VOL. XLII, No. 22 MONTREAL, THURSDAY, JANUARY 27, 1910. PRICE ONE CENT.

ONE MORE BODY TAKEN FROM WRECK

Four More Identified, But Several are Still Missing

Six of Victims Were From Orillia

The Injured are All Improving Now.

Special to the Montreal Star.

Sudbury, Ont., January 27.—The diver commenced work yesterday at one o'clock, and within fifteen minutes his efforts were rewarded by finding the body of O. S. Martin, of Waterloo. The body was found quite near where the first-class coach sank.

Again the lighting apparatus went out of commission, and the diver stood on the ice for half an hour while repairs were being made. He was so cold that when he went down again he returned to the surface almost immediately and ceased operations for the day.

Certain effects of Ross Thompson, traveller, of Aylmer, Ont., have been taken from the waters, and as Thompson is not among the injured or dead, his body may be among those yet to be recovered. Enquiries are being made also for Yonker Stodink, an Austrian, supposed to have been a passenger.

A slip of paper with the words "bank book, Traders' bank, Soo 94," has been recovered. The bank there has been wired for information, but could give no information about it.

Bodies Identified Yesterday.

The bodies of four of the victims of Friday's railway wreck were identified yesterday as follows:—Annie Mahon, 50 years; Charley Mahon, son, 8 years; Nellie Hayes, 33 years; Ralph Hayes, 10 years.

All were identified by Mr. Hayes of Pentoga, Mich., husband of Nellie Hayes. Mrs. Hayes was a daughter of John McDonald, of Rockingham, Renfrew County. Mrs. Mahon leaves a family of seven in Pentoga, Mich. Mrs. Nellie Hayes leaves no children.

Some of Missing Accounted For.

It is learned that Miss Morrison, of Blind River, was not on the train with Bert Morrison, whose body was found on Tuesday. Morrison was returning to Echo Bay from his mother's funeral in Frankham, Ont.

The woman thought to be Mrs. Newman, of Tiverton, is not yet positively identified. Her son, who is here, is not sure and has wired for his brother to come.

Mr. Jansen, of Blind River, wires that he thinks his father and little sister were on the train. The father may be the unidentified man at the morgue, but this is unlikely.

If those now reported missing from Blind River turn out to have been on the train, the death list amounts to 47 and completely upsets the calculations of the officials, based on Conductor Reynolds' tickets.

One woman here has been partially identified three times.

The injured are all improving.

It is reported that a son of Mrs. Stankey, of Massey is missing.

McLellan's Brother in Winnipeg.

Special to The Montreal Star.

Winnipeg, Man., January 27.—Dr. A. McLellan, of Sudbury, killed in the wreck at Webbwood, was a brother of Dr. Daniel McLellan, of Winnipeg.

The latter had been taking a post-graduate course in New York, and left that city for home the day the accident occurred. He had intended visiting his brother at Sudbury, while en route west, but instead arrived there to assist in rescuing the brother's mangled remains from the river.

Six Orillians in the Wreck.

Special to The Montreal Star.

Orillia, Ont., January 27.—No less than six of the victims of the Canadian Pacific Railway disaster had left this vicinity: S. J. Saunders, commercial traveller, lived here; the Kelly family have been visiting relatives in Mara Township, bordering on Orillia, and their bodies will be buried at Uptergrove; and Daniel Morrison lived at Longford, across the lake from here, while J. H. Wade, injured, is a son of Robert Wade, of this town. Russell Thompson, who narrowly escaped, also lives here.

THOMAS HAY DIED AT NORTH BAY TO-DAY.

Special to The Montreal Star.

North Bay, Ont., January 27.—Thos. Hay, Canadian Pacific Railway claims agent, injured in the wreck near Webbwood, Friday, died this morning at eight o'clock at his own residence, North Bay, blood poisoning having set in as the result of wounds received in his head.

Dr. Beatty, Canadian Pacific Railway surgeon, of Toronto, was in consultation with local physicians yesterday, but nothing could be done. Mr. Hay's condition was favorable until Tuesday, when a change for the worse set in and he continued to fail until death released him. He was conscious to the last.

Mr. Hay was in his sixty-fourth year and has railroaded for forty-five years. He joined the Canadian Pacific Railway in 1883, after serving with the Grand Trunk Railway for some years in Brockville. He was born near Kingston, and married Miss Grant, of Brockville, who died last July.

Leaving Brockville, Mr. Hay entered the Canadian Pacific Railway service at Ottawa, then came west and was assistant superintendent of the Schriber division for fifteen years, coming to North Bay to fill the position of claims agent, which he has held for ten years.

Three children survive, Mrs. J. H. Stephens, of Toronto; Miss Mabel Hay, who has been keeping house for her father here, and Stewart Hay, of Revelstoke. Interment will be at Brockville on Saturday.

The Busoni Recital.

The sale of seats for the piano recital to be given by Busoni in the Windsor Hall on February 4 opened yesterday. His recitals in New York have created almost as much of a furore as Wullner's did.

Lt.-Col. Burland, who has been laid up for two weeks, is progressing favorably, though still confined to the house.

RAILWAYS OPPOSE LANCASTER BILLS

Counsel Contend Board Lacks Jurisdiction, and Say Some Features Inopportune.

Special to The Montreal Star.

Ottawa, January 27.—Before a subcommittee of the Railway Committee yesterday afternoon, Mr. A. R. Creelman, K.C., for the Canadian Pacific Railway, and Mr. W. H. Biggar, K.C., for the Grand Trunk Railway, opposed the Lancaster bills, one of which would limit the time in which the Railway Commission may grant leave to appeal from its judgments, and the other making approval by the Railway Board necessary to specific contracts for limitation of liability on carrying contracts on railways.

With regard to the first bill the contention was that it would affect the public as much as the railways, and was inopportune, while on the question of liability it was argued that the contracts often originate on American railways, over which the Board has no jurisdiction.

The bills will be further considered by the sub-committee next week.

ILLEGAL COMBINES TO BE PROSECUTED

Minister of Labor Declares Them Responsible for High Cost of Living.

Special to The Montreal Star.

Ottawa, Ont., January 27.—Speaking at a ward meeting in lower town last night in support of Mr. Allard, Government candidate in the by-election, Hon. W. L. MacKenzie King, Minister of Labor, said that investigations had been made by his department regarding the increased cost of living and would be published before long.

"One of the reasons," he said, "is the development of trusts and mergers, but it is not the only reason. It is to get after the illegal combinations which enhance prices that I have introduced the Anti-Combine bill now before Parliament."

WOULD CREATE INSPECTORS.

Many Deaths From Explosions Along Transcontinental Reported.

Special to The Montreal Star.

Ottawa, January 27.—That 114 lives have been lost on the National Transcontinental Railway in the last three years, is the substance of a return asked for by Mr. Robb, of Huntingdon, and brought down yesterday.

L. Donald, of Montreal, who made an investigation into the dynamite fatalities at Kenora, in his report suggested the appointment of inspectors of explosives, with power to inspect all parts of the process in manufacture, and to explain to workmen how to handle dynamite.

"Accidents," he said, "are due mainly to lack of knowledge of the properties of the explosives, and of how to handle them.

THE DE LA RONDE CASE.

Special to the Montreal Star.

Ottawa, January 27.—Another charge against Major de la Ronde, that of retaining money due James Dolman, a teamster in the Army Service Corps, was disposed of yesterday, by a stated case being allowed to be made to the Court of Appeals on a question of law.

The Magistrate expressed the opinion that the charge had not been sustained.

The other charges were withdrawn.

Capt. de la Ronde, son of the Major, admitted having signed the latter's name to both cheque and pay-list, but claimed to have had his father's authority. The stated case will be on the point of the Major's responsibility for his son's action.

Fatal Revolver Accident.

Special to The Montreal Star.

St. John, N.B., January 27.—A man named Gregoire, at Kempt, Que., opposite Campbellton, looked into the muzzle of a revolver which had just missed fire, when it exploded, the bullet entering his head between the eyes. Gregoire will not recover.

RAINVILLE PLEADS GUILTY TO BIGAMY

Confessed When the Two Wives Presented Their Marriage Certificates in Court.

Each one guarding her marriage certificate as if it were the dearest thing in the world, the two wifes of Moise Rainville, who is facing a charge of bigamy, appeared in court this morning to offer the certificates as evidence and to further testify against the accused.

Severin Jean, wife No. 1, and the mother of four children, was the first one called. She produced her certificate showing that she had been married to the accused four years ago.

Alice Raynor, or wife No. 2, and a bride of January 5, offered a brand new certificate as evidence and said she had married the accused on January 5, believing him to be a single man.

RAINVILLE BIGAMY CASE—Severin Jean, wife No. 1, and Alice Raynor, wife No. 2.

Rainville's troubles first made themselves known on January 17, when he was arrested at the instance of wife No. 1 for non-support. The evidence given at that time showed that there had been another wedding and on calling on wife No. 2 the police were advised to bring a charge of bigamy against the accused.

He pleaded guilty this morning to the charge of bigamy and was remanded until February 3, for voluntary statement.

LAWYER TAKES CHARGE OF INVALID PAUPER.

A decrepit old man, 79 years of age, who had been picked up on the street unable to walk, was arranged before Recorder Dupuis yesterday on a charge of vagrancy. After hearing the circumstances, the Recorder declared that a charitable institution was the place for the poor old man and not the jail. Mr. Ernest Tetreau, advocate, who is the Citizens' Association candidate in St. Denis ward, promised to care for the man until a place could be secured for him in one of the charitable institutions of the city.

MRS. JAS. M'SHANE DEAD AFTER LONG YEARS' SUFFERING

Condition of Mr. McShane, However, Shows Slight Improvement To-day.

In the presence of her three daughters and Mr. Richard C. Barry, son-in-law, Mrs. James McShane passed away at a quarter past one this morning. For the past seven years Mrs. McShane has suffered from rheumatism, but recently other complications set in. A few weeks ago the attending physicians declared that her condition was serious and the family were told to prepare for the end.

On Monday of this week Mr. McShane, who has been ailing for some days, was advised to allow himself to be taken to the hospital. In a feeble condition he was taken to the Hotel Dieu in the ambulance after bidding his wife au revoir, and with the hope that he would be home again very soon. Pneumonia, however, set in and for many hours the doctors feared the worst. He is reported as having passed a bad night, but is better and brighter this morning, with a fighting chance for recovery.

The mother of the late Mrs. McShane is dying at her home in Plattsburg, but the two daughters who live in other cities arrived here some days ago. They are Mrs H M. Tracy of Philadelphia, and Mrs. William H. Buckley of Albany. Mr. and Mrs. Barry have been living at the McShane residence on University St., since the fire at their own house a month ago.

The late Mrs. James McShane.

Mrs. McShane was Miss Josephine Kathleen Miron, of Plattsburg, N. Y. She was of a charming disposition and was liked by all who knew her, for she never had an unkind word to say of anyone. She was conscious right to the end, and even ten minutes before she died proposed a rest for those who had been through the long vigil.

The funeral will take place on Saturday morning and will be of a private character. Mr. McShane has not been informed of the death of his wife.

CHIEF CARPENTER GIVES EVIDENCE ON TRACK BETTING

No Record in His Experience of Anyone Going Wrong Through This.

Special to the Montreal Star.

Ottawa, January 27.—More evidence before the committee on the race track gambling bill was heard yesterday afternoon. A telegram was read from the Police Magistrate and the Chief of Police of Winnipeg asking to be permitted to send a written statement against the bill. Mr. McCarthy, K.C., himself opposing the bill, objected on the ground that it would be opening the door to the admission of all sorts of views and articles. The matter, finally, was left in abeyance.

A declaration by the Mayor and Council of Cote des Neiges, in which the Montreal race track is situated, was read, asking that the races be kept in existence. They said they never knew any disorder from race meets.

For the Ontario Jockey Club, Mr. McCarthy wished to make it clear that the club did not oppose that part of the bill purposing to make it illegal to make a handbook or to telegraph information on races to pool-rooms. "We do not support these things," he said, "we are content to have them legislated out of the country."

Has Seen No Evil Results.

Mr. F. E. Meredith, K.C., representing the Montreal Jockey Club, called Chief Carpenter, of that city. Asked as to the class of men who control the race meets in Montreal, he said they were among the best in the city. He had seen little or nothing to object to in the race meets, nor had he seen any evil results from racing in Montreal. Further questioned, Chief Carpenter said he thought it would not improve the situation to make bookmaking illegal. "I cannot find any record in my experience," he said, "of any person going wrong through race-track betting. Of course before three years ago there was little or no horse-racing in Montreal."

"Have you any pool-rooms in Montreal?"

"No. There were some on the outskirts which have been closed since annexation. We have had one case in three years where a man said his downfall was due to pool-room betting." Continuing the chief said he did not regard pool-rooms as desirable. As to the difference between a bookmaker and a pool seller, he said the former was under the control of the Jockey Club. They were honorable gentlemen.

"Oh, yes, honorable gentlemen?" put in Mr. Raney, counsel for the bill, with evident sarcasm.

"I object," retorted Mr. Meredith, "my learned friend interrupts the answer. I would have him remember that there are honorable gentlemen even outside the church."

Chief Carpenter admitted that he had known of kicks against losses from pool rooms, but he had never known of defalcations.

Toronto Police Chief's Views.

Chief Grassett, of the Toronto police force, was examined at length. His most important statement was: "If betting could be suppressed wholly in private and public, I would be in favor of it as fully as I could express myself; but I would rather be inclined to think that if you prohibit the book-maker on the race course, some substitute will be found for him, and the last end of that man will be worse than the first." The chief said he would make it criminal to publish tips. They were often fraudulent.

Senator Douglas, the next witness, was opposed to all kinds of gambling at race tracks or elsewhere. He had been a horse breeder for years and declared that the race track was not necessary for the testing of horses. "Many a good trotter," he declared, "has been developed in a butcher's cart."

Peter Christie, ex-M.P., thought that it would be much better for farmers to breed draught horses than thoroughbreds. It was the "gang" that went to the circuit of the race courses that often kept away the best people. He believed it possible to carry on races without betting, at least in the smaller meets with which he was familiar.

Hon. Sydney Fisher on Betting.

Hon. Sydney Fisher was the principal witness before the Anti-Gambling Bill Committee to-day. His evidence was preceded by some protests by Mr. Monk as to the methods of procedure and by an attempt of Mr. Raney, council for the bill, to read some newspaper articles.

Mr. Fisher admitted that the English thoroughbred was of the utmost importance to breeding in Canada, but the great majority were fitted only for speed. The Minister expressed the view that the presence of bookmakers and betting did not contribute to horse breeding in Canada.

"In a Canadian city last year," he said, "I stayed at an hotel swarming with these men whom I would not like to meet on a dark night. They came mostly from across the line, and made the hotel objectionable to a decent traveller. "It was in Victoria."

"Have you ever been at the races in Montreal?" asked Lo'hton McCarthy.

"Yes."

"Would you say of them what you say of Victoria?"

"No."

The horses he would like to see, continued the Minister, were those to which the King's prizes were given in England. They seldom went to the race track.

Miss Lucy Stevenson, Drummond street, entertained yesterday afternoon, at a Bridge of three tables, and again in the evening when cards were played at eight tables.

P. J. Doran the New Lacrosse Power--Inside History of Patrick-Hall Feud

SPORTING VIEWS AND REVIEWS

Two important hockey cases are now sub judice, as the lawyers say, and therefore it is bad form to comment upon their merits, or perhaps even to think about them. One is the case of the redoubtable Pitre, restrained from playing by an injunction granted by the Superior Court, but which has been taken to the Court of Appeals, argued by learned counsel, and now awaits judgment. In the meantime, the season is slipping by, people will soon be thinking of spring, and Pitre is losing lots of fun, to say nothing of salary. The other case is that of Hall, who last week came into collision with a fellow-player and subsequently with the judge of play. His case has been dealt with by the hockey organization itself without having recourse to the gentlemen of the long robes, and the prompt action of the organization shows that it believes in the good old rule that justice should be swift and sure. Whether Hall's temporary suspension is punishment that fits the crime is a matter for the league at a regular meeting to decide. The case is, therefore, still sub judice, and mum is the word. Upon one feature of the case, however, one may venture due opinion, and it is this—the bill of costs in the Hall case will not go down so deep into some one's pocket as will the bill in the Pitre injunction suit. The law of the land is a more expensive luxury than is the law of the hockey rink.

Out on the prairies they are already beginning to talk about cricket, which, like the uncertain and faltering course of the Montreal Ice palace, is another proof of the mildness of the present winter. Winnipeg, watchful, enterprising and foreseeing, is thinking about its exhibition week in early August. As one of the sporting attractions, a cricket match is proposed. Winnipeg can furnish one team and the Province of Saskatchewan has been invited to supply the other. The prairie players think they can do it.

Proud little Wales, noted for many things, and especially in these latter days for having given to the Empire Lloyd-George and his election-producing budget, has been forced to lower its colors on the Rugby football field to its big sister, England. This is the first defeat of this kind that Wales has had to put up with since 1904. In all Wales and England have played 27 international matches; two were draws, England won 13 and Wales 13. This record shows how evenly the teams representing the two countries have been matched. However, the men from the land of song and of the leek are one ahead.

Some one has discovered a German menace in the seemingly peaceful town of Arnprior, in the Upper Ottawa Valley—a menace that threatens with defeat every other family in Canada. And it is a menace that cannot be met by Dreadnoughts or tariff reform. It, therefore, has nothing to do with politics. This menace consists of a German family bearing the name of Stavenow, rather suggestive of muscular power and determination. The family can put on the ice seven hockey players, and they are desirous of meeting another family team from any part of Canada. It may be that the Stavenows have not heard of the Smith family of Ottawa. A meeting of the two families would be something for the nations to take note of.

It is not often that Canadian curlers have to insert so many "ifs" in their programmes as they have been obliged to do this January. "If the weather will permit" is the standing condition. The stereotyped phrase with respect to lacrosse is "Play rain or shine." Curlers do not mind the "shine" so long as it is the pale sunshine of midwinter, but rain they decidedly object to, for it means a temperature above the point at which ice melts, and what is curling on a slushy rink? But February is still ahead, and it may make amends.

The hockeyists of the Silver Belt are faring rather badly at the hands of the men from the commercial metropolis. On the same night both Cobalt and Haileybury went down to defeat before two Montreal teams. No doubt the New North has its qualities, but, after all, its sportsmen have not been found invincible. After all the preliminary tall talk, the results up to date remind one of the old proverb, "Brag is a good dog, but hold fast is better."

BASEBALL STARTS APRIL 13.

National and American Leagues' Opening Dates.

Pittsburg, Pa., January 27.—The joint schedule committee of the two major baseball leagues ended their work last night, and the members left for home.

The season will open in the West on April 13. Pittsburg will open at St. Louis, New York will play the first game at the Polo Grounds April 22, and the first game at Forbes' Field will be with Cincinnati April 20 or 21.

The American League will open in the East a day later than the National.

The Longueuil Hockey Club played its first game of the season with the Ramblers of Longueuil by defeating them by a score of 3 to 2 in a fast and most interesting game.

Mr. P. J. Doran, the new power in Senior Professional Lacrosse.

NEW BOWLING SERIES FOR INDEPENDENTS

The Independent Bowling League met at Uptown Exchange of the Bell Telephone Company, last night, when an Intermediate Series was formed by four of the nine clubs. The clubs were Crescents, Beavers, Bell Telephone, and Northern Electric. The other clubs were short of men, and in the case of the R.R.Y.M.C.A. they could not get alley accommodation as they now have three teams. The protest of the Bell Telephone against the R.R.Y.M.C.A. for playing an unregistered player, was won by the R.R.Y.M.C.A. on their giving proof that it was only a clerical error.

Mr. Quinn, of the Bell Telephone Club, presided at the meeting.

The delegates were:

Crescents—Stuart and Gamble.
Beavers—Cantlin and Cockburn.
Westmount—Moir.
R.R.Y.M.C.A.—W. E. Birtles. A. Buchanan, and A. Loucks.
Bell Telephone—Buchan.
Northern Electric—S. Copeland.

Canadian Bowling League.

In a scheduled Canadian Bowling League game, Nationals defeated Silver by a majority of 288 pins. The feature was the bowling of Mr. M. Lahaise, of the Nationals, who bowled a string for 255 pins and made the high total of 639 pins.

In the other game between Hughes and McGuire, the latter won by a majority of 109 pins.

TO-DAY'S SPORTS

HOCKEY—Manufacturers' League—C. P. R. vs. Allis-Chalmers-Bullock; G. T. Motive Power vs. Northern Electric; M. L. H. & P. vs. Bell Telephone. Inter-School League—Intermediate High vs. Lower Canada, at Arena.

NEW WORLD'S RECORD FOR EDMUND LAMY

Special to The Montreal Star.

Cleveland, Ohio, January 27.—With a world's record for the quarter mile within his grasp, Phil Kearney, the New York speed wonder, who has been making Pittsburg his headquarters this winter, tripped and fell at Elysium, last night, and Edmund Lamy, of Saranac Lake, New York, amateur champion of the world, scooted over the finish line a yard in advance of Roe and Robson, the Toronto whirlwinds. Lamy's mark was 38 4-5 seconds, a new world's record for the distance.

It was a night for record breaking, and the quarter mile event did not have anything on the one and one half mile final. Lamy clipped three seconds off the mark of four minutes and 28 seconds, made by J. S. Johnson, on February 26, 1894.

Champion Lamy failed to qualify in the mile event, tripping and falling in the eighth lap. Robson won the first heat and Kearney the second. The former failed to start in the final heat, and Kearney had comparatively easy sailing, winning in 2 minutes 52 4-5 seconds.

Claud Lamy, fourteen year old brother of the amateur champion, defeated Ben Oakley, of Cleveland, in their special half mile.

JOHNSON WAS FINED $50.

Was Fined in Brantford for Speeding.

Brantford, Ont., January 27. — Jack Johnson, champion negro pugilist, was called in the Police Court yesterday morning. He had been summoned to answer a charge of speeding his automobile through this city last summer. Later in the day and just as a bench warrant was to be put into effect, telegraphic explanations were made from Toronto by the negro fighter, and $50 was accepted in payment as a fine.

WANDERER LACROSSE CLUB FORMED

The blow has fallen.

Let the Lacrosse clubs of the National Lacrosse Union beware.

The fate of the Canadien Hockey Association ought to be a warning to them.

The Wanderer Lacrosse Club has been organized.

Mr. P. J. Doran makes the announcement to-day.

He has his team ready He will make application for admission to the National Lacrosse Union. If refused, history will probably repeat itself.

On Tuesday, January 18, the Star said:

"It can be stated on the authority of a very prominent gentleman connected with the new National Hockey Association that wires are now being laid for the purpose of arranging lacrosse opposition in French Canadian circles the same as there has been hockey opopsition this spring.

As will be remembered at the winter meeting of the National Lacrosse Union, Mr. Jimmy Murphy, manager of the Toronto team, referred to the possibility of just such a contingency.

Well, his words seemed to have proved more prophetic than even he thought, for since the negotiations for the sale of the Canadien team to the Nationals have fallen through the matter of starting a new French-Canadian Club in opposition to the National Athletic Association has been immediately taken up.

It is expected that some active steps towards acquiring grounds will be taken shortly, and that with the aid of some of the clubs now in the National Lacrosse Union, a strong effort will be made to have the new club enter that union.

Story Not Believed.

No one believed the story.

All the other papers in the city as well as in Ottawa, Toronto and Cornwall laughed at it.

Here is the verification:

"Yes," said Mr. Doran, when asked to-day if the rumor was true. "I have formed the Wanderer Lacrosse and Athletic Association. The Jubilee Rink will be our club house; the property right opposite the Jubilee Rink will be our lacrosse grounds, plans for a grand stand have been drawn, and my team has been engaged.

A TEAM OF HALF AND HALF.

"It will be half French-Canadians and half Irish, and will attract patronage from both nationalities.

"I shall in due season make proper application to the National Lacrosse Union for admission.

"If they refuse me this as they did in hockey, history will repeat itself. I have powerful friends, who, although they have not interested themselves very much in lacrosse thus far, are not averse to taking a flyer in it."

"Does that mean that if you are not admitted there will be a lacrosse war, the same as there was a hockey war?" he was asked.

WANDERERS TOOK THEM IN.

"There was no hockey war as far as I know," said Mr. Doran. "The point was simply this: The existing hockey association did not want to take the Wanderers in, so the Wanderers, with the aid of their friends, took in the existing hockey association. To do so it had to be pruned a bit, but that was a mere mattor of detail."

"You say you have your team all arranged?" he was asked.

"Yes, was the reply as far as I have gone I can count on the following men:

Pitre, Laviolette, Lalonde, Secours, Lamoureux and Cattarinich, Jarrett, Muir, Hyland, Kenny, W. Maher, T. Maher, Kerwin and Clement."

Of course this equipment in the shape of players may be changed later on, but it looks like a pretty strong aggregation.

The New Grounds.

Those who have seen the grounds where the Wanderers will play say that with the plans which Mr. Doran has discussed with them, they will be as good as the M. A. A. A. grounds, and much more accessible than the Shamrock or National grounds, particularly when the St. Catherine street bridge, which is right near them will be ready for car service again, as it is promised to be for next summer.

For all these reasons there will be something doing in lacrosse. The Jubilee Rink will be turned into an indoor lacrosse field as soon as the ice goes away, and the team will start practicing from then on.

FOR BANTAM WEIGHT TITLE.

Webster and Attell to Meet in 45 Round Bout.

Special to The Montreal Star.

Los Angeles, Cal., January 27.—Having grown tired of the game of shuttlecock between himself and Sid Hester for the Nelson-Wolgast fight, Promoter McCarey announced last night that instead of a lightweight championship battle he would stage a 45-round contest between Dan Webster and Monte Attel for the bantam weight championship on February 22. Webster and Attel have met twice in ten-round-no-decision affairs, and both claim the bantam championship. The 45-round battle will settle the dispute. As Los Angeles forbids fights within the city limits, the contest will be held in the suburb of Vernon.

MEETING OF MONTREAL HUNT

A. E. Ogilvie Was Again Elected Master.

At the annual meeting of the Montreal Hunt in the St. Lawrence Hall yesterday, Mr. A. E. Ogilvie was re-elected master of the club. This will be Mr. Ogilvie's third term, and his re-election was made unanimous. Mr. Alan G. Law is again secretary-treasurer, and the committee is composed of Lt.-Col. Grant, Messrs. A. D. McTier, Bartlett McLennan, F. C. Fairbanks and W. J. Morrice.

FUTURITY FOR 1907 COLTS.

Will Be Raced for in Detroit in August.

Chicago, January 27.—It was decided that the Horsemen and Spirit of the Times Futurity Stakes, for foals of 1907, will be raced at the Detroit Grand Circuit meeting during the first week in August This is a guaranteed stake of not less than $15,000.

The race is for three-year-old trotters and pacers, the conditions providing for three heats, each heat a race.

A Large Cocking Main.

Victoria, B.C., January 27.—The police here have just learned of one of the biggest cockpits ever pulled off in Canada. The birds were allowed to enter as exhibits in the poultry show just closed and no suspicion was aroused. They were spirited out to the country where a regular cockpit, with tiers of seats surrounding, had been erected. Thousands of dollars changed hands and forty birds were killed.

Hyland, who will be on the new Wanderer Lacrosse team.

RUDD, SOMERSAULT SKI JUMPER, HERE

John Rudd, the only man in the world who can turn a somersault on skis, is in Montreal to attend the Winter Carnival. He will remain here for about two weeks, during which time he intends giving several exhibitions of his wonderful feat, the first taking place under the auspices of the Montreal Ski Club on the mountain Saturday afternoon.

Mr. Rudd is a resident of Duluth, Minn., where winter sports are extremely popular, he says. Every man, woman and child in the city is a devotee of some particular outdoor sport. Ice-boating is at the present time enjoying increased popularity owing to the unusually favorable weather this winter. Hockey is booming in the city on Lake Superior, but it is ski-ing that has taken the most popular hold on the people there. A new world's record jump was made last Saturday in Duluth, a mark of 144 feet being established.

J. Rudd, the only man who turns a somersault while jumping on skis.

The extraordinary feat which Mr. Rudd alone performs is done at a height of eighty-five feet, using skis six feet four inches long. The jumper turns a complete somersault forwards—not backwards, as is generally thought when the performance is seen. There is, of course, considerable of a knack in doing the turn, but the principal requirements are physical strength and nerve. Just before the turn is about to be made, Rudd clasps his ankles with his hands and completes the circle so rapidly that there is much speculation, as a rule, as to whether he turns backwards or forwards.

An interesting exhibition is in store for Montrealers on Saturday afternoon at the Ski Club meeting.

NEW PRESIDENT NEW YORK NATIONALS

New York, January 27.—According to a report current here to-day, John T. Brush has resigned from all active interest in the New York National League Baseball Club, and is to be succeeded by Fred. R. M. Knowles, former secretary of the club.

Neither Mr. Brush nor Mr. Knowles is in New York, and therefore the report could not be definitely verified this morning.

It has been believed for some time, however, that important changes in the officials of the New York Nationals were pending.

Mr. Brush's health, which has been failing for years, according to a close friend of the magnate, has never recovered from the severe shock of an injury aboard ship on his return from Europe last fall, when he sustained a painful fracture of the shoulder.

Mr. Brush has seldom been in his office this winter and Secretary Knowles, it is said, has shouldered the burden of responsibility. Knowles has been secretary to the Giants since 1886.

BASEBALL HERE ON MAY 9.

Jersey City or Baltimore to Start Season Here.

If President Pat Powers' schedule is adopted at the Eastern League meeting here next week, the season in Montreal will start on Monday, May 9, with Jersey City or Baltimore as the visiting team.

The Toronto Club's new park on Hanlan's Island, which has a capacity for 15,000 spectators, will open the same day.

MORE BASEBALL TROUBLE.

Chas. W. Murphy Threatens to Make it.

Chicago, January 27.—Unless Charles W. Murphy, president of the Cubs, alters his attitude toward the changes being wrought in the playing rules at present, there are likely to be differences between the American and National Leagues. Murphy anounces that he will never vote for any changes in the rules as they were advocated by President Johnson, of the American League.

At the St. Patrick's A.A.A. gymnasium last evening in a basketball game between the Arre-Wannas and the Emeras, resulted in a draw, 11 to 11.

THE CURLERS ARE AT THE GAME AGAIN

The curlers can now get busy at work again, now that the cold weather has returned, and the next two weeks will see the most interesting competitions going on. The Governor-General's and Jubilee trophies, the Gordon Medal, and the single rink carnival bonspiel should keep them busy.

The last two rinks were played last night in the match between Montreal and Caledonia in the second round of the Centenary Cup were played on Caledonia ice. From last week's play Caledonia had an advantage of 13 points. Last night they further increased this by 5, so that they have finally won fom Montreal by the comfortable margin of 18 points, and have once more gained the right to play in the final.

THE CENTENARY CUP.

The lats two rinks in the match between the Caledonian and Montreal clubs for this trophy were played on Caledonia ice. Caledonia on last week's play led by 13 points, and on last night's rinks they added 5 more, winning by 18 points.

THE GORDON MEDAL.

At a special meeting of the executive of the Canadian branch, a representative from each of the clubs in the Montreal centre, took place last night at the Thistle Club, Dr. J. T. Finnie, president of the branch, presiding. The matter of the arrangements for the entertainment of the United States curlers was fully discussed, and it was finally decided that a reception committee should meet the visitors.

The programme for the day will comprise breakfast at the Windsor Hotel and a drive round the mountain during the morning. Lunch will be provided at 1.30 at the Montreal and St. Lawrence rinks, previous to the commencement of play, which will be at 2.30, and a curlers' banquet at the Windsor in the evening. The Montreal and St. Lawrence clubs were selected for the match.

The rinks from the Montreal, Thistle and Heather will play on Montreal ice, while those from St. Lawrence, Lachine and Outremont will do duty on St. Lawrence ice. Tickets for the banquet can be obtained from the secretaries of the several clubs.

The following were the committees appointed:

Reception Committee—F. N. Southam, Pres. Montreal C. C.; Capt. R. S. Clift, Pres. Thistle C. C.; W. R. J. Hughes, Pres. Caledonia C. C.; Dr. H. M. Church, Pres. Heather C. C.; R. T. Griffin, Pres. St. Lawrence C. C.; G. S. A. Oliver, Pres. Lachhine C. C.; W. J. Johnstone, Pres. Outremont C. C.; A. G. Racey, Vice-Pres. St. Andrews C. C.; and the following officers of the Canadian branch of the Royal Caledonia C. C.: Dr. J. T. Finnie, Pres.; David Guthrie, 1st Vice-Pres.; W. J. Beatty (Ottawa), 2nd Vice-Pres.; Rev. Dr. Barclay, chaplain; W. D. Aird, Sec.-Treas.; R. W. Tyre, Lt.-Col. Stevenson and Alex. Ramsay, executive committee. Dinner Committee, Dr. J. T. Finnie, Robert Lucas and H. G. Willis. Entertainment Committee, A. T. Rice (convener), D. McGill, D. A. Bethune.

Games will be of 21 ends and granites will be used.

THE GOVERNOR-GENERAL'S.

Play in the Governor-General's and Jubilee competition for the Montreal centre will commence to-day, the former at 2.30 p.m. and the latter at 8 p.m.

The outside clubs in these two competitions will play on Tuesday, Wednesday and Thursday next.

Special to The Montreal Star.

Arnprior, January 27.—The Low Challenge Cup stays in Arnprior for another two weeks at least. Pembroke sent a team to Arnprior on Monday, determined to carry off the coveted piece of silverware, but their hopes were vanquished, the home curlers coming out on top with 20 points up.

The ice was in very poor condition for ideal curling. The visitors seemed to suffer worse by this, as Arnprior was victorious in all rinks but one. It looked at one time in the evening like "23" for Skip McVain, as Dr. Murphy had the score 11—0 on his rink. Skip Cockburn was the only one of Pembroke's skips to score a victory. The teams were:

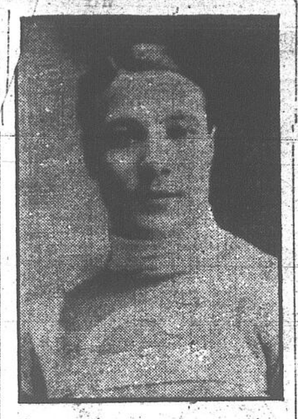
QUAKER SHOW A SUCCESS.

Inclement Weather Fails to Keep Down Attendance.

Philadelphia, January 27.—Enthusiastic motorists get inured to all sorts of weather, and rainy days have no terrors for them at all. This was proved by the big attendance at the Third Regiment Armory Automobile Show, which was up to that of any day since the opening. The class of spectators was again one that delighted the hearts of the exhibitors, for a great many of those who were on the floor were there for the purpose of getting a line on the new things in motor vehicles with a view to purchasing anything that took their fancy. The gentler sex were especially interested in examining the many little details of refinement and comfort which the American manufacturers are constantly adding to their cars.

Representatives of the various factories now make a point of taking in the Philadelphia show, which has assumed the importance almost of a national event in the eyes of the trade. Many well known automobile factory representatives were at the Armory to-day. One of the most prominent was Walter C. White, vice-president of the White Company. It is the first time Mr. White has been in Philadelphia for years. He was especially pleased with the local display and said that it was one of the prettiest which he had ever seen.



"Neway" Lalonde, who will be on the new Wanderer Lacrosse team.

TIGERS DINE WELL AND HEAR NEWS

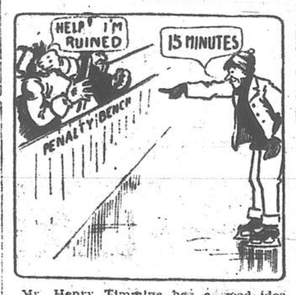
Hamilton, January 27.—The annual banquet of the Hamilton Rugby Football Club, which was held last night in the Waldorf Hotel was one of the most sucessful ever enjoyed in the history of the club. About seventy-five plates were laid. The members of senior, intermediate and junior teams were present, and several prominent sportsmen also enjoyed the hospitality of the Jungle King. Twe presentations were made during the evening. Captain Ben Simpson, on behalf of the players, presenting Dr. W. G. Thompson with a handsome silver tea service and a complimentary address at the same time; whereat three cheers were given for the genial doctor and his better half. Trainer Sim Vaughan was also the recipient of a very handsome present, a valuable meerschaum pipe. Dr. Thompson, in making the presentation, spoke very highly of the work done by the Jungle King's trainer during the past season.

During the evening's addresses some interesting news was given out. It was learned from Manager Lazier that it was not only possible but quite probable that the New York exhibition game would become a fixture in the future. The announcement was not made officially, but the manager spoke hopefully of such a scheme materializing.

Needless to say, the players were jubilant over the news.

After chairs had been pushed back and cigars lighted, glasses were charged and the toast list proceeded. After "The King" had been drunk and the National Anthem sung, Mr. Adam Zimmerman, who officiated as toastmaster, made a few remarks, and spoke on the problem of securing an athletic field and proper quarters for the Tiger Amateur Athletic Association. He said that the absence of grounds had been a big handicap to the club for some time, but that it was quite likely that the difficulty would not exist at the close of this year. He announced that some other gentlemen and himself were holding a meeting to discuss the question. Speaking of the team, he said that although they did not win the championship, they had a record behind them second to none in the Dominion, and could easily afford to take second place on the honor roll for one year.

SPORTING NOTES



Mr. Henry Timmins has a good idea. He says: "Fine the players $1 a minute for every minute they are on the penalty bench. Then the public would have clean hockey."

With that penalty the players would be so polite they'd say "Excuse me, sir," every time they took the puck away from one another.

The Shams will make a mistake playing Boulten forward and Bellamy at point. Forrester is not a bad point player and Bellamy is needed on the forward line.

It is interesting to note that there are only two Ottawa-born boys on the Stanley cup team. Stuart and Shore, while Haileybury has six Ottawans—Ronan, Bawlf, Throop, Harry Smith, Dey and Tom Smith.

Why do the Arena crowds roast Art Ross? He is one of the best players in the business.

The Shams' rough-house performer is on a Halliday. P.S.—This is a joke.

What the populace wants is more good hockey at the Arena where the games can be seen in comfort. Incidentally, why doesn't McGill play in the big rink?

Mr. H. Smith, of the Haileybury outfit, is fat enough to run for alderman.

H. Smith is not as fast as he used to be, and for good reason. Look at the size of the bread-basket he carries around with him.

No, Why?
(Toronto News.)
Are you going to Buffalo?

Percy Smallwood, the Welshman, who is to run Longboat twelve miles at Pittsburg this week, made his ten-mile world's record of 50.40.3-5 on the same track last June.

Mr. G. H. Duggan is with us again, and now to get our lunch hooks on that Seawanhaka Cup!

There are some great goalkeepers in the big league this year, and none of them (P. Moran excepted) have anything on Mr. Winchester whom the Shams plucked from the great and boundless west.

Love of the limelight is the only reason (it's not an excuse) for amateurs refereeing professional games.

Queen's vs. McGill here on Friday. McGill has a fast bunch this year, and ought to make a noise like a victory.

INSIDE STORY OF PATRICK-HALL FEUD

If the Hall case is going to be investigated a little more next week, it might be interesting for the National Hockey Association executive to take the evidence of some of the players and followers of the game who were present in McNiece and Orchard's store on St. Catherine street near Guy, on Saturday afternoon when the real root of the evenings trouble showed itself.

The store referred to is a sort of an informal club-room for hockey players, and Patrick and Hall happened to meet there, according to a well-known hockey fan.

They do not seem to be the best of friends at any time and upon this special occasion they soon came to hot words.

Patrick intimated that he would get even with Hall some of these days, and Hall retorted that there was only one man who had ever been able to put him out of business, and that was Alf. Smith.

Patrick retorted that he would find out there were others, and upon that Hall solemnly warned him to keep away from him (Hall) or there would be trouble.

The result was the fight in the Arena at night.

ODDS ON THE BIG RUN.

Longboat's Price Depends on Tonight's Race.

Special to the Montreal Star.

Toronto, January 27.—A local firm of bookmakers has posted the following odds on the Canadian Derby of fifteen miles to be run at Rixerdale Rink next Wednesday night:

Meadows, Guelph	1—1
Butler, Sittingbourne, Eng.	1—1
Shrubb, Toronto	7—5
Acoose, Grenfell, Sask.	5—1
Crowley, New York	5—1
Sellen, Toronto	8—1
Simpson, Peterboro'	10—1
Red Hawk, Midland	10—1
Green, Caledonia	15—1
Redden, Hamilton	20—1

The winner of the Longboat-Smallwood match in Pittsburg to-night will enter the Canadian Derby and will be quoted at 6 to 1.

Against Acoose and Crowley 2 to 1 for a place may be had, while Sellen, Simpson and Red Hawk are quoted at 4 to 1 for second. The show betting on Acoose and Crowley is 1 to 2.

The entries will close on Friday night.

Hyland to Meet Hayes.

Memphis, Tenn., January 27.—"Fighting Dick" Hyland has signed to fight Grover Hayes, of Philadelphia, in New Orleans, February 5th, before the Royal Athletic Club.

HOCKEY NOTES

Princeton took the championship game in the hockey series last night by defeating Yale 2 to 1.

St. Cunegonde team defeated Chateauguay by 2 goals to 1. Clubs with players 18 years of age or under who want a game with Ste. Cunegonde are asked to address challenges to 173 Duvernay st.

Westmount's St. Lawrence League seven will play in Grand Mere on Saturday. A win will cinch the championship for the West End club. The team leaves at 9 o'clock Saturday morning, returning Sunday morning.

They challenge any hockey club of Montreal for a game under the condition that they are not older than 18 years of age. Mr. Ernest Fournier, 1958 Sanguinet street.

Mr. J. F. Kavanaugh has been appointed manager of the Intermediate Victoria Hockey team to succeed Mr. Paul McFarlane who has accepted a position in Ontario, and had to resign his position as manager of the team.

Two Basketball Games.

At the Fairmount Y.M.C.A. last night, the Beavers won from the Wanderers by a score of 24 to 19. Teams were:—Beavers — Wilson, Hunter, Stevenson, Cobb, Sloan. Wanderers—Woodward, Shaw, Robinson, Boon, Graham.

The Lindman Truss for Gardeners.

I have for upwards of twenty-five years suffered from a severe case of hernia, and have spent all kinds of money on trusses with little or no result. I was induced by a friend, a year ago, to try the Lindman Truss and believe it cannot be excelled, and would not part with it to-day for any consideration. The heavy lifting of large trees, etc., puts the truss to a severe test, but it has proved itself master of the situation.

OTTAWA WON BY SCIENCE VS. CHANCE

It is said of Les Canadiens that they have neither coach, trainer nor officers. Their play last night against the sturdy Ottawa team confirms the statement. They floundered like a fluless fish, and achieved the not at all surprising result of being defeated by a score of eight goals to four.

Individually, the blue-jerseyed athletes who are housed at the Jubilee Rink compare more than favorably when sized up against even such high standard players as those who come here wearing the bizarre uniform of the Ottawa club, but the latter work as a team, while the locals frolic in a haphazard manner, as though it were every man for himself, with the devil to take care of the hindermost.

Deficient in Team Play.

Beside being deficient in team play, Les Canadiens were ineffective at close quarters, failing to show strength in attack when hard by the goal. On the other hand, the Ottawa lot were in their proper element when near the twine, and clambered over the bulwarks like a merry crew of lusty boarders. The Frenchmen had enough chances in the first fifteen minutes to win the match, but the forwards contented themselves with sighting shots from long range, as Percy St. H. LeSueur is a gentleman of long experience in such matters, he fairly revelled in terminating the trajectory of the long flies. The Ottawa goal tend had really much more work to do than his fellow athlete, Cattaranich, who filled a similar position at the other end of the ice, but he was so seldom peppered at close range, that he found matters quite to his liking. To hazard a mere guess, it is safe to say that Les Canadiens hurled four pucks towards the Ottawa goal for each one pegged at "Catta," but much of this shooting was wasted energy. Ottawa forwards were not so showy, but they were mighty deadly; Stuart, Roberts and Walsh were not men to fiddle without a purpose.

Chance vs. System.

Briefly, it was chance against system, and chance brought slim fortune to its followers.

There is plenty of speed, stick-handling ability and strength of body on that French septette, but they play with Gallic effervescence at times when a little Saxon hard-headness would prove very useful. They have plenty of enthusiasm, but it runs riot when it should be curbed, and quickly spends reserve force. A man of Bruce Stuart's ability would be a veritable Eiffel tower of strength to Les Canadiens; had they had a person of mixing powers last night they could have added enough tallies to their score to reverse the result, but there was no one to wield the lash, and the crack of the whip fell on the wrong shoulders.

Ottawas Deserved Win.

The Ottawa lot well deserved their win. They played steadily and consistently. There was very little flash to their work; whatever there was came from Shore and Lake, the former playing a fine game throughout, but their work was effective at all times. Roberts and Stuart were the pick of the forwards, with Walsh an able aid. Ridpath was not noticeable in the first period, but his work was of a better character in the second half.

It was a good exhibition, particularly in the first half, when the locals looked as good as the other fellows. Then the ice was in fairly good condition, but it softened as the night progressed, and towards the close of the game was sticky, and clogged speed. The play was clean, although the checking was of close order. Yet the men sent to the bench were banished for comparatively minor offences, and nothing of a serious character ocurred. Holden and Bellamy, of the Shamrocks, handled the play in good style, although it must be said that when they benched one of the boys in blue the decision was not of a popular nature. That, of course, came from the spectators taking full measure of the prerogative to express candid opinions.

Hockey En Famille.

It is a candid audience that attends these affairs at the Jubilee. The spectators are close to the ice, and assume a familiarity with the players. It is hockey en famille. Praise and condemnation follow fast upon good and bad play. Both Pitre and Laviolette are idols to the crowd, and the sight of either spring-heeled player flitting down the ice at once becomes cause for hearty and noisy applause. Most of the advice is given in English, that business-like language being altogether to secure emphasis in sporting matters. One chap after carefully watching the dazzling Ottawa uniforms, solemnly dubbed the wearers thereof the "Salome babies." The connection is not altogether obvious, but he was quite pleased with his own originality, and his neighbors thought it a good name for the travellers, so everybody seemed to be quite happy over it.

The game was run through with but few delays, and was concluded at half-past ten o'clock, which is quite reasonable.

DETAILS OF THE PLAY.

The game started at a fast clip, Canadiens rushing things from the blow of the whistle, Decarie getting the first shot at Lesueur. Poulin was put off for tripping.

After some good stick handling Lake scored the first goal for Ottawa on a long shot. This was soon followed by Roberts, who managed to pass Cataranich on a side shot.

Ottawa, 2; Canadiens, 0.

This lead was not held long, for in a short time Lalonde scored the first goal for the locals, being soon followed by Decarie, who evened the score after working well in by himself.

Ottawa, 2; Canadiens, 2.

Canadiens were at this stage of the game out-skating the visitors, and in a short time Bernier put them in the lead on a pass from Lalonde from behind Ottawa's goal. But this lead was not held long, Lake scoring for Ottawa from a scrimmage.

Ottawa, 3; Canadiens, 3.

Lesueur was playing a fine game, and, although kept busy at this time, managed to prevent the locals from scoring. Stuart then put Ottawa in the lead on a pass from Lake. Roberts then followed the example and netted another goal for Ottawa on a pass from Stuart. No more scoring was done during this half, although both goals were several times in danger.

Ottawa, 5; Canadiens, 3.

Second Half.

From the start of the second half Ottawa had the better of the play, although they failed to score for some time. Ridpath was benched for hitting Lalonde, being soon followed by Laviolette for cross-checking.

The locals now were getting in quite a number of shots, but the majority were wide. Walsh was put off for slashing. Stuart then, after some good stick-handling, added another for Ottawa. This was followed by Roberts again scoring on the rebound of Ridpath's shot.

Ottawa, 7; Canadiens, 3.

Lalonde, after returning from the bench for hitting Walsh, scored Canadiens' fourth goal on a pass from Poulin. This was followed by Roberts, who, after some good work, scored Ottawa's final goal. Time was then called with the puck in Ottawa's possession, making the final score:

Ottawa, 8; Canadiens, 4.

SMAILL NO LONGER COBALT'S CAPTAIN

A gentleman on the inside of hockey, says he is in a position to know that Manager Hare, of Cobalt, has made some important changes in the Cobalt team. Last year's captain, Herb Clarke, will take Smail's place in that capacity. Smail will be put back to point, and Harold Macnamara, who played a brilliant game against Wanderers, will play cover. Valr will resume his place in centre ice, and the management are out for a first-class left wing player. Norman, who was released a week ago, left with Wanderers this afternoon.

TWO CLOSE JUNIOR MATCHES.

Both Games at End of Hour's Play Were Ties.

The Junior Hockey League, Section "A" series, started in exciting style last night with two tie games at the Arena. Stirlings and M.A.A.A. played the first tie game, the score at the end of an hour's play being 9 to 9. They were unable to continue the game, as Vics and Huntingdon had the next hour. These last-named teams also played a tie game, 5 to 5, but in the overtime Vics proved victors, winning by 7 to 6.

Geo. Slater and Percy Law were the officials in the first game, Messrs. Hooper and Christie in the second.

M.A.A.A. will play in Huntingdon on Friday night.

Canucks Win in London.

London, January 27.—Playing for the Maxe cup for ice hockey teams, in a match yesterday, the Oxford Canadians scored 5 to Prince's Club 2.

JEFFRIES STARTS TO TRAIN FEBRUARY 18

Special to The Montreal Star.

New York, January 27.—Several friends of James J. Jeffries received word from him to-day that he will arrive in Los Angeles on February 16, and then begin a long hunting trip. The boilermaker's tour with his athletic combination will end by that time, and the pugilist will then have more than four months to spend before the day rolls around for his battle with Johnson.

Jeffries has made nearly $60,000 clear out of his present engagement, while his profits last year came close to $100,000. Therefore by means of public exhibitions Jeffries is telling his friends he will never have to worry over financial matters again.

Jeffries' first training effort will be to test his wind, which is deficient.

WILL BE TWO SCHEDULES.

National League Will Choose Between 154 and 168 Games.

Pittsburg, Pa., January 27. — There will be two schedules submitted to the National League next month, one for a 154 game season and another for a 168. The baseball folk, all but the members of the schedule committees, left last night. The protracted session of the committee is caused by the arduous work of dovetailing the 168 with the American League's 154 game schedule, so as to avoid conflicting dates.

Official scorers here entered strong protests against the wild pitch and passed ball ruling under the revised rules, and the committee met yesterday and rescinded it. It was pointed out that the battery men handled the ball scores of times more than any other players on the team.

British Rugby Tour.

London, January 27.—The hope is expressed that the Rugby Union will take up Canada's request for an English Rugby tour.

SHERBROOKE BEAT THREE RIVERS BADLY

Special to The Montreal Star.

Sherbrooke, Que., January 27.—The Sherbrooke hockey team defeated Three Rivers team in the St. Lawrence League by a score of 11 to 5, after one of the best games seen here this season.

The ice was in condition for fast hockey, and from the moment the whistle blew play was very fast. Inside of a few minutes Sherbrooke scored the first two goals, the Sherbrooke forwards proving faster than their opponents.

Baker, for the Sherbrookes, starred in the first half, and his rushes were responsible for the score of 7 to 3 at half-time.

The second half opened with Three Rivers playing a defence game, and but for the phenomenal work of Michaud, the Three Rivers' goaler, the score would have been much larger, as the rubber lurked around Three Rivers' net during the greater part of this half.

The visitors' defence played a great game, but the forwards were outclassed by the Sherbrooke forwards. In the second half, Gerald Wiggett, a new find for Sherbrooke, played a whirlwind game, with the result that the score at the finish stood: Sherbrooke, 14; Three Rivers, 5.

Minor penalties were numerous, but the game was one of the cleanest ever seen here. The following is the line-up:

Three Rivers.		Sherbrooke.
Michaud	goal	Arguin
N. Wigget	point	Baptist
Baptist	cover point	H. Hyndman
Dostaler	forward	G. Wiggett
F. Malone	forward	Baker
Oliver	forward	Payan
Guay	forward	L. Hyndman

Mr. C. Spafford, as referee, and Mr. Baptist, as judge of play, handled the match to the satisfaction of all.

McGILL READY FOR QUEEN'S.

Will Soon Be Some Changes on the Team.

There will likely be some changes on the McGill line up soon. Some of the men who have been backward, have been threatened by the executives who are working hard to get together a snappy bunch of players.

Queen's and McGill meet at the Victoria rink on Friday night and this match should provide a feature in amateur hockey. The professionals may be able to show something in stick handling ability, but they cannot produce anything better physically than the college men and that should provide a feature worth the attention of hockey fans.

The McGill line-up will likely be:—Woodgadt, goal; Cassils, point; Mosley, cover; Wilson, rover; Thompson, centre; Hughes and Sargeant, wings.

Mr. Rod Kennedy will likely handle the game.

OTTAWA TO HOLD ICE MEET.

Entries From United States More Numerous This Year.

Ottawa, January 27. — The twelfth annual meeting of the Central Canada Ice Racing Association will take place on the Ottawa river from January 29th to February 5th.

The past week has brought a great influx of trotters and pacers from outside points, the entries for both the class and stake races breaking all records.

Starter Frank Upton and Judge John King, both Grand Circuit officials, will arrive to-day.

The six class races have been filled, also the eight stake events. Saturday will be confined to local races. The Eel has been barred from the free-for-all. Owing to the enforcement of the anti-betting laws in the United States a great number of American horses have been entered.

Kelly as Referee for Bout.

Augusta, Ga., January 27.—"Honest John" Kelly, who is here at a hotel, says he has been invited to act as the referee in the Johnson-Jeffries fight, and that it is quite likely that he will accept.

A BIG SWIMMING MEET ON SATURDAY

The Intercollegiate swimming and diving meet which is to be held at the Laurentian Baths on Saturday afternoon at 2.45 will be the first of its kind.

Besides the swimming and diving competitions there is to be a water-polo game between the men representing both McGill and Toronto, who are sending down ten men to the meet. McGill's team will be composed of the following men:—Tengelly, de Harte, Macrae, Young, Kerby and Williams.

Mr. J. S. M. Dougal has presented a handsome silver cup to the committee, which will be won by the team scoring the greatest number of points which will be: 5 for a win, 3 for a second, and 1 for a third, and to be held for one year, the competition to take place annually. The competition will likely be very close as the visitors' times at their sports which they held a short time ago have been compared with McGill's times and are very similar.

The officials for the meet will be: Referee, Dr. H. Barnes. Judges, Messrs. D. Crutchlow, M.A.A.A.; L. Norris, Y. M.C.A. and G. Moore. Starter, Mr. H.S. Mathews. Timers, Messrs. T. Y. Foster, M.A.A.A., and Prof. C. H. McLeod. Judge of diving, Mr. C. Golden, M.S. C. Clerks of the course, Messrs. J. K. Wyman and D. Baird.

LACHINE BOATING CLUB MEET

Annual Meeting at the Windsor Last Night.

The Lachine Boating and Canoeing Club held their annual meeting in the Windsor Hotel last night under the presidency of Mr. W. D. Birchall. A large number of members attended.

The treasurer's and secretary's reports showed that the affairs of the club were in a satisfactory condition. It was announced that Charles Stephenson, the Harvard coach, will again be with the club.

The following officers were elected: Hon. presidents, Sir Edward Clouston, R. Bickerdike, M.P., F. D. Monk, M.P., and Peter Lyall; president, W. D. Birchall; first vice-president, G. M. Bosworth; second vice-president, A. R. Doble; secretary E. R. Coleman; treasurer, R. G. Dawson; auditor, Gordon C. W. Ross; rowing captain, L. A. Johnston; paddling captain, Gordon Davidson. Committee, R. F. Howard, Duncan Campbell, George Weldon, B M. Watson and W. G. Scully.

WESTMOUNT-GRAND MERE.

Leave Saturday to Play the Fourth Game.

Westmount Hockey Club will run a special car by the Canadian Northern Railway, leaving at 9 a.m. Saturday, returning Sunday a.m.

All friends wishing to accompany the team may do so by notifying the secretary, Ed. J. Darling, 121 St. Francois Xavier street, at the special rate of $2.85 return.

Bryce Pennell, the president, will accompany the team. Westmount's team will be picked from the following players just before they go on the ice: Armstrong, Smith, Cornell, Ritchie, Norton, Boyce, Newton, Bolt, Duckett.

Messrs. Reg. Percival and W. Chipchase will be the officials.

Races at Victoria Rink.

The fourth series of the skating races, which are being held by the Canadian Amateur Skating Association, will be held at the Victoria Rink on Saturday night at 9 o'clock. Two races will be run, a half mile for boys under 14 years; and a one mile for boys under 16 years.

As these races are for the city championship, a large list of entries is expected.

"FULL OF QUALITY" NOBLEMEN CIGARS S. DAVIS & SONS LIMITED

Preparing and Doing

Washington Irving tells a story of a man who tried to jump over a hill. He went back so far to get a good start, and ran so hard to get up momentum, that he was fagged out when he came to the hill, and had to stop to rest. Then he walked over the hill.

Some people spend their lives getting ready to do something which they never do. We have spent our lives studying tobacco in order to make finer and finer cigars—and we make them.

"NOBLEMEN," our famous two-for-a-quarter brand, is a pure, hand made Cuban cigar that has the size and weight and delightful fragrance of any imported brand at double the price.

"NOBLEMEN" size, 2 for a Quarter.
"PANETELAS" size, 10c straight.

RUPTURE

A BREEDING PLACE FOR

TYPHOID

Rupture being a displacement of the bowels and typhoid fever being a diseased condition of the bowels, it can readily be understood why the ruptured man, woman or child is more liable to the attacks of typhoid fever than a person physically sound. Seventy-five per cent. of those afflicted with rupture or hernia do not know what a rupture really is. If they did they would not waste money and endanger their lives in adopting methods alleged to relieve rupture, but which are bound to be useless or harmful because unscientific and applied by persons who are ignorant of the requirements necessary to make a success. The word rupture is a misnomer, an incorrect term, and a misleading one, anything that is really ruptured is broken, such as a torn balloon. The word in its physiological sense implies torn tissue, an actual unnatural hole or break in the abdominal walls. But as a matter of fact, excepting as a result of operation, rupture or hernia is merely a dislocation of a portion of the internal organs, permitted to bulge beyond their natural boundaries by weakness of the muscles designed to keep them in place. The point I wish to impress upon you is that ordinarily rupture is no actual tear or break; some weakened membrane or muscle yields to pressure, and lacks the elastic strength necessary to return to its proper shape and position. All muscles, tissue, membrane and skin of the body are elastic—that is, when in a healthy condition. If forcibly moved, pushed or pulled from their normal or correct position, they will return to it, when the displacing force is removed. Pull your cheek or the skin on any part of your hand or body and note their elasticity. Thus, knowing the true cause of rupture, and having discovered many secrets in connection with this menacing affliction (known only to myself), and knowing nature is as true to herself in healing rupture as she is in any other affliction, and that nature will cure you if you give her the right kind of assistance, I have, after 40 years of experience, discovered and perfected the right kind of assistance that aids nature to cure rupture to stay cured, and I want you to use it, and thus end all common torture, truss-wearing and danger of strangulation forever. No matter whether you have a single or double rupture or one following an operation; no matter what your age or how hard you work, my method will certainly give you new lease of life and renewed energy without pain or losing one day's work. I especially want apparently hopeless cases, where all forms of trusses, treatments and operations have failed. I want to show every one that my method will end all rupture suffering and common truss-wearing. Consult me before you decide to waste any more time experimenting elsewhere. I can render you services which you cannot obtain from any other person.

THE LITTLE GENTLEMAN.

One of the most interesting characters in modern literature is Oliver Wendell Holmes's Little Gentleman, otherwise, "Little Boston," so called by his fellow-boarders because of his propensity for boring them and amusing them at the breakfast table by his enthusiasm for Boston, Mass.

"Were you born in Boston, Sir?" said the little man—looking eager and excited.

"I was not," I replied.

"It's a pity,—it's a pity," said the little man: "it's the place to be born in. But if you can't fix it so as to be born here you can come and live here."

It's a pity, it's a pity, that some of us Montrealers who fixed it to be born here and some who had the good taste to come and live here have not more of this spirit of citizenship. Ruskin says: "The largest soul of any country is altogether its own. Not the citizen of the world but of his own city,—nay for the best men, you may say, of his own village." The good burgesses of Toronto are almost sinfully proud of being Torontonians; and when you run down St. Lambert, in talking to a St. Lambert man, you do it at your own most serious risk. There are various kinds of civic pride. The Edinburgh man is proud of Edinburgh for its beauty. The Glasgow man is proud of Glasgow on account of its efficient administration. "Little Boston" was proud of Boston, Mass., chiefly on account of the Bostonians it had produced. The New Yorker is proud of New York for its wealth. The Londoner is not exactly proud of being a Londoner but he rather pities people who are not so blessed. For him there are just two places in the world, London and all the rest of the earth. The superiority of the former is too obvious, too matter of fact, for him to brag about. He can understand, he can tolerate, he can pity people who neither fixed it to be born there nor had the good taste to go there to live. In this connection, curiously enough, the average Londoner is not sinfully proud of having been born within the sound of Bow bells.

If there is any city on earth, the citizens of which might take legitimate pride in their citizenship, it is Montreal—Ville Marie. Beautiful almost beyond compare for situation, with its heroic and glorious past, with its infinite possibilities for the future, with the potentiality of two of the greatest cities on earth (for it might be the Paris as well as the London of America), what is the reason that among the four hundred thousand residents of Montreal, there are not nearly four hundred thousand enthusiastic Montrealers? Men who will think and talk of Montreal as "Little Boston" thought and talked of Boston, Mass? The Twentieth Century belongs to Montreal if it belongs to any city on earth, if Montrealers would only realize their opportunities.

Unquestionably, Montreal's great handicap in recent years, and the thing which has fallen like a wet blanket upon the flame of its civic enthusiasm, has been its absolutely corrupt civic administration. The term is not too strong. Some thoughtless pessimists blame its diversified population. That idea we regard as the merest rubbish. Intelligently utilized, our diversified population would make Montreal the most attractive city in America, as Paris is the most attractive city in Europe. The difference between nearly all the great cities of the northern States and Canada is mainly a difference in size and geography. There is only one Quebec and there is only one Montreal. We have the latter; what are we going to do with it? We must assert our citizenship; we must resent as the foulest treachery every attempt to destroy the civic enthusiasm of any section; and we must purify our civic administration. It is of no use for us to pretend to ignore what is patent to everybody, abroad and at home, including ourselves; that Montreal has for years been under the municipal control of a gang of thieves who have kept themselves in power by setting race against race and section against section. We cannot take any legitimate pride in civic Montreal until that trouble is overcome. The axiom that "patriotism is the last refuge of a scoundrel" is probably much older than Dr. Johnson. Patriotism has got beyond that in Montreal; it is the first recourse of every scoundrel with a purse to fill or a personal ambition to gratify.

For the sake of our home city, of Canada's mother city, let us rise superior to such rubbishy prejudices and follies. The great thing, the thing of paramount importance, is to purify our civic administration. Surely even from the most sordid point of view, the experiment of a few years' honest administration is worth trying. The grafters laugh at the innocence or the folly of the electors who, at their own great expense, keep them in office. The people of Montreal have now their first, and probably for many years their last, opportunity to make a clean sweep of the grafters. Judge Cannon moderately estimated the city's loss by graft at twenty-five per cent. of its revenue. Our impression is that if even seventy-five per cent. of the revenue were spent intelligently and honestly, Montreal would become a better, healthier and pleasanter city to live in.

We have not much sympathy with the idea a la Christian Science, that there is any virtue or any sense in pretending the non-existence of a disease in the body politic. "You haven't got typhoid fever, you only think you have got it," may be as good mental therapeutics as it is bad grammar applied to the individual patient. But if a city is suffering from typhoid, bad water, or graft, the best policy is to correctly diagnose the case and promptly apply whatever remedy is available. Montreal is getting over the typhoid; it is still suffering from the graft which is the indirect cause of that and most of its troubles. If our people will rise to their opportunity, they may be as proud of Montreal as "Little Boston" was of Boston, Mass.

THE LATE DR. BROWNE.

By the death of Dr. A. A. Browne, yesterday, Montreal has been made the poorer through the loss of a citizen whose public and private life meant the putting in practice of that highest of all ideals—service to others. Eminent and highly successful as a physician, he was modest and even humble in his estimate of his own abilities and his own accomplishments. No man in the medical profession ever endeared himself more to his patients than did Dr. Browne. He was the faithful family physician, the true friend, and the painstaking counsellor. One of the most guileless of men, to whom any idea of self-aggrandizement was not only repugnant but unthinkable, he was no less esteemed and beloved by his confreres than by his patients. A lover of "the good, the true, and the beautiful," whether in pictures, in poetry, or in nature, he was pre-eminently just in his attitude towards the persons and problems with whom his busy career brought him in daily contact. He was never dogmatic, yet his well known love for "fair play" and his keen penetration commanded an attentive hearing whenever he expressed an opinion on any subject. Dr. Browne was a man whose career, whose example, and whose kindness of heart has left its impress on his fellows. He will be remembered for long years to come as a model citizen, a skilful physician, and a kind friend. Many hearts are sore to-day because of his loss.

THE NEXT BRITISH PARLIAMENT.

The latest forecast, from impartial British sources, is that, when Parliament assembles, the Unionists will number between 285 and 295 members. There are only some sixty constituencies remaining to be heard from and the results in them may probably be fairly accurately predicted: if Mr. Balfour carries half, he will have 285 supporters in the next House. It seems, consequently, to be already certain that Mr. Asquith must rely on his Laborite and Nationalist allies for a majority. If the out-and-out Liberals number 265, which seems to be a reasonable estimate, they will have to borrow twenty or twenty-five votes before they can equalize the Unionists: supposing the Laborites support to be unanimous and consistent, the dual coalition majority will be in the neighborhood of fifteen or twenty, still leaving the solid block of Nationalists to abstain from voting on British measures without, by so doing, preventing the passage of such Government proposals as do not meet their active disapproval.

TRADE WITH NEWFOUNDLAND.

Mr. J. E. Ray, the Canadian trade commissioner in Newfoundland, has prepared a special report to show the opportunities for the growth of Canadian exports to the Ancient Colony. He emphasizes the development of our trade with the Island Colony during the last twenty years, during which we have risen from second to first position, and supply $4,200,000 out of $11,500,000 imports. In the early part of the double decade our chief competitor was the Mother Country; but now it is the United States, whose trade has grown nearly as rapidly as our own. Mr. Ray points out that, while the population is now only 235,000, a large increase is certain within the next decade owing to the rapid development of the pulp and paper industry. Newfoundland is a market well worth careful cultivation by our manufacturers and traders. Our success in the past is an earnest of success in the future, if we continue our efforts with energy and intelligence.

The Passing Hour

There are some bad $1,000 bills afloat. Be careful to watch your change.

A New Thought writer says female beauty no longer attracts men. Still we wouldn't advise the proprietors of the chaste performance at the Royal to select gargoyles for chorus maidens.

Yes, food comes high, especially when fed into a girlie in an after-theatre supper, while the family gets porkless beans.

Most that some Board of Control candidates will get will be sympathy.

Britain better rush along her Dreadnoughts and secure peace at any price.

The mayoralty candidates have given up the party cotillion for the war dance.

A mirror can't lie, but many a woman interprets it falsely.

Even a man with sense can prove he hasn't any when he makes a speech.

Let every man going to that 13 fire station excursion be searched to make sure there is not a foot rule in the party.

Faith will move mountains, and sometimes it even puts up a bluff.

"Ever been locked up?" demanded the counsel.

"I have been," admitted the witness.

"Aha! And what had you been doing to get yourself locked up?"

"I had been doing jury duty."

A married man brags more about it in the first six months than all the rest of his life.

It makes a fellow hot to think what a cold, cruel world this is.

"Before we were married you said my face was a poem."

"I know I did; but since it has become necessary for me to support you, I seem to have lost my taste for poetry."

Opportunity seldom calls when we are all dressed and waiting for it.

"Did you remember what I told you about being kind to dumb animals?" asked the teacher.

Expansion.

"So your wife is a Suffragette?"

"Yes," answered Mr. Meekton.

"Why does she want to vote?"

"I don't think Henrietta really desires to vote. She's merely tired of talking to me. She wants a larger and more intelligent audience."—Washington Star.

Alderman Giroux is dismissing the Cannon report with a shrug of his shoulders, and an airy wave of his hands, but this is not going to prevent the Cannon report from going a long way towards dimissing Alderman Giroux without the need of gestures.

FROM THE STAR FILES THIRTY YEARS AGO TODAY

"Yesterday evening there was celebrated in the University buildings the "Founder's Festival," an event commemorative of the founder of McGill. The fete was under the care of the Graduates' Society, assisted by committees from the faculties of law, medicine and science. Among the guests present were representatives of the various educational institutions in the city. The committees of arrangement were: Graduates' Society—Messrs. C. J. Fleet, C. H. McLeod, M.E., H. Lyman, B.A., C. H. Gould, B.A., and Drs. A. W. Imrie and R. Macdonell. Faculty of medicine—Messrs. Stevens and Henderson. Science—Messrs. Burland and Robertson, and law, Messrs. Redpath, Dugas and McLennan."—From the Montreal Star, January 27, 1880.

Prof. C. H. McLeod.

PROF. Clement Henry McLeod, professor of geodesy and surveying, was appointed vice-dean of the faculty of applied science at McGill University. He was born in Cape Breton, and was educated at the Model and Normal Schools of Truro, N. S.; graduated in applied science at McGill University in 1873, and was resident engineer on construction of P. E. I. Railway, and afterwards Engineer of Public Works, Newfoundland. His work at McGill has principally been astronomical in character, and he is connected with many of the learned bodies of Canada, including the Royal Society of Canada and the Canadian Society of Civil Engineers. In scientific literature he is the author of "The Transit of Venus," 1882, and a redetermination of the longitude of Montreal and Cambridge, and Greenwich and Toronto. His activity in athletics has brought him into close contact with the students.

"The Italian double-turreted ironclad Duilio, the most powerful war vessel in the world, on Saturday gave fourteen knots per hour, working at six-sevenths of her full capacity. It is expected she will attain fifteen knots per hour. Her performance greatly exceeds recent estimates. The armament consists of four 100-ton Armstrong guns, 33 feet long, firing a projectile 2500 lbs. in weight, with charges of 350 lbs. of powder. She has also a powerful ram and torpedo-boat."—From the Montreal Star, January 27, 1880.

THIRTY years ago the Duilio was the last word in naval construction, and the cynosure of naval eyes; to-day she would be useless when opposed to modern warships with a speed of 25 knots per hour, guns 50 feet long, and powder charges of 850 to 1100 lbs., and the last word has probably not been said yet.

"Her von Hagen," an admirer of Wawner, is writing a commentary on the composer's poems. Two volumes have appeared. It is calculated that the commentary on the "Rheingold" will require eighty large volumes, and that they will be finished about the year 2199."—From the Montreal Star, January 27, 1880.

FUTURE generations, when reading The Star, it is to be hoped, will appreciate the time and labor that has been bestowed on this work. The occasional visit of comets evidently did not disturb the calculation of Herr von Hagen.

Will Have Military Pageant.

Special to The Montreal Star.

Toronto, Ont., January 27.—Pageants depicting the great military events in the history of Canada will be the feature of the semi-centennial celebration of the Queen's Own Rifles next June, being organized by Col. Sir H. M. Pellatt, and a committee of the regiment.

J. Henderson, of London, England, who has charge of the Diamond Jubilee parade in London in 1897, has been secured to conduct them, and already has arrived to begin preparations.

THE FRENCH IN ONTARIO.

A correspondent, who had been following the course of the French-Canadian convention at Ottawa, writes:

"In 1871 there were 1,327,260 Irish, English and Scotch (British) in Ontario. Thirty years afterward, at the last census (1901), there were 1,725,275 of them. Of the French, on the other hand, there were 75,383 in 1871, while in 1901 there were 158,671, and this year approximately 220,000 of them. In the thirty years between 1871 and 1901 the British population increased about 30 per cent.; the French population 110 per cent. The French have fast been spilling over into Ontario from Quebec to take the place of the English who are leaving Ontario for the West. In the counties along the Ottawa, along the St. Lawrence, even as far west as Kingston, the French people have been moving. Every year the proportion of the French to the English becomes greater."

ERINDALE, ONT.—Alfred Adamson is dead, in his 82nd year.

BOTH PARTIES PREPARING FOR ANOTHER ELECTION

Organizers Instructed to Maintain Unceasing Vigilance in Readiness for It.

Associated Press.

London, January 27.—The combined strength of the Liberal, Labor, and Nationalist coalition has reached 345 last night, or more than half the number of members of the House of Commons. A Unionist Government, therefore, is out of the question, and the only point still undecided is the exact strength of the coalition majority. But as an independent Liberal majority is equally out of the question, only a short life can be predicted for the incoming Government, and, as a matter of fact, both the Liberal and Unionist parties are looking away from the present struggle into the not distant future, when the conflict at the polling booths will be renewed.

The party organizers have already been instructed to keep up unceasing vigilance, and to be prepared for an appeal to the country at any moment. There is no doubt that the success of the Conservatives has been largely due to the constant education of the agricultural voters in the virtues of tariff reform, and this education will now be carried into the northern counties and Scotland, in the hope of winning these territories at the next elections. The Liberals, on the other hand, will concentrate their attention on educating the country on the questions of free trade and the limitation of the veto of the House of Lords.

As an example of the difficulties facing the Government at the coming session, apart from the House of Lords and the budget, it is probable that the Labor party will introduce its "right to work" bill which the Government introduced last session. This might easily lead to the defeat of the ministry and to another dissolution.

With the return of Premier Asquith and War Minister Haldane, all the Cabinet Ministers have now been re-elected.

O'Connor on the Situation.

T. P. O'Connor, president of the United Irish League of Great Britain, in speaking of the next Parliament and the policy and influence of the Nationalists, yesterday said:—

"It is absurd to contend that the Liberal Ministry cannot hold office with a considerable majority because a portion of that majority must be Nationalists. Nationalist members before now have put Conservative Ministries in power, notably in 1885, and Irish members of Unionist opinions have helped to make Conservative majorities several times. Is an Irish vote to count equal with an English vote when it is Unionist and not when it is Nationalist?

"It is ridiculously contrary to the facts to suggest that the policy of the Irish party will be dictated from America and by those who are called American paymasters. The people of our race in America who subscribe so generously to our funds attach no conditions to their gifts, which are the outcome of their love for the motherland and an ardent desire to improve her condition.

"They take the position that it is not for them but for the men on the spot to choose the party's policy and they have confidence in the judgment and patriotism of the Irish party as

Lord Winterton, M.P., successful Unionist candidate in Horsham, Essex.

well as in the leadership of John Redmond. It was from such men only that I received or would have accepted the large sum which it was aimed to raise during my recent visit to the United States."

Unionists to Maintain Union.

Canadian Associated Press.

London, January 27.—Austen Chamberlain, speaking last night at Selly Oak, declared that the Unionists would not yield one jot in the determination to maintain the union, even if all the Irish votes could be had for the asking. He added that the Irish would be protectionists if they had a separate Parliament.

Churchill on Protection.

Canadian Associated Press.

London, January 27.—Speaking in Branksome, Mr. Winston Churchill asked what good it was to make the great colonies associated in the minds of the people with taxes on bread and meat. The Chancellor of the Exchequer in the future, under such a system, might on the one hand have taxes which could not be removed without a colonial conference, and on the other, the demand of hungry people for food. If that terrible eve ever occurs, then the Empire would be in direst peril.

Yesterday's Final Returns.

LANCASHIRE.

LEIGH.—T. W. Raffan, Liberal, 8,336; F. Cuthbert Smith, Unionist, 4,646; T. Greenall, Labor, 3,268. Liberal majority, 679. No change.

UP TO MR. ASQUITH TO SQUARE THINGS WITH THE IRISH

This is Impression in New York Press—Facts Cited Supporting It.

Special to The Montreal Star.

New York, January 27.—The Sun says editorially: Neither side will care for another test of strength immediately, and the question that interests England now is what will happen when Parliament meets.

That Mr. Asquith will try in earnest to keep in full the promises made before election to the Irish leaders is hardly probable, even with his pressing need of Nationalist votes. Any measure involving real Home Rule would deprive him of the support of many Liberals, probably enough to wipe out entirely his Irish majority. Can he devise such relief for Ireland as will hold his own party together and at the same time prove acceptable to the Nationalists, with Home Rule left out? Can his offering be greater

Right Hon. Sir Alexander F. Ackland-Hood, M.P., re-elected for Wellington (Somerset.)

than what the Unionists might be willing to concede to win over the votes that would put them in power?

SEVEN INDEPENDENT IRISH NATIONALISTS.

Special to The Montreal Star.

New York, January 27.—The Herald's London correspondent says: The last two days have been less unfavorable to the Liberals than they themselves expected, while Mr. Asquith's return by a considerably increased majority has given them renewed heart. Also, Walthamstow, which had been considered a very doubtful constituency, has remained faithful to Liberalism.

A new feature has developed in the return of seven independent Irish Nationalists, who are opposed to Redmond. The effect of this will be to make him less inclined to compromise, so as not to jeopardise his position with the Irish electors. This is a development which is distinctly unfavorable to the prospects of the Liberal party.

Another distinctive feature of the elections is the striking division of opinion between industrial centres and agricultural districts, which has shown itself consistently throughout the entire election.

UNIONISTS MAY WIN ANOTHER IRISH SEAT.

Special to The Montreal Star.

New York, January 27. — The Tribune's London correspondent says: The coalition passed the half-way line yesterday, and went ten points beyond it, when deferred results were declared and the coalition had 345 seats.

It is a somewhat remarkable circumstance that while several minor members of the Government have come to grief at the polls, all the Cabinet Ministers have now been successful. The Unionists expect to win another Government seat in Ireland today, as Redmond John Barry, the Irish Solicitor-General, only held North Tyrone in the last election by 7. The Nationalist vote is believed to have gone solidly in his favor, but the Presbyterian farmers, knowing that the Liberal Government is definitely committed to Home Rule, have probably supported the Unionist candidate in sufficient numbers to turn the balance.

NOTTINGHAMSHIRE.

RUSHCLIFFE—J. E. Ellis, Liberal, re-elected, 9,942; Coningsby Disraeli, Unionist, 7,098. Liberal majority, 2,844. No change.

HIGH PRICE OF MEAT CAUSE OF BOYCOTT IN UNITED STATES

Prices in Montreal Have Gone Up Five Cents a Pound in the Past Few Years.

The remarkable wave of public opinion in the southern, western and eastern portions of the United States in connection with the advanced prices of meats of all kinds, bids fair to extend to Montreal and other parts of Canada at a date not far distant.

The practical end of the battle against the prices now charged by the retailers as a direct result of the trust in the United States has taken the form of a boycott and in dozens of cities thousands of people have pledged themselves not to eat meat for thirty days; others agree to meat twice a week and in some cities the slogan is "meat for us just once a week."

In many cities the boycott has resulted in the prices coming down three, four or five cents a pound. This is particularly the case in the western cities, where meatless menus at the hotels, boarding houses and private houses have been the vogue for the past few weeks.

In the speech from the throne at the opening of the Legislative Assembly of Ontario yesterday the question was referred to, and it was remarked that the remarkable and continuous advance in prices of foodstuffs should be taken cognizance of by the Dominion Government, and that a proper enquiry should be held at once.

In Montreal within the past three years the price of all meats has increased about five cents a pound. Where beef could be bought for thirteen cents a pound it is now eighteen; pork that was fourteen is now twenty and so on throughout the long list.

But beef, pork and mutton do not appear on the menus of the hotels and home bills of fare in the cities where the boycott is on. Here is a sample menu:—

Cream of Spinach Soup.
Broiled Whitefish, Maitri de Hotel Sauce.
Fried Jack Salmon, Tomato Sauce.
California Asparagus on Toast, Hollandaise Sauce.
Oyster Patties a la Keine.
Stuffed Green Peppers dux Call.
Baked Marcaroni au Roumain.
Spaghetti Italian.
Boston Baked Beans. Vegetables.
Mashed, Boiled and Brown Potatoes.
Carrots and Peas.
Fried Hominy.
Pineapple Pudding.
Vanilla Ice Cream. Pie.

The United States boycotts are in every case bearing fruit in the shape of lower prices.

The only way to be sure that your vote will be registered against the "gang" that hopes to continue to fatten through graft and corruption at the City Hall, is to vote for the four Board of Control candidates whose backers are as well known as their records. The Citizens' Committee has nothing to fight for except the city's interest.

Rt. Hon. Richard Haldane, Liberal M.P. for Haddington, returned.

NEWFOUNDLAND ORE TAX.

Speech From Throne Announces Royalty on Iron Ores.

St. John's, Nfld., January 27.—A new and important source of revenue was announced in the speech from the throne read at the opening session of the Newfoundland Legislature yesterday.

The Government has made an arrangement with a number of Canadian mining companies which carry on operations in the hematite mines at Belle Island, whereby the colony will receive a royalty of 7½ cents a ton of the gross output, which averages 1,000,000 tons annually.

Brampton Local Option Fight.

Special to The Montreal Star.

Brampton, January 27.—The result of the recount of the vote on local option is still in doubt. The opponents of the by-law claim that a number of voters were not properly qualified, but the supporters claim that they cannot invalidate anything like the twenty-two votes necessary to defeat the by-law.

The matter was adjourned until February 6.

SEWER GAS EXPLOSION WRECKED STREET CAR

Conductor Injured by Flying Iron — Accident Caused Excitement in Outremont.

A gas explosion in Outremont wrecked a street car, blew a sewer manhole cover 50 feet in the air, and brought all the near-by inhabitants out in their night apparel. Conductor Aubin is now confined to his home owing to the extent of his injuries.

Outremont car No. 690 was turning on the "Y" at the juncture of St. Catherine and Bellingham roads, at 10.15 p.m. on Tuesday night, when a quantity of gas that had collected in the sewer from a near-by manhole ignited. All the windows in the car were dashed in, and the heavy cast-iron man-hole cover shot up into the air like a cannon ball. The conductor and motorman were thrown down and flying glass entered the hands and arms of Aubin. He was immediately removed to his home. The iron frame work, after travelling through the air for some distance, fell into the yard of a house on Ct. Catherine road. It narrowly missed the heads of the people who had been attracted there by the loud report.

Officers of the power company had been making repairs in the neighborhood, and it is assumed that a leak, which they were trying to locate, led into the sewer. The search party's light probably ignited the gas.

FIGHTS IN STREETS GROWING SERIOUS

Montreal Police Unable to Quell Disturbances in Foreign Quarters of the City.

Uprisings among the foreign elements of the city, and especially among the Italian section have grown to such an extent during the past few weeks, that they are now of almost daily occurrance, and the police seem to be unable to cope with them.

One reason given by the police for the disturbances is that one band of foreigners work up a quarrel with those on some other street or section of the city. Another reason, is that most of the foreigners spend the greater part of the year in the west on railway construction, and that they return to Montreal in the fall with their summers earnings, amounting from $200 to $500.

This means that they are idle during the winter months and arguments crop up while they are loafing, and immediately there is a free fight.

As a result of a row on Craig street Saturday last one man is at present in jail waiting on a charge of attempted murder, two more are being held as witnesses. Three were so badly cut up in a row on Monday that they had to be removed to Notre Dame Hospital, and last night Augustine Poce, was arrested by Constables Corbett and Lacasse, on a charge of drawing a knife on the constables. He pleaded not guilty and trial was fixed for to-morrow.

STRATHCONA OFFERS USE OF RESIDENCE

For Accommodation of Delegates to the Eucharistic Congress in Montreal.

His Grace, Archbishop Bruchesi, is in receipt of a cablegram from Lord Strathcona offering the use of the latter's residence on Dorchester street west, during the Eucharistic Congress. His Grace may utilize the house either for his personal use or for that of his guests.

The dwelling contains many rare art treasures, and is one of the most sumptuously furnished in Montreal. The Duke and Duchess of York were the guests, of Lord Strathcona there, during their stay in Montreal. All the Governor-Generals of Canada, during recent years, have also stayed there as guests.

FINE OF $50 OR THREE MONTHS IN JAIL FOR A VENDOR OF OPIUM.

Hum Hou 116 St. Urbain street, who was arrested in a night raid by Morality Inspector O'Keefe, on a charge of selling opium, pleaded guilty before Judge Lect in the Arraignment Court, and was fined $50 or three months.

The Late Mr. Jas. McGoun.

The funeral of the late Mr. James McGoun took place from his residence, No. 332 Wood avenue, yesterday afternoon, a large number of friends paying their last respects to the deceased. The service at the house was conducted by the Rev. E. W. Dickie, pastor of Crescent Street Presbyterian Church. The chief mourners were Mr. Norval McGoun, son of the deceased, his four brothers, Mr. Archibald McGoun, K.C.; Mr. William McGoun, Mr. D. M. McGoun, Mr. George McGoun, and Mr. A. A. McKergow, son-in-law.

Ald. Carter on Civic Administration.

Ald. Carter will give an address on "Civic Administration, past and future," this evening at eight o'clock in All Saints' Church school room, at the corner of St. Denis and Mary Anne streets.

Saw Both Comet and Rainbow.

Moose Jaw, January 27.—The new comet was seen here last night. The new celestial visitor must, however, be regarded as a second-class wonder in comparison with the beautiful rainbow which stretched entirely across the horizon here this afternoon.

Will Oppose Senator Choquette.

Quebec, Jan. 27. — Alderman Nap. Drouin has finally decided to be a candidate for the mayoralty of Quebec in opposition to Senator Choquette.

EXAGGERATED TIME GIVEN TO BRIDGE

So Says Governor-General in Speech on Abuse of Social Amusements.

Special to The Montreal Star.

Quebec, January 27.—"Bridge" was one of the subjects touched upon by Earl Grey yesterday, in his address before the Woman's Club of Quebec. He said that Women's Clubs created a useful diversion in the social world, where amusements, innocent in themselves, but too absorbing were much in vogue. Exaggerated time was given to "Bridge," which was tyrannical enough to seek to devour all the leisure moments of the ladies.

He did not wish to speak against cards, believing that in small doses they were an amiable distraction from the pre-occupations of which we were more or less the victims. But "Bridge" morning, noon and night, as it was played in certain circles became an abuse against which Women's Clubs were called to employ their influence.

Once again, he did not wish to speak against cards. But he desired them as a recreation, and not as an occupation. He was rather of Talleyrand's opinion, who pretended that to ignore whist was to prepare a sad old age.

Professor V. Raynolds Dead.

New York, January 27.—Professor Edward Villette Raymolds, of the Yale University Law School, died from pneumonia at the Hotel Belmont last night.

Prof. Raynolds was born in Grand Rapids, Mich., about 61 years ago, and was graduated from Sheffield Scientific School in 1880. He took his degree of Bachelor of Laws at Columbia in 1882, and in 1884 received the degree of Master of Laws from the Yale Law School, and the degree of Doctor of Civil Law the year following.

Prof. Raynolds was twice married, his first wife dying several years ago. His second wife was Mrs. Thomas Harris, of Toronto, Ont., whom he married a few days ago.

Must Install Sewage System.

Edmonton, January 27.—It has been made imperative by an important order just issued by the Provincial Board of Health that all municipalities in the Province shall have proper and satisfactory sewage disposal systems installed before December 31. The order practically necessitates the expenditure of close upon $2,000,000.

Want Experimental Sheep Farm.

Special to The Montreal Star.

New Glasgow, N.S., January 27.—At the meeting of the Nova Scotia Farmers' Association it was recommended that the Federal Government establish an experimental farm to test the value of raising sheep in Eastern Nova Scotia.

LABOR MEN MAY JOIN BOYCOTT ON HIGH PRICES

American Secretary of Agriculture Lays Some Blame on High Living.

Toronto, Ont., January 27.—Last night several labor unions discussed the movement to abstain from eating meat until the prices come down. Some retail butchers say they will join in the movement. So far but slow progress along the abstention lines is being made.

People Living Too High.

Philadelphia, Pa., January 27.—"It costs more to get the common necessities of life in the United States today than in any other country in the world," declared James Wilson, Secretary of Agriculture, in an address delivered before the Manufacturers' Club of this city.

"Some people," he said, "tell us that if we repeal the present tariff law to let in foreign products free of duty the present difficulty will cease. I do not believe it. Eggs are 35 cents a dozen in Canadian cities and 60 cents a dozen in some American cities. The duty is three cents a dozen. What difference would it make whether you took off that 3 cents or not?"

The secretary said he believed the American people are suffering at present not so much from the high cost of living, as from the cost of high living. His statement was:

"It has been said that the American is the best fed, best clothed and best educated and best housed man upon earth. We shall have to add now that he is the most expensively fed."

Secretary Wilson pointed out that the fundamental difficulty was that the people are leaving the farms to such an extent that there are not enough remaining to produce the food of the increasing population.

Farmers Boycott Too.

Frankfort, Kas., January 27.—Farmers in this vicinity have started a counter boycott against labor unions that have refused to eat meat and they expect to make it state-wide. The farmers plan to quit using the products of labor of boycotting unions for one year. In addition to this, they purpose to advocate free trade. Organizers of the movement aver that meat packers instigated the meat boycott.

We all know who is AGAINST the civic thieves and grafters in the impending fight. Do we know equally as well what candidates are FOR them; or who are willing to take advantage of their presence in the field? That is the situation in a nut-shell!

PERSONALS.

Miss I. Paley, of New York, is visiting friends in town.

Mrs. Doherty, Dorchester street, is giving a tea this afternoon.

Mrs. George Hyde, Pine avenue, is giving a house dance to-morrow evening.

The marriage of Miss Gertrude Skelton, daughter of Mr. F. C. Skelton, to Mr. G. Victor Motherwell, takes place at five o'clock this afternoo in St. George's Church.

The engagement is announced in Ottawa of Miss Dorothy Fletcher, youngest daughter of the late Dr. James Fletcher and of Mrs. Fletcher, to Mr. Richard Stuart Lake, M.P., of Grenfell, Sask., brother of Sir Percy Lake.

In St. George's Church, Toronto, yesterday, the marriage was quietly solemnized of Anne Grassett, youngest daughter of the late George Hagarty and Mrs. Hagarty, to Mr. S. Casey Wood, son of the Hon. S. C. and Mrs. Wood. The Rev. Wilmot Broughall, assisted by the rector, Canon Cayley, officiated. After the ceremony, Mrs. Hagarty held a reception for the relatives and a few intimate friends. Later Mr. and Mrs. Wood left for a trip through the Southern States.

Mrs. Sheldon Stephens, Drummond street, gave a highly successful tea yesterday afternoon for Mrs. Laurence de K. Stephens, who will hold a reception next week. The drawing-room was decorated with smilax and palms, and American beauty roses were used in the dining-room, where tea was served. An orchestra, stationed in the hall, played delightfully throughout the afternoon. Mrs. C. MacDougall and Mrs. Jack Ross presided at the tea table, assisted by a number of young ladies. The hostess was in a black gown with cut jet, and Mrs. L. Stephens was gowned in blue.

RECORDS OF THE "23"

ALD. DAGENAIS.

Ald. Dagenais has to face the responsibility before the electors of being one of those who tried, against all public protests, to give out a lot of contract work to the highest tenderers. Had the courts not intervened, the city would have lost an enormous sum by such a method of administration. It would be difficult for Ald. Dagenais to explain to those who elected him two years ago, why he constitutes one of the famous "23" that has brought such discredit on the fair name of Montreal.

Time and time again, during the past term, Ald. Robinson has assailed the Health Committee, of which Ald. Dagenais is chairman, for the atrocious manner in which the committee spent its appropriations. It was demonstrated in the most convincing manner, that goods and supplies had been bought at the most fancy prices. Every time Ald. Dagenais was asked to explain why the city's money should be expended in this way, he flew into a rage, and showed that he cared not a whit for public opinion.

During the dreadful typhoid epidemic that has besieged the city, this city father has done nothing but try to make the citizens believe that there was little or no typhoid; that the people were needlessly alarmed; that those who were dying were simply affected with a species of internal troubles which he did not give the name of, and that, in brief, things were not in bad shape at all.

Several months ago, when the city's experts analyzed the water supply, and made a report condemning it in the most forcible way, Ald. Dagenais informed the Health Committee that he would not have the report made public in the press. Meeting after meeting he stubbornly refused to let the people know the truth so that they might protect themselves against foul water. Finally, public opinion was so bitterly aroused over the action of Ald. Dagenais, that petitions were sent to the City Hall condemning the Czar-like manner this alderman was adopting, and demanding that the report immediately be made public. But even to appeals and denunciations such as these, Ald. Dagenais turned a deaf ear.

It was Ald. Dagenais who worked so hard with Ald. Giroux, a year ago, to overthrow the Finance Committee. The idea was to make Ald. Giroux leader of the City Council, and also to so fix the personnel of the Finance Committee that it would be sure to vote for the Giroux paving proposals. In voting for this unjust measure, Ald. Dagenais showed what he thought of the rights of the minority, by reducing the English representation on the committee. In other words, Ald. Sadler was dismissed from Finance, while Ald. Lavallee, another strong member was also got rid of. In their places were put two men who never have failed to vote for the Giroux reports.

In the beautiful deal, by which the corporation was compelled to buy two distinct sites in order to establish a corporation yard, Ald. Dagenais was one of those who fought for the project. The cost of the land was no less than ninety thousand dollars.

On another important division, where a large sum was to be spent on purchasing bricks, he voted against the reasonable proposal that the matter should be referred back to the city surveyor for a report; the contention had been raised that the price asked for the bricks was far higher than was right. When the snap vote was taken to accept "short weight" No. 13 station, it was noted that Ald. Dagenais was not in the Council Chamber. Why he was absent on such an important division he has not explained.

The truth is that Ald. Dagenais, ever since he has been in the Council, has voted in a manner to please himself. He has shown himself entirely indifferent to public opinion. This is one of the striking features of his whole character. He votes and acts in a way as if he personally owned the entire city, and that tax-payers had nothing whatever to do with his public actions. It has never been charged against him that he showed the least sympathy for a reform in the administration of the city.

How this alderman can declare he intends to appeal to the electorate again, with such a record as this, is past finding out. His attitude alone during the typhoid epidemic should be ample to result in his defeat.

ALD. MERCIER.

The record of Ald. Mercier is that he has been one of the most able and persistent followers that Ald. Giroux could boast of. When there were motions to be made in Council or in committees that even Ald. Giroux did not like to shoulder, Ald. Mercier was always on hand to float them. It is simply astonishing the disdain with which Ald. Mercier has treated public opinion as to his actions in Council.

It was Ald. Mercier who, a few days ago, proposed the motion in the Fire Committee demanding that two subchiefs of the fire brigade should be reinstated. These men were suspended by the chairman of the Fire Committee on account of the charges that were made against them in Judge Cannon's report. Ald. Mercier showed by this action that he would not have these officials brought to time for the evidence that was given against them under oath, when the Royal Commission was sitting.

When the citizens were demanding that the Aldermen should ask the Legislature to give Montreal a Board of Control, Ald. Mercier actually made a motion in Council demanding that no action be taken by Council in this connection. His motion carried. A motion of this city father that caused absolute consternation a year ago, demanded that the English representation on the Finance Committee be cut down. It was always the custom to allow three English aldermen on this committee. This was because of the important monetary interests that the English minority represented. With the three English were four French members. By the adoption of Ald. Mercier's motion by Council the custom has been adopted of only allowing two English representatives on the committee.

Of course Ald. Mercier was with the clique which recently passed the civic budget for 1910. A glaring illegality of the budget is that it was so doctored by Council that it gives the various civic committees the huge sum of $88,000 to divide up in increases of pay among the various civic employes. It was distinctly understood, when the sum was put in the budget by the Finance Committee, that the new Board of Control should handle it. Another motion by Ald. Mercier, which remodelled the budget, was appointing a civic employe, at two thousand dollars a year, when no report was received from a single committee asking for such an appointment. This act is the more glaring by the fact that the employe in question was dismissed a year ago because there was no need for his services. Ald. Mercier has decided otherwise and the city must now foot the bill.

This city father voted with those who, when many members were absent from Council, made the city accept the famous No. 13 police station. The scandals that were ventilated before the Royal Commission in regard to this "short weight" building are still fresh in the public mind. All the same, Ald. Mercier voted so the corporation had to take over the place.

When there was a hot discussion in the City Council over the high tender proposals of Ald. Giroux, and when a motion was made to apply the cloture and shut off further criticism, Ald. Mercier voted for it. He also cast his vote against a motion to refer an important paving contract back to the Roads Committee for further consideration. Finally, he cast various votes last summer in favor of contracts being awarded to the highest tenderers.

TOO MANY ENTRY PORTS IN CANADA, SAYS MR. R. S. WHITE

Declares Our Customs Revenue is Best Protected by Honesty of Our Importers.

Customs Law and Administration, particularly in the port of Montreal, were dealt with by Collector of Customs R. S. White, before the Nomads Club last night. Montreal importers, the speaker pointed out, were very honest. No customs officer was necessary to keep watch on their goods being removed from ship to bonded warehouse. During the fourteen years of Mr. White's connection with the local revenue office he could only recall two cases of fraud. The warehousing system was dealt with extensively. By the bonded warehouse system, Mr. White pointed out, Montreal merchants could import extensively without the payment of immediate duty, and exporters could send goods to foreign countries without demand of revenue at the time. The manifesting, and the administration he explained in detail, and to carry out the work, Montreal had a staff of 280 officers. The number of duty-paid entries averaged 750 a day, more than three-fourths of New York's average.

"I entered the service at Montreal fourteen years ago," said the speaker, "and at that time the collections per year were six million dollars. This year they exceed sixteen millions."

Mr. White deplored the large number of entry ports in Canada. The disadvantage of so great a number was apparent in the fact that enough trained officers to keep watch on the dutiable goods cannot easily be obtained. The United States number only 109 ports of entry, or one-fourth the number of Canada. Ninety per cent. of Canada's ports, too, were petty, and this increased the work for customs officers, and the risk of overlooking revenue.

Dwelling on the moiety system, or participation of officers in, the proceeds of seizures, the speaker remarked that it fostered suspicion, and in many cases rendered officers harsh and severe. After dealing with "statements under oath," which often resulted in mis-statement of values by youthful representatives of importers, even though unpremeditated, and the desirability for a Customs Court of Appeal, Mr. White declared:

"My last word is, that despite the severity of acts and regulations, despite the vigilance of officials, the best protection afforded the revenue is the general honesty of our mercantile community.

GIRL CHARGED WITH ARSON.

Manitoba Farmer Alleges That Daughter Burned Their Home.

Portage La Prairie, January 27.—The fourteen-year-old daughter of Orange Bartlett, a farmer, residing eight miles out of town, has been arrested charged with arson in connection with the destruction of their home by fire January 19.

Three or four previous attempts had been made to destroy the building, and it was while the father was in town reporting one of the previous attempts to the police that his home was burned.

The girl will come before the magistrate here this week.

Address for Captain Bernier.

Quebec, January 27. — The Quebec Board of Trade has decided to acknowledge the great services rendered to the country by Captain Bernier by his trip to the Canadian possessions in the Arctic regions, by presenting him with an address of thanks and congratulations on behalf of its membership.

The address will be presented at a special general meeting of the board which will take place in the second week of February next.

WANTS HIGH PRICE OF FOODSTUFFS TO BE INVESTIGATED

Mr. Mackay Asks Premier Whitney to Bring Any Combines to Justice.

Special to The Montreal Star.

Toronto, January 27.—By commencing sharp on time and confining their remarks closely to the subjects contained in the speech from the Throne, the five speakers who contributed to the debate on the reply to the speech in the Provincial Legislature, concluded their arguments at six o'clock last evening and for the first time in many years the debate was brought to a close at one sitting of the House. Mr. T. Herbert Lennox, of North York, was the mover, and Mr. Albert Griggs, of Algoma, the seconder.

Mr. Lennox confined his remarks largely to a review of the work which has been accomplished by the Government during the five years it has held office while Mr. Grigg, being a representative of New Ontario in the House, made a strong plea for that country and asked the Government to continue its progressive policy.

Mr. A. G. Mackay and Sir James Whitney closed the debate. The two leaders spoke only a few minutes each. Mr. Mackay criticized the Workmen's Compensation Act, and claimed that the reason the finances of the province were in such excellent conditions was on account of the far-seeing policy of former Governments. He thought the Attorney-General should investigate the causes leading up to the high prices of food stuffs, and if there were any combines, bring them to justice.

Sir James Whitney said the Ontario Government had no intention of shouldering such responsibility on to the Dominion Government, but as it was a matter for Federal investigation it should first be taken up at Ottawa, and if there were any reasons thereafter, Ontario could certainly take up the question. He proclaimed in connection with the Hydro-Electrical discussion that the Government had no intention of ever taking land from anyone without full and equitable compensation.

An unusual feature of this session is the presence in the press gallery for the first time of staff representatives of three Quebec province newspapers. La Presse, Le Temps and L'Evement each has a special reporter here.

To-morrow it is expected Hon. Col. Matheson will present to the House the public accounts for the last fiscal year. If he does so it will be the earliest date at which they ever have been presented to the Legislature.

Electricity as Anaesthetic.

Special to The Montreal Star.

Hartford, Conn., January 27.—Electricity was successfully used yesterday as an anaesthetic during an operation at St. Francis Hospital for the removal of four toes from the foot of a Russian, frozen about two weeks ago.

Electrodes, or flat zinc plates, connected with the controlling electrical devices, were applied near the part to be operated upon. The patient was conscious throughout the operation, but was absolutely insensible to pain, though he knew just what was going on.

Crusade Against High Prices

To the Editor of the Montreal Star:

Sir,—There has been a crusade in several American cities against the high prices for meats. Pledges to abstain from meat-eating for thirty days or more were extensively circulated and signed as a protest. As Montreal is in the grip of the trust (contrary to law), why should not a similar crusade be started here to show the Trust that if the Government remains inactive, the people do not?

PROTEST.

Camp Out in the Forest.

PINE-LADEN ATMOSPHERE OF GREAT BENEFIT TO THOSE WHO HAVE CONSUMPTION.

Among the mighty pines of the Adirondack Mountains are hundreds, perhaps thousands, of consumptive people, who have returned to the primitive life of the early pioneer in an effort to recover health. They live in camps built of rough logs, and constantly inhale the fragrant pine-laden air, which has a soothing, healing effect upon the affected organs.

There is a peculiar virtue in pine which makes it a splendid remedy for coughs and colds and other affections of the throat and bronchial organs. This valuable medicinal property is present in the Virgin Oil of Pine, which is a combination of the active principles of pine and santal album.

To break up a cold quickly there is nothing so effective as the mixture of two ounces of Glycerine, a half ounce of Virgin Oil of Pine, and eight ounces of pure Whisky. Take a teaspoonful every four hours. The ingredients are not expensive and can easily be mixed at home in a large bottle. It makes enough to last the average family an entire year, and will cure any cough that is curable.

MADE PLEA FOR MRS. BUCHAN

Senator Domville Referred to Late General Buchan's Record.

Ottawa, January 27.—In the Senate yesterday Senator Domville called the attention of the Senate to the military services of the late Brigadier-General Buchan. He stated that General Buchan had been one of the most efficient and gallant officers who had served in South Africa.

The Senate, added Senator Domville, cannot ask for a grant, and all that I can do is to bring to the attention of the Senate his services and the position of his family to-day, left without any recognition or compensation from the Crown for General Buchan's services.

Sir Richard Cartwright — "I shall have pleasure in calling the attention of the Government to the remarks Senator Domville had made. I am aware that the late General Buchan was an officer of great merit and did very good service, I believe, not merely in Canada, but while he was on special service in South Africa.

"Of course it is entirely beyond the power of the Senate to interfere with money grants, and my honorable friend is aware that General Buchan belonged to the permanent force, and in the case of his widow and children some provision is made in the Pension Act."

Special Notice.

EXAMINATIONS OF THE QUEBEC ACADEMY OF MUSIC.

The half-yearly examinations of the Academy of Music, Quebec, have been held during the past few days at the Monument National.

The candidates though less numerous than those taking part in the summer course were, however, represented in fair numbers in both the piano and vocal classes, and passed their examinations with distinction. As is well known the examiners are selected from among our leading artists, including Messrs. Pelletier, Letondal, Fowler, Saucier, Illsley, etc.

As in the past, a Pratte piano was used, the artistic qualities of the instrument contributing not a little to the success of the examinations.

The Girl Who Works.

The following letter speaks for itself. It is a subject very close to my heart, and I hope all who read it will give the matter earnest consideration. Does anyone in this big, lonely city, writes my correspondent, think of the little spot called home, to which many of our working girls go? I don't mean those fortunate ones who have real homes, but those whose domicile is a little single room on the top floor of likely some extremely chilly lodging house. Instead of the tea table laid, they, for economy's sake make a cup of tea on a little alcohol stove, this, with a cracker or two, constitutes their supper after a hard day's work. To pay the extortionate board demanded in Montreal is quite beyond the majority of working girls. After this they either spend a lonely evening in their room or go out to some home with someone who has spoken to them without the formality of an introduction. What matter formalities? It is someone to speak to. Montreal, with all her philanthropies, seems to have forgotten the working-girl. There are places for the girl who has fallen by the wayside, but is there a place where the lonely girl with friends can meet and get acquainted with her kind, without making friends through sheer loneliness, and often to her sorrow, with whomsoever may happen along?

This is a subject, as I said, very close to my heart, and I think we must put our heads together and see if something cannot be done. But in the meantime might I suggest to my correspondent the value of co-operation. I know of one little group of three or four girls in offices who have banded together and rented a small flat, where they have many of the comforts of a home. Another thing that is advisable for every lonely girl in the city is to join some church. In this manner they meet others and have many a pleasant evening. So many working girls I know wander around from church to church, and consequently are not known anywhere. Apropos of this problem, I should like to know how the Swimming Club that was formed last year is progressing. Perhaps someone will let me know. More of this subject another time.

BOOK CHATS AND ..ANECDOTES.

The First Canadian Press.

"The library of an old-time collector" is being sold this week in New York. The name of this particular old-time collector is not announced, but an examination of the books shows that several afe presentation copies tothe well-known early New York family, the Cortlandt Bishops, and the library appears to have been the possession of one descendant of the family. The rarest book in the sale is one from the first press of Canada, "The Trial of Daniel Disney, Esq., Captain of a Company in His Majesty's 44th Regiment of Foot and Town Major of the Garrison of Montreal, etc." a small quarto, unbound, of forty-six pages, printed in Quebec by Brown & Gilmore, in 1766, and one of only two copies known, the other of which is in the library of the late E. Dwight Church. William Brown and Thomas Gilmore established the First Press in Canada some time in 1764, their first publication being the first number of the Quebec Gazette, dated June 21 of that year. Very little is known of their previous history. It is stated that they came from Philadelphia, and another account says from England, where Brown learned his trade. Their printing is so well done that it bears out the latter statement. It is also said that they found so many difficulties in carrying out their undertaking in a pioneer country that Brown had to return to England to procure press, ink and paper for the work they were engaged in. Very few books are known with their imprint at a date as early as the Disney Trial, one of which is the "Catechism du Diocese de Sens," 1765, the first book printed in Canada, and the Ordinances for the Province of Quebec, in 1767. Brown and Gilmore continued their partnership until 1774, when Brown's name alone appears on their imprints. He died in 1789, and the business was continued by his nephew, Samuel Neilson.

The description of the trial of Daniel Disney in the church catalogue points out its rarity as a very early Canadian imprint and mentions that a record of no other copy has been found, nor is it mentioned in any bibliography. The copy in this sale measures an eighth of an inch taller than the church copy. Disney's trial seems to have attracted considerable attention, as it was reprinted in New York the next year by John Holt. Sabin mentions the New York edition, but is evidently unaware of the original Quebec issue. It is possible that the original edition was printed at the instance of Francis Maseres, as this was the first important case in which he was concerned as counsel. The title of the pamphlet is:

"The Trial of Daniel Disney, Esq., Captain of a Company in His Majesty's 44th Regiment of Foot, and Town-Major of the Garrison at Montreal . . . upon an indictment containing two charges, the one for Burglary and Felony in breaking and entering Mr. Thomas Walker's House at Montreal . . . the other for feloniously . . . cutting off the Right Ear of the said Thomas Walker, etc. Quebec, Printed by Briwn and Gilbore, 1767."

HOME MAKERS DEPARTMENT.

A Recipe for Corned-Beef Hash.

A corned-beef hash may be made to look, as well as taste, quite out of the ordinary. Remove skin, gristle and most of the fat from cooked corned beef, then chop. The best cuts of corned beef are known as the Rattle Rand and Fancy Brisket. To one and one-half cupfuls of chopped meat add two cupfuls of chopped cold boiled potatoes. Season with salt and pepper, add two tablespoonfuls of butter, one and one-half tablespoonfuls of chopped green pepper, and moisten with milk (the amount must depend upon the moisture in the potatoes). Turn into a hot buttered frying-pan and stir until well mixed; spread evenly, then place on a part of the range where it may slowly brown underneath. Turn and fold like an omelet on a hot platter, garnish with rings cut from a red or green pepper and sprigs of parsley.

Another variation from the ordinary hash is known as a vegetable hash. The same quantity of potato is used as of meat and one-half the quantity of chopped cooked beets.

Scotch Broth.

For a Scotch broth wipe three pounds of mutton cut from the fore quarter. Cut lean meat in one-inch cubes, put in kettle, cover with three pints of cold water, bring quickly to the boiling-point, skim and add one-half cupful of barley which has soaked in cold water to cover overnight. Simmer one and one-half hours or until meat is tender. Put bones in a second kettle, cover with cold water, heat slowly to boiling point. Strain the water from bones and add to meat. Fry for five minutes in two tablespoonfuls of butter, one-fourth cupful each of carrot, turnip, onion and celery cut in one-half inch cubes. Add to soup and cook until vegetables are soft; then season with salt and pepper. Thicken gravy with two tablespoonfuls each of butter and flour cooked together, and just before serving add one-half teaspoonful of finely-chopped parsley.

A DRINK OF COLD WATER NEARLY CAUSED HIS DEATH
But Father Morriscy's Treatment Saved Francis Casaldy.

Here is his story:—
Burden, York Co., N.B., Dec. 3, 1908.
"At the age of 18, while haying on a very hot day, I got thirsty and took a drink from a spring. I was taken suddenly ill, and consulted a skilful doctor, who treated me for indigestion for four months. But I grew worse, got so weak I could not walk, had no appetite, could not digest anything, and lost 30 pounds. I was almost dead, but as a last hope went to Father Morriscy. He gave me two months' treatment, and from the first day I began to recover. Now I am 21 years old and a very strong, healthy man. Only for the Rev. Father Morriscy I would have been dead now."
FRANCIS CASSIDY,
Thousands of people have used Father Morriscy's "No. 11" Tablets for Dyspepsia, Indigestion, Sick or Sour Stomach, Heartburn, Fulness or Weight in the Stomach, Belching of Wind and other Stomach Troubles, with most satisfactory results.

MAY MANTON PATTERNS, 10c EACH.

Fall and Winter Catalogue,—700 Designs. 15c; by mail, 20c.

A DAINTY DRESS FOR BABY.

6526. Infant's Bishop Dress.

Babies' dresses that are made of fine material in the simplest way, but with dainty finish, are the best liked, and this one is eminently practical. It can be finished at the neck with a casing and draw strings, which allow of opening out flat for laundering, and it is so absolutely free of fussiness that it means perfect comfort for the baby. The sleeves can be made either long or short. In this instance lawn is the material illustrated, with the neck and sleeves finished with tiny frills that are hand made, and with bands that are daintily embroidered. All the materials that are used for babies' dresses are appropriate, however, and the frills could be of narrow, fine lace or embroidery if preferred. Frills of the same with the edges scalloped would be pretty and attractive, and mean very little labor. There are only shoulder and under-arm seafs to be sewed up, and consequently the dress involves very little expenditure of time or energy. In this case it is finished with a machine stitched hem, but the one that is sewed by hand is always dainty and always desirable.

For the medium size will be required 2⅛ yards of material 36 or 1⅞ yards 44 inches wide.

A May Manton pattern, No. 5626, one size only, will be mailed to an yaddress by the Fashion Department of this paper on receipt of ten cents. (If in haste send an additional two-cent stamp for letter postage, which ensures more prompt delivery.)

PERSONALS.

Miss Marsie King, of Montreal, is the guest of Mrs. A. E. Doucet, The Cape, Quebec.

Miss Dora Taillefer, of Sault Ste. Marie, Ont., is spending a month in town, visiting friends.

Dr. S. Ortenberg, who has been in Europe, studying in the hospitals of London and Berlin, has returned to Montreal.

Mr. and Mrs. Stanway and Miss Stanway, MacGregor street, sail next month by the Ceronia, for the Mediterranean.

The following Canadian visitors registered their names at the Canadian High Commissioner's Office, 17 Victoria street, London, S.W., during the week ending January 11:—Robert Darling, Toronto; D. Ross, Barrie; Leslie A. Davidson, Toronto; Mrs. J. F. Kenney, Halifax; A. W. and Mrs. Colmis, T. F. and Mrs. Ahearn, Ottawa; Walter Witten, Barrie; A. J., Mrs. and Miss G. W. Paterson, Vancouver; C. W. and Mrs. Paterson, Calgary; A. Campbell, Winnipeg; A., Mrs., and Miss K. H. Wilson, Hamilton; Miss L. H. Birchall, Toronto; R. P. and Mrs. Butchart and family, Victoria; Mr. and Mrs. McIntosh, P.E.I.; H. W. Cutforth, Manitoba; A. H. Jukes, Vancouver; A. Hurst, Maple Creek; W. L. Robson, A. N. Brauscombe, St. John.

The marriage took place yesterday at St. John, N.B., of Miss Zilla G. Rankin, daughter of Mr. Henry C. Rankine and niece of the Hon. W. S. Fielding, to Mr. William Vassie. The bride was attended by Miss Edith Fielding and Mr. Cyrus F. Inches acted as best man. The ceremony was performed by Rev. David Lang, in St. Andrew's Church. Owing to a recent bereavement in the bridegroom's family, only relatives and immediate friends were present. The bride wore an exquisite gown of white satin trimmed with lace and pearls. Her bridal veil was caught with orange blossoms, and she carried a bouquet of white roses. The bridegroom's gift to the bride was a diamond pendant. The honeymoon will include an extended trip in the United States.

A pretty wedding took place, recently, at the residence of Mr. M. Vogel, 123 City Councillors street, when his niece, Miss Theresa Vogt, only daughter of Mrs. A. Vogt, was married to Mr. Howard Stephen Jones, of Swanton, son of Mr. and Mrs. S. H. Jones, of Sabrevois, P.Q. The bride wore an Empire gown of white point d'esprit over white silk and carried a bouquet of white roses and lilies of the valley. The bridesmaid, Miss Elizabeth Diesenthal, of New York, who wore a white embroidery princess dress and carried white carnations and narcissi. The bridegroom's brother, Mr. Heber H. Jones, was best man. After the ceremony Mr. and Mrs. Jones left for a trip to Ottawa.

PRACTICAL FASHIONS.

Special care should be taken with one's underwear when thin blouses and gowns are worn. There is far too little attention paid to this point, as one sees ugly misfits that are only too apparent through muslins and laces. It is a great mistake either to sew or pin shields directly in the sleeves of the waist, as they not only show, but they eventually wear out the material. Put them into the corset cover or the top of a combination garment by means of a cap beneath held around the arm by an inch wide beading, threaded with ribbon, but without lace on the edge. Lace nicks out so soon in the laundry that it is far better not to use it at all.

When wearing gowns that are somewhat transparent on the shoulders, there is a charming bit of lingerie that is quite unnoticeable beneath. This is a chemise cut straight across the top, and finished with a two-inch band of fine Torchon or Cluny lace. Nothing goes over the shoulders but bands of very pale pink ribbon.

Choose for your underwear a material that is substantial enough not to show the corsets through. Nainsook is too transparent unless a heavy quality is selected. Irish linen at from 30 to 40 cents the yard is excellent in weight, and will be found to give in the end far better wear than other fabrics.

Open work white stockings either in silk or cotton are not desirable except for wear in the evening. In the daytime with low shoes and ties choose a plain stocking with embroidered clocks or some floral or geometrical design.

A lovely scarf for white gowns is a length of filet net, two yards long, edged with fancy net lace two inches wide. There is nothing that gives better finish to a costume than a scarf gracefully draped on the shoulders.

Fitted bags to carry one's toilet articles are not considered complete unless covered with a black or tan mackintosh case, according to what leather is used. This proclaims it on sight as something different from an ordinary bag, and the leather will last a lifetime if thus protected.

New pendants in what is known as the medal shape are the favorite trinket of smart women at the moment. As a rule they are in pearls and diamonds, sometimes diamonds with a cabochon sapphire or emerald at the centre. The delicate openwork designs are lovely. For daytime wear they hang on black ribbons, or smarter still on black silk braid. In the evening they are attached to latticed chains of small pearls with diamond clasps.

VERSE AND HUMOR.

A crust of bread and a corner to sleep in,
A moment to laugh and an hour to weep in,
A pint of joy, to a peck of trouble,
And never a laugh but the moans come double—
And that is life.

A crust and a corner that love makes precious,
With the smiles to warm and the tears to refresh us,
And joys seem sweeter when cares come after,
And a moan is the finest of foils for laughter—
And that is life.
—Paul Laurence Dunbar.

Progress.

Curate—"Has your father stopped drinking yet, Tommy?"
Tommy—"Yes, sir—please, sir—several times this morning, sir."

Dumped.

"As I understand it, they have lost their money, but all of the daughters are able to earn their own living, save one, who is most idle and incompetent. What will become of her?"
"She'll have to get married."

A Remarkable Discovery.

"Physical culture, father, is perfectly lovely!" exclaimed an enthusiastic young miss just home from college. "Look! To develop the arms I grasp the rod by one end and move it slowly from right to left."
"Well, well!" exclaimed her father. "What won't science discover next! If that rod had straw at the other end, you would be sweeping!"

Good Gluten, Madam, is the Soul of Flour
Gluten it is that gives to your dough consistency and elasticity, which makes it expand, which compels it to rise fourfold in your oven.
The more and better gluten in your flour the more water it will absorb and retain.
The more bread you get for the same money and mighty fine bread it is.
So that there is such a thing as Flour Economy.
Gluten, Mistress Housewife, is the active principle in FIVE ROSES flour, the framework of your loaf.
Without which your bread and pastries would be heavy and soggy, putty-like; like lead on the stomach, like lead on your baking aspirations.
Some flours are white—even very white—yet make loaves in appearance poor and dingy, all for the lack of gluten.
Not so with FIVE ROSES, Madam.
Milled it is from the wholesome, polished Manitoba Spring Wheat berries, the cream of the kernels alone.
Therefore is it exceeding rich in gluten of the best color and strength.
There is no more glutinous flour than FIVE ROSES, as your results will prove.
And it's a word to conjure with, Madam.
Coming from your oven in delicious batches of glorious shapely loaves that gladden the eye—thin crackling crust that is tooth-teasing—a beautiful golden bloom crisp yet tender.
Evenly distented pile and yielding crumb of a smooth, velvety texture.
Loaves that are close-cutting, featherweight, that keep fresh for days without crumbling.
Everyday baking consequences for the woman who knows.
If you now feel ashamed of your baking, Madam, and want to know the joy of good work well done, time well spent.
If you want your money's worth, your labor's worth, your time's worth—
Surely, YOU will get FIVE ROSES.

EARL GREY DEFINES HIS IMPERIALISM IN QUEBEC SPEECH

Not a Menace to the Autonomy of Oversea Dominions, He Declared.

Special to The Montreal Star.

Quebec, January 27.—"Imperialism" formed the subject of a large part of Earl Grey's address yesterday afternoon, before the Woman's Canadian Club of Quebec. His Excellency introduced the subject by saying that much had been heard of it in recent times, and that he had even been honored by being represented as the apostle of the idea designated by the word. Speaking in French, His Excellency went on:

"It may be well just here to make things clear. If, by Imperialism, we are to understand the greatness of the Empire, fortified by all legitimate means, then I am an Imperialist. If, on the other hand, you are asked to see in this idea a menace for the autonomy of the oversea dominions, I repel this insinuation, this evil-disposed interpretation of my sentiments.

"Canadians enjoy civil and political liberty in all their fullness, and I would not see them lose a single particle of the rights of which they make such noble use, for in no country do we see individual liberty better respected by all, and harmony between those of different races and creeds more happily preserved. Canada is free to work out its destinies, in all the force and acceptation of the word, and I would be the first to defend its glorious autonomy if it was threatened.

DEFINES THE TRUE IMPERIALISM

"One of your most distinguished compatriots, one of the men whose friendship honors me, said to me one day, when we were talking of the destiny of Canada, 'We are so content that I am afraid. Any change whatever would be a disaster.' This reflection appears to me to sum up French-Canadian opinion on your destinies. I do not hesitate to say that the welfare which you enjoy under the Union Jack is the logical and natural consequence of British supremacy on the high sea.

"Placing myself at the strictly Canadian point of view, I say:—'For you the Empire is peace.' I will add that the true Imperialism is that which maintains the autonomy of the different possessions composing the Empire. Is not variety one of the essential elements of beauty, splendor and strength? Now the Empire is a monument of beauty, precisely because the different parts of which it is composed have each their distinguishing characteristics. You had among your guests at the Tercentenary fetes, Sir Henry de Villiers. He represented South Africa, where, by the new Constitution, the Dutch language enjoys the same privileges as the French language does in Canada; that is to say, it is placed on an equality with English.

DUTY TO RISING GENERATION.

"All the leading minds in the world, at the present time, are making energetic appeals to the people, each indicating the course to be followed for the attainment of national greatness. To the accomplishment of this task it is the duty of all to work. You have a role to play in this movement; towards great ideas. It is for you to teach the rising generation, and those who are to follow it, to subordinate their personal interests, both in the political and the social status, to those of the family, the country, and the King."

His Excellency made some pleasant references to the Quebec Tercentenary in the course of his address, referring to the touching welcome given by the French-Canadians of Quebec to the troops from Ontario, and to Sir James Whitney, and to the splendid reception given in return in Toronto to Sir Lomer Gouin. In his library at Rideau Hall, Earl Grey said that he had a photograph of the two Premiers with the inscription: "Real peace and good will. Ontario and Quebec getting together."

PAYS TRIBUTE TO SIR WILFRID.

In speaking of the intellectual attainments of Canadians, His Excellency said that Sir Wilfrid Laurier, because of his great breadth of mind, the vastness of his political conceptions, and that far-reaching vision which saw beyond the realities of the present day, might well have become Prime Minister at Westminster. At the London conferences, he had attracted the attention of Europe by his talents. And latterly, at Berne, we had seen Hon. Mr. Lemieux, who had negotiated so advantageous a treaty with Japan, chosen by the seventy-two delegates who asisted at the Universal Postal Union to present the thanks of the imposing gathering to the Swiss government for its hospitality.

His Excellency, in expressing the regret with which both himself and his family would shortly bid adieu to Canada, said that they intended to spend the month of June in Quebec, immediately before their departure.

Mrs. Benyon, president of the club, introduced the Governor-General, and among those present were Hon. Mr. Lemieux, Postmaster-General, Sir Lomer Gouin, Sir George Garneau, and a few other gentlemen, the large hall of the Chateau Frontenac, in which the function was held, being thronged with ladies.

KEEPER OF DISORDERLY HOUSE ENTERS APPEAL OVER PRISON SENTENCE.

Marie Lamere, convicted twice in three days for keeping a disorderly house, has decided to appeal to the King's Bench on the decisions made by Recorder Dupuis in these cases. Inspector of Morality O'Keefe raided her establishment about a week ago, and she was sentenced to a stiff fine. Three days later Inspector O'Keefe raided the house again, and she was entenced to six months' prison, $100 or four months more. Yesterday afternoon she furnished bail to the extent of $2,000 to guarantee her appearance at the March term.

"THE CITY'S NAME."

Evidently, in the interest of some of the companies that are furnishing water to Montreal and its suburbs, certain newspapers are laboring assiduously to blame the typhoid on everything but the water. "It may be the air. It may be our food. It may be spontaneous generation"; but to blame it on the water, the contention is, will be destructive of "the city's name." Must all hideous scandals be hidden for the sake of "the city's name"? Must the people contract typhoid to the number of two thousand in a few weeks, must hundreds of unoffending citizens be sent to the cemetery by the disease, and the facts glossed over or suppressed for the sake of "the city's name," or in the interests of a water-purveying company? If water companies can induce newspapers to laud the water supply and to divert attention from typhoid's causes by attributing an epidemic to an act of Providence, or spontaneous generation, it is well that some papers are not interested in suppressing the truth. Why was Judge Cannon's report not suppressed in the interest of the city? It would have been just as reasonable as to shut our eyes and fold our arms while our people are being poisoned.

In the meantime the typhoid statistics reveal the following conditions to have existed during the present epidemic:—

The total cases treated at the hospitals—and it must be remembered that these are only a small proportion of the cases that have occurred in the city—number 1,260, divided as follows:

General Hospital	135
Royal Victoria	295
Emergency Hospital	94
Other hospitals	471

It is estimated by the hospital authorities, that 1,950 cases were turned away because of lack of room, before the Emergency Hospital was opened.

To-day there are 475 patients under treatment for typhoid in the city hospitals, divided as follows:—

General	26
Royal Victoria	41
Emergency	93
St. Paul's	51
Western	20
Hotel Dieu	60
Notre Dame	32
Homeopathic	15
Misericorde	10

SATURDAY'S STAR.

Advertisements for Saturday's Star will be received at the Star Office, St. James street, and at the Uptown Star Branch Office, corner of Peel and St. Catherine streets, until seven o'clock on Friday evening. Owing to the heavy demand for space in Saturday's Star, advertisers will serve their own interests best by sending in copy for advertisements, as far in advance of date of publication as possible. This co-operation will enable the publishers to devote more care to the composition, classification, make up and general effectiveness than if advertisements are handed in at the last hour.

RENFREW REFEREES YET ANOTHER LEAGUE

The referees for the Renfrew-Shamrock match at Renfrew have been agreed upon, and they are good ones, calculated to nip in the bud any "rough house" that may be attempted as the result of the Patrick-Hall feud. They are Bob Meldrum and Chauncey Kirby.

The Shamrock team will be the same as that which played against Haileybury, and it will leave for Renfrew to-morrow morning by Grand Trunk.

Mr. W. P. Lunne will be unable to go, but two members of the Shamrock executive will accompany the team, and they hope there will be no trouble.

Yet Another Hockey League.

The old Canadian Amateur Hockey League is to be revived by Nationals and Quebec.

These two clubs will meet with All-Montreal on Monday. Mr. Emmett Quinn has promised to turn them over the books of the defunct Canadian Hockey Association, and whatever money there is left, and after that All-Montreal will go into retirement for good, while Quebec and Nationals will draw up a schedule of amateur matches, and perhaps challenge for the Stanley cup.

LABORER AT WINDSOR STATION KILLED BY A FALLING CROW-BAR.

While at work down in one of the many cone-shaped holes dug for the foundation of the new extension to the Windsor Street Station, a laborer, Alexander Lowe, aged 28, living in Rosemount, was killed by an iron crow-bar falling on his head. The victim was down in the hole when the crow-bar in some unknown way fell down the deep excavation, striking him on the head. When he was lifted out by means of the pulleys erected over each excavation, he was still alive. The injured man was hurried to the hospital, but he died within a few minutes after entering.

An inquest will be held to-morrow morning.

COMMERCIAL TRAVELLER IS ACCUSED OF THEFT.

A. P. Gilbert was arrested in Montreal yesterday at the instance of the Toronto police, for the alleged theft of sample lace waists to the value of $100 from Dingman and Company, 12 Sheppard street, Toronto.

Detective Sockett arrived in Montreal last night to take him back. Gilbert was a traveller for the company, and he claimed to have sold the goods to persons in Belleville.

THERE MAY BE A SHUFFLING OF LEADERS

Even Balance of Parties Likely to Lead to Compromise

Best Authorities Do Not Think Another Dissolution Will Come Quickly.

By Special Cable From Our Own Correspondent.

London, January 27 (Copyright)—The Unionist gains continue steadily to mount up, and the Ministerial majority slowly but surely reaches vanishing point. The contrast between the scene at Liberal clubs to-day and the scene when the Lancashire and Yorkshire city results came in is too painful for words. Two hundred and ten of that majority has already been wiped off, and another nine Unionist wins are anticipated from the 50 Liberal polls yet to be declared. The new House will then consist of Unionists, 282; Liberals, 263; Labor, 43; Nationalists, 75; and Independent Nationalists, 7; total, 670.

BUDGET FIRST BUSINESS IN NEW HOUSE OF COMMONS

When Parliament meets on February 15, the first business will be the Address in reply to the King's speech. This Mr. Asquith can easily carry with a coalition majority of about 100. The coalition is burning to get at the Lords, but the necessity for reenacting the rejected Budget for 1909-10 before the close of the financial year on March 31, will compel Ministers to take the Budget next.

If the Liberal-Labor majority, without the Nationalists, is found too narrow for safety Mr. Asquith may make concessions regarding the Irish whisky duties which will quieten the Redmonite objections and secure the support of all the Nationalists except the Healyites.

The old Budget is thus sure of acceptance by the Commons, and it is not anticipated that the Lords will risk another rejection. The House will then be in mid-March, and several highly debatable estimates, including the Navy vote, must also be passed before March 31. It is inconceivable, therefore that any anti-Lords legislation can be brought forward until after Easter.

The utmost the Ministry can hope for is the re-adoption of the late Sir Henry Campbell-Bannerman's academic resolution asserting the supremacy of the House of Commons. Then, and not till then, can a crisis well arise.

ROYAL INTERVENTION IS BELIEVED LIKELY.

Mr. Asquith has pledged himself to define by legislation the functions of the Lords on finance and general legislation. The Lords would certainly reject the kind of measure upon which the Radical and Labor sections would insist.

Nobody seriously supposes the King would accept suggestions of royal intervention until at least the new Parliament has declared itself, but when the Commons have passed, and the Lords rejected, a drastic bill of this character, the King's influence will undoubtedly be thrown on the side of conference and compromise, with results to Mr. Asquith's leadership and to the Ministerial coalition which none can foresee.

PROBABLE OUTCOME OF EVEN PARTY DIVISION.

Mr. Balfour is reported this morning as anticipating a change of ministry within six months. The best authorities agree that no dissolution is probable for some time. The Labor and Nationalist parties would strenuously resist another election on the ground of the lowness of their party funds, and the general community would resent the disturbance to business.

What is far more probable is a shuffling of leadership and a re-arrangement of sectional alliances. English politics are so traditionally uncertain when the parties are so nearly divided as now, that far less unlikely things have happened than that this shuffling of leaderships should bring Tariff Reform in some shape within the lifetime of the present Parliament.

BUDGET DIFFICULTIES ARE AWAITING SOLUTION.

Nobody questions the popularity of the taxation of imported manufactures, especially luxuries, while the revenue needs will also push strongly towards Tariff Reform. Increases in the expenditure for the navy and social reform are certain to go far beyond the possibilities of the revenue from Lloyd George's new land taxes. The Budget of 1910-11, even with an increase of five to six millions on the navy, Lloyd George may expect to cover with the aid of large arrears of income tax, but the budget of 1911-12 will probably prove quite another affair.

WINDERMERE.

DOCTOR A. A. BROWNE AFTER YEAR'S ILLNESS PASSES QUIETLY AWAY

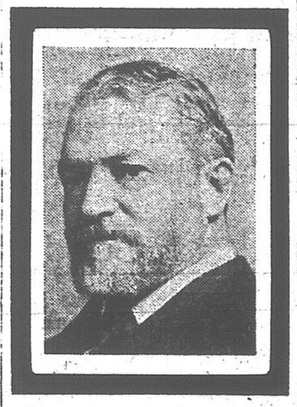
Best Known Family Physician in the City Succumbs After Long Battle for Life.

The death occurred last evening of Dr. Arthur A. Browne at his residence, 622 Sherbrooke street west, after an illness of nearly a year's duration.

The late Dr. Browne was one of the best known medical practitioners in the city. About a year ago ill-health compelled him to retire from active work in his profession, but up to this time he had enjoyed a very extensive practice and was looked upon as the dean of medical men in the local medical world. He was born at Kingsey, Que., in 1847, where he received his early education, afterwards coming to Montreal and taking an Arts course at McGill University. On receiving his degree of Bachelor of Arts, he commenced the study of medicine at McGill and graduated with much distinction in 1872. Dr. Browne then went abroad for some time and studied at Dublin and Vienna returning a few years later to Montreal, where he remained until his death.

A McGILL PROFESSOR.

Several years after he first commenced the practice of medicine in this city he joined the professorial staff of the McGill University Faculty of Medicine and continued in this capacity until his rapidly increasing practice compelled him to retire. Some of the best known surgeons and physicians of the city studied under him at McGill.



The late Dr. A. A. Browne.

In 1878 the deceased gentleman married Miss Jane Labatt, of London, Ont., who, with three sons and one daughter, survives him. The sons are Mr. H. D. Browne, purchasing agent of the Northern Electric Co.; Mr. R. R. Browne, of the firm of Messrs. D. W. Ogilvie and Co., and Lieut. G. S. Browne, of "B" Battery, R.C.H.A., Kingston.

The late Dr. Browne was a member of St. Paul's lodge of the English Register, A. F. and A. M. He was a man of retiring disposition, but by those who had the opportunity of knowing him intimately he was considered a true type of Canadian gentleman. In the practice of his profession he displayed a broad charity that endeared him to those with whom he came in contact and an unfailing kindness of heart was at all times characteristic of him. In his death the medical profession of the community suffers a distinct and much-regretted loss.

The funeral will take place to-morrow afternoon from his late residence, 622 Sherbrooke street west.

THE CARNIVAL

Better Weather. Committee Happy.

The weather of the past two days has put the Carnival Committee in high spirits. The great spectacular event, the storming of the Ice Palace will take place on Monday night, and the skiing exhibition on Saturday. The committee say the storming of the Ice Palace will eclipse anything gone before, as the fireworks are of a superior order calculated to create more than ever a fairy scene during the crisis of assault and defence.

Curling Competition.

This is the opening day of the Carnival.

To-day sees the inauguration of the big curling competition for the four cups offered by the Carnival Committee to the city clubs. The bonspiel is under the auspices of the Canadian Branch of the Royal Caledonian Curling Club, and it is creating a lively interest in the local rinks.

On Saturday the ski-ing exhibitions are booked to take place on the mountain side, when the stellar attraction of the event will be the sensational jumping of John Rudd, of Duluth, who turns a complete somersault during a jump of eighty-five feet in the air.

PROMINENT FINANCIER DIED AT ADVANCED AGE.

The death occurred on Tuesday of Mr. E. Lyman Mills, at the age of 87 years. He was one of the best known of Montreal business men, and was one of the partners in Mills, Mattice and Co., importers, which had existed 40 years ago. Mr. Mills, who was the eldest son of Mr. Cephas Mills, was a relative of Mayor Easton Mills, who died while ministering to the plague-stricken people of Montreal in 1849. Mr. E. Lyman Mills was born September 29th, 1823. He married Miss Almira Carding, his cousin, and leaves one daughter, Mrs. Alice Wright of Magog, Que.

LETTERS MAILED IN THOUSANDS BY CITIZENS' WORKERS

Post Office Has Big Task — Plans of Association for Final Week of Campaign.

Letter carriers are perhaps suffering more than any other class of people from the present municipal campaign. During the past few days, almost 25,000 letters have been mailed daily from the Citizens' Association headquarters, where there is a constant staff of workers sealing and stamping envelopes. The Post Office authorities, by special arrangement, have ordered several extra collections a day of the Association's pile of letters.

This forenoon, ladies of the Local Council of Women joined in the work of folding circulars, gathering for the purpose in one of the upper rooms of the Association building. Their attention, of course, was directed specially to mailing circulars to the women voters of the city, and they expect that the number of the latter to go to the polls next Tuesday will be an unprecedented feature in Montreal elections.

An indication of the support that Dr. Guerin and his fellow-candidates are receiving from physicians of the city is the following list of those who have just joined the Citizens' Association: J. D. Morgan, Geo. Fisk, Dr. G. H. Stevenson, Dr. W. W. Chipman, Dr. F. A. Stevenson, Dr. H. S. Birkett, Dr. E. M. Von Eberts, Dr. E. B. Ibbotson, Dr. Richard Kerry, Dr. R. N. Craig, Dr. J. S. Ibbotson, Dr. Fred G. Finley, Dr. W. Grant Stewart, Dr. Henri St. Georges.

Meetings Scheduled.

To-night there will be six meetings in favor of Citizens' Association candidates. Three meetings are being held directly by the Association and three others by aldermanic candidates receiving its support.

In St. Ann's Ward near the corner of Colborne and Ottawa streets, Dr. Guerin will make his first direct appeal to voters in that section of the city. He will be supported by Mr. C. J. Doherty, M.P., and other prominent speakers.

Last night's meeting in the Monument National was the last big mass meeting of the Association, and much confidence is felt in its effect upon the French-Canadian voters.

"Surely," said Mr. Laporte this forenoon, "the French-Canadian voters will not listen to the appeals being made by certain candidates. Meanwhile, we are doing our best to assure victory by advertising and organizing and getting our candidates into close touch with the people."

Remember, Mr. Citizen, that it is your taxes that go to pay the million and a half squandered every year on "bribery and malversation."

MR. JOHN MALONE IS ACCUSED OF ASSAULT

Aldermanic Candidate in St. Joseph's in Trouble—He Pleads Not Guilty.

John Malone, an aldermanic candidate, appeared in the Recorder's Court this morning to answer a charge of assault. It is alleged that he assaulted T. B. Enright, the complainant, who is a laborer, last night. Enright alleges that Malone kicked him and also struck him in the face with his fist without provocation.

Malone pleaded not guilty, and his lawyer asked the Recorder to have the hearing of the case postponed until February 3, which request was granted.

John Malone is opposing U. H. Dandurand, the Citizens' Committee candidate, in St. Joseph's Ward. Malone has formerly been an unsuccessful candidate for aldermanic honors in the same ward.

Governor-General's Prize.

This afternoon play for the Governor-General's trophy began at the following rinks:—

Heather vs. Lachine, on Montreal ice.

St. Andrew's vs. St. Lawrence, on Thistle ice.

Outremont vs. Caledonia, on St. Lawrence ice.

Montreal vs. Thistle, on Caledonia ice.

Toronto Drivers Were Held Up.

Special to The Montreal Star.

Toronto, January 27.—Five drivers for Messrs Rutherford and Marshall, local produce merchants, were held up as they arrived at the firm's stables for work this morning, and relieved of amounts collected for the firm, aggregating $194.

The police are investigating, and say they expect to make arrests shortly.

PARIS STILL IN TERRIBLE STATE THROUGH FLOODING

Seine Subsided Some Early To-day, But is Again Rising.

Paris, January 27.—Paris to-day resembles a beleaguered city. The military commander in each five sections into which the metropolis has been divided holds his soldiers in constant readiness for despatch to points of danger. The government of the municipality has placed the military barracks and public school buildings at the disposition of the refugees, who already number, it is estimated, more than 100,000. Fifteen thousand laborers of the city are also out of work and though subscriptions are pouring in, $200,000 having been raised last night, the government this morning decided to ask Parliament for an additional credit to be used in relief work.

Seine a 25-Mile Torrent.

Every minute to-day brought a new tale of disaster. The stage of the waters this morning exceeded all records back to 1615, and up to 12 o'clock the river continued to rise at the rate of three-quarters an inch an hour. Perhaps the most alarming feature of the situation was the fissure at the Auteuil viaduct at the foot of Paris. Should this give way it would act as a dam and submerge the city.

The valley of the Seine now presents a terrifying spectacle. The flood is miles wide for twenty-five miles above, and the raging torrent runs through the narrow gut of the city at the rate of 25 miles an hour. It is flush with the parapets of the bridges where it is not actually overflowing them, turning the streets into muddy lagoons and choking the underground workings of the city to the bursting point.

President's Home Full of Water.

At 8 o'clock a bad cave-in occurred in the Rue Lille, flooding the quarters of the German embassy. The buildings of the Foreign Office were surrounded by water this morning and abandoned.

The main drain under the Champs-de-Mars broke during the forenoon, and the blanket of water extended back to the Invalides, where repose the bones of Napoleon. The basements of the Grand Palace and the home of President Fallieres are filled with water. Whole sections of the city have been roped off.

The curator of the Louvre Museum said to-day that although the basement of the building had been inundated the statuary hall was still six feet above the level of the water, and the sculptures and engravings on the first floor are in no danger at present. Immediately opposite, however, there was great danger to the Institute de France, the home of the Academie Francaise, which was surrounded by the waters, as was the Mazarin Palace, whose valuable art collections were hurriedly removed to the second storey. The regions in the neighborhood of the law courts, and the prefecture of police were flooded and chairs and tables were drifting about. The waters also invaded the court of St. Chapelle, the most glorious gem of Gothic architecture in France, and the lower floor of the historic Conciergerie.

Water Began to Subside at Noon.

In the midst of new and alarming developments, and shortly before noon a dismayed crowd that was watching the water gauge at Pont Royal, noticed that for ten minutes the flood remained stationary and at noon it actually began to subside. By 12.30 o'clock the waters had fallen three-quarters of an inch, and the watchers shouted with joy. The glad tidings passed from mouth to mouth, and soon the entire quay was ringing with cheers. The news flashed along the stricken quays, turning exclamations of horror to cries of jubilation.

The work of building temporary dykes back of the parapets which had begun at daylight, however, did not cease for a moment. In many places the soldiers labored in three feet of water, damming the openings in the parapets and constructing great holding dykes of stone and cement. Between the Place de la Concorde and Avenue de Alexandre, where the water had begun to flow over the parapet, 1,000 men were erecting a wall in the middle of the road to keep the waters from the Champs Elysee quarter.

WARDEN'S STRONG VERIFIED.

Bullets Fired by Fish Pirates Found Embedded in Trees.

Buffalo, N.Y., January 27.—Bullets dug out from a tree on the bank of the Niagara River to-day bear out the story of the Canadian Game Warden, Thomas Briggs, that he did not shoot George Weigand, whom he caught dynamiting fish off Willow Bay, and that Weigand's death was due to a bullet sent from a rifle of his partner, Gus Egner, as Egner was shooting at Briggs from the boat over Weigand's head.

Egner claims that he was armed only with a shot-gun for duck-shooting. The wound in Weigand's neck was caused by a rifle bullet. The bullets found in the tree, and another on the ground at the scene of the shooting were fired from a 44-calibre rifle, which agrees with Briggs' story that Egner was armed with a rifle.

RECORDER SCORES CONSTABLES WHO OBEYED THE CHIEF

Great Number of Householders Summoned Without Notification for Having Slippery Sidewalks.

Recorder Dupuis took a very lenient view of the offence, against the civic by-law in regard to the slippery condition of side-walks this morning. He suspended sentence in every case but one.

Mr. Dupuis holds, in interpretation of the law, that householders should be notified before action is taken and he roundly censured the constables for not doing so. There were many among the hundred delinquents who heartily agreed with him and took occasion to protest against the police force methods.

This view is not held by Chief of Police Campeau. The law states that notification is not necessary, he says. He has given specific orders to constables detailed on this work not to notify the delinquents and give them a chance to remedy the defect, but to take immediate action.

Constables stated in court this morning that their positions were at stake if they gave the warning as the Recorder advised.

One hundred and thirty cases were taken against householders whom the police caught with their sidewalks in a glaringly bad condition on Jan. 19. It was the day following a heavy rain and thaw. Of these about fifty wisely saw fit to pay up before the cases came in court, paying the costs. The remainder thought the act of the police a glaring injustice and the Court agreed with them.

Fifteen householders, however, did not appear and were fined $1 and the costs.

BATTERED LUGGAGE TELLS ITS TALE OF WEBBWOOD WRECK

There was a quantity of personal baggage and wearing apparel belonging to the victims of the wreck at Webbwood at the Windsor Station this morning. The great shock received as the cars struck the ice is shown by the way in which the leather grips and suit cases have been buckled up and torn. The articles brought down this morning had been fished out of the cars.

There were several fur coats, a number of expensive leather grips, correspondence cases used by travellers for keeping order books and catalogues, a prospector's kit, an immigrant's outfit, all bearing testimony to the different classes of victims and of their varied walks of life.

A mandolin in a canvas case was splintered up into small pieces, clothes were bundled together as found in the cars and all that went to give any clue to the late owners were the articles themselves.

Each piece of baggage was numbered and carefully stowed away awaiting its possible identification by relatives of the owner.

At the C. P. R. headquarters this morning, Mr. D. McNicoll stated that so far as can be ascertained there were no persons in the car which burned, at the time of the conflagration. He claims the stories published in regard to the cremations of passengers are pure fiction; that the reports received by the C. P. R. are to the effect that none of the passengers except a boy whose hair was singed, was burned.

Mr. Paul Dienowitzer, of this city, who escaped after being pinned in the wreck for three hours, received severe burns, his right hand being most injured in this way.

THE CARNIVAL SOUVENIR.

The artists of the Carnival Number of the Standard have succeeded in making a series of graphic pictures never before approached in Canada. The four large supplements will convey to the outside world such an impression of our winter sports as certainly has never before been attempted. These pictures, graphic, realistic and on a comprehensive scale that will teach a lesson to illustrators in other countries, has set the trade agog with excitement. It is little wonder that the dealers are doubling, trebling and quadrupling their orders as they are shown the advance sheets.

There will be a veritable Carnival in the Standard Office during the next six or seven days and the pandemonium of the scrambling mass of vendors is likely to be accentuated when the public get a glimpse of the startling series of pictures throbbing with life, and depicting the scenes that can be witnessed only on Mount Royal.

The artists of the Carnival Number of the Standard have certainly set the pace in souvenirs. They will be in demand long after the Carnival as a memory, and those in other countries privileged to get copies will feel they have the Carnival set before them on a new scale of magnitude.

ALD. CARTER WILL MAKE FINAL FIGHT FOR HIS BY-LAW

Council Meeting Must Be Held Somewhere, He Says—Is Confident, Despite Obstruction.

Notwithstanding the fact that the Council Chamber is filled with ballot boxes and other election "machinery" for distribution to-morrow to the deputy-returning officers for next Tuesday's municipal elections; notwithstanding that one of the Mayor's offices at the City Hall, where it had been suggested the meeting might take place in default of the Council Chamber, has also been appropriated for an overflow of boxes, Alderman Carter told the Star this afternoon that he intended to make every effort to get a meeting of Council held somewhere in the City Hall. He declared he was confident of a backing of 23 aldermen, which was a sufficient assurance that his by-law proposing the early closing of saloons could be passed.

"I had decided to abandon all effort to have the meeting held to-morrow," declared Ald. Carter, "feeling certain that it must assuredly end in a fiasco, but after due consideration I have resolved to go ahead and, if obstruction is effectively raised, the responsibility will be on the shoulders of those who place it in front of the by-law.

PROULX INVITES VOTERS TO No. 13—SPEAKERS ASK SUPPORT FOR CASGRAIN

Ald. Proulx is determined that the world shall know Station No. 13. He is now to run an excursion there, that the elector may see for himself, he declared at a meeting held in College Hall, St. Jean Baptiste ward last night. He was the same, he added, as he was six years ago, and he intended to remain the same. He had suffered from calumny. He had suffered, and the bitter part of it was that he had had no opportunity for reply. "But next Sunday, I have made arrangements for an excursion to No. 13 station, that famous station you have heard so much about. The trip has been organized by my friends, and I invite you all to go, and do me the justice to see for yourselves what it is like. So next Sunday afternoon all of you come and give me fair play. Cars will leave Rachel street at 2 o'clock.

A Novel Argument.

At the same meeting, Mr. Arthur Ecrement, M. P., advanced a new argument in the mayoralty fight. He would ask Dr. Guerin if he approved of what his compatriots were doing in the United States, where they were trying to deprive the French-Canadians of bishops and priests, as well as their language. Was that the way, Dr. Guerin would act at the City Hall, if he were elected?

Proceeding, Mr. Ecrement interpreted a recent letter of Archbishop Bruchesi as meaning that an Irish Mayor of Montreal would be no more desirable than an Irish Bishop.

Further, Montreal had been advertised as a corrupt city, and that was one reason why a French-speaking Mayor should be elected—to prove that the French-Canadians knew how to look after the city.

Senator Casgrain followed, speaking on similar lines to his previous speeches, and contending that he was independent of alliances and organizations.

Disliked Race Cry.

Mr. Achille Bergevin said he disliked the race cry which had been raised in certain sections of the press.

Mayor Payette said that the public would be wrong if they concluded that the Montreal City Council was composed of bandits. Had he found any there, it would have been his duty to say so, but he had found none. Messrs. A. Latreille and Louis Coderre also spoke.

U. H. DANDURAND WARM IN ATTACK ON "THE GANG."

Mr. U. H. Dandurand, Citizens' Association candidate in St. Joseph's Ward against Mr. John Malone, held a largely attended meeting at the corner of Notre Dame and Fulford street, last night. Messrs. O. Heneault and E. A. Cardinal, in brief speeches strongly urged the electors to overthrow to present regime of the City Hall. Mr. Dandurand was given a warm welcome, and elivered an address in both languages. He declared that if elected he would do his utmost to have something done in connection with the elevation of the tracks of the Grand Trunk Railway.

He declared that it was high time that the malversationists and the "23" gang were turned out of the City Hall. The administration of the affairs of the city of Montreal by its Council, since 1902 has been saturated with corruption.

In Papineau Ward.

In Papineau Ward there is an aggressive three-cornered contest in progress, Mr. J. A. E. Gauvin, the reform candidate, standing out against Ald. Mederic Martin and Ald. Laviolette, both leading members of the "23." Last night Ald. M. Martin was roundly condemned by all speakers at Mr. Gauvin's meeting, the speakers on behalf of reform including Mr. J. Octave Mousseau, M.L.A., and Mr. Tancrede Marcil.

In St. Louis Ward.

Replying to all the insinuations launched against him, Mr. Gaston Maillet, aldermanic candidate in St. Louis Ward, last night solemnly declared that he was not a member of the French lodge of Free Masons.

'LONGSHOREMEN FAVOR ST. MARTIN AND AINEY.

Mr. Albert St. Martin, socialist candidate to the Board of Control, addressed a meeting of the 'Longshoremen's Union last night. At the close it was unanimously carried that the union should support Messrs. Jos. Ainey and Albert St. Martin for the Board of Control.

Inquest Adjourned Until Monday.

Special to The Montreal Star.

Cobourg, Ont., Jan. 27.—The inquest into the tragedy by which the two Italians, Cimpini and Francis Merano, lost their lives, was adjourned until Monday next.

Nominations Made in Gaspe.

Gaspe, Que., January 27.—At the nominations to-day, Mr. J. L. Perron, K.C., of Montreal, was chosen to represent the Liberal party, and Dr. Gauthier, of Ste. Anne des Monts, as his opponent.

LIVERPOOL, N.S.—Mary Caroline, wife of Edward Charles Baker, aged 54 years, is dead.

UNIONIST GAINS HAVE NOW REACHED AN EVEN HUNDRED

Donald Macmaster's Majority in the Chertsey Division of Surrey Was 4613.

Special to the Montreal Star.

London, January 27.—The standing of the parties at 4 p.m. was:—

Unionists	258
Liberals	250
Laborites	39
Nationalists	74
Total	621
Remaining to be returned	49
Present coalition majority	31

With the exception of two Scottish counties, where the news is snowed in and will not be generally known until to-morrow, yesterday's election returns are now complete. The Liberals add 16 seats to their previous total, the Unionist 3, and the Laborites and the Nationalists two each. The Unionists from to-day's returns place three gains to their credit and the Liberals one, making the net Unionists gain to date an even hundred.

Mr. Macmaster's majority in the Chertsey division of Surrey, of 4,613, from a minority is a conspicuous win. All of the seats in Surrey went Unionist with overwhelming majorities. In fact, all Surrey was in open rebellion against Lloyd-Georgeism. It is a highly respectable district.

LADY MANICURIST WAS AWARDED $100 DAMAGES

Judge St. Pierre this morning rendered judgment for $100 and costs against Mr. W. P. Scott, in the action brought against him by Miss Winifred Crowley. Miss Crowley when engaged as manicuriste in the Windsor attended Mr. Scott, and, she alleged, he pressed back a couple of her fingers, inflicting severe damages. She sued for $500.

PERSONALS.

Mrs. Charles Marcil is in town for a few days.

Mr. J. A. O'Brien, of Renfrew, is at the Queen's.

Mr. W. H. Thorne, of St. John, N.B., was at the Windsor yesterday.

Lady Tilley, of St. John, N. B., is the guest of Col. and Mrs. Gordon, 142 Metcalfe street.

The marriage was celebrated yesterday in St James Square Presbyterian Church, Toronto, of Miss Marion B. Smith, daughter of the late J. B. Smith, and niece of Senator Jaffray, to Mr. William Blackmore, of Victoria, B.C., the Rev. Dr. Robertson officiating.

The marriage of Miss Fanny Miller, daughter of Mr. and Mrs. Nathan Miller, of Cornwall, Ont., to Mr. William Astrofsky, of Montreal, took place in the Recreation Hall, Cornwall, on Tuesday evening. The ceremony was performed by Rabbi Glazer, of Montreal. A large number of friends were present including about seventy-five from Montreal. The bride was given away by her father and wore a gown of embroidered Duchess white satin, with veil and wreath of orange blossoms, and carried a shower bouquet of lilies of the valley and roses. The bridesmaid was Miss Caminetsky, of Winnipeg, and the groomsman, Mr. J. Astrof, of Montreal.

LIVE NEWS AND TIMELY TOPICS OF THE LABOR WORLD

Moulders Protest Against Giving Contracts to Outsiders—E. V Debs Coming to Montreal.

The Iron Moulders will hold a meeting to-night in their headquarters, Richmond street, to discuss matters in connection with the municipal campaign. Resolutions have been passed by the organization protesting against civic contracts being awarded to firms in the United States in preference to Canadian establishments.

A new lodge of the International Association of Machinists was organized in the city this week. Business Agent Foster expects the charter to-day, and it is likely the new officers will be installed at a special meeting next Friday evening. Mr. Foster states that trade conditions are good. The locomotive works at Longue Pointe are in full swing, and some of the smaller industries are working overtime.

The officers of the local union of the United Brotherhood of Leather Workers on Horse Goods have received notice to the effect that the eight-hour day will be enforced this year. Mr. George Shipman, of Toronto, who is the Canadian representative of the organization, states that the local unions are in good shape all over the country. He claims that trade conditions are good, and that there is no reason why the hours of labor should not be reduced.

The officers of the Socialist Labor party in Montreal have received word that Mr. Eugene V. Debs, the well-known Socialist Labor leader of the United States, will make a tour through Canada next month. He will also visit the anthracite coal fields of Pennsylvania, and will investigate conditions in Nova Scotia.

There will be a special meeting of the Bricklayers' Union, in the Labor Temple, on Friday evening, to receive the report of the delegates who attended the annual convention of the International Union. Matters in connection with the coming building season will also be discussed.

Preparations are already being made for the Fort William convention of the Trades and Labor Congress of Canada. President Glocking expects that it will be the most important in the history of the organization. It is likely there will be a keen contest for the presidency.

The members of the Typographical Union have decided to vote only for candidates for municipal honors who use the union label on their printing. Stickers to this effect are being posted on the fences all over the city.

At last night's meeting of the British Workingmen's Association, it was stated that Mr. W. B. Wilson and T. V. O'Connor are the 1910 fraternal delegates from the British Trade Union Congress to the American Federation of Labor convention.

It does not necessarily follow that all of the fourteen candidates who have presented themselves for election to the Board of Control in opposition to the four nominated by the Citizens' Committee have any expectation of being elected. A large proportion of them were nominated solely for the purpose of diverting votes from the candidates of the good-government movement. Is yours to be one of them?

COMPLIMENTARY DINNER TO THE BOY SCOUTS.

A complimentary dinner wil be given to rthe Canadian Boy Scouts in the Sunday school room of the Church of St. James the Apostle, on the 14th of next month. It will be followed at eight o'clock by a concert the proceeds of which will go towards extra equipment, such as compasses, sketch-books and quarter-staves. The following prizes will be given in a month's time: gold chain and silver watch to the best boy scout; set of boxing gloves to the second best. A letter has been received from General Baden-Powell sanctioning the organization of a Council for Canada. A paper chase will be held over the mountain on Saturday.

INSPECTION OF FEED IN MONTREAL CRITICIZED

The method of inspecting cattle feed at the harbor front came in for an emphatic criticising at the annual meeting of the Montreal Corn Exchange yesterday. It was pointed out by several of the members present that the inspector was using unjust discrimination and that further he had no right whatever to reject feed. President Quintal stated that representations had already been made to the Government and the Cattle Dealers' Association in regard to the matter but both disclaimed responsibility for the man's actions. The matter was left to the incoming council which was elected at the meeting.

And do not forget to make it as unlucky as possible for the thirteen survivors of the original "twenty-three" who have the effrontery to run again for the City Council.

THE EMERGENCY HOSPITAL.

As the occupation of the Emergency Hospital expires April 1, it is felt that the regular hospitals from this date should admit the new cases as far as their space will permit, to enable the cases in the Emergency Hospital to convalesce before it is vacated.

Newsboys Held High Festival.

Pete Murphy, president of the Montreal Newsboys' Protective Association, had a busy time of it last night when the third annual dinner of the organization was held in Whorton's Cafe. Over one hundred and fifty members were on hand to enjoy the feast and everyone seemed to have a splendid time. Brief speeches wer made by Mr. Wm. Keys, Dr. Finnie, M.L.A., and others. A musical entertainment was also provided and much enjoyed by the youthful diners.

Two Large Farm Sales.

Two important sales of Lachine properties have been consummated. The Ross Realty Company, Limited, has bought from Mrs. Alex. Smith lot 948 with an area of 101 arpents, in the Highlands, Lachine, for the sum of $47,350. Senator Beique is the purchaser of the Orchard Bank farm, lots 970 and 971 Lachine, the property of the estate late James Doran, with an area of 293 arpents, for $73,385.25.

Irish Family's Narrow Escape.

The house of Mr. T. Hassett, Tiford, near Ennis, was completely destroyed by fire on the night of the 2nd. The fire was first discovered by the servant girl about 1 a.m. and after alarming the family she made her way out of the house, through the smoke and flames, carrying a baby only a fortnight old. Mrs. Hassett and another child had a narrow escape.

PRISONER CHARGES HE WAS ASSAULTED

Issues Warrant for Arrest of C. P. R. Secret Service Man.

Hormisdas Lavoie, a member of the Canadian Pacific Railway Secret Service, was this morning charged with assault in the Recorder's Court on a warrant sworn out by a prisoner whom the detective arrested yesterday for loitering about the station.

The alleged assaulted one, William Prevost, 19 years of age, was arraigned yesterday before Recorder Dupuis and charged with loitering. He is a type of gentleman technically known as a "runner" for a boarding house who accosts passengers in the stations and solicits their custom for his establishment. When Lavoie arrested him, Prevost says he handled him roughly, kicking and beating him. The detective pleaded not guilty and the trial was put off until after the election.

CROSSING ON RIVER HAS BECOME UNSAFE— BUT TRAFFIC GOES ON

Recent thaws have left the river crossing between Montreal and Longueuil unsafe. The Council has ordered the sign "dangerous" to be shown, to relieve the town of responsibility. The regular roadway, however, has been daily inspected, and it is only off the recognized path that pedestrians run risk.

A quick end befell two horses, which were walking alongside the recognized roadway yesterday. They broke through thin ice, and the owner's efforts to rescue them were unsuccessful.

The Longueuil bus, however, is running all day, and by keeping to the tested path, the drivers contend, the crossing is perfectly safe.

BRIGHTON, Ont.—Mary Kennedy is dead, aged 79 years.

PUBLIC NOTICE is hereby given that under the First Part of Chapter 79 of the Revised Statutes of Canada, 1906, known as "The Companies' Act," letters patent have been issued under the Seal of the Secretary of State of Canada, bearing date the 21st day of January, 1910, incorporating Joseph Alexander Mackay, bond dealer; Wilfrid Bovey, advocate, and John Lesly Reay, accountant, all of the City of Montreal, in the Province of Quebec; William Michael Weir, bond dealer, and Alexander Falconer, advocate, both of the City of Westmount, in the said Province of Quebec, for the following purposes, viz.: (a) To purchase or otherwise acquire and hold, and to sell, assign or otherwise deal in stocks, shares, scrip, bonds, debentures or other similar securities, issued or to be issued by any bank, incorporated company or Government or municipal, school, or other corporation, or other interest or share in any such securities, or in the business, property or undertaking of any persons, firm or company incorporated or unincorporated; (b) To underwrite any issue or part of any issue of bonds or stock or other securities, and to enter into any agreement of any nature with reference to such underwriting; (c) To promote and organize and to manage and direct or reorganize, and to amalgamate or cause to be amalgamated any firms, associations, syndicates or corporations; (d) To carry on business as stock brokers; (e) To carry on business as agents and brokers for the payment, loan and borrowing of money, and for the transfer of bonds, debentures, stocks, shares or other securities; (f) To act as brokers and agents for the investment of money in any shares, bonds, debentures, rights, concessions, grants, lands, mines and mineral rights, water powers and water rights or other real or personal property, and the same to hold, manage, sell, transfer, exploit or otherwise deal with; (g) To act as receivers, liquidators or trustees for the creditors of or agents for the liquidation or winding up of any partnership, firm, syndicate or corporation, to accept and carry out any trust committed to the company by any court or person or persons, and to accept and convey any property movable or immovable, real or personal, in accordance with such trust; (h) To make or cause to be made enquiries into and to furnish reports on the legality and financial value of any issue of securities and as to the financial standing or title to property of any person, firm, syndicate or corporation; (i) To make advances of money to persons having business dealings with the Company, and to acquire and hold as collateral security such movable or immovable property as may seem fit, and to guarantee the performance of contracts by any such persons; (j) To purchase or otherwise acquire any right or interest in any patents, brevets, invention, licenses, concessions and the like, conferring any exclusive or non-exclusive or limited right to use, or any secret or other information with regard to any inventions with a view to the organization and promotion of any syndicate or corporation for the purpose of turning the same to advantage, and to use, exercise, develop, grant licenses in respect of or otherwise turn to account any such patents, brevets d'invention, licenses, concessions and the like aforesaid; (k) To carry on any business germane to the foregoing which may seem to the company capable of being conveniently carried on in connection with any of the above business or objects or calculated to enhance the value or render profitable any of the company's properties or rights for the time being; (l) To acquire and undertake the whole or any part of the business, property and liabilities of any person or company carrying on business the company is authorized to carry on or possessed, or property suitable for the purpose of the company; (m) To subscribe for, take or in any way acquire the stocks, shares, bonds, debentures or other obligations or securities of any company having objects similar to those of this Company, to sell or otherwise dispose thereof, notwithstanding the provisions of section 44 of the said Act; to guarantee any bonds, debentures, obligations or securities so sold or disposed of by this company, or of any company having such objects or carrying on any business capable of being conducted so as to benefit this company and germane to the objects thereof; (n) To sell or dispose of the undertaking of the company or any part thereof for such consideration as the company may thing fit, and in particular for shares, debentures or securities in any other company having objects similar to those of this company; (o) To enter into partnership or into any arrangement for sharing profits, union of interests, co-operation, joint adventure, reciprocal concessions or otherwise with any person or company carrying on or engaged in or about to carry on or engage in any business or transaction which this company is authorized to carry on or engage in, to guarantee the contracts or otherwise assist any such person or company, and to take or otherwise acquire shares and securities for any such company, and to sell, hold, reissue with or without guarantee or otherwise deal with the same; (p) The powers in each paragraph to be in nowise limited or restricted by reference to or inference from the terms of any other paragraph. The operations of the company to be carried on throughout the Dominion of Canada and elsewhere by the name of "J. A. Mackay & Co., Limited," with a capital stock of one hundred thousand dollars, divided into 1,000 shares of one hundred dollars each, and the chief place of business of the said company to be at the City of Montreal, in the Province of Quebec.

Dated at the office of the Secretary of State of Canada, this 21st day of January, 1910.

AN APPEAL TO SUPPORT CITIZENS' CHOICE

The Citizens' Association Speakers Make Reply to Casgrain and Payette

"Turn deaf ears to the selfish racial appeals of demagogues and show your public-spirit as French-Canadians by electing Dr. Guerin and Mr. Wanklyn next Tuesday along with all the other Citizens' Association candidates."

Every French-Canadian orator on the Monument National platform last night issued an appeal similar to that above to the electors, and expressed strong condemnation of the methods used by Senator Casgrain, Mayor Payette and others seeking municipal honors in the present campaign.

Senator Dandurand and Mr. Henri Bourassa led in the condemnation and were heartily applauded by the large crowd. Hon. Mr. Lemieux was not present, but he wrote saying he would vote next Tuesday for Dr. Guerin, Mr. Wanklyn and all the Citizens' candidates. Mr. J. H. G. Bergeron sent a letter testifying similar support.

The meeting was the most enthusiastic yet held by the Association, and the speakers, apparently aroused by the tactics of their opponents, were more direct in their attacks than before, the note running through all the speeches being an appeal to the tolerance of the majority of Montreal electors.

Both Dr. Guerin and Mr. F. L. Wanklyn added to the good impression created, by speaking fluently in French and repudiating the insinuations against them.

Rely on Public Spirit.

"The English minority," said Senator Dandurand in his speech, "placed themselves entirely at our disposal last September when they voted for a Board of Control, knowing that their representation could be buried and might be lost altogether under the votes of the majority.

"We rely upon a spirit of fellow-citizenship, and we hope that among five candidates for the Board of Control you will elect two representatives of the minority—an Irish mayor in Dr. Guerin, and an English-speaking representative in Mr. Wanklyn, who also speaks both languages.

"Recognizing the necessity of the French-Canadians to respect the rights of English-Canadians in our midst, we had thought of inscribing in the Board of Control law a clause assuring a representative on behalf of the minority. But we did not do so in the haste with which the law was passed at Quebec last session. We will have, I hope, an amendment inscribed next session, but I do not want the French-Canadian majority by their votes next Tuesday to indicate that they do not recognize such a right. I am confident that we will elect Dr. Guerin and Mr. Wanklyn along with all our candidates. (Loud applause)."

Concordia Salus.

Dr. Guerin was warmly applauded on starting to speak in French. He declared that the French-Canadian population could have demanded a mayor of their own race, but he believed in their spirit of justice and knew they would concede just rights to the minority. (Applause.)

"They pretend that I do not speak French," said Dr. Guerin. "There are people who speak better French, but I have, at least, been thought worthy of occupying a professor's chair at Laval University for years, and I believe that my name is just as French as that of the man now opposing me." (Applause.) "Concordia Salus," being the motto of Montreal, Dr. Guerin closed by hoping that the harmony and salvation of the city would be assured next Tuesday.

Patriotism Defined.

Also discrediting false cries, Mr. Joseph Ainey, candidate for the Board of Control, declared: "When we hear our opponents saying that they must have a French-Canadian mayor they must be pretty hard up for arguments to hide themselves behind patriotism. The English proverb about the last refuge of scoundrels applies pretty well in their case." (Laughter.)

Devoted to Public Interests.

Mr. F. L. Wanklyn's speech in French was warmly appreciated by the crowd. "I will do my utmost," said he, "apart from considerations of race, belief or social position. I am not the candidate of the trusts, but wish to devote myself solely to public interests and to rid Montreal of a horrible system of civic administration."

Mr. Charles P. Beaubien, K.C., said he would not draw a sad picture of Montreal suffering under a regime now expiring. But Mr. Beaubien did draw a melancholy picture of civic affairs, of vicious systems and of streets so badly paved that farmers' hearts were gladdened when they left city streets behind them and could glide over the smooth pavements of Westmount and Outremont. Dishonest aldermen were being called malversators, but he believed in calling them robbers.

Bourassa Came Next.

Mr. Bourassa, after declaring himself in favor of the Citizens' Association, cast ridicule on Senator Casgrain's appeal by the following remarks:

"Senator Casgrain appeals to the French-Canadian population to vote for him because he is a French-Canadian and because of the Catholic Congress in Montreal next summer. I do not want to indulge in personalities, but up to the present Senator Casgrain has shown no tendency to be a martyr either for his religion or race. Should we not place an interrogation mark and add a grain of salt in view of this sudden explosion on behalf of religious and racial maintenance? (Laughter.) In past struggles I never saw Senator Casgrain's standard raised on behalf of his race. But now, all at once we have a new crusader, and surrounded by Gaston Maillet and Godfroy Langlois, he wages war for religious maintenance. (Applause.)

"I find it shameful," continued Mr. Bourassa, "to raise such race cries in order to make Montrealers vote for a French-Canadian. On the contrary, to have our rights respected, we must recognize the integrity of such men as Dr. Guerin, in whose hands the French-Canadians will be proud to place their mandate next Tuesday. Men and women who have votes must go to the polls and prove that Montrealers can cast aside the appeals of demagogues.

At the beginning of the meeting, ex-Judge Loranger and Mr. J. C. Beauchamp, the joint chairmen, announced their sympathy with the aims of the Association.

Mr. T. Rheaume concluded the meeting by saying that Judge Cannon had placarded the City Hall with his report, and that now the building awaited disinfection.

Rheumatism IS A GERM DISEASE.

Six years ago it was discovered that Rheumatism is caused by a toxin which germs create. And the disease can never end until the germs are destroyed; that is certain. It does little good to get rid of the poison when the germs are left to create a new supply.

Liquozone cures Rheumatism, because it kills germs. It is not like other germicides, which are poisonous when taken internally, but a harmless germicide which acts as a tonic.

Liquozone is not a mixture of drugs. It is a scientific product, derived solely from gases. It is a tonic vitalizer and purifier. The treatment is both local and internal. The germs which cause Rheumatism perish at its touch, because they are of vegetable origin.

Liquozone

is now used almost the world over in the treatment of Rheumatism. Countless cured ones know from experience that Liquozone does what nothing else can do. Its effects are so certain and so immediate that we issue a certificate of guarantee which covers a two months' test at our financial risk.

Don't treat Rheumatism in harmful, ineffective ways.

If you are a sufferer, please send your name and address for Book No. 6. We will send date that we issue a certificate, which is free from technicalities and restrictions. Please send to-day; our offer places you under no obligation whatever.

Liquozone costs 50c and $1.00.

Stocks Dip Again--Money is Easier--"Scotia" Pool--Mr. McLeod Hits Out

ANOTHER BAD TUMBLE IN THE WALL ST. LIST

Locals, However, Were Not Much Influenced by Decline

The bulls received another shock today, for, in spite of the fact that many brokers were predicting the market had turned, the Wall Street list opened weak and broke badly again around eleven o'clock, carrying some stocks to a new low level on this movement.

Colorado Fuel broke from 41½ to 36½, and Reading made a new low mark at 154½.

Hocking Coal sold at 12½.

The big interests seem determined to let the market sag of its own weight, but some claimed that the floods in France, wiping out some $200,000,000 of established values and greatly disorganizing that country's finances, were a factor in the break.

Locally, Dominion Steel, under buying by Macdougall Bros., started off at a runaway pace, selling up to 68½. The advance was spoiled, however, by the break in New York, which naturally created a gloom on the local board.

But our market as a whole showed a tendency to grow dull rather than weak when Wall Street was breaking.

Rubber sold at 98.

Power opened strong at 134¾ and lost a point. "Street" was neglected.

Power sellers: Weir & Son, McDougall & Cowans, Davidson & Co.

In Wall Street

A wire to E. & C. Randolph said: "The market opened slightly lower, and instantly pressure developed in all directions, the result being that stocks began to sell off immediately, and during the first two hours heavy declines have been recorded. Union Pacific lost nearly 4 points, and Steel common nearly 3, and these stocks were merely typical of what went on elsewhere through the list. The liquidation has continued in the same way in which it has been conducted for the past month; that is, advantage is taken of strength to sell stocks, and in the pressure support is withdrawn when it looks like the market would become demoralized. Prices have rallied fractionally from the lowest, but there seems to be no buying power in the market, except from shorts, and they find little difficulty in covering up on these heavy declines.

Sales to noon, 554,000 shares.

HARD LUCK SPECULATORS

Financial Editor Montreal Star.

Sir,—I purchased 1,000 shares of Bay State Gas from Mr. Lawson, and am consequently entitled to a place of honor in your column.

P. S.

Financial Editor Montreal Star.

Sir,—I bought Crown Reserve at 89c and sold it at $1.10. It went to $6. Bought it back at $4.90. It's now $3.80.

SORROW.

Financial Editor Montreal Star.

Sir,—In a fit of temporary insanity I bought some Otisse-Currie and Temiskaming. Am now trying to find out how much I can get on my watch.

EASY.

Financial Editor Montreal Star.

Sir,—Somebody told me Union Pacific would go to 300, and I bought some at 211½. It is now 188, which is some distance from 300. Have responded nobly to three calls for margins.

1909	20,036,274
1908	23,210,263

Tri City for the Past 12 Months

Tri City Railway for the year 1909 shows net earnings of $890,587, against $749,760 in 1908, a gain of $140,827.

OPINIONS ON THE MARKET.

Laidlaw & Co. — While further disturbance from Washington is to be expected there seems no danger of any further marked declines from the present level.

Oswald Bros.,—Succession of bear raids resulted in sharp reactions all along the line, giving the market a ragged appearance. Room traders were all bearish on the ground that Wednesday's violent advance had resulted in heavy liquidation of the short interest, and the French calamity would inevitably lead to liquidation of securities by foreign holders.

'SCOTIA' POOL COUNTS ON A DIVIDEND RAISE

Otherwise They Would be So Free Buying the Stock

Special to The Montreal Star.

Halifax, January 27.—A local banker said to-day:

"I should say that the 'pool' in Nova Scotia Steel stock will continue to buy from time to time until it has acquired by purchase and control about 25,000 shares."

"Do you believe the dividend on Scotia will be raised?"

"I don't believe it will be raised—I know it will be raised. Do you think for a second that these new people are buying the stock without some assurance that the stock will go on a 5 or 6 per cent. basis? They are not as simple as that.

"What the future will bring is hard to say, but I know this—the present management is interested in the new plans."

BANK OF MONTREAL 259.

Bank of Montreal stock sold up to 259 to-day, a new high mark on this movement.

Call Money Goes Under 3 Per Cent.

Money is easy in Montreal, while in New York to-day it loaned as low as 2¾ per cent. At noon it was 3 per cent. Some private money is loaning here at 4½ per cent.

MR. PETER RYAN HERE AGAIN.

Mr. Peter Ryan, of Toronto, has issued a circular showing how banks the world over pay to issue currency and in general taxes. The Canadians banks, he points out, pay nothing on their note issues.

STREET RAILWAY EARNINGS.

Montreal Street Railway Co. earnings Tuesday, January 25, $10,965.14; increase, $1,198.58.

ITEMS OF THE COBALT CAMP

At the annual meeting of the Hargrave Mining Company the statement showed receipts of $39,000 contributed to the treasury by vendors of the property, which, with interest, made a total of $90,524.15. The disbursements were $59,231, leaving a cash balance in the bank remaining of $31,272. In addition there is ore on hand of an estimated value of $10,000.

Authorization was given for the issuance of Hargrave treasury stock to the amount of $1,400,000 for development purposes, as might be deemed advisable.

The Lucky Godfrey, in Willet Township, near Elk Lake, has seven tons of rich ounce ore bagged and ready to ship.

The Beaver Consolidated Mines has issued a circular informing shareholders that the car of ore shipped to the smelter on December 15 netted the company $47,948.81.

The annual meeting of the Gifford Cobalt Mining Co was held yesterday. The report of the development work already done on the property was satisfactory to the meeting.

MERGER TO HAVE $6,000,000 CAPITAL

It is understood that the capital of the new merger, Canadian Canners, Ltd., will be in the vicinity of $6,000,000 or $7,000,000.

The merger will embrace 60 of the leading canning plants in Canada.

TOPICS OF THE STREET

Although Mr. Rodolphe Forget keeps "mum" on the affairs of Nova Scotia Steel and will neither confirm nor deny current reports, the Star has received from Halifax a complete list of those who are in the "pool" to acquire absolute control of that property.

There is no doubt now that this group of men already control, with the stock Mr. Forget has purchased in the open market, fully 20,000 shares, and it is said that the "pool" stands ready to acquire a lot more stock if necessary.

The buying of "Scotia" has been a big help to brokers and speculators in general.

In the recent upset "Scotia" was one of the few stocks people could sell without a sacrifice.

The high priest of external bank inspection has retired, but the plan is one that will likely live to be discussed for a long time to come.

It calls for courage to sell short a stock that returns 6 per cent. in a 3½ per cent. money market.

Now that the Dominion Bank will have an authorized capital of $10,000,000, that will put seven banks in that class:

	Authorized.	Paid Up.
Montreal	$14,400,000	$14,400,000
Commerce	15,000,000	10,000,000
Merchants	10,000,000	6,000,000
Royal	10,000,000	5,000,000
Imperial	10,000,000	5,000,000
Toronto	10,000,000	4,000,000
Dominion	10,000,000	4,000,000

A plea for bonds of small denomination is made by the Canadian Century, which believes that the small bonds will prove a great boon to the investor of moderate means.

BRITISH CONSOLS OFF AGAIN.

British Consols were lower again, closing at 82 5-16 for both money and account.

$5,000,000 Issue Was Oversubscribed

The Royal Securities Corporation announces that the $5,000,000 issue of Western Electric Co. 5 per cent. gold bonds was heavily oversubscribed.

The books opened at 10 o'clock to-day and were closed immediately.

The issue was made by the Royal Corporation here, and Lee Higginson & Co., in the States.

Gets After the Brokers in Pool

Special to The Montreal Star.

New York, January 26.—Suit was begun to-day by Howard H. Taylor, of Brooklyn, against six of the brokerage firms who were credited with being members of what is now known as the "Hocking Pool Agreement," to recover $23,800 which Mr. Taylor says he lost in the crash of the Hocking Coal & Iron Company stock on the Stock Exchange a week ago.

Through the Taylor suit it is expected that the details of the agreement or the pool which had the Hocking stock in charge will be made public. James R. Keene is reported as the manager of the Hocking pool.

Sir Felix Applauds Our Bank System

Canadian Associated Press.

London, January 27.—Sir Felix Schuster, speaking at a bank meeting, said the Canadian banking system was highly efficient and useful.

Lawson Gave It To His Children

Or at Least That is the Dream He Publishes.

Thomas W. Lawson writes the Boston News Bureau as follows:

"I have not disposed of a share of my Chino, directly or indirectly, since the exercise of the Chino options on 275,000 shares, and I will not do so at $29 a share. To prevent myself from being tempted, all of my stock is now my children's, and if my wishes are followed—and I think they will be—will be theirs after I have passed into that region where wrangling is unknown and stock-gambling profits are unnecessary. That is what I think of Chino after living with it for 12 years.

"Another straw as to my opinion of the worth of Chino. Upon my advice, my relative, and married-into-the-family relative, disposed of New York Central bonds and Rubber preferred, and purchased 16,000 shares of Chino, all at rising $13."

PROPOSED COPPER MERGER.

The increase in the stock of the Anaconda Copper Company from 1,200,000 shares to 6,000,000 shares is for the purpose of acquiring all the Amalgamated and Cole-Ryan properties in the Butte district.

Active Demand For All Fruits

Fruits are in good demand, and an active trade is passing, as is usual before the advent of the Lenten season. Apple prices hold up strong under an improved demand, while lemons are slightly easier.

Messrs. Peterson & Co. quote to-day:

ORANGES—Valencies, 420's, $3.50 per case; do. 14's, $3.75 per case; California navels, 126-200, $3.40 per box; Cal. navels, 96-112, $2.75 per box; Mexicans, 126-216, $2.50; Floridas, 126-216, $2.75; Jamaicas, $4.75 per bbl.

GRAPE FRUIT—64-84, $4 per box.

GRAPES—Malagas, tinted, $6 per keg.

APPLES—McIntosh Reds and Fameuse, No. 1, $5 per bbl.; Baldwins, Greenings, Russetts and winters, except Spys, No. 1, $4; do. No. 2, $3.25.

DATES—Hallowees, 4¾c per lb.; new, 7c per lb.

FIGS—New, 2¾ inches, 8 crowns, 11c per lb.; do. 2½ inches, 7 crowns, 10c; do. 2¼ inches, 6 crowns, 9c per lb.; do. naturals, 5c per lb.

BANANAS—Jumbos, crated, $2.25 per bunch.

LEMONS.—"Marconi" 300's, fancy, $2.80 per box.

CHICAGO CATTLE MARKET.

Chicago, January 27.—Cattle receipts estimated at 6,500; market weak; beeves, $4.10 to $7.40; Texas steers, $3.75 to $4.80; western steers, $4.00 to $5.90; stockers and feeders, $3.00 to $5.30; cows and heifers, $2.00 to $5.40; calves, $7.00 to $9.25.

HEAVY SALES OF FLOUR FOR EXPORT

The heavy demand for flour from European sources is the feature of the local market. The enquiry is principally for the lower grades, and as bids are in line with millers' views, some large sales were made. The local market is fairly active and firm, under a good demand from local and country buyers.

Manitoba spring wheat patents, firsts, $5.80; seconds, $5.30; winter wheat patents, $5.50 to $5.60; Manitoba strong bakers', $5.10; straight rollers, $5.10 to $5.20; in bags, $2.40 to $2.50.

CHATS ON CHANGE

Cable advices received on the local Board of Trade to-day from the principal markets of Great Britain, give butter as active, with buyers taking on more freely. Holders are asking more money, and on some grades have obtained an advance of a quarter to half a cent. Arrivals have been promptly cleared, and at the close the feeling is very strong. Finest grades: Danish, 26 to 27c; New Zealand and Argentine, 24 to 25c; Australian, 23 to 24c; Russian, 22½ to 23½c.

There is a decidedly better feeling all around in the cheese markets. Under rather freer buying sellers have obtained a slight advance. Finest Canadian Septembers, 12¾ to 13¼.

A private wire received on 'Change today from Chicago said: "I think wheat, corn and oats should be sold. I regard wheat as the best sale, because it has the handicap of being 10c per bushel above the world's level, and must get back there. The world's level of prices is also very high."

WHEAT IS IN AN UNSETTLED CONDITION NOW

From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.

Chicago, January 27.—Wheat was unsettled. The tone was heavy, with sales of May at 1.11 to 1.10⅜, and July at 1.01⅜ to 1.01½, compared with resting spots of 1.11¼ and 1.01¾, respectively, yesterday.

While prices in the wheat market were choppy, the changes were at no time large. Business was mainly on professional account, with the North-West and the South-West taking a hand on both sides of the market.

European Markets.

There was a change in sentiment on wheat at Liverpool, and prices there fluctuated quite lively during the day. The close for spot, however, was unchanged, and futures were unchanged to ¼d better. Antwerp was unchanged, Berlin was ½c and Budapest ¼c higher.

Paris wheat was ½c lower, and flour was 1 to 1¾c lower. Spot wheat was in poor demand at Liverpool. Argentine distant charters were more freely offered and the future markets were reported as lower.

Argentine Shipments.

Argentine shipments, while estimated at 960,000 bushels, are not as heavy as looked for. The actual shipments last week were 402,000 bushels; a year ago they were 4,696,000 bushels. Advices from the southern hemisphere say that a heavier outward movement of wheat is assured. Press despatches and private cables report conditions in France as alarming, and it is feared that the crop losses there will be large by floods.

North-Western receipts of wheat today exceeded those of a year ago, and Minneapolis stocks increased 450,000 bushels for five days compared with a decrease of 175,000 bushels for a like period a year ago.

J. F. PRITCHARD.

Still Working Western Route

Winnipeg, January 27. — Mr. T. H. Worsnop, general manager of the Canadian-Mexican Steamship Line, has left for the East, and it is his intention to go direct to England to arrange for terminal facilities at Liverpool for the reception of the grain which he expects to handle over the eastern route from Alberta.

Mr. Worsnop is acknowledged to be the pioneer of the western grain route. He introduced Alberta wheat into Mexico, and so established its individuality in that country that the dealers there will have no other, it is claimed.

H. C. M'LEOD TAKES A WHACK AT BANKERS

Who Have Not Stood for the External Inspection Idea

Special to The Montreal Star.

Halifax, N.S., January 27.—In closing his address to the directors and shareholders of the Bank of Nova Scotia, General Manager H. C. McLeod said:

"Perhaps you are mentally enquiring why this change. The plain simple truth is always best. I have contemplated retirement for some time, and at this visit I have urged the request so strongly that the board have acceded to my desires in the matter. There are absolutely no differences with the board.

"But I am not satisfied with banking conditions in Canada, and I am apprehensive of the results that will follow the period of fresh inflation of bank credit on which Canada has just entered.

"For more than ten years I have striven to improve banking conditions, and while my agitation on the subject of cash reserves resulted in remedying a dangerous condition, one that otherwise would have been disastrous in 1907, there is much yet to be accomplished. I was content to wait for the bank act revision of 1900 to that of 1910, and to strive in the meantime. A well-informed banker has announced in words that cannot be mistaken, regarding his authority to speak for the Government, that there is not likely to be any important changes in the bank act. The next revision is beyond my horizon line. All the members of the Canadian Bankers' Association are opposed to changes that I have urged with the object of doing away with the secretive management, and they suggest no other remedy for the demonstrated weakness of our system.

Public Favors It.

"There are many in that association for whom I entertain high regard, and with whom I regret to differ on points essential to the financial safety of the country, to differ so sharply that ordinary regard for the will of the majority fails to influence me. The percentage of shareholders in favor of supervision which I quoted may in all fairness be assumed to represent the attitude of shareholders of all banks.

"The public are strongly in favor of external supervision. But the general managers and directors of banks stand in the way and through the centralized authority of the Canadian Bankers' Association influence legislation regardless of the interests and evident wishes of the shareholders and the public. With the paramount influence of the Bankers' Association, the same result must follow under any political party.

Would Fight Association.

"While I dislike controversy, if there were sufficient years to my credit in the ordinary term of business activity, I might not shrink from a struggle that would involve the existence of the Canadian Bankers' Association, against which we urged, at the time of its incorporation, that the combination was against public policy.

"The dissolution of that body seems the first essential of banking reform. The controversy would involve differences of opinion with the Minister of Finance, for whom I entertain the highest esteem. I have earnestly and consistently sought to do my duty in the interests of Canadian finance.

"Eventually the more important changes advocated will come. Secretive management must end. But I have not the patience to await these changes nor the disposition to quietly tolerate banking practice which has produced so much loss and which looms a dark cloud on an otherwise fair outlook."

EGG PRICES STRONG.

Egg prices are well maintained under a good demand. Selected No. 1 stock, 31c, and No. 1 candled at 29c.

BUTTER MARKET FIRM.

The butter market is firm under a good demand, with choicest creamery quoted at 25½ to 26c, and fresh receipts at 24 to 25c.

CANADIAN CHEESE IN BETTER DEMAND

There is an increased enquiry from England for Canadian cheese, and prices have strengthened. Shipments are going out rather freely, and at the present rate it will not be long before the local stocks are exhausted.

This has caused a very buoyant feeling in the spot market, and those who still have stocks on hand are very firm in their ideas, and are talking 12 to 12¾c for Ontario cheese. September make. These prices seem to be a little extreme at the moment, but there is very little doubt they will reach that level during the next week or two.

To-day easterns are quoted at 11⅝ to 11¾c, and westerns at 11⅞ to 12c.

A BETTER TONE TO LIST HERE IN AFTERNOON

When the Wall Street market began to rally in a rather impressive manner, the local list showed signs of firmness. Price changes, however, were comparatively small.

Steel after going to 67 rallied to 67 1-2.

Crown Reserve was firm at $3.97. Col. Carson at the meeting yesterday advised the shareholders not to sell their shares.

Power was strong at 124¼ at the close.

Winnipeg Wheat Showed Strength

Winnipeg wheat acted strong, and closed higher to-day. The Liverpool cable came ⅜d higher for the day, but the trading on export account was small, the advance evidently checking the demand. To-day's prices:

Canada's Loan Well Taken

From Special Correspondent of the Montreal Star in London.

London, January 27.—The Bank of Montreal closed to-day its list for the Canadian Government loan of £4,000,000.

The issue was covered by public subscriptions and the result is regarded favorably in view of the fact that half of the new Indian loan at 96 1-2 was left with the underwriters also seeing that Germany is about to float a 4 per cent. loan at 102, equivalent to a 3 1-2 per cent. loan at 93, whereas the Canadian loan was at 99.

SPEEDING FIRE WAGGON CRASHED INTO BUILDING

While responding to a call from Latour street, the ladder waggon of No. 5 fire station on Berthelet street, swung around while going down Beaver Hall Hill just after passing Lagauchetiere street, and the rear end crashed into the garage entrance of the Morgan factory on Beaver Hall Hill. No one was injured.

ONE MORE CORPSE TAKEN FROM WRECK AT SPANISH RIVER.

Special to The Montreal Star.

Nairn Centre, January 27.—The body of Charles Duff, of St. John, N.B., was discovered by divers today and brought to the shore. The search is still being strenuously carried on.

West Indian Commission Arrived.

Kingston, Jamaica, January 27.—Lord Balfour of Burleigh, Sir Daniel Morris, and Hon. W. M. Patterson, Minister of Trades and Commerce of Canada, and other members of the Royal West Indian Commission, arrived on the steamer Clyde to-day.

The Commission will deal with trade relations between Canada and the West Indies.

Toronto Terminal Bill Lost.

Special to the Montreal Star.

Ottawa, Ont., January 27.—The Toronto Central Terminal bill, along the same lines as the Montreal Central Terminal bill, was thrown out, almost unanimously by the Railway Committee to-day.

The Toronto City Council is strongly opposed to the measure as leading up to a monopoly.

WILLIAM MACKENZI . President Canadian Northern Railway:

"The Twin Cities of Port Arthur and Fort William, by geographical position, form the gateway of commerce between Eastern and Western Canada and are destined to grow in proportion to the growth of the Dominion. The barometer of their fortunes may be consulted as indicating the trade conditions of Canada. During the past ten years West Canada has advanced more than in the previous thirty years—the same may be said of Port Arthur and Fort William; and there is every reason to believe that this progress will be continued."

Mr. William MacKenzie is to-day the greatest business success in Canada. He has no rival. His judgment should be good advice to act upon. Get particulars about Victoria Park, and get a few lots. You will then benefit by Mr. MacKenzie's judgment.

LAURIER WARD IS LIKELY TO BE DRAIN ON CITY FINANCES

Salaries to Employes Taken Over Equal Total Revenue From the Ward.

The City Treasurer to-day received an official statement from Ville St. Louis (now Laurier Ward), showing that the city will have to pay a sum of $150,000 in salaries alone to the staff of employes that were taken over with the annexation of the municipality. This amount is equivalent to the revenue which will be collected from the ward, and the interest on the municipality's loans, which also amounts to about one hundred and fifty thousand dollars, will become a direct charge on the city's present revenue.

"When the Budget is prepared at the end of the year," said an official in discussing the monetary burden that the annexation lays upon the city, "It will be open to the Board of Control to say if too many employes were given to the city with the acquisition of St. Louis, and also if they are being too highly paid. For the present, however, we must pay the staff on the basis fixed by the old Council of St. Louis.

WONDERS OF THE GREAT NORTH LAND

Old Mackenzie River Engineer Discusses Arctic Region.

Mr. George McLaughlin.

George McLaughlin is in Montreal, on his way to England. An engineer on one of the steamers which ply between Great Slave Lake and the Arctic ocean, Mr. McLaughlin is known at every trading post and mission station along the Mackenzie river. He has spent eight years in the north, and he comes south impressed with the possibilities of the great northland.

The Mackenzie river, however, Mr. McLaughlin does not consider as suitable for settlers. "The scenery is beautiful in many parts," he says. "The river is one of the grandest: its width towards the mouth, I should say, being about two miles and a half. For many miles, it runs through range on range of mountains. But the climatic conditions are against agriculture. Everything that is raised has to ripen in a hurry. Down south the nights are cool in summer, and vegetation rests for a few hours out of the twenty-four; but up north, there is no coolness at night, and vegetation grows constantly for about two months.

"Lettuce, radishes and onions have matured as far north as Macpherson on the Peel river. On the 6th July, 1908, Rev. Mr. Whittaker, of Fort Macpherson, gave us onions and radishes that he had raised; while on Great Slave Lake, at Fort Resolution, splendid potatoes and vegetables have been raised. From the mouth of the Liard at Fort Simpson on the Mackenzie river down, practically nothing can be raised. The vegetables never reach the average size.

"Indians and Eskimoes are being depleted in their numbers through throat affections—measles also inflicting ravages among the Indians—the influence of the white man is steadily spreading through the north land. Along the Mackenzie, there are stations about every 140 to 160 miles, and the whole district is better policed by the Northwest force than was formerly the case. But the average number of white men at each station totals not more than five."

"And as to the fur supply" Mr. McLaughlin was asked.

"Fur up there is on the increase," was the reply. "During the last three years, the supply was less than usual. But this winter there has been an increase. There seems to be a regular run of good and bad seasons. After six or eight years of good catch, there will be a light catch for a time, and so on."

The summer temperature up in the north, Mr. McLaughlin states, runs as highas 95 in the shade. In the winter, on the verge of the Arctic circle, the murcury stands generally at about forty below, although readings have been taken there showing as low as sixty below.

One Year for Obstructing Work.

Sydney, N.S.W., January 27—President Bowling, of the Northern Miners' Federation, was to-day convicted of obstructing work at the mines during the strike, and sentenced to one year at hard labor in prison.

Three other strike leaders were given sentences each of eight months at hard labor, while a number of miners were condemned to briefer terms of imprisonment.

Premiers Discussed Ungava.

Quebec, Que., January 27.—The Prime Minister, Sir Lomer Gouin, arrived from Ottawa last night, after an interview with Sir Wilfrid Laurier respecting the Ungava territory. He expects to have another interview in a few days, when the annexation of the Ungava territory to the Province of Quebec will be formally settled.

Appointed Waterways Delegate.

Special to the Montreal Star.

Cornwall, Ont., January 27.—At the meeting of the Cornwall Board of Trade, Mr. R. A. Pringle, K. C., was elected to represent the Board at the meting of the International Waterways Commission, to be held at Toronto on February 8th, when the Long Sault matter will be gone into fully.

Norwegian Cabinet Resigns.

Christiania, January 27.—The elections to the Storthing having been averse to the ministry, Premier Knudson to-day submitted to the King the resignation of the cabinet.

President Beattie of the Storthing probably will be invited to form a new cabinet.

STUART STRATHY,
General Manager.

Toronto, 31st December, 1909.

"During the year the following branches were opened: Bruce Mines, Camrose, Castor, Chapleau, Didsbury, Dryden, Embrun, Forget, Gadsby, Gerrard and Main Sts. (Toronto) Gerrard and Jones (Toronto) Gleichen, Holden, Lynden, Market Branch (Hamilton), Montreal, Vancouver, Vars, West Fort William, Yonge and Richmond Street (Toronto), and Zealandia. One branch, Hepworth, was closed."

The General Manager's Address.

The General Manager, having read the foregoing report, made the following comments:—

You can see by the foregoing statement that the Bank has made substantial increase in every department during the past year. The deposits now amount to $29,800,000, as compared with $25,300,000 a year ago, while during the same period the circulation of the Bank has risen from $2,600,000 to over $3,000,000. These additional funds have been used to the extent of over $3,800,000 to further the commercial needs of the country, by an increase in loans to the public to that extent.

Out of the profits of the year, we have been able to pay dividends amounting to $315,671.48, and together with the amount carried over from last year, after making the usual appropriations to Guarantee and Pension Funds of $10,000, and writing off $20,000 on account of Bank Premises, etc., we have added to Rest Account the sum of $200,000, making that fund a little over 50 per cent. of the paid-up capital stock of the Bank; while the sum of $102,443.40 has been carried to the credit of Profit and Loss "New Account."

Cash Reserve.

You will notice by the statement, the strong position which the Bank maintains as regards Cash Reserves. It is the fixed policy of the Bank to maintain a large proportion of its assets in a readily convertible form. This policy necessitates a large amount of funds at its disposal, to be employed at low rates. The Management of the Bank, however, considers it the first essential that the Bank shall be at all times in a position to take care of its rapidly increasing clientele in all varying conditions of trade. That this policy is in the best interests of the Bank has been amply justified, the Bank being able during the recent times of an exceptionally tight money market to take care of all the legitimate wants of its borrowers. Our ability to do this has given the Bank a connection which is of inestimable value, not only in cementing old clients to the Bank, but in attracting new business towards us.

Canada's Resources Attracting Good Settlers.

We have been blessed with a bountiful harvest during the period under review, not only in one section of this vast Dominion, but in all sections, the field crops alone yielding in money value about $533,000,000, not to mention all the other natural resources of this vast country. True it is our population is very limited, considering the immense territory belonging to us; but a large tide of immigration has commenced to be attracted towards us. It is estimated that in the neighborhood of 90,000 American settlers alone, with perhaps $90,000.00 in cash, have settled in the Northwest Territories within the last year, besides settlers from Europe, amounting roughly to another 32,000 souls.

It is a platitude to say that the potentialities of this country are not to be conceived of, and the prospects of the country are identical with the prospects of its financial institutions, and that your property will increase in value with the growth of the country it is only reasonable to assume. The rapid settlement which will ensue by the completion of three Transcontinental Railroads will increase our population at an enormous rate, and who is bold enough to predict what proportions its commerce will assume say within the next ten years? The money markets of the world are open to us, investors abroad realizing the intrinsic value of our securities and the increasing value which will naturally accrue to the same as the country is developed. I sincerely trust we may so fulfil our obligations, private and corporate, to merit this confidence..

The Bank's Progress.

This Bank's ramifications have been extended during the past year by the opening of several new branches. Amongst the most important, I mention Montreal and Vancouver. Our growing business demanded our occupation of these important points, and the growth of the Provinces of Saskatchewan and Alberta has induced us to increase our sphere of influence in those Provinces.

The Capital of the Bank now amounts to $4,354,500, and the Rest Account to $2,200,000. It is interesting to note the growth of your property as compared with ten years ago:

	1899.	1909.
Capital paid up	$1,700,000	$ 4,354,500
Rest Account . .	70,000	2,200,000
Deposits	5,661,000	29,813,000
Circulation . .	681,000	3,060,000
Total Assets. . .	7,638,000	39,963,000

The revival in all lines of business on this Continent is more or less apparent. It is natural that we should feel the mighty impetus which follows from a favorable state of affairs in our agricultural and other resources. We must not forget, however, that it is during such times we are apt to overshoot the mark of prudence in the matter of extensions. The inevitable cycle of bad times is bound to recur, and it behooves us to keep our commitments well in hand to prepare for other conditions when a policy of retrenchment will be necessary.

It will afford me much pleasure to answer any questions in connection with the statement which any of our Shareholders may see fit to ask.

In the absence of the President, the Vice-President, Hon. J. R. Stratton, spoke as follows:—

The Vice-President's Address.

The Bank has been more than prosperous during the past year. Benefiting by the general advancement of all branches of business, and receiving its full share of the advantages resulting from greatly-improved conditions in the trade of the country, the Bank has been able to present to you a report which is as highly creditable to the management as it must be gratifying to the shareholders. At no time in its history has it presented more satisfactory results, nor has it ever been in as strong a position as it occupies to-day. Its reserves have been strengthened, and its business largely extended. The deposits have greatly increased, and the assets are readily available. The field of its operations has been extended, and several new and highly important branches have been organized. A thorough revision of the working of the staff and the management of the various agencies has been exercised, and your directors are in close relation to the business transactions and affairs of the Bank from the Head Office down to the smallest branch. We have endeavored to bring the numerous details and many dealings of the various offices directly before the Board by means of systematic arrangement, in order that we may have an actual knowledge of what is going on in all the offices.

The Auditor to the Board.

The services of the Auditor to the Board have been devoted largely to this important work, and by his efforts we are enabled to pass upon the whole records of the Bank's business in an intelligent and effective manner. To illustrate, I might mention the matter of credits. By systematic and exact reports which we receive every week your Board is informed of how credits are being dealt with, how far accounts are being paid off, as they mature, to what extent credits may be effected by over-drafts or change in securities, and how each Branch is progressing. By this method no material move can be made without the sanction of the Board. The actual condition of important accounts is investigated from time to time, and special reports concerning them are prepared and presented for such action as may be deemed advisable. Except in cases of small advances, every credit must be approved of by the Board on the fullest statement of the available facts. This method involves a large amount of work, but your Directors feel that they could not fully perform their duty to you and to themselves in any other way.

Economical Management.

Economy in every branch of the business is insisted upon, and I am glad to say that in this we are assisted by the whole staff. Saving has been effected in the matter of supplies by placing this class of expenditure in the hands of a competent and careful official. In transferring and appointing Local Managers and clerks, in the opening of new offices and in the division of the work there has been a decrease of expenditure wherever possible. In no case, however, has this desire for economy been allowed to impair the efficiency of the working of the Bank.

Branch System Extended.

During the year, owing to the largely increased business of the Bank, we found it advisable to open some important Branches. In Vancouver, an Agency has been established in a central and highly desirable location. A property was purchased which has already considerably increased in value, and the Bank has opened there with every prospect of success. An office has been opened in Montreal under favorable circumstances, and several desirable points between these two large cities have been selected for our Branches. The results from the Western field thus opened up have been very gratifying and have fully justified the action taken by our Directors. It will also be necessary to consider in the near future what steps should be taken to connect our system with the Maritime Provinces, thereby extending our financial relations and still further increasing our facilities for doing business in all parts of Canada.

The astonishing growth and extension of Toronto, and its business, demanded serious consideration. The most important move made here was the opening, within the past few weeks, of a Branch at the corner of Yonge and Richmond streets, in the office lately occupied by the Bank of Montreal. Already business of a most material character is coming to us at this Branch, and being in the centre of the commercial, financial and trade locality of Toronto, this point will always be an important Agency.

Assets Sound.

I need not go into the details of the Annual Statement, which has just been read to you, and which you have had for some time past in your hands. I would like to point out to you, however, that we are able to add $200,000 to Rest Account, to contribute $20,000 in reduction of building and furniture account, to give $5,000 to Pension Fund for the benefit of disabled or old retiring officers, to add $5,000 to a Guarantee Fund to protect the Bank against loss by personal defalcation or losses through any member of the staff, and to carry something over $102,000 to Profit and Loss account.

In preparing this statement we have dealt with the value of the Assets in a vigorous manner. There has been no hesitation in allowing most liberally reasonable provision for bad and doubtful debts, and I believe that no item has been knowingly placed amongst the assets at one dollar more than its actual and available value. We felt that the solidity and vital character of the Bank's business justified us in using more than ordinary criticism of what might be treated as doubtful, and I believe that had we applied the ordinary test to the valuation of our assets, the net gains would appear much in excess of what the statement shows.

Gratifying Increase in Business.

At the last Annual Meeting the statement was made that for 1909 great progress might be looked for. I am delighted to say that this statement has been fully verified. We have made, so far as I am aware, absolutely no bad debts during the year, except in a few small accounts which may yet be realized. The whole twelve months present a record of credits well observed, debts promptly paid, and no losses.

Our deposits have increased at an astonishing rate, and this, after all, is one of the great tests of public confidence and of stability in a Bank's affairs. Look for one moment at the facts. The increase alone in our deposits for the past year is nearly as great as the total deposits were ten years ago, then representing nearly fourteen years' accumulations. This year's addition to Rest Account is three times more than the total Rest of the Bank ten years ago. We have added to our Total Assets in 1909 a sum almost equal to the whole assets of the Bank at that period, and the increase in circulation of the Bank is equal to two-thirds the whole circulation of the bank at the same period of comparison. In addition to all this you are now receiving an increase in dividend of 1 per cent., as promised, with ample provision against all contingencies. The promises held out a year ago have therefore been fully met, and we have no doubt that the future will bring equally good if not better results in every Branch of the Bank's business. Notwithstanding the low rate of interest during the earlier part of the year and the abundance of available money, the earnings of the Bank have not suffered. We are able to increase the Dividend and maintain at the same time a strong position with regard to all other obligations and contingencies. The increase in Dividends is warranted by the condition of the Bank's affairs, and we felt that the interests of the shareholders should be kept in view, as the Bank has reached the stage when it can well afford to recognize these interests without impairing its ability to perform all its other obligations.

It is also a source of pleasure to know that the relations between the Bank and its Customers are so satisfactory that the litigation is almost unknown in the Bank's record for 1909. The absence of legal proceedings shows the accounts to be in a healthy condition, for it is only in cases of bad or doubtful credits that the law has to be invoked. Prompt payment and good security are the chief reasons why the Bank has not required the aid of the Courts, and when you consider that nearly $40,000,000 are under the control and management of the Bank, with tens of thousands of accounts in all parts of the Dominion, outstanding and current, and that only a few suits have been entered during a whole year, you will readily conclude that the financial condition is safe and strong.

The Building.

One of the best investments of the Bank continues to be the Head Office Building. Every foot of rentable space is occupied, and the rents are promptly paid. After paying all outgoings the Bank receives nearly 5 1-2 per cent. net profit on the investment, or to be exact, 5.40 per cent. Rents appear to be increasing notwithstanding the many new office buildings and with our equipment and accommodation for tenants, there need be no fear as to the future revenue from this source. The other buildings also yield a good return and promise well for the future.

The staff from the chief of the Executive to the messengers are enthusiastic in their work, attentive to their duties and efficient in every detail. Every office has been thoroughly inspected and full reports made to the Board thereon.

I now move that the Report for the year 1909 be adopted.

Mr. E. F. B. Johnston, K.C., seconded the motion. He pointed out that the bank had risen from small beginnings to be one of the most important financial institutions in the Dominion. It had all the elements of sound progress and stability. The large deposits during the past year showed the confidence of the public. The absence of litigation proved that the debts were being promptly paid, or well secured and the increase in the dividend, justified as it was, is the strongest evidence of the good earning power of the Bank. The Directors scrutinize every credit, except in very small accounts, and exercise their best discretion in determining the policy and conduct of the Bank's affairs.

The motion for the adoption of the report was carried unanimously.

It was moved by Mr. Geo. L. Riche and seconded by Mr. Geo. Watson, that the thanks of the shareholders are due, and are hereby tendered to the President, Vice-President and Directors of the Bank for their attention to the interests of the Bank during the past year. Carried.

It was moved by Rev. J. S. Williamson and seconded by Mr. J. R. McKichan, that the thanks of the Directors and Shareholders are due, and are hereby tendered to the General Manager, the Assistant General Manager, and the staff of the Bank, for their diligent attention to the interest of the Bank during the past year. Carried.

It was moved by Mr. Ed. Dickenson and seconded by Mr. J. J. Gibson that the ballot be now open for the election of Directors, and to be kept open until three o'clock, unless five minutes elapse without a vote being cast, when it shall be closed, and until that time, and for that purpose only, this meeting be continued.

The scrutineers reported the following gentlemen duly elected to act as Directors for the ensuing year, viz.: C. D. Warren, Hon. J. R. Stratton, C. Kloepfer (Guelph), W. J. Sheppard (Waubaushene), C. S. Wilcox (Hamilton), E. F. B. Johnston, K.C., H. S. Strathy.

The meeting then adjourned.

At a subsequent meeting of the newly elected Directors, Mr. C. D. Warren was re-elected President, and Hon. J. R. Stratton, Vice-President, by a unanimous vote.

Liverpool Conservatives Meet.

Special to The Montreal Star.

Liverpool, N.S., January 27.—The conservatives met in convention yesterday afternoon to nominate a candidate in opposition to Mr. A. W. Hendry.

The party leaders it is stated, are averse to a contest at the present time and Messrs. W. L. Hall and Philson, who have been nominated, are similarly disposed, but the convention was in favor of a contest. Mr. Hall and Mr. Kempton have been given time to consider the matter.

American Companies' Views.

Special to The Montreal Star.

Ottawa, Ont., January 27. — That thereshould be specific limitations, to enable American companies to use their own forms and that they should not be forced to put up security for ten per cent. more than the values of their policies, were the views expressed by Mr. R. C. Cox, attorney for the United States Manager's Association, before the Senate Insurance Committee to-day.

CHILBLAINS

Should be "nipped in the bud." In other words, they should not be allowed to "spread," as they most certainly will do if neglected. During this cold and frosty weather they are most prevalent, and anyone suffering from this most painful ailment—whether on the hands or feet—should at once consult our London Specialist, who will not only give immediate relief, but, by following his directions, a permanent cure. INDIAN CONSPIRACY DEEP.

Included Establishment of Kingdom With Headquarters at Delhi.

Lahore, British India, Jan. 27.—It developed at the trial of an alleged conspirator that the plans of conspiracy against the British Indian Government included the establishment of an independent kingdom with a king, an imperial council of five, a house of princes and a house of commons, the latter having a membership of thirty. The government seat was to have been at Delhi.

ORANGEMEN TO CELEBRATE.

Brockville Lodge Will Honor Eightieth Anniversary.

Special to the Montreal Star.

Brockville, Ont., January 27.—The committee appointed by Loyal Orange Lodge, No. 1, to arrange for the eightieth anniversary of its establishment, has issued nearly one thousand invitations to lodges in Eastern and Western Ontario, Quebec and New York State.

The celebration, which takes place next Twelfth of July, is expected to attract between twenty and thirty thousand visitors to this place.

Many prominent orators belonging to the Order are expected to attend the celebration.

Better Pay for Ambassadors.

Washington, D.C., January 27.—Ambassadors from the United States to foreign countries should be better paid, according to President Taft, who, in an after-dinner address last night to the National Board of Trade, declared it was a shame that with the wealth of the United States, nobody but a millionaire could afford to accept a post as its Ambassador.

UNITED STATES CLIMBING DOWN BEFORE GERMANY

Washington Despatches Announce Acceptance of Berlin Government's Cattle Import Conditions.

Special to The Montreal Star.

New York, January 27.—The Times Washington correspondent says: It is understood on good authority that the State Department has decided to recede in its demands, and to accept Germany's severe restrictions on the importation of live cattle into that country. As a result, fears of an immediate Tariff War have been quieted, although the understanding arrived at is of a temporary sort that may lead to renewed negotiations at no distant day.

The situation means that the two countries will continue to give each other their minimum tariff rates.

ANOTHER WAY OF PUTTING IT.

Washington, D.C., January 27.—The United States Government has practically decided to leave the German boycott on American cattle out of consideration in determining whether Germany be granted minimum tariff privileges.

Such a determination would probably assure Germany a place among the countries excepted from the twenty-five per cent. increase in duties which the Payne-Aldrich Law declares shall be imposed after March 1.

Word has been cabled to Germany, it is said, that cattle point is waived by the United States, and that the way is thus paved for a settlement of Germany's tariff relations with the United States.

We know what candidates have declared themselves the enemies of civic dishonesty; we know the "malversators," but we do not know who is secretly supporting them.

NIAGARA FISH PIRATE SHOT.

Canadian Inspector Fired Upon Americans Using Dynamite, Killing One.

Special to the Montreal Star.

Niagara Falls, Ont., January 27.—As the result of an exchange of shots between Thomas Briggs, a game inspector of the Ontario Fish and Game Protective Department, and men alleged to be "fish pirates," one man, John Weyand, a saloon-keeper, of Tonawanda, N.Y., is dead.

Mr. Briggs reported to the Department that the men were dynamiting fish on the Canadian side of the river, and when ordered to come ashore replied with several shots from their guns. Whereupon, he claims, he fired upon them in an attempt to sink their craft.

The companion of the dead man a man named Egner, rowed his boat to the American shore and reported the killing to the authorities.

Then the Court Adjourned.

Washington, Georgia, January 27.—Noticing the unusual appearance of the face of Cy Bullard, a negro arraigned before him on a misdemeanor charge, Judge Wm. Wynne, of this county, asked the County Physician to examine him.

"Smallpox," said the physician, whereupon judge, court officers and spectators made for the doors and windows, leaving the negro in complete possession of the court room.

An immune officer later took him to jail, where he is now the sole prisoner.

Valuable Furs Seized at Ottawa.

Ottawa, Jan. 27.—One of the biggest seizure of furs made in Ottawa took place at the Union depot, when District Game Inspector T. E. Loveday confiscated a bale valued at over $6,000.

The bale contained furs of all descriptions and was consigned, it is said, to the Hudson's Bay Company, at its headquarters in London, England.

Mr. Loveday declined to say on what grounds the shipment was seized, but said it was caused by infractions of the game laws."

Emperor Aided Unfortunate Man.

Berlin, January 27.—While returning to the castle through the Thiergarten yesterday, Emperor William came upon an unconscious man lying in a lonely spot. His Majesty immediately sent his adjutant for aid, and attempted to restore the man to consciousness.

The Emperor afterwards telephoned to the hospital to inquire as to the man's condition, and finding that he was one of the unemployed, and had fainted from hunger, promised to assist him in obtaining work.

Two Killed on Level Crossings.

Binghamton, N.Y., Jan. 27.—Mr. and Mrs. Seth Thibbets, living in the town of Union, were instantly killed while attempting to drive across the Erie tracks in front of a passenger train on the Nanticoke crossing, about a mile west of Union, last night.

Their horse was killed and the cutter in which they were riding was demolished.

Two New Canadian Clubs.

Winnipeg, Man., Jan. 27.—Canadian clubs have been organized recently at Daysland, Alb. and Kenora, Ont.

EXCHEQUER COURT ACT AMENDMENT

Senator Belcourt Introduced Bill Affecting Government Responsibility for Accidents.

Special to The Montreal Star.

Ottawa, Ont., January 27.—A number of petitions were presented in the Senate, from people in various parts of Canada asking for amendments to the Criminal Code to forbid race-track betting.

Senator Macdonald, of British Columbia, said he desired to call the attention of the Government to the demand that the many petitions on this subject should not be filed away and forgotten.

Senator Belcourt, in moving the second reading of his bill to amend the Exchequer Court Act, said the object of the bill was to enable damages to be recovered by a man injured in person or property through the negligence of any Government servant employed on a public work. At present a man had to be injured on a public work to recover.

Senator Belcourt said he had made the bill retroactive, to cover cases since the law he sought to amend was first introduced, because he was certain this had been the intention from the first.

Sir Richard Cartwright said he would have to consult with the Minister of Justice in regard to this bill.

PILOTS EXAMINED UNDER PROTEST

Claim Capt. Demers Has Not Acted in Accordance With Pilotage By-Laws.

"All licensed pilots and apprentices shall undergo every year during the months of March or April an examination as regards eye-sight and for color blindness and hearing, before a medical officer appointed by the Department—By-law 17 of the pilotage district of Montreal.

Captain L. A. Demers, Chief Examiner of Masters and Mates, and acting Wreck Commissioner, to-day examined fifty pilots for eye-sight and color blindness, but only under formal protest from the pilots. They declared that Captain Demers ordered the examination out of season, and which was not in accordance with the by-law quoted above. A committee of pilots complained to-day that the journey from their homes through Quebec Province cost the Pilot's Association about $300 in expenses, which they would not receive from the Government.

"We are usually examined in March or April, as directed in the rules, and as we have to come to Montreal anyway at that season we do not incur any extra expense. This year, however, we were disturbed in mid-winter for an examination, which is without precedent in pilotage history."

AGED MAN FATALLY INJURED BY ELEVATOR IN NORTH-END FACTORY.

George Allard, aged 76 was seriously crushed by an elevator at ten o'clock this morning in the factory of the Hampton Manufacturing Company Ltd., corner of Mount Royal ave., and Clarke street. Allard, who lives at 13 Beaudry street, was employed as carpenter, while looking down the elevator shaft the car came down on him. There is little hope for his recovery.

COMPLICATION IN COMING ELECTIONS

Polling Booths Will Be Farce if Candidates Insist on Rights.

An unforeseen difficulty has cropped up in connection with the civic election next Tuesday. The law provides that voters shall only be allowed in a polling booth one at a time and nobody else shall be allowed to remain there except the deputy returning officer, the poll clerk and the agents of the candidates, not exceeding two for each. That is where the rub comes. The act providing for a Board of Control specifies that the clauses of the City Charter describing the method of voting shall apply to the Commissioners' election. The legislators never seemed to have thought that so many people would want to "control" the city, or that a five thousand dollar salary would be so enticing. Each one of the eighteen Board of Control candidates is entitled to have two agents in every polling booth, each aldermanic candidate, and each mayoralty candidate has a similar privilege. Those who "only" shall be permitted to remain in the booth will number, including the officers, no less than forty-six. It is no exaggeration to say that many of the polling booths would not hold forty-six persons if they were rolled up like a Christmas tree en route to market or packed like sardines in a box, and in all of them the unfortunate voter will have great difficulty in squeezing through the crowd to catch the eye of the man who presides at the ballot box. All that can be hoped for is that all the candidates may not take the trouble to appoint agents.

A curious case of unforeseen difficulty in a municipal election occurred in a town in Nova Scotia a few years ago. The law was intended for small towns, but one of the largest abandoned the ward system and decided to vote for all its aldermen for the whole town, as Montreal is now about to do for its Board of Control. In such a case the law only provided for one polling place. The result was n one polling place. The result was on jam that many were in serious danger of suffocation. Finally affairs got so bad that carpenters were called in and big holes was cut in the wall of the Court House so that voters could get out after they had voted without being crushed to death. Even then many had been unable to get in before the hour for the poll to close. Next year the law was amended so as to provide for several polling stations, even where the whole town was one ward.

Montreal voters next Tuesday will do well to get to the polls early and avoid the rush, as the voting can only take place between 9 a.m. and 5 p.m., the desired amendment extending the hours of polling as in the case of last September's referendum, not having been made yet.

The Matoff Recital.

Michael Matoff, the Russian violinist, accompanied by Miss Lillie Schultze and Miss Sophie Myers, appeared before a sympathetic audience at Windsor Hall last night, in an excellent and well-varied programme. Mr. Matoff achieved success in his parts, selections from Bach, Sarasate, Wieniawski and other noted composers. Miss Schultze, the possessor of a fine mezzo-soprano voice, sang two pieces of Reynolds-Halin very prettily but was less successful in other selections. Miss Myers proved a very successful accompanist.

Local Germans Celebrate.

In view of the fact that to-day the Kaiser celebrates his fifty-first birthday, the Teutonia club is giving a banquet at its club house on Dorchester street, at which all the leading Germans of the city will be present.

Herr R. Frankson, the German consul, will propose the health of King Edward, and Mr. Dorkin, the president of the club, will perform the same ceremony for the German Emperor.

Attempted Murder Charge.

Facing a charge of attempted murder, Philipi Napoli appeared before Judge Leet this morning and was remanded for voluntary statement. Napoli was arrested on Saturday last, during the row on St. James street, in which three men were injured.

WANTS CONTROL OF RATES.

Mr. Brewster Urges British Columbia Government to Secure This.

Special to The Montreal Star.

Victoria, B.C., January 27.—Speaking on the Address in the Legislature, Mr. Brewster urged that the Government should insist on the control of rates in the contract with the Canadian Northern, the same as Manitoba had done.

Premier McBride, in reply, said he was satisfied that when the bill was brought down its details would commend themselves to members on both sides as fully meeting all the requirements of the situation.

NO MORE EIGHT CENT MILK.

New York Farmers Declare Nine Cents is Lowest Price.

New York, January 27.—"Eight cent milk is a thing of the past, and if New York city wants to get good milk, especially during the winter months, it must pay nine cents for it," said Mr. B. A. Capron, a large milk producer, of Oneida County, at a meeting of the New York Milk Committee to-day. "You were paying eight cents ten years ago, and now you are paying more for everything, and so is the farmer. Where does he come in?"

Other farmers were similarly bitter and although the meeting was called originally to discuss better milk for babies, lower prices were not mentioned again.

MR. FOSTER SAYS $80,000,000 SPENT UNDER PATRONAGE

Declares Senate Hospital for Cripples and Incapables of Party in Power.

Special Staff Correspondence.

Press Gallery, House of Commons, Ottawa, January 27.—The abolition of the patronage system was the theme yesterday. It was introduced By Hon. G. E. Foster, who moved a resolution declaring:

"That in the opinion of this House the prevailing system of party patronage constitutes a menace to honest and efficient Government, incites to great waste of resources and extravagance of expenditures, tends inevitably to corrupt and lower the tone of public morals, and should forthwith be eliminated from our Federal administration."

And the Government reply was put by Mr. Hugh Guthrie in an amendment in these words:

"That this House approves of the rapid advances made by the Government towards the elimination of the system of party patronage, which has been in operation under every administration since Confederation, and views with satisfaction the system now in force of making all important purchases by public competition and tender."

The patronage system, began Mr. Foster, was the lineal descendant of the old royal monopolies. The difference was that the Kings farmed out the revenues in the light of day, while the patronage system was concealed behind the pretence of popular government.

He went on to point out the widespread ramifications of the patronage system:—

I. The Inside Civil Service—now "to a certain extent," removed from the system—but still included in many regards. The number would be 8,000 or 10,000, and their families, relatives and friends.

II. The Outside Civil Service—entirely within the system—including the Intercolonial with its 10,000 employes; the Post Offices, 12,000 more; the Departments of Customs, Inland Revenue, Marine and Fisheries, Agriculture, Interior; and of Public Works with enormous expenditures. In all 30,000 or more, with their families, relatives and friends.

III. Numerous commissions, the Army and even the Judiciary.

IV. The Senate.

V. The Government press, through Government advertising and printing.

To put it in terms of money, Mr. Foster said that out of the total Dominion expenditure of $112,000,000, $30,000,000 only was spent under statute and over $80,000,000 under the patronage system.

Bench and Senate Appointments.

Regarding the judiciary, Mr. Foster did not deny that many good appointments were made; but could it be argued that the entrance through the door of politics would better the appointees? Did it not lead in some cases to "mighty poor appointments?" Would it not, at the best, distract the attention of the appointees from the law during their service in politics?

In Senate appointments, he remarked, even Sir Wilfrid must have given up his ideals.

Sir Wilfrid—"Give us your confession!"

Mr. Foster—"I am not in the mood for making confessions. I am appealing for the adoption of better methods of public administration and my best appeal will be to the powerful First Minister to join us in doing it."

"The Senators," he went on, were "the creatures of the Premier." They had to "kiss his foot, whatever else they may have to do. It would not be so bad if the Prime Minister used fresh material instead of old, powdered and decayed material." The Senate was in short "a hospital for the cripples and incapables of the party in power."

THE REPLY FOR THE GOVERNMENT.

Mr. Hugh Guthrie, spokesman for the Ministerial side, characterized Mr. Foster's resolution as "extravagant." It was a direct vote of censure on the administration. For it condemned "the prevailing system," which meant the existing administration. Mr. Guthrie went on to question Mr. Foster's sincerity and to make many quotations from the Cassels Commission evidence to show the existence of the patronage system "in all its innocence and in all its iniquity" when the conservatives were in power and when Hon. G. E. Foster was Minister of Marine.

Mr. O. S. Crocket—"Have you any examples of the purchase of hardware from dentists or the giving of paving contracts to railway managers?"

Mr. Guthrie—"Not exactly, but some so similar that I am sure you will admit the principle."

Mr. Guthrie did not maintain that "the present system" was perfect. But it was "the best so far devised." To illustrate this he sketched the system of the purchase of supplies in several departments. Public advertisements with no patronage list and open tenders was the policy on staples; emergency supplies were purchased through a responsible and efficient purchasing agent. In one instance, he cited, the I. C. R. asked tenders over the whole continent. "That is a system," said Mr. Guthrie, "which can be broken through only by dishonesty."

Comments on Newspaper Advertising.

He admitted that the patronage system still existed in the outside service; but that was a problem the solution of which he did not know. Newspaper advertising, he also admitted, was given chiefly to Liberal papers, but not invariably. "You do not," he explained, "like to give advertising to a paper which is constantly criticising you unfairly." He thought advertisements should be given to Liberal newspapers where they had the circulation; where they had not, the advertising might be given to Conservative papers, the Canada Gazette. Mr. Guthrie concluded by moving the amendment already quoted.

The Next Census in June, 1911.

The remaining five minutes before adjournment were occupied by Mr. Martin Burrell. The debate has little chance of resuscitation.

The next census will be held in June, 1911. The method will be the same as in 1901. This statement was made by the Minister of Agriculture in reply to Mr. J. E. Armstrong.

Regular Values $1.25 and $1.39. Friday, Each

Part of the Lot is a Special Purchase. Others are Samples: We Can't Let Them Linger Even a Day

It isn't the ideal Shirtwaist season just now, but what's the odds? Look ahead to your personal requirements—the way you do to brighter weather. And while blouses are some of the things you'll be needing most, presently. Only for stock-taking being right at our door, the price on these would be considerably more—even though we did buy them specially. Reflect that our price for Friday is practically HALF THEIR VALUE.

Every Waist is crisp, fresh and new—a dozen different patterns in the lot, from those trimmed with neat embroidery to those with dainty Valenciennes lace and insertion. Reg. values $1.25 and $1.39; all sizes 34 to 44. To-morrow, each..... 69c

"La Walohn" and "Bien Jolie"

These are the custom finish Corsets which give the pretty feminine curves the dainty slope between bust and hip, and preserve with perfect comfort the youthful grace of the figure, whether standing or sitting. These Corsets are shown in the latest Spring models, the last word from Paris.

The B. & J. Brassieres or Bust Supporters are acknowledged to be the best line manufactured on three continents. Come and see them, and have Madame Gritton (the expert fitter from New York), fit and advise you as to the proper style of Corset adapted for your individual figure.

"LA RAY" CORSETS

—are made of imported French coutil cloth, with duplex filling, which is pliable and will not rust, four hose supporters, silk moire ribbon and bow at top of corset, with draw string and skirt hook. On sale Friday, at $1.45
