LEGAL SALES.

SALE
BY AUTHORITY OF JUSTICE.

WILL BE SOLD, and adjudged to the highest bidder, on SUNDAY, the 16th day of JULY next, at the Door of the Parish Church of ST. LUC, immediately after Mass, the REAL PROPERTY hereinafter described, depending on the community of goods, which has heretofore existed between the late MRS. ELIZABETH MOREAU and SAML. D. HAMILTON, to wit:

1.—A PIECE OF LAND situated in the said Parish of St. Luc, in the place called the Coteau, of four perches fifteen feet front by an arpent in depth. It is bounded in front by the public road leading from St. Johns to Laprairie, in rear by Benjamin Holmes, Esq., on one side by the Widow Jean Baptiste Molleur, and on the other side on the south by Augustin Gauthier, Esq., with a house and other buildings thereon erected.

2.—Another PIECE OF LAND situated in the same place, of irregular form, containing fifteen arpents eighteen perches superficial, bounded at the south-east end by Daniel Bissette, on the north-west end by the road leading from St. Johns to Laprairie, and on the sides by Charles Tourangeau, Theotine Giroux, and the heirs Charpentier, Pierre Benoit, and Joseph Lavallée, without buildings.

3.—Another PIECE OF LAND situated in the same place, containing half an arpent in front, by fifteen arpents in depth, bounded in front by the aforesaid public road, in rear by Jean Mamrie, on the south-east side by Benjamin Holmes, Esq., and on the other side to the representatives of James Hamilton, without buildings.

For conditions of sale, address the undersigned Notaries, at the Village of St. Athanase.

THE HAIR.
BANSLEY'S HONEY FLUID.

THIS is the best Compound for the Hair ever produced. It prevents the hair, if applied in proper time, from falling out, gives it a vigorous and luxurious growth, and when disease has actually taken place in the roots, prevents the hair from falling out for many years. Sold by D. BANSLEY, Nuns' Buildings.

BANSLEY'S HAIR DYE.

☞ After Twenty-seven years of experiment and experience, the Inventor has, at length, brought this article to perfection. It immediately imparts to Grey Hair or Whiskers a natural and permanent Brown or Black, without staining the skin.
Private Rooms for Hair Dyeing.

TOOTH POWDER.

☞ BANSLEY'S HOCHELAGA TOOTH POWDER, is a sure preventive of decay and other diseases of the TEETH, such as discoloration, &c., imparting to the teeth a pearly white appearance, and giving a pleasant perfume to the breath. Manufactured only by D. BANSLEY, 112 Notre Dame Street, Montreal, FIRST PRIZE HAIR DRESSER WORLD'S FAIR, 1851.

St. Leon Springs.

THE Subscriber begs to intimate to the Public, that his HOUSE at ST. LEON SPRINGS is NOW OPEN for the reception of Visitors, is newly papered and painted, and capable of accommodating from 70 to 80 Boarders. A more pleasant retreat during the summer months is nowhere to be found, being situated in the midst of a fine rural country, with a fine rapid river running past the Springs.

Boating, Shooting, and every variety of amusements are to be had there, and the Board of the first class, and moderate.

Parties leaving Montreal may go by Three Rivers, per regular mail boats; but the most direct way is in taking the steamer "Castore," every Tuesday and Friday afternoon, at 4 o'clock, and next morning they are landed at River du Loup, a distance of only six miles from the Springs, where Carriages are always in waiting.

For particulars, apply to MR. NEIL McINTOSH, Place d'Armes, who will give every information.

Cholera Cured by the Plantagenet Water

I, THE UNDERSIGNED, wishing to give testimony in favor of the PLANTAGENET WATERS, beg to state that, in the year 1832, I was with a number of men lumbering near those valuable and efficient Springs, and that I was taken with the then prevailing disease (cholera) with a number of my men, who were also taken ill of the same disease. We used it, and we were perfectly cured, whilst those who were against it died almost instantly of the prevailing disease.— Moreover, we took down several barrels with us to Quebec in case of a relapse.
I remain, Sir, yours, &c.,
J. S. CAMERON.
St. Lawrence, Jan. 9, 1849.

MONTREAL, March 24, 1849.

I, the Undersigned, hereby certify that the above certificate of Mr. J. S. Cameron, relative to the Plantagenet Mineral Waters, as being an efficient cure in cases of cholera and other sickness, is strictly true, having witnessed its use in similar cases; and, moreover, in the year 1832, the fact above stated having occurred to my knowledge, I take therefore the liberty of recommending the same.

HOTELS, &c.

Russell, Brothers' HOTELS,
QUEBEC, (Late Albion,) AND TORONTO, (Late Beard's.)

RUSSELL, BROTHERS, grateful for past favors, whereby they have been enabled to extend their business to the Ancient Capitals of both sections of the Province, respectfully inform their numerous friends, and particularly the travelling community, that they have made such arrangements for the coming season, as will entitle them to a continuance of the liberal patronage they have hitherto possessed. Their whole study will be to make their patrons feel—whether their stay be long or short—that their Establishments are the embodiment of luxurious comfort and a quiet home.

Both their TORONTO and QUEBEC Establishments are entirely furnished anew, repainted and papered, and refurnished and fitted with new Carpets and Floor Cloths throughout, imported direct to their own order from the manufacturers.

Their LIQUORS, French, German and English Bonded WINES, and Imported ALES and BEERS, &c., have been selected expressly for them by *connoiseurs* in the different articles in Europe.

They have also secured the services of *Chefs de Cuisine* from the United States, who stand unrivalled in their Art, and their entire staff of Assistants, Stewards, Waiters, &c., have been selected solely with regard to their abilities, attention and civilities.

PRIVATE SUITS of SUPERBLY FURNISHED APARTMENTS may be always secured by timely application.

CLARENDON,
NEW YORK.

THIS ELEGANT HOTEL, which is situated on Fourth Avenue and Eighteenth Streets, in the upper and most fashionable part of the City, has been again enlarged during the past year, and is now one of the largest of the magnificent Hotels which have recently been erected in New York. The accommodations are of the latest and most approved character, without regard to expense. There are over Fifty Suites of Apartments, having Baths and other water conveniences attached to each, which makes it perfectly luxurious to the Traveller.

This Hotel has been the residence of the Earl of Ellesmere, Sir Charles Lyell, and all the British and Canadian Commissioners to the Great Exhibition of All Nations in 1853, and of many other distinguished Europeans, and is kept in a manner best calculated to please the English Traveller.

The Directors of the Exhibition of All Nations have decided to continue the same for the year 1854, and the location is nearer to the Clarendon than any other of the first class Hotels. It is situated near the Depots of the Railroads going North and East, and the Coaches connected with the House convey Passengers to and from all the principal Depots and Steamboats.

The whole Establishment, which has been furnished at an outlay of more than one hundred thousand dollars, will be kept in a manner that, the Proprietor hopes, will meet the views and ensure the patronage of the English and Canadian Traveller.

OCEAN HOUSE RE-OPENED.

The subscriber, having made essential improvements in his accommodations at the "OCEAN HOUSE," (Cape Elizabeth,) respectfully gives notice that he opened said House for company on

MONDAY, JUNE 5th,

And will continue open until further notice—except on SUNDAYS, on which day it will be positively closed to all visitors.

Since its close last year, the subscriber has further improved his premises, so that the comfort and convenience of his visitors will be very much enhanced.

The well-known location of the House, on the Southern verge of Cape Elizabeth, with excellent fishing grounds, a full view of the Islands, and the range of the sea air, and ample view of the Ocean, as far as the eye can reach, together with a hard sandy beach, of a mile or more in length, for rides, render it as lovely a resort for pleasure parties, invalids, or permanent boarders, as can be found in the whole country.

The House will be conducted on strict temperance principles, and nothing will be allowed in its connection which shall not be satisfactory to the most refined taste.

Grateful for past favors, the Proprietor re-opens his House, confidently trusting to satisfy his numerous friends by his constant efforts to please them.
J. P. CHAMBERLAIN.
Cape Elizabeth, June 2, 1854. 90

THE OCEAN HOUSE,
ON RYE BEACH,

WILL BE OPENED on the 12th of June, for the accommodation of permanent and transient visitors. It is not necessary to describe the extent of this establishment, or its attractions, as it is well known throughout the Canadas, and has always had the patronage of the first people in the country. The Proprietor is constantly making improvements in the Hotel, and no expense or pains will be spared to make this the best Watering Place in the World. A beautiful Evergreen Grove in rear of the Hotel, will be known as "Greenwood Grove," is about to be greatly improved, and connected with the House, which stands within two minutes walk of the finest beach and the finest Surf Bathing in New England. Travellers from Canada by way of Concord, will stop at the Greenland Depot, on the Portsmouth and Concord Rail Road. There two very large three-story houses are now being completed for the accommodation of Boarders, owned by O. B. Philbrook, Esq., the other by Car Levit, Esq. They can accommodate over one hundred persons.

UNION HOUSE,
Opposite Union Railroad Depot,
ALBANY STREET.
TROY, NEW YORK.

THE undersigned has FITTED UP and OPENED for the reception of the travelling public the above named HOTEL. The building is entirely new, and will amply accommodate two hundred guests. It has been furnished elegantly throughout, regardless of expense, and it is not wanting in any of the comforts or conveniences which make up a FIRST CLASS NEW YORK HOTEL. And it is designed to render the Tables, Attendance, &c., in all respects equal to those establishments. The House is situated directly opposite the south end of the new Depot of the Union Railroad, and within a few steps of the same. Passengers need have no apprehension of being left by the Cars.

☞ Porters at all times in attendance at the Depot, to receive checks and to convey baggage to and from the House, and save delay.

While it will be the aim of the Subscriber to deserve, he hopes to receive a share of the Travelling patronage.

NOTICES.

GOVERNMENT EMIGRATION DEPARTMENT.

PARTIES desirous of bringing out their friends from Europe are hereby notified, that the Chief Agent for Emigration has received the sanction of the Provincial Government to a plan for facilitating the same, which will obviate all risk of loss or misapplication of the money.

Upon payment of any sum of money to the Chief Agent, a Certificate will be issued, (see annexed form), at the rate of Five Dollars for the Pound Sterling.

This Certificate will be available for transmission, and will secure the parties holding the same passage by vessels from any port in the United Kingdom, or from Bremen and Hamburg, bound for Quebec.

Parties in Western Canada will be furnished with the necessary Certificate, on application to A. B. HAWKE, Esq., the Chief Emigration Agent at Toronto, or to the undersigned at Quebec.— They may also at the same time arrange with this Department for their inland transport to any point on the line of steamboat or railroad travel nearest to their place of final destination. Application, if by letter, to be post-paid.

ALLEGED RIGHTS OF THE CHURCH OF ROME IN MATTERS SECULAR.—The members of the St. Louis (R.C.) Church at Buffalo, as many of our readers may remember, have long been in violent issue with the Catholic Bishop of that city, in consequence of their refusal to convey to him, in absolute right, the church itself, together with the extensive and valuable lot of land on which it stands. Another subject of dissatisfaction between the Bishop and the congregation has, also, for some time existed, connected with the Bishop's appointment of a priest to the church, who coincides with his Lordship, and, consequently, dissents from the course pursued by his flock. The main difficulty, however, is that relating to the property belonging to the congregation, and held by their trustees. The Roman Catholic ecclesiastical authorities in the United States having decided in favor of the Bishop's claims, these trustees appealed to the Pope, who intrusted the decision of the case to Mgr. Bedini, during his late visit to this continent. His decision was also in favor of the Bishop. No action, however, had been taken in the matter, until a few days ago, when the trustees publicly announced their determination to refuse obedience to the decisions of the Church, and to retain possession of the property in question; whereupon, the Bishop has put them under the ban of the Church, by issuing the following sentence of excommunication—which we find published in the *Buffalo Sentinel*:—

Whereas the Trustees of St. Louis Church, though frequently warned of their un-Catholic proceedings, and duly notified of impending excommunication, cease not their usurpations against church law and discipline; and whereas the National Council, held at Baltimore, in 1852, declares that all who do what said Trustees have long been doing, are, by the fact, under the sentence of excommunication, pronounced by the Holy Council of Trent against such transgressors of church discipline, and whereas the said Trustees did themselves appeal to Rome, and the Holy See send a Nuncio to decide that case, who judged and decided that the Trustees were wrong, that the Bishop was right, and that "he could not have acted otherwise than he did." Whereas, then, the Nuncio exhorted the refractory and the Trustees to obey their Bishop, and said: "The congregation of St. Louis church, by adopting the course indicated, which alone is just and indispensable, will give a noble proof of faith and charity. But if they refuse, I can only see in them persons faithless to their duties, who can never be received as obedient sons of the Church of God." The learned Nuncio ending his mission by those words of his last letter to the Trustees:

"Now, then, it becomes my duty to say that your answer is truly painful, especially to an envoy of the Holy Father, to whom you referred your case. The sad conviction forces itself on me that you disregard altogether Catholic principles, consequently, that if you persist, it only remains for me to deplore the sad condition in which you placced yourselves in the face of the church; but the responsibility rests on yourselves."

The same learned and pious Nuncio writing to the Bishop, says of the Trustees and of their abbettors: I consider them as not being Catholics at heart, and, Right Rev. Sir, should your Episcopal ministry inspire you to declare so, in order that good Catholics may know who are their brethren and who are not, and that those who are now led astray may no longer be deceived as to right or participation in the benedictions and benefits of the Catholic church, I leave it to your discretion and to your holy inspirations. Finally, whereas the Holy See has since approved the judgment of the Nuncio, though sad and reluctant, the Bishop is bound to fulfill his duty. Alas! an article which the Trustees have just published in the public papers, boasting amid many untruths of their determination never to comply with the decision of the Holy Father, renders this sad duty more imperative.

I then declare the said Trustees of St. Louis Church in Buffalo, to wit: Messrs. Martin Roth, Alex. Allenbrand, Michael Mesmer, Jacob Wilhelm, George Fisher, Nicolaus Ottenot, J. P. Munschauner, to be excommunicated with the major or greater excommunication, and, through the authority given to His Church by Almighty God Father, Son and Holy Ghost, I do hereby, then excommunicate them; declaring, further, that all who may henceforward accept the office of Trustee in St. Louis Church to continue the present unholy opposition to the church discipline, will ipso facto, that is, by the very fact, incur the same major excommunication.

Pray for their conversion, that they may return to Catholic unity, and that their souls may be saved in the day of judgment.

Given in the Feast of the Octave of Corpus Christi, 22d June, 1854, from our residence in Buffalo.

† JOHN, Bishop of Buffalo.

THE PILOT AND ITS X.-X.-EDITOR.—The ministerial organ says on Saturday:—

For Montreal, it is stated in yesterday's *Gazette* that "Mr. Bristow has received the nomination of the Irish Catholic Electors." This is not correct. No step has been taken by that section of the constituency to determine who should be elected, but it is certain that Mr. Bristow, who has been canvassing amongst them for the last eight years, relies upon reaching Parliament through their votes, and is availing himself of every means to secure success. For instance, he has been canvassing on the Anti-Ministerial view of the Reserve question, in order to obtain the support of a portion of the Irish party, while he is of course prudently silent on the question with the more liberal class (cunning Billy Bothsides!). We hear that he is likely to obtain the Postmastership of Quebec, and to leave his friends of Montreal, as well as the Clergy Reserves, to be dealt with as chance may dictate,—present appearances are against his being elected.

With the Irish officer, when asked his opinion "under difficulties," we are "always unanimous"—we "think so, too!"—and would strongly recommend the aspiring Billy not to lose his chance of the Postmastership of Quebec. Time will assuage the grief and dry the tears of his friends in Griffintown; and as to the Clergy Reserves—let them take *their* chance and, what ere befall, £500 a-year will surely prove a "sweet oblivious antidote" for all his sorrows.

FROM NEW BRUNSWICK, &C.—PROTECTION FOR THE FISHERIES.—DESTRUCTIVE FIRE.—Late New Brunswick papers announce the following force for the protection of the fisheries this season:—Brig Daring, 12 guns, Commander Napier; steamer Buzzard, 6 guns, Commander Dobie; Canadian steamer Dorris, 2 guns; Government schooner Daring, 2 guns, and two hired schooners; the Alice Rogers, and Sarah Adeline, of 2 guns each. The Nova Scotia Government advertises for another schooner.

A fire occurred at St. John's, Newfoundland, on the 2d ult., which destroyed 60 tenements.—No further particulars given.

POSTMASTERSHIP AT THREE RIVERS.—We learn that Captain Robertson, after nearly quarter of a century's tenure of office, during which time his zeal and regularity secured him the respect of the public and the uniform approbation of the department, has retired from the Postmastership of the ancient Borough of Three Rivers, in which he has been succeeded by Charles R. Ogden, Esq., son of Mr. Sheriff Ogden. We wish our old and valued friend every happiness in his well-earned retirement; and we have pleasure in admitting that a better selection of a successor to him could not have been made. Mr. Ogden has for some years assisted Captain Robertson in the performance of his duties, and is, in every respect, competent to assume the entire charge of the office.

THEATRE ROYAL.—Sheridan's comedy of "The School for Scandal" will be given to-night, for the first time this season. We know that our play-going citizens have been wishing to see this elegant comedy, and we are certain that it will attract a full and fashionable house.

THE INQUIRER.—We have received the first number of this semi-weekly, published at Three Rivers, and our new contemporary makes an excellent first appearance. We copy from it the following

NEWSPAPER STATISTICS

Newspapers published in Lower Canada in the year 1836—19. Of these 5 were French and 14 English. Population of Lower Canada in 1836, was 571,930, being 30,000 inhabitants to one newspaper.

Papers published in Upper Canaha, in 1836, were 31. Population of Upper Canada in 1836, was 336,469, or one newspaper for every 10,000 inhabitants.

Number of French and English papers published in Canada East in 1854—43. Population of Canada East in 1851, 890,261, being one paper to 20,000 inhabitants.

Papers published in Canada West in 1854—114. Population of Canada West in 1851, 952,004, being one paper to 8000 inhabitants.

French papers published in Canada East in 1854, were 11. French population of Canada East in 1851, were 669,528, being one newspaper to 60,000.

Population of Canada East other than French Canadian in 1851, was 220,740. English newspapers in 1854—32, being one paper for nearly 7000 inhabitants.

Total of papers published in both sections of the Province in 1854, 157.

Populations of both sections in 1851, 1,842,205, being one newspaper to 11,099 inhabitants.

We have rejected fractional parts as unnecessary, and not affecting the deductions arising from a comparison of the foregoing numbers.

CANADA EAST.

1851....French origin, 669,528 } 1 French paper
1854....French papers, 11 } to 60,000.
1851....British origin, 220,744 } 1 English paper
1854....British papers, 33 } to 7000.

We have no means of ascertaining the relative proportion of the French and English population of Canada East for 1836, but if we assume that the French population was to the English as 3 to 1, which is nearly the present proportion, we shall have the following numbers:—

CANADA EAST.

1836..French origin, 428,948 } one paper to
" ..French papers, 5 } 85,789.
1836..British origin, 142,982 } one paper to
" ..British papers, 14 } 10,213.

In 1836 the proportion in Canada East that the newspapers bore to the inhabitants, was 1 to 30,000. In 1854 it is 1 to 20,000.

In 1836 the proportion in Canada West that the newspapers bore to the population, was 1 to 10,000. In 1854 it is 1 to 8,351.

In 1836 the proportion of the French papers in Canada East to the French population, was as 1 to 86,000. In 1854 it is as 1 to 60,000.

In 1836 the proportion of English papers to the English population, was as 1 to 10,213. In 1845 it is as 1 to 7,000

The most forcible fact which these statistics present, is that the proportion of the inhabitants of both sections of the Province of other than French origin to the newspapers, is nearly the same; being in Western Canada in 1836, one paper for 10,000 inhabitants, and in Eastern Canada for the same year, one paper for 10,213. In 1854 the numbers stand decidedly in favor of what may be termed the population of British origin, in Lower Canada (we use the term British to avoid prolixity as we know that other elements than those purely British enter into the composition of this class,) while the people of Canada West have increased the proportion by less than one fourth, the inhabitants of Canada East of British origin have increased theirs by nearly one-half, being an advance over Upper Canada of twenty-five per cent in our favor. We regret that when we come to a comparison of both sections of the Province, in the gross, the figures do not give so favorable a result, for the upper section gives a proportion of one paper to 8,350, while the lower section stands 1 to 20,000. But while the former gives an increase of one fourth since 1836, the latter increases her proportion since the same time one-half, or fifty per cent, but compared in the gross, Western Canada will be as 2½ to 1 against Lower Canada.

In this section of Canada the comparison of the French population with the British, will result much in favor of the latter. In 1846 they (the French) possessed one paper to 86,000, they have since increased the proportion, and are now as one paper to 60,000 inhabitants, while those of British origin are represented by one paper to 7,000. Compared with each other, the proportion in favor of the latter will be nearly as 9 to 1 in 1854, their progress as represented by the newspapers, will be, British, 3 1-17, French 3¼.

We intend hereafter to refer to this subject in connexion with the system of Public Education in this portion of the Province. There must be a radical defect, and of magnitude, in some of our institution, that so great a discrepancy exists between those of French and other origins. The multiplicity of newspapers certainly cannot be taken as an absolutely correct guage to ascertain the progress or intelligence of the people, but it may be adopted as a tolerably correct standard of approximation to the truth.

We know of no physical or intellectual defect in those of French Origin, to hinder them from marching in the very front rank of progress, but we can easily perceive a difficulty restraining them from taking this position in our very defective and badly administered system of education.

LOYAL ORANGE ASSOCIATION OF BRITISH NORTH AMERICA.—The Toronto *Patriot* gives the following as the result of the Election of Officers for the Grand Lodge of British North America, held at Brantford on the 21st ultimo:—

Right Worshipful Grand Master—Ogle Robert Gowan, Esq.; Deputy Grand Master—Richard Dempsey, Esq.; Junior Deputy Grand Master—G. B. Rosseaux, Esq.; Deputy Grand Master for Canada East—C. R. Bedwell, Esq.; Grand Master for New Brunswick—S. H. Gilbert, M.P.; Grand Treasurer—Thomas Armstrong, Esq.; Grand Secretary—Geo. L. Allen, Esq.; Grand Chaplain—Rev. V. P. Meyerhoffer.

There were 188 voters present, and never was a Grand Lodge Meeting of the Orange Association of British North America better attended or conducted with more good feeling and unanimity of sentiment, than this present meeting.

The increase of Orangemen during the past twelve months, was reported to be *twelve thousand.*

FIRE IN GRIFFINTOWN.—On Saturday afternoon last, a fire broke out in the premises of Mr. Wright, Coachmaker, Nazareth Street, Griffintown. The surrounding houses were principally built of wood, and soon caught fire. A good supply of water was soon obtained, and, with the assistance of our gallant fire brigade, the progress of the fire was arrested after destroying six or seven houses.

DISTURNELL'S RAILWAY AND STEAMSHIP GUIDE; giving the Railroad and Steamboat Routes, Fares, &c., through the United States and Canada; also the Ocean Steamship Arrangements, for 1854.—We have to thank the publisher, Mr. Disturnell, of New York, for a copy of this neat and useful traveller's hand-book. Besides every information connected with the most frequented routes of travel, in Europe as well as in North America, it contains an extremely well executed map of either continent, with all the steamboat and railroad lines marked upon them. The price is extremely moderate, and it can be obtained, we believe, at all the principal booksellers in Montreal, and other cities in Canada and the United States.

When the great Napoleon used to beat the Russians in pitched battles, and there was no mistake about it, the Russians always sang *Te Deum* as if they had won victories. Napoleon, when he heard of this, said, "The Russians are great rogues; they not only lie to man, but they also lie to God."

THE TEN THOUSAND IN CHANCERY.—This case was closed in the Court of Chancery at 1 o'clock yesterday. By special appointment the judgment will be given on Saturday, at 10 o'clock. Our readers will remember that on Tuesday the Chancellor desired Mr. Gwynne to direct his efforts in his closing speech towards clearing up a this to the satisfaction of the Bench. We will publish a *resume* of the arguments to-morrow.—particular point.—*Toronto Globe, 29th June.*

HORRID MURDER. In the English papers by the Atlantic, we find full accounts of a horrid murder of her six children, by a woman named Mary Ann Brough, at Esher. They were all between two and eleven years of age. The woman was about 48 years of age, and the fatal deed was without doubt committed in consequence of the discovery of her infidelity to her husband,. The children, each one of whose throats was cut by a razor, were in bed and appeared to have been murdered in their sleep. The murderess afterwards cut her own throat, but did not dangerously injure herself. She confessed the horrid deed, in the following words:—"It was twelve o'clock (at night) when I first commenced. I first went to the bed where Georgiana, Carey, and Harry slept. I first killed Georgiana with one cut, then Carey, but on touching Henry he awoke, and said, 'O, don't mother.' I stopped for a moment, when I then said, 'I must.' I then cut his throat, but in the first stroke I missed, and cut his chin (there was a frightful wound discovered on the chin). I then went to the bed where Billy slept. He was lying on his side asleep, but I turned him over without awaking him, and cut his throat. I then went to the next room (all the bedrooms are on the same floor), where Harriet and George slept. I cut Harriet's first. She struggled a good deal, and gurgled in the throat a good deal. I then killed George; after which I cut myself." During the narrative the unfortunate creature seemed to feel deeply, especially at that part where she described Harry's speaking to her.

LAW INTELLIGENCE.

SUPERIOR COURT,

WEDNESDAY, June 28.

PRESENT—Mr. Justice DAY (the President);
" " " SMITH;
" " " MONDELET.

Continued from our last issue.

BERTHELOT *vs.* TURCOTTE—(Mr. Justice SMITH.) This was an action to have a judgment declared executory against the husband, which had been obtained by the plaintiff against the wife, who was *commune en biens* with him. The facts were these:—Désilets and wife were indebted to the plaintiff. After the death of her husband, Mde. Désilets married the defendant, Turcotte, and plaintiff brought his action against her husband simply to have him authorise her to *ester en jugement*, taking conclusions against her only for the debt. Judgment was obtained against her but could not be enforced, because all the property she brought to the marriage fell into the community, and could not be abstracted by a separate execution. The plaintiff now sought to enforce the judgment against the husband as master of the community. The defendant pleaded, by demurrer, that the plaintiff could not take the judgment rendered against the wife during their community, and have it declared executory against him. The question is raised whether the judgment obtained against the wife during her marriage, for a debt contracted prior to the marriage, can be enforced against the husband? In my opinion, which differs from that of the majority of the Court, the husband is liable in its original shape, whether judgment is obtained for it or not. The objection of the demurrer is, that it was obtained after the marriage, and cannot be declared executory. Denisart, in speaking of the *Exécution du judgment*, p. 190, says: "Wherever a judgment has been obtained against a married woman, *feme sole*, or widow, or she is in any way liable for debt, the proper action is to have the judgment declared executory against the husband." He becomes liable by marriage for all her debts contracted previous to the marriage, and why, if judgment is obtained upon them after marriage, should it not be declared executory? As to the peremptory exception of the voluntary renunciation of his claim against the husband, the demurrer to this was maintained. My opinion is, that the action brought is the only proper one: the husband being called in, it is a *chose jugée* as against him, and he cannot call it in question; he is bound by it, though no party to it. The demurrer to the declaration ought to have been dismissed with costs.

Mr. Justice DAY.—The question was raised on a *defense en droit*, and the point presents itself in simple form. The defendant married a lady indebted to the plaintiff before the marriage: the action is brought during the marriage, and demands that the husband do authorize her to plead, and that judgment be given against her alone. She being *commune en biens* when the judgment was obtained, it could not be executed against the wife's property because it had become part of the community. There is no doubt of the husband's liability for her debts contracted before marriage, because there is no stipulation in the marriage contract to the contrary. A judgment obtained against her previous to her present marriage could be declared executory against the defendant: but the judgment obtained against the wife is after the marriage, and no act of hers can bind the community. The plaintiff has still his remedy upon the original title of debt: there is none on the judgment. A woman can never bind herself while *commune en biens*, and must wait until the dissolution. The action is dismissed. As to the other point, on the exception that the plaintiff released the defendant in pursuing the wife alone, the Court was not with the defendant.

Mr. Justice MONDELET.—*Le judgement ne peut avoir aucun effet contre le docteur Turcotte.*

LAVERDURE *vs.* BEAUCHAMP.—An action for verbal slander and assault and battery; the exception of *commutation* in this case was maintained.

LEFEBVRE *vs.* BYERS & BOSTON—*mis en cause.* Upon a rule to show cause, why an attachment for contempt should not issue, for having refused to pay over a sum money. The ruling was the same as in the case of Irwin *vs.* McPherson, that the rule could not be made executory at once against the new Sheriff, and the rule was accordingly discharged.

DRUMMOND *vs.* ——— Upon looking into the affidavits the right to an *expertise* was found to remain untouched and the motion for it granted.

CARROLL *vs.* SYKES—An action by an Engineer against a Contractor for work on the Montreal and Bytown Railroad; no evidence sufficient had been made by plaintiff, and the action was dismissed with costs.

M'FARLANE *vs.* RODDEN.—After a great deal of labor and examination of accounts, the Court had come to a decision as to the balance due. The action was for a sum of £950. The admission of the defendant as to the balance the Court was not disposed to treat as unqualified. The points were a loan of money a transfer of moveables, consisting of axes and cord-wood as security, which plaintiff was to realise and take five per cent on the sale of the axes, but had no right to charge on the wood, so that the five per cent. on that must be deducted. The Court considered the plaintiff entitled to judgment for £375, with interest from the 31st March.

WORRALL *vs.* MCFARLANE.—An action for damages for illegal issuing of a writ of *saisie arret.*—No proof of damages, and defendant had shewn a reason. Action was dismissed.

ARCHAMBAULT *vs.* NEIL—There was a difficulty in this case as to whether the father or the son brought the action. It was to recover a piece of ground under a possession of thirty years, apparently by the son, *à titre universel*, as representative, and invoking the lapse of time during his father's possession. The son appears, and shews his father to be alive, but brings a deed of donation from the father. Without going into the merits, the action was dismissed.

Exparté MCDOUGALL for ratification and divers opposants.—This was upon contestation of the opposition of J. B. Torry; the opposant showed no right of mortgage, which was clearly requisite, and the contestation was maintained. The opposition dismissed.

BROWN *vs.* HOLT.—This was a *saisie revendication* by the owner of a piano in the hands of Messrs. Penn & Hogan, proprietors of the Saint Lawrence Hall Hotel. The action was the ordinary one of revendication. The plea was that the defendants, being hotel-keepers, were entitled to the privilege of the Custom of Paris granted to hotelliers upon the chattels of their lodgers. It remained to be considered whether the *lien* thus allowed existed in the present case. The proprietors had leased the room for one day, for the performance of a concert, and not as in the case of a traveller. The lessee goes to the pianist, and leases a piano forte, but the plaintiffs never part with the possession; they have their agent always present, who unlocks the piano at the request of the performers, and keeps possession of the key. The lien by law for lodging hire, is in the case of a *meuble* being brought *pour garnir la maison louée*, to remain there and it then becomes a pledge for the rent. But it is different where persons take property into a house *momentanément* for a special object. It could never be supposed that a musician would bring a company of others with their instruments into a house with the intention of pledging both his and their instruments. Troplong shows clearly the distinction between things brought in to *garnier* and those for a specific object. Pothier, in his louage, also No. 278 explains it. The exception is dismissed with costs and the *saisie revendication* declared good.

Mr. Justice MONDELET.—La faveur de la coûtume est dans le cas des pélerins, ceci n'en était pas un et il n'y a pas de privilège à l'Hôtellier pour ce dernier, c'était un artiste qui doit être encouragé plutôt.

A question respecting damages for illegal seizure having been put by the Counsel, the Court declared itself disposed to give £5 damages.

The following cases are fixed for trial by Jury: Paradis *vs.* Marquin for the 11th September, jury to be struck on the 4th. Gillespie *and al, vs.* Holland for the 13th September, jury to be struck on the 6th.

ARCAN *vs.* THE MONTREAL AND NEW YORK RAILROAD COMPANY.—This was upon a motion by defendants for a new trial, the grounds of which might be resolved into three points:—1. That the plaintiff was not found to be the personal representative of the deceased James Hughes. 2. That the verdict was against evidence. 3. That the Judge misdirected the Jury. Upon looking into the will of the deceased, there was no doubt as to the plaintiff's being the representative of the personal. The non-personal was not mentioned it was true, yet it was necessarily included in the term representative, though it would be otherwise of the real. She is the universal legatee—the substantial bequest to her is universal. Upon the second point the Court is also not with the defendants: the only part of the evidence, which suggested any doubt, was that of Hugh Brodie, when he stated that the deceased might have had time to turn back and place his horse in a place of safety. But when the position of the deceased was contemplated—an aged man, upwards of 80, driving a young and spirited horse at the rate of nine miles an hour, comes up to the road, and, while about about crossing it, is told, by the guard of the company, to keep back—it was evident that he had not observed that the gate on the opposite side was closed, because he had partly crossed when he received the warning; by a strong effort he succeeded in forcing back the horse some ten or twenty yards from the road. The suddenness of the check, and the natural confusion which ensued, the increased terror and passion of the horse would have discomposed the energy of most men. We think, therefore, it is impossible to say that he was so out of danger as to render the defendants' road the remote cause of the accident, or that he could have removed to a place of safety, and continued there. However, this doubt was one for the minds of the Jury to sift; they did so, and did not consider it sufficient to alter the effect of the general facts. As to the third point, the Company had clearly no right to erect a barrier by statute; and if they were told to do so by the Road Commissioners, it was to erect two barriers, or none; if they say that they were engaged in the erection of the second, they were during the interval of non-erection liable for any accident occasioned by reason of it. The Judge's ruling, therefore, was correct, and the motion is refused.

Mr. Justice MONDELET.—The Jury are the best judges, and we should not interfere with their verdict. Although not present at the trial, the only cause of the mishap appeared to be the not putting up both barriers. The danger is so imminent upon railways, that I should consider it always my duty to support the verdict of a jury, whenever there appeared the slightest degree of negligence on the part of the Company. This is the rule in the United States, where such accidents are very frequent, and I may say also in England.

CORPORATION PROCEEDINGS.

(*Reported for the Montreal Herald.*)

FRIDAY, June 30, 1854.

PRESENT:—His Worship the Mayor; Aldermen Larkin, Whitney, Leclaire, Homier, Whitlaw, Atwater, Grenier, and Trudeau; Councillors Hibbard, Ricard, McGrath, Lyman, Day, Coursol, Bleau, Campbell, Valois, McCambridge, Adams, Cuvillier, Tiffin, and Labelle.

After the minutes were read, HIS WORSHIP stated that a large number of sheds had been reserved in the Quebec Suburbs, in the event of extraordinary sickness, and people had been allowed to occupy them temporarily, on the understanding that they were to vacate immediately upon notice. Notices had been posted up to have them vacated at the furthest by the 30th June; that he had asked two members of the Council to accompany him, and on their visit they discovered that no arrrangements whatever had been made to vacate. He thought that immediate steps should be taken tonight to order the police down on the morrow and have the sheds cleared. In the few cases of cholera which have occurred, he was happy to state that no connection could be traced between them and the emigrants who had arrived in port, and this proved what is now generally established all the world over, that the disease was not contagious. Those persons who were cautious and temperate were never attacked, and only those who by the use of improper food and large quantities of water, and who committed other excesses, suffered. He made these remarks that the public might know that they of the Council were zealous in watching over the sanitary interests of the city.

Mr. DAY.—The matter is certainly not pressing at this moment, and does not call for any motion just now. It is really well known that there is not a vacant shed for the poor emigrants to shelter in during their transport to the West. I have written to the Agent to know if he has received any instructions from Government, and he says not. It would be advisable to write to Quebec, and ask if it is the intention or not of the Government to provide any; and I, therefore, move, seconded by Councillor, Ricard, that he sheds or places of temporary shelter having been provided within Montreal by the Provincial Government for destitute emigrants arriving here, whereby the poor creatures are obliged to remain on the wharves, exposed by day to the burning sun, and at night to the inclement dews and noxious vapours, that the City Clerk be instructed to communicate with the Chief Emigration Agent, Mr. A. C. Buchanan at Quebec, to enquire if it is the intention of the Government to immediately provide sheds necessary for their temporary shelter.

Alderman GRENIER begged leave to ask of the Mayor whether persons afflicted with cholera were to be removed at once to the Quebec Suburb Sheds. The Mayor stated that he had received a letter from Mr. Redpath, one of the Governors of the General Hospital, announcing that the Governors refused to admit any more cholera patients into the Hospital, since the cases which had been already admitted there within the last few days had been fatal, and the continuance of it would render ineffectual the general utility of the institution, and endangering the health of the present inmates. Upon this letter which came to the Council room when he was present in the morning with some medical brethren, he would say that not one of his profession connected with the Hospital, but regarded with dislike the determination of the Governors. He saw no reason why they should refuse to admit patients when that was the very design of the institution. There was a sum allowed them for years by the Emigrant Department on behalf of Emigrants, and a further amount of £1,000 of public money. In all institutions similar, all the world over, cholera patients are received as other patients, except in extraordinary seasons of disease, as in Newcastle on one occasion. He did not think that the cholera could be more fatal than that of 1849, if people were judicious. The writer of the letter was not a medical man, and *he* could say that there were wards in the Hospital which might be occupied by cholera patients, without at all interfering with the other wards, and hoped some gentleman would move on the subject.

Mr. LABELLE.—They have already sent patients to the Sheds in the Quebec Suburbs, I understand. I do not wish them to be put there, tho' I have compassion for them. I believe the city will become tainted if the sheds are not placed somewhere behind the city, and the Council should take measures to prevent so public a quarter from being used in this way.

Mr. COURSOL thought the remarks of the last speaker were just.

The Mayor protested against the removal of cholera patients; in cases of yellow fever or other similar diseases it might be done without danger, but in this, too often the transport necessary sometimes was found to have a fatal effect and he assured them as a medical man that the locality should be as near the city as possible.

Councillor RICARD thought fear was often the beginner of the disease and a too constant exposure to its effects might prove disadvantageous.

Mr. WHITNEY said he thought this general conversation ill advised. He was not for retreating from danger if there was any, but he thought the report in the newspapers of such a conversation might have a prejudicial or alarming effect. He did not think there was the slightest reason for alarm. The motion was then put and carried.

Mr. RICARD asked if the time for payment of those who had purchased sheds had not expired, and if it would not be better to notify them that they must vacate.

The following Petitions were then read:—

From Alexander Ouimet not to pay certain taxes.

From William Paterson not to be taxed as a Livery stable-keeper.

For the construction of sewer in St. Lawrence Main Street.

From C. A. Leroux, Montcalm Street.

For lamps in Lagauchetière Street, between Saguinet and St. Lawrence Street.

From Arba Fitts complaining that he had been taxed as a Baker in College Street, instead of his brother Mr. Clark Fitts.

From Mrs. Mary H. Arkis, complaining of water in her kitchen from the creek running behind the property of Mr. Porteous.

A letter from Dr. Fenwick, complaining of a pool of stagnant water in Craig Street, on property belonging to Mrs. Donegani.

From Proprietors in St. Germain Street, to be paid the price of the property taken to widen that Street.

From Allan Carmichael, Contractor, alleging that he had entered into a contract with the Messrs. McDonald for a section of the Aqueduct, for which he was to have £87 10s for every £100 received by them, they retaining 12½ per cent. profit; that he had completed his work and paid out £3280, and only received from the Messrs. McDonald £1977, and prayed for a portion of the indemnity which he understood was to be granted the former. Accompanied by an affidavit.

From Louis Barré, sub-contractor, for timber with Carmichael who was unable to pay him, because McDonald refused, and hoped the Council would grant Carmichael's petition. Also accompanied by affidavit.

Moved that this Report be disposed of now; in amendment to refer to special committee,—cries of nay.

Mr. ATWATER said they had nothing to do with sub-contractors; they could not listen to the grievance of every petitioning contractor whom the Messrs. McDonald may have engaged without their consent.

Mr. DAY thought it a censure on the Finance Committee to take up the petition here to-night.

Mr. MCGRATH could not see why the little grievances should not be redressed as well as the greater ones.

The motion for the discussion was then put:—For the discussion, 6; against, 14; lost.

REPORTS.

The Police Committee reported that by-law No. 230 ought to be repealed, and 4s 6d a-day, instead of 3s 9d, be granted to the Constables of the Police force upon their petition.

Moved by Councillor COURSOL, seconded by Councillor RICARD that this report be adopted.

Mr. WHITNEY thought the question, which was one of money, ought to have come under the general expenditure for the year of the Finance Committee. He should like to know what such an increase would amount to. He had no wish to oppose it, if for the interest of the city, but considered it too hasty to increase the expense by some £675 per annum.

Mr. HOMIER thought the city could not afford it, and did not require it. He knew workmen working for 3s 6d a day, and supporting a family upon that, and if the policemen were not content with the present pay, others could be got willing to accept their places.

Mr. DAY said the report was not in order. No. 5 was on the list next, and now they were at No. 12. He spoke of the augmentation recommended by the Committee to the pay of Detectives Coulon and McCann. The yeas and nays being taken, twenty voted for the motion, and only one against it.

No. 5, before alluded to, was then read and adopted.

The report of the Water Committee upon the petition of the contractors McDonald was read and discussed.

Moved by Alderman ATWATER, seconded by Alderman LARKIN, that this report be now adopted. (Cries of "Nay.")

Mr. WHITLAW here presented a written protest, containing a list of objections to the reception of the report, and begged it might be read. (Cries of "Too late.") We have inserted the protest at Mr. Whitlaw's request. It is signed by himself and Mr. Alderman Grenier. The document, however, was not read at the Council.

PROTEST.

We, the undersigned members of the Water Committee, dissent and object to the proposal to grant a compensation or bonus of £12,437, Cy., to Messrs. D. A. & J. MacDonald, over and above their contract price for constructing the Aqueduct, &c., of the Montreal Water Works.

We object to the granting of any sum of money to Messrs. D. A. & J. MacDonald, beyond their contract price, or that may not be in terms of said contract, as any such grant would be a total infringement of the law of contracts, doing away with all proper competition for the future; and leading to endless embarrassment in all other contracts of the Corporation of Montreal.

We further object to said grant on the grounds that it is the duty of every contractor, when in making out his estimate, to make proper allowance for advance in cost of labor and other contingencies connected with his work, and the contractor that makes such calculations, must then run the risk of a profit or loss in the same manner as any merchant; we likewise object to this grant, as wages have, at an average, never exceeded Messrs. MacDonald's calculation of 5s. per day, and many of their sub-contracts have been taken at greatly reduced rates from their contract with the corporation; further, if the increased rates of labor, material, &c., are to be taken into consideration, the corporation will be called, to allow equally on all their other contracts now on hand, more especially that for the Water Pipes, when, since the time of making the contract, pig-iron has risen upwards of 30s. stg. @40s. cy. per ton, equal to an allowance on that contract, of £

In conclusion, we entirely object to any allowance beyond the contract price being granted to Messrs. MacDonald, as their contract is not completed, and it is uncertain whether all the work yet executed has been done in a satisfactory manner, and should Messrs. MacDonald have any claim to make upon the corporation, they have no right to make such until their contract has been completed in a tradesmanlike and satisfactory manner; and further, it is better for the corporation to submit to any present loss and inconvenience caused thereby, than to pay additional sums of money without any further certainty of the proper and due performance of the work, beside the involving themselves in constant embarrassment with all their other present and future contracts, by the adoption of such a precedent.

We, therefore, dissent and object entirely to any payments of money being made to Messrs. MacDonald, not according to terms of contract, all which is respectfully submitted.

JOHN WHITLAW,
JOS. GRENIER.

MONTREAL, June 20, 1854.

Mr. ATWATER, on behalf of the adoption of the Committee's Report, stated that he was very desirous that the construction of the aqueduct should be completed: most citizens now wished it had been begun a year or two sooner—property would then have been saved sufficient to pay double the costs of the work. But now the great calamity had passed, and, if it had not happened, the works would never have been commenced, perhaps, for it required such strong arguments sometimes to stir up men to action. The work was given out, and was now half completed. The contractors were chosen not without a view to their respectability, and that of their securities. It was objected at the time that they were strangers, and that we ought to have given it to a citizen; but we were bound to accept the lowest tender, and did so. The contractors had done all in their power, had pushed forward the work with great zeal, and were very sorry now to be obliged to come forward for relief. But they could no longer procure laborers at the same rate of wages as at first, and were in need of supplies to give higher prices. He would not establish a precedent, if it were considered bad; he would say, force them and their securities, if they fail, and if advisable. If, however, it was thought otherwise, it would be desirable to meet their petition, and to grant them the increase which would place them in a level with the Engineer's estimate. After some other general remarks the speaker asked His Worship to read the letter of Mr. Keefer upon the Petition and Report addressed in answer to a request of the Mayor. The letter was read and was favorable to the Contractors giving a list of the tenders for the work, showing theirs to be far below the least of the others and recommended relief.

Mr. MCGRATH thought he should be considered factious in opposing the Report, but he also thought it a duty not to suffer his fellow-citizens to be defrauded. He objected to it, first, because Mr. Keefer had denied him the data he sought, namely, the original and progressive estimates. As an old contractor, he had some experience in these matters, and had taken care to look into the working of the matter to see that all was right. The speaker here went into a long list of figures and statements respecting the works, which we have not space to insert, but the object of which was to show that the contractor had already been well paid, and had made money.—That if, as they pretended, the work was only half finished with the whole of their contract price, how could they finish it with £12,000?

Several speeches were made.

It was moved, in amendment, that the £12,000 should be granted as a *bonus* to the contractors, but withheld until the completion of their contract. The amendment was lost by a majority of fourteen, and the original motion being put, the following was the result:—

For the motion—Aldermen Trudeau, Larkin, Whitney, Leclaire, Atwater; Councillors Hibbard, Lyman, Day, Campbell, Valois, Adams, Labelle, Cuvillier, and Ricard.

Against the motion—Aldermen Homier, Grenier, and Whitlaw; Councillors McGrath, Bleau, and McCambridge. Fourteen for and six against.

The Council then adjourned, it being a half an hour past midnight.

THE CLERGY RESERVES BILL.

(*From the Toronto Leader.*)

The following is the bill which the government proposed to lay before Parliament, for handing over the proceeds of the Clergy Reserve Fund to the various County Municipalities of the Province:—

Whereas by the Act of the Parliament of the United Kingdom of Great Britain and Ireland, passed in the thirty-first year of the Reign of His Majesty King George the Third, and intituled, *An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, intituled, "An Act for making more effectual provisions for the Government of the Province of Quebec, in North America and to make further provisions for the Government of the said Province,"* it is among other things enacted, that it shall and may be lawful for his Majesty, His Heirs, or Successors, to authorize the Governor or Lieutenant Governor of each of the Provinces of Upper Canada and Lower Canada respectively, or the person administering the Government therein, to make from out of the Lands of the Crown within such Provinces, such allotment and appropriation of lands as therein mentioned, for the support and maintenance of a Protestant Clergy within the same; and it was further enacted, that all and every the rents, profits and emoluments which might at any time arise from such lands so allotted and appropriated as aforesaid, should be applicable solely for the maintenance and support of a Protestant Clergy within the Province in which the same should be situated, and to no other purpose whatever. And whereas in pursuance of the said Act, such allotments and appropriations of land as aforesaid, have been from time to time reserved for the purposes therein mentioned, which lands are known to the Province by the name of *The Clergy Reserves;* And whereas by another Act of the said Parliament passed in the Session held in the Seventh and eight years of the Reign of His late Majesty King George the Fourth, and intituled, *An Act to authorize the Sale of a part of the Clergy Reserves in the Provinces of Upper and Lower Canada,* the Governor, Lieut.-Governor, or person administering the Government of the said Provinces, or either of them, with the consent of the Executive Council of such Province, and in pursuance of His Majesty's instructions, to sell and convey in fee simple or for any less estate or interest, a part of the said Clergy Reserves in each of the said Provinces, not exceeding in either Province one fourth part of the Reserves within the same, nor exceeding one hundred thousand acres in either of them in any one year and it was enacted that the proceeds of such sales should, by the proper officers be invested in the Public Funds of the United Kingdom, and the Dividends and Interest of the monies so invested should be appropriated in the manner provided by the said last mentioned Act; and farther, that it should be lawful for the Governor, Lieutenant Governor, or person administering the Government of either of the said Provinces, with the consent of the Executive Council thereof, and in pursuance of his Majesty's instructions, to give or grant in exchange for any part of the said Clergy Reserves any lands within the said Province, of equal value with such Clergy Reserves so as to be taken in exchange for any such Clergy Reserves from any person or person any lands of equal value, and that any lands so taken in exchange for any such Clergy Reserves should be holden by the Crown in trust for the purposes to which the Clergy Reserves were appropriated by the Acts firstly and secondly above cited. And whereas by another act of the said Parliment, passed in the session held in the third and fourth years of her Majesty's reign, intituled, *An Act to provide for the sale of the Clergy Reserves in the Province of Canada, and for the distribution of the proceeds thereof,* other and further provision is made for the ready sale of the whole said Clergy Reserves and for the investment of the proceeds of such sale and the distribution of the interest and dividends on such investments, and of the interest on sales of Clergy Reserves on credit or rents arising from Clergy Reserves demised for a term of years, subject to the provisions that the quantity of the said Clergy Reserves so to be sold in any one year, shall not in the whole exceed one hundred thousand acres, without the previous approbation in writing of her Majesty's Provincial Secretaries of State, and to other the restrictions and conditions in the said act mentioned and imposed; and so much of the act herein first cited as relates to any reservation of land to be made after the passing of the act herein last cited in Upper Canada or Lower Canada, for the support and maintenance of a Protestant Clergy, is repealed: And whereas by another act of the Imperial Parliament passed in the sixteenth year her Majesty's reign, and intituled, *An Act to authorize the Legislature of the Province of Canada to make provision concerning the Clergy Reserves in that Province, and the proceeds thereof,* it is in effect enacted that it shall be lawful for the Legislature of the Province of Canada from time to time, by any act or acts to be for that purpose made and enacted in the manner and subject to the conditions required by the act of the said Parliament passed in the Session thereof held in the third and fourth years of her Majesty's reign, and intituled, *An Act to re-unite the Provinces of Upper and Lower Canada, and for the Government of Canada,* sections thirty-seven, thirty-eight and thirty-nine, in respect of acts made and enacted by the said Legislature to vary or repeal all or any of the provisions of the act herein last above cited for or concerning the sale, alienation or disposal of the said Clergy Reserves, and for or concerning the investment of the proceeds of all sales therein made or hereafter to be made of such Reserves, and for or concerning the appropriation and application of such proceeds and investments, and the interests and dividends accruing on sales on credit of such Reserves, the rent of such Reserves for the time being unsold, and all other the profits of or accruing from such Reserves, and (notwithstanding the said act herein last above cited) to make such other provisions for or concerning the sale, alienation or disposal of the said Clergy Reserves, and such investments as aforesaid and for or concerning the appropriation and application of such Clergy Reserves, proceeds, investments, interests, dividends, rents and profits as to the said Legis ature may seem meet; subject to the proviso that it shall not be lawful for the said Legislature by any Act or Acts thereof as aforesaid, to annul, suspend or reduce any of the annual stipends or allowances which have been already assigned and given to the Clergy of the Churches of England and Scotland, or to any other religious bodies or denominations of Christians in Canada, (and to which the faith of the Crown is pledged,) during the natural lives or incumbencies of the parties now receiving the same, or to appropriate or apply to any other purposes, such part of the said proceeds, investments, interests, dividends, rents and profits as may be required to provide for the payment of such stipends and allowances during such lives and incumbencies. And whereas it is expedient to alter in certain particulars and provisions of the Act thirdly above cited, touching the matters subjected by the Act last above cited to the control of the Legislature of this Province. Be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and of the Legislative Assembly of the Province of Canada, constituted and assembled by virtue of and under the authority or an Act passed in the Parliament of the United Kingdom of Great Britain and Ireland, and intituled, *An Act to re-unite the Provinces of Upper and Lower Canada and of the Government of Canada,* and it is hereby enacted by the authority of the same, that the monies arising from the Clergy Reserves in Upper Canada shall continue to form a fund to be called the Upper Canada Clergy Reserve Fund, and the monies arising from the Clergy Reserves in Lower Canada shall continue to form a fund to be called the Lower Canada Clergy Reserves Fund.

Each of the said funds shall continue to be divided into two separate funds, the one to be called the Upper (or Lower) Canada Clergy Reserves Investment Fund, and the Upper (or Lower) Canada Clergy Reserves Distribution Fund.

The Clergy Reserves Investment Fund for each section of the Province shall consist of all monies arising from the sale of Clergy Reserves in that section of the Province, whether now founded or invested either in the United Kingdom or in this Province, or remaining uninvested or hereafter to arise from such sales, and not being monies forming part of the Distribution Fund hereinafter mentioned; and all monies forming part of either of such investment Fund shall be invested by the Receiver General in Public British Securities, or in any Provincial Debentures or Securities which under the Act to establish Freedom of Banking or any Act awarding the same, may be accepted by the Receiver General in exchange for registered Bank notes, as the Governor in Council shall from time to time direct, and the Receiver General, being thereunto authorized by order of the Governor in Council, shall have full power to dispose of any Securities in which monies are or shall be invested, and to invest the proceeds in any other such Securities as aforesaid:—

The Clergy Reserves Distribution Fund for each section of the Province shall consist of the Interest and Dividends of monies forming part of the Clergy Reserves Investment Fund for that section of the Province, the interest upon sales of Clergy Reserves therein on credit, and rents issue and profits arising from Clergy Reserves therein demised or to be demised for any term or terms of years, and other casual and periodical incomings arising from the Clergy Reserves therein, after deducting therefrom the actual and necessary expenses attending the sales of the said Clergy Reserves and of managing the same and the Funds aforesaid: and the monies forming the said Distribution Fund shall be paid into the hands of the Receiver General and shall be by him paid out for the purposes hereinafter mentioned, under any general or special order or orders to be made by the Governor in Council.

II. And be it enacted, That the annual stipends or allowances which had been before the passing of the Act of the Parliament of the United Kingdom last cited in the Preamble to this Act, to the Clergy of the Churches of England and Scotland, or to any other Religious Bodies or denominations of Christians in either Section of the Province, chargeable under the Act of the said Parliament on the Clergy Reserves in such section, (and to which the faith of the Crown is pledged), shall, during the natural lives or incumbencies of the parties now receiving the same, be the first charge on the Clergy Reserves Distribution Fund for that Section of the Province, and shall be paid out of the same in preference to all other charges or expenses whatever. Provided always, that in any case where such annual allowance as aforesaid is payable, not to an individual but to a Religious Body or Denomination such allowance shall continue to be payable during the years next after the passing of this Act, and no longer.

III. And be it enacted, that the amount of the Clergy Reserves Distribution Fund in either Section of the Province remaining unexpended and unappropriated under the foregoing provisions of this Act, on the thirty-first day of December in each year, shall, by the Receiver General, be apportioned equally among the several County and City Municipalities in the same Section of the Province, in proportion to the population of such Municipalities respectively according to the then last Census; and the portion thereof coming to each Municipality shall be paid over by the Receiver General to the Treasurer, Chamberlain or any officer having the legal custody of the monies of such Municipality, without other authority than this Act, and shall make part of the General Funds of the Municipality, and be applicable to any purpose to which such Funds are applicable: Provided always, that if at the time when such payment is to be made, any sum of money shall be payable by any such Municipality to the Receiver General for any cause whatever, and shall be overdue, he may retain in his hands in satisfaction or in part satisfaction then of the sum which would otherwise be payable to such Municipality, or so much thereof as may be equal to the sum so payable to him by the Municipality and overdue, and shall deliver to the Treasurer, Chamberlain, or other Officer as aforesaid, a discharge in favor of the Municipality for a sum equal to that so retained by him, and for the purposes of this Section, each Municipality into which any County in Lower Canada may be at the time divided, and each of the Union of Counties for Municipal purposes in Upper Canada, shall be taken to be a County Municipality.

IV. And be it enacted, that so much of the Act thirdly cited in the Preamble of this Act as limits the quantity of land forming part of the Clergy Reserves which may be sold in any one year without the previous approbation in writing of one of Her Majesty's Principal Secretaries of State, and so much of the said Act as makes any appropriation of any monies forming part of the Clery Reserve Fund, or arising from the sale of Clergy Reserves, other than such as is made by this Act, or as may be in any way inconsistent with this Act, and so much of the said Act is hereby repealed.

V. And be it enacted, that any lands which may have been under the authority of the Acts hereinbefore cited, or any of them, accepted in exchange for lands originally forming part of the Clergy Reserves in any part of this Province, shall be deemed to be Clergy Reserves for all the purposes of this Act.

LOWER CANADA.

TWO SIDES TO A PICTURE.—Police Magistrate Maguire, sometime ago fined a respectable young gentleman 50s. and costs for calling the son of the Manager of the Bank of Upper Canada "Big Bones," which he declared to be "insulting language" within the meaning of the Police Ordinance; and, on another occasion, lately decided that the French word "*Grelot*" (a little bell) addressed to an individual was also "insulting language," and fined the offender with costs. Will it be believed that the same Magistrate, the day before yesterday, declared that the conduct of an impudent carter, who said to a gentleman "give me none of your chat" in a most insulting and menacing manner and with his arm raised as if to strike, was not within the Ordinance, and dismissed the complaint? We hope that the fact of the complainant's connection with this paper did not influence the judgment.—*Quebec Chronicle.*

THE CONSTITUTION OF CANADA EFFETE.—We understand that it is the opinion of some of the legal profession that the Constitutional Act of this Province, 3rd & 4th Vic., c. 35, is effete, and no longer in force, in consequence of the violation of that clause of it which requires that a session of the legislature should be holden "once at least in every year." If this be the case, the dissolution of the late Parliament by His Excellency the Governor General, as also all the proceedings subsequently adopted by him, are null and void, and another Constitutional Act must be passed by the Imperial Parliament before any further meetings of our Legislature can take place.—*Ib.*

FERGUSON *vs.* GILMOUR.—This case was fixed for a new trial, on Wednesday morning before Mr. Justice Duval, and a special jury. It has been again postponed, on account of the absence of witnesses subpœnaed on the part of the plaintiff. The plaintiff's counsel stated to the Court that the non-attendance of the witnesses was intentional and collusive, and gave notice of a motion for an attachment against three for contempt of Court.—*Ib.*

It is been said that the government intend to discharge all public officers who refuse to vote as ordered at the next ensuing elections!!! If this monstrous tyranny be perpetrated it will but add to the burthen of their political sins and the odium attaching to it, will more than compensate for this "*thumping*" of the public servants.—*Mercury.*

UNITED STATES.

THE WRECKED "ATLANTIC."—Mr. HENRY WELLS, the universally known Express-man, has been erecting, on the lawn of his elegant country residence, at Aurora, in this State, a flag-staff, which he has caused to be surmounted by a ball, recovered from the wreck of the unfortunate steamer "Atlantic," by GREEN, the diver. This relic is, probably, all that will ever see the light, of the splendid vessel to which it belonged. The washing of the sand has, probably, long ere this, so covered the hull as to make it impossible to move, much less to float her, and this cause will continue to act until not a vestigate of the ill-fated vessel is to be seen, save the little that decorates the apex of Mr. WELL'S flag-staff, and which will be looked upon, hereafter, with a great interest. There was a large sum on board the Atlantic, the hope of saving which has led to many fruitless attempts at raising. We understand that no further effort of the kind will be made at present.—*Buffalo Democracy.*

The *Democracy* commits some errors in the above paragraph. The Atlantic lies on a bottom of slate rock and gravel, and there is no sand around her for some distance. The wreck lies clear of everything, and across a ridge of rock which raises her stern some height above her bows. At spots around her, there are pits apparently filled with clay, but no appearance of sand so far as Mr. GREEN and Messrs. WELLS and GOWEN of Boston, can see. A diving apparatus is prepared, and is now in readiness for use, with which it is intended attempt to raise the wrecks both of the Erie and Atlantic. We learn that the machine is ingeniously devised and well constructed, and experienced persons place much confidence in its success. The weather alone has prevented the commencement of operations, as everything has been in readiness for some days. As soon as the settled calm weather arrives, the attempt to raise the Erie will first be made, and then Mr. GREEN and his associates will go to work on the Atlantic. Messrs. WELLS & GOWEN are the parties who removed the wreck of the U. S. steam frigates Missouri from the harbor at Gibraltar, and are now employed on the Humboldt at Hallifax.—*Buffalo Advertiser.*

DISTRESSING OCCURRENCE. Last evening about six o'clock immediately after the steam ferryboat *International* had passed up the river, from the railroad terminus at Watterloo, some gentlemen who were fishing on Bird Island pier, observed a man in the centre of the stream, swimming steadily and lustily for the American shore. At first they imagined he was bathing, but soon discovered that his cloths were on and no boat near him. They then realized the fact that he had fallen accidently into the water from the *International*, and was drowning. They hurried at once to the shanty, and started at once to rescue the unfortunate man. As the boat neared him, he appeared to strike out with spirit and strength in an attempt to reach it, and his rescue seemed almost beyond a doubt. When only three or four feet distance, however, at the very moment that the oars of the rowers were stretched towards him to assist his swimming, the poor fellows strength forsook him and he went down. The boat continued for over half an hour round the spot in the vain hope of seeing him again, but after sinking he never rose to the surface. The persons on the ferry boat were evidently ignorance of the occurance, and there is no possibility of telling who the deceased was unti his body is recovered.—*Ib.*

FURTHER INTELLIGENCE BY THE STEAMER "EUROPA."

NEW YORK, July 1.

SILISTRIA.—From May 28th to 30th there had been six attempts to storm it: all repulsed with prodigious courage.

During the nights of the 28th and 30th, the Turks made sorties with fearful effect on the beseigers.

The Fleets in the Black Sea are still engaged in conveying the Anglo-French force to Varna, but it would appear impossible for them to reach Silistria before the end of the month.

Before that time Omar Pacha will have made an attempt to raise the seige. His force was 100,000 infantry; 14,000 cavalry, and 140 guns, which are being rapidly concentrated.

Marshal Paskiewitch has been wounded in the seige by a musket shot, and has been carried to Jassy.

The command of the Russian army has temporarily devolved on Prince Menschikoff.

A letter from Widden, May 30th, says, that in Lesser Wallachia the Russians carried off all the archives, public documents and valuables of the convents and churches. They have also been seizing all the horses and pressing the men in Greater Wallachia, by which it would seem they have some intention of evacuating the provinces.

The embarrassment of the Russians in the Dobrudscha is increased almost beyond endurance. Their outposts are incessantly harrassed by the Turkish irregulars and the inhabitants of the country, who have also removed and conceal all forage and provisions.

Redschid Pacha has temporally resigned the ministry of foreign affairs, and his place is to be filled by Chekib Effendi.

GREECE.

The insurgent chiefs in Macedonia have been defeated and driven to mount Athos.

The insurgents in Spiras were defeated by Achmet Pacha on the 22nd. May. Part fled into Greece, others to the mountains.

1200 English troops have landed at Pireus.

BALTIC.—On the 30th May, three English steamers distroyed the shipping, dock yards and stores at Brahestad, on the Gulf of Bothnia.—350,000 rubles worth of damage was done on the 31st. The steamers captured several vessels off Sveaborg, and on the 1st June four steamers distroyed the ships, dock yards and stores at Sveborg.

It is reported that the Emperor of Austria has published that he will declare war if the principalities are not evacuated, and appearances on the Austrian frontier are very threatening. The Russians are concentrating forces in Finland. The Russian troops are very much dispirited.

ENGLAND.

The Earl of Ellenborough, in the House of Lords, has been speaking in favor of the separation of the North American colonies from the British Empire.

There had been much debate. It arose out of the second reading of the Canadian Legislative Council Bill.

The Duke of Newcastle had spoken against such a proposition.

Lord Brougham had supported it.

Lord John Russell has been unanimously re-elected to his seat in Parliament for London. Mr. Urquhart was not even proposed.

At the close of the proceedings Lord John addressed the meeting in very decisive terms on the subject of the present war.

BUSINESS NOTICES

LYON'S KATHAIRON,
☞ For Preserving, Restoring and Beautifying the Hair, is the most delightful and wonderful article the world ever produced. Its astonishing success is without a precedent in the history of the *Materia Medica*. Dark and luxuriant curls, soft and glossy hair, with scores of admirers, (mark this ladies), is the universal effect of the Kathairon. Bald and gray heads were perfectly astonished. "The Kathairon has fully restored my hair after a baldness of 12 years. A. J. Courtright, 76 Bond Street N.Y." The Kathairon is a certain cure for Nervous Head Ache, and all Cutaneous Diseases. Sold by all dealers, everywhere. Try it. Price only 25 cents in large bottles.
D. S. BARNES,
Proprietor, 161 Broadway, N.Y.
Sold by every Druggist in Canada.
July 3. 106

☞ During the European wars, in the beginning of the last century, when "grim visaged war" shook the world to its centre, two men of science Robert Watt and Richard Arkwright, unmindful of these convulsions, devoted themselves to the improvement of machinery, and the consequent elevation of mankind. They gained eternal fame in the hearts of men, more lasting those who "sought it at the cannon's mouth." W. Bogle, of 277 Washington street, is a man of peace; but his fame is spread over the world as the celebrated inventor of the Hyperion Fluid, for the preservation and beauty of the hair, the Hebeaiona, for beautifying the complexion, and the unrivalled Amole Shaving compound. All of these articles are the best for their various purposes ever invented and deserve everlasting fame.
To be had of Wm. Lyman & Co., Wholesale Agents for C. E.; and sold by A. Savage & Co. Alex. Urquhart, and S. J. Lyman & Co., Druggists, Montreal. In Quebec, of Joseph Bowles and Dr. Musson, Druggists. Cts 106

Bogle's Premium Electric Hair Dye is totally different and far superior to anything ever invented. The process is perfectly simple, and the effect, magical. It instantly and indelibly dyes the most stubborn hair a natural black or brown, without injuring the skin in the least, and leaves the hair soft and silky after the operation. This, with Bogle's Hyperion Fluid, and Shaving Soaps, may be had of
Wm. Lyman & Co., Wholesale Agents for C. E. and sold by A. Savage & Co., Alex. Urquhart and S. J. Lyman & Co., Druggists, Montreal. I. Quebec, of Joseph Bowles, and Dr. Musson, Druggists. Cmwf 106

STRANGE DEVELOPEMENT.
☞ Scientific men are daily bringing to light new inventions, and the march of progress is onward; persons Bald, or becoming so, will be pleased to learn that science and long research combined have brought before the public the greatest wonder of the age, in the article of EMERSON'S AMERICAN HAIR RESTORATIVE, and sure cure for Baldness and to prevent Hair from falling. See Circulars to be had of Agents. Price $1 in large bottles. Sold by
ALFRED SAVAGE & CO., Agents,
Next the Court House.

ANOTHER CERTIFICATE,
To prove that everybody should use Bowman's Gargling Oil:
St. Pie, Sept. 1, 1853.
Dear Sir,—I have been constantly in the habit of using your Gargling Oil for some time past, and can confidently recommend it to the public for reducing all kinds of inflammations, and for healing flesh wounds and burns.
I have found it very beneficial likewise in allaying the extreme pains of rheumatism.
I believe it also extremely valuable for many diseases of horses and cattle, having cured a very bad case of wind spavin on a favorite horse of mine not long since with a bottle of it.
You are at liberty to use the above as you may think proper.
Dr. J. A. O. Tetrault, J.P.
Mr. W. E. Bowman, Montreal.
P.S.—This Medicine can only be obtained in the City of Montreal at the Manufactory, M'Gill Street; and for the convenience of the public, at F. Trigg's Fancy Goods Store, opposite, the English Church, Notre Dame Street.

Worms.

B. A. Fahnestock's Vermifuge.

CAN be administered to the most delicate infant without danger ; it is mild in its operation, and perfectly harmless, but effectual in removing worms from the system. Read the following testimony in its favor :

NEW ORLEANS, Jan. 7, 1852.

Messrs. B A. Fahnestock & Co. : Gentlemen,—Your Vermifuge I have been selling for some ten years, both here and in Mississippi, and it is one of the *few* proprietary medicines which I have *implicit confidence in*. I have never seen it fail to act as a *speedy and safe Vermifuge*. I have such a constant demand for it, that I request you to send me twenty-five gross with as little delay as possible, as the season now approaches when it is most in demand. Very truly yours,
R. N. FETHERSTON'H, No. 58 Camp Street, N. Orleans.

There are also many other Vermifuges before the public, got up in similar style with ours, and they are frequently sold to the unsuspecting as being either *the same* or *as good* as ours. Put no confidence in such statements, but be sure to get the true and genuine B. A. FAHNESTOCK'S VERMIFUGE, as none are so efficacious and safe as this.

Dr. Gale's Anodyne of Opium.

IT is a fact well known, that many people are accustomed to buy and use without the advice of a physician, many of the preparations of Opium, as Laudanum, Paregoric, Bateman's Drops Godfrey's Cordial and the like.

The new chemical preparation, now submitted to the public, is believed to possess all their virtues, and even more, without being chargeable to their bad effects—neither is this opium hastily founded, nor based on limited experience—after a trial of some years, in which this remedy has been placed in the hands of eminent physicans, and tried indeed under every variety of circumstance, and in all appropriate cases of disease, it is still believed to stand unrivalled not only for its virtues as a preparation of Opium, but for the safety with which it may be administered.

From Dr. H. Hughs, President of the Medical Society of the County of Warren N. J.

Dr. Gale: Dear Sir,—I have used your Anodyne of Opium in my practice for some time past and in many cases where Opium, Morphia, Laudanum, and other preparations of Opium could not be used, without constipating the bowels, and producing all the bad consequences commonly attendant upon their use, I have given the Anodyne, with the best results, without constipating the bowels, or producing any unpleasant symptoms.

Leave the Canal Basin, Montreal, Daily, at NINE o'clock A.M., and Lachine on the arrival of the TWELVE o'clock train from Montreal, (except on Sundays, when they leave on the arrival of the TEN o'clock train,) calling at all intermediate ports, arriving in Kingston early on the following day, where they meet the magnificent
LAKE ONTARIO STEAMERS
PASSPORT, Capt. Harbottle,
ARABIAN, Capt. Colcleugh,
MAGNET, Capt. Twohy,
For Cobourg, Port Hope, Toronto and Hamilton, connecting at Hamilton with the Great Western Railway for London, Chatham, Windsor, Detroit, Chicago, Milwaukie, and all Ports on Lake Michigan; and at Lewiston for Niagara Falls, Buffalo, and all Ports on Lake Erie.
TO TOURISTS, this Line affords a most comfortable, pleasant and expeditious conveyance.
The Steamers are fitted up with elegantly furnished SALOONS and STATE ROOMS; passing through the beautiful scenery of the Lake of the Thousand Islands, and all the Rapids of the St. Lawrence, by day light. In point of speed they are unsurpassed.
To Families moving West, either to Western Canada or the Western States, this Line possesses unequalled advantages, the Steamers running direct to the Great Western Railway Depot at Hamilton, saving the annoyance of two transhipments, and 24 hours in time.
Through to Chicago, including all stops, in 68 hours.
☞ Tickets can be procured of C. F. MUCKLE, at the Hotels; on board of the Steamers; or at the Office, 40 McGill Street.

MILL SITE FOR SALE.

THAT VALUABLE ISLAND at the mouth of the RIVER ST. MAURICE, called L'ISLE LA POTTERIE, containing about 100 arpents in superficies, surrounded by the waters of the St. Lawrence, and two of the Channels of the St. Maurice.
Also, a PART of the TWO other ISLANDS adjacent.
Also, the LAND on CAP DE LA MAGDELAINE, forming a frontage on the Cap of twelve arpents, by half an arpent in depth.
This Property, being situated partly in the River St. Lawrence, forms one of the finest positions in the country on which to erect a Steam Saw Mill.
In addition to the advantages of this Property to draw supplies of logs from the immense resources of the St. Maurice, it could also be made available for supplies of logs from any streams falling into the St. Lawrence *above* the St. Maurice, thus having advantages such as no other Mill in the county at present enjoys. Vessels of the largest class could load deals from the wharves of this Property, and thus save the expense of rafting, piling, &c.

INCIPIENT CONSUMPTION,
SCROFULA, GENERAL DEBILITY, WHITE SWELLING, RHEUMATISM, DISEASES OF THE LIVER AND SKIN, AND ALL DISEASES ARISING FROM IMPURITIES OF THE BLOOD, AND THE EFFECTS OF MERCURY.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.
It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by
W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surg'y, N.Y. University.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spain.
J. Chipman, Member Royal College Surgeons, London.
Sir Thomas Pearson, Major General. British Army.
Gilbert Robertson, British Consul, &c., &c.
And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.
The retail price has been reduced to one dollar fifty cents per bottle (containing three half pints), or three bottles for four dollars.
BEWARE OF IMPOSITION.
Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:
SWAIM'S—PANACEA—PHILADA:
and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A Valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentry, Fever and Ague, Bleeding Piles, Sick Headache, &c. &c. See the pamphlet, which may be had gratis, accompanying the Vermifuge.
Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.
CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels, or they may be imposed on by medicines made in imitation of them, by a person bearing a somewhat similar name, well calculated to deceive.

THE WONDER OF THE WORLD!
DEVINES' COMPOUND PITCH LOZENGE!!

THE GREAT REMEDY is at last discovered, and that fell destroyer of human happiness at length is conquered! Consumption shall no longer rob our firesides of their brightest ornaments, and sink many a gentle spirit to an untimely grave. Consumption can be cured; Asthma will soon be as the things that were; and Coughs and Colds, the parents of that fell disease that so often brings woe to the houses of our land, vanish, as if by magic, before this SOVEREIGN REMEDY.
DEVINES' COMPOUND PITCH LOZENGE.
This pleasant and safe remedy for COUGHS, COLDS, ASTHMA, COSTIVENESS and CONSUMPTION, is beyond doubt the cheapest and most efficient medicine ever offered to the public; and should be constantly kept on hand by every family, especially for children to use for colds, coughs, &c. One man remarked, after having been kept awake all night with his children, who were sick with colds, that "the first box he used was worth a five dollar bill to him," and, reader, it only cost him 25 cents; and $5 would buy 25 boxes or more.
IT SELLS WELL.
Read this letter from Alderman Ring:
Mr. Devines—Sir: Your Lozenge sells well, and gives general satisfaction for all Pulmonary complaints. In fact, I hardly know of a case where it has been used, but what it has performed a cure. I recommend it with confidence. You may make this public if you think proper, for I think all valuable medicines should be made known.
CHARLES R. RING, Druggist, N. Y.

IT CURES HARD COLDS ON THE LUNGS.
New York, Oct. 28, 1851.
Mr. Devines—Dear Sir: It is with the highest gratification I inform you that your Compound Pitch Lozenge has entirely cured me of a very hard cold I have had on my lungs for three months. I felt the effects of them in a very few hours. A. B. JOHNSON, Tobacconist, 442½ Broadway.
P.S.—I have recommended your Lozenge to a number of my friends, who, since then, have used it, and speak of it in its highest terms. A. B. J.
BUSINESS MEN! READ THE FOLLOWING.
Having sold Devines' Compound Pitch Lozenges for the last three months, we hereby certify that they meet with a ready sale; and judging from the representations of those who have used the medicine, we believe it to be a valuable remedy for the complaints for which it is recommended and entitled to the confidence of the public.
MOORE & SMITH, Merchants.
Pittsfield, Mass., January 14, 1852.
This is that which has so long been sought for, and is in full faith offered to the public as a certain cure for Coughs, Colds, Whooping Cough, Croup, Asthma, Costiveness and Consumption, and will in any case where lungs sufficient are left to sustain life, check the ulceration and raise the patient to health.
Certificates of cures to be relied on, found in the circulars left with the agents—and the public may be assured we shall never publish anything we do not believe to be entitled to the fullest confidence, as truth "and nothing but the truth."
Prepared by WM. DEVINES, the original discoverer, for S. D. FULLER & CO., 3, Tremont Temple, Boston, Proprietors.
William Lyman & Co., Wholesale Agents for Montreal; and also for sale at retail by Richard Birks, S. J. Lyman & Co., A. Savage & Co., B. Workman & Co., and by Druggists generally in Canada.
