KILLED HOWARD BUT NOT ILLEGALLY

Defence Will Make Out a Strong Case For Eva Baird Tracey—In the Meantime She Remains in Sweetsburg Jail—Detective McCaskill Interviews Her.

Sweetsburg, July 6.—(Special)—Eva Baird Tracey, charged with the killing of Forest Howard, awaits her hearing before the local magistrate. In the meantime she remains behind the bars of the district jail.

She is allowed to see members of her family. Her sister-in-law remained with her over night and her husband and father-in-law were both with her yesterday.

Detective McCaskill, of Montreal, was here yesterday. He called on the prisoner in the jail and began to question her. Mrs. Tracey's father-in-law was present and interfered, advising her not to answer any questions. She

complied and Mr. McCaskill concluded his interview. He returned to Montreal last night.

On Monday Mrs. Tracey will be arraigned before the local magistrate for her preliminary trial.

She bears up fairly well supported by assurances of friends that she will soon be honorably discharged.

"I killed Forest Howard, but not illegally," is her plea. Why she should be put on trial charged with murder, for defending herself when attacked in her own home, she does not appear to understand.

Her situation is a sad one. The law will take its course, however, and before magistrate or jury the circumstances of the affair will be established through evidence which will return her to her family honorably acquitted or necessitate the imposing of penalty.

DETAILS OF THE INQUEST.

The following are details of the testimony at the inquest, a summary of which appeared in yesterday's Record:

The first witness heard was Ellen Howard, sister of the dead man, and wife of Rolland Kathan. Mrs. Kathan, who is 37 years of age, testified as follows:

Tuesday afternoon, a little while after dinner, my husband hitched up the horse and took my daughter and myself to the home of Mr. Samuel Gleason. We were sewing in the dining room when all at once we heard cries outside the house. We all ran to the door to see what was happening. I was the first to reach the door of the house. Just outside the house I met the woman, Eva Baird, who lives with Edmond Tracey. She said to me, "Oh! I have killed Forest Howard."

Mr. Boisvert—Did she say these words to you alone?

The witness—No, but in the presence of the others who were there—that is to say, my daughter and Mrs. Samuel Gleason.

I went to look for my brother Rolland, and then returned to the house where the victim was.

Mr. Boisvert—Who accompanied you?

Witness—I was accompanied by Mrs. Gleason, by my brother, Rolland Howard, and by the accused herself. We perceived, on reaching the house, the victim stretched on the floor—the face turned towards us. My brother Rolland took hold of him to see if he still breathed, but he gave no sign of life. We noticed at the same time that he was covered with blood, on the stomach, and that his left arm, above the hand was also bloody. Beside the body we saw a shot gun.

Mr. Boisvert—What was the general character of your deceased brother?

Witness—My brother was ordinarily of a cheerful disposition and inoffensive.

Mr. Boisvert—How old was he?

Witness—16 years.

Mr. Boisvert—Was he intelligent or completely foolish?

Witness—My brother was not intelligent but we could not call him an idiot. He had received no education, which, perhaps, gave him a foolish appearance. He was neighborly with everyone, and was everywhere generally esteemed. He worked sufficiently to pay his board and his maintenance.

Mr. Boisvert—Did you notice anything near the dead body?

Witness—Besides the gun, I have only noticed that the body was a few steps from the bed.

The next witness was Mrs. Samuel Gleason, who corroborated, in part, the testimony of the former witness, only Mrs. Gleason stated that it was between two and three o'clock that the young woman, Eva Baird, came to the house. We live, said she, in her testimony, but a few steps, it may be an acre, from the home of Edmond Tracey. In hurrying up to my house, Eva Baird cried out in a terrified voice, "Oh, Mrs. Gleason, come over to our house, for I have just killed Forest Howard." But what has he done? I replied to her. Eva Baird replied: "He tried to insult me, and I killed him." I then went to her home, with the accused, where I discovered the dead body.

Mr. Boisvert—Do you know this woman, Eva Baird?

Witness—Yes, I have known her since her childhood.

Mr. Boisvert—Do you know if she is really married to Edmund Tracey?

Witness—I cannot say, but I know that she has two children, little girls, one three years of age, the other a year. She has lived with Edmund Tracey for three or four years. I know, also, that the first wife of Edmond Tracey still lives, and that she has a child by him still living. It is said, however, that Tracey has a divorce from his first wife.

Mr. Boisvert—Do you know the victim?

Witness—Yes, I have known the victim for a long time. Forest Howard was not a wholly intelligent being but he was inoffensive. He came often to our home and visited the greater number of his father's neighbors.

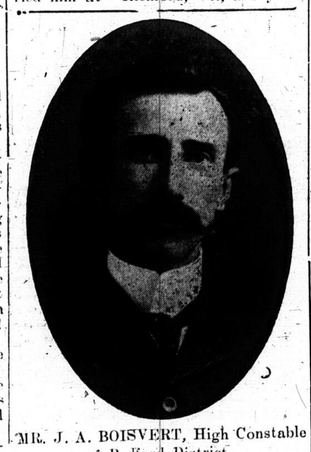
The principal witness was the accused herself, Eva Baird, wife of Edmund Tracey. She gave her testimony as follows:

I am 26 years of age and live in the Township of East Farnham. Yesterday, the 3rd of July, a little while after dinner, Forest Howard came to my house, where I was alone with my two children. On his reaching the house he asked me where my husband, Edmond Tracey, was. I replied: "You ought to have seen him since he is in the glen, washing the wagon."

Howard then took a chair and sat down. All at once getting up and looking out of the window, he said: "Ed. is coming." I went to look out of the window to see if it were really he and it was then that Forest Howard seized me. He snatched away the broom that I held in my hand and threw it on the floor. (Here the woman recounted in detail the struggle she had with the deceased.)

She continued: And then, not being able to struggle longer I seized the first object I could see, a shot gun, hanging on the wall. As he advanced again to seize me, I told him that I would tell my husband of his attack on me. At the same time I took aim at him. Forest Howard still persisted in advancing to seize me, and I shot him in the body. He fell on the floor, and I started, frightened, to tell Mrs. Gleason.

I live with Edmund Tracey. I married him at Richford, Vt., five years



MR. J. A. BOISVERT, High Constable of Bedford District.

ago. I knew then that he had a wife living, but I obtained a certificate of marriage after the divorce.

I knew the victim, and I know that three times he has tried to insult women: Nancy Whitehead, Floyd Dott, and Emma Baird amongst others.

The gun produced here by the High Constable, J. A. Boisvert, is the same gun I used for shooting Forest Howard.

Such was the declaration of Mrs. Tracey, and which she made without hesitation.

MRS. TRACEY IN JAIL.

Mrs. Tracey was taken to the home of High Constable Boisvert at Sweetsburg, and was brought before the magistrate, Mr. John Lavery. Mr. F. X. Arthur Giroux, a young and talented advocate, chosen by the accused to defend her, appeared before the magistrate, to ask him to fix the date of the preliminary trial. Magistrate Lavery then declared that Monday, the 9th of July, the accused would have to appear.

Mr. Giroux then asked for respectful attention for his client.

"In the name of humanity," said he, "I ask that my client, who is in a very weak state, be not obliged to sleep in the prison, to-night." This request caused a discussion between the magistrate, Mr. Giroux and High Constable Boisvert, who had charge of the prisoner. To decide as to the condition of Mrs. Tracey's health, they sent for Dr. H. L. Fuller, who stated that Mrs. Tracey was able to pass the night in

THE STRIKE AT MAGOG CONTINUES.

No Basis of Agreement Has Yet Been Reached.

A STATEMENT OF THE SITUATION —COTTON MILLS ABSOLUTELY CLOSED.

Magog, July 6.—(Special.) — The strike of the cotton mill operatives continues without important incident. The strikers are completing their organization and the end of the trouble is not yet in sight.

The cotton mills are closed tight. Not a shuttle is moving. The demands of the strikers for an advance of 20 per cent. increase in wages, recognition of the union and "general amnesty" were presented the first of the week, as already reported, and since then the situation nas remained practically unchanged. Numerous meetings have been held with a view to holding the strikers together. There have been communications between strikers' committee and company, but no basis of agreement has been reached.

As yet the company has not attempted the importation of operators to break the strike.

The local paper, the Enterprise, reviews the situation as follows:

"The strike fever is abroad in the land and is meeting with a modicum of success. Not a man is on his job at the Cotton Mills, and the looms and other machinery are as silent as the tomb, in striking contrast to the cheerful hum and busy burring of the shuttle up to a few days since.

"The situation is this: A couple of weeks ago a party came to Magog to form a union for cotton mill employees. The first steps were taken and the D. T. Co. announced to their employees that they were opposed to the help forming a union in Magog.

"Following this announcement, the employees went back to their work, and it looked as though the trouble was over. But on Tuesday morning only about sixty of the help appeared, and it was then apparent that a strike was imminent. A meeting was held on Monday evening at the strikers' headquarters, the Fairview Hall, and on Tuesday several meetings were held, all of which were largely attended, and were very enthusiastic. All were under the guidance of the party who first came here to organize the union, and were orderly.

"Should the company and strikers hold their ground the shut-out must be for an indefinite period and the results cannot fail to be disastrous to the town and strikers.

"We understand that the demand of the strikers is for an increase of 20 per cent. all around. The company is willing to take their demand into consideration when the employees resume work, and we learn that an increase of 10 per cent. had been granted previous to the last stay-out.

"The men so far have been orderly and quiet, and if they would go back to work, then through a committee make their demands on the company, who are ready, we understand, to take their complaint into consideration, the matter might be adjusted satisfactorily all round. No person knows better the needs of a workingman than the workingman himself, and no man can better adjust those needs than the employer. Let sober wisdom be used and in a few hours the strike may be a thing of the past."

LIGHTNING REVEALS A LARGE FORTUNE

BOLT TEARS OPEN DESERT ROCK EXPOSING GOLD TO STARVING PROSPECTORS.

Hammond, Ind., July 6.—From a ribbon clerk at $6 per week to the possessor of $50,000 in cash and a sixth claim in the new mining town of Wonder, Nev., is the progress in fortune made by Miss Georgie Savage, of Hammond, who comes from Spokane, Wash., to this place this week to visit friends. On her trip east she will carry checks for $50,000 as her share of the proceeds of claims sold by her brother, L. A. Savage, in the desert country near Fairview, Nev.

Savage's strike in the desert was purely accidental. Lost in a storm, he wandered for days while prospecting, after his sister had "grub-staked" him to $100 to get him out of the hospital at Tonopah. This left her penniless. After wandering about for days after the storm her brother found where lightning had struck a twenty foot ledge, exposing free gold and laying bare on the desert hundreds of tons of pay ore.

RIOT AND MUTINY AT VLADIVOSTOK.

Fight Between Rioters and Cossacks.

MOB CAPTURES A BATTERY OF ARTILLERY.

Tokio, July 6.—Riot and mutiny are in progress at Vladivostock, according to the news brought to Nagasaki by a steamship. The Colonia, of the East Asiatic Steamship Company, arrived at Nagasaki from the Russian naval stronghold yesterday. She brought a large number of refugees, who fled on board her just before she sailed last Sunday, fearing that the town was to be given up to murder gnd pillage.

According to the story told by the Colonia's officers, the trouble started on Saturday, when a mob got possession of eight large cases of dynamite belonging to the Government. A loyal regiment of Cossacks attacked the rioters and captured 30 leaders, who were locked up. On Sunday morning the rioting broke out afresh. The mob gathered again, determined to rescue the 30 men who had been arrested the day before. There was bloody fighting in the streets between the Cossacks on one side, and the mob, reinforced by disaffected soldiers, on the other. Just before the Colonia sailed the mob had captured a battery of artillery, and was using it in an attack on the Cossacks.

ANTI-CIGARETTE CRUSADE.

AMERICAN ARTICLE WORSE THAN CHICAGO TINNED MEAT, SAYS A WITNESS.

London, July 6.—Mr. Edward Page Gaston, of Chicago, testified Wednesday before the Select Committee of the House of Lords on juvenile smoking that the worst article America sent to Great Britain was the American cigarette.

"It is worse," he said, "than the Chicago tinned meat."

Mr. Gaston also warned British legislators against attempts at bribery on the part of the American Tobacco Trust to balk unfriendly legislation.

Earl Beauchamp, chairman of the committee, closely questioned Mr. Gaston regarding the effect of the American laws against the sale of tobacco to minors, and he stated that nearly one-fourth of the population of the United States now benefited through living under anti-cigarette legislation.

The proposed British bill, which probably will receive the endorsement of the House of Lords committee, provides for a fine of $5 for the first offence in supplying tobacco to minors, $10 for a second offence, and the revocation of the offender's license on a third conviction.

MORNING BLAZE IN MONTREAL.

FIVE STORY BUILDING ON COTE STREET DAMAGED.

Montreal, July 6.—A blaze that broke out at 2.30 o'clock this morning completely gutted the five-story buildings, No. 16 Cote streets, occupied by Desbarats & Co., engravers; B. Plow & Co., bookbinders; Smith & McKeown, shirt manufacturers; Scott & Hayward, printers; and J. E. Holdsworth, clothing finishing and sponging works. The damage is variously estimated at from $75,000 to $90,000.

At 3.20 o'clock the big Collerette ladder which had been raised in front of the building in Cote street, tumbled over. Fireman Castell, of No. 3 station, who was working on it, sustained a broken leg and severe internal injuries. He was taken to the General Hospital.

Joseph Penteny, a lineman of the Montreal, Light, Heat & Power Company was struck by the ladder when it fell and was knocked unconscious. He was taken to the Royal Victoria Hospital. It was found he was suffering from internal injuries.

The fire was under control at 3.40 o'clock.

BRITISH FOOD INSPECTION

LAW A MERE SHAM, SAYS A LONDON CHIEF INSPECTOR.

London, July 6.—Mr. Foot, chief inspector of the Health Department of the Borough of Bethnal Green, East London, writes to the press in regard to British food inspection. He says: "To those of us who have had experience therein for years past there is nothing new in connection with the recent disclosures, except, perhaps, to make us wonder why we have gone to Chicago for our sensation. In the main, and with few exceptions, our health laws are inefficient, intricate and costly. They are very different from what the public supposes." Mr. Foot gives ugly particulars of the practice of collecting and preparing what are called returns, that is, meat not sold by retail shops. In plain English, the preparation of the returns means the remixing and the fattening up of old, sour stock, mixing it with preservatives of so real a nature that it cannot be detected by the officials appointed to execute the law. Mr. Foot complains that a constant battle between the inspectors and traders is entailed owing to the inefficiency of the law, which, he says, is a mere sham.

Mrs. W. J. Gilkerson, of Minneapolis, Minn., and her two children are visiting her mother, Mrs. Edwin Avery, Queen street.

DANGER AHEAD IN EGYPT.

Sensational Speech in the British House.

GROWTH OF FANATICAL SPIRIT AMONG EGYPTIANS.

London, July 6.—Parliament and the country were given a surprise last night by an unexpected and sensational speech by Sir Edward Grey, the foreign secretary, on the situation in Egypt. An interesting debate on foreign affairs had been anticipated when the House of Commons took up the foreign estimates, but on account of Russia and the Congo affairs rather than Egypt. All other subjects, however, were temporarily forgotten when the House realized the momentous character of Sir Edward Grey's deliverance with regard to Egypt. Speaking in a solemn tone, and amid intense silence, the minister declared that the recent attack on British officers at Tantab was not accidental, but a deliberate manifestation of the fanatical spirit which had necessitated the strengthening of the garrison in Egypt and he added that unless the authority of Lord Cromer and the Egyptian Government were strongly upheld, it might lend to a situation requiring the adoption of such constitutional measures to meet the emergency as would be especially distasteful to the Liberal Government.

THE SABBATH OBSERVANCE BILL.

Further Amendments Are Likely.

GOVERNMENT SAID TO CONTEMPLATE SWEEPING CHANGES.

Ottawa, July 6.—It was reported last night that the Government has in contemplation a sweeping change in the Lord's Day Bill. It is proposed to insert an amendment exempting the provinces of Quebec and British Columbia from the operation of the act. The report has caused great perturbation among the representatives of the Lord's Day Alliance, and they are putting up an active lobby against the proposal.

Mr. Speaker Sutherland has consented to open the Winnipeg exhibition on Monday, July 23. Mr. Bole has extended an invitation to all the members of the Commons to the present.

WASN'T MARRIED.

THAW WOMAN TRAVELLED WITH WHITE'S SLAYER BEFORE SHE WAS HIS WIFE.

New York, July 6.—Judge Olcott, counsel for Harry K. Thaw, charged with the murder of Stanford White, said yesterday that Mrs. Thaw's statement several days ago in which she declared that she and Thaw were married in Europe, and that the ceremony in Pittsburg was performed solely upon the request of Thaw's mother, was made under a misapprehension. He said that the confusion arose through Mrs. Thaw misunderstanding a question on the telephone, and that as a matter of fact the Thaw's never were married in Europe. The first and only marriage ceremony was the one performed at Pittsburg.

Roger O'Mara, former superintendent of police of Pittsburg, who had been summoned here by counsel for Thaw, had a conference with Judge Olcott yesterday. Mrs. Thaw was present during part of the interview, and had a talk with Mr. O'Mara. The detective will immediately start west with a corps of men to gather all possible information that may help Thaw to regain his freedom.

THIRTEEN WERE MURDERED.

TWO STRIKING HUNGARIANS ARRESTED AT ALTOONA, PA.

Altoona, Pa., July 6.—Two men have been arrested by the Cambria county authorities charged with causing the tragedy at Portage on Tuesday night when a runaway car struck a party of non-union miners, killing thirteen of the number.

Two Hungarian miners, brothers, who had been employed at the mines of the Puritan Coal Company, but who were on strike, are accused of releasing the brakes on the car and starting it down the steep grade towards Martin's Curve, where it jumped the track and ran down the men.

In the evening a large fire-cracker was thrown and struck Mr. F. Moran on the side of the face burning it badly besides cutting his ear in two different places.

HAND INJURED BY FIRE CRACKER

Sutton, July 6.—(Special.) — That our boys are patriotic goes without saying, that they can also assist their American cousins to celebrate their holidays shows a broadness of mind but sometimes accidents happen, as Master Tommy Boright was forcefully reminded while at Richford, Vt., on the 4th of July, doing a little celebrating. Tommy was putting off fire-crackers when one burst in his hand, lacerating it quite badly. It was his right hand that was injured, and he will not be able to use it for a few days.

GOLDEN WEDDING CELEBRATED AT SAWYERVILLE.

Sawyerville, July 6.—(Special)— A very pleasant and happy event took place at the home of Mr. and Mrs. J. W. THE DOMINION DAY EVENTS AT NORTH HATLEY.

North Hatley, July 6.—(Special)—Dominion Day was celebrated here as in former years, opened by a parade, headed by the Ayer's Cliff Band dispensing music, which would have done credit to a Band with much more practice. This was followed by the Glen Villa 4-horse team loaded with little girls dressed in white. Then came various neatly trimmed teams occupied and driven by neatly attired lasses, the most noticeable being the pony and rig belonging to Mr. A. W. Bean and driven by little Tena. Then followed the horribles, representing the various industries and occupations causing a great amount of amusement. The procession started from the yard of T. V. Reed, then to the R. R. station, thence to the Hawse turn and return.

The high dive (about 50 feet) at 1.30 p.m. and the feats performed in the water were witnessed by the crowd with much anxiety as well as delight, after which they all repaired to the common to witness the sports as advertised.

The tug-of-war between North Hatley and Ayer's Cliff Band teams, was won by North Hatley.

The baseball match between North Hatley and Waterville, was won by Waterville, score—8 to 10.

The other games were well contested.

The steamer Pocohontas was well patronized during the day and loaded to its limit at the evening excursion, many being turned away. The final scene closing the day's entertainment was the blowing up of the steamer Massawippi with dynamite.

THE BEST CIGARS. Which Are They?

There'd likely be a wide diversity in opinions if this question was referred to popular vote.

For example, were we asked to name the leading 5 cent Cigar, we'd seize upon the K. & C. Bouquet.

The leading 10 cent brand is, in our estimation, the "El Bravo."

Lest these are not the opinions of all smokers, though, we've 248 other brands to choose from.

IN OLDEN TIMES

People Were Content to Take Things Easier Than Now

...If our forefather could behold the modern locomotives, automobiles and electric cars, they would hold up their hands in astonishment.

The stage coach was fast enough then—people were more content to take things easy.

They used to be satisfied with any sort of a hair lotion that came along—if it did not prevent baldness they thought it was because Baldness could not be prevented.

It's different now. People know that germs cause Baldness and that Newbro's Herpicide kills the germ, thus curing Dandruff and preventing Baldness.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

(Montreal Gazette.)

A Canadian woman, living in Lincoln, Nebraska, put up a British flag on her residence yesterday (4th July.) A crowd gathered and she was compelled to lower it. Melloon, of Rock Island, returned a few days ago from a successful fishing expedition to the region controlled by the Scott Fish and Game Club in Rimouski. The Stanstead Journal says: "Every man in the party got fat and learned how to tell a first-class fish story. They had the best "catch" of trout ever brought to this place, and had to put several hundred back into the water or run the risk of being considered "fish hogs." All have spoken in highest praise of the hospitable treatment received from the manager of the club, Mr. James Gorman, formerly of East Angus. Local club members and their guests are assured of a most kindly reception whenever they visit the club reserves."

Mr. Claude P. Landi, L.R.A.M., Eng. who presided at the organ at the Plymouth Church on Sunday last, and who is in town with a view to permanently settling down with his family in Sherbrooke, as a teacher of music and languages, left England for the States some three years ago. Upon arriving in New York, Mr. Landi was offered a number of positions, among them being the organist and choirmastership at St. Paul's Episcopal Church, Concord, N.H., which he accepted, retaining that position for two years, during which time he made a marked success as a teacher (especially in St. Mary's Diocesan School for girls), and as a trainer of boy choristers. Last summer Mr. Landi left Concord to take up temporary work at St. John's Episcopal Church, Roxbury, (Boston), Mass., and in January last competed with 45 others for the position of organist and director of the choir at the First Church in Newton, Mass., (Cong. Ch. in Newton Centre), one of the richest and newest churches in the neighborhood of Boston, modelled after the style of an English Church, and containing a beautiful $10,000 Austin organ. Having been selected with some 15 other candidates to play publicly, Mr. Landi was unanimously appointed to the vacant position. Previous to that Mr. Landi had given an organ recital in the New England Conservatory of Music, eliciting flattering notice from such critics as Messrs. Philip Hale and Louis C. Elson. Mr. Landi's musical education was acquired severally in England, Italy, Spain and Belgium. In the latter country during his tenure of the organistship of the English Church in Brussels, he had the inestimable advantage of studying with the great teacher and "virtuoso," Mr. Alphonse Mailly, who, in a letter to Mr. Landi, is pleased to speak most kindly and enthusiastically of his English pupil. In 1901 Mr. Landi qualified as a Licentiate of the Royal Academy of Music, London, as a teacher of his singing, and he has also passed through New College, the first examination leading to the degree of Mus., Bac., Oxon., which he hopes to obtain at an early date. Mr. Landi is an all round musician, and not unknown as a composer, a number of his works having been published by the well known firm of C. W. Thompson & Co., of Boston. Mr. Landi has contributed articles to various musical journals, and he is a regular contributor and correspondent to the London "Musical Opinion." He will be heard in Plymouth Hall on Friday evening, in a short recital of pianoforte and vocal music. By special request Mr. Landi will also play the following organ music, after the evening service on Sunday next, July 8th: 1, "Variations on a Bass," Stainer; 2, "Meditation," Mailly: 3, "Toccata," in B Minor, A.P.F. Boely.

MISS ADELA VERNE'S RECITAL.

Miss Adela Verne, assisted by Mlle. Eva Gauthier, gave a very enjoyable recital of pianoforte music last evening in Art Hall before a small but appreciative audience. Miss Verne presented a very comprehensive programme—a little too long, we thought, for a summer's evening—which was well calculated to display the player's versatility. Of Miss Verne's playing we have little or no criticism to offer; she is not a debutante, and consequently occupies already a place among the foremost pianists of today. Her virility is amazing, but, added to this, she plays with rare delicacy, charm and artistic insight. It would be hard to say just where in her programme Miss Verne was heard at her best. Personally, we greatly admired the three pieces for harpsichord, played upon a Wilson & Sons upright, containing a patent attachment which is ordinarily called upon to imitate a banjo, but which in this case admirably substituted the harpsichord, and Mlle. Chaminade's "Pierrette," as dainty an example of pianoforte music as can be found. Whilst we admired the almost perfect legato which characterized Miss Verne's rendering of the Bach-Liszt A minor prelude and fugue, we wish to enter a protest against transcriptions of the Liszt and Tausig types, which, whilst affording opportunities for fireworks and thumping, are at best but travesties of original works. The Wagner-Liszt excerpt was, to us, perfectly distasteful, as was the Schubert-Tausig "Marche Militaire."

Mlle. Gauthier is the possessor of a well-cultivated voice of extensive range. As a contralto, however, we believe that she would do well not to constantly encroach upon the realms which are generally accepted as pertaining to the higher voices of women. Undoubtedly Mlle. Gauthier's middle and lower registers form the best portions of her voice. Her enunciation did not seem clear; but this we are prepared to attribute to the acoustic properties of the hall. We wish, too, that she might have been more fortunate in the choice of her selections, which were a little too much for an ordinary audience. However Mlle. Gauthier was encored at each number, and, considering the amount of work done by her during the evening, she was very good to grant the somewhat insistent wishes of her audience. Miss Verne was a little more firm in the matter, positively declining to grant encores until after the close of her last number—Liszt's terrificly difficult but unmusical; 2nd, Rhapsodie, when the audience refused to be satisfied until Miss Verne had once more given proof of her prowess.

Altogether, a too rare musical treat.

CORPSE IN RESERVOIR.

AND PEOPLE OF BRADFORD, ENGLAND, ARE IN A QUANDARY.

London, July 6.—The townsfolk of Bradford are riven by a discussion whether to risk drinking their respective shares of the decomposed body of a man found in the reservoir or to empty the reservoir at a loss of £3,721 to the ratepayers. The engineer of the waterworks declares it is safe to drink the water because the reservoir contains 1,240,000,000 pounds of water, while the weight of the corpse was about 140 pounds. The contamination therefore, is so minute as to be negligible. The hygienist view favors emptying the reservoir, pocketing the loss, as there is certainly the risk of ptomaines, which, unlike bacteria, cannot be extracted from the water by filtration or any other means. Moreover, the idea that the products of decomposition are diffused over the whole of the reservoir is a mistaken one. The water around the body would be highly contaminated, while the remainder might be almost free from contamination, meanwhile the water is being used.

Paris, July 6.—At the resumption of the Dreyfus hearing Monday Procurator Baudouin characterized the greater part of the evidence at the Rennes court-martial as a tissue of falsehoods for which the witnesses received payment. Emperor William's alleged letter incriminating Dreyfus was also denounced as a forgery.

Daily Market News

DAIRY PRODUCE.

CHEESE SOLD AS HIGH AS 11¾C IN THE COUNTRY—BUTTER WEAKER

Montreal, July 6.

The local market continues strong. Ontarios being quoted at 11¾c to 11¾c and Easterns at 11¼c to 11½c. Prices in the country continue to advance, as high as 11¾c being paid at Peterboro, the bulk of the offerings, however, selling at 11 9-16c.

The local market for butter is quiet at lower prices, fresh creamery being quoted at 21c to 21¼c, and salted at 20¼c to 21c.

Woodstock, Ont., July 4.—The cheese market today was firm and showed a decided tendency towards permanency. There has been no swing backwards in prices, but on the contrary there is steady progress towards further advances. About 4c per pound marks the advance made during the past week. Sellers are jubilant and buyers somewhat anxious regarding present prices.

Peterboro, Ont., July 4.—At cheese board today, 4,751 boxes colored cheese were boarded, and all sold for from 11 9-16c and 11¾c. Sale brisk. Board adjourned for two weeks.

Picton, July 4.—On the cheese board today 1,332 boxes were boarded, all colored; 1,052 boxes sold at 11¾c.

Stirling, July 4.—At the cheese board today 1,100 boxes were boarded; 200 boxes sold at 11¾c, remainder at 11 7-16c.

Three Rivers, July 3.—319 packages of butter and 328 boxes of cheese were boarded today. Prices obtained were: 11¾c for cheese, 20¾c for butter. Sweet cream butter and fresh butter unsold.

Roxton Falls, July 4.—At a meeting of the Roxton Falls butter and cheese board on the 3rd, 1,115 boxes of white cheese sold at 11¾c, eight buyers present.

The butter imported into the United Kingdom during the month of May of the present year showed a very considerable decrease as against former years. The figures are:

	Cwts.
May, 1904	372,306
May, 1905	368,587
May, 1906	356,523

Thus, as against last year, the quantity is less by 12,064 cwts. Whether this implies an increase in home production it is difficult to say, inasmuch as there are no available records. As a matter of fact, the total quantity imported for the five months up and including May last is greater than in the corresponding five months last year, but less than in 1904. Cheese has gone up by leaps and bounds. The United Kingdom imported in—

	Cwts.
May, 1904	120,690
May, 1905	99,465
May, 1906	152,415

As in former years, Canada supplies the greatest quantity of any country, and looks like continuing to be the chief source from which over-sea supplies are likel to be drawn.

"Shall I see my children, to-morrow?" asked Mrs. Tracey in tears, as they led her to prison.

"Yes," replied the High Constable, "the law is not so hard that it separates mother and child."

On reaching the prison Mrs. Tracey was quite overcome, and her state of collapse caused much sympathy for her among the attendants at the jail.

The formal charge against Mrs. Tracey is laid by Ernest Howard, a brother of the deceased.

CANNOT ADVANCE INSURANCE RATES.

IMPORTANT DECISION RESPECTING C.M.B.A. RENDERED BY BUFFALO JUDGE.

Buffalo, N.Y., July 6.—Justice White in equity term of the Supreme Court Monday rendered a decision which is of far-reaching importance to the members of the Catholic Mutual Benefit Association.

The judge holds that the advance in rate adopted by the Supreme Council at the 1903 convention held in Pittsburg was illegal, on the ground that a certificate of insurance is a contract, and the rates named in the certificate cannot be raised.

The judge also issued an order directing the C.M.B.A. to pay to the plaintiff in the action, who is Michael Dowdall, all the money paid by him into the treasury of the organization in excess of the rate paid previous to the increase.

It is said that the decision will be appealed.

Dowdall sued to recover all the money paid by him in excess of the original rate since January 1, 1904.

Justice White also granted an order restraining the defendant from collecting, or attempting to collect, from the plaintiff, any rate of assessment in excess of that paid by him previous to January 1, 1904.

was located and again incarcerated in cell No. 2 at the station. On Thursday morning when the constable went to see how his prisoner had passed the night, judge of his surprise to find he had also broken out from cell No. 2 and had disappeared. His second escape was made by smashing the cell bench to pieces and taking one of the heavy timbers from which it was made with which he pried off some of the slats that covered the window, also smashing the window and made good his escape, and at latest reports he had not been again located. As he was out on suspended sentence for good behavior, it will probably be a bad job for him when again caught. Constable Provo holds his horse and rig meantime.

He dressed and succeeded in rescuing all his family from the burning building, bringing them all outside, where friends took care of them. Then it was said that one of the eight children had been left in the upper room. Mr. Tremblay instantly walked up-stairs through the smoke and flames, to find the indicated room empty. It was not possible to return down stairs, so Tremblay jumped, breaking his ankle. There is some insurance, but a subscription circulated in town, has already realized $50 for the immediate demand of the family.

BOTH SIDES CLAIM VICTORY.

RESULT OF BRITISH NAVAL MANOEUVRES UNDECIDED.

London, July 6.—As a result of the naval manoeuvres, both the attacking and defending fleets claim a victory. Both suffered losses in ships.

Admiral Hay, commanding the attacking fleet, captured Scarborough, and telegraphed to King Edward:

"We have obtained complete control of the English Channel and have demanded the surrender of the English seaport."

The defenders captured the battleship Victorian, a flag ship of Rear Admiral Sir Archibald Berkeley Milne, together with the battleship Royal Oak and two cruisers, in a battle off Cape Finisterre, and claim that they secured the trade route by driving the attackers into the North Sea.

WHITNEY vs. JOYCE

PRIVY COUNCIL DISMISSES THE APPEAL WITH COSTS.

London, July 6.—In the Privy Council, Wednesday judgment was given in the case of Whitney vs. Joyce. The appeal was dismissed with costs.

This is an action taken by Mr. Whitney to recover from Mr. John Joyce $2,000,000, being par value of the stock of the Shawinigan Water and Power Company. The action is based on an alleged verbal agreement of partnership entered into in the year 1899.

The respondent denies any such agreement and appellant's action was dismissed both in the Trial Court and by the unanimous judgment of the Court of Appeals. Messrs. Beique, Tourgeon and Robertson were attorneys for appellants, and Messrs. Lafleur, MacDougall and Macfarlane represented the respondent.

THREE GIRLS DROWNED.

Brockville, July 5.—While bathing at Star Lake three young ladies, Misses Jennie and Alice Burgess and Katie Love were drowned.

Miss Love got beyond her depth, and shouting for help her companions went to her assistance. Grasping them both she took them to the bottom with her.

The Burgess sisters, aged 17 and 18, were accomplished musicians. Miss Love was a few years their senior.

The bodies were recovered in a few minutes, but all died after being taken from the water.
