GERMANS SINK OLD BRITISH DESTROYER, BUT BRITAIN'S NAVY SOON GETS REVENGE FOR LOSS

Two Of Huns' Torpedo Boats Are Sent To The Bottom In The North Sea—Kulturists Fire On Rescuing Fishermen—American Steamer Is Torpedoed While Flying The Stars And Stripes—No Further Bombardment Of Dunkirk

London, May 2—A German submarine on Saturday sank the old British destroyer Recruit off the Galloper Lightship, in the North Sea, but the score was more than equalized by other British destroyers, which, after a stern chase, overtook and sank the two German torpedo boats that had accompanied the submarine on her cruise.

Some of the crew of the Recruit were rescued by the trawler Daisy but as the submarine fired on the fishermen they were compelled to leave the others to their fate. The British destroyers rescued most of the crews of the German torpedo boats, and two officers were picked up by a passing steamer and taken to Holland.

Besides these incidents in the North Sea, the Germans continued their operations off the Scilly Islands and, in addition to torpedoing the American tank steamer Gullflight, the captain of which died of shock and two men were drowned, sank the French steamer Europe and the British steamer Fulgent, the captain of the latter vessel being shot and killed.

Beyond this there is little war news tonight. The Germans claim to have made an advance in their raid into the Russian Baltic provinces, and, after defeating the Russians, to have reached the region to the south-west of Mitau, which is well on the road to Riga, and, if they are in strong force, they should prove a serious menace to the Russian communications. It is believed here, however, that the movement is nothing more than a raid, and the Russians profess not to be disturbed over it.

There has been no further bombardment of Dunkirk, which would seem to indicate that the Germans had only one big gun in position and that the French airmen have made it so uncomfortable for the gun crew that it has been withdrawn. As a reply to this bombardment, the French have brought one of their big guns to bear on one of the forts on the south front of the fortress of Metz.

Along the rest of the western front attacks and counter-attacks continue, but no battle of importance has developed out of them.

It appears that the Turkish report that the Asiatic shore of the Dardanelles is free of the invaders was correct, the French having simply gone ashore there to make the landing of the British on the other side easier, and, this accomplished, having been withdrawn, doubtless to land at some other point.

JELlicoe STATES LABOR SITUATION HAMPERS FLEET

UNLESS THE WORKMEN REALIZE IMPORTANCE, DANGER IS IMMINENT.

London, May 2.—5:50 p.m.—"I am very uneasy about the labor situation in the Clyde and the Tyne," says Vice-Admiral Sir John R. Jellicoe, commander in chief of the Home Fleets, in a letter to the Admiralty. "I sent a telegram or two lately about it," the Admiral adds. "You may think I am exceeding by sphere of action in doing so, but the efficiency of this fleet is so affected by it that I felt it my duty to wire today."

"An officer in a responsible position has arrived here and his account of things on the Clyde is most disquieting. He said the men refused altogether to work on Saturday afternoon, that they took Wednesday afternoon off every week, if not the whole of Wednesday, and worked on Sunday because they got double pay for it. He said also that they only worked in a half hearted manner."

"My destroyer dockings and refits are delayed in every case by these labor difficulties, and they take twice as long as they used to. I feel you ought to know the facts, and so I put them before you."

Deplorable Conditions.

The serious effect that drink is having on the repairs to the warship and transport services and in the output of munitions is disclosed in reports from firms and officers throughout the country which were published tonight in the form of a White Paper.

From Vice-Admiral Sir John R. Jellicoe, commander in chief of the Home Fleets, down, the officers responded for the navy are of the opinion that the short hours worked by the men in private yards is due to drink. They describe conditions as deplorable and urge on the government the necessity of adopting the total prohibition of alcoholic drinks or restrictions on the sale of them.

The slackness of the men, it is alleged, is due to the fact that they are earning more money than usual and that while they have any to spend they will not work. Sunday work is condemned, as it is contended that the double wages earned that day lead the men to lay off two days during the week.

Rear-Admiral Frederick C. Tudor, Third Sea Lord, supplies a statement showing the effect of excessive drinking on the output of work, as regards shipbuilding, repairs and munitions of war, which is being carried out by contract for the Admiralty. Admiral Tudor says:—"Briefly the position is that now, while the country is at war, the men are doing less work than would be regarded as an ordinary week's work under normal peace conditions. Thus the problem is not how to get the workmen to increase their normal peace output but how to get them to do an ordinary week's work of 51 or 53 hours, as the case may be."

"The reasons for the loss in time no doubt are various, but it is abundantly clear that the most potent reason is the facilities which exist for the men to obtain beer and spirits with a high rate of wages and abundance of employment. Opinion on this point is practically unanimous."

Letters received from shipbuilders and officers superintending work for the Admiralty are quoted by Admiral Tudor. These complain of the drinking habits of the men and urge either total prohibition, martial law or the restriction of the hours in which drinking may be obtained.

During four weeks, the report concludes, 670,000 hours work was avoidably lost in the shipyards.

GERMAN BALLOON BROUGHT TO EARTH.

Paris, May 2.—An enormous spherical balloon without a basket has landed near the railroad station at Giverny. The balloon bore traces of blood and was riddled with shot.

LIQUOR PROBLEM IN SOUTH AFRICA ALSO

London, May 3.—2:15 a.m.—The Daily Telegraph's Johannesburg correspondent says he understands that extensive restrictions on the liquor traffic in South Africa will be enforced at an early date.

SUBMARINE SHELLS CREW OF BOAT JUST TORPEDOED

PATROL BOAT CAME UP TOO LATE TO GIVE FRENCH STEAMER ASSISTANCE.

London, May 2.—The French steamer Europe, from Barry for St. Nazaire with a cargo of coal, was torpedoed by a German submarine Saturday morning near Bishop's Rock and sank, says a despatch to Lloyds from Penzance.

The crew was rescued by a steam drifter.

The submarine signalled the crew of the Europe to leave their ship. When they had done this the submarine shelled the steamer, which failed to sink. Meanwhile the skipper of the steam drifter Rosevine, attracted by the noise of the gun of the submarine, made an investigation, whereupon the submarine started to chase the Rosevine.

The Rosevine sent up distress rockets and was proceeding toward the Scilly Islands when a patrol boat, which previously had not been seen owing to the foggy weather, appeared. Together the patrol boat and the drifter went back toward the Europe, at which the submarine was still firing with her gun. Half a mile off from the Europe the Rosevine picked up a boat loaded with members of the crew of the steamer. The work of rescue was interrupted by three shells from the submarine, which fell within thirty yards of the drifter.

Then, apparently alarmed at the appearance of the patrol boat, the submarine torpedoed the Europe, which disappeared in a cloud of steam and coal dust.

The submarine carried no number.

AUSTRIANS ARE PREPARING FOR ITALY'S MOVE

EVIDENTLY EXPECT HOSTILITY SOON JUDGING BY PREPARATIONS.

Venice, Italy, via London, May 2.—A despatch from Udine, Italy, reports active military preparations on the Austrian side of the frontier. Trains of heavy artillery, proceeding by night, are said to occupy commanding positions on the Italian frontier. Night traffic in the districts of Goritz, Gradisca, Montefalco and Tolmeina, all in Austria, near the frontier, is prohibited without special authority. It is stated that recruits from the southern part of the monarchy are being concentrated at Lubiana.

Regiments proceeding to the frontier consist chiefly of Hungarian, Bosnian and Croatian troops. These troops are proceeding through all passes leading to Italy.

The police are reported to be preparing for war by watching all Italians living in the Trentino district, to be in readiness to place them in detention should hostilities begin. The population is becoming extremely nervous, food is getting scarcer, it being reported that in Goritz there is only sufficient food for three days, and fearing public disorders the authorities have made preparations to proclaim a state of siege.

GREEK STEAMER BROUGHT INTO BLYTH

Blyth, England, May 2.—The Greek steamship Fotis, which sailed from Galveston and Norfolk three weeks ago bound for Rotterdam, has been brought into Blyth in charge of a prize crew. It is stated that the vessel carries contraband.

GERMANS SINK STEAMER FLYING AMERICAN FLAG

CAPTAIN AND TWO SAILORS LOST THEIR LIVES WHEN THE "GULLFLIGHT" WAS TORPEDOED AND SUNK OFF THE SCILLY ISLANDS.

London, May 2.—The oil tank steamer Gullflight, flying the American flag, was torpedoed at noon Saturday off the Scilly Islands, according to a despatch received by the Central News Agency.

The crew of the Gullflight has been landed on the Scilly Islands, according to later Central News despatches. The officers are quoted as saying that the captain of vessel had been killed, and that two sailors lost their lives by drowning.

The crew of the Gullflight was taken off by a patrol boat, and the tank steamer is being towed by another vessel.

The Gullflight was a steel vessel of 2,300 tons, built at Camden, N.J., in 1914. She was owned by the Gulf Refining Company. The vessel was 363 feet long, 51 feet beam and 30 feet deep. She was equipped with wireless. The Gullflight sailed from Port Arthur, Tex., on April 10th, bound for Rouen, France.

The captain of the Gullflight, according to the same advices, died of heart failure as a result of shock. Two seamen jumped overboard and were drowned.

The other members of the crew were taken off by a patrol boat and landed. The vessel was towed into Crow Sound and beached.

STIR AT WASHINGTON.

Washington, May 2.—Press reports of the torpedoing of the American steamer Gullflight, and the loss of her captain and some members of the crew, created a stir tonight in official circles here, where the seriousness of the occurrence was everywhere admitted. In the absence of President Wilson, officials made no comment as to the probable action of the United States government and the responsibility for it would first be required before a decision could be reached as to the kind of representations to be made.

If first reports are borne out, the attack on the Gullflight constitutes the first case of an American ship struck by a torpedo with the subsequent loss of lives. Two American vessels have been sunk by mines, the responsibility for which never has been fixed and an American, Leon C. Thresher, was drowned when the British ship Falaba was torpedoed.

TRAWLER HAD NARROW ESCAPE.

German Torpedo Boat Gave Her An Exciting Chase.

Yarmouth, England, May 3.—The trawler Barbados has arrived here in a damaged condition as the result of an encounter with a German torpedo boat off the Belgian coast on Saturday. The captain of the trawler was wounded in the foot, but the rest of the crew escaped uninjured.

The Barbados reports that the trawler Colombia was torpedoed and sunk with 17 hands. One survivor and one German bluejacket, who had fallen overboard, were brought to Yarmouth by the Barbados.

The Barbados defended herself against the torpedo boat with two small guns, and the captain says the German was evidently hit as steam was seen escaping from her. The wheelhouse and funnel of the Barbados were riddled with shot.

GERMANS LOSE IN SOUTH AFRICA

ANOTHER SEVERE LOSS INFLICTED ON KAISER'S COLONIST ARMY.

Cape Town, via London, May 2.—The following official statement regarding the operations in South Africa was issued Saturday:

"General McKenzie's mounted force, which was designated to cut off the Germans, who after the evacuation of Keetmanshop, retreated northward along the railway, inflicted a serious defeat on them in the vicinity of Gibeon. The Union forces, by destroying the railway north of Gibeon, captured a whole railway train, a number of transport wagons, several Maxim's and 200 prisoners."

"The remnant of the German force, which was 800 strong, escaped owing to the rough ground obstructing the movements of the cavalry."

HEROISM OF A BRITISH GUNNER

AFTER FIVE COMRADES HAD FALLEN HE SWEEP GERMAN RANKS BEFORE FALLING.

London, May 2.—In a British eyewitness story of the latest stages of the battle of Ypres mention is made of a machine gun detachment, who kept their gun in action until all were dead or wounded.

"The gun was stationed in an angle of the trench," says the eye-witness. "When the German rush took place one man after another of the detachment was shot, but the gun still continued in action, although five bodies lay around it. When the sixth man took the place of his fallen comrades, of whom one was his brother, the Germans still pressing on, he waited until they were only a few yards away, and then poured a stream of bullets on the advancing ranks, which broke and fell back, leaving rows of dead. He was then wounded himself."

AUSTRIAN SITUATION.

Rome, via Paris, May 2.—7:50 p.m.—All the Ministers met today with King Victor Emmanuel for the bi-weekly signing of decrees and to discuss the international situation. Baron Sonnino, the Foreign Minister, was the first to leave the conference, going from it to the Foreign Office to meet Prince Von Buelow, the German Ambassador, with whom he remained for 45 minutes. It is asserted that Prince Von Buelow indicated to Baron Sonnino the lines of Austria's expected answer to Italy.

REFUGEES FROM BELGIUM ARRIVE

FOURTEEN ARE HOUSED IN GRAND CENTRAL HOTEL OF TORONTO.

Toronto, May 2.—Fourteen Belgian refugees, consisting of three men, one of them wounded, four women and seven children arrived in Toronto tonight, consigned to the care of Archbishop McNeil and were housed in the Grand Central Hotel.

What is probably the first authenticated story told at first hand in Canada by an actual eye witness of atrocities in Belgium was told tonight by Mme. Philomene Justin, daughter of a Belgian merchant who was murdered by the Germans before her eyes. She was living in the little village of Arscot. Although the inhabitants of the village were unarmed the men of the village, including her father were herded in the latter's garden and shot down and bayoneted by the Germans when they occupied the place. There had been absolutely no interference with the occupation.

The cure of the village, Father Verbeeck, who protested against the brutality, was tied by ropes to a tree and left to starve for a day and a half, when he was shot and thrown into a well, and his housekeeper, who sought to go to his aid, was instantly shot and her body also thrown into the well. The Germans, after killing the men, released the women and told them to "bury their dead." This they endeavored to do. There were about six hundred bodies. Many of them were cast into deep wells in the village of their little sons, in rescuing the aid of their little sons, in rescuing the body of the cure and his housekeeper from the well into which they had been thrown and burying them in the church plot.

Several other members of the party told of atrocities which had been communicated to them by other parties but could not at first-hand vouch for their accuracy.

AUSTRALIANS ALSO SUFFERED HEAVILY

ANXIETY IN AUSTRALIA OVER FIGHTING IN THE DARDANELLES.

Melbourne, Australia, May 3.—The suspense of the past two days concerning the fighting of the Australian troops on the Gallipoli peninsula has been somewhat lifted by the publication of the first list of casualties. From the proportion of officers killed and wounded, the losses of the Australasians apparently were severe. The Minister of Defence has issued a statement advising patience.

The news of the fighting in Turkey and the recent parade of troops in Sydney have greatly stimulated recruiting. All previous recruiting records in Sydney have been beaten.

IRISHMEN AND FRENCH UNITED

T. P. O'CONNOR AND JOSEPH DEVLIN ENTERTAINED BY FRENCH PREMIER.

Paris, May 2.—6:30 p.m.—The Irish members of the British parliament, headed by T. P. O'Connor and Jos. Devlin, who on Friday presented an address to President Poincare, were entertained yesterday by the Committee of Foreign Affairs of the French Chamber of Deputies. A luncheon was given in honor of the visiting Irishmen and speeches were made by Rene Viviani, the French Premier, T. P. O'Connor, Joseph Devlin and ex-Premier Leon Bourgeois. The speeches were an eloquent expression of the close ties of sympathy uniting France and Ireland, and alluded to the victories gained by the two peoples while fighting for a common cause.

STEAMER SUNK; CAPTAIN SHOT

GERMAN SUBMARINE SINKS BRITISH BOAT FULGENT OFF SKELLING ROCKS.

London, May 2—The British steamer Fulgent was sunk by a German submarine north-west of the Skelling Rocks in the dark Saturday morning, says a despatch to Lloyds from Kilrush, Ireland.

A boat containing nine survivors and the body of the captain of the steamer, who had been shot and killed, was rescued by a trawler and landed at Kilrush. The trawler was unable to find the second boat of the Fulgent containing the remainder of the crew.

SURVIVORS OF EDALE LANDED

Submarine Gave No Warning Whatever Before Firing Torpedo.

Silly Islands, England, May 2—The crew of 24 of the British steamer Edale which was sunk off these islands by a submarine Saturday while on a voyage from the River Plate, South America, to Manchester, with a cargo of grain, have been landed here by a British patrol boat. They say that the Edale was torpedoed without notice and that they did not see the submarine until after they were in their lifeboats.

The patrol boat is reported to have been struck and severely damaged by a shell fired from the submarine.

The Edale was a steamer of 2,000 tons net and was 325 feet long. She was owned by the Dale Steamship Company of Middlesbrough, England. The Edale was built in 1901. She sailed from Montevideo, Uruguay, for England on March 29.

FRENCH TROOPS AIDED LANDING.

Landing of British Troops at Dardanelles Facilitated by French.

London, May 2—A despatch from Athens to the Exchange Telegraph Company says it is learned from Mytilene that the landing of four thousand French troops on the Asiatic side of the Dardanelles last Sunday was executed for the exclusive purpose of facilitating the occupation by British troops of Seddul Bahr, a town on the European side of the Straits, and at the southern extremity of the Gallipoli peninsula.

As soon as these operations were completed the French, according to these advices, returned to their transports and proceeded for an unknown destination.

FRENCH AND ENGLISH FINANCES.

Finance Ministers of Allied Powers Have Satisfactory Conference.

London, May 2—At the French Embassy in London it was announced today that Alexandre Ribot, the French Minister of Finance, had returned to Paris after spending three days in London conferring with David Lloyd George, Chancellor of the Exchequer. The two statesmen discussed various financial questions, particularly the advances to be made to the Allied countries and the payments to be made to England, Canada and the United States for purchases made by the French government.

A perfect understanding, the Embassy statement said, exists between the Finance Ministers of the Allied powers.

ITALIAN TROOPS ATTACK IRREGULARS
Tripoli, via Paris, May 2—11:40 p.m.—The Italian commander, Col. Maimi, with a mixed column which included numerous irregulars, attacked a rebel camp south of Syrta on April 29. The irregulars went over to the enemy at the beginning of the engagement, placing the Italian troops in a critical position. By dint of hard fighting, however, they extricated themselves and got back to the fort, but with severe losses.

QUESTION OF ELECTIONS STILL REMAINS UNSETTLED

ANNOUNCEMENT THAT PARLIAMENT HAS BEEN DISSOLVED AND ELECTIONS TO BE HELD JUNE 28 INACCURATE AND UNFOUNDED.

Ottawa, May 2.—Decision of a definite nature will be reached by the Government this week as to the holding of an election in June.

The announcement in the Toronto Sunday World that parliament had been dissolved and that elections were to be held on June 27th, is absolutely inaccurate and unfounded.

The expectation in official circles here is that if dissolution should be decided on polling would take place on either June 21st or 28th.

MONTREAL GUARD SHOTS PRISONER

AUSTRIAN SHOT DOWN WHEN HE ATTEMPTED TO ESCAPE.

Montreal, May 2.—Jan Bauzek, an Austrian prisoner, was shot and mortally wounded shortly before 9 o'clock last night at the Windsor (C.P.R.) Station because he was trying to escape.

He had almost reached Stanley street, a short block away, when the guard called: "Halt, or I'll shoot." After vainly shouting his warning three times, with Bauzek thirty feet away, the guard fired.

Major-General Sam Hughes witnessed the shooting. He was on his way to Quebec and happened to be at the Windsor Station at the time.

The guard in question is a French-Canadian soldier. His name is being withheld from the public until the military inquiry into the affair is held.

WHAT BOMBARDMENT OF DUNKIRK MEANS.

Paris, May 2.—4:55 a.m.—The bombardment of Dunkirk by large calibre artillery is another proof that the Germans, unable to pierce our lines and obtain an appreciable result, seek to impress the opinion of the neutrals by manifestations without military importance.

Refugees from Dunkirk have begun to arrive here.

The Best Treatment For Constipation

The Experience of One Who Knows and Places Dr. Chase's Kidney-Liver Pills First.

It is not difficult to secure a medicine which will effect movement of the bowels. To cure Constipation and the complications which arise from it is another matter.

BRITAIN LOSES A TORPEDO BOAT; GERMANS LOSE 2

English Vessel "Recruit" Sunk by Submarine but Vengeance was Swift.

FIGHT OVER QUICKLY.

German Torpedo Boats Turned Tail but Were Caught and Sent to Bottom.

London, May 2.—The British Admiralty stated this evening that two German torpedo boats had been sunk in the North Sea. The British torpedo boat destroyer Recruit also was sunk.

The text of the Admiralty statement follows:—"A series of small affairs took place in the neighborhood of the Gallipoli and North Hinder Lightships on Saturday."

"During the forenoon H. M. destroyer Recruit was sunk by a submarine, four officers and 21 men being saved by the trawler Daisy."

"At 3 p.m. the trawler Columbia was attacked by two German torpedo boats who approached her from the westward and commenced an action without hoisting their colors. The Columbia was sunk by a torpedo, only one deck-hand being saved by other trawlers."

"A division of British destroyers, comprising the Latorey, Leonidas, Lawford and Lark, chased the two German vessels and after a brief running fight of about one hour sunk them both."

"The British destroyers sustained no casualties."

"Two German officers and 44 men were rescued from the sea and made prisoners of war."

"The destroyer Recruit was on patrol duty Saturday morning when the submarine sank her. According to details received here she was struck amidships by the torpedo and began to sink. The wounded vessel signalled for assistance, and her call was answered by the trawler Daisy and thirty men out of her complement of sixty five were saved."

"It is stated a torpedo was fired at the Daisy, which was forced to leave one of her rescue boats behind, and that the submarine chased this boat and fired her gun at it, wounding four men."

"British torpedo boat destroyers, sighting in the distance two German torpedo boats which had sunk the trawler Columbia and apparently were supporting a submarine, engaged the Germans at long range in the vicinity of the North Hinder Light. The Germans endeavored to run away, but the British boats pressed them hard and shortly afterwards sank them. The British boats rescued some of the crews of the Germans and landed them today."

troubles. A friend recommended Dr. Chase's Kidney-Liver Pills, and I can honestly say that of all the pills I have tried nothing has suited me better—no gripping—action always insured, and fine for the kidneys.

Constipation of the bowels is usually preceded by torpid action of the liver. Hence it follows that if Constipation is to be cured the liver must be set right. And here lies the secret of the success of Dr. Chase's Kidney-Liver Pills. They awaken the action of the liver and insure a good flow of bile, which is nature's cathartic. The liver, kidneys and bowels are invigorated and regulated, and the troubles with the digestive system disappear.

WIPE OUT THE TURKS.

If reports made public by Russian officials at Petrograd are reliable, the stories of atrocities committed by Turks and Kurds in America gave but half the truth. According to these reports which are said to cover a period from early January to late in March and come from Tiflis, Tabriz and Teheran, 7,000 Christian Armenians have been killed; 3,000 wounded; more than 15,000 are fugitives or prisoners. 12 towns have been destroyed, and more than 500 square miles of territory laid waste.

The assertion is made that while Kurd tribesmen did most of the actual killing, Turkish regular troops looked on and permitted the slaughter and Turkish officials applauded the fiends and sometimes told where more fugitives might be found.

The charge is made that mothers begging for the lives of their children were crucified before the eyes of their little ones; that oil was poured over men and women and then set afire and that some of the methods used by the Kurds were so revolting that they cannot be described.

All Christians should hope that the power of Turkey will be speedily broken and the Armenians delivered from the yoke of the Moslems. Too long have the Christian nations permitted the Turks to massacre the people they have for centuries oppressed, and the day of reckoning should be at hand.

The Turkish government promised to protect the Armenians from the Kurd tribesmen, who are fighting with the regular Turkish forces, but apparently has made not the slightest attempt to do so. No reliance is to be placed on the promises of the Turkish government.

The only way to stop the massacre of Christians by the Turks is to dismember the Ottoman empire.

SURPRISES IN THE WAR.

Military critics, writing for the papers, have reiterated almost to the extent of tiresomeness, that the element of surprise was to all intents and purposes eliminated from the European war. We have been told that in this war there could be no surprises except on a small scale, that the aviation service would make it impossible to concentrate large bodies of men and great numbers of cannon at any given point without the enemy knowing it, and thus having opportunity for counter-preparation. Likewise it has been asserted that many famous evolutions in former wars could not have been accomplished had there been aeroplanes and Zeppelins in those days.

Yet, as the war goes on, there are increasing indications that surprise is destined to play an important part in it. For instance, we find in the rush of the Germans which swept back the British, French and Belgian lines at Ypres, distinct evidence of a surprise. One naturally asks why it was possible with the aviation forces of the Allies in full operation, for the Germans to mass half a million men there and effect what they did.

At the battle of Neuve Chappelle, some weeks ago, there was a surprise—the British concentrated hundreds of guns in front of that position with something which constituted a close approach to absolute secrecy, and all this artillery opened with fearful effect when the time came. So, at the Mazurian Lakes, the force which Gen. Van Hindenburg assembled against the Russians, was gathered with such speed and quietadroitness, that when the critical hour arrived, it was as though the German army had arisen out of the ground. Here was another case of surprise, and on a large scale, too, for the Mazurian Lakes campaign was one of the most important, thus far, of the war.

From the growing frequency of instances of this kind, it appears that the day is not over when a war-trap may be set without the adversary being aware of it till the trap is sprung. In spite of all the talk about exactitude, it is getting plainer that even yet war is not wholly a game of skill, and its areas not merely check-boards whereon each antagonist knows the exact number of men his other fellow has, and whether they are in the king-row, the double corner, or the middle squares. The terrible game has still some of the qualities of bridge, whist and poker, its factors are many of them cards and not chessmen, and not all the cards are face uppermost on the table, by any means.

HOW TO LIVE LONG.

Sir William Temple, a distinguished English statesman, who lived and died before the dawn of the eighteenth century, wrote the subjoined paragraph, and the conclusions are supported by the most prominent scientists in the world today. The author's observations of 225 years ago, it is stated, were based on personal investigations of half a dozen remarkable cases of longevity.

"Health and long life are usually blessings of the poor, not of the rich; and the fruits of temperance, rather than of luxury and excess. And, indeed, if a rich man does not in many things live like a poor, he will certainly be the worse for his riches; if he does not use exercise, which is but voluntary labor; if he does not restrain appetites by choice, as the other does by necessity. If he does not practice sometimes even abstinence and fasting, which is the last extreme of want and poverty; if his cares and troubles increase with his riches, or his passions with his pleasures, he will certainly impair in health, whilst he improves his fortunes, and lose more than he gains by the bargain; since health is the best of all human possessions, and without which the rest are not relished or not kindly enjoyed."

Few persons survive a century, and none live a decade beyond that period, in the opinion of present-day scientists who scoff at the reports of longer lives. The oldest men that William Temple encountered were countrymen, and he would probably find the same condition to obtain today. Sunshine, fresh air, exercise and temperance are still the only combination that produces health and maintains life for the maximum term.

OUTLAWS.

Now that the Canadians have been in the forefront of a fight in which the Germans used their deadly asphyxiating bombs, the people of this country will have a keener appreciation of the meaning of German kultur.

The purpose of this altogether outlawed system of warfare is to make easy for the Germans what they are not able to accomplish by legitimate means. They had hoped by the aid of their wonderful military machine to overwhelm any forces that might be arrayed against them. This hope failed, whereupon German kultur came to the rescue, declaring as legitimate the art of the poisoner.

With the Germans the old and fallacious principle of the end justifying the means is recognized as good. German kultur has declared that if it is impossible to conquer one's opponent in fair fight, foul means are justifiable. Hence the use against the allied forces in Flanders of the deadly asphyxiating bomb.

But even here German kultur has broken down again. For the moment the Teuton forces gained the advantage by this dastardly method of warfare, but only for the moment. Enraged at the contemptible tactics of these cowardly murderers the British and French forces came back. In the lead in this rush of revenge were the Canadians, doggedly determined to punish to the limit the enemy which feared to fight fair. And it was done.

There is nothing can save German kultur now. At the outset of the war there were many men among the Allies who were sympathetic, but today they know the German system better. It has demonstrated itself as well as to make it hated by every man who loves freedom and right. Its latest exploits, as evidenced in the justification of methods of warfare worse than barbarian, have only served to intensify the hatred against it. Nothing short of its complete extermination can now satisfy. And it will be exterminated.

PRESS COMMENT.

Archbishop Magee once shocked everybody by saying that he would rather see England free than sober. Nobody has been bold enough to dig up that audacious epigram during the hypocritical orgy on the drink question in which we have all been wal-

lowing for some weeks. The truth is, that there are many good patriots who are ready to rob the working man of his beer, but who are not ready to follow the example set by the King and Lord Kitchener. Sauce for the artisan goose is not in their opinion sauce for the aristocratic gander. I am not a professional cynic, but I confess I have been titillated by the backwardness of many great men in coming forward. Take, for instance, the smart London clubs. Not one of them has had the courage of the King's convictions. Not one of them has had the pluck to veto the sale of wines and spirits. Not one of them is sufficiently stoical to put itself on barley water and ginger beer for the duration of the war.—James Douglas in London Opinion.

Arras possesses an ancient church, Notre Dame des Ardents, which remained uninjured despite the recent terrific bombardment, and which contains a unique relic that is nearly 1000 years old. The relic is known as the holy candle. It is guarded in a richly enameled silver casket, made to the order of Jean de Sasquepe, lord of Baudimont and owner of Arras, and a curious history is attached to it. It appears that in May, 1105, the Holy Virgin appeared during the night to two minstrels. A terrible plague depopulated Arras at that time, and the virgin—so goes the legend—gave the minstrels a candle, which in turn gave to Bishop Lambert of Arras, and told them that the hot wax of this candle mixed with pure water would cure the inhabitants of Arras of the dreadful malady. The remedy proved efficacious, and a grateful populace erected the Monastery of Ardents. The candle has been carefully guarded, and it is the firm belief of the inhabitants of Arras that it frequently saved them from utter destruction.—London Tit-Bits.

Good company manners depend upon good home manners. As for table manners, the active child who from his earliest years has been accustomed to regular meals of simple food with sufficient variety for his health and pleasure, will be hungry enough at meal time to eat anything that is put before him. If from the beginning he has been encouraged by example, then good table manners will be as natural as breathing. They will be a part of him, and he will make use of them wherever he is. The place for a parent to begin training the manners of her child is with her own manners. Whenever a mother complains to me of the bad manners of her child she is unconsciously lodging a complaint against herself as a mother. Of course, a certain amount of boisterousness and wilfulness is to be expected, and hoped for, in the child; but bad manners spring almost invariably from the carelessness, lack of consideration, artificial ideals, lack of time—many busy mothers, it is true, cannot give the time they wish to their children—of those who are responsible for the child's training. The old ideal of training in behavior was based largely upon the principle of the child's consideration for its elders; the modern principle demands also the elders' consideration for the child.

The Appetite of Youth Quickly Restored

Appetite is useless unless digestion is good. Dr. Hamilton's Pills make tremendous appetite and keep digestion up to the mark as well. The liver, bowels and kidneys are stimulated, the stomach strengthened, and robust health quickly follows. Dr. Hamilton's Pills instill vigor and snap into the system, make folks feel youthful and happy. You'll forget you have a stomach, forget your days of sickness if Dr. Hamilton's Pills are used. MAGNIFICENT NEW DOCK FOR GRAND TRUNK PACIFIC NEARS COMPLETION AT SEATTLE.

Seattle, Ore.—No water front structure was ever built in the history of Seattle with quite such precautionary measures against fire as are being taken at the new Grand Trunk Pacific dock, the substructure of which has just reached completion. The new dock will be ready for traffic in July, within a year of the time when fire destroyed the original structure. If it is within the power of the Grand Trunk officials to prevent it, fire will never again make such ravages in their Seattle property. Just the length of the former structure, the new dock will have even a greater capacity, with improved arrangement and interior design. There are fire walls each 100 feet, and provision for sprinkler equipment. One of the unusual features is a hardwood driveway the entire length of the superstructure, composed of Australian ironwood. When completed the new dock and buildings will take efficient care of the greatly increasing coastal trade which the Grand Trunk Pacific does with its fine fleet of steamers between southernly and northerly points, including Prince Rupert and Alaska.

SPLITTING PAINS IN THE MUSCLES DRIVEN OUT QUICKLY BY "NERVELINE"

Rheumatic Pains Go—Suffering Ceases—Cure Comes in Even Chronic Cases. For aching bones and sore muscles nothing will sooth away the pain like Nervilleine. For nerve-racking twinges in the muscles, for torturing backache or lumbago, you'll find Nervilleine is full of amazing power. You see, Nervilleine has the power—it's about five times stronger than ordinary remedies, and can penetrate very deeply. It contains juices and extracts of certain herbs that give it a strange power to drive out congestion, inflammation or pain. You are safe in using Nervilleine. Just rub it in—it won't blister or burn and can do nothing but good. Whenever there is pain or suffering Nervilleine will go and will drive it out. It penetrates to every cell of a sore muscle; it sinks to the heart of every stiff, sore joint; it searches out the pain of rheumatism quickly. Give Nervilleine a trial. See how fast it will limber your sore back, how quickly it will cure neuralgic headache, how fast it will break up a bad cold or ease a sore throat. The best family pain-remedy ever made is Nervilleine. Forty years of great success proves this. For emergent ills, when the doctor isn't handy, there is nothing better than the 50c family size bottle; trial size 25c; all dealers or the Catarthozone Company, Kingston, Ont.

APPEAL AGAINST THE USE OF ALCOHOLIC LIQUOR

In the Anglican Churches in this city yesterday, at the request of the Lord Bishop, a resolution passed by the House of Bishops, requesting members of the Church to abstain from the use of alcoholic liquor as beverage during the continuance of the war, was read. In some of the churches sermons strongly in support of the resolution was preached.

EFFECTS OF HIGH TIDE.

Owing to the strong easterly gale and spring tides, on Saturday morning, the water went over a number of wharves, and cellars along Dalhousie street were flooded. In the Custom House cellar the water rose three feet and extinguished the fires in the furnaces. The rushes that come down from Lake St. Peter in the spring was carried up by the tide into Dalhousie street. People having business in the Grand Trunk and Intercolonial Railway freight sheds on Prince of Wales street were compelled to reach them in vehicles.

Appointed Accountant of C. P. R. Chateau Lake Louise.

Mr. A. G. Kerr, assistant accountant of the Chateau Frontenac, has been appointed accountant of the C. P. R. Chateau Lake Louise, Laggan.

Mr. Kerr was on Saturday remembered by his fellow employees at the Chateau Frontenac in the reading of the following address and the presentation of a travelling companion.

The address was read by W. D. Twynam, chief steward of the Chateau Frontenac, and Mr. Kerr replied in a few well chosen and appropriate words.

Quebec, May 1st, 1915.

To Mr. Archibald G. Kerr.

"Having learned, with the greatest pleasure, of your well merited promotion, we are assembled here to offer to you our heartiest congratulations. Whilst we regret your departure from our midst, we nevertheless, are delighted at your advancement and wish to extend to you our best wishes for your success in the new position which you are about to enter upon.

"Your kind and affable character and congenial friendship has been to us all that could be desired and we trust that the days spent with us at the Chateau Frontenac may be ever fresh in your memory.

"As a slight token of our esteem and good will, we beg you to accept this travelling companion, which we hope will be a kind remembrance of the pleasant days spent among us."

Mr. Kerr left last evening, May 2nd, for the West, carrying the good wishes of all his friends.

LAJOIE GOING FINE FANS PREJUDICED

PHILADELPHIANS WON'T GIVE CREDIT JUST BECAUSE HE'S IN COLLINS' PLACE.

Philadelphia, April 29.—Pitchforked into as tough an assignment as ever was drawn by mortal ballplayer, Larry Lajoie is patiently enduring an experience without parallel in all the years he has been playing major league baseball.

For the first time in the almost 20 years he has spent under the big ten, Lajoie finds his home fans almost entirely out of sympathy with him and all his works, more reluctant to grant him the recognition he deserves than if he had done each of them a personal wrong.

Philadelphia is visiting upon Lajoie the resentment it feels toward Connie Mack for disposing of Eddie Collins last winter. If an opponent's hit finds its way through the infield at any point within 30 yards of Lajoie's station many of the fans take a peculiar pleasure in speculating as to what Eddie Collins would have done with the play, and almost invariably they agree that with Collins at second the thing would have been an easy out.

When Larry does field a batted ball the fan makes a point of describing with what infinitely smoother skill Collins would have handled it.

Because Larry did not annihilate seven Boston pitchers and eight or ten Boston infielders while the Red Sox were here last week, these fans decided that Larry had seen his day; that never again would he be the larruping marvel of old and that in foisting him upon them after Collins had been sold—sold for mere money—Connie Mack had done the glorious fandum of Philadelphia an irreparable wrong. And so most of Philadelphia is "off" Lajoie.

But not all the Quaker City. There are a few fans in town who have been able to see that Larry has "come up" with every batted ball he has reached more than the average infielder tries for; that he has yet to make a poor throw; that he alone of the entire Athletics team has been untouched by the epidemic of duck flutters that has made the outfit the despair of the dopsters who expected it to be a strong contender despite the things that happened to it last winter.

HERZOG FIGHTS WITH UMPIRE.

St. Louis, Mo., May 2.—Umpire Rigger and Manager Herzog of the Cincinnati National League Club fought on the local National League field during Saturday's game and later caused each others arrest on charges of disturbing the peace.

Herzog disputed Rigger's decision on a play in the seventh inning and was ordered off the field. Later he returned, and according to Rigger insulted the umpire. Rigger tore off his mask and appeared to strike Herzog in the face with it. Several players and 12 policemen then separated the men. Herzog suffered a bleeding nose and discolored eye, while Rigger was severely gashed in the foot, where he claimed Herzog spiked him. Herzog denies this, claiming that Rigger accidentally spiked the umpire. Rigger bears out Herzog in this respect.

Rigger and Herzog will appear in court Monday to prosecute each other, they said.

GIANTS WAIVE CLAIM ON KAUFF.

President of New York Club Surrenders Contract Jumper.

New York, May 2.—As a result of a conference between H. M. Hempstead, president of the New York National League Baseball Club, and R. B. Ward, president of the Brooklyn Federal League Club, held yesterday in connection with the special meeting of the Federal League called to consider the status of player Benny Kauff, Mr. Hempstead announced that he had surrendered all the claims of the New York Giants to the services of Kauff.

Mr. Hempstead's statement said: "In our conference Mr. Ward brought to our attention facts of which we had no previous knowledge and which we believe give him the right to Kauff's services. Had we known these facts in the first place we would not have felt at liberty to sign Kauff, and having learned of them we willingly surrender his services to Mr. Ward.

Sporting Notes

A cold easterly wind accompanied by a drizzling rain, and a muddy field closely resembling a quagmire, proved too much for the opening of the local baseball season and as a result baseball players and fans wore such dejected looks yesterday that one would almost imagine they had lost all their friends and relatives at the front.

Look at the bright side of the picture and think what a great help another week's practice will be. Optimism is right.

A mathematical fiend has concluded that Willie Hoppe, the billiard champion, has walked over 3,000 miles around a billiard table.

The mathematician discovered that Hoppe usually walks two miles around a table when playing a game of 500 points. Hoppe plays 60,000 points a year, so that means he walks 300 miles yearly.

He has been champion something like nine years, and did quite a bit of around-the-table walking before he became title holder. So his walking total goes over 3,000 miles.

If Willie Hoppe covers so much ground—and he is a marvel—don't forget that—how many miles must some of our local sharks have travelled in their time around the tables trying to run out a hundred in two hundred innings or more. No wonder the boot and shoe trade pays in Quebec.

In New South Wales, in order to popularize cricket, the number of balls to the over has been increased to eight. This should effectually dispose of the well-worn remark that it is nearly all over with cricket.

St. Patrick's Baseball Club will practice Tuesday evening on the Plains.

The Duckpin League opens tonight. St. Patrick's vs. Quebec, Lowertown vs. Irish-Canadians.

Thoubaus, the champion javelin thrower of France, has been killed in action near Ypres while leading an attack against a German position. He had recently been promoted adjutant of his regiment for conspicuous bravery.

Harvard, Yale and Princeton have decided to "cut out" baseball slang during the play and eliminate it from stories of the game in their journals. We may expect to read how "Percival De Smith resumed his seat on the bench designated for the players after vainly endeavoring to strike one of Mr. A. G. Spalding's baseballs which was thrown with wonderful precision and dexterity by Mr. Reginald Murphy, pitcher of the 'Varsity baseball team," instead of "Smith fanned."

"If I can win over George Chip, Jack Dillon and Jimmy Clabby within the next six months and so stand out as the recognized champion middleweight boxer of the world, I shall retire from the ring."

That's the latest from Mike Gibbons. Mike says his aged parents and his wife have begged him to quit the roped arena, and he says he feels he can afford to do this now he has an income that nets him \$450 a month.

Jim Coffey is preparing to camp on the trail of Jess Willard and lose no money on the trail. This is provided he knocks out Al Reich at Madison Square Garden May 5. If he does, the Dublin giant is going on a theatrical tour following up the Willard show under the management of Billy Gibson. We suppose Willard will be challenged every night from the Coffey stands. There is a vaudeville and athletic show attachment to enrich the Coffey pot. The plan apparently is eventually to force the champion into a fight after following him along on a trail of reflected glory with an intention of overtaking him as long as the going is good.

Montreal won one and lost two over the week-end from Newark, thereby getting an even break on the series. Not bad for a Montreal team.

Popular Pastime No. 94.—Wondering when the sun will shine again.

Newark 000 000 000—0 3 0 Plank and Chapman; Falkenberg and Roriden.

Second game: R. H. E. St. Louis 002 000 000—2 5 1 Newark 010 000 000—1 6 1 Groom and Hartley; Kaiserling and Rariden.

THE RUSSIAN LANGUAGE. Charles Sarolea in an article in London Everyman on "Thoughts on the Russian Language" notes that in its grammatical structure, as well as in its vocabulary, it is nearer than any other living tongue to the older Indo-European tongues like Sanskrit and Lithuanian, but that as a written and literary language, as a vehicle of prose, the Russian language is almost of yesterday. It is today the dominant language of 170,000,000 of people.

"Nor must it be forgotten," he says, "that the Russian is the key to a dozen other Slavonic languages; that it is closely allied to the Bulgarian language and to the Serbian language. And, finally, it has to be kept in mind that Salouiki or eslesiastical Russian is the common sacred language of all the Greek orthodox Slav nations."

For my own part, I have ever gained the most profit, and the most pleasure also, from the books which have made me think the most; and, when the difficulties have once been overcome, these are the books which have struck the deepest root, not only in my memory, and understanding, but likewise in my affections.—Julius Charles Hare.

DENIES WHEAT WAS TRADED TO GRANTS Manager Robinson of Brooklyn Knows Nothing of Negotiations. Philadelphia, April 29.—Manager Robinson of the Brooklyn team last night emphatically denied that a deal had been completed between the New York and Brooklyn Nationals by which the Giants would have secured Zach Wheat in exchange for two outfielders and a pitcher. Robinson declared that to the best of his knowledge, no negotiations affecting Wheat were even pending. In exchange for Wheat, Manager McGraw of New York, it was reported, would turn over Outfielders John Murray and Dave Robertson, together with Pitcher W. D. (Polly) Perritt, to the Brooklyn Nationals, who jumped to the Pittsburg Federals last winter, but was persuaded to jump back to the Giants. He has lost all three games in which he started this season, being knocked out of the box in three innings in each of his last two games.

BY-LAW No. 10.

Concerning the Assessment of Assessable Property, in the City of Quebec, and to amend By-law No. 2-B, Concerning the School Tax.

(Drawn up in the French Language.)

At a meeting of the Municipal Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the twenty-third day of April, one thousand nine hundred and fifteen (1915), in conformity to law, and in virtue of a By-law passed by this Council pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting were present two-thirds of the members composing the Council of the City of Quebec, that is to say: His Worship the Mayor Aldermen Bouchard, Cannon, Cote, Dinan, Dussault, Emond, Galibois, Garant, Gauvin, Lantier, Lavigne, Lockwell, Madden, Martin, Paquet (B), Verret, Walling.

It is hereby ordained and enacted by the Municipal Council of the City of Quebec as follows, to wit:

1. Article 5 of the By-law No. 2-B, is replaced by the following:

"A tax of three tenths (3-10) of one per cent of the real value annually assessed upon immovable property belonging to proprietors of the Roman Catholic faith in this City is hereby imposed and shall be levied upon the said immovable property, in order to collect the sums payable each year by the City of Quebec, to the Board of Catholic School Commissioners for the maintenance of the Catholic school in this city, in conformity with the law."

A tax of four-tenths (4-10) of one per cent of the real value annually assessed upon immovable property belonging to proprietors of the Protestant faith in this City, is hereby imposed and shall be levied upon the said immovable property, in order to collect the sums payable, each year by the City of Quebec to the Board of Protestant School Commissioners for the maintenance of Protestant schools in this City, in conformity with the law."

Application of the Eyes causes Eye-Strain.

Close application of the eyes to any kind of work is a strain on the eyes and headaches are very often due to that or caused by a strain of the eye muscles.

When your eyes grow tired after working or reading, be careful and see if your glasses are correct and if you have what you want. In nearly all cases of eye strain or headaches we can give you glasses—fitted properly which will render work quite easy and we charge you nothing for fitting your sight.

All prescriptions of Oculist filled up at once. All compound glasses cut at home at an hour's notice.

NEW STEAMER OF THE RUSSIAN-AMERICAN LINE FOR CANADIAN TRADE.

Due to the continuous growth of the business of the Russian-American Line and the development of the trade between Canada and Russia, a new steamer has been added to the fleet. The new steamer Czaritzia, will make her maiden trip to Archangel on May 22nd, 1915. The steamer Czaritzia was built by Barclay, Curle & Co., at Glasgow, and all the latest improvements in shipbuilding have been introduced on this steamer. The displacement of the Czaritzia is 14,500 tons, her length is 435 feet; beam 58 feet, and height from waterline 36 feet. She is a twin-screw steamer and is equipped with 90 sets of quadruple expansion engines, giving a speed of about 18 knots an hour. For the safety of the vessel and its passengers, all the latest appliances have been provided, including an automatic hydraulic system of closing the water-tight compartments into which the hull is subdivided, automatic fire extinguishers, wireless telegraphy and sufficient number of lifeboats and life preservers to provide for the entire number of passengers and crew.

THE FIRST OCEAN PASSENGER STEAMER

TO ARRIVE HERE THIS SEASON—METAGAMA HAS THE HONOR—PRESENTATION TO CAPTAIN.

Despite the strong easterly gale and heavy rain that prevailed on Saturday, the officials of the Customs House, Immigration Department, the C. P. R. and G. T. R. Companies, Dominion and Canadian Express Companies, and the Harbor Commissioners were early on the Breakwater to await the arrival of the C. P. R. Company's R.M.S. Metagama, Commander G. S. Webster, R.N.R., the first vessel from Europe, to moor at Quebec this season.

Captain Murray, Harbor Master, had everything on the dock ready for the reception of the liner which was making her maiden voyage to Quebec, although she was in Halifax during the past winter. Precisely at 5.00 p.m., the Metagama entered port and headed for the Breakwater. Captain Verina and his boat's crew were on hand and, as soon as the steamer neared her berth, carried his mooring ropes ashore, and in a short time the liner was safely made fast to the dock.

The Metagama, which left Liverpool on Friday afternoon, April 23rd, had on board 351 cabin and 251 third class passengers, a very heavy mail and a general cargo. Mr. Arthur Rawland, Assistant Marine Superintendent; Mr. George Moore, City Passenger Agent, and Mr. James McKenna, Travelling Passenger Agent of the C. P. R., were on hand to attend to the duties of their respective offices, and render any assistance required to the new arrivals.

The Metagama, which is the latest addition to the C. P. R. fleet, was fully described in the columns of The Chronicle at the time of her trial trip last fall. She is a counterpart of her sistership the Missanabie, which visited this port several times last season. Passengers who have crossed the Atlantic many times, who arrived here on the Metagama on Saturday, said that she is in every particular a splendid vessel and an excellent seaboat, and that the service on board is not surpassed by any steamer on the Atlantic.

Commander Webster reports his weather on the Atlantic. Saw some ice, but suffered no detention from it. Having landed passengers and the mails, the Metagama left for Montreal at 4.00 a.m. yesterday.

PRESENTATION TO COMMANDER WEBSTER

As the Metagama was the first steamer from Europe to stop at Quebec this season, the Harbor Commissioners presented her commander with a valuable umbrella, as a souvenir of the event. The presentation was made by Captain Murray, Harbor Master, who congratulated Commander Webster on being in charge of the first ocean liner to moor at Quebec in the season of 1915.

Commander Webster, in accepting the gift, expressed himself as greatly pleased at the kind thoughtfulness that prompted the Commission in making the present, more especially as this was the Metagama's maiden trip to the St. Lawrence, which he hoped would be followed by many more.

The inscription on the umbrella read as follows: "First arrival, Quebec 1915, presented by the Harbor Commissioners."

Canada S.S. Lines. R. M. S. Laurentian, left here yesterday morning, for Natashquan and way ports, with passengers, the mails, and a general cargo.

Gaspe Line. The steamer Lady of Gaspe, Capt. Deslauriers, from Gaspe and Baie des Chaleurs ports, with passengers and a general cargo, arrived here yesterday morning.

COMMERCIAL NEWS
NEW YORK MARKET.
(Canadian Press)
New York, May 1—In its main aspects, today's short session of the Stock Exchange was largely a repetition of recent days, in the sense that a very considerable part of the turnover was again in so-called war stocks and allied shares. Westinghouse and others in that class constituted the most prominent features, although they failed to make new high records, and, in fact, reflected selling for profits at the end. Stude-Baker was the strongest of the motor group, with a new high record on rumors of dividend prospects.
Standard stocks were more or less neglected throughout and for the most part fell under yesterday's lowest quotations, though showing some betterment at the close. United States Steel was the only one of the speculative favorites to show relative steadiness, rising to its best in the final dealings.
The market was more than an ordinarily professional affair, much of the trading, which exceeded half a million shares, representing week-end settlement of outstanding contracts. The course of prices from time to time suggested a renewal of bearing operations in some of the more vulnerable issues.
General news of the day, which dealt with improved conditions in many lines of trade, particularly textiles and steel, together with latest war developments, played little if any part in the day's operations.
The bank statement was in line with expectations, showing a large actual cash gain, with an expansion of over \$30,000,000 in loans, the latter a natural reflection of the week's activity in the stock market.
Total sales of stocks amounted to 508,000 shares.
The bond market was even more irregular than the stock list, on a minimum of trading. Total sales, par value, aggregated \$2,250,000.
United States coupon and registered 2's and Panama 3's declined 1/4 per cent. on call during the week.

NEW YORK LETTER.
McDougall & Cowans, Stock Brokers, 81 St. Peter Street, Quebec; H. S. Thomson, Mgr. Tel. 246.
New York, May 1—The market opened with great strength and activity in a number of specialties but almost complete neglect of the standard stocks. This condition continued throughout the first hour but it was checked at 11 o'clock and from that time until the close at noon sharp declines occurred where the upward movements have recently been most pronounced. If this should have the effect of diverting speculative interests from stocks, which usually have only a narrow market into the standard issues the change would be one upon which Wall Street might have reason to congratulate itself. U. S. Steel was firm when the general list reacted and showed considerable strength at the close, when it was rumored that company was likely to receive an order for war material much larger than any yet placed. Of these reports there was no confirmation but the stories were considered reasonable if it would be rather strange if all sorts of manufacturing companies could get contracts for steel in various forms and the company which has the finest facilities for the manufacture of such products should go without them. Of course much of the materials used by the U. S. Steel Corporation but this is not as important a factor as would be a large contract for finished supplies. The standard stocks which did little when the specialties were strong did not react much when they sold off and while the tone of specialties was uncertain at the close the standard stocks were generally steady and Steel was strong. Total sales, \$513,000; bonds, \$2,292,500.

CITY OF QUEBEC
CITY CLERK'S OFFICE
CITY HALL
TENDERS FOR PUBLISHING DOCUMENTS AND FOR ADVERTISING.
Quebec, 20th April, 1915.
PUBLIC NOTICE is hereby given that sealed tenders will be received from this date until Friday, the fourteenth day of May next (1915), at 4 o'clock P.M. for the publishing of advertisements, Public Works, proposed or adopted. By-laws, Orders of the Day, Minutes of Council Meetings, Committee Meetings, Resolutions or Reports of Council, or Committees, and all documents which the law prescribes to be published or which the Council may order to be published or whenever required by His Worship the Mayor or the heads of the several Municipal Departments of the City of Quebec, etc., to be advertised in one French and one English newspaper, of the city, from the 1st of June next to the 31st of May, 1915. The prices to be specified for one year and calculated "en bloc" or per line of 24 ems Brevier. The contractors to whom the contract is awarded shall furnish without extra charge to His Worship the Mayor and the City Clerk to each two copies of their newspaper, two in French and two in English, i.e., four French and four English copies gratis of each newspaper exclusive of the copies for which the city pays the ordinary annual subscription. They shall publish in their papers the proceedings of the Council and of the Committees of the Council and of the Committees and Advertisements and Public Notices which shall be sent to them by His Worship the Mayor or by the heads of the several departments of the Municipal service, and all documents which shall be sent to them in execution of the contract, the day after they have received them, and publish them daily until the expiration of the delays mentioned in said notices or advertisements, and if they fail to do so, they shall suffer a penalty of ten dollars, which may be claimed from them by the city for each day of delay. The contractors shall also deliver to the City Clerk one hundred French copies and fifty English copies in foolscap pages, printed on one side only, of the minutes of all the meetings of the Council, and also of all By-laws published in their columns, without extra charge, and if such minutes or By-laws are published a second time they shall also supply one hundred French and fifty English copies of such second publication when they shall be required to do so. They shall also (whenever requested to do so) supply the same number of French and English copies of all the Minutes of Committee Meetings, Reports and Resolutions of Council or Committees. Advertisements or Public Notices published in their newspapers. Besides the sum asked for the total amount of the contract, those who shall tender must specify a special and separate price for the publishing of the list of complaints against the lists of parliamentary electors, in case the City should decide to publish them in the newspapers obtaining the contract for advertising. The tenders to be endorsed "Tenders for Advertising," addressed to and deposited in the office of the City Clerk, from whom all information may be obtained from 10 A.M. to 4 P.M. daily. The City Seal shall be put at the head of all the notices without extra charge. The fees for the drawing up of the contract and two copies for the city to be paid by the contractor. The city does not bind itself to accept the lowest or any of the tenders. H. J. B. CHOUINARD, City Clerk

New York, May 15—The market today has been erratic in the extreme, with fluctuations such as are seldom witnessed, violent moves taking place first in one direction and then another. Experts figure out that the decision in the wage arbitration, announced yesterday, means an increase in wages of about \$1,000,000 for all of the roads involved, which really amounts to nothing considering the vastness of the territory covered and is favorable to the railroads. Prices were inclined to be reactionary in the latter part of the session but were never weak and some stocks like Steel, which have been laggards heretofore, were actually strong. Commanding Influence at Vienna.
We have it on the authority of New York papers that the conference which has been held at Vienna for the settlement of European affairs after the war and at which so many rumors have emanated, even to the extent that war was again inevitable owing to the rapacity of some of the continental powers demands, and that the Parisians had been so long used to a state of war that they would welcome a recommencement of it irrespective of what country it was declared. But thanks to wiser councils and the commanding influence wielded by Great Britain since the war with the United States is happily ended, the congress at Vienna has been enabled to come to an amicable agreement.

Louis XVI. and Marie Antoinette.
Since the return of the Bourbons to France, the King has been anxious to show to the world that the French people were anxious to consecrate, by a solemn and public testimony, the affection which, although concealed for a great number of years, they have always felt towards the unhappy King and Queen, has ordered that each and every year a public service for their souls shall be celebrated in all the churches of the kingdom. The French people may, or they may not, have changed their minds regarding the part they took at that terrible time, but we venture to think that the change is not deep seated, but more on the surface, and that should occasion arise and circumstances admit, it will be found that the people of France are still the same people, though under Napoleon they for the time being seemed docile enough. The Cap Rouge Ice.
At this time 30 years ago, the ice in the river at Cap Rouge was still holding fast. Major Radan, of the Royal Military College is at the Citadel and will, we learn, make an attempt at about noon today to dislodge the ice barrier at this point. The signal corps of the 8th Royal Rifles will give their services on the occasion; one party will be placed on the heights at St. Nicholas, and one party at the Citadel, and the result of the operations will be telephoned to the Chronicle.

Arrival of First Steamer.
It is rather an unique experience for our marine reporter to have to announce the arrival of the first steamer of the season, not on its own keel by water, but on wheels and overland. This steamer is well fitted up with all modern improvements, and will be ready for sea as soon as she is provided with suitable machinery. This vessel, though not quite amphibious, has travelled on wheels from Lake St. Joseph, where she was launched onto a baggage car and transported to Quebec. Her construction is after the model of the Allan steamer "Peruvian." She is full rigged, 6 1/2 feet in length overdecks with a 6-foot keel, and is the work of Euchariste De Gagne, of Lake St. Joseph. Being the first arrival of the season, this vessel will be entitled to exemption from harbor dues.

**MUTT AND JEFF IN MEXICO
WHICH WILL BE PRESENTED
TONIGHT AT THE AUDITORIUM IS A CONSTANT ROUND
OF LAUGHTER.**

Mutt and Jeff, which are here today and will present their wonderfully amusing comedy tonight, tomorrow night and Wednesday, matinee and night at the Auditorium were well appreciated in Montreal, where they played all last week, but the appreciation given in an Ottawa newspaper shows better yet, we think how popular these two figures are. He is what the paper says
Mutt and Jeff, the two funny characters created by Bud Fisher, returned to Ottawa last night in the Russell theatre in the musical comedy, "Mutt and Jeff in Mexico." They were greeted by a large audience which never tired of the comicities and absurdly humorous antics of these two figures of the popular cartoons. There was a constant round of laughter when the lanky Mutt and the diminutive Jeff occupied the stage, and their very appearance was the signal for renewed outbursts of laughter. What the attraction in these two characters is so hard to define, for there were never invented two more cowardly, indolent and altogether unprincipled persons. Yet perhaps because they epitomize in their characters all the human frailties and failings there is something likeable about them.
"Mutt and Jeff in Mexico" is all new to Canadian audiences. There is introduced new songs, scenic effects, dances, costumes, and, of course, the two comedians, in Mutt and Jeff, have entirely new lines, jokes and puns. The comedy cannot be taken seriously, and this is intentional on the part of the author. There never was so much fun and laughter, color and music, crowded into two hours. It is in three acts, and into each has been woven a musical theme as many musical hits in each act as in the whole of a number of other musical comedies that have been seen. And there is something brighter and better about the costumes of principals and chorus, and the scenery is also more elaborate than usual.
The prices for the evening performance are 25c, 50c, 75c and \$1.00, and 25c and 50c for the matinee.

AMERICAN VISITOR TO QUEBEC SPEAKS OF WAR AMONG OTHER THINGS

Mr. M. G. Bulkeley, president of the Etna Life Assurance Company, ex-Governor of Connecticut, and a former Mayor of Hartford, Conn., after touring mostly every city of note on the American continent west of Quebec, arrived in this city yesterday accompanied by Mrs. Bulkeley and Miss Bulkeley, of Hartford; Miss English, New Haven, and Miss Houghton of San Francisco.

Spoken to at the Chateau last evening, Mr. Bulkeley stated that Quebec was included in his itinerary, and the trip here was purely pleasure. The party has been travelling since the middle of February. While in the Southern States the Panama-Pacific and San Diego Exhibitions were viewed. Mr. Bulkeley was very much impressed with both exhibitions and stated that Canada's exhibit at San Francisco was a splendid one and it brought nothing but the warmest praise from the many visitors.

Mr. Bulkeley while in San Antonio, had the novel experience of riding over about thirty miles of a farm of 750,000 acres area, which belongs to a former Vermont boy, an old friend of his. The attempt to cover the entire stretch of land in one day was given up as a hopeless task.

In the West, notably at Vancouver, Mr. Bulkeley found the progress made in recent years was wonderful. He found business on the whole good, although complaints that the lumbering industry had not been quite as brisk as before the war were heard. He stopped off at Banff Springs, Lake Louise and was particularly taken up with the ride through the Rockies.

Mr. Bulkeley who has lived through the Civil War in the United States, evinces a keen interest in the present European struggle. After being told of the late war bulletins the president of the Etna Life Assurance Company, when asked, stated that Americans felt very strongly in favor of the Allies in this war. Of course, he said, the love of the German-Americans for the Fatherland was hard to be denied, but still there was no mistaking the fact that all Germans in the United States did not favor the policy the Kaiser and his advisors were pursuing.

Enquiries were also made by the visitor as to how the Canadian volunteers in and around Quebec were getting on. A large number of boys making up the First Contingent, were insured in the Etna company, said Mr. Bulkeley. He is under the impression that the American travel to Quebec this summer will be exceptionally good.
The party will remain in the city until Wednesday.

Evidently the fish don't believe in changing their quarters on moving day.
If you can't get a trout, catch a smelt.
"The Germans," writes a correspondent from the French front, "have done much in Champagne which they will regret in their sober moments." We believe it.—Punch.
"That's ever so much simpler than these wretched Russian names," said a dear old lady when she read that the Germans and the Turks were coming to "Loggerheads."

"The Kaiser," declares a German Professor, "is as innocent of this war as a little babe." Exactly, as a little babe—in arms!
There is said to be a very large number of dentists in the New Army. They ought to come in very useful for filling gaps at the front.
Can no correspondent tell us the truth about whether there is a shortage of Hamburger steak in Hamburg?
Japan's plans for preserving the integrity of China have not unnaturally roused China's suspicions of the integrity of Japan.
Our ancestors on May day danced the Maypole dance. Their descendants now dance up and down the front steps watching the furniture being carried out.
Incidentally, we may ask why should King George drink barley water when there are so many other better soft drinks?
According to pugilist ethics, Jess Willard has to wait until his defeat to gather in the biggest bunch of money. It's the only business that confers a consolation prize.
There are different opinions as to what constitutes real accomplishment. As illustration, some towns don't seem to appreciate the man who knows his lodge ritual book by heart from cover to cover.
In the spring comes the call of the wild, and it continues to become wilder until the latter part of July or early August, when many devote as much as two weeks to responding to it.
