CARD PLAYING  
AND CANDIES

A. Hanson Tells of Condi-  
tions in the Huge Chi-  
nese Republic

On the last lap of their more than  
14,000 miles journey to enlist in the  
British Army, W. J. Ward, C. B. Riggs  
and A. Hanson arrived in Montreal  
yesterday morning from Shang-  
hai, and are guests at the Windsor.

"Knowing that Canadians had en-  
gaged by the tens of thousands to  
fight for the Allies, I thought Canada was a  
liberty loving country, until I came to  
it," said Mr. Hanson to The Star this  
morning. "When I travelled in the  
train yesterday my friends and I be-  
gan to enjoy a quiet game of cards.  
"We were not gambling, but in a few  
minutes an official said we must stop.  
"I am very fond of chocolates, and  
I got off at a small station to buy  
some. No, sir, they would not sell  
them to me because it was Sunday.  
But they would sell me picture post-  
cards if I wanted any. It was dis-  
appointing to expect a broad tolerant  
feeling in a country as large as  
Canada, and then to find a narrow  
sectarianism that was the antithesis  
of personal freedom.

"Some things the Chinamen show,  
but he is very shrewd both in his  
private and international relations.  
When the United States broke off  
diplomatic relations with Germany,  
the Germans blew up the boilers of  
their ships in American harbors. But  
John Chinaman seized the German  
ships in his harbor and then broke  
off the diplomatic relations.

NO YELLOW MENACE.

"A Chinese merchant would consider  
you a fool if you paid him what he  
first asked for an article. The usual  
procedure is for him to name his  
price. Then you offer to give him  
just one-half of that. Both mer-  
chant and customer now have a basis  
for argument and after fifteen  
minutes haggling, a mutually satis-  
factory price is agreed on. The fact  
is, the Chinamen would rather you  
haggled him in selling you an article  
20 per cent below his first price,  
than to sell it at the high figure and  
forego the profit.

"A yellow menace? Not in a thou-  
sand years. Today the biggest sources  
of government revenue, the customs  
and salt duties, are paid by the  
Europeans—the Chinamen cannot do  
it themselves. While the Chinamen  
of the cities are common readers  
of newspapers, the ignorance of those  
in the country is appalling. The bulk  
of them in the country do not know  
there is a war on, and some think  
the Manchus are still ruling. And  
there is a new dialect spoken  
every twenty miles.  
"But graft will not win the China  
back forever. They do not call it  
graft over there—they have a better  
word, 'kuei-tze'. Every man from the  
humblest coolie to the highest official  
must have his 'kuei-tze'. Graft is  
more or less superficial and passing  
in western countries, but it is a dis-  
ease with the Chinamen.

LABOR SUPPORTING  
STATES GOVERNMENT

WASHINGTON, April 9.—Organized  
labor has pledged its full and  
unequivocal support to the Govern-  
ment for the duration of the war,  
and its leaders have promised to  
use their full influence to prevent  
any attempt to take advantage of  
the existing emergency to press the  
claims of labor for a change in ex-  
isting industrial conditions. This an-  
nouncement is made in a statement  
issued by the National Labor Coun-  
cil, and signed by Samuel Gompers,  
president of the American Federa-  
tion of Labor, and member of the  
advisory commission of the council,  
and his fellow members of the sub-  
committee on labor.

A report made to the council by  
Mr. Gompers' committee urges both  
capital and labor to unite in com-  
mon support of the nation, waiving  
for the duration of the war, all  
plans for changes in existing labor  
standards. The report of the com-  
missioner, numbering on its list prom-  
inent executives, as well as labor  
leaders, is regarded here as marking  
an important step in the efforts of  
the Government to insure the most  
co-operation from both labor and  
capital in the struggle.

NINETY FIGHTS WITH  
SUBS SINCE FEB. 1

PARIS, April 9.—The Petit Parisien to-  
day publishes an interview with  
Lord Cecil in connection with Ger-  
many's submarine warfare. Lord  
Cecil said that this blockade is a  
complete avowal of Germany's  
weakness and a proof that she has  
really abandoned the hope of ever  
obtaining a favorable decision on  
land.

Furthermore, it indicates that she  
is aware of the impossibility of suc-  
cessfully disputing the Allies' mas-  
tery of the seas. Lord Cecil admit-  
ted that the losses to the mercantile  
marine have been important, but he  
said that the losses to the navy were  
less than Germany anticipated.  
The Allies, he said, were accus-  
tomed to talk about the many vic-  
tories of the "Treaty" war, but they  
did not talk of the pirates' losses.  
"Although I am unable to give par-  
ticulars of the enemy's losses," added  
Lord Cecil, "it can be stated that be-  
tween February 21 and April 1, 49 en-  
gagements occurred between British  
ships and German pirates, while  
since February 1 the total number  
of fights was over 90."

dent Wilson received cablegrams  
from King George and from King  
Victor Emmanuel of Italy, congrat-  
ulating the people and Government

many.

REPLIES TO POINCARÉ.

WASHINGTON, April 9.—In re-  
sponse to President Poincaré's con-  
gratulations upon the entrance of  
the United States into the war, Presi-  
dent Wilson yesterday sent this  
message:  
"In this trying hour, when the  
destinies of civilized mankind are  
in the balance, it has been a source  
of gratification and joy to me to re-  
ceive your congratulations upon the  
step which my country has been  
constrained to take in opposition to  
the relentless policy and course of  
imperialistic aggression.

It is very delightful to us that  
France, who stood shoulder to  
shoulder to us of the Western world  
in the struggle for independence,  
should now give us such a welcome  
into the lists of battle as upholders  
of the freedom and rights of hu-  
manity.  
"We stand as partners of the noble  
democracies whose aims and ac-  
tains make for the perpetuation of  
the rights and freedom of man and  
for the safeguarding of the prin-  
ciples of human liberties. In the  
name of the American people, I salu-  
tate you and your illustrious coun-  
trymen."

CONGRATULATES ALBERT.

WASHINGTON, April 9.—Presi-  
dent Wilson last night sent a cable-  
gram to King Albert of Belgium  
congratulating him on his birthday  
today and referring to the entrance  
of the United States into the world  
war. The message will not be made  
public until it has had time to reach  
the King.

NEW YORK CANADIANS RE-  
JOICE.

NEW YORK, April 9.—One of the  
most patriotic demonstrations of the  
Easter season occurred at the Cana-  
dian Club's final dinner of the sea-  
son in the club's hall on the 15th  
room of the Biltmore Hotel,  
Saturday night.

Five hundred men and women ap-  
plauded the speakers, who dwelt on  
various phases of the war situation.  
James W. Gerard, formerly ambas-  
sador to Germany; Major-Gen. Leo-  
pold Wood, U.S.A.; Sir William  
Hearst and other prominent Cana-  
dians, who came to New York espe-  
cially for the event, were at the  
speakers' table.  
The speakers aroused the audience  
to a high pitch of enthusiasm at  
every mention of American being  
joined with Canada in the common  
cause. Sir William Hearst, pre-  
siding, said that which America was  
entering on her great task, and said  
that the bond between Canada and  
the United States would now become  
unbreakable.

SYDNEY CELEBRATES.

SYDNEY, N.S., April 9.—Sydney  
celebrated the entrance of the  
United States into the war. The  
demonstration, in which  
thousands of citizens took part,  
started with a torchlight procession,  
headed by bands, and carrying the  
flags of the Allies, conspicuous  
among which was the Stars and  
Stripes. The procession was fol-  
lowed by a grand display of fire-  
works.

An open air meeting was then  
held in front of the Sydney Hotel.  
Addresses referring to the action of  
the United States were delivered by  
Mayor Murgah, W. F. Carroll, M.P.,  
and J. C. Douglas, M.L.A., to which  
the speaker gave an enthusiastic  
response. A number of American  
citizens took part in the demonstra-  
tion.

AMERICANS PARADE.

ST. CATHARINES, April 9.—The  
entrance of their country into the  
war was celebrated Saturday night  
by citizens of the United States in  
St. Catharines, by a torchlight  
and automobile parade through the  
principal streets of the city.

BELGIAN PRAISE.

HAVRE, via Paris, April 9.—The  
Belgian Premier and Minister of  
War, Charles De Broqueville, has  
sent the following message by cable  
to President Wilson:  
"The Belgian Government decided  
in August, 1914, to make an unpre-  
cedented application to Your Ex-  
cellency. It was an act of martyr-  
dom in the moral grandeur of a  
republic friendly to Belgium. Our  
people, small in number, but strong  
in indomitable purpose, had foreseen  
that in the American people and in  
you, who are its noble expression, it  
would find support for its honor, and  
for its inalienable right to its independ-  
ence. It has clearly distinguished be-  
tween those groups that have directed  
the assault against the rights of peoples  
and those that have done so in the  
name of honor and in the name of  
solidarity. It has been accepted for  
other objects. The gratuitous aggres-  
sion of which civilization was the  
victim in 1914.

"The Royal Government has con-  
tracted an unforgettable debt to the  
generosity of the United States of  
America. As in 1914 it counts upon  
her aid to those whose only fault was  
to have thought like free and honest  
men and not as slaves, it is a duty  
to follow the line of honor that the  
Belgian Government salutes with  
joy, emotion and respectful admi-  
ration. The decisive act that through  
the intermediary of Your Excellency  
honors the men, the nation, and hu-  
manity."

MR. GEORGE BURY, OF  
C.P.R., WENT THROUGH  
RUSSIAN REVOLUTION

In Exclusive Interview with The Montreal Star in  
London, Gives Graphic Story of Eight Momen-  
tous Days

Special Star Cable from Our Own Correspondent. Copyright.

THE MONTREAL STAR OFFICE, 20 Cooks' street, London, April  
9.—Probably the only Canadian who found himself in the whirlpool of the  
Russian revolution was George Bury, vice-president of the Canadian Pa-  
cific Railway Company who has returned to London with many souvenirs  
and photographs of eight exciting days.

In an exclusive interview with your correspondent, he described  
the scenes in and around Petrograd. In Mr. Bury's opinion, the revolt was due  
mainly to hatred of the Russian secret police, shortage of food and  
the suspicion the poorer classes had of German machinations on food.

"It is freely stated and generally believed throughout Russia," said Mr.  
Bury, "that the Government desired to provoke the people, expecting to  
punish them severely and then have an excuse for a separate peace. Many  
work people were on the verge of starvation, and my impression is that  
the food shortage was mainly brought about by inadequate transportation,  
coupled with an extraordinarily severe winter.

"Factories in the vicinity of Petrograd had to be closed down owing  
to lack of raw materials, but the workless people who marched the streets  
of the capital crying for bread were quite orderly.

"The police placed a number of machine guns on the roofs of the prin-  
cipal buildings. I was told that of five thousand recently received from the  
United States, two thousand had been turned over to the police, who ex-  
plained that they were to be used against long distance Zeppelins. When  
Protopoff gave himself up, he handed a list of these guns to the Duma."

SAW BEGINNING OF REVOLT

Mr. Bury describes the commencement of the outbreak as follows:  
"At first, the Cossacks seemed to be on the side of the police, although  
somewhat lukewarm in support. I saw one of them brain a mounted  
policeman who had been unnecessarily cruel. Friday was rather a quiet day,  
but early on Saturday morning, sanguinary fighting broke out in the  
factory districts. There was rifle and machine-gun firing, and bombs  
were freely used. Towards evening a break between the Cossacks, some  
of them belonging to the Imperial Guards, and the police occurred. They  
charged through the police and hundreds of secret agents were killed. On  
the Sunday it spread around that the sitting of the Duma had been post-  
poned, but the day was comparatively quiet.

"On the Monday, soldiers disarmed their officers who would not prom-  
ise to support the revolt. These Cossacks seemed mostly new recruits, and  
I believe it was just the sheer savagery of the police that made them  
go against the authorities.

Armored cars and field guns were used by the rebels on many streets.  
Shops were looted, and large stocks of arms and ammunition were seized.  
The Astoria Hotel, where most of the English officers were quartered,  
was unlooted for a time, but later the police fired from a concealed gun  
on the roof, and the lower floors of the building were gutted, although  
foreigners were everywhere respected.

BATTALIONS SIMPLY SURRENDERED

"Battalions which had been posted at the various public buildings  
simply surrendered, and turned their arms over to the rebels.

"On the Tuesday, members of the Duma attempted to take control, and  
a committee of public safety was formed.

Mr. Bury continued: "In an interview with Prince Lvoff, Minister of  
Communications, I asked for a message which I could give the Allies. He  
said the Government was like straws on a turbulent stream, but that they  
had strong hopes of soon being firmly fixed in the saddle."  
In Mr. Bury's opinion, the best thing that could happen would be a  
military reverse which would cement the various sects in the new Govern-  
ment. He believed the people in every walk of life were desirous of  
continuing the war, but until discipline is restored, the Allies should not  
rely on too great things, for Germany will make a supreme attack. But she  
will never conquer Russia.

Mr. Bury is returning to Canada sometime next week.  
"I am too old to fight," he said, "but I thought I could best do my bit  
in assisting at a solution of Russian transportation problems."

Mr. Bury has been asked to, and has presented a report of his ex-  
periences to the British War Cabinet, and has received a warm letter of  
thanks from Mr. Lloyd George.

The Nation, Paper, Not Allowed Now Beyond England

LONDON, April 9.—The Manchester Guardian has the following dispatch from its London correspondent:  
"It is learned that The Nation has been curtly informed that its trans-shipment abroad is prohibited. No reasons are given, nor was there any preliminary warning to the editor."

"The Nation circulates extensively in America, and has been in touch with the circle represented by its new republic, which in its 20th year is in close relations with President Wilson. The Nation was one of the two or three British newspapers which understood President Wilson's policy and sent its letters to the public in this country with the great bulk of the press was raving in a manner which subsequent events have shown to be entirely unjust. The very few British journals that have stood consistently for a friendly understanding between British and American opinion.

"For the rest, the Nation is a doubt exceedingly critical of the present government, but it is not so much as it has been in the past. It has approached in acrimony those previously levelled by a great part of the press of the late administration."

# CAN. AM. BOX. CHAMP. OF AMERICA HOPES TO GO TO SWEDEN

## BROSSEAU MAY BE SENT TO SWEDEN FOR AM. BOXING

Eugene Brosseau, of Montreal, the amateur boxing champion of America at 155 lb., has hopes that he may be sent to the Boxing Championships to be held in Sweden this year.

Secretary Ruben, of the Amateur Athletic Union of America, is to select three men to send and Brosseau thinks he has a claim upon one of the three places.

"This," Brosseau says, "was one of the inducements held out in Boston to enter the championships. If there are three men selected, I think I have a chance. I have won an American championship two years in succession, and myself, who have won two years in succession, ought to get the first chance, and John Gaddi, of New York, the heavy weight champion, ought to be the third man."

Brosseau has clippings from the Boston papers, in which it is said that his actions as a regular professional than the actions of any of the other entrants in the tournaments.

## Royals are Snowed in Today at Jersey City Quarters

**SPECIAL TO THE STAR.**

**JERSEY CITY, N.J., April 9.**—The Royals will spend the forenoon in Mother Day's domestic bemoaning the raw chilly atmosphere. Yesterday the squall dispersed and the sun shined in Park to see the Giant reserves getting their hands from Dave Driscoll's Jersey City team. It was anything but an Easter weather and this morning when the boys turned out of bed they found themselves snowed in, a baby blizzard having overtaken this vicinity overnight. Subsequently they hit the hay for a longer spell than usual.

Manager Dan Howley rejoined the players at their headquarters yesterday after being laid up with a heavy cold for several days. He will be ready to go to work on Monday, but the squad a thorough drilling today but the weather man upset his plans. He stated that the pitching staff was shy of regular material. He has an engagement with Charles Ebbetts of the Brooklyn Nationals, who is expected to visit Jersey City with three new fingers and a short stop.

## MAJOR FITS IN.

Major fits in nicely at short, but being a strong advocate of preparedness he is going to grab another infanterier from Brooklyn while the grabbing is good. Efforts to learn the names of the men involved in the deal were fruitless.

Saturday the squad went under the chaperonage of Captain Tom Madden but West Side park being only fit for the boys, they did not get into uniform. Pitchers Lloyd and Stewart were given an opportunity to have their hands cut at half hour or so with Captain Madden.

Several practice games are scheduled for this week but it is apparent that there will be nothing doing at West Side Park until Wednesday or Thursday.

## JOE WRIGHTS CREWS BOTH DEFEATED

**SPECIAL TO THE STAR.**

**PHILADELPHIA, Pa., April 9.**—The Yale Varsity and Junior Varsity crews defeated the University of Pennsylvania crews Saturday evening in the first of the Henley regatta on the Schuylkill River, twenty feet separating the Varsity and two feet the Junior at the finish. The Varsity was rowed in five minutes and 52 seconds, and the Junior in 6 minutes and 41 seconds. The record for the Varsity is 5 minutes and 25 seconds. It was Yale's only race of the season, because of the weather.

## SWITCHED CREWS.

Just before the crews went to the starting line, Coach Wright, of Pennsylvania switched his crews, putting his Junior against Yale's Junior, who were recently promoted to the Varsity crews contest in the meet. The result was a close race, which was rowed first, Yale took the lead, and was never headed, winning by a margin of ten feet.

Pennsylvania set a terrific pace in the first half mile of the final race, and led by a quarter length, a quarter of a mile from the finish, but Yale noosed out as they finished.

## Lawnbowers Laid Out Plans for the Coming Summer

Labor Day and Saturday previous were again set as the date for the playing of the Greenfields singles and doubles tournament by the Province of Quebec Lawn Bowling Association at a meeting held at the M.A.A.A. club house.

It is more than likely that the M.A.A.A. will again donate the cup, the delay having been caused by the uncertainty of whether the trophy would be played for this year or not. The association will present second prizes for the singles and doubles competitions this year, a special appreciation being made for this purpose.

It was suggested that the All Canada Lawn Bowling Tournament, which has been held for the past few years in Ottawa, be held in Montreal each alternate year.

Officers for the coming season were elected as follows: President, S. J. Lambert (St. Lambert); Vice-president, R. J. E. Champelle (St. George); W. R. Granger (M.A.A.A.), re-elected as secretary-treasurer, while J. W. Fulton was appointed auditor.

Special to The Star by M. C. Hamilton, United Press Staff Correspondent. NEW YORK, April 9.—The times has now come when everybody is set to hear some arguments in favor of opening the major league baseball season later in the spring. And, if tangible evidence has anything to do with it, the arguments could be made to stick out as prominently as a thumb.

LEAFS GET AWAY TO POOR START

PETERSBURG, Va., April 9.—The 1917 Leafs are off to a bad start. They got a trouncing in their first exhibition game at the hands of the Petersburg, Virginia, Leaguers. Lyons pitched good ball and the Leafs have been scored on in his three innings if a wild throw had not been supplied by Smith, Lehart and Wagner were easy pickings. Petersburg driving their offerings to all corners of the field. The infield worked nicely and will do, but the outfield hardly lived up to expectations; they played too deep with men on the paths. MONDAY, APRIL 9, 1917.

THE WAR.

THE KAISER TRIMS HIS SAILS.

THE most significant news from inner Germany for some time is the statement that the Kaiser has declared for a democratization of the Prussian form of government.

The voters for the Diet are divided into three classes, grouped on a basis of wealth. Thus the very rich are in one class, the moderately rich in another, and the poor in a third.

Now the Kaiser proposes to do away with all this. Prussia is to have direct and secret election of deputies to its Diet.

This is a shrewd move on the part of the Kaiser. Whether he will succeed in postponing the discussion of these matters until after the war—until, in a word, his autocracy will have much less need of the loyal support of the suffering proletariat of Germany, and can more safely defy them—remains to be seen.

Russian Developments. Synchronizing with this comes news from Russia which must give us thought.

Another despatch from Petrograd says that the new Russian Minister of Justice has responded to a statement by a Social Democrat in the German Reichstag to the effect that the German Social Democrats are basing their hopes on the Socialists in the Duma.

flouting the idea that the Russians would make any separate peace, and then adding that "if, on the other hand, he (the German Socialist) hopes the German people are about to follow our example and dethrone their Emperor, we can do no other than warmly applaud, for that would greatly free our hands and offer the possibility of entering on preliminary negotiations."

There has been a lot of this sort of talk of late, not all confined to Russia by any means. In Britain, it has been proposed that we compel a German Revolution by refusing to make peace with the Hohenzollerns.

Today's official advice tells us that the British have begun a strong offensive on the front between Arras and Lens. This is immediately to the north of the great sector before which the Germans have just accomplished their huge retirement.

We in Canada are especially interested in this advance; for there is every likelihood that our boys are in the thick of it. This has not, of course, been officially stated; but the Germans some days ago reported that the Canadians attacked them in this section of the front.

Cuba has declared war on Germany. After smoking a few German cigars one's sympathies will be wholly with Havana.

The Hungarian Premier says he sees the dawn of peace in the East. But with the news coming from Russia these days, the East is a bad quarter for Hungary to look to.

Count von Reventlow is apprehensive that if peace comes now it will not bring all that ardent German annexationists crave.

AN ANSWER TO ANTICHRIST. Wilhelm, thou jestest. Hast thou danced so long. Our fatterer in this giddy whirl of death.

THE PRISONER OF WAR. If I could fight! If only I could fight! To think how she, my country, needs my strength!

For then my ghost would take untrammelled way to bleed France, and there, unseen, but felt, I'd whisper "Courage!" in a faltering ear.

## The Home Garden

Instructions for Amateurs who Want to Help Win the War by Growing Food Products on Unused Home Land. Send Questions to the Home Garden Editor.  
**EARLY POTATOES**  
To secure an early crop of potatoes there are several methods that may be adopted for forcing. First one must get the earliest variety, such as the Early Ohio or Irish Robber. Provide proper conditions of light and temperature and shoots two inches in length may be obtained before the time for planting out in May. This will mean that the tubers will be ready for use early in July or two to three weeks before they would be ordinarily.  
Forcing is practiced only to a limited extent in this country, but is commonly practiced in the south of England and the Island of Jersey. In ordinary years the advantage gained is not sufficient to compensate for the extra cost. This year, however, the high prices are an inducement to get returns as quickly as possible.  
The method may be used, though this is not necessary. Take a shallow box and place the tubers with the seed and upward as closely as they can be set. Choose those of fair size and if the eyes show signs of sprouting rub off all but one or two. Keep the box in a cool place where the temperature will range from fifty to sixty. Make sure of plenty of light to get a sherry thin growth on the end eye. Watch carefully to see that the sprouts do not start from the other eyes.  
If the tubers are started in this manner early in April they will be ready to plant in the open ground a month later. Two or three days before planting open up the furrows in which the seed is to be placed to permit the soil to warm up. Space the sets nine inches apart and cover with a hand rake.  
Should there be danger of frost after the plants are above ground draw earth over them and uncover when weather improves. A warm sandy soil with an application of well-rotted manure will give quickest returns.  
The method described may be modified by cutting the tubers into three or four parts with two eyes to a set, which will be an economy in seed required. Sads may be placed around them, leaving only the tips exposed, the sand to be kept moderately damp.

**THE OLD GARDENER SAYS**  
Amateurs sometimes set out a strawberry bed and never see any fruit. They have the furrows in which they are not self-fertile. Let some other variety be planted near them and there will be plenty of fruit. Dealers will always tell you what sorts to grow in company if you ask them. The fall bearing strawberry should have a place in every amateur's garden. It will bear until the fruit freezes on the plants.

**Men in Egypt Determined to "Pull Full Weight"**  
CAIRO, April 9. (via Reuters Ottawa agency)—Lord Derby, Secretary of State for War, telegraphed the following congratulatory message to General Murray, commanding the army in Palestine:  
"The Imperial War Cabinet, where representatives of the United Kingdom, the overseas Dominions and India are assembled, charge me to convey to you and all ranks concerned their cordial congratulations on the striking and important success achieved near Gaza. They have heard with special gratification your commendation of the gallantry of the troops."  
General Murray replied, saying it was the earnest determination of all ranks of the Egyptian field force to "pull their full weight."

## HEARTS SAD AND NOSES BLUE HERE FOR EASTER DAY

Calendar and Weather Man Had Falling Out for Week-End  
**GAY RAIMENT THE SUFFERER**  
Church Services Well Attended—Patriotic Note Dominant  
There were sad hearts and blue noses in Montreal yesterday despite the fact that it was the joyous Easter season.  
Easter has a two-fold significance, religious and sartorial. It is the time for flinging off the "winter garments of repentance" as Omar puts it. When the calendar and the weather fall to agree at Easter, a lot of people shiveringly insist that the calendar distinctly said Easter, while the weather shrewdly hinted December, and howlingly emphasized the hint of snow in the air. There was a lull about 21, and there was a trace of snow in the air. There was plenty of sunlight, most of the day, and thin clouds of the world who lured about 21, and there was a trace of snow in the air. There was plenty of sunlight, most of the day, and thin clouds of the world who lured about 21, and there was a trace of snow in the air.  
"Fine day, isn't it?" somebody would say, shivering the while.  
"Yes, fine. But cold for Easter," would be the reply, amid more shivers. Hope springs eternal.  
Of course, it didn't matter so much to the men, who are only supposed to act as convicts at Easter anyway. Their clothing is much the haberdasher's ad. The tragedy of the weather has brought home to the other half of the world who count more on Easter than other days.  
"Oh, it was pitiful," as Mr. Hood remarked. All the khal-khal-khal, and other latest models, all those (technicalities deleted by censor)—all those wide hats with the exotic decorations on the bow of them, and the wind, and Jack Frost biting, and—  
**FREAK HEADGEAR SUFFERS**  
Some of the Egyptian scarabs, and tin butterflies and Chinese laundry marks, and other things that go to make the new hats up to date, were blown bodily away; it is reported. It is also generally believed that the new Easter gown models formed poor windshields for their wearers. Along Sherbrooke street, the Easter line of march, the procession waned and died as the afternoon grew chillier. There was, and is, only one comforting thought in the whole situation. It may be warm next Sunday.  
At all city churches, yesterday, the Easteride was celebrated with special services, special music, and sermons devoted to the spiritual significance of the feast. At Christ Church Cathedral, the vicar preached at the morning service, and Bishop Farthing occupied the pulpit in the evening. The Bishop spoke on Christian unity, declaring that it was not necessary to wait for church union, if people would bring into their lives the power given them by Christ's life.  
The entrance of the United States into the war on the side of the Allies was noted by sermons of the churches. At St. James Methodist the British and American flags hung side by side, and in his sermon last evening, Major the Rev. C. A. Williams, the pastor, warmly praised the stand taken by President Wilson. At the close of the sermon the choir sang "The Star Spangled Banner." At the Easter rally of the Fairmount Avenue Methodist Sunday School yesterday afternoon, the British and

## NEW PRESIDENT OF CONSERVATIVE ASS'N

Paul Lacoste, K.C., elected president of the Liberal-Conservative Association, to succeed Ald. Louis H. Boyd, who leaves for the West to take up his duties as chairman of the Grain Commission.  
American flags were also entwined. The Rev. Abbe Thellier de Poncheville, the French soldier priest, who has preached the Lenten sermons at Notre Dame Church this year, delivered his closing sermon yesterday afternoon to a congregation of over 8,000 people. Archbishop Bruchet was present.  
At the Y.M.C.A. on Drummond street yesterday afternoon, the Rev. W. R. Andrew, one of the secretaries of the Y.M.C.A. national council, addressed a large meeting of men. The weekly tea was held following the meeting. In the afternoon, Ernest Millen spoke to a meeting of boys, and the boys' choir of forty voices sang for the patients of the General Hospital.

## TEN SEERS ARE PUT UNDER ARREST

VANCOUVER, April 8.—Ten fortune-tellers and palmists, women and men, were arrested by the police yesterday charged with a violation of the Criminal Code in plying such occupations.  
Deputy Chief of Police McCrea stated that the arrests were made on complaints that certain fortune-tellers were profiting by the fears of the mothers and wives of soldiers at the front.

## Britain Selects Easter to Review War Situation

LONDON, April 9.—Easter is customarily Britain's greatest holiday. But the present vacation was altogether given up to a national survey of the war as a whole. The Nation is now taking stock, writing down on one side of the ledger Germany's continued power in her armies and submarines, and on the other side the tremendous tangible moral advantage of the great democracies of the world joining hands in the struggle against autocracy.  
On all sides one hears the opinion that it is best to rule out any idea of early military success for the Allies, and even to eliminate the thought of a possible German economic collapse. President Wilson's expression that the Allies must set their teeth for a long period of war still is generally adopted.  
Regarding the submarines, Lord Robert Cecil's statement that the British Navy had fought ninety engagements with undersea craft since February 1 has heartened the public, who believe that the aid of America, coupled with continued efforts of the British Navy, will head-off the spectre of starvation.

## Because She Was Not a "Thing," This Woman Loses Damage Suit

Expressing the incidental opinion that a human being is not a "thing" in the eyes of the law, Mr. Justice Panneton has dismissed a damage suit for \$14, taken against the Montreal Tramways Company by Mrs. Vincent Parisella. Mrs. Parisella's arm was broken when a brewery wagon collided with a street car in which she was a passenger. Her lawyer based her claim on article 1675 of the Civil Code, which states that "carriers are responsible for loss of or damage to the things they carry, unless they can prove that it was caused by a fortuitous event."

Mr. Justice Panneton in the first place decided that the collision was a fortuitous event, and in the second, that Mrs. Parisella was not a "thing." Had the law meant the term to mean person as well as an object, His Lordship decided, it would have been so stated in definite words.

His Lordship also condemned the Dominion Bank to pay the Tivoli Amusement Company \$130, the amount of a forged cheque which the bank cashed for the company in 1914, and which was subsequently charged to the company's account. The court held that as the bank cashed the cheque before asking that it be kept for examination, it had accepted responsibility.

## ONTARIO HOUSE CLOSED AT DAWN ON GOOD FRIDAY

TORONTO, April 8.—The session of the Ontario Legislature that closed shortly before daybreak on Good Friday morning, though one of the shortest in many years, established a record in the progressive programme of legislation put through.

The House had been in session since February 18, and for the last month had been sitting on an average of three evenings a week. A week ago the task of winding up the business of the House before Easter seemed a hopeless one, but morning sittings and sessions running away into the following morning produced the desired result.

The most important and far-reaching legislation of the session was, of course, the extension of the provincial franchise to women upon the same basis as to men, and the drafting of a plan of enumeration that will put every woman and every soldier on active service on the lists in time for the next general election, at the same time eliminating the necessity for manhood franchise revision.

The Legislature, in addition to passing the usual mass of private bills, put upon the statutes laws to provide for:

The taxation of the nickel industry upon a basis that will give the province a minimum of 6 per cent of the net profits of the business of the Nickel Company, estimated upon pre-war earnings at \$250,000 annually, and on profits not being piled up at \$950,000 a year. The collection of these taxes on profits for 1915 and 1916.

MRS. M. S. FOLEY DEAD. Margaret A. J. Macdougall, widow of the late M. S. Foley, editor and proprietor of the Montreal Journal of Commerce, died on Thursday at her residence on Rossini avenue. Mrs. Foley was born in Montreal of a well known Scotch family, but spent her early years at Hillside, the farm-house near Pion, Ont. She had a large circle of friends in this city, and is survived by a large family all of whom reside here, as follows: Mrs. Foley has been in a poor state of health for several months past.

CHILDREN'S VISITORS. R. T. Heneker, K.C., and H. J. Hague, K.C., are the visiting governors for the Children's Memorial Hospital for the week commencing Monday, April 9.

## WORK OR STARVE. HUMAN ULTIMATUM TO THE BELGIANS

WASHINGTON, April 8.—A story of the horrors of German military rule in Belgium and of the tortures inflicted upon Belgians to force their labor for their enemies was revealed here tonight in hitherto unpublished letters to the Government from an American official who spent many months in the midst of the reign of terror.

"They needed skilled and artistic artisans and these men were naturally still unemployed. The authorities did not, however, evidently desire to announce their real wishes."

"Belgium, at this moment," says a letter written in December, "is going through a reign of terror. It is hard to believe that the dark moments of the French revolution were very much worse than the conditions which we are now the witnesses. With each month that we remain in this ghastly twilight and tighter round the population of Belgium, the country is more or less one great internment camp. To obtain necessary food for the population of Belgium and neutral air in Holland or Ireland is now practically impossible for Belgians and even for neutralers."

OR MORAL VALUE. "President Wilson's protest against the deportations," the writer says, "was a great moral value, but the deportations continue without any apparent serious modifications in spite of the protest of our Government."

"The fashion in which any given recruitment is carried out depends very much on the character of the officer in command. Some officers pass off in orderly manner and others in a disorderly fashion. A guard of the prisoners of war, sometimes backed with machine guns. At times, it is thought necessary to charge the line with bayonets fixed to the rifle barrels."

"Various methods are employed to force the men who refuse to sign and to work. Starvation is the most prevalent. Men are also placed in an excessively heated room and when in a great sweat, thrust out of doors in the winter, and are compelled to work so near the line that they are gravely abused and mistreated."

"In Ghent it is learned confidentially that 35 men died from the effects of the treatment or work received in more than 24 hours. A wife was summoned to the commandant and handed a bundle of clothes with the following remark: 'Your husband is dead.'"

"Many of these persons are supposed to have been killed by the artillery fire which has been compelled to work so near the line."

ICEBREAKER TRYING TO OPEN UP SOO. DULUTH, Minn., April 8.—At 4:40 yesterday afternoon, citizens of Duluth heard the whistle of the icebreaker Algoma as she holed in sight in the ice-fields of Lake Huron. She left Mackinac Island this morning and experienced little trouble breaking the ice, which has become softened in the lake by the warm sun and strong winds.

The Algoma did not stop at Detroit but proceeded into the ice-bound river channel. The heaviest ice will be encountered about five miles up the river. From this section gave thirty-six inches, which has become softened to some extent by the weather. It is thought that the Algoma may be able to make the Soo by Tuesday night, which will open navigation to the upper St. Lawrence basin at the locks to have them in readiness.

## WORKMEN CAUSE FRICTION WITH RUSSIAN DUMA

PETROGRAD, April 8, via London, April 8.—A conflict of authority between the council of the workmen and soldiers' deputies and the Government has been receiving much attention in the newspapers. The deputies appear to have given a qualified acknowledgment of the authority of the Government, but seek their own way to the extent of constituting a menace to the success of the ministers in solving problems with which they are confronted.

An exaggerated jealousy of the rights of the people is the cause of the friction. The council has announced that it is its prerogative to ignore Government authority when in its opinion such authority overrides popular freedom. The newspapers are filled with appeals to the workmen to subordinate themselves to the needs of the army and to resume activity in the organized factories, many of which are still virtually at a standstill. Other factories are working theoretically eight hours a day, but the employees are devoting much time to meetings and to other things which cause interruption. That much of the unrest and dissatisfaction among the workmen can be attributed to the remnant of the old police organization, members of

## NOTES & QUERIES

UNITED STATES AND MEXICO. Editor, Notes and Queries. Sir—To settle an argument, can you say definitely how many men the United States had on their border during the trouble there—H. A. J., Montreal.

A.—About eleven thousand men.

THE FIRST TAG DAY. Editor, Notes and Queries. Sir—In a recent issue I noticed a query asking when the first tag day was held in Montreal. My memory serves it was sometime during the summer of 1911. It was in aid of the School for the Blind, and a purple card tag was given.

I remember a story in an issue of The Star telling of a Levai boy who had a string of these tags down the front of his coat.—F. W. P., Montreal.

Editor, Notes and Queries. Sir—In regard to the inquiry about the first tag day in Montreal and who was a forerunner, I would like to say that as far as I can remember it was in 1911. The tags were blue buttons with white letters, saying that it was "Tag Day, 1911." I can remember this because it was my last year in school, and these tags were given to each teacher to sell to her class so as to help. Who it was for I am not sure, but I believe it had to do with the School for the Blind.—S. Jacobs, 30 Lincoln avenue, Montreal.

Editor, Notes and Queries. Sir—In your department recently I noticed a query which you referred to readers for an answer, viz: when was the first tag day held in Montreal, and for what purpose? The first tag day held in Montreal was on April 1911, in aid of the School for English speaking Blind. The sum realized was in the neighborhood of \$25,000. This almost
