The bomb, witnesses say, was placed in position by two men who drove away in a taxicab ten minutes before the explosion.

CHURCH UNION TO BE VOTED ON.

Question Will be Up at Sessions of Methodist Conferences.

UNITED PRESBYTERIANS, CONGREGATIONALISTS AND METHODISTS PROPOSED.

Toronto, May 17.—Church union is to be voted upon at all the annual conferences of the Methodist Church. The union of Presbyterians, Congregationalists and Methodists is proposed. Since a federal union of the Church was proposed by the Presbyterians at the meetings held in St. Andrew's Church, Toronto, a number of Methodists seem to favor that plan rather than organic union.

The following official statement in regard to the manner of voting on the question of church union at the annual conference was made yesterday by Rev. Dr. Carman, general superintendent: "Each annual conference is to report its decisions and votes thereon, with any additional information deemed desirable, to the General Conference special committee immediately after the close of the conferences. "The report should state the votes of the annual conferences as one body, ministers and laymen in their joint sessions, also as to how the ministers stand by themselves, and how the laymen stand by themselves, in order to make a summation for the whole church."

LIVES AFTER SHOCK OF 110,000 VOLTS.

Brantford, Ont., May 17.—Albert Yapp is suffering from a shock sustained Saturday at Preston, where he was working on the Hydro-Electric Power Line. In turning on a switch he got the full strength of 110,000 volts, knocking him from a fifteen-foot ladder. When picked up he was faintly conscious and soon recovered sufficiently to be brought here. His hands are badly burned and gold fillings were taken out of his teeth. In falling he was doubled up, one knee striking his eye and somewhat badly injuring it. He says the only thing which saved him was that the circuit grounded.

MANY BUILDINGS IN BUSINESS SECTION WERE THREATENED.

Portland, Me., May 17.—(Special)—Portland's High School building, valued with its contents at upwards of \$100,000, was practically destroyed by fire early this morning, and many other structures in the business section of the city were for a time threatened. Fifteen minutes after the fire started in the boiler room in the basement it had burned up through four stories and broken through the roof.

PEACE HOVERING OVER MEXICO.

Propositions Agreeable to Both Parties Have Been Reached.

GENERAL ARMISTICE EXPECTED WITHIN NEXT FEW HOURS.

Juarez, Mex., May 17.—Peace, the fervent hope of Mexico, now torn by rebellion, last night seemed almost an accomplished fact to those who are negotiating a settlement of the revolt.

Judge Carbajal, the federal peace envoy, has announced that, barring the unforeseen, a general armistice will be declared within twenty-four hours. Provisional President Madero has declared that mutually acceptable propositions have at last been reached and peace is assured.

The formal signing of a peace agreement will probably take place here within the next two days. President Diaz will probably resign within two or three months, at any rate when peace shall be restored.

Two principal questions have all but been agreed upon. Namely: The number of cabinet members and governors to be appointed the insurgents, and the other conditions have for some time been tacitly determined by both sides. Now, it will be merely a matter of technical detail to draft the peace terms formally and to arrange a modus operandi for the discharge of their provisions.

Up to last night the Government had acceded to the insurgent demand for three cabinet portfolios; namely, those of War, Justice and Gobernacion, and word was awaited from Mexico City as to the exact number of governorships to be allowed the rebels. Last night the Government offered ten. On other occasions the Government is believed to have been inclined to give fourteen. There is little doubt that fourteen will be the final number.

SEVERAL JUDGMENTS RENDERED BY MR. JUSTICE LYNCH AT SWEETSBURG.

Sweetsburg, May 17.—(Special)—The second term of the month of May opened yesterday, but was of very short duration on account of the settlement of some of the cases and the postponement of others. However decisions were rendered on cases heard before.

GIROUX VS. ST. LAURENT AND GREEN.
The dispute was over the proceeds of the judicial sale of some timber made to satisfy a judgment of Plaintiff against Defendant St. Laurent. The Garnishee, Mr. H. Green, made a claim for the remittance of the money, under the assertion that this lumber belonged to him and that he had had no time to make an opposition to the sale thereof. It appears that he and Defendant St. Laurent had some dealings together by which the proceeds of the timber cut and bought by St. Laurent were to be paid over to him, Green, who assumed the payment of the liabilities. However, the trend of the proof established that St. Laurent was a lumberman and dealing in square timber, whereas Green never dealt in such business. And on the whole it was taken that Defendant was the real owner of the lumber and the sale had been properly made upon him, and the opposition to withdraw the money was accordingly dismissed.

DOZOIS VS. LARIVEE.

This is a case from Granby which attracted some attention at the time, about four years ago. One Philibert Larivee became insolvent and disappeared suddenly after having disposed of his property. The Plaintiff was appointed executor to his estate and took an action against the present Defendant, brother of Philibert, to recover some moveable property and a sum of \$611, which the Defendant had handled together after having received it from one Choiniere in payment of a farm sold to him by Philibert Larivee. The proof established the fact that Joseph Larivee had benefited only to the extent of \$112.00, which he had kept out of a larger sum, in payment of a claim of his own. For this he acknowledged that the payment was a preferential one and confessed judgment to that extent. The Court however decided that he must moreover bring back into Philibert's estate the moveable property which he had received some time before, or pay the value of \$200.

COUTU VS. AUCLAIR.

This matter resumed itself to a question of costs. Defendant was the tenant under a conditional lease of a hotel property belonging to Plaintiff at Roxton Pond. In January last, a payment of over \$200 became due, and the present action instituted. After its service, negotiations were made for a settlement, which being unsuccessful, Defendant decided to contest the action on the ground that no demand of payment had been made, and deposited the amount claimed, but without costs. The Court decided that the offer of payment and the negotiations of the same after the institution of the action, were tantamount to a renunciation of a demand of payment, and Defendant has to pay the costs.

TROUBLE WITH THE MINISTER OF MILITIA.

A petition has been made on behalf of Sir Frederick Borden, Minister of Militia, against certain parties at Farnham, who refuse to deliver their land for the purpose of the camp. The law provides that in case of no agreement for the purchase of the necessary land, the Government can give a simple notice of the expropriation with a deposit of the plan and description of the land required, upon which the owner must give possession and vacate the premises, subject to a contestation upon the price later on, if the parties so desire. It is expected, however, that no further trouble will take place, but that the parties will deliver the land and discuss afterwards the amount of the remuneration.

INVESTIGATION INTO CEMENT MERGER.

Ottawa, May 17.—(Special)—That there will be a parliamentary investigation into the cement merger is positive. A semi-official statement made today states it is understood that the matter has been discussed by the Government and views of members elicited. Most of them are favorable to an enquiry. Some are indifferent, and some are against, considering that there is no authority.

MINISTERIAL ASS'NS MET YESTERDAY.

Sherbrooke And Orleans County Associations at Stanstead College.

WELL PREPARED PAPERS DELIVERED BY REV. J. G. HINDLEY AND REV. THOS. HALL.

The Sherbrooke District Association met jointly at Stanstead College yesterday afternoon with the Orleans County Ministerial Association. There was a very representative attendance of the members of both associations. The chair was taken by the Rev. F. E. Adams, of Huntingville, the president of the Sherbrooke Association. The devotional service was conducted by the Rev. Gordon, of Derby Centre, Vt.

The first paper of the day was presented by the Rev. J. G. Hindley, of Rock Island, who took for his subject, "The Church and the Modern World." One's estimate of the present status of the religious life and activities of the Church, said the speaker, will be determined largely by his point of view, whether he is an optimist or a pessimist. The optimist will tell you that, judged from the multifarious activities of the churches, the united efforts of the churches in the foreign missionary field, the increased amounts raised for church purposes, at home and abroad, the encroaching statistical reports presented by the various churches, would indicate a very hopeful outlook for the future of the Church. But the pessimist will point to the decreasing number of theological students, the difficulty of keeping religious literature before the public, the waning congregations and the somewhat sensational and worldly methods resorted to to increase the attendance at the church services, the declining influence of the Sunday school, as indicative of the passing of the influence of the Church. One must try to do justice to both positions. It is useless to deny the reasons advanced by the pessimist. They exist unmistakably. But there is a danger lest we imagine that these reasons give us a complete explanation of the situation. Some of the destructive factors in our modern Church life, of which we must take account, were enumerated by the speaker. There was Sunday tiredness. After the strain and exhaustion of the week of excessive toil and close confinement, people were more inclined to take to the woods than to go to church. Then there was the ever-present problem of Sunday labor, which, notwithstanding Lord's Day legislation, was a menace to the intention of the day. Sunday amusements were increasing. The pulpit had to meet rivals in the shape of the Sunday paper, magazines, books, the forum, and other forms of public enterprise. Foreign travel and the vacation habit frequently depleted the congregation to a very marked extent. In this way the church-going habit became interrupted and was difficult to re-establish. Then the benevolent and fraternal organizations were kept competitors of the church. These often furnish for the members all the practical religion they think they need. The intellectual unrest so characteristic of our modern life, must also be taken account of. Many people think that the church is extra, superfluous and optional. She has frequently failed to meet the needs of those who have parted with the old orthodoxy and traditions which possess no modern authority. Added to these reasons there is the social unrest, the class warfare which has been brought about by the consciousness of glaring economic inequalities. Many good people are devoted to the improvement of society who have no use for the Church. A radical reformer gave expression to a popular attitude when he said, "I love Jesus, but I hate the Church." Tolstoy condemned the Church in caustic language, and multitudes share his opinion. The Church to meet these people must not only call the working-man "brother," but must treat him as such. The Church is also overshadowed by commercialism. The love of getting kills the love of giving.

"Organized religion must join hand in hand with applied science to fight these antagonistic forces. The constructive remedies must be held constantly before the minds of the workers. The Church must do her work better because there is really no substitute for the task given to her. The Church must not only instruct and inform, but also inspire. This work must be undertaken with evangelic fervor. The gospel of a living, loving, righteous God, a redeeming Lord, sin the root of all misery, and redemption from sin, must be fearlessly proclaimed. But all must be stated in terms of modern thinking. More than revision of creeds, however, is needed. There must be a revision of deeds. Bad as it is to have a mediæval creed, it is worse to have a mediæval conscience. The prime need of the modern world is a conscience. Temptations to violate principles have often outrun the ability to resist them. Our springs of life must be fed by the power of the Infinite Source, and the Church must become the medium for the impartation of this power. The business of the Church is imperatively altruistic. There must be a revival of the old Puritan virtues and an absolute devotion to the sacrificial service of humanity. This is but a brief resume of a strong, vigorous presentation of a subject which was felt to be of great importance by all present. The speaker expressed himself in terse, (Continued on Page 3.)

INJUNCTION ORDER WAS SUSPENDED

Action as to Granting Liquor License at D'Israeli.

PETITIONER ASKS THAT RESOLUTION OF COUNCIL GRANTING SAME BE ANNULLED.

In the Superior Court this forenoon Mr. Justice Hutchinson rendered judgment in the case of R. Bellefleur et al. The Corporation of D'Israeli et al. This was an action to set aside a resolution of the Council granting a license certificate to P. Rousseau, hotel-keeper, there. On May 1st an interlocutory injunction was granted in the Superior Court here to restrain the defendant Rousseau from selling intoxicating liquor. The defendant Rousseau made a motion to have this injunction set aside on the ground that after the injunction had been granted he had received an authorization to sell liquor from the Collector of Provincial Revenue.

The Court held that it had been proven that Rousseau had received a certificate from the Government, and the plaintiff should have called in the Collector of Provincial Revenue as a party of the said proceedings, and prevented him from applying to the Lieutenant Governor for the said license being issued to Rousseau, or on the other hand petitioner should have waited until the license was issued, and then attacked the same as having been issued illegally. While the petitioner may have been justified in causing the said writ of injunction to issue, yet there was no ground today by reason of the issue of the said license, for the injunction being continued in force. Although it may be possible if the required amendments are alleged to have the said license cancelled and annulled, and petitioner's demand eventually granted.

The injunction was therefore suspended until other orders be given by the Court. The costs were reserved.

Montgomery and Miss Pearl Williams. The addresses displayed a good deal of careful thought and judicious comparison, the ladies in particular making some splendid points. The judges were Mr. C. FROM STARVATION IN THE NORTHERN WILDS

of Inspector Fitzgerald and three other members of the Royal Northwest Mounted Police force, was received by Col. William White, controller, in the form of a report from Corporal Dempster, of Dawson, Yukon, who was sent out to investigate the tragedy.

There is no little pathos in the report, which includes a diary of Inspector Fitzgerald for the ten days preceding the slowly and grimly approaching death. In a will of 22 words, written with a burnt twig, the inspector left all his possessions to his mother, ending the document with the words, "God bless all."

The theory that the party lost their trail and were compelled to eat their dogs and eventually starved was all too true. The official diary discloses the whole story. It is heartrending in the extreme. Inspector Fitzgerald's last words, written Sunday, February 5, stating that the men were forced to eat their dogs while staring death and starvation in the face, reveals some conception of the awful outlook confronting the party on the last day.

Cause and Cure of Headache. The cause of headache as you know, is the stoppage of the circulation resulting in pressure on the delicate nerves of the head. In time nature will start the blood going again, but meanwhile we suffer and are unfit for duty. Assisted by two ZUTOO Tablets, which by the way are as harmless as the soda they contain, nature will remove the pressure and stop the headache in twenty minutes. Why continue to suffer? It is really remarkable how many people now use ZUTOO to cure their headaches. Do you? If not, why not?

Just try a Ten Cent 'Box of Cascarets' Salts, Calomel and Cathartic Pills are violent—they act on the bowels as pepper acts in the nostrils. We all need a laxative sometimes. How often we need it depends entirely on how we live. If we exercise largely and eat a right food, we need a laxative only occasionally. But if we live indoors, and get too little laxative effect in our food, we may need to get it quite frequently in some other way. Nobody can doubt the need for a laxative. The only question is: Which one is the best? And that is a question now. Cascarets are known to embody the only laxative which acts in a gentle and natural way. Cascator oil merely greases the bowels. Cathartics and salts, acting as pepper acts in the nostrils, flush the bowels with fluids. But those fluids are digestive juices, and we will lack them to-morrow if we waste them to-day. Cascarets alone cause the muscles of the bowels to act the same as some foods will do. Carry them with you. Take one when you need it. You will then enjoy all the good effects of keeping the bowels clear. They are sold by all druggists, but never in bulk. The price is 10 cents per box.

TO GROW HAIR ON A BALD HEAD. BY A SPECIALIST. Thousands of people suffer from baldness and falling hair, who, having tried the usual advertised hair tonics and hair-growers without results, have resigned themselves to baldness and its attendant discomfort. Yet their case is not hopeless; the following simple home prescription has made hair grow after years of baldness, and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist: Bay Rum, 6 ounces; Lavona de Compose, 2 ounces; Menthol Crystals, one-half drachm; if you wish it perfumed, add half to one teaspoonful of To-Kalon Perfume, which unites perfectly with the other ingredients. This preparation is highly recommended by physicians and specialists, and is absolutely harmless, as it contains none of the poisonous wood alcohol so frequently found in hair tonics. Do not apply to the face or where hair is not desired. Read adv. headed C.P.R., Page 6.

Fit-Reform W. W. SHAW. HOW SKIN-TROUBLES HAVE BEEN CURED. A Remarkable Record of Itching, Burning, Disfiguring Eruptions—Successfully Treated. That those who have suffered long and hopelessly from eczema and other torturing, disfiguring eruptions of the skin and who have lost faith in all manner of treatment, may learn that there is one way to get immediate relief, the following remarkable series of condensed testimonials is published: W. H. White, 312 E. Cabot St., Philadelphia: Knee to ankle a mass of eruption. Suffering simply indescribable for six long years. Had to scratch till blood ran and health was undermined from lack of sleep. Cuticura Remedies cured it without a mark. Mrs. M. C. Maitland, Jasper, Ont.: Itchy rash on her baby's head when but three months old. It spread over entire body. Put mittens on him to prevent tearing skin. Reduced to a skeleton. One bath with Cuticura Soap and application of Cuticura Ointment soothed him to sleep. A single set cured him. Think child would have died but for Cuticura Remedies. Mrs. Wm. Hunt, 220 Fairmount Ave., Newark, N. J.: Whole body a mass of raw, torturing eczema. Apony was beyond words. Hair all fell out and ears seemed ready to drop off. Clothing would stick to bleeding flesh. Hoped death would soon end fearful suffering. Cuticura Remedies cooled the itching, bleeding flesh at once and soon cured her. Mrs. J. B. Renaud, 277, Metana St., Montreal: Treated by doctors 25 years for bad eczema on leg. It peeled from knee down; foot like raw flesh. Doctor advised cutting leg off. Decided to try Cuticura Remedies first. In two months' use of Cuticura Remedies she was cured. Mrs. Nora Emmott, 29, Lena Gardens, Brook Green, London: Two little girls had dreadful scalp trouble, that doctors called ringworm. Cured with intense itching. Hospital treatment gave frightful pain but did no good. Suffered three years, cured by three sets of Cuticura Soap and Ointment. H. A. Krutskoff, 6714 Washburn Ave., Chicago: Itching eruption spread from hands to body. Literally tore his skin off in places. Doctors and remedies did no good. Cuticura Soap, Ointment and Cuticura Remedies cured him quickly and cured disease. Frank Gridley, 325 E. 43rd St., New York: Head and neck itchy. He became raw from itching. Literally tore his skin off in places. Suffered agonies and could not lie down or sleep. Cured by Cuticura Soap and Ointment. Cured him in a single day. Mrs. Kate Brougham, 200 Dewey St., Bennington, Vt.: Rash came on her baby's face, head and body. He was a fearful sight and all attempts at cure were fruitless. Vastly improved in a week by use of Cuticura Remedies and soon skin was clear and healthy. C. J. Dance, 27, New Road, Brentford, England: Tortured for five years with bad skin disease. Attended hospital five months without success. Covered with eruption. No sleep nor rest. Put like tearing blisters to pieces with terrible itching. With first application of Cuticura Ointment was relieved and Cuticura Soap and Cuticura Pills cured him every where. Send to Potter Drug & Chem. MINISTERIAL ASS'NS MET YESTERDAY.
(Continued from Page 1)

epigrammatic language that compelled attention throughout.

The Rev. Thos. E. Hall, of Island Pond, who is well known throughout the Eastern Townships, followed with a strong paper on systematic giving.

The speaker in opening his subject referred to the waste of time and energy in raising money for the work of the local church as well as the various activities with which the Church is associated at home and abroad.

At times the pastor has to become a financial agent for securing the funds for the Church's work. The widely-prevalent present methods for raising funds are far from satisfactory in their results.

After all the efforts and all the methods resorted to the amount secured is not commensurate with the needs of the hour. 'You are always begging,' is a comment frequently heard upon appeals for funds for church purposes.

The burden is often borne by a few, relatively, in the churches. The blame for this state of affairs, the speaker contended, is largely with the minister, who fails to rightly expound the duty of Christian giving and to place it upon the high plane that it should occupy in the thought and practice of church members.

They fail often to set forth the divine law upon the subject, and have too frequently countenanced disgraceful methods for raising money. This law, the speaker maintained, was that of tithing, which, he said, was not peculiarly a Jewish law, for it was practised before the Mosaic legislation was promulgated and was also followed by

other nations of antiquity. Christ did not censure the religious leaders of his age for practising this law, but because they left other essentials undone. The first Christians, being Jews, did not need any instruction in this law, but carried it over into the life of the Church. Paul, instructing those who were not Jews, asserted that they should give as God had prospered them, and we may infer from the fact that Paul was a Jew he would not have it to be less than a tenth. The Biblical system seems to assume that those who follow it will be best in conforming to it, and this seems to be demonstrated to a remarkable extent. In dealing with the ways in which the system can be brought to the consideration of congregations the speaker urged its presentation by the minister from the pulpit and a thorough canvass of the congregation. The adoption of the system would simplify the problem of church support, provide sufficient funds for extension and mission work and would do much to bring about church union. In foreign missionary churches where this method has been adopted they have become self-supporting and able to carry on their work independently of the societies that founded them.

The speaker enforced his case with many practical illustrations and was particularly happy in his presentation of an intensely interesting subject.

Both papers were provocative of lively discussions, in which there was manifested a considerable difference of opinion as to details, but characterized by a pronounced unanimity upon the principles enunciated.

The Associations were very hospitably entertained by Principal and Mrs. Trueman. This is the second time that the meeting has been held at Stanstead by the two Associations and this year there was, at least, a very hearty and liberal reciprocity of spirit and ideas which no international legislation can affect one way or another.

OPENING OF THE NEW YORK-DENVER TELEPHONE LINE.
(Telegraph and Telephone Age.)

On the evening of May 8 the American Telephone and Telegraph Company gave an exhibition of the working of its new telephone circuit between New York and Denver, a distance of 2,011 miles. This new circuit marks a very important advance in the development of long-distance telephony. For a number of years telephone service between New York and Chicago and St. Louis, over distances of about 1,000 miles, have marked the practical limit of commercial long distance talking. By recent advances which have been made in the development of long-distance lines, this range has been extended to over 2,000 miles, as shown by the tests on the evening of May 8.

'I COULD NOT LIVE' WITHOUT 'FRUIT-A-TIVES'

Writes The Treasurer Of Caledonia Township

FENAGHVALE, ONT., Jan. 29th, 1910.
For thirty-five years (and I am now a man over seventy) I have been a terrible sufferer from Constipation.

No matter what remedy or physician I employed, the result was always the same—impossible to get a cure.

About two years ago, I read the testimonial of Hon. John Costigan regarding 'Fruit-a-tives' and I decided to give this fruit medicine a trial. I have used 'Fruit-a-tives' ever since. They are the first and only medicine that suited my case. If it were not for 'Fruit-a-tives,' I am satisfied that I could not live.

JAMES PROUDFOOT.
The liver controls the bowels by giving up enough bile to make the bowels move. The only possible way to cure constipation is to make the liver active and healthy and thus store up sufficient bile to move the bowels.

'Fruit-a-tives' acts directly on the liver—ensures an abundance of bile—and causes the bowels to move regularly and naturally. 50c a box, 6 for \$2.50, trial size, 25c. At dealers, or from Fruit-a-tives Limited, Ottawa.

ANNUAL MEETING OF Y. W. C. A.

Past Year Was A Successful One

OFFICERS AND COMMITTEES ELECTED FOR ENSUING YEAR.

The annual meeting of the Young Women's Christian Association was held in the Y.W.C.A. parlors. Reports of the work of the Association for the past year were presented by the various committees.

The treasurer showed a balance in hand of \$77.00. The classes in English and plain sewing have been carried on during the winter, but the attendance has been small. Several other women's societies have held their meetings in the parlor, as the home is in a central position and convenient to all parts of the city.

The travellers' aid still forms an important department of the Association's work. A number of young women and girls have been met at the railway station during the year. Many of these have been seen off by train to their destination and have been most grateful for the friendly assistance.

The report of the Auxiliary was given by the treasurer, Miss Mudd. This Auxiliary, composed entirely of the boarders, has been one of the most encouraging features of the work. The members have banded themselves to work for the good of other girls, with "Do it for the Y. W." as their motto.

They have subscribed for a woman's magazine for the house and have nearly paid for an up-to-date sewing machine, besides handing over a substantial amount to the treasurer as the proceeds of their Christmas sale.

The collection on the street cars, sale of waste paper, food, and rummage sales have been most helpful to the funds of the Association. By the annual linen shower the stock of table and bed linen has been nearly if not entirely provided.

What the Association chiefly needs now is an increase in the number of annual subscribers so that the directors may feel that a certain amount is assured in addition to that received from the house revenue and other sources.

The number of members is 65.

The following are the officers for the ensuing year:

Hon. President—Mrs. B. C. Howard.
President—Mrs. S. A. Jones.
1st Vice-Pres.—Mrs. Jas. Davidson.
2nd Vice-Pres.—Mrs. Dresser.
3rd Vice-Pres.—Mrs. McLeod.
4th Vice-Pres.—Mrs. H. D. Lawrence.
Treasurer—Mrs. J. H. Armstrong.
Recording Secretary—Mrs. Morehouse.

Corresponding Secretary—Mrs. McGillivray.
Convener of House Committee—Mrs. H. D. Lawrence.
Convener of Social Committee—Mrs. Dowlin.

Convener of Membership Committee—Miss Wilson.
Convener of Religious Committee—Mrs. Lord.
Convener of Educational Committee—Mrs. Dresser.

The directors wish to thank the many friends of the Association for the numerous gifts which they have received during the year.

Electricity As a Factor In The Cure of Diseases

It is to be understood that this does not aim to supplant surgical measures by electricity, but rather to use it as an aid in supplementary treatment as well as in the management of some special cases which otherwise could not be successfully treated.

There is much to our knowledge of its usefulness is increasing each day, yet there are a number of conditions in which it proves an efficient agent, and in some inoperable cases it is able to render much service and prolong life. It is especially useful in the after treatment of surgical work in restoring the tone of the whole system.

It has a two-fold effect upon animal tissues: CONSTRUCTIVE and DESTRUCTIVE. In mild dosage the constant current is STIMULATING, while with the stronger currents the action is DESTRUCTIVE. It is in this form that Dr. Massey and others have done so much excellent work in the destruction of malignant growths, cancers, tuberculous glands, bones, joints, ulcers, scrofulous glands and tumors, scirrhus, and especially in those cases where the knife was out of the question.

It will also give wonderful results in Paralysis, rheumatism, gout, neurasthenia, arterio-sclerosis, nervous dyspepsia, hysteria, anæmia, weakness in female and male, excessive monthly hemorrhages, internal and external hemorrhoids accompanied with bleeding, prostatic gland enlargement, etc., etc.

Last week, Mr. E. H. Sewell, local ticket agent for the C.P.R., received a message from the Head Office, Montreal, asking him to see Mr. Gleason and have him send in another of his students.

It is not a great tribute to the work of our College to have the head of a corporation like the C.P.R. write to us, over the heads of every college in Canada and ask for our graduates? Think it over. Write for our Catalogue. Our system can be taught by mail.

RHEUMATISM AND GOUT

Outcome of Sick Kidneys—Uric Acid Cause of Grinding Pains That Disturb Day and Night—Booth's Kidney Pills Remove the Cause

Backache, rheumatic joints and uric acid troubles follow in the train of sick kidneys.

There is no rest and but little peace for any person whose kidneys are out of order. Not only does backache keep up its dull throbbing day and night, but there are sharp twinges, cricks and stitches of darting pain, aching joints and sore, stiff muscles.

When the kidneys get congested and inflamed following a chill, a cold, grippe, fever, or from overwork, a fall or some injury to the back, they need a kidney tonic. Booth's Kidney Pills will quickly remove uric acid troubles—rheumatism, neuralgia, nervousness, sciatica, gout, weak eyes, headache, etc., resulting from the weakened kidneys failing to filter the blood free from uric poisons.

When sediment, thick and cloudy, or gritty as sand, appears in the urine, and passages are too frequent, too scanty or painful, there is danger of dropsy, Bright's disease, gravel, stone in the kidneys and diabetes.

Booth's Kidney Pills have brought new life and health comfort to thousands of sufferers from backache, kidney and bladder troubles. They are guaranteed by the proprietor to do all they claim

or they will refund your money.

BOOTH COMFORT.
T. E. Foster, of St. John Street, Fredericton, N.B., says: "I have found more actual relief from Booth's Kidney Pills than in all else I have ever tried for rheumatism. The pains in my limbs have lessened greatly and I am better and stronger than in years previous. My appetite has built up and I eat and sleep better than I have in over three years. My general health is greatly improved and I can credit this only to Booth's Kidney Pills."

DIZZY SPELLS.
Mrs. Edward Caldwell, of 123 S. Harwood Street, Fort William, Ont., says: "I suffered with dull, miserable pains, soreness across my back and in my sides for months. I would have dizzy spells and altogether felt generally run down. After using a number of remedies without finding relief I learned of Booth's Kidney Pills and am pleased to say found them an excellent remedy."
