## THE WONDERFUL KAISER

British Warships Cruising in Persian Gulf—A Royal Christening—Will Oppose U. S. Views.

London, Aug. 30.—The correspondent at Shanghai of the Morning Post states that the Chinese ambassador to London has asked to be recalled.

The powers, the Standard's correspondent at Rome, asserts, are exchanging views on the Draga doctrine with a view to concerted action at The Hague against the United States, should an attempt be made to uphold it.

Two British warships, according to the correspondent at Teheran, of the Daily Mail, are cruising in the Persian Gulf in view of the troubled situation in Persia and the possibility of making a cash for the coast.

Col. John Lambert, the Chicago capitalist, who has just returned to London from a tour of the continent, in an interview published in the Daily Mail this morning, expresses the belief that unless Great Britain adopts Chamberlainism she must go out of business.

Col. Lambert said that both France and Germany are more prosperous than Great Britain and are prospering by Germany owing to Emperor William's surpassing gifts as a ruler. The Emperor, he said, had put Germany in the way of becoming the richest nation in Europe, had perfected the finest army on the continent, and was laying the foundations of one of the greatest fleets afloat. His consular service, Col. Lambert said, was an un-matched triumph, and behind it subsidized railways and steamships, methodically fastened trusts and a tariff like a Chinese wall. "If we are not careful," Col. Lambert added, "we will lick us out of our boots all over the world."

The son of Crown Prince Frederick, William was baptized to-day at Potsdam, Prussia, in the presence of the whole of the Royal family, the Crown Princess of Greece, representing the Queen of Greece, Prince Christian of Schleswig-Holstein, representing the King of England, Grand Duke Vladimir, representing the Emperor of Russia, Archduke Joseph, representing the Emperor of Austria, the Duke of Genoa, representing the King of Italy, the diplomatic corps, Prince von Ruslow and the other members of the German Cabinet and high military officers. The child was named William Frederick Francis Joseph Christian Olaf.

King Edward travelled from Marienbad to Karlsbad by automobile to-day, where he lunched with Mrs. Townsend, of Chicago.

## NEW YORKERS CHASE A NEGRO.

New York, Aug. 29.—Enraged by a brutal stabbing, several hundred persons chased a negro for several blocks in the Bronx to-night and made every effort to lynch him. When the man finally dashed into St. Mary's park, the crowd spread out and began a systematic hunt for the negro. Reserves were called out, as the crowd had become desperate. Soon after the negro entered the park he was lost to sight in the heavy undergrowth and up to a late hour to-night no trace had been found of him. Shortly after six o'clock to-night, Chas. Purdy, known also as "Nigger Charlie," employed as a driver by Robert Ferguson, a contractor, tied his horse at a litching post in front of the stable. When Michael Phillips, another employe of Ferguson, became engaged in an altercation with Purdy over the possession of the post, Purdy stabbed him seven times and then ran away. Phillips probably will recover.

## HARRY VARDON IN FORM AGAIN.

No matter what people think about golfers in particular and general, there is not the slightest question but everybody—Americans and English alike—believes Harry Vardon the most consummate golfing artist of the age.

There is a touch of genius about his play, which all other players, however eminent, seem to lack; and it is indeed good news for his countless admirers that his health seems to be at least on the mend. Certainly his most recent performance at Tottenham shows him in his very best form, and it is clear that his Irish holiday has done him a deal of good. Playing the best ball of Mr. A. C. Lincoln and Mr. P. L. Smith, on Monday, he went round in 64 strokes better than his old record for the green, made two years ago, when the course was 90 yards shorter than it is now. Vardon took his only 5 at the eleventh hole, which measures 430 yards. He secured his previous record by getting down a masher pitch. Then, however, he had two 5's on the outward journey, and a total of 34 for the first nine holes, whereas on the previous occasion, a 2, three 3's, and five 4's gave him a score of 31 for the nine holes. His long game was as brilliant as at any time in his career, and his putting was splendid.

## WILLIAM J. BRYAN THE D. R. A. MEET

Returns to New York From His Year's Trip Abroad.

New York, Aug. 29.—Under gray skies, in exuberant spirits and bronzed by the sun of many climes during a year of travel around the world, Wm. J. Bryan, of Nebraska, steamed up New York bay this afternoon on the steamer Prinzess Irene and received an ovation from large welcoming parties which went down to quarantine to meet and cheer the incoming vessel and its distinguished passenger. Mr. Bryan did not enjoy his usual health during the voyage, but he was much better to-day, and said that he felt sure he would be able to carry out the plans which have been made for him during the next few days. He was fatigued when he boarded the steamer and during the entire voyage suffered from indigestion and severe headache. His illness was not serious enough to interfere with his work, however, and he devoted a large portion of the nine days at sea in preparing his speeches and in keeping up his correspondence. Mr. Bryan will not land in New York city proper until to-morrow afternoon, when he will be received at the Battery by delegations of prominent Democrats from all parts of the country and escorted to the hotel, where he will make his headquarters. He was taken off the Prinzess Irene by special permission of President Roosevelt shortly after the vessel had anchored in quarantine. First he went aboard two tugs which had been chartered by "Bryan's Nebraska home-boys," where he was exultantly greeted and hailed as the next President. He then went aboard the yacht Illini and was taken to the landing of the Ocean Yacht Club at Stapleton, S.I., where he landed and was whirled away in an automobile to the home of Mr. Lewis Nixon, "Ben Brown," on the heights of Tompkinsville, where he will spend the night. Mr. Bryan was accompanied by his wife and daughter, Miss Grace Bryan. Mrs. Bryan went with him on the Illini to Mr. Nixon's home. Miss Bryan continued on the steamer and spent the night with friends in the city. Mr. Bryan could not be drawn into a discussion of political questions to-day. "What I have to say of politics at this time and with my incomplete knowledge of affairs at home, will be said to-morrow night at the Madison Square Garden reception under the auspices of the Commercial Travellers' Anti-Trust League. Probably then you will find that I shall discuss subjects I have spoken of before." Asked pointedly regarding the probability of his candidature, Mr. Bryan said he had no intention to add to the letter he wrote former Senator J. K. Jones, of Arkansas, in which he said he might accept third nomination under conditions which he named. Mr. Bryan will spend to-morrow morning opening the mail which was delivered to him on board the steamer to-day. He will work with his secretary answering such of the communications as are urgent and then will board the yacht Illini once more to make his formal entry into New York at 4 p.m.

## QUEBEC WINNERS AT THE SHOOTING YESTERDAY AT OTTAWA.

(Special to the Chronicle).  
Ottawa, Aug. 29.—The Quebec winners at the D.R.A. yesterday were—Borden—Creagan, 35, 31; Fleming, 31, 35; Coolican, 31, 35; Martin, 31, 35; Hay, 28, 34; Carey, 28, 34.

## CUBAN REVOLUTION

### Sentiment Against the Government is Growing Alarmingly.

Havana, Aug. 29.—The surrender to-day of some of the more vigorous insurgent leaders in the provinces of Matanzas and Santa Clara and the coming in of a scattering few insurgents in response to the government's offer of amnesty is vastly more than offset by the insurgent sentiment looming stronger daily in the country districts of the provinces of Havana, Pinar del Rio and Santa Clara, and which now is reported to be gaining headway in Santiago, from which province, however, there are as yet no reports of the existence of the organized bands. The testimony of persons arriving here from the country is unanimous to the effect that the people are restless and excited. The talk of the towns is of those who have gone out to join the insurgents and the chances of winning against the government. The are grave doubts of the loyalty of recruits and especially of negro recruits, who are suspected in many quarters of a willingness to join the other side, with which many of their people are identified. The undeniable evidences of the growth of the insurrectionist sentiment is causing increasing doubt as to whether the government after all, will be able to cope promptly and successfully with the movement and there is much discussion of the possibilities of a peaceful settlement.

## INTER-PROVINCIAL CONFERENCE.

Ottawa, Aug. 29.—Delegates to the inter-provincial conference, which is likely to meet in Ottawa during October, will be banquetted by the Canadian Club of Ottawa. This was decided at a meeting of the club executive last evening. There is no certainty as to the date of the conference, but Sir Wilfrid Laurier is pledged to convene such a gathering before next session and there seems no good reason for a postponement.

## GOLDWIN SMITH AND EXHIBITIONS.

Toronto, Aug. 29.—Dr. Goldwin Smith had the place of honor at the luncheon of the directors of the exhibition to-day. It was children's day and a number of well-known educationists were among the guests. Dr. Smith was reminiscent of exhibitions he had attended, beginning with the first one initiated by Prince Albert in 1851, and he drew a comparison between the variety of innocent pleasures enjoyed by the people now and the few that existed then. He asked that antagonisms of class which he regretted to observe had been gaining ground in recent labor disputes be banished. To-day saw a greater degree of preparedness in the exhibits particularly in the process building and everything is now going. The attendance from the country is increasing and the number of children on the grounds to-day was a record. Judging of horses and dairy products commenced to-day and the cat show opened.

## LOTTERY MAN ARRESTED.

Niagara Falls, Ont., Aug. 29.—W. E. Hunt, the Fort Erie lottery man who was arrested about a year ago and who was convicted for unlawfully running a full fledged lottery and fined \$1,000, and his assistants, Harris and Wright, \$100 each, and a Buffalo accomplice \$500, is again in the toils of the police. Ontario Detective Grier, of Toronto, and Chief Mains, of the Provincial Police here, have been watching Hunt's doings in the lottery business closely for the past two or three months, having known that work was being conducted again at Fort Erie. Hunt, since his conviction and punishment by a large fine a year ago, has been conducting the affairs of the Anglo-American Hotel at Fort Erie as its proprietor, residing in the old Earp homestead where he conducted the lottery drawings under the guise of an art school. The two officers, with the assistance of officer Greenwood, "scopped" down upon the Anglo-American Hotel and Earp homestead to-day, confiscating wheel books and papers for lottery drawing work at the Earp homestead, and placing Hunt under arrest at the Anglo-American Hotel. The lottery outfits and Hunt were brought here this evening. Hunt, who has retained Mr. German, K.C., M.P., to defend him, will be up before Magistrate Cruickshank to-morrow morning.

## INFERNAL MACHINE ON STEAMER.

Philadelphia, Aug. 29.—An infernal machine was discovered to-day in the hold of the steamship Eagle Point. The vessel plies between this city and London. The machine, which endangered the lives of Captain Robertson and a crew of 20 men, was discovered in the after hold by a stewardess, who carried it to the captain, who threw it into the river. As it sank it exploded, sending a column of water fifty feet into the river.

## THE D. R. A. MEET

Quebec Winners at the Shooting Yesterday at Ottawa.

(Special to the Chronicle).  
Ottawa, Aug. 29.—The Quebec winners at the D.R.A. yesterday were—Borden—Creagan, 35, 31; Fleming, 31, 35; Coolican, 31, 35; Martin, 31, 35; Hay, 28, 34; Carey, 28, 34.

For the shooting at the D.R.A. to-day the marksmen had to contend with a strong, tricky wind. Other conditions were of the best. Scoring was high. The leading prize winners in the various matches were—

Ross.—Seven shots, rapid fire, 200 yards, first prize \$20, Pte. W. Short, G.G.F.G., 34; 2nd prize \$18, Q.M.S. W. Dymond, C.S.M., 32; 3rd prize \$15, Major A. H. Todd, R.O., 31; 3rd, Sergt. Major Utton, R.C.R., 31; Sergt. J. R. Claire, 1st Hussars, 30.

Henshaw Match—Ten shots at 1,000 yards, first prize \$20, Corpl. John Froehorn, 13th, 47; 2nd prize \$18, Sergt. A. H. Stone, 13th, 46; 3rd prize \$15, Pte. D. McNaughton, 5th R.H., 46; 4th prize \$12, Major M. S. Mercer, 2nd Q.O.R., 45; \$10, Q.M.S. W. Dymond, C.S.M., 45; Capt. F. B. Anderson, 74th, 46; Sergt. S. Dawson, G.G.F.G., 44.

The Cadet Match was won by the team of the Harbour Collegiate Institute. Lt.-Col. Bate, G.G.F.G., was elected President of the Canadian Military Rifle League.

THE GREAT DEPARTMENTAL STORES **Z. PAQUET** THE GREAT DEPARTMENTAL STORES  
157-173 ST. JOSEPH ST. QUEBEC

## The Scientific Principles That Make "Paquet Values."

VALUE is the basis upon which every intelligent person judges a bargain. A "bargain" is not a bargain unless it represents more value than is usually given for the price. Fictitious values never enter into the advertising of this store—when you read of a "regular price" you may count on its being genuine. When a bargain is announced in any of our advertisements, you may be sure it is a real bargain. Sometimes customers ask for bargains which were advertised a week or a month before they came for them. These we have to inform that the bargains in all our advertisements are withdrawn as soon as a new advertisement appears. This principle keeps our advertising ever fresh and interesting, and enables us to represent a greater variety of departments in our advertisements. Some of the essays, published in the Prize Essay Competition, gave a multitude of good reasons for shopping at this store. These reasons, as you will remember, included the principles we have often told you about, such as "money refunded if not satisfied," "enormous purchases and quick turnovers" and many others which constitute the policy of this store. The words of satisfied customers are far more eloquent than anything we could say, and require no elaboration, but the one great, all-important principle, which is the life and soul of every money-saving opportunity ever offered by this store, was entirely ignored by the great majority. This principle is the backbone of all value-giving—the secret of this store's phenomenal success—the rule of its founder from its very inception in the year 1850—the CASH SYSTEM. This makes it possible to secure

the lowest terms in the world's best markets—to turn over the stocks in the shortest possible time—and to make prices that would be impossible under the Credit System, which is nothing more nor less than lending money. The merchant who lends his money without interest is on the road to ruin—the customer who buys on credit is paying a ruinous rate of interest on his loan. It would be useless to deny that credit is great convenience at times, but no-one doubts for an instant that all such conveniences have an actual cash value. For the merchant who gives credit is entitled to charge an increased price for his goods as a compensation for the loss of the use of his money. Moreover a very unpleasant feature of Credit is the necessity of sending out accounts. No customer likes to receive a "dun," and no merchant likes to risk losing a good customer simply because he doesn't pay up promptly. The result is invariably felt by the customer, whose thoughtless neglect frequently hampers the merchant, preventing him from taking advantage of special opportunities to purchase goods at particularly favorable prices. Credit is notorious as a temptation to buy what is really unnecessary because it's cheap—it is also a snare for the unwary fret of the impecunious. On the other hand—Cash Buying is a sure preventative of Debt, and the Cash Buyer is always sure of receiving the highest value obtainable. The Cash System is responsible for the strongest argument we have to offer—"one price to all."

It is also responsible for the values we offer every day—values which have become famous throughout the entire Province. Isn't it better to pay cash when you know all this? Isn't it better to be paid interest on your money, in the form of increased values, than pay interest on your own money to the merchant who sells on credit? Think it over!

## LET'S BEGIN WITH THE NEW DRESS FABRICS.

PRETTY GOOD SELECTION, already, in the new dress materials for autumn wear—and the advantage of buying now is that some of the very daintiest will be gone directly. All the correct shades are here and the prices are unusually interesting—mainly because we have marked them that way, but also because they were bought to advantage.

**OUR SHOWING IN BLACKS.**

NEVER was Black in more favor than it has been in the past season and this is all the more to be wondered at because Black is certainly not a summer color. The natural consequence of the preference for Black could scarcely be other than that it has turned out to be—the fall season will see more black worn than ever before. In anticipation of the demand, a order were placed months ago, and our showing of Blacks for Fall and Winter is extensive and satisfying.

## THESE VALUES IN HANDKERCHIEFS AND RIBBONS WILL INTEREST YOU.

### AUSTRALIA BOOMING.

Compared with Canada, little is now heard of emigration from the British Isles to Australia, though half a century ago the circumstances were reversed, and the change is attributed to the ascendancy of labor in the national councils, and the restrictions imposed by it on enterprise, which, it is alleged, has caused a constant diminution in emigration to Australia for many years past. But those who are there are evidently doing well and prospering; the lands of the colonies, extensive as they are, are at least being steadily developed, and, as the recent formation of the several colonies into a Commonwealth shows, the various communities are being consolidated for mutual interest, progress, and further development. Occasional dry seasons cause a set back for the time being, but, so far, these have been soon recovered from. To her natural advantages Australia has added the pluck and energy of her people, and, whatever may be thought of the Socialistic tendency of her internal policy, probably nothing has contributed in a greater degree to the prosperity of the Commonwealth than the rational mode adopted to settle labor troubles and avoid those strikes which are simply a waste of the resources of both labor and capital.

For some years now a wave of prosperity appears to have spread over the whole civilized world with the one exception, of Russia, where the horrors of internal intestine strife have prevailed ever since the termination of the Russo-Japanese war, and according to the latest accounts, are increasing in extent and blood-thirstiness. There is no such class war in Australia, which is enjoying all the blessings of peace, and boasting proudly of the security it possesses in forming a part of the great British Empire. Last year proved a very prosperous year for the Commonwealth, and the returns, so far, indicate that the present year will be equally prosperous. Internal commerce and foreign trade seem almost all that could be desired, the imports during the first quarter increasing about six and a quarter millions, compared with the same period of last year, while during that time the exports exceeded those of the previous year, by no less than thirty million dollars, or nearly five times the increase of the imports. Then the inter-State trade, that is trade between the several colonies of the Commonwealth, has likewise been very active, and shows substantial increases over last year's figures.

Another great factor in the prosperity of Australia is the thrift and economy of her people. What the Review of Reviews said recently of the French peasant, is measurably true of the Australian people. "The peasant in the least productive parish of the Republic manages to put aside a little each year for a competency, and the fishermen down on the Brittany coast would have starved a few winters ago, when the catch was almost nothing had they not been able to draw from the savings of more fruitful years. Tens of thousands of small shopkeepers, inn-keepers, scantily paid government employes are investors, and their combined savings have provided the funds to finance many a

cured after other remedies had failed.

This wonderful bowel complaint cure will do the same for you as it did for Mr. Chas. Durham, Toronto, Ont. He writes as follows:

"I was troubled for over four years with Weak Bowels and Diarrhoea and could not get any medicine to cure me. Since taking this medicine I have had none of my former trouble, and can recommend it to any person with the same complaint that I had."

All dealers sell it. Be sure and ask for DR. FOWLER'S and accept no substitute.

nation, and carry it through a lean period." Australia has financed no nation in her lean period, but she bulk of her people are as thrifty and saving as the French. In March last the deposits in the banks amounted to one hundred and four and a half million dollars, an increase of nearly ten per cent. during the year, despite the fact that the reduction in the rate of interest had driven a large proportion of the savings to Great Britain. Besides this, the better times have not only enabled the people to repay former loans, but to do without further advances. This is demonstrated by the decrease of eleven million dollars, in bank advances since 1904, a decrease which does not indicate any decline in general business, but rather the reverse.

### SPELLING BY UKASE.

President Roosevelt has fallen into the hands of the spelling reformers, headed by the Toronto World and Mr. Andrew Carnegie, and has adopted the same strenuous methods with which he handled the trusts, the Chicago packers, and the Senate of the United States, but he seems to have undertaken a task that is too great, even for him, and the comments on his decree establishing an American official version of the British language are not entirely flattering to him. It is true that, like all great reformers, he has contented himself with a mere instalment, and a tolerably moderate one, of revised spelling, but it has been more than sufficient to bring a wasp's nest about his ears, and now that the press of Great Britain and the United States teem with protests against the liberties which the learned statesman of the White House has taken with the English language it is probable that the same doubt occurs to him which was felt by the small boy after he had mastered the alphabet, as to whether it was worth while to go through so much to get so little. The President has forgotten that a language is like the poet; it is born, not made to order; it changes from time to time, and from day to day; and the spelling of to-day is not that of a century ago, nor that the same as the spelling a couple of centuries ago, nor that again the spelling of Chaucer, but the changes come about separately not en masse, and spontaneously, not by official mandate.

Some alarm is expressed in England lest this last act of President Roosevelt should break up the English speaking nation, and divide them into American-English, and British-English. The Baltimore Sun has not the same fear. It protests against the assumption that the President of the United States can change the English language by proclamation, that all he has to do is to sign an order directing Americans to spell certain words in certain ways, and they will tremble and obey. Nothing could be further from the fact," says our confrere, "than this assumption. It is conceded that in some roles our President exercises dictatorial powers quite successfully. But when it comes to ordering free-born Americans with wills of their own to adopt new forms of spelling the President will find himself in a position of ludicrous impotence. It takes something more than a ukase from Sagamore Hill to revolutionize a language that has been gradually perfecting itself for many centuries. Mr. Roosevelt is a scholar and student, and therefore ought to know that language is the product of evolution, which moves very slowly and cautiously. Perhaps if he were not under the spell of that crude philanthropist, Mr. Andrew Carnegie, he would have acted less hastily and imperiously. But Mr. Carnegie is apparently of the opinion that languages can be made to order as quickly as pig iron. His impatience may have impelled the President to proclaim that the English language would be modified at once to conform to the notions of the reformers, of whom Mr. Carnegie is chief. If the President thinks it desirable, the spelling reform proclamation may be incorporated in the national platform of the Republican party in 1908. Mr. Roosevelt is known to be a "stand-patter" of the most determined type. He may even find it advisable to accept a nomination two years hence in the interest of spelling reform.

Seriously, however, it will be found in comparing the 300 words with which the reformers propose to make a start with the present form of spelling that usage has already effected many of the proposed changes. This has been done by the action of the Government or by Presidential influence, but by the normal processes of language evolution. Of 23 words beginning with A, the form approved by the President is already in general use in at least a dozen. More than half of the words beginning with B are spelled now as the President directs that they be spelled in official documents. Very few persons write "cheque" for check, or "chequers" for checkers. "Program" is almost generally used in place of programme—the old spelling of this word having been dropped 8 or 10 years ago by the Sun. The language is undergoing modification all the time. New words are constantly being added to express meanings for which the dictionaries have had no equivalents....It may be contended that the language is not enriched by the new change—that while some of it has value, some of it is undoubtedly slangy. Time will decide whether a word introduced in the language will prove worthy of preservation. There are words in the dictionaries to-day which would have

## Nervous?

There are many causes of nervousness, but poor blood heads the list. The doctors call it anemia. The blood lacks red corpuscles. At your first opportunity, consult your doctor about taking Ayer's Sarsaparilla. Ask him if he has anything better for weakness, debility, nervousness. If he has, take it. If not, take Ayer's Sarsaparilla. Get well, that's what you are after. We have no secret! We publish the formulae of all our medicines. Lowell, Mass.

made Webster despair. They are designated as of slangy origin and no one is deceived as to their antecedents. If President Roosevelt were to issue a proclamation urging the public to use only words derived from the purest sources it is probable he would receive no greater measure of approval than has been accorded his directions for spelling reform. These are matters which do not concern government. Rulers before President Roosevelt's time attempted to reform the spelling of their subjects, but failed, as Mr. Roosevelt will fail. Yet the reforms that may be really needed will come in their own way and in their own time. The English language is many centuries old and it may endure for many centuries more, or as long as there are English-speaking people on this globe. It has taken care of itself in the past during all the processes of its evolution. It will survive the attacks of the most determined reformers in the future. Nothing is more difficult to accomplish than a radical and violent change in the language of a nation.

## PRESS OPINIONS.

VALUABLE CATTLE.—Live-stock breeders throughout the world will be interested in fuller details of the notable record-breaking sale of drafts from the Ribby Shorthorn herd and Lincoln sheep flock of Mr. Henry Dudding, of Lincolnshire, last month. Many of the higher prices for Short-horns were paid by Argentine buyers. The highest price for cows was given by Lord Winterstoke, who retained this first-class animal in England. The top price for two-year-old heifers was given by Mr. C. Villate, and two others of the same age went to the Argentine. The same buyer and Mr. R. J. Pearson, both of whom were buying for the Argentine, gave the top price for yearling heifers, and Mr. Pearson secured the champion bull, Prince Alastair, for 1,000 gu.

With regard to the sheep sale, there are a few averages that are not included in the summary that will be of interest where they go. The Argentine buyers took thirty-nine out of the fifty-six yearling rams offered. Mr. Miller, who gave 1,450 guineas for the champion ram, also purchased the first prize pair of yearling rams at the Royal Show; the individual prices for these rams were 550, 500, 450, 350, and 300 guineas, making an average of 450 guineas. Mr. Casaravola, for the pen of 453 12s. Mr. Casaravola gave 560 guineas for the third-prize ram at the Royal Show, and 120 guineas for another. These eight rams of Mr. Dudding's, exhibited at the Royal Show, gave the notable average of £563 1s. 3d. All through the sale the demand was excessively keen, and although the owner, Mr. Dudding, was unable to be present at the sale personally, being confined to his bed with a broken ankle, he had the pleasure of reviewing from his bedroom window, one of the most notable assemblages of buyers and breeders of Shorthorn cattle and Lincoln sheep ever seen at his well-known home at Ribby Grove. The number present was not far short of 1,000. Argentine, New Zealand, and Australia, as well as many of the other South American countries, were represented, but, so far as we know, no buyer from the United States or Canada, was present.

There can be, therefore, not much doubt as to the reason why the Argentine and South American beef and mutton is making such strides in public favor; it is because they are having the best of England's stud stock.—Farmers' Advocate.

## IT'S COMING Scotch (Hard) Anthracite Coal

ALL SIZES IN BAGS.

Thirty thousand tons received in St. John each year, and is claimed to be superior to all other Anthracite Coal. Here is what St. John Public Hospital, says about it:  
St. John N.B., August 7th, 1905.  
"In accordance with the authority of the Commissioners of this Hospital, I have much pleasure in certifying as follows:  
"The Hospital was heated with Scotch Anthracite Coal for the first time, during the winter season of 1904-5, and the result was so very satisfactory that the Commissioners have just recently given it the preference over all other kinds, and contracted for the entire supply required for next winter, viz., 250 tons.  
"The Scotch Anthracite not only gives out great heat, but it produces very little ash, and no cinders, and there is therefore, the least possible labor or trouble connected with burning it.  
(Signed) L. OLIVE THOMAS, Secretary."

Order for this coal is now looked at respectively for next summer delivery.

STEAMER BURNED. Detroit, Mich., Aug. 29.—Twenty-one persons, including the captain's wife and two little children, were rescued early to-day from the burning steamer Charles A. Eddy, by the Detroit and Cleveland line steamer, City of Mackinac, off Port Sanilac, in Lake Huron. All of them escaped uninjured and were brought to this city on the City of Mackinac.

The Eddy, which was owned by the Gilchrist Transportation Company, of Cleveland, was bound south, with a cargo of ore. Fire broke out early to-day, while the steamer was off Port Sanilac, and was soon beyond control. Captain Simpson, of the City of Mackinac, bound from Mackinac Island, to Detroit, crowded to the City of Mackinac to the windward of the burning freighter. Amid great excitement among the hundreds of passengers, he came alongside of the Eddy, and, in a heavy sea, took off her crew over the rail. Captain Eddy, of the Eddy, was sick in bed, and had to be carried to the Mackinac with his wife and two small children.

Steamer Rathle Head, Captain McAnald, from Quebec, arrived at Belfast on the 29th instant.

Steamer Athara, Captain Smiles, is not coming to Quebec this voyage. She will load down the river.

REGAINED NERVE AND VITAL ENERGY

From Walton, P.O., Que., comes the nerve and vital energy, and in very "If anyone had told me any remedy could build up my nervous system so well, I would believe them. Before Ferrozze and all was changed, to berve and vital energy, and in very weak health. I didn't get enough sleep at night, felt poorly in the day time. Ferrozze has filled me with energy and vim, increased my weight and made a man of me."

Hundreds tell the same story—Weak and dispirited, everything going wrong, unable to catch up. They took mention of Putnam's Corn Extractor, health and serenity. Price 50c. per box at all dealers.

RED FEATHER.

Throughout the two acts of the "Red Feather" there runs a strong vein of comedy which comes as a relief after the plethora of absolute nonsense that has been served to the theatregoers of the country under the guise of amusing entertainment. The libretto of "Red Feather" was written by Charles Klein, who also wrote "The Music Master" and "The Lion and The Mouse."

In his story, which treats of the efforts of a portion of the people of the fabulous kingdom of Romania, to overthrow the ruler of the country, he has introduced three characters to whom he entrusts the comedy element. One of these is a braggart Colonel, another a Baron of the Teutonic type, who can be funny without the aid of a Joe Weber make-up. Manager Jos. M. Gaites has selected the comedians for these characters with a view to securing artists whose funmaking is absolutely refined. That he succeeded is attested by the praise that has been bestowed upon the interpretation of "Red Feather" comedy. The piece is announced for Friday and Saturday nights and Saturday matinee at the Auditorium.

THEY HAVE FORSEEN IT. You will find all that you require for the opening of classes, at FAGUY, LEPINAY & FRERE. See our advertisement in another column.

RICH FIND OF SILVER. Toronto, Aug. 28.—Mining Engineer Coll, of the Temiskaming & Northern Ontario Railway Commission, confirms the report of the people of the rich find of silver at the Nipissing Mine. The new vein has been stripped 100 feet in length and it varies from two to five feet in width. Stripping operations are going on now. Engineer Coll says the vein is very high in silver. The 800 pound nugget of silver that was found a few days ago will be among the mineral exhibits under the grand stand at the Toronto Fair.

### SAILORS' CONCERT OFFICERS AT HOME

Given by the Crew of H.M.S. Dominion at the Auditorium.

Yesterday Afternoon on Board H.M.S. Dominion.

In the presence of a large and fashionable audience members of the crew of H.M.S. Dominion furnished the programme at a concert given under the auspices of the Sailors' Institute at the Auditorium last evening. The concert was honored by the patronage of Capt. Kingsmill and his officers, who were present, as well as a number of the officers of the French and German ships. In the gallery were large detachments of sailors from the warships, who joined in the choruses of the songs with a heartiness and will that was strikingly harmonious and effective. The programme was made up of songs, both serious and humorous, as well as comic sketches, and the amount of talent to be found in the Dominion's crew, judging from last evening's performance, appears to be well nigh unlimited. The band of H.M.S. Dominion rendered a number of selections during the evening which were greatly appreciated and loudly applauded. The programme rendered was as follows:—

1. Overture—Band of H.M.S. Dominion
2. Comedy—Mr. Banks, A.B. (Able Seaman)
3. Baritone Solo—Mr. Gillet, Stoker
4. Comedy—Mr. Rainbow, Stoker
5. Sailors' Hornpipe—Mr. Vinnell
6. Wary Tramps—Gussie Willie
7. Coon Song—Mr. Saell, A.B.
8. Quaint Comedy—Mr. Saigeman, A.R. Intermission—Selection by Band.
9. Eccentric Comedy—Steward
10. Baritone Solo—Mr. Dampier, Steward
11. Harrington, first class Petty Officer
12. Nature's Own—Mr. Frecke, A.B.
13. Descriptive Vocal Selections—Mr. Porteus, A.B.
14. Dances—Mr. Hayes, A.B.
15. Comedy—Mr. Platts, Stoker
16. Coon Song—Mr. Mensford, Ship's Corporal
17. Laughable Skit—"The Collaborators"—Messrs. Snell and Lambert.
18. "God Save the King" and "Maple Leaf For Ever" by the Band of H.M.S. Dominion.

The accompaniments were played by the orchestra of the battleship.

**HOTELS STILL OVERCROWDED WITH TOURISTS.**  
The tourist travel still continues in large number, and the influx of visitors was so great yesterday that the hotels were overcrowded.

**Drink Beauport Lager; it is the best.**

**BIG GAME.**  
Big game is reported to be very plentiful this year throughout Quebec's north country. Many moose have lately been seen in the country between Riviere-a-Pierre and Lake Edward, while caribou and red deer seem to be abundant. Several hunters have already left for their hunting grounds by Quebec and Lake St. John Gailyway.

**JACK TARS AMUSE THEMSELVES WITH BOYS.**  
Two Jack tars from H.M.S. Dominion sauntered on to the Dufferin Terrace last evening, and seeing a crowd of young boys amusing themselves, joined with them in their innocent fun. In a few moments the sailors, who were the soul of good nature, were at home with the juveniles, and started a series of races. They got into a few moments of a spirit of fun, and kept them running in all sorts of contests for over an hour for money prizes, and must have distributed several dollars among the youngsters, but not one of the boys was happier than the good natured Jack tars.

**C. P. R. IMPROVEMENTS.**  
Judging by the way the Canadian Pacific Railway officials are looking about those days for land space adjacent to their property at the Palais and the west end of St. Roch's suburbs, the company evidently have in contemplation much more extensive improvements to meet the exigencies of their commercial interests in this city than the public anticipate. Officials these days are busy looking after certain properties to give them better terminal facilities, and it is said are also seeking negotiations with the St. Malo municipal council in regard to land for the erection of a station in that section of the city.

### ROAD COMMITTEE

Meeting Held Last Evening— Important Matters Discussed.

A meeting of the Civic Road Committee was held last evening under the chairmanship of Ald. Fiset, the present being Mayor Garneau, and Aldermen Madden, Galipeault, Messervy, St. Pierre, Mulrony and Barbea, members of the Committee, and Ald. Duquet.

A letter was received from Omer Rannour, a former employe of the department, asking for three months salary, but no action was taken in the matter.

Tenders for cordwood were received from the following:—

Birch Maple	\$5.20 \$5.50
Cos. Lefrancois	5.20 5.50
Jerome Collin	4.93 5.23
Ed. Cauchon	5.00 5.38
A. Filion	5.00 5.38

On motion of Ald. Messervy, Cauchon's tender was accepted, on condition that he furnish surveys to the satisfaction of His Worship the Mayor.

The chairman remarked that the public is continually complaining of the electric car service and that although the Mayor, the City Engineer and himself had been delegated to meet the directors, but since three weeks past they have been unable to meet the board of directors, and the delegates wished to clear themselves of any responsibility in the matter. Some other means must be taken to bring the company to time as they are doing just as they pleased. The city should not allow them to go any further.

Mayor Garneau remarked that during the summer months the directors are absent and naturally all pretences are given for a postponement, but next month when the citizens have returned to town, he intends making a final effort and will personally see the directors.

Ald. Madden stated that the Mayor, the chairman of the Committee and the City Engineer have already been authorized to take all the necessary proceedings in the matter.

Ald. Messervy was of opinion that the only way to hasten the traffic from Lower Town was to double track Palace Hill, if possible, and not be stopping at every corner.

Ald. Madden said that there was no complaint as regards the St. Roch's and St. Saviour service.

It was decided that the special committee should continue to act in the matter.

**Everything in the high class smoker's line to be had at Piper's**

**COUNTY OF QUEBEC.**  
Mr. Martineau at Valcartier.

Mr. Martineau addressed the electors of Valcartier, after mass on Sunday last. The meeting was presided over by Messrs. Edouard Bedard, farmer, and Alfred Leprie, trader and saw mill owner, both of Valcartier.

In this parish there is seldom a high mass sung, as there are not a sufficiency of choristers. However, the parish priest, Rev. Hugh McGratty, seized the occasion of Mr. Martineau's visit to his electors, to promptly organize a choir which rendered a musical service, Miss Cote of LeSoleil office, accompanying on the harmonium.

Thus, the visit of Mr. Martineau to this portion of the County of Quebec, gave rise to a religious festival in the parish of Valcartier.

After mass the meeting was held and was as successful as all others held so far by Mr. Martineau in this county. Owing to the fact that Mr. Martineau possesses a saw mill there, for several years past, there is probably not two houses in Valcartier, which have not been constructed with timber from his limits. And Mr. Martineau, either in his social or business relations, treating everybody with kindness, moderation, frankness, honesty and liberality, has, like elsewhere, made only friends in this parish.

On his return to Quebec, Mr. Martineau had occasion to speak with a large number of Liberal leaders in both Lorettes and in Charlesbourg, and all are determined to support him strongly by their votes, if a ballot is called for.

**TRAVELLING MAN MURDERED.**

Buffalo, Aug. 28—An inquest into the death of George H. Desmond, a travelling man, of Somerville, Mass., was begun to-day. The evidence tends to show that Desmond was robbed and murdered. John L. Finck, John Leitinger and Michael Laporte, a saloon-keeper, are under arrest pending the result of the inquiry. The inquest will be continued on Friday.

## To Get More Strength from Your Food

LOTS of people are starving with a full stomach.  
You know, it's not how much we eat, but how we digest that makes us Strong, or Brawny, or Successful.  
When the Bowels are filled with undigested food we may be a great deal worse off than if we were half starved for want of Food.

It needs only one Cascaret at a time to stimulate all the Bowel-Muscles enough, without purging, discomfort or loss of nutrition.  
So, if you want the same natural action that a six-mile walk in the country would give you, (without the weariness) take one Cascaret at a time, with intervals between, till you reach the exact condition you desire.

Well, when food decays in the Bowels, through delayed and overdue action, what happens?

The millions of little Suction Pumps that line the Bowels and Intestines then draw Poison from the decayed Food, instead of the Nourishment they were intended to draw.

This Poison gets into the blood and, in time, spreads all over the body, unless the Cause of Constipation is promptly removed.

That Cause of Constipation is Weak, or Lazy, Bowel Muscles.

One Cascaret at a time will properly cleanse a foul Breath, or Coated Tongue, thus proving clearly its ready, steady, sure, but mild and effective action.

A coming Headache can be warded off, in short order, by a single Cascaret, and the cause removed.

Heartburn, Gas-belching, Acid-riases in the throat, and Colicky feeling are signs of Bowel trouble from food poisons, and should be dealt with promptly.

One Cascaret will stop the coming trouble, move on the Bowel food, and free the Digestive Juices, if that one Cascaret is taken as soon as the first signs are noticed.

When your Bowel-Muscles grow flabby they need Exercise to strengthen them—not "Physic" to pamper them.

There's only one kind of Artificial Exercise for the Bowel-Muscles.

Its name is "CASCARET," and its price is Ten Cents a box.

Cascarets act like Exercise on the Muscles of the Bowels, and make them stronger every time they force these Muscles to act naturally.

The stronger these Muscles propel the food, the stronger does the friction of the food act on the flow of Digestive Juices.

The more of these Juices that act on food, the more Nutrition does that food turn into, and the richer nourishment do the little Suction Pumps of the Intestines draw out of it.

Don't fail to carry the Vest Pocket Cascaret Box with you constantly.

## QUEBEC MILKMEN INCREASE PRICES.

At a Meeting of the Milkmen of Quebec, and neighborhood, held on the 29th instant, it was decided to sell milk at 8 cents per quart. It is hoped that the public will understand that our object is not to make any more profit, but because the price of hay, grain and cows has increased from 50% to 75% more than was paid a few years ago, and because it is impossible for us to support our families on present prices. These are the reasons why we have decided upon increasing the price of milk from 1st September next, at the above mentioned price.

# A SPLENDID DAY'S SPORT

### Opening Day of Quebec Turf Club Races was a Very Great Success---Close and Exciting Contests.

Beautiful weather graced the opening day of the annual races of the Quebec Turf Club yesterday, and thousands of people thronged out to the Exhibition grounds to witness the sport. The scene on the grounds was an animated and picturesque one, and the bright sunshine added the last touch necessary to complete ideal conditions for the event. The grand stands were crowded, and along the track and about the grounds were many hundreds of people all drawn by the prospects of a fine day's sport. In this they were in no wise disappointed. The Lieut.-Governor and Miss Jette, accompanied by Major Sheppard, A.D.C., were in attendance, as well as many other people prominent in social circles both in Quebec and Montreal. The band of the R.C.G.A. played a choice selection of music during the afternoon.

The races for the opening day of the meeting were undoubtedly far and away the best that have been given under the auspices of the Club for many years past. There were large crowds in all the events, most of the races furnishing pretty contests and as close finishes as could be desired by the most exacting turf patron.

The feature event of the day was, of course, the race for the King's Plate, and in this event six horses faced the starter, McBride Bros' Mignonette being the only scratch. The race was a most exciting contest, in which Lisse, the second choice, just beat out the favorite Guinea Gold, Woodbine, getting the third money. Domino and Dolly J. were close behind, while Envoy, which threw its rider right after starting, continued on and completed the course, finishing a good third.

The first race furnished a very pretty contest between Healing Salve and Sans Coeur, the former finally winning by a short head. Lucy Carr was close up, but Germantown was behind. The third race also gave the spectators a sensational event. There were seven starters, and a keen struggle between Red Monk and Bellcourt, but in the stretch Tommy came from the front in gallant style and landed first money, with Red Monk second and Bellcourt third, all in a bunch. In the fourth race, Gladys Grant, who was much fancied, was beaten by Greenfield, the race between them being a splendid one. Dr. Koch was third.

The hurdle race furnished lots of excitement. The starters were Bellcourt, Marston Moor, Giplamps, Bally Castle and King Tom. Bellcourt and Marston Moor quickly came to the front with Giplamps, Bally Castle and King Tom strung out behind. While taking the jump on the third round, in front of the grand stand, Bally Castle struck the hurdle and went down, and before his jockey, Wm. Lee, could extricate himself, he was struck by King Tom, who turned a complete somersault over him, also throwing his rider, Harry Henderson. Both jockeys were quickly attended to, but beyond a bad shaking up, it was found that they had escaped serious injury. The race was won by

Bellcourt, with Marston Moor second and Giplamps third. The final race, the handicap, was marked by the number of scratches, only two horses, Blue Coat and Fair Havana, starting out of an entry list of 8, the former taking the lead and holding it throughout.

Such fine sport has not been seen in Quebec for many a day, and the Quebec Turf Club are to be congratulated on the very great success of their first day's meeting, a success which promises to be surpassed to-morrow, when the second day's races take place and when another fine programme of races is carded. So great has been the success of the present meet that it has been suggested that it be extended over another day, and that a programme be also arranged for Saturday afternoon, in which all the horses at present at the track could take part.

The arrangements for the races and the successful way in which they were carried out reflects credit upon the officers and stewards of the club. The betting arrangements also gave great satisfaction. They were in the capable hands of Mr. A. R. Slofel, who came here from Saratoga for the meet, and who was assisted by Messrs. H. Dwyer, McLeod and W. Coleman.

The starting of the races by Mr. P. McGinnis was greatly appreciated and the new electric barrier was found to be all that could be desired.

The officials of the club in charge of yesterday's races were as follows: President, G. E. Amyot; Vice-President, Major T. S. Hethington; Treasurer, Major Lampson; Secretary, Major A. F. Ashmead; Judge, F. Nelson; Starter, P. McGinnis; Clerk of Scales, Lieut.-Col. G. H. Parke; Assistant Clerk of Scales, Captain D. Watson.

Summary —

1. Selling race—1 mile—1st, Healing Salve, D. Mitchell, 6 to 5; 2nd, Sans Coeur, A. Gates, 4 to 5; 3rd, Lucy Carr, P. Gorman, 12 to 1; time, 1:46 4-5. Germantown also ran.

### NAMING 2-YEAR OLDS

Ridiculous, Appropriate and Tasteful Titles Are Given Horses.

Regularly when a new crop of two-year-olds appear some erudite person with a sense of the ridiculous, the appropriate and the tasteful takes breeders and owners to task for the names they give their horses. The clumsy combinations of the names of sires and dams, the far-fetched suggestions of relationship to great thoroughbreds for persons still in the flesh, sometimes with an unwieldy load of initials, furnish inspiration for diatribes that appeal to the learned, but strike the average horse owner in a way that causes him to ask: "What's the fellow trying to get at?" says William Keogh.

I am intimately acquainted with a turf critic, who learned to read and write before he learned to race, who made a bitter enemy of a highly respectable Texas sportsman for having fun with the name he gave his pet 2-year-old filly, the filly was the foal of the pet of the ranch, Little Pearl, and the sire was Gallantry. The Texan called the offspring Little Pearl of Gallantry. The first—and the only—time Little Pearl of Gallantry started, the fresh young critic took occasion to chide the gentleman who hung that title on the filly. In the course of his playfully tart remarks he undertook to name the future produce of the ranch whence came Little Pearl of Gallantry. Among the names he suggested were: Little Things to Think About, Little Jars of Marmalade, Little Balg of Timothy, Lizzie Is My Hat on Straight, Big Bill With the White Hat, and such.

The Texan could not have been more aggrieved had he been accused of cheating. Although the filly gave promise of developing into a useful race mare, never again did she appear with the colors up.

One can bestow any kind of a name that suits his fancy on his horse. The censorship which the register exercises simply guards against vulgarity and duplication. The average purchaser of yearlings is not as rich in language as he is in money, and

"Oh!" he said, "Why don't you talk plain?"

"Then turning to the clerk behind him he called the bet:—

"Eighty to 10 and 30 to 10 Ducks Temps."

"As I left the stand I heard him remark:—'Dootong! What d'ye think of that guy?'"

The carrying of family names through generations of race horses is one of the prettiest of turf customs, and besides that it has a great value to the followers of dope, who call at a glance the breeding of the horses.

The combination of the names of sire and dam often results in beautiful, if meaningless names, but even more frequently in laughable or absurd groups of letters.

There was a day on the turf when the horses bore the names of the women admired by the owners, but in recent years that custom has fallen into a decline because owners do not name their horses for the right kind of women in all cases and the discovery of this fact by owners who had used the name of sweetheart, daughter or sister caused them to drop their horses out of racing entirely or apply for permission to change the name.

Almost every prominent actor in the country, most of the sporting editors and prominent sporting men have their namesakes on the turf. It is odd to see horse owners rush to secure the name of some man or woman who has suddenly become prominent in politics or sport. In some cases, during the naming season, there will be a dozen claimants for the same name I have not heard, however, of any horse being named Joe Folk yet.

### ALLEGED OARSMAN BWINDED TRADESMEN.

London, Aug. 29—A well dressed young American, posing as a member of the Harvard crew, victimized West End tradesmen out of several hundred pounds sterling during the last week. Registering at the large hotels under the name of one of the Harvard crew, he would go to stores and order clothes and other articles to be sent to the hotel where he was stopping, asking that the bill be forwarded the next day. In every case the tradesmen fell into the trap and the articles were sent. But when the collectors went for the money they were informed that the man had left room after the arrival of the parcel.

### WANT TO HEAR FROM DUFRESNE

Ottawa, August 27, 1906.

To Sporting Editor of Chronicle:—

Dear Sir,—Will you kindly make it known through your sporting columns that we are anxious to hear from Mr. G. G. Dufresne in Kid Dufresne's behalf. He issued a challenge to "Willie," to which we replied, but have not heard from him yet. We are willing to make a match at 115 pounds, 15 or 20 rounds. We would like to hear from Mr. G. G. Dufresne through the Ottawa Free Press.

Thanking you for your space,

I remain, yours truly,

COLIN A. ALLEN.

### CRICKET MATCH.

### A CHALLENGE.

Mr. Alf. Lynch, who rowed in the McMahon four-oared boat at the regatta that took place in the River St. Lawrence on Tuesday last, called at the Chronicle last night, stating that he desired to issue a challenge on behalf of himself and his brother, Mr. Joseph Lynch, to row any two men who took part in the race above mentioned in a skill competition of double sculls for \$50 aside.

Mr. Lynch remarked that the pullers in the Tuesday last four-oared boat race that competed in the regatta, have done considerable talking since the event, and in order to test their ability, and the sincerity of their boasting as rowers of merit, he and his brother is ready and willing to pull any two men who took part in that race. It was a question of put up or shut up, and his \$50 was ready for those who wished to cover the amount.

## NOTICE

Is hereby given that the Pier at the mouth of Cap Rouge River is submerged as well as the other deep water Pier that was there up to last winter at the end of the long wharf. The position of the pier at the mouth of the Cap Rouge River is as heretofore shown by a flat buoy by day and a white light by night, and the position of the deep water Pier recently taken at the end of the Long Wharf is in a straight line with the said flat buoy and about 600 feet to the west.

THAT'S ALL.

### DAY BY DAY.

The lack of water this season is having its effect. The price of milk has gone up.

Now, honestly, did that horse of yours win yesterday?

Our naval visitors need not hurry away. Quebec is not tired of them yet.

With faces nicely tanned, our young people are returning from the country to re-enter school, where they will get other portions of their anatomy nicely tanned also.

With hotels closed down and milk going up in price, what is to be done if the water main takes a notion for a vacation on Saturday night?

Quebec is famed for many things. And gets the kindest greeting, but none at all can yet compare with a Quebec Turf Club meeting. —Champlain Street Philosopher.

Have to change it to, How would you like to be the milkman?

Of course you won yesterday.

The French cruisers are leaving today for sea—not Montreal.

If there are any more staple articles of household consumption that have not yet been increased in price, now is the time.

### ELECTION APPEALS

#### Supreme Court to Hear Two Important Ones.

Ottawa, August 29.—Two important election appeals are to be heard by the Supreme Court, probably at the October term. The petitioners in the Halifax election case has appealed against the decision which, on a technicality, returned Messrs. Roche and Carney in the seats, which, according to evidence, was corruptly carried at the general elections. There is also an appeal in the Queens-Shelburne case. It will be remembered that the court, although it voided the election, declined to hear all the evidence offered in support of the personal charges, and so dismissed the case as against Mr. Fielding personally. It is against this action of the trial court that appeal has been taken. The Supreme Court meets during the first week in October. The by-election, therefore, cannot be held at the earliest before that date, if Mr. Fielding is going to be the candidate, even assuming that the appeal be not heard at the October term. It will mean that the Finance Minister cannot seek re-election until February. If the appeal succeeds of course he may be a candidate. The general election was held in 1904. Yet counsel for the Finance Minister staved off the trial for two years. It begins to look now as if the other side were having their innings in the court.

### MADE FROM NATIVE ROOTS.

#### SAFE AND RELIABLE.

That the roots of many native plants growing wild in our American forests possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "papoose root" for her for that was their great remedy for female weaknesses. Dr. Pierce used the same root—called Blue Cohosh—in his "Favorite Prescription," a fully compounded with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women. Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicines, put up for sale through druggists for women's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women. "Favorite Prescription" contains neither alcohol nor harmful, debilitating drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and stinky women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strengthening power.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure.

### LEGISLATION FOR IRELAND.

London, Aug. 29.—The Daily Chronicle this morning, forecasting the Government's proposed decolonization scheme for Ireland, says legislative union will not be touched, and that Irish representation at Westminster and the powers of the Imperial Parliament will not be changed. The chief feature will be the establishment of an Irish Council at Dublin, directly elected, consisting of 103 members, the same as the Irish representation in the House of Commons, with the addition of 49 councillors, directly elected for larger areas by electors having ratable value exceeding 100, peers and clergymen being eligible. This is almost the same as the legislative council and legislative assembly of Gladstone's bill, only they form one body, and not two. The Nationalist party as now organized would not easily gain a large majority in the council. The Chief Secretary would under the new scheme be ex-officio chairman of the Irish Council, and as representing the Lord Lieutenant, would consult with the leader of the majority in the Council regarding the appointment of the chief heads of departments, the head of the finance department occupying a position analogous to that of Premier, who, with his colleagues, would hold their posts dependent upon the vote of the Council. The scheme includes the reorganization of the Irish Government into departments, such as finance, land, education. The judiciary will not be molested. The Chief Secretary will be spokesman of the Council and its Ministers to Parliament. All Irish legislation would still come before the House of Commons, bills being sent there by the Council.

The Daily Chronicle seems to intimate that the Irish members of the Council, which would sit when the Imperial Parliament is not sitting. The scheme will be open for revision after five years.

### AN IMPORTANT AGREEMENT.

Tokio, Aug. 29.—Under an agreement reached between Japan and Korea, it is understood that Chinsaeuan and Yongheung will be converted into naval stations at an early date, at the expense of Japan. Chinsaeuan is an important strategic point guarding the entrance of the Sea of Japan on the east coast of Korea, will be a valuable asset against an attack on Korea from the north. The agreement is regarded here as being most important and is greeted with great satisfaction.
