Young Parents' Club Holds Discussion at Ormstown H.S.

Panel Takes Subject "Discipline in the Home" — Being on Handling of Children

Ormstown High School Young Parents Club, at the school, on Tuesday evening, when an excellent program was presented by five of its members, Mr. Huntley Greig, Mrs. E. A. King, Mrs. Allan Cavers, Mrs. Alvin Gruer and Mr. Ewen McDougall. "Discipline in the Home" was the topic for the panel so ably handled on this occasion.

Mr. Huntley Greig introduced the participants and made some introductory remarks on the subject. He humorously compared the addition of a new car and a new baby to any family. He stated that the new car came with a carefully prepared user's guide which simplified the care and operation. Many parents no doubt would welcome such a guide with a new baby. Due to the fact that personalities are all different, it is impossible to prepare a guide which would suggest a particular routine for disciplining children.

The first speaker, Mrs. Alvin Gruer dealt with the question "What do you consider some of the most common mistakes parents make in disciplining their children?" Mrs. Gruer dealt with the topic under the headings: (1) Naggings, (2) Not carrying out threats, (3) "I'll tell your father", (4) Parents not getting together, (5) Comparing one child with another unfavorably. A mental picture of any morning before Johnny finally gets off to school, vividly brought before the audience the possibility of nagging, which, becoming a routine was disregarded by the subject for which it was intended.

Mrs. E. A. King was delegated to discuss the problem, "If you have a child who presents serious disciplinary problems, what are some of the mistakes you should look for?"

Temper Tantrums came at the head of the list, and it was assumed that they were a phase of the business of growing up and in many cases were staged to get attention. To counteract these experiences, parents should set an example of composure and opportunities to play with other children. The speaker concluded by saying, "If we give understanding, love and appreciation of achievement in large enough doses you can prevent many disciplinary ills."

"Does the average father play as effective a role in discipline as he should?" was ably dealt with by Mrs. Allan Cavers. Mrs. Cavers gave an interesting questionnaire to be scored on this particular subject. This not only provided much food for thought but for a discussion following.

As an introduction to the next speaker on "To Spank or Not to Spank?" Mrs. D. Glover read an extract from the village of Hemmingford should certainly be proud of its Chamber of Commerce.

Here is a live group of public-spirited and community-minded men, most of them young and ambitious, who are all "on the ball" when any worthwhile project requires to be supported and carried through in the best interest of our village of Hemmingford.

Regular meetings are held at the City Hall, the second Monday in the month at 8 P.M., and the doors are always open to receive visitors and to hear suggestions that will assist us in rendering better services to this community.

The annual Banquet and Dance in May, brought out over one hundred guests and members at the Frontier Hotel, and a most happy time was enjoyed by all.

Also in May a most successful get-together was organized, taking the form of a dinner meeting at the Frontier Hotel. The local chamber was host to the secretary and other members of the Plattsburg, N. Y. Chamber of Commerce. The attendance was most gratifying. The main purpose and topic of the gathering being to discuss with the Plattsburg C. C. how the proposed U.S.A. Government Air-Force development scheme, might affect Hemmingford and other neighboring centres commercially — a very friendly, interesting and enlightening gathering.

The Chamber of Commerce is keeping in close contact with the new proposed Water, Sewer and Fire Protection scheme. This project will add greatly to the prestige and aid in the natural development of Hemmingford, to say nothing about the increased fire precautions that will accrue as a result of the adoption of this very important project, which, we may add, is very badly needed in this community.

The Chamber has also a very interested eye upon a proposed Canadian Government housing project, in connection with the new Customs port of Blackpool, which development, by the way, may considerably affect the interests of Hemmingford in many ways.

The residents of this village, we

tremely humorous article "Mamma Spanks", Mr. Ewen McDougall, in a very able manner, stated that every case of wilfulness did not call for a spanking but it would seem that under some circumstances a smart spank at the proper time seemed to be the answer.

Following the speakers, a few questions were presented including a query on the best way to deal with lying.

The audience was divided in several small groups and all groups considered the same question — "Taking a look at your own experience disciplining your children, what would you say were some of your main short comings?" The group findings were almost unanimous and the reports included 1. nagging, 2. inconsistency, 3. snap commands, 4. expecting too much, 5. not living up to threats.

The reports summarized by the chairman, Mr. Huntley Greig brought a most profitable and instructive discussion to a close.

Prior to the Panel, a regular business meeting was held under the chairmanship of Mr. Ewen McDougall. Mrs. Glover reported on the previous general meeting and executive meetings held.

The Food Sale discussed at a previous meeting was set for the month of March, under the Chairmanship of Mrs. Roland Anderson and Mrs. Bert McCartney assisted by Mrs. Arthur Henderson, Mrs. R. Grant and Mrs. Everett Forrester. This sale to be held in the McGreggie Electrical Store.

Mr. E. A. King, principal, spoke for a few moments of the present Reading program stating that it was not deemed advisable for children to read from their texts at home since the children had a tendency to memorize the work and in scanning some stories they lost their interest for the work when introduced by the teacher. He did urge that parents make available all kinds of supplementary reading, to stimulate the child's interest and to increase his skill.

Mrs. A. Hooker, director of the Baby Sitter's Club at O.H.S. outlined the Club's program and stated that Mary Catherine Hooker had been named the secretary to receive inquiries at the school.

Mrs. P. Mason, Mrs. William McClinch, Mrs. James Greer, Mrs. William Craig, Mrs. Robert Porey, Mrs. Allan Cavers, Mrs. Douglas Glover were named as a member committee.

Refreshments were served at the close of the meeting and the social hour enabled parents to view the book tables and discuss any problems with other parents or teachers.

We would like to take this opportunity to thank all the numerous subscribers to these worthwhile Christmas undertakings, and to assure them that as long as their support continues, the Chamber of Commerce will give Hemmingford kiddies more and better Christmas celebrations.

The satisfaction of a good job well done for the kiddies is all the thanks Chamber of Commerce members expect.

The public will notice the signboards at each entrance to the village, drawing the attention of all, especially tourist visitors, as they pass through, that we can boast a local Chamber of Commerce.

At the forthcoming monthly meeting of the Chamber, it is expected to bring various speakers, who will have interesting topics. These gatherings may take the form of a dinner and talk, with discussions, to which members will be asked to bring guests.

Tighten Jacklighting Law in Quebec

QUEBEC (CP) — The legislative assembly Tuesday unanimously approved a government bill aimed at making it harder for hunters who illegally use jacklights to avoid penalties already provided under existing legislation.

The bill would amend the definition of the words "to hunt" in the game laws to include the act of searching for game with an artificial light.

Presumably the move is to eliminate the legal argument used in the past that a man using a flashlight in the bush is not necessarily hunting under the meaning of the act.

Quebec W.I. Works To Help Retarded Children

"Start where you are." That is the advice given by Mrs. George Leggett, convenor of Welfare and Health for the Quebec Women's Institutes, speaking of the needs of mentally retarded but educable children in rural areas. This has been of growing concern to the Q.W.I. and Mrs. Leggett went on to speak of what has been accomplished in her own community of Lachute, when the matter was again discussed at a meeting of the Provincial Board, held recently in Montreal.

Encouraged by Mrs. Leggett and it turned out to be a record vote of 683 voters marking their ballots, including five spoiled ballots. Voters were out early to vote and by noon about half the total had voted. The election was quite orderly and the two candidates were both present at the poll. The poll was divided into two, which facilitated the work of voting and tabulating in the poll book.

Workers for both Mr. Leo Cappiello and Mr. Romeo Robidoux were out in force and kept the electors coming and going to the poll to record their votes for the candidates. The results were eagerly awaited when the poll closed at six o'clock. As soon as the announcement was made it was found that Mr. Cappiello had been re-elected by a large majority, to again represent the people of Huntingdon.

The next meeting of the council will be held on Monday, February 7th, when the members will all be sworn into office.

Father and Son Banquet At Ormstown

Sponsored by Brotherhood of St. Paul's

The Brotherhood of St. Paul's Church, Ormstown, held its Annual Father and Son Banquet in the hall of the Ormstown Hotel, on Wednesday, January 26, at 7:30 p.m. when about eighty men and boys were present to partake of the fine supper prepared by the men.

The president, Mr. John Wallace, was chairman, and gave the toast to the Queen. This was followed by the National Anthem, with Gordon Duncan at the piano. The toast to the sons was given by Mr. Douglas Sproule and responded to by Darl Lang. Freddie Jones gave the toast to the Fathers, this response was given by Stuart Duncan.

Ross White gave a toast to the Church and Rev. I. Johnston replied. All were very ably given.

Mr. C. V. Currie, Business Manager and Director of the non-medical personnel of the Barrie Memorial Hospital, was the guest speaker. His subject was: "A Measure of a Man", and proved both interesting and instructive.

The report of the Kirk Session expressed sorrow at the removal by death of seven members of the congregation including two who had served faithfully for many years in the Eldership, Mr. A. F. Aleph and Mr. J. A. Hunter. Four new Elders had been elected and ordained and inducted into office during the year.

Messrs. G. F. Dixon, G. D. Ferry, W. J. Goodall, and R. E. McWhinnie. There had been a considerable net increase in membership during 1954. During the year the congregation had marked its 120th anniversary with special services. Another event which took place during 1954 was the merging of the Dundee Presbyterian Congregation with St. Andrew's.

Knights of Columbus

LOCAL 3557

The first regular monthly meeting of the Knights of Columbus, Local 3557, was held in the Parochial Hall, January 27, 1955, under the chairmanship of Grand Knight Noel Foisy, ex-Grand Knight Dr. Caza and Father David, Chaplain of the council, with a full attendance of members.

The following committees were organized — first names are chairmen of the committees:

Sergeant at Arms: Elie Bisson, Armand Hainault, Sam Legault, Armand Dumouchel and Raymond Legault.

Corresponding Secretary: Roland Emond, Dr. Roland Nadeau and Emory Lucien Baillargeon.

Entertainment: Harold Higgins, Raoul David, Clermont Bergeron, Gerald Smith, Louis Derenpigny, Donald Racine and Rosario Taillefer.

Membership: Alder Tremblay, Leo Cappiello, Austin Lefebvre, Lionel Latrelle, J. B. Myre and Elzir Valle.

Publicity: Norbert Bourgon, Renaud Mainville and Romeo Payant.

Catholic Activity: Claude Renaud, Lionel Braut, Roch Dumouchel and Fernand Daoust.

Fraternality: Marcel Benoit, Rodrigue Montpetit, Gerald Crite, Alime Leblanc and Richard Quenneville.

Youth Activity: Gerald Brisebois, Georges Lazure, Guy Allen, Maurice Fournier, Georges Forget, Roland Rielle and Denis Tessier.

Future programs were discussed. It was decided that the Knights of Columbus would hold a Bingo during the month of February.

It was decided that all succeeding meetings would be held on the last Thursday of each month.

Electors Give Cappiello Clear Majority in Vote

Re-election Starts Mayor on Fourth Term in Chief Office of Town

LEO CAPPIELLO
Elected Mayor of Huntingdon

ROMEO ROBIDOUX
The Defeated Candidate

The election for Mayor of Huntingdon was held on Tuesday and it turned out to be a record vote of 683 voters marking their ballots, including five spoiled ballots. Voters were out early to vote and by noon about half the total had voted. The election was quite orderly and the two candidates were both present at the poll. The poll was divided into two, which facilitated the work of voting and tabulating in the poll book.

Workers for both Mr. Leo Cappiello and Mr. Romeo Robidoux were out in force and kept the electors coming and going to the poll to record their votes for the candidates. The results were eagerly awaited when the poll closed at six o'clock. As soon as the announcement was made it was found that Mr. Cappiello had been re-elected by a large majority, to again represent the people of Huntingdon.

The next meeting of the council will be held on Monday, February 7th, when the members will all be sworn into office.

Presbyterian Congregation Has Successful Year

Annual Meeting Shows Increased Membership And Good Financial Standing

The congregation of St. Andrew's Presbyterian Church, Huntingdon, held its annual meeting in the church hall on Tuesday evening, January 25th. After opening devotions conducted by the minister, Rev. R. D. MacLean, the business of the evening was proceeded with under the chairmanship of Mr. Jon Proudfoot with Mr. Sanford McNair as Secretary. All organizations reported a year of activity and achievement. The report of the Kirk Session expressed sorrow at the removal by death of seven members of the congregation including two who had served faithfully for many years in the Eldership, Mr. A. F. Aleph and Mr. J. A. Hunter. Four new Elders had been elected and ordained and inducted into office during the year.

Messrs. G. F. Dixon, G. D. Ferry, W. J. Goodall, and R. E. McWhinnie. There had been a considerable net increase in membership during 1954. During the year the congregation had marked its 120th anniversary with special services. Another event which took place during 1954 was the merging of the Dundee Presbyterian Congregation with St. Andrew's.

Small Items of News Which Carry Interest

BUTTER'S BIG LEAD — Margarine production in Canada, says The Financial Post, rose 5% in 1954 over 1953. Creamery butter output increased 3%. But about 2.7 lb. of creamery butter was produced for every pound of margarine.

JOBLESS SUMMARY — Persons without jobs and seeking work were estimated at 247,000 on Dec. 11, reports The Financial Post. This compares with 214,000 a month earlier, and 190,000 a year earlier. Latest jobless figure thus amounts to 4.6% of labor force.

LONGER WEATHER LOOK — Pretty soon Canada's weatherman is going to take a longer look ahead, says The Financial Post. Instead of the two-day forecast we are getting now he is going to tell us what we can expect for almost a week. The change will be a boon to farmers, sports promoters and to a great many others whose business or pleasure takes them out of doors.

SWIFT CURRENT, Sask. (CP) — Five generations of the Clark family held a reunion in hospital, where Mrs. Otis Clark, 88, and her son Everett were patients. Other members of the clan gathered for what Mrs. Clark said was "indeed a happy day."

REUNION IN HOSPITAL

Duplessis Hints At '56 Election

QUEBEC (CP) — Premier Duplessis hinted last week that he plans to call a provincial election next year.

Mr. Duplessis was replying to Jean-Jacques Bedard (L — Quebec County) who was critical of the Quebec Government's fisheries policies in Gaspé Peninsula and the Magdalen Islands.

The Government, Mr. Duplessis said, had provided for improvements and Mr. Bedard would see the results next year.

"The member will see then the good results of our policies," Mr. Duplessis said, "but he will not have to thank us, his electors will do that for him."

The remarks made to the Liberal member were taken as an indirect hint that the National Union Government will call for an election during the summer of 1956, following the custom of holding elections every four years. The Quebec Government's term of office does not end until 1957.

Bargain Price Surplus Butter For Hospitals

Canadian hospitals, orphanages and other charitable institutions may be able to get government butter for about 20 cents a pound less than is charged the general public, Federal officials said in Ottawa.

They were commenting on a statement by Agriculture Minister Gardiner on Tuesday of this week that part of the government's butter surplus will be sold to Canadian institutions at a price "considerably lower" than the support price of 58 cents a pound wholesale.

They said the new butter disposal plan — the principle of which has already been approved by Cabinet — has not yet been worked out in detail. But generally they believed that certain approved institutions will be able to get Federal butter about 20 cents a pound less than charged on the regular market.

For example, the Government now sells its surplus butter at about 61 cents a pound wholesale in carload lots — the three cents difference between the price it paid and its selling price covering freight, storage and other handling charges.

Approved institutions likely would be able to get, for example, one free pound of Federal butter for every two purchased at the regular price. In other words, they would get three pounds for \$122, paying roughly 40 cents a pound.

The plan would have a twofold purpose: To try to move more of the Government's huge surplus into the Canadian market; and to try to knock out some margarine sales.

Margarine sells at a price much below that of butter.

Mr. Gardiner, in his speech to the Canadian Federation of Agriculture at Edmonton, estimated the Government had about 70,000,000 pounds of butter — 20,000,000 pounds more than "we think necessary."

This 70,000,000 pounds represents some \$43,000,000 of taxpayers' money. The 1955 heavy butter production season starts in about three months and there have been estimates both inside and outside the Government, that the administration may be caught with a surplus of some 50,000,000 pounds of old butter when the new season opens.

Small Items of News Which Carry Interest

BUTTER'S BIG LEAD — Margarine production in Canada, says The Financial Post, rose 5% in 1954 over 1953. Creamery butter output increased 3%. But about 2.7 lb. of creamery butter was produced for every pound of margarine.

Chateaugay Valley School Boards' and Teachers' Association Banquet

Professor D. C. Munroe, Director of School For Teachers at Macdonald, Speaker of the Evening

On Monday evening, January 24, members of various School Boards and Teaching Staffs in the Chateaugay Valley gathered at Macdonald Hall to partake of a delicious turkey dinner prepared by the St. Paul's United Evening Auxiliary and to enjoy a social time together. More than one hundred people were present.

Mr. R. Brown, Principal of Hemmingford High School and vice-president of the C. V. T. A., was the Master of Ceremonies on this occasion. Mrs. Norma Robb, past president of C.V.T.A., thanked the Evening Auxiliary on behalf of all present. Mr. A. W. Lang, a son of Ormstown, and presently secretary for the P.A.P.S.B. brought greetings and introduced the speaker of the evening, Professor D. C. Munroe, Director of the School for Teachers at Macdonald College. Mr. Lang reviewed

the various achievements of Mr. Munroe prior to and during his fourteen years as principal of Ormstown High School. His appointment as Director of the School for Teachers and his recent appointment as McColl, testify the recognition of his ability in the field of education.

Professor and Mrs. Munroe, who made a survey of schools and the educational system in South Africa during the summer did considerable photography while in South Africa and during their stay in South Africa. Mr. Munroe addressed the gathering, giving a vivid description of their trips and conditions in South Africa, illustrated by slides taken in London, Rome, and numerous points in South Africa.

Mr. E. A. King, Principal of Ormstown High, extended a sincere thank you to Mr. Munroe for his enlightening address.

Findings Show A-Bomb Tests Have No Effect on Weather

New York (AP) — Try yourself on this true or false list: A-Bombs have changed our weather.

A-bombs or H-bombs could be used to stop hurricanes. More television is causing changes in our weather.

You score 100 if you replied false to each one, take it from D. Lee Harris, of the Scientific Services Division, U. S. Weather Bureau, Washington.

He told the American Meteorological Society today of studies which found no effect on wind, temperature or rainfall from A-bomb tests. There might be brief local effects, as from the big cloud that forms, but nationally any effects are insignificant, he said.

One effect might be to make lightning less severe, by increasing the electrical conductivity of the air, but that is mighty hard to prove. Anyhow, taking any sting out of lightning would be good.

Harris said he spent six weeks after the 1953 A-bomb tests in Nevada, answering letters and calls from people who said (A) that the bombs were lousier weather, (B) asking if the bombs affected weather, (C) giving reasons why the bombs couldn't affect weather.

And there were a number of people who figured that more TV broadcasting was causing more rain, drought, or whatever else it was they didn't like.

As for A-bombs or H-bombs as antidotes for a howling hurricane, Harris cites some queasy figures: Condensation of moisture to form rain releases energy, and the energy released over an entire hurricane is equal to the energy of 23 Hiroshima A-bombs every second.

Defense Line Will Use Over the Horizon Radio

MONTREAL — Bell Telephone Co. of Canada is working with the new "over the horizon" type of microwave radio relay system on which experiments have been under way in the U.S.

Using this system, signals can be forced over the horizon. That means relay stations can be placed as far apart as 150 miles, five times farther than the average of 30 miles between stations in existing "line of sight" chains such as that one owned by Bell which carries long-distance calls and TV programs between Toronto and Montreal.

At the request of Federal Government Bell is now working on a 1,400-mile system in the Canadian north using "over the horizon" type. It's being built for defense purposes, and has involved complete engineering and supervision of construction and installation by Bell.

Unfortunately, this new type of transmission takes 10,000 to 20,000 times as much power to operate as the line-of-sight method. Thus its use is expected to be limited to installations where water or wide stretches of difficult terrain have to be crossed.

Until now, microwaves have been compared with a searchlight focused in a clear and direct line of sight between relay towers. Bending them over the curve of the earth's surface has been thought impossible.

In the U.S. plans for first use of the discovery call for a system between Florida and Cuba.

Unions Form "Front" Against Wage Cuts

On the ground that Canadian women purchase an average of a dozen pairs of stockings yearly thus maintaining the hosiery industry in a sound position, trade union delegates at Montreal on Saturday, decided to form a united front to resist any attempts at lowering wages and reducing working conditions.

The delegates were from the Textile Workers' Union of America (CIO-COLA) and the National Federation of Hosiery Workers (COOL).

More than 100 union representatives who claimed they represented more than 90 per cent of the Ontario and Quebec workers in the two industries attended the meeting in the Mount Royal Hotel. J. Harold Doucet of Toronto, Canadian director of the CIO union, presided jointly with Evangeliste Moreau, president of the COOL hosiery workers' union.

The delegates passed a resolution which declared that recent demands launched by employers across Canada "was a scheme to destroy prevailing wage rates and undermine working conditions." A joint committee was appointed to investigate existing conditions.

Recipe Suggestions For Zestful Living

TRIED AND TESTED FOR SATISFACTION

THIS WEEK — "EGGS"

Did you know that eggs are one of our most valuable foods? They are considered valuable, not only from the standpoint of food value, but for economical reasons as well. With eggs so plentiful and so reasonably priced on the market today, the budget-wise homemaker will do well to feature eggs regularly on her menu. Eggs may not be the answer to every meal problem but they certainly come close to it. They can be used in some way in almost every course and in almost every meal. They not only taste good, but they are easy to cook as well. The home economists of the Consumer Section, Canada Department of Agriculture suggest some ideas for egg dishes to satisfy January appetites.

It is a well known fact that a breakfast containing protein is a satisfying one and makes one feel better and less tired after a long morning's work. Eggs can high-light breakfasts these winter days and there are ways to cook them that will please everyone in the family. Breakfast eggs can be served soft, medium or hard cooked, shirred, poached, scrambled or fried. For Sunday Morning breakfast, French toast or a fluffy omelet served with crisp bacon adds variety.

Eggs can be a great help in planning lunches or suppers. Egg sandwiches go well with a piping hot bowl of soup and, if there is a young cowboy in the family, be sure to serve him western sandwiches now and then. To make the filling, chop some onion, green pepper and ham and add to a well-

beaten egg with a little milk and salt and pepper. Cook in a greased pan until egg is set on both sides. Hard cooked eggs may be sliced or devilled and used to garnish salads or luncheon dishes. Waffles or omelets served with sausages or bacon are other suggestions for lunch. Then, for a party luncheon, try cheese soufflé. Eggs may be baked and used in various casserole dishes. Try them in a medium thick cream sauce, cheese or tomato sauce seasoned with onion or a little curry. Pour it into a greased casserole and let stand a few minutes until depressions can be made in it with a spoon. Now break the whole eggs into the depressions and top with buttered crumbs. Bake this in a moderate oven just long enough to allow the eggs to become firm.

Now we cannot forget egg desserts such as custard with all its variations. One of the most interesting ones is Floating Island and children love it. Instead of putting the egg whites into the custard itself, whip them up separately and add sugar to make a meringue. Put this topping on the cooked custard and brown in a moderately slow oven.

There are many other delicious desserts made with eggs such as fruit whips, delicias and cream puffs with rich cream or custard fillings. We must remember, too, the great variety of pies which may be made with a custard filling as a base. Lemon pie is always popular but for variety use the same filling recipe for lemon tarts and top with a soft meringue.

Baked Alaska is one dessert that homemakers are often afraid to try. To make one place a brick of ice cream on a layer of sponge cake cut about an inch wider and an inch longer than the ice cream. Then prepare a meringue by beating egg whites and gradually adding sugar. Now cover the ice cream evenly with the meringue making sure that there is no ice cream showing. Bake on a board in a hot oven 450° F., until the meringue is slightly brown, about two or three minutes.

With eggs so plentiful, it is a good chance to make more of those delicious feathery-light sponge angel or chiffon cakes. Left-over egg yolks may be used in a gold cake or sponge cake. A standard white cake may be topped with one of those fluffy egg-white frostings.

For afternoon tea, place meringues and macaroons made with egg whites high on the list and, when making cookies for hungry youngsters, choose a recipe containing whole fresh eggs.

Chateauguay

St. Andrew's Notes
Choral Concert
CHATEAUGUAY — The Choir of St. Andrew's United Church presented a Choral Concert, under the direction of Mrs. Hartland Rowell, Organist and Choir Director, on Friday night, January 28, in the Julius Richardson School Auditorium; was augmented by three former members: Mrs. Eric Smith of Howick, Que.; Mr. Evan K. Jones of Valois, Que.; and Mr. A. J. W. Brady of Montreal. Mrs. E. McPherson of Montreal West, was the accompanist and Mr. A. Douglas Lang acted as MC.

The programme, consisting of varied groups of songs, some new, others old favourites, and a cantata, was well rendered and enjoyed by those present.

The programme follows:
The Railroaders, a local quartet who harmonize well; Ronald Oliver, Lee Gilbert, Ronald Schurman and A. J. W. Brady, sang several selections.

The Happy Wanderer — The choir. Rolling Down to Rio and Duna by Evan K. Jones.
Come to the Fair and Cape Cod Chantey — a cappella — the choir.
The Harmonettes — Mrs. Eric Smith, Mrs. Lee Gilbert, Mrs. Osborne Lang and Mrs. Hartland Rowell.

Waitin' for My Dearie and The Heather on The Hill: Mrs. Lee Gilbert.

The Railroaders.
Following the Intermission a cantata, "The Legend of Sleepy Hollow" was effectively presented.
The text was adapted from Washington Irving by Edith Sanford Tilston and the music was by Ira B. Wilson.

Mr. Lang moved a vote of thanks to Mrs. Rowell and the Choir. The time and effort which had been expended had produced a very fine performance.

The singing of God Save the Queen brought the evening's entertainment to a close.

St. Andrew's Notes — W.A.
The Woman's Association met in the Church Hall, on Wednesday night.

Mrs. Herbert Davies and Mrs. A. Cartwright were hostesses.
The president, Mrs. Peter Fernandez, presided and conducted the devotional exercises, with Mrs. J. R. Dickenson at the piano.

Several items of business were dealt with and plans made for future activities. It was decided that a Bazaar would be held in June, and several convenors were appointed.

The prints had arrived and members had the privilege of buying a stated amount of the material, the rest would be made into aprons and other articles for the Bazaar.

Mrs. J. R. Dickenson and Mrs. J. W. Gilbert were appointed Manse Convenors.

A social half-hour followed the business period during which refreshments were served by the hostesses.

Personals
Congratulations to Mr. Maxwell Lang, a member of the Northern Electric Mixed Bowling Club, who scored 299 points out of a possible 300 in the Mixed Bowling League competition, and was presented with a gold wrist watch to commemorate his score, by J. P. Paré, owner of the Windsor Bowling Club, Montreal.

Mr. Stewart Craik, of Montreal, was the recent guest of his brother and sister-in-law, Mr. and Mrs. Robert Craik.

Mrs. R. S. McCutcheon, of Montreal, was the guest of the past week at the home of her son and daughter-in-law, Mr. and Mrs. Desmond McCutcheon. Recent week-end guests at this home were Mr. and Mrs. Gordon Cummins of Montreal West.

Mrs. Allan Outhbert, of Montreal, spent the week-end at the home of Mr. and Mrs. E. R. Richardson.

Mrs. W. O. Gendron of Lachine, Que., was a recent guest of Mrs. Stanley Hill.

Marilyn and Susan Smith of Howick, Que., were week-end guests of Mr. and Mrs. David H. Reid.
Mr. Robert Hetherington of Saskatoon, Sask., is the guest of his brother and sister-in-law, Mr. and Mrs. Andrew Hetherington.

BUSY SHIPPING
CAMPBELLTON, N.B. (CP) — Annual shipping traffic in this little port is on the upgrade. Forty-seven vessels cleared this year including three 7,000-tonners, taking lumber, pulp and paper and other goods to coastal and foreign ports.

Move Surplus U.S. Dairy Products

In its annual dairy outlook reports, the United States Department of Agriculture predicts that milk production in 1955 will approximate 124 billion pounds, and that domestic usage of dairy products, in terms of milk equivalents, will reach 121 billion pounds. Commercial exports and shipment to United States territories, estimated at just over a billion pounds in 1954, are not expected to change much in 1955. While these forecasts are, of course, subject to considerable error, it appears reasonable to assume that surplus stocks of dairy products a year from now will be lower than at present provided special export shipment exceeded two billion pounds milk equivalent in 1955.

Recent developments suggest that the two billion pound figure will be exceeded by a wide margin. Operations under one program alone are expected to lead to the disposal of dairy produce of well over two billion pounds of milk equivalent in the next five months.

The program is being carried out under the provisions of Section 416 of the Agricultural Act of 1949, under which surplus stocks of dairy products have for some time been available free to United States private welfare agencies feeding needy people abroad. The provisions of Section 416 were recently widened, with the result that the U.S.A. has been able to offer to accept costs of reprocessing, packaging and handling these products to suit welfare agency requirements, and to pay transportation to point of export.

This venture has led to a great increase in amounts of produce requested by welfare agencies for disposal abroad. The U.S.D.A. had by November 24 arranged for the repackaging and delivery of nearly 90 million pounds of butter, about 50 million pounds of cheese and over 60 million pounds of dry skimmed milk. The butter and cheese scheduled represent over two billion pounds of milk. If this rate of disposal of surplus welfare agencies is maintained through 1955, surplus stocks will be considerably reduced from current levels by the end of the year, especially as the Section 416 program is only one of these covering the disposal of dairy surpluses abroad. As the present dairy surplus represents around ten billion pounds of milk, it is not likely to disappear completely in the coming year.

Obituary

The Late Rev. Galen Craik

Rev. Galen Craik, well known to many in this vicinity, passed peacefully away at the home of Mr. and Mrs. Meredith Rosevear, early Sunday morning, January 30, at the age of 87 years. He had been confined to his bed for some months. Born at Franklin in 1868 he was the son of the late Mr. and Mrs. John Craik who formerly owned the Chas. Waller home, before moving to Alberta in 1899. Mr. Craik was an engineer at Galtine Mills, and Galen, who is a journalist, resides in Regina, Sask.

A funeral service will be held in Montreal, followed by a service in Rennie United Church on Wednesday afternoon. Interment will be in Hillside cemetery.

The sympathy of this community is extended to the sons.

Dundee

DUNDEE — Messrs. John and Gilbert McMillan, also Miss Thelma McMillan, were guests on Sunday of Mr. and Mrs. Carl Arthur at Brooklet.

Miss Doris Fraser of Mt. Bruno spent the week-end at her home in Dundee.

Services were held in the United Church at 10:30 a.m. on Sunday morning. This is a half hour later than formerly, due to the fact that the services at Kensington are being cancelled for a few weeks, leaving Mr. McLeod more time for his two services at Dundee and Powerscourt.

The United Church congregation at Dundee held their annual meeting on Wednesday evening, January 19, in the Church auditorium. Quite a number were present and after the business part of the meeting was finished the Church managers served sandwiches, doughnuts and coffee to all those attending the meeting.

Rev. Mr. Beale, Interim Moderator for the congregation was present and acted as Chairman. Very favourable reports were read by the secretaries of the various Church organizations or their representatives and all showed good progress having been made throughout the year and in all cases the financial standing was excellent.

For the past few years the three charges of Dundee, Kensington and Powerscourt have been served by a student supply from the United Church College in Montreal.

However, by a decision taken at this recent meeting the congregation will make an attempt with the two other sections of the field to raise the necessary funds so that a call may be extended to the settlement Committee of the Church asking for the placement of an ordained minister to serve the three congregations.

Leaders in the New York State Legislature at Albany are studying plans whereby taxes on gasoline might be raised two cents and on Diesel oil 3 cents. The former Governor Dewey had recommended that gas taxes go up by 6 cents a gallon and Diesel fuel from 6 to 9 cents a gallon. The proceeds of this tax would be used to finance a bond issue for a \$750,000,000 highway improvement program.

It is noted in the news from Washington that some Government Officials and business interests are rather disturbed over the fact that Canada is proceeding to build what they term an all Canadian Seaway. This attitude is being taken since the announcement from Ottawa that the St. Lawrence Seaway Authority has accepted a \$6,470,000 bid for the construction of a canal and lock at Iroquois, Ont., in the International Section of the St. Lawrence River. The Pentagon Constructors Ltd. are the two joint bidders.

The proposed new lock will be 768 feet long, 80 feet wide and 27 feet deep and will approximate the size of the Welland Canal. An immediate start is to be made on work which is scheduled to be finished by November 30, 1967.

Brooklet

Congregational Meeting

BROOKLET — The Annual Congregational Meeting of Rennie's United Church was held Tuesday afternoon, January 25, in the Sunday School room of the church.

Rev. J. P. Travis opened the meeting with prayer, after which the business of the session took place. The reports of the various organizations in connection with the church, all showing favorable balances, were read and approved.

Following are the results of the election of officers for the ensuing year:

Members of Session — A. H. Taylor (re-elected), E. R. Erskine (re-elected), J. E. Massey (re-elected), M. J. Rosevear, J. O. Gamble (re-elected), J. O. Levers (re-elected), Secretary-Treasurer.

Stewards — L. J. Graham (re-elected), F. J. Elliott, F. McCracken, A. H. Wilson (re-elected), E. W. Wilson (re-elected), G. E. Erskine (re-elected).

Offering — Ernest Maither, Donald Wilson.

Substitutes (offering) — A. H. Wilson, G. E. Erskine.

Ushers — G. E. Erskine (re-elected), Douglas Wilson (re-elected).

Auditors — A. H. Taylor (re-elected), B. O. McCracken (re-elected).

National Temperance Course

Following are the results in order of merit of The National Temperance Study Course, as sponsored by the Brooklet W.C.T.U.:

Juniors 9 years and under — Shirley Graham.

Juniors, 10, 11 and 12 years — Dawn Graham, Judy Graham, Billy Lindsay, Joseph Perrozzino.

W.A. News

The regular monthly meeting of the W.A. of Rennie's United Church took place on Wednesday evening, January 19, at the home of Mrs. Ellis Wilson.

Mrs. George Erskine had charge of the devotional exercises. The installation of officers, conducted by Mrs. W. J. Maither, was, as usual, a feature of the January meeting.

Mrs. J. O. Levers delivered a splendid address in memory of three church members who had passed away during the past year. The purpose of this Memorial Service, so ably conducted by Mrs. Levers, was to honour the memory of the late Mrs. J. Massey, Mrs. J. Cordick and Mr. H. E. Wilson. Their memory will long be cherished and their services unforgetting.

The meeting closed with the repetition of the Mizpah, after which the hostesses, Mrs. Ellis Wilson, served delicious refreshments.

Lacolle

Local Farmer Shoots Timber Wolf

LACOLLE — Charles Robinson noticed an animal as he was entering his bush on Tuesday afternoon. He returned to the house and secured his gun and had to fire four shots before killing the timber wolf. Charlie contacted Mr. Alfred Cookman, game warden, who advised him that he would receive a bounty of fifteen dollars for killing a wolf.

James Hope was the winner of Lacolle bonspiel held last week. Keith Robb of Aubrey was the runner-up. Results of the games and pictures will appear in next week's issue.

Beaver

BEAVER — Miss Lucille Quenneville, Raymond Quenneville and Mrs. R. Grover motored to St. Dorothée on Tuesday. Mrs. Grover returned to her home, having been called here owing to the death of her friend, Mrs. Rose Ann Quenneville.

Mrs. Wesley Thomson was the guest of her son-in-law, Mr. and Mrs. R. Grover, on Tuesday. Mr. and Mrs. Allister Kelly, Huntingdon, during the past week.

Mr. and Mrs. Clarence Platt, Ann and Shirley, spent Tuesday with Mrs. Platt's parents, Mr. and Mrs. Henry Hart, Grande Ligne.

Obituary

The Late Mrs. Albert E. Curran.

On Friday morning Jan. 21, 1955, after a long illness, Mrs. Curran passed away at the Convalescent Home in Ormstown, where she had been a patient the past two months.

Mrs. Curran the former Mary Emma Patton was born Sept. 19, 1878, at Lachute, Que. She was united in marriage to Albert E. Curran on June 11, 1908, and resided at Covey Hill through almost 47 years. Their three children are Keith and James at home and Edna (Mrs. Hanna) of Toronto.

Mrs. Curran a member of Wesley United Church, was a willing and faithful worker in the little church, built on a corner of the Curran property. She was president of the Ladies Aid for some years and up to the time of her passing was interested in its work and progress. Through the seven years of her illness she was devotedly cared for by her husband and daughter-in-law.

Sympathy is extended to the immediate family, which includes her husband, two sons, a daughter, two daughters-in-law, and one grand daughter, also a sister, Mrs. Thos. Graham of Arundel.

The funeral service conducted by the pastor Rev. Holmes, was held at the Wesley Church on Sunday, where a large number of relatives and friends gathered to pay final tribute.

The bearers were Gavin Graham and Douglas Goodfellow (nephew) Tom and George Gowdy, Lloyd Waddell and Pete Peddie.

Flower bearers were Fergus Moore Aaron Churchill, Wellington Potter and Lloyd Sutton.

Relatives from a distance who attended were, Mrs. Laura Bremner,

Trout River

TROUT RIVER — Mr. and Mrs. Arthur Peters of Dixie left by train on Sunday for New York City. Mr. Peter is away on a business trip.

Mr. and Mrs. Ray Richardson also of Dixie, left by car Sunday evening for Florida. They expect to spend one night at the home of their sister Myrtle and brother-in-law, Mr. and Mrs. Carl Geyer in Hudson, N.Y.

Mr. and Mrs. Richardson expect to be away for about five weeks.

Rockburn

ROCKBURN — Mr. and Mrs. Reggie Taylor entertained to a late supper Thursday evening. Guests were Mr. and Mrs. Eddie Rennie and daughter Mildred, Mr. and Mrs. Bobby Weiburn and little Lyn Pringle and Mr. and Mrs. Ernest Pringle, occasion being Mrs. Pringle's birthday.

Mr. and Mrs. Ernest Pringle and son Merl and Mr. and Mrs. Bobby Weiburn spent Sunday in Beaconsfield with Mr. and Mrs. Herbie Pringle. Little Lyn Pringle returned home with them after spending the last two weeks with her uncle and aunt, Mr. and Mrs. Bobby Weiburn.

Editorial Notes...

Provincial Income Tax Still debated

THE question of the Quebec Income Tax is still holding a place in the headlines of many newspapers despite the fact that Prime Minister Louis St. Laurent has announced authorization for an exemption of 10% off the Federal Tax. However, Premier Duplessis is still of the opinion that the full amount of the tax - 15% - should be allowed as an exemption on the Federal Tax.

It would seem that the Federal authorities have given quite a concession to Quebec in this matter, in the face of all that lies in connection with it. Quebec has steadfastly refused to sign a tax rental agreement with the Federal Government as the other provinces did and has remained aloof from accepting grants made by the government and which could have been used in place of the tax now levied. It would thus point that the position in which the province finds itself at present has been brought about by its own making. The Federal Government has very generously offered a partial way out and much in excess of the regulations governing the matter, but still Premier Duplessis is not satisfied, he wants more. The other provinces now, are not quite sure whether they have as good a deal as Quebec and there is naturally some dissatisfaction.

The Federal Government has gone farther, we believe, than Premier Duplessis asked, in the fact that in 1955 and 1956 all federal income tax payers in Quebec will be allowed to deduct 10% from the Federal tax. We believe it was Premier Duplessis idea that only those paying the Quebec tax should be allowed to deduct whatever would be allowed. The Quebec tax is not applicable to all Quebec Federal tax payers, on account of the greater amount of exemptions allowed under the Quebec Tax. In this way, many Quebec Federal Tax payers will get a greater amount of exemption than those in other provinces, when the computation of the 1955 tax is made in 1956. Only those who actually pay the Quebec tax for 1954 will be allowed to make deductions from this return.

Nothing less than the full deduction will

set Premier Duplessis right in the eyes of the electors in Quebec, for the taxpayers will still be subject to double taxation to the extent of at least 5%. This does not suit Premier Duplessis as of course, by this time, he must realize that he made a big mistake in imposing the tax in the first place. It would be far better if he acknowledged his mistake and repealed the Act and then accepted the grants which the Federal Government is willing to make. Everyone is liable to make a mistake, but it is one thing to persist in it and another to admit it. There are those who believe that to make a mistake and admit it, shows a sign of weakness. In our mind, it shows great courage to be able to admit that we could be wrong.

It looked to us when Premier Duplessis met Prime Minister St. Laurent and there was such cordiality, that the rift between the two governments would be narrowed and perhaps ended. It looks now as if it may be considerably widened unless Prime Minister St. Laurent will concede and grant Premier Duplessis a full deduction of the Quebec Tax from the Federal tax.

According to a newspaper report published the past week, Premier Duplessis has hinted that he plans to call a Provincial Election next year. The term of office does not expire until 1957. It may be for this reason that the Quebec Income Tax is only given for as long as 1956. Perhaps Premier Duplessis actually wants to know what the electors think of his ideas of taxation. If he presents to them at that time that he had secured a full deduction of the imposed tax and therefore it had cost the taxpayers nothing, there would be a much better feeling. At the same time he could impress upon the electors that he had preserved the autonomy of the Province by imposing and collecting its own tax and had accepted nothing from the Federal Government. It must be remembered that the chief plank in the Union National platform is the preserving of the autonomy of Quebec.

The State of the Canadian Economy

THE present state of the Canadian economy is a puzzling one. We have certain industries which are suffering from lack of sales and a slowing down of business. It is said that the prices of Canadian goods are higher for export market than others in the market. The reason given for this is the higher costs and especially that of labour, as compared with other countries. As a consequence there is a rising trend toward the cutting of wage rates in some of the industries affected.

In view of the fact that costs of everything are still high and in some cases are tending to go higher, any cut in the wage scale would impose hardship on those accepting it. Unless the costs of those goods which the consumer must buy, are reduced in accordance, it hardly seems likely that wage cuts can be put into effect unless as a temporary measure in some very hard pressed industries. The agreement then, would have to be, that when such industries had found their feet, the full wage scale would be reinstated. Meantime, management would have to find means of adjusting costs to keep prices in line with consumer buying.

There have been several strikes of late and these have all had an effect upon the general economy. When a strike takes place there is a loss to many a worker. This loss is reflected in the drop in sales of the products they sell or produce. In consequence, all down the line such a strike is felt in greater or lesser degree. It would therefore seem that the logical thing for the worker to do is to weigh very carefully the action of a strike before being led into one. The striker is the one who suffers most, the leaders of the Union do not suffer, they are not taking a loss in pay for several weeks or months. If one considers the loss sustained by the striker and the amount gained after weeks of striking, it might be found that the net results are not what they

seem to be. It will take many months of the increase granted to repay the loss sustained during the strike. Thus for several months no benefit of the increase is realized. By that time added costs have gone in to the article to the consumer and he is holding back on his buying. This cuts back production and there are layoffs.

The economy will stand so much, there has to be a peak at some time and we believe we have reached that peak. It is now a matter of holding that peak in order to maintain the standard of living that has been built up. Once we try to pass the peak and place an overload on the economy, the standard of living will be reduced to where the economy can carry it. Under those circumstances there must be a cut back in wages or an upsurge in unemployment. In other words we can only succeed when the economy is in balance. That means that the goods produced must be sold and surpluses can only be for such as there is market in sight. The demand must be in balance with the production. If the costs of our production are too high to meet competition, then it can only lead to over-production and consequent layoffs with mounting unemployment.

Union leaders will have to recognize this fact and not be so eager to urge their members to strike for increased rates of pay. They should pay greater attention to the changing economy and base their demands according to that economy and what it can bear. If the present standard of living can be maintained, we do not believe that anyone will suffer too much. Further, it will give greater chance for employment to those who need it. While demands for increases continue, prices of goods will rise and the position will be aggravated rather than improved. Workers and Union Leaders should work in closer conjunction with the employers of labour in order that the economy is not asked to bear more than it can.

Menace of War Again Rears Ugly Head

THE God of War is apparently not weary enough to sleep too long, he is again raising his menacing ugly head with a threatening expression. He has stretched forth his hands and clutched at some parts of the world, in an effort to drag himself up to a full upright position and possibly start slashing his sword of destruction. We have wondered how long he would slumber after he had been calmed down and once again peace reigned.

The situation in Formosa is now engaging the time and attention of many of the Heads of Nations in an effort to prevent another conflict in the far East. Again, of course, it is the Reds who have strained relations to the breaking point with their threats and actions of provocation. True, Red China has warned the world that she intended to attempt to regain possession of Formosa from the Chinese Nationalist Government, the former government of China. But even had this been granted, it is more than possible she would find something else to harp about. There is no satisfying the Red appetite. There must come a time when a determined "NO"

is given to the demands. Apparently President Eisenhower has decided that the time is here and he has already made preparations to take action in the event that the Reds push their war tactics too far.

There are, of course, serious implications if this breaks out into a fighting war. There is bitterness between Red China and the United States on account of the recent holding of Americans as political prisoners for one crime or another. The United States has been unable to win out in negotiations to release these United States citizens. Red China is very bitter toward the States and much propaganda has been issued about actions of the United States. As usual, the charges are trumped up and confessions have been forced from those held, by various methods. Such things cannot go on indefinitely and it seems that the determination of the United States stems from the digs it has received from Red China. President Eisenhower has been determined to help the Chinese Nationalist Government ever since it fled to Formosa and has now made his stand quite clear and so has the American Nation.

Random Glimpses of The Past Taken from Gleaner Files

June 17th

Howick — Mr. Dunn, proprietor of the power house at St. Etienne, which supplies electric light for Howick, is gradually having meters placed in all the houses. This will reduce the heavy load on the wires and enable him to supply other houses that required the light. It is his intention to install a stronger water-wheel and also a 50 h.p. engine to furnish power when the water fails in the winter. He is promising an all night service.

St. Martin — Mr. Xavier Morais, the Granby Morais' concession went to his neighbor Mr. Arthur Huot, to borrow a rifle for the purpose of shooting fish in the creek. Mr. Huot's wife handed him the gun saying she did not think it was loaded, but Mr. Morais, to satisfy himself, examined the weapon to make sure and in doing so it went off, the bullet striking a horse in the pasture a short distance away. The horse died on Monday. As Mr. Huot's wife and seven children were present, it was lucky the bullet did not strike one of them instead of the horse.

Huntingdon — Mr. G. Brunet of Ormstown, has purchased the marble and granite business of the late Fred Cunningham, and purposes re-opening the plant at once. The purchase price is not stated.

June 24th
Notes from Ormstown Show — The gate receipts at the show on

Thursday were \$700, more than during the whole show last year.

The Northeastern Lunch Co. took in over \$4,000.

Mr. John Harvey, Freleighsburg, Que., sold his five-week-old Holstein calf, Maple Faith for \$500 to J. B. Hamer of Norwich, Ont.

R. R. Ness reports that in all his experience he never was so busy at any fair as he was at our show last week, making sales and attending to prospective buyers.

The total gate receipts were \$3201.25 in excess of last year. Thursday night there were over 5,000 people in the arena.

July 1st.
Dundee — On Friday evening Sam Sparacina an Italian from Water-town, who has the reputation of smuggling whiskey, was fined \$1,500 by Canadian customs officers. On paying the fine he intimated he would be through that night with a load and defied the officers to catch him. As he left driving in the direction of Valleyfield, the law was out in force and several Canadian cars were out late were inconvenienced by being stopped to prove identity. The effort was not successful. Sam either thought it better to remain overnight in Canada or escaped by a round about route.

Hemmingford — The Bank of Hochelaga, opened for business on Monday morning.

Weekly Review

Golden Rule and Strikes

By LEWIS MILLIGAN

Interference on the part of American labor leaders in labor disputes in Canada has come to a point where it is time to ask what right they have to cross the line and take any part in those disputes. It has been claimed that because the UAW is an international union the American officials have that right, and the Ontario Labor Minister, virtually enforced the claim when he went so far as to cross the line into the United States and invite Emil Mazey to come over and try to settle the strike at the Ford plants at Windsor and Oakville. Membership in an international union does not endow Americans with the rights and privileges of Canadian citizenship. Entrance of Canadians into the United States for other than legitimate business purposes is strictly limited, and anyone suspected of subversive intent is very quickly turned back at the border. If a Canadian labor leader were to go to Detroit during a strike in that city and incite the strikers, he would be justly deported. And yet Mr. Mazey was allowed to enter Canada and address a meeting of strikers at Windsor urging them to refuse to go back to work until their union leaders gave them permission to do so. He demanded the appointment of Canadian judges as arbitrators and told the workers they should hold out for the full demands of the union.

When one of the strikers, who

had lost over two months' wages, asked Mr. Mazey what salary he received as a union official, he replied: "I get \$14,000 a year, and every damned cent of it!" The strikers themselves no doubt earned every cent of their three or four thousand a year, and they could be excused for wondering how long Mr. Mazey and other union officials would hold out if their pay were stopped for the duration of a strike. The 8,000 men involved in the Ford strike were fully employed and were earning, to say the least, wages sufficient to keep them and their families in a comfortable living.

The moment they struck they were out of employment and for three months they had no wages at all and were reduced to a state of poverty. What they received in strike pay would barely provide them and their families with food, much less shelter and other necessities, while their union leaders were receiving full pay and would without loss hold out indefinitely. If the demands of the union were fair and just, it was surely only fair and reasonable that the leaders who induced the men to sacrifice their incomes should themselves be prepared to share in that sacrifice. No man should insist upon another's doing what he is unwilling to do himself. The Golden Rule might profitably be studied by union leaders who call their followers out on strikes.

Athelstan

W. M. S.

The January meeting of the W. M. S. Auxiliary was held on Thursday afternoon at the home of Mrs. L. D. Watson, Mrs. Jamieson presiding. The meeting opened with the quotation from "The Gate of the Year", given by King George VI in one of his Christmas messages, the Call to Worship and singing a hymn. Mrs. Geo. McIntyre gave the Bible reading and Mrs. Jamieson led in prayer. Roll Call and reports of members followed. A verse on "Believe" Notice of annual meeting in Stanley Church on Feb. 1st was read, and Mrs. D. F. Grant and Mrs. Wm. McIntyre were appointed as delegates.

Notice of World Day of Prayer on February 25 was read. This will be held in Presbyterian Church Hall, and Secretary was asked to send invitations to neighbouring groups to meet with us.

Mrs. Jamieson reported that any good literature sent to the Sailors' Institute, Montreal, will be very much appreciated. Ways for helping the Mission Band leaders were discussed. At present, not much time is given to supervising work which the boys can do. We hope soon to have a leader who will interest the boys in wood working schemes.

A certificate of Life Membership in Women's Missionary Society was presented to Mrs. Wm. McIntyre.

For the lesson, Mrs. Grant read an interesting news letter from Rev. George and Mrs. Malcolm of their work in Taiwan (Formosa). Mrs. George Claussion left over the week-end for Mahone Bay, N.S. being called there by the serious illness of her brother-in-law, Mr. J. E. Hiltz.

Polio Fund Raising Plan
In a recent letter received by your correspondent from relatives in Florida, the writer told of a unique

way of raising funds for the fight against polio, when the licensed members of the Flying Club of New Smyrna Beach piloted planes in an "airlift" and the fee of \$1.50 was charged for each passenger per ride. Considerable money was raised for this most worthy cause. Howard Johnston, son of the late Mr. and Mrs. T. W. Johnston, former residents of this community was among the licensed pilots to help out in this drive, being a member of this particular Flying Club.

Jack Beattie of Hemmingford has been a recent guest at the home of his father, Mr. Wm. Beattie.

Mrs. Lucien Souchard of Montreal visited her uncle, Mr. Louis Duval last week. Mr. Duval being confined to the house through illness. Others who visited him were Mr. and Mrs. Clarence Duhamel of Burke, N. Y., Mr. Joseph Duval, Lucien Duval, Mrs. O. Dorais and Mr. Armand Henault, all of Huntingdon.

Mrs. Laura Claussion left this week for Mahone Bay N.S. where she will spend sometime with her brother-in-law and sister, Mr. and Mrs. J. A. Hiltz. Her grandson, Master Scott Duhamel, of Huntingdon, accompanied her.

Roxham

ROXHAM — Norman J. Shaw, Pepsi-Cola Co., left on the 30th for Belgium Congo by plane, where he will be located for an indefinite time.

Mrs. Grace White of Hallerton is spending an indefinite time with Mr. and Mrs. Fred Orr, of Barrington. Master Peter Jones, who is residing with Mr. and Mrs. Clifford Elvidge, spent the week-end in Montreal visiting his mother and sister.

The other nations of the West, tied as they are to what the United States does, may well be drawn into such a struggle ere long. The implications therefore, are that another global conflict can be in the making. Some of the nations have already appealed for a cease fire truce and asked the United Nations to intervene. Such requests have been flatly turned down by Red China and Russia has demanded that the U.S. quit Formosa.

The world is again in the grip of tension. While there remains a vestige of Red domination, the world will be continually in tension of possibilities. Despite the olive branches and doves of peace offered by the Reds, they should never be accepted too wholeheartedly for fear they backfire as a booby trap. World

domination is the ultimate goal of the Communistic forces and unless they are crushed beyond recognition, there will be constant apprehension as to what they will do next. Peace can never be maintained under these conditions and there is no use in denying it. It is just the horrors of what a new type of modern warfare holds, that prevents either side from taking a decisive step. The decision will probably finally come from an embroilment in a conflict such as may commence in the Formosa area. We shall find that we are being attacked from a knock-out point of view and that we must defend ourselves at all costs.

This Formosa menace will be watched with mounting apprehension until a decision is reached in one way or another.

Round Byre and Ring

New Holstein Sire

Earl R. Sadler, River Outarde Road, Ormstown, recently purchased a new junior herd sire for his Holstein herd, from Douglas Hart, well-known outstanding Holstein breeder of Woodstock, Ont. The young bull concerned is a 10 months old grandson of the famous Montvic Rag Apple Sovereign.

His dam has a 4% butterfat record of 20,000 lbs. milk, while his sire's dam has a record of 15,484 lbs. milk, 757 lbs. fat, 4.89% on twice daily milkings.

The word "Depression" is scarcely used, in fact, is mostly evaded these days. Nevertheless there has been quite a depression in this district in so far as the selling of purebred cows and in-calf heifers is concerned. That is, of course, other than to the stock yards, etc. for beef purposes.

The Export Trade?

A few years ago, before the Saskatchewan Foot and Mouth outbreak disrupted the export trade from this and other districts, the shipping of a car or truckload of cows to the United States was just a very ordinary occurrence. Nowadays, however, an export shipment of cows from this district is, to use a newspaperman's expression, "News".

To Granby, Mass.

The foregoing, of course, leads up to the reporting of two truck loads which were shipped by Russell Logan, Howick, Que., within a month of each other to Kenneth H. and Richard G. Hatch of Granby, Mass., U.S.A. Details of the first shipment, at the end of December, eight in-calf and springing purebred Ayrshire cows, are not available. However the second load went out a week ago and were purchased as follows:

Four head from Matthew Wallace, Athelstan. One animal each from Wallace Rennie, Huntingdon; Stanley Peddie, Howick; Wilfred Bryson, Allan's Corners; J. D. McDougall & Son, Ormstown.

The Hatch Brothers

The brothers, Kenneth H. and Richard G. Hatch, have been frequent purchasers of purebred Ayrshires in the Howick-Huntingdon Ayrshire Club area, with Russell Logan as their agent, over a considerable number of years. However, prior to their taking over the family farm business at Granby, Mass., their father, the late A. H. Hatch, was a long time buyer of Ayrshires in this and several other districts. In fact, during the heyday, so to speak, of Ayrshire exports, A. H. Hatch created several records, both as regards numbers in single shipments and as regards volume by the month and year.

Baled Grass Silage

Spring and the Haymaking Season, be the latter for grass silage or otherwise, are still a long way around the corner, so to speak. However, farmers interested in Grass Silage, in pits, may be interested in learning about a report by the West of Scotland Agricultural College on the origin and costs of harvesting grass silage in baled form; even although such method of storing of grass silage may not be practicable in this part of Canada. Incidentally the following is a condensation, or rather extracts from the Farming News (Scotland) review of the West of Scotland Agricultural College report, entitled Baled Silage.

It is stated that up until 1953 very few farmers in South-West Scotland had attempted to use the pick-up baler for silage making, a method of harvesting which had previously been adopted in parts of the West of Scotland. One Scottish farmer in that year (1953) encouraged others to start last summer (1954). The College decided to find out costs and labour requirements, but the main silage crop had been cut before this investigation was started. However, the report gives the average cost on eight farms in the West and South-West of Scotland in the counties of Ayr, Dumfries, Dumbarton and Lanark).

Sixteen Shillings Per Ton

Charging man, horse and tractor work and depreciation and repair of implements, the average cost on eight farms was £5.16s (£15.59) per acre or 19 shillings (\$2.55) per ton. But on five of the farms the cost of harvesting was below 16 shillings (\$2.15) per ton. The average yield was 6½ tons of fresh grass per acre (That is, in long tons since the British ton represents 2,240 lbs. whereas the Canadian ton only represents 2,000 lbs.).

Twine cost about 1d (penny) a bale, and the weight of a bale ranged from 56 to 76 lbs.

The cost of harvesting silage by pick-up baler does not appear to differ appreciably from the cost of harvesting by other methods, but the evidence suggests that it requires less labour in terms of man-hours per ton of silage harvested. The silage in baled form is said to be simpler and to take less labour than feeding loose silage. But this point still requires confirmation.

Harvesting Methods

Harvesting can be carried out in two parts:

- (1) Cutting, side-raking (if necessary) and baling - for which the minimum team required is one man and one tractor, and,
- (2) Collecting bales, transporting them to the pit and ensiling - which requires a minimum of three men and a tractor.

These two parts can be carried out independently by two separate teams

or by the same team working at different times.

Describing the new method the report says that the grass was cut in the ordinary way, and if it was short, the mower was followed by a siderake or swath-turner to combine two swaths into one, so as to make a swath big enough to bale satisfactorily. Equally where the grass was long and the crop heavy, the side-rake or swath-turner was necessary to make the swath narrow enough for the baler to pick up easily.

Baler Adjustments

With reference to the commonest make of baler in use, the report says it was customary to have slight modifications made to this machine to improve its performance with silage. The chief alterations were the provision of a double trip mechanism to make half-size bales, the reinforcement of the bale-chamber and the addition of a spring to prevent the auger-arm from rising. The cost of all the necessary modifications was said to be under £4 (\$10.75).

Loading and Stowing

The bales were loaded by lifting on to trailers by hand and taken to the pit, but some farmers preferred to leave them to wilt for a day before ensiling, as this was said to encourage initial heating in the pit. The bales were unloaded by hand, and built into the pit, after which they were consolidated in the pit by rolling with a tractor - those who had one preferred a "crawler"

tractor. Sometimes it was necessary to cut a bale and spread the grass to fill in cavities in the pit, and a certain amount of tramping was often necessary for proper consolidation.

Costs and Quality

Generally speaking, a heavy yield tends to increase the cost per acre, but to decrease the cost per ton. Whilst it may be desirable to aim at high yields, it must also be remembered that the biggest yields may come from grass that is too mature, and the silage may therefore be of poor feeding quality, low in protein content. On the other hand, if the silage yield is low, it may have been produced from short young grass with a high protein content and therefore of high feeding value. Thus the cost per ton must be considered in relation to the quality of the grass ensiled.

Cost of Bales

The cost of the more recently-purchased balers, on the farms visited, varied from £575 (\$1,545.94) up to £650 (\$1,747.50) according to make and date of purchase. The estimated cost of depreciation and repairs of the baler, calculated on six farms, averaged eight shillings and sixpence (\$1.14) per hour worked.

On an average baling costs about a shilling (approx. 13½ cents) or two more per ton than harvesting by other methods. Since, however, five out of the eight farms had a cost per ton of less than sixteen shillings (\$2.15), it seems that, under (Continued on Page 6)

Thanks and At Your Service

I take this opportunity to thank the citizens of the Town of Huntingdon for my election by acclamation to the Town Council.

As in the past I will serve you with good judgment and good service to all for the interest of our town.

R. E. McWhinnie

Thanks

I wish to express my sincere thanks and appreciation to the citizens of the Town of Huntingdon for my election by acclamation to the Town Council.

As in the past, I assure the citizens that I will do my best to work in their behalf at all times.

Dr. J. E. Caza

My Thanks

Having been elected by acclamation as an alderman to the Town Council, I would like to express my thanks and gratitude to the citizens of the Town of Huntingdon.

As in the past, I will try to serve you at all times to the best of my ability.

Alderic Tremblay

My Sincere Thanks

I would like to express my sincere thanks and gratitude to the citizens of the Town of Huntingdon for my election by acclamation to the Town Council.

I will try to serve you at all times to the best of my ability and in the best interest of our Town.

Earl Fournier

Sincere Thanks

For my election by acclamation to the Town Council, I wish to convey my thanks to the citizens of the Town of Huntingdon.

I will do my best to serve the people of Huntingdon to the best of my ability.

VALLEYFIELD, QUE.

Part II The Story of The Three Elder Sisters of Philip, Duke of Edinburgh By C. A. McNAUGHTON

(The following story of the sisters of the Duke of Edinburgh, together with the story of Princess Sophie of Hanover in the last issue of the Gleaner is taken from letters and answers to questions from H.R.H. Princess Margarita of Hohenlohe. This story concerns the three elder sisters — Margarita, Princess Gottfried of Hohenlohe-Langenburg; Theodora, Margravine of Baden and of Cecile, the late Princess of Hesse-Darmstadt.)

Princess Margarita, the eldest sister of the Duke of Edinburgh was born at Athens, Greece on April 5, 1905. Her birth occurred just a little over four years after the death of her great-grandmother Queen Victoria of England, who in her day had lived to see 86 descendants.

Princess Margarita was brought up at the Royal Palace and had a private education under tutors and governesses. Her first journey abroad occurred when she was three years old in 1908, when her grandmother, Olga of Greece and her parents Prince and Princess Andrew, visited Russia. The Queen, herself a former Russian Grand Duchess made it a custom of visiting her homeland at least once a year taking some of her children and grandchildren with her each time she went.

During the first exile from Greece between 1917 and 1920 Margarita and her sister Theodora spent most of their time in England with their grandmother Princess Victoria of Battenberg, the Marchioness of Milford-Haven at Kensington Palace. After the second exile from Greece, in 1922, they spent most of the next few years of unmarried life between their home in France and their mother's homeland of

The eldest niece of the Duke of Edinburgh, Princess Margarita of Baden, now a nurse at St. Thomas' Hospital, London, England, taken at her home at Castle Salem, Germany, in 1952. She is the daughter of Princess Theodora of Greece and of Prince Berthold Frederick, Margraf of Baden.

England. Travels throughout Europe occurred at frequent intervals. In 1923 Princess Margarita and her sisters were attendants at the wedding of their uncle Lord Louis, now Admiral the Earl Mountbatten of Burma in London and were frequent guests at his country residence.

On April 20, 1931 Margarita was married at Langenburg, Germany to her cousin Prince Gottfried Victor of Hohenlohe-Langenburg in a quiet wedding ceremony. Langenburg was the home of the former reigning Princess of Hohenlohe and since their right to rule was put to an end by Napoleon, this has continued to be the home of the succeeding generations of the family. The tiny former Principality of Hohenlohe covers a small bit of territory in south west Germany near to the French border. Its ruling Princes were hereditary, that is when the father died his son or closest relative automatically took over the ruling authority. After the Napoleonic wars it was incorporated into the Kingdom of Wurttemberg. Since then the family have been able to remain in residence in the castle of Langenburg. Prince Gottfried, who is the present head of the family owns considerable property including various family homes.

Prince Gottfried is eight years older than Princess Margarita, having been born during Queen Victoria's reign in March 1897. He is the same age as is the present Prince Royal of England and is a great grandson of Queen Victoria.

His mother, the late Princess Alexandra, was a former British Princess, a first cousin of the late King George V, and a sister of the famous Queen Marie of Romania. She was married in 1894 at Coburg, Germany to Ernst, then head of the Hohenlohe family. In 1900 he was Regent for his wife's cousin Charles Edward, the reigning boy Prince and Duke of Saxe-Coburg-Gotha. Charles Edward who died in 1954, was a brother of Princess Alice, the Countess of Athlone and during the first and second World Wars an able associate in the German army.

Prince Gottfried was educated at the local school at Langenburg and later went to Coburg and Dresden to attend the high schools there. He served in the German Imperial Army in World War I after which he completed his education at the University of Heidelberg.

The only actual state occasions that Princess Margarita and her husband attended were two coronations in London, that of the late King George VI in May 1937 and that of her sister-in-law Queen Elizabeth II in June 1953. She also attended the christening ceremony of Princess Anne in Oct. 1950 at Buckingham Palace, being one of the sponsors.

Since the end of World War II Margarita and her sisters have vis-

ited England almost yearly, the visits being returned by the Duke of Edinburgh though the Queen has never accompanied him. As far as publicity is concerned the Duke's sisters have never encouraged it, though Britain has in particular completely ignored the family for many years, in its newspaper.

During World War II the sisters resided in Germany, their husbands having entered and served in the Nazi Army. Prince Gottfried first served in a cavalry regiment at the beginning of the war. Later he had a reconnaissance battalion and saw action in Russia where he was for over two years. He was wounded once in the head while there and was "finally" kicked out of the army by Hitler. A few years after the war had started, Hitler took it upon himself to rid the armed forces of those of noble birth apart from Royalty who were, in his eyes, a constant threat to the very existence of the Nazi power. He had been quite bothered evidently, over former Royal families serving in his army after the great gathering of German People in Berlin for the funeral of the ex-Kaiser's grandson, Prince William, who had been killed in France in 1940.

Gottfried and his family were allowed to remain in Germany throughout the remainder of the war though they were unable to carry out any military duties during this time.

There were five children born to Prince and Princess Gottfried between 1935 and 1944; four sons, Princes Kraft (b. 1935), Andreas (Andrew) in 1939, the twins Princes Ruprecht and Albrecht in 1944, and Princess Beatrix in 1936. The eldest children have been attending Castle Salem School on Lake Constance while the twins have been under the care of a governess. The two eldest children attended Queen Elizabeth's coronation in London with their parents in 1953 making the overland journey to a port in Italy. From there they sailed through the Mediterranean Sea and around Gibraltar, up through the Bay of Biscay, the Atlantic and finally up the Thames to London. With them sailed the younger sisters and each of their two eldest children and husbands for the occasion. The last family journey of importance occurred in August 1954 when they all sailed aboard the Greek luxury liner, "Agamemnon" on a 12-day cruise between Naples and the Isles of Greece.

The Duke of Edinburgh's second sister Princess Theodora was born at Athens, Greece in May 30, 1906 and was her elder sister's constant companion until she was married in 1931.

Her wedding occurred on August 17, 1931 at Baden-Baden, South Germany. Her husband, Prince Berthold Frederick is the Margraf (Marquess) of Baden. He owns considerable property including family castles and a school. His father the late Prince Max of Baden was the last Imperial German Chancellor during the last days of Kaiser William II's reign. It was Prince Max who tried to persuade the Kaiser to abdicate for several weeks before he finally consented to do so in his efforts to try to save the German Monarchy that the crown might pass on to another member of the Hohenzollern family. After the Kaiser fled

The third sister of the Duke of Edinburgh who was killed in Nov. 1937 in a plane crash with her husband and two sons, Princess Cecile of Greece and Denmark, Princess of Hesse-Darmstadt. From left to right they are Prince George of

and the war ended Prince Max returned to Baden and founded Castle Salem School in 1920. He hoped that the influences of this school on future German youth might be to the advantage of the country and it was with great difficulty that his son Prince Berthold tried to prevent the Nazi regime from taking over. Helping Prince Max, when the school was founded, was a German Professor, Kurt Hahn who became the headmaster of the school until 1934. In that year the Nazis arrested this man on false charges of being a Communist sympathizer. Through the efforts of Prince Berthold he was released and transported safely out of the country. It was Professor Hahn who next went to Scotland there to establish an identical school like that at Salem which still exists today and over which Hahn is the headmaster. The school is that of Gordonstoun where the Duke of Edinburgh finished his education.

It was to Salem that the Duke of Edinburgh's sister Theodora brought him in 1932, and she, together with the English Mountbattens has been largely responsible for his upbringing. The last visit which Princess Theodora had made to England was in April-May 1939 with her elder sister, it being the last visit there for seven years during which time the sisters, the Duke of Edinburgh, and their mother Princess Alice never saw each other.

After the war began in 1939 the Margraf of Baden entered the German army and for a time served

Valleyfield

VALLEYFIELD — Approximately fifty members of the 182nd L.A.A. Battery of Valleyfield and wives attended a change of command ceremony in Farnham, on January 28. Major H. J. C. Rutledge formally took over the command of the 182nd L.A.A. Regiment which has batteries in Farnham, Granby and Valleyfield.

Brig. J. Bibeau, Commander of No. 9 Militia group, was present and inspected the regiment. Col. Charlebois represented Maj. Gen. J. P. E. Bernatchez of Quebec Command.

Following the change of command ceremonies there was a cocktail party and regimental dance.

The 182nd Battery in Valleyfield is commanded by Major J. D. Wray. Major S. R. Fisk commands the Granby group and Captain A. Gauthier the Battery in Farnham.

The Annual Buffet Supper of the Sergeants Mess 182nd Battery of the 61st L.A.A. regiment was held Sunday night, January 30, at 7 p.m. in the Sergeants Mess, Valleyfield.

Sixty members of the Valleyfield Rotary club accepted an invitation from Mr. Leon Moody to visit the Duplan Dyeing Co. of which he is manager.

The group went to the plant immediately after their weekly luncheon and were welcomed by Mr.

Moody who divided them into groups with guides to direct them through the building and explain the processes.

It was also noticed that merchandise is being sent to Valleyfield by other companies wishing to have their products dyed by the local experts.

The visitors also had the privilege of inspecting the laboratories and seeing the method by which the water is purified to meet the needs of the plant.

Finally they saw the cloth being carefully inspected by experts in order that the buyers can be assured of its high quality.

Miss Muriel Rheault is the new Senior Champion of the Valleyfield Figure Skating Club.

The judges, Messrs Gilles Trudeau, Reg. French, Ronnie Powe, Peter Stanger and Miss Isobel Schurman had great difficulty as the five winning contestants were so close in points and the decisions were given only after careful deliberation.

1—Miss Murielle Rheault, daughter of Mr. and Mrs. Maurice Rheault of

Hull, Que., formerly of Valleyfield. 2—Miss Jacqueline Boyer. 3—Pierrette Vallee. 4—Louise Lalonde. 5—Patricia Moody.

The intermediates: 1—Miss Sally Lapointe, daughter of Mr. and Mrs. Maurice Lapointe of Belleville; 2—Miss Laurette Lecompte, 3—Nicole Meloche, 4—Lorraine Rozon, 5—Yvonne Tessier.

Juniors: 1—Ginette Robineault, 2—Nicole Dandurand, 3—Marcelle Wilkins.

Juveniles: Céline Thivierge, Georgette Julien, Kerry Kelly.

Congratulations to Miss Rheault, the champion, who is leaving Valleyfield to live in Hull, Que. Valleyfield's loss will be their gain in welcoming this charming young lady to her new surroundings.

Mrs. Campeau and Miss Clark, who are spending the winter with Mr. and Mrs. Stewart Aird, have gone to visit friends in Pointe Claire for a few days.

Mrs. H. M. Rider is visiting her parents, Mr. and Mrs. S. R. Fuller in Litchfield, Conn.

Miss Janet Schurman who is a

nurse in training at the Royal Victoria Hospital, Montreal, visited her parents on the week-end.

Mr. and Mrs. Herbert Jordan, Mr. Don MacGowan, Mr. Collins and Mr. Richards, all of Montreal, had lunch at the home of Miss Anne Wilson on Saturday, January 29.

They are with the Mountpayre Players of Montreal and came to make arrangements to put their play on in Valleyfield, in April. This will be in the Gault Auditorium and if anyone wants a good laugh don't miss "The Mad Hatters".

Grade 9 pupils at the Gault's Institute held a skating party on the school rink, Saturday evening, January 29.

Refreshments were served followed by games and dancing.

The funeral took place on Friday, January 28, from the chapel of Tees & Co., the Rev. D. M. Grant, minister of St. Andrews United Church, Westmount, officiating. A large number of friends and relatives attended.

Mr. Greig was minister of the United Church in Valleyfield from 1919 until his death in 1935. Many people will have happy memories of a beloved pastor and his wife visiting the different homes, and one could never forget their hospitality at the Manse, where everyone was welcome.

Four members of the session during Mrs. Greig's pastorate attended Mrs. Greig's funeral service, namely: Mr. W. G. E. Aird, Dr. C. L. Roman, Dr. John A. McDonald and Mr. David Boyd. Other members of the congregation attending from Valleyfield were Mr. Emmons McDonald, Mr. Chris Mayoh, Mrs. Emile Boyd and Miss Mary Johnson.

Those left to mourn her loss are two daughters: Dr. Margaret E. Greig of Kalamazoo, Michigan and Mrs. J. C. Porter (Jean) of the Town of Mount Royal and a son, John R. Greig, of Lachine.

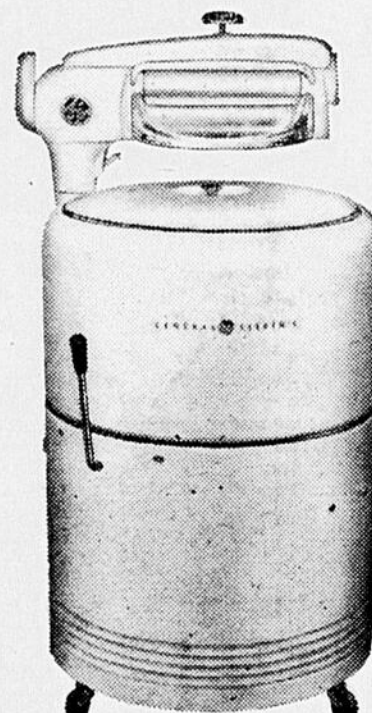

OBITUARY
The Late Mrs. John G. Greig
Mrs. John G. Greig (nee Eva Brodie) wife of the late Rev. John G. Greig passed away at the Western Hospital, Montreal, on January 26, 1955.

Gendron, husband of Elsie Johnson, son of Mr. Joseph Gendron and the late Mrs. Gendron of Woodlands, Que., brother of William O. Lachine, Que. Rev. R. H. McGill of Chateauguay, Que., conducted the funeral service. Interment, Mount Royal Cemetery, Montreal.

GREIG — On January 26th, 1955, at Western Division, Montreal General Hospital, Jane Eva Brodie, wife of the late Rev. John G. Greig of Valleyfield.

HARVEY — At St. Mary's Hospital on January 21st, 1955, Charles Brown Harvey, husband of Edna Small of 37 David St., Montreal East. Interment Hawthorn-Dale Cemetery.

McDOWELL — At Schenectady, N.Y., on January 30, 1955, Florence Isabel Goodfellow, wife of the late Thomas McDowell, formerly of Huntingdon, Que.

McGOWAN — Suddenly, at the Barrie Memorial Hospital, Ormstown, Que., on January 26, 1955, John Francis McGowan Sr., in his 39th year, husband of Bertha Elizabeth Rosewar, and dear father of John Francis Jr.

In Memoriam

BARRINGTON — In loving memory of my dear mother and grandmother, Celia F. Barrington, five years February 5th.

"We think of you so often, Your name we often recall, But all that is left to answer us Is your picture on the wall. To those who have a mother, Watch her with tender care, For you never know the heartache 'Til you see her vacant chair."

Lovingly remembered by Daughtry Verma, son-in-law Ross and children.

FARQUHAR — In memory of Lester Farquhar, who passed away two years ago on Feb. 2, 1953 — "Surrounded by friends still I am lonesome, In midst of memories I am blue, Time rolls on but my heart is broken, I am lonesome, so lonesome for you."

His wife Hazel.

MOORE — In memory of dear Dad, George Moore, who passed away Feb. 6, 1954 — In our hearts his memory lingers But we know 'tis vain to weep, For our love can never wake him From his peaceful, happy sleep."

Ever remembered by Marion and Clarence.

MOORE — In loving memory of our dear father, Mr. George Austin Moore, who passed away Feb. 6, 1954, and dear mother, who passed away May 14, 1929 — "Thoughts drift back to bygone days, Life moves on but memory stays."

Ever remembered by Daughter Thelma, Cliff and family.

SIMPSON — In loving memory of our dear husband and dad, Patterson Simpson, who died Feb. 15, 1953 — "Not just today, but every day In silence we remember."

Viola, Lester and Josephine, Martha and Donald.

TOWNS — In loving memory of Ann, who was taken from us Feb. 5, 1943 — "Years roll by but memory stays As near and dear as yesterday."

Mother and Daddy.

WILSON — In loving memory of a dear husband, father and grandfather, Henry Ernest Wilson, who passed away February 5th, 1954 — "Through the noise of traffic and tread of busy feet, The kindly voice from heaven came at last to summon him, Who, strong to endure life's stress and strain, it's very call to meet. The fellowship of earth life that seemed so passing sweet, Proves nothing but the shadow of our meeting round his feet."

Sadly missed by his wife and family, Mrs. H. E. Wilson.

Huntingdon Locals

Women's Missionary Society Meeting

St. Andrew's W.M.S. held the first meeting of the year on Wednesday, January 26, at the home of Miss M. Walker, with a good attendance. The president, Mrs. George Paul, was in the chair. Following the opening hymn and prayer, an installation service took place for the officers and department secretaries, when they were dedicated for the year's work. This was conducted by Miss Walker, Mrs. M. Ruddock and Miss F. Turner, and was an inspiring service.

Many letters of thanks were read by the secretary for cards and gifts sent to shut-ins at the Christmas season. A letter from Mrs. Leathdale told how much the Christmas candy and cookies were enjoyed by those in the Old People's Home in Montreal, there was sufficient for everyone in the home. The bale of used clothing had also been received and gratefully acknowledged.

Mrs. Paul asked for delegates to attend the Presbyterian in Montreal on February 1st, but this was left undecided for the present. A notice was read saying that the Rev. Joseph Muchan, who is home on furlough from British Guiana, and formerly of our mission in India, would preach the morning sermon in St. Andrew's Church on Feb. 6th.

The World's Day of Prayer service will take place on February 25. As usual, it will be a union meeting, and be held in St. John's Anglican Church. It was decided that instead of sending for a Study Book this year, the Glad Tidings literature will be used.

It was also agreed that the Birthday Box be continued as a means of increasing the funds of the treasury.

For the programme, Miss Agnes Paul gave an interesting article on the beginning of the Bible Society. At a meeting held in the home of Joseph Hardcastle in London, England, in the year 1802, Rev. Thomas Charles asked that a Bible be printed in the Welsh language. This was agreed to, and later Rev. Joseph Hughes suggested printing a Bible in other languages so that all would be able to read the Scriptures.

From this beginning, the work of printing in all languages went on until at present it is printed in 1100 tongues. Over 600 million copies have been distributed since 1804. Even for the blind there are embossed copies, and Bibles in Braille. The president then thanked Miss Paul, and closed in the usual way with a hymn and prayer. Mrs. W. Smellie acted as pianist. A social hour was enjoyed over a cup of tea and refreshments served by the Misses Walker and the committee in charge.

Successful Party at Parochial Hall

A very successful and enjoyable evening was held at St. Joseph's Parochial Hall, Huntingdon, on Friday, January 28th, for the benefit of Notre Dame High School. The prize winners at the card party held downstairs were: Ladies' 1st, Mrs. Lionel Blanchard; 2nd, Mrs. E. Lette; Consolation, Mrs. L. Quenneville; Gents' 1st, Mr. A. C. Carisse; 2nd, Mr. S. W. Flynn; Consolation, Mr. Roger Lemiere. Winner in the drawing was Mr. Alfred Durocher. Door prize winners were: Delma Dorais, David Beaudin, Karl Dubien, P. Allen, Louis Legault and Vincent O'Connor.

Fire Call, Monday

The Fire brigade was called to a chimney fire at the home of Mrs. Esther Boldovich, 33 Chateauguay Street, at 7.50 a.m. on Monday. No damage resulted, but there was a lot of smoke caused by the blocked pipes and chimney.

High School Library Fund

Contributions to the Huntingdon High School Library Fund still continue to come in, although they are not numerous. The amount of the total contribution to date is \$410.20. It cannot be stressed too much that books for the library are a vital need and they must be continually added each year in order to keep the reading qualities abreast of the demand. Books are quite expensive today and a few hundred dollars does not go very far in purchasing books. One hundred books distributed among 3 to 4 hundred pupils are soon read. The amount contributed so far might just purchase about one hundred books. Keep your contributions coming in order to get as many books as possible for this year. The following are the contributors since the last list: Huntingdon Home and School Association, \$75.00.

\$5.00 — Mr. and Mrs. M. Arsenault, Mr. and Mrs. Gordon Johnson.

\$2.00 — Mr. Ivan Mennie, Mr. C. M. Oney, Mr. and Mrs. Gordon McLean.

\$1.00 — Mrs. W. A. Ferderber, Mr. Clifford French.

Protestant Cemetery Co. Annual Meeting

The annual meeting of the Huntingdon Protestant Cemetery Co. was held at the County Building, on Thursday afternoon, January 27. The same officers were re-elected.

Cards of Thanks

I wish to thank Dr. Lefebvre, nurses and staff of the Huntingdon County Hospital, The Management of the Chateau, Rotary Club, Ladies' Dutch Club, The Huntingdon Dutch Club, relatives and friends for their kindness.

W. P. Durnin.

We wish to express our heartfelt thanks to Dr. Davidson, all other Doctors, Nurses and staff of the Barrie Memorial Hospital for care and attention that Johnnie received while a patient there. Also, our many kind relatives, neighbours and friends for their sympathy and many acts of kindness, calls, food and floral tributes at the time of our very sad bereavement.

Sincerely, Bertha E. and Jackie McGowan.

We wish to express our sincere thanks to our friends, neighbours, Mrs. Snowdon and staff, also the doctors for their kindness and help in our recent bereavement.

The Curran Family.

elect for a further term and Mr. J. A. Lanktree, who has been acting secretary was appointed secretary. After a lengthy discussion on several matters pertaining to the grounds and kindred subjects, it was decided to meet at the cemetery in the spring for further discussion.

Benefit Card Party

On Thursday evening, January 27, a card party was held in St. Joseph's Parochial Hall, Huntingdon, under the auspices of Clyde's Hockey Club. Due to the stormy weather only a fair attendance was on hand, but all seemed to have a good time. The Fournier trio furnished music before and after the games which everyone enjoyed. Thanks to the generosity of their supporters, the Club cleared over \$177. Refreshments were served in the basement after the card party.

Ask Employment Office First

Mr. Laurent Boyer, manager of our National Employment Office of the Unemployment Insurance Commission, asks us to advise local workers that they should not proceed to any St-Lawrence Seaway project without first having contacted his office.

Our working population will therefore save time and money and avoid disappointments.

Rev. Robert Beal, minister of the United Church, Huntingdon, was the guest speaker at the Rotary Meeting on Monday. He spoke briefly of some of his encounters with young people during his six years as Assistant Minister in Montreal. He spoke of the many funny incidents that children present to adults, the tremendous imagination of children and their ability to portray parts and finally the responsibilities of the adults to the children.

Mr. and Mrs. Noel Foley left on Saturday for a trip to Florida. They made the trip by car.

Bancroft, A Promising Winter Apple

Ottawa — Bancroft is a seedling of Red McIntosh originated by the Division of Horticulture, Central Experimental Farm, and introduced in 1930. It was named in honour of Malcolm Bancroft Davis, recently retired Chief of the Horticulture Division.

Bancroft is rapidly gaining favour in Eastern Ontario and Quebec because the fruit is attractive and has good keeping quality. The tree is a strong grower of good form, resembling McIntosh. Bancroft comes into production early; is an annual bearer, and appears to be fully as hardy as McIntosh. The fruit is of good commercial size, oblate to roundish-conic in form and heavily washed with an attractive deep crimson. Although not of high quality, marketing trials conducted over the past three years indicate high consumer acceptability when marketed in late March and early April. The fruit is susceptible to spruce budworm, but this trouble can be largely overcome by omitting Bordeaux from the spray program.

At Ottawa the average picking date for Bancroft is October 13; while that for McIntosh is September 26; Cortland, December 30; and Northern Spy, October 20. Bancroft is an excellent keeper in cold storage at 32 degrees F., holding first class condition to early April. Blossom data at Ottawa indicate that the full bloom date of Bancroft is May 26; Melba, May 22; McIntosh, May 24; Lobo, May 25 and Cortland, May 26. Data from the controlled pollination studies indicate that McIntosh, Cortland, Lobo, Atlas and Melba will effectively pollinate Bancroft.

Bancroft is recommended for extended trial in the Saint John River Valley of New Brunswick, in the fruit growing regions of Quebec and in the St. Lawrence and Ottawa River valleys of Ontario. Since Bancroft is as hardy as McIntosh, but is a better keeper, and although it lacks somewhat in quality, it may prove very valuable as a late winter variety for growers in the area where tree hardiness is of major importance.

Seed Shortage In 1955

Due to the unprecedented wet weather during late summer and at harvest time last year, there will be a drastic shortage of good quality seed oats, red clover and alfalfa in most Canadian provinces this year, says G. R. Snyder, technical supervisor of the C-I-L-L agricultural chemicals department.

Weather conditions were particularly bad in Quebec and it is estimated that close to one-third of the province's requirements or nearly 1,000,000 bushels of seed oats may have to come from outside the province to provide for normal planting. Supplies of registered seed will be much below normal in the Maritimes, Ontario and western Canada with Alberta being particularly hard hit.

Since this year's harvest will be depressed in no small measure on the quality of seed grown this spring, farmers with good quality oats are urged to clean their supplies early and avoid feeding of any oats of good commercial seed grade.

Weather conditions were particularly bad in Quebec and it is estimated that close to one-third of the province's requirements or nearly 1,000,000 bushels of seed oats may have to come from outside the province to provide for normal planting. Supplies of registered seed will be much below normal in the Maritimes, Ontario and western Canada with Alberta being particularly hard hit.

To ensure the best possible results from this year's seed, he recommends more widespread treatment of both grain and clover seed with proper seed disinfectants. He also suggests giving more attention to the fertility test of existing meadows and pastures next fall to compensate for the pending reduction in new seedlings resulting from shortage of clover seed.

This Week In Quebec

(Continued from page 1)

buses. He said his association had earlier asked the transport department to make the maximum allowable length 40 feet and will now make new representations to the department.

Prospector Wilbert Coffin's appeal against a death sentence for

the murder of a United States bear hunter, scheduled to be heard Feb. 1, was postponed to March 1.

Chief Crown Prosecutor Noel Dorion said the postponement was asked to allow Quebec appeals court to dispose of numerous other cases.

Coffin, 43, was found guilty Aug. 5 of the murder of Richard Lindsey, 17, of Hollidaysburg, Pa., one of three Americans whose remains, torn apart by bears, were found in the Gaspe bush in July, 1953.

There was speculation in Quebec political circles last week that Premier Duplessis' government may call a snap election this summer on the taxation issue.

Although the Union Nationale party was re-elected for a fourth term in 1952 and normally no election would be due until 1957, several party members have said the Ottawa-Quebec tax dispute may force an early election.

The Ottawa-Quebec dispute — the basic issue of Mr. Duplessis' career — came to a head this fall when Mr. Duplessis and Prime Minister St. Laurent after exchanging harsh words, met in Montreal to try to work out a temporary agreement to eliminate Quebec's double taxation, caused by the imposition of a Quebec provincial income tax last year.

The federal government recently announced it will cut federal income tax to Quebec tax payers by 10 per cent to eliminate some of the double taxation.

The Gore

Gore United Church Holds Annual Meeting

The Gore United Church held its annual congregational meeting on Tuesday afternoon, January 18th, at the home of Mrs. John Rudbeck. Reports from the Sunday School, W.M.S., W.A., and the Treasurer's Report were read and adopted. All officials were re-elected for the coming year.

Gore W.M.S. and W.A. Meeting

The Gore W.M.S. and W.A. met recently at the home of Mrs. Carl Anderson with a good attendance. The President of the W.M.S., Mrs. Nelson Anderson, conducted the meeting following the order of service from the Missionary Monthly. A portion of the study book was read by various members. The Roll Call for next month is to be a cloth, apron, thread or binding donation as an aid to the supply committee.

The W.A. meeting was conducted by the President, Mrs. Willard Anderson. The treasurer's report was read and found very satisfactory. Mrs. Anderson then declared all offices vacant and Mrs. Norman Fennell took charge for the election of officers — President, Mrs. Willard Anderson; Secretary, Miss Harriet Ruddock; Treasurer, Miss Isobel Foster.

Farm Forum Notes

The Gore Farm Forum met on Monday evening, January 24th, at the home of Mr. and Mrs. Josie Money Penny. The broadcast was listened to and discussed, then cards were played at three tables. Refreshments were served by the ladies.

L.A.C. Bobby Anderson of Clinton, Ont., and Miss Jean Wilson of Montreal were week-end guests of his parents, Mr. and Mrs. Nelson Anderson.

Miss Roberta Ruddock, of Montreal, was the week-end guest of her mother, Mrs. John Ruddock, and Harriet.

My Sincere Thanks

I offer my sincere thanks to the citizens of the Town of Huntingdon for their confidence in re-electing me to the office as Mayor of Huntingdon.

In return for this confidence you have placed in me, I assure you that I will again do my best to conduct the affairs of this town in a befitting and proper manner.

As in the past six years I shall continue to keep close check on the finances and keep them to the minimum possible, consistent with the good services and upkeep of the town and in public works.

As before I will do my utmost to attend to the needs of the people in town affairs and to give all matters fair consideration.

Yours sincerely,
Leo Cappiello

HOW AND WHY

A Column for Boys and Girls
By Harold Don Allen

59: Summer in January

Paul was arranging his stamp collection. He kept a separate page for every country. He added three new stamps to the page marked Argentina. One was a dark red 25-centavo stamp that showed a farmer plowing his field. Paul looked at it. You could see miles of level fields and the sun setting in the West. Paul was interested in his stamps. He said you could learn surprising things from them. He was right. Before he had put his album away that evening he found

out how it could be Summer in January and Winter in July!

It happened this way: Paul was fastening down the interesting stamp from Argentina just as Father came into the room. He showed Father the plowed fields on the stamp. "It looks just like Uncle Bill's farm by the St. Lawrence, except that the stamp doesn't show any trees," Paul had said. He had added, "I wonder if they are having as much snow in Argentina as Uncle Bill was telling us they had down on his farm."

Then Father had explained to Paul things that many boys and girls don't know about Argentina and other lands to the South.

It is worthwhile for you to look up and find Argentina on a map of the world. You won't have difficulty locating it — Argentina is about one-third as big as Canada and is the second-largest country on the continent of South America to the South. Use a globe for a map if your family owns one. A globe is the same shape as the Earth and is the best kind of world map that there is.

A globe helps to explain why Argentina has its Winter in July. Father used a globe and a flashlight to show Paul just how seasons came to do. It's really quite easy to do. You may want to try it as well.

Father told Paul that Earth got most of its heat from the sun. Paul understood this. He knew that sunlight could be warm. He remembered how hot a railing could be when it had been warmed for hours by the Sun. Father explained

Huntingdon High School Notes

SPORTS

On Tuesday, January 25th, the two hockey teams visited Valleyfield. The scores were as follows: Huntingdon Boys 4, Valleyfield Boys 1. Huntingdon Girls 3, Valleyfield Girls 3. On Monday, our teams motored to Ormstown for a return game. Both our teams succeeded in winning their games. Huntingdon Boys 2, Ormstown Boys 0. Huntingdon Girls 1, Ormstown Girls 0. Wednesday last the Howick teams visited Huntingdon High. Two good

games were played. The scores being: Huntingdon Girls 5, Howick Girls 1. Our BOYS' Team held the Howick Boys at 1-1 until the end of the third period when Howick scored making the final score 2-1 in favour of Howick.

Plans are being made by the Student Council for a Masquerade Skating Party and Dance to be held in February.

On Saturday, January 29th, The Hemmingford teams visited Huntingdon High for a return game. Our teams won one game — Huntingdon Girls 5, Hemmingford Girls 0. Huntingdon Boys 4, Hemmingford Boys 4. The boys game was very close with the 4th goal being made in last few seconds of play. To date our girls' team has played six games, won 4; tied 2. The boys' team has won 4 and played six games and won 4.

This Friday our teams will journey to Howick for a return game. On Saturday, Feb. 5th, we are planning to attend the Boys' Junior Hockey Tournament at Ormstown.

This is a new venture which it is hoped will provide the younger boys with an outing. All schools of the C.V.T.A. have been invited to participate. We expect to play the final scheduled C.V.T.A. game here (Huntingdon) on Wednesday, Feb. 9th, when the Valleyfield Teams will be visitors.

Our thanks to the very kind mothers and friends of the school who have undertaken to provide good meals for the boys and girls at the games.

On Friday, Jan. 28th, approximately 100 pupils enjoyed skating from 7:30 - 10:15 p.m. Pupils from the town and country attended.

Howick

Miss Gladys Anderson Entertained Prior to Her Marriage

Those who have entertained for Miss Gladys Anderson prior to her marriage on January 29th, at the Staff of Will's Eye Hospital, Philadelphia, Pa., U.S.A. Miss Mary-Jean Holohan, Philadelphia, Mrs. Raymond Anderson, Howick, and the Misses Doris and Helen Muir, Montreal.

Wedding

CRAIG - ANDERSON

The marriage of Miss Gladys Anderson, daughter of Mr. and Mrs. Wm. E. Anderson of Howick, Que., and William Fields Craig, son of Mr. and Mrs. Robert Craig, Montreal, took place at 3:00 p.m. on Saturday, January 29th, in the Presbyterian Church, Howick. Rev. Wm. Brown performed the double ring ceremony and also sang "All Joy Be Thine" during the signing of the register. Mrs. Wilburn Anderson played the wedding music. Baskets of white chrysanthemums were used as decorations.

The bride, given in marriage by her father, was gown in an ivory ballroom dress of shantung silk fashioned with a fitted bodice, a full skirt and a scooped neckline with lace applique, the long sleeves ending in points over her hand. A small cap of matching lace embroidered with seed pearls held her elbow-length veil and she carried a semicascade bouquet of delicate pink sweetheart roses.

Mrs. Allan Logan of Montreal, sister of the bride, was matron of honour in a cocktail gown of emerald green silk fashioned with a fitted bodice and skirt of unpressed pleats. Her headpiece was a matching cap of velvet green leaves and she carried a muf of white shattered carnations and hyacinths.

Mr. James Craig of Lakeside was his brother's best man and the ushers were Mr. Wilburn Anderson, brother of the bride, and Mr. Robert Craig Jr., brother of the groom. Mrs. Anderson the bride's mother wore a fitted dress of allegro blue crepe with a winter white velvet hat. Navy blue accessories completed her ensemble and her corsage was of pink carnations. Mrs. Craig, the bridegroom's mother, wore a suit-dress of charcoal grey silk print with a black velvet hat and black accessories. Her corsage was of pink roses.

The reception was held in the church hall which was decorated with pink and white chrysanthemums. Following the reception Mr. and Mrs. Craig left for the Laurens. For her travelling outfit Mrs. Craig chose a blue wool suit, brown straw hat and brown alligator accessories. Her small corsage was of delicate pink roses and white hyacinths.

Mrs. Craig is a graduate nurse from Queen Elizabeth Hospital, Montreal, and post-graduate from Will's Eye Hospital, Philadelphia, Pa., U.S.A. The couple will reside in Lakeside, Quebec.

Valleyfield

St-Mark's Anglican Church The Annual Vestry Meeting of St. Mark's Anglican Church was held on January 18/54 with the Rev. W. G. New in the chair. All reports were exciting and proudly presented by each organization and together produced a picture of work well done.

A great deal has been accomplished, during the past year the Church has been completely re-wired and new lighting fixtures installed, plaster torn down and renewed, the inside of the Church re-decorated, a new automatic oil furnace and air-conditioning unit installed and other smaller repairs; all this meant that a large sum of money had to be raised, the parishioners girded themselves and set to work and now report all paid for. The Chairman congratulated all and expressed great pleasure deriving from the result.

The Church A/cs were presented by Mr. J. Ward, Treas., and showed all commitments met and a balance in hand. The Ladies Guild report, Mrs. H. Rider, Pres. By Mrs. C. Vaudry, showed that they had handed to the Wardens \$12,000.00 Altar Guild report read by Mrs. F. Thomson pointed out that beside providing Bread Wine and Flowers throughout the year they had handed the Wardens \$50.00 and had the Chancel carpet cleaned and moth-proofed. Sunday School report read by Mrs. R. Hunter showed a balance of \$28.50 and that \$24.30 had been handed to the Wardens for Missions. Finance Committee Report read by Mr. C. W. Gurnham des-

News from Ormstown

Covering the Activities of the "Little Royal" Exhibition Centre

Congregational Meeting Ormstown Presbyterian Church ORMSTOWN — The Ormstown Presbyterian Congregation met on Wednesday evening, for the Annual meeting when the Rev. R. D. McLean of Huntingdon, interim moderator, was appointed chairman.

A concise and detailed report of Congregational meetings and finances was given by the secretary, Mr. J. J. Anderson and the close of 1954 found the church's financial standing in a very healthy condition with progress reported in the various departments.

Mr. A. M. Hooker in presenting the report of the Kirk session expressed appreciation of all loyal workers in the various departments and organizations.

Miss Annie Sangster outlined the activities of the Women's Missionary Society Auxiliary and stated that the allocation of \$330, had been forwarded to the Presbyterian treasurer.

Mrs. Alvin Gruer reported for the Upper and Lower Ormstown branch of the W.M.S. 12 meetings were held \$120, raised towards senior groups' allocation and a life membership presented to Mrs. Ivan Rember.

The Evening Auxiliary report read by Mrs. Archie Wilson, showed an active year with various supplies forwarded to Tyndale House, \$11, for supply money and \$225, for allocation to Montreal Presbyterian.

The Sunday School operations as reported by Miss Ruth Sills, showed 69 pupils, 7 teachers and 20 cradle roll members. Attendance during 1954 was good. Five pupils had perfect attendance, not missing any Sundays during the eleven months. Several other pupils boasted an attendance of only one or two absences. Prizes were awarded for attendance, Bible Study and Temperance.

In reporting, the work of the Young People's Society, Mrs. B. Hooker stated that more than \$400 was raised during the year making it possible to give donations to the Sunday School, the Choir, the Board of Managers, the Manse Fund, and \$50 sent to Mrs. Donald Goodall of Tatum, Central Africa, to be used in her work there.

The Ladies' Aid as reported by Mrs. G. McLaren, raised about \$550 during 1954 and were responsible for repairs on the Manse.

Miss Marilyn Gruer gave the Mission Band report, the high light of which was the visit of Miss Margaret Kennedy, now returned to her work at Jobat, India. During the business which followed, Mr. James Barrington was named to an honorary position on the Board of Managers and Messrs. Sam Cullen, Bill Hook, Bob Eastwood, Merrill Tannahill and Selkirk Bryson were named active members of the Board.

On conclusion of the business, the Meeting adjourned.

Ormstown Evening Auxiliary Mrs. Archie Wilson was hostess

cribed the work done on the Church and funds raised for the year.

The meeting then proceeded to Election of Officers. After 10 years of faithful and devoted service as People's Warden Mr. H. Whitehead resigned and Mr. W. Dean was elected. The Rector appointed Mr. G. Olson as Rector's Warden. Mr. J. Ward, hardworking Treasurer resigned and Mr. J. Wray was elected.

Messrs. C. W. Gurnham and P. Parry, Lay Delegates to Synod. Messrs. H. Whitehead and H. Isherwood Substitutes.

Messrs. A. V. Gurnham and A. Williams Auditors. Officers of the Ladies Guild Mrs. H. Rider, Pres. Bob V. Vice Pres.; Mrs. B. Lang Sec.; Mrs. J. Ward Treas. Officers of the Altar Guild Mrs. W. Dean Pres.; Mrs. C. Christie Vice Pres.; Mrs. F. Thomson Sec.; Miss. L. Amos Treas.

Officers of the Sunday School, Mr. H. Isherwood, Superintendent; Mrs. R. Hunter, Sec. Treas.

Round Byre and Ring

(Continued from Page 3) suitable conditions and organization, baled silage can be made as cheaply as by other methods. In the first year, some farmers may not have the most economical method of organizing the work, and in the light of experience, they may well be able to reduce their cost of harvesting in the future.

(Next week — more about the West of Scotland Agricultural College report on Grass Silage Baling. — F. N.)

on Thursday evening to members of the Presbyterian Evening Auxiliary. Although the weather was most unfavourable, there was a good attendance.

Mrs. Merrill Tannahill presided and led the group in a Worship Service. Mrs. Alton Barrington, who was in charge of the topic, gave an interesting paper on How To Overcome an Inferiority Complex. Mrs. Ivan Rember contributed to the program by reading a Burns poem, "Burns and His Highland Mary."

Various matters of business were discussed. Mrs. Merrill Tannahill, Mrs. Alvin Gruer and Mrs. Everett Forrester will represent the Auxiliary at the Annual meeting of the Montreal Presbyterian, being held this year at the Stanley Presbyterian Church, Montreal.

The president thanked the convenors of the Laurin — Elvidge wedding reception Mrs. Ivan Rember, Mrs. Donald McEwen, Mrs. Arthur White and Mrs. Leslie Calver. From this event \$91, was realized. The treasurer Mrs. Begbie reported \$225 forwarded to the Presbyterian Treasurer for 1954.

Articles were worked on for a sale to be held later in the spring and hostesses for the evening were Mrs. Arthur White and Mrs. Ivan Rember.

Farm Forum

The Tullochgoran Farm Forum met at the home of Mr. and Mrs. J. D. Lang, on January 24. A lively discussion of "Producer Marketing" followed the broadcast.

At the previous meeting it was decided that the County President and another representative should approach the Directors of the Ormstown show on the subject of securing an advertising exhibit for the show in June, 1955. These representatives reported that they had met with the directors, who had agreed to look into the matter.

Everyone enjoyed the refreshments served by the hostesses. The next meeting will be held at the home of Mr. and Mrs. Robert Younie.

St. James Fellowship

The St. James Fellowship met for the January meeting at the home of Mrs. Eric King. A Worship Service was conducted in Unison and a brief business meeting held. Mrs. J. Whitehead was elected vice-president of the group and it was agreed to hold a Food Sale in February. The February meeting was planned for February 18th at the home of Mrs. Herbert Pilon. Quilt patches were made during the evening and refreshments served by the hostesses assisted by Mrs. Ed. Baskin and Mrs. D. Glover.

Ormstown Curling Club

Six tables of "500" were played on Wednesday afternoon followed by the weekly tea. Prize winners were — Mrs. A. A. McNeill and Mrs. O. Bradley. Tea hostesses were Mrs. R. E. Walsh Mrs. E. Mann and Mrs. William Kilgour.

Several games of Mixed Curling were played on Saturday P.M. and the usual games of "500". Refreshments were served and card prizes were awarded Mrs. William Kilgour and Mr. J. Conley.

Dr. M. R. Stacker, Dr. W. Mills Messrs B. L. McGerrigle and E. Sauls are participating in the International Curling Bongspiel in Quebec City this week.

Ladies Aid

The Ormstown Presbyterian Ladies Aid met on Tuesday for the monthly meeting at the home of Mrs. E. Mann. Mrs. A. A. Tannahill presided and Mrs. Harold Kerr led the devotions.

Plans were made to forward tiny aprons to all ladies of the congregation, requesting them to enclose their waist measure and bring them to a special meeting in April in the Church Hall. Miss. Marion Swan, Mrs. H. Kerr, Mrs. Tannahill and Mrs. G. McLaren were named to execute this project.

Miss Marion Swan conducted a Quiz and a social time was spent over the tea cups. Hostesses were —

A special message to Home-owners

Do you need MONEY for HOME IMPROVEMENT?

There's no need to hold up improvements or repairs to your home for lack of ready cash. You can pay for them outright — at less expense — with a low-cost B of M loan.

If you want to add an extra room or two... erect a garage or carport... install a new plumbing, heating or electrical system... build a basement playroom or even paint your present one... or make any other home improvements or repairs — see the manager of your nearest B of M branch. He will be glad to discuss your plans with you and to explain how a B of M Home Improvement Loan can help you.

now is the time TO TAKE A GOOD LOOK AT YOUR HOME

Spring is just around the corner... and that's the best season to make repairs — or to modernize.

It pays — in hard cash — to give your home a careful "once over" every year.

Every bit of repair work neglected, every crack, every flake of peeling paint means a loss in dollar value — a depreciation of one of your most valuable assets.

Enlist the B of M's help... why not see your neighbourhood manager today.

By BENJAMIN BEVERIDGE
BEING INTERESTING NOTES
OF NEWS IN COMMENT FORM

It is fashionable these days for wealthy men, who have reached the afternoon of their lives, to look about for good things to do with their money. Nobel left a portion of his fortune to the pursuit of peace, the remainder to culture. Ford's money does all manner of useful work, and Beaverbrook has been a keen patron of education for many years. Now, the great financial wizard of Cleveland — Cyrus Eaton — has decided to turn his farm residence and estate at Pugwash, N.S. into a vacation Seminar for Scholars in science, business, government, literature and the like. He believes that by pooling their knowledge and experience in an atmosphere of relaxation these intellectuals might get some fresh ideas about how some of the problems facing mankind might be solved.

Besides that, it will be free. I am sure Mr. Eaton, who once studied in Nova Scotia to become a Baptist minister, brushed up on some of his Greek before making his decision. In old Athens, Aristotle used to teach philosophy in a gymnasium called the Lyceum, and later the birth of Christ. Later, in early 19th Century Massachusetts, an organization also known as the Lyceum came into being for the purpose of disseminating information on the arts, sciences, history and public affairs, much the same sort of thing the financier has in mind.

It may be, however, that Mr. Eaton is thinking of Brook Farm. This Utopian experiment in group living was commenced just outside of Boston in 1841. Brook Farm was owned by the members who shared in the manual labor as well as in the profits, and who benefitted from plain living and high thinking. Charles Dana spent five years at Brook Farm, right until it was closed in 1847. Nathaniel Hawthorne was a member, and many of the literary figures of the day were followers of the movement.

In a sense, the Newcomen Society

of England, and that organization as it exists in America, is something on a large scale what Mr. Eaton hopes to achieve to a smaller degree. The purpose of the society is to increase an appreciation of American-British traditions and ideals in arts and sciences. It takes its name from Thomas Newcomen, who died in 1729 after a lifetime of valuable work in engineering, particularly in the development of the steam engine.

The Newcomen Society is not so well known as some of our other inspired groups, but all those who were able to hear — or who have read the address made before the society in Halifax a few years ago by the Hon. John A. D. McCurdy, will long remember it.

Mr. McCurdy, as member of the organization and lieutenant-governor of Nova Scotia, spoke about his province and the men who have lived on her soil.

It was rather interesting to be reminded that James Gordon Bennett, the founder of The New York Herald, started his career in Halifax and later was the inspiration behind the founding of the Associated Press. But most interesting of all, I think, was what Mr. McCurdy said about Alexander Graham Bell, the inventor of the telephone. Bell lived in Cape Breton for about 40 years, and his grave is there.

A few years after the telephone was invented in Brantford, Ont. in 1876, Mr. Bell was in Baddeck, and he stood by amused as the editor of the local weekly tried to find one of the new contraptions. Finally, Mr. Bell took the instrument with him, and immediately set the telephone working. The editor was astonished. "How did you happen to know about this?" he asked. And Dr. Bell said: "Because I am the inventor, and my name is Alexander Graham Bell."

The editor was Mr. McCurdy's father, and from this meeting there grew a close relationship between the two families, an interchange of scientific knowledge, and history. The first airplane flight in the British Empire, which took place at Baddeck in 1909, with Mr. McCurdy as pilot.

Mr. Bell was the one who proposed that an association of some sort be formed to develop a flying machine. Dr. Bell thought it was an excellent idea. The "Aerial Experiment Association" was born, with McCurdy and two other young men named Glenn Curtiss later joined them, and they all set out to invent an airplane.

One of the results of these investigations in this little Canadian town was the invention of the all-eron, a device which permits an aircraft to fly in other than a straight line. Without the all-eron, none of the spectacular feats of modern aviation would be possible, and it should be a source of great pride to Canadians to know that it was in Canada that this secret of dynamics was first discovered.

Chateaugay Valley League Hockey

Wednesday night, Jan. 26, the Ormstown Arena was the scene of the best game of hockey so far this season. The Blue Bombers after losing a previous game to the Ormstown Club 5-4, went all out to take this game 7-4 and avenge their previous loss.

At 7 minutes of the first period Boyd from C. Moore opened the scoring and again at the 13 min. with a real Bomber smash. Defenseman R. Moore from C. Oummet tallied while at 18 minutes of same period Monique from Brisdobis and G. Grant gave the Bombers a 3 goal lead.

At the 3 min. mark of the second Sauve from Lepage opened the scoring for Ormstown and again at 4 minutes F. Primeau from G. Beauchamp and Red Elliot showing good combination beat the Bomber goalie. At 17 minutes of this period Brisdobis from Grant and Lafabre gave the Bombers a 2 goal lead. Ormstown again cut the Bomber lead to 1 goal when Parent unassisted tallied.

The third period got under way with an exhibition of real fast plays. 7 minutes C. Oummet from Dupuis again gave a 2 goal lead to the Bombers. At 8 minutes, McCaffrey from Reddick again cut the lead while at 9 minutes R. Moore from Grant tallied. At the 15 min. mark Grant from Brisdobis and Boyd ended the scoring for the game to give the Bombers a 7-4 win. During the remaining 10 minutes with both teams making many power plays, both goalies were kept busy but refused to be beaten.

Franklin Centre

FRANKLIN CENTRE — The United Church Congregational meeting was held on Tuesday night in the basement with an average attendance of members present.

The Secretary-Treasurer, James Manning, gave a very favourable and satisfactory report of the year's work.

The financial statement showed a balance of \$530 in bank. The M & M Fund amounted to \$226.30. All is somewhat higher than usual. All organizations in connection with the church work, viz. Sunday School, C.G.I.T., Mission Band, Junior Choir, W.M.S. and the W.A. gave satisfactory reports. All obligations were met.

Besides the amounts sent to the Presbytery, extra funds subscribed to were Hurricane Fund, Toronto, \$5. The Gideon Society, Holy Health Fund, Franklin, gave \$9.75. After the business meeting a social time was held with refreshments.

At a previous meeting of the Board of Stewards, Floyd Stevenson was appointed elder and Howard Blair elder Steward. Three other persons were selected but have to be interviewed to see if they will act. Tom Greenway was appointed president and Ralph Johnson Secretary-Treasurer of the Bible Society.

The past week delivered the coldest weather of the season but this week is starting off with a higher record. Monday morning temperatures averaged from 17 down to 10 in various places.

Mr. John McNeill and daughter Cathy of Montreal spent the past week with her parents, Mr. and Mrs. Charles Cassidy. Mr. McNeill spent the week-end at the same home.

Mr. and Mrs. Eric Lamb and son

MISS MARGARET ARNOLD of Cornwall, Ont., spent the week-end with her parents, Mr. and Mrs. W. J. Arnold.

John of Chazy, N.Y., were week-end guests of Mr. and Mrs. Ross Lamb. Mr. and Mrs. James Lamb were Sunday dinner guests at the same home.

Mr. and Mrs. John Dickenson of Montreal, spent the week-end with Mr. and Mrs. Clifford Dickenson; they also visited friends in Malone, N.Y., on Saturday.

On Tuesday afternoon at the school, the C.G.I.T. Group held their meeting. Helen Rowe played their hymn, also conducted Worship period. Jean Arthur has a copy of the Mission Study. The principle item of business was in connection with the Conference being held on Saturday.

During the work period the girls made crepe paper flower garlands which are to be used at the Conference.

Before dismissal Lois Ann Money-penny was surprised by the presentation of a lovely birthday cake which her mother had sent to the meeting. While it was being served the record player played "Happy Birthday To You". The closing song was "The More We Get Together".

Kenneth McNeice spent Saturday in Montreal. Mr. Earl McNeice of Montreal spent the week-end at the former's home.

Miss Mary Anna Smith spent the week-end with Mr. and Mrs. Egbert Bruce.

All of the 10 members of the C.G.I.T. and their leader, Mrs. Jas. Manning, attended the Provincial Conference at Wesley United Church in Montreal on Saturday.

The theme was "One Fellowship in Christ". The predominant feature of the Conference was India and two women from that country were present. One of them spoke on the customs in their land and at the end of her address a Garland Ceremony took place.

The girls were divided into various groups and all were benefited by these discussions. This was the largest group that had ever attended this Conference, there being over 500 present including Leaders and other officials.

The banquet was enjoyed by all and the group arrived home in the wee hours of the morning, tired but happy over the great event they had had the privilege of attending, many of them for the first time.

Rev. Galen Craik, a former resident of this community, passed away Sunday at the home of Mr. and Mrs. Murdoch Rosevear.

Friends of Mrs. Gerald Thomas are sorry to learn she has been undergoing treatment for a severe illness.

Mr. and Mrs. E. Kyle and daughter Susan, of Montreal, were week-

end guests of Mr. and Mrs. J. Moon.

On Thursday evening the C.A.L. Badminton Club entertained the Chateaugay Club in the Recreation Centre. Despite the 3° below zero weather, 22 players arrived from Chateaugay and a very challenging and entertaining evening was spent by all. Congratulations to Chateaugay for their tournament win of twenty-two to nineteen. Delicious refreshments were served to the hungry competitors at the close of the tournament.

Grading and Branding of Beef

Grading of any commodity is merely a process of dividing it into various groups of units, each group having distinct characteristics of its own, and being fairly uniform within itself. It does not necessarily establish values, but makes it possible for the buyer and seller to set values for each kind and quality according to supply and demand. In the whole sale trade it facilitates long distance trading. A buyer in Montreal can order a carload of beef from Calgary, of specified grades, and be confident of getting what he wants. On the retailer may order from his local wholesaler with the same confidence.

By grading and branding beef, consumers can recognize the various brand marks and become familiar with the kind of beef each represents. Their preferences are reflected back through the trade to the producer. Grade A may be the most popular quality with some purchasers, while grade B or C may be favoured by others. The price spread between the grades varies according to supply and demand. Grade C may bring almost as much as Grade A at times.

Grades of beef are as follows:—
Grade A — Choice—Red Brand—Youthful, highly finished, deep fleshing, high proportion of meat to bone, marbling (small amounts of fat mixed with the lean), some waste, Red Brand mark.

Grade B — Good—Blue Brand—Youthful, good finish, fairly good proportion of meat to bone, some marbling, not waste, Blue Brand mark.

Grade C — Fairly youthful, light finish, leaner driest meat than A or B, but less waste. May include overfat, trimmed for the retail trade, Brown Brand mark.

Grade D — A composite grade, rarely sold as beef cuts. Includes thin and lean young cattle and some Brown Brand mark.

Grades M & S—Canner cows, bulls, stags. Used for manufacturing processed products, not branded.

Cow beef is not marked as such. If any cow beef is sold as cuts, it will carry the D grade mark. Since around 40 per cent of all cattle slaughtered in Canada are cows, there is a lot of cow beef to be sold in some form and most of it finds its way into processed products.

Without detracting in the slightest from the excellence of top grade beef, it should be stressed that "all beef is good beef" — and that quality is excellent for some particular use and method of preparation. There does not need to be tough meat on anybody's table. The cheaper the cut the more care in preparation is usually necessary, so that the consumer can purchase according to which she has the most to spend — time or money.

These extracts are taken from an address by H. J. Maybee, Chief, Livestock Marketing Division, Department of Agriculture, Ottawa, at a series of Meat Forums recently held in leading consuming centres of British Columbia.

FLUORIDATION — AND ITS SAFETY

It is generally acknowledged that three of the greatest public health programs in history are immunization against infectious disease, chlorination of drinking water and pasteurization of milk. Now, after 40 years of proven experience health leaders add a fourth fluoridation of water for the control of dental decay.

For the first time, they believe, a means is offered for mass control of man's most common disease — dental caries.

Results reported by close to 1,000 communities in the United States and Canada that have fluoridated their drinking water to the level of one part per million show that tooth decay among children has been

reduced as much as two-thirds.

In endorsing fluoridation of drinking water as the most logical means of preventing dental caries, the Canadian Medical Association made clear that it was doing so "without reservation," declaring that failure to approve fluoridation "would ignore the massive evidence of value and safety accumulated by us through study of this procedure."

Fluoridation of water has also been endorsed by such groups as the Canadian Dental Association, Canadian Public Health Association, American Medical Association, National Research Council, American Hospital Association, American Public Health Association, and others.

Baby Chicks

DEEBANK'S HOLLYWOOD LEG-HORNS consume less feed, require less floor space, yet lay lots of large white eggs. Deebank's Leg-horns are heavy-bodied, vigorous, efficient. Only 28¢ per pullet. Also Canadian Approved Barred Rocks, New Hampshire, Cross-breeds, from high egg-producing strains. Deebank's Poultry Farm, Dickinson's Landing, Ont. Box 200.

Covering The Sports

Scoring spurts in the first six minutes and in the last four minutes of the game gave Royals a 7-4 victory over Valleyfield Braves Sunday afternoon in their Quebec Hockey League fixture at the Forum.

However the Montrealeers were unable to make much headway in the "Sunday double" as the Braves came right back at night in Valleyfield to register a 5-2 victory.

At the outset of the Forum game, it appeared that Royals were on the way to a scalp of the Braves. Defenceman Jack (Red) Bownass scored unassisted for the Montrealeers 38 seconds after the game got underway. In little more than six minutes Royals had racked up a 4-0 lead.

However the Braves got back into the game with two goals in that first period. They outscored Royals 2-1 in the second and had the crowd of 3,734 on the edges of the seats with a determined effort in the finale.

The units of Larry Kwong, Bruce Cline and Roland Leclerc, Kitoune Joannette, Andre Corriveau and Gordie Haworth, came close to tying the count time and again. Some fine netminding by Charlie Hodge and good defensive play by Bownass kept the Braves from doing so.

Andre Corriveau scored twice for the Braves with veteran Kitoune Joannette and rookie Roland Leclerc getting the other tallies.

Only six minor penalties were called by Referee Sibby Munday, four against the Royals. Corriveau got Valleyfield's fourth goal while Royals' rearguard Glen Harmon was off in the second period.

Rookie Jacques Gagnon showed a fine burst of speed for Valleyfield with an effort of 15 seconds flat in the puck-carrying race. However, Royals' defenceman Al Dewbury surprised by beating team-mate Lulu Denis' record of 14.9. The ex-Chicago player sprinted right around the rink for a clocking of 14.8 seconds.

The Valleyfield Braves snapped back from a 7-4 defeat in Montreal

earlier on Sunday to defeat the Royals 5-2 in a return night contest on their own stamping ground.

The Royals ran true to form in the opening period when Orval Tessier swung behind the Valleyfield defence and after faking goalie Andy Payette out of the crease, slid the puck into the net to put Montreal ahead 1-0.

The Braves rallied in the second period. Bruce Cline scored the equalizer midway through the frame and Rolfe Leclerc rifled in a hard shot at 38 to put Valleyfield ahead 2-1.

Leclerc took a pass from Maurice Collins behind his own blue line and went the length of the rink before letting go. The puck hit Charlie Hodge high in the pads and slithered into the net.

Cline got a second goal before Montreal counted again on Ike Hilbrand's marker at 3:11 of the third to leave it 3-2 for the Braves. Jacques Gagnon connected on a pass from Jean-Paul Bissillon and the crowd got another before the final whistle went.

The panel discussion decided Television Is No Menace

Television can be a boon to many Canadian homes — "not the booby it's cracked up to be." This is the consensus of a panel discussion conducted recently by a Canadian magazine.

The scare stories you hear about TV are far off the mark, the panel decided. "The panel members were people who had both television and children in their homes: a high school teacher, a housewife with three children, a CBC-TV official and a teenager.

The panel was told: "Television is obviously a permanent part of our culture. Already more than one million Canadian families are regular viewers. By next year, 50 per cent of all our homes are expected to have sets. Does this mean we're gradually destroying our homes, our minds, our young people?"

The panel's answer was "No." However, school teacher John Porter warned that "With TV, you must develop restraint. If you want to read or do other things, you must leave yourself time for them." Fred Rainsberry, supervisor of children's programs for CBC-TV, said "TV is an ideal way to learn how to do things and learn how others live."

The key to good use of television was careful selection of programs and time spent on viewing, the panel said. If Canadians developed good selectivity television would not dominate their leisure time.

Among the factors the panel reported about Canadian television habits: Most rooms arrangements have changed to make the set the focal point since television moved in. Many Canadian families watch programs during meals.

Television watching is most likely to become excessive in the age group from 11 to 13 years.

Many Canadian housewives have changed the way they dress in daytime because of what they saw on television.

The first difficulty would be to enable a space-traveller to leave the earth. A rocket ship would have to take-off from a standing start at a terrific speed to overcome the pull of gravity. Unprotected, the traveller's whole face would sag and fall in as the blood from his head coursed down to the lower parts of his body, which would become bloated and engorged. A black-out would follow, and then death. But a man with the resources of civilization could probably survive the take-off by wearing a pressure suit to counteract the movement of his blood, and by reclining on a rubber mattress.

Having reached outer space, the astronaut would immediately have to adjust himself to the opposite extreme and float about in a gravity-less void. He might be terrified at losing all sense of personal direction and balance, not knowing "up" from "down." It would be Alice's fall down the Wonderland well coming true.

There could be no rehearsal on earth to enable him to adjust himself to these weird circumstances, since there is no practical way of reproducing gravity-free conditions. But astronauts might, however, prove the lack of confidence caused by falling about. Gyroscopic controls of some kind inside a space suit or rocket, and magnetised shoes that would cause the wearer to have a steel "basis" under his feet, might make it possible to deceive the brain into a sense of proportionality and direction.

Equally unpredictable in their effects on the human body would be cosmic rays. In outer space, these consist of streams of high energy particles moving at fantastic speeds. There is a risk that, like the radiation from atomic bombs, they affect human fertility. Further, meteors and dust particles charge about space at nightmarish velocities. If they penetrated a space ship, they would alter the air pressure inside and endanger all the passengers. Between two and six inches of steel are estimated to be necessary to give protection to the ship.

This is far too much for a rocket to carry. It would, therefore, be necessary to devise a space suit capable of shielding the traveller against the worst foreseeable eventualities. Such a suit would not look anything like the films, almost fancy-dress creations of cheap science fiction. It would have to withstand an internal air-pressure of at least 15 pounds per square inch. The air enclosed within it would need to be made breathable.

The suit would need to absorb the body moisture and to keep the wearer at an even temperature. The sun would be blazing down from one side at a temperature far higher than anything experienced on earth, while freezing space would confront the traveller on the other side. It may be possible to safeguard against this risk by the inclusion of heat-dispersing fins, as suggested by Dr. Donald Menzel, of Harvard College Observatory.

Unless the traveller's destination has an atmosphere possibly capable of sustaining human life, he will have to use an oxygen apparatus all the time, except when he retires to eat or to sleep within a specially-sealed dome having an artificial atmosphere. It is doubtful whether he could use only ordinary compressed air, because of the waste caused by its unbreathable nitrogen content, which would represent unnecessary bulk in transit. Breathing pure oxygen for very long periods produces toxic effects, so that a person's stay on an atmosphere-less planet would probably be governed by the time it took for these symptoms to appear.

Many are the totally unknown and unpredictable hazards which will confront those who seek to travel in space. But there is little doubt that they will all be overcome eventually. A monkey who was shot up to a height of about 35 miles in a rocket was found to be unconcerned by eating a banana when he returned to earth by parachute. Man, of course, can match and excel this impish defiance. (ISPS).

The Story of the Three Elder...

(Continued from page 4)

The tragedy that befell the Hessian Royal Family was the second in less than twenty years. In July 1918 Prince George's aunt and uncle, the Empress Alix and the Tsar Nicholas II, who were Cecile's own great aunt and uncle, were murdered by the bolsheviks with their five children in a cellar in a prison house at Ekaterinburg, Siberia. Alix was formerly a Princess of Hesse-Darmstadt before she married the Tsar and was Queen Victoria of England's favorite granddaughter.

Photograph was taken June, 1953, in Buckingham Palace, by Arnold McNaughton on the occasion of an hour's visit with the family.

Medical Aspects of Space Travel

Space travel is on the map. But a voyage in outer space might turn out to be a journey to one's own funeral in an atom-powered hearse.

Medical researches, therefore, have been going on for quite a few years. The Space Medicine Association of America has been in existence for five years, and the British Interplanetary Society has undertaken a good deal of investigation. The assumption on which this work is based is that the human body has been evolved over countless thousands of years to suit it to an earthly environment.

The first difficulty would be to enable a space-traveller to leave the earth. A rocket ship would have to take-off from a standing start at a terrific speed to overcome the pull of gravity. Unprotected, the traveller's whole face would sag and fall in as the blood from his head coursed down to the lower parts of his body, which would become bloated and engorged. A black-out would follow, and then death. But a man with the resources of civilization could probably survive the take-off by wearing a pressure suit to counteract the movement of his blood, and by reclining on a rubber mattress.

Having reached outer space, the astronaut would immediately have to adjust himself to the opposite extreme and float about in a gravity-less void. He might be terrified at losing all sense of personal direction and balance, not knowing "up" from "down." It would be Alice's fall down the Wonderland well coming true.

There could be no rehearsal on earth to enable him to adjust himself to these weird circumstances, since there is no practical way of reproducing gravity-free conditions. But astronauts might, however, prove the lack of confidence caused by falling about. Gyroscopic controls of some kind inside a space suit or rocket, and magnetised shoes that would cause the wearer to have a steel "basis" under his feet, might make it possible to deceive the brain into a sense of proportionality and direction.

Equally unpredictable in their effects on the human body would be cosmic rays. In outer space, these consist of streams of high energy particles moving at fantastic speeds. There is a risk that, like the radiation from atomic bombs, they affect human fertility. Further, meteors and dust particles charge about space at nightmarish velocities. If they penetrated a space ship, they would alter the air pressure inside and endanger all the passengers. Between two and six inches of steel are estimated to be necessary to give protection to the ship.

This is far too much for a rocket to carry. It would, therefore, be necessary to devise a space suit capable of shielding the traveller against the worst foreseeable eventualities. Such a suit would not look anything like the films, almost fancy-dress creations of cheap science fiction. It would have to withstand an internal air-pressure of at least 15 pounds per square inch. The air enclosed within it would need to be made breathable.

Spotlight on HEALTH

Why You Cough... Coughing is caused by irritation somewhere in the respiratory system. But irritation itself will not make you cough. A tiny cluster of brain cells must first order the various muscles involved to provide the explosive force which causes coughing. (see illustration)

Science has now developed a drug, similar to morphine but non-narcotic, which can control coughing that has no beneficial value to the human body. This drug, known as dextromethorphan hydrobromide, or, more simply, Romilar, apparently is the first anti-cough specific since codeine was discovered more than 100 years ago.

However, Romilar, being widely used under doctors' orders for the first time this winter, has none of the disadvantages of codeine. It is non-addictive, causes no nausea, dizziness or constipation. Months of tests on more than 775 patients in 28 hospitals and clinics show that Romilar causes no bad effects on patients.

The chart above explains why you cough. Both the "irritation message" and the "order to cough" are electrical impulses carried by nerves. The cough suppressant works by stopping or slowing down the electronic switching process by which the incoming signal sets off the cough signal. Codeine, and Romilar seem to work alike, but the latter appears to affect only the "cough center." The new drug was discovered by scientists of Hoffmann-La Roche Inc.

which the incoming signal sets off the cough signal. Codeine, and Romilar seem to work alike, but the latter appears to affect only the "cough center." The new drug was discovered by scientists of Hoffmann-La Roche Inc.

New Technique for Repeated Injections

A new way of easing the pain of injections — of particular importance for those whose illness requires continued and frequent "shots" — is reported by Dr. Theodore Cornbleet, of Chicago's University of Illinois College of Medicine.

This technique is to produce a wheal in the skin with a droplet of the hormone hydrocortisone. He has found that the wheal develops into a harmless, small bump of seemingly dead tissue, and that a hypodermic needle inserted at this site produces almost no pain. The "painless island" of skin lasts for 10 to 14 months. The physician suggests that for diabetics four such areas be created, two on each thigh, thus enabling the patient to give himself painless insulin injections for an entire year. The process can then be repeated without any ill effects. (ISPS).

Scientists Aid Anti-Opium Fight
The world-wide illicit traffic in opium has been hit hard by two Canadian scientists. Because all opium, regardless of where it originates, is made from the same species of the poppy flower, the police of the

world have always had trouble in tracking down the source of illegal drugs.

That is no longer so. We can now tell from which nation any opium comes by analysing its ashes. Samples of the drug from different areas contain characteristic amounts of certain minerals. The differences, the scientists report, depend on the varieties within the species and on such local features as soil, climate and farming techniques. (ISPS).

Annual Meeting

The annual meeting of the Mutual Fire Insurance Company of St. Joseph of Godmanchester will be held

WEDNESDAY, FEB. 9th at 2.00 p.m.

in the COUNTY BUILDING, HUNTINGDON

Policyholders are invited to attend.
