EAGLE

LIFE INSURANCE COMPANY,

LONDON.

ESTABLISHED BY ACT OF PARLIAMENT IN 1805.

Capital, Two Millions Pounds Sterling,

AFFORDS a ready, safe and profitable investment of small savings by persons of limited incomes. The public are secured by an ample capital, besides which all payments are set apart to accumulate as a distinct and inviolable fund, which at the end of seven years is strictly investigated, all existing claims provided for, and the surplus or nett profits are then apportioned, and *four-fifths* allotted to the Assured for the whole term of life, which may, at the option of the party, either be added to the Policy, or applied in reduction of the future annual payments; so that persons insuring at this Office may justly calculate upon a gradual annihilation of the annual Premium, without incurring the responsibility of Mutual Insurance.

The Rates of Premium are fixed as low as the paramount duty of security permits, and the errors in these Rates, if any, again corrected and reduced to the actual average risk by the periodical division of four-fifths of the profits among the Insured.

THIS Company is composed of a numerous body of proprietors, affording, in addition to the paid up capital, ample security to the

Assured. On commencing the Fire Department of the business, the Company reduced the rates 25 per cent., and the decided success which has attended its operations in that department, affords satisfactory proof that the advantages which it offers have been duly appreciated by the public.

At the recommendation of many of the most respectable merchants of this city, and elsewhere, the Directors were induced to embrace the Inland Marine branch of the Insurance business, and accordingly have commenced to grant Insurance against all Loss and Damage to Vessels or their Cargoes, navigating the Rivers and Lakes of this Province.

In a short time the Company will also be prepared to commence the Life Department of the business, due notice of which will be given.

LIFE ASSURANCE.

BESIDES the perfect security to the policy holder of a large paid up capital, and accumulating funds, with moderate rates of premium, the following is one amongst many of the advantages which belong exclusively to the principles of Life Assurance and Deferred Annuities, originated by the Society, viz:—Power to borrow (without delay, expense, or forfeiture,) Two-thirds of all Premiums paid upon a Policy of Assurance.

PREMIUM FOR ASSURING £100.

Age.	£	s.	d.	Age.	£	s.	d.	Age.	£	s.	d.

DEFERRED ANNUITIES DEPARTMENT.

By the plan exclusively developed by the Society, a single Deferred Annuity is made, not only to answer the same object, but to equal in amount the entire sum of all the advantages heretofore only obtained by the middle and industrious classes by separate investments in Savings' Banks, Benefit Societies, and Loan Banks.

1. A small yearly, or weekly contribution, will secure the most ample return for after life; thus,—£2 12s. per annum (1s. per week,) at 20, will, at 65, give the Policy holder the choice of an Annuity for life of £47 16s. 6d.; £394 11s. in cash; or Policy, without further contribution, of £466 at death.

2. Two-thirds at any time lent on deposit of Policy, being a fund always available during sickness or want of employment.

3. Two-thirds of all payments returned to representatives in case of premature death.

The Report to the Annual General Meeting of Proprietors, Prospectuses, Tables, &c., may be obtained at the Office of the Society, by letter or otherwise, 51, Great St. James Street, Montreal.
