, that he do not raise the legality of the Gas Contract. His Worship proposes to present to the Council a resolution which would not legally award a contract to the Gas Company in view of a certain circumstance. This circumstance is, His Worship said, the illegality of the contract, the laying on the table without any consideration at all, of the letter received by the City Clerk from the Gas Company accepting the offer made to it by the resolution which was adopted by the Council on July 16.

THE KIRMESS. Archbishop Fabre's Visit—Today's Attractions. Those who wished to leave the kirmess for the kermess, for a more difficult to go out than to come in, a steady stream flowed inward until a late hour, completely blocking the entrance. The large attendance bore testimony to the value of the attractions offered to all classes of old and young people. Yesterday may be said to have been the clergy's day. His Grace Archbishop Fabre's kirmess during the afternoon and in the evening a number of the clergy were present at the dinner. The ladies in charge, however, wish to remind the public that all the kirmess is for the benefit of the poor, and that full value is given for the money charged.

THE NEW JUDGE HONORED Presented with an Address at St. Anne's Bazaar's Last Night. The feature at St. Anne's bazaar last night was the presentation of an address to Mr. Justice Curran, who was accompanied by Mrs. Curran and was a cordial welcome on arriving at the hall. An address was presented to him, speaking in flattering terms of his connection with the true Catholic community, and wishing him many years of health to enjoy his new honors. Judge Curran made an eloquent reply, expressing his pride in his nationality and crediting his friends with the part actors in history. He thanked the people of St. Anne's parish for their kindness towards him, and wished all success to the bazaar.

MARLBOROUGH ARRESTED. The Duke Violated a Park Ordinance in New York. New York, Oct. 18.—The blotter of the MacGown's Pass Tavern, sub-police station, in Central Park, bore this entry to-day: "1:40 p.m.—Arrested by Officer Michael J. Sweeney, Duke of Marlborough, 23 years old, resident of England; no occupation, single, temporary residence, Plaza Hotel. Charged violation of park ordinance. Reprimanded and discharged by Roundman Ryan."

CONSIDERED WARLIKE. Great Britain's Action in the Venezuelan Territory Dispute. London, Oct. 18.—In an article on the Venezuelan dispute the St. James Gazette says Hon. Joseph Chamberlain, Colonial Secretary, has ordered Governor Lees, of British Guiana, to fortify the frontier with a few clerical errors, but nothing more than a young man would make who was commencing business. He left me to go to Valleyfield." To Mr. Greenishields—"His work was to copy the bill, and he was out of the pay roll. In the latter he made some mistakes."

RAILWAY PROMOTER'S DEATH. Niagara Falls, Oct. 18.—William Kyles, of Toronto, a prominent railway promoter, died this evening, after two weeks' illness of a complication of diseases. He was recently arrested on a charge of attempting to bribe Niagara Falls councillors in connection with an electric railway scheme, and during his

AMUSEMENTS

"Si j'etais roi." Adam's opera comique in three acts, which created such a furore last year at the Franco, was repeated last evening and it was evident from the spontaneity of its reception that it will be an equal favorite this season. The score is a veritable poem and throughout is composed of melodies of the most refined and charming character, but although delicate and comprehensible never sinking beneath the standard of perfect art. The libretto is neither too light nor too heavy, but justly balanced and developed with both skill and genius.

It is now some forty years since its (the opera) first appeared, but nevertheless it holds its place in popular favor to the displacement of many a more modern work. It also has had the advantage of a libretto full of incidents, and always implies a rich and varied mise en scene.

The representation was a really admirable one. The orchestra interpreted the beauty of the perfect and fine costumes and settings, which are imported especially from Paris, were rich to luxury. The chorus was very rich but susceptible of improvement. M. Barbe as "Zephoris" was well called and earned great applause. He was a great improvement on last season. He was in good form and he sang and acted with great aplomb. Mde. Monfréux, though somewhat overdone, was following such an artist as Mde. Bouit, did very well. Her voice is not powerful nor particularly pleasant in quality, but she sings with great taste and has a good method, vocalizing well.

THE ROLES OF THE KING, M. VERARD, and "Kaddour" M. Geoffroy, ought certainly have been reserved, for the general monarch was quite right, while the fierce Kaddour had a benevolent and paternal expression, and M. Geoffroy's voice is better suited to the difficult music of the King, than M. Verard's. M. Verard, M. Clery was good as Zelde, and in fact the representation was a very fine one.

MISS RUBENSTEIN'S CONCERT. Miss Rubenstein's concert in the Windsor Hall next Thursday in aid of the Ladies' Hebrew Benevolent Society will be one which no lover of music should miss. All Miss Rubenstein's previous successes have been marked artistic successes, and this one will be no exception. The array of talent engaged is an unusual one, and there is every prospect that all the seats will be filled. The following is the programme: Violin, Bolinello, piano, J. J. Goulet, Mr. Le-Riche, E. Lavigne; romance, "Si j'etais Roi," (Adam), R. Bourdon; song, "Mizpah" (Barry); Miss Starke; violin solo, Adieu and final from the grand concerto (H. Viextemps); J. J. Goulet; song, "Che Gioja" (Tito Mattioli); Miss Rubenstein; song, "Three Wishes" (Pinauti); Chas. Kelly; duet from "Faust" (L. Le-Riche); R. Bourdon; piano duet, overture in D minor (Kallewala); Mrs. D. Le-Riche; violin; "With all Your Heart" (Mendelssohn); Ed. Lebel; song, "The Garden" (Chaminade); Miss Starke; guitar solo, "The Spanish Retreat" (Aguera); Chas. Kelly; song, "Casta Diva" (Norma); (Bellini); Miss Rubenstein; recitation, "The Legend of the Holy Grail" (du Tambour Major) (Offenbach); E. Le-Bel; R. Bourdon; T. Duquette, J. J. Goulet.

ST. JUD'S CHURCH CONCERT. A pleasing concert was given in St. Jude's Church last evening. The evening's programme was a very large audience were in aid of the choir fund. The artists who provided the entertainment need only be mentioned as a type that exists, and yet a type which is gruesome in its reality. Haunting memories, crime, love, sorrow, hopelessness, are the keynotes of Ibsen's plays. They are written from the pessimist's point of view. Great praise is due Miss Julia Stuart for her excellent impersonation of Nora, the heroine of "A Doll's House." She is at her best at the last, when the truth of her character, which has lain latent through much of the play, is asserted with terrible force. It is safe to say that Miss Stuart has never played anything in Buffalo that has given her so wide a scope for her versatile talents."

THATRE ROYAL. "Hoss and Hoss," announced as the best of farce comedies, has been secured by Managers Sparrow and Jacobs as the attraction for next week at the Theatre Royal. It is said that many novelties have been introduced, and that the music is a special feature and all the latest and most popular songs will be rendered. The roaring court room scene and the famous jury are prominent laugh provokers. Manager Bertram has shown good judgment in the selection of players, and has a cast seldom equalled in farcical entertainments, as the following list of names will show: Joseph Conyers, Miss Louise Montrose, A. Hampton, Jessie Carlisle and a dozen others."

JULIA STUART IN "A DOLL'S HOUSE." The attraction at the Academy next week for three nights and a matinee will be Miss Julia Stuart in Ibsen's drama "A Doll's House." Of this reformer, the Buffalo Commercial says: "A thoughtful audience witnessed the first production in this city of Ibsen's most popular play, 'A Doll's House,' which was presented at the Academy of music last evening. Like all of the Norwegian playwright's dramas, 'A Doll's

MR. LAURIER'S TOUR.

The Party Tendered a Stirring Reception at Sydneyham. Sydneyham, Ont., Oct. 18.—The Laurier demonstration to-day was of a stirring character. The train from Kingston bearing Mr. Laurier and party, and a host of city folk, reached here at 11:45 o'clock. The party was met by the Reception Committee of Portland and Loughborough Liberal Club, composed of J. E. Lacey, president; G. W. Laska, 1st vice-president; Dr. Lovell, 2nd vice-president; J. Woodruff, E. R. Rutan and other members.

A procession was formed and marched to the Union Hotel, where dinner was served. Then the procession reformed and marched to Mace's Grove. The main street was decorated with evergreen arches and flags; the stores in similar dress. H. M. Deroche, Q.C., of Napanee, was chairman of the gathering, and an address was presented to Mr. Laurier by the Young Liberals. The audience numbered about 2,000, and the gathering was very enthusiastic. Three bands were on hand from Tweed, Deseronto and Kingston.

Mr. Laurier spoke on many topics, including the school question. Mr. Tarte told why he left the Conservative party, and on the school question declared that Manitoba must not be coerced. Messrs. Bain, M.P., and McMan, M.P., assailed the government from the farmers' standpoint. Sir Richard Cartwright discussed the fiscal policy of the Government. The Liberal leader and party went back to Kingston to-night, and proceeded to Toronto.

Toronto, Ont., Oct. 18.—A change in the arrangements for greeting the Hon. Wilfrid Laurier to-morrow has been made. It has now been decided to present the leader with an address from the Young Liberals, and possibly one from citizens. Mr. Laurier will reply from the Union Station.

Preparations for the torchlight procession to-morrow night show that there will be about 1,500 men in line. The Liberal leader will be the guest of Mr. William Mulock, M.P., over Sunday.

OTTAWA COLLEGE OUT OF IT.

THE SUPERIOR FORBIDS THEM TO PLAY AGAIN THIS SEASON.

UNION EXECUTIVE DISCUSS THE DRAWN MATCH.

MORIN NOT YET OUT OF DANGER—BRITS PLAY OTTAWA CITY TO-DAY—HARLEY DAVIDSON DOES A MILE IN 1:47—ST. JOHN'S SCHOOL GAMES.

HE got scheme of local football... any difficulty which was experienced in the adjustment of the trouble, for there was none, but owing to the fact that the Ottawa team has been ordered by the Superior of the college to give up the game for the season.

THE WITHDRAWAL OF THE COLLEGE TEAM, which easily ranked with Montreal as a "drawing card" will, of course, be a serious blow to the success of the season, and it is not quite clear yet just how matters will really end.

THE EXECUTIVE OF THE QUEBEC RUGBY UNION met last evening in the M.A.A.A. rooms. The delegates were called together at 8:30, and they dispersed a few minutes before 9 in that short time, however, they managed to settle what may be safely termed the all-absorbing question of the week.

THE BRITS AND OTTAWA CITY. The Brits will play Ottawa City this afternoon on the old Shamrock grounds. As the local team are considerably stronger than they were a week ago a good game may be expected.

SMELLIE AND TROY CAN'T COME. Ottawa, Oct. 18.—Smellie and Troy will not be on the Ottawa team to-morrow. They sent word to the secretary of the club to-day that they would not play.

HARVARD AND PRINCETON. Cambridge, Mass., Oct. 18.—The much anticipated football game between Princeton and Harvard will take place at Princeton on November 2.

THE ONTARIO SERIES. Toronto, Oct. 18.—The senior rugby series so far as Toronto is concerned has narrowed down this early in the season to four teams: Osgoode Hall, Varsity, Hamilton, and Queens.

THE WHEEL. WANDERERS BICYCLE CLUB. The destination for to-day's club ride is Chamby. The start will be made from the rooms at 2:30. A large muster is expected.

DAVIDSON DID IT IN 1:47. Toronto, Oct. 18.—Harley Davidson made a flying mile down Jarvis Street about four o'clock this morning, paced by Gibbons and Brown and Gratz and Young on tandems, and succeeded in considerably reducing his former record, made on Bathurst Street, of 1:56 2-5, doing the distance in 1:47. The grade on Jarvis Street is heavier than on Bathurst Street, and the street wider.

NEW HALF-CENTURY RECORD. Freeport, Ill., Oct. 18.—William Brooker, of Chicago, the 18-year-old boy who recently lowered the Elgin-Aurora century record, has been training for several weeks and he started to establish a fifty-mile an-paced track record and covered the distance in 2:29 4-5. The race according to the L. A. W. rules and is the first fifty mile record recognized by the L. A. W. The time has been covered in 2:30.00, but the record was not recognized by the league.

QUARTER RECORD GONE. Hedrick, Iowa, Oct. 18.—Orlando Stev-

ens rode a quarter-mile un-paced, flying start, in 2:13 yesterday, beating his own world's record of 2:14 1-5. He rode one-third of a mile in 3:25, beating the world's record of 3:25.

HOWLING.

"VICS" ANNUAL MEETING. The annual meeting of the Victoria Rifles Shooting Association was held in the armory last night. President Captain Ogilvie in the chair. Lieut.-Col. Starke, the hon. president, was also present and complimented the club on the good showing made by them last year.

FOOTBALL. 2ND SCOTS VS. 2ND MOHAWKS. These two teams will play on Hampden Park in the intermediate series of the E.C.F.A. this afternoon. Kick off at 2:30 p.m. Scots team will be picked from the following: Kennoway, Duffy, Reid, Brown, Woodall, Sage, Rollo, Kyle, Dickie, Donaldson, Noble, McQueston, Atchison, Melville and Doyle, captain.

METROPOLITAN II. VS. M'GILL. These teams will play their scheduled match to-day at 2:30 p.m., on the Exhibition grounds. It may be said that the Mets II. have not lost a game this year, the last time they played McGill they defeated them after a hard game by two goals to one. McGill are placing on a strong team. If they win, their prospects are much better, as it will leave both clubs with 14 points to their credit.

THE RING. GUTHRIE WANTS THE BATTLE. Dallas, Texas, Oct. 18.—George W. Taylor, chief of the Fire Department of Guthrie, Oklahoma, submitted to Secretary Wheeler a proposition that the citizens of Guthrie will deposit \$15,000 cash to guarantee that there will be no interference with the Fitzsimmons-Corbett fight if held there. They propose to move the amphitheatre from Dallas free of charge, and erect it at the site at Guthrie without expense to the Florida Athletic Club.

ATHLETICS. ST. JOHN'S SCHOOL GAMES. THE eleventh annual sports of the St. John the Evangelist's school were held on the M. A. A. grounds yesterday afternoon.

AL. HART PRESENTED WITH A GOLD-HEADED CASE. There was a pleasing little incident on the stage of the Queen's last evening at the conclusion of the performance of "Wang." The genial Regent of Siam, who is known of the stage as Al. Hart, is not forgotten by his former friends in Montreal, but still it was little surprise to him to be presented with a gold-headed cane and a pin as a souvenir of his visit to Montreal. The gift was made by the local branch of the Theatrical Mechanics' Association, of which Mr. Hart is a member. MONTREAL, OCTOBER 19.

THE CURRAN SENSATION.

Those who liked fun, and those who liked fury, both could be suited about town yesterday. It was all over the appointment of Mr. Curran. Thursday the petitioners, for none other than an English Protestant judge, had it. All was serene with them and their friends; and why not? They were clerical dignitaries, merchant princes, great bankers, and eminent counsel. Had they not just sent representations to the Government? Did they not know what was best, and had they not asked for it? All was of course serene. The truth is they had the right to look for attention; and they got it without delay. By return mail, if not in less time, they had their answer. That answer made all the difference between the fury of yesterday and the fun of the day before. Yesterday a non-confidence motion against Sir Mackenzie's Government could have been carried by a large majority wherever the average Montrealese most did congregate.

Our neighbour the Gazette appears to have been the victim of a peculiar coincidence yesterday morning. From laudatory references to Mr. Curran it was led away to reflections "regarding judgeships." But perhaps after all it was the new judge who was the victim of the coincidence. In one column the Gazette announces Mr. Curran's elevation to the Bench. There is a prefunctory sense exuding from the tones of the announcement as though it were done with one eye on the patronage dispenser at Ottawa, and the other careful of the effect upon its good friends to the southward of St. James Street. In the adjoining column its lucubrations are to the effect that more than one English member of the Montreal Bar had declined the Bench, that the leading Ontario barristers will not leave their practice for the judgeships, and that "the fact would appear to be that the Bench has ceased to be an object of ambition to the successful barrister" although "the most experienced and ablest lawyers should be available at all times for the Bench."

Now what are we to understand by this? Great truths these, and there is nothing but applause for every word. But it is their juxtaposition to the defence of the appointment of Mr. Curran that makes them suggestive. "Leading barristers," the "successful barrister," the "experienced and able lawyers" reject the Bench as an "object of ambition." Mr. Curran, however, takes a judgeship. What is the matter with him? Is he not a leading, or successful, or experienced barrister at 53 years, and Solicitor General to boot? The inference plain as it is must be denied until the Gazette rises to explain.

The Gazette enters into an elaborate defence of Mr. Curran's appointment. Why? The press is profuse with compliments to the genial gentleman who is now Mr. Justice Curran. Defence of his elevation to the Bench is equivalent to the confession that defence is needed. Doubtless the Gazette anticipated the fun and the fury that yesterday raged throughout its environment, and it was only the part of prudence to throw oil on the troubled waters; but this might have been done without loosely calling up unhappy inferences involving odious comparisons between those two great and learned and those none too great and learned to afford to go upon the Bench.

It will not wound Mr. Curran at all; but rather reflect upon him, additional lustre to throw out the suspicion that his appointment was intended, after a most vulgar manner, as a bait to the votes of his countrymen in St. Ann's. The Irish vote is largely Liberal. Will it be made largely Conservative by throwing to them a bone after this fashion just on the eve of the election? The Government think that undue influences can be counted upon to neutralize the convictions of the Irish electors; but we believe that to the Irish electors may safely be left the answering of that question.

THE FINANCIAL SITUATION.

Contrary to the expectations of some, La Banque du Peuple did not resume business this week, but it is gratifying to note that in all probability the Bank will re-open for actual business in a very few days. The cause of this confident feeling is the manner in which the plan of the directors as embodied in the circular sent to depositors, has been received. The Bank has now cash on hand to the amount of about \$1,000,000, and in addition depositors representing some \$2,000,000 have already signed and returned the circular, giving the bank a delay of two years, and a high official of the bank is responsible for the statement that as soon as depositors to the amount of another \$1,000,000 signify their approval of the directors' plan, the bank will re-open. Of this amount it is understood that about 25 per cent. is now provided for, and further assents are coming in daily, so that it is possible that in a few days La Banque du Peuple will again be transacting business. It was rumored that the whole business of the bank would be taken over in bloc by a sister institution, but this is not generally credited.

The financial statement of the Molsons' Bank, which was presented to the annual meeting held on Monday last, is considered as being on the whole very favorable. The full figures have already appeared in the Herald, and showed the bank to have earned about 11.14 per cent. on the capital, as compared with about 13 per cent. earned a year ago. In this connection it should be remembered that the year 1894 was one of the heaviest in the history of the bank for earnings, and considering the depression and low rates of interest that prevailed during the past year, it must be confessed that 11.14 per cent. is a very fair showing indeed, and one that compares favorably with other banks, only one or two having shown better earnings. In this connection the remarks of Mr. F. Wolfertan Thomas, the energetic manager of the bank, will bear repetition: He said: "The

bank has now been in existence for over forty years, it has paid eighty dividends, never passed one, and the average distribution was 7.70 per cent. A large banker of great experience, Lord Playfair, said this was a most admirable showing."

The record of the Clearing House Associations of Canada indicate a less active business during September than was recorded during the previous month. The figures, however, are considerably higher than they were for the corresponding month of last year. The clearings by months were as follows:

Table with 2 columns: Month, 1894, 1895. Rows include January, February, March, April, May, June, July, August, September, October, November, December.

The past week on the Canadian Stock Exchanges may be characterized as having been a waiting one. Fluctuations have not been very extensive either way, but have chiefly been on the downward path. A good deal of interest is being manifested with respect to the forthcoming annual statement of the Montreal Street Railway Company, and it is this that the "Street" appears to be waiting for, and according as it may be interpreted, favorable or disappointing, so it is expected to influence the market. No definite information has been secured with respect to it, but we learn on good authority that it will show about 9 1/2 per cent. earned on the full capital of the company. This will be regarded as on the whole very favorable, but until detailed figures are to hand it is useless attempting to make any comment on it. Exchange both locally and in New York is again stronger and it is feared that gold shipments will be resumed on Saturday, from New York. The decline in exchange in the last named city that had been noted for a couple of weeks past came to an end on Tuesday, and since then the market has gradually recovered all and more than the ground it had lost since Oct. 4th. An American opinion as to the cause of this is as follows:—The partial pricing of the South African bubble in London caused the return of our stocks, and seems to have been partly instrumental in causing the recovery of exchange. The speculation in mining stocks can hardly be kept up without throwing over more of our stocks and bonds and those interested in staving off a collapse will probably need all their available resources. Again the receipts of cotton bills continue far below the average of former seasons, cotton being still largely held by the home speculation above the prices which Europe is evidently willing to pay, and until these conditions change, the position of exchange must remain strong.

The local money market shows no particular change. Call loans are still quoted at from 4 to 4 1/2 per cent., according to collateral, while good commercial paper is discounted at from 6 to 7 per cent. as to names. Funds appear to be offering freely.

AID TO SCHOOLS REFUSED.

That the people of this province fully realize the deficiencies of the schools, and that the men who are at the head of the educational organization are working earnestly to secure reforms is becoming every day more evident. But at the same time it is becoming equally evident that it is very difficult to accomplish anything with a Government which sits on all reforms.

We have before us the minutes of the last meeting of the Catholic Committee of the Council of Public Instruction, in which is recorded in full the motion of Hon. Mr. Masson, in which an appeal was once more made for assistance to the Government.

The motion recited: 1. That on the 23rd of September, 1895, a sub-committee of the council reported in favor of the nomination of a general inspector of Catholic schools, to supervise the work of the inspectors. 2. That on the 28th of September, 1895, the council again made the same recommendation. 3. That on the 28th of September, 1895, the Council recommended that a bonus be awarded to the male and female lay teachers who obtained the best results in their classes and that the Government be requested to put the necessary amount at the disposal of the council. 4. That on the same date it was also recommended that the school inspectors be required to give conferences on pedagogy in each municipality to improve the standard of the teaching staff. And the motion again recurred by again recommending these reforms to the Government. Messrs. de La Bruere, Masson, Oulmet and Eugene Crepeau were deputed to interview the Premier. As already reported, they were told that the Government could not afford to give the bonds to carry out these suggestions. Mr. Masson then renewed his motion to take from the superior education fund to improve the elementary schools.

An allowance of \$20,000 would have enabled the Catholic committee to begin seriously the work of reform. Twenty thousand dollars is just the sum given in one year as a bonus to the Berthier beet root sugar works. No one would seriously deny that efficient rural schools would do more to form a class of intelligent farmers than the industry of beet root sugar. But the school teachers have not a great reputation as subscribers to election funds, and the petty politicians at the head of the Government can not consequently see the urgency of their claim.

THE ECONOMIES OF MR. TAILLON.

Voting day is at hand and the Herald can not hope to find space enough to quote all the instances of the extravagance of the present Administration.

bec. The Province was suffering very badly for these works of art. \$3,240 in a lump sum, and \$15,000 a year during thirteen years to the Montreal Exhibition Co. These sums were voted at the last session in consideration of the remuneration of an option which the company was alleged to have on the grounds which it occupies. The amount to be paid by the Government is more than twice the value put on the property by experts; and the company retains possession of the ground for the nominal rent of \$1 a year. It is true that the Government will get the property back at the end of thirteen years; but it will then have to pay full value for any buildings which it may have pleased the company to erect.

\$4,300,000 to the Farmers' Clubs, which come in conflict with the agricultural societies towards which the Government also contributes \$50,000. Part of this money goes to subsidies on agricultural journals, which is in the hands of the publisher of La Minerve. The Government has no means of counting the number of copies delivered; and farmers entitled to receive the paper say that they do not get it once in three months. There is one great advantage in these farmers' clubs: Agricultural lectures, beet root pensioners and an army of political boosters subsidized under one scientific name or another. They make good time about elections and form a strong nucleus for the rulers of the day.

\$18,800 in one year as subsidy to the beet root sugar manufacturers. This was voted at the last session in opposition to a dozen Conservative members who recognized that the \$100,000 already spent had been wasted in trying to make sugar, which costs 9 cents, when the market price is only 3 cents. It is a remarkable fact that this industry survives only while there is a bounty.

The Hopper case cost \$30,000—and the Somerville case at Beauharnois, about \$15,000. This exceeds anything of the kind attempted by previous governments and is due perhaps to the admirable work performed in the codification of our laws by eminent criminal jurists. What law reform means, no one knows until he gets a taxen bill of costs under the last amended tariff, and the Ministers are perfectly satisfied with their administration.

We have decided this season to do a trade in seal mantles which will greatly interest the ladies of Montreal. For this purpose we have invested a large amount of money in the purchase of raw seals at the London sales held last March. These skins, which were the choicest lot offered for sale, were bought for cash in large quantities and dyed by the celebrated house of Martin & Rice, London, England. We have also imported direct from the manufacturers in France, the finest quality of satins to line these garments. This enterprise on our part puts us, as far as the materials are concerned, in the front row with the best makers in the world. Chs. Desjardins & Co., 1537 St. Catherine Street.

Such as we extend to you right along, you can accept, especially as they cost you nothing. We are asking you to call at our store, we don't entirely look forward to the benefit we may derive by your calling, but it affords us pleasure to have you look over our immense stock and large store.

Our Window Dresser begs us to say to day that after a week's toil, he has succeeded in placing on exhibition a few of our choicest ready-made goods. The number of display makes it easy for you to see plainly every article in the window and the price on each garment tells the tale as to whether or no it will pay you to purchase from us.

We have no one at our doors to pull you in; therefore take your time and examine our samples leisurely and then use your good judgment. Some may appear high in price, but judge them not hastily, they may be of the finest qualities and equal to custom goods.

Glance to the left of our window and see the Fine Double Breasted Overcoat marked \$10.00, then to the right and notice the Genuine Black Irish Erize Ulster at \$15.00, and all the way down the centre the many bargains for your children. CHAPLEAU INJURED

THE LIEUT.-GOVERNOR'S HORSES RUN AWAY IN QUEBEC.

His Honor Thrown to the Sidewalk and Picked up Unconscious.

(Special to the Herald.) Quebec, Oct. 18.—Honorable Lieutenant-Governor Chapleau met with a sad accident at noon to-day. He was going down to his office at the Parliament Buildings in his private coach when the carriage came in collision with an express wagon and his magnificent pair of bay Normand horses started on a crazy race, both reins having been suddenly broken.

Thomas Cahill, the coachman, tried to jump off his seat to stop the horses, but fell heavily to the ground and had one leg broken. It would have been a fatal impudence for anyone present there to try and stop the runaway. So having their road clear the horses made a dash to an electric light pole against which the carriage struck and was broken to pieces.

Honorable Mr. Chapleau fell on the sidewalk and was picked up unconscious. He was immediately taken to the Parliament Buildings, where medical assistance was given him. Twenty minutes elapsed before Mr. Chapleau recovered his senses. He is suffering from severe wounds about the head and body. At present it is impossible for the doctor to state the exact seriousness of the wounds. However, Mr. Chapleau is now lying on his bed at Spencerwood, and is under the best of care.

A CHIEF OF TELEGRAPHERS

Mr. T. M. Pierson, of Peoria, Ill., Visits Local Offices. T. M. Pierson, Second Assistant Grand Chief of the Order of Railroad Telegraphers and Peoria, Ill., who is making his annual visitation of all lodges in the United States, Canada and Mexico, arrived in the city on Wednesday and was escorted to the Balmoral Hotel by the Local Committee. After receiving several members of his Order at his rooms Mr. Pierson was taken in charge by a committee and was given a drive over the city. This was Mr. Pierson's first visit to our city, and he was very complimentary in his remarks, saying among other things that he noticed a hurry and bustle in Montreal which was an indication of wide awake business people.

Mr. Dunn, one of the C. P. E.'s most popular operators, escorted Mr. Pierson to the O. R. T. Hall at 8 p.m., where a large number of telegraphers had assembled to meet their grand officer. The visitor was introduced in a happy manner by Mr. P. D. Hamel, one of the brightest lights of the Order in this city.

Mr. Pierson, although suffering from a heavy cold, spoke for two hours, discussing in all its phases the subject of organized labor. He illustrated how the words "organized labor" were construed by many people ignorant of the facts, to mean strikes, discord, contention and strife, whereas they mean, to such men as he is, the bond of brotherly love and federation. Mr. Pierson has made a trip over the Intercolonial Railway and reports finding the employees in all departments on that line well organized, and much harmony existing between the officials and the men of the several departments.

Among those present from out of the city was Mr. Smith, train dispatcher from Farmham, he being an old acquaintance of Mr. Pierson, and they sat up until a very late hour talking over the past. Mr. Pierson left for Ottawa Thursday.

A BODYSMAN IN JAIL.

The Sad Plight of Dr. Albert Johnston—Writ of Habeas Corpus Granted. Dr. Albert Johnston, of this city, was apprehended Thursday by two of the sheriff's officers under a process of constraint pro corpus, issued under authority of Mr. L. W. Scotte, Clerk of the Crown. The process issued in the virtue of article 928 of the Criminal Code, as amended by 57-53 Vic., chap. 57, which provides that a cognitor shall be liable to conviction and imprisonment for non-payment of the judgment under a forfeited bail bond.

It appears that some time in June last one Ferris was arrested on a charge of bigamy and on his appearance before the magistrate was given the usual option of going to jail or furnishing sureties for his appearance on the day fixed for the preliminary enquiry.

Dr. Johnston was in court at the time and became one of the bondsmen. The prisoner jumped his bail, the recognizances were forfeited. The principal bondsmen settled, but Dr. Johnston refused, claiming that he was involved in the position against his will, and further that he could not qualify. The doctor was arrested last night and taken to jail. His lawyer, Mr. A. G. Jones, at once communicated with the Attorney-General. This morning a reply came that the matter would be investigated. Mr. Jones and Mr. R. A. E. Greenhalgh appeared before Judge Oudet and made application for a writ of habeas corpus. This was granted and the doctor will be brought into court on Monday. Dr. Johnston is very indignant and wants the matter given the utmost publicity.

DEATH OF DAMIEN PRIEUR.

(Special to the Herald.) Coteau Landing, Que., Oct. 18.—Mr. Damien Prieur, prominent merchant of St. Zotique, died at a late hour last night, after a very painful and lingering illness of six months, at the early age of 42 years. Mr. Prieur was a son of the late Oliver Prieur, in his life time merchant of the same place. In politics, Mr. Prieur was a staunch Conservative and a leader. He leaves to mourn his loss a widow and a son.

THE LAST DAY.

American Street Railway Association Thank Montreal.

At the opening of yesterday's session of the American Street Railway Association, President Joel Hurt explained that, the absence of certain delegates would necessitate the dispensing with the reading of papers, which they had been asked to prepare. This was due to the illness of the late secretary, who had not given these gentlemen time.

The experience of different roads in furnishing entertainment for the public was discussed briefly, and an interesting paper was read by James P. McElroy, of Albany, N.Y., on the subject of "Car Heating," it being illustrated fully with diagrams.

By a unanimous standing vote the following resolution was passed: Resolved: By the American Street Railway Association in convention assembled that the members of this Association, in appreciation of the many acts of hospitality, and the courtesies extended to them by the citizens of Montreal, and by the officials of the Montreal Street Railway Company, and that we give the assurance to both of a grateful remembrance. We came among them as strangers, and found in their homes and in the Wabash and a loving corner—a greeting long to be remembered, and the separation that now comes will long be regretted.

To one and all we extend a hearty invitation to our next meeting, where we hope to extend our best welcome.

H. M. WATSON, D. G. HAMILTON, E. S. GOODRICH.

(Committee.) The following resolutions were passed on board the special train bound from Chicago to Montreal via the Wabash and C. P. R. railways, by a party of ladies and gentlemen attending the convention of the American Street Railway Association in Montreal, a splendidly equipped Wagner vestibule train having been placed at their disposal: "Resolved, that the entire party extend its hearty thanks to the above named railway companies for their unsurpassed accommodations, and for the excellent arrangements for the trip, and to Mr. D. McNicol, general passenger and ticket agent of the Canadian Pacific Railway, Montreal, for his cooperation in placing a special train at our service, and also to Mr. C. C. Keenan, city passenger agent of the Wabash Railway, Chicago, for his courtesy and untiring energy in looking after the welfare of this party during the entire trip."

A FENDER COMPETITION

Acting on the suggestion of the Herald the electric car fender exhibitors have decided to demonstrate the practical utility of their invention before the closing of the A. S. R. A. Convention. The "Dietrich" fender was shown in action in front of the Windsor yesterday. A man lay right across the track and the car swooped down on him at a good rate of speed. There was a slight crash, a suppressed scream from many of the spectators, the car went on a little further and stopped and he got out from under, a little dazed but otherwise uninjured. The performance was repeated, the man on this occasion being held up at a good rate of speed. In response to a question by a Herald reporter he said he did not feel even the least bit shaken up. He wore an ordinary suit of clothes underneath his "coveralls," but says he has tried to elude in "coveralls" alone. The car proceeded through the exhibition, exhibiting the picking up powers of the fender in several other frequent spots. The principal drawback seems to be that this fender, though picking up anyone lying on the track, does not hinder the possibility of one being struck and injured by the front of the car. The inventor says that he only professes to save one from the wheels and this certainly the fender does satisfactorily.

McGILL CLASSICAL CLUB.

The McGill College Classical Club held its first meeting for the session of 1895-6 Thursday in its room in the Library Building, with Mr. Ferguson, the retiring vice-president, in the chair. The following officers were elected: Hon. President, Dr. A. J. Eaton; President, Mr. W. S. Ferguson, Arts '96; First Vice-President, Mr. J. G. Saxe, Arts '97; Second Vice-President, Mr. Campbell Howard, Arts '97; Secretary, Mr. D. W. Mann, Arts '96; Treasurer, Mr. E. H. Kerr, Arts '97; Executive Committee, Messrs. E. E. Howard, B.A. Law; J. T. Scrimger, Arts '96; and M. C. Heine, Arts '98; Reporter, Mr. T. R. MacMillan, Arts '97.

The Salt Nuisance.

Mr. F. X. Olevart, manager and secretary of the Horse Owners Rights Protective Union, writes to the Herald calling attention to the resolution which the Street Railway Convention passed at the request of Mr. G. C. Cunningham, of the Montreal Street Railway, declaring that the use of sand and salt was necessary on the streets in winter time. He points out that the veterinary surgeons are unanimously opposed to the use of salt on the streets because of the injury to horses' feet. The taxpayers of the city and more especially the horse owners are not blind. They see plainly that the resolution means that the company wants to continue the use of salt, although a suit is now before the courts to prevent it. The following gentlemen are in New York, Boston, St. Paul, and many other cities and should not be allowed here.

McGill Grand Sports Night.

McGill's Great Theatre night is drawing very near and day by day new and greater enthusiasm is shown. The rush for tickets has been very encouraging to the boys who have exerted all their efforts to make the night of the 25th, one to be long remembered. The artists for that night, Miss Myrtle Freech, is a great favorite in New York, and without doubt will win the hearts of all the lovers of true art in Montreal. Owing to the great and ever increasing demand for seats, it has been decided to give a matinee on the following afternoon. It is hoped that the public will support this, as well as they have the concert of the previous night. The plan will be opened on Saturday at the theatre and Macmillan's Pharmacy.

RECIPES.

Food and drinks for the sick and for infants. (More to follow Monday.) Beef Tea.—Cut a piece of lean, juicy beef into pieces an inch square, put them into a wide-mouthed bottle and cork it tight. Set the bottle into a kettle of cold water and let the water come to a boil, and let it boil one hour and a half. This mode of making beef tea concentrates the nourishment more than some others.

Chicken Broth.—If the weather is warm use but half a chicken to make broth for one person. If it is cold take a whole one, as the broth will keep several days in cold weather. Pull off the skin, because there is a good deal of oil in it, and allow two quarts of water to a chicken. Skim it in the neatest manner when it begins to boil. Put in a large spoonful of rice and a teaspoonful of salt, and boil it slowly for two hours. If onion or parsley are to be added cut them fine; put in the onion when the broth has boiled an hour, the parsley five minutes before it is served.

Chicken Tea.—Take a leg and a thigh of a chicken, lay it into a pint of cold water, and set it on the fire till it boils up, long enough for you to skim it. Put in a little salt and serve. Chicken Panda.—Boil a young chicken half an hour in a quart of water. Then remove the skin, cut off the white meat, and when cold put it into a mortar with a spoonful or two of the water in which it was boiled, and pound it to a paste. Season it with salt, and a very little nutmeg; add a little more of the water, and boil it up three or four minutes. It should be of such a consistency that it can be drunk, though rather thick. The bones can be returned to the water which the chicken was boiled in; and with the addition of rice a good broth be made of it.

Flour Gruel for children sick with teething complaint.—Tie up in a thick piece of thick cotton cloth a coffee cup of white flour. Put it into boiling water and keep it boiling steadily three hours. Then remove the cloth and lay the lump where it will become perfectly dry. To use it, grate it and thicken two gills of boiling milk with a desert spoonful of it wet in cold water. Put a little salt in the milk, boil it up again, for one minute. Then set in cool place.

Messrs. C. C. RICHARDS & CO., Yarmouth, N.S.

Dear Sirs,—A journalist, like myself, of over thirty years' standing, often finds amusement in testimonials that occasionally are printed, some of them about as remarkable as that of the mixture which cured the wooden leg. However, a circumstance happened the other day that set me thinking a little in another direction. A member of my family, being a good deal on foot, found it necessary to obtain or do something to get relief for the feet. A friend, who had had relief not only from neuralgia but from "tired feet," suggested your MINARD'S LINIMENT. It gave immediate and great relief.

At a time when no doubt many unworthy preparations are being pushed, I consider it a public benefit to speak a good word for an article found by experience to be really meritorious. You are quite at liberty to use my name, and this testimonial.

Yours very truly, JOHN CAMERON, Founder and Publisher of the London (Ont.) Advertiser.

NEW JUDGE SCORED

POOR OPINION OF AN OTTAWA PAPER ON THE SELECTION.

MR. CURRAN HAD WRITTEN PROMISES OF THE POSITION.

Hon. W. B. Ives Talks on the Subject—Precedents on Which the Choice is Said to Have Been Made.

Ottawa, Oct. 18.—The Journal to-night says editorially to Judge Curran: "It is questionable whether either the Hon. J. Curran's standing at the bar, or his record or lack of record as Solicitor-General of Canada, entitled him to such weight as a candidate for the Superior Court of Quebec, as to justify the Government in appointing him a judge under the peculiar circumstances of the case, particularly the desirability of the new judge being, as his predecessor was, a representative of the minority in creed in the province."

It goes on to score the Government for having used the office of Solicitor-General as a piece of political ploy to reward a faithful supporter. It says that the office should be either abolished or made useful.

THE CITIZEN IS PLEASED. Ottawa, Oct. 18.—The Citizen to-day says editorially regarding Mr. Curran's appointment: "The appointment of Solicitor-General Curran to be a Judge of the Superior Court of Quebec is in accordance with English precedent, the occupants of the equivalent office there being considered marked by their position for subsequent elevation to the Bench. Apart from this Mr. Curran is a member of long standing and experience at the Montreal Bar; he was in the front rank of his profession; his character is highly respected, and he is as popular in legal and political circles as he is respected. We heartily congratulate him upon the new dignity with which he has been invested and may he live long to serve his country in the administration of its laws."

MR. IVES ON THE APPOINTMENT. Hon. W. B. Ives, M.P., for Sherbrooke, was seen yesterday at the Windsor by a Herald representative. In response to an inquiry about Mr. Curran's appointment he said: "The appointment is made now so there is nothing more to be said, of course if Mr. Curran does not like it he can step out. Regarding the objections of the English-speaking Protestants you must remember that the position was offered to every English-speaking member of the Bar and refused, and as the people were clamoring to have the vacancy filled the Government had to appoint someone. Mr. Curran also had the written promises of Sir John A. Macdonald and Sir John Thompson and Sir Mackenzie Bowell is merely fulfilling them. The Government also was fulfilling the English precedent by which the Attorney-General and the Solicitor-General are always appointed to the next vacancy on the Bench. So invariable is this in English procedure that even a change of administration does not effect it, there having been cases of the Attorney-General and Solicitor-General of a retired Government being elevated by that in power when the vacancy occurred."

Mayor Villeneuve says that the Council will meet this evening unless Acting Mayor Lafontaine cancels the notices con- voking it.

Back From Georgia. Ald. Lyall and Oostigan and Chief Benoit have returned to the city from Georgia and Tennessee.

Chief Benoit has brought with him several interesting souvenirs of the battle of Chattanooga, such as bullets found on the spot, pieces of trees in which bullets were embedded, etc. "What did I see in Georgia?" he said in answer to a question. "I saw hardly anything but cotton, mules, and donkeys. The Fire Chiefs' Convention? Well, it was not merely as humorously attended as the one held in Montreal; and the delegates could not help contrasting the manner in which they were received in Montreal and Augusta. They were all loud in their praises of our hospitality, which took them by surprise."

Professional Hospital for the Insane. At the last meeting of the Board of Management of this institution Dr. Lockhart was unanimously appointed gynaecologist and Dr. Andrew Macphail, pathologist.

## THE BRIGADE PARADE.

ORDERS ISSUED RESPECTING ITS FORMATION.

Prospects of a Big Turn Out to Greet the New General—Will March Past Opposite the Windsor.

The following orders have been issued by Lieut.-Col. Houghton, D.A.C., for the church parade before General Gascoigne: The Montreal city corps will parade on the Champ de Mars at 3 p.m. on Sunday, the 27th inst., formed up in line of quarter columns by the right, facing south, whence the brigade will be marched to St. George's Church and St. James R. C. Cathedral, where divine services will be held.

The brigade will march in fours along St. James street, and up Beaver Hall Hill to Dorchester, along which street it will proceed in column by the left, following down Windsor street to Osborne, where the formation of fours will be resumed by companies in succession. On passing the St. James Cathedral the 65th Battalion will be halted by its own C. O., who will thereafter attend to his own command until it rejoins the brigade after the services.

On coming out of their respective churches the brigade will form up in mass of quarter columns on Osborne street, facing west. The rear of the 65th Battalion will rest on the west side of Cathedral street, and the rear of the Scots on the west of Windsor street. The troops will advance in this formation along Osborne and up Mountain to Dorchester street, where they will wheel by successive battalions to the right, and march past in column by the left, the usual salute without arms being given by each company on passing the G. O. C., who will then be stationed at the south-east corner of the Windsor Hotel, in some conspicuous position.

The Victoria Rifles will be permitted to leave the column for their private army on passing University street. On resuming the march from Beaver Hall Square, the brigade will advance in fours in succession down Beaver Hall Hill, along Craig street, to the Drill Hall.

All companies of battalions to be in "double ranks," the M. B. G. A. to be in "single ranks." Officers of the district desirous of joining the parade will report to the Brigade Major on the Champ de Mars, by whom a place will be assigned to them in the column.

A Lesson in Mongol Art. Recently there was brought to Montreal a fine collection of stone carvings, the first seen in America made by natives of the far inland Loo mountains in Southern China. They are carved from a beautifully colored stone called Jadeite, and display the highest artistic skill. They represent the peculiar superstitions and traditions of the race. As was the case with the old lacquered ware, satsuma pottery and carving of Japan, which is now obtainable, this may be the last opportunity of seeing these carvings. For a few days they are at 227 St. Catherine Street.

Something New For Smokers. Everyone who uses a pipe has been annoyed, if not injured, by the nicotine in the bowl and the stem. We have a new pipe with asbestos bowl, which absorbs the nicotine. It's a great addition to our full line of smokers' supplies. Ross, 20 Chaboullier Square.

WOMAN'S SUFFRAGE ASSOCIATION. Atlanta, Ga., Oct. 15.—The National American Woman's Suffrage Association is holding a conference here. Addresses were made by Mrs. Virginia Clay Crompton, of Alabama; Mrs. Rachel Foster Avery, of New York; Helen Gardner, of Boston; Mrs. Virginia D. Young, of South Carolina; Mrs. William H. Dubose, of Georgia, and Mrs. Mary McLendon, of Georgia.

The Society of Arts of Canada, 1608 Notre Dame Street, Montreal. Distributions every Wednesday. Value of prizes ranging from \$4 to \$5,000, tickets 25 cents. Value of prizes ranging from \$2 to \$2,000, tickets 10 cents.

Trouble Over the French Treaty. The Chambre de Commerce held a general meeting yesterday afternoon. The first matter taken up was a protest from wine importers against the interpretation put upon the French treaty by the customs authorities. The treaty provides that the duty of 30 per cent. on French wines is abolished; but the customs officials persist in collecting a duty of 20 per cent. on the value of the bottles, cases and barrels. The wine men contend that the packages should not be taxed. The Chambre endorsed their attitude, and will petition the Government accordingly.

Mr. S. Beaudin, Q.C., sent a legal opinion to the effect that the Chambre de Commerce has power to award certificates to candidates for inspectorship. The Chambre ratified the action of the Council, authorizing the president to call a public meeting of citizens to discuss municipal reform. Mr. Laporte says that he will call the meeting at an early date.

Fish and Game Club. The following are the new officers of the Fish and Game Club: President, W. Marsan; secretary-treasurer, Dugald Macdonald; solicitor, Edmond Guerin; notary, A. J. H. St. Denis. The club has secured some fifteen hundred acres of land in the Labelle district, and owns the fishing rights in Lakes Castor, Carri, Lacoste, Marsan and St. Jacques. The work of the erection of a club house is in progress.

"Selling Liquor Without License. In the Police Court yesterday the following fines were imposed in liquor cases: Sophie Abraham, for keeping liquor in his place of business was fined \$50 or three months; Louis Demiss, alias Medina George, for selling liquor without license, was fined \$150 or three months; L. Guindon, for selling liquor without a license, was fined \$150 and costs or three months hard labor.

We are now showing the latest in Fancy Suitings, Vestings and Fall Overcoatings. Kelly Bros., 1691-1697 Notre Dame.

New Professors at McGill. The following changes in and additions to the teaching staff of the Applied Science Faculty of McGill University have been made by the Board of Governors: W. A. Carville, M. E., lecturer in mining, to be professor of the same subject; C. B. Smith, lecturer in civil and railroad engineering, to be professor in the same subjects; Mr. Guest, assistant professor in mechanical engineering; W. A. Smith, M. E., to be demonstrator in the thermo laboratory; Louis Herdt, science, '93, to be demonstrator in the dynamo room, and J. G. G. Henry, M. E., to be lecturer in descriptive geometry and surveying.

## The Action, No. 19,

of the Pratte Pianos is unlike others in that it is made for Canadian climate than which none is more trying than ours for pianos. The best American instruments have been found unable to stand the variations of temperature in Canada, and their actions always get more or less out of order. You see the principal parts of their action are wood, which absorbs moisture, and swells in summer, and then shrinks during the winter in our over-heated houses. This impairs the action. In other pianos of Canadian manufacture, the action is copied from the American instruments with the same disadvantages. In the Pratte Piano this difficulty is overcome by an ingenious mechanism whereby the six hundred screws in the action are all set in metal instead of wood. There are other improvements too in the Pratte Piano which make it an unrivalled instrument. The demonstration of the Pratte action will be shown you at our ware rooms.

ALWAYS BUSY!  
WHY?  
Because there's a right way and a wrong way to do business. There are high prices and low prices. Our way is to sell good men's and boys' clothing at low prices. What's the use in paying fancy prices? Your economical neighbors don't do it. It is an axiom that "correct" signifies price, quality and style. At our stores results prove it. We have a discriminating trade, and they appreciate our methods of doing business. Our crowded stores show the stamp of approval.

THE SULTAN'S ORDER

GRANTING ARMENIAN REFORMS HAS BEEN ISSUED.

It was the Best Great Britain Could do Without Danger of War.

London, Oct. 18.—A despatch to the Daily News, from Constantinople, says: "An eye-witness of the Trebizond massacre says that the Armenian quarter there was completely sacked, and the mob only desisted when nothing was left to pillage or to kill."

Constantinople, Oct. 18.—An order was promulgated yesterday announcing that the Sultan has signed the Armenian reform scheme demanded by the powers.

London, Oct. 18.—The Constantinople correspondent of the Standard says: "The Turkish papers in announcing the consent to the Armenian reform state that the Sultan has decided to introduce reforms in all provinces of the Empire."

London, Oct. 18.—The Chronicle's Constantinople correspondent says: "The Sultan has so far feared exasperating Mussulmans by consenting to the reforms that the Minister was obliged to implore him to sign the document."

I fear that English opinion will be greatly disappointed when the terms of the reform scheme become known. But nothing better could be obtained without the appearance of the British fleet in the Dardanelles, which would have involved the instant disruption of the triple entente between England, Russia and France, and probably a Russian occupation of Armenia. Sir Philip Currie, therefore, has done the best possible without causing a serious breach between England and Russia. This temporary solution however, will not save the Sultan from the outbreak of dangerous anti-dynastic feeling which the Sultan will probably be the victim.

The Chronicle believes that the British fleet will remain at Lemnos, in the Aegean Sea, which is about fifty miles from the mouth of the Dardanelles, until adequate guarantees for the execution of the Armenian reforms have been given.

Beirut, Syria, Oct. 18.—Considerable excitement prevails in the Lebanon District owing to conflicts which have taken place between the Druses and Mutahals, in which many have been killed on both sides.

Finally, the Mutahals assembled 4,000 armed men near Sidon with a view of attacking the Druses. The latter, however, appealed to their co-religionists in Hauran, who are preparing to send 8,000 men to the assistance of the Druses. The fall of Damascus is trying to prevent a conflict.

CLARKE FOUND GUILTY.

Did not Mail a Letter Containing \$500 as Alleged.

Shrewsbury, Que., Oct. 18.—On the assembling of the Criminal Court yesterday in the Clarke case, for alleged mailing of a letter containing \$500, Mr. Brodeur addressed the jury on behalf of the defence, endeavoring to show absence of any proof of guilt. Mr. W. White, Q.C., followed on behalf of the Crown going minutely into the case. The committee addresses each lasted about an hour and a half. Judge Archibald then charged the jury in a very comprehensive manner, and they retired to consider their verdict. After an absence of over an hour they returned with a verdict of guilty with a strong recommendation to mercy.

REVENUE DEFAUDED.

No Wonder Newfoundland is Hard-up—Bank Director's Trial.

St. John's, Nfld., Oct. 18.—The revelations regarding smuggling show that vast stocks of wine, spirits, tobacco, cigars, tea, sugar, etc., were brought from St. Pierre without the payment of duty. The revenue board is appalled at the extent of the revelations and, it is believed, would willingly abandon the prosecution now pending to the class of persons involved. Government politicians are badly frightened at the threats of many supporters of the accused who threaten to divulge damaging party secrets.

The Telegram, the party organ, announces the postponement of the trials of the bank directors until the special term of the Supreme Court, which is about the end of the year.

THE FIELD OF WOERTH

Unveiling of the Emperor Frederick Monument.

Woerth-sur-Sauer, Oct. 18.—The Emperor and Empress of Germany, accompanied by the ex-Empress Frederick and other members of the Imperial family, as well as many representatives of the different royal families of the Empire, participated today, in the ceremonies attendant upon the unveiling of the Emperor Frederick monument on the battle-field of Woerth. Their Majesties arrived at the site shortly before noon, and were received by the Governor-General of Alsace-Lorraine, Prince Hohenzollern-Langenburg, who delivered an address of welcome. After patriotic songs sung by the Strasbourg Choral Society and a stirring address from General Von Moltke, the monument was unveiled, and was afterwards inspected by all the members of the Imperial family. The ceremonies were concluded with a march past of the troops.

DR. BELL'S NEW RIVER.

It seems that all discoverers of great sheets of water or of great rivers must be the subject of attack. It has been so from Chevalier de LaSalle down to Stanley; and now there are people who question Dr. Bell's claim to having discovered an heretofore unknown stream running from the northern boundaries of the Province of Quebec to James Bay. A Herald reporter yesterday afternoon interviewed Mr. Alexander Barclay, son of Rev. Dr. Bell on his trip to James Bay. It was Mr. Barclay's first trip to that region, and he was not able to make an authoritative statement as to the question of priority of discovery. Besides he wished to leave to Dr. Bell the honor of first publishing a detailed account of the voyage. What has been published, he said, is substantially correct. The voyage lasted three months and was very monotonous. The banks of the river were flat, and even marshy in many places. It rained nearly every day. The river abounds in fish, but there was no sign of game. There were but little traces of minerals, the most important find being that of lumps of copper. The timber would be suitable for railway ties and telegraph poles, but it would have to be floated to James Bay. There is, therefore, no immediate prospect that the resources of that region will have a commercial value.

DUNRAVEN ARRIVES

He Has Nothing New To Say About the Race Fiasco.

Ryde, Isle of Wight, Oct. 18.—The steam yacht Vithalka, owned by Mr. Joseph Frederick Laycock, and having Lord Dunraven on board, arrived here from Newport, R. I., this morning. The yacht was immediately boarded by interviewers desirous of obtaining direct from Lord Dunraven his version of the disappointing races for the America's Cup. He said, in substance: "I have no statements to make on the subject. What I would say has been well threshed out of me during the fortnight I stayed in America after the races."

"It would not do any good to discuss such unpleasant matters." Regarding his plans for future racing, Lord Dunraven said: "I have no plans. I have just arrived home after a long voyage and I am going to London and from there to my estate in Wales. I do not know what I shall do later on."

Talking upon the acceptance by the New York Yacht Club of the challenge of Mr. Charles Day Rose, through the Royal Victoria Yacht Club; for another series of races for the America's Cup, Lord Dunraven remarked: "The matter was practically settled when I left the United States. Personally, I am glad that it has been so easily and quickly settled."

INVITED TO AUSTRALIA.

Canadian Hsley Team Asked to Take a Long Trip.

Ottawa, Oct. 18.—Col. Bacon, Secretary of the Dominion Rifle Association, has received a letter from Capt. Aldershaw, Secretary of the Federal Rifle Association, of Australasia, inviting the Dominion Association to send their Hsley team to England next year by way of the Antipodes, so that the team would take part in the different Colonial rifle meetings and arrive in England in June. While the invitation shows a very fraternal spirit, it is hardly likely that it will be accepted, as it would consume too much time and involve too great an expense. They would have to leave Vancouver in January and it would cost fully \$15,000 to send the team round the world. Col. Bacon will submit the offer to the Council of the D. R. A., but a negative answer is almost certain.

QUEBEC NEWS.

Daughters of the Late Lord Monk—A Writ of Prohibition.

(Special to the Herald.) Quebec, Oct. 18.—The Misses Monk, daughters of the late Lord Monk, of London, the first Governor-General of Canada, are here on their way on a trip through Canada. Chief Justice Casault has granted a writ of prohibition to prevent Recorder Dery from proceeding with the enquiry on the second of the charges made against Councillor Fiset of having given the assessors a false valuation of his property at St. Saviour. The grounds for issuing the writ were that when Mr. Fiset gave the assessors the details referred to he was simply acting as a private citizen and not in his capacity as councillor, and such being the case the Recorder has no jurisdiction in the matter.

DELIBERATE SUICIDE.

A Woman Physician Throws Herself in Front of a Railway Train.

Buffalo, Oct. 18.—Dr. J. Abbie Seymour, a distinguished woman physician, an artist of repute and the intellectual peer of any of either profession, deliberately took her own life last night by throwing herself in front of a fast West Shore train near the water-works station. Her skull was crushed and her face unrecognizable when the body was found. The only means of identification except from papers in her pocket-book were her crutches. She had been compelled to use crutches since last spring, when she suffered an accident to the nerves of her hip while attending the post-graduate medical college at Chicago. This affliction had preyed upon her sensibilities until her mind had given entrance to melancholia. She appeared much depressed in spirits yesterday, but none of her friends concluded that she contemplated suicide. The deceased leaves a sister in Chicago, Mrs. Morris Gynne, and her step-mother and sister live in New York. She was born in Batavia, N.Y., 42 years ago.

THE CYCLIST'S MURDERERS.

Proceedings at Last Taken by Turkey to Bring Them to Trial.

St. Louis, Mo., Oct. 18.—William A. Schtieleben, the St. Louis wheelman, under date of September 21, wrote his sister at Alton, Ill., giving her an account of the latest developments in his endeavors to bring to justice the murderers of Lenz, the cyclist who was killed in Turkey. He says in part: "After countless delays that are sufficient to drive insane an American accused of pushing affairs to an immediate conclusion, my hopes for winding up my affairs here are in a fair way of being realized. "Yesterday I received the cheering intelligence that the committee on investigation is already ready to begin operations. It will be headed by Shaik Pasha, an official of the Sultan's Court and a favorite with the Sultan. "To-day I received a call from the Pasha accompanied by the interpreter of the English consular and a retinue of army officers and attendants. Myself and my native interpreter and a friend whom I can safely trust, composed our side of a private conference which was then held. "I had before Shaik the names of the men I had every reason to believe were guilty of murdering Lenz. Immediate prosecution of the undertaking is promised by the Pasha."

FIRE-BUG'S FATE.

Forty-eight Years in State's Prison for Schoenholz.

New York, Oct. 18.—Judge Fitzgerald, in the Court of General Sessions this morning, sentenced Morris Schoenholz, the convicted firebug, to forty-eight years in State prison. The minimum term of imprisonment for the offence is 40 years, the maximum 60 years.

Hastings Chess Tournament.

A very pretty game played in the recent International Tournament between two old antagonists, Mr. I. G. Gungberg and Mr. W. H. K. Pollock. The meetings of these two players are usually productive of very lively games, although it is fair to say that Mr. Gungberg has won a considerable majority of tournament games. In their personal encounter in Baltimore, several years ago, each player won one game.

GAME NO. 100—VIENNA OPENING.

I. GUNSBURG. W. H. K. POLLOCK.

White. 1 P-K4 P-K4 2 Kt-QB3 P-K4 3 B-Kt3 (a) B-B4 4 B-Kt3 (a) B-B4 5 Kt-K2 P-Q4 (b) 6 P-P P-Kt5 7 P-Q3 Kt-B3 8 P-B3 P-Kt5 9 P-B3 P-Kt5 10 P-QR3 (c) P-Kt3 (d) 11 B-Q2 P-QR4 12 P-B3 P-Kt3 13 Kt-Q sq Kt-Q 14 Kt-B2 P-B4 15 Castles P-B5 16 K-Rsq (e) P-Kt5 17 P-B P-Kt5 18 P-QB4 (f) Kt-B3 (g) 19 K-Rsq Kt-B3 (g) 20 Kt-K (h) Kt-K 21 Kt-P sq Kt-K 22 Q-K3 (j) R-R3 23 Q-Rsq Q-K4 (k) 24 K-R-Ksq QxK 25 Kt-K2 Kt-K ch 26 QxK Kt-K 27 Q-B sq H-R6 28 P-B sq (l) BxK 29 QxP QxK mate

Notes. (a) The fashionable opening. We prefer, however, the old continuation, 3 P-B4 or 3 Kt-B3.

(b) A bold line of play, constituting a species of gambit, and quite justifiable on account of the rapid development gained by it.

(c) 10 B-Kt5 seems more to the point.

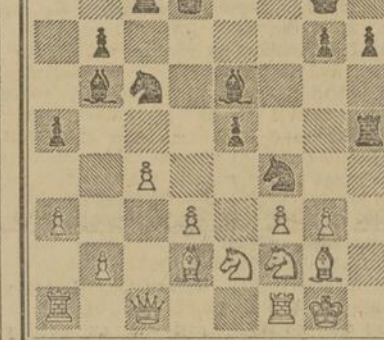

(d) A more direct style of attack would be Kt-Q4, preparatory either to Kt-K6 or P-B4.

(e) If 10 P x P, P x P, 17 B-B3, (17 Kt x P, Kt or B x K followed by Kt-Q5 with a winning attack) Kt-Q5 and should win.

(f) A better defence is 18 B-R3; if R-R4 then 19 K-Kt2.

(g) A very pretty situation. See diagram.

Black—W. H. K. Pollock.

White—Gungberg.

(b) If 20 P x Kt, Q-R5 wins.

(c) If 21 Q x P, Q x P with much the better game.

(d) It is most difficult to find a defence for White—R-K sq, is not satisfactory.

(e) The winning move. If 24 P-K Kt4, Q x Kt!

(f) White was much pressed by the time limit here, but the game is of course hopeless.

Reminiscences of Hastings.

We have perused some very spicy products of the chess interviewer in the London press lately, particularly in reference to Mr. Harry N. Pillsbury, the victor of the "Second Battle of Hastings." We are informed that previously to the 1889 tournament Master Pillsbury had "a taste for plain mathematics." He does not devote his whole time to chess, "having a business in the theatrical line to look after." This has no doubt reference to Mr. Pillsbury's past and present connection with the chess and checker department of the Eden Music, New York. He is reported to have said: "I believe it is a good thing to smoke and drink black coffee when playing, if you are used to it, but a player who has been accustomed to the habit of not smoking, or his nervous system will collapse. I smoke 15 or 20 cigars a day whilst playing." This must naturally be taken as a token of Mr. Pillsbury's constitutional strength, as no one will pretend that cigars are nutritive, nor the habit economical. Man, being intelligent, must be poisoned, and most chess players will agree that cigars and black coffee can be used to a much greater extent without damage to the nervous system than some other "preventatives of waste."

Five-Cent Yellow Dutch Stamps.

At the Government stamp printing works at Hamilton, a curious blunder has been made by some one in authority. Orders were given for a large number of five-cent postage stamps to be printed, and the workmen were instructed that the color was to be yellow. The five-cent Dutch stamp, however, should be blue. After the printing had gone on for some time, the mistake was discovered and the presses were at once stopped. It was then that an unexpected discovery was made. Some of the stamps had disappeared, although none had got into circulation in the regular way. Enquiries have been set on foot to discover the cause of the robbery. The robbery must have been a profitable one, for it has been ascertained that already a number of the missing stamps have found their way into the hands of a stamp dealer, who was glad to give 50 florins apiece for such rare specimens.—Westminster Gazette.

KIDNEY TROUBLE.

The Bane of Millions of Lives, Can be Cured.

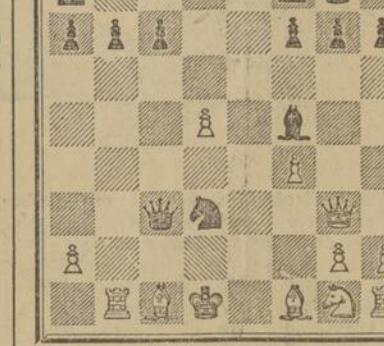

The diseases that we so dread do not come upon us as one step. They are a matter of growth. The sad news is only too common of friends who have died of Bright's disease, diabetes and kindred complaints. It is known that in the system of thousands exist the seeds that in a short time will develop into these dread maladies. Disease of the kidneys in its milder form never stands still. The warning is worth heeding that efforts should be promptly taken to eradicate the slightest symptoms of kidney disease, and in Sixth American Kidney Cure is found a sure and safe remedy for every form of kidney trouble. Whether chronic, incipient or in some of the distressing phases so well known, it proves an effective, and what is pleasing to know, a ready and quick Cure.

White—Albin.

White played here 26 B x B, and Black announced mate in four moves.

Black—Von Bardeleben.

White—Gungberg.

Conclusion: 15, QR-Q sq, 16, B x Kt, B x B, 17, R-Kt, R x P, 18, R-Q2, R-K sq, and White resigns.

WORK OF A SINGLE DAY.

Some Startling Facts Concerning the Action of the Heart. Do people recognize the immense work transacted by the heart in a single day? It equals that of lifting one hundred and fifty pounds to a height of thirty-three hundred feet. And yet, knowingly, or through ignorance, nine out of ten people abuse this hardest worked organ of the body. There is nothing remarkable in the fact that heart failure and apoplexy are among the most prevalent diseases of the day. Happily a remedy is found in Dr. Agnew's Cure for the Heart, which gives relief instantly. This medicine should be kept in every house, so that in the slightest indication of heart trouble it may be taken. It has saved, by its prompt and efficient work, the lives of thousands of Canadians.

A Curious Play Bill Phrase.

The "Teatro Nuovo" at Naples added, our correspondent says, a curious sentence to the bills of performance a few nights ago. The piece to be performed was "Il Catenaccio" ("The Chain"), by Bium and Toche, which had not before been performed at Naples. The sentence was as follows: "The manager considers it his duty to advise the public that this comedy, because of its rather licentious character, is not an entertainment fit for young ladies."—London Daily News.

The author of "The Bonnie Brier Bush" has been lecturing at Grindwold on the Scotch. Among many points he made, one may be quoted.

Changes in the Scots bench, and consequently in the Scots law officers, are imminent. It is announced that Sir Charles Pearson, the Lord Advocate, and Mr. Ascher, Q.C., M.P., are shortly to be promoted to judgeships from which the present occupants are to retire.

During the past twelve months Arch House, Ecclefechan, Carlyle's birth-place and place of departure, has been visited by eight hundred persons, of whom thirty-six were from the United States, eleven from Australian colonies, seven from Canada, two from India, one from Trinidad, two from Germany, one from Denmark, and one from British Honduras.

The Inverness Field Club had an excursion on Saturday afternoon to Collieston, Baffinland. The party, including ladies, numbered fifty-two.

While hundreds of dyspeptics are made well and strong every week through the use of Paine's Celery Compound, we are aware of the fact that there are thousands who have the terrible disease in various forms, and who are vainly seeking a cure through the use of antiquated and worthless medicines.

Long experience has proved that there is but one reliable, honest and speedy-curing medicine. Thousands of our Canadian people have given the dearest testimony in favor of Paine's Celery Compound, and solemnly declared it saved them after failures with doctors and patent medicines.

The Government of Queensland, which is being vacated by Sir Henry Norman, has been bestowed upon Lord Lamington.

The output of gold from Coolgardie for the eight months ending August 31 was \$1,900,000, and from all other Western Australian goldfields, \$7,000,000.

Mr. Kingston, the Premier of South Australia, invites the colonies to send a delegation to a conference in Adelaide for the purpose of considering Australian relations with Japan.

Ever since winter set in with the advent of the cold, the cholera epidemics have been the throes of the epidemic of influenza, whooping cough and measles, says the Cape Times.

The Chitral campaign having been brought to a conclusion by the withdrawal, in perfect order and without the firing of a shot, of the 15,000 troops composing the expeditionary force, General Sir Robert Low has gone to Simla after issuing a farewell order to those under his command.

Last month the medical profession in Bengal assembled to bid Good-bye to a savant who is perhaps destined to rank with the Jenner of India.

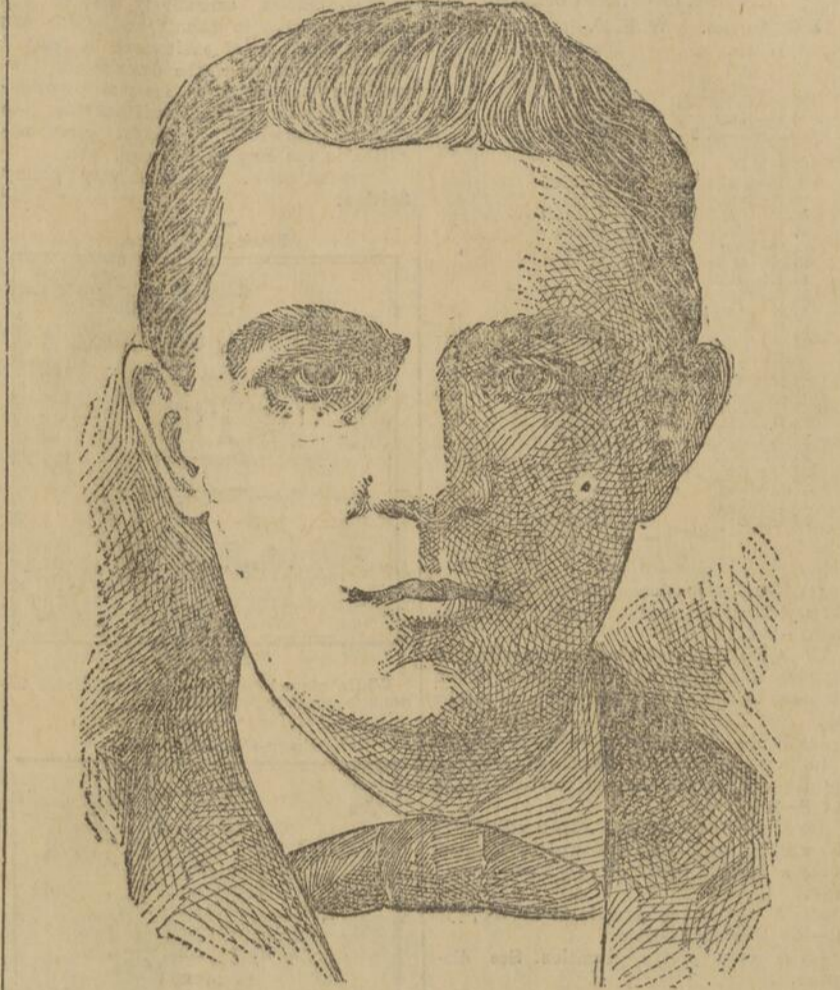

According to the cholera returns there occurred during the first fortnight of September in the Province of Volynia, Russia, 7,827 cases and 3,093 deaths.

Musical Matters.

Lovers of "Americanism in music" will do well to note the names of the following Chicago composers: Henry Schoenfeld, Adolf Weing, Robert Godbeck, P. C. Lutkin and Harold Knapp.

We hear a great deal about the influence of example now-a-days, which, like the microbe theory, may be very much exaggerated, so many people escape the infection. Two recent examples may illustrate this. The first is the production of Humperdick's "Hansel and Gretel" in New York, on 8th Inst., at "Daly's."

The story is from Grimm's Fairy Tales, and was adapted by Edm. Watts, the composer's sister. "Peter," the boy, and his wife "Gertrude" sends the two children "Hansel" and "Gretel" out to gather strawberries, as a punishment for neglect of duty.

The second instance to which I refered could be noted in the difference between two operas performed last week at the Opera Francaise here, one "Les Mousquetaires de la Reine," by Halévy.

The performances at the Opera Francaise continue to be exceedingly fine. The singers are all good, so good, in fact, that it seems almost invidious to speak of them individually.

A most extraordinary criticism in Le Monde on "Traviata," attributes that certain falsetto in singing, of which it complained, was almost exclusively due to the absence of certain instruments in the orchestra.

I should rather say it arose from such things as fatigue, vocal strain, unfamiliar climate, or the ordinary passing causes, and I think the most prolific cause, and the one which is in my mind answerable for most of the defects of a French vocal performance, is the intense strain put upon the vocal cords by forcing the voice in high notes and in impassioned passages.

This seems to me, however, so far as the Opera Francaise is concerned, to be a very small matter. The artists are excellent and the performances as good as any reasonable person could expect. In fact the best we have ever had here with the exception of a few high prices and desultory combinations.

It will be interesting to note that the name of the Cote St. Antoine Choral Society has, with the change in the name of the town, been converted into the Westmount Musical Society. It is its intention to endeavor, under the leadership of Mr. Charles Geides, to foster instrumental as well as vocal music, as there are some good musicians among the members of the society.

Mr. Geides is a good leader and an accomplished musician, and I wish him every success.

Miss Steel, who accompanied at the Heinrich and Leo, was the other night, is a pupil of Konigsberg, and gave great promise. I believe she intends to

UNHEALTHY FICTION DECLINING—LITERARY TASTE IMPROVING. A Washington Revival—A New Novel by William Black—Gossip of the Literary World.

New York, Oct. 14, 1895.—The wave of unhealthy fiction is practically over. This is strikingly evident from the announcements of the novels for the season. In fact, so convincing is this that not less than eleven novels of the so-called self-analytical English school are in New York in sheet form, going begging for American publishers, whereas, a year ago they would have found any number of bidders.

Hardware has solicited the opinions of the leading bicycle manufacturers of the country as to the number of bicycles manufactured in America during 1895 and the probable output for 1896. The responses, which are from the leading manufacturers of the country, place the output for 1895 anywhere from 450,000 to 750,000 and that of 1896 from 600,000 to 1,000,000. A fair average of these opinions would bring the prophecy for 1896 to over 750,000 wheels. The general opinion is that prices will remain about the same as 1895. The fear is expressed by some manufacturers that the business will be overdone, more especially in the cheaper grade, although production will be restricted somewhat by the inability to obtain material. No fear is expressed in any quarter of there being any falling off in the demand because of a waning interest of the public.—Hardware. THE PAIN LEFT QUICKLY. Rheumatism of Seven Years' Standing. I have been a victim of rheumatism for seven years, being confined to bed for months at a time, unable to turn myself. I have been treated by many physicians in this part of the country, none of whom benefited me. I had no faith in rheumatic cures advertised, but my wife induced me to get a bottle of South American Rheumatic Cure from Mr. Taylor, druggist, Owen Sound. At the time I was suffering unbearably, and in the middle of twelve hours after I took the first dose the pain left me. I continued and I took three bottles, and I consider I am completely cured.
