RUSSELL, BROTHERS, grateful for past favors, whereby they have been enabled to extend their business to the Ancient Capitals of both sections of the Province, respectfully inform their numerous friends, and particularly the travelling community, that they have made such arrangements for the coming season, as will entitle them to a continuance of the liberal patronage they have hitherto possessed. CLARENDON,
NEW YORK.

THIS ELEGANT HOTEL, which is situated on Fourth Avenue and Eighteenth Streets, in the upper and most fashionable part of the City, has been again enlarged during the past year, and is now one of the largest of the magnificent Hotels which have recently been erected in New York. The accommodations are of the latest and most approved character, without regard to expense. There are over Fifty Suites of Apartments, having Baths and other water conveniences attached to each, which makes it perfectly luxurious to the Traveller.

This Hotel has been the residence of the Earl of Ellesmere, Sir Charles Lyell, and all the British and Canadian Commissioners to the Great Exhibition of All Nations in 1853, and of many other distinguished Europeans, and is kept in a manner best calculated to please the English Traveller.

The Directors of the Exhibition of All Nations have decided to continue the same for the year 1854, and the location is nearer to the Clarendon than any other of the first class Hotels. It is situated near the Depots of the Railroads going North and East, and the Coaches connected with the House convey Passengers to and from all the principal Depots and Steamboats.

The whole Establishment, which has been furnished at an outlay of more than one hundred thousand dollars, will be kept in a manner that, the Proprietor hopes, will meet the views and ensure the patronage of the English and Canadian Traveller.

Proprietor.

OCEAN HOUSE RE-OPENED.

The subscriber, having made essential improvements in his accommodations at the "OCEAN HOUSE," (Cape Elizabeth,) respectfully gives notice that he opened said House for company on

MONDAY, JUNE 5th,

And will continue open until further notice—except on SUNDAYS, on which day it will be positively closed to all visitors.

Since its close last year, the subscriber has further improved his premises, so that the comfort and convenience of his visitors will be very much enhanced.

The well-known location of the House, on the Southern verge of Cape Elizabeth, with excellent fishing grounds, a full view of the Islands, and the range of the sea air, and ample view of the Ocean, as far as the eye can reach, together with a hard sandy beach, of a mile or more in length, for rides, render it as lovely a resort for pleasure parties, invalids, or permanent boarders, as can be found in the whole country.

The House will be conducted on strict temperance principles, and nothing will be allowed in its connection which shall not be satisfactory to the most refined taste.

Grateful for past favors, the Proprietor re-opens his House, confidently trusting to satisfy his numerous friends by his constant efforts to please them.

J. P. CHAMBERLAIN.
Cape Elizabeth, June 2, 1854. 90

THE OCEAN HOUSE,
ON RYE BEACH,

WILL BE OPENED on the 12th of June, for the accommodation of permanent and transient visitors. It is not necessary to describe the extent of this establishment, or its attractions, as it is well known throughout the Canadas, and has always had the patronage of the first people in the country. The Proprietor is constantly making improvements in the Hotel, and no expense or pains will be spared to make this the best Watering Place in the World. A beautiful Evergreen Grove in rear of the Hotel, will be known as "Greenwood Grove," is about to be greatly improved, and connected with the House, which stands within two minutes walk of the finest beach and the finest Surf Bathing in New England. Travellers from Canada by way of Concord, will stop at the Greenland Depot, on the Portsmouth and Concord Rail Road. There two very large three-story houses are now being completed for the accommodation of Boarders, owned by O. B. Philbrook, Esq., the other by Car Levit, Esq. They can accommodate over one hundred persons.

And it is designed to render the Tables, Attendance, &c., in all respects equal to those establishments. The House is situated directly opposite the south end of the new Depot of the Union Railroad, and within a few steps of the same. Passengers need have no apprehension of being left by the Cars.

☞ Porters at all times in attendance at the Depot, to receive checks and to convey baggage to and from the House, and save delay.

THE ELECTION.—The adherents of the Hincks-Rolph Administration, in Montreal, are evidently, day by day, falling off from their allegiance. Having failed in their attempt to seduce either liberals or conservatives into an unprincipled coalition, and thus to play the game over again, by which they succeeded in effecting Mr. Young's return in 1852, they are entirely "abroad" as to candidates; and, so far, have utterly failed in securing a single volunteer in the forlorn hope of defending the shattered characters of their political patrons. The prospect of defeat is so certain, that even such mercenary *Dalgetties* as Messrs. Ryan and Bristow decline the risk and, what is almost incredible, the proffered "pay and provend." Under these circumstances, there is nothing left for their organs of the press but, while claiming for their patrons the credit of holding political opinions identical with those of their liberal opponents, to slander and vilify those opponents, by attributing objects and motives to them, unsustained by one title of evi- lence and utterly inconsistent with the whole course and tenor of their political lives. We thus find *La Minerve* and the *Pilot*, while unable to discover the slightest flaw in Mr. Dorion's, as the *Transcript* justly calls it, very excellent address—while constrained to acknowledge the wisdom, the justice, the necessity of every con- stitutional reform advocated by Mr. Dorion— neanly and jesuitically attributing to him con- cealed opinions and objects, which no one who knows that gentleman's uniform straight- forward, frank and honorable conduct and character would for a moment listen to. We have so frequently exposed the mendacious and dishonourable misrepresentation of the ob- jects and opinions of the liberal section of our Franco-Canadian fellow-countrymen—the *Parti Rouge*, as the ministerialists have, with a good eal of petty malice and cunning, nicknamed hem—, that it is hardly necessary for us to go ver the ground again. Suffice it, then, to say hat nothing can be more grossly false and ridi- nious than the attempt of the, *soi disant*, liberal orruptionists to represent Mr. Dorion and his po- tical friends as sympathising in the extreme re- olutionary and impracticable views of the Louis lancs and Ledru Rollins—the *red republicans* of rance. We say, nothing can be more false and diculous than such an idea. Our *rouge* friends, s their every act proves, while they do not con- eal or deny their republican leanings, have no- ing whatever in common with the speculative *ralties* of Paris—they are essentially practical in l their views and objects and, notwithstanding eir republican leanings, are good and loyal ibjects of Queen Victoria, who do not seek to vertura the constitution, or the institutions of eir country, but to reform and ameliorate them. s Mr. Dorion well and truly says, they hold inciples the most conciliatory towards effect- g a union of citizens of all origins; they advo- te the widest extension of civil rights, politi- l and religious; they perseveringly seek and mand only such reforms as, even their ministe- l traducers are forced to admit, are best calcu- ed to favor progress and develop the resour- s of the country. Such are the, so-called, *Parti uge*—reformers not revolutionists—who derive eir political principles and sentiments, neither m France nor Germany, but from England, d her glorious off-shoot, the United States of nerica. It is, then, we repeat, alike base and ntemptible in the servile organs of a corrupt d unscrupulous ministerial faction, to attempt manufacture of political capital, by misrepre- ting the views of Mr. Dorion and his party, ile—we must use a stronger term—it is infa- us in them, with the same object, to introduce religious element into the political contest, by resenting so consistent a member of the rch of his fathers, as Mr. Dorion is well known be, as an advocate, not only of "wild theories olitical economy," but of "infidelity in reli- n." Can the *Pilot* have forgotten the attacks anatical and unconstitutional as his own are v—upon Mr. Hincks, on account of his religi- opinions—his "infidelity," in the opinion of assailants? We confess, we were entirely prepared for so dastardly a system of politi- warfare, as such articles as that in the *ot* of Tuesday evening would indicate the isterial corruptionists contemplate entering n. We can only look upon it as evidencing absolute hopelessness of their cause; and, le we deprecate and repudiate the folly and kedness of such attempts to play upon the udices of the ignorant and bigoted, we feel bly assured of the loss and disgrace which annot fail to inflict upon those resorting to n. The very idea of the organ of a Unitarian ne Minister assuming the championship of nan Catholic orthodoxy, reminds us of poor lock's description of a hypocrite—

He was a man
Who stole the livery of the Court of Heaven
To serve the Devil in.

such a course must defeat the object sought and convince every intelligent, liberal-mind- nd sincere man—be his religious convictions t they may—of the shameless dishonesty of e adopting it, and of their being utterly un- rving of the confidence of the country.

ELECTION INTELLIGENCE.

WHO OFFER, AND WHO ARE LIKELY TO BE RETURNED.

Brant East and West.—The East Riding consists of the townships of South Dumfries, Onondaga, East Brantford and the village of Paris: and the West Riding of those of Burford, Oakland, Tuscarora, West Brantford and the town of Brantford. Several Conservatives have been named in connection with this Riding; but none decided upon. The Rev. Wm. Ryerson has been spoken of on the Reform ticket; but we believe, without authority on his part.

Bytown.—Mr. McLaughlan will again be a candidate on the Reform interest.

Brockville.—The town of Brockville is united to Elizabethtown for electoral purposes. The contest is again likely to be between Mr. Crawford and Mr. George Sherwood, both conservatives.

Carleton.—The townships of Osgoode and Gloucester are detached from this county and added to Russel. It is conservative, and has for years returned Mr. Malloch, who it is said will be opposed by Mr. Powell, a member of his own party. No Reform candidate has yet offered.

Cornwall.—Tho probability is, that Dr. McDonald will again be a candidate. The name of Mr. Elliott of Cornwall, is also mentioned in connection with Cornwall and the neighboring Counties. He is a Reformer.

Dundas.—This county is the same as under the old electoral divisions. Mr. Rose is the only known candidate at present. Another Reform candidate is spoken of and will probably be started. Philip Vankougnet, Esquire, has, we understand, been requested to stand on the Conservative interest.

Durham West.—This Riding consists of the townships of Clarke, Darlington and Cartwright. Mr. Simpson, a Reformer, if he stands, is likely to be returned. No Conservative candidate as yet.

Durham East.—This Riding is Conservative. It consists of the townships of Cavan, Manvers, Hope and the town of Port Hope. Mr. Burton, the Conservative candidate's election is certain.

Elgin East.—This Riding consists of the townships of Bayham, Malahide, Yarmouth, Louth, Dorchester and the village of St. Thomas. Dr. Southwick, the Reform candidate, will be opposed by Mr Murdock McKenzie, of St. Thomas. Both gentlemen are highly popular with their respective parties. It is impossible to tell what may be the result.

Elgin West.—This Riding consists of the townships of Southwold, Dunwich, and Aldborough. Mr. McIntyre is spoken of as the Reform candidate. Mr. Ermatinger is the nominee of the Conservatives. He is a powerful opponent.

Essex.—Mr. Prince seeks re-election. We sincerely trust, for the common honour of the County, that he will be rejected.

Frontenac.—This county forms an electoral division under the new Representation Act. Maxwell Strange and Henry Smith are the Conservative candidates. No Reformer has yet appeared in the field. Nor is it thought any will offer.

Glengarry.—This constituency retains its old boundaries. J. Sandfield Macdonald and Dr Grant, both Reformers, are mentioned in connection with this constituency, the latter merely making the attempt as a forlorn hope.

Grey.—Is a Conservative county; and, unless the party split up, they will carry it without difficulty.

Grenville South.—Leeds and Grenville form three counties under the new Representation Act —the North Riding of Leeds and Grenville, the South Riding of Leeds, and the South Riding of Grenville. This Riding consists of the townships of Edwardsburg and Augusta, and the town of Prescott. Mr. Patrick, Radical, will be opposed by Dr. Jessup, on the Conservative interest.

Haldimand.—Mr. O. Phelps is canvassing this county in opposition to Mr. Mackenzie. Unless a popular Conservative offers, the county will be carried by Mr. Mackenzie.

Halton.—Mr. White, the Radical Candidate, will be opposed by Mr. Chisholm, late sergeant-at-arms, with every chance of success.

Hamilton.—Sir A. N. MacNab will be re-elected, we hope, without opposition.

Hastings, South.—This Riding comprises the Townships of Sidney, Thurlow, Tyendinaga, the village of Trenton, and the town of Belleville. Louis Wallbridge, Esq., an influential Conservative, is the Conservative candidate. Mr. Billa Flint, a Radical, will oppose him. Mr. Wallbridge's great personal popularity will gain the election in all probability.

Hastings, North.—Is composed of the townships of Lake, Tudor, Grimsthorpe, Marmora, Madoc, Elzevir, Rawdon, Huntingdon and Hungerford. The contest in this constituency, is likewise to be confined to the Conservatives. Mr. Murney, the late member, will be opposed by Mr. Benjamin.

Huron.—John Strachan, Esq., will be the Conservative candidate. He will be opposed by Mr. McQueen, the Editor of the *Huron Signal*. Mr. Caley will likely offer for this county.

Kent.—Mr. Larwill, a Conservative, will probably be unopposed.

Kingston.—The Hon. John A. McDonald will be returned again by acclamation.

Lambton.—Mr. Malcolm Cameron, and Mr. George Brown of the *Globe*, contest this county; one on the Ministerial, and the other on the Independent Reform interest. No human being can tell the result.

Lennox and Addington.—Mr. Seymour, the late member, will be opposed by Mr. David Roblin, a Reformer. Mr. Seymour's election is beyond a doubt.

Lincoln.—Mr. Merrit, Reformer, will offer for this county. No Conservative named.

London.—Mr. Dixon and Mr. Beecher are spoken of as Conservatives; John Willson runs on the Ministerial ticket.

Leeds, South.—Consists of the townships of Yonge, Escott, Front of Leeds, and Lansdowne, Rear of Leeds and Lansdowne, South and North Crosby, Bastard, and Burgess. Mr. Delong, the late representative, elected after the appointment to the Bench of the Hon. W. B. Richards, and Mr. Denaut are both spoken of. The former as ministerial—the latter on the strong opposition interest.

Lanark, North and South.—The North Riding comprises the townships of Sherbrooke, North Dalhousie, Lanark, Ramsay, Lavant, Darling, and Pakenham; and the South Riding, the townships of Montague, Elmsley North, Burgess North, Sherbrooke, South, Beckwith, Drummond, Bathurs, and the town of Perth. Mr. Shaw will be a candidate on the Conservative interest for the south riding. He will be unopposed. He is a sterling Conservative.

Middlesex East.—The Conservative candidate spoken of is Mr. Horton, and the Radical, Mr Miles. Mr. Lionel Ridout of London, may ultimately become the Conservative candidate.

Middlesex, West.—Dr. McKeller and Mr. Scatchard are the opposing candidates.

Niagara or Zimmerman.—Mr. Morrison will again offer.

Norfolk.—Mr. Hunt, a Conservative, will oppose Dr. Rolph.—A violent contest may be looked for.

Northumberland, West.—The Radicals are divided here. Mr. D'Arcy Boulton, for the West Riding, will be elected without difficulty. Mr. Myer's will be the Conservative candidate for the East Riding, which he will carry as the Conservative candidate. There are two reformers in the field for the West Riding, namely:—Messrs. Smith & Weller, with little chance of success.

Ontario, South.—Mr. Farewell, anti-ministerialist, is spoken of for this Riding. Mr. Roe, Conservative, opposes him.

Ontario, North.—Mr. J. Gould is spoken of as the Radical Candidate. Archibald McLean, son of Judge McLean and Allan Macdonnell, Esq., are spoken of as the Conservative candidates.

Prince Edward.—Mr. Stevenson, the member for several sessions, and a high Conservative, will probably be unopposed.

Peel.—Mr. Wright, the present member, Mr. Graham, Mr. Howland, and Dr. Deaseley, are spoken of as Candidates for this County. All Conservatives.

Renfrew.—The *Leader* says, in relation to Renfrew, that "the Hon. Inspector General Hincks, has received and accepted the invitation to run for this constituency, which for election purposes retains its old boundaries. He will be elected by acclamation. The election will come off at an early date, and thus Mr. Hincks will have time to visit South Oxford, for which his election is deemed safe by those who have the best opportunity of judging." *The Hon. John A. McDonald, of Kingston, will probably be put in nomination against Mr. Hincks, and we shall see which side the "acclamation" will be upon.*

Russell.—Mr. Lyon or Mr. Stewart will be the Conservative Candidates. Mr. Bell of the Bytown *Citizen* intends to offer himself on the Ministerial interest. He is a page of the government.

Simcoe South.—Consists of the Townships of West Gwillimbury, Tecumseth, Innisfil, Essa, Adjala, Tossorontio, Mulmer and Mono. The Hon. W. B. Robinson is the only candidate named; *or that need be named.*

Simcoe, North.—Comprises the townships of Nottawasaga, Sunnidale, Vespra, Flos, Oro, Medonite, Orillia, Tiny, Tay, Matchedash and the town of Barrie. The Reformers speak of Angus Morrison or Dr. Connor, both of this city. Mr. Sanson, the Warden, is the Conservative candidate, and the highly popular one.

Stormont.—Mr. Mattice, the late member, is the Ministerial candidate. He is opposed by Mr. Morris, son of the Hon. W. Morris, a Conservative, whose chances of success are good.

Toronto City.—There are several candidates in the field, namely, Messrs. Sherwood, Ridout, Allan, Vankoughnet, J. H. Cameron, and J. G. Bowes.

York, North.—Mr. Hartman will be opposed by Mr. James Harvey Price for this county.

York, West.—Mr. J. W. Gamble, the late member, unopposed.—*Toronto Colonist.*

UPPER CANADA.

INQUEST.—SUPPOSED MURDER.—The preparatory steps to the holding of an inquest were taken by Dr. King and a jury of fourteen persons, last Saturday evening in the Police Office. The inquest is on the body of an unknown female infant found floating in the river Don. The infant is newly-born, swathed with the best description of cambric linen, neatly trimmed with the finest lace. The jury adjourned to this afternoon at 3 P. M. Hand-bills will be issued this morning announcing that the infant's clothing will be exposed for recognition at the Police Office until the enquiry shall be resumed.—*Globe.*

TORONTO CANDIDATES.—For several days past, the friends of some of the gentlemen whose names have been mentioned as Candidates for the city on the Conservative interest, have made it their business to effect a mutual arrangement, Messrs. Cameron, Vankoughnet, and Allan, readily entered into the proposal, and offered to abide by the decision of mutual friends. Mr. Sherwood, agrees to the same thing. Mr. Ridout declined, and offered propositions of his own for accommodation, which were not considered admissible. Five gentlemen on behalf of each of the first-named four candidates, making twenty in all, met on Saturday at Snow's saloon, and proceeded to the selection of two of the number agreeing to the arrangement. The first nomination fell upon Mr. Cameron; a second and a third vote were taken, and Mr. Sherwood was named as second candidate by a small majority. A resolution was then adopted unanimously, recommending Messrs. Sherwood and Cameron to the support of the electors of this city; Messrs. Vankoughnet and Allan very handsomely pledging themselves to do all in their power to carry out the general decision.—*Colonist.*

UNITED STATES.

RECIPROCITY.—The Reciprocity Treaty is done for. The Washington correspondent of *The Express* says that it was rejected by the Senate in Executive Session, on Saturday, for the alleged inequality of the advantages conferred by it on the respective contracting parties, and also because it was an infringement on the privileges of the House of Representatives, which can alone originate changes in the revenue laws. No doubt the active men in bringing about this result, were the Representatives and Senators of the South, whose determination is that there shall be no reciprocity between the Free States and Canada. They seem to have been able, however, to find satisfactory, practical and constitutional reasons for their course.—*Tribune.*

PRICE OF BEEF.—It may be well for all who buy to eat, as well as those who buy to sell, to glance at our cattle report on the last page. They will generally find something interesting, and to-day, that the price of cattle were lower at Bull's Head yesterday than they have been before in some weeks; also that a part of our supply comes from Texas, being driven 1,500 miles and transported by railroad 600 more. They will see by the numbers reported for the week what enormous meat-eaters we are in this City, notwithstanding the warm weather and the millions of bushels of strawberries we have consumed lately.

The number of animals received for slaughter last week was 23,714, to wit: beeves 2,755, veals 1,921, sheep and lambs 15,066, swine 3,972. This looks decidedly carnivorous.—*Ibid.*

MURDERS, &C.—Wm Foulkes, the porter-house keeper, who stands charged with the murder, of Edward Bogan, was yesterday brought before the Coroner Hilton for examination. He was born in Castle Donington, England, and is 46 years of age. He stated that he was innocent. He also stated that he told them the name of the man who fired the pistol. He said further: "As I was pushing Robert Cunningham out the deceased was behind him, both with their backs to me; John Ewing then came up, pointed the pistol over my shoulder, and by the side of my head, and shot the deceased." He was fully committed for trial.—*Ib.*

Capt. Dilks yesterday morning reported to Chief Matsell, that about 11½ o'clock on Saturday night a gentleman while passing through Washington Parade Ground, four men approached him, and on coming close to him, one asked: "Are you a Protestant or a Catholic?"

Mr. Reed thought proper not to answer the question, when another of the cowardly ruffians stepped close up to Mr. Reed and struck him a powerful blow on the face, saying at the same time, "You are one of those d—d Know-Nothing Protestants."

The third villain now advanced and drew a large dirk-knife, with which he made a rush at his victim; but Mr. Reed received the blade of the weapon in his thumb, which was very badly cut

Mr. Reed cried out "I'm stabbed!" which frightened the scoundrels, who, no doubt thinking they had accomplished their hellish purpose, took to their heels and escaped just as some policemen hove in sight.—*Ib.*

THE CATHOLICS OF CINCINNATI.—*Cincinnati, Monday, July 3, 1854.*

It has been reported that the Catholics would carry objectionable flags in procession to-morrow, and trouble being apprehended, Archbishop Purcell publishes a card this afternoon, assuring his fellow-citizens of every denomination, that it is not the intention of the Catholics to carry any objectionable flag, sign, or emblem; and that they will not attach a Cross to the American flag.

A BRAVE AMERICAN.—A letter writer in *The Home Journal* thus describes a terrible fire-eater of American production, now serving in the Turkish army:

"There is, at Gallipoli, a young man from New-York in the Turkish army, who excites a good deal of attention. He fights entirely on his own hook, is always to be seen in the thickest *melée*, and is as brave as a lion. But advancing or retreating, he always has a peculiar tramp—tramp—tramp—from which he never varies, whatever may be the style of march around him; and he has often been seen, in the very hottest of the fight, to stop deliberately, tighten his cravat, take off his hat and arrange his hair, which is very beautiful, and then go to work again against the Russians. One of his friends, who has just come from Gallipoli, was telling me about it yesterday. He says the Turks are very enthusiastic about him."

Considering that Gallipoli is on the Dardanelles, at the very south-eastern extremity of European Turkey, and above five hundred miles from any Russians and from all fighting, this fast young New-Yorker, with his tramp, tramp, his tight cravat and his peripatetic hair-brushing, has certainly selected the scene of his dreadful exploits with a keen eye to his personal safety. No wonder the Turks are enthusiastic when they see him set to work against the Russians in so sanguinary a fashion.—*Tribune.*

SLAVE QUESTION.—Wicked and destructive as abolitionism is in its character and designs, it has done more to build up and consolidate the southern States, and to strengthen the institution of Slavery, than the South would ever have been able to do for itself.—*Richmond Mail.*

Very likely. But if the South is able to do nothing for itself, without the aid of abolitionism, how in the world can it get on in the dreadful event of the dissolution of the Union, which it is so fond of breaking?—*Ibid.*

A DETESTABLE CHARACTER.—Who would have thought a great enemy of tyranny in Ireland, would talk this way of men in the United States who are trying to break the chains of negro slavery?

JOHN MITCHELL'S view of the slave Burns' case

"To compel a *lazy wooly-headed negro* to return to his master, and *work for a living*, is the highest crime known to the higher law. To slay a white man of the Caucasian race—an officer of mere human law, who assists in enforcing its authority—is a deed entitling the hero who accomplished it, to a higher seat in the seventh heaven than St. Paul, the twelve apostles, or any of 'the noble Army of martyrs,' who have died for the sublime doctrines of Christianity, or for the freedom of man.

But if THE TRAITORS only received their desert in this world, the position to which they would be elevated is *a gallows higher than any steeple.*—We rejoice that so far the majesty of the law has been ultimately vindicted, *even at the point of the bayonet*, but it would receive a higher and more salutary vindication *if the* REBELS HAD BEEN SHOT DOWN LIKE DOGS; *and to this complexion it must come at last.*"

This is the language of the man who proposed to destroy British officers and soldiers with vitriol for stopping his agitation in Ireland. There never lived a more detestable man than this Mitchell.

STONE *vs.* WOOD.—A letter from Odessa states some facts bearing upon the important question of how far the massive granite walls can resist the fire of ships' guns of heavy caliber. The writer states that the public of the city had been allowed to visit that port of the works which was exposed to fire in the late bombardment. The protecting wall of the quarantine was almost entirely destroyed. Stones of enormous size and thickness were knocked to pieces affording a conclusive proof that no granite walls can withstand the force of cannon balls and bombs of great dimensions. At the summer house of Prince Woronzoff, on the other hand, which is built of wood he saw the holes made by several 68 and 96 lb. balls, which went through the facade and the walls cleanly, doing no other harm than boring these large apertures. The effect of the guns of great caliber is thus proved to be more destructive against a firm and hard wall of rock than a yielding one of wood or an embankment of simple earth, and it only remains to be seen how far ships propelled by steam, can be used continuously and efficiently while their heavy broadsides are being discharged in actual battle. It seems to be admitted that they cannot with any hope attack either Cronstadt or Sebastopol, unless the fleets have a powerful land force to assist in the operation.

WHAT'S IN A NAME.—Mr. Olds of Ohio, that purely "Democratic" member of Congress, has a son who was recently appointed to office, and this son labors under the name of *Marquis de La Fayette Olds.* It seems that the father is so profoundly ignorant that he supposed he was giving his offspring the proper name of the good La Fayette, when he was only giving him the gallant Frenchman's title as a nobleman.

THE BALTIC FLEET.

ADMIRALTY, June 14.

Despatches, of which the following are copies, have been received from Vice-Admiral Sir Charles Napier Commander-in-Chief of Her Majesty's ships and vessels in the Baltic:

HER MAJESTY'S SHIP AMPHION, }
Coast of Courland, May 18. }

Sir: I have the honor to inform you that I arrived off the port of Ribau on the evening of May 20, in company with her Majesty's ship Conflict, and having received information from various sources that town was defended by only 500 or 600 soldiers and two or three guns, and that several Russian merchant vessels lay dismantled in the port, I determined to bring them out.

On the morning of the 27th, we stood in towards the entrance of the river, and by careful soundings, with boats ahead, succeeded in anchoring both ships within gunshot of part of the town. I then directed Captain Cumming to take a summons to the Governor, under a flag of truce, calling on him to surrender the merchant vessels within three hours.

The Governor refused, but said that a final answer would be sent before the time specified in my letter. At 3.40 p.m., Captain Cumming, who had informed me that there was a considerable body of troops in the town, again landed to receive an answer, a letter from which I enclose. On ascertaining its contents, I took the armed boats of both ships, with Captain Cumming in command of those of the Conflict, into the river. With the exception of one or two, the soldiers kept out of sight, and not a shot was fired. It was well for us that they did so, as we pulled up the creek, which was fifty yards broad, for one mile and a half before arriving at the shipping. I desired the authorities to point out the Russian vessels, of which I then directed Capt. Cummings and Lieutenants Woodhouse and Hore to take possession. I detained a small steamer, (originally Russian now owned by a Dane,) got her steam up, and kept her as a refuge for the boats in case of an attack.

The magistrates stated that they were induced to yield thus submissively from their being convinced that if they were to us a large force would be sent, and the town perhaps destroyed.

The boats captured eight merchant vessels, all new and well found, but dismantled, sails unbent, some scuttled and aground; nevertheless they were all brought out and taken in tow by the Amphion and Conflict before 9 P.M.

The private property found on board was restored to the owners on application for it.

Although I had the opportunity of destroying a large amount of the enemy's property, such as their houses, vessels on the stocks and vessels repairing, I did not consider it right to do so, as the troops had left the town so pitifully to its fate, and the people had assisted in getting the vessels out by opening the bridge, &c., which would have detained us some considerable time, had we been obliged to blow it up, though I was prepared to do so.

The fact of the town of Liban, containing 10,000 inhabitants, and formed by nature with unusual facilities for defence, being temporarily taken possession of by 130 men, without a shot being fired, I attribute almost entirely to the judicious conduct of Captain Cumming during his conference with the magistrates when he landed with a flag of truce.

I have great pleasure in testifying to the exemplary behavior of all the officers, seamen and marines, employed on this service.

I have, &c.,
A COOPER KEY, Captain.
To Vice-Admiral Sir Chas. Napier,
Commander-in-Chief.

HER MAJESTY'S SHIP AMPHION, }
off Libau, May 17. }

SIR,—The duty of summoning you to surrender the merchant vessels in the port of Libau has fallen upon me.

I would willingly spare the town and the lives of the inhabitants; if, therefore, the steam vessel and all the Russian merchant vessels in the port (above and below the bridge) are sent out in their present condition within three hours after the receipt of this letter, not a shot shall be fired. The men bringing them out shall be landed under a flag of truce.

If, at the expiration of that time, this demand is not complied with, the consequences rest with you. In which case I trust that you will cause the women and children to leave the town, and the invalids to be removed to some conspicuous building, which, if indicated by a flag, will be respected.

I am, &c.,
A. COOPER KEY, Captain and Senior Officer.
His Excellency the Governor of Libau.

TOWN HALL, Libau, May 5 (17), 1854.

SIR: The notification addresed by her Britannic Majesty's commander of the Amphion, to deliver up the Russian merchant vessels in the port of Libau, has been received by the magistrates of this town, there being no military or civil governor.

The town of Libau being in a defenceless state, has no power to resist the demand.

The peaceable inhabitants are compelled to submit themselves to any demands put to them; they expect, however, that her Britannic Majesty's power will only undertake that which is consistent with humanity and honor.

The ships demanded cannot and will not be refused; but it is entirely impossible to deliver them in the time prescribed, as most of them are unrigged and lying on a swampy ground.

Under these circumstances the magistrates can only reply, that Her Majesty's Commander should convince himself of the impossibility, and resolve in which way the said merchant vessels are to be brought out of harbor.

Trusting, that meantime no hostilities will be undertaken against the town or its inhabitants,

I have, &c., in the name of the magistrates of Libau, the presiding Burgomaster,
FRESG'OR GRENTHER.

DUKE OF WELLINGTON, HANGO BAY, }
May 23, 1854. }

SIR: I have received your letter giving an account of the surrender of the town of Libau, and the delivery of the shipping in that port; and I much approve of the prompt and judicious steps you took to accomplish this, and the humanity you showed in not injuring the town.

I am, &c.,
CHARLES NAPIER,
Vice-Admiral and Commander-in-Chief.
To Capt. A. C. Key, Her Majesty's ship Amphion, senior officer.

THE SQUADRON IN THE CHINA SEAS.

HER MAJESTY'S STEAM SLOOP ENCOUNTER, }
SHANGHAI, April 4 }

Sir: I have the honor to inform you that a collision has taken place between the imperialist forces before the city of Shanghai and ourselves, under the following circumstances:

2. At about 4 P. M. on the 3d inst. I observed the signal (previously arranged) for the small arms men of her Majesty's ships to land, which was promptly obeyed.

3. I shortly received a message from Commander the Hon. G. D. Keane, (who happened to be on the spot at the time,) that the imperial troops were firing at our people, and the ground was being held by the marines of the main guard.

4. I advanced with the Encounter's men to the spot indicated, (the race-course,) which is within the limits of our own boundary, where a sharp firing was being maintained on either side.

5. Her Majesty's Consul and Vice-Consul were there; and at the former's requisition, and quite in accordance with my own views, I determined on at once acting on the offensive, and, having clearly ascertained the camp from which the aggression had been made, took it and burnt it, which I am happy to say was effected without loss, as the troops retired the moment we opened fire upon them.

6. Commander Kelly, of the United States ship Plymouth, also landed his crew, and having arranged with him for the protection of the settlement during the night by means of strong patrols, the rest of the crews were re-embarked.

7. Her Majesty's Consul deeming it advisable to take further steps for the security of the settlement, I suggested the taking possession of the Chinese fleet, and holding it until a camp (which most unnecessarily has been pitched close to the boundary, and from which most wanton attacks have frequently been made) was removed, and in this he concurred.

8. In accordance with the above, I sent the boats of the Grecian, with the pinnace of the Encounter, (commanded by Lieutenant Dew) under the command of Commander the Hon. G. D. Keane, to take possession of the junks, and bring them down under the Encounter's guns which he effected most judiciously; and I take this opportunity of stating that from him I received every assistance that adroitness and promptitude could afford.

9. I think it my duty to call your attention to the conduct of Lieutenant Majendie, of her Majesty sloop Grecian; he was officer of the guard at the time the agression took place, and on being sent for repaired to the spot with ten marines, and there kept a considerable body of men at bay until reinforced; and I feel it due to Lieutenant R. Dew, first lieutenant of this ship, to mention the promptitude and smartness with which the crew of the Encounter were landed.

Advanced Post, Shanghai,
April 5, 1854.

10. Since the above was written, I have the honor further briefly to inform you that at the request of Her Majesty's consul, in accordance with the other consuls, we have found it requisite to attack the Imperial camps near our boundary, which have been most gallantly taken. I have not time to enter into details, as I am writing this on the field.

11. The Imperialists have retired in considerable force (4,000 to 5,000) men to the main camp. My object will be now to defend the settlement, but the force at my disposal is small, and I urgently request a reinforcement, if possible some troops; indeed, so critical do I deem our position, that I have resolved on ordering the Styx up, if the senior officer of Amoy can spare her.

12. I cannot too strongly praise the conduct of Commander Keane and Lieutenant Dew, who most gallantly stormed the very strong works thrown up.

13. I am anxious this should reach as soon as possible, and for this purpose the Nymphe clipper will sail to-night or to-morrow morning.

14. Our available force is about three hundred men with the Americans. Captain Kelly, with his gallant crew, has operated with me in a most effective and cordial manner. I am much indebted to the gallant and steady conduct of himself, officers and men, and to all under my command. Her Majesty's Consul and Vice Consul—the latter with forty gentlemen of the settlement—have been with me in the field, and afforded me much assistance.

15. I will take the earliest opportunity of affording you a more detailed account; but of this you may rest assured, that the extreme measures taken were positively requisite for the safety of the community.

I have, &c.,
G. O'CALLAGHAN,
Captain and Senior Officer.

MONEY AND BUSINESS IN PORTLAND.—Our local market is without change. The stock of the At. & St. L. R. R., was rapidly advancing toward par, when the news of the dissolution of the Canadian Parliament checked any tendency to advance, as the consummation of the lease is necessarily postponed till autumn. Recent information from Canada has quieted all fears on this subject, and the leaders of the opposition to Mr. Hincks' ministry have expressed their entire approval of that measure, and that the most perfect good faith will be observed on all questions of public policy.

Sir Allan McNab, Mr. John A. McDonald of Kingston, Mr. Badgley of Montreal, of the old conservatives, and Messrs. Cauchon and Sicotte, representing French constituencies, are the leaders of the opposition, and these gentlemen have taken occasion to say that the most entire good faith will be observed in carrying out the Railway policy of Canada, including the lease of the Portland line. A semiannual dividend of 3 per cent on the stock of the At. & St. L. R. R. Company, is already declared payable on the 10th of July instant.

The returns of traffic for the week ending June 17th, show that during that period over a *million feet* of lumber were carried over the line. In last Thursday's issue we spoke of the new lumber operations this side the border, disclosing a business in prospect in this department of industry, far beyond any previous estimate. Enough is already known, however, to show that a double track and a large equipment are required from Island Pond to Portland. The business will increase faster than the ability of the Railway to supply the plant and rolling stock required for its transaction. It would not surprise us to see a million feet of lumber per day brought to Portland by the Railway.

We now command the entire lumber trade of the head waters of the Androscoggin, the Connecticut and the St. Francis, embracing a region of the greater extent than the entire basin of the Penobscot.

The lumbering business has created a great demand for wharf property, which has advanced more than any other description of real estate in Portland.—*State of Maine.*

GORDON & CO,

June 30. 104

TO THE ELECTORS
OF THE
CITY OF MONTREAL.

GENTLEMEN,—Requested by a large number of my political friends to accept their nomination as a Candidate for the City of Montreal, at the approaching General Election, I have considered it my duty not to refuse the acceptance of this mark of confidence on their part, and I would now, therefore, respectfully solicit your suffrages.

Belonging to the most progressive section of the Liberal party in Lower Canada, to that party which has always held principles the most conciliatory towards effecting a union of citizens of all origins, the advocate of the widest extension of civil rights, political and religious, that party which, since taking a part in public affairs, has ever, with perseverance and energy, demanded those reforms, which it believed best calculated to favor progress and to develop the resources of the country, my opinions upon the principal questions which now agitate the country, must be pretty well known to you.

The Education of the people has become in Modern Societies one of the essential conditions of all solid and durable progression. To labor in rendering education as general as possible, in bringing it within the reach of all, to spread healthy and useful knowledge over the entire surface of the country, by the instruction of the young, is to multiply the sources of the moral and material well-being of present and future generations; it is to contribute in elevating our population to that rank which it ought to occupy among those, by which it is surrounded, and it is the first duty of the legislature to occupy itself with a subject of such vast importance. In the opinion of all, the present system is of little avail. It is necessary, then, to seek for a remedy by which the necessary force and vigour may be secured to surmount every obstacle and to render education popular and universal.

To render the Legislative Council elective, as well as a great number of offices, the nominations for which are now vested in the Government, to diminish the patronage of the Executive and its means of influence and corruption, is to give to the legislative body and to the servants of the public that independence, which they cannot possess under the system now in operation.

The abolition of the Seigniorial Tenure, while assuring to the Seigniors a just indemnity; the settlement of the question of the Clergy Reserves; reciprocal free trade with the United States on just and reasonable principles; the reduction of duties on importations; such are the principal measures which ought immediately to engage the attention of the Legislature.

Another question of great importance ought, ere long, to come under the consideration of your representatives. Should the seat of government continue alternative, or ought it to be fixed? The ambulatory system has already borne its natural fruits, and public opinion has irrevocably condemned it. In the discussions which will arise for fixing in a permanent manner the place of meeting of the legislature, the claims of Montreal may justly be adduced—her central position and other advantages cannot be forgotten.

Free trade with the United States, and the free navigation of the St. Lawrence will still more increase the inconvenience now felt from the insufficiency of our harbour. Its enlargement will become a matter of absolute necessity, and I hope that the surveys now being made, under the superintendence of men selected by the citizens and Corporation, will indicate in a satisfactory manner, the most proper means of providing for the wants of our increasing commerce, in accordance with the general interests of our citizens. Montreal is destined to become the *entrepot* of an immense commerce with the Western Countries, and every measure which tends to develop that commerce, thus furthering the prosperity of the city, will meet my most cordial support.

The opportunity of connecting the waters of the St. Lawrence with those of Lake Champlain, at some point opposite or near the City of Montreal, by means of a Canal, ought naturally to receive the favorable attention of the public, under the new circumstances in which our commercial relations with the United States are about to be placed, but the interests of Montreal, in view of the general interests of the country, ought to weigh in the balance in determining the locality.

In soliciting your suffrages, it is scarcely necessary for me to declare that I shall place myself in direct opposition to the present Ministry.

Nearly three years have elapsed since they attained office, and the Seigniorial Tenure still remains unchanged, the question of the Clergy Reserves is still unsettled, we have no Elective Legislative Council, and little hope of obtaining one, the municipal system has not been ameliorated, education makes no progress from the want of teachers, and the law passed in 1851, for the establishment of a Normal School, remains unexecuted.

The Constitution, which provides that a year shall never pass without a Session of the Legislature, the spirit of which is to secure a Session every year, has been interpreted by the present Ministry, in such a manner as only affords the country one Session of its Parliament in three years. A dissolution, untimely and arbitrary, has been made, without consideration of the urgency of certain measures, which the Assembly offered to pass.

It is under these circumstances and with no other guarantee but the same promises that they made in 1851, that the administration appeals to the country from the condemnation pronounced against it by the Legislative Assembly.

There requires nothing more to justify my want of confidence in that administration, but I feel that I should not have expressed my opinion upon one of the gravest of questions, if I did not explicitely repudiate the principle recently sent forth in the Assembly by the chief of the Cabinet, that a minister might speculate in the public securities and in the public lands, like any other individual. The immoral tendencies of such doctrines could not fail to cover with such a disgrace as would inevitably reflect upon the country itself, men, who, forgetful of the duties of their high position, would descend to play the part of stock-jobbers and place their own private interests above those of the public.

Should these principles meet with your approval and should you place me in the honorable and distinguished position of representing in Parliament the first city in Canada, my most constant efforts will be directed towards the means of attaining those advantages, which must result from their being reduced to practice.

I have the honor, to be,
Gentlemen,
Your very obdt. servant,
A. A. DORION.
Montreal, 1st July, 1854. 107

TO THE
FREE AND INDEPENDENT ELECTORS
OF THE
COUNTY OF CHATEAUGUAY.

GENTLEMEN,—Solicited by a great number among you to tender my services, at the approaching Election, to represent you in Parliament, I reluctantly submit to your good-will, well aware, as I am, of my unfitness to fulfill such an honorable and responsible charge. I have only to offer you, as a guarantee, my activity and perseverance for the progress of the Country.

Should the majority of the County select me to be their Representative, it shall be my duty to support all measures tending to the advancement of the County, and its agricultural improvements. I shall give my support to the passing of a law for the regulation of roads, of which the County is much in need of, and one for amending the present School law, which does not work as well as it should. *The Abolition of the Seigniorial Tenure shall be one of the first measures that I shall ask for;* and all other measures to promote the interests of the country, and of this County in particular, will receive my utmost attention and support. Finally, I may say that an Administration of which the Honble. Messrs. Morin and Drummond form a part, (men so recommendable and devoted to the interests of Lower Canada,) would receive my approbation.

I have the honor to be,
Gentlemen,
Your most obt. hbl. svt.,
MARC ANTOINE PRIMEAU.

BUSINESS NOTICES

LYON'S KATHAIRON,

☞ FOR PRESERVING, RESTORING AND BEAUTIFYING THE HAIR, is the most delightful and wonderful article the world ever produced. Its astonishing success is without a precedent in the history of the *Materia Medica.* Dark and luxuriant curls, soft and glossy hair, with scores of admirers, (mark this ladies), is the universal effect of the Kathairon. Bald and gray heads were perfectly astonished. "The Kathairon has fully restored my hair after a baldness of 12 years. A. J. COURTRIGHT, 76 Bond Street N.Y." The Kathairon is a certain cure for Nervous Head Ache, and all Cutaneous Diseases. Sold by all dealers, everywhere. Try it. Price only 25 cents in large bottles.

☞ During the European wars, in the beginning of the last century, when "grim visaged war" shook the world to its centre, two men of science Robert Watt and Richard Arkwright, unmindful of these convulsions, devoted themselves to the improvement of machinery, and the consequent elevation of mankind. They gained eternal fame in the hearts of men, more lasting those who "sought it at the cannon's mouth." W. Bogle, of 277 Washington street, is a man of peace; but his fame is spread over the world as the celebrated inventor of the Hyperion Fluid, for the preservation and beauty of the hair, the Hebeaiona, for beautifying the complexion, and the unrivalled Amole Shaving compound. All of these articles are the best for their various purposes ever invented and deserve everlasting fame.

To be had of WM. LYMAN & Co., Wholesale Agents for C. E.; and sold by A. SAVAGE & Co. ALEX. URQUHART, and S. J. LYMAN & Co., Druggists, Montreal. In Quebec, of JOSEPH BOWLES and Dr. MUSSON, Druggists. Ctts 106

BOGLE'S PREMIUM ELECTRIC HAIR DYE is totally different and far superior to anything ever invented. The process is perfectly simple, and the effect, magical. It instantly and indelibly dyes the most stubborn hair a natural black or brown, without injuring the skin in the least, and leaves the hair soft and silky after the operation. This, with Bogle's Hyperion Fluid, and Shaving Soaps, may be had of

TO THE MILLIONS.

From toothless babes of nameless weeks,
To prattling jokers in the streets;
From girls and boys that read at school,
To office clerks upon their stools;
From the budding of love at sweet seventeen,
To the Caudle explosions of all honeymoon dreams;
From the mid-way years of man and his wife,
To advancing days and reclining life;
From the spectacled few, who with astonishment gaze
At the wondrous things of these modern days,—
Is heard this general exclamation,
HAVE YOU USED LYON'S KATHAIRON?
Grey heads and bald in concert sing,
The magic of this powerful thing,
That starts the roots of hair long dead,
And covers up the once bald head;
While the truant locks, so harsh and stiff,
That used to vex the pretty miss—
Now around her shoulders twirl
In such rich, luxuriant curls,
The sight or touch, you know not which,
Sets men a sinning, and their heads bewitch'd.
The Dandruff—vexed stuff—that once did fall
O'er broad-cloth coats, and collars soil,
You number with the things that were,
By using Kathairon on the hair.
But more than half, or all yet said,
Are facts about the *nervous Head,*
That sometimes racks and aches with pain,
And doctors' pills are taken in vain.
Now the Katairon, such pains I'll warrant to cure
In ten minutes. No gossiping, I'm sure;
And for Pimples, Salt Rheum, Erysipelas and Tetter,
And all such diseases, nothing is better.

LYON'S KATHAIRON, so justly celebrated for Preserving, Restoring, and Beautifying the Hair, is sold by every Druggist and principal merchant throughout the World, in large bottles, for 25 cents.

ST. PIE, Sept. 1, 1853.

DEAR SIR,—I have been constantly in the habit of using your Gargling Oil for some time past, and can confidently recommend it to the public for reducing all kinds of inflammations, and for healing flesh wounds and burns.

I believe it also extremely valuable for many diseases of horses and cattle, having cured a very bad case of wind spavin on a favorite horse of mine not long since with a bottle of it.

You are at liberty to use the above as you may think proper.

The Growth & Beauty of the Hair.

THE successful results of the last HALF CENTURY have proved beyond question that

ROWLANDS' MACASSAR OIL

possesses singularly nourishing powers in the growth, restoration, and improvement of the Human Hair, and when every other specific has failed.

This Celebrated Oil is now universally acknowledged to be the cheapest, and superior to all other preparations, for the Hair.—It PREVENTS IT FROM FALLING OFF OR TURNING GREY—STRENGTHENS WEAK HAIR—PRODUCES A THICK AND LUXURIANT GROWTH—cleanses it from Scurf and Dandriff, sustains it in maturity, and continues its possession of healthy vigour, silky softness, and luxurious redundancy to the latest period of human life. Its operation in cases of baldness is peculiarly active; and in the growth of WHISKERS, EYEBROWS, and MUSTACHIOS, it is also unfailing in its stimulative operation. For children it is especially recommended, as forming the basis of a beautiful Head of Hair, and rendering the use of the fine comb unnecessary. A small Pamphlet accompanies each bottle of ROWLANDS' MACASSAR OIL, wherein important hints and advice will be found on the CULTURE OF THE HAIR IN INFANCY, and on its PRESERVATION AND BEAUTY through the SEVERAL STAGES OF HUMAN LIFE. Its invaluable properties have obtained the Patronage of ROYALTY and the ARISTOCRACY throughout Europe; while the high esteem in which it is universally held, with numerous Testimonials constantly received of its efficacy afford the best and surest proofs of its merits.

IMPORTANT CAUTION.

A. R. & Sons have complaints repeatedly from parties who have materially suffered from the use of SPURIOUS IMITATIONS; and to frustrate to some extent such impositions, they here add a small copy in outline of their genuine Label, from the burine of Messrs. PERKINS, BACON and PETCH, the eminent engravers of London, on which will be seen the names and address of the Proprietors in full (THESE ARE IN RED INK ON THE LABEL), any deviation from which will always indicate a spurious article.

MILL SITE FOR SALE.

THAT VALUABLE ISLAND at the mouth of the RIVER ST. MAURICE, called L'ISLE LA POTTERIE, containing about 100 arpents in superficies, surrounded by the waters of the St. Lawrence, and two of the Channels of the St. Maurice.

Also, a PART of the TWO other ISLANDS adjacent.

Also, the LAND on CAP DE LA MAGDELAINE, forming a frontage on the Cap of twelve arpents, by half an arpent in depth.

This Property, being situated partly in the River St. Lawrence, forms one of the finest positions in the country on which to erect a Steam Saw Mill.

In addition to the advantages of this Property to draw supplies of logs from the immense resources of the St. Maurice, it could also be made available for supplies of logs from any streams falling into the St. Lawrence *above* the St. Maurice, thus having advantages such as no other Mill in the country at present enjoys. Vessels of the largest class could load deals from the wharves of this Property, and thus save the expense of rafting, piling, &c.

Standing Counsel—H. Bellenden Ker, Esq., 8 Old Square, Lincoln's Inn.
Solicitors—Messrs. M'Leod & Stenning, 13, London Street, Fenchurch Street.
Bankers—Messrs. Dimsdale, Drewett, Fowlers and Barnard, 50, Cornhill.

THIS INSTITUTION was originally established under a different title in the year 1839, on the plan of admitting the assured to participate in four-fifths only of the profits; but the Society has since been remodelled so as to become a strictly "Mutual Association."

The whole of the funds and property belong to, and are accumulated for the exclusive benefit of the Assured.

The profits are divided annually among the Policy-holders, and applied in reduction of the current year's premium; thus constituting, in effect, an immediate cash payment to the Assured.

Half-credit Policies are granted on terms unusually favorable to the holders,—the amount for which credit is given being gradually liquidated out of the profits.

Two Tables of Rates have been computed; one entitling the Assured to participate in the profits after payment of five annual premiums; the other considerably lower, in which the period of participation is deferred two years longer: the premium ultimately payable by the Assured is, however precisely the same, whichever Table of Rates may in the 1st instance be selected.

General Meetings of the Members are held annually; to whom full and complete statements of the affairs and funds of the Society are submitted, and by whom the divisions of the profits are from time to time declared.

At the Annual General Meeting held on the 27th April last, a dividend of 30 per Cent. upon the current year's premium was awarded to all Members who had made the requisite number of payments on their respective Policies.

By order of the Board of Directors,
E. R. FOSTER, Resident Director.
ANDREW FRANCIS, Secretary.

*** The "Britannia Mutual Life Association" is altogether distinct from, and independent of, the Proprietary Office transacting business under the name of the "Britannia Life Assurance Company." The only connection between the two establishments is, that their affairs are conducted on the same premises and by the same officers, by which means the entire disbursements of the Mutual Association are reduced to a small per centage on the receipts.

Lake George Steamboat.

SUMMER ARRANGEMENT FOR 1854,
In connection with the Saratoga and Washington and Castleton Branch Railroad.

THE well known and favorite Steamer JOHN JAY, Hosea B. Farr, Master, will commence her regular trips on Lake George, on the 6th of June, leaving the Lake House, at the head of the Lake, every morning (Sundays excepted) at 7 o'clock, and arriving at Ticonderoga in time to take the Champlain Steamboats for Montreal, Niagara Falls, &c. &c. Leaves Ticonderago on the arrival of the Steamers from the North.

Lake George is indeed a most magnificent sheet of water. Its scenery is surpassed by none in the world, and the natural objects of beauty which continually present themselves alike charm the eye and fascinate the beholder. Its waters are clear and limpid, the average depth being 120 feet, and abound with the most delicious fish.—Along its whole length of 36 miles, almost every island, of which there are estimated 365, is clustered with historic associations. The eye ever delights in viewing the lofty and majestic and beautiful. The sail through the Lake is one of the finest excursions possible, and a day can be most agreeably spent in this delightful journeying. The ruins of Fort William Henry at the head of the Lake, the scene of the terrible massacre in 1757, as also Fort George, are well worthy of a visit.
