

MONTREAL, MONDAY, OCTOBER 12, 1903.

WHARF PLANS
For Construction of New Pier at
Longue Pointe Approved.

HARBOR COMMISSIONERS TRANS-
ACTED MUCH BUSINESS AT ITS
MEETING THIS MORNING.

I am now thoroughly convinced that this Board as at the present time constituted will never build the proposed new wharf sheds, were the remarks made by Mr. Doran at the meeting of the Harbor Commissioners this morning, in incidentally referring to the setback given the sheds at a recent meeting of the Board, in order to allow the chief engineer further time to prepare and report on the estimated difference between the cost of elevated tracks and the present plans of the new sheds as submitted.

GREAT FLOOD
EXTENSIVE DAMAGE DONE IN
NEW JERSEY TOWNS.

Paterson, N.J., Oct. 11.—For nearly 48 hours Paterson has been at the mercy of the Passaic river. The waters reached a height sufficient to cut the western from the eastern half of the city. Two bridges above the Falls of the Rocks still stand, but it is impossible to reach them. Seven other bridges in the city have been carried away at a loss of a million dollars.

WHEAT RECEIPTS
OVER FIVE MILLION BUSHELS
HAVE ENTERED WINNIPEG
TO DATE.

Winnipeg, Oct. 12.—The total amount of wheat received to date by the C.P.R. is 3,478,312 bushels, and that received by the G. T. R. about 1,700,000 bushels. Of 278 cars from the North-West inspected on Saturday, 92 cars graded No. 1 Northern, and 100 No. 2 Northern. The weather is again most favorable for threshing and shipment.

SISTER MAGDALENE
MR. J. J. KELSO PUTS A DIFFER-
ENT LIGHT ON ALLEGED AB-
DUCTION CASE.

Toronto, Oct. 10.—A different complexion is thrown by Mr. J. J. Kelso, superintendent of neglected children for Ontario, on the case of Sister Magdalene, who was charged with the abduction of a seven-months-old child at Niagara Falls. The baby was illegitimate, and had been cared for, as well as the mother, by Sister Magdalene, who appears to have been acting solely from a desire to further the best welfare of the child.

BANKS FISHERMEN DROWNED.
Halifax, N.S., Oct. 11.—The Gloucester schooner 'Bohemia,' from the Banks, arrived at North Sydney to-day, and reported the loss of two of her crew, Charles Peary, of Arichal, and William Hare, of Burgee, Newfoundland. They strayed from the vessel on Thursday while hauling trawls. The vessel cruised around in search of them, and on Friday the dory was found bottom up with the lifeless body of Hare clinging to it. The body was brought to port, and will be sent to his home. There was no trace of Peary.

RUSSIA AND JAPAN
Fleet of the Former Comprising
Ninety Ships Leaves Port
Arthur

London, Oct. 12.—A despatch to the 'Morning Post' from Chefoo, dated Oct. 10, says that the Russian fleet has cleared from Port Arthur with a total strength, including auxiliaries, of ninety ships. It is reported in Chefoo that the Japanese are landing troops at Masampo, Corea.

McGILL FIELD DAY
ANNUAL GAMES IN PROGRESS TO-
DAY—RECORD BROKEN.

The annual games of the McGill University Athletic Association, which were postponed Friday on account of the rain, are being held to-day. Two events took place this morning on the college campus before a large and enthusiastic crowd of students.

INDIANS AND LIQUOR
WHOLE FAMILY KILLED IN A
DRUNKEN ROW IN MONTANA.

Browning, Mont., Oct. 12.—Seven Indians have been killed and two wounded during a drunken row on the Black Foot Reserve.

COLLEGE NOTES
The McGill Association Football Club
held a very successful practice on the
college campus this morning. A large
number of players turned out.

A meeting of the Undergraduates' Society of McGill University will be held in the science building to-morrow evening at five o'clock, for the purpose of completing the arrangements for the annual theatre night, which takes place next Friday.

ALLEGED BLACKMAIL
A MUSIC HALL DANCER ACCUSES
NOME CHIEF OF POLICE OF
FORCING MONEY FROM HER.

Seattle, Wash., Oct. 12.—Annie Brown, a music hall dancer, of Nome, has preferred charges of blackmail against Noble Wallingford, Chief of Police; E. E. Hill, City Councillor, and Patrolman Hackett, all of Nome. The three were arrested on Sept. 27, by a deputy marshal, and set at liberty on \$500 bail each. The woman alleges they forced her to give them \$700.

STRUCK A HAND CAR
ONE MAN KILLED AND TWO OTH-
ERS INJURED.

Winnipeg, Man., Oct. 12.—The C. P. R. special train carrying the manufacturers' excursion eastward, struck a hand car with seven men aboard near Rat Portage, on Saturday evening. William Woodhouse, aged sixty, an English army pensioner, was almost instantly killed, while Theo. D. Anstine and J. Kenyube, aged thirty-five and forty-five respectively, both foreigners, were badly injured. The others escaped by jumping. The manufacturers collected a purse of nearly a thousand dollars for the afflicted families.

IRISH LAND ACT
MR. JOHN REDMOND DOUBTS
THAT IT WILL PROVE EF-
FECTIVE IN PARTS OF
CONNAUGHT.

London, Oct. 12.—Mr. John Redmond, the Irish leader, speaking at Tulsa, Rogin, common, expressed doubt whether the new Irish Land Act would prove successful in the congested districts of Connaught, but, he said, if the landlords refused to sell their grazing ranches to the congested districts board it would be easy in the present condition of the English parties to get compulsory powers at the next session of Parliament. He therefore warned the Irish landlords and Irish government not to prove obdurate.

WOOLEN MILLS RESUME WORK.
Peterborough, Ont., Oct. 12.—The Au-
burn woollen mills, which have been par-
tially closed for some weeks because of
lack of orders, will resume work to-day
with at least two-thirds of their former
staff. This is due to the fact that re-
cently orders have been received which
warranted the management in resuming
operations with a comparatively full staff.

KILLED BY A TRAIN.
Galt, Ont., Oct. 12.—Edward Adkins,
48 years a resident in Galt, has been
killed by a train at Colo, Iowa, accord-
ing to word received here. Mr. Adkins
left Galt three weeks ago for Grand Is-
land, Nebraska. He leaves a widow
and two children.

TOOK HIS OWN LIFE.
Charlottetown, P.E.I., Oct. 11.—W. S.
Hacker, a wealthy resident of Wilmot,
Prince County, was found near this city
to-day with his throat cut. He had
been suffering from nervous depression
and was brought here for treatment, but
eluded his wife on Thursday and took his
own life.

BOOT AND SHOE TROUBLE
ARBITRATION PROCEEDINGS AT
QUEBEC BROKE UP IN
CONFUSION.

Quebec, Oct. 10.—It was expected that the tribunal of arbitration which has been sitting in the Court House since Oct. 2 would have settled the question of wages between the boot and shoe manufacturers and the leather cutters, but, judging from last night's meeting the settlement is as far off as ever, and there is no telling what the outcome will be at the end of this month. It broke up in confusion and came to a sudden ending. The attorney for the employees, Mr. Payment, withdrew and his representative on the board, Mr. F. X. Boileau, resigned. The trouble came through an effort to file reports of commercial agencies as evidence on oath. The following entry in the secretary's book explains the whole thing: Mr. Rochette, the

CAR REPAIRER KILLED.
Havelock, Ont., Oct. 12.—Henry
Weese, a C. P. R. car repairer, with
another workman, F. H. Falkner, was
making some repairs underneath a car-
riage when a shunting engine, with a
train of six cars, was run over and
upon the car. Weese was run over and
his body was almost cut in two, while
his left leg was severed at the knee.
Falkner had a narrow escape. Weese
was 45 years of age, and leaves a widow
and two children.

MANY BODIES FOUND
VICTIMS OF THE HANNAH COAL
MINE DISASTER ON JUNE 30.

Hannah, Wyo., Oct. 12.—Twenty-four badly decomposed bodies of victims of the disaster of June 30 have been found upon the opening of an entry into the Hannah coal mine. The remains will be brought to the surface for identification and burial as fast as possible. Of the 100 men who were killed twenty bodies still are missing.

REPORTS IN ST. PETERSBURG
St. Petersburg, Oct. 12.—Significance is attached here to the fact that the 'Official Messenger' and the 'Journal de St. Petersburg' print the Berlin 'Lokal Anzeiger's' despatch relating to the movement of the Russian fleet and the possible coincident landing of Russian and Japanese troops in different parts of Corea. Several newspapers publish reviews of Japan's military and naval strength.

SOLDIERS ATE CORDITE
HOW THE MEN IN SOUTH AFRICA
PRODUCED INTOXICATION.

London, Oct. 12.—During the South African campaign the British soldiers discovered a new and extraordinary form of intoxication. The ingenious privates found that they could get all the excitement of a powerful narcotic by eating a cordite charge of cartridges, each of which contains sixty strands of cordite, and is very similar in appearance to vermicelli. The 'British Medical Journal' gives particulars of this form of intoxication. It says that Major Jennings, on learning that the men had been eating cordite, made experiments himself. On sucking a strand he found it sweet, pleasant and pungent, but it resulted in a headache which lasted for thirty-six hours. Dissolved in tea, it produces almost immediate exhilaration, inciting to the most diabolical actions, followed by a heavy sleep and stupor of from five to twelve hours, according to the quantity taken. Added to beer, it produces the worst effects, exciting a quarrelsome and destructive mania, and producing the most rapid intoxication.

CHINESE MISSION THANKS MISS SANDERS.

Knox Church Chinese Sunday-school was increased by the addition of the Stanley Street School towards the close last evening, when, after introductory remarks by Dr. Thomson, Wi Chin Seng presented Miss Saunders, after reading and explaining it to the scholars, with a letter of hearty thanks in Chinese form, paper and envelope, signed by Hum Kah Chin, the injured man; Chinese C. E. and other representatives. Also the Rev. E. M. Dewey, with a few apt remarks, presented the following: 'To Miss Ethel A. Saunders, General Hospital, Montreal: The members of the Montreal Chinese Mission, in session at Calvin Church, have heard with much interest of your most praiseworthy act in so promptly and courageously staunching the life-blood of Hum Kah Chin, one of our scholars, in the sad accident of Oct. 6. Your act was all the more noteworthy in view of your youth and comparative inexperience, and under circumstances so painful and trying to even strong men, looking on, were well-nigh overcome. We would therefore hereby accord you a heartfelt vote of thanks, and pray that the abiding favor of God may rest upon you in the noble calling you have chosen, and for which you have shown such admirable fitness. The Rev. F. M. Dewey, president; Mr. G. E. Robertson, secretary; Miss Saunders expressed her thanks for the letters, and after a word of song in conclusion, the Rev. Mr. Fleck prayed for the hospitals, those benevolent institutions for the relief of human ill, for the nurses, and for the Chinese and the work in their behalf. Dr. Turner, superintendent of the General Hospital, wrote his hearty appreciation of the object of the meeting, though unable to be present, adding: 'We are always pleased to assist the Chinese in any way possible.'

KINDERGARTEN MUSICAL.

The forty-seventh concert of the Montreal Conservatory of Music, of which Mr. G. E. Seifert is the director, was given at the Westmount branch in Victoria Hall building on Saturday afternoon. The performance was entirely in the hands of the junior pupils, the children varying in age from five to eleven years. It was scarcely credited that children at so young an age could render such attractive numbers and entertain the audience by her performance of the piano, as well as on the violin, showing how much may be accomplished by even so tiny a child. Miss Vera McCloy, who is only seven years old, may safely be called Montreal's youngest and most gifted elocutionist, as she possesses rare talent for a child so young, and certainly has a future before her. The audience, which was large, felt that they had witnessed a most successful performance.

JUNIOR BAR MEETING.

Thursday being Thanksgiving Day, the Junior Bar Association will hold its fortnightly meeting on Friday evening at Laval University, where it has temporary quarters. An interesting debate will take place. Dean Walton, of the McGill law faculty, will give a lecture on 'The New German Code' in December, and other addresses on important questions of the day are being arranged for.

THE 'COMBAT'S' FIRST APPEARANCE.

The 'Combat,' which is a successor to the 'Debat,' put under the ban by Archbishop Bruchesi, made its first appearance yesterday. The only reference to the new organ's predecessor is in the shape of a caricature showing a hand in the act of placing an extinguisher over a very brilliant light, while candles marked 'Canada,' 'Journal,' 'Press,' 'Patrie,' etc., are still burning, and below the caricature are the words: 'That one gave too much light.'

SPECIAL NOTICE.

The Multiplicity of Styles.—We believe that more real information can be acquired about modes from an inspection of The S. Carsley Co., Limited's fine stocks of mantles, than from all of the fashion journals that are printed. One ceases to wonder at the immense business done by this company when the great range of styles that their stocks embrace are considered. Five hundred different effects, if you include the capes, is not an over-estimate, and effects that have been purchased in the European and other centres of fashion by a personal representative.

THE FIRE RECORD.

Halifax, N.S., Oct. 10.—Fire at Herborn, Yarmouth county, this morning, destroyed the principal part of the town, including Patten's shoe factory, Doty's carriage works, and Perry's grocery. The loss is heavy. Many men are thrown out of employment.

IN WOMAN'S REALM

THE LINEN CHEST REVIVED.

We have been used of late to think with some amusement, a little compassion, and no small self-complacency, of the preparations for their marriage to which the girls of two or three generations ago devoted most of the leisure hours of their girlhood. Especially has the anxious effort to accumulate a vast store of linen for the prospective household, begun by the mother of the girl, baby and continued by the maid herself, appealed to this age of athletics and highly-educated young women something like a waste of good time. And now, behold, the revival of the linen chest!

In some of the New York shops today one finds chests intended for the collection of linen, some in plain oak, cherry, and other woods, and other chests finely and elaborately carved or finished in 'Art Nouveau' style. Many girls are fortunate enough to possess for the asking the big old cedar chests used for the same purpose by their grandmothers.

It is easy to have an exceptionally beautiful supply of linen if one watches the sales, and if one buys a little at a time. Even though a woman has a limited money at her disposal she can not at one swoop collect a stock of linen as satisfactory as one picked up piece by piece, because of some particular merit or charm in each piece.

One may buy almost any sort of linen store-hemmed, nowadays. The hurry and rush of modern life has demanded that concession, but some few girls prefer hemming and working their own linen, and others will employ some one else to make a little money in this way.

Of course the supply the girl will need will depend upon the position she will occupy, but it is hard to get too much linen. First there is the kitchen supply, cup towels, glass towels, roller towels, dish cloths, chesscloth dusts, etc. All these are to be hemmed, worked with one or two initials and laid away in the linen chest. But the delightful part of the work is the choosing of the general house linen in varying grades. Here temptation meets one, but one must keep a level head and consider the practical as well as the beautiful, and one must learn to be an unerring judge of quality. The attractive designs of many of the cheap modern linens blind the novice to the defects in quality, and it does not pay to buy poor linen, unless anything else is absolutely out of the buyer's reach. One soon learns to discriminate and to pick up excellent bargains at a comparatively low price.

The girl who has had the linen laid for even a few years in a condition to face housekeeping with the courage which a bountiful supply of fine linen cannot fail to give.

WOMEN OF TO-MORROW.

Great as has been the demand for adaptation made upon the race, that made upon women alone has been still greater. Here are some typical facts. In 1800 less than a hundred women were employed in factories in the United States. Employment in other lines outside those strictly domestic was rare. Even women teachers were few. Today 5,000,000 women are engaged in the United States in 400 different wage-earning occupations. In 1840 there was not a college in that country 303 colleges were open to both men and women, 127 to men alone and 170 to women alone—an actual advantage of forty-three in favor of women. In 1900 there were in colleges in this country 58,467 men and 34,907 women—that is, nearly sixty per cent as many women as men. In 1900 in the United States, degrees were conferred on 10,784 men and on 4,263 women—more than one-third as many women as men.

The field that the college alone has thrown open to women is of bewildering extent and charm. Friendship, athletics, scientific research, several of the professions, have brought us their novel offerings. Education, physical vigor, social influence, accomplishments—these are our weapons for the battle of life. They are our victory, nor do they insure it. The very phrase 'the educated woman' is a misleading one, but it must serve in default of a better one. The woman of the future will hold her education at its due worth.

This future woman, says a writer in the 'Outlook,' will have the most gracious and alluring manners the world has ever known. She will have the simplicity of the Quaker, and the elegance of the French woman of the salon. Are in strident voice, a hurried gait, an elbowing push, the necessary result of the thorough study of the natural laws of this well-ordered and noiseless universe? Hasten the day when it shall be tautological to say:—She is an educated woman with beautiful manners!

The girl who takes prizes in athletics during her four years in college, and then goes home to factory, or to village where there is neither gymnasium nor basketball team nor golf links, may easily find herself irritable under her deprivation. There is one suggestion for the partial solution of the problem, but it is not a popular one. The sound mind in the sound body may thrive not only on systematic athletic training, but also on manual labor of the most practical kind. The stigma so long resting on domestic labor must some time be removed, as that which long rested on 'trade' has been. If the educated woman can contrive some sort of return to certain phases of manual work, she will not only provide a relief for her own nervous activity and help to adjust the domestic problem, but she will also broaden the bands of her own sympathy with ordinary life.

The educated woman of the future will have a larger measure of that potent combination of common sense, a trained judgment of human nature, and a warm heart.

HINTS FOR THE TABLE.

Chocolate Custard.—Melt two squares of chocolate in a saucpan with one-half cup of sugar and two tablespoons of hot water. Beat four eggs well, add four cups of milk and the prepared chocolate. Pour into buttered cups and set them in a pan of hot water in a moderate oven. Serve ice cold.

' ANCIENT AND HONORABLE.'

Montreal Pleasantly Invaded by the British and United States Ancient Artillery Companies.

WONDERFUL UNIFORMS, CLANKING SWORDS, A GORGEOUS PAGEANT.

The simpler the life in democratic countries, which are happily free from the incubus of militarism, the more precious to many minds become the outward symbols of military glory.

At the same time, it must be admitted that the military invasion which took place to-day in Montreal was a pleasant and attractive one.

just stepped out of the pages of revolutionary fiction. The minute men wore white or buff-colored uniforms. There is a swallow tail coat, slashed at the points with gold; there are the long shining Wellington boots, with the tassels hanging down; there are the dainty silk ruffles at the wrist, which give the hand a delicateness which would be complete if one could note the fringes, gently parted, conveying to the nostrils from ivory snuff boxes, a delicate pinch after the manner of the ancient times.

GUNNERS OF THE HONORABLE ARTILLERY COMPANY OF LONDON. OFFICERS OF THE HONORABLE ARTILLERY COMPANY OF LONDON.

And so, at an early hour this morning, with bands playing and drums beating, both companies entered the city, in all the glory of uniforms which dazzled the eyes, and with a conscious march which sent a thrill down the spine of every young fellow on the street in the neighborhood of twenty-two.

held finically between the fingers, there is, in the case of the young, the distinct suggestion of romance; and today the Minutemen (that is the young men of the party) were voted, all the way to the hotel, to be 'darlings' by the ladies.

Let it be noted—the uniforms of the Americans were so gorgeous, so various, so representative of every arm of the service, so costly and elaborate, that one was tempted to think he was witnessing an immense theatrical spectacle. The explanation is this: When you join the Ancient and Honorable Company of Artillery in the United States, you can still use the uniform of the regiment in the army of the republic to which you belong.

But, of course, the Minutemen are only a segment. There are dozens of other uniforms. There is a white vest with brass buttons; there are gold lace ornaments and tinsel emblems; there are lines on the trousers as broad with color as the leg itself; indeed, the Windsor Hotel never witnessed such a color scheme since its inauguration.

LORD DENBIGH.

Now, the British visitors are all arrayed in an identical uniform—that is to say, the dark blue with the red stripe down the trousers. Lord Denbigh, the colonel, was simply attired. This was the distinguishing note—the British were simple; our American friends, taken from the many regiments which comprise the national army, were various, splendid, scintillating, magnificent—in short.

There was breakfast at the hotel, and lounging about, and about eleven o'clock there was a muster for the train, in order to go to Lachine to shoot the rapids. First, there were our own local officers, some sixty in all, who had escorted the visitors from the train to the hotel in the morning and who returned to accompany them to the boat by way of the Grand Trunk. These were in a variety of undress uniform, and looked very well. One noticed among the crowd the soldierly figure of the Rev. Dr. Hill.

The march out commenced about 11 o'clock. First of all there was a squad of policemen, twenty-five in all; then four of our mounted police; after this, the local officers, of whom the most prominent was Lieut.-Col. Stevenson, still hale and hearty; after this, the Salem Cadets band, followed by the Ancient and Honorable Artillery Company of Boston. Only some fifty members accompanied the British on the boat, many preferring to remain in the hotel until the ride in the afternoon about the city. The Americans march well, and were greatly admired by the crowds which lined the sidewalks on Windsor street in front of the hotel, and which had waited until its nose got a little blue on a sharp day for the warriors to appear.

The British appeared in full strength, and looked remarkably well. They numbered something like one hundred and thirty-six. They were in undress uniform. The Earl of Denbigh, who is at their head, is a young man, well formed, looking every inch a soldier. He has his immediate staff, who are tall and young and shapely, while the rank and file are, as already noted, for the most part, young and slim and soldier-like, although there is a curious sense of big-de-piggledness as to height—indeed, violent contradictions exist in this respect. Curious, too, to note that there was very little enthusiasm along the route. The crowds were thin; from the British and American—new from the Windsor Hotel and other public buildings; the bands played stirringly, but there was little manifestation of feeling all the way.

together, laughing and talking and smoking. Amongst the large number of officers of Nos. 3 and 6 districts who met the distinguished visitors at the Bonaventure Station were Lieut.-Colonel Gordon, D.O.C., Lieut.-Col. Matuce, Lieut.-Col. Fred W. Hubbard, Lieut.-Col. Carson, Lieut.-Col. Finlayson, Lieut.-Col. Wilson, Lieut.-Col. Starke, the Rev. Dr. Barclay, chaplain; the Rev. Dr. Hill, chaplain; Lieut.-Colonel Denbigh, Lieut.-Col. Stevenson, Lieut.-Col. G. A. S. Hamilton, Lieut.-Col. F. S. Mackay, Lieut.-Col. E. B. Ibbotson, Lieut.-Col. F. Minden Cole, Major H. S. Birkett, Major S. Howard, Major W. J. Stewart, Major F. D. The Honorable Artillery Company of London is the oldest military organization in the world. It was incorporated by Henry VIII. in 1537 as a livery school for training soldiers, and antedated by more than a hundred years the formation of any other British military company. It has, besides its age and epicurean propensities, the distinction of having been commanded by kings and princes, and officered by dukes and earls. The proudest families of the realm have been glad to enroll their sons among its members, and it has been granted, and still enjoys, many privileges and immunities peculiar to itself. From the time of its foundation until the present it has been wholly distinct from all other military bodies of Great Britain, in that it is self-sustaining, receives no aid from the public funds, and is the only corps outside the regular British army that bears the 'king's colors.' Its government is based upon royal warrants that have been confirmed by each succeeding sovereign from the time of Henry VIII. When this most notable corps of volunteers was yet in its infancy the King himself (Henry VIII.) was accustomed to join in their exercises, particularly in that of the bow, in the use of which His Grace was particularly skilful. In the reign of Elizabeth, when England was threatened by the Spanish Armada, the Honorable Artillery Company garrisoned Tilbury Fort. In the time of James I. the pikes of the Artillery Gardens were well known and considered a formidable force, and are mentioned by Sir Walter Scott in 'The Fortunes of Nigel.' During the struggle for liberty in the reign of Charles I. the Honorable Artillery joined the popular side, and at the Battle of Newbury were the only regiment that could withstand the charge of Prince Rupert's cavalry, which before that had carried all before them. In the two subsequent reigns they were considered of sufficient importance to induce the sovereigns to interfere in the election of officers in order that they might place those in command who were thoroughly devoted to their interests. Since that period they have frequently been instrumental in preserving the peace of the city and suppressing popular commotion, and in the famous riots of 1780 they saved the Bank of England from being pillaged and burned by the mob.

When the Ancient and Honorable Artillery Company of Boston celebrated its 250th birthday in 1888, the Honorable Artillery Company sent over a delegation of officers and privates to assist at the joyous affair. The occasion was a memorable one. The relations between the London corps and the Boston company, its offspring, have always been most cordial. In 1857 H. R. H. Prince Albert, the Prince Consort, who was then colonel of the Honorable Artillery Company, was made an honorary member of the Boston organization. In 1878 King Edward, then Prince of Wales, and commander of the London corps, was similarly honored. As for the Ancient and Honorable Company of Boston—that was formed shortly after the parent corps in England. It was called the 'Ancients' simply to distinguish the daughter from the parent. Several were asked if the word laid no more recondite meaning, but the answer was general that as the Honorable Company of London was the first to form, the word 'ancient' was simply used by the English in Boston in pre-revolutionary times to avoid confusion in the matter of baptism. In the case of the Americans, most of the members belong to the army, but as regards the British company, the membership is chiefly composed of gentlemen who, no doubt, would be very willing to fight for their country but who are chiefly to be found in the ranks of civil society. However, the chief thing is—these bodies represent international feeling, and Montreal is certainly pleased to witness this fraternization, which is not without its influence in the world of politics.

CONCERNS OF A GREAT CITY. The statistical tables published recently by the London City Council are most interesting and show among other things that the London tram cars during the year ended June 30, 1902, carried 337,000,000 millions of passengers.

As in the bathing and boating season fatal accidents can usually be traced to ignorance or carelessness, so during the hunting season fatalities take place which the exercise of the least prudence would have prevented.

WHEAT.

We have read a story of a farmer who consoled himself for the partial failure of his crop with the fact that his neighbors' crops were just as bad. This is this season the position of the Canadian farmer, and his consolation is a very real one, amounting to ten cents a bushel on his wheat.

A gathering of Crimean and Indian veterans took place at Canterbury on Monday evening, Sept. 21, to commemorate the forty-ninth anniversary of the battle of the Alma.

Mr. Walter Langton, J.P., who has been absent in Canada for six months for the benefit of his health, on his return was given a rousing welcome by the members of the Young Men's Christian Association, Mount Pleasant, Tunbridge Wells. Colonel Wilson welcomed back Mr. Langton in a warm speech, to which the gentleman responded, and gave a few particulars of the Y. M. C. A. work in Canada.

Lord Charles Beresford and the officers and men of the Channel fleet were unable to land at Scarborough on a recent Monday owing to the heavy sea, and the civic entertainments provided for them were therefore abandoned.

An avenue of trees half a mile in length has just been planted in the Datchet Road leading out of Windsor to Datchet. At each end an ornamental plate has been fixed bearing, by the King's permission, the name 'King Edward the Seventh's avenue.'

A wedding party assembled in the Free Church, Blyth, recently, but great was the consternation of all when it was found that the registrar had not been notified. As he was out of town, the disappointed party had to go away without the ceremony being performed.

Rear-Admiral Lambton has, through the Admiralty, demanded an unreserved apology from General Sir Archibald Hunter for statements as to the alleged inefficiency of the gunnery of the Naval Brigade at Ladysmith, made by that officer before the War Commission.

The number of unemployed at the London Docks is exceptionally large for the time of year, and the outlook for

the winter is a gloomy one. The plague of rats continues at the docks, despite the fact that within eighteen months 240,000 have been killed and cremated.

A young girl named Ellen Smith was severely burnt in a hop garden near Waterbury. She was standing near one of the camp fires when her dress caught fire. Instantly she was rolled among the vines to smother the flames, but was severely burnt, necessitating her removal to the hospital.

One hundredweight of honey has been taken from a space between the ceiling of a ground floor and the floor of the next story at the house of Mr. Allan Benjamin, auctioneer, Hentridge, Dorset. For several years bees had been observed going in and out of a small hole in the mortar.

Thousands of barrels of herrings are stocked on the piers of Scarborough, and the other day, when great seas washed over the wall of the outer harbor, barrel after barrel was swept into the sea. It is estimated that fully £100 worth of herring was lost in this way.

King Victor Emmanuel is expected to arrive in London about Nov. 14, and to remain for a week or ten days. Immediately after his arrival His Majesty will proceed to Windsor and enjoy four days' shooting in Windsor Great Park. During the remaining portion of his stay King Victor will reside at Buckingham Palace or St. James's Palace.

During the recent gale the pinnacle and part of the ornamentation, including the south-western gargoyle of the Thirsk memorial clock, in all about eight tons in weight, fell a distance of 20 feet. The clock was built in 1895 to commemorate the marriage of the Duke and Duchess of York. It being market day at Thirsk the market place was crowded at the time, especially round the clock steps, but luckily no one was injured.

An accident occurred recently at Bournemouth West railway station, to the 7.50 up London express. The carriages had been made up ready to start, when the large powerful engine coming down the incline from the sheds dashed into them. William Saunders, fireman, aged 40, sustained a fracture of the base of the skull in jumping on to the platform from the runaway engine, and Harry Acland Smith, the guard, had three toes smashed. The only passenger injured was a Miss Nethersole, who had a slight cut on the head.

An interesting Conservative claim came before Mr. John Earle Raven, who was at Battle, for the purpose of revising the list of parliamentary electors. The claim, which was made by Mr. G. Currie, son of the Dean of Battle, was in respect of a building on the Dean's ground, a substantial structure built for chemical experiments by Mr. Currie. He often used the building when at home, which was for about six to nine months in the year. Mr. Maer Wright objected, and asked whether if a son had an aviary, he would be entitled to a vote. The revising barrister considered that was a different thing, and allowed the claim.

A striking scene was witnessed at Dover at the funeral of Police Inspector Naah, who was killed whilst assisting to launch the lifeboat in the recent gale. The procession was a very long one, and there were many evidences of deep sympathy. In addition to the uniformed constabulary of the Dover force, under Chief Constable Knott, there attended a detachment of the Kent County Constabulary, a naval brigade under Chief Officer Thomas, the military police of Dover garrison, Scotland Yard representatives, lifeboatmen, members of the St. John Ambulance Brigade in uniform, and representatives of public bodies.

A terrible accident occurred on Scawfell, involving the deaths of four persons, three of whom were, it is assumed, killed outright, while the fourth lived only a short time after he and his unfortunate companions were found, and was quite unable to give any account of the disaster. One of the victims was Mr. R. W. Broadrick, a master at Pettus College, Edinburgh, who had been spending the recess at his home at Highfield, Windermere. The other victims were Henry L. Jupp, 84 Willeys road, Croydon; Stanley Ridsdale, Heatherly House, New Gardens, London; and A. E. W. Garrett, 12 Ross road, Wallington, Surrey. They had set out to climb Scawfell from its inaccessible side, and roped together, all fell before ascending to any great height.

A shocking murder was committed at Swindon, a barmaid named Hettie Swinford, engaged at the Ship Hotel, being shot dead by a former lover, named Richard Palmer, laborer. The parties were engaged in a quarrel, and the barmaid broke off the match, after having, it is said, published the bans of marriage. He went to Canada, and returned recently. On Friday he went into the Ship Hotel and called for beer, and when the barmaid served him he pulled out a revolver and shot her dead. When arrested the accused said, 'All right; I did it.' Palmer is twenty-seven and Miss Swinford was twenty. A photograph was found on the accused of the deceased, bearing the inscription, 'The curse of my life,' and on the back were the words, 'To Dick, with love, from Hettie.' The prisoner, who maintained a stolid demeanor, asked no questions, and reserved his defence. He was committed for trial at Wilts Assizes.

SCOTCH.

The King has purchased the property on the Balmoral estate presented to John Brown by her late Majesty Queen Victoria.

A marble bust of Queen Victoria has been placed in the entrance hall at Balmoral, near Theod's fine statue of Prince Albert, who is represented in Highland dress.

The Rev. Dr. Stalker having been appointed to the United Free College,

Aberdeen, the Rev. David Christie, of Nicolson Street Church, Edinburgh, has been called to St. Matthew's United Free Church, Glasgow.

Mr. Macpherson, ex-bailie, writing from Cluny, Levenhall, sends to the 'Scotsman' a sprig of apple blossom cut off a young tree in his garden displaying a full blow of blossom. The tree is little over three feet high, and has several large apples on another branch—fruit and blossoms thus growing simultaneously.

Mr. F. W. Pomeroy, the sculptor, has been commissioned by the Scottish Association of New South Wales to execute a bronze statue of Robert Burns for erection in the Sydney domain on a site to be given by the State Government. The statue will be moulded on a pedestal of granite, and on the base will be depicted scenes from the poet's works. It is expected the monument will be finished and erected before the end of next year.

While the vessels of the Channel fleet were proceeding up the east coast of Scotland recently, H. M. S. 'Sutley' collided with and sunk a barque named the 'Charles Chalmers,' of Aberdeen. The captain of the barque, a passenger, and three of the crew were drowned, and two were picked up alive by the cruiser's boats. The weather was foggy at the time of the collision. The names of the drowned are:—George Wishart (maker), 19 Cotton street, Aberdeen; William Smith (mate), 43 St. Andrew street, Aberdeen; John Macintyre (cook), Aberdeen; John Pratt, (passenger), Newcastle; Frank Dunne (A.P.), a Swede who joined the vessel at Sunderland.

Crathie Parish Church, in which Queen Victoria worshipped so regularly, is a most fitting place for a memorial of the great Queen. Such a memorial in the form of a beautiful portrait bust of her late Majesty was unveiled by King Edward on Sunday, Sept. 20. The King was accompanied by the Prince and Princess of Wales and other members of the Royal Family, and the congregation included the Prime Minister, the Marquis of Lansdowne and Lord Balfour of Burleigh. The officiating clergymen were the Very Rev. Dr. Gillespie, Moderator of the General Assembly of the Church of Scotland, and the Rev. S. J. Ramsay Sibbald, the minister of the parish of Crathie. Dr. Gillespie preached an eloquent sermon on the noble character of the late Queen Victoria.

The death took place on Sept. 19 at Aberdeen of Alexander Bain, M.A., LL.D., Emeritus-Professor of Logic and an ex-Lord Rector of Aberdeen University. Professor Bain had a European reputation as a great thinker, eminent scholar, and philosopher. His best known work is 'The emotions and the will.' In 1860 Mr. Bain was appointed the first professor of logic in the University of Aberdeen, occupying the chair for twenty years, and shedding great lustre on this ancient seat of learning by his original writings, which had a world-wide reputation. From his prolific pen have come text-books on astronomy, electricity and mineralogy; a grammar, a manual of English composition, and many treatises in mental and moral sciences. He wrote a biography of James Mill and a criticism on John Stuart Mill, with personal recollections. Mr. Bain was in his eighty-eighth year. His death was closed an interesting career. Born in Aberdeen in 1818, he was the eldest of a family of three sons and one daughter. His father and mother were weavers, and all the children were bred to the same trade. Alexander worked at the loom for the few years that enabled him to educate himself. To the science and literary classes taught in the 'Mechanics' Institute he owed his first steps in the higher branches of instruction, and he entered Marischal College when he was eighteen years of age. Four years later he graduated M.A., and the distinction he obtained there is evidenced by his appointment to conduct the class of moral philosophy, and subsequently that of natural philosophy, as substitute for the professors of these subjects. Among his contemporaries at Marischal College was David Masson. Dr. Bain was twice married, but by neither wife had he children.

The seventeenth dinner of the Black Watch Association, which marks the anniversary of Alma and Tel-el-Kebir, took place, on Sept. 19, in Glasgow, the company of fifty including six who were present at the Battle of Alma, forty-nine years ago. Replying to the toast of 'Our president and vice-president,' proposed from the chair by Lieutenant-Colonel A. G. Duff, Staff-Sergeant Adams gave an interesting account of General Rollo's connection with the Black Watch since 1851, in which year the General was sent to Bermuda in command of the then No. 9 company. He was very strict, but a kind, sympathetic, capable, and just officer. Afterwards he accompanied him to North America, where his company was stationed in Prince Edward Island. He continued in command of the regiment until 1855, when it was sent abroad. Then they went to the Crimea just forty-nine years past in May; in another year therefore they would hold their jubilee. The last time the 42nd had been in Glasgow was under his charge in 1837. He had received an Army List from the general asking him to look over the papers, and see how many of the old officers he could find. Out of these thirty-six odd officers who went out with the regiment forty-nine years ago there were now only five remaining. The youngest of these, Col. Halkett, carried the Queen's colors up the heights of Alma. General Rollo had always had a keen admiration of and warm interest in the late General Wauchope, and in a letter which he (Staff-Sergeant Adams) had recently received from General Rollo, he expressed his intention of giving a thousand pounds to establish a soldiers' home in Perth on condition that it should be named 'The Wauchope Black Watch Memorial Home.'

The King and Queen have intimated to Lady Londonderry their intention of visiting the twenty-eighth exhibition and sale of the Irish Industries Association, to be held at Windsor in November next.

Mr. Carnegie, who has presented ten thousand pounds for a free library in Cork, is to receive the freedom of that city. He has also offered ten thousand pounds to Tottenham for two additional libraries.

The 'Cork County Eagle' announces on authority that Lord Bandon has intimated his intention of selling his estates in County Cork under the new Land Act. The estates are very extensive, and are occupied by some 15,000 tenants.

Ten summonses were issued at the instance of the Flax Spinners' Association, Belfast, against various Birmingham drapers for alleged contravention of the Merchandise Marks Act. It was alleged that collars, fronts and buttons had been sold as pure linen, whereas they were a mixture of linen and cotton.

At the London Mansion House Thomas William Banks, superintendent of Customs at Sligo, Ireland, was charged on remand with embezzling £2,677. Accused was arrested at Ilfracombe while on his vacation. Counsel for the prosecution now said the Customs Commissioners felt it advisable that the defendant should be dealt with in Ireland. The alderman thereupon discharged the defendant, who was rearrested by a member of the Royal Irish Constabulary. Mr. Frampton, for the defendant, said that he was desirous of the fullest enquiry into the case. He had a complete answer to the charge.

After having faithfully served the city of Dublin Steam Packet Company for the lengthy period of 52 years, Captain Thomas of Westbury Mount, Holyhead, who is the commodore of the company's fleet, is about to retire. Now 75 years of age, the captain has been engaged in his profession for 61 years, and during the whole of that period he never met with an accident. Recently he was the recipient of a handsome diamond pin from His Majesty in recognition of his having piloted the royal yacht from Holyhead to Queenstown when the King and Queen visited Ireland. Captain Thomas also possesses a valuable souvenir presented by the Prince and Princess of Wales on their last visit to Dublin.

METHODIST MISSIONS

MEETING OF THE BAY OF QUINTE BRANCH OF WOMAN'S MISSIONARY SOCIETY.

(From a Correspondent.)

Cobourg, Ont., Oct. 12.—Cobourg was rarely privileged last week in having the presence of the delegates of the Bay of Quinte Branch of the Woman's Missionary Society in session here. The sessions opened on Tuesday afternoon, in the Methodist Church, with the president, Mrs. G. D. Platt, in the chair. Miss Ross, Port Perry, was appointed assistant secretary. Among the resolutions passed was one providing for having the W. M. S. year begin in May instead of September. Another asked that the names of auxiliary members, excepting officers, be omitted from the annual report. This was carried also. It was further decided that the collection at branch meetings be not used for making life members.

A letter was received from the president of the Provincial W. C. T. U. asking that a memorial be sent from the Bay of Quinte Branch to the Dominion Parliament supporting 'the abolition of the cigarette.' Later Mrs. Levi Massey brought a resolution embodying this before the branch and received the unanimous endorsement of the delegates.

The treasurer's report showed an increase of \$1,009 for the year. An increase was also reported for the 'Rest Fund,' and for the 'Easter Thank Offering.' Miss Annie Wilson, Newcastle, Mission Band corresponding secretary, reported an increase of fourteen mission bands. The total membership is 1,722, including over forty life members, and an increase of 576. Contributions, \$1,014, a considerable increase over last year.

The W. M. S. corresponding secretary, Mrs. Grange, Nanpue, reported thirteen new auxiliaries. Mrs. (Dr.) Nichol, of Montreal, was present and had on sale a beautiful collection of embroidered work, made by Japanese girls. Mrs. Nichol gave an admirable address on Japan, at an evening session. Mrs. (Rev.) T. M. Campbell, Toronto, replied to the address of welcome. Mrs. (Dr.) Willmott, president of the Toronto Branch, addressed an evening session also. Addresses and papers of much profit and interest were given by other prominent ladies of the Bay of Quinte Branch. It was the most largely attended and successful convention yet held.

TORONTO SINGLE TAXERS.

Toronto, Oct. 10.—At the annual meeting of the Toronto Single Tax Association, held this evening, the secretary, Mr. Walter H. Roebuck, reported the success of the street corner meetings held during the summer, on Saturday evenings, and of the futile efforts made by the authorities to stop them. Mention was made that two important clauses in the proposed new assessment bill, to be considered this coming session, by the Ontario Legislature, i. e., the taxation of franchisees and the abolition of the personality tax, had been the outcome of the association's influence. Copies of the Canadian Single Taxer, the organ of the association, were distributed to each member. It is to be sent gratis to each member. During the past year the membership had

TORONTO C. E. UNION. Toronto, Oct. 10.—The annual meeting of the Toronto Christian Endeavor Union was held in Zion Congregational Church, on Thursday, with the retiring president, Mr. G. R. W. Thomas, in the chair. Officers and members of the executive committee were elected for the ensuing year, and reports from the retiring officers were received. The Rev. Messrs. McTavish, Trelevan, Warnaker and others made addresses on the C. E. work, and the choir of the church led the singing in a creditable manner. A collection was received for the expenses of the union.

CHURCH OPENING

ROMAN CATHOLIC EDIFICE AT RICHFORD, VT., DEDICATED YESTERDAY.

Richford, Vt., Oct. 11.—To-day has been an eventful one for the Roman Catholics of Richford. The beautiful new brick church, costing \$30,000, was dedicated at ten o'clock by the Rev. J. S. Michaud, D.D., Bishop of Burlington. The following programme was observed: At ten a.m., dedication; overture, orchestra; eleven, High Mass and sermon by the Rev. D. J. O'Sullivan, St. Albans. Father O'Sullivan's sermon was a very eloquent one, given in his usual brilliant manner, his text being, 'For the Son of Man came to seek and to save that which was lost.' Bishop Michaud followed with closing remarks. At three p.m. a confirmation service was held, when a large class of boys and girls were confirmed, followed by a sermon by the Rev. Father Audett. The choir were assisted by Mrs. L. Paquette, of St. Albans, and the Waterloo, Que., orchestra, excellent music being rendered at both services. A special train came up from St. Albans bringing large numbers to the service. The new church stands on the finest site in the town, and is the most costly church edifice in Richford. The Roman Catholic Church now numbers six hundred members. Great credit is due the parish priest, the Rev. N. O. Dorion, for his untiring labors in erecting such a fine church edifice.

A PRESENTATION.

Mr. William E. Edsell, for a number of years assistant foreman of the 'Witness' news room, was on Saturday made the recipient of a handsome silver watch, chain and locket, by his fellow employees, on the occasion of his severing his connection with the 'Witness.' A beautifully illuminated address, the work of Mr. Whyte, of the Job department, was read by Mr. T. McComb, and the presentation by Mr. Deacon. Several congratulatory speeches followed, and at the close Mr. Edsell returned thanks in a few feeling words. 'For he's a jolly good fellow,' three cheers and a bounce terminated the proceedings.

CANADIAN EXAMPLE

CANON HICKS COMMENDS OUR SYSTEM OF TEMPERANCE LEGISLATION.

(Canadian Associated Press.) London, Oct. 12.—At the conference of the Lancashire-Cheshire Temperance Union, Canon Hicks, presiding, said he would be glad if the government would go straight to Canada or New Zealand and take from either its system of temperance legislation and try it in Great Britain. Canon Hicks cannot imagine a better eye-opener for some of our dilly-dilly statesmen than a study of the temperance question in the colonies. The more we know of colonial life and politics the better it will be for the advance of the temperance cause in Britain.

THE FISCAL FIGHT

COMMENT ON MR. WINSTON CHURCHILL'S LETTER.

(Canadian Associated Press.) London, Oct. 12.—The 'Westminster Gazette', in commenting on Mr. Winston Churchill's letter to Oldham Conservatives, says that the policy which would finally emerge if Mr. Chamberlain had his way would result in a great number of difficult and delicate negotiations with the colonies of which neither Mr. Chamberlain nor anyone else could foresee the outcome. What would eventually be done would be decided by the colonies quite as much as by the home government.

PACIFIC CABLE

AN INTERCOLONIAL CONFERENCE WITH THE COLONIAL SECRETARY PROPOSED.

(Canadian Associated Press.) London, Oct. 12.—A conference of partners of the Pacific Cable Co. will take place shortly in London. Nothing as yet has been arranged as to the composition of the tribunal, but it is proposed that a representative of each colony meet in London and confer with the Colonial Secretary. The question of an all-British cable between Canada and England will also probably be discussed.

ALASKAN BOUNDARY

COMMISSIONERS MEET IN SECRET SESSION IN THE FOREIGN OFFICE.

London, Oct. 12.—The last stage of the Alaskan boundary arbitration began this morning at the Foreign Office, when the commissioners met in secret session to consider their verdict. United States Senator Lodge and Sir Louis Lett, one of the Canadian arbitrators, were early on hand, and Mr. Root, War Secretary, and Senator Turner followed them into the cabinet room, where the deliberations are being held. Then there was a long delay, with some forebodings, as Mr. Aylesworth, of Canada, had not appeared. With any one of the commissioners absent, no verdict could be rendered. Finally, Chief Justice Alverstone asked one of the secretaries, who sit in an outer room, to telephone to Mr. Aylesworth's hotel and find out the cause of his non-appearance. The tension was relieved by the receipt of the news that the Canadian commissioner had just returned from the country and was starting for the Foreign Office. Mr. Aylesworth arrived at 11.40 a.m., and his secret session commenced. No decision is expected to-day.

While nothing can be known definitely, a very hopeful feeling prevails in American circles. A significant reflex of this appears in today's 'Times'. Dealing with the difficulties encountered in the selection of a new British ambassador to the United States, and the irritation which he would have to face both in Canada and the United States if the Alaskan tribunal broke up with a disagreement, the 'Times' says: 'We rejoice to say that there is believed to be something more than a possibility that an award may be agreed upon, or, rather, that seven questions may be answered so as to end the matter.'

The commissioners will sit daily from 11 a.m. until 1.30 p.m., when they will adjourn for lunch, and will resume their deliberations at 2 p.m., adjourning for the day at 4 p.m., until a decision is reached. A DISTURBING REPORT.

Toronto, Oct. 10.—A 'News' special cable from London says: 'I am informed on what may be accepted as high authority, that a majority of the Alaskan commission will shortly give judgment adverse to the Canadian contention. It is understood that Great Britain's representative on the commission, Lord Alverstone, has privately intimated to certain diplomatic and Colonial Office officials that he is convinced that a stronger case is made out by the United States, and he intends to give judgment accordingly. A majority of the commission will thus agree upon a verdict, and the two Canadian commissioners will, if they register dissent, be unable to affect the result.'

SEIZURE QUASHED

In the case of Dame Stein vs. Miran et al the plaintiff took a seizure on a basket of linen which she alleged defendants were illegally keeping in their possession. Judge Robidoux, on Saturday, dismissed the action, on the ground that plaintiff had tendered too late the amount due for the washing of the linen referred to, and, besides, the defendants had also a right of retention for the costs of a Circuit Court action taken by them, which costs were not tendered.

ST. JAMES THANKSGIVING.

Large congregations were in attendance at both services in St. James Methodist Church yesterday when special services commemorative of the relief of the church from the burden of debt were held. The preachers were, in the morning, the Rev. Dr. Briggs, of Toronto, and in the evening, the Rev. G. M. Campbell, of St. John, N.B.

The musical portion of the service was of special interest. Goss's anthem, 'The glory of the Lord,' was sung in the morning, and Stainer's 'A Wake, put on thy strength,' in the evening. In the morning Mrs. Landry sang very effectively Sullivan's 'Love not the world,' and in the evening 'It is enough,' from 'Elijah,' was given most sympathetically by Mr. Ouellette. Mrs. Alice Munns Keough, as organist, showed marked ability in both accompaniments and the voluntaries.

ST. MARTIN'S CHURCH

Arrangements and announcements had been made looking to the consecration of St. Martin's Church on Sunday, Nov. 1. It was expected that the debt would have been cleared off, which must be done before an Anglican place of worship can be consecrated. When the officials entered into negotiations with the mortgage-holders they were informed that the mortgage covered both the rectory and the church, and although there remained but \$5,000 to be paid, the mortgagees refused to free the church and transfer the balance of the debt to the rectory as the officials desired. In addition to this a clause in the mortgage stated that the debt could not be wiped out until May, 1904. These circumstances threatened to upset all the arrangements for the consecration, but a friend appeared on the scene, who is not a member of the church, who offered to pay off the whole of the debt, and he succeeded in getting a release from the mortgage holders, and has arranged the matter so that the church will be consecrated as proposed, and the balance of the debt will be secured by the rectory and other property connected with it.

In the seventeen years during which the Rev. Mr. Troop has been rector the church has paid a total of \$37,000, of which \$15,000 was interest and \$1,170 floating debt.

HERE FROM THE BAHAMAS

The Hon. Alfred E. Moseley, of Nassau, Bahama Islands, and editor of the 'Nassau Guardian' was a caller at the 'Witness' office to-day. He was born in the Bahamas and has grown up among the people of the tropics. He is now returning from a three months' visit to England and is paying the Dominion his first visit. For several years Mr. Moseley has represented the Sun Life Assurance Company in Nassau and his visit to Montreal is principally to see the head offices and meet the officials of the company. He had met Mr. T. B. Macaulay, the secretary, who has taken on one of two trips to Nassau. The Hon. Mr. Moseley would like to see closer commercial relations established between Canada and the Bahamas. At present they get all their grain from the United States, mostly via New York, from which port two steamship lines run to Nassau and other ports in the West Indies. They export fruit, sponges, sisal, etc., which also goes primarily to New York and is thence distributed to all parts of this continent. Asked regarding the feeling in England concerning Mr. Chamberlain's fiscal policy, the Nassau legislator said it could not be considered very defined when he left the Old Country and it would be impossible to forecast the results of the agitation. Personally he thought something was due the colonies on the part of the Mother Country and he thought the fiscal policy of England would bear review, and, perhaps, revision, with a view to the establishment of better trade relations with the over-sea portions of the Empire.

But, it is as a journalist, perhaps, that the Hon. Mr. Moseley is best known in this country; for, it was he who fought and won a great battle for the liberty of the press not very long ago. The Hon. Mr. Moseley, as journalists will remember, was imprisoned for alleged contempt of court. Correspondence, started by the chief justice of the Bahamas and replied to by anonymous writers was published in the 'Guardian' relative to the storage of coal at Nassau. The chief justice took exception to some of the comments made concerning himself in the correspondence and as the editor refused to divulge the writer's name he was held responsible and arrested. A mass meeting of citizens was called and the governor was appealed to to release the editor. His release was ordered at once, and a popular demonstration in his favor, including a parade, was organized. The case was taken before the Judicial Committee of the Privy Council, which decided that there was no contempt and the case has since been cited frequently in similar instances. The decision resulted in the resignation of the chief justice.

Mr. Moseley has been a member of the legislature for about twenty years. The peculiar thing about the legislature is that it has no party. Public questions are first considered by the Governor and his advisers and then passed on to the representatives, who consider them on their merits. Only about one-fifth of the population is white. Mr. Moseley returns home via Toronto, Niagara, and New York in a few days.

DOMINION PARLIAMENT

BILL RESPECTING THE REVISED STATUTES OF CANADA.

(See also Page 11.) Ottawa, Oct. 12.—The Hon. Charles Fitzpatrick, Minister of Justice, in the House this morning introduced his act respecting the revised statutes of Canada. This act simply makes formal provision for work connected with the revision. The bill was read a first time.

Sir Wilfrid Laurier, in reply to Mr. R. L. Borden, said he would make his promised statement as to the government business to be taken up for the rest of the session, to-morrow. Mr. R. L. Borden drew the attention of the government to the cable statement attributed to Mr. Aylesworth that a judgment would be given in the Alaskan Boundary Commission favoring the United States.

Sir Wilfrid Laurier said such a statement would be most unusual and it was impossible to believe Mr. Aylesworth had used the language attributed to him. Later on Mr. Bell brought up a report cabled to the effect that there was credible information that Lord Alverstone had privately intimated he was convinced a stronger case had been made out by the United States than Canada, and he intended to give judgment accordingly.

Sir Richard Cartwright said such a report was incredible and it was impossible to believe it. THE 'SOO' AFFAIR. In reply to Mr. Ross, Mr. Fielding said the contract originally given to the Clergue works was for \$25,000 tons of steel rails, but the works were unable to fulfil the contract. A later arrangement was made to supply ten thousand tons of this 5,678 tons were forthcoming and the government took what was offered.

ST. VINCENT DE PAUL. In reply to Mr. Lemieux the Minister of Justice said an investigation had been made into a report by the Grand Jury of the King's Bench, Montreal, making certain allegations against the management of St. Vincent de Paul penitentiary. It was found the statements on which the reports were made were entirely without foundation.

MAIL SUBSIDIES. The estimates for mail subsidies and steamship conventions were taken up in committee of supply. Twenty-five thousand dollars for additional service by the Allan line between Canada and Great Britain, under the contract with that company and \$7,500 additional for service between St. John and Glasgow during the coming winter were carried after explanations by Sir Richard Cartwright.

CANADA-AUSTRALIA SERVICE. The vote of \$194,666 for steamship service between Canada and Australia occasioned some discussion, chiefly in relation to the United States competition for the contract.

Mr. Clarke, Toronto, said he was informed rates were actually quoted to Australia by these steamers, subsidized by Canada, from Boston and New England ports, Chicago, Detroit, and other United States ports cheaper than they could be obtained from Montreal and Toronto. Canada was consequently paying a bonus to promote American trade.

Mr. Clarke held the Minister should have the information at his finger's ends. Sir Richard reminded the member not so far as the subsidized steamers were concerned. They were not all ways able to fill up with a full cargo at Halifax and St. John. He asked Mr. Clarke if he could suggest a remedy for the state of affairs he depicted.

Mr. Clarke thought it would be better to give larger subsidies and prohibit the carriage of American products rated lower than Canadian than to allow Canadian farmers and other producers to be handicapped. Sir Richard was afraid the House would hardly consent to make additional increases in the subsidies granted. The facts as to short cargoes and long mileage by rail to the Maritime Provinces ports must be looked in the face and due allowance made.

Eventually the item was carried, as also \$3,000 for steam service between Paspébiac and Gaspé Basin, \$2,000 for steam service between St. Catharines Bay and Tadoussac during the winter, \$10,000 for service for service of the steamer 'Lord Strathcona' and wrecking plant on the St. Lawrence, \$12,000 for salaries, etc., under the general inspection and Manitoba Acts and others. It being one o'clock the committee rose and reported progress.

SUBSIDY HUNTERS IN OTTAWA.

Ottawa, Oct. 12.—Premier Ross, of Ontario, and Tweedie, of New Brunswick, are here. The object of the visit has not transpired, but it is assumed to be connected with provincial subsidies.

THE 'SOO' TROUBLE

(See also Page 11.) Sault Ste. Marie, Ont., Oct. 12.—Reserved judgment on motion for possession of the Canadian plants of the Consolidated Lake Superior Company were made here on Saturday, by Mr. James Bickell, K.C., of Toronto, representing Mr. B. F. Frackenthal, jr., the receiver appointed by the Central Trust Company, in the case of the Central Trust Company vs. several companies, was not rendered to-day. Interim injunction was granted restraining all proceedings in the District Court, pending the hearing of motions at Osgoode Hall, Toronto, to-morrow.

STILL LOWER RECORDS FOR U.S. STEEL. New York, Oct. 12.—New low records were made by United States Steel common and preferred at the opening of the stock market to-day, and the balance of the list was weak in sympathy. Steel common sold from 13 1/2 to 15 1/2. The opening sales of steel preferred was 59. Then it fell to 58 1/2, but by the end of the first half hour was selling at 58 1/2. Trading in Steel stocks was very general. An international banking house was reported to have sold a large block of the preferred for European account. The industrial group as a whole, was very weak. Some slight improvement was shown by the Steel stocks toward the end of the first hour.

preferred and other manufacturing shares dropped from 1 to 8 points in efforts to find purchasers. Denver preferred was noticeable in the railway shares for lack of resistance. Europe sold over 25,000 shares here, and there was some sales by traders. The market is very uncertain, and the market is irregular, with prices, however, generally above the lowest.

Wall Street—2 p.m.—In the middle of the second hour another drive was made against the Steel stocks and the common sold down to 12 1/2. On the exchange it was reported that the bulk of the selling was forced liquidation and came largely from Pittsburg and Cleveland. Shortly before noon the preferred stock was out to 57 1/2, and the bonds were down 1 1/2 below Saturday. Other extremely weak stocks included Colorado Fuel which was off over five points, Republic Steel Spring preferred over six points, American Car preferred and General Electric 3 1/2. Around noon the market was still weak and excited. There was a moderate rally in the first hour of the afternoon session even the steel stocks making slight fractional recoveries. New York Oct. 12.—Noon—Money on call steady at 2 1/2; prime mercantile paper, 6 to 6 1/2.

Laidlaw & Co.'s noon letter to Louis S. Colwell.—The new week began with another outbreak of liquidation in the industrial quarter of the stock market influenced by the general despondent sentiment, and expectation of further adverse developments in the shipbuilding market. The favorable bank statement and the highly favorable government crop report exerted only a negative influence and in the present pessimistic state of general sentiment, we see no reason to look for immediate recovery. On the other hand, conditions favor yet lower prices.

TORONTO STOCKS. Toronto, Oct. 12.—Financial News Despatch—About 1,500 sales were made on the morning market, nearly 700 of which were in the old reliable Canada permanent at 119 and 119 1/2, the same old figure as C.P.R. at 118 1/2 to 119, closing at the latter with a weak feeling; 225 in Twin City, at 81 to 83 1/2, the last sale; Northern Navigation took a further drop to 11 1/2, starting at 11 3/4, closing weak; Toronto Ry. lost 1/4 point, closing at 90 1/2, but only 45 shares were sold; Sao Paulo on 80 shares being steady 7 1/2 to 80; Richelieu, 35 at 70 1/2 to 70; \$3,000 Dom. Steel bonds at 60.

COTTON. Mr. D. M. Sexton, manager for Atwood, Molett & Co., reports the New York cotton market opening 3 points below Saturday's close: Jan. 9.25; March, 9.25; May, 9.25; Oct. 9.15; Dec., 9.23. Liverpool opened 1 up, closing at Saturday's closing figures. Spots advanced 4 points, with sales, 7,000 bales. The market is quiet, with an easier tone. Cool weather is reported in the South. At 12.30 quotations were: Jan., 9.19; Mar., 9.24; May, 9.28; Oct., 9.10; Dec., 9.20.

EXCHANGE AND MART. The Bank of British North America has opened a branch at Reston, Man., under the temporary management of Mr. S. A. Burpee. It is stated that the directors of the Reading Company will, at their meeting next Wednesday, declare the first dividend on the company's \$10,000,000 of 4 per cent. preferred stock. It is not believed that the full 4 per cent will be paid, although the road earned last year 4 per cent on both first and second preferred stocks, and 3.7 per cent on the common. The stock is mostly owned by the B. & O. and Lake Shore Railways.

AN EVENING WITH A CHINESE MANDARIN.

(By the Rev. C. R. Hagar, M.D., Hong-kong, in the 'Missionary Herald'.)

Visiting an entire new region of the Kwangtung Province, I took occasion to call upon the district magistrate and to pay my respects to him. After the usual greetings, we were seated at a centre table, the magistrate occupying the most humble place, while I sat on his left (the seat of honor) and my catechist on the right. As the mandarin had already received my card, there was no need of a formal introduction, so I proceeded at once with the business that had called me there.

'Your Honor, I have called here to-day to inform you that we have rented a shop in the southern suburbs of this city for the purpose of preaching Christianity, and I should be pleased if your honor would issue a proclamation, warning the people not to interfere with our work.'

'Oh!' replied the magistrate, 'the people are very ignorant and rude in these parts, and will not listen to your instruction. I am sure, if you knew the character of the common people, you would not come here to propagate your honorable religion.' I could not help smiling, while I said, 'Are you aware, my dear sir, that the propagation of Christianity comes within treaty regulation?'

'To this he had nothing to say, but trying to evade the whole question by saying that the people were too low to listen to such a message, I then handed him a subscription book for our Scientific College, wherein he read the Viceroys' preface, and casually noted that a dozen or more Chinese officials had already contributed to our institution. At this he became quite conversational, and commenced to ask a great many questions.

'You are a citizen of the United States or the "Beautiful Kingdom"?' he said. 'Your country is a very noble and honorable one, and our relations with you have always been pleasant.' At this I nodded, thinking, however, of the constant irritation there between the Chinese of America and certain of our citizens.

'How long will it take to reach your country from China?' he asked. 'One month; or three weeks if the steamers are on trial speed,' I replied. He seemed to marvel a little, and then he informed me that he had read of Washington, our first President, whom he likened to his own great ancestral emperors, Lu and Shun, two of the most famous emperors of China. I referred to the love of country on the part of Americans, and he replied: 'This is not so in China. The people care little for their country, and the gentry never willing to take up arms in behalf of the government. China's officials are not loved by the people, and we must always treat common people with great severity in order to be able to govern there.'

'There is one way to reform China,' I said. 'What is that?' he asked eagerly. 'Teach the people the principles of Christianity, open chapels in every city and market.'

At this he winced a little, but made no reply. Continuing, I said: 'You mean to rule the people by force and subjugate their bodies, but you do not reform men's hearts. Christianity not only changes a man's reasoning but his heart, and when you have conquered that you have conquered the man.'

This was not a strange philosophy to him, for Confucius had already said much the same about correcting the heart. But the Chinese are very slow to apply the principle, and not one of their leading men would ever think that Christianity had such power.

'You seek,' said I, 'to reform men by the rod, while I use nothing but the truths of Christianity, which have power to convert the soul.' 'Yes,' he remarked, 'you teach the people to do right, and so do I.'

At which I sighed mentally, for when a Chinese official is fairly caught in an argument, he simply says, 'It is very much as we also do,' or 'Every nation has its own laws and customs.'

At this point, the magistrate asked me whether we had the same heaven, sun, moon and stars in America as they had in China. I could not avoid smiling; but then, it was not the first time that the question had been asked. 'Are you aware what is the shape of the earth?' I asked.

'We always regarded the earth as level,' he replied. 'But your books teach that the shape of the world is round. Can you give any reasons for this?' Whereupon I mentioned several proofs of the roundness of the earth. He replied, as the most superstitious of the people might have done, 'Pun ku Wong, the first emperor, is supposed to have chiselled the earth out of chaos.'

'Impossible,' I said. 'The world was made by the God we preach. It is to change these false beliefs that we are desirous of opening a chapel in your city. Pun Ku was only a mythological deity, who is said to have labored 18,000 years in the construction of this earth.'

'Has the plague or cholera reached Your Honor's district?' I asked. 'No,' replied he. 'There is an ancestor of high repute here, called the Sixth Ancestor, who has protected the people against all pestilence, and the plague in particular.'

I looked up at my helper, whose face was wreathed in smiles, while I secretly thought what the Hongkong Sanitary Board would say to this new remedy for the plague. It turns to the question of what will keep China strong. 'In the first place,' said I, 'you must stop worshipping idols.' 'True,' said he, 'idols are false, and are only the work of men's hands.'

'Then why, dear sir, do you, on the first and fifteenth of every Chinese month, go to the temple of the gods of the city and worship there?' I asked. 'Oh, that is the custom of the Chinese officials,' he replied. 'But we ought to change false customs, and that is what we preach everywhere. In the second place, the Chinese ought to give up the opium pipe.' 'You are right,' said he, 'but the opium came from your country.'

quickly responded, 'The ancient Chinese also taught scientific truths.' 'Indeed you are mistaken,' my dear sir,' replied I; 'we of the west had no railways, no steamboats, no telegraphs, and no telephones one hundred years ago. 'Is that possible?' he asked. 'Yes, it is a fact; and your honor must never think that Confucius knew as much as we do.'

My host seemed to tire of the occasional home thrusts he received. But, being weary, I touched my cup of tea, which was the signal for taking leave. I have never spent two hours in this way before, but I trust that the mandarin and the great number of Yamen underlings who listened to our conversation received some new ideas. I could not have wished for a better audience to preach Christianity to than that which I then had.

NAZARENES OF AUSTRIA.
News comes from Austria that the sect of Nazarenes is making rapid headway. English Christians can heartily sympathize with this movement. It is a purely Protestant movement in its tendencies and aims. In their way of thinking the Nazarenes seem to be a mixture of the Primitive Methodists and the Quakers, and on many points strongly resemble the Russian Standists as this body appeared in the earlier years of its history. The Nazarenes are intelligent students of the Scriptures, and it is the ambition of all their members to be at home in the pages of the Bible. Those districts in Austria where the Nazarenes are most rapidly growing are Slovenia and the country immediately south of the Carpathians; but isolated communities of them are springing up in other places as well. It is needless to say that in a country like Austria, ruled by Jesuits, the Nazarenes have a hard time. It is rendered doubly hard by the persistent refusal of most Nazarenes to bear arms as soldiers. Those who refuse are treated in the most ruthless manner by the authorities in the military prison. They are even subjected to a species of torture known as the 'wandstrafe.' The wretched prisoner is tied fast to a ring in the prison wall, and his arms are stretched over his head. A doctor stands by to order relief when the prisoner faints. When he revives the same treatment is repeated as often as the authorities think fit. The pain is indescribable, and can hardly be endured, but several youths, who are in the ordinary way, the number of Nazarenes in Austria-Hungary is estimated roughly at 50,000.—'Christian World.'

During the recent scourge of plague in Cawpore the natives circulated the report that a different kind of serum was used to inoculate them from that used for the Europeans. A panic was threatened, and the Rev. Robert Hoskins (well known in New England) went out and stood in the line of natives who were waiting to be treated and received the same serum. The act brought confidence to the native people. The magistrate followed the lead of the Christian missionary and the panic was averted.

CHILDREN'S CORNER.
A CONCERT ON CREDIT.
(Hattie Lummis, in 'Congregationalist'.)

'I can't come to school this afternoon, Miss Hollister,' Dorothy told her teacher at recess. 'Mamma hasn't been out of the house since Dale was sick, and that's most seven weeks. But today she and papa are going to the concert, and I'm going to take care of Dale.'

'That's quite a responsibility,' said Miss Hollister, smiling at Dorothy's important air. 'Your mamma must be very sure that you are to be trusted.'

'Well, you see it makes people very queer to be sick such a long time,' Dorothy explained, lowering her voice confidentially. 'Dale never used to cry, but now he cries about everything that he doesn't like, and then he gets feverish, and mamma's afraid he'll have a relapse. Mamma knows I'll let him beat in all the games, and that's why she dares to leave me to take care of him.'

It was not easy to get along with Dale. Dorothy hardly knew her brother, and a dozen times a day she was obliged to comfort herself by remembering mamma's assurance that Dale's temper would improve as his body grew stronger. This afternoon it was worse than usual, for Dale had become so accustomed to his mother's presence, that he was inclined to resent her leaving him, even for a few hours. Dorothy tried her hardest to be entertaining, with rather unsatisfactory results. 'And if he gets to fretting, and is worse,' she thought despairingly, 'why, mamma won't dare to go away again for ever so long.'

They were in the midst of a rather uninteresting game of authors when the sound of distant music reached their ears. Dale dropped his cards and looked at Dorothy with brightening eyes. Then he smiled.

'It's a hand-organ,' he cried. 'I wish he'd hurry and get to our house. Do you 'spose he'll stop here, Dorothy?' 'We'll give him some money, and then he will,' replied Dorothy, jumping to her feet, and running to her bank. But though she shook it with all her might, not the faintest jingle answered her. Dorothy's bank had a way of being empty, but it had never failed its mistress at quite such a crisis as this.

'O, I wonder if there isn't a nickel or a penny lying around somewhere,' cried Dorothy, darting around the room distractedly, and looking into all sorts of unlikely places.

'He's coming, Dorothy! Hurry,' cried Dale, who had pressed his face against the window pane.

'But I can't find any money. Maybe Norah's got five cents,' and Dorothy flew down to the kitchen, only to

meet another disappointment. Norah had just finished explaining how she had sent all her month's wages to her mother in Ireland, when Dale's voice, choked with tears, called over the banisters, 'He's gone by, Dorothy. He isn't going to stop.'

'O, yes, he will, Dale,' Dorothy called back cheerily. 'Just wait a minute.' Dale heard the outside door slam. Going back to the window he saw a small girl, with flying curls running after a little Italian, bent double under the weight of his heavy organ.

The man looked surprised when Dorothy pulled his sleeve, and he broke into her explanations with a gentle murmur in his native tongue. Dorothy's heart sank. If he did not understand English, how was she ever to explain what she wished. Then all at once she discovered at his side, a small boy with big black eyes and gleaming white teeth, who was peering around at her with an air of interest.

Dorothy took a long breath, and told the whole story; how her brother had been sick and how the least little thing made him cry, he was so nervous, and how when he cried he grew feverish, and was worse again. Then she told how much Dale wanted to hear the music, and how she had looked in her bank for money, but in vain.

'And won't you play for us to-day, and trust us for the money till the next time?' cried Dorothy, appealingly. 'O, please, please do!'

The white teeth of the Italian boy flashed in a smile as she ended, and when he had translated Dorothy's speech to his father, he smiled too. Without another word the three went back to the corner. The Italian stationed his organ just under the window from which Dale was looking down so eagerly, and still smiling, began to play out his music.

What a treat it was, even if the organ was a trifle asthmatic, and wheezed sadly over 'Listen to the Mocking-Bird!' Dale beat time on the window sill, his face wreathed in smiles, and Dorothy sat by, overjoyed to see him happy. The hand-organ man played every tune through twice, and the boy rattled his tambourine vigorously, smiling up at Dale as he did so. And at last the concert was ended and the musicians waved their caps for good-by and went slowly down the street.

It was ten days before they came again, and Dorothy worried a little over their non-appearance. 'I hope they didn't think I wanted them to play for nothing,' she told her mother. 'I specially asked them to trust me till next time, but they don't understand English very well.'

But one night at dinner the strains of 'Listen to the Mocking-Bird,' came wheezing through the window, and Dorothy was on her feet in a minute. 'It's our hand-organ man,' she exclaimed. She flew to the window, and a dark-eyed man and a dark-eyed little boy greeted her with a flash of white teeth. 'I've got ten cents for them upstairs,' Dorothy cried. 'Dale and I have been saving up.'

'I think I'll have to add a contribution,' said her father, taking a quarter from his pocket, and brother Tom cried gaily: 'Pass the hat, Dorothy. We'll want to put in something.'

It is a good thing the hand-organ season is nearly over, papa said to mamma, when the music ended, which was now for an hour or more. And Dorothy and Dale wondered, as they had often wondered before, at the strange notions of grown-up people.

out-posts, a girl, in the long robe of an Egyptian, came towards them, and looked at them.

Pentaur started as if he had seen a ghost; but Nebsecht gave expression to his astonishment in a loud cry.

At the same instant a driver laid his whip across their shoulders, and cried laughing:

'You may hit each other as hard as you like with words, but not with your hands.'

Then he turned to his companions, and said: 'Did you see the pretty girl there, in front of the tent?'

'It is nothing to us,' answered the man he addressed. 'She belongs to the princess's train. She has been three weeks here on a visit to the holy shrine of Hathor.'

'She must have committed some heavy sin,' replied the other. 'If she were one of us, she would have been set to sift sand in the diggings, or grind colors, and not be living here in a gilt tent. Where is our red-beard?'

Uarda's father had lingered a little behind the party, for the girl had signed to him, and exchanged a few words with him.

'Have you still an eye for the fair ones?' asked the youngest of the drivers when he rejoined the gang.

'She is a waiting maid of the princess,' replied the soldier not without embarrassment. 'To-morrow morning we are to carry a letter from her to the scribe of the mines, and if we encamp in the neighborhood she will send us some wine for carrying it.'

'The old red-beard scents wine as a fox scents a goose. Let us encamp here, one never knows what may be to be had among the Mentu, and the superintendent said we were to encamp outside the oasis. Put down your sacks, men! Here there is fresh water, and perhaps a few dates and sweet manna for you to eat with it. But keep the peace, you two quarrelsome fellows—Huni and Nebsecht.'

Bent-Anat's journey to the Emerald-Hathor was long since ended. As far as Kelt she had sailed down the Nile with her escort, from thence she had crossed the desert by easy marches, and she had been obliged to wait a full week in the port on the Red Sea, which was chiefly inhabited by Phoenicians, for a ship which had finally brought her to the little seaport of Pharan. From Pharan she had crossed the mountains to the oasis, where the sanctuary of the service of the Mentu, and the superintendent said we were to encamp outside the oasis. Put down your sacks, men! Here there is fresh water, and perhaps a few dates and sweet manna for you to eat with it. But keep the peace, you two quarrelsome fellows—Huni and Nebsecht.'

is a trumpet of eloquent tones, an instrument of music and sweetness, it captures audiences, towns, cities. Could Beecher have stilled the storm and captured the mob at Liverpool without his magnificent voice? Think of a young man intending to do his work, convert the world, and make his living by the use of his voice, and yet not paying more attention to its development and culture than the boy who is following a plough and calling 'gee' and 'haw' to his horses.

ABUNDANCE OF TONE. 'But—there seems a lack of tone in the place.'

'Lack of tone! I wish there were! Why man, there's a piano in every house.'—English paper.

FEMININE LOGIC. 'Ma, why shouldn't you look a gift-horse in the mouth?'

'Oh, I suppose, dear, because horses of that kind bite.'

'Ma, what kind of horses are gift-horses?'

'Oh, the kind that bite if you look at their mouth.'

'Ma, why do they bite if you look at their mouth?'

'Oh, dear, I suppose it is because they are gift-horses.'—'Judy.'

HELPFUL HINTS TO HOUSEWIVES. To prevent flannel from shrinking put it away in a drawer. Do not keep on going to look at it, as the shrinking habit is often due to nervousness.

As soon as a skirt shows signs of wear round the pocket, remove the pocket. You will in time get used to the change, and be brighter without it. Another good plan is to remove the skirt.

To try if eggs are fresh, drop them into a deep bucket of pure water. If fresh, they will at once sink to the bottom and break.

Warts may be cured by rubbing them for seven or eight hours a day with a piece of pumice stone. As often as the pumice-stone is worn away, begin again with a fresh piece.—'Punch.'

Lifebuoy Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases.

Glady's—Ethel tells me you are engaged to her.

Cholly—'Hum! She promised to keep it a secret.'

Glady's—'Well, I guess she thinks the joke is too good to keep.'—'Judge.'

'What did you do this summer?'

'After our holiday Marjorie went to a sanitarium. I was quietly ill at home, and Charles is still on the other side recuperating.'—Brooklyn 'Life.'

'What are you going to do when they get through tearing up the streets?'

'Lay 'em down again, of course! How else would anybody be able to tear 'em up later on, silly?'—Baltimore 'News.'

'It's a wonder, isn't it, that they can make policemen's clubs out of paper?'

'Rapping paper, of course.'—Cleveland 'Plain Dealer.'

Percy—'I—aw—wonder why Miss Winsom is—aw—always out when I call?'

Jack—'Oh, that girl was born under a lucky star.'—Chicago 'Daily News.'

'You remember that landscape I made of your place?' said D'Auber.

'Well, I haven't been able to sell it yet.'

'It must be very realistic,' replied Subbs, 'for I haven't been able to sell the place yet, either.'—Philadelphia 'Ledger.'

'I'm told that your bride is very pretty,' said Miss Poppey.

'Yes, indeed!' replied Mr. Con Set. 'Several of the guests at the ceremony were pleased to call it a "wedding of beauty and brains."'

'Well, well! She must be a remarkable woman; that's an unusual combination in one person.'—Philadelphia 'Press.'

Mrs. Dummer—'I see a piece in the paper about some society people hein' interested in "Buddhism." What's that?'

Mrs. Dummer—'Why, I guess that must be the doin's of these young society people that's called "buds."—Philadelphia 'Ledger.'

Miss Cutts—'He's an awfully inquisitive bore, isn't he?'

Miss Ann Teek—'Oh! Awfully. He was trying to find out my age the other day, so I just up and told him I was fifty. That settled him.'

Miss Cutts—'Well, I guess it is best to be perfectly candid with that sort of fellow.'—Philadelphia 'Press.'

Greene—'What's your opinion of a man who will sell his vote for money?'

Grafter—'Oh, I never give my opinion. I just hand over the money and let it go at that.'—Boston 'Transcript.'

Neil—'So the engagement is broken off?'

Belle—'Yes; it seems she told him one evening that she wasn't half beautiful enough to be his wife, and he didn't deny her statement quick enough to suit her.'—Philadelphia 'Press.'

SATURDAY'S SPORTS.

Montreal Defeated Britannia by 32 to 7.

ROUGH RIDERS WON AT OTTAWA - MISS ADAIR WINS GOLF CHAMPIONSHIP.

The second senior championship football game of the season was played on the Montreal baseball grounds on Saturday afternoon when Montreal defeated Britannia by a score of 32 to 7. The weather conditions were very unfavorable for the game. It had been raining hard for two days before and the ground was in a very soggy state, pools of water were all over, and the baseball diamond was a sea of mud. Under these conditions it was hard to play a good game, and the players often fell when they least expected to. The only accident of a serious nature, however, was when Stephens was forced to retire from the field, his place being taken by Bob Major. Stephens' retirement was unfortunate as he had been playing a hard and plucky game. The Brits put up a very good game, considering that Billy Christmas and Cowan, two of their best men, were off. They were not in the best of condition, and were worn out in the first half. Chown played a good game at quarter back, and his boys were strong in their different positions. A feature of the game was Phil McKenzie's playing at half-back. Montreal found it impossible to pass him and time and time again he kept the Montreal boys from scoring.

THE PLAY

Montreal won the toss and the Brits kicked off. O'Brien secured the ball, but lost it to the Brits on their first scrimmage. McKenzie enabled the latter to kick it into touch behind Montreal's goal line, scoring one for the Brits. Percy Molson punted the ball to centre field where the Brits were awarded the first free kick for an off-side. McKenzie punted behind Montreal's goal line, but B. Molson returned. A few moments later McKenzie kicked behind their goal line again. B. Molson fumbled, and Archie Christmas dropped on it scoring four more for the Brits.

Molson kicked off and Christmas made a 30-yard run and kicked into touch. Montreal gradually gained ground and Craig secured the ball and succeeded in reaching the Brits' 6-yard line. After some further scrummage work by Brits, Jack got past the scrummage and took the ball behind their goal line. Percy Molson easily converted the try and the score stood: Montreal, 6; Brits, 0.

Brits were awarded a free kick shortly after the kick-off, and McKenzie punted high and gained considerable distance. Stephens got the ball up to Montreal's 5-yard line when it was discovered that his tackle was sprung and he was forced to retire. McKenzie secured from a scrimmage and with a high punt sent the ball into touch in goal, making the score six all.

P. Molson kicked off and the ball was returned and went down on Montreal's 20-yard line. Montreal was awarded a free kick. B. Molson kicked to centre of field where McClure marked and kicked into touch. Montreal secured another free kick. Craig brought the ball around the end for 40 yards. The ball was worked down to Montreal's 25-yard line when objections were made to Mr. Ayer's decision on the touch line and he was replaced by Henry Christmas. Niven and Rayside got into a fight and were off for the half. Roberts was also ruled out.

SECOND HALF. Montreal was off-side when Molson kicked off and the ball was scrummaged at centre. The ball was sent into touch on Brits' 30-yard line and Montreal was awarded a free kick a moment later. Chown caught the punt but was unable to clear. Ogilvie kicked it into touch on Brits' 20-yard line, and P. Molson gained ten yards in the same way and kicked it into touch behind the Brits' goal line. Montreal, 7; Brits, 6. McKenzie kicked it into touch on their 25-yard line. Montreal gained ten yards and Molson kicked over the goal line, but the ball was returned by McClure, who scored a kick. Craig got over the line and Molson converted the try. Montreal, 21; Brits, 6.

McKenzie kicked off. Niven secured and passed to O'Brien, who was downed at centre. Montreal was awarded a free kick. Molson kicked it into touch on Brits' 5-yard line. Montreal, 22; Brits, 6. After the kick-off the ball was returned to the Brits' 5-yard line. Ogilvie secured and scored a try. Montreal, 23; Brits, 6. McKenzie kicked to Russell, who was forced to rouse, making another point for Brits.

With two minutes left to play, when the ball was at the centre of the field a free kick took place and Lightbourne was ruled off. Niven secured and passed to Craig, who got over the line. Molson converted the try, making the score: Montreal, 32; Brits, 7.

COLLEGE WAS DEFEATED

Ottawa, Oct. 12.—The Rough Riders defeated Ottawa College on Saturday in a sea of mud and water, the result of the last three days' steady downpour of rain. The contest was a magnificent one, nevertheless, and the spectators were in doubt till the last minute, both teams rushing the ball to within a few yards of their opponents' goal line alternately.

The Rough Riders' superior weight told, and they scored their points entirely on mass play; the College line, although putting up a terrific struggle, being too light for their slow checks. Nearly three thousand people saw the game, and were divided about equally in their sympathy.

The last ten minutes were very rough, the College team being the chief offenders, scrapping and kneeling their opponents, and tripping artistically. Several players were hurt during the day, the most serious being the injury to Boyd, the Rider centre-half, who was stunned by Philtraut, who attempted to hurdle him. Boyd was replaced by Ralph. Coach Clancy was warned by Savage for his warm talk to Bob McDougall when that official called the ball back for offside as College scored on a penalty kick. The police cleared the side-line as a result of a fight among some of the officers of the teams.

INTERMEDIATE SERIES

WESTMOUNT TEAM WON.

The Westmount intermediate team defeated Montreal on the grounds of the latter club on Saturday afternoon by a score of 41 to 0. A good crowd witnessed the match. The play was splendid, as Westmount Madril played a hard game for Montreal at full back, and relieved very well. Montreal lost Peck in the first half, and he was replaced by Frank Johnson. There was considerable scrapping on Montreal's part, but Mr. Gordon kept his eyes open, and had the offenders on the side, of whom there were a great many.

GOLF

Miss Adair Wins the Cup. Philadelphia, Oct. 12.—England won the woman's golf match here on Saturday, but America was victorious in the team match. A. Phipps was the final struggle in the Driscoll tournament. Miss Adair beat Mrs. C. T. Stout, her American opponent, and won the match. The feature of the game was the wonderful accuracy of Miss Adair's strokes.

This contest counted toward the team matches, as did the Phipps-Thompson match which was the final for the second cup contest. The team match was between nine American and three English and six Canadian. The only three of the visitors were successful. Miss Gree, of Montreal, and Miss Phepe, of Toronto, defeating their opponents. The scores follow: Mrs. C. T. Stout..... 0; Miss Rhona Adair..... 1; Miss M. Curtis..... 1; Mrs. P. H. Barlow..... 0; Miss G. Bishop..... 0; Miss Phoebe..... 1; Miss F. Osgood..... 1; Miss K. Harvey..... 0; Miss A. Phipps..... 1; Mrs. M. Thompson..... 0; Mrs. C. F. Fox..... 1; Miss J. Spence..... 0; Miss E. Lockwood..... 1; Mrs. McKee..... 1; Miss D. Neely..... 1; Miss Dick..... 0; Miss A. Mackay..... 0; Miss P. Greene..... 1. Totals, 4 and 3.

The summaries of the two cups follow: First cup—Miss Rhona Adair, Portrush, Ireland, beat Mrs. C. T. Stout, Essex County, 2 up, 18 holes. Second cup—Miss A. Phipps, Brookline, beat Miss M. G. Thompson, St. John, N.B., 3 up and 2 to go.

ATHLETICS

THE VARSITY GAMES.

Toronto, Oct. 12.—Three college records were broken and one equalled at the Varsity games on Saturday, despite the cold, raw wind which blew directly across the field, and made it uncomfortable for spectators and competitors alike. Worthington in the 100-yard dash, ran the distance in 10 2-5 seconds, and equalled his own record. In the 220 Gurney ran in 23 seconds and shaved a fraction of a second off the figure he hung up last year, and in the shot-put all three prize-winners bettered the best previous performance of 33 feet 3 inches. Worthington in the 120-yard hurdles reduced the record from 17 2-5 seconds to 17 flat. He captured the individual championship medal presented by Mr. W. J. Geddes, very handsily, scoring 20 points. Shepherd and Gurney were next with ten points each to their credit. Ford was third with a point. He captured the individual S.P.S. best second with 27 points, and the Meas, third with 17. By an oversight evidently, Fred, Young, the former professional bicycle racing champion, who is now attending the Conservatory of Music, was allowed to compete in the half and one mile runs. Young rode as a professional for years, and has never been reinstated.

BASEBALL.

BOSTON WON FROM THE PITTSBURG TEAM. Pittsburgh, Oct. 12.—The second largest crowd that ever attended a ball game, at Exposition Park greeted the American and National League champions on Saturday afternoon as they appeared on the field to play the fourth and last home game of the series. Boston won easily, 7 to 3. Philippi was given a great reception, and presented with a diamond pin. He pitched a good steady game, but Boston's hits came when most needed, while Pittsburgh could not bunch them. Young pitched a fine game for Boston. Both teams left the same night for Bos-

ton, where they play again to-day. Attendance, 17,038. Score: R. H. E. Pittsburgh..... 000101001-3 10 3; Boston..... 2002010-7 11 4.

LACROSSE

SHAMROCKS DID NOT PLAY. The game that was to take place on Saturday afternoon, was postponed on account of a heavy rain storm.

MONTREAL HUNT CLUB

MEMBERS OF THE CLUB ARE ENTERTAINED BY MR. PATON. On Saturday morning last the members of the Montreal Hunt Club were the guests at a luncheon given by Mr. and Mrs. Hugh Paton at their summer residence, Bord-a-Plouffe.

The weather was apparently unpropitious, the sky dull October grey, and the roads were in poor condition. There is no prettier home in the vicinity of Montreal than that of Mr. Paton, and the approaches to it are through a pleasant country. The hospitality of the hosts and the excellence of their abode and its surroundings soon effaced any little details of the drive from town. There was a steady procession of vehicles over the roads from the city. About 11 o'clock the bounds paraded in front of the house and presently the master and the hunters were mounted and ready for the sport. There were about thirty behind the hounds, and they made a pretty sight as they rode away behind the clearing, then to the Jess road they went, and this gave an excellent opportunity of watching their progress for a while. The guests who were not of a mind to chase Master Reynard proceeded along from road and to the top of a gentle rise from which it was possible to view the field for some time. The home covers on Mr. Paton's farm were first cast, and after a close search, a fox was unearthed. Away he went, and in full cry behind him. There were two checks, but each time the scent was found again with but little loss of time. Finally His Slynness was run to earth in Little Spinna, off the Laval farm, the honors going to Mr. Hampen.

Meanwhile the guests who had remained at the house were also enjoying themselves. Among those who were mounted and followed the hounds were Dr. Charles McEachran on 'Sir Walter'; Major Hooper on 'Kit Kat'; Mr. A. Baumgarten on 'Senator'; Mr. H. M. Allan on 'Montrose'; Mr. T. D. Bell on 'Leamont'; Mr. J. C. Watson, Mr. E. Barnard on 'Mohawk'; Mr. Allan Law on 'Topsy Turvy'; Mr. P. Mathias on 'Greenwoods'; Mr. Fred Beardmore on 'Laddie'; Mr. A. E. Ogilvie on 'Myrtle'; Mr. Watson Ogilvie on 'Blatherkitt'; Mr. Leopold Galarrneau on a four-year-old colt; Mr. J. Alex. Gordon on 'Galate'; Major Frank Melghen on 'Blanchette'; Mr. Colin Campbell on 'Mafeking'; Mr. Hampson, Mr. Speckman, Mr. Burt Holland, of Toronto; Miss Eddie on 'Peter.'

BOWLING ON THE GREEN

Saturday afternoon turned out delightfully for bowling on Kensington Green, and the members of the Westmount Club enjoyed a great afternoon's sport. A full rink was formed and the players were as follows: H.S. Mussen, W. McKay, Geo. Hyde, H. Mason, J.H. Chapman, D. Wilson, Wm. Brown (skip)—25; A.W.D. Howell (skip)—21. During last week a game was played, in which eight shots were scored at one end. The score was: H.S. Mussen, J.W. Trenholm, Mr. Philp, Mr. Bigger, J.H. Chapman, H. Ald, Wm. Brown (skip)—24; F. Fowler (skip)—10.

HAMILTON TIGERS WON

Toronto, Oct. 12.—Toronto and Hamilton played their senior O.R.F.U. game on the Varsity field on Saturday afternoon. The Tigers won the toss, and had the advantage of the wind and shade in the first half. Hamilton protested stolidly before the game. The score was 29 for Hamilton to 23 for Toronto. The Tigers did their scoring mostly in the first half, with the wind in their favor, getting four tries, and converting three of them. They also secured two touch-in-goals and a rouge, making a total of 25 points, while Toronto had not scored at half time. The second half was all in Toronto's favor until the last thirty seconds, when the Tigers got a try, but did not convert. The Toronto got 22 points in the second half, four tries, converting three of them, and also a rouge. Stinson, of the Tigers, made some brilliant plays, getting a try by a run from centre field. Dumoulin did most of the punting for the Tigers, and also made some beautiful tackles, getting several Toronto men near the line, which looked to be sure scores. Wood, at quarter, and Stollery at half, did some good work for the Toronto. The fumbles of the Toronto halves in the first half cost them a good many points.

MEETING AT FARNHAM

POLITICAL ISSUES OF THE DAY AGAIN DISCUSSED.

The Conservatives held another large meeting at Farnham on Saturday last, when the different issues discussed on recent similar occasions, were again taken up. Mr. R. H. Turax and Dr. J. B. Cameau presided in a joint capacity. The first speaker was the Hon. Senator Baker, who opened by stating that the present meeting was a preparation to a campaign that could not be far distant. He then charged the government with being indifferent to its former pledges and concluded by testifying to Mr. Tarte's efficiency in the old days of the Conservative party, and he declared that he was the strongest member of the Liberal Cabinet.

Mr. L. P. Pelletier followed, and discussing the pulpwood question, said that Providence had so ordered it that the Yukon had its gold fields, the North-West its wheat fields, and Quebec also had its natural resources—the immense wooded area. But was it not true the Liberal Government was squandering it, and Americans were getting the benefit of it? Mr. A. C. Bell, of Pictou, N.S., was then called. He said that this was the first occasion he had had to address the electors of Quebec, and then proceeded to blame the Liberals for not carrying out the promises made by them when forming the opposition. Continuing, the speaker said that a free trade party had certainly not turned out to be a free trade government and he had every reason to believe that the one great hold-back of the Liberal party towards free trade was the Hon. Mr. Tarte. He it was who had used his powerful influence to prevent this unwise policy. Had not Mr. Tarte left a most influential position to fight for more protection? And if the people believed in that doctrine, was it not reasonable to think the people would turn out of power a party that opposed it?

The next speaker was the Hon. Mr. Tarte. He opened by stating that he would not say anything more about the fact as to whether he had been dismissed from the cabinet or whether he had resigned. On that there seemed to be a difference of opinion, but one thing certain was he had left it. It was certainly a great privilege to be a cabinet minister, and he would ask his Liberal friends if he had not served the party well. As a journalist he had acquired experience and in that capacity, and in political life, whatever might be his failings, he thought it would be admitted by all he had not lost his time. One thing he had learned was to reflect well before accusing public men of a change of opinion. Continuing, Mr. Tarte said: 'Now I ask you what is the difference between an honest Conservative and an honest Liberal. They both own this country, thanks to British traditions. They are elected by the people, to serve the people, and once either party fails in that, the people have the right to make a change.'

After discussing at some length the close of the bowling season, when one or two rinks are expected to be here from Toronto, and should the day be fine there will no doubt be a good turnout of the home members to meet the visitors from the great bowling centre of Canada. It is pleasing to know that the club is in a prosperous condition, and that its members have made great progress in the art of bowling, and next season hope to send a couple of rinks to the Dominion tournament at Niagara-on-the-Lake. The members of the Westmount Bowling Club are endeavoring to make arrangements for a social gathering and dinner to mark the closing of the present very successful season.

HON. GEO. E. FOSTER TO ASSIST

The Former Canadian Minister of Finance will Supplement Mr. Chamberlain's Efforts in Great Britain.

THE LATTER INTIMATES THAT HE HAS NOTHING NEW TO ADD TO WHAT HE HAS ALREADY SAID.

Mr. Winston Churchill Predicts Blue Ruin for the Conservative Party.

Toronto, Oct. 10.—The 'News' this evening says:—The Hon. Geo. E. Foster, ex-Minister of Finance, who for the last two years has been living quietly in Toronto, devoting himself to various business interests, will again enter politics, this time in Great Britain, in association with Mr. Chamberlain, who has asked for his assistance in the prosecution of his campaign.

laugh no more. Mr. Harmsworth, one of its redoubtable opponents, the 'Review' thinks, will come to terms with the strong man, Chamberlain. The 'Scotsman,' in publishing some interesting diagrams showing the results of the Canadian preference, says the British percentage of dutiable goods stayed the downward rush. The aggregate of particular lines availed nothing, the duty-free importation of American goods giving the United States all but one vote in representation of its trade or subdivision of trades.

NOTHING NEW.

DOMINION PARLIAMENT

Compulsory Voting at Elections the Subject of Discussion on Saturday

THE BILL MEETS WITH MUCH OPPOSITION.

Ottawa, Oct. 12.—Nearly all day Saturday the time of the House was devoted to a discussion of Mr. Charlton's bill to prevent corruption in elections. This bill was referred to a special committee some time ago, and the subject came up on the bill as amended by the committee.

The most important clause of the bill was that in regard to compulsory voting. The bill provided that a voter had to go to the poll and deposit his ballot, but of course he might put in a blank or spoiled ballot, so that there was no necessity of him voting for any of the candidates.

This part of the bill was a compromise between those who were in favor of compulsory voting and those who were not. Another feature of the bill was that sheriffs or registrars should act as returning officers instead of leaving to the government to appoint any one they might see fit.

The bill also provided for the distribution to the people as far as possible all information concerning elections, so that there would be no excuse for any violation of the provisions of the act.

Mr. John Charlton fully explained all these provisions when the House went into committee on the bill. He said that the committee was unanimous in regard to all the provisions except the clause respecting compulsory voting.

Several members expressed their opinion on compulsory voting. For instance, Mr. Puttee, of Winnipeg, said that he was in favor of compulsory voting, but he wanted to see the hours for voting extended, or a holiday given on election day to permit of the working classes getting time to vote.

Mr. T. O. Davis (Saskatchewan) said that the bill provided that if a man was sick he did not require to vote. He thought that if his wife or a member of his family were ill this also ought to excuse him.

Mr. Fowler (King's), who was supporting the bill, said that it provided that a judge would decide whether the elector was justified in absenting himself.

Mr. Fraser (Guysboro) said that the man himself was the proper one to say whether he should vote or not. He was opposed to parliament interfering with personal liberty of the individual.

Mr. MacPherson (Burrard) took the same view of the question, while Mr. Haggart declared that compulsory and open voting would be the two best things to drive out of our elections the worst kind of corruption, to which both parties were opposed.

THE '300' TROUBLE

SENATOR DANDURAND HAS AN OPTION ON THE PROPERTY.

Sault Ste. Marie, Ont., Oct. 10.—The hearing of the argument on the motion made by James Bicknell, for Speyer & Co., for judgment to get possession of the Consolidated Company, opened this morning in chambers before Judge F. W. Johnston, senior judge of the district of Algoma.

Mr. Fitzpatrick did not see that he ought to be compelled to go to the polls and vote for a man if he did not want to. Mr. Blair was of the opinion that the remedy proposed would defeat the object desired, because a man would be prohibited from voting for six years if he failed to vote on one occasion. He did not think that corruption would be stopped by compulsory voting. He would like to assist anything that could be devised to prevent corruption in elections.

BLUE RUIN PREDICATED.

(Canadian Associated Press.)

London, Oct. 11.—Mr. Winston Churchill, addressing the Oldham Conservative Association, stated his belief that the Chamberlain movement 'will bring the Conservative party clattering in ruins to the ground.'

NEW LABOR UNION

THE STRUCTURAL BUILDING TRADES ALLIANCE WILL AFFECT 1,000,000 MEN.

Indianapolis, Ind., Oct. 10.—The national officers of the building trades national and international organizations have formulated a general plan for the creation of what will be known as the Structural Building Trades Alliance of America. It is estimated that one million men who are members of the building trades will be affected by the alliance.

The platform of principles which forms the preamble of the skeleton draft of the constitution agreed upon sets forth the following objects of the organization: 1.—The establishment of local and international boards of arbitration to settle disputes as they arise without resorting to strikes.

2.—When necessary to give international sympathy support to all trades affiliated where local boards fail in their efforts to adjust differences. 3.—To safeguard, protect and watch over the interests of members of the organizations affiliated.

4.—To protect the autonomy of the several trades represented. 5.—To keep agreements with employers inviolable. 6.—To avoid and discourage strikes if possible and to prevent internal strife and friction in the building trades industry.

7.—To oppose the formation of dual and rival bodies, demand their complete annihilation, and assist only such unions as are affiliated with their respective national or international unions conforming to this declaration of principles. 8.—To encourage and maintain fraternal relations with existing recognized central bodies, and to emphasize the necessity for a centralization of organized wage-earners.

The constitution, so far as decided upon, provides that the Structural Building Trades Alliance of America shall be controlled by a president, secretary-treasurer, and eight vice-presidents, who shall constitute a board of governors which shall watch legislative measures in the interest of building tradesmen, decide all questions of trade disputes, jurisdiction, strikes and lock-outs, and whose consent shall be necessary before any strike shall be ordered. Each component organization has the right to order

a strike, but unless the consent of the Alliance government is first obtained, the support of the Alliance will not be given. The constitution says: 'With a view to curtailing the effect of sympathetic strikes on this Alliance, it is intended to require all affiliated organizations to submit all grievances, whenever practicable, to this Alliance, or its board of governors, and it is especially understood and agreed that all demands for increase of wages or other trade improvement shall be referred to this Alliance or its board of governors for general approval, but such approval must be solicited by the affiliated national or international unions.'

'Each affiliated organization shall be required to submit a written statement covering the extent and character of its trade jurisdiction, and when approved by this alliance or its board of governors no encroachment by other trades will be countenanced or tolerated. 'Should a trade dispute occur between affiliated organizations, this alliance or its board of governors shall be required to decide such dispute on the principle of the strict trade vote.'

It is distinctly understood that by the term 'trade vote,' this alliance shall permit affiliated organizations to cast but one vote in representation of its trade or subdivision of trades. The organization has elected the following officers: President, George P. Gibbins, president of the Bricklayers' National organization; secretary-treasurer, W. J. Spencer, national organizer of the Plumbers, Gas and Steamfitters; vice-presidents, J. G. Kavanagh, of the Plasterers; Frank Buchanan, president of the Structural Iron Workers; Frank Duffy, of the Carpenters; W. J. Bainbridge, of the Painters; Herman Lilian, of the Hoisting Engineers; W. J. French, of the Electrical Workers. The eighth vice-president, to be decided upon later, will represent one of the Stone Cutters' organizations.

MR. PARNELL DEFEATED

SOUTH MEATH ELECTION GOES TO MR. DAVID SHEEHY.

Dublin, Oct. 10.—Mr. David Sheehy, the Irish nationalist candidate, has been elected to represent South Meath in parliament by a majority of 1,214 over Mr. J. H. Parnell, brother of the late Charles Stewart Parnell, who ran as an independent Nationalist. The constituency was consistently anti-Parnellite until 1895, when Mr. J. H. Parnell captured the seat by a majority of 48. Mr. J. L. Carew, whose sudden death necessitated the election just held, was returned unopposed in 1900.

BRITISH CABINET

LORD SALISBURY TO BE LORD PRIVY SEAL.

London, Oct. 11.—The interesting announcement is made to-night that the new Marquis of Salisbury will enter the cabinet as Lord Privy Seal, the office held by his father until his retirement last year, when Mr. Balfour assumed the post. The cabinet now consists of nineteen members. The appointment of Lieut.-Col. William Bromley Davenport, M.P., as financial secretary to the War Office, is confirmed, and the following additional appointments have been made: Secretary to the Admiralty—Ernest C. Prettyman. Civil Lord of the Admiralty—Major Arthur H. Lee, M.P. Junior Lord of the Treasury—Lord Balfour, M.P. Treasurer of the Household—Marquis of Hamilton.

The new Civil Lord of the Admiralty, Major Lee, was British military attaché with the United States army in the Spanish-American war, and military attaché to the British embassy at Washington, 1899-1900. He was parliamentary private secretary to Mr. Arnold H. Forster, Secretary to the Admiralty in 1901.

TUMUT THE CAPITAL

NEW SOUTH WALES OBJECTS TO THE CHOICE OF SEAT OF GOVERNMENT.

Melbourne, Oct. 11.—The federal House of Representatives has by ballot selected Tumut for the federal capital. The New South Wales members wanted Lyndhurst, while the Victorians were divided between Bombala and Tumut. When Bombala was rejected all the Victorians supported Tumut, which is nearest to Melbourne. The House decided that an area comprising a thousand square miles shall constitute the federal territory, which will make the Murray river the southern boundary and the Murrumbidgee the northern boundary. The people of New South Wales object to surrendering so large an area, which will make the territory adjoin Victoria, and it is probable that the Government of New South Wales will withhold its consent.

THE MANUFACTURERS

THE PRESIDENT, MR. GEORGE E. DRUMMOND, TELLS OF THE IMPRESSIONS OF THE TRIP.

Winnipeg, Oct. 10.—Before leaving Winnipeg yesterday for the east, Mr. George E. Drummond, president of the Canadian Manufacturers' Association, speaking for the members, issued the following to the press: 'We are immensely impressed with the extent of the country, its wonderful possibilities and magnificent variety of scenery. We are surprised beyond measure with the development evident throughout the territory we have visited, in farming, ranching, lumbering, mining and fisheries. The future of such a country is beyond a question. We are struck to an even greater degree by the buoyant, hopeful spirit shown by the people from Winnipeg to the coast, a spirit which is certain to bring success. We shall never forget the hearty Canadian welcome extended to us at every point, which made us feel that the east and west are united by a thoroughly national sentiment. With regard to the transportation question, the people in the west for increased and increasing facilities that will keep pace with the growing needs of the country, but we cannot but express our admiration for the great national work already performed by the Canadian Pacific Railway. As Canadians we are proud of the services afforded by that company on both rail and water. If there is one matter in regard to which we are not contented it is the very large proportion of United States and German goods that are at present flooding the markets of the west and every where in circulation. We consider that in both these features of trade there is a distinct national loss, which should be remedied at the earliest possible moment. A matter of very great gratification to the members of the association is the fact that we have learned from practical men at all points that Canadian goods in almost every department are of the right quality, and in many lines admittedly superior to foreign-made goods. We are further pleased to learn from many prominent western Canadians that they would strongly encourage domestic competition to the fullest extent rather than continue the importation of foreign goods. The manufacturers are returning to the east determined to use every possible effort, even to the establishment of branch offices and factories, to meet the requirements of the western market and to hold it in the general interests of both east and west for the people of Canada.'

IRENB COLE MURDER

THE LOST BAG FOUND.

Brantford, Ont., Oct. 12.—Prof. Ellis, of Toronto, to whom were submitted particles of Kennedy's clothing bearing spots which are believed to be blood stains, resulting from the Cole murder, has completed his analysis. His report has been sent to the local authorities, and is now in their hands, but they refuse to divulge its contents. It is announced, however, that the report will be made public on Tuesday morning, when the preliminary hearing before Mr. Woodruff, police magistrate, will be concluded, and the prisoner, in all probability, committed for trial. The police have recovered the bag in which Kennedy carried off the chicken he procured from Mrs. Howe. The chicken was afterwards found dead in 'The Willows' about sixty yards from the child's body. The bag was discovered not far from the spot where the chicken lay. It has been identified and will figure prominently in the case at a later date.

RIVER LIEVRE BLOCKED

LANDSLIDE AT POUPORE, NEAR BUCKINGHAM.

Buckingham, Que., Oct. 11.—Word has just reached here that a landslide has occurred at Poupore, about twelve miles north of here, on the Lievre river, completely blocking the channel. The river is blocked for a mile immediately below the government lock. The last report was that the water had piled up against the obstruction to a height of twelve feet, but later had found an outlet through the earth somewhere. Farm buildings are destroyed, but no lives lost. The water has fallen eight feet here, and is rapidly going down. The mills have men securing the booms and making every preparation for a rush of water should the obstruction give way. Telephone communication is interrupted and news is hard to get.

SIR HECTOR MACDONALD

OFFICIAL COMMISSION DECLARES THAT THERE WAS NO STAIN UPON HIS CHARACTER.

The following report has been issued to the public: Government Buildings, Colombo, June 29, 1903.

In reference to the grave charges made against the late Sir Hector Macdonald, we, the appointed and undersigned commissioners, individually and collectively declare on oath that after the most careful, minute and exhaustive enquiry and investigation of the whole circumstances and facts connected with the sudden and unexpected death of the late Sir Hector Macdonald, un-animously and unmistakably find absolutely no reason or crime whatsoever which would create feelings such as would determine suicide, in preference to conviction of any crime affecting the moral and irreproachable character of so brave, so fearless, so glorious and unparalleled a hero; and we firmly believe the cause which gave rise to the inhuman and cruel suggestions of crime were prompted through vulgar feelings of spite and jealousy in his rising to such a high rank of distinction in the British army; and while we have taken the most reliable and trustworthy evidence from every accessible and conceivable source, have without hesitation come to the conclusion that there is not visible the slightest particle of truth in foundation of any crime, and we find the late Sir Hector Macdonald has been cruelly assassinated by vile and slanderous tongues.

While honorably acquitting the late Sir Hector Macdonald of any charge whatever, we cannot but deplore the sad circumstances of the case that have fallen so disastrously on one whom we have found innocent of any crime attributed to him.

ITALY AND FRANCE

THE FORMER ALSO WANTS ARBITRATION AGREEMENT.

Rome, Oct. 10.—Representatives of the French and Italian governments are holding four parlers with a view to the making of a treaty of arbitration similar to that agreed upon between France and Great Britain. It is asserted that King Victor Emmanuel intends to come to a definite understanding with the French Government on the subject during his visit to Paris. An understanding between the Rome and Paris governments will be more easily arrived at than that between France and Great Britain, as there exists no serious pending question between the two countries.
