

FIGHTING STILL CONTINUES IN VICINITY OF TAHURE

No Material Change Was Made in the Relative Positions of the Combatants. Bulgarian Troops, Which Were in Istip, Made Move Against Krivolak but Retired Before French Advance Posts. Huns Lost Very Heavily in Attack Made on French in the Champagne Front.

Paris, Nov. 1, 2.30 p.m.—(Special)—Fighting continued last night in the vicinity of Butte de Tahure, without any material change in the relative positions of the combatants, according to the announcement given out this afternoon by the War Office. The French troops took 100 more prisoners. The text of the communication follows:

"In the Champagne district the fighting continued last night in the region of Butte de Tahure, but without any change in the respective positions of the combatants. We took in addition to the number previously 100 more unrounded prisoners, this announced. No other action of importance occurred last night. "Army of the East—Certain detachments of Bulgarian troops which were in occupation of Istip undertook on October 27 a movement of reconnaissance against Krivolak. This movement retired from in front of our advance posts without an engagement. "There has been intermittent cannonading, together with outpost engagements of little importance, between Rabrovo, nine miles south of Strumitza, and the Bulgarian frontier. In the former the enemy made use of one piece of artillery of heavy calibre, but the fire from this cannon wrought no damage. The day of October 29 passed quietly. "In the sector of Krivolak there have been engagements between patrols and an intermittent cannonading, while in the sector to the north of Rabrovo a violent cannonading has been heard in the direction of Velez."

TURKISH TROOPS WITHDRAWN FROM GALLIOLI

Paris, Nov. 1.—(Special)—A Havas despatch from Athens, filed yesterday, says: "It is reported from Constantinople that the first division of Turkish reservists, which has been engaged on the Gallipoli Peninsula, has left for Bulgarian Thrace. "The Bulgarian Government has called to the colors all exempts of the classes from 1895 to 1904." MORE "GAINS" FOR TURKS. Constantinople, Oct. 31, via Wireless to London, Nov. 1.—(Special)—The following official statement was issued to-day at the Turkish War Office: "On the Dardanelles front local fighting continued. Our artillery destroyed enemy trenches and mine-throwing positions." CIVIL POPULATION LEAVES RIVA. Verona, Italy, Oct. 31, via Paris.—(Special)—Austrian prisoners state that the entire civil population has been ordered to evacuate Riva, at the extreme northern extremity of Lake Garda, in the Tyrol, although strong reinforcements have arrived from Innsbruck to oppose the Italian advance in this district. RECEIVES BAPTISM OF FIRE. London, Nov. 1.—(Special)—The British expeditionary force in Serbia received its baptism of fire on the Glogol-Doliran front, where, according to a Times despatch from Athens, it took part in the recent fighting.

GERMANY'S PLANS IN RIGA DISTRICT DEMORALIZED

London, Nov. 1.—(Special)—Germany's plans in the Riga district have been completely demoralized by the successful campaign of British submarines in the Baltic Sea and the complete closing of the Gulf of Riga by Russian mine fields, says the Petrograd correspondent of the Post. The Germans now are endeavoring with the most feverish energy, the correspondent says, to hasten the restoration of the slower and inadequate railway services in their rear."

BULGARIANS SUSTAIN HEAVY LOSSES

Sofia, Nov. 1.—(Special)—The Bulgarian advance in Serbia is being continued along the whole front. BULGARS SUSTAIN HEAVY LOSSES. Salonki, Nov. 1, via London.—(Special)—Bulgarian infantry, supported by two batteries, made an attack yesterday on the French advance post covering Krivolak, on the left bank of the Vardar. After sharp fighting the Bulgarians retired, having sustained heavy losses. MONTENEGRINS HAD TO WITHDRAW. Cetinje, Nov. 1, via Paris.—(Special)—On the capture by the Austrians of Mont Gora, the Montenegrins withdrew to another height. Contact with the Austrian artillery on the Drina was maintained.

FRENCH OCCUPY THE TOWN OF STRUMITZA

London, Nov. 1.—The Salonika correspondent of the Weekly Despatch under date of October 28, says: The French yesterday occupied the town of Strumitza. The battle began at five o'clock the previous evening and lasted until 9 o'clock in the evening. The French drove the Bulgarians six miles beyond Strumitza. This they did more than twelve miles from the railway. BULGARS RETAKE VELES. Paris, November 1.—The retaking of Velez Serbia, by Bulgarian troops has been officially confirmed, according to a Havas despatch from Athens filed yesterday. Velez was first captured by the Bulgarians by the Serbians two days later. HCLD KEY TO NISH. London, Nov. 1.—The Serbian fortress of Pirot, described as the key to Nish, is in the hands of the Bulgarians on Oct. 24th but was re-advancing from the north, are endeavoring to form a ring around Kraguyevatz, where the Serbian arsenal is situated. This, besides endangering both the Serbian war capital and the town where the Serbian munitions are manufactured, the Central Powers, with Bulgaria, are narrowing the gap through which the Serbian army in the northeast must escape.

HUNS MEET WITH HEAVY LOSSES FROM THE FRENCH

Paris, Nov. 1.—German troops, in important masses, made a thoroughly organized attack Saturday night along a front of nearly five miles in the Champagne district, and were subjected to a serious check with heavy losses, the French War Office announced yesterday. It is asserted that the assaulting forces were hurled along the entire attacking front extending from the vicinity of Hill No. 195 to the position of "La Courteine," except that they succeeded in reaching the summit of Butte de Tahure. Large numbers of dead bodies were left by the Germans upon the battlefield. The infantry engaged in the assault were chiefly troops recently transferred from the Russian front, according to the French official statement, which reads as follows: "The enemy bombardment reported last night in the Champagne developed with great violence on a front of about eight kilometres (about five miles), bounded by the woods on the side of Hill No. 195, Butte de Tahure, the village of Tahure and the trenches to the south as far as including the works of "La Courteine." This preparation was followed along the entire front by a thoroughly organized attack by important masses of infantry, formed in the major part by troops recently brought up from the Russian front. "In spite of the vigor of the attack and the extreme ferocity of the assailants, the enemy was again subjected to a serious check. The assaulting waves, decimated by our fire on the entire front, succeeded only in attaining the summit of the Butte de Tahure. "Everywhere else, and notably before the village, where the fighting was particularly stubborn, the Germans were completely repulsed, and thrown back into their trenches. They left upon the scene of the struggle a very large number of dead bodies. "There has been no very important action on the rest of the front."

JOFFRE'S VISIT HAD TO DO WITH BALKAN AFFAIRS

London, Nov. 1.—(Special)—The Times asserts that General Joffre's visit to London primarily concerned a discussion of the problems connected with the Balkan situation, and that in that respect he did valuable work.

BRITAIN'S GRAND FLEET

British Newspaper Men Pay Tribute to Preparedness of the British Navy

BETWEEN 2,000 AND 3,000 SHIPS OF MERCHANT MARINE ACT AS SUPPLY SHIPS.

London, Nov. 1.—(Special)—Graphic descriptions of the first visit of Britain's Grand Fleet are published by all the morning papers. They unite in paying tribute to the preparedness and efficiency of the British navy, not only as to the main fighting units, but also to the less prominent but equally important auxiliaries of various types. A naval officer aboard one of the ships told correspondents that in addition to the fleet proper there are between 2,000 and 3,000 ships of the merchant marine employed in transport and supply duty and as many more engaged in patrol work or in foiling the "declining efforts of enemy submarines."

SITUATION IN THE BALKANS

Believe Greece Will Join Allies if Large Force is Sent Speedily to The Balkans

BIG DEVELOPMENT MAY BE EXPECTED WITHIN TEN DAYS, SAYS CORRESPONDENT. New York, Nov. 1.—(Special)—Concerning a special cable despatch to the Herald yesterday, the Times this morning published a despatch from its special correspondent at Athens that as a result of the belief that the participation by Roumania on the side of the Allies is imminent, the Greek Cabinet and even the pro-German King are heading and are ready at last, if potential forces of Allied troops are speedily sent to the Balkans, to cast in their lot with the Entente. "I am informed the situation in the Balkans is becoming satisfactory to the powers of the Entente, and a big development may be expected within a few days," concluded the Times correspondent.

TURKISH CRUISERS ARRIVE AT VERNA

Paris, Nov. 1.—(Special)—A despatch to the Havas Agency from Bucharest, dated Saturday, says: "It is announced that the cruisers Goeben and Breslau, flying the German flag, and two Turkish torpedo boats arrived at Verna yesterday. A submarine which arrived at Verna in parts is being assembled at the Verna arsenal."

SEVERE EARTH SHOCKS WERE REGISTERED

Washington, Nov. 1.—(Special)—A series of severe earth shocks were recorded by the Georgetown University seismograph here early to-day, which lasted for about three hours. The disturbance is roughly estimated to have been about 4,000 miles from Washington.

WELL KNOWN SCIENTIST PASSES AWAY

London, Nov. 1.—(Special)—Sir Arthur William Rucker died to-day. Sir Arthur was known widely as a scientist and editor, and was author of many works on scientific subjects. He was born in 1848 and knighted in 1902.

MOST EFFECTIVE WOMAN WORKER

LADY ABERDEEN SO RECOGNIZED IN A WELCOME GIVEN HER AT SAN FRANCISCO. San Francisco, Nov. 1.—(Special)—Lady Aberdeen, wife of the Earl of Aberdeen, formerly Governor-General of Canada, was welcomed on her arrival yesterday as one of the world's most effective women workers. She came here, accompanied by her husband, to preside over the sessions of the International Congress of Women, which opens to-day, and will be in session throughout the week.

GREECE WILL SOON APPRECIATE E. T. GIFTS

Private Hugo Says Guns as Well as Kitchens Have Reached 5th

THANKS TO E. T. FRIENDS, 5TH WILL GO INTO BATTLE FULLY EQUIPPED.

Private Gaston Hugo, of this city, now with the 5th Canadian Mounted Rifles overseas, writes an interesting letter to his brother at the Grand Central Hotel, in which he says in part: "We expect to be in France very shortly. For me, I am ready to go right now. "We have received the three field kitchens and the machine guns already, and we will leave here fully equipped, thanks to the people of the Eastern Townships. It is great patriotism for the people of the Townships to help us in this way, and we will fight and remember them with gratitude. I think the people at home are doing their share in supplying us with comforts. "Private Hugo refers to recruiting, and urges the single young men to join. He says: "There are lots of them with nobody but themselves to care for and who will not do their duty by joining the colors. It is the same here as at home. There are plenty of young fellows here, strong and able, but who will not join in the fight. The other day in London you ought to see great big lots of cowards standing on Leicester Square doing nothing when they should be wearing the King's uniform. For instance, I and my friend, Private R. T. Hewitt, were strolling along when one chap came along, perfectly sober, and started abusing the boys wearing the uniform. But I showed him where to get off at. Although I was arrested I was released right away and satisfied my temper. "I met Fred Lacharite the other day in Folkestone. He was wounded in one of the battles. He expects to stay here and work at munitions. He is not lame, but cannot walk very fast, and probably will not go back to the front."

ROUMANIANS WITH THE ALLIES

Two Thirds of the Generals are in Favour of Entering War With Quadruple Entente

Milan, Nov. 1.—(Special)—At a meeting of the Roumanian Headquarters Staff, held to discuss the military policy of that country, says the Corriere della Sera's Bucharest correspondent, two thirds of the generals declared in favor of entering the war on the side of the Quadruple Entente. General Averescu, former Minister of War, was the chief advocate of intervention. Asked by General Christolou if he believed it possible to conduct a victorious war on two fronts, General Averescu replied that he not only believed it possible, but all the necessary plans were ready. ROUMANIA'S KING WILLING. London, Nov. 1.—A despatch to the Daily Telegraph from Bucharest says that last Wednesday, at an audience granted Minister of the Interior Jonescu and M. Filipescu, leader of the Conservative Party, the King declared that he was not opposed to the realization of the aspirations of the Roumanian people and that in this matter he placed himself in the hands of Parliament and the Government.

BRITISH WEAR STEEL HELMETS

Men Delighted With New Equipment Because of the Added Sense of Security it Gives

WORN OVER THE BALACLAVA CAP, GIVES MEN APPEARANCE OF CRUSADERS. London, Nov. 1.—(Special)—On some parts of the Flanders battlefield the British army authorities have begun serving out to the men in the fire trenches steel helmets similar to those introduced by the French. The British helmet exactly resembles a pudding basin. It is lined with soft leather, and, while light, it is very warm. The men are delighted with the new equipment because of the added sense of security against splinters, bullets and bomb fragments. One report says that in a small section of the trenches thirty men were saved from serious head wounds during the first four days of the experiment. The experiment lends a bizarre air to the troops, who wear it over the Balacava wool helmet, giving them the appearance of crusaders.

CONDITION OF KING CONTINUES TO IMPROVE

London, Nov. 1, noon.—(Special)—The condition of the King, who was injured on Thursday by a fall from his horse, continues to improve. The following bulletin, timed at 10 o'clock this morning, was issued: "Improvement in the condition of the King continues. His Majesty had a better night." EARTHQUAKE IN JAPAN RECORDED IN SCOTLAND. London, Nov. 1.—(Special)—The seismological observatory of Scotland recorded at seven o'clock this morning a heavy earthquake in or near Japan.

ANOTHER GARIBALDI WOUNDED

Udine, Italy, Nov. 1.—(Special)—Sante Garibaldi, another son of General Ricciotti Garibaldi, has been wounded. He is suffering from a bullet in the hand. The condition of his brother Ezio, who was seriously wounded near Coularo, is slowly improving.

IRON CROSS FOR CROWN PRINCE GEORGE OF SAXONY

Berlin, Nov. 1, via London.—(Special)—Emperor William has awarded the iron cross of the first class to Crown Prince George of Saxony on the recommendation of the commander-in-chief, in recognition of the services he rendered in the late battles.

INSPECTION OF NEW ROAD CORROBORATES HER HUSBAND

Wife of Metz Swears Accused Reached Home at 8-45 on Evening of Murder

POSITIVE OF TIME BECAUSE SHE ALWAYS KEPT ALARM CLOCK REGULATED.

On Saturday afternoon a joint meeting was held between the Executive of the Automobile Association, and the Board of Trade to complete arrangements for the programme to be carried out on Thursday next, when Sir Lomer Gouin, accompanied by the Hon. W. G. Mitchell and the Hon. J. A. Tessier, will inspect the Sherbrooke-Stanstead Road. BIG AUTO TURNOUT. The distinguished visitors will arrive in their private car on the Q.C.R. Wednesday evening and will spend the night on board. At 9 a.m., Thursday, they will leave from the Union depot for the inspection tour. A number of Sherbrooke automobilists and citizens will join them and besides an invitation is being issued by the Sherbrooke Board of Trade in co-operation with the Automobile Association to all the mayors and councillors in municipalities throughout the Eastern Townships to join in the tour. Automobiles for these will be supplied by the local association. It is also expected that a number will come in their own cars, or will be accompanied by citizens from their own municipalities who have automobiles. WILL MAKE ADDRESS AT STANSTEAD. It is expected that the Ministers will address those taking part in the tour at Stanstead. They will be entertained there by Mr. Bissonnette, and arrangements are being made so that the hotels of the Three Villages will be prepared to give lunch to the autoists. THE COMMITTEE. The following committee was named at Saturday's meeting to secure cars to look after the visiting mayors and councillors, and they would appreciate it if volunteers would offer their cars for the day: W. G. Cross, C. E. Therrien, C. G. Thompson, J. W. McKee, J. E. Poutre. Mr. Lloyd McKee, secretary of the Automobile Association will look after details at the depot. TO MAYORS AND COUNCILLORS. In the rush of getting out the invitations on Saturday it is possible that letters were not mailed to all mayors and councillors in the Eastern Townships. All these are invited, however, and they will be assured to accommodation if they will advise the Secretary of the Sherbrooke Board of Trade of their intention to be on hand. Let everybody turn out and see what it is to have good roads and at the same time show appreciation for the work of the Government in this connection. The tour will take place, rain or shine.

SHIRKERS GET SEVERE JOLT

All Those Who are Willing to Enlist Will be Labelled in Britain

London, Nov. 1.—An unique and picturesque plan for labelling by means of khaki brassards bearing the Royal Crown those fit and unfit for military service has been announced by the War Office. Armbands, which are now being prepared, will be distributed soon to the following: First—The men who enlist and are placed in groups waiting the call to join the colors; second, to the men who offer themselves for enlistment and are found physically unfit; third, to those who are invalided out of the service as unlikely, for medical reasons, to become efficient again. The armbands of each class will have a distinctive mark.

PARISIANS HONOR THE FALLEN SOLDIERS

Paris, Nov. 1.—(Special)—All Saints and All Souls' Day will be observed in Paris and throughout France to-day and to-morrow by pilgrimages of wreath-bearing throngs of mourners to the cemeteries, in most of which are buried soldiers who have fallen on the field of battle.

THETFORD MINES NOTES OF NEWS

SUCCESSFUL ENTERTAINMENT IN AID OF THE RED CROSS WORK.

Thetford Mines, Nov. 1.—(Special)—One of the most pleasant evenings in the annals of Thetford was spent at the Red Cross Rooms on Thursday evening. A food sale had been organized by the officers and committee and a ready response of good things made by the capable hands of the donors were given. The rooms had been prettily decorated with flags, etc., by young ladies in the afternoon. A table loaded with appetizing viands, presided over by Mrs. Dean, Mrs. J. Roberge and Mrs. L. Roberge was in one room, and in the other a large table presided over by Miss Smith, where young ladies attended in white with Red Cross aprons and caps demonstrated the making of bandages and slings. Pianoforte solos and songs were rendered during intervals, making a most pleasant break. Miss Frechette, of Halifax St. Ferdinand, gave a pianoforte solo and also three songs entitled "Astoria", "Rose Fleurine" and "Theige", the last in response to an encore. Mr. Paquet rendered "Le Noel d'Ireland" and to an encore sang "Canada." Mr. Visser sang two songs, one an encore song entitled "They all love Jack." Mr. C. Callaghan gave a few selections on the piano.

The cakes, preserves, pickles, etc., that were unsold towards the end of the evening were disposed of by auction, Mr. Visser making a good auctioneer and Dr. Daigneau, secretary. Tea and coffee were served during the evening under the supervision of Mrs. Christie and Mrs. Hammerich.

The assets are not yet fully realized but it is surmised that a goodly sum will be added to the fund.

WOUNDED AT THE FRONT.

News has come to town that Sgt. Jos. Duclos, son of Mr. Louis Duclos, has been severely wounded in Flanders. He volunteered for the front with the 22nd Battalion.

CONCERT BY BELGIAN ARTISTS.

The concert to be held by Belgian artists takes place on November 7th at the College Hall, the proceeds of which are to be devoted to the suffering Belgians.

NOTES.

Mr. George McCammon on a visit to his uncle and aunt, Mr. and Mrs. A. S. Johnson.

Mr. Porter is recovering nicely after her recent accident and is now staying with Mr. and Mrs. Amadon.

Mr. Vernon Smith, Mr. J. McCullum, Mr. Churchward and another gentleman were hunting last week, and were successful in bringing down a splendid deer. Mr. Adam Elliott, also brought down a deer a few days since.

Mr. Herbert Lloyd who had left England for France, has returned to Shorecliffe to take up dentistry work in the army.

Mrs. Smith and little girl, of Waterloo, have been the guests of Dr. and Mrs. Daigneau.

Miss Frechette, of Halifax, guest of Mr. and Mrs. J. Demers.

Mrs. Little the guest of her sister Mrs. W. Christie.

MOUNTAIN BATTLES

If the rugged peaks of the Alps could tell their story, there would be many a thrilling and warlike incident to relate, but none so strange as the scenes which are being enacted today between the Austrians and the Italians in these mountainous regions. The Italians are absolutely at home in the mountains, and the Austrians are using every invention of science to counteract this advantage. All the parapets on the steep roads, where summer tourists were wont to motor, have been demolished, and beautiful pine forests have been swept away so that nothing shall obstruct the artillery. Large areas have been mined, and, by pressing a button, the Austrians can hurl an avalanche of rocks and boulders on to the heads of the advancing Italians or blow up the roads beneath their feet.

From the Cottian chain, marking the boundary of France in the west, to the Carnic and Julian Alps, north and east of the Adriatic in Austria, there are literally a thousand passes and routes of more or less note, nearly all traversed by practicable roads and some shortened by railway tunnels. Over these roads armies marched to battle over two thousand years ago.

Mont Cenis Pass may have been Hannibal's route when, in the year 218 B.C., the Carthaginian conqueror invaded Italy with a large army, half of which he lost amidst the Alpine snows.

by Augustus; the desultory warfare of Teutonic and Frankish hordes in the fifth and sixth centuries; and the unceasing, sanguinary strife of Swiss "confederates" and Austrian oppressors, which lasted from the breaking up of the Carthaginian Empire in the tenth and eleventh centuries until the crystallization of the Helvetic republic by Napoleon Bonaparte's act of mediation in 1803—all these fill the chronicles and make nearly every practicable foot of Swiss territory heroic ground.

When Napoleon entered Italy, he crossed the Alps with an army of 30,000 by the Great St. Bernard Pass, May 15-21, 1800. Later, he constructed the great military road over the Simplon Pass, from Brieg, in Switzerland, to Domodossola, in Italy, and thence to Milan.—Tit Bits.

PAPER SHIRTS FOR SOLDIERS.
Paper shirts, made in Japan, are now being served out to the Russian soldiers for use in the cold and wet weather, which is rapidly approaching on the eastern front. A number of these paper shirts were used by the Russians last winter, and they proved to be much warmer and cheaper than ordinary shirts.

The paper used is called "hash-kirazu," and is made from the bark of the mulberry tree. It has been used by the Japanese army and people for many years, its only drawback being that it cannot be washed.—Pearson's.

BATTLE AXE ONCE MORE.
Among many old-time weapons that have been seen in the present war is the battle-axe. A British outpost, trapped by the enemy as they were chopping wood for camp fires, not many days since, whipped round in their shirt sleeves and did deadly work with their axes. So usefully did this mode of fighting serve them that they steadily drove the foe before them.

It was too short a range for the German rifles to be of any use, while for our own soldiers the grasp on the German rifle barrel and the swinging blow of the axe in the other hand did all that was required, and few got away to tell the tale.

GERMAN RABBITS TRAPPED BY NAVY.
Japanese training-ships have recently been visiting Australia. Advancing Italians accompanied the ships, discussed the war, and said that the first period of the struggle was already over, and it was now only a question of patience, endurance, and national resources.

As to the "uncorking" of the German navy, he was reassuring if disinclined to be a prophet. There was no possible doubt, he said, that the Germans would

STEFANSSON OFF ON NEW VOYAGE

AGAIN STARTS ON EXPEDITION OF EXPLORATION INTO NEW CONTINENT IN THE FAR NORTH.

Dawson City, Nov. 1.—Vilhjalmur Stefansson, the Arctic explorer, has again started on an expedition of exploration into the new continent which he discovered in the far north. Word was received to-day from Banks Island that Stefansson's two ships, the North Star and the Polar Bear, have sailed for Melville Island carrying supplies for a long stay.

What this country expects is that in vigor and determination our government and war office shall not be inferior to the government and military authorities of France.

NEW HOPE NOW FOR SERBIA

Allies May Yet Thwart the Enemy's Hopes in the Near East

HAVE GOT TO HOLD TOGETHER AND RAISE THEIR FORCES TO MAKE SURE OF OVERTHROW OF CENTRAL POWERS

London, November 1.—Time has been lost, but, thanks mainly to the vigor and insight of the French, the allies are committed to measures which go far to thwart the enemy's hopes in the East and may yet reverse the whole tableau pictured by Pan-German expectations.

The allies have only to hold together and raise their force to the maximum and to persevere intently in the new fighting agreement they are evidently forming, to make sure of the total overthrow of the Central Empires and their partners.

LOOKING FOR PEACE. Take the public statements of German statesmen, take the comments of the press, is all at some point the word peace crops up.

GERMANS LIKE CONFEDERATES IN U. S. CIVIL WAR. The Tribune compares the German successes to those of the Confederate successes in the Civil War, which "with proper allowance for the difference in size, the essential was the same."

BLEEDING TO DEATH. The single significant fact in the military situation now is that Germany is bleeding to death.

CAN SAVE SERBIA. What this country expects is that in vigor and determination our government and war office shall not be inferior to the government and military authorities of France.

DESPERATION IN BALKAN CAMPAIGN. To go to abandon her Russian drive. Apart from a local operation for Riga, all the effort to crush the Russian military power has been abandoned and Russia has been left to recuperate, as France and England were left after the Marne and the Yser.

FRANCE RETRIEVE SITUATION. French experts are convinced that an allied force of several hundred thousand based on Saloniki and the neighboring coast can retrieve the whole situation in the western Balkans.

VERY THIN IS THE SKIN OF A SUBMARINE, and very fragile and complicated its machinery. It does not take much of a shock to put it out of order.

BRITISH AND GERMAN FINANCE. (Christian Science Monitor) The new British budget gives rise to inevitable comparisons between the British and German methods of national finance.

WHAT CAUSES COLDS? This question is asked every day. A cold is really a fever, not always caused by the weather but often due to disordered blood or lack of important food-elements.

WHICH IS YOUR DANGER-ROOM? What is the danger-room in your home? Kitchen—where a careless servant may hurry a fire with kerosene? Bathroom—where an oil heater may be accidentally overturned?

GERMANY PLAYING HER LAST CARD

New York Paper Shows How She is Bleeding to Death and Cannot Win

EFFORTS OF STATESMEN ARE NOW DIRECTED TOWARDS A VICTORIOUS PEACE.

New York, Nov. 1.—Under the caption "Germany is Beaten," the Tribune in its leading editorial said: "If there were need for any evidence of the actual as contrasted with the apparent condition of the European struggle, it could be found without difficulty in the statements of German public men, German newspapers and German people."

LOOKING FOR PEACE. Take the public statements of German statesmen, take the comments of the press, is all at some point the word peace crops up.

CANADA ABLE TO FINANCE ITS PART IN WAR

LOAN OF \$50,000,000 WILL BE TAKEN UP BY PEOPLE IN THE DOMINION

Windsor, Ont., Nov. 1.—Sir Edward Walker of Toronto, President of the Canadian Bank of Commerce, formally opened the Windsor branch Friday afternoon in the presence of a distinguished gathering of business and professional men from both sides of the river.

In an interview following the ceremony he expressed the opinion that Canada is well able to finance its part in the war for another three years without imposing unduly heavy increases in taxation.

"We are confident of our financial stability," said Sir Edmund. "We have been borrowing from the United States and Great Britain in the past, but this will not be necessary in the future because of the splendid grain crops present and prospective."

Speaking of the report that this country will shortly announce a democratic loan, Sir Edmund Walker said: "Canada is about to launch a \$50,000,000 loan all of which will be subscribed by our own people, I am sure."

HUNTING THE SUBMARINE

BRITISH NOW GIVE GERMAN U-BOATS NO FEW CHANCES. London, Nov. 1.—Strangest looking of all the ships with the British Grand Fleet is the Atlantic liner which has been transformed into a mother ship for the seaplanes.

Most of the romance and action of warfare, while the Grand Fleet waits for the Germans, belongs to the seaplanes and the destroyers. The dreadnoughts remain in harbor, except for occasional cruises into the North Sea, but the planes and the destroyers are always on the move.

A submarine cruising below the surface is visible to an aviator, it never travels deeper than thirty or forty feet and leaves a characteristic sizzle of air bubbles and streaks of oil.

If a destroyer gets on the track of a submarine, it has thirty knots against the submarine's six or eight. There is no difficulty in keeping her a swarm of assistance.

Very thin is the skin of a submarine, and very fragile and complicated its machinery. It does not take much of a shock to put it out of order.

In all other cases relatives must pay their own expenses, and are warned that accommodation will probably prove very limited and costly.

WILLIAM THE BOUNTIFUL. (From the London Advertiser.) Hurrah for Kaiser Bill! He is an open-handed spender!

He has the give-away privileges of the earth! He has just offered to give Gibraltar to Spain!

He has also offered to give all of Finland to Sweden!

After he has given Gibraltar to the Spanish people the Kaiser might turn around and present the Panama Canal to Switzerland for the use of her extensive marine.

Then he might give Niagara Falls to Denmark. Think of the pork industry it might support.

A few other things kicking around that might come in handy for the Kaiser's use about Christmas time would be the Pyramids to be used as a paper-weight by Turkey, the Sphinx for Holland, with the North Sea thrown in as a chaser.

Any time he would like to have the Rocky Mountains for Brazil, this continent will have them slipped into the Pacific and poled around the Horn.

Bolivia might like one of our great lakes. Then there's the North Pole left. It might come in handy for the laundry.

GLYCERINE FROM LINSEED. The German military authorities are hard put to it to keep up the necessary supplies of substances required for making ammunition.

It was only a month or so ago that the export of linseed from England was forbidden, and quite a number of people were puzzled why the Germans should not be allowed to make as many linseed poultices as they required.

But the Germans didn't want linseed for poultices! They wanted it to extract glycerine from it for the making of nitro-glycerine and dynamite.

From January 1st to April 1st this year, Holland imported no less than 170,759 tons of linseed and squeezed 50,000 tons of oil from it, 47,000 tons of which were sent direct to Germany.

The import of linseed in all forms has been over ten times Holland's normal amount since the war began.

Linseed oil usually fetches \$12 to \$15 for 225 pounds. Germany is eagerly paying \$30 to \$35 for the same amount now, for every pound means her holding out so much longer.

SELF-FIRING MUZZLE LOADER. There has sprung into use a novel kind of trench gun which is really a "throw-back" to the old days of muzzle-loading guns of 400 years ago.

The barrel of the gun is about fifteen feet long and rests on two long supports driven into the earth at the bottom of the trench.

This barrel is nothing more than a steel tube at the bottom end of which is a long spike. The shell used in it has a large cartridge attached to one end.

When the shell is dropped into the muzzle it slides down the barrel and the spike strikes against the shell cartridge and explodes it, automatically driving the shell out again.

This shell weighs about 250 pounds, and is filled with high explosive.

Naturally, the gun doesn't throw very far, but is designed solely to throw high explosive shells a short distance between opposing trenches.

Fixed to the gun is a periscope enabling it to be sighted without endangering the lives of the gunners.

\$200,000,000 SAVED. (From the Providence Journal.) What has become of the money spent in Europe every year? That is an interesting question in view of the estimate that the annual expenditure of Americans who go abroad is \$200,000,000.

That any such amount has been added to the revenues of American summer hotel proprietors is not probable, as very few of the resorts in the mountains or at the seashore report a season of exceptional prosperity.

PATRIOTIC WORK IN SHERBROOKE

Interesting Addresses Were Given at First Annual Flag Day of Duke of Wellington Chapter

DONATIONS TO RED CROSS. The Sherbrooke Branch of the Canadian Red Cross Society gratefully acknowledges from the Sherbrooke Chapters of the Daughters of the Empire the following: 40 5-inch dressings, 2300 gauze dressings, 600 gauze sponges.

A meeting of the 53rd Regimental Chapter D. O. E. will be held at the home of Mrs. Dakin, 614 Quebec St. to-morrow (Tuesday) afternoon, at 8 o'clock.

All members please attend, as important business will be brought up.

The first annual Flag Day of the Duke of Wellington Chapter of the I. O. D. E., which took place Friday at the mess rooms of the 53rd Regiment was very largely attended by the members of that and other chapters, and the programme was one that appealed especially to patriotic women.

The rooms were lavishly decorated with flags and looked very attractive, and the hour was much enjoyed by all present.

The Regent, Mrs. S. W. Jenckes, presided, and the standard was raised by the standard-bearer, Mrs. H. R. Fraser.

After the brief prayer, the Regent referred to the present month, October, as a memorable one, as it commemorates the great naval victory of Trafalgar, and is the anniversary month of the departure of the first Canadian contingent for abroad.

It seems, therefore, a fitting time to emphasize the history and the glory of the Empire's flag.

Miss Wilson, treasurer of the Municipal Chapter, read a letter from the Executive National Chapter, acknowledging the contribution of the I. O. D. E., to the British Red Cross Fund, and Mrs. Fraser moved the following resolution: "That the I. O. D. E. desire to place on record its deep appreciation of the magnificent donation of one of its loyal members to the British Red Cross Fund."

"As you all know I refer to Miss A. M. Reid, whose splendid generosity enabled our Order to purchase from Sherbrooke the sum of \$2,000."

The resolution was carried by a standing vote.

The programme then proceeded, the first paper being read by Mrs. R. D. Bayne, on "The Origin of the Union Jack," which began with the first use of symbols and their evolution, and traced the growth of England's flag from the beginning to what it now is, the record of the use of a great Christian nation.

Miss Bennett's paper was entitled, "The Meaning of Our Flag," and pointed out that the red cross of St. George, first adopted by England, is synonymous with freedom and justice, while the crosses of St. Andrew and St. Patrick both incorporated in the Union Jack, stand for earnestness, purity and goodness.

"The writer said, 'has been the glory of its past, but greater will be the glory of its future, if the sons and daughters of Britain love it, honor it, value it, and keep it forever unswerving.'"

Mrs. Fraser's paper, "Our Marine Flags," was full of information upon a subject of which little is known, and which is most interesting.

The flags used in the Navy, and their importance was spoken of, and their meaning, when and where used, and what is noted by them. Among those mentioned were the Royal Standard, the Flags of the Lord High Admiral, the White Ensign, the Blue Ensign, the Red Ensign, Signal Flags, etc.

By means of the latter, each of them representing letters or numbers, signifying words or sentences, easily distinguishable in form or color, and to which there is an official key, vessels can communicate with freedom, certainty and rapidity.

Nelson's famous signal at the Battle of Trafalgar was sent out by means of flags, and so quickly that all the ships of the fleet, in recognition of it, were manned simultaneously.

It is interesting to know that the device on flags of submarine military vessels is a hand issuing from a mural crown, and grasping a thunderbolt.

"Etiquette of Flags," read by Mrs. W. E. Paton, touched also upon the meanings they convey. For instance, a red flag is flown as a danger signal, while a white one means surrender when a cause is lost, or a truce in strife.

A yellow flag betokens infectious illness, and is hoisted on quarantine stations, and a black flag signifies mourning and death.

To fly the flag reversed is a signal of distress, calling for assistance and when a flag is placed at half-mast in sign of mourning, it should first be raised, then lowered.

The position of flags also has a meaning. When a Jack is flown from the fore mast of a vessel, the ship has troops on board.

In token of courtesy, when flying the flags of different countries, flags should either be flown from different staffs, or exactly side by side from the same staff.

"Dipping the flag" is an expression of honor and respect on parade of troops before the Sovereign.

Flags are lowered or "dipped" as they pass the saluting base or post. Salutes at sea are made by lowering the flag, then raising it, and in this connection, it is interesting to note that all nations salute British ships first, in recognition of the fact that Great Britain is "Mistress of the Seas."

After referring to the proper use of flags in civil life, and upon various special occasions, the paper closed with these words: "I feel sure it is the etiquette of all our hearts in this troublous time to keep the flag flying as proudly, as in the past."

Mrs. Brewster, of Lennoxville, who was to have given a paper, was unable to be present, and the Regent said in reference to "Colonial Flags" (the subject of the paper) that these flags, so-called, were only the Red Ensign, with the badge of the colony attached, and only four of the colonies were permitted this privilege.

PROVINCIAL TREASURER'S ACKNOWLEDGMENT OF BALANCE OF KITCHEN AND GUN FUND. Quebec, 29th October, 1915. The Sherbrooke Record Company, Sherbrooke, Que.

Dear Sirs:—I beg to acknowledge receipt of your cheque for \$61.90, being a balance left over from the fund recently collected through your paper for Field Kitchens and Machine Gun for the 5th Mounted Rifles, and which you now contribute to the British Red Cross Fund for the Province of Quebec, for which please accept my thanks.

Yours very truly, W. G. MITCHELL, Treasurer of the British Red Cross Fund for the Province of Quebec.

Note—The above represents the balance of the money subscribed through The Record for Field Kitchens and Machine Gun for the 5th Rifles.

HALLOWE'EN

Last evening was 'All Hallow Eve' or 'Hallowe'en,' and today is the Great Festival of All Saints, specially honored by the Anglican and Roman Churches, and sacred to the memory of those "who from their labors rest." This year, the recurring day has a deeper significance than ever before in the history of Canada, for thousands of her youngest, best and bravest sons are buried "Somewhere in France," having cheerfully given up their lives for King, country, freedom and humanity.

They were as truly martyrs as those of old who went to the stake, the scaffold, or the pyre to suffer for the cause of Christ, and with them they will wear the crown of victory. To these, and to all who have borne the Cross and died for others, this day is consecrated.

HARVEST THANKSGIVING SERVICE AT ST. PETER'S

At St. Peter's Church yesterday the annual Harvest Thanksgiving services were held, with an unusually large congregation. Extra seats were provided in the aisles, the northern portion of edifice being given up to soldiers who are in barracks in the city. The decorations of the church were very beautiful, consisting of sheaves of wheat and other grain, tinted vegetables, fruits and flowers arranged about the chancel, pulpit and choir seats. The flowers on the altar were exquisite.

The service was conducted by the Rector, Rev. H. Reginald Bigg, Rector, assisted by the Rev. E. R. Row of Cookshire, who was the preacher of the occasion.

Special Psalms were read, and the ringing Thanksgiving hymns were sung by choir and congregation with a fine volume of sound.

The Te Deum was Stanford in B flat, and an anthem, "O Worship the King All Glorious Above" (Maunder) was rendered very effectively.

In the evening the service was conducted by the Rev. Mr. Bigg, and the sermon was preached by the Rector.

Many remained at the close of the service for the recital given by the organist, Mr. A. E. Whitehead.

HALLOWE'EN TEA

The Hallowe'en tea given Saturday afternoon in Plymouth Church Hall by the Young Ladies' Guild, was both unique and successful affair, the day being especially emphasized.

The decorations were of a weird and mystic character, consisting of the emblematic black cats, jack o' lanterns, and other appropriate devices, while the many candles shed a dim and soft radiance over the scene.

The numerous tables which were filled during the afternoon, were embellished with little baskets of popped corn, and at each place was a written prediction of the future.

Three young girls, who acted as attendants and served the dainty refreshments, were arranged in fetching witches' costumes.

Mrs. G. Kelly Read and Mrs. A.M. Sangster welcomed the guests, and the tea table, with its Hallowe'en adornments, was presided over by Mrs. Cross.

Instrumental duets were rendered by Mrs. R. G. Cross and Mrs. Lockhart, and vocal solos were contributed by Miss Ranshouhan and Miss Leslie Fales, which added to the enjoyment of the afternoon.

Another attractive, though more prosaic feature, was a food sale, the home-made cakes, etc., being quickly disposed of.

LIMITING VISITORS TO SICK.

It is announced that owing to the military requirements it is necessary to limit strictly the visits to France of relatives of sick and wounded officers and men. The British Army Council asks relatives to understand that this limitation is one of necessity.

Where permission to visit is given the regulations have been much simplified and are as follows: "In case where an officer or soldier is in a dangerous condition through wounds or sickness, and there is no military or medical objection to a visit being paid to him, a telegram granting permission on will be sent by the War Office to the relative who may visit him.

NEW YORK MARKET.

Table with columns: Yesterday's close, Open, a.m., p.m. Rows include Anaconda, Beth Steel, C.P.R., Reading, Studebaker, Sou. Pac., U.S. Steel.

MONTREAL.

Table with columns: Yesterday's close, Open, a.m., p.m. Rows include Can. Car., Dom. Iron, Dom. Bridge, Laurentide, Mont. Power, Scotia, Steel Canada, Steel Can. Ptd., Shawinigan.

New York-The market this morning
has made a very strong and active show-
ing. C.P.R. was distinctly the feature,
and after opening at 184 1/2 advanced to
194, and has since reacted to 194 1/2. The
strength was said to be a reflection of
the fine earnings of the past few months,
and there were also rumors of new con-
tracts being placed with the company.
The industrials sagged a little in the
second hour, while on the other hand the
rails showed marked strength all around.
Sales to 11 o'clock were 348,600.

Montreal-The market has been pretty
much confined to the steel group this
morning, and particular strength was
shown by these issues. The placing of
large war contracts with the various
Canadian companies was given as the
reason for the marked strength. Scotia
was a feature, opening at 97 1/2 and
advancing to 104 1/2.

HOT MEALS IN THE MOUNTAIN

An Italian lieutenant fighting in the
Alps describes in a letter to his family
how the food for the troops is taken
from the valleys to the camps in the
high mountains. "At the beginning of
the war," he says, "the Kaiser declared
triumphantly that even in the fighting
line food will be distributed to the troops
hot. The Kaiser had the airs of one
announcing a miracle accomplished. Now
if the distribution of hot food in the
fighting line is this miracle, that miracle is
accomplished twice a day by our men.
Twice a day hot food is carried on the
backs of mules-soup, meat, vegetables-
in the 'cooking cans' designed by an
Italian (though Germany was the first
to adopt them). You must imagine a
huge pan of aluminum with a circular
opening which can be closed hermetically
by screws. The pan is enclosed in a
case lined with cork and cotton, and the
food keeps hot for more than ten
hours."-Manchester Guardian.

WOUNDED
ILLUDED BY HUNS

Sergt. Ferguson of Toronto States
That Any Physician Could Have
Saved His Leg

HUNS GAVE HIM CHOICE OF
HAVING LIMB AMPUTATED
OR BEING SHOT

Quebec, Nov. 1-With wounded ar-
riving on incoming vessels from Liver-
pool, more accounts of atrocities
practiced on prisoners of war in Ger-
many are told. Those already related
by Sergt. Wells and other Canadians
who have had the misfortune of fall-
ing into the enemy's hands pale com-
pared to the terrible treatment meted
out to Sergt. Ferguson, of the
48th Highlanders, Toronto, who ar-
rived with other wounded comrades
on the R. M. S. Scandinavian Satur-
day night.

Sergt. Ferguson is without his left
leg, following a fracture of the limb.
The Germans when they took him
prisoner gave him the choice of hav-
ing his limb amputated or being
shot. With only this alternative, the
Canadian was forced to lose his leg.
The limb could have been saved by a
mediocre physician. It was cut off
near the thigh. Sergt. Ferguson who
was a Toronto policeman, after the
memorable Ypres battle was picked
up after suffering from wounds and a
fractured limb. Shortly after being
taken prisoner the German left to
guard him took satisfaction in pok-
ing his bayonet threateningly at the
wounded soldier, the while calling
him "Swine England." The returned
sergeant spoke in praise of the
treatment accorded Canadians by the
Dutch. He was exchanged through
the Dutch Red Cross Society as to-
tally unfit for further service, as were
also Lance Corporal Lunny, also of
the 48th Highlanders, and Sergeant
McGibbon, of the Montreal High-
landers. Lance-Corporal Lunny has lost
an eye and Sergt. McGibbon had one
of his legs severely battered.

CANADIANS
REACH ENGLAND

TROOPS FROM DOMINION WENT
OVER IN THE SAXONIA AND
LAPLAND.

Ottawa, Nov. 1-The arrival in
England of two more troop ships, the
Saxonia and the Lapland, with 161
officers and 4,642 men from Canada
on board is officially announced.

The Saxonia, which sailed from
Canada on October 18, arrived at the
English port of disembarkation on
Friday last, with the following
troops:

Fortieth Nova Scotia Battalion, 40
officers and 1,090 men.
Forty-first French Canadian Batta-
lion, 36 officers and 1,082
Draughts-Fort Garry Horse, three of-
ficers and 100 men; Royal Canadian
Regiment, two officers and 67 men;
Medical Corps one officer and 55 men
detail, two officers and six men.

The Lapland sailed on the 23rd,
and arrived in England on Saturday.
She carried the following comple-
ment: Forty-fourth Manitoba Batta-
lion, 36 officers and 1,076 men; 46th Sas-
katchewan Battalion, 36 officers and
1,115 men; draft of Mounted Rifles,
one officer and 50 men; detail four
officers and one man.

PUBLISHER COMMITS SUICIDE.
St. Louis, Nov. 1-(Special)-
Edward L. Breterlorius, publisher of
the St. Louis Times, committed
suicide this morning.

ROSEBERY FEARS JEALOUSY.
London, Nov. 1-The Times pub-
lishes a letter from Lord Rosebery,
urging that instead of an inner coun-
cil, which he says is sure to create
jealousies, the supreme direction of
the war should be entrusted to a
committee of three men-the Premier,
the Secretary of War and the First
Lord of the Admiralty. This trio,
Lord Rosebery says, would report to
the Cabinet and summon into coun-
cil their colleagues and others as
they found necessary.

A SECRET FOR FREEDOM.
(From the Philadelphia Record.)
The British army officer who says he
knows who stole the jewels of the Order
of the Knights of St. Patrick from Du-
din Castle eight years ago is willing to
tell the whole story "if the telling is
made worth while." He is now locked
up for murder, and would be glad to
trade his secret for his freedom. Or
he might even make up a secret for
the purpose. The theft is one of the most
remarkable in criminal history, in view
of the difficulty of performing it and
the fact that the criminals have never
been discovered.

WITH CANADIANS
AT THE FRONT
AUTOMOBILE
TURNED TURTLE

Enemy Has Been Very Quiet Be-
fore the Dominion Troops on
the Firing Line

HEAVY RAINS HAVE FALLEN,
AND DURING SUNSHINE ART-
ILLERY BOMBARDMENTS
TAKE PLACE.

Ottawa, November 1-Major-Gen-
eral Sir Sam Hughes last night re-
ceived the following despatch from
the Canadian general representative
at the front:

"During the period October 22 to
29 the general situation on our front
underwent no material change.
Heavy rains have fallen. In inter-
vals of sunning the enemy's artil-
lery displayed considerable activity
the enemy's billets and trenches,
and our artillery replied by shelling
with the exception of occasional out-
bursts of bombing, the enemy was
unusually quiet. There was little
hostile rifle or machine-gun fire.
Our bombers and patrols maintained
their activity. Whenever possible,
our working parties were actively
employed. Several enemy working
parties were dispersed by our fire."

"Early on the morning of October
21, Private K. J. Donoghue, 4th
Battalion, volunteered to go out in
search of one of our men who had
been wounded the previous night on
patrol close to the German trenches.
Donoghue found this man hiding in
a clump of bushes. After dressing
his wounds, Donoghue succeeded in
bringing him back to the front."

"On October 22 a mine was ex-
ploded under a German gallery in
front of us. An enemy mining party
is believed to have blown up."

"On October 23, scouts of our
8th (Winnipeg) Battalion discovered
and exploded a land mine concealed
in a small hole and covered over
with leaves and grass. The crater
formed was four feet deep and eight
feet in diameter. In another local-
ity a grenade was found with a strip
of wire attached."

"On the night of October 26, a
patrol of our Second Eastern Ontario
Battalion crept to within twenty
yards of a German working party.
Three bombs were thrown among the
enemy, causing several casualties."

"On the morning of October 26, a
hostile aeroplane of the Albatross
type was attacked by a British air-
man and brought to earth 200 yards
behind our front-line trenches. In
the area of our 14th Montreal Batta-
lion. The pilot was killed. The ob-
server, who was slightly wounded,
was taken prisoner. The enemy at-
tempted to destroy the machine by
artillery fire as it lay on the ground
but completely failed, over 100 shells
being fired but only two taking ef-
fect, slightly damaging one wing.
The aeroplane was armed with a
Colt machine-gun. Examination
proved this gun to be the property of
the 14th Battalion."

"During the Ypres Battle in April
it had been temporarily loaned to
our 13th Battalion when relieving
our 14th Battalion in the trenches.
In subsequent fighting it had been
abandoned on April 23rd. Thus after
six calendar months and the three
days of grace allowed by Canadian
law, the gun was returned by the
enemy to its rightful owners."

"On the same day another hostile
aeroplane was attacked over our
lines by a British airman and brought
to earth in a crippled condition. A
few hundred yards behind the Ger-
man front-line trenches. It was
heavily fired upon by our artillery.
"Thousands of our men witnessed
these two air duels, in which the
British airmen completely outfought
and out-maneuvred the Germans."

"On the night of October 26-27, a
reconnaissance was undertaken by
Lieut. Owen, Sergeant Meyerstein,
Corporal Weir and Private Layovitch
and Royce of our 7th British Colum-
bia Battalion. Various enemy list-
ening posts were visited but found
empty. The party then crawled
through a breach in the wire up to
the German parapet, and threw
bombs into the trenches, causing
great confusion among the enemy.
Our party returned safely. Special
reconnaissances were also carried out
by Col. De. Free, Colonel Carr and
Major Parsons. Valuable informa-
tion was gained and the three officers
were congratulated by General Alder-
son."

"On October 27, His Majesty the
King inspected the Canadian troops.
Every infantry unit was represented
by a detachment of fifty men and our
artillery brigades, first and second C.
M. R. brigades, artillery brigades
and other units by proportional con-
tingents. About two thousand of
our men marched past His Majesty,
and about five thousand more lined
the roads. The weather cleared for
the occasion and our men presented a
splendid appearance. His Majesty
was accompanied by the Prince of
Wales and received a hearty welcome
as he passed to and from the re-
viewing ground."

"Major-General Carson, accom-
panied by Colonel Sir Montagu Al-
lan and Colonel Maynard Rogers,
visited our troops during the period.
"Private A. H. Whyte, of the 6th
Western Canadian Battalion, has been
awarded the Distinguished Conduct
Medal."

A ROYAL FLORENCE NIGHTINGALE.
Queen Eleonore of Bulgaria, who has
made public her opinion that every
woman should be adequately trained in
the nursing service, can claim to speak
with authority on such matters. In her
younger days she underwent a complete
course of hospital training, with the ap-
proval of her father, Prince Henry IV.
of Reuss, who was himself skilled in
medical lore. This training served her
in good stead at the time of the Russo-
Japanese War.

Princess Eleonore of Reuss (she was
then unmarried) was asked to superin-
tend the corps of nurses sent to the
front by her cousin, the Grand Duchess
Vladimir. She willingly accepted the
task and proceeded to Manzhouria, where
her devotion to duty gained her a high
decoration. Since her marriage the
queen has taken under her special charge
the hospital founded at Sofia by Prin-
cess Clementine of Chirug, which now
ranks as the best institution of its kind
in the Balkan States.-Pall Mall Gazette.

Two Waterville Men Were Ser-
iously Injured When Pinned
Underneath Car

MR. H. BURTON AND MR. TREM-
BLAY WERE THE VICTIMS-
TWO OTHERS ESCAPED.

Waterville, Nov. 1.-(Special)-
Mr. Henry Burton, hotelkeeper, and
Mr. Tremblay, baker, were quite ser-
iously injured yesterday afternoon
when an automobile turned turtle.

The two victims were on their way
to Stanstead and were accompanied
by two men from Toronto, who are
engaged in erecting a tank here. When
about two miles the other side of
Massawippi they met a car, and Mr.
Burton drove to the side of the road
to let it go past. One of the wheels
went down into the soft earth, and
when the driver tried to pull out
again to the centre of the road the car
turned turtle.

Messrs. Burton and Tremblay were
pinned underneath the car, while the
other two men were thrown clear,
sustaining only slight bruises.

Mr. Tremblay was taken to a house
in Massawippi and medical aid sum-
moned, when it was found that he
was suffering from internal injuries.
Mr. Downes, of Lennoxville, hap-
pened to be passing near the acci-
dent, and conveyed Mr. Burton to his
home here. He is suffering from se-
vere injuries to his eyes and one leg.

ANOTHER STORY OF ACCIDENT.

Cassville, Nov. 1.-(Special)-On
Sunday afternoon Mr. Burton, the
hotelkeeper at Waterville, took a
party of three young men out to see
the ruins at Stanstead. They were
Mr. Jack E. Sennett, of Port Hope,
Ont., and Mr. McSloy, of Simcoe,
Ont., who are constructing a large
water tank for the Gale Manufac-
turing Co., and Mr. Tremblay, a baker
at Waterville. On their way back Mr.
Burton lost control of the steering
wheel, one of the tires burst and the
auto turned completely over, throw-
ing him on his head, causing con-
cussion of the brain, while Mr. McSloy
and Mr. Tremblay were pinned under
the auto, injuring Mr. McSloy's hip
and bruising his face, while Mr.
Tremblay received severe internal
injuries. Mr. Sennett escaped almost
unhurt, being thrown some distance
into a field, half way between the
homes of Mr. Chas. Lawton and Mrs.
J. L. Heath. Fortunately, help was
near at hand, and the men were ex-
tricated from the auto. Dr. Ber-
trand, of Sherbrooke, was in his
auto just behind them, and treated
Mr. Burton and Mr. Tremblay. After
they were removed to the home of
Mr. Chas. Lawton. Mr. Burton was
taken to the Sherbrooke Hospital
that evening by Dr. Bertrand, and
Mr. Tremblay went the following day.
The auto was very badly wrecked and
was towed home by Mr. Burton's
brother on Monday.

NAVAL BATTLE
REPORTED IN
BLACK SEA

London, Nov. 1-The Copenhagen
correspondent of the Exchange Tele-
graph Company sends the following:

A private message received in Ber-
lin from Bucharest says the Turkish
warships Breslau, Goeben and Hamid-
ieh attacked in the Black Sea, a
Russian squadron of three battleships
and several cruisers and destroyers.
The result of the battle is not
known.

The Breslau and Goeben, which were
formerly German cruisers, have been
renamed the Midulla and Sultan Cel-
im respectively.

IN RUSSIAN RANKS

TWO HUNDRED AND FIFTY OF
OFFICERS EXECUTED WITHIN
PAST TWO MONTHS.

Port Arthur, Ont. November 1-
Two hundred and fifty German offi-
cers in Russian armies have been
executed during the past two months,
according to Russian papers received
here this week. The papers tell that
the movements of the Russian armies
were made known to the enemy
promptly, and that frequently the
Russian movements were hampered by
the Germans, who had managed to
enter the service.

BRITISH MINE
SWEEPING
VESSEL LOST

London, Nov. 1-One hundred men
are reported missing after a collision
between the British auxiliary
sweeper Hythe and another British
warship of the Gallipoli peninsula in
which the Hythe was sunk.

The Hythe was a merchant vessel
taken over by the Admiralty for na-
val service. She was a steamer of 569
tons gross, built in 1905 at Dumbar-
ton.

NEW BARONET IS LEAVING FOR
WAR.

Ottawa, Nov. 1.-Charles Stewart
Tupper, of Winnipeg, son of the late
James Stewart Tupper, and grand-
son of the late Sir Charles, succeeds
to the Baronetcy. He is a son-in-law
of Dr. Charles Morse, Registrar of
the Exchequer Court of Ottawa, and
is about to leave for the front, hav-
ing obtained a commission in the
Cameron Highlanders.

BLOODSHED AND POPPIES.

(Manchester Guardian.)

There is a brisk discussion in
France between the scientific people
and the sentimental, tradition-loving
peasants. It has been noticed that
all the battle-fields of Northern
France where blood was shed last
year are awash with red poppies,
which grow everywhere and border
the roads. The peasants see in it the
aftermath of the blood shed in the
fights of last autumn. Scientific men
point out that it is merely the nat-
ural result of the fields being
thrown out of cultivation. But at
least the peasants have tradition on
their side. The dreadful battle of
Landen in 1693, when the victorious
French and the defeated Allies left
on the field between some 20,000
dead, produced a similar phenom-
enon. Lord Perth, writing to his sister
in words which gave Macaulay an op-
portunity for a characteristic flight,
"During many months the ground
was strewn with skulls and bones of
horses and men. . . . The next sum-
mer, the soil, fertilized by twenty
thousand corpses, broke forth into
millions of poppies. The travellers
who on the road from St. Tron to
Trarlemont, saw that vast sheet of
scarlet spreading from Landen in
Newerden could hardly help fancy-
ing that the figurative prediction of
the Hebrew prophet was literally ac-
complished and that the earth was
disclosing her blood and refusing to
cover the slain."

IRISH NOT DODGING
CONSCRIPTION

JOHN REDMOND NAILS LIE AND
GIVES PROOF OF HIS STATE-
MENT

London, November 1.-John Red-
mond, the nationalist leader, in a
letter made public yesterday, in re-
ference to statements which have been
made that a large number of Irish-
men were emigrating to escape con-
scription, quotes the figures of 1913,
1914 and 1915, showing that "Irish
emigration has dropped in the most
remarkable degree, at least fifty per-
cent, and the decrease continues."
He adds that a similar statement re-
garding emigration from Great Brit-
ain will be found on investigation to
be equally devoid of foundation.

BIRDS IN THE WAR ZONE.

Experiments and observations made
in between times at the various Euro-
pean battle fronts by bird-lovers
have revealed some striking charac-
teristics of the feathered broods that
have not been frightened from their
accustomed haunts by the war. It is
shown that crows, from generations
of experience, fear rifle fire, but not
artillery fire, while song birds, never
having known the fear of the hunter
and his rifle, break into song when
the guns are fired, but are alarmed
at the tremendous explosions of
shells.

Even the trained artillery horses
continue to show more fright at shell
explosions than do the birds. The
crows, for instance, do not even
trouble to take to flight when a shell
lands near them but does not ex-
plode, and only rise for an instant
when it does go off. But when the
rifles begin to pop they put as much
distress as possible between them-
selves and the trenches.

Many of the soldiers have canaries
in their trenches, and have conduct-
ed numerous experiments with them.
Usually the discharge of a rifle is a
signal for them to sing, and even the
sound of breaking glass will bring
the same result. The same is true to
a great extent of the wild song birds
that abound, especially along the
French front.

The birds, of course, display a
sharpness of vision that even a pow-
erful telescope will not equal, and
many times the warning of an attack
has come first of all from the crows
and other birds rising in alarm at
some movement that the sentries for
all their watchfulness had not detect-
ed.-Forest and Stream.

"THE WATCH ON THE RHINE."

A century ago was born Carl Wilhelm,
composer of the "Watch on the Rhine."
A music teacher of somewhat Bohemian
habits, Wilhelm did not set out to write
a national anthem, and the "Watch on
the Rhine," when sung for the first time
as a chorus for male voices in 1854,
does not seem to have attracted much
attention. It was the war with France
which gave the song appropriateness and
raised it to the status of a national
hymn. In 1871 Wilhelm was awarded a
small annual pension by the German
Government, but lived only to draw it
twice.

 Birchton, Nov. 1. (Special)—The Birchton branch of the Red Cross Society held a meeting in the church on Tuesday last. A very gratifying report was read by the secretary of the work done since its organization. Four new members were added to the roll at the meeting. Those who collected for the British Red Cross campaign on the 28th were Mrs. H. C. Bailey, Mrs. E. E. Taylor, Mrs. F. Gagnon and Miss Minta Coates. The collections amounted to \$100.00. The members will meet to work on Wednesday afternoon next with Mrs. R. A. Taylor, November 3rd.

TELLS OF ZEPPELIN RAID IN ENGLAND

Lieut. Parkes Says Considerable Damage Was Done by Bombs at Military Camp

WOMAN ARRESTED NEAR CAMP ON CHARGE OF HAVING BEEN A SPY.

Lieut. A. J. R. Parkes, son of Mr. T. J. Parkes, in a letter to his parents from West Sandling Camp, tells of the recent Zeppelin raid on the English coast. He says: "This is the second night after the last serious Zepp's raid. I will tell you a few harmless details of it. Of course the censor may take it into his head to delete parts of it. However, this is all common knowledge here so it ought to pass his inquisitive eye all right. "I had just cycled down from the 23rd camp, and about 9.15 was just settling down to an hour's reading of one of the 'Poplars' you sent to me when 'lights out' sounded all over the camp. Simultaneously we heard a series of heavy explosions in the distance. It sounded like heavy gun fire from the channel, but last night I found out it was the bombs dropped just beyond Sandling and at Otterpool. Of course everyone thought they saw the Zepps, though very few, if any, did. One bright star that showed through the clouds with a dancing light was sworn to be an aceship by hundreds who watched it for a long time. Only one bomb seems to have done much damage, but that one did some harm. It landed squarely on top of the guard tent of the howitzer battery (?) at Otterpool (Ken's battery is at Westenhanger, a mile away). The fourteen men (guards and prisoners) were blown to pieces and a number of horses killed by the explosion. A number of other horses had to be shot the next day. The other bombs dropped near there did no damage, but merely blew holes in the fields. Morris said the flash of the explosions could be clearly seen and the concussion shook the ground. He says it was just like a thunder storm. Zepps, the same or others, visited London the same night and caused considerable damage. "Last night 'lights out' went at 7 o'clock. I was up at the 23rd again, and as I could not have a light to

DISTRIBUTION OF PRIZES AT NORTH HATLEY.
 North Hatley, Nov. 1.—(Special)—On Friday afternoon a pleasing event took place in the Town Hall when the pupils of the Academy assembled with the teachers for the annual prize-giving. The Rev. Mr. Marggraf, chairman of the School Commissioners, presided. Mrs. R. Smith and the Rev. E. B. Husband assisted in the distribution of the prizes. The following were the successful competitors:

Prizes for Progress, given by the W.C.T.U.—Katherine Marggraf, Reginald Smith, Grace Taylor.
 By Miss Davidson for progress—Evelyn Kezar, Arthur Dick.
 By Miss Gowdie for conduct—Alice Sampson, M. Dutton.
 By the Commissioners for regular attendance—Grace Ferry, Reginald Smith, Harold Robinson, Florence Taylor.

Highest standing in Grade I. Elementary, Florence Taylor; II. Elem., Russell Call; III. Elem., E. Moore; IV. Elem., Gordon LeBaron; I. Model, Goldie Cinnamon; II. Model, L. Taylor; III. Model, Guy Woodard; I. Acad., Catherine Slack.
 It was gratifying to see so many parents present. Patriotic songs were well rendered by the scholars, and the singing of the National Anthem brought the afternoon's proceedings to a close.

SUTTON AND ABERCORN SEND MORE BOYS TO THE FRONT

Sutton, Nov. 1.—(Special)—Recruiting for the war still goes on here and more of Sutton's bravest boys are joining the ranks. Among the latest to go are three brothers. They are George, Loren and Lester Westover, all sons of Mr. G. H. Westover, Abercorn, who have joined the 87th Grenadier Guards of Montreal. Arthur Ingalls, son of Mr. Allen Ingalls, also of Abercorn, has also joined the Guards, as well as Wm. Geo. Elmes, also of Abercorn. Mr. Charles Wm. Cowell, of Sutton, a clerk for Mr. C. D. Griggs, enlisted on Saturday, October 30, in the 73rd Highlanders, Messrs. Henry J. Holmes and Robt. Hill, two of Sutton's best young men go on Monday to Montreal to join the Grenadier Guards, while Mr. Alfred Holloway had an auction on Saturday to sell his household effects and will take his wife and young child to England to their friends and will join the colors in England. And thus the good work goes on and the best men are coming forward and giving up home comforts to go and fight for freedom. There are others who will go as soon as they can make suitable arrangements.

Young Chas. McCowell, who enlisted in the 73rd Highlanders on Saturday, had one brother killed recently at the Dardanelles and has one at the front in France, while another is on a British man-of-war, so he knows as well as the others what has to be faced and goes calmly and bravely to meet it. Let all remember their valor—brave men is what Canada needs today, not weaklings.

LANDSLIDE AT COWANSVILLE

Three Children Injured When About 20 Feet of River Bank Gave Way

YOUNG BOY NAMED DANIELS SO SERIOUSLY INJURED THAT HE WAS TAKEN TO THE HOSPITAL.

Cowansville, Nov. 1.—(Special)—Three children were injured, one quite seriously, when about twenty feet of the river embankment at the rear of the Methodist Church gave way yesterday afternoon about half-past four o'clock, and several tons of earth rolled down into the river. The children were playing around the bank at the time, and their escape from more serious or fatal injuries is looked upon as miraculous. Two of the children were the sons of Mr. Daniels, baker, and the third a son of Mr. Gleason. One of the Daniels children was so seriously injured that he had to be removed to the Swetsburg Hospital. At the time of the accident Mr. Gilman and Mr. Gordon happened to be in the immediate vicinity, and went to the rescue of the children. Mr. Heaver conveyed the young Daniels boy to the hospital in his automobile.

COATICOOK PATRIOTIC FUND

Over Four Thousand Dollars Raised During Year for Soldier's Families and Red Cross

TAG DAY WAS A COMPLETE SUCCESS—MISS DAISY COULTON HEROINE OF NICE STORY.

Coaticook, Nov. 1.—(Special)—During the year from Sept. 7th, 1914, to Sept. 7th, 1915, the Coaticook Branch of the Patriotic Fund has raised \$4067.53. The sums given to the Red Cross and to the families of the soldiers at the front, together with the expenses, amounted to \$3,561.54. The balance has been handed over to the Red Cross.

Thursday last was Tag Day for the Red Cross. The collection by the ladies towards this fund is being continued until today (Monday). The young ladies who were on the street selling tags were very well encouraged. In this connection Miss Daisy Coultun figured in a very pretty incident. On the arrival of the noon train she boarded it with the intention of selling tags to the passengers but the train unexpectedly moved out and she was carried to Norton's Mills. Her trip, however, realized the sum of \$23, and further, having sold out her complete stock of tags, she sold her Red Cross arm badge for \$2.00. Of the amount realized by Miss Coultun, the greater part was given by the Stanhope pickets (having at their head Lieut. J. H. Armstrong), who would have contributed more had pay day arrived.

CANADA'S SHARE TO BE \$500,000,000

Great Britain Will Place This Amount of War Orders Throughout the Dominion

STATEMENT ISSUED BY MR. D.A. THOMAS, REPRESENTATIVE OF THE BRITISH MINISTER OF MUNITIONS

Ottawa, November 1.—British orders aggregating five hundred millions of dollars have come or are coming to Canada, according to a statement made yesterday afternoon by Mr. D. A. Thomas, representative of the British minister of munitions. Mr. Thomas left yesterday afternoon for New York on his way back to England, having accomplished his mission to the United States and Canada. He expects to return before Christmas. His work in Canada is now in the hands of Mr. Lionel Hitchens, who arrived recently to represent Mr. Lloyd George, and who will have charge of the reconstitution of the Shell Committee, or, as Mr. Thomas describes it, the Canadian Munitions Committee. The main feature of the reorganization of the committee will be the retirement of those members who are interested in the manufacture of munitions.

Mr. Thomas issued a lengthy statement in which he reviewed the work of the Shell Committee and himself, touching upon most of the questions with which rumor has been busy for the past two or three months.

HESPERIAN SUNK BY A TORPEDO.

Washington, Nov. 1.—Secretary of State Lansing announces that the Navy Department has definitely established the fact that a fragment of the engine of war which sank the Allan liner Hesperian was a part of a torpedo. The German Government has persistently denied that the Hesperian was torpedoed. In the opinion of United States naval experts, the fragment could not have been a part of a marine mine.

The Secretary said the result of the Navy Department's investigation would be immediately communicated either to the German Government directly or to Ambassador Bernstorff.

LONDON NOW MORE HOPEFUL

Last Few Days Has Witnessed Remarkable Change of Opinion in Regard to the Balkans

REPORT THAT ROUMANIA WILL COME IN CONTRIBUTES TO HOPEFULNESS IN THE BRITISH CAPITAL.

London, Nov. 1.—The last few days have witnessed a remarkable change of opinion in regard to the Balkan situation. Whereas at the beginning of the week the prevalent view was that the Allies were practically forced to leave Serbia to her fate, since such measures as they could take were foredoomed to failure because of their inadequacy, there now exists almost a confident belief that the Teutonic plans to open a way to Constantinople will be checkmated. The German progress from the north has been slow; the Austrian advance from Visegrad has been even lower, and the strategic value of the Bulgar-German junction in the north-eastern corner of Serbia is held here to be less than the Germans assert.

While there is no disposition here to deny that the situation in that part of the Balkan theatre is critical it is felt here that it is by no means hopeless. The reports from Germany of the Russian preparations to throw an army of 250,000 men into Bulgaria are taken as the first evidence of the execution of the general plan of campaign arranged by the Allies to make good their promises to Serbia. The fact that Premier Asquith has selected Tuesday as the day on which he will make a comprehensive statement regarding the war is thought to indicate that by that day the Allied operations will have so matured that secrecy is no longer essential to their success.

The reports which are current as to Roumania's coming in on the side of the Allies contribute to the general hopefulness in the British capital.

SIR SAM HUGHES RAISES PROTEST.

Ottawa, Nov. 1.—A good deal of harm to the work of recruiting is still being done by unwise platform appeals, in the opinion of General Sir Sam Hughes. He stated that at the big meeting which was addressed in Toronto last Monday there were not more than a couple of hundred men of fighting age present. This, he said, was due to the abusive humiliating tone of many speakers at recruiting meetings, who drove men away from the rather than attracted them to the colors.

WORSE.

Little things make happiness

Wrigley's—the Perfect Gum—is small in cost, big in benefit. Joy immense for 5 cents. It's toothsome, soothing, refreshing. Made clean—kept clean—sealed air-tight against all impurity. No wonder its sale exceeds all others.

They've rhymed King Cole Till the poor old soul Has had to take a rest; NOW throned in state King Spear the Great Reigns wisely and with zest!

comeback by, I left my bike there and returned by train. "We have been down on the Hythe ranges shooting for the last three days. This afternoon we found a woman in one of the Martello Towers at the end of the range down by the shore. She was trespassing on W. D. property, and as she gave no good reason for her presence there I suggested she be arrested, which was done. She had been in a very out-of-the-way place and an ideal one for signalling, so it looked suspicious. As a matter of fact, the Zepps probably passed over there the night of the raid. "Lights out' went at 7 again tonight, but I am writing this in the 45th sergeants' mess, where we are allowed lights, though all the windows are heavily blanketed."

ONTARIO CLUB MAY LENT OUT LIQUOR.

Toronto, Nov. 1.—The Ontario Club will probably give leading to all social clubs in this province in a further measure of war efficiency than the closing of the bar at 8 o'clock in the evening. At a special meeting of the members to-day over one hundred and fifty were present, a resolution was passed, with very few dissenting voices, asking that "that the directors of the Ontario Club be requested to take a vote of the members of the club at the earliest possible date, either by mail or at a meeting, on the question of discontinuing entirely the sale of alcoholic liquors on the club premises during the war."

THIRTY THOUSAND NEEDED WEEKLY.

London, Nov. 1.—The total British casualties in October, computed from the war office lists which have been published daily during the month, were 3,110 officers and 71,187 non-commissioned officers and men. A recruiting advertisement published to-day declares that thirty thousand men weekly are desired to fill up the ranks and meet new requirements.
