VOL. XXXVIII, No. 205
MONTREAL, TUESDAY, AUGUST 28, 1906.
PRICE ONE CENT.

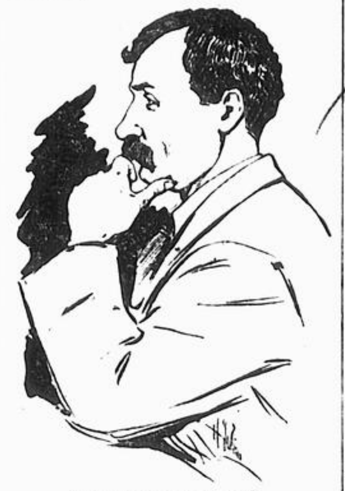
JUDGE DORION REFUSED TO HEAR A PETITION UNDER THE USURY LAW

Ruling was Given To-Day in Practice Court to the Effect That New Law Does Not Provide for Upsetting Judgments Rendered Before Law Was Passed.

In the Practice Court to-day Judge Dorion refused the petition made by Mr. E. M. McDougall, of the firm of McGibbon, Casgrain, Mitchell and Surveyer, in the case of S. Craig et al vs. I. Morris to have a judgment, already rendered in the case, thrown out under the recent act passed against usury by the Dominion Parliament. Mr. Whelan appeared for the Craig firm.

The facts of the case are briefly as follows:

In January, 1902, Isaac Morris, the petitioner, borrowed from S.Craig and Company, the plaintiffs in the action, the sum of ten dollars, and signed a note for the sum of twenty dollars payable one week after date, with interest at the rate of 120 per cent. per annum after maturity, which would be, of course, one week after the making of the note. The petitioner was prepared to prove that he received the sum of ten dollars and not twenty dollars as was on the face of the note. In consequence he was not only paying as interest on the note the set 120 per cent. but a further amount of one hundred per cent. Clearly, then, the petition was within the scope of the act. The said section reads as follows:



MR. ISAAC MORRIS,

who petitioned to have judgment upset under the new Usury Law.

HOW THE ACT READS.

"In any suit, action, or other proceeding concerning a loan of money by a money-lender, the principal of which was originally under five hundred dollars, wherein it is alleged that the amount of interest paid or claimed exceeds the rate of twelve per cent. per annum, including the charges for discount, commission, expenses, inquiries, fines, bonus, renewals, or any other charges, but not including taxable conveyancing charges, the court may re-open the transaction and take an account between the parties, and may, notwithstanding any statement or settlement of account, or any contract purporting to close previous dealings and create a new transaction, re-open any account already taken between the parties, and relieve the person under obligation to pay from payment of any sum in excess of the said rate of interest; and if any such excess has been paid, or allowed in account, by the debtor, may order the creditor to repay it, and may set aside, either wholly or in part, or revise, or alter, any security given in respect of the transaction."

One the 30th of December, 1902, judgment by default was obtained against the petitioner for the sum of $20 with interest, costs, etc. The petitioner is ready to swear that he never recived a copy of the writ and declaration.

DRIVEN OUT BY PERSECUTION.

In virtue of this judgment, the plaintiff, Craig and Company, has issued several seizures by garnishee upon the defendant, and in several cases has caused the latter to lose his situation. So great was this persecution that the defendant was obliged to leave the country to escape his persecutors—all for a claim already paid.

Amounts were paid on these seizures and the petitioner contended that any such payments were not due since the principal obligation on which they depended had been paid and that in consequence any payments so made should be imputed to the credit of the defendant. This should be a further reason for obtaining a complete discharge at the hands of the plaintiff.

On August 14, 1906, the petitioner, I. Morris, served on the plaintiff, Craig and Company, a notice calling upon them to grant main-levee of the saisie-arret issued in this case on July 26, returnable on August 4th, in the hands of the petitioner's present employers, Murphy and Company, adding that unless the plaintiff did so, he would petition the court to re-open the enquete and revise the judgment rendered in the case, by virtue of the new usury law.

When the case came up in the Practice Court to-day, Mr. Macdougall, on behalf of the defendant, outlined the facts of the case, and asked His Lordship that the enquete in the case be re-opened, and a date fixed therefor. Mr. Macdougall read the clause of the usury act bearing on the subject and urged that this authority was expressly given to the court to revise and modify such accounts.

JUDGE DORION'S DICTUM.

Judge Dorion did not deem it necessary to allow Mr. Macdougall to proceed with his argument.

"There is no reason for setting aside the judgment," he said. "You allege no reason why it should be set aside."

Mr. Macdougall pointed out that the defendant was ready to swear that he had never received a copy of the writ, and declaration before judgment. He further pointed out that the clause of the new law above quoted provided for such cases.

Judge Dorion took about a minute to end the discussion.

"The clause does not provide for the setting aside of judgment," he ruled.

The reasons governing the ruling in this case had to do with the danger of establishing a precedent on the re-opening of judgments, as in that case there would be a multiplicity of such petitions. The case was an extreme one in any event, as the judgment was an old one, rendered in 1902.

TO CIRCUMVENT THE LEGISLATURE

Plan Proposed Whereby City Can Obviate Killing of its Charter Amendments.

TWO BILLS INSTEAD OF ONE

Major and Minor Interests Can in This' Way Be Separated—Ald. L. A. Lapointe's Proposition.

An important move will be made, when the City Council meets in September, by Ald. L. A. Lapointe, to have matters remodelled so that the city, when it takes up the study of the Charter amendments, may be in a position to submit two bills to the Legislature instead of one.

"The importance of this move, if it can be legally made," said Ald. Lapointe to-day, "will be recognized when it is stated than on more than one occasion the city has had its entire bill killed because it would not consent to the remodelling of certain clauses by the Legislature. At the very session of the Legislature, the Legislative Council threw out the entire bill because the aldermen would not consent to changes being made in the bill which were known to be inimical to the interests of the city.

"Now what will be proposed is that the city shall incorporate into one all important measures such as increasing taxation, borrowing money to lay conduits, installing gas plants, borrowing money, etc. Minor measures, which are important so far as the government of the city is concerned, can be put in a separate bill. The result of the city having two bills will be that it will always be sure of getting a certain number of measures passed.

MORE PROMPT ACTION NEEDED.

"It is sure, continued Ald. Lapointe, "that this autumn the Charter Committee will take up a number of most important measures. For this reason the committee ought to meet promptly in September. By meeting early business men and others will be in a position to attend meetings of the committee and inform the aldermen whether or not they approve of certain measures, in regard to levying special taxes, being imposed. The trouble in the past has been that the Charter amendments were rushed through the Council in such a hurry that members of the Board of Trade, and deputations from other important bodies, assailed the proposals of the city's bill at the Legislature. Such opposition has frequently resulted in defeat for the City Council. All this ought to be remedied by the Charter Committee meeting promptly.

ADDITIONAL TAXES.

"It is pretty generally admitted now that next year additional taxes will have to be imposed in order to properly carry on the civic administration of the city. The aldermen have already received documents from commercial bodies stating that they were willing to bear a little heavier taxation in order that good roads might be obtained. From the present appearance of things, I think we shall soon be able to get a much more satisfactory revenue. There should be no attempt, however, to go to the Legislature and ask additional powers to levy taxation until those interested in the matter have been invited to attend the meetings of the Charter Committee and express their views on the subject."

In conclusion, Ald. Lapointe said that he believed that the Legislature would again be asked to allow the city to borrow money to build a gas plant, and also to put down civic conduits.

RUSSIAN COURT IN A DILEMMA

At a Loss How to Meet the Campaign of the Terrorists.

URGE A DICTATORSHIP

Extraordinary Conference May Be Called to Appoint Committee of Public Security.

St. Petersburg, August 28.— The Court at Peterhof apparently is divided as to how to meet the campaign of the Terrorists. Premier Stolypin and his cabinet, however, have taken a stand against repression upon a scale which would drive the whole population into revolt.

The Premier's views are reflected by the Rossia, to-day, which declares the Government must not be frightened into abandoning the reform programme. It is only necessary, the paper asserts, to draw a line between loyal opposition and those who by word and act seek the destruction of the Government.

The Novoe Vremya, proposes "as an exit from the horrors of the worst kind of civil war," to confer upon the cabinet authority to "prepare a constitution which will realize the hope of the sane Liberals."

The Svet continues to advocate a concert of the powers to suppress anarchy and anarchists.

URGE DICTATORSHIP.

Against these moderate propositions the [illegible]tionary party at Cour[illegible] urging a dictatorship and the Strana publishes a report that upon the initiative of the council for national defence an extraordinary conference, somewhat similar to that which created the committee on public security after the assassination of Alexander II., has been called to meet at Peterhof during the latter part of the week.

The funerals of the victims of the bomb explosion of Saturday last at the residence of Premier Stolypin occurred to-day under military escort.

MONARCHICAL PARTY WANTS DICTATORSHIP.

Moscow, August 28.—The Monarchical party, in an address to the Emperor just published, openly appeals for a dictatorship, "which will put an end to the demoralization of the army," and also urges the complete suppression of Parliament and the restoration of the unlimited autocracy. Should His Majesty, however, insist on retaining the Parliament, the Monarchists promise loyal participation in the elections, upon the condition of a change in the election law providing for the exclusion of the Jews from the suffrage.

The Black Hundred organizations are conducting an agitation against the intelligents and Jews.

LIGHTING OF THE ST. LAWRENCE

Hon. Mr. Brodeur Thinks it is Well Lighted—Get Opinion of French Admiral.

Ottawa, August 28.—Hon. L. P. Brodeur, in the course of an interview here yesterday regarding the lighting of the St. Lawrence River, said that he had just returned from a trip down the river, accompanied by Mr. A. Allan, and had found that in a few places lighthouses were needed. The Minister said that he had had a conversation with Admiral Boue on the subject, and that the latter seemed to think that the St. Lawrence was as well lighted as any of the streams he had navigated. "In spite of all we are doing to ameliorate the St. Lawrence route," continued the Minister, "Lloyds continue to treat us unjustly in favor of Portland, Boston and New York. Erroneous reports are sent to London about the route, which do us much harm, and our own press does not help us out any too much. One instance of this is the report which was published about the Galveston. The dredge needs a few repairs, but it is perfectly adapted to the work to be done.

"One of the principal questions which is occupying my attention just now is one, I think, of capital importance. It is the question of securing for our population a constant supply of good fish, and I think something should be done to prevent the export of so much fish to the United States.

AGAINST GUNNERY CONTEST.

Might Have Effect of Trying Efficacity of Guns in War.

London, August 28—The Daily Chronicle publishes this morning articles deprecating the Anglo-American naval gunnery contest and says: The idea is one that should be nipped in the bud forthwith. It is to the last degree undesirable that any one should know too exactly how well or how badly we shoot in comparison with other navies.

The Daily Chronicle argues that gunnery emulation would be likely to produce a desire for a real test in war and says: "We do not want such hopes in the British or American navies, but an international shoot would certainly produce them.

BOUNTY STATEMENT FOR PAST YEAR

Department of Trade and Commerce Issues Statement for Year Ending June.

ON LEAD, IRON AND STEEL

Increased Amount Paid Reaches Nearly Half a Million Dollars—An Increase All Round.

Special to The Montreal Star.

Ottawa, August 28.—The Department of Trade and Commerce has made up its bounty statement for the year ending June 30, 1906. The total sum paid out in bounties was $2,004,339, as compared with $1,540,203 for the year ending June 30, 1905.

The amount of bounty paid on pig iron was $687,631 on a tonnage of 581,858.

Of this 86,523 tons were made from Canadian ore on which a bounty of $152,763 was paid, and 495,334 tons were made from foreign ore on which the bounty paid was $540,868. For the previous year the bounty paid on pig iron was $624,667 on a total tonnage of 386,772. Of this 327,267 tons were made of foreign ore, the bounty being $490,401, and 59,452 of Canadian ore, the bounty being $133,766.

The rate of bounty for 1904 was $2.25 on Canadian and $1.65 on foreign as compared with $1.50 on Canadian and $1.10 on foreign during 1905-6.

During the year 69,237 tons of steel ingots were produced on which a bounty of $941,000 was paid. The previous year the production was 272,916 tons on which the bounty was $614,433. The bounty portion, as in the case of pig iron, was lower.

Bounty to the extent of $5,870 was paid on 3,360 tons of iron bars. In the previous year 3,508 tons were produced, on which the bounty was paid, $7,895.

The production of articles manufactured from steel reached a total of 72,875 tons, on which the bounty paid was $369,832. The previous year 59,842 tons were produced on which the bounty amounted to $293,208.

Articles manufactured from steel included wire rods, rolled angles, plates, etc.

The lead bounties amounted to $90,197, as compared with $330,645 the previous year; on crude petroleum to $291,157, as compared with $350,047.

SUIT CASE THIEF HAS BEEN CAUGHT

Raoul Laporte Pleaded Guilty to Charge—Captured at Windsor Street Station.

Raoul Laporte pleaded guilty this morning to the charge of theft at the Windsor station, and was remanded by Judge Piche until to-morrow for sentence.

Since the beginning of the season passengers have been complaining of the disappearance of dress-suit cases and other kinds of valises. Special Constables Johnson and Monahan were put on the case, and after much patience they succeeded in catching Raoul Laporte, who was running away with the suit case of a man who was buying his ticket. It is alleged by the C.P.R. authorities that it is not his first offence, and a search warrant has been issued against the accused.

Mr. Rene Bauset, assistant city clerk, has received a letter from Mayor Ekers, in which His Worship states that himself, Mrs. Ekers and Miss Florence Ekers have been invited by Lord Strathcona to his country seat in Glencoe. His Lordship had also kindly called upon the mayor and his party.

The letter contains the following: "Lord Strathcona still takes the most kindly interest in everything Canadian, and works incessantly to forward Canadian interests."

Not Guilty of Manslaughter Charge.

Harold Thomas Atkinson, the chauffeur, whose automobile ran down and was the means of killing Antoine Toutant about a fortnight ago, was brought before Judge Choquet to-day for voluntary statement. Atkinson heard the charge of manslaughter read and then pleaded not guilty, also stating that he had no witnesses to examine for his defence. Judge Choquet then fixed the case for next Thursday.

GEORGE BANNON AND WIEDENSAUL IN HARNESS

There Were no Games at Montreal or Toronto—Standing of the Royals in Regard to Batting and Fielding up Till This Week.

Special to The Montreal Star.

Toronto, August 28.—A despatch from Providence on Sunday night stated that owing to being unable to make connections the Buffalos would be unable to arrive in time for yesterday's game. The Torontos, therefore, called off all arrangements for the contest. A special leaving Providence at 8.05 Sunday evening had been but recently added to the list of trains for Worcester, and by utilizing it Manager Stalling's managed to connect with the through train from Boston. On arrival at 4.50 yesterday afternoon Manager Stallings, with his team, proceeded to the ball grounds. Nobody was on hand but the caretaker, and the usual quota of small boys, nevertheless Stallings requested Umpire Finneran to award the game to Buffalo. The umpire, however, declined to take any decided steps in regard to the matter at that stage. Late in the evening the two managers met, and talked over affairs, with the result that it was agreed that yesterday's unplayed game should be transferred to Buffalo, and take place on Saturday, September 8. The teams will play double-headers to-day and to-morrow.

No Gamee Yesterday.

The game between Rochester and Montreal did not take place yesterday owing to wet grounds. Rochester will be here to-day, Buffalo at Toronto, Providence at Newark, and Baltimore at Jersey City.

BASEBALL IN BORDEAUX.

Stars Vanquish Arlingtons After a Decidedly Rapid Game.

The Arlington A. A. A. Baseball Club met a rather stiff proposition, yesterday afternoon, on their new grounds, and had their colors lowered by the score of 9 runs to 7 by the famous Star A. A. A. nine of Montreal. The game started off in a whirlwind fashion and both teams were blanked in the first and second innings, but the scoring started in the third, when each side got one man over the rubber. At the end of the fourth, the Arlingtons lead by one run for the only time during the whole match. They could not keep the lead long, as, in the fifth, the Stars tied them, and in the sixth, by some timely hitting and daring base running they took the lead by 7 to 4, and at this time were playing all around their opponents. In the seventh the Arlingtons scored their last runs. Lesperance, of the home club, has everything that makes a pitcher, but was replaced in the seventh by Morin, the old Athletic's famous pitcher. Wattson, of the Stars, pitched a nice game, and was well supported by his team mates. The Mayor of Bordeaux threw the first ball, and proved to be quite a ball tosser. The following is the score by innings and players' names.

BIG STAKE AT BASEBALL.

The Arlingtons Play M. B. C. at Terrebonne for Wager.

All arrangements are now complete for the game of ball that is to be played between the M. B. C. and Arlington nines, at Terrebonne, on September 9th.

The C. P. R. are putting extra cars on their trains that day, and the Saturday to Sunday rates will apply.

The Terrebonne grounds are the best in the province, excepting the Atwater Park.

Geo. Parks, of the M. L. H. & P. team, has been agreed upon for umpire.

Bordeaux will send at least 500 rooters and a like number go with the M. B. C. team from the city.

Terrebonne will be en fete that day, and the covered stand will have a record crowd. After the game, the sporting editor of La Presse, who is the stakeholder, will pay over the money on the umpire's decision.

The Lord's Day act, being as yet an unknown quantity, the running of an excursion train on Sunday was liable to be considered an infraction of the act, so that it was impossible to run one for that reason.

BISONS' MANAGER ANNOYED.

Was Forced to Abandon Exhibition Game With New York.

Special to the Montreal Star.

Toronto, August 28.—Manager Stallings of the Bisons doesn't appreciate his having been forced to reach Toronto yesterday. He had arranged to play an exhibition game with the New York Nationals, and intended dividing Buffalo's share of the gate receipts among the members of the team.

However, it was a case of have to, for Manager Barrow refused to accede to his request, and Umpire Finneran would have given the game to Toronto in the event of the Buffalo team not turning up.

GEORGE BANNON AT TORONTO

Late Montreal Player Reported to Manager Barrow Yesterday.

Special to the Montreal Star.

Toronto, August 28.—Geo. Bannon, late of Montreal, reported to Toronto yesterday, and Weidensaul will report to-day. Weidensaul will be played at second for the time being, O'Brien going to third, and replacing Frick, who, owing to some difficulty over his Oklahoma land claim, has been released for the rest of the season, to settle on his plot out there. The two players were bought outright.

Britishers Again Won.

Woodstock, Ont., August 28.—The British bowlers defeated a team drawn from miscellaneous clubs here yesterday by 13 points.

Torontos Meet Caps on Labor Day.

Special to the Montreal Star.

Toronto, Ont., August 28.—The Torontos and Capitals will meet again this season at Rosedale. Manager Murphy has arranged another game with the Ottawa aggregation, and the latter will be here on Labor Day to do battle at Rosedale. The Torontos won at Rosedale before, and they think they can do the trick again.

Joint Athletic Meet.

The preliminary programme for the big athletic meet to be held on the M.A.A.A. grounds September 22, was drawn up last night at a joint meeting of representatives of the C.A.A.U. and the M.A.A.A. Messrs. Herb Brown and R. Gomery represented the M.A.A.A., and Captain Gorman, the C.A.A.U.

Owing to the lengthy list of events it will be impossible to carry out the proposal for a Marathon race.

It was decided to offer for competition a trophy to the club earning the largest number of points. An innovation will be the 220 low hurdles.

As usual, the C.A.A.U. will offer in each event gold, silver and bronze medals for the first three places; the M.A.A.A. prizes will be in kind.

OTTAWA'S FOUR WILL ROW.

Rowers are Training Hard for Washington Event on Labor Day.

Special to The Montreal Star.

Ottawa, Ont., August 28. — The senior fours of the Ottawa Rowing Club will compete at the Middle States regatta at Washington, D. C., on Labor Day. This was definitely decided to-day. The crew are working hard under Coach Stephenson and Captain W. A. Cameron, and should give a good account of themselves against the American crews. The local supporters of the crew think well of their chances. The four are: Harvey Pulford, Phillips, Poapst and Haycock.

MORE RECORDS MADE ON GRAND CIRCUIT

Seventeen Entries in One of the Races—Kintress Was the One Who Made the Record.

Readville, Mass., August 28. — The feature in the Grand Circuit meet was the entry of Kinstress and Totara in the 2.10 class, the former securing a record of 2.09¾ in the 2.13 trot, which she won, while Totara trotted the first heat of the 2.15 trot in the same time. Totara weakened in the other heats, and Lady Resolute won the greater portion of the purse.

The 2.07 pace went to Prince Hal in straight heats. Seventeen horses faced the starter in the 2.13 trot. Kinstress went out in the lead in the first heat, and, although pressed hard by Betty Brook, won it by half a length. Allie Jay beat out Kinstress by a neck in the second, and led to the stretch in the last, when a break ruined her chances, and Kinstress won easily.

Totara was picked to win the 2.15 trot, but, after taking the first heat in new time, Lady Resolute proved stronger and captured the place of honor. Summary:

LAST OF THE WEEKLY EVENTS

M.A.A.A. Handicap Championship Will Be Decided on Thursday.

The regular weekly handicaps of the M.A.A.A. come to an end next Thursday evening, and there will probably be a very large number of persons present to witness the curtain rung down on these events for the season. The race for championship and premier honors is as close as could well be imagined, and the finish is sure to be an exciting one. W. McKay leads at present, with a score of 23 points, but he is closely followed by Riddell, Griffiths and Rennoldson, with scores of 21, 21 and 20, respectively.

The events to be decided on Thursday are: 440 yards, three mile run, running high jump, and putting 16 lb. shot. The chances are very much in favor of McKay winning the championship as he is almost certain to get a place in the 440, and will compete in three mile run if necessary. The competitors in Thursday's events will be doubly anxious to acquit themselves creditably as, not only will the final places be decided, but the time is drawing nigh for the Canadian and American championships, and the athletes are keen on showing what they can do.

Following is the summary of the standing of the various athletes. A first counting 3, a second 2, and a third 1 point: W. MacKay, 23; Riddell, 21; Griffiths, 20; Rennoldson, 19; A. Smith, 15; Lauzon, 14; B. Harris, 12; Bradley, 12; McCuaig, 11; Alec. Cameron, 11; Stanley 10; Delaney, 9; Hay, 9; McNaughton, 9; H. Mackay, 9; Angus Cameron, 8; Savage, 7; Jackson, 7; McBride, 6.

The following have 5 or less: Bassett, Speak, Palmer, Wilson, Watson, McLeod, Bullock.

Alleys Will Soon Be Open.

The M. A. A. A. alleys are now being renovated, and on September 10th will be opened up for the coming season. The Peel street club house is beginning to regain the animated aspect which it usually presents with the decline of the summer season, and everything will soon be in full swing again.

AN EVEN GAME IN CRICKET MATCH

Philadelphian Pilgrims Fail to Gain Any Advantage Over Eastern Canada.

Special to The Montreal Star.

Ottawa, Ont., August 28.—The Pilgrims, of Philadelphia, began a two-days' cricket match with Eastern Canada, on the Rideau Hall grounds, yesterday afternoon. The weather was bad, and the pitch suffered. Wisely, therefore, Eastern Canada, winning the toss, elected to bat, and ran up the respectable total of 105, to which Heygate, the old Sussex player, contributed a useful 31. He played a faultless inning, and hit with freedom all round the wicket.

The Pilgrims' inning opened disastrously. One wicket was down for no runs, but the Philadelphians played the bowling of Baber and Bristow carefully, and carried the score to 26 for the second wicket. The pitch soon began to deteriorate, so that the 103 which the visitors made was quite a respectable total.

Matters became worse when Eastern Canada went in a second time to bat. The sun shone strong, and baked the surface, making it entirely a bowler's wicket. Four wickets were down for 22, when stumps were drawn for the day, Heygate being one of the not-outs.

The scores were:

RACES AT WINDSOR AND SARATOGA

Saratoga, August 28.—The track here was sloppy. Four favorites were successful. The Amsterdam Selling Stakes, mile, resulted in a big surprise. Grapple was made an odds-on favorite, but Right Royal, a 15 to 1 shot, won. Grapple made the pace to the stretch, where Right Royal took the lead and won by two lengths. Summary:

First race, 7 furlongs—Bertha E., won; Broadcloth, second; Phalanx, third. Time, 1.29.

Second race, steeplechase, about 2 miles—Paul Jones, won; Belligerent, second; Waterford, third. Time, 4.21.

Third race, 6 furlongs—J. C. Core, won; They're Off, second; Daily, third. Time, 1.16.

Fourth race, the Amsterdam, mile—Right Royal, won; Grapple, second; Redleaf, third. Time, 1.42.

Fifth race, selling, 5 1-2 furlongs—Animus, won; Russell F., second; Plausible, third. Time, 1.19.

Sixth race, mile and a furlong—Bivouac, won; Yorkshire, second; Sonoma Belle, third. Time, 1.58.

Seventh race, selling, 1-2 furlong—Mortiboy, won; Fishhawk, second; Vaquero, third. Time, 1.09 4-5.

AT WINDSOR TRACK.

Windsor, Ont., August 28.—A muddy track upset the card considerably at Windsor. Withdrawals were plentiful and the original third race was completely knocked to pieces, necessitating the substitution of a one-mile dash for four-year-olds and upwards. A 5 1-2 furlong handicap for two-year-olds served as the feature of the programme.

First race, three-year-olds and upwards, six furlongs, selling—Foxmead, won; Operator, second; Rubaiyat, third. Time, 1.17 3-5.

Second race, two-year-olds, 5 1-2 furlongs—Gracchus, won; Chas. L. Stone, second; Tanager, third. Time, 1.01 1-5.

Third race (substituted), four-year-olds and upwards, one mile—Jungle Imp won; Jim Beatty, second; Orfeo, third. Time, 1.44 2-5.

Fourth race, two-year-olds, handicap, 5 1-2 furlongs—Minot, won; Salvisa, second; Prince of Orange, third. Time, 1.09 3-5.

Fifth race, three-year-olds and upward, 1 1-6 miles—The Borgian, won; Reservation, second; Secret, third. third. Time, 1.50 1-5.

Sixth race, four-year-olds and upward, six furlongs, selling—Gallithea, won; Dan McKenna, second; San Primo, third. Time, 1.16 4-5.

Martin Sheridan Beats Record.

New York, August 28. — Martin Sheridan, of the Irish-American A. C., clinched his claims to discus throwing distinction at the games of the Ancient Order of Hibernians at Celtic Park, yesterday, with a world's record throw of 134 feet 4 inches. The former standard figures for the event were 133 feet 11 inches.

Sheridan was never in better form. He handled the discus perfectly and made good throws in the preliminary round. The hero of the recent Grecian games made a world's record a week ago, but failed to receive official credit for the effort through a technicality. Yesterday he compiled with all necessary requirements.

A PLEASANT FUNCTION.

The members of the houseboat "Oswegatchie" were the hosts at a very enjoyable dance held in the Pointe Claire club house, on Saturday evening last, and which was given in honor of the residents of Pointe Claire, who have been so very hospitable to the members during their several weeks' stay there.

The walk leading to the club house was lighted with Chinese lanterns, also the houseboat, which was moored for the evening alongside of the club house, and served as a pleasant sitting out place between the dances, the whole forming a very pretty and fairy-like picture.

The Ratto Bros.' orchestra furnished the music for the dancing, which was discontinued for a short while about ten o'clock, when Mr. Hazelton sang two very pleasing selections and Mr. Barrow gave two very clever sketches, both the entertainers being very heartily applauded; refreshments were then served and dancing was afterwards resumed until twelve o'clock.

FOX-HUNTERS' ASSOCIATION.

The members of the Fox Hunters' Association will open their new club house, kennels and stables, at Cote Noire, St. Lambert, to-day, at 5.30. A new pack of hounds, which has recently been imported from England, will be on view.

THE LACROSSE BILL OF FARE FOR SATURDAY

Toronto Will Meet the Shamrocks Here and Some Old C. L. A. Favorites Will Meet Some New Wearers of the Green.

On Saturday the Torontos journey down to Montreal to play the Shamrocks on the Mile End grounds, and a most interesting game is looked forward to by the lacrosse enthusiasts.

Toronto this year has defeated every team in the league, and that is going some. Of course, they have lost some of their matches away from home, and that has lowered their average in the league standing; still, they are not out of the running for the championship yet, and a win on Saturday from the boys in green will help them considerably.

The Shamrocks are practicing hard in preparation for this game, and hope to astonish their admirers when time is up next Saturday. Many of the Shamrock supporters are anxious to see the team which, partly junior, has been putting up such strong fights away from home against teams like Cornwall and Tecumseh.

It is not known who will be on the line-up of the Irishmen. Some more of the juniors may be tried, so as to work them in for the coming season. The Mile Enders are lucky in having such a lively lot of young fellows to pick from; all those who have been tried so far this year have made good and played sterling lacrosse.

It would not be out of order if the game on Saturday took overtime to determine the winner, as so many matches have done this year; no doubt a large crowd will be present, as the Torontos are great favorites with the Montreal people.

MONTREAL PRACTISING.

Will Make a Bold Bid for Victory Against Cornwall.

The Montreal lacrosse team turned out yesterday afternoon and indulged in a smart practice. Angus, who had to leave the field on Saturday because of his injured leg, was out with the others. The team intend to leave no stone unturned to win their match with Cornwall in the Factory Town on Saturday. They are disappointed with the result of their last two matches, but are not dispirited, and they will yet make a bold bid for premier honors.

A special train is being run to Cornwall on the same lines as the one of last Saturday, and a big crowd will certainly accompany the Montreal team.

Another practice will take place to-morrow, and after that the team for Saturday's match will be selected. It is not expected that Angus will be able to play, as his leg will hardly be in shape to stand the strain of a hard match.

DISTRIBUTE LAND TO PEASANTS

Russian Administration's Agrarian programme Finally Put Into Effect.

SITUATION WAS MOST URGENT

Ukase Signed and Gazetted Before Final Terms of Payment Were Agreed Upon.

St. Petersburg, August 28.—The distribution of crown appanages, the first part of the administration's agrarian programme, by which it is hoped to win the peasantry to the support of the Government at the coming elections, was put in effect yesterday, when an ukase was published transferring 4,500,000 acres of appanage lands to the Peasants' Bank for distribution to the peasants. The urgency of the situation is such that the ukase, which was signed the day of the attempt on the life of Premier Stolypin, was gazetted without waiting for final decision as to the method and terms of the payment. The principal question, whether the latter shall be 30 years and 36 years, the Government has not yet decided. The lands chosen for this first distribution exclude

Lands under cultivation which are not contiguous to forests, tracts and forests leased where fires have occurred.

2. Forests adjoining or surrounded by peasant holdings.

3. Woodlands suitable in the Governments of Archangel and Vologda.

The following kinds of appanages are excluded from these operations:

Districts devoted to factories, foundries or any mining concerns or provided with agricultural or other valuable buildings, or gardens in a high state of cultivation; those unsuited for farming, and finally crown lands in the Crimea and Transcaucasia and appartaining to the Biloviezh forts.

The apportionment of land assigned for sale and the taxation imposable on said lands will be fixed by the agrarian committee. The preparation of the scheme of transfer and the arrangements with the comptroller of the appanage lands, and the final settlement of the conditions of the sale by Imperial decree, are confided to the Minister of the Imperial Household, who will consult the Ministers of the Interior and Finance and the chief agricultural authorities. All the schemes must first receive the Emperor's sanction.

UNVEILED AT YOUGHAL.

Monument to Father Peter O'Neill Who Was Flogged Through Streets.

Special to The Montreal Star.

Dublin, August 28. — A remarkable demonstration occurred at Youghal yesterday when a public monument was unveiled in memory of Father Peter O'Neill, who was flogged through the streets of Youghal and exiled by the Government in 1798, for refusing to disclose secrets of the confessional. His family maintained its connection with the revolutionary movement; his nephew, Peter O'Neill, being killed while leading a band of Fenians, in 1867.

Sir Thomas Esmonde and Captain Donelan represented the Irish party at the demonstration yesterday. The orators included Mgr. Delter, who suffered imprisonment in 1887, and Canon Peter O'Leary, the distinguished Gaelic author.

ASTHMA

Won't you let us send you a free sample of the remedy that will cure you?

We want you to try it—to see what instant relief it gives—to prove that Clarke's Kola Compound is a positive and permanent cure for Asthma. Surely you must know that we could not afford to do this if we did not know absolutely that Clarke's Kola Compound would cure, and cure completely. Just write us that you want a free sample. We'll send it without cost to you.

"For more than twelve years, I had been troubled with Asthma and during the last two years, the attacks became so severe and frequent that I had to lay off work for weeks at a time. Many nights I could not sleep lying down. Nothing gave me relief until the C.P.R. doctor prescribed Clarke's Kola Compound. I took three bottles which helped me from the start, and by the time the third was finished, was completely cured. I have not had an attack of Asthma for three years."

BAD WEATHER FOR SHOOTING

Unfavorable Conditions Prevail on Opening Day at Bisley Camp.

WIND WAS FRESH AND TRICKY

A Large Number of Shots Qualify From Provincial Associations—Scores a Little Low.

Special to The Montreal Star.

Ottawa, Ont., August 28. — The weather at the D. R. A. yesterday afternoon improved when the tyro match was started, after lunch, although the light continued dull and the wind was fresh and tricky from the left. The young shots, however, showed up well, and five men got 34 out of the possible 35, as against seven who made 34 last year. At the end of the hunt this year some scores of 29 were counted out, while last year a number of scores of 29 came in. A noticeable feature was the number of shots who qualified from provincial associations, and who shot remarkably well. In the team prizes the Q. U. O. R. and the 10th Royal Grenadiers finished up with 150 points each, an average of 30 as against 152, which won last year. It was only on the least number of outers that the tie was decided.

Matters had improved somewhat more when the bankers' match, seven rounds at 600 yards, came on, although a tricky left wind was complained of. The results showed that if the weather conditions were poor the scores were high and the men who kicked were not lucky shots. Lieut. Webster, of Winnipeg, put on a beautiful possible, which was one point over last year, but the remarkable fact was that while last year a score of 34 won, there were no less than twenty-nine scores of 29, which came in the list proper, while this year no less than twenty-five scores of 30 were counted out. In the tyros in this match a number of scores of 27 came in last year, while this year ten scores of 29 were counted out. These figures show the shooting to have been of a very high order, and such as is seldom come up to. A feature of this match was the fact that while several marksmen used the Ross rifle, only one, Pte. Metcalfe, of the 42nd, got into the prize list in the tyros, with a score of 30. The failure of the men using the rifle, however, is honestly attributed by themselves more to their own unfamiliarity with the arm than to any lack of quality in the rifle.

A MYSTERIOUS MURDER.

Woman Found Horribly Slashed in New York Tenement.

New York, N.Y., August 28.—A woman known as Mrs. Annie Moore, was found murdered early to-day in a furnished room at No. 6 Second street. No weapon was found and there were but few blood marks around the room.

James Moore, who had posed as the woman's husband, was held by the police on suspicion. It was he who notified them of the murder. He rang up to two detectives at two o'clock this morning and told them he had just gone to his home and thought his sister-in-law was dead. Moore told the police he and the woman had been living together for seven years. The woman, he said, was the widow of his brother, who died ten years ago.

Succumbs to Stroke of Paralysis.

Special to The Montreal Star.

Hamilton, Ont., August 28.—Francis MacKelcan, K.C., city solicitor, died yesterday at Minnicoganashene on the Georgian Bay, aged 73 years. Some months ago, Mr. MacKelcan had a stroke of paralysis, and was confined to bed for several weeks, but he got better and was able to perform his duties. Mr. MacKelcan went to Minnicoganashene four weeks ago. On Friday last he had another stroke.

Sublets Part of Contract.

Special to The Montreal Star

Winnipeg, Man., August 28.—J. D. McArthur, it is understood, has sublet the Canyon Lake section of the G. T. P. contract to W. T. Parsons, of Kenora. This section is one of the hardest on the whole route, as it is through solid rock, along the lake shore, and it is estimated there will be nearly a million yards of excavation in this stretch of fifteen miles.

PERSIA ON VERGE OF COLLAPSE

The Provinces are in a State of Anarchy—Treasury is Empty.

THE PAN-ISLAMIC SPIRIT

Britain Warned to Guard India by Aggressive Measures in Persia.

London, August 28.—A despatch from Teheran to the Daily Mail says the situation in Persia is rapidly becoming critical. The entire organization of the State is collapsing, the provinces are in a state of anarchy, and the treasury is empty. All the available securities have been mortgaged. The army has not been paid for months, and is in a condition of open mutiny. Insurrections occur daily, and they are fast spreading.

The only trustworthy troops in Teheran is a brigade of Russian Cossacks, which have dwindled to 600.

The British Legation is crowded with 700 refugees.

The cause of the disorders is partly the wish of the Mullahs to imitate the Russian revolutionaries, and partly the stirring up of the pan-Moslem spirit and a desire to give allegiance to the Sultan as the supreme head of Islam.

The Shah has ignored every one. Turkey continues her aggressions on the western frontier and the correspondent declares that the collapse of Persia is imminent, and foreign control in some form is inevitable. He draws attention to German preparations to take advantage of this condition, and warns Great Britain that the safety of India will be imperilled unless she takes the necessary steps to prevent it.

The Shah is said to be in poor health.

TEN MILES OF PERMANENT WALKS

The City has been Replacing Wooden Pavements Rapidly This Season.

MAY DOUBLE IT NEXT YEAR

City is Paying Half Cost of Permanent Walks and Has Many Applications.

It is estimated that by the close of the year ten miles of permanent sidewalks will have been laid in the city. The average cost will foot up about ten thousand dollars a mile. The putting down of so much permanent work means a gradual doing away with unsightly and dangerous wooden walks.

The city, in the hope of getting more permanent walks laid down, informed proprietors that if they would pay half the cost of such pavements the city would bear the other half. The offer was received most readily, the result being that to-day the city has more requests to lay sidewalks than it can attend to. Next year a large sum will be voted by the City Council so that permanent walks may be laid all over the city.

TWENTY MILES NEXT YEAR.

The hope is that in 1907 twenty miles of such pavements will be put down.

There are three kinds of permanent sidewalks which are being laid. The first and most durable is split blue stone. It has been known to last on streets for over thirty years.

A sawn stone, called grey canyon, is used on residential streets. Its surface is smooth and makes a finished sidewalk. It is, however, rather soft for streets where the traffic is heavy. About 8,000 yards of it is being used this summer.

Blocks of cement sidewalk, called "emeritic" are laid by the city, and Mastic asphalt is another kind. About 8,000 yards of the former and 2,000 of the latter will be laid.

Generally speaking the ward distribution of the new work this season is being done as under:—St. Ann's ward, one mile; St. Joseph's, one mile; St. Jean Baptiste, one mile; St. Andrew's, one mile; St. George's, one mile; St. Lawrence, one mile; Lafontaine, one mile; and St. Gabriel's Papineau, St. Mary's, Duvernay, St. Denis, half a mile each.

A few hundred yards of sidewalks are also being laid in Hochelaga and St. Henry wards.

ENTRY OF WOMEN WAS DISCUSSED

Alliance Nationale Refers Issue to Committee for Recommendation —Insurance for Fishermen.

The sixth biennial convention of the Alliance Nationale was opened yesterday at their hall on Notre Dame street, under the direction of Mr. Joseph Contant, president-general of the association. Several hundred delegates were present at this first sitting, including Mgr. Bruchesi, Archbishop of Montreal, who occupied a seat at the right of the president, and who opened the meeting by blessing the work of the society and imparting a few words of advice.

Mr. Contant first explained the aim of the society, at the same time giving a short history of the work it had done, and enumerating the many advantages to be gained by becoming enrolled in an organization which was purely Catholic in its creed.

The meeting then went on to the election of committees and the consideration of several questions of importance. The advisability of admitting women to membership was brought up for discussion, but the convention came to the conclusion that it had no authority to deal with the matter and referred it to the committee of initiative.

The question of charging higher life insurance rates to coast fishermen on account of the greater risks they were accustomed to run in earning their living also came up, but upon it being pointed out that other insurance companies had a uniform rate without any discrimination, it was decided that those who followed the sea should be allowed the same terms as any other members.

Two hundred delegates from Manitoba, the Maritime Provinces, New England and different parts of Quebec comprise the meeting, which is one of the most successful held in the history of the society.

Cures Rheumatism

"I had an attack of Rheumatism—pains near my heart—which increased to such a degree that I became very anxious. I lost my appetite, and an intense itching or heating of the head made life miserable. I asked a druggist, was there nothing he could suggest that would help me, and he replied 'Why not try ABBEY'S SALT?'

I did so, and can now state positively, and without solicitation that the Rheumatism has disappeared—my appetite is grand—and the itching of my scalp has ceased.

I suggested to my aged Father and Mother that they should try ABBEY'S SALT for their Rheumatism—and they tell me they have received immense benefit."

CRUSHED UNDER WHEEL OF CART

Edmond Fortier Meets Death in Collision With Street Car on St. Denis Street.

Edmond Fortier, carter, 27 years of age, was killed in a collision with a street car just south of the St. Denis street subway, yesterday afternoon.

The accident took place at 4.30 o'clock, when the victim, who was driving a load of slabwood up St. Denis street, suddenly turned his horse to cross the street, colliding with Extra Ontario street car No. 513 coming south, which struck the cart in the side. Motorman Lacroix did his best to bring his car to a standstill before striking the cart, but failed. Fortier fell beneath the feet of his horse, which still continued to cross the street, and his head was crushed beneath one of the heavy wheels of the cart. Fortier was unmarried.

FIRE LOSS IS $4,000.

Cap and Leather Dealers on St. Paul Street Divide the Loss.

The centre division of the fire brigade was called out last night for a fire in the premises of the Star Cap Manufacturing Company, 528 St. Paul street.

Messrs. Bastien & Poirier, dealers in leather and shoe store supplies, as well as jobbers in boots and shoes, who occupy the ground floor immediately below the storeroom where the blaze started, are the heaviest losers, their stock having been damaged by water. They estimate their damages in the neighborhood of $3,000, partly covered by insurance.

The loss sustained by the Star Cap Company is estimated at $1,000.

Ottawa, August 28.—A number of changes in the teaching staff of the University of Ottawa were announced at the close of the annual retreat of the Oblate Fathers this morning.

Rev. Father Poli has been appointed vice-rector of the university.

Rev. Father Fortier becomes prefect of discipline.

Rev. Father James Fallon is appointed secretary, vice Rev. Dr. O'Boyle, who has been moved to British Columbia.

Rev. Father Hammersley is given charge of the department of physics.

Rev. Michael Murphy and Rev. Stephen Murphy, who were ordained last spring, have been added to the staff of the university. There are a number of minor changes.

Rev. Father Dube and Rev. Brother Malone are also added to the teaching staff.

Indians Arrested at Maniwaki.

Special to The Montreal Star.

Ottawa, August 28.—Joseph Commando and L. Capin, Indians, are in custody at Maniwaki for a burglary of the Logue Estate store at that place. It is alleged that they drove up about half-past two to the store and broke a window in front with a whip, pulling through the aperture five rifles which were in a rack. Four of these were placed in the rig and with the other a window on the side was smashed, by which means possession was obtained of 300 or 400 rounds of ammunition.

NEW WORKS FOR MONTREAL.

Lead Corroding Company to Establish Here.

Halifax, N.S., August 28.—Some weeks ago the City Council of Halifax decided to pay a bonus to the Brand, Henderson Lead Corroding works of $10,000 a year for ten years, on condition that they establish a plant in Halifax that would employ at least 75 hands and have a pay roll of $50,000 annually. This was endorsed by the Board of Trade. But to make it valid legislation would have had to be secured at the next session of the local House. To ensure the bill passing, Premier Murray was asked to make the bill a Government measure. This he promises to do, but he now finds he is unable to deliver the goods. The deal, accordingly, is off, and the proposed works will at once be established in Montreal and not in Halifax. Part of the present works of Henderson & Potts, at present here, will also be removed to Montreal.

The Ottawa Sawdust Nuisance.

Special to The Montreal Star.

Ottawa, August 28.—The complaint made to the Marine and Fisheries Department in regard to the depositing of large quantities of mill refuse in the Ottawa River will receive the early attention of the minister. Mr. J. R. Booth, the only lumberman now manufacturing at the Chaudiere is out with a statement in which he says that seven-tenths of the refuse in the river comes from points higher up the river than Ottawa. He claims that his incinerator burns nearly all the refuse of his mill.

THE ELECTRIC COMMISSION.

Members are Endeavoring to Settle a Dispute at the Capital.

Special to The Montreal Star.

Ottawa, August 28.—The members of the Ontario Hydro-Electric Commission are in Ottawa conducting negotiations between the Ottawa and Hull Power Company and the city in regard to a further supply of power for the municipal electric plant. At the present time the city pays the company $15 per horse power. It is understood that the commission is trying to improve on this arrangement. Speaking of the work of the commission, Hon. Adam Beck said the number of applications before it justified its existence. Many municipalities are availing themselves of the assistance which the commission is able to render them in the development of electrical energy and its usefulness is bound to grow in the future.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

ORPHANS EXCLUDED.

Forty of Them Refused Entry to United States.

New York, August 28.—The case of the 40 Russian Hebrew children who arrived here on the steamship Amerika, has been heard by the board of special inquiry at Ellis Island, and the board decided that the children should be excluded. The case has gone on appeal to Washington.

The children, all of them orphans by the recent massacres in Russia, were gathered from the centres of the recent trouble and brought here in charge of Mrs. Sophie Perlman, of Berlin. Wealthy Hebrews here supplied the funds and secured homes throughout the country where the children could be sent.

BROKEN INTO SMALL BODIES.

Pulajanes Routed by Troops and Natives.

Manila, August 28.—It is officially reported that the main band of the Pulajanes has broken into smaller bodies. A general movement of 1,300 Constabulary through all parts of the disaffected region is planned. A part of the province of Leyte, South of Buyog Bay has been cleared of Pulajanes. There is no disaffection on the West coast except a few bands which have escaped the soldiers. On the East coast native volunteers are bringing in prisoners. Governor Veyra reports that hundreds of natives have volunteered to help the troops.

DISQUIETING NEWS FROM PERSIA.

If the news from Persia is authentic, a condition of affairs may be created there at any moment which will eclipse in importance even the revolutionary compaign which is in progress in Russia. The Persian Government cannot collapse without setting the European pot boiling; for the control of the new Persia would be a matter of vital concern to at least three European powers—Britain, Russia and Germany, to say nothing of Turkey. The popular movement is said to be Pan-Islam in character, looking to a union under the leadership of the Sultan of Turkey; but, in such cases, the popular desires are apt to break harmlessly upon the advancing columns of the European forces representing far-reaching interests.

German influence in Persia is of new birth. But with Germany acting as the "Codlin" of the Turkish Sultan, and having railway aspirations in the Arabian peninsula, the Kaiser cannot help being deeply concerned in the future of Persia. If it were the custom today—as it was in Bismarck's day—to blame all things upon the machinations of the German Chancellor, pessimists might see ground for suspicion in the fact that the Persians are turning towards Constantinople at the very time when the Kaiser is thought to be especially powerful there. And it is beyond question that if the Turkish army, backed by German money and prestige and possibly German troops, were to go to the protection of a pro-Turkish Government in Persia, it would be an exceedingly difficult matter for any power or combination of powers to upset them.

Britain alone could hardly undertake so heavy a land campaign. Russia is crippled; but still it is altogether probable that the Russians could put a fairly effective force in the field there, and the Russian Government might thereby distract public attention from domestic affairs. Yet Germany will hold a powerful leverage over Russia on the Polish frontier just now, and might successfully command and purchase her inaction. France has no apparent interest at stake in the affair, and could only go into the struggle for the avowed purpose of curbing the growing power of Germany—a step which would at once transfer the battlefield from the Persian Gulf to the Rhine Valley. Thus it is plain that a Turko-German alliance to establish a Sultanic Government at Teheran would be a very formidable affair; and yet the result could hardly be viewed in London or Calcutta or even Cairo with complacency.

It may be, however that British influence in Persia will be able to prevent things coming to so serious a pass. There is always national feeling to appeal to—as Britain does so successfully in Afghanistan—and then the commercial power of Britain in mid-Asia is strong. If she gets in this policy the support of Russia before the hand of Germany can be disclosed, all may be maintained in peace.

NO OSTENTATION AT THE GRAVE.

The late Dr. Langtry, one of the foremost of Toronto's divines, made the request that his funeral expenses should not exceed thirty-five dollars. This was an example in funeral simplicity, which it may have cost his friends something to carry out, but which ought to be far from the least of the wholesome good influences which the deceased clergyman exerted. The waste of money in funeral expenses—often when the family which is left can ill afford it—is one of the pathetic incidents of our foolish social rivalries. That we should compete for social recognition over the coffins of our loved ones, is surely a more biting satire on the follies of competitive ostentation than could be written in words.

Yet, just as people dress in competition with each other, and burden themselves to furnish their houses and maintain their equipages "suitable to their position;" so will they select the caskets of their dead and arrange for the pomp of the obsequies. And when this is done by the wealthy who can afford it, it is infallibly followed by many of the poor to whom it means deprivation in the days to come. Children left with scanty provision by a worn-out father, who has reluctantly laid down the task of getting them a chance in life, are robbed of a fair part of this pittance in order that the neighbors may be impressed by the show made "at father's funeral." It is the climax of the ludicrous linked with the tragic.

Hence this sober and sane request by a leading Anglican clergyman may well save the lean purses of some hard-pressed families. If the rich would universally set an example of stern simplicity at the graveside, they would confer a great and very genuine benefit upon the entire community; and would far more fittingly exhibit the finest fruit of sorrow at a personal loss in thus having a care for the perplexities and troubles of their fellow men and women. And it will not be forgotten that the credit for such simplicity is due chiefly to the living, who must conduct the funeral and endure the surmises of those shallow enough to miss its meaning; but they can be vastly strengthened in such a step by an ante-mortem request from the deceased.

ROOSEVELT AND SPELLING REFORM.

It is to be feared that when the American Chief Executive gave his official support to the spelling reform movement, President Roosevelt took a step which he should have left to Theodore Roosevelt. If Mr. Theodore Roosevelt — enterprising, radical and even reckless—thinks that he would like to reform the spelling book and emancipate coming generations of school children, he has every right to do his utmost toward that end; but President Roosevelt is in a more responsible position and might well hesitate to lend the support of the American Government to a tentative movement of a literary character.

If Mr. Roosevelt lived in France, it is very likely that he would be an admirer and violent partizan of the "impressionist" school of artists. There is something daring and precedent-defying about that school which would attract the winged spirit of the Rough Rider of San Juan. He would recognize in the "impressionists" the Roosevelts of the artistic world; and he would gladly range himself with them in their fight upon the conservative artist "trust" which controls the Salon.

But if he were President of France, would he have the right to enlist all the powerful influences under the control of that great office in the battle against the settled opinions of most of the people? Would there not necessarily be a distinction between the artistic views of Roosevelt, the Muck Painter, and Roosevelt, the official head of the French people? It is all right for a man at the head of a government to hold "progressive" opinions, which are as yet shared only by the few. Such a man is apt to be alert and capable and on the lookout for the welfare of his country. As he is ahead, he can lead. But he is surely taking an unfair advantage of the trust reposed in him by the people for quite other purposes when he uses his official powers to force upon the nation opinions from which the vast majority of them dissent. Premier Balfour did not try to decree bi-metallism, although Arthur Balfour was a bi-metallist.

Then it would be no more than courteous for the President of the American Republic to remember that his nation is using a language of which it is only a co-trustee. There are four communities—at the very least—who are concerned in the orthography of the English language: the British Islanders, the Canadians and the Australians, as well as the Americans. Now, whatever opinions we may have with regard to the confessedly eccentric spelling which the evolution of the language has bequeathed us, there is surely something to be said for the position that, if there is to be government action in the matter, it ought to come only after a consultation between all the governments concerned. What private agitation can accomplish is open to any single citizen of any nation on earth; but government action is quite another matter. That is, Theodore Roosevelt might write all his private correspondence as it pleased him; but President Roosevelt ought to consider the other great English-speaking communities.

Spelling reform—so far as it is advisable—will never result from any violent action. There has been spelling reform in the past; but it has been by the common consent of the people through slowly adopted usage. No man or committee has ever succeeded in forcing a new spelling book on the people by the Big Club method. If anything permanent is to be done, it is necessary that there should be hearty co-operation by all English-speaking peoples, and this co-operation will not be secured by any effort to force the pace by the government of one of them.

Schooner Captain Abandons Two Men In Row Boat Without Provisions.

Special to the Montreal Star.

Toronto, Ont., August 28.—A boat containing two men was picked up in the bay last night. One of the men claimed he and his companion, who could speak no English, had subsisted since Saturday on nothing but potatoes. His story was that they were members of the crew of the schooner Fleetwing, of Charlotte, N.Y., and that early on Saturday last the captain abandoned them in the boat.

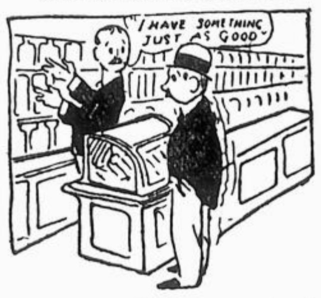
"SOMETHING JUST AS GOOD."



I HAVE SOMETHING JUST AS GOOD

He had hurried to a drug store, where he asked for Dogood's pills;
He had suffered long from something which assumed the form of chills;
All his friends had recommended Dogood's as the pills to take;
They were sure to end the trouble which was causing him to shake—
But the druggist didn't have them, though he made it understood.
As he looked among his bottles, that he'd "something just as good."

He loved a graceful maiden whom he met beside the sea.
And he thought he'd try to win her; he began courageously,
After weeks of ardent wooing he proposed to her one night,
When they strolled beside the water and the moon had slipped from sight;
"I would like to be your darling," she informed him, "and I would
Were I not pledged to another—but my cousin's just as good."

When you wish to buy a collar or a razor or a tie,
Or, perhaps, an automobile or a case of extra dry,
You may get the brand or pattern which you ask for at the start,
But the chances are that somehow through the practice of his art
The insinuating dealer will have made it understood
That you ought to gladly purchase "something else that's just as good."

When our troubles here are ended, when the bills cease falling due,
When we cease to envy people who are rich and healthy, too,
When the fitful fever's over and our spirits soar away
To that place where good St. Peter always watches, grim and gray,
Oh, I wonder if he'll rob us of our hopes of angelhood
And propose to give us something different, but "just as good?"

T-O-R-O-N-T-O!

(Saturday Night.)

When in England this summer, Mr. Cockshutt, of Brantford, who sometimes releases a torrent of eloquence that nobody can dam, told a listening multitude that Toronto is the most imperially-minded city in the whole far-flung British Empire. For talking in this big way so far from home, Mr. Cockshutt has been censured in some quarters, and yet—and yet have we not some persons in Toronto who could beat the world in any contest designed to bring out imperial-mindedness? It might be a hard thing to bring out in a contest, but we have men among us who could bring theirs out, and who, in fact, can't keep theirs in. They are impericus in their imperialism. To say that they are loyal does not express it. Nor is enough expressed when we say that they are red-hot advocates of a close-riveted Empire. Beyond all that, we have men in Toronto who watch the British Empire day and night, and by the letters they write to lords and dukes, admirals and generals, newspapers and royal princes, premiers and policemen, prevent Horrible Blunders from being committed. In short, it is more than suspected that the strings are pulled in Toronto that operate the whole menagerie. If an earthquake should swallow this town—if a few forked streaks of lightning should pick off a certain half-dozen of our citizens, one thinks with dismay of what would befall this proud, pretentious Empire! His Majesty the King has sent some of his horses over to the Toronto Exhibition, and we have people in this city who will aspire to the honor of being kicked by these noble animals. Each horse will be booked a week ahead for all the kicks he can deliver.

Have You Noticed That

it is unanimously agreed upon by the doctors that one of the greatest dangers to the health of children, and one of the chief causes of the high infant mortality, is the poor quality of the milk retailed by many dealers in the city. And not only is much of it poor in quality, but it also carries the seeds of disease, owing to the careless manner in which it is handled and allowed to come in contact with all sorts of impurities. It is your duty to make certain that none of the milk used in your house is in this condition, and the QUALITY and PURITY of ours is GUARANTEED. Verb. Sap.

World Gossip

The Earthquakes in Chili.

Arthur E. Manson, of Los Angeles, who was in Montreal for a few hours yesterday on his way to the New England States, told the Star that, according to advices which he had received from business connections in Chili, where he is interested in several mining properties, the earthquake loss would not be more than half that of San Francisco.

"But," he added, "it will probably be felt very much more by Chili, and may, in fact, precipitate some sort of financial crisis. California has the support of a whole nation of almost boundless wealth, but Chili stands practically alone. This in spite of the fact that the population of Chili is nearly double that of California, as also her area; her recovery will not be nearly so rapid, as the per capita wealth is very much less."

"What are financial conditions in Chili?"

"The public debt amounts to well over $100,000,000, and the annual revenue of about $40,000,000 is usually at least $2,000,000 short of the requirement of the public expenses. The interest on the debt ranges from 4½ to 6 per cent."

"What are the principal industries?"

"The people, like those of most South American states, are not much given to manufactures, but are mostly tillers of the soil. The chief source of revenue is in the nitrate beds taken by force from Peru and Bolivia, and even these, once supposed to be inexhaustible, are showing signs of failure under the heavy demands made on them, no less than $40,000,000 worth of the product being shipped abroad every year. And even these beds are worked by foreign capital and managed by outsiders. It is in the gold mines of the country I am especially interested, and of these the output is about $4,000,000 annually, while California produces $15,000,000."

"What do you think will be the result of this calamity?"

"I believe the results will be very far-reaching, and very disastrous. The country is burdened with debt, and the people, though the most energetic by far in South America, are very poor. Under such circumstances, the cities immediately affected will be handicapped in making a recovery, as it will be difficult to obtain loans at low rates. The building of railways will be retarded, as also the improvement of ports, the advancement of education, and other vital interests. Increase of taxation would only mean revolution."

Rain Needed in New England.

That this is not the only part of the country suffering from a lack of sufficient rain is evident from the statements made to the Star yesterday by Mr. L. J. Robb, of Portland.

"There is much suffering at present," he said, "from lack of rain. Mill owners and farmers generally throughout New England are anxiously looking for it to fill their depleted springs and waterways. This is especially the case in the interior portions. July was a very hot month with us, and the hay was nearly ruined in places by the rain. But then the weather went to the opposite extreme, and for the last four or five weeks crops have been suffering for rain."

"Has the drought done any other damage?"

"Yes; many of the mills have been seriously affected by the low streams, and have experienced considerable inconvenience in the lack of sufficient water-power to run their machinery.

"A few of the interior cities, besides, have been in danger of a water famine owing to the exhaustion of their reservoirs, and the low water pressure has given reason for serious alarm in the case of a conflagration. I believe that the drought has so reduced the supply from the Broad Brook system which supplies North Adams that there is scarcely enough water to fill the twenty-four inch main. Fortunately, the big mill centres at Lawrence and Lowell, in the eastern part of Massachusetts, have not suffered from the drought."

"How has it been in Maine?"

"Showers have been very rare for about five weeks, especially through the old country on both sides of the Penobscot valley, as well as in the Kennebec region. Since about the 20th of July there was but one shower of any account up to a few days ago. Over in New Hampshire rivers are at their lowest point for the season, and farmers have had to haul water to their cattle."

Cuba and the Spirit of Revolt.

"President Palma is simply being forced into the same kind of struggle as has met every Governor in the island so far, and as will meet every other so long as conditions remain the same. It is simply an outcome of the Latin American spirit of revolt which exists in Cuba, and which must be utterly stamped out before any lasting peace can be established."

Mr. H. O. Martin, of Tampa, who was in Montreal yesterday, has had many opportunities of studying the Cuban character at home in the course of many business trips to the island, and therefore speaks whereof he knows.

"So far as I know and have heard," he continued, "the present chief executive of Cuba, President Palma, is a man of good character and good judgment. His government has been a successful one, and finances and commerce are in very good condition. But a minority in a South American island republic generally means a revolutionary junta and a conspiracy. They are bad losers."

"But is Palma not charged with being rather despotic in his rule?"

"They claim that he has taken President Diaz, of Mexico, as his model. He might certainly go far and not find a better. But he has never exceeded constitutional limits. Unfortunately, he has made but slight provision, from all appearances, against a revolution, and it is doubtful if he can get together any sort of army in the event of a crisis. His future position will depend a good deal on whether or not the revolution spreads to any extent. If it does, he will certainly be in a very awkward predicament, for he is very badly prepared for war. Even as it is, his position is not an enviable one, for the disease of revolution has seized on Cuba, and must run its course."

Cats Die In High Altitudes.

CATS go mad and die in high altitudes. Leadville, Col., is a city over ten thousand feet above sea level, and there is not a single cat in the place that has been there more than three months. The greater the height above sea level, the greater the degree of nervousness both in people and the dumb animals. Even in Denver, which is only half as high as Leadville, cats are high strung and flighty, given to sudden fits of arching their backs and growling at nothing. But they do not go mad in Denver with the same unanimity that they do in Leadville. In the latter place cats seem to be more than usually drowsy when they are first brought there, and spend nearly every hour of the twenty-four in sleep. This condition will last a week or two, and is succeeded by a state of ordinary well being, which terminates at a greater or less interval of time by their suddenly having a violent fit which in a human being would be called hysterics. These fits are repeated with continually increasing frequency until one more violent than any of its predecessors carries the cat off. Even kittens born in high altitudes never seem to get accustomed to them, and invariably go the way of the parents.

Moon Hotter Than the Earth.

Information of a valuable character concerning the thickness of the earth's crust and the intensity of the heat of the globe's internal fires has been obtained as the result of a series of investigations continued over a prolonged period by the Hon. R. J. Strutt, F.R.S., the well-known British scientist, and son of Lord Rayleigh, says the Scientific American. By testing rocks of many kinds from all over the world, Mr. Strutt has been able to determine the percentage of radium present in the earth's crust. He has ascertained that the presence of radium, whether it exists in minute or large quantities, can be easily denoted in all rocks of igneous origin, but the percentage is highest in granitic formations, while the basaltic rocks contain the minimum proportions of the element. He has also provisionally calculated the total quantity of radium present in each mile of depth of the globe's crust, from its uniform distribution, and estimates on this basis that not more than one-thirtieth of the total volume of the earth is composed of rocks which are to be found on the surface. As a result of his mathematical deductions, he estimates that the depth of the earth's rock crust is approximately forty-five miles. This deduction coincides to a certain degree with the calculations of Prof. Milne, the well-known seismologist, who has been engaged in investigations to the same end by the observation of the speeds of earthquake tremors. Prof. Milne concludes that at a depth of thirty miles below the earth's surface exist rocks whose physical properties are similar to those to be found on the exterior. Furthermore, as a result of his researches, Mr. Strutt is in agreement with the assumption advanced by several astronomers, more especially Mr. Pickering, that the moon is not a "dead" sphere, but that it continues to possess volcanic energy. And, moreover, he makes the startling statement that he is of opinion that the internal heat of that body is far in excess of that obtaining within the interior of our own globe.

Curious Customs of a Century Ago.

A century ago in the United States every gentleman wore a queue and powdered his hair. All the population of a village assembled at the inn on "post day" to hear the news. The church collection was taken in a bag at the end of a pole with a bell attached to arouse sleepy contributors. Virginia contained a fifth of the whole population of the country. Two stage coaches bore all the travel between New York and Boston. The Mississippi Valley was not so well known as the heart of Africa now is. Quinine was unknown. When a man had ague fits he took Peruvian bark and whiskey. There was not a public library in the United States. A horseman who galloped on a city street was fined four shillings. Stoves were unknown; all cooking was done before an open fireplace. Six days were required for a journey between New York and Boston. The whipping-post and pillory were still standing in New York and Boston. Twenty days were required for a letter to go from New York to Charleston by land. A New England girl was not allowed to marry until she could make a loaf of bread and cut it in smooth, even slices while it was warm. When a Virginian started on a journey to New York he made his will and bade farewell to his friends. Dances in Philadelphia were given every two weeks, but young men under twenty and girls under eighteen were not admitted.

Wood Carpeting Is Popular.

Wood carpeting is now becoming the rage, and at the present time pure oak is mostly in demand. These oak carpetings are especially attractive in block or strip designs. A herringbone pattern is also very often made of the oak. Perhaps the block pattern is as attractive as any. Certainly it furnishes a most desirable background for rugs, and when rugs are not used it furnishes better than the strip of herringbone patterns. In wood carpets showing designs white mahogany is frequently used with oak when a light effect is desired. The white mahogany is not so hard as the oak, however, and is rarely used alone for carpeting. Holly wood is also very much used with the oak for making designed carpets. It is pure white when properly treated, but this treatment requires the greatest skill and time. It is frequently, therefore, seen a little off color, in a grayish or cream tint. It is quite as pretty that way, and only the experts know that it doesn't count for as good work as it should. Holly is never used for whole floors, as it is very expensive. To make the dark combinations mahogany and cherry strips are used with the oak. Walnut floors, once so popular, are now rarely used, as the walnut wood has become rarer than mahogany. Walnut is used, however, for bordering and strips. The oak floors are in several shades. The pure oak is the natural color treated only with oil. There is also the "old English oak," new oak, of course, which has been treated in an attempt to make it look like venerable English oak. The real old oak color is, however, impossible of attainment by artificial means. The color obtained is either too golden a brown or too heavy and dark a shade.

THE GLEANER.

Common ranges make the coal man smile. The Pandora Range makes the thrifyt housewife smile.

Pandora Range

It is comparatively easy to build a range that will make a lot of heat, but it requires the exact science of Pandora Range building to produce a range that will use all the heat in the coal without waste.

A common range may burn twice the coal that a Pandora will, and yet do only half the work.

If you use a Pandora Range you can be certain that your coal money is not wasted, but used.

FEET THAT FRET.

No wonder some people's feet fret and sweat, no wonder corns and bunions appear; no wonder they are tender and sensitive. Did you ever spend 25 cts. on your feet? You buy chocolates to please your mouth, tonics to help your stomach, lotions to keep your skin smooth; your feet fairly cry out with pain, they sweat, blister, get hot are tortured and you think all this is necessary. Not so—if your feet were healthy and natural they would not complain in this way.

It will be worth your while to look in our window, this week, for unusual values in brass beds.

They're some we secured at low prices by taking a number of them, at one time, from the maker.

We don't think you'll ever get such bargains again—

Because the cost of making brass goods has recently advanced 17½ p. c.

These beds are all new designs.

Some of them are very heavily made with two inch outside posts.

One is reduced from $65 to $50 and another from $63 to $40.

We have a design made on lighter lines reduced from $27 to $20.

You will also see a twin bed which used to sell for $58 now offered for $44.

All beautifully finished and heavily lacquered.

Reductions good for this week only.

CUBA'S TROUBLE WILL SOON BE OVER

So Declares Mr. A. G. Smith, Who Has Large Interests in the Island.

TRADE HAS SUFFERED MUCH

Already the Revolution, Though Not Really Serious, Has Partially Paralysed Shipments.

"I hope and believe that this Cuban trouble will be soon over, for if it is not it will certainly do a great deal of damage to the trade of the island and arrest for some time the rapid progress which has been going on there of late."

Mr. A. G. Smith, general manager of the Ward Line, which plies between New York and Havana, takes a very optimistic view of the present situation in Cuba, and when seen by a Star reporter at the Place Viger Hotel to-day, expressed his confidence in the early return of tranquility.

"Cubans don't want war," he continued. "There is a small minority of turbulent characters who have been spoiled for a peaceful existence by the experiences of the Spanish war, and who have nothing to lose and everything to gain by trouble. These people naturally are ready for a revolution. Indeed so long as there is fighting it doesn't make a matter to them which side they fight on. But the great number of Cubans, the responsible people who really constitute the state, are very averse to anything of the kind. They are looking for peace and for the good things which peace brings with it, and they will be a strong influence for the suppression of anything of the nature of a revolution. It is this knowledge which makes me confident that the present trouble will not extend very far and will soon be put down. As it is, the Government seems to be getting the upper hand."

PRESIDENT PALMA POPULAR.

"Are Cubans satisfied with the Palma administration?"

"They certainly are in general, and they have reason to be, for it has proved to be a very good administration. People in this country do not generally realize it, but Cuba has made wonderful advances since the war. The country has been developed of late at a really surprising rate and finances are in good condition. There is a great future before the island, and it is making rapid strides towards it. And probably no man living has contributed more to this state of affairs than Sir William Van Horne. He has done great things for the country in the way of opening up new territory with his railroad and its prosperity is in a large measure due to him. He is accomplishing for Cuba, and especially Eastern Cuba, in a smaller way what he accomplished for Canada with the Canadian Pacific."

Mr. Smith states that the present troubles in the island, slight as their actual fruit has been, have done a great deal of harm to trade, as they have caused a sort of panic.

TRADE SUFFERING MUCH.

"People have become alarmed," he said, "with the result that shipments have been stopped and trade generally has been more or less paralyzed. This is evidenced in one way by the unusually heavy traffic on the lines to and from Cuba. Ships going to the island are crowded with Americans and foreigners who have business interests there and are hurrying to protect them, while steamers coming from the island are carrying large numbers who have been frightened away from the island by the fighting and rumors of fighting. But I believe this alarm is more or less groundless and that in a very short time everything will have returned to its ordinary aspect."

"Is there much talk of annexation in Cuba?" was asked.

"Very little," was the reply, "and none at all amongst the better classes of the population. Cubans of standing are strongly opposed to any such measure, and I think that they are right. The island has done so well since its independence that there is really no reason for changing its condition. It is better as an independent state."

BREEZE IN THE COUNCIL.

Ald. Dugald Macdonald, of Notre Dame de Grace, Makes Charges.

At the regular meeting of the Notre Dame de Grace Council last night a communication from the Turnpike Trust, which offered to pay one-half of the price of sprinkling the roads, was provokative of quite a breezy discussion for a few moments. Alderman Dugald Macdonald said that it was the rich farmers, members of the Town Council, who wanted to sprinkle the roads in front of their houses. These were the members, he asserted, who secured iniquitous legislation by which to evade payment of a due share of taxation which they had reduced to 1-4 per cent, while others were liable to be taxed at the rate of 2 per cent.

Ald. John R. Brodie, temporary Mayor, called the Council's attention to Ald. Macdonald's words, and asked him to apologize or retire from the Council chamber.

Ald. Macdonald emphasized what he had said, but after a little more talk, the question was dropped.

CHINAMAN WAS ROBBED.

The Milk Question Again.

To the Editor of the Montreal Star.

Sir,—In an article published in last evening's paper re dissatisfaction over the attitude of the Milk Shippers' Association in raising the price of milk your informant, evidently a milk vendor, is clearly in error in his statements. The Milk Shippers Association never had a paid official employed to go among the farmers agitating the milk question in any shape or form. Neither is there such dissatisfaction among the farmers who are members of the association as your informant would like to lead the public to believe. The farmers shipping milk to the city found that owing to the shortage of pasturage, light hay crop in most localities, and increased prices in grain feed over last year, it would be necessary to advance the price of milk and cream. The majority of the dealers are quite in accord with the action of the shippers, and even where contracts exist some dealers are paying the advance, recognizing that to secure a good pure milk supply the farmer must be paid fairly for it.

DOMINION RIFLE MEET AT OTTAWA

Good Shooting by the Competitors at the Long Ranges.

MONTREALERS DO GOOD WORK

Better Showing So Far Than During Last Year's Meeting—Kickers' Meeting to Be Held.

(See also Page Two)

Special to the Montreal Star.

Ottawa, Ont., August 28.—The weather conditions this morning were of the finest, with a rear fish-tail wind, which affected few of the marksmen as the score soon showed. The bull was found with the utmost regularity and while possibles were found easy at 600 yards in the Walker, the match of the morning, the heavy scoring kept up when the men moved back to the 900 yards range and Capt. Jones of P. E. I., made a possible at the 900.

In the extra series at 500 yards there were at noon to-day twenty-five possibles at 500 yards, while there were only twenty-six in the whole week last year. At the 600 yards extra series there are eleven possibles so far against nine last year, among the lucky ones being Privates Drysdale and Eastcott, of the Third Victoria Rifles.

At the 200 yards extra series there are 29 possibles already against eight last year, and among them are Private Copping, of the Victoria Rifles.

The competitors' meeting is to be held this evening. This is popularly known as the kickers' meeting, but there really seems little to kick about so far.

The winner of the Walker match is Major Rennie, with 32—35, total 67; next in order, Lieut. Boult, 6th D.C.O.R., 67, Staff-Sergt. A. Graham, 48th, 67.

M'GILL HAS FOUR RHODES SCHOLARS

Mr. A. R. MacLeod, of Prince Edward Island, Has Been Selected as the Fourth.

MR. A. R. MACLEOD,
the McGill man who has been named for a Rhodes Scholarship.

Mr. Alexander R. MacLeod, who was nominated last fall by McGill University to the fourth Rhodes' scholarship placed at McGill's disposal has been elected as Quebec's representative at Oxford.

Mr. MacLeod, who is a native of Uigg, P. E. I., entered McGill in the autumn of 1902, coming from Prince of Wales College, P. E. I., as Anderson gold medallist of that college, and his career at McGill University was marked by success at every stage. He was an exhibitioner in his first year and later the winner of a classical scholarship of $125, tenable for two years. At the examination last spring he was a front rank honor man in classics, taking the Chapman gold medal.

With the departure of Mr. MacLeod for Balliol College, Oxford, where Mr. H. J. Rose is now a scholar, McGill will have sent its fourth student to Oxford under the Rhodes' foundation in the space of two years.

When the first nomination was granted in 1904, two of the candidates for the honor were so evenly matched in merit that the trustees elected both Mr. H. J. Rose, of Ottawa, and Mr. John G. Archibald, of Montreal. In 1905, when Laval decided to waive its right to the appointment of the scholar for the Province of Quebec, the nomination was again granted to McGill, and the choice of the corporation of the university was Mr. Talbot Papineau, of this city.

When Mr. Papineau went into residence only last autumn it was expected that the university would be granted another nomination before 1907, which expectation has now been realized in the selection of Mr. MacLeod. Of the four McGill Rhodes' scholars at Oxford University, two of them, Messrs. Rose and MacLeod, are at Balliol College. Mr. Archibald is at new College and Mr. Papineau at Brasenose College.

Rhodes' scholarships are tenable for two years, and are of the annual value of $1,500. In the appointment of the scholar the instructions of the founder are that there be taken into consideration not only scholarship but excellence in out-door sport, and such qualities as go to make a leader among men.

Travellers Were Entertained.

The eastern division of the travellers of T. H. Esterbrooks (Red Rose Tea), passed through Montreal Saturday, on the way to Toronto, where they hold their annual reunion. They were met here by Mr. Walter Gaden, the Montreal manager, who in a very businesslike manner showed them the chief points of interest in and about the city, including the chief business houses, the mountain top, and Lachine, a special car being requisitioned for the purpose. After a luncheon at Henry Morgan's and another car drive, the party proceeded to Dominion Park where after taking in all the sights, they sat down to a banquet in the private parlors of the River View Inn. All extended their hearty thanks to Mr. Gaden, who devoted all his energy to entertaining his visitors, and he succeeded admirably.

TYPHOID FEVER ON THE INCREASE

Ninety-three Cases Have Been Reported at the City Hall During the Present Month.

The fact that there have been ninety-three cases of typhoid in the city during the present month is causing some concern at the City Hall.

Officials of the Health Department, when seen in regard to the matter, said that so many cases were in excess of what they ought to be at this season of the year.

The question was asked if the disease had reached a stage in the city that it might be considered epidemic; the reply was in the negative. At the same time it was pointed out that if the disease kept on spreading as it was doing it would not be very long before the epidemic stage was reached.

Enquiries showed that the disease was pretty well spread through all the wards of the city.

There are officials at the City Hall who hold that the water supply has much to do with the outbreak of the malady. Several months ago a report was made to the City Council, by experts, that the city's water was in a condition that was far from satisfactory. Despite this nothing has been done to improve it. It is pointed out by the aldermen that until a special sum can be borrowed nothing can be done to improve the system. The sum required will run into two or three millions.

SCIENCE MEN ARE AT WORK.

There are about 150 McGill Science students at present engaged in surveying in and about the city. About 70 third and fourth year men are camping out at Cartierville, while the balance consisting mostly of second year men are busy surveying on the University lawn and grounds, and some on the mountain. This survey work is part of the science course, and maps are to be made by each student, during the winter course, from notes taken now.

SENSATION IN MINING CIRCLES

Companies Failed to Renew Leases of Coal Areas, and Others Filed Application.

Special to The Montreal Star.

Halifax, N. S., August 28.—A sensation was sprung in coal mining circles yesterday afternoon and this morning. The leases of the Strathcona, Minudie and Styles mines, coal areas in Cumberland county, expired yesterday and the lessees neglected to make application for renewals. Other parties then filed applications for the leases of the three properties, all in operation. The same thing happened this morning with reference to the areas of the Port Hood Coal Company at Port Hood. The applications have not yet been granted.

EXHIBITION IS OPENED.

Large Crowd Attended the Ceremony—Weather Conditions Most Favorable.

Exhibition Grounds, Toronto, Ont., August 28.—The weather for the opening of the national exhibition to-day was all that could be desired. Before noon a considerable crowd had gathered on the grounds, though all the exhibits were not yet in the place. The exhibition was officially opened by Sir Wm. Mulock, at 2 p.m. If the weather conditions continue favorable this year's attendance according to recent indications will surpass all the previous records.

PERSONALS.

(See also page four.)

Mr. H. A. Hutchins, K.C., and Mrs. Hutchins, Rosemount avenue, Westmount, have returned from Tadousac.

Mrs. Emma Norton, of Binghampton, N.Y., is at present the guest of her cousin, Mr. Edmond Gervais, of Westmount.

The Hon. Frank Gilman and Mrs. Gilman, of Montreal, are the guests of Mr. and Mrs. E. W. Gilman in Sherbrooke.

Mrs. Edgar Nicholson has returned to town from Knowlton Landing, where she spent the summer the guest of Mr. and Mrs. John Tuck.

Mr. Robert Kerr, passenger traffic manager of the Canadian Pacific Railway, has returned from the Laurentian Mountains, where he has spent the past week.

Mr. Wellington, Dixon, rector of the High Schools, returned this morning (Tuesday) from Southampton, Long Island, N.Y.

Mr. Frank W. Morse left Saturday night for Prince Rupert and the West, to inspect the work that has been accomplished this year on the Grand Trunk Pacific, and to arrange for that to be performed next year.

Sir Wilfrid Laurier and Lady Laurier arrived in Ottawa, on Saturday evening from Arthabaskaville, Sir Wilfrid to remain some time in town. Lady Laurier is returning to Arthabaskaville in a few days for a longer stay.

The marriage of Miss Gertrude Tooke, second daughter of Mr. Benjamin Tooke, to Mr. Herbert W. Smith, of New York, will take place at St. Mary's Church, Beaconsfield, on Tuesday, September 4th, at quarter-past five in the evening. Only immediate relatives and friends will be present.

Miss Ann Malloch, third daughter of the late Dr. E. C. Malloch, was married Monday morning in St. Andrew's Church, Ottawa, to Mr. Herbert Saxon-Grindley, of the Bank of British North America, in Montreal. The ceremony was performed by Rev. Dr. Armstrong, in the absence of Rev. Dr. Herridge. The bride was supported by Miss Madge Jean Malloch, her sister, the groom being similarly honored by Mr. Arthur Appleton, of the Bank of Montreal. After a western trip Mr. and Mrs. Grindley will reside in Montreal.

A fashionable wedding took place today at high noon, in St. James Presbyterian Church, Charlottetown, P.E.I., when Isabel Catherine Martin, daughter of Alexander Martin, M. P., was married to Henry William Howard Knott, barrister, of Winnipeg. The ceremony was performed by the Rev. T. F. Fullerton. The bride, who wore a gown of ivory satin brocade, with flounces of chiffon caught with true lovers' knots and tulle veil surmounted by a coronet of orange blossoms, was attended by Miss Mary Bartlett, of Charlottetown. Mr. D. C. McLeod, K.C., acted as groomsman.

FORTIER'S DEATH WAS ACCIDENTAL

Witness at Inquest Blamed Condition of the Street for the Fatal Accident.

A verdict of excusable homicide was returned to-day by the coroner's jury at the inquest held into the death of Edmond Fortier, who was killed in a collision with a street car, south of the St. Denis street subway yesterday afternoon.

Adelard Lamoureux, carter, 559 Albert street, testified that the street was in such a condition that Fortier risked and lost his life by driving, for some distance, with one wheel of his cart inside the car tracks. He was in the act of turning out when his vehicle was struck from the rear. He fell between his horse and cart, and his skull was crushed.

The evidence of Conductor Jobin and Motorman Lacroix was to the effect that the car was not going fast and that Fortier acted imprudently when he attempted to go across the tracks twelve feet in front of the car.

BURGLAR UNDER ARREST.

Police Believe They Have Busy Criminal in the Toils.

Detective Le Huquet has made an arrest which, it is hoped by the police, will put a stop to burglary in the upper part of the city.

Pierre Beauchamp, 19 years of age, Balmoral street, was taken into custody yesterday, and when brought before the court to-day admitted entering and stealing from the house of Mr. Emard, 6 Park avenue. The case was postponed for a couple of days to give the detective a chance for further searches, as it is alleged. Beauchamp knows something about other burglaries.

Mr. and Mrs. James W. Foreman and family intend leaving Saturday for a short trip to North Hatley, P.Q.

SERIOUS BUSINESS BEFORE CABINET

Many Subjects of Importance Before the Ministerial Session at Ottawa.

Special to The Montreal Star.

Ottawa, August 28. — The cabinet council, which convened this afternoon is not going to be the mere emergency meeting preliminary to another ministerial scattering, which has been predicted for days past.

Sir Wilfrid Laurier has returned to the capital to stay, for some time at least, and has determined to set a working example to his colleagues. In consequence of this attitude of Sir Wilfrid more than one projected ministerial jaunt has been abandoned.

Nor is the fixing of dates for the by-elections the only business to be taken up. The Prime Minister is in earnest about meeting Parliament in November and is determined that a generous programme of Government business shall be ready for consideration, including the new tariff, upon which the Ministers of Finance, Customs and Inland Revenue will be expected to set to work as soon as circumstances will allow.

All this has to be talked over and arranged for at the series of cabinet meetings which start this afternoon.

Besides, there is the conference of provincial premiers to be arranged for, and a stated federal policy to be agreed upon. At present it looks as if the Government will find the easiest way out of the difficulty of increasing provincial subsidies by insisting upon a substantially unanimous agreement among the provinces themselves as to what the terms shall be, and there is scarcely even a remnant possibility that such an agreement can be reached.

REFUSED GRANT FOR SEPARATE COLONY

But Government Informed Zangwill That Immigration by Individual Jews Would Be Welcomed.

By Special Cable from Our Own Correspondent.

London, August 28.—Israel Zangwill, the well-known novelist, acting on behalf of the Jewish Territorial Organization, of which he is president, has laid before the Canadian Government an elaborate scheme for the settlement of a large number of Russian Jews, including many agriculturists, upon a tract of land in the Northwest. The Canadian Government has now replied that it cannot accept the scheme, but said that Canada would welcome good agricultural settlers of any race, whether Jew or Gentile, but that it is quite out of the question to create a separate Jewish community in the West with autonomous rights, as Zangwill proposed.

Individual emigration of a suitable kind will be acceptable, but such colonization based on a large tract of free grant territory is entirely impossible.

Zangwill is now seeking similar encouragement from the Australian and other colonial governments.

Hon. Frank Oliver and family have gone to the Continent. He returns the end of the week, and sails on September 14. He has had long conferences with Lord Strathcona, respecting new arrangements consequent upon Mr. Preston's retirement.

WINDERMERE.

Steamer Destroyed by Fire.

Detroit, Mich., August 28. — The steamer, Charles A. Eddy, of Cleveland, bound from Ashland, Wis., to Cleveland caught fire about 2 o'clock this morning, off Port Sanilac, Lake Huron, and was totally destroyed. Twenty-six passengers, beside the crew, were rescued.

ENLISTMENT HAS BEEN SUSPENDED

Awaiting Palma's Offer of Amnesty No More Volunteers are Being Enrolled.

MAKING DISPLAY OF FORCE

Moderate Leaders Think That Pino Guerra Does Not Want to Do Serious Fighting.

Havana, August 28.—The enlistment of volunteers by the Government has been suspended until the effect of President Palma's offer of amnesty to the insurgents can be determined.

At the palace conference, confidence is felt that the great body of rebels, who have been carried away with the idea that they were to have a conspicuous part in the overthrow of the Palma administration, will seize the present opportunity to return to lawful pursuits, rather than jeopardize their liberty by further supporting what the Government characterizes as a hopeless cause.

Pino Guerra's inactivity leaves the impression that he desires rather to make a display of force than to do any serious fighting.

His earlier promises to capture Pinar del Rio and march upon Havana, followed by a period of inactivity, has apparently injured his prestige with insurgents and sympathizers, who had expected him to make a bold dash against the Government forces.

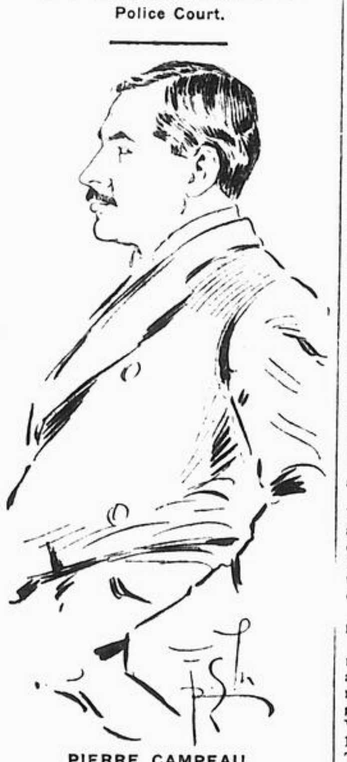
The pay of the artillerymen, and rural guards has been raised, the officers getting a 20 per cent. increase, and the privates an increase of fifty per cent.

Premiers Will Meet Sir Wilfrid.

Quebec, August 28.—It is practically decided that the meeting of the premiers of each province with Sir Wilfrid will take place at Ottawa on Tuesday, September 25th.

THEFT OF MONEY BY LETTER CARRIER

Story of Pierre Campau's Admissions Told Before Judge Piche in Police Court.



PIERRE CAMPEAU,
who pleaded guilty to stealing money from the mails.

Before Judge Piche to-day three witnesses testified that Pierre Campau, the ex-letter carrier of the Montreal Post Office, admitted in their presence that he had stolen money from letters passing through his hands upon many occasions.

Campau was arrested last week by Mr. E. R. Carrington, of the Thiel Detective Service, after he made the admissions. Inspector Madore testified to-day that there had been a number of complaints of money having been abstracted from letters. Some of these complaints were from the Cambridge Society. Two envelopes with marked money were placed in the packet going through Campau's hands and both were opened. The marked money was found upon him and after being warned by Mr. Carrington, he admitted the thefts.

Mr. J. J. Hays, superintendent of letter carriers, told of the placing of the money in the envelopes and of having taken Campau from his delivery route to the postmaster's office, where the admissions were made.

Mr. Carrington corroborated the evidence, and Judge Piche remanded the accused until to-morrow, when he will be committed for trial. He is defended by Mr. J. A. Beaulieu.

THREATENED COMPLAINT.

Joseph Goderre's Too Hasty Fist Landed Him in Gaol.

Joseph Goderre will know by experience that a quick temper should be controlled or it will cause its owner all kinds of trouble.

Goderre was charged in the Recorder's Court with assault, as well as damaging property. He pleaded not guilty to both charges and was remanded until next Friday. Just as he was leaving the court he shook his fist at the complainant, Mrs. Auguste Desroches. Sergeant Lacasse, of the court, noticed the gesture and brought the man back with the result that he was ordered by the judge to furnish a personal bail of $100, besides two of $50 each, or go to gaol until the time of trial. Goderre preferred gaol.

Death of Mr. Alexander Creelman.

The death is announced of Mr. Alexander Creelman, manager of the Imperial Bank at Niagara Falls. His death occurred at Guelph, where he was spending a holiday with his brother, Mr. George C. Creelman, president of the Ontario Agricultural College. The deceased was thirty-five years of age, and was also a brother of Mr. A. R. Creelman, general counsel of the C. P. R., in this city.

SENATOR CHARGED WITH TREASON

Senor Morua Delgado Accused of Being Instigator of the Rebellion.

INSURGENTS SUSTAIN LOSSES

Meet Government Forces and Leave Many Killed and Wounded on Field.

Special to The Montreal Star.

New York, August 28.—The Herald's Havana correspondent says:

"Time that is trying men's souls was made more exciting to-day by a charge of treason brought against a Senator of the Republic, Senor Morua Delgado, of Havana. He is accused by Jorez but has not been arrested. Whether he will be apprehended or not adds to the excitement and interest.

Signor Cayas, Liberal leader, says the accused man is safe, because under the constitution no senator can be apprehended on any charge except by consent of the senate, which is not now in session. It is impossible for the Government otherwise to set aside his constitutional prerogative.

Delgado, according to an affidavit made by Verona before Special Judge Arostegua, was one of the instigators of the rebellion, induced numerous persons to take up arms, and is responsible for the death of General Quentin Bandera, because, in spite of the prayerful and strong opposition of his wife, Bandera, at the request of Delgado, put himself at the head of the rebel band and took the field against the Government.

A BLOODY FIGHT.

Havana, August 28.—At the moment yesterday when the Government was issuing a proclamation offering pardons to rebels who lay down their arms, its forces were dealing the most telling blow that has yet been struck against the insurgents in the field. For several days it had been stated that General Guzman's force of insurgents, which was variously estimated at from 200 upwards, contemplated an attack upon Cienfuegos, Colonel Valle, with a detachment of rural guards and volunteers, was dispatched to Cienfuegos to engage Guzman and break up the band. The encounter of the two forces to-day resulted in the worst disaster which the insurgents has sustained. They lost 17 men killed and many wounded, while the loss to the Government force was one man killed.

THE OFFER OF AMNESTY.

The Government's offer of amnesty, which was issued yesterday afternoon, was variously received. It is impossible to say what its effect will be upon those to whom it is addressed. Alfredo Zayas, president of the Senate and leader of the Liberal party, stated that he was unable to express any opinion as to whether the insurgents would grasp the opportunity offered them of surrendering, but said in his opinion, as a lawyer, Secretary Montalvo could not legally issue such an order, for the constitution provides that only the President may make such proclamation, which must be countersigned by some member of the Cabinet.

Secretary Montalvo, on the contrary, stated that the offer of clemency was issued by the direct order of President Palma, and also gazetted officially. The foreign element, including many Americans, criticize the offer of amnesty as a weak and disappointing action, showing a desire for peace at any price and a willingness to sacrifice the possibility of future security to a present expediency.

Asbert's force, the main insurgent body now in the province of Havana, amounts to 150 men. The eastern part of the province of Pinar del Rio is practically unprotected, but there have been only petty depredations there by small bands.

The Matanzas insurgents cut little figure, and eastern Cuba remains quiet.

Rapid fire guns and considerable war material arrived from New York, and also some from New Orleans. It is reported that Guzman's force, the vanguard of which was defeated by Col. Valle, near Cienfuegos to-day, contains 1,000 men, well armed and mounted. The report is undoubtedly exaggerated.

Bridge Foreman Killed by Fall.

Special to The Montreal Star.

London, Ont., August 28.—Chas. Armstrong, of Stratford, bridge foreman of the Grand Trunk, was almost instantly killed yesterday afternoon by falling from the company's elevated tracks just east of the city. Mr. Armstrong was 45 years old, and leaves a widow and two children.

To Restrict Newspapers.

Toronto, August 28. — There is a movement on foot amongst the legal fraternity at Osgoode Hall to ask the High Court judges to issue orders prohibiting newspapers from publishing ex-parte statements of cases. This would restrict publishing of writs, affidavits and such like before cases came to trial.

MAYOR COATSWORTH'S GRUMBLE.

(The Canadian Graphic.)

There is a deep-seated opinion amongst steamboat pursers and railway conductors that the holder of a pass is likely to prove an exacting passenger. One wouldn't like to say positively that Mayor Coatsworth took his jaunt to Halifax (where by the way he captured a Vice-Presidency of the Municipal League) via Montreal on an Richelieu and Ontario pass though his letter to the press denouncing the accommodation would create that suspicion on the pursers' and conductors' hypothesis. We thought the public passenger carriers catered for crowds; that everybody alive knew it; that if in August any one journeyed an extra stock of patience was provided for because of it: and if any one didn't like it he stayed out of it. But one can't always tell. Moths will rush into the flame, and if they live through the experience it is no matter of wonder that they tell about it with groanings which may be imagined but cannot be uttered in cold type. There it sounds like swearing. His Worship is an Englishman, and a Yorkshireman at that. It is not surprising, therefore, that though the menu was excellent the service was slow. Of course it was—to him. The reputation of an Englishman belies him if any human service in that regard could be swift enough. And the little tips, you know! Well, they produce the smile-that-won't-come-off, and cheerfulness is conducive to good digestion. It pays. Probably if Treasurer Coady hadn't forgotten that little part there would have been no stomach trouble, and the worthy Mayor would not have sought the bow of the steamer among the anchors and chains and ropes, but would have beamed beneficently from an upholstered settee in the saloon. Even a cigar in a leather-covered easy-chair in the smoking room wouldn't have been too bad for a public man with a well ordered digestion to take. But they don't have these things for the hardy deck-hands in the bow of the boat, among the anchors, chains, ropes and things. It was a soda-water box. Worse than that. It was an unwashed soda-water box! Horrors! Mayor Coatsworth was pretty sick, that's plain. Everybody is glad he's better now, and as for the bile—look in the public press.

LACHINE CANAL TRAFFIC TIED UP

Propeller Dundurin Carried Away the Cote St. Paul Locks Early To-day.

Accidents will happen, and to-day while coming through the Cote St. Paul locks on the Lachine Canal, the large-sized propeller Dundurin became entangled with the first lock, and before she could be brought to a standstill had carried away the entire four locks. The accident occurred about 6.30 a.m. to-day, and Superintendent O'Brien immediately proceeded to the scene of the trouble, and placed men at work. Work has been carried on assiduously all day, and it is expected that before midnight the lower gates will be in place and the others early to-morrow. Shipping up and down the canal in the meantime is delayed, both passenger and freight boats being held up.

UNITED BAPTISTS MEETING.

Will Consider Union of Baptists and Free Baptists.

Special to The Montreal Star.

Halifax, N.S., August 28.—The first convention of the United Baptists of the Maritime Provinces in session at Liverpool, N.S., in addition to the subjects of the home and foreign missions and education which are permanent undertakings, the body will have subjects of special interest and importance to consider. Among these will be the completion of the union of Baptists and Free Baptists of New Brunswick. The new body probably will be known as the United Baptists. The total number of churches will be over 550. Another subject likely to prove fruitful of discussion is the proposal for a Dominion Baptist convention. Rev. Dr. Joseph McLeod is the new president of the convention, succeeding Rev. George R. White, of Charlottetown.

Mr. C. M. Hays Off for West.

Mr. C. M. Hays, president of the Grand Trunk Pacific, and general manager of the Grand Trunk, leaves tonight on an extended tour in the West over the line of the new road now in course of construction. The tour of inspection will occupy about ten weeks and in all probability will be continued as far as the coast terminus of the new line.

It is thought that Mr. F. W. Morse, general manager of the Grand Trunk Pacific, will accompany him on part of his tour. Mr. Morse is already in the West.

A BIG FAILURE CAUSES BREAK

The Wall Street market was greatly upset in the afternoon when news was received of the failure of the Real Estate Trust Co. of Philadelphia. The concern closed its doors at 2.25 p.m., and the failure, it is said, will involve close to $7,000,000. Deposits aggregated $7,500,000, and some sensational disclosures are likely.

The president of the company, Frank K. Hipple, died last Friday and his death has caused a good deal of comment.

There was a meeting of prominent Philadelphia bankers in progress at 3 o'clock.

The whole market declined and losses ranged all the way from 1 to 3 points.

STOCK IS ON OLD BASIS.

The announcement was made on the Stock Exchange this afternoon that the Canadian Colored Cotton Company had resumed dividends on the old basis and had declared a quarterly dividend of 1 per cent. payable September 15th.

Dividends of 4 per cent. were paid for many years, but were stopped in 1903.

On May 28th, of this year, the company paid shareholders 2 per cent. for the year 1905, but gave no intimation then that the old rate would be resumed.

'STREET' TREATED TO A C.P.R. RALLY

The Stock Moved From 170⅝ to 174 in the First Hour's Trading.

LOCAL MARKET FOLLOWED

Still No Definite News From the Nova Scotia Steel Camp—The Day's Chief Features.

Wall street seems to have forgotten all about its disappointment over the non-declaration of a C. P. R. bonus, for the traders turned to that stock this morning and ran it up from 170 5-8 to 174 in a little under an hour's time.

The rally in the stock woke the local market up to some extent, and in a small way the list here followed the New York lead.

One very conspicuous feature of the movement was the fact that the rise was accomplished without bringing any big selling orders to the front.

In one or two instances sales of 400 and 500 share lots were recorded on the tape, but 100 share lots were the rule, and under the circumstances it looked as if the traders, if they were so disposed, would have little difficulty in working the stock higher.

No news came out over the wires and it was evidently one of those movements in which there was no news, otherwise fitting under the title of professional manipulation.

The sales of Pacific to noon in Wall street were 10,900 shares.

BUYERS OF C. P. R.

The chief buyers of Canadian Pacific in Wall Street were Keech Loew, Clark Grannis, Herrick Hicks, Simmons and Slade and also London.

NEW HIGH MARK.

Atchison made a new high mark during the day, selling up to 108 1-4, with the usual talk of a 6 per cent. dividend to keep up the courage of the bulls.

The Wall street market in general opened on the weak side, but the display of strength in Atchison and Canadian Pacific seemed to freshen things up a little.

The Hill stocks were steady. Great Northern opened at 321 1-2 and went to 323, while Northern Pacific was steady in the vicinity at 216.

TRADING IN "SOO."

As is frequently the case when Canadian Pacific moves there was some life in the "Soo" issues, with sales at 155 7-8 to 156. There is more talk to the effect that the increase in the "Soo" dividend will again be postponed, but the stock does not seem to mind a little thing like that and still sticks to a level that yields the investor less than 3 per cent.

Both Union Pacific and St. Paul showed strength. Union opened around 185 7-8 and moved to 187, afterwards reacting a little. St. Paul started at 196 and advanced to 198 1-4.

SCOTIA WAS SLOW.

The edge was off the movement in Nova Scotia Steel, and only 125 shares sold. There is very little confidence about a dividend for the near future, and if it comes it will surprise the majority of people who generally know what is going on.

The sales to noon in Wall Street were 630,000 shares.

Money in Wall Street ranged between 4 1-2 and 5 1-2 per cent.

GOSSIP ON TWIN CITY.

While the increase of $55,000 or 61 per cent. in Twin City Rapid Transit earnings for the second week of August marks a new high point, and will probably stand unbroken for all time, there is another period of heavy business just ahead. The big figures were due to the Grand Army encampment which was largely attended.

BELL TELEPHONE.

The management of the Bell Telephone Company have completed details in connection with extensive improvements to their telephone system throughout the Dominion. The extensions to be carried out within the next year will cost considerably over two million dollars, and three thousand men will be engaged on the work.

LONDON'S SETTLEMENT.

The course of the fortnightly settlement in London this week will be watched with more than usual interest on this side. Some of the prominent arbitrageurs are reported to be still short of Union and Southern Pacific, and as these operators frequently have a good following of the rank and file, the outlook is ominous. On the other hand, London has bought large blocks of Steel and other Morgan stocks on the rise, and this should tend to counteract the less favorable feature. Nevertheless the situation is complex.

THE SECOND THOUGHT.

(Kansas City Star.)

The accusation that E. H. Harriman "ragged" the stock market seems to have been made by a number of Wall Street gentlemen who tried to outrag Mr. Harriman, and failed.

SHAREHOLDERS NOT PLEASED

There May Be Trouble at the Allis-Chalmers Meeting.

According to a Chicago despatch, the annual meeting of the shareholders of the Allis-Chalmers Co. will be held on September 6, and it is understood that it will not be entirely harmonious. It is asserted by the opposition that under the present conditions in the bond market the issue should not have been brought out at this time, and there is also sharp criticism over the amount of compensation received by the underwriters. This, it is asserted, was in the neighborhood of $2,000,000. It is also understood that certain of stockholders will register complaint over the improvements at West Allis, Wis., which are said to have been on too expensive a scale.

TO BE LISTED THIS WEEK.

Application has been made to the Montreal Stock Exchange to list the stock of the Canadian Converters' Co., and it will be called this week.

The stock is now quoted at 67 bid.

$1,000,000 BONDS COMING.

It is expected that the $1,000,000 of new Canadian Rubber Co. bonds, already underwritten, will be issued in October.

The stock and bonds of the company will be listed on the Montreal Exchange.

"Bucket-Shops"

"One of the almost infallible signs of increasing public interest in the stock market," says the Wall Street Journal "is the so-called 'failure' of large bucket-shops. Their customers are usually bulls, and the bucket - shops lose money on a rising market. The essence of the bucket-shop transaction is that it is not a genuine purchase or sale, but a bet with most extravagant odds in favor of the bucket-house man. At roulette as played in Europe, the value of the dealer's advantage is about 3 per cent., and this is sufficient to keep Monte Carlo flourishing and the Prince of that territory affluent. In trading with the bucket-shops the victim usually begins by adventuring a two-point margin. This means that the bank makes no bad debts while he is quite unsecured. In theory he can buy at the middle price in the market. In actual practice, he buys at the asked price, and sells at the bid price. With the commission and the stamp, if that is not evaded, this means that he is betting the banker $20 to $15 on what at best is no more than an even money chance.

"It is not, however, an even money chance. If the bucket-shop has a number of customers long of some particular stock, making a considerable weak bull account in the aggregate, it is not difficult to cause a momentary reaction in the stock exchange, not sufficient to affect the real course of the stock, but quite enough to wipe out the altogether insufficient margin."

IS INCREASE NOT COMING?

It is stated that Minneapolis, St. Paul and S.S. Marie contemplates making important extensions. It is intimated that the dividend on common stock will not be increased until these extensions are completed.

THINKS THE C. P. R. IS IN IT?

One morning paper publishes a sensational story of a fight for control of St. Paul by the Hill-Morgan interests, aided by the Canadian Pacific on the one side and the Harriman-Standard Oil interest on the other.—N. Y. despatch.

CANADIAN BONDS LISTED.

The London Stock Exchange Committee has ordered a further issue of £27,400 4 per cent. 30-year (Ontario Division) first mortgage debenture bonds, 1930, Nos. 4177 to 4450, of £100 each, of the Canadian Northern Railway Company to be quoted in the official list.

RECORD TRADING IN STOCKS.

How the Recent Boom Compares with That of 1901.

The sudden revival of outside interest in stocks since the Harriman coup of a fortnight ago, which has resulted in trading approaching the record days of the spring of 1901 in volume, makes interesting a review of the great days in the stock market's history. First, however, it may be well to note how far the spring boom of 1901 exceeded the present activity.

This table compares the sales of Friday, August 17th, the day of the Harriman coup, and the two succeeding big days, with six days of the memorable fortnight ended May 9, 1901:

August 17, 1906	2,532,451
August 18, 1906 (Saturday record)	1,545,270
August 20, 1906	2,695,223
April 29, 1901	2,616,130
April 30, 1901 (record)	3,270,851
May 1, 1901	2,825,862
May 2, 1901	2,842,309
May 3, 1901	2,920,471
May 9, 1901	3,072,305

While two-million-share days, and even three-million-share days, have become familiar, they really make less disturbance in the routine of Wall Street's business than the million-share days of a decade ago, when facilities for reporting transactions were so inadequate that it was often late at night before the clerks were able to get out the official lists.

BANK STATEMENT IS A FARCE.

So Says One Leading Wall Street Brokerage Firm.

Stock traders who pore over the preliminary figures of the New York bank statement will no doubt cordially agree with this sentiment, expressed by Bartlett, Frazier & Carrington: "Two conclusions are suggested by the bank statement, one of which is that the preliminary estimates published on Friday are a farce, and the second one is in the event of the preliminary estimates being accurate, that the bank statement is a joke."

GOLD FROM AUSTRALIA.

The engagement of $750,000 in gold in Australia by Brown Brothers, of New York, was announced.

ONLY 75 PER CENT?

It is reported that Great Northern stockholders will receive within the next three months a stock dividend of 75 per cent., as a result of the ore deal.

IN AT THE "KILLING."

(U. S. Investor.)

Hopes of larger dividends on many issues have given place to confident expectation. Hence the rush of the speculative public to be "in at the killing." There is a decidedly strong promise that the killing process will not be all enjoyment

$90,000,000 WILL GO TO OUR WEST

In Payment for Wheat, Oats and Barley Crops Raised the Past Season.

BANK OF COMMERCE FIGURES

Taken as the Basis of An Estimate on Amount of Money to Be Involved.

It is estimated that the farmers of the Canadian North-West will receive $90,000,000 this year from three crops alone—wheat, oats and barley.

It is figured this way:

Wheat—91,813,900 bus. at 68c.	$62,433,452
Oats—80,854,680 bus. at 28c.	22,639,310
Barley—17,735,790 bus. at 30c.	5,320,370
Total	$90,393,132

When we add to this amount the return to the Western consumers from live stock, dairy produce, vegetables, etc., it is safe to say that the total will pass $100,000,000. This is an enormous sum of money to do business with among a comparatively small population, and it is no wonder that outsiders are casting wistful eyes toward the Canadian West.

The crop estimates used were those compiled by Mr. John Aird, of the Canadian Bank of Commerce. He figures that the three provinces will produce 91,813,900 bushels this season. Mr. Aird's estimate is particularly worthy of note, as coming from a man who has always been very close to the mark. Last year he was only about 1,000,000 bushels below the output. Mr. Aird bases his calculation upon reports of the bank's agents in the various localities, using the acreage figures given in the Government bulletins.

DEEP SILENCE FROM SAGE.

One of the Montreal men who had a wire with the late lamented firm of M. J. Sage & Co., said:

"Still no word from the firm as to its intentions."

There are still a good many traders floating around the "Street" who complain that they have received no money as yet from one house which is said to be paying up.

SIR WILLIAM KNOWS HILL.

"I don't know what Mr. Hill's plans are," said Sir William Van Horne. "I know that he is a very able man, and when he talks about doing what is clearly a foolish thing, it is safe to assume that it is a cover to something which is not foolish."

A French epigrammatist has held the record with a statement that language was given us to conceal thought. Sir William's is an admirable modern version. At least it is evident that he knows his James J. Hill.—Wall Street Journal.

TORONTO'S AND OUR BONDS.

Montreal 4's and 3 1-2's Have Best of the Comparison.

Montreal and Toronto municipal bonds compare as follows in the London market:

	P.C.	Price.	
Montreal	5	100	102
Ditto	3	83	85
Ditto, 1932	4	106	108
Ditto, 1933	3½	95	97
Ditto, 1942	3½	97	99
Toronto, 1919 -20	5	105	107
Ditto, 1921—28	4	102	104
Ditto, 1907—13	4	99	101
Ditto, 1929	3½	94	96

Both have been fairly steady within the past two weeks, and have only shown small fractional changes.

BIG EARNINGS EXPECTED.

August net earnings of U.S. Steel are expected in well informed quarters to run above $12,000,000, against $10,896,000 a year ago. For the quarter ending Sept. 30 net earnings are estimated at $38,500,000, as compared with $31,240,500 same period previous year.

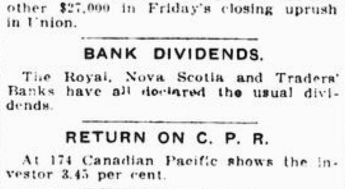
RETURN ON C. P. R.

At 174 Canadian Pacific shows the investor 3.45 per cent.



Burnett & Co.—Canadian Pacific was bought freely by London houses. Atchison will probably pay 6 per cent.

J. B. Picken.—The fact would seem to be that the situation is well under control by the important interests, and that, as pointed out yesterday, the market is of such a character as to be liable to violent fluctuations in either direction.

W. H. Goadby.—It is understood that an operator, who in years past has been one of the most powerful factors in the market, is favorably disposed toward the upward movement, and believes that it will be carried further.

J. S. Bache.—London came strong, and the talent were not dilatory in taking the cue from that source, as the gold transactions were not satisfactorily accounted for, and some hints by newspapers were thrown out of some ingenuity being used by the Americans so that it would not be discovered who secured the gold.

Edmund Randolph.—Atchison will increase its dividend at the September meeting and should sell well over 110. We have excellent reason to believe the control of St. Paul has practically passed to the Southern Pacific, and will sell considerably over 200. This is a bull argument on Union Pacific, but at any rate U. P. on its present dividend basis is much too low compared with the other transcontinental stocks.

Dick Bros.—We see no reason to change from our bullish position, and continue to advise purchases on all fair recessions.

TOPICS OF THE STREET

There was a report around the "Street" yesterday that one man who operated the Sage wire in Montreal up to the time of the failure stands to lose $48,000 if he pays up all of his clients. He has paid some already, and has stated repeatedly that every dollar will be paid in full.

Some of the local houses signed the contracts in their own name instead of Sage's, while a few foxy and cautious traders made the local managers sign agreements making them personally responsible in case the Sage firm went up.

Some had the report that the Sage firm would be able to pay 25 and perhaps 35 cents on the dollar. One of the creditors said:

"That is pleasant news, but I haven't seen the color of their money as yet."

"We do not lack for bullish factors here," said a prominent Montreal broker, "and I have yet to be convinced why we should not have a good market this fall. Glance over this list:

1. Power franchise.
2. Richelieu dividend.
3. Detroit franchise.
4. Montreal Street Ry. reorganization.
5. Dividend on Scotia?
6. Record earnings.
7. Big wheat crop.
8. General prosperity.
9. Twin City dividend.

"What have we got against that? Tight money is the only thing, and from what I hear I do not believe money is going to be so tight after all."

There is talk of the Atlanta, Oregon & Texas Railroad.

The "ticker" abbreviation will have to be "A. O. T." (any old thing), a tip which ex-Governor Flower of New York used to be fond of giving.

Some of the people on the "Street" are inclined to think that 3 per cent. will be paid to Richelieu shareholders around October 1st.

This is the way British Consols and French Rentes have acted for a series of years:

	Consols.		French 3 p.c. Rentes.	
Year.	High.	Low.	High.	Low.
1906*	91	86¾	99½	95⅜
1905	91 15-16	87½	100	97
1904	91¼	85	98¾	94
1903	93-21-32	86⅞	100¾	95¾
1902	98	92⅛	102	90¾
1901	98⅛	91	102	99¼
1900	103¼	96¾	101⅜	98

1897	113⅞	110⅝	105	101
1896	113⅞	105⅛	102½	100

*January 2nd to July 24th.

Consols declined close to 29 points, but the interest rate was reduced from 2¾ to 2½ per cent., and that was something of a factor in the drop.

The highest average price Wall Street stocks ever reached was 138.26, last January. Last Saturday they sold within ¼ per cent. of that record.

Montreal shareholders of Detroit United say that they are well satisfied with the present aspect of the franchise situation.

$95,000 BID BROUGHT SEATS

Old Holders Evidently Decide to Accept Present Figures.

The jump in the price of New York Stock Exchange memberships to the record figure of $95,000 has brought in the market quite a supply of seats, judging from the official bulletin of membership transfers made public yesterday. This list showed no less than five seats now posted for transfer, as follows: J. Elder Leech to Charles E. Johnson, F. B. Tilghman to Burnet R. Ruggles, H. Cruger Oakley, deceased, to Cornelius S. Lee, Davis Johnson to William A. Slayback, John O. R. Wilson, deceased, to Stanton Whitney.

MINING STOCKS ARE BETTER.

No Great Activity But the Market is Broader.

The market is broadening out, and there has been quite a movement in some stocks in the past few days.

North Star is moving up on the improved condition of the company. Rambler-Cariboo is reacting after the recent boom in it. International Coal is quiet, and has apparently reached its top for the present. There is a demand for Sullivan from the west, which has carried that stock up to double its former price. Dominion Copper has also had a considerable rise, and the recent report of a find on the Nipissing property has advanced the price of that stock.

C.P.R. NOT THE ONLY FEATURE

Atchison and St. Paul Were Prominent in the Dealings.

Wall Street, August 28.—The market opened from 1 to 2 points higher this morning, but almost immediately started to decline, Smelters being the weakest feature. It opened up a point and a quarter and within five minutes was selling below Monday's closing. After the first fifteen minutes the market began to rally, and at the end of the first hour had become strong, with good recoveries in most of the active stocks, Atchison making a new high record at 108¼. A drop in foreign exchange revived hopes of gold imports and helped sentiment on the recovery. St. Paul showed a gain of 1¼ at the start, but soon lost most of this, and the preferred also sold off. In the second hour C. & O. became conspicuous by its strength, and advanced 2 points on renewed dividend talk.

Canadian Pacific was a feature, going to 174, while St. Paul was strong at noon.

MONTREAL EXCHANGE RATES.

Montreal exchange rates: New York funds, 1-76 to 3-64 between banks; sterling, 60 days, 8¼ to 8 9-32; do. demand, 8 29-32 to 8 15-16; do. cables, 9 1-16. Paris, francs, short, 5.19⅜ to 5.19 1-16.

STEEL RAILS UP.

Steel rails have been advanced $1.00 a ton in Pittsburg. Business is phenomenal.

ONTARIO REPORTS CATTLE ANTHRAX

It is Under Control—English Cattle Markets Rather Firmer.

POTATOES AGAIN ADVANCE

Butter and Cheese Firm—Wheat and Cotton Lower—Oats Firm for Local Account.

Special to The Montreal Star.

Ottawa, Ont., August 28. — At the Department of Agriculture it is stated that the outbreak of anthrax, in Matilda township, near Morrisburg, although serious, is now under control, and every precaution has been taken to prevent the disease from spreading. The animals infected have been isolated, and those brought into contact inoculated. A rather alarming feature of the outbreak is that three men are reported to have contracted anthrax, one of whom is in a critical condition. In view of this fact, no possible safeguard should be neglected by persons in the neighborhood.

CATTLE FIRMER IN ENGLAND.

Hogs Decline Again in Local Market—Cattle Hold About Steady.

The English cattle markets are mostly firmer. Best Canadians are quoted at 11 to 11½c at Liverpool, while ranchers are quoted at 10 to 10¼c for finest. In London, American cattle are higher, at 12½ to 13c. London quoted the same on Canadians as Liverpool.

Exports of cattle from this port for the week ending August 25th, were 6,110 head of cattle and 297 sheep, against 4,572 cattle and 40 sheep the previous week.

The local market for live stock experienced some further changes, all of a downward nature. Hogs, for instance, have declined fully ¼c further, making quotations now 7 to 7¼c per lb. for selects. Inferior stock ranges down to 6½c, and perhaps lower in some cases. The decline in hogs during the past month has been quite marked, quotations not long since having been a cent higher than at present. The lower prices are due to reduced consumption, owing to high prices both for fresh pork and for all hog products, as well as to the exceptionally hot weather which has prevailed almost without a break all summer. Cables on bacon are easier, and receipts of hogs are in excess of demand in this market, although they are not large at that.

Cattle are dull enough also, and prices continue on the easy side. Prices on choicest stock offered range around 4½ to 4¾c, good to fine being 3½ to 4½c, and common 2½ to 3½c. American buyers were in the market for lambs, and sales were being made to them at about 5½ to 6c per lb. Sheep were unchanged at 3½ to 4¼c, and calves sold at 2½ to 5c per lb., the range being wide in accordance with the quality of the offerings. Cattle sold at $25 to $50 each.

COUNTRY CHEESE BOARDS.

Sherbrooke, August 28. — At the dairy exchange salted and fresh butter sold at 23c, with small lots at 22¾c; cheese sold at 12¼c.

Farnham, August 28. — At the butter and cheese board, the offerings of butter were smaller than usual, which is accounted for by the fact that many of the factories have turned on to cheese owing to the prevailing high prices. Some 671 packages of salted butter were sold at 23¼c, 65 boxes of colored cheese sold at 12¾c, and 95 boxes of white at 12⅝c. The next meeting of the board will be held on Saturday night, on account of Monday being Labor Day.

Crysler, August 28. — On this board 866 boxes of cheese—153 colored and balance white—were boarded and sold. Prices realized were 12¾c for colored and 261 boxes of white. Balance sold for 12 11-16c.

St. Hyacinthe, August 28. — At the butter and cheese board 607 boxes of butter sold at 23c, and 1,153 boxes of cheese at 12½ to 12⅝c; 607 boxes cool cured cheese, parafined, sold at 12 11-16c.

CHEESE SHIPMENTS LARGE.

POTATOES.—The market for potatoes, after declining slightly some days ago, again advanced this week, and dealers state they are unable to make purchases of bags of good stock on the farmers' market at less than $1.25 per bag of 90 lbs., barrels costing $2.75 each. As it would appear impossible to obtain more than this price for them in a retail way, dealers have in many cases ceased taking orders. The scarcity is due to the fact that farmers are very busy harvesting their crops.

CHEESE.—The market for cheese is a little uncertain. Dealers do not seem able to get as much as they should when the recent cost in the country is taken into consideration and response to enquiries across the cable are said to be poor. It may be however, that demand will wake up at the close of the week, as it has done for some time past. For the week ending August 25th exports were again large, being 89,507 boxes, or 3,000 more than for the same week of last year. This brings the exports for the season up to 1,293,463, the largest number ever recorded at this time of year, and 115,000 more than on the same date last year. The make is certainly keeping up as well as expected, although it is lighter than it would have been had there not been such a severe drought. Owing to the high prices, farmers are feeding liberally. Stocks are light everywhere. It is very difficult to make sales of Ontarios in any quantity at more than 12⅞ to 13½c, though some are asking a fraction more. Townships might be quoted at 12¾ to 12⅞c, and Quebecs 12⅝ to 12¾c.

Receipts of cheese reported on the Board of Trade to-day were 7275 boxes

BUTTER.—This market has shown almost unexpected strength for some time past. Advices from the other side are all strong and advances on Danish butter have contributed to a similar movement here for our butter. Although as high as 23¼c has been paid on country markets, it seems very hard to get more than that figure here, so that there is apparently no room for a profit. Dealers claim they are able to buy choicest creamery at 23 to 23¼c here, and good to fine at 22½ to 23c. There is not a very active demand at the moment, although some look for an improvement shortly. Exports for the week ending August 25th indicated a marked improvement in business over previous weeks, for while recent shipments have been many thousand packages less than those for the corresponding week of last year, last week's shipments were only 1000 less, being 26,307. Exports to date since the first of May were 353,611 packages or 111,000 less than those for the corresponding period of last year

Receipts of butter reported on the Board of Trade to-day were 1996 packages.

COTTON STILL LOWER.

E. & C. Randolph.—The market closed within a point or two of the top yesterday, but the support came from the operations of local traders almost entirely, and the south shows little disposition to back up crop complaints with buying orders. If crop complaints should grow more serious, a revulsion of speculative sentiment regarding the size of the crop might set, but the logical time for this is after the biggest of the early receipts have been absorbed, and before the government's estimate of the crop or between the first or middle of October and the 3rd of December.

CHATS ON 'CHANGE

Introduced on 'Change.

A. W. Owen, Ottawa, by M. P. Cochrane.

Harold H. D. Andrews and Alfred Brooks, of London, Eng., by Thomas L. Paton.

Mr. A. P. Stuart was back on 'Change this morning after a vacation at Cushing Island.

Mr. A. G. Thomson has returned from a holiday at Peak's Island.

Chicago says: The grain men who went on the North-West Grain Dealers' excursion through the Canadian wheat belt returned to Winnipeg Saturday, after covering 2080 miles. The different members of the party arrived at diverse conclusions regarding the probable yield of wheat in Canada this year. Finley Barrell, who accompanied the party, estimated the crop at about 89,000,000 bushels. W. A. Black, the manager of the Ogilvie mills, estimated that the crop would not be equal to last year's, and placed the yield at approximately 82,000,000 bushels. Other estimates ranged between 80,000,000 and 90,000,000 bushels. The members of the party agreed that the recent hot weather had hurt the crop to some extent

WHEAT WAS LOWER AT NOON

Better Tone to the Local Market for Oats—Prices Held Steady.

From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.

Chicago, Ill., August 28. — September wheat sold from 71 to 70½c. December from 74⅛ to 73⅝, and May from 78¼ to 77¾. May closed yesterday at 71⅛, September at 74⅛, and December and May at 74¼.

The feature of the market was the changing over from September to more deferred month. The market acted as if it was tired, and the holders were not as sure of their position as they were a few days ago. Export business is out of the question. Receipts of new wheat here were 10 cars and 9 at Minneapolis. Minneapolis wheat stock decreased 750,000; ten in 3 days.

E. A. Beauvais, one of the best posted grain men here, and formerly of Montreal, said of wheat:

"The immediate future value of wheat hinges largely upon the volume of movement of the new spring wheat. Banking on a bumper crop of fine quality in the three states the big millers of Minneapolis did not lay in their usual purchases of south-western No. 2 hard winter wheat, and, in consequence, the winter wheat was sold to arrive in tributary markets—Kansas City, St. Louis and Chicago, forcing the recent severe decline of 15c per bushel. Should the Minneapolis millers be disappointed in the quantity and quality of the spring wheat, there would be a scramble among them for the remnant of hard winter wheat in the south, and they might even try to purchase supplies in Chicago.

"The quality of winter wheat is uniformly superb this season, and merchants will not fear to buy it in any position."

The Liverpool spot wheat market was about steady to-day, closing at 6s 4d to 6s 4½d for No. 1 nor. Man., and 6s 2¾d to 6s 3½d for No. 2. Options ½ to ⅛ down, at 6s 2d for Sept., 6s 3⅝d for Dec. Paris closed 35 down on Aug., at 22.95, and steady on Nov. and Feb. at 22.75.

Winnipeg was ¼c down on October at noon at 72¼c, and steady on December at 71¾c.

Chicago was ½c down at noon on September at 70⅝c, and 70⅝c down on December at 73¾c. September corn was ⅛c down at 48¼c. May steady at 44⅝c. September oats, ¼c down at 29c.

Duluth unchanged on September at 73¼c, Minneapolis being ⅛c down at 71¼c.

Weather in England, fine; forecast, fine. Weather in France, fine and hot; forecast, fine and hot.

LOCAL MARKET.—The market for oats shows an improved tone, and dealers have had to pay more for round lots, although they are selling for local consumption at former prices. These are 36c in store for No. 4 oats, 37c for No. 3, and 38c for No. 2. So far as can be heard, there is little or nothing doing in other kinds of grain, save wheat, which is being taken at a basis of Winnipeg.

VISIBLE SUPPLY OF GRAIN.

The following table shows the visible supply of grain on the dates mentioned in the United States and Canada:

Machinery, Engines, Boilers, Shafting, Hangers, Second Hand Machines, &c

The "Machinery For Sale" classified column of the Montreal Daily Star has been found a great producer of results in selling or disposing of Machinery, new or second hand, or exchanging it to advantage for other Machinery. Some transactions through the Star are reported as bringing close up to original cost, while they invariably bring a good price. There are numbers of concerns which could utilize the "Machinery For Sale" column in the Star for the sale of machinery, etc., now lying idle, or likely to go to waste in their premises. One cent a word with a minimum charge of 25c. for each day is all that is needed to bring the buyers who are looking for what you have to sell. 494 26

FREIGHT TRAINS IN COLLISION

Head-on Crash at Iberville Junction—J. H. McNeil, Brakesman, Sustains Serious Injuries.

As the result of a collision between two Canadian Pacific freight trains, at Iberville Junction, at 6.40 a.m. to-day, James H. McNeil, brakeman, of Farnham, is in the Royal Victoria Hospital suffering from a compound fracture of the left leg, a bad sprain to the right leg, and bruises on the body.

When the impact occurred a box car which was filled with matches took fire and before the flames could be controlled five cars were destroyed. The engineers and firemen jumped safely. Both engines were reported to be only slightly damaged.

It appears that extra freight, No. 617, was standing on the track waiting for the incoming train to pass. The trainmen state that the brakes failed to work, when applied, and that the incoming locomotive struck the engine standing at the station with considerable force. Some of the trainmen narrowly escaped being killed.

After the fire had been extinguished the work of clearing the tracks was commenced, and it only took but a short time to clear the line.

According to the official statement of the accident given out at the office of the general manager of the railway, one freight train was standing on the track when the other, which was to have passed it, overran the switch and so came into collision with it. The report also states that several cars were damaged, and that Brakeman J. H. McNeil received an injury to one of his ankles.

RACES AT ST. LAURENT.

There Will Also Be a Shooting Match Afterwards.

There will be races at St. Laurent tomorrow afternoon on the race course near Deschamp's Hotel.

There are already fifteen entries for the regular races and there will be a three cornered match race besides.

Afterwards there will be a shooting contest between Instructor Landreault, of Montreal, Province of Quebec champion, and Dr. Dufeutelle, champion of the north of France.

Buffalo-Muskoka Service.

The equipment used this year on the Grand Trunk trains operated between Buffalo and Muskoka and the "Highlands of Ontario," also between Toronto and these points have been the admiration of all who have had an opportunity of travelling on this part of the Grand Trunk Railway system. Train leaving Buffalo at 8 a.m. and the train leaving Toronto at 11 a.m. are two of the finest trains operated in the Dominion, and are solid vestibuled equipment carrying, in addition to baggage car, first-class coaches of modern construction, new buffet parlor cars and new first-class coaches of beautiful design. Three new coaches have just been added to the service, having been turned out of the Grand Trunk shops at Montreal, which are also models of exquisite workmanship throughout. They are 75 feet in length with wide vestibules and steel platforms. The interior finish is a polished mahogany with the [illegible] upholstered in green plush with a smoking room upholstered in leather, with a seating capacity in the entire car of 72 people. Weight of these cars is 106,900 lbs.

JOS. MAYER, B. S. C. Montreal, August 27th, 1906.

I DON'T WANT A CENT UNTIL I CURE YOU.

IT MADE A MAN OF ME

I believe in a fair deal. If you have a good thing and know it yourself, give others a chance to enjoy it in a way they can afford.

I've got a good thing. I'm proving that every day. I want every weak, puny man, every man with a pain or ache, to get the benefit of my Electric Belt.

Some men have doctored a good deal—some have used other ways of applying electricity — without getting cured, and they are chary about paying money now until they know what they are paying for.

If you are that kind of a man, this belt is yours without a cent of cost to you until you are ready to say to me, "Doctor, you have earned your price and here it is."

That's trusting you a good deal and it is showing a good deal of confidence in my belt. But I know that most men are honest, especially when they have been cured of a serious ailment, and very few will impose on me.

As to what my belt will do, I know that it will cure wherever there is a possible chance and there is a good chance in nine cases out of ten.

So you can afford to let me try anyway, and I'll take the chances. If you are not sick, don't trifle with me; but if you are, you owe it to yourself and to me, when I make an offer like this, to give me a fair trial.

I want you to know what I have done for others.

"Your Belt cured me of Asthma and I feel a different man."—F. J. H[illegible], Bowmanville, Ont.

"I only wore your Belt for three months and I can honestly say it cured me of kidney trouble and rheumatism."—James A. Pearce, Paris, Ont., Wincey M[illegible]

But some men don't believe anything until they see it. That's why I make this offer. I want to let you see it, and feel it, and know it by your own experience, before I get a cent.

If I don't cure you my belt comes back to me and we quit friends. You are out the time you spend on it—wearing it while you sleep—nothing more.

But I expect to cure you if I take your case. If I think I can't cure you I'll tell you so, and not waste your time. Anyway, try me, at my expense. Come and see me and let me show you what I have, or if you can't, then cut out this ad and send it in. It will bring you a description of my belt, and a book that will [illegible] you to be a man among men, all free.

CRUSHED UNDER HORSE.

Mr. J. Renaud Critically Injured by Spirited Equine.

Mr. J. Renaud, of 27 Aylwin street, met with a serious accident last evening, as a result of which he now lies in the Notre Dame Hospital in a precarious condition. While Mr. Renaud was putting the weight to his horse's head the animal, which is a spirited one, dashed along the street and down the high embankment on Aylwin street between Ontario and St. Catherine streets, falling on top of Mr. Renaud, who had hung on to the horse's bridle in the meantime. When Mr. Renaud was picked up it was found that his chest had been badly crushed in by the weight of the horse. Mr. Renaud was a superintendent in the Hochelaga convent, and has a wife and six children. The hospital authorities expect that he will recover, unless unexpected complications set in.

Amusements.

THE ACADEMY.—The Pollard Lilliputian Opera Company in the Japanese opera, "The Geisha, or Tea House of Ten Thousand Joys."

The third and closing week of the Pollard engagement opened most auspiciously last night with a most pleasing performance of "The Geisha." The children, it is true, did not get out of it all the music possible, but no company that has produced the piece here ever dreamed of as much comedy being hidden in it as the little Australians found. It was a hearty laugh from beginning to end.

The little Heintz twins fairly excelled themselves, while Teddy McNamara kept the audience in high glee with his wonderful comedy Chinaman. Little Daphne Pollard, as Polly Seymour, made the hit of the evening and her "Roly Poly" song and dance and rickshaw act with Reginald Fairfax (Miss Leichner) were encored till the audience tired clapping. Miss Eva Pollard, as Mimosa San, the "Geisha Girl," was winsome in manner and sang most pleasingly.

"The Geisha" is more richly costumed and better mounted than anything the Pollards have done, and the cast is indeed a most happy one. "The Geisha" will be repeated to-night and to-morrow, matinee. To-morrow night "The Belle of New York" will have its last performance. On Thursday and Friday night and at Saturday's matinee, last week's success, "The Mikado," will be given and on Saturday the little people will take their farewell of Montreal in "A Runaway Girl."

Thrilling Melodrama at Francais.

AT THE FRANCAIS—"A Midnight Escape," melodrama in four acts.

Admirers of melodrama were given a treat in the "Midnight Escape," which is billed at the Francais this week. The audience was much in sympathy with a young Jewess, who is followed by murderers, who were the cause of her father's death and are after a large fortune left to her by a Russian uncle, and at the end when she triumphed over her enemies, handkerchiefs went back into pockets amidst applause.

Without mentioning the "Battle to the Death," and "The Midnight Escape" there were numerous scenes which called for enthusiastic attention from the audience. The show had four acts and each one had its sensation. There was a street in the slums, and a scene in a boathouse on the Hudson river. An abduction was offset by a rescue. The "Black Hand" has a branch in the play, which forms all kinds of plot.

On the whole this week's show at the Francais is one of the best seen for a long while.

Burlesque at the Royal.

THEATRE ROYAL.—"The Yankee Doodle Girls," burlesque.

The "wheel" which controls the shows being presented at the Theatre Royal this season cannot be congratulated on the first two they have sent to Montreal. "The Yankee Doodle Girls" this week have a lot of old-time stuff in the burlesques and in the vaudeville olio there is only one act that rises above the ordinary song and dance turn. This is Lawrence Crane's, whose slight of hand is always welcome; even his work yesterday was marred by little accidents. McDevill and Kelly deserve a word of praise for their dancing, and Ben. Riggs also has a dance that received lots of applause. Both the burlesques are well dressed and some of the music is pretty.

High Wire Tricks at Dominion Park.

Despite the change in weather Dominion Park had thousands of people yesterday afternoon and evening, many of the visitors spending the supper hour down there. The programme is an all-round good one and was thoroughly enjoyed by all. Ella Zuila, the high wire artiste, commenced her second week. She introduced a number of new tricks and made people's hair almost stand on end by some of her antics. The Picchiani family of floor acrobats were warmly welcomed, despite the cool breeze. They number eight in all and the manner in which they threw each other about and turned double and triple somersaults was well-nigh remarkable. All the attractions in the various halls received attention. The scenic railway again proved the most popular, though they all had their share.

Clever Acrobats at Sohmer Park.

This is the last week of the summer season at Sohmer Park and a very good programme has been prepared for it. The three Macarte Sisters, who made a hit here some years ago, were welcomed in an act in which there are many changes. They are exceedingly clever acrobats. The two Gaudschmidts comedy acrobats, have an act that caused any amount of fun yesterday. They have two dogs with them who duplicate all their tricks. The horizontal bar work of the Claeres, is also an excellent feature. Lavigne's band has a programme in keeping with its general excellence. On Thursday of this week, the musicians and all the employes will have their benefit. A lot of special features will be introduced.

Second Life Guards' Band.

The final concert of the band of the Second Life Guards, last evening at the Arena, drew a fairly large and enthusiastic audience. The notable works on the programme were, the "Overture," from Tannhauser; and the selections from Faust and from Verdi's operas, "Il Trovatore" and "Rigoletto." The "Lost Chord" was as acceptably rendered as on past occasions. Corporal Harman, the soloist, distinguishing himself. Enthusiasm, however, probably ran highest in the lighter strains of the two-steps, which were frequently interspersed with the heavier selections.

Very inspiring was the last number of all, a galaxy of patriotic airs, symbolical of all portions of the British Empire.

Asks $3,000 for Four Fingers.

An action for $3,000 has been taken against the Montreal Piano Company by F. X. Lapointe, wood polisher. Plaintiff lost four of his fingers while employed in defendant's factory, and holds that the accident was due to the fact that another employe inadvertently shifted the cover of the machine at which he was working. This had caused him to start, and in so doing he poked his fingers too far, with the result that they were amputated. On account of this negligence is charged against the company.

RAILROAD RATE BILL IN EFFECT

United States Railroads Will Now Have to Show in Advance All Charges to Be Made.

New York, August 28.—The new railroad rate bill, which applies to all railroads doing an interstate business, went into effect at midnight. It will be enforced by the Interstate Commerce Commission. According to the new law, the roads were to have filed with the commission by midnight all their tariffs and charges, showing not only the full cost of transportation from point to point, but also what it was that goes to the making up of the cost. From to-day on there can be "no extras," but the shipper is expected to be able to obtain in advance a final statement of the charge he has to meet. It was stated that no company had been able to have all schedules on file by midnight. The schedule of switching charges was the most difficult of completion. Under the law every company which fails to complete its schedules, might be fined, but it is understood that the Interstate Commerce Commission will give additional time in every case when a road has given evidence of sincere intent to comply with the law.

As a direct consequence of the provisions of the rate bill, the Union Pacific Railway has determined to instal its own system of refrigerator cars. Heretofore the Armour private car lines have had a monopoly of this business over the Union Pacific and Southern Pacific, with all the profitable California fruit trade. The Union Pacific yesterday opened bids for the construction of 6,000 steel underbody refrigerator cars.

Tactical Field Day Suggested.

Special to The Montreal Star.

Ottawa, August 28.—A movement has been started to have a tactical field day on Thanksgiving Day, in which all the corps of the Ottawa garrison would take part. The officers commanding corps in the city have received circulars from Lieut.-Col. Hodgins, D.O.C., pointing out the absence of opportunities for instruction in practical field work or tactical exercises, as well as for acquiring the necessary experience in handling combined forces. The circular therefore proposes that all ranks of the garrison take part in a field day on Thanksgiving Day. It is proposed that the Militia Department be asked to furnish allowances for horses and transportation and subsistance of the corps, also to make allowances for any accidents, illness or injury of officers, men or horses engaged in the operation.

Obtained Money Falsely.

Special to The Montreal Star.

Winnipeg, Man., August 28.—Frank J. Webster, charged with obtaining $500 under false pretences, was yesterday in the Police Court committed to stand his trial at the next Assizes. Websters represented himself as president and general manager of the Farmers' Wholesale Buyers' Association, and induced David Thom to pay $500 for shares.

Girl Drowned in Mill Dam.

New Dundee, Ont., August 28.—Emma, the five-year-old daughter of Gus Hartman, while picking apples near the mill dam here, this afternoon, fell head first into the water and was drowned.

BRITISH SCHOLARS JOIN MOVEMENT

Editors of Three Chief English Dictionaries Join Spelling Reform League.

New York, August 28.—The simplified board announced yesterday that two distinguished British scholars had accepted membership to testify their sympathy with the new movement to improve English orthography.

One is Dr. J. A. H. Murray, the senior editor of the great Oxford Dictionary of the English Language, of which the associate editor is Henry Bradley, who joined the simplified spelling board some weeks ago. The other is Prof. Joseph Wright, editor of the English Dialect Dictionary.

In announcing these elections, Brander Matthews, chairman of the board, said:

"Prof. Skeat, the professor of the English Etymological Dictionary, became a member two months ago. The simplified spelling board now contains the editors of the three chief English dictionaries—Webster, The Century, and The Standard.

"The adhesion of the foremost linguistic authorities of both branches of the English speaking race ought to be reassuring to those who have dreaded that the recommendations of the simplified spelling board might work harm to our noble tongue or to its etymology. It serves to show that those who know most about English spelling believe that it ought to be improved."

A WARNING NOTE FROM THUNDERER.

London, Eng., August 28. — The Times, in an editorial, yesterday, says: There are two great dangers, very serious in their outcome, to which the common English tongue may be exposed by the rather headlong leap President Roosevelt has taken into the abyss of spelling reform. If the lead of the President is not universally followed by the press of the United States, and there is every indication that it will not be, a great gulf will sooner or later be fixed between the official language of the United States and the common language of the people. Still worse, if the new fashion should be universally adopted in the United States and universally repudiated in this country, a still greater, and perhaps in the long run an almost impassable, gulf would be fixed between the language, literature and thoughts of the English-speaking peoples on either side of the Atlantic and in other parts of the world. We are ready to learn many things from the United States, and we might even have been persuaded to adopt some of its views on spelling had we been consulted beforehand, but it seems rather inconsiderate of President Roosevelt to have suddenly thrown the great weight of his authority and personality on the side of a reform about which, as far as we know, no one on this side of the Atlantic has been consulted. The community and historical continuity of the noble English tongue is a bond uniting the two peoples far stronger than any which can be formed by treaties and international understandings. It is painful to think its rupture may be enrisked by the sudden and unconcerted action of a man whom all Englishmen respect so highly as the President of the United States.

Denies Transfer of Elevators.

Special to The Montreal Star.

Winnipeg, Man., August 28.—Mr. Hugh Sutherland, executive officer of the C.N.R., says the company's grain elevators at Port Arthur have not been handed over to Peavy & Co., as reported from Duluth. There is simply a working arrangement between the two companies, by which the Minneapolis people may use the elevators.

Not of Incendiary Origin.

Toronto, August 28.—Provincial Inspector Rogers, who has returned from Haileybury, where he had charge of the fire inquest on behalf of the Attorney-General's Department, seems to think the big blaze might not have been of incendiary origin.

AN IRISH COUNCIL AT DUBLIN

Devolution Scheme Proposed by British Government Discussed by London Papers.

London, August 28.—The Daily Chronicle this morning, forecasting the Government's proposed devolution scheme for Ireland, says legislative union will not be touched, and that Irish representation at Westminster and the powers of the Imperial Parliament will not be changed.

The chief feature will be the establishment of an Irish council at Dublin, directly elected, consisting of 103 members, the same as the Irish representation in the House of Commons, with the addition of 48 councillors directly elected for larger areas by electors having ratable value exceeding $100, peers and clergymen being eligible. This is almost the same as the legislative council and legislative assembly of Gladstone's bill, only they form one body and not two.

The Nationalist party as now organized would not easily gain a large majority in the council.

The Chief Secretary would under the new scheme be ex-officio chairman of the Irish council, and as representing the Lord Lieutenant, would consult with the leader of the majority in the council regarding the appointment of the chief heads of departments, the head of the finance department occupying a position analagous to that of premier, who, with his colleagues, would hold their posts dependent upon the vote of the council.

The scheme includes the reorganization of the Irish Government into two departments, such as finance, land, education. The judiciary will not be molested. The Chief Secretary will be spokesman of the council and its ministers to Parliament. All Irish legislation would still come before the House of Commons, bills being sent there by the council.

The Daily Chronicle seems to intimate that Irish members of the House of Commons will be members of the council which would sit when the Imperial Parliament is not sitting.

The scheme will be open for revision after five years.

BALKAN WAR CLOUD LOOMS BLACKER

War Between Turkey and Bulgaria Imminent—Diplomatic Agent at the Porte Resigns.

Constantinople, August 28.—The sudden resignation of the Bulgarian diplomatic agent here is a serious symptom of the strained relations between Turkey and Bulgaria. The possibility of war between the two powers is generally admitted. Should there be a clash, a Bulgarian victory is highly probable.

ON BULGARIA'S FRONTIER.

London, August 28.—A news agency despatch from Constantinople says it is rumored that the Sultan has ordered M. Arif Pasha, commander of the Second Adrianople army corps, to prepare for mobilization on the Bulgarian frontier. The Turkish inspector-general of frontiers has been summoned to the Yildiz Kiosk.

Funeral of Archbishop Langtry.

Toronto, August 28.—Impressive funeral services were held yesterday afternoon in St. Luke's Church for the late rector, Ven. Archdeacon Langtry. They were in charge of Bishop Sweatman, assisted by Archdeacon Sweeney, Provost MacLem and Rev. Prof. C. A. Brodie Brockwell, of Nova Scotia.

The committal services at St. James Cemetery were conducted by Bishop Sweatman in the presence of a large gathering of members of the congregation and personal friends of deceased. The pallbearers were Rev. Canon Baldwin, Rev. Canon Ingles, Rev. Canon Cody, Rev. Dr. Pearson, Rev. W. E. Cooper and Mr. Clarkson Jones.

New Fire Tug for Toronto.

Toronto, August 28.—A test was made yesterday with the tug Nellie Goodwin along the wharves at the foot of Bay street, and along the west end of Centre Island, to prove the effectiveness of a fire boat for wharf and island service, and Chief Thompson expressed himself as satisfied with its efficiency.

Mysterious Death Not Investigated.

Ottawa, August 28.—Strange stories come from Wilno, Renfrew county, of a death there last week of a man who was buried without investigation. The man's brother says he committed suicide, but further than that nothing is known. There was no coroner's investigation and no police action.

Refused Transmission Through Mails

Ottawa, August 28.—Enquiry at the Postoffice department yesterday elicited the explanation that Lowery's Claim, published at Nelson, had been refused transmission through the mails on account of its blasphemous and ribald character.

Mrs. Stoddard is dead in Markdale.

Ottawa.—The death has occurred at Aylmer, of Mr. Clement Noel, an old and respected resident, aged 75 years. He is survived by a widow, two sons and four daughters.

PRICES COLLAPSED.

There is no doubt about it, prices have collapsed at the dry goods store of Messrs. Jas. A. Ogilvy & Sons, St. Catherine street west, corner of Mountain street. You will see by their announcement on page 5 of this issue of the Star that ladies' costumes and boys' suits are to be had for figures which certainly are unusual.

POPE'S DECREE CLEARS THE AIR

American Canonist Authority Discusses the Religious Crisis in France,

BELIEVES CHURCH WILL WIN

Dr. D. S. Phelan Expresses View That the French Government Will "Go to Canossa."

"We feel better since this decree has been issued. It brushes away all side issues and all half-way measures. From now on compromise cannot be mentioned and only traitors will counsel conciliation," declared Rev. Dr. D. S. Phelan, one of the most noted canonists of America, to-day to the Star.

"Yes," he continued, "I have read carefully the text of the Vatican decree to the French bishops. After mature deliberation Pius X. can see in that law only ruin for the Church. The property of the Church must be controlled by the Church, and any departure from that principle of autonomy would compromise the liberty of the city of God. The language of the Pope is plain, and there can be no mistaking his meaning. The hierarchy of France cannot accept the conditions of the Law of Separation. France has now to deal with Rome's 'Non Possumus.'

DIPLOMACY OF CONSCIENCE.

"The decree of Pius X. clears the skies with one sweep, and purifies the spiritual atmosphere of the French Church. I scarcely expected so strong and so simple a document. The aim of diplomacy is to conceal thought; but Pius is no diplomat, and his thought is plain enough for him who runs to read. As in the decree regarding the Church funds in the Philippines, Pius X. shows himself a prudent but unbending champion of the rights of the Church; a man without fear and utterly blind to consequences that cannot be conjured, save by a sacrifice of principal. The diplomacy of the present pontificate is the diplomacy of the martyrs and confessors of the faith; the diplomacy of conscience and of inflexible truth."

"What are the leaders of the French Government going to do about it?"

"I venture the prediction, strange as it may sound at this time that the French Government will 'go to Canossa.' They have challenged the conflict, and now war and surrender are the only alternatives. It will not be war. The French people have shown in the past year that they will not permit their sanctuaries to be desecrated. The very suggestion of profanation aroused the whole nation to resistance. If the army was defied when the simple and harmless process of registration was undertaken, what will be the attitude of the people when an attempt is made to secularize their churches and shrines. If blood was spilled when the sacristies were invaded, it will flow like a river when the spurred heel of the Government emissary is pressed on the carpet of the sanctuaries. I predict that there will be a crusade and that France will furnish a small army of martyrs to the faith, if the venerable shrines of the nation are pillaged and sold. In all the crisis of the Church the way of victory was the way of courage, and Pius X. has sounded the battle cry of the French crusade.

"From now on there will be only two parties in France: the party of God and the party of Infidels; there will be only two standards visible, the Cross and the Triangle.

METHODS OPEN TO GOVERNMENT.

"There are many ways in which the French Government may withdraw from the field. It can pass a law of mortmain and declare all church property the possession of those who worship according to the uses and customs of the Catholic church. It might declare all the church property of France a trust for the Catholic people, and leave the form of tenure for the bishops to determine. It might permit the diocese to incorporate and hold property under a general corporation law. Practically in this country all these forms of tenure are in vogue and the bishops have no room to complain that they are in the least hampered in the acquisition or tenure of property.

"I feel sure that the French Government will take our law as a guide in the forming of the new law for the holding of church property. It is hard for Europeans to understand the relations of the church to the state in Canada and the United States; but necessity is a persistent and resourceful teacher, and the French are not slow to learn.

"But should all come to all, and the churches of France all pass under the hammer, it would not be an unmixed evil. The French have very few churches that a revival of ecclesiastical art in that country would be apt to reproduce. They belong to the age of ceremonies, and are not such as are contemplated by the law of Trent. Many of the great cathedrals of France are a hindrance, rather than an aid to religion. While they are there no new churches will be built, and they are about as ill adapted to the needs of the people as would be an exposition pavilion. We want the living temples of the Church erected and maintained, and that is possible only where the priests and their people can all come together for praise, instruction and prayer."

Father Phelan left this morning for St. Louis, by way of Chicago, after making a hurried tour of the Maritime Provinces.

GENERAL HOSPITAL.—The treasurer of the Montreal General Hospital has received forty thousand dollars from the estate late James Moore, through the Royal Trust Co., executors.

The Kidneys and Uric Acid

Uric acid is the name given by medical men to the poisonous matter which the kidneys filter from the blood.

When the kidneys are weak, inactive and diseased they fail to perform their functions as filters, and the uric acid poison remains in the blood to find lodgment in the weaker organs and produce the most painful and fatal diseases.

In view of the frightful risk which you run in neglecting kidney derangements and the undoubted efficiency of Dr. Chase's Kidney-Liver Pills as a cure for diseases of the kidneys it remains a duty for you to apply the remedy and be cured.

In every town, village and township of Canada there are people who can testify to the extraordinary merits of this great medicine. Ask your friends and neighbors about it, and then prove its merits in your own case. LAYING TRANSCONTINENTAL.

Grand Trunk Pacific Line is Being Pushed Forward Rapidly.

The progress made in track laying by the contractors of the Grand Trunk Pacific Railway is rapid. A large depot of supplies has been established at Portage la Prairie, and most of the engines and cars lately shipped from Montreal have arrived there, to be used in construction work.

This week the Portage la Prairie section east and west of the town is being rushed forward. The great need is men, but when the grain harvest is over, many men now engaged in it will be free to accept employment on the new Transcontinental, while in the mountain work, where white men cannot be had, Chinese labor will probably be substituted.

Having failed to come to an agreement with the Canadian Northern people over the use of the rails between Winnipeg and Portage la Prairie, the G. T. P. are going to build a line of their own between those two points.

The section work extending between Touchwood Hills and Saskatoon, a distance of 140 miles will be graded by the end of the year, and the grading work between Saskatoon and Edmonton is being pushed rapidly forward.

It is also expected that 210 miles between Port Arthud and Lake Superior junction will be completed up to the main line by the autumn of next year.

RE-UNION AT ST. LAURENT.—A re-union at St. Laurent College, of all the former students of that institution, will be held Thursday afternoon, under the presidency of the Provincial, Rev. Father Dion, C.S.C.

Moncton Merchant Brutally Beaten.

Special to the Montreal Star.

St. John, N.B., August 28.—Great indignation exists at Moncton over a brutal assault on W. P. Jonah, a prominent merchant of this place. Mr. Jonah had lately taken some action towards stamping out a disorderly house, and the assault was made by friends of the proprietors. Jonah lies in a critical condition, having been terribly bruised and cut up.

THE WEATHER

PROBABILITIES FOR THE NEXT 24 HOURS.

Light variable winds, fine. Wednesday, southerly winds, fine and a little warmer.

After trying hard all day yesterday to rain in some sort of really impressive fashion, the weather finally gave it up as a bad job, and decided to clear off. This it did to good purpose and to-day came up bright and beautiful, like Aphrodite from the waves. But that is not what the farmer said who has crops which need moisture. He said that—but on second thoughts it is probably better not to tell just what he did say.

Montreal Weather Statistics.

Readings by the Hearn & Harrison standard barometer:

SHIPS THAT DEWEY FOUGHT.

Three Spanish "Warships" Sold for a Hundred and Three Dollars.

Washington, August 28.—Three Spanish ships, captured by Admiral Dewey in Manila Bay, May 1, 1898, were sold by the Navy Department yesterday for $103. These ships were advertised at several Asiatic ports, the total cost of advertising being $28, and the Navy Department is quite well satisfied that the bids were sufficient to cover the expense of advertising. The three ships are the Albay, Manileno and Mindanao. They have been stripped of everything movable and are simply old hulks practically useless for any purpose of the navy.

The Jewish Land Grant.

Special to The Montreal Star.

Ottawa, August 28.—The statement from London about the Canadian Government having declined to make a grant of land in the Northwest for a Jewish colony evidently refers to negotiations which have been in progress for some years for the establishment of Jewish settlements in the Canadian West. The Government makes no grants of land to any colonies, but only to individual settlers who comply with the homesteading regulations. The planting of colonies in the Northwest has not proved, on the whole, advantageous, and Hon. Mr. Oliver, who is now in Europe, evidently has communicated a definite decision to Mr. Zangwill on the subject.

FEAR FURTHER ATROCITIES AT THE HANDS OF TERRORISTS

Rennenkempf and Kurloff Expected to be the Next Victims—Stolypin to Remain in Office—Identity of Assassins is Still Unknown—Czar and Czarina Honor the Dead.

Special to The Montreal Star.

St. Petersburg, August 28. — The reign of terror continues here. The existence of a widespread plot to kill all high officials, as boasted of in the revolutionaries' proclamation, has been confirmed.

Many proprietors of lodgings and St. Petersburg hotels received friendly tips to-day from revolutionaries not to take in General Rennenkemp and Governor Kurloff, of Minsk, who have been sentenced to death by the revolutionaries.

The latter warned the hotel proprietors that if they received the condemned men their hotels would be shattered by bombs.

The leader of the Stolypin bomb throwers, though terribly wounded and writhing in torture, stoically refuses to reveal the identity of his accomplices. Every hour he smilingly gives the police inquisitors false tips where to find his accomplices and keeps them busy on wild goose chases.

One of the terrorists captured Saturday night, at Peterhof, a man named Lukianosky, of Moscow, had his boots filled with ordinary black powder. Terrorists were not after the Emperor, but intended to explode a harmless bomb near the wall in order to entice Gen. Trepoff out of the palace, when confederates would have assassinated him.

The Liberal newspapers urge the immediate re-opening of Parliament, arguing that further repression will only render the revolution bloodier.

M. Stolypin has announced his intention to remain in office as premier and minister of the interior. Premier Stolypin's daughter is alive, but in great pain, and frequent injections of morphia are necessary.

M. Stolypin's young son, who also received injuries, is making good progress toward recovery.

IMPOSSIBLE TO IDENTIFY ASSASSINS.

St. Petersburg, August 28.—The inner history of the attacks by the revolutionaries on Premier Stolypin and General Min still remain a secret.

The young woman who assassinated General Min is short of stature and of slight physique. Her clothing is of good quality. So far it has been impossible to trace her identity. Although when Madame Min sprang forward to seize her husband's murderess, the latter went unresisting with the gendarmes and admitted what she had done, she has been silent on everything else.

The only known survivor of the Terrorists who threw the bomb into M. Stolypin's villa lies fearfully burned and mutilated in the hospital of the Petropavlovsk fortress. A soldier with fixed bayonet stands by his bedside. When plied with questions as to his name, he always answers by giving a fresh name, Ivanoff, Peteroff, any name apparently, except the true one.

The concierge at the house of Morskaia street, where the bomb throwers lodged, has identified their ostensible housemaid among the dead. She alone remained at the house after the assassins left in a landau for M. Stolypin's villa, and the assassin Morosoff's wife had gone. It is supposed that the housemaid, who had arrived with the assassins, and was also a revolutionary, immediately followed the others, being determined to die with them.

The concierge mentions the fact that when the men got their luggage from the railway station after their arrival they showed great care in handling a small valise. This still remains in the apartment which had been occupied by the men. It is thickly packed with wadding and shows an impression where the bomb had been lying.

Funeral masses were celebrated today in many churches for the victims of the bomb explosion.

A letter has been published from the brother of M. Stolypin, in which he says the Terrorists hope to drive the Government toward reaction, but the Government will persist in its determined action and policy of order and reform.

CZAR AND CZARINA HONOR THE DEAD.

In spite of the menace of active war by the Terrorists against those in high authority, an earnest of which was the slaying of acting Governor-General Von Larsky at Warsaw, Emperor Nicholas and the Empress quitted the shelter of the palace enclosure at Peterhof to attend a funeral mass over the body of General Min in the Peterhof camp, a considerable distance from the palace. The precautions for the protection of the imperial family were adequate, however, and the sovereigns returned to the palace without incident.

Several of the grand dukes and delegations from all the regiments in the St. Petersburg district were present.

The body of General Min will be brought here on board a royal train over the special imperial line, which is used only in journeys of the Emperor between Peterhof and St. Petersburg. The Seminovsky Regiment will escort the body to the regimental chapel. Officers and men of this regiment have received many communications threatening them with bombs and other reprisals.

The funerals of many of the victims of the explosion in the apartments of Premier Stolypin also take place today.

Te Deums were sung in many of the cities for the escape of Premier Stolypin. The Premier has received many telegrams of sympathy from officials and semi-official organizations. M. Stolypin's daughter is alive, but is highly nervous from shock.

The Official Messenger announces that the officers and soldiers detailed to guard Belenzoff, the leader of the band which robbed the Credit Mutual Bank of Moscow of $367,500, will be court-martialled for allowing him to escape.

SITUATION IN HAMILTON.

May Call Out Militia if There is a Strike.

Special to The Montreal Star.

Hamilton, Ont., August 28.—A meeting of the executive committee of the Trades and Labor Council was held last night to protest against the action of Mayor Biggar in talking of calling out the militia in the event of a strike. The mayor said he acted at the request of the Cataract Company which said it would hold the city responsible for any damage to its property. The committee decided to have a committee wait on the Mayor and ascertain his position, Mr. Biggar having claimed that he had been misrepresented. He said he did not believe any of the employes would cause troubl, but he feared the foreign element.

The situation is about the same as on Saturday, except that the men seem more eager to strike. It is rumored around that in the event of a strike the men will place an automobile or 'bus service at the service of the public. Magnus Sinclair, the Canadian officer of the union, admitted to-day that there was not much chance of an amicable settlement between the men and the company on account of the men being turned down on the joint committee proposition.

Dividend Announcement

INDUSTRIAL

The Company has just declared a cash mortuary dividend on Policies over 5 years in force which have matured and shall mature in 1906. To all death claims on Policies over 5 years in force it adds 5 per cent.; to all death claims on Policies over 6 years in force, 6 per cent., and an additional 1 per cent. for each year of duration. Thus the dividend on claims under Policies over 10 years in force is 10 per cent.; over 15 years, 15 per cent.; over 20 years, 20 per cent.; over 25 years, 25 per cent.; 1879 (the earliest issue), 27 per cent. The cost of this dividend payable during the current year is approximately

ONE MILLION TWO HUNDRED THOUSAND DOLLARS.

In addition to this the immediate benefits (payable during the six months after date of issue) on adult Industrial Policies, excepting Term and Endowment, issued during 1906, have been doubled. Certain increases have also been made in the benefits on infantile Endowment Policies during the first year. The cost of these, which will operate as a dividend on all claims maturing during this year, on the issue of this year, is approximately

ONE HUNDRED AND FIFTY THOUSAND DOLLARS.

These dividends are over and above the devidend declared on Industrial Policies January 1 last, which was a quinquennial cash dividend, amounting to about 20 per cent. of the premium for a year, declared on all Policies (except Increasing Life and Endowment Policies, which by their terms carry benefits increasing yearly after the third year) issued in 1881, 1886, 1891, 1896 and 1901. The amount appropriated for this dividend was about

SIX HUNDRED AND EIGHTY-TWO THOUSAND DOLLARS.

Thus the Company THIS YEAR has declared and IS PAYING dividends on Industrial Policies amounting to

Over Two Millions of Dollars

Every one of these Policies is non-participating, promising a definite sum only at maturity, without dividends. The payment of the dividend is PURELY VOLUNTARY. Dividends have been actually paid without promise for many years by the Metropolitan. The total amount now approximates

Ten Millions of Dollars

in 12 years. Included among these Policies are hundreds of thousands of Policies issued by other companies and assumed by the Metropolitan.

INTERMEDIATE

Intermediate Policies for $500 each have been issued by the Metropolitan for 10 years past. They are Policies designed for such of the Industrial classes as can afford to pay annual, semi-annual or quarterly premiums instead of weekly. As the plan was new there was no actual experience to guide the Company as to the mortality cost. The Company promised to pay, if earned, dividends after five years and annually thereafter. This year the Company set aside over

Six Hundred and Twenty Thousand Dollars

to be paid in dividends on Intermediate Policies during 1906. Payment of these dividends has brought the cost of the Policies very nearly down to the non-participating rates of this and other Ordinary companies.

ORDINARY

The Ordinary Policies issued by the Company for the last 15 years have been practically all written on non-participating rates—plain business contracts for plain business men, which tell their whole story upon their face, leave nothing to the imagination, borrow nothing from hope, require definite conditions, and make definite promises in dollars and cents. The rates, therefore, are low. The Company has in force, however, a considerable, though compared with its total business, a very small percentage of participating business. Some of the Policies were issued on annual dividend and some on deferred dividend plans—many of the latter having been issued by other companies and assumed by the Metropolitan. Upon these Policies the Company has this year declared and is paying a dividend equal to the excess premium charged by mutual rates over the non-participating rates charged on its current business. The amount of this dividend is nearly **TWO HUNDRED THOUSAND DOLLARS,** which is a voluntary extra dividend.

Thus the amount of dividends the **METROPOLITAN LIFE INSURANCE COMPANY** is paying this year is nearly

Three Millions of Dollars

THREE-QUARTERS OF WHICH IS A **VOLUNTARY GIFT** BY THE COMPANY TO ITS PATRONS.

EARL GREY INJURED.

Incandescent Light Bulb Exploded, the Glass Entering His Eye.

Winnipeg, August 28.—The Vice-Regal party left the Canadian Northern Railway depot at 11 o'clock yesterday, arriving in Portage shortly before one, where they received a hearty welcome.

After receiving and replying to addresses, the party drove through the wheat fields in the district, leaving for Dauphin at four in the afternoon.

Earl Grey is suffering from a slight accident, which happened in Winnipeg. Whilst standing near an electric light bulb on Sunday night it exploded and a portion of the glass entered his right eye. Medical aid was summoned and the glass extracted. It is hoped that no serious effects will result.

Wall Papers

Some Beautiful Fall Designs

Have you seen the new Oriental Papers for Dens, Libraries Dining Rooms and Halls? The old metal effects, with their burnished reliefs, form the groundwork of these remarkable papers. They are made of very heavy material, in one yard widths. The joints are cunningly concealed, giving the wall the rich appearance of being covered with a huge glittering shield. The prices on these handsome papers range from 75c per yard. On account of their great width a large wall space is covered at a very small outlay. Drop in and look them over.
