## World News In Brief

Ottawa, Aug. 21.—An authoritative source last night indicated that Sir Stafford Cripps, United Kingdom Chancellor of the Exchequer, will visit Canada shortly to discuss a possible extension of the Canadian loan to the United Kingdom. Canada agreed to loan the United Kingdom \$1,250,000,000 over a period of years to be repayable beginning in 1952. Of that amount the U.K. already has drawn about \$1,000,000,000. The remainder, about \$250,000,000, was frozen by the Canadian government in April.

Rangoon, Aug. 21.—(AP)—Burmese president Sao Shwe Thaik today declared a state of grave emergency in Burma and issued a martial law act to combat the rebellion. Under the act, the president may declare martial law in any area, suspending civil administration and investing complete powers in the armed forces.

The government announced last night that it will bomb and machine-gun all territory held by rebels. Civilians were warned to move out. The government has charged Communists with leading the rebellion.

Jerusalem, Aug. 21.—(AP)—Arab and Jewish commanders in Jerusalem met in the middle of the road leading to the "Hill of Evil" yesterday to accuse each other of violating the Hill's neutrality. United Nations and Red Cross observers said they hoped the meeting would result in an agreement on the boundaries of the Red Cross zone on the hill, site of the former Palestine government's High Commissioner's residence.

Washington, Aug. 21.—(AP)—The United States Commerce Department yesterday announced the first Canadian international trade fair, held in Toronto in June, as an unqualified success. "Its results have so fully justified the vision and joint efforts of the government and business people of Canada that the fair will be repeated in 1949 and is scheduled to become an annual event." An article in the Department's foreign commerce weekly said.

Halifax, Aug. 21.—(C.P.)—The gutted hull of a two-masted fishing schooner was sighted off the coast of Newfoundland 50 miles north of Torbay today by an American Army transport plane which returned to search and rescue officials at Halifax. The American plane searched the small fishing village of the area 10 miles off the coast of Baccalieu, but said that "no bodies or signs of human life were visible."

Ogdensburg, N.Y., Aug. 21.—(AP)—Two teen-age girls last night were credited with pulling two fliers from their crashed plane an instant before it burst into flames. Both men were injured severely in the crash near Morris-town. State police say that Jennine Girard, 15, of Morris-town, and Vivian Turball, of Rosie, rushed into a field into which the plane had crashed.

## Dominion Anxious To Have Integrated Arms Production

By DOUGLAS HOW  
 Canadian Press Staff Writer  
 Ottawa, Aug. 21.—(AP)—Integrated North American arms production that would allow Canada to concentrate on a comparatively few lines is being sought by Ottawa. Its first requisite, authorities say, is agreement by the United States to allow the Dominion to produce certain equipment—her production of war vehicles is cited as an example—and turn surplus over the U.S. In return, Canada would have access to those military things she herself did not make. This system would be an extension of that which allows Canada's defence research scientists to concentrate on certain lines such as chemical warfare which national resources and abilities make feasible. In return, they have access to information from "friendly" countries.

It would also allow her seven crown-owned armaments plants to go to work on more than the modified scale of today. An official of the Canadian Armaments Ltd. said the firm would be delighted to get a husky U.S. order. The only foreign order now is a call for small arms ammunition from China. Reports from Washington indicated one might be coming. In the wake of the return there from Ottawa of Defence Secretary Forrester, authoritative sources were quoted as saying possibly \$100,000,000 worth of war materials would be bought here this year. Meanwhile, officials of the Canadian commercial corporation reported that the U.S. defence department has purchased more than \$10,000,000 worth of materials here in the last year. Orders included \$5,000,000 worth of army battle dress and other surplus clothing for Greece; \$4,000,000 worth of aircraft spare parts; \$1,000,000 worth of horse meat and sundry other things, ranging from \$200,000 worth of fertilizer to \$30 for a lock.

## Russian Police Continue Raids In Berlin As U.S. Authorities Seek Truce

### Israel Seeks Admission Into U.N.

### New Jewish State Asks Security Council to Approve Application.

Lake Success, Aug. 21.—(AP)—The government of Israel last night asked the Security Council to approve its admission to the United Nations. The appeal from the new Jewish state was in the form of a memorandum to the 11 Council members. Aubrey S. Eban, Israeli delegate to the United Nations, said a formal application would be filed soon—probably at the opening of the General Assembly in Paris Sept. 21.

The memorandum said recognition of Israel and her entry into the United Nations is essential to peaceful settlement of the Palestine problem and peace in the Middle East. Applications first must pass the Council and then the 58-member Assembly. In a plea for swift action, Israel said "it cannot be ignored that failure to act on this application before the termination of the third session of the Assembly (1948 meeting) would leave an indeterminate and uncertain political atmosphere for another full year."

It was noted that the Assembly itself provided for the adoption of the Palestine partition plan which called for eventual United Nations membership for the Jewish and Arab states carved out of Holy Land. The Arabs never have established their state.

### Prime Minister Returns To Ottawa

Ottawa, Aug. 21.—(AP)—Cloaked in almost as much secrecy as his going away, Prime Minister Mackenzie King returned to the Capital last night and hardly a person was there to greet him. Thus ended a seven-day holiday for the "grand old man" of Canadian politics, the man who has held office as Prime Minister for a longer period than any other Prime Minister in the Commonwealth. Only a lone newspaper man and three of Mr. King's officials stood there waiting as the C.N.R. locomotive carrying his private car attached to the rear of a long train roared into Union Station a few minutes before midnight. The former chief of the Liberal party did not say much. He had been away for seven days visiting friends in Seal Harbor, Me. He wanted to catch up on his news, he said, before making any statements. The 73-year-old Prime Minister looked bronzed, happy and eager to tackle the affairs of state.

### Soviet Sallies Along Western Sector Border Threaten Serious International Incidents—Americans Anxious to Avert Clash.

Berlin, Aug. 21.—(AP)—American authorities today were seeking direct talks with the Russians to try and arrange a truce in the conflict between Berlin's rival German police forces which continued today. The Russians served notice earlier today that they will keep up their lightning police raids in downtown Berlin. The sallies, staged along the western sector border, have brought the blockaded city to the brink of serious international incidents.

The American move was undertaken to avert the growing danger of a clash between Russian and western occupying forces.

This danger has become acute since the Russians began using their military police and soldiers to support raids by Communist-controlled German police on the borders of the United States and British sectors of the city.

## Quebec PC's Prepare For Convention

### Provincial Delegation to Ottawa Meeting to Number at Least 322.

Montreal, Aug. 21.—(AP)—Ivan Sabourin, Progressive Conservative leader in Quebec and vice-president of the Federal party, in a press release yesterday said that Quebec's delegation to the party's national convention opening in Ottawa Sept. 30 will number at least 322. The convention has been called to name a successor to John Dracken, who announced last month he will resign because of ill health. The Montreal and Quebec districts have been sub-divided into areas for the purpose of organization, said the statement. In the Montreal district the sub-divisions are the island of Montreal, the Eastern Townships, the St. Maurice valley, the Abitibi district and the Ottawa valley. The Quebec district embraces the city of Quebec and the north and south shores of the St. Lawrence. The Quebec representation of 322 will be made up of 18 ex-officio delegates, 85 general delegates and 219 official delegates. Total representation at Ottawa from all Canada is expected to be 1,813.

The 85 general delegates from Quebec will represent various groups and classes of the population. The general delegates will include those from the Young Progressive Conservative clubs and the party's university clubs. The official delegates will represent the province's Federal seats, three from each riding with a corresponding number of alternates. They will be chosen in each of the 73 ridings.

An American official called the raid, in which the German policemen were abducted, a clear violation of American jurisdiction. Neues Deutschland, organ of the Soviet-sponsored Socialist Unity party, today published a cartoon entitled "The Front at Potsdamer Platz," scene of the police raids. The cartoon showed German black market operators standing behind the protective arms of three United States military policemen.

Meantime the airlift continued clicking. In the 24-hour period up to noon yesterday the two air forces flew in 2,900 tons of supplies, despite westerly weather. While western sector Germans continued to receive full rations via the air bridge, new reports came of a food crisis in the Soviet zone.

The French-licensed paper Kurier reported from Dresden that the government for the province of Saxony held an emergency meeting Aug. 17 to discuss the "food catastrophe." Farmers were ordered to thresh grains and "deliver them 100 per cent," the newspaper said. Moscow, Aug. 21.—(Reuters)—An American spokesman today described a report that arrangements have been completed for the next meeting between the western envoys and Foreign Minister Molotov as "100 per cent wrong."

"I have no news—the position is the same at present as last night," he said. The spokesman also denied reports of differences between the British and Americans on the one side and the French on the other, which were said to have been delaying the next approach to Molotov. "Consultations are continuing normally," he declared. Observers at Moscow had suggested the western powers were finding difficulty in reconciling their views on the Ruhr in their joint approach to Russia. The suggestion arose from the lapse of time since the last Kremlin meeting Monday.

## Fourth Ship Goes Down In Atlantic

### Collier Sinks Off Nova Scotia Coast But Crew Is Safe.

Glace Bay, N.S., Aug. 21.—(AP)—Davy Jones checked four vessels into his locker off Nova Scotia during the past week but their crews laughed in his face today and prepared to go to sea again. Yesterday the collier Larkspur plunged to her doom shortly after springing a leak off nearby Low Point and her 12 crew members rowed away without injury. They celebrated their escape with a party last night.

A few hours earlier, the trawler Arctic—wartime navy gatchip at Halifax harbor—was the subject of newspaper streamers. Her 22-man crew escaped without serious injury when the bottom was ripped out by an explosion and she sank in three minutes. Capt. Edward Denty says a wartime mine destroyed his ship. Just one week ago two other vessels were lost off Nova Scotia without injuries to the crew. In the warm summer weather the heavy seamen dismissed their experiences as trifling, but admitted that if the accidents had happened in winter there would have been numerous casualties.

The fishing ship Ronnie T. exploded and burned to the water's edge off Lunenburg Aug. 13 and the 42-ton collier Ernest G., a converted Fairmile launch, went to a watery grave off nearby Sydney in much the same manner. The 390-ton Larkspur, a former United States Navy tug with a crew of Newfoundlanders, clung to nearby North Sydney with 300 tons of coal for fuel. Off Low Point, on the eastern shore of Cape Breton Island, she sprung a plate and the crew took to boats just before she went under. In a short time they were picked up by the fishing boat Yodeling Ranger and taken to Glace Bay, where they promptly proceeded to have a party.

## Quiet Party Marks Birthday Of Princess

London, Aug. 21.—(AP)—Princess Margaret abandons her role of little sister today. It is her 18th birthday and a solemn occasion for the merry Princess whose wit and personality have endeared her to the entire Commonwealth. All her life, Princess Margaret has been overshadowed by her elder sister Elizabeth, heiress presumptive to the throne of Britain. But now Elizabeth, expecting her first child in the fall, has virtually discontinued public appearances, and it falls to Margaret to shoulder some of the duties of state. One of these, in which she takes her sister's place, will be to represent the King two weeks hence, at the investiture of Princess Juliana, who is succeeding the ailing Queen Wilhelmina on the Netherlands throne.

Margaret's reaching the age of 18 means only that in the event of her succession to the Throne she could rule without a regent. There is much romantic gossip and the latest name to be linked with hers is that of the Marquis of Blandford, 22-year-old heir to

## 20-Year Old Halifax Blonde Is Winner Of Miss Canada Crown

By KAY REX  
 Canadian Press Staff Writer  
 Hamilton, Ont., Aug. 21.—(AP)—Wisconsin Jean Ferguson of Halifax is this year's Miss Canada. The 20-year-old blonde last night won the title over 35 beauties from many parts of Canada. Now she has fixed her grey-blue eyes on the "Miss America" crown, to be contested later at Atlantic City. "I'm so proud to have won—the folks back home gave me such a wonderful send-off," the tall singer said in a "thank you" speech at the close of the gruelling four-hour contest. More than 9,000 persons gave her an ovation when she received from Barbara Jo Walker Hummel of Memphis, Tenn.—Miss America, 1947—the golden crown and royal purple robe of office. In the audience were her mother and father, Mr. and Mrs. R. A. Ferguson. "I hope she does as well at Atlantic City," smiled Mrs. Ferguson later. Along with clothes, jewelry and a \$3,000 scholarship to further her career—which already has begun as a radio singer—Jean will have her expenses paid to the Miss America pageant. Earlier this summer Jean acquired the "Miss Halifax" title. There were 32 other entries in that eastern Canada competition. In last night's contest her most dangerous opponent—flax-haired Phyllis Williams 22-year-old Toronto nurse placed second. Miss Williams will use her \$2,000 scholarship for study toward a medical degree. In third place, Ethel Christine Valgardson of Taber, Alta., gets a \$1,000 scholarship. Pearlie Merrill, 18, of Fredericton, won a \$500 scholarship. A special prize went to Wilma Porthouse of Hamilton, as the girl scoring the greatest number of points for talent. A music student, Miss Porthouse sang a selection from "La Boheme." A contest in which brains were as important as beauty, was the way contest officials described the competition. But whether the spectators considered it that way was another matter. They applauded when the girls made their first appearance in filmy evening dresses. And they clapped when the beauties went through their acts, which ranged all the way from roller-skating and tap-dancing to singing and speeches. But the loudest whistles and stamping of feet came when the queens appeared for final judging—in bathing-suits.

## Sweden's "Kosenkina" Case

Front-page in every Stockholm paper was the story of this Russian girl, Lydia Marck, who arrived in Sweden three years ago and has no inclination to return to her motherland. The Soviet Embassy has been anxious to send her back to Russia, but Swedish Foreign Office spokesmen reportedly told the Russians "to leave her alone." The girl has been working as a maid.

## Socialization Program To Be Considered By C.C.F.

By JOHN LEBLANC  
 Canadian Press Staff Writer  
 Winnipeg, Aug. 21.—(AP)—Already embarked on several major social policies, the C.C.F. national convention today got down to final study of its "first-term" program of socialization. Due for consideration—and virtually certain to be written into the platform—were planks calling for socialization of coal and steel industries and the fuel industries such as gas, oil and electricity. That "socialization" would take the form either of state or co-operative ownership. Planks adopted in the last two days included public ownership of the banks and of the Canadian Pacific Railway. The party, by order of the convention, is committed to putting the socialization measures into effect in its first term as a Federal government. Public or co-operative ownership of industries affecting agriculture also would be a C.C.F. commitment under the farm plank adopted yesterday. Industries to be socialized in this way would take in the manufacture of farm machinery and fertilizer and the meat-packing business. The convention adopted eight sections of its sweeping farm plank, including those calling for guaranteed farm prices, orderly marketing and general crop insurance. More sections of the farm program were being dealt with today. These include proposals for farm credit, extension of the Prairie farm rehabilitation act, housing and social services for rural areas and extension of government research. As already adopted, other chief points in the farm program include: 1. Guaranteed prices for farmers. 2. A national marketing act. 3. Adoption of the "ever-normal granary" principle. 4. Crop insurance that would take in such products as grains, flax, potatoes and fruit. Endorsement was given to a national council proposal to give unqualified endorsement of the European Recovery Program. Only after the national leadership had hauled out heavy artillery to bat down demands from sections of Manitoba and British Columbia for a condemnation of United States administration of E.R.P. was approval given. The debate hit such a pitch that national leader M. J. Coldwell—joining in a discussion for the first time of the convention—charged that Communist-inspired propaganda against E.R.P. had infiltrated into the C.C.F. The Manitoba provincial convention of the party at its last session had adopted a resolution critical of U.S. handling of E.R.P. and asking the national convention—the party's voice in international affairs—to call for inter-union support of E.R.P. by the United Nations. Mr. Coldwell urged the delegates not to "waste time discussing Communist propaganda." David Lewis, national secretary, said the opposition to the U.S. administration of E.R.P. was being fostered by those who did not want to see it succeed so that the

## Rideau Hall Is Damaged By Water

### East Wing Flooded After Accident to Sprinkler System.

Ottawa, Aug. 21.—(AP)—Rideau Hall, 75-room residence of all Governors General since Confederation, suffered serious water damage yesterday when an accident to the sprinkler system flooded the east wing. Water poured from floor to floor, carrying away chunks of plaster and damaging newly-decorated walls. The ground floor in the flooded wing was covered with three inches of water. Mr. Ethel Brenner, housekeeper, said it would take a week to clean up the mess caused by the water and sodden plaster and dry out rugs soaked before a master valve in another section of the building was located and turned off. Private living quarters of the Governor General and most of the guest rooms escaped damage. The hall, known as Government House, was being prepared for the visit of Earl and Countess Mountbatten when the accident occurred. They will arrive here on Sunday. The accident occurred when one

## Fourth Group Of Refugees Seeks Entry

### 28 Estonians and Latvians Arrived at Halifax from Sweden.

Halifax, Aug. 21.—(AP)—The vast expanse of Canada today stretched like a fabulous, promised land before four groups of Estonian-Latvian-Polish would-be immigrants who gazed wistfully at her shores. The fourth group—28 Estonians and Latvians—arrived here late yesterday from Gothenburg, Sweden, aboard the 44-ton former British vessel Capry. They almost lost their lives on the dreaded sands of Sable Island in a storm as they neared Nova Scotia.

In Quebec, and Saint John, N.B., meanwhile, two other boatloads await their fate, being decided by the Ottawa Government. The general feeling is that they will be accepted as Canadians and a government spokesman already has intimated that this will be done. Still another group arrived at St. John's, Nfld., Wednesday, after navigating their way from the Hebrides with a watch, a rickety compass and an antiquated sextant. They are believed to be biding their time there, hoping to profit from the experiences of their countrymen.

First mate A. Vasarin summed up the feelings of the Capry immigrants when the English port of Falmouth and at Santa Cruz, in the Canary Islands, en route to Halifax. The last lap took fifteen days. "Sweden is nice—but we can't feel safe there," he added. Unperturbed by the perilous voyage was Mrs. Elizabeth Henning, 65, wearing a cloth coat too big for her, a bright red bandana and ankle-length dress, all of which had seen better days. She explained that the Capry sailed from Gothenburg July 6 and into the English port of Falmouth and at Santa Cruz, in the Canary Islands, en route to Halifax. The last lap took fifteen days.

## Bomber Crash Takes 14 Lives

Rapid City, S.D., Aug. 21.—(AP)—Fourteen men were killed when a bomber crashed and burned at the end of the runway at the Rapid City air force base yesterday. Capt. Thomas Segler, public information officer said. The heavy bomber was taking off on a routine training flight. The wreckage was still burning an hour after the crash. All aboard were killed, Segler said. Segler said the plane was about to take off when one engine caught fire. The pilot was forced to feather his propellers and the plane lost speed. It had barely left the ground. Just as it passed the edge of the runway, it banked to the left, the left wing hit the ground and the plane turned over and burst into flames.

## U.S. Waits For Lomakin To Pick Up Ticket For Russia

Washington, Aug. 21.—(AP)—The State Department today waited for Russian officials to pick up the outbound ticket the United States has ordered for the Soviet consul-general in New York, Jakob Lomakin. Faced with formal United States charges that Lomakin abused his official position by his role in the Kosenkina case, the Russians have no choice but to remove him from his post. Speculation in official quarters also takes into consideration two possible Russian moves: 1. They may take some retaliatory measure—as they usually do in such instances—by accusing an American official in the Soviet Union of improper conduct and ordering him out of that country. 2. They may reject the State Department's request for two letters. Mrs. Okann S. Kosenkina wrote before her spectacular leap last week from the Soviet consulate in New York. The letters are reported to explain her decision to remain in the United States and possibly may throw further light on her treatment at Lomakin's hands. President Truman is expected to sign early next week a formal revocation of Lomakin's "expatriation" David Lewis, national secretary, said the opposition to the U.S. administration of E.R.P. was being fostered by those who did not want to see it succeed so that the

The same note also rejected without qualification Soviet charges that American officials had connived in the alleged kidnapping of Mrs. Kosenkina and two other teachers, Mr. and Mrs. Michael I. Samarin. Samarin, who had been scheduled to return home on the same boat with Mrs. Kosenkina, went to American authorities instead to ask for protection against his Soviet superiors. The Soviet Union was bluntly told that as long as the teachers feel that they wanted to stay, they can—with the full protection of the United States government. Los Angeles, Aug. 21.—(AP)—Universal Film studio filed suit for \$87,000 against the Winnipeg-born singing screen star, Deanna Durbin. The complaint said the actress became indebted to that amount to the studio in the last two years. A studio spokesman told reporters the dispute arose over salary paid Miss Durbin while she was on leave.

IN HOLLYWOOD by Erskine Johnson NEA Staff Correspondent

THE CASE OF LAMARR'S NOSE TO BE SETTLED OUT COURT

Hollywood's Lamarr is just about ready to make an out-of-court settlement in her damage suit against a national magazine which claimed her nose was fashioned by a plastic surgeon.

Eddie Bracken got the biggest laugh on radio this summer on "Let's Talk Hollywood." He was asked to name the "me" and the "they" in the film title.

Jeanne Crain and Madeleine Carroll are having a time for themselves squeezing into extra tight corsets for their roles in "The Fan." Both gals have their waists laced down to 20 inches and are thankful the film is not in color because their faces would photograph blue.

Miss K. Brown, Stanstead, Wins Scholarship To Camp

On the recommendation of the Quebec Women's Institutes, Miss Kathleen Brown, Stanstead, was awarded a scholarship from the Princess Alice Foundation Fund to enable her to attend the School of Community Programs, at Camp Laquam.

Miss Brown, who is a graduate in Household Science at Macdonald College, won the Q.W.I. bursary for two consecutive years while studying at that institution, and will be on the teaching staff of St. Francis College, Richmond, this coming year.

Camp Laquam is being held this year at Lac Chapleau, Que., and opened August 13. It will close on Monday.

"The basic need of our time is to create an awareness of responsibility, first towards ourselves; then towards our immediate community; and eventually towards the world," said Rev. Gilles Belanger, Professor of Sociology, Laval University, in his address before the English-speaking and French-speaking audience, at the opening session of the camp held at Lac Chapleau, Que., Aug. 13-23.

This camp, the only one of its kind in Canada, is operated jointly by Laval University and Macdonald College, and is under the co-direction of Napoleon LeBlanc and R. Alex Sim. The whole program has been made possible through the collaboration of the Ministry of Youth and Social Welfare of the Quebec Government. As proof of his keen interest in this project, Louis Philippe Audet, who is responsible for the educational activities of this department, is attending the camp.

Approximately 100 registrations have been recorded this year, both English and French. A prominent feature of this camp is its bi-lingual character, where both nationalities meet on a common ground of mutual problems to be discussed and skills to be acquired.

Seminars are held every morning on Group Work, Community Organization and Social Administration. These are run simultaneously under a bilingual chairman and students registering are asked to choose the one best suited to their work and interests. Skilled resource leaders are on hand to give their advice and direction to the discussions.

Various skill sessions are a highlight of the agenda for the afternoon. These include Recreation, Dramatics, Community Singing, Discussion Methods, Visual and Written Publicity, Radio Scripts, Film Utilization and Committee work.

At the centre of the camp is the library. Here are found books, pamphlets and other material to assist the students in their work. There is also an extension library of films, records, and recordings, which has been arranged in co-operation with the Canadian Broadcasting Corporation, the National Film Board and the National Film Society.

The evening programs are centered around some theme dealing with Canadian problems and each skill session is given the responsibility of one presentation. Community singing and recreation provide the necessary relaxation at this time.

FREQUENT RAIN HAS HELPED CROP GROWTH

The frequent rains of the past week have been beneficial to growth in the Eastern Townships, according to the Bank of Montreal crop report. Grains are making satisfactory progress and good-averages crops are in view; oats and barley are being harvested in many areas. Canning of an above-average pea crop is well advanced. A good tomato crop is expected. An average hay crop is largely harvested. Pasture land has been improved by the recent rainfall and, with few exceptions, is in good condition. Potatoes and other crops are progressing well and good crops are indicated. Apples have a good appearance and an average crop is expected. Small fruits are plentiful.

News Of Quebec Province In Brief

Quebec, Aug. 21.—(P)—Liberal Leader Adolphe Godbout said yesterday that he had conferred with a number of party officials recently but no definite plans have been made for a Liberal convention to decide on policy and leadership of the party's Quebec section.

Mr. Godbout suffered personal defeat in L'Islet division in the July 28 provincial election in which his party won eight of the Quebec Legislature's 92 seats.

There has been some speculation about Mr. Godbout's political future following the election.

Montreal, Aug. 21.—(P)—The third of four vessels built by Canadian Vickers Ltd. for Charles Le Borgne, French maritime company, was launched here last night. The sleek ship, which measures 9,100 tons displacement, was blessed by Rev. Claude Labrecque.

Farnham, Que., Aug. 21.—(P)—A crossing crash in which no one suffered serious injuries plunged Farnham into darkness for half an hour Wednesday night. A car was struck by a Canadian Pacific Railway train and hurled against a power pole, breaking the wires.

Montreal, Aug. 21.—(P)—"Chanteur," the shy little Belgian nun who ran an anti-Nazi sabotage network for four years, then spent 17 months in concentration camps, passed through here yesterday on her way to New York.

Large Number Of Livestock Entries Mark Richmond Fair

Richmond, Aug. 21.—Breaking all records in the number of livestock entries, and drawing a record crowd yesterday afternoon and last night, Richmond Fair enters its final day today, with a gala program climaxed by the big auto thrill show in front of the grandstand this evening.

Friday was a big day for Richmond, the attendance being one of the largest and most appreciative crowds in many years, enjoying to the full the afternoon program of harness racing, the parades of prize-winning horses and cattle, and the exceptionally good performance of the Garden Bros. stage attractions. Every available seat was taken in the grandstand in the afternoon, with throngs crowding the fences on both sides of the track to get a glimpse of the show.

Highlight of the afternoon was the cattle parade, showing some 344 head of prize stock, with the long parade of ribboned entries led by the long, shaggy-haired herd of Highland beef cattle, owned by Arnold Olney, of Danville, and the only herd of its kind in the Province of Quebec. Imported from Scotland, the two cows, two-year-olds, and two calves are unique in appearance, and drew a big hand from the crowds. They are six of only 64 head of this particular breed in all Canada, and capture the attention of every grandstand crowd wherever they are shown.

First of the afternoon parades brought forth the horses, with W. H. Duff of South Durham, taking the honors with his grand champion Clydesdale mare and stallion, W. Sparks, Asbestos, and the champion stallion of the fair, winning the Canadian John-Manville special, while H. Lockwood, Danville, took honors with his Shetland ponies.

M. MacDonald, Tremholville, took a first with his saddle horse, and H. Lockwood, Danville, took first in heavy draft team, with Stewart Skillen, Melbourne, second. M. S. Hodge, Tremholville, won a first with his general purpose horse, A. A. Carson and Sorrel Melbourn, second, and Albert Robinson, Windsor, winning the top honors in the light draft class.

Principal ribbon winners and main entries in the cattle class were: Shorthorns: H. Lockwood, Danville; E. Camisky, Richmond; A. Lyster, South Durham, and F. Stalker, of Kingsbury. H. Lockwood, Danville, also took honors in the Aberdeen Angus class. In Holsteins, B. L. MacIntosh, Melbourne; the Wales Horns, Richmond; W. L. Goss, Gore; W. G. Lee, Richmond; L. Skiller, South Durham, and G. Frost, of Danville, took the principal honors. Ayrshire ribbons were won by S. Doyle, of South Durham; A. Lyster, of South Durham; O. A. Fowler, Kingsbury; and Mrs. William Fowler, Richmond. O. A. Fowler, Kingsbury, took all prizes in the Canadian class. In Jerseys, A. A. Carson and Sorrel Melbourn; R. G. Caron, Kingsbury; B. Simpson, Gore; G. Patrick, Tremholville; W. Healy, Richmond; J. L. Marry, South Durham; M. Taser, L. Driver and H. Fowler, all of Kingsbury, took the principal prizes.

Some of the finest calves seen at Richmond Fair in many years were exhibited by the members of the Boys and Girls Club. A total of 344 cattle entries were shown this year, with 39 horses, 44 sheep, 64 swine and 400 poultry entries, making 1,003 livestock entries, the largest in many years for Richmond Fair.

WARM WEATHER IS IN STORE FOR WEEK-END

Clear, warm, humid weather is the forecast for today but scattered thunderstorms are expected in this district tomorrow.

The Dominion public weather office's report at 5:30 a.m. said that except for local fog areas—such as that which blanketed Sherbrooke early this morning—the weather is clear over Quebec.

Once the fog lifts, the report said, "a clear, warm, humid day is in store for Quebec."

Thunderstorms are reported in northern Ontario in connection with a disturbance centered over Hudson Bay," the report added. "Prospects are good for a warm week-end, mainly clear weather but with some thunderstorms or shower activity."

Four persons were injured and two cars were heavily damaged in an accident which occurred between Drummond and Camirand streets last evening.

A car driven by Adolphe Champagne, 31, R.D. No. 4, collided with a car operated by Albert Arguin, 38, R.D. No. 1, Sherbrooke.

Mr. Champagne, who was alone in his car, received treatment at St. Vincent de Paul Hospital but was released immediately.

Exhibition Grounds Are Busy Place As Fair Opening Nears

The Sherbrooke Exhibition gets under way one week from today and the Exhibition grounds are astir with activity as last-week preparations are made for the Eastern Townships' biggest fair of the year.

Carpenters, painters and cement workers are on the job, building, making repairs and generally dressing up the stands and buildings so they will be ready for the opening next Saturday. The week-long fair continues until Sept. 3.

Officials of the Eastern Townships Agricultural Association are hard at work, night and day, issuing entries, handling tickets which are now on sale, and doing the countless other jobs that will keep them fully occupied until the fair is over.

Miss Marguerite St. Pierre, secretary-treasurer of the E.T.A.A., said entries are comparatively light so far in the livestock division but that they are heavy in the other sections, such as vegetables, women's department and floriculture.

This is closing day for livestock entries and the number doubtless will grow but the drop in these entries has been noticed at all the county fairs this summer. Shortage of help, the high cost of feeding and transportation difficulties are among the reasons for this drop.

For entertainment at the Fair there are old favorites and new attractions, designed to please fairgoers of both sexes and every age.

The Conklin Shows once again will take over the Midway, with animal displays, the "fun zone," the "aqua follies," the "meteor-drome," all dressed up with hot dogs, pink lemonade, candy apples, pink spun candy floss, bright lights and noisy barkers.

LIFE IS FOR LIVING

D. Ewen Cameron M.D.

Almost everyone nowadays—the "facts of life" news—has a few of us learn the "facts of living." To many people life is confusing and frustrating, whereas it should be a free and happy experience. We find it easier to exist according to established rules and judgments rather than to act upon our own conclusions. We do things a certain way simply because it's the way "everybody does it." This is the pattern living and we let it master our lives.

In this book, Dr. Cameron tells us how we can free ourselves from "pattern living." He examines the old superstitions, time-worn dogmas, and hide-bound rules that determine so much of our behavior and shows how we can be freed from these without lowering our moral standards. He teaches us to base our living, not upon stereotyped life patterns, but upon a knowledge of ourselves and basic motivations that drive us and a recognition of our potentialities and limitations. In discussing the problems of present-day living, Dr. Cameron meets the controversial issues of religious, marital, social and individual behavior. He shows how by facing our problems, we can make our lives more reasonable, more effective and more pleasant.

It offers a challenge to those who live to conformity—to gear our lives to inhibitory situations. It inspires us with the realization that—"Life is for Living."

Dr. Cameron is Professor of Psychiatry, McGill University, Director of the Allan Memorial Institute of Psychiatry, and Psychiatrist in -Chiclé. He has written many widely-published articles on psychiatry and is author of the established text, Objective and Experimental Psychiatry.

EXPERIMENT IN SPRINGTIME

Margaret Millar

This strikingly original love story deals with the disintegration of a marriage, a breakdown which

occurred against the wishes of its principals and in spite of their good intentions. Martha Pearson, the central figure, is a young woman of character, whose goodness seemed almost forbidding at times. In the midst of serious difficulties with her husband, Charles, she was resolved to be faithful to him, to make something of the partnership on which he seemed to depend so completely. Then Charles went away for a while to mend his health and for the first time in years Martha had the opportunity to assess her life. In the crisis precipitated by the return of her first lover, she found that her marriage had come very near to cutting her off from the sources of happiness. She found also that a happiness once lost can be recovered only partly and on difficult terms.

Experiment in Springtime presents with mature technique the subtly dramatic interplay of three modern personalities at a turning point in their lives. The psychological accuracy and depth, the unflinching honesty, for which its author is already known are here applied to a more serious and fascinating problem than Margaret Millar has previously attempted. The result is a novel of extraordinary interest and truth. It will establish a brilliant mystery writer as one of the most promising of our younger novelists.

At thirty-one, Margaret Millar at least two are already classics in the mystery genre. The latest of these, The Iron Gates, is currently being produced as a movie by Henry Miller of Warner Brothers. Mrs. Millar, ever since she left the University of Toronto, has made psychiatry her major intellectual interest but she disclaims any desire to compete with scientists or to write case histories instead of novels. She insists that fiction must aim at imaginative rather than scientific truth, and the kind of truth she is interested in is, briefly, the truth of what makes people tick and do the strange things they do.

Pulp writers who earn their living by turning out cheap-priced tales of mystery, adventure or crime would be hard-pressed to match the real-life stories that the Russians and their Communist adherents have been creating in recent weeks.

CIVILIZATION ON TRIAL

By Arnold J. Toynbee

In this volume the world-famous historian deals with many of the broad issues of the world faces today. He brings his clear-sighted, objective point of view to an informal discussion of such subjects as the meaning of the present point in the long view of history, the national psychology of Russia, the role of the church in history, the problems of world unity, and the immediate future of international relations. He examines, against the background of his vast erudition and phenomenal insight into the processes of history, the essential elements that lie at the very heart of our time of troubles.

LETTER FROM BRITAIN—

London, Mecca Of World's Holiday-Makers

There are probably more peace-time visitors from overseas in London this summer than there have ever been. Within about a hundred yards in Piccadilly yesterday I heard French, Italian and Arabic spoken, and one or two other languages which I did not recognize, but which I suspected were Scandinavian.

FRONTIER BRANCH NO. 5

At the last meeting of the Standard Frontier Branch No. 5, there was a very small attendance, due to the summer holidays and the warm weather.

## ONE CENT FAIR BY THE JOLLY JUNIORS CLUB

Gallup Hill, Aug. 21. — The original first annual "One Cent Fair" by the "Jolly Juniors Club" for the benefit of the Canadian Red Cross Society was favored with sunny skies.

The major part of the afternoon of August 14, was spent on the grounds of Mr. Holland Burrill's farm.

It was attended by upwards of fifty people, and the proceeds totalled \$8.00.

The various attractions were a cake and cookie stand, orangeade, lemonade and food counter, guessing games with prizes, spoons, numbered spoons, an animal show, a bean jar, bingo, "spin tail on donkey" game, swing, ride on horses, exhibition table, photography, fortune telling, and "Master View" scenes.

A sociable and jolly afternoon was enjoyed. The Fair closed at six p. m., with speeches, thanks and good wishes.

The "Jolly Juniors' Club" was organized last January.

Russia Can Save Face On Teachers' Case

By DEWITT MACKENZIE Associated Press News Analyst

That's a neat bit of diplomatic repartee by the United States State Department in answer to Moscow's vitriolic charges in the Kosenkina case.

Washington in effect gives the lie to the Russian charge that Mrs. Kosenkina two other teachers attached to the Soviet consulate school in New York were "kidnapped" with connivance of American officials.

However, it strikes me that the most important aspect of the exchange between Washington and Moscow lies in the State Department's technique in handling this delicate and potentially dangerous situation.

In any event, the employment of this technique by the State Department gives to wonder whether a new tactic is being developed in dealing with Moscow.

Danube Will Stay Under Reds' Control

No Shipper Can Traverse River Without Soviet Permission.

Belgrade, Aug. 21.—(AP)—The Danube River, central Europe's only outlet to the sea, will remain under Soviet control regardless of the fate of the new Russian-dictated Danube pact.

The western powers refused to sign the pact which was initiated in Belgrade this week by Russia and her satellites.

This control is virtually the same as that enjoyed by the Russians since the end of the war. Western delegates to the Danube conference pointed out that under the new pact no shipper of any nationality could traverse the entire navigable part of the river from central Germany to the Black Sea without Russian approval. And it was made clear by Soviet delegate Andrei Vishinsky at the meeting that western "economic penetration" is not wanted.

The entire pact was based on the Soviet theory of "sovereign rights" as opposed to the western idea of making the important waterway an international trade route. Thus the river has become territorial property long before this new convention was pushed through. Any one wishing to transport goods on it had to make bilateral agreements with each state through which it flows.

Under the new pact, if an American shipper, for example, wishes to deliver goods to any of the Communist-dominated countries through which the river flows, he must make an agreement with their shipping companies. In Hungary, Romania and Yugoslavia, Russia has joint control of these companies. And in the Russian military zone of Germany and Austria one can be certain that no American shipper will "penetrate."

STANSTEAD'S P.C. DELEGATES ARE NAMED

Ayer's Cliff, Aug. 21.—Delegates and alternates to the Progressive Conservative party's national convention in Ottawa, Sept. 30, Oct. 1-2, were chosen last night at a meeting here of the Stanstead County Conservative Association.

Delegates chosen were: Miss Collette Guertin of Magog, Marshall R. Rexford of Ayer's Cliff and J. C. Samson, K.C., of Coaticook. Alternates named were: Harold S. Beane of Beebe, Dr. C. S. Harris, Magog, Ovilla Labonte, Katovala, Cecil Ahurst, Coaticook, Edouard Hains, Magog, and Lee Wallace, Ayer's Cliff.

Mr. Beane was elected president of the Association while Col. Roger Roberge of Coaticook was named French vice-president and Mayor R. M. Boright of Lennoxville, was chosen English vice-president. Joint secretaries are Mr. Hains and Mrs. Frank Abbott, of Stanstead. Mrs. Denis Gerin, member of the Provincial Legislature for Stanstead County, was chairman of the meeting. Mr. Gerin was past president of the Association. The presidency always alters between English-speaking and French-speaking officers each year.

Passage Booked
New York, Aug. 21.—(AP)—Soviet consul-general Jakob M. Lomakin, whom the United States State Department has expelled, has booked passage aboard the Swedish-American liner Stockholm, sailing next Saturday.

The steamship line said that Lomakin had made reservations for himself and his wife and two children. It said it could not disclose when the discredited envoy had booked his passage.

The Stockholm plies between New York and Gothenburg, Sweden. Lomakin was not available for comment on his scheduled departure. However, Soviet vice-consul Zot I. Chepurnykh said he knew "a couple of months ago" that Lomakin planned a trip back to the Soviet Union.

reconstruction of Europe could not be accomplished. After hearing the national officers, the convention—which has 165 voting delegates—adopted the E.R.P. endorsement with only two dissenters.

In other international fields, the convention rejected proposals from the floor for C.C.F. initial participation in a world government and for elimination of the veto from the United Nations' deliberations.

The convention took the first step of any Canadian party toward moving into the politics of Newfoundland, expected to become the 10th Canadian province next year.

The national council—a 40-man body representing all provinces—was authorized to go ahead with setting up the political beachhead.

Lord Blandford is one of the guests at Balmoral Castle in Scotland today, where the Royal family is celebrating Margaret's birthday. The celebration calls for a family dinner and dancing as a part of a modest observance.

Margaret loves to dance and has been known to do so until 4 a.m. She likes the theatre and the movies and is partial to down-to-earth comedy on the radio.

Many consider the Princess the most photogenic of the Royal family. Her hair, which shows dark in photographs, actually is fair. Her complexion is creamy, scarcely needing the make-up she uses more lavishly than the King and Queen like. She has large blue eyes which are merry and inquisitive, and a times pensive.

DOROTHY DIX

Bored Husband

Unwanted Bride Gains Only Heartache By Trying To Hold Negligent Mate

Dear Dorothy Dix: I am a young woman who has been married exactly two weeks and already I am having husband trouble. My husband seems never to want to spend any spare time with me. He either wants to play golf or go to see his mother, who lives only a short distance from us. He never takes me with him, and it makes me feel that he doesn't love me and that he isn't ready to settle down.

The trouble seems to be that he knows I will always be at home when he returns. He has said time after time that he wished he hadn't married and that he doesn't love any woman. I am ready to settle down and it makes me feel sort of funny inside and think maybe I am a fool to keep hanging on to him.

Shall I give him the break he asks for? DISGUSTED.

Answer: If your husband is tired of you and wants to be rid of you after only two weeks of marriage, you will be well advised to pack your trunk and go back home to mother, for there is no chance of any happiness for you in such an ill-adjusted marriage.

FREE TO LEAVE. Wives gain nothing but heartache by hanging on to husbands who do not want them and who insult them by their infidelities and neglect. Sometimes the unwelcome wife has to stick because there are little children whom she has no way of supporting, but you have no such inurement and are free to walk out on a husband who doesn't love you nor want you.

Perhaps, however, if you show a little spunk, it will rouse his interest in you and he will decide to settle down with you, after all.

Dear Dorothy Dix: I am a girl of 17, very much in love with a fellow of 20 who has found another girl, so I don't mean anything to him any more. I am very unhappy. Should I go out with other boys and make the best of it, or do you know some way that I can get my fellow back? I feel that I will never love again.

Answer: Oh, yes, you will, Mary. The chances are that you will love many times and the last love will be the best of all, because it will be grownup love instead of baby-sox love.

You see, you are at the time of life when you are growing, when your mind is developing, when you are acquiring new tastes and points of view, and the boy you are crazy about now, a year from now you wouldn't have on a bet. He is going through the same change of character. That is why he has forsaken you for another girl, and in that he shows that he is smarter than you are.

I am sorry I can give you no remedy for getting back your boy friend, but there is no way to revive a lost fancy. When you lose your taste for anything, from chocolate sodas to sweethearts, it is gone forever. You never can feel that way about 'em again. So perk up and go around and have a good time and get to know as many boys as you can so you can make a good selection. Believe me, the worst is yet to come.

The Record will be pleased to receive any letters to this Dorothy Dix column. These will be forwarded to Miss Dix who will answer them as quickly as possible.

Scarves Raise Cotton's Glamor

NEW YORK—(NEA)

Cotton dresses which swap last year's shoulder straps for this year's scarves and capes gain in glamor by this exchange. Proving the point are the two fashions shown. Both dresses feature long, full skirts and bare-topped bodices corseted to stay up and to belittle a waistline. The Frances Sider-designed plaid gingham dress, left, owes its drama to a matching scarf as extravagantly fringed as a Spanish dancer's. The ensemble, right, of maize-colored chambray is a two-in-one fashion designed by Nardis of Dallas. The bow-tied ruffled cape and ruffled skirt strip down to give a girl another wardrobe item—a bare-topped sun suit with sculptured neckline and a boned bodice.

MODERN MARRIAGE

FOUR TYPES TO AVOID

By Dr. Paul Popenoe

Maybe you are a Star. But you might be a Nero, a Turtle, or a Clinging Vine instead. This summer when you have a little spare time on your hands, it will pay you to take stock of yourself, and decide just where you belong in this classification, which Fritz Kunkel and Roy Dickerson described in their popular book, "How Character Develops." Some people grow up—thanks to the influence of their parents and others around them—with the idea that the world is a friendly place made up of people whose job it is to wait on them, take care of them, cater to them. Others grow up with an opposite feeling: that this is a cruel and heartless world which will do them harm if it gets a chance.

From another point of view, some people grow up naturally aggressive, others naturally submissive. The combination of these two types of traits produces the four types I mentioned at the beginning. Of course these four types represent the extremes—most of us are intermediate. But the extremes are common enough to make trouble for the world, and often for themselves.

Take the people who think that the world owes them a living. If one of these is aggressive, he tends to think that "the world owes me a living because I am such a superior person. It ought to be delighted to take care of me, and admire me." He's a Star.

If he is submissive instead of aggressive, he thinks, "The world owes me a living because I'm not able to take care of myself. It ought to be delighted to look out for such a weak and helpless person as I am." He's a Clinging Vine. Now to go to the other side of the picture: stand up among the people who think the world is against them. If such a one is aggressive, he will set out like Hitler to get the best of the world. "It's against me and I'll tear it to pieces—I'll frighten it into leaving me alone." He's a Nero.

If submissive, such a fellow will say to himself, "The world has it in for me, and there's nothing I can do to meet such overwhelming force. The only safety for me is to hide. I'll just crawl into my shell." He's a Turtle.

Before you pick out a partner for life, ask yourself whether he belongs to any of these four extreme types. They are all hard to live with. You'll be safe in picking a partner with better balance.

If you are already married to a Star, a Nero, a Clinging Vine, or a Turtle, you may understand him better and know how to deal with him more successfully, if you analyze him in this way.

Questions and Answers

Q—We have a daughter in high school. Do you think it is right for her to date only older fellows, not in school?

A—She ought to take an active part in school affairs, and this presumably means that she would have to date the boys in her class part of the time. But it is also an advantage to her, if she is mature, to go part of the time with boys a few years older than herself.

Q—Isn't it a fact that most young people marry today with the desire to have no children?

A—Of course not. Probably one in a hundred has that desire. After marriage, more of them will keep postponing children until it is too late, or will change their minds and have no children.

Q—Is there any ground for the assertion that married women teachers are less efficient than unmarried ones?

A—Most surveys show just the opposite. The Canadian Youth Commission has just voted "especially to emphasize the lack of wisdom shown in dismissing women teachers on marriage."

MARRIAGES

WILSON—BERRIGAN

Bondville, Aug. 21—A very pretty wedding was solemnized in St. Edward's Church, in Knowlton, on Saturday, August 7, 1948, at 9 o'clock Mass, when Ursula, daughter of Mr. and Mrs. D. C. Berrigan, of Montreal, became the bride of Mr. Melvin Wilson, also of Montreal. Rev. Father St. Pierre officiated.

The bride, who was given away by her father, was in a gown of white moire taffeta, with long veil, and she carried a cascade bouquet of American Beauty roses.

Mrs. R. G. Hale, her sister's matron of honor, wore a pale blue georgette gown with pink head-dress, and carried a muff of pink roses.

Mrs. Adele Page, sister of the groom, acting as bridesmaid, was attired in a gown of pale mauve taffeta with a short veil.

Miss Joyce Williams, cousin of the bride, and flower girl, was attired in a pale yellow organdie frock with bonnet to match, and carried a basket of rose petals.

The bride's mother wore a royal blue dress with matching hat, and a corsage of pale pink roses.

The groom's mother was in a fuchsia dress with black accessories, wearing a corsage of pale pink roses.

The bride's grandmother, Mrs. H. H. Makin, was dressed in pale grey with black accessories, and a corsage of pale pink roses.

Mr. Danny Berrigan, brother of the bride, acted as best man. The ushers were Messrs. Gordon Hale and Tommy Thompson.

A reception was held at the summer cottage of Mrs. Muriel Goodard. Later the bridal couple left on a short motor trip to Sherbrooke and other points in the Eastern Townships.

Mr. and Mrs. Wilson will reside in Montreal.

guests of their daughter, Mrs. Helen Sargent, and Mr. Sargent, in Cawansville.

Reading room open daily from 3 to 5, except Saturday, Sunday and Holidays. Friday, 7:30 to 9 p.m., at His Majesty's Building.

"Mind" is the subject of the Lesson-Sermon to be read in Churches of Christ, Scientist, on Sunday, August 22, 1948.

The Golden Text is from Proverbs 2:6. "The Lord giveth wisdom; out of his mouth cometh knowledge and understanding."

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "A wise man will hear, and will increase learning; and a man of understanding shall attain unto wise counsels; for God hath not given us the spirit of fear; but of power, and of love, and of a sound mind." (Proverbs 1:5 and 2 Timothy 1:7).

The Lesson-Sermon also includes the following passage from the Christian Science textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The term Science, properly understood, refers only to the laws of God and to His government of the universe, inclusive of man. From this it follows that business men and cultured scholars have found that Christian Science enhances their endurance and mental powers, enlarges their perception of character, gives them acuteness and comprehensiveness, and an ability to exceed their ordinary capacity." Youth prevents disaster stops runaway horse WINS DOW AWARD

JEAN-PAUL ST. PIERRE OF MONTREAL shows unusual courage in spectacular rescue of child from ice wagon

The little boy, waiting alone on the seat of the ice wagon, was not prepared for the sudden jolt which threw him off his balance. The horse, frightened by a truck, had reared and started to charge madly down the street. Several pedestrians tried to stop the runaway animal, but in vain.

The heroic action of 17-year-old Jean-Paul St. Pierre, of Montreal, undoubtedly saved the life of the stranded child as well as the lives of many in the path of that wild race. We are proud to pay him tribute through the presentation of The Dow Award.

THE DOW AWARD is a citation for outstanding heroism and includes, as a tangible expression of appreciation, a \$500 Canada Savings Bond. Winners are selected by the Dow Award Committee, a group of editors of leading Canadian newspapers.

This is the place-kick tee that the University of Toledo used to use this fall. Developed by head coach Skip Stahley, the tee provides a hard, dry, flat corrugated surface for any kind of weather and provides the kicker with a straight, line-of-sight approach to the ball, Stahley says. The one-inch stand has been approved by the National Collegiate Association.

"Sport Shots" and "Pot Shots" BY LEN O'DONNELL

The executive of the local club has gone to considerable expense in getting together a very good ball club and we have one of the best parks in Leopol Durivage's circuit, but lighting problem leaves something to be desired.

Talking with one of the City electrical employees he tells me that there are at least two inches of dirt on the reflectors which should be cleaned. It takes a special preparation to clean these and we understand that the City has it, but as yet has failed to issue the orders to have it done.

This problem may seem to the average fan a small matter, but to the player it is very important, as at times when the ball is high up in the air he loses track of it and it falls for a hit, which would have been an easy out.

We have the best team in the league, and are at present setting the pace, the best ball park in the loop, and the worst lighting system in the circuit. Does this make sense? Perhaps it does to the City Fathers, but certainly it does not to me.

Joe LaFlamme and his famous travelling menagerie will be seen at the local Fair. This should be something to see as Joe has quite a string of wild animals in his outfit.

The main purpose behind his movement is to further the education of people in this province in the protection of wild animal life and in the conservation of our national resources.

A special stockade is being built at the Fair Grounds to house the troop and Forest Keene, who is vice-president of the Quebec Federation of Fish and Game Clubs, is in charge of the local arrangements and expects a large crowd will visit the exhibit.

Something new in the City golf circles will be staged at the Mount Pleasant Golf Club on the fourth, fifth and sixth of September. It is the Sherbrooke City and District Golf Championship.

Any golfer living within a radius of twenty-five miles will be allowed to compete. The field will be divided into three classes, A, B and C with prizes for low net scores in each section of the qualifying round.

Contestants will qualify and the lowest sixteen medalists will then enter match elimination rounds with the championship being played off Monday afternoon.

Applications for the event may be forwarded to Bob LeFuray, 152 Short Street, and the draw will be published in Thursday's Record. Entry fee is \$1.50 and must accompany the entry blank.

Baseball's Mystery Of Year Solved; A's Don't Make Mistakes, Says Mack

Philadelphia, Aug. 21.—(P)—Baseball's mystery of the year was solved today and the detective was none other than Connie Mack. "Our boys just don't make mistakes," was the way Philadelphia Athletics owner-manager put it.

Scott Spencer Cops Feature Racing Event

St. Stephen, N.B., Aug. 21.—(P)—The St. Croix Free-For-All, feature event of a three-day harness racing meet concluded yesterday, was won in straight heats by Scott Spencer, owned by Harry Hirsch, Sydney, N.S., the winner covered the first mile in 2:07—fastest of the meet.

Czechs Cop Doubles To Remain In Finals

Brookline, Mass., Aug. 21.—(P)—A marked overnight improvement, which produced a 10-8, 4-6, 6-3, 6-4 doubles victory, put the Czechoslovakian Davis Cup tennis forces back in the Inter-Zone Final battle with the favored Australians today at Longwood.

Jaroslav Drobny and Vladimir Gernik, who lost yesterday's opening singles matches to Billy Staiwand and Adrian Quist, the Australian team captain, appeared downed in one-two-three order when they took the courts for the tandem play against Geoff Brown and Colin Long.

One more setback in this five-match series would be enough to keep them out of the challenge round against the United States at Forest Hills, N.Y., starting Sept. 4.

Despite that terrific pressure, Drobny, rated as Europe's top courtster, managed to regain his normal steadiness and Gernik took five as soon as they tasted first blood by breaking Brown's service for the initial set in the 18th game.

Cernik, however, faltered in the first game of the second set and his service fracture enabled the Australians to pull out the match in 30 games. But the Czechs refused to be daunted by that minor setback. They concentrated on Long, the Australian doubles specialist, with such force that he opened the gates for them by erring away his service in the fourth game of the third set.

That was all the Czechs needed to pull into a lead of two sets to one going into the rest period.

To Build Hockey Hall Of Fame At Kingston

Kingston, Ont., Aug. 21.—(P)—The National Hockey League will sponsor a competition among architects for designs for Hockey's Hall of Fame here in Kingston.

This was pronounced last night at a meeting of the Kingston Committee by President Clarence Campbell of the N.H.L. and the committee today announced it had been approved unanimously.

Structure will cost \$150,000 instead of the \$50,000 originally planned. Details of the competition have not yet been worked out.

Ontario Ladies Lead In Interprovincial

Riverside Golf Club, N.B., Aug. 21.—(P)—A veteran Toronto Rosedale shooter, Mrs. N. J. Carlson, captured a three-over-par 80 here yesterday to spark Ontario's fourth, fifth and sixth of September. It is the Sherbrooke City and District Golf Championship.

Any golfer living within a radius of twenty-five miles will be allowed to compete. The field will be divided into three classes, A, B and C with prizes for low net scores in each section of the qualifying round.

Brundage Theory Of Amateurism Gets Boost By Volunteer Firemen In Hair-Raising Shows At No Pay

New York.—(NEA)—New that the Olympic Games are over, the International Olympic Committee will get down to business on its broken-time headache.

Avery Brundage, president of the American Olympic Committee and vice-president of the International Olympic Committee, will be in there plugging for the American ideal of free enterprise in sport, strict amateurism and what not.

This means that a hue and cry will be raised against the Chicago man of millions, who makes a habit of seeing everything Olympic. He'll wage his battle to prevent payment to athletes for the time spent away from their gainful employment while participating for the Stars and Stripes abroad.

Brundage might enjoy a day in the village of Floral Park, L.I., at the annual Volunteer Fire Department Tournament. He'd find a bunch of men not only strictly amateur in competition but also in their work on the village department.

If sport is a game or contest involving individual skill and physical prowess, brother, this is it. The five-event program starts with motor hook and ladder, class B.

This consists of a standard fire engine plus driver and four to five men on the back end handling a 30-foot ladder. The starting flag is tripped 50 yards from an archway suspended about 25 feet in height over the street.

Just short of the archway, trailing at a speed up to about 25-30 m.p.h., the crew leaps to the pavement and drives the sharp-edged ladder prongs into the macadam. Before the ladder is upright, an ladder man begins his climb to the archway. Time is taken when he grasps the top rung of the ladder.

This requires the ability of a gymnast and the brawn of a stealer on the gridiron for the ladder man is usually a third of the way up before the ladder is straightened and put against the archway.

Near record time averages about seven or eight seconds, which means that Harrison Dillard would still be 20 yards short of the tape running the century in the same elapsed time.

The real hair-raiser is the motor hook and ladder, class C which is the same event all over but in a little crash car or quarter-ton wagon and with a start of 250 yards. The souped-up wagons come in to the stretch going close to 70, momentarily slow down so that the boys can leap off at a speed consistent with reason and then continue at high speed to connect with the hydrant. But the "new down" sometimes means to about 50 miles an hour and the macadam is liberally covered with sprawling humans.

The other three events of a less hair-raising nature consists of different arrangements of coupling hose, turning on the hydrant and tripping a target with the water. That is, if you manage to get the puzzle on in time.

The water pressure hits like George Connor or Ziggy Czarobski and the guys don't get up as fast as if they were hit by those former Notre Dame tacklers.

This is especially so in the final motor pump event which is strictly high pressure attack. Infrequent accidents, of course, mar the contests.

Do you think you could pay man to do stuff like that? Some things have to be amateur. When individual is pitted against individual maybe it's better that way.

Professional tennis seems to be catching on a bit but not like the game sports. Boxing, of course, is professional in a big way, which may be what is wrong with it.

Did you ever hear of an amateur prizefighter taking a dive? There seems to be something about being an amateur. Competing for honor and glory has its benefits.

It has long been observed in the professional world that many a big-time athlete doesn't have the old college try that once marked him as an undergraduate stickout. So maybe Brundage has a good point at that. He can't always be wrong.
