RUSSIAN-AXIS CLASH IN EASTERN EUROPE NEAR

Further Territory Grab From Rumania May Force German Military Action

Rumania Reinforces Troops Along Bulgarian and Hungarian Border to Prevent Loss of Territories Won in First Great War Settlements—German Intervention Believed Responsible for Hungarian Proposals of Compromise to End Border Incidents—Impasse Reduces Food Supplies of Reich.

(By GUY RHOADES, Canadian Press Staff Writer.)

Britain today counted twelve dead and twenty-two injured in the latest series of Nazi bombing raids but Europe's attention was turned mainly to the Balkans where Rumania has made friendly gestures to Germany only to lose two provinces to the Reich's newest "Axis" partner, Russia.

Unhappy Rumania, with a refugee problem on her hands, reinforced her troops along the Hungarian and Bulgarian frontier, fearful lest she lose to them Transylvania and Southern Dobruja, both of which she acquired in First Great War settlements.

Hungary, however, was reported to have acceded to a German hint and proposed a demilitarized zone on each side of the frontier to prevent further border "incidents" which previously she had warned might have "unpleasant" consequences.

Rumania was reported to have made an earnest appeal for German help. Whether Germany's reply was favorable was not definite but the Rumanian Government announced that henceforth Rumania will follow the new orientation of Europe.

Whatever the consequences of new Balkan moves might be for the Balkan states themselves, there seemed little doubt that they would be adverse for Germany whose interest lay mainly in keeping Rumanian agriculture and industry moving smoothly and actively. The Reich could not fail to look askance at the Soviet move into two of Rumania's richest provinces of Bessarabia and Bucovina and near certainty that anything Germany got from there hitherto would not be available hereafter.

Further, she was faced with the possibility that Rumania's other grasping neighbors might not desert but might attempt to seize by force of arms what they have so far sought to achieve only by threats. This would almost certainly leave Germany no alternative but to fight on the Eastern Front.

From the British standpoint such an eventuality would be an undisputed blessing, weaker Germany's hold on the Western part of the continent and rendering still more effective the workings of the blockade.

Even if no fighting occurs in the East events to date probably have done much to insure that Eastern crops will be even shorter than was anticipated and Central Europe so much closer to hunger.

Raids on Britain caused most casualties in an unnamed North Eastern Scottish town (the Germans claimed it was Wick) where children were killed in the streets and men and women in a shop.

The nature of the casualties indicated either that the air raids precautions system was poorly organized or that the public ignored it. Casualties in raided towns are Continued on page 2, col. 6.

Guardians Hold Poor Opinion Of War Prisoners Brought To Canada

Quebec, July 2.—(P)—The first German prisoners from the United Kingdom were encamped. Some were in Canada today after being disembarked at Quebec and Montreal during the week-end.

Shortly after they left the prison ship, the men were rushed to specially-prepared internment camps awaiting them at unspecified destinations. The number of men involved could not be revealed.

The camps will be nameless, but will be listed under letters or numbers. Mail to the prisoners will be forwarded to the proper camp through the Canadian Base Post Office at Ottawa.

Although the location of the camps was not revealed, the office of the Director of Internment Operations at Ottawa issued a statement saying that "most of the camps are so far from civilization and all of them are so well-guarded that there is no occasion whatever for public nervousness."

Days and nights of tense watchfulness on the part of the ship's crew ended when the prisoners were disembarked, some at Quebec and the remainder at Montreal. The 250 British officers and men who guarded them told of sleeping about two nights out of seven on the voyage across the Atlantic.

It was a mixed lot who trooped down the gangplanks at Montreal and Quebec. Some came smiling, hailing each other jocularly, apparently not sorry to be removed from

FLOOD WATERS CAUSE HEAVY DESTRUCTION THROUGH TEXAS

Hallettsville, Tex., July 2.—(P)—Flood waters that brought death and destruction to a wide area in Southeast Texas were subsiding today.

The death toll stood at ten as the estimated damage at \$5,000,000. It was believed all persons had been accounted for in the flood area.

The Gaudalupe, Lavaca and Colorado rivers were still rising at some points but there was no great apprehension.

British Inflict Heavy Loss On Mediterranean Opponent

Four Italian Submarines and a Destroyer Reported Sunk in Three Days by British Air Forces Stationed in Africa—Airdromes and Oil Tanks Suffer Greatly in Continued Bombardment of Italian African Bases.

Cairo, July 2.—(C.P.-Reuters)—Four Italian submarines and a destroyer were reported to have been sunk by British air forces ranging over the Near East from Sicily to the Ethiopia-Kenya frontier.

The submarine were sunk in the eastern Mediterranean between June 27 and June 29 and the destroyer, the Espero, on June 27, a naval communiqué said. (Italy yesterday acknowledged loss of the Espero, a 1,075-ton warship of the "Turbine" class.)

Forty-four survivors were picked up from the destroyer, it was announced, adding that "unofficially it is understood there were some survivors from the submarines who were rescued."

Raids on Italian airdromes and oil tanks, carried out without losses despite heavy anti-aircraft fire, also were reported by the air command. Its communiqué said:—

"A successful raid was carried out on Gondar, Abyssinia, and Azoro yesterday. Aircraft which were dispersed on the airdrome were bombed."

"One bomber was set on fire and five others seriously damaged. Buildings near the hangars suffered direct hits and were set alight."

"A direct hit was scored on a main road."

"This attack by our aircraft was pressed home despite heavy anti-aircraft fire. We suffered no losses."

"A formation of bombers raided an oil refinery and oil tanks at Augusta. As a result of this low bombing attack, the refinery was set on fire. Four minutes later, huge clouds of dark brown smoke were seen."

"All our aircraft returned safely. In the Kenya area, our aircraft have been very active, doing valuable reconnaissance work for the army."

"In the Moyale area, an attack was made on an enemy lorry convoy. Direct hits were registered and considerable damage must have been effected. Two gun positions were hit."

"Yesterday afternoon Mersa Matruh was bombed. Yesterday morning Sidi Barrani and Bir Scagga were visited by enemy aircraft. There were no casualties and no damage."

"Mersa Matruh and Sidi Barrani are on the Egyptian coast. The Moyale area is on the frontier between Ethiopia and Kenya colony. Augusta is on the East Coast of Sicily."

A naval communiqué said:— "British naval air forces operating in the Eastern Mediterranean between June 27 and 29 destroyed four Italian submarines."

"An Italian destroyer sunk by British naval forces June 27 was the Espero. Forty-four survivors were picked up. Unofficially it is understood there were some survivors from the submarines who were rescued."

"The Espero was completed in 1925, carried four 4.7 inch guns and had a speed of 36 knots."

Forty-One Persons Met Violent Deaths Over Holiday Week-End

(By The Canadian Press.)

Canada counted today a toll of at least forty-one violent deaths after the long Dominion Day week-end. It was the country's first wartime Dominion Day in twenty-two years and the holiday was observed quietly with a few patriotic rallies signalling passage of the 73rd milestone since Confederation.

Ontario reported the heaviest loss of life. Twenty persons died in that Province during the three days. Alberta had ten deaths and there were four in Quebec, three in Nova Scotia, two in Saskatchewan and one each in Manitoba and New Brunswick.

The fatal accidents occurred in the wake of a general exodus from the cities to mountain retreats and other resorts. Attendance at numerous sports events in Ontario, Quebec and the Maritime Provinces was reduced by generally unfavorable weather. It was sunny and warm in most parts of Western Canada and the Pacific Coast.

The new United States passport regulations, effective Monday, stemmed the usually heavy Dominion Day flow of traffic across the border.

The worst accident of the week-end occurred in Alberta where six persons lost their lives in a drowning accident. Gene Scheppeler, a farmer, his four children and Fred

Osmond, his hired man, were drowned in Fish Lake, East of Drumheller, when their boat capsized.

William Lick, thirty-three, of Campbellford and Desmond Johnston, twenty-five, of Toronto, were drowned in sailing accidents.

Three persons were electrocuted during the week-end. Daniel O'Neill, twenty-six, and Wilbur Ritchie, thirty-six, died after touching a high-voltage fence which became electrically charged when a high voltage wire fell across it near Pakenham, fifty miles north-west of Ottawa, and John Henry Norway was electrocuted at the Hanada mine in Patricia Township.

There were two drownings in the St. Lawrence River near Montreal. Mrs. Lottie Brown, forty-nine-year-old Montrealer, was struck and killed by an automobile, and William Albert, thirty-one, of Ottawa died at Hull, Que., from injuries suffered in the same way.

Three-year-old Alice Roy died in a fire Saturday at Bathurst, N.B. Leonard Smith, nineteen, and Eric W. Black, twenty-one, were drowned when their boat capsized in Annapolis Basin in Nova Scotia. Injuries suffered in a factory accident were fatal to Herbert D. Silver, thirty-seven-year-old Halifax master mechanic.

Long-Anticipated Announcement Of Government Changes Deferred

Ottawa, July 2.—(P)—The time at which the expected changes in the cabinet will be announced became as much a matter for speculation in the Capital today as the changes themselves.

Col. J. L. Ralston's shift from the Finance Department to the National Defence Department is the only sure-fire thing, having been announced by Prime Minister Mackenzie King some time ago.

But others are due soon, including the appointment of a Minister for the new National War Services Department to co-ordinate voluntary war endeavor. For this post J. M. Macdonnell, of Toronto, has been mentioned as a likely candidate.

Mr. Macdonnell, head of the National Trust Company, is a Conservative and a veteran of the First Great War, having enlisted as a subaltern in 1914 and wound up the war as a brigade major.

Elsewhere, in regard to the cabinet, speculation embraced a defence triumvirate headed by Col. Ralston with Air Minister Power becoming Minister of Home Defence and James Duncanson, of Toronto, presently acting Deputy Minister for Air succeeding to the Air Portfolio.

Unless somebody outside Parliament is drafted for the Finance job Revenue Minister Halsey appears to have the inside track to succeed Col. Ralston.

It may be, with the House of Commons resuming the budget debate today, that Col. Ralston will remain Finance Minister until the debate is completed. He presented the budget a week ago yesterday.

The present debate is not expected to last as long as the usual peace-time budget debates. Other big item ahead of Parliament is the enacting of an unemployment insurance law.

Then, it is expected, prorogation may take place, perhaps as early as July 20th. The Senate does not meet again until July 8th.

NOTED AVIATOR WOULD ASSIST ALLIED CAUSE

Ottawa, July 2.—(P)—Clyde Pangborn, well-known United States aviator, was in Ottawa today to offer his services to the Canadian Government to help in the war effort.

Now a resident of New York, Pangborn arrived yesterday. "If there is any possible way in which the knowledge I have can be used to advantage, I will be more than glad," he said. He spent most of the past six years as a test pilot and consultant to aircraft manufacturers in the United States and England.

Pangborn raced Wiley Post around the world in 1931 but was forced down in Siberia and later in Japan where he was tried on an espionage charge and released after a three-week trial.

Five times in his letter Mussolini began his statement with the words "Italians and foreigners ought to know," showing a desire to make the world believe that Italy had taken part in real warfare.

UNITED STATES HEADS LIST OF OCEAN POWERS

Orders Totalling \$500,000,000 for New Warships Given as United States Seeks Two-Fleet Basis.

Washington, July 2.—(P)—Official figures indicated today that the United States Navy, building at top speed toward "two-ocean" strength, already has become the world's largest both in number of ships and in total tonnage.

Not counting the \$500,000,000 of new warships ordered by the Navy yesterday and almost 100 other vessels under construction, the United States has 395 completed combat ships of 1,327,320 tons.

Latest available figures on the British Royal Navy give its strength on June 20 as 313 ships of 1,277,189 tons. These figures are admittedly inexact, but they take into consideration the best information obtainable on losses suffered in the war.

Whether the United States or the British Fleet is actually the strongest is a matter of conjecture. That depends on many factors—the age of ships, their design, the capability

British Extend Blockade To France As Efforts To Starve Reich Intensify

French Colonies at Present Exempt from Blockade Provisions Pending Determination of Status, British Minister of Economic Warfare Announces—Seek to Prevent Time Loss Through Air Raid Alarms.

London, July 2.—(P)—Britain's blockade has been applied to French ports to prevent goods reaching Germany but has been deferred against French colonies pending clarification of their status, Hugh Dalton, Minister of Economic Warfare, informed the House of Commons today.

Clement Attlee, Lord Privy Seal, said that Dr. Dalton would make a further statement on the blockade in a secret session if the members desired it.

Sir John Anderson, Minister of Home Security, said the Government believed that "in order to defeat the efforts of the enemy to dislocate production in war industries, workers engaged in war production should continue to work after public raid warnings until it is clear that enemy attack is actually imminent in that locality."

The Air Command, he said, would be cautious about sounding air raid alarms to "avoid unnecessary and undue interference with civil life."

Orderly dispersal of the population is part of ordinary defence policy, Mr. Attlee declared in answering a question on the matter, but he said "panic evacuation was opposed."

After War Secretary Anthony Eden had told the House that Czech and Polish soldiers were being reorganized to continue the fight against Germany, Mr. Attlee announced the Government was giving urgent attention to encouragement of French forces able and willing to continue fighting.

Captain Harold Balfour, Under-Secretary of State for Air, told the House, that negotiations for the manufacture of airplane engines in the United States Ford Plant had broken down as a result of Henry Ford's stipulation that he would make motors solely for defence of the United States.

Capt. Balfour said there had been no difficulty or delay in making the most up-to-date British designs available for production in the United States and the Dominions.

War Secretary Anthony Eden said that the military garrison of Northern Ireland had been distributed to the best advantage, but said he could not discuss the dispositions publicly.

Asked whether the British army's plans included Elre, Mr. Eden replied, "There is nothing I would like better."

Air Secretary Sir Archibald Sinclair announced the appointment of Air Vice Marshall A. G. R. Garrod as Director of Aviation Training under a new plan to speed output of trained pilots and flying personnel.

Air Marshal Garrod has been appointed a new member of the Air Council with the title of Air Member for Training.

Sir Archibald said a number of steps already have been taken "which will have the effect of speeding up very considerably the output of trained personnel."

Radical Indian Congress Leader Detained Under Defence Measures

Calcutta, July 2.—(P)—Subhas Chandra Bose, Leftist leader of the Indian National Congress, was arrested today at his home here under the Defence of India Regulations.

Bose is a one-time terrorist and former President of the Indian National Congress Party who has visited both Premier Mussolini and Chancellor Hitler.

He had open differences with Mohandas K. Gandhi more than a year ago over Congress policy and formed his own group, called the Forward Bloc, which demands immediate independence under a threat of nation-wide civil disobedience.

Nationalists public opinion under Gandhi's more moderate influence has made it impossible for him to carry out the threat.

At forty-three, Bose is one of the most prominent of the younger generation of Indian politicians.

He has been arrested twice before. In 1924 he was imprisoned for three years in Mandalay. When his health began to fail the Government intimated he could go to Switzerland provided he sailed to Europe direct without calling at any Indian port.

Bose refused and finally was released in May, 1927.

He was arrested again in 1931 in connection with the Government's campaign against terrorism, but later was allowed to go to Europe because of his health.

Defence Taxation Proposals Meet Greater Opposition In Congress

Washington, July 2.—(P)—Considerable opposition to an excess profits tax on individuals, as recommended by President Roosevelt, was predicted today by Senator Walter George (Democrat, Georgia), who said a similar levy on corporations probably would be enacted.

In line with this comment was a statement from Chairman Robert Doughton (Democrat, North Carolina), of the House of Representatives Ways and Means Committee that such a tax on individuals "didn't work so well" during the last war and was dropped after a year.

To help finance the defence programme President Roosevelt asked yesterday for "a steeply graduated excess profits tax, to be applied to all individuals and all corporate or-

ganizations with discrimination." "It is our duty to see that the burden is equitably distributed according to ability to pay so that a few do not gain from the sacrifices of the many," he added.

CABINET MEMBERS TO TESTIFY

Washington, July 2.—(P)—Frank Knox and Henry L. Stimson, the two Republicans appointed by President Roosevelt, to key defence posts in the Cabinet, were asked to prove their qualifications today before Senate committees which posed the same question:

"Do you want to get the United States into war?"

Stimson, Secretary of State under President Hoover and the Secretary of War under President Taft, was called before the Military Committee's open hearing, while Knox, Chicago publisher, was requested to appear at the same time before the Naval Committee.

Although the Naval Committee met in closed session, its first business was to decide whether to admit the public to Knox's testimony. One committee member, Senator Rush Holt (Democrat, West Virginia), predicted the hearing would be thrown open and reiterated he would "tell everything that happens" if it should be closed.

ZELLER STORE CONTRACT LET TO LOCAL FIRM

Zeller's Occupying Temporary Quarters Until Rebuilding of Store at 26 Wellington Street North Is Completed.

Contract for the rebuilding of Zeller's Limited store at 26 Wellington Street has been awarded to a local contractor, it was announced today at the Executive Offices of the organization in Montreal. Plans for rebuilding were completed a few days ago, it was announced by F. L. Orlandy, Real Estate and Construction Manager of Zellers.

Temporary quarters of the local store have been taken at 20 Wellington Street, where business will be carried on while construction of the new establishment is in progress.

The renovated Zeller store will be dignified and attractive, with modern front of Quebec black granite and grey Indiana limestone. New and modern windows, sixteen feet deep, will be installed. The front doors will be covered with stainless steel and equipped with push bars of artistic design.

A new feature in the store will be a 2,000-square-foot mezzanine for ladies' wearing apparel. This innovation will be well received by women patrons, it is believed, for it will afford a spacious and attractive background in which to shop for the types of merchandise that are usually selected in leisurely fashion.

The main floor will be approximately forty-two feet wide by 133 feet deep, containing about 5,550 square feet, equipped to make shopping a pleasant and easy task.

Throughout the store, installations, fixtures and decorations will be of modern design and will combine beauty with usefulness. Floors will be covered with battleship linoleum. Lighting will be of a semi-counter-sunk holophane type.

Contract for developing the store fixtures has been awarded to E. G. Girard of Sherbrooke.

Plans for the second floor of the renovated building provide for commodious rest rooms for the sales staff, to be comfortably and attractively furnished. The store's offices will also be on the second floor.

Work on the building will commence July 8 and will be completed in the early fall.

LOCAL UNIT TO BE TAKEN INTO C.A.S.F. RANKS

Sherbrooke Regiment, Now Being Mobilized to Full War Strength, Likely to Be on Active Service Before September.

The Sherbrooke Regiment (M.G.) will be taken into the C.A.S.F. before September 1st, it was stated officially here this morning, as the drive to bring the regiment up to full war time strength continues unabated. The regiment unit, which is being mobilized on an N.P.A.M. basis under the command of Colonel M. W. McNulty, is daily increasing its numbers with an influx of recruits from all parts of the Eastern Townships.

The regiment will go under canvas for a period of training, it was made known, and it is expected that it will begin early in August. Although nothing definite has been received on the matter, it is likely that the camp will be held at the Exhibition Grounds right in Sherbrooke. It is believed that the unit will be taken into the C.A.S.F. immediately prior to or immediately following the camp.

It has been announced that the regiment has secured over four hundred uniforms for men enlisting and that more will be obtained as time goes on. Although many of the recruits are men who have had previous experience with the unit, training is beginning from the ground up. All through the training, the regiment will be kept in the line of the first part of the training, common to all arms work. Elementary squad drill and arms drill will occupy the first few parades, and as men become accustomed to the new type of drill, training will proceed to more advanced work.

Plans are being made for training schools for instructors which are to begin almost at once, preference in selection being given to those men who have been the earliest to be attested. The medical officer of the unit will carry out all examinations, it is understood.

tative source today attributed recent "admittedly heavy" merchant shipping losses to increased submarine activity and the fact that British escort arrangements had been "upset" by recent events.

This comment was made upon an official announcement of the British Admiralty that British merchant shipping losses totalling 88,259 tons had been lost from German-Italian action in the week ended June 23.

For the week ended June 16, acknowledged British merchant shipping losses totalling 52,642 tons, the figure was 45,916 tons.

The authoritative source said escort plans had been upset by the French armistice and by the fact that once ships had to be diverted to withdrawal of British, French and other Allied soldiers "all the way from Brest to St. Jean de Luz."

This source said that, although the number of German submarines had increased, it was not to "an alarming extent." He deduced state that "there have not been many losses in the Mediterranean," the source declared, but added that some of the Italian submarines now operating in the Atlantic might be Italian.

Of the total British losses 30,446 tons were lost during combined operations off French ports and "therefore are not mercantile operations in the ordinary sense," it was said.

Actual mercantile losses were put at eight ships totalling 57,813 tons. In the same period, eight Allied ships totalling 36,750 tons were sunk in addition to 33,922 tons lost in operations off the French coast. Neutral losses were put at eleven ships totalling 11,882 tons.

The source said that "in actual tonnage" Britain is better off than she was ten months ago, since losses have been more than made good by new construction, capture and transfers. In addition, it was said, "considerable" tonnage belonging to Allied countries has been "placed at our disposal."

United States Heads List Of Ocean Powers

Continued from page 1.

The \$500,000,000 new warship order was the largest in United States Navy history. It covered eleven cruisers, twenty destroyers, thirteen submarines and a large sea-plane tender.

Other departments kept up with the preparedness pace. The Reconstruction Finance Corporation's two special raw material agencies arranged to buy 150,000 tons of rubber and 75,000 tons of tin for strategic purposes.

The War Department cut short the leaves of 444 recent West Point graduates. The President signed bills providing \$18,500,000 for either construction and acquisition of twenty-five military posts.

Sidney Hillman, labor specialist of the National Defence Commission, announced that the enrollment of 150,000 student workers would get underway immediately to accelerate training of skilled men for armament industries.

In rating the existing United States Navy the world's largest, naval experts also estimated that the present fleet, plus units now ordered or appropriated for, would give the United States a navy equal to any now being built. They include not only British and Japanese but also the fleet that might be formed by a coalition of German, Italian and French sea strength.

REGISTRATION FOR VACATION SCHOOL OPENS

Sunday School Teachers' Association of Sherbrooke Sponsoring Classes Until July 19.

Upwards of fifty children representing the Sunday School in the city turned out this morning for the opening session of the Church Vacation School, which is being conducted this summer as in previous years by the Sunday School Teachers' Association of Sherbrooke.

Classes which are conducted every morning except Saturday are being held in St. Peter's Anglican Church and Plymouth United. No single church was considered large enough to accommodate the number of children expected, which it is thought will reach a total of over a hundred before the school closes, so these churches were selected. It is stated, because of their comparatively central position and their proximity.

The school is divided into two groups, the kindergarten and primary being together in Plymouth Church and the junior section carrying out their activities in St. Peter's. Children attending the school range in age from four to fourteen, with those up to eight years of age being included in the primary section and those from nine to fourteen in the junior class.

Activities planned for the duration of the school include music, singing and games, with handicraft being taught to the boys and sewing and similar work to the girls. A small project in dramatics is also being worked out in the junior department. A course of study is being followed along definitely laid out lines, in which the children will be made familiar with various institutions in the community.

Children from all denominations and from all groups in the city are being welcomed, and it is understood that there is no fee in connection with the school which is being financed by the Sunday Schools of the city. Although children will be allowed to begin at any time, a strong effort is being made to have enrollment completed by Thursday. Parents and others interested in the work will be received at an open house, scheduled for Thursday, July 18th, when work done during the session will be reviewed. The school will close the following day.

Rev. F. A. C. Dossie is director of the project. Mrs. Wallace Garlick is in charge of the kindergarten section, assisted by D. Magwood and Mr. Thomas Sharpe. Mrs. Adair Morrison is in charge of the primary section and is assisted by Miss Margaret Miller, Miss Norah Earnshaw and Mrs. F. A. C. Dossie. The junior department is under the direction of Newton James, with Miss Ruth Hunting, Miss Marjorie Haley, Miss Doris Cliss, Miss Thomas Marshall and Rev. Robert Weaver as her assistants.

Guardians Hold Poor Opinion Of War Prisoners Brought To Canada

from "touchiness" on the part of the ship's crew and guards. As one officer explained: "The real danger was in the presence aboard of so many merchant seamen, who would have been quite capable of handling the ship if they could have got control."

The officer said that the army men caused little trouble, "but those few fellows are an arrogant lot," he called us "swine nearly every chance they got on the way over." Another officer revealed that the merchant seamen were a bit particular too, complaining that the marching of sentries kept them awake at night.

Other members of the ship's crew were more outspoken. "They are a bad lot and there's no doubt about it," commented an engineer, adding that "of course, there were good 'uns too." Another crew member told of how many of the prisoners tore to shreds the gas masks given them before they left British shores. Many of the prisoners failed to hide their amazement when they found that the ship sailed without an escort, after they had bragged that Admiral Beatty's fleet, augmented by the Italian navy, had swept the British Navy from the seas.

The prisoners were not backward, either, in telling their guards that the war would be over "in six weeks," with Germany the winner. Among the prisoners were the captains of some of Germany's famous passenger liners of pre-war days, captured while on transport ships off Norway. They accepted their fate philosophically, and frowned on the behavior of many of their young compatriots, who strutted and boasted of the revenge they would exact in the future.

Further Territory Grab From Rumania May Force German Military Action

bound to be heavy if the people remain in exposed places. Proper observance of precautions will not eliminate air raid losses, but it will greatly reduce the number of casualties and strengthen the morale of the people subjected to the raids.

CHANCES OF PEACE APPEAR BRIGHTER

Budapest, July 2.—(P)—Chances for a peaceful settlement of the issues between Rumania and Hungary appeared somewhat improved today with unconfirmed reports that both Rumanian and Hungarian forces had withdrawn a short distance from the border to avoid further incidents.

German interest in the troubled situation was indicated by a lengthy conference last night between Foreign Minister Stephen Casky and Otto von Erdmannsdorff, German Minister to Hungary, before a meeting of the Hungarian Cabinet.

Some sources said Hungary might consider a settlement in which she would receive only part of Transylvania, the border province she ceded to Rumania in 1918.

Hopes for a compromise were pinned on the possibility of intervention by Germany, who was said to be trying to avert an outbreak of hostilities to protect her own interests in the Balkans.

A repetition of border "incidents" which already have brought a Hungarian protest to Rumania apparently was the only thing necessary, however, to send Hungarian troops marching across the Transylvanian border.

Despite the threatening outlook, informed quarters saw indications that Germany expects a peaceful settlement in the fact that a large fleet of German-made bombers was delivered to Rumania yesterday.

Some observers believed that Hungary's military preparations were intended chiefly to impress Rumania for bargaining purposes, but whatever the reason the country was being placed rapidly on a full wartime footing.

Colums of motorized troops — all heading eastward toward the Transylvanian frontier — roared through Budapest during the night. The Hungarian Foreign Office said that the nation was "preparing for all eventualities."

It was intimated Hungary might find it necessary to intervene to "protect" the Hungarian minority in Transylvania, estimated at about 2,000,000.

Three civilians were reported killed in the "incidents" which brought the Hungarian protest yesterday. Official reports also asserted that Rumanian troops had penetrated Hungarian territory at Visk, but were driven back after an exchange of shots.

Dispatches from Athens said that Greek troops, armed with bayonets, were standing guard on the Rumanian frontier to back the Government's determination to halt any attempt to cut off Eastern Macedonia and Thrace.

RUMANIA PREPARES FOR ANY INVASION

By ROBERT ST. JOHN

(Associated Press Staff Writer)

Bucharest, July 2.—(P)—The Rumanian army rushed more troops to the Hungarian and Bulgarian borders today in fear of invasion after reported attacks there.

A Rumanian diplomatic report said apparently concerted Hungarian and Bulgarian attacks against Rumanian frontier posts had occurred simultaneously Sunday night and Monday morning.

Some official circles said these attacks were a form of pressure on Rumania in Hungary's claim for return of Transylvania and Bulgarian demands for return of Southern Dobruja.

A number of frontier outposts were attacked by Hungarians with rifles, machine guns and even artillery, with casualties on both sides, it was reported. At about the same time similar Bulgarian assaults were made against Dobruja outposts, also with casualties.

The situation further was aggravated by a protest from the Hungarian Government warning Rumania of a "possible unpleasant consequence" of the frontier incidents. Hungary charged Rumanians had penetrated Hungary at Visk.

(A Budapest dispatch said Hungary was on a war footing and dispatch of troops into Transylvania was expected momentarily.)

(The Russian news agency, announced Red army troops had "accomplished their task" along the entire length of the Prut and Danube river frontiers.)

Russian forces were reported withdrawing from some points where they overran the demarcation line and invaded Rumanian territory in their rushed occupation of Bessarabia and Northern Bucovina last week. There were some fears, however, the Russians might try to advance again.

These fears were believed to be the reason for the sudden delivery to Rumania last night of a fleet of German-made bombing planes. The planes landed in Central Rumania. The planes were said to have been ordered by the Rumanian Government but their delivery at this time was believed by diplomatic circles to be a warning to Russia. It was pointed out Germany was not likely to furnish planes for use against her friend Hungary.

The fact that Germany delivered the planes to Rumania was seen as evidence she hopes to settle the differences between Hungary and Rumania without difficulty.

Delivery of the planes also was regarded as significant in that they arrived only a few hours after the Rumanian Cabinet announced it was renouncing the British-French guarantees given in April, last year.

Diplomatic circles said this move definitely placed Rumania in the German orbit and that she was likely to listen to German advice regarding Hungarian and Bulgarian territorial claims.

(Well informed London circles described this action as a "curious gesture," stating the guarantee was given unilaterally, Rumania not having asked for it, and that "if British wishes to carry out its promise she would do so despite such a renunciation.")

The Rumanian Government remained silent. Many acts, such as an Interior Ministry appeal to the population for "solidarity," indicated Rumania was resolved to resist further territorial demands.

Local Man Instantly Killed In C.N.R. Yard Mishap Today

Albert Byham, 46 Years Old. Crushed Under Wheels of Baggage Car When Trapped Between Two Coaches of Sherbrooke-Quebec Train—Inquest Will Be Held Tonight.

Crushed under four wheels of a heavy baggage car, Albert Byham, 46-year-old Laurier Avenue resident, was instantly killed at ten-thirty this morning in the local Canadian National Railway yards.

Byham, employed by the C.N.R. as a baggage inspector, was checking the Sherbrooke-Quebec train and had stepped in between the last two cars, apparently to examine the couplings. While he was between the coaches the train started to move and Byham was knocked down by the baggage car.

Witnesses to the fatality said that Byham's foot became caught at the point where the two rails converged. He was unable to scramble to safety in time and fell along the length of the track.

Gerard Marquis and Theodore Perreault, standing in the door of a garage opposite the C.N.R. station, saw the accident from the time the train started to move, while the train brakeman, Antonio Rheume, also saw Byham fall and shouted to the engineer, George MacLay, to stop. Others who were near the scene of the fatality were Arthur Marcotte, conductor, Howard Oakley, fireman, and Lucien Croteau, baggage man.

Police Director Arthur Marcotte and Constable Leonard Bachmi were on the scene, while Dr. Romeo Veilleux formally pronounced Byham dead. An inquest will be held at the Police Station tonight.

LITTLE DAMAGE RESULTED WHEN TRAIN DERAILED

One of Forty-Six Passengers Slightly Injured in Accident on C.C.R. Line Near St. Gerard.

St. Gerard, July 2.—One of forty-six passengers was slightly injured but little damage was caused to track and equipment when the engine, baggage car and three coaches of the Quebec-Sherbrooke Quebec Central Railway train were derailed one-half mile south of the local station yesterday.

The train, which was due to arrive in Sherbrooke at 9:25 o'clock, came to a quick stop with all cars standing upright on the ties after the engine had left the track, pulling the four coaches down to the ties. None of the passengers were injured.

The passengers were transported promptly from St. Gerard to Sherbrooke and Newport, Vt., by the company's highway motor coaches, and the line was cleared for resumption of traffic early this morning.

LENNOXVILLE CHURCH PICNIC WELL ATTENDED

Sports Programme Featured Annual United Church Outing at Wright's Beach on Saturday.

Although cold and rainy weather curtailed part of the programme in connection with the annual picnic of the Lennoxville United Church at Wright's Beach on Saturday, the outing was enjoyed.

Shortly after ten o'clock Saturday morning between sixty and seventy persons assembled at the church hall and were taken by a number of automobile owners to the beach. Some of the party went in swimming under supervision of competent swimmers, after which the picnic basket was brought out and lunches shared by those assembled.

Frequent showers caused considerable disappointment, but whenever the rain ceased the programme was carried out. After lunch various games were run off with prizes given in each group. The cars with their occupants returned to Lennoxville at three o'clock.

The thanks of the Sunday School executive is extended to all who assisted in any way towards this pleasant event, especially those who loaned their automobiles. Martin Merrill, Superintendent of the Sunday School, and Miss Thelma Crawford were in charge of transportation arrangements. Stanley Pergau had charge of supplies and Allen Willard and Dan Macdougall were responsible for the sports.

The prize list for the races follows: Twenty-five yard dash, girls, 5 years and under: 1 Barbara Cairns, 2 Connie Butler.

Forty yard dash, girls 5-7 years: 1 Yvonne Richardson, 2 Margaret Holmes.

Fifty yard dash, girls 7-9 years: 1 Jean Rowatt, 2 Sheila Richardson.

Fifty yard dash, boys 7-9: 1 Mark Prin, 2 John Langley.

Sixty yard dash, girls 10-12 years: 1 Pauline Statton, 2 Annette McKinnon.

Sixty yard dash, boys 10-12: 1 Allan Sutherland, 2 Jackie Prin.

Seventy-five yard dash, girls 13-15: Muriel Getty, 2 Audrey Stalker.

Seventy-five yard dash, boys 13-15: 1 Clifford Gunderson, 2 Merrill Smith.

One hundred yard dash, girls 15 and over: 1 Phyllis Statton, 2 Fay Butler.

100 yard dash, boys 15 and over: 1 Harold Frizzell, 2 Nelson Raycraft.

100 yard dash, men: 1 Ted Prin, 2 Allen Willard.

100 yard dash, ladies: 1 Mrs. A. Willard, 2 Mrs. Cairns.

Fifty yard three-legged race: 1 Robert McKinnon and Betty Richardson.

Three-legged race, boys: 1 Clifford Gunderson and Merrill Smith.

Tug of war: K. J. McLeod, Robert Woodside, C. H. Aikman and A. Raycraft.

Rev. F. R. Matthews was in his pulpit at the Lennoxville United Church on Sunday morning, and delivered a fine sermon to his congregation. The music by the senior choir and organist included the lovely anthem by Goss, "O Saviour of the World." In the evening Rev. Mr. Matthews spoke from the timely topic, "Prayer and Victory," based on the text from the 42nd Psalm, part of the seventh verse, "Hope thou in God." The choir offered the hymn, "In Heavenly Love Abiding," by Waring.

Miss Jean Campbell, organist and choir director of the Lennoxville United Church, gave a pleasing organ recital following the evening service at that church. She was assisted by Miss Thelma Crawford, whose beautiful tenor voice is well known and much loved, and by Mr. Stanley Pergau, whose correct selections were also featured. The recital was given in aid of the Red Cross Society, and included the following numbers: Organ solo, Miss Campbell, "Vision" (Rheinberger); tenor solo, Miss Crawford, "The Lord's Prayer"; organ solo, Miss Campbell, "Matsins" (Johnston); organ solo, Mr. Pergau, a special arrangement of Nevin's "Rosary"; organ solo, Miss Campbell, "Largo" (Handel); tenor solo, "There Comes Another Tomorrow" (Sibelius); Miss Crawford, organ solo, Miss Campbell, Mendelssohn's "Sonata, No. 1, Adagio"; organ solo, Stanley Pergau, "The Lost Chord" (Sullivan); organ solos, Miss Campbell Schubert's "Serenade," Mendelssohn's three movements, in Sonatas No. 2, "Brave," "Adagio" and "Allegro."

Plan For Evacuee Children Will Be In Operation By End Of Week

Organization of Sub-Committee for Lennoxville and District Took Place Last Evening—Local Committees Flooded with Requests from All Parts of District.

Machinery of administration for the receiving and placing of refugee children from Great Britain in St. Francis and Arthabaska districts will be running at top speed before the end of the week, according to announcements made last night, and the work of listing and tabulating requests for children and information regarding prospective homes will be in full swing.

Rev. Canon Ira Bourassa, Curate of St. Michael's Cathedral, and Rev. Sydney Childs, of the University of Bishop's College, have been named as joint administrators of the central office to be established in Sherbrooke. They will be assisted by Edwin Barrett, officer of the Malayan Civil Service, who is temporarily on leave in Lennoxville. Mr. Barrett will continue in this post for the duration of his stay in this country.

Through the courtesy of the Canadian Bank of Commerce, a room in their Dufferin Street branch here has been placed at the disposal of the committee and once renovations have been completed headquarters will be set up there. It is expected that the administrative staff will move into their new quarters within the next three or four days.

The work of organizing local committees to compile lists of households requesting refugee children and to investigate their suitability as homes has been proceeding rapidly since the luncheon was held last week which inaugurated the scheme and is almost completed. Local committees are reported to have been flooded with inquiries from all parts of the district.

The headquarters committee are expecting within the next day or two the arrival from Ottawa of an experienced social service worker who will thoroughly go over the whole prospective programme, outlining in detail the work of the headquarters staff and of the local committees being formed throughout the district. Steps have already been taken towards the incorporation of the society as the Children's Service Association of the District of St. Francis. This society will be established on a permanent basis and will have charge of all child welfare work in this district.

Organization of the sub-committee for Lennoxville and district to assist in the distribution of refugee children took place last evening at the home of Ven. Archdeacon Albert Jones in Lennoxville. Representatives on the sub-committee were Archdeacon Jones, Rev. J. A. Godbout, Rev. F. R. Matthews, Dr. J. B. Winder, and C. Howard Aikman, Principal of the Lennoxville High School.

Archdeacon Jones, who is a member of the central committee in Sherbrooke, read the report of the headquarters committee and the visit of the delegation to Quebec to interview Dr. Jean Greigore with a view to gaining official sanction of the plan as it had been presented last week.

A discussion of the whole situation took place with special reference to conditions especially relating to Lennoxville and district. It was made known that forms to be filled out by prospective recipients of refugee children were in the process of being printed and would be available to the public within a few days.

Archdeacon Jones was named as chairman of the local committee and Mr. Aikman as secretary. The meeting adjourned to be reconvened at the call of the chair after the central committee in Sherbrooke has begun to function.

QUIET DAY AS CONSULATE IS OPENED HERE

Not One Single Call Received by New U.S. Official Yesterday as Office Opened for Business.

It may have been due to the weather, or perhaps to the holiday, or it might even have been the pervasiveness of human nature, but after having been virtually flooded with enquiries ever since his arrival in town early last week, the new American Consul, Hedley V. Cooke, of Washington, D.C., was left with hardly a single call on the first day on which he was officially open for business.

From his temporarily established headquarters in the New Sherbrooke Hotel, Mr. Cooke stated last night that yesterday had been the quietest day he had enjoyed since he arrived here to take up his new duties. Up until that time, however, he had been subject to a veritable barrage of queries from prospective visitors to the United States. By far the largest portion of these, he stated, have been from persons intending to visit that country as tourists, but two or three enquiries were received from people intending to move there to set up their homes. All such matters, however, will be referred to the legation in Montreal.

The greatest inconvenience, Mr. Cooke said, would be suffered by those Canadians who had established residence in the United States and who had not returned to them before midnight on Sunday. Such people would have to obtain their passports from Ottawa in the regular manner and then have them vised, a process which might take up to several weeks.

A large number of calls had also been received by the Consulate regarding the spending of the past week-end across the line. Many people evidently wanted to spend the holiday in the United States before the new regulations came into force but wanted to make sure they would get back again without any difficulty.

Mr. Cooke said that the Department of State at Washington has instructed its Consular officers that non-immigrant (temporary) visas for the United States issued before June 6, 1940, are no longer considered to be valid unless they have been endorsed as such by an American Consular officer since that date. Therefore, persons possessing such visas and who desire to re-visit the United States should call at the nearest American Consulate before commencing the journey. No Continued on page 9, col. 3.

Large Number Are Attending Diocesan Youth Conference

All Sections of Eastern Portion of Province Represented at Church of England Congress Which Opened in North Hatley Yesterday—Heavy Agenda Prepared for Week.

The sixth Quebec Diocesan Youth Conference under the patronage of Rt. Rev. Philip Carrington, Lord Bishop of Quebec, opened yesterday afternoon at North Hatley when over one hundred young members of the Church of England from all sections of the Eastern portion of the Province registered.

The conference, which is held under the auspices of the Quebec Diocesan Board of Religious Education, is for the purpose of bringing together Anglican youth from all parts of the diocese, and for giving them instruction in work among young people. The programme for the week includes various discussion groups, lectures, sports competitions and plans for dramatics and musical activities.

The conference opened yesterday with an address by the dean of the conference, Rev. W. W. Davis, of Quebec. He spoke of the Church as an army, stating that it was the duty of the youth of the church to enlist for service in that army in the fight to establish the Kingdom of God on earth. This was followed by the roll call by parishes and dioceses, and then Rev. Canon E. R. Roy delivered an address of welcome. Rev. Guy Marston gave a brief talk on "Synods." A good part of the afternoon was given over to informal activities designed to introduce the various delegates to each other.

The programme for the week includes the annual meeting and election of officers of the Diocesan Council of the A.Y.P.A. which is scheduled to take place today, with the new slate of officers being inducted at the evening service. Rev. Professor Elton Scott of the University of Bishop's College will this evening give an account of his trip to the World Conference of Youth held at Amsterdam last summer.

A feature of tomorrow's programme will be an address by the Ven. Archdeacon Gower-Rees, of Montreal. A programme of community singing will be led by Thomas Kealey, of Sherbrooke. Miss Betty Elden, of Three Rivers, will give a talk on the work of the M.S.C.C. and this will be followed by a missionary address by Dr. Florence Haslam, of Kangra, India. The evening programme will be concluded with the showing of a motion picture film entitled "Mystic India."

Presentation of athletic and other awards will feature Friday's activities which will follow a special surprise programme. The annual conference dance will be held later the same evening in the pavilion. The daily programme begins with a celebration of the Holy Eucharist in St. Barnabas' Church with the morning given over to periods of study and discussion with prayers and intercessions being held at regular hours. Following the luncheon held at one o'clock each afternoon will be devoted to sports and social activities. A short period of recreation follows the evening meal, after which addresses are to be given, one by a young delegate being followed by the feature address of the day.

Officers in charge of the conference include Rev. W. W. Davis, of St. Matthew's Church, Quebec, as Dean; Rev. W. H. M. Church, of Valcartier, Chaplain; Rev. N. D. Pilcher, of Quebec, Secretary; Cecil Meade, of Coaticook, Registrar; Rev. E. H. Humphries, of Grand Mere, Treasurer; Miss Mona Bigg, of Sherbrooke, and Miss Annie Johnston, of Thetford Mines, hostesses; and Bruce G. Barrow, of Quebec, organist.

ISOLATIONISM DEFEATED

As the result of the nomination of Wendell L. Willkie as Republican candidate for the United States Presidency, Canadians can take something more of an objective interest in the coming Presidential campaign, as it appears rather definite that the isolationists will play little part in the fight.

True the enigma of the Democratic leadership remains, with the question of a third term for President Roosevelt coming to the forefront, but actually who heads the party means little, for if the President does not present himself again, his successor will be determined by his wishes and will certainly be a man pledged to aid the Allied cause.

Willkie is a strong supporter of unlimited aid to the Allies, short of an actual declaration of war and his nomination was a direct snub to those who sought to make isolation the issue in the campaign. His nomination, coupled with the stand of the Democratic party, will restore the United States campaign to one based on domestic issues, such as the efficiency of the New Deal and the intervention of Government in business. Foreign affairs are ruled out to the benefit of all concerned.

AUSTRALIA'S FINANCIAL PROBLEMS

The often important indirect effects which international developments have upon other countries is indicated by the case of Australia, which Government officials estimate has lost an annual export trade of \$34,000,000 (\$112,200,000 Canadian) with countries that Germany has overrun since the war started. This also involves a probable shrinkage of \$10,000,000 (\$33,000,000) in the Australian customs receipts, necessitating some revision of the Government's plans for financing war expenditures.

The markets that have been lost consumed forty-two per cent of the exportable wool clip, including the trade that formerly went to Germany and Italy. Closing of the French market to Australia leaves only two important wool-buyers outside the Empire—the United States and Japan.

France was Australia's second-best customer for wool, and took eighty per cent of the Commonwealth's exports of sheepskins, which with wool constituted practically the entire Australian export to France.

The United Kingdom has purchased Australia's entire exportable wool clip for the duration of the war, but its capacity to re-sell this commodity has been affected by the enemy occupation of so many customer countries, and the United Kingdom's greatly increased wartime requirements do not compensate for the loss of Australia's continental markets.

Messages from Tokyo say that Japan can take Australia's entire exportable wool surplus and provide satisfactory credits, but as the United States increases its fighting forces it is hoped that the United States will take more wool. American purchases in 1938-39 represented less than three per cent of Australia's exportable clip.

CONGRATULATIONS TO LA TRIBUNE

On Saturday last our French confrere, La Tribune, observed its thirtieth anniversary with the publication of a forty-eight page issue.

This souvenir number reflects great credit upon the management and staff of La Tribune. It is an issue which in every respect does justice to the occasion. La Tribune has made marked progress during the past thirty years. It has grown with Sherbrooke and has played its part in the growth and development of the city and district which it today serves.

Within the forty-eight pages of this anniversary number are many interesting stories dealing with the early days of Sherbrooke and of the Eastern Townships. Numerous pictures depicting scenes, old and new, of the district are also to be found in generous numbers.

As the oldest daily paper in the Eastern Townships, the Record extends greetings and congratulations to its younger confrere and in so doing voices the hope that the future will deal kindly with La Tribune and that it may enjoy many more years of faithful service to Sherbrooke and to the Eastern Townships.

TO BE HAPPY

By Grenville Kleiser.

Happiness is a habit. A bright, hopeful, optimistic attitude of mind is essential to your well-being. There is healing power in a single spiritual idea. Peace, poise, confidence, and contentment are the natural products of a happy disposition. Kindness and appreciation promote happiness. Generosity and good-will have an uplifting influence.

To be happy is not only your privilege, but it is your duty. The power which you have to give happiness to others implies an obligation to do so. Happiness does not depend so much upon great material possessions as upon right mental attitude. There is nothing which will so surely produce happiness in your own life and that of those about you as a uniform habit of kindness and appreciation.

Meditation is a valuable aid in deepening knowledge, correcting judgment, and formulating right plans. By means of meditation you learn to appraise your ideas at their correct value.

When you desire to materialize some important thing in your life, first sit down where you can be silent and undisturbed. Drop all tension of the mind and body. Then mentally outline the thing you want. Dwell upon it until you can see it clearly and in detail. Study it until it becomes as definite as the plans of an architect.

When it is clear and satisfactory to you, concentrate on it until it is deeply impressed upon your mind. Insist upon securing a clear-cut picture. Then proceed day by day to actualize this plan and picture in your life.

The truly great are those who, without sense of humiliation, willingly recognize their own deficiencies and earnestly seek to correct them. The world does not expect you to know everything, but you can make an earnest effort to know essential things. You are weak when you are reluctant to acknowledge your ignorance; you are strong when you place the desire to know and understand above mere personal feeling and appearance.

Let your desire for truth transcend all minor considerations. Ignorance is invariably confident. The man of knowledge learns to realize his own needs. Be honest and severe in your self-appraisal. Learn the art of learning, and you are well on the way to achievement. True greatness is reflective, not assertive.

Sin is ignorance. Noise is inefficiency. Anger is weakness. Hate is waste. Self-pity is selfishness. Discontent is infirmity. Flattery is foolishness. Pride is littleness. Sloth is extravagance. Fear is self-limitation. Worry is blindness. Prejudice is narrowness. Envy is meanness. Resentment is obliquity. Arrogance is ill-breeding. Revenge is savagery.

Simplicity is greatness. Greatness is strength. Poise is power. Righteousness is wisdom. Truth is reality. Faith is aspiration. Generosity is gratitude. Nobility is uprightness. Refinement is sensitiveness. Dignity is high-mindedness. Patience is discipline. Humility is obedience. Purity is consecration. Holiness is wholeness. Love is unselfishness. Happiness is perfection.

Habits that become deeply rooted in your life are often difficult to change. Ordinary resolutions are not usually effective. Such faults as worry, anger, impulsiveness, resentment and impatience can be eliminated only by earnest, persistent, repeated effort. The first step is to recognize the special defects in your character, and next to take every available means to eradicate them.

If you have been thinking the wrong kind of thoughts—thoughts of discouragement, poverty, timidity, limitation—begin at once to substitute the right kind of thoughts—thoughts of encouragement, plenty, confidence and opportunity. The process of substituting right thought habits for wrong ones will gradually bring about the desired transformation.

FROM THE RECORD FILES OF THIRTY YEARS AGO

Three thousand horse enthusiasts from Sherbrooke and other Eastern Townships centres attended the opening day of the running races at the Sherbrooke Fair Grounds sponsored by the Sherbrooke Racing Association.

The Sherbrooke Fire Department was called upon to lend aid to the Bromontville volunteer brigade in seeking to extinguish a blaze which destroyed seven houses in the paper mill community.

The following members of the Richmond Dramatic Club presented a play in connection with the Dominion Day celebrations at Castleton: Melbourne McKee, Carter Edwards, R. J. Hewton, W. H. Dawson, D. H. Parmelee, Constance Cleveland, Grace Campbell and Marion Hewton Edwards.

Joseph Roberge was drowned at East Angus when he fell off the slip of the bridge.

Another international incident threatened when the United States refused to recognize Canadian sovereignty over Hudson's Bay. American fishing vessels and whalers were ordered to pay no attention to orders issued by Canadian Government vessels in the Bay. The whole affair was settled amicably however.

The executive of the Sherbrooke Automobile Club issued a plea to Eastern Townships municipalities to improve local roads and highways.

Work has been commenced on the new power dam and station for the Sherbrooke Railway and Power Company on the Magog River.

OPEN LETTER TO SENATOR KEY PITTMAN.

Dear Mr. Pittman:—The advice you gave to Britain to surrender to Germany on account of her unpreparedness, has been scorned by the British Government, who have emphatically denied your statement of the case, and have proved conclusively the country's readiness to meet the enemy's attacks at any time. All this is very satisfactory, but, as a native-born Canadian, I feel that something was missing from the official summing up of our resources, which, from the nature of the case, could not find a place in a parliamentary report. It is that intangible force, called, with idealism, morale, which in time of crisis grips the heart of a nation and carries it to victory. I have been so moved, Mr. Pittman, by your lack of understanding of British character and resources, that I have taken it upon myself to write to you this open letter.

I am not a soldier; I am a clergyman. My business is not to kill and destroy but to build and spread the Kingdom of God, for the coming of which we all pray. My calling is to set forth Christ and His principles—truth, mercy, love and the brotherhood of man. Just as we are to follow those principles in our life worth while. Now, when we British people hear that Hitler has set up the state as the only ruler of the bodies and souls of men, a ruler to be blindly obeyed and ruthlessly followed, we recognize a principle of evil, so gross, so false, so enslaving, that our whole nature rebels against it. When we read of the remorseless cruelty of the Hitler-made machine, with its blood purges, its concentration camps, its Gestapo police, its persecutions of Christians and Jews, its attacks upon smaller nations, our blood boils and our backs stiffen and we feel that the foundations of our civilization and Christian religion are confronted with an enemy determined on their destruction.

Richer, every man, woman and child of us. Whether in Canada, South Africa, Australia, New Zealand or the Isles of the Sea, we are Britishers. That does not mean that we are all of British blood. Some of our loyal supporters are the Hindu princes of India and Mohammedans of Egypt and Arabia. When I say we are British, I mean that we are people with a national inheritance of liberty and civilization acquired through difficult centuries of past effort. Naturally we are proud of the wide sweep of our magnificent possessions and the glorious hope of a great future. But we are prouder still that there is a conviction at the base of every true British heart that our God-given Empire is a God-given trust to help on the cause of the weak and oppressed, and to bring to mankind, as a whole, the type of life which is ours and yours also, and which both our nations feel most completely approximates to the principles of Jesus Christ, Who gave His life for the salvation of mankind. No true Britisher could sit on one side of a safe wall and hear on the other butal aggressor torturing, starving or murdering human beings, without his climbing the wall and fighting for the defence of the weak and helpless. This sense of duty runs through all grades of British society, from the statesmen who guide the helm down to the humblest seaman in our merchant marine.

I think, although you are chairman of the Foreign Affairs Committee of the noble nation to the south of us, you have not quite grasped the fact of this vision which uplifts the citizenship of every British boy, and fills with courage mothers who realize, from the first, that the babes at their breast may one day be called to tread the path of Calvary in the cause of mankind. It is this principle at the root of our character which has been the secret of our national success. When, some Sundays ago, our beloved King asked for the prayers of our Empire to go up to our Heavenly Father for the obtaining of victory, and a righteous peace, not only were our churches thronged with sincere and earnest prayers, but Hindu temples, earnest prayers ascended to the one Father of Mankind. The significance of this fact, beyond and above our possessions of navy and air force and army, gives us promise that, if there is a God and Heaven Who loves righteousness, our cause will prevail.

Britain has waged many wars in the past but this war, which is not of our making as is proved by our unpreparedness, is different from all that have gone before. Never did Britain engage in a struggle so purely, and so solemnly and so determinedly, as this crusade for liberty and true civilization. The narrow, selfish outlook of Colonel Lindbergh, who, as long as his own skin was safe, could close his heart to the cries of women and children under the brutal advance of armoured cars and the groans of strong men under the lash of oppressors in hideous concentration camps, literally made us revolt and turn sick. If I read your letter aright, you would now counsel the Government of England to remove to this Western Hemisphere, bringing the British Navy with them to be a glorious defence to Canada and to your own country in her manifest unpreparedness. No, No, Mr. Pittman! The British Government is not going to

TWO VIEWS—WHICH IS TRUE?

(Chicago Daily News)

Karl H. Von Wiegand, of the Hearst Newspapers, has had an interview with Hitler, in which the latter ridicules the idea that he has ever had any thought of interfering in North or South America.

But not long ago, another man, Hermann Rauschning, had a number of interviews with Hitler, in which the latter explained his plans for interfering in Mexico and South America.

Hitler's interview with Von Wiegand was given at a time when Hitler had every reason to fear and to desire to prevent intervention by the United States in favor of the Allies. Rauschning's interview was not intended for publication. Rauschning, as President of the Danzig senate until 1934, was one of Hitler's intimates. It was only after he broke with Hitler that he published the conversations, in his book, "The Voice of Destruction."

To Von Wiegand, Hitler said: "At no time has Germany had any territorial or political interest in the American continent. Nor has Germany any such interest now. Whoever states anything to the contrary is lying deliberately for some purpose."

But to Rauschning, Hitler had said: "Mexico is a country that cries for a capable master. It is being ruined by its government. We are the treasure of Mexico soil. Germany could be rich and great... Why should I not make an alliance with Mexico, a defence alliance and a customs alliance?"

And regarding South America, Hitler said to Rauschning: "If ever there is a place where democracy

is senseless and suicidal, it is in South America. We must strengthen these people's clear conscience. Let us wait a few years and in the meantime do what we can to help them... Our youth must learn to colonize... Audacious youth is what we want."

Again, to Von Wiegand, Hitler said: "The so-called 'Fifth-Column' conveys nothing to me because it doesn't exist except in the imagination of fantastic minds or as a phantom created by unscrupulous propaganda."

But to Rauschning he had said: "We shall have friends who will help us in all the enemy countries... Mental confusion, contradiction of feeling, indecisiveness, panic; these are our weapons... America is permanently on the brink of revolution. It will be a simple matter for me to produce unrest and revolts in the United States... Have you forgotten that the declaration of German as the national language was lost by only one vote in Congress? The German component of the American people will be the source of its political and mental resurrection. The American people is not yet a nation... but it is the raw material of a nation. And the Yankees have failed to create a nation from it. They have instead kept their noses in their money-bags. Today this is being avenged. Their difficulties will become insuperable."

Here are two views, two Hitlers. Which is the true one? The Hitler talking to his intimate, Rauschning, in confidence? Or the Hitler talking for publication to Von Wiegand?

PRESS COMMENTS

AERIAL CAMERA—MODERN SPY MACHINE

(St. Thomas Times-Journal)

Time was when foreign military agents in the guise of tourists visited prospective enemy countries, snooped around, made sketches, took photographs and generally acquired information about topography which afterwards found its way into the archives of their war departments. These men were, in effect, spies. Germany kept a very strict watch on tourists with cameras in recent years, and if the outgoing visitors had taken pictures of places which the Nazi police thought should not have been taken, the films and photographs were confiscated.

The modern way of that kind of spying, however, is by airplane and camera. During the first seven or eight months of the war the communiques from each of the belligerent war departments, made frequent mention of "reconnaissance" flights over the British Isles, France or Germany as the case might be. To the uninitiated civilian there seemed no purpose in these flights; he asked himself why the airmen did not drop bombs when they had the chance. On numerous occasions before the Nazis invaded Belgium and Holland they sent their planes over and they were sometimes shot at and shot down. The German excuse was the planes had "lost their way."

There is no doubt, however, that the object of all these flights was simply to take photographs. The respective forces wanted to know where, when the time came, they could most effectively drop bombs. Aerial photography with telescopic lenses, has reached such a degree of perfection that it can make as complete topographic survey as it wants without setting foot on enemy country, showing railway junctions, important factories and everything they want to know. Before the bombers start out they examine an exact layout of the area of attack.

Aerial reconnaissance has largely done away with dangerous ground patrol work. The camera takes its place.

PRISONERS TO CANADA

(Free Press, Winnipeg)

While it is highly desirable to bring as many British children as possible to the safety on this side of the Atlantic, the British Government wishes Canada to give preference to German prisoners and interned aliens who would be sent here for custody because of the danger they might play in Britain in aiding an invading force.

The Dominion Government has immediately agreed to this, but there is no reason why the children should not be brought over and taken care of, also, as soon as their transportation can be arranged. That is the only possible difficulty. There is no conflict between these two services that Canada can render at this time of greatest peril to Great Britain.

The Government will look after the prisoners, and families all over Canada will receive the care for the young refugees. Most Canadians are anxious to help in any and every way they can.

"HERE AM I; SEND ME"

(The Windsor Star)

From now on, no Canadian has any duty, any task, any responsibility, save to help win the war. From now on, everything that a Canadian does, everything he owns, everything he is, belongs to the country and the Empire. In one brief but all-embracing enactment, an awakened Government, backed solidly by every other group in Parliament, has put the whole of Canada into the war. It has decided to fight fire with fire, and that involves assuming and enforcing certain dictatorial powers to meet the threat from dictators. This is the only method by which victory can be assured.

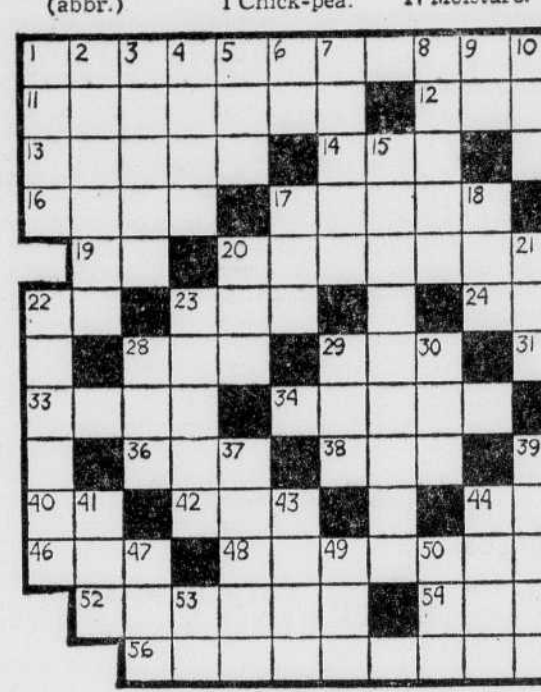

Let there be no cry of protest from any throat in Canada. The Canadian who objects to the powers which the Government has taken,

LONDON CALLING

To Canada—

We need your grain, a bountiful supply, your harvests bear
The obligation to our realm, we all must share,
Send forest products in abundance, then since unity is strength, we need your men.

To Australia—

We need your wool, dispense your aid with lavish hand
Your wheat and gold, abundant wealth at your command
With doubled vigor send your aid and then, To guard the honor of our realm, we need your men.

To South Africa—

We need your wealth, the price obtained from jewels rare,
We must expand for our defence, on land and air.
Power in our land, your gold indeed, But to preserve our freedom, it's your men we need.

To New Zealand—

Your dairy products, exports of your land,
For urgent need must be at our command,
So to our colonies we send the call
For under no aggressor must our Empire fall.

Fort William, Ont.

—Frances Kerr.

who hesitates or tries to evade his duty, at once labels himself as an object of suspicion.

This country has been filled with criticisms of the Government, accusing it of laxity and lack of vigor in the war effort. This is the Government's answer. It has been a long time coming, but now that it has come, it is an answer of which every Canadian should be proud.

To all intents and purposes, the British Empire now stands alone against the powers of darkness menacing the civilized world. Canada is a great part of that Empire, and nothing short of a supreme effort of every sinew could do justice to Canada.

Every Canadian life, every dollar of Canadian money, every tree, every acre of Canadian land, belongs to the Empire in this her supreme hour of need. If these are not offered and given freely today, they will pass into alien hands tomorrow. Canada, together with the rest of the democratic world will sink into "the abyss of a new Dark Age."

No one knows yet what the Government will demand of the Canadian people. We should not bother our heads in wondering what we shall be called upon to do. We should simply and sincerely say to those whom we have placed in authority over us, "Here am I; send me."

ABDICATION IN ABSENTIA

(London Free Press)

Information in the Norwegian newspaper Dagbladet that King Haakon, now in refuge in England, may be forced by Germany to abdicate his throne, is not surprising. When His Majesty was leaving Oslo immediately after the German invasion his car and the Royal party were consistently bombed. On one occasion the King was forced to hide in a forest while Nazi bombers showed the highway with bombs. The Royal cars were riddled with machine gun bullets. We also remember that Germany sought to kidnap Queen Wilhelmina of Holland, and that such a crime was only prevented by the astuteness of Dutch secret agents who discovered the plot and informed the Queen.

It was then that Her Majesty took refuge on a British warship and moved to England.

publish nothing without consent of the German censor, the article on the abdication move reads as follows:

"King Haakon and his Government no longer are in Norway and are powerless to govern any part of the country. The consequences are so grave that the question about King Haakon's abdication may become one of the eventualities Norway shall have to choose."

As Germany continues her campaign and gains more territory the smaller neutrals and all they stand for are disappearing. The issue narrows down to a struggle between Britain and France, with an indefinite degree of help from the United States, and Germany and Italy. If the small neutrals are ever to regain their status it will be as the result of Allied victory. Under German rule they will never be more than colonies. Whether the king abdicates or not is immaterial. In the long run King Haakon will either be restored by the Allies to his throne, or he will spend the remainder of his days a Royal refugee.

NEW DEFENCE MINISTER

(London Post, Regina.)

A man of industry and thoroughness succeeds a man of industry and thoroughness as Minister of Defence for Canada. Col. the Hon. J. L. Ralston who has accepted the post vacated by the regrettable death of Hon. Norman Rogers, is also, like his predecessor, a veteran of the last war. Col. Ralston had a brilliant record in the last war, just as he has had a brilliant record in public life. He was mentioned in despatches a number of times, and it has been recorded of him that he was recommended for the Victoria Cross.

AIM IN THE BALKANS

(London News Chronicle)

We know Germany's aim in the Balkans. It is to avoid the use of force, which would turn South-Eastern Europe into a battleground and concentrate instead on economic penetration which would leave the Balkan States as a dependent neutral fringe of the Reich. We can only foil the German intentions by a patient and persistent diplomatic drive, countering all the Nazis' moves and making moves which they cannot counter. We rejoice that the first step in that drive has been taken.

BETTER PLAY SAFE IF RISKY FINESSE MAY SET CONTRACT

This is the first of a series of five articles based on eliminations, squeezes and coups, as outlined in "Endplays," a book written by George Coffin, of Fitzwilliam, N.H.

West played three rounds of clubs. South trumping the third. The declarer saw that, in order to make game, he must lose only one spade trick. The careless player would simply take the two spade finesses, hoping to find the honors split.

The correct play, however, is to give yourself the extra percentage chance. Pull three rounds of trump, then cash three rounds of diamonds, and now take the spade finesses. With East's particular holding, at this point he will have nothing to return but a spade. If the declarer had found East with the fourth diamond, he still would have had the second spade finess in reserve.

FORCE OPPONENT INTO AN ENPLAY TO DISCARD LOSER

This is the second of a series of five articles based on eliminations, squeezes and coups, as outlined in George Coffin's "Endplays."

When the dummy went down, declarer could see that he had a losing diamond and a losing club. If, however, he could get the opponents to take their club trick immediately, or if East held the ace of clubs, he might be able to work an endplay. So

he cashed four rounds of trumps, cashed his high spade, and then played a low club to dummy's queen. If East took the ace, there would be no play, because the jack could be overtaken with the king and the losing diamond discarded on the ten of clubs. But East refused to win—so the declarer had only one chance, to find East with only two diamonds. He cashed the ace and king of diamonds, then led the jack of clubs. East won but had to return a club.

L.O.D.E. PICNIC POSTPONED

The open picnic which the Sir John Sherbrooke Chapter L.O.D.E. planned to hold tomorrow at "The Pines," Mrs. Malcolm W. Mitchell's country home on Lake Memphremagog, has been postponed until July 17, owing to the continued inclemency of the weather.

All plans for tomorrow's event will be followed at the later date, when the members hope to raise a goodly sum to enable them to carry on their war work.

UNIQUE DRIVE FOR BOMBER FUND

The Stansstead Chapter L. O. D. E. have outlined a scheme of making money for the war services through a "Hot of Pennies" drive which they will hold on Thursday, July 4th. The first penny will be placed at the beginning of the mile, at Rock Island, by Mayor J. E. Holland, and at the Stansstead position by Mayor R. Meekren. Residents are invited to give pennies as liberally as they can to make this unique drive a success.

This Chapter of the L.O.D.E. has received a donation of \$50 for the bomber fund from a friend of the Order who is a resident of the United States. The sum of \$100 has already been forwarded to headquarters for this fund by this chapter.

Red Cross Notes

The Red Cross acknowledges with gratitude the generous cheque of \$4,000 received from the Canadian Silk Products Company through the kindness of A. A. Munster, which is to be used for the purchase of blankets from the Paton Mill for the Red Cross.

The sum of \$25 has been received from the Ladies' Guild of the Church of the Ascension in West Brom for blankets.

The following have donated blankets: Mrs. W. J. Kelly, Mrs. T. Apps, Mrs. Warren, Mrs. Hodges, East Angus; New Brompton Company Office Staff, East Angus; King George V Chapter L.O.D.E.; Sherbrooke Sub-division of the Catholic Women's League; H. WAR EFFORT OF BEDFORD GROUP UNDER REVIEW

Bedford, July 2.—A large number of members and several helpers were present at the regular meeting of the Mississquoi Chapter, L.O.D.E., war work group. Among the many items of knitted articles turned in were socks, caps, scarves and sweaters and included a sweater made by a twelve-year-old girl, Isabella Graighard. This is the second she has made for the Denton Corps. In addition she has made six pairs of socks, a scarf and seven caps since last spring.

The War Work Convenor, Mrs. Harry Jones, read a letter of appreciation from Private Damien Lapierre, son of Mr. and Mrs. W. Lapierre, of Bedford, who is at present in training at Valcartier for a box of field comforts which had been sent him. A letter of thanks has also been received from Private H. Groux, who is with a medical unit in Montreal, for a box of field comforts he received from the Chapter.

Mrs. Jones said that ten other boxes had been given to men enlisted from this district.

It was announced that keen interest is being taken in the making of sets as was requested at the Provincial L.O.D.E. meeting. Some of the members already have completed their sets, one member, Mrs. L. Deleuze, having finished hers in two weeks' time. A set comprises two pairs of socks, a cap, mittens, scarf and sweater.

An appeal was made to all members to remember the campaign for funds for a local contribution to the cost of the bomber donated at the National L.O.D.E. meeting. To aid in this, Mr. Fournier has consented to place a basket in his store window in which donations of gold and silver articles will be placed for eventual sale. Mrs. E. B. Curry has been named Fund Convenor and will receive any contributions for the bomber.

SCIENTIFIC FACTS ABOUT B.O.

DOTTIE always looked attractive... She took infinite pains with her hair, for example, but she was careless about bathing, even in hot summer weather—offended her would-be admirers... And when "B.O."—offensive body odor—comes in, love lies out the window.

All of us have to perspire to live—and this hot humid weather speeds up the time during which sweat left on the body decomposes—turns stale. When this happens YOU have "B.O."

"B.O." can ruin romance, business and social chances. Check it before it starts with Lifebuoy. For Lifebuoy contains an exclusive deodorizing ingredient, not found in any other leading toilet soap. Used in your daily bath, Lifebuoy stops "B.O."—its purifying lather washes offensive sweat deposits away. And Lifebuoy keeps you up—refreshes. Why not take this inexpensive precaution of careful people.

TRIM BLOUSE AND "POCKET-SKIRT"

9358

If you'd "pocket" fashion honors for the season, stitch up this two-piece Marian Martin style, Pattern 9358. Those optional, buttoned patch pockets at either side of the skirt hold nothing but style interest—and aren't they striking? The skirt is cut in just two pieces, and is made on the bias for jaunty flare. The softly tailored blouse has darts at the front shoulders and a yoked action-back. Add a little rounded collar, of Stunnet, and you touch the sleeve with a becoming tuck-trimmed or long full.

Pattern 9358 may be ordered only in misses' sizes 12, 14, 16 and 20. Size 16, skirt, requires 2 1/2 yards 39 inch fabric and short sleeve blouse, 1 1/2 yards contrast.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Marian Martin pattern. Be sure to write plainly your size, name, address and style number.

Send your order to Sherbrooke Daily Record, Pattern Department, Sherbrooke, Quebec.

Goodyear Earnings Top Dividend Needs

"While completed reports for the first six months are not yet available, our total sales for this period will compare very favorably with the same period of 1939 and earnings will continue to exceed dividend requirements," A. G. Partridge, President of the Goodyear Tire and Rubber Company, Ltd., stated today in a letter to shareholders enclosing quarterly dividend cheques.

"In Canada new car and truck registrations are over 30% ahead of 1939," he added.

DENY JAP CHARGES
Hong Kong, July 2.—(C)—British authorities here denied today the Japanese army's charges that Japanese military information supplied to the British had been relayed to Generalissimo Chiang Kai-Shek's forces.

The Japanese made the accusation Sunday, giving it as the reason for discontinuing the information of Japanese army movements in China.

Persons close to the monarch say he never goes out nor has anyone seen him walking in the beautiful gardens surrounding the royal residence on the outskirts of Brussels.

His only companion is his mother, the Dowager Queen Elizabeth.

FOUR CHARGED WITH SLAYING OF IDAHO MAN

Children of Shoshone Merchant Took Umbrage at Manner in Which They Were Treated by Father.

Shoshone, Idaho, July 2.—(C)—Three boys and a girl, who were quoted as saying "We didn't intend to kill him—we just wanted to give him some of the same thing he was giving us," were charged with murder today for the exposure slaying of their father.

Sheriff G. M. Brown signed the murder complaint, naming the four as slayers of Charles Sanders, 48, retired storekeeper at the ghost town of Yale, Idaho.

Brown said the sons, George, 16, and Joseph, 20, their sister, Florence, 18, and her husband, Chester Phillips, 22, were questioned long hours before they finally told the officers all about it.

The sheriff said the four accused Sanders of "mistreating" them.

PIANE PRODUCTION GROWS
Ottawa, July 2.—(C)—Canada, whipping air might into fighting trim to aid the United Kingdom, will be able to complete the whole production programme of the British Commonwealth Air Training Plan without Overseas assistance, Munitions Minister Howe announced today.

Such great strides have been made by the Canadian aircraft industry that the larger part of the original programme which covered two years has been compressed into a one-year plan, the Minister said.

Elementary training planes are already being manufactured in the Dominion on a mass production basis. Of advanced training planes is proceeding in accord with the needs of an accelerated training schedule.

As pilots graduate from their preliminary training in elementary planes advanced training planes will become available from factories. Deliveries of Harvard trainers will begin within a month.

Nearly 200 elementary training planes have already been delivered from Canadian plants, Mr. Howe revealed. One Canadian plant is producing more than two of these planes a day. By the end of 1940 Canada will have produced all the elementary training planes required by the plan which specifies that 800 Harvard trainers will be delivered.

At the same time the Minister announced the appointment of R. P. Bell of Halifax to the Executive Committee of the Munitions and Supply Department. Mr. Bell will be responsible for co-ordinating the entire aircraft production throughout the Dominion and accelerating, beyond its present speed, the output of the aviation industry.

LOCALS WIN THREE GAMES OVER WEEK-END

Klivak Crew Gains Two Full Games On Leaders

Sherbrooke Moves Over St. Hyacinthe into Fourth Position, Only One Game Out of Runner-Up Berth—Routs St. Hyacinthe 16-3 and Tops Drummondville 6-5 and 3-2 for Clean Sweep—Thirty-Five Hit Barrage Includes Five Home Runs.

It was a great week-end for the local ball club. In fifth position and four and a half games behind the Provincial League-leading Granby Red Sox on Saturday, Sherbrooke now holds fourth place, only two and a half games away from the top and a mere game behind Quebec and Three Rivers, who are deadlocked for the runner-up position.

George Klivak, who did it this way, Sunday afternoon, and Sherbrooke 16, St. Hyacinthe 3 and Sherbrooke 3, Drummondville 2 on Sunday.

Granby found the sledging hard over the week-end and holiday, dropping a 6-2 decision to Drummondville and bowing 5-4 to St. Hyacinthe on Sunday before sneaking out a 5-4 victory over Three Rivers yesterday. Three Rivers dropped three games, losing 8-1 and 15-7 to Quebec on Sunday.

Demonstrating their fighting spirit with a vengeance as they stepped out of a bad slump, the Sherbrooke players banged out a total of 35 base hits in their three-game sweep. Included in the barrage were five home runs—two each by Eddie Albertson and Ray Cote and one by Joe Wolkoski—seven doubles, two by Don Pill, Albertson, Wolkoski and Jack Kimble.

The locals started off on the right foot in Drummondville, taking a lead in the early innings and choking off a threatening Tiger rally in the eighth, in which inning the game was called because of rain. Cote clouted his two home runs in this encounter, while Albertson poked one of his week-end pair, both leads driving in two runs, Marion and Klivak each hit safely twice.

At St. Hyacinthe, Sherbrooke led off on Bruno Stodt, their greatest display of power to date, collecting no less than 18 good pokes. Joe Wolkoski clipped out a home run and a double, while Albertson, Klivak, Kimble and Cote also hitting for two bases. Marion, Metoskie and Kimble each had three with four for five. Kimble went the distance for Sherbrooke, allowing twelve hits but receiving errorless support in the field.

A moving picture finish sent the fans home happy here Sunday night. With Drummondville leading 2-1 in the seventh, Albertson cleared the left field barrier with none aboard to tie the score, and in the ninth Pill doubled and Albertson singled him home with the winning margin.

A crowd of approximately 1,000 braved the threatening weather to cheer the team on to victory, and there was more enthusiasm in the stands than in many a moon. Sensing that the players were victory-bound the fans gave them a good hand all the way.

Donald Doe Defends Junior Golf Championship Of E. T.

Provincial Junior Champion Keeps Townships Crown, Beating Out Sherman Peabody, of Country Club, by Single Point as Local Boy's Driving Finish Just Misses—Doe Posts Brilliant 69 in Opening Round—Granby Wins Team Prize.

Granby, July 2.—Donald Doe, youthful member of the Granby Golf Club, who holds the double title of Junior champion of the Province and of the Eastern Townships, successfully defended his Eastern Townships title on Saturday over his home course. Fifteen boys, representing only three clubs of the E. T. Golf Association, competed in the annual junior event sponsored by the Association.

It was realized that the title would probably fall to one of three boys, namely, Donald Doe, Sherman Peabody or Allan Reith, and final results found these three grouped in that order. After the first round it looked as though young Doe had the competition safely in hand. Only once in trouble and putting like a veteran, Doe, with one seven and eight threes on his card, turned in a splendid sixty-nine, Peabody, one of the finest putters in the Eastern Townships, could not find the tricky Granby greens, and the morning round found him trailing Doe by nine strokes. Reith with a seventy-nine was ten strokes behind. In the afternoon round Peabody hit his stride and hole by hole whittled down Doe's lead, until, standing on the last tee, he was only a single stroke behind.

From the last tee Peabody drove to the front of the green while Doe was trapped to the right of the green. It looked as though the match might be tied. Doe, however, played out of the trap and was down in four. Peabody had a twelve-foot putt to tie. His first putt hit the back of the cup but refused to drop. And Donald Doe, the defending champion, finds himself Eastern Townships Junior champion for another year but only after one of the finest, closest and most exciting final rounds that has been seen in the many years this event has been held.

Granby's first team, composed of Donald Doe, 149; Allan Reith, 155; John Bergeron, 164, and Billy Doe, 172, romped off with the J. J. Mitchell team prize with a total score of 640.

Granby's second team, composed of John Stohn, Bill McDonald, Robert Lewis and Veldon Laurie was second with 708, while Sherbrooke's only team was far behind.

In the years that this competition has been held the Granby juniors have won the lion's share of the spoils. And there is a reason for this situation. Granby boys take a great interest in the game. They are at it constantly during the short golfing season and they receive every encouragement from the club officials and the older members. It is no wonder that Granby has produced so many junior and senior champions.

The prizes were presented by B. N. Holm, secretary of the E. T. Golf Association, who was in charge of the tournament.

Following is a list of those who competed:

Donald Doe, Granby	69-80-149
Sherman Peabody, Sher.	78-72-150
Allan Reith, Granby	73-76-155
John Bergeron, Granby	79-85-164

ROCHESTER IN SECOND SWEEP FROM MONTREAL

Red Wings Take Dominion Day Doubleheader 5-3 and 5-1, Dropping Royals into Second Division.

Nomination for the most valuable player in the International League, as of July 1—John Berly, the veteran "Fireman" of the Rochester pitching corps.

There's no way of showing just how much Berly has had to do with keeping the Red Wings in the league lead, but one of the greatest fears of Rochester fans when Billy Southworth was moved up to manage St. Louis Cards was that he might take the relief ace with him.

Berly doesn't appear as winning or losing pitcher often and he hasn't started a game this season. But since his first appearance on the May 23, he has taken part in 15 of the 48 games the Red Wings have played. More exactly, Fireman John has credit for two victories and one defeat and has served without official credit in nine more winning games and only three that were lost.

He played his usual role yesterday as the Red Birds swept the Dominion Day double-header at Montreal 5-3 and 5-1. He took over from Mike Ryba in the ninth inning of the opener with Rochester leading by two runs, only one out and two runners on base. Berly needed only three pitches to retire the side, getting George Staller and Jimmy Ripple, two dangerous clouters, on pop ups. It was typical of the kind of valuable chores he performs.

Rochester's third straight double victory since Tony Kauffmann became Manager added only a half game to Rochester's lead, as Newark's second-place Bears belted over Baltimore Orioles, 6-2, but Montreal was dropped back to fifth place, one percentage point behind Baltimore.

One other change in the standings yesterday saw Toronto Maple Leafs climb past Syracuse into seventh place by a five-point margin as they whipped Buffalo 10-9 and 4-1. The third-place Jersey City Giants collected a 9-4 "gift" victory over the Chiefs.

BROWNS BATTER CLEVELAND FOR UPSET VICTORY

St. Louis Browns had better not expect any more "help" from their fellow American League clubs.

The team that finished a poor eighth last year and had to be strengthened during the winter by means of a series of deals following a reported plea for assistance is causing more turmoil than the junior circuit has known in years.

They knocked Boston Red Sox out of first place 10 days ago and last night they undermined Cleveland Indians' standing with a 2-1 victory. This shaved the Tribe's first-place margin to a single game over Detroit Tigers.

St. Louis Cardinals crowded out Cincinnati Reds 3-2. This enabled both Brooklyn Dodgers and New York Giants to advance on the National League leaders, Brooklyn to within half a game.

The Dodgers got seven hits and the Phillies eight, but Brooklyn triumphed 4-3 with the help of a three-run assault on Hugh Mulcahy in the first inning.

Big Buck Newsom got his 11th straight victory as Detroit Tigers took Chicago White Sox into camp 3-1. The Tigers were out-hit 6-5.

New York Yankees and Washington Senators shared 20 hits evenly, but the world champions easily won 8-4 with the help of five Washington errors and the wisdom of Hal Chase, who hit three batsmen, walked four and made two wild pitches.

The day's only game decided strictly on slugging was a 9-1 triumph by Philadelphia Athletics over the struggling Boston Red Sox. The A's made 15 hits, two of them home runs by catcher Frank Hayes.

Galento-Baer Tiff Expected To Attract Crowd Of 30,000

Two-Ton Tony Assured Another Shot at Champion if Victorious Over Slapsie Maxie at Jersey City Ball Park Tonight—Galento Called to Win, Probably by Knockout.

Jersey City, July 2.—(P)—Those two upstanding heavyweights, Tony Galento and Max Baer, meet in a 15-round fight at the local ball park tonight, providing, of course, that Tony doesn't get crowned by a relative before he can climb into the ring.

Around 30,000 fans are expected to watch the two veterans fight it out (about 9 o'clock E.S.T.) for the right to meet Champion Joe Louis in a September bout. At least, Galento is assured another shot at the champion if he wins tonight. Baer might possibly line himself up for a return with Louis, somewhere, but he would have to whip the socks off Galento to make Promoter Mike Jacobs and the customers forget his last outing with the big bear.

Nothing has happened to change the widespread opinion that Galento will win, probably by a knockout. Tony couldn't possibly get himself into poorer physical condition at the last minute than the experts have thought him to be for a week or two, and the cut he received on his chin from a flying beer glass night before last didn't mar his stellar fighting qualities.

In all the excitement attending Tony's bout with the bear glass, practically nothing has been heard of Baer for a couple of days. This is a new experience for the ex-champion.

Max has been a little grimmer than ever before and his statements have been less extravagant. Those close to him say he honestly has been burned about some of Galento's remarks and is sore at the broadcaster. If that is true, then this might be quite a fight.

Baer always has had the physical equipment. Against Tony he will have every advantage except in weight. He has the height, the reach and probably the harder punch. At least, his right once was regarded as the most deadly in the business, though it appeared to have lost some of its potency in Maxie's last fight with Lou Nova.

Mel Ott has thrown his glasses away—His better without 'em, he says.

Today's guest star: Lew Burton, N.Y. Journal-American: "Between them, Max Baer and Tony Galento have been beaten at least 34 times, but they can still talk the public into coming around."

Arch Ward says in the Chicago Tribune: "Sonja Honey and Dan Topping, owner of the Brooklyn Dodgers football team, will wed within the next few days."

Ford Frick may not wait until the summer meeting of the National League to poll the magnates on the use of helmets.

Judge Landis will ask the managers not to pitch their all-star selections after July 4 so they'll have four days' rest for the big game July 5.

C. Ross (Sandy) Somerville won his first Canadian amateur golf crown at Toronto fourteen years ago today. The London, Ont., shotmaker, finalist in three successive years, beat "Happy" Fraser, of Kanawha, Montreal, four and three in the 1926 final. Somerville, now in the Canadian Active Service Force, has won the crown four times since.
