

SWEEPING CHANGES ADOPTED BY THE CITY COUNCIL

Act on the Report of the Auditors. Appointment of Officials in Various Departments to be Cancelled. Mr. F. J. Griffith Will be City Clerk, and an Official Will be Appointed to Have Full Charge of Finances of the Departments. Aldermen Adopt Recommendations Unanimously.

The long expected discussion by the City Council on the Auditors' report took place last night—but behind closed doors. The members of the Council began to arrive soon after 8 o'clock and by half-past eight every member was present. Acting upon a suggestion that they should adjourn for "five minutes," they retired to the inner chamber and were closeted there for an hour and a half. Several of the citizens had come down to the Council Chamber to watch the proceedings and they expressed their disapproval in a very forcible manner of the method adopted by the Council in discussing the city's affairs.

At ten o'clock the Aldermen re-entered the Council Chamber, and it at once became evident that something of a surprising or sensational character was about to take place. These expectations were realized, for following upon the reading of the Finance Committee's report, on the auditors' report, which revealed some grave irregularities in the management of the city's affairs, the gullotine fell with lightning rapidity upon the heads of several responsible officials. The meeting only lasted half an hour, but in that short time drastic action was taken which means the re-organization and re-systemization of the various departments. Absolute unanimity marked the whole of the proceedings and resolution after resolution was adopted without a word of discussion.

Alderman Thompson presided, and opened the proceedings by announcing that the meeting was called for the purpose of laying before the Council and the public the report of the auditors. Alderman Jenckes, the Chairman of the Finance Committee, thereupon rose to present the report of that Committee. He stated that the auditors' report was a long drawn out affair in connection with the city accounts, dealing with various phases of the situation, and the work had occupied a very considerable length of time. In order to bring the matter briefly before the Council the committee had prepared a short report in connection with the full report of the auditors.

FINANCE COMMITTEE'S REPORT.

Alderman Jenckes then read the committee's report as follows: Your Committee desire to submit to the Council the report of the Auditors, Price, Waterhouse & Co. It will be found by the report on the various Departments that the accounts of the City have not been dealt with for some time in a business-like manner. The accounts of the Electric Light Department appear to have been short a very considerable amount in cash (a portion of which has been made up).

The receivable accounts of the Electric Light & Gas Department are in arrears to such an extent that the auditors submit that there will be a loss on our accounts of over \$1,800.00, which may be considered as uncollectable, such loss being attributable solely to carelessness and indifference of the responsible officials. There are also irregularities in the Department, such as allowing employees of the Department to be furnished with electric light and gas free of charge, which has never been authorized in any way, shape or form by the City.

The Auditors recommend that a re-organization of the accounting system be made in all Departments. In connection with the Waterworks, it would appear from the Auditors' report that there are few irregularities in this Department, the most serious being that of accounts in arrears and the practice of allowing

rebates to customers in an irregular manner. The Auditors also recommend the reorganization and systematizing of this Department and the collection of all outstanding.

In connection with the Tax Department proper, the Auditors criticize very severely the large amount of outstanding taxes which has been allowed to accumulate from year to year so that it now amounts to some \$100,000. In this connection also the Auditors strongly urge the systematizing and reorganization of the whole Department.

We may point out to the Council that the City is operating what perhaps might be termed a corporation with a capital of upwards of \$2,000,000, or if we added to this our assets and bonded debt and the City real estate, a corporation of upwards of \$12,000,000. We are operating three distinct Departments, handling upwards of \$150,000 in citizens' money as earnings from these Departments, yet we are allowing each one of these Departments practically to take care of itself. We have no general head over all, and the employees of the City come and go, doing, as would appear by the Auditors' reports, practically as little as it is possible to do to hold their jobs.

The Auditors recommend that all of the accounting, the receipts and disbursements of the City, be systematized and put under one head, and after submitting the Auditors' report to and consultation with the City Attorney, your Committee propose to carry out the recommendations of the Auditors by a series of resolutions, somewhat drastic in their form, yet no more so than it seems to us that the situation demands. With your permission, therefore, we beg to submit the resolutions as prepared by the City Solicitor in dealing with Price, Waterhouse & Co.'s audit.

It will be at once seen from this set of resolutions that the object of the Auditors is to relieve Mr. Griffith of the arduous duties connected with the office of Secretary-Treasurer or Clerk and Secretary-Treasurer and leaving Mr. Griffith the office of City Clerk. Further, that the appointment of a City Treasurer be made who will have charge of the accounting of all the Departments of the City, and who will be responsible for the proper administration and collection of all accounts of the City.

In order to clear the way for the Treasurer to become the active head of this Department, these resolutions cancel all appointments which have been made by the City, leaving the new head free to select his own staff, of course subject to the sanction of the Council.

J. M. JENCKES, Chairman.
APPOINTMENT OF OFFICIALS CANCELLED.

The report was adopted without discussion and separate resolutions were forthwith passed cancelling as from September 1st several appointments. The officials thus affected are: F. J. Griffith, Secretary-Treasurer. B. A. Dugal, Assistant Secretary. R. H. Puller, Clerk of Water Dept. Wm. Bell, Tax Collector. R. J. Myers, Assistant Tax Collector. E. Hargrave, Auditor.

SEARCHING FOR BODIES OF VICTIMS

Thirteen Have so Far Been Recovered From Factory Ruins

MANY WERE BURNED BEYOND RECOGNITION. AT LEAST FIFTY PERISHED.

Binghamton, N.Y., July 24.—Thirteen bodies, burned beyond recognition, were recovered from the ruins of the overall factory of the Binghamton Clothing Company yesterday. The first was found near the centre of the debris-strewn cellar shortly before noon. Late yesterday afternoon eleven more bodies were uncovered at a point near where the stairway led to the Wall street entrance of the building. The thirteenth body was found last night. It was identified as that of John Schermerhorn, the engineer, by a pair of rubber heels he is known to have worn.

One of the charred bodies is believed to be that of Nellie Connor, the forewoman, who sacrificed her life in an effort to save those in her charge. A diamond ring and diamond earrings worn by Miss Connor were found.

The body of Mrs. Mary Pryor, wife of Thomas Pryor, was identified by means of an insurance key ring bearing her name. John Conroy, of Wilkesbarre, Pa., a brother, aided in the identification.

Rings and other jewelry found near the bodies are expected to aid in further identifications. It is still impossible to accurately estimate the number of dead. At least fifty, probably more, are believed to have perished in the flames.

BOUGHT BLACK FOXES CHEAP

Quebec Man Will Now Start up a Reynard Farm

WAS OFFERED SEVERAL THOUSAND DOLLARS SHORTLY AFTER HIS PURCHASE.

Quebec, July 24.—Probably few if any men in this province have started a black fox farm at less cost than Mr. Robert Rowley, proprietor of the Laurendie Preserves at Lake Edward. While up at Roberval, Mr. Rowley heard that a man there had four young pups, part red and part black. It is said that nobody wanted to buy the animals, though the price was about ten dollars or so a head. Mr. Rowley gave the man his price. The next morning Mr. Pridham, manager of the Black Fox Ranch of Lieutenant-Governor Wood, of New Brunswick, who has been scouring the country for young stock, saw the foxes and immediately went into the hotel and in front of everyone present offered Mr. Rowley several thousand dollars but was refused. When the villagers realized the offer some of them almost collapsed on the spot and the place has been fox-crazy ever since.

Mr. Rowley is also purchasing a pure black dog fox at a very small sum and will cross it with the litter which he got so cheaply. He expects to have a litter of pure black foxes next spring.

GREAT BRITAIN IS PREPARED

Will Send Warship to Mexico to Protect British Subjects

SO FAR NO COMPLAINT HAS BEEN RECEIVED FROM BRITISH CONSUL.

London, July 24.—(Special)—Sir Edward Grey, British foreign secretary, is keeping in communication with the British Admiralty in case the presence of a British warship in Mexican waters should be considered advisable. Thus far, however, the British minister in Mexico City has not reported British subjects to be in danger.

It is pointed out by the Foreign Office to-day that the British in Mexico, in common with other foreigners, have suffered from the continued disturbances.

CHINESE REBELS WERE REPULSED

MADE REPEATED ATTACKS ON ARSENAL DEFENDED BY FORCE OF 2,000.

Shanghai, July 24.—Southern rebels, reported to number 10,000 strong attacked Kiangnan arsenal at three o'clock Wednesday morning. The defenders, not exceeding 2,000, were strongly entrenched, and, assisted by the Navy, repelled three separate attacks. The fighting lasted until 7.50 o'clock. According to the estimates six hundred rebels were killed.

Another attack was also repelled at one o'clock Thursday morning, the Southerners being unable to gain any ground.

TWO FATAL ACCIDENTS IN MONTREAL

One Was a Victim of a Light Engine at a Crossing

THREE FATALITIES IN THREE DAYS, BESIDES SERIOUS ACCIDENT TO FIREMAN.

Montreal, July 24.—Two men lost their lives under the wheels of railway cars yesterday, making three such fatalities in two days besides a serious accident which came near resulting in the death of a G. T. R. engine fireman which occurred almost simultaneously with the third fatality at about midnight last night.

The victims are, John Pirth, 48 years of age, of 63 Paris street, who lost his life in an attempt to save a fellow workman on Tuesday; Napoleon Foisy, 32 years of age, of 157 De Neuville street, who was struck by a light engine at the Charlevoix street crossing yesterday morning, and who died in a few hours later at the General Hospital, and the third man to be killed was one whose identity has not yet been established, who was struck and run over by cars being shunted into the freight yards at the Bonaventure depot at 12 o'clock last night.

CONVICTS MUTINY AT SING SING

Long Series of Grievances is Responsible For the Trouble

NEW WARDEN HAD TO SUBMIT TO THE DEMANDS OF THE MUTINOUS MEN.

New York, July 24.—As a sequel to the \$200,000 riot in the Sing Sing prison yards, 150 of the second and third terms, the most feared men in the institution, took matters into their own hands yesterday and precipitated a mutiny which threatened for a time to result in a concerted attempt at jail delivery. The new warden, James N. Clancy, and principal keeper, James Connoughton, had to yield to the mutinous convicts. Several hundred windows in the prison house were smashed before the mutineers were again placed in their cells.

A long series of grievances were responsible for the mutiny, but the immediate cause was Tuesday's big fire, which threw 213 of the second and third terms out of employment. Last night the situation was so acute that an extra guard was ordered to be on hand in the morning. A serious outbreak, according to one of the keepers, may be expected any time within the next few days.

KAISER WILLIAM CONSULTED CZAR

Discussed the European Situation Before Going on Holiday

SO FAR AS RUSSIA WAS CONCERNED HE WAS TOLD THERE WAS NO CAUSE OF FEAR.

Berlin, July 24.—The following incident, related by an unquestionable authority, is of timely interest. Before definitely arranging to proceed to Norway on his summer holiday, the second week in July, the Kaiser made personal confidential inquiries of the Czar as to whether in the Czar's opinion anything at all was likely to ensue during the next five or six weeks which would make it inconvenient for the Kaiser to absent himself from his own country. The Czar sent back such categorical assurances as far as anything which concerned Russian plans, that the Kaiser decided to start without further ado.

The information adds that neither the Czar nor Kaiser could, of course, have foreseen the new enigma which Turkey has forced upon Europe's attention.

CHILDREN DROWNED IN RIVER

Lewiston, Me., July 24.—Two girls, Theresa and Lucille McCarthy, two and three years old, who were taking an automobile ride with their great uncle, John McCarthy, of Livermore Falls, were drowned when the car plunged through the railing of Dead River Bridge at Wayne Pond Station. Although McCarthy had two ribs fractured he succeeded in saving George Burkett, the chauffeur, who could not swim.

ROOSEVELT TO GO ON STAGE

London, July 24.—The Daily Sketch prints a statement that Col. Roosevelt has signed a contract for a tour of the Australian vaudeville circuit, at \$2,000 a week, to lecture on sociological subjects.

"He has been hooked by Hugh McIntosh, the Australian light promoter, who is the governing director of Harry Rickard's circuit." It adds: "The former President is to appear in talks of fifteen to thirty minutes.

"A tour on these lines would certainly mean the capacity of the house."

MONTREAL EMPLOYS 10,000 WORKMEN

Half of That Number Are Engaged on Paving The Streets.

WEEKLY PAYROLL FOR THIS LARGE ARMY OF MEN AMOUNTS TO \$100,000.

Montreal, July 24.—The corporation at the present moment has 10,000 men employed aside from clerks, policemen and firemen. One-half the total number are engaged in carrying out the extensive programme of street paving which the city has undertaken this season. This is due to the fact that the tenders of the Chief Engineer were the lowest submitted for over half the work given out. The weekly payroll for this army of men amounts to \$100,000.

The extra staff consists of 5,200 men who are distributed in the three divisions of the city where they are employed in paving streets. In the eastern division are 2,500 men, in the northern division are 1,500, and in the western division are 1,200.

BIRTHDAY OF CARDINAL GIBBONS

Attributes His Good Health to Free Use of Buttermilk

AGED CARDINAL PITCHED A WINNING GAME OF QUILTS WITH AN OLD FRIEND.

Baltimore, Md., July 24.—Cardinal Gibbons pitched a winning game of quilts with an old friend on his 79th birthday anniversary yesterday, which he spent very pleasantly at the country estate of T. Herbert Shriver at Union Mills, Md. Although the cardinal recently said he did not think he would live much longer, he was the picture of health yesterday. He rose early and celebrated mass in the private chapel of the Shriver home. Yesterday afternoon he greeted a very old newspaper correspondent, William Seabrooke, representing the Baltimore American, who is several months older than the cardinal. The cardinal attributed his health to the free use of buttermilk, of which he drinks several glasses daily.

His aged interviewer asked his views on the Mexican question. The cardinal said he sympathized with President Wilson in the delicate questions confronting him, and thought he was doing his duty conscientiously in withholding recognition of the Huerta regime, which was hardly well enough established to give it any permanence. While European nations were urging upon this country some action for the protection of their citizens and their property on Mexican soil, the consequences of American interference were of too serious a character to justify hasty action.

EXPLOSION AT CHEMICAL WORKS

Arthur Kerr of Cookshire Seriously Burned on Face and Body

HELD A LIGHTED LANTERN TOO NEAR TANK WHERE GAS HAD ACCUMULATED.

Cookshire, July 24.—(Special)—Arthur Kerr, an employee at the chemical works, was seriously injured last evening as the result of an explosion. Kerr was going his rounds in the works last evening about nine o'clock, and carried a lantern. In one of the rooms he removed the cover of one of the tanks, and as he did so, held the lantern up better to see inside. There had been an accumulation of gas, which being ignited caused an explosion. As a result Kerr was seriously burned on the face and body, and he will be confined to his room for some time.

The fire alarm was immediately sounded, and on the arrival of the brigade the flames were soon under control.

MONTREALERS IN AUTO ACCIDENT

MACHINE ROLLED DOWN AN EIGHT-FOOT EMBANKMENT.

Portsmouth, N. H., July 24.—When E. J. Walsh, of Montreal, turned around from the wheel of his automobile to pass something to some of the passengers in the tonneau on the Newcastle road yesterday, the car swerved and crashed through a fence and carried its five passengers down an eight-foot embankment, finally coming to a stop on the ledge overhanging thirty feet of water.

As a result Mr. Walsh and Mrs. E. Cummings, also of Montreal, are at the Portsmouth hospital, suffering from cuts and bruises and a severe shaking up. The exact extent of their injuries has not been determined.

The other three passengers, M. J. McCurry, E. J. Hurren, and Miss Cummings, all of Montreal, returned to the Wentworth Hotel at Newcastle more or less shaken.

YOUTH FIRED PISTOL IN COMMONS

Another Melodramatic Suffragette Interruption Was Witnessed

SCENE TOOK PLACE DURING DEBATE ON ADMINISTRATION OF HOME SECRETARY.

London, July 24.—Another melodramatic suffragette interruption in the House of Commons occurred last night when a pistol containing only a percussion cap was fired by a youth in the Strangers' Gallery.

Keir Hardie had just been condemning the Home Secretary's administration of the Cat and Mouse Bill, and the police invasion of a private house to re-arrest Mrs. Pankhurst. As soon as Secretary McKenna rose to reply, there was a loud crack in the Strangers' Gallery. Immediately several detectives and attendants rushed to the youth who had fired the pistol, and hauled him bodily out of the gallery without ceremony.

The youth, who appeared not more than 17, though he gave his age as 22, seemed thoroughly scared as he was removed to the detention room. He gave his name as Ernest Washington, and said he came from Leeds, where he works as a mechanical engineer. He said he was a member of a Socialist Club in Leeds. The pistol was not a toy. It was a small weapon, but did not contain a bullet. Only a percussion cap had been fired.

Mr. McKenna, in reply to Keir Hardie, said that the police had no authority to break into a private house to arrest the suffragist, but if the house were open to them they were at liberty to enter. As to the administration act, he said, these women could not hope to become licensed law-breakers.

COAL RESOURCES ADDED TO.

New Glasgow, N.S., July 24.—Millions of tons may be added to the coal resources of Nova Scotia if the possibility of error in the location of the famous Fraser mountain fault in the Pictou coal beds, as suggested by eminent geologists of the party now touring the Maritime provinces, and who visited here, turns out to be correct.

FARMERS ARE BUSY

Richmond, July 24.—(Special)—The farmers in this vicinity are taking advantage of the fine weather of the past few days and are busy as long as daylight lasts making hay, which, by reports is up to the average in both quality and quantity and several assure even a much larger yield than last year. Fruit, especially apples, plums, etc., are a complete failure caused by the terrible destruction of the orchards by caterpillars earlier in the season. The vegetable gardens, however, are somewhat better than was expected at first, although a great number were planted the second time and were therefore late.

PEACE PROSPECTS BRIGHTER.

London, July 24.—The prospects of peace among the Balkan states were much improved yesterday, the King of Roumania using his influence towards general conciliation. Difficulty, however, is expected to arise through the extreme attitude of Greece in claiming possession of Kavala and Drama, as well as Salonika.

THE POWERS AND TURKEY.

The powers seem to have reached no decision as yet as to how to deal with Turkey. Lord Morley, of Blackburn, questioned on this subject in the House of Lords last night, deprecated public discussion of such a critical situation. He practically repeated Premier Asquith's warning to Turkey. He said that he was unable to state what action the powers were prepared to take, and added that the British Government still desired to carry out a policy of supporting the Ottoman Government in the reorganization of its administration and finances.

It is rumored that there is to be a regatta at the other end of the lake during the middle of August, and some of our motor boat enthusiasts are dreaming of carrying off some of the prizes.

KIRKDALE.

Owing to the farmers being detained in the meadows by the appearance of rain, there was comparatively few at the Cemetery meeting Tuesday evening, to meet Mr. Edward Wood, of Toronto, who accompanied Mr. James Lyster in a visit to their native soil. The meeting was held in the old Church, now known as the Church Hall, where Mr. Wood's father, Rev. S. West, in the old pioneer days, preached the Gospel. Mr. Wood, in addressing those present, spoke very feelingly on his memories of his parents and especially his mother's injunction "To believe in Christ and His promises." He said that among many things that believing in Christ was not always believing in Him. He deplored the modern idea of comparative religion, where in the dim light which the heathen possesses is considered by some to be equal to the light possessed by the Christian. He strongly advised his hearers to hold fast to that rock of God's mercy, Jesus Christ, the only way of salvation, for to whom who believeth shall have everlasting life. These words were as true now as they were ages ago. He spoke briefly but with manifest feeling on the cemetery, deploring the lack of care shown in many cases, upon the hallowed ground, where their loved ones lie, but in regard to the Kirkdale cemetery, he had only words of encouragement for those who were making the cemetery such a pleasant spot. Mr. James Lyster spoke briefly of the pleasure it gave him of having Mr. Wood in Kirkdale after an absence of 40 years and trusting that he would come again upon the completion of the present plans in regard to the cemetery. The Rector, Rev. W. A. Adeock, also spoke of the pleasure it gave him in welcoming such a visitor as Mr. Wood, son of such an honored father, the first minister of the Parish, and he hoped to see him oftener in the future. He paid a tribute to Mr. James Lyster for his energetic zeal in making the cemetery a place of pleasant memories, instead of its former neglectful condition. Upon motion of Mr. James Lyster, seconded by Mr. C. H. Pye, meeting adjourned after singing the National Anthem and giving three cheers for Mr. Edward Wood, whose visit will leave pleasant memories with all who were fortunate enough to meet him. Among those present at the meeting were the Wardsmen, Messrs. C. N. Lyster and Wm. Akerman, and Mr. Edward Noble, who was married by the Rev. S. S. Wood in 1864. The plans for the proposed fence, was decided Tuesday afternoon. A concrete wall will be built standing to the east of Rev. Mr. Wood's grave while along the entire front edge of the highway the fence will be of ornamental iron with an archway in front of the Church, with an iron gate. Upon the arch will be inscribed "Holy Trinity." Near Rev. Mr. Curran's grave will be another archway gateway inscribed upon the arch will be "Kirkdale Cemetery." The cost of the fence will be \$1.60 a foot. Mr. E. Hall, of Richmond will have charge of the work.

ITALIAN PRINCESS ADMIRES HER MOTHER.

One of the most charming of the younger Princesses of Europe is the Princess Yolanda, the King of Italy's eldest daughter. Usually dressed in white serge suits with broad collars, she always looks well; but she is rather precocious, as are many Italian girls, and already shows a truly feminine interest in matters of dress. It is a great joy to her to be allowed to assist in selecting her mother's millinery, and she chooses hats far from the Queen on a most lavish scale, never allowing herself to be trammelled by considerations of expense. Yolanda admires her beautiful mother intensely, and she was present on a public occasion recently when some one remarked to her that the Queen was looking remarkably well. The little girl answered: "My mother is the very handsomest Queen in Europe." After a short pause she added: "And I am going to be exactly like her."

The resemblance between mother and daughter is most striking.

Nothing is more amusing that to watch on a winter's day the marvelous intelligence with which the pigeons of St. Mark's, in Venice, can discriminate between residents and visitors in the grand square of that city, the Piazza of St. Mark. The moment a stranger shows his face in the piazza the pigeons set upon him in crowds, hoping to be fed. They do not trouble the natives, who may be sunning themselves by the hundred in the square.

STOOD THE TEST. Dr. McTavish, of Edinburgh, was something of a ventriloquist, and it being that he wanted a lad to assist in the surgery, who must necessarily be of strong nerves. He received several applications, and when telling a lad what the duties were, in order to test his nerves, he would say, while pointing to a grinning skeleton standing upright in a corner, "Part of your work would be to feed the skeleton there, and while you are here you may as well have a try to do so."

A few lads would consent to a trial, and received a basin of hot gruel and a spoon. While they were pouring the hot mess into the skull, the doctor would throw his voice so as to make it appear to proceed from the jaws of the bony customer, and gurgle out, "Br-r-r-r-h-h-h! that's hot!"

This was too much, and, without exception, the lads dropped the basin and bolted. The doctor began to despair of ever getting a suitable helmsman until a small boy came and was given the gruel and spoon.

After the first spoonful the skeleton appeared to say: "Gr-r-r-h-h-h! that's hot!"

Shovelling in the scalding gruel as fast as ever, the lad rasped the skull and impatiently r-torted: "Well, how it can't yer, ver, ver, ver!"

The doctor sat down in his chair and fairly roared, but when he came to be engaged the lad on the spot.

We were showing the Superintendent of a large manufacturing concern a sample of our PUTTYLESS SASH. He knows a good thing when he sees it and he immediately stated that he would specify our sash in all extensions to his plant. And then he called our attention to the windows in his factory which had once upon a time been glazed with putty. But the putty was gone and we asked what kept the glass from falling out. He replied that it was "FORCE OF HABIT".

Is the glass kept in your windows by "force of habit"? If it is there is just one sane thing to do. Replace them with new PUTTYLESS WINDOWS. They are neat, clean and tight. No ragged unsightly putty to spoil the appearance of your house.

The glazing in a Puttyless Window CAN'T come out. Write for small Sample Sash and particulars.

 Business is rushing at the Standard Box Factory, and large numbers of butter boxes are being made and shipped. A visit to this factory would surprise many who do not know what a hive of industry it is, and how rapidly the boxes are turned out.
 Rev. G. A. Woodside, M.A., of Brantford, Ont., and Mrs. E. O. MacGinnis, of Moose Jaw, Sask., are visiting at the home of their brother, J. Henry Woodside, Far View Farm.

MR. HERBERT VISITS THE WEST
 Ex-Mayor D. L. Herbert has returned from an interesting trip to the West. He has visited the Edmonton and South Calgary districts and in conversation with the "Record" stated he has never seen any better crops than are in that part. It is 20 years since he was out there, and all the land that was then thought to be useless is now under cultivation.
 "A large portion of the land is being summer fallowed," said Mr. Herbert, "and although that country is inclined to be dry, this year they have had a good rainfall."
 "The railway bridge into Edmonton is finished and a lot of double tracking is being done. The money market," he concluded, "is rather tight at present."

SUCCESSION ACT BEFORE THE PRIVY COUNCIL.
 London, Eng., July 24.—Judgment was reserved by the Privy Council after argument had been heard in the case of Cotton and another versus the King. The point involved is whether the Quebec Succession Duty Act imposing a tax in respect of property situated outside the province of persons domiciled in the province at their death is ultra vires. Special leave to appeal and cross-appeal had been granted.

LIBRARY NEWS.
 A meeting of the Library Committee was held on Tuesday, when it was decided to purchase some new books for the lending department. Commencing today, this department will be closed Thursday evenings, but will be open on Saturday evenings instead. Hereafter books may be borrowed on Tuesday evenings and Saturday afternoons and evenings.

MOVEMENT FOR NEW SIDEWALK.
 A petition is being circulated among the residents on the west side of Main Street for a new side walk to be laid from the Methodist Church to the new school. Judging from the large number of signatures, it is probable that the work will soon be commenced.

A GOOD HAIL.
 A fishing party composed of Messrs. R. C. McFadden, A. P. Blue and C. G. Wiggitt had a very successful time at Christmas Brook, Compton County, last week-end. Altogether the trio landed no less than 493 trout.
 Mr. A. P. Blue had an exciting encounter with a bear, but fortunately escaped any serious injury after a plucky fight.

WHERE IS THE BAND?
 Much disappointment is felt among the music loving population of Lennoxville at the non-appearance of the band. Although the bandstand has been put into good shape, no concerts have been given this year. In former years the band performances were frequent in the summer time and attracted many hundreds of people, including a large number from Sherbrooke. It is hoped that arrangements will speedily be made for a revival of these enjoyable concerts.

SUCCESSFUL BREEDERS.
 Two horses on Mr. W. Reed's farm which are owned by the Sherbrooke Stock Breeding Syndicate are having a very successful season, which tends

to show the keen interest the farmers are taking in these animals in an effort to improve their live stock. They are the best heavy draught stallions, regardless of breed, that have ever been seen in the Eastern Townships.

RENOVATION OF BISHOP'S COLLEGE SCHOOL.
 Advantage is being taken of the summer vacation to lay new floors and do other necessary repairs at Bishop's College School. Painting and plastering is being proceeded with, the lawns are being trimmed, and everything is being put into good shape for the re-opening in September.

ORGANIZATION OF SEED CENTRES.
 Mr. L. S. Newman of the Seed Division at Ottawa, who is addressing a gathering at Cookshire on August 11th, is expected to visit Lennoxville the following day. A meeting for the academy boys will be held on a demonstration plot near the town in the afternoon, and in the evening Mr. Newman will deliver a lecture to the Lennoxville Farmer's Club in the Town Hall on "The Organization of Seed Centres for the growing of pedigree grains."

LATE GEO. GOSSELIN.
 The death occurred on Monday morning, of George Gosselin of Main St., after a long illness. Early in the winter the deceased who was only 15 or 16 years of age underwent an operation, and had been gradually sinking until the end came. The funeral took place yesterday morning and much sympathy is felt for the bereaved family.

THE SHEEP INDUSTRY.
 Professor Barton of Macdonald College will next week visit the counties of Sherbrooke, Compton and Stanstead in the interests of the sheep industry. He will be at Lennoxville on Tuesday the 29th, inst., and plans to put out flocks of Cheviot sheep among some of the farmers in an effort to get this breed introduced into Quebec Province. The Professor is himself a Cheviot enthusiast.

Build of Brick

As insurance men use the word "risk," it is merely a cold-blooded business term. The man who owns a house and lives in it uses the word in the original sense. Safety must come before everything else. As fire is practically the only destructive agency to be feared, the question becomes: Is the house safe from fire?

Is it made of such material that wife and children may be smothered in their beds almost before they awake? Or is it built so as to give the maximum of security? All of us have to live in houses, even if we don't own our own, and these are questions which touch every man.

Nor are they questions which need cause much puzzling. Expert opinion is agreed on two facts: First, that a frame house is the most easily and quickly burned; second, that a brick house approaches more closely than any other the "absolutely fire-proof" ideal.

Brick is made by fire. In the progress of manufacture it is subjected to a heat of at least 2,000 degrees Fahrenheit. It cannot burn. If brickwork ever gives way it is due to some powerful mechanical force—falling timbers, or explosion, or earthquake—never fire.

SUNDAY SCHOOL WORKERS CONFERENCE

Leaders in the Work Give Interesting and Instructive Addresses

MONTREAL. PRESBYTERY HAS SENT A DELEGATE FROM EACH SCHOOL WITHIN ITS BOUNDS.

Knowlton, July 24.—(Special)—The Twelfth Annual Conference of Sunday School Workers opened at Knowlton on Sunday last with a service for children in the afternoon. A fairly large number of boys and girls were in attendance to hear Miss Edna Earle Cole of Ohio, and listened for about an hour to a most interesting talk in which she showed herself master of the art of conveying religious and moral truths through the medium of stories most easily understood by the youngest present and thoroughly enjoyed by the older ones.

The school proper opened on Monday morning with the largest attendance in the history of the Conference. A factor contributing largely to this record attendance was the offer made by the Montreal Presbytery to pay the entertainment of one delegate from each school in the Presbytery. This fact has greatly strengthened the character of the student body.

The Conference has been very fortunate this year in securing the Rev. Alex. MacGillivray, D. D., Chairman of the Sabbath School Board of the Presbyterian Church and Pastor of Bonar Presbyterian Church, Toronto, whose school has the distinction of being the largest Presbyterian Sunday School in Canada with an enrollment of over twelve hundred. Dr. MacGillivray will deliver the address at the morning sessions on Friday and Saturday, the first being on "Missionary Instruction and Giving in the Sunday School" and "Sabbath School Evangelism." The outstanding points to be dealt with on Friday will be Education, Prayer, Service and Gifts, and in the Saturday address "Decision for Christ the end of all Teaching" and "Training for Christian Service."

Dr. MacGillivray will also deliver the address at the evening session Friday, the theme of which will be "Possessed Possessions," dealing with the Physical, Intellectual and Spiritual being of man.

On Saturday evening Mr. E. M. Brown will give one of his interesting "Chalk Talks," demonstrating the practicability of using the blackboard as a help in Story Telling.

The Rev. Edgar T. Capel, the President of the Conference, is giving a series of morning addresses at the Devotional Period from 8.45 to 9.15 a. m., presenting the study of the Lord Jesus in the light of the titles given Him in Holy Scripture. He has already presented the names of "Almighty," "Jesus," "The Bread of Life," and "The Light of the World." The remaining subjects of the series are: "The True Vine" and "Sanctification." These morning periods are proving most inspiring and helpful.

The group Study Classes are being led by Miss Cole for the Elementary Grades and Mr. W. Randolph Burgess for the Intermediate and Senior. The attendance at both these classes is large and the interest manifested by the students promises a high standard of work to be presented to the Faculty, for which certificates will be issued.

The Rev. E. M. Fuller is giving a series of addresses from 10.15 to 11.15 a. m. on "Child Training in the Home," which seem to be very popular, if one may judge by the interest shown.

Mr. E. W. Brown of Boston, who won so large a place for himself at the Knowlton School last summer, is obtaining an even stronger hold upon the students this year in his demonstrations of the possibilities of illustrating truth with pad or blackboard.

On Monday evening an informal reception was given by the officers and faculty of the Conference to the students and others. A short musical programme was rendered and then the entire membership was divided into two parties, one under the leadership of Mr. J. R. Ferguson and the other under Mr. Albert Clarke, both of Montreal. All recreation and matters of entertainment are to be carried on in a competitive spirit by these parties, which promises to add largely to the enjoyment of the students. The excitement is running high and the school spirit is most excellent.

The Class work finishes with the morning sessions on Saturday, July 26th, and the last service of the School will be held on Sunday the 27th, in the Grove at 2.30 in the afternoon, for which a strong programme is being prepared by the various leaders at the Conference.

PRESENTATION TO MR. J. W. BEARDER

Recipient of Cabinet of Silver From St. Peter's Church Choir

REGRET EXPRESSED AT DEPARTURE OF ORGANIST TO FILL SIMILAR POSITION IN OTTAWA CHURCH.

Members of St. Peter's Church choir who were in town met last evening at the Church Hall, after evening service, to present Mr. J. W. Bearder, F.R.S.O., who is shortly leaving Sherbrooke to assume a new position in All Saints' Church, Ottawa, and Mrs. Bearder with a handsome oak cabinet of table silver, presented by the choir. Lt.-Col. Fraser, a member of the choir for many years, spoke of their deep regret at Mr. Bearder's departure, and of the deep and sincere respect, admiration and affection which he had inspired during the years he had been with them. Sooner or later, of course, they had known it was inevitable that Mr. Bearder would be called to some broader work, with larger scope than he could find in Sherbrooke, and they trusted in his new sphere he would meet with the same success. On behalf of the choir he wished Mr. and Mrs. Bearder God speed and happiness. The gift they were presenting was but a slight token of their good wishes and esteem.

Mr. Bearder spoke very feelingly in reply, thanking all the members of the choir and Col. Fraser for his kind remarks. The friends he had made in Sherbrooke on his arrival were dearer to him every year, and he and Mrs. Bearder would always think of this little city as their Canadian home. Since he had been in Sherbrooke he had been urged many times to settle either in Montreal or one of the Ontario cities, but he had repeatedly refused. However, he felt perhaps he should be in a larger place, and his friends in the profession thought that Ottawa, being, as it were, between Montreal and Toronto, would be most suitable. He had enjoyed his life in Sherbrooke in every way and found it very hard to leave. Refreshments were furnished by the ladies and a pleasant hour was spent. Besides Mr. and Mrs. Bearder, those present were Mrs. Bowen, Gustafson, Reginald Smith, Hugh Tomlinson, Wm. Morris and Misses Taylor, Moe, Edgell and H. Lawrence, Rev. Mr. Moorhead, Rev. Mr. Hobart, Lt.-Col. H. R. Fraser, Messrs. Price, Colwill, Stewart, Saunders, Matthews, J. T. Matthews, Francis, Hoyle, Danby, E. C. Fraser, C. H. Bowen, James and Grigson.

Lt.-Col. Fraser, a member of the choir for many years, spoke of their deep regret at Mr. Bearder's departure, and of the deep and sincere respect, admiration and affection which he had inspired during the years he had been with them. Sooner or later, of course, they had known it was inevitable that Mr. Bearder would be called to some broader work, with larger scope than he could find in Sherbrooke, and they trusted in his new sphere he would meet with the same success. On behalf of the choir he wished Mr. and Mrs. Bearder God speed and happiness. The gift they were presenting was but a slight token of their good wishes and esteem.

THREE YEARS FOR LAWYER

ARTHUR NEWTON, WHO DEFENDED DR. CRIPPEN, FOUND GUILTY OF CONSPIRACY.

London, July 24.—A three years' term of penal servitude was imposed yesterday at the Old Bailey Sessions on Arthur Newton, the lawyer who came into prominence during the trial of Dr. Crippen for murder. He was charged with conspiracy to defraud Dr. Hans Thorsch, a wealthy young citizen of Vienna, out of \$115,000 by false pretences in 1911 and 1912.

Newton's companion, Berkeley Bernard Bennett, was sentenced at the same time to eighteen months' hard labor. The judge characterized the prisoners' action as a gross conspiracy to defraud Thorsch.

In the course of the testimony it was shown that Thorsch was induced by the conspirators to part with his fortune on the pretence that it was to be invested for him, and the investments chosen were "wildcat" schemes.

MALE SUFFRAGIST GETS TWELVE MONTHS.
Leeds, England, July 24.—Harry Johnson, a male suffragette sympathizer, was yesterday sentenced to twelve months' imprisonment for firing buildings at Doncaster.

BOARD OF TRADE FOR COWANSVILLE

Preliminary Steps Taken to Form Such Organization

MEETING WILL BE HELD LATER TO ELECT OFFICERS AND ADOPT BY-LAWS.

Cowansville, July 24.—(Special)—After frequent suggestions re having a Board of Trade for Cowansville, a preliminary meeting with that end in view was held in the Council Chambers on the evening of Tuesday.

Mr. W. G. Brown, "The Hub," was chosen chairman of the meeting, and Mr. Geo. S. Walsh, manager of the Molsons Bank, secretary. It was the unanimous feeling of the business men present that a Board of Trade should be formed and the chairman and secretary were instructed to canvass the business men of the village to secure the necessary number of names. When the canvass is completed a public meeting will be held to elect officers and transact any business necessary to make the board a success from the start.

KING LAYS FOUNDATION STONE

NEW AUSTRALIAN COMMONWEALTH BUILDING TO BE ERECTED IN LONDON.

London, July 24.—(Special)—The King to-day laid the foundation stone for the new Australian Commonwealth buildings which are to be erected on the Strand at Aldwych. The building, which is to be an imposing edifice from an architectural point of view, is to house the offices of the high commissioners of the Commonwealth and the Agents-General of the several Australian States in London. It is also to serve as headquarters of the immigration scheme in which New South Wales and Victoria have just amalgamated, and it is expected that ultimately all emigration to Australia will be conducted entirely from this centre.

SIR WILFRID IN TORONTO.
Toronto, July 24.—Sir Wilfrid Laurier arrived in town from Ottawa yesterday and is at the King Edward Hotel. Following his invariable custom, the Liberal leader declined to talk for publication, and nothing is known of the object of his visit except his own statement that he is here for a holiday.
The Hon. G. P. Graham is also in the city.

KEEN CONTEST AT SCOTSTOWN

Electors Are Voting For Election of Member to Council

CANDIDATES ARE MESSRS. ANGUS MacKENZIE AND F. X. GREGOIRE.

Scotstown, July 24.—(Special)—The voting to elect a new councillor was rather slow yesterday. There did not seem to be much interest manifested in the voting until near the close of the poll, when a number came about time to close and demanded time to vote, so there will be another day of voting.

The candidates, which are Messrs. Angus MacKenzie and Mr. F. X. Gregoire, paid a visit to the poll a few times to see how things were going. At 5 o'clock Mr. F. X. Gregoire was twelve votes in the lead, but it is thought that Mr. MacKenzie's friends are holding back to to-day.

Later—Both sides are organized and to-day will witness a big fight. GREGOIRE FALLING BEHIND.
Scotstown, July 24.—(Special)—Mr. Gregoire is now four ahead. Very few voted for him this morning and Mr. MacKenzie has gained considerably. The contest this afternoon is expected to be quite sharp.

CROPS GOOD AROUND STANBRIDGE EAST

Hay Yield is of Extra Good Quality and Above Average

FRATERNAL VISIT PAID TO MAJONIC LODGE, TWO MINOR ACCIDENTS REPORTED.

Stanbridge East, July 24.—(Special)—Farmers here are well into the haying this week, and nearly all of them report a large yield. Mr. C. E. Blinn reports a large crop of hay of extra good quality, free from weeds. He also says that his other crops are fine. Mr. S. P. Knight also reports his crops as being in good condition, especially corn. Mr. J. T. Dufresne reports that his hay is better than last year, and that his oats, corn and potatoes are all growing fine. He has been using new potatoes for several days. The crops on the Manor Stock Farm, which is carried on by Mr. W. H. Hanson, are showing up in good shape also. Mr. R. Boomhower has an extra hay crop.

There are many other prominent farmers who are all expecting an extra good yield from their crops. HORSES WERE QUIET.
When Mr. M. Callaghan was returning from drawing the cream on Tuesday a chain was dragging which was fastened to the wagon box, and this caught on a rail at the railroad crossing, holding the box solid as the wagon was pulled out from under it by the horses. Mr. Callaghan was thrown from the seat between the horses, but escaped serious injury, as the horses were quiet and stopped when he spoke to them.

ONLY A FEW BRUISES.
As Mr. R. Boomhower was coming to the village on his wheel at the Rhicard corner he was making good speed, and when he tried to turn it caught some way and did not turn, but went straight ahead, jumping the ditch and throwing him into Mr. G. Stanton's yard. Only a few bruises resulted from the accident.

PAID FRATERNAL VISIT.
Among those visiting Stanbridge East Lodge, No. 19, A.F. & A.M., at their recent meeting when the third degree was exemplified were Messrs. G. W. Johnson, W. J. Bell, Rev. M. Brundage, Geo. SUFFERED FROM FRIEDMANN TREATMENT.
Montreal, July 24.—Dr. E. S. Harding of the Royal Edward Institute, when asked about a statement in the London "Lancet" expressed doubt whether one of the patients treated here by Dr. Friedmann had not developed primary tuberculosis of the muscles following the treatment, replied that of the 160 patients treated in Canada there had been two or three whose doctors thought they had suffered by the treatment. The treatment as a whole was a failure, and recourse was now had to the former regular treatment. Dr. Friedmann and his serum were now only a matter of history.
