7 BURNED TO DEATH

Several Women Receive Injuries From Which They May Die

DE WILSON HOTEL AT MALONE, N. Y., WAS BURNED TO THE GROUND EARLY TO-DAY.

Malone, N.Y., April 17.—(Special)—Seven or more persons were burned to death, several women sustained injuries from which they may die, and a score of persons were rescued by firemen, in a spectacular fire which destroyed the De Wilson Hotel, an old three-story wooden structure on Catherine street, early to-day.

BURNED LIKE PAPER.

The building burned like paper and the firemen had little time to effect rescues. An explosion caused the fire.

MORE BODIES IN RUINS.

More bodies are believed to be in the ruins. Most of those injured were hurt by jumping from the third story.

EXPLOSION CAUSE OF FIRE.

The fire started from an explosion, the cause of which is unknown. The guests had no time to get out. Some of the guests were overcome in the hallways and some in their rooms.

LITTLE TIME FOR RESCUE. The firemen managed to save a few by getting them out of the windows, but there was little time for rescue work. One woman, whose home is in Montreal, jumped from a third-story window. Her shoulder was fractured and she was otherwise injured. She may die.

The building was of wood and three stories high. It was an old structure, and a veritable fire trap. There are believed to be others dead, but all the bodies had not been recovered or identified this morning.

PREMIER SIFTON MAKES DENIAL. Edmonton, Ab., April 17.—Premier Sifton in reply to a message regarding a campaign report that he would resign in favor of the Hon. C. W. Cross, if sustained in this election said: "The statements in regard to quarrels in the Cabinet and also my resignation are absolutely untrue. I never heard of either until your telegram arrived. I would reply asking voters to pay no attention to Opposition lies at this late date."

ANCIENT CEREMONY GOVERNS THE SELECTION OF A POPE

Paris, April 17.—(Special)—The next papal conclave at Rome has become a subject of pregnant interest to the entire Catholic world, not only from a spiritual, but also from a political point of view. The following is an outline of the many peculiar and ancient details of the great ceremony by which the new head of the Church is selected.

In the first place the occupant of the holy see is subjected, at the trying moment when his soul is about to be required of him, to formalities that are elaborately laid down and which seem very much at variance with the closing scene of a human life. In the presence of the members of the sacred college the sacristan bishop administers the viaticum and extreme unction. The grand penitential gives the absolution. The penitential psalms are then intoned. The expiring pontiff, if he have the strength to do so, gives his benediction to the assembly, and the dirge of the mortuary hymns continues to the end. The Camerlingo of the Vatican, in order to make the official record of the death, takes up a small silver hammer, with which he strikes three light blows on the dead man's head, and calls on him by his Christian name.

Nine days after the death of the Pope the conclave meets to choose his successor. The gathering takes its name from the fact that the cardinals are locked up in "conclave" and shut off from all communication with the outer world. The next conclave will be the first to meet in the huge building of the Vatican Palace, and which is known as the Palace of the Conclave. The palace has 200 rooms, distributed among 70 apartments, each of which will constitute the accommodations needed for one of the cardinals when all come together to elect a Pope.

On the day of the conclave all are summoned from their rooms by a bell three rung, and repair to the assembly chamber. From this moment until the result of the voting is announced they have no communication save with the Vatican officials. Their clothing and even their food is searched, lest they should contain correspondence from outside.

After a night of seclusion the conclave is formally assembled early next afternoon, and all repair to the chapel, where a desk has been provided for each cardinal. In the middle of the hall are six tables, and be-

CANNOT SUBDUCE MEXICAN REBELS

Formal Presidential Candidate Says Outlook is Dark

MILITARY DICTATORSHIP IS BECOMING MORE AND MORE REPUGNANT.

Havana, April 17.—Francisco Vazquez Gomez, ex-presidential candidate of Mexico and former minister to the United States, arrived yesterday under an assumed name, after escaping from Mexico through Vera Cruz. In an interview last night De Gomez declared that the outlook in Mexico is very black.

Dr. Gomez, whose cognomen is Jose Castillo, and who was accompanied by his son Francisco, under the name of Rodolfo Castillo, says that the revolutionists held a general convention in Hermosillo yesterday for the purpose of forming plans for carrying on the campaign. "I consider the political outlook in Mexico is extremely dark. The military dictatorship is every day becoming more and more repugnant to the people than in 1910, when as one man Mexicans arose against the power of Don Porfirio Diaz."

FEEL SAFE NOW AGAINST FLOOD

CITIES IN LOWER MISSISSIPPI VALLEY PREPARE FOR HIGH STAGE OF RIVER.

New Orleans, April 17.—A week of sunshine in the lower Mississippi Valley has permitted the work of raising and strengthening the levees to proceed without interruption. Engineers in charge of the fight against the steadily increasing flood waters from Vicksburg south are extremely optimistic. The river here is two-tenths of a foot below flood stage, and more than four feet below the high level of last spring. At Vicksburg the river lacks 1.3 feet of last year's maximum stage. From Baton Rouge south engineers claim that it will be two to four weeks before the river gauges register close to the 1912 record.

SENECA FINDS TWO BERGS. Washington, April 12.—Two great icebergs one hundred miles north of the transatlantic steamship lanes and moving southward were discovered by the derelict-destroyer Seneca, on the 13th of April, according to a delayed wireless despatch to the Revenue Cutter service yesterday. One berg was in latitude 44.36 and longitude 49.09. The other was eleven miles west of that position.

VOTING IN ALBERTA TO-DAY

Large Vote Is Expected as Weather Conditions Are Good

THERE WILL BE CONTESTS IN FIFTY-THREE SEATS, WITH TWO DEFERRED ELECTIONS.

Edmonton, Alb., April 17.—With ideal weather conditions promised, and farmers not yet generally started in their spring work, a very large vote is expected in the Alberta provincial elections taking place today. The brief campaign, over three weeks, has been strenuously fought by both sides.

There will be contests in 53 seats today with two deferred elections in Peace River and Athabasca. With the exception of Edmonton, where there are two to be elected, each constituency will elect one representative. In the cities the polls close at six o'clock and in the country at five.

Both sides are claiming victory in the closing days of the campaign, but estimates offered by leading Liberals are considerably stronger from their point of view than those of the Conservatives. Last night estimates were received from all cabinet ministers.

All the opinions are couched in optimistic terms. Hon. J. R. Boyle believes that the Conservatives will be very lucky if they increase their representation, which stood at seven last session in the new House. On the other hand, the Hon. Duncan Marshall, who has toured a large number of the southern constituencies, where it is generally conceded that the Conservative campaign will produce the best results, is of the opinion that the Conservatives cannot possibly win more than sixteen seats out of the fifty-four and the chances are, he says, that they will not win that many.

DESPERATE AFFRAY WITH POACHERS

Deputy Warden Was Killed When He Had Man Under Arrest

FIVE ITALIANS OF FISHERMEN'S COLONY AT SAN FRANCISCO UNDER ARREST.

San Francisco, Cal., April 17.—(Special)—In a fight with fish poachers in the Slough, near San Francisco, last night, Ernest Renaud, a young deputy warden, was beaten to death. His companion, M. S. Clark, another deputy, escaped by swimming half a mile, after he had killed Antonio Balesteri, the leader of the gang. Six Italians, members of San Francisco's fishermen's colony, are under arrest.

Renaud and Clark, in a rowboat, had arrested two poachers in a launch. They were bringing their prisoners to San Francisco, when another launch, manned by five men, came alongside and its occupants sprang into the officers' boat.

Renaud was quickly overpowered. Clark had just drawn his pistol and had begun shooting, when he was knocked into the water. He swam ashore and telephoned to the police. Shortly afterwards detectives who had hurried to the fishermen's wharf arrested a man wounded in the hand, and five of his companions. A search of the launch resulted in the discovery of the bodies of Renaud and Balesteri.

MEETING OF SOVEREIGNS

KING GEORGE, CZAR OF RUSSIA AND KAISER WILL MEET IN BERLIN.

London, April 17.—The British Foreign Secretary, Sir Edward Grey, will accompany the King to Berlin, says the Express, on the occasion of the wedding of Princess Victoria Louise, daughter of the German Emperor.

This will be Sir Edward Grey's first official visit abroad, and as the Russian Emperor is also expected to be in Berlin, the occasion may have a political significance.

ALBERTA LEADS IN AUTOMOBILES

Vancouver, B. C., April 17.—Statistics show that in comparison to population Alberta has more automobiles than any other province in Canada, there being one to every 121 persons, estimating the population at 374,663.

Manitoba is second, having one car to every 152 persons of its population of 445,614, and British Columbia has third place, reporting one automobile for every 165 persons of a population of 332,480.

GERMANY IS VERY MUCH EXCITED

France is Making an Inquiry Into the Nancy Affair

THE INCIDENT IS A SPARK IN A VERY EXPLOSIVE ATMOSPHERE.

Berlin, April 17.—The "Nancy incident" continues to occupy many columns in the newspapers. Foreign Secretary Von Jagow made another statement in the Reichstag yesterday. It amounted to little more than that the French Government was making an inquiry, but had not yet completed it; that the Germans concerned had made depositions before the proper authorities, and that their sworn statements would be forwarded to Paris. The statement was received with general approval.

It is clear from last night's reports that feeling runs very high, and, as Baron Von Schun is reported to have said, the Nancy incident dangerously resembles a spark in an already explosive atmosphere.

The Vossische Zeitung last night appealed to the public to avoid demonstrative excitement. The Kolnische Zeitung naturally points out that these incidents confirm its statement of some weeks ago that France was the real disturber of the peace, but the Rhenish organ apparently does not perceive that its own untimely observations served in no small measure to excite French feeling across the border.

INDESCRIBABLE INSULTS.

According to yesterday's reports from witnesses, the German ladies at Nancy were insulted in an indescribable manner and the men of the German party were belabored with sticks until they consented to make Oriental obeisances to the students and allow dry bread and black sausage to be stuffed down their throats.

TORONTO MAY BUY STREET RAILWAY

Mayor Hocken Has Called Special Meeting of Council

MATTER WILL LATER ON BE SUBMITTED TO THE PEOPLE FOR A VOTE.

Toronto, April 17.—If the voters of Toronto will ratify the necessary by-law the ownership of both the Toronto Railway Company and the Toronto Electric Light Company will pass into the city's hands within the next few months. This was announced by Mayor Hocken in the meeting of the Board of Control yesterday.

The question of legislation came up, and while the controllers believed it would be a year at least before the necessary arrangements could be made, the Mayor again showed his hand by announcing that the matter could be put through without delay.

The cost of the street railway lines to the city has not been announced, but it is understood from an authoritative source that it will be slightly in excess of \$20,000,000. In addition to \$11,000,000 of share capital, there are bonds amounting to \$3,658,940 to be assumed.

The proposition of the Toronto Electric Light Company is also said to be a definite one, which will involve around \$5,000,000 or \$6,000,000. This will follow along the efforts of the city government to unify the system.

G. T. R. EXPRESS WAS DELAYED

Freight Car Was Shunted on to Rear of Dining Car

PASSENGER CAR WAS ALSO DAMAGED AND HAD TO BE DROPPED HERE.

As the 3:15 Grand Trunk Portland to Montreal train was standing in the depot yesterday afternoon ready to start, a freight train which was backing up on the centre rails alongside, took the wrong switch and crashed into the rear cars. A freight car was derailed and one end was smashed, and the dining car of the express was badly damaged, one corner being torn away; a passenger car was also damaged to such an extent that it was taken off the train. The wrecking crew from Richmond was close at hand, having been called earlier in the day for a derailment of some freight cars and after the space of forty minutes they cleared the line for the express to move out.

No one was injured, with the exception of a young girl who was slightly bruised.

DAMAGES ASKED FROM SUFFRAGETTES

West End Firms Combine With This End in View

WOMEN ATTACK MILITANT WOMEN WHO WERE ADVERTISING MEETING.

London, April 17.—The sentence on Mrs. Pankhurst is not, it has been officially decided, to be a bar to the hearing of the charge of conspiracy which West End trading firms are bringing in the higher courts. An important move has been made in connection with the charge of conspiracy, which followed the window smashing in the West End. Originally only two firms were cited as plaintiffs against Mr. and Mrs. Pethick Lawrence, formerly treasurers of the Women's Social and Political Union, and Mrs. Pankhurst, one in each separate action.

The West End commercial community has now decided to combine in an endeavor to bring home the responsibility. No fewer than ninety-three trading concerns, representing practically all the victims of the window-smashing crusade, have been added as plaintiffs in the charges. This step was taken because of the refusal of the Home Office to protect the tradesmen's interests. The firms claim in their action against Mrs. Pankhurst damages of nearly \$10,000 and an amount almost as much is claimed from the Lawrences.

WOMEN ATTACK MILITANTS.

London, April 17.—Suffragettes carrying sandwich boards advertising a militant meeting at Islington were attacked yesterday by other women, who seized the boards and belabored the suffragettes with them. Hats were smashed and clothing was torn. The suffragettes were being badly mauled when the police arrived and escorted the women to a place of safety, followed by a jeering mob.

MRS. DRUMMOND SUMMONED.

London, April 17.—"General" Mrs. Flora Drummond, one of the leaders of the militant suffragettes, received a summons from the police authorities yesterday to appear at the Bow Street Police Court on Friday to answer to a charge of inciting a crime and misdemeanor.

This is another instance of the preventive action being taken by the Government under the statute of Edward III. Similar summonses were issued in the cases of Miss Annie Kenney and George Lansbury, a former Socialist member of Parliament.

LAW ON POLITICAL CONTRIBUTIONS.

Toronto, April 17.—Two Bills introduced by members of the Opposition, one requiring the publication of contributions for political purposes, and the other prohibiting political contributions by corporations, were withdrawn, the Premier, Sir James Whitney, intimating that a more stringent law in connection with the giving and receiving of contributions for political purposes would be made next session.

Have you seen the stylish hats at Boivin's? Prices to suit everybody. A visit will convince you.

A runaway occurred here Wednesday morning in which a grey horse belonging to the Count de Rouille was the principal actor. No damage was done, although the same horse ran away twice this week.

The sugaring-off given by the Danville Brass Band on Tuesday was well patronized by the public. The sugar was good and much enjoyed. The band gave an open air concert previous to the proceedings.

The many friends of Mrs. Norman Fenton, who was a niece of Mrs. Geo. Hamilton, of Danville, and was very well known by a large circle of friends here, will be sorry to learn of her death, which occurred at Pierre, S.D., April 4th, 1912, at the age of 32 years, 11 months and 10 days. Her remains were taken to

Quimby, S.D., for interment. Mrs. Fenton was convalescing from a supposedly successful operation in Pierre when a clot of blood from the wound affected the heart and death ensued. A large number of sympathizing friends gathered at the church for the funeral services, which were conducted by Rev. Mr. Kyle, who spoke of her habitual happiness and many friends testify to her unselfish and cheerful disposition. Mary E. Gale was born April 24, 1880, at Peotone, Will Co., Ill. She moved with her parents to Cherokee in 1882 and to Quimby in 1887. She married Norman S. Fenton Jan. 27th, 1898. They moved to Owanka, S.D., in March, 1908. Here she took a great deal of interest in church and Sunday school work. She was a member of the First Baptist Church at Farmingdale, S.D., also a member of the Eastern Star lodge at Washta, and of the American Nobles. She leaves to mourn her loss a husband, father, two brothers, a number of relatives, and a host of friends. It surely can be said of her, "None knew thee but to love thee, none named thee but to praise."

fects of an attack of inflammation of the stomach. The funeral took place on Monday from the Roman Catholic Church, where service was held to the Cemetery on Ness Hill. Mr. Gagnon came to Megantic in 1883. The statement in Friday's Record that the By-law for the new furniture and chair factory would be brought before the rate payers on the 17th of April was an error. The date was postponed for a couple of weeks as it was found that the stated number of days, between the public notice and the passing of the by-law had not been given right according to law. A meeting of the Council was called for Tuesday evening, the 15th to decide upon the day which will likely be on the 3rd of May.

Oakes back to Sherbrooke to her brother's, after a few weeks with her sister, Mrs. Albert Carroll.

Mrs. Edwin Butler and Mrs. M. J. Mack each gave a card party and two very pleasant evenings were spent.

Mr. Chas. Simons kindly invited the neighbors to a sugaring-off and it was much appreciated by all there, as there is very little sugar made in the neighborhood this year.

DUDSWELL.

The Edmonton Bulletin has the following:

The sudden death of Mrs. A. B. McCurdy, nee Gladys Aurora Jenkinson, which occurred on Thursday night, April 3rd, after a few hours' illness, came as a great shock to her husband and a great many friends.

WHY THE GOURMET DINED FREE.

That skill in the art of choosing a dinner can stand one in good stead was experienced the other day by a gentleman in Liverpool, Eng. It appears that a millionaire from the United States walked into one of the leading hotels in the city and said to the manager: "To-morrow I want the best dinner that your establishment can produce. I want to show to some friends what England can do in the way of a dinner."

The manager was at a loss to know what to do, but remembering the man who made the art of dining a hobby, he sought him out and said, "Our company will esteem it an honor and a pleasure if you will dine to-morrow at our expense. You will select your own dinner, and all they ask of you is that you will choose the best menu that your experience dictates, regardless of expense."

The gentleman in question accepted the invitation, and next day gave his order for the dinner. It was served to him in the dining-room, and the same dinner was served in the private room to the millionaire and his friends. The latter unanimously confessed that they never before had realized to what a pitch of perfection the art of dining could be brought in any English hotel.

BAD WEATHER DELAYS SEEDING.

London, Ont., April 17.—Reports coming in from all over the district indicate that spring ploughing and seeding will be unusually late this season. So far only a few farmers have been able to start, their work being delayed both by the heavy rains and the extensive repairs they have had to make to their buildings following the recent gales.

Owing to the unparalleled scarcity of help many farms will not be tilled to more than one-half their capacity.

OR THEIR HUSBANDS.

"Dick!" warrant those suffragettes who are breaking windows are homely girls.

"Tom—Very likely. If they were pretty they'd be satisfied with breaking hearts."

KENNEBEC ROAD.

On the Kennebec the roads are in very bad condition at present, so bad that horses can do no better than walk and plunge through the mud. A "toter" brought up a load of supplies from St. George and declared that in several places he thought the horses would be unable to get through. Messrs. Frank and James Cathcart visited their homes over Sabbath and it took them four hours to travel a distance of about thirteen miles, and the minister did not attempt the journey to St. George on Sabbath, being convinced that he could not fill both appointments.

A part of the Metgermette is sufficiently clear of ice to allow the logs to run, and a large mixture of logs and ice came out Tuesday for the time. The men are still blasting on the branches. It is said that about three or three and a half miles have yet to be opened on the North Branch. The Du Loup, it is said, is now open from the boom near Jersey Mills to the dam near the "dead waters," not far from the boundary. Except the pulp carried away by the ice flow, only a few logs and a few pieces of pulp have come down the Du Loup so far, but a number of men went up Tuesday and Wednesday to begin the pulp drive and now a few stray logs and pieces of pulp are seen to be floating by.

All being well, Mr. D. M. Cathcart has consented to go, as representative layman of the Marlow and St. George congregations, to attend the great Pre-Assembly Conference, and Assembly meeting of the Presbyterian Church to be held in Toronto in June next.

INVERNESS.

The patrons of the butter factory met Monday evening in the Court House, for the purpose of electing directors for the coming year, who are as follows: President, Mr. A. B. Somerville; Directors, Messrs. John Haggerty, W. H. Smyth, Theodore Turcotte, Thomas Hogge, H. T. Wilton and Fred W. Watts. Mr. H. Macrae was appointed secretary. The meeting was most encouraging and all were enthusiastic over the prospects for the year. The factory will be in charge of Mr. Geddon Houle, same as last year, and will be open for patronage May 1st.

METHODIST GENERAL MISSIONARY BOARD.

Inverness, April 17.—(Special)—Mr. Lambly has returned from the Executive meeting of the General Missionary Board of the Methodist Church, in Toronto, and reports a very important meeting. The Rev. E. Egeon Shore handed in his resignation as Secretary of the Foreign Department for reasons of impaired health and the very critical condition of the health of his wife, and the Rev. Mr. Farrell also resigned from the position of Assistant Secretary of the Foreign Department so that he might re-enter the Pastorate. Both resignations were reluctantly accepted, and suitable resolutions of appreciation of the splendid work done in the department by both Secretaries were unanimously adopted. The gu-

Thousands of Folks Merely Play With Corns

They dab them with liquids. They pare off the top. They apply just a felt protection.

The corn remains, and twice a week the treatment is repeated. That's playing with a corn.

A Blue-jay plaster takes the whole corn out—root, callous, everything.

A in the picture is the soft B & B wax. It loosens the corn. B stops the pain and keeps the wax from spreading. C wraps around the toe. It is narrowed to be comfortable. D is rubber adhesive to fasten the plaster on.

The Gold Dust Twins' Philosophy

ONE day, when Mr. Jones returned with what his weekly toil had earned, he found his little wife in tears and mood not suited to her years. It seemed the cook had bade "adieu," likewise the washerwoman, too.

At first within the House of Jones there followed sad despondent moans. No hopeful word could reconcile, no honied kiss inspire a smile. "I never knew before," said she, "how horrid household cares could be."

"Upon my word I'm up at six and working still as midnight ticks. I scrub and run and wash and shine to keep the little things in line, and yet around me here and there I see undone another share. I almost feel as if I'd like to join the other ones on Strike. Some morning try it—get a mop; go through from cellar to the top, and I will venture you must see, the greater burdens fall on me."

Now Mr. Jones was passing wise and later, sprang a glad surprise. Through friends who praised the "GOLD DUST WAY," he brought a package home one day.

From tears to sunshine, Wiley now has found the good of "Knowing How" and striking servants fail to stir, the placid calm content of her.

the introduction of some routine busi-

the weather, bad roads and sugar-

there was a good attendance, and all
worked with surprising vigor. By
five o'clock three new quilters were

HUNGER STRIKE 300 YEARS OLD.
Probably the act of the militant
suffragettes in the Old Country which
is abstaining from food in prison
in order to obtain their freedom. In
keeping with the preacher's adage
that there is nothing new under the
sun, it is scarcely surprising to find
that hunger-striking is by no means
a novelty. It was practiced at least
two centuries ago by people impris-
oned on account of their religious be-
liefs, and it can be traced back still
further, for there is a record of one
Edward Coppinger, who died in Bride-
well in 1501, after "having wilfully
abstained from meat and otherwise
tormented himself."

LAW AND POLITICIANS.
As Mr. F. E. Smith points out in
his introduction, a certain fraternity
exists between the Bench and Bar
which has no parallel abroad. Also
political lights merge in the frater-
nity. Daniel O'Connell was at one
time defending a man accused of mur-
der at Clonmel. The circumstantial
evidence was so strong against the
prisoner that the jury had already
determined upon their verdict of
guilty, when the man supposed to be
murdered was brought into court,
alive and unharmed. The jury were de-
clared to return their verdict at once,
and they did so, but it was one of
"Guilty." "What does this mean?"
said the judge. "If the man has not
been murdered, how can the prisoner
be guilty?" "Please, yer Honor,"
said the foreman, "he's guilty. He
stole my bay mare three years ago."

JUDGE GRANTHAM.
Mr. Justice Grantham, one of the
most conscientious judges who ever
adorned the Bench, was on one oc-
casion in the Midland seized with quin-
sy during the hearing of a case, and
became so ill that he could not speak.
He refused to adjourn. As he could
not vocally sum up the case to the
jury, he wrote out his directions, and
his marshal read them. Mr. Justice
Grantham was a noted agriculturist.
On one occasion he heard a laborer
in a railway carriage tell another
that he had purchased two "fine lit-
tle pups for thirty bob apiece." The
judge could not let that pass. He
leaned forward and pointed out to
the man how much himself had be-
invested in pigs. "Here the laborer cut him
short with: "Ay, and a fool I should
ha' looked goin' rattin' with three
pigs."

SETTLING IT OUT OF COURT.
A case was tried in a County Court
in an action for detinue of a donkey.
The plaintiff was a costermonger and
the defendant a costermonger also.
They appeared for themselves. At one
o'clock the judge said: "Now, my
men, I'm going to have my lunch and
before I come back I hope you'll set-
tle your dispute out of court." When
the judge returned into court the
plaintiff came in with a black eye,
and the defendant with a bloody
nose, and the defendant said: "Well,
your Honor, we've taken your Hon-
or's advice; Jim's given me a damn
good hiding, and I've given him back
his donkey."

AN AMICABLE MIXTURE.
A barrister, more fluent in his
speech than careful in his metaphors,
was once guilty of the following per-
oration: "Gentlemen, it will be for
you to say whether this defendant
shall be allowed to come into court
with unblushing footsteps, with the
cloak of hypocrisy in his mouth, and
draw three bullocks out of my client's
pocket with impunity."

FRESH AIR VS. SUFFOCATION.
It is pleasant to choose out of the
literary collection two tales that sup-
plement each other.
Sir Henry Hawkins had an inven-
table objection to fresh air, and at
one time had a sort of movable sen-
try-box constructed for his own use
in court in order to present the pos-
sibility of a draught. He once ex-
plained his preference for suffocation
to chill, on the ground that it was a
slower death.

Mr. Justice Lawrence, who was an
ardent golfer in his younger days,
told the following story against him-
self. A boy appeared before him as
a witness, and on the learned judge
asking him if he was acquainted with
the nature of an oath, the youth
promptly replied: "Of course I am;
ain't I your caddie?"

MOONLIGHT TO ORDER.
A man was put on his trial at the
Old Bailey for highway robbery, and
a witness of the prosecutor swore
positively to him, saying she had
seen his face distinctly, as it was a
bright moonlight night, and she
stuck to her statement. In address-
ing the jury the prisoner's counsel
said it was most fortunate for his
client that the prosecutor's witness
had dwelt upon this as her chief fact,
but he was in a position to prove
beyond the slightest doubt that the
night on which the alleged crime
was committed was not a moonlight
night, but was in the dark quarter.
In proof of this, he would refer to an
authority that could not lie—he
meant the almanac. The almanac
was handed up to the judge, who told
the jury it was so—there could be no
moonlight; and the prisoner was ac-
quitted. It turned out that what
the prosecutor's witness had said
was true. It was a moonlight night,
and the false almanac had been print-
ed specially for the occasion.

ADVICE 68. 8D.
"Sir," said a barber to an attor-
ney who was passing his door, "will
you tell me if this is a good seven-
shilling piece?" The lawyer, pro-
nouncing the piece good, deposited it
in his pocket, adding with great gra-
titude: "If you'll send your lad to my
office, I'll return the fourpence."

TIFICATE, AS HE WAS
AFRAID OF HIS LIFE.**
(From T. P.'s Weekly)

Mr. Arthur H. Engelbach has col-
lected some admirable "Anecdotes of
Bench and Bar." A highwayman named
Bolland, confined in Newgate,
sent for a lawyer to know how he
could defer his trial, and was an-
swered that he verily believed so,
too. "By getting a doctor to make
affidavit of your illness." This was
accordingly done in the following
manner: "The deponent verily be-
lieves that if the said James Bolland
is obliged to take his trial at the
ensuing sessions he will be in im-
minent danger of his life." To which
the learned judge on the Bench, an-
swered that he verily believed so,
too. The trial was ordered to pro-
ceed immediately.

PAT AND LEAN KINE.
Baron Channell was a great eater,
and at 1 o'clock precisely, whatever
the state of the case being tried be-
fore him, the court adjourned for
lunch, and an excellent lunch it was.
When the courts adjourn as are at
any distance from the judge's lodg-
ings, the judge's cook, who travels
round the circuit with them, usually
asks the judges before starting for
the court in the sheriff's carriage in
the morning what he shall send them
down for lunch. Baron Channell and
Mr. Justice Bramwell were descend-
ing the stairs side by side, when the
cook made the usual inquiry. "Oh!"
said Channell, who was senior judge,
in the short, clipping words and style
peculiar to him, "Send me my lunch
at one, punctually, mind. I'll have—
let me see—I'll have a basin of clear
milk-turtle, and a chicken, and some
peas and potatoes, and an apple tart,
and some sherry and seltzer; at one,
mind, not later." "Yes, my lord,"
replied the cook, and turning to Mr.
Justice Bramwell, "What shall I send
your lordship?" "Oh, thank you,
cook," was the reply, in the slow,
solemn and almost mournful voice of
the brother judge, "I'll have what
I'll have at half-past one; then it
won't disturb Baron Channell. I'll
have, if you please, at half-past one,
a piece of stale seed-cake and some
camomile tea."

WHAT'S IN A NAME.
A well-known judge often relieved
his judicial wisdom with a touch of
humor. One day, during the trial of
a case, Mr. Gunn was a witness in
the box, and as he hesitated a good
deal, and seemed unwilling, to tell
much persistent questioning, to tell
what he knew, the judge said to him:
"Come, Mr. Gunn, don't hang fire."
After the examination was closed the
judge was convulsed by the judge add-
ing: "Mr. Gunn, you can go off; you
are discharged."

LAW AND POLITICIANS.
As Mr. F. E. Smith points out in
his introduction, a certain fraternity
exists between the Bench and Bar
which has no parallel abroad. Also
political lights merge in the frater-
nity. Daniel O'Connell was at one
time defending a man accused of mur-
der at Clonmel. The circumstantial
evidence was so strong against the
prisoner that the jury had already
determined upon their verdict of
guilty, when the man supposed to be
murdered was brought into court,
alive and unharmed. The jury were de-
clared to return their verdict at once,
and they did so, but it was one of
"Guilty." "What does this mean?"
said the judge. "If the man has not
been murdered, how can the prisoner
be guilty?" "Please, yer Honor,"
said the foreman, "he's guilty. He
stole my bay mare three years ago."

JUDGE GRANTHAM.
Mr. Justice Grantham, one of the
most conscientious judges who ever
adorned the Bench, was on one oc-
casion in the Midland seized with quin-
sy during the hearing of a case, and
became so ill that he could not speak.
He refused to adjourn. As he could
not vocally sum up the case to the
jury, he wrote out his directions, and
his marshal read them. Mr. Justice
Grantham was a noted agriculturist.
On one occasion he heard a laborer
in a railway carriage tell another
that he had purchased two "fine lit-
tle pups for thirty bob apiece." The
judge could not let that pass. He
leaned forward and pointed out to
the man how much himself had be-
invested in pigs. "Here the laborer cut him
short with: "Ay, and a fool I should
ha' looked goin' rattin' with three
pigs."

(From T. P.'s Weekly)

Mr. Arthur H. Engelbach has col-
lected some admirable "Anecdotes of
Bench and Bar." A highwayman named
Bolland, confined in Newgate,
sent for a lawyer to know how he
could defer his trial, and was an-
swered that he verily believed so,
too. "By getting a doctor to make
affidavit of your illness." This was
accordingly done in the following
manner: "The deponent verily be-
lieves that if the said James Bolland
is obliged to take his trial at the
ensuing sessions he will be in im-
minent danger of his life." To which
the learned judge on the Bench, an-
swered that he verily believed so,
too. The trial was ordered to pro-
ceed immediately.

SETTLING IT OUT OF COURT.
A case was tried in a County Court
in an action for detinue of a donkey.
The plaintiff was a costermonger and
the defendant a costermonger also.
They appeared for themselves. At one
o'clock the judge said: "Now, my
men, I'm going to have my lunch and
before I come back I hope you'll set-
tle your dispute out of court." When
the judge returned into court the
plaintiff came in with a black eye,
and the defendant with a bloody
nose, and the defendant said: "Well,
your Honor, we've taken your Hon-
or's advice; Jim's given me a damn
good hiding, and I've given him back
his donkey."

AN AMICABLE MIXTURE.
A barrister, more fluent in his
speech than careful in his metaphors,
was once guilty of the following per-
oration: "Gentlemen, it will be for
you to say whether this defendant
shall be allowed to come into court
with unblushing footsteps, with the
cloak of hypocrisy in his mouth, and
draw three bullocks out of my client's
pocket with impunity."

FRESH AIR VS. SUFFOCATION.
It is pleasant to choose out of the
literary collection two tales that sup-
plement each other.

H. Mountain, at Chaudiere Curve. The unfortunate young man was taken to the Royal Victoria Hospital, Montreal, his left leg having to be amputated six inches above the knee, but in spite of all that could be done for him he died suddenly at 5.45 on Sunday morning. His brothers, Richard and Bennie, were with him till the last. His sister, Mrs. Ernest J. King, of Sherbrooke, arrived too late to see him before he died. A short service was held at the house by the Rev. Mr. Casop, of Holy Trinity Church, Lewis. The remains were taken to St. Boniface Station by train and then to New Liverpool Church. The Church was well filled with friends and old neighbors of the family and many came from a distance to pay their last respects to the unfortunate young man who was well liked by all who knew him. A large and beautiful wreath from the family and large shield and wreath from the Brotherhood of Railroad Trainmen, Lodge No. 50, South Quebec, was placed over the casket. Members of lodges of B. of R. T. and E. of L. E., and the I.O.F. attended in a body. The deceased was 33 years of age and unmarried. He leaves to mourn his loss his widowed mother, five brothers, William, of St. Henry Village; Walter and George, of St. Malachie; Richard, of Sherbrooke; Benjamin, of Farnham; and Mrs. Wm. H. CHEMICAL LIGHT.

One often hears it said that if science could surprise the firefly's secret we might arrive at the best and most economical of all means of producing light, because none of the energy put into the process would be wasted in heat. Professor Wilder D. Bancroft, in a recent and most comprehensive address on the "Chemical Production of Light," remarks that probably chemistry, in the search of cheap and efficient light, would do better to proceed in some other way. All chemical reactions tend to emit light, and the emission is dependent on the velocity of the reaction. The light produced by the firefly is a chemical reaction. When oxygen is absent no light is given out. The light is not necessarily connected with the life of the firefly. The dry powdered abdominal material of the insects can be kept for as much as two years, and will then emit light if moistened and exposed to oxygen. The laboratory production of this material would furnish firefly light.—London Morning Post.

Montreal, April 17.—Receipts of butter were 352 packages, as against 490 for the same date a year ago. CHEESE MARKET QUIET.
Montreal, April 17.—Receipts of cheese were 133 boxes, as compared

COUNTRY PRODUCE.

EGG MARKET EASY.
Montreal, April 17.—Receipts of eggs were 5,044 cases, as against 2,320 for the same date a year ago. The tone of the market is easy but there is no further change in prices to note, although they might be shaded for round lots. The demand is good and sales in round lots were made at 21c, and in single cases at 22c per dozen.

MAPLE PRODUCTS STEADY.
Montreal, April 17.—The tone of the market for maple product is steady under a fair demand, and sales of maple syrup, in three-quarter tins were made at 85c to 90c per tin, and maple sugar at 12c to 13c per lb.

FAIR HONEY BUSINESS.
Montreal, April 17.—A fair volume of business continues to be done in honey in a jobbing way at unchanged prices.
Clover, white honey, 16 to 17; dark grades, 14 to 15½; white extracted, 11 to 12; buckwheat honey, 8 to 9.

QUIT DEMAND FOR POTATOES.
Montreal, April 17.—The demand for potatoes is quiet, and the market is quiet at any new feature to note, prices being steady. We quote: Green Mountains, in car lots, at 62½c to 65c, and Quebec grades at 50c to 55c, and in a jobbing way at 85c to 90c per bag.

DAILY STOCK LETTER.

New York Noon Letter.

Sentiment here was favorably impressed by the reduction in the Bank of England rate and by the extremely favorable statement shown by the Bank of Germany explaining the better sentiment existing abroad and forecasting even easier money conditions abroad. Trading remained largely professional, but the tone of the market was good almost from the start. Shorts covered freely and quite sharp advances were forced all along the line. When this covering had run its course the market halted but has since held its advance well and ranged near the top prices. C. P. R. again acted as leader in the rise, and many of the specialties which have so long been weak rallied sharply, including the petroleum issues. Commission houses business has been light, but the trading element on floor appears to have been switched to the bull side of the market.
Sales to noon, 156,000.
Bonds, \$1,000,000.
Grain and Cotton steady to strong.

Strength was shown throughout the list and some smart gains were recorded notably in Toronto Ry., which ran up to 147½, and C. P. R. to 245½, Brai 98½, Que. Ry. 18, Laurentide 223½ and Montreal Power 230½. Crown Reserve established a still higher record at 394 for this movement. Granby sold at 63.

EGGS DEALERS PLAN RADICAL CHANGE

WOULD ABOLISH "CASE COUNT" AND BUY ON BASIS OF QUALITY.

That the system known as the "case count" which has prevailed in the egg trade for a number of years provides no discrimination whatever, and that under it the producer, with no reflection on the hen, is not encouraged to market an article of high quality, was the decision came to yesterday afternoon in the rooms of the Board of Trade at a largely attended meeting of the egg trade of the Provinces of Ontario and Quebec. The remedy for this state of affairs was suggested as taking the form of an Eggs Marks Act, similar to the act governing fruit. The formation of a new produce association was also proposed.

Determining means whereby consumers and merchants could be protected against the marketing of stale and rotten eggs was the primary object of the meeting. Under the present system when bad eggs are found in the cases there is no recourse for the dealer to take, and the opinion of the meeting was that the "case count" where a flat rate is quoted, stale and bad eggs commanding just as high a price as those of the highest grade, is equivalent to placing a premium on careless and dilatory methods in the production and care of this product. Moreover, it was pointed out that the country storekeepers received no encouragement to market an article of high quality.

The opinion was unanimous that legislation should be secured to prevent the sale of such products and full approval was given to the proposal to adopt a law system whereby due discrimination should be made between good and bad eggs. The following resolutions were unanimously adopted.

Resolved, "That it is the consensus of opinion of those assembled in this meeting that the greatest need of the Canadian egg trade at the present time is the passage by the Federal Parliament of an Eggs Marks Act, similar to the Fruit Marks Act, such act to make unlawful the buying, selling or trading in rotten eggs and to include such other regulations as may be thought advisable to promote the best interests of all concerned."

Resolved, "That the egg dealers assembled here unanimously approve of the proposal to change on June 1, 1913, from the present system of buying eggs to a system of buying only on the basis of quality, and further, we disapprove of paying for any rotten eggs in our receipts after that date."

Resolved, "That the chairman appoint a committee to draft a constitution and to take steps in conjunction with the trade in other provinces to form an association to be known as 'The Canadian Produce Association,' with a view to bringing together the city and country wholesale produce dealers, and further, that a meeting be called in Toronto at an early date to give effect to this resolution."

Representing the Federal and Provincial Government the following officers attended at the request of the trade: Mr. W. A. Brown, Live Stock Department, Ottawa; Mr. J. H. Hare, Live Stock Department, Ottawa; Mr. F. C. Elford, poultry manager, Experimental Farm, Ottawa; and Professor W. R. Graham, of Guelph.

The efficacy and the imperative need of a system of payment based upon quality was set forth by these speakers. Their proposal was followed by continued and animated discussion, but through it all it was clear that the majority of the meeting was heartily in sympathy with this or any other measure that would enable the producers and handlers of this product to curtail, or if possible, entirely eliminate, the enormous and needless loss due to the marketing of bad and deteriorated eggs.

It was further pointed out by certain members present that it would certainly be unwise not to take advantage of the experience gained by a number of the States, notably Kansas and Michigan. What was proposed at the meeting had already been worked out in a practical way in these States with the result of very greatly conserving this valuable product by eliminating needless loss and thus making the poultry enterprises more remunerative for the producer and the price of the product cheaper and its quality more dependable for the consumer. THE SILK HAT IS A CENTURY OLD.

Last year was the centenary year of trousers, this year sees the high hat a hundred years old. As a matter of fact, the top hat is much older than that, but it is exactly a hundred years since the variety known as the silk hat was placed on the market. It at once became the fashionable form of headgear, and has retained its position easily ever since. The inventor of the silk hat was a London hatter named Bennett. Prior to this day top hats were made of beaver; but he introduced silk and fabric as an alternative material to beaver skin for tall hats, because the great increase in the popularity of the tall hat caused a famine in beaver skins. Since that time the silk hat has shrunk two inches, for the top hat of to-day is only different to the founder of its line in being about two inches lower, with a corresponding reduction in the size of the brim. The fabric of a modern tall hat is of grossamer soaked in shellac to give it the necessary stiffness. The firm founded by the inventor of the silk hat still conducts business in Piccadilly, London, and, according to their reports, the centenary of the high hat finds it as popular as ever.

SHERBROOKE LACROSSE CLUB ANNUAL

May Enter Team in N. L. U. This Year

HOPED THE PUBLIC WILL GIVE THEIR SUPPORT TO CLUB.

A large and enthusiastic meeting was held at the Chateau Frontenac last evening of the Sherbrooke Lacrosse Club to consider the advisability of placing a team in the Senior National Lacrosse Union of Canada. It was pointed out that by so doing a considerable sum of money would be required, as the travelling expenses of the club to Cornwall, Ottawa and Montreal would be very heavy. It was also pointed out that the lacrosse grounds had been disposed of, and that the club, at considerable expense, would have to rent these grounds from the present owners, the Edwards Realty Co. The matter was discussed at considerable length, the meeting being strongly in favor of re-entering into senior lacrosse. It was finally decided to make an appeal to the sporting public of the city of Sherbrooke for assistance, and that if a sufficient amount could be collected between now and the 1st of May to guarantee the club against a deficit, Sherbrooke would enter a team in the above mentioned league and send delegates to the meeting of the N. L. U. to be held in Montreal on May 3rd.

The fact that Sherbrooke has been asked by Cornwall, Ottawa and Montreal to enter this league goes to show that the publicity given to Sherbrooke by the "Greater Sherbrooke" movement has had the effect of bringing this city to the notice of sporting associations as well as industrial concerns.

The following officers were elected: Patrons—Messrs. E. W. Darwell, H. Irwin, B. C. Moe, J. H. Walsh, F. H. Hebert, C. E. Therrien, Dr. Bradley and S. W. Jencks.

Hon. President—Mr. T. J. Maguire.
Hon. Vice-Pres.—Dr. J. E. Noel.
President—W. H. Brent.
Vice-President—George Povey.
Secretary—H. W. Mulvena.
Treasurer—Tom Southwood.
Manager—Fred Povey.

Committee—G. B. Maguire, L. Dunsmore, J. A. Cameron, A. Fales, W. Major.

W. H. Brent was appointed delegate to attend the meeting of the N. L. U. in Montreal on May 3rd.

It is hoped that the citizens of the city of Sherbrooke will respond to the appeal made by the Lacrosse Club and contribute generously in order that senior lacrosse may once more be seen in this city. "Do it for Sherbrooke."

To the Few Without Real Anti-Skids

(It starts to rain, or the street sprinkler gets busy, and you are in your car.)

Suppose the ordinary non-skids you bought are worn down in the centre of the tread. You are getting no more protection than if you had on the regular every-day plain tread. Yet you naturally desire to be safe.

Or

Suppose you have on plain treads—in either case you immediately think of chains.

And

Suppose you are in a hurry, and have no time to stop for chains even if you are willing to cut your tires to pieces using them. You then run your auto half on the brick pavement of the car tracks, and half on the wet asphalt, because you are afraid to run all four wheels on the asphalt at one time.

And

Suppose in making the various turn-outs from the car tracks you have a one or two "near skids."

And

But—Suppose you equip your car with Dunlop Traction Treads and forever be free from the other "supposes."

TERCENTENARY OF ROMANOFF DYNASTY

CONSIDERABLE INFORMATION GIVEN AS TO THE CZARS OF OLD.

London, April 17.—Jean d'Auvergne contributes to The Bystander an article on the "Tercenary of the Romanoff Dynasty," which contains a good deal of information new to English readers.

The Romanoffs hailed originally from Prussia, and first appeared in Moscow towards the end of the twelfth century. The beginning of the seventeenth century brought troubled days to Moscow. John the Terrible, whose only rebuff in life was a refusal of marriage from the English Queen Elizabeth, had died. His son, Peter, was murdered, and a civil rivalry was when young Michael Fedorovich, the first Romanoff, was called from his home in Koskoma to preside over the destinies of the Russian people. From his advent to the throne dates the consolidation and Europeanization of the Russian Empire.

A czar of the seventeenth century rose at 4 in the morning. He then was visited by the court priest, who blessed the monarch and brought in the image of the saint of the day. This he placed in a richly jewelled ikon, before which the czar prayed for a quarter of an hour. With the sprinkling of the image and the monarch with holy water the private devotions were at an end. Before matins the czar paid a visit to the Czarina. After this he attended to his private business and heard the news of the day from his gentlemen in waiting. At 9 the imperial family went to hear mass, which lasted about two hours. Then followed more work until dinner, which was taken at 2 or 3 in the afternoon. The meal consisted of seventy or more dishes, all well salted and seasoned with garlic. After this substantial repast the czar was accustomed to take a much needed rest, and generally he slept for about three hours. Sometimes, however, he would forego his rest and go instead to the baths.

The time between vespers and supper was spent with the Czarina, when the imperial couple were amused by dancing girls or jugglers. On feast days there were bear fights—strenuous encounters between a well-baited bear and a spearman, in which the man lost his life as often as the animal. In the event of a successful issue the spearman was rewarded by being taken to the royal cellar, where he was allowed to drink himself drunk. Supper and another visit from the priest brought a strenuous day's feasting and praying to a close.

CO-OPERATIVE FARMERS' BANKS

TESTIMONY GIVEN BEFORE THE BANKING AND COMMERCE COMMITTEE OF HOUSE.

Ottawa, April 17.—The views of western grain growers were heard in the Banking and Commerce Committee upon the revision of the Bank Act, and the two witnesses who gave their testimony both spoke of the hardships inflicted upon farmers through being unable to raise loans upon grain in elevators.

Mr. F. W. Green, secretary of the Saskatchewan Grain Growers' association, on the stand throughout the afternoon and part of the morning, advocated that the renewal of bank charters should be made quinquennially instead of every ten years. He also favored smaller and more economically operated banks. Banks were generally too extravagant in the matter of buildings, in his opinion.

The chairman (Mr. H. B. Ames): "If there was a co-operative farmers' bank formed in your neighborhood, would you deposit in it?"

"Yes," was the reply, "if it was properly organized and had good security."

Major Sharp: "Do you think more banking facilities would benefit the west?"

"Yes, the more the merrier." "Banks are like the churches," added Mr. Green, "they don't like to let the ground go, even if they don't use it." Mr. Green suggested a scheme whereby the Dominion Government would secure back loans and put a tax on lands, as for school purposes, as the basis of that security. "We want the banks," said Mr. Green, "but we don't want to pay the money two or three times over."

Questioned as to the statement made by the manager of the Western Bank that money could be obtained more easily by the western farmer than by his neighbor over the boundary, Mr. Green declared: "If I had to start over again, I would rather start with a spade and a hen than have to borrow money."

REMOUNTS FOR THE MILITIA

GOVERNMENT WILL ESTABLISH BREEDING ESTABLISHMENTS IN MILITARY AREAS.

Ottawa, April 17.—Arrangements are being made between the Militia and Defence Department and National Horse Breeding Bureau, of which Hon. Clifford Sifton is President, whereby the military manoeuvre area north of Medicine Hat, and one in British Columbia, will be utilized for the breeding of horses. The general conditions are that the Canadian Government will have the first choice to buy young animals, for the forces and the British Government will have second choice. Other Governments and outside parties will come in later.

An important announcement is also officially made to the effect that it is purposed that on other military manoeuvre areas in other districts, the Government will establish its own breeding establishments. A new departure will be made this year in the manoeuvres, inasmuch as the horses will be isolated entirely from the camps and from the rifle ranges.

DEATH TOLLS IN PUBLIC STREETS

Total Number of Accidents in the United Kingdom Was 38,597

OF THAT NUMBER 1764 WERE FATAL, AS COMPARED WITH 1557 IN 1911.

(London Standard.)

A return has been issued by the Home Office showing the number of accidents resulting in death or personal injury known by the police to have been caused by vehicles in streets or public places during 1912. The total number of accidents in the United Kingdom was 38,597. Fatal accidents totalled 1,764, compared with 1,557 in 1911, and non-fatal accidents 36,833, compared with 33,653.

Of the fatal accidents 1,485 occurred in England and Wales, 179 in Scotland, and 100 in Ireland. Of the total 679 were caused by horse-drawn vehicles—five less than the preceding year—and 1,085 by mechanically propelled vehicles—an increase of 212. Mechanically propelled omnibuses accounted for 199 deaths, 82 more than in 1901; tram cars for 135, an increase of twelve; and other vehicles 751, an increase of 118.

Of the 38,597 non-fatal accidents, 34,186 were in England and Wales, 3,219 in Scotland, and 1,192 in Ireland. Horse-drawn vehicles accounted for 13,924 accidents, a decrease of 133, and the remaining 23,593 were due to mechanically propelled vehicles. Horse omnibuses were responsible for 145 accidents, a decrease of 63; horse trams for 19, a decrease of 35; and other vehicles for 13,130, a decrease of 35. Accidents due to motor omnibuses increased by 894 to 2,921, while those due to trams decreased from 5,523 to 5,381. Accidents due to other mechanical vehicles showed the huge increase of 2,611, the total being 15,287.

London's contribution to the roll of fatal and non-fatal accidents is appalling. The total number of persons killed and injured in the metropolitan district and the city was 17,189. Of these 538 were killed, and 16,651 injured. The killed may be thus classified:

By motor omnibuses	182
By electric trams	37
By motor vehicles	171
By horse-drawn vehicles	143
By horse-drawn omnibuses	5

Total

The non-fatal accidents in London were caused by the following vehicles:

By motor omnibuses	2,828
By electric trams	2,311
By other motor vehicles	6,236
By horse-drawn omnibuses	90
By horse-drawn trams	16
By other horse-drawn vehicles	5,170

Total

Of the total fatal accidents caused by motor omnibuses 139, no fewer than 182 occurred in London, twelve in the rest of England and Wales, 4 in Scotland, and only 1 in Ireland.

METHODS OF HIGH FINANCE

A "DUMMY" TELLS OF THE REMUNERATION OF HIS PARTNERS.

New York, April 17.—Joseph F. Kelly, the \$25-a-week clerk employed by Anthony M. Brady and the late A. M. Young in developing the \$40,000,000 Dayton Power & Lighting Company, to-day accused Brady and Young of using him to shield them from any criminal or civil responsibility they might wish to avoid. Brady and his partners say that Kelly was only a "dummy" and have sued him to recover \$100,000 left in his hands at the completion of the deal. Kelly's affidavit, filed yesterday, declares that he was not a dummy but the actual contractor in the rehabilitation of the company.

Kelly says that from a \$25,000 light plant in Dayton Brady and his associates built up, within seven years, a corporation with \$10,000,000 in stocks and bonds, and made more than \$1,000,000 by the transaction. This result, he claims, was due mainly to his (Kelly's) "skill and honesty." He says that his former employers are trying to "shake him down."

IMPROVE TRADE WITH CANADA

THAT IS THE WISH OF THE PEOPLE OF NEW ZEALAND.

Sydney, N. S. W., April 17.—Since their arrival in Australia the work of the Dominion Trade Commissioners has been confined to Queensland, but yesterday the taking of evidence in Sydney was commenced.

In a special interview the Hon. George E. Foster, the Canadian Minister of Trade and Commerce, said that, despite the fact that ministers were in the throes of an election, it was probable that on arrival at Melbourne they would confer with the Australian Minister of Customs, and also with the Premier, the Hon. Andrew Fisher.

As far as he was able to judge, it seemed to Mr. Foster that the feeling of the people of New Zealand were in sympathy with improved trade relations in Canada. Mr. Foster was much impressed with possibilities of New Zealand and Australia. The climate and varied productions of the countries opened up large visions of future progress in many directions, but what struck him particularly was the sparseness of the population and the striking contrast between the physical capability and the man-power necessary to develop them.

TO PROTECT RAILWAY EMPLOYEES

MEASURE IN PARLIAMENT DESIGNED WITH THIS IN VIEW.

Ottawa, April 17.—Hon. George P. Graham introduced in the Commons a bill for the purpose of amending the Railway Act. He explained that the railway companies often changed their divisional and terminal points from what were formerly convenient spots to other places. In the meantime employees purchased homes and became part of the community. Finally they found that they would have to move. No provision was made for the loss incurred by employees in moving.

He instanced the Grand Trunk Railway, which planned to change from Brockville to Prescott. The purpose of the bill was to legislate so that employees would be protected in such cases. If the amount of loss could not be arrived at, the Board of Railway Commissioners would settle the dispute.

The bill also provided that points could not be removed without the consent of the Railway Commission. Mr. Graham stated that he understood that the consolidation of the Railway Act was under consideration, and he appealed to the Government to allow the bill to go through or to include it in the consolidation.

Hon. Frank Cochrane, in reply, stated that the purposes of the bill were already included in the consolidation of the Railway Act, and that he saw no objection to the bill.

Mr. John Webster (Brockville) stated that the employees were much excited over the removal of the Grand Trunk shops and change of terminals, and he hoped the Minister of Railways would see fit that employees would be compensated. He had much pleasure in supporting the bill.

Messrs. Sexsmith and Emerson also supported the bill, which was read a first time.

FARMERS ARE HARD HIT

EXECUTIONS BEING SERVED IN CONNECTION WITH FARMERS BANK SMASH.

London, Ont., April 17.—Executions are being served on a number of losers in the Farmers Bank smash, and it is stated thousands of dollars will be collected from farmers in this vicinity, particularly in the vicinity of Kerwood, where a branch of the church institution was formerly located.

The bank had been enthusiastically received in that vicinity at the time of its establishment and much stock was sold to farmers. In addition the people of the district, many of whom had formerly done their banking at Strathroy and London, transferred their savings to the Kerwood branch. One man is said to have deposited \$800 on the day the bank failed, while another lost \$3,000, which he had carefully saved to buy a farm.

The person who lost the \$800 deposit owned in addition several shares of stock, which, with the operation of the double liability clause, mulcted him to the extent of another \$3,000.

TORONTO HAS ANOTHER PROJECT

MAY ENTER THE SAVINGS BANK AND BROKERAGE BUSINESS

Toronto, April 17.—The city may become a savings bank and brokerage house, if a resolution passed by the Board of Control ends in the way Controller Thomas Foster wishes. He introduced two resolutions, one asking that display advertisements of city bonds be inserted in local papers. "Many people," said the Controller, "do not understand that they can buy bonds from the city. Our bonds would give them 4 1/2 per cent., and the investment would be quite safe. If more of the public hear about the city bonds we should not have so much difficulty in selling them."

The other resolution provided:—"That the Treasury Board be requested to consider the advisability of taking immediate measures to provide the requisite machinery, seeking legislation if necessary, for inaugurating a system whereby the city can accept savings deposits from citizens and allow interest thereon at the rate of, say, four per cent. per annum."

Old Folks' Coughs

Permanently Cured

The Public is Loud in Its Praise of the Modern Direct Breathing Cure.

Elderly people take cold easily. Unlike young folks they recover slowly, if ever. That is why so many people past middle life die of pneumonia. Even though pneumonia does not develop and kill, coughs certainly weaken all elderly people.

Cough Syrup seldom does much good because they upset digestion. Any druggist or doctor knows that a much more effective treatment is "CATARRHOZONE," which heals and soothes the irritated surfaces of the throat.

In using Catarrhazone you do not take medicine into the stomach—you simply breathe into the throat, nose and lungs, rich piney balsamic vapor, so full of healing power that colds, catarrh and bronchitis disappear almost instantly.

"At sixty-eight years of age I can testify that I am never troubled with coughs or colds," writes J. E. Pilgrim, of Kingston. "They used to be the bane of my life, and that was before I used Catarrhazone, which was recommended to me by C. L. Prouse, druggist. To use Catarrhazone is just like being in an immense pine woods. The balsamic vapor of Catarrhazone is like a tonic. It is so stimulating to the breathing organs, so soothing to sore spots, so full of power to drive out colds and congestion. I will always use and recommend Catarrhazone as a preventive and cure for coughs, colds, bronchitis, throat irritation and catarrh."

(Signed) "J. E. PILGRIM."

A Catarrhazone Inhaler in your pocket or purse enables you to stop a cold with the first sneeze. Large size costs \$1.00 and supplies treatment for two months; small size, 50c.; trial size, 25c.; all storekeepers and druggists, or The Catarrhazone Co., Buffalo, N.Y., and Kingston, Canada.

TOWN COUNCIL OF SCOTSTOWN

Decide to go ahead With Macadamizing the Streets in Town

VOTE WILL BE TAKEN MONDAY ON BONUS BY-LAW TO NEW INDUSTRY.

Scotstown, April 17. (Special)—There was an adjourned meeting of the town council last night at which were present Mayor Langlois and Councillors Bowman, Roy and McKenzie.

There was considerable business transacted.

Mr. N. G. Scott, M.L.A., was present at this and reported in regard to what he had formed and what the Quebec Government would do for the town in connection with the macadamizing of the roads of the town, and also to some other matters for which he has recently interviewed the provincial secretary.

Tenders were received from J. B. Dore & Son, also from the Jenckes Machine Company for road machinery, but no action was taken in the matter.

A committee will look into the several kinds of road machinery and see the difference in prices, and will be ready to report at the next meeting of the council.

The following petition was received and acted upon:

"To the Mayor and Councillors: 'Dear Sirs,—We, the undersigned ratepayers of the town, do hereby request that the sidewalk be extended from the C. L. Caswell house to the house of Mr. John Rudd, on Victoria road, and that the public nuisance, the slaughter house, be removed to some locality where it will not be a source of danger to the public health, as it is at present.'"

This petition was signed by the ratepayers of that section of the town.

Arrangements were made for a poll on Monday, April 21st, when the ratepayers of the town will have the privilege of voting on By-law No. 39, which was recently passed by the council, which is for the purpose of adding the Scotstown Manufacturing Company, who propose to erect a chair and furniture factory.

It is not expected that there will be any opposition to the by-law.

Strictly speaking, of course, Stephenson was the first driver of a locomotive, but he only drove the "Rocket" upon trial trips by way of experiment. The first official driver—that is, the man who was regularly employed to take the train between Liverpool and Manchester on the first train ever laid down—was a young man named Edward Entwistle, who was born at Tildesley Banks, near Wigan, in 1815. At the age of eleven Entwistle was made an apprentice in the large machine shops belonging to the Bridgewater Trust in Manchester, his parents having decided that he should be an engineer.

It was in these works that the "Rocket," the first passenger locomotive, was built and under the direction and according to the plans of its inventor, George Stephenson, and young Entwistle took the keenest interest in the progress of the engine. When the Liverpool and Manchester Railway was finished and the "Rocket" completed, Stephenson looked about for a driver. The foreman of the shop was consulted, says Mr. Frank Hird, in "Lancashire Stories" that, after a day or two, reported that he had no man he could suggest, but that, if the great inventor would take the young apprentice Entwistle, he could recommend him highly.

Entwistle was approached, and gladly agreed to assist Stephenson. The opening of the new railway which attracted the attention of the whole country, was fixed for Monday, September 15, 1825. On Sunday Stephenson and young Entwistle took the "Rocket" for a trial trip, running over about one-half of the track. The following day both were on the engine which made the historic journey from Liverpool to Manchester, drawing behind it some of the most distinguished people in the land, a journey whose triumph was marred by the tragic accident to Mr. Huskisson. During the return journey from Manchester the young apprentice's hand was hit by the wheels of the engine.

When the line was opened for general traffic Entwistle was given the sole charge of the "Rocket," and for two years made two round trips every day, between Liverpool and Manchester, one in the morning and the other in the afternoon.

Ultimately, however, Entwistle found the work was too much of a strain, and after completing his apprenticeship emigrated to America, where he ultimately acquired a farm, on which he died at the age of eighty-one.—Tit-Bits.

A PRAYER FOR A BLESSING. (Suggested by modern church methods Mrs. H. S. E.)

"O Lord, I come to Thee in prayer on more."

But pardon if I do not kneel before Thy gracious presence, for my knees are sore.

With so much walking. In my chair instead.

I'll sit at ease and humbly bow my head.

I've labored in the vineyard Thou dost know;

I've sold ten tickets for the picture show;

I've called on several strangers in our town;

Their contributions to our Church put down.

I've baked a pan of beans for Thursday's spree;

An old time supper it is going to be.

I have dressed three dolls, too, for our annual Guild Fair,

And made a cake which we must raffish there.

Now, with Thy boundless wisdom, O sublime,

"Thou knowest" that these duties all take time.

I have no time to fight my spirit's foes,

I have no time to mend my husband's socks and clothes,

My children roam the streets from morn till night

I have no time to teach them what is right,

But Thou, O Lord, consider all my cares,

Do count them righteous, and do heed my prayers.

Bless the cereal supper, and the picture shown

And put in the hearts of all to go, Induce the Village visitors to patronize.

The men who in our programme advertise,

Because I've chased these merchants till they hid

When'er they saw me coming—yes, they did!

Increase the contributions to our Guild Fair

And Bless the people who assemble there,

Bless thou the grab bag and the gipsy tent,

The flower table and the cake that sent.

May our Knowlton Whist Club be to thy service blest,

Our dancing party gayer than the rest,

And when Thou has bestowed these blessings, then

We pray that Thou wilt bless our souls, dear Lord." Amen.

Knowlton, April 2nd., 1913.

TELLING THEIR FRIENDS. The fact that dogs have a way of communicating news to one another was demonstrated in a very singular and amusing fashion in a certain district in South Georgia where as yet little provision is made for the comfort of domestic animals.

One bitter night, such as "cold waves" frequently bring to that locality, a Georgian heard at his front door the unmistakable sounds of scratching and whining. He found upon opening the door two of his neighborhood friends, a pug and a little terrier, asking admission.

In the face of the cruel cold it was granted them, and they were made welcome to share the comfortable quarters of the two household dogs. In the morning they took their leave; but great was the astonishment of the Georgian to see them return the following cold evening, this time accompanied by a large Irish setter, who likewise begged admission to the warm quarters of which he seemed to have knowledge.

If there were any doubts as to whether these hospitable night lodgings were discussed among the shelterless dogs of the neighborhood the doubts were removed on the third night, when the three tramps returned, their number further augmented by another pug and an old pointer.

The mute but eloquent language of their wagging tails, the humble appeal in their eyes were at once amusing and pathetic.

With his own two pets and these seven tramps the Georgian had now seven dogs stretched out comfortably before his dining-room grate; but their irrepressible behavior and many ingratiating ways had insured for them a welcome at his house as long as the cold wave lasted, which was a week. After the cold subsided they returned no more. — Harper's Weekly.

JUDGE MULVENA AT THETFORD MINES

Held a Lengthy Sitting of
The Criminal Court
There

COMPLAINANT IN ASSAULT CASE
DID NOT RECEIVE MUCH
SYMPATHY FROM
COURT.

Thetford Mines, April 17.—(Special)—Judge Mulvena held a lengthy sitting of the Criminal Court here yesterday.

The City of Thetford Mines vs. Jos. Fortin, charged with keeping a restaurant without a license. It appeared from the evidence that the defendant had been willing to pay for his license, but that the Municipal Council had refused to grant it. The defence questioned the power to do so. The by-law in question, No. 51, conferred on the Council the privilege of granting or refusing such a license. If this provision was illegal, defendant has his recourse before the Superior Court, to set aside the by-law in question, but so long as it remained in force the Court would have to enforce it when called upon to do so. The lowest penalty, of \$10 and costs, would be imposed.

A question arose as to the right of the City to charge for the exhibits filed in the case—copies of by-law, and extracts from minutes of the Council, etc. The filing of these exhibits was made necessary by the defence of the defendant. The amount charged, \$4.50, seemed large, but in the absence of any special tariff the Court did not think it would be wise to interfere and reduce the amount.

LOITERED ON SIDEWALK.

Jos. Vallee vs. Henri Lessard.—The defendant was charged with loitering on the sidewalk and refusing to move on, and obstructing passengers. He was fined \$1 and costs, or eight days in jail at Sherbrooke.

ASSAULT CASE.

George Turgeon vs. Alfred Mercier, Hormidas Mercier and Cyrillus Langlois, on a charge of assault causing grievous bodily harm.—The evidence was very lengthy and very conflicting, but the Court held that from the bulk of the complainant's own witnesses it was made evident that the complainant was the aggressor and went to the house in question with the avowed intention of cleaning out the premises. The defendants had perhaps defended themselves rather more effectively than was absolutely necessary, but in view of the reputation of the complainant as a fighter, and the difference in physical size, etc., it was difficult to appreciate to a nicety the amount of force necessary to repel the assault and protect the defendants. The complaint was dismissed, with costs.

ANOTHER ASSAULT.

Alphonse Aubin vs. Alfred Mercier, Hormidas Mercier and Cyrillus Langlois, for assault causing bodily harm.—The assault in question arose under the circumstances and at the same time as in the previous case, the complainant having accompanied the other complainant to the house in question for the purpose of assisting him, and met with the same reception. Both complainants were pretty badly wounded, requiring a doctor's assistance to dress the wounds, but it was clearly shown that they were the aggressors and had been overmatched. They were not entitled to any sympathy, even if they had got more than they deserved. The Court could not set the seal of its approval on their lawless acts, and would dismiss the complaint, as in the previous case.

MASTER OF 23 LANGUAGES.

Hongkong.—Sir Charles Elliot, the new principal of Hongkong University, speaks 23 languages fluently. For many years he was in the diplomatic service, and in every country to which he was sent he mastered the language, beginning with Russian in 1887. In 1890 he brought out a Finnish grammar. He was secretary to the Washington embassy in 1898. During his course at Oxford he had not only swept the board of all the classical distinctions within reach, but, while still an undergraduate, had won the Boden Sanskrit scholarship, and the Syriac prize.

COL. DENISON AND THE 54TH REGIMENT

Made an Informal Inspection
of Corps at the
Armoury

COMPLIMENTED THE OFFICERS
AND MEN ON THE FINE AP-
PEARANCE THEY MADE.

There was a large turnout of the 54th Regiment at the Armoury last night and the gallery was crowded with interested spectators. Lt.-Col. E. Rioux was in command, with Major J. S. Tetreault, second in command, and Capt. J. O. Ledoux, Medical Officer. With few exceptions every officer and man was present.

After the ordinary drilling operations had been gone through, the regiment was drawn up for inspection by Col. Denison, Officer Commanding No. 4 Military District, who is visiting Sherbrooke at the present time. The regiment saluted as the Colonel entered the hall and he returned their salute and then made an inspection of the regiment which afterwards paraded under the direction of Colonel Rioux. At the close the officers were introduced to Col. Denison, who complimented them on the efficiency and soldierly bearing of the men and their intelligent grasp of military duties.

The Colonel then addressed the regiment as follows: "Officers, non-commissioned officers and men of the 54th Regiment, it is a great pleasure for me to be here to-night, and my only regret is that I have to appear without uniform. I have been connected with the army for 40 years, and this is the first time I have ever appeared on parade without uniform. I happened to be in Sherbrooke, and took the opportunity afforded me to meet you. I had no idea I should see such a large assembly. I am particularly pleased with your turnout, and I am also pleased to see such a large audience in the gallery to show their interest in this regiment—it reflects great credit upon you and upon the city of Sherbrooke. I tell you, men, that no regiment in any country can ever achieve that success or hope for that respect which is due to it if it does not have the support of the men and women of the country, and it is most gratifying to see the gallery filled with ladies and gentlemen who are ready to follow you so closely in the performance of your duties. I was not aware we should have such a parade as this to-night. I was particularly impressed with the steadiness of the men on parade—to you it may not mean much, but to me it means a great deal. "Deeds not words," are the requisite of a soldier and to see you standing there like true soldiers shows your appreciation of the duties of a soldier. I must congratulate you and your conduct reflects the greatest credit upon your worthy colonel. It shows me that I have in the 4th Division men whom it would give me the greatest pleasure to command, and I should consider it a privilege if ever the occasion arose to command such a regiment as I am addressing to-night."

The regiment was then dismissed.

NEW ENGLAND WOOL MEN ASK DELAY

Ask That Six Months be
Given in Which to Work
Off Stock

LOSS WOULD BE ENORMOUS IF
RATES WENT INTO IMMEDIATE EFFECT.

Washington, April 17.—New England woolen manufacturers have abandoned all hope of securing any changes in the woolen rates of the Wilson-Underwood tariff bill, but when the schedules are reached in the Democratic caucus, some of the New England representatives will press for an amendment whereby the new rates will not become effective until six months after the passage of the bill. The Wilson-Gorman law of 1894 allowed a leeway of five months to the wool trade. Winthrop L. Marvin, of Boston, secretary of the National Association of Wool Manufacturers, said yesterday that the loss through shrinkage in the value of stock on hand would be enormous, should the rates go into immediate effect. "In one concern alone this loss would approximate a million dollars," said Mr. Marvin, "and a great relative loss will be caused in every woolen mill in the country. If sufficient time be allowed in which to work off the stock in hand, injury from this source will be avoided."

SMOKE DAMAGE IS \$7,938,276

CHICAGO'S ANNUAL LOSS. PRO-
POSAL FOR ELECTRIFICATION
ION MADE.

Chicago, April 17.—Smoke from locomotives costs this community \$7,938,276 annually according to statistics published by Alderman Theodore Long, preparatory to submitting to a committee of the City Council that is considering an ordinance for the electrification of railway terminals. The total smoke damage exceeds the city's receipts from saloon licenses and the average loss to each family of \$15.48 is figured as greater than the annual personal property tax. Alderman Long's figures give the daily number of locomotives in Chicago as 1636 and their daily coal consumption as 5601 tons. Damage by smoke of all sources is estimated at \$18,461,166 annually.

MORE LIBERAL TO THE B. & M.

RECOMMENDATION OF COMMIT-
TEE VOTED DOWN BY NEW
HAMPSHIRE LEGISLA-
TURE.

Concord, N.H., April 17.—The measure recommended by the special legislative committee which has been considering the railroad rate question in this State was rejected by the Legislature and the committee was instructed to report a new measure giving the Boston & Maine Railroad more liberal terms and the Railroad Commission more discretion in fixing rates. As reported by the committee, the bill would have required the Boston & Maine and the State to agree upon a new schedule of rates to be prepared by the Public Service Commission, and to go into effect July 1 of the present year, none of the rates to be in excess of those now charged. The resolution calling for a new bill was adopted 179 to 138, after the Legislature had debated the question all day.

The committee was appointed two years ago, after the courts had declared that certain increases in rates by the Boston & Maine were illegal.

400,000 MEN ARE OUT IN BELGIUM

Means Taken to Force
Manhood Suffrage From
Government

WANT CLOTION OF SYSTEM OF
PLURAL VOTING BY WEAL-
THY CLASS.

Brussels, April 17.—In a statement issued yesterday by the Minister of the Interior it is said that 257,000 men have joined the national political strike of the Belgian workers, who have chosen this means of forcing the grant of manhood suffrage in Belgium and the abolition of the system by which wealthy citizens are given plural voting power. The Socialist leaders, on the other hand, assert that the total number of strikers is over 400,000. From various parts of the province reports show that in some places the movement has been undoubtedly successful while in others, more especially the districts under the control of the Catholic workmen's unions, the men appear to be lukewarm in their sympathy. Violence has been exceptional since the order to quit work was given on Monday, only a few cases of destruction of property or interference with non-strikers having occurred.

It was stated yesterday that the Belgian government finds itself with a considerably smaller supply of coal to run the State railroads than was supposed, and this is likely to be exhausted this week, thus crippling transportation facilities. Lack of fuel also, it is said, will cause the stoppage of many electric and gas plants and prevent many thousand of non-strikers from working.

New York, April 17.—Leaders of the National Progressive party gathered here yesterday at the call of the executive committee to discuss plans for the fall elections in several States and to perfect organization work. Theodore Roosevelt, the star of the occasion, entered soon after the opening. The party situated in New York, New Jersey, Massachusetts, Tennessee and Virginia, which are among the States holding fall elections would come in, it was said, for chief attention. A quorum of the executive committee was present. It was planned to fill vacancies in the membership of the National Committee caused by the death of Henry H. Cochran of Arkansas and the resignation of Mrs. Isabelle W. Blaney of California, one of the four National Committee women-at-large.
