Shawville, Quebec, Wednesday, May 27th, 1970

per copy 10c

Gerald Boudreau new partner in Rowat law firm

Commencing Monday, June 1 M. Boudreau will be a partner with Raymond Rowat in his law office in Shawville.

Gerald was born and attended school in the Magdalen Islands and went to Sacred Heart University in Bathurst, New Brunswick where he was granted his BA degree in 1963.

He received his law degree, (LL. L.) from the University of Montreal in 1969 and was admitted to the Order of Notaries after success in his final exams in May of this year.

While attending University he worked for one summer as assistant personnel manager with Mr Robert Bourget at the Consolidated-Bathurst Pontiac Mill and for two summers in apprenticeship with Rowat's in Shawville.

Mr Boudreau took one year of post graduate law studies at the University of Ottawa between 1969 when he received his law degree in Montreal and 1970 when he was admitted to the order of Notaries.

He is 28, unmarried, enjoys golf, water skiing, snow skiing and duck hunting, and is completely bilingual.

GERALD BOUDREAU is welcomed to the firm by Raymond Rowat.

Canoe trails at Verendrye Park

La Verendrye Park is now open for the public and the Department of Tourism, Hunting and Fishing has announced that there are five hundred miles of cleared and parolled canoe routes emanating from Le Domaine base camp which is on Lac Jean Pere, thirty five miles from the southern border of the Park.

The services in the Park are improved and there is a larger staff this year to take care of the needs of visitors.

Along the navigable routes canoes are treated to unusual panoramic scenes of great variety whether they take a leisurely cruise on the lake or an excursion of several days along routes of varying lengths. There are canoe trails to suit the capabilities of people with varying degrees of proficiency.

Further information about canoe trails in La Verendrye Park can be obtained from the District Office at 653 St Joseph Boulevard, Hull, telephone 776-1531, or the District Office at 5075 Fullum Street, Montreal, telephone 873-2276, or at Le Domaine, Parc De La Verendrye, telephone Operator and ask for Number 650.

What's inside?

New Notary in Shawville

On Thursday, May 21, in a ceremony at Montreal, Gerald Boudreau was welcomed as a member of the notarial profession in the Province of Quebec. The swearing in took place in the Bonaventure Hotel at three o'clock in the afternoon.

Royce Richardson named most gentlemanly at hockey

At the Annual Senior hockey dance held here Saturday night, Royce Richardson won the award for the most gentlemanly player, combining sportsmanship and ability.

Canson Ryan the award for the most valuable player and Bill Murray the best defensive player award. Fan of the year trophy was presented to Albert McQuarrie and coach Gil Fraser was

honoured with a gift from the hockey team by Captain Earl (Chester) Fowell. In the \$100.00 a month draw, Don Fulford won the big money to the tune of \$500.00 on a ticket drawn

by Ted Lydall. \$25.00 winners were Athol Dale (2 wins) Frank Lacourse (2 wins) Lester McCann (2 wins) Bob Bowen (2 wins) Al Cunningham (2 wins) Gary Pettigrew, Renfrew, Raymond Shea, Campbell's Bay, Lorne Kearns, Otter Lake, John M Gauthier, Bryson, Tom Narlock, Otter Lake, Helmut Erle, Dalton Richardson, Heather Dale, at Moorhead, Bob Thomas, and a combination ticket with 3 names R Racine, M Hahn and F Lacourse was also drawn twice, Doug Young, Wayne Park, Allan Black.

Coach Gil Fraser was M C for the presentations. Bill Kuehl was in charge of arrangements for the dance and the Shawville Community Orchestra provided beautiful music. The evening was a great success and the hockey team and the dance chairman are grateful for the crowd that attended and anyone who bought tickets and were unable to attend.

The school and all Shawville is very proud of this little group of gymnasts who are not only strong, healthy and talented but also who spend long hours practising their skills in gymnastics.

Shawville junior gymnasts come second

Up - up -

On Monday, May 25th, four gymnasts from McDowell Elementary School, Shawville competed in Aylmer against Buckingham and Aylmer Elementary in a regional meet.

The children competed in three categories: Tumbling, Vaulting, and Free Exercise.

Those participating were the five pictured here. Mary Anne Homer and Gloria Crouse atop the pyramid photographed by Mrs Andai, and George Homer who was the team's spare man, Royal Soucie and Wayne Campeau.

Ronnie Hodgins came as a spectator but regrettably was not able to participate due to an arm injury.

Terry Davies drove the team to Aylmer and Muriel Keatley, their teacher and coach, accompanied them.

The results of the meet were as follows:

TUMBLING
Buckingham 36.8
Shawville 34.1
Aylmer 34

VAULTING
Aylmer

VAULTING
Shawville 39.2) tied
Aylmer 39.2)
Buckingham 38.9

FREE EXERCISE
Buckingham 36.8
Shawville 30.9
Aylmer 17.7

OVERALL TOTAL
Buckingham 112.5
Shawville 104.2
Aylmer 90.9

and away!

Amber and Dale are champs

BADMINTON CHAMPIONS at Campbell's Bay Elementary School are, left to right, Helen Stewart, girls runner-up, Amber Davis, girls champion, Dale Robinson, boys champion, Greg Presley, boys runner-up, and backing them up is Mr W Sage, their Principal and coach. Photo by Mary Baird

Play Ball!

This phrase is going to be heard for the fourth consecutive year for Pontiac's Senior Girls. At first there were only two teams, Vinton and Bryson.

Last year Campbell's Bay, Portage Du Fort and Fort Coulonge joined the league. After a great struggle Campbell's Bay was awarded the Trophy winning three games in a five game play-off against Fort Coulonge.

This year Shawville and Otter Lake have joined the league making a total of seven teams. Fort Coulonge, Vinton, Campbell's Bay, Otter Lake, Bryson, Portage Du Fort and Shawville. They each will play twelve games, six games at home and six away. At the end of the schedule the top four will play off for the cup.

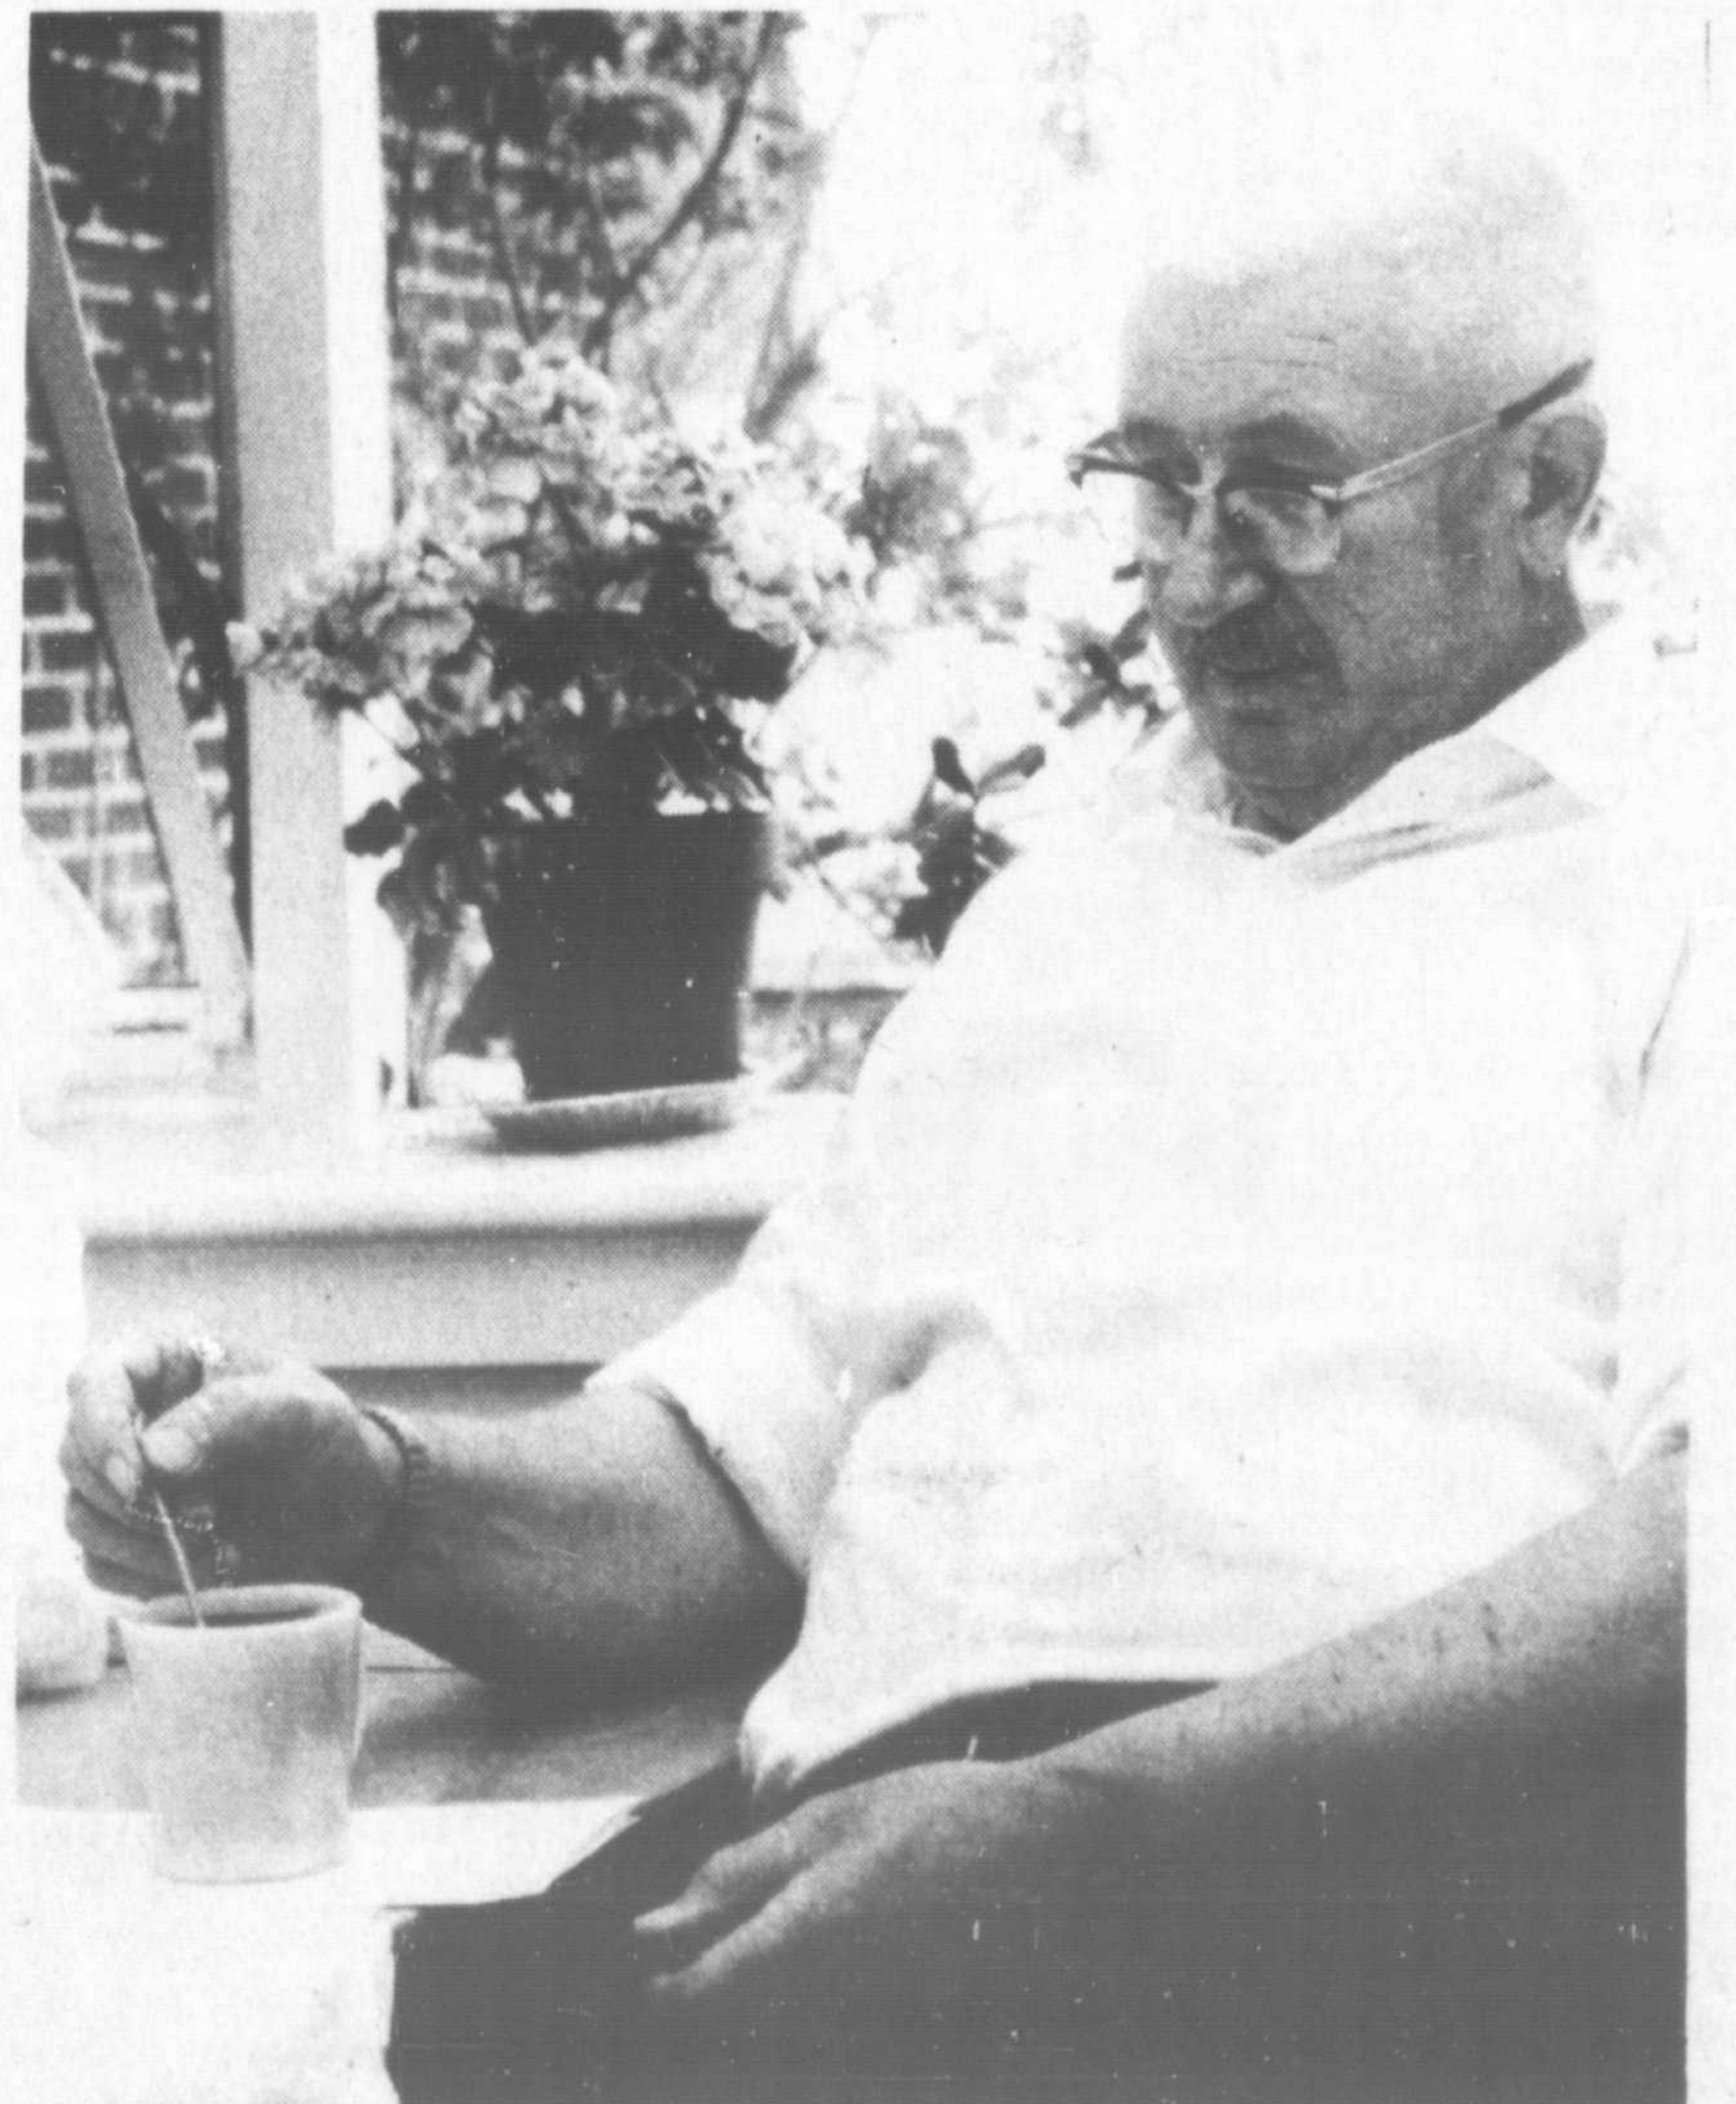

Many of the girls admit that they are no Mickey Mantel or Roger Marris but they go out and do their best and some are mighty handy with a bat and glove. All games are played at six-thirty.

MAY 28th:
Bryson Vs Fort Coulonge
Portage Vs Campbell's Bay
Vinton Vs Otter Lake

MAY 28th
Campbell's Bay Vs Bryson
Fort Coulonge Vs Portage
Shawville Vs Vinton

JUNE 2nd:

THE LIBERALS AND BILL 63

Guy St-Pierre is a 36 year old civil engineer who was educated at Laval University, the University of London and the Imperial College of Science and Technology. He has been vice-president of the Quebec section of the prominent Canadian engineering firm, Acres Quebec Ltd. He has been involved in the Churchill Falls hydro-electricity project and in elaboration of a program for research and school development. He has also education experience in Vercheres riding, where he was elected as a Member of the Quebec Parliament, as a professor.

Now he is the Minister of Education for the Province of Quebec and he has inherited a hornet's nest. He would be well advised to seek and accept advice from Dr. Victor Goldbloom who is a 46 year old pediatrician, educated at McGill and Columbia Universities, who is also in the Cabinet of Quebec, and from Oswald Parent, 44 year old chartered accountant who is the only Cabinet Minister from the Outaouais region. Both Dr. Goldbloom and Mr. Parent have a realistic understanding of the situation as it is and neither is likely to be affected in their decisions by fantasy.

The new Cabinet Ministers may not yet be reading THE EQUITY but if by any chance they do come across this copy, they will know that we feel strongly in favor of the Hon Guy St-Pierre taking advice from his fellow Ministers, Goldbloom and Parent, on the subject of Bill 63.

This is the bill which entitles everyone to choose the language of education for his own children. This is the

bill which will enable Quebec families to have entirely bilingual children by choosing one language for their schooling and using the other at home.

The bill is now law but the new Liberal Government has heard so many complaints that they are considering re-writing it, throwing it out or amending it. There is the possibility that they will remove the permission of French language people to choose English education for their children even though this privilege would be the biggest benefit to the French speaking people of Quebec ever offered.

There may be some fanatics who do not want their French speaking compatriots to become proficiently bilingual just as there are some fanatics who oppose the learning of French by English speaking children. These latter are the sort who permit French to be taught in English language schools by people who themselves are not fluent in French. The sooner this ridiculous situation is corrected the better. And the sooner Quebec permits its French speaking population to become fluent in English, the better.

Mr. Robert Bourassa, Premier of Quebec, may have an influence on the Minister of Education. Surely, between the two of them, both of whom have received higher education in English language universities, they will come up with the sane decision that the Bill 63 idea of letting the parents choose for their own children is a good one. Surely the Ministers without portfolio, Victor Goldbloom and Oswald Parent, will advise them of the wisdom of this aspect of Bill 63.

THE LIBERALS AND CANADA

It may well be that the oath of allegiance to the Queen will be dropped from the swearing in ceremony of Members of the Legislature. This is a matter for the people in power to decide but they will doubtless have a lot of opinion thrust their way on the subject.

Our two cents worth, for what it is worth, is a plea that if the Queen comes off the list of allegiances for future Members of the Provincial Parliament, they do not also drop Canada off.

Some separatist members would like to pledge allegiance only to Quebec and if they are permitted to leave Canada out it will mean that we have Members in the Legislature who are not willing to admit loyalty to this country.

There is sound argument for the restriction of Membership in our Provincial Parliament to loyal Canadians. If a person proclaims his disloyalty to our country by refusing to pledge allegiance to Canada he should not be given

the privilege of Membership.

Surely Canada is the only country in the world which will permit a person to serve in one of its provincial legislative assemblies whose avowed aim is to not be Canadian. This being as it may, good or bad depending on your point of view, the least we can expect is that once such a person has been elevated to the high position of Membership in such an Assembly he should be given one last opportunity to proclaim his loyalty.

If giving these people a voice in Parliament constitutes a safety valve for a sizeable portion of the population, then it must be good. But if it gives them a public opportunity to renounce Canadian citizenship, then they should be prevented in every possible way.

If our new Liberal government is indeed a federalist group, as they promised so loudly before the election, then here is an early test to prove their faithfulness to their election promises.

TEN

There are other sorts of pollution than the slow destruction of land, water and air. There is also the slow destruction of man. In each case the slowness of these processes is gradually speeding up and in each case it could soon become an irreversible situation.

Deformities can be and are being caused by chemicals which are consumed in one way or another by the parents of the deformed. This happens to all species of plants and animals including humans.

Last week the Minister of Agriculture of Canada restricted the sale of 2, 4, 5-T weed killers because their use on cereal foods has caused abnormalities in young laboratory rats and mice. There will be a lot of talk by the pollutionists about the fact that there is no evidence that this weed killer which has been in use since 1948 has caused adverse effects on man. They will also say that no effects have been revealed by calving records for herds from ranges treated with 2, 4, 5-T. But it just so happens that there is no record anywhere of the incidence of abnormalities in calves. Also, since virtually all humans have been eating 2, 4, 5-T treated cereals and vegetables and have been exposed to it in recreational areas and around water there is nobody to tell how many human deformities it has caused.

But this is only one chemical. There are tons of others. And the deformities noted in humans are also many. Those we see such as congenital blindness, stunted limbs as in the thalidomide cases represent a very small percent of deformities of birth. There are a million

ways a person can be internally deformed, many of which do not become apparent until quite late in life.

It is very hard to provide uncontaminated food for the family. Whatever you buy to eat seems to contain combinations of pesticides, preservatives, additives, stabilizers and so forth.

The only way to get away from all this stuff is to grow organic foods, that is without chemical fertilizer and without chemical spraying, and if you can't grow your own, try to buy it. The chain stores will not be able to supply this for a while but after enough people have insisted, they will find sources for organic foods, including organic eggs and baked goods from organic grains.

The tenth suggestion for those who are against pollution and are serious about it is to start a local feeling towards organic foods.

It is not going to change the world overnight and it is not going to be a popular movement in the eyes of people whose business it is to sell chemical fertilizers, pesticides and sprays. But the time is coming when the human race will depend on organic food; we in Pontiac might as well start thinking in this direction now.

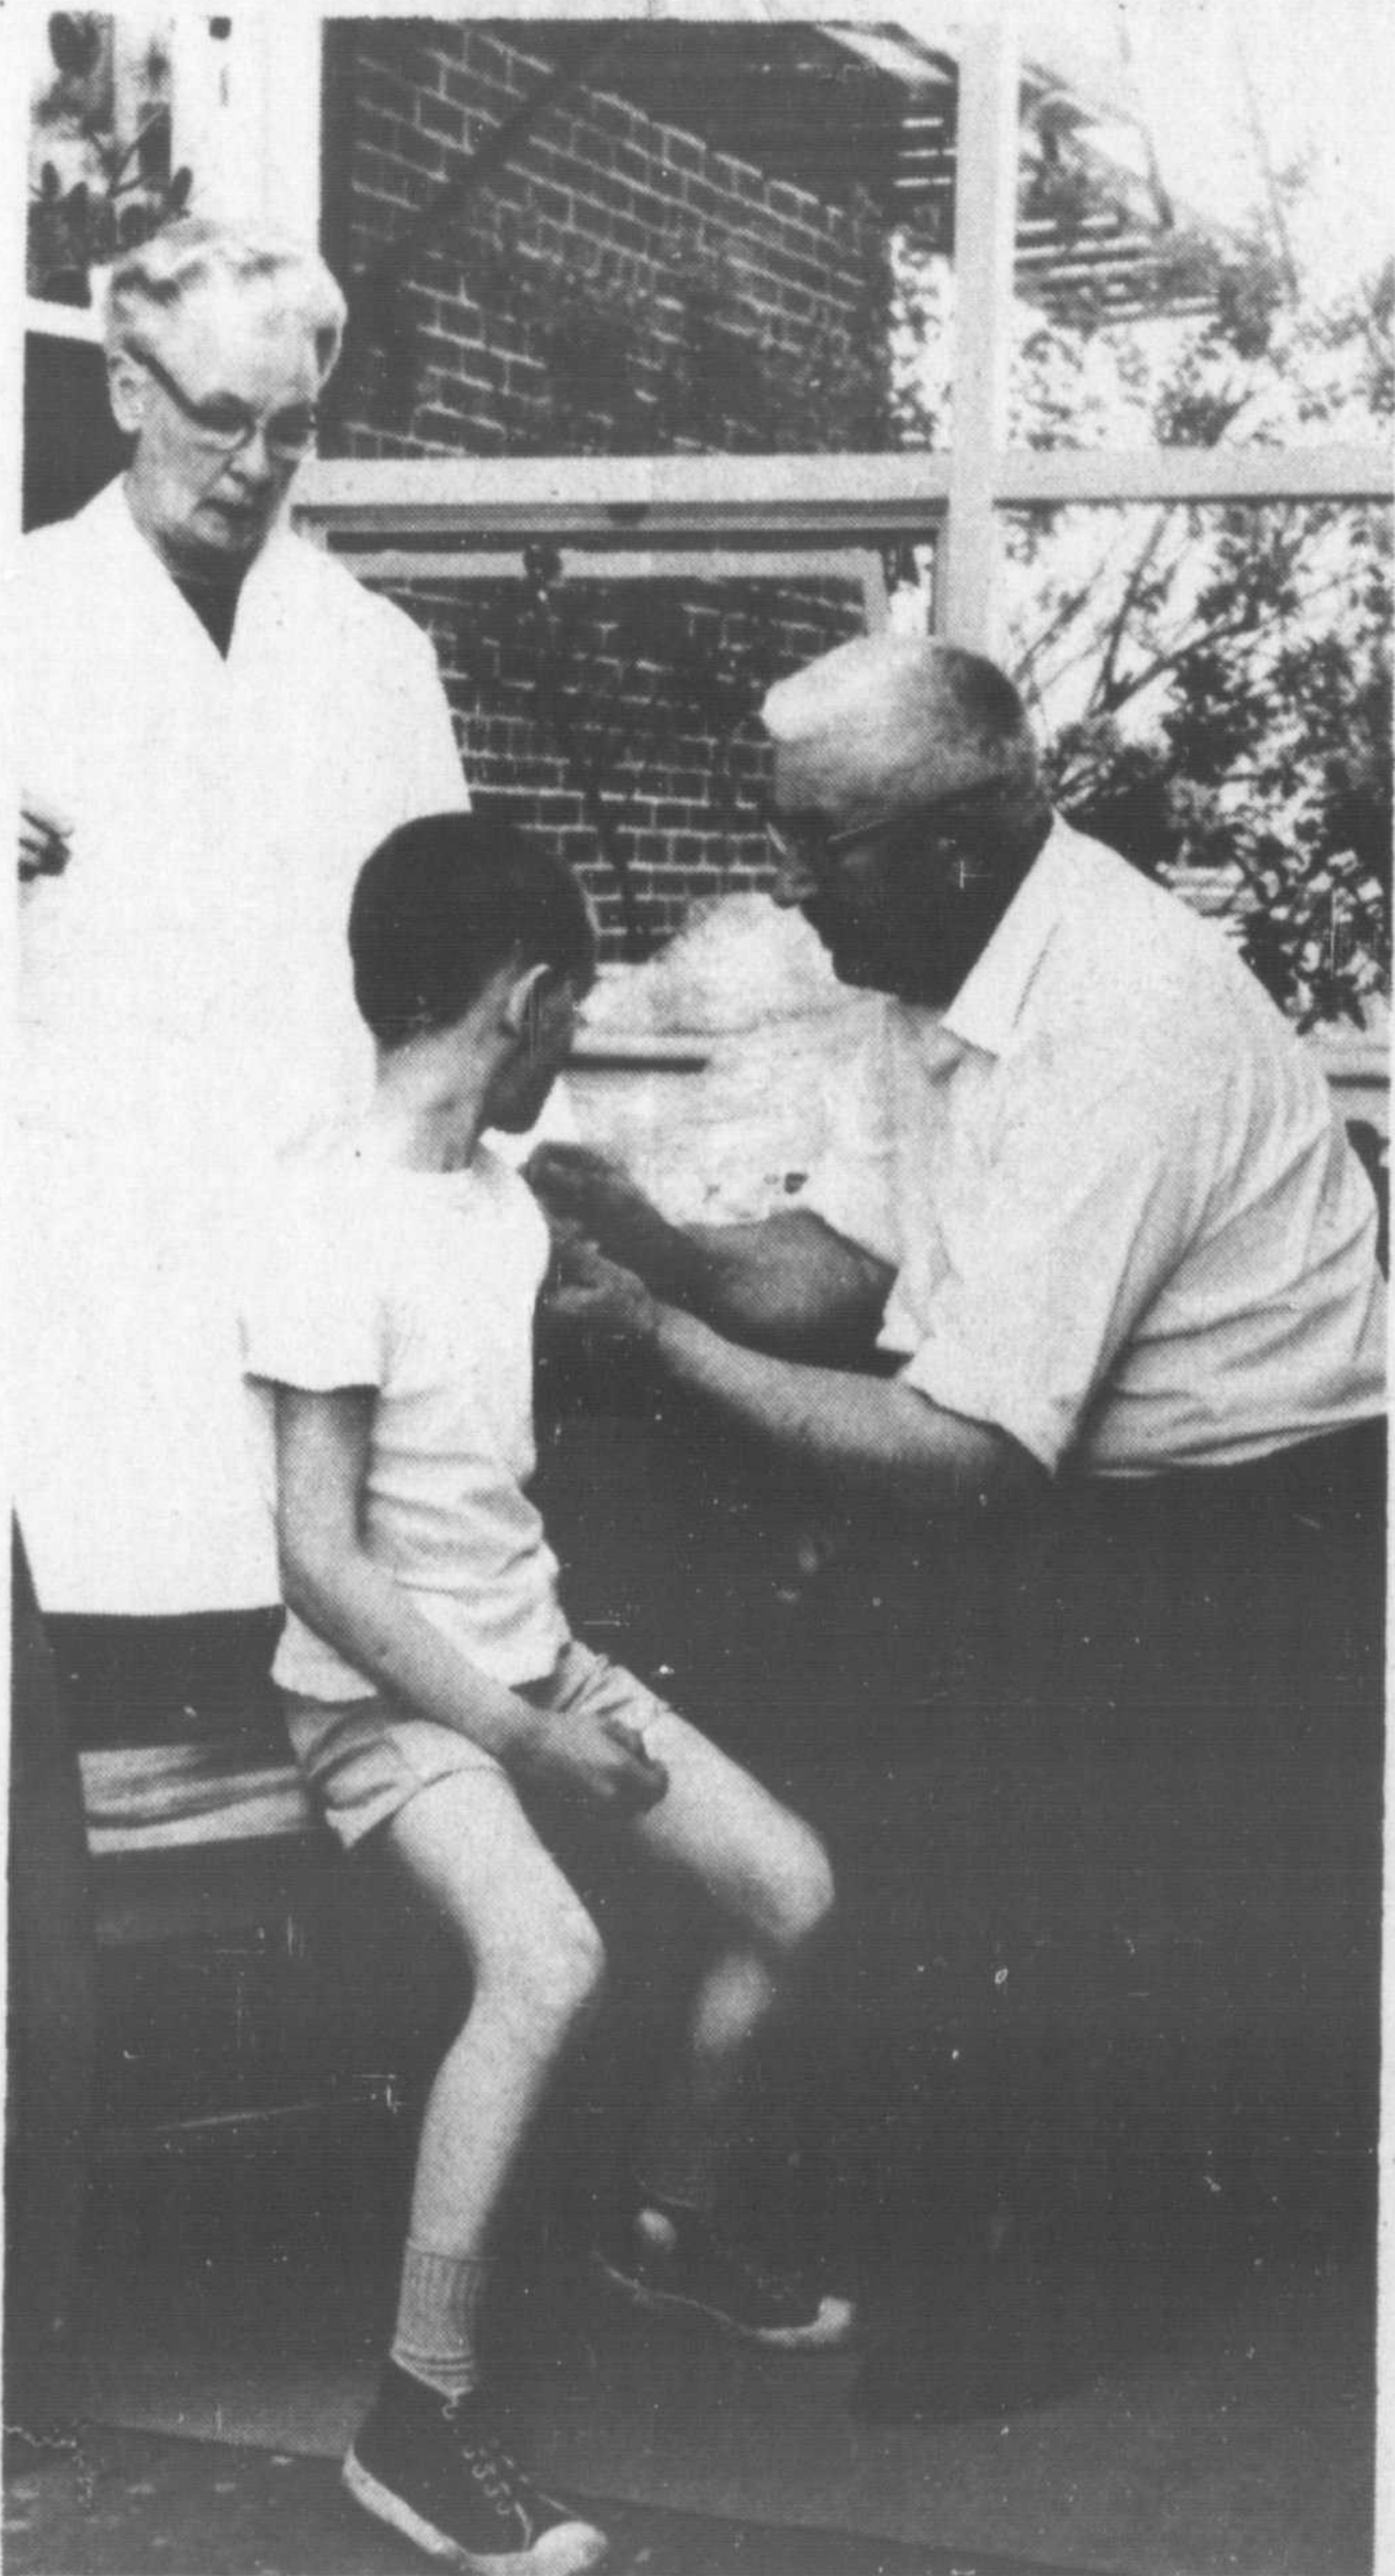

There are a few food stores in Ottawa and in Montreal and Toronto, and there is one we know of in Carlsbad Springs, where organic flours of several varieties, organic eggs and other pure foods can be purchased. These places are known as Ecology Food Stores and since their merchandise is not mass produced it costs more than the regular fare,

WAITING THEIR TURN WITH THE MEDICAL TEAM are Mrs Emerson with Cathy Crawford and her two sons, Loran and Cecil Emerson.

Mrs C Ryan with Kelly and Marty, and Mrs Stevens with Cathy Beaman.

ANOTHER BRAVE SOLDIER IN THE CAUSE OF HEALTH is Mickey McGuire, Andai Photo

Also since it has no chemical preservatives it doesn't keep as long as the treated stuff we buy in the super market. For these reasons it is not convenient to buy organic foods.

However, in spite of all these adverse factors, the family that eats organic food stands less chance of being poisoned. Each year a new set of additives are found to be bad for people so a time will come when we have gone full circle and become willing to eat an apple with a spot on it rather than an apple whose core contains hidden dangers.

In an agricultural community such as this there will be a long uphill battle against the chemical warfare. Farmers, like everyone else, are caught in the

squeeze between costs of what they need and prices of what they sell. If the demand is for chemically treated produce they will go on treating it. The only way to make it possible for any grower of grain to contemplate an organic operation is to create a demand for it.

This can be done gradually and will take a long time. Witness for instance that though a number of local consumers are not buying detergents any more one of our largest stores still sells soap only in tiny boxes intended for baby clothes. But one day soon they will carry large boxes of biodegradable laundry soap on their shelves and it will be because of the demand of the consumer, and that is you and me; us.

LETTERS TO THE EDITOR

May 26, 1970

The Editor
THE EQUITY
I would like to comment on the letter that appeared in THE EQUITY on May 20 from Mr Gordon Crouse. His feelings and attitude were expressed quite clearly concerning the council wasting its time even discussing such unimportant items as a ball park and a place to dance.

feels that the council is for one purpose only and that is to make sure that the town's appearance is kept up to scratch. After all we are paying all of \$200 per meeting so they had better spend such valuable time discussing our streets, sewage, garbage collections etc, rather than even take time to consider just where Shawville is going and what type of person we are developing.
If anything, our council is underpaid. We expect these men to be responsible for our town's welfare and offer them minimal pay and plenty of criticism.
I do agree that the council is responsible for the general

upkeep of our town and the careful budgeting of our tax money. However I become very indignant when I read a suggestion similar to Mr Crouse's that the council shouldn't discuss items important to the welfare of our young people.
Shawville is a fairly active town for the population involved. We offer a fine swimming program, recreation park for the little tots, a fine minor hockey program, a pony club etc. In all cases these groups have only existed because of clubs like the Lions and Rotary and the hard work of certain individuals and money from parents of participating children.
I don't believe this is enough. Seasonal activities are certainly beneficial but wouldn't a well rounded recreational program offer much more. Isn't Shawville good enough to have a ball park and a continuous minor program? Can't we have a supervised gathering spot where our teenagers could gather for dancing, table tennis, pool, etc?
I feel this offers a better

May 23, 1970

The Editor
THE EQUITY

Dear Sir:
In regards to the letter from C G Crouse I know now where the term "generation gap" comes from. It is thinking such as this that causes our teenagers to rebel.
Since when are sewers and garbage collection more important than the youth of this town? Instead of by-laws about dogs running loose, the council should be concerned with a place for our teenagers to dance and play ball. The eventual rewards would be much greater.
If the money that was used to construct that monstrous lighting system at Center and Main Streets had been used to light a ball park or playground for our children it would have been better spent.
The council was elected to represent every one in town and that includes the

Ladysmith

Last Sunday visitors at the home of Mr & Mrs Albert Pasch were Mr & Mrs Fred Steinle & Marsha, Mr & Mrs Adolph Schwartz, Mr & Mrs Gustave Bretzlaff and Mr & Mrs Rex Rebel & family of Waltham.
Recent visitors at the home of Mr & Mrs Fred Milkie were Mr & Mrs Ronnie Lassenba & family of Ottawa, Mrs Mano Fierobin, Mr & Mrs Frank

Wiggins of Quyon.
Over the week-end guests at the home of Mr & Mrs Wm Olin were Mrs Gordon Cole, Carol, Cathy and Gwen of Toronto, and Mr & Mrs Ken Matacheskie, Leanna, Allison from

Metawawa.
Recent visitors with the Thrun's were Mr & Mrs Fred Grodde and Paul, Mrs Charlotte Grodde and Miss Vera Boyd of Ottawa.

in Amprior and also had the pleasure of calling in to see the Flower Shop where Mr Melvyn Mielke works and calling in many other places.

NEVER GO CANOEING UNLESS YOU CAN SWIM.

grist...

In answer to people who wondered, we have found out who was paying the salary of that Mr Bertrand who wanted to animate the Pontiac and write French letters to THE EQUITY. It was the Department of Health and Welfare and they will also have to pay the bill for a great load of new office furniture, filing cabinets and supplies that he ordered shipped up from Montreal for the new welfare office we were promised at Campbell's Bay but which never opened. Perhaps the new Minister of that Department, Claude Castonguay, who is an actuary, will find more useful ways to spend money than on brand new furniture for locked offices. One interesting amount on the Bertrand purchase was \$75 reported to be a shipping charge just for the privilege of getting the stuff in Montreal instead of at a local supplier. Oh well, you can't win 'em all. But actually, all our grapes aside, we don't care where they buy their office furniture if they'll only open a welfare office in Campbell's Bay, Otter Lake, Shawville, Greermout or Bois Franc, but somewhere in Pontiac County. Even Renfrew would be better than Hull and it might just come to that!

Eleven people in one car from Calumet Island saw the movies at the Hi Way Drive in at Renfrew last week for the special Tuesday night price of \$1.50 per carload. That was quite a bargain. It was a double feature so each person saw two movies at less than seven cents per movie.

We were mistaken when we reported that there are 28 traffic lights at the corner of Main and Center Sts in Shawville. Actually there are forty (40) lights there, all ordered by the Provincial Government a year ago; and none of them work!

If Canada adopts the metric system as some think we will there will be some real cute, expressions like for instance:

"A miss is as good as 1.16 kilometres" and "Don't hide your light under .363 hectolitres" and we'll be wearing 45.43 litre hats at the Calgary Stampede and telling fish stories without .06 grams of truth in them.

Shawville needs a full time social worker. There must be a way this could be arranged. Pontiac County needs more than one full time social workers. We have devoted lots of space in THE EQUITY to explanations of what a social worker is supposed to do and still we find few people know. Those who need the help of a social worker think money will solve all their problems so they think of a social worker as a welfare cheque writer. Those who don't need help think a social worker is a useless wave maker. But all this doesn't alter the fact that this town does need a mature, experienced, country-oriented, Canadian, fully professional and highly paid social worker who can devote his full time to creating positive solutions to the problems of people in trouble here in our town. If there is anyone here who understands this need he or she might help by letting our municipal Council know of it.

An intelligent solution to the dire need for social work and also for a welfare office in Pontiac County would have been to combine these two services in one office in the County Court Building in Campbell's Bay. Work towards this end was done by the County Social Planning Council and now there is an office in the Courthouse with beautiful furniture supplied by the Department of Public Works, a telephone which never is answered and a lock on the door which is never opened.

Canada leads the world in atomic research. This requires a lot of brainpower. Can it be possible that a country with all that brainpower can't solve the problem of how to integrate the poor and the troubled into society where they can achieve the dignity necessary to help them become responsible citizens.

Do you ever wonder where the leaders are these days. They are certainly not in politics. Politicians can't lead; they must follow the dictates of the majority, no matter how stupid the majority is. In fact it has come to pass that everywhere you would expect leadership it is only followership!

**When you get a Datsun,
you get more than a great car.
You get all this too:**

Our Toronto Parts Depot

Our soon-to-be-constructed Maritimes Parts Depot

Our soon-to-be-constructed Prairies Parts Depot

The dots are our parts depots and the dots are our 250 dealers across Canada

Interior of one of our Parts Warehouses

Our Montreal Parts Depot

Our Vancouver Parts Depot

When you get a Datsun, you get the reassurance of knowing that there are 250 dealers across Canada, hundreds more down in the States. So, wherever you go, you're never far from superb Datsun service.

When you get a Datsun, you get the reassurance of knowing that we have major parts depots in Vancouver, Toronto and Montreal... two more are planned for the Prairies and the Maritimes. Speedily and efficiently, they handle the distribution of over 53-million in Datsun parts, across Canada.

When you get a Datsun, you get the reassurance of knowing that every Datsun mechanic is trained on a factory approved programme. And that he can get refresher courses aboard the Datsun school buses, our travelling training centres.

When you get a Datsun, you get more than a great car. You get a lot of reassurance and trouble-free motoring.

**FOR LOTS OF MILK
AT LOW COST...
let us mix your milking ration!**

Wherever grain is grown and cows are milked, thousands of farmers depend on Purina Check-R-Mix rations to keep their cost of production low. We believe you'll find you can't beat a ration made with your own grain and Purina Cow Chow Concentrate.

Try us and see. Watch production. See how it goes up—because our rations are mixed for results—according to directions from the Purina Research Farm.

Try our service, too. Bring in your grain, and we'll quickly grind and mix it. If you're busy, we'll pick up your grain and deliver the Check-R-Mixed ration. Or we'll work with you on a grain exchange program.

Call us or bring in your grain. Prove to yourself... Purina Check-R-Mix feeding can cost you less.

This part of Quebec is known far and wide as the Petunia area because of a promotion by the Acousons Economic Council over the past several years. We've had our petunia contests and some local petunia growers have displayed wonderful petunia spreads and some have won prizes.

This summer the Canada Department of Agriculture invites the public to visit its petunia trials at the Plant Research Institute test garden where they claim petunias to be North America's number one bedding annual.

Petunias, they say, are second to none for mass color effect, whether in individual beds, edging, window boxes, tubs or other containers.

A R Buckley, writing from the Plant Research in Ottawa says that Hybridizers have provided an almost endless selection of different colors and flower shapes and sizes. Colors range from the softest salmon-pink to deep scarlet-red and from pure white to soft cream. As well, there is a vast assortment of bicolors.

There are multifloras and grandifloras, some almost the size of saucers, others small and delicate. Some have plain flower petals, others have waves and gay fringes. There are magnificent doubles with similar characteristics and single ones, as well as miniature forms.

Mr Buckley claims that you can never tire of petunias but he has some suggestions for getting the most from them. With a little extra care and planning he says you can nearly double your enjoyment. Here are some of his pointers that may be helpful.

Select only quality F1 hybrids; they will produce more robust plants with a better and more uniform habit, more blooms that can be relied on to produce the same color in the same cultivar and early maturity.

Plants that have been started in peat pots will not suffer from transplant shock when set out in the garden if you soak the pots well before planting and peel off one side from the top. This extra start will mean as much as three to four weeks earlier blooming.

Combine petunias in plantings with other annuals, when carefully designed, flowers in a mixed border will complement one another and still give the over-all mass color effect so popular today.

Make use of the petunia as a cut flower. Arrangements can be extremely versatile. Such unique kinds as the red and white fringed bicolors, glitters and starfire, the lively tango, petite sugar plum and the large flowered maroon and white bingo, vivid coral satin and the restful sonata are a few of the older favorites used by flower arrangers.

During the late summer when plants look overgrown and finished, cut them back to within four to six inches of the ground. New growth will come and branch out and within three to four weeks you will have another succession of bloom that will last until frost.

Before the first killing frost bring tubs and potted petunias into the house and keep them on a sunny port of breezeway. They will continue to bloom for several weeks.

If you don't know what kind to ask for when you set out for your supplier, here are a few tested and tried cultivars that have proven to be superior for color, prolonged flowering and uniformity.

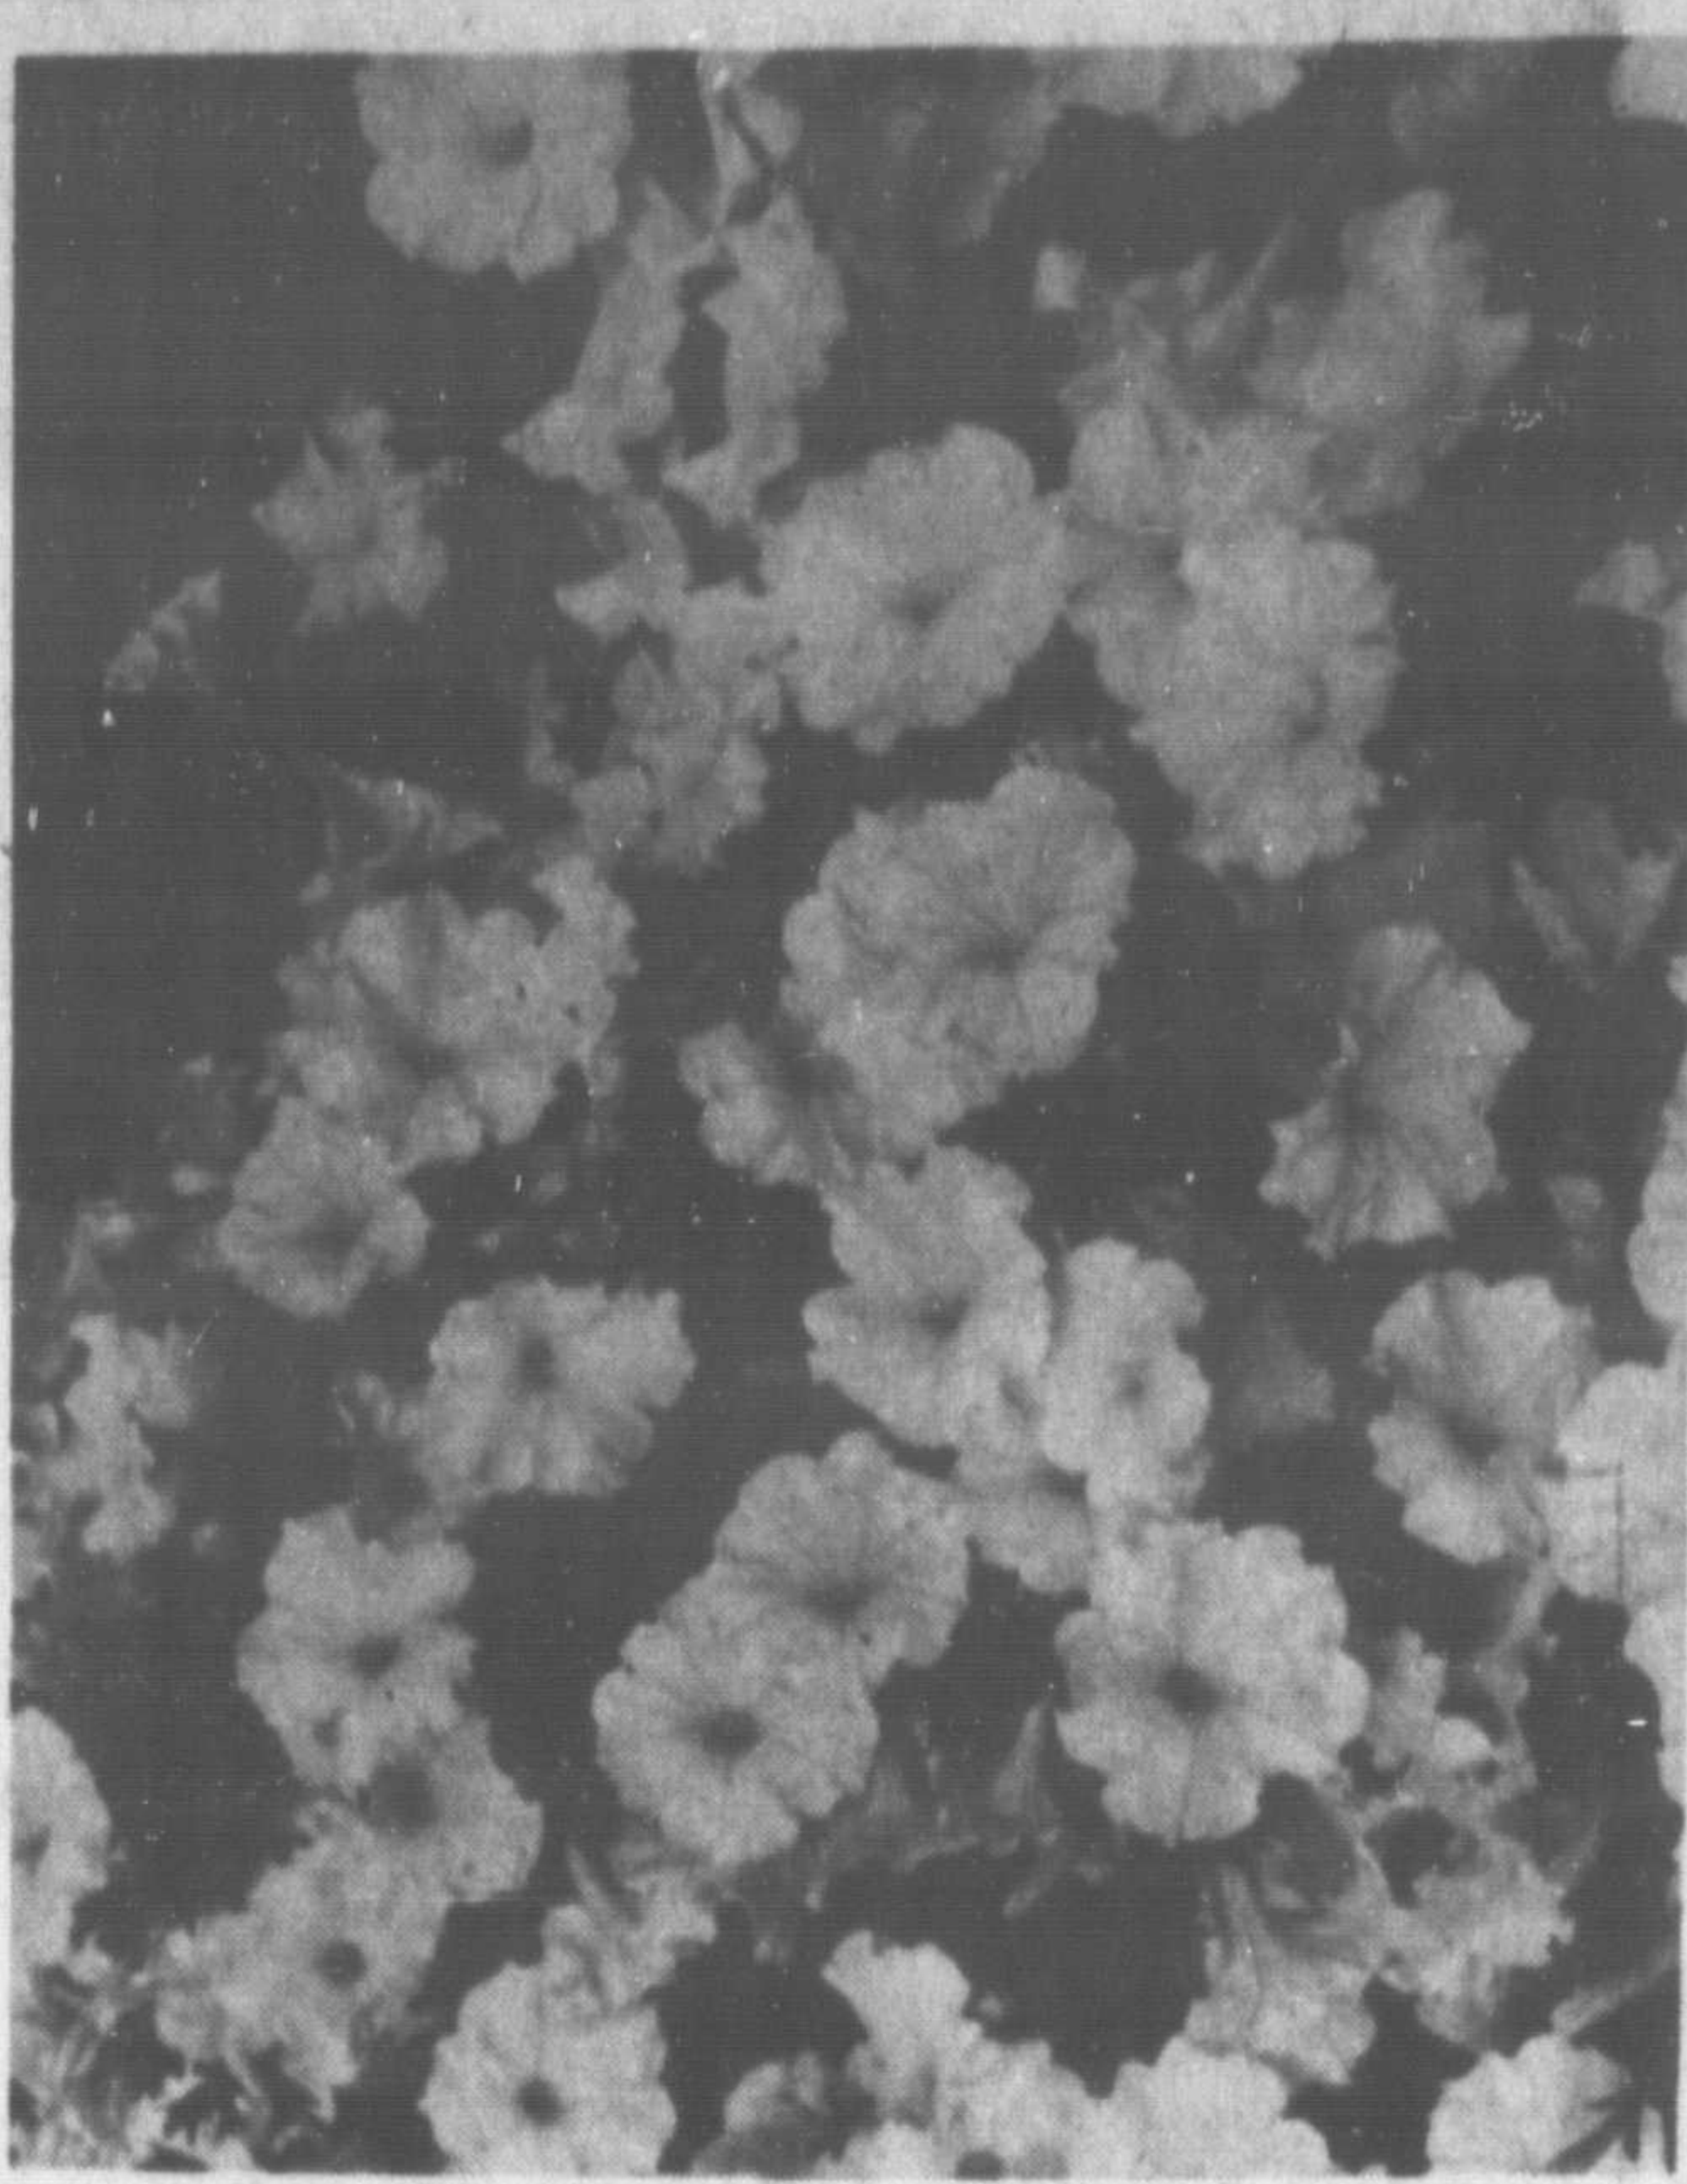

The F1 multiflora types have smaller but more abundant flowers than the others and are usually more weather resistant. Their petals are for the most part quite plain, but their colors are very brilliant. They are particularly useful where large massed beds of color are desired.

Some of the best are Red Coronet, blood red; Salmon Coronet, carmine; White Joy, white; Orange Belle, salmon orange with white throat; Plum Blue, Plum Pink and Plum Purple all with prominent veining; Pink Profusion with Persian rose flowers and Polar Cap, white with yellow veining.

The F1 grandiflora class is composed of cultivars with very large flowers that, in general, do not stand up to prolonged wet weather as well as multifloras. They are very popular and excellent for planting in small groups in full sun.

The best ones noted last year were Gay Paris, a peony purple and white bicolor, with very large frilly flowers; Harvest Moon, salmon orange; El Toro, red; Super White, huge spectacular white; Happiness, ruffled pink; Candy Apple, carmine red and the whole series of the Magic types in all colors.

Brilliant grandiflora doubles are Bridal Bouquet, dwarf white and Princess, rich ruffled red.

Smaller flowered multiflora doubles are just now being prominently advertised in seed catalogues. Like the single forms, these produce more abundant flowers and will stand up to the weather much better than larger, more floppy grandifloras. The best new kinds are the Delight series, in pink, red and white, and lavender; Cherry Tart, red and white; Strawberry Tart, scarlet and white; Plum double, plum colored; Miss Blue and Snowbird, white. Photographed is the White Dandy, a large white grandiflora type petunia.

Yarm

Mrs George Bowes and children spent the weekend with Mr & Mrs Artie Judd of Yarm.

CUB NOTES

The latest "happening" with the 1st Shawville Cub Pack was on Wednesday evening, May 13th, when 31 lively Cubs entertained their Moms at a Mother's Day Party with games and readings (Mom kicked up her heels, too!)

Each lady was presented with a corsage to start off the party and much concern (and careful balancing) was exhibited when Mother was served her cup of tea or coffee and special Mothers' Day cake.

Thanks to Cub Leaders, Margaret Davis and Jean Knox for a very enjoyable evening.

Fort Coulonge

Mr Roger LeBlance and Mrs John Cooney & Son Stephen of Toronto, spent the weekend with their mother, Mrs Benny Duke & Mr Duke.

Mr Arthur Boulier and Mr Tony Davis spent the weekend fishing at Balsam Lake. Mrs John Louis Couture & children Denise and Luc, of St-Anne Des Monts, Gaspé, Que, spent three weeks visiting at the home of her parents, Mr & Mrs John LeGuerrier.

Mr & Mrs Bernard Cahill and two children of New Brunswick spent the weekend at the home of her mother, Mrs Dorothy Dempsey.

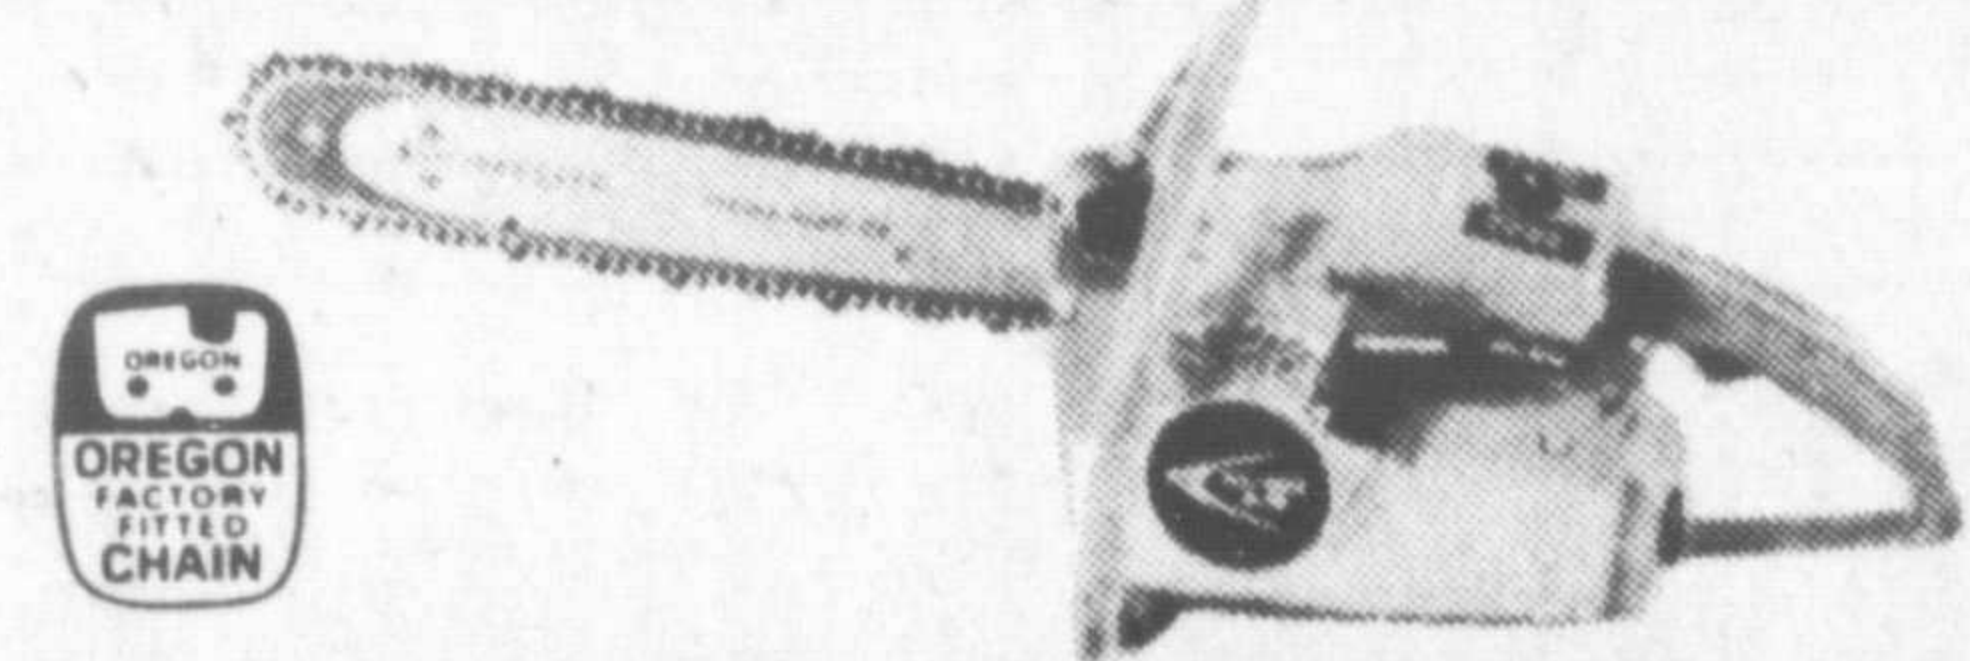

Miss Michelle LeGuerrier of Ottawa spent three weeks holidays at the home of her parents, Mr & Mrs John LeGuerrier.

The go-cart track is just one more of the several entertainments being organized for Pontiac's new amusement park on Highway 8 east of Shawville at Jim Warren's ranch. This part of the complex belongs to Doug Young who also has miniature motorcycles to rent and is building a special track for these. Controlled pony rides for small children will be ready soon at the same site and horseback riding is already in progress. Picnic tables are in the plans along with several other projects. These young men have put a lot of money into their amusement park and already an appreciative public has shown great interest. Over three hundred people had fun there over the past weekend.

The Driving Range is in the background, where ten people can practice their distance with woods or accuracy with irons at one time. Albert Armstrong, Bert Murphy and Bill Kearnan operate this part of the amusement park which includes a club house where light snacks will be provided as well as golfing equipment. In the foreground Allan Dean demonstrates putting form on the miniature golf range which he and Brian Judd have set up on their sector of the amusement park, two miles east of Shawville on Highway 8.

For greener pastures

You don't just turn the cattle out and let the pasture take care of itself, unless you have limitless fields and intend to move on every few years like a nomad.

The original Indian inhabitants did this but that was in the days before fences and property lines.

Nowadays a farmer has to make his precious few acres provide for today, tomorrow and into future generations so pasture management has come to be just as much a business matter as any other aspect of farming.

A few suggestions from the Shawville Agriculture office might help in this connection. Doug MacMillan and Wayne Clark tell us that the difference between good pasture and poor pasture can be 140 worth of milk per acre.

One cow should have about half an acre to supply his needs to mid-July. Divide the total area needed for the

number of cows you have into five equal sections and rotate the herd weekly.

Farmyard manure is a good supplier of nitrogen and also controls grazing too close. Commercial fertilizers such as 0-20-20 for legumes and 19-19-19 for grasses should be applied 200 to 300 lbs per acre.

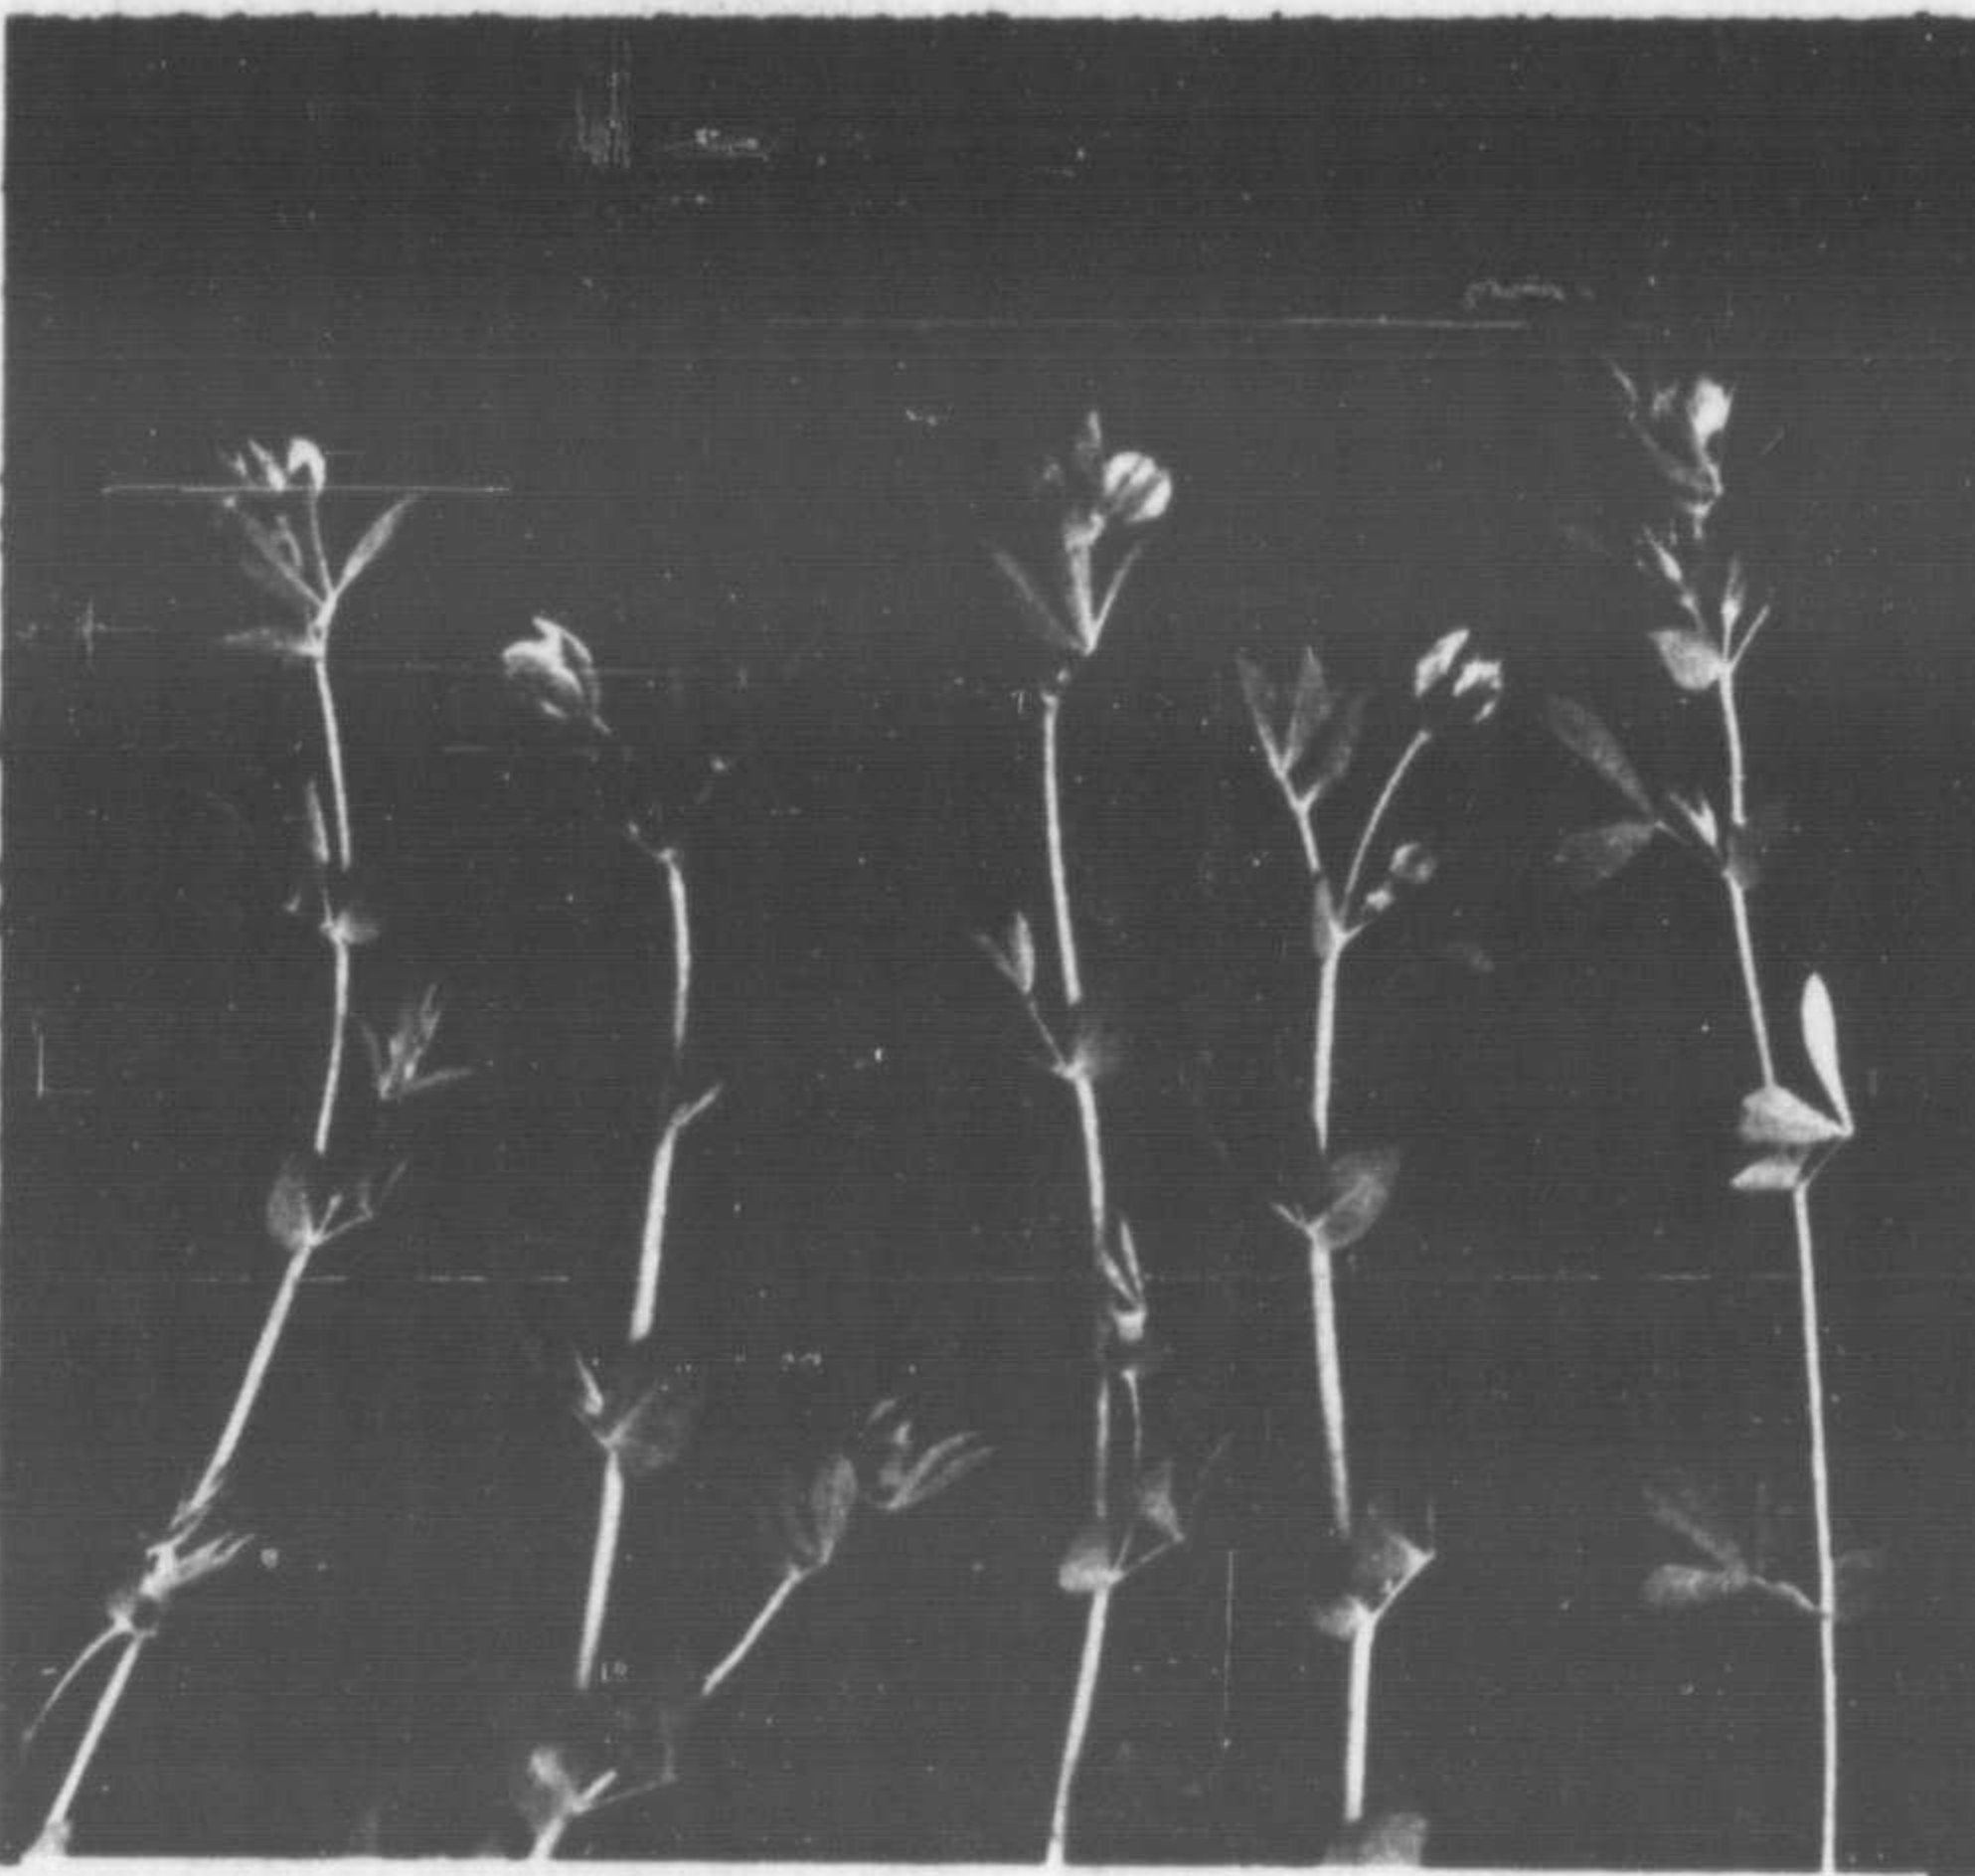

Harrowing could double production by spreading droppings and preventing clumping.

Clipping to six inches is recommended to prevent forage from going to seed.

Weed spraying once a year will control most weeds.

Avoid overgrazing which severely damages stands. Supplementary feedings of a small amount of dry hay and a high energy ration may be used. Little protein is required.

The accompanying photo shows Alfalfa at the proper time to cut to be of most benefit as hay. It is just before the one tenth flower stage. At this time it is

Tractor lost but home saved in fire at Mee's

Fire destroyed a farm tractor and its garage and for a time threatened the large frame home on the farm of Mr & Mrs Russell Mee, 3 1/2 miles northwest of here Friday.

The fire was discovered at 10:30 A.M. by Mr Mee who had used the tractor for a

short time that morning, refilled it with gas and about half an hour later put it in the garage because of inclement weather. The fire is definitely attributed to the tractor.

Shawville Fire Department

answered the call and Mr Mee is quick to credit them with the short time they took in arriving at the scene and for saving the farm home, adjacent to the garage. Loss is estimated at approximately \$2,000.00.

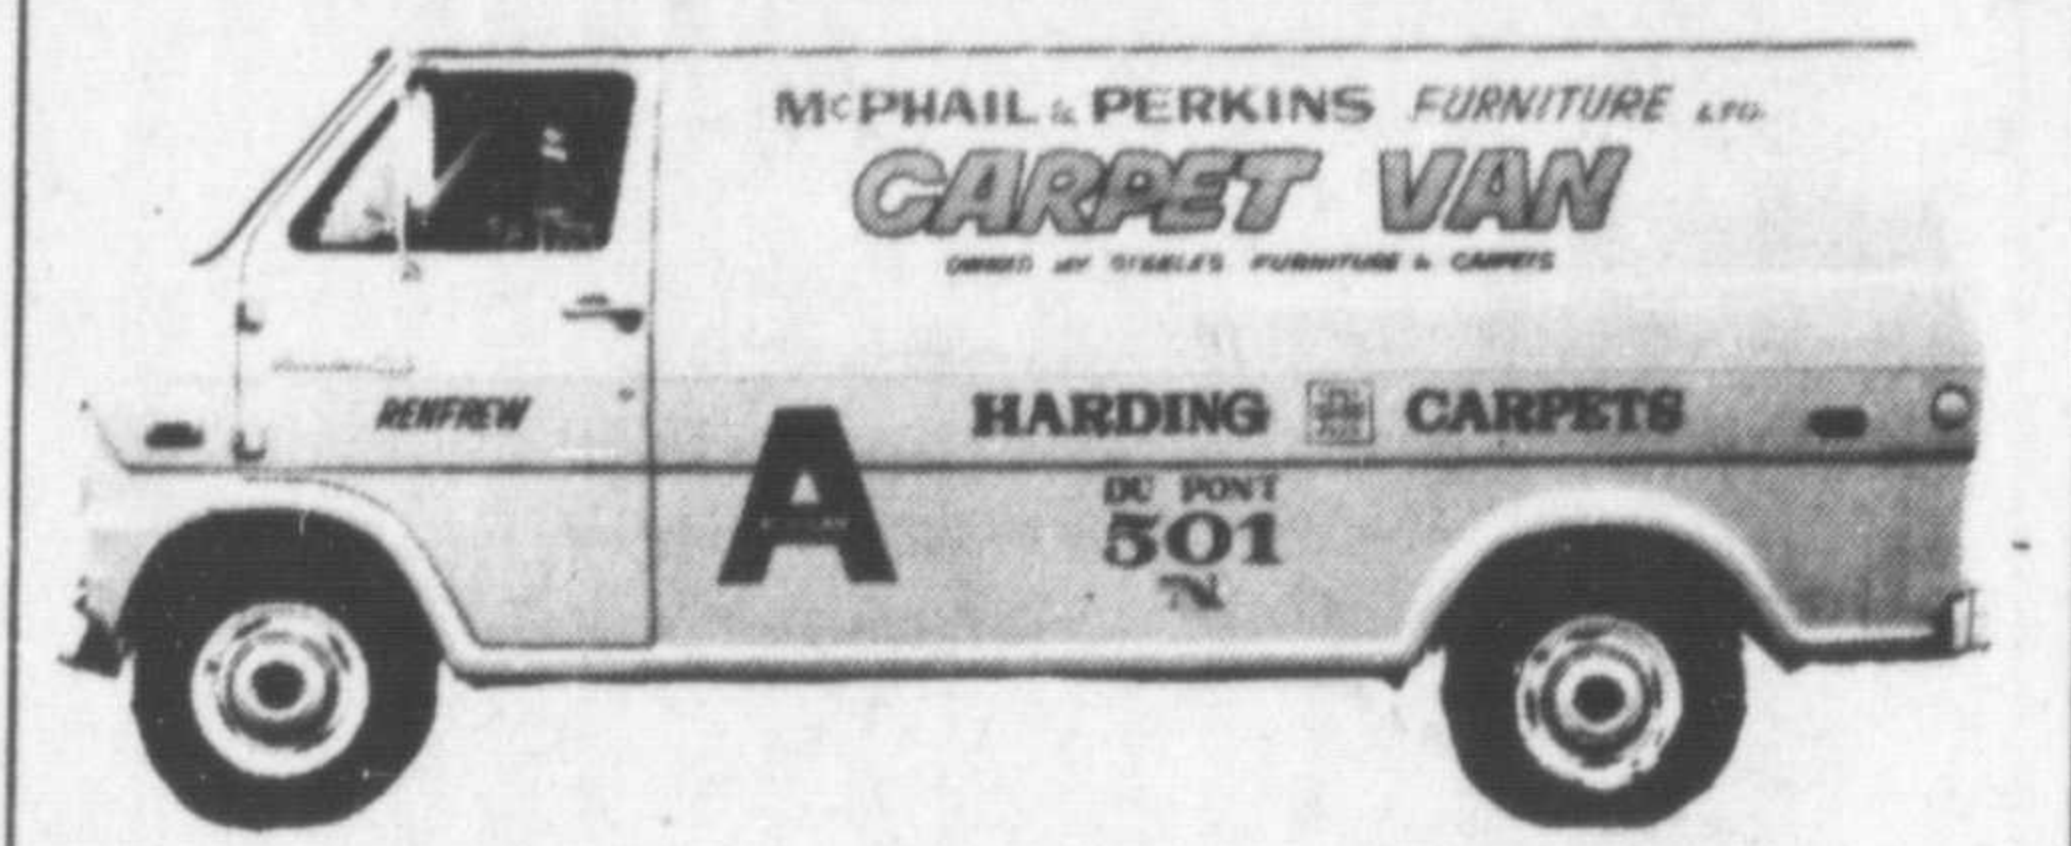

richest in protein, carotene calcium and phosphorous necessary for cattle feeding. Alfalfa cut in the bud stage contains up to 40% more total digestible nutrients than Alfalfa cut in the full flower stage.

Never pasture Alfalfa, it is too rich for unrolled grazing.

Campbell's Bay Track Meet

Brian Boucher and Shirley Crawford were big 1970 winners

C.B.E.S.'s Annual track and field meet was held on Friday, May 22, 1970, at the local protestant school. All students from levels one through six participated. Many parents were on hand to aid in the successful program. Ribbons were presented to all the winners of each of the events and

trophies were presented to division winners. The weather was somewhat inclement but the children were so absorbed in the various activities that the least of their worries was the weather.

Outstanding performances were executed by Timothy Bayne, Jill Smith, Kerry Davis, Sheryl Ann Brown, Wayne Stewart, Robin Zacharias, Amber Davis, Brian Boucher, Shirley Crawford, each of whom were division winners. Brian Boucher and Shirley Crawford were the boy and girl high aggregates.

It would appear that this year's track and field talent at Campbell's Bay Elementary School will give an excellent account of itself at the up-coming track and field meet scheduled for Philémon Wright Regional School June 5, 1970.

Bristol

Sunday visitors with Mr & Mrs Earl Findlay were Mr & Mrs Gordon Findlay, Beth & Josie of Ottawa.

Mrs Howard McWhirter and daughter Lois Henderson of Toronto left recently for a trip to Scotland.

Mrs R.W. Wilson has returned from spending a few days in Toronto.

Mrs Robert Caron of Toronto is visiting in Bristol.

Mr & Mrs Fred Armstrong and family of Ottawa were Sunday visitors with Mr & Mrs Arthur Thomas.

Mr & Mrs Allan Parker, Valors, Que., Mr & Mrs Bruce Parker, Ottawa and Mr & Mrs Garry Davis of Ottawa spent the weekend at Bristol Beach.

Mr & Mrs Jas Loken and family, Aylmer, spent Sunday with Mrs Emerson Twa.

Mr & Mrs James Hazel of Bronsberg were weekend guests of Mr Wm Armstrong.

Miss Freda Hanna of Carp was a weekend guest with her sister, Mrs Ernest Langford.

Mr & Mrs Anderson of Dorval are holidaying at Norway Bay.

Mr & Mrs Neil Wilson and family visited at Three Rivers recently.

Mr John Laird of Ottawa spent a few days with his mother, Mrs Robt. Laird.

Mr & Mrs Edmund Miller Templeton, was a recent visitor with Mr Ben Thompson

AYLMER W. I.

Visitors to May meeting of Aylmer East branch W.I. were Mrs H. Nugent and Mrs B. McLean of Eardley, Mrs C. L. Corrigan and Mrs A. Richards of Aylmer.

Mrs H. G. Holmes, Foley Rd., Aylmer East was hostess. The minutes and financial statement of semi annual convention held last October also county convenors reports for this year were read instead of our own reports in preparation for Annual Convention at Eardley May 27th.

Mrs A. C. Routliffe, Health and Welfare Convenor, gave a worthwhile paper on the subject of pollution and had an amusing reading.

A sale of plants and bulbs was held. Mrs Roy Leach presided and thirteen members were present.

Mrs C. McKenzie and Mrs E. Lusk assisted the hostess in serving refreshments. Canadian Consumer Magazines were distributed.
