READY FOR OPENING OF INDUSTRIAL CONFERENCE

TWO HUNDRED DELEGATES IN OTTAWA FOR DELIBERATIONS THAT WILL BE EAGERLY WATCHED THROUGHOUT CANADA AND IN UNITED STATES.

Ottawa, Ont., Sept. 14—Upwards of 200 delegates are in the city for the National Industrial Conference which opens in the Senate Chamber at ten o'clock tomorrow morning and the deliberations will be eagerly watched by all classes in Canada and also across the international border.

Final arrangements for the Conference were entrusted by the Government to a joint committee of employers and employees under the chairmanship of Mr. C. A. Magrath, who was appointed by the Minister of Labor. The committee is composed of the following:

For the Employers—C. H. Carlisle, of Toronto, Chairman Industrial Relations Commission of Canadian Manufacturers' Association; E. G. Henderson, Canadian Salt Company, Windsor; Frank D. Jones, Canada Cement Company, Montreal; For the Employees—R. A. Riggs, Winnipeg; Gus Franco, Montreal; and W. R. Rollo, Hamilton.

The report of this joint committee will be submitted to the Conference at the conclusion of the introductory features.

Many of the delegates representing both employers and employees groups have been here since Saturday and with the various provincial representatives and delegates have been in conference regarding forthcoming sessions.

The proposed agenda includes consideration of the following: Labor features of the peace treaty; unifying and co-ordinating existing labor laws of Dominion and Provinces and any new labor laws deemed necessary; recommendations of Royal Commission on industrial relations respecting hours of labor; minimum wage laws; employees' right to organize; recognition of labor unions; right of employees to collective bargaining; recommendation of industrial relations commission in favor of establishment of a bureau to promote establishment and development of joint plant and industrial councils and any other features which may be introduced bearing on the relations of employers and employees.

Owing to the illness of Sir Robert Borden, it is not expected that he will attend the opening sessions and the statement on behalf of the Government will be delivered by Senator Gideon Robertson Minister of Labor, who is vice-chairman of the Conference. Sir Robert Borden is chairman and expects to attend some of the later sessions.

Others who will speak tomorrow morning are:

Hon. W. L. Mackenzie-King, Leader of the Opposition; Colonel David Carnegie, of London, England, formerly with the Imperial Munitions Board here, and who since last spring has been following closely the development of the British industrial policy. Colonel Carnegie will speak on the actual conditions in the British Isles and also on the plan of joint industrial councils inaugurated by the Whitley Commission. Hon. A. L. Sifton, Minister of Public Works is expected to deliver a brief address and another speaker during the morning session will be W. Jett Lauck, former Secretary of the United States War Labor Board, who will deal with conditions in the United States.

There will be three groups represented at the Conference, the em-

DOHERTY PRAISED BY LONDON TIMES

SAYS HE ROSE TO GREATNESS AND SIGNIFICANCE OF OCCASION.

London, September 14—(Reuter's).—The Times commenting on the Dominion's ratification of the peace treaty says that Hon. C. J. Doherty, Minister of Justice, rose to the greatness and significance of the occasion in the life of the Empire as did Gen. Smuts at Cape Town. The Times continues:

"His reply to Mr. Fielding represents, we are confident, not only the settled view of the overwhelming majority of Canadians on the position of Canada, but a view which the principals of all the Dominion hold as to the real status within the Empire of their several countries. Mr. Doherty gave a conclusive answer to the argument that by giving her approbation to the League and to the covenant Canada is abandoning control by her particularly over her own military forces. No self-governing community can be driven into war or ordered into war against its own will. In all such communities legislation is essential to make the conduct of war possible and the mere apprehension that a legislature would refuse it or refuse supplies under the pressure of public opinion must effectually prevent any responsible government and still more, any democratic government from embarking upon a war which public conscience and public judgment do not heartily support."

players, employees (including the members of the public service of Canada), and a third group composed of the members of the Royal Commission on Industrial Relations, municipal representatives; representatives of various engineering societies, G.W.V.A., and other bodies. It is anticipated that the public interest will be looked after by this third group, and at the same time the sessions will all be open to the public. As the employers' and employees' groups were arranged on a fifty-fifty basis, it was found impossible to give the same representation in the first two groups to agriculture and provision for that industry has been made in the third and largest group.

The representation has all been secured on the delegate basis, the selections being left entirely to representative bodies of the various groups. It is also expected that two or three big industrial organizations in the United States will be represented. These include the National Industrial Conference Board of the United States, representing the employers, and the United States Chamber of Commerce.

Several of the Provincial Premiers are either in the city or on their way here, the latter including Premier Norris, of Manitoba; Premier Oliver, of British Columbia; and Premier Murray, of Nova Scotia, and all the Provinces will have representatives here during the Conference, which is expected to last the entire week.

FISHER POINTS TO PERIOD OF CHANGE

NAVAL DEVELOPMENT AS SWEEPING AS STEAM OR ARMOR PLATE.

London, Sept. 14—(Reuter)—Lord Fisher, in his concluding article in the Times, says a period of change is at hand as sweeping in its character as was either the introduction of steam or the advent of armor, for the fact is unquestioned that aircraft even now is making such prodigious developments that the only escape for vessels on the surface of the ocean will be to go under the water. These types of vessels instantly require great study, research and much experiment.

"We had a submarine carrying a 12-inch gun before the war ended," he declared, "the very day this 12-inch gun submarine was ready for battle she heard by her own wireless installation a message on a far distant sea."

Lord Fisher concludes that an Anglo-American fight is inconceivable and asks:

"Cannot the American and English navies dominate the world any time and tell others not to build more or we will fight you here and now?"

GALVESTON STRUCK BY TROPICAL STORM

BUSINESS SECTION OF TEXAS TOWN UNDER THREE FEET OF WATER.

Galveston, Tex., September 14—With a sixty-five mile wind, high tides and heavy seas, a tropical storm struck Galveston this morning, tide-water from the bay flooding the business section of the city and the north side of the island with three feet of water.

Huge waves broke harmlessly on the seawall and there was material damage from the wind. Shipping in this vicinity weathered the storm. The wagon bridge across the bay was not damaged and tonight was open to traffic.

Two thousand feet of track on the causeway and railroad bridge connecting Galveston with the mainland was washed out, destroying rail communication with the outside world, but officials of the Gulf, Colorado & Santa Fe Railroad, said this would be repaired within twenty-four hours.

ESTHONIANS ARE EXPELLING FOREIGNERS.

Stockholm, Sweden, Sept. 13—The Estonian Government has decided to expel about 4,000 foreigners from Estonia, according to advices from Petrograd. The Government is considering further the expulsion of all persons who have established themselves in Estonia since 1915. The overwhelming majority of these are Russians.

The Government of North-West Russia is endeavoring to have this measure postponed.

FIFTY PERSONS HURT IN COSTLY NEW YORK BLAZE

LONG ISLAND OIL COMPANY PLANT PRACTICALLY WIPED OUT.

New York, N.Y., Sept. 14—With more than fifty persons injured and the damage already done estimated at from \$5,000,000 to \$10,000,000, weary fire-fighters tonight still were fighting a threat of further explosions of oil tanks at the scene of the fire which practically wiped out the Stone and Fleming Oil Company's plant in Long Island City yesterday.

Five tanks of crude oil were burning late today.

Should there be a sudden shift from north to northeast many additional tanks in plants nearby would be threatened, as well as thousands of tons of coal.

The firemen were working in short shifts. So exhausted had they become, that when relieved for a brief rest, they lay in the streets near the fire zone and went fast asleep.

The twenty acres of fire-swept territory looked like a scene in war-devastated France or Belgium. Tanks were crumpled up huge steel girders lay in a tangled mass, few walls were left standing and burning oil continued to flow along the surface of Newton Creek.

The fire, starting early Saturday afternoon from the explosion of an oil tank in the Stone and Fleming works a subsidiary of the Standard Oil, or Newton Creek, spread over virtually the entire area of the plant, which covers 20 acres and spread to the Columbia Distilling Company's buildings on the same side of the creek, the Peter Cooper Glue Works and American Agricultural Companies plant across the water and the Green-point bridge. At the same time flames carried across the stream by blazing oil, threatened the Platt Works of the Standard Oil, on the opposite bank.

Following a series of explosions the fire spread so rapidly that, in addition to a dozen fireboats and three score fire companies, a signal was sounded summoning back all members of the department who had gone off duty.

Despite the constant danger from explosions which they faced, the fire-fighters stuck to their posts retreating only when the heat became insupportable. In the front lines, the men worked on twenty minutes shifts, refusing to relinquish the fight in spite of severe burns.

In addition to several hundred thousand gallons of burning oil which darkened the city by day and illuminated it by night, hundreds of tons of coal at the plant caught on fire.

When naphtha and gasoline explosions occurred, the firemen were forced to fling themselves face downward in the mud and oily water. Turning their nozzles in the air, they laid down upon themselves a heavy water barrage to protect themselves from the sparks.

Inhabitants of the district retreated as the flames swept on.

Two fireboats, the Abraham S. Hewitt and New Yorker, caught fire while they cruised up and down Newton Creek fighting the flames on both shores and seeking to save the Green-point bridge from destruction.

As the flames ate their way into the forward superstructure the men aboard the craft devoted only part of their energies to combating the blaze that threatened their own lives. While part of the crews fought the fire on their own boats, the rest continued to play streams on the burning plant and bridge. The two craft were literally floating in a sea of flames on all sides of them with blazing oil spreading over the surface of the creek, preventing the fireboats William J. Strong, Cornelius Lawrence and George B. McClelland from coming to their assistance, because of the closed drawbridge which separated them. These three craft, however, hurled tons of water on the blazing draw, enabling firemen to open it, so that they finally could steam to the aid of their sister-ships. Playing streams on the Hewitt and New Yorker, they succeeded in quelling the flames.

There were many spectacular deeds of heroism. Early today Lieutenant Louis Semansky threw a rubber coat over his head, rushed through the flames and turned off three valves, preventing the flow of burning oil from tank to tank. Another tank blew up a few minutes afterward and had it not been for Semansky's courage, three more undoubtedly would have gone.

Thomas Whitcomb, of the fireboat New Yorker, was fighting the fire in a tank this morning when the structure fell and burning gasoline was thrown into Newton Creek. Whitcomb tried to jump into the hold of the fireboat, but blinded by dense smoke, fell into the water, the surface of which was covered with blazing oil. Hearing his screams fireman Benjamin Moore jumped overboard to rescue him. Fireman Frank Lannon also seized a rubber coat and jumped but struck the two men in his dive.

HE WILL DEFEND SOVEREIGNTY OF MASSACHUSETTS

GOVERNOR COOLIDGE REPLIES TO PLEA OF SAMUEL GOMPERS.

Boston, Mass., Sept. 14—Determination "to defend the sovereignty of Massachusetts," was expressed by Governor Coolidge in a telegram sent tonight to Samuel Gompers, President of the American Federation of Labor. The telegram was in reply to one received from the Labor Leader last night in which Mr. Gompers asked him to take "a broad view" of the situation brought about by the policemen's strike.

The Governor told Mr. Gompers that the suggestion of President Wilson that orders forbidding the policemen of the City of Washington to affiliate with the American Federation of Labor be held in abeyance pending the labor conference to be held at the White House on October 6th, did not apply to Boston as the Washington police had remained on duty. Reciting the fact that nine men members of the Boston policemen's union had been tried for violation of the order against affiliation and had been removed, and that the places of the other strikers had been declared vacant, he added:

"I can suggest no authority outside the courts to take action."

The policemen's union made no announcement as to how it was planning to meet Commissioner Curtis' refusal to reinstate the strikers, who had voted to return to work if the Department orders against affiliation were not enforced pending the White House Conference. Many other local unions voted today and tonight on the question of striking in sympathy with the police. The ballots will be counted by a committee of the Central Labor Union which has been empowered to set a date for a general strike if the votes of the different locals favored such action.

Frank H. McCarthy, New England organizer of the American Federation of Labor, who has been advising the policemen's union leaders, conferred with Mr. Gompers in New York today. He returned to this city tonight.

Allusions to the policemen's strike were made from many pulpits today. Bishop Anderson at St. Peter's (Catholic) Church told his congregation that it was the duty of everyone to uphold law and order. He urged parents to keep their boys off the streets at night.

At Trinity (Episcopal) Church, Rev. Dr. Alexander Mann expressed the opinion that in the case of many of the striking policemen "their acts were more the result of muddy thinking than of deliberate display."

He added, however, that it was no

GROWERS IN CUBA UNDER THE HEEL OF SUGAR TRUST

TORONTO LAWYER CLAIMS AMERICAN COMBINE CONTROLS CANADIAN REFINERY.

Toronto, Ont., Sept. 14—Before W. F. O'Connor, Vice-Chairman of the Board of Commerce, in this city on Saturday, a local barrister, R. A. Reid attacked the profits and trade dealings of the American sugar trust and declared that there was a combine existing with Cuban growers. He produced figures to show that the West India sugar crop would cost 14 cents a pound, and finally submitted a statement showing that, at a profit, all sugar would be sold to the consumer at 12 cents a pound.

Mr. Reid then gave figures showing the ramifications of the American sugar trust and declared that it controlled the Atlantic Sugar Refining Company in Canada.

"The growers in Cuba are under the absolute heel of the sugar trust," Mr. Reid said, "and I am told that there will be another sugar investigation in Washington right away."

"We will draw the attention of the United States Government," said Mr. O'Connor, "to the allegations regarding the situation in Cuba."

In regard to the figures 14 cents and 12 cents quoted by Mr. Reid, Mr. O'Connor said:

"The figures you quote are totally unreliable. We have fixed the profit to the refiner at two-fifths of a cent per pound."

AMUR CLEARED

London, Sept. 13—The whole Amur territory from Khabarovsk to Hoengryed, in Eastern Siberia, has been cleared by the Bolsheviks, according to a wireless report from Moscow. It is said that the Bolshevik forces, aided by 200,000 Chinese troops, attacked the White Guard.

GERMAN ARMY READY TO INVADE POLAND

Paris, Sept. 14—(Havas).—A despatch received from Sosnowic, in the Government of Piotrkow, Poland, asserts that a German army, comprising a minimum of 200,000 men, is concentrated on the frontier of Silesia ready to be thrown against Poland.

longer a case of the grievances of the police, which must be remedied, but that "the State is face to face with the question of whether its great constitution shall be upheld by duly constituted authority." Other pastors condemned the police for striking.

RECALL DANGERS AND HARDSHIPS FACED TOGETHER

MEMORIES OF FALLEN COMRADES HONORED AT 22ND. OFFICERS' BANQUET.

Montreal, Que., Sept. 14—Recollection of years of hardship and dangers shared together, and memories of comrades who had fallen came to the officers of the 22nd. Battalion, gathered at the Windsor Hotel Saturday night, the eve of the anniversary of Courcellette, for their first annual banquet. But more vivid than the recollection of the hardships and dangers and the memories of those who had fallen, was the consciousness shown that their battalion had always fought a good fight and had rolled up a record of victory second to none, which would always bind the survivors in the ties of comradeship.

The banquet in addition to bringing the officers of the 22nd together from various parts of the Province also recalled the victory of Courcellette, where the French-Canadian battalion some of its greatest laurels.

Approval of a project that there should be a permanent association of members of the 22nd was also given by the gathering, and the basis of such an organization will soon be laid.

Brigadier-General Tremblay presided at the banquet, and surrounding him were other commanders of the 22nd. Battalion, such as Colonel F. L. Gaudet, who organized and took the original battalion overseas; Lieutenant-Colonel Dubuc, Lieutenant-Colonel Desrosiers and Major Henri Chasse, and among other well-known officers present were Lieutenant-Colonel Lafliche, Lieutenant-Colonel De Lanaudiere, Lieutenant-Colonel De Martigny, Major the Rev. Father Desjardins, Lieutenant-Colonel the Rev. Father Fortier, Major Johnny Roy, of Quebec, and Major J. P. Archambault, Major Dupuis, Major Desrosiers, Major Leroux, Major Routhier, Major George Vanier, Captain Saint-Victor, Captain Braun Langelier, and a long list of other officers of the famous battalion, practically all of whom wore decorations.

AUSTRIA EXPELS GALICIAN JEWS.

Stockholm, Saturday, Sept. 13—An order has just been issued by the Austrian Government expelling 130,000 war refugees, mostly Galician Jews, from the country, according to advices received here. The order will be a hard blow for the refugees, who are unable to return to their devastated homes.

The Weather

Toronto, September 14—Since Saturday morning showers have occurred in many sections of the Western Provinces and in the Lake Superior district, also in some localities in the Ottawa valley. Elsewhere the weather has been fine.

Autumn Exposition

Exposition of Autumn Fashions
Monday, September 15th, and
Succeeding Days

Our formal opening of the Autumn season will be inaugurated to-day with a most brilliant exhibition of everything pertaining to Ladies' wear. With the utmost pleasure we issue an invitation to all ladies of Quebec to attend this function which, beyond a doubt, will prove to be the most attractive event of this kind among all similar occasions.

Words fail to describe the beauteous displays which will be unveiled here this morning. Only by a personal visit can you realize the importance of this grand exhibition involving the foremost styles of the season in Ladies' Costumes, Coats, Furs, Hats, and all dress accessories.

An orchestra will perform from 2.30 until 4.30 in the afternoon.

A Few of Our New Costumes

We are prepared to suit any purse in the choice of an Autumn Costume, but we cannot thoroughly emphasize the fact that for a woman who does not wish to pay a high figure there is an ample collection of Costumes quite reasonably priced, and at the same time possessing all the attributes of perfect style. The Costumes described below are selected as representatives of the season's best fashions.

Ladies' Costumes made with long loose coat with small tucks in the back, fancy pockets trimmed with buttons, lined in silk, colors are violet, navy blue, taupe, black and brown, made of bengaline. **\$47.00**

Ladies' Costumes made in Serge, coat is made long trimmed with buttons on the sides, belt, lined in silk, colors are dark green, brown, black, navy. **\$49.50**

Ladies' Wool Poplin Suits, coat is long with collar which may be closed high to the neck or turned low, belt with buckles on the back, bottom of coat is trimmed with braid, colors are dark green, taupe, brown, navy, black, lined in silk. Price **\$63.50**

Ladies' Gabardine Costumes with seal skin collar on coat which is made long, lined in silk, colors are black, navy. Price **\$79.50**

Ladies' Gabardine Costumes made with long plaited coats, straight belt with pockets, colors are navy, brown, taupe, and black. Price **\$82.00**

Ladies' Costumes in Wool Tricotine, made with long coat, with collar which may close high to the neck or be turned low, narrow belt, pockets, lined in silk, skirt is made with belt and pockets, colors are taupe, navy, wine and brown. Price **\$83.50**

We have other models in stylish Suits which range in price up to as high as **\$139.00**

New Millinery Creations

Individuality is the characteristic of every one of the smart Hats that contribute so largely to the magnificence of our Autumn exhibition. Their elegance is just revealed in these few descriptions.

Ladies' Toque made in navy blue velvet, trimmed with large fancy navy blue ribbon made into a bow. Price **\$10.50**

Ladies' Small Toque made in grey plush, trimmed with shirred turquoise band and large bow. **\$15.00**

Ladies' Sailors made in cardinal red velvet, trimmed with black silk ornaments. Price **\$19.50**

Ladies' Small Fancy Shape in brown corded silk and silk velvet brim trimmed with grey wing. Price **\$21.50**

Ladies' medium Turban Shape, made in brown silk, mole plush velvet, trimmed with large ostrich poppon. Price **\$24.50**

Ladies' Large Sailor made in silk plush velvet, trimmed with purple ostrich feather and silk velvet. Price **\$26.50**

The Newest Coats

Ladies' Silvertone Cloth Coats made in long loose raglan style sides of coat are trimmed with buttons, belt, colors are grey, brown, green. Price **\$32.50**

Ladies' Long Coats made with kimono sleeves, with buttons down the back of coat, belt in front, pockets and collar, trimmed with buttons with silk stitching, colors are taupe, wine, brown and navy. **\$42.00**

Ladies' Coats in Silvertone Cloth made loose with yoke, large collar in Baltic seal, lined in silk, colors are brown and wine. Price **\$67.50**

Ladies' Dolman Coats with large sleeves, collar is trimmed with fur, color is dark drab, lined in fancy silk. Price **\$69.00**

Ladies' Coats made long and loose effect in back, with fine tucks and buttons, Opossum collar, colors are taupe, brown and wine. Price **\$83.50**

Ladies' Broadcloth Coats made long with belt and buttons on the sides, collar and cuffs in Opossum, colors are brown, dark green, lined in silk. **\$99.50**

Men's Furnishings

The interest in our Autumn display will not be confined exclusively to the Ladies' Wear Departments. The lady visitors will find in our Men's Furnishings Department a superb assortment of articles to please a man who wants nice things.

Shirts in abundance, in every conceivable pattern and shade. Exquisite Neckwear in unexcelled choice. Underwear of the best kind, such as Penman's and Stanfield's. Gloves, Socks, Handkerchiefs, etc. We also show a remarkably fine assortment of Walking Canes.

DISSOLUTION OF
FRENCH CHAMBERS
WILL BE DELAYEDLITTLE HEADWAY MADE IN
CLEARING VOLUMINOUS OR-
DER OF DAY

Paris, Friday Sept. 12.—All indications point to the fact that the eleventh legislature of the third French Republic whose mandate expired in May, 1918, will not be dissolved in time to proceed with the elections on October 26, the tentative date semi-officially agreed upon.

Since the deputies resumed their sittings on August 26 after two weeks' vacation, little headway has been made in clearing up the voluminous order of the day confronting them. With the ratification of the treaty a foregone conclusion, the deputies of all parties have busied themselves with the more personal matter of the electoral law as affecting the coming elections. Numerous amendments tending to postpone until 1923 or render ineffective, proportional representation have been proposed and voted down after lengthy speeches and tumultuous sessions.

The climax was reached today when Deputy Varenne proposed an amendment to the electoral law of July 12, 1918, whereby the campaign literature, posters and propaganda of all candidates shall be paid for by the Government, which would undertake to have copies delivered to every voter in behalf of candidates of all political parties.

Louis Klotz, the Finance Minister, strongly opposed the measure, first because it entailed an expenditure of between fifty and sixty million francs, and, second because Extremists and Socialists would be using Government funds to distribute Bolshevik literature and tracts against the Republic.

The Socialists contended that they were not supplied with funds, as they were the representatives of the people, while the other candidates were backed by powerful corporations and business interests in a position "to flood the constituencies with money."

The debate in the Chamber was very bitter. There was such an uproar several times that M. Deschamps intervened, saying: "This debate, where the personal interests of the members alone are at stake is humiliating enough without giving the country such a spectacle."

Jean Bon, the stormy petrel of the Socialistic Party, whose chances of re-election are considered so slight that he may not be a candidate, brought down upon him the wrath of his Socialist colleagues by saying: "Let us meet our political death brave, ly."

The amendment was rejected by a vote of 246 to 224.

Meanwhile the Socialist Convention was sitting at the headquarters of the Thomas Dejeante, Dalbiez, and other Socialists voted for war credits and disapproved of the Russian Soviets.

In the Chamber, M. Klotz and Louchet made optimistic speeches on the Versailles treaty, referring particularly to the financial and reparation clauses.

MONTH'S REPRIEVE
FOR DR. GERVAIS.

Prince Albert, Sask., September 13.—Sheriff Seath was notified by wire today from Chief Justice Brown of Regina, that the Minister of Justice has ordered a month's reprieve for Dr. Gervais, Victor Carmel, and Jean Baptiste St. Germain, sentenced to be hanged here next Wednesday for the murder of James McKay, at Steeple Creek last November. The reprieve is to October 17th. The case became famous throughout the country because of the brutal nature of the crime and the fact that Carmel and St. Germain were draft evaders, and had been living in a dugout at the foot of a steep embankment of the Saskatchewan River throughout the summer.

LETVIA WILLING
TO MAKE PEACE.

London, September 13.—The Government of Letvia has accepted the offer of the Russian Soviet Government to begin peace negotiations, according to a Russian wireless despatch received from Moscow.

CANADA'S NEXT
GOVERNOR-GENERAL.

London, September 13.—The Earl of Athlone, brother of Queen Mary, will be appointed Governor-General of Canada next summer in succession to the Duke of Devonshire, the present incumbent, according to the National News.

LLOYD GEORGE HAS
ISSUED A MESSAGE
TO BRITISH PEOPLEOLD WORLD MUST AND WILL
COME TO AN END

London, Sept. 13.—(By the Ass'd. Press)—Premier Lloyd George has issued a message to the people of Great Britain in "the future", which will be distributed free throughout the country on Monday. The Premier says:

"Millions of gallant young men have fought for the new world. Hundreds of thousands died to establish it. If we fail to honor the promise given them we dishonor ourselves."

"What does the new world mean? What was the old world like? It was a world where toil for myriads and honest workers men and women, purchased nothing better than squalor, penury, anxiety and wretchedness; a world scarred by slums, disgraced by sweating, where unemployment through the vicissitudes of industry, brought despair to multitude of humble homes; a world where, side by side, with want there was a waste of the inexhaustible riches of the earth, partly through ignorance and want of forethought, partly through entrenched selfishness."

"If we renew the lease of that world we shall betray the heroic dead. We shall be guilty of the basest perfidy that ever blackened a people's fame. Nay; we shall store up retribution for ourselves and our children."

"The old world must and will come to an end. No effort can shore it up much longer. If there be any who feel inclined to maintain it, let them beware lest it fall upon them and overwhelm them and their households in ruin."

"It should be the sublime duty of all without thought of partisanship, to hold in the building up of the new world, where labor shall have its just reward and indolence alone shall suffer want."

FEDERATION OF
CIVIL SERVANTSDETAILS COMPLETED SATUR-
DAY BETWEEN MONTREAL
AND QUEBEC ASSOCIATIONS

On Saturday last a convention of the civil service employees of the Provincial Government was held at the Association's headquarters here, at which delegates were present from the Montreal branch of the Association. Details for the federation of the Montreal and Quebec Associations were completed and a General Council to govern the two bodies was formed.

The three principal officers of the Council chosen being Lt.-Col. O. E. Talbot, president, J. A. Mignault, vice-president; J. E. Beauchamp, secretary-treasurer. The remaining six members to be selected by the Montreal and Quebec branches of the Association.

Steps are to be taken to group in the federation the remaining members throughout the Province.

Very gratifying results were reported by two branches of the Association, a very large number of applications for admission now being in hand for consideration.

Before adjournment the President Col. Talbot, on behalf of the Quebec executive invited the delegates to a sight-seeing trip to the Quebec Bridge and surrounding on Sunday afternoon.

RECORDER'S COURT

A taxicab driver was charged in the Recorder's Court Saturday morning with drunkenness and also with breaking a plate glass window in the store of Joseph Martel, St. Joseph St. The defendant pleaded guilty to the charges and was fined five dollars and costs on the first and ten dollars and costs on the second charge.

A laborer employed on the work at the Little Seminary was charged with drunkenness and also with using threatening language towards the foreman. He was sentenced to a fine of five dollars and costs on the first charge and ten dollars and costs on the second.

A fine of ten dollars and costs was imposed upon a cabman from Murray Bay, who had been arrested on Friday evening for having been drunk. Another delinquent for a similar offence was sent to jail for a month, whilst a third offender was condemned to pay a fine of five dollars and costs.

REFERENDUM

The referendum has been defined as "the referring of legislation to the people for final rejection or acceptance," and the initiative as "the giving to the people the right of proposing legislation to be acted upon."

Announce An

Autumn "Selection Display"
of Fine Furs—

This great event begins Tuesday 16th, following most complete and extensive preparations for one of the most elaborate September displays we have ever held. To our clients are brought the world's finest and most dependable furs, embracing every new style decreed correct for the coming winter.

Moreover singular as it may be the furs most in demand are of pelts caught almost at our very door, thus it is possible to obtain here fine furs of the prevailing fashion at a more moderate price than elsewhere.

Select Now and Save Money

The advantage of choosing your furs during this "Selection Display" need hardly be detailed here. We believe your knowledge of and familiarity with the greatly increasing costs of furs and labor since we procured these pelts will carry this fact to you more forcibly than anything we can say.

Buy Now---Pay Later

Select your furs now before the winter prices prevail. Pay a deposit and we will store them till required. In the meantime you may make payments as convenient to you, so that when fur wearing time comes your furs will be paid for. This offers you a wonderful opportunity to save money. Furs will be stored free.

Thousands upon thousands of dollars worth of new furs are shown in the new pelts of:—

Scotch Mole—Russian Kolinsky—Fitch—Stone Marten—Hudson Bay and Russian Sables—Siberian Grey and Taupe Squirrel—Black and Pointed Fox—Brown and Taupe Fox—Cross, Silver and Blue Fox—Black and Grey Lynx—also smart coats of Poney—Persian Lamb—Hudson and Electric Seal—Beaver—Leather and Raccoon.

REMEMBER THIS

Holt, Renfrew Furs can be had less expensively now than later, and a small payment holds Furs till required.

QUEBEC, SEPTEMBER 15, 1919.

LAUNCHING THE LOAN CAMPAIGN.

His Worship the Mayor has called a public meeting of the citizens of Quebec and its environs for tomorrow evening, Tuesday, the sixteenth instant, at the City Hall to undertake the work of organization for the impending Federal Victory Loan and to launch the local campaign in connection therewith.

We would urge our readers to make a strong effort to attend this meeting and to take a personal interest in this national work which is no less practical than patriotic. For the sake of its own credit the district of Quebec must surpass if possible, but equal at any rate, its effort of last year. This can only be accomplished by the most general and enthusiastic co-operation although we are sure it is only necessary to make the suggestion to arouse an immediate response.

The advantages, both direct and indirect, resulting from the Loan are very considerable; a fact of which each should show his recognition by subscribing as liberally as his means permit. It has been officially stated that this will be the last appeal of its kind to be made in Canada and the amount aimed at is required to meet expenditures incurred in connection with the termination of the war. Such expenditures will have to be met in any case and, if the loan campaign were to prove a failure through any mishap, it would mean heavier taxation and more unsettled financial conditions throughout the Dominion for the next twelve months.

While an appeal to public spirit should suffice in matters of this kind we may also point out that support of the loan is a thoroughly sound business investment. While confidence in the outcome of hostilities never wavered, there was an element of uncertainty about previous Victory Loans, since the success of Teutonic arms would make the notes valueless, and yet each of them has been fully subscribed. This year there is no uncertainty whatever, the expected victory has been won, and the amount of the loan is amply secured by the credit of Canada with its growing industries and its virtually inexhaustible natural resources. Doubtless there are investment openings that offer greater returns but assuredly there are none that can be regarded with greater confidence.

The idea of opening the campaign with a public meeting under municipal auspices is an excellent one and the Provisional Committee has the best wishes of the Chronicle for the success of its undertaking.

MAKING COUNTRY LIFE ATTRACTIVE.

A complement of the Housing Scheme to make living in the city more healthful is to be found in the Community Plan intended to make living in the country more attractive, and the last is certainly not less important to the future of this country than the first.

Since we have the cities it is a national duty to make the best of them by abolishing the slums as rapidly as it may be done, but one way, and certainly the least costly, is to reduce the surplus urban population. Under existing conditions, rural life has not sufficient attractions to hold those born to it, far less to invite those who are not; yet, if we are to combat poverty and reduce the cost of living to a minimum, we must build up the country so that there may be a volume of production great enough to meet the consumer's demands.

As is usual with all knotty problems, there are many reasons for the superior "pulling power" of city over rural residence but one of them—and by no means the least—is to be found in the relatively greater facilities for social intercourse and relaxations. Some of these facilities are of doubtful moral and physical value to say the least, but man is a gregarious animal and demands reasonable scope for community development; the question is how this can be done in country districts without creating additional towns and cities.

A promising effort, whose success can only be proven by experience, has recently been initiated by the Provincial Government of Ontario and our own Government in Quebec might do worse than give the Community Plan careful study.

It is well recognized that social as well as economic conditions have much to do with community development and well-being. While in many rural sections a very desirable condition socially exists, there has been for some time the need of proper meeting places or of desirable centres for community gatherings and for organizing community effort. Having these facts in mind, the Ontario Legislature at its last session passed the Act Respecting the Establishment of Community Halls and Athletic Fields in Rural Districts, which was introduced by the Minister of Agriculture. This Act provides for giving financial assistance to rural communities for the purposes of erecting community halls, or for providing such accommodation in consolidated schools.

In order to safeguard against the possibility of these halls being unsuitable for the purposes intended, the Act provides regulations, one of which requires that the hall include an auditorium with movable seats, reading room, including a library and kitchenette. The auditorium should have a level

floor and platform with space suitable for recitals, dramatic entertainments and the discussion of public questions. It is intended that such a building should be available for all meetings and gatherings of a community nature in the broadest sense of the meaning of these terms and consistent with the regulations made under the Act.

It is also provided that each community hall shall have in connection with it at least three acres of land adjoining the building or in close proximity to it, this land to be used for sports, picnics and outdoor gatherings.

To assist communities undertaking the erection of these halls the plans of four different types of buildings are given. It is not expected that these should be entirely followed. It is the intention that they should serve more as a guide and may be modified to suit local conditions. All plans of proposed community halls and athletic fields must be submitted for the approval of the Department.

A Board of Management which constructs a new building or remodels a building now in existence according to plans approved by the Department and provides the required athletic field shall receive through the Municipal Corporation of the township the Government grant, this to be 25 per cent of the cost of the building, but no grant shall exceed the sum of \$2,000. The cost of the building shall be exclusive of the cost of the land for building and grounds.

After the plans of a proposed hall have been approved, and the building has been constructed in accordance with those plans, the Board of Management shall forward to the Department of Agriculture a certified statement showing all monies received and expenditures made, in connection with constructing the building. Where members of a community contribute to the establishment of a hall by giving their services free in connection with some part of the work of construction, the number of days work represented by such voluntary service and the amount of wages which otherwise would have been paid for such work, may be shown in the financial statement as part of the cost of building.

FEVERED FANCIES.

Writing in the London Daily Telegraph, Archibald Hurd, recently declared "it is an interesting fact that, judged by the strength of its battle squadrons in active commission, this country's supremacy has at least temporarily passed away." By the aid of comparative figures he proceeds to show that the United States now occupies the position of greatest numerical strength and concludes "it must be somewhat of a blow to our national pride, that we should have reached this secondary position at sea."

Any one at all in touch with current British events will realize what a prominent place the navy is occupying in public discussion at the present time on account of the controversy precipitated by Lord Fisher. It will therefore be no surprise that a writer recognized as one of the foremost English experts on naval matters should place himself on record in this connection, nor is it less natural that so serious a statement should be cabled abroad by Reuter's Agency. Indeed we venture to say that Mr. Hurd had no thought for anything but the information of his readers and that Reuter's were concerned only with the news value of the article.

Despite this simple explanation, a section of the Canadian press with a sensitive nose for plots, conspiracies and treasons has had no difficulty in discovering in the matter a sinister instance of Imperialistic propaganda, having for its object the persuasion of the overseas Dominions to make good this lost supremacy by their own naval efforts.

Such a point of view would be merely ludicrous if it did not point to an obstinate determination to combat any Canadian naval policy whatever, and doubtless the arrival of Lord Jellicoe will furnish the inspiration for further ratings in this hysterical vein.

Now Canada may or may not be a nation at the present moment, but it is clear that she must decide at some time whether she desires to become one or whether she intends to remain a self-governing dependency of Great Britain indefinitely.

If we are, or desire to become, a nation then we cannot reasonably look to others for our defense. If we are content with our present status then it is easy for us to thrust this responsibility upon others so long as they are willing or able to accept it but, in this event, we cannot with either dignity or decency amuse ourselves in reviling British supervision, we cannot say in effect "you need not expect us to stir on your behalf unless our own shores are invaded." That would be the conduct of selfish cowardice of which we do not believe any Canadian could consciously be guilty.

It follows therefore that, as we have an extensive coast-line on two oceans thousands of miles apart and, since we have a small but growing mercantile marine, we must provide some sort of naval armament for their protection. Speaking subject to technical correction we affirm that it is impossible to prevent a hostile landing, either from the Atlantic or the Pacific, by any system of shore and harbor defenses alone or to send our merchant steamers to sea in time of war.

Doubtless some would be content to leave anything more than this to the British Navy but, if the Admiralty says "we are very sorry but we can no longer undertake to protect your shipping and your coast as we have already more than we can take care of," then we may think or say a number of unkind things but there will be nothing left to do but sink or swim and, since a navy cannot be produced from a conjurer's sleeve, we shall probably sink.

It is highly undesirable that we should build up a fleet capable of aggressive operations but it is essential that we acquire one sufficient to reasonably ensure the defense of our own interests. This is a truth that the Canadian people must clearly recognize if they do not wish to have it unpleasantly impressed upon them at some future date.

HONORED BY FRIENDS

Popular Young Quebecer Recipient
Of Handsome Gift

A well known young Quebecer in
the person of Mr. J. W. Rooney was
honored by his many friends at the
Kent House on Saturday evening,
when a number of them gathered to-
gether, and tendered him a little din-
ner, at the conclusion of which he was
presented with a well filled purse.

Some very eloquent speeches were
made by guests present. Messrs Con-
way and Paul O'Brien, in particular,
rising to the occasion, and making a
few appropriate remarks.

After the dinner was over, singing
and dancing was indulged in until
about two o'clock when the party re-
turned to town in a special car, which
was waiting for them.

BIRD'S-EYE MAPLE.

Buds That Never Mature Give the
Grain Curly.

What makes the bird's-eye maple?
That is the question which is often
asked when a beautiful piece of fur-
niture made of this wood is display-
ed. There have been a number of
theories, but the real reason is
simple.

The favorite theory has been that
sapsuckers, by pecking holes through
the bark of young maples, make
scars which produce the bird's-eye
figure in the wood during the suc-
cessive years. Bird-pecked hickory is
often cited as an analogous case, yet
who ever saw bird's-eye figures in
hickory, though the bark may have
been perforated like a colander by
the bills of energetic sapsuckers?
The effect of bird's-eye in maple; the
wood is discolored and unsightly.
Some attribute it to the action of
frost, but no such connection between
cause and effect has been shown to
exist.

The explanation of the phenom-
enon is simple, and a person with a
good magnifying glass can work it
out for himself. The bird's-eye fig-
ure is produced by casual or abnor-
mal buds which have their origin
under the bark of the trunk. The
first buds of that kind may develop
when the trees are quite small. They
are rarely able to force their way
through the bark and become
branches, but they may live many
years just under the bark, growing
in length as the trunk increases in
size, but seldom appearing on the
outside of the bark. If one such bud
dies, another will likely rise near it
and continue the irritation which
produces the fantastic growth known
as bird's-eye.

It is said the Japanese produce
artificial bird's-eye growth in certain
trees by inserting buds beneath the
bark.

JUST ONE MORE.

"Just one more question, uncle."
"Well, well, what is it?"
"If a boy is a lad and has a step-
father, is the lad a stepfather?"

CAMPAIGN OPENS
IN QUEBEC EAST

MR. F. X. GALIBOIS OUTLINED
HIS PLATFORM AT MEET-
ING IN LIMOILLOU.

The campaign for the Quebec-East
bye-election, to choose a successor
to Sir Wilfrid Laurier was opened in
Limoilou yesterday by Mr. F. X.
Galibois, the Liberal-Labor candidate,
who announced from the outset that
he would contest the seat with all
comers.

The meeting was held at the cor-
ner of 4th Street and 4th Avenue and
was presided over by Mr. George
Denis, while speeches were made by
Mr. F. X. Galibois and Mr. A. L.
Gareau.

There was a considerable attend-
ance at the meeting and Mr. Galibois
was given a good reception. The
broad lines of his programme are as
follows:

A new post office in Limoilou in
accordance with the importance of
that division; to maintain in opera-
tion and enlarge the C.N.R. shops
at Limoilou; the completion of the
damming work on the St. Charles
River in accordance with the agree-
ment between the Government and
the City that the latter will change
the system of drainage; the full
operation of the St. Malo workshops;
a control over the prices of foodstuffs
with a view to reducing the cost of
living; opposition to all trusts and
mergers; opposition to the bringing
of immigrants to the cities, but in
favor of interesting them in agricul-
ture; the development of the fish-
eries of the Lower St. Lawrence; the
construction of a railway to Labrador
in order to shorten the route to
Europe and to develop the forest and
mineral riches as well as the water
powers of the North Shore.

Mr. Oscar Drouin, a Liberal can-
didate, will open his campaign at
Jacques Cartier Market Square to-
night.

Mr. Arthur Lachance, who is also
mentioned as a candidate, has not yet
made any public announcement.

LEON ROTHIER AND
MARCELLA CRAFT COMING

Famous Metropolitan Stars Will Be
Heard Here With San Carlo
Opera Company

Great news for opera lovers! The
famous French basso from the Metro-
politan Opera Company, Leon Ro-
thier, has been engaged to appear in
Quebec as "guest" artist with the
San Carlo opera company, week of
Sept. 29th at the Auditorium theatre,
and also Madame Marcella Craft, the
world renowned dramatic soprano.
These great stars will be here in ad-
dition to the regular list of San Carlo
artists. Rothier will appear in Faust
(Mephisto), in Romeo and Juliette,
(Friar Laurent) and in "Barber of
Seville" (Basilio). Madame Craft
will sing Marguerite in Faust and
Madame Butterfly, if this opera is
given, as it is hoped by everyone.

The complete repertoire will be
received from New York today and
announcement will most probably be
made in the local press tomorrow.
Seats will be on sale Saturday morn-
ing at the Auditorium theatre.—Adv.

If Home ties are losing their hold
on your boy or girl, let them see
"Home" at The Victoria.—(Adv.)

NOTICE REGARDING THE
"VATICAN CHOIR" CONCERT

Owing to the criticism received at
our store about the organization and
high prices demanded for the Vatican
Choir concert, we find it necessary to
inform the public that neither this
firm nor Mr. Gauvin personally are
not connected in any way, directly or
indirectly, with this concert. The
choir is brought to Quebec by a New
York manager and the concert is to
be given under the local auspices of
the War Veterans. We have simply ac-
cepted to sell tickets at our store at
the demand of the latter and we dis-
claim any responsibility in the man-
agement. Gauvin & Courchesne, Au-
ditorium Bldg.

It is said the Japanese produce
artificial bird's-eye growth in certain
trees by inserting buds beneath the
bark.

COMMEMORATION
OF WOLFE'S DEATH

WAS HELD ON SATURDAY —
SCHEME TO PERPETUATE
SERVICES OF CANADIANS.

The Chronicle is in receipt of a
communication from Captain Hamil-
ton Benn, D.S.O., M.P., in which
he draws attention to the commem-
oration which took place at Green-
wich on September 13th of the 160th
anniversary of General Wolfe's
death. In connection with this com-
memoration a scheme was proposed,
to which Lady Patricia Ramsay
graciously bestowed her patronage,
whereby the services of Canadians
in the Great War would be remem-
bered, and the following particulars
were embodied in the scheme.

The body of General Wolfe rests
in the crypt of the Parish Church of
St. Afage, Greenwich, beside those
of his parents.

Some years ago a printed bunting
Canadian Flag was placed immedi-
ately above Wolfe's Vault within the
Church.

In grateful commemoration of all
that General Wolfe's sacrifices rep-
resented, as well as in lasting recog-
nition of the vast and heroic services
rendered during the late war by the
gallant Canadian Forces, it was pro-
posed to substitute and solemnly
dedicate a hand embroidered silk
Flag for that which had been sus-
pended over Wolfe's resting place.

Public subscriptions were invited
to endow the maintenance of the
Flag in perpetuity (in the names of
the Public Trustee and the Vicar of
Greenwich for the time being), which
endowment would cost about \$300.

The response to this appeal was
expected to be such that the amount
raised in excess of that required
would enable the trustees to endow a
"Wolfe Memorial Bed" or beds both
in the "Miller" and the "St. John's
Hospitals," where the needs of a
large area of which Greenwich is the
centre are met.

Among those who have joined the
General Committee are the follow-
ing:

The Right Reverend the Lord
Bishop of Willesden, formerly Lord
Bishop of British Columbia, who
undertook the Commemoration Ser-
vice and dedication of the Flag.
Major-General Lord Chylesmore,
K.C.M.G., G.C.V.O.
Sir George Perley, K.C.M.G.,
High Commissioner for Canada.
Colonel R. McCalmont, D.S.O.,
Irish Guards, and many others.

SHAFT TO MEMORY
OF LOUIS HEMON

WILL BE UNVEILED AT PERI-
BONKA WEDNESDAY, BY
HON. J. E. PERREAULT

The unveiling of monument erected
to the memory of Louis Hemon, the
author of "Maria Chapdelaine" a ro-
mance on French-Canadian customs
which met with such success in
France and Canada, will take place at
Peribonka, Lake St. John County, on
Wednesday and will be under the aus-
pices of the Society of Arts, Science
and Letters.

Hon. J. E. Perreault, Minister of
Colonization, Mines and Fisheries
will preside over the ceremony, and
will be accompanied by Hon. C. F.
Delage, Superintendent of Public In-
struction, Mr. G. E. Marquis, Presi-
dent of the Society of Arts, Science
and Letters, Mr. H. R. St. Victor,
French Consular Agent, Mr. A. B.
Normandeau, Mr. George Morisset,
Abbe I. Caron, J. H. Lavoie, D. Pot-
vin, Alf. Michaud, J. S. Lesage, and
others.

Mr. Damase Potvin is in charge of
the organization work for the occa-
sion.

Louis Hemon, the author of "Maria
Chapdelaine" to whom the monument
will be unveiled, was born at Brest,
France, in 1880. He was 33 years of
age when he died, having been killed
in a railway accident at Chapleau,
Ont. He had studied in Paris and
London before coming to Canada. He
lived at Peribonka with a family of
settlers and it was there that he wrote
his famous book "Maria Chapdelaine."

MEETING OF THE
CITY COUNCIL

Friday, 12th September, 1919
Present: Alderman Collier, Pro-
Mayor; Alderman Lantier.

At 8:15 o'clock p.m., there not being
present a sufficient number of Alder-
men to form a quorum the Council
adjourned.

CLUBS.

Sweet Young Thing—Why do men
join clubs?

Sour Old Dud: Well, some join be-
cause they have no homes and some
because they have.—Life.

PRESENTATION TO
LIEUT. N. T. MORTON

RECEIVED TOKEN OF ESTEEM
FROM CHOIR MEMBERS OF
ST. MATTHEW'S CHURCH

After Matins yesterday an inter-
esting event took place in the vestry
room of St. Matthew's Church, when
Lieut. Norman T. Morton was the re-
cipient of a presentation from the
members of the choir on the occasion
of his approaching departure from
Quebec.

Canon F. G. Scott, Rector of St.
Matthew's who made the presentation
on behalf of the choir, in the course of
a short though feeling address re-
ferred to Mr. Morton's long connec-
tion with the church, and expressed
the regret of the entire parish at his
departure which would be greatly felt
by all, particularly as he had been a
hard worker in promoting the welfare
of the church. For the past sixteen
years Mr. Morton had been a valuable
member of the choir, his services hav-
ing been given most ungrudgingly in
this branch of the Church's work, and
his leaving would be a great loss to
the choir. In the name of himself and
the members of the choir he had much
pleasure in asking him to accept from
them a handsome clock as a slight
token of the esteem in which Mr.
Morton was held by his fellow chor-
isters and extended the wishes of all
for the future prosperity of their de-
parting member and his family.

A brass plate was affixed to the
clock bearing the following inscription:
"Presented to Norman T. Morton
by the members of St. Matthew's
Choir, September 14th, 1919."

Mr. Morton in reply thanked Canon
Scott for his kind expression, the kind
manner in which he had referred to
the services rendered by him, which
had always been a pleasure as well as
a privilege to perform. He would al-
ways look back upon the sixteen years
he had spent in the choir as amongst
the happiest of his stay in Canada.
Mr. Morton also extended his thanks
to the members of the choir for kindly
remembering him on the eve of his
departure from Quebec, and, in con-
clusion expressed the hope that St.
Matthew's Church would continue to
receive the loyal support of its mem-
bers.

Lieut. Morton has just retired from
the Canadian Militia in which he has
served for about twenty years. He
was a popular member of the Force, in
which he had a great many friends,
who, together with their numerous
friends through the city, will extend
to Mr. and Mrs. Morton and family
best wishes for every prosperity in
their future home in England.

The permanent and temporary staff
of the Quebec Provincial Exhibition
assembled in the Recorder's Court
room on Saturday night to tender an
expression of esteem to Mr. George
Morisset, secretary of the Exhibition,
and Mr. Michael Labbe, superintendent
of the Grounds, and at the same
time to celebrate the success of this
year's fair.

The room was appropriately decor-
ated for the occasion and the ad-
dresses were a tangible mark of the
regard in which they were held by
their fellow-workers.
Speeches were made by Ald. Fiset,
Ald. Lesage, Mr. Theo. Dube, Mr.
George Morisset, Mr. J. E. Marquis,
Mr. A. Cinq-Mars, Mr. D. Potvin and
others.

A splendid vocal and musical pro-
gram had been arranged for the oc-
casion and with Mr. Leonce Crepault
presiding at the piano the remainder
of the evening was very pleasantly
spent.

EXHIBITION STAFF
REMEMBER CHIEFS

PRESENTATION MADE TO
MESSRS. GEORGE MORISSET
AND MICHAEL LABBE.

The unveiling of monument erected
to the memory of Louis Hemon, the
author of "Maria Chapdelaine" a ro-
mance on French-Canadian customs
which met with such success in
France and Canada, will take place at
Peribonka, Lake St. John County, on
Wednesday and will be under the aus-
pices of the Society of Arts, Science
and Letters.

Hon. J. E. Perreault, Minister of
Colonization, Mines and Fisheries
will preside over the ceremony, and
will be accompanied by Hon. C. F.
Delage, Superintendent of Public In-
struction, Mr. G. E. Marquis, Presi-
dent of the Society of Arts, Science
and Letters, Mr. H. R. St. Victor,
French Consular Agent, Mr. A. B.
Normandeau, Mr. George Morisset,
Abbe I. Caron, J. H. Lavoie, D. Pot-
vin, Alf. Michaud, J. S. Lesage, and
others.

Mr. Damase Potvin is in charge of
the organization work for the occa-
sion.

Louis Hemon, the author of "Maria
Chapdelaine" to whom the monument
will be unveiled, was born at Brest,
France, in 1880. He was 33 years of
age when he died, having been killed
in a railway accident at Chapleau,
Ont. He had studied in Paris and
London before coming to Canada. He
lived at Peribonka with a family of
settlers and it was there that he wrote
his famous book "Maria Chapdelaine."

MEETING OF THE
CITY COUNCIL

Friday, 12th September, 1919
Present: Alderman Collier, Pro-
Mayor; Alderman Lantier.

At 8:15 o'clock p.m., there not being
present a sufficient number of Alder-
men to form a quorum the Council
adjourned.

CLUBS.

PRO. HOCKEY FOR QUEBEC THIS YEAR

In The World of Sport

STANDARDS BEAT TIPPERARY TEAM

PROFESSIONAL HOCKEY TO BE PLAYED HERE NEXT WINTER

"BULLDOGS" WILL VERY PROBABLY BE MEMBERS OF N. H. A. AGAIN THIS SEASON—WILL BE ABLE TO PLACE STRONG TEAM ON THE ICE.

That there is a very strong possibility of professional hockey being played here again this coming winter, was admitted on Saturday by a gentleman who is very much interested in the matter.

He said that the President of the N.H.A. is in communication with the local hockey men, and that the N.H.A. are desirous of seeing Quebec represented by a team in the big league again next winter.

There is no doubt that the hockey fans of the city are hungry for professional hockey again, and the large crowds that have witnessed the exhibition games that have been played here are silent witnesses of its popularity.

If the Ancient Capital decide to operate a team in the N.H.A. they should be able to place a first class team in action for every game. Joe Malone will no doubt turn out for the Bulldogs, while George Carey, Jack McDonald, Rusty Crawford, Harry Mummary, Walter Mummary, Dave Ritchie, and two or three others that have worn the Blue and White of Quebec to victory on a number of occasions would, no doubt, be only too pleased to be seen in action again in Quebec.

It is rather early to talk hockey just now, for there are three months before the season will open, but there will be a meeting of the league in Montreal, in the near future, when more will be known of the position and chances of Quebec figuring in, and perhaps winning the championship, of the N.H.A.

Sporting Notes

There will be a meeting of the Quebec City Baseball League this evening at the Victoria Hotel. The meeting will start at 8:15 sharp.

St. Pats came near trimming the Naps yesterday afternoon, and if they had not let them score four runs in the first frame, would have done it.

Frank Brophy played behind the bat yesterday afternoon for the Saints and caught a first class game.

The C.B. Napoleon game next Sunday at the Exhibition Grounds should prove to be a hummer.

Walter Rooney, former St. Patrick's hockey and lacrosse star, is getting married this morning. Best of luck, Walter.

The Baltimore Orioles have finished the 1919 season in the International League as champions. The Toronto Leafs are second, being but seven and a-half games behind the leaders.

The Quebec golfers were unlucky in losing to the Grand Mere team on Saturday.

The Cincinnati Reds won two games and lost one over the weekend, while the New York Giants were winning and losing. So the Reds added another little mite to their lead in the National League race.

Well, the Standards sprung a little surprise all their own by trimming the Tips yesterday. This makes their third victory of the season.

Bert Reiger and Lou Mace spent a very busy afternoon. Both men took part in the double-header, for after the Tips and Standards had finished their go, they turned out for St. Patrick's, who were short two men.

Tom Kelly did not turn out with the Saints yesterday, as he has been confined to his room for the last two days.

Semi-ready Tailoring:

"Rich texture treatments are combined with exceedingly tasty pattern effects."

"Precise tailoring emphasizes the distinctive style innovations of our Semi-ready suits."

"Characteristics that are desirable help make these the highest quality clothes."

"The finest impression you obtain from their outward attractions is lived up to by the inside tailoring—"

"The integrity of the price in the pocket—the same price West as East—has never been questioned."

GEORGE MORISSETTE,
St. John Street.
8.15pm, wd/fr/sa

STANDARDS AND NAPS WERE THE WINNERS

FORMER DOUBLED SCORE ON
TIPS. WHILE LEVITES
BEAT ST. PATS BY ONE
RUN.

The games at the Exhibition Grounds yesterday afternoon attracted quite a large attendance. The first contest of the afternoon resulted in a victory for the Standards over the Tipperarys by a score of 4 to 2, while the other game saw the Naps creep a little closer to the C.B. outfit by defeating St. Patrick's by a score of 5 to 4.

The Standards played first class ball, and took advantage of any little mistakes that their opponents made. In the third frame, they scored three runs, McCord crossing the plate with the first when Shink dropped a ball that had been thrown in to catch him scoring, and two more when Desjardins cracked out a nice little single. Another was added in the seventh.

The Tips got their first runner across the slab in the fifth, and scored their second and last run in the seventh.

Gendron and Morency, the opposing pitchers, twirled good ball, and were well supported.

The Naps started off well in the first frame by scoring four runs, on two hits one error, and two passed balls. Savard's tumble at second led in the two first runners across the plate, while another man scored when Brophy let the ball slide behind the plate. Pitcher struck out the next man, but the third strike was dropped, and the fourth runner crossed the home plate. They scored their fifth tally in the seventh on a hit and two errors.

The Saints made their first counters in the fifth, when H. Kelly, Savard, Worth and Mace made a single apiece. Their second brace came in the eighth, when Mace singled, Reiger dropped a Texas leaguer just behind first, and both scored when E. Racine made a wild throw to first of Brophy's drive. The Saints tried hard to tie up the score but were unable.

Pitcher and Metivier each hurled great ball, but Metivier was hit harder yesterday than he has been during the season. He was saved by great support.

PAL MOORE ARRIVES

BACK IN STATES

New York, N.Y., Sept. 13—Pal Moore, the American bantamweight whose two bouts with Jimmy Wilde, the English flyweight, aroused international ring interest, arrived here today from England.

Moore will remain in this country for about six weeks during which period he will box several contests. He plans to return to Europe late in the fall for other international bouts.

VISITING GOLFERS BEAT HOMESTERS

GRAND MERE DEFEATED
QUEBEC BY ONE POINT IN
CLOSELY CONTESTED
GAMES SATURDAY.

The fourth of a series of matches between Quebec and Grand Mere was played on Saturday at the Quebec Golf Links, where, after some of the keenest playing ever witnessed, the visitors were successful in defeating the locals by one point, the final score reading, Grand Mere 16, Quebec 15.

Fourteen players from each club competed, and all played individual matches. The games were remarkable for the closeness of play on the part of both clubs, and when the final hole was reached in the last match, neither club were sure of victory until the final score card had been turned in. Then it was found that the visitors were ahead by one point, and had won the match.

The following gentlemen represented Quebec: Messrs. H. G. Bosse, McAllister, McGreevy, Leonard, Laurie, Delagrange, Hay, MacManamy, Mills, Thompson, G. Garneau, I. Bosse, Hinds, and Major LaBee.

A curious coincidence is that each of the four games have been won by the narrow margin of one point. Last year Quebec were defeated at Grand Mere, but won on the local links, while this year they were victorious on their trip to Grand Mere, but lost yesterday on their own links. Thus the two clubs are all square on their four matches.

NATIONALS BEAT OTTAWA SENATORS

FINAL SCORE WAS THIRTEEN
TO FOUR IN LACROSSE
MATCH IN MONTREAL.

Montreal, Que., Sept. 14—Nationalism smothered Ottawa in the last appearance of the Senators here this season, the final score being 13 to 4. At no stage of the game were the visitors dangerous.

There were plenty of penalties handed out during the game, but none of them were for serious offences, and while the game could not be called clean, it was not excessively rough. The game was so one-sided that the crowd had little cheering to do, and the players themselves grew listless as the game progressed.

Ottawa were plainly out of condition and lacked practice. They went through the motions of lacrosse, but in actual play they were so out-clasped that any effort at team play was promptly killed by the home players.

The young National team, once they got on the road to victory, played with confidence and never being in danger showed up to good advantage. Degray and Baillargeon led on the attack, each scoring three goals. Shields and Lacelle were the only two of the Ottawa players who made any effort to get in on the National nets, and their efforts were rewarded by each counting two goals, making the Ottawa total.

The National defence was not called upon to do much work, but the players saw that their forwards were fed in good style throughout the match. Carroll played in goal for Ottawa, Benedict being used in the field.

AT THE THEATRES

MRS. CHARLIE CHAPLIN "IN HOME" AT VICTORIA

"Home" one of the most appealing photoplays of the year, featuring Mrs. Charlie Chaplin, (Mildred Harris) will open a 3 day's run at the Victoria Theatre today. This is a play which cannot fail to impress and it should be seen by the whole family. The story:

Poor foolish little Millie Rankin! With the most loving father and mother in the world, with the kindest of little sisters, with a boyish lover who adored her with a humble goodly love that was the pure gold in a world of dross. Millicent Rankin, whose Dad was a small town plumber, believed that happiness lay only in wealth and that the thing to be desired most of anything in the world was a rich marriage.

Through a chain of circumstances that nearly broke her mother's patient heart, Millie contrives a visit at a rich girl friend's summer home, leaving her mother to worry herself into illness taking care of Millie's sister, who has scarlet fever.

At Beverley, the mansion of the Deerings, Millie sees practiced as a fine art the deceptions and foibles that she herself had begun in a small way. A man-about-town, without visible means of support represents to her the riches and social status she had so long coveted. And he, taken by the girl's innocent sweetness, drops his intrigues with Mrs. Deering long enough to play with the child's affections.

The maids talk about the girl's cheap clothes, a family group sent by her boyish sweetheart is made the object of derision by the entire party of house guests, little Millie innocently bids fair to involve herself in a compromising situation. Then—but why tell all—see the outcome of this drama of real life at the Victoria today, you will feel the better for it. The 6th episode of "The Great Gamble" is on the same bill. See Hutchison make his daring leap from an aeroplane.—Adv.

ANITA STEWART AT THE EMPIRE TODAY

"Mary Regan," a picturization of Leroy Scott's famous novel of that name, featuring Anita Stewart, is presented at the Empire today. A story of a beautiful girl, with more than her share of brains and nerve, stacks up against a gang of high financiers, so crooked they could hide behind a corkscrew. Her mother was a lady of refinement and culture, her father a notorious crook. The White Lights of New York, the underworld, and highest society play important parts in the life of "Mary Regan". Can she beat the "big" men at their own game? A powerful drama, with a beautiful love story. One you will remember for years to come. See Anita Stewart in "Mary Regan."

Topics of the Day, Pathe News Weekly, and comedy are shown on the same bill. Make it a point to come early in order to obtain a good seat.—Adv.

TOM MOORE IN PLEASING PICTURE AT ALLEN

The Allen presents Tom Moore, today, tomorrow and Wednesday in one of his lightest and most pleasing offerings: "Heart Ease."

The motion picture reviews speak in eulogic terms of this production and no doubt it will be met with applause at the Allen today, tomorrow and Wednesday.

The bill, for these three days will also include a very amusing comedy and other features that make of the Allen's bill the strongest attraction in town.

Full orchestra will provide music.—Adv.

FUTURITY WON BY COLT MAN O'WAR

LED FROM START TO FINISH
OVER SIX FURLONG
COURSE.

New York, N.Y., Sept. 13.—Samuel D. Riddle's chestnut colt Man O' War by Fair Play's Mahuba, won the classic Futurity over the six furlong straight way course at Belmont Park today, having led from start to finish in 1:11 3-5.

Harry Payne Whitney's Whisk Broom colt by John P. Grier, finished second, three lengths behind the winner and five lengths in front of Samuel C. Hildreth's Dominique, which got third money.

Running down the middle of the track with Jockey Loftus steering him straight without urging him, Man O' War won easily and proved conclusively that he is the two year-old champion of the year.

Many great race horses have won this classic since its first running in 1888 when Proctor Knott beat Salvatore but many prominent horsemen who saw today's race declared that Man O' War is better than any of them with the possible exception of the late James R. Keene's Colin which won it with an unbeaten record, having finished first in all of his engagements as a two year-old in 1907.

Today's winner also should have had a clean slate for 1919, but through the mistakes made by Jockey Loftus, Man O' War suffered defeat just once and that was at Saratoga last Monday when he finished second to Upset in the Sanford Memorial.

The champion will not be seen under silks again this year, as he will be given a rest until he is ready to begin his three year-old career next season.

After a delay of eight minutes at the post, due in part to the impatience of the champion, which broke through the barrier several times the ten contenders were sent away to a good start. Man O' War broke running and set a killing pace with the fast break-

Dominique close up but never able to reach the leader. As the field drew near enough for those in the stands and club houses to distinguish the colors it was seen that harring accident the race was practically over so far as Man O' War was concerned as nothing behind him was able to make him do much more than gallop.

Half-way down the straight-away John P. Grier passed Dominique but this Whitney colt swerved perceptibly all the way to the wire while Dominique just lasted to beat the fast coming filly Cleopatra a neck for third place. Upset was fifth, half a length away, with On Watch sixth, a neck in front of Paul Jones. Dr. Clark an added entry from the Whitney stable after Arethusa had been withdrawn, finished in eighth place, several lengths in front of Captain Akook while the western filly, Miss Jemina which ran with bandages on both hind legs, finished last after being eased up in the final furlong.

The value of the stake to the winner was \$26,050 with \$3,100 for the second and \$1,038 for the third horse.

A Wish Come True

How many of you—boys and girls—men and women—have wished that they might see in the living flesh some of the most famous group of beauties in the world—already friends of yours because of their many appearances on the screen.

Mack Sennett's Bathing Girls

Now they have come to Quebec, straight from the studio, in the chic costumes of the California beaches. Their appearance is made possible only in connection with

Jack Canuck in Berlin

A five reel fun film telling how a young Canadian aviator "vamped" the Kaiser. It is a continuous laugh, and represents the greatest work of the master producer of screen comedy—Mack-Sennett.

CAPABLANCA BEAT
PARISIAN CHESSMEN
Paris, Sept. 14—(Havas)—Jose Capablanca, the Cuban chess expert, yesterday was victorious in a tour-nament against some of the best Parisian chess players. Capablanca won 21 of the 25 games contested. The one he failed to win resulted in a draw.

PREMIER NITTI MAKES EXCUSE

COMMANDER ORDERED TO
DISARM D'ANNUNZIO'S
TROOPS BUT WAS REFUSED.

Rome, September 14.—(By the Associated Press).—Premier Nitti, in a statement in the Chamber of Deputies today regarding the Fiume raid, announced that the commander of the sixth army corps had been ordered to intercept and disarm Gabriele D'Annunzio's troops but that these troops refused to obey the commander's order.

Premier Nitti received news of the entry of D'Annunzio and the Italian volunteers into Fiume, while the Chamber of Deputies was engaged in debate. He was extremely astounded, and the majority deputies expressed their regret that such an incident had occurred.

Joined Secretly.

Venice, Friday, September 12.—Gabriele D'Annunzio on Thursday night secretly joined the body of Italian volunteers which entered and occupied Fiume today.

It is reported that General "Pepino" Garibaldi is among the volunteers.

MAN MISSING.

Kansas City, Mo., Sept. 13.—One man is missing and fifteen men were injured, one probably fatally, in an explosion which wrecked the Burlington grain elevators in North Kansas City this afternoon. The fire was under control late today.

FALL OF RUMANIAN

CABINET CONFIRMED

Paris, Sept. 14.—(Havas).—Confirmation has been received of the report that the Rumanian Cabinet headed by J. J. C. Bratianu has resigned. The fall of the Government was caused by diplomatic difficulties brought about by the refusal of Jugoslavia to sign the treaty with Austria.

DAMAGED HANDLEY.

PAGE REPAIRED

Halifax, N.S., Sept. 14.—The Handley-Page airplane "Atlantic" which was damaged at Parrsboro on a flight from St. John's, Newfoundland to New York, has been repaired and will resume her flight at the end of September.

She will be manned by the original crew, pilot Major Brackley, "skipper" Admiral Mack Kerr, navigator, and Major Grant.

ORDUNA AND MINNEKAHDA

DOCKED AT HALIFAX.

Halifax, N.S., Sept. 14.—The first of the troopships to enter the harbor Saturday was the Cunarder "Orduna" which left Liverpool at 5 o'clock Saturday afternoon with 750 passengers, of whom 300 were dependents and 450 were returning soldiers. She was followed by the "Minnekahda" with 2,500 troops and practically no civilians. Two trains took care of the "Orduna's" passengers and the "Minnekahda's" were cared for by six trains. Both steamers went on to New York.

SCHOONER YUKON

A TOTAL LOSS.

Halifax, N.S., September 14.—The schooner Yukon, owned in Newfoundland, is a total loss at Clam Harbor. The vessel drove ashore at a part of the bay known as "Long Island," Saturday morning. In the dense fog of Wednesday morning they anchored there. For two days the crew remained on the vessel in the face of a heavy gale but Friday night Captain Hicks and the crew determined it would not be safe to remain longer aboard and they put off in the boats and came ashore at Clam Harbor. The vessel rode out to the gale that night. At 8:00 o'clock Saturday, however, the schooner broke away from her anchorage and ran ashore and broke up, and became a total loss. The Yukon was loaded with herring.

CANADIAN VOYAGEUR

MET WITH ACCIDENT

Halifax, N.S., Sept. 14.—The steamer Canadian Voyager, which put in at this port on her way from St. John, N.B., with a cargo of refined sugar from Canada, sought refuge here because of an accident at sea. Her high power cylinder cover blew off. The chief engineer and his staff were, however, equal to the emergency and made temporary repairs. An iron plate was bent in shape and adapted to the work of the cover destroyed and the steamer was able to make this port under her own steam. The damage will be repaired at Halifax and the steamer will be able to proceed in a few days.

THE BEST GOES FURTHER

One bottle goes a long way and gives "ordinary" dishes new zest and flavor. A Great and pleasant aid to economy is

LEA-PERRINS

DO NOT WANT A ROYAL COMMISSION

RETURNED SOLDIERS GRATU-
ITY LEAGUE OF TORONTO
DIFFER FROM G. W. V. A.

Ottawa, Ont., Sept. 14.—A deputation from the returned soldiers' gratuity league of Toronto, composed of Messrs J. H. Flynn, President; V. Kearns-Batchelor, Vice-President; Grand Army of Canada; W. Gordon and H. Rose, and H. Ainsworth had an interview with several members of the Cabinet on Saturday with regard to the demand for a cash gratuity of \$2,000 for men who served in France \$1,500 for those who served in England and \$1,000 for home service. Their attempts to see the Prime Minister were unavailing owing to Sir Robert's illness, but they succeeded in placing their views before Hon. C. I. Doherty, Acting Premier; Sir Henry Drayton, Hon. A. L. Sifton, Hon. Arthur Meighen, Hon. G. D. Robertson and Hon. S. F. Tolmie. To these members of the Cabinet, Mr. Flynn stated that his organization was not in favor of the G. W. V. A. demand for a royal commission, but wanted these issues fought out on the floor of the House. It was claimed that the G. W. V. A. did not represent all returned men. The deputation suggested that bonds be given if the Government could not pay cash and poverty could bear the burden.

The Toronto men were assured that there would be no royal commission appointed and that all societies would have a chance to state their views before Parliamentary Committee which is to be named. Later individual members of the deputation claimed to have met with much encouragement at the hands of members and ministers whom they met.

Members of the G. W. V. A. special committee who are in Ottawa in connection with the work on the gratuity question last night expressed regret that the Toronto men had taken this action, pointing out the need for unity and deploring the visit as that of a "street organization with selfish motives", which would only hurt the prospects of all veterans by such tactics.

Each command of the G. W. V. A. had been advised of all steps taken, they said, and there would be opportunities given for any veteran with a special grievance to place it before the right parties to secure redress.

The Toronto men, when before the Cabinet, stated that the Calgary cash bonus plan when placed before a meeting of 15,000 veterans, was unanimously endorsed.

A determined effort will be made by the G. W. V. A. to place before the Parliamentary Committee on Soldiers' Re-establishment all the evidence possible relating to the needs of returned soldiers. A form of special questionnaire has been telegraphed to all provincial commands and will be printed and issued to all branches that each returned soldier may have the opportunity of presenting in detail his individual requirements. The statistics thus obtained will be classified and tabulated for presentation to the Committee of the House. Telegrams are now being received at national headquarters of the Great War Veterans' Association emphasizing satisfaction at the action by the Government in announcing the formation of a Select Committee of the House of Commons and submitting preliminary details of the problems encountered in each district.

Were Turned Down

Toronto, Ont., Sept. 14.—A dispatch from Ottawa to the Globe says:

"Members of the Returned Soldiers' Gratuity League of Toronto who were yesterday asking for a grant of \$2,000 for veterans of the Great War were turned down by the Government.

"Hon. C. J. Doherty told them that the Country could not raise the amount they were demanding, adding that it was useless for them to continue their agitation, as the Government had made up its mind and did not intend to recede from its position.

"And the Government cannot be intimidated," declared the Minister of Justice emphatically."

STATE COMMISSION MARKET PROPOSED

MEASURE PROVIDING FOR
ESTABLISHMENTS TO RE-
CEIVE AND SELL PRODUCTS
OF STATE.

Sacramento, California, Sept. 14.—William E. Brown, state Senator from Los Angeles, California, has introduced a bill in the Legislature to provide for the creation of a state commission market, and the organization thereof, to carry on the business of receiving from the producers thereof the agricultural, fishery, dairy, and farm products of the State of California, and selling and disposing of such products on commission.

The State, then, would take the place of the middleman in the progress of food from producer to retailer or consumer. The bill also provides for state encouragement of cooperation

among producers, distributors and consumers, and of direct cooperation between producers and consumers.

The State, under the bill, would establish markets to receive produce from California farms and fisheries. The State would sell to retailers and consumers on a commission basis.

In a communication to A. Mitchell Palmer, United States Attorney-General, Mr. Brown thus explains his aim in introducing the bill:

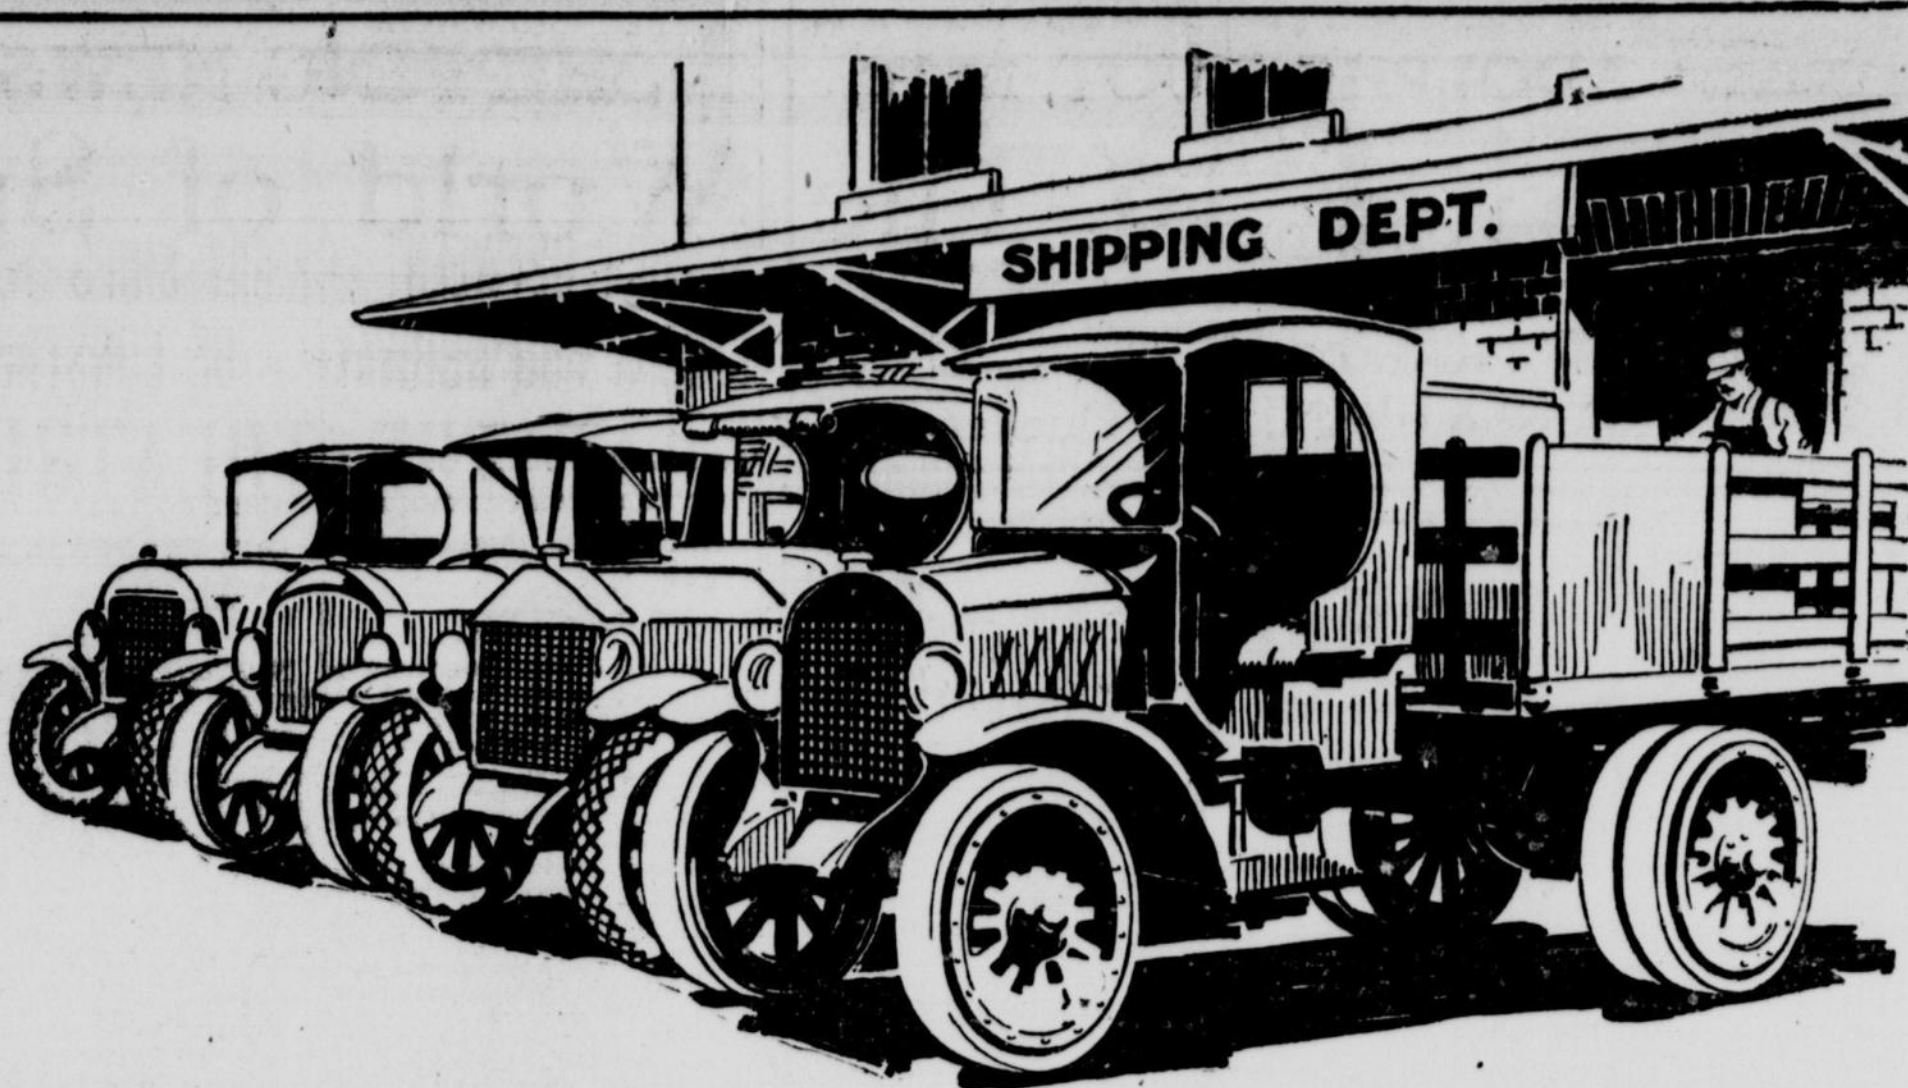

"For years I have worked in season and out for the establishment of a system of self-sustaining state commission markets through which the

law of supply and demand could truly operate unhampered by artificial manipulation and strangulation.

By thus making the State the middleman, justice would be meted to both producer and consumer, and the food shark and speculator would be eliminated. Moreover, the business passing through such markets would act as a regulator in establishing price and quality standards to which all would finally have to conform. Again, by keeping open avenues from producer to consumer, food combines could not successfully operate, as this leak to market would prevent the cornering of food products so essential to the success of combines. So far, our efforts to establish state commission markets have been nullified by powerful lobbies of entrenched interests, but I believe that the time is opportune to accomplish something in this line with federal aid, and I respectfully submit the following suggestion for your consideration:

Everything Favors These Truck Tires

We do not suggest that you buy or specify Goodyear Truck Tires just because they give you a lower tire-cost-per-mile for your truck.

Nor just because there is an unequalled organization in Canada to render you service on them.

Nor just because they have established a remarkable mileage record on trucks in Canada.

But we do suggest that you buy or specify Goodyear Truck Tires because of *all three reasons*.

Goodyear Solid Truck Tires cost you less because they are made in Canada. Duty is paid on raw material only. The table alongside shows the difference.

You lose from \$30 to \$60 every day a truck is laid up for tire service. That is why we have established a chain of Goodyear Truck Tire Service Stations across Canada under the direct supervision of Goodyear branches.

Mileage is a matter of figures. They are on record in our office. Many of them are astonishing. The average is splendid. We will be glad to supply anyone with these mileage figures.

New trucks imported into Canada can be equipped with Goodyear Truck Tires by the manufacturer in the United States.

Trucks already in use can be re-equipped. Telephone, wire or write.

markets. It has been well said that the way to beat a food trust is to take the food away from it, and this is a system of state commission markets would do."

VINCENT RICHARDS

DEFEATED KUMAGAE

Toronto, Ont., Sept. 14.—Vincent Richards, of Brooklyn, N.Y., won the Ontario tennis championship men's open singles on the Toronto Tennis Club's courts, Saturday afternoon, when he defeated I. Kumagai, the Japanese, New York, three sets to one, 7-5, 6-3, 6-1, 9-7.

The clever Japanese player played a wonderful game in the first set, which he won, but after this Richards showed his true form and had the Japanese hopping all over the court in his efforts to return the hard drives from the base line and volleying at the net.

Miss Best, of Toronto, defeated Mrs. Harry Bickle, of Toronto, for

The Department of Marine has as yet made no move to send an engineer here to assist the city engineer to establish meters and bounds in connection with the proposed transfer of the harbor to the government. Commissioner Bullock has been approached by the C.P.R. in connection with the provision of accommodation for the new service which will be inaugurated by the big company between Canada and Norway. He has not been asked to reserve berths for the twelve or more ships of the Canadian government merchant marine which will come to St. John by the middle of January, so it is presumed that the government ships will use the Long Wharf as far as possible.

TO ISSUE PASSPORTS
Shipping men received word yesterday that passports would shortly be issued to tourists wishing to visit the battlefield in France, Belgium or elsewhere.

Owing to the fact that there are many thousands on the other side of the Atlantic waiting for a passage to Canada or the States, tourists are advised that they should make arrangements for their return passage, otherwise they may be unable to get home again for some time.

The C.P.O.S. is making arrangements for a big passenger traffic across the ocean, and their giant liner the Empress of France may make her first visit to St. John, if not to Quebec. The Empress of Britain and the big Allan boats which have been on Admiralty service are now being refitted for passenger work and the Canadian Pacific will soon have fourteen liners on the Atlantic service, capable of carrying 80,000 people. The whole C.P.O.S. fleet now aggregate 160,000 tons.

SHIPPING NEWS

SERVICE BETWEEN CANADA AND NORWAY

MANY SHIPS TO BE CONSTRUCTED

NORWEGIAN STEAMER WILL PLY BETWEEN ST. JOHN AND CHRISTIANA DURING THE WINTER.

St. John, Sept. 14.—According to latest advices, St. John will be visited regularly this winter by the SS. Ravenfjord, which will ply between this port and Christiana by way of Bergen, making one trip a month, and starting on the first voyage November 10.

This service will inaugurate a Canada-Norway service that will be steadily maintained by the Canadian Pacific Ocean Services, for freight duty solely, and it is expected that greatly increased international trade will be the direct result.

The SS. Ravenfjord is a three-deck oil burning vessel of about 8,000 tons and has over 550,000 cubic feet of space.

With the new line in operation and the resumption of pre-war activities, it is expected that the season this winter will be the greatest in the history of this port.

SHIPPING NOTES
The Scandinavian was reported ahead of Belle Isle at 5 o'clock yesterday afternoon, and is due at Quebec on Tuesday afternoon.

The Clan Skene passed up at 3:10 o'clock yesterday morning.

The tugs Earl Bess, Archie Kerr, and dredge passed up at 4 o'clock yesterday morning, bound for Three Rivers.

The SS. Scotia left going up at 5 o'clock yesterday morning.

The steamer Tricolor passed out at 1 o'clock yesterday morning.

The SS. Saturnia arrived up at 11:15 o'clock yesterday morning, and left up at 3 o'clock yesterday afternoon.

The steamer Lake Farragut arrived down at 4:10 o'clock yesterday morning and left going down at 11:15 a.m.

The steam barge Eric W. arrived down at 4:15 o'clock yesterday morning.

The steamer Farnold Head left going down at 7:45 o'clock yesterday morning.

The tug James Howden left Quebec at 1:30 yesterday afternoon.

The Light Ellen Knowles arrived down at 1 o'clock yesterday afternoon and left going down at 3:3.

ARRANGING HARBOR COMMISSION PLANS

St. John, Sept. 14.—Commissioner Bullock received a letter from R. W. Wigmore, M.P., yesterday in which the member for St. John stated that the government was going ahead with the plan of creating a harbor commission for St. John, though there was no provision in the estimates for new harbor work here beyond a matter of \$800,000 which will be spent at Courtenay Bay. However, Com. Bullock is informed that the government will build the new grain conveyors on the West Side without delay and that it will at once proceed to dredge out the deep water berths ready for the winter season.

The Department of Marine has as yet made no move to send an engineer here to assist the city engineer to establish meters and bounds in connection with the proposed transfer of the harbor to the government. Commissioner Bullock has been approached by the C.P.R. in connection with the provision of accommodation for the new service which will be inaugurated by the big company between Canada and Norway. He has not been asked to reserve berths for the twelve or more ships of the Canadian government merchant marine which will come to St. John by the middle of January, so it is presumed that the government ships will use the Long Wharf as far as possible.

CLEARING HOUSE FEATURES

In explaining a drawing of a proposed clearing house, Mr. Gattie said that the lowest floor was the crypt where heavy loads in bulk were marshaled to any desired position preparatory to dispatch. Above this was the railway level, and above this again was the street level, and there were traveling cranes on all the floors. Above the street level again there were four sorting floors. There is of course no shunting done in the clearing house, no coupling and uncoupling of wagons. The incoming load is exchanged for the outgoing load; otherwise the train is not touched.

TO ISSUE PASSPORTS
Shipping men received word yesterday that passports would shortly be issued to tourists wishing to visit the battlefield in France, Belgium or elsewhere.

Owing to the fact that there are many thousands on the other side of the Atlantic waiting for a passage to Canada or the States, tourists are advised that they should make arrangements for their return passage, otherwise they may be unable to get home again for some time.

The C.P.O.S. is making arrangements for a big passenger traffic across the ocean, and their giant liner the Empress of France may make her first visit to St. John, if not to Quebec. The Empress of Britain and the big Allan boats which have been on Admiralty service are now being refitted for passenger work and the Canadian Pacific will soon have fourteen liners on the Atlantic service, capable of carrying 80,000 people. The whole C.P.O.S. fleet now aggregate 160,000 tons.

NEW YORK, Sept. 14.—It is not fully appreciated, even by steel manufacturers, what a vast amount of marine work is under negotiation in New York and vicinity. According to reports in local shipping circles, one naval architect, connected with the Emergency Fleet Corporation during the war, is now preparing designs, plans, and specifications for various merchant craft, consisting of cargo boats, passenger ships, colliers, and bulk oil vessels which will exceed \$50,000,000 in value, when completed.

The amount to be expended for this construction indicates that work in hand covers 250,000 tons dead weight shipping, the building of which will call for approximately 100,000 tons of steel, including 51,000 tons of plate, 34,000 tons of shapes and 15,000 tons of forgings. In addition, several large reconstructions and alterations of passenger boats, and the conversion of about 15 coal-burning ships into oil-burning vessels, are under negotiations.

A Youngstown steel mill has just taken an order for 10,000 tons of steel plates for boat building on the Atlantic Coast, and an eastern Pennsylvania mill has sold 20,000 tons more ship plates for export to Japan. A shipyard in the British West Indies is negotiating for 5000 tons of plate. A New York exporter has received a list of machine tools from a Yokohama representative calling for \$300,000 worth of boring mills, milling machines, lathes, pneumatic hammers, and other equipment for a Japanese shipyard.

Foreign visitors with musical taste who have had the privilege of listening to singers under his direction render the great music of the Holy Week particularly, have come away positively enraptured with his work. Even the Romans themselves, after all these generations of accustomedness to great, good music, have been aroused to the highest pitch of admiration for Monsignor Casimiro Casimiri's works. He is not only maintaining the Roman traditions in matters musical, but the feeling is that he is adding to their prestige and giving renewed distinction to ecclesiastical music.

It has been confidently declared that his musical genius represents an oasis in present day music. He stands for the conservative genius of great old musical numbers.

PROPOSED CHEAP TRANSPORT SYSTEM

BRITISH AUTHORITY HAS SCHEME TO CENTRALIZE THE 74 FREIGHT STATIONS IN LONDON.

London, Eng., September 14.—At a recent lecture given to the Engineers Club, at Manchester, Mr. Gattie, an interesting description of a central clearing house such as he proposes. There are 74 goods stations at present in London, as Mr. Gattie pointed out, and these he proposes to centralize in a central clearing house. Motor lorries would collect the goods to be transported in large containers, such as are being used on road and rail vehicles and ships today with great advantage. The feature of the container is the flexibility with which the load can be transferred without reference to the nature of the contents. The principal advantage of these detachable containers is that a train arriving at a clearing house say a London could be unloaded in ten minutes by a squad of overhead cranes acting simultaneously and reloaded with a previously prepared set of containers in the same time. It can be seen that by reducing the time that a train is detained from days to minutes, hundreds of times more business can be done on the same square foot of land.

Clearing House Features
In explaining a drawing of a proposed clearing house, Mr. Gattie said that the lowest floor was the crypt where heavy loads in bulk were marshaled to any desired position preparatory to dispatch. Above this was the railway level, and above this again was the street level, and there were traveling cranes on all the floors. Above the street level again there were four sorting floors. There is of course no shunting done in the clearing house, no coupling and uncoupling of wagons. The incoming load is exchanged for the outgoing load; otherwise the train is not touched.

The Famous Conductor, Monsignor Casimiro Casimiri, Accompanies The Vatican Choirs on Their American Tour

The great conductor of the Vatican Choirs who comes to Quebec, Saturday, September 20th, the Right Reverend Monsignor Casimiro Casimiri, is considered by many good judges who have been closely in touch with his work as probably the most sympathetic leader of a great musical organization that the world has at the present time. He has a sense of musical values and of musical combinations that is unerring, but above all he has the power of bringing out in others every scintilla of musical expression which they possess. This is one of the rarest of gifts, as every musician knows, and his native talent has been developed to a marvelous degree in the opportunities afforded for its expression in Rome.

Monsignor CASIMIRO CASIMIRI
—Director of the Choir of the Basilica of Rome.

Foreign visitors with musical taste who have had the privilege of listening to singers under his direction render the great music of the Holy Week particularly, have come away positively enraptured with his work. Even the Romans themselves, after all these generations of accustomedness to great, good music, have been aroused to the highest pitch of admiration for Monsignor Casimiro Casimiri's works. He is not only maintaining the Roman traditions in matters musical, but the feeling is that he is adding to their prestige and giving renewed distinction to ecclesiastical music.

It has been confidently declared that his musical genius represents an oasis in present day music. He stands for the conservative genius of great old musical numbers.

The American public is indeed to be congratulated on the fact that it is to have an opportunity to hear these well trained singers under such eminent direction. There is no doubt that the foundation of a real musical education might be laid by acquaintance with the successful efforts of the great Roman choirs, whose lone traditions and present day training and admirable direction make them probably the best exponents of what is greatest in genuine music in our day.

The train just comes in: it is unloaded and reloaded, and goes out again. The whole operation would take less than ten minutes. The same applies to the arrival and departure of the motor lorries.

The next important point was the sorting floors. The floor is divided into sections and in each section goods for a particular destination are assembled. The containers are hoisted from road, rail, or crypt, through the well holes in the building, and set down. The doors of the containers are opened, and the assorted contents are taken out, and each package is placed on a steel tray. These trays are constantly arriving at the necessary points of each section.

The trays are drawn by creeper chains from the receiving point to the dispatch points of the sections. The dispatched by the operator (by pushing a couple of electric buttons) to any predetermined destination in the clearing house, by means of the compound system of conveyor belts. A tray is first magnetically seized by a disengaged local car, or truck, which may either deliver it at an adjacent receiving point, or it may transfer it automatically to a trucker on the high speed trunk conveyor, retransmitting the instruction automatically at the same time. The trucker on the trunk conveyor could then carry the tray to any of the separate local conveyors on that or other floor, transfer it again, with the instructions, and it would then be delivered at the desired receiving point, which would automatically clear itself.

If a tray required to reach another floor the route would be from the local conveyor to the trunk, then to the escalator, then to the trunk on the other floor, then to the local, and finally to the desired receiving point.

It must be understood that the movement of all these conveyors is continuous. The local conveyors and the escalators travel at about three miles an hour, and the trunk conveyors at about six miles an hour.

The operations just described, Mr. Gattie said, would involve no shock or jar to the goods or the machines. If 500 men were stationed at 500 dispatch points and they each dispatched three trays a minute, they would be sorting 1500 tray loads a minute. If two or three packages were for the same receiving point, they might travel on the same tray. Packages would then be sorted at the rate of 2000 or 3000 a minute. What is much quicker than doing it by hand truck and much cheaper. The cost in electric energy in keeping these truckers moving would be only a fraction of a penny.

In conclusion, Mr. Gattie reminded the audience that they wanted to economize man-power. At the present time 20 men were being employed for an hour to do work which could be done by machinery for a halfpenny.

TOO EXPENSIVE.

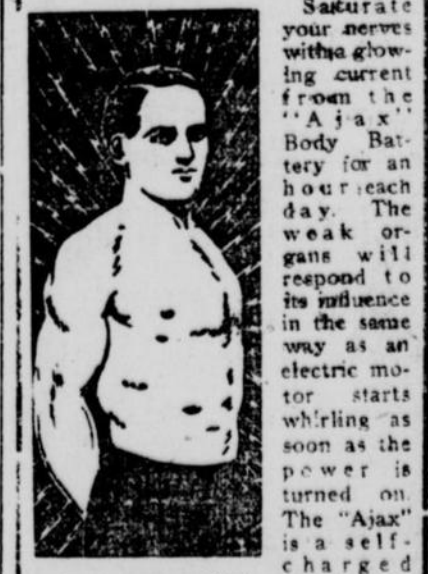

Long ago, when Mr. Lloyd George used to drive on his legal rounds in a high dogcart, one day he gave a lift to a little girl who was walking home from school. The child, though she was all smiles, met the future Prime Minister's merry questions and artful openings of conversation with persistent silence. "Your little girl has lost her tongue this morning, Mrs. Hughes," he said as he drew up at her parents' door. "Mary," remon-

strated the mother, abashed by her daughter's bad manners, "why don't you speak and thank Mr. Lloyd George for his kindness?" "Indeed, indeed, I wanted to," she answered with the fluency of a tap suddenly turned on, "but I remembered hearing father tell you the other day that if you opened your mouth to him it cost six and eightpence."

THE VITAL POWER

OF THE HUMAN BODY. IT CAN BE REGENERATED.

The force that runs the human machine is stored in the nervous system, as it is called, is only another name for electricity. If any organ of your body is weak and inactive, it means that the nerves which control it lack power. This must be restored before the affected part can perform its proper functions. It does not need to take drugs for such a condition, as this. You can only effect a cure by replacing the energy that has been lost. Drugs are poisonous electricity is life.

Saturate your nerves with glowing current from the "Ajax" Body Battery for an hour each day. The weak organs will respond to its influence in the same way as an electric motor starts whirling as soon as the power is turned on. The "Ajax" is a self-charged

body battery which generates a steady unbroken stream of galvanic electricity and infuses it into the nerves in just the right volume. It builds up vitality and strengthens and cures all ailments resulting from a debilitated state of the nerves and vital organs. Men who suffer from failing vitality, debility, or any of the usual weaknesses, will find that the "Ajax" Body Battery, together with electric supplementary attachment, will quickly put them in good condition.

It is a natural remedy, and those who have used it will tell you that it does all we claim for it.

THIS IS FREE.
We'll send you our free book, closely sealed, which tells you all about the battery, how it works, and what it does. This book is illustrated, and explains many things you should know about the cause and cure of diseases. If you want to be the man nature intended you to be, send for this book at once. We have a book for women also. AJAX LTD.

PERSONAL AND SOCIAL

Mr. Thos. E. Scott has returned to town from New York, where he spent a short vacation.

Mrs. Joseph Sirois and family have returned from Pointe au Pic, where they spent the summer.

Captain William A. Fellows and Lieut. Harold Fellows arrived in town by steamer yesterday from Montreal.

Mrs. F. D. Allison of Boston, Mass., and her son Wesley, has returned home, having spent the summer with her Aunt Miss M. St. Hilaire.

Mr. F. T. Coote, M.D., C.M., Resident Surgeon, Royal Victoria Hospital, Montreal, is in town, guest of his Parents Dr. and Mrs. P. Coote.

Mrs. C. J. Doherty and Mrs. P. E. Blondin entertained to lunch Saturday at the Chateau Laurier, Ottawa, in honor of Miss Hortense Cartier, daughter of the late Sir George Cartier.

Major Henri Chasse, Major J. P. Archambault, Major Gustave Routier, Major John Roy, Major Alex. Dupuis, Capt. Braun Langellier, Capt. George LaMothe, Capt. T. Murphy, Capt. Raymond Carneau, Lieut. Aime LaMothe, Lieut. Antoine Chasse and several other officers of the 22nd Battalion left Saturday for Montreal to attend a dinner given by the Regiment in the Windsor Hotel.

AUTO ACCIDENT ON ST. FOYE ROAD.

Mr. Edgar Langlois met with a serious accident on St. Foye Road on Saturday morning when the automobile in which he was riding was hit by another car and ditched. Mr. Langlois was injured about the face and head and is now a patient at the Hotel Dieu Hospital.

NEW CHURCH FOR THE BLESSED SACRAMENT FATHERS.

It is announced that the Fathers of the Blessed Sacrament on St. Foye Road will shortly construct a larger church than the present building. This was decided by the Superior-General of the Order, Rev. Father Eugene Couet, who visited the monastery some months ago.

REPORT ON THE ELECTIONS OF 1919.

Mr. L. P. Geffron, the Clerk of the Crown in Chancery, having submitted his report on the fifteenth general election of the Province of Quebec which was held on June 23rd, 1919, the document has just been published and contains a great deal of interesting information concerning the election in question as well as the bye-elections held during the last legislature. In view of the large number of acclamations, there was voting in 36 divisions in the last election, and in these 131,084 ballots were cast, being an average of 66 per poll. 1,448 ballots were rejected as irregular. The number of valid votes was consequently 129,636, or 54 per cent. of the number of names entered on the lists in the 36 divisions. The complete lists in force for the last general election contained 480,020 names.

PLANNING TO SECURE BETTER RESULTS

BRITISH ARE ADOPTING NEW SCHOOL SYSTEM AND HOPE TO GET BETTER RESULTS.

London, Sept. 14.—It was Wellington who said that the Battle of Waterloo was won on the cricket fields of England. When, a hundred years later, England went to another Waterloo she discovered that cricket-field education was rather a secondary matter, and that she had not very much of it.

She discovered that war demanded scientific and industrial education through all the levels of her population. She found also a condition of mental and physical under-development in her factory generations that pointed to more alarming future results than any to be apprehended from the immediate hazard of war. She came to the conclusion that if she were to retain power in war and to keep her place of ascendancy in the world's markets she must train a race with the cricket-field physique and the competent practical brain.

England has already begun this work by overhauling her whole educational system. The wisdom of her educators and statesmen has been documented in the Education Act of 1918, which includes in its provisions the democratic training and use of the abilities and aptitudes of every child in the nation from the pauper to the Lord.

"Cook's son, dukes son, son of lord and earl," to quote Kipling, come under its provisions by compulsion; there are no exemptions. Conscript scholars will see that conscript pupils, hereafter, do their bit in the classroom and on the playing field.

Sir Cyril Jackson explained the matter the other day. Sir Cyril was for fifteen years head of the educational system of Australia, perhaps one of the most democratic in the world. He was for a time chief inspector for the National Board of Education in England, and later Chairman of the Educational Committee of the London County Council itself, and as educational expert sat with many courts of arbitration during the war when matters relating to teachers' exemptions and to the employment of minors in war factories were in dispute. He is also responsible for several of the clauses in his country's new great national experiment in education, popularly known as the Fisher Act.

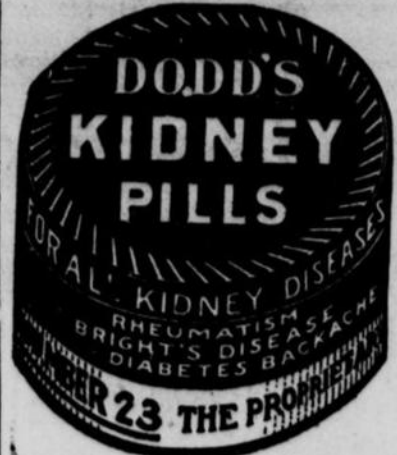

"There was a tradition in England," Sir Cyril began, "that education was something of an accomplishment for gentlemen, the less related to the common ways of life the better. Now a tradition in England is hard to kill. This particular one is dead; we count it among our war casualties."

"Educational systems make rather dry discussion. Let us keep away as far as we can from the classroom and the curriculum and examine the system from the human side. Take the children, for instance. Our new education begins in the nursery, from two years to six. Children of those years don't learn much, but they must be physically prepared for learning later."

"In the nursery schools we pay attention primarily to three things, health, nourishment and physical welfare. The elementary school period has been extended to the sixteenth year for full time and the continuation part time period to the eighteenth year."

"Our army records show that what happens in the life of youngsters up to the eighteenth year is very important from the standpoint of the nation—I mean what happens outside of school. So this is what we have done: We have put control of child labor perhaps the greatest menace to physical welfare, into the hands of the educational authorities."

"Education begins with children, but neither war nor markets could be

Reminiscences of The Past

Chronicle Files 100 Years Ago

Artists in England

It appears from a test of each class inserted in a late number of the annual of the fine arts, that modern patronage has created in England not less than 951 professional artists of various descriptions, in and near the metropolis; of whom there are 523 painters, 45 sculptors, 491 architects, 93 engravers in line, 54 in mixed styles, 19 in mezzotints, 83 in aquatinta, 22 on wood, and it deserves to be specially noticed among the painters that there are no less than 42 ladies.

Niagara Circuit Court

Niagara, Sept. 2.—At the Circuit opened on the 16th ult. the following persons were included—

The Rev. Mr. Eastman, for marrying John Clow to the wife of Benjamin Swayze, knowing her to be such—Not guilty.

The Rev. Mr. Cook, for performing the ceremony of marriage, without being duly authorized, as the law directs—Verdict, guilty, but recommended to mercy—sentenced to depart the province within 8 days.

A petition signed by a number of respectable people in this town and its vicinity was forwarded to His Excellency the Governor, praying for a pardon to which His Excellency was graciously pleased to comply.

Chronicle Files 25 Years Ago

Bear Shot

Mr. Crawford, farmer of Gros Pin shot a bear weighing 300 pounds at Valcartier a few days ago, and brought the skin into town Wednesday.

Snipe Plentiful

A large number of snipe have been shot in the neighborhood of Chateau Richer. Messrs. Hardy and Dubord, of Beauce, also shot 43 in one day on the beach at Beauce.

Good Sport

Excellent angling is now reported from all the streams North of Quebec. Red trout up to nearly six pounds in weight have been taken by Attorney-General Casgrain and other members of the Lake Bouchette Club, and also by American anglers out of the adjacent waters of the Normandeau Club.

Quebec Debentures

Alderman Tanguay, Chairman of the Finance Committee of the City of Quebec, returned last night from Montreal, whither he had gone with Mayor Parent in connection with the sale of Civic debentures. Mayor Parent will only return today. Alderman Tanguay reported that the \$250,000 worth of City of Quebec debentures have been placed with the Banque du Peuple, Montreal, at 93. They bear interest at the rate of 4 per cent per annum.

ALLIGATOR FARMING.

There is much money to be made in alligator farming. The demand for alligators is large, constant, and rapidly increasing; the supply is limited, and there is not much competition. The few alligator farmers in America are prospering. Alligators have to be fed on meat, but they need no food from September 1 to May 1, for this is their hibernating season when they do not eat at all. Alligator skins are used for making bags, suit cases, purses, belts, cushion covers, straps, etc., and the teeth and bones are made into cuff-links, paper knives, whistles and many forms of cheap jewelry and ornaments. The skins are worth from two to twelve shillings apiece, according to size and quality. More money, however, is made by selling live alligators to museums and for pets. It is said that the State of Florida realizes more than two hundred thousand pounds a year from alligators.

MODEL FOR OTHERS TO KNOW

I cannot sing the old songs. The neighbors would object—In fact I cannot sing at all And keep my self-respect.

won or kept if it ended there. New things are being done on the scientific and research end.

"More young men, and women, too, are studying technical and scientific subjects in England today than ever before, and, what is more to the point, they are studying with a very different and greater purpose. They are going to change the trend of higher education itself and turn it into fields of social usefulness. Provision for new and more technical colleges is made under the new act."
