MONTREAL.

The CITY of Montreal is situated on the River St. Lawrence, in the Island and County of the same
 name, and is the largest and most populous City in British America. It is an electoral district, return-
 ing two members to the Provincial Parliament, and the Courts of Law for the district are held here.
 Montreal is distant from Quebec, 180 miles—usual steamboat fare, 10s. to 12s. 6d.—usual stage fare,
 40s. to 50s.—distant from Kingston, 200 miles, usual steamboat fare, 20s.—usual stage fare, 35s.—dis-
 tant from Toronto, 390 miles—usual steamboat fare, 40s. to 45s.—and to Hamilton the same—distant
 from Bytown, 120 miles—usual steamboat and stage fare, 20s.—distant from New York, 420 miles—
 usual steamboat and railroad fare, 30s. to 40s. Those are the rates usually charged by the mail lines
 of steamers, stages, &c., for first class passengers, but during the period of navigation, there are almost
 daily opportunities of proceeding to Canada West, by comfortable and commodious steamers, at about
 one third less than the above tariff of charges. The population of the City, including the troops usually
 in garrison, is something over 50,000.

THE FOURTH ANNUAL MEETING of the COMPANY, was held on the 5th AUGUST, 1851, when a lengthened Report was read, which gave great satisfaction to all present. The following extracts will be read with interest:

The number of Policies issued in the year ending the 30th April, 1851, was 278, assuring £113,722 3s. 5d., and creating an additional income from premiums of £3,174 19s. 9d.: the excess upon the business of the preceding year being 45 policies, £9,980 8s. 10d. assurances, and £136 11s. 9d. income.

The business actually in force (all policies upon which renewal payments were due and unpaid having been cancelled) was comprised in 665 Policies, assuring £274,867 2s. 2d. upon 582 separate lives, two Annuity bonds, securing £160, and one Endowment bond for £100, the whole yielding an income, exclusive of the interest upon the invested means of the Company of £7,930 11s. 10d.

The Receipts of the Company during the period embraced by this report, have been, £14328 16 6
Balance on hand, 30th April, 1850, ... 10468 5 1

Total, ... £24797 1 7

And the Expenditure for the same period, ... £ 6664 11 9

Leaving a balance of 18132 9 10

£24797 1 7

Which was thus distributed:—

Interest accrued on investments to April 30, 1851, ...	177 1 9

£18132 9 1

The Company had been considerably over two years in existence before it sustained what is popularly but erroneously termed a "loss," and for the period embraced by the last Annual Report, but one "claim" by death matured, and that only for a trifling amount. During the past year three policies have become claims on the Company, covering the sum of £1650, all of which were paid upon the receipt of the required proofs of death and ownership, and without the delay provided for in the conditions of assurance.

In the preliminary valuation of the resources and liabilities of the Company, to ascertain the amount of profit available for distribution, the Board has continued the cautious system explained last year: that portion only of the income which arises from premiums having been included, and which represents the actual value of the risk undertaken by the Company.

In preparing the new tables, care has been taken to regulate them so as to secure to the assured in equitable proportions, the important advantage of the higher rate of interest at which this Company can make its investments. Thus the young assurer, who may reasonably look for long life, will find the new tables of this Company comparatively more advantageous to him than the assurer of increased age; for while the rates of the generality of British and American offices will be found on an average to exceed them from 6 to 10 per cent., at some of the earlier ages the excess is as great as 18 per cent.; so that a policy for £1180 could be secured in this Company at the same yearly cost as one for £1000 in another Company, without depriving the party assured of his right to share in the profits which even an average success must render equal to those of other Companies.

THE BOARD IN MONTREAL is invested with full powers to accept proposals, putting the Company on the risk, *at once*, without communicating with the parent Board.

This arrangement gives to the Colonial all the facilities of a company *essentially local*, and combines the additional advantage of a large guaranteed Capital.

HALF CREDIT SYSTEM.

The Company grants assurances on the following plan:—*Half* of the Annual Premium will be received for the first *five* or *seven* years, the remaining half, with interest, being chargeable as a debt on the policy, to be paid off when convenient, or, at the option of the assured, to be deducted at settlement of claim.

Assured are at liberty to pass from any part of North America to any part of Europe, *without extra charge*.

PROTECTIVE ASSURANCES.

WHOLE-WORLD LICENSE.

Persons accepting Life Assurance Policies as a security for Money advanced, generally run the risk of the party going beyond the limits of his Policy, and incurring a forfeiture. The COLONIAL COMPANY are ready to grant Policies, at a slightly increased rate of Premium, (varying from 5s. to 10s. per cent.), *covering the risk of a party proceeding to any part of the world at an after period*, provided always the Company are satisfied that the party has no *intention* of going to an unhealthy climate.

FREE AND UNCONDITIONAL ASSURANCES.

TABLE OF SINGLE & ANNUAL PREMIUMS FOR ASSURANCE OF £100.

The risk to commence on a child attaining Eighteen or Twenty-one years of age, with liberty to live in any part of the world. As all Premiums are compensated before the risk commences, the Assurance becomes a simple promise to pay, on the death of party, *unconditionally*.

TO PARENTS AND GUARDIANS.

The Endowment System of Life Assurance now adopted by the COLONIAL LIFE ASSURANCE COMPANY, cannot fail to be appreciated by those who wish to make provision for their children in after life. A young man, on attaining Eighteen or Twenty-one Years of Age, can have no more valuable gift or endowment than a Policy untrammelled by conditions and unburdened by payments of any kind.

Policies opened under the above scheme will be purchased by the Company at an equitable rate at any time after the Assurance comes into effect, namely, at 18 or 21 respectively, so that, if the Assurance is not required, the Policy has the effect of securing an endowment.

THIS INSTITUTION embraces important and substantial advantages with respect to Life Assurance and deferred Annuities. The assured has on all occasions the power to borrow, without expense or forfeiture of Policy, one half of the Premiums paid, also the option of selecting benefits, and the conversion of his interests to meet other convenience or necessity.

Assurances for terms of years at the lowest possible rates.

Persons insured for Life can at once borrow half the amount of Annual Premium without any security, beyond endorsement on policy which remains with the assured.

All claims arising in the Province settled without reference to the Court of Directors in England, on satisfactory proof of death being furnished to the Local Board at Montreal.

The following extracts from the Actuary's Report, submitted at the 12th Annual General Meeting in London on the 8th May, 1851, exhibit the present position of the Society:

"The affairs of the Society, calculated up to December 1st, 1850, may be stated thus:—

Amount of investments, together with present value of income from annual premiums, £1,030,882 14 0
Present value of liabilities on all assurances, annuities, &c., including paid-up capital, 926,821 17 2

Balance. £104,060 16 10

"Up to the end of the year 1850 the total number of policies in force amounts to 4,314, and the annual income arising therefrom to £63,590, covering assurances, including whole life, term, and miscellaneous policies, to the extent of no less than £2,072,688.

"The successful progress of the Society is plainly indicated in the following statement of the amounts of annual income on existing policies at the end of the respective years, viz:—

1846,		£39,747 15 1
1847,		42,749 3 3
1848,		45,103 2 4
1849,		54,496 15 2
1850,		63,590 8 4

The new business, from the end of the year up to the present time, amounts to 342 policies, assuring £177,209, and producing an additional income of £6,090 13s. 2d.

BY a constant analysis of its own experience from time to time, this Institution will adopt such rates of Premium as the nature of the risk may justify.

An annual investigation will be made into each class of risk, and a return of one-half the nett excess will be made to all classes of Insurers whose policies have been in force for three years.

The insured are free from the liabilities of a Mutual Insurance Society, and entitled, according to the plan of the Company, to a return of half the profits.

MONTREAL GRAMMAR SCHOOL,

46 St. Louis Street,

UNDER THE CARE OF

THE REV. J. A. DEVINE, A.M.,

Alum. and Grad., King's Coll. University, Aberdeen.

THE course of study pursued in this School, embraces the ordinary branches required for Mercantile Pursuits, as well as the higher departments of Classical and Mathematical Learning.

The immediate province of Education being the formation of suitable Moral and Intellectual Habits, rather than the mere memorial accumulation of facts, due attention is paid, both in the classification of the Pupils, and in the direction of their Studies, to this primary object, and it is deemed necessary to recommend, on all fitting occasions, the fear of God and the love of our neighbour, as the only safe foundation on which learning can rest.

A List of References to Parents whose sons have made most creditable proficiency in their Studies during their attendance at this School, may be had on personal application.

Private Lessons in Book-keeping, Rhetoric, Logic, Mental and Moral Philosophy.

N. B.—Pupils belonging to the Classical or Mathematical Department, are at liberty to pursue any branches in the Senior English Class, *without extra charge.*

Fees payable quarterly in advance.

Arrangements have been made for the reception of a limited number of Boarders, to whom every attention will be paid. Terms made known on application.

ALEXANDER FLECK,

St. Peter Street, Montreal,

CALLS the attention of Agriculturists to the following list of **FARMING IMPLEMENTS** which he keeps constantly on hand, manufactured under his own inspection, and made of the best materials :

SCOTCH PLOUGHS,
DRILL HARROWS,
SCUFFLERS,

DRILL PLOUGHS,
ARCHED and ANGLED
HARROWS,

CHEESE PRESSES, Ayrshire
Pattern, and the Patented Im-
proved SUBSOIL GRUBBER.

He refers the reader to the following letter relating to the SUBSOIL GRUBBER.

ORMSTOWN, 15th March, 1850.

DEAR SIR,—I promised when I purchased the Subsoil Grubber from you, that I would send you a statement of its performance, as soon as I had finally tested it. You know that farmers are more ready to use an implement, and put its merits to a practical test, than to write essays; but I have been so fully satisfied with the experiments I have made, and with the value of the Grubber, as an implement so essential to the proper cultivation of the soil in a climate like ours, that I feel I would not only fail in my promise to you, but also in my duty to my brother Agriculturists generally, if I did not send you a statement, embodying the result of my experiments, and also of my opinion as to its uses and adaptation. I have used the Grubber for many of the purposes to which it may be applied—in all of which I have found it an implement highly worthy of the attention of Agriculturists. In spring, upon land which has been ploughed in the fall for summer fallow, and for tearing up and destroying twitch-grass, it has fully exceeded my expectation; it can be used much earlier than the common plough, opens the soil to a much greater depth, will do the work of six ordinary ploughs, and leaves the soil so fine as to save an immense quantity of labor in harrowing for summer fallowing and subsoiling. I find it the most valuable implement yet brought into use in Canada. Indeed I think that no farm is complete without a Grubber, which, where cultivation is carried on on a large scale, will pay itself in one season, by the saving it will effect in the labor, to say nothing of the superior preparation of the soil. Two horses are sufficient to work the Grubber, except where there is a very stiff clay soil, it may be necessary to put on a third one. I am, dear sir, your obedient servant,

GEORGE CROSS.

FIRE ENGINE AND HOSE FACTORY.

PERRY, GEORGE, 124 Craig st. See card.

MONTREAL FIRE ENGINE MANUFACTORY,

124 CRAIG STREET.

The Proprietor would intimate that he does not intend pegging along as usual, but on the contrary, intends to keep pace with the times, and will, accordingly, keep on hand and for Sale, Small PORTABLE FIRE ENGINES (on wheels), warranted the best article of the kind in Canada, varying in price, according to size, viz. ; £6, £12 10s., £15, £20, £25, and upwards. Also SUCTION, Portable, from £25 to £75, complete, with Copper-rivvetted Hose, and made to order. First-Class Fire-Engine, from £75 to £350. Hose, Reels, Suction and Leading Hose (Oak-Tanned Leather).

The Subscriber feels confident that the Engines made by him will give satisfaction, as they are always constructed of the best materials to be found in the Province ; and it is now universally known (or should be so), that the Engine which he sent to the great Exhibition in London, beat every thing in the shape of a Fire-Engine with which it came in competition, and, no doubt, the very best in England were opposed to his. At the trial in London, Perry's Engine discharged 6 quarts of water per man, each minute, more than the best working English engine opposed to it.

All Orders punctually attended to, and numerous references to parties who have used the Engines can be given.

GEORGE PERRY.

CHURCH

PARLOUR
ORGANS

OF ALL SIZES

AND DESCRIPTIONS.

HARMONIUM

ORGANS,

SERAPHINES,

ÆOLOPHONS,

AND

Piano Fortes.

INDIVIDUALS and Societies who are desirous of supplying themselves with Instruments of the above character, warranted to be of superior construction, and beauty of design, will find it to their advantage to call at his Establishment and examine, and judge for themselves. Twenty-nine years of experience and careful study in his Profession have enabled him to successfully contribute to the various improvements already made in the construction of the Organ and Piano Forte. His extensive and long established Manufactory, is now supplied with the best materials, and most experienced workmen; and he is thereby enabled to compete with similar establishments in this Country or in Europe.

He would call the attention of musical people in small Towns and Villages in the Country, where they are not prepared to purchase large Organs, to his Harmonium Organs, Seraphines, and Æolophon's, of all sizes, at very low prices; and well adapted for their use, being less liable to get out of order and tune, (in the perfection they are now brought to,) than either the Organ or Piano Forte. The larger sizes of these Instruments, having from four to nine registers, give a great variety and combination of tones; and there are but few churches in the country that they are not capable of filling, while the smaller sizes make an excellent and pleasing Parlour Instrument.

Orders from the United States, and from all parts of Canada will be promptly attended to. Instruments repaired and tuned at the shortest notice.

Steam Soap and Candle Works, Inspector Street.

CRANE'S PATENT PREMIUM LABOUR-SAVING SOAP.

To this Popular and Celebrated SOAP was awarded the First Premium and a Diploma over all other competitors at the NEW YORK STATE FAIR held in Albany in September last; but the best testimonial in its favour is the personal experience of those who use it. All say it is the most effectual, safe, time and labour-saving preparation ever introduced. There are none of the deleterious articles in this Soap which are used in the miserable fluids, powders, and imitation labour-saving Soap, so forced upon this community, and which are calculated to destroy the texture of the Clothes washed with them, but the Chemical Preparation of this Soap is perfectly healthy, and is warranted not to injure the finest fabric.

Owing to the increased demand, the PRICE has been REDUCED. Each bar is stamped with the Manufacturer's name.

Sold Wholesale and to the Trade only, at the Manufactory, and at the Stores of

C. BOCKUS, 216 St. Paul Street.

ESSENCE OF COFFEE.

THE Subscribers would respectfully inform the Public of CANADA and the UNITED STATES, that they have now perfected their arrangements and Machinery, for the manufacture of that truly delicious and refreshing beverage, which they have, for the first time, introduced upon this Continent,

THE ESSENCE OF COFFEE.

This article, which is manufactured by them in Montreal, under the direct superintendence of the original inventor, **Mr. Fulton**, is produced from the very purest Java and Mocha Coffees, and is so concentrated, both as regards strength and sweetness, that all which is required to furnish a most excellent cup of Coffee, is to add two teaspoonsfull of the Essence to an ordinary sized breakfast cup, and fill up with boiling water.

The Essence of Coffee will be found peculiarly advantageous to Hotel Keepers, as it furnishes at all times, the very best description of beverage, without a moment's loss of time, and it is well known, that Coffee made in the ordinary way, and allowed to stand for any considerable length of time, loses in a great degree, both its refreshing and aromatic qualities. Travellers, also, who are about to visit the less frequented portions of the country, will find it to conduce greatly to their comfort, to carry a case of the Essence of Coffee with them, as they will require only a little boiling water, (which article at least can always be obtained,) to furnish themselves with the required refreshment, a desideratum which will not be overlooked, nor thought lightly of, by those whose experience in travelling has been acquired out of the ordinarily frequented routes.

On the above grounds of usefulness, convenience and comfort, to which may be added the fact of the article being one of **Home Manufacture**, the proprietors are induced to hope that it will come into extensive use in the Province, and will be at all times prepared to furnish it to order in any required quantities at wholesale, at their

Office, Common Street. Canal Wharf, Montreal.

N. B. A liberal discount made to the Trade in Town and Country. Numerous certificates of the excellence and salubrity of the article which they furnish, from parties of the highest respectability, and standing, Medical Men and others, the British and Canadian Press, &c., can be seen at their office.
