

WHILE BRITISH CONSOLIDATE RECENTLY GAINED STRONGHOLDS FRENCH AND GERMANS CLASH

General Haig's Forces Record Further Gains North Of The Ancre—Germans Make Slight Progress In St. Pierre Vaast Wood—Sanguinary Battle Proceeds On Transylvania Front—Royal Palace In Bucharest Is Bombed By Enemy—Entente Allies Capture Heights On Cerna River

While the British were further advancing their front north of the Ancre river or consolidating their newly won positions, the French and Germans have been engaged in violent combats both north and south of the Somme. In both regions the Germans made gains—in the northern corner and western outskirts of the St. Pierre Vaast wood, north of the river, and in the eastern part of the village of Pressoire, south of the stream.

The French official communication in admitting the loss of this ground says the Germans obtained only limited advantages at the price of very heavy losses. In the north the German attacks extended from Les Boeufs to the south of Bouchavesnes, a front of five miles, and south of the Somme from Ablaincourt to the Chaulnes wood, about three miles. The attacks were launched after violent artillery preparation.

Berlin in reverting to the British attack which gave them the town of Beaucourt, says that except at Beaucourt all the British attacks broke down with heavy casualties. On the southern bank of the Ancre the attack has already been shattered, says Berlin, which adds that fighting is proceeding near Sailly-Sailliset and Pressoire. According to London 5,678 Germans have been made prisoners on the Ancre front since Monday. The British losses, considering the extent of the gains, are declared not to have been high.

The Transylvania front aside from the line in France, is furnishing the most sanguinary engagement. Here almost everywhere the Austro-Germans are gaining ground against the Rumanians and Russians. In the Tirgujuly, Alt and Jiul valleys the Teutonic allies have forced their antagonists still further back. In the Dobrudja region Bucharest reports the occupation by the Rumanians of the town of Boasic, on the Danube.

The royal palace in Bucharest has been bombed by Teutonic allied aircraft. The Queen and the Royal Princess were not in the building at the time.

Berlin admits that on the Cerna river bend in Serbia, the Entente Allies have captured some heights, and that in the valley the Teutonic Allied line has been driven back in order to prevent pressure on its flanks.

In Galicia, according to the Petrograd War Office, the Russians have driven Austro-Germans from former Russian trenches in the Narayuvka river region. Berlin asserts, however, that attacks by the Russians in this vicinity were repulsed.

East of Gorizia the Austrians by a heavy bombardment have compelled the Italians to give up some of their trenches. On the Carso front the Italians have made advances at several points.

CANADIAN CASUALTIES.

Ottawa, Nov. 15—Canadian casualties to date show that 9,457 have been killed in action, 3,477 died of wounds and 3,272 missing. There have been over sixty thousand casualties reported.

33 VESSELS SUNK WITHOUT WARNING

AND 135 LIVES WERE LOST
THROUGH BARBARITY OF
HUNS.

London, Nov. 15—Thirty-three vessels have been sunk without warning by submarines from May 3th to Nov. 8th, according to the Admiralty announcement, which adds that as a result of this 140 lives were lost.

Of the total 26 were British ships, the loss of which claimed 135 lives, the heaviest death toll occurring on the following vessels: Golconda, 19 lost; Euphorbia, 11; Franconia, 12; Marina, 18.

The statement says the remainder of the losses were among allies and neutrals, the French losing two ships, with the loss of two lives, and the Norwegians losing three vessels, with the loss of one life.

AMERICA AND JAPAN LINKED BY WIRELESS

New York, Nov. 15—The Associated Press has received from Baron Kenjiro Den, the Japanese Minister of Communications, the following message on the occasion of the establishment today of direct wireless communication between Japan and the United States:

"Baron Kenjiro Den, Minister of Communications, in behalf of the Japanese government to The Associated Press:

"Will you say to the people of America it is a matter of mutual congratulations that our countries have just been linked together by another chain of communication which promises far-reaching results as an avenue of amity, commerce and civilization between the east and the west. It is an added demonstration of the fact that the east and the west, far from an added demonstration of the fact already met and daily are becoming merged in a life of common humanity."

A PEACE LEAGUE TO PREVENT WAR

NATIONAL GRANGE PRESIDENT'S IDEA — QUEBECER
HONORED AT WASHINGTON.

Washington, Nov. 15—Protection of the peoples of all lands from the ravages of wars in the future through formation of a peace league of the nations was advocated by Oliver Wilson, of Illinois, president of the National Grange, speaking here today at the fiftieth annual meeting of the organization.

Mr. Wilson recommended government ownership of both telegraph and telephone facilities, spoke for national prohibition and said that free distribution of seeds by Congressmen was a waste of money.

Delegates from thirty-three States are attending the sessions of the Grange, which will continue for ten days. More than 1,000 members will take the seventh degree, the highest in the order, Friday. A semi-centennial celebration of the founding of the Grange will be held Saturday.

J. Anthony Grenier, of Quebec, was tonight elected vice-president of the American Association of Farmers' Institutes, meeting here in conjunction with the National Grange.

EXTENSION GRANTED.

Mexico City, Nov. 15.—The date when mines in the republic shall become subject to forfeiture because of non-operation has been extended to February 14 in cases where conditions have prevented operation. Today was the date set for the forfeiture of mines which have been idle for two months from Sept. 14, the date on which the forfeiture decree went into effect. British and American capitalists are heavily interested in the mines forfeiture of which is threatened.

ANGRY AT SINKING OF AMERICAN BOAT

LONDON MANAGER OF COMPANY OWNING COLUMBIAN DENOUNCES HUNS.

London, Nov. 15—After receiving a report from Captain Curtis, of the steamer Columbian, which was recently sunk by a German submarine off the Spanish coast, Charles Mayer, the London manager of the France and Canada Steamship Company, owners of the Columbian, denounced the action of the Germans in destroying an American ship. The Columbian, he said, had formerly been owned by the Hawaiian American Company, but was taken over by his company, which has been organized since the war.

"All the shipping of our company totalling nearly a quarter of a million tons, is owned in America and is under American registry," he said. The majority of the ships are under charter to the Italian and French governments. The Columbian was bound for Genoa with about 9,000 tons of oats when she was torpedoed. She had delivered about 1,500 horses at St. Nazaire. The whole cargo was loaded at Boston and New York, in addition to 2,000 tons of oil, which she needed for fuel, as she was an oil burner. Two-thirds of the Columbian's crew were Americans.

Mr. Mayer said he planned to send the crew back to the United States on one of the company's boats from France.

The Weather

Toronto, Nov. 15—The pressure remains decidedly high over the north Pacific States, but the accompanying cold wave has greatly moderated. The weather has been fair today throughout the Dominion, with the exception of some light local snow-falls in Ontario.

Lower Lakes and Georgian Bay: Fresh westerly to south-westerly winds, a few local snow flurries, but generally fair, not much change in temperature today; higher temperature on Friday.

Ottawa and Upper St. Lawrence: A few local snow flurries, but generally fair and cold.

Lower St. Lawrence, the Gulf, and North Shore: Moderate winds, fair and cold.

Maritime Provinces: Fresh winds, mostly north-west to north-east, fair and cold.

Lake Superior District: Fresh south west to south winds, fair, rising temperature.

All the West: Fair and comparatively mild.

ALLEGED BIGAMIST.

Montreal, Nov. 15—Private Gules Montagne, alias Raoul Dupont, a Belgian soldier, who went to Bermuda with the 163rd Battalion, arrived in Montreal to stand trial on a charge of bigamy. It is said that he has one wife in this city and another in Three Rivers, Que., but the prisoner denies the charge.

"SOUL CHILD" OF RUSSIAN COUNTESS HELD ILLEGITIMATE

BOY REGISTERED AS SON OF COUNT DAVYDOV AT MOS- COW FOUND TO BE CHILD OF A PEASANT GIRL.

London, Nov. 13.—Russia has furnished some weird trials, but none has stirred public interest as much as the one just ended in Petrograd where the court publicly recognized that the infant boy registered in Moscow as the son of Count Orlov Davydov is in reality the illegitimate child of a peasant girl by an unknown father.

The Countess asserts that this is a "soul" child, and so susceptible is Russia to the occult, that many listened seriously to the Countess's claim that she was guided in all her dealings with her husband by the spirit of his dead daughter by his first wife, and this ghostly counsellor actually dictated the address where this "soul child" would be and was found.

But this contention was rudely shattered by evidence showing that the Countess had procured one child so frail and sickly that it was returned, and that arrangements were then made to obtain a healthy child. Though the child was robust and healthy, its mother was a plain peasant girl whose naturally dull intelligence had not been sharpened by working for others. It was feared her appearance would not please the Countess, so a stately and attractive young woman was induced to act as the mother. Disguising herself in peasant clothes, with a shawl over her head, she handed the child over to the delighted Countess. At the time assurance was given that the father was a student, though as a matter of fact he was an ordinary laborer whose name is unknown.

The Countess whose "soul child" has been the cause of this remarkable litigation is better known under the maiden name of Poire. She is a sister of the famous French artist, Caran d'Ache, whose name is an ingenious adaptation of the Russian word for pencil. Mlle. Poire for years under that name earned considerable recognition as an operetta and concert singer, was correspondent and finally as actress in chief of the Imperial Theatre in Petrograd. Her father was one of the best fencing masters in Moscow. Count Davydov is the bearer of an old aristocratic name, a member of the Imperial Duma and District Marshal of the Nobility. His fortune is over \$10,000,000.

It was testified that the Countess, pointing to the child, said: "I have given you a fine son, haven't I? Just as if I went and bought him in the market." At that time the Countess really believed the child bore a remarkable resemblance to him.

The witnesses were a motley crowd of chirosofists, mediums and dealers in cosmetics. The court found that the child was illegitimate, but that the Countess and two others were not guilty in procuring the insertion of the false birth entry so they were discharged.

MEMORIES.

Then come his sister and his village friend
And he will now the sweetest moments spend.
He goes through shrubby walks these friends among,
Love in their looks and honors on their tongue;
Nay, there's a charm beyond what nature shows,
The bloom is softer and more sweetly glows;
Pierced by no crime and urged by no desire,
For more than true and honest hearts require.
They feel the calm delight, and thus proceed
Through the green lane—then linger in the mead—
Stray o'er the heath in all its purple bloom—
And pluck the blossom where the wild bees hum;
Then through the broomy bound with ease they pass
And press the sandy sheep-walk's tender grass,
Where daisies flowers among the grass are spread
And the lamb browses by the linnet's bed;
Then 'cross the bounding brook they make their way,
O'er the rough bridge—and there behold the bay!
The ocean smiling to the fervid sun—
The waves that fairly fall and slowly run—
The ships at distance and the boats at hand;
And now they walk upon the seaside sand,
Counting the number, and what kind they be,
Ships softly sinking in the sleepy sea.
—Crabbe.

FRENCH IN THE SCHOOLS

Should Be Compulsory, Lord Shaughnessy Is Convinced.

INTERVIEWED in London, Lord Shaughnessy, president of the Canadian Pacific Railway Company, stated that it was essential to the development of Canadian trade that both French and English should be compulsory subjects in Canadian schools, and that though other languages might be optional the more languages learned the better.

He said: "The subject of trade after the war is one in which Canada is deeply interested at the present moment. Of course we are preoccupied just now with the successful prosecution of the war, but at the same time it is possible to frame in our minds the general outline of our trade policy. When hostilities are concluded we must not be content to develop scientific research alone, but amongst other things in connection with trade after the war greater attention should be paid to the universal instruction in schools in foreign languages. In the past we have been content to give our boys and girls just adequate education in their own tongue. If the lessons of this war are to be taken to heart, and if we are to extend our trade then we must make our youngsters familiar with the language of other nations, and, in my opinion, the French language should be made compulsory in every common school throughout the Empire. For it is the most common medium in exchange of thought all over the world. Russian and Italian should also be studied."

Bailly, Montreal; S. G. Gibson, Hamilton; J. C. Felherston, E. L. Reasing, St. John; A. F. Bell, J. W. Weldon, E. M. Markus, W. M. Shepherd, Westmount, C. J. Cote, Detroit, Mich; Mr. and Mrs. J. E. Sheffield, Ansable, N. J.; R. B. Common, Westmount; T. A. Ollany, M. J. Kelly, S. Drake, Sir R. Forget and Lady Forget, G. H. Taylor, R. R. Macauley, E. Dranville, Montreal; E. Raymond, Toronto; T. Hepburn, Boston.

Joe Martin for Mayor of Vancouver

Vancouver, Nov. 15.—Joseph Martin, K. C., still member of the British House of Commons for St. Pancras, London, will likely be a candidate for mayor of Vancouver. He has intimated that he will run if he is assured that any considerable portion of the electors wish him to enter the field against Mayor McBeath. Twice, on his own initiative, he has contested that office in vain.

Fire in Toronto.

Toronto, Nov. 15.—Fire broke out in the third story of a five story building occupied by Adams Brothers, leather dealers, on King street east, tonight. The alarm was rung at about 9.45 but owing to some accident, high pressure on the water supply was not available until 10.30. In the meantime the fire had gained considerable headway and the damage is set at about \$100,000, fully covered by insurance.

LIBERAL MORALITY!

Saskatchewan Liberals do not all have the same standard of conduct, says the Winnipeg Telegram. Two of them who have been given prison sentences are apparently unable to see that this is any reason why they should resign their seats in the legislature. As the law has failed to provide for such cases, there is nothing that can be done but wait until next session and then have them formally expelled. This will have the disadvantage of leaving their constituencies unrepresented for a considerable period, but there seems to be no help for it. Possibly a clause might advantageously be inserted in the statutes automatically vacating the seat of any member convicted of crime, but it is doubtful if the Liberals of Saskatchewan are entirely prepared to admit the necessity for such an enactment.

A third member, J. A. Sheppard, of Moose Jaw, has developed a slightly better idea of the fitness of things. In consequence of the finding of the royal commission he has resigned but he does not propose to let it go at that. Instead of welcoming the obscurity of private life, he will offer himself for re-election and he pleads that his actions though now looked upon with reprobation "were formerly considered as legitimate or at worst of trivial impropriety." This is as much as to say that if he is forgiven this time he promises not to do it again.

The three of them, though in different degrees, are discreditable specimens of their party. But the really discouraging feature of the situation is the new premier's unwillingness to separate himself from the malign influences which surrounded his predecessor. These influences are still in full control of the government even though a few of the comparatively minor offenders may have got rid of. Hon. W. M. Martin has already shown himself quite unequal to the task of turning provincial affairs into better channels.

GERMAN INSOLENCE.

An extraordinary situation has arisen in Kitchener (formerly Berlin), Ontario, where the extreme German element of the population has refused to adopt the new name of the city and is carrying on a campaign designed to defeat the present city council under whose auspices the popular vote was taken. Some business firms have sent out with their correspondence a small card, on which the following is printed:

"Until the ratepayers of this city definitely decide the name issue in a fair election, without intimidation or coercion of violence, you will oblige us by using the following address:

Berlin, Canada.

Among the opponents of the change in name are Rittinger, Motz, Ltd., publishers of the Journal newspaper, who had sent out one of these cards with a remittance to one of the largest stationery wholesale houses in Canada. The card brought the following response, which is very fitting under the circumstances:

Messrs. Rittinger & Motz, Ltd., Kitchener, Ont.

Dear Sirs:—In acknowledging receipt of your remittance, \$34.56, permit us to take very serious exception to the card which is enclosed in your envelope. We read "Until the ratepayers of this City definitely decide the name issue in a fair election, without intimidation or danger of violence, you will oblige us by using the following address:—Berlin, Canada."

"Things have come to a strange pass in Canada when such cards as the above are permitted in the mail. You should thank God that you are living in a Christian country, and not under German despotism. The liberty which has been granted to you and others like you is evidently developing into license, and if you are well advised you will tread softly and speak gently hereafter."

"Meanwhile we desire to have no further business from you."

It is satisfactory to know that at least one firm refuses to accept business from the pro-German publishers of the Kitchener newspaper. It will be still more satisfactory if they are made to feel that their German propaganda does not pay.

AMERICAN CONGRESS.

The difference between the British and the American form of government is in no particular more clearly seen than in the organization and management of Congress. In Great Britain and Canada, the Premier and

Cabinet are a committee of Parliament, charged not only with the executive administration, but with the shaping of all important legislation. They hold office while they hold the confidence of a majority of the body of which they are a part. In the United States, the Government is divided into three departments: the executive, the legislative and the judicial. The President and his Cabinet have no seats in Congress, nor are they responsible to it in any way for their conduct. They may recommend legislation, but they cannot promote it, except indirectly through moral influence or the power of patronage. Whether it passes or not makes no difference to their tenure of office. When Congress happens to be of the same political complexion as the President, his path is easy. When it is different, he finds himself balked at every turn.

In the Congress now drawing to an end—though it will not expire till the 4th of March next, and will mean while hold another session—the Democratic party has a comfortable majority, both in the Senate and in the House of Representatives. It was only necessary, therefore, for the President to dominate his own party to get his measures passed. In doing this, President Wilson has been much more successful than Presidents usually are. In the legislation of the past two years, such has been his influence that the situation has very closely approximated that of a British Premier and Parliament. But in the next Congress he will not have nearly the same opportunity to impress his personality upon the policy of the country.

In the Senate, the present Democratic majority is 16. As a result of the elections on Tuesday last, this figure will be reduced. The Democrats lose at least four Senators. Belated returns may increase their misfortune. In fact, one early estimate was that they would only have the slender majority of two—49 Democrats to 47 Republicans. But later information seems to assure what we in Canada would call a working majority in that body.

In the House of Representatives, the present Democratic majority is 23. This was little enough in a House of 435 members. It seems to be turned into a slight Republican majority. An Associated Press dispatch says: "With a few districts still in doubt, the Republicans appear to have a plurality of four or five members, and a possible working majority of two or three when it is figured that an independent elected in Massachusetts and a Progressive elected in Minnesota will probably vote with them. Independence of action has characterized a number of the re-elected members on the Republican side, however, and their attitude toward Democratic legislation in the last few years has given Democratic leaders hope. On the face of unofficial returns, the political division of the House is so close that an effective and certain working majority does not exist."

Under these circumstances, it is thought President Wilson will be in no hurry to convene an extra session of the 65th Congress. Four years ago, it will be remembered, no sooner was he elected than, in advance of his inauguration and the appointment of a Cabinet, he and his political associates began shaping the great measures upon which they had set their hearts—particularly the Underwood tariff bill. Then, almost immediately after the inauguration, the new Congress was called in special session to put that legislation through. If there is to be an adverse House of Representatives, it is very unlikely that he will be in such haste next spring. In all probability, he and his friends will try to clean up the Democratic programme during the session of the present Congress beginning in December.

The organization of the House of Representatives presents another great point of difference between British and American institutions. In Canada, the Speaker is purely a presiding officer, and from the moment of his appointment non-partisan. In the House of Representatives, the Speaker has most to say in the appointment of standing committees, and that gives him immense political influence. Blaine, Reed, Cannon, etc., first made the reputations in that office. Because he is Speaker, Champ Clark is almost as important a man as the President. In appointing the standing committees, the Speaker sees that every committee has a majority in harmony with his political faith and that of a majority in the House, of these committees the weightiest is that on Ways and Means, which virtually controls the appropriations. It was as chairman of that committee that Garfield made his reputation.

Present indications are that Representative James R. Mann, now minority leader, will be the Republican candidate for the Speakership, with

APPLES, ORANGES, FIGS AND PRUNES

Are The Four Fruits Used In Making "Fruit-a-tives"

"FRUIT-A-TIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-tives because I have tried other remedies and they did me no good." On the other hand, the fact that "Fruit-a-tives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bowels, Kidneys or Skin. "Fruit-a-tives" is composed of the active principle of fruit and the greatest nerve tonic ever discovered. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Champ Clark as the Democratic candidate. There will be a great fight over the organization, if the Republican majority is as tenuous as now it appears likely to be.

During the two years beginning on the 4th of March next, President Wilson will need to walk warily. In so far as he proves himself a true patriot, he will doubtless have the support of both the great political parties. But there will be little chance for political jockeying or juggling.

PRESS COMMENT.

Every indication points to the fact that recruiting is improving in the Province of Quebec, through the efforts of the three French members of the Dominion government—Casgrain, Patenaude and Blondin—who, while some of their Quebec opponents are talking politics and trying to stir up strife, are going to their fellow-countrymen and appealing to them from the standpoint of their national duty and their individual obligation to the Empire that has given them liberty. With the bilingual question relegated to the background, there is also reason to believe that the different factions will get closer together than for many years, and that the result will be a more generous response to the call of the Empire. —Calgary News-Telegram.

The healthiest people in any climate are those who are not afraid of the fresh air. There is a story of a venerable person in the days when charms and spells co-operated with medicaments and lotions in the practice of the healing art, who gained a wide reputation for his skill in the art of medicine by presenting his patients with a stick a foot in length, cut from a branch of a tree whose wood he declared was endowed with medicinal virtue. This stick, he strictly instructed the patient or nurse, was to be placed, after a form of words possessing magical power had been recited, beneath the raised casement of the patient's window, to support the sash. The patient was forbidden to remove the rod day or night, whatever the state of the weather. The result was that the window of the sick room was always open, and it is said that the patients invariably regained their health. —Vancouver Sun.

For the year ending June last the tonnage cleared for Great Britain from American ports was 8,304,707. The clearance to Austria and Germany nil.

Then comes along the Deutschland with her gross tonnage of 700 (which is not the same thing as cargo-carrying capacity). She has cleared once from the United States so, but to equal the clearances to Great Britain she would have to clear 32 times a day for a year, and even then she would be a fraction below the contract requirements.

Let these figures should not be big enough, we will take into consideration the clearances from American ports to all the European allies. Then when we get a gross tonnage cleared of 15,443,268, the Deutschland's 700 gross tonnage looks a bit undersized to tackle that pile, but she could do it if she could clear from American ports sixty times a day, or once every twenty-four minutes every day for a year.

In other figures it would mean that it would take 2,775 submarines, doing eight trips a year, to equal the Allies' shipping from America.

How many of those 2,775 would escape disaster often enough to complete the eight trips in a year? Where is the Bremen? It is the Germans who do not know. —Calgary News-Telegram.

ST. ROCH'S

HE SURPRISED HER

Mr. McKinnon Wood, the new financial secretary to the British Treasury, tells the following story against himself.

During the recent visit to this country of some members of the Russian Duma, at a Parliamentary reception held in their honor, the wife of the speaker of the house of Commons offered to introduce Mr. Wood to one of the Russian ladies present.

A little later she came up with a lady, and the mutual introduction took place. Mr. Wood did not catch the name, and as he is ignorant of the Russian language he felt somewhat embarrassed. Then it suddenly occurred to him that the Russians are good linguists, and on the spur of the moment he said:

"Do you speak English?" "Why certainly!" replied the lady with a surprising air. Then added observing that Mr. Wood looked somewhat puzzled in his turn—"I am Mrs. Austen Chamberlain."

The Speaker's wife had inadvertently introduced him to the wrong lady.

GAS, HEARTBURN, INDIGESTION OR A SICK STOMACH

"PAPE'S DIAPEPSIN" ENDS ALL STOMACH DISTRESS IN FIVE MINUTES.

Time it! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach was not there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

MINARD'S "KING OF PAIN" LINIMENT

The old reliable remedy for rheumatism, neuralgia, sore throat and sprains.

Best Liniment Made

Mr. A. E. LACROIX, EDMONTON, writes: "I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best liniment made."

Minard's Liniment always gives satisfaction. For any ache or pain. It gives instant relief. Minard's Liniment Co., Limited, Yarmouth, N.S.

MORTALITY FOR 1914 IN THIS PROVINCE

TOTAL OF 36,002 SHOWS A DECREASE ON PRECEDING YEAR.

Dr. Jos. Wilfrid Bonnier, D. P. H., Recorder of Vital Statistics for the Province of Quebec in his report to the Superior Board of Health for records the total number of deaths in the Province of Quebec for 1914 at 36,002 as compared with 36,200 in 1913.

The chief causes of death were diseases of the heart 1,491; cancer, 985; Bright's disease, 939; diseases of liver, 376; tuberculosis of the lungs 2,817.

Statistic for 1914 show 80,361 births and 36,002 deaths, while the number of marriages was 16,121.

RECORDER'S COURT.

In the Recorder's Court yesterday morning eight prisoners were charged with drunkenness and one with loitering. One of the delinquents was fined \$2.00, two \$3.00 and costs, and the remainder were sent to jail for terms ranging from eight to thirty days.

ANNUAL DOLLAR SALE

Baden-Powell Chapter I. O. D. E.

As will be seen by the notice which is appearing in another column the Annual Dollar Sale of the Baden Powell Chapter I. O. D. E. will be held on Thursday Nov. 23rd, in St. Andrew's Kirk Hall, St. Stanislas Street.

Each member is requested to bring two articles for the sale.

LADIES MORNING MUSICAL CLUB'S CONCERT.

The Ladies' Morning Musical Club held the first of its series of concerts in the Empire Theatre yesterday morning at which there was a large attendance. Mrs. H. Sharples and Miss Marois were responsible for the program, which reflected the greatest credit upon them.

Miss Maria Delisle pleased the audience very much with her singing. Her rendering of "Ne me Refuse Pas," being particularly good.

The duet played by Mr. Leo-Pol Morin and Mr. Taranto, two talented artists of this city, was a masterpiece and drew great applause.

LATE J. ETHELBERG BAKER LAID TO REST.

The funeral of the late Mr. J. Ethelberg Baker, who met his death through an accident at the Chateau Richer quarry last Monday took place yesterday. The body was conveyed to the city by the 7.30 a.m. train, and was accompanied by a large cortege from Chateau Richer. On the arrival of the funeral in Quebec a large number of citizens joined the mournful procession and accompanied it to the C. P. R. Station where the remains were placed on board the morning train for Montreal where the interment took place.

The chief mourners were Messrs. J. W. Baker, father of the deceased; Alvin Baker, brother; J. Lowe, brother in law and Walter Ruthman.

The floral tributes were very numerous.

171ST BATT. HOLD SPLENDID CONCERT

VERY ENJOYABLE TIME SPENT AT IMMIGRATION BUILDING LAST NIGHT.

A splendid concert was given in the Immigration Building last night by the 171st Battalion C. E. F., at which there was a large attendance of civilian friends as well as of the officers and N.C.O.'s and men of the Regiment.

The programme was a most enjoyable one, and included songs, recitations, band selections, boxing, etc. The boxing was a great success and several clever bouts were staged. The bout between Sergt.-Major Labbe and Pte. Williamson created no end of fun, owing to the participants being blindfolded. The quartette by the sergeants of the battalion rendered some pretty songs which gained much applause.

During the course of the evening Lt.-Col. O. Talbot delivered a stirring address in which he touched upon the duties of Canadians in this war. He also made a touching reference to the popular commanding officer of the Battalion, Sir Wm. Price, who, he said, was giving up his home and friends to take an active part in the campaign; indeed, nobody could realize the extent of what he was giving up to serve his country. At the conclusion of his speech Lt.-Col. Talbot was heartily cheered, as was also Sir Wm. Price.

The programme was as follows:

Selection Band
Boxing Ptes. Osborne and Oldfield, D. Co.

Song Bandsman Heath
Quartette Sergeants of 171st
Boxing Sgts. Mellen and Crossman
Song Sergt. Kruidinier, C. Co.

Recitation Corp. Ross, A. Co.
Boxing Pte. Linden, A. Co., and Pte. Jargieski, C. Co.

Song Bandsman Heath
Selection Band
Song Pte. Osborne, D. Co.

Boxing Ptes. Chajkin and Yashchuk, C. Co.

Address Lt.-Col. O. Talbot
Boxing (blindfolded) Sgt.-Major Labbe, A. Co., and Pte. Williamson, A. Co.

Selection Band
Violin Solo Pte. Fisher, D. Co.
Boxing Sgt. Krindinier, C. Co., and Pte. Blackmore, D. Co.

Recitation Lieut. Ievers
Song Lieut. Brady
GOD SAVE THE KING.

FUNERAL SERVICE

For Former Academy Pupils Killed at the War.

A solemn Requiem Mass will be sung, Friday morning at 9.15 o'clock, in St. Patrick's Church, for the former pupils of the Commercial Academy who have been killed at the war. These include Lieut. Neil Stuart, Capt. Victor Holmes, Capt. J. O. Beaubien, Lieut. Rene Pelletier, Pte. William Martin and others.

All the pupils of the institution will be present. Parents and friends are respectfully invited to attend.

NAMES OF QUEBECERS ON CASUALTY LISTS.

The names of two Quebec boys—Albert Barrette, 269 Bagot street, and J. S. Ritchie, son of Mr. and Mrs. John Ritchie, appear among the wounded in the casualty lists received last night. The extent of their injuries is not mentioned.

HONORARY OFFICERS OF PRESS GALLERY.

At a second meeting of the members of the Press Gallery at the Quebec Legislature, Hon. Antonin Gailpeult, Speaker of the Legislative Assembly, was unanimously elected Honorary President of the Press Gallery, while Sir Lomer Gouin and Mr. Arthur Sauve, Leader of the Opposition, were elected Honorary Vice Presidents.

PRETTY WEDDING.

A pretty wedding took place on Tuesday morning in the private chapel of the Hospice St. Antoine, when Miss Alma Rousseau, daughter of Mr. and Mrs. Louis Rousseau was married to Mr. Louis Irwin (Denny) Malone, chief inspector of the Munition Department at Montmagny, son of Mr. Maurice J. Malone. The bride who was given away by her father, was attired in a navy blue cloth suit, black hat and gray furs, and carried a beautiful bouquet of American Beauties. Following the ceremony a wedding breakfast was served at the residence of the bride's parents, after which the young couple left on a honeymoon trip to Montreal and Ottawa. Mr. and Mrs. Malone were the recipients of a large number of wedding gifts.

DENIAL FROM RUSSIA.

Petrograd, Nov. 15, via London, Nov. 16.—The semi-official Russian News Agency has issued a denial of rumors in circulation to the effect that subsidies to Polish refugees in Russia have been discontinued.

RECRUITS FOR BRITISH NAVY

CITIZENS ASSIST LIEUT. MURRAY BY DISPLAYING POSTERS IN WINDOWS.

In connection with the campaign inaugurated by Lieut. J. A. Murray, R.N., C.V.R., Overseas Division Naval Recruiting Officer, to raise recruits for the British Navy, a number of citizens have lent their assistance to the movement by placing naval recruiting posters in their show windows. Among the most attractively decorated windows in this respect might be mentioned the Canadian Pacific Telegraph office, St. Peter street. In addition to the posters the Union Jack and other flags are neatly arranged on either side of an illuminated C. P. R. sign. The attractive manner in which the window is dressed reflects great credit on Mr. D. H. Barclay, local manager for the C. P. R. Telegraph and Cable Co.

Lieut. Murray is pleased to announce that more recruits have enrolled since last week, but as a far greater number is required he hopes to see many more from this city help in the cause of the Allies by joining the Navy.

All recruits are sent overseas without delay to go into training; a course which Lieut. Murray states will be most beneficial to the young Canadian boy in his after-the-war occupation. Lieut. Murray's office is situated in the Quebec Harbor Commissioners' Building.

AN ACTION UNDER WORKMAN'S ACT.

Under the Workman's Compensation Act, Dame Alphonse Lessard, has entered an action against the Brown Corporation, claiming \$1,000 for the death of her late husband, while he was in the employ of the defendant company. The plaintiff is represented by the legal firm of Taschereau, Roy, Cannon and Parent.

STRANGE BRIDGES

Probably no town in the world has such strange bridges as Srinagar, the capital of Cashmir, in India. The city is built on the banks of the River Jhelum, which is crossed by many wooden bridges lined with old and dilapidated shops and houses with balconies and lattice windows. Some of these are very insecure, and look as if they might at any time fall into the river beneath.

Timber has always been largely used for building bridges, and the earliest one of this kind on record is that which Julius Caesar made across the Rhine and which he describes in his "Commentaries."

The roofed Kapellbrücke, at Lucerne, is one of the most interesting. It crosses the River Reuss diagonally, and has a hundred and twelve triangular paintings beneath the roof, recording the heroic deeds of the old Swiss and the sufferings of their patron saints. In the midst of the Kapellbrücke stands an octagonal tower, which formed part of the fortifications of the town in the thirteenth century. The bridge was built in 1333.

One of the curious and ancient bridges in Europe is that at Croyland, in Lincolnshire, which is supposed to date from the ninth century. No road now passes over and no water under it. It consists of three pointed arches, which meet in the centre, and the ascent is so steep that only foot passengers can go over it. Upon the bridge is a seated figure in stone of a robed Saxon king.

STEAMER SUNK.

London, Nov. 15.—Lloyds announces that the Spanish steamer "Oiz Mena," a vessel of 2,092 tons, has been sunk. Twenty four members of her crew were landed.

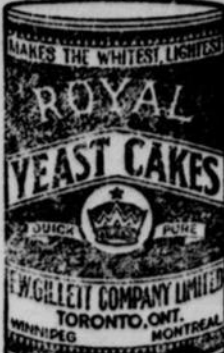

Rubbers Emporium!

22,000 pairs of Rubbers is just what we bought for this season. They are almost all in now and we can show the largest assortment of fine Rubber footwear in the city.

Your visit is respectfully solicited. We sell them cheap.

171ST BATTALION HAD LONG MARCH

QUEBEC RIFLES PARADED TO SILLERY YESTERDAY—FINE APPEARANCE.

The 171st Battalion in command of the Officer Commanding, Lieut.-Col. Sir William Price, had a long route march from their barracks, the Immigration Buildings, yesterday afternoon. Accompanied by the brass band in charge of Sergt. Haxley; the pipe band in charge of Sergt. Campbell, and the bugle band led by Cpl. Colsky, the parade started from the Immigration Building shortly before 2 o'clock.

Seven hundred men took part in the march, which was one of the longest and most trying on account of the slippery condition of the road. To the tune of lively march music, played alternately by the different bands, the battalion marched through Lower Town, along Champlain street, Cap Blanc, Sillery Cove, up Sillery Hill, in St. Louis Road, Grande Allée, St. Louis street, Mountain Hill, etc., to the barracks.

The battalion presented a splendid appearance, and showed marked improvement in marching order to some of the earlier parades. That all the men taking part in the march-out yesterday are in the pink of condition was shown by the fact that not one dropped out along the long route. Despite the rather crisp air, the members of the pipe band were attired in their kilts and their appearance as well as the battalion in general, evoked much favorable comment along the route of march.

With a few exceptions all the officers attached to the Quebec Rifles, took part in yesterday's parade. They included besides the Commanding Officer, the following: Lt.-Col. Tal-

bot, Major Gibsons, Major Stevens, Capt. Fletcher, Capt. Beckett, Capt. Rattray, Capt. Turcot, Lieut. Sewell, Lieut. McFall, Lieut. F. Hill, Lieut. Morewood, Lieut. Brady and Lieut. Torrens. The battalion returned to barracks at 5.00 p.m.

Officers Reach France.

News has been received here to the effect that three of the draft of nine officers from the 171st Battalion which went overseas some time ago, have arrived in France. They are Lieut. Jones, Lieut. Audet and Lieut. Falkenberg.

Lt. Smith Recovering.

The numerous friends of Lieut. A. C. Smith, of the Quebec Rifles, who has been ill for some time, will be glad to learn that he is rapidly recovering.

DOLL'S SALE.

Now is the time to think of buying your Christmas Dolls. The kind you buy in the stores are so inferior and cost so much, that people will welcome this chance of obtaining well-dressed dolls very reasonably. At Lady Price's residence, 145 Grande Allée on Friday, November 17th, a sale will be held by the Stadacona Chapter of the I. O. D. E. and apart from the dolls there will be tea, ice cream and home made bread for sale.

Through the kindness of Sir William Price O.C. of the 171st Battalion the band will play, and no doubt add much enjoyment to the occasion. Members of the Chapter are reminded that their donations of dolls are requested not later than Thursday, at noon.

WOODBURY THE COMPOSER.

Among obscure composers of hymn tunes that have lasted long is Isaac Baker Woodbury of Beverly, Mass., who began his career as a blacksmith's apprentice. He finally studied in Europe and was an associate of the better known musicians of the day. His tune called "Silent" sung to Heber's "By Cool Siloam's Shady Hill," is known to most churchgoers.

QUEBEC

RESERVE CLAUSE IN CITY LEAGUE

In The World of Sport

WOULD REDUCE NATIONAL BOARD

RESERVE CLAUSE UPHELD IN CITY HOCKEY RULES EMMETTS ALLOWED LIST

After Much Discussion Last Evening Local League Decided to Leave Rules as Before—Emmetts Had No List But Were Granted Leave to File One—Board of Referees Is Named.

Discussion of the reserve clause in the Quebec City Hockey Association's rules took up most of the time at last night's meeting and despite all arguments to the contrary, threatened lawsuits, etc., the league through Crescents and Laval stuck to its guns and the reservation section stays. The Sons of Ireland and Emmetts were the opponents of the measure; Manager McDonald of the champions claiming that spite or selfish reasons on the part of a manager of a club might keep out of the game one or more of its worthy exponents who under no consideration would play for the club which had reserved their services. This argument while a very good one in the interests of the players was not looked on favorably by the league, whose members insisted that the reserve clause prevented tempting offers to players each year; furthermore it was left to the fair play and sportsmanship of managers to allow bona-fide amateur players who felt like making a change to become free agents. It is not likely that a manager would deliberately keep a player out of the game all season if that player had always dealt squarely with the club and had good reasons for making the change. Manager McLaughlin of the Emmetts, however, argued against reservation because the Emmett A. A. was against this principle and that therefore, the Emmetts had not taken advantage of the reserve clause in the league constitution. After heated discussion it was finally proposed by Mr. Dunn of St. Patrick's and seconded by Mr. Parent of the Laval Club that the Emmetts be allowed file their reserve list immediately. The motion was adopted. The Emmetts reserve is as follows:—W. Sullivan, J. Paul, J. Doyle, M. Dempsey, M. Power, J. Fitzgerald, M. Kenny, J. Dinan.

The question of referees also occupied much time. President Newton urged the delegates to adopt a good system as the matter of referees is a very important one. A suggestion by Mr. Dan Delaney of the Emmetts was finally thought to be the best and it was adopted. A board of referees was named by the league and the president is to number them and have them handle the games on the schedule in the order their number calls for. If a referee is unable to act on the night he is billed to officiate, the next number will be called on. The board is made up of competent officials and there is likely to be very little squabbling over this question this winter. The names are: Dr. P. Hamel, Dr. Joe Labrecque, Charlie Nolan, Sam Murphy, W. Quarr, Dave Power, Jeff Malone, Joe Malone, Dave Ritchie and Jack Marks. The Quebec players of course would be only available when Quebec would be at home, resting up.

The Rink Question. The question of rinks is next on the programme and the league clubs will have to come to an arrangement with Messrs. Chambers and Fleming of the Grande Allée Rink and Mr. Leopold Dussault of the Arena concerning dates, etc. President Newton will be a busy man for the next few days. All the delegates attending the meeting were enthusiastic over prospects for the coming season and every club will enter the race with solid organization behind them. The representatives of the clubs last evening were: John A. Carbury, Wm. Hansen and E. Delaney, Crescents; Emmet McDonald and Joe Bryson, Sons of Ireland; L. Letourneau and H. Lavoie, Montagnais; McLaughlin, D. Delaney, R. McHenry, Emmetts; F. H. Dunn and Louis Rooney, St. Patrick's; M. Parent and Paul Drouin, Laval. Secretary Lepine was on hand with the records and the assembly was presided over by the president, Mr. Newton.

JOHNSON RELEASED. Vancouver, Nov. 15.—"Moose" Johnson, the star defence player of the Portland team, has been released to the Spokane Hockey Club, according to information given out from an authoritative source here today. Johnson goes to Spokane on condition that the four Winnipeg players—Dick Irvin, Stan Marples, Alex. Martin and Clem Loughlin, who have signed—report to Mr. Savage by Nov. 20.

TREMBLAY WON. Montreal, Nov. 15.—Eugene Tremblay, lightweight champion wrestler of America, met and defeated Beel, of Cleveland, at a Canadian Athletic Club fixture here tonight. Tremblay, eight pounds heavier than his opponent, won the first fall in thirty-one minutes, with a scissor and bar arm hold, and the second with a cross body hold in twenty-one minutes.

Montreal, Nov. 15.—Joe "Kid" Burns, a local featherweight, easily disposed of Bobby Collins, a New Yorker, in a ten round bout at Sohmer Park here tonight. Burns had the advantage in seven of the ten rounds.

KING GOSSIP. Philadelphia, Nov. 15.—Benny Leonard, of New York, by superior ring generalship, gained the popular decision over Johnny Dundee, of the same city, in a six round bout here tonight. The fight was fast throughout with Leonard availing the better of four of Leonard having the better of four of and Dundee 122 1-2 rounds.

George Rivet and Red Allen will meet in Montreal within the next ten days.

A "Boxing Fan" urges lowering of prices for boxing here. He says 50c is a moderate figure. The fifty cents seats are just as good as \$1.50 at both the Grande Allée Rink and the Arena—that is the trouble—the crowd began taking the cheap ones and the ringside was bare. It costs money to stage fights between first class boys and if the fans want to see a good bout they will pay the price. The bout between Brown and Andrews was a corker. Brown is a champion—yet the crowd was the smallest on record. Anybody who couldn't afford, or thought it was only worth 50c, did not have to remain away, he could have had one of the best seats in the house for a half-dollar. Gate-receipts tell the tale—even the 50c seats were not one quarter filled. Where's the argument?

PORTLAND GETS STAR AMATEUR. Winnipeg, Nov. 15.—Should Alex Irvin, captain and point of last year's Monarch Hockey Club of Winnipeg, decide to follow his team mates, Laughlin, Dick Irvin, and Stan Marples, and join the Portland team the coast professional champions would be made up entirely of players who played in the Winnipeg league. With the exception of Paris, who played for Kenora, all the other boys are former Monarchs players, five of them figuring on the Allan Cup line-up.

Alex Irvin is expected to sign up though he is not satisfied with the terms offered and is waiting for something better before deciding to join the pro ranks. Laughlin, Dick Irvin and Marples leave for the coast on Saturday.

SHAMROCKS HAD A PROSPEROUS YEAR

ANNUAL MEETING OF LACROSSE CLUB SHOWED ORGANIZATION IN A COMFORTABLE POSITION.

Montreal, Nov. 15.—The annual meeting of the Shamrock Lacrosse Club held last night revealed the club to be in a prosperous condition, as the outcome of the activities of last season, a surplus of \$4,344 being shown in the financial report. The affairs of the club for the year had been so capably handled that the members felt the outgoing board of officials could not be improved upon, and re-elected them en bloc.

The board consequently stands as under: President—D. Tansey, M.P. President—Ald. T. O'Connell. Vice-President—T. S. Slattery. Hon. Secretary—Treasurer—J. L. Foley.

Executive—Messrs. W. P. Kennedy, M. Conney, J. Deaken, J. Cavanagh and J. J. Ryan. During the course of various addresses it was stated that the Club would endeavor to form a strong intermediate league next season, while Mr. Harry McLaughlin, president of the Association, outlined a plan for a function to be held early next year with the object of raising funds for the Association.

A LESSON IN GRAMMAR. We have read funny things but the following alleged correction of our grammar by the "D. T." Schoolmaster is a gem. The item was:—

"We read this morning 'The Irish-Canadian Club HAVE'—that's more bush grammar, evidently."—Telegraph.

Suppose the poor boob never heard of a collective noun.

Some new "Daniel come to judgment."

On same page of the brilliant literary journal we find:—"Young Canadian Independent Hockey Club ORGANIZE."

"Needless to say the Irish-Canadian Club REGRET exceedingly that unforeseen circumstances obliged THEM to call off Friday's hounds which were to have been under the auspices of the 171st Battalion."

Here is another:—"The St. Patrick's Hockey Club held THEIR annual meeting last night at the Literary Institute on Anne street. THEY were successful in organizing for the coming season as the members present gave their hearty support to the proposal that the club be continued, and that IT take an active part in hockey circles."

Both singular and plural here! Remember that old saying about people who reside in glass houses, etc.—Need we say more?

FOLLOWING THE FRENCH IN GERMAN AIRSHIPS

Writer Declares That Army Aeroplane Designs Have Changed Since War Began.

From German army flying machines captured by the French a writer in the French technical journal L'Aerophile has been able to describe the types used by the Germans to show the tendencies of their designers. He points out that German aeroplanes have since the war began tended more and more toward uniformity.

In addition to the Taube, that was the characteristic German aeroplane at the outbreak of the war, there are now in use types called Aviatik, Albatross and the Fokker, all of which are said to be little more than copies of French machines either as a whole or in part.

The writer declares the tractor is the present typical German aeroplane type and that there is a tendency to decrease the length of the "fuselage" and it is considered worthy of note that the Germans have been able to use such short bodies with success. The decrease in length may be shown through the fact that the average length of the machine was thirty feet in 1914 and it is twenty-six feet now. "Ailerons" are used on all types and are sometimes of very peculiar design.

The inter-plane bracing has been much reduced in recent models. On most of the machines in use at present there are eight metallic struts, connected by a simple rectangular system of wiring in place of the complicated cantilever truss for which German construction used to be noted. The connection from the "fuselage" to the upper wing is made through a pair of supports in the shape of an inverted V. These offer no more resistance than the old system of four short vertical struts and are much stronger. The wings are now covered with a yellowish cloth and covered with a transparent varnish of bluish tint, which makes the wing more difficult to pick out against the sky.

All the machines the French writer discusses have two seats in tandem, but there is no agreement as to whether the passenger should sit in front of or behind the pilot. The controls are of the usual type, with wheel and

Sporting Notes

It is beginning to look as if "Mike" Quinn would not secure many local players after all. "It won't be for lack of trying" said the Quebec manager, yesterday. "We have been told that more local talent is needed to boost the professional game. We are offering the best Quebec boys a chance to get into the N.H.A. If they refuse to come of course, that is their own affair. I have hopes of landing one or two boys besides Hughes."

Ernest Savard of the Montagnais, a promising young player, turned down an offer from the Quebec club yesterday. Savard's reasons were mostly business ones.

The fact of an amateur hockey player signing up with a professional club does not make him a professional until he actually plays or receives money for his services. Though Hughes may be signed with Quebec (though this is denied by certain parties)—his standing as a player of the Crescents is not affected until he plays, for Quebec.

The Crescents took a determined stand on the reserve clause last evening and wouldn't budge an inch. Emmet McDonald was worried over it but was in good humor when the meeting was over.

Lionel Letourneau of the Montagnais states that he will have a strong team on the ice. He claims to have Lacroix the fast Shawinigan Falls man who is with the 171st battalion.

Billy Young was expected in Quebec with the 171st instead of that the fast wing man went to Montreal and joined "Kitchen's Own."

President Newton of the City League is keeping the delegates well in hand. The new ruler of the local circuit has made up his mind that everything must be run off swiftly and orderly.

The Emmetts got away with something on the league when they were allowed file their reserve list at such a late date.

Billy Hansen of the Crescents was the pacifist of the meeting. "Cut out this law stuff" said Bill, "and let's settle matters without consulting the Privy Council." You're right, Bill, "Them's our sentiments," as the saying goes.

The Toronto News says:—Congratulations are in order to the two McNamara boys of the 228th Battalion. They have successfully passed the examinations, and are now full fledged captains. Two better qualified officers would be hard to find. They have played hockey in Toronto nearly every season since the N. H. A. invaded this city, and always acted in a clean-cut, sportsman-like manner both on and off the ice, that showed their calibre. They are good players, good sportsmen, and this is qualification enough to be leaders of men in the greatest game of the present time.

Wanderers will have two net-minders this winter, from all indications. Bert Lindsay, contrary to reports, will be back with the red-boys, and Billy Hague will again be available for substitute duty. Lindsay's contract has not yet been received by the club, but President Lichtenhein stated today that Lindsay would be available, without doubt. The same goes for Hague.

Popular Pastime, No. 611.—Publishing photographs of the "Duke and Duchess of Sutherland" as the new residents of Rideau Hall.—Vide local paper).

foot bar. Dual control is not employed. German military experience apparently showing this to be an unnecessary complication.

TO RECORD BABE'S INDENTITY.

There will be no more change-lings or Slingsby baby cases if a new system of recording a child's identity is generally adopted. The finger print system is now employed by the police in all countries. A convict whose thumb-prints has once been taken can always be identified.

There are obvious difficulties about taking a baby's finger-print—the hands are always curling and clutching—but its feet present no such obstacle. What applies to fingerprints applies to foot-prints. The impression of a baby's foot once taken forms a life record.

The foot-prints system is already employed in one great foreign maternity hospital with most satisfactory results. All that is necessary is to cover the sole of the child's foot with printer's ink by means of a roller, and then transfer the impression to a sheet of paper. The ink can be cleaned off the foot with alcohol. Care must be taken not to disturb the impressions before they are dry. It is claimed that there will then exist for all time a record of the baby's identity which would carry weight in any court of law in after years. No matter how much the feet grow, the lines will have grown with them, and their pattern will not be changed.

RACING ESSENTIAL TO HORSE RAISING

FAMOUS HORSE SHOW JUDGE GIVES HIS OPINION ON BREEDING QUESTION.

New York, November 14.—Alfred B. MacLay, chairman of the executive committee of the National Horse Show Association, whose annual exhibition in Madison Square Garden has just opened, is an enthusiastic horseman, and a particular admirer of the types which will be on parade for the next week in the big arena. A member of the famous Millbrook Hunt, one of the organizers of Squadron A and a Spanish War veteran, he is also fond of the standard-bred, the noted road horse Auditor B winning championships for him in the days when the trotter was one of the big attractions of the Garden.

The fact that Mr. MacLay has served as a judge of hunters, saddle horses and light harness horses at nearly every show of prominence in the East and that he was visited and made observations on horse breeding in practically every country in continental Europe should render him especially competent to pass on conditions in connection within the United States. Upon being asked what medium he considered the most important for the distribution of knowledge pertaining to the horse Mr. MacLay said yesterday:

"The horse show is unquestionably the greatest of all educators, for it is there that type is illustrated in living, breathing form."

"Racing I would place next as a contributing factor. Without the tests on both the running and trotting courses our breeding ventures, which nature renders uncertain despite all our science, would be still less satisfactory. It's the only way to show up structural and other weaknesses and we cannot hope to make progress without these competitions."

DANGER IS PAST.

But Russia Was in a Tight Fix a Few Months Ago.

The military correspondent of the London Times writes as follows in a recent issue of that paper:

The review of the Russian operations during the past year published in Petrograd on September 5 is a moving and all too brief record of a period which will remain indelibly stamped upon the memories of us all. A year ago his Imperial Majesty the Czar of all the Russians assumed in person the command of his forces operating by sea and land, and placed at the disposal of his great country the weight of his immense authority. That we admired and respected the Grand Duke Nicholas and regretted his departure no one can deny, for he had been a great figure, had fought the war boldly and with skill, and had not feared to take grave and thankless decisions when the terrible situation of the Russian armies imperatively demanded a retreat. But we cannot say now, looking back over the past year, that the Czar was ill-advised in assuming command, for his determination to lead his people, and to fight the war to a finish, set the seal upon the resolution of the Russian people. Napoleon was beaten because he miscalculated the character of a Russian Czar and the devotion of his people, and the same miscalculation has vitiated all the plans of the German General Staff.

It was a dark hour when the Czar assumed the command-in-chief. How dark many of us knew. We knew that the Russians were fighting with one rifle against three, and one shell against ten, and that by no possibility could Russia become adequately armed, even for active defence before the following spring. Many thought that the operations round Vilna would see the hastily gathered Russian levies in the north cut off by the German thrust at Sventslany from their friends, and other good judges supposed that Germany would resume her advance when the ground and the rivers and the snow froze hard, and take Petrograd in a winter campaign, with all the munition factories at the capital and the ice-bound fleet. We knew well enough that the Russian patient would recover if he could survive the winter, but the winter seemed likely to be inclement, and the patient's pulse was very weak. It was a period, we must all admit, of most horrible anxiety, and those best informed feared the most.

The Czar and his trusted General Alexieff, who has just been the fortunate recipient of an affectionate and cordial message from his sovereign, pulled out the Russian armies. Heaven knows how, from the Vilna trap and re-established their line. The Russians troops, fought the infantry particularly, fought back with all their old glorious obstinacy, with rifles when they could get them, and if not, with sticks and stones. As the Germans advanced through the gloomy forests, the swamps, and the wastes they found the villages in flames, the population in flight, and all resources destroyed, while communications lengthened as the days shortened, and the northern autumn began to cover Russia as a shield.

Xmas Gifts for Our Boys in the Trenches

If you have not sent your Christmas Gift for the boys at the front, don't delay, because it may mean disappointment. We have a complete assortment of Khaki Socks, Handkerchiefs, Camel Hair Scarfs, Caps, Sweaters, Trench Scarfs, Gloves, Wristlets, and all other comforts. We will pack, ready for mailing, any goods bought here.

This Ointment Possesses Power to Heal the Skin

Two Cases Which Prove the Extraordinary Healing Power of
Dr. Chase's Ointment.

The use of Dr. Chase's Ointment is wonderfully satisfactory because you can actually see the results accomplished. It is surprising what change can be brought about in a single night by this great healing ointment.

Mr. George Beavis, 119 James street, Peterboro, Ont., writes: "As a healing ointment, I consider Dr. Chase's the best obtainable. I had a large running sore on my leg, and although I had tried all the prescriptions of two doctors I was unable to get any relief from the pain or to get the sore healed. One day my druggist handed me a sample box of Dr. Chase's Ointment, and I used it with such good results that I decided to give the ointment a fair trial. Altogether I used four boxes, and I am glad to be able to say that the sore on my leg is entirely healed up. Since this experience with Dr. Chase's Ointment I have recommended it to

many people."

Mrs. W. W. Oliver, of Port George, Annapolis, Co., N.S., writes: "I am going to tell you my experience with Dr. Chase's Ointment. There was a spot came on my face something like a mole, but it kept getting worse, and several doctors whom I consulted said it was skin cancer, and that it would have to be cut or burned out. I intended having this done, but changed my mind when my brother recommended Dr. Chase's Ointment. Before I had finished one box of the ointment this skin trouble had gone, and has not bothered me since. I cannot praise Dr. Chase's Ointment too much, and you are at liberty to publish this letter.

If you have never used Dr. Chase's Ointment send a two-cent stamp for a sample box, and mention this paper. Price sixty cents a box, all dealers, or Ednansen, Bates & Co., Limited, Toronto.

SUPER-ZEPPELIN MORE BULKY THAN AN OCEAN LINER

Built of Aluminium, It Is 680

Feet Long and 72 Feet Beam,

Weighs Only About 50 Tons.

4 GONDOLAS FOR CREW;
DRIVEN BY 6 ENGINES.

British Experts Have Estimated
the Cost of Construction at
\$1,250,000.

London, Nov. 13.—It was not long after the battle with Zeppelins on Sept. 23 before the British Air Service experts discovered that the airship brought down in flames represented the latest type of enemy raiders—the super-Zeppelin—as superior in size, engine power, armament and bomb-carrying capacity over the first Zeppelins as the latest big U boats are over the original little submarines.

The deductions of the experts have shown that Germany's super-Zeppelin has engines aggregating 1,440 horse power, as against 540 horse power in the original naval Zeppelin. It is 680 feet long and 72 feet in diameter—actually larger in bulk than a giant ocean liner of the type of the Lusitania, though of infinitely less weight, of course. The enormous envelope, although destroyed in the fire that plunged the Zeppelin down to wreck in Essex, has been estimated from the aluminium and steel and copper wire structural work that remains to have been of a capacity to store 2,000,000 cubic feet of gas—three times as much as the capacity of the earlier Zeppelins, then supposed to be the last word in air monsters.

Larger Than Lusitania.

What inspired admiration and wonder in the minds of all who visited the wreck was the incredible delicacy of the workmanship that created something larger than the Lusitania to float in the air, and which against the tens of thousands of tons weight of the Lusitania, with engines, guns, bombs and all, the super-Zeppelin is figured as weighing only fifty tons. The whole aluminium and wire structure weighed only, the experts report, nine tons.

An English reporter who visited the wreck writes:

"The external of the airship, her outer fabrics and gas bags, were destroyed, but all the essentials remain, all the elaborate contrivances of attack, all the gear for operating the engines, all the tackle for manoeuvring the ship.

"The skeleton of the monster is not visible until you draw very close to it. It is a strange, spidery affair of delicate trusswork in silvery metal, with no sheen and no tinkle but a sepulchral rustle. The girders are of almost inconceivable lightness. What looks a prodigiously bulky portion of the framework can be lifted with one hand. Instead of weighing a hundredweight it scales a few pounds. The whole structure seems like a device from another world and another age."

The Four Gondolas.

Swung under the huge gas envelope were four gondola shaped compartments, hooded, with apertures for the use of the navigators and gunners and observers—one gondola at the Zeppelin's nose, two depending side by side in the centre, and the third and largest gondola—about thirty feet in length—aft. Her six engines distributed among the gondolas are figured to have been able to send the monster along in calm weather at sixty-five miles an hour. The gondolas are made of stout aluminium, but the experts do not figure that, boat shaped as they are, they could float successfully unless the aviators had time to dismantle the flying boats of their armament in a descent or especially in a tumble if the gas bags were shell struck.

The forward gondola is that used for navigation. It was divided into three compartments. In the first was the captain, right in the bow of the ship, looking through non-flammable celluloid windows, which were pierced through the cotton fabric that closed the gondola in above. Conveniently placed for him were two wheels to

operate the elevating and horizontal steering rudders and other wheels controlling the water ballast and the petrol tanks. Before him was a little keyboard with which bombs were dropped. It showed sixty small buttons like the pushes of an electric bell, each of which operated one bomb-dropping hook and released a bomb. Another lever withdrew a shutter, which had to be withdrawn before the bomb could fall.

One of Six Engines.

Astern of the Captain's cabin in the same gondola was a little room, 6 feet by 4 feet, used by the wireless operator and containing the wireless instruments, which were supplied with current from six dynamos, one attached to each engine, thus leaving nothing to chance. Astern of the wireless room, again, still in the same gondola and isolated from the wireless room by an air space of about an inch, were one of the six engines and a dynamo, also two machine guns of ordinary German calibre, on tripod mountings of amazing lightness.

The engine is still in good working order. It is of Maybach (Mercedes) type and develops 240 horse power. One of the great surprises of this airship is that immediately behind the forward gondola, and driven by its engine is a propeller amidships underneath the ship. There was nothing of the kind in the Zeppelins brought down in France and at Salonica. It is one of the distinctive features of the super-Zeppelin.

The "Cat Walk."

To pass from the gondola down the ship one had to climb through a kind of trapdoor framed in aluminium into the "cat walk," a perilously narrow gangway only nine inches wide that runs the whole length of the keel. On the aluminium girder framings the thinnest of planking was laid. Some part of it has survived the fire and could be very plainly seen. Passing down this "cat walk" inside the walls of thin cotton fabric, grayish white, one reached the compartment containing bombs. Here hung the missiles on sixty hooks, and below them was the sliding shutter. In the "cat walk" was another interesting find—a lavatory with fittings of fairy lightness.

Near the centre of the ship, progressing from bow to stern, were suspended two other gondolas. These hung side by side, spaced out a little on either beam. They are of much smaller size, only eighteen feet long, and each contains one Maybach 240 horse power engine, one dynamo and one machine gun.

In the amidships gondolas were neat little aluminium cupboards, which at the time of the capture contained comestibles. They were of good design and took little space. The last and fourth gondola was placed astern in the centre line and was of large size, about thirty feet long. It contained two machine guns and three engines, all of Maybach type and 240 horse power, each driving one dynamo and propeller. Two of these propellers were stayed out on either beam of the airship; the third was at the stern, about thirty feet in from the end of the ship. A similar propeller was observed in the Zeppelin brought down by the French at Revinny.

The gas was contained in twenty-four balloons, each connected by a valve with a central gas supply pipe. The balloons were burned, but enough of the fabric remains to show that it was of a thin silk or cotton, water and gas proof. They were separated, not as some have supposed by sheet aluminium bulkheads, but by spider webs of wire, a web between each pair of balloons.

Aluminium Propeller Shaft

An aluminium propeller shaft found three miles from where the framework of the Zeppelin fell and petrol tanks plainly showing marks of being struck account for the starting of her trouble which ended in her gas bag being set aflame. Date-marks on these tanks and other parts of the structure indicate that this surely was of the latest super-Zeppelin type for they carried the date "July 11 1916."

Forward and at the stern stop of the huge envelope were platforms on which were mounted three quick firing guns for repelling attack from above, and there was a smoke-producing apparatus by which the airship could eject clouds for its own concealment.

Enough was left of the gas bag to show it was made of a paper-like but very tough, untearable, twill-like material.

It is estimated that the new super-Zeppelin cost the German Government at least \$1,250,000 each.

THE NATIONAL HIGHWAY.

Hon. Mr. Rogers Promises Support to Great Scheme.

The members of the executive of the Canadian Automobile Association had a conference recently with Hon. Robert Rogers, Minister of Public Works, on the building of a transcontinental highway from coast to coast. L. B. Howland, president Canadian Automobile Association, Toronto, urged Mr. Rogers with the necessity for the construction of the transcontinental road. He said it would open up undiscovered country. He referred to how the railroad had been the means of discovering Cobalt mines. He pointed out that the Province of Quebec had constructed a road to the boundary and that the Ontario Government were considering plans for a trans-provincial highway. A. L. Cram, Montreal, president of the Automobile Club of Canada, reminded Mr. Rogers of the great development that has come to be made in the Province of Quebec by the building of good roads. He said that Quebec had two thousand miles of improved macadam roads now. The country had prospered since the building of the roads as

Shipping News

SEVEN C.P.O.S. SHIPS ON WAY TO PORT

FOUR PASSENGER AND THREE FREIGHTERS COMING ON LAST TRIP OF SEASON.

Seven of the fleet of vessels in the Canadian Pacific Ocean Services are on their way to this port each on her last voyage of the season. Among the passenger ships are the Grampian from Liverpool with passengers, mails etc. due to arrive here Sunday; the Sicilian from London, the Carthage from Glasgow. The Mount Temple, from London, Medora from Avonmouth and the Mattawa from London with freight are the other three C.P.O.S. steamers due to arrive here before the close of navigation.

SHIPPING NOTES.

That the season of navigation is fast drawing to a close is very evident. Yesterday some of the canal vessels which usually go to the Saguenay for pulp after discharging coal at this port, were forced to return because most of the ponds where they moor in the Little Saguenay were frozen over.

Among the steam barges obliged to return without securing their cargoes of pulp were the Rockferry, John B. Keichum and Cabotia.

Seven vessels in the Canadian Pacific Ocean Services Ltd., are on their way to this port. It will be the last voyage of the season of each of these ships to this port.

A delayed despatch from Paris says:—The British steamer Sarah Radcliffe, of 3,333 tons gross, has been sunk by a hostile submarine which torpedoed and bombarded her according to a semi-official announcement adds. Her crew of 9 men was saved.

London, Nov. 15.—The sinking of the Swedish steamship Astrid, formerly the pleasure steamer Saga, by a German submarine is reported in a Reuter despatch from Stockholm. The Astrid was on her way from Stockholm to Rauma, Finland. Her crew was saved.

Livings report the sinking of the Danish steamship Ragnar, 2,123 tons gross, and the British steamship Polpedin.

GOODS TO RUSSIA CAN GO THROUGH TO SWEDEN.

(The New York Maritime Register says.)

Arrangements which have been made for shipments from the United States to Russia, by way of Sweden, are outlined in a circular issued by the National Bank of Commerce, with the approval of the Trade Department of the British Embassy. It recites that as a result of recent overtures an agreement has been reached between the British and Russian Governments and the Swedish Government according to which certain shipments from this country to Russia and Finland can be shipped through Sweden.

The British Russian and Swedish Governments have established what is known as the Aktiebolaget Transite. This is composed of the official representatives of these nations. Its main purpose is to receive and forward all goods shipped to Russia or Finland through Sweden. The Russian Government has decided that these facilities may be accorded to shipments of certain goods only, all to be consigned to this Board, at Stockholm, which will arrange to have them forwarded under the control of Lars Korpius & Co., Helsingfors, Finland, the recognized agents of the Russian Government, having branches at all the Finnish ports on the Gulf of Bothnia.

In making shipments of the goods stated in the list, letters of assurance from the Trade Department of the British Embassy in Washington have to be obtained, as well as transit licenses from the Swedish Government. The arrangement prescribes that the handling of the documents must be in accordance with the agreement. For the handling of shipments under this plan through banks the following institutions have been

The Folly Of Taking Digestive Pills

A WARNING TO DYSPPEPTICS.

The habit of taking digestive pills after meals makes chronic dyspeptics of many thousands of men and women because artificial digestives, drugs and medicines have practically no influence upon the excessive acid condition of the stomach contents which is the cause of most forms of indigestion and dyspepsia.

The after dinner pill merely lessens the sensitiveness of the stomach nerves and thus gives a false sense of freedom from pain. If those who are subject to indigestion, gas, flatulence, belching, bloating, heartburn, etc., after eating would get about an ounce of pure bisaturated magnesia from their druggist and take a teaspoonful in a little water after meals, there would be no further necessity for drugs or medicines because bisaturated magnesia instantly neutralizes stomach acidity, stops food fermentation and thus insures normal, painless digestion by enabling the stomach to do its work without hindrance.

designated to act for the Russian consignees:

Banque Russo Asiatic; Russian Bank for Russian Trade; Russian and English Bank; Banque de Commerce de L'Afrique du Nord; Banque Internationale de Commerce de Petrograd; Russian Commercial and Industrial Bank. In conjunction with these banks, the following American banks have been designated to act for shippers in the United States: National Bank of Commerce in New York, National City Bank, Irving National Bank, Bankers' Trust Company and Guarantee Trust Company.

Local shippers attach considerable importance to the new trade arrangement in view of the fact that shipments by private firms to Archangel have not been permitted for some months, the entire port being given over to Government business. A large volume of traffic has been moving by way of the Pacific port of Vladivostok, but this is a long journey as the goods must be transhipped overland to Russian centers.

FREIGHTS AND CHARTERS.

New York, Nov. 15.—Steamer freights offered steadily and rates continued to improve, influenced by light offerings of tonnage for all kinds of business. Quotations on cotton to Liverpool were \$1.50 per 100 lbs.

Charters: British steamer, 1,775 tons, coke, Baltimore to Callao, private terms. November-December: British steamer, 2,800 tons, coke, Baltimore to Chili, private terms. November: British steamer, 2,766 tons, same; British steamer, 2,629 tons (previously), coal, Virginia to Rio Janeiro 50s. November: French steamer, 17,000 quarters refined petroleum, Philadelphia to France, private terms. November: Greek steamer (previously), 25,000 quarters grain, Atlantic range to Lisbon or Leixoes, 15s 6d. November-December: British steamer, 2,664 tons, general cargo, New Orleans to Liverpool, berthed, December: American, 705 tons, West India trade, ten months, private terms. December: Norwegian bark, 1,054 tons, coal, Virginia to the River Plate, 45s. prompt; schooner, 500 tons, coal, hence to St. John, N.B. \$3.50 and lay days; schooner, 650 tons, coal, hence to Yarmouth, N.S. \$3.60; schooner, 2,500 barrels, cement, Jersey City to Bangor, Me., 60c per barrel.

CITY OF QUEBEC.

CITY HALL.

CITY CLERK'S OFFICE.

Quebec, 12th, Oct., 1916.
Public Notice is hereby given that the City of Quebec shall apply to the Legislature of this Province, at its next session, to ask for certain amendments to its charter of incorporation: and to ask for authorization to borrow a sum of \$796,000 (seven hundred and ninety-six thousand dollars), to pay the cost of permanent works in the streets and public places of the City; for permanent works on the grounds of the Exhibition Commission; for the opening of Lockwell Street; for a subscription to the Monument of the Faith; for permanent sidewalks; for amounts paid for war purposes; and moreover, to modify the width of the roadway in certain streets of the City; to amend the law concerning the list of employees to be supplied by each employer; to impose a special tax for the removal of refuse and of snow by the City or by contractors; to make applicable to the Clerk of the Recorder's Court of this City the provision of the number 5321 of the Revised Statutes of the Province; to repeal the law prohibiting the imposition of a tax on non-resident working men; to authorize the City to impose a tax on automobiles; to obtain authorization to build a viaduct over Octave street, and for other purposes.

By order,
H. J. J. B. CHOUINARD,
City Clerk.

THE QUEBEC BANK

NOTICE is hereby given that a Special General Meeting of the Shareholders of The Quebec Bank will be held at the Head Office of the said Bank, in the City of Quebec, Que., on Tuesday, the twenty-eighth day of November, 1916, at the hour of three o'clock in the afternoon, for the purpose of considering an agreement for the sale by the said The Quebec Bank of its assets to The Royal Bank of Canada, upon the terms set out in such agreement, a copy of which will be mailed to each Shareholder with this notice, and it is deemed advisable, of passing a resolution or resolutions approving the said agreement, and authorizing the President and General Manager of The Quebec Bank to affix to said agreement the corporate seal of the Bank and to sign and execute the same for and in the name of and on behalf of the Bank; and also for the purpose of considering and, if deemed advisable, of passing all such other and further resolutions for fully carrying out the said agreement and the terms thereof as the Shareholders shall consider expedient or advisable, and for the purpose of authorizing the Board of Directors to give all such notices and make all such applications and to pass and execute all such other acts, resolutions, deeds, instruments, matters and things as may be deemed necessary for procuring the assent of the Governor-in-Council to the said agreement, and for carrying out the same and distributing the proceeds of the said sale.

By order of the Board,
B. B. STEVENSON,
General Manager.

Closing Letters By the Can. Press

(Canadian Press)
New York, Nov. 15.—There were no material changes in today's broad and active market from those of the preceding session. Ralls were again under repression in consequence of the widespread movement of the transportation companies to test the legality of the eight hour law, while issues of most other descriptions were mainly higher, a few registering gains of almost sensational proportions.
Dealings during the forenoon were attended by alternate advances and declines, local selling being partly offset by interior buying. Some stocks were strong from the outset, notably the independent steel issues, which derived much of their support from the advance in the price of steel rails, a step inaugurated by the United States Steel Corporation.
Copper's and allied metals responded to the unprecedented conditions in that industry, ascending to highest quotations in the afternoon on reports that contracts at 33 cents per pound had been closed for 1917 delivery. Chino and Miami Copper's made new records, also the pfd. shares "A" and "B" of the American Smelters Securities Company.
Other new maximums included Gulf States Steel Common at an advance of 18 points, with 17 for the second pfd. Sloss Sheffield rose to 89 1-4 and Republic Iron to 85 1-4. To these records were added Atlantic, Gulf and West Indies, American Writing Paper Pfd. and Union Bag and Paper.
United States Steel followed its recent course, maintaining hesitation at the outset, but rising briskly with American Smelting in the heavy turnover of the last hour. Steel making an extreme rise of a fraction while Smelting seemed in urgent demand at a gross gain of 5 1-8 points. Marines trailed along with the cop- pers and equipments threw off their lethargy of the morning.
Investment rails largely revived their sluggish movement at the market's close, and minor issues of that group were slightly better. Total sales amounted to 1,385,510 shares.
Bonds were irregular, with substantial gains in Smelting Securities 6's and Rock Island debenture 5's. Total sales, par value, aggregated \$5,200,000.

**Closing Letters
By Local Brokers**
(By McDougall & Cowans)
Montreal, Nov. 15.—Considerable strength was shown today throughout the list. At opening there was large demand for Steel Co. of Can. the first sale being at 77. It quickly moved up to 79 and closed firm at 77 5-8. Dominion Iron opened at 75 reacted to 74 and closed at 74 1-2. Detroit worked up to 118 ex dividend which is equivalent to 120 3-4. It was offered last night at the close at 118 1-2. The steamship stocks were well bought, the common closed at 36 1-2 bid and the preferred selling at 92. In the paper group Wagon Mack made a new high at 110 1-2. Laurentide sold at 214. Dominion Bridge was weaker at 207 1-2. There seems to be some liquidation in this stock. Civic was steady at 82 3-4. Liquidation still continues in Brazilian and it sold off to a new low of 47 3-4. The market at the close was firm with a good demand for securities.
(By L. G. Beaulieu & Co.)
(Closing Market Letter)
Transactions on the local exchange this forenoon reached a larger total than for some time past, amounting to considerably over 11,000 shares, 400 of which were preferred and 325 unlisted. Steel of Canada was the most active stock and was followed by Dominion Steel. Both these issues were firm. Wayamack had a jump and steamships pfd. came strong towards the close, rising to 91. Detroit United was up to 122. Riordon showed a rather easier tone for a period but was moderately firm at the end. The strongest issue on the market towards the close of the day was Steamships again, the price of the issue advancing 92. The Iron and Steel issues held around previous prices as did practically all the other stocks on the list.

The street has a story which is offered as an explanation for the continued easiness in Brazilian Traction. It is that a pool or syndicate was formed to relieve London of a large block of Brazilian Traction stocks. The number of stock is placed at 40,000 and the price at which the block was taken over is mentioned as \$45 per share. It is added that the pool has been gradually liquidating and that this is accountable for the selling from Toronto and the heaviness of the market for Brazilian Traction.
Confirmation of the rumor of the story is impossible to obtain and it is passed on for what it is worth.
(By Bruneau & Dupuis)
New York, Nov. 15.—The market today has been just about as strong as ever, apparently the public want to speculate and in spite of the best sort of selling, prices advance. The banking element here are not particularly in favor of this movement and it would not seem as if the market would continue to go up. In fact between now and the middle of December in the ordinary course of procedure a reaction would be in order. However, it has been strong all day and is closing in most cases at the top.
The canard about Hughes yesterday seemed to give just the needed push to start the ball rolling once more and although manifestly absurd at the time and proven absolutely groundless, the market keeps on going up just as if it have been expected to do if the story had been true.
Total Sales 1,383,510; Bonds \$5,258,000.

ment continues to be of a mixed character. The movement of prices reflects this condition as it has for several days past by an utter lack of uniformity. The professional element has been prominently identified with the trading of late, while fresh commitments from outside interests have been of small account. Transactions, however, are well maintained over the million share mark, despite the lack of aggressive buying power. Activity has been largely centered in certain specialties, trading in which has been practically confined to quick trading operations. The railroad shares are displaying a heavy tone. This is due to the legal fight which the railroad companies are preparing in opposition to the Adamson law, and the threatening attitude being evidenced by the railroad labor unions, in turn, as a result of which tends to create a feeling of uncertainty in speculative circles. Indications are that price changes will continue generally narrow for the time being, except in a certain few specialties.
Sales stocks, 1,383,510; bonds, \$5,258,000.

Synopsis of Canadian Northwest Land Regulations.
The sole seat of a family, or any male over 18 years old, may homestead a quarter-section of arable Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.
Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.
In certain districts a homesteader's good standing may pre-empt a quarter-section alongside his homestead. Price \$2.00 per acre.
Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent on certain conditions.
A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.
The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.
W. W. CORY,
Deputy of the Minister of the Interior.
