

ESTABLISHED 1764.

AIDED PRISONERS TO BREAK GAOL

Was Shot in Leg by the Police

DESPERATE CRIMINAL

Was Recaptured After Helping Six Others to Saw Their Way Out of Prison.

Binghamton, N.Y., Sept. 18.—After aiding six other men in escaping from the Broome County Jail this evening, Charles Carter, said to be one of the worst criminals in the country, was shot in the leg at Apalachin late to-night, and recaptured. Four of the other six men were captured, leaving two still at large.

Carter is supposed to have saved the bags of one of the cells, letting out with himself six other prisoners. They then pried the bars of a window apart with a piece of pipe which they sawed from the jail plumbing, and all of them jumped to the ground through the hole thus made.

The men who escaped were all being held for the grand jury, or are under indictment. Their names and the charges on which they are held are: Charles Carter, under indictment for burglary and grand larceny; Carter, June, escaped from a Detroit, Mich., sheriff who was taking him to the penitentiary at Jackson, after he had been convicted of horse stealing, Peter Burke, petit larceny; Charles Massett, larceny; Harry Ferguson, James Burke and Charles Simmons, burglary, and Irving Case, grand larceny. The two Burke boys are still at large.

Case gave himself up early in the evening and returned to jail. Simmons and Ferguson were captured at 9 o'clock, two hours after the escape. In the eastern part of the city. Shortly before midnight, a county deputy saw Carter and Massett on a freight train at Apalachin, 15 miles west of this city. They attempted to escape and the deputy shot Carter through the legs and captured both men.

FATAL R. R. WRECK

Smash Up on Grand Trunk Results in Death of Brakeman.

Montreal, Sept. 18.—One man was killed and another seriously injured in a freight train wreck on the Grand Trunk at Vaudreuil bridge to-night. James Robertson, brakeman, is the name of the man killed and the other is unknown and not an employee of the road. One of the cars fell from the bridge into the river and the road was blocked for some time.

OTTAWA NOTES

Ottawa, Sept. 18.—In August the receipts for the Intercolonial Railway were \$859,000 or \$55,000 more than the year before.

The fall term of the Supreme Court will open October 1st and forty appeals are down for hearing.

LOCK-OUT OF BOILERMAKERS

London, Eng., Sept. 18.—Some fifty thousand members of the boilermakers' society will be locked out October 5th. Notices to that effect were posted to-day by the shipbuilders' federation. The men affected are employed chiefly at the east coast ports, at Barrow and on the Clyde.

FOUND A WILD WOMAN

Ottawa, Sept. 18.—Prof. Macauley, of Harvard, who has come here after having spent a few weeks in the country surrounding Blue Sea Lake and Manitowish, up the Gatineau River, not many miles from Ottawa, on the Quebec side, brings a strange story of a woman roaming wild in the forests of that district. Prof. Macauley says that while hunting in the woods a rush and scurry in the undergrowth caused him to quickly turn, and to his surprise the face of a woman, tanned to a dark brown by exposure and framed by masses of dark coarse hair, peered at him from the shadows. The hunter quietly approached her, but before he could speak she turned and fled.

MAY RENEW STRIKE

St. Louis, Mo., Sept. 18.—To-day's session of the International Association of Machinists' convention was occupied with the discussion concerning the likelihood of renewing the machinists' strike on the Grand Trunk Railroad of Canada. The Railroad Company reported in favor of repudiating the agreement that terminated the strike. It was decided to refer the matter to the International President and the general executive board. A thorough investigation of the grievance was ordered. Hugh Doran, chairman of the executive board stated that, if the investigation develops that the railroad is not living up to its agreement as reported by the Canadian delegates the strike will be renewed.

BISHOP OF LONDON

Visited His Brother in Aylmer, Ontario, Yesterday—Address in London.

Aylmer, Ont., Sept. 18.—The Lord Bishop of London, Dr. Arthur F. Winnington Ingram, arrived here to-day at 3.30. He was met at the depot by a number of prominent citizens who extended a hearty welcome. He was driven in a motor car to the home of his brother, Mr. F. W. Ingram, at Grovesend, where he will spend the remainder of the week. Dr. Ingram's first appearance in public will be at Mr. F. W. Ingram's home, where he will address a number of his brother's guests. On Sunday the Bishop will preach in Trinity Church at 11 and be present at the evening service when the Rev. Canon Cody, of Toronto, will preach. He will leave Aylmer on Monday morning for Washington to visit President Roosevelt.

London, Ont., Sept. 18.—Bishop Ingram was the guest of honor at noon to-day at a luncheon given by the Canadian Club and delivered a very stirring patriotic address. The affair was one of the most brilliant yet held by this club. Over two hundred were present, among them practically all of London's most representative men, lay and clergy. Geo. C. Gibbons presided. At the head table sat Mr. Gibbons, Bishop Ingram, Bishop Williams, Rev. Dr. Ross, Rev. Jas. Livingstone and Mayor Judd. Many visiting Anglican clergymen were also guests of the Canadian Club. Other visitors were present from Toronto, St. Thomas, Stratford, Aylmer and other places.

PATRIOTIC COURT FALLS

The Hague, Sept. 18.—The plan for the organization of a permanent court of arbitration which has been under the consideration of a special committee has failed to pass. A final strenuous effort was made to-day to reach an agreement in the matter of the selection of judges but it proved futile. Joseph H. Choate offered another American suggestion for the election of the fifteen judges by direct vote of the governments but this was defeated by nine votes to five.

G. M. A. INSURANCE

Toronto, Sept. 18.—Insurance Manager Heaton, of the Canadian Manufacturers' Association, will go to Ottawa on Friday to apply for the two licenses required by the association's mutual fire companies. The \$100,000 dividend is ready for the Government and it is expected that the Government will accept the dividend in the amount of about \$150,000. The dividend aggregate \$8,000,000 and applications are coming in daily.

VISITED U. S. PRISONS

Toronto, Sept. 18.—The prison labor committee of the Legislature, consisting of Hon. Mr. Hanna and Messrs. Downey, Macdonald, Bagnall and Patterson, have returned from a visit to penal institutions at Detroit and Jackson, Mich., Cleveland, Mansfield, Ohio and Chicago. Later a number of places in the Eastern States will be visited by individual members of the committee. The report of the committee will not be made public until it is in its completed state.

The only men who don't waste a good deal of their money are those who haven't it to waste.

RIOT IN MAURITIUS

Paris, Sept. 18.—A Mauritius despatch states that a certain agitation is brewing among the inhabitants of French origin. Those people are reported to have adopted the motto "Mauritius for the Mauritians," and to have declared that most of the important official positions on the island must be given to natives and not to Englishmen. At a meeting of the Legislative Council, the Governor of the colony was asked to explain why a native had not been appointed Receiver-General. At another meeting, Mr. Alexander, an Englishman, having complained of an insolent reply given by one of the members to the Governor, he was attacked and forcibly put out of the Legislative buildings by some members of the council. A howling mob assembled around the Governor's residence and refused to disperse, even after being threatened with a volley from the troops.

U. S. CURLING CLUB

New York, Sept. 18.—At the annual meeting of the Grand National Curling Club to-day formal protest was lodged by the Van Cortlandt Curling Club against the award of the Dewar Cup to Utica, which won it at Hoboken last February. After hearing the evidence the executive committee threw out the protest and awarded the trophy to Utica. The committee on medals arranged the following contests to be played during 1907-1908: St. Andrew's vs. Empire, Albany; St.istles vs. Utica; Terrace City vs. Boston; Yorkers vs. Empire, Manhattan; Caledonian vs. Van Cortlandt; Brookline vs. Tuxedo; Van Cortlandt vs. Wilkes-Barre; Newark vs. Jersey City. These officers were elected: J. A. Lehman, Albany, President; Thomas J. Watt, New York, First Vice-President; James Buchanan, Boston, Second Vice-President; George W. Peeme, Yorkers, Treasurer; F. Dykes, Hoboken, Secretary.

PUBLISHERS ALLEGE ILLEGAL COMBINE

Artificial Stimulation of Prices of Paper

WANT TARIFF ABOLISHED

On Printing Paper and Wood Pulp Imported into the United States from Dominion of Canada.

New York, Sept. 18.—At a special meeting here to-day, the American Newspaper Publishers' Association instructed its committee on paper to bring to the attention of the President and Department of Justice information concerning an alleged unlawful combine of paper manufacturers that has resulted, it was claimed, in an artificial stimulation of prices in newspaper stock. The association also went on record as in favor of the immediate repeal of the tariff on printing paper and wood pulp imported from Canada. This sentiment was expressed in resolutions which further provided for an assessment upon the members to defray the expenses incurred by the association in assisting the Government in any prosecution of a combine that may be undertaken.

The adoption of the resolution followed several hours discussion of a report submitted by Don C. Seitz, of the New York World, John Norris, of the New York Times and Conde Hamlin, formerly of the St. Paul Pioneer Press, who constitute the committee on paper. The resolutions concerning the alleged combine follow:

"In view of the information submitted to the American Newspaper Publishers' Association by its committee on paper, indicating that unlawful combinations of paper makers have been organized recently; that artificial stimulation of prices has been accomplished, and judicial prohibition of such efforts has been disobeyed.

"The American Newspaper Publishers' Association hereby instructs its committee on paper to invite the attention of the President and demand justice against these movements which we regard as conspiracies in restraint of trade and we give these instructions to the committee in order:

"That the authority of the statutes for repression of trade combinations may be invoked;

"Second—That the demand of recent judicial action prohibiting participation in such combinations by certain Western mills may be punished;

"And that the President of the United States may be put in possession of information which will equip him to advise Congress of the abuse of tariff powers by paper makers."

After the applause that greeted the adoption of the foregoing had subsided the following was introduced and passed: "Resolved: That the membership of the association pledges themselves to an adequate assistance for legal counsel and other expenses in assisting the Government in any prosecution that may be undertaken, and that the executive committee be instructed to gather information and raise such funds as may be required by assessment according to the tonnage or linotype machines as the committee may elect."

By another resolution President Ridder was empowered to increase the committee on paper from three persons to nine.

On the tariff as it affects the cost of newspapers the association declared: "Resolved: That it is the sense of this meeting that the duty on printing paper, wood pulp and all material entering into the manufacture of printing paper be immediately repealed.

The association adopted another resolution, thanking the International Typographical Union for its support, and asking for its continuation and of other labor organizations.

A communication was received from a labor organization, said to be the Telegraphers' Union, and was referred to a committee.

To-day's meeting was called by the President, Herman Ridder, publisher of the New York State Zeitung, and it was said that should the paper situation become acute in the near future another special meeting might be called.

CHEATED JUSTICE BY SUICIDE

Norfolk, Sept. 18.—Before he could be apprehended at the request of North Carolina authorities, Joseph Harrison, of Currituck County, North Carolina, shot and probably mortally wounded himself late to-day at a hotel here. Harrison was convicted of abducting a young son of State Senator Beasley of Currituck. The child was never found. Harrison appealed to the Supreme Court and yesterday was denied a new trial.

COLLISION TO BE INVESTIGATED

Toronto, Sept. 18.—Judge McMahon and the grand jury at the assizes at Whitby, commencing on Sept. 23rd, will have as part of the business an investigation under several indictments of the head-on collision which took place at Myrtle station, on the C.P.R., on March 23 last. The conductor of the eastward bound train, J. P. Cook, was committed for trial for neglect of duty under the criminal code by the police magistrate. The Attorney-General, however, has thought proper to direct several other indictments to be preferred against other persons and has appointed Mr. Frank Arnold, K.C., to conduct the prosecution.

ACCUSED OF FRAUD

Fourteen Warrants Issued for Defendants Involved in Scandal.

Harrisburg, Pa., Sept. 18.—The long expected arrest of those held to be responsible for frauds committed in the furnishing and decoration of Pennsylvania's \$3,000,000 Capitol were made to-day, the Attorney General causing warrants to be issued for fourteen of the eighteen persons and firms blamed by the Capitol Investigation Commission as being involved in the scandal. Nearly all of the defendants who had been notified by the Attorney General of the action that he had taken appeared during the day, waived a hearing and gave bail for their appearance in the Dauphin County Court. Several were unable to appear because of illness and will make their appearance later.

The principal defendants were held in \$50,000 bail which was furnished in every instance by surety companies. All the defendants are charged with conspiracy to defraud the state by making false invoices which were approved by Heston and Staumaker. Charges of obtaining money by false pretenses were also entered against Sanderson, Congreman Cassel, Payne and Wetter, it being alleged that they furnished fictitious bills for a greater amount than they were entitled to receive under their contracts.

ELEVEN KILLED

As Result of an Employee's Gross Neglect of Duty.

San Antonio, Sept. 18.—A despatch from Toluca, Mexico, says:—Neglect of duty on the part of an employee resulted in the death of 11 persons, probably mortal injury to three and serious injury to nine, others yesterday through the explosion of a boiler in the Ferrer factory at Asoradero. The authorities, after an investigation declared that the explosion was due to neglect of an employee in allowing surplus steam to escape.

NEW ZEALAND'S TARIFF

Christ Church, New Zealand, Sept. 18.—The new tariff bill has passed the House of Representatives. Premier Ward states that preference has been granted to Great Britain on 65 new items, amounting to a reduction of from 10 to 20 per cent. On duties paid by foreigners, forty-eight items previously on the free list are subjected to duties. Britain gets a preference on these.

London, Sept. 18.—The Daily Telegraph's Melbourne correspondent states that Premier Deakin's Cabinet is recasting the tariff, and where the duties industries it is expected they will be materially reduced. As the Ministers are not seeking revenue it is certain the preference will be adhered to.

BALLOON SQUAD ORGANIZED

Washington, Sept. 18.—The signal corps of the army has organized a balloon corps of nine men under Captain Chas. De F. Chandler, who has been detailed for some time on this work. It is planned to make several experimental ascensions from Washington within a few weeks. Later it is intended to conduct experiments at Omaha, where the signal corps has a depot, and where special arrangements are being made for the manufacture of compressed gas to be used in balloons. Army officers respecting the use of balloons in time of war. Some of them think their advantage will be limited and that they can be used only under peculiar conditions which would afford the enemy no opportunity to use the balloon of a foe for a target or indicate the location of troops against which they may fire. At the same time it is realized that military ballooning has its value, and it is proposed to ascertain in a practical way all that may be learned from the system.

5 PER CENT DISCOUNT FOR CASH

The Quebec Chronicle

QUEBEC, SEPTEMBER 19, 1907.

THE BULL IN THE CHINA SHOP.

The speeches which leading Liberals in the Province of Quebec have been favoring the public with of late, form very interesting, if somewhat perplexing reading; perplexing, because the orator of one day asserts that he is the true exponent of provincial Liberalism, and the orator of the next day ridicules his predecessor's pretensions, and claims that he is the real Simon pure. "There, my little dears," said the many peep-show man, "you see Napoleon Bonaparte on his white horse at the battle of Waterloo, and there you see the Duke of Wellington on 'a white horse.' 'Vich is Napoleon Bonaparte and vich is the Duke of Wellington?' 'Vichever you likes, my little dear, you pays your money, and you takes your choice.' There is a similar fine uncertainty about Mr. Gouin and his party, and Mr. Bourassa and his, and perhaps the best thing to do is to compromise the matter and say with Mark Antony, "So are they all; all Liberal men," in which case the certificates of character which the leaders give one another are decidedly instructive.

On the whole, Mr. Bourassa seems to be getting the best of the controversy, even on the testimony of his opponents. Mr. Weir likens him to a bull, "a very useful animal in his place," says the Minister of Public Works approvingly, but he is out of place when he butts into provincial politics where he is decidedly not wanted. A bull has no business in a china shop, where the goods are fragile, and will not stand rough handling, and the Gouin ministry is the china shop in this case, and Mr. Bourassa the bull; if he cannot be induced to go away quietly there is certain to be a smash-up of some sort, and that would be very deplorable, from the point of view of the Minister of Public Works. Mr. Bourassa, says Mr. Weir, almost with tears in his eyes, was a very tame and orderly bull up at Ottawa, where he introduced no bills, and attended no committee sittings, and where he could do no damage, because the Cabinet there was composed of sun-dried bricks, glazed and hardened, that nothing short of an earthquake could shatter, and that could not be depreciated in value, however, much they were chipped, but the Quebec Cabinet is composed of much frailer materials, and has such a delicate reputation that it can be very easily damaged.

Now, it seems to us that when Mr. Weir likens himself and his associates to the war in a china shop, very beautiful, no doubt, but also very fragile, and Mr. Bourassa to the clumsy bull that has blundered in among them, and threatens to do incalculable damage to them, he is really giving his case away. He may not have meant it, but that is what he has practically done.

A CONVENIENT DOCTRINE.

The Ottawa Free Press is moved with a deep admiration for the courage of the Minister of Justice, and his delicate appreciation of the fitness of things. That Mr. Aylesworth possesses courage of a certain kind, though most people would call it by the more vulgar name of cheek, is no new discovery, and will readily be admitted by all, but that his sense of propriety is acute is news, and quite contrary to the idea entertained of him by many of his friends who have been busily engaged for some time past in apologizing for his improprieties on the ground of his political youth and inexperience. Our confrere says:—

The Minister of Justice has been roundly condemned by the Opposition press because, in his speech at Dundas last week, he ventured to point out that the conduct of the Conservative campaign in Halifax in the general elections of 1904 was largely at variance with the professions of purity now enunciated by the Opposition leader. He has been charged with abuse of his high office and with using his position as a Minister of the Crown to "utter slanders" against a political opponent, and has been challenged by Mr. R. L. Borden to repeat the charges in his presence.

Mr. Aylesworth's answer is a characteristic one:—"I will meet him in public. I am ready to meet him at any time. I am ready to meet him on the floor of the House of Commons."

That ought to dispose of the charge of the Conservative press. The proper place to have a discussion of the grave issues involved in the electoral operations at Halifax is the House of Commons, and if Mr. Borden and his followers will but possess their souls in patience until the meeting of Parlia-

ment they will have all the discussion they want.

Mr. Aylesworth, like a prudent general, has chosen his own battle-ground. He professes to be ready to meet Mr. Borden in public, and he was given the opportunity of doing so during that gentleman's tour in Ontario, though, for some occult reason, he did not choose to avail himself of it, but will meet him on the floor of the House of Commons, where a tame majority will support him in pursuing the same professional browbeating tactics which he used on the occasion of the appearance before the bar of the House of a journalist charged with slandering Mr. Aylesworth's bete noire, Mr. Foster. He will not meet Mr. Borden on the public platform, but rather on the floor of the House where he can repeat with impunity his election slanders, and in this he is supported by the Free Press, which has discovered that "the proper place to have a discussion of the grave issues involved in the electoral operations at Halifax is the House of Commons."

This is a very convenient doctrine for Mr. Aylesworth and his backers, but we beg most respectfully to dissent from it. The proper place for the discussion of the grave issues involved in the electoral operations at Halifax, or at any other place, is the electoral court where witnesses can be heard on oath, and made responsible for what they say. Mr. Aylesworth, or rather Mr. Aylesworth's friends, had the opportunity for two years and a half of bringing the charges which Mr. Aylesworth repeats at second or third hand against Mr. Borden, and for two years and a half they have systematically evaded doing so.

GROWTH OF CORRUPTION.

For sheer sophistry the attitude of Mr. Sifton's organ towards electoral corruption is matchless. The sophist is a dealer in half truths, and is most highly dangerous to the community. Because, being without ethical principle himself, he cannot conceive of its being the possession of anyone else. An examination of the organ's argument will expose its sophistry.

The first part of the argument is that political corruption has always existed, and is likely to continue, and that it has been recognized by political philosophers as inseparable from the game of politics. Quite true. The motive towards political corruption is, unfortunately, a strong one. So is the motive towards theft and other crimes amongst many. But the fact that we have had theft and other forms of crime always with us, would hardly be advanced as a reason for abolishing our courts and police force.

Society recognizes an obligation to prevent crime and minimize its effects as much as possible. The second part of the argument is that the Conservative party is just as big a sinner as the Liberal party, and that therefore R. L. Borden is preaching an ideal virtue which neither he nor his party can practise. That entirely evades the point of his accusations against the government, and ignores the direction of his policy. He is preaching no ideal virtue. He is advocating legislation, to minimize corruption, and is pledged to the strict carrying out of the laws he passes. He accuses the Liberal party of having condoned corruption and screened corruptionists. His accusation is made in deadly earnest, and it is true.

Mr. Borden might, with justice, go very much further. Upon the Liberal party lies the dishonor of having reduced corruption to a science. Before 1896 corruption there was to a certain extent. It was not the ruling principle of a government. The Conservative party always had definite principles on which it appealed to the electorate. The Liberal party has not. Its sole object appears to be to administer the great and growing wealth of Canada to enrich its friends. Those who desire this kind of enrichment provide the reptile fund, which alone keeps the government in office. Thus the country is in the grip of a vicious system which is becoming intolerable, and has already so debauched public opinion that articles like that in the Siftonian organ are possible.

Mr. Aylesworth has retorted upon Mr. Borden that all he asks for is contained in the present law. Mr. Aylesworth is a very clever special pleader; but he should really be lawyer enough to know the serious danger of proving too much. If, as he says, the law is sufficient as it stands, he merely shifts the onus upon a scandalously cynical administration which has made a dead letter of the law.

The country will not be withheld from entrusting Mr. Borden with the power to carry out his programme of practical reform by any fine spun sophistries about the universality of corruption, or the imperfection of Conservative. Prevention and punishment directed impartially against all corruptionists, Liberal or Conservative, those are Mr. Borden's aims.

PRESS OPINIONS.

THE DICTATOR.—Pretty nearly anything Ottawa ministers may do is bound to be defended by the hardshell Liberal press; pretty nearly any expedient that Sir Wilfrid Laurier may have recourse to, elicits his hysterical admiration. The Montreal Herald, which is controlled by the Minister of Agriculture, rejoices hugely over what it calls "the rare courage" of the Prime Minister in passing over his vet-

FURRIERS

BILLY ARMSTRONG

Has Been Appointed Boxing Instructor of the M.A.A.A.

Montreal, Sept. 18.—At last night's meeting of the board of directors of the Montreal Amateur Athletic Association "Billy" Armstrong was appointed to the position of boxing instructor at the association. The directors have had the appointment of a new instructor under consideration for some weeks and had many applicants for the position. They were anxious to obtain the best man possible to fill the vacancy made by the retirement of Alf. Bennett and took their time in making a decision. Mr. Armstrong was the unanimous choice of the directors.

Mr. Armstrong, or as he is known to thousands of local sporting men, "Prof. Billy" Armstrong, has conducted a private boxing class in the city for several years and is well known in local athletic circles. He came to the city a number of years ago from California, where he attained no little fame as a light-weight boxer. After conducting a private gymnasium, where he taught the boxing art to all and sundry for several years "Billy" was appointed trainer for the Quebec hockey team and divided his time between Montreal and the Ancient Capital.

Armstrong has a great reputation as a teacher of the many art. He has had many of the most prominent men in Montreal as his pupils during the time he has been running his private gymnasium or "boxing barn" as he sometimes calls it—and has taught the youths of some of the leading families how to use their "grub" in an argument. To the members of the M.A.A.A., he is known through his connection with hockey and other sports and the members of the boxing class will need no introduction to their new instructor.

Armstrong, in addition to being a clever instructor, has a genial manner that makes everyone his friend. While it is his theory that hard hitting should be learned as well as the scientific end of the game, he is kind and courteous to all with whom he comes in contact and is a thorough gentleman in every respect. The choice of the directors of the M.A.A.A. will very likely prove a wise one and under the care of the new instructor it is likely that the boxing class will have a successful season.

HARRY TOLEDO

of Toledo and Price, at Bennett's this week. The seemingly difficult feat performed by the above gentleman is nothing less than marvellous and should be seen to be appreciated.

GUILTY OF NEGLIGENCE

Guelph, Ont., Sept. 18.—Engineer M. B. Reid, who was concerned in the fatal wreck which occurred at Gourock a year ago, was today found guilty of negligence and will receive sentence to-morrow morning. Evidence given was largely a repetition of that given at Conductor Thompson's trial.

WARRANTS FOR MILLIONAIRES

Boise, Idaho, Sept. 18.—A warrant was today issued for the arrest of Sumner G. Mason and James L. Barber, of Eau Claire, Wis., millionaires officers of the Barber Lumber Company, and Horace S. Ward, of Burlington, Conn., indicted for conspiracy to defraud the Government. They were indicted with Senator Borah and others. They will be brought to Boise at once to answer the charges.

A HAMILTON WEDDING

Hamilton, Ont., Sept. 18.—At McNab Presbyterian Church this afternoon Miss Lucie Hope Turner, youngest daughter of Mr. Alexander Turner, of the firm of James Turner & Co., wholesale grocers, became the bride of Mr. Henry Arnold Burbridge, of Winnipeg, eldest son of Mr. Justice Burbridge, of Ottawa. The ceremony was performed by Rev. Dr. Fletcher, assisted by Rev. Beverley Ketchen, pastor of the church. The bridesmaids were Miss Southam and Miss Stinson, of this city, Miss Burbridge, of Ottawa, and Miss Strang of Winnipeg. The groomsmen were Mr. F. M. Burbridge, of Ottawa.

WOMAN DECLARED NOT GUILTY

Waltham, Ont., Sept. 18.—The jury in the case of Agnes Thomas, charged with killing Philip Gilbert on the night of August 20th, brought in a verdict of not guilty to-day and the woman thereupon was discharged. The three Lanceter brothers, John, William and Walter, found guilty of rioting the same night, this having led to the shooting of Gilbert, were each sentenced by Sir William Mulock to eight months in the Central Prison. Mrs. Thomas burst into tears when the jury, after an absence of two hours, returned with their verdict of "not guilty," but she soon recovered and smiled as she disappeared from the dock. She subsequently left town for London. Her destination is unknown.

LISTEN TO THIS

Thousands Will Benefit if Statement Made is Only Partly True.

It may be that some persons will be inclined to doubt the statement made by an eminent authority, at a recent meeting, that with a mixture of dandelion, kargon and sarsaparilla, he would give prompt relief to any sufferer of rheumatism or the usual forms of backache, caused by inactive, clogged kidneys, yet many cases of long standing that had been entirely relieved were cited to prove the truth of his assertion. The same authority further stated that many cases which failed to yield to the healing waters of the famous health resorts, or the usual remedies as prescribed, salicylate of soda, potash, colchicum, etc.—were readily relieved by the use of this simple mixture—Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful dose after meals and at bedtime.

A well-known druggist, when approached upon the subject, stated that while this prescription, as written, is new, the ingredients are continually prescribed by the best physicians, and any good prescription pharmacy has them; they are inexpensive and harmless to use, and are mixed by shaking well in a bottle.

If the claims, made for this mixture, are only partly correct, it would seem that no sufferer here could afford to leave the prescription untried.

MORE JAPANESE IMMIGRANTS

Victoria, B.C., Sept. 18.—The steamer Indiana, chartered by immigration agencies in Honolulu, passed through quarantine this afternoon bound for Vancouver, with two hundred and fifty Japanese coolies on board.

BOERS WILL CONTROL

London, Sept. 18.—The Cape Colony Parliament will be dissolved to-morrow. The continuance of the council's blocking of supplies is creating a constitutional crisis. It is probable that the regained votes of the rebels disfranchised after the war will be sufficient to defeat Dr. Jameson's party, and South Africa will be politically Dutch from Rhodesia to Table Bay. The elections to the Legislative Council occur in November and to the House of Assembly in February.

FOOTBALL PLAYERS SEEK REINSTATEMENT

Toronto, Sept. 18.—Applications for the reinstatement of a number of Eastern football players who are desirous of playing in the proposed interprovincial league, but who are debarred by reason of having played with or against professionals in the Federal Hockey League have been received by the Registration Committee of the C.A.A.U. together with affidavits and will be dealt with shortly. The Registration Committee was to have met to-night, but did not.

WOODBINE BETTING

Toronto, Sept. 18.—Police Magistrate G. T. Denison has forwarded to the Court of Appeal his stated case in connection with the Woodbine bookies. The test cases are those of Patrick J. Moylett and Herbert T. Bailey, charged with maintaining a common betting house at the track in May and June last. Col. Denison states that though these bookies used no booths he could not differentiate their case from that of Rex vs. Saunders. He fined each of them \$50. He states that fifty bookies operate in one-sixth of an acre.

RIMOUSKI MAILS

Montreal, Sept. 18.—During the course of his recent visit to Rimouski, the Hon. Mr. Lemieux, Postmaster-General, made the following important declaration: "The question of substituting Father Point for Rimouski for the service of the European mails was never discussed in the Post Office Department and I may add that so long as I remain Postmaster-General, or as long as I am a minister, such a change will never take place. I make that declaration to cut short all newspaper gossip and the idle and useless discussions that can only injure the mail service."

G.T.R. FOREMAN KILLED BY TRAIN

Stratford, Ont., Sept. 18.—J. J. Hamilton, a G.T.R. foreman, while stepping on to the front of a slowly moving engine this morning, fell and the front wheels passed over his body killing him instantly. The remains were found underneath the engine.

Piles Quickly Cured at Home

Instant Relief, Permanent Cure—Trial Package Mailed Free to All in Plain Wrapper.

Piles is a fearful disease, but easy to cure if you go at it right. An operation with the knife is dangerous, cruel, humiliating and unnecessary.

There is just one other sure way to be cured—painless, safe and in the privacy of your own home—it is Pyramid Pile Cure.

We mail a trial package free to all who write.

It will give you instant relief, show you the harmless, painless nature of this great remedy and start you well on the way toward a perfect cure.

Then you can get a full-sized box from any druggist for 50 cents, and often one box cures.

Insist on having what you call for. If the druggist tries to sell you something just as good, it is because he makes more money on the substitute.

The cure begins at once and continues rapidly until it is complete and permanent.

You can go right ahead with your work and be easy and comfortable all the time.

It is well worth trying.

Just send your name and address to Pyramid Drug Co., 92 Pyramid Building, Marshall, Mich., and receive free by return mail the trial package in a plain wrapper.

Thousands have been cured in this easy, painless and inexpensive way, in the privacy of the home.

No knife and its torture.

No doctor and his bills.

All druggists, 50 cents. Write to-day for a free package.

THE PEACE TERMS

Conditions Imposed by General Drude on Moroccan Tribes-Men.

Paris, Sept. 18.—The French Government is greatly encouraged by the improvement in the Moroccan situation, and strong hope is entertained that the rebellious tribesmen, with whom the delegates who conferred with General Drude on Sunday are now consulting, will agree to the peace terms, which include:

- 1st. The punishment of the authors of the Casablanca massacres and the ringleaders of the movement.
- 2nd. An agreement that no tribesmen shall enter with arms within a radius of 10 kilometres of the city.
- 3rd. The acceptance in principle of the payment of a war contribution, the amount of which will be fixed hereafter by negotiations between the Moroccan Government and France and Spain.
- 4th. The surrender of hostages to insure the fulfillment of these conditions.

It is pointed out that the war conditions and at present the indemnities to be exacted from the Moors for the loss of life and property, which will be a matter for future adjustment.

If peace is arranged on the above terms no further landings of troops will be made, and pending the result of the negotiations the orders for the embarkments and forwarding of reinforcements have been suspended.

The delegates of the Moorish tribes are expected to give the final response of the tribesmen on Thursday.

Another good feature of the situation is a definite agreement with Mohammed el Gabbas, the Moroccan war minister, for the immediate installation of police at Tangier in accordance with the terms of the Algeiras convention, namely, native police under Franco-Spanish instructions.

The ultimate outcome of the struggle between the rival Sultans of Morocco is a matter with which the French Government is not concerned, the mandate of France and Spain being limited to the restoration of order and security at the Moroccan ports.

THE JAEGER WOOLLEN-SYSTEM.

This is the season of the year when the mind of man turns with sympathy to the consideration of the question of warm underclothing. The matter is an important one, as the chilling blasts of the fall and winter season will soon begin to make their presence unpleasantly evident. To temper the weather to the comfortable stage for that section of humanity which inhabits these northern climes, has been a matter which has at all times occupied the thought and attention of many manufacturers of the clothing with which the men of the northern zone are fain to clad themselves. None of them has, however, met with such success or turned out such satisfactory results as has the Dr. Jaeger's Sanitary Woollen-System Co., Ltd., the agent in Quebec for which is the well-known firm of W. J. Darlington, corner of Buelde and Du Fort streets.

The products of this firm have won a world-wide and justly-earned fame, and are known wherever the wandering foot of civilized man has trod. Dr. Jaeger's researches in the domain of health-culture has enabled him, as a result of much labor and thought, to establish what is known as his sanitary woollen-system. The reforms inaugurated by him in regard to the matter of woollen-wearing at once sprang into great and universal popularity and has attracted the enthusiastic devotion of all who have adopted it. The Jaeger name and trade mark guarantee pure wool and undyed natural yarns. The Jaeger system greatly enhances bodily health and comfort and protects the body against the attacks of disease (from chill or otherwise) to which the strongest may succumb. Jaeger pure wool clothing is very durable. The cost of Jaeger clothing is not expensive, and a trial of this pure wool wear is well worthy investigation. The products of the Dr. Jaeger Sanitary Woollen-System Co. are many, and full information in regard to them is given in a series of books and pamphlets issued by the Company, a copy of which may be had on application to Mr. Darlington, who will be glad to explain to all who so desire the many and great advantages of the Jaeger system.

Money is the mother of trouble, but well brooded it hatches out a lot of little joys.

COPPER OUTPUT CURTAILED

New York, Sept. 18.—The output of the copper mines controlled by the Amalgamated Copper Company will be curtailed by 50 per cent of the normal production immediately, and a further curtailment order should it be deemed necessary. This decision was reached at a meeting of the directors of the subsidiary companies in this city to-day. After the meeting the following announcement was made: "Directors of the subsidiary companies of Amalgamated Copper Company have decided to curtail the output by 50 per cent or more of the normal output. This action will take effect immediately." It was also stated that should the situation show no improvement, a further curtailment will be made. On the other hand, the output will be increased if the situation warrants such action. Among the companies represented at the meeting were Anaconda Copper Mining Company; Parrot Silver and Copper Company; Boston and Montana Consolidated Copper and Silver Mining Company, and the Butte and Boston Consolidated Mining Company.

PANDORA RANGE

Large Broiler Door

Open the broiler or toasting door of the Pandora and you'll find an opening much more generous than on ordinary ranges. It's both wide and deep, so that you can easily place a big steak right over and almost touching the red hot coals, where it will broil quickly. And it's only by rapid broiling that a steak will retain its natural flavor and rich, juicy tenderness. Pandora is the range that cooks things right. This broiler door can also be used for feeding the fire without disturbing the pots, etc., on the top. If your local dealer doesn't sell the Pandora, write direct to us for free booklet

IN AND ABOUT TOWN

DR. GRANDBOIS DEAD

DISASTROUS FIRE

Former Well-Known Member of Parliament Succumbs to Effect of Operation.

Mills, Wharf, Buildings and 5,000,000 Feet of Lumber Burned.

Dr. Grandbois, the well-known former Conservative member of the Federal House for the County of Temiscouata, died at the Hotel Dieu in this city shortly before noon yesterday. Dr. Grandbois had undergone an operation for appendicitis at the hospital on the previous day and hopes were then entertained for his recovery, but yesterday he began to sink and the last rites of the church were administered, the doctor passing away before noon. Dr. Grandbois was conscious up to the last moment and passed away in presence of his wife and daughter, who had accompanied him to the hospital on Monday from his home in Fraserville.

Dr. Grandbois was well-known as a physician throughout the entire Temiscouata region. He was born at St. Philome, County of Chateauguay, in 1846, and studied at the Sulpician College at St. Therese and Laval University in Quebec. In 1873 he married Mlle. Pelletier, daughter of the late George Pelletier, a Fraserville merchant. He was first returned to the Ottawa House for the County of Temiscouata in 1878, and sat continuously until 1896. Dr. Grandbois was highly esteemed by his fellow-members and was also greatly thought of by the late Sir John A. Macdonald.

THE QUEBEC BRIDGE.

The recent disaster to the bridge has caused great comment on the strength of some of the iron work, also the weight suspended. Messrs. E. R. Kinlock and N. R. McLure, two of the engineers employed in the construction of this wonderful piece of structure, recently issued a very neat and handsome booklet which gives the reader all the information desired from the time the contract started, up to the time of the accident. No visitor or resident should fail to secure one of these handsome booklets, as the detail can be found and many an argument settled by referring to them. For sale at all the leading news stores and at A. Langlois' news stand, 24 and 26 Mountain Hill.

NEW THEATRE.

The question of a new theatre for St. Roch's is again being discussed by residents of that quarter of the city, and it is stated that a company is now being formed with a capital of \$25,000 to undertake the erection of a new building to be utilized for amusement purposes. It is hoped that the company fully formed at once so that construction operations may be started early in the spring.

FOX-HEAD BEER & PORTER ARE DELICIOUS

REVISITS HIS HOME.

Among the passengers who recently arrived here by the Gaspeien, was Mr. James Smith, of Eau Claire, Wis., brother of Conductor F. X. Smith, of the Q. R. L. & P. Co., who has been spending some time visiting his mother, a resident of Gaspe, who is now 80 years old. Mr. Smith left Canada twenty years ago and since then has been for several years agent and purchaser for the Hudson Bay Co. The former Gaspeian, who received his elementary education in his native parish, speaks English, French, German and the Indian dialect. He has returned to his home in Eau Claire, where he is at the head of an important carriage factory.

AT THE NICKEL.

Another change, another good one, and another good house greeted the new bill at The Nickel. There is no over-crowding, although the crowds are very large. No one is allowed to stand in the passages of the theatre, so that one can wait on the outside, which is a very good rule, and gives comfort and ease to all those who are seated within. The pictures consisted of the following: "What the Curate Really Did," "Modern Painters," "Tired Tailor's Dream" and a comedy picture entitled "Rival Sisters," with the very pretty baby song "Nobody's Little Girl," making in all a good hour's performance and all for 5 cents.

LAVAL UNIVERSITY.

The examinations for the admission to the study of medicine are at present under way at Laval University, this city. The examining board is composed of Mgr. J. C. K. A. French, B.A., W. H. Waters, A.M., A. French, B.A., Oron, and J. G. Casgrain, Prof. Thirty-nine candidates have presented themselves for the examinations in Science and Letters, some of whom are taking both courses.

GARDEN PARTY.

Her Excellency's garden party at the Citadel will be from 4 to 6 p.m. as printed on the invitation cards.

RECORDER'S COURT.

Yesterday morning, six prisoners appeared before the Recorder. They were all charged with drunkenness. One was fined \$5 and costs, the remaining five being condemned to \$2 and costs each.

JUMPED INTO THE RIVER.

Yesterday afternoon a young man by some means succeeded in getting under one of the gates which are lowered when the Quebec and Levis ferry boats are leaving the pontoons on either side of the river, and attempted to jump on board one of the steamers. The latter was too far out, and the would-be passenger instead of reaching the boat jumped into the river. A life buoy was thrown from the pontoon which he succeeded in catching, and kept himself afloat until some of the Finlay market boatmen reached him in a boat and brought him ashore. He had a narrow escape from drowning, and it was a fortunate thing for him that there are life buoys on the pontoon. It is to be hoped that his foolish act of yesterday will be a lesson to him to be more careful in future.

SAVED BY Good Food

Read a Doctor's words about

Grape-Nuts

"A short time ago I was called to a patient who had been given up by his physician. His stomach would not bear food, and consequently he got no nourishment and was slowly dying from exhaustion. He was reduced to skin and bones. I immediately put him on Grape-Nuts food and Postum Food Coffee. He could keep both articles on his stomach and neither caused him any pain. He has been using both the food and the cereal coffee and has gained rapidly. The reason a delicate stomach can take Grape-Nuts food is that it is predigested by natural means during its preparation, and even a small babe can handle it as it causes no heavy work by the stomach and digestive apparatus; on the contrary, being predigested, it is quickly assimilated into blood and tissue. Grape-Nuts as well as Postum Food Coffee contains elements selected from the grains of the field that are of first importance to the human body in nourishing and rebuilding it. Read "The Road to Wellville," in pgs. "There's a Reason."

AERIAL ACROBATS A DAZZLING RISK.

Insurance Men Refuse to Issue Policies Upon the Lives of the Banvard Troupe With the Greater Norris & Rowe Circus.

Just at present there is considerable interest taken in the forthcoming audit of the Banvard troupe of aerial acrobats against a well known insurance company. The threatened law suit to compel the insurance company to accept the risk upon the lives of the Banvards and issue them policies is more important and far-reaching than would appear at first glance. Should the Banvards be successful every acrobat, gymnast and contortionist as well as nearly every athlete in the business would apply for policies upon their lives. Applications have been made before by mid-air performers, but were always refused upon the ground that the performers took unnecessary risks of a most hazardous nature. Aerobats did not press the point until the present season when they threatened the matter out in the courts and have there determined the justice of their claim. In the Banvard troupe there are two young women and two young men who are the picture of health. They have met with many accidents yet always recovered. They accomplish what is termed a "flying act" and the ease with which they perform their marvellous feats makes people think there is perhaps little danger in their work. But, as a matter of fact, there is a single movement in all their act when they do not risk their lives. When a man climbs up on that high pedestal and happens to look down, he is apt to feel a sudden weakening of his knees. The net does not extend beneath the pedestal, and he feels as if he were standing on air. A tumble to the ground may mean death. A tumble to the net may result in disfigurement and permanent injury. No nerve was ever so strong that it was not shaken at times by the test applied in this aerial work. But with all the danger it is evidently fascinating for each season finds the skilled athletes attempting more difficult feats. The famous Banvards claim they are entitled to insurance on account of their several years success upon the aerial bars. The insurance men claim the risk is too hazardous and they want none of it. The outcome will be watched with interest. The Banvards appear here with the Norris & Rowe circus Monday afternoon and night, on the Q.A.A. grounds.

Smoke Hyman's Mixtures, for sale at Walling's Stores.

APPOINTMENTS.

Mr. Bernard Murphy, of the examining Warehouse staff, has been appointed housekeeper of the Quebec Custom House, in succession to the late Mr. Jacob Griffiths. Mr. Robert Farrell has been appointed to the position vacated by Mr. Murphy. Both appointments are good ones.

FOR TO-DAY, THURSDAY.

1500 yards of Tweed for costumes, will be sold at 33 cents, worth from 65 to 65 cents. Come early.

MARCEAU & CIE., 155 St. Joseph Street.

ELECTRIC WIRING CONTRACT AWARDED.

The contract for electric wiring of the new C.P.R. baggage platform in rear of the immigration buildings has been secured by Thos. D. Loneragan, electrical contractor, 42 Joan's street.

ENTERTAINED ON BREMEN.

His Excellency the Governor-General, Earl Grey, and His Honor the Lieutenant-Governor, Sir Louis A. Jette, lunched on board the German warship Bremen yesterday in company with a number of other invited guests. The Bremen is enroute to sail tomorrow morning for Halifax.

WINTER IS AT HAND.

If you are in need of furs we invite you to come and visit our department before purchasing elsewhere, as we have an exceptionally large stock and our prices are low.

MARCEAU & CIE., 155 St. Joseph Street.

MAYOR'S FUND.

In the list of subscriptions to the Mayor of Quebec's Relief Fund published in yesterday's Chronicle, the sum of \$5 was placed opposite the name of Wilson Bros. The amount should have been \$15.

CASTORIA.

The Kind You Have Always Bought

Bears the Signature of *Charles H. Fletcher*

BREMEN BOATS OUT.

The boats of the German warship Bremen were out yesterday morning for practice spins on the river, and there were a couple of exciting races between the different boats' crews. In one race there were three twelve-oared crews and in the other a similar number of six-oared boats. The work of the German naval cadets excited a large amount of interest among people along the river front.

A CHILD'S DEATH.

The death of an infant in its cradle at Chaudiere Curve a few days ago having created some comment among residents of that place, owing to the fact that the child's death was apparently somewhat sudden, Dr. Bergeron has notified the Coroner that the child's death was due entirely to natural causes.

TEMISCOUATA RAILWAY.

At the annual general meeting of the Temiscouata Railway, held at the Chateau Frontenac on Tuesday afternoon, the following officers were elected for the ensuing year:—

President—Frank Grundy.
Vice-President—J. H. Walsh.
Secretary and General Manager—D. B. Lindsay.
Superintendent—G. G. Grundy.
Directors—Wm. Cook, K.C.; A. H. Cook, K.C.; Arch. Laurie, W. Noble Campbell, and Andrew Steel.

All the officers and directors were re-elected.

The reports submitted were of the most satisfactory nature.

COUNCIL OF AGRICULTURE.

A meeting of the Council of Agriculture was held yesterday morning at the Parliament House. Those present were Messrs. Robert Nepe, of the County of Chateauguay, who was re-elected President; Hon. C. E. Dubord, M.L.C., re-elected Vice-President; Auguste Dupuis, Village des Aulnaies, L'Islet; W. H. Walker, M.P.P. for Huntingdon; P. Tourigny, M.P.P. for Arthabaska; H. Plon, M.P.P. for Val-de-Fleur; Andrew J. Dawes, Lachine; Dr. W. Grignon, St. Adole, County of Terrebonne; J. C. Draper, of Sutton, County of Brum; C. N. Polignin, St. Roch; Thomas Hunter, of St. Roch; County of Missisquoi; H. Hattie, St. Elie, County of Laval; W. J. Davidson, of Bethel, County of Shefford; Mr. Aug. Dupuis was chosen as a member of the Committee on Agricultural Schools; Mr. Octave Ouellette, of the Department of Agriculture, acted as Secretary of the Council.

ZAM-BUK

SAVED THIS BABY

Mrs. M. Harrett, 602 Montcalm St., Montreal, says:—

"A horrid rash came out all over my baby's face and spread until it had totally covered his scalp. It was irritating and painful, and caused the little one hours of suffering. We tried soaps and powders and salves, but he got no better. He was so fretful all day long that it made it very hard for me. He refused his food, got quite thin and worn, and was reduced to a very serious condition. I was one day advised to try Zam-Buk, and did so. It was wonderful how it seemed to cool and ease the child's burning, painful skin. He gradually became more easy and able to sleep. Zam-Buk from the very commencement seemed to go right to the spot, and the pimples and sores and the irritation grew less and less. Within a few weeks my baby's skin was healed completely. He has now not a trace of rash, or eruption, or eczema, or burning sore. Not only so, but cured of the tormenting skin trouble, he has improved in general health. He has got fat and plump, weighs no less than 22 lbs., although only 1 month old, and is in first-class condition."

Zam-Buk is sold at all stores and medicine vendors, 50c. a box, or post free from Zam-Buk Co., Toronto, for price, 6 boxes for \$2.50.

CURES HEAT SORES, ITCH, SUMMER ECZEMA, CHAFED PLACES, SORE FEET, SUNBURN, STINGS, etc.

A NOVEL SWIMMING CONTEST.

Local Aspirants to Try the Tank at Bennett's.

Considerable excitement has been given to the novel swimming act as presented by The Finneys, who are performing at Bennett's this week. A great many people who are skeptically inclined, believe it is an illusion, while others, who possess some ability as amateur swimmers, say it is an easy task. For the benefit of the local aspirants Manager Alois has arranged a contest to take place Friday evening. Six young men will participate in the contest, the winner to be decided by Mr. Finney, who will name a number of feats to be performed. The one making the best showing will receive a gold medal. The contest promises to be an interesting one and will no doubt be full of many amusing situations. Any one wishing to enter the contest can do so by applying at the boxoffice of the theatre.

RATHER SUDDEN DEATH.

Mr. Thos. Seale, of the firm of Seale & Co., dairyman, died yesterday morning somewhat suddenly. About seven o'clock Tuesday evening he took ill and he passed away yesterday morning. Deceased was 32 years of age, unmarried, and resided with his mother on Oliver street. The late Mr. Seale was very popular with all who knew him, and his early death will cause much regret to a large number of friends. He was a brother and partner of T. W. Seale, in the milk business. His death was due to an aneurism of one of the large arteries leading from the heart.

HOW SETTLERS ARE TREATED IN WINNIPEG

(Reproduced From Manitoba Free Press.)

PERHAPS nowhere in all Canada could be found an institution similar in its purposes to the Immigrant Hospital in Winnipeg. Although over a year in

J. OBED SMITH,
Commissioner of Immigration.

operation its work and very existence is known to few, though many have carried away memories of kindly treatment within its walls. If you walk along the pathway facing the many buildings devoted to the use of the Immigration Department you will see a flag staff beckoning in the east, and just beyond it, the last building of all, distinguished by a jut-

neatness and convenience of arrangement apparent. There is a kitchen and dining-room on this floor, and on the next as well, so that those helping to care for their children may prepare their own food with the least trouble. The kitchen on the second floor, with its red-painted floor, tinted walls, bright range, and general air of cheeriness, especially took my fancy. I saw the hospital on a rainy day, when the outlook was dreary enough, and when the barrenness of the rooms was likely to be accentuated, and yet the impression given me was a very favorable one.

Free Treatment for the Sick.

The bedrooms or wards are plainly furnished, but yet no necessity is lacking. In some rooms there are two beds, with uniform colored quilts; in others, only one. Not counting the isolation ward, there is accommodation for sixteen patients, but in some seasons of the year all the beds—twenty-two in number—are sure to be occupied.

There is no charge for treatment in this hospital. Seven days is the allotted time, but many patients stay longer. At times minor operations are performed, such as removing a frozen finger, but all cases that are likely to prove severe, are sent to the General Hospital, if that is found practicable. In the winter many of the patients are brought in suffering from frozen feet, while the following list will give an idea of the maladies treated, for varying periods:—Anaemia, epilepsy, bronchitis, whooping cough, scarlet fever, rheumatism, pneumonia, dislocated shoulder, mastoid abscess, frozen feet, synovitis, pleurisy, tuber-

varies greatly; some months scarcely any patients being treated, while at other times every train has its quota for the hospital. The men's sitting-room is a pleasant one, with lounge, harmonium, etc., while on the tables there are periodicals, more of which would be welcomed. This room opens on to the sun verandah before mentioned. Downstairs the matron has a pretty sitting-room for her own use.

In the farther west, Cottage Hospitals are made use of when necessary, but the Immigrant Hos-

brighter rooms in the "mezzanine," or half-floor, are given over to the use of families, while single men take willingly enough the rooms on the dark side of the corridor. There are seven ranges in the buildings, and some days these are literally covered with pots and pans, the use of which is given by the department.

Temporary Home for Hundreds.

In cases of necessity food is distributed, but as a rule the immigrants have sufficient money to tide them over the interval of

the situation. "One day I discovered a man who had built a fire in the oven!" she said. In the room adjoining the dining-room, several pretty, flaxen-haired little English girls, with soft voices and nice manners, were playing "Old Maid," to while away the tedium of the rainy day. Here the children are allowed to romp and enjoy themselves, playing tag, "horse," or any childish game. No toys or books are provided, and this for a good reason. There would be danger of infection if these passed through many hands, and the health of the immigrants is the first consideration of those in charge. Besides, the little people manage to amuse themselves very well as it is. Sometimes, too, an invitation comes to an evening "children's party" at All People's Mission, when cake is consumed in large quantities. The name of "Mrs. Hughes" is a familiar and beloved one, as, during her connection with All People's Mission, she has always taken a kindly and warm interest in the women and children of the hall.

Laundry Privileges Appreciated.

As far as domestic arrangements are concerned all necessary sweeping, cleaning and scrubbing of the quarters occupied is done by the occupants, under supervision of the caretaker, who provides the needful cleaning utensils. Meals must be taken in the dining-room, and not in the sleeping quarters. The use of the baths is free, four being provided for men. Fires in the cooking stoves must be extinguished at 8 p.m., to guard against fire. There is a splendid fire escape in connection with the building, but nevertheless every precaution is taken, no smoking being allowed for this reason. All visitors

scarcely find a way between the aisles.

Good sanitation is one of the cardinal rules of the establishment and to that end all the garbage is

MISS STRUTHERS,
Matron of Hospital.

burned by an incinerator in the basement of the building. All those who visit the railway station, and who stroll in front of the immigration buildings will have noticed a sign, translating "office" into many languages. The French "Bureau," German "Kanzlei," Russian "Kontor" or "Kantoor" and "Uriad," Swedish "Skrifstofa," and Ruthenian "Iroda," should surely be enough notification for "all peoples." Entering therefore one finds on one side the "foreign" post office where the non-English speaking,

Immigration Hospital.

pital in Winnipeg has a place of its own, and fills admirably a very real need.

Housing of the Immigrants.

In the immigration hall proper there is a room fitted up for the use of the doctor, who is a pretty busy man some days. Here, too, are four bedrooms, nicely appointed, for the use of the emigration agents, who must meet night trains. The watchman sees to it that they awake in time, if vigorous and constant ringing of their door bell can do it.

The housing of the immigrants is carried on under the direction of the matron, Mrs. Saunders, who is ably assisted by her daughter, Miss Edge. The latter was my cicerone as we explored every room that bore upon this housing problem. About 1,700 people can sleep in the three buildings, five hundred on one floor; but the rooms are "elastic," for in some cases besides the huge double beds, a stretcher is put up and a mattress is put down. Pillows and blankets are lent when required.

The British, English-speaking foreigners, and Galicians have each separate quarters. They are kept very clean by the men employed for this purpose, and while of course there is no attempt made

waiting. Seven days' lodging is available free of charge, but in many instances women with children have staid for a much longer period, when there was little money in the family exchequer and the husband and father had not secured work, or when the latter had gone out into the country to arrange for their coming. The officials are not anxious to have anyone linger when there is no reason why they should. Free lodging appeals to some, but they are quickly made to understand that loafers are not wanted. "These need a crowbar sometimes," Mr. Smith, the commissioner, said laughingly.

And this reminds me of the story told of the man who asked Mrs. Scott, of the nursing mission, for a pair of stockings, so that he might "shift his socks." Apparently a crowbar would not have come amiss in their prying off!

Woman's Work in the Kitchen.

But most of the immigrants are self-respecting men and women, to whom the Immigration Hall is just the temporary resting place it is intended to be, and these the department gladly shelters. In the kitchen given over to the use of the Britishers, some of the newly arrived were cooking their dinner

Kitchen for Use of Immigrants.

must leave the hall half an hour before closing time, namely, ten o'clock.

Excellent provision for laundry work is made for the immigrants, part of the basement being fitted up with a dozen or so stationary tubs, wringer and mangle, and adjustable clothes horses. After a long train journey there is, of course, much soiled linen to be washed, and next to the baths there is always a great rush for the laundry, sometimes every tub having its amateur washerwoman before it.

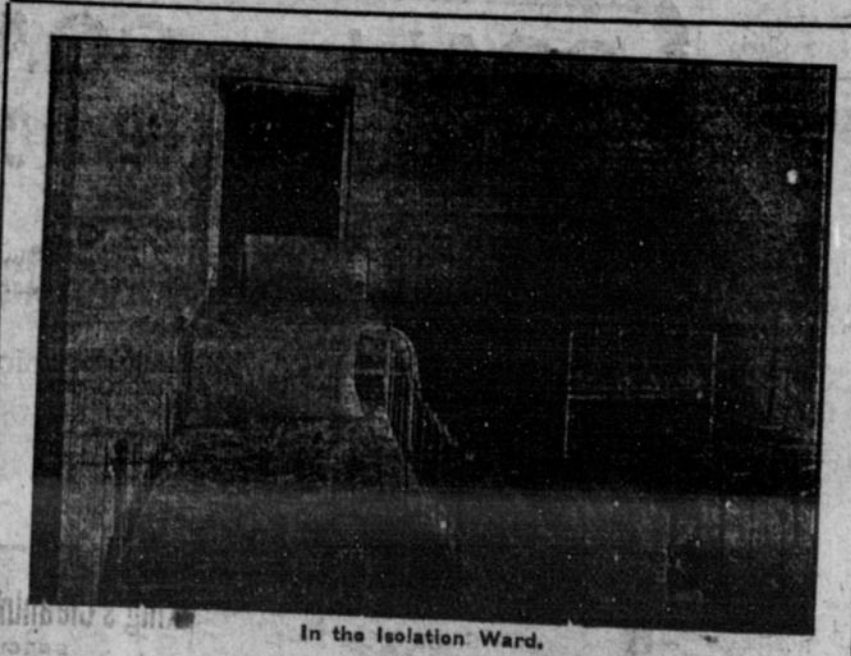

Where the Baggage is Stored.

The orderliness of the huge baggage room was a surprise to me. The Galicians' baggage, consisting of a bag or so, is allowed to be taken to the quarters occupied by them, but this does not apply to heavy baggage. All the regulation types of neat English "boxes" can be piled up in the free storage room. The checking system is in force, but access to trunks is allowed the immigrants, except at night. In the rush season the huge place is simply packed with whole length and width with all kinds of trunks and one can

receive their letters. Sometimes the men in far construction camps will send in a list of names and a request will be made for the mail for the lot, which is duly sent. The postmaster and his assistant occasionally find it pretty hard to decipher these names, "but it's all in getting used to them," I was told, and few if any letters go astray. Here, too, the perplexing money-order question is solved.

In the Foreigners' Quarters.

It is down in the basement kitchen of this building that the most picturesque sights may be seen, from the point of view of the artist. He might find the atmosphere a bit stuffy at times but he could get wonderful studies of the foreign element in their population of the west. As I have said, the day was dark on which I saw the place, and perhaps the color was intensified thereby, but I watched with delight the children playing about on the bare floor, the elderly woman bending over a soap pot bubbling on the huge range, the young girls with their bright handkerchiefs and aprons, holding the omni-present baby. The little ones dimpled and

In the Isolation Ward.

ting balcony framed in glass. This hospital is in no way similar to the huge detention hospital in Quebec, or the others at St. John, Halifax, Montreal, etc. For these patients, either their own friends or the steamship companies which brought them over must pay. In Winnipeg the treatment is free, for the hospital is but one of the many agencies of the immigration department—that most paternal of organizations—which strives to help in every way, and at every stage, the man, woman or child coming out under its auspices.

Isolation Wards.

Almost every colonist train will bring in to the C.P.R. station a worried, worn-out mother and a child or two ill with measles. On the journey up the little one may have been taken ill and kept by itself as much as possible, perhaps in the smoking car. But when the immigration agent learns of the case he hurries the little sufferer to Dr. Corbett, in the immigration building, and soon mother and child find themselves in the quiet and seclusion of the third flat of the hospital. The cribs and the bed adjoining it are clean and inviting, and everywhere is the same

cular trouble, exhaustion, mental weakness, general debility, sore throat, tonsillitis. Sometimes just a day's treatment is needed, and again weeks go by, as in the case of a scarlet fever patient.

Gratitude of the Patients.

The patients are very often foreigners. One trait very noticeable among the Ruthenians and Poles is their gratitude for any kindness shown them. Nurse Campbell gave an instance that she thought showed this most forcibly. A woman who was scrubbing in the hospital, ran a sliver into her nail, so deep that it could not be taken out by the fingers, nor easily extricated at once. As she was in great pain the nurse bent down and pulled it out with her teeth. As soon as it was removed the poor woman took her hand and kissed it over and over again, much to the nurse's embarrassment.

Miss Struthers has been matron of the hospital since its opening, a year ago, but as she was away on her holidays, I interviewed Miss Campbell, who took her place during this period. When there is need, an additional nurse is engaged for a short time. The work

The Sitting Room for Male Patients.

to do more than give comfortable lodging, that certainly is accorded. Those who complain, if any, are they who have not had as good a resting place in their own homes. In the semi-foreign quarters, the

STEADY WORK FOR GOOD FAMILIES.

The West Boylston Co. of Easthampton, Mass., cotton manufacturers, have a few more houses for good families. Good schools, two Catholic churches, French and English speaking; two Congregational; one Episcopal, one Methodist, one German and one Lutheran. A town of 8,000 people. 5 cents to Northampton, a town of 20,000 inhabitants; 10 cents to Holyoke, a city of 60,000 inhabitants. You can sell your furniture, and our business men will be pleased to start you house-keeping. If you do not understand cotton manufacturing, we will teach you, and pay you a living wage while learning.

Write a letter, stating full particulars about your family, number of workers and their age.

Turner, V.C., and Mrs. Turner, Mr. and Mrs. J. T. Ross, Mrs. E. L. Sewell, Lt.-Col. English, Major Poole, Lt. Stosch.

BRIDGE INQUIRY

Commission Visited Storage Yard and Site of Disaster Yesterday.

The members of the Royal Commission did not examine any witnesses yesterday, but had, however, a busy day of it. In the morning they visited Belair storage yards, about fifteen miles from the city on the C. P. R. line, where the Phoenix Co. has a large quantity of material in store and which is to be used on the north arm of the bridge at Cap Rouge. In the afternoon the commissioners visited the south side of the bridge which collapsed three weeks ago. Their visit will be a very minute one as the evidence already adduced before them regarding certain defects on the bridge has been pretty contradictory. Young Oumet and his pal Lafrance swore at the coroner's inquest that there was a large crack in one of the plates of the shoe of the anchor pier. Oumet and Lafrance were summoned to appear before the investigation, but the former has disappeared since Saturday and has not yet been located, although supposed to be at Sault Ste. Marie. His pal, Lafrance, appeared before the commissioners on Monday and insisted on his statement given before the coroner. He was ordered to go to the bridge to-day with Messrs. McClure and Kinloch and point out the defect and the three men went to the bridge and found the member referred to by Oumet and Lafrance, which was, however, crimped and not cracked as stated by both young men.

CITADEL CITY COUNCIL.
The attention of the members of Citadel City Council, Royal Arcanum, is called to their meeting to be held to-night. As matters of importance will come up, a full attendance is requested.

MILLINERY OPENING.
Monday, Tuesday and Wednesday will take place our grand millinery display.

APPOINTED LIBRARIAN.
At a meeting of the Council of the Bar, held yesterday morning, Hon. E. J. Flynn, Batonnier, presiding, Mr. A. A. Rheumeau, advocate, of this city, was elected Librarian of the Court House, to succeed the late Mr. Martineau, who died suddenly a couple of weeks ago.

ARISTOCRATIC HAIR-DRESSING.
The hair-dressing parlors just opened at 103 St. John street by H. Francis & Co., present a rare opportunity to the ladies of Quebec to take advantage of the most up-to-date and fashionable system of hair-dressing. Mr. Francis has had 16 years experience in all the principal cities of the world, such as London, Paris, Berlin, Monte Carlo, Buda Pesth, etc., while his partner, Mr. Michael, has also practised his profession with success in London, New York, Berlin and other cities. The genuine Marcel waving, which can only be done by experts, is practised with the greatest success by this firm, while all branches of the business are also carefully attended to. Orders are taken on all kinds of hair work and moderate prices only are charged. See advt.

POSTUM
"There's a Reason"

The Story of a Medicine.

Its name—"Golden Medical Discovery"—was suggested by one of its most important and valuable ingredients—Golden Seal root.
Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.
A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the thorough endorsement from the leading medical experts, chemists and writers on Materia Medica who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.
A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.
