Parliamentary — Report of House on the Success of his Railroad Scheme — The Decimal Currency into Canada: Dollars, Cents, & Mills. Dollars, Centimes, Millimes.

Montreal Herald
AND DAILY COMMERCIAL GAZETTE.

VOLUME XLIII. MONTREAL, FRIDAY MORNING, AUGUST 15, 1851. NUMBER 143.

NOTICES.

THE UNDERSIGNED will continue the HARDWARE BUSINESS, in the West Wing of Cuvillier's Buildings, in St. Sacrament Street.
ALEX. BRYSON.
Montreal, 1st May, 1851. 58

NOTICE.
THE NOTARIAL PARTNERSHIP heretofore existing between the Subscribers, under the firm of GIBB & EASTON, expired by limitation on the Thirtieth ultimo. All debts due to the late firm to be paid to J. J. Gibb.
J. J. GIBB.
W. EASTON.
Montreal, 1st May, 1851. 53

NOTICE.
J. J. GIBB,
Notary Public,
(Late Gibb & Easton, Notaries,)
No. 39, Little Saint James Street,
MONTREAL.
May 1, 1851. 56

NOTICE.
THE BUSINESS heretofore carried on in this city, and at St. Laurent, under the firm of MACDONALD & WILLIAMS, is THIS DAY DISSOLVED by limitation. All debts due to, or by the said firm will be settled by D. MacDonald, Jr., who is duly authorised to that effect.
DANIEL MACDONALD, Jr.,
THOMAS WILLIAMS.
Montreal, 1st May, 1851. 53

THE BUSINESS will be CARRIED on in the same premises, No. 7, Lemoine Street, and at St. Laurent, by and under the firm of D. MACDONALD, Jr. & CO.
Montreal, 1st May, 1851. 53

NOTICE is hereby given, that the undersigned will not be liable for the payment of any Debt contracted by any person whatsoever, unless by an express and written authorization by him, delivered for that purpose.
ANDRE BISAILLON,
Office No. 70, St. Paul Street.
Montreal, May 19, 1851. 68

ALL PERSONS INDEBTED to, or having CLAIMS on the Estate of the late JOSEPH ROSS, Esquire, in his lifetime of the City and Parish of Montreal, are requested to make immediate payment of such debts, and to send particulars of such claims to the undersigned, at his Office, No. 74, St. Paul Street, Montreal.
J. R. HUTCHINS, Executor,
and Attorney of Co-Executors.
Montreal, April 10, 1851. 43

Dissolution of Co-Partnership.
THE Business carried on in this city by the undersigned, under the name of J. A. GLASSFORD & CO., was DISSOLVED on the first day of April last, by mutual consent.
J. A. GLASSFORD
S. E. GREGORY.
Montreal, June 3, 1851. 80

DISSOLUTION.
THE firm heretofore existing between P. F. VERHOEFF & DENNIS OUELLETTE, under the firm of P. F. VERHOEFF & CO., is this day DISSOLVED, by mutual consent.
Any person having claims against the late firm, will present the same to Mr. DENNIS OUELLETTE, who will carry on the business, at the Old Stand in Windsor, C. W., in his own name.
P. F. VERHOEFF.
DENNIS OUELLETTE.
Windsor, April 1st, 1851. 3m wf—60

HATS!
GREENE & SONS,
229, St. Paul Street.
MESSRS. GREENE & SONS have much pleasure in informing their Wholesale Customers and the Public, that they have extended their MANUFACTORY in the HATTING DEPARTMENT—their Premises possessing every facility for so doing and having brought the same to that state of perfection, by the introduction of Machinery, together with the best of Workmen, from different nations, they are enabled to Manufacture a superior article, adapted to the climate at such rates that Canada is not under the necessity of importing HATS and CAPS from abroad. Owing to the increased demand Messrs. G & S. are prepared to SELL HATS and CAPS at lower rates than ever offered before. They are constantly Manufacturing and have on hand on Extensive Assortment of ELASTIC, WATER-PROOF, VELVET NAP and SILK HATS, ANGOLA SAXONY HATS, PALM LEAF HATS, LEGHORN ditto, of every style and quality, Drab, Brown and other Coloured ROWDIES, CLOTH and OIL CLOTH CAPS, CHILDREN'S FANCY HATS and CAPS, &c.
Messrs. G. &. S. solicit the attention of intending Purchasers, before making their selections elsewhere.
Also, preparing for the FALL TRADE, a general assortment of FUR CAPS, BOAS, GLOVES, &c &c.
GREENE & SONS,
229, St. Paul Street.
May 26. 3m—73

WHOLESALE AND RETAIL
LONDON HAT WAREHOUSE,

CANTON HOUSE.
Family Tea, Coffee and Sugar Warehouse,
No. 109, Notre Dame Street.
SAMUEL COCHRAN invites the attention of Consumers to his Stock of TEAS and COFFEES, which have been selected with the greatest care, and on such terms as allow him to offer them at unusually low prices.
The MACHINERY on the Premises, worked by a Four Horse Power Steam Engine, for Roasting and Grinding Coffee, is on the most approved plan, the Coffee being closely confined in *polished metal spheres*, which are constantly revolving and oscillating in *heated air chambers*, is prevented imbibing taint from Smoke, danger of partial carbonization of the Bean and loss of Aroma, so important to *Connoisseurs*, which is further ensured by attention to Grinding at the shortest time prior to Sale. To this elaborate process SAMUEL COCHRAN owes the high reputation his Coffee has obtained through a large portion of the Provinces.
CRYSTALLIZED SUGAR (much admired for Coffee); REFINED SUGAR in small loaves, and WEST INDIA SUGARS, of the best quality, always on hand.
A few of the choicest selections of TEAS may be had at the CANTON HOUSE, in Native Catty Packages, unrivalled in flavour and perfume, at moderate terms.
Families residing distant from Montreal will have their orders scrupulously attended to, and forwarded with immediate despatch.
109, Notre Dame Street, Montreal, May 23. mwf—71

GEO. CAMPBELL.
St. Leon, May 13, 1851. 62

PAVILION HOTEL.
THE Subscriber, in returning thanks to his numerous friends and the Public, for the very liberal support bestowed upon him for the last six years, begs to inform them, that after the 15th May next, he intends to conduct his well-known Establishment upon TEMPERANCE PRINCIPLES, thereby wishing to carry out the views of our *Legislature*, relative to the suppression of intemperance; and trusts that, by a strict observance of those principles, to merit as large a share of public patronage as hitherto enjoyed by him.
HENRY IRISH.
Montreal, April 5, 1851. 41

THE NEW HOTEL
ERECTED by Mr. Corse, in Great St. James Street, Montreal, will be OPENED to the Public, on the 15th April next, by the Subscribers under the name of the
St. Lawrence Hall.
BY
S. COMPAIN & CO.
It is the most spacious Hotel in Canada, has been furnished at great expense, and cannot be surpassed in point of comfort by any establishment of the kind on the Continent. The situation, in the most fashionable part of the City, and in the immediate vicinity of the Banks, Post Office, &c., renders it in every way convenient to Travellers.
S. COMPAIN,
H. HOGAN.
G. VARDON.
February 13. 6m—19

Barton & Fenn's
(STEAM REFINED)
PREMIUM LABOR SAVING SOAP.
NOW is the time to try one of the many superior qualities of this Soap in cleaning painted work, which has collected smoke during a long winter from lamps, candles, wood and coal.
The constantly increasing demand for it in this city, (the only place in Canada where it has been introduced or can be obtained) is one of the best recommendations that can be given in its favor.
In the United States, it is acknowledged by all those who have used it, to be the only REAL LABOR SAVING SOAP manufactured, that is worthy of the name, and what is of more consequence, accomplishes what it promises.
A few of its many superior advantages over all other Soaps, are—
It saves one half of the labor—Clothes are not worn out by rubbing—it removes PAINT, GREASE, TAR or STAINS from Carpets or Clothing, without injury to color or fabric, and is very superior for cleansing painted work.
I have only to say to those who have not used it, try it, and you will be satisfied that it is all which it is recommended to be. It is warranted not to injure the finest fabric or colors in washing, more than pure water.
To residents in the Country, I would say you need have no fear from purchasing a few months supply, as it is not a washing compound that evaporates; but like all good Soap, improves with age.
For Sale, Wholesale and Retail at most of the principal Grocers and Druggists in this city.
All orders left with JOHN LONG, No. 224, St. Paul Street, or with the Subscriber, will meet with prompt attention.
J. M. GILBERT.
CAUTION.—The unparalleled reputation of Barton & Fenn's Soap, has induced others to sell an inferior compound, calling it by the name of Labor Saving Soap. This Soap is warranted not to EVAPORATE if exposed to Air.
To prevent imposition, take particular notice that each bar is stamped, "Barton & Fenn's Labor Saving Soap, Troy, N. Y."
May 3. 54

FOREIGN
WINE AND SPIRIT VAULTS,
103½, Notre Dame Street.
THIS Establishment was opened for the purpose of supplying PRIVATE FAMILIES and consumers in general with genuine Foreign Wines and Spirits, pure and unadulterated, in quantities to suit purchasers, and upon the most moderate terms for Cash.
The experience of the last twelve months has amply proved to the public the utility of a Depôt for such a purpose—enabling them to select from a large and well assorted Stock, the quantity suited to their convenience—combining the advantage of a Wholesale Store with that of an ordinary Grocery.
SAMUEL COCHRAN,
Proprietor.
All Goods delivered free of charge.
A very choice assortment of PORT, SHERRY, CHAMPAGNE and CLARET now on hand
And a small quantity of extremely rare and mellow OLD JAMAICA RUM, so scarce in this market.

April 1. 39

Provincial Parliament.

(*Reported for the Toronto Patriot.*)

LEGISLATIVE COUNCIL,

August 11, 1851.

Several petitions were laid on the table.

SECOND READING OF BILLS.

The Bill to annex Chateauguay to Beauharnois was read a second time.

Hon Mr. Leslie moved the second reading of the Bill to amend the Act for taking the periodical census of the Province, which was carried and the bill referred to a committee of the whole, and reported with some verbal amendment.

Andrew's Road Allowance Bill was read the second time, and referred to a select Committee.

The Berthier Academy Bill was read a third time and passed.

Bytown and Prescott Railroad Bill was read a first time.

The House then adjourned.

(*Reported for the Montreal Herald.*)

LEGISLATIVE ASSEMBLY.

Monday, August 11.

Mr. Hincks laid on the table a despatch from the Governor of Nova Scotia, respecting the proposed trunk Railroad which was ordered to be printed.

Mr Letellier moved that, for the remainder of the session, the House sit twice a day, except on Tuesdays, and Fridays, viz : from 10 A.M., until 2 P.M., and from 4 P.M., until a motion for adjournment shall be carried.

Mr. Badgley opposed the motion on the ground that, if it were carried, the Railroad Committee could not get through its business.

After a discussion the motion was lost—yeas, 26, nays 30.

Mr. Sol. Gen. McDonald introduced a bill to explain and amend the Tavern License act of last Session.

The following bills were read a third time :—

To consolidate General Railway Clauses—Hon Mr. Hincks.

To incorporate Montreal and Kingston Railway Company—Mr. Cartier.

To incorporate Kingston and Toronto Junction Railway Company.—Mr. Smith (Durham).

To authorize the erection of Protestant parishes in Lower Canada into parishes for civil purposes.—Mr. Scott of Two Mountains.

To amend the Law of Replevin in Upper Canada.—Mr. Lyon.

To amend the act relative to bills of Exchange.—Mr. Holmes.

The following bill received the three months' postponement on a vote for its third reading :—

To enforce attendance of witnesses in civil cases.—Mr. Sherwood of Brockville.

The following bills were introduced by the Hon. Mr. Hincks :—

To explain and amend the Assessment Law of Upper Canada.

To amend the Act for regulating the shipping of Seamen.

To amend the laws regulating the election of Members in certain counties, in so far as relates to the return of Writs.

Col. Prince then moved the second reading of the bill to confirm services in the Court of Chancery.

Mr. Baldwin moved in amendment that the report be read this day six months; and on a division the numbers were, for the amendment, yeas 23 nays 24.

Mr. Baldwin then moved again, in amendment, the re-committal of the bill for to-morrow. Carried. Yeas 26, nays 23.

The House received the report of the committee of the whole, on the bill to incorporate the St. Lawrence School of Medicine.

On Mr. Scott, of Two Mountains, moving the reception by the House of the Report of the Committee of the whole on the bill to afford a remedy against depredations by raftsmen,

Mr. Malloch moved the reception of the bill that day three months.

Mr. Scott wished to hear some reason for the motion.

Mr. Flint said it was easy to give a reason. The bill provided that if any depredations were committed on land by raftsmen, the owner of the raft, though not present, should be made responsible for any thing they did; and that if the raft were two miles away from the place where the depredation took place, that fact should serve as a notice, and enable the party to begin his action. Ayes 24, nays 4.

Mr Morrison moved the second reading of the bill, for securing the independence of the Municipal Councils, which was carried, and thereupon

Mr Morrison moved again that the bill be read again to-morrow.

Mr Malloch moved in amendment that the bill be read again that day three months; and

Messrs Smith (Frontenac) and Robinson stated that if it passed, it would disqualify the best qualified men in many counties. The electors ought to be at liberty to chose those persons in whom they placed confidence. The amendment was carried. Yeas 25 ; Nays 13.

Mr Badgley moved the House into committee on the Temporalities of the Church of England in the Diocese of Montreal Bill.

Mr Morrison moved that the committee do rise, which was lost.

The Bill having then passed through Committee,

Mr Badgley moved the reception of the report by the House.

Mr Mackenzie objected to the reception of the report, in nearly the same terms we reported on the second reading of the Bill.

Mr Flint followed, ridiculing Mr Mackenzie's argument.

Mr Morrison expressed his desire to record his vote against the Bill in every stage, as he believed it would be productive of the very worst effects upon the country, and also upon the Church of England.

Colonel Prince contended that the Church of England should be allowed to manage its own affairs.

Mr Mackenzie said he would move the six months' hoist, which he did, after a speech of some length, on the principle of opposition to State Churches, contending that this principle had reduced the people of Rome from the bravest in the world, into a set of miserable slaves.

Mr Morrison seconded the motion. He professed to have great regard for the Church of England.

Motion lost, yeas 8, nays 40.

The yeas were Messrs. Morrison, Smith of Durham, Notman, Bell, Hall, Mackenzie, McFarland and Hopkins.

The main motion was carried.

On motion of the Hon. Mr. Badgley, the House went into Committee on the bill to establish a Church Society of the Church of England in each Diocese in Lower Canada.

The bill was reported without amendment.

Mr. Mackenzie moved the six months hoist to the motion for its third reading to-morrow. He said it was no use to make a speech as he might speak until doomsday without changing one vote.

Motion lost—yeas 7, nays 34.

Main motion carried on same division.

On the motion of Mr. Polette, the House went into Committee on the Bill to revive the Act relative to the Common of Maskinonge, which was passed through and reported.

On motion of Mr. Fourquin, the House went into Committee on the Bill to revive the Act relative to the Common of Yamaska;—passed through and reported.

Mr. J. H. Boulton moved the second reading of the Bill to exempt the proprietors of newspapers from payment of postage in certain cases. He observed that great complaints existed relative to the publishing of the statutes; and he proposed, in fact, to remedy this by allowing newspapers to pass free of postage during the period of the publication.

Mr. Hincks did not think, so soon after the Postal Act had come into operation, that any change should be made. They should first see whether the Post Office would cause a charge. He opposed the principle of the Bill, and he thought a better plan would be to let those papers go free that would publish the advertisements of the government free of postage. He moved the second reading this day six months

Mr. Mackenzie did not see why newspapers should not go free of postage at any rate, as was the case in the Sister Provinces of New Brunswich and Nova Scotia. He wished to see newspapers as widely circulated as possible, as the worst of them did good, like the thieves' lantern, which gave more light than was intended.

After a few words the amendment was carried—Yeas, 29 ; Nays, 21.

The House went into committee on the bill to incorporate the Port Erie and Buffalo Suspension Bridge Company, and passed through its clauses, which were afterwards concurred in.

And went again into committee on the bill for the Sale of Endowments, of St Johns, Peterboro, which passed through committee.

On the motion for concurrence, Mr Notman complained of the passage of a bill like this in the present state of affairs. What right had any individuals to dispose of the public property of this country? Let any one read the preamble of the bill, and he would find that it was stated to be for the advantage of the incumbent and the creditors of the Church that the bill should be passed.—Was that right? Certainly not; besides the validity of these endowments were to be tested by an action in the law courts. Was the House then to assume their legality before hand? But he was told there was a clause in the bill which declared that it should not influence the validity of these titles. If that were so, who was to pay the innocent purchasers? He moved the concurrence that day three months.

Mr Sol Gen McDonald said he thought this property could not be better applied than to pay the debts due to honest mechanics. Besides this, the land in question had belonged to the Church of England, long before the rectories were established.

Mr Smith said that the incumbent, in this case, had only a life interest in it, it was therefore evidently wrong to alienate it entirely. Besides, part of the land had been let on building leases, and houses erected thereon. The proprietors of these houses would, notwithstanding the right of pre-emption given them by the bill, suffer much by this.

After a few words from Mr Fournier, who complained of the renewal of the discussion on a subject which had already been determined, the House divided on the amendment, Ayes 5; Nays 38. The ayes were Messrs. Notman, Smith, Flint, Mackenzie, and Macdonald.

The House went again into Committee on the bill to authorize the Grand River Navigation Company to raise a loan; and passed through the several clauses of the bill;

And went again into Committee on the bill to incorporate a Company for the encouragement of manufactures on the Welland Canal, of which all the clauses were passed through.

The bill to amend the law relative to the solemnization of marriages, was read a second time on motion of Mr Morrison, who stated that the object of the law was to remove the present mark of inferiority which attached to dissenters, who were not allowed to contract valid mariages unless they registered their marriages, whereas members of the Churches of Rome and England were not obliged to do so. On a division there were, yeas 28 ; nays 8.

Mr Mackenzie moved an adjournment, which having been lost, he announced his intention to continue to move adjournment, and after some time the House adjourned.

TO CORRESPONDENTS.

☞TAKE NOTICE.—We take no letters out of the Post Office unless they are PRE-PAID.

FRIDAY MORNING, AUGUST 15, 1851.

English News.—In our last issue we gave our readers a brief summary of the intelligence received by the Africa, which left Liverpool on the 2nd instant, and we yesterday morning received our European fyles brought by her. They contain little of interest:—we give the following extracts.

ENGLAND.

Parliament will be prorogued on Friday by the Queen in person, and the most abortive session of the last twenty years will be brought to a close. The policy of the Pope has prevented the statesmen of England from directing attention to the great legal, fiscal, and sanatory questions which ought to have absorbed their care. As far as it has progressed, the present has been an extraordinary year. Cardinal Wiseman's hierarchy and the Crystal Palace have eclipsed all other attractions, and all the foreigners that we have invited from all parts of the earth must regard us as an extraordinary, if not a contradictory people. To see us on the one hand, moved with a degree of national anger, amounting almost to phrenzy, at an act of the feeblest potentate in the world; and on the other hand, absorbed in the delights—mad almost to delirium—at the success of our Great Exhibition, is, certainly, a social and political problem which no country but this could display. The proboscis of an elephant can play extraordinary pranks, indicative at once of nimbleness and strength; it can take up a pin, and it can move an anchor. The trunk of the animal is somewhat emblematical of our power and our caprice; and the latter feeling is still further carried out by the election this week of a Roman Catholic gentleman as High Sheriff of the city of London. Duly considered, these traits of character, which foreigners may be pardoned for being unable to comprehend, are not discouraging. They show the elasticity of the national mind. If we pass penal laws one week against the Pope's bishops, we raise the next week to the highest honorary post a believer in the Pope's faith, because he is our countryman and fellow-subject—a good citizen, doubtless, and a good man. A people with these noble instincts cannot go far wrong. The pulse must beat healthily which resents at one moment an affront, at another extends the hand of good fellowship to an offending brother.—*European Times.*

How would the people of England feel were they deprived of their penny postage? The bold innovation of Rowland Hill has become a familiar thing, as necessary to our comfort as oral conversation. The feasibility of an "ocean penny postage" has for the last year or two been under discussion, and a movement has just been made that promises before long to place within our reach this extension of the Rowland Hill emancipation of letter-writers from fiscal surcharges. An association has been formed—of which Lord Ashburton, Sir Roderick Murchison, Baron Charles Dupin, Herr von Viebahn, and other distinguished Englishmen and foreigners, are members—for the purpose of inducing the Governments of their respective countries to establish a low and uniform rate of postage on letters to and from all parts of the world. The association propose that the whole postage on foreign letters shall be prepaid in all countries by means of postage stamps, and according to one uniformscale of weights. Postal conventions have already been concluded by England with France, the U. States of North America, Russia, Prussia, Austria, eighteen other German States, some of the Northern European States, Belgium, Switzerland, Greece, Sardinia, and Tuscany, under which the whole postage on foreign letters will be collected in the country in which they are posted. The extension of this "postal league" to meet the views of the association presents no difficulties of moment. The boon to friends at a distance and to merchants would be inestimable. Such a postal alliance would be a most efficient "peace congress."—*London Spectator.*

FRANCE.

Paris, Thursday Evening, July 31.—"When rogues fall out," says the old adage, "honest men get their due." Dr. Veron, of the *Constitutionel*, thinks it due to the honest men of France to enlighten them as to that *Arch-Sauteur*, as he is called by his political adversaries—M. Thiers. You are aware that M. Thiers was, not very long since, political director of the *Constitutionel*. At that time he was a warm partisan of Louis Napoleon. He is now his bitterest enemy, but without even pretending that the Prince has deceived him as to any of the qualities which he formerly eulogised. Dr. Veron gives to-day in the *Constitutionel* three extracts from articles which appeared in that journal in 1848, highly eulogistic of Louis Napoleon as "a straightforward, intelligent, modest, and perfectly calm man," and as the only man who could save France from anarchy; and then proceeds to describe the conduct of M. Thiers against Louis Napoleon since the ex-Minister of Louis Philippe has formed a coalition with the Cavaignac party. The Doctor, however, does not give credit to M. Thiers for sincerity in his new alliance, but describes him as an intriguer to get the Prince de Joinville put forward as a candidate for the Presidency of the Republic, after having discredited Louis Napoleon by systematic calumny.

We are without political news of importance to-day. There is some excitement, however, in the political circles about the Committee of Permanence of the National Assembly. The majority agreed yesterday upon a list in which all the Mountain and even the Cavaignac party are excluded; but it was feared by the getters-up of this list that some of the Legitimists and Orleanists would side with the Mountain, and to a certain extent defeat their combination. Some attempts were made to-day at a compromise, and this delayed the ballot till half-past four o'clock. I do not know the result, but it was generally expected at the Assembly that at least three or four of the Republican party would get upon the Committee. M. Dupin was to-day re-elected President of the Assembly by a majority of 342 to 165 obtained by M. Michel (de Bourges).

The *National* publishes another manifesto of the Central Democratic Committee to the Poles, exciting them to insurrection. It is signed by Ledru Rollin, Mazzini, Ruge, and others.

The Court of Assizes of Douai has just condemned the publisher of the *Voix du Proscrit*, the organ of the refugee committee in London, to three months' imprisonment for a seditious article.

There is a slight improvement to-day at the Bourse. The 5 per Cents. have closed at 95f. 50c.

All the preparations of the fetes in honor of the expected visitors from England are nearly completed. More than 6,000 invitation have been issued for the ball at the Hotel de Ville; and the Marchioness of Normanby has sent out cards for a great reception (report says a breakfast) on Tuesday.—*London Globe, 1st Aug.*

GERMANY.

Berlin, July 29.—The Prussian newspapers are full of the King's journey to the East Provinces, describing many festive receptions of purely local interest. The pretiest affair, however, must have been the grand opening of the Eastern Railway by his Majesty at Kreuts. The terminus was ornamented with a profusion of choice evergreens and flowers, and the birth and different stages of the railrod's growth calendered, as it were, through a very ingenious arrangement of different apparatus used in its construction. At the gate there was a grand mustre of wheel-barrows and colt-staves symmetrically grouped, with inscriptions saying pretty things for them. The whole was arranged with truly German ingenuity, and it is said to have made really an excellent effect. We matter-of-fact English people would never dream of old wheelbarrows being sentimental—except in a picture—but the Germans need never despair; they are so earnest in what they mean things to stand for, that there is a certain poetry even in the license of their choice. The prettiest of all, however, was the end of the President of East Prussia's speech; for his Excellency had to beg the King would excuse many of the assembled officials being in plain clothes, by reminding his Majesty that tailors were never punctual. The King laughed very heartily, and waved his hand in full pardon to present and absent offenders.

The perpetrator of the late robberry of Mr. Rothschild's villa near Frankfort is now in the hands of the police. They received a notification from a jeweller in Mayence, that an individual had brought to him large lumps of gold and silver for sale. This person proved to be a man servant, who had been eleven years at M. Rothschild's, and had left his service five years ago, and became a soap boiler in the neigbourhood. Some little time back he found his way into the villa and carried off a large basket full of what he thoughl to be silver, but in reality only plated articles. More successful last week at his reconnoiterings, he bore away the real prize, silver and gold to the amount of upwards of two thousand florins.

The negociations between Austria and Sardinia as to the Austro-Italian refugees in Piedmont are brought to a close. It is hoped they will receive full pardon from the Emperor. Upwards of forty thousand are still under Sardinian protection.

The loan to Austria of sixty million dollars is half of it from the Rothschild firm, and the other half procured by it on commission.

The Emperor of Austria visited Buda in April, *incognito*, as the urgent request of General Baron Wohlgemuth. The latter, suddenly seized with an illness which his physician told him he could not recover from, wished to communicate to his sovereign, before he died, the experience of his political career in Transylvania.

The Emperor of Russia, during his late visit to Warsaw, remedied the great want of drinkable water experienced in that capital, by giving orders for canals, through which a plentiful supply of water will be conducted from Bielany into a huge reservoir in Warsaw, where it is to be filtered, and thence distributed by steam apparatus to the different parts of the city.

The General Assembly of Roman Catholic Societies of Germany meets at Prague this year.

Near Berlin, in the small town of Wriezen on the Oder, a Roman Catholic mission has been stationed for some time past. The King, has now granted it parochial rights, and permissien to extend its activity over a considerable district.—*London Globe.*

Markets, &c.

LIVERPOOL MARKETS—August 1.

Corn.—The business at our Corn Exchange this morning was again limited to very moderate purchases of wheat and flour by millers and dealers. Since Tuesday's market, when there was a slight concession in prices, there has been no quotable change in rates paid, except for wheat, which has still farther receded. Superior marks of American flour were quite as dear to-day as on Tuesday, but the lower grades were done at irregular rates. Western Canal flour is arriving in very bad condition, and some late arrivals have been sold as low as 14s 6d per bbl, the general quotations being 17s to 20s—Philadelphia and Baltimore 20s 6d—Canada and Ohio 20s. White wheat 6s to 6s 1d—Red 5s 8d to 5s 9d per 70 lbs Corn, in consequence of a plentiful supply of potatoes, and the rumours of blight having in most localities subsided, the Irish demand for corn and the lower qualities of breadstuffs has fallen off to a considerable extent. Yellow corn at Liverpool is quoted at 27s—Mixed 26s to 26s 6d, and White 29s per quarter. Meal 14s 6d per bbl.

Ashes.—Ashes have been taken to moderate extent at 20s to 28s 3d for Pots, and 30s for Pearls. The market closes with rather an easier appearance for buyers.

Provisions.—Some small parcels of fine Beef have been taken for London at full prices. For ordinary descriptions the price is lower, 2s to 5s per tierce, but at this reduction there is no improvement in the demand. For Pork there has been more enquiry.

Metals.—There has been no quotable change in the iron market. There is a fair average demand, and makers are pretty generally employed. The weather during the week has been changeable, but, upon the whole, not unfavorable to the growing crops.

From the Manufacturing Districts.—The accounts from the manufacturing districts are generally much more favorable. The American orders for Birmingham manufactures show no sign of diminution and the recent improvement in the Irish Linen trade has been fully maintained. At Nottingham there is increasing activity in the Lace manufacture, and a partial revival in the Hosiery trade. In both the Yarn and Cloth departments of Manchester there has been a fair amount of business during the week, with a general steadiness in prices. As regards goods we have to report a fair general trade, and prices are steady; the Calcutta letters contain further advices of falling prices in Manchester productions, from the excessive quantities sent out, and this additional decline is but partially counterbalanced by an improving rate of exchange.

VESSELS ARRIVED FROM MONTREAL.

July 24—Abeona, at Arbroath. 30—Pearl, at Gravesend. Aug. 1—Sisters, at Liverpool; Geo Hogg, at do; Mary Taylor, at the Clyde; Elizabeth Rose, at do; California, at do.

FROM MONTREAL AND QUEBEC.

July 28—Amy Ann, Liverpool. 30—Eliza Kirkbride, Southampton.

SAILED FOR MONTREAL.

July 23—Cambria, from the Clyde. 30—Ottawa, from do. 31—Canada, from Liverpool.

The Brittania, from Liverpool for Montreal, was spoken on the 27th July at 9 a.m., off the Tuskar.

Parliamentary.—It will be seen, by our report of the proceedings in the House of Assembly on Monday night, that the Montreal Diocese Temporalities Bill has been adopted, by a majority of 40 to 8; as well as the Bill to incorporate the Church Societies in the Dioceses of Quebec and Montreal—the vote on the latter Bill being 34 to 7. Mr. J. H. Boulton's Bill to relieve newspapers (publishing all the Acts passed by the Legislature!) from postage, has been lost.

Grand Trunk Railroad.—We publish to-day the Hon. Mr. Howe's Report of his late mission to New Brunswick and Canada. Taken in connection with the adoption of Mr. Hincks's resolutions by the House of Assembly on Tuesday night—an account of which we published, under our telegraphic heading, yesterday—we suppose, there can be no doubt that the offer of the Imperial Government will be accepted by the Provinces. We are glad to see that, according to Mr. Howe, this offer includes aid towards constructing the line between the Bend of the Peticodiac and the Maine frontier, where it will join the Portland and Halifax line; and we trust we may depend upon Mr. Hincks's statement that the sum for which the Imperial Government will lend us its credit—£7,000,000 stg.—will cover the cost of extending the line from hence to Hamilton, where it will unite with the Great Western, to Windsor, opposite Detroit. Should these points be conceded, we have only to hope that our prognostications as to the uselessness, and consequently unremunerative, character of the line between Quebec and the Bend of the Peticodiac, may not be realized, and, in the words of the old Scottish proverb, "put the head of the sow to the tail of the grice"—that is, balance the loss on that section of the road, with the profits from the other sections.

Diocesan Tour.—We understand the Bishop (Anglican) of Montreal left this city yesterday, on a visitation through the Ottawa District. His Lordship will, we learn, extend his tour as far as Clarendon, and will, probably, be absent for about three weeks.

Negro Jurymen in Canada.—Recently a negro man was summoned as a juryman in Toronto, U. C. The Court made him foreman in three different cases, at which some of his fellow jurymen "turned up their noses." We do not wonder at it. The other day, the jurymen at one of the Courts in Canada complained that they had to sell their clothes to get something to eat and to get lodging, and the Judge said he could not help it. A great country is Canada.

The preceding paragraph is from the *New York Herald*, and exhibits a tolerable specimen of the mendacious manufactures, with which that journal caters for his numerous readers. The only particle of truth in the above is, that a coloured man was lately summoned on a jury at Toronto, and objected to by his fellow jurymen—the remainder is a fabrication.—*Hamilton Gazette.*

(Not so fast:—if it be true that a colored man was lately summoned on a Jury at Toronto—and we know of no possible reason why he should not—it is equally true that, not many weeks ago, several jurymen, attending the Quarter Sessions in this city, "complained that they had to sell their clothes to get something to eat and to get lodging, and the Judge said he could not help it:"—it is also beyond all dispute that, "A great country is Canada"—and "nothin else"!—Ed. Hd.)

View of Montreal.—We, yesterday, visited Mr Whitefield's studio, in the St. Lawrence Hall, and were much gratified with the view of our fair city, taken from a point above the McGill College, on which he is now engaged. When finished which it will very shortly be, Mr. Whitefield will have it lithographed, and we have no hesitation in saying that a more beautiful and elaborately correct view of Montreal, as it now is, could not possibly be executed. We can safely recommend all who take an interest in our city to add their names to Mr Whitefield's subscription list,—first, that they may possess themselves of so beautiful a work of art, and so correct a delineation of the principal city in British North America; and, secondly, because Mr W. has determined that no more copies of his picture shall be struck off then are sufficient to supply the subscribers' list.

Cricket.—A match between the Montreal Club and the Officers of the Ordnance will come off on Monday next, (weather permitting), on the McGill College grounds. Wickets to be pitched at half-past ten o'clock.

Fire.—Yesterday afternoon, about two o'clock, a fire broke out in the house occupied by Ernest Idler, Esq., corner of Dorchester and Sanguinet Streets, but was extinguished without doing much damage, owing to the speedy arrival of the fire engines.

The St. Lawrence Hall.—We owe our friends, Messrs. Compain & Co., an apology for an accidental slip of the pen, in our yesterday's issue. In mentioning that their splendid Concert Hall had been "unexpectedly closed," we should have added, "for theatrical performances." Our observations being entirely in connection with the Theatre and Mrs. Skerrett's farewell benefit, in consequence of the St. Lawrence Hall having been closed—to Mr. Skerrett's *corps dramatiqne*—in the "Bandbox," we can scarcely suppose our words could mislead any one; at the same time, we are happy to obviate the possibility of mistake, in assuring our travelling friends and the public in general, that the St. Lawrence Hall Hotel, so far from being closed, still offers them a welcome and, we can add, feelingly and personally, every accommodation and luxury which the most indefatigable attention to their comfort and the most liberal expenditure can procure.

Promenade Concerts at the Hays House.—The fifth of these pleasant Concerts came off on Tuesday evening last, and was attended by a large number of citizens and strangers; of the latter there must have been about one hundred, principally Americans. The fine Band of the XX Regiment performed several overtures, &c., after which, as a compliment to the Americans present, "Hail Columbia" was performed. Promenading and dancing was then resumed, and kept up till 11 o'clock. These Concerts have been originated in this city by our friend, Mr. Pope, whose connection with first class Hotels in New Orleans has been extensive, and where this description of amusement with great success is carried out.

We find the following in yesterday's *Gazette*. Our contemporary does not comply—at least publicly—with Mr Cooke's request, to be informed from what source he obtained his information:—

We have received the following letter from Mr Cooke, contradictory of the statement we made yesterday of his being about to receive an appointment under the Government:

Montreal, 13th August, 1851.

Sir,—I perceive in your issue of this morning, that you state you have learned that Mr Cooke, shoemaker, of this city, has been appointed "Inspector of Leather." I presume I am the individual alluded to, and as I am altogether unaware of my appointment to any office whatever under Government, and as the report you have been pleased to circulate through the columns of the *Gazette* may injure me in the opinion of some of my friends, I shall feel obliged if you will inform me from what source you obtained your information.

I am, Sir, your obedient servant,
Robert Cooke.

The Aztec Lilliputians.—These extraordinary children will be exhibited at the Odd Fellows' Hall, on Monday, August 25, as will be seen by advertisement. In the *Toronto Globe* of April 24 an interesting account is given of the children, furnished by Dr. Warren, of Boston, to the *American Journal of Medical Science*. The boy is from 10 to 12 years of age, and is 33 inches in height; the girl is from 7 to 10 years of age, and is 29 inches high. The Doctor describes their appearance as most interesting and agreeable to every one.

The Wizard.—Signor Francisco continues to attract old and young to the Odd Fellows' Hall. He is certainly one of the most expert and laughter-exciting necromancers we have ever seen—and so, apparently, "say all," for he is nightly favored with crowded audiences.

We learn that the "California", one of Mr. Orr's regular traders, has arrived at Glasgow, after a quick passage.

In reference to our advertising columns, we would remind our readers, that the sale of splendid Drawing Room Mirrors will take place at the stores of Messrs. Leeming & Sabine this morning. In addition to the Mirrors, the beautiful White Furniture, made by Mr. John Tweedy for the Industrial Exhibition, will positively be sold.

Toronto Correspondence of the Herald.

Toronto, August 13, 1851.

The *Globe* to-day has a story about "new combinations," which is very nearly a repetition of what he had before alleged. According to my information, he is right this time, so far as some arrangements as to newspapers are concerned. The remaining part, which is more important, namely that Messrs. Rolph and Cameron are to join Mr. Hincks, to form a strong Ministry, is more than I believe. I am told, by those who, I think, are well informed, that there is no truth whatever in this statement—for the present, at least. What may be done hereafter, in case Messrs. Rolph and Cameron can secure the following of a strong party, is altogether another matter.

You will see, in the *Patriot*, several hard knocks dealt out to the two members for this city. There seems to be a strong disposition to get rid of both of them, and to elect merchants instead of lawyers.

I send down an abstract of the very important Bill on the Currency, and Mr. Howe's Report to his Government.

MESSAGE.

Elgin and Kincardine.

The Governor General transmits, for the information of the Legislative Assembly a Copy of a Despatch from the Officer Administering the Government of Nova Scotia, enclosing the Copy of a Report by the Honorable Joseph Howe, of the proceedings of the Delegates on the subject of the Halifax and Quebec Railroad.

Government House,
Toronto, 11th August, 1851.

(Copy.) Government House, Halifax, 26th July, 1851.

My Lord,—I have the honor to enclose, for your Lordship's information, a Copy of a Report just made to me by the Honorable Joseph Howe; and I beg to acquaint your Lordship that I have, with a view to an early decision upon the policy agreed upon at Toronto, this day dissolved the House of Assembly of this Province.

I have, &c.,
(Signed,) John Bazalgette, Administrator.

His Excellency the Right Honorable
The Earl of Elgin and Kincardine,
&c. &c. &c.

DELEGATION TO CANADA.

Mr. Howe's Report.

Amherst, 20th July, 1851.

Sir,—The negotiations, which I was charged to conduct with the Governments of Canada and New Brunswick, having been brought to a close, in a final Conference held with the Delegate from the latter Province this afternoon, I lose no time in submitting, for the information of His Honor the Administrator of the Government, a Report of my proceedings under the Commission and Instructions with which I was honored by His Excellency Sir John Harvey.

You are aware that His Excellency Sir Edmund Head had selected the Honorable Edward B. Chandler to represent the Government of New Brunswick, at Toronto, and that it had been arranged that I was to meet him at Dorchester on the 1st of June.

As I had to pass through the County of Cumberland, where the Bill, pressed so earnestly on the Legislature at its last Session, originated; and it is more than proaable that public opinion in New Brunswick would be largely influenced by the decision of that County against the measure, and in favor of the proposition made by Her Majesty's Government, I deemed it to consist with my duty to invite, in the Shire Town, the most ample discussion of the whole subject. I therefore addressed a letter to the Custos Rotulorum of Cumberland, acquainting him with my intention to attend any meeting that might be called for that purpose.

On reaching Amherst I found that a meeting had been convened, and that a very numerous and respectable body of the leading men of Cumberland crowded the Court House. The result of an animated discussion, which extended over several hours, was an almost unanimous decision to sustain the views and policy of the Government.

At Amherst I received invitations to attend two meetings in the County of Westmoreland, New Brunswick, and another in the County of Kent; the former I accepted, as the places named lay upon my route—the latter I was compelled to decline. The unanimity of feeling displayed at Dorchester, and at the Bend of Peticodiac, convinced me that the rural population of New Brunswick only required information; and that, when the subject came to be fully discussed, their support would be given to any fair modification of the terms which the Legislature had rejected.

An experiment on the city of St. John appeared to offer less assurance of success. The Office Bearers and Agents of the Portland Company resided there, and formed, with their friends, clients and Stockholders, an organized combination. A large portion of the press had taken its tone from these gentlemen; and, for many weeks, the propositions contained in Mr. Hawes's letter, and the general policy of this Government, had been discussed in a spirit, which was certainly not calculated to ensure me a very cordial reception.—When I entered the city, I was assured that there would not be three exceptions to the unanimity with which the offers of Her Majesty's Government would be rejected and condemned. The result of the discussion which ensued, at a public meeting to which I was invited by the citizens, may be gathered from the altered tone of a very influential portion of the press, and from the fact that the promoters of the Portland Company have postponed further proceedings until the 20th of August. "It is evident", says the Editor of the Freeman, (a journal originally hostile, still doubtful, but faithfully interpreting the prevailing sentiment of the community), "that the public mind is excited by the magnificent proposal of Earl Grey, as interpreted by Mr. Howe and others."

Having attended three meetings within His Excellency's Government, I deemed it but respectful to proceed to Fredericton, and explain to Sir Edmund Head the reasons by which I had been influenced, and the general views which I entertained. These explanations were regarded as satisfactory, and I received from His Excellency very gratifying marks of confidence and consideration.

On reaching St. Andrews, on my way to the United States, I was met by a Deputation, with a request that I would address a public meeting at that place on the following day. Though apprehensive that the interest which the people of St. Andrews naturally felt in the success of their own Railroad, might place them in hostility to the inter-colonial lines, I consented to attend the meeting, and received, at its close, the most satisfactory assurances, from a very large assemblage of all ranks and classes, that no mere local interests, or predilections, would induce St. Andrews to place herself in opposition to a great scheme of inter-colonial policy and improvement.

The charge having been frequently made, that the Government of Nova Scotia had broken faith with the Portland Convention, and much pains having been taken to persuade the people of that city that the North American and European line had been abandoned, it appeared very desirable that the conduct of this Government should be vindicated, and its policy clearly explained to the leading men of this friendly and very interesting community. Mr. Chandler and myself spent nearly a day at Portland, on our way to Canada. John A. Poor, Esq., one of the most active members of the Convention, rejoined us at Toronto, and we exchanged frank explanations with, and received much courtesy from that gentleman and his friends, on our return. Misconceptions, previously entertained, were dispelled by these friendly conferences. Mr. Hawes's letter of the 10th March—Earl Grey's despatch of the 14th, addressed to the Governor General, with copious extracts from the correspondence between the Imperial and Colonial Governments, have been published and extensively circulated in the State of Maine.

Assuming that the policy explained to them will be acted upon in good faith, and that "the Provinces of New Brunswick and Nova Scotia will, in some mode or other, most agreeable to themselves, carry out the plan of a continuous line of Railway from the boundary of Maine to the eastern shores of Nova Scotia", all opposition to our policy has been wisely withdrawn by the people of Portland, who are now appealing to the Legislature and citizens of Maine, to come promptly forward and supply the means to complete that portion of the line which is to extend from Bangor to the boundary of New Brunswick.

Mr. Chandler and myself reached Toronto on the 15th Jnne, and, during our stay at the seat of government, received from His Excellency the Governor General—from the Speakers of the two Houses of Parliament—from the Members of the Administration, and from the Mayor and citizens of Toronto generally, such marks of distinction and courtesy as assured us of the very high estimation in which the Provinces we represented were held.

Invited to take seats in Council on the 16th, we were at once assured of the cordial co-operation of the Government of Canada—of the readiness of the administration to accept the terms offered by the Imperial Government, and to unite with Nova Scotia in meeting the difficulties presented in New Brunswick, by such fair modification of those terms as would enable Mr. Chandler to secure the co-operation of that Province. It is due to that gentleman to state, that he made no importunate demands—explained the position of his government, and the prevailing sentiment of the country, frankly, and then left it to the discretion and good feeling of the Conference to determine to what extent the peculiar aspects of New Brunswick should be considered, and aid given to that Province, in the construction of one of her great lines, to enable her to complete them both.

If New Brunswick maintained an antagonistic position, it was clear that neither the line to the St. Lawrence nor that to Portland could be accomplished, the proposition of the British Government would in that case have to be rejected, and the three Provinces be driven, in bad temper, and at ruinous rates of interest, to carry on their internal improvements without mutual sympathy or co-operation.

To obviate this state of things appeared to all parties most desirable; and, at length, Mr. Chandler was empowered to invite the co-operation of his Government, upon these terms, it being understood that the Governments of Canada and Nova Scotia were to be bound by them if New Brunswick acquiesced :

That the line from Halifax to Quebec should be made on the joint account and at the mutual risk of the three Provinces, ten miles of Crown Land along the line being vested in a joint Commission, and the proceeds appropriated towards the payment of the principal and interest of the sum required.

That New Brunswick should construct the Portland line, with the funds advanced by the British Government, at her own risk.

That Canada should, at her own risk, complete the line from Quebec to Montreal, it being understood that any saving which could be effected within the limits of the sum which the British government are prepared to advance, should be appropriated to an extension of the line above Montreal.

That, on the debt contracted, on the joint account of the three Provinces, being repaid, each should own the line within its own territory.

It was also understood that Canada would withdraw the general guarantee, offered for the construction of Railways in any direction, and that her resources should be concentrated upon the main Trunk Line, with a view to an early completion of a great Inter-colonial Highway, on British territory, from Halifax to Hamilton; from whence to Windsor, opposite to Detroit, the Great Western Company of Canada have a line already in course of construction.

This policy having been arranged, it became very desirable that Mr. Chandler should return promptly to New Brunswick, to submit it to his Colleagues—and to assure himself that, in the event of the Administration assuming the responsibility which it involved, they would be sustained by a majority of the Legislature. Allowing a sufficient time for a deliberate review of the whole ground, and for a final decision, a meeting was arranged with Mr. Chandler at Dorchester, on my return. I rejoined him this afternoon, and was happy to receive from him the assurance that the Government of New Brunswick will be prepared to submit the policy agreed upon to the Legislature of that Province, with the whole weight of its influence, so soon as the Government of Nova Scotia intimates that it is prepared to co-operate on the terms proposed.

The final adoption of this great scheme of inter-Colonial policy now rests with the people of Nova Scotia, to whom, it is probable, that it will be submitted by the dissolution of the Assembly at an early day. I have pledged the Government to it beyond recall. I have staked, upon the generous and enlightened appreciation of their true interests by my countrymen, all that a public man holds dear. Having done my best to elevate Nova Scotia in the eyes of Europe, and of the surrounding Colonies,—I have no apprehension that she will repudiate the pledges which I have given.

Her clear interest demands the prompt acceptance of the proposition,

1st. Because it secures to her, within very few years, a Railway communication of 1400 miles, extending through the noble territory of which she forms the frontage, and with which her commercial, social and political relations, must be very important in all time to come.

2d. Because it gives to her, almost at once, connection with 8000 miles of Railway line, already formed, in the United States—makes her chief seaport the terminus for ocean steam navigation, and her territory the great highway of communication between America and Europe.

3d. Because, on the extinction of the debt, she will possess a road with which there can be no competition within the Province—a road towards which two great streams of traffic must perpetually converge, and the tolls upon which must become a source of revenue, increasing with each succeeding year.

4th. Because, the completion of these great lines of communication will give to all the North American Provinces a degree of internal strength and security, and consideration abroad, which will far transcend any pecuniary hazards which may be incurred.

5th. Because the completion of these lines will draw into the Province much of the surplus labor and capital of Europe.

6th. Because, the line from the Seaboard once completed to Canada, there cannot be a doubt that it will soon be extended into the fertile and almost boundless country beyond; being followed, at every advance, by a stream of Emigration, and ultimately, and in our own time, reaching the shores of the Pacific.

It may be argued that we ought not to risk anything beyond the limits of our own frontier. But I regard the risk as involving a very slight liability beyond what we have already cheerfully assumed.

All our calculations have been based upon the presumption that our Roads will cost £7000 currency per mile. From the best information we could obtain in Canada and in the United States, and we gathered the opinions of the chief promoters of the Vermont, Great Western, Portland and St. Andrew's Roads, there is every reason to believe, if the Provinces avail themselves of the most modern experience, and of the present low price of Iron, that, with the money in hand, and large contracts to offer, the work need not cost much more than £5000 currency per mile. Should this be the case, the sum which was originally contemplated will probably cover the whole expenditure for which Nova Scotia will be liable; and if it does not, with her present low Tariff, and annually increasing consumption, the deficiency may be soon supplied.

But, after a careful examination of the country traversed by American and Canadian Railroads, and of the general testimony borne by their promoters and officers, that in all cases the money with which they have been constructed has cost from 7 to 12 per cent., I have brought my mind to the conclusion that a Railway built with money at 3½ per cent., will pay almost immediately, even if made through a wilderness, provided the land be good, water-power and wood abundant; and provided that there are formed settlements at either side, to furnish pioneers, and local traffic with them, when they are scattered along the line. We have other resources, beyond our own limits, in associations of the industrious and enterprizing, who are prepared to come into the Province the instant these great works are commenced, and who, within the limits at least of the lands dedicated to this enterprize, will soon form a continuous street, through that portion of the territory between our frontier and the St. Lawrence, which appears to present any really serious hazard.

In estimating the relative risks and advantages which this scheme involves, it should also be borne in mind, that while Nova Scotia has but little Crown land left along her portion of the line (and this has been frankly explained) the lands which Canada and New Brunswick are prepared to grant are extensive and valuable. They will probably amount to 3,000,000 of acres, which, if sold at 5s. an acre, (and with a railroad running through them they will soon command a much higher price,) would form a fund out of which to pay the interest on the whole capital expended for the first three or four years.

I cannot close this report without some notice of the very enthusiastic and honorable treatment that I received during short visits to Quebec and Montreal. In both cities, men the most distinguished for social position, commercial and intellectual activity, and commanding influence, vied with each other in recognizing the importance and value of the maritime Provinces. Among all ranks and classes the Railroads seemed to be regarded as indispensable agencies by which North Americans would be drawn into common brotherhood—inspired with higher hopes—and ultimately elevated by some form of political association, to that position, which, when these great works have prepared the way for union, our half of this continent may fairly claim in the estimation of the world.

I have the honor to be,
Sir,
Your very obedient servant,
Joseph Howe.

An Act to provide for the introduction of the decimal system into the Currency of this Province.

So far and so soon as may be practicable, the Public Accounts of this Province, shall be kept in dollars and decimal parts of a dollar, the hundredth part to be called a cent, and the thousandth part a mill; and the dollar shall be equivalent to five shillings of the present currency.

Such coins, representing dollars or divisions of dollars, as her Majesty shall direct to be struck for the purpose, shall, by such names and at such rates as her Majesty shall assign to them respectively, pass current and be a legal tender in this Province, the standard of fineness of the said coins, when of silver or gold, being the same respectiveiy as that now adopted for coins of the United Kingdom, and the intrinsic value of the said coins when of gold bearing the same proportion to that of the British sovereign as the sums for which they are respectively to pass current shall bear to £1 4s 4d of the present currency or to 4 dollars 86 2-3 cents, and the intrinsic value of such coins, when of silver or copper, bearing the same proportion to their nominal current value which the intrinsic value of British silver or copper coins respectively bears to their nominal or current value: provided always, that such gold coins shall be legal tender to any amount by tale so long as they shall not want more than two grains of the standard weight to be assigned to them respectively by her Majesty, subject to the same deduction for want of weight as is now provided with regard to British gold coins, and shall also be a legal tender to any amount by weight in sums not less than 200 dollars or fifty pounds of the present currency, at the same rate and on the same conditions as are now provided with regard to British gold coins; and provided also that such silver coins shall not be a legal tender to the amount of more than ten dollars or two pounds ten shillings of the present currency, in any one payment, nor such copper coins to the amount of more than twenty cents, or one shilling currency, in any one payment.

Excepting that the silver dollars and half dollars mentioned in the seventh section of the Act 4 and 5 Vic, or any silver dollars and half dollars to which the provisions of the said section may by any Act or Proclamation have been extended, shall not pass respectively for five shillings and one penny of the present currency, and for two shillings and sixpence halfpenny of the said currency, but each such dollar shall pass and be a legal tender for one dollar or five shillings of the said currency.

PROCEEDINGS OF THE CORPORATION.

(*Reported for the Montreal Herald.*)

SPECIAL MEETING,

Wednesday, August 13.

Present:—His Worship the Mayor, Aldermen Macfarlane, Grenier, Homier, Lynch and Benjamin; Councillors Prevost, Leclair, Atwater, McDonald, Frechette, Leeming, Whitney, McCambridge, and Bronsdon.

Petitions were read from Messrs. J. J. Loranger, Wm Barry, proprietors in Dorchester street, between Sanguinet and St. Dennis streets, Wm. Drum, the inhabitants of St. Antoine Suburb, George Bennet, and Wm. Long, and severally referred to the proper standing committees of the Council, to be considered and reported upon.

Petitions were also submitted from Dr. Picault, Joseph Levey, and Joseph Brouillet, for reduction of assessment, and refused to be received, the time fixed by law for all such applications being now past.

Alderman Macfarlane then submitted the motion of which he had given notice at the last Meeting of the Council, for the arrest, by the Police of the City, of the persons assuming to act as Policemen on the Wharves; and if the City Police were insufficient for the purpose, then that their arrest be effected by aid of military force.

A long discussion ensued on the motion, and the majority of the Council, though adverse to the proposition, were clearly of opinion, and several members took occasion to declare so, in very plain terms, that the Council, and citizens at large, through their representatives, had been most discourteously treated by the Executive, inasmuch as no notice had ever been given them of the establishment of the new Police under Inspector Johnson—a notice to which they had an unquestionable right, in common civility and justice, as the constituted Civic Government of Montreal, and the Public Conservators of the peace of the City. They were, moreover, still more indignant that a letter on the subject of the new Police, written to Mr. Secretary Leslie, by his Worship the Mayor, so long back as the 21st of July last, had remained unanswered up to the present hour—no acknowledgment of its receipt ever having been yet deigned to be given by the Provincial Secretary. The whole Council concurred in the necessity that existed for the establishment of the new Police force, and many did not hesitate to express their satisfaction at its formation, and the manner in which its duties were performed; but nearly all were indignant at the discourteous and insulting silence of the Executive Authorities to the Council, upon the occasion of establishing the force in this City. Finally, the consideration of the subject was deferred till the next Meeting, to see if any answer would be received from the Civil Secretary in the meanwhile.

Upon a Report from a Special Committee, the contract for the Carpenters' work necessary to convert the upper part of the East wing of Bonsecours Market into two large Halls for public meetings of the citizens, for Concerts, Lectures, &c., was given to Mr. Alex. McDonald, of Bleury Street, for £324. The contract for the Plasterers' work to Mr. W. H. Kerfert, for £170: and a mistake having occurred in the lowest tender for the Painting, the Committee were authorized to give that contract to whomsoever of those who tendered they deemed most advisable.

Upon Reports to that effect of the Fire Committee, £63 were voted to purchase 300 feet of new India Rubber hose and couplings, and the application of Mr. Rey to open a pistol gallery in Notre Dame Street, refused, the discharge of fire arms in the City being prohibited by law.

Upon a Report of the Police Committee, the application of the Policemen to have their pay raised from 2s 6d to 3s per day was refused; but it was resolved that in future neither officers or men should be put under stoppages while detained from duty, by wounds or sickness received or contracted in the service.

The Report of the Committee on the overcharges of assessment was next considered and adopted.

On motion of Alderman Homier, seconded by Councillor McCambridge, his Worship and the Chairman of the standing Committees of the Council, were appointed a special Committee, on the number, remuneration and duties of all persons employed by the Council.

After a long and very able exposition made by Councillor Whitney, of the sacrifices incurred by certain public-spirited and wealthy citizens of the western section of the city, to establish the St. Anne's Market, the conditions upon which it had afterwards become the property of the city, and the manner in which it had been destroyed whilst temporarily occupied by the Legislature; and the strong claims arising from all these facts which the parties referred to in especial, and all the population of the western and southern sections of the city, in general, had that a new and equally good market should be erected on the site of the old building,—it was resolved, on motion of Councillor Whitney, seconded by Councillor McCambridge,—That a Special Committee should be appointed to examine the plans and estimates in the possession of the Corporation, with a view to report upon them and upon the means of rebuilding the St. Ann's Market. The following gentlemen were named the Committee, viz:—Mr. Whitney, Chairman; and Messrs. Lynch, M'Cambridge, Homier, Macfarlane, Leeming, Frechette, Bronsdon and Leclair.

The consideration of a claim of Mr. Lacroix for damages, for the non-completion of Viger Square, within the term stipulated by contract between him and the Corporation, was referred to the Finance Committee—after which, at about eleven o'clock, P. M., the Council adjourned.

Lake St. Louis and Province Line Railroad.—The ceremony of "breaking ground" on this Line,—for the sake of *shortness*, known also as the "Caughnawaga Railroad,"—took place on Monday morning, at the appointed hour, on the Line separating the British Province of Canada from the State of New York. The spot selected divides the Canadian Township of Hemmingford from the New York Town of Moers, and will hereafter be the point of junction between the Plattsburg and Montreal Railroad, and the Lake St. Louis and Province Line Railroad. A numerous party of the Directors and friends of the enterprize, from Montreal, were met at Rouse's Point, by a still more numerous party, consisting of the President and Directors of the Plattsburg and Montreal Railroad, and many citizens of Plattsburg, and proceeded by the Ogdensburgh Railroad to Mooers, where they were received by a large assemblage of the residents on the line of route, Mooers, Scotia, Chazee, Buchananstown, and Lawrence, intermingled with the inhabitants of Hemmingford, Sherrington, Lapigeonere, and La Salle. Here a procession was formed, which repaired in four horse teems, with the most joyous manifestations to the scene of action, where, in the depths of the primitive forest, hitherto untrod by human foot, and so soon to become the highway of nations, an extensive clearing had been made on the line of road, and here the contractors and their men had made the usual preparations. Introductory speeches having been made by William T. Coffin, Esq., President of the Lake St. Louis and Province Line Railroad, and William Swetland, Esq., the venerable and respected President of the Plattsburg and Montreal Railroad, under the direction of T. W. Carter, Esq., the Superintending Engineer of both roads; both Presidents, having "doffed coats," proceeded each to fill his respective barrow, and to "dump" their contents in eager competition and in good style of execution, in which, be it remembered, the venerable President of the Plattsburg Road was in no way surpassed by his younger competitor. The Directors on each side, R. Anderson, J. Thompson, W. Murray, G. Laviolette, Esquires, and Col. Scriver, of the Montreal portion, and Gen. Skinner. Col. Moore, Messrs. Shedden, Lawrence, Cooke, Meyer, of the Plattsburg section, followed the example, which was forthwith taken up by the crowd generally, with an enthusiasm, which went as near to leave the road "fully equipped and in complete running order" as enthusiasm ran. Congratulatory addresses having been delivered, by Colonel Moore, of Plattsburg, and Col. Scriver, of Hemmingford, amid cheers which which "woke the echoes of the slumbering woods," the cavalcade returned to Mooers, where refreshments had been prepared at the different hotels, for the party, compelled by their number, to a temporary and reluctant separation. Finally, after mutual felicitation, the gentlemen from Montreal and Plattsburg parted from their local friends, and returned together to Rouse's point, delighted with their excursion, its results, and more than ever assured of the success and prospects of their undertaking. In our general advocacy of all Railroads, tending to promote the prosperity of the country, we cordially welcome the steady progress of the Caughnawaga Railroad, which, securing other advantages, will ultimately confer upon the city of Montreal, and on all parts of the country, dependent on Montreal, the means of egress into the United States, without interruption, during the whole winter season.—*Gazette.*

PORT OF QUEBEC.

ARRIVED—AUG. 13.

Ship Toronto, Ballantyne, 12th July, Liverpool, Gillespies, genl cargo for Quebec and Montreal

Bark Jamaica, Martin, 28th June, Greenock, Dean & Co, coals and pig iron, 179 passengers

DIED,

At Chambly on the 9th instant, Mr. John Yule, Senr., aged 81 years.

At Hamilton, of whooping-cough, on the 31st ultimo, Eliza Maria, infant daughter of Rev. J. G. Geddes, aged 3 months.

Drowned, on the 23rd July last, at Gladfield, Chicoutimi, River Saguenay, George Simpson, eldest son of Simon Ross, Esq., late of the Hon. Hudson's Bay Company, aged 11 years and 21 days.

At Lake Corbeau, Township of Brandon, on the 11th ultimo, at the patriarchal age of 100 years, 3 months and 17 days, Mrs. Charlotte Pothier, relict of the late Mr. Charles Gilbert. Her mind was strong and vigorous till the day of her death. She leaves a sorrowful family, composed of 12 children, 72 grand-children, 84 great-grand-children, 30 near great-grand-children, and 5 children of the last ones.

NOTICE.

To Members of the Provincial Legislature, Members of the Fourth Estate, &c. &c.

PUNCH has read Sir C. E. Trevelyan's Letters in the *Herald*, (he never reads any other paper), and is convinced that Canada does not know how to legislate for herself. He has, therefore, laid this matter before "My Lords Commissioners of Her Majesty's Treasury", in his last Dispatch, No. 7777 Cy., and has been honoured with a Royal Commission to open offices in Toronto and Quebec, for the examination and correction of all Bills intended to be submitted to the Legislature. Such Bills as Punch sanctions, will be transmitted to Sir C. E. Trevelyan, for the approval of that distinguished Baronet; and, for the introduction to the Legislature of all Bills thus Trevelyanized, Punch will issue his Royal Letters Patent of permission to any members wishing for the same. Punch was induced to solicit the honour of the above appointment, merely to prevent mistakes; and pledges himself to the public promptly to resign when he can no longer hold it, when it *won't pay*, or when that BIG BABY, CANADA, quits its antics in attempting to legislate without asking permission from Downing Street.

1st April. 143

P.S.—Punch is at present at Toronto, attending to the Trevelyanized Bills, the Rimouski and Paticodiac Railroad, and other public matters: during his absence from Quebec, his good Lady, Judy, will transact all business pertaining to the subject of this Notice.

St. Urbain Street Academy.
