

MASS BUYING PROBE REVELATIONS HOLD BYE-ELECTION "SPOTLIGHT"

Hon. H. H. Stevens, Minister of Trade and Commerce, Defends His Investigation Activities, while Hon. Mackenzie King Charges Issuance of Pamphlet Regarding Committee's Findings Was a Breach of Ethics—Bennett Aide Announces Prime Minister Intends to Launch Unemployment Insurance Programme on Return from Geneva.

Toronto, September 20.—Leading roles in the five Federal bye-elections in Ontario were held today by the House of Commons' mass buying inquiry and the actions of Hon. H. H. Stevens, Minister of Trade and Commerce and chairman of the inquiring committee. Mr. Stevens has campaigned throughout the ridings defending his activities following sessions of the committee, while Rt. Hon. W. L. Mackenzie King, Dominion Liberal Leader, has charged his issuance of a pamphlet regarding the committee's findings was a breach of ethics.

Mr. Stevens promised early legislation to end the suffering of workers, forced to accept low wages and long hours because of mass buying operations, in his address at Richmond Hill and Newmarket last night in the interests of H. A. Breuls, Conservative candidate in the North York bye-election. He reiterated his statements that heads of packing firms could increase the returns to farmers if they wished and that pitifully low wages were given to women and men in the clothing industry.

Mr. King, who appeared before a St. Thomas rally with Premier Mitchell F. Hepburn to support Wilson H. Mills, Liberal, in the Elgin West bye-election, criticized Mr. Stevens' actions in placing before the public everything gleaned by the committee and then attacking heads of industries for their ethics. Mr. Stevens' ethics, the Liberal leader said, should be condemned because he was discussing the case before all evidence was obtained.

Unemployment insurance was injected into the political picture when Ward C. Pitfield declared before the Montreal Conservative Association meeting that Premier R. B. Bennett was planning to launch such a scheme in the Dominion when he returned from the League of Nations session in Geneva. He described the plan as "the finest I have ever seen to combat unemployment," but he gave no details.

In Toronto tonight Mr. King will address a Liberal rally in behalf of the Liberal candidate in Toronto East, Major H. P. Snelgrove, who is contesting the riding with T. L. Church, K.C., veteran political warrior, and Graham Spry, C.C.F. candidate.

Mr. Stevens will speak tonight at Harrowsmith in Frontenac-Addington.

SUPPORTS TRADE PROBE BUT NOT CONDUCT OF STEVENS

St. Thomas, Ont., Sept. 20.—With the final meeting of his bye-election campaign set for tonight, Rt. Hon. W. L. Mackenzie King, federal Liberal leader, today sped to Toronto. This evening he will make his fifth address in the "miniature general election campaign" which has taken him already to Kenora, Frontenac-Addington, North York and West Elgin.

The meeting will be held in Massey Hall, and the Liberal leader will appeal to voters of East Toronto for the return of Major H. P. Snelgrove. Opposed to Snelgrove are Thomas L. Church, a former Conservative member of the House of Commons, and Graham Spry, who is running on the C.C.F. ticket. The seat became vacant with the death of Hon. E. B. Ryckman, former Minister of National Revenue in the Bennett government. Mr. Ryckman was elected at the 1930 contest by a majority of over six thousand.

Last night brought the Stevens pamphlet into the limelight again when Mr. King offered severe criticism of the "ethics" of its issuer. Declaring that Hon. H. H. Stevens had been strongly commensurate of "unethical business" practices, the Liberal leader waxed caustic on the subject of the conduct of Mr. Stevens while chairman of the Royal Commission on mass buying.

"Prosecutor, jury, judge and executioner," these, said Mr. King, were the roles which Mr. Stevens assumed with the issuance of the pamphlet. He asked his listeners to imagine a judge descending from the bench during the progress of a case to discuss it with the public. "What would have been the position if all the members of the parliamentary committee had assumed similar roles to that of Mr. Stevens?"

"What is the Bennett Government going to do about it?" This, said Mr. King, was the question the people were asking. "What abuses uncovered by the investigation thus far," Mr. Stevens has given us no answer to that." He emphasized that the Liberal party was strongly behind efforts to right wrongs revealed and he undertook, if elected at a general election this year, assuming that one he held, to see that the work was carried on. He also said that it would be widened so that large industries which had not been called up thus far would have to appear.

The Liberal leader declared that members of his party in the House of Commons had been agitating for an investigation some time before the Government appointed the mass buying committee. He quoted resolutions moved in the House in support of this statement. Seated on the platform with Mr. King were Premier Mitchell Hepburn, who spoke briefly. He warned his audience that "so long as we have a Tory Government in Ottawa, we will have bad times in Canada."

BELIEVES NORTH AMERICA WILL SHORTLY TAKE LEAD IN WORLD AFFAIRS.

Paris, September 20.—Etienne Flaudin, Minister of Public Works, returned from a trip to America, said today: "It will not be long before the American continent will take complete direction of world affairs. Europe, meanwhile, is going the way of Greece in the ancient world."

He was speaking before the American Club, praising the warmth of the reception given him in Canada where he attended the recent Jacques Cartier celebration.

The Minister described his visit with President Roosevelt and, commenting on the "New Deal," said: "It is better to make mistakes, as I feel the United States is doing in some cases, than to sleep and do nothing."

Of Canada, he said: "I found the French language and customs are not only holding their own but making progress in Canada."

SAUERKRAUT WILL BE CHIEF ITEM ON MENU

Lincoln, Neb., Sept. 20.—Sauerkraut will make up a large part of the menu at Nebraska state institutions next winter. Henry Behrens, of the State Board of Control, says the state is buying cabbage for \$24 a ton.

"It's good for people," he said.

ATTEMPTED TO SET UP CHEMICAL WARFARE UNIT IN SOUTH AMERICA

United States Manufacturer Proposed that Colombian Government Establish Series of Factories to Supply Specially Equipped Troops with Poison Gases—Senate Committee Hears Charges that Foreign Governments Aided Sales of Armament by Private Firms.

Washington, September 20.—A story of how a United States poison gas manufacturer sought to persuade Colombia to form a chemical warfare unit in its army was ready for development today at the Senate munitions investigation.

The committee called B. C. Goss, president of the United States Ordnance Engineers Company, of Cleveland, for questioning about reports that he presented to Colombian officials two years ago, a plan for a division of chemical troops to be trained and equipped by him.

Information in the possession of investigators indicates that the plan involved the building and operation under his supervision in the Latin-American republic of half a dozen factories to produce chlorine, mustard and other gases to arm the chemical personnel.

The extent of United States Ordnance Engineers Company's sales of poison gases to China as well as to other Latin-American countries also is engaging committee attention.

Before calling Goss, the committee wanted to inquire further into the activities of the Federal Laboratories, Inc. of Pittsburgh.

Yesterday the inquiry developed evidence purporting to show that Federal Laboratories' representatives smuggled tear gas, riot guns and cartridges into Argentina two years ago in violation of a presidential ban that the concern lobbied in national and state capitals against proposed legislation restricting the use of tear gas, and that it paid commissions to an American naval officer for services to the company.

The French government was depicted as a "broker" for arms sales in South America.

Frank S. Jonas, South American representative for the Federal Laboratories, Inc., of Pittsburgh, said he had been told of French activities many times during his years of dealing with Latin-American countries.

"The English government and other governments are keenly interested also in the sales of munitions their countries produce," Jonas added.

Carlton W. Rich, another representative of Federal Laboratories, broke in to tell Senator Homer Bone, Democrat, Washington, that "I am told the English Ambassador interested himself in a prospective sale in Montevideo to the police force and even arranged to have Montevideo."

CHARGES RADIO FINDERS USED FOR PLEASURE

First Assistant Radio Operator Threatened With Loss of Job for Protesting Against Improper Use of Instrument.

New York, Sept. 20.—George L. Alagna, first assistant radio operator on the Morro Castle, told a board of inquiry today that the ship's radio direction finder was used to get broadcasts and that when he objected the first officer threatened to have him fired.

Alagna said that on one particular day Irwin Freeman, first officer of the Morro Castle, used the direction finder extensively. Alagna called the bridge, he said, and objected because he was on watch and responsible for the equipment.

"Mr. Freeman said 'I'll take this to the captain and have you fired,'" Alagna quoted the first officer as saying.

Alagna testified that when he joined the ship in June it was customary to feed the officers stale bread and use dirty, greasy silverware on which the residue of food from previous meals appeared.

That was the reason he got up the protest petition, he told the inquiry board.

KING WINTER VISITS WEST

Winnipeg, September 20.—King Winter again proffered the grip of his icy hands to Western Canada yesterday bringing snow in Alberta and threats of snow, together with cold rain, lower temperatures and cloudy skies, to the rest of the Prairies.

Edmonton, Calgary, Lethbridge and several other points in the foothills province reported snow. With the exception of Medicine Hat and Banff, Alberta temperatures were all below freezing point.

INSUFFICIENT PROOF IN DIVORCE CASE.

Toronto, Sept. 20.—Evidence in the divorce actions brought by James Murray, of Toronto, and Mrs. Murray against each other "falls short of any proof," that Murray was guilty of any impropriety with Mrs. Elena Murdoch Skait, Mr. Justice Nicol Jeffrey said at the hearing yesterday.

Mrs. Skait, dancing partner of the Prince of Wales on his last visit

CLAIMS CENTRAL BANK IS SIMILAR TO EXTRA GADGET ON MOTOR CAR.

Trail, B.C., September 20.—A central bank is like a gadget on an automobile, "if one never sees or hears of it, one can get along very well without it," according to M. W. Wilson, general manager of the Royal Bank, visiting here today. Central banks had not solved the problems of depression and prosperity of Europe, he said.

Mr. Wilson expressed sympathy with the British Columbia Government in its desire for bond conversion, but warned any such steps should be voluntary on the part of the bondholders. If conversion of bonds is forced it would be "a policy of repudiation."

Mr. Wilson and the party of Royal Bank directors accompanied him inspected industries in Trail and will leave for Vancouver tonight.

FRENCH ARMAMENT FIRMS GIVEN USUAL EXPORT AID

Paris, Sept. 20.—French armament firms, officials said today, are aided in their work abroad as are other merchants.

It was explained, however, that all arms and munitions exports must be approved by a special commission under the Ministry of War, in order to prevent violations of neutrality or sales to probable enemies.

France occasionally has sent military missions and instructors abroad at the invitation of other countries such as Turkey and Japan, and these instructors obviously favor French arms.

Officials said there were no official French sales missions. They said that munitions salesmen were likely to be entertained at dinner in the French embassy of the country in which they were working in order to meet officials who were prospective buyers but this was regarded as merely part of the policy of encouragement to French commerce.

CANADA'S LOAN SYSTEM WILL BE RECONSTRUCTED.

Victoria, September 20.—"The Dominion Government will reconstruct the whole loan system of the country, without repudiation, and at the proper time," in the opinion of D. B. Plunkett, M.P. Victoria. He expressed his views in an address last night to a Conservative rally.

"We are coming out of this depression naturally and honorably," he said. "Do you know of any other nation of ten million people which has done as well?" Under Prime Minister R. B. Bennett, the Conservative party had preserved the integrity of Canadian institutions in most trying times and had done so without requiring a apology. The stimulation of Empire trade and correction of unfavorable trade balances were leading to steadily improving returns, showing that recovery was on the way.

LEADING ENEMY OF NAZI CHURCH HELD PRISONER

Theofil Wurm, Former Bishop of Wuerttemberg, Held Prisoner in Home by Order of Nazi Protestant Church Commissioner.

Berlin, Sept. 20.—Theofil Wurm, whose defiance of Reichsbishop Ludwig Mueller cost him the Bishopric of Wuerttemberg, is a prisoner today in his own home by order of Dr. August Jaeger, powerful Nazi commissioner for Protestant churches in Prussia.

Police guarded the Stuttgart home of the churchman against any attempt to leave.

Dr. Jaeger in a foreign press conference on the Nazi state's plan to fight any attempt to create a church independent of the state, said, "what ever opposition remains is the outgrowth of misunderstanding. Our duty is to go through National Socialism's totality of ideals. Church politics is not a matter for clerics, but for the highest church administration. This has nothing to do with the preaching of God's word."

On the Nazi theme of anti-Semitism, Dr. Jaeger said: "The Jews kept the race pure by the methods now adopted in Germany. Germany will keep itself pure."

A further development in the Nazi fight against recalcitrant clergymen came with the ultimatum of Reichsbishop Mueller at Hanover that all opposition pastors become Nazis or get out.

Opposition belief that the state intends to dominate all churches was strengthened by the Reichsbishop's statement urging state intervention to establish a united Reich church, presumably including Catholics and Protestants, independent of Rome.

CATHOLICS ALARMED

Berlin, Sept. 20.—Reichsbishop Ludwig Mueller's speech at Hanover yesterday declaring unification of all German religions into one Nazi church will ultimately result today how grave repercussions among the people.

The Catholic faithful were greatly alarmed. It was expected the Bishop's declaration may call forth a new statement from the Vatican.

Protestant pastors in opposition to the proposed Reich church were shocked by the Mueller address and further incensed by the arrests, both accomplished and imminent, of Lutherans who protested in Munich several days ago against the removal of Bishop Theofil of Wuerttemberg, by Reich church authorities.

Reichsbishop Mueller's address at Hanover banished any last doubt that the National-Socialist regime intends to unify religion in the Reich. It included a stinging attack on the Jews, a denial that Christ was a Jew and warm commendation of the principle that the state may intervene in church affairs if necessary to bring "order" to the church.

It virtually hailed Reichsfuehrer Adolf Hitler as a German Christ and exalted the storm troops as examples of devotion to a leader worthy of emulation.

EXTERNAL CONTROL OF MINORITY PEOPLES OPPOSED BY DOMINION

Prof. O. D. Skelton Declares Canada Could Not Agree that It Would Be Equitable to Make Existing System of International Guarantees of Minority Rights Universal—Claims Difference Exists Between Countries Receiving Immigration and Nations Annexing Territory.

Geneva, September 20.—Canada today followed Poland in declining to accept external control of her minority groups. The statement of her position was made in the political committee of the Assembly of the League of Nations.

Prof. O. D. Skelton, submitting Canada's position as the committee debated a Polish resolution pressing for generalization of the protection of minorities, said it was difficult to see the consistency of those supporters of the motion who argue that international supervision is working badly in their own countries, yet that it would be in the best interests of all other countries to adopt it.

Canada cannot agree, said Prof. Skelton, that it would be equitable, as the resolution said, to make the existing system of international guarantees of minorities universal. "Certainly this is not the case as regards overseas countries receiving recent immigration," he declared, pointing out the difference between wholesale transfer of minorities, frequently without their consent, and voluntary migration.

The committee debated the resolution for three hours without coming to any decision, and postponed further discussion until tomorrow morning. Poland last week startled the Assembly with the declaration that henceforth, in effect, it will decline to recognize international supervision of her racial, religious and language minorities because such supervision was not generalized for all countries.

Poland, therefore, drew up the present resolution. It takes the ground that existing minorities treaties are binding only on certain members of the League, whereas others are free from any legal undertakings in this regard. It argued that such a state of affairs afforded international guarantees to certain minorities only, leaving others which could in no circumstances appeal to the League without international protection.

Such a distinction, said the Polish resolution, "is in contradiction with the sentiment of equity and justice."

Poland, therefore, proposed the conclusion of a general convention for the protection of minorities, "such a convention to provide for the same undertakings on the part of all members of the League, and to ensure international protection for all racial, linguistic and religious minorities."

Poland wanted an international conference summoned to this end.

Prof. Skelton said the Canadian delegation "recognizes that the present system of guarantees of minority rights in certain countries by outside control is open to definite objection. But it must also be recognized that any alternative solution of the problem which was presented after the war by the existence of important minority groups in those countries in question of Europe which had been thrown into the melting pot as the result of war and revolution would have involved still further difficulties."

"The solution now existing was accepted by the new states to whose jurisdiction the minorities in question were assigned. I listened during the discussion for the advancement of any argument which would warrant discarding the advantages of the settlement while retaining its advantages, but I have listened in vain."

"It may well be hoped that in time a system of external control will no longer be found necessary, that gradual lessening of antagonisms inevitable at the outset, and growing recognition of the majority and minority groups within each jurisdiction, the minorities in question revision desirable and possible."

"It is difficult to see the consistency of those supporters of the present motion who argue on the one hand that it is working out badly in their own countries, and on the other that it would be to the advantage of all other countries to adopt it."

"We cannot agree that in the words of the resolution it would be 'Just and Equitable' to make the existing system universal."

"Certainly this is not the case as regards overseas countries receiving recent immigration. There is no parallel between the position of minorities transferred bodily and frequently without their own consent to the jurisdiction of another state, and the position of minorities in their own countries."

A GOOD NIGHT'S REST IS ACQUIRED BY A SIMPLE METHOD

Lack of sleep has proven to be a great detriment to the efficiency of the average person. Sleeplessness may result from various causes. However, in the average case, it usually is due to over-exertion, nervousness, under-nourishment, etc.

It has been definitely stated that a very effective and simple way to overcome sleeplessness is to take a bottle of Good Porter before going to bed, and since good Porter is specified, the people of Quebec will naturally think of BOSWELL CREAM PORTER, which is sold at all grocery stores.

Dividends of 15% in 1934. TON years ago, the mines of Canada, chiefly the gold producers, paid their shareholders \$8,000,000. In 1933, they paid them over \$27,000,000 in dividends. In addition to the securities of a group of these dividend paying properties, United Gold Equities, a medium of diversified investment in Canada's prosperous mining industry, also holds large interests in junior mines of known worth and excellent promise. With a steady enhancement in the value of its shares, United Gold, in 1934, rewarded its investors as cash, as follows: 15% January 15th, 25% April 15th, 25% July 15th with an extra bonus of 25%, and 25% payable October 25th—a total of 15%.

The chafing dish party is simply the frying pan getting into high society.

POURING OUT THE TAXPAYERS' MONEY.

In the continuous struggle between the taxpayers and the tax-eaters we are prone to think that the guardians of the Public Purse are not as keen in the public interest as they would be of their own. It is a rare combination of talent in one man. The Hon. Alexander Mackenzie, Liberal Prime Minister some sixty years ago, had the talent of public economy, but he was not repaid for it, as the people thought he was niggardly and lacked the finer talent of construction.

The United States do not quite glory so much in their President, as to him a million or even a billion dollars is but a bit of boodle with which to make a fine gesture. That country will be sunk so deep in public debt that the tax-eaters are as myriads of ants.

Government ownership lurks in the background as a panacea offered by some of the brain trust who have never had actual business experience.

Government ownership always results in an increase in the public debt with an overhead army which is ever adding to its members. There is never a thought of economies which may lighten the load of the taxpayers.

Our neighbours had a try at government ownership of railways. They increased the gross earnings by increasing rates, and within a year had taken \$1,393,000,000 more from travellers and shippers. Even that brought a deficit of \$458,000,000. And they paid no taxes.

Our own railway problem is the heaviest ever laid upon us. It would require superhuman skill to ever make it pay its way. Yet on top of that we have other efforts at government control of business which will strangle industry as it has done railway transportation. The smaller minds, the men lacking foresight and experience, seem to be in control. They place no weight upon the need of experience, for they are the type who look upon other men's work as a holiday.

We would replace the orderly with the helter-skelter, and then sit back and hope for results.

We must remove the shackles that have been thrust upon us, and return the railways to responsible ownership.

We must restore freedom and fair competition to the agriculturists, to the industrialists and to those who do things. Have we big enough men to do this?

Or shall we go on until there is a revolt against a subtle growth of Socialism, where the theorist takes the place of the constructive individuals who know better.

ECONOMIC FIGHT BETWEEN CANADA AND THE UNITED STATES.

A politician who would practise statesmanship or government becomes a non-believer in the sense or the quick intelligence of the mass of the people. Given his free bridle he is likely to become a dictatorial person, one who would peevishly resent criticism. He would stifle information if it were not for the general belief in the freedom of speech which is inherent to the individual of an educated nation such as Britain.

Where there is much illiteracy, or too much pride in culture, there you will find the fertile field for the surface-thinker or for the dictatorial mind.

We may glibly talk of immense sums, the millions and the billions, and criticize those who think of taxes and debts as so many blocks in a child's game, but the details do not register their full meaning.

Canada's gross wealth is \$30,000,000,000. In a recent speech in Congress, Hon. Louis McFadden, from Pennsylvania, dealt at some length with Canadian finances, and the capital involved by other countries in Canada. It may weary you to read it, but it would be worth while knowing that in this Dominion

The United States has invested \$4,389,000,000. Great Britain has invested 3,610,740,000. Other countries 170,747,800. Canadian capital invested 6,036,480,850.

Thus Canada herself owns only 44.56 per cent. of her investments in railways, utilities, trading establishments, pulp and lumber, metal, mining and miscellaneous industries out of the grand total of \$13,606,968,650.

And this grand total is more than one-third of the worth of all Canada.

In railway investments Quebec has at stake \$1,886,517,427 as against Ontario's railway investments of \$1,373,876,829 out of a grand total of \$4,101,124,843. Quebec province has thus put up forty-six per cent. of the railway money, or an

amount almost equal to that of the other eight provinces.

Quebec does less tooth-aching over the billions of stagnant investment than does Saskatchewan with a bagatelle in comparison.

Quebec has invested \$363,489,870 in pulp, paper and lumber industry against that of all the other eight provinces of \$430,300,000.

Ontario and Quebec dominate the metal industries with \$790,000,000 out of a total investment of \$994,000,000.

In Quebec there are \$394,208,000 invested in electric industries, railways and telephones, with Ontario's \$448,434,000. But Quebec's investments pay dividends and Ontario's record deficits.

Great Britain's investors hold \$637,342,000 of our government bonds, the United States holds \$829,384,000, and altogether we owe bonds and mortgages of \$2,723,496,419, of which Canadian investors hold \$1,221,200,419.

There is a \$872,000 electric plant in the Yukon, government owned, which is as dead as the C.N.R. on the chances of ever paying a profit.

Mr. McFadden estimates the national wealth of Canada at \$16,877,791,000; or just three billions more than what we owe to British and foreign investors. It will take the annual deficits of the railways and the governments only the period of a decade to sink that out of sight if we continue our present foolish policy.

Mr. McFadden thinks the motives back of the regimentation of Canadian trade under the Collective Marketing bill are to protect British and Canadian trade at the expense of the United States.

At their loss we hope that they will make the right about and give us reciprocal trade in our natural products, particularly farm products.

We were taught by the United States to adopt reprisal to force reciprocity.

But our ideas of reciprocity is not to jeopardize any trade or industry which has led to a United States investment in Canada of \$1,962,017,622. What we have we'll hold, but will trade on what we expect to gain despite what Mr. McFadden calls the resort to "diabolical and sinister machinations" by Canada and Britain and the Dominions at the Imperial Conference.

This factor is penetrating the obtuse minds of the folks at Washington, the while our Canadian agents at the United States Capital are devoting their time to the foolish billion dollar thought of deepening rivers and lakes which will leave open higher embankments.

EDITOR'S NOTE BOOK.

Charles Page, on the Page farm just outside of Sherbrooke, left in this office a short time ago a goad which he might find useful in goading some of our public men into life. It is a Scotch thistle with eight blooms in the silken stage, on one stalk; yet with enough seeds which would grow more tares than would make a mile of prickly wayside. When Harvey Page found this prolific bunch of Hightland posies he thought the Editor could use it for the purpose indicated to spur on the lagging legislators who are afraid to grasp the nettles which guard the C.N.R. from the weeder-out. Still, you can often have more luck with a four-leaf clover found on the front lawn.

Though the winter of 1933 both destroyed and impaired the apple crop, and the deep biting frost was hardest on Quebec's proudest famous trees, there are many possessors of orchards who still hope that the fameuse is but going through a near-aphyllous summer. Almost leafless are some trees, but with sound trunks there should be a restoration to some.

The College of Physicians and Surgeons may instruct their governors to direct that physicians and surgeons shall attend accouchements on a piece-work basis. There are so many reports of triplets, quads and quintuplets. May we suggest this amendment to Doctor George.

The Central Bank is a bank from which an individual cannot borrow a dollar. It is intended to gather the individual's hard-earned dollars from the real bankers' deposits and loan it to the government to cover the waste and extravagance, or to meet the payroll of the cost of too much government.

When addressed in broad Scots town as "baillie," one of our aldermen was inclined to be offended, yet it is Scotch for "alderman," and in correct French is "magistrat municipal en Ecosse."

JUST AN OLD-FASHIONED SCENE

BUSY SESSION HELD BY BURY TOWN COUNCIL

Many Important Matters Decided at Adjourned Session of Bury Council — Ladies' Aid Held Meeting.

Bury, Sept. 20.—An adjourned session of the Bury Council was held on Saturday evening with Mayor Hunt presiding and Councilors Brouillette, Bennett, Coates, Keynes, Whitehead and McMillan and the secretary-treasurer, W. H. Armstrong present.

J. D. Harrison was appointed overseer for the Hardwood Flat division and Alvin Coates for the Gould Station division. This road work is to be on a fifty per cent. basis with the Provincial government.

J. H. Worby was appointed as foreman of the water works construction. Bills to the amount of seventy-five dollars were accounted for payment. Tenders were opened for pipes, pumps and other material for the water department. These were referred to the engineers for tabulation.

LADIES' AID MEETING HELD

The September meeting of the Ladies' Aid was held at the home of Mrs. E. A. Stokes with a good attendance of members. The president, Mrs. R. H. MacRae, opened the meeting with the reading of a psalm and prayer. After the minutes of the previous meeting had been read and approved, routine business was transacted.

Plans were made for an oyster supper and committees were appointed for same. The meeting closed with the mizpah benediction, after which lunch was served by the hostess, assisted by Mrs. L. D. McLeod.

BISHOPTON

The harvest thanksgiving service was held in the United Church with Rev. Mr. Brown, from East Angus, as special preacher. The weather being ideal, there was a good attendance present. The church was beautifully decorated with an abundance of flowers, fruits and vegetables donated by many friends. A large cresset of green, mountain ash berries and crimson maple leaves adorned the choir loft. Among Dr. and Mrs. Elliott's generous gift for decorations, special mention must be made of a delicious basket of over bearing strawberries and of a box of very large garden raspberries. Rev. Mr. Baron delivered a fine and interesting sermon. The hymns by the choir and congregation were "Come Ye Thankful People, Come," by C. J. Elvery, "We Plough the Fields And Scatter" by J. A. P. Schuller, "Eternal Source of Every Joy," by H. Hatton. A duet by Mr. H. Harrison and Miss Harrison entitled "A Memory" was also rendered. The organist was Mrs. J. Beaumont. At the close of the service the flowers, fruits and vegetables were given to friends.

Rev. Mr. Baron and Mrs. Baron and Mr. J. Burns, of East Angus, were dinner guests of Mrs. de Gruchy at Woodbine Bungalow.

ONTARIO GOLD OUTPUT IN AUGUST ADVANCED SHARPLY

Totalled \$6,058,950 as Compared with \$3,943,095 in Corresponding Period Last Year.

Toronto, September 20. — The August output of gold by the mines of Ontario totalled \$6,058,950, compared with \$3,943,095 in August of 1933. The advance in the price of gold to \$35 an ounce accounted partly for the big increase. The value of the gold production in the first eight months of 1934 was \$46,751,709 compared with \$33,569,744 in the corresponding period of last year, both totals being in Canadian funds.

Tonnage milled also shows a big increase, standing at 4,141,295 tons in the eight months of this year against 3,687,630 in the first eight months of last year.

There are now 26 gold producers in Ontario, the list in the north-western Ontario district having been increased to 9.

LENNOXVILLE

MOTHERS GUESTS OF HONOR AT W. M. S. TEA The afternoon tea served yesterday in Douglas Hall by the Women's Missionary Society of the United Church was much appreciated by the invited guests, who were mothers of small children whose home duties prevent attendance at many of the social gatherings in the town. These were accompanied in many cases by their babies or small children, and all greatly enjoyed the gathering.

The committee in charge was convened by Miss C. Johnston, and included Mrs. F. A. Titcomb, Mrs. Pryde, Mrs. R. E. Mosher and Mrs. Harold Bassett, who capably attended to all details of the highly successful tea.

General Notes Mrs. E. J. Crawford and her niece, Miss Jennie Machell, spent several days in Montreal, guests of Miss D. Reed and Miss H. Hatcher. Children's concert, rhythm band, butterfly drill, minuet, etc., Douglas Hall, Friday, 8 p.m.

"You haven't mended my socks," remarked hubby on arriving home from the office. "Did you buy that coat you promised me?" countered wife. "Well, er, no—I was replying when she broke in with: 'Then, Herbert, if you don't give a wrap, I don't give a darn.'"

ST. ANDREW'S LADIES' AID HELD BUSY SESSION Meeting under the presidency of Mrs. H. R. Ross in St. Andrew's Church hall yesterday afternoon.

The president acted as hostess at the tea hour, and Mrs. Lewis Dunsmore presided at the tea table, which was centered with autumn flowers in a silver basket. Assisting were Mrs. W. H. Harris and Mrs. J. S. Baldwin.

PRESIDENT ENTERTAINED BAPTIST LADIES' AID Mrs. J. Byrd, 414½ avenue, president of the Ladies' Aid of the Baptist Church, entertained the members at their opening meeting yesterday afternoon, when there was an unusually large attendance.

Miss Mullins is very well known throughout the business circle of Sherbrooke and surrounding towns, and was also consulted several years ago by the M. McKechnie home and latterly with the Florine Shop.

Considerable interest is centered around the little black and white shop at 77 Wellington Street North, where preparations are being completed for the formal opening of the Florine Mullins Ladies' Shop on Friday, September 21st and following days.

The Florine Mullins Ladies' Shop will have a large stock of gowns, particularly in the large and half sizes, Knitted Wear, Lingerie, Gloves, Hosiery and accessories and promises to provide an atmosphere that will appeal to the most refined taste.

LADIES' AUXILIARY PLAN IMPROVEMENTS AT Y. M. C. A. Taking up with renewed enthusiasm the work they so splendidly sponsored last season, members of the Y. M. C. A. Ladies' Auxiliary met at Mrs. J. C. McConnell's home on London street to discuss plans for future activities.

TEA AND MUSICAL DELIGHTFUL EVENT Yesterday afternoon was delightfully spent by those who attended the tea and musicale in Wesley Hall, sponsored by the Women's Auxiliary of Trinity United Church. Mrs. J. Lowe, the president, received, and her cordial welcome, together with the homelike surroundings, at once created a pleasant social atmosphere.

Flower bedecked tea tables were placed about the hall, and the large tea table, at which Mrs. W. S. Lennox presided, was also prettily arranged with flowers and matching chandeliers. Mrs. George Aubrey, Mrs. Rainey and Mrs. J. E. Cutts, who

were in charge of the tea, are to be congratulated upon the innovation of hot toasted cheese sandwiches, which were made by Mrs. S. Emerson and Mrs. W. E. Hodge and were delicious.

Mrs. Shorten and Mrs. Morehouse were in charge of the food table, which was laden with an assortment of most tempting viands.

Several young musicians contributed greatly to the pleasure and success of the afternoon by rendering vocal and piano solos. Miss Katherine Morrill and her guest, Miss D. McGill, of Texas, delighted every one in their vocal numbers, as did Miss Eva Kraushar, Mr. Norman Tracey and Miss Ethnor Morrill in their piano solos.

CLEANING WASHING MACHINE WITH GASOLINE LED TO EXPLOSION A tenant in Orens Mailhot's block at the corner of Marquette and St. Edward street gave the gears on his washing machine a thorough cleaning last night.

He used gasoline to eliminate all signs of dirt and grease. It was a hard job. The man took great care to make sure that the fire brigade had to be called to extinguish the flames.

He decided to inspect his work. But it was dark—too dark to see clearly. So he lit a match.

He did not get a chance to see what kind of a job he had accomplished. There was a loud explosion.

The man escaped unhurt, but the fire brigade had to be called to extinguish the flames.

MURDERED TOT'S BODY FOUND IN THE EAST WARD

Little Body, Trussed Up in Potato Bag, Discovered on Council Street—Infant Strangled to Death by Means of Towel Fastened About Its Tiny Neck.

The brutal murder of a newborn baby, strangled to death a few hours after birth, was discovered yesterday afternoon when a towel tightly fastened about its tiny neck, is being probed by municipal and provincial police today.

Evidence of the crime—one of the most repulsive to engage the attention of local police in a number of years—was uncovered late yesterday afternoon when the infant's body, trussed up in a potato bag, was found lying in the grassy ditch along Council street near Seventh avenue.

Omer Vallieres, twenty-five years old, Jean-Marie Rousset, medicolegal expert for the Province of Quebec, performed an autopsy last night, this investigation revealing that the child had been strangled shortly after birth.

The body of the baby was stark naked. The towel or rag had been tightly knotted about its neck that it had torn into the tender flesh, inflicting severe lacerations. Gustave Bussieres, fingerprint expert and photographer for the Provincial Police force, accompanied Dr. Rousset to Sherbrooke last evening to take fingerprints on the body, which was wrapped in a paper.

According to the police, the body was discarded by the side of the highway during the night of Tuesday to Wednesday. While the crime may have been committed in this city, the theory is also entertained that outsiders were responsible and disposed of the body within the limits of Sherbrooke in an effort to deceive the police.

The jurymen selected for the enquiry are Alphonse Bergeron, Lazare Daigle, Gedeon Palardy, Joseph Hamel, Leopold Dussault and David Letourneau.

The inquiry has been adjourned indefinitely. It wrecked their plans, and they had to flee empty-handed. Then another gang—or maybe it was the same gang, although that is impossible—tried to break into a Bury. Bury is only a few miles from Marlinton.

They tried to force open a door at the rear of the establishment. The door was barred from the inside. The burglars worked away with a crow-bar and did their best to pry open the door. They failed.

That failed too, so they went away. Evidence of the attempted robbery was discovered this morning. C. C. Haddock's general store in Lennoxville was also found to be "hard nut to crack."

Burglars went there too. They used a crow-bar as in Bury. Chaddock's door was barred from the inside—as Cathcart's had been. The robbers forced the door open a bit, but they could not get in.

And apparently they found no planks—or they had dismissed that bright idea as impractical—for they apparently disappeared after their unsuccessful attempt to pry open the door.

DEATHS REPORTED

MR. GEORGE STEPHEN RUDD, AYER'S CLIFF.

Ayer's Cliff, Sept. 20.—The death of Mr. George Stephen Rudd occurred at his home in Ayer's Cliff on Thursday, September 6th, after only a week's illness.

The funeral service was held in the Cassville Church on Sunday afternoon, September 9th, with Rev. C. Moore officiating. He used as his text the 1st four verses of the 14th chapter of St. John.

A quartette, consisting of Mrs. F. H. Rider, Mrs. W. H. Rexford, and Messrs. F. A. Johnston and M. W. Johnston, sang the hymns, "Asleep in Jesus," "Beautiful Isle of Somewhere," "Abide With Me," and "Nearer My God to Thee." These hymns and also the text were the same as were used for Mrs. Rudd who predeceased her husband sixteen years ago.

The bearers were Messrs. A. A. Blair, Fred Lawton, and W. D. Thompson, of Cassville, and A. H. Slack, Ayer's Cliff.

Interment was in the family lot at Cassville. The deceased was born in Dunham, Que., on February 1st, 1857, where he lived until 1905, when he and his family moved to Cassville, and later to Ayer's Cliff, where he died.

The deceased was a kind neighbor and a thoughtful friend. He leaves to mourn his loss, two daughters, Eva, Mrs. John Rule, and Mrs. Aza Lowell, of Keene, N.H., three sons, Loren, of Dunham, Que., Edward, of Lyndonville, Vt., several grandchildren and other relatives.

Other relatives. The home of Mr. and Mrs. Joseph Fleming was the scene of a very pleasant evening when over fifty of their friends and relatives gathered as a surprise to Mr. Fleming, the occasion being Mr. Fleming's sixtieth birthday. Cards and dancing were enjoyed until midnight when lunch was served.

A three-storey cake centered the dining room table with sixty lighted candles which looked very pretty. After lunch the party dispersed, all wishing Mr. Fleming many more happy birthdays.

Mr. and Mrs. O. Moore and family, of Drummondville, spent Sunday with Mrs. Moore's parents, Mr. and Mrs. Woodburn.

Mr. R. Newell is not gaining as rapidly as his many friends would wish. Much sympathy is extended to Mr. Charles Mitchell and Miss Joyce in their sad bereavement by the death of Mrs. Mitchell.

The Misses Ann and Amelia Morrissey, of St. Mary's Ely, spent a day with Miss Mildred Fleming recently.

Miss Clara Beason has gone to Montreal, where she has secured a position.

Mr. and Mrs. Allyson and family spent Sunday in Danville with Mr. Allyson's mother.

Mr. Harold Bean, of Wellesley, Mass., has been a guest for a few days of Mr. and Mrs. Fred Gilbert.

Mr. Freeman Sutton spent a few days in Lyndonville, Vt., as a guest of his brother, Mr. Walter Sutton, and family.

The Ladies' Aid held their regular dinner in the hall. The ladies entertained were Mrs. Fred Gilbert, Mr. and Mrs. Willard Pope. During the afternoon the members tackled a quilt.

Miss Ruby Rose, of Compton, spent the week-end at the home of her parents, Mr. and Mrs. Charles Rose.

Mr. and Mrs. Albert Parsons were in Coaticook to attend the fortieth wedding anniversary of Mr. and Mrs. Angus Mayhew.

Mrs. Levi Cleveland and Mrs. Hortense Rose were in Coaticook recently to attend a meeting in the Baptist Church, when Rev. Dr. McLaughlin, who has lately returned from the Baptist World Conference held in Berlin, Germany, was the guest-speaker and gave a most interesting address.

Mrs. Lillie Grey, of Libbytown, and Mrs. Price, of Sherbrooke, were recent guests of Mr. and Mrs. Friz Pope.

Guests on Sunday of Mr. and Mrs. Clemmer Converse, Mrs. Orene Dudley and son, Mr. Richard Dudley, of Orleans, Vt., and Mr. and Mrs. Charles Thornton and son, Guy, of Stanbridge East.

Mrs. Nina Smith, of Coaticook, is spending some time with her daughter, Mrs. Ernest Decoteau, and Mr. Decoteau.

SAND HILL The Ladies' Guild of Sand Hill held a successful chicken-pie supper and entertainment. The entertainment consisted of a short play given by Miss Eunice Paige and Mr. Milton Paige; a tableau by Misses Evelyn and Elaine Labonte and Mr. Orin Mason; recitations by Miss Myrtle Desruisseaux; songs by Mrs. James Swinden and Mr. Douglas Lofthouse and a piano solo by Miss Miss Millicent Marlin. Miss Elaine Labonte won the quilt which

was raffled. Miss Eunice Paige presided over the sales table. Mr. and Mrs. F. Haddock, of Lee Centre, N.Y., Mr. and Mrs. Charles Mussen and son, Ervin, of Rome, N.Y., were recent guests of Mr. and Mrs. C. Richardson.

Miss Mary Richardson was a recent guest in Ives Hill. Mr. Oren Mason has left for his home in Saint John, N.B.

Mrs. Ray Coates entertained the Guild at her home. A most enjoyable afternoon was spent in work and social intercourse. At the close the joint hostesses, Mrs. O. Paige, Mrs. Ray Coates and Mrs. S. Brazeal and Miss Mabel Paige served lunch.

Miss Rhoda Butler, of Albert Mines, spent the week-end at her home. Miss Marion Paige has returned to Brooklyn, N.Y., after spending the holidays as a guest of her parents, Mr. and Mrs. L. M. Paige.

Several friends of Miss Rhoda Butler gave her a surprise party on the occasion of her birthday. Miss Mary Bell is a guest of her sister, Mrs. Lofthouse.

Mrs. Hall is a guest of her daughter, Mrs. E. Labere, at her home in Lyndonville. Mr. Gladwin Blodgett are very sorry to hear of his illness.

Mr. and Mrs. J. A. Copping have been in Weedon, guests of Dr. and Mrs. Johnston at their cottage.

FORDYCE Mr. and Mrs. J. D. Dryden and Mr. and Mrs. Earl Dryden were in Lechate on Tuesday of last week to attend the funeral of the aunt of Mr. Stevenson and Mrs. Dryden.

Miss K. Moore visited relatives in Ottawa over a recent week-end. A reception was held at the home of Mr. and Mrs. W. E. Dryden in honor of their youngest son, Archie Dryden and his bride, who will make their home in Fordyce.

Mr. and Mrs. H. G. Perkins and son, Alan, of Farnam's Corner, were Sunday guests at Mr. G. R. Hooper's.

Miss Livia Ingalls is staying at the home of her brother, Mr. H. C. Ingalls near Swetsburg, in the absence of Mrs. Ingalls, who entered the Montreal General Hospital for observation on Monday last.

Mr. Taisey has arrived here from Pittsburgh, Pa., to join his wife and family at the home of Mr. A. Vaughan.

Mrs. Hugh Dey, Mr. George Dey and Masters Walter and Grant Dey motored to Montreal on Sunday, where they were guests of relatives.

Mrs. G. R. Hooper spent a few days at the home of her sister, Mrs. J. M. Ladd, at Bondville.

Mr. and Mrs. Mason and Mr. Murray Mason attended the funeral of Mrs. Claude Darby near Iron Hill on Friday. Sympathy is extended to Mr. Darby in the loss of his wife, whose early life was spent in this vicinity.

"Do you understand the nature of an oath?" "Do I? Ain't I your caddie, your worship?"

ELLSWORTH'S EXPEDITION SETS SAIL FOR ANTARCTIC

Wyatt Earp Sailed Out of Dunedin, New Zealand, This Morning Bound for Frozen Country to the South.

Dunedin, N.Z., Sept. 20.—Lincoln Ellsworth and his fellow expedition members sailed today for the Antarctic aboard the Wyatt Earp.

Early in the year when Ellsworth returned from the Antarctic after the failure of a previous expedition, he said he was just about through with deliberate adventure.

"I want to make one more flight—then I'm through," he said in reference to his ill-fated South Polar expedition.

The explorer recently denied his plans called for the delivery of medical and food supplies to Admiral Byrd's camp, as was published in a statement by Dr. Francis Goman, of Baltimore, Ellsworth's physician.

On the occasion of the approaching marriage of Miss Kathleen Morin, of Sherbrooke, her sister, Mrs. A. J. Philip, entertained for her at a miscellaneous shower, the numerous gifts being presented in a daintily decorated basket.

Canada in the Autumn ... A picture that all should see.

In the opinion of many experienced people, the best time for enjoying railway travel is now. Canada's vast areas of forest and lake are taking on their autumnal splendour.

Those whose vacations are still to come and those whose affairs cause them to travel, are fortunate. They should not miss the panorama of grandeur which Canada is now providing.

To do so is not an expensive or wearying experience. In pursuance of their policy of rendering as great service as possible, the railways are making special arrangements at exceptionally low fares to enable the public to take full advantage of this fall season.

A new autumn feature which goes into effect on Canadian railways on the twenty-first of September and continues in force until the second of October is the cent-a-mile rate between Eastern and Western Canada.

For shorter journeys, the C.N.R. is providing numerous short limit special fare excursions, as well as low fares for trips extending over longer periods and week-ends.

To those whose time is limited and to those who have been hesitant about taking a long vacation, the special provisions for this season should particularly appeal.

SOPWITH BEAT AMERICAN RIVAL TO STARTING LINE THIS MORNING

British Challenger for America's Cup Sent Endeavour Across Starting Line in Weather Position and Increased Lead to Two Hundred Yards After Forty Minutes—Early Advantage Was Unexpected as Blue-Hulled British Craft Was Not Considered as Her Best in Four-Knot Breeze—Sopwith Is Heavily Favored to Return "Old Mug" to England.

Aboard U.S. Coast Guard Cutter Mendota, Newport, Sept. 20.—T. O. M. Sopwith sent his British Challenger for the America's Cup, the Endeavour, across the starting line in today's race in the weather position and slightly increased his lead after thirty-six minutes.

Harold S. Vanderbilt aboard the Rainbow, defending, broke out his spinnaker for the run down the wind ahead of Sopwith and when the Annie Oakley, perforated kite, was set aboard the Endeavour she failed to fill properly in the light airs. Vanderbilt picked up a bit but when the Endeavour's sail began drawing it pulled ahead faster than the American.

The advantage was unexpected as the blue-hulled challenger was not considered as her best in the four knots breeze. The Rainbow went much faster on Saturday in conditions similar to those today. That race was declared a draw when neither yacht was able to finish the course within the five and a half hour time limit.

The day's course was thirty miles leeward-windward with the first leg a fifteen-mile run to the southwest and then a short tack home. Forty minutes after the start the Endeavour had pulled out to a clear advantage of two hundred yards and appeared to be increasing her margin every minute. The Rainbow luffed slightly to blanket the Endeavour, but Sopwith met the maneuver by luffing clear of the threat. The challenger was doing a little better than six knots in the light breeze.

Vanderbilt worked the Rainbow out a little to weather of the Endeavour's wake, but Sopwith had his wind clear and did not appear to be tarrying.

An hour after the start Endeavour had opened up a lead of half a mile and had completed about half the distance to the outer mark. Both yachts were to weather of the course, Rainbow a quarter of a mile more than Endeavour. Both skippers were allowing for ebb tide at 11:45. Vanderbilt set his Genoa, inside the spinnaker. The wind was hauling easterly and might make for a close reach home, the defenders best sailing point.

INTEREST OF PRESIDENT CAUSED CONTINUED DELAY

Newport, R.I., September 20.—The Endeavour and the Rainbow, representing the finest handwork of rival British and American yacht builders, were under tow early this morning bound for the jousting ground off Brenton's Reef, where their skippers, T. O. M. Sopwith and Harold S. Vanderbilt, will for the fifth time in six consecutive years prepare to lance for possession of the America's Cup.

Sopwith, at the helm of the challenger, has already won two knightly encounters. He must win two more before Vanderbilt has won four in order to succeed in his quest.

The opening contest sailed last Saturday was called off owing to expiration of the time limit, with the defender in the lead, and yesterday the yachts lolled about the starting line lacking steerage-way for the greater part of two hours, when the sailing committee decided upon a postponement until today.

It was believed that the entire period of delay under the Cup rules was used up rather than postponed earlier when the obvious fact was that the situation was apparent to all, because President Roosevelt sat nearby on the deck of the Astor yacht Nourmahal, hoping for a final glimpse of the races. He had to leave anyway later in the day, sailing for Poughkeepsie on the four-masted mahal. The President's staunch yachtman, departed reluctantly. He has been here since the first starting gun.

Weather sharps still were shaking their heads last night over the possibility of further postponements due to lack of wind. The forecast run in cycles in these waters, by various processes of divination, the men who know about wind, including the chart makers, declared there was no real air east of Omaha.

The record for postponements in America's Cup races goes far back to 1899 when the Columbus and the Shamrock I led the fleet out to the course off Sandy Hook lightship thirteen times before completing three races. There was one postponement, because of fog that kept all ships in the harbor here, four years ago when Enterprise beat Shamrock V four straight.

There was a promise of wind early this morning and indications were that a start at least would be made.

With the Endeavour holding a two race lead, there is no purpose in concealing the danger to the challengers of returning to England after an eighty-three year absence. "I believe," said the defending skipper Vanderbilt, "that the Rainbow has been made as fast as it is possible to make her. All possible changes were tried in the trial races and those that helped her were made. There is nothing I know of we can do to improve her. The Endeavour is a very fast boat. She has more stability than the Rainbow and that is an advantage in a strong breeze."

Vanderbilt did not say so, but he knows that ability of a boat to stand up in a strong breeze is a decided advantage to a yacht beating to windward, but a handicap in faint zephyrs. Most observers are of the opinion that one of the Rainbow's advantages in light weather is the ability of her new to handle light sails faster than the British.

BETTING ODDS JUMP IN BRITISH FAVOR

Newport, R.I., Sept. 20.—Practically the only money that is being offered around here is for the Endeavour with the result that the betting commissioners pushed the price up again yesterday.

The British sloop is now an overwhelming favorite to take the America's Cup home, and a four to one choice to capture the series.

Just before the series began Endeavour was an eight to five favorite, but this price had dwindled to six to five by the time the yachts went out to the starting line on Saturday. After Saturday's sail, when neither boat was able to finish the light air, the Rainbow became the six to five favorite.

With the Endeavour's first victory she went back as the choice but only six and seven to five was being quoted. With her second triumph, the odds took a quick jump and now with a flood of Endeavour money, the highest price thus far has been set.

The Endeavour likewise is favored to win today's race, seven to five being quoted.

CUP ON DISPLAY IN NEW YORK STORE

New York, Sept. 20.—For the second time in more than thirty years, the silver-plated America's Cup was on public display today in a Fifth avenue window.

Its actual silver worth less than \$500, the historic cup usually rests in the vault at Tiffany's, surrounded by some of the world's more precious jewels. But while those stones are for sale, the America's Cup is beyond purchase.

It is a permanent challenge trophy and is held by any nation that can win it—until another challenger takes it away.

Yachtsmen of the United States have spent millions defending this piece of old-fashioned bric-a-brac since Commodore J. C. Stevens, of the New York Yacht Club, brought it over in 1851. Britons have spent even more millions trying to get it back.

The cup weighs 134 ounces. It is made of solid silver and is an alloy. It is not regarded as much of a thing of beauty by present standards of taste. It is too ornate. It is not old enough to be classed as an antique. It is twenty-seven inches high, has a circumference of thirty-six inches in the body and of twenty-four inches at the base.

The cup bears the English hall mark and stamp of R. & S. Gardner, Pantons street, London. The United States won this cup the first time it was ever offered and has kept it ever since. It was created by the Royal Yacht Squadron of Great Britain in 1851 to the winner of a race around the Isle of Wight and all nations were invited.

A group from the New York Yacht Club in the schooner America sailed to Atlantic to compete in the event and a few weeks later they sailed back to New York with the trophy.

Once before during one of Sir Thomas Lipton's challenges, it was placed in Tiffany's window.

BLUENOSE SKIPPER WOULD LIKE TO RACE CUP YACHTS

Quebec, Sept. 20.—Nothing would give Capt. Angus Walters greater pleasure than a tilt between the schooner Bluenose and winner of the America's Cup contestants, Endeavour or Rainbow. The skipper of the speed champion of the fishing banks gave vent to his hobby during a dinner tendered him at the Quebec Garrison Club yesterday by a group of local sportsmen.

"How do you think your boat would shape up against either of the two yachts?" Angus was asked by one of the guests at the dinner while the international yacht race was being discussed.

All right," the Nova Scotia skipper replied, "and I'd like the idea very much. Give the Bluenose a good, healthy fisherman's blow and she'd gallop along at a pace that would surprise the Cup yachts. You know," the captain went on, "my schooner would be right in her element in weather that would make the Endeavour and Rainbow run for cover."

FIVE CANADIAN GOLFERS REACH QUARTER-FINAL

Two Toronto Shotmakers and Lome Survivors from Montreal, Ottawa and Vancouver Left to Fight British Invasion in Canadian Ladies' Open Golf Championship.

Toronto, Sept. 20.—A field reduced to eight starting players, all led under the withering fire of the keenest competition, will be put to a further grueling test today in the quarter finals of the Canadian ladies' open golf championship.

Five stalwart Canadians, all of whom have previously tasted the thrill of title victory, won their way into the select third-round brackets yesterday, to accompany three equally brilliant British invaders along the championship trail.

Out of the original brigade of twelve Torontonians that qualified for the championship fight, only two were in the chase today—Miss Ada Mackenzie, the title defender, and Mrs. F. J. Mulqueen, Montreal's Mrs. A. B. Darling, Mrs. W. G. Fraser, of Ottawa, and Mrs. C. B. Ford, of Vancouver, were the other survivors among the home forces.

All resolute defenders and renowned shotmakers, their path to the semi-final brackets was far from an easy one, with three of Britain's greatest stars fighting for the honor of being the first to take the crown aboard since 1922. The trio were Miss Doris Chambers, captain of the Curtis Cup team and former British open champion, Miss Molly Gourlay, ranking player from Surrey, and Miss Diana Plumpton, a rising star who shot her way into the open last year.

With the exception of Miss Mackenzie and Miss Chambers, the quarter finalists gained clean-cut decisions in yesterday's battles. Mrs. Ford, who eliminated Mrs. M. B. Harbaugh, of Willoughby, Ohio, the lone American challenger, scored the most lop-sided decision, six up and five to play, while Mrs. Mulqueen returned to her best form with a wax-crushing five and four verdict over Mrs. R. Holmes, another Torontonian.

Miss Mackenzie staggered into the quarter finals by brushing aside a determined bid by Mrs. B. B. Walker, Irish internationalist, to dislodge her of her crown. The title tottered precariously under the withering assault of her adversary, but the plucky Torontonian weathered the crisis to gain the verdict by the margin of a single putt on the eighteenth green.

Miss Chambers continued her forward march by disposing of her travelling companion, Mrs. Alec Gold, by two and one in a throbbing struggle. Mrs. Gold, holder of the championship of Buckinghamshire, owed her defeat to frequent lapses on the greens and an overdose of bunker exploration.

Molly Gourlay accounted for the lone remaining Hamilton hope, Miss Mary Hunter, who found the brilliant Surrey champion a veritable magician around the greens as she marched to a four and three victory.

Darling, who alone is carrying Montreal's hopes, shattered the aspirations of Evelyn Mills, a demure Ottawa miss, in another duel that ended at four and three. Fresh from her victory over the Scottish internationalist, Mrs. Darling virtually clinched the issue on the outward nine.

Miss Plumpton rounded out the British trio and in her advance delivered a knockout blow to Alberta's happy-go-lucky champion, Mrs. Roy H. Horne, of Edmonton. Playing the most spectacular golf of the invaders, Miss Plumpton gave the westerner few openings in her four and three conquest.

In another hectic battle Mrs. C. S. Eddis, of Toronto, fell before the wizardry of Ottawa's remaining hope, Mrs. Fraser, by four and three.

In today's crucial tests Miss Mackenzie exchanges shots with Miss Chambers, while Mrs. Darling has drawn Miss Gourlay in another international battle. Mrs. Fraser will encounter her toughest hurdle to date, the long-hitting Miss Plumpton, and Mrs. Mulqueen and Mrs. Ford will meet in an east-against-west trial of skill.

RECORD ENTRY FOR U.S. WOMEN'S OPEN

New York, Sept. 20.—The biggest entry in eleven years—157 players—will tee off on October 1 in the eighteen-hole qualifying round of the thirty-eighth women's United States golf championship over the Whitemarsh Valley Country Club links in Philadelphia, seeking the sixty-four match play places.

All of the country's ranking players, in addition to a formidable group of invading stars from Great Britain, are included in the largest field since 1923, when the starting list totalled 196.

Ada Mackenzie, the Toronto veteran who is now defending the Canadian title in her home city, and Mrs. F. J. Mulqueen, also of Toronto, will try to take the American title back to the Dominion. Nancy Farman is a candidate from Bermuda.

The nine members of the United States Curtis Cup team, which will meet a British side in a renewal of the international series in Washington next week, and nine members of the British squad top the entries.

Virginia Van Wie, of Chicago, who has held the championship for the past two years, has been paired with Dorothy Plumpton, runner-up for the English championship in 1933, for the qualifying round.

YANKEES KEEP SLIM PENNANT HOPE BURNING

New Yorkers, Smarter Under Two, Straight Shutout Setbacks, Defeated Tigers to Clip Full Game Off Detroit's Lead—Giants Added Half Game to Margin Over Cards.

The New York Yankees kept at least kept the pennant-bound Tigers from adding insult to injury by clinching the American League pennant at the expense of their nearest and most durable rivals, but that does not seem to have made much difference in the flag race.

After two scoreless innings in Detroit, the Yanks broke loose with a run yesterday, then, having broken the charm of Tiger pitching, went on to knock Elden Auker around for a three-run burst in the sixth stanza and won by five to two. The only tangible results were that the Tiger lead was reduced to six and a half games and they were left needing four victories to clinch the flag—only three if the list includes a triumph over the Yanks today.

The Giants staged a gain in the National League race when they won a game from Cincinnati and the second-place Cardinals lost a double-header because of rain at Boston. New York's six to four triumph over Cincinnati increased the Giants' margin to four games.

The third-place Cubs retreated to seven and a half games behind the Giants, putting themselves on the ragged edge of elimination as they took a five to four setback from the Phillies and Curt Davis, who allowed only seven hits and drove in two runs.

Brooklyn continued to make life miserable for the Pirates, winning a double-header by scores of four to one and eight to four with heavy hitting behind Van Mungo and Johnny Babich.

The Athletics climbed to fifth place in the American League with a double victory over the White Sox by scores of five to three and four to one.

St. Louis took a single decision from the Red Sox by three to two. The Senators, now seventh, squared their series to two decisions behind Bob Burke's steady elbowing.

wick, of England, playing partners. Mrs. Vane was runner-up to the slender Briton in the 1930 English championship.

The only notable absentee is Helen Hicks, the 1931 champion, who forfeited her amateur standing last June when she became America's first "business woman golfer."

YOUNGSTER LED AMATEURS IN NEW ENGLAND TOURNEY

Providence, R.I., Sept. 20.—An eighteen year old schoolboy who rook two days and a night in a bus to play in the United States amateur golf championship at Brookline failed to survive the first round of match play there last week, but Tommy Wright, who has never won a title, has found that his long trip from Knoxville, Tenn., was not entirely in vain.

Wright, who stands six feet three, proved himself the outstanding amateur in the New England P.G.A.'s open tournament which ended yesterday. He played the seventy-two holes in 287, a stroke under par, and finished fourth behind three nationally famous professionals.

Leo Diegel, the Philadelphia ace, took the \$500 first prize with an aggregate of 283, and Denny Shute, of Philadelphia, and Joe Turnesa, of the Elmsford, N.Y., golfing family, tied for second place at 284, splitting \$700.

DANVILLE CLOSED SEASON WITH VICTORY

Danville, Sept. 20.—A twelve-point victory over a visiting squad from the Belle View Golf Club, Richmond, marked the conclusion of Danville's schedule of inter-club matches. Thirty-two players took part in the closing event which resulted in an eighteen to six triumph for the home forces.

Following a match which was played in ideal weather conditions, a delicious baked bean supper was served by Mrs. A. McIntyre, Mrs. C. Brown, Mrs. D. H. Parmelee, Mrs. W. R. Soutar, Mrs. A. Moulton, Mrs. J. Wilson, Mrs. W. Greer, Mrs. A. E. Leet and Miss Gwen Elliott. The club house was attractively decorated for the occasion with fall flowers.

The detailed results of the match follow: Danville 12, Richmond 6. J. O. L. Smith 3, G. Pearson 0. S. Dawber 3, M. L. Ross 0. T. Heron 3, M. Alexander 0. E. Smith 3, W. Frazer 0. J. Cleveland 3, S. TORONTO MAPLE LEAFS ANNEXED SERIES OPENER

Canadian Contenders for International Baseball League Pennant Registered Three to Nothing Victory Over Rochester Red Wings in First Game of Title Series.

Toronto, Sept. 20.—The Toronto Maple Leafs were one up on the Rochester Red Wings today in their final International League play-off and apparently headed for their first International League pennant since 1926.

Before 8,000 wildly cheering fans the Leafs beat the Red Wings by three to nothing in the first of the best four-out-of-seven series that will determine the league's representative to meet the American Association pennant winner in the annual Little World Series.

A combination of timely hitting, two-hit pitching by Fred "Sheriff" Blake and brilliant fielding gave the Leafs to victory. Blake, who once tossed in a Red Wing uniform, was almost invincible after a shaky start and allowed only fifteen men in the last five innings.

"Lefty" Michaels was almost as good as Blake. He allowed five hits, struck out only one and didn't allow a walk. The "Sheriff" struck out three and passed one.

The teams resumed the series under the lights here tonight. Norbert Kleinke probably will help for Toronto's team, while Ike Boone, the Leafs' manager and right fielder, will send Whitey Hilcher to the mound for two straight victories.

COLUMBUS FAVORED IN ASSOCIATION SERIES

Minneapolis, Sept. 20.—Columbus became the odds-on favorite to win the American Association baseball championship yesterday after winning the second game of the play-off series from Minneapolis by two to four. Minneapolis, which finished the regular season in first place, dropped the first game on Tuesday.

The first team to win four games will meet the International League champions in the Little World Series.

YESTERDAY'S STARS

Outstanding players in yesterday's major league games were: Bill Terry, Giants. Made four of team's thirteen hits in beating Reds. Van Mungo and Johnny Babich, Dodgers. Checked Pirates with six and eight hits, respectively, to win double-header.

Tony Lazzeri, Yankees. Drove in two runs, double as the Yankees defeated the Tigers.

George Caster and Joe Cascarola, Athletics. Former held the White Sox to four hits in the first game and the latter allowed only three in the second contest.

KEEN CONTEST IN PROGRESS FOR BATTING HONORS

With three hits in five times at bat, Heinie Manush, Washington's slugging outfielder, yesterday advanced within one point of a tie with Lou Gehrig for the American League batting leadership as three members of baseball's "Big Six" showed gains. While Gehrig was going hitless to lose two points, Manush boosted his average to .356.

In the National League Bill Terry won four hits and a grand slam in four points to send his average to .350, eight points below Paul Waner, who lost a point despite two hits in a double-header. John Moore took undisputed possession of the third position in the senior league's trip with three safe blows in four trips to the plate.

The standing to date follows: Players G. AB. R. H. P.C. P. Waner, Pirates . . . 136 562 112 201 358. Gehrig, Yankees . . . 145 552 132 197 357. Manush, Senators . . . 133 539 89 192 356. Terry, Giants . . . 144 563 126 199 354. T. Moore, Phil. . . 121 454 60 155 342.

TENNIS

MONTREAL PLAYERS WILL WIND UP LOCAL SEASON

The annual excursion of ranking provincial tennis players to Sherbrooke will be made Sunday afternoon when one of the Dominion's leading doubles team will invade this city for an exhibition series against local talent. Final arrangements are being made today for the anticipated visit of Roland Longtin and his doubles partner, Henri Paul Emard, of Montreal, who will be accompanied by two ranking metropolis lady performers.

Longtin, the recently extended internationalist, in the United States national singles tournament, will in all probability be opposed by Wilson "Bill" Beck, runner-up to "Bill" Crocker in last year's Eastern Townships tournament.

Paul Emard's opponents will be selected from leading local players. The committee in charge of the Montrealers' visit also expects to arrange matches for the lady players against Sherbrooke opposition.

The bus conductor had not noticed the hole in the threepenny bit until he had gone well down the bus. After he had finished collecting he returned to the culprit. "Here, gov'nor," he said, thrusting the coin "before the man. 'What's this?' asked the fare calmly. "This 'ere threepenny bit," said the conductor. "Look, it's got a 'ole in it." "Well, what about it?" said the other. "So has the ticket you gave me."

SOBIE SQUADS WON SOFTBALL GROUP TITLES

Banquet Tended at Farnham to Sobie Aggregations which Captured Championships in Men's and Ladies' Softball Leagues—Men's Team Defeated Yamaska in Finals.

Farnham, Sept. 20.—A typical example of the growth in the popularity of softball in the Eastern Townships has been furnished this summer by the Farnham softball circuit. The venture proved the most successful endeavour in the sports history of the town, forty thousands, spectators witnessing the regular scheduled games and the post-season play-off series. The various entries revealed such improvement on the Farnham material with the leading aggregations in the Eastern Townships.

The Yamaska squad finished the schedule in first place, but their principal rivals, Sobies, outclassed them in the playdowns, capturing three straight victories. More than one thousand fans attended the third game, which resulted in a five to two triumph for Sobies. The Farnham municipal band supplied music for the occasion, and the regular nine innings were played, the last frame being staged in rapidly-approaching darkness.

As a result of the showing they made during the season the Yamaska boys were favored to annex the title, but Sobies played a stellar brand of softball and turned the tables. The pace-setters were unable to regain the form which had swept them to the top of the circuit, while their opponents maintained a steady pace to finish on the long side of the final count in the play-offs.

Following the champions' third straight conquest, Mr. and Mrs. Sobie entertained at a banquet in Martin's Hotel. The guests of honor were the Sobies ladies' squad which captured the honors in the girls' league, and the Sobies men's team, champions of the Farnham Softball League. With the genial host and hostess were Farnham's leading citizens, league officials and umpires, and representatives from the other clubs. The spacious dining room was attractively decorated with ferns and gladioli.

Mayor Gosselin acted as chairman and congratulated the new title holders and the officials on the success they had experienced during the past season. His Worship urged his listeners to continue their endeavours, remarking that the renewed interest in local sports is a furnishing of much recreation for the public apart from benefiting the players themselves.

The principal speakers of the evening, Messrs. B. Sobie, O. Adam, V. Edstone, F. Brodeur, R. Arpin and Alderman R. J. Redge, congratulated the winning teams and outlined the role J. Kraft, the Sobies' mound ace, had played in the success of the teams through his patient supervision and expert coaching during the entire season.

Mayor Gosselin presented the trophies placed in competition. Mr. O. Adam to Miss Sobie, pilot of the girls' squad, adding a few words of congratulation to the girls' popular leader.

During the evening music was furnished by H. Richard and W. Millen, the latter accompanying John Morgan in his rendition of "My Two Sweethearts."

Other guests called upon to contribute brief remarks included Miss Sobie, Mrs. O. Adam, Mrs. B. Sobie, and Messrs. G. Leclair, J. Kraft, Mrs. G. Leclair, Miss B. Domey, Miss Ledee, Miss Maynard, Mrs. Sobie and Messrs. G. Leclair, J. Kraft, A. W. Harris, C. Morrisette, E. Sobie, L. Baker, A. Schulman, J. Bertrand, George Morgan, I. Frishling and A. Goldberg, all of whom made special mention of the sportsmanship and generosity of Mr. B. Sobie, the managing ability of the league officials and the experienced coaching and leadership of J. Kraft.

The banquet terminated, the room was cleared and the guests enjoyed dancing to an appropriate conclusion to the festivities.

RACING

ENGLISH HORSE WON IRISH ST. LEGER

The Curragh, Ireland, Sept. 20.—W. M. Barrett's Premier, one of the best of English three-year-olds, won the Irish St. Leger today by a length and a half over Sir Thomas Dixon's Cariff with H. J. DeLaforce's Portugal third by three lengths.

Eight three-year-olds went the mile and six furlongs of the race, corresponding to the English classic run at Doncaster recently. Premier, with Cecil Ray up, started odds on favorite at 4 to 7. Cariff was 2 to 1 and Portugal 10 to 6.

Mrs. Dunne's Wagon Hill was fourth.

BOXING

CHAMPION WILL TAKE UP CHALLENGE NEXT MAY

New York, Sept. 20.—The suggestion that Jimmy McLarnin defend his recaptured welterweight crown against the lightning fists of Barney Ross in Chicago before the snow flies was K.O.'d yesterday.

Charles "Pop" Foster, advisor and manager of the Vancouver veteran, today stated: "Next May will suit us better and we will be glad to fight for the New York milk fund. Ross and his managers were good sportsmen. They gave us a return match in a couple of months and we will give them the first crack at the title again. The milk fund and Christmas fund promoters have treated us splendidly and I am anxious to fight for one of these worthy funds in the near future. I think Ross feels the same way, but May is a long time off and the picture may change. However, if Ross is still up there he is the man we want."

Jimmy, wearing dark glasses as a disguise and screen for the left eye Ross discolored when he fought the knockout last Monday and Ross, accompanied by "Pop," went to a Broadway movie house and watched the pictures of the sensational fight. McLarnin said afterward that he believed the pictures clearly showed he earned the verdict.

The writer later and his manager will sail next week for the British Isles. Sam McLarnin, Jimmy's admiring dad, will join them in his native Ireland later. They plan to stay abroad until after the Christmas holidays.

SPLENDID NEWS SERVICE GIVEN ON CUP RACES

No Expense Spared by Press Service in Keeping Entire World Informed About Progress of America's Cup Contests at Newport.

New York, Sept. 20.—Everett Morris, one of the New York Herald-Tribune's host at Newport, R.I., reports by his paper today:

"The most expensive correspondent among the droves of yachting experts, feature writers and straight men covering various phases of America's Cup series is Harry V. Spurr, the Bayside Yacht Club ace committee man, who is doubling in lead pencils on board the communications ship Norsaga as special informant for the Australian Broadcasting Company.

"Every word he scribbles as he sits among the soft cushions and upholstery of Norsaga's fantail costs his temporary employers \$1.98. "Spurr's accurate reports on the progress of the race—if any—are received in the Sydney office of the A.B.C. and then read into a microphone that flings them into every corner of the big continent down under.

The Bayside yachtsman's few hundred words are but a tiny drop in the stream that flows out of here every day. A check of the business done by the two telegraph companies and the rival communication corporations indicates that about 120,000 words are flashed over land wires and through the air daily to press associations, newspapers and magazines the world over."

"Of the outstanding personalities among the seafaring typewriter-manglers, Mr. Morris said: "Then there is Tom Horgan, Associated Press staff writer, the man from Antigonish, N.S., the chautauquian and poet laureate of the Yachting Writers' Association of America. When Joe King, steward of the group, serves the daily lot of rum, Horgan is wont to burst into songs that would have done credit to the fo'c'sle of a Yankee sea clipper."

"To Horgan and Bill Taylor, another writer mentioned among the outstanding personalities," Morris pays the tribute: "They have worn more salt water out of their socks than many of their conferees have ever sailed on."

The Sherbrooke Record has provided its readers with the latest reports since the start of the race last Saturday. Linked to the scene of the races by its Canadian Press wire, the Record receives every detail of the contests immediately and as rapidly releases its news to an interested public. The Record's first edition since the start of the race prevailing at the start of each race, how the rival sloops fared as they flashed across the line and which sloop is leading after the first few miles, while the late edition contains the final result when conditions permit the winner to negotiate the course within the time limit of five and a half hours.

Hundreds of telephone calls are answered daily as Record readers seek the latest development. Calls start hours before the starting gun is fired and continue long after the news flash announces the winner.

SYNOD SEEKING AMENDMENTS TO COURT SYSTEM

Adoption of Borstal System of Separate Courts and Prisons for Youthful Prisoners Urged by Anglican Body in Canada.

Montreal, Sept. 20.—Possibility of the thirteenth General Synod of the Church of England in Canada, in session here for the past week, would adjourn tonight was expressed this morning as meetings for the day began. During yesterday's sessions it was unofficially indicated today might be the last day of the Synod.

Suggestions that Canada adopt the Borstal system, used in England, and provide separate trials and separate prisons for youthful criminals were made yesterday. A resolution was passed urging the Parliament of Canada to adopt similar legislation to the Borstal system for boys between sixteen and twenty-one years of age. Motion for the resolution was made by Magistrate J. E. Jones, Toronto, and seconded by Most Rev. J. C. Roper, Archbishop of Ottawa. Archbishop Roper undertook to bring the suggestion before the Government.

Among those who supported the motion for adoption of a system similar to England's Borstal system were Rt. Rev. J. A. Richardson, Bishop of Fredericton, Rt. Rev. A. Sovereign, Bishop of Athabasca, and Chancellor F. H. Gibson, Ottawa.

Rev. R. K. Naylor, Montreal, and Rev. Philip Carrington, Lennoxville, Que., asked that length of service rather than the amount of stipend should determine the amount of pension under a country-wide pension scheme. The suggestion was approved by the Synod.

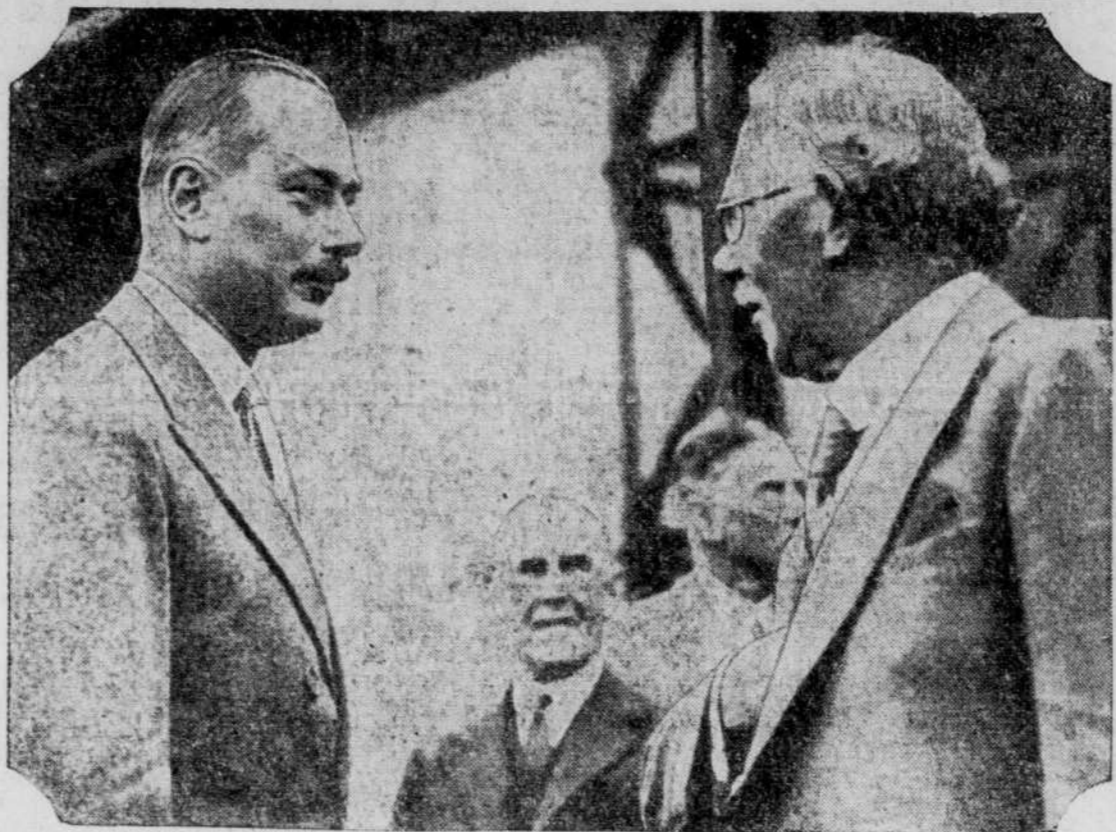

Last night a new department—the Department of Lay Work and Publicity—was added to the Church on motion of Chancellor R. V. Harris, Halifax. The motion was seconded by Sir Henry Drayton, former Canadian Minister of Finance. Organization of the department is expected to be completed before the Synod.

CONTRIBUTIONS IN PAST YEAR SHOWED GAIN.

Montreal, Sept. 20.—Contributions to the Church of England in Canada during 1933 amounted to \$5,272,000, according to the statistical report approved last night by the General Synod.

Although this was an increase over \$5,141,000 in the preceding year, Rt. Rev. W. R. Adams, Bishop of Kootenay, who presented the report, pointed out it included

LINK TROTZKY WITH ATTEMPT AT REVOLUTION

Spanish Authorities Proved Capable of Quelling Red Revolution Scheduled for This Morning—Machine Guns Cover Madrid.

Madrid, Sept. 20.—The name of Leon Trotzky, exiled leader of Soviet Russia, flashed into the picture today as a revolutionary uprising scheduled for daybreak proved abortive.

Rafael Salazar Lonsa, Minister of the Interior, described plans for the rebellion as "Trotzky's strategy, mixed with American gangsterism."

There have been persistent reports that Trotzky, ordered from France last April for revolutionary activities, had been seen in Catalonia recently. Attempts to learn his whereabouts through French officials proved unfruitful.

The "zero hour" for the outbreak passed under the vigilance of government guns and there were few signs of the threatened Communist and Socialist revolt.

Machine guns covered Madrid and squads of picked riflemen patrolled the streets and guarded government buildings. Many suspects, including

Socialist Labor leaders, were under arrest and quantities of arms have been confiscated.

Troops were vigilant in the provinces also, but quiet was reported. Authorities said the plot was revealed yesterday by the arrest of Francisco Ordenez, athletic coach at the University of Madrid, and the seizure of documents on him.

Cabinet members and high officials had been marked for death, police said. Plans had been laid, they added, for the capture of munitions plants and to take over the air force and army.

PRODUCTION IN CANADA SHOWS A STEADIER TONE

Reaction in Canada from Sharp Increase in Summer of 1933 Less than in United States.

Ottawa, Sept. 20.—The economic betterment of Canada was maintained at a relatively better level from August 1933 to the present than in the United States. The recovery in industrial production was rapid in both countries from April to August of last year, but the reaction in the United States subsequent to that time was more severe than in Canada.

Measured by the index of industrial production published in the Federal Reserve Bulletin, the lowest point for the United States was reached in July, 1932. The advance in the third quarter was not quite offset by the reaction culminating in March, 1933. The recovery from March to July 1933 was spectacular, the gain in the index being no less than sixty-seven per cent. The lowest point of industrial production in

Canada measured by the official index was reached in February, 1933. The gain from February to September of last year was of a pronounced character and in recent months an even higher level has been in evidence. The Canadian index of industrial production in July was 95.6 compared with 70.0, the standing of the index of the United States transferred to the base of 1926. The indexes of manufacturing production displayed similar tendencies. The low point in Canada was reached in February of last year followed by a rapid advance culminating for the time in August and September. New high levels since the first seven months of 1930 were reached from May to July. The index of manufacturing production in the United States reached a low point in March, 1933, advanced sharply until July and has since shown reaction. Expressed as a percentage of the average for the year 1926, the index of manufacturing was 69.0 in July last compared with 69.0, the standing in the United States.

While the official indexes of production for Canada and the United States are prepared by different methods, a comparison of them is interesting for determining the current trend, and many points of resemblance are shown in the trends of industrial groups in the two countries. The recovery in manufacturing was the main influence in raising the index of Canadian industrial production. The gain in mineral production in the United States was relatively moderate, while in Canada the indicators from May to July showed a decline which counterbalanced the gains of March and April. Recovery in the construction industry in either country was inconsiderable and operations continue at a relatively low level.

A man walked into the foreman-builder's office and stated that he had come in reply to the firm's advertisement for a night-watchman. "What are your qualifications for this job?" asked the foreman. "The man scratched his head. "Well, guvnor," he said, "the least bit of noise wakes me up!"

IL DUCE PICTURED IN BRISTLING SPEECH

This was the first time General Italo Balbo and Il Duce had met in public since the aviator's "exile." Balbo is at left center.
