

ALLIES NEAR FORMER HUN HEADQUARTERS; BRITISH AND FRENCH FULL OF CONFIDENCE

Sunday Was Comparatively Quiet—German Attack in Lorraine Repulsed—Russians Win Success Against Turks—Heavy Fighting in Poland—Germans Much Concerned by Allied Advance in West.

Paris, July 17.—(Special)—The Germans made two attacks in Lorraine last night. The War Office report of to-day says both assaults were repulsed.

ALLIES FIRM IN JOINT OFFENSIVE

**FRENCH WILL STRIKE SOON FOR
CROSSING OF RIVER
SOMME.**

London, July 17.—(Special)—The Anglo-French advance has brought the Allied troops where they made a junction, to a point about a mile in front of Comblès, which prior to July 1, when the offensive began, was the German headquarters on this sector.

Quiet prevailed on the British front Sunday.

The detachment which had been thrust forward to the third German line of Pourcieux Wood, to protect the infantry operations, has now been withdrawn to the main position. The casualty lists, as announced, total 227 officers dead and 457 wounded or missing, 597 men dead and 1,832 wounded.

The British are keenly watching for the next move on the French front, where comparative quiet still prevails. The Germans are strongly placed on the Somme above Peronne, with the protection of the river and its marshy banks. Crossing of the river by the French will involve serious fighting, with probably heavy losses. The British and French armies, however, are full of confidence in each other, and the result of the joint offensive seems daily to be more assured, as there is no evidence of any new units of reserves coming from the interior of Germany.

Further significant news has been received to the effect that the Portuguese Government has equipped an army with everything necessary to enable it to fight side by side with the Anglo-French armies, and that this army is ready to answer the call whenever required.

Although there is still severe fighting on the Lutsch salient, interest in the Russian front is in the Caucasus operations, the Russians having captured the important strategic point of Balburt.

GREAT ANXIETY IN GERMANY

**DUTCH REPORT SAYS TEUTONS
ARE DISMAYED BY ALLIED
ADVANCE.**

Rotterdam, July 17.—(Special)—The British army's new success has caused the deepest anxiety in German hearts, when the forward movement perhaps is only in its first stages. It is fully realized that this success is not only of importance in itself, but has infinitely greater significance than the assault on the first lines.

Whilst German headquarters were prepared for the necessity of giving way at some points when the British offensive was first launched, they believed that the second line would be able to withstand all pressure. The positions just captured were defended with great strength.

After the taking of the first line by the tremendous British attack, efforts were made to reinforce the second line with men and guns, and troops brought up, not only from other fronts, but large drafts or even fresh formations from depots behind the front and also in Germany. The Germans reckoned on a repetition of the Neuve Chapelle-Loos-Champagne campaign, when by concentrating troops at the points threatened they prevented any further advance.

That the second British blow succeeded is recognized as the most significant fact associated with any of the Allies' military operations since the beginning of the war. It is possible that the Germans did not realize in time the tremendous force the Allies would put into their blows, and they did not abandon the offensive near Verdun. Although a certain number of troops were hastened away to some districts, they were quickly replaced with drafts from depots.

The German Government, through the press, is representing the fighting on the Meuse as of real importance in

the situation on the western front. On the successful British offensive the military critics are silent, with an unanimity which cannot be accidental, whilst all the papers give prominence to trivial German successes in the Verdun district. A neutral traveller from Berlin states that when the report came in that the British offensive had really commenced the people were amazed and for two days did not believe it. The amazement now, however, has given way to dismay. The moral effect of the British success is even of greater importance than the results achieved on the field. The British effort is a spiritual equivalent to an invasion of Germany.

FRENCH OFFICIAL

**GERMANS ATTACK A TRENCH
HELD BY RUSSIANS, BUT
ARE REPULSED.**

Paris, July 17.—(Special)—The French official report to-day says: "The attacks in Lorraine were delivered at a point southeast of Nomeny.

"West of Fleury the French made some progress, taking three machine guns.

"A raid on a trench in the Champagne occupied by Russian troops was met successfully by a counter-attack, causing heavy loss to the Germans.

"On the Verdun front the night was comparatively calm, except in the vicinity of Hill 304, where rifle firing was brisk."

AFTERNOON FRENCH OFFICIAL

Paris, July 17.—(Special)—The French official report this afternoon says:

"Between the Oise and the Aisne, before Moulin-sous-Tout Vent, a strong reconnoitering party of the enemy was dispersed by our fire.

"In Champagne a surprise attack delivered by Germans against a trench in the sector held by Russian troops was broken up by a counter-attack which inflicted losses on the enemy.

"On Verdun front the night was calm, except near Hill 304, where there was spirited rifle firing. West of Fleury detachments of our troops made some progress and captured three guns.

"After a rather long bombardment the Germans delivered two attacks against our positions in the region of Ham, in Lorraine, southeast of Nomeny. Both attacks were repulsed and prisoners remained in our hands.

"There were no important developments on the remainder of the front."

FIGHTING ENEMY IN THE OPEN

**BRITISH GET BEYOND TRENCH
WARFARE AT SOME POINTS.**

British Front in France, Saturday, July 15, via London, July 17.—Continuing their offensive, the British who yesterday drove through the German second line of defence, now have taken all of Delville Wood, which was stormed by the South Africans, and the High Wood, establishing themselves beyond Bazentin-le-Petit, advanced parties having been to the outskirts of Martinpelch, Pozieres and some other points close to the third German line defence. The weather remains dry and warm.

The operations after Saturday's advance were more in the nature of open fighting, the Germans using strong points on favorable ground which were good machine positions to gain time in rallying reinforcements, while the British dug new trenches, which arrived and dig new trenches while the British dig in opposite them with each stage of the advance. Frequently they are so near each other that neither side dare use its guns.

Possession of stretches of woodland becomes as important as that of villages. The German defenders of Trones Wood had orders to stand to the last man and the orders virtually were obeyed. Cases have been numerous in the woods fighting, where British and German have been pierced by each other's bayonet. It is amazing in the thick of the struggle at all points stretcher bearers manage to bring out the wounded.

The Germans are keeping up a heavy volume of artillery fire in an-

**Take German Trench Near
Pozieres, Latest Report**

London, July 17.—(Special)—The British to-day captured a German trench in the neighborhood of Pozieres.

WATERVILLE MAN WOUNDED

**G. E. WATTS APPEARS IN TO-
DAY'S CASUALTY LIST.**

Ottawa, July 17.—(Special)—The latest casualty list, issued this morning, gives the names of the following Eastern Townships men:

Wounded—F. Trudeau, Joliette; G. E. Watts, Waterville.

RUSSIANS IN FRENCH TRENCHES

**First Report Of Appearance At
Front In Today's Reports**

**ANOTHER CONTINGENT HAS
ALSO ARRIVED IN FRANCE.**

New York, July 17.—(Special)—A cable from Paris to the Tribune says: "One brief statement in the official communique issued last night took Paris by surprise and caused much speculation in military circles. 'On the Champagne front there has been great activity by Russian and French patrols.'"

Undoubtedly the Russian patrols mentioned formed part of the Czar's forces landed at Marseilles early last spring after a perilous trip by way of the Red Sea. Not for months has there been any intimations as to the whereabouts of the Russians, who nearly circled the Globe to fight side by side with their allies in the west.

Vague rumors have reached Paris from time to time that these Russian troops were on their way to some part of the French front, but last night's statement is the first authentic intimation that they are actually supporting the allied lines. That the Russians should have appeared suddenly in Champagne is taken here to indicate either a sudden local offensive by the French, or the region of the transferring of part of the French forces in Champagne to the threatened points at Verdun or on the Somme.

**MORE RUSSIAN TROOPS ARRIVE
IN FRANCE.**

Paris, July 17.—(Special)—A contingent of Russian troops disembarked to-day at Brest, France.

ARABIAN REVOLT MAKES PROGRESS

**HUNDRED OFFICERS, 2,500 MEN
AND LARGE QUANTITY OF
MATERIALS CAPTURED**

London, July 17.—The revolt against Turkish rule in Arabia is making progress, having resulted in the complete wiping out of all traces of Turkish resistance at Mecca, according to a Reuter despatch from Cairo today.

After the fall of Mecca on June 13, says the despatch, certain elements of the garrison continued their resistance in forts near the city. In order to avoid bloodshed the Grand Sheriff, in command of the Arabian fortresses, suspended attacks. The forts have now surrendered, according to today's advices, the capture of the Arabians, including 28 officers, 950 unwounded men, 150 wounded, four guns and large quantities of material and munitions.

Since the proclamation of Arabian independence the total captures from the Turks include ten field guns, ten mountain guns, fifteen machine guns, 100 officers, 3,500 soldiers and 150 civil functionaries.

GERMANS ARE ROLLED BACK

**Made Surprise Attack On
French This Morning**

**GAINED GROUND WHICH THEY
SPECEDLY LOST IN COUN-
TER ATTACK.**

New York, July 17.—(Special)—The London correspondent of the Tribune cables last night as follows:

"Exhausted by the desperate fighting of the last two days, the German and British troops on the Somme are resting on their arms to-night. In the lull which has followed what correspondents at the front describe as the fiercest fighting of the war, the British are consolidating their new positions north of the Bazentin-Longueval line, and are bringing up their heavy artillery preparatory to resuming the great drive toward Peronne. After four assaults hurled in rapid succession at the German lines, in the region of Ovillers and Bazentin-le-Petit, this morning, had failed to dislodge the enemy, operations on both sides came to an abrupt halt.

On the French side of the Somme line the Germans this morning took General Foch by surprise.

Powerful attacks enabled them to capture La Maisonnette and Biaches, but they were ejected before they had time to rally against the French counter-attacks.

The rapidity with which the Germans were rolled back from these two positions is hailed by military experts as an indication of the firm grip the French have obtained on the newly won ground. In the last two days London has talked about little but the continuous reports that Austria is about to sue for separate peace on account of the Russian successes and the increasingly gloomy outlook for final Teuton victory.

AUSTRIA MAY BE ELIMINATED

**Germany May Have Discounted
Surrender Of Ally.**

**TURKEY MAY DESERT; HAD EN-
OUGH OF FIGHTING AND
DANGER INCREASES.**

New York, July 17.—A cable to the Herald from Paris says: The early elimination of Austria from the war is now regarded as so certain that the chief subject of debate in the newspapers of the Allied countries is the policy of Germany in relation to it. That Germany has discounted the surrender of Austria is regarded as evident.

The recriminations in the German press against the allied empire have become so open and pointed that the motive for their tolerance by the German censorship is freely discussed. The fact that newspapers which, like the Frankfurter Zeitung, are considered as semi-official organs of the German Foreign Office, should indulge in continuous criticisms of Austria, and even in cynical gibes at her, hardly can be without a political motive.

The most interesting feature of the situation is that there is not merely an outburst of sharo comment against Austria in the German press, but that in the Austro-Hungarian Empire there are open and acrimonious disputes between the Austrian and the Hungarian sections. These disputes are seemingly being fostered by the same semi-official organ in Germany, and this circumstance is considered as extremely significant.

The conclusion drawn among the Allies is that, with the "Austrian debacle" admitted as imminent, arrangements already are being made in Germany to draw the greatest profit from it. With the collapse of the Austro-Hungarian Empire, Germany almost inevitably would make gains which would largely compensate her even for the loss of the war.

With Austrian and Magyar pitted against each other and reconciliation exceedingly difficult, a return to the status quo ante bellum in the Dual Kingdom is believed impossible. The more warlike Magyar would dominate such a situation. It is believed that Austria, or at least the German part of it, may be drawn into the German Empire if conditions arise which will make the living of Austrian and Hungarian in political union impossible. The incompatibility of temperament of the chief elements of the union long has been apparent, and a positive breach may occur now at any moment. How great the gain would be for Germany is manifest.

With Austria as part of the Empire, Germany would become a Mediterranean power. Her empire would be a solid barrier across the Continent of Europe and the North Sea and the Baltic to the Adriatic. Her geographical, commercial and political position in Europe would be so immeasurably improved over what it was before the war that the Allies feel that without certain guarantees of a most exacting character the new situation would be of a kind to cause far greater concern than did the

FATAL ACCIDENT NEAR FARNHAM

**D. Tetreault Instantly Killed by
Express Train Yesterday
Morning**

**DECEASED DID NOT HEAR WHIS-
TLE WHEN WALKING ON
TRACK.—SUFFERED
FROM DEAFNESS**

Farnham, July 17.—(Special)—Jovite Tetreault, a single man, fifty years of age, was instantly killed when knocked down by the Montreal-Sherbrooke express between Farnham and St. Brigid yesterday morning at 9.50.

Deceased was walking along the track, and being quite deaf did not hear the train approaching, or the engineer's whistle. He was a resident of this place.

INQUEST TONIGHT

An inquest will be held this evening.

MISSIONARY AND WIFE MURDERED

**Rev. and Mrs. W. A. Campbell,
Victims in Japan**

**CANADIAN MISSIONARIES IN JAP-
AN STABBED TO DEATH BY
BURGLAR SEEKING MONEY.**

Tokio, July 17.—The Rev. W. A. F. Campbell and his wife, Canadian missionaries, were stabbed to death early yesterday morning in their summer cottage at Kanazawa, by a burglar. The weapon used was a Japanese short sword. Kanazawa, which is an American missionary summer centre, has been greatly excited by the murder.

At 2.30 o'clock yesterday morning, according to the police accounts, a Japanese dressed in foreign garb entered a second storey window of the cottage, and after awakening the missionaries demanded money. This being refused the intruder plunged a short sword into Mr. Campbell's breast, mortally wounding him.

Mrs. Campbell struggled heroically with the assailant and was stabbed repeatedly, succumbing to her wounds a few hours later.

At the point of his sword the burglar, the police say, forced the Japanese maid to disclose the cash box and he then made his escape with the \$10.50, which it contained.

The Rev. Mr. Campbell recently volunteered for service with a Canadian contingent in the European war, and was about to return home.

The Rev. W. A. F. Campbell and Mrs. Campbell were sent out to the Far East by the Methodist Church in Canada. They had been engaged in evangelistic work in Japan since September, 1913.

Kanazawa is a small town at an elevation of 3,180 feet in Shinano province, 37 miles northwest of Tokio. It is a favorite summering place for Protestant missionaries, who assemble there between July and September to discuss church and mission questions.

WOMEN SPEAKERS PORTLAND SQUARE

**Feature of I. O. D. E. Lawn Fete
Tomorrow Night**

**MRS. MACNAUGHTON AND MRS.
REED, OF MONTREAL, HAVE
BEEN SECURED.**

The lawn party to be held on Tuesday evening, July 18, on Portland Square, under the auspices of the King George V. Chapter, I.O.D.E., will be a unique event in the patriotic activities of Sherbrooke. In addition to the usual features of a lawn fete, the presence of the Harmony Band, the sale of cake and ices, flowers, and other attractions for which arrangements are being made, it will be the first recruiting meeting organized by women, at which the speakers will be, also, women.

The Chapter has been fortunate enough to secure the presence of two able speakers from Montreal, Mrs. W. G. MacNaughton and Mrs. Reed, who will give their addresses from the band stand in the centre of the square, beginning at 8.30.

The fine patriotic addresses made by Mrs. MacNaughton and Mrs. Reed in many towns in the province have made their names well known.

The citizens of Sherbrooke are invited to show their interest in the efforts now being made by the women's organizations to promote recruiting, by attending the fete on Tuesday evening. Should the weather be unfavorable, it will take place in the 53rd Armory, William street. The proceeds of the lawn fete will go to the patriotic funds of the Chapter, which is engaged, with all the I.O.D.E., in many good works for the country, the Red Cross and the Navy.

SUNDAY THUNDER STORMS WERE WORST OF SEASON

**Tremendous Downpour Yesterday—One Storm Followed
Another in Quick Succession—Many Wash Outs—
Damage to Power Dams—Dry at Stanstead.**

Yesterday's rain was perhaps the heaviest of the season. One thunderstorm followed another and the downpour was tremendous. The rivers show the effect, not only having increased in volume, but are very discolored. The city streets are just a little worse than they were. Places, particularly on the hills, where a little repair work had been done, were washed out. Grain crops on low land were flooded again.

BREAK AT CITY DAM.

No. 2 city power dam, commonly known as Lomas' dam, gave way in the electric storm last night about 8 o'clock. The broken pieces of lumber floated down to No. 3 dam and blocked the water wheels, and in consequence the city power plant was put out of operation.

POWER SUPPLY SHUT OFF.

The workmen of the department were engaged all night repairing the damage and are still at work to-day. As a result of the mishap, power was shut off from the Sherbrooke Iron Works, Canadian Brakeshoe Co., Noel's saw mills, C.P.R. shops and Q.C.R. shops at Newington.

The Lomas mill is deprived of water power and has had to resort to motor power.

**WHOLE STREETS WITHOUT
LIGHTS.**

The electric lighting system was seriously affected by yesterday's violent storm. Damage to the extent of \$600 was done to the equipment. Last night the residences on Bowen avenue, Marquette street, Gillespie street, St. Michael's street, King street east, St. Martin street, St. Gabriel street, Morill road, Wilson street, Quebec street, Drummond road, and at Rock Forest were deprived of lights. The street lights went out on Dufferin avenue.

The damage has not all been repaired, but the department expects that everything will be in usual running order for this evening. No damage, fortunately, occurred at the Rock Forest plant.

CULVERTS WASHED AWAY.

Two culverts were washed out on Drummond road, one near Mr. Arguin's farm and the other at Mr. Kenrick's farm. In consequence of the heavily-flooded road, the men of the electric department were unable to travel far enough to repair damages caused to the lighting system in this vicinity yesterday.

A serious washout occurred yesterday on the Lennoxville road near the residences of Mr. Hubert Ames and Dr. Hight. The culvert at this point was destroyed and seven feet of the road washed away. The water filled the roadway to a depth of nine feet, suspending the tramway and vehicular traffic and necessitating the erection of a temporary wooden bridge for pedestrians. The street railway service was resumed this morning.

HOUSES STRUCK BY LIGHTNING.

The residence of Fireman Owen, 6 Davidson Place, Marquette street, was struck by lightning about 5.30 p.m. and the chimney was thrown down. The inmates received a severe shock and a nurse narrowly escaped serious injuries, but fortunately no one was hurt.

G.T.R. TRAINMEN BADLY INJURED

**Engineer and Fireman Hurt In
Freight Wreck At Danby
Yesterday**

**BOTH TAKEN TO MONTREAL
HOSPITAL—CONDITION SERI-
OUS.—20 CARS DESTROYED**

Richmond, July 17.—(Special)—Engineer Clark and his fireman were taken to the Montreal Hospital yesterday suffering from serious injuries received when a freight train went down the embankment at Danby yesterday afternoon. Clark was terribly scalded and his comrade received a severe scalp wound. Neither are expected to recover.

The derailment occurred owing to the washout on the railway track, during the heavy rains.

Twenty cars are badly smashed up.

TRANSPORT SUNK

**TURKS CLAIM 3 LARGE SHIPS
SUNK AND ANOTHER
AGROUND.**

Constantinople, July 17, via London.—In the eastern part of the Black Sea Turkish submarines sank three large, hostile transport ships and a fourth was run aground, according to an official statement issued to-day.

The lightning also struck the store of Mr. Henri Quintal, Bridge street. No damage occurred to the property and none of the inmates sustained any injury, but all received quite a scare for the time being.

FIRE ALARM.

The fire brigade was called to the Brothers' School on Larocque street at 3.15 p.m. yesterday. The water from the street had penetrated the building and covered the lower floor to a considerable depth. A back draught from a stove which had not been used for some time, and which was yesterday lighted for the purpose of drying the floor, caused heavy volumes of smoke, leading to the supposition on the part of passers-by, who sent in the alarm, than an outbreak of fire had occurred.

**SHERBROOKE-MAGOG ROADS
DAMAGED.**

Autoists report washouts in both the roads between Sherbrooke and Magog, one near Little Lake and the other beyond Kateville.

NO RAIN AT STANSTEAD.

Sherbrooke people report that there was no rain there yesterday. They wondered why the Sherbrooke autoists did not come through as usual, as the day was so fine. There was a little rain at Ayer's Cliff.

**NORTH HATLEY GOT FULL
FORCE.**

North Hatley and Lake Massawippi, however, got the full force of the storm. The water poured down the hillsides in torrents. There were several bad washouts on the B. & M. line along the lake. These were repaired so that the trains got through this morning.

WASHOUTS AROUND MAGOG.

Reports from Magog tell of tremendous rains in that district. Highways are washed out between Sherbrooke and Magog at several points, and the road in some places is under water.

LITTLE DAMAGE AT RICHMOND.

The heavy rains flooded the main street and some of the thoroughfares in the lower part of the town of Richmond yesterday, but very little material damage has been reported.

TRAIN SERVICE AFFECTED.

The train service generally was disorganized through the effects of the storm. Trains in all directions were delayed considerably yesterday and this morning.

JOHNVILLE MILL DAMAGED.

Serious damages are reported at Cleveland's Mills, Johnville, in last night's storm.

**PULPWOOD CARRIED DOWN
STREAM.**

Quantities of pulpwood are floating down the St. Francis river to-day from East Angus. A report circulated in the city this morning that the boom had broken at the company's mill. On enquiry at the head office at East Angus, the Record was informed that no breakage had occurred and that no trouble of any kind, beyond the fact that about a hundred cords of wood along the banks had been loosened by the water and carried down stream.

LOST FRIEND AND CASH

**ATTEMPTING RESCUE IN RIVER
SNEAK THIEF RIFLED POC-
KETS.**

Port Stanley, Ont., July 17.—Wm. Spinks, 32 years of age, of Woodstock, was drowned here last night when he was seized with cramps. Leo Le Fortune, a friend from Woodstock unsuccessfully attempted to rescue Spinks and an unknown man rifled his pockets of all his valuables while he was out trying to save his friend, Spinks.

Red Cross Workers Send Forward Supplies

FUNERALS AT GLEN SUTTON—AGED RESIDENT HAS PASSED AWAY—YOUNG VICTIM OF DROWNING ACCIDENT

The Sutton and Abercorn Red Cross group of workers shipped on July 15th, to 45 Belmont Park, the following articles: 25annel shirts, 15 pairs socks, 110 large surgical dressings, 200 compresses, 60 9-inch scrap dressings, 30 gauze rolls.

DOUBLE FUNERAL AT GLEN SUTTON

Mr. L. L. Jenne was called to Glen Sutton on Friday to attend double funerals. Leon, the 18-year-old son of Hannibal Blackford, who was drowned, while bathing in the Missisquoi River, just after dinner on Tuesday was buried on that day. The other funeral was that of Mr. Solomon B. Brook, aged 88, who died on Wednesday at the home of his daughter, Mrs. C. M. Jones. Mr. Brook was counted as one of the very few pioneer citizens of Sutton, and he is the last of his generation of the Brook family. He is, however, survived by worthy daughters and by one son at least and by many grandchildren. His name had been a well-known one in Bromes County and in Northern Vermont for over 60 years.

TROUBLE WAS ORGANIZED

SAM HUGHES BLAMES LONDON LIQUOR INTERESTS.

Ottawa, July 17.—General Sir Sam Hughes stated today night he had got to the bottom of the ruction at Camp Borden. Since his return to Ottawa, he has been in receipt of considerable information from various sources showing, he says, that the trouble was the result of an organized effort having its origin with certain tobacco, liquor and allied interests in the city of London.

The principal trouble was with the troops from London, and the men, according to the minister, were primed by the interests above mentioned with the object of making the Western Ontario battalion so unwelcome at Camp Borden that they would speedily be returned to London and would spend their money there.

General Hughes has been informed as to the identity of the officers upon whom rests the immediate responsibility for what occurred at the camp and is preparing to deal with them.

been spending a few weeks, at Mr. H. Green's to Waterloo on Tuesday Mr. A. G. Lane home from Montreal, where he has been visiting relatives; Mr. and Mrs. Hiram Wing, and daughter Miss Hazel Wing of Knowlton, visiting at Mr. Wm. N. Y. CAMPAIGN OF CLEANLINESS

MORE THAN 500 PERSONS FINED FOR VIOLATIONS OF SANITARY CODE.

New York, July 15.—With thirty of 103 new cases of infantile paralysis in the borough of Manhattan

—by far the largest number of cases reported in the borough in a single day since the beginning of the outbreak—and with the total of cases to date of 1,033 with 283 deaths, the vigilant activity of the public and private forces mobilized against the disease reached its high record of efficiency according to all reports.

The machine of men and means which includes among its co-ordinated units everything from the power producing and direction giving engine of the Department of Health to the selfishly and socially conscious mother diligently isolating her child from all crowds, was running with that smoothness and sureness the authorities were convinced in which lies the hope of all that the disease will be destroyed.

Chief among the new forces to fight the disease probably was that of the city magistrates and police.

The magistrates evidenced appreciation of the responsibility devolving upon them, and invariably imposed fines upon the many violators of the sanitary code brought before them.

The keynote was sounded by Magistrate Patton in the Essex Market Court an East 84th court in a district where there is great danger from the disease. One of the first cases upon Magistrate Patton's calendar was that of a woman charged with allowing garbage cans on her premises to remain uncovered.

"I fine you \$2," said the magistrate, "and if you appear before me again on a charge of violating the sanitary code I shall impose the maximum penalty."

Then 137 persons, most of them women carrying babies, followed each other before the magistrate, and each was fined \$2.

The same in other magistrates' courts was the same.

Altogether more than five hundred persons were fined from \$1 to \$5.

The American Woman Suffrage Association announced to-day that it has devoted its entire city organization to aid in the fight against the disease and had notified Surgeon-General Blue, of the United States Public Health Service, that its organization would co-operate with him in his effort to prevent an interstate spread of infantile paralysis.

The Department of Public Charities already enrolled among the active forces resisting the attack of the disease, announced plans for the after care of children surviving it.

Commissioner Kingsbury added that immediate after care follow up an attack of the disease often prevented a child being crippled for life.

The Manhattan, Brooklyn and Bronx branch of the American Red Cross met to-day at 26 Broad street and decided to render any aid in the present crisis which the Department of Health might desire.

The organization, it was announced, stood ready to supply nurses if they were needed. A call for assistance would be welcomed, it was said.

COBBLER GETS \$100,000

Charlotte, Mich., July 15.—H. A. Merrill, a cobbler in a dingy, dirty, back-room repairing shop, received news today that he had fallen heir to \$100,000 as his share in the estate of Hetty Green, his second cousin. This comes from the division of the \$3,000,000 Sylvia Ann Holland estate.

BEDFORD.

Mrs. Vernon Barry, we regret to report, was unable to take part in the entertainment at St. James' Church Hall last evening, owing to indisposition, the nature of which we trust is temporary and not serious.

Mr. George Nunn, at present residing at the branch of the Canadian Bank of Commerce at Frelighsburg, was in town yesterday evening.

Back Was Lame and Ached; Could Do Very Little Work

Suffered Much From Kidney Disease for Years, but Cure Came With the Use of Dr. Chase's Kidney-Liver Pills

Doctors had tried to cure this man but failed to get at the cause of trouble, probably because they relied on medicines which act on the kidneys only. The strong feature about Dr. Chase's Kidney-Liver Pills is their combined action on liver, kidneys and bowels. In many of these cases the disease is so complicated that ordinary kidney medicines fail to be of much benefit. Under such conditions Dr. Chase's Kidney-Liver Pills usually touch the spot and effect a cure.

Had they been only moderately successful Dr. Chase would never have selected them for world-wide distribution. As it was, the demand for these pills resulted naturally from their superior merit, and there was nothing else to do but supply them in large quantities.

Mr. Simon Sheldoff, Birchbrook Orchard, Blackhawk, N.B., writes:

"For several years I suffered greatly from kidney disease. I was weak and could do very little work. My back was lame and ached and I suffered much from headaches. Tried doctors and obtained no relief. Dr. Chase's Kidney-Liver Pills were recommended by a friend, and after taking four boxes I feel I can say that I am cured, for I think as well as I ever did."

This statement is endorsed by Mr. Harry Anderson, J.P., who writes: "This is to certify that I am personally acquainted with Mr. Simon Sheldoff and believe his statement in regard to Dr. Chase's Kidney-Liver Pills to be true and correct."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Company, Limited, Toronto.

Goodyear "Made in Canada" Lowers Tire Costs

Goodyear Quality is not the only factor which enters into lower tire costs for Goodyear users. The Goodyear factory at Bowmanville has saved Canadian motorists thousands of dollars. Not only because of the mileage and satisfaction they put into Goodyear Tires. But because it is in Bowmanville—in Canada.

But here in Canada you don't even have to make this decision. You do not even have to depend on American proof of Goodyear mileage. Hundreds of Canadian motorists are getting 10,000 miles or more from Goodyear Tires. In addition Goodyears cost less in Canada—because they are made in Canada. You not only get greater mileage, but you also get lower price.

Many imported tires that sell for less than Goodyears in the United States, cost more than Goodyears in Canada. Yet when they do not give so low a cost-per-mile in the States, how can they possibly offer nearly so much in Canada?

That the saving effected by Goodyear "Made in Canada" is real and worth while is proved by these tables. Note the really great difference in price:

Were Goodyears NOT Made in Canada, They Would Cost You—

NORTH HATLEY MORE BEAUTIFUL THAN EVER

North Hatley is looking especially attractive this year, the foliage of the trees and the lawns having benefited from the nature of the season.

The attendance of summer guests promises to be slightly below normal. This is said to be due to a misapprehension on the part of southern people, concerning the state of affairs in Canada—a country at war. Mr. W.G. Davidson, son of the late Chief Davidson, of Sherbrooke, is now owner of the Glen Villa property. It is understood to be his intention to erect a summer residence there. Mr. Davidson recently returned to China, but plans to spend his summer on this side of the world.

WASHOUTS STOP AUTOS.

Mr. and Mrs. A. Price motored to Libbytown to spend the week-end with friends, and on their return last evening were obliged to turn back and remain over night on account of the washouts at Libbytown, which is only 22 miles distant, there was practically no rain.

MANY FORMER GIBBS' HOME BOYS IN KHAKI.

Mr. Thos. Keeley was at Valcartier on business on Friday and called on Capt. V. E. Hobart, of the 148th, and many of the Gibbs' home boys. There are sixty boys in the 117th and several in the 148th, 10th and 199th Irish Rangers. Mr. Keeley, who has seen many military camps, states that the camp is in excellent condition and all the men fine and fit.

DEATH OF MR. VICTOR DESBIENS.

Th death occurred on Sunday morning at four o'clock, at the St. Vincent de Paul Hospital, of Mr. Victor Desbiens, aged 31 years. Mr. Desbiens was seriously injured on Friday and was taken to the hospital, where he lay unconscious until death relieved him from his sufferings. He leaves a wife, Elodie Bourque, and four children to mourn his loss. The deceased was highly respected, and his loss will be deeply regretted by many. He purchased the fine market garden formerly owned by his father-in-law, M. E. Bourque, and had one of the finest business properties in this district. The funeral will take place Tuesday morning from his late residence to St. Jean Baptiste Church.

lot. Their latest contrivance is to bring all their lawn mowers into tune so that in passing along this street any evening one may hear such familiar tunes as "Home, Sweet Home," "Annie Laurie," or "Watch Our Gardens Grow," played on the lawn mowers' band. It's really beautiful. Honest, it is!

A TREMENDOUS HAY CROP.

One need not travel far through the country to be convinced of the tremendous hay crop which Eastern Townships farmers are harvesting this year. The fine weather of the past week was taken full advantage of in this connection.

The labor problem is being solved to some extent by the women of the household taking a hand in the hay-field operations.

DUKE OF WELLINGTON CHAPTER I.O.O.F.

At a special meeting of the Duke of Wellington Chapter, I.O.O.F., held as usual, at the officer's mess, Mrs. S.W. Jenkins, the regent, presided, and a report was given by the treasurer of the results of the cantata given under the auspices of the Chapter by Mrs. Alberta LeBaron Adams, at His Majesty's Theatre, which was most successful. The gross receipts amounted to \$330, expenses—\$106, proceeds—\$224, of which the following disposition was made: \$100 for Canadian War Prisoners' Fund; \$25 Shorncliffe Hospital; \$25 Newspaper work for Canadian soldiers in hospital. Balance reserved for Red Cross work in the autumn.

The treasurer reported that Miss Gertrude Hawes, of Lennoxville, had won the prize for selling the largest number of tickets. The regent referred to communications received recently by her relating to the "White Cross" work and in this connection to the "Belgian League of Friendship."

This latter, naturally takes into account only the great majority of the inhabitants of that distressed country, who have lost everything, home, liberty, friends and means of living, through the base German occupation, and not those of Flemish origin who are said to be pro-German in their feelings, and actions. Letters had been received from many both in Canada and the United States, including several young men expressing interest in the work, and a desire to assist. The latter were especially gratifying.

An interesting feature of the meeting was the discussion of plans of work for the autumn, should the war continue.

It was resolved that the Duke of Wellington Chapter organize a grand all bazaar, along the lines of those so successful recently in the United States cities, and a central convener and a secretary were appointed.

The work will be entirely in charge of the young members of the Chapter.

LETTERS TO THE EDITOR

RETURNED SOLDIER WAS IMAG- inative.

Editor of the Record.

Dear Sir:—My attention has been called to an article in your paper, which I enclose, giving a description by a returned soldier of an act of bravery which he says he saw me perform at the second battle of Ypres. The "returned soldier" must have been dreaming, or he may have mistaken some other chaplain for me.

It has never been my good fortune to have to carry a wounded man "over bullet-swept zone for five hundred yards," and on the 24th of April I was at the Field Ambulance at Vlamertinghe, and not in the front line at all. Pardon my taking up your valuable space, but I could not allow a false impression to get abroad without contradiction.

THE STREET RAILWAY QUESTION.

Editor of Record:

Sir:—It is greatly to be regretted that nothing definite has thus far come out of the negotiations which at various times have taken place between the City Corporation and the Street Railway Company. If we understand the matter correctly, we are now practically threatened with all the interminable delays of the law. If this is the case, it is most unfortunate. No matter what the legal outcome, it will mean delay and the putting off indefinitely of a first class street railway service in the City of Sherbrooke. The general principle must be admitted of the great advantage which accrues to any growing city that has a good street railway service. Anything, therefore, which may interfere with it cannot be looked upon otherwise than as a serious detriment. We speak in the interests of the citizens of Sherbrooke and the general good of the city.

Unsatisfactory as the service is at present, not much improvement can be expected, if the points in dispute between the Company and the City are to find their way into Courts. The uncertainties of the law are proverbial and it may be taken for granted that the Company on the one part and the City on the other, will probably take advantage of every legal twist and turn which may help one side or the other. Meantime the parties who will suffer most are the citizens of Sherbrooke. Surely some means can be found of remedying this state of affairs.

PRISONERS ARE TOPIC OF TALK

Treatment Of German Captives In England Described

STATEMENT OF GERMAN PROPOSALS FOR EXCHANGE BASIS

ALSO GIVEN

Westminster, Eng., July 15.—In the House of Lords, Lord Newton stated in reply to a question that there were some 20,000 German soldier and sailor prisoners in the country. Eleven camps were to be formed under the auspices of the home-grown timber committee, four of them being in actual operation. Military prisoners were also being employed in the collieries, on waterworks and in roadmaking, in addition to other work.

A considerable number of German prisoners have also been sent to France to work at unloading ships, but they were not employed in any in contravention to the Hague convention, but he regretted that though these men were superintended by British officers and non-commissioned officers the German Government had seized on this action as an excuse for retaliation, having sent a number of British to work in occupied territory in Russia where it is believed they were badly treated. In spite of requests officials of the American embassy have not been permitted to visit the places where these men are.

Lord Robert Cecil stated in reply to a question that the German reply to a proposal regarding British civilian prisoners at Ruhleben had been received. The German government, he stated, categorically repudiated the charge made that they do not recognize their obligations as to the supply of food to British prisoners of war, as also the assertion that less food is supplied to civilian prisoners.

If Lord Robert continued, on grounds of reprisal we should in any way reduce the food now supplied to German prisoners of war in this country. The German government proposed not only to withdraw permission for collective parcels of food, the dispatch of which the German government said has been sanctioned for prisoners not receiving direct parcels, but the receipt of individual parcels would also be prohibited, the camp rations being then altered so as to correspond with the measures taken by us.

The German government also declares themselves not averse to the proposal we indicated for the release of all British civilian prisoners of war, but they consider this could not take place on the basis of the release of a similar number of German prisoners by us, as such exchange would encounter insuperable difficulties regarding the selection of the prisoners who are to benefit by it.

Further communication from us on the subject, Lord Robert continued, will now be awaited. The last paragraph, he explained, appears to mean that we should release all German prisoners in exchange for British, but the British government cannot accept the proposal to repatriate all Germans interned in this country in exchange for British civilians interned in Germany, since that would be to send back some 26,000 Germans in exchange for only 4,000 British.

FARM LABORERS. Many thousands of farm laborers will be required to harvest the Western crops this year. The Canadian Pacific Ry. will run excursions during August, as in previous years.

STANSTEAD. Lief. Will Butters and Mr. Geo. Butters are spending a few days with their sister at "Broadview."

Mr. and Mrs. G. W. Reynolds and children, of South Hadley Falls, Mass., are visiting at Mr. Albert Clark's.

Mrs. Clifford Monte is spending a few weeks with her parents in Dudeswell.

Joseph Roy, of the Canadian Bank of Commerce, Sherbrooke, spent Sunday at his home here.

Mrs. Fred Morrill is visiting her daughter Hazel at "Sunnyvale."

A very successful lawn party was held Thursday evening on the grounds at the Garden Tea House. Hovey's Orchestra furnished music, and a goodly sum was netted for the Red Cross work.

Mr. Chas. Terrell is spending a few days at his home here.

The funeral of Mr. Amos Curtis, a lifelong and well-known and respected resident of Stanstead Township, who passed away on Friday afternoon after an illness of eight weeks, was held from his late residence in the Moulton neighborhood on Sunday afternoon, a large number of friends and neighbors being present. A short service was held, Rev. Mr. Hughes, pastor of Centenary Church, of which congregation Mr. Curtis was a member, officiating. The bearers were two sons, Will and Homer Curtis, and two nephews, Arthur and George Curtis. A large quantity of the friendliness and esteem from a large number of friends. Mr. Curtis, who would have been 74 years of age next month, leaves to mourn his loss his wife, one daughter, Hattie, and two sons, Will and Homer Curtis.

STORM SEVERE AT MEGANTIC
Many Trees Uprooted and Broken Off

LIGHTNING, ALSO, DOES DAMAGE, STRIKING SEVERAL PLACES.
Lake Megantic, July 17.—(Special.)—During the electric storm on Thursday morning many large trees were uprooted and broken off around town. The boat house on Mr. Geo. W. Stearn's lawn was also struck by lightning and injured. Also a large tree by the side of Sandy Bay road was shattered to pieces, but otherwise no material damage has been reported. The smoke stack on Renaud's new mill was blown down.

rights of each other's subjects has been denounced by Italy, owing to the hostile attitude of Germany, according to the Giornale d'Italia yesterday. No convention now exists between the two nations, the newspaper declares.

The situation is such that the relations of Italy and Germany seem to have reached a greater tension than at any time since the war began. Before leaving Rome in the spring of 1915, Prince von Buelow, then German Ambassador to Italy, concluded an agreement with the Italian Government under which, in case of war between Austria and Italy, Germany and Italy pledged themselves to respect the properties and lives of their respective subjects. This meant, for Germany, a guarantee of several million dollars' worth of properties in Italy held by her subjects, and for Italy the safety of 30,000 of her citizens still living in Germany.

Germany is unofficially accused of violating the agreement in depriving Italians in Germany of their liberty of action, preventing Italians of military age residing in Belgium from leaving that country, suspending payments due Italians and treating them as subjects of a hostile power.

The Berlin Bankers' Association, according to the Stefani News Agency, has circularized all banks in Germany instructing them that henceforth, by request of the Imperial Foreign Office, Italians are to be treated as subjects of a belligerent state, in other words, that payments to Italians in Germany are to be stopped.

The German Foreign Office has officially informed the Italian Government, through the Swiss Government, that payment of workmen's pensions due Italians has been suspended.

WAS TAKEN PRISONER IN RECENT FIGHTING AT YPRES.

Scotstown, July 17.—(Special.)—The following is a letter received by Mrs. D. Macaulay, Scotstown, from her son, Pte. Malcolm Macaulay, 23029, 16th Canadian Battalion, who is now a prisoner of war:—

Cellelage 6, (Proving, Hanover), Deutschland, May 31, 1916.
Dear Mother:—
Just a few lines to let you know that I am well. I received a letter from you the other day, and was glad to learn that you are all well. As yet I have not received a parcel from you through the Red Cross Society, but I might get them later, so continue to send them and be sure to put my full address on very plain.

I think the best way is to get a fair size coarse box and send it through the American Express Co. I think you can send anything in weight to 25 pounds. Send any canned goods, such as salmon, meat, milk, sugar, tea, cocoa, biscuits. Get a good, strong box, and when you write let me know if you will send one every two weeks. Well, mother, the weather here is very warm. I haven't much to write about, but give my love to all my friends. Hoping to hear from you soon.
Your loving son,
MAC.

BRITISH PRESS ON IN ATTACK

GIVE GERMANS NO REST—HUN THIRD LINE BREAKING.

London, July 17.—Sanguinary fighting, with dashes here and there of the picturesque, has resulted in further extensive gains for General Haig's troops in Picardy. The village of Longueval, which last night marked the apex of the British salient, has been left behind, while north of Bazentin le Grand the British troops have broken through the German third line of defence and hold part of the powerfully fortified Faurex wood. To the north, pushing forward from the direction of Ovillers, the British are fighting in the outskirts of Pozieres, junction point of two military roads and main obstacle to an advance on the heights of Martinpuich, which command the surrounding battleground.

In the Bazentin le Petit sector, extending their gains of yesterday, the English have won control of the entire forest which takes its name from the village. Here a Bavarian high officer, with the whole of his staff, fell prisoners.

The advance of the British is marked by fighting unlike anything before seen in Western Europe during this war. The romance of other days is being renewed.

CHARGE BY CAVALRY

For instance, to-day, against a position strongly held by Germans armed with portable machine guns, there was a cavalry charge by the famous Dragoon Guards. Not since the German legions first swept down through Belgium has the western front seen horsemen advancing to the charge. The trench warfare put an end to that. But the charge won. The guards dashing over a terrain peppered with shell holes, swept through the German ranks, and, turning, swept back. The Germans fled from the position they were organizing. The British losses were small.

And while this picture brought to staring infantrymen a vision of other days scores of duels were being fought above the earth by British and German aviators. Low-hanging clouds handicapped the fliers and the battles were fought within easy sight of the foot soldier beneath. General Haig to-night announces that seven German machines have been shot down in the last few days, and intimates that the British, for the first time in the war, hold control of the air.

PENETRATE THIRD LINE.

The heaviest fighting of the day took place on the four-mile front between Pozieres and Guillemont. Berlin, in an official statement this morning, admits the loss of ground on this front. General Haig this afternoon sent word that the German third line had been reached. To-night he announced that the English had gone on through.

military might of the empire two years ago.

WOULD BE WELCOMED.
London, July 17.—According to the Petrograd correspondent of the Morning Post, there is a strong feeling in many influential quarters in Russia that if Austria again throws out feelers for a separate peace they should be welcomed by the Allies, none of whom feels toward Austria as they all feel toward Germany.

The Petrograd correspondent of the Daily Mail learns that about a quarter of a million Germans have been detached from the other fronts to try to stop General Brusiloff's advance.

TURKEY MAY DESERT—GERMANY AFRAID ANOTHER ALLY MAY SUE FOR PEACE SOON.
New York, July 17.—A news agency despatch from Rome, published here, today, says: Germans are worrying now over the possibility that Turkey may desert the Central Powers, while they are under attack on all sides and sue for peace, according to two Americans who arrived here today from Berlin. They did not profess to have any information from German official sources, but detailed the discussions in German restaurants and other gathering places.

They said that the "man in the street," with whom they talked in Berlin, has come to realize that Germany can achieve no final victory and will be satisfied with a peace that brings a draw.

SUPPLIES OF LIQUOR PREVIOUSLY SEIZED ARE HELD IN SUTTON.

Sutton, July 16, (Special).—Yesterday Carl D. Griggs, Collector Provincial Revenue, and E. C. Fadden, Canadian Customs Collector, Noyan Jet, raided the premises of Alex. Hilliker, near line between Clarenceville and East Alburg, Vt. No case was made.

Later the two above named officers, together with the United States Customs Officers of Alburg and East Alburg, Vt., raided a line-store near East Alburg. No liquor case was made, but seizures were made by both American and Canadian officers.

Two good sized lots of liquors seized were delivered to the Revenue Collector here during past week, where they are being held waiting confiscation by court.

BUSINESS MEN ARE RESPONDING

WAR TAX RETURNS POURING IN TO FINANCE DEPARTMENT.

Ottawa, July 17.—The war tax branch of the Finance Department is working day and night on the returns which are pouring in from business firms all over the country on forms sent out by the department. The work of the newly organized branch is in fast running order, and the successful administration of the war tax had been placed beyond doubt. One of the pleasing features of the work is the attitude of the business men of Canada who have accepted the task in the best possible spirit, and are readily providing the returns asked for by the department.

CROPS WERE NEVER BETTER

SOME OF WHEAT FIELDS IN SASKATCHEWAN FULLY HEADED OUT.

Saskatoon, Sask., July 17.—"I never saw a better looking crop," declared Hon. W. C. Sutherland last night when asked how the hot weather of the last five days had affected the crops. Weather conditions could not be better," continued Mr. Sutherland. "Some wheat fields are fully headed out while others are heading out rapidly. Binders should be going in four weeks in the fields that are headed out now and if favorable weather continues, as at present there will be no danger from the crops being late. As it is, I do not think the majority of the crops is more than a few days behind this time last year."

ALLIES GAINING HOPE, SAYS GREY; ENEMY LOSING.

London, July 17.—Sir Edward Grey, the Foreign Secretary, who recently was raised to the peerage, in a farewell letter to the constituency he represented during his service in the House of Commons, says: "All our energy and sacrifice are needed to secure a safe peace, though happily, the fairest expectations of final success are justified. "The allies are weekly gaining confidence, the enemy losing."

AUTO WENT DOWN 12 FT. EMBANKMENT—LUCKY ESCAPES.

A party from Sherbrooke had a miraculous escape in an auto accident on Saturday between Lennoxville and Waterville. The car which was being driven by an employee of the Paton Mill went right down a twelve foot embankment without overturning. The driver received a bad cut over the eye and was attended to by Dr. Winder. Three women, also employees of the mill, and a baby escaped unhurt. The injured driver was taken to the doctor's office by Mr. W. E. Paton who was passing in his car at the time.

swer to the British, indicating the arrival of fresh artillery. British guns were able yesterday to reach the main road of Martinpuich, which was crowded with transports, aeroplanes reporting immense destruction and confusion.

BRITISH FLYING LOW.

Every one coming from the front remarks upon the paucity of German aeroplanes and anti-aircraft guns despite the reinforcements in other arms. British airmen in many instances have descended as low as 300 or 500 feet, firing upon German infantry with their machine guns and receiving the cheers of British infantry. Such low flights have resulted in remarkably intimate scouting. The scene of action has been carried for the first time beyond second main lines of German defences since stationary warfare began on the western front. Officers returning from the front line speak of seeing abandoned German guns, but say there are too busy fighting to bother to bring them in.

The most dramatic situation in the battle comes when German gunners strive to draw off their guns with British infantry within rifle range. In the grinding conflict which is courageously forced to close quarters neither the ground taken nor the number of prisoners is expressive of the results of the stake for which both sides are fighting. British commanders merely say that they have advanced further than they expected and repeat the proceeding through various stages in the long and immense undertaking.

ENLIGHTENING DOCUMENTS.

Letters, diaries and orders taken from prisoners in the British offensive contain enlightening news of the state of affairs among the Germans. One of the prisoners, whom the Associated Press correspondent saw yesterday, complained of the "poor, undisciplined material" in the drafts sent forward to fill the gaps in the regiments.

General von Stein's captured report of an inspection of the German second line about the middle of June complains that the trenches were full of water and generally in a bad condition, with dugouts insufficient in number; condemns the troops in that sector as "a worthless lot of idlers" and insists upon immediate improvement.
