LARGE NUMBER OF GERMAN MINERS STRIKE Party Leaders Enlivened Proceedings In The Commons

Miners Go On Strike In Protest

Fifteen Thousand Men in Gelsenkirchen District Quit Work as Protest Against Occupation—Strikes in Other Districts.

GERMANS CLAIM OCCUPYING FORCES HAVING TROUBLE

Sirens Blew so Long in Protest at Rheinbaden that the Belgians Threatened to Shoot Unless the Noise Was Stopped.

(Associated Press Despatch) ELSSENKIRCHEN, March 29.—Fifteen thousand miners are on strike in the Gelsenkirchen district at all mines occupied by troops, according to estimates made in German quarters. The men quit work as a protest against the occupation.

Five thousand men are out at the Westerholt properties, four thousand at Rheinbaden, four thousand at the Concordia Mines and two thousand at the Blumenthal plants. They have served notice that they will not return to work until the last soldier leaves.

From Rheinbaden comes the report that the sirens blew so long in protest that the Belgians threatened to shoot unless the noise was stopped.

The Germans assert semi-officially that the occupying forces are having difficulty in operating the loading apparatus at these mines, and that so far they have succeeded in loading only three or four small trains daily. Before the occupation, it is asserted, a train load of reparations fuel rolled out every ten minutes.

The Germans declare that in order to give a false impression of heavy coal shipments the French have begun a daily shuttle service between Ludwigshafen and Lauterberg, always using the same carloads of coal.

GERMANS PROTEST OVER COMMISSION DECISION

(Associated Press Despatch) BERLIN, March 29.—The German Commissioner for the occupied area has protested against the decision of the Inter-Allied Rhineland Commission to fix and collect the coal tax. The official asserts that the German Government has forbidden payment of taxes of any kind to foreign powers, under the threat of severe penalties.

EIGHTY-FOUR SENTENCED TO DEATH

(Associated Press Despatch) MOSCOW, Mar. 29.—The revolutionary tribunal at Kamenetz Podolsk in the Volhynia district, has sentenced to death eighty-four persons, chiefly tradesmen and members of the intelligentsia, convicted of assisting anti-Bolshevik commander Petlura.

EAGERLY AWAITING WORD FROM MOSCOW

(Associated Press Despatch) ROME, March 29.—Ecclesiastic circles were eagerly awaiting word from Moscow today in the hope that the Soviet Government, having granted a stay of execution in the cases of Archbishop Zeplick and the other convicted prelates, would take cognizance of Pope Pius' request that they be liberated.

The Pontiff asked that the church dignitaries be set free on the ground that they are members of the Catholic hierarchy and are, therefore, his subjects.

Church officials recalled that the Moscow Government's assurances before the trial that no capital sentences would be carried out had been renewed since its conclusion, and word that the executions have at least been delayed served to relieve their fear somewhat.

APPEAL TO BE CONSIDERED BY CENTRAL COMMITTEE

(Associated Press Despatch) MOSCOW, March 29.—The appeal for clemency of the Catholic prelates and priests sentenced last Monday will be considered at the first meeting of the Central executive committee to be held either tomorrow or next week, the Associated Press was informed this afternoon by the Government's amnesty department committee. Meanwhile the temporary stay of sentence for the condemned men is applicable, and they will remain in prison.

SOLDIERS' MONUMENT CAMPAIGN OPENS TUESDAY--SHERBROOKE CITIZENS ARE TO RAISE \$25,000

Monument on Strathcona Square to Be Erected in Honor of Those Who Went Overseas—Whirlwind Campaign to Be Opened on Tuesday, April 3—Captains Chosen and Details Arranged—Prospects Are Considered Bright—Amount Involves Subscription at the Rate of \$1 per Capita for Sherbrooke's 24,000 Citizens.

AFTER years of expectation, the Sherbrooke public is now going to be awarded the privilege of expressing, in some tangible way, the sacrifices, unfortunately too frequently necessitating the sumptuousness of those who enlisted for overseas service during the course of the Great War.

After years of study, continual postponements owing to unsatisfactory conditions in the business world, and many other unforeseen difficulties, the work is now definitely prepared and the campaign, outlined to secure the amount required, viz., \$25,000, will open on Tuesday, April 3rd.

The question of site, the amount involved, the nature of the expression of appreciation, have all been considered minutely by a committee, composed of some of Sherbrooke's most prominent citizens, and nothing has been overlooked in the effort made to secure the most honorable and befitting tribute to those who did their duty without hope of recompense and who, in the majority of instances, sustained personal injuries, financial losses and other misfortunes.

The committee, which has studied the matter so thoroughly, includes Messieurs E. Tanguay, Mayor Morris, K.C., Aldermen J. S. Tetreault and S. R. Newton, ex-Alderman J. K. Edwards, Messrs. Louis Audet, E. L. Stewart-Patterson, W. G. Cross, Leon Lacombe, J. H. Walsh, S. G. Newton, G. D. MacKinnon, with Mr. T. J. Parkes, chairman, and Messrs. J. O. Darche and A. W. Reid, joint-secretaries.

The campaign to acquire \$25,000 will open officially on Tuesday next, April 3rd, and the captains of the different teams are already hard at work making preparations for the strenuous work of the next week.

The various teams and captains of same are as follows: Chairman of all teams—Messrs. S. G. Newton and Leon Lacombe. Women's team—Mrs. W. E. Paton and Mrs. E. Bertrand. Manufacturers and Railways—Messrs. Geo. MacKinnon and D. J. Steele.

Merchants—Messrs. E. A. Bernard and Robt. Webster. Professions—Dr. J. C. McConnell, Banking Institutions—Messrs. E. W. Farwell and A. E. Couet. Special Names—J. H. Walsh. Committee—Messrs. T. J. Parkes and A. W. Reid.

\$25,000 is Needed. A meetings of the captains has been called for Saturday afternoon at 2:30 o'clock in the Sun Life Building, room 10, and it is expected that all captains will be present to secure full details relative to the campaign.

The monument, for which some of the leading sculptors and architects will compete, will most likely be located at Strathcona Square. Two sites were discussed in the initial stages, the present one and the King Hill site. After a very careful study of the situation the committee was unanimous in its report favoring the Strathcona Square site.

The campaign to realize the \$25,000 will be a very strenuous one and it is to be hoped that the citizens of Sherbrooke, reminded of the sacrifices of those who participated in the fray, will subscribe handsomely towards this tangible expression of appreciation.

PARIS PAYS A FINAL TRIBUTE TO BERNHARDT

Crowds Brought in Profusion the Tribute of Flowers "Divine Sarah" Requested.

(Associated Press Despatch) PARIS, March 29.—Paris passed this morning to pay a final measure of respect to the great Sarah Bernhardt.

Crowds gathered at the Church of St. Francois de Sales for the noon day service and at the cemetery of Pere La Chaise, bringing in profusion the tribute of flowers she requested.

Bernhardt's body rested in the rosewood casket which she ordered made thirty years ago. On the breast of her white satin dress was pinned the cross of the Legion of Honor, while about her neck was the gold locket containing the likeness of her son, Maurice.

The ceremony at the church was simple, for Bernhardt had expressed a wish that there be no eulogies. The vault that received her body was also unostentatious. On it was one word "Bernhardt."

The streets leading to the Rue Ampere, where the Church of St. Francois de Sales is located, were thronged with people who hoped to catch a glimpse of some part of the ceremonial. The Rue Ampere itself was barred except to card-holders. The street had been a veritable flower garden all the morning as the offerings from the Bernhardt Theatre, the Opera, the Opera Comique, the Comedie Francaise and from individuals of every section of the world of arts had been placed near the church.

The exterior of the little church was sombre with black drapery, but with a fringe of white and with the initials of the actress, "S.B.," prominently displayed. The interior likewise was draped in black.

The bier was placed at the head of the nave, elevated about ten feet and surrounded with several scores of candles, with a cross of lilies, four feet high at the foot. Places near the bier were reserved for artists of the Bernhardt Theatre.

OPEN LAUSANNE CONFERENCE IN THREE WEEKS

Sudden Change Is Considered an Indication of Conciliatory Attitude of Turks.

(Associated Press Despatch) GENEVA, Mar. 29.—The peace negotiations between the Allies and Turkey will be resumed at Lausanne some time between April 15th and 20th.

This announcement was made today by the Secretariat which the Powers left at Lausanne at the conclusion of the recent conference.

The announcement said the opening session would probably be held on the last named day.

Inasmuch as the Secretariat was recently notified to leave for Constantinople, the sudden change in scene is considered an indication of the Conciliatory attitude of the Turks. It is understood here that the negotiations will be resumed at the point where they were dropped when the Turks and the Allies failed to reach an agreement.

The forthcoming conversations are not expected to be of long duration.

Brazilian Troops Have Invaded Uruguayan Territory--Regard Situation As Serious

All Advices from Brazilian Frontier Agree as to Extreme Gravity of Situation in State of Rio Grande do Sul, Where There Is a Serious Revolutionary Movement.

(Associated Press Despatch) MONTEVIDEO, Mar. 29.—The Uruguayan Foreign Minister has requested information on reports that Brazilian troops, operating in Rio Grande do Sul, have invaded Uruguayan territory.

All advices received from the Brazilian frontier agree as to the extreme gravity of the situation in the state of Rio Grande do Sul, where there is a serious revolutionary movement.

The city of Rosario is reported in the hands of rebels. The inhabitants of nearby places have fled, taking refuge in Ataque, a Uruguayan town just over the border.

An uprising is also reported to have occurred in Viamao, about ten miles from Porto Alegre. The rebels are said to have taken possession of three other towns. Banditry has assumed large proportions in the southern part of the state, and the marauders are reported to be attacking homes and ranches with impunity.

MANY REGIMENTS GO OVER TO REVOLUTIONARIES. (Associated Press Despatch.) BUENOS AIRES, Mar. 29.—A Montevideo dispatch to La Nacion says that advices from the frontier town of Rivera report the capture of Alegrete by Brazilian revolutionaries. The town was fortified and the government forces, although in possession of several machine guns, retreated without a fight. Many of their regiments are said to have gone over to the revolutionaries.

BOILS Made Him Sick and Miserable

Mr. Richard Zalenzoski, McLean, Sask., writes: "I had been suffering continuously, with boils, for three years, and during that time I tried many different remedies without any success whatever. In spite of all my efforts I was compelled to go to the hospital. This was in the Fall of the year, and right in the busiest time of the season. Upon my return home it just took about two weeks until my neck and arms were again occupied by the boils which made me feel very sick and miserable.

One day one of my friends advised me to try Burdock Blood Purifier, and after I had used less than two bottles I was very much surprised at the result.

It is now over two years since I got in touch with B. B. and I have had no bother with boils since. I will recommend it to all persons suffering from any defect in the blood.

MELBORO

The family and community suffered a sad loss in the death of Mrs. Henry Purdy, which took place on Saturday, March 17th. The deep sympathy of the community went out to the family as they watched by the bedside of their loved one, and all hoping that the good and true wife and mother in a much-respected family might be spared, but it was not to be, and

after long suffering borne in great patience, the loved one passed quietly away. The deceased was the eldest child of the late Henry Ezekiel Swett, of North Shefford, and was fifty-one years of age, being born in 1872. Her mother, now a widow, Mrs. Maria Carter, was with her in her last illness, and ministered to a suffering daughter's need as only a true and loving mother can. Fourteen years ago the family moved into this community, Mr. Purdy having become proprietor of the local creamery, and during that period wife and husband had won a secure place in the good-will and affection of the people, as was amply proved by the great kindness showered upon them in their great trial.

The funeral service took place on Tuesday, March 20th at the Methodist Church of which the deceased was a faithful member. The large number present showed the respect and love in which the deceased was held. The service was conducted by the pastor, the Rev. G. H. Craik, B.A., whose address dwelt in the good hopes that comfort and console in times of bereavement and sorrow, and embodied the command of Mine Purdy if life is to become the place of preparation for the perfect life hereafter.

The bearers were near-by friends and neighbors of the family, Messrs. Ernest Beers, Alex Johnston, Ernest Taber and Samuel Morrison.

The following relatives were present: Mr. and Mrs. Alex Purdy, Granby; Mr. and Mrs. Chester Swett, Granby; Mr. and Mrs. H. Purdy, son and daughter, Sherbrooke.

The deceased leaves to mourn her loss in her immediate family her husband, Mr. Henry Purdy, and two daughters, Edna, aged thirteen years, and Irene, aged ten years; her mother, Mrs. Maria Carter Swett; one sister, Mrs. H. Purdy, of Sherbrooke, and one brother, Mr. Chester Swett, of Granby.

Mrs. Boyle was the recipient of nice gifts from those present, also many birthday cards and gifts from friends at a distance.

Messrs. Edgar and Arthur McVetty, George Hume and Master Lloyd Hume are able to be out again after being confined to the house several days by illness.

LOST HOPE, SAYS MRS. WATERMAN DISCUSSING CASE

Declares Tanlac Restored Her Fully When Almost a Nervous Wreck—Gains 14 Pounds.

"Tanlac restored my health so completely three years ago that I haven't had to take a single dose of medicine since," says Mrs. Cora Waterman, 145 Monroe St., Toronto, Ont.

"I don't believe there was a worse case than mine in Ontario. I had been suffering for about three years and was practically a nervous and physical wreck. I could eat scarcely a thing, sleep almost impossible, and rheumatism in my hands, wrists and arms almost drove me distracted. I spent every cent I could lay my hands on for medicine, and had about lost hope of ever being well again.

"But Tanlac ended my suffering and saved me a great many dollars. I regained fourteen pounds, too, which I still retain, and I feel as strong and healthy now as when a school girl. I have been praising the Tanlac treatment three years now, and want to send out this message to help others."

Tanlac is for sale by all good druggists. Over 35-million bottles sold.

PROVINCIAL PLAN OF WORK

The report of the superintendent of "soldiers, militia and Red Cross," and the annual address of the provincial president, Mrs. Geggie. Among other things recommended by the plan of work committee were that the devotional exercises be emphasized, that by example and influence the members endeavor to counteract the growing desecration of the Lords Day, that \$25 be granted for prizes in essay contests, and that the members continue to petition the government for equal franchise.

Some of the suggestions offered by the superintendent of Militia and Red Cross are that the members interest themselves in seeing that every school has a flag, that soldiers' families where the father is dead or disabled be helped, that ministers be asked to preach patriotic sermons once a year at least, that the officials be asked to have the Union Jack hung in a conspicuous place in their churches, and that the principals of schools be asked to give some time occasionally to discuss the subject of patriotism.

The provincial president's address stated among other things that she had attended eight county conventions in May and June last year, and she is looking forward to the same pleasure this year. During the summer she visited the coast, where she saw and recognized the good of prohibition in Edmonton she addressed the Confederate W.C.T.U. and also visited the juvenile and police courts, which are so ably presided over by Judge Emily Murphy, who for some time has been the choice of the W.C.T.U. and other women's societies, for the position of senator. Mrs. Geggie emphasizes the necessity of impressing on our girls the importance of home-making of the best sort, because they are striving to make a better country and a better world. The important work of the travellers' aid in protecting and aiding young people from the dangers of city life was another subject mentioned as being worthy of our support. The address concluded with a challenge to work while it is yet morning, for the cause is the best, and so should the work be also. At the close of the programme dainty refreshments were served by the hostess, assisted by her daughter, Mrs. Ross Dunn.

CHARITY BALL TO BE HELD IN CITY HALL.
The Ladies' Hospital Committee was pleased to learn yesterday that the auditorium in the new City Hall would be available for the Charity Ball on Easter Monday night. Through the courtesy of the City Council, the decision that the spacious hall could not be used was reversed, and the ladies who have been working diligently for the success of the annual event are naturally elated.
A few dancers had objected to the Art Hall for a large gathering, and in addition the auditorium affords accommodation for many more people, while it will be of special interest to out-of-town guests to dance in the City Hall auditorium on Easter Monday. The object of the social event of Easter week is, as on former occasions, to add to the treasury of the Ladies' Hospital Committee.

EASTER HOLIDAYS
There is nothing like travel to open the eyes of the mind. Human beings long for change, for movement, for a broadening of their range of vision. Thus does wise old Mother Nature provide for the proper development of her children. The spring full moon brings Easter, when all the world takes a holiday. By means of the Canadian National Railways one may travel with comfort in any direction. Go to beautiful Ottawa, the Capital of the Dominion, and visit the stately Houses of Parliament. See Montreal where an enormous business is carried on according to the most up-to-date methods in an atmosphere redolent of the romance of the old French regime. See Quebec, Canada's Ancient Capital and one of the most interesting cities on the American continent. Toronto, Kingston, Belleville, Hamilton, Brantford, Woodstock, London and Windsor are cities full of interest. All are easily reached, being on the route of the International Limited, Canada's train of Superior Service. For those who wish to travel in another country, the Canadian National Railways make it a simple and delightful matter. Chicago, Detroit, Buffalo and Portland, Me., New York, Boston, and many other great centres of industry of the United States are reached by their lines. Niagara Falls, where the tremendous cataracts and mighty rapids have been skillfully harnessed to supply power to industrial plants all over the country; the Green and White Mountains, with their chasms and cataracts and towering heights are other places with innumerable attractions. Arrangements can be made to deliver tickets to persons out-of-town by depositing the value of same with Canadian National Railways Agent. Passengers will consult their own convenience by purchasing their tickets early.

WATER MAIN FROZE
The city water department has been at work for the last two days thawing out the water main conduit

It became necessary to replace a whole section of the main in order to gain an uninterrupted flow of water.

TUXIS SQUARES DEBATED CHURCH UNION.
"Resolved, that Church Union is in the best interests of all Protestant denominations, and will be the solution of many church problems," was the subject of a debate held last evening in St. Andrew's Church Hall, by the Argo and Beaver Tuxis Squares of the Church. Messrs. J. R. Sangster and W. P. McVie acted as judges. The affirmative was taken by the Argo Square represented by C. Rose and L. Trussler; while V. Sjolander and G. R. Bell upheld the negative for the Beaver Square. After hearing very able arguments from both sides, the judges declared the negative side the winners, awarding them eighty points against seventy awarded to the affirmative.

Mrs. McGrath was born at Parkhurst, Que., a daughter of the late Robert Lipsey and his wife, Margaret Smith. For the past year she had been visiting at the homes of her sisters, Mrs. J. F. Wark, and Mrs. R. E. Wark, and had been apparently in her usual health until Saturday morning, when she was suddenly taken ill with pneumonia. The disease developed very rapidly and early on Sunday afternoon, she passed away, although everything that care and skill could suggest was tried to avert the fatal ending of her brief illness.
Mrs. McGrath was one whom to know was to admire and respect, and made for herself many warm friends who will hear with deep regret of her passing. While essentially of the type of woman who makes her home her first consideration, and while fulfilling with commendable faithfulness the duties of that sphere of existence, she yet found time for many activities in church and community life, and accomplished much useful work in both. She will be sincerely mourned not only by the members of the immediate family, but by a large circle of friends and relatives.

CITY BRIEFLETS

PUPILS' RECITAL

Mrs. Adams and her students in voice culture have afforded interested friends many pleasant evenings during the winter season, and the recital given last evening in Mrs. Adams' studio gave decided proof that, besides having worked diligently this winter, they have accepted Dr. Coue's motto as theirs also.

The recitals are not given to show off the pupils' voices, but to give them an opportunity to sing before others than the dotting family, who, of course, are not expected to criticize, and the result can be appreciated by those who attend the recitals, one by one.

Progress in singing is slow, and it is only the faithful students that "arrive," and in last evening's programme the pupils, one and all, proved themselves faithful workers for their art.

The progress of the Misses Wilkie is watched with much interest by Sherbrooke people, for they are both gifted with good voices. Miss Grace Wilkie sang "Twilight" (Glen) in her usual artistic way, and with her sister, Della, sang a pretty duet later in the evening. Miss Della Wilkie's numbers were "Breeze of Spring," one of Mr. Gault Parker's compositions, given with fine interpretation, and a catchy little song, "A Great Mistake." Their duet was "The Wanderers' Night Song" (Mendelssohn).

Mr. Force, who is showing splendid advance in his studies, sang "Dawn Light" and "Bird Song" ("Oley Speaks") and "The Ocean King" (Wakefield Smith) these numbers bringing out his full rich tones and power of expression.

Miss McPhail, a teen age student, sang most acceptably, "Sally Roscoe" (Bostelman) and Miss Gertrude Price, another young student, sang "Gingham Gown" (Penn), both showing latent talent, and a desire for study and improvement.

A decidedly pretty number was "Just Been Wishing" (Ganning) sung by Miss Jenckes, with violin obligato by Mrs. McCrear, with a second number, "You" (Grey). Miss Jenckes has a sweet voice and gives promise of more power and expression in singing.

Miss Lidel sang "Sing me to Sleep" and Miss Bryant's song was "Dreams" (Bartlett), both singers showing progress in their work.

Miss Dora Wilson sang in her artistic way, "Robin on the Appletree" (Hewitt) and Ashford's "Good Night," and with Miss Jenckes sang a duet, "Until."

Mr. Leigh's song "Margot" (Reddick) was heard with pleasure, and Mr. Jamieson again proved himself the possessor of a voice of much promise in his number "I Shall be Waiting" (Wilcock).

Mrs. Adams and her audience were delighted to have the name of Miss Mary White, who is spending the holidays at her home, added to the programme. Miss White played with fine expression and technique Chopin's Prelude, and kindly responded with a bright selection to an encore. Added to Miss White's piano numbers were the violin solos contributed by Mrs. McCrear, who is always heard with pleasure. Mrs. McCrear played "Mazurka" (Wienski) and Drieda's "Souvenir" with fine expression, and responded to an encore.

Mrs. Adams and Mr. Galt Parker accompanied the singers in the various numbers, and the delightful programme was brought to a close with a trio by Mrs. Adams and the Misses Wilkie, "In My Green Cathedral," a composition well suited to their well-balanced voices, and which, it is hoped, will be heard again.

THE LATE MRS. JAMES GOODFELLOW.

The funeral of Mrs. James Goodfellow was held on Saturday afternoon from her late home on Bromponton Road. The service was conducted by Rev. Alfred Bright, minister of St. Andrew's Presbyterian Church. Mr. Bright delivered a message of comfort to the mourning friends and testified to the worth and character of the deceased in her home and community. The hymns "Rock of Ages," and "Forever with the Lord" were sung during the service with Miss A. McElrae presiding at the organ.

The late Mrs. Goodfellow was born Elizabeth Ann Smith, at Valcartier, Que., in 1865, and the family moved some sixteen years ago to Bromponton Road, where they have ever since resided. She leaves to mourn her loss her husband, three daughters, Mrs. E. V. Walters, Detroit, Mich.; Mrs. E. Johnston, Fort William, Ont.; Mrs. G. McGenty, Sherbrooke; four sons, James, Frank, Edgar and Colin. Mrs. Walters was unable to be present on account of illness.

The late Mrs. Goodfellow was a member of St. Andrew's Church, a devoted mother, and a good neighbor. The many floral tributes and the presence of numerous friends all testified to the high esteem in which the deceased was held.

The pall-bearers were Messrs. James Smith, Gordon McGenty, and the four sons above mentioned. Among those who attended the funeral from out-of-town were Mrs. E. Johnston and Miss H. Johnston, from Fort William, Ont.; Frank Smith and Richard Bourke, from Stanham, Ont.; Mr. R. G. Goodfellow, Valcartier; and Miss I. Goodfellow from Berlin, N. H. The interment took place at Elmwood Cemetery, Sherbrooke.

INTER-CHURCH SERVICE

Despite the cold and storm there was a very good gathering at the Congregational Church last night when Dr. Read led a very hearty Song Service with Mr. Grundy officiating at the organ, and the Methodist Choir leading in the singing. After the scripture reading, the Rev. Mr. Penman, from Waterville, led the assembly in prayer, after which the choir rendered a very fine anthem. This was followed by the address of the evening by Rev. D. W. Terry on "The Cross, Love's Necessity," making the basis of his address "God so loved the World that He gave His only begotten Son." The speaker built up a strong appeal for the acceptance of that love that sacrificed all in order to win men. The message was very closely followed and a good fruitage

AMUSEMENT TAX REPRESENTS A LARGE INCOME

Sherbrooke Sent \$10,308.15 to Quebec Last Year—\$10,000 to Local Institutions and to Poor.

The amount acquired through the Amusement Tax, its subsequent distribution and its resulting benefits, have frequently been the subject of interesting comments among local citizens and, in this connection, a resume of the 1922 report would appear most appropriate.

At the opening of the year 1922, the amusement tax department had a balance of \$5,573.57 and this was divided among local charitable institutions as follows: St. Vincent de Paul, \$1,000; Victorian Order of Nurses, \$600; Sacred Heart Hospital, \$1,589.42; St. Vincent de Paul Hospital, \$1,589.42; Sherbrooke Hospital \$794.22. This left a balance of 51c.

During the course of the year 1922, the gross amount received from the amusement tax was \$23,384.73 and this was disposed of in the following manner:

50 p. to the Provincial Govt., net amount . . .	\$10,308.15
Cost of collection, including salaries, etc.	1,350.76
Cost of wood for free distribution to the poor . . .	4,168.18
Expenditures involved for the needy, including rents, groceries, hospitals, etc.	4,866.75
Total expenditure	\$20,693.84

The receipts amounted to \$23,384.73, to which the amount of \$47.73 for interest is added, making a total revenue for the year of \$23,432.46. After deducting the expenditures of \$20,693.84, there remains a credit balance of \$2,738.62.

PAVING.

The City Council will shortly submit a by-law calling for an additional \$150,000 for street paving purposes.

There can be no doubt that ratepayers generally are in favor of a continuation of the paving programme. They expect that the money will be judiciously and economically expended. They want the paving work to go on.

No public undertaking has resulted in greater improvement to the city than the paving of its streets. The main business streets have been paved but there is a number of important thoroughfares still in very bad condition. The public will no doubt endorse proposals for an active paving programme this year.

DAYLIGHT SAVING.

Sherbrooke seems to be waiting and watching in regard to the Daylight Saving question.

There is no reason to doubt that the industrial and business districts are favorable to the early closing plan. Last year summer time went into effect in Sherbrooke as the result of a signed agreement of merchants, manufacturers and the business community generally. The Council did not adopt summer time and there is no reason to expect it to do so this year.

The probable course, therefore, seems to be that summer time will go into effect in May by agreement as last year.

THE BONNE ENTENTE.

The issue of the bonne entente visits between citizens of Ontario and Quebec seems to be attended with much promise of more sympathetic co-operation between these two partners of the Canadian Confederation.

The Toronto Globe speaking of the recent visit of the Quebec delegation says:

"The Quebec visitors have come and gone, leaving a conviction of their sincere desire to strengthen the ties between the two Provinces and races, and carrying away, it is to be hoped, agreeable memories of hospitality and good-will. The entire success of the function teaches the need of multiplying opportunities for personal contact between Canadians of all ancestral stocks. The more they see and hear each other the less important their divergences appear and the more vividly they realize the things they have in common as Canadian citizens. Only those who are warped or blinded by prejudice or have some selfish interest in promoting discord will refuse to join every move toward closer co-operation and a better understanding among the various racial and religious elements that make up this country. He is no patriot whose national sentiment does not transcend in his mind the differences already existing. As the Prime Minister of Quebec said at the Government House dinner, Canada is facing problems that involve its national future, and these may become more pressing and acute if they are not now dealt with in a spirit of unity. Mr. Taschereau spoke specially of the duties of the people of Ontario and Quebec:

"Ontario and Quebec are the two largest, wealthiest and most populated Provinces of Canada. They are neighbors, and in constant commercial, social and political intercourse. They form part of a confederation of Provinces. In other words, both have entered into a partnership for their general welfare and development. Being partners, they must agree, otherwise the partnership cannot endure. But a partnership, even between man and wife, must rest on mutual concessions, patience with the human failings of the partner and a healthy desire to promote the common welfare."

"This is wise counsel, and needed only because there are disruptive forces at work in both Provinces. But the response to the public-spirited initiative of the Lieutenant-Governor from representative men of both Ontario and Quebec shows that there are countervailing forces which can be set in motion when properly invoked. The thanks of the people of Ontario are due to the eminent French-Canadians who travelled a long distance to testify to their desire for amity and concord. The visitors had abundant evidence that their sentiments are reciprocated cordially in this Province."

PRESS COMMENT

HIGHER FARM PRICES.

(Windsor Border Cities Star.) The estimated advance of \$4 an acre in the value of farm lands in Canada since 1921 is proof of the progress of the country toward prosperity. The value of farms, as of other property, is based on the returns from the sale of their products. Increased income of the farmers is reflected in a betterment in the demand for improved land.

MUCH TO LEARN.

(Guelph Herald.) Canada, with a total of 4,000 forest fires in 1921, continues to suffer appalling losses. There is a rich national heritage in the lost timber that fires cause every year. From time to time there is talk of reforestation schemes in Canada, but so far very little of a definite plan appears to have been decided upon. We have much to learn in this respect from New Zealand.

SOB FOR THE VICTIM.

(Chicago Tribune.) Police Commissioner Enright of New York asks the public to stop sobbing for the criminal and sob for the victim. It's a request that has to be made about every time there is a crime bad enough to get the public interest. The victim is remembered until the criminal is caught. Then the criminal becomes the centre of sympathetic interest, as if he or she were innocent and in great jeopardy. This sentimentalism may be incurably distorted, but it must be attacked as often as it is revealed if the number of victims is to be decreased.

FATALITIES FROM FIRE.

(Quebec Telegraph.) The alarming frequency of disastrous fires, involving not only heavy material losses but also those of human life are naturally giving rise to much alarm. The belief that the loss of two lives and of much valuable property in the recent fire in St. Rochs is traceable to a discarded cigarette end, illustrates the terrible results that follow acts of carelessness that should be regarded as criminal. Numbers of lives are annually lost in this country as a result of similar acts, to which may also be attributed the destruction of many of our valuable forests. These forest fires also often involve much loss of life. Carelessness in this respect cannot be too severely punished.

CAUSE FOR MOURNING.

(Edmonton Bulletin.) Reports from Dublin are that the Republicans are to have a "period of mourning." Certainly not without cause. The Free State Government has been proceeding on the assumption that those of the rebels who did not surrender under the recently offered amnesty are irreconcilable, and has been dealing with them accordingly. Up to date sixty-seven have been shot, and it is noted in the despatch that "features" of the new policy is the promptness with which punishment follows crime. That course of action is very much calculated to produce lamentation among the lawless, and a season of general wailing on the part of the "dissidents" would seem to be strictly in order. It must be getting more dangerous than profitable to be an outlaw in the Free State.

WOULD GERMANY VOTE DRY?

(Brooklyn Standard-Union.) People have been accustomed to associate everything German with beer, rathauskeller and the brewing industry in general, that the news that the Reichstag has been petitioned to hold a plebiscite on the question of total prohibition, will come to them as a distinct surprise if not a shock. Yet that petition bears the signature of 400,000 voters and the friends of dryness claim to be able to supply a million or so more signatures if required.

This is the first distinct prohibition movement in Germany. Temperance movements were there before and highly successful, too, by the Good Templars and other fraternities and chiefly by the Social Democratic party. But these movements set out to reform the bibbers by moral suasion, by example, by argumentation. The idea to reform habits by law was regarded as futile.

Dr. Meile, president of the Theological seminary at Frankfurt-on-the-Main, in motivating the petition, laid much stress upon the eventuality, which he accepted as a foregone conclusion, that Germany, by adopting prohibition, would gain the sympathies of the United States.

MANY IN FAVOR OF SUMMER TIME AT MONTREAL

Promises to Be Quite a Fight Over Question of Daylight Saving.

(Associated Press Despatch) MONTREAL, Mar. 29.—Petitions signed by about twenty thousand employees in Montreal were received by the Montreal Daylight Saving Association, to be forwarded to the City Council, praying that body to pass the necessary legislation for the adoption of advanced time here for the summer months. These include six thousand signatures from the staff and employees of the C. P. R. Angus shops.

WILL OPPOSE CHANGE IN TIME

(Associated Press Despatch) MONTREAL, Mar. 29.—Declaring that ninety per cent of the people of Montreal are opposed to daylight saving, a gathering of representatives of local unions met here last night to decide what steps they should take to lay their views before Mayor Martin. They aim to present the City Council with thousands of signatures protesting against any advance in summer time.

Mayor Martin was present and approved of the idea of workmen getting together and marching down to the City Hall next Monday to off-set the promised invasion of those who will present the opposite view.

PENSIONS TO EX-MINISTERS IN BRITAIN

Question Came up Again Yesterday in British House of Commons.

(Associated Press Despatch) LONDON, March 29.—The question of paying pensions to ex-cabinet ministers who have sufficient means without the receipt of such pensions came up in the House of Commons again last night at question time, when the matter of Lord George Hamilton, having recently relinquished his pension of £2,000 a year as an ex-cabinet minister, was once more referred to.

Stanley Baldwin, Chancellor of the Exchequer, replying thereto, said it had not been the practice to require a declaration in connection with the granting of a pension to a former minister with regard to the ex-minister's means after the award of the pension.

George Lansbury, Labor member, suggested that the Government should introduce a short bill to compel persons who received pensions on the plea that they were in poverty to make statements periodically with regard to their means of subsistence, as was the rule in the cases of old age pensions.

The Chancellor admitted that this suggestion was deserving of consideration. Lord George Hamilton, until quite recently drew a pension of £2,000 a year as a former First Lord of the Admiralty. This pension began in 1892.

On a previous occasion when the matter was before the House, Lansbury stated that Lloyd George Hamilton was a director in several companies and asked if he would be prosecuted the same as if he were an old-age pensioner who had been receiving money under false pretences. The Chancellor did not reply to this.

AUTHORITIES HAVE NAME OF BLACKMAILER

Information of Importance in Connection with Murder of Dorothy Keenan.

(Associated Press Despatch) NEW YORK, March 29.—The name of the man alleged by Major Draper M. Daugherty, only son of the Attorney General of the United States, to have attempted to blackmail him because of his acquaintance with Miss Dorothy Keenan, the murdered model, was understood to be in the possession of Assistant District Attorney Pecora today.

A morning newspaper published the announcement that it had furnished Mr. Pecora with the name of the "Mr. Marshall" of the case.

From Major Daugherty himself the Assistant District Attorney hoped to learn the identity of the man and the details of his attempted intimidation. Mr. Pecora believed the information might link with what he has of the projected one hundred thousand dollars blackmail attempt on John K. Mitchell, son-in-law of E. T. Stotesbury, who was the "Mr. Marshall" of the case. "I do not say Major Daugherty's information will lead to the discovery of the murderer of Dorothy Keenan, but I do say it is of great importance," said Mr. Pecora, "and I want to compliment Major Daugherty in coming forward with greater frankness than most witnesses."

The Easter Breakfast

Premium Ham or Bacon

THAT breakfast on Easter Morning should consist of Bacon and Eggs has become almost as honored a national institution as Turkey for Thanksgiving.

But on this Easter Morning, bright with the promise of Springtime—vigor—and joy—the Bacon certainly should be "Premium"—the world's standard—as befitting the occasion. Substitute ordinary Bacon or Ham for Swift's "Premium" and you dull the joy of the meal.

For Swift's "Premium" Bacon is of characteristic and distinctive quality. Firstly, by its choice selection—for "Premium" Brand must have just the right proportion of fat and lean. Then next it possesses an unmatched succulence and savoriness due to the exclusive Swift process of curing and smoking.

Be careful to get Swift's "Premium" when you buy Bacon or Ham—make sure of it this coming Easter Morning. Order from your Butcher or Grocer.

Had Been Making Price of Xmas Presents and Picture Shows by Organized Looting of Houses.

(Associated Press Despatch) REGINA, Sask., Mar. 29.—With the capture of six little girls all under thirteen years of age, and the confession of the children concerned, the city police have cleared up a series of mysterious petty thefts which have been taking place since last December.

Six little maids from school children of Canadian parents living in the southeast residential district of the city, on Tuesday told the police, not without a tinge of pride, that they had been making the price of the Christmas presents and picture shows by organized looting of houses. The value of goods stolen by the children is over \$150, one haul alone being over \$85 cash.

U.S. PLACES EXTRA LEVY ON ALL FERRO-SILICON

Claim Heavy Shipments Are Being Made from Province of Ontario.

(Associated Press Despatch) WASHINGTON, Mar. 29.—Anti-dumping provisions of the tariff act were invoked by the treasury on Tuesday with respect to importations of ferro-silicon. The decision signed by Assistant Secretary Moss, said that investigation has determined that shipments of ferro-silicon from the Province of Ontario, Canada, are being sold or are likely to be sold in the United States at market lower than the fair value of the merchandise.

As a result of the ruling, customs collectors automatically are ordered to levy an extra duty on imports, but the penalty payments will vary according to the basis of calculation of their value and the conditions under which the importations are made.

After a short service at the house, the remains were taken to the Church where the layman minister spoke from the portion beginning, "Our Light Affliction." Mrs. Thompson was not without her share of trial, but her eyes were set on the things that "are eternal." "Many," said the preacher, "mourn today with us when they remember her kindness and care in sickness."

The casket was draped with the Union Jack. The floral tributes were numerous and beautiful. The church was filled with sympathizing friends. He leaves to mourn his early death, at the age of thirty-six years, his mother, Mrs. Dan Fox, and two brothers, Mr. Joe Racine, of West Charleston, Vt., and Mr. Neil Racine, of Island Pond Vt. CHAPTER XXXIX

SOMETHING QUEER AT MARR'S FOLLY.

The Epsom summer meeting was drawing near: May nearly out and still no trace of Wilmay. It looked as though the man had been frightened off from Marr's Folly by the appearance there of Jim Ferrers and Jardine, not to mention Inspector Field. The latter had lost some of his optimism; he was beginning to wonder if, after all, he was going to bring off the coup he had promised himself of laying Wilmay by the heels.

With the Derby week rapidly ap-

proaching the question of whether Break o' Day would be entitled to run without some more definite proof forthcoming that the nominator of the colt was alive was troubling many more people than merely its owner.

Jim Ferrers had informed the Stewards of his encounter with Wilmay on the tidal creek among the Essex marshes; but he felt that though to his personal knowledge he knew this elusive shadow of a man to be living, the issue as affecting his colt still hung in the balance.

When all was said and done, there was only his word and Jardine's that they had seen and chased Wilmay in

the yacht he had abandoned; and, as he realized, he was an interested person, not an independent witness.

Inspector Field was convinced he too had seen the man at Marr's Folly on the night the wolves had got free, but admittedly it was only the chance glimpse of a figure in the shadow: it was far from positive proof. The Stewards, who no doubt, realized fully the difficulties of the awkward situation that had arisen, had so far been very non-committal.

Whilst, privately, no doubt they would have accepted Jim's word unhesitatingly, this was a matter affecting a large section of the public, and the public had to be satisfied, too, over the question of evidence. And undoubtedly a strong weight of public opinion still adhered to the conviction that Wilmay was dead, any rumors to the contrary being ascribed to "Newspaper-manufactured sensationalism."

After all, in view of the circumstance of the strange tragedy at Monk's Hollow, when the victim had

at the outset been unhesitatingly identified as Wilmay by Dr. Muirhead and Inspector Field among others, Jim could hardly be surprised if the majority of the public refused to credit the story of a second man with an alleged similar brand on the wrist to account for a mistake in identity.

It was a case without any exact precedent. But one thing seemed certain. If Break o' Day ran and won, and an objection was lodged against the colt, well, the onus would be on the owner to prove Wilmay alive, not on the other side to prove him dead.

Sam Rock, the trainer, with the Derby only a week off, was feeling worried by the uncertainty.

"I've got Break o' Day trained to a hair—and not to know definitely if he won't be disqualified if he wins!" he grumbled. "Of course I know you've seen Wilmay alive. Surely your word ought to go. In any case the Stewards can't surely refuse to let the colt run; for if there's no actual proof to satisfy them that Wilmay's alive, it's acknowledged that there's more than a doubt he's dead. I have an idea, too, that there are others with an inside knowledge that it wasn't Wilmay who was killed that night at Monk's Hollow."

He paused. "Mr. Ferrers," he went on, "I've got wind that a certain little clique of bookies and professional backers, Smarty Bence and his crowd, have been laying for all they're worth against Danny. I wouldn't trust one of that crowd an inch; but there's no denying they're as knowing as a cartload of monkeys; and we all know that with Break o' Day barred, the race would look like being a gift for Danny. That looks as if they were banking pretty confidently on Break o' Day, all the difficulties notwithstanding, don't it?"

Jim nodded. "When Wilmay was a racing owner," Sam Rock went on, "he and Bence were pretty thick. What if Bence has special inside knowledge about Wilmay that he's alive—and has means of proving it on or before the day of the race? And if I'm right—well, good luck to Bence, rank wrong 'un though he is!"

"Oh, Break o' Day's going to run and win," said Jim. He wouldn't let himself think otherwise. With Wilmay living, as he knew the man to be it would be too grotesque if the colt should be held to be disqualified for the great classic race. And because of Mollie it mattered a great deal that his candidate should pull it off. Mollie stood to win back over Break o' Day practically all that Jervis Wilmay had robbed her of. The horse must run and win!

He had only seen Mollie once since their parting weeks ago, and that been a chance encounter in the street at Granthorpe. Each felt the mockery of mere friendship after having been lovers; the thought of what might have been was too bitter for both. It was better for them to keep apart, when to meet only stirred anew the old longing and pain. Ac-

cordingly Red Court saw little of Jim, who had stayed on in Jardine's flat in town.

Carfax was still living, but he had

never regained consciousness. He lay in hospital, his life hanging by a frayed thread. The police had failed utterly to trace the person or per-

sons responsible. The man who alone could have given them a clue, Fern Vail, had held his tongue.

AGRICULTURE COUNCIL PLAN RE POLITICS

To Take No Part in Conduct of Any Future Plan for Election of Candidates to Parliament.

(Associated Press Despatch)
TORONTO, Mar. 29.—The Canadian Council on Agriculture, the annual session of which is being held here, yesterday settled doubts as to its attitude in regard to politics by passing a resolution stating that the council would take no part in the conduct of any future plan for the election of candidates to parliament, leaving the matter to the local organizations to deal with as they found expedient.

Members expressed the view that the position of the council in the political arena had been the subject of considerable comment and many rumors. In 1921, it was recalled, the council formed a co-ordinating committee which was really the only base of operations for the Progressive party, and which sent out speakers and literature, and the opinion was expressed by some of the members that the council would be better to adopt a neutral position in political matters.

Opposition to this attitude was expressed by some of the members, but their objections were finally overcome and the resolution was adopted unanimously.

FATHER AND HIS CHILDREN WERE CAUGHT IN FIRE

Four Burned to Death—Mother Jumped from Window and Broke Her Hip.

(Associated Press Despatch)
COBALT, Ont., March 29.—In the little hamlet of Sabre, situated on the Quebec side of Lake Temiskaming, a fire occurred yesterday which destroyed the home of E. Lemieux, aged twenty-six, burning him to death, along with three of his children. The children ranged in ages from two months to two and a half years.

Lemieux kept a restaurant and barber shop, over which the family lived. Endeavoring to escape from the flames, his wife jumped from the second storey and broke her hip, and so hope is held out for her recovery. The cause of the fire is not known but it is believed to have started in the front of the cellar.

MAN WANTED IN MONTREAL CASE STILL AT LARGE

Police Have as Yet Been Unable to Locate Mike White, Wanted in Connection with Murder Case.

(Associated Press Despatch.)
MONTREAL, March 29.—Mike White, wanted in connection with the murder of Constable J. B. Beaudry, who was shot dead on Monday night, is still at large despite the efforts of the entire staff of the local detective force. An apparently important clue came from the town of Joliette yesterday, but when followed up was found to be useless. During the day thirty-one persons were held by detectives. They were all persons who knew White, but after examination of them it was admitted that nothing new had been obtained. It is regarded as certain that White could not have got out of the city, unless he escaped before the close watch that now obtains on all exits from Montreal, was instituted.

OPERATIVES IN COTTON MILLS GET INCREASE

Amoskeag Manufacturing Company Announces Increase of 12-1/2 Per Cent.

(Associated Press Despatch)
MANCHESTER, N. H., Mar. 29.—The Amoskeag Manufacturing Company, one of the largest cotton concerns in the world, yesterday notified employees that a 12 1/2 per cent wage increase would become effective on April 30th. About fourteen thousand operatives are affected.

(Associated Press Despatch)
BOSTON, Mar. 29.—To the increases already granted to upwards of fifty thousand wool mill operatives in New England, there were added advances to about twenty-five thousand workers in the cotton mills yesterday.

In the past advance by cotton and woolen groups, as large as those now on record for the revision upward, have almost invariably been followed by a general increase in the textile industry. Such action would affect approximately 250,000 persons at the present volume of operation, which in most cases is normal.

SOME SATISFACTION
The Boss—You are always grumbling about something.
Clerk—Well, I'm glad you admit that I'm not grumbling about nothing.

WOMEN'S REALM

(By Sylvie West)

In a letter received from Mrs. Shaw, of Montreal, supervisor of the Junior Red Cross for this Province, she states that the work is progressing rapidly, several new groups having been formed and various lines of educational and charitable work taken up. Sherbrooke schools have made a good record, and in various parts of the Townships groups have been organized in the rural schools, all proving helpful and well worth while to both teachers and pupils.

An engagement of wide interest, recently announced, is that of Mr. Leonard Ross, Editor of the Sunday "Times", London, England, and Miss Mary MacLeod Moor, whose signature is so well known to readers of the Toronto "Saturday Night" (women's section). The marriage will take place in June. Miss MacLeod who writes the delightful "London Letter" weekly for the above mentioned paper, was one of the first Canadian women to go to France as correspondent, having accompanied Miss Elsie Montzambert, of Montreal, and Miss Beatrice Nasmyth, of Vancouver, who composed the party that followed the first English women journalists to the war area.

A WORN SUBJECT.
What milady has worn, is wearing, and will wear has engrossed many minds, and always will, as some things do not change with the times. A writer in a Washington journal refers frankly to the much-worn subject—woman's love for dress.

"An evangelist preaching in Washington is reported to have said some harsh things about woman's dress and ways. The woman has been an object of denunciation ever since the first of her sex ate an apple, and some pious men seem to hold an ancient grudge against her. But the common run of men have forgiven her early indiscretion, court her, marry her and pay her bills. There was a dispute several years ago whether there could be woman angels, and it was decided that angels must be sculptured as men. Some men take exception to this opinion. They know that women are angels in this world and feel that they are necessary to their happiness, if not the peace of any other world."

It seems that the evangelist particularly denounced women's styles, and the writer adds, "That criticism does no good and it does no harm. A million yards of denunciation will not add one inch to woman's clothes. She determines that matter for herself, and no man, whether he is an evangelist or nothing more than a mere husband, has, she thinks, any right to interfere. Woman is beautiful by nature, but if she thinks a bit of lace, a bit of ribbon and some feathers will increase her charm she will carry out her will through a hundred evangelists' scowl and lament. Some have held that woman dresses for the sole purpose of attracting men. She succeeds admirably."

Others contend that women revel in the beauties and styles of each others clothes, and whether it be from a point of admiration or criticism it matters not; both have their part in a woman's life.

LIVELY CLASHES IN COMMONS

(Continued from Page 1.)
\$2,683,179, and other economies effected, cut the operating expenses by \$8,812,612 or 5.6 per cent and increased the net operating revenues by \$96,540 or 2.4 per cent. Practically all this increase accumulated during October, November and December, the net operating revenues for January to September inclusive were \$24,098,740 for 1922 and \$27,482,595 for 1921.

The enormous traffic of the last three months, chiefly grain, brought the net revenues for the three months to \$3,897,134, as compared with \$4,524,494 for the corresponding three months of 1921.

Figures concerning the operation of the Canadian National Railways, including the Grand Trunk System, given in the House this week by Hon. George Graham, acting Minister of Railways, showed a reduction in the net deficit, including fixed charges of some \$12,000,000 and brought the 1922 deficit down to \$80,251,845. Details of the Canadian National Railways operating costs and revenue were given by Mr. Graham in his statement to Parliament.

RAILSTON COMMISSION REPORT

(Associated Press Despatch.)
OTTAWA, Mar. 29.—The Ralston Commission yesterday made its report on charges brought against the Pensions Board by officials of the Great War Veterans Association. The report finds that the G.W.V.A. has failed to sustain the charges of conspiracy, plot and deliberation or other wrongful intent by the Pensions Board in dealing with the rights of ex-service men. It states, however, that the claim that ex-service men have been deprived of rights previously granted by Parliament and that established privileges have been nullified, is sustained.

The Commission was appointed as a result of charges in a telegram by certain officials of the G.W.V.A. issued to the press, charging the Pensions Board with "contemptible and cold blooded conspiracy to deprive ex-service men of their rights."

The Commission consisted of Col. J. L. Ralston, of Halifax, Dr. Walter McKeown, of Toronto, and Col. A. E. Dubuc, of Montreal.

In a recent divorce case the counsel of the lady pleaded incompatibility of temper among other reasons, and described her husband as "brutal, violent and bitter." The husband's counsel in turn represented the lady as "spiteful, angry and waspish."
"I beg your pardon," interrupted the judge, "but, gentlemen, I really don't see where the incompatibility of temper comes in."

Young People's Corner

Uncle Jim's Letter

Dear Corner Children:—

Well, we have arrived at Easter holiday time, have we not? I hope all the school boys and girls will have a nice holiday, for it will help every one in getting "toned up" for the last few weeks of school, which are always the hardest. Some of the children in the country have different school terms, but the city and consolidated schools are much the same.

Jacob tells us that he is getting on in his drawing course. We all hope that he will become a famous artist some day. I am sorry, Jacob, that we cannot use cartoons in the corner, we have no facilities for printing them, now, but may have them by the time that you become famous.

I received a letter from Mrs. Shaw this morning. She says she is delighted to learn how our Lone Member group is growing. I think Sawyer-ville and Bury are going to form groups; they have enough members now. The J. R. C. badges arrived also, and will be sent out to the members who have been waiting for them, and I have enough to supply every one who joins, for a long time.

Hoping all did their very best in the Easter exams, and that the week-end holiday will be a happy one, I will close my letter. Yours sincerely,
UNCLE JIM.

LETTERS FROM THE CORNER FOLK.

Dear Uncle Jim:—

This is my first letter to your corner. I would like to join the J.R.C. group. Last night a dog came to our window and I let him into the house and gave him some food. He ate it and then went to the stove to lie down; he seemed quite at home. I am sending in a rhyme. Yours truly,
CECIL ROE,

Bury.

Dear Uncle Jim:—

This is my first letter to you. I am eight years old and I go to the Ascot School. Miss Frost is my teacher and I like her very much. For pets I have a dog named Fido and a kitty named Snow. Your niece,
ALICE McBAIN,

Lennoxville.

Dear Uncle Jim:—

I haven't written to you for a very long time. I have joined a club, "The Sunbeam" in the Detroit Free Press. Could I send some cartoons for you to use in the corner? I have finished the third lesson in my course; it was "Expression," and I could send you some cartoons in black ink. I am glad we have a holiday from school for a time; I will be able to work on my drawings. I am sending some drawings to the Sunbeam Club and hope to win a prize. I will close wishing the club success. Yours very truly,
JACOB KRAKOWSKY,
Sherbrooke.

A LITTLE TALK ABOUT THE SWALLOW.

There are ten species of North American swallows, and we have four familiar ones; the purple martin, the barn, tree and bank swallow. All are officers holding high rank in the guild of sky sweepers. They seize their food while on the wing, and are very useful friends to us as they live on flies, winged beetles, and mosquitos. The barn swallow is a good friend to cattle for he wages war against the flies.

In some old lore about swallows it is learned that there was a Teutonic saying that whoever killed a swallow would cause rain to fall without stopping for four weeks. British farmers used to say that a person who destroyed a swallow's nest was in danger of breaking a limb within a year.

It is said that in Morocco the Moors believe that it offends God to kill these birds just as it pleases Him to kill the ravens. They also believe that the swallows and storks were given power to protect the harvest and the country from insects and reptiles.

Those strange ideas are not the same as ours, but if we looked upon

those birds in the same way, we would be more careful about their destruction. Swallows in their wild condition choose nesting places on rocky cliffs, or in the hollows of old trees, but when they are in settled places they attach themselves to the houses and barns. They are friendly and confiding, and every one should try to protect them and induce them to build their homes with the other domestic birds.

GERMANS CONTINUE TO LAND FISH AT ABERDEEN

Strike of Fishermen at Aberdeen Has Been in Progress for a Month.

(Associated Press Despatch.)
LONDON, Mar. 29.—The strike of

the fishermen of Aberdeen against the landing at that port of fish caught by Germans in the North Sea has been in progress a month and 310 trawlers are idle in consequence, although German vessels continue to land fish daily at Aberdeen.

The Lord Provost of the city has advised the local fishermen to protest to the Government direct against this state of things, and his advice will probably be taken.

TWO HUNDRED ANARCHISTS ARE ARRESTED

Fighting Follows Raids on Meetings—Several Soldiers and Anarchists Killed at Jagbol.

(Associated Press Despatch)
SOFIA, Mar. 29.—More than two hundred alleged anarchists have been arrested throughout the country in raids conducted by the police during the last few days.

Sixty-three persons were taken into custody in this city when the police surrounded a meeting hall. One man, while trying to escape, killed a policeman and wounded an officer. He then committed suicide.

One hundred and fifty arrests were made at Jagbol. In the fighting that followed the raid on the meeting, one officer and several soldiers and anarchists were killed.

The police station at Nova Zagora, in which some anarchist prisoners were confined, was stormed, two persons being killed.

The anarchist Dascaloff, who is alleged to have thrown a bomb at Premier Stambouliiski, in a theatre not long ago, has also been arrested.

CAN'T CONSIDER PENSION PLAN AT PRESENT

Financial Conditions Prevent Institution of Scheme in Canada at Present Time.

(Associated Press Despatch)
MONTREAL, March 29.—Financial conditions prevent the institution of an old age pension scheme in Canada at the present time. Right Hon. W. L. Mackenzie King, Premier of Canada, informed D. W. Morrison, M.P., in Nova Scotia, and Mayor of Gloucester Bay, N.S., who headed a delegation which waited on the Government yesterday.

Mr. Morrison arrived in Montreal last night following the visit. With him were Mayor Muir, of Westville, N.S., and Daniel O'Connell, of New Waterford.

Based on a resolution passed by district 26 of the United Mine Workers of America at their convention in Toronto last year, the delegation asked the Government to institute an old age pension scheme similar to that pertaining in Great Britain.

In outlining the policy of the Government, the Premier emphasized the existing financial stringency which necessitated almost ruthless enforcement of economy. Mr. Morrison said, although Premier King admitted that the necessity for old age pensions was beyond argument.

The latter declared the Government would abide by their avowed declaration in regard to this scheme and other social legislation as soon as the financial conditions of the country would permit.

The leader of the Government further pointed out that legislation of this character must be enacted by the federal authorities, as it was within the scope of the provincial governments.

Mayor Morrison and his conferees interviewed several members of the various parties in the House, from whom they received promises that their ideal would be pressed and followed.

Assisting the Premier in the reception of the delegation were Hon. James Murdock, Minister of Labor; Hon. D. D. McKenzie, Solicitor General; Dr. M. Fontaine, member for Hull; William Neil, independent member for British Columbia; E. N. McDonald, M.P. for Pictou, N.S.; and W. F. Carroll, M.P., one of the Cape Breton representatives.

FEAR CONFLICT BETWEEN FEDERAL AND GOVERNMENT OF STATE OF VERA CRUZ

General Garcia, of Mexican Federal Army, Killed from Ambush While Inspecting Troops.

(Associated Press Despatch)
VERA CRUZ, March 29.—General Silvano Garcia, of the Mexican Federal Army, was killed yesterday from ambush while inspecting the small garrisons in the region of Cordoba. The shooting was done by farmers, who for some time have been under arms.

A grave conflict between the Federal Government and the Government of the State of Vera Cruz is feared as a consequence of the killing of General Garcia. The agrarians who assassinated him are said to have been armed by the State Government with the purpose of supporting the State's communist policy for the division of estates.

SIR ADAM BECK WAS EXAMINED RE ESTIMATES

Denies that Engineers of Hydro Commission Concealed Any Information.

(Associated Press Despatch)
TORONTO, March 29.—"There is an idea abroad that the engineers of the Hydro Commission or officials of the Commission rather avoided giving information on the progress of the Chippawa work or its cost, or anything pertaining to it—concealing it, if you like to go that far. I, as chairman, disown anything like that on the part of our organization. Our organization is honest and always has been."

Speaking with considerable feeling in the course of his examination by N. W. Rowell, K. C., before the Gregory Commission, Sir Adam Beck thus expressed himself yesterday.

"My heart bleeds when I think of the insinuations that go about in this country reflecting on the professional character of these men," he said. "There is the one thing that hurts."

"I have heard no one challenge their honesty," said Mr. Rowell. "Oh, yes," returned Sir Adam, "on the floor of the House."

Sir Adam Beck was under examination by Mr. Rowell throughout the whole afternoon, in regard to the Chippawa estimates.

MARTINVILLE, N.J., March 29.—The village of Martinville was threatened with destruction late yesterday, when a fire which started in a garage in the village spread rapidly to adjoining houses and levelled seventeen buildings before firemen were able to check it. The loss is estimated at more than \$150,000.

The origin of the fire is laid by authorities to the burning of a pot of varnish in the garage of Fred Bartle.

INVESTIGATION CONTINUED INTO SUGAR SITUATION

Secretary Hoover Says Present Prices Will Result in Decreased Consumption and Increased Production.

(Associated Press Despatch.)
WASHINGTON, March 29.—Outstanding developments here yesterday in the sugar situation were the announcement by the tariff committee that its inquiry into the effect of the new import duties on prices would be more far reaching than originally intended, and the prediction by Secretary Hoover that present prices would result in decreased consumption and increased production.

LONDON, March 29.—The Salvation Army's self-denial week resulted in £1,000 being raised, an increase of £8,000 over the previous year. It was regarded as remarkable that the East End of London, where much squalor and poverty existed, contributed £10,000.

NEW YORK PRESS MARKET COMMENT

Wall Street Journal—With the market again free from selling pressure and restored to a state of relative buoyancy, the speculative community began to wonder what its fight over the rediscout situation had been all about.

Journal of Commerce—Although there was a tendency to ascribe the improvement of conditions to more hopeful prospects with regard to money and other factors in the market, the truth was that these factors had no serious effect at any time.

New York Tribune—The market was only spasmodically active, but prices were well maintained in the intervals of dullness. Short covering contributed in an important measure to the upturn, and was supplemented in some issues by speculation for the rise.

Wall Street Journal will say today:—

American Telephone and Telegraph develops along normal lines. Increase in capital necessary to take care of contingencies coupled with the continued growth.

Willis-Overland last year continued house cleaning. An aggregate of \$35,307,000 charged off in effort to reach solid foundation.

Norfolk and Western enjoying increased coal movement.

National Leather now operating at 75 per cent.

Copper prices firm despite small buying. Price nominally 17 3-8 cents delivered, with offerings below that from second hands.

INDUSTRIAL LIST SHOWS STRENGTH ON WALL STREET

(Associated Press Despatch)
NEW YORK, Mar. 29.—(Wall Street Noon.) More than seventy stocks had advanced a point or more above last night's closing quotations before noon. Railroad shares made only a feeble response to the impressive strength shown by the industrial list, speculative interest in these issues being dimmed by the failure of the New York central directors to increase the quarterly dividend. Several stocks reached new high records for the year, including Maryland Oil, Phillips Petroleum and Union Bag and Paper. Bechtel Packing was conspicuously heavy, falling three points from its early high level on profit taking. Some of the outstanding strong spots were Manhattan Electrical Supply, American Tobacco "A" and "B", and Virginia Carolina Chemical preferred, up 3 to 3 1/2 points.

Call money opened at 5 1/2 per cent.

The number of victims has increased rapidly since the outbreak occurred some days ago, but to date only three persons have died. An increase in force of nurses and doctors are working in improvised hospitals.

LAST NIGHT WAS ONE OF WORST OF THE WINTER

Temperature of Eleven Below Zero, Combined with High Wind, Made Nastiest Night of the Season.

The coldest twenty-eighth of March for about eighty years, and the most unpleasant night of the whole exceedingly Alaskan winter, was the achievement of last night attained by that most unpopular of personalities, the "Weather Man." The strong wind which blew down from the hills—Sherbrooke is unfortunately entirely surrounded by hills and the wind blew down from them all—forced the thermometer down to an official mark of eleven degrees below zero at the Lennoxville Experimental Farm on what was unanimously accorded to be the most uncomfortable night of the winter.

According to Sir Robert Stupart, director of meteorological service for Canada, who has issued a weather prediction in response to urgent requests from frost-nipped admirers, the present cold weather is the coldest ever recorded in Toronto so late in March, since 1840. Areas of high and low pressure, he says, are following each other with extreme rapidity from the Mackenzie River Valley to the Gulf of St. Lawrence.

Now the Mackenzie River Valley comes to an end perilously near the Arctic Circle, so this information is not as encouraging as one might hope. Furthermore, Sir Robert enlightens the public with the statement that the high pressure areas are accompanied by extremely low temperatures. The despatch concludes with the statement that: "We do not feel very optimistic regarding the characteristics of the coming Spring."

The old-timers, respected by time-honored custom as reliable weather prophets, are at a loss to predict what is coming next, but one wise man is quoted as saying that "whatever may have been the prospects at Christmas, it is now fairly certain that we won't have a 'green Easter'."

TEN BELOW AT OTTAWA.

(Associated Press Despatch.) OTTAWA, Mar. 29.—Last night Ottawa was back to real winter again. At six o'clock it was reported to be ten below zero and at midnight the mercury registered one degree higher. This, coupled with a very high wind, made conditions very unpleasant for pedestrians.

COLDEST IN HISTORY OF BUREAU AT NEW YORK.

(Associated Press Despatch.) NEW YORK, March 29.—New York shivered in the coldest March 28th in the history of the weather bureau when the temperature fell to fifteen degrees late last night.

RESULTS OF GERMAN LOAN NOT YET KNOWN

Unofficial Financial Circles Not Very Optimistic Regarding the Results of the "Dollar Loan."

(Associated Press Despatch.) BERLIN, March 29.—Neither the Reichsbank nor the Ministry of Finance were prepared up to a late hour last night to approximate the extent to which Germany's first and widely advertised dollar loan had been underwritten.

Although the subscription lists were closed to the public last Saturday, the outstanding returns, it was said, made the advance estimates premature and inconclusive, as the loan was given most active support during the last days the subscription list was open, according to reports received from both the Reichsbank and the Ministry of Finance.

Unofficial financial circles, however, appeared less optimistic over the burst of patriotism which the ultimate result is expected to reveal, and were inclined to predict that less than 75 per cent. of the total face amount of the loan, approximately \$50,000,000, had been underwritten by the public.

TO PAY U.S. ONLY OUT OF GERMAN REPARATIONS

Endeavoring to Reach Agreement on Reimbursement of U.S. for Cost of Rhine Army.

(Associated Press Despatch.) PARIS, March 29.—Le Matin in commenting today on yesterday's conference between Elliot Wadsworth and the representatives of the Allies who are endeavoring to reach an agreement on the reimbursement of the United States for the cost of United States Rhine "army" says: "The Allies neither examine the basis of the demand, nor do they protest against one American soldier costing more than three French, or the fact that the cost of football matches figures among the expenses."

The conference was adjourned until next Wednesday following the admission by Mr. Wadsworth of the United States State Department's reply to the Allied proposals. A counter offer was made by the European delegates. The Allies are determined that the United States shall be paid only out of German reparations.

REVIEWED THE LIQUOR LAWS IN THIS PROVINCE

Joseph Archambault States that Prohibition is Encroachment on Personal Liberty.

(Associated Press Despatch.) TORONTO, March 29.—"Prohibition is an encroachment on personal liberty. In Quebec we are in favor of temperance, temperance in all things. The people are behind the liquor law as administered in Quebec, and what has been the result? There has been a marked decrease in drunkenness, the manufacture of illicit liquor has diminished; people are drinking more beer and wine and less hard liquor and there is better health throughout the province."

Joseph Archambault, M.P. for Chambly-Vercheres, thus summarized the results of Government control of the liquor trade in Quebec since 1921, in speaking at a well-attended meeting in the Foresters' hall last night, convened by the Moderation League of Ontario.

First Serious Outbreak of Shooting in Some Time Occurred Today in Dublin.

(Associated Press Despatch.) DUBLIN, March 29.—The first serious outbreak of shooting in some time occurred in various parts of the city early this morning, but no casualties were reported. National troop guards stationed at Collins Barracks, City Hall, King's Inn and Wellington Barracks were attacked by rifle and machine gun fire. The troops replied and rushed patrols to scour the affected areas.

After a heavy fire that lasted half an hour, quiet was restored. One bomb was thrown in the course of the disturbance, but no damage was done.

Rebels Were Forced to Evacuate Town of Villarica, Paraguay.

(Associated Press Despatch.) STINNES HAS PURCHASED MUCH LAND IN ARGENTINA

Stated that Land Was Purchased Primarily for Cotton-Growing Purposes.

(Associated Press Despatch.) BERLIN, March 29.—Hugo Stinnes has purchased large tracts of land in Argentina, primarily for cotton-growing purposes, according to Konfektionaer. The land lies along the bank of the Parana River and has direct connections with the Argentine Northeastern Railway. Preparations for the cultivation of cotton have already begun, the article says, adding that industrial enterprises for manufacturing cotton products will also be established.
