ROYALS GET EARLY LEAD HOLDING THE PESTS TO ONE RUN TO THE FIFTH

Viebahn Started Off Well in To-day's Session and the Teams Showed Class in the Play—Limit Extended to June 1 for Weeding Out.

Special to The Montreal Star.

Atwater Park, May 14.—Notwithstanding the heavy rain of yesterday, the diamond at Atwater Park was in the pink of condition for the last game with the Skeeters this afternoon. Viebahn and McHale were the opposing slabmen, with Roth and Rondeau doing the receiving. It was announced that the game would be called at six o'clock to allow Jersey City to catch a train. Manager McGinnity, of Newark was a spectator at the game, having come on ahead of his team. None of the Royals recruits have been let out as yet, and President Lichtenhein is asking for an extension of time, in which to dispose of his overflow. Line up:—

Montreal—Demmitt, lf.; Yeager, 3b.; Hanford, rf.; Gandil, 1b.; Russell, cf.; Purtell, 2b.; Hartman, ss.; Roth, c.; Viebahn, p.

Jersey City—Breen, 2b.; Agler, 1b.; Barrows, cf.; Deininger, lf.; McCrone, rf.; W. Purtell, 3b.; Roach, ss.; Rondeau, c.; McHale, p.

Mr. Lichtenhein this afternoon received information from President Barrow informing him that the International League clubs were granted an extension of time to June 1st to dispose of their surplus players, and the cutting down to twenty players.

FIRST INNING.

Jersey City—Breen walked. Agler singled. Barrows walked, filling the bases. Deininger fanned. McCrone dropped one in front of the plate forcing Breen. Purtell lifted to Demmitt. No runs, one hit, no errors.

Montreal—Demmitt was thrown out by Breen. Yeager lifted to Barrows. Hanford popped to Agler. No runs, no hits, no errors.

SECOND INNING.

Jersey City — Roach doubled. Rondeau's out sent him to third. McHale singled, scoring Roach. Breen was thrown out by Hartman. Viebahn and Gandil took care of Agler. One run, two hits, no errors.

Montreal—Gandil fouled to Rondeau. Russell singled along the third base line, and went to second on W. Purtell's wild throw to first. B. Purtell was passed. Hartman singled and Russell was thrown out at the pate by Deininger. B. Purtell and Hartman worked a double steal. Roth singled, scoring Purtell and Hartman. Viebahn was thrown out by McHale. Two runs, three hits, one error.

THIRD INNING.

Jersey City—Barrows fanned. Deininger popped to B. Purtell. McCrone whiffed. No runs, no hits, no errors.

VON BIEBERSTEIN'S APPOINTMENT MADE.

Berlin, May 14. — The appointment of Baron Marschall Von Bieberstein, as German Ambassador at London, was officially announced to-day. Ever since he was recalled to Berlin from Constantinople Embassy two weeks ago, it has been rumored that he would be transferred to London.

The announcement was warmly received, because it is believed that his going to London is significant of an era of better relations between Great Britain and Germany.

VERDUN IMPROVEMENTS.

Mr. H. D. Morrison was appointed building inspector of Verdun at last night's meeting of the Town Council The new building by-law was considered, but the debate was adjourned until next Monday night.

The report of the Electricity Committee showed that 30 new connections had ben made during the month, and the consumption of water gave a daily average of 648,000 gallons.

The Special Committee reported having considered the spending of one hundred thousand dollars on the water improvements. In this connection they reported having called for tenders for the supply of a 36-inch water pipe and anew wall, with a capacity of 3,000,000 gallons per 24 hours, and the installation of four filters of 500,000 gallons each, and two additional 300 h.p. water tube boilers with the necessary extensions. Farand & Delorme's tender for pipes at $2,700 was accepted.

McGill Scouts Officer Leaves.

The McGill troop of boy scouts paraded in uniform at the Bonaventure Station last night to take leave of their popular commanding officer, Mr. E. G. H. Forman, who graduated this year from the faculty of science at McGill. Mr. Forman was one of the first to take interest in the boy scout movement in Montreal, and the loss of his services will be keenly felt.

CANADA MAKES RECORD IN THE COST OF LIVING.

Ottawa, May 14.—During the month of April, according to figures collected by the Department of Labor, there was another upward jump in the cost of living. Cattle, grains, metals, raw cotton, rubber, coal, and coke, all increased in price.

Owing to the arrival of spring, dairy products were generally lower.

The effect is summed up in in the statement that the Department's index number moved up one point, and now stands 135, as compared with 126 in April, 1911.

DR. FRASER TESTIFIES IN THE McGEE CASE.

Special to The Montreal Star.

Georgetown, P.E.I., May 14.—At the McGee trial to-day, Dr. D. R. Fraser, of Montague, who was called in to attend the six children, during their illness, and who assisted at the autopsy, declared that he was now of the opinion that death was due to phosphorous poisoning. The symptoms were marked in the case of the last boy, Johnny, aged ten. The enlarged liver, and the yellowish tinge on the other organs supported this opinion, he said.

The mother he said during his visit to the house, did not seem much concerned about the illness of the boy, even after losing the other five children.

Dr. McMillan, who went to Montreal with the organs of the deceased children to be analyzed, will testify this afternoon. Some witnesses previously examined suggested that Mrs. McGee was insane.

LEGISLATIVE REPORT FAVORS GRAND TRUNK ENTRANCE.

Sub-Committee of Massachusetts Assembly Advocates Southern New England Railway Charter.

Boston, May 14.—A sub-committee of the Legislative Committee on railroads reported to the full committee to-day, a bill permitting the Southern New England Railroad, of the Grand Trunk system, to extend its lines to Boston.

The extension proposed by the Grand Trunk officials is to come in three directions — from the authorized line from Palmer to Providence; from Bellow's Falls, Vt., and also from Blackstone, Mass.

SUN YAT SEN NOT COMING, SAYS OTTAWA.

Special to The Montreal Star.

Ottawa, May 14. — It was stated at the Chinese consulate here to-day, that no information has been received concerning the Moose Jaw despatch that Dr. Sun Yat Sen may come to Canada, as a result of the enactment of the legislation prohibiting the employment of white women by Chinamen. It is also denied that Dr. Wong, the Consul-General will go to Moose Jaw, or that a new consul for Canada is to be appointed.

Stiff Fine for Hamilton Hotel Man.

Hamilton, Ont., May 14. — The highest fine ever collected in a liquor case in Hamilton, was imposed to-day, by Magistrate Jelfs, when he fined William Renton, proprietor of the Halfway House,$500 for selling liquor without a license.

Fort Gary Pioneer is Dead.

Prince Albert, Sask., May 14.—Rev. Canon Fleet, a Fort Garry pioneer, is dead.

HOTEL CECIL PALM ROOM.

What will undoubtedly be an additional attraction to the many Canadians visiting London are the spacious new palm courts of the Hotel Cecil opened on April 29. The courts of the hotel absorb what had long been one of the most popular lounging places in London, and it was this fact which led to the inception of the palm court. The lower court just opened is 93 feet by 45 feet and 32 feet high. The decorations are in fibrous plaster in Louis Quatorze style, with Corinthian pilasters, rich and sumptuous furniture being a feature. The color scheme is blue and gold, the carpet being a magnificent foliage pattern. The opening was attended by distinguished people, including Col. E. Villiers, A.D.C. to the King, who presided.

Conciliation Board is Granted.

Ottawa, May 14.—The Labor Department will establish board of conciliation to pass upon the dispute at Port Arthur between the Canadian Northern Coal and Dock Company, and its employes.

SCHILLING UP ON 1ST WINNER

Louisville Results To-day Show Coppertown Won Money for His Backers.

Special to The Montreal Star.

Louisville, Ky., May 14.—The betting on the six events yesterday was very spirited, and the contests were close and exciting. The feature event was the fourth race, at one mile and seventy yards, and resulted in an easy victory for the favorite, High Private. The track was in fairly good condition and Bachelor Girl travelled the first quarter in 22 seconds, stealing a big lead over her opponents, but when the field settled down High Private gradually overhauled her, to win easily at the end.

Shilling was the star jockey of the afternoon, piloting two winners. This boy clearly outclassed any other rider at the track and his mounts are always backed heavily.

Buckhorn returned to the races yesterday in fine shape, and, judging from his race, he is bound to make some of the alleged good three-year-olds hustle to beat him. Form players were not in good luck, landing on only two choices, while the other events went two long-shots.

The weather to-day was clear and the track slow.

The choices in the first race were Casey Jones, Millo and Chapultepec; second race, Nobby, Yorkville, Go Well; third race, Adams Express, Milton B., White Wool; fourth race, The Widow Moon, Inquieta, Coy; fifth race, Working Lad, Be, Bit of Fortune; sixth race, John Louis, Col. Ashmede, Font.

PARIS POLICE IN FIERCE BATTLE BONNOT'S BANDITS

Garnier and Vallet, Two of Most Determined Members of the Automobile Robbers at Bay in Paris Suburb, with Police Under Lepine, Pouring in Rain of Bullets Upon Them.

Paris, May 14.—Another battle between the police and the automobile bandits, who recently terrified Paris, is in progress at Nogent-sur-Marne, four miles to the east of the city.

Garnier, the co-chief of Bonnot who was killed with a companion at Choisy-le-Roi on April 18, after a desperate fight has been surrounded with a confederate named Vallet, in a building near the raidroad.

Like Bonnot and his confederate, Dubois, the bandits Garnier and Vallet are fighting desperately for their lives.

They are keeping up a continual fusillade with rifles from the windows of the building, firing on the police and townspeople surrounding the place. A police sergeant has been wounded.

Louis Lepin, the prefect of police of Paris, with a large body of policemen, have left headquarters hurriedly in motor cars for the scene of the fight.

BRANDT GETS A STAY

Removal to Dannemorra Halted by Order Issued by Appellate Court.

New York, May 14.—A temporary stay was issued by the Appellate Division to-day restraining the warden of Dannemora Prison from removing Folke E. Brandt back to the prison. The order provides for holding Brandt in the Tombs until the question of a permanent stay or the question of bail can be determined, pending appeal to the Court of Appeals of the writ of habeas corpus that was obtained on the ground that the former valet of Mortimer L. Schiff, the banker, sentenced to 30 years in prison for robbery, was given an improper sentence for the act committed.

RICHESON NOW IN THE STATE PRISON.

Boston, May 14.—Clarence V. T. Richeson, the former minister under sentence to be electrocuted next week for the murder of Miss Avis Linnell, was removed from the Suffolk County jail this afternoon to the State prison.

THISTLEDALE WITH KRAUZE UP TAKES THE STEEPLECHASE

Special to The Montreal Star.

Pimlico Track, Md., May 14.—Jack Whalen and Jack Goldsborough left Pimlico with their horses for Toronto this morning. The latter returned from New York yesterday where he went to arrange with Thomas Monahan as to where he should race Textile and Paton during the summer. The Quincy stable left for Canada yesterday, and Hugh Penny and John Burttschell started for Woodbine to-day.

Eagle Bird has run her last race on this continent. She is destined for Bombay, India, where she will be shipped the latter part of July. E. Adams, an American jockey in that country, being her purchaser.

Gwyn Tompkins had misfortune to lose his clever jumper His Reverence yesterday afternoon. After being breezed between the running of the second and third races, the horse was taken with attack of heart disease. He was taken into paddock, and after staggering around for several minutes, finally dropped and expired.

It was a good day for form players yesterday, five of the choicest leading their fields, as the winning mark was crossed. Surprises were furnished by Old coin and Napier who won the first and third races.

To-day the weather was fair and the track heavy. The choices in the first race were, Early Light, Mary Scribe Tumble; second race, Chilton Queen, Little Ep, Stelcliffe; third race, Sig. Chas. F. TARIFF RUMORS BASELESS

No Order-in-Council Altering Rates Even Under Consideration, Says Minister.

Toronto, May 14.—Hon. W. T. White, the Minister of Finance, who is in Toronto to-day, was asked to state whether there was any foundation for the press rumor that sweeping tariff changeges were about to be made by order-in-council in the duties upon lumber, cement, agricultural implements, clothing, sugar, explosives, fence wire, cotton, coal, coal oil, boots and shoes, and other articles in general use.

"There is no foundation whatever for such a statement," was the reply. "In fact the matter has not in any way been under consideration by the Government."

Long Distance Wireless Phone

London, May 14.—A dispatch to the Times from Rome says that for about a year the Italian naval and military authorities have been carrying on experiments in wireless telephony. A month ago a message was sent from the wireless station on Monte Mario to the Island of Ponza,a distance of about 65 miles.

Further experiments produced an improved method of transmission, and last week communication was established between Monte Mario and the wireless station at Becco di Vela on Magdalena Island, a distance of about 160 miles.

A long extract from a newspaper was read at Rome and heard and repeated at Magdalena. The voices were distinct, so much so that a listener detected immediately the substitution of a different speaker half-way through the message. Further developments may be expected soon.

PROTEST IN ST. LOUIS AGAINST MR. BRUCHESI.

A protest was to-day served on Mr. Charles Bruchesi, K.C., the Conservative candidate in St. Louis division, by Mr. Henry Schetagne, notary, who claims that Mr. Bruchesi's nomination list contains only 24 names of qualified voters in the division, whereas the law requires 25. It is true that there are 28 names on the list, but it is claimed that four are those of men who do not vote in the division. The notary also protests against the returning officer for having accepted the list.

CANADIAN AWARDED $406,175

R. A. Fessenden, Electrical Inventor, Gets Big Verdict in Boston Court.

Special to The Montreal Star:

Boston, Mass., May 14.—Reginald A. Fessenden, inventor of the wireless telegraph instruments on which the business of the National Electric Signalling Company is based, was awarded damages of $406,175 against that company in a suit brought in the United States District Court, before Judge Dodge, for breach of contract.

Fessenden claimed that $330,000 was due him, with interest on that sum from July 1, 1908, for services as general manager of the company, and as the inventor of the patented instruments now controlled by it.

Mr. Fessenden has been characterized as a "Wizard of Electricity," and was called by Elihu Thomson, the famous inventor, as "the greatest wireless inventor of the age." Fessenden established a station at Brant Rock, for the purpose of working out his theories, and brought them to a satisfactory conclusion, after ten years of research and study. Mr. Fessenden was born at Bolton, Que., Oct. 6, 1866, and was educated at Trinity College School, Port Hope, Ont., afterward taking up the practical study of electrical engineering.

MAYOR GAYNOR NOW PROPOSES MEMORIAL.

Special to The Montreal Star.

New York, May 14.—Mayor Gaynor invited yesterday in council with him a company of well-known men, to whom he will suggest this afternoon the holding of a meeting at which a tribute may be paid to the men who died so splendidly in the wreck of the Titanic, and the erection of some permanent memorial considered.

The Mayor has been deeply impressed by the spirit which moved men on the Titanic to stand back while others lived and they, with everything to live for, awaited death.

He has given much thought to the desirability of recognizing this spirit fittingly, and there is already evidence that the movement will become national in scope. Every section of the country was represented in the Titanic's passenger list.

MISSISSIPPI FLOOD NOW GOING INTO GULF

Danger Stages in Upper Country Will Last Throughout Month of May.

New Orleans, La., May 14.—The crest of the disastrous Mississippi flood is passing out through the gateway of the river, 90 miles south of New Orleans, into the gulf. At least the river gauge readings indicates that much. For the 72 hours ending at 7 a.m. to-day, not a single government gauge between New Orleans and St. Louis has recorded a rise, whereas at most points a receding stage was shown.

But while the flood wave appears to be passing, little relief from the high waters is promised the people of Louisiana in the special bulletin issued to-day by the weather bureau. This forecasts a continuance of the danger stages throughout the month of May.

STOCKS EXTRA

TO-DAY'S MARKET PROVED HALTING ONE THROUGHOUT

Special to The Montreal Star

New York, May 14.—The Past's financial review says:

In most respects to-day's stock market duplicated yesterday's. Taken as a whole, the market showed no disposition to move in either direction, but the bidding-up process was applied at intervals, either to a few stocks which are controlled in a speculative way by an active group of manipulators, or else to such usually inactive shares as could be advanced with no great expenditure of energy.

In stocks like Reading and Lehigh Valley, which were active yesterday, there were signs of profit-taking to-day. This may have been because of the market's singular attitude towards expected "commodity clause" decision of the Supreme Court, which not having been announced yesterday, cannot now be handed down before next Monday, there are presumably left only two more 'decision days' before the court adjourns for summer vacation; hence the interest on each successive Monday. But inasmuch as speculators declare that the stocks concerned in case of decision for the companies, will rise because of their victory, and that, in case of an adverse decision, they will rise because of the expected 'segregation of profits,' it is hard to see why the market should be deeply concerned, Possibly because it does not implicitly trust the professional speculators' view of such things.

The miners' convention met at Wilkes-Barre, and proceeded to deliberate with the formality of a constitutional convention. Voting on question of a compromise with the company's will not, therefore be immediate.

The Government report showed that past week was favorable to crops.

ORPHEUM PLAYERS IN THOMAS DRAMA SHOW MUCH SKILL

"The Witching Hour" is Given Excellent Performance by Stock Company.

The Orpheum Players are to be congratulated on giving a good all-round performance of Mr. Augustus Thomas' interesting play, "The Witching Hour" at the Orpheum Theatre this week. And the more so because in order to make the story convincing and the improbabilities slightly less improbable, a good deal of self-restraint has to be exercised on the part of the actors, a quality, by the way, which is all the more welcome insomuch as it is found so rarely in stock companies. And the "Witching Hour," which served as a vehicle for John Mason a few years ago is by no means an easy play to act, at times bordering on melodrama of the lurid type, and again

Charles Mackay and Ainsworth Arnold in a scene from "The Witching Hour," at The Orpheum.

lapsing into psychological analysis of the mysteries of telepathy and thought waves. The burden of the piece falls on the role of Jack Brookfield, the professional gambler, admirably played by Mr. Charles Mackay. The slightest over-emphasis in this part would have exaggerated the unrealities of the story and so deprived the play of any semblance of reality.

Telepathy forms the whole basis of the plot. The curtain rises on the home of Jack Brookfield, a professional gambler, where a young man named Clay Whipple exhibits almost insane terror at the sight of a cat's eye, and in an access of rage, stabs the intoxicated man who is forcing him to look at the cats eye he wears as a scarf pin, with an ivory paper knife. The young man is arrested and condemned to death, the case being at last referred to the Supreme Court for final decision. It so happens that Clay Whipple is in love with Brookfield's niece, and in his efforts to save his prospective nephew from the death chair, Brookfield discovers himself possessed of a very strong capacity for thought transference. At the suggestion and under the tutelage of Judge Prentice, one of the Judges who have to seal the fate of the condemned young man, Brookfield develops this faculty and through its use influences the mind of one of the jurymen. A verdict of acquittal is brought in through the stubborn fight made by this self-same juryman and through the unconscious influence exercised over the minds of the rest by the thoughts of those who have read an article written by Brookfield attacking the prosecuting attorney. These thoughts are crossing the mind of the audience in the court-room and are communicated to the men sitting in the jury box. There is a love story running through the play as a secondary issue, but the whole interest and burden of the story rests on the mysteries of telepathy and thought waves.

In addition to the admirable performance of Mr. Mackay, mention must be made of the excellent character work of Mr. William Webb, as Judge Prentice. The play lies largely in the hands of the male actors, but Miss Kemble brought all the charm of a graceful presence and good acting to the comparatively little she had to do. Mr. Ainsworth Arnold made the repulsive nature of Frank Hardmuth, the prosecuting attorney stand out with considerable force. At times, however, he would exhibit a tendency to overact, and so depart from the self-restraint shown by the rest of the company. Mr. Harold Mathews as Clay Whipple had little to do, but did that little acceptably and the rest of the company acquitted themselves satisfactorily in their respective parts.

AT THE LYRIC HALL.

A feature of the Lyric programme this week is a picture of Frank Coffyn's remarkable flight over New York City and Harbour, in his marvellous hydroaeroplane. A wonderful sight is that of Coffyn first rising from the water and alighting on it again with his machine.

Miss Dorothy Stone presents a singing act, displaying some beautiful gowns, and Mr. J. C. Henderson is again heard in popular songs.

A MAIL ADDRESS FOR CANADIANS IN LONDON.

Before sailing, Canadian visitors to the Old Country may arrange to have their mail forwarded in care of The Star's London Office, where it will be held until called for, or forwarded to any point desired.

All such mail should be plainly addressed "Mr. _____, c.o. The Montreal Star" (not "The Star"), 17 Cockspur street, Trafalgar Square, London, England.

The Montreal Star Office in London offers every comfort and convenience for visitors, and is now universally regarded as the rendezvous of Canadians in London.

THE SOCIAL WORLD

Cox—Jones.

In All Saints Cathedral, Halifax, N.S., yesterday afternoon, the marriage took place of Engineer Lieut. Ralph Douglass Cox, R.N., of H.M.S. Cornwall, and Margaret Kathleen, eldest daughter of Mr. Alfred E. Jones, and granddaughter of the late Lieut.-Governor A. G. Jones. The Rev. Canon Crawford, Dean of Nova Scotia, performed the ceremony. The bride wore a beautiful dress of ivory duchesse satin, trimmed with Brussels lace. The court train was trimmed at the corners with true lovers' knots and instead of the conventional orange blossoms her veil was held in place by a wreath of white heather. The veil was the same as worn by the bride's grandmother fifty years ago to-day. She was attended by his sister, Miss Norah Jones, and Miss Betty Gravely, gowned in daffodil satin with over dresses of mauve ninon. Two little pages, Masters Eric and Arthur Sangster, carried the train of the bride, and Miss Margaret Murray was flower girl. Lieut. Jermaine, H.M.S. Cornwall, was best man and the ushers were the bride's brothers, Messrs. Alfred and Owen Jones, Lord Alister Graham, Mr. A. E. Willoughby, R.C.R., Lieut. Manners, R.N., and Lieut. Sim, R.N. Among the wedding presents is a water color of H.M.S. Cornwall from H.R.H. the Prince of Wales.

Engagements Announced.

Mr. C. E. Ratchford, of Amherst, N. S., announces the engagement of his daughter, Miss Lillian Fraser Ratchford, to Mr. C. F. Worrell, Manager of the Canadian Bank of Commerce, Souris, P.E.I., son of the Lord Bishop of Nova Scotia and Mrs. Worrell. Miss Ratchford is a grand niece of the late Lieut.-Governor Fraser of New Brunswick.

Mr. and Mrs. H. W. Sharpe, of Chaudiere, Levis, announce the engagement of their daughter, Gertrude Annie, to Mr. George Bentley, of Montreal. The marriage will take place Monday, June 10th.

The engagement is announced in Ottawa of Miss Helen Irene Ogilvie, daughter of Mr. and Mrs. Jas. Ogilvie, to William Allan Armstrong. The marriage will take place early in June.

Approaching Marriages.

At the marriage of Miss Lisette Cole, daughter of Mr. and Mrs. Francis Cole, to Mr. Geoffrey Turpin, son of Mr. and Mrs. W. J. Turpin, which takes place on Saturday afternoon, June 1st, at Christ Church Cathedral, the bride will be attended by Miss Edith Creelman, as maid of honor, and by the bridegroom's sisters, Miss Edith and Miss Ruth Turpin, as bridesmaids, Mr. Charles Grier will be best man, and the ushers will be Mr. Thornton and Mr. Charles Cole, Mr. Ogilvie Hastings and Mr. Gerald Hanson.

The marriage of Miss May B. Craven to Mr. James T. Bain, takes place on Wednesday, June 5th, at 6 o'clock, in the First Baptist Church. Miss Marjorie Craven as bridesmaid and Miss Jackellene Craven as little flower girl, will attend their sister. The best man will be Mr. R. Gordon Bain, and Messrs. Orick B. MacCallum and W. H. Craven will act as ushers.

Mr. and Mrs. Fred Jesmer, of St. Andrews East, Que., announce the engagement of their niece, Miss Eliza (Lyla) Gardner, to Mr. Reginald G. Austen, of Montreal, youngest son of Mr. and Mrs. James E. Austen, of Toronto. The marriage will take place quietly at St. Andrews East, on Saturday morning, June 1st.

Personal Mention.

The entertainments arranged in honor of Miss Margaret Greenshields, whose marriage to Mr. Stephen White takes place on May 28, include a dinner this evening at which Mr. Charles Greenshields will be the host. WATCH FOR COUPONS FOR STAR PARTY

Fifteen Hundred Children Will Be Guests of The Star on Saturday Morning.

Little stay-at-homes, boys and girls who have not the opportunities of most children, will own the Princess Theatre next Saturday morning from 10 to 12.

Fifteen hundred of them will travel around the world with Lyman H. Howe as guests of The Star. They have simply to cut out the coupon printed in The Star to-morrow and Friday, present it at the Princess Theatre between 9.30 and 10 o'clock Saturday morning and be assured of a delightful two hours' experience without a cent of cost to themselves.

Mr. Howe has a remarkable entertainment at the Princess and this will be presented at The Star theatre party. The kiddies will visit the palace of Versailles and gorges of Clans in France, take a trip through Germany, witness daring feats of horsemanship in Portugal, see the wonders of the sea in many moods, dash down the steep grades of the Alps on a runaway train, and be amused and thrilled by the other subjects in Mr. Howe's Travel Festival. There are many humorous incidents in the program and the imitators back of the big screen will so fit the action of the scenes with dialogue and mechanical effects that the children will easily imagine they have really left Montreal for the morning and are at the places depicted in the life-like moving picture reproductions.

Cut out the coupons and arrive early.

HEBREW ORPHANS.

Society Organized to Care for the Children.

At a meeting of the Young Ladies' Hebrew Orphans Protective Association held at the Baron de Hirsch Institute last night, the objects of the society were fully explained by Miss Rose Samuels, the vice-president. She appealed for help to further the good cause. Mr. Lyon Cohen spoke of the care needed by the Jewish orphan, remarking that was most needed was individual help.

Miss Guilaroff, Miss Pauline Hoffman and Miss Hilda Rosener, gave vocal selections and recitations.

MGR. BRUCHESI RETURNS.

Archbishop Completes Holiday Trip and Feels Must Rested as Result.

His Grace Archbishop Bruchesi, who has been away from Montreal for some weeks on a visit to Detroit, Toledo, and other places, has returned to Montreal. The trip was more for holiday purposes than for business, and His Grace has returned with his health much benefited by the change and the rest.

Irish Game Protection Society.

Lord Massy presided at the annual meeting of the Irish Game Protection Association, in Dublin.

The report called attention to the inadequacy of the fines inflicted by magistrates in poaching prosecutions. In some cases the magistrates appeared to show a marked leniency towards the offenders.

Mr. and Mrs. Paul G. Stanley have gone to Vaudreuil, where they have taken a cottage for the summer.

Mr. and Mrs. R. L. Bell, of Montreal, have taken up residence in Ottawa.

Mrs. Percy, Weredale Park, is at present staying at Caledonia Springs.

Miss Winnifred Neville is in Toronto visiting Miss Edith Ramsay.

Mr. and Mrs. Charles Pitblado spent the week end in Ottawa.

Mr. and Mrs. R. J. Tooke are in New York.

Mrs. W. C. May, has returned to Ottawa.

SEE GREAT ARTISTS IN PICTURE DRAMA AT HIS MAJESTY'S

Special Care With Production and Reproduction Secure Fine Result on Canvas.

With motion pictures in the leading playhouses of Montreal and drama in the usual homes of vaudeville and camera shows, the theatrical business in the city presents a curious aspect at the moment, but one which, while unusual, is thoroughly interesting.

The two examples of French drama shown at His Majesty's this week afford a striking tribute to the progress of the camera in the world of entertainment. The lifelike presentation of Mme. Rejane in "Madame Sans Gene," and of the Divine Sarah, in "Camille," are veritable triumphs of the camera art, but they possess an even wider significance than that because it is intended that they shall be preserved so that future generations may be given the privilege of seeing these great artists in the days when they will have passed over the great Divide and joined those who rest when Death drops the curtain.

These films are certainly among the best that Montreal has been privileged to see, and Montreal has been quite fortunate in this regard. The action is smooth and lifelike, and those who are acquainted with the dramatic works can imagine to themselves the lines as they fall from the lips of the artists.

The films run very easily and are free from flickering and unevenness which spoil so many pictures. They can be followed easily and the eye is not tired or strained by watching them. How was this done? The answer is that known methods were used, but used in the hands of careful experts. The very best picture machine cameras were operated with the object of getting best possible results. Hence the best possible films. Then special machines were made to "deliver the goods" to the public and expert operators put in charge. The result is as near to perfection in motion pictures as has heretofore been attained.

HOWE'S "TRAVEL FESTIVAL" OPENS AT THE PRINCESS.

Motion photography at its best is the offering this week at the Princess Theatre, where Lyman H. Howe's Travel Festival last evening opened a three weeks' engagement.

The Howe pictures are familiar to Montrealers and the series running for the opening week is well up to the high standard set here in the past. A good house witnessed the first presentation of the new pictures last evening and seemed to appreciate to the full the diversified reels as they were run through the machine to the accompaniment of really good business behind the screen. The latter is one of the features of the Howe entertainments and is very effective in making the realism of the pictures greater.

The feature of the week's programme is the Burial of the Maine and, while perhaps not particularly appealing to a Canadian audience, are well worth a visit to see. The ride on the Runaway Train, which has been seen here before, again proved itself a most thrilling one and was the feature of the evening.

The series of travel pictures, including a trip through the Gorges of Cannes, in Southern France, another through the show places of Germany with its picturesque Rhine, and a sky ride from Gotha to Dusseldorf, were also excellent, the coloring of some of the films being particularly beautiful.

Of comedy there is plenty. Furious Driving, the Detective and the Rope, and several others, while the juvenile element of the audience received attention in a number of excellent animal pictures.

The Bee Industry was another unique feature of an all-around excellent programme and was a remarkable study of the wonderful insects at work. The Sea in Many Moods and the Growth of Plants and Flowers were other splendid examples of the development of the science of motion and color photography.

Altogether the programme at the Princess this week is well up to the Howe standard, which has long ranked with the highest in the moving picture world.

"RAFFLES" REAPPEARS.

Amateur Cracksman Story Creditably Presented at the Francais.

"Raffles" is this week being presented at the Francais Theatre, and daring character proves just as interesting as he was when first Mr. Hornung's book, about the amateur cracksman made its appearance.

This fascinating story about the amateur cracksman is creditably staged and acted. John A. Lorenze who acts Raffles, shows fair comprehension of his part, the air of "stiffness" which surrounds his acting being lost in the romantic atmosphere in which he moves. Charles F. Newson's acting is good but a little too studied. Warda Howard acts as Gwendoline Caron, and distinguished herself by her fine voice and appearance.

St. Denis W.C.T.U. Appointments.

The St. Denis Boulevard Branch of the Womens' Christian Temperance Association met Monday afternoon at 2943 Droiet street. Mrs. W. Meadows, Mrs. M. Meadows and Mrs. Bloore were appointed superintendents of the Evangelistic, Literary and Press departments respectively.

Mrs. Patterson, President; and Messrs. Wilson, Bloore and Hadley were appointed to attend the county convention at Montreal West.

Mrs. J. H. Roberts, Provincial Superintendent gave an address on "Moral Education."

WOMAN'S END REVEALS STRANGE CAREER

Married a Bandit, Appeared as "Mrs. Jesse James," and Died An Evangelist.

Asbury Park, N. J., May 14.—An examination to-day of the effects of Mrs. Della Fox, who died from heart disease in the Long Branch Hospital on Saturday, disclosed that she was the widow of "Texas Charlie," a member of the gang of bandits once headed by Jesse James.

She was once a champion rifle shot, and after James had been killed by one of his gang, she assumed his name and appeared on the stage as "Mrs. Jesse James."

In recent years she had devoted herself to evangelism among the poor of this section, without her identity being known. She died penniless, though only a few years ago she was reputed to be well-to-do.

Mrs. Fox was born in Scotland, coming to this country at the age of fifteen, when she met and eloped with "Texas Charlie," and soon became companion of the notorious bandits. She was about 60 years old at the time of her death.

The woman had no connection with the famous light opera singer of the same name.

Prince of Wales To Visit Toulon

Will Embark on French Dreadnought Danton, Vice-Admiral Bon's Flagship.

Paris, May 14.—The Prince of Wales, who has been staying for some time here with the Marquis de Breteuil, intends to leave for the great French naval staion at Toulon, on June 19, and will embark on board the French Dreadnought Danton, the flagship of Vice-Admiral Augustin Bou de la Peyrere.

The Prince will spend three days on board the battleship witnessing the evolutions of the French fleet in the Mediterranean. These are to be carried out under the direction of Admiral La Peyrere, former Minster of Marine.

The Duchess of Roxburghe, Lady Arthur Paget, and the Hon. Mrs. John Ward, also will dance in the Waterloo quadrille.

Brooklyn Bridge is in Danger,

New York, May 14.—That some fears are felt for the safety of the old Brooklyn bridge, which still carries a considerable share of the traffic between Manhattan and Brooklyn, is indicated by orders issued by the city Bridge Department prohibiting heavy teams from using the roadways and directing the elevated railroads to curtail their traffic during the rush hours. Extensive repairs are being made to the structure.

State Grants to Teachers Higher

Chancellor Lloyd George Admits They Are Entitled to Better Superannuation Treatment.

London, May 14.—The elementary school teachers of England, yesterday, sent a deputation to Chancellor of the Exchequer Lloyd George to complain of the inadequacy of the Government's scheme of superannuation for the members of their body.

The Chancellor admitted that the teachers had made out a case for fair and juster treatment. Up to the present time, he said, they had been very shabbily treated in the matter of superannuation. It was vital that something should be done to improve the prospects of the teachers, and the government had, therefore, decided to increase substantially the State contributions toward pensions for those who were now teachers.

The government, said Mr. Lloyd George, would raise the disablement allowance for men from £1 to £1 :0s, and for women from 13s 4d to £1. As an alternative the men might, if they desired, retire at 60 and the women at 55.

These concessions are equivalent to a grant of $1,000,000 annually.

Knabe Pianofortes

KATHERINE GOODSON'S LETTER

Miss Katherine Goodson, admitted to be the best living lady pianist, who scored such a great success with the Knabe Grand in concert during the Musical Season now coming to a close, writes under date of April 6th, 1912, a graceful tribute to the Knabe Grand, of which the manufacturers can well feel proud. Her letter reads as follows:

Messrs. Knabe & Co., New York.

Dear Sirs,—Now that I have time to think and to rest during my five days' journey to Jamaica, I want to write and thank you for the perfectly beautiful concert grands which you have placed at my disposal during my present tour of the United States and Canada. The "Mignonette" grand, too, which you have so kindly sent to the various hotels for my private use I consider a veritable marvel; for once, when my concert when my concert grand was "snowed up," and I was obliged to "make shift" with a Mignonette grand, I found to my delight and amazement that I need not "make shift" at all, as the sonority and sweetness of tone of this little instrument, combined with its rarely lovely touch, satisfied me even to the largest numbers on my program. With renewed thanks, believe me,

Yours very sincerely,
KATHERINE GOODSON

GIVES ONLY 15 SEATS TO OPPOSITION

Sir Lomer Gouin Cuts Down His Previous Limit of Twenty in Latest Forecast.

SOME ARGUMENTS IN QUEBEC WEST

Mr. Tellier Accorded Enthusiastic Reception at Rimouski and Fraserville.

"Does your Three Rivers prophecy to the effect that the Conservatives will not carry more than 21 seats still hold good?" Sir Lomer Gouin was asked last night.

The Premier showed interest in the question and replied: "No, I will not grant them that many now. Fifteen seats is the outside limit to-night."

The Premier seemed to be much interested, however, as to what the opinion of his interview was relative to his chances.

"Well, now," he said in a confidential mood, "between ourselves, what do you think about it."

Sir Lomer expressed himself as much satisfied with last night's meeting.

"Here are two districts at least about which there can be no question," he stated, referring to St. Mary's and St. James.

Sir Lomer left for St. Johns this morning and will remain in the county over polling day, returning to Montreal to-morrow night for the results of the elections.

QUEBEC'S INTERESTS AT OTTAWA TO-DAY.

Special Staff Correspondence.

Quebec, May 14.—Mr. Charles Smith, the Opposition candidate in Quebec West, held a meeting at Cap Blanc last night. Mr. Smith, who was accompanied by the Hon. E. J. Flynn, Messrs. Elz, Fiset and Alfred C. Dobell, discussed the political issues of the campaign. He likewise referred to the intention of the Borden administration to construct the Transcontinental Railway terminals and prepare the port of Quebec for the consequent shipment of western grain to European markets in 1914.

He held that it was in the interest of the electors of Quebec West to elect a candidate who would be in sympathy with the Ottawa Government, and at the same time strengthen the influence of their own Dominion Cabinet Minister, who was wrapt up in the interests of Quebec.

He impressed upon the meeting his own determination, if elected, to work for the upbuilding of Quebec in order that his constituents should share in the benefits, and he pledged himself in earnest language to do all in his power, to the best of his ability, to that end.

The Hon. Mr. Flynn delivered an address dealing with the financial condition of the province.

OPPOSITION LEADER SPEAKS AT RIMOUSKI.

Special to The Montreal Star.

Rimouski, Que., May 14.—An enthusiastic meeting of the electors of Rimouski and Matane was held here yesterday, when about 4,000 spectators were present. Mr. Tellier outlined his programme, which was received with considerable applause. He was followed by Senator Landry and the Hon. T. Chapais, both of whom delivered eloquent addresses.

The meeting at Fraserville was also a success. Mr. Tellier had a most hearty reception.

MR. MARECHAL HOLDS BIG MEETING TO-NIGHT.

Two hundred people waiting in the school house at St. Basile, County of Chambly, last night until eleven p.m. in order to have an opportunity to hear Mr. L. T. Marechal, K.C., once more before the close of the campaign, shows to what extent the Conservative candidate has become popular with the electors of the county.

Mr. Marechal had mapped himself out a programme for last night that owing to the practically impassable state of the roads through the rains of the past few days, he was reluctantly obliged to curtail.

He had intended to speak in St. Bruno, St. Basile and Chambly Basin. After speaking for an hour at St.Bruno, Mr. Marechal, accompanied by Mr. Rainville, set forth for St. Basile and it was nearly eleven when they reached there, the Chambly meeting had to be cancelled.

Both meetings were very well attended and as all the meetings held by the Conservative candidate during the present fight were also enthusiastic. Mr. Marechal has stood the hardships of the campaign better than any of the prominent men before the public and he appears to be in better form than any of the Ministers, who are plainly showing the wear and tear.

He says he is in great shape for the wind up of the campaign which will take place to-night by a grand rally in the St. Lambert Town Hall. Mr. Marechal will be accompanied by Mr. J. H. Rainville and other prominent Conservatives of the city and will speak both in French and in English.

When advised that Sir Lomer Gouin had attacked him personally in his speech at St. Bridget's Hall last night, for having acted as counsel for the Tramways Company, when the latter were before the Legislature, Mr. Marechal stated that he would reply to the Premier on that subject to-night.

The fight in the county of Chambly has been one of the fiercest of the campaign and both Sir Lomer Gouin and Mr. Tellier throughout their swing around the circuit were always asking for news about Chambly. A lot of interest centred in the constituency among the prominent men of both parties and both sides claim they are confident of victory.

A very enthusiastic meeting was held in Nault's Hall, corner of Notre Dame and Guy streets last night in the interests of Mr. D. Tansey, the Conservative candidate in St. Ann's.

A very optimistic feeling prevails in Conservative circles in St. Ann's. From the results of the house-to-house canvas they claim that Mr. Tansey will secure fully 80 per cent. of the votes in St. Joseph's ward, while in St. Ann's ward the canvass gives a good majority for the Conservative candidate.

Premier's Message to St. George.

Sir Lomer Gouin in a message today to the electors of St. George division, said:

"The business men of St. George division appreciate the fact that I have given the province a business-like administration. The many assurances I have had from moderate men of all shades of opinion in this division lead me to believe that they will give my friend, Mr. A. F. Leggatt, their united support. The work we have done and the programme of progress we have laid down should not fail to appeal to the broad-minded electors of St.George division."

Mr. Leggatt held a meeting last evening in the Reform Club.

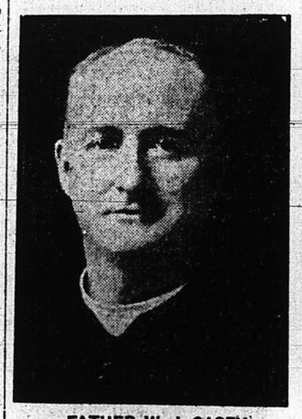

"ONE MAN--ONE VOTE" LAW NOT IN EFFECT TO-MORROW

The "One-Man-One-Vote" law passed at the last session of the Provincial Legislature is not operative in to-morrow's election. The statute does not go into effect until April, 1913.

This means that to-morrow a citizen may vote once in every riding in which he has the necessary qualification, providing, of course, his name is on the voter's list.

REV. FR. CASEY, OF ST. AGNES, DIES UNEXPECTEDLY

Had Not Been in Best of Health But Was Not Thought Seriously Ill.

FATHER W. J. CASEY

Father William Joseph Casey, pastor of St. Agnes Parish since the time of its foundation, nine years ago, died last night at the Presbytery of the parish, 796 St. Denis street. Although the deceased priest had not, of late, been in the best of health, the news of his death came as a shock to the parishioners. Father Casey completed his classical studies at Ste. Therese Seminary, and studied theology at the Grand Seminary of Montreal. On July 25, 1889, he was ordained to the priesthood and immediately after his ordination, was appointed assistant priest in Ste. Jean Baptist parish, where he looked after the spiritual welfare of the English-speaking Catholics. When St. Agnes parish was organized, for the English-speaking Catholics in the North End of the city, Father Casey was appointed parish priest. The deceased was attended, in his last moments ,by Rev. Father Patrick McDonald, assistant to the pastor.

The remains will be transferred this afternoon, at 4 o'clock, from the Presbytery to St. Agnes Church where a Requiem Mass will be sung on Wednesday morning at 10 o'clock. In the afternoon of the same day, the body will be forwarded by the Grand Trunk Railway, to Sherrington, Que., for interment which will take place on Thursday.

NEW YORK URGED TO ADOPT STATE OWNERSHIP NOW

Hon. Adam Beck Advocates Hydro-Electric Policy Along Ontario's Plan.

Special to The Montreal Star.

Ottawa, May 14.—The New York State general delegation which is inquiring into the Ontario Governments hydro-electric policy, with a view of emulating it in that State, conferred here to-day with the Hon. Adam Beck, the Ontario Power Minister. The delegation consists of Senators Ferris, Long, Patrie, Gregg and Donnelly, Conservation Commissioner Moore, and Counsel Baldwin.

Senator Ferris stated that New York had a million and a half of undeveloped power and wished to know the relative merits of private and public ownership.

In his address, Mr. Beck went fully into the scheme. The longer it existed, he said, the greater the degree of its popularity. The primary idea was to assist the municipalities in getting power at cost. Investments to date aggregated twenty millions. In five years it would be fifty millions.

In its practical working, said Mr. Beck, not only had rates been reduced but electricity had been taken to villages and to farmers. He foresaw at no distant day electricity as the great motive power of the farm for traction and domestic purposes.

In the first year of operation two million dollars had been saved to the consumers. The scheme, plans for the development of which he outlined, would conserve the industrial supremacy of Ontario by furnishing cheap power, at cost.

Mr. Beck strongly advised the State to go into public ownership.

Senator Ferris thanked him for his address and promised the Minister the "keys to the State."

In reply, Mr. Beck hoped for the continuance of friendly relations between Canada and the States and their mutual development of great resources.

FIND NO TRACE OF MISS BICKERDIKE.

Men Watch River in Vain for the Missing Woman.

The mystery of Miss Mabel Bickerdike's disappearance remains unsolved and to-day the opinion is expressed that she must have slipped down the steep river bank at Cartierville and fallen to her death in the swift waters of the Riviere des Prairies.

Very careful search throughout the city and the Island of Montreal failed to produce even a single clue as to the missing woman.

Meanwhile men have been employed in a close search of the river bank and the water, but without discovering any trace of Miss Bickerdike.

DUFF GORDONS REFUSE TO BE INTERVIEWED.

Special to The Montreal Star.

Liverpool, May 14.—Sir Cosmo and Lady Duff-Gordon, survivors of the Titanic, arrived from New York today on the Lusitania. Both declined to discuss the stories regarding their escape from the sinking liner.

Questioned about the testimony of Hendrickson, who said that Sir Cosmo refused to let the lifeboat put back to rescue drowning people, Sir Cosmo said: "Go away and do not bother me."

Newfoundland Invites the Duke.

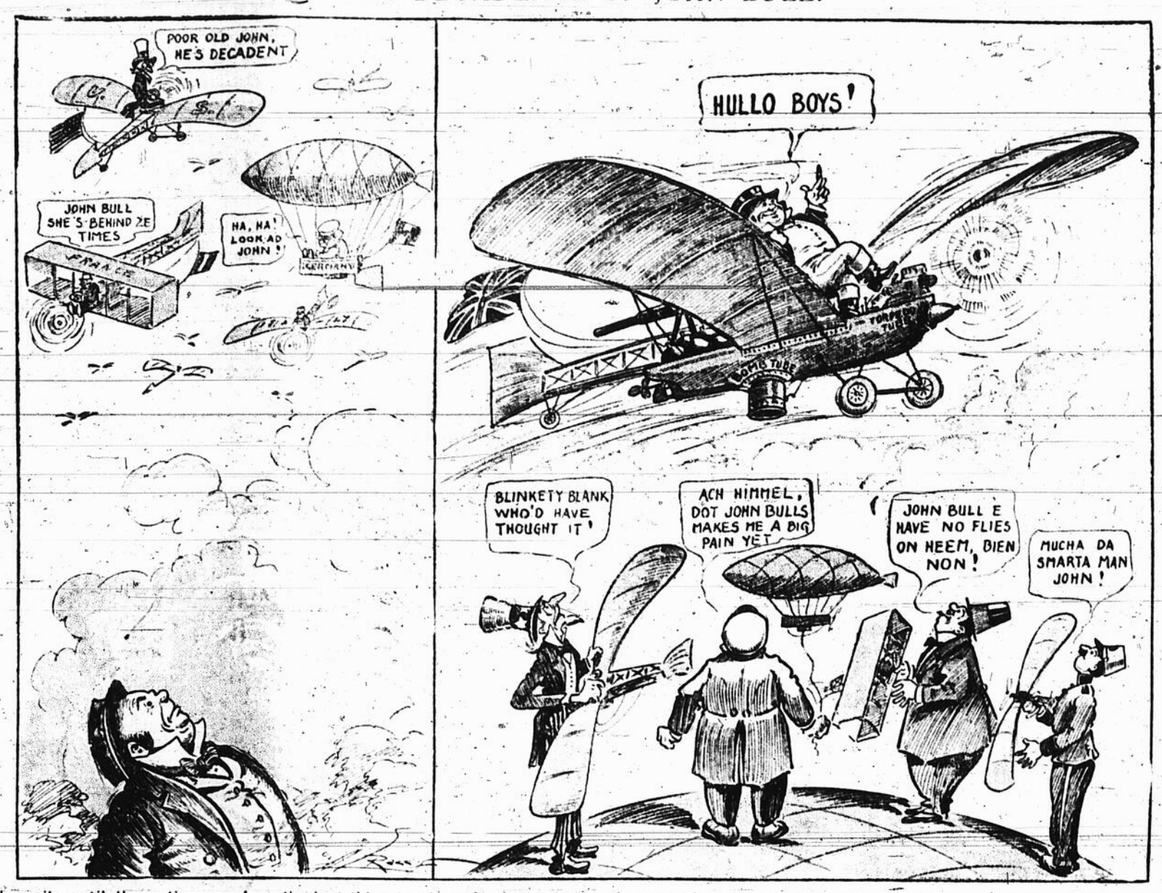

St. John's, Nfld., May 14.—The Duke of Connaught, Governor-General of Canada, is expected to spend some portion of the summer of 1913 in Newfoundland as the guest of the Government.

Governor Ralph Champney Williams is now en route to Canada to extend a formal invitation to the Duke.

MINE WORKERS OPEN DEBATE ON COAL AGREEMENT

Warm Discussion Expected — Believed Miners Will Uphold Sub-Committee.

Wilkesbarre, Pa., May 14.—The tri-district convention of the United Mine Workers called to consider the tentative agreement drawn up by the sub-committee of four miners, and four operators, and which was rejected by the executive boards of the three anthracite districts, began here to-day with a full representation of delegates from every local union in the hard coal fields. A majority of the delegates were sent to the convention uninstructed.

A former national board member, who has an intimate knowledge of the inside workings of the miners union, said to-day there was no question in his mind that the agreement would be adopted.

The convention will last several days and as the agreement is not satisfactory to many of the miners, it is expected there will be a warm debate.

"MAN THE BOATS," THRILLING SHOUT HEARD IN HARBOR.

Hardly Had Corsican Docked When Order Came to Jump to Station.

A sudden order, "Man the lifeboats," was given this morning at 8.30 o'clock on board the Corsican, which arrived from Liverpool about an hour earlier.

When the order came, "each man to his station," not a little surprise was manifested on the part of the crew, but not for a moment was discipline forgotten. The crew, including firemen, stewards, sailors and officers, made rapidly for the boats to which they, throughout the voyage, are assigned, and in less than ten minutes, every lifeboat on the vessel was hanging over the water. The boats on the side of the wharf were not lowered, but the other ones were let down to the water.

The Allan Line Company is very much pleased with the showing made by the crew.

MEMBERSHIP CAMPAIGN.

Hebrew Young Men Add 342 Names to List.

One hundred and ten new members were enrolled in the Young Men's Hebrew Association, yesterday, the second day of the campaign started for the purpose of increasing the membership of the association by 1,000.

The returns now show that 342 members have been enrolled since the campaign started.

THE STAR'S DICTIONARIES.

Every Star Reader Will Have an Opportunity to Secure One.

The Star has received advice from the publishers of the New Illustrated Webster Dictionary that further supplies will be shipped at once, and in the course of a few days an announcement will be made when they will be on sale again. The accumulation of several thousands of orders from out-of-town readers will have our first attention, after which city readers will be given an opportunity to secure a copy. The prices will be the same as on Saturday last—98c. each, or $1.20 by mail.

TAG DAY PLANS ARE COMPLETED

Ladies Make Extensive Preparations for the Charitable Campaign.

Prepaartions are being made for Tag Day in the city in aid of charitable institutions. The campaign is to benefit primarily the babies, especially through the milk stations, and secondly the children, aged and invalids dependent upon charitable assistance.

The Montreal Tramways Company will give their assistance to Tag Day by displaying free of charge in all their cars, from to-morrow until Saturday the posters supplied by the committee. Among those who have recently promised their assistance are Mrs. Hayter Reed, who will canvass the Place Viger; the North End Presbyterians, under the convenorship of Mrs. Heissner; and the Church of the Ascension, One-hundred and twenty-five ladies, under the convenorship of Mrs. Carmichael, will canvass Point St. Charles.

Badges of office, in the shape of blue arm-bands, bearing the word "Victoria" in red letters, and blue cotton bags, in which the buttons will be carried, have been made by the workers. The public are requested this year, to prevent the re-selling of tags by boys for their own benefit, only to pay money for tags or buttons to workers supplied with boxes, and to put all money directly into the boxes.

CITY STREET NAMES.

The final meeting of the civic Street Names Committee will be held at the City Hall on Friday afternoon at three o'clock. Those who have grievances against proposed changes of names are asked to be present at the session.

Unknown Man Suicide in Toronto.

Toronto, May 14.—The body of an unknown man, who had bled to death from a deep gash in the inside of the left wrist, was found behind a large signboard at the northwest corner of Gerard street and Carleton avenue, Riverdale, about seven o'clock this morning.

Quebec, May 14.—As a result of the violent southwest wind blowing, the boom of the Baie St. Paul Lumber Company broke at about noon to-day, carrying away one hundred thousand logs. The loss will be heavy, as probably not more than half the logs will be saved.

THE WEATHER

Probabilities: Moderate westerly to south-westerly winds; fine to-day and on Wednesday, with rising temperature.

WERE NOT ALARMED BY ENGINE ACCIDENT

Mr. Smeaton White Says Empress Passengers Had Merry Time.

Among the passengers on the Canadian Pacific steamship "Empress of Ireland" which reached Quebec yesterday was Mr. Smeaton White, president of the Gazette Printing Company, who arrived in Montreal last evening after a two months' vacation trip.

Mr. White left Montreal on March 14 and sailed from New York the following day for the West Indies and Panama, visiting in the latter country the new Isthmian canal and embarking later for Great Britain, where he spent several weeks in the English metropolis.

In company with Mr. D. C. S. Miller of the firm of Messrs. Moat and Company, stock brokers of this city, Mr. White sailed for Canada on the "Empress of Ireland," which arrived in Quebec four days late, due to the breaking of a piston rod on one of the cylinders. Mr. White speaks highly of the manner in which Captain Foster and his officers dealt with the accident to the machinery and of their consideration for the passengers aboard the vessel.

"Although the accident was a serious one," said Mr. White to The Star to-day, "there was absolutely no apprehension felt by the passengers because of the action of Captain Foster in taking everyone into his confidence by telling them the exact state of affairs in the engine room. Everyone was told there was nothing to fear except delay in reaching Quebec. Any alarm was quickly allayed by the officers' assurance and the feeling that nothing was being hidden by them.

"The trip throughout, including the time we were delayed, was of the most pleasant nature and when the steamer reached Quebec every passenger aboard was in good humor, in spite of the fact that some had important business engagements which they were prevented from keeping because of the accident."

The captain and his officers, Mr. White said, did all in their power to provide entertainment for the passengers during the days the Empress was running under one engine and on Saturday evening last gave a ball, which passed off most successfully. At this function, Hon. W. S. Fielding, ex-Minister of Finance, who was on board, complimented Captain Foster and the officers of the ship, on behalf of the passengers, on the manner in which they had dealt with the emergency and thanked them for making the trip a pleasant one.

Judge Riddell, at Toronto yesterday awarded ex-Chief of Police S. E. De La Ronde, of Ottawa, judgment for $1,000 against the Ottawa Police Benefit Fund Association. This was the retiring allowance claimed.

CYCLONE SWEEPS HUNGARY AND MANY PERSONS KILLED

In One Town 330 Out of 350 Dwellings Were Razed to Ground.

Budapest, Hungary, May 14—A number of villages including Balvanijos, Varalja, and others in Transylvania, were practically razed to the ground and many of the inhabitants killed and injured by a cyclone which swept over the district last evening.

Out of 350 houses, 330 were reduced to ruins. Four bodies have thus far been extracted from the debris, and the number of those seriously injured is very large.

Other villages, including Czaba, Ujfalu, and Batonya, were also greatly damaged by the storm.

Count Bethlen, the governor of the province, has ordered all the troops stationed in the district to assist the firemen in salvage work.

LICENSED PLACES MUST CLOSE TIGHT.

Chief Campeau Issues Election Day Orders.

Chief Campeau to-day called the officers of Police force before him and instructed them that saloons and licensed groceries must remain closed all day to-morrow.

As Thursday is a holiday it was thought that the groceries might be allowed to open after the polls closed to-morrow, but Chief Campeau holds that this is not in accordance with article 385 of the Provincial License Law.

WILL MAKE NEW SEARCH FOR BODIES

Str. Montmagny to Return to the Scene of the Titanic Disaster Without Delay.

BRINGS REMAINS OF THREE TO LOUISBURG

Indicated That All Bodies Not Provided With Lifebelts Sank at Once.

Special to The Montreal Star.

Louisburg, N.S., May 14.—The Government steamer Montmagny, Capt. F. X. Pouliot, arrived here from her search for bodies from the Titanic. She has three bodies on board, and the body of another man, which could not be identified, was buried at sea.

The Montmagny, which was ordered by the Marine and Fisheries Department to proceed to the scene, left Halifax last Tuesday, with Capt. P. O. Johnson, of the Halifax agency of the Marine Department, the Rev. Mr. Price, Church of England, and Rev. Father McQuillan, of St. Mary's, and Messrs. Snow and Zinc, undertakers, on board.

On Thursday morning, at eight o'clock, the first piece of wreckage was passed. The weather was cloudy, and at 2.45 that day the first body was seen floating very deep in the water, with a life-jacket on. From the clothing, it was presumed this man belonged to the steamer's staff, but there was nothing on the body to identify it, and the Rev. Mr. Price read the service of the Church of England over the remains, which were consigned to the deep.

At 6 o'clock the ship stopped for the night, as the weather was very foggy and rough. At daylight on Friday, she again proceeded slowly, and at 7.20, a.m. a lifebuoy was sighted with the fingers of a human hand showing above. The body of a man was found underneath, with the turn of a buoy rope around the wrist, which was cut to the bone.

It is supposed that as the man breathed his last, the body slipped through the lifebuoy and was held only by his hand having caught in the buoy line. This body was identified as that of Harold Reynolds, a steerage passenger, bound for Toronto.

This is taken to indicate that all persons who met death on the ship without having secured a life-belt or buoy, sank immediately after the breath left the body.

At 2.30 p.m., the body of a Syrian girl, about 15 years of age, was picked up. This body was very scantily clothed, as though she had rushed on deck in a hurry. A shawl was wrapped around her shoulders, and a pair of light slippers were on her feet.

About ten minutes afterwards, the body of a man was picked up and identified as that of C. Smith, of the stewards' staff.

On Saturday morning, as the weather was getting very rough and foggy, the ship was headed for Louisburg to replenish her bunkers.

The three bodies which she brought have been sent to Halifax. The first reports were that the ship had given up the search, but this is not correct. Captain J. Johnson is hopeful that with a clear atmosphere they will have more success recovering bodies.

The Dominion Coal Company gave prompt attention in coaling and it is expected the Montmagny will be on the scene of the wreck Wednesday night or by daylight Thursday, and she will continue the search for several days longer.

Captain Pouliot says the bodies have been carried by the strong current of the Gulf stream, far away from the scene of the foundering.

SECURING A DIOCESAN ENDOWMENT FUND.

Mr. R. Wilson-Smith, Chairman of the Executive Committee, was caught by the artist as he was telling the meeting of the success achieved in the early canvass. In the upper left hand corner is seen Mr. Edgar Judge, a member of the Committee, and below His Lordship, Bishop Farthing.

YOUR DUTY TO-MORROW

¶ To-morrow, it will be your pressing and particular duty to vote.

¶ This year, especially, the electors of Montreal ought to show that they appreciate the responsibility which goes with self-government.

¶ We have been given more nearly an adequate representation in the councils of the Province. Let us make that representation really representative of this city.

¶ Vote for the candidate whom you consider best fitted to give the Province a good and honest government.

¶ Vote as you think you ought to vote, not as the "bosses" tell you to vote.

¶ If enough people vote honestly and conscientiously, we need not worry about the conflicts and rivalries of political "machines."

SOME FINE TROUT ARE COMING IN

Another Gorgeous Specimen Caught in Lake Superior—A Fisherman's Song.

Still another trout reached The Star office yesterday morning to be entered in the Star's trout fishing competition. This a splendid specimen of the speckled variety was on view in the window throughout the day. A sixteen-year-old lad, Dominique Goulet, living at the Chateau Fishou, on Lake Superior, caught him with a worm-baited bamboo rod in the lake, near his home, on Saturday, at 11.30 a.m.

He makes a splendid entry in the over one and under three pound class.

Frank Hebert, a chum of the lucky fisherman, witnessed the capture from a point close by. Another fine beauty, almost as large, was also landed earlier in the day by W. E. Richardson, out for a day's fishing, in the same locality.

An enthusiastic fisherman has dedicated the following song (Air: "Mandalay") to the Laurentian Club, without the permission of Rudyard Kipling:

In the old Laurentian Mountains, looking
eastward o'er the lake,
There's a camp where men may gather
and forget the cares that break.
For the wind is in the fir-trees, and the
tumbling waters call:
"Come you here, you weary angler;
give yourself to Nature's thrall!"

Come you back the month of May,
Take to Hiawatha's way,
Don't you hear the paddles dipping
From la Peche to Souci's Bay?
Come you back the month of May,
While the sportive fishes play;
Heed, O heed, grim Time's fair warning;
Seize, O seize, your holiday!

Ship me north of Royal Mountain,
straight away to Laurentide,
Where the worst that I may meet with
can but nip my blomin' hide;
Let me trail on through the forest, let
me smoke my pipe content;
Slumber long disturbed by nothing but
the lone loon's loud lament.

Come you back the month of May,
Take to Hiawatha's way,
Don't you hear the paddles dipping
From la Peche to Souci's Bay?
Come you back the month of May,
While the sportive fishes play;
Heed, O heed, grim Time's fair warning;
Seize O seize, your holiday!

Keen Contest For King's Plate

Premier Race of Ontario Jockey Club Will be Exciting

Special to The Montreal Star:

Toronto, May 14.—For all that there is little preparation yet to be done the King's Plate race to be run on Saturday next, the opening day of the Ontario Jockey Club Spring meeting, has not lost its open aspect. Good as may be the work of some of the more prominent candidates, it is quickly parallelled by the next serious work of the others. The last two days in fact have seen platers working in time which a few years ago would have made success a certainty, but which now puts them only in the class of the possibilities. The record for the season was made on Saturday afternoon, when Mr. Davies Gold Bud did the mile and a quarter journey in 2.11 2-5, which beat by just a fifth of a second the performance of Amberite in the morning.

The influx of horses for the coming meeting is steady and will reach its greatest proportions within the next two or three days winding up with a special train or two from Baltimore where racing ends Wednesday.

OPENING THE BALL SEASON AT HAMILTON.

Special to The Montreal Star.

Hamilton, Ont., May 14.—If weather permits, the Hamilton team in the Canadian League will open the season with a game with Peterboro at Britannia Park this afternon. There will be a procession, headed by a band, before the game. Mayor Lees will throw the first ball, with Controller Allan at the bat, and Controller Gardner acting as catcher. James J. McCaffery, President of the Toronto Club, and some other baseball men, are expected to be on hand. Teed, who was with Berlin last year, has been selected to pitch the first game for Hamilton, the team lining up as follows:

Schaefer, 1b; Lee, rf; Keenan, 3b; Corns, lf; Killea, 2b; Farrell, cf; Fisher, c; Martin, ss, and Teed, p.

J. O'KANE.

Who will be with the Montreal lacrosse team again.

Sporting Views And Reviews

Just now, with an election on hand and the air full of talk about revenue and expenditure, it affords the directors of the M.A.A.A. pleasure to lay before their members and the general public their annual financial statement. The M.A.A.A. can point with pride to a surplus of more than thirteen thousand, which is equal to fourteen per cent. of its revenue. And in order to secure that surplus, no branch of the association's work, which is play, was pinched. Everything was done that the time and circumstances demanded, and yet there are more than thirteen thousand dollars on hand to be added to capital account. No wonder the executive of the M.A.A.A. can wear a smile that never comes off.

Newsy Lalonde has not dropped off the earth, as some imagined because of his silence. Instead of dropping off, he has gone part way around it, and is now in Vancouver, where he proposes to play lacrosse this summer for the purpose of separating Con Jones from some of his hard-earned money.

There is nothing that takes the starch out of a baseball team like rain. It makes them wilt like a political orator's collar on a hot day. In fact, ball players seem to dislike water as much as does a cat. Of course, as a beverage or for purposes of navigation, they consider water all right in its place, but when it comes to splashing around the diamond field, making a mortar box of the pitcher's stand, and giving to sliding greater ease than is desired, the ball players run for shelter. Showers may bring out Mayflowers, but they close up a ball match. Baseball is like the sunflower. To a clear sky it holds up its head, but when the sky lowers, it droops like a defeated candidate on the morning after polling day.

The three prominent citizens in "America" in training just now are Johnson, Taft and Roosevelt. Johnson does a little roadwork each morning, and is said to have dropped eight pounds. Both Taft and the Colonel are doing considerable roadwork, but Taft's clothes still fit him, and the Colonel does not seem to have dropped anything except a few ideas and some kind words that never die. Comparing the three, it perhaps may be said that the Colonel has the best wind, Taft the best manners, and Johnson the best appetite. With these three great characters on the public stage at the same time, it makes it somewhat bewildering for the people of "America." It is rather worse than the two-ring circus, for whose invention the late P. T. Barnum has been blamed.

Everybody that was ever young has played tag. In fact it is one of the most primitive of sports, being based on the elemental principle of some one catching somebody else. It is the earliest sport of childhood, and, like few other sports, it is played throughout life right down to the close, when the great enemy tags us all. What is life but a game of tag, varied to suit the age and circumstances of the players? We all try to tag success of some kind, and, although we now and then tag a dollar, it usually manages to slip away and we go chasing it again. In a few days "sweet charity" is going to invite the public to a game of tag, and it will be just as well for the public to put a little change aside for the sport, for they may as well understand that they are all going to get tagged.

The spring regatta of the Lachine Boating Club will be held on Saturday, June 8th, over the course, finishing in front of the club house at Dixie.

The list for entries closes May 24th, and already many members have signed.

Honorary Coach Smith has been appointed rowing captain and will take charge of the crews this season, which guarantees that the men will receive the best of coaching. The opening dance will be held on May 24th, at 8.30 p.m.

OUTREMONT GOLF CLUB FIXTURES

Schedule of Dates Decided Upon for This Season Opens on Saturday Next.

Play has been in full swing for several weeks at the Outremont Golf Club. With next Saturday the regular fixtures commence when the players will compete in the qualifying round for the Weir gold medal. Work at the new course at Caughnawaga is proceeding satisfactorily and Mr. Albert Murray the Club professional, puts in a good deal of his time superintending their laying out. It is not probable that they will be used this season.

The following are the fixtures decided upon by the Outremont Golf Club for the present season and issued to-day.—

May 18—Qualifying round for Weir gold medal.

May 24—Handicap foursomes, 18-hole medal play. Pewters presented by Messrs. Brian Waud and W. B. Scott.

Oct. 5.—Monthly handicap foursomes. Pewters presented by Messrs. John Lewis and James Mills.

Oct. 12.—One club competition.

Answer to Question.

Mack.—Dubuc came to Montreal from Buffalo two years ago.

Baseball Notes.

The thinning-out process commences to-day. Nattress, Irving and Ernie Lush will be the first to go.

The exhibition game between the Royals and the Richmonds, billed for yesterday, will be played on Wednesday.

Toronto is said to have paid $4,000 for Maxwell. Manager Lush reported to President Lichtenhein that the reason he had not been given a chance to bid for the player was because McGraw knew the Montreal Club would not pay the price the Toronto Club had offered.

Pitchers Bailey and Remneas have been turned over to Providence by Detroit.

Rock is leading the Providence Club with a batting average of 297.

Mrs. Taylor, wife of Luther "Dummy" Taylor, was operated on yesterday at the Royal Victoria Hospital for appendicitis. Mrs. Taylor was taken ill en route from Kansas City here on Saturday, and on her arrival was immediately taken to the Royal Victoria Hospital. She is reported as resting comfortably.

Have you ever noticed how many former Eastern League pitchers are doing business in the Southern League? Look 'em over: Chappelle, Chattanooga; Allison, Montgomery; Dessau, Atlanta; Kissinger, Memphis; Vowinkel, Chattanooga; Foxen, Birmingham; Atkins, Atlanta.

Special to The Montreal Star:

Toronto, May 14. — Manager Jack Dunn of the Orioles announced last night that he had signed Catcher Bill Bergen, recently of the Brooklyn Nations, who was released a few days ago by the Newark Club. Bergen will report here to-morrow.

WELL-KNOWN LACROSSE MAN IS DEAD.

Mr. James Irving, of Toronto, is Gone.

Death after two weeks' illness has removed a formerly well-known figure form the athletic field in the person of Mr. Jos. Irving, of Toronto.

He was but 48 years of age, and in his youth enjoyed great success as an athlete. He is still remembered as the star fielder of the Toronto Lacrosse Club of 1885, when this old organization was the all-star aggregation. He was also a crack sprinter, curler, and bowler, in fact, was always the first in the many games in which he participated.

Mr. Jos. Irving was well known to the wholesale grocery trade in Canada, as he for the past ten years very successfully filled the position of manager at Toronto for Wm. H. Dunn Co., the Canadian agents for Borden's Condensed Milk Co. Mr. Irving made periodical trips calling on the wholesale grocery trade from Coast to Coast. He leaves a wife. Three brothers survive—W. H. and G. J., of Toronto, and John, of Montreal. The funeral took place from his late residence in Toronto on Saturday last, and was very largely attended.

SOCCER PRACTICE.

The Fairmount Soccer Football Club's practice, announced for last evening will be held this evening at 6.30 at Delorimier Park.

APPLICATIONS FOR STABLING FOR BLUE BONNETS

Everything is Ready for the Reception of Horses for Spring Meeting.

That good thoroughbreds are now being raised in the Province of Quebec is best demonstrated by the race run by Lidesta at Pimlico on Saturday. This colt is owned by C. S. Campbell who has a liberal entry in some of the stakes to be run for at the spring meeting of the Montreal Jockey Club from Saturday June 1 to Saturday June 8th inclusive. Lidesta showed the way in this event at Baltimore for the greater part of the journey leading such horses as Monocacy owned by H. P. Whitney who has Monocacy named in the Kindergarten Stakes.

Lidesta is sired by Dublin out of the mare Destitute and will be heard from later in the season as Saturday's race was its second start. The books for the Spring meeting have been mailed to the majority of the owners and the local horsemen are more than well pleased with it. The announcement contained in it stating that the added money in the King's Plate race this fall will be increased to $1500 over $1200 of last season has met with general appreciation among the breeders of such horses.

The applications for stabling are still coming in and will right up until race day as there are always some stragglers to be heard from at the last minute. The quality of the horses to race here will be the equal of those of last season which was a record one for the local club. The stakes have filled better and the overnight events are sure to attract larger fields particularly the events for Province and Canadian owned horses.

The plant at Blue Bonnets is now ready for the reception of the horses and word has been received that several strings will be shipped direct here from Baltimore so that the course each morning will present a busy sight being occasioned by the trainers keeping their charges on edge. A meeting of the Canadian Racing Associations was held last week at which a number of applications for license for new comers to the Canadian tracks were made. These will all race at Montreal thus adding a renewed interest to the events. One of the new comers is J. C. Palmer of Toronto, who will have three steeplechasers which will be hard to beat in Huck Parade and Be Thankful.

HARRY LEWIS BEATEN.

London, May 14.—At a boxing match at Leicester last evening, Harry Lewis, of America, the welterweight champion, was beaten by "Private" Palmer, of Leicester, after hurricane fighting.

Toronto, May 13.—Rosedale, ex-champions of Canada, with their best line-up, were all out on Saturday in a game with Upper Canada College on the latter's grounds for 28 runs. U. C. C. batted first, scoring 55, including Ingrams 19.

The rain came on and Rosedale's wickets fell fast, seven going down for ducks, most on the first ball. Captain Wookey made 12 of the 28 runs scored. He also bowled six U. C. C. boys for 16 runs.

PRIZES FOR THE BIGGEST TROUT— SOME FINE FISH RECEIVED

The Montreal Star has decided to hold another trout competition for speckled trout this year, which is to be extended over two months, it being argued that as few people get vacations till the month of June, that month and Dominion Day should be taken in, so that the competition will be open this year from May 1st till July 5th, for trout brought to the Star Office with a statement of the conditions under which it was caught.

(a) Name of the fisherman.
(b) Place of capture.
(c) Witnesses of capture, if any—apart from fisherman.
(d) Whether caught with bait or fly.

The prizes will be as fiolows:

CLASS I.—TROUT OVER 3 LBS.

First Prize—Fifteen Dollars.
Second Prize—A first class trout rod.
Third Prize—A first class reel.

CLASS II.—TROUT OF 1 LB. OR OVER AND UNDER 3 LBS.

First Prize—Ten Dollars.
Second Prize—A first class silk line.
Third Prize—A first class fish basket.

CLASS III.—TROUT UNDER 1 LB.

First Prize—Five Dollars.
Second Prize—A first class landing net.
Third Prize—A silver and glass article—generally known as "The Bait Box."

Many people seemed to be under the impression last year that it was little use bringing in fish under one pound, hence the competition in Class III. was less lively than in any of the others, and the prizes were won very easily.

All competitors are invited to bring their fish to The Star Office for exhibition in The Star window.

Stars—St. Laurent College Game Postponed.

The opening of the baseball season at St. Laurent College, which was to have taken place on May 12th, with the Stars and the Collegians meeting for the first time this season, was called off owing to the wet condition of the College grounds.

The two teams will play next Sunday, and with the additional practice that both clubs will have this week, a fast game should be the result.

Manager Dupras the Collegians able leader is full of confidence on the outcome of this seasons games, and figures the Independent Champions will have to go the limit to stave off defeat. The Stars will practice Tuesday evening, and possibly again on Thursday.

Y. M. C. A. Baseball Opens.

The Y. M. C. A. Baseball League opened their season on Saturday with a game between the Antlers and Deltas the latter team winning. Runs were frequent, the score mounting to 26 to 21. The teams were as follows:

Deltas.		Antlers.
Atchison	catcher	Jacobs
Boyd	1st base	Ford
Boyd	pitcher	Ford
Herzberg	1st base	Turner
Mitchell	2nd base	Waite
Taylor	3rd base	Brown

Accountants Checked Betters.

On Saturday afternoon the P. S. Ross and Sons and J. C. McLaren Belting Company, Limited, ball teams met in their annual encounter. At the commencement things were a little in favor of the Belters, but before the fourth innings the Accountants were able to size up the situation and apply a check. In addition to checking the Belters, the Accountants reduced their credit balance so that by the end of the ninth inning the Belters retired with a score of 16-11 against them.

The game was brimful of the finer points of baseball and there were many excellent plays.

The teams:

P. S. Ross & Sons.		J. C. McLaren Belting Co., Ltd.
Howe, c.		Powter, 2nd b.
Duhamel, st b.		A. Green, c.f.
Smith, p.		Green, ss.
Brophy, ss.		C. Watt, 3rd b.
Walsh, c.f.		K. Forbes, l.f.
Orr, 3rd b.		S. Morris, 1st b.
Meloche, 2nd b.		R. Johnson, p.
Proctor, r.f.		D. Johnson, c.
Hawthorne, l.f.		J. Fowler, r.f.

"Come Backs" Come Back.

In a strenuous game of baseball on Saturday, the Come Back baseball team defeated the Montreal Steel Works by a score of 9 to 8. Steel Works used three pitchers, Mahoney, Taylor and Odgers, but Shipton, for Come Backs, pitched the whole game, and was given excellent support. The features of the game were two-base hits by J. Kenny, T. Powers, J. Kelly, and a couple more, while the fielding sensation was a pretty catch of a long fly by S. Stanford. The winners had many old veterans out, such as J. Duncan, W. Dixon, T. Powers, J. Kelly and J. Sullivan. Poke Leahy, on the coaching lines was worth the time of going to see, his coaching was superb. A return game will likely be played next Saturday. The line-up was:

P. Beaudoin, Shipton, Duncan, J. Kelly, J. Kenny, T. Powers, S. Stanford, W. Currie, W. Dixon, with P. Leahy on the coaching lines.

Junior Harvards Won Their Opening Game.

In a five-inning game played on Lafontain Park Sunday the Junior Harvards won easily from St. Louis team by a score of 17 to 9. The feature of the game was the hitting of Rogers and Burchell and the work of the battery, Murphy and McSims.

Stars Will Play in Plattsburg.

When the Star Baseball Club will leave for Barre, Vt., on May 24th, on their first trip of this season to the States, where they have already established a great reputation, the team will also visit Plattsburg, N. Y., the Independent Champions playing the strong Plattsburg Barracks nine on Sunday, May 26th.

This will make three games that the Stars will play, the first two being played in Barre on May 24th and 25th and the third game in Plattsburg on the 26th, as above stated.

Chaplain Chouinard of the Plattsburg Barracks nine is pleased that the game has been closed with the Stars, as the six to five tennings game last year played between the two clubs, was one of the fastest games witnessed during the season in Plattsburg. The Stars are in hopes of capturing two out of the three games on this coming trip across the border.

LOCOMOTIVE FOOTBALL.

The seniors of the Montreal Locomotive Football Club have been training hard and fast for their first game next Saturday with the Sons of Scotland and they will be in good shape when the whistle blows and S. O. S. will have to go hard all the way if they wish to uphold their reputation as the Locos have their full string of the last season's players.

The Loco. Juniors were out on Saturday for their first game in the 3rd league of the P. O. F. and gave a good account of themselves by beating Rosemount Juniors by 6 goals to nil, showing that they are a team to be feared in their league as well as the seniors are in their league.

IT WAS DECIDED TO HOLD THE QUEBEC CUP PLAY-OFF ON THE GRAND TRUNK GROUNDS TO-MORROW

BIG OARSMEN REGATTAS FOR DOMINION DAY

Lachine and Ottawa Boat Clubs are Trying to Arrange This.

There is a new scheme on foot to boom rowing in this part of the country, and the Lachine Boating and Canoeing Club and the Ottawa Boat Club are mixed up in it.

The idea is that in addition to the Canadian Henley, there should be some other regattas of importance, particularly in the East to which it would be worth while for oarsmen to go and show their prowess, with inducements in the way of medals, that would be worth going some little distance to capture.

Therefore an idea is now being worked out which, if successful, would mean that there will be a Dominion Day regatta held alternately at Ottawa and at Lachine, a regatta which, although it will not carry with it Dominion championships will act as a sort of a trial for the Canadian Henley, and will yet carry with it sufficient prestige to make it worth the while of all ambitious oarsmen and scullers to participate, because the honors won will be the next in importance to those to be won at Ste. Catharines, or wherever the Canadian Henley races may be rowed off in the future.

Mr. Harvey Pulford, of Ottawa, and Mr. S. F. M. Smith, formerly of the Argonauts, and now a voluntary coach with Lachine, are said to be the principal moving spirits in the plan.

THE PASSING OF ORIANA.

To Commander Stewart, Chatham, N.B.:

Will you please accept the following lines in memory of your yacht Oriana, and as a slight tribute to your hospitality and the pleasant hours I have spent with you on deck.

IK. INKERMAN.

I.

The winds shall swell her snow-white
sails no more,
As proudly through the waves she
swiftly flies;
Her idle voyaging on the sea is o'er,
And there abandoned on the beach
she lies,
While loud the sobbing tide complains
along the shore—
"The Oriana sweeps the rolling deep
no more"

II.

How oft beside that broken wheel,
when morn
Was at the breaking point, you
watched the foam
Flung from her prow like snow, as
swiftly borne
By tide and storm she ploughed her
course for home,
Sate riding out the gale when other
sails were torn
And other barks at anchor tossed like
things forlorn.

III.

Now starward pointing, while we drift
at night,
I dream, her waving mast across the
sea
Invites the sleeping breeze to aid her
flight,
To fleck with foam the water on
her lee,
And fill the drooping sail till, bounding through the night,
The startled wild fowl watch her pass,
a streak of white.

IV.

But gales shall swell her snow-white
sails no more,
At rest her hulk upon the shingle
lies;
Her drooping spar the freshening
breeze before
Shall ne'er again o'er billows fall
and rise;
For loud the moaning tide complains
along the shore—
"The Oriana sweeps the rolling deep
no more"

HIAWATHA CANOE CLUB.

The annual meeting of the Hiawatha Canoe Club was held in the M.A.A.A. club rooms recently, and was well attended. The club, with an increased membership, contemplate making some extensive improvements to their island.

The following were elected to office for the coming year: Hon. president, W. H. R. Denman; president, Sydney M. Ward; vice-president, Reginald H. Piper; captain, D. E. Crutchlow; secretary-treasurer, J. E. Ward; assistant secretary, W. J. McLaughlin; committee, James Douglas, E. Stuart Taylor.

George Bonhag, of New York, the champion long distance runner, and candidate as member of the team which will represent America at the Olympic Games at Stockholm, may drop out because of the death last night of his father, William Bonhag.

An Easy Trip Through Yellowstone Park.

What can wipe out the weariness of a hard winter like a good vacation trip? And nowhere else in all the world are there so many curious and awe-inspiring sights as in Yellowstone National Park.

The journey to the entrance itself via the Burlington Route is full of pleasure and once inside, you are in a world of wonders. Your tour of the Park may be made by stage-coach with stops at perfectly appointed hotels, or if you care for tent life you can spend a glorious week in camping out. Day after day is filled with eye-delighting geysers, mountain vistas that stretch to heaven, rocks the color of a sunset, and strange tumbling rivers that plunge thousands of feet in thundering falls. You will come home made over in mind and body.

I can make your trip all the more enjoyable if you will write me asking any questions you may want to now. I'm employed by the Burlington Route to look after your interests and it's my job to take as many of the little details off your mind as possible. I'll send you our beautiful illustrated folders, I'll tell you about special excursion rates and when is the best time to go. I'll buy and deliver your railroad and sleeper tickets and I'll fix everything so you won't have a worry during the whole trip. Just write me—a postal will do. W. J. O'Meara, Eastern Passenger Agent, C. B. & Q. R. R., 1184 Broadway, New York City. J. A. Zorick, Can. Pass. Agent, C. B. & Q.

The usual P.Q.F.A. meeting held last night was of more than ordinary importance. The replay Quebec Cup, Toronto game and Caledonian cup, dealt with in turn, took up quite a considerable time. President Fred Davies presided, the members present being: Frank Calder, J. Chalmers, A. Freedman, W. D. Moore, A. Payne, A. Lee, N. Wilson, H. Craig Campbell, W. G. Hay and George Collyer, secretary.

A letter was read from the Caledonian Society asking that the old cup be replayed for this year, the final to take place at their annual games, June 22nd. This was agreed to and the first division will be asked to start the first round, mid-week, June 5th, semi-final, June 15th final, as stated June 22nd. With the exception of the final, these fixtures will not interfere with league games. As the first league refused point-blank to allow members of the P.Q.F.A. board on their grounds in a complementary way, the motion was passed that badges be provided the governing body, the presentation of which will authoritatively entitle them admission. No friction is wanted or expected, it is deemed only a matter of courtesey and the badge will be the badge of authority. Books giving the constitutions of the P.Q.F.A., the three Divisions of the League and the schedules, are in the printers hands, to be ready for sale in a day or two. A communication from the Referees' Association was read asking the board to re-consider their decision that a referee could be a member of a club. The protest was not entertained.

The replay between Sons of England and Royal Rovers was ordered to take place Wednesday next, on the Grand Trunk Ground, kick-off 5.30, half an hour each way. Admission 10 cents. In the event of a draw at full time, corner kicks will decide the winner. To remove the rumor that this is the home ground of the Sons of England, a Grand Trunk representative was present and stated that they had made no arrangements with the Sons of England whatever for the season. Fleming of Locos suspension will expire May 25th, on which day he can represent his club. The big thing of the night took place when the team to play at Toronto, May 24th was picked. It was confidently reckoned to be the strongest team to represent Montreal, and the following are to hold themselves in readiness: Taylor, Sons of Scotland, goal; Sheldon, C.P.R. and Dorman, Sons of Scotland, backs; Crossans, Sons of Scotland, Bingham, Sons of England and Saunders, Royal Rovers, halves; Campbell, Fairmount, Bennett, Royal Rovers, Macfarlane, Locos, Anderson, Sons of Scotland and Menlove, Royal Rovers, forwards. Reserves, Soye, Neighbor, Crichton, Fleming (G.T.R.) and Rimmer, rGand Trunk's colors, black and white. In reference to Saturday's Quebec Cup final, Mr. Fred Davies, of two subscribtions White Star Company and Stonewall Jackson Cigar Company, five dollars each.

EVERYTHING READY FOR THE OPENING OF DELORIMIER

Horses from Kansas City, San Francisco, New Orleans, Latonia and Toronto.

The directors of the reorganized Montreal Driving Club, which is now composed of some of the most prominent business and financial men of the city feel confident that Delorimier track after this present meeting on May 18th-25th, will take its place as one of the foremost and best-conducted tracks in Canada. Their efforts to provide the best racing meet that Delorimier ever had have borne fruit, and there are now stabled at the track and in stables contiguous to the park about 200 horses.

Among these are the best racers ever seen on a Canadian half mile track, and they will provide better contests than ever seen at Delorimier before. This state of affairs was principally brought about owing to the untiring efforts of Mr. A. Scott Ives, honorary secretary. The management have provided, in their scheme for making Delorimier a popular race track, various improvements in the ground and lay-out of the buildings. An immense pavilion 135 feet by 48 feet wide has been erected just north of the grandstand. The grandstand itself has been altered and thoroughly freshened up with paint and varnish. Larger accommodation has been provided for automobiles and carriages just south of the grandstand.

The new management have obtained "Wash" Norvell, who is well known in the United States and Canada as an alert and capable racing official to be presiding judge. Mr. Norvell, who has been connected with racing affairs for thirty years, has filled with fidelity positions on race tracks at Chicago, St. Louis, Kansas City, San Francisco, New Orleans, Latonia and Toronto. Horsemen have congratulated the management on their choice of Mr. Norvell.

Mr. Norvell is expected to arrive in town from Pimlico, on Wednesday. Mr. James Milton, starter, is already in the city.

The management have found it necessary to erect a large tent for the accommodation of horses who will race at the meeting which opens on Saturday next. The one hundred and seventy-five stalls are already filled and about ten stables in the vicinity of the track. George Ridge arrived today from Chicago with a string. He has Elizabeth, Garden of Roses, Helen Gow, Judge Snook, Senator Stubble, Nonkohota, and Cristina. The Ponce Brothers and Little Manon. Seven more horses will arrive early this week from Gloversville, N.Y.

The entire list of stockholders connected with the park shows eminent men well known in the business and legal world. They are: Sir Rodolphe Forget, Hon. J. M. Wilson, Hon. Geo. R. Smith, J. L. Perron, K.C.; Louis Joseph Tarte, W. J. White, K.C.; L. A. Wilson, H. A. Dorsey, Paul Galibert, J. M. Fortier, C. M. Hart, Henry Timmins, Noah Timmins, Duncan McMartin, W. W. Butler, Duncan McDonald, Clarence F. Smith, Frank J. Gallagher, Aubrey Spencer, W. S. Weldon, Charles Donohue, W. Grant Morden, O. S. Perrault, Kenneth Dawes, Clement Robillard, M.L.A.; L. T. Marchbal, K.C.; H. A. Ekers, W. W. Carruthers, F. H. Markey, K.C.; and James Quinn.

Canadian League Umpires Come

Received Instructions for Opening Games To-morrow.

Special to The Montreal Star:

Hamilton, Ont., May 14.—Stanley Yerkes, Emil Brichten, Chick Johnson and Bill Pearson, the four Canadian League umpires, arrived in Hamilton Saturday, reporting to President Fitzgerald and Secretary Robinson. The league president gave the arbiters their final instructions and assigned them for to-morrow's opening games as follows:

St. Thomas, Brichten; London, Pearson; Brantford, Johnson; Hamilton, Yerkes.

From all appearances President Fitzgerald has rounded up an exceptionally strong staff of umpires. He informed the men that they would be backed up in every way, and that nothing but good clean ball would be tolerated.

Americus Took Two Straight.

Boston, May 14. — Americus, of Baltimore, defeated Cyclone Burns, of Boston, in two straight falls in a wrestling match here last night, Burns being injured by being thrown on his head in the last fall.

FOUR ROYALS ARE BATTING WELL ABOVE THE .300 MARK—SOME FIGURES ON BIG LEAGUE HITTERS

Yesterday was an off day at the ball yard, and it was fortunate for baseball of any kind was an impossibility.

According to reliable and painfully prepared statistics the Royals are hitting the pill with vigor this season. Four of the regulars, Gandil, Hanford, Yeager and Hartman, are hitting .333 or better.

Major league batting record for the first twenty-one games shows that Meyers, New York's Indian catcher, is leading the National league with a mark of .460 in eighteen games, while McInnes, Connie Mack's diminutive first baseman, is the leading hitter in the American with the fine average of .424 for seventeen games.

Veterans Doing Well.

This is a great year for the veterans with the club. Hans Wagner is sailing along with an average of .333, Mike Donlin's mark is .370, Manager Dooin, of Philadelphia, is hitting at a .353 clip; Hoblitzel, of Cincinnati has .358 to his credit and Larry Doyle, captain of the Giants, is on a par with Wagner.

Larry Lajoie is showing the way for Cobb and Jackson, his mark being .389 as compared with Cobb's .366 and Jackson's .290. Eddie Collins, of the Champion Athletics has a mark of .354, while Home Run Baker is hitting them out at a .304 clip.

One of the hitting disappointments of the season is Birdie Cree, of the Highlanders, who has a mark of .250. This is the first time he has hit below .300 in several years.

Former Royals Shine.

Two former Royals are hitting the pill at a great rate. Paul Krichell with the St. Louis Browns has an average of .326 for thirteen games, while Lou Evans, of the St. Louis Cardinals, can boast of .327 in the same number of games.

Why not play whether it rains or not?

If the weather gets much more wintry the outfielders may require skiis to wade through the snow drifts.

Gibson, of Pittsburg, and Louden, of Detroit, are both under the .200 mark, while Johnny Dubuc has a mark of .250 for six games.

Among the famous hitters of last year, who are down in the averages so far this season are Luderus, of Philadelphia; Roy Miller, of Boston; Devore, of the Giants; and Chase, of New York.

McGinnity has a Grouch.

Manager McGinnity, of Newark, alleges that during the recent series in Buffalo, several of Stallings' pitchers tried deliberately to "bean" his best batters. He has sent a formal complaint to President Barrows.

So far as any available records show, the greatest feat ever accomplished in a league baseball game is that of William Bettenus, who set a record of 18 total bases in a contest between the Buffalo and Wilkes-Barre clubs of the old Eastern league. Four home runs and a double were his contribution to that game's clubbing, and his total of sacks is one better than that of any other player known to fame.

The poor showing of Louden and Perry with Detroit is a bad blow to the prestige of the International League. Both were stars in this organization last year.

Jack Dunn is not satisfied with his Baltimore team and is taking drastic steps to improve it. He has suspended Vickers, one of his best pitchers last season, and released Catcher Kilhullon. He is trying to get new blood from Brooklyn and Philadelphia.

M.A.A.A. FINANCIAL STATEMENT BEST EVER

Skating Was Lucrative But Hockey and Football Proved Costly Last Year.

The annual meeting of the Montreal Amateur Athletic Association is to be held on the 20th of this month. Preparatory to the meeting the financial statement of the association was mailed to the members to-day, and some interesting comparisons can be made from it.

It will be seen that the Toboggan and Skating Club was the most lucrative of the affiliated organizations, having returned a profit of over five thousand dollars. Professional lacrosse had come out ahead by almost two thousand. Of those showing a deficit the Football Club proves to be the costliest, being behind nearly eight hundred dollars.

Altogether there was added to the capital account $13,836.23, the present capital of the association being $216,205.26.

On the whole the statement is the best in the history of the association, and marks steady progress.

Briefly, the statement is as follows:

Revenue and Expenditure.

	Rev.	Expend.
Association	$60,016	$52,357
Lacrosse Club	14,268	12,284
Snowshoe Club	61	401
Toboggan and Skating Club	10,995	5,420
Football Club	2,808	3,579
Bicycle Club		7
Cricket Club	35	404
Tennis Club	18	28
Hockey Club	922	1,605
Total revenue and gain	$89,137	
Total exp. and loss		$76,096
Excess of revenue added to capital		$13,041

PRESIDENT TAFT GROWS SARCASTIC OVER ROOSEVELT

"His Job" Too Big for Three Terms, Why Not Give Him Four or Five?

Steubenville, Ohio, May 12. — President Taft's first day of his final campaign swing through Ohio, which came to an end with a speech here last night, was marked by the most pronounced verbal assaults upon Theodore Roosevelt to which Mr. Taft so far has given public utterance. One of the attacks which raised a laugh, delivered at Dennison, ran like this:

He says the reason the American people are going to elect him is because he is necessary for the job. That is the description he gives. Well, I hope the American people will not think that he is necessary for the job. I want to call your attention to what the job is which he proposes. It is the millenium that he is going to bring about when he gets into office. All bosses are going to disappear, politicians are going to be fewer, and he is going to have a finger in every community in every state, in every county, and everyone is going to heaven.

"If that be true the millenium is coming and that is the job he is to do, it is going to take longer than four years. I beg of you to ask him when he comes here whether he would take a fourth term. Ask him whether he is going to take a fifth term and why he should not continue in office during his life."

Suppose He Was Translated?

Another sally that brought a response was much like that delivered at Cambridge. Speaking there of the job Mr. Roosevelt said the people wanted him to do, President Taft asked: "Suppose Mr. Roosevelt were wafted to the skies in a chariot like the prophet of old and were to disappear from sight, how do you suppose this country would get along anyhow?

"My friends, it is a dangerous thing to put in the White House a man for the third term with his views of the constitution and with his views of himself. In every announcement he makes you would think he was the whole show and that there wasn't anybody else in the country. It's I, I, I, and therefore I say that if you feel that vanity and that egotism by giving him something that Washington did not get, and that Jefferson did not get and Jackson did not get, and Grant could not get, you are going to put him in office with a sense of power and with a view of constitutional restriction that will be dangerous to this country."

Mr. Taft compared Roosevelt and Lincoln with a smile. "Mr. Roosevelt likens himself to Abraham Lincoln more and resembles him less than any man in the history of this country," he remarked.

Wants an Indictment.

Mr. Taft called upon the Roosevelt backers to find one indictment if he had done wrong, asked for more facts and less "lurid headlines and lung power" and dubbed the campaign the former President is making against him "accusatory and libellous."

"Let Mr. Roosevelt point out what thing I have done or failed to do under the influence of anybody, and that I will say that he has made a point, but while he continues merely in general denunciation to say that the bosses are all for me and all against him, I say he is conducting a campaign that is not worthy the man who has had the veneration, the respect and the honor put upon him by the American people."

ISMAY FUND FOR WHITE STAR SEAMEN AND WIDOWS

London Hears Big Endowment Fund to be Provided by J. Bruce Ismay.

London, May 14. — The London papers publish a statement made by the Liverpool Journal of Commerce that Mr. J. Bruce Ismay intends to provide an endowment fund for pensions for disabled seamen of all classes connected with the White Star Line, and for their widows, as a thank-offering and a memorial to the heroism of the Titanic's crew. The fund, it is further said, will probably amount to $100,000.

WOMEN MAY DETERMINE ISSUE IN CALIFORNIA.

San Francisco, May 14.—Women of California were given their first opportunity to-day to express their choice for the presidential nomination. As a consequence, the presidential primary vote promised at the opening of the polls, to be the heaviest the state has known.

The campaign, which ended last night with the Roosevelt and LaFollette forces making a final effort to swing San Farncisco's vote, was bitterly contested. Senator LaFollette, aided by his wife and others, toured the state, charging that Colonel Roosevelt had failed to give him a "square deal." Taft speakers hurled the same charge against Roosevelt. Close on the heels of LaFollette followed Governor Hiram Johnson, exerting his influence in behalf of Roosevelt. He was aided by former Senator Beveridge of Indiana, Gifford Pinchott, and others.

The Republican campaign proved of such interest that the efforts made by the Democratic candidates did not figure conspicuously. The contest was between Champ Clark and Woodrow Wilson almost exclusively, no other candidate making an organized fight for the California preference.

Campaign managers of every candidate claimed a victory.

ROOSEVELT AND TAFT DIVIDE MARYLAND'S VOTE.

Baltimore, Md., May 14.—An agreement was reached early this morning at a conference between the leaders of the Taft and Roosevelt forces to split even on Maryland's delegation to the Republican National Convention. Each side will have two delegates-at-large and six district delegates—16 in all.

The delegation will be instructed to vote for Colonel Roosevelt for President as long as he has any possible chance of receiving the nomination. At the State convention to-day a Roosevelt man will be chosen temporary chairman and a Taft man permanent chairman.

TAFT WINS DELEGATES FROM WYOMING DISTRICT.

Chayenne, Wyoming, May 14.—The Republican and Democratic State Conventions yesterday selected delegates to the Chicago and Baltimore National Conventions. Twelve of the thirteen county delegations to the Republican convention favored Taft instructions. B. B. Brooks, temporary chairman, eulogized the Taft administration.

The opening of the Democratic convention was harmonious, but a split occurred during a recess when a subcommittee of five Clark supporters was named to draft resolutions. Adherents of Wilson, announced they would oppose the resolutions.

"I WELCOME THIS TRIAL," DECLARES CLARENCE DARROW

McNamara Counsel Insists That His Vindication on Bribery Charges is Certain.

Special to The Montreal Star:

Los Angeles, Cal., May 14.—With both the defence and prosecution eager to begin the battle which will mean the establishment of the innocence or guilt of Attorney Clarence S. Darrow, of Chicago, arrested several weeks ago for the alleged bribery of jurors in the McNamara case, there is only a slight chance that the trial will be postponed when it is called in Superior Court, Judge Geo. H. Hutton's Court, on Wednesday morning.

Mr. Earl Rogers, chief of counsel for the defence, is suffering from an affection of the throat, and may be compelled to ask a postponement.

Mr. Rogers stated this morning he was ready to go on with the case on Wednesday, but at great risk and discomfort. He thought it would be better to delay the case then, rather than after it had commenced, when an adjournment would mean locking the jury up.

Mr. Darrow, when asked concerning a possible postponement, stated this morning:

"I hope Mr. Rogers' throat trouble will speedily right itself. I am particularly anxious to enter the fray. They have no evidence upon which to base the charges against me, and time will prove it. We have been ready to go to trial for several days past.

"I welcome the commencement of the trial, for it will mean my vindication. Then, too, I am anxious to get home to Chicago, among my friends."

The taking of testimony in the federal action for the dissolution of the American Sugar Refining Company was commenced at New York to-day before Special Examiner Wilson B. Bryce.

LAZY LIVER, BILIOUSNESS, SICK HEADACHE, COATED TONGUE OR SOUR, GASSY STOMACH

You men and women who somehow can't get feeling right, who have an almost daily headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel worn out.

Are you keeping clean inside with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills, or castor oil? This is important!

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels.

A Cascaret to-night will straighten you out by morning—a 10-cent box will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

ZIMMERKNIT

"—finer than silk—"

YOU can tell by the feel of a Zimmerknit garment that something more than ordinary care has gone into its making.

Underwear discomfort is banished. Zimmerknit always fits you precisely, yet with ease. It never sags or bulges. A distinct style is made to fit every figure.

Only the finest of selected yarns are used in knitting. Each fabric is smooth, soft and elastic. It keeps its shape and wears as only a material of the finest quality will wear.

Ask your dealer to show you Zimmerknit. Compare it with other kinds of underwear. Note the thorough care shown in the finish of the seams and the fine workmanship on the facings and button holes. Not a detail is skimped.

All the staple colors in sizes for men and boys. Prices are the same as for ordinary underwear—50c., 75c. and $1.00.

And It's Ho! for COLORADO on Every Hand

Of course you are going to Colorado. It is a vacation landslide this year. Everybody knows Colorado. Everybody loves it. Everybody can afford it, now. So the question is not whether to go, but merely how to get there.

There are five routes to Colorado, but if you want the oldest traveled route you take the

UNION PACIFIC

The Hundred-Million-Dollar Road of Luxury

It doesn't cost you a cent more than any other way, and when you go to this glorious Colorado you certainly want to go RIGHT.

These powerful Union Pacific engines roll you along over ninety-pound steel rails so smoothly you never know when you start or stop. The roadbed, ballasted with dustless Sherman gravel, makes your bed as cool and fresh and pure of air as a sleeping porch. Automatic Electric Block Safety Signals guard you all the way. The children can play as safely in this great vestibuled train as in a nursery. Your dinners are served as in a Broadway cafe. Your observation car is like an open conservatory where the picture of America's beauty is constantly unrolled before you.

Of course you want to go to Colorado this year, and of course you want to take the Standard Road of the West, when it costs no more.

CAPT. LUGAR HAS SUGGESTIONS FOR MARINE SAFETY

Would Have Patrol Ship, Searchlights and Drills for Passengers and Crews.

Special to The Montreal Star.

Halifax, N.S., May 14.—Capt. W. R. Lugar, who has been holding investigations in wrecks in the Maritime Provinces, in discussing the Titanic disaster, makes the following suggestions to endeavor to prevent a similar disaster:

1. An international patrol vessel, equipped with the latest wireless should be stationed in the Atlantic near the south-eastern edge of limits of icebergs, to warn passenger or other steamers of bergs or ice dangerous to navigation.

2. A searchlight should be carried by all passenger steamers and operated as near the vessel's bows as practicable from sunset to sunrise, between 52 deg. and 60 deg. west longitude from the 1st of April to the end of August.

3. A more strict enforcement of Article 18 of the International Rules and Regulations for Navigators.

4. Annual testing of eyesight of all watch officers on passenger steamers.

5. Lookout men to be supplied with good binoculars for night work.

6. Lifeboats and rafts to accommodate at least ten per cent. in excess of the souls on board.

7. Boat and raft drill to be carried out before leaving port, the whole crew to be present under the inspection of the commander and a competent officer appointed by the Government. A certificate to be supplied by this officer before the vessel is allowed to leave port, stating that all boats and rafts are fully equipped and provisioned with water and biscuit to sustain lives of crew and passengers for at least seventy-two hours.

8. An increase of pay for leading seamen or those that can show their proficiency in handling boats.

9. All passenger steamers to carry two wireless operators.

10. All passengers to be instructed in or shown the right method of wearing the cork life jacket.

MONTMAGNY GOING TO LOUISBURG FOR COAL.

100 PERSONS CURED OF ECZEMA

Within the past few months over 100 persons have written to the Zam-Buk Co. reporting their cure of eczema, rashes and skin diseases by Zam-Buk!

Does this not prove that Zam-Buk is something different?

Don't you need it in your household?

Miss Mary McCuaig, 913 St. Catherine Street W., Montreal, says: "I do not know words powerful enough to express my gratitude to Zam-Buk. Eczema broke out on my scalp and hands. The irritation of the scalp was so bad that I could not sleep or rest, and I feared I should have to have my hair cut off. On my hands the disease appeared in sore patches, the burning and itching of which drove me many times to spells of weeping. I went to the dispensary, but they referred me to a skin specialist, who said that mine was as bad a case of eczema as he had seen. He gave me some ointment, and then a second lot, but neither gave me any relief.

"I was in a very bad condition when Zam-Buk was introduced, but I soon found out that it was different from all the other remedies. I persevered with the Zam-Buk treatment, and each box did me more and more good. The irritation and smarting soon disappeared, then the sores began to heal, fresh healthy skin grew over the parts which had been sore, and I am now quite free from all traces of eczema, both on head and hands. My hair has also been saved."

Zam-Buk is also a sure cure for piles, eruptions, blood-poisons, cuts, burns and all skin injuries. 50c. all druggists and stores, or Zam-Buk Co., Toronto, for price. Refuse substitutes.

"A Hammock is all right for an afternoon's nap—But for a good night's sleep you want a real Bed."

No one would think of sleeping every night in a rope hammock. Yet many people do sleep on *woven-wire hammocks*—far from a comfort standpoint, the old-fashioned, sagging, woven-wire spring bed is really much like a hammock.

A few nights spent upon a

Banner Spiral Spring Bed

will reveal to you an unexpected difference. For if you've been sleeping all your life on ordinary springs you cannot know what real bed comfort is.

Not even the most expensive, English upholstered box springs can give you more actual comfort than a Banner. And the Banner is warranted by a strong guarantee to *retain* for a life time its spring strength.

CLEARANCE OF A PURCHASE OF

85c TO $1.50 BOYS' WASH SUITS, 79c.

When the little boy is building castles in the sand, or sailing his boat, or romping up hill and down dale, his mother wishes him most of all to be cool and comfortably dressed. These smart Wash Suits, just received from New York, are just what she has been looking for.

They are in plain colors of good wearing chambray, or in excellent patterned prints and percales, that are sturdy enough to withstand a small boy's ill-usage.

Some of them are in Buster styles, while others are in Russian, all of which fit from 2½ to 7 years. Then there are the ever popular sailor suits to fit 5 to 10 years.

You will be pleased and surprised when you discover that they are much better suits than you expected to be able to purchase for the price, all of them are neatly made, and trimmed in splendid taste.

They are in regular 85c, $1.00, $1.25 and $1.50 qualities, but here is a noteworthy opportunity to economize right at the beginning of the season, by purchasing one of them or even more than one, on Wednesday, for **79c**.

High Heels and Feminine Follies

An observant man said the other day: "I can tell pretty accurately a woman's character, breeding and mental attainments once I get a good look at the shoes she is wearing." This is quite true; the footgear is a tremendous discloser of character. Try for a while to tell women's true inwardness by the boots and shoes they wear. A woman who walks in high heels, to commence with, has very little common sense and no intellectual standing whatever. I think it would be difficult to produce a woman in this city of any mental attainments whose heels measure over an inch and a half in height. Perhaps there are some few women who have meekly accepted the atrocious Cuban heels thrust upon them by foolish shoemakers and have not had sufficient energy to insist upon sensible heels. The heels upon women's shoes should be no higher than the heels upon men's shoes, and once women have awakened to the folly and danger of high heels they will institute a reform and our boot shops will no longer be filled with the objectionable samples of high-heeled shoes which now almost completely crowd out sensible shoes. Probably the origin of high heels was the desire to make the feet look smaller and thus please the men—all part and parcel of the fast-disappearing custom of husband-hunting—but as women become more independent they will no longer be ashamed of their feet as God made them and will do away with high heels altogether.

Shoes that are worn at the heels or sides show a careless, slovenly habit or mind. If I were a young man seeking a wife I should choose one who wore her neat, sensible shoes evenly all over and should shun the high-heeled girl or the girl who goes over on one side of her shoes, or the girl who had buttons missing, shabby shoe-laces or badly kept shoes. Shoe polish and shoe laces are cheap and it costs but a few cents to have layers of heel removed. Look at your shoes, dear readers, and see what sort of a character they give you.

The Latest Spring Fashions

The appeal that the little taffeta coatee, seen at our Horse Show for the first time will make to Canadians, will be for the seashore, the mountains and all manner of summer resorts, including one's country home. They give quite an air to thin white frocks, and are far prettier over them than over a separate skirt of thicker fabric. The new lingerie gowns are very attractive because they are simple. On them, as on white blouses, all the gingerbread effect of lace and emoroidery and other kinds of needlework has given way this year to hand tucks and the simplest kind of hand embroidery.

Eyelet embroidery, and what is known as Madeira work, is used a good deal this season for frocks; it is sold by the yard, is quite wide, and is preferred to plain muslin. It is trimmed with Cluny, filet and baby Irish lace, for Val lace is, for some reason, not as fashionable as it was. One sees very little of it, even on blouses, and less of it on gowns.

These frocks are made with deep V-shaped necks, which are filled in with white wash tulle or with slightly low round necks, finished with a band of narrow black velvet ribbon. They are unlined, are worn over an Empire slip of thin muslin of china silk, and then, to take them out of the ordinary and to lift them into the realm of the new fashions, they are topped off with a short coat of colored taffeta.

Often this taffeta is covered with eyelet work itself. Drecoll and Paquin, in Paris, have urged this openwork on silk to a great extent, and it has had a strong influence on the American houses. I think they would be the first ones to recommend its not being used with white frocks that have the eyelet embroidery on them. Such a contrast would not be effective. The plain silk would be the better choice.

The woman who can indulge in vivid colors, and who will have the opportunity to wear them this summer would find a red taffeta coat, made in any shape she wishes, quite a sparkling addition to her wardrobe. The cutaway ones are in first style and very popular, but to my mind ther is a much more attractive one that has a straight back, a slightly double-breasted front, wide revers and a fitted peplum below the waist. The belt is of satin and fastened with a buckle of Indian beads.

MME. STEINHEIL'S MEMOIRS.

A frequent visitor to the Steinheil salon, according to the recently published memoirs of Mme. Steinheil, was Francois Coppee. But during the Drayfus affair, when he was taking a leading part as one of the founders of Patrie Francaise league, the Steinheils saw less of him. Madame Steinheil met him one morning in the gardens of the Luxembourg, reproached him with his neglect, and begged him to resume his visits. "Ah! my friend," he said, hesitatingly, "I'd love to call on you as in the past, but the trouble is there are too many Dreyfusards in your salon!" by an amusing coincidence, Zola called that very day, but he only remained a little while. "To my great regret, I must go, Madame," And he added, in a low, confidential voice: "The fact is there are too many Anti-Dreyusards here."

OUR EIGHTH COMPETITION

How Best to Develop a Child's Character—Competition Will Close on May 18—Ten Prizes Will Be Given.

We have had competitions about clothes and housekeeping and accounts and various domestic problems and now we feel it is time to turn our attention to the child. The twentieth century is said to be the child's century and there is much to uphold this view. In this Canada's leading city we are preparing for a Child Welfare Exhibition and all matters connected with the child are prominently before the public. What we now want is to get our mothers to tell the means adopted by them to bring up their girls and boys so that they will be strong mentally, physically and spiritually, prepared to cope successfully with the trials and temptations of the world. This competition is very broad in its character as we want to know all about the child's training from its first dawning of intelligence to its final launching into the world. Practical experiences are the most helpful and the telling of mistakes assists others to avoid them.

Answers are limited to three hundred words and must be received at The Star Office, marked Eighth Competition, not later than May 18.

The first prize is ten dollars, the second five, third three, and seven prizes of a dollar each.

Some Dainty Sandwiches

It is an art to make good sandwiches, but fortunately one that is easily acquired. Given good bread and butter, a sharp knife and patience, there is no limit to the fillings that can be concocted.

Use a fine-grained bread—the porous kind will not hold the fillings—and cut in even slices about an eighth of an inch thick, or thinner if the filling is not soft. There are special sandwich loaves, but the ordinary square loaf cuts to good advantage and is cheaper.

Where a girl makes a business of sandwiches it pays to buy special pans so there is no waste in cutting. Crusts are removed after the sandwiches are made, and the bread is then cut in triangles, oblongs or circles. For the last round cutters are used. For holiday occasions sandwiches are cut in stars, crescents, hearts and for for children in animal shapes.

Butter must be soft, not melted. This experites spreading and does not break the thin bread. Be careful in spreading that the bread is buttered on the opposite side of alternate slices or they will not fit.

Butter both slices of bread, but put the filling on one slice only. Press on the top slice and cut the crusts with a sharp knife. Put neatly on a platter and cover until ready to use with a damp napkin. This keeps the bread from drying out. The sandwiches can thus be prepared hours before needed.

Palatable Fillings.

Sandwich fillings may be roughly classified as sweet, meat and fancy. Here are a few nice fillings of each grade.

Spread slices of brown bread with grapefruit marmalade, through which is chopped candied ginger. Another good sweet mixture is pineapple preserves mixed with candied cherries. Equally delicious is bar-le-duc and cream cheese, or grated maple sugar and chopped black walnuts.

Never use slices of meat in a dainty sandwich. Put the meat through a fine chopper until it is almost a paste. Cold chicken, lamb, duck and game make a delicious and simple filling by seasoning highly with salt, pepper and a pinch of cayenne, then moistening with rich cream — or whipped cream—until the mixture spreads easily. Minced ham or tongue is better when moistened with mayonnaise. Cold fish mixtures can be treated in the same way, but are improved by chopping olives through the dressing.

A good fancy filling is made from cream cheese mixed to a paste with French dressing and seasoned with chopped green peppers and slices of olives. Another good mixture is made from the outer leaves of head lettuce—the hearts can be used for salad—cut up fine, mixed with mayonnaise and sprinkled thickly with crisp bacon cut in small pieces.

Red pepper sandwiches are artistic and appetizing. Use the canned sweet red peppers, chop fine, and mix to a smooth paste with mayonnaise.

The Right Shoes for Spring

One's mind certainly turns toward new shoes in the spring. In no part of our bodies do we so keenly feel the first mellow weather as below the ankles. High shoes, heavy shoes, old shoes, are alike fatiguing. A walk of a few blocks in boots that were quite the thing in snowtime makes one feel weighted down with lead in suntime.

The shops are filled with as many buyers of footwear as headwear, and both low shoes and straw hats made their appearance by the dozen last week. The majority of the latter are those very trying and hardening coachman's hats, with the straight brim and the small white cockade and in shoes there is a return to Oxford ties.

This latter shape has not been considered in first fashion for three years, although, as one of the best authorities on footwear says, every well-dressed woman carries one pair of Oxfords in her outfit. They stay on the feet when pumps slip off; they steady the ankle when the feet are tired, and they are quite becoming to those who have low insteps.

This week one could hardly call them out of fashion. Dozens of them have been sold, and smartly dressed women are already wearing them. While the pump remains in first fashion, it does not hold the field exclusively, for this amazing return to low shoes, with two or four eyelets, is the pronounced departure of the season.

Patent leather and dull kid are both used, and the eyelets are extra large in order to stand the broad taffeta ribbon that is used instead of soft shoe lacing. The number of eyelets depends on the taste of the woman, and technically speaking on the width of her heel.

The Oxford tie remains on the heel better than any other kind of shoe because it can be pulled so snugly over the instep and held in place by the ribbons. Possibly that is the reason it is returning to fashion, for all along the line of women's clothes there is a shade of weariness shown toward the eccentric and the conspicuous.

For instance, the flat heel is in fashion. Two weeks ago the woman who wore patent leather pumps, with a large square heel only a few layers deep, was considered quite freakish in being so old-fashioned, but bless you, these pumps have been going like hot cakes among the smart women for the last ten days. Why? Because they are so comfortable, and because the high heel has been carried to such absurd heights in cheap shoes that many women are turning from it in disgust.

Tan shoes are again in fashion. That light putty color which was so much in fashion in France last winter and which one feared would become fashionable here is fortunately missing. All the Russian tans are used in pumps, in Oxfords, and in two-eyelet ties. Buckles still take precedence over ribbon, except in the Oxfords and on pumps.

True, a wide number of women prefer the more or less huge buckle in their pumps, but you will notice that the well-dressed woman who is smartly turned out in every detail will wear the plain pump, with its flat bow of corded ribbon, such as the men wear, no matter what its heel.

Buckles rightly belong to slippers, but there is no breach of good taste in choosing one of kid, of gun metal, or of japanned metal on a pump of dull kid. If one wears patent leather slippers, with Spanish heels, then the buckle may be of silver, of gilt, or of cut steel, but it is to be hoped that women will go back to their original method and keep this brilliant footwear off the streets in the morning hours.

7397 Blouse or Guimpe, 34 to 44 bust.

Blouse of Guimpe

WITH ROUND, SQUARE OR HIGH NECK, THREE-QUARTER, ELBOW OR LONG SLEEVES.

The plain blouse with just a tuck over each shoulder to provide becoming fulness is available for many uses. It will serve admirably as a guimpe, it makes one of the best possible models for embroidery or for lace trimming, and it is in every way desirable for fancy materials. This one includes three styles of sleeves, so that it is exceptionally available, perhaps the greater number of women will like those of three-quarter length finished with cuffs, but often the loose elbow sleeves are pretty, and there is a growing tendency toward long sleeves, so that those shown in the small back view are likely to be in demand.

For the medium size will be required 3½ yards of material 18, 2⅝ yards 27, 2 yards 36 or 44 inches wide, with 2 yards of banding.

The pattern, No. 7397, is cut in sizes for a 34, 36, 38, 40, 42 and 44 inch bust measure, and will be mailed to any address by the Fashion Department of this paper, on receipt of ten cents.

Gelatin with fresh fruit is quite as nice made plain and served with the fruit as to boil the fruit put in it. A marked advantage is that whereas fruit placed in the gelatin necessitates it being used soon after it is made, the plain gelatin will keep several days and may be used as desired.

Oranges quickly give a bitter taste to the gelatin when put in it, white grapes will mould and lose their flavor and peaches, berries and cherries do not keep well. The gelatin to be served with fruit should be rather thin.

Most attractive and exceedingly artistic are some of the cedar chests now offered for sale. The wood itself is not only well selected, but the chests are brass trimmed and provided with handsome brass fastenings, handles and casters. PREMIER GOUIN MAKES HIS LAST APPEAL TO MONTREAL

Addresses Big Meeting of Electors of St. James and St. Mary's Wards—Declares His Sympathy With Montreal's Self Government and Denies His Government is Under the Influence of Any Trust or Combine—Expresses His Confidence in the Outcome of Wednesday's Elections.

Addressing a crowd of 2,000 electors of St. James and St. Mary's ward, Sir Lomer Gouin last evening fired the last gun of his campaign from the balcony of a private house on Maisonneuve street. Plainly showing the effects of the whirlwind campaign which he had been making throughout the province, the Premier was evidently making a supreme effort.

For the first time in his campaign, Sir Lomer Gouin made the autonomy of Montreal the leading theme of his speech. After claiming that the city of Montreal enjoyed more privileges than any other municipality in the province, the Premier solemnly engaged himself to see to it that any charter that the City of Montreal would see fit to present before the Legislature—no matter how broad the terms—he would see to it that it would pass whether Mr. Tellier voted against it or not.

He indignantly denied that any trust, merger or corporation, no matter how strong, influential, or prosperous, could induce him to depart from the programme which had been mapped out for the Liberal party in Quebec.

Says Montreal Must Come Half Way on Tramways.

That the tramways situation could never be settled to the satisfaction of the citizens of Montreal until the municipal authorities decide to meet the government half way in settling the problem which has been before the local public, was a strong plea which Sir Lomer Gouin presented to the East-End electors.

The Premier seemed to be imbued with the spirit of confidence and asked the electors of St. James and St. Mary's, to get out their flags and strengthen their voices for the celebration which was sure to take place Wednesday night. Never would there be such a Liberal victory as that which would sweep the province this week.

Although his voice was husky, the Premier made a very energetic speech and made an earnest appeal to the citizens to support his administration.

As joint chairmen of the meeting they had: Ald. L. A. Lapointe, M.P., and Ald. Mederic Martin, M.P. Both made short speeches, and asked for support for Messrs Clement Robillard and Nap. Seguin. The meeting was advertised to take place in St. Bridget's Hall, but the crowd was so large that the speakers were obliged to choose a verandah from which to address the people in the open air.

Premier Expresses Great Confidence in Result.

Sir Lomer Gouin said: "The people of Quebec will declare in a few days whether or not they still have confidence in our government. I will await the result with all confidence in the city of Montreal and in the divisions of St. James and St. Mary's. From Gaspe to Lake Temiscamingue, the province has never been so well united as at the present moment. Never before have we had the honor to present such a programme as we offer to you now."

"Electors of Montreal, I do not know whether you were at the meeting in the monument National which was held by Mr. Tellier, but I know that you are intelligent who follow affairs and read the newspapers. You know that we have constructed large schools in Montreal and Quebec and that if we had not done so, the Conservative party would not have any programme at all."

"Mr. Tellier and his lieutenants accuse us of constructing schools that are too spacious and too luxurious. As for the financial administration, since the disastrous period of 1897, Mr. Tellier has absoletely nothing to say, Mr. Tellier passes a veil over this nefarious past and speaks about technical schools. We have constructed spacious and luxurious schools and should we have to commence over again we would make them more spacious and luxurious for the use of Montreal.

Declares Independent Corporations Made Expenditure.

"They accuse us of spending enormous sums of money for these schools. As a matter of fact we have not spent a single cent. We arranged for independant corporations composed of members chosen by the Chambre de Commerce and the Canadian Manufacturers' Association and the Municipal Authorities. We asked the city if they wished to contribute in order to give an example of advancement of technical education which has made the fortune of France and many of the United States.

"I thank the city for the help which it gave and it is with the contributions of Montreal and Quebec that we have been enabled to construct these schools.

"Mr. Tellier recognizes that there is something good in these schools, but he claims that they are too spacious and too luxurious for the workingmen of Quebec and Montreal. What he would like to do if he came to power, would be to close these schools and he would simply give the workingmen small apprentice shops annexed to your manufacturing establisnments.

"There is also the school for Higher Commercial Studies, here in St. James division. Mr. Tellier charges the Government with having spent too much on it. The religious and municipal authorities asked us to arm our youth, so as to fit them for the position which they should occupy in life.

Explains Commercial High School Finances.

"This school costs us $50,000 a year. Mr. Tellier claims we have to pay $24,000 a year in addition. That is an error; he claims we have to pay interest at 4 per cent. It is absolutely provided that this $24,000 must come out of the $50,000 yearly allowance."

"Mr. Tellier accused us of something in Three Rivers which he did not dare to repeat in Montreal. It is that these commercial schools would be neutral in religious matters. When we established these schools, Mr. Tellier himself and all his friends did not dare to vote against our motion and it was adopted unanimously. Why does he come out now and deceive the electors by saying that these are neutral schools?

"Why should he be more catholic than the Archbishop of Montreal, who put three priests in these schools of his own good will? I am satisfied with the opinion of these authorities rather than that of Mr. Tellier.

"This was not the first time that Mr. Tellier showed himself to be more catholic than the Pope. Two years ago when a motion was made in favor of free school books, Hon. Mr. Chapais one of the Conservative leaders was one of those who voted in favor of them but Mr. Tellier claimed that the principle was bad and voted against free books for the workingmen's sons."

"Mr. Tellier claimed that each student attending the school for Higher Commercial Studies cost the province $2000.

Speaks of the Autonomy of Montreal.

"If you study the pamphlets of the Conservative party, you will see that it is not $2000, but $500 a head which it is going to cost us."

The Premier then went on to explain how the cost of maintaining students in the Polytechnical School and the School of Agriculture—institutions which had both been founded by the Conservatives—had reached figures far in excess of the $500 referred to as excessive by Mr. Tellier.

"I come now to municipal autonomy. I had the honor to sit in the city council of Montreal. I was the predecessor of Mr. Lapointe in East ward. I also had the honor of representing St. James division for many years. I have lived here for more than thirty years and I consider myself as a citizen of Montreal. It is true that each year the corporation of Montreal must come before the Parliament at Quebec with important demands. Alderman Lapointe is here and I ask him if I ever refused one of the amendments asked for by the city of Montreal.

"Mr. Tellier says: 'I will give the city of Montreal the same rights and privileges which belong to the other municipalities of the Province.' I want you to realize that your city enjoys more rights and more privileges than any other municipalities.

"As I have already said many times, let the city of Montreal come before us with terms as broad as it wishes and I—your old member and ever the friend of Montreal—engage myself to pass that charter, whether Mr. Tellier votes in favor of it or not."

Says He Broke the Light and Power Monopoly.

"Mr. Tellier spoke of the incorporation of the Dominion Light and Canadian Light Companies. He claimed that I had violated the autonomy of Montreal in incorporating these companies. It is true that with the support of my colleagues and after four years of struggle and against the strongest influence of the metropolis, I succeeded in breaking the light and power monopoly of your city. I did this in spite of the Opposition of Mr. Tellier and his friends, and if you electors of Montreal get 50 per cent. better rates for your light you should thank me and my colleagues for giving you this privilege in the face of the Opposition of Mr. Tellier."

Sir Lomer Gouin then passed on to the Tramways Bill.

"Mr. Tellier has made many references to the Tramways Bill. He claimed that with the passing of the Tramways' Bill I had attacked the autonomy of Montreal. This question is not yet settled. I believe that with the help of my colleagues and with the Liberal deputation that you are going to send to Quebec on the 15th, the question will be settled to the satisfaction of the city of Montreal.

"I did not wish the electors of Montreal to wait ten or twelve years for a reduction in the tariff or an improvement in the service and a more complete service over a larger number of streets.

Declares Mr. Jette Forgets His Colleagues.

"Mr. Tellier forgets to mention when he speaks about the Tramways' Bill that Mr. L. T. Marechal, K.C., his candidate in Chambly, was one of the attorneys for the corporation. He also omits to mention the name of Mr. C. H. Cahan, K.C., and Mr. L. O. Taillon were also engaged in defending the interests of the company. Why does he not state how Messrs. Cousineau, Plante and Patenaude voted on the resolution? As far as Messrs. Prevost and Lavergne were concerned their voices were silent when the motion came up for vote.

"This question of tramways will never be settled until we can obtain the support of the municipal authorities and it will never be settled by any but a Liberal government at Quebec. Mr. Tellier has claimed that Mr. E. A. Robert could do whatever he pleased with the Quebec legislature. I have my past record to account for what I am about to say. There is no power strong enough in the province of Quebec, there is no corruption rich enough, and there is no trust so influential as to manipulate the Liberal government of the province of Quebec."

Sir Lomer Gouin defended his policy with reference to the building of the Bordeaux jail. Instead of being an extravagant expenditure for the purpose of giving out large contracts, it was a real estate deal pulled off in a business like way.

Will Be Most Perfect Jail in North America.

Twenty-two years ago, Honore Mercier, then premier of Quebec, had bought some land for the province in Bordeaux. The price paid was $40,000. This same property now was worth upwards of $2,000,000. This was the spot where the new prison was built, and the difference between the price paid and the value of the land now would more than pay for the cost of the erection of what will be known as the most perfect jail in North America.

"We have built seriously, we have built solidly, and we have built honestly. Mr. Tellier has made a little insinuation which smells of the "cassolette" two miles away. He has claimed that the purpose of the building of the jail was for giving out big contracts. Now I would not entertain any such insinuation coming from Mr. Jean Prevost or Mr. Armand Lavergne, but when a man occupies the position which Mr. Tellier does, as the leader of a party which was once great, insinuations should be left severely alone and Mr. Tellier should have made a straightforward charge of dishonesty with regard to the construction of this jail, and I am surprised, that a man of the calibre of Mr. Tellier should descend to such insinuations.

Promises Quebec Safe and Sane Government.

"From the rocky coast of Gaspe to fertile plains of Temiscaming, the Liberal party will sweep the province and send back to Quebec Liberal members. Prepare your colors, unfurl your flags, get ready for the celebration which is sure to take place on Wednesday night next. We shall carry the victory on that night, the flag of Liberalism, and return to Quebec a safe and sane government for the people and by the people."

After having been chosen as joint chairman of the meeting, Ald L. A. Lapointe made a few political remarks in which he said that the only platform of the Conservative party was: "Get out of there, so that I can get in." He did not think it was necessary to change governments and he asked his friends of St. James and St. Mary's to support Messrs. Robillard and Seguin.

His colleague, Ald. Mederic Martin, stated that the Conservative party, whether at Quebec from '92 to '97, or at Ottawa up to '96, had given the country a progressive administration. He qualified Messrs. Monk, Nantel and Pelletier as renegades to the cause of French-speaking Quebec. He hoped that the province would by its verdict on the 15th, offset the late last provincial election in British Columbia and Prince Edward Island.

Says His Opponent is Not Party Candidate.

Mr. Clement Robillard, the Liberal candidate in St. James, made a brief speech, in which he stated that his opponent, Mr. Montbriand, had not been chosen by a convention of electors of St. James, but was the candidate of Messrs. Monk, Nantel and Pelletier. He said he could not criticize his programme because the latter did not seem to have any. If he was returned to the Legislature he would continue to work in the best interests of St. James and of the province.

Mr. Nap. Seguin, Liberal candidate in St. Mary's, appealed to the workingmen as a workingman. He claimed he had always worked in the best interests of the laboring class and was better qualified to represent the working class than Mr. Joseph Beaulieu, an advocate. Mr. Beaulieu was so sure of getting defeated that he had already made arrangements for transportation to St. Jerome, back to his uncle, Bruno Nantel.

Mr. A. Penvenne made a spirited defence of the Gouin policy with reference to the School for Higher Commercial Studies. He knew whereof he spoke; he was a humble student of the institution. The claim of the Opposition was for the children of the rich was false. He was aware that students had to work on the railroad tracks during the vacation last summer for their tuition and board during the coming year; others had to toil as linemen; and he himself, through the influence of Hon. Rodolphe Lemieux, then Postmaster-General, had been given a situation in the Montreal Post Office; so as to help along in his efforts toward higher learning.

Mr. L. A. Rivet, ex-M.P. for Hochelaga, referred to the fact that his defeat had not been caused by Hochelaga, but had been brought about through the efforts of Westmount, and as Mr. Severin Letourneau did not have to cater to the Westmount voters on this occasion, he predicted a victory. He called upon St. Mary's and St. James to avenge the verdict of September 21.

"I must be pardoned. She had smiled upon me once, and she smiled again. Days before we were formally presented, I caught her softened look turned my way, as we passed each other in the hall or corridor. We were friends, or so it appeared to me, before ever a word passed between us, and when fortune favored us and we were duly introduced, our minds met in a strange sympathy which made this one interview a memorable one to me. Unhappily, as I then considered it, this was my last day at the hotel, and our conversation, interrupted frequently by passing acquaintances, was never resumed. I exchanged a few words with her by way of good-bye but nothing more. I came to New York, and she remained in Lenox. A month after and she too came to New York."

"This good-bye—do you remember it? The exact language, I mean?"

"I do; it made a great impression on me. 'I shall hope for our further acquaintance,' she said. 'We have one very strong interest in common.' And if ever a human face spoke eloquently, it was hers at that moment. The interest, as I understood it, was our mutual sympathy for our toiling, half-starved, down-trodden brothers and sisters in the lower streets of this city; but the eloquence—that I probably mistook. I thought it sprang from personal interest, and it gave me courage to pursue the intention which had taken the place of every other feeling and ambition by which I had hitherto been moved. Here was a woman in a thousand; one who could make a man of me indeed. If she could ignore the social gulf between us, I felt free to take the leap. Cowardice had never been a fault of mine. But I was no fool even then. I realized that I must first let her see the manner of man I was and what life meant to me and must mean to her if the union I contemplated should become an actual fact. I wrote letters to her, but I did not give her my address or even request a reply. I was not ready for any word from her. I am not like other men and I could wait. And I did, for weeks, then I suddenly appeared at her hotel."

The change of voice—the bitterness which he infused into this final sentence made every one look up. Hitherto he had spoken calmly, almost monotonously, as if no present heartbeat responded to this tale of vanished love; but with the words, "Then I suddenly appeared at her hotel," he showed himself human again, and betrayed a passion which though curbed was of the fiery quality, befitting his extraordinary attributes of mind and person.

"This was when?" put in Dr. Heath, anxious to bridge the pause which must have been very painful to the listening father.

"The week after Thanksgiving. I did not see her the first day, and only casually the second. But she knew I was in the building, and when I came upon her one evening seated at the very desk in the mezzanine which we all have such bitter cause to remember, I could not forbear expressing myself in a way she could not misunderstand. The result was of a kind to drive a man like myself to an extremity of self-condemnation and rage. She rose up as if insulted, and flung me one sentence and one sentence only before she hailed the elevator and left my presence. A cur could not have been dismissed with less ceremony."

"That is not like my daughter. What was the sentence you allude to? Let me hear the very words." Mr. Challoner had come forward and now stood awaiting his reply, a dignified but pathetic figure, which all must view with respect.

"I hate the memory of them, but since you demand it, I will repeat them just as they fell from her lips."

"You will pardon me, if I press this matter. I have been given to understand that notwithstanding your break with Miss Challoner, you have kept up your visits to the Clermont and were even on the spot at the time of her death."

"On the spot?"

"In the hotel, I mean."

"There you are right; I was in the hotel."

"At the time of her death?"

"Very near the time. I remember hearing some disturbance in the lobby behind me, just as I was passing out at the Broadway entrance."

"You did, and did not return?"

"Why should I return? I am not a man of much curiosity. There was no reason why I should connect a sudden alarm in the lobby of the Clermont with any cause of special interest to myself."

This was so true and the look which accompanied the words was so frank that the coroner hesitated a moment before he said:

"Certainly not, unless—well, to be direct, unless you had just seen Miss Challoner and knew her state of mind and what was likely to follow your abrupt departure."

"I had no interview with Miss Challoner."

"But you saw her? Saw her that evening and just before the accident?"

Sweetwater's papers rattled; it was the only sound to be heard in that moment of silence. Then——

"What do you mean by those words?" enquired Mr. Brotherson, with studied composure. "I have said that I had no interview with Miss Challoner. Why do you ask me then, if I saw her?"

"Because I believe that you did. From a distance possibly, but yet directly and with no possibility of mistake."

"Do you put that as a question?"

"I do. Did you see her figure or face that night?"

"I did."

Nothing—not even the rattling of Sweetwater's papers—disturbed the silence which followed this admission.

"From where?" Dr. Heath asked at last.

"From a point far enough away to make any communication between us impossible. I do not think you will require me to recall the exact spot."

"If it were one which made it possible for her to see you as clearly as you could see her, I think it would be very advisable for you to say so."

"It was such—a spot."

"Then I think I can locate it for you, or do you prefer to locate it yourself?"

"I will locate it myself. I had hoped not to be called upon to mention what I cannot but consider a most unfortunate coincidence. As a gentleman you will understand my reticence and also why it is a matter of regret to me that with an acumen worthy of your position, you should have discovered a fact which, while it cannot explain Miss Challoner's death, will drag our little affair before the public, and possibly give it a prominence in some minds which I am sure does not belong to it. I met Miss Challoner's eye for one instant from the top of the little staircase running up to the mezzanine. I had yielded thus far to an impulse I had frequently combatted, to seek by another interview to retrieve the bad effect which must have been made upon her by my angry note. I knew that she frequently wrote letters in the mezzanine at this hour, and got as far as the top of the staircase in my effort to join her. But I got no further. When I saw her on her feet, with her face turned my way, I remembered the scorn with which she had received my former heartfelt proposals and, without taking another step forward, I turned away from her and fled down the steps and so out of the building by the main entrance. She saw me, for her hand flew up with a startled gesture, but I cannot think that my presence on the same floor with her could have caused her to strike the blow which terminated her life. Why should I? No woman sacrifices her life out of mere regret for the disdain she has shown a man she has taken no pains to understand."

His tone and his attitude seemed to invite the concurrence of Dr. Heath in this statement. But the richness of the one and the grace of the other showed the handsome speaker off to such advantage that the coroner was rather inclined to consider how a woman, even of Miss Challoner's fine taste and careful breeding, might see in such a situation much for regret, if not for active despair and the suicidal act. He gave no evidence of his thought, however, but followed up the one admission made by Mr. Brotherson which he and others must naturally view as of the first importance.

"You saw Miss Challoner lift her hand, you say. Which hand, and what was in it? Anything?"

"She lifted her right hand, but it would be impossible for me to tell you whether there was anything in it or not. I simply saw the movement before I turned away. It looked like one of alarm to me. I felt that she had some reason for this. She could not know that it was in repentance I came rather than in fulfilment of my threat."

A sigh from the adjoining room, Mr. Brotherson rose, as he heard it, and in doing so met the clear eye of Sweetwater fixed upon his own. Its language was, no doubt, peculiar and it seemed to fascinate him for a moment, for he started as if to approach the detective, but forsook this intention almost immediately, and addressing the coroner, gravely remarked:

"Her death following so quickly upon this abortive attempt of mine at an interview startled me by its coincidence as much as it does you. If in the weakness of her woman's nature, it was more than this—if the scorn she had previously shown me was a cloak she instinctively assumed to hide what she was not ready to disclose, my remorse will be as great as any one here could wish. But the proof of all this will have to be very convincing before my present convictions will yield to it. Some other and more poignant source will have to be found for that instant's impulsive act than is supplied by this story of my unfortunate attachment."

Dr. Heath was convinced, but he was willing to concede something to the secret demand made upon him by Sweetwater, who was bundling up his papers with much clatter.

Looking up with a smile which had elements in it he was hardly conscious of perhaps himself, he asked in an offhand way:

"Then why did you take such pains to wash your hands of the affair the moment you had left the hotel?"

"I do not understand."

"You passed around the corner into street, did you not?"

"Very likely. I could go that way as well as another."

"And stopped at the first lamppost?"

"Oh, I see. Someone saw that childish action of mine."

"What did you mean by it?"

"Just what you have suggested. I did go through the pantomime of washing my hands of an affair I considered definitely ended. I had resisted an irrepressible impulse to see and talk with Miss Challoner again, and was pleased with my firmness. Unaware of the tragic blow which had just fallen, I was full of self-congratulations at my escape from the charm which had lured me back to this hotel again and again in spite of my better judgment, and I wished to symbolize my relief by an act of which I was, in another moment, ashamed. Strange that there should have been a witness to it. (Here he stole a look at Sweetwater.) Stranger still, that circumstances by the most extraordinary of coincidences, should have given so unforeseen a point to it."

"You are right, Mr. Brotherson. The whole occurrence is startling and most strange. But life is made up of the unexpected, as none know better than we physicians, whether our practice be of a public or private character."

As Mr. Brotherson left the room, the curiosity to which he had yielded once before, led him to cast a glance of penetrating inquiry behind him full at Sweetwater, and if either felt embarrassment, it was not the hunted but the hunter.

But the feeling did not last.

"I've simply met the strongest man I've ever encountered," was Sweetwater's encouraging comment to himself. "All the more glory if I can find a joint in his armour or a hidden passage to his cold, secretive heart."

MRS. EVELYN THAW AND HER BABY NOW IN PITTSBURG

Newspaper Men and Photographers. However, are Given Cool Reception.

New York, May 14.—Anthony was the name Mrs. Evelyn Nesbit Thaw originally selected for the pretty baby boy, born in Germany in 1910. The child is now with the mother and the stepfather of Evelyn Thaw, Mr. and Mrs. Charles Holman, in their Pittsburg home and it is said his name has been changed to Russell.

Holman is reported to have spent a very busy day in repulsing reporters and photographers who crowded about the Holman residence yesterday. They sought a view of the baby and to interview Evelyn Thaw with equal lack of success.

It was the intention of Evelyn Thaw to leave Pittsburg yesterday and to go to another city where she has urgent business in connection with her efforts to collect upon three cheques for a total of $15,000 giver to her by Thaws. The child has been with Mrs. Holman for several weeks, and Evelyn Thaw went to Pittsburg last Wednesday to see him, unable to bear the separation any longer.

It is expected that Harry K. Thaw will be told to-day of the story that his wife has a son, now nearly two years old.

London, May 14.—Mr. Smallwood, the correspondent of the Daily Chronicle with the Turkish forces, has been killed in a skirmish near Derna.

Washington, D.C., May 14.—The House has adopted, by 237 to 39, a joint resolution providing for an amendment to the constitution to permit the election of United States Senators by direct vote of the people.

THE STRONG MAN AT QUEBEC

PULLING WITH HIS FRIENDS

The following resolution may have been written in French but the command to vote on it was given in English for Major Gault understood it and voted.

Moved by Prevost.
Seconded by D'Auteuil.

"Whereas, in December last, during an excursion to Toronto, the official character of which was recognized by the speech from the Throne, the Minister of Public Works and Labor, pronounced himself, in the name of the people of the Province of Quebec, and in the presence of the Prime Minister, in favor of the general participation of Canada in the wars of the Empire and of the organization of a Canadian navy, or of any other measure which the Federal authorities might deem is proper to adopt on this head.

"Whereas, the minister had no authority to thus prejudge the opinion of the electors of this Province on this grave question, which was then on the point of being submitted to the consideration of the Federal Parliament.

"Whereas, the numerous protests that have been made from this Province, and from several others, against this new policy, have proved that the Minister of Public Works and Labor has not faithfully represented the opinion of the people of this Province.

"Whereas, neither the Prime Minister nor any of his colleagues have disavowed the declarations of the Minister of Public Works and Labor.

"The House regrets that one of the Ministers of this Province should, without any mandate, on a question foreign to the jurisdiction of the Government of which he forms part, and under circumstances which give considerable weight to his words, have made indiscreet declarations calculated to represent in a false light the opinion of the electors of this Province.

"And the Cabinet being responsible for the stand of each of its members, the House considers that the Government deserves to be censured."

Those who voted for it, according to official records, were Messrs.

Bernard,	LAVERGNE,

BE WISE!

For 6 years Sir Lomer Gouin has given to this province a remarkably straight, honest and progressive government. In fact, it has been the very best since Confederation.

Would it be fair to replace him by an unknown politician?

You wouldn't do it in your private business. Why should it be done in public affairs?

COUNCIL MEETING BUSINESS SPEEDY DESPITE THREATS

Controllers' Reports Adopted With Exception of Supplementary Estimates.

Business at the City Council meeting yesterday afternoon proceeded in expeditious manner in spite of the threat made by Ald. Poissant during the course of the previous caucus that he would call "next meeting" to all reports from the Board of Control.

When the meeting opened Mayor Lavallee said that such action would be unjust and would seriously hamper business.

Ald. L. A. Lapointe spoke in similar strain and Ald. Poissant agreed to accept the reports.

Reports presented were accepted and adopted with the exception of that dealing with Supplementary Estimates and amounting to $781,650, which was delayed for a week for further consideration.

Following the decision of the caucus, Ald. Giroux was elected as the City's representative on the Catholic School Board and Ald. Fraser as the City's representative on the Protestant Board.

On motion of Ald. L. A. Lapointe it was decided to abolish the tax of one dollar on bath tubs. This will be effective only in 1913 as the present roll must be carried out.

Ald. Lapointe gave notice of motion that he would ask new by-laws be framed on the following matters; heavier punishment for those who rang false alarms; to collect further taxes from insurance companies; to force the removal of dry weeds from vacant lots, so as to avert danger of fires; to regulate the passing of vehicles, including street cars, in the presence of fire apparatus; to regulate the use of screeching sirens in the city; and finally to authorize the city to establish municipal ice houses for the benefit of the working classes.

A communication was read from the Cartier Centenary Committee asking the city authorities to support the plan of inviting the Prince of Wales to visit Montreal at the time of the unveiling of the monument to the distinguished statesman. The council was reminded that it was Sir George Etienne-Cartier, as Premier of the Dominion, who had invited the late King Edward to Montreal for the opening of the Victoria bridge.

The Numismatic and Antiquarian Society informed the council they desired to enter a protest against the habit of altering historic names of streets in Montreal.

It was asked by Ald. Bastien that the Council should take up the subject of ordering stores to be closed three instead of two nights a week.

The sum of $5,000 was voted for the Child Welfare Exhibition.

CITY PREPARES TO WELCOME THE BRITISH VISITORS

Letter from Hon. G. E. Foster Stirs the City to Action.

The Civic Reception Committee is now planning arrangements for the welcome to be given to the party of manufacturers and business men from Great Britain who will tour Canada next month. The matter was referred to this committee by the City Council yesterday, after a letter had been read from Hon. G. E. Foster, Minister of Trade and Commerce, asking that the best information possible as to the interests and resources of the city be given the party.

"If," added Mr. Foster, "we can show these gentlemen favorable openings for the establishment of industries, and can enlist their capital, experience and skill, we shall have done a good thing for Canada and for our visitors."

The visitors for the most part will be either the chairmen or managing directors of fifty of the leading industries of Great Britain, from steel works to biscuit factories, and the capitalization of the firms they will represent will aggregate $250,000,000.

The itinerary of the tour will practically cover every important point of Canada, except Prince Rupert, which time will not permit of the party visiting. The party will go from coast to coast, from Sydney, N.S., to Victoria, B.C., seeing all that there is to be seen and observing all along the route what openings there are for the development of British trade and the location of British industries in Canada. The tour will occupy 42 days.

The party sails from England on the Empress of Britain on May 31, and will arrive at Quebec on June 6. From Quebec they will make a tour of the Maritime Provinces, and they will arrive in Montreal on Saturday, June 15. On their return they will spend several more days in the city before sailing for home on July 20.

A GOOD CANDIDATE.

Ald. Boyd Has Been an Untiring Worker in the Public Interest.

ALD. LESLIE H. BOYD.

During the time Ald. Leslie H. Boyd has been in the City Council he has worked persistently for civic reform in every shape. When first elected he laid down the platform that the money of the city should be expended in the same business manner as that of any of the great railways and business houses; from this principle he has never departed, and a striking feature of his career as an alderman has been his unswerving support of the Board of Control. It was stated by ex-Controller Wanklyn, shortly before he retired, that the vote of Ald. Boyd was one which the Controllers could always be sure of. It was votes such as Ald. Boyd's that made it possible for the Controllers to get a majority in the City Council.

One of the most determined fights that Ald. Boyd has made in Council has been for a more efficient street car service. Time and time again he waited on the management of the Street Railway Company and bitterly protested against the congested condition of the cars at the rush hours. He held that if the company ran sufficient cars the evil would be greatly remedied. He even went so far as say that the Controllers and the Council were willing to discuss an extension of franchise to the company if it would do away with the congestion. Another fight he made was for a purer water supply; in this direction he supported every move of the Board of Control in its efforts to establish a filtration plant and to entirely remodel the system of furnishing water to citizens.

From the first day of his entry into Council he fought for the principle of Montreal conducting its own affairs and not having to run to Quebec for every little reform and franchise that the city wanted to inaugurate. As Montrealers paid the taxes, his contention was that the City Council and and the Board of Control should be the only ones that should have charge of the administration. When the Legislature forced various expropriation projects on the city he objected, as he thought all public works ought first to be asked for by the city.

Possibly the object to which Ald. Boyd had most given his heart was a new entrance to Mount Royal Park via Mountain or Peel streets. While the Legislature gave him some assistance in this, the feeling among certain proprietors was such that the scheme has not yet matured. The fight for the new entrance, however, is being waged by Ald. Boyd with undiminished vigor.

Realizing the growing importance of Montreal Ald. Boyd brought up in Council the proposal that it would be a wise thing to have a law passed federating all of the municipalities on the Island and thus making Montreal a species of government carrying on its own affairs without outside interference. This project is still being discussed by the City Council, and it is now believed the day is not far distant when this important move will be realized.

Ald. Boyd fought to enact civic laws so that it would be impossible for small stores to sell firearms. He pointed out that it was owing to this unconsidered custom it was so easy to buy deadly weapons.

The beauty of the streets has always been a matter of great interest to Ald. Boyd and he moved in Council that special sums be set aside every year so trees could be planted. He has also fought for greater space for parks and playgrounds. In brief Ald. Boyd has devoted his time, as an alderman, to better conditions so Montreal may be placed as one of the best governed cities on the continent.

He will, if elected, strengthen the good government forces at Quebec.

If You Like a Little Quiet Fun

Ask some pompous person if Grape-Nuts Food helps build the brain.

Chances are you get a withering sneer and a hiss of denunciation.

Then sweetly play with the learned toad.

Ask him to tell you the analysis of brain material and the analysis of Grape-Nuts.

"Don't know? Why, I supposed you based your opinions on exact knowledge instead of pushing out a conclusion like you would a sneeze."

"Well, now your tire is punctured, let's sit down like good friends and repair it."

The bulky materials of brain are water and albumen, but these things cannot blend without a little worker known as Phosphate of Potash, defined as a "mineral salt."

One authority, Geohegan, shows in his analysis of brain, 5.33 per cent total of mineral salts, over one-half being Phosphoric Acid and Potash combined, (Phosphate of Potash) 2.91 per cent.

Beaunis, another authority, shows Phosphoric Acid and Potash (Phosphate of Potash) more than one-half the total mineral salts, being 73.44 per cent in a total of 101.07.

Analysis of Grape-Nuts shows Potassium and Phosphorus which join and make Phosphate of Potash, is considerable more than one-half of all the mineral salts in the food.

Dr. Geo. W. Carey, an authority on the constituent elements of the body, says: "The gray matter of the brain is controlled entirely by the inorganic cell-salt, Potassium Phosphate (Phosphate of Potash). This salt unites with albumen and by the addition of oxygen creates nerve fluid or the gray matter of the brain. Of course, there is a trace of other salts and other organic matter in nerve fluid, but Potassium Phosphate is the chief factor, and has the power within itself to attract, by its own law of affinity, all things needed to manufacture the elixir of life."

Further on he says: "The beginning and end of the matter is to supply the lacking principle, and in molecular form, exactly as nature furnishes it in vegetables, fruits and grain. To supply deficiencies—this is the only law of cure."

Brain is made of Phosphate of Potash as the principal Mineral Salt, added to albumen and water.

Grape-Nuts contains that element as more than one-half of all its mineral salts.

Every day's use of brain wears away a little.

Suppose your kind of food does not contain Phosphate of Potash.

How are you going to rebuild to-day the worn-out parts of yesterday?

And if you don't why shouldn't nervous prostration and brain-fag result?

Remember, Mind does not work well on a brain that is even partly broken down from lack of nourishment.

It is true that other food besides Grape-Nuts contains varying quantities of Brain food.

Plain wheat and barley do. But in Grape-Nuts there is a certainty.

And if the elements demanded by Nature are eaten, the life forces have the needed material to build from.

A healthy brain is important, if one would "do things" in this world.

A man who sneers at "Mind" sneers at the best and least understood part of himself. That part which some folks believe links us to the Infinite.

Mind asks for a healthy brain upon which to act, and Nature has defined a way to make a healthy brain and renew it day by day as it is used up from work of the previous day.

Nature's way to rebuild is by the use of food which supplies the things required.

FROM THE EDITOR.

He Forgot That He Had a Stomach.

Talking of food, there is probably no professional man subjected to a greater, more wearing mental strain than the responsible editor of a modern newspaper.

To keep his mental faculties constantly in good working order, the editor must keep his physical powers up to the highest rate of efficiency. Nothing will so quickly upset the whole system as badly selected food and a disordered stomach. It therefore follows that he should have right food, which can be readily assimilated, and which furnishes true brain nourishment.

"My personal experience in the use of Grape-Nuts and Postum," writes a Philadelphia editor, "so exactly agrees with your advertised claim as to their merits that any further exposition in that direction would seem to be superfluous. They have benefited me so much, however, during the five years that I have used them, that I do not feel justified in withholding my testimony.

"General 'high living,' with all that the expression implies as to a generous table, brought about indigestion, in my case, with restlessness at night, and lassitude in the morning, accompanied by various pains and distressing sensations during working hours.

"The doctor diagnosed the condition as catarrh of the stomach, and prescribed various medicines, which did me no good. I finally 'threw physics to the dogs,' gave up tea and coffee and heavy meat dishes, and adopted Grape-Nuts and Postum as the chief articles of my diet.

"I can conscientiously say, and I wish to say it with all the emphasis possible to the English language, that they have benefited me as medicines never did, and more than any other food that ever came on my table.

"My experience is that the Grape-Nuts food has steadied and strengthened both brain and nerves to a most positive degree. How it does it, I cannot say, but I know that after breakfasting on Grape-Nuts food one actually forgets he has a stomach, let alone 'stomach trouble.' It is, in my opinion, the most beneficial as well as the most economical food on the market, and has absolutely no rival."—Name given by the Postum Co., Battle Creek, Mich.

ROOSEVELT AND THE THIRD TERM.

THE Roosevelt campaign has worked at least one miracle—it has unearthed the fighter whom we have always been told was concealed beneath the judicial bulk of Taft. With his "back to the wall," he is fighting; and fighting with the desperation of a man who loves not the game but who fights because he must. It is the peaceful citizen who is most dangerous when he really fights; for he loses his head and knows nothing of restraint or moderation.

Taft is now telling the people of Ohio that it would be a dangerous thing to give an egotist like Roosevelt a "third term." His egoism would be inflamed, his confidence in his omniscience increased, and no constitution would restrain him. There is no doubt whatever that, if Roosevelt succeeds in fighting his way to the White House this year, he will have achieved the most marvellous political triumph in the history of the American Republic. He will be in a position of power which has not been paralleled in any Anglo-Saxon country since the days of Palmerston, if not of Pitt. He will find Congress docile, for few Congressmen will venture to stand forth as men who are blocking "my policies"; and he may even inspire some awe in the Senate.

Still it is not so clear that this will be a bad thing. Power, which must rest from hour to hour upon the consent of the people, can never become a despotism over the majority. As for the minority, it very frequently suffers as it is from the ruthless and almost unconscious tyranny of the majority; and, for this evil, there seems to be no cure in a genuine democracy. We try to prevent it by constitutional limitations on the power of the majority; but we get just such results as now form no small share of the exasperation among the American people which is feeding the Roosevelt movement. Consequently, Roosevelt in office will not represent a new power—he will merely show us the old power of the majority concentrated in the hands of one man, and held by that one man only on condition that he continues to hypnotize the majority. We of British antecedents are perfectly aware that our people have made their greatest progress when powerfully led by one man.

It is the MAN in Roosevelt which attracts the American people far more than his "policies." His "policies" may even damage him to a considerable extent. There are lots of Americans who would love to shout for "Teddy" right now, if it were not that they fear the effect of some of the "reforms" he is pledged to carry. His Progressive "policies" have, of course, attracted to him Progressive support, and given him an excuse for his war on Taft. But through the East where a simple Progressive would have little chance, it is Roosevelt who carries the "policies" and not the "policies" which carry Roosevelt. A democracy is accused of "loving a lord." What it really loves is a leader. It wants a man who knows where he is going, who insists that that is the only place to go, and who lets everyody know that he is on his way. That is why Gladstone was strong, why Chamberlain was so much more powerful than either Salisbury or Balfour, and why the Unionists have now turned to Bonar Law.

The prejudice against a "third term" is expected to kill Roosevelt. If the American people really want him, this prejudice will hardly balk them. Taft is at last appealing to it in Ohio; and we shall see what effect it has. It is just as well that it should be "tried out" before the nomination; for Roosevelt's friends may be very sure that they will have to meet it in the elections if they succeed in getting their man in the saddle. It is a cry that will ring very loudly from the Radical-Democracy. There is a fiction that the Germans, especially, will not like it, because they fled Germany to escape one-man power. Neither the fact nor the conclusion are very well-founded, however. They did not, as a rule, flee, one-man power, but sought rather more promising financial opportunity; and they would never think of fearing a one-man power which could be overthrown by popular vote at the next elections. It is quite likely that if the "third term" issue comes up, it will be found that it is an old man's issue, and that the new generation of voters care little about it.

MR. MARCHAL IN CHAMBLY.

NO better service can be rendered the people of this province than sending to the Legislature such men as Mr. L. T. Marchal, K.C. It is not enough that any or all of the eighty-two constituencies in Quebec should select to-morrow a man who is able, honest and earnest, provided there is a more able and more earnest candidate available.

As long as the choice is made on these lines, it is a matter of comparatively little importance which party has the actual majority in the Legislative Assembly; the people of the Province will be assured of careful legislation and efficient administration. In fact it is almost safe to say that the more evenly the ability of the Legislature is divided between the two parties, the more likely are we to be governed in the interest of the people and not of the politicians.

Mr. Marechal has every claim on the consideration of the electors of Chambly County. He has won distinction in his profession, he has shown himself a man of high ideals and notable public spirit; he has a reputation for honest and honorable conduct which any man might envy. His election to-morrow would be a benefit to the Province as well as a credit to his county.

THE DEAD-LOCKED WAR.

THE Italians announce that their occupation of the Turkish islands in the Aegean amounts to a blockade of Constantinople, so far as the war in Tripoli is concerned. But their command of the Mediterranean amounted to the same thing. It is difficult to see how garrisons in the island towns of the Aegean can add to their ability to prevent Turkish vessels from carrying troops and supplies to Tripoli. Such help to the Tripolitan forces must have been very slight and precarious in the past; and the stubborn resistance which is being offered to the Italian conquest, is not so much Turkish as native. The Italians are fighting mounted warriors as elusive as a seamist. They encompass the coast towns, choking their garrisons until they are provoked to sally forth to drive off their besiegers, when the tribesmen flee and scatter and re-gather on the horizon exactly like mist driven by the wind.

Europe is very anxious to bring about peace. The temporary closing of the Dardanelles showed how seriously it can be hurt by this war, if it keeps up. Then there is always the danger of a general conflagration. But when Europe applies to Turkey to consent to peace, the Turks reply that they cannot agree to cease fighting on any terms which leave Tripoli formally in possession of Italy. If they did so, the Turkish Empire would be disrupted, and Europe would be plunged into the very war it seeks to avoid. The Italians, on their part, say that they have formally annexed Tripoli in the face of the whole world, and that they cannot now humiliate themselves by retracting this step. They are the victors—not the vanquished—and yet it is suggested that they and not the Turks shall admit failure.

This is the dead-lock Europe, with all its powers, is confronted with a "non possumus" at both points. So the war drags on. And, one of these days, something will happen which will drag Europe to the verge of a gigantic conflict if diplomacy does not first find a "via media."

DUELLING IN GERMANY

DUELLING will not disappear from among the customs of the German army by virtue of any resolution of the Reichstag, any more than it has because of the denunciation of philosophical and moral societies, or the inhibition of the churches.

The resolution offered by the Socialists and accepted by the Reichstag comes nearer to hitting the nail on the head than most of the desultory moralizing which the debate provoked. It provides that no officer shall be dismissed from the army for refusing to take part in a duel. As supplementing the two main clauses, that any officer who participates or attempts to participate in one shall be dismissed, this would appear to cover the ground fairly thoroughly, and it probably does do so as well as any mere legislation can affect so delicate and elusive a thing as the "Spirit of the Service" of the German army. This, however, is by no means the same as covering it satisfactorily.

Army duels are not a reflex of legislation; rather they are an attempt to supplement legislation on a side where it is weak and unsatisfying. They exist because they are an expression of a spirit which believes itself to be better than, and therefore, superior to, the letter of the law. Such a spirit can assert itself only in the light and by the favor of those who rule by example rather than precept. If the Kaiser decides that duelling mars the efficiency of his army, either duelling will come to an end or the present type of German officer will seek a field of usefulness elsewhere; until some such decision is reached, the Reichstag may legislate itself black in the face without accomplishing anything.

EDUCATING THE MILITIA

THE honorable, the Minister of Militia is still learning things about his Department. Long may he continue to do so for it is but a short step from acquiring knowledge to applying it.

At Halifax last night, the Honorable Samuel was apparently in unusual fettle, and an exceptionally amiable mood. The officers of the garrison had given him a dinner, but getting dinners from garrisons, is part of the regular manoeuvres, and, unless it is a very good dinner, has probably, by this time, lost its power to impress. In any event, the Minister not only promised that Halifax would soon be surrounded by a regular labyrinth of forts, but took occasion to say a few kind words for that friendless and neglected class, the officers of the Permanent Force.

"The Permanent Force," he said, "is a university for the education of the military and its officers should consider themselves professors in this great university." Heretofore, the Colonel has rather intimated, first, that the volunteer militia needed training and example—chiefly example—rather than education, and, secondly, thirdly and at some length, that if they did need education, they should acquire it from—well, from distinguished volunteer officers who did not take much stock in "book learning," but who were strong on reminiscence and autobiography. If the gallant Minister is beginning to see that the Department of Militia and Defence may, with advantage, be conducted on a fundamentally different principle, the militia, the country and the Minister himself are all to be congratulated.

Both Houses of Congress have now adopted a joint resolution proposing an amendment to the Constitution by which Senators may be elected by popular vote. In some States, this is now done by putting the names of the Senatorial candidates on the ballots for the State elections, with the understanding that the new Legislature will accept the vote of the people as an insitruction to elect this or that Senator. Thus, a Democratic Legislature may be compelled to choose a Republican Senator if the latter has received a majority of votes at the State elections. Now, we shall probably see popular election in all the States made more direct and formal; and thus Senate Reform may come at Washington before it comes at Ottawa.

An anti-typhoid serum is announced from Paris. Wonderful things are being done by this process of fortifying the body against the attacks of germ diseases. We know that the body fortifies itself in an astonishing manner against all sorts of germs. A farmer's family, for example, can drink with impunity from a well whose water will speedily send the casual visitor to a sick bed. They have gradually become immune to the particular form of microbe which inhabits it. Oriental races live amidst filth conditions which kill off Europeans like flies. This system of fortifying the body may yet prove to be the great method of conquering disease. It has already circumscribed its area of mischief very considerably, as, for example, in the case of vaccination against small-pox.

Roosevelt's explanatory letter touching Reciprocity has been cabled to England. His assurances of high regard for Canada will be well received there; for they look upon Roosevelt in Europe as a statesman with the European point of view. But they will perfectly understand that Roosevelt's announced intention to respect the independence of Canada, depends wholly upon the maintenance of present conditions, an important and even decisive factor in which is the retention of the command of the sea by the British Navy. They would not expect Roosevelt to take the same view of Canada if we were undefended and compelled to look to Washington for protection against the Japanese and the Germans.

The Government cannot go too far in its coming Banking Act in providing for the destruction of soiled bank notes. They are disgusting, dangerous and unnecessary. The Bank of England—which does quite a business—never re-issues a note at all. It may come in as pure as the driven snow, but it is never sent out again. Our bank notes are issued and re-issued sometimes until a fastidious person would almost rather do without the money than touch the filthy things. Some banks are better than others in issuing clean notes; and there is no reason why they should not all be brought up to a high standard. The cost would be trivial when compared with the comfort and safety achieved.

THE old black furnace with the grey ashes in it.

BAD weather for the haughty Iceman.

HAD you any coal left in the poor old bin?

IF you took them off pneumonia is your doom.

IF Col. Roosevelt should hit Mr. Taft below the belt, it will take him a few moments to realize the fact.

IN Germany they punish telephone users who speak impatiently or disrespectfully to "Central." Which may account in part for the large emigration from Germany to this country.

OFFICIALLY, no one is to blame for the condition of Sherbrooke street. That is one of the beauties of having civic officials.

JUDGING by Mr. Leggatt's photographs, he is exactly that kind of a man.

THE Royals need lots of first aid for pitchers, catchers and fielders in distress.

WE are, of course, grateful for Mr. Roosevelt's kind words, but what did his letter really mean?

"I REMEMBER."

"When you are recalling scenes and incidents in the life of the country, it is a pity that our biggest romance could not be adequately told. I refer to the genesis, the growth and development of the Canadian Pacific Railway; the men who manned it at the beginning; how they came to be associated with it; what slight causes apparently, bound large and prescient men to the new and doubtful enterprise.

"But the inner story has yet to be written," said a prominent and popular railroad man, who has memories stretching beyond the inception of the great corporation, with whose leading spirits he was familiar.

"Do you know, for instance, that the selection of Sir William Van Horne for manager was decided by a single vote? The thing was this way: The new board of directors, of whom Lord Mount Stephen, Mr. R. B. Angus, and Lord Strathcona were members, held several meetings with respect to the finding of a man for the position. The road was not completed, but a start had been decided on. There was little expectation that it would succeed; public mind was distrustful. Mr. Van Horne (as he was then) had been favorably mentioned. He had been written to come to Canada and talk the matter over with the directors. After several conferences, the directors mentioned, while travelling on one of the C. P. R. trains, discussed Mr. Van Horne. Upon the casting vote of an Ontario director, he was appointed. Not that any of the other directors objected to him, but this particular director was enthusiastic. He said: "Mr. Van Horne has impressed me very favorably. I think he is the right man in the right place."

Upon his strong representation the decision was made, for the other directors were not too enthusiastic about the proposal.

"Mr. Van Horne came along and literally took off his coat. He had hardly a peg to hang it on, either, in the first office on St. James street, in the Imperial building, opposite Place d' Armes Square.

"Not only did he take off his coat, but he also, very literally, rolled up his trousers.

"Many a time we were up to our waists in mud and slush," as Sir William has told me, "when completing our line, and especially in connection with the work in British Columbia and the Rockies. I know that experience personally.

"Next to this Imperial Building is the Bank of Montreal; and in the bank many anxious conferences were held in regard to the future of the new road. There was no money; there was little credit. The Bank of Montreal, under the inspiration of Mr. Angus, gave its credit to the undertaking to the extent of more millions than was generally supposed.

"There was one day when no more money could be found. Sir Donald Smith had been out scouring the financial territory, with the hope of borrowing a few millions. He came back to one particular meeting with the welcome news that he had got at least one more million with which to go on.

"Mr. Van Horne had met the young man Shaughnessy at Milwaukee. He sent for him. Mr. Shaughnessy joined the road as purchasing agent. There were plenty of things which needed purchasing. There was no money to pay for the purchases. The new official had little to do. I remember the first offices—shabby, frowsy, all littered with papers, a few clerks; Mr. McNicoll, with tragically few passengers to care for; a treasurer who had nothing to guard; a road half complete, with a few cars and engines and which ran only from the old Dalhousie depot down at heel, always and hopeless looking.

"There was no inner sanctum then. Every head man was eagerly accessible.

"The general offices were removed to Victoria Square to the old Albert Building, closer to the Imperial Bank. Here there was an awful welter for a while.

"These were the dark days, which brought out Lord Strathcona to stem the tide of rage and indignation felt by the shareholders and expressed for them by Mr. Donald MacMaster, at the prevalent conditions—the passing of the dividend, the heavy indebtedness, the falling off in business, the dismal prospects for the future.

"'Let the management consider,' said Mr. MacMaster, indignantly, 'that many poor people, and many comparatively poor people, were induced to put their savings into this enterprise, with the promise that there would be returns. There are no returns. The small stockholders are alarmed. Why are we in the condition now disclosed?' Sir William Van Horne, who presided, said nothing, but blandly smiled upon the indignant speaker.

"'Jock' Morrison, that implacable iconoclast, rose up, and pointing his finger at Sir William Van Horne, said:

"'There is the reason why we have no dividends. I understand that that gentleman gets between $25,000 and $30,000 per annum from this corporation. I have to tell this meeting that I could go out on the street and get a dozen men who would manage this company better for $4,000 per annum. It is not big salaries we want. It is not palatial offices we want. It is dividends we want.'

"Then up rose Sir Donald (Lord Strathcona), and said:—

"'Gentlemen, I would be a richer man to-day if I had never touched or seen the C. P. R.; but I am not going to go back on it now. On the contrary, my faith, which has never wavered, is stronger than ever. I fully and unwaveringly believe in the C. P. R. I believe in its future. I believe that in a very short time, it will be the greatest carner in the Dominion of Canada. Mark my words. Retain your holdings. Do not give way to depression. The moment is unpropitious, owing to the general depression; but the clouds will lift; and you will be thankful, in the course of a year or so, that you held on to your stock.

"'This fine optimism lifted the pall of gloom which hung over the meeting, which broke into cheers when Sir Donald sat down.

"Sir William never answered. He sat like a sphinx; but when the official part of the meeting was over he thanked the officers and employes for their loyalty in a trying time, and said that not a single murmur had been heard at the cutting of the salaries and wages, which had been rendered necessary shortly before.

"Even, however, when the wages were cut—the balance was not forthcoming in the early years. The men had to get credit everywhere — from the grocer, the baker, the tailor. Many sold their mutilated salaries in advance.

"What intermittent walking of the ghost got on the nerves. It became a joke that the "ghost was not walking on the C. P. R."

"All that passed like a troubled dream. The corporation turned the corner. The earnings increased; the surpluses became real. Lord Mount Stephen retired. Sir William Van Horne became president. Sir Thomas Shaughnessy became first assistant and then general manager. "Pawkey" David McNicoll moved up from assistant passenger to general passenger agent, up and up, until he became manager and vice-president.

"The line extended. The copious and pungent advertising of the company struck the hungry regard of effete civilizations; the North-West began to fill up; and the time came when Sir Thomas Shaughnessy could buy a great Atlantic fleet without winking.

"This is all recent, of course; but if the inner history of the corporation, and of its leading spirits, could be written; if the surmounted difficulties, the troubles, the hindering factors, the despair of able men, who, nevertheless, held on to an undertaking, which is now the biggest of its kind in the world—if all this could be adequately and intimately set forth, it would beat many a dazzling romance."

DEATH OF WELL-KNOWN CANADIAN WRITER

MISS AGNES DEANS CAMERON.

Special to The Montreal Star.

Victoria, B.C., May 14.—Miss Agnes Deans Cameron, the noted Canadian writer, traveller and lecturer, died in St. Joseph's Hospital here yesterday, following an operation for appendicitis, after an illness of a few days.

Agnes Deans Cameron was in many ways a remarkable woman. She came of ultra-pioneer stock. Her father, Duncan Cameron, a Hudson's Bay Co. officer, was the first white man to cross the Island of Vancouver, and her mother made the journey from Scotland around the Horn to Victoria to be married.

Miss Cameron was born in Victoria on December 20, 1863, and while she was essentially a loyal Canadian, she was especially enthusiastic for her native province. Beginning in her very early teens, she was for twenty-five years a teacher in the schools of Victoria, and was early recognized as an educator of more than ordinary ability.

Miss Cameron began writing newspaper and magazine sketches very early and was for many years a correspondent of the Seattle Post-Intelligencer.

Winnipeg made her acquaintance first in 1904, when she attended a meeting of the Dominion Teachers' Association. Two of her addresses created an amount of discussion hardly provoked by any others made on that occasion.

In 1906, at the first annual meeting of the Canadian Women's Press Club, in Winnipeg, she delivered an address on Rudyard Kipling which is still quoted by admirers of that writer. At that time Miss Cameron was urged to accompany the party of newspaper women which toured the West in the interest of immigration under the direction of Herbert Vanherhof, and her sketches and articles discriptive of that trip found ready sale in both Canadian and American publications.

Immediately after that she took up her residence in Chicago, joining the staff of a magazine, at the same time contributing to a number of other publications.

Two years later, in June of 1908, she left the North, making the trip down the Mackenzie River and later up the Peace River to Dunvegan. This trip was one of the most remarkable ever made by any woman. Miss Cameron was accompanied by her secretary, Miss Jessie Brown. Six months' time was occupied in the overland trip, the mode of travel being Edmonton to Athabasca Landing, 100 miles, by stage, and 100 miles of river rapids in open scows. Athabasca Landing to Fort McMurray, included 100 miles of like travel and thence down the Athabasca river to Lake Athabasca, down the Slave river to Smith's Landing by boat. Smith's Portage included in its itinerary many miles of mosquito-haunted muskeg.

On down the Slave river the party went and across Great Slave Lake then back by the Mackenzie to the sea—an up-stream journey along the Mackenzie, re-crossing the Great Slave Lake to Lake Athabasca. There Miss Cameron began the trek west, ascending the Peace River for hundreds of miles; in an open boat, encountering all kinds of weather, and a portage of some 100 miles—with walking exercises of 100 miles; and, after a tour of Lesser Slave Lake she reached Athabasca river.

Miss Cameron and Miss Brown, who were the first women journalists to make this record trip, were in perfect health at the end of it, and on their return brought back with them much information and many curiosities. It was from the material gathered on this trip that she wrote her well known book, "The New North."

She also delivered a number of illustrated lectures on this trip both in Canada and the United States, and subsequently went to Great Britain, where she lectured extensively along the same lines for the Canadian Government. Her splendid voice, witty tongue and exceptional powers as a raconteur made her a particularly successful lecturer and there is no doubt that in this way she did admirable immigration work for Canada. Charles Ponsonby, one of the directors of the Canadian agency in London, while on a visit to Canada last autumn, stated that she was probably the most successful lecturer on Canada who had visited Great Britain.

Miss Cameron returned to Canada last November, and after a few days in Chicago, went on to her old home in Victoria, and was understood to be engaged on a book which had been ordered by her publishers.

Miss Cameron leaves two brothers, Mr. W. G. Cameron, a former member of the Legislature of British Columbia, and now an alderman in Victoria, and Mr. Charles Cameron, who is in business with his brother in Victoria; and also two sisters, Mrs. Brown and Miss Jessie Cameron, both of Victoria.

Hearst's American Again.

"A St. John (N.B.) Citizen," writes to The Star, pointing out that the organ of the ex-Minister of Public Works in St. John is still crusading in favor of reciprocity. He adds:

"I regret to observe that the Boston American is again getting a footing in this section. Recently it was delivered without charge from house to house. Can it be that the management are working with the intention of later on renewing the reciprocity campaign? It looks like it."

FROM THE STAR FILES THIRTY YEARS AGO TODAY

The Late Rt. Hon. Sir John A. Macdonald.

Ottawa.—The Dominion Parliament. —Mr. De Cosmos called attention to the serious extent of Chinese immigration into British Columbia. Sir John Macdonald said no complaints had been received by the Government concerning the encroachment of Chinese on white labor. In fact, white labor was so scarce that if the Pacific Railway was to be finished in the specified time, it would be necessary to use the Chinese laborers. Whenever any practical difficulty arose, it would be within the power of the Legislature to take some such action as had been taken in the United States, but so far the Government saw no necessity for any such action, as both white and Chinese laborers could get all the work they wanted on the railway. The subject would, of course, be considered by the Government.—From the Montreal Star, May 14, 1882.

THOSE who knew Sir John will appreciate his answer. He had pledged his personal honor to build a railroad to unite the Dominion so that it could be a practical link in the Empire he loved so dearly.

Paris, May 14.—The Government sent numerous telegrams to Tenion and Algiers. There is reason to believe that the French Ambassador has been instructed to proposed to the English Government that an Anglo-French squadron be immediately despatched to Alexandria. —From The Montreal Star, April 14, 1882.

THE final result of this move was the despatch of a fleet under Sir Beacum Seymour, which had to act without any assistance from France. The action was very quick and decisive. The British Government considered diplomacy too tardy.

Phosphate for shipment to England has already begun to arrive from the mines on the Ottawa, and about 1,000 tons are daily arriving at the wharves awaiting the ships to load it. The export of phosphate from this port last year was valued at $250,000, and it is expected that this year's trade will be of twice the value. From The Montreal Star, May 14, 1882.

TO-DAY the phosphate trade of this country can be carried on in pill boxes as specimens.

BROCKVILLE, ONT. — James Sheridan dropped dead on the C.P.R. wharf yesterday.

NEW YORK DAY BY DAY.

New York, May 13.

New York's Fourth of July Committee is jubilant. It declares that but twenty cities had "sane Fourths" in 1909, when 5,307 persons were killed as a result of the celebration. But 2,923 persons were killed and injured in 1910, because ninety-one cities had "sane Fourths," and in 1911, when 161 cities fell in line, the number of dead and maimed was reduced to 2,602. There is a degree of truth, therefore, in the committee's boast that "three years of 'sane Fourths' have saved 6,000 persons from death and injury."

It may not be creditable to New York that the initiative for a national monument to Elmer Ellsworth has been left to the Representative of another state, but at least it is gratifying to have the too long neglected work undertaken. Ellsworth was not a great military figure in the Civil War, but he was one of its most gallant and romantic figures, one of its earliest martyrs, and his death created perhaps a more marked impression, because of its time and circumstances, than that of any other one man in all the war. It may be added that, unlike some other incidents, the romantic and tragic circumstances of his death are known and authenticated beyond all dangers of either denial or exaggeration. An appropriate national memorial of the young hero should ungrudgingly be erected, and it may stand in the national capital within view of the very spot on which he lost his life for the sake of the nation.

The rowdies who were sent to Blackwell's Island by Magistrate House, might have several companions in temporary exile if there had been any one present to arrest them in a subway train. The train was going uptown crowded, and on one of the platforms stood an old man in shabby dress who carried two large paper bags. Three hoodlums jostled and pushed the man, who could not defend himself. Finally an extra hard push knocked the boxes from the old man's hands and the contents of one fell under the feet of the passengers as they hurried off the car at 96th street. The boys also got off and jeered at the poor man's plight. The woman who told the story said that not one of the many men who saw the disgraceful performance volunteered to stop it.

CLOSING GUNS OF ELECTION CAMPAIGN BEING FIRED TO-DAY

Ald. Boyd Had Rousing Meeting to Close His Public Appearances.

Over a dozen political meetings were held last evening in the various city constituencies and to-night will see an equal number, nearly every candidate on the Island having arranged to fire his last shell before to-morrow's voting.

In several cases, however, the energy of the workers will be directed towards the completion of the work of manning the polls with scrutineers and in giving those engaged in to-morrow's battle their final instructions.

Ald. Boyd's Last Meeting.

Ald. Leslie H. Boyd, the Conservative candidate in St. Lawrence division, held his closing public meeting last night in Coronation Hall on St. Lawrence street. The gathering was presided over by Mr. David Freedman and was well attended, addresses being delivered by Mr. Boyd, and Messrs. Campbell Lane, K.C.; H. Bloomfield, and G. Archibald Forbes. To-night will be spent by the committee in charge of the campaign in instructing the volunteer workers in their duties.

Another candidate who, with his committee, will spend this evening in drilling the workers is Mr. C. Ernest Gault, the Conservative nominee in St. George, who will meet his field force for St. Andrew's ward at 673 St. Catherine street west and the St. George and West ward workers at No. 5 Beaver Hall Square.

Laurier Triangular Fight.

The triangular fight in Laurier division is being continued up to the closing night of the campaign. Last evening the Conservative candidate, Mr. Alban Germain, K.C., addressed good gatherings in the riding, the first at Fairmount Hall and the second at St. Jean Baptiste Market Hall. The former was for English-speaking electors and was addressed by Mr. Germain, Mr. Campbell Lane, K.C., and several others. At St. Jean Baptiste Market the hall was crowded and the candidate was given a rousing reception.

One of Mr. Germain's opponents, Alderman Nap. Turcot, also held two meetings in the ward in support of his candidature.

Appeal to Summer Residents.

Mr. C. A. Harwood, K.C., Conservative candidate in Vaudreuil County, held several meetings in the constituency last night.

This constituency is of special interest to Montrealers who spend the summer in the county, and Mr. Harwood, who is an official of the Montreal Citizens' Association and syndic of the Montreal Bar, is making an appeal to Montrealers who have votes in the county to exercise their franchise in his behalf.

Mr. Harwood comes of one of the oldest families in Vaudreuil County, the members of which have always been active in public life, having represented the county at various times in the Dominion Parliament and the Quebec Legislature.

COQUITLAM

THE NEW PACIFIC CITY ON THE C. P. R.

AT THIS POINT ON PITT RIVER, TWENTY MILES FROM THE PACIFIC OCEAN, THE C. P. R. WILL HAVE LARGE FREIGHT TERMINALS.

As youth is the Best of Life so are the BEGINNING DAYS of a city the Best for investments for increase.

In the early days of a community real estate prices are low and the terms of purchase easy. In later days prices run into big money and terms are stiff. Yet the history of all cities shows that relatively larger profits are made on the low prices of the early days than on the higher prices of maturer years.

Lots in Vancouver that sold for $250 when the city was founded, have since sold for $100,000. The man who paid $100,000 has no such opportunity as the man who paid $250. But the West is still young and there are still foundation opportunities.

COQUITLAM

THE NEW TERMINAL CITY

renews the Vancouver opportunity of twenty years ago. Vancouver, like all great world cities, is beginning to buttress and support itself with outlying cities, the greatest of which will be Coquitlam, the new base of the C. P. R. Crowded out of Vancouver, the railway has sought more room by establishing its freight terminals and Pacific coast shops on the level plain of Coquitlam—seventeen miles from Vancouver. It has there acquired a strip of land more than two miles long and more than half a mile wide. This land was acquired from or through the Coquitlam Terminal Company, and is for railway purposes only. The surrounding townsite belongs to the Coquitlam Terminal Company.

The terminal plant and shops of the railway will probably mean the ultimate investment of many millions of dollars and the employment of an army of workmen. Expenditures already made or in sight already run well over a million dollars. An immense amount of preliminary work has been done and from now until fall nearly a thousand men will be busied on the first unit of the terminals, for which work alone $660,000 has been set aside.

But in the long run the activities of the railway will be eclipsed by those of other industries. Coquitlam is an ideal place for the location of the industries that must come to the Vancouver metropolitan district.

It has level land—a condition highly prized in a mountainous country. It has an abundance of hydro-electric power, not sometime, but now, at about $20 per horse power per year. It has a deep water harbour—the Pitt and Fraser Rivers, tidal but fresh. It is only twenty miles from ocean waters. It has vast quantities of timber tributary to it. It will have an abundant car supply. It has extensive trackage and water frontage at nominal prices. It has cheap lots for workmen's homes. It does not tax improvements. It already has good schools, many business houses, several industries and many miles of good streets and sidewalks. It will soon have electric railway communication with Vancouver and the fertile Fraser Valley. It is surrounded by a good agricultural country. It is on the main line of the C. P. R., and has ten daily passenger trains. It enjoys the blessings of the Pacific Coast climate.

It is largely owned and controlled by a big company whose prosperity depends on its prosperity.

This Company—our Company—is building an industrial spur railway at a cost of $30,000, and in grading streets and building sidewalks. The municipality is spending $200,000 on streets.

But the whole story is too long to tell here. Call on our representative, or write for further information or use the coupon below. The folders we will send you will repay the trouble even if you never invest a cent.

Have You a Few Dollars You Would Like Doubled?

A wise real estate investment often earns a man more than his salary.

Mountain View

Easy Terms

Prices To Advance

A sure and safe way in which to double your savings is to invest them in MOUNTAIN VIEW, a beautiful piece of property immediately adjoining the C. N. R. Model City.

Lots in MOUNTAIN VIEW are obtainable from us at $330 to $759 each on easy terms. As the C.N.R. Tunnel will bring MOUNTAIN VIEW within eight minutes of the business centre of Montreal, these lots are bound to increase rapidly in value. In fact, a raise in prices will take place shortly, as MOUNTAIN VIEW lots at from 15c to 30c a square foot are certainly below their real value.

Those who are wise will secure lots at once. As there are only a limited number of lots in MOUNTAIN VIEW, the best locations will be quickly taken up.

If you mant to make your money work as hard for you as you have worked for it, call promptly and see the plans of MOUNTAIN VIEW. Let us explain to you why we consider that this property is the best proposition offered in Montreal Real Estate.

We do not reserve lots. We believe in first come, first served.

WHY? BUY? WEYBURN?

An absolutely "sure" second Saskatoon is always a good buy if you find it out in time. Weyburn's phenomenal progress, coupled with the latest moves of the three railroads, ensure for it a continuance of the rapid increase in values now taking place. Weyburn is the one supply point on a vast fertile interior stretching from the Soo line all the way to Lethbridge. The new Weyburn-Lethbridge line will be far the shortest and easiest grade C.P.R. line. All the through traffic will pass through Weyburn. Over $500,000 building and improvements during 1911; 7 elevators, 6 wholesales, 4 banks, head office Security Bank with 9 tributory branches. Lots for sale to-day from $200 up to $20,000 each, on terms to suit. Prices right at the commencement now. The shrewd buyer will recognize Weyburn as a snap. Our specialty is central business properties. We have the very best at surprisingly low prices in this promising city. Write to-day. L. M. Delbridge, McArthur Block, Winnipeg, Man. 111 32 eod

3,000 MEX. REBELS FACE ANNIHILATION

Troops Commanded by Campa and Augumedo are Completely Surrounded by the Federals.

BATTLE OF CONEJOS WAS COMPLETE ROUT

And Federal Commanders are Fast Following Up Their Advantage.

From a Special Correspondent of the Central News, Limited.

Mexico City, May 14.—Latest advices from the front report that a body of 3,000 rebels, commanded by Generals Campa and Argumedo, whom Orozco despatched during Sunday's battle to attempt to turn the right flank of the Federals, was completely cut off by Huerta's forces, and are in danger of annihilation unless they surrender. The fuller the accounts of the battle at Conejos, the more overwhelming appears the victory of the Federal army.

Juarez Report Conflicts.

Juarez, Mex., May 14.—Rebel officials here were informed to-day of the capture of Mapimi by the insurrectos under Colonel Canalels. Confirmation of this report would indicate Orozco's success was accomplished fully, in the flank movement to the south-west of Conejos, begun on Sunday to check the Federal advance.

By worrying the Government forces in the vicinity of Mapimi Orozco hoped to divert a large part of Huerta's brigade southward. The Federal garrisons at Beremejillo and Mapimi were reported to be small, and a detachment of insurrectos in that vicinity later may harass even the Federal base at Torreon.

Pradillo Held by Rebels.

Francisco Pradillo, who ten days ago went to San Antonio, Texas, as an alleged envoy of Orozco, and brought Emilio Gomez here, was locked up late last night. Early to-day he was sent southward in custody to Chihuahua. Jose Cordova, Secretary of the State of Chihuahua, who came north to explain the mix-up over the assumption of the provisional presidency by Gomez, attributes the confusion to the over-zealousness of Pradillo.

Huerta Orders General Advance.

El Paso, Texas, May 14.—General Huerta, commander of the Federal troops, with headquarters at Conejos, recently abandoned by the rebels, today ordered an advance on the main body of the Orozco army, gathered at Escalon and Rellano. These points are about four hundred miles south of the American border, off the Mexican Central Railroad.

Advices from Huerta's camp were that the Federal forces would press forward to follow up the decisive advantage gained in the fighting Sunday, and that a battle may be expected early to-morrow. The rebels have had nearly forty-eight hours in which to recover themselves from the defeat administered by Huerta's command, through the superiority of his artillery, and last reports from insurrecto headquarters were that Orozco was confident of holding the positions now occupied by his men in the hills of Rellano.

HINTING AT A NEW SENSATION IN RICHESON CASE

Officials Mysteriously Declare They Expect Some Unusual Development to Come.

Boston, May 14.—There is a lot of talk of an unusual nature about something that Clarence V. T. Richeson, condemned murderer of Avis Linnell, threatens to reveal if he finds that he is going to be executed. For instance, an official whose business it is to follow the case closely said:

"We have absolute proof that Richeson within a fortnight offered a man at the Charles Street jail $100 it he would procure for him a vial of cyanide of potassium similar in shape and size to that which Richeson purchased from druggist Hahn, of Newton.

"We have the name of the man who received and reported the offer, the exact time it occurred and other circumstances. Now what do you suppose Richeson wanted a duplicate poison vial for at this late day, with his petition for clemency before the Governor and with death so close at hand? Doesn't it indicate that he expects to live longer than the court decreed? Richeson doesn't expect to die. Perhaps he wanted the duplicate vial for a 'plant,' but that suggests the question, Why should he want to plant it?

"There is something strange and baffling hidden in Richeson's case. I look for it to come out yet. It doesn't relate to the writ of error or to any legal opposition that may be directed toward the acceptance of his plea.

"Richeson will have something to say to the world or I miss my guess. He will not die without a fight on his own part. His conduct at jail indicates that."

Richeson was again subjected to a long examination yesterday at the hands of the three alienists appointed by Governor Foss to ascertain if he is insane.

Reports made to the governor by the alienists are so unfavorable to Richeson that it is believed that the governor will not ask the executive council to stay the death sentence, set for the week of May 19. Dr. Lloyd Vernon Briggs declared in his documental finding that Richeson was mentally accountable at the time he gave the poison to Miss Linnell, that Richeson is abnormal in many ways, but that he was accountable at the time of the crime, and is still accountable.

NO AMERICAN TRAIN CREWS ALLOWED THIS SIDE OF THE BORDER.

Ottawa, May 14.—Unless the companies can immediately show cause why such action should not be taken, the Railway Commission will issue a mandatory order forbidding the Midland or Great Northern railway from operating its trains from the border to Winnipeg with American crews.

AGENT-GENERAL SAYS QUEBEC IS NEGLECTED ABROAD

Dr. Pelletier Claims Federal Lecturers Ignore This Province in Their Work.

Special Staff Correspondence.

Quebec, May 14.—The Hon. Dr. Pelletier, former Speaker of the Assembly, and now Agent for the Province in London, has written a somewhat pathetic letter to the government of Quebec asking them to do more for the advertising of the Province in the Old Country.

According to Dr. Pelletier not one-tenth of the English people who know the first thing about the Province. Some of them are aware that there is a town of that name, but do not know that there is a Province and that this province is one of the largest and most prosperous of Confederation. Some of them even go to the length of asking, "Can you grow anything in Quebec?"

Dr. Pelletier points out that the Federal government maintains about twenty lecturers in London to sing the praises of the Canadian West, Ontario, New Brunswick, and Nova Scotia, these men, he claims, never say a word of Quebec, and he says the same is true of the railways and shipping agencies who obtain the bigger percentage the farther they send the immigrants.

They speak of Montreal as the seaport, and even of Toronto, but they do not mention Quebec.

Dr. Pelletier says that this province has a big task before it if it wishes to get the attention of the English immigrant and the English capitalist as it should. However, he hopes that a couple of years' work will bring about great changes in this respect.

Finish Astronomer Finds New Comet

London, May 14.—Dr. Hansen, the Danish astronomer, notified the Greenwich observatory last night that the tail of a comet of intense magnitude was observed at 2 a.m. on May 10th, in the constellation Cygnus. The comet has since been located by the Greenwich Observatory, and is now visible every night through telescopes.

A conference is to be held in Toronto, to form an association for the care of the feeble-minded.

THIRTEEN DEAD IN NORRIE MINE, IRONWOOD, MICH.

Men Rushed Into Newly Timbered Drift When Crumbling Began and Were Buried.

Ironwood, Mich., May 14.—Thirteen men were killed in a cave-in at the Norrie mine at 11.30 o'clock last night.

While working in a pit, the ground started to crumble. Rushing into another drift which they believed would be safe, the men were buried.

The drift in which the men lost their lives had just been re-timbered. One of the tracks worked loose and the timbers gave way, releasing an avalanche of earth and ore.

Only Argonauts For Stockholm

Winnipeg Four Announce They Will Not Go.

Special to The Montreal Star:

Winipeg, May 14.—The eight of the Winnipeg Rowing Club will not be sent to England to compete for the Grand Challege at Henley, and therefore will not be seen at the Olympic regatta. This announcement was made by President Con Riley of the Club, and a member of the crew, on Sunday night. Argonants of Toronto will represent Canada.

Mr. Riley stroked the famous four that won the Stewards Cup a couple of years ago and he is keenly disappointed over the fact that his men will not be seen in the big races across the pond this year, as he feels they would have made a good showing. The reason of the club not going is that some of the men cannot get away for the trip. The eight has been changed several times for this same reason and in consequence the officials have finally decided not to pursue the idea any further.

INQUIRY INTO TITANIC CASE IS RESUMED

Capt. Lord, of the Californian, is the Chief Witness at To-day's Hearing.

DID HE MISTAKE TITANIC FOR ANOTHER?

Difference of Opinion Between Officers of the Steamship Californian.

By Special Cable From Our Own Correspondent.

London, May 15.—Greatly to the disappointment of the public, especially the ladies, there were no signs at the Titanic inquiry to-day of either Mr. Bruce Ismay or Sir Cosmo and Lady Duff Gordon, though Sir Robert Finlay made it clear that the Duff Gordons would be called forthwith to explain the allegations of Fireman Hendrickson.

Mr. Bruce Ismay is understood to have placed himself fully at the disposal of the court.

Recalling strange tales of the so-called "mystery ship," to-day's evidence, though brief was of deep interest though, it does not affect the main object of the proceedings.

Captain Lord gave evidence to refute the story of the donkey engineman on the Californian, who declared that the distress rockets of the Titanic were seen and ignored by the Leyland liner.

He said that the vessel was seen four or five miles from the Californian but he was emphatic in his statement that she was not the Titanic and that the rockets she sent up were not distress signals.

He placed the position of the Titanic as thirty-two miles away from his ship.

The change in the character of the audience in court was mostly due to the expectation of the appearance of Mr. J. Bruce Ismay and the Duff Gordons. Hitherto the typical member of the public present has been the man in the street. To-day the proceedings almost became a society function. Ninety per cent of those who sat in the body of the hall were fashionably dressed ladies, while others looked down from the ladies' gallery.

There was again considerable difficulty in hearing. Plumes and feathers nodded impatiently as the fair auditors attempted to catch the gist of what was being said.

During the week-end counsel engaged in the case have visited the Olympic at Southampton.

WINDERMERE.

Capt. Lord Gives His Testimony

London, May 14.—The British court of inquiry into the Titanic disaster resumed its sittings to-day, when the officers of the liner California, which was in the vicinity of the Titanic on the night when she struck an iceberg and sank, were examined at length.

There was a considerable increase in the public attendance to-day, due partly to the belief that Mr. J. Bruce Ismay, the president of the White Star line, would be present. The body of the hall and the galleries were well filled, the seats being occupied chiefly by women.

Captain Stanley Lord, of the Californian, was the first witness to undergo examination.

Sir Rufus Isaacs, Attorney-General, indicated that there would be a material difference between the stories of the captain and his officers in regard to the steamer seen from the deck of the Californian during the night of the catastrophe.

Lord Mersey, the President, remarked that the impression was on his mind that the steamer was the Titanic.

Captain Lord, however, said that he was sure the stranger was not the Titanic, but a vessel of about the size of the Californian.

Asked whether the third officer of the Californian had not seen two masthead lights during the night, Captain Lord said the third officer told him so the next day, but both he (the captain) and the second officer saw only one masthead light.

LORD MERSEY EMPHASIZES A STRANGE COINCIDENCE.

Sir Rufus Isaacs explained that according to his information the Titanic was the only vessel in the vicinity on that night showing two masthead lights.

Captain Lord, continuing, said, he had not been told that the deck lights of the vessel had disappeared. What the second officer of the Californian reported in the morning was that the vessel whose masthead light had been seen had stopped during the night, but had started again at about one o'clock and went off to the south-westward, her stern light being seen at 2 o'clock.

Lord Mersey: "That was the time when the Titanic went down, and nothing has been heard of the steamer you saw since that time."

Captain Lord replied: "That's so."

Witness continued: "It was reported in the morning that the steamer which had been seen during the night had fired several rockets, but I saw only one.

"I thought it might have been a company signal or an acknowledgment of the Californian's Morse signals, by which we had been trying to communicate with the steamer. If they had been distress signals, I should have heard the reports of the rockets, as the vessels were only five miles apart. I did not hear that the Titanic had sunk until the morning. At the time I thought, as she was reported to be nineteen miles away, we might have seen her sinking."

Allen Edwards, who is a member of the House of Commons and a barrister as representative of the dockers union examined Captain Lord in regard to a wireless message received from the Titanic, telling the Californian to "shut up," and asked him whether he and his officers were not offended by that message.

Captain Lord replied that they did not discuss it.

CAPTAIN COULD NOT REMEMBER BEING CALLED.

The other officers of the Californian were sent out of Court during the examination of Captain Lord, at the request of Sir Rufus Isaacs.

Captain Lord, continuing his testimony, said that both the apprentice and the second officer, who were on the bridge during the night, told him in the morning that they had called him, during the night and had reported that a vessel nearby had been firing rockets and that he had answered their calls. He himself, however, could not remember doing so, and in the morning asked the second officer why he had not been called.

The officer replied that he would have called the captain himself if he had thought that the rockets were distress signals. The second officer said emphatically that the lights were not distress signals.

According to the apprentice, Captain Lord, when he was called, asked if the lights were white ones.

Sir Rufus Isaacs asked: "Why would you ask that question?"

Captain Lord—"Because the company signals are made with colored lights."

Sir Rufus Isaacs—"Then white lights are distress signals."

Captain Lord—"Some companies use white lights."

WOULD HAVE ATTEMPTED RESCUE, HAD HE KNOWN.

Lord Mersey and Sir Rufus Isaacs protested that the captain was not doing himself justice.

Captain Lord, in reply to his own counsel, said:

"While it would be dangerous to go through ice, if I had known the Titanic was sinking I should certainly have done so, although I do not believe I could have reached her in time."

Lord Mersey requested Captain Lord to give the address where he could be found until the Californian sailed again.

SAW ROCKETS LONG AFTER TITANIC SANK.

Gibson, an apprentice on the Californian, who was on the bridge of that vessel during the night of the disaster, said that he could not see the outlines of the steamer, which was lying nearby, but only the glare of her lights.

Lord Mersey: "Would not the glare of her lights indicate that the vessel was a passenger steamer?"

Witness did not reply to the question, but said that while watching the steamer, which was firing rockets, the second officer remarked that the steamer was not firing rockets at sea for nothing, and that she appeared to be very queer out of the water, and seemed to have a heavy list to starboard. He did not think the vessel was exactly in distress, but was in trouble of some sort. He thought she was a tramp steamer.

Lord Mersey: "Would you expect to see the glare of the lights of a tramp steamer?"

Witness: "Yes."

Gibson told of his reporting the firing of rockets to Captain Lord, a report the captain had previously testified that he did not remember receiving. Gibson said that the captain was awake.

Witness further testified that at 2.40, long after the Titanic had sunk, he saw another rocket.

BERNHART SHOW'S VIEW OF THE DISASTER.

New York, May 14.—A London cable says:

George Bernard Shaw, in an article in The Daily News entitled, "Some unmentioned morals of the Titanic disaster, asks:

"Why is it that the effect of a sensational catastrophe on a modern nation is to cast into transports, not of weeping, not of prayer, not of sympathy with the bereaved nor of congratulation of the rescued, not of poetic expression of soul purified by pity and terror, but of wild defiance of inexorable fate and of undeniable fact by an explosion of outrageous, romantic lying?"

Mr. Shaw criticises the stories in regard to "women and children first" and the tributes to Captain Smith, who he says is written of in the newspapers "as if he were a Nelson," whereas "the one thing positively known about Captain Smith is that he lost the ship by deliberately and knowingly steaming into an icefield at the highest speed he had ever tried for."

Mr. Shaw concludes:

"What is the use of all this ghastly, blasphemous, inhuman, braggartly lying? Here is a calamity which might well make the proudest man humble and the wildest joker serious. It makes the ridiculous, insolent, mendacious. The effect on me was one of profound disgust, almost of national dishonor. Am I mad?

"It seems to me that when deeply moved men should speak the truth. The English nation appears to take precisely the contrary view. Again, am I in a minority?"

SIR WILLIAM WHITE RECONSTRUCTS DISASTER.

London, May 14.—Sir William H. White, the naval expert who was at one time chief constructor of the British Navy, in a four-column letter to the Times, reconstructs the Titanic disaster, on the evidence now available.

He considers that only one minute elapsed between the time of warning of the iceberg by the lookout and the collision which destroyed the watertightness of the shell-plating for 250 feet from the stem and threw open the five foremost watertight compartments.

He estimates that the rent in the ships side must have been 25 feet below the water line.

The people on the decks, Sir William asserts, could have no sense of their danger from the slow sinking of the boat. The stories of the ship having broken in two, he believes, are incredible. He thinks that the vessel may have received internal injuries by the tremendous force of the impact arising through her high speed, and says that when the temporary excitement had disappeared it will be seen that the question of boat equipment must be treated as subordinate to that of efficient watertight subdivisions.

Possibly, he adds, ship owners will concur in action to make such subdivisions the subject of legislation or lines to be agreed upon by the Board of Trade and the ship owners, and he expresses the hope that if such action is taken it may be of international character.

CUTTING RATING OF PASSENGER STEAMERS.

San Francisco, Calif., May 14.—As a result of the disclosures brought out by the Senate committee investigating the loss of the Titanic, twenty steamships plying between San Francisco and other ports on the Pacific coast, and in the Orient, have had the passenger rating cut from 20 to 40 per cent by Federal inspectors.

They will not be allowed to return to their former rating until they have conformed with the laws. The vessels affected, according to inspectors, include three of the largest trans-Pacific liners, and nearly all of the big coastwise passenger craft.

New York, May 14.—A Titanic symphony, wherein "Nearer, my God, to Thee," will be the leit-motif, is being written by a Russian composer, Glazuetoff.

It will be called "A Song of Death."

BRUCE ISMAY STARTS SEAMEN'S WIDOWS' FUND.

Liverpool, May 14.—Mr. J. Bruce Ismay, managing director of the White Star Line has contributed £1000 and Mrs. Ismay £500 as the nucleus of a fund which Mr. Ismay suggests that the Earl of Derby, who is Lord Mayor of Liverpool should initiate in order to provide pensions for the widows of seamen who lost their lives while serving in vessels of the British mercantile marine.

SECOND OFFICER DID NOT EXPECT DANGER.

Herbert Stone, second officer of the Californian, admitted that frequent white rockets were meant as signals of distress, but persisted in his assertion that he did not believe the vessel was endangered or that the rockets signalled distress because the vessel was steaming away from the Californian. He never learned the name of the rocket-firing ship.

Second Officer Stone was sternly cross-examined by Lord Mersey and the Attorney-General.

The Ottawa City Council last night approved of the report of the Federal District Committee advocating the making of Ottawa the national Capital, and will bring out all the changes in the all-starred "cruise" beginning with the 16 full staff from Southampton and ending with the plunge into the depths in the cold seas of Cape Race.

Four thousand immigrants were landed at the Louise Embankment, Quebec, from four steamers yester-

BLANCHE DAVID REMAINS AWAKE.

But Consideration of Her Case is Postponed.

By a little extra effort on the part of the Court attendants Blanche David, the sleeping girl was kept awake [illegible] enough to be brought before Police Magistrate Bazin and have her case remanded for another week.

Blanche is before the court on a charge of having stolen various articles from a family with whom she was employed as a servant. When arraigned she threw the court off its balance by dropping off to sleep before the proceedings were concluded. The case will come up on Tuesday next.

Phil Parmalee Nearly Knocked Into Pacific Ocean by Sea-Gull's Flight.

London, May 14.—The well-known English aviator, E. A. Fisher, and Victor Louis Mason, an American identified with extensive mining interests, and at one time private secretary to the American Secretary of War, General R. A. Alger, and to his successor, Elihu Root met their deaths yesterday while making a flight at Brooklands.

Fisher was giving an exhibition and had picked Mr. Mason as a passenger from among the spectators. They circled the track once when, eye-witnesses say, the machine, which was a monoplane, made an abrupt turn. It wavered a moment and then fell straight to the earth.

The sudden stoppage in the air threw Fisher headlong from his seat. Mason was pinned beneath the wreckage, which caught fire, and he was badly burned before being extricated. Physicians state that both men died almost instantly.

Thomas Sopwith was also flying around the grounds with a passenger at the time and witnessed the accident. He flew in the direction of the wrecked machine and alighted close beside it. The two men tried their utmost to beat down the flames.

In the meantime the crowd rushed to the spot and extinguishers were applied, but when the flames were quenched the machine was almost destroyed.

Fisher's body was found twenty yards away, his neck having been broken. Among the spectators were Flanders, owners of the monoplane, and Commander Samson, who made a notable hydro-aeroplane flight at Weymouth last week.

According to newspaper reports, Mr. Mason was a friend of Commander Samson's. The latter accompanied him to the grounds and, it is reported, arranged for the flight with Fisher.

Victor Louis Mason resided in Passaic, N. J. He was born in Washington in 1870. His wife was Miss Daisy Comstock Simons, of Washington. He was associated with General Alger in Detroit from 1899 to 1902.

GULL NEARLY CAUSES AVIATOR'S DEATH.

Special to The Montreal Star.

Los Angeles, Cal., May 14.—Phil Parmalee was flying over the ocean at Venice at a height of 1,000 feet yesterday when his biplane struck a sea gull, and dropped like a plummet 500 feet before the aviator could regain control. Thousands of spectators on the sands and piers thought the young aviator was plunging to his death in the ocean.

Parmalee was flying beautifully when he saw the gull approaching him. He turned his machine to the right, and the bird also turned and flew against the propeller, throwing the engine out of gear temporarily, causing the machine to plunge downward. Parmalee worked desperately at the levers and finally succeeded in balancing his machine and starting the engine.

AMATEUR AIRMAN KILLED AT ST. LOUIS.

St. Louis, Mo., May 14.—Ray Wheeler, amateur aviator, was killed and Peter Glesser, a companion, was probably fatally injured when their machine struck a telegraph pole at Kinloch Park last night.

The accident occurred when the aeroplane was caught in a whirlwind 100 feet above the earth.

Wheeler and Glesser were thrown thirty feet. Wheeler's skull was crushed, his right leg was broken in three places and his right arm was fractured. He died on the way to the hospital.

RALPH McMILLEN SERIOUSLY HURT,

Perry, Iowa, May 14.—Aviator Ralph McMillen was seriously injured during an exhibition flight here last night. When more than 100 feet in the air the engine of his biplane went dead and the machine fell into a creek. He suffered two broken legs, a broken shoulder bone and numerous other injuries, but probably will recover.

Harry Williams, who accompanied him, was not seriously hurt.

"Complexion Secrets Of An Actress"

In a recently issued volume bearing the above title, the author says: "Continuous use of grease paints, rouge and the like, had ruined my complexion. My skin was colorless, wrinkled, flabby, coarse and punctured with large pores. In England I heard of the virtues of mercolized wax; my first experience with this marvellous substance convinced me it was more valuable than all cosmetics combined. Now whenever my complexion begins to go wrong I get an ounce of mercolized wax at the nearest drug store, spread on a thin layer of it before retiring, washing it off next morning. The wax, after a few such treatments, seems literally to absorb the worn-out cuticle, when a brighter, healthier, younger-looking skin appears. "For the enlarged pores, wrinkles and flabbiness, I began using a solution of saxolite, one ounce, dissolved in a half pint witch hazel. Bathing the face in this soon relieved the condition most wonderfully."—(Advt.)

ST. GEORGE'S VESTRY.

Finances Flourishing—Divided Opinion About the New Hymnal.

Another meeting of St. George's Vestry was held last night, but owing to there being several matters still to be decided at the close of the meeting, it was again adjourned for a week, Dr. Paterson-Smyth presided, and among those present were the Rev. W. S. Major, and Messrs. Wilson-Smith and J. H. Birks, the wardens.

The report of Mr. Birks on the finances of the church show that these are in a very flourishing condition, with a revenue for the year of $26,973. For home and foreign missions and special grants, $10,790 had been paid out. A proposal that the envelope system should be adopted was referred to the executive committee. A motion to change the date of the Vestry meeting back to Easter Monday was defeated by a large majority. The question of adopting the new Canadian Hymnal instead of the Ancient and Modern Hymn Book, which is in use at present, was postponed for decision till the adjourned meeting.

CHILDREN WITH MATCHES.

Probably Caused the Fire in Dr. Casgrain's House.

Children playing with matches, was given as the probable cause of the fire which broke out in the house of Dr. Edgar Casgrain, 1354 St. Hubert street on Saturday, at the inquiry held yesterday before Fire Commissioner Ritchie.

The fire which broke out in the house of Leonard Launo, 2469 St. Hubert street on Friday was unexplained, no one being in the place at the time.

INTERCOLONIAL RAILWAY IMPROVED SERVICE.

With the change of time, which will take effect on June 2nd the Ocean Limited, leaving Montreal at 7.30 P.M., will be run daily, between Montreal and Halifax. Previous years this train did not run on Saturdays, but in view of the increase of traffic and the popularity with the travelling public of the now far famed train "Ocean Limited" the Board of Management has decided to run a daily service between Montreal and Halifax. This train carries vestibule cars and through sleepers, as well as a dining car, where meals will be served a la carte, another inovation, which will no doubt be much appreciated by the patrons of the Intercolonial Railway.

GIRL MAY DIE; RUN DOWN BY CAR.

Clara Angrignon Stepped From Behind One Car; Struck by Another.

Clara Angrignon, aged 20, 1872 Labelle street, was knocked down and probably fatally injured by a Westmount Boulevard car, at Westmount and Rockland avenues, last night. The girl, who is in the employ of Mrs. H. A. Nelson, 561 Grosvenor avenue, Westmount, had gone out for a walk. Passing behind a westbound car, she ran in front of a car going east, and was knocked down.

When picked up the girl was unconscious. This morning she revived only long enough to give a nurse of the Western Hospital her name and address. The physicians hold out little hope for her recovery.

In Wall Street

Buying of the anthracite coal stocks was the prominent feature at the opening of to-day's stock market. Lehigh Valley soon rose 1½, with a substantial fractional gain for Reading. Canadian Pacific made a new high record, with an overnight gain of 1½. American Sugar was the strongest of the industrials, advancing 1½. U.S. Steel and the metal stocks showed underlying strength.

There was some weakness in International Harvester, Republic Iron and Steel and Rock Island pfd.

United States Steel led the market during the morning session both as regards strength and activity. The rise particularly largely of a drive against the short interest, which had grown in the last few days by reason of the Government's inquiry against that corporation. The fact that prices of many manufactured products in steel and iron have recently been advanced, was a helpful factor.

There was further realizing in Lehigh Valley and Reading, with reactions in American Can common and preferred, whose speculative connections with the coal stocks is generally understood. American Tobacco and International Harvester also displayed some heaviness, while the lesser-known specialties were prominent with gains that ranged from 1 to over 2 points. Trading diminished towards noon, with a hesitant undertone.

STEEL EXPERT IS WITH MR. PLUMMER

Mr. J. H. Plummer, president of the Dominion Steel Corporation, arrived at Sydney to-day, and is looking over the situation at the steel works.

He was accompanied from England by Mr. C. Stanley Martin, a noted English steel expert, who is looking over the plant with him, and, if he likes the situation, may decide to stay with the company.

Sydney is looking for another boom if the proposed shipbuilding scheme goes through, and the success of the project would be a bull card on Steel.

DOME EXTENSION'S DIP.

Dome Extension took another dip today, selling off from 35 to 36½. This is a decline of about twenty points in a week. It was 29 bid at noon.

Canadian Wild Cats In London Market

London, May 14.—Mr. Joseph Martin, in the Commons yesterday asked Mr. Asquith if he would appoint a Royal Commission to enquire into the question of Canadian investments floated on the London market, the most of which proved nothing less than wild cat schemes.

The Premier replied that he saw nothing pressing about the matter. It had been going on ever since he could remember.

COTTON STOCKS STRONG.

Can. Cottons was strong on annual report showing 6 p.c. earned on common, and sold at 29½; preferred sold at 75. Textile was firm at 70½.

CAN. NORTHERN EARNINGS.

Canadian Northern earnings first week of May, $331,200; increase, $18,000. Year to date, increase, $3,676,700.

To Revive Interest In Sheep Industry

Special to The Montreal Star.

Ottawa, May 14.—Steps have been taken by the Department of Agriculture to revive interest in and stimulate the sheep industry of Canada. At the present time there are less than two million sheep in the whole country. In the lower provinces and British Columbia the industry is at a low level.

Acting in co-operation with the Dominion Sheep Breeders, the Hon. Martin Burrill, has arranged for a number of sales of thoroughbred rams and ewes this year. They will be conducted in the Maritime Provinces and British Columbia, the Government assisting the association with a substantial grant.

Details of the plan will be arranged at a conference with sheep breeders here next Friday. It is believed that the steps to be taken will do much to stimulate the waning industry.

ADVANCE IN TRAMWAY.

There was an active demand for Tramway & Power to-day, under which the price rose from 38 to 39¾.

Canadian Power was correspondingly strong at 57 to 58, and Tramway at 65.

BOOM IN MARCONI SHARES IS DEAD

The boom in Marconi shares is reported dead. It was lively while it lasted, and many poor people who had what they thought a "demon" discovered a gold mine and cashed in during the boom.

The interest flattened out when old American continued selling ex rights. Trading in the new is at a standstill, and New York reports it difficult to find a market for the stock.

CAN. COTTONS EARNED 6 P.C. ON COMMON

Canadian Cottons, Limited, had a good year's business, according to the second annual report, which has been forwarded to the shareholders.

It confirms the recent reports of the earning of 6 p.c. on the common, and justifies the recent advance in the market price of the stock to around 29.

"The profits, together with rentals from leased properties, amount to $589,977.38. After deducting bond interest and dividends on preferred shares, there remains carried to credit of profit and loss account $174,477.38.

The sales for the year were $2,859,800, an increase of $154,975 over the previous twelve months.

The president, Mr. David Morrice, adds: "The properties of the Company are in excellent condition. It has always been our policy, as opportunity offers, to renew and enlarge the plant by adding the latest improvements in textile machinery. We are thus enabled to produce our goods at the minimum cost, and at the same time to keep pace with the increasing demand through the growth of the country."

Reference is made to the satisfactory purchase of raw material, to the good demand for fabrics of Canadian manufacture, and to the voluntary increase in wages, and the satisfactory relations existing between the company and its employes. The report adds:

"All the mills have been operated practically at full capacity throughout the year, and another full season's output is assured."

FARMERS BANK INQUIRY.

Toronto, May 14.—The Farmers' Bank enquiry was resumed this morning, but owing to a misunderstanding, W. B. Travers was not brought from gaol to give evidence, and the matter went over until this afternoon. Dr. Nesbitt will come up next week.

OPINIONS ON THE MARKET.

Shearson-Hammill.—We do not change our opinion that it is a dangerous market to buy, except on setbacks, as there is no buying power outside of the bull manipulation, which makes a hollow market to sell on.

Charles Head.—The market looks good for further advance, and we would advise a conservatively bullish attitude.

Laidlaw & Co.—The situation is not wholly a healthy one, and while under the circumstances it may be dangerous to sell stocks short, the conservative speculator will exercise great caution in buying except on substantial reactions.

R. M. Bauer: Easy money will prevent any very serious break, but the absence of the speculating public is something that will prevent for the time being any general big bullish movements, except in special directions.

Oswald Bros: Indications point to higher prices since sentiment has become once more conservatively bullish.

Burnett & Co.: Stock held firm up to noon and Steel was at its best.

E. & C. Randolph: In spite of some irregularity during the second hour, the tone held generally strong, especially in Steel, which continued to sell to its highest price.

Lounsbery & Co.: Market is a difficult one to judge outside of the manipulated stocks and copper stocks, which are strong on price of metal. There is little if any trading.

TO SUPERVISE ROYAL BRANCHES IN ONTARIO.

MR. STUART STRATHY, General Manager of Traders Bank.

TOPICS OF THE STREET

AN IDEA THAT SEEMS RIPE FOR REVISION.

It will be, in order to revise the views entertained some time ago in many quarters that stock trading was being retarded by the inordinate attention which was being paid to speculation in real estate pretty much all over the country.

This view prevailed prior to the present broadening of stock trading.

It is apparent that there is plenty of money for stock trading purposes, and it is safe betting that people who are buying shares now will be in a better position to realize than many who have tied up their money in land they know little or nothing about.

PRICE REACTION THAT MANY WOULD WELCOME

After the long continued experience of advancing prices of almost all commodities, it is interesting to note that lumber is lower than last year.

Mirimichi lumbermen say they will not make money this year, and under certain conditions may come out on the losing side.

It is interesting to have it brought to our recollection that prices cannot keep on going up forever.

Nowhere is this better exemplified than in the stock market, although some people lose sight of this inevitable fact.

Like many other things, the increasing cost of lumber helped to make the cost of living higher. A reaction in some other commodities should be in order.

THE STORY OF SCOTIA HARD TO BEAT.

The Nova Scotia Steel & Coal Co. republishes in pamphlet form "The Story of Scotia," from the Canadian Gazette in London.

As an industrial narrative it is well worth reading.

In 1872 the capital was $4,000 and the employees numbered 10. Now the capital is $13,000,000 and the number of employees 6,500.

It is a business record hard to beat, and it is doubtful if any Canadian concern can match it.

HOW NEW YORK REGARDS RISE IN PACIFIC

New York, May 14.—The rise in Canadian Pacific is creating interest here, and newspaper comments are general.

The World says: "Bidding up of Canadian Pacific was one of the diversions of the stock market yesterday. The floating supply of the stock in Wall Street is very closely held, and men in whose hands it lies seem to be able to make quotations what they please. The stock, however, has great potentialities, and the rise to 259⅝, a new high record established yesterday, was not regarded as unreasonable."

The Sun says: "Interest no more than languid was taken in the establishment of a new high record by Canadian Pacific. The new high price, 259⅝, simply served to remind Wall Street speculators that very few of them have taken any profit whatever from one of the market movements which has provided the best opportunity for substantial profit."

The New York Commercial says: "Canadian Pacific advanced on the recurring rumor that another special dividend from that company's land sales will soon be paid to its shareholders."

The American says: "Canadian Pacific's advance was on heavier trading than is usually seen in the issue. The low price of the stock is due to the failure of Wall Street to appreciate the value of the company's 20,000,000 acres of land. Besides, Congress is working hard for Canadian Pacific, trying to bar out of the Panama Canal all steamships owned by American railroads, leaving it free for those of Canadian lines. In addition to this, it is reported that $30,000,000 has been obtained in New York to use in harbor improvements at Vancouver to handle the big business that will come of the Panama canal."

BERLIN WAS STRONG.

Berlin, May 14.—Prices were firm on the Bourse to-day. Canadian Pacific was strong.

CALL MONEY REDUCED TO 5 PER CENT

Several banks have reduced the rate on call loans to 5 p.c., and it is considered probable that this rate will become general.

Some weeks ago private money was reported lending at 5 p.c., with even a shade off that figure in special cases, but the general rate at the banks remained at 5½ p.c.

The general trend of the money market is easier, and is no small factor in the bull campaign.

TO QUOTE B. C. CANNERS.

Arrangements are being made to have the new British Canadian Canners quoted in the unlisted department of the Stock Exchange, and quotations will doubtless be forthcoming to-morrow.

WESTERN COAL FIELD.

Regina, Sask., May 14.—Word was received from England that J. H. Haslam has completed the formation of a five million dollar concern with British capital for the exploitation of the Estavan coal fields. Viscount Haldane and Winston Churchill are mentioned as directors of the new concern.

Banque Nationale Had a Good Year

La Banque Nationale reports profits for the fiscal year ended April 30 of $293,564, compared with $262,513 the year before, making a total with the balance of profit and loss of $327,091. After providing for dividends, etc., there was a profit and loss balance of $92,091 compared with the preceding year.

NEW QUEBEC COMPANIES.

Special to The Montreal Star.

Quebec, May 14.—Two new companies have recently been formed at Quebec. One is the National Summer Resort Co., of Canada, with a capital of $250,000. The headquarters will be at Quebec, and the promoters are Messrs. A. Cadieux, R. Normandin and S. Monipetit, of Montreal. Another smaller company is the Quebec Progressive Realty Co., with a capital of $20,000.

DEMAND FOR PULP---PAPER ISSUES STRONG

The market for pulp and paper issues was again a prominent feature of the trading here.

Spanish River continued its advance from 57 at the close yesterday, going to 59½. The preferred was strong at 96¼.

This represents an advance in the common of approximately twenty points within the past few weeks by way of discounting the future earnings of the company.

A party of shareholders and financiers are leaving to-night to see the new paper mill at work at Espanolia.

Ontario Pulp had the most active session in the unlisted it has ever had, touching 45, but later selling two points lower.

Wayagamack was strong at 38, and the bonds at 76.

SAO PAULO'S NEW HIGH.

Sao Paulo touched a new high level at 217½.

MARKET NOTES

There is no change in maple product for which the demand is fair. We quote maple syrup, in wood, at 7c to 7½c per lb., and in tins, 70c to 75c, as to size, and maple sugar at 9½c to 10c per ..., as to quality.

The tone of the market for beans is firm, but the volume of business passing is small. Sales of car lots of 3-lb. pickers were made at $2.52½ per bushel, and prices range from $2.50 to $2.25.

Receipts of eggs yesterday were 2,200 cases, as compared with 1,209 for the corresponding date last year. The market was without any new feature, prices being steady under a continued good demand, and a brisk trade is passing.

The feature of the provision trade yesterday was another decline in prices of 5c to 15c per 100 lbs., for live hogs, notwithstanding the fact that the supplies coming forward are not more than ample to fill actual requirements. The demand from packers was good and a fairly active trade was done, with sales of selected lots at $9.25 to $9.60 per 100 lbs., weighed off cars.

Receipts of butter yesterday were 1,394 packages, as compared with 443 for the corresponding date last year. Although the market was weaker at Cowansville on Saturday there was considerable strength displayed at St. Hyacinthe and the price was bid up to 27¼, making a net advance within the past two weeks of 2½c per lb.

BETHLEHEM STEEL BONDS.

At the meeting of stockholders of Bethlehem Steel to take action in connection with authorization of issuance of $50,000,000 5 per cent. thirty-year gold bonds, the authorization was approved. Of this amount 17,500,000 will be issued immediately, including the $15,200,000 already sold.

SALES OF MINING STOCKS.

C. P. R. REACHING FOR HIGHER PRICE

Canadian Pacific kept going to-day, and, after opening at 267¼ in London, it went to 268⅞, a gain of 1⅝.

In New York the price opened strong at 261, and advanced to 262⅝.

Locally the price opened at a new high level of 260¼, and in the first hour advanced two points to 262¼.

London Reported Good Buying of C.P.R.

London, May 14. — Money was in good demand, and discount rates were firm today. The stock market developed an irregular tendency. There was marked strength in copper and oil shares and Canadian Pacific on good buying, but liquidation, due to fears of labor troubles, weakened home and other rails.

Foreign securities were steady, while Consols and Kaffirs eased off at the close. American securities were quiet and steady during the forenoon, under the lead of Canadian Pacific. Later United States Steel spurted, and the rest of the list scored additional gains. Denver and Rio Grande shares were weak exceptions.

NEW RECORDS MADE NEARLY EVERY DAY

The creation of new records in stock trading volume is now a matter of almost daily occurrence on the local Exchange.

Yesterday a new record was made for the year of 18,121 shares, exclusive of mining stocks, comparing with the previous highest, 16,491, on Thursday last.

Danger of Canker In Seed Potatoes

Special to The Montreal Star.

Ottawa, May 14.—Owing to the prevalence of potato canker in Europe, the Agriculture Department has issued warnings against planting in Canada seed potatoes imported from abroad. In a recent consignment, canker was discovered and the whole shipment destroyed. The regulations have been amended to require certificates from the vendor of seed potatoes that they have not been imported, and are free from disease. The canker is a fungus growth, liable to stay for years in the soil.

FRUIT BELT HAD VISIT FROM FROST

Special to The Montreal Star.

St. Catharines, Ont., May 14.—The Niagara district fruit belt experienced two degrees of frost last night. Leading growers do not anticipate any serious damage to the buds, but many tomato plants that had been set out suffered.

NEW CAR CO. PLANNING TO OPERATE HERE

The Street hears that American capital to the extent of $2,500,000 has been put up to enter the car building field of operations in Canada.

It is stated that the place selected for operations has not been finally decided on, but it will be either Montreal or Hamilton.

The financing has been done entirely on the other side of the line, and Canadians will not be asked to put any cash into the enterprise.

According to the current reports, the great development in Canadian railways and the big demand for rolling stock is considered as having been a fat thing for the Canadian companies in that line of business, has attracted the attention of Americans in the same line of business who were anxious to participate in the good things going.

TORONTO CATTLE MARKET.

Toronto, May 14.—The market to-day is holding firm in spite of a good run of all kinds of stock and a relatively small number of buyers. There is a prospect of sheep selling much lower. Receipts, 32 cars, comprising 1110 cattle, 300 sheep, 400 hogs and 700 cattle.

Export cattle, choice, $7 to $7.75; do. medium, $6.25 to $6.75; do. bulls, $4.50 to $6.25; butchers' cattle, choice, $7 to $7.45; do. medium, $6.40 to $6.75; do. common, $5.50 to $6.25; butchers' cows, choice, $6 to $6.50; do. medium, $5.50 to $5.50; do. canners, $2 to $3; do. bulls, $5 to $6.25; feeding steers, $5.75 to $6.25; stockers, choice, $5 to $6; do. light, $3.75 to $4.25; milkers, choice, $40 to $60 each; springers, $40 to $48; sheep, ewes, $5.50 to $6.50; bucks and culls, $5.50 to $6; spring lambs, $3 to $7; hogs, fed and watered, $8.80 to $8.85; hogs, f.o.b., $8.40 to $8.50; calves, 3c to 7½c.

Granby was quoted at 54 to 54½.

American Marconi, new, was 10¾ to 11¼, and Canadian 7 to 7½.

LORD MONTAGU COMING.

Lord Montagu, of Beaulieu, is on his way to America, to look into hydro-electric schemes along the Mississippi, in which financial London is very much interested. He will also look over the life insurance field with a view to combining British companies whereby they will obtain the advantages of united financial strength. Geoffrey Marks accompanies Lord Montagu.

MR. CARRUTHERS IN BEARISH ON WHEAT

From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.

Chicago, May 14.—James Carruthers, of Montreal, in a letter to your correspondent, says there will be an enormous shipment of wheat from Canadian and United States ports of Manitoba wheat in the next few weeks. He reports that no new export business is being done in Canadian wheat now, as resellers abroad are much below Canadian exporters' prices.

In a personal letter to friends here Mr. Carruthers expressed very bearish opinions, and predicted there would be declines this spring of 10 to 15 cents a bushel in wheat, corn and oats.

Wheat opened easier on lower cables and fine wheat crop and weather conditions the world over except Ohio valley, where situation is as heretofore, then realized on reports sale of four hundred ten bushels cash wheat branding soon after on very heavy sales by James Patten and following. Mr. Patten was long September.

The cash wheat sales proved to be a transfer between local distributors' market as its high point was only fractionally above last night's close, and at low point was nearly off 1 cent for active futures. World's available supply decreased nine millions, against decrease of 12,811,000 bushels last week, and 5,848,000 bushels a year ago. European visible increased 1,320,000 bushels, against a decrease of 4,100,000 bushels year ago.

C.P.R. 263¾, SOO AT 143¾, MARKET ACTIVE

Wall street 2 p.m.—An abrupt rise of almost five points in international Harvester gave color to the old report that a probable settlement of the suit instituted by the Government, but of this there was no confirmation.

Announcement of another advance in the price of copper metal due to renewed demand, failed to strengthen the copper shares to an appreciable extent. Sears-Roebuck added substantially to its previous rise, and Rock Island pref., National Biscuit, and International Paper, common and pref., all went to better prices than in the early session.

C. P. R. and Soo were active in New York at the close, C. P. R. sold at 263¾, and Soo at 143¾. Content was a big buyer of C. P. R. Other prices were: Harvester, 120, Lehigh 177½, N. Y. Central 120 5-8, Reading 176 3-8, Union Pacific 172 3-8, Steel 70 5-8.

CITY AND HARBOR REPRESENTATIVES DISCUSS MATTERS

The Board of Control waited to-day at noon upon the Montreal Harbor Commission and spent an hour discussing the several points at issue between the city and the river front authorities.

Chief among the questions discussed by the two interests was that of the proposed taxation by the city of the property administered by the Harbor Commissioners. The tax the city desires to levy on the $20,000,000 worth of property of the port is one per cent., in return for which police and fire protection would be accorded by the City Hall officials. The question of the responsibility for adequate protection in both departments has long been a disputed one, the city holding that it should not be called upon to provide either service, in view of the fact that the harbor property is exempt from taxation.

Another matter that the Board of Control has decided to take up with the Harbor Commissioners is the question of the sewage of the city being emptied into the Elgin basin. The Controllers desire that the outlet of this sewer should be put away out into the river. If this can be arranged the dirty condition of the water at the wharves will be done away with.

After the conference the civic representation, which consisted of Mayor Lavallee and Controllers Godfrey, Dupuis, Ainey and Lachapelle, lunched with the Commissioners on board the harbor tug, Sir Hugh Allan.

THE SHOE MACHINERY PRESIDENT ON STAND.

Mr. W. F. Winslow Under Examination Again.

At this morning's sitting of the Royal Commission's enquiry into the alleged monopoly of the United Shoe Machinery Co., Mr. W. F. Winslow, of Boston, the president of the company, was still in the witness box. During most of the time, Mr. A. Falconer, attorney for the petitioners, cross-examined Mr. Winslow on the methods of the company, telling the witness that he wanted him to give special data regarding the cost of machines, etc. The evidence, however, was of a general nature along the same lines as yesterday, it being difficult to give precise figures.

This afternoon, Mr. S. J. Knowlton, the Montreal manager of the United Shoe Machinery Co., will be examined.

Stabbed His Wife.

John Mecoltsky of 332 St. George street slashed his wife and wounded her badly about the face and arms when he came home last night in a drunken condition. The wounds, however, have not proved serious, and Mrs. Mecoltsky will be able to appear against her husband in court in a few days.

Killed on Stone Crusher.

Robert John Smallwood was crushed to pieces this morning, at the Vulcan Mills, of the Canada Cement Company, at Longue Pointe. The dead man had only been in the employ of the company for a day, as a cement mixer, and was instantaneously killed in a stone crusher.

Death on the Teutonic.

The Teutonic, which arrived in Montreal last night, reports the sudden death from heart failure of one of the firemen, named William McGuffie. The man was buried at sea.

BOMB IS REAL ONE EXPERTS PROVE BY AN EXPLOSION

Infernal Machine Taken to Quarry and Shock Shows Deadly Nature.

WOULD HAVE KILLED ANY PERSON NEAR

Mystery in Origin of Death-Dealing Machine Found in Cathedral Street.

That the suspicious object discovered last week by workmen wrecking old houses in Cathedral St. was really a dangerous bomb was demonstrated this afternoon when explosives experts under the direction of Dr. Milton L. Hersey set fire to the fuse and startled many in the north-eastern portion of the city. The demonstration was made in a big quarry near Delorimier Park.

Early last week what appeared to be an infernal machine was discovered in a shed which was being pulled down in the rear of 67 Cathedral street, a district occupied chiefly by an undesirable class of foreigners.

The alleged bomb was taken to the Chabollex street police station and was there placed in Cell No. 5 in a bucket of water. It was thought by those who had little experience that it was simply a window weight, but when on Saturday morning a piece of the alleged window cord was cut off by Inspector McMahon and afterwards a lighted match applied there remained no doubt that it was a gunpowder fuse.

Bomb is Exploded.

This morning Dr. Milton L. Hersey became interested in the case and with Mr. James J. Ross, consulting mining engineer and representatives of The Star, met Inspector McMahon and Captain Riopel. Taxis were ordered and the party travelled to Keegan and Dillon's quarry near Delorimier Park. The bomb was placed in the centre of the quarry, and a five-minute fuse attached to the bomb fuse. Foreman Lowe of the quarry gave the necessary warning to the neighborhood and a few minutes afterwards the fuse was lighted.

What would have happened had the machine exploded in a building can be easily imagined in view of the tearing of the rocks beneath.

Meant to Destroy.

When the bomb was presented to Dr. Hersey this morning, he made a 15-minute examination and then he said:

"It is unquestionably a bomb, and it could have been made for one purpose only, and that is to destroy life or property, or both," said Dr. Hersey.

Mr. Ross also examined it curiously and fully agreed with him.

"That certainly was not made for any honest commercial purpose," said Mr. Ross.

It was a cast iron shell, eight inches long and two inches in diameter, with a screwed on cap, and a couple of feet of what is known as "white jacketed fuse" attached to what might be called the fulminate tube leading from the cap.

The bomb was made in England or on this continent and not on the European continent. The measurements came exactly into inches and not metres as is used on the continent.

Took No Chances.

Arriving at the quarry about two p.m. the party immediately went to the centre of the pit and with the help of Mr. John Lowe, foreman of the Keegan and Dillon works, ten feet of fuse was attached to the infernal machine and every one started for cover.

Although the infernal machine had been in the water at the Chabollez street station for the past four or five days the fuse burnt just as fast as if it had been perfectly dry.

Mr. Love wanted to change the percussion cap, to make sure that the bomb would not miss fire but he was restrained from doing so by the advice of Mr. Hersey and of Mr. Ross.

Whether the bomb contained nitro-glycerine or what kind of explosives it did contain will never be known as the largest piece of cast iron, which was picked up from the bomb was only about two inches square.

A terrific ball of fire, not the least particle of smoke, and the biggest noise that has ever awakened the quarry, where blasting has been going on for years, was the sensation that struck the spectators as the bomb exploded.

The absence of smoke is what puzzled the experts present, and Dr. Hersey took a piece of the cast iron with him, and will analyze it to see if the kind of explosives which it contained can be ascertained.

The force of the explosion seemed to be upward instead of downward as is generally the case and the hole in the stone was not very great but the column of fire which rose in the air was such as could not be caused by the explosion of ten dynamite cartridges.

"The worst feature of this," said Dr. Hersey, "is that it indicates a cold-blooded organization for this kind of work, and we do not know where it will be heard from next. To make this shell some one who knew how must have made wooden moulds, and those moulds could only be used to make the casting in a properly equipped foundry. I have seen bombs which were made of a tomato can, but this indicates business."

That the bomb is one of a series is the opinion of Inspector McMahon. The bottle shaped affair was numbered with the figure 2 near the muzzle and the capping and connection of the fuse with the cap was the work of an expert.

DIOCESAN FUND.

It was stated at the noon-day lunch at Freeman's Hotel to-day that no definite statement as to the amount subscribed to date in the campaign to raise $250,000 as a permanent Diocesan Fund could be announced.

Mr. R. Wilson-Smith presided at the luncheon, supported by Bishop Farthing, Rev. Canon Paterson-Smyth and other active workers in the campaign. Mr. Wilson-Smith and Rev. Canon Paterson-Smyth both spoke and urged that enthusiasm should be inspired together with optimism.

There will be a special meeting of workers in room 24, "Guardian" building, St. James street, to-morrow morning at 10 o'clock, and for the noon-day lunch on Thursday at Freeman's Hotel invitations have been sent out to members of the large general executive committee.

CYLINDER, THOUGHT TO BE WINDOW WEIGHT, WAS VERY REAL BOMB.

Mr. Milton L. Hersey holding the bomb in No. 6 police station. It was set off later in a north-end quarry and did tremendous destruction.

GERMANY'S AERIAL MANOEUVRES CAUSE FEELING IN FRANCE

Paris, May 14.—The manoeuvres of a squadron of German military aeroplanes to-day along the Alsace-Lorraine frontier has aroused a furore of comment throughout France. The flights were supposed to be under war conditions, and it is feared in diplomatic circles, that the incident will intensify feeling and perhaps further complicate the already somewhat strained relations between the two nations.

Berlin, May 14.—The Kaiser to-day warned State Secretary Von Bulach, of Alsace-Lorraine and Mayor Schwander, of Strassburg, that he would make that territory a mere Prussian province if the existing hostile sentiment toward Germany is not modified. Discussing the political situation in Alsace-Lorraine, where a strong anti-German and pro-French sentiment is rising, and where the Diet attempted to strike the Kaiser's allowance from the Civil List, the Kaiser said to the State Secretary and the Mayor: "You now know only the best side of us. You may also learn the other side of us. If this continues we will recall your constitution and make you simply a Prussian province."

The Kaiser's warning followed the demonstration and manoeuvres by a squadron of military aeroplanists under Prince Henry on the French frontier.

Raphael Dinneni was yesterday afternoon at Toronto, sentenced to seven years' imprisonment on a manslaughter charge, for the death of Mrs. Elizabeth Fallon.

The Attraction of A Guaranteed Dividend

The puzzled investor who wavers between the high returns promised by stocks with little or no security behind them and the lower returns of a well-secured bond will be attracted to a security which offers the unusually high yield of 7%, combined with the security of investment in a large Canadian industrial concern of 27 years' standing.

The Siemon Company, Limited, is one of the largest manufacturers of Harwood Flooring and Veneers in the British Empire. Its growth for a quarter of a century has been steady and rapid. It now owns several mills and valuable hardwood timber limits in Canada and ships its products all over the world.

We would be pleased to send full particulars regarding the Company and to describe the extensions and improvements contemplated. It is to provide these that the present offering of $30,000 of 7% Preferred stock is made.

The Company's plant will be in operation by November of this year. Signed 5 and 10 year contracts now on hand amount to an annual revenue of over $130,000.00 including a 10 year contract with the City of Quebec for lighting the streets, public places, and municipal buildings.

On starting operations, the Company is now assured of a revenue, after providing expenses of operations, of much more than sufficient to retire its Bond Interest, dividend on its Preferred Stock, and show an excellent earning on its Common Stock. The Common Stock, as a result of the Company's position, the capable management which is assured, and its conservative capitalization must very soon command a very handsome price on the open market. DEAR MADAM:—You probably know that Nemo Corsets *OUT-WEAR* all others, and are therefore the most *ECONOMICAL;* but perhaps you don't know *WHY.* We will tell you some of the reasons:

1. We make more "high-priced" corsets than all other American makers combined, therefore can *AFFORD* to give you *DOUBLE VALUE* in material and making—and *WE DO.*

2. Seams are sewed by a method of our own invention and *CAN NEVER STRETCH* or give, as all others do; and the Nemo "Triple-Strip Re-enforcement" makes it three times as hard for the bones and steels to cut through at the ends.

3. Nemo Corsets are made to *FIT THE FORM;* and it is a well-known fact that perfect-fitting corsets last twice as long as corsets that do not fit, and which therefore strain the materials unduly.

YOU—and every other woman—will be greatly benefitted, in style and health and comfort, by wearing Nemo Corsets. Ask your dealer, and *INSIST* upon seeing them.

MANY FUNCTIONS FOR THE PREMIER IN QUEEN CITY

The Entertainment Commenced With Civic Luncheon at Noon To-day.

Special to The Montreal Star:

Toronto, May 14.—To-day will be a full day for the Hon. R. L. Borden, who arrived in Toronto this morning, with the Hon. J. D. Reid, to be the guest for a few days of Sir Edmund Osler, at Craighurst. The entertaining of the Dominion Premier commenced at noon, when a civic luncheon was tendered him. A civic address was presented to the Premier in the Council Chamber at the City Hall at three o'clock.

The principal event of the day, however, will be the laying of the corner stone of the new Central Y. M. C. A. building on College Street at 6 o'clock, after which the Premier and the Hon. Mr. Reid will be guests at the annual Y. M. C. A. banquet.

A number of other functions have been arranged for the Premier during his stay in Toronto.

To-morrow afternoon Mr. Borden will address the Women's Canadian Club, while on Thursday afternoon a reception will be tendered to Mrs. Borden by the Toronto Women's Conservative Club.

It is expected the Premier will remain in Toronto until after the arrival of His Royal Highness the Duke of Connaught.

SOCIALISTS DISOWN THE INDUSTRIAL WORKERS WING.

Majority Against Participation in Revolutionary Campaigns of Extremist Organization.

Special to The Montreal Star.

Indianapolis, Ind., May 14.—A seventy-five per cent. majority of the Socialist National convention last night declared itself against the attitude and methods of the Industrial Workers of the World organization.

Congressman Victor L. Berger, of Wisconsin, voicing the sentiment of the majority, declared:—

"This convention will assert the Socialist party's withdrawal from any 'free speech,' or 'revolutionary action' campaigns instigated by the Industrial Workers of The World."

W. D. Haywood attacked this statement vigorously, declaring the wing he represented would fight for appropriations in aid of the Industrial Workers' campaigns.

Committees and candidates are to be elected on Thursday.

ALLEN CASE GOES TO THE JURY THIS WEEK.

Claude Allen's Trial Next, Then Cases Are to be Consolidated.

Wytheville, Va., May 14.—On the eve of the Floyd Allen case going to the jury the Commonwealth attorneys to-day began planning for the trials of the four other members of the outlaw gang that shot up Judge Massie's court at Hillsville, nearly two months ago.

Because Wytheville county finances have already been greatly depleted by the Floyd Allen trial, it was the general belief here to-day that an agreement would be reached between counsel for the prosecution and defence to permit the consolidation of some of the remaining trials.

The original plan contemplated a separate trial for each of the defendants—a proceeding to which they are entitled under the law. It was stated here, on good authority, to-day that Claude Allen son af Floyd would next be tried alone, and then that Friel Allen Sidna Edwards, Byrd Marion and Victor Allen would be tried together, the defence it is said having acquiesced in this plan.

Final argument began yesterday in the case of Floyd Allen. When the court convened Judge Staples passed upon the instructions to the jury, and immediately afterward the opening speech for the prosecution began.

Ten lawyers are to speak, and the case may not be given to the jury before late Wednesday. The trial began two weeks ago to-day.

Club to Benefit Dogs is Formed

Novel Features Include Retiring Rooms for Canine Pets, With Kennel Maids.

Special to The Montreal Star:

London, May 14.—A new club, appealing to lovers of dumb animals, is in course of formation under the patronage of many well-known persons. The club, which is to be known as the United Counties Club, is being instituted to promote good feeling and cordial understanding between all lovers of animals, and arrangements are being perfected which will create an entirely new era in clubland.

A novel departure will be a dog's retiring-room in the clubhouse, consisting of premises with attendants, who will take charge of members' dogs when visiting the club.

A large, airy basement is to be fitted up with kennels, and there will be kennel maids as well as veterinary surgeon on the premises. Boarding animals at the club will be one of the features.

Railway Board to Hear Trainmen

Commission Will Take Up Complaints Regarding American Crew on Canadian Lines.

Ottawa, May 14.—The Railway Commission is to take up the question of the operation of Great Northern trains to Winnipeg, over the C. N. R. by American crews. Recently complaints were made by Canadian Northern employes respecting the matter, and a conciliation board was applied for.

This has been constituted in the regular way, but as the case has reference to an agreement between two railways, the commission will first look into it at the request of the Government. The companies will be asked to show cause why the custom should not be discontinued.

A coal mining branch is being organized in connection with the Natural Resources Department of the C.P.R. with a sales staff in Western Canada and the United States.

France has New Art Exhibition

Exposition of Retrospective Music and Dance Inaugurated by President at Bagatelle.

Special to The Montreal Star:

Paris, May 14.—President and Madame Fallieres inaugurated at Bagatelle yesterday a unique art exhibition. It is an exposition of retrospective music and dance, and is organized by the National Society of Fine Arts.

It is a marvellous collection of portraits of singers, dancers, composers and virtuosi. It comprises many autographs, objects of art, and precious souvenirs collected and loaned from many parts of the world.

A portrait of Cleo de Merode by Boldini was admired, as well as one of Christine Nilsson by Brochard.

Great interest was also taken in the portrait on Perignon of Madame Hortense Schneider, the famous beauty of the Days of the Empire.

EX-MINISTER RETURNS.

Mr. Fielding Reaches Quebec on the Empress.

Quebec, May 14.—Among the passengers on board the Canadian Pacific Railway steamer Empress of Ireland, which arrived yesterday was the Hon. W. S. Fielding, the former Minister of Finance, who, with his daughter, Mrs. K. N. Macfee, is returning from a trip to Europe. The Hon. Mr. Fielding seemed to be in good health and spirits. He did not care to discuss politics.

Mr. Smeaton White, of Montreal, was also a passenger on the Empress.

Huge German Liner Ready

Hamburg-American Boat Imperator Will be Launched on May 24.

Special to The Montreal Star.

Berlin, May 14.—The date for the launching of the new giant Hamburg-American liner Imperator, has been fixed for May 24. The vessel will probably make her first trans-Atlantic voyage next winter.

The Imperator is the largest German ship, and is surpassed in size only by the Cunarder Aquitania. The Imperator will be of 50,000 tons register. She is 900 feet long, will be equipped with internal combustion engines and two 1,500 horsepower Diesel motors, and will use oil as fuel.

There will be eleven decks on the liner, and she will be fitted out in most luxurious style. She will accommodate 5,000 passengers.

TENDERS FOR QUEBEC'S ELEVATORS ASKED SOON.

Harbor Commissioners at Work on Plans for Immense Improvements in Port.

Special to The Montreal Star.

Quebec, May 14.—A meeting of the Quebec Harbor Commission was held last night at which the plans and other matters connected with the building of the new grain elevator on the Louise Embankment were studied and discussed.

The Commission expects to shortly be in a position to call for tenders in connection with the elevator and other works of harbor improvement.

PROMPTLY STOPS YOUR HAIR FALLING OUT, AND DISSOLVES DANDRUFF AT ONCE

Your Hair Appears Soft, Lustrous Fluffy and Abundant After Using A Little Danderine.

What causes Dandruff, itchy scalp and falling hair? Who cares—so long as Danderine overcomes this—and it does, and quickly, too—it does more, it grows hair, and we can prove it.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—sprouting all over the scalp.

A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; and incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself to-night—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it, if you will just try a little Danderine.

Marine Notes.

The White Star liner Teutonic, which docked at her berth at the White Star-Dominion wharf yesterday, reports having experienced very bad weather conditions during the eight days which it took her to cross the Atlantic and make sufficient headway up the Gulf to be out of the zone of the gales which she encountered. May 8, 9 and 10 were not, Captain James stated, enjoyable days. There was a heavy fog, a danger of ice, and a tempest to combat.

The Teutonic brought out 547 second and 736 third class passengers.

The Robert Reford Company are issuing invitations for a luncheon on board the new Donaldson liner Letitia on Thursday next, to celebrate the occasion of her maiden trip to Montreal.

SAW MUCH WRECKAGE.

Captain Ritchie of the Fremona, which arrived here on Saturday from Mediterranean Ports, reports having seen considerable wreckage on Thursday, May 1st, when near the scene of the Titanic disaster. The captain also stated that two bodies had been sighted, but whether they were the bodies of passengers or the crew had not been ascertained.

The Fremona sailed from England on March 4, and, after calling at Genoa, proceeded to Leghorn where she took on board, a large cargo of marble. She reports having seen no ice, and having met good weather.

Lord St. Aldwyn Takes Firm Stand.

London, May 14.—Lord St. Aldwyn, the arbiter in the local minimum wage dispute in South Wales, has refused to grant either the demands of the miners or the owners for a reference of the trouble to the conciliation board.

A DAILY SERVICE BY OCEAN LIMITED EXPRESS.

Commencing with the summer change of time on June 2nd, the Intercolonial Railway will put the famous through Ocean Limited Express on the route between Montreal and Halifax as a daily train leaving Montreal at 7.30 p. m. and departing from Halifax at 8.00 a. m. The "Ocean" will go on the route this season with renewed and refurnished equipment of luxurious sleeping cars and easy riding first class coaches, and colonist cars. In point of equipment the "Ocean" is quite the equal of any of the best through trains on the continent, especially in regard to the excellence of the dining and sleeping car arrangements. Traversing a route of wonderful scenic beauty the "Ocean" enjoys a popularity with the travelling public that is annually increasing the traffic between East and West. Via the "Ocean" is the shortest best and most comfortable route between Montreal and points along the lower St. Lawrence, New Brunswick, Nova Scotia, and Prince Edward Island. The train arriving at Montreal at 7.35 a.m. enables westbound travellers to make the most convenient connections by the through train leaving Bonaventure Station daily for Ottawa, Toronto, Buffalo, Detroit, Chicago and other points.

Did You Ever Buy a New White Voile Waist for $1.49?

We don't mean a voile waist a month old or a week old, but a voile waist practically at the hour of its arrival.

You can buy it to-morrow at Goodwins'. Not only a voile waist, but a hand embroidered voile waist. Better than that still, a New York hand embroidered waist; not one style alone, but three distinct styles—some with high neck trimmed with imitation Baby Irish Lace, some with square Dutch neck and lace trimming, and all three with ¾ set-in sleeve. Any size 34 to 44. Price **$1.49**

REFITTING THE CITADEL FOR VICEREGAL PARTY.

Whole Official Residential Section of Interior Has Been Rebuilt.

Special Staff Correspondence.

Quebec, May 14.—The Vice-Regal residence in the Citadel is undergoing a complete overhauling and redecoration for the reception of His Royal Highness the Duke of Connaught, Governor-General of Canada, and his Household, due to arrive in Quebec on June 3rd.

Some forty mechanics, representing the various branches of the building trades, have been engaged for the past month renovating the Vice-regal residence into a regular palace. The whole inside of the Citadel structure has been demolished and rebuilt, and besides the enlargement of the entire premises, a number of suites have been arranged and the newest sanitary arrangements installed.

The ball room, parlors, dining room, and entire interior is being richly redecorated.

The work, including the installation of new furniture, is to be completed by the 28th instant.

QUEEN ALEXANDER GOES TO THE OPERA.

For First Time Since King Edward's Death, Witnesses "Aida" at Covent Garden.

Special to The Montreal Star.

London, May 14.—Queen Alexandra visited the Covent Garden Opera last evening, for the first time since King Edward's death, and witnessed "Aida," with King George, and the Dowager Empress Marie of Russia.

SPANISH INFLICT A SEVERE BLOW ON MOORS.

Madrid, May 14.—A severe battle between the Moors and the Spanish troops was fought yesterday near the heights of Hadaja in the Hinterland of Melilla, according to official advices received here from that port to-day.

The fighting lasted throughout the day and resulted in a defeat of the Moors, who are said to have lost very heavily. The report does not give the number of Spanish casualties.

LIEUT.-COL. MAUNSELL APPOINTED INSPECTOR.

Changes in Permanent Forces are Announced in Military Gazette Just Issued.

Special to The Montreal Star.

Ottawa, May 14.—Lt.-Col. G. S. Maunsell has been appointed inspector of Royal Canadian Engineers. He is now on the Headquarters Staff. In the permanent artillery, Major F. D. Lafferty is restored to the establishment. Capt. F. W. Wallace is promoted to the position of Major in the 26th Canadian Dragoons, Stanstead. The tenures of Major J. N. Roy, of the 61st regiment of Montmagny, and of Brigade-Major J. F. T. Rinfret, of the 19th Infantry Brigade, Quebec, are extended.

REICHSTAG ADOPTS STRICT ANTI-DUELLING LEGISLATION

Clause Provides That Duelling Officers Shall be Dismissed From the Army.

Berlin, May 14.—The Reichstag yesterday adopted a comprehensive resolution dealing with the whole subject of duelling in the army. It provides that any army officer who participates in a duel, or challenges another officer to take part in one shall be dismissed from the service, and that no officer shall be dismissed from the army for refusing to take part in a duel.

The Socialist Ledebour scored the Kaiser for sanctioning duelling, saying that those who recognize duelling not only violate the penal code, but are of a low moral level.

The Lastare Medal, annually given by the University of Notre Dame to some Catholic layman for service to the Church, was this year awarded to Thomas M. Mulry, of New York, president of the Emigrants' Industrial Savings Bank.

At Sarnia, the Steel Corporation, is sinking a boat in front of the sunken steamer Joliet, to break the current, and thus enable divers to attach chains to the Joliet, in order to raise the vessel.

John McNamara, or "Australian Mack," as he is better known, is still fighting in the New York Courts against extradition to New Westminster, B. C., to face charges of bank robbery there.
