CITY TREASURER ROBB AGAINST LOWER RATES

City Should Not Decrease Present Rate of Water Taxes in View of the Need of Revenue- Existing Method is Fair to Poorer Classes.

City Treasurer Robbs' report to the Finance Committee regarding the price of water is an interesting document. In an interview with The Herald several weeks ago, Mr. Robb intimated that in his opinion the agitation to secure a decrease in the rate of the water tax was not based on business or practical principles.

Speaking of the matter, he said: "The revenue had to be raised. If the taxes are not paid on water, they must be on something else. The present system of levying the water rate is, I think the fairest. Often poor people get their water below cost price by paying a certain percentage on their rental. There is no more equitable method of selling the water to citizens."

In the following report Mr. Robb went far more thoroughly into the matter This document will be considered at to-morrow's meeting of the Finance Committee.

The report follows:

To Alderman Vallieres,
Chairman Finance Committee.

Sir.—In view of the agitation for a reduction of the water rates I deem it my duty to submit the following for your consideration.

My object is to show what I believe would be the result of any attempt to adopt "cost" as the basis of charge in place of the percentage of rental as at present existing

It will be conceded that if the principle of cost is adopted it must be universally applied, and rich and poor assessed alike.

The Cost of Water.

Two things, then, have to be done—to ascertain what the cost really is and to determine how it is to be levied.

First, then, as to cost—that is represented by interest on outlay, cost of administration and allowance for wear and tear depreciation.

Much of the six per cent. debentures which were issued for the first construction of the works were sold at rates which made the cost of the money about seven per cent., and, as a matter of fact, in 1868, long after the works were finished, seven per cent. stock was issued at par, to consolidate the then outstanding debt of $5,000,000.

Had a statement of cost been made in that year, seven per cent. would unquestionably have been the rate calculated as the interest cost. It is true that the seven per cent. securities gradually appreciated in price to the equivalent of six per cent., at which the next issue was made, and in 1873, five per cents were placed on the English market, but only realized an average of eighty-eight, and though the prevailing rate for money at the moment may be considered as four per cent. it would be manifestly unfair to use that figure as the basis of calculation. Indeed $600,000 of seven per cents are still outstanding.

In order not to appear to be forming an issue, however, I assume five per cents, which is unquestionably below, rather than above, the mark, thus

Cost.

$12,000,000, at five per cent	$450,000
Administration, say	200,000
Wear and tear deterioration, reserve for emergencies, cost of collection, etc	50,000
	$700,000

Revenue.

The revenue for all practical purposes, may be roughly stated as follows:

From dwelling houses, say	$450,000
From stores, offices, etc, say...	150,000
From meter supplies, etc., say ..	200,000
Or say a total of	$800,000

Administration.

I have put this at a figure above the average inasmuch as the amount actually accorded to the Water Committee in the annual appropriations is admittedly less than what is considered necessary to do full justice to the Department and, as a matter of fact, the expenditure of 1904 was over $...,000.

A very important consideration at this point is the fact that our water works system is strained to the utmost by the present demands upon it, in other words, the city has grown and is growing so rapidly that the present works are taxed to their full capacity and that, in the near future, it will be necessary to make further capital expenditure to keep pace with requirements and provide sufficient reserve power so that a calculation of cost should be based, not on the past expenditure, but on that which would be required to put the pumping capacity on a proper footing.

The revenue under existing circumstances may seem high relatively to cost while it might appear the reverse when applied to that of the completed extensions.

Mode of Levying.

This may be done by tariff based on rental, as now, or by meter, but in either rate must be uniform.

Let us, in the first place see how dwelling ... will be affected if a reduction ... -third were made on the rent ...

The rental ... se may be set down as about ... yielding at 7 1-2 per cent., ... The result of this would ... der.

On rentals of $6.00 ... month a diminution of $1.80 per annum.

On rentals of $10.00 per month, a diminution of $3.00 per annum.

On rentals of $20.00 per month a diminution of $6.00 per annum.

On rentals of $50.00 per month a diminution of $15.00 per annum.

On rentals of $80.00 per month a diminution of $15.00 per annum, and so on up to

Entailing a loss to the revenue of $150,000, mainly on the larger houses, and with almost an unappreciable benefit to the smaller tenants.

Meters.

When we consider the method of supply by meter the subject becomes more difficult for, while one may approximately ascertain the quantity pumped into the mains, it is impossible to estimate the proportion which is used for domestic consumption.

The only data available is the experience of other places and, fortunately this is found in exhaustive experiments which were made by the Metropolitan Water Works of Boston. These showed that the total daily consumption in four town supplied by meter was under twenty gallons per inhabitant per diem.

Now, supposing the consumption in Montreal were found to correspond with this, let us see what rate per thousand gallons would be required to obtain from residential consumers $300,000.

There are considerably under 50,000 dwellings in the city. It would be a full allowance, probably, to say an average of six persons for each. That would give 300,000 persons. Multiply this by twenty, and we have a total of 6,000,000 per diem, or 2,190,000,000 per annum, which would have to be charged at fourteen cents per 1,000 gallons to give the required amount.

The yearly schedule rates in the metropolitan district of Boston, comprising eighteen towns and cities, is from $9 to $11 for the use of one faucet and a water closet, and an average rate of fourteen cents per 100 cubic feet (equal to 625,000,000 gallons) when taken by meter.

So uncertain is the revenue derivable where the consumer can control it that it was found necessary to fix a minimum which each would have to contribute irrespective of consumption. This in the city of Malden, one of the four alluded to, $12 entitling the water taker to a maximum of 120 gallons per capita per day. In the city of Providence it was fixed at $10, entitling to ninety gallons per head per day. A quantity which was reached by only 425 out of 2,553 consumers, and one-half of the whole number did not average forty-five gallons, showing how far their revenue would have fallen short of an estimate of $10 each had the consumers been able to control their contribution, to say nothing of sanitary considerations.

An interesting illustration of this was afforded by the result of experiments made in two cities, one of which was metered to the extent of 69 per cent. and the other to only two per cent. of their consumers.

In August, 1902, the per capita used in the former was 41; in the latter 88. In January, 1904 the temperature, two degrees below zero, was 57. In the latter 211. Increase (waste) in the metered city, 16 per capita; in the unmetered 123 per capita.

At $10 per dwelling, the rate fixed by the city of Providence as the minimum amount which each water taker should contribute to the civic revenue, our 50,000 houses would yield $500,000 for domestic supply alone.

Present Scheme the Best.

No scheme that could be devised would bear more equitably than the one in force; it is levied in amounts ranging from $3 to $150, according to the rentals which each pays; no diminution of it could be made which would materially relieve the poorer classes (as a glance at the foregoing figures will show), and if a radical change were made by transferring it to real estate, it would reappear again in the shape of increased rent, while if the principle of furnishing the supply by meter were adopted the poor would have to pay as much as the rich, and the finances of the city be seriously endangered unless a fixed minimum price were adopted.

The transfer to real estate of the proportion of the revenue derivable from dwellings, and this making no charge for domestic supply, is, however, as I have always held, the only relief worthy of the name that could be adopted in the interest of the poor, as then his monthly instalments of rent would include water and do away with the anomaly of having to deprive him of it when sickness or other causes put it out of his power to pay.

A comparatively small increase in the rate on real estate would suffice for this and it would be compensated in the elimination of the water rate. Property would be benefited, by the fact that a continuance of water supply would be on the premises, and there would be no difficulty in getting an increase of rent to fully cover the addition to the rate.

The cost of water, computed on the total quantity pumped, show about seven cents per 1,000 gallons; but as, if meters were universal, less than half the quantity pumped could be delivered to consumers, fifteen cents (at least) would be required to return actual cost, and as the meter charge for manufacturing purposes, etc., is now over eighteen cents it would seem as if these should participate, to some extent, if a modification of the tariff is to take place. If this rate were made the even figure of $1 instead of $1.15 per 1,000 cubic feet, as now, it would represent a reduction of about fourteen per cent.

Result.

The abolition of the tax on domestic supply would call for an imposition of three mills on real estate, and the reduction of the water rates to about a quarter of a mill, but as additional revenue is required, over and above any modifications that might be made, another three quarters might be added, making four mills in all, thus:

Addition.

Say 4 mills on $160,000,000.....$640,000

Diminution.

Domestic supply, say $450,000	
Meter rates, say	40,000
	490,000
Leaving for increased revenue...	$150,000

This would place our total rate of taxation at fourteen mills with free water for all domestic purposes.

This rate of fourteen mills, including domestic water, is lower than the real estate tax alone of thirty-six out of forty cities returns from which are before me, and whose water rate, so far as regards the poorer classes, is, in most cases, higher than that of Montreal ever was.

Respectfully submitted,
WM. ROBB,
City Treasurer.

City Treasurer's Office,
City Hall,
Montreal, September, 1905.

DOES A NOTE COVER PREMIUM FOR AN INSURANCE POLICY?

Man Died After Paying First Premium to Agent in This Way and Now the Company Refuses to Recognize It.

A rather complicated case of disputed insurance payment was opened this morning by Mr. Justice Lorange, Mrs. Kool suing the Providence Savings Life Insurance Company for payment of a $10,000 policy, held by her deceased husband. The company refused payment on the ground that at the time the policy was taken out Mr. Kool was suffering from spinal meningitis. Also the company alleges that Mr. Kool had not paid his first or any premium.

Mrs. Kool denies the meningitis and declares that Mr. Kool paid the first premium by note to the agent. The company sets up that it does not accept such notes for premiums. Mrs. Kool counters by alleging that the agent for the company told Mr. Kool that the company owed him money, and that he would take the note as a personal matter, and arrange the payment between himself and the company. In the meantime Mr. Kool died, and the company refused to accept payment or recognize the policy at all.

SENATOR BLACK DIED THIS MORNING

Was Stricken With Typhoid Fever Shortly After the Session

Amherst, N.S., Sept. 14.—(Special.)—After one weeks illness, Hon. Senator Black passed away at his home at 4.15 o'clock this morning, surrounded by his whole family. Shortly after the session at Ottawa, Hon. Mr. Black was stricken with typhoid fever, and while his friends hoped for the best, yet, with a man of his age, the worst was feared.

In the dead Senator, Amherst loses one of its best citizens and the county and province an able representative, and the Baptist Church one of the most worthy members and deacons.

Senator Black was a native of Amherst, and has resided here all his life, taking deep interest in all the best interests of the town, county and province, and the loss to the community is a serious one.

Deceased was seventy-three years of age. He was twice married. His first wife was a Miss Bent, of Amherst, who died some years ago. His second wife was Miss Clarke, of Rexton, N.B., to whom he was recently married. Besides his wife, he is survived by two sons, William and Charles, and by one daughter, Marie, wife of Rev. Ralph Trotter, of Calgary, Albt., who reached here some days before her father's death.

Rev. S. M. G. Black, of the Messenger, and Jos. L. Black, of Sackville, N.B., are brothers, and the two sisters are Miss Elizabeth Black, of Sackville, and Mrs. John Bent, Amherst.

Great Skill and Expense.

(Brockville Times.)

The Montreal Daily Herald on Saturday last signalized the ninety-seventh year of its existence by the publication of a handsome progress edition of 90 pages, descriptive and illustrative of the progress of the Dominion and of Montreal. The publication of this edition also commemorates the occupation by The Herald of the new Herald Building on Victoria Sq., which is a beautifully situated and spacious home for the paper.

The publishers of this progress edition have expended great skill and expense in its compilation, and have succeeded admirably in presenting not only to the citizens of Montreal but to all in the Dominion a work of great intrinsic value as well as of artistic illustration.

What is Going On

His Majesty's—Mme. Schumann-Heink in "Love's Lottery."

Academy—"Girls Will be Girls."

Nouveautes — "Les Pattes de Mouche."

Francais—"Les Saltimbanques."

Royal—Frank B. Carr's "The Thoroughbreds."

Fair and Cool

Showers and thunderstorms were reported generally from the Rocky Mountains, and heavy rain in the Gulf of St. Lawrence and in the Maritime Provinces, attended by moderate gales. Light frosts occurred during the night in parts of Ontario and Quebec. The readings in Montreal during the past 24 hours showed maximum and minimum temeratures of 58 and 45. The record at various other points yesterday was: Victoria, 52, 62; Edmonton, 36, 70; Calgary, 34, 72; Minnedosa, 30, 62; Winnipeg, 36, 60; Port Arthur, 28, 58; Parry Sound, 44, 60; Toronto, 50, 64; Ottawa, 46, 58; Quebec, 46, 54; St. John, 56, 64; Halifax, 54, 66.

DEATHS.

BENNING—At his residence, at Lachine, Que., on 13th Sept., 1905, John Benning, aged 82 years. Funeral private.

HOWARD—At Orchard Beach, Me., on Tuesday, September 12th, Ernest Howard, son of Henry Howard, of St. Andrews, P.Q., in his forty-eighth year. Funeral service at the Church of St. John the Evangelist, at 3 o'clock, Friday afternoon, the 15th instant.

KAULBACH.—At Montreal, on 14th Sept., 1905, Sophy Ann Ryland, youngest daughter of the late Col. C. H. Ryland, and widow of the late Lieut. H. A. N. Kaulbach, (Senator) of Lunenburg, Nova Scotia. Halifax and Ottawa papers please copy. Funeral notice later.

Notice to Advertisers

The Herald business office is open every Friday evening until 10 o'clock, for the receipt of copy for Saturday's issue.

ANOTHER POPULAR VICTORY

Fitz-Maurice.

ST. HYACINTHE FAIR WAS OPENED TO-DAY

Everything Points to Successful Show—List of Exhibits Large

St. Hyacinthe, Que., Sept. 14.—(Special.)—The annual fair for the district of St. Hyacinthe opened here to-day, favored with fine weather, and, judging from the exceptionally large exhibits to hand, will prove a decided success. The incoming trains this morning brought in large contingents from all along the different railway lines and the attendance will be much in excess of previous years. The horses, cattle and sheep would compare favorably with anything of the kind shown at more pretentious fairs.

The dairy industry occupies a conspicuous place on the grounds and the cheese and butter exhibits are exceptionally fine. The display of farm produce is of a high order and amply testifies to the production of the soil throughout this section. The reputation which the Counties of St. Hyacinthe, Rouville and Bagot justly enjoy for the quality of their tobacco is fully sustained by some of the samples on view to-day.

GAS QUESTION IS NOT LIKELY TO BE PRESSED

Will Probably Not be Discussed When the Council Meets To-morrow.

It is the general opinion to-day at the City Hall that Ald. Vallieres' gas project, will not be discussed, at least in a formal way, for several weeks yet. The proposition is such a serious one that time is required for those interested, and in this category are included all the aldermen to digest the clauses of the proposed by-law farther.

The adjournment of the Council meeting until to-morrow afternoon had nothing to do with the gas question. The regular order of business will be attended to, the new morgue matter probably taking the precedence.

Of course the gas question may come up for discussion, but it will be in an informal way. Ald. Vallieres declares that he has not the slightest intention of pressing his by-law on the City Council until that august body has had time to consider its various details very carefully.

BLAZE IN PECK'S ROLLING MILLS

Shortly before noon, an incipient blaze broke out in the spike room of the Peck Rolling mill's plant, Mill Street. It is supposed that a spark falling between the planks in the flooring started the trouble, which at one time threatened to assume rather a serious aspect.

Mr. Peck declined to place an estimate upon the loss, which will include a few damaged machines and a new flooring.

TRIED TO ELOPE WITH YARD ENGINE

But Latter Proved Obdurate and Ran Into Open Switch

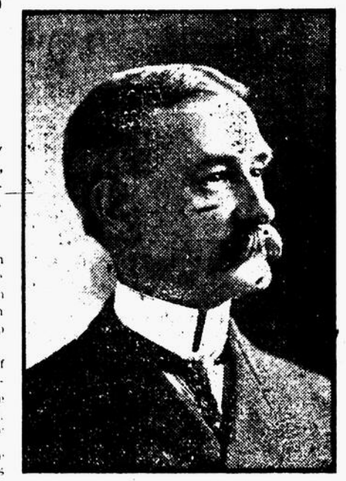
Peterboro, Ont., Sept. 14.—(Special)—Leazier Babcock, a man who states that his home is in Lindsay, boarded a yard engine at the C. P. R. yards here last night, and opening the throttle started up the line, but had not proceeded far before an open switch derailed the engine.

Babcock appeared this morning in the Police Court on a charge of having stolen and carried away one locomotive engine. In answer to which he pleaded not guilty, and elected to be tried at the assizes. The man is unknown here and this morning states that he has no recollection of the affair.

The damage to the engine was slight.

GOT $2,000 FOR HUSBAND.

Mrs. S. Richer was yesterday afternoon awarded $2,000 damages by a special jury for the killing of her husband by an electric shock at the Shawinigan Water & Power Co.'s terminal power house at Maisonneuve. Mr. Richer had absorbed 50,000 volts from a live wire while carrying a ladder which another employe had accidentally swung against the wire carrying the current.



Newly Elected Grand Chancellor of Knights of Pythias for Quebec.

Mrs. Richer sued for $10,000, but the jury decided that there had been contributory negligence on both sides, and reduced the damages accordingly to $2,000.

WERE PICTURES INDECENT?

Armed with the necessary warrant and accompanied by Detective Guerin, Chief Carpenter paid a visit to the Deom Savarin Company, on St. Catherine Street, last night, and seized a number of pictorial cards. To-day Mr. Savarin appeared before Judge Lafontaine on a charge of having obscene pictures for sale, and enquete was fixed for Wednesday next.

In the Court of King's Bench yesterday afternoon Donat Viau was acquitted by the jury of a charge of having obtained goods by false pretences.

SWEDISH COLONY NOW IN ANXIETY

Conflicting Reports on the Scandinavian Situation Perplex Local Swedes

CONSUL HAS HOPEFUL VIEW

Montreal Scandinavians In General Regard the Situation Now as Graver Than it Has Ever Been.

There is a good deal of anxiety among the Swedish community in this city with regard to the conflicting reports that have come to hand as to the situation in Scandinavia. On the one hand they read that the two countries are on the brink of war and are massing troops on the frontier, and on the other they see assurances that the situation, though strained, is by no means hopeless.

Mr. Gustaf Gylling, the vice-consul for Norway and Sweden, has no information at all on the subject, and he is consequently unable to allay the excitement of his countrymen. He told a Herald representative to-day that some time ago he received intimation that he was to continue to act in his official capacity, but since that time he has heard nothing. Should hostilities break out, as seems not improbable from the circumstantial accounts appearing in the press despatches with regard to mobilization of forces and the massing of troops on the frontier, it is hardly likely that Mr. Gylling would continue to act officially for both countries, but he resolutley refused to discuss any phase of the situation in view of the fact that he has no official information.

Other Scandinavians who are not quite so reticent, admit that the situation is graver now than it has been at any period since the Norwegian Parliament decided to sever the ties that had bound it to the reigning house of Sweden.

The hope was expressed by a Scandinavian in the west end to-day that the two countries would exercise a judicious restraint while the meetings of the delegates are held to discuss the terms of dissolution, but of this there seems to be no assurance.

The situation in short is regarded with the utmost misgiving. Norway seems determined to maintain her rights and to adhere to the attitude she has assumed since the beginning of the crisis. The tone of both countries is admitted to be bellicose so far, at least, as may be judged from the newspaper accounts, but as there is no direct information to hand concerning the latest developments the people hardly know what to think of the probabilities.

MR. R. H. METCALFE VISITING THE CITY

Mr. R. H. Metcalfe, financier of the International Moulders' Union, of North America, is in the city to-day in connection with his organization. He is being shown round by Mr. Alex. Mitchell, the business agent of the union, and he is finding a lot to interest him as he has not been in Montreal for sixteen years. He expressed the greatest pleasure at the strides Montreal had made in that time.

Mr. Metcalfe is a pretty busy man as will be understood when it is known that there are 87,000 men in the organization. He is proud of the card system which he has worked by which full particulars about any man in the order can be had in a minute's time.

Mr. Metcalfe says that the trouble with the rival body this spring had the effect of strengthening the International I.M.U. and that it never was in a more flourishing condition.

Mr. Metcalfe expected to get away in a day or so, but Mr. Alex. Mitchell and a host of his friends said "Nay, nay," so he will remain and go up with the delegates to Toronto on Sunday.

FELL DEAD ON THE STREET.

Mrs. Emerence Bouchard, fifty-two years of age who lived at 342 Rivard Street and was the wife of Charles Bouchard, storeman, fell dead on the street last night about ten p.m. It appears that Mrs. Bouchard had been out on a message and was coming home when she collapsed on the street within a few doors of her residence. Mrs. Bouchard was born in the city of Quebec and had lived twenty-six years in Montreal. The cause of death is supposed to have been heart failure. Coroner McMahon was notified of the occurrence.

CRUEL HORSE DRIVERS.

In the Recorder's Court to-day Josephon Mathieu, express driver, was charged with cruelty to his horse. Inspector Fletcher described the case as one of the worst that had come under his notice, there being a large sore of about two months' standing on the back of the animal, into which the saddle was sticking. Judge Weir made the penalty $5 or twenty days.

At the same court yesterday afternoon Antoine Goudreau was fined $10 and costs for cruelly beating his horse.

MONTREAL ORATORIO SOCIETY.

The Montreal Oratorio Society, under the directorship of Mr. Horace W. Reyner, will resume rehearsals on Thursday, Oct. 12. Those wishing to become members for the forthcoming season are requested to apply by letter to Mr. Reyner, 104 St. Matthew street. Last year's members will be notified by the secretary in due course.

Through The Herald's Sieve.

THE PLANS for the Mountain outlook are all right. What is worrying us is the outlook for the plans.

CHEAP AQUA PURA and cheap light Aldermen say they'll bring to pass. Their reasons are not water tight, And all their arguments are gas.

WE WILL now sing, "The Maple Leaf Forever." Collector Bump of Charlotte, N.Y., is bumping the bumps.

HAMILTON PAPER says there is a cornet in the Irish Guards who makes you forget all your unpaid bills. Maybe. We heard a French horn once who had forgotten all his own due notes.

MR. WILLIAM JENNINGS BRYAN has tied a large tin can to his presidential aspirations and nailed them up in the dog kennel. But the force of habit is mighty strong, and we shall not be a bit surprised to see them trotting peacefully down the road to the Democratic convention.

MONTREAL is to have a cabaret artistique. This is nothing to do with the cabaret array at Phillips Square.

MONTREAL telephone girls should stick in their mirrors the account of their New York colleague's reward for politeness to a nice old gentleman who married her and then considerately died and left her $20,000,000.

The Fox That Founded Cobalt.

(Ottawa Citizen.)

The London Advertiser claim credit for having discovered the true silver fox, the animal whose elusiveness led to the discovery of the riches of Cobalt. It is enough to give one goose-flesh sensations to reflect that if the blacksmith had been a decent shot the hammer he threw at the fox wouldn't have missed its mark and the great silver deposit might still be undiscovered.

THE CONSUMPTION of liquor has greatly decreased in England in the past few weeks. Certainly. All the members of the C.M.A. are back in Canada.—Toronto News.

DRAMATIC NOTE: Mr. Hamlet Mansfield

Modern Cookery.

In red-hot oil they used to boil
All heretics, or toast 'em,
On griddles; but they now have cut
That out—they simply roast 'em.
—Cleveland Leader.

She Drummed.

"My husband, you know," said Mrs. Nexdore, "is a drummer."

"Indeed!" replied Mrs Newcome, "I thought it was your daughter."

"Eh? How do you mean?"

"I thought it was your daughter who used the piano."

KOMURA HAS LOUD THOUGHTS

He Would Enlist Canada's Fire-Eater TO PULVERIZE THE TARTARS

Unfortunately He Offended S. Teddy by Introducing a Tabooed Subject, For Which Break He is Reprimanded—Witte is Still in the Background.

"— — — Mr. Col. Sword-Swallower Sam Hughes get after those Tartars. If he wouldn't make them look like also-rans, then I am a false alarm. We have a few Sam Hughes's in Japan, but they do not come up to the original for a minute."

I don't like to mention what I thought of this statement as the honorable sword devourer is a friend of mine and I changed the subject by asking if Willie Maclean or Ald. Harold Ames couldn't be worked into the discussion.

Not during my sojourn on this mundane sphere," muttered Komura, through gritting teeth.

That astonished me some and I had to ask Komura why he should suddenly get nasty.

"I'm not nasty," he replied, 'but I refuse to discuss Cons. That's all."

"That's no answer," said I, a whit too testily, perhaps. "Why didn't you say 'prunes,' that's all?"

Komura was rather perturbed at my comment but he was game and came right back with

"Well, S. Teddy, 'pon me honor, you surprise me. I did not think it necessary to elaborate upon my reasons, but since you insist I must perforce— — —"

That was as much as I could stand of that line of talk and I broke in—

"Not on your dizzy career. I refuse to listen to—"

(To be continued.)

Fame.

(Chicago Chronicle.)

I went into a public place to hear what I might hear
And Nelson's name was on the lips of people far and near;
They swore he was a hero bold, for he had made a hit
And knocked the underpinning from the fellow known as Britt.
Oh, it's Nelson here and Nelson there and Nelson is a prince,
And Nelson's name makes certain men turn pale and also wince,
For Nelson has big fists, you know, and uses them to fight—
A most enlightened pastime and affords a great delight.
I thought I'd hear Komura's name as I passed down the street,
I thought perhaps of Roosevelt I'd hear some praises sweet,
But no, I never heard a word of any one at all,
But just this may from Hegewich, this lad of nerve and gall.
Oh, it's Nelson here and Nelson there and Nelson leads the van
And al because he struck a blow that downed a fellow man,
But still they say we're civilized and forging to the front,
But still we all go crazy o'er a pugilistic stunt.
No matter wheer you chance to go you hear that fellow's name,
No King or statesman can compare with him for gaining fame,
No hero of the recent war compares with him just now,
For all the world has placed a crown of glory on his brow,
Oh, it's Nelson here and Nelson there and Nelson makes a hit,
And all because he punched the wind from [illegible] Britt,
[illegible] his gain renown and enter glory's lists
Just let your brains all go to pot and cultivate your fists.

Expert Tea Blending

HAVE you ever tried to blend colors to match the shade of the red rose?

Pretty difficult, yet an expert can do it easily.

Why? Because he can tell by looking at the rose what colors are required to produce that tint or shade. He can make that precise color every day in the week.

Just as the artist in colors blends the tints of the red rose, so my artists in tea blend the "rich fruity flavor" of Red Rose Tea.

With expert knowledge and intuitive skill he selects the particular picking of rich, strong Indian tea and the precise grade of fragrant, delicate Ceylon, and by skilful blending produces the peerless flavor of Red Rose Tea—a tea which for delicacy and strength is matched by no brand of Ceylon alone.

Red Rose Tea

is good Tea

PANAMA CANAL AND YELLOW FEVER

A Great Medical Authority Says Asia is in Danger of Getting the Fever

Sir Patrick Manson, K.C.M.G., F.R.S., M.D., F.R.C.P., D.Sc. Oxon., physician and medical adviser to the Colonial Office in London, a distinguished parasitologist and the first to enunciate the theory that the mosquito is the host of the malarial parasite at one period of its existence, and thus an active agent in the diffusion of disease, is in Montreal on his way home from San Francisco, where he delivered a course of ten lectures on tropical diseases at the Cooper Medical College, which is affiliated with the university there.

In an interview with a Herald representative at the Windsor to-day, he spoke of the work that is being done in Central Africa and South America in parasitology and the important studies that are being made on the subject under the auspices of the Royal Society of the United Kingdom.

As the first scientific authority to demonstrate that the mosquito is the transmitter of the malaria to the blood and consequently the disease that it engenders in the human system, and the enunciator of the theory that the mosquito fills a similar role in the transmission of the malaria parasite, Sir Patrick has won for himself a high place in science and in the medical profession. His theory with regard to the malignant character of the mosquito as propagator of disease germs was established incontrovertibly by Major Ross, the leader of an expedition sent to Africa to investigate the subject.

Sir Patrick said that since then American authorities had made the discovery that the mosquito is instrumental in conveying the germ of yellow fever—a discovery which has enabled them to expel this disease from Havana and which is enabling them to combat successfully the yellow fever epidemic at New Orleans.

"A subject to which universal attention ought in my opinion to be directed is," said he, "the danger that the Panama Canal may be to Asia unless stringent and active measures are taken to cope with this matter of the distribution of disease through the agency of the pestiferous gnat. The knowledge that is now available on this subject ought to be of great service during the construction of the canal. But after the canal has been built the waterway will develop an enormous trade with Asia, and one can readily understand that unless steps are taken to repress or exterminate the scourge it is but too probable that yellow fever will be carried to Asia, where the conditions are so favorable for its development that there is too much reason to fear it would cut the people off in thousands and prove as great a calamity as the cholera has been.

"It is to be hoped the American authorities will realize their responsibility in this matter and will be careful to employ the means that science has now placed at the disposal of humanity to prevent so grave a calamity as might arise from the enormous increase of direct trade with Asia which is likely to result from the successful working of the Panama Canal."

When in San Francisco, Sir Patrick Manson advocated the establishment of a school of tropical medicine in that city whose geographical and commercial position is such as to ensure the success of an institution of that character.

Sir Patrick returned from the Pacific coast by the Canadian route and has been greatly impressed by the evidences of progress and prosperity that were everywhere apparent.

He has just paid a visit to Dr. Adami, the bacteriologist of McGill University, of whose work he speaks in terms of high commendation.

THE NEW WATER WORKS APPROPRIATIONS

The Amounts Recommended for Maintenance and the New Loans Asked For.

Mr. Janins' report to the Water Committee at Tuesday's meeting of that body advised new appropriations from revenue to the extent of $16,300 for the following works: Distribution pipes (maintenance, repairs, accidents, thawing, etc.) the appropriation for which was exhausted chiefly owing to the rigor of last winter and the renewal of service pipes under the new permanent sidewalks, for which but $383 remained, $1,000; maintenance of public fountains (appropriation exhausted), $300; maintenance, inspection, thawing of hydrants, $3,000.

The report also asked for the following new loans, amounting to $16,779 on the loan fund for new main conduits to satisfy demands for water services to date: Desery street, from Nolan to 200 feet south of Sherbrooke, $2,100; Hochelaga street, $2,100; De Levis smtreet, $1,600; Sherbrooke street, $300 and $450; Montgomery street, $1,500. For other requests for water service not yet received by the city, but which are very necessary, about $8,000. To satisfy the demand of the Market Committee for a hydrant at the north extremity of the cattle market, $9,300. Placing of new services, $1,680.

THE CITY'S DEAD HOUSE LONG IN SAME HANDS

Since Montreal Had a Morgue It Has Been in Charge of Dumaine & Co.

In view of the acknowledged need of a new and modernly equipped morgue a few facts about the present institution are not without interest.

In 1847 Messrs. C. A. Dumaine & Co., were placed in charge of the city morgue which they have ever since kept up. For fifty-eight years the firm of Dumaine & Co., now controlled by Mr. Louis A. Payfer, has been in charge, and has given uniformly excellent service.

Messrs. Dumaine & Co., offer to build a new and well equipped morgue at the corner of Notre Dame and St. Andre Streets, and conduct it without cost to the city, as in the past. This they claim, would be an excellent locality for such a place, central and close to the wharves and railway system, where most of the fatalities which demand morgue accommodation, occur. Messrs. Dumaine & Co., say that they could have the new morgue perfectly equipped, in operation by January first, next. The firm has long recognied the need of a new morgue, as in 1898 they submitted plans for a new one to the city, but nothing came of their offer then, while the necessity of the new building has since become steadily more apparent.

Now that the matter has come before the Council with a prospect of definite action Messrs. Dumaine & Co., have renewed their offer and their proposition has been backed by many physicians and undertakers.

POULTRY SHOW WILL BE HELD IN OCTOBER

The Canadian Poultry Association was organized in July, 1905, and will hold its first show in Montreal in the Crystal Rink, Dorchester Street, from the 16th to the 21st October, 1905.

D. J. Lambert, one of the best American poultry judges, will judge the poultry, assisted, if necessary, by R. E. McKinstry, of Ottawa, one of our best Canadian judges. Mr. McKinstry will judge the pigeons and also act as superintendent.

Already a goodly number of the most prominent citizens of Montreal have contributed in a financial way, and the prospects are very bright for a good show.

A special feature will be classes for toy dogs. A number of cups and many other valuable special prizes have already been received and more promised. Prize cups will be awarded for Plymouth rocks, wyandottes, black minorcas and Asiatics, etc. A beautiful cup has been presented by Henri Jonas, Esq., for competition in the Orpington class, which ought to make a good showing in that alley.

The entries close on the 5th of October. Prize lists can be obtained on application to the president or secretary at 214 St. James Street.

Gold, Silver and Gun Metal Watches. R. Hemsley, 255 St. James St.—Adv.

ALBANY ARGUS YIELDS.

Albany, N.Y., September 14.—The strike of the union printers in the newspaper and job offices of the Argus company, came to an end yesterday, when the managers signed the agreement for an eight hour working day for printers in all departments.

The situation, so far as the local printing offices in which strikes were ordered, remains unchanged.

New Haven, Conn., September 14.—Job printers employed in several establishments here yesterday struck to enforce their demand for an eight-hour day. It is stated that men employed in other shops will go out to-morrow.

Lowell, Mass., September 14—The demand of the Typographical Union for an eight-hour day was granted by only one printing house in Lowell and a strike has been ordered. About sixty men will be affected.

Three stone Diamond Rings, $20 to $500. R. Hemsley, 255 St. James.—Adv.

Dupuis Freres

Our stores are closed daily at 6 p.m. except Saturday.

DOMINION NEWS TOLD IN A LINE

One Day's Record of the Latest Happenings in Canada.

Winnipeg.—The wife of Ald. Harvey died yesterday as the result of a paralytic stroke. The deceased was a native of Lancaster County, Ontario.

Moncton, N.B.—It is understood Rev. J. W. McConnell, pastor of the Central Methodist Church, has accepted a call to Fredericton Methodist Church next year. At the last meeting of the quarterly board of the Moncton church Rev. Mr. McConnell was invited to remain a fourth year.

Toronto.—A meeting of medical superintendents and other prominent officials connected with the provincial asylums will be held in the Parliament buildings on the 20th inst. for the purpose of organizing, and with a view to adopting a uniform plan in regard to a number of important questions.

Chatham, Ont.—Coroner Bray, who was in Dover investigating the death of Anthony Dupuis, stated that many rumors are rife, but would make no statement. The authorities appear to think there is nothing in the murder theory. A receipt for $18 found in the dead man's pockets accounts in part for the missing money.

Toronto.—Hon. J. M. Gibson, Attorney-eneral in the late Provincial Government, was a visitor at the Parliament Buildings yesterday. The Executive Council was in session at the time, but Hon. Mr. Hanna came out and escorted him into the meeting of Ministers and business was suspended for a little friendly chat.

Victoria, B.C. — Collector Newbury seized all the papers on board the schooner Carmencita, and will hold an investigation into alleged irregularity of Capt. McLean, who is accused of shipping guns in California for purpose of a raid on the seal rookeries. McLean claims Mexican register, and is flying a Mexican flag.

Fernie, B.C.—John Bain, secretary of the Tariff Commission, came here Tuesday to receive written representations on tariff matters, the Ministers being unable to stop here during the tour of British Columbia. No one came forward with any complaint except L. M. Proctor, a large lumber dealer, who in common with his fellow lumbermen out here, wants a duty on rough lumber.

Toronto.—The advent of the shooting season this year has brought a large number of Americans and other sportsmen to the newer sections of Ontario and the Temagami district. With them have come arms of all kinds and these are being seized and taken in charge by officers of the game department. No firearm with a barrel longer than four inches is allowed in the Temagami district at any season of the year other than the moose season, which opens Nov. 1. Notwithstanding these regulations, Americans have been taking in arms of various dimensions all summer.

All Over Town The BUCKLEY HAT.

CROWDS ATTEND CANADA CENTRAL

Receipts at Ottawa Fair So Far Largest in Its History

Ottawa, Sept. 14.—The Exhibition if judged by the cash receipts is going to be a great success. This is the thing that counts in the end. Talking the results so far in 1905 comparisons with last year are favorable. Here is the statement of cash receipts for the two first days each year:

	1904.	1905.
Monday	$1,211	$1,416
Tuesday	3,630	5,639

It is estimated that 16,000 people visited the Exhibition grounds yesterday during the day and 8,000 at night. The receipts for the night were $2,036 and for the day $3,603, making a total of $5,639. The attendance, which is judged from the cash receipts, far surpasses the year before.

Every feature of the big Exhibition is now at its best. The main building is the scene of immense stir and bustle. Manufacturers are present from all over Central Canada and find place to advertise their wares. Judging is in progress in the various departments and red, blue and white prize cards are beginning to appear everywhere.

The Royal Canadian Dragoons of Toronto made a first appearance yesterday afternoon and were accorded a hearty reception.

The luncheon yesterday was to the County Council, but there was a large number of other special guests, including Judge MacTavish, Hon. Peter White, Mr. George May, M.L.A., Consul-General Foster, Mr. Gordon Edwards, Mr. Robert Cummings, Mr. Racine, M.L.A., Mr. A. A. Wright, M.P., Mr. Labrosse, M. L. A., Mr. Charles Marcil, M.P., Mr. F. W. Hodson, Mr. Thomas Ahearn, Mr. Robert Stewart, M.P., Sheriff Sweetland, Mr. W. H. Rowley, Mr. G. H. Perley, M.P., Hon. John Haggart, Mr. C. Ross, Mr. H. W. Gays, Dr Rutherford, and many others.

KILLED BY FALLING STONE.

John Cunningham, a carter, thirty-five years of age, who lives on Dowd street, met his death at Morrisons' stone yards, Guy street, yesterday afternoon. Cunningham was loading his cart at the time of the accident when a stone that was being hoisted on a derrick close by swung round and struck him on the head. He fell to the ground and was picked up unconscious, with a deep gash on his head. He died on the way to the Royal Victoria Hospital, and his body was removed to the morgue, where an inquest will be held.

REGULAR CHURCH PARADE.

The regular church parade of the British Army & Navy and South African Veterans' Association will be held next Sunday morning (weather permitting) to St. Marys' Episcopal Church, where the annual sermon will be preached by the rector, Rev. Mr. Iekill, who is also lieutenant-colonel of the Eleventh Argenteuil Rangers. All veterans are expected to fall in at 9.50 at the Drill Hall, on Craig street. The association band will furnish music for the march to and from the church.

on golf club sardines, an extra treat.

LATE REV. M. SADLER.

Rev. Mitchell Sadler, the well known Methodist missionary, who spent many years in French evangelization work in Montreal and in the province, passed away Tuesday evening at the home of his daughter, Mrs. H. Connor, Hintonburg, Ottawa. The body was brought to this city from Ottawa this morning, and the funeral took place from the Windsor street station to Mount Royal Cemetery immediately on the arrival of the train. As Mr. Sadler had been all his life connected with the Methodist Church, and had been for many years an active and successful missionary, the Methodist ministers of Montreal district attended the funeral in a body to pay their last respects to his memory.

MR. BALLANTYNE WILL GET IT.

Toronto, Sept. 14.—(Special.)—Mr. W. K. George has declined re-election as president of the C. M. A., and C. C. Ballantyne, Montreal, is his probable successor.

DROWNED IN LAKE ST. JOSEPH.

Quebec, Sept. 14. — (Special.)—Two men, residents of Indian Lorette, named Cyprien Villeneuve, aged 48, and Dominique Racine, aged 30 years, were drowned yesterday in River Au Pins, near Lake St. Joseph. Deceased, who were on a fishing excursion, were out in a canoe which upset. Both bodies were shortly afterwards recovered.

HARBOR BOARD MEETING WAS FULL OF LIVE PASSES BETWEEN MEMBERS

Little business was done at the meeting of the Harbor Board yesterday, the commissioners discussing other matters with so much heat that little time was left for actual business.

The first argument arose over Mr. McFee's notice of motion that the election of the president, now imminent, be by secret ballot, which was the first business on the order paper.

On the president introducing the matter, Mr. McFee, said that after thinking the matter over, he had come to the conclusion that no such notice was necessary, because election by ballot was the proper course to pursue.

Secretary Seath said the election of a president should occur at the first meeting in September.

The president—This is a public body, and its proceedings should be public, and open for publication in the usual way. This ballot business is a point that has never been raised before.

Mr. Bickerdike advised Mr. McFee to withdraw his motion.

Mr. Doran declared that it would be most unusual to hold the annual election until the annual report was in.

The president said the report had been delayed because the auditor had been out of town for a week. The annual report was prepared, but had not been audited.

Mr. Crathern—I move that the secretary take the chair, as I have a motion to make.

Mr. Doran—I object to the secretary taking the chair until he settles his own business. Is this information to be given us or not?"

The president—We will have the report at next meeting.

Mr. Doran—I want it now; not at next meeting.

Mr. Crathern again forced his motion that the secretary take the chair, but Mayor Laporte moved that as there was no urgent haste, the election be adjourned until the first meeting in October.

Mr. Crathern—Adjourning the election because the secretary is not ready is wrong, and I object.

Mr. Penny—That is right. The city's business is not held up because committees have not their reports ready. When I was in the Council half the time the reports were not published for six months after the elections.

Mr. Doran—"I don't want to reflect upon the president, but I want to enquire what the duties of his office are. I thought he had to see that the officials did their duty We must now find that out. We elect a president and pay his salary—let us now find out what his duties are. We cannot get the information we want—who is to see that we get it?"

Mr. Penny—"Naturally that falls upon the president."

THE PRESIDENT'S POSITION.

The President.—"I must say I have much sympathy with the staff. They spend days and weeks making reports which meet with no consideration from the Board. With our many meetings and discussions it is utterly impossible to do the work of the Trust properly. But I want this matter finished, and either myself or someone else elected. If you are not satisfied with me elect someone else—no one is more anxious than I to be relieved of the responsibilities of this office."

Mr. Bickerdike—"The president went away in spite of the hurry, and it was at my own suggestion the matter was left over till he came back."

The President——"If things went as some of you wished, I should have been relieved of that very easily. Now it is for you gentlemen to decide whether or not you relieve me of the presidency."

Mr. Bickerdike—"There is a little feeling manifest just now, and I think for the good government of this board it should be allowed to settle before the election is held. And for the benefit of all concerned I want to say that if I was unanimously elected president to-morrow and the salary doubled I would not take the position."

Mr. Crathern—"You are quite safe in saying that, because you would never be elected."

Mr. Doran—"I think that this is a matter of recognizing this trust, and defining the president's duties. This Board's affairs are not being run on business principles, and when members try to run things right they are held up as disturbers and obstructionists."

The President—"Then fix things properly and I shall be the happiest man on this Board."

Finally after a great deal of argumetn Messrs. Crathern and Penny withdrew their motion that the secretary take the chair for an election of president.

REPORT OF WORKS COMMITTEE.

A report of the Works Committee was then presented, which was severely criticized by Mr. Doran, who said taht the east end had been neglected. Mr. Brault also condemned the Works Committee, saying that apparently the Finance Committee had nothing to do but ratify the Works Committee reports.

Mr. Doran angrily replied—"Why, you turned down the most important reports of the Works Committee, and involved the Board in thousands of dollars damages."

The President—"I never saw anything like this Board for finding fault. You will do anything on earth but the work before you."

Finally, after some discussion as to whether or not the works committee report had been carried or not it was again voted on, and adopted, Messrs. Doran, Bickerdike and Brault dissenting.

Mr. Bickerdike—"And where will you get the money?"

Mr. Doran—"Oh, out of the Bank of Montreal."

THE ELEVATOR QUESTION.

A report of the Finance Committee was then read, declining to deal with the J. S. Metcalfe Co., of Chicago, regarding the conveyors on the elevators until the responsibility of Engineer Kennedy in previously engaging Mr. Metcalfe was settled.

The president considered that Mr. Kennedy had acted with the authorization of the Board and had not exceeded his powers, while Mr. Bickerdike thought that he had seriously exceeded his duties as an officer of the Board. Mr. Bickerdike wanted to know just how far Mr. Kennedy could involve the Board, and said he felt sure the Finance Committee would not pass the Metcalfe account until the Board had decided that Mr. Kennedy's course had been proper.

Messrs. Brault and Bickerdike presented a resolution "That the chief engineer in the matter of the J. S. Metcalfe Co., of Chicago has seriously exceeded the powers conferred upon him, which were to employ assistants but not experts, and that he has gone beyond the legitimate discretion which is confided to an officer of the Board."

By this time, however, it was long after six and several of the commissioners had left. The resolution was finally declared carried in a peculiar way. Messrs. Brault, Bickerdike and Racine voted for it, the President and Mr. McFee dissented and Mr. Doran refused to vote, remarking that to a certain extent Mr. Kennedy had acted in good faith, but had exceeded his powers.

BARON KOMURA'S CONDITOIN UNCHANGED.

New York, Sept. 14.—Baron Komura, the Japanese peace envoy, who is ill at the Waldorf-Astoria Hotel, was resting quietly to-day, without any apparent change of condition since last evening.

TWO ARRESTS IN HAMILTON ASSAULT CASE

The Detective Department this afternoon arrested two men whom they suspect of having committed the assault on Mr. J. Hamilton, the St. Peter Street produce merchant, Tuesday evening. The police refuse to say anything regarding the matter further than that the men answer the description of the men who beat Hamilton and then locked him in his refrigerator.

MINISTERS VIEW MODEL HOMESTEAD

Portage la Prairie, Ont., Sept. 14.—Special.)—A lesson for Ontario farmers, who sometimes speak scornfully of the lack of skill of Manitobans, was witnessed yesterday by the members of the Tariff Commission, who stopped off to take a drive through the wheat fields of Portage Plains. The visitors during their drive visited what is generally called the "model" farm of Mr. Donald McVicar, which bears that name because of the high skill used in its cultivation, and the taste in its ornamentation. The house is ensconced in a grove of Manitoba maples, planted by the owner, giving the appearance of an Ontario landscape. There is a flower and vegetable garden filled with articles beautiful to taste and look upon. McVicar is a Scotchman who until eleven years ago carried on a somewhat precarious profession of dominie, or schoolmaster, in the Old Land. He came to Manitoba, and, carrying on the business of a farmer out here, is a picture of health and prosperity in his old age. That which interested his visitors most was a seven acre field of excellent wheat, in which not a weed could be seen. The secret was that winter when work was slack McVicar and his sons spent six weeks hand-picking the seed so as to clean it of all impurities. The result is he now has upwards of 150 bushels of the cleanest wheat, enough to seed all his next year's crop, and lots to spare. The value of such work is apparent, but few would take the pains to carry it out.

Tariff sentiment was not formally investigated, but this opinion from a prominent authority, namely, Senator Watson, may be given:—"American and Canadian agricultural implements are sold here in about equal quantities. The tariff, however, is, in my opinion, just right. It gives the Canadian maker a good advantage to meet the American and overcome the long freight haul. The farmer gets his implements both better and cheaper as the result of competition. The makers on both sides now strive to supply what is wanted, and if either side had a larger advantage the other would be indifferent or would be crushed out. In the old days of 1878 when there was 36 per cent. duty the Canadian makers did not try to meet the needs of this country, and, consequently, the Americans who did, got a hold that lasted for years."

LAWN BOWLING TOURNAMENT OPENS

The first annual tournament of the Westmount Bowling Club was opened to-day on the grounds, corner Sherbrooke and Kensington. There are a number of outside clubs represented, several Toronto bowlers being present. Skip Woodyatt and rM. Turnbull, of the champion Brantford four, are on hand, and did excellent work in this forenoon's round.

The results were as follows:

Westmount, No. 1—F. Rutherford, D. G. Stewart, Wm. Russell, A. J. Williamsan (skip)—26.

Valleyfield—T. Houghton, A. Robinson, J. Forrest, J. Ferrie (skip)—7.

rantford—W. R. Turnbull, H. Morton, D. Carlyle, Thos. Woodyatt (skip)—6.

Westhmount, No. 2—Harling, A. Rutherford, W. H. Wyman, Dr. H. M. Church (skip)—10.

fictorias Toronto)—A. J. Taylor, D. S .Pearcy, Dr. Clarke, W. McMurtry (skip)—19.

Westmount, No. 3.—J. T. Saunders, D. D. Brooks, J. H. Fulton, H. Mason (skip)—14.

Granites (Toronto)—Wright, Botkins, C. Macdonald, Boecke (skip)—16.

Westmount—H. S. Musson, F. H. Gardner, I. G. Gardner, R. Smith (skip)—12.

Canada Bowling Club, Toronto, F. H. Ross, R. Greenwood, A. S. Willison and Dr. A. N. Henwood (skip), 17.

Westmount, H. Rees, Jno. Brown, W. Brown, D. Williamson (skip), 13.

These two rinks played the best yet seen at the tournament.

JAP PREMIER TALKS OF RIOTS

Tokio, Sept. 14.—In a speech before the local governers yesterday Premier Katsura said: "The peace negotiations brought about through the good offices of President Roosevelt have been concluded. During the twenty months of hostilities the war was successfully carried on with an united national support. Your earnest and efficient efforts in guiding the people of your respective localities are fully recognized. Now that peace has been restored, your further efforts are desirable inde aling with post bellum measures so as to afford full play to the enterprising energy possessed by the nation in so remarkable a degree.

"The national energy must be so guided as to realize an expension and development commensurate with the extent of its victories.

"It is highly regrettable that disturbances have occurred in the capital, but we hope that your localities will remain at peace.

"In enforcing restrictive measures over the press promulgated by an urgency ordinance, you are required to be guided by moderation. We hope that under your experienced guidance the nation will fully realize the fruits of its victories."

SIR WILFRID WILL ATTEND.

Ottawa, Sept. 14.—(Special.)—Sir Wilfrid Laurier will go to Quebec on Monday to attend the banquet of the Canadian manufacturers there on the 20th.

Mr. De Gillmor left last night for Boston, and will probably visit his summer residence in St. George, N.B., before returning.

In to-day's issue can be seen the opening announcement of Messrs. Carriere & Matt, two enterprising young men, who have opened a dry goods and gents furnishing business at 1646 Ontario Street. These young men came to the city some years ago, and by industry and economy, they have managed to save enough to start them in the business world. These are the days of successful young business men, and no doubt this firm will be heard from in the near future.

Mason & Risch

Heads the list of HIGH GRADE Pianos

There is not a piano that is better or costs more to make than the Mason & Risch. They will wear as well as any made, and will keep in tune much longer than the majority of pianos, still retaining their sweetness and perfection of tone. This statement is unimpeachable, being based upon and substantiated by the experience and testimony of the thousands of people who are every day using these renowned instruments.

Large assortment of the celebrated Mason & Risch Pianos in mahogany and walnut cases now on view at Leach's, 2440 St. Catherine st., between Stanley and Drummond, sole agency for Montreal. Prices from $400.00, payable cash or $10.00 monthly. Old makers, accepted in part payment, at makers, accepted in part payment, at full market valuations.

NOTICE TO CONSIGNEES.

The Allan Line S.S. Sicilian, Hamilton, master, from Glasgow, is entered at the Customs. Consignees will please pass their entries without delay.

MONTREAL, THURSDAY, SEPT. 14.

REPORT ON THE WATER TAX.

City Treasurer Robb's report on the water rate question, which we publish to-day on another page, ought to have the effect of effectually killing the employment of that question for purposes of cheap electioneering capital. This is a consummation devoutly to be wished.

The report shows that the total water revenue, far from being disproportionate to the fixed and operating charges of the plant, is barely equal to a proper estimate of those charges after the cost of urgently needed extensions is included. It shows that it is greatly more advantageous to the poorer tenant than any charge based on meter consumption could possibly be. It shows that unless the poorer classes are to be allowed to economize to such an extent as to endanger sanitation and reduce the revenue in some districts to far below the cost of supply, there must be a minimum charge against all consumers which will be higher than that now paid by a great part of the poorer tenants. It shows further that if anyone has a grievance against the present rates it is the industrial concerns making a large use of water at industrial meter rates.

Mr. Robb apparently favors the collection of the water tax direct from property, leaving the landlord to recoup himself from the tenant. It is worth while pointing out that even this change is by no means wholly to the advantage of the poor tenant, though doubtless greatly to the gain of the city. To the landlord's charge in such event there would have to be added an allowance for difficulty of collection, and for a risk of non-payment which in the poorer classes of dwellings is very large indeed. At the present time the city bears these charges and distributes them impartially over the whole community. When the landlord has to recoup himself for them, they would be borne by each class of tenant in proportion to their severity in that class. The wealthy tenant would scarcely feel them. The man who is his own landlord would not feel them at all. The poorest class would find them about 100 per cent. on the water rate itself.

THE GAS PROPOSALS.

It has been objected to the proposal for an expert report on the gas situation that an expert may be wrong and may be subject to influence. This is perfectly true; but the reason why the city should call in an expert is exactly the same as the reason why any great private company in the same circumstances would engage an expert if it did not already permanently employ one, namely, that the company's own directors are a great deal more likely to be wrong, and somewhat more likely to be influenced, than a man whose lifetime has been spent acquiring the reputation of an expert. Those who object to the paying of a small fee for expert advice because experts are not infallible seem perfectly willing to let the aldermen do the bargaining for the city without any advice and without any knowledge. There are few sure things in this world. The mining engineer who is engaged by an option-holding syndicate to report on a piece of property does not guarantee the accuracy of his report. He is paid a large sum because his record has shown that he possesses wide knowledge of his subject and that he is unflinchingly honest. He affords the nearest approach to certainty that can be secured. The aldermen are doubtless much more confident of their own ability than the members or directors of a syndicate would be, for one excellent reason among others that they are not risking upon it any large amount of their own worldly goods. But for all that a municipal gas question, particularly in so peculiarly-situated a city as Montreal, is not one that should be left in the hands of amateurs.

Much is being said about "introducing the element of competition." Competition is undoubtedly an excellent thing. In the form of rival gas plants in the same district, however, it is a weapon which should only be employed in the last resort. Another proposed method is to introduce it for the operation only, the city acquiring the existing plant on the terms to which it is by agreement entitled and leasing it to the best bidder. This might or might not be satisfactory as far as the price of the producing process was concerned, but there is very grave doubt whether the purchase price which would have to be paid for the plant would be such as to make it a desirable investment. In any event, the city when buying the Gas Company's plant must either acquire the franchise with it at an advance of ten per cent. upon its arbitration value, or leave it in the hands of the company, and with it the right to start up an opposition gas supply whenever it should please. A contract with the existing company, if only it can be induced to come to reasonable terms, and the city can be assured by independent opinion that the terms are reasonable, is immensely the most advantageous arrangement for its gas supply that the city can now secure.

NOTES AND COMMENTS.

There is a good deal of ground for the apprehension expressed by the Hartford Courant over the falling off of public interest in rowing. The Courant apparently fears that the more spectacular forms of sport are fast superseding the genuinely athletic in the public's favor; and the immense and growing popularity of automobile racing is cited as an evidence of this decadence. There is no doubt that the excitement attendant upon watching an automobile race, which is precisely the same as that experienced during the loop-the-loop thrillers and other death-defying stunts of the modern circus, is obtaining a great grip upon the popular imagination, even in Canada. The auto race contains practically not a single element of true sport, for the factors in the contest are the strength and power of a piece of mechanism, and the extent to which the operator is willing to risk death or injury. There is, however, one consoling reflection about the popularity of these thrillers, and that is that it is excessively ephemeral. Ten years ago bicycle racing was attracting larger crowds than any other sport. To-day it is rather more extinct than the dodo.

Judge Monck, the police judge of Hamilton, Ont., on Tuesday disposed of the case of one Byron Teale, a youth who was found guilty of assault upon two little girls with intent to commit an indictable offence. Teale had a number of influential friends, who were active in his behalf, and was finally given a week to leave town, the instructions to the police being that he was not to be re-arrested for sentence unless he returned to Hamilton within a period of five years. This treatment is not common in Canada for offences of so serious a character. In cases of vagrancy it does not greatly matter, as the prisoners thus released are rather a nuisance than a danger to the community. But it is quite impossible to see why Judge Monck should expect Byron Teale to be less of a danger in Toronto or in Montreal, than he has been and would still be in Hamilton, nor why he should believe that a sojourn in other cities, where he is less likely to have respectable friends, is more likely to improve his character. Hamilton saves his keep in jail, and his friends possibly save their feelings, although one would have thought the latter should have been as much lacerated by the conviction as by the sentence. But the price, if this sort of thing is to become general, will prove a heavy one for somebody.

An extremely interesting situation is being developed in the Conservative party by the forcing to the front of the question of reorganization, especially in Quebec. There is evidently a very strong movement on the part of the younger Conservatives of this province for the establishment of a provincial organization. Le Quotidien, of Levis, rises to nominate Mr. Monk for the office of leader of this provincial organization—which, by the way, does not appear to be projected as primarily an organization for provincial politics. Mr. Monk himself, however, does not support this demand for separate organization, and wants the entire Federal party to get together and look at itself. The attitude of portions of the Ontario party is nicely set forth by the Hamilton Spectator, which does not see how the proposed new separate organization is going to be any improvement upon the present organization. "When the coercion of the West came up the Quebec Conservatives, to a man, deserted the Conservative leader and party and went over to the enemy. They could do no more if they had an independent organization, and we do not think it would be in the interests of the Conservative party of Canada, at large, to recognize an independent body of Quebeckers who would be Conservatives when it suited them and Laurierites when it suited them." It is unkind of the Spectator to speak of desertion when the deserters had a free permit from the leader to go where they liked, but that is not the worst. The Spectator goes on to express a hope that the Quebec Conservatives will carry out their threat and hie themselves to a separate organization; in fact to the Liberal party if they so desire it. "With the Quebeckers all in one party they would no longer hold the balance of power." The Conservatives of this province, who gave Sir John Macdonald his majority for so many years, will be gratified to see what account is made of them now.

TO CHAMPLAIN.

It was no passing fancy that did turn
Thine eyes prophetic to the setting sun;
Seeing the greatness of untravelled plains,
Long ere thy race was run.

Though the fair gateway of the East was thine,
The great St. Lawrence flowing to the sea
Brought to thy heart the spirit of the West,
In luring melody.

The golden chest of nature's bounty lay
Out-visioned on thy venturous, daring breast;
And thou didst see the peoples yet to be,
And rising of the West.

Sleeping in unknown grave thy spirit, still
Doth pierce the centuries between; doth see
The golden East joined to the golden West,
In lasting unity.

And in this great East, West, North, South of Land,
Our native land, stretching from sea to sea,
Thou, dreamer of the past, intrepid soul,
Our present prophet be.

—Francis Dacr.

HIS PROFESSION.

Knicker—I lent him a book several weeks ago. I wonder why he doesn't send it back?

Bocker—You mustn't expect him to return it. He's a bookkeeper.

Frenchman's Sliding Boat.

(American Inventor.)

The fact that a stone can skim the water if its flat surface strikes squarely has recently been put in practice in the construction of a sliding boat by a French inventor, M. de Lambert. The friction which is present when the De Lambert boat slides over the water is very slight, and the power which is necessary in order to make the boat necessary in order to make the boat glide is not high. When the boat is at rest it is supported by floats.

The boat constructed by M. de Lambert has a total length of 20 feet, with a width of 10 feet between the inclined planes upon which it slides. The boat has parallel floats resembling certain Asiatic canoes. The two floats are very narrow and are united by cross-pieces, partly wood and partly of aluminum, a metal which has been used to a large extent in the construction of the boat because of its slight weight.

The motor is a 12-horse-power, but the essential parts of the boat are fixed sliding planes, adjusted under the boat at carefully regulated distances from each other. These planes, which are made of wood, are immersed to a depth of several centimetres when the boat is at rest, and they are inclined at an angle which has been decided upon after wide experimentation. The total weight of the boat is about 1,200 pounds, but in order to move this weight it requires a motor of only 12-horse-power, while in the case of automobile boats the motors required are 60, 80 and even 100-horse-power.

M. Bellet says that M. de Lambert's boat has been timed by official chronometers, and that the results have been surprising. When the motor is started the boat commences to move with the planes still submerged, cutting the water horizontally. But this lasts only a short time; the planes show an instantaneous tendency to rise, and they are practically on the water at the end of a few metres. Then the speed quickly increases because of the immense diminution in resistance, and soon the boat is sliding on the water, or more exactly, on a layer of air resting between the planes and the water, at a speed of 14, 15 or 25 miles an hour.

The Bread-and-Butter Duties.

(Success.)

The "bread-and-butter letter" is the note of acknowledgment written by one to his hostess after a visit. The "bread-and-butter call" is the call which one pays after having been entertained at dinner or luncheon or at any other regular meal. Plenty of persons know the thing who do not recognize the name for it. A good many persons apparently do not appreciate the necessity of either the letter or the call.

Perhaps it is a little harsh to say that this is one of the ways in which a well-bred person can be distinguished from an underbred man or woman. Such a distinction throws too many persons who are otherwise all they should be into the outer darkness of the ill-bred. There are depressingly few who do not belong to one class or the other.

Nearly every one, however, unless he be an impossible sort of creature, acknowledges that the bread-and-butter letter is indispensable. Most transgressions in this line are found in the delays that are shown in writing. The first thing a guest should do after his return from a visit is to write his note of appreciation to the friends by whom he has just been entertained. Often the guest seems to think that any time within a month or so will answer for it. That is the way in which it occasionally comes about that the note is never written and that the quondam visitor puts himself down as hopelessly underbred.

Sinners of this sort are few compared with those who neglect their luncheon or dinner calls. Busy women are often remiss in this respect, but they are angels of light when contrasted with men.

It is abominably rude, when anyone, man or woman, is so lacking in a sense of society obligation as to accept an invitation and then, from laziness or indifference, neglect to pay a call afterward. Allowances may be made for the very much overworked man or woman who seldom has a spare hour to give to such things—or to anything else—but the ordinary luncher or dinner-out should feel it a breach of decency to accept an invitation and then to omit the call that should follow.

Mr. G. M. Bosworth, fourth vice-president of the C.P.R. sails to-morrow for England. Miss Bosworth accompanies him to complete her education abroad.

Music and the Drama

The sale of seats and boxes for 'The Duchess of Dantzic," next week's attraction at His Majesty's opened at the box office this morning. "The Duchess of Dantzic" is the musical version of "Madame Sans-Gene." The score is by the famous composer Ivan Caryll and the book and lyrics by Henry Hamilton. The company is the same that presented the piece for two seasons in London and for fourteen weeks at Daly's Theatre, New York, last year. The engagement at His Majesty's next week will inaugurate the American tour. The organization comes directly from the Lyric Theatre in London to Montreal, headed by Miss Evie Greene, and with Mr. Holbrook Blinn as Napoleon.

"The Smart Set," a musical comedy fashioned on unconventional lines, is due next week at the Academy. The fun element contained in 'The Smart Set" is said to be equally important from the side of originality and unction, while the scenic and costume appointments add still more of superiority. Matinees will be given Wednesday, Thursday and Saturday.

At the Royal next week will be seen as complete a company as any audience has ever been treated to; captured on Broadway every one with a record of that famous highway's best shows. Beautiful Miss Mildred Stoller heads the female contingent and was formerly head of the famous production "Broadway to Tokio." Mr. Johnny Weber, a German comedian of wide experience; Kenny and Hollis, Green Sisters, Lippincotts, Gardner, West and Sunshine, and the widely known four Melrose Troupe, are included.

The audiences which are greeting the Cazeneuve company at the Francais in the comic opera "Les Saltimbanques," this week shows that Montreal can and does appreciate the better class of opra bouffe when delivered to them in the original by clever people. The Omers add greatly to the effectiveness of the performance by their acrobatic and pantomimic work. Beginning next Monday the company will present "Le Jockey Malgre Lui." The Omers and Mlle MacSpirit's dancing will be among the features, and the scenic effects are claimed to be exceptionally strong. Next week the Francais will start their soirees de gala and continue them through the season. Friday evenings have been selected for the purpose.

Professor E. K. Crocker's educated horses, ponies, donkeys and mules arrived in town this morning by the early train over the Intercolonial from Chatham, N.B. Since the arrival of these clever animals from Europe some two and a half months ago they have been showing continually through the Maritime Provinces. It was owing to this fact that Prof. Crocker decided to come to Montreal a few days ahead of his opening here at the Arena next Monday in order to give his equine pets an opportunity to have a little rest, as it is Professor Crocker's wish that the performances may be seen in Montreal at its best.

Although the concert in the Victoria Rink on Monday October 2, will be the first public appearance of the Boston Symphony Orchestra for the season of 1905-6, there is no danger of any roughness surviving from the summer vacation. Two solid weeks of rehearsal will precede the opening of this brief one-week tour. Mr. Gericke is not the man to start out with his orchestra in any state but that of conscientious perfection. He is one of those conductors who do more to fashion the orchestra at rehearsal than at the public concert. His theory, and one he has always lived up to, is that when the night of the concert has come the orchestra must be so thoroughly acquainted with the works on the programme and with the wishes of the conductor, that the latter's duty need be little more than that of a prompter, to signal the entrance of the various instruments and groups of instruments. This end is attained only by constant rehearsing of the entire eighty performers, all of whom will play in Montreal.

MANY INSANE AT LARGE.

No less than five insane persons have been found wandering in the streets by the police this week, and have been committed to the asylums through the Recorder's Court. Two of the five were unable to give their names. One of these was a woman about sixty years of age, found in Constant lane, who was so deaf that the police officials could not make her understand anything.

Clocks repaired and wound by contract. R. Hemsley, 255 St. James St.—Adv.

INSTALLATION OF NEW PASTOR.

In the presence of a large congregation and amid the most encouraging evidences of harmony among the people the Rev. A. W. Main was installed pastor of the Point St. Charles Congregational Church. After the customary devotions the new pastor was offered the right hand of fellowship by Rev. E. H. Tippett, while the charge was delivered by Rev. Dr. Warriner, who presided over the meeting.

PE-RU-NA FOR THE CHILDREN

BLANCHE KING.

Cramps, Colic, Summer Complaint, Cholera Infantum, Are All Phases of Summer Catarrh.

HOWARD R. FELLER

Pe-ru-na, a Family Remedy For Eight Years.

Mrs. Mattie King, 1527 Polk Street, San Francisco, Cal, writes:

"I have used Peruna myself and in my family for the past eight years and it has proven itself to be a most decided household blessing.

One dose cures cramps and pains

"I find it of special value for my little daughter, as one dose cures cramps and pains, and colds are soon driven from the system.

"I consider it of special value in keeping the body in such healthy condition that it throws off disease, thus saving doctor bills and the annoyances incident to sickness in the home."

Stomach Disorders of Children.

The colic, cramps, pains and stomach disorders of children are a few of the symptoms of summer catarrh.

Children are more subject to this phase of catarrh than grown people.

Peruna is a reliable remedy in all such cases. Hence its popularity.

The majority of cases of cholera infantum are a direct result of a catarrhal derangement of the stomach and bowels.

Keep the stomach and bowels free from catarrh and the children are in no danger of having any of the summer diseases so common in this country.

No Narcotics.

One reason why Peruna has found a permanent place in so many homes is the fact that it is perfectly harmless and contains no narcotics of any kind.

Pe-ru-na, the Family Doctor.

Mr. William F. Feller, 352½ E. Burnside street, Portland, Ore, writes:

"Our son, Howard, caught cold and suffered with catarrh of the nose, had a very bad breath and frequent colic and stomach disorders, but a few doses of Peruna cured him."

A few doses of Pe-ru-na Cured him

"We never have a doctor any more and no other medicine than Peruna."

UNIONISTS PASS MANY RESOLUTIONS

Against Sunday Labor and in Favor of Technical Education

At yesterday afternoon's session of the National Congress of Trades and Labor Councils a number of resolutions were adopted. Of these the following are the principal:

That the Congress protest against the 5 cents per ton as a tonnage rate on ships entering the port of Quebec inasmuch as it keeps shipping from the port.

That the Congress petition Government and do everything it can to prevent Sunday labor.

That the Minister of Labor be asked to introduce in the labor law a clause by which all contractors must put in a conspicuous position copies of the fair wages law as prepared by the Department of Labor, so that each workman may know what he is entitled to receive.

That in view of their desire to bring about a better feeling between employers and employes a committee of the Congress be appointed to meet a similar number of the Canadian Manufacturers' Association to bring about an understanding in the matter of their mutual interests.

That the Government be petitioned to put an ad valorem duty of 30 per cent. on all American imported boots and shoes.

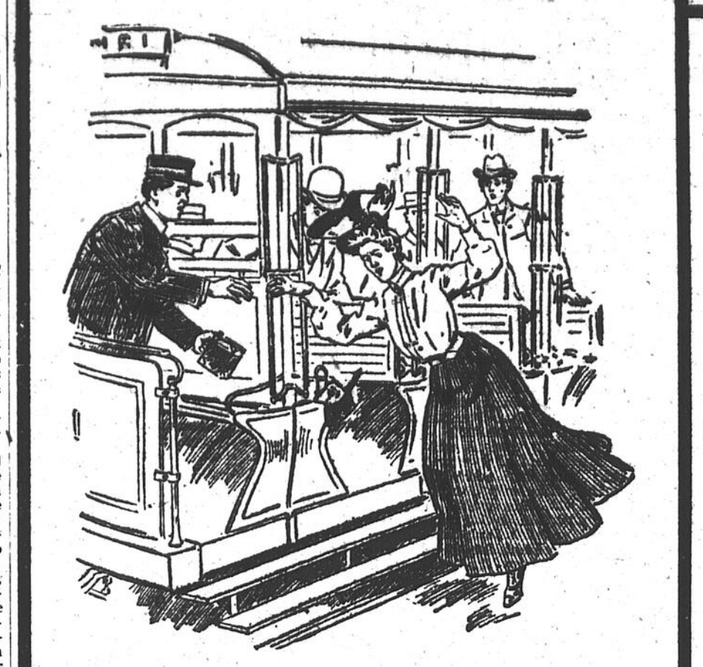
That the Congress make every effort to secure free technical education for the working classes.

That the Congress protest energetically against the formation of the proposed provincial board of conciliation and arbitration on the ground that the appointment of the members of this board was not by the vote of the majority of the parties interested.

That a defence fund be originated to meet the wants of lockouts and strikes that might possibly arise.

That the Government be petitioned to appoint a carpenter in good standing and a competent man as a scaffolding inspector.

The adoption of these resolutions occupied the whole afternoon with the exception of an interval when the Congress was photographed in a group round the Mayor's chair in the Council Chamber. At 2 p.m. to-day, after the morning session, the representatives present at the Congress will enjoy a trolley drive to Lachine and a trip down the rapids. In the evening the Congress attends a banquet at Bureau's Hotel, Bout de l'Ile.



417 Women Killed 2093 Women Injured

THROUGH STREET CAR ACCIDENTS.

Mostly Through Getting Off the Car The Wrong Way!

The Standard, the new national Canadian Weekly paper, will pay twenty-five dollars for the best letter on the question of reducing street car accidents, keeping in view two main ideas :—

1st.—The compelling of Street Car Companies to protect the public.

2nd.—The protecting of the travelling public against their own carelessness.

Any woman who cares to express the view that women do not get off the cars in the wrong way will find ready access to **The Standard's** columns for her views, always assuming that she will welcome criticism.

HISTORIC BOW BELLS WILL CHIME AGAIN

Familiar Tune Associated With Whittington Once More to Gl[illegible] the Ear.

Bow bells! There are perhaps no bells in the whole of England of more world-wide historic interest than those of Bow Church. For many centuries at times of great national rejoicings their merry peals have rung out a glad message to London, and is it not of faith that to be born within sound of Bow bells confers upon the hearer the proud title of a true-born cockney—a citizen of no mean city?

Dear to the heart of childhood, too, is the message of hope that the chimes of Bow Church bore to the despondent 'prentice boy who afterwards became thrice Lord Mayor of London. "Turn again, Whittington, Lord Mayor of London," said the chimes, and the familiar tune associated with this pretty story will soon be heard by Londoners as the clock of the old church strikes the quarters.

It was a happy thought of the present rector, the Rev. A. W. Hutton, who takes a laudable pride in the church and its historic associations, to revive these old memories of the famous Whittington. The setting of the tune for the purposes of the chime, will be played on ten of the twelve bells. In addition to this chime, technically known as a "quarter-chime," an apparatus is being fitted to enable the bells to be chimed by one bell-ringer at the times of service and on other occasions. The new chimes will beheard for the first time on November 1st.

TAKES A TIME TO DO.

As for the famous Bow bells themselves, they have just been rehung by the firm of Mears and Stainbank, by whose predecessors the first of the peal of twelve, a tenor bell, weighing fifty-three cwt., was cast so far back as 1669, when, there is every reason to suppose, the metal of the old bells melted in the great fire was used. In 1762 nine more bells were cast, and two more were added in 1881. The bells were rung for the first time after being rehung on the occasion of the visit of the King of Spain to the city.

"Don't say that the bells will ring a peal," said Mr. Hughes, of the firm of Messrs. Mears and Stainbank, whose three-century-old bell foundry is still in the Whitechapel road. "This is merely a quarter-chime. As a matter of fact, nothing less than 5,040 changes, rung on eight or more bells, and taking three hours to ring, is called a peal. Anything less is called a 'touch.'"

The full peal for twelve bells, said Mr. Hughes, smiling, embraced 479,001,600 changes, and would, if attempted, take thirty-seven years and 355 days to ring.

Fine Diamonds, large stock, prices right. R. Hemsley, 255 St. James. — Adv.

FORCING FLOWERS BY CHLOROFORM.

Ether and chloroform, so useful in sending men to sleep, have, it appears, the very opposite effect on plants, which are stimulated to the greatest possible activity by these drugs. In Denmark and Germany advantage has been taken of this fact to force flowers in rooms and glasshouses, and to make them bloom out of season. The results are said to be wonderful.

Mr. Henry O. Wootten, who has been at the Windsor for a week, left last evening for Toronto in the interests of his firm, the John Robertson Son, Ltd., distillers, Dundee. He will return in a week's time.

Winnipeg.—John Burns, M. P., of London, Eng., and J. Allen Baker, M. P., are here en route west.

A BIG DEAL IN THE PIANO BUSINESS.

Messrs. C. W. Lindsay, Limited, piano dealers of this city, have purchased the entire stock and business and agencies of C. A. McNee, of Sparks Street, Ottawa. The purchase includes a large number of new upright pianos, of which a considerable consignment is being shipped to Montreal and will be sold at bargain prices. Messrs. C. W. Lindsay, Limited, already conduct a store in Ottawa in addition to the two stores in Montreal and one in Quebec. They will control the famous Heintzman & Co. pianos for the Ottawa Valley as well as the Montreal district.

DR. JAMES NEISH DEAD.

Kingston, Ont., Sept. 14.—(Special.)—Dr. James Neish, a former Kingstonian, died at Old Harbor, Jamaica, on Aug. 28, aged seventy-one years. He was born on Dec. 24, 1834, at Doncaster, Eng. He was a graduate of Queen's in 1865 and in early times was editor of the Kingston News, when it was the Reform paper here. Over thirty years ago he went to Jamaica, accepting the position of district medical officer at Old Harbor. He only retired a short time ago, when his advanced age made it impossible to continue longer in harness. He was a brother of William Neish, of the Customs Department in this city. He is survived by four sons, all of whom adopted his profession and graduated at Queen's Medical School.

American watches carefully repaired. R. Hemsley, 255 St. James St.—Adv.

PITY FOR THIS SORT.

There are men who year after year still remain bachelors though they long to have a wife and home of their own. It is the one thought and hope that pursues them every day of the week. On their holidays they dream of it. Other men are blessed in this way, so why should they not be? Yet the fault or misfortune is entirely their own. They cannot make love. Instead of making themselves pleasant and attractive in the eyes of the girls they meet as do other young men of ther acquaintance they become nervous and brusque to the point of repelling those who might otherwise be disposed to meet them on fair ground.

Should one of those unfortunate men meet a girl who is more than usually attractive to him he will think and dream about her, let his feeling carry him away until he is in truth head over heels in love but he seems always afraid to speak to her. He will sit enraptured to hear her speak, treasuring up ever word that falls from her lips, and she will only think him stupid and dull. His heart is warm and true, he may be clever and capable in other ways, but in making love he has not one iota of ability. With misery untold he will sit and see the girl he loves carried off before his very eyes by a man who he knows could not make half such a good husband as he himself would.

It is hard for such men. They dread a loveless life and lonely future, and them to move forward and help themselves. All the time it seems impossible for Only if some thoughtful and far-seeing older man or woman friend takes them in hand ad arranges the match are such men made happy for life, and for this tactful "interference" they are always truly thankful.

VALUE FOR HER MONEY.

Mme. Parvenu—"Can I get you and your orchestra to play at my soiree next Thursday night?"

Orchestra Leader—"Certainly."

Mme. Parvenu—"Well, you may consider yourself engaged But I want to make arrangements to hire you by the piece, do you understand? The last time I engaged you by the hour, and your men took advantage of it and played slow, soft things most of the time."

A Montreal Lady Refused to be Swindled.

She Sends Back to a Substituting Merchant Weak and Adulterated Dyes Which He Had Given Her Young Son.

Mrs. ——, a Montreal lady, sent her young son to a store for a package each of Diamond Dye Fast Black and Diamond Dye Fast Bottle Green for Wool, to color two valuable wool skirts for autumn, which had become faded by sun and wear.

The merchant, who had laid in a stock of weak and adulterated package dyes, which he was anxious to sell because of the large profits they brought, handed the young boy two packages of the common dyes, which he brought to his mother.

"Take them back at once."

Mrs. ——, who had had long years of happy experiences with the never-failing Diamond Dyes, said to her son, "take them back at once, my dear, and if Mr. —— cannot give you the Diamond Dyes, get your money back, and go elsewhere for the dyes I need, and which I have always used successfully." The Diamond Dyes were procured, and the dyeing operation was a perfect success. Had other dyes been used, lots of money, time, temper and destruction of valuable goods would have been the result.

If you desire to do home dyeing easily and profitably, do like Mrs. ——, refuse imitation and adulterated package dyes, and insist upon having the reliable and time-tried DIAMOND DYES.

INTERESTING STORY OF HOW ALLAN LINER, VICTORIAN, WAS FLOATED

Dense Smoke From Forest Fires Responsible for the Disaster—The Successful Floating of the Turbiner Was a Marine Feat Seldom Paralleled

The week ending Saturday, September 2, was a very bad one in the history of the St. Lawrence ship channel, as the record of Friday, Sept. 1, shows. Forest fires, accompanied by fog, make the very worst possible conditions for the St. Lawrence channel, and while these rarely occur together, their coincidence last week made a great marine disaster imminent, when the premier steamship of the St. Lawrence route grounded near Cap Charles, one of the worst places in the river.

The atmospheric conditions were the worst possible, the ship was the largest on the route, and the spot where she went ashore was the most dangerous along the route. The grounding took place at high spring tide, which put another difficulty in the way of floating the vessel. That the Victorian should have been brought off successfully on the 12th, with only the slightest damages sustained, is a triumph for the efforts of the staff of the Marine Department.

The Victorian left Montreal on Monday in charge of the veteran Capt. McNicholl, and Pilot Laurent Gauthier, one of the most reliable, careful and safe men on the river. She had a long list of passengers and a valuable cargo.

Athough smoky, navigation was not dangerous until Cap a la Roche was reached, when the ship ran into a fog. The channel, which is but 300 feet wide, is splendidly buoyed, and by the compass anchorage below Cap Charles would have been safely made, but for the report from the lookout of a vessel straight ahead. Nothing could be seen by the pilot from the bridge and in order to avert possible collision, he put the helm over slightly, when the vessel ahead was made out to be the Cape Breton, going in the same direction. Before the ship could be straightened up, the bow was out of the channel, on the edge of the shoal.

The grounding took place about two hours after high water on the day of the highest of spring tide.

The position of the ship, with the bow on the edge of the bank and the stern overhanging some fifty feet in the 300 feet dredged cut, was serious.

It was a question if it would be safe for other ships to pass, and much more dangerous that the ship would swing around with the current and completely block the channel for navigation.

Although the ship went aground easily without shock, and at very slow speed, the tremendous weight of the vessel striking on the bottom of shale rock, sufficient damage was done, that water flowed into No. 2 hold immediately.

In order to prevent the ship swinging across the channel, the captain took the wise precaution to fill some of the ballast tanks.

Mr. F. W. Cowie, superintending engineer of the ship channel, who was in Montreal, was called upon by Mr. Torrance, of the Dominion Line, with several pilots who were on the eve of sailing with other ships, and were anxious as to their safety, especially as several large ships had cleared after the Victorian. Mr. Cowie immediately left on the Frontenac, and at Port St. Francis notified the C. P. R. SS. Mount Royal to wait at Batiscan until notified.

The position of the Victorian was found to be on the south side of the channel at Cap Charles, with the bow eighty feet on the bank and the stern reaching fifty feet in the channel. The vessel was upright, and resting easily. The current at that point is strong, but with care the channel was safely navigable.

The matter being most serious, in the event of the channel being blocked, Colonel F. Gourdeau, Deputy Minister of Marine, was asked to go to the scene of the accident, by Hon. Mr. Prefontaine.

Mr. Andrew A. Allan was personally in charge of the transfer of the passengers, and the ship's officers, in the operations of transshipping cargo and floating the ship were directed by Capt. Griffiths, marine superintendent of the Allan Line.

After a consultation it was decided to procure channel dredges to aid in holding the ship from swinging around and to help floating the vessel.

The Davie wrecking plant had gone to the wreck of the Virginian, of the Leyland Line, which had gone ashore below Quebec on the same day, and the powerful tug Lord Strathcona only reached the Victorian on Monday, when operations were immediately commenced.

Messrs. Davie put in six large and powerful pumps in No. 2 hold, which was full of water, but the pumps were unable to cope with the inflow. Divers ascertained that the damage was severe at one point only where the joints between the plates had been forced apart, caused by the weight of the vessel herself coming in contact with the rock. It was found that by inserting canvas caulking the inflow of water could be materially checked.

The bulkheads were found to be perfectly tight. It was then decided to batten down the hatch on the lower deck and confine the water to the one compartment. This would add a weight of about 1,600 tons to the ship's displacement, to counteract which cargo and coals were removed to about the same weight. The boats, davits and everything heavy from the extreme upper part of the vessel were removed in order to have the ship prfectly stable during the operations of floating her.

As the east wind had kept the tides up, it was hoped that everything would be ready to float the ship before the spring tides were over, and by working night and day everything was made ready for a trial at the Tuesday afternoon high tide. Unfortunately, however, the wind calmed down and the tide did not rise to within two and one half feet of its height on the previous day, and, although three dredges the wrecking tug Lord Strathcona and the powerful ice-breaking steamer Montcalm, made a trial it was evident from the start that this would be unsuccessful. The ship had gone ashore during spring tide, and doubt was expressed that the tide would rise high enough at the next high tide to float her. Accordingly several hundred empty barrels were inserted under the temporary hatch to take the place of so much water in that hold. Mr. Andrew A. Allan was personally in charge the whole time these operations were going on, consulting with Mr. Hugh A. Allan daily by telephone.

As the early morning tides were the highest, preparations were made each morning to take care of the vessel of the tide rose to a sufficient height to hint at success. Tugs were despatched to Batiscan anchorage, and Grandines, to hold vessels at those points until after high tide, as the whole channel was required for the tugs during each attempt. Two powerful channel dredges were placed in position on Monday morning, followed by a third on Wednesday. As the bottom was of rock, and the current strong, anchors were of little use to hold these dredges, but the heavy bucket frames, weighing, with the buckets, nearly one hundred tons, were lowered to the bottom, making the dredges as solid as wharves. The winches on these dredges were equipped with long steel mooring wire, an inch and a quarter in diameter, with a strength of over forty tons each. Thus the three dredges had a full power of over 120 tons. The wrecking tug Lord Strathcona can easily break a fifteen inch hemp hawser, with a strength of over thirty-five tons. By the direction of Hon. Mr. Prefontaine, the ice-breaker Montcalm, also with very great power, was brought into requisition.

The ship had gone ashore with a mean draft of over twenty-six feet, two hours after high tide, and in grounding had lifted considerably. Without extra force the water would therefore require to be higher than it was at the time of grounding before the vessel would float. The depth of water on the bank at that point was only 17 1-2 feet at extra low water, while the depth in the channel at the same stage was eight and a half feet greater. The lowest tide was reached on Friday, Sept. 8, and the tides increased gradually until three days after the full moon, on Sept. 16.

It was expected, however, that success would be attained either on Tuesday or on Wednesday, and preparations were made for a supreme effort. An additional dredge was brought into use, making four in all. These were attached by their wire cables, 200 feet in length, to the stern of the ship. It was expected that the dredges would do most of the pulling while the tugs straightened the ship and held it in the channel until it could safely steam away. Mr. F. W. Cowie, superintendent of the ship channel, was constantly on the scene, looking after the dredges, and, being confident of success on Tuesday morning, telegraphed Hon. Mr. Prefontaine to this effect. The minister, with Col. Gourdeau, the deputy minister, left Montreal on Monday night and arrived at Cap Charles before daylight on Tuesday, where he boarded the Government steamer Frontenac.

At 7.30 a.m., the Lord Strathcona made fast her hawser, the Montcalm was strongly secured by wire hawsers to the ship's side, two Sincennes-MacNaughton harbor tugs made fast to the bow of the Victorian, and, when the water showed a draught on the ship of slightly over twenty-five feet, directions were given to commence hauling.

Immediately the four steel hawsers were straightened out, and the Victorian swung slightly and began to move. Then she stopped. The Lord Strathcona, with her powerful associate the Montcalm, could not stir the vast vessel, and another pull had to be made by the dredges. Then the Victorian slid quickly off without any list or extra submersion to the normal draft. The lashings of the dredges' steel hawsers were cut, and the great vessel moved gracefully away under her own steam, and sailed down to Quebec without anything amiss, apparently.

From the day the ship went aground, Sept. 1, until the morning of Sept. 12, everything possible was done to ensure the safety and success of the floating operations. A representative of the underwriters, from New York, gave it as his opinion that he had never seen a better organized attempt to float a vessel.

The effect of this so-called great marine disaster will be modified by the success of these efforts, and by the knowledge that every possible assitance was given by the Minister of Marine and Fisheries, who takes a deep interest in the navigation of the St. Lawrence, and who is at present urging the movement which will result in the channel being widened from three hundred to four hundred and fifty feet, and increase in depth from twenty-six to thirty feet, at extreme low water.

It is learned that the city dock at Levih although sufficiently long, has not an extrance large enough to admit the Victorian. This is a most serious matter and it is of the greatest possible necessity to have a dry dock in the river, either at Montreal or Quebec, or some other point, where repairs can be made to the largest ships plying in the St. Lawrence. The Victorian and the Virginian are probably the only ships at present that are too large for the Levis dock, but next year even larger vessels of the C.P.R. Atlantic line are promised. The Minister of Marine and Fisheries has taken an interest in this matter, and there is no doubt that a movement to instal an adequate dry dock will shortly be set on foot.

Judge Myers and Miss Myers, of Winnipeg, are guests of Mr. and Mrs. D. H. McLennon, 539 Grosvenor Avenue, Westmount.

Misery Indescribable

Is what the asthmatic must suffer. How pleasant the relief from Catarrhozone can only be told by the cured ones. But cure is certain and lasting, wherever "Catarrhozone" is used.

STOCKS AND MONEY.

Increased Enquiry for Stocks; Iron Issues Slightly Higher

Nova Scotia in Better Demand Here and in Toronto

A good demand strengthened the tone of a few stocks.

Nova Scotia Steel was in better demand, and it sold up very quickly. Quite a few houses are recommending the stock to their clients, and everything seems to indicate that the company has had a very good season, and there is every prospect of the favorable conditions in the iron trade continuing for some little time. It sold up to 66 7-8 in Toronto.

As a matter of fact all the Canadian steel companies have had a really fine summer and the Iron Age says there is brilliant promise for the next year. It is just such conditions that should enable the Dom. Iron and Steel to bring about its reorganization in the near future. Dom. Iron bonds sold 84 1-8, and Iron preferred at 70 1-4.

Dominion Textile preferred again showed activity at 90, some house claiming to have reliable information that a dividend was a certainty when the directors meet next week. Now that Senator Forget has left for the West it will mean that both the president and vice-president of the company will be absent from the meeting at which action on the dividend will be taken.

Detroit United sold off fractionally, due most likely to the weakness it showed on the Wall Street market. The company's earnings are showing very large increases, and in a more active market the stock should easily do better than it has for the past month.

Montreal Power, though not very active, was stronger again at 92 3-4 and 92 5-8.

Quite a few local traders are waiting to see the stock score a good advance and claim that on its earnings it is worth more than present prices. They claim that so far very little effort has been made to advance the price.

Bank of Montreal stock was much sought for, and it sold at 258, compared with 256 yesterday. In banking circles there is some surprise that there has not been a greater demand for bank stocks. With so many millions on deposit in the banks it does seem strange that people do not take advantage of the higher returns they would obtain on their money by securing shares of some of the large banks.

The weekly bank clearings published elsewhere, indicate that the banks are doing a very large business. In the East payments are said to be very fair.

Local Gossip

LAKE SUPERIOR CORPORATION.

The directors' meeting of the Lake Superior Corporation called for Thursday to consider the annual report, has been postponed until next Wednesday, Sept. 20.

TORONTO STOCK MARKET.

Toronto, Ont., Sept. 14.—(Special.)—Imperial, 25 at 237½; Dominion, 20 at 265¾; Can General Electric, 25 at 155½; Sao Paulo, 50 at 138, 25 at 138⅛, 25 at 138, 25 at 138, 25 at 138, 25 at 138, 25 at 137¾; C. P. R., 25 at 165¾, 25 at 165¾, 50 at 166; N. S. Steel, 50 at 66½, 25 at 66¾, 50 at 67, 5 at 66⅞, 25 at 66⅞; Nor. Nav., 5 at 76½.

Wall Street Market

Wall Street, Noon—A rise in the southwesterns centered in Missouri Pacific which advanced briskly 2 1-8. The Wabash stocks, Wheeling and Lake Erie second pfd., Texas and Pacific and Rock Island gained 1, St. Louis Southwestern pfd., 1 1-2; St. Joseph and Grand Island second pfd., 2 and Wheeling and Lake Erie, 1st pfd., 3. Colorado Fuel and Republic Steel pfd., also rose 1 and Virginia Carolina Chemical pfd., 1 3-4. The general list was affected by sympathy but only fractional. Bonds were steady.

WALL STREET GOSSIP.

J. S. Bache & Co.—Noon—Considerable activity took place in the market at the opening to-day as a result of the more confident feeling engendered after the close of the market yesterday in regard to the dividend to be declared on smelters. There had been some unreliable reports spread that the dividend would be a disappointment, which caused some of the ill-informed to dispense with their stocks. The result of the meeting was never in doubt by the knowing ones and the company declared 1¾ per cent., which puts it on a 7 per cent. basis. Price Current's estimate on corn crop was very well received and grangers show more animation than for several days.

Marler & Hodgson—Brokers generally reported that stocks were more difficult to buy than they were to sell. It is believed that further importations of gold will be made next week.

E. & C. Randolph.—The Gould stocks have been a feature, Mop., Wab. issues and Texas all showing strength. The tone is quiet and trading largely professional, but the undertone is strong. Money rates remain firm.

Charles Head & Co.—Canadian specialties were in good demand and Canadian Pacific and Soo stocks showed the effect in their quotations. London was a buyer to a small degree of Southern Pacific and U. P.

DIVIDEND INCREASED.

The dividend in Smelters was put on a 7 per cent basis to-day.

Bank Clearings

The local bank clearings were again very large this week showing an increase of almost five million compared with the corresponding week last year. Total for week ending Sept.

14th, 1905	$25,283,382
Corresponding week, 1904....	20,582,661
Corresponding week, 1903....	20,734,036

Lawson Sued

Boston, Sept. 13.—Claiming that he has been damaged to the extent of $3,750,000 by the failure of Thomas W. Lawson to keep an agreement with him, Lus H. Rahn, of Urique, Mexico, entered suit against Mr. Lawson in the Supreme Court. He requests that the defendant deliver to him personally 7,500 shares of the Lawson Company of Mexico, and in addition that he place in a safe deposit vault for ten years 22,500 shares to bind the agreement on which the suit is based. The plaintiff alleges that Mr. Lawson agreed to finance the company, and that he failed to do so. An order of notice was issued by the court making the case returnable Tuesday.

The Lawson Company of Mexico is capitalized with 300,000 shares of a par value of $10. Thomas W. Lawson is president and Arnold Lawson secretary and treasurer of the company.

Can. Securities in London

The Canadian Gazette, London, England, of August 31, observes:—

Canadian securities continue to be the subject of pronounced attention. The buoyancy continues, having been accentuated in no small degree by the recent Government returns regarding the crops. True, the result of the peace negotiations has undoubtedly affected the course of prices, but we are of the opinion that even if no basis of settlement had been arrived at the rise in values would still have taken place. Activity continues to prevail in the land shares and in some instances, notably Hudson's Bay, phenomenal prices have to be recorded. These shares, which in the course of a few months have risen from 54 to over 90, are just now in strong demand, on local, Canadian and foreign purchases. It is said that Paris and Berlin have been making considerable investments in these shares.

Railway securities have also appreciated on the excellent crop prospects, and also, of course, in sympathy with the prevailing tone in the rest of the markets. Canadian Pacific shares are 4 1-8 up on the week at 169 1-8, and in Grand Trunk stock the first preference is 1 1-4, up at 113 3-4, the second preference 1 at 105 3-4, and third preference as much as 4 at 58 3-4, the ordinary 1 1-2 at 24 3-4, and the guarantee 4 at 103 1-4. Grand Trunk Pacific 4 per cent. stock is 1-2 up at 103, as is also Canadian Northern 3 per cent. stock at 92 1-2. Alberta 5 per cent. debenture stock has improved 2 to 92 1-2, and Atlantic & North-Western 5 per cent. stock is 1 up at 119. "Soo" common has advanced as much as 15 to 142 1-2, another record while Qu'Appelle & Long Lake, etc., 6 per cent. bonds are 4 up at 84. In Dominion securities Canada 3 1-2 per cent. are 1-2 higher at 102 1-2, and in Municipal issues Montreal 3 per cents. at 87, 3 1-2 per cents. at 99, and 4 per cents. at 108, are all higher.

We have several issues of attractive Corporation Bonds

TO PAY 5 p. c.

and in some cases slightly over this rate.

"Street" Gossip

Senator McKeen, director of the Dominion Iron and Steel Company, is visiting the company's works at Sydney.

Many Capitalists Away

Quite a number of leading capitalists of Montreal are absent from the city on business trips. The majority are in the West. Among those away from town are Sir Thos. Shaughnessy, Senator Forget; R. B. Angus, C. R. Hosmer, H. S. Holt, F. W. Thompson, E. L. Pease, Sir William Van Horne, D. M. Stewart.

High Price for Seat

New York, Sept. 14.—The sale of a seat on the New York Stock Exchange for $84,000, which is $1,000 more than the previous high record price, is announced.

Record Traffic on Tor. Ry

The Toronto Railway carried 4,201,880 passengers during the two weeks of the Exhibition ending on Saturday evening last. This does not include those who travelled on transfers. During the same period the company's earnings amounted to $173,940.57, against $151,371.65 for the same period of 1904, thus showing an increase of $22,569.92 for this year's fair traffic receipts.

Crude Oil Advances

Pittsburg, Pa., September 14.—The Standard Oil Company have advanced the price of all grades of crude oil. Pennsylvania oil was raised three cents, and the other grades were advanced two cents.

There has been no change in the price of refined oil.

Power Co. Lets Contracts

The construction of the power plant at Kaministiquia Falls near Fort William by the company organized by Messrs. C. R. Hosmer, H. S. Holt and F. W. Thompson will now be rushed as rapidly as possible. The company has let contracts to the Canadian General Electric Company for the generators, exciters, switchboards, etc., the total cost being, it is understood, in the neighborhood of $200,000.

More Gold Imports Expected

The engagement by Lazard Freres, of New York, of $1,200,000 gold in South African bars for importation to the United States, which was announced yesterday, marks the first consignment of any size since the large gold import period which terminated the early part of January, 1904. That movement, which began in the previous autumn, aggregated over $25,000,000. Yesterday's engagement came as a culmination of the downward tendency of the exchange market, which began about three weeks ago. Within the last ten days sterling rates have fallen 1¼c on the pound to 4.85, at which figure demand sterling sold yesterday.

Yesterday's engagement was not in the nature of a special transaction, but the negotiations were conducted purely of a regular exchange operation. The exchange market has been tending in the direction of gold imports for some time, and several days ago some of the shrewdest operators in exchange on the street expressed the opinion that gold would be imported with demand sterling around 4.85, the figure which it touched yesterday. How much additional gold will be brought in cannot, of course, be accurately foreshadowed, but leading bankers expressed the opinion that very likely fresh consignments as they arrive at London from South Africa will be diverted, partially at least, to New York, unless monetary conditions experience a decided change. This same opinion is concurred in by leading London bankers.

Big Banks in United States

According to the last call of the comptroller of the currency there are 146 national banks in the United States that can each show gross deposits in excess of $5,000,000. Not many years ago there were less than 100 in the $5,000,000 class. The increase is confined largely to cities outside New York. This is because nearly every bank in this city has for years been able to show gross deposits above $5,000,000. Although New York takes the lead in $5,000,000 banks, the number has been cut down materially through combinations.

All told, Manhattan heads the list with 31 institutions, each with gross deposits of $5,000,000 or over. Brooklyn has two, making the total for Greater New York 33. Philadelphia follows with 14; Boston, 11; Chicago, 10; Pittsburg, 8; St. Louis and Cincinnati, 6 each; Baltimore and Kansas City, 5 each; Omaha, Cleveland and Indianapolis, 4 each; Denver, San Francisco, Minneapolis, Milwaukee, Detroit, St. Paul, and Newark, 3 each; Buffalo, New Orleans, Albany, Brooklyn and Los Angeles, 2 each; and Pueblo, Jersey City, Duluth, Portland, Ore., Scranton, Birmingham and Rochester, 1 each.

The National City Bank, New York, takes the lead with gross deposits of $258,794,000, while the National Bank of Commerce comes next, with $193,907,000.

Output of Iron and Coal

James M. Swank in the Bulletin of the American Iron & Steel Association now estimates the world's production of iron ore as amounting in 1880 to about 43,359,000 tons, in 1890 to about 57,474,000 tons in 1900 to about 90,000,000 tons, and in 1903 to about 100,198,000 tons, the contribution of the United States in the latter year amounting to 35,019,308 tons or 34.95 per cent.

He also estimated the world's production of coal and lignite as amounting in 1873 to about 262,577,000 tons, in 1883 to about 398,012,000 tons, in 1904 to about 552,650,000 tons, and in 1903 to about 814,620,000 tons, of which the United States produced in the latter year 319,068,229 tons, or 36.48 per cent.

The Bulletin says: "In tables that have appeared in previous issues of our annual report we have given the world's probable total production of pig iron in 1800 as 825,000 English tons; in 1830 as 1,325,000 tons; in 1850 as 4,750,000 tons; in 1870 as 11,900,000 tons; in 1880 as 17,950,00 tons; in 1890 as 40,400,000 tons; and now our estimate for 1903 is 46,381,000 tons. If metric tons are reduced to gross tons the percentage of the United States in 1903 will be a little over 39 per cent.

In one of our early annual reports we estimated the world's production of steel in 1878 as amounting to 3,021,000 English tons. Subsequently we estimated the production in 1889 as amounting to 10,948,000 tons. The above figures show that the world's production of steel had increased in 1903 to 35,883,000 tons. If gross tons only are considered the percentage of the United States in 1903 will be a little less than 41 per cent.

MARKET REPORTS.

Dairy Produce Market Weak and Lower Prices Are Expected

Business in Grain Quiet as Bids Are Out of Line

The receipts of cheese this morning were 17,916 boxes. The market continues quiet and is easier in tone, though some dealers report a little more enquiry. The weakness in the country continues, and it is likely that good cheese will sell as low as 10¾c at the country boards next week. Some local dealers are looking for ten-cent cheese, but this is unlikely as the August make has nearly all been disposed of and September cheese is always worth about ¼c more than the summer make. Another factor which will tend to keep prices from going very low is the falling off in the milk supply and the consequent decrease in the make. The supply of cheese is already diminishing and a week of such weather as we are having now should cause a considerable shrinkage. Prices for August wer unusually high. In Western Ontario the highest prices in the history of the cheese industry in that district were realized during last month. Local dealers are quoting Ontario at 11⅝c to 11½c and Quebec at 11⅜c to 11¼c. Sales of small lots of Western are being made at 11¼c to 11⅜c to regular customers, but otherwise English importers are offering only about 11c to 11⅛c.

The receipts of butter this morning were 6,480 packages. The market is quiet and weak in the export trade. Holders are asking 21½c for choice creamery and 21c to 21¼c for undergrades. Locally, there is a good demand and sales are made at a fraction above the export quotations.

The receipts of eggs this morning were 1,114 cases. The demand continues good and an active trade is passing at 18c to 18½c for straight receipts and 22c to 22½c for selected stock.

Cheese Boards

Woodstock, Sept. 14.—At the cheese market here 1,912 boxes, the make of the first nine days of September, were boarded. The bidding reached 11 1-8c which was refused for all save 100 boxes, the sales on the board. On the street about 1,200 boxes sold at 11c to 11 1-16c.

Picton, September 14.—At the cheese board here 1,290 boxes of colored cheese were boarded; 1,000 boxes sold at 11c.

Sterling, Sept. 14.—At the cheese board here 1,175 boxes were boarded, all sold to McGrath & Co., at 11c.

Grain, Flour, Hay

The firm feeling was maintained at the Winnipeg and Chicago grain markets to-day and business in the local market was quiet. There was some enquiry for Manitoba spring wheat from over the cable this morning, but bids were away out of line and exporters did not work any business. There was also a good foreign demand for Canadian oats and some business was transacted. In the local market, No. 2 white sold at 35c and No. 3 at 34c to 34½c per bushel, ex store.

Flour.—The demand for flour from local and country buyers is still only for small lots to fill actual requirements and it is evident that another decline in prices is looked for. Business is quiet in all lines and prices are unchanged. Manitoba spring wheat patents, $5 to $5.10; strong bakers, $4.70 to $4.80; winter wheat patents, $4.65 to $4.75; straight rollers, $4.40 to $4.50; and in bags, $2.05 to $2.15.

Millfeed.—The market for millfeed is firm, the demand being good and supplies rather limited. Prices are unchanged. Manitoba bran, in bags, $17 to $18; shorts, $20 to $21 per ton; Ontario bran, in bulk, $15 to $15.50; shorts, $19 to $20; milled moullile, $21 to $24; straight grain moullile, $28 to $29 per ton.

Rolled Oats.—Business in rolled oats is still quiet and steady at $2.25 to $2.30 per bag. Cornmeal is also quiet at $1.45 to $1.50 per bag.

Hay.—The market for baled hay is firm, the demand being good, both for local and export account. No. 1, $8.50 to $9; No. 2, $7.50 to $8; clover, mixed, $6.50 to $7; and pure clover, $6 to $6.25 per ton, in car lots.

Wheat Movement

Winnipeg, Man., Sept. 14.—The second chapter in the epic of this year's wheat from the fertile plains of Manitoba and the farther West has started to move from the scenes of production to the markets of the world. Since September 1, 321 cars have been loaded on the central division of the Canadian Pacific Railway, and 519,000 bushels have been marketed.

Winnipeg, Sept. 14.—The grain movement is increasing very fast. Portage La Prairie reports deliveries of 4,000 bushels daily, and large quantities are being received at Canadian Northern points. Farmers at MacDonald, Manitoba, are already complaining of shortage of cars.

Manitoba Wheat Crop

Winnipeg, Sept. 14.—The North-western Grain Dealers' Association estimates the wheat crop of Manitoba at 54,390,678 bushels, valued at $41,000,000. This smashes all previous records and compares with 53,077,267 bushels in the previous big years 1902.

The Provision Market

There is no change in the local provision market to-day. The easy feeling continues apparent in the market for live and dressed hogs. There is no change in cured meats or lard, for which the demand continues good from all sources and supplies are kept well sold up.

Heavy Canada short cut mess pork, in tierces, $34 to $35; heavy Canada short cut mess, $23 to $24; Canada short cut back pork, $23 to $24; Canada short cut back pork, $23 to $24; heavy Canada long cut mess pork, none; heavy Canada short cut clear pork, $20 to $21; heavy flank pork, none; light Canada short cut clear pork, $21.50 to $22.50. Hams, 28 lbs., 13½c., do, 12 to 18 lbs., 14c; 8 to 12 lbs., 15c to 15½c; boneless hams, rolled, 16c; Wiltshire bacon, 50 lbs., 14½c.

Country Produce

Beans—The demand for beans continues limited, and as the supplies are large the market is easier with sales of choice primes at $1.50 to $1.60 per bushel.

Honey—There is no change in the market for honey, the demand for white clover in comb being good and other lines quiet. White clover comb is quoted at 12c to 13c; white extracted at 6½c to 7c; and buckwheat at 5½c to 6c per lb.

Maple Produce—The market for maple produce is quiet and featureless and prices are unchanged. Syrup in 60-gallon kegs, 5¾c to 5½c per lb.; in tins, 50c to 55c per wine measure, and 65c to 70 per imperial, and Beauce sugar, 8c to 9c; and Eastern Townships sugar at 6½c to 7c per lb.

Hops.—The demand for hops is quiet and prices are steady at 26c to 27c for choice Canadian, and 22c to 23c for fair to good.

Potash—The receipts of potash are light and business is quiet. Prices are steady at the recent advance. Pearls are scarce and are in demand at $7.75 to $7.85, and first pots are quoted at $5.17½ to $5.25, and seconds at $4.65 per 100 lbs.

Wheat Market

At the Winnipeg market this morning 78⅝ was bid for September options at opening and later 79 was bid. For October options 77½ was bid at opening and later sales were made at 78.

At the Chicago market September options opened at 82¼ and later were quoted at 82¾. December options opened at 83⅛ and later were quoted at 83¾. May options were quoted at 85⅞.

Wheat Inspection

Winnipeg, Sept. 14.—Wheat inspections here to-day were as follows: No. 1 hard, 10 cars; No. 1 northern, 94 cars; No. 2 northern, 29 cars; No. 3 northern, 1 car; other grades, 18 cars; total, 152 cars; same date last year, 15 cars.

Ontario's Apple Crop

Toronto, Sept. 12.—Reports received at the agricultural department are to the effect that where co-operative associations have been formed for the purpose of handling fruit crops, and particularly at Chatham, Forest and Walkerton, excellent prices have been obtained for this year's apple crop. The societies named have had their agents go through Manitoba and the West, and these have sold the crop direct to wholesalers for cash. In the Eastern part of the province the apple crop is almost perfectly clean, though the coddling moth, which is not very harmful, has caused some annoyance.

World's Sheep Supply Rapidly Diminishing

According to an article which appeared in a recent issue of the American Wool Reporter all but the wealthy classes will soon have to shiver through the winter in cotton clothing unless some substitute for wool is formed as the world's supply of sheep, is said to be rapidly decreasing and the cost of wool is proportionately increasing.

In ten years says the Reporter, there has been a decrease of nearly 72,000,000 or pretty close to one-seventh of all the flocks of the earth. It appears that the higher the civilization the fewer the sheep. Great grazing lands from the extreme end of South America to the plains of Russia, which once pastured immense flocks of sheep, are gradually being turned over to agriculture.

The Horse Market

Advises from the raising sections in Ontario and Quebec say that there is a good demand for working horses for railroad purposes, the buyers paying unusually high prices. The local demand for better class horses is limited but prices are firm and an advance is expected in sympathy with the strength in the market for common horses and farmers show no disposition to sell at present.

INSURANCE

Fifteen Million Dollars in New Investments

In a circular letter the New York Life Insurance Co. makes the following comment on its business for the year 1904:

"Our success during the past year has been most remarkable. The volume of new business, on which first premiums were actually paid to the company in cash during 1904, aggregated $342,000,000—over $15,000,0000 more than in the year 1903 and secured at a lower expense rate. At the same time the net gain of outstanding insurance, after deducting mortality, maturity and withdrawals, amounted to over $183,000,000. This is a net gain of insurance in force, larger than the largest ever shown by any other company in a single year in the history of life insurance.

"During the year this company paid in death claims on the lives of about 7,600 people, over $19,700,000, and during the same period paid to living policyholders in dividends, loans, cash surrender values and on mature policies, over $37,400,000, making a total of over $57,400,000 to policyholders in a single year."

Japan's Balance to Remain

The London Statist says:

Japan has at present fifteen millions sterling in London, ten millions sterling in New York and ten millions sterling in Germany, making altogether thirty-five millions sterling. We understand that there is an agreement with the American bankers that they are not to be called upon for large sums at any one time, and that the bulk of the money is not to be withdrawn until the moving of the crops is over. Therefore, it seems to follow that the money in America will not be touched or, at all events, will not be touched to any considerable extent, before November or December. If that be so, the moneys that Japan can dispose of immediately are those in London and Berlin, making together twenty-five million sterling.

We believe that the money in Germany will be brought to London, and that the Japanese demands will fall directly upon London. How much they will amount to nobody knows at present. All that is certain is that the Japanese Government is exceedingly careful, exceedingly experienced and exceedingly desirous not to disturb the London money market. It will do everything it can, therefore, to cause no serious inconvenience. But it must pay its way, of course. And if it begins to draw upon London, especially as the moving of crops all over the northern hemisphere is now beginning the rates of interest and discount will be advanced. In that case, it is to be presumed that the French banks would at once more largely increase the alliances they are employing in London. No doubt, as we have already said, the conclusion of peace will stimulate enterprise of every kind in France, and possibly France will be able gradually to employ all her own money. But that will take a considerable time. Bearing in mind how large is the accumulation of unemployed money in France it is reasonable to conclude that if Japan should have to draw upon London to any considerable extent, the void thus created would immediately be filled by the French banks correspondingly augmenting their balances here.

COTTON MARKET

New York, September 14.—Cotton futures opened easy, Sept., 10.20 bid; October, 10.31; November, 10.28; December, 10.40; January, 10.42; February, 10.44; March, 10.50; May, 10.55. Later in the day the cotton market became very strong. October option advancing 20 points. A New York wire on the cotton situation said: For some little time there has been considerable rumor about the October option and it was the result of the short interest covering that advanced the market yesterday. Good opinion here puts the bull pools long interested in the market as high as 250,000 to 300,000 bales and of this a large percentage is supposed to be in October. Of course there is no cotton here to satisfy such an amount of delivery and if the short interest is a scattered one the result might be sensational. Some people on the other hand hold that had the short interest been a scattered one the market would have felt it before this and that with a few large shorts a settlement could be arrangtd without much disturbance. In any case there is the possibility of a corner in October and it might be well for those interested in that option to be prepared for a considerable movement in either direction.

New Woollen Company

Woonsocket, R.I., Sept. 14.—The company which acquired the property of the Plainfield Woollen Company has reorganized as follows: President and treasurer, Joseph E. Fletcher, of Providence; vice-president, Arthur Cox; agent and secretary, Charles Bragg. The new company is incorporated under the laws of the State of Rhode Island. The capital stock of the company is $250,000. A number of new looms have already been added and others are on the way to be added as soon as they arrive. The new company expects to employ about 250 operatives, which will mean the full capacity of the plant.

EVERETT MILLS BUILD ADDITIONS.

Lawrence, Mass., Sept. 14.—While the American Woollen Company and the Arlington Mills corporations to their plants, the members of the Everett Mill Corporation are not inactive. Their attention is very much taken up with plans for the centralization of their power plant, and with this object in mind a big boiler house has been erected and the work of building a new chimney is now in progress.

NEW TOWEL MILLS.

Franklin, Mass., Sept. 14.—The Franklin Mills Corporation, recently organized, began the manufacture of towellings in the former Worcester Textile Company Mill in Unionville yesterday. A good force of help is to be employed and the number will be increased from time to time, it being the purpose of the company to run the mill to its full capacity as soon as possible. Berry Laycock, who was the competent superintendent of the Worcester Textile Co., will again be in charge.

Mexico's Cotton Crop

Mexico, City, Sept. 14.—Last year's cotton crop was 75,000 bales. The lowest estimate for the present year is 90,000 and possibly 100,000 bales. The cotton produced in the republic is about one-third of the quantity required for native mills. The annual increase in acreage is smaller. Reports of experiments with the cotton tree are not very satisfactory and it is not likely that cotton from this source will for a long time be had in quantities to affect the market.

Cotton Mill Wages Increased

Augusta, Me., September 12.—The management of the Edwards Manufacturing Company, operating cotton mills here which employ about 1,000 hands, to-day announced an increase of wages on a sliding scale to affect all departments. The advance was unexpected by the operatives.

Mr. Allan Cameron who has just arrived from Hong Kong, left for England to-day to take charge of the C.P.R.'s European freight business.

Dividends for the half-year ended 30th June, 1905, have been declared as follows:

On the Preference Stock two per cent.
On the Common Stock three per cent.

Warrants for the Common Stock dividend will be mailed on or about October 2nd to Shareholders of record at the closing of the books in Montreal, New York and London respectively.

The Preference Stock dividend will be paid on Monday, 2nd October, to Shareholders of record at the closing of the books at the Company's London Office, No. 62 Charing Cross, London, S.W.

The Common Stock Transfer Books will close in Montreal, New York, and London at three p.m., on Friday, September 1st. The Preference Stock books will also close at 3 p.m. on Friday, September 1st.

All books will be re-opened on Thursday, October 5th.

By Order of the Board,
CHARLES DRINKWATER,
Secretary.
Montreal, 14th August, 1905.

PUBLIC NOTICE

PUBLIC NOTICE is hereby given that the City of Montreal and the Canadian Pacific Railway Company will apply to the Provincial Legislature, at its next session, for ratification of an agreement entered into between them and dated the 30th June, 1905, in connection with the leasing of certain streets for a period of 99 years.

L. O. DAVID,
City Clerk.
CHS. DRINKWATER,
Secretary Canadian Pacific Railway Company.
Montreal, Sept. 7th, 1905.

INSOLVENT NOTICE.

GRAND TRUNK'S WAR CANOE CREW

Entertained at a Banquet by Their Admiring Fellow-Members

Seldom it is that the members of an athletic association can have the honor of entertaining members of their association who are world's champions. Such, however, was the lot of the members of the Grand Trunk Boating Club who participated in the banquet tendered to the war canoe crew by the executive of the club. That it was an evening par excellence goes without saying, for from the moment the company of seventy-five sat down in the pretty parlors of the St. Lawrence Hall cafe till the breaking up in the early hours of the morning "things were lively."

The members of "the" crew who were the recipients of the evening's honors were Messrs. Chas. W. Maclean, captain; Chas. N. Marshall, A. L. Marshall, O. J. Brownrigg, Chas. Boaz, A. B. Maclean, A. J. Ward, E. J. Minnett, A. E. Marshall, F. J. Kerr, A. W. Bayne, G. W. Brown, Chas. T. Mason and J. Colbeck.

Mr. W. P. Kennedy, president of the club, and Commodore of the Canadian Canoe Association, presided and performed his part in his usual happy manner, being assisted in the vice chairs by Mr. Stuart Simpson, secretary, and Jos. Russell, treasurer.

After the many good things provided by mine host Higgins had been done justice to the toast to "The King" was enthusiastically honored, Mr. Charles Marshall afterwards leading the company in "Rule Britannia."

"The Grand Trunk Boating Club" was the next toast, and was responded to by Messrs. Marshall, Turnbull and Dutton.

"The Past Presidents" brought forth a reply from Mr. William Cuthbert, who is known to the club membership as "the official provider of racing craft," and Mr. Cuthbert "made good" again by promising to again take the part in order that the club may have a new four-oared racing shell for next season.

Then came the toast of the evening, "The War Canoe Crew," which was drunk with Highland honors as many times as each of the fifteen members of the crew rose to reply.

"The Press" was duly honored and responded to by Mr. J. Taylor. It remained for "The Ladies," however, to produce the oratorical effort of the evening when Mr. J. Thelma Walker said so many good things about the ladies that there was little left for Mr. Jos. Russell, who also responded, to say.

During the evening, the ever staunch friend of the club, "Jimmy" Dougherty, treated the company to some of his old-time favorite songs, as did also Messrs. D. J. Dickson, Jos. Riddell, Pollard, Munn, Cohen, Marshall, Cooper and others.

A very pleasant part was the filling of the Cochrane Trophy, emblematic of the single canoe paddling championship by Mr. Chas. Maclean, and inviting the company to drink in turn to the single canoe champion, Charlie Boaz, which was done amid much enthusiasm. The company broke up after cheers had been given for the president and the crews and Mine Host Higgins. The pretty menu card for the evening was greatly admired for its unique form and the taste displayed by the designer. It was the work of The Herald job department, and was a creditable effort in printing.

CAN YOU PAY

100 CENTS ON THE DOLLAR

WE CAN

HERE IS OUR OFFER! WHAT DO YOU THINK OF IT?

A shareholder of the ECONOMICAL DRUG CO., of Canada, Limited, a company incorporated under the laws of Canada, will sell 10 shares of the E. D. C. Stock.

DO YOU WANT TO BID FOR IT?

In the placing of your surplus funds, we say: Exercise Great Caution. Don't make an investment blindfolded, simply because somebody wants to sell, or Somebody guarantees 10, 20 or 50 per cent. profit.

Show your Neighbors that you have good sense, what some people call "Horse Sense," and before paying out your money, enquire first of your Banker, your Doctor, a confidential adviser, or better still, get a report from Bradstreets or Dun's, and find out the quality and nature of the stock you are investing in.

They will tell you whether in paying out your money you are actually getting in return Value, or a security worth having, or a huge Bunco.

WE COURT INVESTIGATION!

Apply the rule which saves money and Heart-burns.

WE MEAN BUSINESS.

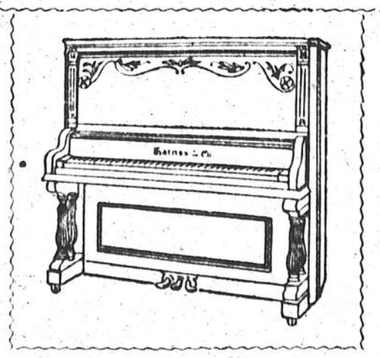
Educational Word Contest by The Nordheimer Piano and Music Co., Ltd.

This Beautiful $350 Nordheimer Piano Given Away Absolutely FREE!



And Additional Prizes Amounting to $6,500.00

.....by.....

THE NORDHEIMER PIANO AND MUSIC CO., LTD.

Manufacturers and Dealers, 2461 St. Catherine Street, MONTREAL.

KEEP THIS FOR REFERENCE

ON ACCOUNT OF THE RULES.

For the purpose of encouraging and stimulating a greater interest in music, with all its refining home influences, we have determined upon an offer which will not only accomplish the object desired, but will also bring to us the gratitude of all who take part in this contest. We want the name of "NORDHEIMER PIANO" to become forever impressed upon the minds of those in Montreal and vicinity chosen to receive this favor, and our determination to have it so, has resulted in the following remarkable offer:

This is a word contest, and the only conditions are that the words must be confined to the fifteen letters in the words "NORDHEIMER PIANO," and *that all contestants must state whether or not they have a piano or organ, and the maker's name.* This latter is for the purpose of enabling us to know just how many homes in Montreal and vicinity are without instruments. There are no limits or restrictions as to number of contestants in a family, but only one prize will be given in a family.

THE CONTEST IS AS FOLLOWS:

See how many words can be made out of the fifteen letters in "NORDHEIMER PIANO." The person making the greatest number of words (according to instructions given) will receive a **$350** new "Nordheimer Upright Piano (manufactured by us) absolutely free. This will be the first prize.

The fifteen next highest answers will entitle each one to a credit certificate of **$100** on another piano just like the one offered as first prize, or on any other new Nordheimer, Pratte or Steinway Piano.

The fifty next highest answers will entitle the successful contestants each to a credit certificate of **$50** on a piano the same as the first prize, or on any other new piano in our magnificent stock.

The one hundred next highest answers will entitle the successful contestants each to a credit certificate of **$25** on any new piano in our warerooms. In the event of a tie happening between successful contestants, prizes identical in character and value will be given to each.

Not only will a certificate be accepted as so much cash paid on a piano, but easy terms will also be given to those who do not wish to pay all cash.

Should it not interest you, this favor may be handed to some friend who would like to enter the contest.

THE CONTEST WILL CLOSE ON SEPT. 30, 1905,

and all answers should be marked on the outside "Word Contest," and mailed or delivered to our address at 2461 St. Catherine Street, Montreal, by that date. Each list will be carefully examined and the successful contestants notified as soon as possible, which will be about one week later.

REMEMBER THESE INSTRUCTIONS.

See how many words you can make out of the fifteen letters in "NORDHEIMER PIANO," using a letter only as often as it appears in the name; that is, you may use N, O, R, I and E twice in a word, and D, H, A, P and M once in a word.

A word cannot be used more than once, even though it had different meanings.

Send one list only—either all English or all French words—but not of both languages. The list which contains the most words of those it is possible to make out of the language used will receive the first prize, and other lists are awarded prizes accordingly.

Any word now in use in the English language (Webster is our authority) or in the French language (Larousse is our authority) will be counted, but not obsolete words or names of persons or places.

State if you have a piano or organ, and give the maker's name.

Add your list when completed, stating number of words.

Sign full name, with post-office address.

Every piano we have is fully guaranteed by us, and includes a handsome stool, also delivery to the successful contestant free of expense in Montreal or suburbs.

NOTE.

THE GREAT MUSIC HOUSE OF NORDHEIMER, with its distinguished career and record of sixty-five years of uninterrupted success, is too well known throughout the Dominion of Canada to necessitate calling attention to its high character and the reputation it has earned for absolute integrity and fair dealing.

The exalted standard inaugurated at the inception of the business, in 1840, has been unswervingly maintained by Messrs. S. and Albert Nordheimer, president and vice-president respectively, and is to-day reflected in every department of their immense establishment, through the hearty co-operation of their army of loyal employees.

This lofty ideal not only permeates the personality of the House of Nordheimer, but has entered into the very manufacture of the piano which bears its honored name, and the result is an instrument—"The Highest Artistic Standard of Excellence." The many other makes of pianos for which we are sole representatives, and which include the famous STEINWAY, are all of established merit, and as the prices are absolutely the lowest for which reliable instruments can be sold, the credit certificate which you may earn, be it $100, $50 or $25, will represent its full value in cash on any piano which you may select.

We are also Canadian representatives of the Pianola, that wonderful player which enables those who already have pianos to make additional use of them in a most enjoyable manner. A complete stock of other musical instruments and musical merchandise of every description is always on hand. In fact, what you can't find in the music line in the House of Nordheimer isn't worth looking for.

Mark all communications "Word Contest," and forward same to

The Nordheimer Piano and Music Co. Ltd.,

2461 St. Catherine St., MONTREAL.

Shirt Knowledge...

Almost every man wears a shirt, but most of them know nothing about them. What they care about, and what they want is shirt comfort, and that means shirts that fit properly. The whole science of shirt making is decided by the one test, satisfaction, that can only be got by experience, more or less costly. The wise plan is to buy your shirts from a house you know to be reliable, and that points directly and decidely to

DRIVERS HAD NARROW ESCAPE AT BROCKVILLE

Brockville, Sept. 14.—Notwithstanding the threatening weather of the morning, there was a great influx of visitors to the Brockville Fair yesterday. The rain left the track somewhat heavy, but the sun and the wind dried it up nicely, so that by three o'clock everything was in good order, with between 6,000 and 7,000 spectators present.

The trials of speed contributed two exciting accidents, both in the three minute class. Nine horses started, which made the field difficult to handle. Catherine Gazette, a Montreal entry, stumbled while scoring for the first heat, and Corn Cracker Joe, trailing, went into the heap, throwing his driver, and after running twenty yards, tripped on his hopples and went into the air.

In the following heat Wilkes, the favorite, stumbled and fell in the turn at the first quarter, throwing Knapp, his owner and driver, high in the air, Paul, with Croughran, up, was too close to turn out, and the driver was also landed fully forty feet away, a horse kicking him in the back in passing. Paul ran away. All drivers escaped with slight injuries, but Knapp, who suffered a dislocated shoulder, and internal injuries. The race was unfinished.

Prof. Belmont, the aeronaut, made a daring ascension, alighting with a parachute in the river St. Lawrence, two miles from the grounds. He was picked up by a passing sail boat.

Summary:—

Three minute trot and pace, purse $200, unfinished:—

J. K. Wilkes (Knapp), Athens	1	6	1
Maud H. (Williams), Picton	6	1	2
Paul (Croughren), Ottawa	2	5	4
Corncracker Joe (Adams), Cardinal	5	2	3
Ben Pointer (Giltz), Hammond	4	4	6
Baby Web (Reviagné), Ottawa	3	3	5
Grace V. (Doyle), Ogdensburg	7 dr.		

Time—1.11, 1.13, 1.08.

2.20 trot and pace, purse, $250—

Nellie Wright (Acton) Gananoque	2	1	1
Billy (Reid) Gananoque	1	3	2
Nellie Stanton (Robillard) Montreal	3	2	3

Time—2.22, 2.26, 2.21 1-2, 2.21.

Running race, five-eights miles, 2 in 3; purse, $150—

Demanton (McGuire), Ogdensburg	1	1
Wilfrid Laurier (Doyle), Ogdensburg	3	4
Lady Basso (Dillon), Morrisburg	4	3

Time—1.04, 1.03.

PILGRIMS' FIRST DEFEAT.

Berlin, Ont., Sept. 14.—The Pilgrims met defeat here yesterday at the hands of the Rangers to the extent of 2 to 1. In the first half England managed to land one goal, but after half time the Rangers spruced up, and had things pretty much their own way, scoring two goals. Attendance about 1,500. Referee, H. W. Brown, Berlin.

SMOKE

VAN HORNE.

The highest grade Cigar in Canada. 10c.

HARRIS, HARKNESS AND CO. MAKERS.

OTTAWA JOCKEY MET WITH SERIOUS ACCIDENT

Ottawa, Sept. 14.—The races yesterday afternoon at the fair grounds were marred by a serious accident which befell J. Cannon, the jockey, on Fadladeen, the Ottawa entry in the hurdle race. Three horses faced the flag in this event out of an entry list of eight, and the mishap happened when Fadladeen attempted the first jump, which he failed to clear, going down after a bad mix up on top of Cannon, who was painfully injured. The crowd rushed on the track and intense excitement ensued, as it was thought that the boy was killed, but he soon recovered consciousness. On his removal to St. Luke's Hospital an examination revealed that Cannon was much more seriously injured than at first thought, his right shoulder being dislocated, while symptoms of concussion of the brain developed. At latest reports Cannon has not shown improvement, and it is feared that the complications may ensue. The accident, happened in the hurdle race, the last event on the card, and the track was closed immediately afterwards.

The first race, a 2.24 pace and 2.22 trot, produced the best sport of the meet, the finishes in three heats being remarkably close. The Ottawa horse, Little Clip, won the first heat in a whirlwind finish, with Dan Finnister only inches separating the horses under the wire. Blucher took third place followed in order by Eacto, Paulin and Billy Patterson and Fern.

The second heat was done in even faster fashion, and the big crowd in the stand grew enthusiastic as the horses swept round in a bunch, but Little Clip was out to win and took the heat with Finnister again in second place; Blucher third; Eacto, Billy Patterson, Fern and Paulin in order.

The third and last heat was done in the fastest time of the day, Clip crossing the mark ahead of Fern, who displaced Finnister from second position. Billy Patterson moved up fourth, while Facto, Blucher and Paulin finished behind.

Summary:—

2.24 pace, 2.22 trot; purse, $300—

Little Clip, A. Hunter, Ottawa	1	1	1
Dan Finnister, J. Aldonus	2	2	3
Fern, M. McPherson, Kemptville	7	6	2
Blucher, M. Connor, Peterboro	3	3	6
Eacto, J. Connors, Montreal	4	4	5
Billy Patterson, N. H. Cohn, Ashton	6	5	4
Pauline, C. H. Putnam, Ottawa	5	7	7

Time—2.23¼, 2.22½, 2.22¼.

1 1-4 mile hurdle; purse, $200—Uncle Reuben (Sutherland, 154), N. A. Sutherland, 1; King Top (Herb. Henderson, 156), W. V. Henderson, Sault au Recollet, 2; Fadladeen (J. Cannon, 144) A. Coleman, Ottawa, 3.

SATURDAY'S MATCHES.

DOUBLE-HEADER AT THE POINT.

Saturday, at 2.30 p.m. sharp, the Point St. Charles Intermediates play the Y.M.C.A. Intermediates, after which, at 3.30 p.m., the Senior teams of the C.P.R. and Point St. Charles will meet each other. Both games will be played on Beaver Field, on the right of Wellington Street, just past the tail race bridge.

Patrolman E. Desmarteau, of the Chenneville street police station, who holds the Canadian records for heavy weight throwing, is seriously ill at his home, 47 Dufferin street. He is suffering from an attack of typhoid fever.

O.R.F.U. TEAM TO PLAY IN MONTREAL

Match Between Quebec and Ontario Clubs Has Been Arranged

Mr. Frank D. Woodworth, secretary of the Ontario Rugby Football Union, was in the city arranging with the Montreal Club for a match to be played here this fall under the Ontario rules between a representative O.R.F.U. team and a Montreal aggregation.

It had been Mr. Woodworth's design to have the game played in September before the Q.R.F.U. season opened, but on account of the Minto Cup lacrosse matches he had to alter his plans. It is likely now that the match, which is being arranged with a view to giving Montrealers a chance to see the Ontario game, will be played on the second or third Saturday in November.

Mr. Woodworth received assurances from the Montreal Football Club that the latter would give a Western team a game on the first open Saturday. Eastern football fans contend that the Quebec game has the Ontario game faded in so far as interest to players and spectators is concerned, but the Western experts hold an opinion that is diametrically opposed to this, and it is to convert the Easterners to his way of thinking that Mr. Woodworth is arranging the game in this city.

He has also arranged to have an Ontario team play in Ottawa.

Mr. Woodworth is the compiler of Spalding's book on Canadian football. This valuable book contains the rules of the Ontario, Quebec and Canadian unions, and is the most complete book of its kind yet published. It contains excellent portraits of Messrs. E. Herbert Brown, Rev. A. F. Barr, T. F. Clancy, S. S. Dumoulin, R. T. Shillington, Alex. T. Davidson, and Frank D. Woodworth, as well as group photographs of the McGill, 'Varsity, Queen's, Limestones, Dundas, Bishop Ridley College, Peterboro, Argonauts, Hamilton, Toronto, Ottawa College, Guelph O.A.C., Vancouver, St. Andrew and London football teams.

FOOTBALL PUNTS.

Montreals practices are largely attended.

McLean, who played with Outremont last year, was out with Montreal last night.

Rathbun, who has played with Deseronto, was on the Montreal line.

Bert Molson, Percy Molson, Alex. Christmas and McLean had an afternoon practise yesterday.

W. Murphy was missing from the line.

Percy Borland, who played with Westmount Juniors, has cast in his lot with Montreal.

W. Steadman, who played with McGill Juniors, was out with Montreal last week.

McAllen and Hanaford put in good work in the scrim.

Harry Gordon put up a good game at quarter.

President Buchan seemed pleased at the large turnout.

Barney Dumphy was on the side line and says he won't take $10,000 to get in the game.

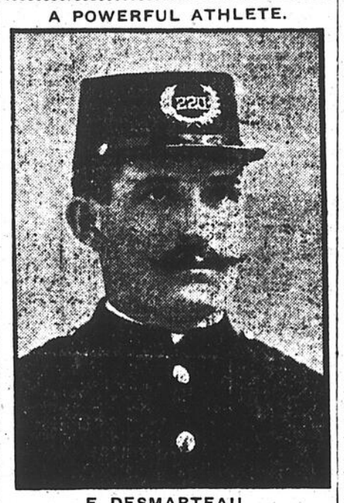
BOUQUETS FOR McCARTHY.

(New York Press.)

A. J. McCarthy, the pitcher Griffith recently bought from the Montreal Club of the Eastern League, reported for work Monday. He is not likely to pitch until the Highlanders return to Hilltop, as he hasn't twirled in a week, but he is a welcome addition to the pitching staff. All Griff's boxmen save Puttmann and Goode are more or less disabled and the Old Fox isn't banking on either of those youngsters heavily this season.

Rube Waddell now has a lame shoulder as a souvenir of a wrestling bout with a comrade, and Philadelphia fans are wondering if he will be foolish enough to incapacitate himself for the world's championship series the Athletics are expected to play with the Giants.

A POWERFUL ATHLETE.



E. DESMARTEAU,

Who is Threatened with Typhoid Fever—He is the Champion Weight-Thrower of Canada.

SHAMROCKS IN GOOD CONDITION

Have Last Practice To-Day—Athletics Will Arrive To-Morrow

The Shamrocks had a good work-out yesterday afternoon, and will have their last practice this afternoon before their game with the St. Catharines' Athletics Saturday.

The twelve are trained to the minute, and the Athletics cannot possibly have anything on them in the matter of condition. Kavanagh and Johnnie Brennan were the only absentees yesterday. Smith and Robinson watched the practice, and both may be out in uniform next week. The Shamrocks are confident that they will retain the Minto cup, and any St. Kitts' money that is put up will be promptly covered.

ATHLETICS ARE HOPEFUL.

St. Catharines, Sept. 14. — The Athletics will leave for Montreal this afternoon, according to present arrangements, and will arrive in Montreal on Friday morning. They will occupy Pullman cars, and the long trip will, therefore, be no hardship to them. Sun practices have been the order of things in the meantime, as the team wants to be in the very best condition to meet its formidable opponents, the Shamrocks. By arriving in Montreal on Friday morning it will give the Athletics plenty of time to rest for Saturdays' game. President Davison and Secretary Timmons have returned from Montreal and they think the Athelics have excellent chances of winning the Minto Cup.

At a meeting of the Shamrock Amateur Athletic Association last night, Messrs. Harry McLaughlin, W. Kearney and W. McGee were appointed delegates to the C.A.A.U. meeting Saturday night.

JUNIOR C.L.A. FINALS.

Toronto, Sept. 14.—At a meeting of the committee of the C.L.A., the following junior games were arranged:

The winners of the Brantford and Elora district are to play the winners of the Wingham and Mount Forest district on mutual grounds a sudden death game on Wednesday, Sept. 20.

The winners of the Beaverton and Shamrock game are to play the winners of the other districts in the finals on Saturday, Sept. 23, at the Island.

A WESTERN CUP MATCH.

Winnipeg, Sept. 14. — The Chipman cup trustees have ordered the Souris Club to play the challenging St. Paul Lacrosse Club. The game will take place either at St. Paul or Winnipeg, Sept. 23 being set as the date. Souris plays as last year's champions. The present series have not yet been decided, a play-off with the Winnipeg being probable.

REFEREE GRANEY TELLS WHY HE CALLED BETS OFF

San Francisco, Sept. 14—It leaked out yesterday that the principal reason why Referee Graney declared all the bets off in the Britt-Nelson fight, was that he bet $1,200 against $2,000 that Nelson would win. If there had been a close decision, he could not have cleared his name, had he held the bet. Graney's other reasons were based on just as fair principles. He believed many people had bet on the fight believing Jeffries would referee. In view of these facts he determined that the only way to clear the horizon and give everybody a fair deal, was to declare all bets off.

Graney figures that he lost $1,000 by entering the ring to determine the merits of the two great fighters. No one doubts Graney's honesty of purpose, and all admit he refereed the contest impartially, but when thousands of men throughout the country who bet on Nelson, read that one of his reasons for declaring bets off was because he had bet himself, they will say a few things.

FAVORITES MISSING IN THE ST. LEGER RACE

Val d'Or and Cicero Did Not Start and 100 to 6 Shot Won—Johnny Reiff Allowed to Ride.

London, September 14.—The St. Leger Stakes, run at Doncaster, distance one mile six furlongs, 132 yards, yesterday was won by Challacombe at 100 to 6; Polymelus' at 10 to 1 was second, and Cherry Lass, backed down to 6 to 4 on was third. Eight horses ran.

The classic event was robbed of much interest by the absence of Val d'Or, M. Blanc's French crack, which was stormbound on the other side of the Channel, and Lord Rosebery's Derby winner, Cicero, owing to his untrained condition.

"Johnny" Reiff, the American jockey, who has been granted a temporary license, made his first appearance in this country for some seasons on the French horse Nimay.

CRICKET

OSBORNE VS. VICTORIA.

In this match, to be played at the Beaver Field on Saturday next, Osborne will be represented by A. Atkinson, K. Doyle, N. Lewis, H. Lewis H. McNeil, W. Cropper, G. McDermot, W. Toole, A. Holcombe, A. Tucker, E. McDermott.

Reserves—S. Brereton, J. Brogden.

Victoria will have the following players: Harrison, Whittles, Lewis, Duthie, Mather, Fyfe, Clark, Hooper, Barnes, Reinhardt, and Miller. Reserves: Bawn and Lee.

CRICKET LEAGUE STANDING.

The final position of the various clubs representing "A" division of the Montreal and District Amateur Cricket League is as follows:—

	Won.	Lost.	Dr.	Pts.
McGill	6	1	1	5
Montreal	5	1	2	4
Mount Royal	4	4	0	0
Longueuil	3	4	1	—1
Westmount	0	8	0	—8

The position of the clubs representing "B" division to date is as follows:

	Won.	Lost.	Dr.	Pts.
Osborne	9	2	2	7
Pt. St. Charles	10	3	..	7
Mtl. Woollen Mills	6	4	2	2
Lachine	7	5	..	2
Dom. Cotton Mills	5	6	1	—1
Westmount II.	5	6	1	—1
Victoria Annex	4	8	..	—4
Mt. Royal II.	0	12	..	—12

BARBER HAD BAD INNINGS

The Birds Lost to Providence 5 to 2—Royals' Hits Scattered

Providence, Sept. 14.—Barber had a bad time in the first innings of yesterday's game, and the Greys scored enough runs to win. After the initial period Barber had Dunn's Clam Diggers frazzled, and they got but one run in seven innings.

The Birds hit the ball hard and often, but could not bunch their bingles, and ten of them were left on the sacks. The score:—

TWENTY-THREE MONTHS IN GAOL

Two Express Co. Employes Are Sentenced for Theft

In connection with the recent thefts of money from the Dominion Express Company, Judge Lafontaine yesterday passed sentence of twenty-three months imprisonment on Frederick W. Storer and Lewis E. Jewell, the court holding the latter, although only the receiver of part of themoney stolen, was equally guilty in the eye of the law. But for the fact that accused had already been about a month in custody, added Judge Lafontaine, the sentence would have been one of two years, whoih would of course have meant the penitentiary, instead of the common gaol.

ROOSEVELT CALLS INTERVIEW FAKE

Tells Correspondent of Petit Parisien He is Thoroughly Dishonorable.

Oyster Bay, Sept. 14. — President Roosevelt has denounced as a fabrication and as wholly without foundation in truth, the report of an interview with him regarding the terms of peace between Russian and Japan, published to-day in the Petit Parisien, of Paris, which was cabled to a New York paper this morning. As soon as the purported interview was called to his attention, the President directed Secretary Loeb to send to the correspondent of the Petit Parisien, who was received at Sagamore Hill, the following telegram:

"Oyster Bay, N.Y., Sept. 13:—

"Gaston Richard, Motel Lafayette, New York:—The President directs me to say to you that the alleged interview with him published in this morning's papers is not only an absolute fabrication wholly without basis of truth, but that your conduct in obtaining permission to see him under false pretenses is thoroughly dishonorable. When you came to see the President you informed him that you were the grandson of Marshall Augereau; that you had been at the battle of Mukden with the Russian army and with the Japanese army afterward, that you understood thoroughly that you could have no interview of any kind and that you simply wished to pay your respects to him. Under these circumstances the President received you and listened to your accounts of your experiences with the Japanese and Russians and spoke to you also of the deeds of Marshal Augereau and of Napoleon's other generals.

"The President had no conversation with you about the terms of peace and your account of your alleged interview with him is a fabrication from beginning to end, without any foundation in fact; and both your untruthfulness, and your obtaining permission to see him, under false pretenses, the President considers highly dishonorable.

(Signed) "WILLIAM LOEB, JR.
Secretary."

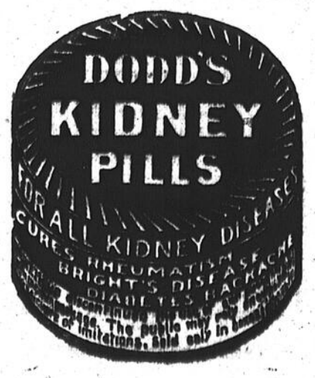
IMMIGRATION OFFICIALS ON JAUNT.

Quebec, September 14.—(Special.)—Jules Hone, jr., passenger agent of the C.P.R., in Quebec, left yesterday with the Quebec immigration officials, custom house officials and several officials of the United States Commission on immigration for Montreal. They have gone on an excursion provided for them by the C.P.R., and will return to Quebec on the C.P.R. steamer Lake Manitoba.



WOMAN AND HER INTERESTS

PRINCESS ALICE'S WAY.

(By Emma Endicott Marean.)

What makes me like to do them?
Well, I'll tell you:
I have a secret which you do not know,
Although we've talked together all the summer
Until this one last day before you go.

I used to play that I was Princess Alice,
And not a country girl, named Hannah Jane;
I fancied that I lived in stately Windsor,
Where lords and ladies followed in my train.

I played I had a dress of rosebud satin,
And one of lacy white, with knots of blue,
And toys and story books—if you could see them!—
Why, even now I half believe it's true.

But always, in my finest dreams of splendor,
A sudden call would spoil my happy fate:
"Oh, Hannah Jane, come in and wash the dishes!
Oh, hurry, Hannah Jane; it's getting late!"

I didn't like it? No, I guess I didn't.
I do not love it yet, to tell you true;
But I have found that I enjoy it better,
When they are calling, to pretend I do.

And so I make believe there's nothing nicer
Than washing dishes on a summer day;
For, if the Princess Alice chose to wash them,
Of course, she'd do it in a royal way.

I never tell the others what I'm thinking,
Sometimes I fancy how surprised they'd be
To know a princess helps them in the kitchen.
The princess knows it; that's enough for me.

HARMONY IN COLOR.

ALL the colors have certain definite qualities. They are not only light or dark in themselves, but some colors reflect more light than others, and are thus capable of changing the light in a room. They are classified according to their luminosity in this order: Yellow, orange, green, red, blue and purple. Yellow and orange with their tints and shades, unless they are too dark, have little effect in changing the light, while blue and purple may be used in very bright rooms.

The classification according to warmth and coldness is quite similar. The warm colors are yellows, red-browns, reds, and olive greens; the cold colors blue-green, blue, purple, and the neutral tones of the warm colors. The character and atmosphere of a room—its coziness or its formality—are dependent upon this decided characteristic of colors. A room with dark-red walls and rich hangings suggests the coziness of an open fire on a winter's evening—a green room the cool restful shade of the forest on a warm summer's day, while warm golden yellow suggests sunshine itself.

The cold colors recede from us and hence form good backgrounds and make a small room appear larger. The warm colors advance, make good bits of contrasting color against the colder tones, and make a room appear smaller. The darker shades of all the colors draw the walls of a room together more than the lighter tints. Light colors make an entire house appear large and airy. Ceilings may be made to appear higher with light retiring colors, and lower with the advancing and dark colors.

A room with blue walls will appear much larger than a room with red walls, while one with light-green walls will appear much larger than one with dark green or with light yellow.

For the Cook

MACARONI AND CUSTARD PUDDING.

TWO cups boiled macaroni, cut in 3-inch pieces, 2 cups milk, 3 eggs, 3 tablespoonfuls of sugar, dust of nutmeg. Place the macaroni in pudding dish, beat the eggs till light and foamy, add milk and sugar, pour over macaroni in dish and dust with nutmeg. Bake for three-quarters of an hour in a moderate oven.

TIMBALES OF MACARONI.

Two cups boiled macaroni cut in small pieces one cup white meat of chicken cut in small pieces one-half cup breadcrumbs, one teaspoon parsley chopped fine, one cup boiled and strained tomato, one egg, salt and paprika. Butter six or seven timbale moulds and fill with the following mixture: Macaroni and chicken cut fine, add your breadcrumbs, parsley, salt, paprika and the egg which has been beaten till creamy. Mix well and fill the moulds three-quarters full, stand in a pan of hot water in oven and cook for half-an-hour.

JOHNNY CAKE.

One pint corn meal, one teacup flour, two eggs, one pint of sweet milk, one tablespoon each melted butter and molasses, a little salt and two teaspoons baking powder. Bake in square tins. Serve hot—but it is also good cold if left over.

CHOCOLATE CAKE.

One cup of sugar, one-third cup of butter, two eggs, one-half cup of sour milk, one teaspoon of soda, one section Baker's chocolate and one large cup of flour.

HERALD DAILY PATTERN

SMART SUIT FOR THE SMALL BOY.

Pattern No. 1159, sizes 2 to 4 years.

In addition to being comfortable and becoming, the cut of this suit carries with it a style that may well make the big brothers envious. The tailor who designed it has succeeded in giving it a touch of smartness which is unmistakable. This loose coat, or jacket, with knickerbockers coming just a couple of inches below, is by far the most satisfactory style for little man, and garments for boys of this age are so easy to make that mothers almost regret their small sons outgrowing the time when home-made clothing is possible.

Light weight wools of all sorts, serge, flannel and the like all are appropriate, but just now there is special preference shown shepherd's check for every day, white moire for dressy wear.

For a boy of four years old 3½ yards of material 27 inches wide, or 3 yards 32 inches wide, will be required.

The pattern, No. 1159, is cut in sizes for boys from 2 to 4 years of age and may be obtained postpaid by sending ten cents, the number and size desired and the name and address to The Fashion Department of this paper.

Name .....

Age .....

No of Pattern .....

Address .....

This pattern will be mailed within ten days by filling out coupon, inclosing 10 cents, and sending to Montreal Herald Pattern Department.

Readers will please note that where full suit is shown, blouse and skirt are separate patterns, requiring ten cents for each. Seams are not allowed for in patterns.

Personal and Society Notes

Rev. Bernard Bryan, Parkdale, Ont., is visiting friends in Westmount.

Miss Nordheimer, of Toronto, has been spending a few days in town.

Sir William and Lady Meredith of Toronto, are staying with Mrs. H. Vincent Meredith, Montreal.

Mr. Chas. E. Paton, Beatrice Street, Toronto, is visiting his brother, Mr. W. A. Paton, Charlevoix Street, this city.

Hon. Raymond Prefontaine, Minister of Marine and Fisheries, who spent yesterday in the city, left for Ste. Agathe last evening.

The engagement is announced of Miss Anne L. Sovereign, eldest daughter of Mr. Louis L. Sovereign, Waterford, Ont., to Mr. W. Percival Kirkpatrick, manager Canadian Bank of Commerce, Saskatchewan.

Among those registered at the Windsor are: Mr. J. F. Fraser, of Ottawa; Mr. Joseph R. Henderson, of Halifax; Mr. A. B. Allen, of Glasgow, Scotland, and Mr. Bennett Rosamond, M.P., of Almonte, Ont.

Rev. Principal Scrimger, of the Persbyterian College, and family, have returned to the city from their summer residence at Bic. Mrs. Scrimger and Miss Scrimger will sail on Saturday by the Southwark for Britain.

The marriage of Miss Eleanor Elise Ryley, only daughter of Mr. and Mrs. J. A. Ryley, Ottawa, and Mr. Clarence James Burritt, son of Dr. H. C. Burritt, Toronto, will take place at Grace Church, Ottawa, on Wednesday, Sept. 27.

In the Church of St. Thomas, Hamilton, Tuesday afternoon, Mis Anna Mabel Armitage, daughter of Mr. Robinson Armitage, was married to Mr. William Henry Ginger. Rev. E. J. Etherington officiated. The bridesmaids were Miss Carrie Mowbray, of Granton, and Miss Blanche Armitage, of London. Mr. Hardy Awrey was best man. Mr. and Mrs. Ginder left on a trip to New York.

The marriage in Tokio Tuesday, of Martin Egan, Associated Press correspondent, to Miss Eleanor Franklin, war correspondent for Leslie's Weeky, will be of interest to many.

Mr. Egan is widely known throughout the Orient, as he served during the Boxer War for the San Francisco Chronicle. His work in that field gained him a place on the Associated Press, and during the Russo-Japanese war he sent despatches from Tokio. He will soon leave Tokio, with his wife, to take the place os London correspondent of the Associated Press.

Mr. Egan is well known in Canada, his first newspaper experience having been obtained under Senator Templeman as a reporter on the Victoria Colonist. He also travelled through Canada as representative of the Associated Press with the Prince and Princess of Wales in 1901. Mr. Egan went to Tokio four months before the war began, and so ingratiated himself with the Japanese Government that he became charged with the task of imparting official information to all the other correspondents. He has many friends in Canada, and is especially well known to British Columbians. His last journey to Tokio was the ninth trip across the Pacific (going and coming) that he has made. He is not yet thirty-three.

MONTHLY REPORT.

SALVATION ARMY HAD VERBAL AGREEMENT

Proprietor of Hall at Ville St. Louis Had to Break Agreement to Get Damages.

The Salvation Army appear to have only occupied their hall at Ville St. Louis on a verbal agreement, the legal document not having been signed, and it is therefore perhaps not surprising that under all the circumstances the landlord has revoked from the lease.

There has been no meeting since Sunday night, the following notice having been served by the proprietor, Mr. A. T. Brunet, on the representatives of the Army on the day following:—

"Take notice that the hall you occupy on Fairmount Avenue will be shut up from to-day and I take possession at once. You ought to have signed the lease on Thursday last, which document would contain the verbal agreement made between us. These conditions are as follows:—If complaints should be made by neighbors that you were annoying them by your songs, music or other religious exercises, or if your exercises cause trouble to those around, our agreement should end. You have not fulfilled your part of these conditions, and I have received notification from neighboring people complaining that your presence and meetings, and your exercises have been the cause of trouble to those around. The hall is consequently shut up and you are forbidden to use it. You can come and get your furniture."

It is stated that the St. Louis Town Council only consented to meet the proprietor's claim for damages on condition that he found a way to prevent further disturbances, and the unsigned lease showed the easiest way out.

Her Skin Was Yellow

"I had only to try Dr. Hamilton's Pills to appreciate their merit," writes Miss Annie S. Bryce, of Woodstock. "My system was out of order. My blood was weak and thin. I had a nasty, murky complexion. My skin was hard and dry. The first box of Dr. Hamilton's Pills, made a complete change. I felt better at once. Healthy color came into my face. In about three weeks I was cured." Dr. Hamilton's Pills effect an easy cure. Try these good pills. 25c per box, or five boxes for $1.00, at all dealers.

LAKE MANITOBA'S PASSENGERS.

Canadian Pacific Atlantic Liner Lake Manitoba sailed to-day for Liverpool with general cargo and passengers. Her complete list of first cabin passengers is as follows:—Captain Adams, R.E.; Mr. George Bain, Miss Jessie Bain, Mr. W. D. Birchall, Mr. G. M. Bosworth, Miss Ruth, Bosworth, Mrs. Brough, Capt. Butcher, Mrs. Butcher, Mr. Allan Cameron, Mr. P. S. Cabeldu, Mrs. Cabeldu Mrs. Crossley, Miss Marjorie Crossley, Miss Miriam Crossley, Miss Hilda Crossley, Master J. Crossley, Right Rev. Bishop Dart, Mrs. Dart, Mrs. E. P. Davis, Miss Davis, Col. Duck, Mrs. A. C. Flummerfelt, Mr. Gallelly, Mr. A. Gunn, Mr. J. A. Gunn, Mrs. Gunn, Miss Gunn, Mrs. G. A. Hamilton, Miss Meredith Hodgson, Mr. Isaac Holmes, Master George King, Master Percy King, Mr. C. H. Mackinlay, Mrs. Mackinlay, Miss Mackinlay, Mrs. M. McInnes, Dr. McMurtry, Miss Brenda Molson, Mr. D. E. Niebert, Mrs Niebert, Miss L. Norton, Dr. Allan Rankin, Rev. J. A. Robert, Mrs. Van de Linde, Miss Gladys Wilson, Mr. Beckles Wilson.

THREE ENGINEERS KILLED.

Cortland, N.Y., Sept. 14.—Three young civil engineers in the employ of the Delaware, Lackawanna & Western Railroad were killed by a work train shortly after six o'clock when returning to Cortland on a handcar. The dead are: J. M. Rowe, Binghamton, N.Y.; H. G. Blesicker, Lestershire, N. Y.; J. R. Funk, Binghamton.

The three engineers had spent the day at work on the Cincinnatus division of the Lackawanna Railroad. Completing their labors for the day, they boarded a handcar and began a journey to Cortland. When three miles from here they were overtaken by a work train, also bound for this city. The engine of the work train was in the rear, and a watchman was stationed on the forward car to keep a sharp lookout on the track ahead.

A Young Lady Transformed!

All the charm of Girlhood restored.

This is only one of hundreds of cases in which "Fruit-a-tives" changed Pale, Sallow Skin into the Rosy Bloom of Health.

Too many women have sallow skin—bad complexions—dark circles under the eyes—headaches—backaches—sick stomachs.

Too few women have the robust health and rosy bloom of girlhood—that "Fruit-a-tives" preserve.

Some women don't realize how surely Constipation undermines the health and brings premature old age.

The intestines do two things—give up nourishment to the blood—and carry off waste matter.

But—if Constipation keeps the waste IN the intestines, the blood takes up poison instead of nutriment.

It is this waste—carried all over the system by the blood—that causes Heartburn, Sour Stomach, Indigestion, Bad Breath, Headaches, Backaches, Sallow Skin, Pimples, Paleness and Thinness.

The woman who wants
—a fine complexion
—to be free of headaches and backaches
—to eat well, sleep well and look well
—to feel well ALL THE TIME
can have her wish if she takes "Fruit-a-tives."

Miss Jamison tells how she found the happiness of health in

Fruit-a-tives

or Fruit-Liver Tablets.

MASSON, P.Q., Nov. 16th. 1904.

Fruit-a-tives Limited,
Ottawa, Ont.

Gentlemen:—

I have much pleasure in reporting to you the great benefit I have received from taking "Fruit-a-tives"—and I feel that I cannot say too much in favor of a medicine which has done me so much good. I was a martyr to that distressing complaint, Chronic Constipation, accompanied by severe headaches, backache, sick stomach and all the symptoms of dyspepsia. I had also a dreadful complexion, sallow in the extreme and black under the eyes. I had every symptom of kidney irritation and I had been told by physicians that my kidneys were affected. I consulted a number of physicians and took various remedies but received very little benefit. Last May I was advised to try "Fruit-a-tives" and when I began to take them I had little faith of getting anything to give me permanent relief, but after I had taken half a box, the constipation was relieved, the headaches left me, the pain in my back was better and I could sleep as soundly as when I was a child. Also, my complexion began to clear up again, all the sallowness disappeared and the black circles under my eyes went away. The pain in the back gradually left me and all signs of kidney disease disappeared by the first of August after I had taken three boxes. Since then I have continued to improve and now I have none of my old symptoms and my appetite is good, digestion splendid and my complexion as clear as when I was a young girl. Also the constipation from which I had suffered so long has been entirely cured and it is not necessary for me to take the "Fruit-a-tives" now as I am quite well in every way. I took no medicine but "Fruit-a-tives" but I followed faithfully the directions as to diet etc. given in the pamphlet which accompanies each box of "Fruit-a-tives."

To all persons suffering from constipation and indigestion, headache and backache, and particularly those with sallow complexions, I would strongly recommend them to try "Fruit-a-tives" and faithfully carry out the directions in the pamphlet, and I feel certain they will find this medicine simply marvelous. I might also say that the action of "Fruit-a-tives" is very mild and non-irritating, no griping is felt and the stomach is sweetened by taking them.

[Signed] FLORENCE JAMISON.

"Fruit-a-tives" are NOT cathartics.

They contain NO calomel, jalap, cascara, "oil," or "salts."

"Fruit-a-tives" are fruit juices in tablet form.

They are a discovery that deserves to rank with anaesthetics and vaccine.

"Fruit-a-tives" are a tonic for the bowels. They tone up the intestines, make them move regularly and naturally.

"Fruit-a-tives" cure Constipation just as surely as chloroform deadens pain.

If you are suspicious of your health, don't wait for proof and sickness. Take "Fruit-a-tives."

All druggists have these health preserving, pleasant tasting fruit tablets.

50c. a box—and worth ten times 50c. to any woman who wants to enjoy the luxury of perfect health.

Manufactured by FRUIT-A-TIVES LIMITED, OTTAWA.

DRUNKENNESS

CURED IN ONE DAY; NO CURE NO PAY.

Teething Eczema and Scald Head

Bring Much Suffering to Babies and Young Children—Certain Cure in Dr. Chase's Ointment.

In the home where there are young children Dr Chase's Ointment is found useful almost every day of the year. During the teething period especially, there is almost sure to be an attack of eczema, scald head or some form of itching skin disease.

Besides the keen distress which such ailments bring to the little ones, there is always the danger of eczema becoming chronic and clinging to them through life.

There is no reason for any child to suffer in this way so long as Dr. Chase's Ointment is obtainable, for it is a prompt and thorough cure.

Only a few applications are required to bring relief from the itching, and the skin is left in a clear, smooth and healthful condition Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates & Company, Toronto.

The Brethren

BY H. RIDER HAGGARD.

(Copyrighted and published exclusively in The Herald)

CHAPTER IX.—(Continued.)

The Arab, who took no notice of them, saluted Masouda, and said to her in Arabic:

"Is it then for Franks that I have been ordered to bring the two priceless ones?"

"What is that to you, my Uncle, Son of the Sand?" she asked. "Let them be led forth that I may know whether they are those for which I sent."

The man turned and called into the door of the cave.

"Flame, come hither!" As he spoke there was a sound of hoofs, and through the low archway leapt the most beautiful horse that ever their eyes had seen. It was grey in color with flowing mane and tail, and on its forehead was a black star; not over tall, but with a balleri mosfiqduuwk tall, but with a barrel-like shape of great strength, small-headed, large-eyed; wide-nostrilled, bigboned, but fine beneath the knee, and round-hoofed. Out it sprang snorting; then seeing its master, the Arab, checked itself and stood still by him as though it had been turned to stone.

"Come hither, Smoke," called the Arab again, and another horse appeared and ranged itself by the first. In size and shape it was the same, but the color was coal-black and the star upon its forehead white. Also the eye was more fiery.

"These are the horses," said the Arab, Masouda translating. "They are twins, seven years old and never backed until they were rising six, cast at a birth by the swiftest mare in Syria and of a pedigree that can be counted for a hundred years."

"Horses indeed!" said Wulf. "Horses indeed! But what is the price of them?"

Masouda repeated the question in Arabic, whereon the man replied in the same tongue with a slight shrug of the shoulders.

"Be not foolish. You know this is no question of price, for they are beyond price. Say what you will."

"He says," said Masouda, "that it is a hundred gold pieces for the pair. Can you pay as much?"

The brethren looked at each other. The sum was large.

"Such horses have saved men's lives ere now," added Masouda, "and I do not think that I can ask him to take less, seeing that, did he but know it, in Jerusalem they could be sold for thrice as much. But if you wish, I could lend you money, since doubtless you have jewels or other articles of value you could give as security,—that ring in your breast, for instance, Peter."

"We have the gold itself," answered Wulf, who would have paid to his last piece for those horses.

"They buy," said Masouda.

"They buy, but can they ride?" asked the Arab. "These horses are not for children or pilgrims. Unless they can ride well they shall not have them—no, not even if you ask it of me."

Godwin said that he thought so—at least, they would try. Then the Arab leaving the horses standing there, went into the stable, and with the help of two of the inn servants, brought out bridles and saddles, unlike any they had seen. They were but thickly-quilted pads, stretching far back upon the horses' loins, with strong hide girths strapped with wool and chased stirrups fashioned like half hoofs. The bits also were only snaffles without curbs.

When all was ready and the stirrups had been let down to the length they desired, the Arab motioned to them to mount. As they prepared to do so, however, he spoke some word, and suddenly those meek, quiet horses were turned into two devils, which reared up on their hind legs and threatened them with their teeth and their front hoofs, that were shod with thin plates of iron. Godwin stood wondering, but Wulf, who was sangry at the trick, got behind the horses, and watching his chance, put his hands upon the flanks of the stallion named Smoke, and with one spring leapt into the saddle. Masouda smiled, and even the Arab muttered, "Good," while Smoke, feeling himself backed, came to the ground again and became quiet as a sheep. Then the Arab spoke to the horse Flame and Godwin was allowed to vault into the saddle also.

"Where shall we go?" he asked.

Masouda said they would show them and, accompanied by her and the Arab they walked the horses until they were quiet clear of the town, to find themselves on a road that had the sea to the left, and to the right a stretch of flat land, some of it cultivated, above which rose the steep and stony sides of hills. Here on this road the brethren trotted and cantered the horses to and fro, till they began to be at home in their strange saddles, who from childhood had ridden barebacked in the Essex marshes and to learn what pressure on the bit was needed to check or turn them. When they came back to where the pair stood, Masouda said that if they were not afraid the seller wished to show them that the horses were both strong and swift.

"We fear no ride that he dares to take himself," answered Wulf angrily, whereupon the Arab smiled grimly and said something in a low voice to Masouda. Then, placing his hand upon Smoke's flank, he leapt up behind Wulf, the horse never stirring.

"Say, Peter, are you minded to take a companion for this ride" asked Masouda; and as she spoke a strange look came into her eyes, a wild look that was new to the brethren.

"Surely," answered Godwin, "but where is the companion?"

Her reply was to do as the Arab had done, and seating herself straddle-legged behind Godwin, to clasp him around the middle.

"Truly you look a pretty pilgrim now, brother," said Wulf, laughing aloud, while even the grave Arab smiled and Godwin muttered between his teeth the old proverb "Woman on croup, devil on bow." But aloud he said, "I am indeed honored; yet, friend Masouda, if harm should come of this, do not blame me."

"No harm will come—to you, friend Peter; and I have been so long cooped in an inn that I, who am desert-born, wish for a gallop on the mountains with a good horse beneath me and a brave knight in front. Listen, your brethren; you say you do not fear; then leave your bridles loose, and where'er we go and whate'er we meet seek not to check or turn the horses Flame and Smoke. Now, Son of the Sand, we will test these nags of which you sing so loud a song. Away, and let the ride be fast and far!"

"On your head be it then, daughter," answered the old Arab. "Pray Allah that these Franks can sit a horse!"

Then his sombre eyes seemed to take fire, and gripping the encircling saddle girth, he uttered some word of command, at which the stallions threw up their heads and began to move at a long, swinging gallop towards the mountains a mile away. At first they went over cultivated land off which the crops had already been cut, taking two or three ditches and a low wall in their stride so smoothly that the brethren felt as though they were seated upon swallows. Then came a space of sandy sward, half a mile or more, where their pace quickened, after which they began to breast the long slope of a hill, picking their way amongst its stones like cats.

Ever steeper it grew, till in places it was so sheer that Godwin must clutch the mane of Flame, and Masouda must cling close to Godwin's middle to save themselves from slipping off behind. Yet, notwithstanding the double weights they bore, those gallant steeds never seemed to falter or to tire. At one spot they plunged through a mountain stream. Godwin noted that not fifty yards to their right this stream fell over a little precipice cutting its way between cliffs which were full eighteen feet from bank to bank, and thought to himself that had they struck it lower down, that ride must have ended. Beyond the stream lay a hundred yards or so of level ground, and above it still steeper country, up which they pushed their way through bushes, till at length they came to the top of the mountain and saw the plain they had left lying two miles or more below them.

"These horses climb hills like goats," Wulf said; "but one thing is certain: we must lead them down."

Now on the top of the mountain was a stretch of land almost flat and stoneless, over which they cantered forward, gathering speed as the horses recovered their wind till the pace grew fast. Suddenly the stallions threw themselves on their haunches and stopped, as well they might, for they were on the verge of a chasm, at whose far foot a river brawled in foam. For a moment they stood; then, at some word from the Arab, wheeled round, and, bearing to the left, began to gallop back across the tableland, until they approached the edge of the mountainside, where the brethren thought that they would stop. But Masouda cried to the Arab, and the Arab cried to the horses, and Wulf cried to Godwin in the English tongue:

"Show no fear, brother. Where they go, we can go."

"Pray God that the girths may hold," answered Godwin, leaning back against the breast of Masouda behind him. As he spoke they began to descend the hill, slowly at first, afterwards faster aand yet more fast, till they rushed downwards like a whirlwind.

How did those horses keep their footing? They never knew, and certainly none that were bred in England could have done so. Yet never falling, never stumbling even, on they sped, taking great rocks in their stride, till at length they reached the level piece of land above the stream, or rather above the cleft fully eighteen feet in width at the foot of which that stream ran. Godwin saw and turned cold. Were these folk mad that they would put double-laden horses at such a jump? If they hung back, if they missed their stride, if they caught hoof or sprang short, swift death was their portion.

But the old Arab seated himself behind Wulf only shouted aloud, and Masouda only tightened her round arms about Godwin's middle and laughed in his ear. The horses heard the shout, and seeming to see what was before them, stretched out their long necks and rushed forward over the flat ground.

Now they were on the edge of the terrible place, and, like a man in a dream, Godwin noted the sharp sheer lips of the cliff, the gulf between them and the white foam of the stream a score of yards beneath. Then he felt the brave horse Flame gather itself together and next instant fly into the air like a bird. Also—and was this dream indeed, or even as they sped over that horrible pit did he feel a woman's lips pressed upon his cheek? He was not sure. Who could have been at such a time, with death beneath them? Perchance it was the wind that kissed him, or a lock of her loose hair which struck across his face. Indeed, at the moment he thought of other things than women's lips—those of the black and yawning gulf, for instance.

To Be Continued.

A NEW BOOK BY THE AUTHOR OF "THE WINGS OF THE MORNING"

THE GREAT MOGUL

By LOUIS TRACY

Tracy's latest romance (just out) towers above most all of modern fiction. It is rich in love, adventure and Oriental intrigue. You will say *rich*, too, when you read page after page of this book, which hasn't a sluggish paragraph in it.

Ottawa.—Mrs. Stevenson, 163 James Street, wife of Mr. W. J. Stevenson, passenger conductor on the C.P.R., has returned from Winnipeg owing to the death in Buffalo of Mr E. M. Dowsley, brother of Mrs. Stevenson. He was a former Chapleau, Ont., man and on going to Buffalo had entered the bicycle business.

Judge Desnoyers yesterday condemned James Brady to six months imprisonment, on a charge of theft.

Removal Notice

The Singer Store, formerly located at 1908 Notre Dame Street, has been removed to

CONDUITS TAKING PLACE OF POLES

Power Company's Position as to Overhead and Underground Wires.

There has of late been frequent criticism of an adverse nature on the fact that the Montreal Light, Heat and Power Company have of late weeks laid conduits on Ottawa Street, partially at least, blocking that thoroughfare. The view was expressed that if the company wished to take down their overhead poles when they had laid their conduits on a street, it would be of real benefit to the city, but that in the meantime the poles were still there.

In an interview with a Herald representative this morning Mr. Walbank, vice-president of the Light, Heat & Power Company, explained that company's view of the situation. "We have long offered," said Mr. Walbank, "to take down our overhead poles and wires as soon as the city would give us a guarantee that no other companies would be allowed to put up poles and wires in competition with us, or that if any were allowed to do so, the city should reimburse us for the expense incurred in going underground. This is a fair proposition. Suppose it costs us $1,000 per mile for our overhead wires, it costs us four times as much, $4,000, for underground ones. You can see how we would be handicapped, if, after we had put all our wires in underground conduits, other people put up their systems overhead at a cost of $1,000 and entered into competition with us.

"The reason we didn't take down our poles on Ottawa Street is that they are still in use. The work we have been doing there has been to connect our power at the Lachine Rapids with the central station of the Montreal, Light, Heat & Power Company by way of conduits, instead of putting up thirty or forty more overhead wires. We left the poles to do the ordinary business already on that street.

"If we did instal an underground system, we could not under any circumstances, go beyond the street line. The householders would have to come out to meet us with their connections, which would cost them $100 or $150 apiece. When the citizens found that their property was touched, there would be a howl raised. At present we are serving twelve or so firms underground, and they also provide fireproof places for the transformers in their own building. But are the general public prepared to do that? People have even refused to pay $5 extra to have their electric light service come in at the rear instead of the front of their houses. They are chary of spending money out of their own pockets, although if the city were paying it, it would be all right."

OBITUARY

Halifax.—John Lindsay, high sheriff of Lunenburg County, died, aged forty-eight years, after an illness of two weeks.

Truro, N.S.—The death occurred recently of Mrs. McLellan, wife of Judge S. McLellan, of this town, at the age of sixty. She had been an invalid for many years.

Halifax.—Rev. J. L. Sponagle, one of the veteran figures in Nova Scotia Methodism, died at Middleton, aged eighty-one years. He was ordained in 1852, when the Nova Scotia Church was under the jurisdiction of the English Methodist Church. He retired in 1866.

Galt.—John F. Andrich, one of the oldest and best known hotel men of Waterloo County, died, aged fifty-six, from a complication of diseases. He was a native of Hesse-Darmstadt, Germany. Deceased was well known also in Toronto and Hamilton, in both of which cities he had been in business.

STRONGER THAN MEAT.

A Judge's Opinion of Grape-Nuts.

A gentleman who has acquired a judicial turn of mind from experience on the bench out in the Sunflower State, writes a carefully considered opinion as to the value of Grape-Nuts as food. He says

"For the past 5 years Grape-Nuts has been a prominent feature in our bill of fare.

"The crisp food with the delicious, nutty flavor has become an indispensable necessity in my family's everyday life.

"It has proved to be most healthful and beneficial, and has enabled us to practically abolish pastry and pies from our table, for the children prefer Grape-Nuts and do not crave rich and unwholesome food.

"Grape-Nuts keeps us all in perfect physical condition—as a preventive of disease it is beyond value. I have been particularly impressed by the beneficial effects of Grape-Nuts when used by ladies who are troubled with face blemishes, skin eruptions, etc. It clears up the complexion wonderfully.

"As to its nutritive qualities, my experience is that one small dish of Grape-Nuts is superior to a pound of meat for breakfast, which is an important consideration for anyone. It satisfies the appetite and strengthens the power of resisting fatigue, while its use involves none of the disagretable consequences that sometimes follow a meat breakfast." Name given by Postum Co., Battle Creek, Mich. There's a reason.

ROSEMOUNT NOW WANTS TO ENTER

Municipality Asks for Aldermanic Representation in City Council

A delegation from the municipality of Rosemount met the Montreal Annexation Committee yesterday to discuss the question of terms in connection with the proposed annexation of that municipality. The delegation included Mayor Lafond, councillors J. N. Drummond, and J. McEvoy, Mr. U. H. Dandurand, Mr. A. Drummond and Dr. Craig.

Mr. Dandurand, who acted as spokesman for the Rosemount party, explained the advantages that municipality had to offer. The municipality was situated near Longue Pointe, in a district where there were many great industrial foundations, such as the Angus shops. For this reason the population was growing fast and had doubled within three years. It now totalled about 800.

One of the stipulations to annexation suggested by the Rosemount delegation was that the municipality should be a ward with aldermanic representation in Council. It was argued also that there would be little difficulty in granting the village the water, sewer and street car services, owing to the fact that these ameliorations were already at their door.

As has been usual in annexation debates with suburban municipalities, much of the discussion centred on the taaxtion of farm lands, and the same rule would be followed there, said the committee, as in other places, that is, the lands would be taxed as farm lands and not as building lots until they actually became the latter. The question of roads came up also, and the delegates were informed that should Rosemount become annexed its aldermen would look after its roads.

Chairman Lavallee explained that it would be necessary to have the townspeople agree to a by-law which would be submitted by the city. If this were approved, the annexation would go through in the same way as had that of Villeray.

SET SWITCH AND LEFT TOWER AS TRAIN CAME

Switchman on New York Elevated Admits Deserting His Post—Motorman Missing.

New York, Sept. 14.—In seeking to place the blame for the fatal "L" wreck of Monday it was discovered yesterday that C. A. Jackson, the switchman who set the rails for the ill fated train, had left his tower for a few minutes after pulling his levers, during which time the accident happened.

Paul Kelly, the motorman, was still at large, but in a conversation with a friend he was said to have declared he feared mob violence. He insisted his disks were set to indicate a Ninth Avenue train and this statement was borne out by others.

Coroner Scholer and the State Board of Railroad Commissioners continued their investigation of the accident. Each inquiry will be independent, but both will have one aim— placing of the blame.

Experts went over the road and examined the curves, and it was announced that there is no possible danger when all the ample precautions are fully observed. S. S. Neff, engineer, again condemned the antiquated signal and switch system.

Many of the injured were able to leave the hospitals, and there were no more deaths, but the condition of some of the victims was said to be still critical.

BOY CONFESSED HAVING SENT INFERNAL MACHINE

He Got the Idea From the New York Comics—Practiced Burglary at Home.

New York, Sept. 14.—Thomas French, the East Orange (N.J.) youth who was arrested by postoffice inspectors, confessed to the police that he had sent threatening letters and three infernal machines to Valentine Riker, an insurance official, who also resides in East Orange. French, who is only seventeen years old, said he sent the machines as a joke; that he got the idea from reading of such devices in the New York newspapers, and anticipated the pleasure of reading about the experience of some one who received a machine of his construction. French also confessed to having set a public school and a neighboring barn on fire, according to the police, and said he had practised at burglary in his own home, frightening his mother and sisters badly.

Chatham, Ont.—The medical authorities report an outbreak of smallpox in Merlin, and claim that the disease was contracted from Dresden, where there was a mild outbreak a short time ago. One family has been quarantined. One of the cases is very severe.

GRAND LODGE K. OF P. SESSION IS OVER

Mr. J. R. Bain Was Elected Grand Chancellor for Quebec

The Grand Lodge of Quebec, Knights of Pythias, concluded its annual session at 1.45 this morning with the installation of the following newly-elected officers by Mr. John Campbell, supreme representative, assisted by Past Chancellor M. J. Baker, acting as grand master-at-arms, and Past Chancellor W. S. Campbell, acting as grand prelate:—Grand chancellor, Jas. R. Bain; grand vice-chancellor, J. J. Ulley; grand prelate, J. R. Stewart; grand keeper of records and seal, B. T. Campbell; grand master of exchequer, A. G. Becket; grand master-at-arms, H. J. W. Powers; grand inside guard, Joseph Lucas; grand outside guard, N. E. Powers; grand trustees, William Jackson, R. Nickel and A. Dyer.

Previous to the election Grand Vice-Chancellor J. R. Bain, on behalf of the Grand Lodge, presented the retiring Grand Chancellor, Mr. J. Albert McLean, with a testimonial and a past grand chancellor's jewel in recognition of the valuable services he had rendered Pythianism during the first year of the order in Quebec as a separate grand domain.

The new constitution adopted at this session provided that in addition to the officers and members of standing committees, each subordinate lodge should be represented in Grand Lodge by two delegate. It was also decided that Grand Lodge should meet annually in September, and two invitations were received for the next meeting, but as so much depended on the coming season the selection of the place for the meeting was left in the hands of the executive.

The Grand Lodge legislated against the resolution offered by the Supreme Lodge to allow grand lodges to regulate the initiation fee, but favored the minimum age limit of admission from 21 to 18 years as recommended by the retiring grand chancellor, Mr. McLean.

The new grand chancellor, Mr. J. R. Bain, appointed the following district deputy grand chancellors and standing committees:

District Deputies—No. 1 District, B. C. Powers; No. 2 District, M. J. Baker; No. 3 District J. Albert McLean, P.G.C.; No 4 District, John Starke, Farnham.

Judiciary Committee—Dr. G. A. Berwick, chairman; W. S. Campbell and Frank Starke. Committee on Grievances and Appeals—J. J. Ulley, chairman; George S. Wilson and A. Currie. Finance and Audit Committee—John Campbell, chairman; W. H. Baker and A. Dyer. Committee on Returns and Credentials—B. T. Campbell, chairman; H. J. W Powers and Fred C. Martin. Committee on Distribution—Dr G. A. Berwick, chairman; W. A. Dougherty and Joseph Lucas. Committee on State of the Order—E. Allison Powers, chairman; W. J. Brown and B. C. Powers. Committee on Printing and Supplies—A. Currie, chairman; H. J. W. Powers and Jos. Lucas. Committee on Warrants and Charters—J. A. McLean, P.G.C., chairman; George Tate and Frank Laskey. Committee on Fraternal Correspondence—E. Allison Powers.

Mr. James R. Bain, of this city, who has been elected as the second grand chancellor of the Grand Lodge of Quebec, Knights of Pythias, is a well-known fraternalist. Before the formation of the Grand Lodge, he had been district deputy supreme chancellor of the order for Montreal, and he has also been a district deputy supreme regent of the Royal Arcanum and is an old member of the Independent Order of Foresters.

Mr. Bain is also very prominent in musical circles, holding the record of thirty-four years as choir-master of St. Gabriel Presbyterian Church in this city. He has also been for six years the director of the children's choir of the Caledonian Society, whose annual concerts have always been a feature of the musical season in Montreal.

Style, Comfort, Durability Go With The BUCKLEY HAT

TWENTY-ONE "DRUNKS" UP BEFORE RECORDER

There were twenty-one prisoners before the Recorder's Court yesterday charged with drunkenness—simple drunk, loitering drunk, and dead drunk, as the various classes are defined by the police—which led Judge Weir to remark that if there were as many cases of infectious disease cropping up in a week as there were of those affected with the disease of over-indulgence, the public would be in arms. The general body of the citizens were callous, criminally callous, to the evil, and he thought it was time there was a wakening up on this, as well as on fiscal questions about which so much was heard.

Some of the excuses put up were rather amusing and were certainly ingenious.

Wm. Walsh took some brandy because he was made ill by the heat, and unfortunately overdid it.

Wm. Guy's feet were very painful, which made him carry his "load" badly.

Charles Wade gets "those affections" on account of having had sunstroke.

Thomas Madden only got out of jail the day before, and was celebrating the event.

And poor Tom, the most straightforward of the bunch, went back for two months, and will have time to think out something better in the way of excuse, anent his next appearance at court.

PRESIDENT MITCHELL CALLS FOR 8-HOUR DAY

Mahoney City, Pa., Sept. 14.—Five thousand mine workers paraded here yesterday in honor of President John Mitchell, who was given a rousing reception. A feature of the demonstration was the bearing at the head of the procession of a large American flag by twenty-four little girls from the public schools. Every colliery in the Mahoney Valley was closed, ten thousand employes making a holiday of it. President Mitchell's speech after the parade was a virtual reiteration of his former addresses, delivered on his present tour of the anthracite fields. He came out squarely on the recognition of the union and an eight-hour work day, declaring that there would be no permanent or lasting peace in the hard coal industry until the union is recognized and the eight-hour day established.

"The union," he said, "is now stronger than at any time in its history, and isin prepared to move on in one solid phalanx to victory in its fight for right as it did in 1902. We shall demand a decrease in hours and an increase in wages."

VILLERAY ASKING FOR MORE FIRE PROTECTION

Ald. Duquette, of St. Denis Ward, interviewed Supt. Ferns, of the fire alarm department, yesterday asking for fire protection of Villeray, which had just become part of that ward. The alderman thinks three additional boxes will be necessary to give the new part of the city adequate protection.

Supt. Ferns referred Ald. Duquette to the Fire Committee and asked him to make his application in the usual way.

Winnipeg.—The Railway Commission adjourned yesterday to meet again in Winnipeg within three weeks, when unfinished business will be taken up. Sessions will be held west of Winnipeg during the balance of the month.

TEXT OF PROTOCOL WAS ANNOUNCED

Commanders Must Put it Into Execution—Underwriters May Protest

London, September 14.—The Japanese Legation gave out the text of the Russo-Japanese armistice protocol as follows:

"First—A certain distance as a zone of demarcation shall be fixed between the fronts of the armies of the two powers in Manchuria, as well as in the region of the Tumen River, Korea.

"Second—The naval forces of one of the belligerents shall not bombard territory belonging to or occupied by the other.

"Third—Maritime captures will not be suspended by the armistice.

"Fourth—During the term of the armistice new reinforcements shall not be despatched to the theatre of war. Those which are already on their way there shall not be despatched north of Mukden on the part of Japan or south of Harbin on the part of Russia.

"Fifth — The commanders of the armies and fleets of the two powers shall determine in common accord the conditions of the armistice in conformity with the provisions above enumerated.

"Sixth — The two Governments shall order their commanders immediately after the signature of the treaty of peace to put the protocol into execution"

The protocol was signed by M. Witte, Baron Rosen, Baron Komura, and M. Takahira.

LLOYD'S AFFECTED.

London, September 14. — An announcement that the protocol of the armistice between Russia and Japan provides that the right of maritime captures is not suspended pending the ratification of the treaty, caused a flutter at Lloyds. The insurance rate on steamers bound for Manchurian ports, which yesterday were only twenty shillings per cent., have risen to from three to fifty guineas. A few vessels with Russian cargoes, already cleared for Chinese ports, were insured at peace rates The underwriters are indignant at what they consider the high-handed action of Japan, and are discussing the question of protesting to the Japanese Government.

BARQUE MAKES RECORD.

London, September 14.—The Norwegian barque Signe reached Grimsby after a nineteen days' voyage from Nova Scotia. This is believed to be a record.

CABLE UNDER LAKE MICHIGAN.

Charlevoix, Mich., Sept. 14.—The work of laying the United States Government telephone cable from this city to Beaver Island, in the middle of Lake Michigan, began yesterday. A brisk northerly wind prevailed, but it is thought that the cable will be landed in Beaver harbor to-day. Congress appropriated $35,000 during last winter for this telephone cable line, in order that connection might be had with Beaver Island, where the weather bureau proposes to establish a storm warning station.

It Never Blisters

But it reduces all swelling, takes away inflammation, removes soreness from any muscles that are injured or strained. This is what Polson's Nerviline does. No house can afford to be without it.

Common ranges make the coal man smile.

The Pandora Range makes the thrifty housewife smile.

Is your Coal Wasted or Used?

It is comparatively easy to build a range that will make a lot of heat, but it requires the exact science of Pandora range building to produce a range that will use all the heat in the coal without waste.

A common range may burn twice the coal that a Pandora will, and yet do only half the work.

If you use a Pandora range you can be certain that your coal money is not wasted, but used.

ECRU DAMASKED TABLE LINEN, 60 in. wide; regular price 40c, for 29c

THE MISMANAGEMENT OF MINING PROPERTIES THE SOURCE OF LOSS

Herald's Correspondent Tells of Some Ludicrous Mining Incidents in the History of British Columbia—The "Yellow-Legs" Engineer and His Works.

Special Correspondence to the Herald.
Copyrighted—All Rights Reserved.

Jack-Mac Newspaper Camp, Fish Lake, B. C., Aug. 3, 1905.—Mismanagement of mining properties in British Columbia has been a prolific source of loss. Sometimes it was deliberate and with intent to rob the public. In most cases it was the result of bull-headed ignorance and lack of capacity on the part of the engineer in charge.

Experience has shown that no two mining properties can be opened and worked by the same methods. The topography of the claim, the dip and character of the ore, the sort of mineral to be worked, the process by which it is to be reduced, the climatic conditions under which work is to be carried on, its proximity to or distance from the railway or reduction works, and a thousand other conditions should enter into the consideration of the careful engineer. And thus it will be seen that the selection of the right man for that position is of the utmost importance. His judgment must be beyond doubt, and his resourcefulness almost without limit.

The location of a tunnel or shaft may mean the making or wiping out of the margin of the profit on a low-grade proposition. Some mines succeed in spite of their management, while others succeed by good management, in spite of the low percentage of mineral in their ore. One of the most successful mines and the largest in the boundary country to-day is one of the lowest grade ore. But it is admirably managed.

Some of the biggest failures in the Province have had the highest grade ore to work on, but no business in the world could have weathered the graft, dissipation, and ignorance of their management. A whisky-sodden mine manager is as much out of place at the head of a mine's affairs as a soak would be in the management of any other kind of business. Ignorance and arrogance, too, have characterized the courses of their enterprises.

THE UNPRACTICAL ENGINEER.

There is a class of engineer rampant in British Columbia known as "yellow legs," who have earned this soubriquet because of their punctilious neatness of dress and lawdy-daw, know-it-all attitude on all practical questions pertaining to mining. These men before they were acclimatized and received some hard knocks of experience with the peculiar mining conditions of the country, have been responsible for many expensive blunders. They are full of theory and void of experience. Such men are not safe engineers with whom to entrust the investment of many thousands of dollars of capital. Yet investors have put into the hands of these expert know-nothings in the aggregate millions of dollars, and when the mines failed they have put the responsibility on the mining business as a whole and have characterized the industry as a gamble. Under such management it is a gamble of the worst kind, with the odds all against the investor, for if the engineer does by a lucky hit make a success of the enterprise, it will be by good luck, rather than by foresight and skill.

Some of the blunders made have been almost incredible instances of ignorance and stupidity. One case I was told of recently occurred when a tunnel was being drifted to strike a vein which showed outcroppings higher up the hillside. Making allowance for any dip the vein might take, it should have been struck between 75 and 100 feet from the mouth of the tunnel. As a matter of fact, it was struck at about 80 feet, but at that point it was barren of ore. The engineer continued drifting on past the vein, though the vein was pointed out to him by one of the miners. He would not admit the possibility of that streak being the vein, and actually drifted his tunnel 2,500 feet, at a cost of $15,000 to $20,000. Finally he came back to the seam, drove a cross-cut, and found his ore about fifteen feet from the wall of the tunnel. And the trustling shareholders have about 2,500 feet of hole for their $20,000, which should have taken out ore to three times that value.

REDUCTION START AT THE WRONG END.

Then, again, some managers start at the wrong end to develop their properties. Up in the Illecillewaet and Albert Canyons are three monuments of this brand of folly. The mines were to have been silver-lead propositions. They are to-day a collection of debris of what were once imposing reduction works, handsome residences, and, in one case, a small town. Before ascertaining and proving their ore bodies in each case, the engineers in charge proceeded to get ready for large operations. Apparently, it never occurred to them that it was possible there was not ore behind the surface indications to carry on large operations upon. One built an imposing reduction works, a handsome modern residence for himself to live in, boarding houses for the men, and offices for his staff. Another built a small town with all conveniences, also a residence for himself. The third followed the example of the first, and also built a works and a handsome residence. After these few preliminaries, these gifted engineers went after ore, with the result that in two years from the time the works and various appurtenant buildings, had been erected they were torn down, and what was worth moving was taken away. Not enough ore was treated to pay for the stained glass windows in one of the "manager's" residences. When one hears of such blundering asininity, it is a wonder there is any mining industry in British Columbia to survive it.

Another case—a gold mine this time. A company was formed to work a mine of proven promise. The funds which should have been put into the mine were used to buy a town site, a waterworks layout, and electric plant, also a water power. Then the sale of stock stopped. That was about the time Eastern people were recovering their sanity. There were no funds to go on with mining operations. That property stands to-day, as good as ever, less some depreciation on the machinery, only awaiting some level-headed business-like methods to make it a good producing mine. Had the funds which were used to buy frills been put into the mining operations, it would have eventually provided, in profits, the wherewithal to purchase town sites and other mine ornaments.

Another instance of scores which might be given. An engineer drifted a tunnel into a side-hill towards his ore, and after striking it, for some reason, left the tunnel and sunk a shaft from the summit of the hill, fully 150 feet back of the line at which he had struck his ore. Such a move could have only been planned for some ulterior purpose, in order to squander the company's funds, and accomplish some skin game on the shareholders. After striking the ore in the tunnel, a shaft was absolutely superfluous, and worse than useless, as it is a much more expensive operation to hoist ore out of a shaft than to run it out of a tunnel.

I have heard it stated that a million dollars would be more than a sufficient capital to operate any mine or prospect in British Columbia, with perhaps one or at most two exceptions. Yet how many on paper were capitalized for two to five million dollars! This sort of wildcatting is fortunately past. There are scores of fine prospects, which can be proven for a few thousand dollars, and operated with a capital ranging from $200,000 to half a million, without watered stock.

ENORMOUS RESOURCES.

I have in this series of letters tried to show what constitutes a good prospect, how it should be developed, and later how it may be honestly financed, and in this I have mentioned a few of the numerous examples of mismanagement which has done its share in bringing into bad odor a business which has in it potentials of great wealth, the building up of a great and wealthy community in the beautiful hills and mountains of this magnificent Province. British Columbia is a Province of enormous natural resources in mineral, timber, fisheries, and agriculture. Its development means much to the East. Its scattered population, sparse as it is to-day, affords an important and increasingly profitable market for Eastern manufactures.

Indications are not lacking that a revival of its mining interests is at hand. Evidences of this newly awakened interest are coming in from the moneyed centers of the Pacific coast cities of the United States, from which capitalists are coming in and developing fine properties, of which little is known or heard in Eastern Canada. These men have made their money for the greater part in mining. Their cities have been built on that industry. They know its possibilities and understand the permanence and lucrativeness of mining, carried on on a business basis. In a short time we will be hearing from a section of the Eastern press that the "Americans" are gobbling up our best investments. Well, the investments are here, and have been for a long time, but it is a way with our Easterners to wait till some one more enterprising than themselves skims some of the milk pans before they get their spoons out. And after all the main thing is to get the mines developed, and the waterfalls turning wheels, to employ the labor that will build up cities and towns all through these mountains.

In my next two letters I shall describe a typical copper mining, or rather prospect camp. A virgin field already located and to some extent demonstrated. We have spent two weeks examining it from end to end, and yet this Aspin Grove camp is only one of dozens of others throughout the Province.

John P. McConnell.

WATCHMAN DEAD AT HIS POST.

Edward Summerside, fifty-six years of age, a night watchman in the employment of Peter Lyall & Sons, was found dead in his shanty at the new Grosvenor Flats, corner of Guy and Sherbrooke streets, at two o'clock yesterday by an employe of the Dominion Burglary and Guarantee Company. The General Hospital ambulance was summoned and the police notified, but as life was extinct the man was taken to the morgue. Summerside had been more or less in ill-health for the last five years and at one time had been in the Royal Victoria Hospital. He was visited last night at 8 o'clock by Dr. Newman, who advised him to stay at home. On leaving home to go on duty he complained to Felix Dupre, 60a Adeline Street, of feeling sick. Summerside had bruises on his face that might have been caused by a fall or by blows and Coroner MacMahon is making enquiry into the matter.

NEW FIRE TELEGRAPH.

Mr. Ferns, superintendent of the Fire Alarm Department, will shortly instal a new instrument at No. 7 fire station for receiving alarms. The new machine, instead of registering the number of the box by strokes on a bell, will print the number on a roll of paper. There is thus no possibility of a mistake in counting and besides the firemen will not be kept awake at night unnecessarily by calls outside of their district.

Two small failures were registered yesterday. Mr. Nap. Martineau, consenting to assign on demand of Mr. J. A. Jarry, advocate and Mr. Remi Legault, tobacconist, assigning on demand of Mr. George Bonenfant.

CANAL BLOCK WILL NOT CAUSE MUCH DELAY

It is now thought that the wreck of the Canada Atlantic bridge over the Soulanges Canal, caused by the crashing into it of the steam barge Nicaragua, of the Ogdensburg Coal and Towing Company, Tuesday, will not seriously affect the shipping of grain from this port.

Piles To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it.
