VOL. XXXVI. No. 227 MONTREAL, FRIDAY, SEPTEMBER 23, 1904. PRICE ONE CENT.

HEAVY FIGHTING AT PORT ARTHUR

Russians Lost Many Men and Guns in Recent Attack.

ALL QUIET AT MUKDEN

Japanese Skirmishes Are Pushing Northward and Developments Are Expected Soon.

Mukden, September 23.—The situation here continues quiet. Small parties of Japanese skirmishers are pushing northward on the road from Bentsiaputze to Fushan.

It is stated by Russian spies that Marquis Oyama has detached a considerable force to co-operate with the army before Port Arthur.

The Russians have taken many Chunchuses prisoners, among them being found a number of Chinese regular soldiers.

The weather has turned suddenly cold. The supply of uniforms is inadequate and the soldiers are being supplied with Chinese padded overcoats which have been bought in large quantities.

Captain Shubert and four Buriat cossacks have returned from a long scout south of the Japanese main army. The captain brings important information regarding the Japanese locations and movements, and says active operations in this vicinity probably will develop within a few days. Captain Shubert experienced great kindness at the hands of the Chinese who fed him and his men and offered to disguise them in Chinese clothing.

St. Petersburg, September 23. Gen. Kuropatkin telegraphs that the Japanese have assumed the offensive from Rentsiaputze, on Fu Pass, which is on the railway between Mukden and Fushan, about twelve miles from Mukden.

SOME RECENT FIGHTING.

Tokio, September 23, 1 p.m. — An official telegram reports that fights have taken place at the towns of Tieling and Sangiungku, sixty miles north east of Liao Yang, on September 20. The despatch says:

"Our detachment advanced through Heimachuang on September 20 and attacked the enemy, consisting of one company of infantry, some cavalry and a machine gun, stationed at Tieling and a battalion of infantry, five hundred cavalry, six quick firing and one machine gun, stationed at Santungku, which lies eight miles north of Tieling. The Russians, who were driven off to the northward, left nineteen dead behind them. We captured some spoils. Our losses were very slight."

BRITISH CRUISERS ARRIVE.

Las Palmas, Canary Islands, September 23. — The British cruisers St. George and Brilliant arrived here today.

A Las Palmas despatch yesterday said the Russian cruiser Terek, which had been stopping British vessels in the vicinity of Gibraltar, had begun coaling there, but that, on instructions received from Madrid, she had been ordered to leave Las Palmas, and was forbidden to take on board any more coal, any water or stores.

SITUATION AT PORT ARTHUR.

London, September 23. — A despatch from Cheefoo says that in an assault on Port Arthur on Wednesday, forts Kuropatkin and Erlangshan and batteries C, O and P were taken by the Japanese. General Stoessel ordered a counter attack which began at 9 o'clock yesterday morning. The fort at Erlangshan was retaken.

The battle is still going on, and the Japanese fleet is taking part in it.

General Stoessel's wife was wounded in the shoulder while attending the injured.

It is reported that the cruisers Rossia and Gromovol, five torpedo boats and three destroyers left Vladivostock Wednesday night.

St. Petersburg, September 23. — The General staff has received a despatch stating that in the assault on Port Arthur September 15, forty-five Russian guns were destroyed, 400 men were killed, and 800 wounded, of whom five per cent. were officers.

THE TERRITORIAL LEGISLATURE OPENS.

Special to The Montreal Star.

Regina, N. W. T., September 23.—The third session of the fifth Legislative Assembly of the North-West Territories was formally opened yesterday by Lieutenant-Governor Forget. His Honour was escorted from Government House by a detachment of the Royal North-West Mounted Police, who for the first time wore their new uniforms, with blue facings, worn by all military organizations, honoured with the designation "Royal." His Honour was accompanied by Colonel Macdonnell, D.S.O., as A.D.C., Assistant Commissioner Mellree, Superintendent J. O. Wilson and Inspector Ritchie, of the R. N. W. M. Police. A large number of members were present for the opening, but the attendance of citizens was small owing to the reception to Lord and Lady Minto, which took place yesterday.

The speech from the throne referred with regret to the approaching departure from Canada of Lord Minto, and foreshadowed the introduction of a number of bills of importance to the Territories. In reference to the matter of autonomy, the speech says:

"I have to express the regret of my Government that the movement towards the establishment of the Territories upon the provincial basis has not been materially forwarded during the past year. All correspondence upon the subject will be submitted to you."

MAYOR LAPORTE HOME AGAIN

Returns From Interesting Meetings Held in London, Ontario.

WAS ELECTED PRESIDENT

Believes Efforts for Higher Municipal Ideals Will Achieve Great Success.

Mayor Laporte returned to the city to-day from London, Ont., where he has been attending the annual meeting of the Canadian Municipalities Association. While at the session, Mayor Laporte was elected president of the organization.

"I deeply esteem the honour conferred upon me," said the Mayor to-day, "for this organization is doing splendid work for many cities in Canada. The main aim of the organization is to put civic affairs in all the cities in Canada on a higher platform than in the past, and also to prevent Legislative and Government interference in municipal politics. In the past the various legislators, especially, have given away slices of municipal franchises to private corporations, which have hold a heavy toll on big cities. For instance in our own city many corporations have been given rights to lay conduits in the streets, etc., without paying a cent to the corporation for the privilege. This has resulted in an immense loss to the city.

MORE HOME RULE

"At the meeting in London, special attention was given to the problem of getting more home rule, and less interference from members of the different Legislatures. Reports were made which showed much good had already been done in Ottawa and in Quebec to lessen this interference.

"At the meeting in question, a motion was brought up that telephones be operated and owned by the government and by cities. The idea was that long distance telephones should be owned and controlled by the Government, while local telephones should be operated by municipalities. A motion was adopted approving of the idea of the long distance idea, but nothing was done in regard to the suggestion that municipalities should control local lines. The question was such a big one that it was referred to a special commission.

"A motion was also made that a great union of Canadian municipalities should be formed for the prrpose of starting independent insurance companies. The desire was to break up the combine existing among the present insurance companies, and provide better insurance for citizens.

"The idea was well received, but the problem was such a vast one that it, also, was referred to a special commission.

"I believe," concluded the Mayor, "that in the near future, the organization which is working for higher municipal ideals will achieve great results. In less than a year's time there should be no less than three hundred municipalities attached to the organization. The organization should be able to keep members of Parliament and others from giving away municipal privileges without municipalities being consulted."

Chief Benoit Reinstated.

Chief Benoit, of the Maisonneuve Police and Fire Departments, was reinstated in his position by the Maisonneuve Council last night. He had been suspended on a charge of neglecting duty pending investigation. The motion for his reinstatement was voted for by Aldermen Richer, Bennett and Trudel. Aldermen Riendeau and Reid, contra.

MERCHANTS HERE FROM AUSTRIA

Members of Important Body Now Visiting the City.

AT THE BOARD OF TRADE

Received by the President and Shown the Sights and Industries of the City.

The members of the Austrian Manufacturers' Association to the number of fifty-six arrived in the city this morning on their tour of Canada and the United States. The party, which is made up of prominent manufacturers of the different Austrian cities, was in Toronto yesterday, and left last evening for this city. Upon their arrival this morning they proceeded at once to the Queen's Hotel, where they are making their headquarters, and here they were visited by the Austro-Hungarian Consul-General, Dr. Freyesleben.

At eleven o'clock the deputation, which is accompanied by a number of the wives and daughters of the delegates, visited the Montreal Board of Trade. Here they were received by Mr. George E. Drummond, president of the board, and members of the council.

Col. Sir Howard Vincent, K.C.M.G., who was present, was introduced by the Austrian Consul-General, and he addressed the delegates in their native tongue, speaking German with great fluency.

A member of the party responded first in German and then in English, after which the party left the council room, where the reception had been held, and made a tour of the building. The party then proceeded to the City Hall, where they were received by Mayor Laporte and a number of aldermen. The party, under the guidance of the city officials, then took carriages and made a tour of the city and the mountain.

The party also visited the Angus shops during the day.

DISTINGUISHED MEN.

In addition to the manufacturers and merchants there are a number of men of letters in the party. Prof. Gressler, of the Stuttgart Industrial High School; Prof. Leobner of Vienna, inspector of technical education; Prof. Gross, of Tetschin Agricultural Academy; Prof. Cicalek, of the Commercial High School, Vienna, and Dr. Rudolf Kobatsch, of the Imperial Consular Academy, who is also secretary of the association.

Rudolph Hofherr, a member of the party, stated that the association was the oldest of its kind in Austria. It having been founded in 1839. It has now a membership of over 3,000. Twenty years ago it founded a technological museum and institute, where there were now enrolled nearly 2,000 students.

The party left Hamburg on August 18, by the Deutschland, and New York was reached seven days later. Among the cities subsequently visited were Philadelphia, Pittsburg, St. Louis, Chicago and Buffalo, and in each careful inquiry was made into the systems of banking and the operations of the wholesale houses and factories. The Carnegie steel works and the Westinghouse works at Pittsburg had given particularly striking object lessons. According to Herr Hoffher, the party was much impressed with the St. Louis Exposition. He had seen the Paris Exhibition, and was of opinion that the former was on a much grander scale.

From St. Louis they proceeded to Niagara Falls, and from there to Toronto. They were much impressed by the industrial activity of Canada. They will go from there to Boston, whence they will sail for Hamburg.

The party is accompanied by four ladies, Fraus Gressler, Deutsch, Turiet and Wiltschek.

ARCHBISHOP DAVIDSON IN TRAIN WRECK

East Brookfield, Mass., September 22.—A special train conveying the Archbishop of Canterbury from Bar Harbour, Maine, to Washington, was wrecked on the Boston and Albany division of the New York Central Railway near the station here this morning. The Archbishop was not injured, although considerably shaken up. J. Pierpont Morgan, of New York, who was also on the train accompanying the Archbishop, was shaken up, but not hurt.

The special, running at the rate of 50 miles an hour, was just passing the station when a detached locomotive which had been drawing a train on the North Brookfield branch ran onto the main line. The engineer of the special sighted a danger signal, but owing to the high speed of the train and the slippery rails due to the mist of early morning he found it impossible to more than slightly reduce the speed of his locomotive. The engineer of the branch engine heard the onrush of the special, but he had not time to move out of the way. The Archbishop's train struck the North Brookfield engine with a terrific crash and demolished it. The locomotive of the special was thrown from the rails and landed across the east-bound track near the wreck of the North Brookfield engine. The cars did not leave the rails.

Rev. J. Ellison, the Archbishop's secretary, answered for those in the Archbishop's private car, including Mrs. Davidson, saying that no one was injured.

With the Archbishop, besides Mrs. Davidson and Mr. Morgan, were Rev. Hyla Holden and Rev. J. Ellison, and attendants. It was rumoured that a maid was hurt, but her injuries were not held to be serious. Traffic on the road was blocked for some time.

The Archbishop of Canterbury's special train with a new engine, resumed its trip to Washington just before 10 o'clock.

ITALIANS SEND CONGRATULATIONS.

A number of prominent Italians anxious to send congratulations to their King and Queen, had the following cable sent to Rome:

Montreal, September 17.

His Majesty, Victor Emmanuel III., King of Italy, Rome.

"In my name and in that of the good Italian labourers who are found scattered in this foreign country, the Dominion of Canada, we wish a long life and a happy life to His Majesty and his royal wife, and to the young Prince Humbert.

"Antonio Cordasco."

Yesterday the following reply was received:

"Racconigi, September 21.

"Cordasco, Antonio,

"His Majesty thanks you kindly for your welcome congratulations.

"Ministre Ponzio Vaglia."

JURORS FINED FOR NON-APPEARANCE.

Those who were summoned to appear as jurors in a coroner's inquest must serve, and if the inquest be adjourned they must return at the appointed time. Two men named Alfred Beaudet, 60 Dorlimier avenue, and Odilon Imbeau, 1368 Notre Dame street, were arrested and taken before Coroner McMahon yesterday on a charge of absenting themselves from the adjourned inquest in the Demers' case last week, they having been jurors in the case. They did not know that they were obliged to return, and while the coroner informed them that ignorance of the law was no excuse, he let them off with a nominal fine, where he could have imposed a penalty of $40. Three other absentee jurors are to be rounded up.

Special Notice.

The Y.M.C.A. Games.

The Field Day of the Y. M. C. A. was a great success. The weather though a little chilly was beautiful and the competition was very keen. Among the association records smashed were the 100 yards dash, in which J. C. Riddell beat D. Mundy's time of 10 3-5 seconds 1-5 of a second; and the 220 yards race in which J. C. Riddell also beat F. Weber's 25 second record by doing it up in 24 seconds.

In the evening the distribution of prizes took place in the gymnasium of the Y.M.C.A., and the occasion was incidentally made to mark the opening of the athletic season of the association.

The officials of the day were:
Referee—T. Wall.
Track judges—Geo. A. Burton, H. G. Mathews.
Field judges—A. E. Desisiets, F. H. Doig.
Timekeepers—T. Wall, C. C. Holland, W. S. Leslie.
Starter—F. J. Tees.
Scorers—C. M. Dagget, R. A. Beckett.
Marshal—H. O. McGuire.
Clerks of course—H. Ballantyne, W. A. McLaren.
Announcer A. L. McConnell.
Committee—A. L. McConnell, B. D. Mitchell, C. J. Morrison, H. O. McGuire, G. Smith, J. N. McCuaig, F. W. Shaw C. A. Bradbury, G. A. Burton, H. G. Mathews, J. E. Merritt.

The score was as follows:—
100 yards—1, George Palmer; 2, A. Morrison. Time, 10 2-5 (association record).

Throwing 16-lb. hammer—1, George Smith, 90 feet 6 inches; 2, F. W. Bates, 90 feet 2 inches.

880 yards—1, George Palmer; 2, N. Lay. Time, 2 min. 9 1-5 sec.

Putting 16-lb. shot—1, F. Egan, 32 ft. 7 in.; 2, F. W. Bates, 32 ft. 2 in.; 3, C. Stanley, 31 ft. 10 in.

One mile run—A. Morrison, 2, C. Mason. Time, 4 min. 51 sec.

Boys, 100 yards (under 15 years)—1, George Damant; 2, Thos. Potter. Time, 13 sec.

Broad jump, 1, F. W. Bates, 19 ft. 1-2 in.; 2 C. G. Higginson, 18 ft. 8 1-4 in.; 3, George Smith, 18 ft. 5 in.

Boys, 100 yards (under 18 years), 1, J. C. Boyle; 2, P. H. Clarke. Time 11 1-5 sec.

Hagrier (5 miles) for Silver Cup, 1 team C, 49 points (F. Smith, C. G. Morrison, W. Smith, J. Coffey, A. Cameron); 2, team B, with 55 points, (J. N. McCuaig, N. Lay, E. Forest, H. Archibald, T. B. Patterson); 3, team D, with 53 points (W. Henschell, J. G. McCammon, C. Yulle, A. Boire, D. d'Albenas); 4, team A, with 32 points (C. Stanley, G. Fleet, W. McCulloch, T. Hawkins, G. Williams). Time, 30 min. 33 sec.

3 mile walk, 1, D. K. Linden; 2, J. Leonard.

Obstacle race, 1, A. W. Cameron.

220 yards, 1, J. C. Riddell; 2, J. C. Boyle. Time, 24 sec. (association record).

High jump, 1, J. C. Anderson, 4 ft. 11 in.; 2, F. W. Bates, 4 ft. 7 1-2 in.

Cancer of The Face.

New Tables for M.A.A.A.

Mr. Fred W. G. Johnson, hairman of M. A. A. A. billiard committee, is hard at work preparing things for the coming season.

Several hundred dollars are being spent putting in two (standard size) 5x10 new carom tables and a straight rail carom tournament is to be started at once. The handicaps will be based upon the averages made by the contestants in previous matches. The entry fee is 25 cents and the entries are to close on the 24th of September. All the averages of the previous season's matches have been figured out, and the results have been posted in the billiard room.

The committee shall be glad to hear from other city clubs with a view or arranging friendly matches.

BASEBALL

Even Break With Jersey City.

There certainly are no flies attaching themselves to the countenance of Mr. Leroy. For the third time inside of a fortnight he has pitched a double header and only one of the six games was lost.

His first game yesterday was the best of the whole bunch, successful as the others were.

The Jersey City team which from the opening of the season have been keen strugglers for the top notch, were shut out, and only got four hits in the nine innings.

Seven of those from the home of the mosquito were struck out, and only one pass was delivered.

In the second game Leroy was not so fortunate. The enemy got on to his curves a little, and his support was not as gilt-edged as in the first game. The error list was a spotless as the reputation of a new born kitten in the first contest.

In the second game there were two errors, which contributed materially to the result.

Leroy himself added a couple of wild pitches at times, when they brought deep joy to the heart of the enemy.

The hits were about even in the second game, Easson also doing the box act twice for the Jerseys. Montreal's hits did not come in bunches, and the one error given by the visitors did not have very disastrous results for them.

In the opening game Jersey City secured four hits in the first four innings, and then they fell like oats before the mowing machine, and only one man even reached first.

The narrowest escape from securing a run which Jersey City had was in the fourth, when a throw from Leroy to Hartman cut off Clements at third.

Montreal started to do business in the second. Yeager drove out a beauty for two sacklets.

Hartman bunted out a sacrifice, and Joey reached third.

Kelly sent a single over the head of second base, and Yeager went home. Joyce forced Kelly, and Gibson put up a pop, which Doolin gathered in.

In the third another came to the home Birds.

There was a carnival of fussy little bunts, Leroy, Thoney and Walters all putting the marble into the infield, and filling the bases.

Leroy was forced at the plate by Clancy, but Thoney scored on Duff's bad throw to first to cut off Clancy.

Yeager and Hartman went out, and the side retired.

In the fifth the bases were again filled by Montreal, but the required smack failed to materialize.

The score:

MONTREAL.

	a.b.	r.	b.h.	p.o.	a.	e.
Thoney, 2b.	4	1	1	2	1	0

Score by innings:
Montreal .....0 1 1 0 0 0 0 * *—2
Jersey City .....0 0 0 0 0 0 0 0 0—0

SUMMARY

Two-base hits, Yeager and Walters; sacrifice hit, Hartman; stolen base, Joyce, base on balls, off Leroy 1, hit by pitched ball, Yeager; struck out, by Leroy 7, by Easson 2, wild pitch, Leroy, left on bases, Montreal 8, Jersey City 5.

THE SECOND GAME.

It seemed at times as though Montreal were going to do wonderful things in the second game, but just when a hit was wanted it would coyly go and hide itself.

In the third, Jersey City made the first score.

Easson made a two bagger, but remained stationary while the two next men went out.

Then Merritt put out a single and Easson got home.

Merritt was nailed trying to steal second.

Montreal got two in the fourth and things looked promising for another win.

Hartman made a single and Kelly was handed out a pass.

Joyce did a sacrifice and the two runners advanced a station.

Gibson delivered a fly to right field, and Hartman and Kelly scored on Keister's wide throw to the plate.

It was in the sixth, however, that Montreal went to pieces.

Merritt was an easy out, Thoney to Clancy.

Then Clements sent one to Yeager, which Joey dallied with and the batter reached safety.

Just here, a belated bumble bee buzzed in Leroy's ear and he handed out a wild pitch which enabled Clements to reach second.

Halligan pounded out a two bagger, and Clements scored.

Yeager made a bad throw of Doolin's drive, and "Dooly" also pinched second.

Another wild pitch scored the two runners.

Vandergrift drew a pass, but Woods retired on a fly to Joyce, and Vandergrift was forced by Easson.

In the eight, Halligan secured a pass, and went home on singles by Vandergrift and Easson.

Montreal also came very near to doing something in the eight, and indeed, did work in one run. Yeager hit a two-bagger, advanced on Hartman's out, and got home on Kelly's fly out to Doolin.

The game ended in the eight.

There was no sensational incidents in either game to mark Jersey City's farewell to Montreal. Duffy, who acted as catcher in the first game for the visitors, was a Manhattan College student, who acted as catcher in the past at times for the Mascottes.

Struck out, by Leroy, 2; by Easson, 1. Wild pitches, Leroy, 2. Left on bases, Jersey City, 6, Montreal, 6. Umpires, Ruderham and Conahan.

How the Leaders Fought.

Special to The Montreal Star.

Buffalo, September 23.—The Orioles took the first of a double header from the Bisons yesterday. The contest was one of the best seen on the local grounds this season. Del. Mason, formerly a Bison, twirled for the Baltimores and pitched superbly. He had excellent control at all stages. Green opposed him on the slab and pitched well, but the Bisons were weak at the bat. Hayden scored the first run in the opening inning for Baltimore, after he had been given a base on balls. From that time until the ninth there was no scoring. Each team made one in this inning, Jordan's base on balls and Hearne's and Mason's hits scored. Lewis allowed Grimshaw his base on an error and Atherton's two-bagger scored him in the ninth.

At Buffalo—First game—
Buffalo .....0 0 0 0 0 0 0 0 1—1 6 1
Baltimore .....1 0 0 0 0 0 0 0 1—2 12 1

Batteries—Greene and McAllister, Mason and Hearne.

SECOND GAME.

Baltimore started off like a whirlwind. Matthews had nothing to fool the Orioles, and he was banked for two runs. McGee was substituted, but before he was warmed up two runs were secured off his delivery. After that he was a mystery. Burchell, who met a warm reception in the ninth innings of Tuesday's game, begged Manager Jennings for another fling at the Bisons, and his request was granted. His pitching was well flattened, and he was finally called to the bench, while a newcomer by the name of McNeal wound and unwound himself during the last two innings. He left the impression that he is bound to succeed as a twirler. Buffalo nailed this game in the fourth and drove Burchell to his seat at the same time. Grimshaw basted the ball to deep centre for two bases, sending in Clymer and McGee. Nattress fell off McNeal in the fifth for a triple, but never scored. McFarland made a home run in a most fortunate way. He struck up a short high fly to centre. Delehanty ran hard to get it close to the ground. Ball and fielder failed to connect, the sphere rolling to deep centre. McFarland going the rounds with Kelly leading the way.

Score:

Second game—
Buffalo .....2 0 1 3 0 0 *—6 9 1
Baltimore .....0 2 1 1 0 0 0—4 7 3

Batteries—Magee, Matthews and McAllister, Burchell and Hearne. Umpire, Kelly. Attendance, 9,351.

MISCELLANEOUS

To-night's Wrestling Match.

The match for the middleweight championship at Sohmer Park to-night between Maupas and Rogers ought to be a good one. Yankee Rogers, the American champion at mixed styles and Graeco-Roman, who meets the French champion to-night, is in town and in perfect condition for the contest, and confident of success. He has trained faithfully for nearly four weeks and is as hard as steel, and eager for the fray. His friends think that the people of Montreal will admit in seeing Rogers in action that he is the fastest man of his size they have ever seen wrestle.

The St. Louis Athletic Club has reserved the right to name the referee, and we trust that an honest and capable man will be selected. Rogers inserted in the articles of agreement that the referee must be agreeable to both principals. Rogers will be satisfied with any disinterested gentleman of good reputation, provided he is familiar with the game.

Walter Kelly, sporting editor of the Buffalo Courier, who accompanied him, says:

"Rogers is one of the greatest young wrestlers in the world, and his friends will be prepared to back him."

LACROSSE

Closer Union in Lacrosse.

Special to The Montreal Star.

Toronto, September 23.—The joint meeting of the C. L. A. Council and representatives from the N. A. L. U. was held Wednesday night at the Iroquois Hotel. While nothing definite could be done by either body, still there was a universal desire to bring about harmony in lacrosse, and to try and get it under one governing body. The C. L. A. was not disposed to regard the C. A. A. U. as a capable body, because it was not a thoroughly representative union. The C. L. A. promised to try and get their association at its annual meeting to bring about a union on some basis. Those present were H. J. Trihey, T. O'Connell, Shamrocks; A. Prieur, Nationals, and G. Pettigrew, Montreal, representing the N. L. A. U. Those present for the C. L. A. Council were President Fred Frank, Vice-President Francis Nelson and Geo. Allen, Secretary W. H. Hall, Past President J. F. Lennox, H. Gillespie, F. Babcock, J. D. Bailey, F. E. Ellis, H. M. Jackson and J. C. Miller.

At the opening of the meeting President Frank of the C. L. A. stated that the conference was called to try and come to some arrangement between the C. L. A., the N. A. L. U. and the C. A. A. U. so that lacrosse in general would be put on a better basis and could be controlled. Mr. Trihey, of the Shamrocks Lacrosse Club, was called upon to speak for the N. A. L. U. He said that the position of affairs at present was such that the N. A. L. U. clubs could not compete with the C. L. A., as the latter body was under suspension by the C. A. A. U., as far as its senior teams went. The present trouble in connection with the Ottawa team was gone into, and Mr. Trihey explained how the Capitals were reinstated to good standing. In this motion was incorporated a general amnesty to any union for its past offences and expelled or professionalized players if it would join the C. A. A. U. Unless the C. L. A. joins the C. A. A. U. the Eastern representative said that there would be no further games for the Minto Cup. He suggested that the C. L. A. and N. A. L. U. could join the C. A. A. A. and play either strictly amateur, semi-professional or professional lacrosse. If the C. L. A. joined then the N. A. L. U. rules could be framed to suit any of the above schemes.

It was also stated that the C. A. A. U. would likely consent to a semi-professional scheme to allow amateurs and professionals to compete together, but the professionals could only play lacrosse. Mr. Trihey thought the C. L. A. and N. A. L. U., joined, could get the C. A. A. U. to consent to any feasible scheme. In regard to a reconstruction of the amateur governing body, it was proposed to have provincial bodies in full control in each of the provinces, with the C. A. A. U. as a court of appeal.

All the eastern delegates expressed themselves as anxious to meet the C. L. A. in exhibition or champion matches.

Mr. Gillespie asked why does the N. A. L. U. recognize the C. A. A. U.? Mr. Trihey replied that they were compelled to, as the C. A. A. U. also controlled hockey and football, and would bar their lacrosse players from these games. A separate union for lacrosse was not considered feasible.

Francis Nelson, who is a vice-president of the C. L. A. and also the O. H. A., said there was great need of a governing body. But as long as the C.A.A. U., allowed clubs representation in addition to associations or unions, the Ontario bodies would not join. One club might have three of its members on the board of governors, in addition to the representative from the club. Shamrock members might represent hockey, lacrosse and football unions, this in addition to their club appointee was not a truly representative body.

Mr. Trihey agreed with this objection and said the N. A. L. U. would use its influence to do away with the clubs being represented in the C. A. A. U.

Some members of the C. L. A. claimed that the Minto cup games were not in the best interests of lacrosse and while they might benefit individual clubs it did not do the association any good.

The following resolution was carried: "That this meeting have heard the views expressed by the delegates of the N.A.L.U., that the same be reported to the next annual meeting of the Association for further consideration."

The N. A. L. U. delegates asked the C.L.A. to assist in some scheme to control the players, and prevent jumping. They suggested that if a player takes part in two senior matches with any one club he should be prevented for two years from playing with any other club. Mr. Gillespie agreed with this proposal, and said it was a good one. The conference was of a most amicable nature, and it is likely that the two lacrosse bodies will be brought closer together.

The meeting of the C. L. A. council held later in the evening was one of the warmest held in many years. It was called to decide whether the meeting of September 13th, which reinstated Lambe, Querrie and White, had been regularly called. The argument was warm throughout, but it was finally decided that everything was regular.

To-morrow's Big Match.

Joe Lally is to be Referee at to-morrow's Capital-Shamrock match on the Shamrock grounds.

It will be a match worth seeing. Capitals ought to be in good condition and in the line-up for to-morrow's game there will be missing from the Shamrocks team two players who worked hard toward defeating Capitals last season, Finlayson and Robinson. On the other hand the strength of the Capitals has been added to, and in spite of the loss of Powers, it is considered that the Capitals have the best scoring home now playing in the senior series. Eastwood, Allen and the two Murphy boys form a sturdy quartette and one which will keep any defence busy. However, the Shamrocks possess wonderful recuperative powers and more than once it has occurred that the champions have turned probable defeat into victory. The Shamrocks are imbued with a wonderful spirit and this has often stood to them when their physical condition was weak. Even minus the services of a couple of the most brilliant players who ever stepped on the field, Shamrocks still have a formidable line-up and the junior who will take Robinson's place on the home can go the pace with the best of them.

THE GOLFERS

The Ramsay Cup.

To-morrow, on the Westmount Golf Links, will see the beginning of the competition for the Ramsay cup. This goes annually to the member of the club who makes the lowest medal score without handicap for thirty-six holes. Eighteen holes to be played on each of two successive Saturdays.

CANADIAN EX-CHAMPION IS IN OLYMPIC SEMI-FINAL PLAY.

Special to The Montreal Star.

St. Louis, Mo., September 23.—George S. Lyon, of Toronto, champion golfer of Canada in 1903, won one of the most wonderful and best played matches ever contested over the Glen Echo Club course yesterday, making a total score of 157 for the day's play, beating the record of Albert B. Lambert, of the same club, which was 161. Lyon made his record in the match with A. B. Lambert, of Glen Echo, in the third round of the Olympic Championship. In the morning play, Lyon went out in 37, and came back in 41, a total score of 78. In the afternoon play, he went out in 40 and came back in 39, a total score for the afternoon of 79.

The Canadian player beat Lambert 5 up and 4 to play. The score for the first 18 holes favoured Lyon by 4 up, and his playing was superb, his form being of the character which has marked his play since his arrival at the links, and in yesterday's match, Lyon played like clock work, his control over the ball being nothing short of wonderful. It appeared to the spectators who followed the match, as if Lyon was able to place the ball just where he wanted to, and his drives were straight. His approaches were as excellent as his driving, and when approaching a hole, the ball would land within a few feet of the hole at every drive.

Lambert also played an excellent game, but he was clearly outclassed by the Canadian. When Lyon's total score was added, it was found that he had made the 36 holes in 157, one stroke less than Bogey. By winning yesterday's match Lyon earns the right to compete in the semi-finals which are being played to-day. He has drawn to meet F. C. Newton, of Seattle, Washington, the Pacific Coast champion, while Bert McKinnie, of St. Louis will meet the American Champion, Howard Chandler Egan, of Chicago.

THE TURF

To-morrow's Hunt Races.

Following are the entries for to-morrow's Canadian Hunt races. With good weather the contests ought to be a great success:

1ST RACE.
Jorrocks' Steeplechase—
1—Quick—H. E. Beauvais.
2—Ben Brush—J. N. Morris.
3—Billy Walker—F. Vincent.
4—Frank—Geo. Vandelac.
6—Richelieu—J. O. Garrow.
7—Boxer—T. Trudel.

2ND RACE.
Open Handicap—
1—King Top—W. G. Henderson.
2—Tate's Creek—Major Ashmead.
3—Sobeto—Sam Nesbitt.
4—Deroon—John McBride.
5—Ariosa—Andrew Boa.
6—Trackson E. C.—E. C. Brosseau.
7—Oneta—Geo. Vandelac.

3RD RACE.
Qualified Hunters—
1—Sir Bolger—T. Trudel.
2—Sir Galahad—F. Vincent.
3—Jim Lisle—H. H. Learmont.
4—Wee McGregor—B. A. Sugden.

4TH RACE.
Farmers'. 15 starters.

5TH RACE.
The Hunt Cup—
1—Sir Bolger—T. Trudel.
2—King Bolt—H. H. Judah.
3—Bob McGregor—H. H. Learmont.
4—Virginia—H. Burnett.

Special trains will leave the G.T.R. station at 1.30 p.m. and 2.15 p.m.

Special Notice.

SELF INTEREST.

YOU may be well dressed nowadays, and at the same time dress economically.

There is no longer any need to go to an expensive Custom Tailor and pay prices out of all proportion to the true value of the materials and labour.

We make clothes to fit.

When we cannot give a perfect fit from our regular sizes we make to order—the same as a custom tailor—with this difference: we make no extra charge for this service.

We allow no customer to leave our store with a garment that does not fit.

Think about what you will save and drop in and try on a few garments. We are always glad to show the styles and fabrics we are offering for the Fall and Winter season, and perhaps some of our clothes may please you.

We insist on giving satisfaction in each and every case.

Suits and Overcoats $10 to $25.

"MALE ATTIRE" Tailored Clothes
Corner St. Peter and Craig, opposite Witness Office.

Toronto Judges Suspicious.

Toronto, September 23.—The Woodbine race track stewards are investigating the running of M. J. Daley's colt, Junge, which won the first race at odds of 3 to 1. Daly repeated his record of the opening day by winning three of the seven races, and with the same horses, Claude, Elliet and Judge. The first day of the meeting Judge won easily from a good field. On Monday he finished absolutely last. Yesterday he went out again, and won the first race in a gallop by three lengths, with Viona in second place and Hopeful Miss third. The winner was put up at auction. He was bid up $700 over his extra price of $800. Daly paid $1805 and retained the colt. This was the first bid up of the meeting.

A dance will be held on Saturday evening, September 24th in the club house, Cartierville. All members and friends are invited. Arrangements have been made to have electric cars remain till after the dance. This will be the closing event this season.

CONTROL OF RATES ON THE C. P. R.

The Government's Powers Referred to Supreme Court for Decision.

STATEMENT OF QUESTIONS

Drawn Up by Minister of Justice and Agreed to by Interested Parties.

Ottawa, September 23.—The reference to the Supreme Court, covering the interpretation to be placed upon the meaning of the provision in the C.P.R. charter that the Government should not have control of rates until the profits shall have amounted to 10 per cent. on the capital actually expended in the construction of the railway, has been prepared by the Minister of Justice and agreed to by the interested parties. The statement is as follows:

(1) In the words "Capital actually expended in the construction of the railway," used in the act 44 Vic., Cap. 1, schedule A, section 20, respecting the C.P.R. should the word capital be construed as meaning ascribed to it by the definition in the act to amend the consolidated railway act of 1879.

(2) If the word "capital" in the expression "capital actually expended in the construction of the railway" as used in the act 44 Vic. cap. 1 is not to be construed as the meaning ascribed thereto by the definition aforesaid does it include moneys received from all sources which have been expended in the construction of the road. In other words, does it mean actual cost of the railway, and if not then for what sources other than capital?

(3) In ascertaining the sum in respect of stock or share capital on which the ten per cent. mentioned in section 20 is computed

(a) Is the par or face value of such stock or share capital or are the proceeds realized by the company therefore to be adopted as the basis of computation?

(b) Are all the classes of stock of shares mentioned in the accompanying admissions to be included, and if not, then which of said classes?

(4) Do the words "the construction of the railway" mean the railway which the company contracted to construct, or does it include other portions which by its original charter it was authorized to construct, and does it include all other portions of railway which by subsequent legislation it was authorized to construct, and does it include railway west from Port Moody to its present terminus at Vancouver and east from Callendar to points on St. Lawrence and Bay of Fundy?

(5) Can any capital actually expended on the railway after November 7, 1885, be regarded as "capital actually expended on the construction of the railway" and if so can it exceed the amount which was expended on the railway at or near Mount Stephen as agreed upon by order-in-council bearing that date?

The sixth question asks whether expenditure to raise the standard of construction above what was originally contemplated be included.

The seventh and last question asks whether money received from the following sources and expended on the construction of the railway shall be included in the capital, preference stock, consolidated debenture stock, sale of lands, earnings, borrowed moneys and if not, from which of these sources?

The Georgian Bay Canal.

Ottawa, September 23.—Further appointments to the staff of engineers which is to make the surveys for the Georgian Bay canal have been made by the Minister of Public Works. The additional first assistants are Messrs. McBeth, London, Arthur Surveyer, and N. S. Warner, of Montreal. Mr. A. J. McDougall, of Cornwall, has been given charge of a section.

Antler Committed Suicide.

Ottawa, September 23.—Charles Antler, an octogenarian, living in the township of Buchanan and Wylie, Renfrew county, who attempted the murder of his son-in-law, Charles Gorr, was found dead last night by Chief M. Lee and Constable Thomas Dixon, who went out from Pembroke to arrest him for his crime. Arriving at the home of deceased, the constables were informed that he had not been seen for some hours. They then began a search, which resulted in finding the body in a nearby shed, shot through the breast, and bearing evidence of being self-inflicted.

A PATHETIC AFFAIR AT PETERBORO, ONT.

An Injured Man Locked Up in Police Cell—Afterwards Died in the Hospital.

Special to The Montreal Star.

Peterboro', Ont., September 23.—A fatal accident occurred here yesterday afternoon. George Cowling, chief ranger of the Low Court Independent Order of Foresters, was working on a scaffold at McBrien's new mill when he fell to the ground, a distance of about ten feet. He did not consider himself badly hurt, and continued working for about half an hour, when, feeling slightly ill, he decided to go to a doctor. He started off on a bicycle, but when he had gone about two blocks he became unconscious, and fell off the wheel, and the police, finding him lying on the street and thinking he was intoxicated, placed him under arrest. He was taken to the police station in the patrol waggon and put in a cell, where he remained about twenty minutes before it was discovered that he was ill. He was afterwards taken to the hospital, where he died shortly after without regaining consciousness. Deceased was 27 years old.

Freight Wreck on the I. C. R.

Halifax, N. S., September 23.—One of the worst accidents on the Truro-Mulgrave division of the I. C. R. occurred yesterday when seven cars of special freight were derailed at a point near Porcupine, about a mile east of Mulgrave. The derailed cars tore the track for sixty or seventy yards and then breaking off rolled over scattering their contents in every direction. All the cars were practically demolished and the track torn and twisted out of shape. The special was an outgoing one from Mulgrave, the contents being principally hay and feed. The accident is thought to be due to the parting of one of the rails. No one was injured, though the engineer and fireman received a severe shaking up.

The Alaskan Boundary.

Ottawa, September 23.—Dr. W. F. King, chief astronomer of the Dominion, has returned from the Pacific coast, where, with Mr. O. H. Tittman, of the United States Geodetic Survey, he superintended the placing of the bronze posts marking the boundary between Canada and Alaska as decided by the London tribunal. The new boundary has been fixed at the Chilcoot, and a party is now delimiting the boundary in the Stikine section, which is expected to be completed next month.

Archbishop of Canterbury.

Bar Harbor, Me., September 23.—After a week's visit on Mount Desert Island marked by many entertainments, the Archbishop of Canterbury left last night for Washington on a special train routed by way of Portland, Worcester, Albany and Philadelphia. It is expected that the Archbishop will reach Washington this afternoon, and that he will remain some days in that city as the guest of Bishop Satterlee.

Special Notice.

Willis & Co.'s Peerless Pianos by Knabe, Newcombe, Dominion and Bell.

Are you a good judge of a piano? Do you know when a piano is of good tone, rich, powerful and sympathetic? Do you know when a piano is about perfect, or when brilliance passes into harshness, do you mistake it for power? The best judges are often deceived in the character or durability of a piano. We have had twenty-five years' experience with the greatest makes of this continent; we place our knowledge at your service. If you trust our selection you cannot be disappointed. The output of ten factories to choose from. Call or write for illustrated catalogues and terms, to Willis & Co., 2470 St. Catherine street, Montreal (near Mountain street).

Eyes tested and spectacles or eye glasses supplied from $1.00. R. Hemsley, the Optician, 255 St. James street.

SCHOOLS and COLLEGES

The "Star" Educational Bureau for Public Information.

For the benefit of parents, and others looking forward to placing their children, or those in their charge, in School or College, attention is called to the fact that a "Bureau of General Information" will be maintained at The Star Branch Office, corner of Peel and St. Catherine streets, where particulars may be had regarding the rates, courses, advantages and other details, including pamphlets and circulars, regarding any and all of the many educational institutions whose announcements appear in the columns of The Montreal Daily Star. Persons applying from distant points by mail will have the desired information promptly sent to them.

No Appetite?
Go to the root of the trouble and you'll find upset stomach or constipation. ABBEY'S SALT cures both. A glass before breakfast cleans the stomach—clears the liver—makes the bowels move easily and naturally—gives you an appetite like "a working man."
ABBEY'S SALT is the safe appetizer because it contains no alcohol.
25c. and 60c. a bottle—at all druggists.
Abbey's Effervescent Salt

WALTER M. KEARNS' SALES.

Speculators Attention
Valuable Farm
AT OUTREMONT
For Sale by Auction.
The undersigned, instructed by MR. OLIVER HOLMES, will sell by public auction at his salesrooms, 1828 Notre Dame street, on
WEDNESDAY, 28th SEPTEMBER, at 11.30 a.m.,
farm of about 40 arpents, having a frontage of 13 arpents, on the west side of Rockland avenue, by a depth of 3 arpents; house and good outbuildings; sand pit and quarry on the premises.
The property is bounded by the C.P.R. and Golf Links, and within a few minutes' walk of the electric cars.
This is an exceptional chance to buy a property which will very materially enhance in value in the near future.
WALTER M. KEARNS,
223 8 Auctioneer.

AUCTION SALE
OF
Pieces of Land and Building Material
On Thursday, the 29th Sept., 1904.
at 11 o'clock a.m.
On the premises, at the above date and hour, all the building material lying on those parts of lots cadastral Nos. 128 and 127 (Centre Ward), expropriated for the widening of St. Lambert street (Hill), west side, from St. James to Notre Dame streets, will be sold by auction.
The material shall be removed within two weeks following the sale.
Terms of sale—Cash on adjudication.
On the same date and hour will be sold on the premises those residues of land ceded by the proprietors to the city, in connection with the expropriation for the widening of St. Lambert street (Hill).
No. 1. Parts of lot cadastral No. 127, having a frontage of 41.50 feet on St. Lambert street (Hill), and containing an area of about 843.6 square feet.
No. 2. Parts of lot cadastral No. 128, having a frontage of 42.4 feet on St. Lambert street (Hill) and 39.6 feet on St. James street, containing an area of 2,620.8 square feet.
The whole as shown on the plan deposited in the City Treasurer's office.
Terms of sale.
1. Cash.
2. The lots are sold subject to the special tax imposed for the widening of St. Lambert street (Hill) from St. James to Notre Dame street.
3. The purchasers will be bound to pay their share of the cost of the party wall, to be erected between the lot purchased by them and the Mussen property.

FRIDAY, SEPTEMBER 23, 1904.

PREMIER ROSS'S MAJORITY GONE

The Hon. E. J. Davis, Commissioner of Crown Lands, of Ontario, was yesterday unseated for having employed in the North York election one W. H. Robinson, of Meaford, who had already been reported by the judges for corrupt practices in North Grey. Mr. Davis could not well plead ignorance of the facts, because Mr. Lennox, the Conservative candidate, repeatedly and publicly during the campaign called his attention to the illegality that was being committed. To what extent the Ontario Government and its friends are in good faith when they plead ignorance on the part of the Ministers of the iniquities perpetrated on their behalf may be gathered from Mr. Davis's manner of giving evidence. Here is a specimen:

"Have you given us a full and fair account of this whole matter?"

No answer.

"Have you told us all that is necessary?"

"I have answered all questions put to me."

"Answer my question."

"Well, I don't know anything more at present."

"You do not pretend that you did not have ample notice during the campaign of the charge made against Robinson that he had been reported for corruption in North Grey?"

"I didn't believe the statement true."

"Answer my question. You are not doing yourself any good by going on in this way."

"I had no opportunity to investigate the charge."

"I didn't ask you that. Answer my question."

"I don't know how I can give you any other answer."

"Very well, we will let it go that way."

"Now, you say you had not time to investigate the charge that you heard about Robinson. When was it made?"

"On the night before nomination."

"When did you investigate it?"

"After the elections."

"Did you state at your examination for discovery that you did not know it was against the law to employ men in election work who had been reported for bribery?"

"I don't remember."

Mr. Davis had ample notice that Robinson, who was working for him in North York, had been reported for corruption in North Grey. He says that he did not believe the charge, and admits that he did not investigate it until after the elections.

The unseating of the Commissioner of Crown Lands leaves Premier Ross dependent upon the casting vote of the Speaker to keep him in power. The indications are that before long he will be in an actual minority in the House. Even then, with the permission of the Lieutenant-Governor, he can cling to office until he is forced to summon the Legislature, when, in all probability, he will be beaten on the first vote.

A PREDICTED REVOLUTION.

Mr. Carl Joubert, author of a work entitled "Russia as it really is" makes a confident announcement in the pages of "The Nineteenth Century and After" of "the coming revolution in Russia." He says it simply has to be. The elements of revolution are all there, and there is no one to divert them into peaceful paths. The electricity is accumulated, and there are no conductors to draw it off. As long as the Russians did not perceive the great difference between their condition and that of the Western nations, they suffered in silence and had no thought of rebellion. But the light could not be kept out forever, and now the Russians know that they are not as other peoples. They want to know why. They do not understand why they should be prostrate under the heel of power when Germans, Italians, Hungarians, Frenchmen and Spaniards, to say nothing of Englishmen, are all invited to share in the government of their respective countries. Under Alexander the Third, father of the present Czar, Nihilism was ruthlessly repressed and seemed at one time to have been almost crushed out. The seeds of it, however, remained, and to-day as a movement it is again in full force. Every variety of political opinion may be found in the country; but there is one great swelling demand for a change from the system of autocracy. The thought is in the heart of the people that they should not be slaves any more than the other peoples of Europe.

Mr. Joubert gives a number of facts in support of his assertion that the whole empire is in a state of ebullition, and also furnishes a few illustrations of the kind of government which now prevails. He was himself, he says, in the office of Prince Obelenski a few years ago when the latter was Governor-General of Kharkof. There had been serious disturbances among the peasants who were suffering the very extremities of want. An officer entered and hurriedly communicated with the Governor in an undertone. "But," says the writer, "it was in no undertone that Obelenski answered him that the women should receive fifty lashes apiece on the bare back." It is time that such a system should end.

THE GRAND TRUNK UNBOUND.

Mr. Borden, in his Ontario speeches, is dwelling upon the important point that the Government has made its bargain with the Grand Trunk Pacific—a new company which does not yet own a mile of railway—and not with the Grand Trunk, whose devotion to its American termini is so widely feared. As he said at Stratford, the Grand Trunk people have a perfect right to look sharply after their own interests. They are not to be blamed for making the best bargain they could. But it was the duty of the Government to be equally vigilant in protecting the interests of the people.

Now the Grand Trunk avoided making a bargain with the Government at all by the simple device of creating a subsidiary company—the Grand Trunk Pacific—which it will control. Thus the bargain to carry Western freight over Canadian roads to Canadian ports—loose as it is—is made with the subsidiary company; while the Grand Trunk is left wholly free to carry all the freight it likes to Portland.

"It was the Grand Trunk Pacific that made the contract," said Mr. Borden. "Where was the danger, as far as that railway was concerned? Did they have a terminal at Chicago and another in Portland? No. It was the Grand Trunk Railway that had one terminal at Chicago and another at Portland, and it was from the Grand Trunk Railway Company that the danger was to be apprehended. How will the Grand Trunk Company get the advantage of this contract? It will get the advantage by absolutely controlling the Grand Trunk Pacific Company."

The Grand Trunk Railway will have only one winter port; and that will be Portland. Connecting with this port, it will have a Grand Trunk line of railway from some point north of North Bay, where it will tap the Government air-line to Quebec, right through Montreal to Portland. Now, does any business man imagine for an instant that it will fail to route every possible pound of freight it can by this wholly Grand Trunk line to a Grand Trunk port instead of by the Government road to Moncton?

As against this, what guarantees have the country? We have a promise from the Grand Trunk Pacific Company that it will carry freight by its leased line to Canadian ports when the shippers do not route it otherwise. But there is no penalty attached to a breach of this promise. Nothing will happen if the Grand Trunk Pacific find it impossible to get very much unrouted freight. If its agents in the West forget to press this point, there will be nothing but a forgotten clause in the act of Parliament they probably never read to reproach them.

On the other hand, their real masters—the Grand Trunk—will profit greatly by their neglect if it leads to a general practice of routing freight by the Grand Trunk lines to Portland. And the Grand Trunk Company is absolutely unbound to abstain from exerting all the pressure it can upon the agents of its creature—the Grand Trunk Pacific—to so neglect their duties and permit Grand Trunk agents to reap a harvest.

It must never be forgotten that the vital part of this marvellous railway creation of the Government, is the good old Grand Trunk Railway, which strains every nerve every day to carry all the freight it can to Portland, as soon as navigation closes at Montreal and Quebec. If the Government had wanted to really make a bargain which would secure this freight for the Canadian winter ports in the Maritime Provinces, it would have made a bargain with the Grand Trunk. But this it steadily refused to do, though pressed on the point by the Opposition. Mr. G. O. Alcorn, M.P., went so far as to move an amendment to the agreement in these words:

"That neither the Grand Trunk Pacific Company nor the Grand Trunk Company shall in any manner within its power, directly or indirectly, permit, advise or encourage the transportation of traffic by routes or at rates other than those provided in the said agreement, and that each of the said companies shall, in all respects and in good faith, use its utmost endeavours to fulfill the conditions upon which public aid is granted and accepted, viz., the development of trade through Canadian channels and to Canadian ocean ports."

But, of course, it was voted down by the Government. The Grand Trunk which alone runs to Portland was left absolutely unbound, though it is to be given $25,000,000 of the common stock of the Grand Trunk Pacific and permitted to control that buffer corporation.

THE WAR SITUATION.

The centre of interest in the campaign has again moved from Mukden where nothing very active is going on, to Port Arthur, where the Japs are once more becoming aggressive. In an assault on Wednesday the Japanese captured forts Kuropatkin and Erlangshan and three batteries. In a counter attack yesterday morning the Russians recaptured Fort Erlangshan. The general staff at St. Petersburg reports that in the attack on Port Arhur, on the 15th instant, forty-five Russian guns were destroyed, 45 officers and 400 men killed, and 800 wounded. A battle is now going on in which the Japanese blockading fleet is taking part. Russian spies state that Marquis Oyama has detached a considerable force from his army to co-operate with the army which is besieging Port Arthur.

It is reported that there is much irritation among the officers and crews of the Baltic fleet at the slowness of the Admiralty in ordering the fleet to the Far East.

THE PASSING HOUR.

At McGill, business generally opens with a "rush."

Wonder if Hon. E. J. Davis ever forgets to draw his salary!

Ross has now lost his majority of one, but he is still drawing his salary.

Death over a mutton pie is a variation of the usual habit death has of hiding in it.

Apparently the Ross Government has no prejudice against staying until it is kicked out.

What will we do without the sweet romancers of Che Foo when the cruel war is over?

The Mennonites neither vote nor wear corsets. That is the constituency for anti-cigarette Bickerdike.

Sir Wilfrid's gestures when making a speech are always graceful, even if he has his "right arm" in a sling.

It looks as if, when Ross said in North York that he would "f-l-g-h-t," he meant that he would keep Pegging away.

Hon. Mr. Stratton: "Can't you forget some things?"
Hon. Mr. Davis: "I don't remember."

Hon. G. W. Ross qualified for the Manufacturers' Association by reason of his presidency of the Ontario "Machine" Co.

The result of the election trials in Ontario shows how necessary that hastily summoned session of the Legislature was.

Sir Gilbert Parker has taken up South Africa and dropped into poetry at the same time. This tempers our sense of loss.

Sir Wilfrid is going to open his campaign at Sorel. That is where so many promising voyages are brought to a sad termination.

It has been shown that there is one thing which a street car fender cannot safely pull under the car, and that is a case of dynamite.

It is a little alarming to be told that Lady Grey is "rated as an intellectual woman." But perhaps Lord Grey is an intellectual man.

The Ontario Government must be sorry that it did not refer the election contests to a Royal Commission instead of allowing them to go before the courts.

The Hon. E. J. Davis, Commissioner of Crown Lands for Ontario, was unseated yesterday by the election court. He has probably forgotten the incident by this morning.

The Jap notion of celebrating the Mikado's birthday with that grand pyrotechnic display, the fall of Port Arthur, will put the Toronto Exhibition on its metal to beat it next year.

American officers cannot marry without the consent of the Secretary of War. There is a new idea for Sydney Fisher. Why not make all militia officers apply to the "Minister responsible for the district"?

Premier Ross spoke eloquently last night about preferential trade without indicating his own preference very clearly. He omitted to say whether he intended to get out or to continue to f-l-g-h-t.

The following is a news note in the Toronto News, which shows that they do have a sense of humour in that burg after all:

"Mr. Arthur Dansereau, of Montreal, does not know when the Dominion elections will be held. He called on Premier Ross this morning at the Parliament Buildings."

The Globe says: "Both the slanders and the advice of the Opposition may be disregarded by intelligent Liberals, but the reconstruction of their party, the quickening of its life and the cutting away of the growths that sap its vitality and destroy its usefulness—this is the first duty of Ontario Liberals."

If the Ontario Liberals do not hurry up the election courts won't leave many "growths" for them to cut away.

China's Part.

Foreign devils shindy kickee,
Dammee bag of tricks!
Chinaman no ha'pence pickee,
Always gettee kicks.
Foreign devils battle makee,
Russia and Japan;
Samee samee; come and takee
Swag from Chinaman.

Chorus.

Chin chin Chinaman
Russia lettee fly,
Misaee Jap,
Me the chap
Gettee blackee eye,
Jappy smack
Russia back,
Me the bullet stop—
Chin chin Chinaman
Cop, cop cop!

The Secret of Success.

"What is the secret of success?" asked the Sphinx.
"Push," said the Button.
"Never be led," said the Pencil.
"Take pains," said the Window.
"Always keep cool," said the Ice.
"Be up to date," said the Calendar.
"Never lose your head," said the barrel.
"Make light of everything," said the Fire.
"Do a driving business," said the Hammer.
"Aspire to great things," said the Nutmeg.
"Be sharp in your dealings," said the Knife.
"Find a good thing and stick to it," said the Glue.
"Do the work you are suited for," said the Chimney.

PEEL WELCOMES MR. R. L. BORDEN

A Picturesque Reception Given to Conservative Leader at Brampton.

DUTIES OF CITIZENSHIP

Mr. Borden Appeals to All Citizens to Take Part in Public Life.

Brampton, Ont., September 23.—Brampton's reception of Mr. R. L. Borden last night, was the most picturesque of any that the Conservative leader has had during his present tour. The train was an hour late when it came in at 8 o'clock. The platform was crowded with hundreds of people. As the train drew in, Mechanics' band struck up "See the Conquering Hero Comes!" while at the same moment the light of a hundred torches burst forth. Amid great cheering, Mr. and Mrs. Borden descended from the car. The party was supperless, but nevertheless, they took their places in the waiting carriages and, preceded by scores of waving torches borne by boys and youths, and the band playing lustily, they made direct for the skating rink. The crowd followed and before the first speaker rose, there was a gathering of some 1,500 people of both sexes and all ages. It proved one of the most successful meetings Mr. Borden has held.

SIR JOHN A'S CHAIR.

Mayor Justin presided and two interesting things about the platform were that it contained Mr. R. Quinn, 90 years of age, and a life-long Conservative, and the padded armchair in which Sir John A. Macdonald sat when he was in the town in 1891. The sacred chair is, as Mr. Richard Blain explained, in a short opening address, in the possession of a fortunate resident of Brampton, Mrs. Alexander Harvey. "My friend said," so Mr. Blain told the audience, "that Mr. Borden ought to sit in that chair. We have it here and Mr. Borden will take his place in it after a while."

Mr. Blain declared that the men of Brampton who drove their horses for the Liberal-Conservative party twenty five years ago, were ready to drive them now. He welcomed Mr. Borden as a "clean, pure statesman."

Mayor Justin, having read an address of welcome, and the customary bouquets having been presented, Mr. Borden at once entered upon his speech. The strain of the past week has told on him, somewhat, and Mr. Borden apologized at the outset for the fact that his voice was a little fatigued.

THE RESPONSIBILITY OF CITIZENSHIP.

"There are those who affect to hold aloof from public life, and even to dispise those taking part in public affairs," said Mr. Borden. "That is not the way to improve public affairs. The way to improve the condition of public affairs is to associate yourself with that political party which best commends itself to your judgment, and by working in an honest and straightforward way to secure the ends and principles for which it stands. Let me assure every man here present that every lowering of the standard of public life in Canada is in some degree attributable to him personally."

He was not one of those who pretended that the Liberal-Conservative party had been at all times immaculate. "We are all human, and no party can profess to be immaculate." But he asked them whether the Liberal party's position of late years had not been one that enabled them to say in this province that the methods of fraud and ballot switching have too often prevailed during the last three years.

Mr. Borden appealed to them to let one issue of the next election be the principle which he himself had vainly put to the House of Commons, that personal character and capacity should be regarded before party service in the appointment to high administrative offices. "There is room in the public life of this country for a doctrine such as that," Mr. Borden declared, "and in voting for Mr. Blain you stand for that principle, a principle which is in every way a standard in the public affairs of Canada."

LORD DUNDONALD'S OBJECT.

On the subject of Lord Dundonald, Mr. Barden said: "From the time he came to Canada to the time he left, he had only one object in view, and that was to make the militia of Canada an effective force. He did not want to embark on a policy of militarism, but he wanted to form such a volunteer force as he believed would be able to defend the soil of Canada from every foe. He was not allied in any way to one party or the other. He had no political aim to serve. When the Hon. Sidney Fisher went behind his back, Lord Dundonald thought it right to speak out in the interest of the people of Canada, even at the risk of losing his own official position.

"I say for that he deserves the thanks of the people of Canada, and I think he has received the thanks of the greater part of them."

On the Government's transportation scheme Mr. Borden said: "The Grand Trunk Railway Company created the Grand Trunk Pacific Company to enter into stipulations with the Government, but the Grand Trunk itself entered into no stipulation, because it desired to be as unhampered as before to convey freight to Portland. Are the people of the United States not capable of providing money for the development of their own ports?"

A POINT TO BE REMEMBERED.

Mr. Borden declared that the Government's excuse that the Grank Trunk "insisted" on the later changes in the contract and that the Government were "obliged" to make them, "should be written upon the mind of every elector in the country."

Dwelling on the contention that the Government scheme gave one-tenth of the liability and all the profits to a corporation, and nine-tenths of the liability and none of the profits to the people, Mr. Borden asked: "Is there any one of you who would enter into a partnership upon such conditions as those? Surely the question is one that need not be asked twice. Yet, the Government has seen fit to pledge the people of Canada to such a partnership upon the eve of a general election."

The scheme would "side-track and strangle" the Intercolonial, but Mr. Borden insisted that the door was not closed. "This is not a dead issue. It is a live issue, and the door is still open to the people to declare that the bargain shall not be carried out."

THE OPPORTUNISM OF THE GOVERNMENT.

Accusing the Government of indecision and opportunism in the matter of the tariff, Mr. Borden said: "If it would keep them in office five years longer to stand for free trade, they would not lose five minutes in standing for it; or if it would keep them in power to stand for adequate protection, they would stand for that."

On the subject of reciprocity, Mr. Borden told his audience that in days gone by the Motherland had conceded to her colonies the fullest liberty to place what customs duties they chose upon goods coming from any part of the world, even from the Old Country itself. Therefore, the Conservative party was for reciprocity treaties with the Old Land, rather than reciprocity treaties with any foreign country."

IN HIS RIGHTFUL PLACE.

At the conclusion of his address, Mr. Borden took his seat amid great applause, in Sir John A. Macdonald's chair.

The meeting was also shortly addressed by Dr. Sproule, M.P. for East Grey, and Dr. Barr, M.L.A. for Dufferin. Among a large number of gentlemen on the platform were also Mr. R. Blain, M.P. for Peel; Mr. R. Quinn, ex-councillor of Caledon; Robert Johnston, M.P., Cardwell; J. McMurchy, Rev. W. Walsh and Dr. Lewis, who will shortly offer himself as a Conservative candidate for the Legislature. Mr. A. E. Kemp, M.P., of Toronto, sent a telegram regretting his inability to get to the meeting.

MR. R. L. BORDEN WILL SPEAK IN MASSEY HALL.

Special to The Montreal Star.

Toronto, September 23.—At a meeting of the Executive of the Central Conservative Association of Toronto, held last night, arrangements were made for the reception of Mr. R. L. Borden on the occasion of the Conservative leader's forthcoming visit to the city on October 4. Mr. Borden will speak in Massey Hall, in the evening, and addresses will be delivered also by the Toronto members, Mr. E. F. Clarke, Mr. E. B. Osler, Mr. A. E. Kemp, and Mr. W. F. Maclean. Music will be provided by the Band of the 48th Highlanders. Dr. Beattie Nesbitt, M.L.A., will occupy the chair. The Toronto Liberal-Conservative Association will hold daily meetings for the transaction of business in connection with Mr. Borden's visit. As Mr. Borden's Massey Hall speech will give the keynote of the Conservative campaign, it is expected to attract an enormous crowd eager to hear the leader whose ability and honesty of purpose are admitted by his strongest opponents.

THE PROVINCIAL W.C.T.U.

The Annual Convention is Being Held at Huntingdon.

Huntingdon, Ont., September 22.—The twenty-fifth annual session of the provincial W. C. T. U. is being held here. At the opening meeting a large gathering assembled in the Methodist church. On the platform were the president, Mrs. J. G. Sanderson, of Danville; Mrs. W. S. Forter, of Knowlton; Mrs. Francis W. Graham, president of the New York State; Mrs. Hyslop, of Glasgow, Scotland; Miss Dunhill, a returned W. C. T. U. missionary from India; Mr. W. S. Maclaren, M.P.; Mr. W. H. Walker, M.L.A.; an dthe local clergy.

Miss Biggar briefly welcomed the delegates and was replied to by Mrs. T. G. Williams, of Montreal. Addresses were given by Mr. Maclaren, M.P.; Mr. Walker, M.L.A., the local clergy and others. There are three sessions daily, in the morning, in St. Andrew's church, and in the afternoon and evening in the Methodist church. The sessions are made attractive by vocal solos and duets, and excellent singing by the local choir. A large number of delegates are in attendance, who are being most hospitably entertained by the local members of the W. C. T. U. in this village.

The following officers were elected: President, Mrs. Rev. J. T. Sanderson, Danville; vice-president, Mrs. S. W. Foster, Knowlton; corresponding secretary, Mrs. R. W. McLaughlin, Montreal; recording secretary, Miss Bazin, Ormstown; treasurer, Mrs. S. P. Leet, Montreal; "Y" secretary, Mrs. F. H. Wavcott, Montreal.

A Frances Willard Anniversary.

Special to The Montreal Star.

Huntingdon, Que., September 23.—The Willard Y., of Huntingdon, will hold a Frances Willard Birthday Anniversary in Evangelistic Hall, on Wednesday next, September 28th, when Miss Dunhill, of India, is to be the guest of honour. Miss Dunhill will appear in Indian costume and will speak during the evening. All will be welcome and bags will be provided for each person at the door, in which they may put a cent for each birthday they have passed.

IF Ladies wish to be handsomely gowned they wear HEWSON Pure Wool Costume Cloths

REDMOND UTTERS WARNING TO IRISHMEN.

Declares the Celtic Race is in Danger of Losing Ireland.

Chicago, September 23.—To a big audience of his countrymen John E. Redmond, Irish Nationalist, has uttered this warning:

"Our race is slipping from its moorings—it is dying. If we are passive and inactive Ireland will cease to be the home and the Celt. There are more old men and little children and fewer young men and women in that island than in any other country on earth. The death of the race can only be warded off by acting in the living present. We must not neglect an opportunity."

Then he made this prediction:

"We shall seize our opportunities. Before the oldest man in this audience is dead Ireland will have won a good measure of self-government."

Mr. Redmond declared he wanted to take back to Ireland with him fifty thousand dollars, subscribed by Irish-Americans. Following his plea Chairman John F. Finerty announced that sympathetic Chicago Irishmen already had subscribed $4,000.

Resolutions were adopted declaring that the "certain fixed, and positive demand of the Irish people is and forever shall be 'Home Rule for Ireland.'" It was explained that by "home rule" was meant the vesting of the government of Ireland in a parliament assembled upon the soil of Ireland, independent of alien influence.

TO-NIGHT'S APPOINTMENTS.

Special Notice.

The Conservatorium of Music.

The Conservatorium of Music, which is connected with McGill University and which Lord Strathcona has so munificently presented with a building, opened its doors to the public on Wednesday, September 21. It promises to be a phenomenal success for many reasons. In the first place, it will be conducted by the most distinguished musicians in the city. In the second place it is closely associated with McGill University and has the endorsement of Lord Strathcona. That the directorate expect great public support is evidenced by the fact that even before the institution was opened no less than 18 superb Heintzman & Co. pianos were purchased from Messrs. C. W. Lindsay, Limited. Success to the Conservatorium. 226 4

Facts About the Great Fall Coat Sale at Carsley's.

The largest maker of Ladies Mantles in Berlin over-made his season's orders by about five hundred garments. Our mantle buyer, who was in Europe at the time, heard of the incident, made a flying trip to Berlin, and offered for the entire lot of coats, acceptance followed, and the garments are at Carsley's. A more beautiful collection of coats was never offered at the price, made of thoroughly good cloths in up-to-date fashionable styles of the season. The prices Carsley is offering these coats at will be the sensation of the mantle trade of Canada. Sale will be continued to-morrow, Saturday. Come and see them.

THIS DATE THIRTY YEARS AGO.

The Rev. Dr. Stevenson, of Reading, England, was yesterday installed as the assistant pastor at Zion Church. A number of ministers participated in the services, which were of a very interesting nature, and were largely attended.

THE late Rev. J. F. Stevenson, L.L.B., was a most eloquent preacher, one of the ablest in the Congregational Church. He took a leading position in church circles, his fine scholarly attainments being much appreciated by the clergy of all creeds. He died in the eighties.

Mr. Patterson, the secretary of the Montreal Board of Trade, left for Ottawa this morning, to have an interview with the Minister of Inland Revenue, relative to inspection matters.

THE late Mr. W. J. Patterson, who died on June 12th, 1886, held the position of secretary to the Board of Trade for a long period. He was elected secretary of the Dominion Board of Trade, for a term, in 1873. The Minister of Inland Revenue at the above time was the late Hon. Felix Geoffrion, who resigned his portfolio in 1876.

Mr. Anthony Force, as secretary of the Board of Provisional Directors, has called a meeting of the shareholders of the Montreal Omnibus and Transfer Co., for October 5th, at two o'clock, at 199 St. James street, for the purpose of electing directors and transacting business generally. It is said that the prospects of the new company are most encouraging.

SOME of the wealthiest merchants in the city were stockholders in the new company, which, however, was sharply headed off by the cleverness of the late Mr. C. Geddes, president of the City Passenger Railway Co. The late Mr. A. Force, who passed away about a year ago, was for many years engaged in the wholesale hardware trade and railway supplies, in which he was successful.

IMPERIAL PREFERENCE THEME OF SPEAKERS AT THE MANUFACTURERS' BANQUET

Sir Wilfrid Laurier Eloquently Described Rise of Britain's Fortunes From Lowest Ebb at Close of the American War of Revolution to Present Position—The Premier Thinks No Chance at Present for Uniform Tariff Between All Portions of Empire—Hon. George E. Foster in Splendid Speech Tells of Canada's Proud Geographical Position Between Great Marts of Europe and the Freshly Awakened East—Col. Sir Howard Vincent Loudly Cheered in Dissenting From Earl Rosebery's Position on Fiscal Issue—Premeir of Ontario Discusses Canada's Commerce—Name of Mr. R. L. Borden, Conservative Leader, Loudly Cheered in Banquet Hall.

The annual banquet of the Canadian Manufacturers' Association, held last evening in the large dining room of the Windsor Hotel, was marked by some exceptionally fine speech-making, the attention of the large audience being held until the last word was uttered by Dr. Barclay shortly before two o'clock this morning.

Aside from being privileged to hear such distinguished Englishmen as Sir Howard Vincent, the valiant champion of fiscal reform, and Sir Lloyd Wise who has given a great deal of time to the study of patent laws, particularly in their relationship to the Colonies, those who attended the function also listened to addresses from Sir Wilfrid Laurier, Hon. George E. Foster and the Hon. George W. Ross.

Each of these gentlemen was in the best of form, and their utterances breathed a cheerful optimism that met with a ready response from the many hundred listeners present.

RISE OF BRITISH EMPIRE.

Sir Wilfrid's speech was a scholarly reference to the rise of the British Empire from a position of comparative insignificance at the close of the American war of the Revolution to the commanding position which it occupies to-day. In this portion of his address the Federal Premier rose at times to heights of real eloquence. When he turned to a consideration of those practical affairs, incident to such a gathering he was disappointing, and while maintaining that a uniform tariff between all portions of the British Empire would not be advisable, he declared himself unequivocally in favour of treaties of commerce between every section and to the advantage of all.

PREMIER OF ONTARIO'S MAJORITY.

Mr. Ross was twice twitted on the diminished nature of his majority, once by Mr. Foster and again by Mr. Monk, but he did not pay any attention to these references. His speech was in the main a consideration of the present position of Canadian commerce, and concluded with the suggestion that the Federal Government should establish cold storage warehouses at Liverpool, for the reception of Canadian goods of a perishable character and the erection of a show house in London, where Canadian goods might at all times be advantageously displayed for the benefit of the merchants and people of Great Britain. Mr. Ross thought that in this way at least a million dollars of public funds could be well spent.

OVATION FOR MR. FOSTER.

Mr. Foster's speech was the oratorical feature of the evening, evoking, as it did, the most unbounded applause. He thought that the declaration made by Sir Wilfrid in favour of a system of preferential treaties was an adequate answer to Lord Rosebery's contention that Canada and its Premier were antagonistic to better trade relations within the Empire.

A striking demonstration occurred while the secretary was reading a list of regrets. The name of Mr. R. L. Borden was cheered to the echo. The applause continued for several minutes.

Mr. Borden's message was as follows:

W. K. George:

President of the Canadian manufacturers' Association—

"Allow me to congratulate you upon your election to the presidency of the association. I regret very much my inability to be present with you on the occasion of your annual banquet. I am to-night, however, going to speak to an audience of farmers, and I shall advocate to them the same policy of adequate protection which I would advocate were I with you this evening.

"R. L. BORDEN.

Mr. W. K. George, the newly elected president of the association, occupied the chair, having on his immediate right Sir Wilfrid Laurier, and on his immediate left Sir Howard Vincent. Others at the table of honour were: Sir Alexander Lacoste, Messrs. C. C. Ballantyne, Geo.E. Drummond, Hon. W. Paterson, Hon. G. W. Ross, Hon. Raymond Prefontaine, Mr. Robt. Bickerdike, W. K. McNaught, H. Medhurst, Rev. Dr. Barclay, Hon. J. D. Rolland, Hon. R. H. McCarthy, Hon. Geo. E. Foster, F. D. Monk, J. G. H. Bergeron, W. F. Cockshutt, A. O. Brault, Sir Lloyd Wise, Principal Peterson, C. A. Birge, Robt. Meighen, J. J. McGill, G. W. Burland, Peter Lyall, Geo. Booth and A. A. Ayer.

LETTERS OF REGRET READ.

The secretary, Mr. E. H. Cooper, read letters of regret from Lord Strathcona, Chief Justice Meredith, Mayor Laporte, Senator MacKay, Hon. W. S. Fielding, Hon. Charles Fitzpatrick, Hon. P. Brodeur, Hon. J. I. Tarte, R. L. Borden, Hon. S. N. Parent, Sir William Van Horne, Sir Thomas Shaughnessy, Charles Hays and others.

Following the toast of the King, the regular toast list was prefaced by a very pleasant incident, the presentation of a testimonial, in the form of an illuminated address, to Mr. Cyrus A. Birge, former president of the association, which was made by the secretary.

BANQUET OF THE CANADIAN MANUFACTURERS' ASSOCIATION. — The Premier proposing the toast of Canada and the Empire.

BANQUET OF THE CANADIAN MANUFACTURERS' ASSOCIATION. — Mr. W. K. George, the chairman, delivering his address.

"Take again the forests, and the millions of acres of fertile lands yet undeveloped. Touring through the North West there could be seen boundless acres of rich free land. What would happen to those millions of acres when they shall have been brought to the plough, the reaper and the garner. Yes, think of Canada and her mighty resources. Geographically they were on the mightiest highway the world has ever seen, with British harbours on each ocean, and the connecting link between the dominant power in Europe and the dominant power in Asia to-day."—HON. G. E. FOSTER.

BANQUET OF THE CANADIAN MANUFACTURERS' ASSOCIATION. — Colonel Sir Howard Vincent, responding to the toast of Canada and the Empire.

ADDRESS OF MR. W. K. GEORGE THE PRESIDENT.

After dinner Mr.George proposed the health of the King. This was heartily acknowledged, accompanied by the singing of the National Anthem.

Mr. George, in his address, referred to the Canadian Manufacturers' Association. He said it was a non-political organization, with a membership extending from Sydney, on the East, to Victoria, on the West, embracing practically all the leading manufacturers of this broad Dominion, joined together, primarily, of course, for the purpose of looking after the special interests of the manufacturers. There was a broader and a more patriotic spirit in our association than merely personal ends. Above all else the guiding thought and the animating motive of this association, the very mainspring of its activities, was the desire to aid in the advancement, in the development, and in the upbuilding of Canada, to help in placing Canada in the front rank of the nations of the world—a position to which she was entitled to aspire, by all the gifts of Providence, so lavishly bestowed.

"Think," said the speaker, "of Canada's immense area comprising one-third of the British Empire. Leaving out of consideration the comparatively unknown Northern Territories of Franklin, Ungava, Northern Keewatin, Mackenzie and the gold yielding Yukon, which together have a greater area than Russia in Europe, we have between Ontario and the Rocky Mountains, in the province of Manitoba and the Territories of Assiniboia, Saskatchewan, Alberta, Athabasca and Southern Keewatin a habitable area of unsurpassed fertility, lying within the same latitudes as the most populous countries of Europe, and almost equal in size to the Empire of India, which supports over two hundred million people. The province of British Columbia is equal in area to Italy, Switzerland and the Austrian Empire combined. Ontario is considerably larger than Germany, Holland and Denmark together. Quebec could take in Belgium, France and half of Spain, while if Newfoundland be added to our Maritime Provinces they will have an area about the same as the British Isles.

UNRIVALLED RESOURCES.

"Think of Canada's unrivalled resources, of almost everything, in its natural state, which is required for either the necessities or luxuries of mankind, awaiting only the master hand to complete the transformation. Her equally unrivalled waterways and water powers, which in their number, magnitude and magnificence, eclipse those of any other land. Her blue sky and bracing climate, producing a strong and vigorous race, those men of the North, unconquered and unconquerable."

"Who dares say that the blend itself may not make the best people and a united people? In the days not long past, of which Englishmen will never forget the memory, French armies, and French loyalty stood for the weaker portions of this country. Let demagogues howl, let interested ones work out their mischief of they please, but Frenchmen, Englishmen, Scotchmen, Irishmen, they were Canadians all, and Canadians they would remain. Let them drop their prejudices and come down to the business standpoint. Did they get any advantage in Canada from British connection, and was it not possible for them to reap greater advantages in the future? If in 1899 South Africa had been taken from Great Britain, would Britain's prestige have remained the same? Cauterize the veins and separate the arteries between the two and you induce paralysis in the whole. Let the blood flow from the extremities and all would tend towards boundless possibilities rich in developments and a glorious future."—HON G. E. FOSTER.

The pessimist, like the Free Trader, is past and gone—gone and almost forgotten, and there remaineth none so poor as to do him reverence. Pessimism, gentlemen, is an evil, blighting influence that cripples progress, delays action and produces commercial cowards. Give it rein and it will breed cause for its own existence from the very stagnation which it produces. But Canada has come into her own. And answered is the call of the poet when he said:

But thou my country, dream not thou!
Wake, and behold how night is done;
How on thy breast, and o'er thy brow,
Bursts the uprising Sun!

We are all optimists for the best of reasons, because we have learned to know and to appreciate our land and we are filled with enthusiasm for the simply because the question is never considered. As an Association we know no politics except the development of our country.

DEVELOPING EXPORTS.

In various ways the association is benefiting its members. Time does not permit of going into the many details, let me merely mention some of the more important features, such, for instance, as assisting in developing the export trade, through the appointment of correspondent members in many of the important trade centres throughout the world. These correspondents are at the service of any of our members and will advise them regarding the possibilities of trade in their locality, and supply names of possible customers. This same department of our work will also secure mercantile reports on these firms from reliable sources at very moderate rates, furnish translation of any correspondence and advise on the best shipping routes. Thus, furnishing, to beginners in the export business, much valuable assistance, and supplying them with information at a minimum of cost, which they of themselves, through

"There should be no jealousy between labour and capital, between factory and farm, and where there are so many latent resources waiting for development certainly all jealousy should cease. As Mr. Foster has stated, the natural resources of this country are almost unbounded. In the Province of Ontario we do not cultivate 20 per cent. of arable land, and sustain a population of about two millions. We could well sustain a population of ten millions. Japan, with no more arable land, sustains a fighting population of forty millions, and we might sustain an equal number. What is true of Ontario is true of all the provinces in the Dominion."—HON. G. W. ROSS.

possibilities within our reach, and determined to use every endeavour in our power to build up Canada into a great, a populous and prosperous nation, fit partner in a mighty Empire. It requires but little imagination to fill one with enthusiasm for such an outlook, and it is an inspiration to feel that to us is given an opportunity of sharing in this work.

"I have said," continued Mr. George, "that this association is non-political, and I mean it. Party politics have no place in our work—the question of a member's party affiliations are never considered. If you will pardon a personal allusion it will exemplify what I mean. I stand here to-night as President of this Association, yet I think that I am safe in saying that not 5 per cent of the members of our association know what my party affiliations are—their inexperience, would either not have been able to secure at all, or would have obtained only at much expense.

"The Association," continued the speaker, "has also established a transportation department under the charge of an experienced transportation expert, so that any member having a grievance against any of the transportation companies can have his case handled for him by one who can present it clearly, logically and fairly before the Railway Commission. This department has already achieved results very beneficial to many of its members. Our Association can also, I think fairly lay claim to having advanced greatly the quality of Canadian manufactured products. The spirit of the organization is, that nothing is too good for Canada—and the inspiration among our members is, to have 'the goods which are made in Canada' the equal of those produced by any country on earth, and in many lines of skilled manufacture, Canada already takes no second place.

THE QUESTION OF TARIFF.

"As to the tariff—we are believers in the absolute necessity of a Protective Tariff for the development and prosperity of Canada. A Protective Tariff must be furnished which will at least offset the disadvantages under which our home producers labour, if Canadian industries are to be established. I was glad to hear the Hon. Minister of Finance declare in his speech at the banquet which was tendered to him in the city of Toronto, that 'there was no use in discussing Free Trade, it was only an Academic Theory,' and he was right.

"There remains nothing but a Protective Tariff and that is what we must have for Canada, if we wish to achieve our destiny. I have heard that necessity denounced. I have never heard it disproved.

"We have," continued Mr. George, "the honour of having with us to-night Sir Howard Vincent, a true friend of Canada, whose great influence in the British House of Commons has always been at the service of the Colonies, a man whose name will go down in history as one of the very earliest advocates of Imperial preferential trade; a co-worker with the Right Hon. Jos. Chamberlain, and I am going to ask him to take back a message to Mr. Chamberlain,—that we are heart and soul with them in their endeavour to evolve some plan of binding the Empire permanently together in the bonds of union. I believe that Mr. Chamberlain is right when he says, 'There is a universal desire for closer union. It is essential to the existance of the Empire. It can be most hopefully approached from the commercial side.'

"Gentlemen, there is a saying which has been doing much service of late, namely, 'Trade follows the Flag.' I am afraid, Sir Howard, that, in some instances it has been German trade and Yankee trade, and French trade which have followed the Union Jack. Let me give you another and I believe a more practical thought, and that is that 'Sentiment follows Trade,' particularly trade of a satisfactory nature. Gentlemen, neither you nor I need any incentive to our loyalty to the British Empire. We have never known any other allegiance and we never will. But as our country fills up, attracting, as we hope it will, millions of people from foreign lands, we will find a large portion of our population which knows no sentimental tie for British connection. We are then met with the necessity of generating that sentiment in order to strengthen the tie that binds us to the Motherland, and I believe that the simplest, most practical and most effectual way of propagating it will be through the satisfactory trade relations which may be established by means of preferential tariffs between the different portions of the Empire.

PRESIDENT GEORGE.

"Gentlemen, we are proud of the traditions of the British Empire. But let me ask you what nobler ambition or prouder inspiration could we have than the thought that to us may be permitted the opportunity of building tradition for the generations yet to come, by helping to place on an enduring basis the Empire to which we belong.

"And we of the newer and vaster West
Where the great war banners are furled,
And the cannons are silent along our coasts
Saxon and Gaul, Canadians claim
A part in the glory and pride and aim
Of the Empire which guides the world."

But what is possible I believe is that we can have between the motherland and the colonies, treaties of commerce, if I may so speak, and the expression is not too strong or extravagant, whereby we can sit down and by mutual concessions, by giving and granting to one side and the other, develop the trade between Great Britain and the Colonies to the mutual advantage of all.—SIR WILFRID LAURIER.

BANQUET OF THE CANADIAN MANUFACTURERS' ASSOCIATION. — Hon. George E. Foster speaks of Britain's expansion and consolidation.

SIR WILFRID LAURIER GIVES TOAST OF CANADA AND EMPIRE.

Sir Wilfrid Laurier, who had an enthusiastic reception, the audience rising en masse and singing lustily "For he's a jolly good fellow," proposed "Canada and the Empire," and said:

It is a great pleasure to sit at the hospitable board of the Canadian Manufacturers' Association. The cheer is good and the company excellent. We have, as the chairman has said, some guests whose presence adds to the interest of the occasion. We have Sir Howard Vincent (cheers), who comes from the heart of the Empire, who has given a great deal of thought to the relations which ought to exist between the Mother Country and the colonies, and whose views we shall listen to with the greatest possible interest.

I do not know that we shall share all his views. Sir Howard Vincent has come from a free country, and comes into a freer country still.

LIBERTY OF SPEECH.

We are accustomed here to liberty of speech, but whether we agree or disagree—and in a large measure I am sure we shall agree—all will welcome his words. (Cheers.)

We have also the Hon. Mr. MacCarthy, from Trinidad, who brings to us an expression of sympathy of the West Indies. We have also my friend, Mr. George E. Foster, whose presence at this board I have not seen for some time, but whose presence will all the more be welcome. (Cheers.)

It is my privilege to present the toast of "Canada and the Empire."

It is a very large subject, especially at half-past eleven, and it would be difficult to do justice to it at the time at my disposal.

The development of the British Empire justified I think it was Oliver Cromwell in saying, "He goes furthest who does not count in advance whither he is going."

CREATION OF MODERN GROWTH.

The British Empire as it exists to-day is a creation of practically modern growth, as it does not extend beyond the end of the eighteenth century, and it is a remarkable fact that the history of the British Empire, as it exists to-day, and of which we are all proud, dates from the date of the conclusion of the American War, when the war for the independence of the colonies was concluded, when the treaty of peace was signed in 1783, and apart from Newfoundland, which at that time was merely a fishing station, apart from a few islands in the West Indies, the colonial possessions of Great Britain were confined simply to this colony here on banks of the St. Lawrence, which had been peopled not by those of English origin, who had been the stay and pride under the dominion of England only some 20 years before, but by a people who remained true to the British allegiance when the allegiance was assailed and deserted by her own kith and kin of this continent. (Loud cheers.)

ENGLAND'S BRIGHTEST FORTUNES.

From that date, and through all England's direst distress, commenced England's brightest fortunes. Since that date and in less than 100 years, England has acquired either by conquest, or discovery, or colonising, more by discovery than conquest, India, Australia, New Zealand, South Africa, Mauritus, Ceylon Jamaica and scores of Islands in all parts and in all climes.

How vain are the calculations of men, and how mysterious are the ways of Providence!

Who could have supposed when the English Colonial Empire had been rent by the American war, that in less than 100 years England would have been the greatest colonising power the world had ever seen?

Who would have supposed then that England would build up an Empire greater than had been the Empire of Rome in its palmiest days?

Yet the dream which would have seemed impossible has become the great reality of which we are the living witnesses. (Cheers).

To-day England has an empire which is second to none, and which has only been equalled once in the course of history.

Now the question is asked many a time by friends and foes "How will the fabric be maintained. How can it be kept together, and how can so many elements be kept under the sway of the Empire of Great Britain?"

That, however, is a question no longer to be asked.

It is a question answered 60 years ago when the principle of local autonomy and legislative independence was introduced in all parts of the British Empire. (Cheers.)

The Empire of Rome fell under the weight of concentration, but the Empire of England exists by freedom, by local autonomy, by legislative independence, and the Empire of England is a galaxy of living nations with England as the loving mother. (Cheers.)

SOLUTION A DIFFICULT MATTER.

To many the answers give to the questions will, perhaps, be not fully satisfactory, and men will still enquire. But what is to be the future, if there is one to be?

I do not propose to give a solution to-night, but let me say at once, and perhaps I may in so saying anticipate any objection in many minds where it has been suggested that a bond of union would be found in a uniform tariff for the whole of the British Empire, that for my part I cannot see that a uniform tariff is desirable for the British Empire. Differences in civilization and climate make it impossible that you can have the same tariff for Canada as India, the same for India as Australia, and the same for Australia as South Africa.

But what is possible I believe is that we can have between the Motherland and the Colonies treaties of commerce, if I may so speak, and the expression is not too strong or extravagant, whereby we can sit down and by mutual concessions, by giving and granting to one side and the other, develop the trade between Great Britain and the Colonies to the mutual advantage of all. (Loud cheers.)

I am well aware that the task is not without difficulties. We have some views in Canada and they have other views in Great Britain. My friend, the chairman, will permit me to say that this is a freer country than Great Britain, and I would not endorse every syllable of what he has said. I would make some exceptions. We cannot have the same tariff for Canada and Great Britain. I will not say what they should have in Great Britain. That is their own look out, but when they have chosen their policy and we have chosen our policy, it shall always be possible to sit down and come to some conclusion by giving and granting where we can still more extend and strengthen the relations which exist between us. (Loud cheers.)

SIR HOWARD VINCENT EXPOUNDS POLICY OF EMPIRE TRADE.

Sir Howard Vincent, who was the first to reply to the toast said he was delighted to be present and assist in any undertaking that was for the welfare of this great Dominion. He rejoiced that while the members of the Canadian Manufacturers' Association were engaged in building up Canadian industries in increasing the fields of Canadian labour, and in seeing that there shall be a preference of a substantial character for the goods of Great Britain and Ireland, and for the products of the British Empire. Sir Howard rejoiced at the resolution passed that day by the Association, and said he should take care that it would reach Mr. Chamberlain in due course, whilst it would also give the workers for tariff reform in the old country greater encouragement to go on with the work in which they had been engaged. He alluded to the largely increased trade between Great Britain and Canada. He also expressed the hope that the resolution would reach Lord Rosebery, who had been saying such rash things about Canada and the opinions said to be held by Mr. Wilfrid Laurier.

He had heard of the proposed visit to England next year of the members of the Association, and he would assure them all of a most friendly reception. He was proud of the scene before him, and could say the boys of Canada were the boys England held out her hand to.

Turning to Sir Wilfrid, the speaker referred to the first time he had met

CHIEF OF POLICE HAS INVESTIGATION

Ambulance People Had a Little Bit of Difference.

ARE EAGER FOR PATIENTS

One Driver Seized a Physician and Forcibly Ejected Him From Residence.

The emulation between the ambulances of the Notre Dame and the General Hospitals has led occasionally to almost the same kind of scenes which are to be observed where rival carters are seeking travellers for hotels. It is admitted by the Notre Dame people that they are anxious to get all the emergency cases that they can. It is not that there is any money in them, because the cases, of course, in the most instances, are free, but they wish to prove to the public their utility as a benevolent institution. Thus, there can occasionally be seen the representatives of the two ambulances standing over a patient urging upon him or her the advantages of the respective hospitals. This emulation, while occasionally a little absurd did not seriously interfere with the public good, nor lead to delays or real trouble of any kind. The doctors going out with the ambulance in each instance from either hospital were gentlemen and had no altercations, but the Notre Dame people say that there is one of the ambulance drivers who actually interferes by physical force on behalf of his hospital.

BIT OF AN ALTERCATION.

The Notre Dame people say that this man has actually assaulted their doctors more than once. On Wednesday matters culminated in an altercation which was to-day the subject of an enquiry before the Chief of Police. It seems that the Notre Dame ambulance was returning with a private patient from the West End, and when near Chaboillez Square, some one told the driver that there was a woman in a building near by who had been knocked down by a cab. Dr. Godin, an outside surgeon, was temporarily acting as an ambulance surgeon while the regular doctor was away on vacation. He happened to be out with the ambulance on that occasion, and at once went in to see what could be done. He recognized the niece of the lady who had been hurt as a French-Canadian acquaintance of his, in the place where he ordinarily practiced. She was quite willing to have the injured and still unconscious lady taken to Notre Dame. When the driver of the General Hospital ambulance arrived, and notwithstanding the fact that there were two policemen of No. 6 station present making enquires as to the facts, this driver seized Dr. Godin and forcibly put him out of the house.

ASKED POLICE PROTECTION.

The doctor returned to his ambulance, but the humiliation of the affair struck him and he returned to the place and demanded that he be given police protection. He got no satisfaction and a complaint was made to the Chief of Police.

An enquiry was held before Chief Legault this morning when it was made clear that there was no unpleasantness between the doctors of the two institutions, and that the doctor of the General had taken no part in the affair.

The police had not acted, because they did not consider that they had authority to act without a warrant. It is probable that some understanding will be arrived at between the authorities of the two hospitals which handle most of the emergency calls to prevent further friction.

EXAMINATION RESULTS ARE POSTED.

The following results of the exhibition and scholarship examinations were posted this morning:

Third Year—Mathematics and physics, value of $150 a year, tenable for two years, providing work in third year prove satisfactory, won by W. L. Carr, of Trout River, P. Q. (Huntingdon Academy).

Third Year—Mathematics and physics (value and conditions same as above). Mabel Rorke.

Second Year—Mathematics and physics, value of $150, tenable for one year, won by G. T. Wilson, of New Westminster, B. C.

Second Year—Mathematics and physics, value of $75, tenable for one year, won by H. D. Meldrum.

FINAL YEAR MEDS ELECT OFFICERS.

The final year in the Faculty of Medicine, McGill University, elected officers this morning. The following are the results of the elections: President, Mr. H. H. Leslie; vice-president, Mr. J. P. MacDonald; secretary, Mr. E. N. Henderson; treasurer, Mr. B. W. Robertson; reporter, Mr. J. F. Heagerty. A vote of thanks was tendered the retiring officers.

The exhibitions in modern languages and classics, etc., will be awarded early in the week.

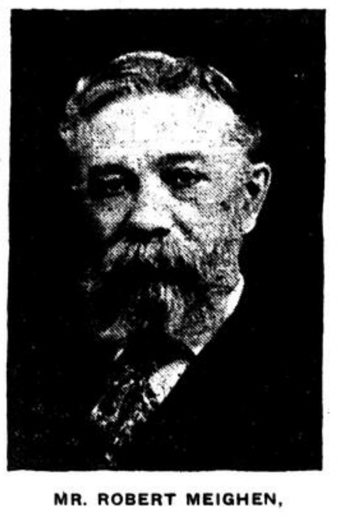
HENRY BIRKS AND SONS. Jewellers Silversmiths

Phillips Square, Montreal.

APPOINTMENT OF MR. ROBT. MEIGHEN WELL RECEIVED.

The appointment of Mr. Robert Meighen to the directorate of the Bank of Toronto, the news of which was published in yesterday's Star, has been received in the city with a great deal of favourable comment. Mr. Meighen, who for years has figured as



MR. ROBERT MEIGHEN,

Appointed a Director of the Bank of Toronto.

one of Montreal's most prominent manufacturers, having conducted the destinies of the Lake of the Woods Milling Company from small beginnings to its present magnificent position in the Dominion industrial life, is so well known in the business community that it is scarcely necessary to enlarge upon it.

His appointment as a director of the foremost Ontario Bank seems particularly appropriate, as Mr. Meighen began his business career at Perth in that province, and afterward did an extensive business in the Bathurst district, subsequently removing to this city where he has since made his home.

Mr. Meighen's interests are very large throughout the country as he is interested in manufacturing in the east and milling in the west. For years Mr. Meighen has been a prominent and popular member of the Montreal Board of Trade and the Corn Exchange Association, though he never could be prevailed upon to accept office in either body.

Pleaded Not Guilty.

Augustine Gauthier, the young girl accused of killing her child, was brought before Judge Lafontaine today. She pleaded not guilty, and the enquete was fixed for the 28th.

LABOUR CONGRESS WILL SEND AGENT TO GREAT BRITAIN TO WATCH IMMIGRATION

The fifth day's session of the Trades and Labour Congress of Canada opened this morning with the president, Mr. John A. Flett, in the chair.

The first resolution taken up was the amended one by Delegate Landers, to have the congress send an agent to Great Britain to offset the misrepresentations made by Governmental and private agents in sending immigrants to this country. The amendment, after a heated discussion, was adopted.

Several of the speakers, who did not agree with the substance of the resolution, said that it was almost impossible for one man to counteract the work of so many interested parties, who were inducing immigrants to come to Canada.

Some of the delegates claimed that the resolution was worthless, as the funds of the congress would not permit such a step being taken, unless the various labour forces throughout the Dominion contribute largely to a fund.

A resolution was also introduced by Delegate Page, asking the congress to assist the Montreal barbers in asking the City Council to carry out the city by-laws in regard to Sunday shaving. The resolution was unanimously adopted.

A resolution was also introduced by Delegate O'Callaghan, criticizing the educational system in the province of Quebec. The resolution was adopted.

Another resolution which is of great interest to the organization known as the Union of Municipalities was one condemning the bonus system of creating industry.

A resolution demanding the abolition of property qualification for public officials was passed unanimously.

EMPLOYMENT OF CHILDREN.

A resolution was introduced by a delegate from Ontario, protesting against employment of children under the age of 10 years. The resolution was strongly supported by Delegate S. Landers, of Hamilton, and after a short discussion was adopted and referred to the incoming executive.

Another resolution instructed the secretary to call the roll at all future conventions of the congress. The same to be reported in the annual proceedings.

The congress then took up the report of the Secretary-Treasurer, which dealt with the number of unions affiliated with the congress and showed that numerically and financially the congress was making good progress. The financial statement showed that the income during the past year amounted to $3,747.96. The expenditure was $3,346.29, leaving a balance to be carried forward of $401.67. The increase in membership was 5,902. The secretary stated that in order that the work of the congress go forward, the per capita tax should be paid more promptly than has been the rule in the past. He said that the unions that made the most noise were generally the last to pay their contribution. He also made several important recommendations, among which were the appointing of a permanent solicitor, a permanent organizer, and that the per capita tax be doubled.

Delegate Murphy, of Ottawa, wanted to know that if the report of the secretary was adopted whether the congress would be committed to the recommendations contained in the report. The president replied in the affirmative.

The report was then laid on the table until after the report of the various committees.

DELEGATE RICHARDS' ADDRESS.

The president then called upon Fraternal Delegate Richards to present his address. Upon Delegate Richards arising he was greeted with tremendous applause and the singing of "He is a Jolly Good Fellow."

He said that the trade union movement was making progress in all parts of the world and that the workers were becoming more and more conscious of their rights. On behalf of the American Federation of Labour he conveyed to the workers of Canada the sincere and fraternal greetings of their American brethrn. He eulogized President Gompers, of the American Federation of Labour, and said that if the trade unionists had great problems to face they also had great leaders. The membership of the American Federation of Labour was increasing by leaps and bounds, and it could now point with pride to a membership of more than 2,000,000.

At the close of his address, Delegate James Simpson, of Toronto, charged the fraternal delegate with having violated a prospective Canadian law that penalizes American labour leaders. He said that notwithstanding the serious charges the Canadian delegates were prepared to bring against the fraternal delegate, he had very much pleasure in presenting him with tokens of Canadian good-will consisting of a diamond ring and a pair of gold cuff-links. At the moment of making the presentation he pinned on to the coat of the delegate miniatures of the British and American flags, emblematic of that internationalism which they were working for. Delegate Richards stated his inability, under the circumstances, to reply and called upon General President John Tobin, of the International Brotherhood of Boot and Shoe Workers, of Boston, to perform that office.

President Tobin was called to the platform by Delegate Mack, and conveyed the greetings of his organization and in a few well chosen words thanked the delegates for their magnificent gifts to his friend Richards.

The president then announced that the delegates will be given a theatrical night at the Francais this evening.

The congres will, this afternoon, proceed with the election of officers for the ensuing year.

The reports of the different committees will also be brought up for consideration.

FRESHMEN ELECT OFFICERS FOR YEAR.

The whole freshmen year at McGill met in Molson Hall last night to elect their officers for the year 1904-05. Mr. Fred. Tees, Med. '05, presided. Addresses were given by Messrs. F. G. Wichmore, Arts '04, on behalf of the Track Club; Will. Stewart, on behalf of the Football Club, and C. A. Adams for the McGill Y. M. C. A.

The following officers were elected: President, George Shanks, Science; vice-president, D. Grant Campbell, B. A., Med.; secretary, L. P. Churchill, Med.; treasurer, Simpson, Arts. The elections of field and football captains were left over until the next meeting which will be held on Tuesday evening. The newly elected officers were detailed as a committee to make a class yell and report on it at the next meeting.

The Approaching Campaign.

MR. R. L. BORDEN AT GUELPH TO-DAY.

Special to the Montreal Star.

Guelph, Ont., September 23.—Mr. R. L. Borden's introduction to Guelph will include a visit to the Agricultural College. On the arrival of their train this afternoon, Mr. and Mrs. Borden will be met by the reception committee, who include Messrs. C. Kloepfer, Conservative candidate in South Wellington; J. J. Drew, president of the Liberal-Conservative Association of South Wellington; H. Gummer, secretary of the same Association; H. A. B. Leadly, president of the Young Men's Liberal-Conservative Association; Col. Macdonald, Col. White, Dr. Hewitt, J. P. Downey, M.L.A.; L. Goldie and W. A. McLean.

Mr. and Mrs. Borden will be taken for an hour or two's drive about the city and to the Agricultural College, and will afterwards hold an informal reception at the Conservative rooms. At the Opera House in the evening an orchestra will play while the audience assembled. The meeting will be presided over by Mr. J. J. Drew.

During their stay here Mr. and Mrs. Borden will be the guests of Mr. C. Kloepfer.

Liberal Campaign Methods.

Special to The Montreal Star.

Winnipeg, September 22.—E. Counsell, secretary of the Conservative Association of Hamiota, who is in the city, says that Government agents are very active in Marquette constituency, and are using all kinds of arguments to boost S. L. Head, the Liberal candidate. Speaking of their campaign tactics, Mr. Counsell said: "One of the telling statements in Mr. Head's repertoire of inducements is that the Grand Trunk Pacific is to run about eight miles north of Hamiota and parties of surveyors have gone through there, but when the Liberal candidate is questioned as to what surveyors are doing in the Dauphin district, he claims that they are formulating plans for the drainage of Lake Dauphin. To the people of Dauphin, however, the statement is made that the surveyors in their district are also locating the Grand Trunk Pacific line, so that every elector in the constituency will have a flag station in his back yard. In fact, so widespread is the location of the prospective new line that if there is a constituency in Manitoba or the North-West Territories which has not been promised the road, the Conservatives would like to hear of it."

Trouble in Liberal Camp.

Ottawa, Ont., September 23. — The difficulty in connection with the Liberal nomination in Pontiac has assumed a new phase. At the regular convention G. T. Hodgins, of Shawville, carried the convention by a sweeping majority, all but six votes. Dr. Gaboury, of Bryson, who was once defeated by W. J. Poupore, refused to abide by the convention, and announced himself to be in the field to stay. In an interview published, Dr. Gaboury charged that the convention was illegal and was packed. Mr. Hodgins is out with a reply to this, proposing calling another convention at Campbell's Bay, October 5th, when he offers to allow a test between himself and Dr. Gaboury, the defeated one, to abide by the result and support the other. Thomas Murray, the present member, some time ago announced his retirement, but he is said to be after the nomination again, but the local men are not likely to withdraw for him.

New Brunswick Conservatives.

Special to The Montreal Star.

St. John, N. B., September 23.—Arrangements have been completed for the tour of Hon. T. C. Casgrain, M.P., and E. F. Clarke, M.P., in New Brunswick, as follows: Messrs. Casgrain and Clarke will reach St. John from Annapolis, N. S., on Monday, October 3rd, and will speak in St. John the same evening. The other meetings arranged are: Tuesday, October 4, Fredericton; Wednesday, October 5, Woodstock; Thursday, October 6, Moncton, and probably in Campbellton on Friday, October 7.

St. Hyacinthe Conservatives.

Special to the Montreal Star.

St. Hyacinthe, September 23.—It seems probable that the conservative candidate for St. Hyacinthe will be Mr. J. de L. Tache. Mr. Tache will have the support of an influential group of Liberals who recognize in him a man of upright character. In addition to his solid merits, Mr. Tache possesses a highly cultivated mind and is an authority upon agricultural matters.

East Lambton Liberals.

Special to the Montreal Star.

Watford, Ont., September 22.—Electors of East Lambton at a meeting held here Wednesday, nominated Mr. John Cowan, K.C., of Sarnia, to be standard bearer of the party at the coming election for the House of Commons. Mr. Cowan who, on being notified, wired his acceptance of the nomination, was law partner of Judge Lister before the latter's elevation to the Bench.

Lists in Unorganized Districts.

Special to The Montreal Star.

Toronto, Septenber 23.—A Globe's Ottawa despatch says:—"Appeals in connection with the voters' lists in the unorganized districts will be heard on or before October 6, with the exception of a few places where the judges had to make a special trip. It is expected that all the lists will be printed by the 20th of October."

Compton Liberals.

Compton, September 23.—The Liberals of this riding have requested Nr. F. Gale, of Waterville, to enter the field in opposition to Rufus Pope, M.P. Mr. Gale has promised to consider their request.

Convention in Maskinonge.

Quebec, September 22.—On Tuesday next, September 27th, a convention will be held at Ste. Ursule, Maskinonge County, to select a Conservative candidate. It is said that Mr. Comeau, advocate, will probably be chosen.

Officers Were Elected.

The Liberal Club, of St. Henri, elected officers for the ensuing year, at its meeting Wednesday evening.

The following were elected: Messrs. Severin Letourneau, president; A. Leger, vice-president; L. Doray, 2nd vice-president; T. Rheaume, secretary; E. Hurtubise, assistant secretary; M. Tremblay, corresponding secretary; and M. Dumesnil, S. St. Germain, A. Bazin, E. Valiquette, J. Jacob, R. Tourangeau, A. D'Amour, and P. Chicoine as members of the committee of management.

A meeting of the Letellier Club was held last evening with the president Mr. Latulippe in the chair. After resolutions of sympathy had been passed in connection with the death of the late Mr. J. B. Blanchet, of St. Hyacinthe, the club was addressed by Mr. Gervais, the member for St. James Division.

Mr Gervais addressed the club at some length upon the Transcontinental railway question, and was followed by Mr. Robert Bickerdike, of St. Lawrence division, who addressed the assembled audience in French. Mr. Boyer succeeded him, speaking upon the work done by the Dominion agricultural department.

The development of the Sault Ste. Marie and the northern parishes of Quebec, was commented upon. After a number of other speakers had delivered addresses, the club adjourned. A number of new members made their first appearance.

St. Gabriel Conservative Association.

A large gathering attended, last night, the first regular meeting of the above association, in Picard's Hall. After the admission of new members and the routine proceedings, President J. Lussier presented to the meeting Hon. P. E. Leblanc. The member for Laval delivered an able speech in connection with both Liberal administrations in Ottawa and Quebec.

Other addresses were also delivered by Messrs. Alban Germain, James Nickle, Ald. Turner, A. F. Fortin, L. J. Lefebvre and others, and were applauded by the auditors.

The association will hold its regular sessions on every second and fourth Thursday of the month, and will attend immediately to the revision of the lists, which is going to take place in December next for St. Gabriel Ward.

The Premier at Sorel.

On Wednesday, September 28, Sir Wilfrid Laurier will address a meeting at Sorel, and arrangements were made yesterday by Mr. C. O. Paradis, the Mayor of Sorel, for the steamer Algerian to take excursionists to the meeting, leaving Montreal at 8 a.m. and arriving at Sorel about 11.30 a.m. On the return trip the boat leaves Sorel at 6 p.m., arriving at Montreal about 10 p.m. Return fare 75c. An invitation has been extended to all the Montreal Clubs to join the excursion. For the convenience of those who live between Chambly and Sorel it has also been arranged that the steamer Cultivateur should leave Chambly, and arrive at Sorel about mid-day, stopping at all intermediate stations except St. Ours.

The Liberal convention for Laprarie-Napierville to choose a candidate for the Federal elections has been adjourned till Monday next, September 26.

North Bruce Liberals met in convention on Thursday at Port Elgin, Ont., and nominated Mr. J. E. Campbell, of Hepworth, to contest the constituency at the Federal elections.

Sir Wilfrid Laurier will be present at the formal opening of the McGill Conservatorium of Music. His Excellency, Lord Minto will decide the date of the ceremony upon his return to Ottawa from the North-West. Many pupils have already been enrolled, and the routine work has commenced.

Toronto Delegates Had Fast Run.

The Toronto delegates present at the banquet of the Canadian Manufacturers' Association, last evening left for home, on a Grand Trunk Special, at two a.m. to-day, arriving at 9.10, after a very fast run of seven hours and ten minutes.

Sent Down for Four Years.

A youth named R. J. Stanford, who has been looked upon for a long time as a nuisance to the police, was to-day sentenced by Judge Lafontaine to four years in the penitentiary.

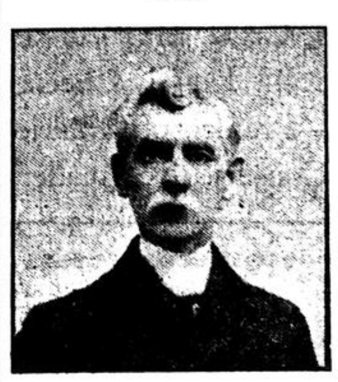
SUCCESSFUL ADVERTISERS.



MR. JOHN LEWIS.

LEWIS' DRUG STORE SUCCESS.

Said Mr. John Lewis, of an eminently successful drug store:

"The mere fact that we are one of the few drug houses in Canada that advertise largely is proof of what we think of the Star, the paper we use chiefly."

"Has your advertising been a success?"

"Yes, sir, I have advertised in the Star for thirty years. I advertise specialties, prescriptions, the purity of our drugs, etc., constantly, and our trade grows larger each year. There is no doubt the Star has had much to do with this for it is the best there is in Canada."

"Is it the best advertising medium for patent medicines?"

"It is the best for anything."

CLAIMS $20,000 FOR DEATH OF HUSBAND IN RY. ACCIDENT.

An outcome of the Grand Trunk Railway collision at Richmond, Que., on the 31st ult., was an action entered to-day by Mrs. Frederick H. Hackett, widow of the late Mr. Hackett, superintendent of the Canadian Express Company. Mr. Hackett was a passenger on the west bound train, and was instantly killed in the collision. The widow, represented by Henry J. Elliott, claims $20,000 on behalf of herself and her two children, aged five and seven years. The claim sets forth that the accident was due to the fault and negligence of the railway company and its employes. The plaintiff petitions for a jury trial.

NEW POST OFFICE FOR UPTOWN.

The Government has recently signified its intention of erecting a branch post office on St. Catherine street, near University. The post office officials have for this purpose acquired a large lot on the south side of St. Catherine, between the Renouf building and Molsons Branch Bank.

The purchase price was $45,000, or $19 a square foot, the lot being 50x90.

For some years past there has been a branch post office in Renouf's bookstore, and the intention of the Post Office Department is to erect a stone building, which will provide accommodation for the rapidly increasing business in the uptown portion of the city.

BODY OF GIRL IS IDENTIFIED.

The body of the young woman killed by a street car near the corner of St. Lambert Hill and Notre Dame st., on Wednesday evening, has been identified as that of a girl hailing from Gaspe. Her name was Malvina Samson, residence in the rear of No. 4 St. Charles Borromee street, and employed at the Brokers' Lunch Room, St. Francois Xavier street. The remains were identified by Mr. J. L. Leclaire, proprietor of the lunch room. It is not known that the deceased had any relatives in Montreal. It would look as though the girl had assumed that the car would stop before it reached the corner and she would have ample time to cross in front of it. An inquest was held before Coroner McMahon yesterday afternoon at which a verdict of accidental death was returned and the Street Railway Company and the motorman were exonerated.

LOCAL IMPORTERS MEET MINISTER.

The Hon. Mr. Paterson, Minister of Customs, is in the city in connection with his usual tour of inspection, when he also meets the local importers and confers with them. A number of the local importers met Mr. Paterson this morning at the Montreal Custom House at 10 a.m., and among other things the dumping clause came up for considerable discussion.

FIVE CHARGED WITH BURGLARY.

The detectives have been working on a number of small burglaries lately, and last night they rounded up five young men against whom there is evidence. They are William, Sydney and Charles Day, brothers; Harold Payne and Sydney Coats. To-day they pleaded not guilty when brought before Judge Lafontaine and were remanded for enquete.

HON. MR. NOSSE, JAPANESE CONSUL-GEN., RETURNS TO CAPITAL.

The Hon. T. G. Nosse, Japanese Consul-General, and the Misses Nosse, who have been in town, the guests of Sir William and Lady Van Horne, Sherbrooke street, and of the Misses Macfarlan, Phillips Place, have returned to Ottawa.

Golf Match Postponed.

The annual match between the Royal Montreal Golf Club and the Quebec Club, which was to have been played to-morrow, has been postponed until October 8th.

The Bogie competition of the club will commence to-morrow.

JUDGMENT OF COURT IN NORTH YORK

Chancellor Boyd Declared That Mr. Davis Had Personal Knowledge.

WAS WARNED BY MR. LENNOX

Mr. Davis in Evidence Admitted He Did Not Investigate Charge Against Robinson.

Newmarket, Ont., September 23.—In giving judgment yesterday unseating Hon. E. J. Davis, Chancellor Boyd said they had arrived at the same decision in different ways. It was a case of the application of ascertained and undisputed facts to the statute. True, there was no corruption and no immorality on the part of the respondent. It was the penalty of employing as agent by the candidate a man who had been reported for corrupt practices.

In the first place, there was the question of agency. Had enough been shown to establish agency? He reviewed all the circumstances of Robinson's activity, laying stress on the points where he came in contact with the respondent, in addition to all of which there was the evidence that he had no other business in the riding. "Clearly that establishes agency of the most prominent kind." He thought, then, the candidate had participated in and benefited by the labours of this man sufficient to show personal engagement; but one other point remained—did respondent know that Robinson had been guilty of corrupt practices

MR. DAVIS'S KNOWLEDGE.

The Chancellor attached considerable importance to the warnings of Mr. Lennox, from which it was to be concluded that Davis had personal knowledge of the facts. It was not a corrupt act and that mistake did not relieve him of the responsibilities. Davis took the responsibility of not investigating and the statute was aimed to prevent the employment of such in elections. As regards the appointment of scrutineers, he did not agree with Mr. Aylesworth that signing blank paper absolved the candidate from responsibility.

I conclusion, he regretted that the election in a constituency where the majority was 499 should be voided, but while the course was harsh he saw no way of escaping the provision of the statute. He therefore declared the election void because of the improper employment by the respondent of an improper person as agent.

Mr. Justice Teetzel, agreed in the result, but took exception to the application of the term "personal engagement" in so broad a sense; he added his regrets, but expressed the fear that if any other course were pursued the way would be open to more general wrong doing. The question of costs was reserved.

THE MINISTER'S EVIDENCE.

During the examination of Hon. Mr. Davis preceding the judgment, Mr. Davis said that he could only remember having his attention called on one occasion by Mr. Lennox to the presence of W. H. Robinson in the riding. Further, he was not aware that such a man had been reported for corruption in North Grey. He had not directly, nor indirectly, engaged Robinson to work for him in the election campaign.

To Mr. Blackstock, the Minister of Crown Lands swore that he had answered all the questions put to him candidly and honestly.

"Have you given us a full and fair account of this whole matter?"

No answer.

"Have you told us all that is necessary?"

"I have answered all questions put to me."

"Answer my question."

"Well, I don't know anything more at present."

"You do not pretend that you did not have ample notice during the campaign of the charge made against Robinson that he had been reported for corruption in North Grey?"

"I didn't believe the statement true."

"Answer my question. You are not doing yourself any good by going on in this way."

"I had no opportunity to investigate the charge."

"I didn't ask you that. Answer my question."

"I don't know how I can give you any other answer."

"Very well, we will let it go that way."

"Now, you say you had not time to investigate the charge that you heard about Robinson. When was it made?"

"On the night before nomination."

"When did you investigate it?"

"After the elections."

"Did you state at your examination for discovery that you did not know it was against the law to employ men in election work who had been reported for bribery?"

"I don't remember."

The examination was read from in which Mr. Davis made the admission.

LADY CURZON IS SLIGHTLY BETTER.

London, September 23.—The condition of Lady Curzon of Kedleston, wife of the Viceroy of India, who was taken ill two days ago, is still critical, but was slightly improved this morning. A despatch from Walmer Castle says her strength is well maintained. Five doctors were in attendance upon Lady Curzon throughout the night.

SCHOOL CHILDREN PERISH.

Were Precipitated Into Vault With Terrible Result.

Cincinnati, September 23.—During the morning recess to-day of the public school at Pleasant Ridge, about twenty miles north of this city, a number of children lost their lives. When school recessed there was a playful rush into the outhouse, which gave way, precipitating over twenty children into the vault.

At 11.30 a.m., nine bodies had been recovered. At that hour an estimate of those missing placed the number of those that had fallen into the vault at 25, and it was reported that there was evidently more dead bodies yet in the vault.

Canadian Priest Dead in England.

Canadian Associated Press.

London, September 23.—Rev. Patrick Fogharty, of Canada, arrived yesterday at Southampton from the West Indies, where he had been for the benefit of his health. He was accompanied by his sister and a nurse, and took the train for London, where, upon arrival at Waterloo Station he was found to be dead. The body now lies in Lambeth mortuary.

A Verdict of Manslaughter.

Special to the Montreal Star.

Pembroke, Ont., September 23.—In the case of Middlestadt, charged with the murder of an Eganville blacksmith, the jury yesterday brought in a verdict of manslaughter.

The accused was sentenced to three years in Kingston penitentiary.

ENGLISH COMMENT ON MANUFACTURERS' DICTA.

The London Globe Declares They Contradict Lord Rosebery's Statement.

Canadian Associated Press.

London, September 23.—In a letter to the Birmingham Daily Post, Mr. Charles Marcil, M.P., for Bonaventure, discusses a letter written to the same journal last July, and signed Walter Owen, who claimed that Canada was gradually slipping away and that no love existed between Quebec and Ontario. Mr. Marcil says such a statement is ridiculous. Canada was never more loyal to the Empire than to-day. No Canadian would ever charge French Canada with lacking generosity or loyalty because he would know better than that. If Owen had been an observer worthy of the name as were Lord Dufferin, the Duke of Argyll, the Earl of Aberdeen and Lord Minto, he would not have committed the unpardonable blunders in his letter to the Post. Believing that self-interested writers have painted the attractions of Canada in far too vivid colours; that they have depicted paragraphs of perpetual sunshine and forgotten to so much as hint at the occasional shadows, the proprietors of the Post are sending a special correspondent to write of Canada as it is.

THE MANUFACTURERS' RESOLUTION.

The Evening Globe says: "The resolution of the Canadian manufacturers urging the appointment of a Royal Commission, directly contradicts the scoff with which Lord Rosebery seasoned his last speech. Perhaps even Lord Rosebery would not have the hardihood to maintain that the manufacturers of Canada are at all likely to damage business for the sake of sentiment. If Lord Rosebery knew them he would find them as level-headed and keen business men as are to be found." The Globe believes that if the present opportunity for the consolidation of the Empire be rejected, the Colonies will severally make their own arrangements, somewhere greatly to the detriment of Great Britain, and Canada would be among the first.

Referring to the resolutions of the Canadian manufacturers urging higher duties, the Westminster Gazette says: "We do not complain, but this should make us see why an 'offer' is not forthcoming. Canada is not ready to give the only thing for which Chamberlain said we ought to 'pay.'"

PERSONALS.

Mrs. Kenneth Thornton will receive at her residence, 167 Stanley street, on Tuesday and Wednesday, September 27 and 28.

The marriage of Miss Amy Ritchie, daughter of Lady Ritchie, to Mr. James Smillie, has been arranged to take place in Ottawa on the 5th of October, and a trip to the Old Country is planned as a wedding tour.

The marriage of Miss Margaret Taylor, daughter of the late Mr. John Taylor, to Charles A. Racey, took place Wednesday evening at St. Luke's Church, Rev. W. W. Craig officiating, in the presence of a number of guests. The bride, who was given away by her brother, Mr. John Taylor, wore white satin with tulle veil and orange blossoms, and carried a bouquet of white roses. She was attended by her sister, Miss M. Taylor, who wore pink eolienne, with a big white hat and carried pink roses. Mr. W. G. Reid was best man. Mr. W. Taylor and Mr. H. Cowan acted as ushers. A reception was held after the ceremony at the residence of the bride's mother, Sherbrooke street, and later Mr. and Mrs. Racey left for Toronto, Niagara and Buffalo, the bride travelling in a blue costume.

Did Not Appear in Court.

William Huckle, the manager of the International Detective and Employment Agency, Craig street, did not appear to-day when called before Judge Lafontaine to answer a charge of attempting to assault a young girl. His bondsmen were told to produce him in eight days or forfeit the bond of $100.

Wheat Was Unsettled.

From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.

Chicago, September 23.—Wheat was unsettled. New September sold between 108⅜ and 109, and May between 112⅞ and 111¾, compared with closings yesterday of 107⅞ and 112¼ respectively. Wheat followed the other cereals, suffering considerably during the morning. The popular thing to do was to buy December and sell May, thus narrowing the spread between those months. The shorts were buyers of December, fearing a squeeze in that month by the big longs.

Interior millers were buyers of cash wheat here. The advance in December wheat at St. Louis and Duluth were items that helped to steady values.

BROADER TENDENCY IN STOCK MARKET

Nova Scotia Steel Was Again the Most Active Feature.

FLUCTUATIONS IN PRICE

Highest Touched Since Break to 50—Montreal Power and Toronto Rails Prominent.

FORENOON STOCK REPORT.

The stock market evidenced some slight broadening tendency during the forenoon operations, after a week or more of extreme dulness. As matters have been going in the market for some time a period of activity is now due, as dull spells of this kind have not lasted more than a week or thereabouts.

The issues which received more attention to-day than has been the case for some time were Toronto Rails and Montreal Power. Bull tips were in circulation in the "Street" in connection with the former issue. To-day's price was 103, compared with 102½ recently. The bull argument is said to be the good financial progress being made by the company.

COULD BE EASILY ADVANCED.

The stock has been very quiet from a speculative point of view for the last year or more, the bulk of the stock having passed into investment hands. In the face of the strong financial position of the company and the scarcity of the floating supply, it is natural to presume that a concerted effort to lift the price should be an easy matter.

There was some buying of Montreal Power at 77⅞ to 78¼, but the most active issue was again Nova Scotia Steel. On dealings in 500 shares the price rose from 67½ at the opening, to 69 in the first hour, but later the price eased off and fluctuated considerably down to 67½ again.

EXPECTING THE DIVIDEND.

To-day's highest for Scotia constitutes the best price since the break to 50 some weeks ago. Since then it rose as high as 67⅝, but again declined to 61 early this week. The market is expecting an announcement at any moment now respecting the dividend on the common, but there is very little doubt expressed that it will be at the rate of 6 per cent. per annum.

A striking decline took place in Nova Scotia Steel preferred. After transactions in a couple of broken lots at 105 to 106, 50 shares sold at 100. Recent sales of the stock have been at 105¼ to 106. To-day's price was the lowest since the stock was listed in this market. A couple of years ago it sold above 130.

BALANCE WAS SCATTERED.

The balance of the trading was scattered. There were no local dealings of account in Canadian Pacific. In New York there were transactions at 127 to 127⅛, equal to yesterday's closing figures. As the result of some dealings in Wall Street in Detroit United, some attention was devoted to the stock locally, and transactions took place at 67⅜ to 67¾, compared with 66½ recently.

Dominion Coal was down a point at 58, and Canadian Coloured Cotton bonds were a point easier at 87. Montreal Street Railway (new) was steady at 202, and Toledo Electric at 21.

Twin City was unchanged at 97.

STRIKING DECLINE IN STERLING EXCHANGE.

From the Special Correspondent of the Montreal Star in Wall Street.

New York, September 23.—Transactions in the stock market in to-day's early dealings were in light volume, and resulted in limited movements in prices. Trading started with no new facts presented for consideration, except that weather advices from the grain belt were encouraging as they set forth the prevalence of higher temperatures throughout the central west. American stocks were generally heavy in London, but operations here for foreign account were on a small scale.

Little definite light was thrown upon any of the more pronounced movements in yesterday's market, save for unofficial assertions that a dividend would be declared within a comparatively short time on Ontario and Western. There was some discussion regarding the probable showing of to-morrow's bank statement, and it was commonly expected there would be a much smaller decrease in surplus reserves than has been shown at any time this month.

An extensive decline in the sterling exchange rate was also taken to foreshadow importations of gold in the event that other than normal conditions should develop in the local money market. The most active stocks to-day were Union Pacific, Southern Pacific, St. Paul, Pennsylvania, Ontario and Western, Reading and Atchison. In the industrial quarter, United States Steel shares were leaders in respect of activity, and were steady. Reassuring advices respecting the state of the pig iron trade, particularly in the west, were an influence in the course of these securities. Local traction shares were comparatively neglected. Canadian Pacific was very firm; its sales to one o'clock, 500 shares.

GOSSIP OVER WIRE FROM WALL STREET.

Hartshorne, Bogert and Battelle:—In sympathy with stocks, the market for speculative bonds sold off rather rapidly during the past week. There was good buying, however, and, after the first liquidation, the market rallied, and prices have been holding steady. The buying in several issues has been particularly good, and we look for further advances. The market for high class securities continues strong but inactive. There is a great scarcity of offerings. During the past week, call money advanced, and it is likely that if further advances continue, some fair sized blocks of high class bonds may be placed upon the market.

J. B. Picken and Co.—London prices this morning are irregular, and show generally fractional losses of ⅛ to ¼ per cent. The sudden frost prevailing in the North-West undoubtedly caused considerable damage, and will continue to be used against the stock market. There seems to be a good supply of genuine long stock on any real recovery.

E. and C. Randolph.—The market has been quiet and uninteresting this morning, with a somewhat irregular tone, but in the main the list has shown a tendency to harden. The Harriman stocks, which were under pressure yesterday, have been strong to-day, and Louisville and Nashville advanced quite easily on a few good-sized buying orders. Among the specialties, Distillers has been a feature, advancing to the highest price reached on this movement. The tone at present is dull and steady, with commission houses doing practically nothing.

J. S. Bache and Co.—A quiet market to-day, with fair strength throughout the list, after a somewhat irregular opening. L. and N. and Distillers were the strongest of the list, the regular dividend of 1 per cent. having been declared on it. There seems to be more confidence in the security, the dividend having been regularly declared for some time. L. and N. is showing up well in earnings, and future of stock well thought of.

Charles Head & Co.—Dealings have been largely professional, although London has sold moderate amounts. The opening was irregular and generally lower, but towards the end of the first hour the tone hardened somewhat, and prices improved on moderate buying. The tendency of the Harriman Pacific stocks was firmer, and this checked an early disposition to sell stocks. The Steel stocks were firm, and Amalgamated Copper appeared to be well bought.

Burnett & Co.—Leading financial interests are opposed to further speculative activity pending more definite news regarding the corn crop and the outcome of the interior demand for money, as affecting the local money market. Reports from the west were not particularly favourable on corn. London was again somewhat reactionary this morning.

Toronto Weekly Bank Clearings.

Clearings of local banks for the week ended, with comparisons:

This week	$17,344,340
Last week	16,277,967
Year ago	13,569,521
Two years ago	16,573,685
Three years ago	11,004,003

Ottawa Bank Clearings Increase.

The Ottawa Clearing House reports banking exchanges as follows:

Total for week ending September 22, 1904	$2,297,543
Corresponding week last year	2,841,384

Steamer Howe Released.

Special to the Montreal Star.

Ogdensburg, N. Y., September 23.—The large steel steamer Geo. C. Howe, of the Wolvin line, Duluth, bound from Quebec to Oswego, which went on the rocks in the St. Lawrence River, near Thousand Island Park Monday night, was released yesterday afternoon. The steamer is not badly damaged.

Curtailment in Loans in Canada

A reduction amounting to upwards of five millions of dollars in the current bank loans in Canada is the leading feature of the statement of the chartered banks of the Dominion for the month of August. In July the commercial loans of the banks had reached the highest figures in the history of the country at $414,096,000, and for the past month the item was reduced to $408,240,000.

It is believed this turn in the course of banking events has some special significance at this time. Many take the curtailment in the rapid increase in loans as an indication that it is time to go a little slower. A year ago the loans amounted to $368,641,000, so that up to July there was an increase of some forty-five millions in that feature of the bank's business.

There has also been a curtailment of close to two millions in current loans elsewhere, from $19,821,000 in July to $17,869,000. A year ago this item stood at $22,450,000, so that it will be seen there has not been so much variableness in that feature of the bank's business outside of their more direct field of operations.

DEPOSITS GO ON INCREASING.

It is evident that the decision of the banks to keep loans down has not been due to any lack of money with which to do business. The deposits of the public in the banks have gone on increasing until they have now reached the tidy sum of $434,900,000, compared with $431,000,000 a month previous, and $385,000,000 a year ago. It will thus be seen that deposits are close to four millions greater than they were a month ago.

The increase in August in that respect was not so striking as it was in July over the previous month, when there was an increase of seven millions, and in June when there was an increase of five millions over May. The increase of some twelve millions in three months is, however, a very striking one, and an unmistakeable indication that the monetary resources of the country are gaining.

DEPOSITS FOR AUGUST.

The public deposits for August are divided as follows: Payable on demand, $119,137,382; payable on notice, $315,789,663. In July these items were $118,331,939 and $312,713,823. A year ago the same stood at $111,735,920 and $273,770,645.

There was a slight increase in circulation in August over the previous month. The demands of the autumn trade invariably call for this increase, but the more striking requirements for the movement of the crops is more noticeable in the figures for September and October, when it is customary to see an increase of several millions. In the case of last year this amounted to ten millions, from sixty millions in August to seventy millions in October. The circulation in August stood approximately at what it was a year ago. With the paid-up capital of all the banks at $79,458,433 and the circulation at $60,227,074, it will be seen that there is ample room for expansion.

CALL LOANS DECREASE.

The amount of loans on stocks and bonds, otherwise call loans, show another decrease, and now stand at the lowest total of the year at $35,710,000, compared with $36,711,000 a year ago. This feature would not tend to support the idea that is prevalent in some quarters, that the recent efforts to arouse speculative interest in the stock market has resulted in an increase in the distribution of stocks among the public. On the other hand it would appear that the floating supply is diminishing.

The principal items in the bank statement are as follows:

LIABILITIES.

	August, 1904.	July, 1904.	August, 1903.
Capital paid up	$ 79,458,433	$ 79,267,773	$ 77,617,886

GRAND TRUNK AND HUDSON'S BAY STOCKS.

Special Cable from our London Correspondent.

London, September 23.—Financial writers are busy attempting to analyze the reasons for the sudden ascendancy of Hudson's Bay and Grand Trunk stocks. Hudson's Bay are up 3 points since the last make-up, the chief cause being harvest prospects stimulating land sales. As it is, even if the current year's sales are ignored, the company have nearly one million dollars net on their land account, and with fur trading profits it ought to aggregate $1,900,000, against $1,843,650 for 1903-4. It is estimated that there are 2,300,000 acres of land in the fertile belt remaining to be disposed of at advancing prices, and as there will be no more reducing of capital, the land profits will be distributed direct with the trading profits. A dividend of at least 55s is counted upon for the current year.

The Grand Trunk stock's advance can hardly be accounted for by the report. Speculators say that all the preference issues are bound for higher prices. The first preference will certainly get a full dividend at the end of another six months. Many expect a full second preference dividend.

WINDERMERE.

FIRM TONE IN TORONTO STOCKS.

Special to The Montreal Star.

Toronto, September 23.—A firm tone was in evidence in the Toronto market this morning, though price changes were narrow. Except in Nova Scotia Steel, which at 68½ showed a gain of 2 points, Electrics were firm, but not active, and tractions inclined to higher prices. In the bank shares Ontario came in for some attention, advancing ⅜ to 128. Gas was a shade low at 205. Forenoon transactions were:

Ontario Bank—180 at 127¾ to 128¼.

Bank of Commerce—3 at 154½.

Standard Bank—5 at 238.

Toronto Electric Light—50 at 145½ to 145.

Mackay pfd.—100 at 70.

Twin City—15 at 95⅞.

Traders Bank—5 at 134.

Toronto Ry.—405 at 102½ to 103.

Bank of Toronto—10 at 234.

Soo pfd.—100 at 130.

Can. Gen. Elec.—175 at 156½ to 156⅝.

London and Canada—116 at 93 to 93½.

Winnipeg Ry.—71 at 79.

Consumers' Gas—101 at 205.

Sao Paulo—25 at 103.

Nova Scotia Steel—560 at 66⅞ to 68½.

J. P. Morgan Not to Retire.

New York, September 23.—It is authoritatively stated that J. P. Morgan is not to retire from active business on January 1st and turn over the management of his firm to his son, J. P. Morgan, jr., as has been reported.

The past week's exchanges of the Montreal banks were the largest since the week of July 21, and, with that exception, are the largest in several months. They exceed the corresponding week a year ago by upwards of two millions and a quarter, and are not very far behind the total for the same week in 1902. A sufficient time has now elapsed since the period when the banking clearings were unduly expanded by stock exchange operations, and are capable of intelligent comparison on normal business conditions. The figures for the past week, with comparisons, are:

Total for week ending September 22, 1904	$21,306,292
Corresponding week, 1903	19,064,960
Corresponding week, 1902	22,123,000

Returns of clearings for several preceding weeks were:

Week ended September 15	$20,582,661
Week ended September 8	17,759,281
Week ended September 1	18,726,527
Week ended August 25	18,951,923
Week ended August 18	19,877,714
Week ended August 11	20,989,761
Week ended August 4	19,394,462
Week ended July 28	20,236,381
Week ended July 21	21,431,378
Week ended July 14	20,589,392
Week ended July 7	20,386,267

Mr. Robert Meighen, one of Montreal's best known business men, has been elected a director of the Bank of Toronto.

Bar Iron Prices Reduced.

New York, September 23.—At a meeting here of the bar iron pool, the official price has been reduced $1 per ton to $1.30 per 100 pounds, Pittsburg, and $1.44½, carload lots, New York.

CAUTIOUS FEELING IN MONTREAL TRADE.

Dun's Bulletin says of Montreal trade: The general trade situation at Montreal is not materially different from that described last week. Owing to the unseasonably cool weather which has prevailed, sorting orders in fall fabrics, clothing, etc., are rather more numerous, and in heavy metals and metal goods there is more demand reported, especially in heating apparatus supplies, but it is noted that orders as a rule are on the small side, indicating the general feeling of caution before referred to. In groceries, general hardware, paints, oils, etc., the distribution continues of just a moderate character. The markets show few notable revisions of values, except in glass, which is much firmer owing to the labour and statistical position in Belgium. Collections are reported as fair, all things being considered, and failures are not numerous, the number of district insolvencies for the week being reported as eight, the liabilities in the majority of cases being very small.

AMES & CO. MAKE OFFER TO CREDITORS.

Toronto, September 23.—A. E. Ames and Co. have issued a circular to their creditors offering the assets of the Securities Holding Company for their claims. The Securities Company was formed in February to save the assets for all rather than a few creditors. The company now states that the encumbered and unencumbered stock is available for the creditors in proportion to their claims. The stocks offered are City Dairy Co., 550 preferred, and 1,175 common; Carter Crume, 2,255 pfd. and 3,203 common; Dunlop Tire, 2,236 pfd.; W. A. Rogers, 736 pfd. and 1,303 common. In their circular Ames and Co. state that since the Securities Holding Co. was formed, liquidation of liabilities to secured creditors has taken place to the amount of $470,000. The stock is subject to encumbrance as follows: City Dairy Co., unencumbered; Carter Crume pfd., $50; common, $25; Wm. A. Rogers pfd., $70; common, $50; Dunlop Tire, $60.

Boston Market Very Dull.

Boston, September 23.—The market is again very dull this morning. The trading is without feature, and at this hour the market is practically at a standstill. Amalgamated sold at 57¼ and 57½. Copper Range at 56¼, U.S. Mining at 20, and Osceola at 76½. U. S. Steel pref. very dull at 67 to 67¼. Telephone sold at 139½ and 139. Sugar lost ¼ to 129½. Mass. Electric sold at 13, pref. at 59. No trading in Dominion stocks.

Flour Exports via Halifax.

Halifax, September 23.—The Board of Trade have been notified that an export rate on Manitoba flour has been put in force to Halifax, which will enable dealers here to have flour shipped through Halifax instead of St. John or other Atlantic ports, as heretofore.

DAILY COMMERCIAL MARKETS AND QUOTATIONS.

FIRST COST OF BUTTER LOWER THIS MORNING.

Local Prices Steady—Cheese Held Steady Also, But Demand is Dull—Eggs Firm.

BUTTER—The market is on the dull side, owing to the difficulty of obtaining orders from England to give back a profit on present cost. All sorts of prices were being asked by factorymen at the cold stores this mornig, some demanding over 20c. It is said that as high as that figure was paid in one or two cases, but that the bulk of the butter was sold at around 19¾c, and some sold at 19½c. The market holds steady at yesterday's figures, notwithstanding the lack of demand, dealers being apparently of the opinion that England will take the stock very shortly.

Finest Quebec creameries are quoted at 19¾ to 20c and finest Townships at 20 to 20¼c. Fresh dairies are quoted around 15 to possibly 15½c, but held dairies were not wanted.

Receipts reported on the Board of Trade this morning amounted to 9,127 packages.

CHEESE—The market was about steady. Nothing new developed in prices yesterday, factorymen refusing 8⅞c wherever it was offered. At 9c quite a quantity changed hands, and prices went as high as 9⅛c. Buyers were undoubtedly impressed with the idea that they should secure the goods at a reduction in price and they held out for their position for a long time, but competition eventually compelled them to pay about the same figures as have been ruling lately. Exporters declare, and probably with justification, that they cannot make sales to England to give back a profit on cost; but shipments keep up fairly well, just the same, whatever the reason. Holders are demanding 8⅞ to 9c for Quebecs, 9 to 9⅛c for Townships and 9⅛ to 9⅜c for Ontarios.

Receipts reported on the Board of Trade this morning amounted to 10,062 boxes.

EGGS—Demand continues fair and receipts are just about equal to it. As high as 17½c is being paid for good straight gathered, country points, but the most of the stock is still being bought around 17c it would seem. Straight candled are selling here at 18 to perhaps 18½c, and selects at 21 to 22c.

Receipts reported on the Board of Trade this morning amounted to 437 cases.

POTATOES—The market showed no change this morning, dealers buying best stock at 60 to 65c per bag of 90 lbs., and selling the same in broken lots from store at 70 to 75c per bag. Deliveries are very fair, and the quality is uneven.

BEANS.—The market is firm and fairly active, the demand for local account being good. Old stock is quoted at 32½c to 35c per bushel, on track and 35c to 40c in broken lots, from store, for primes.

HONEY—The market is very dull. Light strained is said to be offering at 7c per lb. Light comb was sold at 9¾c, and dark strained at 6c.

POTASH—The market is steady, and $5.65 to $5.75 will about cover the restricted enquiry for first sorts; seconds, $5.25 to $5.30; pearl ash is wanted at $8, but not a barrel is on offer.

FACTORYMEN HOLDING ON COUNTRY BOARDS.

Brockville, Ont., September 23.—Boarded 755 white and 2,210 coloured. The market was very dull, and while there was keen preference for coloured, buyers held back. For white 8¾c, and coloured 8⅞c, were the best offers, both being refused, 9c being demanded. On the curb, 9c was paid for coloured, and in order to hold their regulars the other buyers were forced to meet them. White brought 8⅞ to 9c, with the former ruling. About 6,500 boxes changed hands, divided up among the usual buyers. Whitton, of Belleville, was present, but did not take a box.

Madoc, Ont., September 23.—Offered, 800 boxes cheese; 420 sold at 9c. Balance unsold.

Kingston, Ont., September 23.—Some 1,400 boxes were boarded. Buyers would only offer 8⅞c, and salesmen knew the prices elsewhere ran over 9c, so refused.

Vankleek Hill, Ont., September 23.—There were 2,171 boxes of cheese offered on the board. Buyers wanted cheese at 8⅞c; salesmen wanted 9c for white, and 9⅛c for coloured. Only sales on the board were 225 boxes coloured, which Bennett got at 9⅛c. Many sales were made on the street at board prices. There were seven buyers present, Welsh, Bennett, McGregor, Weeger, McRae, Pitt and Fraser.

Winchester, Ont., September 23.—Boarded, 1,153 cheese, 883 coloured, balance white; 9c bid for both coloured and white. No sales on board. Buyers present: McLean, Weir, Logan, J. F. Ault, J. W. Ault.

Tweed, Ont., September 23.—There were 465 cheese boarded here; 8⅞c bid; no sales.

METAL MARKETS IN NEW YORK.

Special to the Montreal Star.

New York, September 23.—Following were the basic prices of metals at the close of business yesterday:

Iron, east, No. 2 fdy., fce., $13 to .50.

Silver, commercial bars, 57⅜.
Nickel, New York, $40 to $47.
Aluminum, ingots, New York, $33.
Quicksilver, 40.

London—Lead steady, soft English £11 16s 3d.

WOOLLEN MILLS SOLD FOR QUARTER MILLION.

Toronto, September 23.—Mr. J. R. Cartwright, official referee, yesterday approved the sale of the Canada Woollen Mills Company, Limited, to Wm. Long, of Hamilton, the price being $253,000. The sale covers all the mills of the company at Carleton Place, Hespeler, Waterloo and Lambton, and is for cash. A new company will probably be organized by Mr. Long, who, besides being one of the largest shareholders in the old company, was, next to the bank, the largest creditor, having a claim for $80,000.

SULLY POOL TO PUT COTTON TO 15c

Special to The Montreal Star.

New York, September 23.—Daniel J. Sully, with new backing, is leading another bull pool in cotton. He is said to organized a syndicate in the South and to have begun operations with the view of putting cotton to 15c again. Sully has sent out a statement to all spinners advising them to buy cotton, as a time of scarcity is at hand. The circulars say the world is again confronted with the prospect of a serious shortage of cotton in 1904-5. The outlook for the present crop is, in Sully's belief, at most 10,000,000 bales.

Sully's estimate compares with eleven to twelve million bales which the trade expects.

Cotton Market Firmer To-day.

E. & C. Randolph quoted the New York cotton market as follows:

	Open.	High.	Low.	12.30.
Jan.	10.78	10.91	10.77	10.87
Mar.	10.85	10.98	10.84	10.94
Sept.	10.78	10.80	10.73	10.75
Oct.	10.65	10.85	10.65	10.77
Dec.	10.77	10.92	10.75	10.85

Soo Lines Net Decrease.

Earnings of Soo line for year show a gross decrease of $243,766, a net decrease of $270,263.

MANITOBA WHEAT HAS COMMENCED TO MOVE.

Markets Were Generally Firm This Morning—Downward Movement in Oats Continues.

Special to The Montreal Star.

Winnipeg, Man., September 23.—Wheat holds firm at about yesterday's closing prices. Little trade being done.

October, 1.01¼; December, 99; May, 1.03¾. Cash prices, No. 1 northern, 1.02; No. 2 northern, 99; No. 3 northern, 94; No. 4 northern, 82.

Feed, 55; feed No. 2, 46.

Receipts, 51 cars; last year, 76.

Winnipeg, Sept. 23.—The great wheat movement of 1904 has begun. Practically nothing was shipped last week, but this week saw the movement set in in earnest. On Monday and Tuesday 35,000 bushels or so were shipped, and on Wednesday no less than 166,000 bushels were loaded.

Indian shipments of wheat:

	Last week.	Previous week.
To U.K., qrs.	116,000	188,000
To continent, qrs.	39,000	46,000
Argentine shipments to U.K.:		
Wheat, qrs.	53,000	60,000
Maize, qrs.	181,000	306,000
Argentine shipments to continent:		
Wheat, qrs.	6,000	18,000
Maize, qrs.	192,000	68,000

Argentine advices are generally of a favourable tenor. Locusts are reported in portions of Santa Fe.

English weather fair but cloudy; forecast fair but cloudy. French weather fair but cloudy; forecast threatening and cloudy in North and fine in South.

The Liverpool wheat market was firmer to-day, the closing being ½d up at 7s 5⅝d for September and 7s 7⅞d for December. Spot wheat closed steady at 7s 4d to 7s 6d for No. 2 northern Manitoba. At London, Walla Walla, white, loading, was quoted at 35s net, October and November, 35s 3d; La Plata, September and October, 34s 3d. Antwerp closed unchanged on Walla Walla at 18⅝. Paris closing steady at 24.00 for September and 25.25 for January and April.

Chicago was firmer on wheat, September being ⅝c up at noon at $1.08¼, and December ⅛c up at $1.11. September corn was ⅜c down at 51¼c and September oats ⅜c down at 29½c.

Duluth was 1⅜c up at $1.17½ on September and ⅛c up on December at $1.11⅛. May was ⅛c up at $1.13⅞, in Minneapolis, December being steady at $1.12⅝.

LOCAL MARKET—Oats were weaker again this morning. Some 6,000 or 7,000 bushels of No. 3 were sold, equal to 37½c in store, and No. 2 changed hands at 38½c in store. To obtain these prices, however, the stock would have to be on spot, as spot goods naturally bring a premium under conditions existing at present. Oats may be purchased, to arrive, at lower prices than those mentioned, some No. 2 stock having passed from exporters' hands in car lots at 37½c, and some having been sold for later delivery at 37¼c. No one wants to buy to arrive just now unless he can get prices away down. The Chicago market is selling off and this brings export prices down also.

Peas are about steady at 72c afloat, Montreal; No. 2 barley, 50½c; No. 3 extra, 50c; No. 3, 49c.

FLOUR—The demand is limited and prices steady.

Prices are as follows: Manitoba strong bakers, $5.50, and patents, $5.80 per bbl. in bags; Ontario straight rollers, in bags, $2.50 to $2.60; in barrels, $5.30 to $5.40, and winter wheat patents, in bbls., $5.50 to $5.75.

HAY—The market has turned easy and the demand is light. Best hay is 50c lower. No. 1, at $8.50 to $9 per ton on track; No. 2, $8; export hay, clover and clover mixed, $6.50 to $7.

FEED—Demand is brisk, and the market is firm. Manitoba bran, in bags, $18 to $19; shorts, $20 to $21 per ton; Ontario bran, in bulk, $17 to $17.50; shorts, $19 to $20; moullie, $26 to $28 per ton, as to quality.

ROLLED OATS—Association prices again prevail, and the demand is reported fair. Bags are held at $2.32½ per bag of 90 lbs., and barrels at $4.90.

Special Notice.

Canada's Best Piano.

Unbiased judges say Mason & Risch Pianos excel all other Canadian Pianos and are equal to the best manufactured in the United States. Assortment of Mason & Risch Pianos on view at Leach's, 2440 St. Catherine street, now sole agency for Montreal. 227 2

Pulp Mill For Sale.

Property and Works of "The St. John Sulphite Pulp Company, Limited" (in liquidation), situate at Mispec, Saint John County, New Brunswick.

The Mill property of the Company comprises over three hundred acres. Works are situate on the Mispec River, a quarter of a mile from the sea, and six miles by water from the City of Saint John, from thence pulp may be shipped to all points. There is ample wharf accommodation at the works, and schooners with coal discharge directly into the boiler-house. An unlimited supply of pulp wood is available. Works are new and substantially built of pressed brick; are fitted with modern and up-to-date appliances, including electric plant, and are capable of producing two hundred tons of pulp per week. There is room in the present building for additional plant, which, when installed, would double the output. The mill-dam is substantially built of stone, and is about fifty feet high. The water is taken to the turbine wheels in an iron flue, five feet in diameter, which gives ample supply for driving machinery and pulp-making.

Tenders for purchase of above described property will be received by the undersigned up to October first, 1904. The highest or any tender not necessarily accepted.

Further information will be supplied on application.

E. B. KETCHUM,
J. A. LIKELY,
Liquidators.

St. John, N.B., July 27th, 1904. 157 47

TRADES AND LABOUR CONGRESS CONDEMNS THE GOVERNMENT'S IMMIGRATION POLICY

At last night's session of the Trades and Labour Congress of Canada the immigration policy of the Dominion Government was condemned.

Delegate W. D. Kennedy, representing the Toronto District Labour Council, characterized the policy of the Government as scandalous. During the course of an interesting speech he pointed out to the workingmen of Canada the part played in the affair by the Hon. Clifford Sifton. Delegate Kennedy strongly advocated the sending of a protest to the Government against the methods practised by one of its immigration agents, in the person of W. T. R. Preston, and demand his immediate dismissal.

The discussion was participated in by delegates from all parts of the country, and was characterized by a spirit of bitterness against the policy of the Dominion Government.

Delegate Landers, of Hamilton, stated that the workingmen of the Dominion, were being constantly victimized. He had documentary evidence in his possession which showed beyond the shadow of a doubt that great exaggerations were made use of by the Government in its advertising literature. He said it was not true that nuggets of gold could be picked up on the streets in the various villages in new Ontario.

TEXT OF RESOLUTION.

The resolution responsible for the condemnation hurled against the immigration policy of the Government and its agents in the Old Country, was introduced by Delegate Fred. Eastman, of Toronto, and read as follows:

Resolved, that this Congress deems it advisable to appoint an agent to tour Great Britain to offset the work of the Dominion Government in inducing British workmen to come to this country, to the detriment of Canadian workmen.

The committee on resolutions recommended that the matter be referred to the incoming executive to ascertain the cost of maintaining such an agent.

Mr. Landers moved an amendment to the effect that as it was too late this year to send a man to the Old Country, the secretary of the council should be instructed to circularize the various unions to ascertain how much each of them would be willing to subscribe for the support of such a delegate.

On a vote being taken, the amendment was thrown out, and the recommendation of the executive adopted.

Before the motion was put, however, Delegate Mitchell, of the Montreal Iron Moulders' Union, called the attention of the Congress to the way in which iron and brass moulders had been brought to this country by misrepresentations to take the places of men on strike. He said, however, that not all of the men who came here from Great Britain had been deceived. One of the men, who had a union card in his pocket, told Mr. Mitchell that his passage had been paid to come out here to work, but he had no intention of doing that. As a matter of fact it was a splendid opportunity to see the country. The speaker was of the opinion that the steamship and Government agents were responsible to some extent.

Another resolution read, "That the congress places itself on record as being in favour of the Government ownership of telephones, and that the Ontario executive be empowered to enter into correspondence with the Board of Trade, of Berlin, that through its agency other boards might be communicated with for the purpose of obtaining Dominion legislation for the municipal system of operating telephones." This resolution was brought in by Delegate Kressler, of Berlin, and was unanimously carried.

A resolution introduced by Delegate Boudreau, of Montreal, asking that the congress enter an emphatic protest against the dismissal of employes by the Government, such as was done in one instance by the Intercolonial Railway, was carried.

Delegate Monaham's resolution to petition the Provincial Government of Quebec to appoint competent inspectors of boilers for the prevention of loss of life among workingmen, was also carried.

LAID ON TABLE.

A resolution asking that the congress endorse a move to have the saloons of Ontario closed on Labour Day, in common with those of Quebec, was laid on the table to await the effect of the movement in Quebec.

Delegate Levesque, of Quebec, introduced a resolution, which was adopted, and which requested the congress to demand the Legislature of Quebec to give more power to inspectors of factories in the matter of preventing the employment of children under ten years of age.

Delegate O'Dell, of Hamilton, brought in a resolution asking congress to recommend to the purchasing public articles bearing the union label. The resolution was carried.

The resolution framed by Delegate R. Rose, of Montreal, to the effect that the congress should refuse to aid or support the Lord's Day Alliance, in its endeavour to introduce a bill at the next session of Parliament for the prevention of all labour on Sunday, unless the Alliance inserted a clause in the bill exempting the Jews from the penalty of breaking such a law, created a lively debate.

During the speaking it was pointed out that as the Jews in many cases worked on Saturday, notwithstanding it was their day of rest, such a clause in their favour would simply enable them to work seven days a week with impunity. Another point was that the passing of such a resolution would be inconsistent, in that it would be at variance with the policy of the congress and the labour movement, which recognized no creed or nationality. Mr. Landers moved an amendment, but, by vote, both resolution and amendment were lost.

AFTERNOON SESSION.

The afternoon session of the congress was very largely devoted to the discussion of a resolution which had for its object the condemnation of meetings held by members of the congress for the purpose of selecting officers and transacting other business which properly belongs to the convention.

The resolution was introduced by Mr. C. S. O. Boudreault, representing the Ottawa Typographical Union, and was as follows:

"That the congress place itself on record as of the opinion that caucuses were both contemptible and indiscreet, and calculated to hurt the maintenence of harmonious unity in labour."

Finally, by a vote of "ayes" and "nays" the resolution was upheld by a majority of 20.

The "open saloon" in the province of Quebec was again discussed, and it was finally decided that the report made by the committee that each union should use its individual influence to cope with the liquor evil was carried.

ELECTED A DIRECTOR.—Mr. Robert Meighen of this city, has been elected a director of the Bank of Toronto.

MOVEMENT TO ABOLISH FREE LUNCH COUNTERS.

The city fathers are now to turn their attention to the question of abolishing free lunch counters in saloons. It is held that gratis lunches in in such places spread consumption and kindred diseases.

Dr. Laberge, Medical Health Officer of the city, yesterday received a long document from a prominent civic official. The document said that on the whole it was thought the lunches put up on the free lunch counters were not injurious to health as prepared, but it was claimed that when a hundred or more customers used the same knife, fork, spoon, etc., in partaking of such lunches, there was the very best of reasons for thinking that consumption and kindred diseases might be spread.

The Medical Health Officer, speaking of the communication, said he thought it was a most timely notification to the health officials of the city that an inspection ought to be made of free lunch counters. He added that he had concluded to bring the whole matter before the attention of the Health Committee at its next meeting.

The Friend of the Colonial Troops.

Miss Violet Brooke-Hunt, the friend of the Colonial troops in South Africa, and who at their request received a special decoration from King Edward, is staying at the Windsor. She leaves to-day for the Coast, and on her return trip will lecture on the Boer war at Regina, Winnipeg, Ottawa and Toronto.

CHIEF BENOIT DISCUSSES THE RECENT FIRE.

Chief Benoit, of the Fire Department, stated at the City Hall to-day in an interview with the Star, that if water did much damage at the fire on De-Bressolles street, it was justifiable under the circumstances. "Had it not been," he said, "for the explosion in the Canada Hardware building, Chaput Fils & Co. would have been practically saved, with the exception, of course, of a little damage by smoke and water. I had my men on the roof of the Canada Hardware building, when the explosion, which sent bullets flying all over the place, occurred. The roof was lifted about four feet, my men were knocked over to the roof of the Chaput Fils & Co., and they were in imminent danger of losing their lives in the roaring flames spreading in their direction, because their ladder had taken fire and there were no means of escape for them. I had to put on the water to cover their escape, and direct my efforts not only to save Chaput Fils, who were threatened, but also to smother the flames where the explosion had occurred, and to prevent loss of life by the stray bullets which were coming in all directions. I claim that a fire could not have been better handled anywhere else. The water put on was by no means too much. If anything, a little more might have been used with advantage."

The question of the validity of the election of Archbishop Worrell, of Kingston, as Bishop of Nova Scotia, will be referred to a judge of the Supreme Court of Nova Scotia for a decision.

UNION OF CANADIAN MUNICIPALITIES.

Officers Were Elected Yesterday at London—Mayor Laporte the New President.

London, Ont., September 23.—The convention of the Union of Canadian Municipalities was brought to a close yesterday, when the union concluded its labours. The delegates were entertained at luncheon at Springbank by thirty councillors, afterwards enjoying a trolley ride in special cars around the city. Officers were elected, the presidency being offered to Mayor Beck, of this city, but he declined it on the ground that he was too busy to give it proper attention. Mayor Laporte, of Montreal, was elected on Mayor Beck's nomination. The following are the officers elected for the ensuing year:

President—Mayor Laporte, Montreal.

Hon. Sec.-Treas.—W. H. Lighthall, Montreal.

Executive—Ontario—First vice-president, Mayor Beck, London; second vice-president, Mayor Urquhart, Toronto; third vice-president, Mayor Ellis, of Ottawa; fourth vice-president, Mayor Denton, Tillsonburg; fifth vice-president, Mayor J. W. Drake, Windsor.

Quebec—First vice-president, Mayor Cellmas, St. Louis; second vice-president, Mayor Fabien, Ste. Cunegonde; third vice-president, Mayor Cross, Westmount; fourth vice-president, Mayor Guay, St. Henri; fifth vice-president, Mayor Teller, Joliette.

Nova Scotia — First vice-president, Mayor Crosby, Halifax; second vice-president, Ald. H. Campbell, Halifax.

New Brunswick—First, vice-president, Ald. Alex. W. McCrae; second vice-president, the Mayor of Fredericton.

Manitoba—First vice-president, Mayor Thos. Sharpe, Winnipeg; second vice-president, Ald. R. J. Latimer, Winnipeg.

British Columbia—First vice-president, Mayor T. F. Neeland, Vancouver; second vice-president, Mayor W. H. Keary, New Westminster.

Prince Edward Island—First vice-president, the Mayor of Charlottetown; second vice-president, Councillor Jas. Patton.

The place of next meeting was not decided, a vigorous fight being put up by the delegates from Winnipeg, Kingston and Halifax, each place being very anxious to secure the honour. The matter was finally referred to the executive to deal with, and a vote will be taken by mail on the subject within the next few months.

Fenton Held on Manslaughter Charge.

Melrose, Mass., September 23.—Fenton, the express driver, from whose waggon the dynamite fell which wrecked the trolley, has been held on a charge of manslaughter under $1,000 for a hearing on October 4.

SATURDAY IS THE Opening Day of our Men's Clothing Dept

Wearers of good Clothing will display a keen interest in the event—in the future welfare of the department. You know the spirit of the store—the spirit that has achieved for it the position of influential leadership among the stores of the city. This Clothing Store, its management determines, must speedily be recognized as the BEST. The style authority for the particular man who wears ready-to-wear Clothing. The favorite resort of the man whose keenest desire is quality—value. First in the thought of the man who wants proper-fitting garments. The choice of the man who desires the entire combination—style, fit, appearance, value.

Hardly necessary to remark the Clothing is all new. It has been purchased from a manufacturer, whose claim to making the best Clothing in top-notch styles for men has never been successfully disputed.

So far as variety—the needs of men in dress were engrossing our attention before the definite decision to open a Men's Clothing Department was made.

Business Men and Society Men's Clothing, cut in the prevailing modes, plains and fancies, for every degree of taste. Many styles.

Your interest will be doubled when an inspection of the garments and price tickets acquaints you with the general excellence of the values.

Dorothy Dodd

The feat of attempting to fit the feet with one shape is not attempted—hence the success of the Dorothy Dodd Shoe.

36 different styles—when these are multiplied by the number of sizes and widths in which each style comes, the result is a range reaching into the hundreds.

The Opening Continues

To-morrow. Shoe-Buying Day is a favorable opportunity to make the acquaintance of the newest member in our Shoe stock—The Dorothy Dodd Shoe—

A Woman's Shoe.

Other Autumn Openings!

Kid Gloves, Silk Neckwear and Belts.

Even in the accessories of Dress we wait for the final word—the final style. Here now, hence this announcement of the Formal Opening of Autumn Gloves, Neckwear and Belts, to occur to-morrow (Saturday.) Thoroughly representative exhibit of the newest—the fashion-approved—the best features.

Ladies' Kid Gloves.

Ladies' Kid Gloves from such world-renowned manufacturers as Dent, Allcroft & Co., of London, England; Alexandre, of Paris, France, and Perrin Freres, of Grenoble, France. WILSON — At Richmond, Indiana, W. Percy Wilson, son of the late Thos. Wilson, stock broker. Funeral notice later.

That Canadian Flag

Covers a happy people, all eating charlotte.

A HANDSOME MILLINERY DISPLAY.

The autumnal millinery display at John Murphy and Co., St. Catherine street, embraces a very large number of novelties, the hats on exhibition being exclusively original designs. The hats are arranged in the show rooms in a manner well designed to draw attention to their beauties.

One of the handsomest hats on view is a Gainsborough shape in Bordeaux shades of velvet, the high sloping crown made of shaded folds of the velvet. The charm of the hat is its simplicity, the only trimming being soft Liberty satin ribbon, and a large rosette of shaded roses placed a little to the left of the front of the crown.

A singularly smart round hat of black velvet has a rolling brim at the back, the trimming consisting of small black ostrich tips which surround the crown, a cluster of larger tips at the side giving a touch of elegance.

A chic little hat of brown chenille is caught up at the back with loops of soft ribbon shading from green to bronze, and is held in place with a handsome ornament. The ribbon decorates the front of the crown, the only other trimming being pretty wings of brown and deep red. The effect is one of great simplicity and is extremely pretty and original.

Flowers are used to great advantage on some of the smartest hats in the display, notably in a bronze green velvet sailor with torpedo crown, which has as garniture lovely roses shading from yellow to terra cotta.

In addition to the hats described there are on exhibition some beautiful models in terra cotta, the various shades of brown, and also in black, and in black and white, the latter combination being always pretty and serviceable.

Special Notice.

WHAT THE NEW ELEVATOR HAS HANDLED ALREADY.

There is now unloading at the Harbour Commissioners' grain elevator in front of the city a cargo of eighty thousand bushels of corn which arrived in port on board the steamer Albert M. Marshall, the same having come forward from Chicago.

Since the elevator was first placed in commission on July 14 a total of 337,000 bushels of grain have been taken in and put out of the elevator.

So far a full strength test of the elevator has not been made nor will the same be possible before the new crop begins to arrive in port, which will be well toward the close of the shipping season.

Superintendent Nohin, in charge of the elevator, reports that all is working smoothly and that there is no fault to be found, except with the fact that grain is not coming forward as fast as he would like to see it.

Mr. McNicoll Goes to Toronto.

General Manager McNicoll left this morning for Toronto, where he will remain until Monday.

RESULTS POSTED OF SUPPLEMENTAL EXAMINATIONS.

The results of the examinations supplemental to last year's sessionals, were posted in the Arts' building at McGill to-day. The following students passed:

Household Cares

A Sick Woman's Devotion to Duty is a Heroism which a Well Person Cannot Understand.

How distressing to see a woman struggling with her daily round of household duties, when her back and head are aching, and every movement brings out a new pain.

One day the poor woman is wretched and utterly miserable; in a day or two she is better and laughs at her fears, thinking there is nothing much the matter after all; but before night the deadly backache reappears, the limbs tremble, the lips twitch—it seems as though all the imps of Satan were clutching her vitals; she "goes to pieces" and is flat on her back.

No woman ought to arrive at this terrible state of misery, because these symptoms are a sure forerunner of womb troubles. She must remember that **Lydia E. Pinkham's Vegetable Compound** is almost an infallible cure for all female ills, such as irregularity of periods, which cause weak stomach, sick headache, etc., displacements and inflammation or any of the multitudes of illnesses which beset the female organism. Read how Mrs. Frake wrote to Mrs. Pinkham when she was in great trouble. Her letter tells the result, and how a cure was effected by the use of

Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I have read of your medicine making so many cures, and have been advised to write to you, but I feel that it is of no use. The doctor says that I have trouble, but he does not seem to help me a great deal. I have such a weakness across me most of the time—have backache, am very nervous, and am troubled with leucorrhœa. I am very weak, cannot walk any distance or stand long unless I ache all over. I would like to know if you think your medicine would do me any good."—MRS. SAMUEL FRAKE, Prospect Plains, N. J.

"DEAR MRS. PINKHAM:—I cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me. When I first wrote to you I had suffered for years. The doctor said I had congestion was troubled with my kidneys and bladder, my back ached dreadfully all the time, and I suffered with bearing-down feeling, could scarcely walk about to do my own housework. I stopped doctoring with the physician and took your medicine, and am now able to do my own work, have no more backache or weakness across me, and can do all my own work. I cannot praise your medicine enough, and would advise all suffering women to try it."—MRS. SAMUEL FRAKE, Prospect Plains, N. J.

$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Med. Co., Lynn, Mass.

The Medicine that has Restored a Million Women to Health is **Lydia E. Pinkham's Vegetable Compound**

IMPERIAL PREFERENCE THEME OF SPEAKERS AT MANUFACTURERS' BANQUET

(Continued from page five.)

him, on the occasion of the Imperial conference, and he went on to say the Government now in power, as soon as its hands were free, had granted a substantial preference to England, and he regretted the Hon. Mr. Fielding was absent. His words were memorable when he announced in Parliament that British goods would pass into Canada hereafter on more favourable terms than foreign goods. This concession had been given freely. It was a generous act, and he did not think it was possible after that to say that Canada had made no offer. Sir Wilfrid had given deeds and not offers. He could say the people at home would spare no effort to overcome the difficulties in their way. He felt he could say the result thus far has not been unsatisfactory to Canada. In proof of which he gave the figures that in 1896 goods imported to Canada from Great Britain amounted to 29 millions. In 1903, six years after the preference was granted, the imports to Canada reached 58 millions. Moreover, Canada's exports to Great Britain in 1896 were 62 millions, while in 1903 these had reached 125 millions—more than double.

He hoped that the Empire depicted by Sir Wilfrid might ever grow stronger, with its millions of inhabitants, and might be and ever remain on the pinnacle of peace and prosperity.

A VOICE FROM FAR OFF TRINIDAD.

The Hon. R. H. McCarthy, of Trinidad, said that he was deeply sensible of the honour that had been conferred upon him in the invitation to address the captains of industry of Canada. The honour was all the greater when he found his name associated with that of Sir Howard Vincent, who was a consistent opponent of the dumping

> "Do not let me be misunderstood as opposing preferential trade. I believe in it with all my heart, and yet I do not wish to place Canada in such relations to the Mother Country that by any treaty or obligation we would sacrifice one iota of that principle of self-government so dear to us, or enter into any relation with a commercial treaty that would imperil our interests and the good relations that have for so many years prevailed between Canada and the British Empire. We have made an offer in the same generous spirit which we expect from the mother land. England is a land of conservative ideas. For fifty years she has laboured under free trade; and it cannot be said that the country has not prospered under it."—HON. G. W. ROSS.

of foreign goods on the shores of the British Empire. At the time when the braves of Portia camped upon the site where now stood the capital of the Dominion, ships of the Maritime Provinces were frequent visitors in the ports of Trinidad. References to the past were a pardonable and a customary practice of those who had seen better days. The West Indies had seen better days. They had had their vicissitudes but they had survived all these, which was a striking testimony to their vitality. He was sorry to say that the dependence of the West Indies on the United States increased year by year. Nowhere was loyalty to the British Empire more distinguishable than in the West Indies, but where the trade was, there would the heart be also.

ELOQUENT SPEECH ON IMPERIALISM BY HON. G. E. FOSTER.

Hon. G. E. Foster also responded, and said he was glad to be here as the guest of the association that night, and to be in the presence of those who had been called the captains of industry in other countries, and if that name was applicable in other countries it was equally so to those sturdy, enterprising, hard-headed men of Canada, who, during the last fifteen years had brought up the industrial life of the country and had introduced activity, and a quickness, variety and excellence of production which had not, he believed, a parallel in any country in any similar length of time. He was glad to have heard the Premier that night. He was disappointed, however, and so was the audience. He had listened expecting to hear what the hon. gentleman would tell the captains of industry as to what he was going to do with the tariff. (Loud cheers.) But Sir Wilfrid never said a word. He was too clever for that. (Laughter.) He did, however, give expression, a full and frank expression to the sentiments he had expressed before, but which he (the speaker) was glad to hear him express again, viz., that he was not opposed to preferential trade and that the Mother Country should not be setting down and treating other children better than those who belonged to the family. He (Mr. Foster) thought it should be conveyed to Lord Rosebery that he was not correct, if properly reported, in saying that Canada was not favourable, and that the Premier was not favourable to better trade relations with the Colonies.

The theme of the Colonies and the Empire was one which took hold of the heart, the mind and the imagination of men, such as Canadians are. He would like to call attention to two points of thought. One was "Where is Canada to-day and where are the Canadians to-day," and the other "What do Canadians propose to do in the future." Did they make enough of their geographical position or of their wonderful resources? Every day and year of his life as he knew more of Canada his imagination refused to be checked, and as he looked out to the future he saw no bounds for Canadian development and growth. They did not live in the present. The future was theirs as well as the past to a certain extent. No man rightly gauged his position as a citizen of this country unless he threw his vision back 50 years, and threw his vision forward and drew a picture forward as to what Canada would be in 100 years time.

A LAND OF RESOURCES.

They were in a land of rich and practically unbounded resources. Let them look at their coast line, with its thousands and thousands of miles, and at the inland waters, the great lakes and mighty rivers. What country had better and larger? Look at their immense minerals, rich veins of which had not yet been traced. Who could tell of the resources and treasure to be ingathered for the wealth and comfort of the millions that shall inhabit Canada?

"Take, again, the forests and the millions of acres of fertile lands yet undeveloped. Passing through the North-West there could be seen boundless acres of rich, fine land. What would happen to those millions of acres when they shall have been brought to the plough, the reaper and the garner? Yes, think of Canada and her mighty resources. Geographically they were on the mightiest highway the world has ever seen, with British harbours on each ocean, and the connecting link between the dominant power in Europe and the dominant power in Asia to-day."

THE PRESTIGE OF ENGLAND.

Take a more modern instance. Nine years ago it was freely stated that Britain's prestige was on the wane, that the old Empire was effete, and that she was a decadent civilization. The Boer threatened her in South Africa, hostile countries watched with eager eyes for the fatal blunder and for a show of vital weakness. The colonies stood by the Mother Country through it all, and it was a period of great stress and strain. Where were we to-day? He could say, without fear of contradiction, that the prestige of Britain was never higher and stronger than to-day. The army and navy were never so fit as they were to-day. In pursuance of that splendid stroke of foreign policy, when Lord Salisbury held out the hand to the coming Jap, and made an ally of the Nipons, Britain's prestige and power in Asia was greater than it had ever been before. Here we are a British country, along all this mighty highway, between two great centres of growing activity, our geographical position an inestimably important one. What are we? A people of Scotch Irish, English and French blood, flowing through the veins and strains of the German, blended together and made us Canadians all.

"Who dares say that the blend itself may not make the best people and a united people. In the days not long past, of which Englishmen will never forget the memory, French armies and French loyalty stood for the weaker portion of this country. Let demagogues howl, let interested ones work out their mischief as they please, but Frenchmen, Englishmen, Scotchmen, Irishmen, they were Canadians all and Canadians they would remain. Let them drop their prejudices and come down to the business standpoint. Did they get any advantage in Canada from British connection, and was it not possible for them to reap greater advantages in the future? If in 1899 South Africa had been taken from Great Britain, would Britain's prestige have remained the same? Cauterize the vein and separate the arteries between the two, and you induce paralysis in the whole. Let the blood flow from the extremities, and all would tend towards boundless possibilities, rich in development and a glorious future.

STIRRING PLEA FOR PROTECTION BY HON. GEO. W. ROSS.

The Hon. G. W. Ross, Premier of Ontario, was next called upon to propose the toast "Canadian Industry and Commerce." He said:

"If I could only epitomize the admirable speeches made during the last three days at the proceedings of this association, I would feel that I was presenting the toast which is being entrusted to me in the most acceptable terms. The canon of Canadian industry and commerce may be said to be that

> "Gentlemen, we are proud of the traditions of the British Empire. But let me ask you what nobler ambition or prouder inspiration could we have than the thought, that to us may be permitted the opportunity of building tradition for the generations yet to come, by helping to place on an enduring basis the Empire to which we belong.
>
> "And we of the newer and vaster West,
> Where the great war banners are furled,
> And the cannons are silent along our coasts,
> Saxon and Gaul, Canadian claim
> A part in the glory and pride and aim
> Of the Empire which guides the world."—MR. W. K. GEORGE.

all Canadian industries should dwell together in unity. I remember the time when there seemed to be differences between the industries of this country and jealousy rather than friendly rivalry, when those engaged in manufacturing pursuits were looked upon if not with suspicion at least with aversion, and when it was thought that they wanted to transfer to other shoulders burdens of state which they should legitimately bear themselves. That time has passed now. There is not that jealousy which is charged against these industries a few years ago. The common wealth of Canadian commerce is one and indivisible. The manufacturer and the agriculturist have a common interest in the development of Canada and each, as I understand it, from your discussions, is equally ready with the other to discharge fully that duty toward the state.

"There should be no jealousy between labour and capital, between factory and farm, and where there are some latent resources waiting for development certainly all jealousy should cease. As Mr. Foster has stated, the natural resources of this country are almost unbounded. In the province of Ontario we do not cultivate 20 per cent. of arable land and sustain a population of about two millions. We could well sustain a population of ten millions. Japan with no more arable land sustains a fighting population of forty millions and we might sustain an equal number. What is true of Ontario is true of all the provinces in the Dominion.

"We import more coal to Canada than we produce ourselves. We have continuous beds of iron ore in Lake Superior, and in Cape Breton, and we import a thousand tons of pig iron and 800,000 tons of iron ore. All these are indications that the natural resources of our country await development, and that it is the primary duty of the people to see that the whole of their energy should be directed towards the development of those resources, and placing them up on the markets of the world.

WAREHOUSE OF THE EMPIRE.

"The second canon of industrial commerce is that we should occupy our own market with the products of our own factories. That is to say, we should be the warehouse of the Empire. We import a hundred to a hundred and fifty million dollars of goods, I do not know that the time will ever come when we can manufacture all that we require or consume. There may be commodities which require particular skill, capital or conditions that might necessitate importation, but why is it that we cannot in our own factories produce many of the articles that we import in such large quantities? For instance, we import about $42,000,000 worth of iron steel and manufactures—an immense quantity. We import about $8,000,000 worth of cotton goods. Why could not our own spindles and cotton factories supply them. We also import about $7,000,000 in machinery and these goods coming to us give employment to foreign workmen on foreign soil instead of to Canadian workmen on Canadian soil. I am delighted with the spirit of this association, which aims at extending our factories and by so doing the artisan classes and the population of Canada will increase.

DEFENCE AGAINST INVADER.

"The third canon of Canadian industry is that our Canadian manufacturers should have the inalienable right to defend themselves against any aggressor or invader. I believe that we have the same right to defend ourselves against commercial invasion in the same way as against a military invasion. When commercial war is proclaimed we have the same right to defend ourselves against the invader no matter where he comes from just as we would against the armed invador. Commercial war is of various kinds. Dumping is commercial war. We have the right to defend our workmen against the foreign invader, who would destroy their homes and rob them of their employment. We should defend the workingmen and the capitalist against the illegitimate competition of foreigners, who make so many of our imports on foreign soil. That we should defend ourselves against any invasion of our industries that might imperil the future or imperil those dependent upon them for their daily bread is in my judgment an inalienable right.

TRADE RELATIONS WITH U.S.

"Another canon is that we have the right, and that it is our duty to develop, as far as possible, the external foreign trade of Canada, and in this connection I may say a word about our trade relations with the United States. I have no objection per se to reciprocity with the United States. We treat largely with the States now. We buy $170,000,000 of goods from them which is about $30 per head, and they buy 60 odd millions from us, which is about 18 cents per head of our population. If the Americans want to trade with us we should welcome it. But it almost looks as if they did not want to trade with us at all. They buy comparatively little from us. Last year we sold $10,000,000 of cattle. Americans bought $120,000. We sold $17,000,000 worth of grain. America bought $455,000. We sold $24,500,000 worth of bread stuff. America bought $383,000. We sold $446,500,000 of butter, cheese and eggs they bought $37,000. These figures go to show that Americans are not anxious to extend their trade with Canada. And if you refer to the Dingley Bill or to the McKinley Bill, you will see that they have erected almost an insuperable barrier between Canada and the United States. I am not opposed, as I said, to a reciprocity treaty per se, although treaties in commercial matters are, in many respects, objectionable. They create conditions of trade and we get influences which are sometimes irritating and sometimes lead to international misunderstandings. That was so in 1854 and also in the fisheries trade in 1882. But we can do a lot through our custom houses and more can be done in other respects, which may lead to difficulties in consequence of binding obligations. When we wanted American corn we took the duty off. When we wanted barbed wire or anthracite coal we took the duty off, and we got it without money and without price, so far as the customs house was concerned. Those articles all came through without duty. This is the way out of embarassing complications between Canada and the United States. It leaves both countries perfectly free and so long as they refuse any offer of trade with us, as Canadians, we should stand as they do at the present moment and go to an independent market that will be permanent, and where America will have to go for anything that this country can produce. If, however, they would make us an offer—and certainly the offer should come from them and not from us—then in the words of a distinguished Canadian Premier of my own province, we might take it into our most serious consideration.

"I think that we should treat more with Great Britain, and we should make more for that direction, because only when we cease to negotiate with the United States in the hope of a reciprocity treaty our eyes were opened to the great opportunities across the Atlantic for the products this country can produce. I am not anxious to make a bargain as to what terms Great Britain should give us and that we should give them. I do not think that is a proposition before the country at the present moment. If we, in the exercise of our patriotism, and as a matter of advantage to us, give England 33 1-2 per cent. on the goods she sends to us, we will do so in the generous spirit and in no stinted measure.

"Do not let me be misunderstood as opposing preferential trade. I believe in it with all my heart, and yet I do not wish to place Canada in such relations to the Mother Country that by any treaty or obligation we would sacrifice one iota of that principle of self-government so dear to us, or enter into any relation with a commercial treaty that would imperil our interests and the good relations that have for so many years prevailed between Canada and the British Empire. We have made an offer in the same generous spirit which we expect from the Mother land. England is a land of conservative ideas. For fifty years she has laboured under free trade; and it cannot be said that the country has not prospered under it."

OTHER SPEAKERS.

Hon. William Paterson, Minister of Customs, was also called upon for a speech, but gracefully declined, owing to the lateness of the hour.

The toast of "Our Guests" was proposed by Mr. C. C. Ballantyne, of Montreal, the first vice-president of the Association.

In commencing his reply, Sir Lloyd Wise, who was the first to respond, said that he came from an eminently respectable country—a country in which there was only one institution at all comparable with the Canadian Manufacturers' Association, and that was the House of Commons. There was only one body in Great Britain, so far as he knew, that went on talking into the early hours of the morning, and then went home with the cows. (Laughter.) As they in Canada had not yet realized what there was in the Dominion, so the people in the Old Country had realized no conception. He hoped that there would be found to be an ever-increasing trade relationship between the Dominion and the Mother Country. He trusted that as the manufactures developed there would be found a way to shift some of the trade now carried on between the Mother Country and the United States to Canada. Mr. Chamberlain was a man of business, who understood manufacturing and commercial conditions, and the speaker believed that if Mr. Chamberlain

> A pleasing incident occurred when the president called upon the secretary, Mr. R. J. Young, to present to Mr. C. A. Birge, a former president, a testimonial of the esteem in which he is held by the members of the association. It took the form of a bound illuminated address, stating that the members desired to express to Mr. Birge, on his retiring from the presidency of the association, their high appreciation of the valuable services he had rendered through the year 1902-3. The presentation was on behalf of nearly 1,300 members, whom he had served so well, and accompanied by the heartiest good wishes for the happiness and prosperity of himself and family, and the hope was expressed that he might still be spared many years to take an active part in the work of the association, and the building up of our Dominion.
>
> Mr. Birge stated that he felt overpowered by the honour which had been done him, and thanked the members for their kindness.

MR. F. D. MONK RESPONDS TO THE TOAST.

Mr. F. D. Monk was the first to reply to the toast which had been so eloquently proposed by Mr. Ross. He said that he had listened with great interest to what Mr. Ross had proposed regarding the fit canons of industry in this country. To most of those propositions the majority of those on the left of the Speaker could say amen. Now, that Mr. Ross had been left alone in Ontario, as he understood, it might be possible that he would, in the near future, seek access once more to the House of Commons. If that did, indeed, come to pass, he felt that Mr. Ross would instinctively stray over to the left side of the chair. The people of Canada had a great country, but they knew very little of its resources. Perhaps that was not to be wondered at, however, when it was remembered that less than three centuries ago Canada was considered as little more than a location for fur trading posts. But since the establishment of the present great Confederation there had been revealed boundless natural resources. And so it had come to pass that few of those still lingering in the schools were unaware of the fact that there was in this country everything essential to the establishment of a great industrial commonwealth.

CANADA DEEPLY INTERESTED.

It was a mistake to think that the issue raised by Mr. Chamberlain, continued Mr. Monk, had not aroused the interest of the people of Canada in the highest degree. There had been thrust upon them a sense of the necessity that existed for a remodelling of the commercial relations between the Mother Country and her great self-governing dependencies. It was necessary to look carefully not only into the political considerations binding us to that Empire, but to contemplate seriously the establishment of freer commercial relations. In order to do this it was not necessary to agree entirely as to the means. Such a desideratum was necessary not only from a commercial standpoint, but was necessary if those happy relations of the past were to be perpetuated and strengthened.

In viewing this subject, Mr. Monk asserted, it was useless to refuse to recognize that it would be difficult to carry out the policy of preferential trade exactly as Mr. Chamberlain had stated it. There would undoubtedly arise a conflict of interest between the manufacturers of Canada and the manufacturers of Great Britain. What the people of Canada desired now was enlightenment and information, and how could that be better obtained than through the manufacturers themselves. What the Opposition wanted was that Canada should develop to the utmost its own resources — a result that would be most readily secured when the manufacturers had been accorded adequate protection.

OTHER SPEAKERS.

Hon. William Paterson, Minister of Customs, was also called upon for a speech, but gracefully declined, owing to the lateness of the hour.

The toast of "Our Guests" was proposed by Mr. C. C. Ballantyne, of Montreal, the first vice-president of the Association.

In commencing his reply, Sir Lloyd Wise, who was the first to respond, said that he came from an eminently respectable country—a country in which there was only one institution at all comparable with the Canadian Manufacturers' Association, and that was the House of Commons. There was only one body in Great Britain, so far as he knew, that went on talking into the early hours of the morning, and then went home with the cows. (Laughter.) As they in Canada had not yet realized what there was in the Dominion, so the people in the Old Country had realized no conception. He hoped that there would be found to be an ever-increasing trade relationship between the Dominion and the Mother Country. He trusted that as the manufactures developed there would be found a way to shift some of the trade now carried on between the Mother Country and the United States to Canada. Mr. Chamberlain was a man of business, who understood manufacturing and commercial conditions, and the speaker believed that if Mr. Chamberlain were spared, those present would live to see a change that would be beneficial to both the Mother Country and Canada.

Mr. F. D. Medhurst, from Great Britain, who was the next speaker, said that Chamberlain's idealism and Imperialism had taken a firm hold upon the imagination of the British people.

Rev. Dr. Barclay said that his presence might require some explanation. Some time ago he had been made a member of the Institute of Mines. Only recently he had in like manner been elected a member of the Insurance Institute. It might not, however, require a very lively imagination to connect him with insurance. He was there because he felt that if the church was to be true to its mission, if it was not to lose its power, it would have to keep in close touch with the people. There were many in the community who stood aloof from the church. Men of influence and wealth considered the church a negligable quantity; it was something which could not do them any good and which they could do without. Such a view was erroneous. The lives of these men was not strengthened, but weakened by remaining away from church. Proceeding, the doctor said that while ministers did not mix in politics they were still citizens and interested as such in everything which pertained to the welfare of the country. It was theirs to see that success should be achieved through honesty, justice and charity.

Why should you send your money abroad when you can secure a policy in The National Life of Canada for less, and have the full reserve invested in Government and Municipal Debentures in Canada? Send for rates. Head office Temple building, Toronto, Ont.
