U.S. DOCTORS WARY OVER TURTLE CURE

Declares Confidence in Remedy Inspired by Publicity is Not Justified.

CONTINUE WATCHING INOCULATED CASES

Fear Harm May Have Been Done by Lessening Faith in Recognized Methods.

Washington, D.C., May 9.—The public health service observations, so far, into the condition of patients inoculated by Dr. F. F. Friedmann with his tuberculosis vaccine, do not "justify that confidence in the remedy, which has been inspired by widespread publicity," in the opinion of the surgeons who have conducted the government's investigation.

The first authentic and official conclusion from the tests was announced here today before the National Association for the study and prevention of tuberculosis by Dr. John F. Anderson, director of the Government's hygienic laboratory, and Dr. A. M. Stimson, another Public Health surgeon, who were detailed to observe the progress of the Friedmann patients at Mount Sinai Hospital in New York.

"We believe that at the present time," says their report, "we are not as yet in position to express an opinion based on the present conditions under observation. The disease for which the remedy is used is prolonged, and is characterized by periods of advancement and retrogression. It is also one in which psychic influences are a powerful factor. Time is, therefore, necessary to properly evaluate the effect of therapeutic measures.

POSSIBLE THERAPEUTIC VALUE OF SERUM.

"We must not lose sight of the possible therapeutic value of this preparation, and on the other hand it is necessary to guard against too great an optimism in respect to its merits. Without presenting in detail the condition of patients under observation, we are in a position to state that the facts thus far observed, do not justify that confidence in the remedy, which has been inspired by widespread publicity.

"In our opinion harm may have been done by this undue publicity, in so far as it has lessened the confidence of tuberculosis persons in well recognized methods of treatment or interruption of their use, and we are constrained to advise against any lessening of those well-known measures which not only have effected cures, but which have reduced the incidence of the disease.

EXPERT TREATMENT OVER LONG PERIOD.

"In our series of patients, Dr. Friedmann has almost exclusively made use of the intramuscular method alone in pulmonary cases, and a very considerable proportion have either developed no considerable infiltrate at all or have suffered from abscess formations. It is evident, therefore, that a very considerable portion of these patients may expect their treatment at the hand of Dr. Friedmann to extend over a long period.

"Concerning the cultures submitted to us, we may state that a series of experiments is under way. The baccillus has been found to be an acid-fast organism, having properties quite different from those of any tubercle baccillus with which we are acquainted.

"It appears to be identical with an organism cultivated from a few loopfulls of the material used for injection which Dr. Friedmann permitted us to place on culture media in his presence. We requested Dr. Friedmann to furnish us with a large amount of this material for examination, but this he has declined to do.

"We state, however, that living acid-fast bacteria are being injected by the intramuscular and intravenous method; although we are ignorant of what medium they are suspended in or what additional substance or substances may be contained in the final mixture."

The report covers exhaustively the history of the Friedmann "cure," so far as the facts have been available to the public health service from the time of its announcement in Berlin in November, 1912, and reveals the efforts of the public health service to gather material from Dr. Friedmann for its investigation.

The report is careful to say that Friedmann's reticence has in no way been allowed to interfere with the judgment of the Board of the effects which it has observed.

The Government investigation is not finished, as the tests being conducted in the hygienic laboratory here and the observations of the persons inoculated will be continued.

MILITANTS TRY ATTACK ON PREMIER

Endeavor to Assail Mr. Asquith and Mr. Churchill on Way to Mediterranean.

SUFFRAGETTES MAY NOT GET ANY MORE HALLS

Proprietors Getting Scared — More Arson To-day—Mrs. Drummond Ill.

Special to The Montreal Star.

London, May 9.—King George and Queen Mary left London to-day to spend Whitsunday with the troops at Aldershot. They made the trip from Buckingham Palace by automobile and arrived at the Royal Pavilion early this afternoon. They were met by Lieutenant-General Sir Douglas Haig and staff, of the Aldershot command, and the entire population of the big Hampshire military depot turned out to welcome them.

Extraordinary preparations were taken to prevent any annoyance to the King and Queen by suffragettes during the trip. Scotland Yard detectives went carefully over every inch of the roads to be traversed by the Royal party, and when the trip was made, detectives rode before and behind the automobile of Their Majesties.

ATTEMPTS TO ATTACK CABINET MINISTERS.

Fresh suffragette outrages stirred England to-day. A member of the "Young Hot Blood" service of the Women's Social and Political Union burned Oaklea Mansion at Barrow, causing $50,000 loss. The mansion was untenanted.

Other members of the Union attempted to attack the Premier and Mrs. Asquith and the First Lord of the Admiralty, Mr. Winston Churchill, and Mrs. Churchill as they were on their way to Victoria Railway Station to-day.

Mr. and Mrs. Asquith and Mr. and Mrs. Churchill were leaving on a journey to Venice, where they will embark upon the Admiralty yacht Enchantress for a cruise through the Mediterranean for the inspection of British fortresses and navy depots.

Only the fact that they had a heavy bodyguard of policemen, soldiers and private detectives saved them from injury at the hands of militant suffragettes.

HALL PROPRIETORS ARE GETTING CHARY.

The militant suffragettes are now faced with a probability of being without a hall in which to hold their meetings. The proprietors of Caxton Hall, from which the raids on the House of Commons started, and which has been long a centre of the propaganda, have refused to allow militants to hold any further meetings, unless they pledge themselves to abstain from making speeches, inciting to violence, while Essex Hall, which has been often used by the women, has been now absolutely refused them.

The lessors of Holborn Hall, however, are still taking the risk of the penalties, threatened by the Government for allowing crime to be preached in a building.

Mrs. Flora Drummond, the militant suffragette leader, who collapsed twice in Bow Street Police Court, during yesterday's conspiracy proceedings against the principal officers of the Women's Social and Political Union, is to-day very ill from the effect of her privations during her "hunger strike" while under remand, and the physician in attendance has advised her to undergo an operation.

KEIR HARDIE WRITING LOVE LETTERS TO MILITANT.

The discovery of bombs has become so common that some papers are daily stating the precaution which a finder ought to take to avoid an explosion.

Every day brings its suffragette bomb, which, however, does not explode—whether intentionally or through blunder cannot be said.

The mystery of the bombs found in St. Paul's and other buildings has not been solved, nor has anything been discovered that would tend to throw light on it. The suffragettes neither admit nor deny their responsibilities.

The Times says that the bomb found in St. Paul's contained dynamite. Some of the Cathedral officials, however, are of the opinion that the lever was purposely placed in such a position that the bomb could not explode and that the real object was to attain notoriety by attracting the attention of the whole nation, without committing actual damage.

The Express asserts that among the documents which the police seized in the suffragette raids was a bundle of love letters. The letters were addressed by Keir Hardie, a Socialist member of Parliament, to Mrs. Drummond, a leader of the militants, it is stated.

MRS. PANKHURST URGES MEMBERS TO BE "CALM."

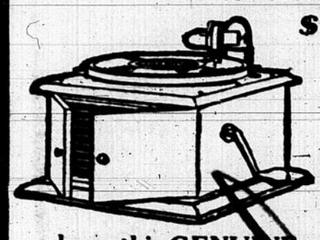

The Women's Social and Political Unions again defied the authorities yesterday, and The Suffragette, despite the police prohibition, duly appeared in the evening and was offered for sale in the streets. It is printed by the National Labor Press of Manchester. On the front page is a message from Mrs. Pankhurst, "To the dear members of the Women's Social and Political Unions." It bids them be "Calm, strong, and faithful to one another and the Union, and all will be well." Christabel Pankhurst in an article extols Joan of Arc as the militant woman's ideal.

The police have issued warnings to all the London churches and public institutions to take precautions against possible outrages. Visitors to St. Paul's Cathedral yesterday were watched closely.

NEW MONTENEGRIN CABINET IS FORMED BY GEN. VUKOTITCH

Cettinje, Montenegro, May 9.—A new Montenegrin Cabinet, under the Premiership of General Vukotitch, was formed to-day to take the place of the government which resigned when King Nicholas decided to evacuate Scutari at the behest of the European Powers.

The Foreign Office immediately afterward opened negotiations with the commanding officers of the international fleet which had been engaged in blockading the coasts of Montenegro, and arrangements were made for the evacuation of Scutari, which began yesterday, to be completed by Sunday, when the last of the Montenegrin soldiers will march out of the city.

The Foreign admirals will then land detachments from the fleet and the formal surrender of the old Turkish fortress will be made to the combined international force.

KING SAYS HE WAS FORCED TO GIVE IN.

King Nicholas to-day, in a speech to the members of the Montenegrin Parliament, declared that in the interest of general peace and in order to save Montenegro and the entire Serb nation, he had been forced to give in to the European Powers.

Russia, Servia, and Greece, he declared, had counselled submission on the part of Montenegro. Russia, however, had undertaken to continue to protect the little kingdom.

The portfolios of the new Ministry are distributed as follows:—Premier, General Vukotitch; Foreign Minister, J. S. Plamenatz; Minister of Interior, L. Gojnitch; Minister of Education, Lazar Mlyuskovitch; Minister of Justice, Ljube Bakitch; and Minister of Finance, Risje Popevitch.

TO REVENGE MURDER OF NAZIM PASHA.

Special to The Montreal Star.

London, May 9.—The repeated threats of followers of Nazim Pasha, the late Turkish Generalissimo, to avenge his murder after the Balkan war, are likely to materialize shortly, according to the Constantinople correspondent of the Daily Chronicle. The correspondent says that ominous reports come from Tchataldja that the Military League is preparing to deliver a blow.

DUCHESS' CONDITION. REPORTED HOPELESS.

Special to The Montreal Star.

London, May 9. — It was learned to-day from an official source, that the condition of the Duchess of Connaught is hopeless. She has not been able to take nourishment for six days.

New Comers Worst Givers

Canadian Associated Press.

London, May 9.—The Bishop of London, speaking on church work in Canada, said the ordinary English churchman, for three-pence, in the collection plate, expected a good vicar, two good-looking curates, and a peal of bells. When he was in Canada, he was told that the worst givers were those who came out from the Old Country.

Britain May Cut Guatemala

Special to The Montreal Star.

London, May 9.—Unless Guatemala yields to the demands of Great Britain in regard to the long outstanding debt, or shows signs of doing so by May 15, the diplomatic relations of the two Governments will be severed.

The controversy has assumed a different aspect with Guatemala's treatment of Sir Lionel Carden, when an attempt was made to embroil Great Britain in an unnecessary dispute with the United States.

CITIZENS MUST KILL THE PESTS

If Tent Caterpillars are Not Destroyed Now it Will Soon Be Too Late to Strike.

FRUIT TREES MAY ALSO BE ATTACKED BY THEM

Those on the Mountain are Being Burned—How Grubs Can Be Destroyed.

Two weeks from now the hungry caterpillars, with their powerful mandibles, will be full-grown, and the hosts of the enemy will commence their most deadly attack upon the shade trees of Montreal, and the orchards surrounding the city.

By that time it will be too late to stamp out the pest. This warning is insistently given by the authorities at Macdonald College. Already myriads of the enemy have pitched their tents among the shrubbery along the roadways leading to Mount Royal, and in the conveniently low trees of the city.

"I fear for the fruit and shade trees of the province if the pest is not stamped out inside of two weeks," declared Prof. Louchead, the entymologist at Macdonald College today. "No pains should be spared to destroy the caterpillars while they are still young. Once let them grow to their full strength and it will be almost impossible to wipe them out."

Not a New Discovery.

From Ottawa there comes the announcement of a new "sudden-death" exterminator of caterpillars. It is announced that H. Holz of the Experimental Farm, has discovered it, and that the deadly mixture consists of pyrethrum powder, 1 part, and common wheat flour, 4 parts, dusted on the nests of the caterpillars, or over the trees.

Prof. Louchead, of Macdonald College, however, says that this is no new discovery, that as a matter of fact, it has been used for many years to exterminate such insects as the cabbage worm. He does not believe that it is as effective as the spraying method, because few people have the appliances with which to blow the dust over the trees, whereas sprinklers are in more general use, and are more effective in reaching the higher trees.

A More Effective Cure.

Prof. Louchead believes that arsenate of lead, three pounds to fifty gallons of water, is the most effective remedy for general use in destroying caterpillars at this season of the year. Of course, in cases where the proprietors have the means of dusting the trees, the pyrethrum powder mixed with flour might be used.

However, for those who find the dusting method easier, the following directions are given:

The powder is either blown on with a bellows or it may be sprinkled on the nests with the hand. The addition of flour to the powder is to cheapen the mixture. The two ingredients should be mixed and allowed to stand for twenty-four hours before using. In this way the properties of the pyrethrum, or as it is commonly called "insect powder," are transported to the flour.

In early morning when the caterpillars are in clusters is the best time to apply the mixture. Later in the day they are apt to scatter among the branches and much more powder is required, to say nothing of the extra time required in going over a tree.

Can't Spray All Trees.

Park Ranger Henderson says he is still busy destroying the caterpillar tents on the mountain. The caterpillars he says, are mostly tenting in the lower shrubs and cherry trees of the mountain. The only practical method of destroying them he says, is that of burning caterpillar tents, branch and all. It would be practically impossible to spray or dust the trees because there are so many on the mountain. Early every day Mr. Henderson and his ten men make a tour of Mount Royal Park and every time a caterpillar tent is seen, it means sure and sudden death for the young insects who have not yet started out on their crawl for vegetable food.

Citizens Must Get Busy.

Once more the warning is given that citizens should immediately follow the advice given by the Macdonald College authorities and stamp out the pest while there is yet time.

Ample instructions regarding the various methods of destroying caterpillars were given in yesterday's Star by Prof. Bunting of Macdonald College. By following his advice, owners of private properties will not only save their own trees, but will also prevent the caterpillars from spreading to the public parks. It is also necessary that owners of unoccupied land should see that caterpillars are destroyed on all such properties.

RECORD PRICE FOR LAND ON ST. LAWRENCE STREET.

The property situated at the north-east corner of St. Lawrence Boulevard and Laurier avenue, has been sold at auction by the House of Browne, Limited, for $38,778. The frontage on St. Lawrence street is 51 feet and on Laurier avenue, 68, making the total area 3,372 square feet, or $11.50 a square foot, a new high record for property in that district.

The purchaser was J. A. Vachon, court, president of the Bank of Hochelaga. The site will likely be used for the erection of a branch bank building.

The activity in vacant land continues. The Westlea Realty Co., Limited, purchased from Z. Boudreau a farm in Cote St. Paul, for $10,000 yesterday. The property contains about twenty-eight arpents, making the price paid per arpent over $3,800.

MILLERS TO FIGHT IN THE SENATE

Western Interests Have Hopes of Upsetting the Will of President Wilson.

BILL PASSES BY MAJORITY OF 42

Republicans Express But Little Hope of Defeating the Measure in the Senate.

Special Staff Correspondence.

Washington, D.C., May 9.—The big lobby against the wheat and grain and flour schedules in the Underwood Bill has crystallized into a Convention meeting in Washington, and an organized effort, as finely drawn as has been seen in legislative circles for many a day, is now at work on the Senate of the United States.

The western millers are determined to upset the will of President Wilson and Representative Underwood, in order to get ten per cent. straight duty on flour, or at least to equalize the duties between the raw wheat and the finished flour.

Acting under he name of the Illinois Manufacturers' Association, the Convention gave out a statement to-day to the effect that the country at large has been lulled to sleep by Democratic bunkum, and that the millers and manufacturers who expected to live through the coming Canadian competition had better be up and trimming their lamps. A portion of the statement reads as follows:

LOOK TO SENATE TO MAKE CHANGES.

"It would seem, however, in view of the action of President Wilson, in requesting the Secretary of Commerce and Labor to institute certain investigations, as to the effect the proposed Bill will have on certain industries, that the manufacturers and producers of the country still have a chance to secure fair treatment. There are also other indications that the Senate will not as readily as has been supposed, comply with the demands of the more radical leaders and push the Bill through as it comes from the House without any changes."

"Coincident with the giving out of Mr. Wilder's statement, Mr. A. P. Walker, representing the milling interests of the country, to-day gave out a statement in which he charges that the American farmer will lose the sale of 70,000,000 bushels of wheat annually ground by American mills, and that the price of a loaf of bread will be reduced only fourteen one-hundredths of one cent, if the provisions of the Underwood Tariff Bill are put into effect. The statement also says:

"The object of the proposed Bill is to reduce the price of bread stuffs by admitting flour free and to protect the American farmer by imposing a duty of ten cents per bushel on wheat.

"No such result would be accomplished by the enactment of this proposition into law.

"With free Canadian flour and taxed Canadian wheat, no American miller could compete and the milling industry would go to Canada. Under the circumstances the ten cent per bushel duty on wheat would be of little benefit to the farmer, as he would be the sole of a large proportion of the wheat now ground by the millers of the country who cannot afford to pay a higher price than their English, Canadian, French and German rivals.

"It has already been stated that the mills of this country grind 500,000,000 bushels of wheat annually. The loss to the farmer of a consumer of this magnitude would mean disaster."

BILL PASSED HOUSE BY 142 MAJORITY.

The Underwood Tariff Bill, proclaimed by the Democratic party as the answer to its platform pledge to reduce the tariff downward, was passed by the House yesterday. The vote was 281 to 139. Five Democrats voting against the Bill and two Republicans voting for it. Four Progressives supported the measure and fourteen opposed it, while one independent Progressive joined the majority.

When Speaker Clark announced the vote in loud tones that revealed his satisfaction in the arrival of the day he long had sought, exuberant Democrats hoisted a stuffed Democratic donkey over the heads of their colleagues in the rear of the chamber, a faint ripple of applause followed, and the gavel fell on the first chapter in the history of President Wilson's extra session of Congress.

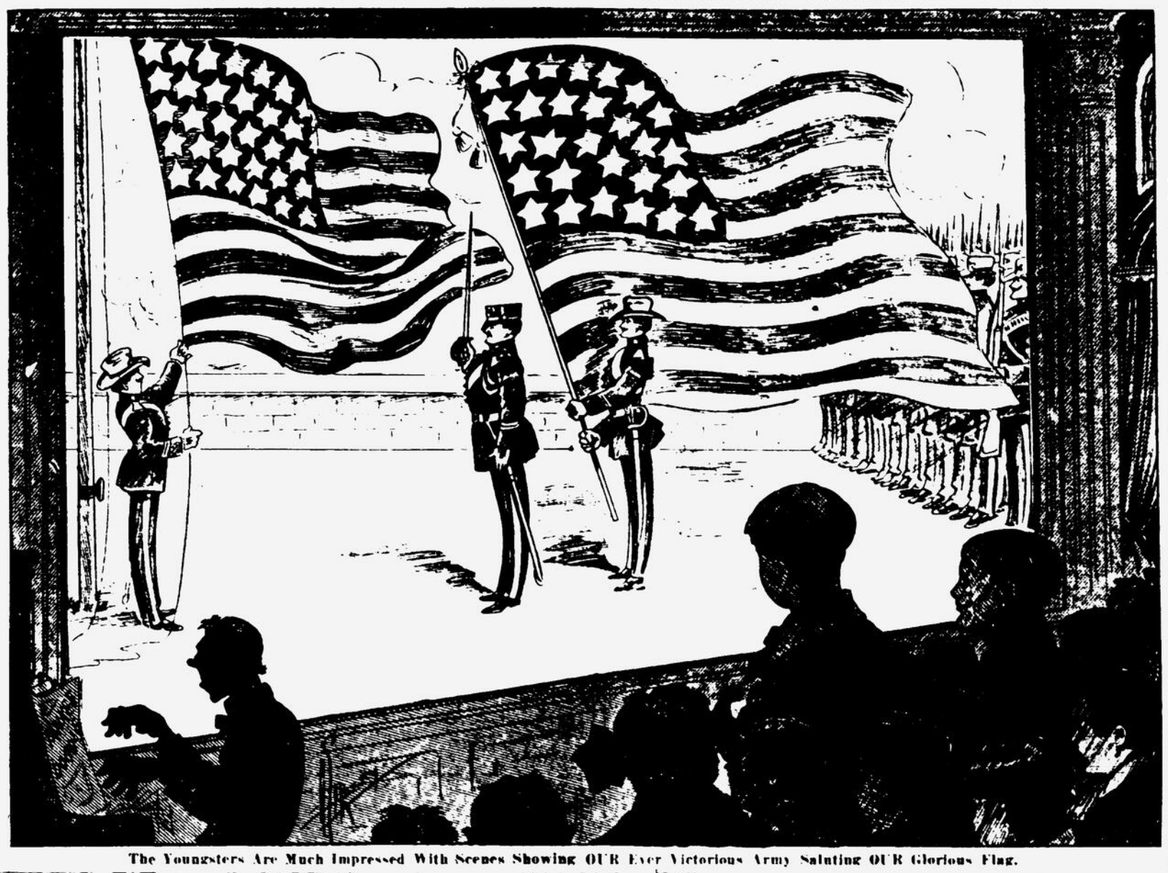

With the Bill, after a month's consideration, on its way to the Senate, there was a rush of representatives for their homes last night. In the House adjournment will be taken three days at a time, beginning next week until June 1. In the meantime the Senate Finance Committee will study the Bill while the House Ways and Means Committee will organize committees preparatory to the transaction of further business next month.

Unless Senators familiar with the progress of such legislation are mistaken there is now little prospect of a final vote on the Bill before August 1.

The Bill's passage through the Senate will be fought at every turn by a Republican organization, apparently entirely in accord on this subject and entirely willing to spend unlimited time and energy in an effort to defeat it. Leaders of the Democrats on the Senate Finance Committee, which will handle the Bill express the belief that it will go through in practically the same form as it passed the House and that they small majority will stand firm to the last.

Republicans who are interested in beating the Bill and who have canvassed those Democrats who looked at all doubtful agree that they have but little hope of success. The Republicans are convinced that President Wilson will carry the day and the party platform will be followed, and that with the exception of the two Senators from Louisiana they cannot count upon a single vote.

AN INTERREGNUM FACES MONTREAL WITHOUT A MAYOR

His Worship is Speeding From Chicago and Ald. Martin is in Ottawa.

Montreal will be in an interregnum for a few hours to-day. Mayor Lavallee is speeding home and has telegraphed that he may be expected at 6 p.m. Ald. Martin, Acting Mayor, is stated to be in Ottawa. There was no sign of him at the City Hall this morning although there were many callers. He asked Ald. Prefontaine to represent him for a few hours yesterday, but Ald. Prefontaine declined the honor on the ground that he wished to attend the caucus of aldermen.

"There is no need for Mr. Martin to be here to-day," one of the city officials remarked cynically. "He has signed everything he could very well sign. In signing documents which Mayor Lavallee had refused to sign, he showed he was different from anybody else. If he had merely done what the Mayor was willing to do there would have been nothing in it."

Ald. Martin's term of the pro-mayoralty will come to an end on Monday. The acting mayor is elected every three months by the City Council and Monday's meeting will mark the conclusion of Mr. Martin's term. There is considerable amusement at the City Hall over the manner in which Ald. Martin has employed his last week of office.

On Monday, two acting mayors will be elected, one to serve for the next three months, and the other to serve for the three months to follow.

ELOPER WHO WANTED DIVINE GUIDANCE.

Special to The Montreal Star.

Detroit, May 9.—Johannes Andersen, an engineer, aged 30 years, and Ida Thyr Nicholson, aged 16, alleged elopers from Hamilton, Ont., were arrested here last night on a charge of violating the United States Immigration laws.

The couple shed tears when brought to headquarters. The woman said she prayed for divine guidance before going with Andersen and received the answer thought it must be all right.

THE WEATHER

Paris, May 9.—The Divorce Court yesterday gave a decision in the case of the Baroness Vaughan, the widow of King Leopold, against her husband, M. Durrieux. The Court allowed her to retain the custody of her children by King Leopold.

BAZAAR FIRED IN SCUTARI TO-DAY.

Vienna, May 9.—Fire broke out in the Bazaar of the former Turkish Governor of Scutari this morning and fanned by a high wind rapidly assumed huge proportions. It is reported here that the Montenegrins started the fire when leaving the city in revenge for being compelled to evacuate it.

LADY'S JEWELLED HAND IS STOLEN AFTER ACCIDENT

New York, May 9.—One of the most remarkable thefts ever committed is the charge against some person unknown, who is believed to be in possession of a hand with Edna Bourgier, a French maid, last night when she fell in front of an elevated railway train.

In a heap the woman toppled from the station platform and was dragged for some distance by the train which bore down upon her. Hundreds who looked on expected to learn that she was ground to death, but her only injury was the cutting off of her left hand. She was found at the foot of the pillar, unconscious of her loss. She shrieked "Where is my hand. Don't lose my rings."

Investigation proved that the severed hand, on which she had worn the rings, one a diamond, had fallen between the ties to the street. A policeman was immediately sent to search for the missing member, but there was no sign of it and he declared someone in the crowd below had picked it up and made off with it and the rings.

The crime caused a great sensation at the time and Vallespi, then a man of thirty years, who was suspected of killing the woman for her money disappeared from the vicinity and was not again recognized until he surrendered himself.

The trial was held during his absence and he was judged guilty and condemned to be guillotined.

CANADA LOOMS LARGE AT CHURCH MISSION MEETINGS

Canadian Associated Press.

London, May 9.—Canada looms rather largely in the annual meeting of the various Church Mission Societies which are now taking place.

Speaking at York Archbishop Lang referring to the western portion of the Dominion, said the new community was almost entirely engrossed in the business of money making, and could not give its sons to the ministry, which at the best was a very inadequately rewarded profession. The Church in Canada would, therefore look for men from home.

Principal Lloyd, of Saskatoon, said they wanted twenty new men yearly for ten years to embrace the splendid opportunity now held out by Western Canada.

BIG WRESTLE MAY BE HELD AT THE ARENA

Mr. George Kennedy is to Meet Mr. Northey in Conference This Afternoon.

A conference will take place between Mr. George Kennedy, Managing Director of the Canadian Athletic Club and Mr. W. S. Northey, Secretary of the Montreal Arena Company, this afternoon, with a view of discussing the proposed wrestling bout between Zbyszco and Le Marin, held in the Arena.

If the Arena Company will consent, and will not ask for too big a prize for the use of the ice-skating rink, Mr. Kennedy will offer a big a purse as either New York, Buffalo or Chicago.

Louis Cyr, Hart, and other well-known athletes have appeared in the Arena in days gone by.

THE AUSTRALIAN TEAM HAS SAILED FOR CANADA.

The following cable has been received by an Australian, at present in Canada who formerly played with the "All Australia" Cricket team.

The players who sailed on the "All Australia" team for Canada are:

Diamond	Macpe
Crawford	Collins
Campbell	Grady
Baraisty	Molloy
Macartney	Emery
Arnott	Dean.

This is about the strongest team of cricketers that ever left Australia, and should prove a wonderful attraction on their Canadian trip.

Wrestling at Jubilee Rink.

To-night at the Jubilee Rink, Fred Lapointe and A. Lemieux meet in a finish wrestling match. Lemieux has several victories to his credit since his arrival in Montreal a short while ago and as this will be his last bout before returning to the States, he is determined to win, and will make the local boy go the limit for the best two out of three falls.

Demmitt has the distinction of having hit the first fair ball over the right field fence. This is not as long a hit as it was last year, however.

THE P.Q.F.A.

15 More Games—M.A.A.A. vs. Grand Trunks.

Three Leagues of the P. Q. F. A. will be out again to-morrow in full force after that elusive commodity pelota. Ten First Division clubs will be seen in the city, both Valleyfield and Lachine being on view for the locals. The Second and Third have "stars" and very important ones too. The Fourth Division will not strike up time until May 17th.

Perhaps the most interesting fixture of the afternoon is M. A. A. A. vs. Grand Trunks on M. A. A. A.'s grand pitch. Seeing that the last soccer game played on this ground was the Corinthian visit of August, 1911, it will be something like the reappearance of an old friend. Though early, very early in the season Grand Trunks are a limited bunch for the prizes offered. And certainly no better team could be placed in the M. A. A. A. enclosure for an opening fixture. On Saturday's form the Trunks are well capable of giving the spectators value for their money. Yet as the M. A. A. A. boys they are not to win their spurs. It is possible that a few changes will be made from the eleven that went down before C. P. R., and while not officially announced, Eyre may replace Peto in goal and Owens at outside left, vice Walton. Gausden is an almost certain starter in centre, and this man is one of the deadliest shots in the league. With these changes, Jack Findlay, who is responsible for the team, feels confident that the winged wheelers will make a good showing. Considering that soccer is now becoming "fashionable," an interested and curious crowd should be present. Kick off 3.30 sharp. Absolutely no time allowance.

North End patrons are well catered for, particularly in the Fairmount-Royal Rovers encounter at Delorimier Racing Park Papineau avenue.

Apropos of Saturday's game with Sons of England, it was Miller that scored for Rovers and not Sheels, as given out.

Sons of Scotland will see their kit is on hand this time and Locos, who are the visitors at Dalmeny Park, will find the S. O. S. are awkward customers to deal with when wearing the "clean rompers." One could do worse than look in at this fixture.

Sons of England tackle Lachine on Grand Trunk grounds, and will find a hard nut to crack.

Valleyfield pay their first 1913 visit to Montreal and journey to Angus shops to meet C. P. R. It is to be hoped a big turn out of spectators will be on hand if only out of compliment to the visitors.

All the Second Division clubs will be on view, notably the first appearance at home of the new Shamrocks. It is many years since Shamrocks had a set of team and each members could fill in an entertaining afternoon in watching their new acquisitions against Jenkins. The fare should taste of the best.

Something will be doing on Cote St. Paul when Overseas appear to "Parkdale" for points.

Other games in the department are almost of equal interest, and certainly to themselves of equal importance.

The Third Division will turn out to do their little bit and some of them will do it remarkably well.

Loose team against Sons of Scotland will be: Harvey, Collins, Rose, Inglis, Armour, Patterson, Tweed, D. McKay, Brand, Fairbairn and Sellers. Some left wing.

La Salle will be represented by: Wilson, Stafford, Cameron, Gray, Flannigan, Lloyd, Hollingsworth, Dennis, Elton White and Merry.

Sons of England: Taylor, Storey, Rae, Davis, Garrett, Emery, Richards, Feather, Rozell, F. Evernden and J. T. Taylor. Reserves: Woodall, J. Davis and Moran.

Corinths, the prolific scorers will have: Maher, Biggs, Brown, Ravenhill, Russell, Hall, Harrowing, Young, Burton, Webber, J. Russell. Hall on this team, is the prominent M. A. A. A. boxer.

Alcos Versus Maisonneuve.

Maisonneuve's team to meet Alcos at Longue Pointe to-morrow at 3.15 p.m. will be as follows:—Philips, F. Smith, Myers, O. Beake, Dagis, Dual, Reynard Bowers, F. Beake, T. Whibley and Morrison. Reserve: McHugh, Walker, Brooks and A. Smith.

Royal Rovers at Fairmount, Saturday. Team from Dominion Park, R. Kneff (c), Pugsley, Rovers' team: Wright, Freeland, Grant, Lamb, Burrows and Sheets. Wednesday: King, M. Ferguson, Rovers' Reserve: Symons, Yeomans, Hunter, corner of Papineau and Mount Royal avenues at 2.30 p.m. prompt.

Some fine Horseflesh on view

Disqualifications are furnishing surprises and in many cases keen disappointment in some of the classes at the Montreal Horse Show. When four tandems drove on to the tan bark last night in the over 15 hands 2 inches class the gates were ordered opened again for Mr. E. A. Robert's Princess Louise and Princess. The keen eye of the veterinarian had detected a sight lameness in the leader. Again in the pairs in harness, 15 hands 2 inches and under, four of the entries were quickly eliminated for various reasons.

The Hon. Clifford Sifton rode some of his own jumpers at both afternoon and evening performances yesterday. In the evening he took Dorchester, Paddy and The Viceroy over the fences making a good showing in the Corinthian class, but Lieut. Sifton, riding Elmhurst and Cleveland, of the Sifton stable, won the class with the former. Fifty-three horses were entered in this class, and were judged for conformation yesterday morning, thirty-seven appearing to negotiate the jumps in the evening.

Judging Continued Late.

The judges experienced some difficulty in arriving at their decision and, though it was near midnight, one of the fences was raised slightly and seven of the best were sent over them once again. Elmhurst won first and Captain Rodden's Lord Minto and Riley were given second and highly recommended respectively while Jap of the Sunnybrook Farm was adjudged worthy of third place. There were no accidents and the jumping was beautiful to watch.

Mrs. J. A. McSloy's win with Confidante in the combination saddle and harness class last evening proved popular and Captain Rodden's Blue Mouse won second. This same entry also took second place in the ladies' saddle class for local horses, Mr. D. Lorne McGibbon' Vavara being awarded the blue ribbon. Captain Rodden's Miss Dainty followed her stable companion's lead taking third. Miss Blumenthal rode Glenmore in fine style and was rewarded with the fourth ribbon.

The cab horses opened the programme last evening, turnouts from the Ritz-Carlton service taking first, second and fourth places, the only other competitor being Robert Smith with Heather Lad.

Some Circus Stunts.

The western horses furnished some unique entertainment early in the evening, when the officers' chargers were called out. Lieut. Critchley put his horse Rainbow through some tricks that delighted the audience. Capt. W. T. Rodden's King Cole, ridden by Capt. Shirley, was adjudged the pick of the six shown.

The attendance last night was larger than on the previous evening. The Lieutant-Governor of Quebec was again in attendance.

PRESIDENT OF THE AMATEUR ATHLETIC UNION MET PRESIDENT OF THE DOMINION FOOTBALL UNION

A Working Basis in Regard to Amateurs—D. F. A., However, Only Controlling Body of Soccer in Canada.

Dr. Fred. J. Tees, President of the Amateur Athletic Union and Fred. A. Barter, President of the Dominion of Canada Football Association, met yesterday afternoon at the house of the former to discuss the articles of alliance between the Athletic Union and the D. F. A., was the first occasion on which the two presidents had met and endeavoured to arrive at a mutual understanding of the controversial points.

Yesterday's Conference.

The conference yesterday certainly cleared the air of a good many rumors and unofficial statements that had been permitted to gain currency since the last annual meeting of the A. A. U. of C.

It seems that all the trouble has arisen from the different interpretations of certain sections of the articles of alliance agreed to May 24th, 1912. Certainly, these articles of alliance connected to the playing by clubs affiliated with the D. F. A. against any club affiliated with any association, a member of the Federation Internationale. Such was the aim and intent of the D. F. A. in signing said articles, but the A. A. U. claim, that having due and proper regard for their own rules and constitution they, the A. A. U., could not, and would not, assent to any understanding whereby amateurs could play with or against professionals.

The Pro. Question.

On his return from England in February last, Mr. Barter stated that he had secured a promise from the home football authorities of professional teams to tour Canada, and this statement created the intimation from the A. A. U. that unless affiliated with that body would not be permitted to play against such touring professional teams. Now the D. F. A. is paramount in all matters pertaining to Association football in Canada. Dr. Fred. Tees himself says there is no question of this, and also adds that the A. A. U. has neither desire nor aim to be an "Soccer" and as far as sixty per cent. of its players are concerned, can afford to ignore the A. A. U. of C. the governing soccer body has its duty to observe towards the other forty per cent. of its players, and it was in regard to this same forty per cent. that President Barter sought the interview with Dr. Tees. Not only that, the action of the A. A. U. had compelled the holding back of certain clubs throughout Canada that desired to enter for the Connaught Cup, but while the disagreement between the A. A. U. had compelled the holding back of certain clubs throughout Canada that desired to enter for the Connaught Cup, but while the disagreement between the A. A. U. and D. F. A. lasted were prevented from so doing.

Some Weighty Matters.

The question of Association football players and clubs and associations affiliated with the A. A. U. of C., as well as the all important matter of the Connaught Cup, weighed very heavily with Mr. Barter, and at the conference between him and Dr. Tees a provisional armistice was arranged and the disabilities of players removed.

The terms of the armistice are these. The D. F. A., through its president, will refrain from inviting any old Country professional team to Canada this year, and will not sanction the playing of any games between its affiliated clubs and the professional clubs at present in Canada; in short, the whole matter of the articles of alliance will be referred to the annual general meeting to be held in September next. For its part the A. A. U. of C. consent to permit its affiliated associates to participate in the Connaught Cup competition for this year, and will leave the articles of alliance in abeyance until the next annual meeting, when they shall form the subject of debate and the D. F. A. together with all other athletic organizations in Canada shall have ample and adequate opportunity to discuss them.

Some With Difference.

These leave the soccer situation, according to Mr. Barter, as it was a year ago with these differences, the D. F. A. is the one, and only one, body governing soccer in Canada, its affiliated amateurs are, and will be recognized by the A. A. U. of C. and will be permitted to engage as amateurs. In any sports, athletics or games under the jurisdiction of the A. A. U. of C. and the latter body will leave to the D. F. A. all that lies in its power to promote amateur association football in Canada. During the course of their conference Dr. Tees told Mr. Barter, "Believe me, the Amateur Athletic Union has absolutely no desire to interfere with or govern soccer and its players. All we desire is an amateur governing body that will work along lines similar to our own and respect our amateur principles and the reasons for them."

This assurance will go a long way towards closing the breach that threatened and will do a lot towards removing the opinion widely current that the A. A. U. desired to "butt in" and relieve the D. F. A. of its charge.

Asked by Mr. Barter if he, Dr. Tees, thought there was any change of the A. A. U. amateur definition being amended or modified at its next annual meeting the latter said: "I think not, in fact I know there is very little chance of any change, but if the concensus of opinion found any alteration towards the end you look and hope for then a change would certainly have to be made."

Dr. Tees further said that in his opinion the idea of an amateur body governing professional football was ideal and would work for the good of the game as a game, but he would not permit any mingling of amateurs with pros.

The A. A. U. of C. official announcement on yesterday's conference may be expected during the next few days.

Hadie Collins is only hitting about .490. Get back!

ANOTHER SHAMROCK MAN SIGNED

Irish-Canadians Have Secured McIntyre, Also Have Munday With Them Again.

The Irish Canadiens expect to have their team completed to-morrow.

Denny Munday, who has been a hold out from last year, has finally come into the fold, and thanks to the connection of Kavanagh with the team, and other influence McIntyre, one of the bright stars of the Shamrock N. L. U. team, has also signed up with Mr. Kennedy's crowd.

The first practice will be held on Monday next at the Mascotte grounds, which has been put in excellent shape, and will soon boast of a fine grand stand.

CARPET BOWLS

The First Twelve Ends of the Finals.

The first twelve ends of the final games in connection with the Sons of Scotland carpet bowling trophy were played on Camp McKenzie carpet between Camp Mount Stephen and Camp St. Andrews.

Result as follows:

Mount Stephen.	St. Andrews.
Geo. Dodds	Alex. Burnie
Jas. Paterson	John Howatt
Gavin Edmonston	Dugald Campbell
T. H. McAthey (skip)	Alex. Stephen. (skip)
16 shots	12 shots

The final twelve ends will be played on Falls o' Clyde carpet on Monday 19th inst., and it is hoped that all members of the society will make an effort to be present.

PRO. SOCCER

At 3.15 p.m. to-morrow the Interprovincial Football Association will usher in the professional soccer season at Mascotte Park. Mr. Aubrey Spencer will kick off with the Toronto F. C. team and the Montreal City eleven lined up on either side of the leather. Night and day, workmen have been busy at Mascotte Park getting everything in shape for the opening and the bleachers, providing seating accommodation for two thousand fans have been completed.

On the Toronto team will be eight of the former players on the famous Baracas aggregation and they have been sized up as a strong team. Opposing them will be the Montreal City team, the members of which have ben practising hard for weeks past.

The local team will be chosen from the following players, Wilson, Sheldon, Fleming, Crossans, McMillan, Collyer, Bell, G. Fleming, Dougall, Leitch, Anderson, Chappleton and Robertson. W. D. Moore will referee.

GOLF DATES FOR COUNTRY CLUB FIXED

They Will Start on Victoria Day and Finish September 20th.

Following are the Country Club of Montreal golf fixtures for 1913:

May 24—Stroke competition, handicap; two prizes.

May 31—Monthly competition, handicap.

June 7—Qualifying round president's Cup.

June 14—Match with Beaconsfield.

June 21—Montreal and district championships.

June 28—Monthly stroke competition, handicap.

July 1—Bogey competition.

July 5—First round President's Cup.

July 5—Canadian championships at Toronto.

July 2—Second round President's Cup.

July 9—Semi-final President's Cup.

July 26—Monthly stroke competition.

August 2—Final President's Cup.

August 9—Qualifying round Godfrey Bird Cup.

August 16—First round Godfrey Bird Cup.

August 23—Semi-final Godfrey Bird Cup.

August 30—Monthly stroke competition.

September 1—Club championships.

September 1—Driving, approaching and putting competition.

September 6—Special cup for teams of four from any club.

September 13—Final Godfrey Bird Cup.

September 20—Final Fraser Cup.

MORE ROYALS WILL BE FARMED OUT.

Batten, Betcher and McGovern are the next of the Royals who will probably shake the dust of Montreal from their feet very shortly. Mr. Lichtenhein and Mr. Bransfield have decided they need more experience, and an effort is being made to farm them out.

Notes of the Game

First victory in four games.

Newark to-morrow and Mattern will be on the mound for the Royals.

McGraner lived up to the good things that have been said about him.

With Griggs on first and Cunningham back on second the infield has taken on a business-like appearance again.

Demmitt took three hearty clouts at the pill yesterday, his first big swing coming in the fourth, when, with Gilhooly at first, he clouted one over the right field fence.

In the fifth inning again Ray rapped one out to the fence, but Platte grabbed it by a clever catch.

McIntyre robbed Griggs of a triple in the second innings when he went away back in left centre and pulled down what looked like a big hit.

Gilhooly had three hits in four times up.

Spalding Manufacturers.

The Spalding Manufacturers Baseball League opens to-morrow with big things anticipated and six clubs engaged. The first game, which starts at 2.15 takes place on Viau Park, Maisonneuve, between Northern Electric and Canadian Steel. The batteries will be: Moran and Moffat, Northern, Bellegreron and St. Martin, Canadian Steel.

On the same diamond the Phillips Electric Co., and James McCready Co. follow at 4 o'clock. The third game will be played between C. P. R. and United Shoe, on the latter's ground.

GOLFING FIXTURES OF THE B. G. C.

Season at Beaconsfield Opens on May 24th With Handicap Medal Play.

The fixtures for the Beaconsfield Golf Club for this season were announced this morning, the schedule opening on May 24th. The dates are as follows:

May 31—Match with Royal Ottawa Golf Club at Ottawa.

June 14—Match with Country Club of Montreal on both courses.

June 21—Montreal and district championships at Beaconsfield; 36 holes medal play.

July 1—Dominion championships at Toronto Golf Club.

July 19—Bogey competition, 18 holes, handicap, for pewter.

September 1—Match with Lambton Golf Club at Beaconsfield.

September 6—Home and home match with Outremont Golf Club.

September 13—Match with Royal Montreal, home and home.

September 20—First round club championships.

October 4—Foursome competition; medal play, 18 holes.

INVESTIGATE

Ban Johnson Will Look Into Fight.

Chicago, May 9.—President Johnson of the American League last night ordered an investigation of the fist fight between players of the Boston and Cleveland clubs at Cleveland on Wednesday afternoon. He sent a message of inquiry to Umpire Connolly, who replied that he knew nothing about the occurrence except what he had read in the newspapers.

President Johnson then instructed the umpire to immediately ascertain the facts.

At the invitation of President Comiskey of the Chicago Americans, Mr. Johnson has promised to accompany the White Sox and the New York Nationals on their world tour next winter.

Montreal Field Hockey Association.

A game will be played to-morrow afternoon at 3 o'clock on the High School field, next to Windsor Park, Notre Dame de Grace. Players will catch the 2.45 car without fail.

Various Classes Will Take Part in Programme.

A gymnastic exhibition will be held in the Central Y.M.C.A., Friday evening, May 16, closing for the spring term of the gymnasium classes. An interesting programme of heavy gymnastics, drills, games and contests has been arranged and a basketball match between the Britts and Leaders will bring the entertainment to a close.

The following classes will take part in the exhibition to which the public is cordially invited. Admission to be by ticket only. Senior school boys, junior business boys, senior business boys, men's evening class and the senior Leader's Corps. The programme:

Marching—Senior Leaders.
Clubs—Evening Class.
Jumping Jacks—Senior Leaders.
Wand Drill—Boys.
Dancing:
a. Irish Lilt.
b. Schottische—Senior Leaders.
Heavy Gymnastics—All.
Games and Contests—Boys.
Dutch Dance—Special.
Basketball Game—Britts vs. Leaders.

B. C. Man Expelled.

New York, May 9.—At the closing session of the Board of Review of the National Trotting Association, R. C. Ireland, of Killowna, B. C., was expelled for racing "Nettie Powers" under the name of "Keetha." Frank Carroll, who acted as flagman at Hartford, Conn., races last September, was expelled for making a false report to the judges.

Cazeaux in New York.

New York, May 9.—George Lurich, the Russian heavyweight wrestler, quit in his catch-as-catch-can match, two out of three falls, with Raymond Cazeaux of Bordeaux, here. After twenty minutes aggressive work by Cazeaux, he turned Lurich over almost to a fall from a toe hold. Lurich limped out of the ring, saying his foot was injured and that he could not continue.

In another match to a fall, Constant Le Marin, of France, threw Paul Samson, of Germany, with a reverse body hold in fifty-four minutes.

PATON TROPHY

Only Officials at the Competition

A meeting of the representatives of the competitors for the Paton Trophy was held in the M.A.A.A. club house last evening, when the draw for places resulted as follows:

1.—7.30 p.m. — St. Patrick's, Sergt. Major J. Sharpe.
2.—7.55 p.m.— Lower Canada College, Capt. Geo. Thomas.
3.—8.20 p.m.— St. Laurent, Captain H. T. Scott.
4.—8.45 p.m.— M.A.A.A., Major J. Long.
5.—9.10 p.m.—Mt. St. Louis, Sergt.-Major Charlton.
6.—9.35 p.m.— La Casquette, R. Lefebvre.

As there appeared to be a doubt in the minds of some of the representatives as to the eligibility, under the Olympic rules, of two teams representing the same college or association, the M. A. A. A. decided to withdraw their junior team.

Owing to the lack of space for spectators only members of the competing teams and their officials can be accommodated with tickets of admission.

LACROSSE

Special to The Montreal Star.

Cornwall, Ont., May 9.—Following a promise made by President Cavanagh, of the C. L. C., at the public meeting this week, the executive of the Cornwall Lacrosse Club has decided to introduce new arrangements regarding this season's matches. It has been decided that in future, a membership ticket will entitle the holder to admission for two ladies and a gentleman or three ladies, instead of a lady and gentleman, or two ladies, as has heretofore existed. The price of grand stand tickets will be reduced this year to 50 and 35 cents, instead of 75 and 50 cents.

The grounds are being rolled and the grass cut and the team will turn out for its initial practice on Saturday to prepare for the opening match with the St. Thomas Aquinas team on June 7th. It is hoped that these changes will result in an increased attendance, and the creating of a deeper interest in the game.

FINE HEAVING BY McGRAYNOR AND DEMMITT'S FOUR SACKER WON FIRST HOME GAME YESTERDAY

The chilly winds that blew over the ballyard yesterday p.m. became gentle zephyrs by the time the free and independent electors, occupying the expensive pews, pulled a succulent (i.e., juicy) victory out of them.

The wintry winds may blow as long as the breeze—artists performing aloft see fit, so long as they bring gladness to our young breasts, as they did on Thursday.

It is always fair weather when Mr. K. Bransfield and his peerless athletes sink the hook into the hated foe.

Yesterday's combat was much more to our liking than the three previous combats, take it from us.

To Pitcher McGranor the freedom of the City of Montreal will be presented (Acting Mayor Martin permitting)—If he continues his work of yesterday the freedom of Lachine will be added.

In order not to keep the ignorant and unenlightened in suspense (i.e., on the pegs), we rise at the outset to remark gently that the forces of Mr. W. B. (Wild Bill) Donavon did the wayside stunt yesterday p.m., and as a direct result, there is joy and thanksgiving in our fair midst.

The following eloquent details sing the glad song:—

Pan-Patters	
Our Gallant Host	3
Providence Pirates	1

The fact that Mr. K. Bransfield's forces perforated the score-board three times to the enemy's single hole-punching, gives us the undisputed right to let joy be unconfined after our recent distress.

We have a lot of stuff of this kind we should like to work off our separate and distinct systems, as we are on the long side of the gladness market.

Mr. K. Bransfield can make the hit of his proud career, if he will only find a market for our produce in this respect.

McGRAYNOR WAS THERE WITH THE GOODS.

That we are intoning (i.e., spieling out) a poem (i.e., glad ballad) of thanksgiving is due to the endeavors of a skilled hurler on our pay-roll, of the name of Mr. M. McGraynor, and to the prowess (i.e., strong punch) of Mr. R. Demmitt.

Messrs. M. McGraynor and R. Demmitt will please accept this vote of thanks, passed unanimously by an overwhelming majority.

The joyful news broke in the fourth session, when Mr. P. Gilhooley pushed the hickory on a slant of the opposing hurler, Mr. Reisigl (pronounced "Tricycle," with one of the wheels left out), and beat it to the first station in safety of life and limb.

Then Mr. Demmitt plastered a few layers of dust on his hooks and walted for another one in the alley.

Mr. Reisigl (mentioned above) produced the goods and the gallant Mr. R. Demmitt walloped it on the proboscis (i.e., snout), sending the pill over the right field fence for the first home run we have worked off our chests this year.

Prior to the wedding bells of Mr. W. Allen (the fond lover), Mr. R. Demmitt had been wearing a spot smooth on the bench, but broke into the zone of action on Wednesday with a burning desire to dislocate the globule on the convenient occasion.

There was a favorable opening in the music yesterday, so Mr. R. Demmitt realized the ardent (i.e., warm) wish of his young heart, and went the entire distance on the swat, sending our Mr. P. Gilhooley across the pan ahead of him.

Another pair of pedals tripped across the platter in this act on pastes, by Mr. A. Griggs, who looked after Light No. 1 yesterday, and Mr. J. Yeager(the great table-finisher).

This extinguished endeavor on the part of Mr. K. Bransfield's artists made our cause look suspiciously like the following.

Our Seamen	3
Visiting Deckhands	0

A DISASTER TO MR. B. PURTELL.

There might have been more joy in the following session, but for bone-tipped work on the part of Mr. B. Purtell. This athlete, after swatting the pill and reaching the first port in safety, let down his steam, drifted off from the wharf where he was stationed, and was sunk in mid-stream by the enemy's flotilla.

When Mr. B. Purtell wants to let his fires out again, it is to be hoped he

To Home-Run Demmitt the first vacancy on the Police Force and a case of Frisco will be presented by Mr. Roberts on behalf of a grateful public.

will get his hook ready to anchor him near a harbor of safety, instead of floating abroad in hostile waters, with both the port and starboard engines out of going order.

The disaster Mr. B. Purtell pulled on himself, put a kink in what might have been a juicy session for our cause, as things transpired (i.e., were pulled off) later that made a noise like something doing.

Our hickory-workers hammered the pill for nine (9) swats that eluded the activity of the enemy, and, altogether, looked like a real ball force.

Seven bingles were all Mr. W. B. (Wild Bill) Donavon's brigands could pinch, owing to the skillful heaving of Mr. M. McGraynor (mentioned above at great length). In addition to this, the swats gathered by the hated foe were about as closely connected as pay-days in St. Vincent de Paul for the lock-step brigade.

One trip across the finishing line was the best the opposing interests could push over, although the clouds hovered (ie., stuck around) our cause on several occasions.

KITTY BRANSFIELD WORE HIS UNIFORM.

It is shrewdly suspected by one and all alike, however, that Mr. K. Bransfield left the trouble we have been afflicted with recently in his store clothes in the club-house wardrobe.

It is pleasing to note that the gifted leader hung on a real ball robe yesterday, and appeared in full view of the amazed electors in full battle array.

If Mr. K. Bransfield will only get the aforesaid togs all over coaching line real estate, there will be great satisfaction and profound happiness in the expensive pews at the ballyard.

There will be no combat pulled off to-day, so the free and independent electors may attend to their respective duties in other walks of life. To-morrow at 3 p.m. (Greenwich Time) our forces will give battle to the Newark, N.J., outfit.

Mr. J. Yeager (the great table-finisher) says he has a hunch that our athletes will push across a flock of wins in the next few days.

If the gifted third-sacker is a good dopester, there are bright days in store for us still.

Mr. J. Yeager, however, has been known to deal in some poor dope in the past, but we prefer to cherish the fond hope that he is calling it right this time.

The glad tidings of yesterday's struggle with the forces of darkness are given herewith:

AT POLO

U. S. Crack Seriously Hurt in Practice.

New York, May 9.—Devereux Milburn, a member of the winning American polo team of two years ago, was seriously injured in a practice game on the field of the Rockway Hunt Club. Milburn had just executed a remarkably clever backhand stop preventing a goal, after a wild dash from the centre of the field, and was unable to check his pony, which dashed past the goal and fell. Milburn was unable to get out of reach of the animal's hoofs and was kicked in the face and chest.

Other members of the two practice teams—the Whites and Blues—composed of aspirants for places on the team which is to defend America's title to the international challenge polo cup, rushed to Milburn's assistance. He was unconscious, but was soon revived on being removed to the club house. Physicians found he was not internally injured and that he might be able to resume his place in the practice matches on Sunday.

Besides his Schaefer-Altrock show Griffith carries quite a gifty and shifty ball club.

THE RING

Willard Trains With Five Men for Fight.

San Francisco, May 9.—In preparation for the 20-round bout scheduled for May 17, Jess Willard has five men at his training quarters as sparring partners, while "Gunboat" Smith has so far been obliged to content himself with the services of only Bob Armstrong. But even this, the fight fans say, does not explain what moved the ex-Sailor to send to Jim Jeffries this telegram: "Do you want to come north and act as my sparring partner? Answer immediately." The winner of the Smith-Willard fight probably will be matched with Luther McCarty for July 4.

Pardello Lost.

Quebec, May 9.—The wrestling match here between Zbysco and Pardello was very one-sided and caused great dissatisfaction among the spectators. Pardello was no match for Zbysco, who took two straight falls in about twenty minutes.

Hats that Lead in Fashion

Our business is selling hats—hats only. But our business does not consist in simply buying hats wholesale, putting a price on them and offering them to our patrons.

Now our business consists in more than that. The real task is to study the trend of fashion. We know months beforehand what will be worn by the particular men in New York and London.

This is why the Jess Applegath hat always leads in style. Hats now showing in our store are exactly what other business houses will have later on.

Another triumph for our "Black Cat" Cigarettes, and we ask you to share with us the pride and the profits that it brings

When a house has striven long and earnestly to make its product the best and to keep every faith with its patrons, a certain amount of pride and a certain amount of boasting is surely pardonable.

We are proud of our "Black Cat" Cigarettes. We do boast about their flavour and purity.

That is why we now tell you, our patrons, of the unusual distinction which scientific investigation has given to "Black Cat" Cigarettes.

And we ask you to share with us this distinction—both the pride and the profits.

PROBLEM OF THOSE MENTALLY WEAK IS A DIFFICULT ONE

National Council of Women Hears What Results Have Been Accomplished Elsewhere.

MONTREAL HAS GREAT NUMBER IN MIDST

Convention Comes to a Close With Election of Former Officers—Day's Business.

The National Council of Women brought their annual Congress to a close last night with a public meeting in which the subject for consideration was "The Care of the Feeble-minded." The chief speaker was Dr. Alex. Johnson, of Vineland, New Jersey, a director of the institution for the treatment of feeble-minded people.

Dr. Johnson interested a large audience with the description of the various grades of feeble-minded, the tests that were applied in dealing with them, their general characteristics, the method of treatment, and showed a series of pictures upon the screen indicating the effect heredity has upon the species, and how from a single weak-minded individual a whole family of decadents springs. He described in detail and illustrated with slides the series of tests known as the Binet tests, so named after Dr. Binet, the distinguished French scientist, and he mentioned that not only had these been adopted at Vineland, but they were being experimented with in New York by the immigration authorities.

Particularly, Dr. Johnson drew attention to the urgent economic and racial need there is that this question of the feeble-minded should be seriously tackled by the State, and that many of these unfortunates, if properly handled, could not only be made self-supporting, but would actually become profitable.

Is On the Increase.

Mental defectiveness, he said, is increasing rapidly, and is the most dreadful menace we have. There is no other social problem, whether connected with labor, temperance, vice in all forms, crime or insanity, which is not closely allied with this great defect.

The mentally defective person is always a child mentally. No matter what the age. He had given evidence before the British Royal Commission and now as the result of the labors of that Commission almost every child in the British public schools was medically tested.

At Vineland the inmates are taught physical exercises, basket work, carpentry, shoe-mending. The making and mending of clothes and school gardens formed an important feature. More than half the imbeciles, given the right direction and care, can be made self-supporting. They had at Vineland 500 acres of land suitable for fruit growing, and this when cleared and cultivated by those capable, would be worth $500 per acre instead of $5. The State needed to take this work in hand and it became a question whether in addition to segregating the patients they would not have to apply energy, and sterilize them.

Many in Montreal.

Prof. Derick said that for many years they had been almost overborne with the problems they had been trying to solve. They had from 2000 to 2500 feeble-minded people in Montreal, and 20,000 would be a conservative estimate for the Dominion. For 20 years the National Council had been trying to get this problem taken up, and the evidences of the last three or four months indicated that a material change in public sentiment was taking place.

Dr. Russell agreed that this question was an all-important one for the Dominion and ventured the assertion that the employment of an expert psychologist by the Government would pay ten or even a hundred times over.

Dr. H. Simms said the Education Department of the London County Council had recently appointed a psychologist to examine defective children; and certainly this city needed a hospital in which people suffering from mental disease could be cared for.

Dr. Monday and Mr. Rufus Smith, Secretary of the Charity Organization Society, also spoke, and at the close a vote of thanks was tendered to Dr. Johnson.

Officers Elected.

At a private session yesterday afternoon the National Council devoted themselves to the election of officers for the ensuing year, and resolved that next year's congress should assemble at Kingston, Ontario, in September.

The Duchess of Connaught was elected honorary vice-president on the International Council, for Canada, and Canada's nomination for the International presidency is the Countess of Aberdeen, while Mrs. Sanford, of Hamilton, is again nominated for the treasurership.

Mrs. Adam Shortt, of Ottawa, was elected vice-president for Ontario, and Mrs. E. Burton, of Toronto, was appointed convener of the committee on Equal Moral Standard, in place of Mrs. Asa Gordon, who retired. Mrs. Torrington, president; Mrs. Willoughby Cummings, corresponding secretary, and the rest of the officers were re-appointed without change.

Mrs. Macnaughton, of Montreal, was appointed convener of the new Standing Committee on Fine Arts, and Mrs. Peter McNaughton, Vancouver, was elected in the same capacity for the new committee for Conservation of Natural Resources.

Greetings to the Duke.

The Council decided to send greetings to the Duke of Connaught by cable as follows:

"National Council of Women of Canada in session respectfully expresses its earnest hope for the complete recovery of its honorary president."

To Lady Aberdeen, who was virtually the founder of the National Council of Women and who has ever taken a deep and abiding interest in its work, the delegates also cabled greetings, using the significant watchword which her ladyship herself designated, "Altioe."

DELEGATES NOW ON WAY TO EUROPE

For all practical purposes the Congress of the National Council of Women closed last night, and a large number of delegates left for their homes.

To-day Mrs. Sanford, of Hamilton, leaves Montreal for Europe to take part in the work of the executive committee of the International Council shortly to assemble at the Hague; while to-morrow, Mrs. Torrington, Mrs. Willoughby Cummings, Mrs. Courtice and Mrs. Campbell, the other members, will sail for the same destination on the Majestic from New York.

WARNED ROBERT HALIFAX WOULD NOT STAND BILL

Mr. Blackadar, Director of Halifax Tramways Company, Gives His Opinion.

The fact that the citizens of Halifax have risen to defeat the Robert Bill in the Legislature is a matter of keen interest to C. C. Blackader, of Halifax, who is at the Ritz-Carlton Hotel to-day.

Mr. Blackader, was one of the directors of the Halifax Tramways in the old regime, and speaking to a representative of The Star, said, he had warned E. A. Robert that the people of Halifax would come forward as soon as the Montreal interests introduced any measure that would be a disadvantage to the city.

His Parting Shot.

"This was my parting shot," Mr. Blackader said, "after Mr. Robert's resolution was adopted, to the effect that a new board of directors should be appointed, I was one of the directors beheaded. So it gives me considerable pleasure to see that the citizens appreciate that the old board of directors were working in the interests of the city."

Speaking of the present situation, Mr. Blackader said it was regrettable that the city had not taken over the system and operated it by a Tramways Commission.

Mr. Blackader is returning to Halifax after visiting Vancouver and other western cities. He draws interesting comparisons between the east and the west. The latter, he says, is found wanting.

"The only place to live in comfort is a place where mixed farming rules. I think it deplorable in a country like Western Canada to depend on cold storage meats and Australian butter. Seemingly the average western farmer thinks of nothing but quick profits."

Faces Trial for Murder.

Calgary, Alta., May 9.—Joseph Dionne, a native of Montreal, was yesterday committed for trial by Magistrate Sanders on the charge of murdering little five-year-old Justine Frick in his shack in Riverside on Monday evening.

STRONGLY ADVISES "FRUIT-A-TIVES"

Because They Cured Him, and They Will Cure You.

MR. ALEX. McCARTER

Walkerton, Ont., May 9, 1911.

"I have been in Walkerton in business for a good many years, and many of my townsmen know that my health, for long periods was precarious. My trouble was extreme Nervousness, brought on by Indigestion and Dyspepsia, from which I suffered in the most severe form. It was so bad that I could not sleep before about four in the morning. I noticed one of your published testimonials of how someone had used "Fruit-a-tives" for similar trouble and asked Mr. Hunter, my druggist, his opinion on the matter, and he advised their use. I immediately procured several boxes and I am pleased to say that I now enjoy splendid health and could not possibly feel better. I can eat with every degree of satisfaction and sleep without an effort. I strongly advise anyone suffering like complaints to commence using "Fruit-a-tives." ALEX. McCARTER.

GURNEY-OXFORD

A Serviceable Range

This is the big "double-oven" type of gas range that meets every requirement in daintier cooking.

A perfect system of double circulation evenly heats both ovens. These ovens are constructed with double-lined deep doors that prevent loss of heat, that have no springs to go out of order, and that close by a counter-balancing device.

There is sufficient space on each oven-rack for four 9 inch pie plates.

The solid one-piece steel top without shaky shelves has 5 inch larger cooking surface each way than other ranges.

All parts can be lifted out by hand and thoroughly cleaned—a wonderful sanitary arrangement.

Any of the firms below will gladly point out to you the exclusive features of this range that bakes to perfection and lasts a lifetime.

FAVOR GOVERNMENT CONTROL OF COLD STORAGE SYSTEM

Ottawa, May 9.—In the Senate last night, Senator Taylor moved the second reading of a Bill to regulate the keeping of food in cold storage. It limited the time various articles of food which might be left in cold storage, and the condition in which they shall be kept. Senator Taylor thought the time has arrived when cold storage should be placed under strict government control.

Senator Derbyshire said the development of the cold storage route for export had increased the value of Canadian butter and cheese by from two to three cents in the London market. In Canada cold storage had increased the price farmers got for their products, and at the same time had reduced the cost of food to the consumer.

Senator Coffey thought consumers would be surprised to learn that cold storage had benefitted them.

Sir George Ross said his observation led him to the conclusion that cold storage tended to produce monopoly in food products, which had a good deal to do with the increased cost of living.

The Bill was given second reading and referred to committee.

The Government Bill to regulate wireless telegraphy was given second reading on motion of the Hon. Mr. Lougheed. He explained that the growth of wireless systems had shown the need of such a law as this, which would enable the Government to control wireless operators and wireless stations. It was, Mr. Lougheed said, interesting to know that Canada had thirty-seven Government wireless stations, which was more than any other country in the world owned.

Second reading was given the bill confirming the West Indian trade agreement.

Hon. Mr. Lougheed pointed out that advantages should flow to both the West Indies and Canada from this agreement, which provided for more favorable tariff relations and improved steamship service.

Sir George Ross approved of the bill, and hoped that it would prove beneficial, and that it would eventually lead to Jamaica and some other of the West Indian Islands coming into the agreement.

The Hon. Mr. Lougheed, in moving the second reading of the Government Bill voting ten million dollars for agricultural education stated that the Government felt that in no way could money be more profitably spent than in improving farming methods through education.

Sir George Ross approved the principle of the bill, and gave some of his own experiences in promoting agricultural education in Ontario.

Senator Edwards congratulated the Government on the Bill, and recommended care in spending the money. It could be spent so as to produce most beneficial results or it could be wasted.

The Bill was given second reading, and the committee stage fixed for Monday.

Handsome Lakeside Property

The above property is located at POINTE CLAIRE on the Lakeshore. It has an area of about 11,250 square feet and consists of the residence shown above, a boathouse, a stable that can be used as a garage, and tastefully laid out grounds, with apple trees, shrubs, etc.

The house is beautifully situated, commanding an uninterrupted view of the Lake. The ground floor has two kitchens, pantry, drawing room, dining room and two other rooms, also two bedrooms. Upstairs there are six bedrooms, two maids' rooms, sitting room and balcony. The attic is undivided.

Town of Outremont, Que.

NOTICE TO CONTRACTORS

Tenders for the construction of a system of Underground Conduits, Manholes, etc.

Sealed Tenders, addressed to the undersigned Secretary-Treasurer will be received at the Town Hall, Outremont, in the Province of Quebec, until twelve o'clock noon, on the fourteenth day of May, 1913, for the construction of a system of Underground Conduits, Manholes, Laterals, etc., in the Town of Outremont, Que.

Tenders will be considered for the whole, and not for a part only, of the above mentioned works.

Plans and specifications and form of tender may be obtained at the Town Hall, Outremont, Que., any day during office hours. Upon payment of a deposit of one hundred dollars the specifications and a set of plans will be delivered. This amount will be refunded after the receipt of a bona-fide tender and the return of the said plans, specifications and other documents connected therewith.

Each tender must be signed and sealed by all the parties to the tender, and duly witnessed and be accompanied by an accepted cheque on a chartered Bank of the Dominion of Canada, payable at Outremont, to the Secretary-Treasurer, for the sum of five thousand dollars ($5,000), to be increased (if required) before the contract is signed by the successful tenderer, to the full amount of ten per cent (10 per cent.) of the amount of his tender.

The person or firm whose tender is accepted shall, within ten days after the acceptance thereof, sign the contract, specifications and other documents required to be signed, and in any case of the refusal or failure on the part of the person or firm whose tender is accepted, to complete and execute the contract with the Town, the said cheque shall be forfeited to the Secretary-Treasurer as liquidated damages for such refusal or failure, and all contract rights acquired by the acceptance of the tender shall be forfeited.

The cheque deposited by the person or firm whose tender is accepted will be deposited to the credit of the Town of Outremont as security for the due and faithful performance of the contract according to its terms.

The cheque deposited by the person or firm whose tender is rejected will be returned within ten days after the signing of the contract.

The town reserves right to reject any or all tenders.

By order,
E. T. SAMPSON,
Secretary-Treasurer.

HIGH MEDICAL AUTHORITY

"The Journal," the official organ of the American Medical Association, the organization of physicians of the United States, in a recent article lists a number of things the family medicine chest should always contain to be used in emergencies before a physician can arrive. One of the most important in the list is a good whiskey.

The great value of a good whiskey in emergencies has always been recognized by the medical profession. The stimulation afforded by whiskey has many and many a time been the means of saving life. In cases of accident, shock, or acute illness it may mean life or death whether or not you have it on hand.

But the whiskey you use should be good and pure. Duffy's Pure Malt Whiskey is made for the home, the hospital and the sick room. It is solely a medicinal whiskey. It is made from selected grain and the distilling process is carried so far that it exceeds in purity the requirements of the United States Pharmacopoeia. It is the best whiskey for you to have in the house, because it is for medicinal purposes.

Be sure to get Duffy's. Sold in sealed bottles only by druggists, hotels and dealers at $1.25 a bottle. Write our doctors for free advice and a free illustrated medical booklet. The Duffy Malt Whiskey Company, Rochester, N. Y.

PROBLEM OF THOSE MENTALLY WEAK IS A DIFFICULT ONE

National Council of Women Hears What Results Have Been Accomplished Elsewhere.

MONTREAL HAS GREAT NUMBER IN MIDST

Convention Comes to a Close With Election of Former Officers—Day's Business.

The National Council of Women brought their annual Congress to a close last night with a public meeting in which the subject for consideration was "The Care of the Feeble-minded." The chief speaker was Dr. Alex. Johnson, of Vineland, New Jersey, a director of the institution for the treatment of feeble-minded people.

Dr. Johnson interested a large audience with the description of the various grades of feeble-minded, the tests that were applied in dealing with them, their general characteristics, the method of treatment; and showed a series of pictures upon the screen indicating the effect heredity has upon the species, and how from a single weak-minded individual a whole family of decadents springs. He described in detail and illustrated with slides the series of tests known as the Binet tests, so named after Dr. Binet, the distinguished French scientist, and he mentioned that not only had these been adopted at Vineland, but they were being experimented with in New York by the immigration authorities.

Particularly, Dr. Johnson drew attention to the urgent economic and racial need there is that this question of the feeble-minded should be seriously tackled by the State, and that many of these unfortunates, if properly handled, could not only be made self-supporting, but would actually become profitable.

Is On the Increase.

Mental defectiveness, he said, is increasing rapidly, and is the most dreadful menace we have. There is no other social problem, whether connected with labor, temperance, vice in all forms, crime or insanity, which is not closely allied with this great defect.

The mentally defective person is always a child mentally. No matter what the age. He had given evidence before the British Royal Commission and now as the result of the labors of that Commission almost every child in the British public schools was medically tested.

At Vineland the inmates are taught physical exercises, basket work, carpentry, shoe-mending. The making and mending of clothes and school gardens formed an important feature. More than half the imbeciles, given the right direction and care, can be made self-supporting. They had at Vineland 500 acres of land suitable for fruit growing, and this when cleared and cultivated by those capable, would be worth $500 per acre instead of $5. The State needed to take this work in hand and it became a question whether in addition to segregating the patients they would not have to apply energy and sterilize them.

Many in Montreal.

Prof. Derick said that for many years they had been almost overborne with the problems they had been trying to solve. They had from 2000 to 2500 feeble-minded people in Montreal, and 20,000 would be a conservative estimate for the Dominion. For 20 years the National Council had been trying to get this problem taken up, and the evidences of the last three or four months indicated that a material change in public sentiment was taking place.

Dr. Russell agreed that this question was an all-important one for the Dominion and ventured the assertion that the employment of an expert psychologist by the Government would pay ten or even a hundred times over.

Dr. H. Simms said the Education Department of the London County Council had recently appointed a psychologist to examine defective children; and certainly this city needed a hospital in which people suffering from mental disease could be cared for.

Dr. Munday and Mr. Rufus Smith, Secretary of the Charity Organization Society, also spoke, and at the close a vote of thanks was tendered to Dr. Johnson.

Officers Elected.

At a private session yesterday afternoon the National Council devoted themselves to the election of officers for the ensuing year, and resolved that next year's congress should assemble at Kingston, Ontario, in September.

The Duchess of Connaught was elected honorary vice-president on the International Council, for Canada, and Canada's nomination for the International presidency is the Countess of Aberdeen, while Mrs. Sanford, of Hamilton, is again nominated for the treasurership.

Mrs. Adam Shortt, of Ottawa, was elected vice-president for Ontario, and Mrs. E. Burton, of Toronto, was appointed convener of the committee on Equal Moral Standard, in place of Mrs. Asa Gordon, who retired. Mrs. Torrington, president; Mrs. Willoughby Cummings, corresponding secretary, and the rest of the officers were re-appointed without change.

Mrs. Macnaughton, of Montreal, was appointed convener of the new Standing Committee on Fine Arts, and Mrs. Peter McNaughton, Vancouver, was elected in the same capacity for the new committee for Conservation of Natural Resources.

Greetings to the Duke.

The Council decided to send greetings to the Duke of Connaught by cable as follows:

"National Council of Women of Canada in session respectfully expresses its earnest hope for the complete recovery of its honorary president."

To Lady Aberdeen, who was virtually the founder of the National Council of Women and who has ever taken a deep and abiding interest in its work, the delegates also cabled greetings, using the significant watchword which her ladyship herself designated, "Altioe."

London, May 9.—Drs. R. G. Barrie and H. D. Cowper, Toronto, have been admitted to the membership of the Royal College of Surgeons.

DELEGATES NOW ON WAY TO EUROPE.

For all practical purposes the Congress of the National Council of Women closed last night, and a large number of delegates left for their homes.

To-day Mrs. Sanford, of Hamilton, leaves Montreal for Europe to take part in the work of the executive committee of the International Council shortly to assemble at the Hague; while to-morrow, Mrs. Torrington, Mrs. Willoughby Cummings, Mrs. Courtice and Mrs. Campbell, the other members, will sail for the same destination on the Majestic from New York.

WARNED ROBERT HALIFAX WOULD NOT STAND BILL

Mr. Blackadar, Director of Halifax Tramways Company, Gives His Opinion.

The fact that the citizens of Halifax have risen to defeat the Robert Bill in the Legislature is a matter of keen interest to C. C. Blackader, of Halifax, who is at the Ritz-Carlton Hotel to-day.

Mr. Blackader, was one of the directors of the Halifax Tramways in the old regime, and speaking to a representative of The Star, said, he had warned E. A. Robert that the people of Halifax would come forward as soon as the Montreal interests introduced any measure that would be a disadvantage to the city.

His Parting Shot.

"This was my parting shot," Mr. Blackader said, "after Mr. Robert's resolution was adopted, to the effect that a new board of directors should be appointed, I was one of the directors beheaded. So it gives me considerable pleasure to see that the citizens appreciate that the old board of directors were working in the interests of the city."

Speaking of the present situation, Mr. Blackader said it was regrettable that the city had not taken over the system and operated it by a Tramways Commission.

Mr. Blackader is returning to Halifax after visiting Vancouver and other western cities. He draws interesting comparisons between the east and the west. The latter, he says, is found wanting.

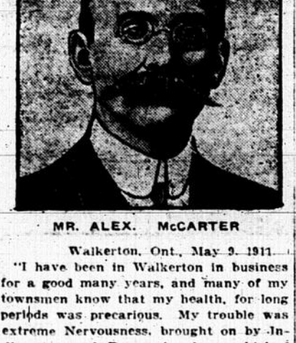

"The only place to live in comfort is a place where mixed farming rules. I think it deplorable in a country like Western Canada to depend on cold storage meats and Australian butter. Seemingly the average western farmer thinks of nothing but quick profits."

Faces Trial for Murder.

STRONGLY ADVISES "FRUIT-A-TIVES"

Because They Cured Him, and They Will Cure You.

MR. ALEX. McCARTER

Walkerton, Ont., May 9, 1911.

"I have been in Walkerton in business for a good many years, and many of my townsmen know that my health, for long periods was precarious. My trouble was extreme Nervousness, brought on by Indigestion and Dyspepsia, from which I suffered in the most severe form. It was so bad that I could not sleep before about four in the morning. I noticed one of your published testimonials of how someone had used "Fruit-a-tives" for similar trouble and asked Mr. Hunter, my druggist, his opinion on the matter, and he advised their use. I immediately procured several boxes and I am pleased to say that I now enjoy splendid health and could not possibly feel better. I can eat with every degree of satisfaction and sleep without an effort. I strongly advise anyone suffering like complaints to commence using "Fruit-a-tives." ALEX. McCARTER.

FAVOR GOVERNMENT CONTROL OF COLD STORAGE SYSTEM

Ottawa, May 9.—In the Senate last night, Senator Taylor moved the second reading of a Bill to regulate the keeping of food in cold storage. It limited the time various articles of food which might be left in cold storage, and the condition in which they shall be kept. Senator Taylor thought the time has arrived when cold storage should be placed under strict government control.

Senator Derbyshire said the development of the cold storage route for export had increased the value of Canadian butter and cheese by from two to three cents in the London market. In Canada cold storage had increased the price farmers got for their products, and at the same time had reduced the cost of food to the consumer.

Senator Coffey thought consumers would be surprised to learn that cold storage had benefitted them.

Sir George Ross said his observation led him to the conclusion that cold storage tended to produce monopoly in food products, which had a good deal to do with the increased cost of living.

The Bill was given second reading, and referred to committee.

The Government Bill to regulate wireless telegraphy was given second reading on motion of the Hon. Mr. Lougheed. He explained that the growth of wireless systems had shown the need of such a law as this, which would enable the Government to control wireless operators and wireless stations. It was, Mr. Lougheed said, interesting to know that Canada had thirty-seven Government wireless stations, which was more than any other country in the world owned.

Second reading was given the bill confirming the West Indian trade agreement.

Hon. Mr. Lougheed pointed out that advantages should flow to both the West Indies and Canada from this agreement, which provided for more favorable tariff relations and improved steamship service.

Sir George Ross approved of the bill, and hoped that it would prove beneficial, and that it would eventually lead to Jamaica and some other of the West Indian Islands coming into the agreement.

The Hon. Mr. Lougheed, in moving the second reading of the Government Bill voting ten million dollars for agricultural education stated that the Government felt that in no way could money be more profitably spent than in improving farming methods through education.

Sir George Ross approved the principle of the bill, and gave some of his own experiences in promoting agricultural education in Ontario.

Senator Edwards congratulated the Government on the Bill, and recommended care in spending the money. It could be spent so as to produce most beneficial results or it could be wasted.

The Bill was given second reading, and the committee stage fixed for Monday.

Handsome Lakeside Property

The above property is located at POINTE CLAIRE on the Lakeshore. It has an area of about 11,250 square feet and consists of the residence shown above, a boathouse, a stable that can be used as a garage, and tastefully laid out grounds, with apple trees, shrubs, etc.

The house is beautifully situated, commanding an uninterrupted view of the Lake. The ground floor has two kitchens, pantry, drawing room, dining room and two other rooms; also two bedrooms. Upstairs there are six bedrooms, two maids' rooms, sitting room and balcony. The attic is undivided.

NOTICE TO CONTRACTORS

Tenders for the construction of a system of Underground Conduits, Manholes, etc.

Sealed Tenders, addressed to the undersigned Secretary-Treasurer will be received at the Town Hall, Outremont, in the Province of Quebec, until twelve o'clock noon, on the fourteenth day of May, 1913, for the construction of a system of Underground Conduits, Manholes, Laterals, etc., in the Town of Outremont, Que.

Tenders will be considered for the whole, and not for a part only, of the above mentioned works.

Plans and specifications and form of tender may be obtained at the Town Hall, Outremont, Que., any day during office hours. Upon payment of a deposit of one hundred dollars the specifications and a set of plans will be delivered. This amount will be refunded after the receipt of a bona-fide tender and the return of the said plans, specifications and other documents connected therewith.

Each tender must be signed and sealed by all the parties to the tender, and duly witnessed and be accompanied by an accepted cheque on a chartered Bank of the Dominion of Canada, payable at Outremont, to the Secretary-Treasurer, for the sum of five thousand dollars ($5,000), to be increased (if required) before the contract is signed by the successful tenderer, to the full amount of ten per cent (10 per cent.) of the amount of his tender.

The person or firm whose tender is accepted shall, within ten days after the acceptance thereof, sign the contract, specifications and other documents required to be signed, and in any case of the refusal or failure on the part of the person or firm whose tender is accepted, to complete and execute the contract with the Town, the said cheque shall be forfeited to the Secretary-Treasurer as liquidated damages for such refusal or failure, and all contract rights acquired by the acceptance of the tender shall be forfeited.

The cheque deposited by the person or firm whose tender is accepted will be deposited to the credit of the Town of Outremont as security for the due and faithful performance of the contract according to its terms.

The cheque deposited by the person or firm whose tender is rejected will be returned within ten days after the signing of the contract.

The town reserves right to reject any or all tenders.

HIGH MEDICAL AUTHORITY

"The Journal," the official organ of the American Medical Association, the organization of physicians of the United States, in a recent article lists a number of things the family medicine chest should always contain to be used in emergencies before a physician can arrive. One of the most important in the list is a good whiskey.

The great value of a good whiskey in emergencies has always been recognized by the medical profession. The stimulation afforded by whiskey has many and many a time been the means of saving life. In cases of accident, shock, or acute illness it may mean life or death whether or not you have it on hand.

But the whiskey you use should be good and pure. Duffy's Pure Malt Whiskey is made for the home, the hospital and the sick room. It is solely a medicinal whiskey. It is made from selected grain and the distilling process is carried so far that it exceeds in purity the requirements of the United States Pharmacopoeia. It is the best whiskey for you to have in the house, because it is for medicinal purposes.

Be sure to get Duffy's. Sold in sealed bottles only by druggists, hotels and dealers at $1.25 a bottle. Write our doctors for free advice and a free illustrated medical booklet. The Duffy Malt Whiskey Company, Rochester, N. Y.

You Will Always Receive "GOOD VALUE" at Ogilvy's

¶ Much has been said about low prices, but low prices mean nothing if the goods are not satisfactory.

¶ Also, much has been said about "Quality," but this, again, is not appreciated if you pay an exorbitant price for it.

¶ The policy of this store is, first, to sell only merchandise of the best quality, that we *know* will give satisfaction, and, second, to sell it at a reasonable price (consistent with the quality), so that it may truthfully be called "good value."

High Grade Whitewear

AT LOWLY PRICES.

Three numbers of our daintiest whitewear—fresh and new from the maker's hands, on sale to-morrow, at prices considerably below the real value.

Non-Fading Wall Papers

The wonderful progress made in the wall paper industry during the last few years can be readily seen by anyone at all familiar with interior decorations. One of the most satisfactory innovations in many years has been the perfecting of wall papers that are absolutely permanent in color. Heretofore even the most expensive of wall papers would lose their beauty and color on exposure to the light, spoiling the effect entirely. The "sun-proof" or "non-fading" wall papers are most reasonable in price, considering their durability and the fact that they retain their original colors even on exposure to the strongest light. They can be had in plain effects or patterned. These and many other decorative novelties at the

Sir Coutts Lindsay Dies.

London, May 9.—Sir Coutts Lindsay, artist and founder of Grosvenor Gallery, where Whistler exhibited, died last night. He was born in 1824.

Child Bitten by Horse.

Sarah Kotchmoroff, 6 years of age, 38 Demontigny street, was badly bitten by a horse harnessed in a cart of the Sicily Asphalt Company yesterday. The horse was at a standstill and unattended when the child passed near. She was taken to the General Hospital, and afterwards was able to be taken home.

UNIVERSITY SETTLEMENT WANTS NEW MILK STATION.

Representations on behalf of the University Settlement were made to the Board of Control yesterday in favor of the establishment of a milk station in the House of Refuge, and a grant for this purpose was requested. The Board promised consideration.

Another delegation also requested attention to the roads in Tetreaultville, Longue Pointe Ward, which are stated to be in a very poor condition.

A petition in favor of the making of a square in front of the General Hospital is to be brought before the Board. The signatures number several hundreds.

McGILL GRADS' SMOKER.

The "smoker" of the graduating class of McGill University, given in the Union last night was replete with humor of all descriptions. The majority of the speeches related to the concluding term of study of those present, and many witty sayings punctuated the addresses.

Dean Adams, of the Faculty of Applied Science, was one of the speakers, and Professor Evans gave some delightfully amusing songs. Other contributors were Mr. Knatchbull Hugessen and Mr. Goodwin. Mr. McEvenue presided.

McGILL EXAMINATION RESULTS

The worries and anxieties of the students of the Faculties of Arts, Law and Science at McGill University, particularly of the students in the final years, are now at rest, for they know their fate, having read the results of the examinations posted up on their respective Faculty notice boards last night.

TWENTY-NINE B. A's.

Twenty nine students in the Faculty of Arts have passed for the degree of B. A.; 17 in the first rank, 10 in the second and 2 in the third rank, with 1 B. Sc. (In Arts). In the fourth year (Graduating Class), the Arts' Gold Medallists are: Dorothy Duff, Edmund P. Dale Harris, Iveson A. Miller and Florence R. MacSween, (Governor General's Gold Medal.)

H. C. G. MARRIOTTI LAW GOLD MEDALLIST.

In the Faculty of Law (third year), H. C. G. Marriotti, B.A., has secured first place, taking the Gold Medal and the prize of $50, while A. H. Elder, B.A., secures an Exhibition and the Junior Bar Prize.

SEVENTY-SIX B. Sc.

In the Faculty of Science, 76 students have passed for the degree of B. Sc., and, from a perusal of the qualifying list, it will be seen that they come from all parts of Canada and the British Empire. P. P. Baily and A. E. Cameron have Fellowships in Mining, while A. B. Clarke, E. Crewsdon, K. de Sola Joseph, C. J. MacDougall, S. J. Murphy and W. G. Wright have secured the British Association Medals and Prizes.

DEFERRED RESULTS.

At midnight, Dean Moyse, busily engaged with his secretary on examination results, stated to a Star representative that it would be absolutely impossible to announce the order of passing of the Arts' students in the various courses till this evening. Dean Walton also stated that the results of the Second and First Years in Law could not be announced "for a day or two yet."

(2) For Course Leading to B.Sc.—Hemming.

SECOND YEAR.

HONORS.

Mathematics and Physics.

Bieler, E. S., First Rank Honors.

Hemming, H. H., (Third Year), First Rank Honors.

Chemistry (B.Sc.)

Warneford, Francis H. S., Fifst Rank Honors.

Physics (B.Sc.)

Moran, James, Second Rank Honors.

Prizes.

Withey, A. N., Nell Stewart Prize.

PASSED THE SECOND YEAR EXAMINATIONS.

(1) Course Leading to B. A.

Class I.—Waterman, Harvey, Purdy, Macoun and Withey.

Class II.—Gillanders, Sutherland, Rexford, Giles, Oughtred, Bennetts, Sperber, Childs, O'Halloran, Burn, Bernstein, Dyke, Beveridge and Boyd.

Class III.—Robertson, Scott, Jess, Levine, Clark, Warriner, Percival, Maclean (s), Murray (s), McNaughton (s), Abott (s), MacLennan (s), Bennett (s), Grease, Bott (s), Upham, (s), McDonald (s) and Wornell (s)) (equal), Cushing (s), Braidwood (s) and Moseley (s) (equal), Hibbard (s), McMullan (s), Fraser (s), Ballantyne (s) and Goldwater C. (s).

(2) Courses Leading to B. Sc.)

Class I.—None.

Class II.—Johnston.

Class II.—None.

(3) Double Course in Arts and Medicine

Class I.—Scriver.

Class II.—Ross.

Class III.—Manning, Bloomberg and Dowd (s).

(4) For the Diploma of Commerce.

Class I.—None.

Class II.—Young.

Class III.—Cohen.

(s) Supplemental in one subject.

FIRST YEAR.

ADVANCED SECTION IN MATHEMATICS.

Class I.—Douglas, Howard and Myerson.

Class II.—Hibbard and Fisher.

Class III.—Grigg and Jarvis.

PASSED THE FIRST YEAR EXAMINATIONS.

(1) For Course Leading to B. A.

Class I.—McCall, Weinfeld, Douglas, Howard and Whiteside.

Class II.—Sanders, Cameron, Pope, Auld, Gardner and Jacques (equal), McDonald, Grigg, Currie and Tidmarsh (equal), Hatcher, Talpis (s), Macfarlane, Copeland, Hutchison and Myerson and Thompson (G. D.) (equal), Wieland (s) Tees, Smith, Young, Atkins, Schachter and Werry (equal) and Hibbard.

THIRD YEAR.

In Order of Merit.

Mariotti, H. C. G., B. A.—First Class Honors, Elizabeth Torrance, Gold Medal and prize of $50.

Elder, A. H., B. A.—First Class Honors, Sir William Dawson Exhibition and Junior Bar Prize for civil procedure.

Solomon, N.—First Class Honors, Couture, R. P., B. A., First Class Honors; McDougall, E.S., B.A., First Class Honors; Macdonald, A. J., Second Class Honors; Mulvena, H. R., B. A.; Conroy, P. S.; Pare, J. H.; Gillmor, D. P., B. A.; McNaughton, J., B. A.; Burke, M. T., B. A., Popliger, L.; Dunlop, J.; and Newcombe, E. F., B. A.

In addition, Fineberg, N. S., M. A., who, from illness, was unable to take some of the examinations, was allowed the degree with honors, on the ground of his previous distinguished record.

SECOND YEAR.

In Order of Merit.

De Sola, B. C., B. A., First Rank Honorary Scholarship and Alex. Morris Exhibition.

Macnaughton, G. F., B. A., First Rank and Scholarship of $100.

McGoun, A. F., B. A., First Rank and Scholarship of $100.

Bush, S. and Hugessen, A. K., B. A. (equal), First Rank; Heney, T. B., B. A., First Rank; Langstaff, Annie, First Rank; Dixon, S. G., B. A., First Rank; Tritt, S., First Rank; Mills, A. L. S., B. A., Second Rank; Coonan, T. J., Second Rank; Tannenbaum, L., B. A., Second Rank; Moyse, R. E., B. A.; Coughlin, G. A., B. A.; Marchand, L. P.; Herschorn, H. E., B. A.; Allan, P. E.; Scott, H. H., B. A.; Eliasoph, S. Delage, V. A., and Livinson, A. J., B. B.

FIRST YEAR.

In Order of Merit.

Kerry, I., B. A., First Rank, Scholarship of $100, and equal First Prize in Roman Law.

Wanklyn, A. A., B. A., First Rank, Honorary Scholarship, and equal First Prize in Roman Law.

Howard, W. H., First Rank and Scholarship of $100.

Kerk, I., B.A., First Rank.

Muhlstock, A. W., B. A., First Rank; Stalker, A., B. A.; Babcock, H. H., and Muicair, J. (equal); Demers, J. W.; Houle, J. A. A., B. A.; Audette, G. H., B. A.; Lavat, L., and Cameron, N. S.

In addition, the following passed but could not be ranked owing to absence from one or more of the examinations—Budyk, J. A., B. A.; Lamb, C. E.; Legault, A., and Tyndale, O. S., M. A.

Applied Science

FOURTH YEAR.

HONORS AND PRIZES.

(Names in Alphabetical Order.)

Baily, Philip Pendlebury, Dawson Fellowship in Mining; Honors in Mining Engineering and Mining Field Work, Drummond Prize for Summer Essay.

Boire, Joseph Jules, Honors in Power Plant Design.

Cameron, Alan Emerson, Douglas Fellowship in Mining; Honors in Geology; First Prize for paper read before the Undergraduates' Society of Applied Science.

Clarke, Atlee Bernard, British Association Medal and Prize; Honors in Electrical Engineering.

Crewdson, Eric, British Association Medal; Honors in Machine Design, and Thermodynamics; Third Prize for paper read before the Undergraduates' Society of Applied Science.

Crossfield, John Townley Knowles, Honors in Mining Engineering.

Joseph, Kenneth de Sola, British Association Medal and Prize; Honors in Transportation subjects.

MacDougall, Charles G., British Association Medal and Prize; Honors in Electrical Engineering, Electric Light and Power Distribution, and Electric Traction.

Mather, Richard Henry, Second Prize for paper read before the Undergraduates' Society of Applied Science.

Mitchell, William Gordon, Douglas Fellowship in Mining.

Murphy, Stephen John, British Association Medal and Prize; Honors in Theory of Structures, Hydraulics, Electrical Engineering and Godesy.

Tait, Irving Richard, Honors in Electrical Designing, and Electrical Engineering.

Thompson, George Harry, Prize for Summer Essay.

Weir, James, Prize for Summer Essay.

Wright, Walter Genge, British Association Prize.

Standing of the Students in the Various Subjects; in order of merit.

Summer Essay. (Civil, Eng.)

Class I.—Weir; Chave and Mais (equal); Morrow, Traversy; Baker, D.S. and Murphy (equal).

Class II.—Kirby, MacRae, Page; Carson, Legris and Pilcher (equal); Con-Lyche (equal); Graffety, Hamilton and Jackson (equal); Hugh-Jones, Roche and Wilson, W. J. (equal).

Class III.—Fitzgerald, Harvey; Berry and Vallance (equal); Eliasoph, Macdonald and Gohier.

Summer Essays, (Mining, Eng.)

Class I.—Cameron, Baily, Crossfield, Mitchell and MacKay.

Class II.—McEvenue, Murray; Baker and Matheson (equal); Clarke and Lyster (equal) Baridon and Dempster, R. C. (equal); Thompson, G.

Class III.—Lynch, T. L. and McDougall, R. J. (equal); Dunn and Holland (equal); Hanley; Gougeon and Paddon (equal.)

Summer Essay—Mech. Eng.

First Class.—Crewdson, Hample, Boire, Skelton; Sargent and Wright equal); Second Class.—Davidson and Duffield (equal); Kavanagh, Rennoldson, Turnbull and Ryan (equal); Lawrence, J. F., and Pickard (equal); Hebden and Starke.

Summer Essay—Elec. Eng.

First Class.—Mather and Thompson, G. H., (equal); Dibblee and Lewis (equal); Burr; Garrett, H. L. and Lynch, J. A. (equal).

Second Class.—Burrow, MacDougall, G. J. and Tait (equal); Eardley-Wilmot and Tett (equal); Cunningham.

Third Class.—Hull, H. L. and Darling.

Summer Essay—Chem., Eng.

First Class.—None.
Second Class.—Donald, J. R.
Third Class.—McLeod, C. K.

Summer Essay—Railways.

First Class.—Joseph and Pullen.
Second Class.—Hamer.

Summer Essay—Metallurgy.

First Class.—None.
Second Class.—Galloway, C. C.

Municipal Engineering.

Class I.—MacRae, Kirkby and Carson.
Class II.—Welf, Jackson; Cassels, Chave and Murphy (equal); Wilson, W. J., Pilcher, Vallance; Hugh-Jones and Traversy (equal); Duffy and Page, S. M. (equal); Baker, D. S.

Class III.—Mais; Dodd and Harvey (equal); Fitzgerald, Gohier and Lyche (equal); Eliasoph, Berry, McDonald, L. M.; Elliott, Grafftey and Morrow (equal); Roche, Connolley and Legris.

POWER PLANT DESIGN.

Class I.—Boire; Crewdson and Wright (equal); Ryan.

Class II.—Duffield and Pickard (equal); Starke and Davidson.

Class III.—Hample; Lawrence, J. F. and Turnbull (equal); Kavanagh.

MECHANICS OF MACHINES.

Class I.—Crewdson and Wright.

Class II.—Lawrence, J. F. and Ryan (equal); Boire and Starke.

Class III.—Davidson, Pickard, Duffield, Turnbull; Hample and Rennoldson (equal); Kavanagh.

ARCH. PRACTICE.

Class I.—Mc Conkey.

PETROGRAPHY AND LAB.

Class I.—Baily; Baker, M., and Cameron (equal); Dunn.

Class II.—Clarke; Lipsey, McDougall, R. J. and Mathewson (equal); Crossfield and McEvenue (equal); Matheson, Lyster; Dempster and Thompson, G. (equal); Baridon and Mitchell (equal); Murray.

Class III.—Hanley, Gougeon, Graham and Lynch, T.L. (equal).

LITTLE STORIES FOR BEDTIME

By T. W. Burgess.

FARMER BROWN'S BOY HAS A DOUBLE SURPRISE.

(Copyright, 1913, by J. G. Lloyd.)

Reddy Fox knew very well that Bowser the Hound was chained or he never would have dared go so near, for at heart Reddy Fox is a coward. But with Bowser chained Reddy had nothing to fear. He knew that if he could waken Bowser that Bowser would be almost sure to make a great racket, and that would bring Farmer Brown's boy out. That was all Reddy wanted, for that would upset the plan of Jimmy Skunk and Prickly Porky the porcupine, to set Unc' Billy Possum free from the box in which Farmer Brown's boy was keeping him a prisoner.

So Reddy stole right up to the very door of the little house in which Bowser the Hound was sleeping and backed sharply. He didn't need to bark but once. Bowser shook himself and scrambled out at once to the full length of his chain. He opened his big mouth to make a great noise and waken Farmer Brown's boy when something happened that made him close it again without making a sound, and do a very strange thing—put his tail between his legs and crawl back into his house.

What do you think it was that happened? Why Prickly Porky, who was gnawing a way out for Unc' Billy Possum, just rattled the thousand spears he carries. That was all. But it was enough for Bowser the Hount. He never had forgotten, and he never would forget, how some of those little spears which he had one time gotten in his mouth had hurt when his master had pulled them out. He didn't want anything more to do with them. If Prickly Porky was out there he would just stay inside and pretend that he hadn't waked up at all.

And this is how it happens that in

spite of all Reddy Fox could do nothing happened to upset the plans of Jimmy Skunk and Prickly Porky. The great, sharp teeth of Prickly Porky soon made a big enough hole in the box in which Unc' Billy Possum was a prisoner for Unc' Billy to crawl through. Then Prickly Porky went to work on the box which held Johnny Chuck's baby Chuck, and soon there was a hole big enough for him to crawl out.

And the something queer happened. What do you think it was? Why, that baby Chuck wouldn't come out! No, sir, he wouldn't come out. Nothing that Jimmy Skunk or Prickly Porky or Unc' Billy Possum could say would tempt him to so much as put his nose outside. He said that he didn't know them, that he was afraid of the dark anyway, and that he was perfectly contented where he was. Finally the others gave it up, and just before daylight they started for the Green Forest, Jimmy Skunk in the lead, then Unc' Billy Possum, and last of all Prickly Porky, with his thousand little spears rattling as he walked. Reddy Fox saw them and black anger filled his heart, for he had no love for any of them.

When in the morning Farmer Brown's boy went out to feed Unc' Billy Possum he gave a long whistle of surprise. At first he thought that Unc' Billy had gnawed his way out. But when he looked closed he saw that the gnawing had been from the outside, and then he was more puzzled than ever. Finally his sharp eyes saw something among the splinters on the ground.

Just then he thought of the other box in which he had kept the baby Chuck. On the ground all rough, that lay splinters, too. Farmer Brown's boy really felt bad as he walked over to that box. He had grown to love the baby Chuck, to really love him. He looked into the box. Then he gave a start, rubbed his eyes and looked again. There was the baby Chuck just as usual! He hadn't run away in spite of the big hole inviting him to. Farmer Brown's boy didn't know what surprised him most—to discover that Unc' Billy Possum had escaped or to find the baby Chuck still there when he might have escaped.

Next story: "The Baby Chuck Refuses to Go Home."

You Will Always Receive "GOOD VALUE" at Ogilvy's

¶ Much has been said about low prices, but low prices mean nothing if the goods are not satisfactory.

¶ Also, much has been said about "Quality," but this, again, is not appreciated if you pay an exorbitant price for it.

¶ The policy of this store is, first, to sell only merchandise of the best quality, that we *know* will give satisfaction, and, second, to sell it at a reasonable price (consistent with the quality), so that it may truthfully be called "good value."

Non-Fading Wall Papers

The wonderful progress made in the wall paper industry during the last few years can be readily seen by anyone at all familiar with interior decorations. One of the most satisfactory innovations in many years has been the perfecting of wall papers that are absolutely permanent in color. Heretofore even the most expensive of wall papers would lose their beauty and color on exposure to the light, spoiling the effect entirely. The "sun-proof" or "non-fading" wall papers are most reasonable in price considering their durability and the fact that they retain their original colors even on exposure to the strongest light. They can be had in plain effects or patterned. These and many other decorative novelties at the

Sir Coutts Lindsay Dies.

London, May 9.—Sir Coutts Lindsay, artist and founder of Grosvenor Gallery, where Whistler exhibited, died last night. He was born in 1824.

Child Bitten by Horse.

Sarah Kotchmoroff, 6 years of age, 28 Demontigny street, was badly bitten by a horse, harnessed in a cart of the Sicily Asphalt Company yesterday. The horse was at a standstill and unattended when the child passed near. She was taken to the General Hospital, and afterwards was able to be taken home.

UNIVERSITY SETTLEMENT WANTS NEW MILK STATION.

Representations on behalf of the University Settlement were made to the Board of Control yesterday in favor of the establishment of a milk station in the House of Refuge, and a grant for this purpose was requested. The Board promised consideration.

Another delegation also requested attention to the roads in Tetreaultville, Longue Pointe Ward, which are stated to be in a very poor condition.

A petition in favor of the making of a square in front of the General Hospital is to be brought before the Board. The signatures number several hundreds.

McGILL GRADS' SMOKER.

The "smoker" of the graduating class of McGill University, given in the Union last night was replete with humor of all descriptions. The majority of the speeches related to the concluding term of study of those present, and many witty sayings punctuated the addresses.

Dean Adams, of the Faculty of Applied Science, was one of the speakers, and Professor Evans gave some delightfully amusing songs. Other contributors were Mr. Knatchbull Hugessen and Mr. Goodwin. Mr. McEvenue presided.

McGILL EXAMINATION RESULTS

The worries and anxieties of the students of the Faculties of Arts, Law and Science at McGill University, particularly of the students in the final years, are now at rest, for they know their fate, having read the results of the examinations posted up on their respective Faculty notice boards last night.

TWENTY-NINE B. A's.

Twenty nine students in the Faculty of Arts have passed for the degree of B. A., 17 in the first rank, 10 in the second and 2 in the third rank, with 1 B. Sc. (In Arts). In the fourth year (Graduating Class), the Arts' Gold Medallists are: Dorothy Duff, Edmund P. Dale Harris, Iveson A. Miller and Florence R. MacSween, (Governor General's Gold Medal.)

H. C. G. MARRIOTTI LAW GOLD MEDALLIST.

In the Faculty of Law (third year), H. C. G. Marriotti, B.A., has secured first place, taking the Gold Medal and the prize of $50, while A. H. Elder, B.A., secures an Exhibition and the Junior Bar Prize.

SEVENTY-SIX B. Sc.

In the Faculty of Science, 76 students have passed for the degree of B. Sc., and, from a perusal of the qualifying list, it will be seen that they come from all parts of Canada and the British Empire. P. P. Baily and A. E. Cameron have Fellowships in Mining, while A. B. Clarke, E. Crewsdon, K. de Sola Joseph, C. J. MacDougall, S. J. Murphy and W. G. Wright have secured the British Association Medals and Prizes.

DEFERRED RESULTS.

At midnight, Dean Moyse, busily engaged with his secretary on examination results, stated to a Star representative that it would be absolutely impossible to announce the order of passing of the Arts' students in the various courses till this evening. Dean Walton also stated that the results of the Second and First Years in Law could not be announced "for a day or two yet."

LITTLE STORIES FOR BEDTIME

By T. W. Burgess.

FARMER BROWN'S BOY HAS A DOUBLE SURPRISE.

(Copyright, 1913, by J. G. Lloyd.)

Reddy Fox knew very well that Bowser the Hound was chained or he never would have dared go so near, for at heart Reddy Fox is a coward. But with Bowser chained Reddy had nothing to fear. He knew that if he could waken Bowser that Bowser would be almost sure to make a great racket, and that would bring Farmer Brown's boy out. That was all Reddy wanted, for that would upset the plan of Jimmy Skunk and Prickly Porky, the porcupine, to set Unc' Billy Possum free from the box in which Farmer Brown's boy was keeping him a prisoner.

So Reddy stole right up to the very door of the little house in which Bowser the Hound was sleeping and barked sharply. He didn't need to bark but once. Bowser shook himself and scrambled out at once to the full length of his chain. He opened his big mouth to make a great noise and waken Farmer Brown's boy when something happened that made him close it again without making a sound, and do a very strange thing—put his tail between his legs and crawl back into his house.

What do you think it was that happened? Why Prickly Porky, who was gnawing a way out for Unc' Billy Possum, just rattled the thousand spears he carries. That was all. But it was enough for Bowser the Hount. He never had forgotten, and he never would forget, how some of those little spears which he had one time gotten in his mouth had hurt when his master had pulled them out. He didn't want anything more to do with them. If Prickly Porky was out there he would just stay inside and pretend that he hadn't waked up at all.

And this is how it happens that in

spite of all Reddy Fox could do nothing happened to upset the plans of Jimmy Skunk and Prickly Porky. The great, sharp teeth of Prickly Porky soon made a big enough hole in the box in which Unc' Billy Possum was a prisoner for Unc' Billy to crawl through. Then Prickly Porky went to work on the box which held Johnny Chuck's baby Chuck, and soon there was a hole big enough for him to crawl out.

And the something queer happened. What do you think it was? Why, that baby Chuck wouldn't come out! No, sir, he wouldn't come out. Nothing that Jimmy Skunk or Prickly Porky or Unc' Billy Possum could say would tempt him to so much as put his nose outside. He said that he didn't know them, that he was afraid of the dark anyway, and that he was perfectly contented where he was. Finally the others gave it up, and just before daylight they started for the Green Forest, Jimmy Skunk in the lead, then Unc' Billy Possum, and last of all Prickly Porky, with his thousand little spears rattling as he walked. Reddy Fox saw them and black anger filled his heart, for he had no love for any of them.

When in the morning Farmer Brown's boy went out to feed Unc' Billy Possum he gave a long whistle of surprise. At first he thought that Unc' Billy had gnawed his way out. But when he looked closer he saw that the gnawing had been from the outside, and then he was more puzzled than ever. Finally his sharp eyes saw something among the splinters on the ground.

Just then he thought of the other box in which he had kept the baby Chuck. On the ground all round that lay splinters, too. Farmer Brown's boy really felt bad as he walked over to that box. He had grown to love the baby Chuck, to really love him. He looked into the box. Then he gave a start, rubbed his eyes and looked again. There was the baby Chuck just as usual! He hadn't run away in spite of the big hole inviting him to. Farmer Brown's boy didn't know what surprised him most—to discover that Unc' Billy Possum had escaped or to find the baby Chuck still there when he might have escaped.

THE LAST DAY IN COMMITTEE.

THE new rules of debate have now been set in motion; and the most apprehensive amongst us must have seen that they amount to nothing more than the fixing of a reasonable date for the termination of a discussion. There is nothing of "brute force" about them—nothing remotely resembling a "gag." The Prime Minister merely moves the postponement of the consideration of each clause, when the discussion of it has pretty well "petered out;" and finally announces, a day in advance, that only one more full day will be allowed for the winding up of a debate already thoroughly "run down"—if we may mix our metaphors.

It is inconceivable that the Opposition can have anything left of a serious and pertinent character to say, in committee, on this little Bill. Much of the time they have already taken to its consideration has been frankly given up to "obstruction." That is, they were wholly out of real debating material, and set themselves with determination to talk against time. Under such conditions, to put a stop to their agony—and to ours—is not "closure;" it is no more than humane.

The majority of the people will hope that to-day's debate will return to the high level which Parliament can attain when it takes itself with becoming seriousness, and will form a fitting conclusion to the prolonged consideration of what is, by common consent, one of the most important measures ever proposed by any Canadian Government. We would all dearly like to be a bit proud of this last day's debate. A busy people may be assumed to have, more or less, forgotten the detailed outlines of the two opposing policies; and this will offer a magnificent opportunity for a re-statement of them both to the House and to the country. Events have occurred since the introduction of the Bill which have thrown a more vivid light upon some of the points at issue; and these may well be dealt with. New arguments have been advanced and old arguments have been permitted to lie under the dust of disuse; and a real service would be done the electorate if the former were now crisply met and the latter briskly resurrected.

We do not ourselves anticipate any "horse-play." It would seem to be too futile, too prankish, too little in keeping with the gravity with which both parties endow this measure, for it to be made a serious part of a settled programme by a great party. Some ebullition of spirit may occur—some clashing of over-strained gladiators—even some genuine outbursts of temper. But anything like a pre-arranged drama of defiance, played out as if for the "machine" of a moving-picture impressario, will surely not be staged in what is, after all, the highest court of the nation. The dignity of Parliament will be to a very great extent to-night in the keeping of the Opposition; and their sanest friends in all parts of the country will hope that they preserve both that dignity and their own.

No one expects them to support the Bill. No one expects them to endorse the new rules of debate. No one expects them to budge one inch from the position they have taken up with such firmness from the first. It is by no manner of means any symptoms of "weakening" which are sought from them, but rather a display of that most impressive strength which is covered by the restraint and the calm power of serious and mature public men. They need not fear that anyone will imagine their earnestness to be growing slack because they do not advertise it by the methods of the rowdy element at a dubious "sporting event."

We should very much like to follow this by anticipating that the final vote on the Navy Bill in the Commons—which will come early next week—will be permitted to finish the matter. The Empire has waited a long time now to see just what Canada would do, and it ought to be allowed to accept as final the well-considered decision of our elected House of Parliament. Constitutionally, that decision should be final. Our constitution-makers never intended to lay upon the shoulders of the Senate the heavy responsibility of sitting in judgment on the main principles of such a measure as this when previously adopted by the Commons. If the legislation were "hasty"—which, in this case, has a facetious sound—then the Senate might be required to trim away the evidences of haste, without affecting the underlying principles. If the legislation threatened to invade the rights of the Provinces, then the Senate—the especial guardian of Provincial rights—might feel it a duty to interpose.

But neither of these offences can be charged against the pending Navy Bill. It is a short measure; it has not been hastily pressed; and it has nothing to do with the Provinces. In essence, it is a "money bill," from all responsibility for which the Senate is relieved. It is, in brief, a House of Commons measure. The House of Commons must take entire responsibility for its short-comings or its mistakes. No one can ever blame the Senate for permitting it to pass if it turns out in the end to have been the wrong thing to do. The Senate, as a Senate, has no business with the Bill at all. It is only if a portion of the Senate should regard itself as a "party committee," acting under orders from the "caucus" of the Commons, that there can be any chance that this measure will be even delayed in its passage through the Upper House.

"IMPERIAL FEDERATION."

TWO pessimistic notes, touching what is loosely called Imperial Federation, sound through the cables to-day. Mr. Harcourt is greatly bothered about the details of the scheme, and reminds us of "the chests of tea at the bottom of Boston harbour;" while Sir William Ramsay quotes an unfamed "historian of Rome," who seems to have sung a Cassandra song into his ears three long decades ago, to the effect that "the Empire had in it the inevitable seeds of dissolution, which were rapidly maturing to their inevitable result. The Colonies had nothing to gain from a union with England. The interests of the Colonies were opposed to and inconsistent with the interests of Britain. They must go in a direction that was most advantageous for themselves."

It is only fair to say that what is abundantly clear now, was not so clear in 1885. To-day, one of the plainest facts of the international situation is that the various self-governing Colonies of the British Empire must "hang together or hang separately." Cut the British world-circling cord; and what will happen? Canadian Independence, with self-respect, is a dream. We should have to choose between being governed from Washington without representation there; or being governed from Washington with representation there. It is safe to say that Canada has more of national individuality to lose by the collapse of the British Empire to-day than has the United Kingdom itself. We should lose our flag, our peculiar institutions, our national identity, all the little compromises we have set up for the harmonious dwelling together of our differing races and religions. Great Britain would lose nothing but prestige and some trade.

As for Australia and New Zealand, they simply cannot live alone. Situated as they are, within easy reach of over-crowded Asia, they would, if left to themselves, infallibly be over-run by that swarming horde as soon as it got ships of war to beat down local defence. The whole north of Australia is unsuited to white settlement, and will be Asiatic in the near future—unless an outside arm protects it. What peril, of anything like equal importance, overshadows the Mother Country in case of defeat? The argument from self-interest is to-day more powerful in the Colonial than in the Home field. As to the details of our better business understanding in this matter of co-operative defence, we are content to leave them to growth—to the wisdom of loyal and earnest statesmen meeting each difficulty as it arises. And only by such a method, in a changing world like ours, could so great and important an edifice be erected.

A HARVEST OF LAWLESSNESS.

FROM all lawlessness there flow two classes of evil results. There are the direct and immediate results the consequence of the lawbreaker's acts. In murder it is the killing of the victim, which, in most cases, means the loss of a provider to a family and the loss of a producer to the state. In arson there is the loss of wealth, the destruction of part of the nation's assets; and so on through the whole list of crimes, all of which inflict an injury upon the victim and also entail a loss to the community at large. It is largely because of this, coupled with the principle that the primary obligation of government is to protect the lives and property of the governed, that violation of the criminal law, unlike breaches of civil contracts, are public matters. The state does not assume the duty of collecting debts for its citizens, but it does assume the duty of punishing crime.

The direct and immediate results of lawlessness are not all the evils that flow from such acts. There is a long chain of remote and indirect results, perhaps all of which cannot be traced, so that the sum total of the evil of crime is never exactly known. But this much is known—every act of lawlessness, every violation of the criminal law or of regulations made for the purpose of preserving public peace and order, is to someone a prompting to do likewise. We are all more or less imitators, and the evil disposed are prone to imitate the deeds perpetrated by their own kind. Crime suggests crime, violence suggests violence. These deeds show that others of a like kind are possible; and, if to the perpetration be coupled escape from punishment, the suggestion of imitation becomes well nigh irresistible.

It is because of these things that the antics and the crimes of the English suffragettes have inflicted and still are inflicting an injury upon the British public much greater than can be measured by the value of windows broken and houses burned. They are object lessons in crime to the dregs of the population among whom the suffragettes have found sympathizers and imitators. The worst feature of the case is that the criminal suffragettes have largely escaped the punishment their crimes deserve; and have thereby extended a general invitation to the dregs of the population to indulge themselves in lawbreaking.

The riot in Trafalgar Square and the attack on the London police are one of the results of all this toying with criminals. The excuse for the riot was that the closing of the square to suffragette meetings was an interference with the right of free speech. What use had these people been making of freedom of speech? They had been using it to incite their hearers to crime. If that sort of freedom of speech can be justified then why not justify freedom of action as well, and regard arson and attempt to kill as much within one's right as these advocates of free speech claim the inciting to crime to be? To dignify the riot with the title of a free speech rally is absurd. It was simply a case of birds of a feather flocking together, of violence and lawlessness begetting more violence and lawlessness.

Stage Caricature.

New York American Hebrew: — "Too much is perhaps made of the need of keeping away from the American stage the "stage Jew." No doubt he is a caricature, but good natured caricature can do harm to none. No one could conceive any possible harm has resulted to the Jewish name and fame by the good humored representations of the Jewish pedler or auctioneer by men like Lew Fields or David Warfield. The business instincts of managers would be sufficient to keep out anything that was really offensive to Jews, who nowadays form so large a portion of the audiences of the great cities, without removing altogether the figure of the stage Jew from the American theatre."

The California-Japan Situation.

Philadelphia Ledger: — "The fangs of the situation have been extracted. There is little likelihood of the submission of the difficulty to The Hague. The problem has become a diplomatic one for the Department of State to handle and that it will proceed to do so immediately may safely be inferred from the telegrams of the President and the speeches of his Premier."

DEBATE ON NAVAL BILL WILL COME TO END TO-MORROW

Premier Borden Applies New Rules, and Vote Will Be Taken by 2 a.m.

Special Staff Correspondence.

Press Gallery, House of Commons, Ottawa, May 9.—The notice of the end of the committee stage of the Naval Bill has been given, and has been accepted by the Opposition without a murmur. The last three sections of the Bill were taken up yesterday afternoon and evening, and their consideration postponed. Then, when the ground was prepared, Mr. Borden gave notice that this afternoon he would move that the consideration of the clauses of the Bill be not further postponed, which means that the debate must end by two o'clock Saturday morning.

When the Bill was called up, Mr. J. H. Boivin, of Shefford, asked why the Bill was not being put through section by section. He thought it could be done in four days.

"If hon. gentlemen will agree to a time for a vote," said the Premier, "there will be no difficulty."

Sir Wilfrid merely smiled.

"But if there is to be no arrangement," added Mr. Borden, "we will have to get on as best we can."

The Hon. G. P. Graham declared that the object of the Premier was "to get all the sections into the slaughter house and kill them at one time."

"It is perfectly clear," said Sir Wilfrid, "that the intention is not consideration. It is the gage."

"It is plain," retorted the Premier, "that my right honorable friend desires to pose as a martyr. He has declined for eight or nine weeks to name any period at which there will be a vote in committee or on the third reading."

"If I am posing at all," answered Sir Wilfrid, "it is not as a martyr. It is as a hero. I have obstructed and am proud of it."

"I am glad of the admission that there has been a definite policy of obstruction," remarked the Premier.

MR. STEVENS WANTS UNCONDITIONAL GIFT.

After various points of order had been raised by the Opposition and lost, the debate was resumed by Mr. H. H. Stevens, of Vancouver, who congratulated the Government on clause iv. as an improvement on the Naval Service Act of 1910. It recognized our duty to bear our share of the cost of the defence of the Empire. But in his opinion it did not go far enough. The section said the ships "shall be placed by the Governor-in-Council at the disposal of His Majesty for the common defence of the Empire." In his opinion these vessels should be given to His Majesty "absolutely and unequivocally." He did not say that such a policy should be followed in perpetuity, but, so far as the present bill was concerned, these ships should be a gift to the Empire.

He also asked the Premier for an assurance that the Government would take early and speedy action to give effect to the Bill.

"Hon. gentlemen opposite," he declared, in conclusion, "repudiate responsibility for the common defence of the Empire; while we claim that the responsibility rests upon our shoulders."

PREMIER SUMS UP GOVERNMENT'S CASE.

He, then moved the postponement of clause iv., which was carried by 86 to 36.

Clause V. was then called and Mr. Germain was on his feet with an amendment.

He moved that the ships should be placed at the disposal of His Majesty "as provided in the Naval Service Act."

The Bill provided that the disposal of the ships should be "subject to such terms, conditions and arrangements as may be agred upon between the Governor-in-Council and His Majesty's Government."

Mr. Germain explained that this involved the crux of the reason why he could not accept the Naval Aid Act. The Naval Aid Act took away the control of Parliament over the expenditure, he said, which the Naval Service Act of 1910 preserved.

Shortly after midnight, two speeches having intervened, the Premier replied. "We are now consulting Parliament on the expenditure," he said, "and we have given all reasonable information on the matter."

"We have brought in this Bill," he went on, "for the purpose of demonstrating to the nations of the world, that if there is to be an assault on the naval power of Greta Britain, on which depends the continued existence of the Empire, this Dominion stands with the Mother Country.

"I for one would not be disposed to minimize the idea of this service being accompanied by a certain sentiment on the part of this Parliament and of the people of Canada. But I may call attention to the fact that this mission was not introduced in the spirit in which the Naval Service Act was introduced. The Naval Service Act was introduced in a fiercely controversial speech. In introducing this Bill I took the greatest care to avoid raising partisan feeling. So, if my Hon. friend from Welland has any complaints to make of the lack of that sentiment, let him lay the blame at the proper door." (Cheers.)

NEW RULES WORK VERY PEACEFULLY.

After this the end came rapidly and peacefully.

Mr. E. B. Devlin asked if any arrangements made with the Admiralty would be submitted to Parliament.

If Parliament were in session they would be submitted when concluded, answered the Premier. If Parliament were not in session, they would be brought down immediately after Parliament met.

Then he moved the postponement of clause V, which was carried by 84 to 41.

This done, he moved to add clause VI, which provides for a report of expenditure to Parliament and brings the expenditure under the control of the Auditor-General.

E. B. Carvell proposed an amendment to require all the moneys to be expended after public tenders were called, and urged that the Premier take the matter into consideration.

The Premier consented and moved the postponement of the section. Again a vote, and the postponement carried by 85 to 45.

At five minutes to one the notice of the end of the debate was given and the House rose.

"The gag has come," cried Mr. Carvell, but he found not an echo.

NATURALIZATION BILL IS NOW SATISFACTORY.

In reply to Mr. E. M. Macdonald, the Hon. C. J. Doherty stated that he had received a copy of the British Bill dealing with naturalization. The Bill was now satisfactory to the Canadian Government and word to that effect had been sent to the Imperial authorities. Before the law would come into force in Canada, it would have to be passed by the Canadian Parliament.

Mr. Doherty told Mr. Lemieux that he had also received a copy of the British Bill in regard to the Privy Council. The new Bill provided for seven in place of five Colonial Judges. This was in order to allow for the representation of Colonies not now represented.

McGILL COLLEGE WILL GIVE DEGREE TO LORD HALDANE

Mr. Borden and Mr. Doherty to Be Honored in Similar Fashion.

Viscount Haldan, the Right Hon. R. L. Borden, and the Hon. C. J. Doherty, will receive the degree of LL.D from McGill University in the course of the conference of the American Bar Association in Montreal, next September.

It was decided at the meeting of the McGill Corporation yesterday afternoon, to confer the degree on Viscount Haldane, when the Lord High Chancellor visits the city, "in special recognition of his constant advocacy of the cause of higher education, to which he has rendered such valuable service, and as a compliment, personal as well as official, on the occasion of his first visit to Canada, to one who has achieved marked distinction as statesman and administrator, philosopher and jurist, and who has crowned a brilliant career by attaining to the highest judicial office in the gift of the Sovereign."

For Mr. Borden.

A similar degree will be conferred upon Mr. Borden "as a tribute to the distinguished ability, unwearying industry, strength of character and high personal worth by which he has won his way to the position of head of the Government of the Dominion, and in appreciation of all that he has been privileged to do in the way of maintaining the dignity and prestige of Canada, as the first of the new nations within the Empire."

Honor Mr. Doherty.

Mr. Doherty will be honored "in grateful and appreciative recognition of much devoted service rendered to the university for many years as Professor of Civil Law, and as a token of the pride and gratification with which his Alma Mater has followed his entrance on a career, in which he is displaying as a high official of state all the qualities which have long endeared him to his friends in Montreal."

The degree of Doctor of Laws will also be conferred on Dr. James Algernon Temple, in recognition of the services of this distinguished graduate of McGill, at the medical convocation in June.

ALDERMAN SENDS RESIGNATION TO THE CITY COUNCIL

Mr. Houle Makes Protest Against Proposed Boulevards Along the Aqueduct.

What the Council Did.

Rejected Controllers' report on the aqueduct-boulevard scheme.

Ordered resignation of Ald. Houle to be left on the table.

Adopted motion asking City Attorney for written opinion on powers of the Acting Mayor.

Appeal taken twice against the ruling of the Acting Mayor.

Ald Houle handed in his resignation at the special meeting of the City Council called for yesterday afternoon by the Acting Mayor. His reason, he said, was to afford the electors of his ward (St. Denis) an opportunity of pronouncing on the question of the proposed boulevards along the aqueduct.

"I do not think," Ald. Houle said, in handing in his resignation "that the public is sufficiently well informed on this question of the boulevard, and in creating as vacancy in my ward, which is one of the most populous in the city, the electors will be given an opportunity of expressing their opinion whether improvements should not be made in the city before boulevards are built in the suburbs."

The Acting Mayor, amid the laughter of the Council, suggested a possible referendum on the subject—as there might be one on the question of the abolition of the Board of Control.

On the motion of Ald. L. A. Lapointe, the letter of resignation was ordered to be left on the table.

Wanted to Reject Report.

The whole question was brought up in a report from the Board of Control, held over from previous meetings of the Council, asking for an expression of opinion on the principle of constructing the boulevards.

Ald. Menard moved that "this council, without pronouncing itself against the principle of the improvements proposed in the report of the Board of Commissioners, decides to reject said report in its present form."

Ald. L. A. Lapointe said that the Council wanted a full report. The present one did not conform with certain formalities. The city auditor, for instance, had not signed it and had not stated where the money was to come from.

Ald. Morin thought that the boulevard scheme was favored by the aldermen generally, but there were some who evidently wished to proceed contrary to the terms of the city charter. As an amendment to the motion, he moved that the report be sent back to the Board of Control for amendment.

The Acting Mayor, however, ruled the amendment out of order on the ground that it amended nothing.

Ald. Morin immediately appealed from the decision of the chair. The result was a vote of 12 to 12, and the appeal was declared lost.

Controller Lachapelle, referring to the motion of Ald. Menard, said the Board were indifferent as to the course adopted by the Council. It was not easy to meet the continued demand of the Council for information, when the Council did not specify just what information was required. The Board had never yet been informed as to the attitude of the Council on the boulevards, and wished to avoid being accused of not taking advantage of an opportunity which might never occur again.

The report was then ordered to be sent back.

To Find Out His Status.

The powers of the Acting Mayor, in the absence of the Mayor from the city, are to be submitted to the City Attorney for report. The following motion, moved by Ald. Menard, was adopted by the Council without debate:

"That the City Attorneys be requested to reply, for the next meeting of Council to the following question:

"Can the Acting-Mayor, in the absence of the Mayor of the city, or in the event of the latter being incapable of filling the duties of his office, or in the event of the office of Mayor becoming vacant exercise all the powers with which the Mayor is invested by law, among others the powers conferred on the Mayor by virtue of section 2 of 9 Edward VII., Chapter 81, subsection 21a and 21j, this latter as replaced by I. George V., Chapter 48, section 117."

The Acting Mayor, commenting on the motion, referred to his attempt to preside at the meeting of the Board of Control on Saturday. "I wished to have the point settled," he said, "whether the Acting Mayor has the powers of the Mayor. I contend that he has, and I wish to have a definite ruling. If the charter does not confer such powers on the Acting Mayor, then the charter should be amended."

Ald. L. A. Lapointe then moved that "The Acting Mayor and the Assistant City Clerk are authorized to sign the following notarial contracts, the signature of which, the Council has already authorized on the 3rd and 26th March last, namely:

"Sales to the city by Messrs. A. A. Desroches; Arthur Arcand, Joseph Leblanc and Joseph Laurence of certain land for the opening of Sherbrooke street east."

Ald. Lapointe explained that the motion was necessary as the signature of the mayor was necessary in such cases.

LITTLE CHANGE IN GENERAL PRINCIPLE OF THE BANK ACT

Measure Goes Back to the House of Commons After Six Weeks in Committee.

Special to The Montreal Star.

Ottawa, May 9—The Bank Act went back to the House of Commons from the Banking Committee yesterday afternoon after six weeks of evidence and discussion, but with little alteration in substance and little change in its fundamental principles.

There is small likelihood of further change in the House. Any alterations that may be made in the Senate are much more likely to be in the direction of eleminating certain amendments made in the Commons than in supplementing them by way of reform.

The Hon. W. F. White, while willing to bow to the views of the committee considered the measure as it stood to pretty adequately meet the situation, and in consequence the amendments made apart from those he accepted were comparatively few.

The most notable amendment was that calling for government inspection of banks.

Both the evidence and the views of the committee were against the operation of the small local banks and in favor of the branch bank system.

BANKS SHOW SMALL MARGIN OF PROFIT.

The profits of banks were considered at length and many statements submitted were calculated to show that banking as a business, produces a margin of profit below that of the ordinary industrial enterprise.

In this connection the rate of interest charged on loans received much attention and brought forth an amendment. The authorized rate heretofore, was seven per cent.

It was pointed out that this provision, as the result of Judicial decisions, had long been a nullity. The banks previously have stipulated for whatever rate of interest they chose, and deducted it, in advance, by way of discount from the face amount of the loan.

The amendment adopted by the committee is designed to remove the anomaly and recognises the existing practice, sanctioned by legal decision, that any rate agreed upon may be charged if deducted in advance. If, however, the bank has to recover by process of litigation, not more than 7 per cent can be collected.

After hearing the evidence the committee were of opinion that it would not be in the interests of the borrowing community, particularly the west, if the rate of interest should be strictly limited to seven per cent. It was felt that the banks under such conditions, would not extend their branches to new districts where the expense of administration would be heavy and deposits, in profitable amounts, could not be obtained.

OFFICES FOR TRANSFER OF BANK SHARES.

An important amendment adopted at the closing sitting, establishes transfer offices in the several provinces for the transfer of bank shares.

The provisions of the act have been stiffened with regard to negligence in making returns to the government. Formerly, knowledge and intent had to be established.

The exchange rate has been limited to one eighth of one per cent. and the agency charges to one quarter of one per cent.

A profit and loss return is another new requirement while, in figures as to loans, those to municipalities have to be separated. The public is safeguarded from unscrupulous promoters during the period between the incorporation of the bank and the issue of the Treasury Board certificate.

The idea of a central gold reserve was approved by the committee and supported with one exception, by the witnesses.

It was agreed at the outset that what was looked on as the most contentious clause of all—audit and inspection should be left for a grand field day at the last. When it was reached, it was disposed of in fifteen minutes.

The weight of evidence, while favorable to external inspection, was against government inspection, so Major Sharpe withdrew his amendment to that end.

What was adopted was a clause qualifying and governing the selection of the shareholders' auditors authorized by the act. The rota of auditors—forty in all—is to be selected by the Bankers' Association. The approval of the Minister is necessary.

Against the supposed centralization that comes from mergers, considerable opinion was expressed, but proposals to make them subject to act of parliament were voted down.

The committee devoted 28 sittings to the Bill—12 in hearing evidence and 16 in considering its report. The record surpasses the long hearing accorded to the Insurance Bill a few years ago.

Mr. H. B. Ames proved himself most acceptable as a presiding officer.

PROVIDES FOR AUDIT OF SAVINGS BANKS.

The Hon. Mr. White last night gave notice of a resolution which will provide for audit of certain savings banks in Quebec and is designed, generally speaking, to bring them under the operation of the Bank Act instead of special statutes. The institutions referred to are the City and District Bank and the Caisse d'Economie.

INDIGNATION OVER RECENT ATTACK ON COMMANDER ROPER

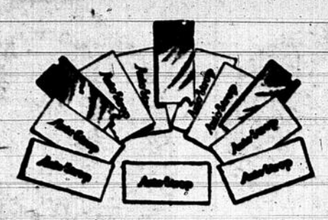

Special to The Montreal Star.

Ottawa, May 9.—The bitter personal attack made upon Commander Roper by Hon. Rodolphe Lemieux in the House Wednesday has provoked a storm of resentment in Ottawa, where Commander Roper was deservedly popular and his service appreciated. Mr. Lemieux insinuated that the Commander, being anxious to obtain a higher salary, prepared the memorandum which has caused the Opposition so much trouble in the naval debate.

The Ottawa Free Press, the local organ of the Opposition, says that it cannot agree with the criticisms that have been passed by some Liberal members upon Commander Roper, who, it goes on to say, "is one of those wholesouled, hearty British Jack tars to whom any underhand act would be abhorrent."

The Free Press adds, quoting the words of Mr. Lemieux:

"To declare that Commander Roper 'sneaked in' this report, that he had no right to prepare it because it had not been officially asked for, and that there was some connection between the Commander's request for an increased salary and that report, is both absurd and unjust."

FAILURE OF MARCONI CHARGES DISCOUNT OIL SCANDAL RUMOR

New York, May 9.—A cable from London to the World says:

The new accusations of Ministerial corruption in connection with contracts for oil fuel for the Navy are discounted by the failure of the Marconi charges. Inquiries show that these allegations are based on the published fact that Lord Murray of Elibank, the Master of Elibank, and chief Liberal Whip, a position he resigned a year ago, signed a contract a few days ago, in his capacity as special representative and partner in the Woodman Pearson firm, with the Colombian Government for certain oil concessions in Colombia, and that the Pearson firm had bid for a contract to furnish the Navy with this oil.

TIMES ADMITS NO CORRUPTION CHARGE.

The Times, which printed these rumors, also published an editorial admitting that no charge of corruption has been sustained against the Ministers in regard to the Marconi transactions, but saying that they were guilty of grave indiscretion, and declaring it the duty of the House of Commons to record its opinion to that effect, unless Stock Exchange speculation is to become a recognized right of Ministers.

As such a resolution would mean the resignation of the Ministers concerned and would break up the Cabinet, there is no likelihood that the majority of the House of Commons will do anything of the kind.

DOWAGER DUCHESS DIES AMONG LONDON POOR.

Special to The Montreal Star.

London, May 9.—The Dowager Duchess of Newcastle is dead. The Duchess, after the death of her second husband, abandoned her west end mansion and lived in Whitechapel for years, working in a Roman Catholic mission for the poor.

To Contribute to Scott Memorial

Special to The Montreal Star.

Ottawa, May 9.—Supplementary estimates, it is understood, will contain provision for a contribution by Canada to the Scott memorial fund. The amount is not yet indicated. When the matter was discussed in the House at the time the Antarctic tragedy was made known, the Premier stated that Canadian sympathy would be expressed in a material way, and this promise is to be implemented.

TO BUILD LARGEST BULK FREIGHT BOAT IN BRITISH EMPIRE

Special to The Montreal Star.

Cleveland, Ohio, May 9.—The American Shipbuilding Company here has closed a contract for the largest exclusive bulk freight vessel ever built in the British Empire. The order was placed by Canadian interests, the deal being closed in Montreal yesterday, Mr. R. B. Wallace, general manager of the company, announced that the boat will be built in the company's yards at Port Arthur, Canada. She will be delivered next season.

The new boat will be the longest vessel on the Great Lakes, and will be eight feet longer than the steamers Col. J. M. Schoonmaker and W. P. Snyder, Jr., of the Shenango Steamship Company, which are the largest American boats on the lakes. They are 617 feet overall.

The new boat will be 625 feet over all, 605 feet keel, 59 feet beam and 32 feet deep.

The steamer will be built by the Western Drydock and Shipbuilding Company of Port Arthur, which is the Canadian plant of the American Shipbuilding Company. Mr. Wallace, who booked the order for the new boat, returned from Montreal to-day. The price was not given out.

The new steamer will have capacity for 450,000 bushels.

Look for this mark Radium Registered on the toe Hosiery

One touch of luxury that the price excuses

The low cost of Radium Hosiery is no criterion of its worth. It is far and away better than the price indicates. Manufactured by new methods, in large quantities, it is possible to bring the price below that ordinarily asked for fine hosiery.

In lisle, no less than in silk weaves, the same outstanding qualities of style, beauty, fit and careful workmanship are plainly visible. Its exquisite texture, and even sheerness, infallibly distinguish it from any other moderate-priced hosiery.

Fashioned and fully made—not a shapeless sack—not pressed into form, but woven to fit, snug and trim with no strain, bunching or binding. That is what Radium Hosiery guarantees you.

In all sizes and colors. At shops that sell men's and women's wear.

PULLS UP EXPRESS AND SAVES TWO LIVES.

Special to The Montreal Star.

London, Ont., May 9.—The Grand Trunk Montreal flyer was held here yesterday afternoon when, as the engineer was coming into London on a down grade, at about fifty-five miles an hour he saw two tots on the cove bridge ahead of him.

By hard work the engineer stopped the express a few feet from where the youngsters had been lying down between the rails looking through the ties to see the water rushing foaming by, eight feet below.

The children gave their names as Harold McGlone, aged five, and Ida Hollin, aged five.

WILL CONSIDER LOSERS IN FARMERS' BANK

Special to The Montreal Star.

Ottawa, May 9.—Claims of sufferers from the collapse of the Farmers' Bank for compensation for their losses, were further urged upon the Minister of Finance yesterday afternoon by a representative delegation. They got the promise of full consideration as early as possible.

Mr. Wallace Nesbitt, K.C., who appeared for the depositors, argued that the granting of the certificate by the Treasury Board must be regarded as the primary cause of the loss.

The Hon. W. T. White, in a general reply, said the bank's failure was most disastrous and marring to the honored record of Canadian banks. He fully recognized the distress resulting from the fraudulent and dishonest operations of the manager of the bank. An inquiry had been held, and the report submitted. He (Mr. White) had asked several of his colleagues to be present at the delegation's hearing, and the petitioner and representatives would be fully considered by the Government in the near future.

Osborne Realty Company, Limited.

PUBLIC NOTICE is hereby given that under the first part of chapter 79, of the Revised Statutes of Canada, 1906, known as "The Companies Act," letters patent have been issued under the seal of the Secretary of State of Canada, bearing date the 25th day of April, 1913, incorporating Maurice Alexander and Robert Victor Colville Sinclair, advocates, Darley Burley-Smith, clerk, and Alfred George Dann, accountant, all of the city of Montreal, in the Province of Quebec, and Jennie Louise Lawrence, stenographer, of the city of Westmount, in the said Province of Quebec, for the following purposes, viz.:—(a) To acquire by purchase or in any other manner, lands and any estate or interest therein, and to hold, improve, sell, lease, or otherwise dispose of the same, and generally to use, and deal with the same; to erect, repair, manage, lease and improve buildings, on any lands which the company may own or in which it may have any interest, and generally to carry on the business of real estate dealers and agents; (b) To subdivide any lands owned or leased by the Company, or any lands in which the Company has any interest, into small lots, town and city lots, to lay out such lands into streets, lanes, parks and squares or otherwise, and to dedicate the same, if so required, to public use; (c) To sell, lease or otherwise dispose of the whole or any branch or part of the business, undertaking, property, liabilities, and franchises of the Company to any other person or company, for such consideration as the Company may think fit, and by such officers and upon such authority as the By-Laws of the Company may provide, and in particular for shares, debentures or securities of any company which this Company is authorized to acquire; (d) To issue and allot as fully paid-up stock shares of the capital stock of the Company as consideration for work done, property acquired or services rendered or agreed to be rendered in furtherance of the objects of the Company, including services rendered or to be rendered to the Company by the promoters of the Company; (e) To generate, accumulate and distribute electricity for electric light, heat and motive power, and to undertake and enter into contracts and agreements for the lighting of cities, towns, streets, buildings and other places, to the extent of any surplus, and to supply all electric light, heat and motive power for any and all public and private purposes, provided always that the rights, privileges and powers conferred upon the company in this paragraph shall be subject to all laws and regulations of the provincial and municipal authorities in that behalf; (f) To do any and all acts and things tending to increase the value of the property at any time held or controlled by the company; (g) To manufacture, buy, sell and deal in goods, wares and merchandise; (h) To acquire by purchase, subscriptions or otherwise and to hold, use, deal with, sell or otherwise dispose of, stocks, bonds, or any other objects similar or in part similar to the objects of this corporation, or formed for, or engaged in, or pursuing any one or more of the kinds of business, purposes, objects or operations above indicated or carrying on any business capable of being conducted so as to directly or indirectly benefit this company, or owning or holding any property of any kind herein mentioned; or owning or holding the stocks, bonds or obligations or any such corporation, notwithstanding the provisions of Section 44 of the said Act, and, while owner of any such stocks, bonds, or obligations, to exercise all the rights, powers and privileges of ownership thereof, and to exercise any and all voting powers thereon; (i) To promote any company having objects similar to those of this company, or carrying on any business capable of being carried on so as to benefit the company; (j) To amalgamate with any other company having objects wholly or partly similar to those of this company; (k) To engage generally in any business relating to real estate and in the course of such business to purchase or otherwise acquire and enjoy any rights, privileges or franchises suitable or convenient for any of the purposes of the company; (l) To aid in any manner any corporation whose stock, bonds or other obligations are wholly or in any manner guaranteed by the company; and to do any other acts or things for the preservation, protection, improvement or enhancing of the value of any such stocks, bonds, or other obligations, and to do any acts or things designed for such purposes; (m) To acquire and take over, as going concerns, the undertaking, good-will, assets and liabilities of any person or company carrying on any business in whole or in part similar to that which the company is authorized to carry on, or possessed of property suitable for the purposes of this company, and with a view thereto to acquire all or any of the shares, or liabilities of such companies; (n) To enter into partnership or any arrangements for sharing profits, union of interests, co-operation, joint adventure, reciprocal concession, or otherwise, with any person or company carrying on or engaged in, or about to carry on or engage in any business or transaction which this company is authorized to carry on or engage in, or any business or transaction capable of being conducted so as directly or indirectly to benefit this company; and to lend money to, guarantee, the contracts, bonds, debentures, and other obligations of, or otherwise assist any such person or company, and to take or otherwise acquire shares and securities of any such company, and to sell, hold, re-issue, with or without guarantee, or otherwise deal with the same; (o) To distribute in specie, or otherwise, as may be resolved, any assets of the company among its members, and particularly the shares, bonds, debentures, or other securities of any other company, formed to take over the whole or any part of the assets or liabilities of this company. (p) To do all or any of the matters hereby authorized either alone or in conjunction with, or as factors, trustees, or agents, for any other companies or persons, or by or through any factors, trustees or agents; (q) To pay all or any costs, charges or expenses preliminary or incidental to or incurred in connection with the promotion, organization, formation, establishment, registration and incorporation of the company; (r) To do all and everything necessary, suitable or proper for the accomplishment of any of the purposes, or the attainment of any of the objects hereinbefore enumerated, or which shall at any time appear for the benefit of the company; (s) The powers in such paragraph to be in no wise limited or restricted by reference to, or inference from the terms of any other paragraph. The operations of the company to be carried on throughout the Dominion of Canada and elsewhere by the name of "Osborne Realty Company, Limited," with a capital stock of five hundred thousand dollars, divided into 5,000 shares of one hundred dollars each, and the chief place of business of the said company to be at the City of Montreal, in the Province of Quebec.

DUKE AND DUCHESS OF WESTMINSTER BOTH FOR DIVORCE

London, May 9.—Preliminary proceedings for divorce have been begun by the Duke of Westminster. It is understood that the Duchess contemplates a counter suit.

The co-respondent named by the Duke is the Duke of Alba, who at one time was reported to be engaged to an American girl, and who is well known in cosmopolitan society.

The case when it comes to trial is likely to create a sensation.

The matrimonial infelicity of the Westminsters has long been a subject of gossip, and reports that one or the other of the pair intended to seek divorce have been frequent for some years. These reports have not had legal foundation hitherto.

The domestic troubles of Hugh Duke of Westminster, and his Duchess have for some time been public property, and divorce proceedings have been freely predicted. Their marriage took place in 1901, and they have two children, Lady Ursula Grosvenor, aged 11, and Lady Mary, aged three.

DUKE IS RICH AND GOOD SPORTSMAN.

The Duchess, daughter of Col. Cornwallis West, is a sister of the Princess of Pless, and her only brother is George Cornwallis West, the second husband of the former Lady Randolph Churchill. The Duke of Westminster, who was born in 1879, is one of the richest men in England, owning 30,000 acres in Cheshire and Flintshire and 600 acres in London. He is chiefly known as a sportsman, especially as a keen poloist.

The open break between the pair came a few months ago, when, after a violent scene, the Duke is said to have ordered the Duchess out of his town residence, Grosvenor House, following a ball given at Buckingham Palace by the King and Queen, to which the Duchess was invited and the Duke pointedly was not asked.

LONGUEUIL CENTRAL PARK

Now that the New South Shore Bridge is a foregone conclusion the tunnel will soon follow.

HARBOR COMMISSIONERS SENT EXTENSIVE PLANS FOR NEW BRIDGE TO CITY OFFICIALS.

IT IS BELIEVED THAT CONSTRUCTION OF NEW BRIDGE WILL BE COMMENCED RIGHT AWAY.

A few words with us now and we will convince you of the wisdom of purchasing lots in this magnificent sub-division which will put you soon among the envied class of successful real estate owners.

Longueuil Central Park is among the most central sub-divisions on the South Shore and considering the excellent location of the property, we claim our prices are far below anything else you can buy in the vicinity. Before buying elsewhere compare our prices and we will convince you.

Our Automobiles will meet all ferries on the Longueuil side all afternoon day after to-morrow.

SUMMER BOARD.

SUMMER BOARD

Think how pleasant it would be to slip away from the stifling city every evening during the summer months and spend the nights in comfort at some cool resort by the water.

Think of having a clean, bright, airy room all your own, with the privilege of taking breakfast with the family before catching the morning train for town.

Think of it in time. Make your arrangements at once. Read The Star's "Summer Board" column regularly every day. If you do not find anything suitable there, put an Ad of your own under "Summer Board Wanted."

RESENTS ENGLISH NEWSPAPER CRITICISM.

Canadian Associated Press.

London, May 9.—The Times correspondent at Toronto appears to resent some of the English newspaper criticisms regarding the Canadian naval situation.

Apropos of this, the Pall Mall Gazette to-day says:—

"We notice that we are rebuked for saying we would rather spend one hundred millions, than see Imperial defence made a party question in Canada. It is hinted quite delicately that we should do better to mind our own business. May we humbly reply that our whole argument was in that direction? We have steadily refused to express any opinion on the rights or wrongs of the Canadian quarrel."

ABILITY—EFFICIENCY—POWER

Star Want Columns are the market where the world of business is seeking ability, efficiency, power.

Star Wants are the clearing house of business activity.

In the strife for success, for advancement and great measure of remuneration for intelligent endeavor, the Want Ads point out chances of many kinds.

Employer and employee, buyer and seller, loser and finder, landlord and tenant find in the Want Columns much of common interest that brings them together for their mutual profit.

The consistent reading and using of Star Want Ads result in many advantageous business deals.

Berlin, May 9. — The last stitch was sewn to-day on the elaborate trousseau and wedding outfit of Princess Victoria Luise, only daughter of Kaiser Wilhelm, who on May 24 will be married to Prince Ernest, of Cumberland.

The bridal veil, a veritable creation of the finest filmy lace and tulle, was started from Hirschberg, in Silesia, this afternoon for Potsdam, being personally transported by Fraulein Marie Hoppe and Margaret Siegert, in whose Silesian lace school it was made.

In Berlin the firm of Wilhelm N. Spitzer placed the finishing touches on the bridal gown. Altogether twenty gowns, including a dozen tailor-made frocks for street wear, will be delivered to-morrow at the Palace. These, with countless boxes of shoes, gloves, etc., and quantities of snowy lingerie, will constitute the Empress' gift to the bride-to-be.

ALD. HOULE SERIOUS IN HIS RESIGNATION

"I have handed in my resignation in all seriousness, and am anxious to go before the electors as a protest."

This was the statement made by Ald. Romeo Houle, who wrote out his resignation and tendered it to the City Council yesterday afternoon as a protest against the twin-boulevard project near the Montreal aqueduct.

The Council does not accept the resignation, however, Ald. Houle has no choice but to remain sitting in the Council nursing his grievance. If his colleagues persist in leaving his letter of resignation on the table as they seem likely to do, Ald. Houle must fulfill his term.

The majority of the Council are naturally opposed to his move, because several aldermen might feel obliged to follow his example, a step which they are not at all anxious to take.

Meanwhile, the resignation has been filed away in the office of the Assistant City Clery, awaiting acceptance.

NORTH END CITIZENS MUST CHANGE THEIR CAR ROUTES.

Citizens of the north end who depend on the Mount Royal cars running between St. Lawrence Boulevard and Park avenue to get to their business and pleasures, will be obliged to change their route for the next six or eight days.

The City is paving Mount Royal avenue in the district mentioned, and as the material is concrete the Tramways Company has been notified to stop the service.

"We would run a single car line along the avenue," said Managing Director Hutcheson to a representative of The Star to-day, "but we cannot go against the instructions of the City," and it will depend how long it will take to do the work before the cars are running there again."

An official of the Roads Department said they expected the cars could run within eight days at the latest.

MR. A. P. HAZEN DIES OF ILLNESS CAUGHT AT WIFE'S FUNERAL

Was Manager of the Bank of British North America in Montreal.

Special to The Montreal Star.

St. John, N.B., May 9.—The death of Mr. Arthur P. Hazen, who since June last has occupied the important office of manager of the Bank of British North America at Montreal, took place this morning at 4.25 at the home of his mother, Mrs. Wm. Hazen, here. His demise comes as a great shock to his friends and is especially sad, following so closely on the unexpected death of his wife.

Mr. Hazen had only returned to the city from Montreal about three weeks ago with the body of his wife, formerly Miss Agnes Isabel Blizard, of St. John, who had died a day or two before.

Soon after her funeral he was himself confined to the house for a few days from a chill he caught while attending it. It was not thought that his illness was of a serious nature, but about a week ago his condition began to cause grave anxiety to his friends. Until the middle of the week, however, it was not thought that it would be fatal, but on Tuesday it was seen that the greatest precautions were necessary, so Dr. Lafleur was summoned hurriedly.

Dr. Lafleur arrived on Wednesday and left again the same day. He regarded Mr. Hazen's condition as very serious, and on Thursday it became critical and last evening it was only a question of time before the end came.

Mr. Hazen leaves two children, one a girl of about two years of age and the other an infant of only a few weeks. He is survived also by his mother, Mrs. William Hazen, one brother, Edward C. Hazen, manager of the Quebec Bank, St. John, and two sisters, Miss Laura Hazen and Miss Harriet Hazen.

At the time of his death Mr. Hazen was manager of the Bank of British North America, Montreal, an office which ranks second to that of the general manager of the bank in Canada. It was only in June of last year that he received the important appointment, and left for Montreal at the beginning of June.

FINANCIAL CAREER ONE OF RAPID PROMOTION.

His abilities as a banker were widely recognized, not only in St. John, but throughout the Maritime Provin

HOPE THAT THREE BRITISH MINISTERS WILL VISIT CANADA

Postmaster-General's Trip Said to Be in Connection with State-owned Cable.

Canadian Associated Press.

London, May 9. — Although no official confirmation can be obtained here, it is reported that the forthcoming visit of the Right Hon. H. H. Samuel, British Postmaster-General, to Canada is connected with the subject of a state-owned cable to link up with the Pacific cable. He will also attend the subsidiary conference in the Dominion, at which other questions of Imperial interest will be discussed, the most important being the problem of defence in its later development. Ministers from other Dominions will also attend the conference.

The Hon. Andrew Fisher, Premier of the Australian Commonwealth, has already informed the Secretary of State for the Colonies that his Government desires to come to a proper understanding with the Home Government on the question of adequate protection of British interests in the Pacific, and that Mr. Harcourt, after consulting with the Admiralty, has replied that consideration of the question must be deferrred until the conference in the autumn.

This decision has been reached owing to the uncertainty at present as to what form of naval policy Canada will eventually adopt. It is pointed out that the original policy of the Dominion contemplated co-operation with Australia in the defence of the Pacific, but Premier Borden's policy has altered that.

Still, the Commonwealth and New Zealand Governments intend to be represented, and they hope that the First Lord of the Admiralty, the Right Hon. W. S. Churchill, and the Secretary of State for the Colonies, the Right Hon. L. V. Harcourt, will attend its meetings as well as the Postmaster-General.

NEVER TRAVELLED BY TRAIN.

Cobourg, Ont., May 9. — Elizabeth Boandy, widow of the late Thomas Western, who has just died here never rode on a railway train. She was born at Wellington, Devonshire, England, where she married.

Sixty years ago Mrs. Weston and her husband came to this country, making the entire trip as far as Cobourg by boat. She was 89 years of age and is survived by three sons.

There Are Suits At The Same Price, But None So Good

We Surprised the Country with Our Values and Are Breaking Sale Records Daily.

We know that there are lots of Suits sold at Fifteen Dollars---made to order clothes as well as ready mades. We want you to compare our product with any that you know of at any price up to Thirty Dollars the suit. We'll take chances on the result.

The test of all value does really lie in comparison, and that is the reason we want you to place ours alongside anything of which you have knowledge.

The very fact that we have made a big success of our business at Fifteen Dollars Suit, made to order, absolutely shows that we must be making a great deal finer article for the price than any other tailor. You know that we've been in business some years now and that we have built up the biggest business in our line on this continent.

An Interesting Public Service

The English and Scotch Woolen Co. was worked to a successful issue on the astonishing basis that under the ordinary conditions of buying and selling cloth and of tailoring a good suit could not possibly be made to sell at Fifteen Dollars.

We realized from the start that unless we could establish a tremendously large business and deal direct with the mills, we actually could not exist on a fifteen-dollars basis.

Even after establishing the company on a huge scale there remained the work of convincing an incredulous public that it wasn't necessary for it to pay thirty or forty dollars for a good suit.

It did take a lot of printers' ink and energy to swing the public, but we have the satisfaction of knowing that we did absolutely convince every man who heeded our call. We have converted thousands to paying the same price for the clothing they wear.

Thereby the English and Scotch Woolen Co. has supplied and is daily fulfilling a needed and an interesting public service.

This Service will cover a 10 mile radius outside of Montreal proper. In later papers we will announce an increase of this radius so as to cover neighboring towns.

Our old customers return to us for more clothes, and new friends are continually flocking to our branches. We are proud of the success that has attended us, and we are not resting on our victory, but are working night and day to give the public even more value.

Styles Expressly Designed for Young Men

THERE is something about our shop and our garments which makes young men enthusiastic.

Every young man wants his personality reflected in the cut, cleverness, and contour of his clothes. We believe that it's our ability to carry out his ideas that best explains that something which brings him here.

We present our $15 Made-to-Order SUITS AT

THERE are some very special values in blue serges in the $15 range. Not thin, sleazy, smudgy, 9 and 10 oz. goods (as will be found elsewhere), but cleanly dyed, firmly woven fabrics weighing 14 to 16 ounces to the yard, and like all our goods sure to give thoroughly satisfactory wear.

to every young man in Montreal, knowing absolutely that they are superior in every way to any ready-for-service or made-to-measure clothing at double the price. We base this assertion on the repeated occurrences of hundreds of this city's best dressed young men who state repeatedly that nowhere else can they get such style, such individuality, such distinctive features, such value as here.

To Visit This Live Tailoring Shop Is a Pleasure In Store for You.

Don't forget it. Don't undervalue our suggestion to look. Hundreds of the most fascinating new patterns and colors to choose from. A guarantee with every garment. We positively keep it unless it pleases you. Do you know of any other tailoring shop that backs its product with the same broad, liberal guarantee?

Better and better $17.50 and $20.00

Fabrics at $17.50 and $20, in which we can take—and do take—still greater pride;—and in variety that surely holds something for every man. Find the same goods at any other good tailors and you'll find, too, that you're asked more—maybe $5, $10, $15 more—but you'll find no cleverer styling, no better fitting, no quicker making, nor have fault to find with the workmanship.

Honesty in Advertising Pays the Same as in Anything Else.

Truth is the very soul of advertising. We wish our every statement to be taken literally. In them we say only what we mean and what we can literally fulfil.

Integrity in all our dealings with the public has been one of the guiding principles of this concern ever since its establishment, and always will be.

At all times we strive to win the confidence of this community. Its belief in us, its entire trust, is the prize that of all others we aim to keep.

By our deeds and our words we seek to establish this bond of confidence between the public and ourselves. To this end we always write our advertisements in simple language impossible to misconstrue.

It will pay you to read carefully every one of our advertisements. You can depend upon them, just as you can depend upon our personal word in the store or out.

Ames-Holden Active in Unlisted---Rally For C.P.R.---Wall Street Stronger

RALLY FOR C.P.R. WAS A FEATURE

The selling power of C.P.R. was once more demonstrated to-day, when from a top to 230 in Wall Street, it romped back to 242 before the close of the afternoon hour.

The London market for the stock was nervous and and sickly easier at 241½ to 241¾, but closed firmer at 241¾.

Wall Street started trading below last night's final dealings being at 240¾ to 240¾.

After the first hour some improvement developed, and London buying called the price to 242 before noon. Montreal would-be-sellers have been an early seller in Wall Street.

In all dealings ranged between, 240¾ and 240¾ in the first hour, joining in the second hour tails to 242.

Brazilian continued quiet and strong at 94⅞ to 95. A great deal of the Canadian holdings are being transferred to London, the stock having been greatly reduced in Montreal and Toronto.

In other respects the dealings were extremely limited in extent, but the tone was mostly strong.

Canadian Pacific rights were Twelfths up ⅛ to 53. Dominion was stronger at 118, and Scotia at 82½.

Of the iron and steels were inactive. The former was firmer 59¾ bid and 50 asked while Power was offered at 226½, the same as yesterday's close.

Other features of the trading were Textile 85, Cottons 41, Twin City 104⅜, and Toronto Rails 142½.

MR. PANGMAN TO BE RE-ELECTED

The annual meeting of the Stock Exchange is taking place this afternoon, and apart from a couple of proposed additions to the committee of management, little or no change in the personnel of the executive is anticipated.

Mr. J. J. M. Pangman, the president, is abroad at present, but it is planned to re-elect him for another term, and the same in the case of Mr. Hartland B. MacDougall, the vice-president.

$6,000,000 THIS WEEK.

There has been engaged at the assay office $2,000,000 gold bars for export to Paris by Saturday's steamer. This makes a total of $6,000,000 taken for Paris this week, or $29,000,000 since the beginning of year, and aggregate shipments out of the country so far this year of $52,086,000.

Spectacular Find of Gold Reported

Special to The Montreal Star.

Swastika, May 9. — One of the most spectacular discoveries so far made in Ontario was made last week on the property just west of the Hohenar Landing, and owned by Tom Burt and the Hunton Brothers.

The vein is in the contact between the Porphyry and the conglomerate, and resembles the quartz from the Foster-Tough-Oakes, and shows plenty of free gold. This discovery has greatly increased excitement in the camp, as it phroved exclusively that the gold area is by no means confined to the Kirkland Lake section.

Japanese Loan Was a Great Success

Paris, May 9.—It is announced that the Japanese loan of 200,000,000 francs, intended to consolidate the Japanese State railway debts, has been met with great success. It is clear that ordinary stocks, and especially industrials, can only suffer from the competition of these issues. Although certain classes of securities have been purchased by syndicates, so as to raise their price, it seems certain that a large number of securities taken en pension by big banks at the time of the panic in October, are beginning to return to the market. Present quotations enable sales to take place without loss. This is an unfavorable feature, which the Bourse takes into account, and it is quite probable that there will be but little recovery before the settlement.

WEEK'S BANK CLEARINGS.

Bank clearings at leading centres this week were:

Opinions from Wall Street

R. M. Bauer—Until there is collateral evidence that the big men actually want the general market to go up, the speculation will unquestionably continue within narrow limits, consequently, trading for quick turns of a point or two will be decidedly preferable for the time being to taking a fixed position.

Chas. Head & Co.—We see no reason to change our opinion regarding the market, and would buy only on weak spots and sell on the rallies.

Oswald Bros.—The market is almost entiecly professional, but offerings of stock seem to be well absorbed, particularly C.P.R.

Jenks, Gwynne & Co.—Aside from a trading position, we see nothing in the market at present, as operations are still under professional control.

J. S. Bache & Co.—Traders were firmly of belief that the market would yield easily to pressure, and were generally on the port side.

Burnett & Co.—There was quite a number of interesting items calculated to affect the Stock Exchange favorably, although they proved ineffective.

E. and C. Randolph—There is nothing to make one expect any immediate change in the general level of prices, and stocks should be bought or sold for short turns only.

AMES-HOLDEN MADE STIR IN UNLISTED

Interest in the unlisted market was stirred to an unusual extent to-day through the sudden activity in Ames-Holden-McCready shares.

Some foreshadowing of this was given by yesterday's enquiry for stock and a good deal of quiet picking up was done at 17 to 19½, a gain of three points over the preceding day's price, which at 16½ marked the low level for the common.

To-day the market opened active and strong and considerable of the stock came out at 20½ to 21½.

In the subsequent dealings the price reacted to 20½ and closed at noon at 20⅝.

The sudden activity appears to be based on the showing in the forthcoming annual statement for the fiscal year recently closed, which, it appears, promises better than was generally expected.

In fact, after paying the 7 per cent. on the $2,500,000 preferred, it is reported there will be a showing of approximately 2 per cent. on the $3,500,000 common stock.

The preferred stock was not nearly so active as the common, but it was much stronger at 79¼, compared with 77½ yesterday.

As the preferred prices are considerably below the underwriting figures, and in view of the anticipated showing, the Street takes the view that a higher range of quotations is warranted, particularly in view of the fact that the decline in the shares was largely due to the necessities of the underwriters and the ineffective efforts to market the shares without causing serious weakness.

The highest for the common this year was 26 and the preferred was at one time up to 83. A previous movement in the shares was checked by the general weakness affecting all issues.

JUPITER OFF TO 47½

Jupiter was off a couple of points this morning on the local Mining Exchange selling at 47¼ to 47½, as compared with 50 yesterday. The break in the Porcupine power plant supplying the mine caused selling here and in Toronto.

CAN. COTTONS' ANNUAL.

Canadian Cottons' annual meeting has been called for Thursday, May 29. The statement to be presented to the shareholders of the company is generally believed by the Street to be an excellent one.

IRON RECORDS IN SEVERAL PRODUCTS

The figures of the April output, at the several departments of the Dominion Iron and Steel Company show a remarkably good month's output.

Records were made in the pig iron, steel ingots and all wire departments, including the wire drawing, wire and galvanized rails, wire mills, all of which showed records.

The total shipments were also very large for the month, and the total was only a shade below the highest record in steel shipments.

The following are the figures in tons of the output in the various departments of the steel plant for April:

Coke	54,610
Pig iron	32,680
Steel ingots	27,400
Steel Blooms	26,850
Steel rails	12,770
Steel billets	7,765
Rods	3,550
Total shipments	32,330

Paris, May 9.—Prices were firm on the Bourse to-day. Three per cent. rentes 85 per cent. for the account. Private rate of discount, 4 per cent.

Mishap at Hollinger Stops Milling Work

Milling operations at the Hollinger mine in Porcupine have been temporarily suspended, owing to a slight mishap to the flume of the Sandy Falls power plant. The necessary repairs will, it is expected, be made within a few days.

Development work in the mine, however, is proceeding as usual, the company's auxiliary—steam plant supplying the needed power.

DETROIT EARNINGS.

Detroit United earnings for the third week of April increased $35,537.

SHORT NOTES OF INTEREST.

Receipts at Trail Smelter for the week ended May 2 were 5,010 tons.

Sawyer-Massey's regular quarterly dividend of 1¾ per cent. on the preferred was declared to-day.

Rumely Company is Reorganized

New York, May 9.—The election of C. S. Funk as president of the Rumely Company, manufacturers of agricultural implements, was announced to-day by the interests that are financing that corporation. Mr. Funk was for six years general manager of the International Harvester Co. The board of directors of the Rumely Company has been re-organized so that a majority of its members represent the interests that have agreed to provide upon unsecured notes $2,000,000 for additional capital.

The board of directors authorized the announcement that the subject of dividends on preferred shares will not be taken up until the outcome of this year's business is known.

SHOE MANUFACTURERS FAIL.

Cambridge, Mass., May 9.—The John H. Cross Company, shoe manufacturers, assigned to-day for the benefit of creditors. The liabilities are placed at $200,000, while it is stated that the assets will be in excess of that amount. It is understood that the assignment was made to straighten out the company's financial affairs preparatory to a re-organization. John H. Cross, of Lynn, is the head of the company.

ANOTHER TERM FOR PRESIDENT OF STOCK EXCHANGE.

MR. J. J. M. PANGMAN.

TOPICS OF THE STREET

Imparting "Tone" to Stock Market

According to a Paris cable, there have been extensive purchases of securities on the Bourse by large interests very intimately connected with European politics.

One report is that the ruler of one of the Balkan States has personally purchased a large volume of securities as a speculation for a rise. This was regarded as the best news that French operators have had for many months.

Another source of information stated that King Nicholas had transmitted buying orders in stocks to the foreign markets.

Unfortunately the information given was not as explicit as it might have been. It was not stated whether the buying orders in question represented a covering of short contracts or purchases on the long side, or, in other words, whether the King was going or coming. It also failed to mention the particular securities which the royal speculator was favoring with his attention.

A few crowned heads around the ticker would at least add "tone" to the market.

Not Much Cheer for Wall Street Bulls

The fate of the tariff legislation in the United States Senate, where it has now reached, is less certain than in the House, where it passed with a large majority, owing to the smaller Democratic majority in the Upper House.

The point of interest to financial circles is, however, that final action on the bill will not likely be reached before the first of August.

Naturally, bear traders will not let up on their attacks so long as there is business uncertainty.

There does not appear to be much hope for bullish sentiment in Wall Street for some time to come.

Public Excitement Won First Round

The opponents of the principle of encouraging the introduction of capital to develop industries and resources in Nova Scotia have won the first round.

Public sentiment there is not open, however, to as grave an accusation as the surface indications would tend to indicate.

Personal feelings were aroused to a high pitch by the remarkable nature of the campaign conducted against the Robert bill.

To such an extent was this carried on that even Premier Murray, who was in favor of the principle of the bill, was compelled to bow to public clamor and allow the bill to be killed.

The history of legislation is full of instances where public excitement failed in the long run to stop progress.

BEARS HAD REVERSE IN WALL STREET

Wall Street (noon). — Failure of the market to respond to the exceptionally favorable crop report of yesterday encouraged bear traders to-day, and when it became apparent after the opening that there was no increase in outside buying, selling pressure was applied.

The result of this selling was not large, and it become obvious that long stocks was not being dislodged, traders reversed their position.

Efforts to cover sent up the list smartly, and before noon Reading, Union Pacific and Southern Pacific sold a point above yesterday's close.

Weakness of certain stocks was based on developments specifically affecting these stocks. Talk of the financial requirements of New York Central and expectation of a large falling off in the monthly tonnage figures of United States Steel influenced the course of these stocks.

After considerable hesitation, the market slowly moved to generally higher levels. The early dealings showed pressure on Canadian Pacific, but the stock rallied nearly two points from the lowest, and there was noticeable strength also in Union Pacific, Reading and Steel, which are the three recognized market leaders. The volume of business was small, and trading continues largely professional. A very encouraging feature is the steady absorption of the new St. Paul bonds at hardening prices.

C. P. R. recovered pretty well, and the fact that even when under attack it did not fall to low level touched on Thursday was regarded as a good sign. There has probably been some covering of shorts on the pretty definite announcement made that present intention of directors is to declare the usual dividend next week.

New York Central touched a new low level at 99¾, and Penna. 111⅝.

CONSOLS LOSE.

Consols were off a sixteenth for each in London to-day, closing at 75⅛ for money and 75¼ for account.

NEW HOCHELAGA BRANCH.

The Banque d'Hochelaga is shortly to open a new branch at St. Laurent, in Jacques Cartier County.

LIGHT TRADING ON LONDON 'CHANGE

London, May 9.—Money was in good demand, and discount rates were firmer to-day. There was a small attendance on the Stock Exchange, and business was light with an irregular tendency.

Home rails, Copper shares and gilt-edged securities hardened on moderate support, but speculative issues eased off and gold mines were depressed by the labor outlook.

American securities were quiet and steady during the early trading, when prices advanced from ⅛ to ⅜ on light covering. Later the list eased off under the lead of Canadian Pacific, and the market closed dull, with values slightly over the lowest.

New London Policy Cause of Loan Failures

The failure of the new Brazilian Government loan of £11,000,000 just offered in London by the Rothschilds, who were left with over 90 per cent. of the issue, reflects strongly the fast-changing conditions in the English money market.

By refusing to participate in all subscriptions and awaiting the appearance of the securities on the open market, when they are usually offered at a discount, the public has found that it can save money.

The failure or indifferent success of a number of recent issues of importance in London is, undoubtedly, due to the new policy of the public.

PACKERS EX-DIVIDEND.

B. C. Packers issues were ex-dividend 2½ per cent. for each locally to-day.

FRENCH RENTE WEAK.

The French Rente continues weak at a decline, 84 for the account. There are various bear rumors, including one that difficulty is being experienced in preparing the new loans that the Government has in contemplation.

STOCK INVESTMENTS

Prevailing prices in Montreal of many high grade Canadian issues permit of their being purchased to give an attractive return on the investment.

PUBLIC NOT READY TO ENTER MARKET

Paris, May 9. — The French Government's $1,500,000,000 francs ($300,000,000) loan may be postponed and treasury notes issued instead, on account of the temper of the public toward low yield issues.

In some quarters it is expected that money rates will now relax considerably, but loanable funds will be in great demand for many months. The fate of the Brazilian loan in London, where underwriters had to take 94 per cent. of the issue, clearly shows that the public are not ready to come into the market yet. They may not do so until all eastern Government loans are offered in the autumn.

WHEAT QUIET, OPTIONS HIGHER

Special to The Montreal Star from the Winnipeg office of Jas. Carruthers & Co.

Winnipeg, May 9.—With the Government report out of the way, the market became more active. Chicago May had a quick bulge of 2c over last night's close, which gave a firm tone to Winnipeg, and our May and July advanced ½c.

The principal buyers were shorts in the May contracts. Cash wheat is very firmly held and offerings small.

There is absolutely nothing doing in Manitobas for export, as American red winter and Duluths are offering at a big discount under our prices.

COUNTRY CHEESE BOARDS.

Brockville, Ont., May 9.—At the regular meeting of the cheese board here yesterday afternoon 1,581 boxes of colored and 648 boxes of white chese were offered. The prices bid by the small number of buyers present reached 10⅞c. Only 24 boxes of colored were sold at this price, the rest being held. On the curb 3,500 boxes were purchased at 10¾c per lb.

Kingston, May 9.—The offerings on the Frontenac cheese board here yesterday afternoon were 30 colored and 225 white boxes of cheese. All sold at 10¾c lb.

U. S. STEEL SHAREHOLDERS.

The books of the U. S. Steel Corporation, which were open for inspection at the last annual meeting, show about 74,000 preferred shareholders and 44,000 common. Employees of the company own about 41,000 shares, so that there must be about 73,000 shareholders aside from those who hold stock under profit sharing plan.

MONOPOLIZE ILLS. GRAIN ELEVATORS

Chicago, May 9.—A monopoly of terminal and country elevators by which half a dozen members of the Chicago Board of Trade control three-fourths of the grain shipped into Chicago was disclosed yesterday in the answer of the Board of Trade to the Government suit charging the board with arbitrarily fixing grain prices through the exchange "call price" rule. The board answered the charges by asserting that the rule was necessary to offset the power controlled by these few men.

The board, in its answer, charges that these unnamed men had made leases with railroads which gave them control of practically all grain elevators in Chicago used as public warehouses, and also of country elevators in the grain districts. Each of the men, it is said, will be allotted the control of grain along certain lines of railroads and the others agreed not to compete in buying or selling.

Through this agreement, it was charged, the men were able to meet and fix a price for grain a cent higher than the Chicago dealers could pay. To meet this situation the "call price" system was devised. The rule forbade trading outside of exchange hours, 10.30 to 1.30 p.m., at prices other than those prevailing at the close of the exchange.

Wholesale Dry Goods Trade is Very Slow

Bradstreet's weekly trade report says in part of the local market:

The uncertainty in European affairs, coupled with stringency of the money market, has had an unfavorable effect in trade matters, and a general contraction is noticeable.

In the wholesale dry goods trade a few sorting orders have been received for seasonable merchandise. Very little business on fall lines, and jobbers are rather inclined to believe that orders will be later than usual this year.

In the wholesale grocery lines, trade has been quiet, all the leading staples, such as teas, sugars, etc., were poor, owing to slow inquiry. There has been more inquiry for flour, anr the market ruled strong.

The outlook for hay is that lower prices will be seen in the near future, as there is more hay coming in than the local market can take care of, and there is hardly any export trade just now owing to the low price realized in the English markets.

Remittances and collections are rather poor. The retail trade has been fair.

SHORTS COVERING PUSH PRICES UP.

From the Special Correspondent of The Montreal Star on the Chicago Board of Trade.

Chicago, May 9.—Sentiment on wheat was practically unchanged this morning and it favored the bull side of the market. May shorts scrambled to get under cover and they bid up the price from 88½ to 90½. July sympathized, selling at 88⅞ to 89¾ and September at 88⅞ to 89½.

It was generally believed that wheat was oversold as early as Monday of this week, and that scattered professionals have been selling that grain, ever since, without giving a great deal of attention to covering on the soft spots seen.

The fact that Liverpool refused to show any great alarm over the Government May crop report on wheat was a great disappointment to the bulls at Chicago. The big English market sold off only ¼d to ⅝d and the spot price there was ¼d higher to ½d lower.

Berlin was off ⅝c and Budapest was 1¼c lower, while there were advances of ¼c to ½c at Paris for wheat and ¼c to 1c for flour. Antwerp was unchanged in price.

The receipts of wheat in the northwest were liberal again to-day at 225 cars, compared with 131 a year ago. Kansas City and St. Louis receipts were 190,000 bushels against 64,000 bushels last year. World's shipments for Monday next were estimated by Broomhall at 8,400,000 bushels, exclusive of North America, while a year ago they were 11,700,000 bushels including North America. A decrease in the amount on ocean passage is expected for this week and a further decrease in the visible supply is assured.

Minneapolis stocks decreased 810,000 bushels for the year, which was 300,000 bushels more than a year ago. Argentine shipments were 900,000 bushels smaller than the previous week at 2,750,000 bushels and were 700,000 bushels smaller than the corresponding time a year ago.

The Argentine visible supply is now 2,240,000 bushels, showing a loss for the week of 1,000,000 bushels and compares with a total of 4,400,000 bushels a year ago.

Primary receipts wheat to-day 611,000 bushels, compared with 463,000 bushels one year ago.

To-day's Closing Prices

MARKET WAS NEXT DOOR TO SLUMBERING

The local market, as well as Wall Street, almost went to sleep this afternoon, brokers here having for the most part only a few investment orders for small lots of preferred stocks to fill.

The principal topic of conversation was the elections at the annual meeting, which was called immediately after the close of the market.

Prices were generally steady, but C. P. R. was offered fractionally under the forenoon closing price, selling at 241 3-8.

Cement was a strong feature at 20 1-2 while Brazilian was 94 7-8.

B. C. STEAMER BURNS—SIR PEOPLE DROWN.

Vancouver, B.C., May 9.—Steamer Ophir, plying from Vancouver northward, was destroyed by fire at 3 o'clock this morning at Brunswick wharf, Canoe Pass, six persons losing their lives.

MILITARY AVIATOR KILLED.

Los Angeles, Calif., May 9.—Lieut. Parks, a military aviator, who started from San Diego this morning on a flight to Los Angeles, was killed at Olive, nine miles north of Santa Anna. His machine hit a tree as he was descending.

PREMIER MURRAY REGRETS KILLING OF HALIFAX TRAM BILL

Special to The Montreal Star.

Halifax, N.S., May 9.—The Robert Tramway Bill was defeated by a vote of 17 to 12 in the House of Assembly yesterday afternoon, the City Bill for a plebiscite was thrown out, and the Hon. Geo. E. Faulkner introduced a Bill to increase the company's capital by $500,000 for the purpose of carrying out the extensions ordered by the Legislature last year, and repealing the restraining legislation.

Premier Murray said he had been accused of altering his position on this question. He denied that entirely. He was surprised at the attitude of Halifax. Mr. Robert had made an open, frank effort to secure legislation which if not desirable from the view point of some people, was at any rate perfectly legitimate. But recognizing that the city had some rights in the question, recognizing the acute public opinion that had developed against the proposal, however unfounded and unwarranted that opinion might be, under these circumstances he was prepared to vote for the three months' hoist.

Premier Murray, the Hon. Mr. MacGregor, the Hon. Mr. Faulkner, Mr. Finn, Mr. McKay and Mr. Smith voting against it with the ten members of the Opposition.

TWO WOMEN SHOT BY LOVERS ARE NOW GETTING BETTER.

The two women who were shot down during the last two weeks by jilted lovers, are reported to be making fair progress towards recovery.

Angelina Reggiana, who fell a victim to Tomasso Bernardi's revolver at the corner of Notre Dame and McGill streets, is convalescent at the General Hospital; while Alphonsine Garceau, who was shot four times by Eugene Laporte, in her home at 24B St. Elizabeth street, on Wednesday afternoon, is getting better.

Physicians at the Notre Dame Hospital state that the latter's condition is not serious.

FEMALE SUFFRAGE WANTED BY W.C.T.U.

Suffrage for the women of Canada was the demand made upon the Right Hon. R. L. Borden, Premier of Canada, and Sir Lomer Gouin, Premier of Quebec, by the Hochelaga County Women's Christian Temperance Union at its session last evening. A resolution to this effect moved by Mrs. A. F. Leggatt, and seconded by Mrs. R. W. McLachlan, was unanimously adopted.

BUILDERS OF MIGHTY SHIPS.

That the attention of the great British shipbuilding and dock firms is at present directed towards Canada is made evident by the frequency with which representatives of various companies visit the Dominion.

To-day brings P. Wigham Richardson, of the well known firm of Newcastle, Swan, Hunter and Wigham Richardson.

Sir John Jackson, one of the biggest canal contractors of the world, has made frequent visits to Montreal in the past few months.

Sir Percy Girouard, a director of the great dock building company, Armstrong, Whitworth & Company, has been spending some time in Montreal and Ottawa.

BOGUS STREET CAR TICKETS.

Albert Beland, the printing pressman, who pleaded guilty to stealing electrotypes belonging to the Montreal Tramways Company, and who also pleaded guilty to the charge of conspiracy to defraud the company by printing and selling street railway tickets, turned King's evidence when brought before Magistrate Lafontaine in the Arraignment Court to-day.

Evelyn Thaw Back to Stage

Special to The Montreal Star.

Southampton, May 9.—On arrival here to-day Evelyn Thaw said she was going to return to the stage at once. She has signed contracts to appear in Music Halls in England at $5,000 a week, and later will be seen in vaudeville in the United States.

EMPIRE DAY OBSERVANCE.

Ottawa, May 9.—Though Victoria (Empire) Day, May 24, falls on Saturday this year and the sentiment has been expressed in some cities that the holiday should be changed to Monday, owing to the fact that Saturday afternoon is generally observed as a holiday and the change would afford a longer week end, no such action will be taken officially.

This announcement was made to-day by Mr. Thomas Mulvey, Under Secretary of State.

There will be no official proclamation of the holiday, of course, for the season that it is a statutory one, fixed for observance on May 24. May 26 (Monday) is the birthday of Queen Mary, but it is not officially recognized as a holiday in Canada.

DERBY BETTING AND CRICKET NEWS.

London, May 9.— Following is the latest Derby betting: Louvois Craganour, 9 to 2; Shogun, 8 to 1; Aldegond, 100 to 7; Sanquhar, Vulcain and Nimbus, 20 to 1; Anner, 25 to 1. Middlesex-Cambridge cricket match was considerably delayed through rain. Middlesex all out for 122.

REPEALS LONG SOO CHARTER.

Albany, N.Y., May 9.—Governor Sulzer to-day signed the Wagner Bill, repealing the charter granted by the Legislature in 1907 to the Long Sault Development Company, for the purpose of developing power on the St. Lawrence river.

The Bill also appropriates $36,320 to be returned to the company for moneys paid the state under the provisions of the charter.

BRANDISHES KNIFE IN STREET FIGHT.

Charged with fighting and assaulting a constable, Pasquale Carleus, appeared before Recorder Geoffrion in Recorder's Court this morning. He pleaded guilty and was fined $3 and costs.

Carleus, who lives at 75 Latour street, was arrested last night by Constable Leblanc, after he had been fighting with half a dozen men on Inspector street. When captured, he was brandishing a long and glittering stiletto.

Constable Leblanc and two citizens narrowly escaped severe cuts. In the end, the constable knocked the knife out of his hand and dragged him off to the police station.

ACID STOMACHS ARE DANGEROUS

Nine-Tenths of All Stomach Trouble Said to be Due to Acidity.

A Physician's Advice on Cause and Cure.

A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a deranged condition of the stomach, which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heart burn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is interesting to note that he condemns the use of patent medicines as well as of medical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary bisurated magnesia, which, by neutralizing the acidity of the food, removes the source of the trouble. He contends that it is as foolish to treat the stomach itself as it would be for a man who stepped on a tack to rub liniment on the foot without first removing the tack. Remove the tack and the foot will heal itself—neutralize the acid and stomach troubles will disappear. Irritating medicines and medical treatments are useless, so long as the contents of the stomach remain acid; remove the acidity, and there will be no need for medicine—the inflamed lining of the stomach will then heal itself. Sufferers from acidity, sour stomach or heart burn should get a small bottle of bisurated magnesia from their druggist, and take half a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes, if necessary, this being the dose which the doctor has found most efficacious in all cases.

ONTARIO CONTRACTOR DIES.

Special to The Montreal Star.

Brockville, Ont., May 9.—William J. Grey, for over fifty years a resident of these parts and in his day an extensive contractor, died yesterday. He was born in New York State, but early in life settled here and had since made his home in Canada.

Mr. Grey was very prominently identified with the Orange Order. Two children survive: Mr. W. E. Grey, the contractor, and Mrs. H. Sanford, both of Brockville.

Corporal Mortimer on His Own.

Special to The Montreal Star.

Quebec, May 9. — Corporal George Mortimer, who created a sensation at Bisley last year, announces that he will leave shortly for England where he will compete independently.

ROYAL YEAST

Toronto Pastor Is Coming Here

Special to The Montreal Star.

Toronto, May 9.—The Rev. Dr. S. P. Rose, of Sherbourne Street Methodist Church, has been invited to the Dominion Square Church, Montreal, and it is understood that a special transfer will be made by the church authorities, the Rev. T. G. Brown, of Sherbrooke, Montreal Conference, coming to Sherbourne Street Church.

The Rev. E. I. Hart, the present pastor of Dominion Square Church, this morning confirmed the above telegram from Toronto, mentioning, at the same time, that the Rev. Dr. Rose two days ago accepted the invitation which had been extended to him.

The Rev. Dr. Rose has a fine record as a preacher and is accounted to be a distinct acquisition to the Methodist Church of Montreal.

DETECTIVE TRUDELLE'S CHANCE OF RECOVERY.

Special to The Montreal Star.

Quebec, May 9.— Detective Pierre Trudelle, who was shot at Lake St. Joseph last week, has a good chance to recover, according to the hospital physicians.

Jean Foisy, his assailant, will be charged with attempted murder.

DECLARES UNION OF EMPIRE NOW RESTS UPON SENTIMENT

Canadian Associated Press.

London, May 9.—Taking as his subject "The Imperial Peace," Sir William Ramsay delivered the Romanes lecture at Oxford yesterday, in the course he referred to Empire Union.

"The notion," said Sir William, "that union and unity could rest safely on considerations of material profit could be set aside. The opinion of modern writers had changed in a remarkable way in regard to this cause. In 1885 one of the greatest historians of Rome spent a week as his guest in Oxford. His conversation turned several times on the future British Empire. His opinion was confident that the Empire had in it the inevitable seeds of dissolution, which were rapidly maturing to their inevitable result. The colonies had nothing to gain from a union with England. The interests of the colonies were opposed to and inconsistent with the interests of Britain. They must go in a direction that was most advantageous for themselves."

What might be for the material and immediate advantage of the colonies, Sir William could not pretend to know, but it was now generally recognized that the union of the Empire rested on sentiment, not on a calculation of apparent material interest. It rested on the possession of common ideals of liberty and free individual development, on historical memories, and on English literature."

Constipation

is an enemy within the camp. It will undermine the strongest constitution and ruin the most vigorous health. It leads to indigestion, biliousness, impure blood, bad complexion, sick headaches, and is one of the most frequent causes of appendicitis. To neglect it is slow suicide. Dr. Morse's Indian Root Pills positively cure Constipation. They are entirely vegetable in composition and do not sicken, weaken or gripe. Preserve your health by taking

GRAND TRUNK EMPLOYES SUSPECTED OF ROBBERIES.

J. Bouchard, a conductor of the Grand Trunk, who was arrested with several other employes charged with having robbed a number of freight cars, was brought before Judge Lafontaine in the Arraignment Court yesterday. He pleaded not guilty, and was remanded until to-morrow, when the others, taken into custody on Tuesday, will also appear.

Donaldson lines: Saturnia arrived here from Glasgow yesterday evening. She carried 271 cabin and 944 third cabin passengers.

GERMAN MILITARY BALLOON IS MISSING.

Koenigsberg, Germany, May 9. — A German military spherical balloon, the Cassioperia, which ascended from this city on Wednesday, is missing with its passengers.

It was last seen in the neighborhood of Pillau, about 25 miles from here, traversing the Frischen Ehrung peninsula in a storm. It was under the command of Captain Von Wobeser, of the second balloon battalion stationed here.

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.
Genuine Castoria always bears the signature of Chas. H. Fletcher.

C. N. R. FLEET TO COMPETE FOR TRADE OF PACIFIC OCEAN

Special to The Montreal Star.

Toronto, May 9.—Sir William MacKenzie, president of the Canadian Northern Railway Company, who returned from England yesterday, announced last night that before the end of the year the Canadian Northern Railway is to be connected direct from Quebec through to the Rocky Mountains, and that the company had made arrangements with the city of Vancouver to inaugurate a fleet of boats on the Pacific Ocean connecting Vancouver and Port Mann and the Orient.

The proposed Pacific fleet will necessitate an expenditure of millions of dollars. It will run in opposition to both the Canadian Pacific Railway and the Grand Trunk Pacific boats.

STEAMER AND FERRY LINES ASSOCIATED WITH RAILWAYS.

The name of the Grand Trunk Railway System is probably not associated in the public mind with steamships and readers of "Steamer Lines and Car Ferries," a new booklet just issued by the Passenger Department will be greatly surprised at the extent of its marine activities.

The publication is pleasingly illustrated, and deals with the following steamer and car ferry lines, all either owned by the Grand Trunk or affiliated with it:—Central Vermont Transportation Company, Ontario Car Ferry Co., Port Huron and Duluth S.S. Co., Grand Trunk Milwaukee Car Ferry Co., Windsor and Detroit Ferry, Northern Navigation Co., Canada Atlantic Transit Co., and Grand Trunk Pacific Steamship Co.

In all these companys compose a fleet of 25 steamers and 7 car ferries divided as follows: 4 on the Atlantic coast, 5 on the Pacific coast, 16 on the Great Lakes, 2 between Cobourg, Ont., and Rochester, N. Y., 2 between Grand Haven and Milwaukee in Michigan, and three between Windsor, Ont., and Detroit, Mich.

CAN'T FIND MATHER.

Although the police and detectives are still looking for Charles Mather, who left his bride-to-be on the day of their intended marriage, no trace of him has been found. It is believed he has left the city. In that case it is not likely he will ever be brought back, as the girl's family are not disposed to spend more money on the case, and will be quite satisfied if he will stay away for ever.

SOMETHING VERY CHARMING IN COMBINATION

OUTING SUITS

And at a surprisingly low price —being regular $20.00 values to sell at

$9.95

Our buyer who is at present in New York expressed them on for Saturday's Sale. He writes that this is one of the most fortunate purchases he has ever made. That means something. In New York they are quite the latest thing and exceedingly popular.

The Coats are of all wool serges, cut somewhat along "blazer" lines. In colors of grey, green, brown, red and blue with white satin collars and brass buttons. While the skirts are of cream serge. One of the smartest and most becoming outing suits shown in many years.

Sizes 14, 16 and 18 only. No Mail, Phone or C. O. D. Orders.

Come early as we have only a limited number of these suits.

See our Window Display.

BABY FELL ON STOVE

Postmaster Says "Zam-Buk Acted on the Burn Like Magic."

Whenever you—or the children—obtain a burn apply Zam-Buk! Takes the fire out of burns like magic!

Mr. A. Summers, Postmaster of Gledhow, Sask., writes: "I would like to bear testimony to the wonderful healing properties of Zam-Buk. I have used it for some considerable time for cuts, bruises, etc., with excellent results, but the most wonderful cure in my experience happened recently when my little child (two years old) fell from his chair onto a red hot heater.

"One side of his face and his ear were just frizzled. I dressed the burns liberally with Zam-Buk every day, and within two weeks the burns were healed. I was afraid my boy would be disfigured permanently, but the skin has grown beautifully, and there is no scar left. I always recommend Zam-Buk to my friends, and would advise everybody to keep a box handy."

Zam-Buk is just as good for cuts, bruises, poisoned wounds, scratches, ulcers, eczema, festering sores, barbed wire scratches, etc., and all skin injuries and diseases. 50c. box. Druggists and stores everywhere, or post free for price from Zam-Buk Co., Toronto. Refuse harmful substitutes and imitations. Have you tried Zam-Buk Soap? 25c. tablet. Best for baby's tender skin.

C. P. R. LINE STEAMERS.

Empress of Britain was reported 190 miles east of Cape Race at 2 p.m. yesterday, and is due at Quebec from Liverpool by 8 a.m. to-morrow.

Empress of Ireland arrived at Liverpool from St. John at 5 p.m. yesterday.

Montcalm arrived at Montreal from Liverpool yesterday.

Lake Michigan is due at Montreal from Liverpool this morning.

Montrose arrived at Quebec from London and Antwerp yesterday.

ALLA NLINE STEAMERS.

Victorian is due to sail from Montreal for Liverpool at noon to-day.

Pomeranian, from London and Havre, for Quebec and Montreal, passed Fame Point at 1 a.m. yesterday.

Parisian, from Boston, arrived at Glasgow, 2 p.m. yesterday.

Corinthian, for Quebec and Montreal, sailed from London via Plymouth yesterday.

Found Two Stowaways.

The C.P.R. liner Montcalm came into port yesterday afternoon and as soon as her gangplank was plated two of her passengers were put in irons. These were young men who had stowed away before the ship left Liverpool, and who subsequently made an appearance on the decks when their stomachs became empty. This is one of the rare occasions on which a stowaway has been brought up to Montreal, the general rule being to land them at Quebec and pick them up on the return voyage. The men were sent up to the Montreal jail and will be carried back to Liverpool when the Montcalm sails from this port.

The Montcalm carried a large cargo. A goodly part of it consisted of expensive wines. A great portion of these wines were consigned to the young cities of the West.

It being necessary to maintain her reputation as the "animal" ship, the Montcalm carried a valuable horse and four valuable dogs. Of these one was a splendid bloodhound. Another was a champion Airdale terrier, and a third a full blooded old English sheep dog, a member of a now very small family. The Montcalm was delayed 48 hours by fog off the Newfoundland banks. The weather was exceptionally thick, and necessitated her proceeding at a rate of some 2 knots per hour.

A small blaze broke out yesterday on the Glenarm Head, and damaged a small part of her cargo of wheat. The crew extinguished the blaze with the aid of a few buckets of water. The Glenarm Head is moored at Windmill Point.

A third class steward named Benton died on the Ascania which arrived yesterday, and was buried at sea.

Warning

The Gatlin Three Day Liquor Treatment, like all great successes, has many worthless imitators and for the protection of the public we urge most careful consideration and investigation of the following:—

The Gatlin is a high-class Scientific Treatment for Alcoholism and is backed by an Institute which has the enviable reputation of being the Only Institute of its Kind possessing a charter of the Provincial Government of Quebec. Only the Gatlin treatment DRIVES the poison OUT of the system—and requires but THREE DAYS in which to do so. It is the only treatment in the world which CURES the drink habit and insures any kind of Permanency. By fuleotism and other methods, eighty per cent of those treated drink again. This is because the nervous symptoms which beset the drinker are treated, and the Poison—the Cause of his drinking—is left in the systems, sooner or later, demand more.

Curing the drink habit in Three Days by the Gatlin treatment at the Gatlin Institute is an Easy matter, with no possibility of failure. There are no Hypodermic Injections, no poisonous drugs, no disagreeable features. Treatment administered under Contract to cure satisfactorily. The Contract, which amounts to a bond, guarantees the return of the fee paid if a satisfactory cure is not effected in Three Days.

Write, call or telephone to-day for booklet and full particulars of the Gatlin Treatment. All cases, enquiries and correspondence strictly confidential. The Gatlin Institute Co., Ltd., 883 Ct. Catherine St. West. (Cor. St. Mark St.), Montreal. Phone Uptown 462. Halifax Branch, 41 Longard Road, Halifax, N. S. The Drug Habit also cured at the Gatlin Institute.

MOTHER

It is a wonderful thing, a Mother. Other folks can love you, but only your Mother understands.

She works for you, looks after you, loves you, forgives you anything you may do, understands you, and then, the only thing bad she ever does to you, is to die and leave you.

—Baroness Von Hutten.

Carnations for Mother's Day

We invite Montreal sons and daughters to wear a carnation on Sunday (Mother's Day), at our expense.

A white one if she is dead;
A pink one if she is living.

We don't think there is any necessity to urge further than by this simple invitation.

This tribute to our mothers is a nation-wide idea, though of comparatively recent origin, and we feel that even the man whose mind is full of enterprise, and whose jaw is set with the tension of business determination, is easily brought back to those earlier days when he knelt at mother's knee and felt the soft caress of mother's hand, and the wonderful depth of mother's love.

We have bought up all the carnations we could secure at a reasonable price, and will begin distributing them on our First Floor Up at 8.30 Saturday morning, continuing as long as the carnations last, up to 12.30.

These carnations are to be given away irrespective of any shopping obligations on your part, and are intended by Goodwins Limited to foster here in Montreal particularly among men, this beautiful idea of Mother day—the 2nd Sunday in May every year.

Come and get a carnation to-morrow, and wear it on Sunday in honor of MOTHER—YOUR MOTHER.

No Place for Customs Brokers.

Special to The Montreal Star.

Quebec, May 9.—In answer to the request of Customs brokers asking for accommodation in the new Customs House of Quebec, the Minister of Customs has given a positive refusal, stating that the Customs House is for the exclusive use of Customs officials and the public.

To Join Stefannsson Here.

Special to The Montreal Star.

Quebec, May 9. — The Allan liner Grampian brought here from Glasgow, Dr. A. Forbes Mackay, who was one of the medical men attached to the Shackleton expedition to the South Pole, and Mr. W. L. MacKinlay, an other member of that expedition to the far north.
