OUTLOOK FOR PEACE IS REGARDED AS BRIGHT Grand Trunk Cut Schedule Owing To Coal Shortage

Belief Is Expressed That Railway Strike Will Not Last Into A Sixth Week

President Harding's Proposals for a Settlement of the Strike will be Submitted at Meeting of Rail Chiefs and Union Leaders on Tuesday—Stated That the President's Proposals Embrace Settlement of all the Strikers' Grievances, Except the Wage Question, Which Would be Submitted to the U. S. Railway Labor Board for a Re-hearing.

(Associated Press Despatch)

CHICAGO, July 29.—As the strike of three hundred thousand railway shopmen entered its fifth week today, the outlook for peace was regarded as bright, and in rail circles here the belief was expressed that the walk-out would not last into the sixth week.

Meetings were set for Tuesday, both by the rail chiefs and workers on strike, at which time President Harding's plan for a settlement was expected to be acted upon.

PRESIDENT'S PLANS WERE NOT MADE PUBLIC

The President's plans were not made public. However, it became known from authoritative sources that it embraced settlement of all the strikers' grievances, except the wage question, which would be submitted to the Railroad Labor Board for a re-hearing.

Under the plan as outlined, the President's stand for recognition of the rights of men now at work would be carried out, union shopmen who did not strike will be placed at the head of the railroads' seniority list, which means that they will be assured of permanent work, since in slack times the workers at the foot of the lists are the first to be laid off. Union shopmen who went on strike would be placed next on the lists, and after them would come the men hired by the roads since the strike began. No mention was made of the pension rights, and it was not learned whether this question had been included in the President's plan. If pension rights should not be restored, workers who have been in the service of their respective employers for a number of years would forfeit the benefits allowed, which give workers the privilege of retiring after a certain number of years with a continuance of a percentage of their pay.

ELIMINATION OF OUTSIDE CONTRACT WORK

Also included in the President's plan, it is understood, was elimination of outside contract repair work by the railroads. This would mean that each railroad would do its own repair work in its own shops.

Another demand of the strikers was included in the settlement programme. This related to the setting up of National and Regional adjustment boards to expedite the adjustment of disputes between workers and employers.

In addition, the administration is understood to have assured the shopmen that it would make every effort to have labor sections of the Esch-Cummings Bill amended so that the Labor Board may be directed to fix the pay of the workers on a "living wage basis."

VIOLENCE SLIGHTLY INCREASED IN STRIKE AREAS

While union chiefs and rail heads were presumed to be on the verge of making peace, violence was slightly increased in strike areas, reports indicated.

Thirty colored laborers were said to have disappeared from the Chicago and Northwestern shops at Milwaukee after a number of shots were fired in the vicinity.

Two workmen in railroad shops at Montgomery, Alabama, were beaten by eight men alleged to be strikers.

SOUTH WALES COAL TRADE CERTAIN OF GOOD BUSINESS UNTIL SEPTEMBER—NO SIGN OF ABATEMENT IN BOOM

(Associated Press Despatch)

CARDIFF, Wales, July 29.—There is no sign of an abatement in the boom of coal. United States and Canadian inquiries continue. Prospective buyers are asking for immediate delivery, but most of the leading collieries have dispersed of their output, and it is said that even should the American strike be settled today, the South Wales trade is certain of good business until the end of September. One great difficulty now is the congestion of vessels, at the docks.

SEPARATE AGREEMENT WITH COAL MINERS

(Associated Press Despatch)

KNOXVILLE, Tenn., July 29.—A wage agreement granting \$2.50 a day increase to five thousand miners in twenty-five operations in the Kentucky-Tennessee field was negotiated at Cincinnati yesterday between the unions and the Kentucky-Tennessee Coal Operators Association, according to a statement given out here by District 19 Headquarters of the United Mine Workers and made public today.

HIGHER COAL PRICES ARE URGED IN GREAT BRITAIN

(Associated Press Despatch)

LONDON, July 29.—Higher coal prices were urged at a meeting of the National Coal Board, which had been called at the request of the miners' union to consider the economic position of the coal mining industry. The employers promised to consider the union leaders' proposal to fix prices nationally at a level which would yield better wages than are being paid at present, as well as better profits.

The coal mining industry through-

out the country is improving with great rapidity on account of the inundation of orders for coal from the United States and Canada and the continent.

The miners' union officials decline to discuss the question of "black-legging" by supplying coal to the United States pending a meeting of the Miners International Union at Frankfurt next week.

DISTURBANCES REPORTED AT SEVERAL POINTS

(Associated Press Despatch)

CHICAGO, July 29.—A Deputy Federal Marshal on guard at the Missouri Pacific round house at Jefferson City, Mo., was slugged into unconsciousness by three men after he had been called from the building. A mob at Janesville, Wis., surrounded a round house of the Chicago Milwaukee and St. Paul, where ten non-union men were at work, and compelled the men to run from the building. Women and girls in the mob threw stones at the workers.

Striking shopmen of the Mobile and Ohio were said to have taken charge of the shops at Westpoint, Miss., and driven out new employees. At St. Louis, two guards of the Missouri Pacific and a blacksmith of the Terminal Railroad were stoned and beaten up.

Troops at Erie, Pa., were stationed about the homes of several men who remained at work following attacks in which the men's homes were stoned.

TALK OF A NEW PARTY IN THE FEDERAL HOUSE

Fusion of Liberal and Conservative Members Who Hold Moderate Protection Views Is Predicted.

(Associated Press Despatch)

WINNIPEG, July 29.—A fusion of Liberal and Conservative members of the Federal parliament who hold moderate protection views, with the object of safeguarding the eastern interests is predicted by Senator H. W. Laird, who returned to Regina yesterday from the east, according to a despatch to the Free Press.

Senator Laird said that such a merger is being widely discussed at the present time in eastern parliamentary circles, according to the despatch. Sir Thomas White is regarded as the most likely leader of the new party, and it is believed that he would be able to form a government, which would have a substantial majority in the House, the despatch continues.

A few extreme protectionists among the Conservatives and a number of extreme free traders among the Liberals would probably hold away from such an agreement, but the large majority of the members of both parties, Senator Laird is reported to have said, would be willing to enter this union of old parties.

UNDER DISCUSSION A LONG TIME

(Associated Press Despatch)

OTTAWA, July 29.—The proposal for a union of moderate protectionists among both Liberals and Conservatives, with the object, as suggested at Winnipeg by Senator Laird, of safeguarding eastern interests, is not new here. It has been under discussion for a long time, and was proposed in certain protectionist circles in Montreal even before the last election. Whether the talk has taken definite form or is approaching a definite agreement is not known, but doubt is expressed in well informed circles that such is the case. Of late the proposal for a union of protectionists, Liberal and Conservative, has been pushed to one side by the talk of a fusion of a wing of the Progressives with the Liberals. Both these ideas are in the air, but it is not thought here that either of them is likely to come to fruition in the near future.

Why Stay Fat? You Can Reduce

The answer of most fat people is that it is too hard, too troublesome and too dangerous to force the weight down. Marmala Prescription Tablets overcome all these difficulties. They are absolutely harmless, contain no dieting or exercise, and have the added advantage of cheapness. A case is sold at one dollar by all druggists the world over, or send the price direct to the Marmala Co., 612 Woodward Ave., Detroit, Mich. Now that you know this, you have no excuse for being fat, but can reduce steadily and easily without going through long stages of tireless exercise and starvation diet or fear of bad effects.

Mr. John W. Elder.

The members of the Young People's Society of the Beebe Methodist Church showed that they are still full of vim and energy by turning out in large numbers for an evening at "The Pines." About thirty were present to enjoy the sport, showing that the hot weather has not made them forget the good times of last winter, and giving promise of greater things when the summer holidays are over. All gathered around the camp fire, and after a few old favorites had been sung, rounds were called for. There were four sections, and while the different sections were going around once, the number one went around four times, while the chaperon rushed for a nail of water, thinking section number four was on fire. A huge watermelon provided the necessary refreshment at this time, after which games, such as "flying angel," "drop the handkerchief," etc., were indulged in. One and all enjoyed the outing, and many demands for another, which will be held at the same place, "The Pines."

BURY

SUCCESSFUL W. I. MEETING.

A very interesting meeting of the Women's Institute was held at the home of Mrs. D. McLean on July 14th, with a large attendance of members and visitors present. A circular letter was read, explaining the establishment of the Girls' Industrial Home at Sweetburg, and asking for the sympathy and support of the institution. After some discussion it was decided to take this subject up at a later date. A very full report of the provincial convention recently held at Macdonald College was given by the president, Mrs. McLean, who was the official delegate. Mrs. McLean was tendered a hearty vote of thanks for her work. A junior branch of the W. I. was formed during the afternoon. The following officers were elected: President, Hon. vice-president, Mrs. D. McLean; hon. vice-president, Mrs. Wm. Cathcart; first vice-president, Miss Lillian Palmer; second vice-president, Miss Marjory Stokes; treasurer, Miss Lena Hunt; secretary, Miss Phyllis McClintock. A delicious lunch was served at the close of the meeting by the joint hostesses, Mrs. McLean and Mrs. Bailly. The next meeting will be at the residence of Mrs. A. B. Hunt on Friday, August 4th. After the business meeting afternoon tea will be served, and there will be a sale of food and fancy and useful articles. This sale is in aid of the cemetery fund and donations of food, etc., will be much appreciated from those interested in this work.

Macdonald College Course. A free five days' course, given by

Macdonald College demonstrators, under the auspices of the Women's Institute, will be held in the Town Hall, Bury, beginning Monday, August 7th, at 9.30. This course consists of cooking, canning fruits, desserts and cake making; also dress-making. This course is open to girls from 2 to 18 years of age. All girls wishing to take advantage will kindly send their names to Mrs. D. McLean, box 612, Bury. Only three of these courses are being given in the province this year.

Miss Muriel George, who has been the guest of Mrs. D. D. McLean for several days, has returned to her home in Lennoxville.

CHAPTER XX.

(Continued.)

"I hope you won't mind my bringing Mr. O'Neil with me, but he looked in just as I was starting, and—oh, has Miss Millard got the bank? How frightfully exciting!"

Jean looked up with sudden apprehension, and across the hot, crowded room met the eyes of Robin O'Neil. For a moment Jean stared at him with parted lips and eyes that held just a little tinge of fear; one or two cards fell from her fingers to the green surface of the table.

She gathered them up hurriedly and thrust them anyhow into the pack.

"Those cards should have gone on top," said someone sharply.

Jean glanced at the speaker, a middle-aged woman with worried eyes. "It doesn't matter, does it?" she submitted helplessly.

"Doesn't matter!" The worried eyes for a moment looked unpleasant. "It matters a great deal!" The unpleasant glance momentarily shifted to Douglas Symons. "If this young lady does not understand the game—"

He interrupted hastily: "It was quite a slip—it will not occur again, Mrs. Dale. Old cat," he added under his breath to Jean.

Jean went on dealing the cards; she was painfully conscious that Robin was watching her; painfully conscious, too, of the attentive way in which Symons hung over her chair. Once she moved a little to get further from him; she hardly realized what she was doing now; she kept wondering why O'Neil had come. Presently someone spoke to him. "Not playing, O'Neil?"

Robin laughed. "No, thanks; I've outgrown such foolishness."

"Very wise," said Pansy promptly. Jean, casting a swift glance at her, saw the way she looked up at O'Neil as she spoke; her hands shook a little as she paid out on the right side of the table with the worried eyes counted the money she had received aggressively.

"Another half-crown, I think," she said in the sugary voice of one who is thinking unutterable things.

Jean apologized nervously. "It was quite a mistake," she insisted.

"Mistakes ought not to happen in a game of chance," she was told icily.

Jean glanced appealingly at Robin. She wished he would say something in her defence. She felt almost as if she had been accused of deliberately cheating. But O'Neil was talking to Mrs. Rutherford and apparently had not heard.

Jean was feeling very alone and friendless. For the first time since she had described them to her. They were all out to win. None of them had eyes for anything but the game. Frowns of annoyance went round if anyone ventured to make some irrelevant remark.

Jean was glad that she was winning when O'Neil entered the room. She had great hopes of being able

to repay all she owed before the night was over. She looked forward with unutterable delight to the moment when she would no longer be under an obligation to either Robin O'Neil or Pansy. No doubt they had talked her over together, she thought angrily.

She paid out recklessly. "The luck is turning," said Mrs. Symons. She raked in a couple of sovereigns with a quick, greedy movement.

"Turned!" Jean raised startled eyes to Symons. "Am I losing then?" she asked. He glanced down at the coins beside her on the table.

"Nothing much," he said carelessly; but when she was not looking he twice supplemented the depleted bank.

"Are you not playing to-night, Pansy?" Mrs. Symons asked. Pansy laughed.

"No—I'm going to be good and talk to Mr. O'Neil," she said. Jean saw them move away together. O'Neil had not once spoken to her. There was unconscious pathos in her eyes as they followed his tall figure down the room. She would have felt much happier had he stayed; his very presence was somehow reassuring in the midst of these other people, who all seemed so strangely hostile to her.

He had not come back when the game was ended. Jean rose to her feet. "Oh—is that all?" She looked at Symons. He took her hand and gave it a little squeeze. "I want to speak to you."

He led her from the room. Jean found herself alone with him in the outer room that divided them from the one where the long rose curtains hung.

As soon as he had closed the door he turned to her. "I thought I should never get you alone. I've simply been dying to speak to you all the evening. Jean—"

"She warded him off."

"I think you forget yourself. Please let me go. I don't want to stay here." His flushed face frightened her. She moved towards the door, but he was too quick for her. He reached it first and stood with his back to it.

"You must hear what I've got to say. If you won't hear me now it'll be putting it off. I—I'm frightfully gone on you. . . . You must have known it. . . . Oh, I know you'll say a lot of rubbish about having known each other such a little time; but that makes no difference. I—I liked you the first moment I ever saw you! What do you think the matter asked you here for if it wasn't to please me? Why do you think I took you out in my car every day? Why do you think I've danced attendance on you all this time? Jean—I love you! I—I simply adore the ground you walk on. I've never met a girl like you—I'd give anything in the

WHAT CAUSES SO MUCH SICKNESS

Constipation Responsible for 90% Diseases

"FRUIT-A-TIVES" Corrects It

It is generally recognized among the medical profession that Constipation or Insufficient Action of the Bowels, produces more disease than any other one cause. Constipation is responsible for at least 90% of the disease in the world today—because Constipation is responsible for the Indigestion and Dyspepsia—the nervousness, Insomnia and Rheumatism—the Eczema and other skin troubles—the Headaches and Backaches.

Why is this?

As you know, it is the duty of the bowels to carry off the waste matter in the system. If the bowel muscles are weak or the liver inactive, then this waste matter remains in the body and poisons the blood. As a result, every organ in the body is poisoned by this waste.

"Fruit-a-tives" has been wonderfully successful in relieving Stomach Troubles, Nervous Troubles, Liver Troubles, Kidney Troubles, Skin Troubles and Blood Troubles, because "Fruit-a-tives" positively and emphatically relieves Constipation.

"Fruit-a-tives" will always relieve Constipation, even though the trouble has been chronic for ten, fifteen and twenty years. Thousands of grateful users proclaim "Fruit-a-tives" the greatest remedy for Constipation that the world has ever known.

world to get you. . . ." He caught her hand and tried to draw her towards him.

Jean put a hand on his chest to hold him off; she threw her head back as far as she could out of reach of his flushed face.

"How dare you speak to me like this? Let me go! Let me go—"

She was really afraid of him; she was as white as her frock; her breath came in gasps.

Symons laughed. "Rot!" he said. "Don't pretend to be so surprised. You knew all along what I wanted; you knew I was mad about you. Don't tell me! I know what women are. . . . Give me a kiss and say you'll marry me." He tried to draw her to him again, but Jean shrugged fiercely.

"Let me go—I shall scream if you do this. . . . Oh, how dare you insult me like this?" There was a passionate sob in her voice.

Symons released her, but he still stood with his back to the door; for a moment he stared at her incredulously; then he laughed—a disagreeable laugh that made her shudder.

"If you've been leading me on to make a fool of me it will be the worse for you," he said coarsely. "I can tell you that I'm not the sort of man to be trifled with. Yes or no, that's what I want! You've been playing your own game, well, now I'm going to play mine."

She stared at him with fascinated eyes.

BODY OF THE LOST MAN WAS DISCOVERED

General News from Bedford District—Death of Mr. Frank D. Walsh.

BEDFORD, July 29.—Coroner Mitchell was called to Henryville Monday morning last on notification of Mayor McCarthy, of Henryville, to inquire into the death of the late Mr. Elzear Cognac, aged seventy-seven years, who wandered away from home on Wednesday, July 12th, and whose dead body was found on the 23rd, lying face down at the edge of the South River, in the parish of St. George de Clarenceville, by Messrs. John McClay and George Shedrick, a distance of six miles from his home. When found the body was badly decomposed and was without clothing with the exception of an undershirt. Mr. Joseph Cognac, son of the deceased, identified the body as that of his father. Under the circumstances surrounding the case, Coroner Mitchell decided to hold a full inquest, which was held on Monday afternoon. The jury bringing in a verdict of death due to exposure and drowning, and that said drowning was accidental without criminal intent on the part of any person. From the evidence produced during the inquest, it appeared that the deceased, who had been in a peculiar mental condition during the past two years, left his home on the evening of July 12th about six o'clock. When his absence was noticed by his son Joseph, the latter immediately left in search of his father. He found the coat of the deceased hanging on the fence about three miles from home, but could find no further trace of his father that night. Search was resumed again about three o'clock next morning, but still without success, although on the morning of the 13th he appeared at the home of Mr. George Shedrick, where he attempted to lead away a horse by a piece of cloth torn from his trousers. Baldwin was in the chair and Directors Geo. C. Poole, E. Wendell Holden, Henry E. Lowry, Andrew Rutter, F. E. M. Robinson, Clair R. McLaughlin, F. G. Gale and R. L. Gale were present.

The most important matters dealt with by the meeting were increased

THE LATE JOHN SHARPE BURIED HERE YESTERDAY

Service Was Held in Thetford Mines and Body Was Brought to Sherbrooke for Burial—Many Attend.

Many people, residents of Thetford Mines, Black Lake, Sherbrooke, and other places were present at the funeral of the late John Dods Sharpe, general manager of the Asbestos Corporation at Thetford Mines.

A service was held on Thursday evening at Mr. Sharpe's late residence in Thetford. The Rev. P. Roy, of St. John's Church officiated, and the service was attended by the whole community. A quartette consisting of Messrs. Cooling, Kiek, Vissier and Plaigneau, with Mr. Todd as accompanist, sang "Peace, Perfect Peace," and "There is a Green Hill Far Away," two hymns which were favorites of the deceased.

The Rev. Mr. Roy spoke very feelingly of the late Mr. Sharpe, referring to him as a man who had only kind words for all, and who was universally popular.

A special train conveyed the body from Thetford to Sherbrooke yesterday morning, arriving in Sherbrooke at one o'clock. Very impressive looking the cortege as it slowly made its way along Wellington Street, Dufferin Avenue and Melbourne Street to the Elmwood Cemetery, where the final services at the grave were conducted by the Rev. Mr. Roy. The lengthy procession, which was headed by four carriages filled with beautiful flowers, stretched from one end of Wellington Street to the other.

Among the members of the immediate family who accompanied the remains of the late Mr. Sharpe to the grave were Mrs. Sharpe and her daughter, Miss Mary Sharpe; four sons, John, William, Richard and Frank; Mrs. List, Mr. Sharpe's mother-in-law, and Mrs. Allen, of Pittsburgh, his sister, and Miss Allen, were also present.

A large number of friends attended, among them Mr. W. G. Ross, of Montreal, president of the Asbestos Corporation, Mr. R. P. Doucet, of Montreal, general sales manager of the company, Captain J. G. Ross, of Montreal, Mr. O. C. Smith, of Thetford, manager of the Bell Asbestos Mines, Mr. N. E. Fisher, Thetford manager of the Consolidated Asbestos, Limited, Mr. D. H. Pennington, Thetford, of the Pennington Asbestos Company, Mr. E. J. Wilson, of New York, and Messrs. J. W. Davies, R. Playford, H. A. Burbank and L. Britton, of Montreal.

Others present from Thetford and Black Lake were Mrs. W. A. Clearhue, Mrs. T. Johnston, Mrs. Woolsey, Miss McCallum, Mrs. C. V. Smith, Messrs. J. Johnston, J. T. McCallum, J. E. Triganne, C. V. Smith, George Dick, J. F. Pharo, L. A. Dean, L. C. Pharo, J. A. Croteau, J. A. Blais, P. Payeur, J. Comtois, (Employees of the Asbestos Corporation) and L. Lapierre, M.P., Mayor Rousseau, Aldermen Fortin, Beaudoin, Lafontaine and Binet, Messrs. H. E. Green, W. A. Clearhue, A. S. Johnston, Jr., R. Woolsey, J. M. Johnston, W. C. Bean, W. C. Goff, J. Roberge, J. L. Demers, A. Giguere, and others.

Among the Sherbrooke people who were present were Messrs. J. H. Walsh, manager of the Quebec Central Railway, G. D. Wadsworth, M. W. Mitchell, D. Wilson, William Wright, F. H. Bradley, Col. J. J. Penhale, Dr. W. W. Lynch, W. R. Crockett, J. Fales, K. H. Wilson, George Murphy and many others.

publicity and advertising for the Jersey. The tentative plans drawn up by the Secretary for advertising were discussed and approved. It was further decided to get out a circular letter immediately and to try in all ways possible to raise the Association's membership to one hundred. It may be mentioned that the Association's membership stands at seventy now as compared with fifty-five at the close of 1921. It was further decided to take an Autumn Jersey census, when it is anticipated the number of Jerseys within the Province will show a substantial growth.

SUNDAY AT ST. ANDREW'S. Rev. G. E. Read, D.D., of the Congregational Church, will conduct the service of worship on Sunday morning at eleven o'clock. Dr. Read has many friends in St. Andrew's who will gladly profit by his ministry. Rev. Geo. Mingie, M.A., of Montreal, a strong and helpful preacher, will conduct the service in the evening at seven o'clock.

HIGH SCHOOL RESULTS RECEIVED. The examination results for Grades IX and X of the Sherbrooke High School were received this week by Mr. H. C. King, secretary of the School Board and have been forwarded to the teachers of the above grades to be checked before being given out for publication. It is understood that the results are far from being satisfactory.

PETITIONS DETERMINED BY JUDGE MERCIER. Sitting at St. John's yesterday, Judge Mercier of the Superior Court, Montreal heard fourteen petitions for writs of certiorari presented on behalf of individuals who were opposed to having Judge J. H. Lemay sit on a number of liquor cases in which they were involved. The petitions were all quashed.

GOOD WEATHER FOR WEEK-END TRIPS. Many people are no doubt planning week-end trips into the country. The weather today, although cool, promises to be fair and this should encourage the holiday makers to prolong their trip as much as possible.

Indications are that Sunday will be warm and bright. Time honored weather prophets make this statement and their prophecy is well borne out by the fact that the barometer at McConnell's store is rising and gives promise of good weather for the week-end.

Further hope is given by the fact that the weather predictions from

PUNISH AUTO THIEVES.

Automobile stealing on this continent has increased so rapidly during the last year that owners of cars have suffered a loss of \$100,000,000 in the United States.

The need of federal regulation to curb automobile stealing is now being advocated across the line. In Pittsburgh three youths confessed to the stealing of forty automobiles within the last few months.

Increase in penalties has been suggested as well as more care on the part of owners in looking after their property. Careful owners now have to bear the cost of their carelessness in the shape of huge insurance premiums.

SAFETY IN THE AIR.

Not only officers of the post office department in the United States, but all people are entitled to feel elation over the air mail record made in the year ended July 17th, there having been not a single fatal accident in the period.

Still, to proclaim the record made is itself a boast the utterance of which, a great many people commonly regarded rational feel, is to invite the mischievous activities of malevolent spirits.

An expert and cautious aviator may be expected to reach his destination without mishap if his plane is right. For the stability of the vehicle and the constancy of its mechanism he has to depend on the men charged with responsibility for the fitness of the machines.

That so much for safety has been accomplished will not merely increase confidence in aviation as an instrument of commerce; it likewise warrants the turning of attention to other problems in connection notably enlargement of planes and the extension of their utility in the transportation of passengers and goods on a great scale.

ACTS, NOT WORDS. COUNT.

One's life should not be measured by time, but by service. Its history should not be so much a record of his words as of his acts. Its influence is not in proportion to his years, but to his righteousness.

It is not so much the evil things one has refrained from doing as the good things he has done. Positiveness on the side of right gets him somewhere. It builds, it lifts, it pulls, it purifies and enables.

Quiescent good is not a force for right. It does no more good than it does harm—not as much. Action is as imperatively demanded in mental and spiritual things as in material. It is not he who offers no discouraging words who cheers and comforts, but he who speaks the word of encouragement.

The negative man is a failure. He may pull back, but those who pull forward have to carry his weight. He is a burden that is not worth the energy that would take him a mile.

He is a consumer, but not a producer. He uses the light, but creates none. He slakes his thirst, but refuses to go to the well for water. The inactive man may take no part in the persecution, but he holds the coats of those who stone Stephen.

He would offer no help in cultivating the soil, but would consume his share of the fruits of the toil of others. He would not aid in repelling the enemy from his native land, but would enjoy the tranquillity of peace and the blessings of liberty earned by his compatriots.

The life of service is the happy life. Inactivity superinduces indifference, and indifference means sooner or later criminal negligence, sloth and "filthy rags." The principle of righteous activity is included in the economy of life; it is in the created universe, in all nature. "My Father worketh hitherto, and I work," said the Master. The fact that man is given the ability and intelligence to work, that he knows what is constructive and what is destructive carries with it the implied command for him to exercise his talents and intellect in obedience to the command, "Work while it is day, for the night cometh when no man can work."

It is better to wear than to rust. He who lives the life of the jellyfish will enjoy it about as much as the jellyfish; indeed, hardly so much, since the jellyfish knows no better, and the man does. The first may be happy, but he doesn't know it; the other is miserable and does know it.

"Greater love hath no man than this, that a man lay down his life for his friends." Every self-sacrifice is a carrying out of this life sacrifice in proportion to its greatness. The principle involved reaches its climax when one lays down his life, and so extends on down to the little courtesies demanded by good breeding, which in themselves are little sacrifices.

Generosity is not a vehicle for the exploitation of one's good deeds to the world at large. Doing a kindness in a way that carries with it the desire to impress upon the beneficiary that he is under obligation to the doer has lost all its merit even before it is done, and is an insult to him who is the recipient of such kindness.

The most beautiful thing of which anyone is capable is self-sacrifice.

Capture of The Tarasque.

It is the inimitable Alphonse Daudet who has given to the world the enchanting story of Tarascon, city of Provence, abiding place of the adventurous Tartarin, once the lair of the horrible dragon, La Tarasque, and scene of the famous exploit of St. Martha.

RADIO BOARD ORGANIZED IN UNITED STATES

Planned to Standardize Radio Manufacture and Prevent Profiteering.

A good deal of annoyance is caused to radio operators by the "freak" uses of the radio broadcasting sets for political speeches, unscheduled concerts and out-of-the-ordinary other conversations.

Though the newly organized Radio Chamber of Commerce, in New York, officials here see a material gain in the progress toward a stabilized radio art and industry.

Marked simplification in construction of radio receiving sets. 2—A greater degree of co-operation among radio apparatus makers in the establishment of lower price levels.

3—A corresponding degree of co-operation among radio broadcasters tending toward an automatic solution of the congestion of ether traffic which has made necessary a conference under Government auspices.

And this last feature of progress, officials here believe, is perhaps the most valuable from the Government point of view.

Although the new Radio Chamber of Commerce would seem to tend toward the status of a trade association with possible agreement among its members as to the territory to be covered by particular manufacturing concerns, and to the particular location of broadcasting stations, the danger of its becoming "trustified" is held remote.

While it is held true that the universal demand for radio apparatus would offer the opportunity of monopoly, nevertheless that demand is being counteracted by an increasingly intelligent public understanding of the principles underlying radio and a consequent prejudice against anyone who is trying to "put one over" in the infant industry.

It is from this standpoint that Government officials look favorably upon the new radio organization, for it is the logical body to place the new art on a serious, standardized basis.

For "Frank" was Frank Conrad, assistant chief engineer of the Westinghouse Company, and the man who made the statement was Harry Phillips Davis, vice-president of the Westinghouse Company.

Mr. Davis had come into his office that morning in September, 1920, with an idea. The idea had come to him while reading the advertisement in the evening paper. In the corner of a full page ad, he came across the words "Mr. Conrad will send out phonograph records this evening." This advertisement was in the interest of the store's amateur radio department and was explaining to local radio amateurs that Mr. Frank Conrad, who had operated his station intermittently since the war, would send out by radio phonographs records on a certain evening. The Conrad station

unanimously endorsed the report of a board of arbitration which sat recently to consider differences as to wages which arose last April between the local and a number of navigation companies represented by the Shipping Federation of Canada. The scale of wages was fixed by the board at fifty-five cents per hour day, and sixty-five cents night.

RADIO BROADCASTING NEWS

Who Saw the Radiophone Broadcasting Vision?

HARRY PHILLIPS DAVIS.

"Frank, I'm going to close your station." Paradoxical as the statement may seem, this was the actual start of radio broadcasting as we now know it.

The concerts on regular schedules, advance programs, entertainments in the air, all came from closing "Frank's station" and opening KDKA, the first radiophone station in the world.

For "Frank" was Frank Conrad, assistant chief engineer of the Westinghouse Company, and the man who made the statement was Harry Phillips Davis, vice-president of the Westinghouse Company.

Mr. Davis had come into his office that morning in September, 1920, with an idea. The idea had come to him while reading the advertisement in the evening paper.

sending from your station and we will start a regular service from our experimental station here at East Pittsburgh. We can arrange for a suitable wave length, and I believe that if we do this it will be the beginning of a radio broadcasting public service which seems to me to have wonderful possibilities.

The conference with Mr. Conrad lasted a short time and Mr. Davis called other conferences before actual work on the broadcasting started. It was not until November 11, 1920, that KDKA was formally opened with the broadcasting of election returns.

The remainder of the history of KDKA is now common property. Everyone, almost, now knows that there are over 200 broadcasting stations in the United States and that the radio audience numbers into the millions each night.

Not everyone knows, however, that it was a single line in a newspaper which suggested to the vice-president of one of the largest electrical manufacturing companies in the world, the big thing of turning a scientific novelty into a new kind of public service by unfolding a new field of communication.

Mr. Davis was one of the best equipped men in the electrical industry to take up the difficult problems of broadcasting. He has been a leader in the electrical industry since his college days, and has been issued nearly 100 patents covering electrical apparatus. He is an engineering genius and is known, not only as a designing engineer of high rank, but also as a man who gets things done. His ability to accomplish results has already been proved in the history of his company's broadcasting achievements.

His ability was also admirably illustrated during the war. He was at that time in charge of production at the East Pittsburgh works and the duty of fulfilling the Government contracts for munitions was his. Probably no more colossal manufacturing task was ever given anyone. The quantities involved were enormous; the time limits short; the specifications most rigid, new and undreamed of problems arose at every step; the Government's plans changed with bewildering frequency; material, competent help, and transportation facilities became almost unobtainable; and innumerable other difficulties were encountered. Yet, in spite of everything, the work was done and it was done properly and on time. Not a single promise made to the Government was broken.

This is all by way of illustrating the character of the man who first saw that radio broadcasting was something that held greater possibilities than just being the plighting of the amateur.

Mr. Davis was born at Somersworth, New Hampshire. He graduated from the Worcester Polytechnic Institute with the degree of B. S. in Electrical Engineering in 1890, and after a trip to Europe and a few months spent with the Thompson-Houston Company, entered the Detail Engineering Department of the Westinghouse Company in 1891. In 1896 was placed in charge of this department; in 1906 he was made manager of the Engineering Department. This position he held until 1911, when he was elected vice-president.

Mr. Davis was so struck with his idea of public broadcasting service was the first thing he said to his secretary on entering his office the next morning was "Ask Frank to come in."

"Frank" as has been previously explained, was Mr. Conrad, who, having been taken so abruptly with his chief's statement, could only listen to what followed.

"Frank, my idea is that you stop

I figured an' I figured what could that "contented" mean; then all at once an idea percolated through my bean. They say that Tommy Edison don't ever sleep a wink when workin' on a big idea, stays up all night to think. Well, maybe so, but just the same, I'll bet a new staw hat he sleeps straight through fer 'bout a week to get caught up at that. I come to the conclusion since their place to eat an' live seemed satisfactory all right 'twuz up to me to give my cows some entertainment. Now you see the reason why I got my set hooked up to give my Radio a try. I fixed a pair of garbages so they'd fit on bossy's head; i' evenin's now at milkin' time out yonder in the shed ol' boss an' me we 'listen in' to singin' er a band. My cows are as "contented" now as any in the land. Building Construction of Every Description

A house that boasts a Gambril roof is always distinctive in appearance and causes the majority of passersby to exclaim, "My, what a pretty house. Who lives there?" Today's design, featuring such a roof, will no doubt have a wide appeal—particularly to the home-builders who are looking for something "different" from the average type of modern house.
 The first floor is somewhat unusual inasmuch as the rooms are larger than the majority of homes today can boast of and their arrangement is different owing to the wide center hall. The large sun porch and living room on the right of the hall, make a charming entrance to which the French doors between the hall, living room and sun porch and the brick fireplace and attractive grouping of windows in the living room add much charm. The first story is finished in fumed oak with natural oak floors. Upstairs there are four bed rooms with ample closet space, also store room for trunks, etc., and a bath room. This story is finished in birch for paint or enamel. There is also a full basement with concrete foundation and cement floor. This part is seven feet six inches high while the first and second stories, in the clear, are nine feet and eight feet high, respectively. The exterior finish of this house is of brick to first story window sills with light gray stucco above. The complete size of the main house is thirty-seven feet wide by twenty-three feet deep, exclusive of the sun porch. As shown here, it would cost between \$7,000 and \$9,000 to build it, exclusive of the plumbing and heating.

Your New Home

Busy as you may be with plans and estimates of the various details of construction, it is well to give early consideration to the various articles which are necessary for the comfort and protection of your new home. Important among these are the Locks and Hardware. Because they are hidden is no reason why poor locks should be used in a building.

YALE EASY SPRING LOCKS

are the finest development of correct lock principles. Every part is accurately fitted to work easily and quickly. Yale Cylinder Locks for exterior doors provide full protection.

Our experience in equipping buildings with suitable hardware is valuable, and we would like to give you the benefit of it.

WOULD NOT PART FOR TWICE THE PRICE

"I could not believe that an apparatus of this sort, in the centre of the house, could distribute such equal heat in ten rooms, but now I believe it. This furnace uses very little fuel and there is no dirt or smoke in the rooms as is sometimes the way with the pipe furnace. I can recommend this system to all who are interested in it. I would not do away with it for twice the price paid."
 Yours very truly,

DRAINAGE IS FOUNDATION OF FARM PRACTICE

Big Principle Lying Behind Success of Ontario Progress.

One big principle lies behind the fact that Kent ranks with the banner counties of Ontario today. That principle is drainage—and drainage is the foundation and keynote of the

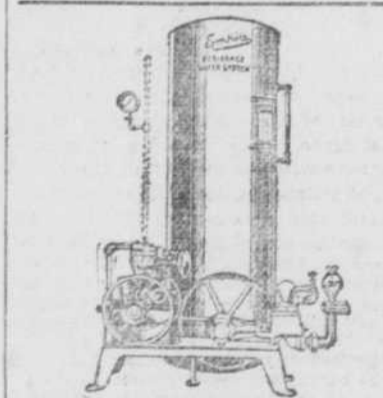

farm practice on nearly every acre in the county. There are no finer farms in Canada than those of this section of southeastern Ontario, where the level fields of clay loam are producing top-notch crops year after year. The only possible exception, where surface drainage is natural, is along the gravelly ridge that traverses the southern part of Kent, above Lake Erie, but along the lake front itself there are dozens of reclaimed marshes that are small replicas of the dykes and pumps of the Netherlands. "There is scarcely a farm in Kent—and Essex and Lambton, too—that is not assessed in some drainage scheme," V. C. Lowell, District Supervisor of Drainage, told the Globe. "The average farmer here has to figure drainage taxes as a permanent expense, as necessary a part of the farm outlay as fertilizing and fencing."

Floods Ruined Crops.

But Kent land did not always yield bumper crops with the regularity that it does today. Thirty years ago, and less, before surface drainage became effective, floods ruined the crops time and again, and land that now runs high in value was then almost worthless. "The older settlers," said one man who was watching the drainage work develop, "were almost helpless in the face of continual spring flooding. The only land that could be properly worked was that located along the rivers and creeks." However, the pioneers were not slow to see the absolute necessity of effective drainage that would handle the spring freshets. The townships, working under the Drainage Act, took the work in hand. Every year saw improvement; the natural watercourses were utilized, and in most cases improved artificially. Although the Thames River cuts through the county to Lake St. Clair, the river is actually on a higher level than the land back from it. It not only does not drain, but when swollen used to flood great areas and make the country a swamp from four to two miles back. The whole county is now served by a number of big relief drains, the most ambitious of which is the McFarlane Relief Drain. This parallels the Thames, and serves the townships of Dover West, Dover East and Chatham. Ninety thousand acres on the "Raleigh Plain" are looked after by the Jeanette's Creek scheme, which empties into the Thames near its mouth. McGregor Creek, draining a large area southeast of Chatham, is the only natural watercourse that has not required artificial improvement. The northern end of Chatham township is covered by the Maxwell drain, the central part by Bear Creek. The number of these projects, and only the larger ones have been named, gives some idea of the paramount importance of drainage to Kentish agriculture. Not only are farms that benefit directly from these schemes assessed, but also those sections which derive indirect benefit through draining naturally onto the lands which are covered by the municipal projects.

Upkeep the Biggest Item.

Most of the work, as far as surface drainage is concerned, is at the present time confined to finishing up some of the larger projects and to doing repair work. "There is no such thing as a permanent drain," pointed out George A. McCubbin, a drainage engineer of Chatham, who for the past 25 years has worked for the Kent municipalities. "The county is pretty well covered by the schemes now in existence. Over 90 per cent of the work that is going on today is in the repair and upkeep of old ditches."

IN MEMORIAM.
PORTER—In loving memory of Thomas R. Porter, who passed away July 29th, 1921.
 Rest in peace, dear father.
 One long year has passed away,
 Thou art gone, but still art living
 In the hearts of us who stay.
 No one heard the footsteps
 Of the angel drawing near,
 Who took from us to Heaven
 The one we loved so dear.
 The golden gates were open,
 A gentle voice said, come,
 And with farewell unspoken,
 He calmly entered home.

WIFE, SONS AND DAUGHTERS.
CARD OF THANKS.
 I wish to thank all my kind friends who remembered me on my birthday.
 MRS. O'CONNOR.
 Brigham, Que.

IN MEMORIAM.
In loving remembrance of Albanus J. Gilbert, who died July 30th, 1909.
 No morning dawns, no night returns,
 But what I think of thee,
 There is a link that cannot sever,
 Love and remembrance last forever.

PRICES AND DETAILS OF SHERBROOKE MARKET

Berry hunters were largely in evidence yesterday afternoon at the market and large supplies of raspberries, red currants, gooseberries and blueberries were offered for sale. The prices seemed to be pretty high on the whole, quite baskets of raspberries selling at twenty-five and thirty-five cents a basket whereas peddlars were offering them around town yesterday at fifteen and twenty cents.

Dairy produce showed little change. The moulting season has resulted in a smaller supply of eggs and a few dealers have taken advantage of same to push up their price a few cents but the average price was thirty-five cents a dozen. Large quantities of eggs are expected in the near future. Butter supplies were good and little change is expected although the quality and future supplies will not be as good as the pastures are getting low and dry. Thirty-five cents was the average price. Cheese products showed little change.

Vegetables were to be had in many varieties and had a tendency towards lower prices. Local produce was offered freely and tomatoes showed a heavy decline at fifteen cents a pound. Nice celery fetched fifteen and twenty cents a head; cabbages ten cents each; cucumbers ten cents each; lettuce three heads for five cents; carrots, onions and radishes five cents a bunch with heads selling at similar prices. Peas sold at ten cents a quart and beans at fifteen cents a quart. Cauliflower was to be had in fairly good supplies and sold at ten, fifteen and twenty cents.

A splendid variety was offered in the fruit line. Cantaloupes fetched twenty cents each; nice big peaches sixty cents a dozen; plums fifteen and twenty cents a dozen; oranges forty-five cents a dozen; pears sixty cents a dozen; apples a dollar a peck, bananas twenty-five cents a dozen, cherries a dollar a basket while berries of all descriptions were offered. Raspberries fetched anything from twenty-five to thirty-five cents a basket, blueberries twenty-five cents a basket.

currents fifteen cents a basket and gooseberries fifteen cents a basket. Supplies were taken up pretty well and quantities were purchased for canning purposes. The provision market was featured by large supplies of lamb with prevailing prices the same as the previous week.

DAIRY PRODUCE MARKET. Butter, best creamery per lb. 89c. Butter, best dairy, per lb. 88c. Cheese, per lb. 88c to 90c. Cream, per qt. 88c to 90c. Eggs, per dozen 38c to 40c. Creamery, per lb. 88c to 90c. Shortening, per lb. 89c.

THE VEGETABLE MARKET. Beets, two bunches, 1.00. Wax Beans, two quarts, 80c. Carrots, a bunch, 5c. Cabbage, 10c to 15c. Peas, two quarts, 10c. Onions, per bunch, 10c. Parsnips, per peck, 80c to 85c. Potatoes, per peck, 80c. Turnips, per peck, 80c. Tomatoes, per lb., 15c.

PROVISION MARKET. Beef, best per lb., 10c to 12c. Beef, medium per lb., 8c to 10c. Bacon, per lb., 10c to 12c. Ham, per lb., 10c to 12c. Lard, per lb., 8c to 10c. Pork, per lb., 8c to 10c. Pork, salted, per lb., 8c to 10c. Sausage, per lb., 8c to 10c. Veal, per lb., 8c to 10c.

THE FRUIT MARKET. Apples, per bushel, \$1.00. Lemons, per dozen, 40c. Oranges, per dozen, 40c to 50c. Bananas, per dozen, 20c. Peaches, per dozen, 60c. Currants, per basket, 10c.

COUNTRY PRODUCE

Montreal, July 29. EGGS.—The market is weak and lower. The demand for storage eggs for export is nil, and specials or new laid are weak and declining with quotations irregular, and declining. Sales were reported today by the local trade at 35c for specials or new laid, 33c for selects, and 28c to 29c for firsts, the same period two years ago. At the Mercantile Exchange sale there were 50 cases of Ontario straight receipts offered at 27 per dozen, and 60 cases at 28 1-2c per dozen with 24c bid for the latter lot. The exports of eggs for week ending July 22nd were 400 cases, making the total shipments since May 1st to July 22nd, 2,950 cases, as compared with 14,294 cases for the corresponding period last year two years ago.

Sales at Ontario points are reported at 27c, and 28c is now asked. One despatch quoted 22c to 23c, but that was evidently a mistake. The market is evidently in a very unsatisfactory condition, but some dealers appear to think prices are at bottom. BEANS.—There is no change in this market, nor is any expected until the new crop comes in. There is very little, if any, change in prices, which are quoted nominally at \$3.50 to \$4.00 per bushel, as to quantity. POTATOES.—The market is lower, American potatoes selling at \$4.75 to \$5.00 per barrel. Old crop is quiet, and the demand limited at 90c per bag of 90 lbs. MAPLE PRODUCTS.—The market is dull, the demand being considerably reduced, and prices are easier. No. 1 maple syrup is quoted \$1.55 to \$1.60 per tin, No. 2 at \$1.45 to \$1.50, and No. 3 at \$1.35 to \$1.40. Maple sugar is quoted at 14c to 15c for bright yellow, and 12c to 13c for No. 2.

condition in Ontario and a good portion is saved in this province, but in the Eastern portion of the province there is still a portion to be got in.

DAIRY PRODUCE

Montreal, July 29. BUTTER.—The market was quieter at time of writing, and sales of finest creamery were made at 36c, and fine at 35c, with sales at these figures, which show an easier market. The market during the forepart of the week, with a lower tendency in prices. Quotations were reported of Western white, and colored at 15 7-8 to 16 1-4c, and 15 1-4c to 15 3-4c for Eastern. CHEESE.—The market for cheese is in a quiet groove owing to the fact that there is little or no cable demand, some of our large exporters reporting the trade demoralized, with prices lower. Western white and colored being quoted at 15 3-4c to 16 1-4c, and Eastern white and colored 15 1-4c to 15 3-4c. Advices by mail from England report New Zealand cheese in slow demand at declining prices, and new Canadian cheese meets with poor demand at lower prices.

GRAIN MARKET

Montreal, July 29. OPENING IN ONTARIO

Mr. Johnston, of the Firm of Johnston & Ward.

Announcement is made that Johnston & Ward, members of the Montreal and Toronto Stock Exchanges, have opened new branches in Toronto, London and Kingston, Ontario. These offices will be connected by private wire with the Montreal, Toronto and New York Stock Exchanges, as well as with the firm's other branches at Montreal, Sherbrooke, Moncton, Halifax and Sydney, and correspondents at Three Rivers and Quebec. They will be equipped to do a general speculative business in Montreal, Toronto and New York stocks, as well as in cotton, grain and commodities. Attention will be paid to bond trading, especially in bonds and unlisted securities whose principal market is in the Maritime Provinces.

It will be remembered that Johnston & Ward took over in 1920 the business of F. B. McCurdy & Company, which was established in 1900. During the last twenty years the business has grown steadily from one small office in Halifax to its present size with nine offices in the principal cities of the Dominion and correspondents in the financial centres of the world.

NEW YORK PRESS MARKET COMMENT

Furnished by McManamy & Walsh. Journal of Commerce—Sentiment has measurably improved as there is a widespread conviction that perhaps a settlement of the coal and rail strikes is not far ahead. Tribune—Attention of trading community was divided between the constructive developments in the railroad and coal situations, the news display including more favorable statistical data on transportation as well as report of progress toward labor settlements. Wall Street Journal will say today: Motor companies operate 90 p.c. of June's schedule. B. & O. June gross 8 p.c. greater than a year ago. Rock Island makes good June showing. Last month was best of any similar period in last 10 years despite reduction in rates made earlier in the year. Buffalo steel makers have three weeks fuel. Copper market quiet with prices firm. Westinghouse is looking at rate of \$120,000,000 a year. Lewis promises to call conference within a week.

purchase at this price. Alberta Pacific Grain preferred sold at 85, and the common at 114. This stock is closely held and few shares come into the market. Belding Corticelli preferred was 85 bid, and the common closed at 27 bid, a two-point advance from last week. As predicted by us, the L.R. Steel securities were weak, a full unit of two preferred, one common and one really common being offered at \$65. We understand the company are still selling these units to the public at \$200. The theatre group was exceedingly dull. Loews Ottawa common was offered at 1 and the preferred at 30, but found no buyers. Loews Montreal was offered at 49, and Loews Toronto at 61. Dominion Power and Transmission advanced one point to 84 bid; Frontenac Breweries 51 bid, none offered. Famous Players 8 p.c. preferred, with 50 p.c. common, were exceedingly strong, advancing to 57 1/2 bid, with none offered. Gunns 7 p.c. preferred was very active and sold around 60. Imperial Oil was active and a number of shares changed hands at 110. Dryden Paper was offered at 16, Whalcom preferred at 27, and the common at 7, with little interest shown. Banks were dull. Provincial Bank were offered freely at 118, with no buyers. Home Bank sold at 88. Sterling Bank advanced two points from 101 to 103 bid. Western Grocers 7 p.c. preferred was very active, closing at 59 bid. Sagunay Pulp and Paper was fractionally off, the preferred selling at 2 1/2, and the common at 1 1/2. Marconi of Canada, \$2.10 bid, with little stock coming out. Imperial Tobacco of Canada 6 p.c. common sold at 5. We consider this a good investment at this figure. Cockshutt Plow 7 p.c. preferred, which is 3 1/2 p.c. in arrears, was weak, closing at 45 bid; offered at 47. National Bank preferred was somewhat weaker, the preferred selling at 29 and the common at 8. The preferred should be a good buy at this figure. Little activity was displayed in the unlisted bond market. Western Quebec Power 7 p.c. debentures offered to the public at \$94.75 was favorably received. The entire issue has now been sold. Canada Light and Power 5's were weak and are now offered at 73 1/2. Brompton Pulp and Paper 8's of '41 were offered at 101; Spanish River 8's at 101; Algoma Steel 5's of '62 at 56; Dominion Iron and Steel 5's of '39 at 78; Galt Brass 7's, 1941, at 95; King Edward Hotel 7 p.c. preferred at 84; McCormick Manufacturing Company 6 1-2, 1940, at 95.

BASEBALL EASTERN CANADA BASEBALL LEAGUE (Associated Press Despatch) MONTREAL, July 29.—The results of the games played yesterday in the Eastern Canada Baseball League follow: At Montreal:— Three Rivers 1; Montreal 2. At Valleyfield:— Valleyfield-Ottawa, rain.

FAIRMOUNT TIGERS AT RIVERSIDE PARK Tomorrow afternoon the Fairmount Tigers will play against the Grey Socks at Riverside Park at three p.m. sharp. The lads promise to have a most enjoyable afternoon and a good attendance is anticipated. There will be no admission charge.

MESSINA HERE TOMORROW The Messina N. Y. team is scheduled to play here tomorrow afternoon and the local fans are wondering what kind of a team they have. They are reputed to be one of the best teams in New York City and are out on a barnstorming tour of New England States. Sherbrooke will play against in Canada and will probably be the only team they locals are hoping to send them home with the fruits of defeat.

Considerable interest is being evinced in the game with St. Johns bury this afternoon and it is freely admitted that the locals will have to improve over their showing at Newport on Thursday if they intend to come away with the honors. The visitors still remember the crushing defeat Sherbrooke handed out to them early last month and are anxious to make amends for same.

GOLF KERRIGAN LEADING FIELD (Associated Press Despatch) MOUNT BRUNO, Que., July 29.—Tom Kerrigan, Sarnawey Club, of New York, led the field at the conclusion yesterday of thirty-six holes of the seventy-two hole competition for the open golf championship of Canada. His score was 148. Eric Bannister, of Winnipeg, came next with 150. S. W. Lingard, St. John, had 157. W. C. Grant, Sherbrooke, made 171.

Among other leaders were T. McNamara, a team mate of Kerrigan's, with 150, Nicol Thompson, Hamilton, Canadian professional champion, 154 and L. Watrous, Redford, Mich., 154. The weather this morning was fine and cool for the second and final days play.

FOOTBALL FAIRMOUNT vs. LENNOXVILLE The following team will represent Fairmount in their Junior League game with Lennoxville on Monday night: Goal: Stoyles; Backs: Northy and Tarte; Halves: Sjolander, Horsefield and Hatch; Forwards: Soper, Dwyer, B. Cutts, Tysman and R. Cutts; Reserve: Elliott and Gillan.

The above players are requested to be on hand at the parade grounds at 6.30 p.m. sharp.

CHAMPIONSHIPS WILL BE HELD IN SHERBROOKE

Townships Tennis Tournament to Be Held August 26, 27, 28.

The Eastern Townships Tennis championships will be held on the St. Francis Golf Club courts, Sherbrooke, on August 26th, 27th and 28th. These dates were unanimously agreed upon at last night's meeting of the tournament committee, held in Col. Penhale's office.

These Eastern Townships tennis championships, organized for the first time last year, promise to develop consistently during the coming years and this year's competition will see practically every club in the townships represented.

The question of eligibility was discussed and it was felt to be in the interests of the association to confine the players to residents of the Eastern Townships. This will enable summer visitors at North Hatley, Little Lake, Cowansville, Knowlton, etc., to participate provided they are staying for a reasonable length of time.

The games will be commenced on Saturday, August 26th, the week-end affording many conveniences for outside players to attend and, if they so desire, they can stay off and take in the exhibition.

It is proposed to make the Eastern Townships Tennis Association a permanent organization and a general meeting will be held on Saturday evening August 26th, at which it is hoped representatives from all the clubs in the townships will be present. A strong organization will be formed with representatives from the different districts. In the meantime, the temporary committee, which organized the events last year, will carry on and endeavor to make this year's event as successful as last year.

The games will again be confined to singles and doubles and all clubs throughout the Townships are requested to send in the names of their representatives as early as possible. Individuals can also enter as they see fit but if they are members of any club that club should be specified. The entrance fee has again been placed at \$1 per event and players are requested to send this amount in to the Secretary at the time of making application.

TROPHIES TO BE DISPUTED Suitable trophies will again be put up for competition and the "Daily Record" challenge cup, emblematic of the singles championship of the Townships will again be disputed. Last year this event was won by Mr. A. Hodson, of Lennoxville, now of Magog.

The success of last year's event was due largely to the splendid spirit of co-operation shown by some of the City's prominent men. Hand-some cups were donated by Messrs. Joseph Rosenblum, Willard Cross, Stewart L. Patterson, Col. Spearing, A. E. Kinkead and C. O. St. Jean. All these cups were won outright last season and new trophies will have to be secured for this year.

At the annual meeting, to be held on August 26th, it is expected to ratify a temporary arrangement by which it is proposed to organize a permanent association with a club membership fee of \$5. This will enable the association to take care of a large portion of the expenses which are exceptionally heavy. The tennis balls themselves represent a heavy item of expense but last season the committee was fortunate enough in being supplied by Messrs. J. S. Mitchell & Co., Lacombe Falls, Lee, and Mr. J. P. Wells, Spalding balls will be used throughout the tournament.

The following clubs are being communicated with: Drummondville, Victoriaville, East Angus, Cookshire, Bury, Coaticook, Danville, Farnham, Granby, Knowlton, Magog, Lennoxville, Windsor Mills, Richmond, Ayer's Cliff, North Hatley, Thetford Mines, St. Francis Golf Club, the Fairbanks Club, United Club and other Sherbrooke organizations. Any tennis club throughout the Townships who have not been communicated with are requested to communicate with the secretary.

Notice of schedule of matches will be published regularly in the Sherbrooke daily papers and this will be held to be the only official notification to contestants.

The privileges of the club house will be extended to the contestants and their friends, but visitors' cards must be approved of by a member of the committee.

No entries will be received after the morning post of Monday, August 21st, and the preliminary draw will be made the same day.

Clubs and individuals throughout the Townships are requested to send in their applications as early as possible to the Secretary A. W. Reid, Sherbrooke. Application forms for distribution will be sent out to the different Clubs within a few days.

It is the ambition of the organizers of these annual Townships tournaments to develop sufficient talent to send in entries to the Provincial championships held every year. Tennis is one sport in which the Townships do not compete from a provincial standpoint although the material available warrants an effort in this direction.

TENNIS MITCHELL CUP SERIES ON WEDNESDAY

The "Mitchell cup" emblematic of the singles championships at the St. Francis Golf Club will be played for during the course of the coming week. The Mitchell cup was donated by Mr. Malcolm Mitchell to be played for by the tennis members of the club and represents the club singles championships. A miniature cup is donated to the winner of same each year.

The games will be commenced during the course of the coming

COTTON MILLS WON LEAGUE CHAMPIONSHIP

Defeated Rand Team by Score of 11 to 4—Bridges Hit Home Run.

The Cotton Mills walked off with the championship as well as the cup when they defeated the Rand nine last night by a score of 11 to 4. Both teams were tied at the end of the schedule and a play-off was necessary to decide the winner. The Cotton Mills only lost one game during the season, while the Rand lost two games but were subsequently awarded the game played against the Julius Kayser Company as the latter had played an ineligible man. In the league game the Cotton Mills defeated the Rand 3-1 and were accordingly slightly favorites.

Rand were without the services of McCabe and Molyneux, while the Cotton Mills lined up without their catcher, G. Rousseau. Rand were first to bat, but evidently Bridges meant business as Robertson R. Newton and Savage were the first three men to bat and were retired in the same order. Cotton Mill replied with one run. In the second Rand were again disposed of in quick time but the Mill boys started something. Barnes opened with a single, E. Rousseau walked, Frechette hit safely bringing in Barnes but was out trying to reach second. Mosher bunted too near third base line to allow Rousseau to cross the plate but beat the throw to first. Bridges came to bat and smashed out a home run bringing in Rousseau and Mosher. The inning closed with the Cotton Mills five runs to the good. The third inning was out in quick order. Rain started with the fourth inning and incidentally the Rand got going. The first five men at bat smashed out hits and four runs were tallied and with man on first, Captain Bridges retired from the box in favor of Carson. Bridges went behind the plate and Frechette filled Carson's place at short. Carson's first ball resulted in a double play, Carson to Boisvert. Rand registered only one hit in the remaining innings. Perron connected in the sixth for a two-bagger but died on third while the Cotton Mills picked up runs in each inning. On the run of the play the Cotton Mill were slightly the better team and deserved their win. The Industrial League has been a splendid success for the first year and promises to be a great baseball asset for Sherbrooke in the future. The teams lined up as follows:— Rand—Robertson, 2nd. B.; R. Newton, L.F.; Savage, S.S.; Perron, C.; Dustin, 1st. B.; Devost, 3rd. B.; Buzzell, C.F.; Janic R.F.; Lotard, P.

Cotton Mill—Frechette, C.; Mosher, 3rd. B.; Carson, S.S.; Bridges, P.; Gaudette, R.F.; Boisvert, 1st. B.; Leclair, C.F.; Barnes, L.F.; E. Rousseau, 2nd. B.

BOXING DUNDEE WON DECISION (Associated Press Despatch) HOUSTON, Texas, July 29.—Johnny Dundee, of New York, out-pointed Kid Koster, last night in a 12 round bout, according to the opinion of newspapermen.

LEONARD RECEIVED \$121,755 (Associated Press Despatch) NEW YORK, July 29.—Benny Leonard received \$121,755 for defending his lightweight title in Jersey City, on Thursday night, and Lew Tendler, Philadelphia challenger, received \$62,500, according to official figures made public last night by Tex. Rickard. Rickard's profit was \$90,653.

The paid attendance was 43,355 and the gross receipts \$327,565. The crowd numbered 46,016. The figures for the Leonard-Tendler bout have been exceeded but twice in ring history. The gate receipts for the Dempsey-Carpentier contest a year ago were \$1,623,380 and the Dempsey-Willard match in Toledo in 1919, drew \$452,522.

July 29, 1905, Dunham.—A very severe electrical storm passed over this place on Thursday afternoon, and a large barn owned by Mr. George A. Doherty, who lives one half mile south of the village, was struck by lightning.

This barn and another one nearby were burned to the ground, with all the contents, consisting of twenty tons of old hay and forty-nine loads of new hay, which were consumed.

Mr. Doherty and two hired men were in the barn at the time unloading hay. One man was knocked down by the shock but soon recovered. The alarm of fire was at once sounded in the village and large numbers of helpers were soon on the spot, and through their efforts were able to save the other buildings on the farm.

The barns were worth close on \$2,000 and the insurance was about \$800. Mr. Doherty will rebuild one barn at once.

LARGE NUMBER ATTENDED PLAY AT MARBLETON

"The Adventures of Grandpa," a Three-Act Farce, Was Very Successful.

MARBLETON, Que., July 29.—"The Adventures of Grandpa," which proved to be one of the best and most amusing plays which has been put on for some time, was very successfully presented here on Thursday night, July 27th, by members of the Marbleton Amateur Dramatic Club. In spite of the fact that the weather was very unfavorable, the hall was well filled with a large and very appreciative audience. The play, which was under the direction of Mr. C. H. Mann, was a farce in three acts, the plot being laid in the reception room of the Hunter's "grande salon de dance, Chicago." The part of Grandpa, whose adventures were many and varied, was well taken by Mr. C. E. Weyland. Mr. Alder Staples took the part of the young grandson to whom Grandpa comes all the way from "Yellow Bud," Ohio, to visit, and Mr. Staples is to be congratulated upon the pleasing way in which he filled the part, as this was his first appearance in a play.

Miss Evelyn Bishop was very charming as Mrs. Tod Hunter and was supported by Mr. Richard Thorpe as her husband, who filled, very admirably the part of the young dancing master, who was afterwards turned into the cook.

Miss Sybil Mann, in her usual dainty manner, filled the part of Miss Dorothy Marg. The amusing part of Officer McCormack was taken to perfection by Rev. A. E. E. Logge and he is to be complimented upon the excellent way in which he handled the Irish character.

The part of Mrs. Pansy Hopscoth was filled to perfection by Mrs. Clifford Weyland, who deserves a great deal of praise.

Miss May Weyland, who acted as the very charming and dainty little Marie, from Paris, delighted the audience, while the part of Kloompoy, the Danish emigrant, was taken by Miss Lewie Hunt in her usual capable manner.

A dance followed the play, for

MANY RUMORS OF ELECTION IN GREAT BRITAIN

Gossip Runs in Direction of Forecasting that March Will Likely See an Election.

(Associated Press Despatch) LONDON, July 29.—While there has been much talk during the year of a general election, it has come to nothing, and the present gossip runs in the direction of forecasting that March next will see an election if governmental and financial considerations are not unfavorable, or perhaps June, if trade happens to really pick up. The Ministers, however, take a grave idea of the unemployment situation in the winter, believing the number out of work next winter will not fall below a million.

COMMANDER OF FORCES AT CONSTANTINOPLE HAS ISSUED WARNING

CONSTANTINOPLE, July 29.—General Harrington, chief commander of the Allied forces, has issued a proclamation warning that any attempt at disorder or acts contrary to the neutrality of Constantinople, which is under Allied occupation, will be firmly repressed by force.

SPORTING NOTES ANNUAL REGATTA HELD (Associated Press Despatch) ST. CATHERINES, Ont., July 29.
