DELEGATION HAS REACHED HOME

Members Back In Paris From Washington Armaments Conference. Paris, Feb. 20.—The French delegation to the Washington Armaments Conference reached Paris today on its return from the United States, its members giving the impression that they were dissatisfied with the results of their mission, apparently feeling that their visit to Washington had caused regrettable misunderstanding concerning France in some circles in the United States. The delegation headed by Albert Sarraut, Minister of the Colonies, had planned to return on board the liner Paris, sailing from New York this week but being under orders from their Government to hasten their departure so as to make their report as soon as possible, made the passage on LaSavoie, reaching Havre this morning. While the members of the mission declined to be quoted regarding the conference it is learned that they feel disappointed because of the allegation in some United States circles that France failed to enter the conference in the true spirit of modern diplomacy, that she was not ready to make sacrifices for the common good in lessening the burdens of world armaments, and that she is adhering to militarism. The contention of the French is that nothing could be further from the truth than these assertions. Their belief, it is indicated, is that France made her great error in not insisting, as a great power, in joining at the outset in the deliberations at Washington over capital ships, from which she was excluded until the ratio had been arranged by Great Britain, Japan and the United States. The anti-French opinion concerning France's stand on the question of submarines attributed by members of the delegation to the psychological fact that France failed to prepare public opinion for her submarine desires as they claimed the Japanese did on the question of the status quo in Pacific fortifications. In other words, the impression was given that France neglected to map out a systematic programme for the conference, while the early return to France of former Premier Briand and former Premier Vistiani tend to weaken France's position. One Frenchman on the way home said: "Somehow or other we were jockeyed into the position which many thought Japan would occupy at Washington and which the Japanese themselves feared they would occupy, namely, the position of defendant."

NEW REVOLUTION IN PORTUGAL

Says Reuters Despatch From Madrid—No Details Are Given. London, Feb. 20.—A new revolution has broken out in Portugal, says a despatch to Reuters from Madrid today. The despatch contained no details. An earlier despatch to Reuters from Lisbon stated that the new Portuguese Government would not present itself before Parliament until after the spring carnival. Remove Government. Lisbon, Feb. 20.—Threats of insurrection in Lisbon have led the Members of the Government together with President Almeida, to remove to the citadel of Cascais, a short distance outside the city. The insurrectionary threats came from the revolutionary elements of the extreme left, and were produced by recent arrests of officers in connection with the revolutionary movement of last October. The attitude of the Republican guard was considered doubtful, and in consequence the Government decided upon the precautionary measures of proceeding to Cascais. The crisis is continuing but the city remains quiet.

Many People Come to our cafeteria as an experiment little thinking they will be so delighted with the food and environment that they will come again and again—but they always do and also bring their friends. Eida Cafeteria (Near Auditorium) 169 ST. JOHN STREET

ARE TO ATTEND TODAY'S FUNERAL

Premier And Cabinet Ministers Will Pay Tribute To Sir David Watson. (By Canadian Press.) Ottawa, Feb. 20.—The Cabinet Council met this afternoon for a couple of hours but it is understood that only routine business was transacted. The Prime Minister, accompanied by Hon. Ernest Lapointe, Minister of Marine and Fisheries, Hon. Jacques Bureau, Minister of Customs, and Hon. H. S. Beland, Minister of Health and Civil Establishment left at 7:30 this evening for Quebec, where tomorrow they will attend the banquet being given in honor of Hon. Ernest Lapointe by his fellow-citizens. While in Quebec tomorrow, the Prime Minister and his colleagues will also attend the funeral of the late Major-General Sir David Watson. Although several names have been mentioned as those of men likely to be appointed to the position of Deputy Speaker of the House of Commons, it is understood to be the present intention of the Government to let the matter stand over until after the opening of the session. If this proposal is followed the name of the new Deputy Speaker will not be announced until after the speech from the Throne. George W. Kytte, M.P. for Cape Breton South and Richmond, is to be Chief Government Whip in the Parliament which opens on March 8, it was officially stated this evening. Mr. Kytte will best be remembered as the eastern Member whose charges of maladministration during the war precipitated the appointment of the Shell Commission which investigated the Allison-Yoakum and other Shell land lease contracts under the Shell Commission. Mr. Kytte represented Richmond in Parliament from 1908 to 1917 and was defeated in the new constituency of Cape Breton South and Richmond by J. C. Douglas and Robert Butts. Previous to his election as a Member of the Federal House, Mr. Kytte was Clerk of the Nova Scotia Legislature. He is a lawyer residing at St. Peter's, Richmond County, Nova Scotia.

ARE HASTENING TO COMPLETION

Maze Of Formality And Detail Which Royal Wedding Necessitates. London, Feb. 20.—Officers of Church and State are hastening toward completion of the maze of formality and detail which a royal wedding necessitates, with only one week remaining before the nuptial ceremonies of Princess Mary and Viscount Lascelles in Westminster Abbey. An English Church wedding of which folk of humble station are the principals involves a formidable amount of formalities but when the bride is a daughter of the reigning monarch these difficulties are infinitely multiplied. Upon the State Chamberlain's office devolves the responsibility for bringing the wishes of the Princess, the bridegroom-to-be and the Royal Family into harmony with traditions and precedents to which such great importance is attributed and which must be scrupulously obeyed. This in itself is a colossal task involving the searching of whole libraries for record of past ceremonial of similar nature. Precedence regarding those whose positions in Court Society or office entitle them to be invited to the wedding and others, members of the House of Lords, for instance, who have an inherent right to expect invitations but for whom the Abbey does not afford adequate accommodations; preference in assigning seats to those who are finally invited; the drafting of orders for processions in the abbey in accordance to fixed rules of precedence and the selecting from the whole military, naval and Air Force of various units to compose the several escorts and guards of honor, are among the myriad details which must receive most careful consideration and the employment of much tact and discretion. Any overriding of rights or unintentional blunder in the ceremonial might lead to serious consequences. In the case of the Lords, what appeared at first to be an almost insuperable difficulty was bridged by asking the Peers to indicate whether they desired to attend the ceremonies. A larger number of requests resulted, whereupon less than fifty tickets were forwarded from the Chamberlain with his apologies and the explanation that it was only possible to allocate that number of seats for the Lords. The Peers accepted the situation in good grace and drew lots for their seats, and the arrangement apparently satisfied all parties. When the see and other preliminaries are over, the approval of Church authorities, who are charged with responsibility that there is no conflict with the ecclesiastical precepts, must be sought. To the uninitiated, it might appear that the matter of obtaining the endorsement of Church dignitaries for such carefully drawn plans would be merely perfunctory, but Church authority in this country on such occasions is well defined and absolute and its prerogatives are zealously guarded. This must be appreciated when it is stated that even the form of head dress to be worn by the bridesmaids must have clerical sanction. In this process there have been made changes in the ceremonial arrangements since they were first drawn several weeks ago, but the final stage—obtaining the King's conclusive assent—has now been reached and the official program of the proceedings is expected to be available by Wednesday. In addition to these elaborate civil and church preparations, another by no means simple matter is the purely legal aspect of the arrangements, such as fixing the nuptial settlements as between bride and bridegroom, an ancient tradition the English Royal Family insists that a Royal bride must sign her name on her wedding day before she does so as a part of the wedding ceremony. A Princess in Victorian days, whose signature to an important legal document was required on the morning of her wedding, refused to comply until after the ceremony, which kept the lawyers waiting and seriously interfered with the day's plans. While Princess Mary must devote some of her attention to these matters, most of her time during the last few weeks has been divided between Court dress makers of West End shops, where she completed her trousseau and receptions to individuals and delegations from all parts of the United Kingdom, bringing gifts to her. For the past ten days she has received many such visitors, some of them in the Throne Room at Buckingham Palace. Viscount Lascelles has been with her on some of these occasions. The social standard and the places from which these callers came are as varied as their offerings. They have ranged from representatives of the diplomatic corps, bringing a splendid silver water dish, to a juvenile but loyal admirer who thoughtfully offered the Princess a "popo" or jumping stick—a child's plaything of South African origin.

DIVED THROUGH ICE AND RESCUED TEAM

Port Arthur, Ont., Feb. 20.—When his team, hauling a load of 100 logs, broke through the ice and was submerged in Larsen Lake, a teamster, name not given, in the employ of the New Ontario Construction Company, threw off his outer garments, lived into the cold water, unheeded the animals and with the aid of two others, effected their rescue. Logs and sleigh also were recovered.

A WHOLESOME SLAUGHTERING

Of Children And Aged And Sick Persons Contemplated By Veregin. (By Canadian Press) Winnipeg, Feb. 20.—Wholesale slaughter of children and aged and sick persons so that Doukhobors of Western Canada may roam the country unhampered as a vagrant class in protest of extortionate taxation, is contemplated by Peter Veregin, leader of the Doukhobors community, according to the Winnipeg Free Press today. The paper says: "Declaration to this effect was presented to the Free Press in a statement by M. M. Kottinoff, Manager of the Brilliant, B.C., office of the Christian Community of Universal Brotherhood. This office is the headquarters of the Doukhobors for British Columbia, Saskatchewan and Alberta also are involved, however. "All children under ten years of age, together with the maimed and infirm, who cannot travel far, will be 'thrown into the Columbia River,' if Veregin's terrible proposal is acted upon. This will represent nearly half the Doukhobor population of Western Canada. "Fanatics who respect Veregin's judgment agree with his offer," Kottinoff declares. "They urge that the able bodied go about the country preaching the coming of Christ and conducting themselves as a vagrant working class belonging to the proletariat." "Doukhobor women," Kottinoff says, "probably will oppose the killing of the children and will protest against the throwing of the small bodies into the river." "Veregin," he says, "may put forward another scheme. He will have the women of the colonies educated to make themselves sterile like women in wealthy families of Europe and America. "Veregin," he asserts, "realizes the killing of children would be a supreme crime, but certain operations are 'permitted' by European laws." The upkeep of Doukhobor children is becoming absolutely impossible in the economical ways.

GENERAL BIGGAR LAID TO REST

Remains Deposited In Family Vault With Simplest Anglican Ritual. Toronto, Ont., Feb. 20.—With the simplest ritual of the Anglican Church the remains of Major General J. Lyons Biggar, V.O., C.M.G., formerly quartermaster-general of the Canadian Military Forces, were deposited in the family vault at Necropolis Cemetery here today. Rev. Canon H. J. Cody officiated at the service, and the remains were attended only by relatives and close personal friends of the deceased. There was no address by the clergyman and the body was conveyed direct to the cemetery on arrival here on the train from Montreal, where Gen. Biggar died Thursday. Among those present at the interment were: Brig.-Gen. J. G. Langton, Col. Dodge, Major Lautern and Major Hearn; Principal W. L. Grant, of Upper Canada College and Professors Playfair, McMurrick and Alfred Baker, of the University; Dr. Irving Cameron, W. H. Biggar, K.C., George Scott, Arthur Scott and H. C. Scott.

WEATHER REPORT

Toronto, Feb. 20.—Pressure is highest tonight over the Great Lakes and a moderate depression covers the South Pacific States. Light rains have fallen in the Maritime Provinces, but weather over the Dominion as a whole has been fair with the temperature well above the normal in all districts. Temperatures: Min. Max. Dawson 24 6 Prince Rupert 30 34 Victoria 32 48 Vancouver 30 40 Kamloops Zero 26 Calgary 2 24 Edmonton 14 19 Battleford 4 14 Medicine Hat 10 8 Moose Jaw 15 18 Saskatoon 15 9 Winnipeg Zero 14 Port Arthur 4 22 London 29 43 Toronto 32 37 Kingston 28 33 Ottawa 28 36 Montreal 26 36 Quebec 22 40 St. John 32 46 Halifax 34 42 * Below Zero. Forecasts: Lower Lakes and Georgian Bay—Winds mostly easterly; fair; not much change in temperature. Ottawa Valley and Upper St. Lawrence—Fine; stationary or slightly lower temperature. Lower St. Lawrence, Gulf and North Shore—Fine and moderately cold. Maritime—Moderate to fresh northwest and west winds; fair and slightly colder. Lake Superior—Fine; stationary or a little higher temperature. All West—Generally fair and moderately cold.

SEEK RELATIVES OF DEAD GIRL

Members Of New York Canadian Club Probing Pathetic Case. (Can. Press) New York, Feb. 20.—Members of the Canadian Club tonight are endeavoring to trace the relatives of Luda Bleakney, a pretty 23 year old Canadian girl, who died by inhaling illuminating gas in her rooming house at 235 West Twenty Second Street, on Sunday. The girl is reported to have come to New York from New Brunswick recently, but information regarding her home town or her parents is very incomplete. Officials of the Club are investigating the case and, if it is found that assistance is required, either for the shipment of the girl's body to her parents home or in arranging for burial here, members of the Club will defray all necessary expenses. The girl's body was found by the keeper of the boarding house Sunday morning lying on the bed in her room. The gas had been allowed to escape from a light fixture. A doctor who was called, said that the girl had been dead for several hours. A letter was clutched in her hand. It was from a Mrs. Z. Davelock, and was dated from "King's Cove, N.B." It contained news of relatives and expressed the hope that Miss Bleakney would soon find work in New York. The girl arrived from Canada some weeks ago, her fellow roomers declared. She tramped the streets daily in search of a job until she became ill with tonsillitis contracted in her walks through snow and slush. She spent several days in Bellevue Hospital and resumed her search for work last Monday. With less than enough money to pay for her first week's rent at the rooming house, the girl is believed to have gone without food for several days prior to her death. On her return from job hunting Saturday she told the caretaker of the rooming house that she had exhausted all her funds and had no prospects of getting work.

LINKING EAST WITH THE WEST

C.P.R. Grants Scholarships To Westerners At Toronto Varsity. Montreal, Feb. 20.—It is announced that the Canadian Pacific Railway has granted three annual scholarships to the value of \$500 each to University of Toronto for the purpose of inducing graduates of western colleges in Canada to pursue their post-graduate studies at Varsity. The purpose of these scholarships is to strengthen the intellectual, religious and economic links between east and west. E. W. Beatty, president of the C.P.R., in his letter to Sir Robert Falconer, Principal of Toronto University, announcing the granting of three scholarships says: "The movement is one that will obviously be of benefit, not only to the students, but also to the communities in which they will afterwards live."

LATEST CRIME IN NEW YORK

Bank Messenger Robbed Of \$22,000 By Three Automobile Bandits. New York, Feb. 20.—Wm. A. Russell, messenger for the Greenwich Bank, was robbed of \$22,000 in currency today by three automobile bandits who boarded the truck in which he was transporting the money to a downtown bank. The robbery occurred on 19th Street near 7th Ave. The hold up was witnessed by a woman, who later said she believed she was witnessing a motion picture. It was only after the bandits had disappeared and the woman turned around to look for the "camera man" that she realized the hold up was real. Two of the three occupants of the bandit car took part in the actual robbery, while a third remained at the wheel keeping the engine running. Bank officials stated that Russell had made a practice of using the same truck and the same driver to the transport large sums of currency each Monday morning from the downtown bank to the headquarters of the institution.

EXAMINE WAYS AND MEANS NOW

Of Putting Into Effect Decisions Reached By League Assembly Last October. Paris, Feb. 20.—The Disarmament Commission of the League of Nations presided over by Rene Viviani of France, had before it at a meeting set for three o'clock this afternoon, the work of examining into the manner in which the decisions reached by the assembly of the League at its October meeting may be put into effect. It planned especially to consider the results of the inquiry into the statistics of the armaments of the various countries for 1921 as compared with the year 1912, before the European war. These statistics were requested in the report of the disarmaments committee. H. A. L. Fisher, of Great Britain, having resigned from the Commission has been replaced by Lord Esher. AN ANALYSIS OF C.P.R. FIGURES Would Take Three Weeks Asserts Counsel Asking For Adjournment. (By Canadian Press) Ottawa, Feb. 20.—Declaring that he would need three weeks to analyze the figures presented by Counsel for the Canadian Pacific Railway, R. R. McGeer, Counsel for the Province of British Columbia, appealed to the Board of Railway Commissioners at this afternoon's hearing on the equalization of freight between the East and West for an adjournment for that length of time. A ruling on the application will likely be made to-morrow morning following a conference between Counsel to-night. The hearing this afternoon was largely devoted to the continued cross examination of W. R. Lanigan, Chief Freight Traffic Manager of the C. P. R. SEMI-BOOM CONDITIONS IN GILT-EDGED BONDS Huge Orders Executed As Soon As London Stock Exchange Opened Yesterday. London, Feb. 20.—A semi-boom prevailed in the gilt-edged sector of the stock exchange. Huge orders were executed as soon as the market opened and others poured in throughout the day. The recent reduction in the discount rate of the bank of England and its deposit rates, the withdrawal of the government's five per cent treasury notes and recent reports of trade conditions were apparently responsible for turning the attention of the investing public to the gilt edged section. War loans, consols home rails and other good yielding securities were the mainstay and prominent in the upward movement which extended to a smaller extent to foreign bonds. PLEADED GUILTY TO ROBBERY OF THE MAILS Montreal, Que., Feb. 20.—Gladstone Jerome Conroy, formerly an employee of the Montreal Post Office, this morning pleaded guilty to a charge of robbing the mails. He will be sentenced by Chief Judge Decarie on March 21.

CONSIDER WHOLE RAIL QUESTION BETTER PLANS FOR PUBLICITY. Following Return Of Minister To Ottawa From C.N.R. Inspection Trip Under Consideration By The League Of Nations New York Bureau Hears. (By Canadian Press) Ottawa, Ont., Feb. 20.—Hon. W. C. Kennedy, Minister of Railways and Canals, returned to Ottawa today after a tour of inspection of the Canadian National Railways between Winnipeg and Halifax. The return of Mr. Kennedy is expected to herald a general consideration by the Cabinet of the whole railway question. Of primary importance is whether or not the Grand Trunk is to be definitely incorporated with the Canadian National system. At the moment it is being operated under the general management of a board appointed by the late administration and an appeal is pending before the judicial committee of the Privy Council on the value of the Grand Trunk capital stock to be acquired by the Dominion Government. New York, Feb. 20.—Plans for better publicity are under consideration by the League of Nations. The League of Nations News Bureau today received from Geneva a communication from the League Council embodying a memorandum regarding publicity prepared by Wilson Harris, London newspaper man, and President of the International Association of Journalists accredited to the League of Nations. "It is necessary" said the memorandum "that the league should persistently cultivate what may be termed both active and passive publicity; by passive publicity being understood the mere stimulation of secrecy and by active publicity the taking of definite measures to secure the world-wide dissemination of information of importance."

new NIPS—the candy-coated
peppermint tid bit!
Chew it after every meal.

MOTOR SHIP BUILDING INCREASES IN BRITAIN

Last Year's Figures Consti-
tuted Record—Expect Even
More This Year

(By Canadian Press.)
London, Feb. 20.—Despite the
fact that the workers in the ship-
yards of Great Britain are already
unemployed by reason of the im-
possibility of competing for tonnage
under the present cost of produc-
tion, motor-ship construction last

year constituted a record and pro-
mises this year to eclipse that re-
cord.
According to Motor Ship, Great
Britain led the world in this type
of ship construction, her quota of
the total number of ships launched
or completed in 1921 being 27,
compared with twelve for Denmark
and eleven for Germany and 24 di-
vided between Sweden, the United
States, Holland, Italy, Norway,
France, Spain and Portugal. The
aggregate tonnage completed was
332,475. In addition, 239,850 tons
were launched, but were not com-
pleted at the end of last year.
These figures are exclusive of any
vessels under 1,000 tons dead-
weight.

RACING SEASON TO OPEN SOON

Flat Events Get Under Way In
England Next Month Once
More

(By Canadian Press.)

London, Feb. 20.—Signs are not
lacking of the re-opening of the
flat racing season next month. Con-
siderable betting has already been
done on the popular spring "Doubt-
less"—the Lincolnshire Handicap
and the Grand National, the first of
which, the Lincolnshire, marks the
opening of the flat racing season
and the latter, the premier race in
the chasing world.

Up to the present the trend of the
wagers laid with one big book-
maker who makes a specialty of
these double-event wagers, indicate
that Leighton, despite his disap-
pointing season last year, after his
early promise as a two year old, is
the public fancy for the Lincoln-
shire, run on the famous Carsholm
at Lincoln on Wednesday March 22.
Four outstanding entrants for the
Grand National, Always, Southamp-
ton, Norton and Shaun Spadah, the
latter the winner of the National
last year, are coupled with Leigh-
ton. Other combinations are:
Twickenham-Shaun Spadah, Twick-
enham-Southampton and Polydip-
sia-Norton. On each of these
seven combinations this one book-
maker has laid up to \$100,000.00.

"Going it blind," before even the
weights, let alone the acceptances,
are published, is, to say the least of
it, a proof of considerable optimism
on the part of the punter and he is
justly entitled to very long odds on
his selection. It is interesting,
however, to note that Leighton,
after his disappointing work last
season as a three-year-old, is again
in public favor. As a two-year old
Mr. Kennedy's colt carried every-
thing before him and was hailed by
some of his enthusiast supporters as
a sort of super horse—a second
Flying Fox. His failure in last
year's Derby was attributed to the
lack of an early race—for which the
cool strikes and curtailment of racing
last spring was responsible—which
would, it is said, have had the ef-
fect of sharpening him up for the
big race at Epsom. Then followed
Leighton's defeat over the Hunt Cup
course at Ascot. This was attrib-
uted by his admirers to the 22 lbs. he
was compelled to concede to the
winner, Plymouth, which impost
they claim, neither Humorist or
Craig an Bran could safely have
given the Manton filly that day.
Leighton was next heard of in the
Cambridgeshire at Newmarket
Houghton last October. In spite of
his big weight he was confidently
expected to win this race—that is,
up to two weeks prior to the event,
when he fell a victim of the cough-
ing epidemic. He made a grand
effort to win and managed to finish
second to Milenko, and more firmly
than ever impressed his backers
with his genuine class. On the
whole Leighton's performances
have given the impression that he is
a brilliant miler, and at his best on
the Lincolnshire track.

It is a little curious to see Twick-
enham coming in for so much atten-
tion in the Lincolnshire, as he has
never won over a longer distance
than six furlongs and his public
fame is only that of a fair plater.
It is evident, however, that he has a
good private reputation.

But then predicting a winner of
the Grand National is a hazardous
pursuit at best. Well nigh any-
thing can happen in this race—the
best horse fall, throw his rider, or
be knocked down by some other
senseless horse, and it is well to re-
member that of the 36 horses who
went to the post in this event last
year, only four finished.

Apart from the "double" betting,
Service Kit and Highlander are
coming in for attention in connec-
tion with the Lincolnshire. With a
fair impost Highlander can be con-
sidered as a likely "Lincoln" ani-
mal. The only race Highlander
won last year was a three-year-old
handicap over the mile at Newmar-
ket in May. He made a hash of a
big field on this occasion, giving
weight to all but two of his numer-
ous rivals.

Granite Trade Is Being Affected
German Competition Cutting
Into Tombstone Business—
Aberdeen Hard Hit

(By Canadian Press.)

Aberdeen, Scotland, Feb. 20.—
German competition is even cutting
into the tombstones business and
thereby affecting the granite trade
which is one of Aberdeen's leading
industries.

Large English cities are reported
to be buying tombstones and even
war memorials from Germany at
rates that are substantially cheaper
than Aberdeen granite firms can
produce them while paying present
wages.

American wholesale agents who
once bought large quantities of Ab-
erdeen granite also are reported to
have purchased \$50,000 worth of
headstones from Germany, these
being manufactured from Scandi-
navian granite.

In consequence there has been a
great slump in orders received here
for tombstones and mortuary mem-
orials. Many Aberdeen granite
firms have notified their workmen
of an impending cut in wages.

Girls! Lemons
Whiten Hands

(By Canadian Press.)

London, Feb. 20.—Probably the
loneliest occupation in Great Britain
is that of Harry Edwardson, who
every spring goes out to an isolated
hut on the island of Hermeness,
north of the Shetlands.

He is the watcher of the birds
under the Royal Society for the
Protection of Birds. For fifteen
years he has filled the post for the
Society, staying in the hut, which
faces the wild Atlantic, from spring
until autumn, but altogether he has
been keeping his annual vigil for
37 years.

In his tiny shanty, the watcher
has done admirable work in pre-
venting the destruction of bird-life
by skin-hunters and egg-collectors.

CONSIDER ART AS SUPERFLUOUS

Artistic Attainments Are Con-
sidered Of No Value In
Soviet Russia

(By Canadian Press.)

Winnipeg, Feb. 20.—All art is
considered superfluous and artistic
attainments have no value under
the Soviet government of Russia,
declares Miss Lilith Gorsey, Russian
prima donna soprano and former
prima donna of the Odessa Munic-
ipal Grand opera, recently arrived
in this city, after a series of re-
markable adventures in making her
escape from Odessa, to make her
home with a brother, Miss Gorsey,
who states all artists are strictly
forbidden to leave Russia, managed
to get the captain of a small boat
plying between Odessa and Con-
stantinople to hide her parents and
herself on board. After a stormy
voyage, taking twice the normal
time to make the journey, she
reached Constantinople and through
the efforts of the British consul
there was able to book passage for
Canada.

The Bolsheviks are doing little or
nothing to encourage or support
art and the result is that musicians
find it impossible to make a living,
and are starving like everybody else.
All artists are "mobilized," she
said, and must give their service
free when asked. Miss Gorsey is a
thorough musician, was a professor
of pianoforte in the famous Odessa
conservatory, had studied opera in
Milan, held scholarships in her
own conservatory for voice, piano
and composition, but all that re-
mained for her; under the new re-
gime, was to sing and whenever the
soviet asked her, either for nothing
or for a little bread. She contin-
ued her teaching at the conserva-
tory, but the government has with-
drawn support and it is maintained
only by subscriptions of a few
music lovers. The number of stu-
dents remain the same, because the
students now demand free tuition in-
stead of paying heavy fees. News-
papers, asserts Miss Gorsey, are
forbidden to publish anything
about music as it is considered of no
importance.

According to Miss Gorsey educa-
tion is not considered important
and professional life of all kinds is
changed under the soviet. Some
of the most brilliant Russian
lawyers are to be seen blacking
boots or selling old books. In the
university, the faculties of law and
mathematics and natural science
are abolished. Doctors and engi-
neers are "mobilized," and have to
work under government direction.
Government control and lack of se-
curity have killed private enter-
prise, Miss Gorsey claims, and all
business is at a standstill in Odes-
sa, a city of 2,000,000 inhabitants
formerly the leading seaport of
Russia.

Miss Gorsey has appeared in the
same concerts as Chaliapin; the
Russian bass who is creating such a
furore in the United States, and
has also acted in "La Tosca" with
Cessavitch, called the "second Chal-
iapin." Miss Gorsey was warmly
received by a large gathering of
Winnipeg music lovers when she
made her debut at a recent Satur-
day night popular or better known
"Pop" concert under the auspices
of the Men's Musical Club and the
board of trade music bureau.

MOTHER!
Move Child's Bowels with
"California Fig Syrup"

(By Canadian Press.)

London, Feb. 20.—The use of the
leech, the oldest of the old thera-
peutic measures, is being revived by
physicians in the United Kingdom
as a better method of relieving in-
flammatory areas. Not long ago it
was said that the trade in leeches
was one of the "dying trades." Ac-
cording to the "Hospital and
Health Review," there were in 1870
no fewer than a dozen merchants in
Paris made their living out of leech-
es, each of them selling between
300,000 and 400,000 leeches a
month at 250 francs per thousand.
Paris today has only one firm of the
kind, and its sales are about 130,-
000 per month at 60 francs per
thousand. The "Assistance Pub-
lique," which used to buy 80,000
francs worth of leeches, now buys
only 200 francs' worth.

An authority of wide experience
declared some days ago that there
had been a "small boom" just re-
cently, and that some chemists
could easily dispose of double the
number they are able to buy. This
difficulty of supply is largely due to
the fact that the old leech "farms"
have disappeared. These farms had
ponds into which old horses were
made to walk at stated intervals in
order to feed the "stock." Now
leeches are fished for and exported
in baskets from Turkey and other
areas.

The leech belongs to the blood-
letting days. Its modern use,
however, is probably more as a
counter irritant than as a remover
of blood. It is a kind of animated
mustard plaster and surgeon's knife
combined and its efforts, or so
those who believe in it declare, re-
sult in a marked relief of tension
and a rapid subsidence of inflama-
tory mischief.

Loneliest Occupation
IN GREAT BRITAIN.
(By Canadian Press.)

London, Feb. 20.—Probably the
loneliest occupation in Great Britain
is that of Harry Edwardson, who
every spring goes out to an isolated
hut on the island of Hermeness,
north of the Shetlands.

He is the watcher of the birds
under the Royal Society for the
Protection of Birds. For fifteen
years he has filled the post for the
Society, staying in the hut, which
faces the wild Atlantic, from spring
until autumn, but altogether he has
been keeping his annual vigil for
37 years.

In his tiny shanty, the watcher
has done admirable work in pre-
venting the destruction of bird-life
by skin-hunters and egg-collectors.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; alaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

USE OF LEECH BEING REVIVED

By Physicians In England As
Better Method Of Relieving
Inflammatory Areas

(By Canadian Press.)

London, Feb. 20.—The use of the
leech, the oldest of the old thera-
peutic measures, is being revived by
physicians in the United Kingdom
as a better method of relieving in-
flammatory areas. Not long ago it
was said that the trade in leeches
was one of the "dying trades." Ac-
cording to the "Hospital and
Health Review," there were in 1870
no fewer than a dozen merchants in
Paris made their living out of leech-
es, each of them selling between
300,000 and 400,000 leeches a
month at 250 francs per thousand.
Paris today has only one firm of the
kind, and its sales are about 130,-
000 per month at 60 francs per
thousand. The "Assistance Pub-
lique," which used to buy 80,000
francs worth of leeches, now buys
only 200 francs' worth.

An authority of wide experience
declared some days ago that there
had been a "small boom" just re-
cently, and that some chemists
could easily dispose of double the
number they are able to buy. This
difficulty of supply is largely due to
the fact that the old leech "farms"
have disappeared. These farms had
ponds into which old horses were
made to walk at stated intervals in
order to feed the "stock." Now
leeches are fished for and exported
in baskets from Turkey and other
areas.

The leech belongs to the blood-
letting days. Its modern use,
however, is probably more as a

of blood. It is a kind of animated
mustard plaster and surgeon's knife
combined and its efforts, or so
those who believe in it declare, re-
sult in a marked relief of tension
and a rapid subsidence of inflama-
tory mischief.

ITCHING ECZEMA
DRIED RIGHT UP
WITH SULPHUR

(By Canadian Press.)

Any breaking out of the skin, even
ery, itching eczema, can be quickly
overcome by applying a little Men-
tho-Sulphur, says a noted skin spe-
cialist. Because of its germ destroy-
ing properties, this sulphur prepara-
tion instantly brings ease from skin
irritation, soothes and heals the ec-
zema right up and leaves the skin
clear and smooth.

It seldom fails to relieve the tor-
ment and disfigurement. Sufferers
from skin trouble should get a little
jar of Mentho-Sulphur from any
good druggist and use it like a cold
cream.

PLACE BODY IN HEATED ROOM FOR THREE DAYS

Curious Will Of English Build-
er—Had Dread Of Being
Buried Alive

(By Canadian Press.)

London, Feb. 20.—William
Houghton, a Ramsgate builder who
died recently of influenza had a
dread of being buried alive and his
will left instructions that his body
should be placed in a heated room
for three days so that in the event
of there being any life left signs of
animation might be discovered.

He also directed that a main ar-
tery should be cut and that his body
should be buried at sea without a
coffin. These wishes were carried
out, the body being secured to an
oak tray with lead and covered
simply with a black cloth. A motor
boat conveyed the remains out to
sea where they were committed
to the deep.

Any breaking out of the skin, even
ery, itching eczema, can be quickly
overcome by applying a little Men-
tho-Sulphur, says a noted skin spe-
cialist. Because of its germ destroy-
ing properties, this sulphur prepara-
tion instantly brings ease from skin

ALL ARRANGEMENTS NOW COMPLETE FOR MILITARY FUNERAL OF SIR DAVID

Gen. Landry Has Made Every Effort With Troops At His Disposal To Accord Highest Honors Possible To Deceased Major General—Order Of March Decided—Lady Watson Receives Message Of Sympathy From His Majesty The King

All arrangements are now complete for the military funeral of the late Major General Sir David Watson, K.C.B., C.M.G., which takes place today at 2:30 p.m. from his late residence 35 St. Ursule Street to Chalmers' Church thence to Mount Hermon Cemetery. The G.O. C. of Military District No. 5, Bde General J. P. Landry, C.M.G., has made every effort with the number of troops at his disposal, to accord the highest honours possible.

The following order of march has been decided on and instructions issued to all concerned:— The Piping Party, a Composite Unit from all branches of the Garrison, Commanded by Lieut. Col. H. Chase, D.S.O., M.C.

The Band, Royal Canadian Garrison Artillery, under Capt. Chas O'Neil, The Gun Carriage, furnished by R.C.G.A. Men and horses from Royal Canadian Army Service Corps. The Pall Bearers will be as follows: Lieut. General Sir Richard Turner, V.C., K.C.B., K.C.M.G., D.S.O., Major General Sir Edward Morrison, K.C.M.G., C.B., D.S.O., Major General Sir Archie MacDonell, K.C.B., C.M.G., D.S.O., Major General J. H. McBrian, C.B., C.M.G., D.S.O., Bde General W. B. King, C.M.G., D.S.O., Bde General T. L. Tremblay, C.M.G., D.S.O.

Charger with late Officers boots reversed in stirrups. Mourners as follows: Captain T. M. Houghton, Mr. Walter Sharpe, Mr. James Craig and Mr. Grant.

Officials: Major Willis O'Connor, D.S.O., A.D.C., representing His Excellency The Governor General.

His Honor the Lieutenant Governor Sir Charles Fitzpatrick, P.C., G.C.M.G. The Prime Minister, the Hon. W. L. McKenzie-King and those members of his Cabinet who will be in town today.

The Premier of the Province, the Hon. L. A. Taschereau, Archdeacon Balfour representing the Lord Bishop of Quebec, the Hon. General Sir Hector Burdall, K.C.B., K.C.M.G., representing the Minister of Militia, Military Officers, to include all those in Uniform not otherwise detailed. Veterans in uniform, Notables, The Staff of The Chronicle, Associations to include Masonic Order, Curling Clubs, Typographical Union, etc. The General Public.

For the assistance of and to avoid confusion to those attending. Headquarters have arranged that some of the Instructional Staff will be posted as markers for the different Units and Public Bodies, and will direct them to the places assigned them in the cortege.

After the Service all those attending the funeral will take the procession previously assigned to them. The procession will then proceed to the junction of Maple Ave and St. Louis Road where the funeral party will be halted. At this point the usual volleys will be fired and the Last Post sounded. As the Gun Carriage moves from the Chalmers Church enroute for the cemetery an Artillery Salute of 13 guns will be fired from the Citadel.

General Regret Voiced The general regret which is felt at the death of Major General Sir David Watson, K.C.B., C.M.G., not only in this city and throughout the country, but in the United States and England has been feelingly expressed in the many telegrams and cablesgrams of sympathy, which began to pour in here yesterday to Lady Watson.

As soon as the news of Sir David's illness became generally known in other parts of Canada last Friday and Saturday, telegrams began to arrive making anxious inquiry about his condition and wishing him a speedy recovery. Among those who sent these messages were Sir Montague Allan, Montreal, Sir James Griffin, Toronto, Mr. George R. Wilson, Toronto, Mr. J. E. Dalrymple, Montreal, Mr. C. R. Hosmer, Montreal, Mr. Geo. H. Stewart, Montreal; General McBain, Toronto.

A striking coincidence in connection with the death of Sir David Watson is the fact that, had he lived three hours longer, he would have died on the second anniversary of the death of his eldest daughter, Mrs. James Craig, on at exactly the same hour. His funeral today will be on the anniversary of his daughter's funeral two years ago.

Distinguished men from all parts of Canada will attend his obsequies today, but unfortunately his comrade in arms, General Sir Arthur Currie will be unable to be present. Sir Arthur sent the following telegram to Sir Richard Turner:— "I am profoundly shocked and grieved to learn of poor Watson's death. I regret exceedingly that I cannot attend the funeral as I leave Monday night for Philadelphia to keep a long standing engagement."

General McBain also sent a telegram to Hon. Frank Carrel yesterday expressing fear that he would not have sufficient time to reach Quebec for the funeral.

At a special meeting of the officers and members of the Typographical Union of Quebec No. 302, held yesterday morning, the following resolution was proposed and unanimously adopted:— "That the members of this Union

RENT SITUATION IN THE CAPITAL

Last Year's Level Being Maintained By Landlords—Increases Asked

Ottawa, Feb. 20—The local rent situation so far this year has shown a tendency to maintain last year's rentals on residential and commercial properties and in some instances increases have been asked and new leases signed including the advance of some real estate agents report an advance of from five to ten dollars per month in house rents and in the business and commercial locations increases of from \$50 to \$100 per month have occurred in several instances.

In regard to a Montreal despatch a prominent real estate agent pointed out that the supply of houses of commercial offices in Montreal exceeded the demand and as long as this condition prevailed rents would likely continue to go lower in Montreal.

"As long as Ottawa stays the way it is and there is not an intensive building campaign, Ottawa rents will in all probability remain as high as last year, if they do not go higher."

The majority of the leases for apartments are usually made in October, so it is not yet known whether there will be any attempt to advance rents in this direction or not.

ONE OF LANDRU'S ALLEGED WIVES

Said To Have Been Tenant Of Montreal Landlord In 1916

Montreal, Feb. 20—According to Paul Larcher, a landlord of this city for twenty-three years but formerly of Paris, Madame Heon, one of "Bluebeard" Landru's alleged wives was a tenant of his in a house on Henri Julien Street for six months in 1916. Mr. Larcher states that this Madame Heon often referred with a shudder to some "horrible experience" she had in Paris, although he never heard her say anything definite concerning her past, nor did she ever mention the name of Landru in his hearing. "She was very poor," said Mr. Larcher, "and she was forced to place her two daughters, girls of about 16 and 18, in Chenniville Convent. I never heard of them again, and I do not remember their names."

In the landlord's opinion Madame Heon died from natural causes. He added that he knew the exact spot where her grave is in Cote des Neiges cemetery.

WERE HIGHEST IN MANY YEARS

Leading European Exchanges Soared Yesterday On New York Market

New York, Feb. 20—Leading European exchanges today mounted to highest quotations in years. Their advance was accompanied by further strength in the grain and cotton markets, which was attributed to foreign buying.

Demand sterling or British bills sold at \$4.39, a gain of 1/4-c. over the week-end. The heavy buying of this remittance suggested covering of an urgent character.

Demand bills on Paris, Brussels and Italian centers were 10 to 17 points higher, but the German mark collapsed to the year's low of 4 1/4-100 of \$1-2 points under last week's best prices.

Exchange on the Central European powers including Austria, Poland and Czechoslovakia also eased. Reactions of 2 to 10 points in Danish-Norwegian and Swedish quotations were regarded as logical declines from their recent steady gains.

Hon. C. C. Ballantyne—"Sincere sympathy in the loss of your distinguished husband."

Sir Ion Benn, London, Eng.—"Deepest sympathy in sad bereavement."

W. J. Lynch, Montreal—"Please accept sincere sympathy in your sad bereavement."

Among the others who sent messages were the following: Mr. B. Hal Brown, Vancouver, Va.; Mr. Lorne Hamilton, London, Eng.; Mr. Newton J. Moore, London, Eng.; Mr. Dudley Oliver, Mr. and Mrs. W. H. McIntyre, Ottawa; Mr. H. O. Wilson, Montreal; Captain Leo. Garneau, Montreal; Mr. Henry Russell, New York; Lt. Col. J. F. Foulkes, Kingston; Mr. Andrew Allerton, Calgary, Alta.; Brig. Gen. and Mrs. E. de B. Paret, Montreal; Mr. and Mrs. J. A. Bothwell, East Angus, P.Q.; Miss May Grant, Ottawa; Mrs. Grace Rowley Lake Edward, P.Q.; J. R. Henderson, Montreal; Robert H. Craig, Montreal; Col. K. R. Marshall, Toronto; Mr. and Mrs. John Bassett, Ottawa.

JOINED PRAISES OF J. BALFOUR

United States Represented By Ambassador Harvey At Pilgrims' Dinner

London, Feb. 20—The United States joined in the praises of A. J. Balfour, head of the British Mission at the Washington conference, in his welcome to the homeland, when the American Ambassador, George Harvey, addressed the Pilgrims' Society dinner tonight at which 300 persons assembled.

The Duke of York represented the Royal family and the others included Ministers of the Cabinet, civil and military leaders and official and unofficial representatives of the United States community.

It was a "personal welcome" for a great pilgrim according to Marquis Curzon, in contrast to the official welcome accorded Mr. Balfour by the Government luncheon on Thursday.

The King, by letter, which was read to the dinner, the Duke of York, Lord Curzon and Mr. Harvey indulged in eulogies of Mr. Balfour. Cheers greeted Ambassador Harvey's prediction that the United States was as certain to ratify the various treaties as the British Parliament was to sanction them.

TWO ALDERMEN WERE DEFEATED

Five New Members Elected To The City Council—Strong Contests

Elections in the five contested seats for membership of the Quebec City Council were held yesterday and resulted in the defeat of two aldermen, Ald. Jos. Mercier and Ald. Aug. Labrecque, and the election of five new members to the City Council.

The results in the contested seats are the following: Montclair Ward (Seat No. 1) Elz. E. Tremblay defeated Ald. Jos. Mercier by 56 majority.

St. Roch's Ward (Seat No. 1) Jos. Emond defeated Geo. Turcotte by 351 majority.

Jacques Cartier Ward (Seat No. 1) J. M. Desmarais defeated Ed. S. Bois and E. P. Berube by 131 majority.

Jacques Cartier Ward (Seat No. 2) Dr. J. P. Paradis defeated Ald. A. Labrecque and Antonio Paradis by 248 majority.

St. Sauveur Ward (Seat No. 1) Arthur Drolet defeated Jos. Tanguay by 27 majority.

There will be five new aldermen in the next Council and seven of the old members who were re-elected.

Those re-elected by acclamation at the nominations last week were the following: Ald. Jos. Collier, Ald. Martin, Ald. Bedard, Ald. Lesage and Ald. Delagrave.

Ald. A. Lantier was opposed on nomination day by Dr. Jean Dussault, but during the week Dr. Dussault withdrew.

The result poll by poll in Montclair (Belvedere) Ward was as follows: Poll Mercier Tremblay 98 18 25

102 30 27 97 19 31 100 12 26 103 46 21 96a 18 24 104 22 20 99 11 17 101 25 56 96 38 35 Majority for Mr. Tremblay 55.

POLICE ATTACKED BY CLUB ARMED MOB

Eight Casualties Inflicted Among Rioters—Officers Had Three Killed

London, Feb. 20—The India office announces that Commissioner Webster in Assam has informed the Government from Kanaighan, that in the town of Sylhet on February 15, while the police were dispersing a meeting that had been forbidden, they were attacked by a large body of men armed with clubs. The police fired on the mob, inflicting eight casualties, but themselves lost three men killed and three wounded. Reinforcements arrived February 19 and since then there have been no further disturbances.

ESTATE WAS SOLD AT PUBLIC AUCTION Port Arthur, Ont., Feb. 20—The estate of the Kamistiquia Pulp and Paper Co., consisting of a fully equipped ground-wood mill and six-acre tract of property under a 99 year lease from the corporation of the City of Port Arthur, was sold at public auction today for \$175,000.

George P. Berkey, vice-president and General Manager of the Consolidated Water Power and Paper Company of Wisconsin Rapids, Wis. The mill was constructed and completed in January, 1921, at an estimated cost of \$450,000 and was in operation less than three months. U. M. Waite was president and General Manager.

PERSONAL Mr. J. R. Henderson, Business Manager of the Montreal Gazette, will arrive here this morning to represent Hon. Smeaton White at the funeral of Sir David Watson.

DUBLIN HOTELS CROWDED WITH DELEGATES

Ard Fheis Or National Sinn Fein Convention Opens Today

Expected On Efforts Of De Valera To Stifle Irish Free State

Dublin, Feb. 20—The hotels of Dublin were crowded tonight with delegates who to-morrow will attend the opening of the Ard Fheis or National Sinn Fein convention. More than 2,000 delegates had arrived up to a late hour this evening on Thursday.

The convention is expected to have an important bearing on the efforts of Eamon de Valera and his followers to prevent the treaty with the British Government from being carried into effect.

Elaborate arrangements have been made for recording the vote but even if the balloting takes place at 8 o'clock, the result may not be determined until eleven o'clock. There fore it is considered possible that the Congress will not be available until early Wednesday morning. The 1,600 Dublin clubs have a right to elect two delegates each, but notification has been received that there will be a total nomination of 2,400 persons, of whom it is said 2,200 actually will attend the gathering.

The issue to be determined by the delegates is clearly recognized as being for and against the treaty. Mr. de Valera has given notice of a resolution that the Sinn Fein organization will continue to adhere to the spirit and the letter of the constitution adopted by the Ard Fheis in 1917 and that accordingly until international recognition of Ireland as an independent Republic has been secured, the aim of the organization shall be, as before, dependent upon that recognition.

It was conceded tonight that a two-thirds majority cannot be obtained. There is much interesting speculation concerning the line Mr. de Valera, President of the Assembly may take on the effect of the resolutions. The meeting will determine whether the republicans or the adherents of the Free State shall control the party machine, which is an important consideration in view of the forthcoming election.

Lieutenant Shot Belfast, Feb. 20—Lieutenant Mead of the Army Service Corps was shot and killed and Quartermaster Sergeant Cunliffe was seriously wounded as the result of an attack from ambush along a road near Dublin this afternoon. Cunliffe is not expected to survive his injuries.

Both men were shot in the head. Lt. Mead, who was stationed in the Royal Barracks at Dublin, was proceeding from there in a tender with Sergeant Cunliffe, two privates and a driver when attacked by an armed gang. The driver put on speed and reached King George's Hospital, but Mead was dead when he arrived. Some of the attacking party are reported to have been wounded in the exchange of shots.

The members of the Irish Republican Army football team, captured at Dromore last month, were released in conformity with all this morning, in conformity with the order issued last night by Viscount Fitzalan, the Viceroy.

The released men were conveyed in motor cars across the Irish Free State border in Donegal by British troops. They were accompanied by the remainder of their journey by Commandant Shields of Donegal Sinn Fein National Officer.

Irish Representation London Feb. 20—Winston Spencer Churchill, Colonial Secretary, stated in the House of Commons this afternoon that the Irish Free State, when constituted, would be represented at conferences similar to the recent Arms Conference at Washington. His statement arose from a question as to the decision of the Washington Conference as regard to poison gas whenever a railway would become binding upon the Irish Free State. Mr. Churchill replied in the affirmative.

Submitting a vote of 1,500,000 pounds in the House today for all police forces in Ireland Sir Hamar Greenwood, the Secretary for Ireland, said this represented the final charge upon British taxpayers for policing Ireland.

Since the signing of the Anglo-Irish treaty, the Secretary stated, 6,000 officers and men of the Royal Irish Constabulary who had been recruited in Great Britain and in 6,000 of all ranks of the auxiliary police had been disbanded. The force in Southern Ireland was not almost entirely Irish and predominantly Catholic, he added.

Prisoners Set Free Manchester, Eng., Feb. 20—About a score of Sinn Feiners who were convicted here in 1921 on a charge of shooting with intent to kill, arson and other offences, and sentenced to terms of penal servitude ranging from fifteen years downward, returned to their homes in Ireland.

The local branch of the Irish Self-Determination League gave the released men a public reception.

QUEBEC BONSPIEL As a mark of respect to the memory of the late Major General Sir David Watson, the games in the Bonspiel now being played will be suspended during the hours of the funeral service. All visiting and local curlers are requested to meet at the Victoria Curling rink at 2 p.m. on Tuesday 21st, instant to attend the funeral in a body.

MR. MCGILL APPOINTED Montreal, Feb. 20—J. A. McGill is appointed General Agent Passenger Department of the Canadian Pacific Railway, and A. L. Sauve, City Passenger and Ticket Agent at Ottawa, according to a C. P. R. announcement issued today.

APPLICATION HAS BEEN WITHDRAWN

Great Lakes Company To Spend Two Million Dollars On Paper Mill

Fort William, Ont., Feb. 20—Mayor Edmondson returned from Toronto yesterday and stated today that the application to cancel the Sturgeon River and Pic limits had been withdrawn and the Great Lakes Pulp and Paper Co. would spend two million dollars on a paper mill at Fort William within three years, their time being extended for a year. Premier Drury assured the Mayor that power from Nipigon would be delivered at Fort William at the same price as at any point served by the hydro plant, and intimated that steps would be taken to ensure that the price of power would be reasonable.

SHORT SITTING OF THE ASSEMBLY

Shawinigan Water & Power Company Bill Amended—Many Questions Answered

There was a short sitting of the Legislative Assembly yesterday afternoon at which several private bills were studied in committee of the House and given third reading, while a number of questions were answered.

The bill of the Shawinigan Water and Power Company, authorizing them to increase their capital from time to time to an amount not exceeding forty million dollars by a resolution approved by a majority of the shareholders of the subscribed stock, was passed after being considerably amended in Committee of the House. The clause which would have enabled them to issue mortgage bonds, debentures, etc., payable in the currency of any country was amended to read that such bonds and debentures may be issued or made payable at the option of the holder in the gold coin or in the currency of the Dominion of Canada, Great Britain, or the United States of America. A new clause added to that authorizing the issue of the new stock provides that "No stock representing an increase of capital shall be issued or delivered unless all shares representing an increase in capital previously authorized shall have been subscribed for and paid in full. Notice of the amount of any increase in capital and the date of the authorized issue of the same shall be published by the company in the Quebec official Gazette prior to the issue and delivery of certificates with respect to the shares representing any such increase in capital."

Another clause put into the bill ratifies and confirms covenants entered into between the company and the Montreal Trust Co., to pay in gold coin of the United States the principal and interest on any bonds of the company issued under the terms and conditions of the trust deeds mortgages etc., made in 1919, 1920 and 1921.

The bill now goes to the Legislative Council for consideration, where the Montreal Public Service Corporation Bill is also resting until its mate, the Canadian Light and Power Co. Bill gets its third reading in the Legislative Assembly.

JUGO-SLAVIA'S KING BETROTHED

King Alexander And Princess Marie Of Rumania Were Engaged Yesterday

Bucharest, Feb. 20—The ceremony of the betrothal of King Alexander of Jugo-Slavia and Princess Marie of Rumania was celebrated at the Corcorand Palace this afternoon. Alexander, who was accompanied by Premier Pachitch and others of his Ministers, was met on his arrival at the station by the King and members of the Royal Family and Government officials. He proceeded to the Palace through crowds of cheering people.

FUNERAL NOTICE QUEBEC BONSPIEL As a mark of respect to the memory of the late Major General Sir David Watson, the games in the Bonspiel now being played will be suspended during the hours of the funeral service. All visiting and local curlers are requested to meet at the Victoria Curling rink at 2 p.m. on Tuesday 21st, instant to attend the funeral in a body.

MR. MCGILL APPOINTED Montreal, Feb. 20—J. A. McGill is appointed General Agent Passenger Department of the Canadian Pacific Railway, and A. L. Sauve, City Passenger and Ticket Agent at Ottawa, according to a C. P. R. announcement issued today.

The Grateful Comfort induced by a cup of the real "SALADA" TEA

is made doubly acceptable by reason of the exquisite flavour. All grocers sell 'Salada' in sealed metal packets.

CURRIE EXPRESSES SINCERE REGRET

Prevented From Attending Sir David Watson's Funeral By Prior Engagement

Montreal, Feb. 20—General Sir Arthur Currie to-night expressed sincere regret that a prior engagement to go to Philadelphia made it impossible for him to attend the funeral of his old friend and fellow soldier in France, the late Major General Sir David Watson, since the arrangements had been made long before there was any thought that Sir David Watson was in any danger of death.

"I am deeply moved at the death of my old comrade in arms," said General Sir Arthur Currie to-night, "and the more so that circumstances make it impossible for me to attend his funeral. But knowing him as I did for many years, both in peace and in war, I know that he would have wished that I 'carry on' and go ahead with the duties of my position. Therefore I am going to fulfill my duties as Principal of McGill, confident that such would meet the desire of General Watson, even though it deprives me of the honor of paying the last honors to so fine a soldier as General Sir David Watson proved himself during the trying days of the war."

"I am deeply moved at the death of my old comrade in arms," said General Sir Arthur Currie to-night, "and the more so that circumstances make it impossible for me to attend his funeral. But knowing him as I did for many years, both in peace and in war, I know that he would have wished that I 'carry on' and go ahead with the duties of my position. Therefore I am going to fulfill my duties as Principal of McGill, confident that such would meet the desire of General Watson, even though it deprives me of the honor of paying the last honors to so fine a soldier as General Sir David Watson proved himself during the trying days of the war."

Washington, Feb. 20—General Harding, replying today to the Senate on the Hitchcock resolution asking for information relative to the negotiations of the four power Pacific treaty, stated it was impossible to furnish the required information because the negotiations were conducted without the maintaining of a record.

The President said it would not be compatible with public interests to disclose the confidential negotiations of the treaty negotiators but he declared that "there were no concealed undertakings and no secret exchanges of notes."

Almost coincident with the arrival of the President's letter at the Senate the foreign relations committee of that body by a vote of ten to one ordered favorably reported the treaty between the United States and Japan regarding the Island of Yap.

ALBERTA TOWN SCENE OF DAMAGING BLAZE Calgary, Alta., Feb. 20—Damage estimated at \$50,000 resulted from a fire which destroyed three stores and threatened the entire business section of the town of Trochu, Alta., Saturday night, according to word received here today. The loss is fully covered by insurance.

For Colds, Grip or Influenza, and as a Preventive, take Laxative BROMO QUININ Tablets. The genuine bears the signature of E. W. Grove. (Be sure you get BROMO.) 30c. Made in Canada.

QUEBEC, FEBRUARY 21, 1922

CLEVELAND'S EXAMPLE

The incongruous outcome of the December general elections and the revived discussion of the merits of proportional representation stimulated thereby has directed attention to Cleveland, the fifth largest city in the United States, which has adopted both proportional representation and a civic manager plan by a vote of 77,888 to 58,204, or a majority of 133,803.

The chief reason for the institution of this reform in Cleveland is said to have been the sway of the political machines. In this connection, it is recognized by close observers that a great majority of political defeats are due to the opportunities afforded by the present electoral methods to exercise an undue influence, an influence, that is, which is wholly selfish for party, and considers national or popular interests secondary. The political machines in Cleveland had little popular support, and were credited with not more than 5,000 controlled votes each. But 5,000 votes exercised under present methods were shown to be sufficient to dominate the city in spite of adverse majorities.

An examination of the returns in the last preceding election of councilmen showed that a change of only 685 votes in five close wards would have changed a Republican majority of eight into a Democratic majority. The large Republican minority elected was returned by a minority of voters, they carrying seventeen wards out of twenty-six. As long as minority rule is established in this way it is idle to declaim about the failure of democracy. And it is remarkable that many of those who so declaim are quite unwilling to try the only method that has been proven to be really democratic and sure to give a majority government to a majority of voters. The present system encourages manipulation and disheartens and discourages manipulation all who by education and other fair means endeavor to elect from all the voters a full and free expression of electoral opinion. This can only be done by adopting proportional representation.

In the last Federal parliament at Ottawa an unusual opportunity was presented to the Government of the day to pass a measure of proportional representation. The idea was shelved by politicians too frequently inclined to take the chance of "doubles or quits." Under the present system there is always the possibility of a party obtaining a larger share of representation than it is entitled to on its real voting strength. At any rate the Government, declined to pass a measure which would have had the support of the Opposition parties, all of which were committed to the P. R. policy. A similar opportunity was lost by the Ontario Government in 1919. The result in each case should give opponents of proportional representation something to think about.

The parliamentary committee appointed to report on proportional representation, was urged by its opponents it might bring in a Government with so slender a majority as to prove unworkable. Yet, a parliament of 235 members the Liberals obtained 117 seats, less than half the total, the Conservatives 51, the Farmers' party 65 and Labor 2. These figures do not represent the actual state of public opinion as they would if they had been the result of proportional representation. They represent the hazard and chances of the ordinary election, which tempts the opposition to play for an early contest in the hope of effecting a change, and thus the Government is rendered so much the more unstable.

NOT VERY COMFORTABLE

However American politicians may feel about the effect of recent tariff legislation in the United States it is a very certain thing that the American business man is far from comfortable in regard to trade with Canada. They are in fact alarmed at a drop of about \$400,000,000 in United States exports to Canada as against a drop of nearly \$225,000,000 in Canadian exports to the United States. So much so that the question is being asked, if the relatively mild and innocuous Young Emergency Tariff can work such havoc, what may we expect from the drastic Fordney Bill, at present held in suspense?

In 1921, Canada brought imports from the United States down to about half a billion, and a great deal of this was coal, ore, raw materials of one kind or another. The list was:

Table with 2 columns: Commodity and Value. Includes Vegetable products, Animal products, Fibres and textiles, Wood and paper, Iron, Non-ferrous metals, Chemical products, Non-metallic minerals, Other commodities.

It cannot be said that this list indicates a large consumption of manufactures in lines that we produce in Canada, or of what may be termed luxuries. The manufacturing output of Canada is even now at least \$2,000,000,000, with factories on short time, values down, and in a period of general business caution. At the peak of the war, the production was \$3,500,000,000. At least a fourth or fifth of the raw materials, or primary manufactures, needed for Canadian manufacturing has to be bought abroad. Oils, gasoline, bituminous coal, iron in many forms, copper, and a hundred other basic commodities have to be brought in. Much of this is duty free, and a considerable quantity of manufactures is brought in for export, earning the drawback.

The drop of \$400,000,000 in imports from the States represents ample compensation, economically, for the loss in our exports. For the seven months from May to the end of the year, the value by which exports to the United States decreased, in those commodities on which the Young tariff put new and heavy duties, was \$90,000,000. That would in dictate a rate of \$150,000,000 for a full year. If Canadians only pursue the same policy, buying only what they actually need for the prosecution of our own production and necessary trade, the American business interests will be driven to kill the Fordney Bill in self-protection. Otherwise, they will have to establish branch factories here in much larger numbers, to recover their lost trade.

THE INSIDIOUS "FLU"

The prevalence of influenza in so many parts of the world, and its recurrence so regularly, is engaging widespread attention among the medical profession. England is beginning to recover from a pandemic of the disease which has been responsible for a large number of deaths. It is also being experienced on this continent, but not in the same acute way as in the Old Country, though in its lighter stages it is perhaps a good deal more prevalent than is generally believed. A theory is advanced that influenza recurs every thirty-

three weeks, and this is being discussed among London doctors and is given prominence by the Medical Correspondent of The London Times, who points out that the belief is that while minor recurrences may be expected at periods of thirty-three weeks, Summer and Autumn epidemics do not materialize. Upon this basis of reasoning, which is deduced from actual statistics of the disease, it is noted that major outbreaks occur at intervals of about ten years. Prophecies affecting the future are that the next minor outbreak will be in October next, while about 1928 a major epidemic will be due.

"The question arises," says the Medical Correspondent of The London Times, "Are the great outbreaks and the lesser ones due to the same cause, the same organism? We are without positive information. There are those who regard all influenzas as being due to the Pfeiffer bacillus. Others regard this bacillus as a mere concomitant, and think the true agent is a minute 'filter-passer.' Perhaps the latter view has most upholders at present." He goes on to point out that there are a number of unsolved problems presented by the disease. The exact nature of the cause is not known. If the theory of the 33-week interval of its recurrence is correct, there is absolutely no knowledge of why this should be the case, nor has there been any plausible theory advanced as to why the disease fails to exert its effects in Summer and Autumn. There have been no antidotes to the infection discovered that can be described as infallible remedies, and but little has been done in the nature of preventive work, or else the influenza scourge would not be becoming so pronounced.

A Verse Or Two

(By Modern Poets)

NO NIGHT IN HEAVEN

No night in Heaven!—Ah, he did not know, That worn old Eastern saint the tender glow Of summer evenings in the happy West.

He had not seen the sunset smoulder low Behind the larches on the far hill's crest, Nor watched the rooks and daws fly home to rest.

He had not known the scent of newmown hay In dream-like fields about the close of day, Nor seen the hawthorns by the May moon's light.

He had not envied lovers as they stray About the dusky lanes, where, starry white, The dog-rose throws her garlands for delight.

If he could know, as we, beloved, know Twilight and harvest-moon, he too would pray: "Morning and noon are good, but night is best— Maker of stars! Oh, give us back the night!"

W. M. LETTS, in the Yale Review.

Press Comment

SIR DAVID WATSON (L'Evenement)

The premature death of Sir David Watson plunges English society in Quebec into profound mourning. The Managing Director of the Chronicle, whose energy and activity were untiring, had very extensive social or business relations. Undoubtedly he was one of the best known men of affairs of the Ancient Capital. He has fallen in his full vigor at the age of 52 years.

It can be said that Sir David Watson spent his whole life with the Chronicle. By his arduous work he attracted the attention of the influential persons of whom his administrative council was composed. When he became the head of his newspaper he reorganized its staff energetically and augmented its profits considerably. His removal is a heavy loss to our confere.

Sir David Watson had always been connected with the Canadian Militia, as an officer of the 8th Regiment. He was also, in 1914, one of the first militia commanders to obtain authority to go to the front with his regiment. He left with the first contingent and was one of the first to reach the trenches. It was there that he crowned his career with the utmost brilliance. It is known how, from a Colonel, he returned to us a Major General and a Knight.

His fine conduct and his reputation then caused him to be called to the Chairmanship of the Quebec Harbor Commission, a position that he filled to advantage for nearly two years. Political fortunes had just obliged him to resign from the Commission when sickness laid him low. But he leaves the public affairs with which he was connected in perfect order, as can be judged by the report which he had proposed to publish on his retirement from office and that we give on another page.

We beg Lady Watson to accept our respectful sympathy in the great affliction that has come upon her, and we join with our conferees on the Chronicle in deploring the loss of a chief so able and so sagacious.

SIR DAVID WATSON (Le Soleil)

The man who went through the war and who, for many months, found himself face to face with death, has just been struck down at Quebec where he was leading a pleasant life with intimate friends.

Sir David was unable to survive the stroke of paralysis which he suffered within the past few days.

Sir David was a confere in Journalism and a devoted partisan, of unbounded zeal for the former administration; he had just resigned as Harbor Commissioner. From this it will be understood that we have often had to combat his opinions and his acts; but we have always retained for his personality the greatest esteem.

Sir David was for those who did not know him a severe man of decided views; but those who were admitted to his confidence will not forget what a gentleman he was at all times.

That is the memory of him which remains to us and the one that we desire to retain.

Our warmest sympathies are extended to Lady Watson and his family.

TWO DIFFERENT IDEALS (Westminster Gazette)

Can France be persuaded to take our view? It would be sanguine to suppose that this question will be decided at once. Behind it all, as we have seen at Washington, lies a conflict between two ideas of "security." The French idea of security by force and the British idea of security by consent: the French idea of maintaining a large army and keeping the Rhineland in French hands, and the British idea of combining the Five Powers in a pact to keep the peace, demilitarise the danger-zones, and relieve each other mutual disarmament. The conflict between these ideas strikes deep, and we must expect a good deal of heart-burning before it is decided, but let us try at all events to keep our tempers over it, and seriously to persuade the French that there is more security and a much better chance of balancing Budgets our way than theirs.

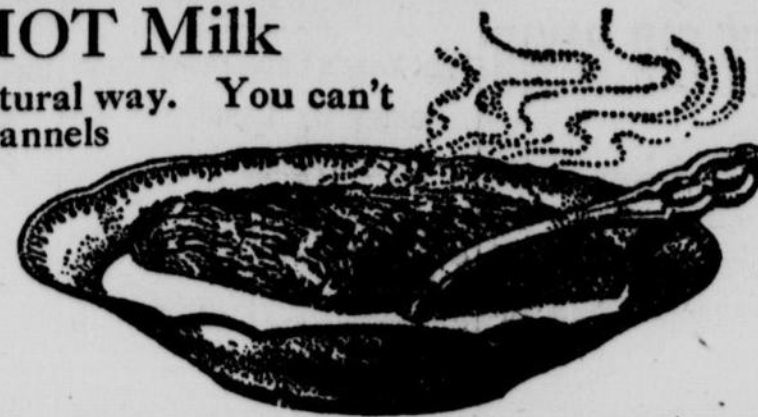

Warmth from Real Fuel-Food

Warmth and strength for the human engine come from a fuel-food that is rich in heat-making elements. You can't "get up steam" from indigestible food. A breakfast or luncheon of

Shredded Wheat

With HOT Milk

supplies warmth and strength in a natural way. You can't warm a poorly nourished body with flannels and overcoats. Shredded Wheat is 100 per cent whole wheat and contains the bran-coat, which promotes peristalsis and thus keeps the bowels healthy and active. A breakfast of Shredded Wheat with hot milk starts the day right. Ready-cooked.

SUPPLEMENT TO THE SUEZ CANAL

Zionist Organization Has Resurrected Old Plan Of Constructing 250 Mile Canal

Jerusalem, Feb. 20.—The Zionist organization has resurrected the old plan of constructing a 250-mile canal through Palestine as a supplement to the Suez Canal. This project was first brought out 25 years ago by the late Duke of Sutherland but was buried unceremoniously by Sultan Abdul Hamid because of his opposition to progress.

Traffic through the Suez Canal has become so congested these days that it is claimed an alternate canal route is required. Zionist leaders have become convinced that the ever expanding trade relations between Continental Europe and the Far East have reached such dimensions that a canal in Palestine would fill an urgent need and reap untold commercial benefits for Palestine.

As planned by F. A. Maler, of Holland, its ardent supporter, the canal would be divided into two sections, one of which would extend from Haifa on the Mediterranean to Afuleh, on the Lake of Tiberias, or Sea of Galilee.

Then there would be an intervening part to be formed by a proposed Jordan lake to extend from the Lake of Tiberias toward the Dead Sea. This would be filled with Mediterranean sea water.

Having crossed the Dead Sea the canal would begin again at Arabah at the foot of that sea and extend to Akabah at the head of the Gulf of Akabah, giving access to the Red Sea.

While the building of such a canal would necessitate the submergence of a considerable tract of fertile land as well as a few towns and villages, (along the Jordan), its champions claim that the advantages would far outweigh the losses.

It is claimed that the proposed Jordan lake would increase the humidity of all Palestine which now suffers from excessive heat and dryness, thus improving the climate as well as the vegetation. Also, it is asserted, the Jordan valley and desert lying to the east with the prairies south of Houran, owing to the increased area of water, would become greater centers for colonization and development.

Together with these climate benefits must be reckoned the commercial possibilities in the scheme. Said a touching place to ships of all nations. Raw materials from Europe and America so much needed for the building up of industrial enterprises in Palestine and which now are being held back due to scarcity of calling ships, would be given to flow more freely.

Thus it is claimed, there would be opened up to the residents of Palestine great industrial opportunities.

Washington, Feb. 20.—Henry Ford will be given an opportunity to bid for the American battleships to be scrapped under the naval limitation treaty it was learned at the Navy Department.

Ford recently announced that he was willing to bid for the American navy and break up the big ships into scrap iron.

It became known that a special board headed by Admiral Taylor, chief naval constructor, is studying plans for scrapping ships, and that there is a strong sentiment for selling these vessels outright to concerns which would junk them.

Naval officers are said to oppose a spectacular sinking of the doomed ships in mid-ocean, believing that the steel can be used for peace-time purposes.

While the Navy would obtain, probably, not over \$5 a ton for the junk, this is regarded as better than trying to build up a scrapping organization within the Navy.

DEVELOPMENTS OF THE RADIO Direct Wireless Services Predicted Between Montreal And London Toronto, Feb. 20.—Addressing the Canadian Club here today, A. H. Morse, General Manager of the Marconi Co., said he would be greatly disappointed if within two years, there was not direct wireless services between Montreal and London and between Vancouver, B.C. and Melbourne, Australia. Mr. Morse said a wireless, or electric-magnetic wave passed around the earth in a little less than one-seventh of a second. There was no need, he said, for any point on the earth to be out of immediate telegraphic touch with any other point. Transmission of power by wireless, though, was not yet a commercial success. In connection with the problem of Soldiers Civic Re-establishment and MEASURES AGAINST FOOT AND MOUTH DISEASE (Canadian Press Cable.) London, Feb. 20.—Right Hon. Sir A. Griffith-Boscawen, Minister of Agriculture, replying to a question asked in the House today said the result of the foot and mouth disease in the United Kingdom had been the slaughter of 17,037 cattle, this number having been authorized to be killed, up till yesterday. The Minister said he had been advised that proposed methods of legislation were ineffective. The Ministry of Agriculture, he stated did not regard the outbreak as an epidemic and believed it was now well in hand. RUM RUNNING CRAFT SEIZED BY AIRPLANE Miami, Fla., Feb. 20.—The British schooner Annabelle was seized last night off Jewish Creek about forty miles south of Miami with a cargo of 11,500 cases of whiskey aboard, by airplanes of the prohibition squadron operating out of Miami and adjacent coastal towns. It was learned today from officials here. The entire crew of 21 men was captured and is now being held under surveillance, while the confiscated liquor is under guard aboard the schooner which is anchored off Jewish. ALLEGED BANK ROBBER HELD AT VANCOUVER Vancouver, B.C., Feb. 20.—James E. Crawford, 30 years old, alleged to have robbed a branch of the Union Bank at Edmonton, Alta., of \$2,000 in a daring daylight robbery last Friday, was arrested at a local hotel here today. His companion, a woman giving the name of Mrs. Eva Love, on whose person was found \$1,700, believed to be part of the loot was also arrested. The woman had been money bandaged about her body. Crawford is said by police to have a bad record, having served terms for robbery and forgery. PILES Do not suffer another day with itching, bleeding or protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. 60c. a box; all dealers, or Edman, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp for postage. provision of work for the unemployed. Mr. Morse suggested that no more economical and effective step could be taken to solve the problem than by linking up by wireless of every outpost in Canada.

SEAT SALE OPENS TODAY

for **PABLO Casals**

World's Greatest 'Cellist

COLUMBUS HALL THURSDAY EVENING

— all tickets at —
Gauvin & Courchesne's

It may be of interest to the Quebec music public to hear what the world's best musicians have to say of Pablo Casals, the most gifted cellist of this generation who will play at Columbus Hall on Thursday evening, February 23rd.

Joseph Hofmann says, speaking of Casals:—"When the Russians speak of Casals, they speak of him as of a God."

Eugon Yaase says:—"He is the greatest interpretative artist I have ever heard."

Fritz Kreisler says:—"He is the greatest musician that has ever drawn a bow."

The press critics, the world over, are most enthusiastic in their glorification of Casals. Indeed, Pablo Casals is a remarkable and really wonderful cellist. All lovers of string music know the depths of harmony, of feeling and expression that may be found in the cello. And under the cool feeling fingers of Casals, every string to his instrument is a living soul of harmony, deep-felt comprehension and expression of sentiment.

Seats may be had for Thursday's concert, at Gauvin & Courchesne's.

He Knows what to Do for Backache

THAT IS WHY S. SIVY RECOMMENDS DODD'S KIDNEY PILLS.

Saskatchewan Man Tells Why He Is Thankful He Came to Know and to Use Dodd's Kidney Pills.

Bronbury, Sask., Feb. 20.—(Special)—Like every other town on the prairies Bronbury has at least one citizen who is outspoken in his praises of Dodd's Kidney Pills. Mr. Samko Sivy is the local enthusiast and he says: "Oh, what a good medicine Dodd's Kidney Pills are. When I have pain in the back I take Dodd's Kidney Pills and the pain goes. I am very thankful that I came to use Dodd's Kidney Pills."

A quarter of a century's experience has taught Canadians to look on Dodd's Kidney Pills as the standard remedy for disordered or diseased kidneys. Dodd's Kidney Pills are purely and simply a kidney remedy. They put the kidneys in shape to do their full work of straining all the impurities, all the acids of disease out of the blood.

If you haven't tried Dodd's Kidney Pills ask your neighbors about them.

TODAY'S MEETINGS

Hear Joseph Macaulay, the boy preacher, at the Baptist Church tonight.

STOCKING STORE ON THE CHEAP

St. Roch's Traded Accused Of Selling Goods Not Fully Paid For

Antonio Carribeau, a St. Roch's trader, who was arrested recently on a complaint of purchasing goods from city firms and disposing of same and then failing to meet his obligations, was arraigned before Judge Choquette in the Court of Sessions yesterday for trial. Several witnesses who were in court for the prosecution, in their evidence explained that the accused followed the practice of purchasing goods, paying part of the purchase price, and later selling the goods to his customers for cash and then failed to pay for the goods from those who purchased from him.

He was remanded to jail until this morning, when Judge Choquette after studying the evidence will render judgment.

A man accused of stealing a horse which was later found by the police in a stable, pleaded not guilty and conducted his own defence, that he found the animal straying on the streets, and placed it in the stable, where it was found by the police, until he could find the owner. No evidence being adduced to the contrary the case was dismissed.

Adelard Verret, charged with stealing goods from the Syndicat dry goods store, St. Joseph street, was found guilty and sentenced to serve one month in jail.

IS CELEBRATING 75th BIRTHDAY

Mr. J. G. Scott In Receipt Of Many Congratulations On Anniversary

Mr. James Guthrie Scott, former Manager of the Quebec and Lake St. John Railway of which he was one of the promoters, and one of the best known and most respected citizens of Quebec, celebrated the seventy-fifth anniversary of his birth yesterday, and was the recipient of many congratulations, including a resolution passed at yesterday's meeting of the Board of Trade of which he has been an active member for many years, and past president.

Mr. Scott was born in the city of Quebec, February, 1847 and was the son of Hugh Eskine and Margaret Charles Scott. He was educated in the Quebec High School and later became identified with the lumber business. In 1865, he entered the railroad business in connection with the building and management of the Quebec and Lake St. John and also was one of the promoters and organizers of the Quebec Northern Railway and was chief promoter of Trans-Canada Railway, the surveys of which were utilized for the building of National Transcontinental Railway from Quebec to Winnipeg. He is one of the oldest living members of the original 8th. Royal Rifles, and went to the front on the different occasions, first to Windsor, Ont., in connection with the border raids in 1865, also in the Fenian raids of 1866-70, and was awarded the medal with two clasps. In 1908 in acknowledgement of his enterprise and public spirit was entertained at a banquet given by the leading citizens of Quebec, which was held at the Chateau Frontenac, at which he was presented with valuable testimonials.

Mr. Scott though 75 years of age is still hale and hearty in the best of health and his spirits just as juvenile as they were 40 years ago. He is also active and though living in retirement takes a deep interest in the progress and prosperity of Quebec.

JOB PRINTING FOR MONTREAL

Premier Taschereau Regrets Having To Take Work From Quebec Typos

Interviewed at the close of the meeting of the Cabinet here last night Premier Taschereau stated that apart from the printing work which was being done in open shops in Quebec, the work of printing a number of bills had been given to Montreal printers. He expressed his regret at having thus been obliged to take away from Quebec printers work which they have always done up to the present and which they particularly needed in the hard times prevailing at present.

"It seems more and more evident to me," the Premier said, "that all the Quebec printers want is to work and to agree with their employers, who are ready to give them an increase of salary. Had they been left alone, they would never have gone on strike at a time when the strike hampers the work of the Legislature and gravely embarrasses the administration of the Province. But the order came to them from Indianapolis to go on strike immediately to demand the 44-hour week. And when there is a large number of them who are rather seeking to work 50 hours, they are obliged to submit to this order, not only to their own detriment and to the detriment of their families but to the loss of their province."

"It is against this unreasonable interference, which takes no account of the primordial interests of the country and of the province, which I shall always protest with all my strength and courage. There are never a more grave challenge hurled at the Provincial Government than the telegram which was sent me by this Mr. John McPharland, of Indianapolis, informing me that, even in face of the obstacles which the strike placed in our parliamentary labors, he had to continue this strike, and that by the Canadian I persist in the belief that our honest typos will not long endure a stranger to thus come and dictate to their parliament."

Continuing, Mr. Taschereau added:—"We are doing everything we can to keep both Houses going, but we are not sure of succeeding. I cannot say how sorry I am to be obliged to take away from Quebec printers work which they had given them the habit to rely."

JUDGMENTS RENDERED.

The following judgments were rendered yesterday in the Superior Court by Chief Justice Sir F. X. Lemieux:

Tremblay vs. Goddu. Judgment for \$484.54, with interest and costs. Broussais vs. Morency. Judgment for \$100 with interest and costs. Cadorette vs. Quebec Quarry Co. Action dismissed with costs. Perusse vs. Hertzberg. Judgment for \$100 with interest and costs. In the Practice Court by Hon. Justice Gibbons: Bourassa vs. Gravel. Motion granted with costs. Inscription by defendant should be on 3rd of March 6th, instead of April 3rd. Bourassa vs. Vanville. Motion granted with costs inscription by defendant should be on 3rd of March 6th, instead of April 3rd. The King vs. Plamondon. Judgment against defendant for \$1129.13 with interest and costs. Practice Court, Chief Justice Sir F. X. Lemieux: Boivin vs. City of Quebec. Motion granted by consent, costs to follow. Gilbert vs. Morency. Permission to plead costs to follow. Fleming Tie and Lumber Co. vs. Hammermill Paper Co. By consent motion granted costs to follow.

JUDGE SENTENCES

ABITIBI SENTENCE.

The six male residents of the Abitibi district, who were arrested in the early part of the present month, charged by the Canadian National Railways police with stealing freight from Transcontinental freight sheds and cars, were arraigned before Judge Lachance in the Court of Sessions for trial, and having been found guilty were condemned to imprisonment for terms ranging from fifteen days to three months.

DYE FADED WRAP SKIRT, DRESS IN DIAMOND DYES

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her old worn, dyed things new. Even if she has never dyed before, she can put a rich, fadeless color into shabby skirts, dresses, waists, coats, stockings, sweaters, coverings, drapes, hangings, everything. Buy Diamond Dyes—no other kind—then perfect home dyeing is guaranteed. Just tell your druggist whether the material you wish to dye is wool or silk or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

PROTESTANT HOME BOARD OF TRADE COUNCIL MEETING

Large Attendance To Discuss Scott Memorandum To The Federal Cabinet

There was a large attendance at the annual meeting of the Ladies' Protestant Home, which was held yesterday afternoon, and was presided over by G. B. S. Young. Among those present were the Very Rev. Dean Shreve, Rev. Canon Scott, Rev. Dr. A. T. Love, Rev. J. H. Barnes, Rev. F. H. Wentworth and Rev. A. R. Kelley.

The meeting was opened by the Rev. Canon Scott with prayer, following which Miss Eva Gale, Hon. Secretary, read her report, which dwelt particularly on the opening of the infants Department during the past year. This had been decided upon after a good deal of careful consideration, and the nursery was now fully equipped to take care of the babies in charge of the Home. There were at present six babies, 14 girls and 25 old people in the Home.

The Treasurer's report, submitted by Mrs. E. H. Judge, drew attention to the fact that there was a debit balance of \$700., and that the Endowment Fund had not been sufficient to meet the expenses incurred during the year. Mention was also made that the recent drive to obtain \$50,000, had not been very successful, less than \$20,000 having been subscribed, but the hope was expressed that the public would yet rally to the assistance of the Home in this respect, and thus ensure that half, at least, of the objective would be attained.

Short addresses were delivered by Dean Shreve, Rev. F. H. Wentworth, and the Rev. A. R. Kelley.

Regret was expressed at the passing away of Miss Louise Pope and Miss Alice Stevenson, both ladies having been very faithful workers on behalf of the Home.

Resolutions of thanks were passed in favor of Doctors Hubbard, Carter, Stevenson and Convey for their services to the Home, and the Committee very much regretted losing the services of Dr. Morrell.

The children of the Home were present and sang very nicely.

Before closing those present were invited by the President to look over the Home, which was done, the nursery especially coming in for particular attention, and much pleasure was expressed at the excellent equipment and arrangements made for the care of the infants.

The visitors were hospitably entertained at the close of the meeting.

BOARD OF TRADE COUNCIL MEETING

Large Attendance To Discuss Scott Memorandum To The Federal Cabinet

A meeting of the Council of the Quebec Board of Trade was held yesterday presided over by the President, Mr. J. H. Fortier. The members present were Messrs. A. J. Welch and E. G. Tanguay, vice-presidents; W. J. Banks, treasurer; John T. Ross, Lt. Col. R. M. Beckett, J. E. Royer, W. H. Wiggs, Hon. Frank Carrel, Jules Gauvin, A. R. Decary, S. Barrow, J. A. Larue, L. P. Turgeon and O. Brusseau, T. Levesque, secretary and O. H. Cote, trade commissioner. This was the largest gathering of the members during the year.

The meeting spent a full hour studying and discussing the memorandum prepared by Mr. J. G. Scott, president of the Board's Transportation Committee, on the needs for the development of the commercial interests of the port of Quebec, to be forwarded to the Quebec representative in the Federal Cabinet, Hon. Ernest Lapointe. The memorandum was finally given over for study by a special committee composed of Messrs. S. Barrow, A. R. Decary and Jules Gauvin, the latter a newly appointed member of the Quebec Harbor Commission.

A communication was received from Mr. R. E. Armstrong, secretary of the St. John Board of Trade, regarding amendments to the Government sales tax, which was referred to a special committee for consideration and recommendations, comprising Messrs. L. P. Turgeon, W. H. Wiggs, J. S. Royer, J. A. Larue and A. Brown of Brown & Rochette, Wholesale.

Customs Licenses

A letter also from the secretary of the St. John Board of Trade, respecting the announcement made by Mr. E. R. Farrow, Commissioner of Customs and Excise that commencing April 1st, changes will be made in the number of licenses which will seek renewal. The meeting after consideration decided to register the protest of the Quebec Board of Trade.

A communication from the secretary of the Dominion Commercial Travellers Association asking the Board for cooperation in having a reduction in hotel rates and better accommodation. As this question had already been before the Board and acted upon, the Secretary was instructed to so inform the Dominion Travellers Association.

Clarke Steamship Co.

The following communication was received and read from the Clarke Steamship Company Limited, following an endorsement of this project by the Council of the Quebec Board of Trade, which gives full points on the Board as to the projected activities by arrangements being made for a regular steamship service with comfortable passenger accommodation, on the South Shore of the Lower St. Lawrence as well as the North Shore:

"Confirming the conversation which took place at the conference between our Directors and the Council of the Board of Trade, we beg to submit, that on February 23, 1921, we entered into a contract with the Dominion Government for five years to supply a steamship service between Quebec, Harrington and intermediate points on the North Shore of the River and Gulf of St. Lawrence; and Montreal, Quebec, Gaspe and intermediate points on the South Shore of the River and Gulf of St. Lawrence.

Based on ourselves on this contract, one of our Directors and two experts went over to England last February for the purpose of purchasing two boats required to fulfill this contract. They secured the SS. "North Shore" for the service on the northern coast, and were able to secure a boat in every respect suitable for the service on the southern coast. However, we purchased the SS. "Labrador" and operated her throughout the Summer of 1921. Realizing that the SS. "Labrador" was not satisfactory, we sent down one of our Directors, who made an extensive trip from hamlet to hamlet on all the principal points of all the Gaspe Coast after interviewing the people most interested in the service, we came to the conclusion that the type of boat required was one in the neighborhood of 1000 gross tons, capable of carrying at least 60 first class passengers and a like number of second class passengers and about 500 tons of freight and we pledged ourselves to the people to get such a boat. Early in the Autumn, we made renewed researches in England for such a boat, and even considered building one, and two weeks ago, our London Agents advised us that they had found the right type of boat for us.

In view of the foregoing and as the Clarke Steamship Company is a Quebec concern which has bound itself to give differential rates to Quebec, we trust that the Board of Trade of this City will make urgent representations to the Government that it is in the best interests of the City and district of Quebec that the Clarke Steamship Company should be allowed to carry out its contract and that in this regard the Board of Trade feels that it is supported by the best element of the business community of this City and that the Board of Trade considers it unfair to cancel an agreement when such cancellation would imperil capital invested in good faith on the strength of the contract.

As regards the assurance given by our Directors, we wish to confirm and ratify them, namely:

- 1.—That the Clarke Steamship Company shall put into force at the opening of navigation a differential tariff in favor of Quebec.
- 2.—That it will allot to Quebec shippers a reasonable proportion of cargo space. It is hard to fix the exact amount but this Company

PROTESTANT HOME ANNUAL MEETING

Regret Expressed At Objective Of Recent Drive Not Having Been Attained

There was a large attendance at the annual meeting of the Ladies' Protestant Home, which was held yesterday afternoon, and was presided over by G. B. S. Young. Among those present were the Very Rev. Dean Shreve, Rev. Canon Scott, Rev. Dr. A. T. Love, Rev. J. H. Barnes, Rev. F. H. Wentworth and Rev. A. R. Kelley.

The meeting was opened by the Rev. Canon Scott with prayer, following which Miss Eva Gale, Hon. Secretary, read her report, which dwelt particularly on the opening of the infants Department during the past year. This had been decided upon after a good deal of careful consideration, and the nursery was now fully equipped to take care of the babies in charge of the Home. There were at present six babies, 14 girls and 25 old people in the Home.

The Treasurer's report, submitted by Mrs. E. H. Judge, drew attention to the fact that there was a debit balance of \$700., and that the Endowment Fund had not been sufficient to meet the expenses incurred during the year. Mention was also made that the recent drive to obtain \$50,000, had not been very successful, less than \$20,000 having been subscribed, but the hope was expressed that the public would yet rally to the assistance of the Home in this respect, and thus ensure that half, at least, of the objective would be attained.

The children of the Home were present and sang very nicely.

Before closing those present were invited by the President to look over the Home, which was done, the nursery especially coming in for particular attention, and much pleasure was expressed at the excellent equipment and arrangements made for the care of the infants.

The visitors were hospitably entertained at the close of the meeting.

ROYAL RIFLES OF CANADA

Officers of the Royal Rifles of Canada are notified to report in service dress on Tuesday, February 21st, 1922, at the residence of the Officer Commanding, 65 St. Ursule Street, at 2:15 P.M., for the purpose of attending the funeral of the late Major General Sir David Watson, K.C.B., C.M.G.

W. H. DRAPER, Captain & Adjutant.

RESOLUTIONS PASSED

A resolution was adopted congratulating the Directors of the Quebec Technical school on their intention of adding to its courses the teaching of the printing trade and operation of the linotype type-setting machines.

The attention of the meeting being called to the fact that Mr. J. G. Scott, ex-President of the Board and Chairman of the Transportation Committee in connection with the Council of the Board, was celebrating the seventy-fifth anniversary of his birth, when a resolution was passed in congratulation, and at the same time thanking him for the valuable work he had performed in the interests of the city and his very able and valuable assistance to the Quebec Board of Trade, especially during the past dozen years.

Mr. Jules Gauvin member of the Council, who has been appointed a member of the Quebec Harbor Commission was congratulated by the President amidst the applause of his colleagues.

The attention of the meeting being called to the untimely death of Sir David Watson brought out remarks of deep and sympathetic regret and the Secretary was instructed to draft resolutions of sympathy to be forwarded to Lady Watson and family expressive of the Board's sympathy.

Three Local Rinks In Semi-Final Of Quebec Bonspeil

THREE LOCAL RINKS REACHED SEMI-FINAL OF PLAY FOR THE SENATOR TROPHY YESTERDAY

Two Quebec And One Victoria Teams Left—Stewart's Ottawa Quartette Only Outsiders Left In Competition—Curlers To Attend Funeral Of Sir David Watson In Body

The annual Quebec Bonspeil got under way yesterday morning, and by the time night was reached, the semi-finals in the competition had been reached. Due to unforeseen circumstances a number of rinks were not on hand, and in accordance with the rules of the Bonspeil their games were forfeited.

Montreal rinks were the heaviest sufferers in this respect, as they lost several games through not being on hand. However, as stated above the missing rinks are expected to be on hand today.

There were some very interesting contests yesterday, and when play had concluded for the evening it was found that three local rinks remain in the competition, two of them hailing from the Quebec Curling Club, and the third from Victoria. The only outside club that remains in the competition is Bill Stewart's strong Ottawa rink, and judging by the way this quartette played yesterday, they will make an extremely strong bid to reach the final.

The surprise of the day was in the defeat of Loyal's rink, regarded as many as the strongest rink in the journey, by Vallance's Caledonia rink by 17 to 6.

Bill Stewart's Ottawa quartette subdued all opposition, and succeeded in reaching the semi-finals. They disposed of a strong contender in Darling's Montreal rink by a score of 21-10, much to the surprise of many, and as a result of their workmanlike play, the Capital quartette are picked by many to lift the trophy.

Frank Stocking's Quebec rink, however, forced Stewart's outfit to play an extra end in the preliminary round yesterday morning before the Ottawa players could call the game their own. At the end of the regulation twelve end the score was tied nine all, but in the extra end Stewart & Co. scored the necessary point to give them victory.

This morning at nine o'clock the semi-finals will be played on Quebec ice. J. A. McManamy's Quebec rink clashing with that of Stewart, while A. D. Scott's Victoria quartette play R. B. Whyte's Quebec crew.

The final was scheduled to be played at 1 o'clock, but as the curlers are going to attend the funeral of the late Sir David Watson in a body, the playing of the final game has been postponed until 3 o'clock.

This morning play opens in the preliminary round for the Chateau Frontenac trophy, and some good curling should be the result, with the cold snap in the weather. Frank Stocking's Quebec rink, after defeating H. S. Thomson's Victoria rink in the first round of the Senator Consolation series, was defeated by McMurray's Sherbrooke rink in the competition. Col. A. de M. Bell's Victoria quartette, were also defeated by a Sherbrooke rink, so that both of these teams will meet each other today.

Yesterday's play was as follows: SENATOR CUP Preliminary Round—Victoria Ice. Three Rivers No. 1 Montreal No. 1 Default.

Victoria No. 8: Ottawa No. 1: Geo. Parent, H. Murphy, J. Laird, M. McKerracher, W. H. Perry, H. S. Thomson, P. Hurd, H. S. Thomson, A. Whillans Skip—6. Skip—13.

Quebec No. 3: Ottawa No. 2: Geo. Doak, Hugh Carson, C. H. Henderson, W. S. Widdifield, E. E. B. Rattray, H. Blaine, F. S. Stocking, W. Stewart Skip—9. Skip—10.

Quebec No. 6: St. Andrews No. 1: Default.

Quebec Ice. Thistle No. 1: Sherbrooke No. 2: D. A. O'Meara, J. E. Melloe, J. E. Johnston, H. H. Baker, J. J. Rankin, H. A. Hyndman, J. O. Lynam, J. P. Watson Skip—18. Skip—10.

Caledonia No. 1: Three Rivers No. 2: Default.

Victoria No. 6: Rideau No. 1: Default.

Quebec No. 4: St. Andrews No. 2: Default.

First Round—Victoria Ice. Ottawa No. 1: Thetford No. 1: Default.

Montreal No. 2: Default.

Quebec No. 8: Sherbrooke No. 1: J. H. Delany, W. E. Wigget, H. DeGuisse, J. Balfour, J. Grogan, A. P. Blue, J. A. McManamy, A. McMurray Skip—11. Skip—11.

Ottawa No. 2: Thistle No. 2: Hugh Carson, H. Filgate, W. S. Widdifield, M. McFarlane, H. Blaine, J. A. McManamy, J. Nicol Skip—9. Skip—5.

CHARLIE WHITE QUEBEC C.P.R. PHILLIPS WON BEAT JACKSON BEAT MONTREAL DOUBLE HONORS

New York Italian Dropped Local Messengers Won Hotly Rolled Highest Single And Three Times In Thirteenth Contested Game By Score Three String Totals In Class "A" Last Evening

New York, Feb. 20—Charlie White, Chicago lightweight, tonight defeated Willie Jackson, New York, receiving the judges' decision after their 15-round bout in Madison Square Garden. The left hook of the Chicagoan, slow to get to work, enabled him to floor the tough New York boy three times in the thirteenth round. Jackson seemed due to take the count on the third knock-down but the bell saved him. White was slow in the early rounds and Willie buffered him about the ring with hard rights to the jaw and straight lefts to the chin. It was not until the fourth round that White found himself. He then staggered Jackson with a left hook to the jaw and drove him to his corner with a body attack. Jackson won the first three rounds. White took the fourth. The fifth and sixth were even and all the others went to White. White weighed 135 pounds; Jackson 134 1/2. Benny Leonard, lightweight champion, recently signed articles to meet the winner of the match in a title bout.

Carl Tremaine, Cleveland lightweight, knocked out Harold Parsee, of Jersey City in the third round of their scheduled eight-round bout. In another preliminary Dave Rosenberg, New York middleweight, was given the judges' decision in eight rounds with Willie Rager, also of New York.

Both teams cut out a fast clip in the middle session, and finally the victors were rewarded with a tally when Alexander counted his second goal of the match. From the face-off Quinn batted the puck back to Farrell, who staged an end to end run for Quebec's fourth goal. The same player repeated and the scoreboard registered 5-2 in favor of Quebec.

In the final period the Montrealers made a desperate effort to catch up to their opponents but to no avail. For it took them sixteen minutes to get a third goal, and then, two minutes before the end of the game, the Quebec boys made it 6-3 through O'Connell getting another tally. Line-up and summary:

Quebec. Montreal. Goal. Cadieux. Point. Lavallee. Cover-Point. Legault. Centre. Alexander. Right Wing. Mackey. Left Wing. Bushnell. M. Crane. St. Avart. E. McMahon. Whitewood. E. O'Neil. Dalton. L. O'Byrne.

LEWIS MATCHED WITH CARPENTIER Pair Will Meet In London Olympia On May 11—Side Bet And Purse

(Canadian Press Cable.) London, Feb. 20—Ted "Kid" Lewis of England has been matched with Georges Carpentier, the French champion, for a bout to be held at the Olympia on May 11. They will box for £1,000 a side and a purse to be fixed.

It is rumored that should the Sons of Ireland win their game with Loyola to-morrow evening, and thus capture the championship of both halves of the league, their game with Chicoutimi will be advanced to Saturday or Sunday instead of Monday.

Nine games of two hundred or over is some rolling, and all in the same evening. Yet this is what happened last night in the Class "A" matches. Phillips was the high man with 233, but he was closely followed by Lamy, who spilled the pins for a count of 229.

Sons of Ireland and Loyola clash to-morrow evening for the second half title, and a rattling good contest may be expected. When these two teams clash there is always great hockey played, and to-morrow night's contest should prove no exception.

We are in receipt of several challenges from Montreal on behalf of boxers from the Metropolis, who wish to fight Charlie White, Wildcat Joe Williams, Soldier Joe Legare, Lightning Corrigan or any other boxer in the city.

It is rumored that a delegation of racing men from Montreal are to be in town this week in connection with the selling of the Quebec Hunt Club three Montreal horsemen. This would still mean that Quebec would have its racing this coming summer.

All the curlers who are in town from outside clubs, as well as both of the local clubs, intending to go to the funeral of the late Sir David Watson this afternoon in a body, and for that purpose have retarded the playing of the final for the Senator Cup.

ROUIL DEFEATED BY PERCY COLLINS Philadelphia, Pa., Feb. 20—Percy N. Collins, Chicago, defeated Edouard Rouil of France, in the afternoon match of the international class A 18.2 balk line amateur billiard championship tournament today, 99 to 154. Collins averaged 39, 21-31 and high runs were 58, 52, and 40. Rouil's average fell to 5-4-30. His high runs were 45, 27 and 15. Today's defeat precluded his winning the tournament.

Three games were played in Class "A" bowling circles yesterday evening. The two Frontenac teams claimed the Whites winning 1200 strings from the Blues. Olympia took all three from the Knights of Columbus, while Adanac dropped a string to Manhattan.

The highest single, 333, was put on by Phillips of Olympia, while the same player put on the highest three strings of the evening, 523. Scores of two hundred or over were fairly numerous, no less than nine being counted in the various scores. The results of the games were as follows:

Frontenac Blue. Lamy 140 229 553. Frechette 141 142 136 418. Boudreau 183 205 185 573. Nolan 147 180 158 485. E. Gagnon 162 188 170 521. Totals 818 855 877 2650.

Frontenac White. C. Gagnon 204 189 192 585. Laberge 201 202 173 576. E. Amyot 172 154 162 488. Boyte 165 161 160 486. Fortier 156 195 174 525. Totals 908 881 861 2650.

Olympia. Phillips 196 233 194 623. Norman 167 141 156 464. Stelios 154 177 167 498. Belcourt 222 179 169 570. Wright 178 172 152 502. Totals 917 902 838 2657.

LAVAL TEAM LOST THEIR PROTEST Filed Too Late Ruling Of City League—Sons Play Loyola Tomorrow

There was a short meeting of the City League at the Victoria Hotel last evening to consider the protest filed by Laval against the Loyola team as a result of Sunday's game, when it was claimed that Morency scored a goal for the Students that was not seen by the referee, and disallowed.

The protest was rejected as not being in order, the ruling being that it was filed too late.

Sons will meet Loyola to-morrow evening at the Victoria Hotel which will decide the second half championship of the League. Should the Sons win they will have won both halves, and will be entitled to play off against Chicoutimi, but should the Students come through with a win, and they are liable to do so, then the same teams will meet again to decide the championship of the City League.

After the meeting of the City League last evening there was a short assembly of the Registration Board and the Provincial League heads, at which the question of referees for the play-off game between Chicoutimi and the winners of the City League title in the Allan Cup elimination series games came up.

DOUGLAS AND BARNES PLACED ON SALE LIST Giant Pitchers Who Played Big Part In World Series To Be Sold

New York, Feb. 20—Pitcher Phillip Douglas and Jesse Barnes, each of whom won two world series games for the New York Nationals last fall, today were placed on the market "to be disposed of to the club offering the best inducement."

Charles Stoneham, president of the club, said that when it was decided to get rid of Barnes and Douglas, several tempting offers were received, but declared the owners would wait until Wednesday to announce which they would accept.

AS A RULE. Clerk (at an employment bureau)—Someone has sent for a yardman, sir. Manager—We haven't any yardmen at present. Clerk—Then shall I send up three footmen, sir?—Syracuse (N.Y.) Herald.

HOPETON HOUSE TO BE CLOSED High Taxation Forces Another English Nobleman To Desert Historic Family Seat

JACQUES' Annual Cheap Sale 20 P. C. Discount On Boots, Shoes, Slippers For Cash Only Wm. Jacques & Sons 42 1/2 FABRIQUE STREET Tel. 427

Hopeton House, Linnithgowshire, a fine Italian mansion set in stately domain of beautiful Versailles gardens, one of the finest country estates in Scotland, and the home of the Marquis of Linnithgow, is to be closed. Seventy employees will be dismissed or transferred to other work.

That the position of landed gentry of England and Scotland truly is difficult is evidenced by the fact that before 1916 the Marquis had disposed of his pack of hounds and all his horses except two chargers for military service. Shooting rights on his estate also were sold. Further reductions are said to be impossible without failure in the duty of landlord.

The Harp in Canada LAKE LOUISE ALBERTA

From time immemorial nature has been source of inspiration to the poet. The majesty of the mountains, the serene beauty of the forests, the charm of rivers—all seem to have the effect of moving poetic souls. Canada, with its wealth of glorious scenery, is therefore naturally the home of poets, and indeed, it has been said that one cannot throw a snowball without hitting one.

The Canadian school of poetry is essentially a nature school. Bliss Carman, Charles G. D. Roberts and Archibald Lampman have set the standard, and a very high standard it is. Probably nothing in Canadian literature has been more quoted than Bliss Carman's "Low Tide on Grand Pre," a poem which breathes the spirit of nature as felt on the lovely shores of Nova Scotia. The modern Canadian poets are following in the footsteps of these writers, but going further afield, as the facilities for travel throughout the great Dominion are extended. Thus, for instance, in a neat volume of poems by a young Irish-Canadian poet, M. A. Hargadon, the scene changes from Ireland to Nova Scotia, Quebec, and the Canadian Rockies. Here is a charming verse from a poem about Lake Louise:

"This lake is God's best picture; that is why He hung it on the mountains at the sky And set it in so beautiful a frame; Art galleries of heaven have none like mine." "This is the closing verse of a poem inspired by the majestic beauty of Banff: "There is no lovelier place to live And when at last I die, I think my soul will go to Banff Instead of to the sky; For here there is no sorrowing, No suffering nor care, And, up so near to paradise, It seems enfolded there."

"Branch of a splendid race transplanted here Pluming life through all this lovely land." In Nova Scotia Mr. Hargadon is inspired to write lines that are particularly happy: "God writes His poetry to day; I see the flashes of His hand On distant hills, along the bay, All through the fair Acadian land. "His book is every scene about, There are a million happy lines; The sweetest I have chosen out Beneath the steeples of the pines." Many of the poems are about Ireland, a country which has given Canada many good settlers, and no doubt, will give many more. Here is a verse from one: "Young April is in Ireland now, I wish that I were with her there, For she is far the loveliest Of all the April anywhere; She has the sweetest voice and face; She has the brightest gowns to wear." Irish and Canadian poems are illustrated with attractive photographs of scenes in Canada and Ireland. With St. Patrick's day approaching, and with Ireland now taking her place amongst the nations, the book is likely to create a wide interest at the present time, as it appears at a particularly opportune moment. It is prefaced by a sympathetic introduction by Colonel George H. Ham. Irish and Canadian Poems are issued by The Modern Printing Company, 39 Dowd Street, Montreal. Price, one dollar.

The Chicago Produce Market
Chicago, Feb. 20—Big advances in wheat prices today failed to encounter any aggressive opposition. Scarcity of offerings emphasized talk of possible world shortage of breadstuff supplies and let the market ascend as much as 6-1-2 cents, going far above any quotations current here before this session. The close was strong at the topmost point reached, 4 to 6 1-2 ct higher. Corn gained 7-8 to 1-1-8 and oats 1-8 to 1-4. In provisions, the outcome varied from 5c. decline to 17c. advance. Close:

Wheat, May \$1.46 1-4; July \$1.27 3-4.
Corn, May 63 1-2c; July 65 1-2c.
Oats, May 41 5-8c; July 43c.
Pork, May \$21.00.
Lard, May \$11.77; July \$11.97.
Ribs, May \$17.47; July \$11.25.

MONEY HARDENED ABRUPTLY, EUROPEAN EXCHANGE STRONG, HEAVY TRADING IN GRAIN

These With Commodities At Higher Prices Formed Conflicting Elements—Call Loans Made Progressive Advance—Firm Money Tendency Without Effect On Values

New York, Feb. 20—Abrupt hardening of money rates, strength of European exchanges and heavy trading in the grain and commodities at higher prices were the conflicting elements which attended today's active and generally higher stock market. Call loans opened and renewed at 4 per cent but made progressive advance to six per cent, the latter rate prevailing in the final half hour. Aside from profit taking in special issues the firmer money tendency was without marked effect on quoted values.

Freight traffic at Western and Southwestern points expanded only moderately, but the demand for securities from those centers denoted increased confidence on the part of the investors. Stock market prices were influenced partly by the agreement reached between the Mexican government and United States oil interests relating to export taxes. Buying of junior rails, which rose to 10 to 17 points. German marks weakened. Central European bills were moderately lower and Scandinavian rates eased.

MONTREAL TRADING STRONG AND ACTIVE—GAINS HELD SUPREMACY OVER LOSSES

Volume Of Business Second Largest Of Year—Papers Continued Centre Of Interest Led By Abitibi—Brazilian Other Stock To Attract Attention

Montreal, Feb. 20—Trading on the local stock exchange today was strong and active and gains maintained their supremacy over losses while the volume of business was the second largest of the year.

Led by Abitibi which furnished nearly one third of the total trading, the papers continued as the centre of interest, their making the appearance of which eight made substantial advances. Abitibi gained 2 3-4 points at 37 1-4. Brompton staged a recovery, ending the day 1 1-8 points up at 17 7-8. Laurentide was up 1 1-4 at 78 7-8; Price Brothers 1 1-4 to 37; Riordon 5-8 to 6 5-8; Spanish Common 5 points to 67 1-2. The preferred 2 4 to 30 3-4 and Wayagamack six points to 45, the biggest gain of the day.

The Sultan.
A Vienna article of the 18th December, says a report has been circulated, that there has been a dreadful scene at Constantinople, that the Sultan Mahmoud and his sons have been strangled, and that upwards of five thousand Christians have been massacred. In confirmation of the above, a Nuremberg article of the 21st December, states the receipt of letters of that day from Vienna which say "Rivers of blood have flowed at Constantinople. The Janizaries have massacred a great number of Christians." A letter from Constantinople has the following: "We are in expectation of great events. The agents of the Christian Powers are making preparations to leave the place."

At The Theatres
Chronicle's Review Of Week's Attractions
THE AUDITORIUM.
Four good acts of vaudeville and a couple of excellent motion pictures go to make up the bill at the Auditorium this week, and they attracted good audiences at yesterday's showings. There is one act missing, the Harlows not being on hand with their comedy ladder act. Sherwin and Kelly, bicyclists, staged a turn that evoked a goodly amount of applause from local vaudeville lovers, their work being well performed.
Lowerly and Stella, in songs and dances showed that they are the possessors of a catchy repertoire of the latest hits, while their footwork was a delight to the lovers of the Terpsichorean art in the Ancient Capital.
Holmes and Hollister, in a comedy act, fairly made the audiences hold their sides from laughter. Comedy fairly oozed from the act during the time it was on the stage.
The fourth and last act on the bill was Haig and Laverne in a comedy variety act that went across with a bang. It proved every bit as good as the preceding act.
"Shattered Dreams" with Irene Du Pont in the leading role, a comedy and weekly, constituted the movie part of the bill.
THE EMPIRE.
Tom More in "From the Ground Up" was the feature attraction at the Empire Theatre yesterday, and this versatile artist was seen at his best. Heralded as being the best production in which Tom More has yet appeared, it lived up to advance notices and the devotees of this cosy little theatre were delighted with the latest production starring this popular actor, who is a great favorite in this city.
A special feature of the program is "The Shattered Dreams" in which scenes in connection with the death of Pope Benedict and the election of Pope Pius XI. are to be seen. The late Pope as he lay exposed, the crowds awaiting outside the Basilica to receive the Apostolic Benediction the newly chosen Pontiff all are clearly and vividly displayed, and the whole makes the program worth while seeing.
In addition to the feature picture and the weekly, there is also an excellent comedy on the bill, that should cause the onlooker to weep from merriment.
THE CLASSIC.
Corinne Griffith in "Moral Fibre" is the stellar attraction of the Classic for the first half of this week and the picture shows the winsome star at her best. A well evolved plot, with action galore and replete with various interesting incidents, it is a film that should attract capacity crowds to this theatre.
"Moral Fibre" is a picture that will hold one's interest from the first reel to the final fade-out and with such a star as Corinne Griffith playing the leading role assisted by what can be considered by an all star cast, the production will certainly prove to be most entertaining.
A good comedy and other short subjects will also be shown on the same program.

Shipping Notes.
The C.P.S. Ltd. new service between Quebec and Hamburg via Cherbourg and Southampton, will be commenced by the Empress of Scotland and her departure from Quebec May 3rd, and followed by the Empress of France which will sail from Quebec May 16.
The White Star liner Arabic which is homeward bound to New York after her lengthy cruise to the Mediterranean, arrived at Naples on Friday last. Cable advices referring to the cruise say the ship's American and Canadian passengers made a visit to the silent city of Pompeii on Saturday, ascending the volcano of Vesuvius by way of the recently constructed funicular railway. The Arabic is due back at New York March 3.
The White Star liner Lapland, making an extensive cruise in the Mediterranean, is, according to cablegrams, meeting with ideal weather. She reached Algiers on Friday last, and previously made calls at Madeira, the Azores and Gibraltar.
The C.P.S. Ltd. Pretorian will sail from St. John tomorrow for Glasgow.
The C.P.S. Ltd. steamer Tunisian sailed from Glasgow on Saturday afternoon last for St. John.
The C.P.S. Ltd. steamer Corsican arrived at Antwerp on Saturday afternoon last at 4 o'clock from St. John.
The Cunard Line SS. Aquitania sailed from Cherbourg Feb. 18th.
The Cunard Line SS. Carmania arrived at Madeira Feb. 19th.
Lewes, Del., Feb. 20.—The SS. Narbo, Philadelphia for Constantinople, whose machinery was disabled off the Delaware Capes Saturday arrived at the Delaware breakwater today in tow of two tugs.
Boston, Feb. 20.—A floating mine two miles from Block Island in the direct path of steamers plying between this port and Norfolk and Philadelphia was reported to the United States Hydrographic Office today by the steamer Transportation. The mine projected two feet out of the water, officers of the vessel said.

ONE of woman's greatest charms lies in the beauty of her skin. Men admire the soft velvetyness of its texture and women envy it, but the real roses are not put in the cheeks with cosmetics. Their use is simply an acknowledgement of fading beauty. Face creams, rouge and powder will not fill out a sunken cheek or rebuild a scrawny neck. They do not, and cannot, restore the sheen of a healthy complexion.
What haggard-looking, careworn women need to bring back the natural bloom to their cheeks and the irresistible sparkle to the eye is the glow of perfect health. Nothing on earth can equal TANLAC for this, declares tens of thousands of happy women who have tried it and are now the picture of health.
Contrary to the old saying, beauty is not skin deep. Beauty comes from within. Unless your stomach is in perfect condition, you cannot hope to have a rosy, healthy complexion—beauty.
Digestive troubles ruin the complexion of women and men. Ugly pimples, blotches and blackheads are the surest signs that your digestion is out of order that your stomach and liver are not working, that you do not assimilate your food and do not properly eliminate the waste matter, which poisons your system.
Is there anything more objectionable than a face with blemishes? Persons—women and men—who are troubled with impurities of the skin, suffer constantly and keenly their misfortune.
Foul breath, indigestion, dizziness, disinclination to work, stomach trouble, and sluggishness, of the liver will disappear as soon as the remarkably efficient ingredients of TANLAC permeate your system.
TANLAC has been a blessing in thousands of homes throughout the United States and Canada. Tens of thousands of men and women have testified that it has brought back the sunshine, laughter and happiness to their lives. It will do the same for you, if you will only give it a fair, thorough trial.
Taniae is sold by leading druggists and general merchants, everywhere.

Education.
The Government is not losing any time in putting into practice that portion of its educational policy destined to better the condition of deserving teachers. A circular has been issued from the Department of Public Instruction to the School Commissioners informing them that a sum of \$14,000 has been set apart by Order in Council as a bonus to the teachers of both sexes who shall have fulfilled their duties with the most intelligence and ability.
Mr. Barney Meehan.
Genuine regret will on all sides be felt at the death of Mr. Bernard Meehan, better known as Barney Sewell, City Bill Poster. His illness was of short duration. Mr. Meehan was for some time lessee of the Academy of Music, and succeeded his step-father as City Bill Poster, in which capacity he was widely known to the community.
Died in Jail.
Some days ago this paper referred to the fact that two men from Lorette had dumped an old crippled man, named Falgout in front of the City Hall, and also that he had been sent to the jail for two months' shelter. The unfortunate man died in the jail infirmary yesterday afternoon, and it seems quite probable that the inhuman treatment which he received hastened his end.

CAKE OF SOAP COSTS 8,500 RUBLES IN MOSCOW
Nurses in Hospitals Only Get 5,000 Rubles Per Month For Salary
London, Feb. 20.—The monthly salary of a nurse in the municipal hospital in Moscow is less than the cost of a cake of soap in that city. This striking example of the disproportion between wages and the cost of living in the Russian capital is disclosed in a report just made by a special commission set up by the League of Nations.
The Commission says that a cake of soap in Moscow cost 8,500 rubles, while nurses in the city hospitals were paid only 5,000 rubles a month and that they had to be content with a very scanty food.
The poverty and misery that prevailed in Russia as seen in the hospitals which the Commission visited made a deep impression upon the members. Nevertheless, the commission stated, there is a high state of efficiency in the municipal hospital and the Commission emphasized the spirit of sacrifice displayed by those entrusted with ministering to the health of the Russian people, especially of the children.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacid of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

NO APPETITE
Nervous exhaustion leads to distaste for food. The nerves of the stomach are weak, digestion fails and you become generally upset and out of sorts.
The secret of complete restoration is in getting the nervous system fully built up.
Mrs. R. Cheney, 208 Richmond St., Chatham, Ont., writes:
"I was troubled with indigestion, which caused me many sleepless nights. I would be in terrible distress at times, and would get no relief for two or three hours. For three months I ate nothing but Shredded Wheat biscuits, as I dare not eat anything else. I did not know what to do, as I had tried so many different remedies, as well as doctors' medicines, without gaining permanent relief. Finally I got some of Dr. Chase's Nerve Food, and while on the second box noticed that I was improving. I continued the treatment until I am now fully restored, and have returned to my regular diet. My husband has also taken Dr. Chase's Nerve Food with splendid results, so we are glad to recommend it to others."
Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

66,000,000 WORKING DAYS WERE LOST THROUGH STRIKES
London, Feb. 20.—About 86,000,000 working days were lost as the result of labor disputes in the United Kingdom last year, says the Labor Gazette. This is the greatest loss of working time from that cause ever recorded in the British Isles and is more than three times that of last year. The number of workers involved was about 1,800,000.
This compares with a loss of 27,000,000 working hours in 1920 when about 2,000,000 workers were involved in labor disputes.
GENERAL TREVINO IS OUT ON BAIL.
Mexico City, Feb. 20.—General Jacinto B. Trevino, former Secretary of Commerce and Industry, who several months ago was arrested charged with the murder of General Jose Alencio Robles, has been released on \$10,000 bond.
TRUE AT THAT.
Father—Why is it that you are always at the bottom of the class?
Johnny—It doesn't make any difference, father. They teach the same things at both ends.
—Harper's Magazine.
