MINING INSTITUTE FOR SHERBROOKE.

Branch of the C. M. I. to be Established Here.

MAY HAVE IMPORTANT BEARING UPON THE FUTURE OF MINING IN THIS DISTRICT.

A movement is on foot to organize a branch of the Canadian Mining Institute with headquarters in Sherbrooke.

Branches are now located in Cobalt and British Columbia.

A meeting will be held in Sherbrooke shortly to undertake the organization of a Sherbrooke branch.

It should be of great benefit to the mining industry in the Eastern

ASBESTOS MINE, where dwells one of the greatest of the Eastern Townships natural resources.

Townships. Asbestos operations were never more active. New mines are being developed and old ones are continuing their production.

Not only would the mining Institute serve the interests of the asbestos industry, but copper and gold mine development in the Eastern Townships would be promoted and all branches of mining in this section of country would receive attention.

Men associated with the movement to whom the Record has spoken believe that the organization, if brought about, will have an important bearing upon the future of mining in the Eastern Townships.

ASKS DAMAGES FOR CHILD.S DEATH.

A. Lafond Suing D. M. MacDonald For $1900.

DEFENDANT CLAIMS THAT THE HORSE DID NOT BELONG TO HIM BUT TO HIS BROTHER.

A. Lafond is suing D. M. Macdonald, of Spring Hill for $1900 as damages for the death of his five-year-old child. The case was heard in the Superior Court to-day before Mr. Justice Demers.

The plaintiff contends that a horse belonging to the defendant got out of the pasture and while on the public road kicked his child and received such injuries that it died shortly afterwards.

The defendant denies any liability, and pleads that the horse did not belong to him but to his brother, although it was in his pasture. The defendant further pleads negligence on the part of the plaintiff and those who had charge of the child, and that even if he were owner of the horse he could not be held responsible. It is also alleged by defendant that the child was striking the horse with a switch when kicked.

LEVEL CROSSING AT MELBOURNE.

Two Reports Have Now Been Submitted to Railway Commission.

NARROW ESCAPES FROM INJURY AT THIS POINT ARE FREQUENT.

Melbourne, March 8. —(Special)— On two different occasions recently, engineers sent out by the Railway Commissioners of Canada have inspected the level railway crossing on the Grand Trunk Railway, near St. Francis River bridge, taking measurements as to the distance approaching trains, going east, can be seen from the highway, etc., and there seems to be no division of opinion regarding the dangerous features of said crossing. There is no doubt the report to the Railway Commissioners will be to that effect.

Only a few evenings ago, a nearby resident came near meeting with a serious accident, being almost run down by an approaching passenger train. The fact that the horse he was driving was not frightened saved him from serious results. As it was he barely saved himself and companion. Narrow escapes are frequent at this point, and the public are determined that they will not allow the question of protection from danger at this crossing to drop, and will use every possible effort to bring about a better state of affairs.

HAS QUITE A CURIOSITY.

Birchton, March 9.—(Special) — Miss Laura Kingsley, of this place, has quite a natural curiosity which is of much interest to herself and friends. On the 6th of September last, while out walking, Miss Kingsley found a huge and beautifully colored green worm, which she carried home and placed on some leaves upon the mantel-shelf. In a short time the worm was noticed to wrap itself up in one of these with a fine web wound around to hold it in place. Here it remained quietly until about a week ago when a beautiful brown tinted butterfly with blue spots and measuring five inches across the wings, was discovered nearby. Its body is about an inch and a half long, covered with soft brown fur. This rare specimen, so uncommon and out of season, is much prized by Miss Kingsley, and she would be glad to hear from any reader who can tell her how to nourish and preserve this new and fragile creation, which flies about in its vain attempts to release itself from the four walls of the house into endless space and sunshine.

Inasmuch as rumors are afloat connecting my name with the authorship of a certain "Valentine" which was put into circulation on February 14, and which has been vigorously puffed abroad by the wind bags of gossip, in this community, I beg to say that I am not the author of the "mud-slinging" in question, nor do I know, or have any better means of knowing who the author is than have the other people of the place. Moreover, I have business enough of my own to keep me from poking my nose into other people's affairs, or "fuddling" and spreading the social dirt of this neighborhood. All persons are warned to desist from further propagation of these rumors in connection with my name.

CHALLENGE

WHO WILL TAKE IT?

At the conclusion of the "greatest engine test on record"—the test of the

"Silent Knight" Engine

by the foremost authorities in the world, the Royal Automobile Club, the Daimler Company issued a challenge to the world.

This challenge declared that the Company would wager £250 with any manufacturer if he could produce a motor of the poppet valve type which would equal the performance of the two Knight Motors under test.

The Whole Automobile World Has Waited For a Taker, But

despite the tremendous significance of a failure to accept such a challenge, not one maker has attempted to put his engine to a similar test.

MR. KNIGHT, in Toronto, January 25th, publicly renewed the challenge and doubled the amount.

STILL NO ONE CARES TO PICK UP THE GAUNTLET.

Why this silence? The challenge still stands.

Every day adds to the sweeping success of the Knight Motor over in Europe and here in Canada. Everything is to be gained by a successful meeting of this challenge—enormous prestige, unbounded demand.

Again, then, why this timid silence? Ask your judgment, Mr. Buyer.

All rights to the "Silent Knight" motor are owned in Canada by the Russell car, as they are in England by the Daimler, in Germany by the Mercedes, in Belgium by the Minerva, and in France by the Panhard.

Already we have sold over $300,000 worth of "Silent Knight" engine cars.

Ask all about the matchless invention.

Many of the cures made by "Fruit-a-tives" are the wonder and admiration of the doctors who cannot understand how "Fruit-a-tives" can do what they cannot.

Bancroft, Ont., October 17th.

ACCIDENTS WILL HAPPEN!

The finest "first aid" is Zam-Buk for many reasons. It is antiseptic—kills the poison in any wound. It ensures any wound, or skin injury, or disease against poison-germs in the air which are always ready to enter a sore place and set up poisoning and putrefactive change. Immediately they enter Zam-Buk they are instantly killed.

While certain ingredients in Zam-Buk are thus protecting you against external dangers, the rich healing herbal essences in the balm penetrate the tissue, stimulate the cells, and bring about perfect healing. Nothing like it! Watch it work!

PROOF FROM THE HOMES.

Mrs. Halliday, of Wroxeter, Ont., says:—"I have found Zam-Buk a most reliable household remedy. I have used it for cuts, sores, and various skin diseases, and have found it an effective cure in every case. I would not be without a box of Zam-Buk in the house in cases of emergency, and I recommend all mothers to keep a box handy."

Mrs. R. B. Levy, of Hackett's Cove, N.S., says:—"Eczema broke out very badly behind my baby's ears, and, despite treatment, got worse and worse. I was advised to try Zam-Buk. It proved effective from the first, and in a very short time it cured the eczema completely."

Equally good for all skin injuries and diseases, piles, etc., 50c, druggists and stores everywhere or Zam-Buk Co., Toronto.

Hargrave, C. H. Fletcher, E. S. Foss, Mrs. Buck, Mrs. Hargrave. Mrs. White, etc. Mr. F. P. Buck, president, was in the chair, and Mr. Geo. E. Borlase, secretary, read several letters from various localities, giving general statements of the treatment of animals, indifference to their comfort, etc., and asking the assistance of the Society. Mr. Borlase stated that he had replied saying that actual cases reported and properly attested would be at once investigated, and in the meantime printed notices would be sent to the writers to be posted in conspicuous places, which might act as a deterrent.

The secretary reported complaints from Cherry River, Orford, Flodden, Magog and other places, including one from the city, all of which had been investigated by the Inspectors, and in several cases convictions obtained. The Society is put to considerable trouble and expense by the fact that witnesses often refuse to swear, when brought into court, to their statements. This, however, only happens occasionally, as great care is taken by the Inspectors in regard to complaints.

The president spoke of the recent shocking outbreak of rabies in Ontario, and said that great precautions are being taken in Montreal to prevent a similar state of affairs.

The police are co-operating with the S.P.C.A. in taking care of all stray dogs, and if the animals are not claimed after three days they are painlessly done away with. He had spoken to His Worship Mayor Cate on the subject, and it was probable that some such preventive measures would be adopted in Sherbrooke.

WORTH ITS WEIGHT IN GOLD.

Mi-o-na Has Reached a Gold Standard, Says Harry Ellis of Fergus, for Stomach Trouble.

Harry Ellis, of Fergus, Ont., says: "I believe that Mi-o-na for the cure of stomach trouble, is worth its weight in gold. It cured me from a stomach difficulty that seemed to puzzle all other prescriptions and remedies. I was unable to eat, the food would ferment and form gas and make a serious pressure on my heart. There were terrible pains in the pit of my stomach. I became weak, drowsy, discouraged and later I got nervous and could not sleep or rest. This disease makes one feel like not wanting to try Mi-o-na, and when I commenced melancholy and forebodings. I was told to try Mi-o-na, and when I commenced on the first box I had hardly any faith in it, but the first two days' treatment made the pain in my stomach cease, and to make a long story short, the upshot of my using Mi-o-na was that it cured me wholly, and I now can eat what I like and when I am hungry. I am an ardent advocate of the use of Mi-o-na."

F. T. Ansell, the Druggist, sells Mi-o-na Tablets, the dyspepsia remedy that is making such surprising cures throughout Canada, for 50 cents a box, guarantees them to cure, or money back.

53RD REGIMENT TO HOLD CARNIVAL.

Committees Were Appointed Yesterday Afternoon.

PROCEEDS WILL GO TOWARDS FURNISHING ROOMS IN NEW ARMORY.

The meeting in the Art Hall yesterday called by the officers of the 53rd Sherbrooke Regiment to consider the project of holding a "Made in Canada" Fair and Carnival of Empire, was very successful, a representative number of the ladies of the city being present, while gratifying interest was taken in the proceedings. The officers attending were Lieut.-Col. R. J. Spearing, Capts. C. K. Fraser, F. C. Bowen, J. R. Duncan, J. H. Blue, Lieuts. Rugg, Sampson, Adams, Fry, Hogg, Dinning, Allen and Hyland.

Col. Spearing spoke briefly and informally, explaining the object of the Fair, which is to raise a fund for furnishing the officers' and non-commissioned officers' quarters at the new Armory, at present absolutely bare and empty. This, he felt sure, could be done with the co-operation of all those who have the good of the regiment at heart.

The Fair, which will continue for a week, will be held in the large hall of the Armory, and every evening an entertainment, concert, minstrel performance, dance, etc., will be arranged, to enliven the proceedings.

In regard to the refreshment booth it had been suggested that possibly St. Peter's Guild would undertake its management.

In addition to the large central booth, there will be eight smaller booths in the hall, representing the countries of the British Empire.

The following committees (subject to change) were appointed:

Central Committee—Mrs. T. S. Somers, Mrs. G. A. LeBaron, Mrs. L. E. Codere, Mrs. Poutre, Mrs. J. J. Griffith, Mrs. Frank Wilson, Mrs. W. B. LeBaron.

Officers—Major Somers, Major W. A. Farwell, Capt. Fraser, Capt. Bowen, Capt. Wells, Capt. Duncan.

No. 2, England—Mrs. W. A. Farwell, Mrs. T. E. Read, Mme. J. P. Royer, Mrs. Irvine, Capt. Spearing, Lieut. E. C. Irvine.

No. 3, Scotland—Mrs. E. Winn Farwell, Mrs. Herbert Irwin, Mme. J. Richard.

No. 4, Ireland—Mrs. W. R. Elliott, Mrs. O. Maguire, Mrs. J. A. Cameron, Capt. Elliott, Lieut. Cameron.

No. 5, India—Mrs. Penhale, Mrs. Gray, Mrs. L. E. Dastous, Capt. McIver, Lieut. Rugg, Lieut. Gray.

No. 6, Australia—Mrs. L. A. Bayley, Mrs. Robt. Hogg, Mrs. Spearing, Capt. Bayley, Lieut, Hogg.

No. 7, South Africa— Mrs. E. L. Stewart-Patterson, Mrs. E. C. Fraser, Mrs. C. D. White, Mrs. J. T. Morkill, Lieut. W. S. Fry, Lieut. Hyland.

No. 8, Canada—Mrs. E. J. Williams, Mrs. Moore, Mrs. Francis, Lieut. Sampson, Lieut. Francis.

All the arrangements will be in the hands of the committees, who will write their assistants and will be given every possible aid by the officers, while it is expected that the wives of the non-commissioned officers and men will take an active interest in every way.

A meeting of the various committees is appointed for Tuesday next at the same hour, when the general plan of the Fair will be outlined and preliminary work begun.

Col. Spearing cordially thanked those present for their attendance, and the meeting closed.

ABERCORN.

We have a limited amount of stock of the

SILVER CROSS

Mines, Limited, for sale, at

35c. a share.

This is positively the best buy of the Cobalt stocks.

The location is unexcelled, lying immediately adjoining the Drummond Mine and only 1320 feet from Crown Reserve. Area 40 acres. A complete air compressor plant is in operation and the main shaft is down 175 feet. Cross-cutting will commence at the 200 foot level and rich ore bodies will undoubtedly be encountered. Native Silver has already been found on the property and the mine should be a shipper this year.

The total capital of the Company is ONLY $1,000,000, of which less than $700,000 is outstanding. The Company's annual statement just out, containing engineer's report, shows that the Company has sufficient funds for operating about one year, without touching the 300,000 shares still remaining in the treasury. The mine is one of the best managed in Cobalt, being under the management of H. Laurence Brown, E. M., whom we consider the best engineer in the field. Mr. Brown is also the engineer of the E. T. Mine, which corners on Silver Cross.

We advise the purchase of this stock as the value will unquestionably rise rapidly.

For further information and copy of annual statement apply

SNOWSHOEING

ORIGINAL POEM BY A QUEBEC MAN—THE RECENT VISIT OF SHERBROOKE CLUB.

The following verses, composed by Mr. E. C. Joseph, of Quebec, have been received by the Sherbrooke Snowshoe Club :

I say, did you see what a jolly fine spree
Had the boys of the old Black and Red ?
When the lads from the Townships (does that rhyme with cowslips?)
Came and waked up our town with their tread.

There was President Bradley — we wanted him badly
To stay for a fortnight or two ;
There was hale Mr. Hale, who could hit up the trail
Like a gay two-year-old on the shoe.

There was Spafford, Cascadden, and George S. McFadden,
Who wrote us that nice little verse ;
And amongst the non-stoppers, the Mount Ste. Anne toppers,
Were Wadsworth and Wilson and Nourse.

There was Hawkins, of course, and our friend, Mr. Cross,
An assistant of lawyer friend Jack,
Lawrence, Morgan and Goodhue,—now, really, how could you
Suggest a "good hue's" red and black ?

Messrs. Genge and Gustafson were glad to go halves on
The honor of Chief High Musician ;
Jimmy Watson, the goaler, a mighty fine roller,
Was really a great acquisition.

And amongst these, our brothers, a great many others
There were whom I'd name if I'd time,
But I draw the attention of those I don't mention
To the fact that their names do not rhyme.

And now, in conclusion, I'll add a profusion
Of thanks to the whole jolly crowd,
For the friendship so mellow we found in each fellow
Made brother Quebecers feel proud.
