BRIEF NOTES OF THE NEWS.

A Young Liberal Club was organized at Metcalf, Ont., near Ottawa on Tuesday night, by Mr. Charles Murphy, of the Ontario Federation of Liberal Clubs. The officers elected were: A. McDonald, president; Dr. Morrow, secretary-treasurer; James Layton, corresponding secretary. Nine vice-presidents, representing each of the polling subdivisions in the township, were chosen, their duty being to establish branch clubs in each of the particular sections.

Three toll-gates and the keeper's residences have been burned about Windsor, Ont., by those who object to pay toll. The protestors are farmers, it is alleged. A score of them disguised removed the keepers' goods and chattels and then burned their houses. The points of attack were the Essex, Maidstone and Oldcastle gates. One toll-gate still remains uninjured.

Forest fires are raging in British Columbia. Alberni ranchers (Vancouver Island) are in danger. Mineral Hill is a mass of fire. The Duke of York Hydraulic mine lost stables, blacksmith shop, assay office and 75,000 feet of lumber. Outside of Vancouver the air is full of smoke. Narrow escapes are reported, but no loss of life.

The promised British Blue Book on Venezuela is issued. An official summary is prefixed which claims that the documents attached prove that for over two centuries prior to 1796 the Dutch controlled the territory which is now disputed, and that their control was recognized by the Spaniards.

The defeat of the British Government in Clause 24 of the Irish Land Bill, was totally unforseen, and is ascribed to the absence of many of the Ministerial members at the royal wedding. Of course the Government will not resign on such a division.

The Grenville brewery, near Prescott, Ont., on fire yesterday, was completely gutted before the fire was put out. The place was fully insured. When the Ogdensburg bridage arrived the fire was out.

An effort is to be made by the Brockville cheese men to see if they cannot dispose of their product without the middleman. A representative is going to England to see what can be done.

W. Clive, a Port Huron, Mich., lawyer, was drowned near Stag Island in Lake St. Clair, on Wednesday by the capsizing of a boat. His three companions escaped. They were fishing.

Francis Belanger, engineer on the steamer Reliance, was drawn into the wheel box and killed at L'Orignal, Ont., while the boat was at the wharf getting ready to start for Ottawa.

John D. Rockfeller, of Chicago, the oil magnate, has just given the city of Cleveland $1,000,000 as a centennial gift in commemoration of the celebration going on there.

The remains of Mrs. Youmans, the celebrated temperance worker, arrived at Picton, Ont., Wednesday. The funeral service was held in the first Methodist Church.

A. Burrows, of Smith's Falls, Ont., has arranged for 2000 head of steers to be sent to France. There is no embargo on cattle to that country.

There is talk at Ottawa of a small bicycle corps being added to the Police department for running down sprinting and driving peddlers.

A contract has been let for the floating of the steamer Wildcraft, ashore at Port La Tour, N.S. She will be placed in dry dock at Halifax.

A valuable oil well has been struck a mile east of Leamington, Ont., declared better in quality than that found near Petrolia.

It is announced that Cornelius Vanderbilt, sr., has passed the danger point of his illness and is on the high road to recovery.

The Rideau ranges are now undergoing the necessary changes preparatory to the Dominion Rifle Association meet next month.

The Hartford, Conn., Militia Company, to the number of about 200, will visit Quebec in September.

John Wilson, a Lanark Co., Ont., man, manager of the Brunette Mills at New Westminster, B.C., is dead.

M. Spuller, the French senator and statesman, is dying at Dijon.

DRIVEN OUT TO SEA.

Toronto, July 23.—(Special.)— During the gale last night a skiff containing a young man named William Darby and Miss Jennie Thompson, was driven out into the lake. No tidings have since been received of them, and it is feared they are drowned.

Port Hope, Ont., July 23.—About nine o'clock last night, while out boating, George Stott and Miss Mabel Glidden, of this town, were caught in the heavy north-westerly gale which sprang up suddenly and were blown out into the lake. Searching parties have been on the lake all night, but have found no trace of them. All the ports on the New York shore have been notified.

Port Dalhousie, Ont., July 23. — A young couple, the man aged about 21 and the young lady about 18, was picked up at seven o'clock this morning by the steamer Canistee, about thirty-five miles below Toronto, from an open skiff. They had drifted from Victoria Park last evening. They are now on board the steamer Empress of India, bound for Toronto. They had a terrible night. The captain was over three hours taking them from their small skiff. It was a miraculous escape, and too much praise cannot be given to the captain and crew of the Canistee for rescuing them from such a perilous condition.

GREAT RAINS.

Kansas City, Mo., July 23.— Southern Kansas and Southern and Western Missouri have within the last thirty-six hours experienced the heaviest rains for years and considerable damage will result.

EGYPT IS BRITAIN'S CARE

Prince Bismarck on the European Situation.

THE DESIGNS OF FRANCE AND RUSSIA.

The Prince Alleges That England is Anxious.

London, July 23.—A despatch from Hamburg says that the following is an authorized expression of Prince Bismarck's views on the pending European crisis:

"The English policy is governed by anxiety about the conflict which England must fight out with Russia and France. France is striving for the Soudan and Russia for India, and as England is their common antagonist in these aspirations they are natural allies even without a treaty.

"Egypt is of great strategic importance to England's position both in the Soudan and India, and is, therefore, now the pivot of British policy, the anxieties of which have been not a little enhanced by Russia's recent attitude toward the Egpytian question.

"England will not give up Egypt, but does not feel herself a match for Russia and France, and is therefore casting about for help, hitherto, and let us hope in the future, in vain, so far as Germany and Austria-Hungary are concerned.

"But the British are tormented by another anxiety. They no longer believe in the unassailability of their European island empire, for whereas many things have changed elsewhere in the last decade, England's system of defence is still the same as in Wellington's time. It suffices for her non-European countries. In view of the world-wide extent of her interests, she must have more ships on foreign coasts than Russia and France. But the power or powers which preponderage where the conflict must be decided, that is, in the English Channel and the North Sea, will be victorious.

"The French Channel fleet alone is already a match for the English, and its junction with the Russian Baltic fleet would put an end to England's superiority in the waters in which the conflict must be decided.

"Add to this that her insular position involves the danger of England being starved out by an enemy, so that she must unconditionally surrender if a victorious hostile fleet should succeed in cutting off her supplies.

"England has not ignored this danger, and is, therefore, working diligently at the task of increasing her navy to such an extent that it will be superior under all circumstances. If she maintains her superiority at sea, her antagonists must try to convert the sea war as quickly as possible into a land war, and to seek a decision where all the nerves of the world-wide empire meet —that is, in London."

TRIED TO SHOOT HIS WIFE.

Cobourg, Ont., July 23.—Early this morning Lewis Taylor, a man about 50 years of age, attempted to shoot his wife. Some days ago he left home looking for work. Early this morning he returned to his home, and opening the shutters of his wife's bedroom, he attempted to enter. His wife told him not to come in, whereupon he drew a revolver and fired at her. The bullet struck her left hand. Taylor it is thought tried to frighten his wife into giving him some money which he thought she had. He has cleared out.

THE GREAT TAILORS' STRIKE.

New York, July 23.—(Special.)—According to the latest reports yesterday, 420 of the 600 tailor shops, employing 6000 operators, in this city, are practically tied up. A similar condition of affairs prevails in Brooklyn, and Brownsville, where at least 6000 hands have voluntarily quit work. Two thousand of the New York tailors did not go out until six o'clock last night, as they had not learned of the order to strike until the afternoon. Perfect order prevails.

PRIZE FIGHT NEAR CORNWALL.

(Special to the Star.)

Cornwall, July 23.—About two score of local sports last night witnessed a fight to a finish between George (Brownrigg, of Cornwall, formerly of Montreal, and "Billy" Wilson, formerly of Rouse's Point. It took place across the line. The "pugs" and their friends crossed the river from here to Hogansburg, N. Y., in a steamer, and on the high road near that Indian village formed a ring. By the light of lanterns and torches the fight took place. Brownrigg, although considerably lighter than his opponent, had the best of the fray throughout. He drew blood in the second round, and knocked his man out in the middle of the fourth round by a stiff right-hander on the jaw. A large number of Indians from the neighborhood of Hogansburg were present, being attracted to the scene by the glare of the torches, and seemed to appreciate what they saw.

POPULISTS AND SILVERITES.

Bryan's Friends Hope the Former Will Endorse Their Man.

St. Louis, Mo., July 23.—The leading members of the Populist party are generally agreed that their national platform shall follow closely the lines of the Omaha platform adopted four years ago. It demands free coinage of silver, a graduated income tax, Government control of railroads, telegraphs and telephones, and the prohibition of alien ownership of lands.

The Bryan Steering Committee find that a sufficient number of votes are pledged to their candidate to insure his nomination on the first ballot.

The Populist and Silver conventions were launched yesterday, but neither made much headway. The programme of the Silver convention had been arranged in advance. It included simply the adoption of a 16 to 1 platform and the nomination of Bryan and Sewall, but those in charge of it deemed it good policy to go slowly, in the belief that they might, by remaining in session, be able to exercise an influence in shaping things in the Populist convention. To this end they appointed a committee of seven, to meet with a similar committee from the Populists for the purpose of reaching a common plan of action.

The first session of the Populist convention yesterday was disappointing to those who anticipated relentless, bitter war from the drop of the gavel, and it was a disappointment to those who imagined that the galleries would swarm with people, drawn thither either by curiosity or sympathy with the deliberations of the convention.

There was no wild cat fighting, and the galleries, which will hold 12,000, were practically an empty waste. Not more than 600 spectators at a liberal estimate were in the balconies. The floor where the delegates were gathered was in some respects crowded with as unique an assemblage as was ever massed under one roof. A single glance showed that they represented the common people—a term in which they glory —that they came from the farm, the mine the workshop and the factory. They discarded conventionalities. Fully half of them sat in their shirt sleeves with their coats slung over the backs of the chairs. Among them were many picturesque personalities—men who have been known as agitators and reformers for years were there, but there were also many whose ability and force of character have given them high stations. The appearance of several women delegates on the floor was a novel feature in a national political gathering. The press benches usually occupied by the representatives of the big dailies were largely given over to the editors of the weekly reform papers. The day's session, which lasted about an hour and a half, developed nothing.

The committee on credentials was not able to report last night, and owing to an accident to the wires there was no light in the hall. So the convention took a recess until 10 o'clock this morning.

Butte, Mont., July 23.— The Mountain Republican is out with a repudiation of the McKinley and Hobart ticket and declares for Bryan and Sewall on the silver question. The Madisonian, of Virginia City, the oldest Republican paper in the State, also declares for Bryan and Sewall.

New York, July 23.— The State Committee of the Democratic party reform organization last night adopted a resolution that will be telegraphed to the Democratic leaders, who are expected to confer in Chicago to-day. It recites that a committee of seven be appointed to represent the Democratic party reform organization in conference with Democrats in other States as to what steps should be taken to bring about, by Democratic action, the preservation of Democratic principles and the restoration of the Democracy to its rightful moral and political weight in the Union.

WILL DEBATE ARBITRATION, ETC.

London, July 23.—(Special.)—The Standard, the Conservative organ states, this morning, that the Opposition in Parliament intends to raise a debate over the Venezuela question, and over the negotiations with the United States for an arbitration treaty, following the lines suggested by Sir William Vernon Harcourt, the leader of the Opposition in his remarks in Parliament expressing the view that Lord Salisbury had invited an expression by Parliament on these questions by submitting to them the correspondence thus far conducted.

RESPONSIBLE FOR TREASON.

Constantinople, July 23.—(Special.)—An imperial irade has been issued, notifying the council of Armenia and the Patriarchate that they will be held responsible hereafter for any treason on the part of the Armenians.

GOLD COING INTO CANADA.

Canadian Managers in New York Reticent Abot it.

SOME TALK REGARDING THE RESERVE FILTERING.

Regarded Only as a Temporary Stop Gap.

(Special to the Star.)

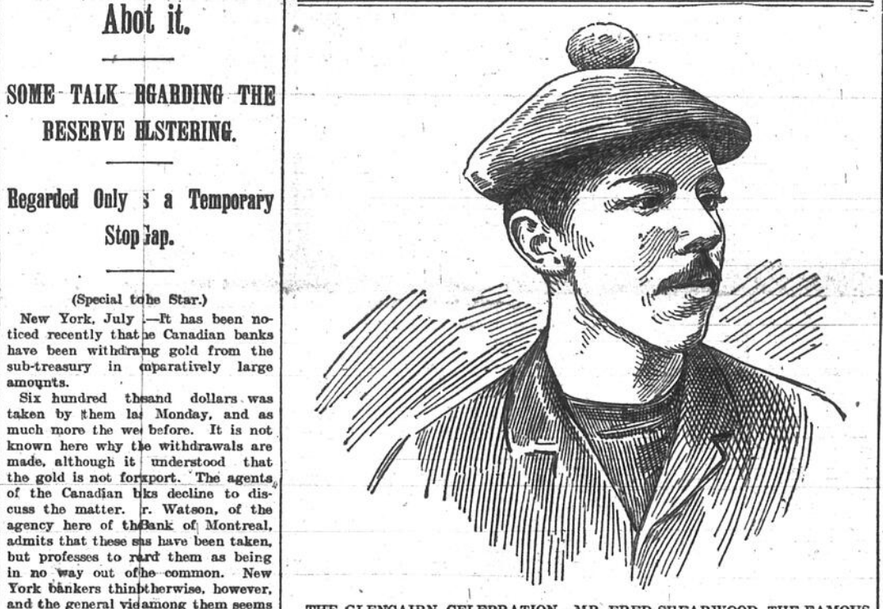

New York, July —It has been noticed recently that the Canadian banks have been withdrawing gold from the sub-treasury in comparatively large amounts.

Six hundred thsand dollars was taken by them last Monday, and as much more the week before. It is not known here why the withdrawals are made, although it is understood that the gold is not for export. The agents of the Canadian banks decline to discuss the matter. Mr. Watson, of the agency here of the Bank of Montreal, admits that these sums have been taken, but professes to regard them as being in no way out of the common. New York bankers think otherwise, however, and the general view among them seems to be that affairs in Canada have given the banks there no reason for increasing their supplies of the yellow metal.

The action of the leading banks in the Clearing House Association, in agreeing to contribute each of their gold to make good the $1000,000 of treasury gold, has, on the whole, had a reassuring effect, although there is no unanimity of feeling out the wisdom of the step. The ailment on which it was taken is that may enable the Government to go along without a new loan before a Presidential election. No one aims that it is any more than a stopgap. What some of the bankers hope that it will serve to stop the gap the reserve long enough to tide over the time between now and the mid of August, when gold exports are likly to be checked by natural causes, namely, the beginning of the export cotton movement, then due. They admit that their action may not have this effect, in which case they acknowledge that the Government will have no resource but to issue more bonds.

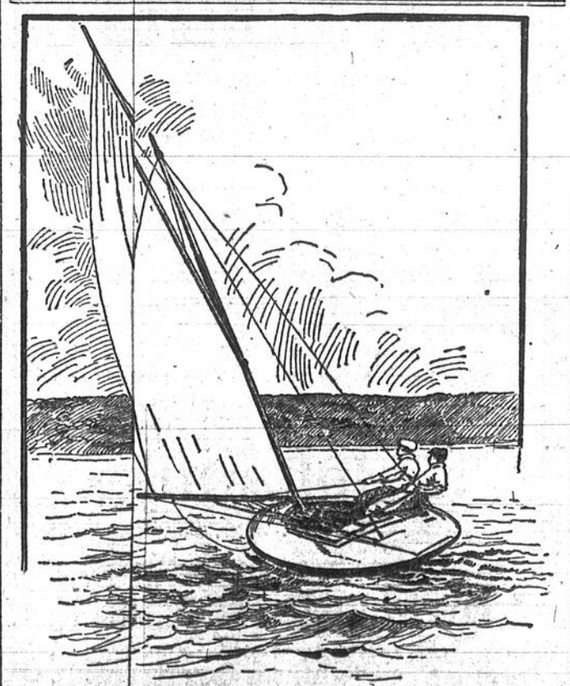

They think, however, that such an issue would be used with great effect against the sound money party at the polls in November, and that, therefore, it was worth taking the chance. Everything, they admit, depends on the extent to which confidence is restored by the re-establishment of the reserve. Those who think the action was ill-advised say that it cannot fail to result in fresh alarm. Their idea is that it may aggrevate the very alarm it is intended to allay. This notion is based on the theory that the gold reserve was not dangerously low when the banks agreed to replenish it, and that such a step could only draw attention to the weak condition of the country's credit, which is thus made dependent on private enterprise for its integrity.

These latter views do not by any means prevail, however. It is known that such eminent financiers as J. Pierpont Morgan were among those who advised the banks to act as they did, and everyone is aware that he would not give advice that is contrary to sound practice and good principle. Mr. Morgan does not assert, however, that the Government will not be called upon to issue more bonds before election. He only goes so far as to express the hope that this action will make such an issue unnecessary. He says without reserve, too, that if the transfer of gold from the banks to the treasury fails to restore confidence, Mr. Cleveland will be obliged to make a new loan. This, Mr. Morgan says, could be done without serious difficulty.

TOILETS AT THE WEDDING.

The Queen Soberly Attired—Other and Gayer Costumes.

London, July 23.—At the royal wedding yesterday the Queen walked into the Chapel Royal, at Buckingham Palace, leaning heavily on the arm of Prince Christian of Denmark, and was conducted to a chair at the left of and facing the altar. Her Majesty was dressed in black silk and wore the ribbon of the Order of the Garter and other decorations. A white lace veil, surmounted with a diamond tiara, covered her head.

The Princess of Wales wore a gown of rich white silk with silver embroidery around the neck. Her hair was dressed in exquisite taste and liberally set off with diamonds.

The Duchess of Sparta wore a gown of white and silver brocade, and a magnificent diamond tiara tipped with white pearls.

The gown worn by the Duchess of York was of white brocade silk, the bodice trimmed with pointe d'Alencon lace. She also wore a tiara of diamonds and pearls.

Mrs. Joseph Chamberlain wore white satin, the bodice being almost veiled with white chiffon.

Miss Yznaga wore a dress of striped chine glace silk, the bodice having a white Marie Antoinette fichu.

When the royal bridal couple arrived at Wolverton from London there were thousands of people there to meet them at the station, and as they drove to Appleton House, where they are to spend the honeymoon, the people gave many enthusiastic expressions of loyalty and interest.

THE CLEVELAND STRIKERS

Will Boycott Firms that Employ Members of the Militia.

Cleveland, Ohio, July 23.—The Central Labor Union met last night to discuss the Brown strike. After radical speeches had been made, it was decided by a unanimous vote to boycott every firm in Cleveland which furnishes employment to members of the State militia.

A COMMANDER'S HUMILIATION.

Madrid, July 23.—(Special.)—In the Chamber of Deputies yesterday Admiral Jose Maria Beranger, Minister of Marine, made a reply to the Carlist protest against the humiliation of Spain, involved in the dismissal of the commander of the Spanish cruiser Conde de Venadito at the request of the United States, on account of the crusiers having fired upon the American steamer Allianca, off Cape Maysi, Cuba. Admiral Beranger said that the commander had not been dismissed, but had simply been relieved from his command, which he only held temporarily.

MR. PRINGLE DEAD.

(Special to the Star.)

Napanee, Ont., July 23.—Allen Pringle died at his residence in the Township of Richmond yesterday after a short illness, aged 55. Deceased was recognized as one of the leading bee keepers of Ontario, and was placed over the honey exhibit at the World's Fair by the Ontario Government. He was a skilful and successful farmer and a deep thinker and logical reasoner, and a contributor to many magazines, both in the United States and Canada.

TO PROSECUTE SMUGGLERS.

Ottawa, Ont., July 23.— Hon. Wm. Paterson, Controller of Customs, has issued orders to have criminal proceedings instituted against a number of seamen suspected of belonging to the crew of a vessel, discovered in the act of landing a contraband cargo at Low Point, C. B., early in July. Chief Preventive Officer Phoran, who came upon the smugglers with his men, was seriously injured in a melee which took place.

A FINE STEAMER SUNK.

New Orleans, Fla., July 23.—The steamboat Tulane, one of the finest of the Mississippi boats, was sunk last evening at Cora plantation, seventy-five miles from here. She was heavily laden, and both the boat and her cargo are a complete loss. The passengers and the crew were landed without loss or injury.

A BICYCLE PATENT SUIT.

SEAS OF FLAMES.

Great Damage in Washington State and British Columbia.

Spokane, Wash., July 23—In the mountains to the north a strong breeze has been the means of fanning the forest fires into raging walls of flame, which are sweeping into the valleys with terrible rapidity.

News from Kalso and points along the Arrow lakes in British Columbia is to the effect that the high wind has fanned the smouldering embers into a fresh blaze, and where the miners thought they were safe, the fire having passed over them, they find themselves surrounded by flames.

In some cases escape is almost impossible, and a number of deaths may be the result.

On the North Fork of the Salmon river nearly all the cabins and shaft houses have been burned, with a large quantity of provisions and tools.

Rossland, B.C., is in danger. The citizens of the town are out in the hills trying to prevent the fire from reaching their homes. Cabins within four miles of the town have been burned.

The United States Forestry Commission estimate the damage in this State at many millions of dollars.

Vancouver, B.C., July 23.—Along the Northern railway between Whatcom and Goshen, bush fires have burned many barns, fences and railroad ties.

At Vancouver last night there were two fires, a house and steamer being burned.

Unless rain comes very soon large large tracts of timber along the Fraser river will be destroyed. Dense smoke has settled down over the seaport towns, and it is with the greatest difficulty navigation can be carried on.

It is believed that several miners have perished in the vicinity of Spokane, Washington.

The bush fires in British Columbia are more extensive and destructive than in any season during the past ten years.

The southern half of Vancouver Island has not seen clear atmosphere for several days. The worst raports of the damage reached this city from Alberni last night. That city is surrounded by one immense fire, which has taken entire possession of "Mineral Hill," a wealthy section. The flames have destroyed all buildings at the Duke of York mine, China Creek, and are now within two or three miles of the town, having burned numerous camps, bridges, etc.

There were many narrow escapes from death. Women and children had to be kept under the piping of the hydraulic mines and drenched with water to prevent them from being scorched.

The damage to property thus far is estimated at over half a million dollars, and the loss on burned timber will reach well into the millions.

METEOR KILLS TWO.

Struck a Cliff in Its Fall—Buried Deep in the Ground.

City of Mexico, July 23.—(Special.)—A remarkable phenomenon at the mine of Santos Reyes, in the State of Chihuahua, occurred yesterday afternoon at 3 o'clock.

A tremendous explosion was heard, and an enormous mass of burning matter was seen to fall from the heavens, striking the side of a mountain and bringing down with it in its course entire cliffs.

It finally plunged into the ground, making a hole from which boiling water still issues.

One of the most singular phenomena observed was the heavy rainfall immediately after the descent of the meteor. The people are very superstitious, as this is one of the many realizations of the prophecies of the vision-seeing girl of Tabasco.

The meteor in falling destroyed the house of a miner, killing his two children.

"It Will Work Wonders With this Generation of Men."

A Startling Advance in Medical Science is fully explained in a little book called "Complete Manhood, and How to Attain it.

An earnest man who had suffered, hesitated, then put it to the test, writes thus:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them that my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

The man was not "made whole" by magic in a day—no man is—but in a moment he saw—KNEW—how he would be in a little while—he "saw the light" before he had finished the first chapter.

Every man who would know the grand truth, the plain facts, the new discoveries of medical science—who would atone for past follies and avoid future pitfalls, should secure this book.

To simple "curiosity seekers," to those whose physical condition is perfect—to those who need no aid—to boys—we say emphatically this book is useless and uninteresting. It is purely medical and scientific, published to make known a system of treatment of incalculable value to men who need it.

If you are looking for something sentimental, frivolous, improper don't waste your time and ours by writing. This is not for you.

If you want advice, wisdom, warning, help, noble manhood—if you want to escape snares, traps, quackery—get this book now.

Write to the Erie Medical Co., 64 Niagara st., Buffalo, N. Y., and ask for copy "Complete Manhood." They will send it sealed in plain envelope entirely free, for a short time. 30srtf

Four Hundred and Eighty Dollars for Nine Short Letters

THE PRIZE LETTERS.

Now that Mr. Laurier, by his assurances to the manufacturers, appears to be making up his mind that the revenue tariff idea should be abandoned, the interest in the prize letter competition, announced in the Star, is creating more and more interest. The Star takes the ground that the American experience of a revenue tariff should act as a danger signal to Canada. It is not a question as to who shall be Premier or whether the Conservatives or Liberals shall govern the country. It is a question of steering the ship away from the rocks. Any competitor who prefers that his letter should not be published should mark it, "not for publication." By reference to the details of the competition in previous issues it will be observed that there are three classes, and the awards of four hundred and eighty dollars in cash will go to the best three letters in the three classes.

The letters should be short, say from four to eight pages of note paper, although an excess of this space will not act as a bar to success. The winning letters will be those considered the most sensible, and success will not depend upon literary style or construction. The questions to be considered are:

1. Is a revenue tariff desirable for Canada?

2. Does the experience of others in departing from a protective to a revenue tariff justify the belief that a revenue tariff would work serious injury to manufacturers, farmers, merchants, artisans and wage-earners generally?

The competition will not be closed before the 30th July.

THE FRESH AIR FUND EXCURSION

ACROSS THE RICHELIEU.

The New Railway Bridge at Sorel Opened.

The new Montreal & Sorel Railway bridge over the Richelieu River, at Sorel, has been opened up to the traffic of the company. The new bridge is 550 feet long, with 1600 feet of trestle work. The steel structure was furnished by the Dominion Bridge Company. There are seven piers. There are 120 piles under the circular pier, all of which were cut off in 32 feet of water. The bridge has one swinging and two fixed spans, and is opened for craft going up and down the Richelieu. It will cost in the neighborhood of $150,000, and was built under Government inspection by Mr. J. M. McCarthy, as chief engineer, and Mr. H. Beauchemin, manager of the South Shore Railway. The road was tested by two locomotives and several cars heavily laden with iron, and the test was most satisfactory. The trains now run right into Sorel. The Company intend pushing their road on to Nicolet.

NEW ENGLAND TO ALBERTA.

Mr. C. O. Swanson, Dominion Immigration agent in the United States, arrived in the city yesterday from New England, in charge of a party of 45 immigrants, mostly adults, bound for Wetaskewin, Alberta, N.W.T., to take possession of the homesteads selected by their delegates last spring. They are practical farmers and take with them a quantity of farm implements.

THE VENEZUELAN QUESTION

By our cable reports we learn that Sir William Harcourt is urging the Government to devote a sitting of the House of Commons to the discussion of the Venezuelan question, as it is affected by the protracted negotiations between the Cabinets of London and Washington, and that Mr. Balfour shows some reluctance in furnishing the opportunity.

That a desire to remove all sources of irritation between the two countries exists on both sides of the House — indeed, except for a fraction, we might say, exists on both sides of the Atlantic, seems increasingly evident; but it is not by any means so clear that a full dress Parliamentary debate will do much to strengthen the hands of the diplomatists upon whom the burthen of bringing matters to a successful issue will rest.

In the first place, only a portion of the official correspondence between the two countries has so far been made public and the report of the American Commissioners to Venezuela has not seen the light, and, moreover, it must be remembered that we are getting perilously near to that fevered period which always characterizes the quadrennial Presidential campaign. Accidentally or carelessly—perhaps even intentionally—it is quite possible some independent, but exuberant orator, will rush in and say things the diplomats on both sides would rather have left unsaid, and a discussion, except upon some definite motion made officially by the Government, can scarcely strengthen Lord Salisbury's hands at the present stage.

It is highly probable that the Prime Minister, considering his experiences at the time of the Sackville-West incident, has purposely refrained from hurrying on its settlement, lest its terms should become a subject for the enterprising machinery of the wire-pulling politician to bring into play during the next three months.

The great object aimed at by the best men and true statesmen of both countries is so important, and its successful accomplishment in laying down an automatic plan of arbitration upon kindred issues, would be so beneficial to trade and commerce as well as so dear to all lovers of peace, that it is to be hoped if any Parliamentary debate does take place, its scope will be carefully limited.

Experience has taught us that little good has ever come from premature discussions upon foreign questions in any chamber elected by popular vote.

The Irish Land Bill, now under discussion is remarkable for its draughtmanship. So many clauses were considered favorable to their views by both sections of the Home Rulers that it was allowed to pass a second reading without a division.

The landlord interest has induced the Government to make some amendments in its favor in their own bill and the fight is being left principally to representatives from the Emerald Isle as is proved by the figures in a division—99 to 86—by which one of the amendments have been carried against the Government.

As so many provisions in the bill are considered favorable to them by all three Irish political sections, their leaders are afraid to so obstruct the measure as to bring about its withdrawal, and its further progress in committee will be watched with interest.

FOR THE GENERAL HOSPITAL.

Mrs. Redpath, of Chiselhurst, Eng., and Mrs. Redpath, of "Terrace Bank," have forwarded $500 and $200, respectively, to the authorities of the Montreal General Hospital to be devoted to the renovation fund of the hospital.

THE OPENING OF PARLIAMENT.

Both the Grand Trunk and the Canadian Pacific Railways anticipate a large influx of sight-seers at Ottawa on the 19th of August, the day on which Parliament opens. Already a number of persons have endeavored to arrange for excursions to Ottawa on this date by the different railways, but in all cases have been refused. Quite recently a syndicate wished to arrange for an excursion over the Grand Trunk and were willing to guarantee eight hundred people, but this proposition was also refused. It is highly probable that a special rate will be made on this day by the railways, but no arrangement has yet been made.

THE GUY STREET CAR SERVICE.

AMENDMENTS TO THE BY-LAW BEFORE THE COUNCIL.

Some of the Aldermen Consider the By-Law Sufficiently Explicit — East Ward Now Said to be Without Fire Protection.

The City Council, at its meeting yesterday, did not transact much business. After the minutes had been read, Ald. Saddler drew attention to the report which had been passed on the Guy street electric car service. This report did not state that No. 14 route should be continued to the top of Cote des Neiges Hill, which he understood to be the intention of the Council.

Ald. Prefontaine, chairman of the Road Committee, explained that the Committee had decided to make two reports. The report of which Ald. Saddler spoke had been prepared to provide for the immediate construction of the lower part of the new line, from Point St. Charles to Sherbrooke street on Guy street. This report had been presented first, because at the time the committee was only satisfied that they could legally compel the Company to build as far as Sherbrooke street, and they did not want to cause a delay while legal opinion was being obtained as to the power of the city to force the Company to build the line as far as the top of Cote des Neiges Hill.

In short, the report in question was a sort of interim report devised to facilitate work on the lower section of the route. This had succeeded, too, for he understood that work on it had been begun yesterday. Since the report had been sent to Council the Road Committee had been assured by the City Attorney that the city had the right to force the company to build to the top of the hill and a report to that effect would be presented to the Council in a few minutes.

Ald. Saddler objected to the changes in the route, holding that it practically altered the service as defined in the by-law, which was legally binding upon the company.

A little later in the meeting of the Road Committee, the report amending the Street Railway by-law so as to force the company to build the line to the top of Cote des Neiges Hill was presented and objected to by Ald. Costigan, who objected to tinkering with the by-law. That document, he claimed, was explicit enough, the plan attached showing the line as running to the top of the hill.

Ald Prefontaine pointed out that if the by-law as amended was passed the City could compel the company to complete the line.

Ald. Beausoleil said that all that was necessary was for the Council to pass a resolution ordering the company to carry out the provisions of the by-law.

On motion of Ald. McBride, it was decided to refer the matter to the City Attorney.

The report of the Fire Committee on the Gamewell Auxiliary Fire Alarm system, which had been sent back for amendment was read. It enacts that the length of time of the franchise to be granted to the company is to be ten years, reckoning from the time of the signing of the agreement; and, further, the city will in no way be held responsible for any changes to street fire alarm boxes, doors, or any other alterations that may be deemed necessary for the installation of the auxiliary system. The Auxiliary Fire Alarm Company shall be obliged to give to the city a bond for $10,000 as a guarantee that they will in no way damage, interfere with, or be detrimental to the city's fire alarm system. Should posts be required for the establishment and proper working of the system, the company will be allowed to place them, subject, however, to the ordinary conditions which other companies erecting posts in the city have to follow.

The report of the Fire Committee on the purchase of a site for No. 7 Station was laid on the table. The committee also reported on the acquiring of a temporary site for No. 7, at a cost of not more than $500.

Ald. Marsolais, acting chairman of the Fire Committee, moved urgency in this matter. The present station was now untenantable, as a matter of fact, the engine and reel being now stationed in a yard, for owing to the excavations for the C. P. R. station it was impossible to get in and out of the fire station, and in a day or two it would be abolished. Ald. Marsolais explained that this left East Ward, with its important business interests, unprotected against fire. As representative of that ward and as a member of the Fire Committee, he refused to bear the responsibility for this state of things.

The Mayor pointed out that the Council had no right to pass the report, there being no appropriation for the purpose.

The report was referred to the Finance Committee.

Ald. Lefebvre moved that the resolution of Council granting permission to the Bell Telephone Company to make conduits in the streets be reconsidered.

After some discussion, the motion was given as a notice.

The report of the Finance Committee on the change of guarantee asked by the Firmite Concrete and Paving Company, was discussed.

The Company propose to transfer property in the East End of the city, worth $21,000, in exchange for that deposited with the Corporation. The property had been valued by two of the assessors, who reported that it was worth the amount stated, and had also been valued by a gentleman outside of the Corporation with a like result.

Ald. Renault held that the property was heavily mortgaged to the Banque du Peuple.

Ald. Grothe moved in amendment that the sum of $2000 be retained for repairs.

Ald. Connaughton moved in sub-amendment that the report be laid on the table for a month and that in the meantime a list of the sidewalks constructed by the Company and their present condition be supplied to every member of the Council.

This was lost on division by a vote of 11 to 8, and the main motion, as amended, was carried by 15 to 4.

The Council then adjourned.

A genuine summer comfort can be realized by using Fibre Chamois to interline all your gowns, because it prevents any chance of their becoming crushed or dragged by the hard usage of picnics, boating and other summer outings. It gives a graceful stiffness and firmness which outlast everything and makes you sure that your gown will have the same dainty style and hang at the end of a hard season's wear as at the beginning.

But to be sure of these results see the label on each yard when buying, as **Fibre Chamois** has many worthless imitations which never give satisfaction.

THE BISLEY MEET

Seven Canadians in the Second Stage of the Queen's.

THEIR GOOD SHOOTING WINNING THEM MANY PRIZES.

The Weather Yesterday Spoiled Many a Good Score.

(Special to the Star.)

Toronto, July 23.—A special from Bisley camp to the Mail and Empire says: Yesterday was a great day for Canadians, for Lavers and Munro won in the tie shoot for the second stage for the Queen's prize. The Canadians therefore have seven men in the second stage of the "blue ribbon" match of the National Rifle Association meet, as compared with four last year. The men and their scores for the first stage are: Hayhurst, 93; Campbell, 90; Crowe, 89; Sergt. Mitchell, 87; Neill, 83; Lavers, 82, and Munro, 82.

The second stage will be shot to-day at the 500 and 600 yard ranges, ten shots at the first and 15 at the second. The weather yesterday was very warm. A changing light and an ever-varying left front wind, however, created sad havoc among the marksmen, and the scores generally were much below the average. Shooting in the "St. Georges" was commenced. The St. George's Challenge vase is competed for in two stages. In the first stage the ranges are 500 and 600 yards, seven shots being allowed at each. The second stage is shot at the 800 yard range. It will be fired on Saturday. The scores of the Canadians in the first stage were as follows:

	500 yds.	600 yds.	Total.
Weller	35	27	62
Huggins	30	31	61
Munro	30	30	60
Neill	35	25	60
Ross	31	28	59
Ogg	33	26	59
Armstrong	29	29	58
Macdonald	32	25	57
Mitchell (Lt.)	32	24	56
King	29	27	56
Langstroth	31	24	55
Campbell	29	26	55
Bent	31	23	54
Mitchell (Sgt.)	23	29	52
Spearing	29	23	52
Hayhurst	30	21	51
Crowe	28	23	51
Harp	30	20	50
Runyons	20	26	46
Lavers	27	27	44

The scores of Weller, Huggins, Munro and Neil qualify them to shoot in the second stage. Ross and Ogg will shoot off with a number of competitors who tied for a place among the 100 entitled to shoot in the second stage. Armstrong's score of 58 won for him a prize of £2. Macdonald's 57 was counted out.

The best and most important scores made by the Canadians yesterday were the possibles of Weller and McNeill at the 500 yards range, in the St. George's and Huggins' 31 at 600 yards in the same match.

In the grand aggregate (volunteers) in which prizes are awarded to those whose scores in the Queen's prize (first stage), St. George's (first stage) Martins cup, Daily Graphic, Graphic, Daily Telegraph, and Alexandra, make up the highest aggregates, the Canadian aggregates were as follows: Weller, 170; Munro, 170; Campbell, 167; Lieut. Mitchell, 166; King, 165; Ross, 164; Ogg, 163; Hayhurst, 162; Sergt. Mitchell, 161; Langstroth, 160; Macdonald, 160; Crowe, 160; Neill, 159; Armstrong, 155; Spearing, 152; Lavers, 151; Huggins, 146; Bent, 146; Harp, 145; Runyons, 140.

The highest possible aggregate is 210. Last year a score of 188 obtained the first prize. The scores made by Weller and Munro tie them for a splendid cup presented by Sir Donald Smith for the Canadian making the highest score in this match. They will shoot off the tie as soon as possible. The other prize winners in this competition will be announced on Friday.

At the 200 yards range, in the Association Cup, Hayhurst scored 32. This match closes on Friday. Hayhurst has yet to shoot at the 600 yards range. Seven shots are allowed at each range. In the Fletcher, 500 yards, number of shots, seven, Mitchell (Lt.) made a fine 33. The match closes on Saturday. Mitchell (Lt.) again came to the fore in the ladies' range, 500 yards, number of shots, seven. His score read: 4, 5, 5, 5, 5, 5, 5—34. The match closes on Saturday.

In the fifth series scurry, Crowe and Harp, with scores of 22 each, won 5th and 6th prizes of £1 each. All the Canadians are well.

BOLSTERING THE GOLD RESERVE

New York, July 23.—The movement of the bankers and business men to make good the withdrawals from the gold reserve to an amount of twenty million is likely to be successful. The amount of gold turned into the Sub-Treasury yesterday by the banks, in exchange for legal tender notes was $7,750,000. The larger contributors were the City National, $2,000,000; Hanover National, $1,500,000; National Park, $1,000,000; Bank of New York, $500,000; Mechanic's National, $400,000, and Gallatin National, $400,000.

The following is a list of the banks that have promised to exchange gold for legal tenders and the amount that each will turn in:

Bank of New York National Banking Association, $100,000; Manhattan Company, $500,000; Merchants' National, $350,000; Mechanics' National, $100,000; Phoenix National, $50,000; National City, $2,000,000; Gallatin National, $400,000; Leather Manufacturers' National, $50,000; American Exchange National, $400,000; National Bank of Commerce, $400,000; Mercantile National, $100,000; National Bank of the Republic, $500,000; Chatham National, $200,000; Bank of North America, $200,000; Hanover National, $1,500,000; Corn Exchange, $500,000; Continental National, $200,000; National Park, $500,000; Fourth National, $750,000; First National, $500,000; Third National, $500,000; German-American, $50,000; Chase National, $750,000; Seaboard, $300,000; National Union, $100,000. Total, $11,700,000.

A number of the larger banks have not yet been heard from, but it is believed they will contribute sufficient amounts to bring the total up to $15,000,000.

The general impression is that the foreign bankers have practically agreed on recommendation from New York to supply the wants of remitters until the crops begin to move. The street is firmly convinced that the deal with the foreign bankers will be carried through, and for this reason the withdrawal of over two million gold from the Sub-Treasury yesterday caused no uneasiness. Of this two million a Canadian bank took out $20,000.

THE SHIP WAS ON FIRE.

New York, July 23.—(Special.) The British steamer Glen Loig, which arrived here this morning from Hamburg, reports that on Tuesday, July 21, off South Shoal Light, the little steamer Elliott, of Charlottetown, P. E. I., was spoken. Captain McDonald, of the Elliott, said he was on the voyage from Philadelphia for Halifax, N. S.; that on July 21, at 10 o'clock, a fire broke out in the bunkers, which extended to the main hold. Every effort was made to check the progress of the fire, and the captain believed that he had succeeded in getting it under control. No assistance was desired.

HERBERT FULLER TRAGEDY.

Mate Brane Generally Regarded as the Perpetrator.

Halifax, N.S., July 23.—There are no new theories in the Herbert Fuller triple tragedy.

The police are apparently satisfied that mate Thomas Brane or Bram was the perpetrator and that there will be little difficulty in fastening the crime on him.

Brane has been recognized by several parties who knew him in New York and elsewhere.

It is said that some person, while conversing with Brane remarked that sailor Brown said he saw Brane kill the captain. To this Brane replied: "He could not see me kill him."

John Swan, the senior member of Swan & Son, New York, when asked what he intended to do with the vessel said he would leave her moored, ready to proceed on her voyage as soon as a captain arrived to take charge of her. He did not think the American authorities would require the vessel to be sent to Boston and did not anticipate such being done. Mr. Swan knew nothing of Mate Brane, or, in fact, of any of the crew excepting the captain.

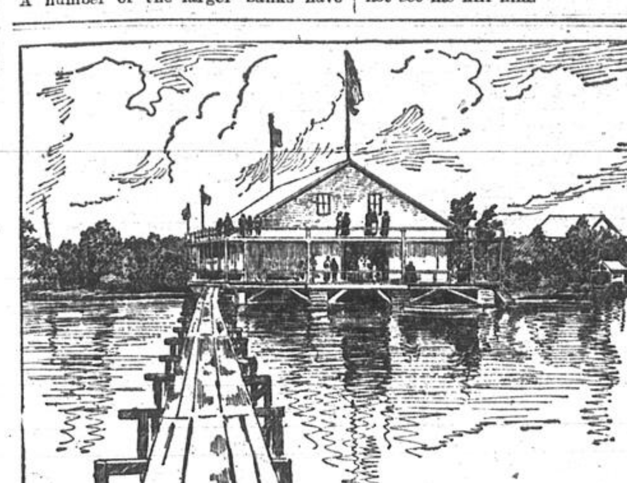

John Nash, of Harrington, Me., left for home to-day with the bodies of Captain and Mrs. Nash.

Whatever the motive of the murderer was, it is yet a mystery. The strain on young Monck has been so great that he broke completely down at the meeting with his father yesterday, and went into a dead faint.

August Blanberg, the murdered second mate, was buried yesterday in Camp Hill cemetery. The service was in the Episcopalian form, Rev. Dyson Hague, of St. Paul's, officiating.

The American Consul here has telegraphed to United States Consul General Riley, Ottawa, asking if the Canadian Government would facilitate extradition of those guilty of complicity in the murder of Captain Nash, his wife, and Officer Blandberg, of the barque Fuller. The reply given by the Department of Justice was that Canada would put no obstacle in the way of extradition.

Three motives are put forward in explanation of the crime. The first is robbery. It is said that Mate Brane who had only 25 cents in his possession when he came on the ship, had over $27 in his pockets when arrested. The second motive was the intention to have those murdered got out of the way and take the vessel off to the Cuban insurgents and sell her for a large sum. The third is criminal assault. It is believed by some that the mate had been drinking and that he went down and killed the captain, then the second mate, and lastly attempted to assault the captain's wife, and when she screamed he murdered her. Her body shows that there must have been a terrific struggle, and some of those in authority who visited the ship think that she died defending her honor. She was terribly mutilated. One of her hands was chopped off below the wrist as though her assassin had struck her as she had put up her hand to defend herself.

THE GLENCAIRN CELEBRATION.—VALOIS BOAT HOUSE.

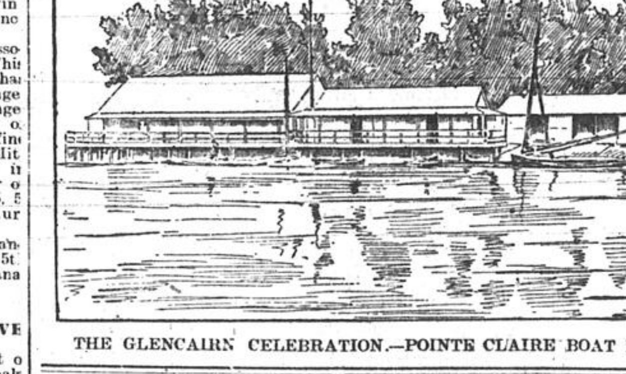

THE GUINIA BOUNDARY.

Old Documents Being Overhauled in that Connection.

Washington, July 23.—The last issue of the Demerara Chronicle, that of July 8, which has just reached the Bureau of American Republics, says: For several weeks past the important enquiry, the nature of which was partially referred to in an article with regard to the relations that existed between our Dutch predecessors in the colony and the aboriginal Indians, has been progressing in the Government buildings. The archives at the rear of Guiana public buildings are packed with a mass of documents that have been accumulating for centuries. Many of them are original Dutch and French, and these are being systematically overhauled and translated for the purpose of discovering whether or not they contain matter that may prove of value in strengthening the position the British Government has maintained in regard to the boundary line existing between this colony and the adjacent republic. The contents of many of these documents are, of course, relatively of little value, but we learn from conversation current among authorities evidently well informed, that so far as the search has proceeded up to the present time it has been successful in unearthing several important points of evidence that appear to establish beyond all doubt that the Dutch colonists west of the Essequibo occupied territory and exercised jurisdiction to the mouth of the Orinoco. The nature of the evidence in this direction that has already been brought to light and value thereof may be judged from the fact that in one of the documents is the record of an order by the Dutch court of policy to erect a fort and station Dutch soldiers at their boundary on the Orinoque. It appears that a military officer obtained audience from the court of policy to ask for provision being made for troops which were expected to arrive daily.

There was no accommodation for them in St. Abroek, and he had orders to keep them on board the ship until proper provision was made for their reception. The court of policy decided that forts should be erected at Couabana, Mahicia, and, as stated, on the Dutch boundary at the Orinique. Other documents discovered show that the estimate of the cost and plan of the fort at Courabana were actually prepared, and it may reasonably be supposed that further search will furnish similar evidence with regard to the fort at Orinoco. An old record of the law courts has also been found, we understand, showing that the French, during occupation of this colony, exercised jurisdiction over country extending to the mouth of the Orinoco. The document in question relates to a case in which an Indian who had murdered a white man in the Anura district was brought to justice by the French. While the search has revealed other evidence of the occupation and jurisdiction over the land in dispute by the Dutch, it has also directed attention to important documents relating to the boundary which are probably to be found in the archives of Holland.

The progress of the inquiry may, therefore, be confidentially expected to bring to light further documentary proof of the extent of the Dutch possession, as we have reason to believe the greater part of the records is still untouched.

BURNED PATIENTS AND HOSPITAL

A Desperate Deed Reported to Have Been Done by Spaniards.

New York, July 23.—A Herald special from Key West, Fla., says:

"Private letters from Matanzas, Cuba, to responsible merchants in this city give shocking details connected with the capture of rebel hospitals by the Spanish, located respectively at Isabel and Magdalena, in that province. Drs. Roig and Izquierdo, surgeons of the rebel army, in charge with their assistants and corps of nurses, were all, it is alleged, put to the machette, while the helpless, ill and wounded were assassinated in their cots and the buildings then burned over their heads to cover up the crime. Small insurgent detachments guarding the hospitals made a desperate but vain defence against the overpowering forces."

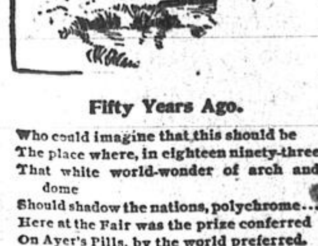

REBELS IN NORTHERN CHINA.

They are Reported to Have Killed 6000 Imperial Troops.

Vancouver, B. C., July 23.—(Special.)—Chinese advices to July 8, received here, say that the Mohammedian rebels at Tan Chu, Northern China, have routed and almost totally annihilated the force of 6000 Imperial troops that were sent to suppress them. The rebels are now said to be marching through the country killing and pillaging on all sides.

MUST HAVE PERMISSION.

Ottawa, July 23.—Under direction of the Marine Department, no Canadian vessel can sail for Cuba without getting permission from Ottawa through the Collector at the port of sailing.

have, from the time of their preparation, been a continuous success with the public. And that means that Ayer's Pills accomplish what is promised for them; they cure where others fail. It was fitting, therefore, that the world-wide popularity of these pills should be recognized by the World's Fair medal of 1893—a fact which emphasizes the record:

TRADE, FINANCE —AND— COMMERCE.

MONTREAL WHOLESALE MARKETS.

Star Office, 23rd July, 1896.

Grain.—Trading is confined within the narrow limits noted yesterday and prices are the same. We quote: Oats No. 2 white, 25 3-4c to 26c; peas, per 60 lbs, 54 1-2c to 55c; feed barley, 33c to 34c; buckwheat, 37c to 37 1-2c.

Flour.—The demand continues to show gradual improvement, but no great amount of business can as yet be reported. For Manitoba flour there is again to-day a very fair request from Nova Scotia and New Brunswick. We quote prices as follows: Spring patents, $3.65 to $3.80; strong bakers, $3.25 to $3.40; winter patents, $3.65 to $3.80; straight rollers, $3.50 to $3.60.

Mill Feed.—The immediate demand is not large, but there are still holders who feel convinced that the future has great things in store for them, and who decline to part with Manitoba bran, bags included, for less than $12. There are others, however, who gladly accept $11.50. Ontario bran is offered at $10.50 to $11.50, according to quality. Shorts are quoted at the usual advance.

Oatmeal.—Trade is sluggish, a spasmodic demand for oats, which in car lots on track are offered at $2.60, being the only sign of animation.

Provisions.—The pork situation continues very unsatisfactory. Inquiries received here are for small lots only, and in some instances packers seem almost panic stricken over the outlook, and are disposed to attempt to push business at the cost of prices. For Canada mess we hear quotations, concessions from late prices being the rule. Smoked meats are steady at the values given. We quote: Canada short cut heavy mess pork per bbl., $11.50 to $12.00; bacon, per lb., 8 1-2c to 10c; hams, per lb., 7 1-2c to 9 1-2c; lard, compound, per lb., 5c to 5 1-2c; lard, pure, per lb., 7c to 7 1-2c.

Cheese.—At the country markets firmer tone is manifested, and on some higher prices are being asked, but in the absence of really important business here to-day we refrain from quoting. At Woodstock yesterday there were boarded 331 boxes of June and July cheese, of which 2106 sold at 6 13-16c, and 70 at 6 7-8c. At Peterboro' the offerings consisted of 4580 boxes, and the sales were as follows: 635 at 7 1-16c, 2172 at 7c, 723 at 6 15-16, 580 at 6 7-8c. At Stirling, 415 boxes were disposed of at 6 13-16c to 6 7-8c. The range at Napanee was 6 7-8c to 7c.

Butter.—For the very finest grades of creamery there is some enquiry, both from shippers and jobbers, who are willing to pay 16c to 16 1-4c for the same. Such quality, however, being scarce to-day business is quiet. In New York yesterday the condition of the market was without material change. The proportion of strictly extra creamery was small, and offers generally reported no difficulty in moving such promptly at 15c; below that price there was a large offering and a slow outlet, with values weak and irregular. Exporters were taking a moderate quantity, generally in range of 13c to 14c, but paying occasionally 1-2c to 1c more, taking a few extra goods at the outside figure.

Eggs.—The demand is fair and prices are steady. Candied stock in wholesale lots is quotable at 9 1-4c to 9 1-2c. For single cases of choice jobbers are getting from the grocers 9 3-4c and 10c.

Maple Products.—Syrup in wood is firm at 5 1-2c to 5 3-4c per lb., and sugar steady at 8c to 8 1-2c per lb.

Baled Hay.—No. 1 is quoted at $13, and No. 2 at $10.50, notwithstanding all the strengthening influences in the shape of light crops.

Green Fruits.—Apples are more plentiful than a week ago, and $2.50 is to-day an outside wholesale price. Oranges are now practically out of the market. Although lemons may be had good for $3 per box, purchasers are scarce. In New York yesterday there was a good demand for sound lemons, particularly from the interior, but buyers seemed to be concerned only in covering immediate wants. There was an entire absence of speculative interest, although higher prices were looked for at the next auction sale. For small fruits the local demand is good. Raspberries are quickly picked up at 7c to 7 1-2c. California plums sell ready at $1.25 to $1.75 per crate. Bananas bring 75c to $1.50 per bunch.

MANITOBA WHEAT SITUATION

The improvement in the general situation of wheat caused a better feeling locally, but the market was not active. A little better prices, however, were obtained. There were sales Thursday and yesterday at 57c for No. 1 hard, afloat Fort William, and possibly, while better yesterday. No. 2 hard was quoted at 55c, and No. 3 hard at 52c to 53 1-2c. Receipts of wheat at Fort William last week were 381,824 bushels; shipments, 129,519 bushels; in store, 2,108,625 bushels. While many favorable crop reports come in from some districts, some very unfavorable reports have come in, principally from the eastern and southern portion of Manitoba, where the excessive rains and recent hot weather appear to have injured the crop. A lot of samples of wheat in straw shown at the exchange this week were all more or less affected with rust, the roots had no depth, and the heads were thin and short. Some samples were not headed out. From the western districts of Manitoba reports were more favorable, but rain was needed in some sections.—The Winnipeg Commercial.

DE LORIMIER BUTCHERS' CASE.

Arguments were heard by Judge de Lorimier this morning in the cases of Albert Beaudoin and other butchers, seeking for writs of prohibition to have Judge Desnoyers prevented from hearing the charges against them of keeping slaughter-houses within the limits of the municipality of de Lorimier, contrary to bye-law. Messrs. Wilbrod and Tancrede Pagnuelo appeared for the petitioners, and Mr. E. N. St. Jean for the respondent.

LOST FIVE HUNDRED MEN.

Vienna, July 23.—Advices received here from Salonica say that the Turkish troops have had a battle with the Macedonian insurgents at Demier Hissar, in which the insurgents lost five hundred men. The Turks pursued the insurgents, who took refuge in the mountains of Perrin.

STOPPED BY RAIN.

Halifax, N. S., July 23.—Owing to the heavy rain storm, the cricket match between the Philadelphians and the Halifax Garrison was not resumed this morning.

FARMS FOR SALE.

FOR SALE— VALUABLE FARM LANDS AND timber limits at Casselman, Ont., on the line of the Canada Atlantic Railway. The property consists of sixteen hundred acres of land on both sides of the south Nation River, partly cleared and fenced, the greater portion being still wooded with the usual varieties of hard and soft wood, suitable for lumbering, cord wood and pulp wood, the latter being in great abundance. There is also on the premises, dwelling houses and other buildings, and two boilers and a good steam engine, 50 h. p. A portion of the property is well suited for a brick yard, having sand and clay in abundance, in close proximity to each other, with a side track connecting the railway with the South Nation River. In connection with the above, there is a steam boat and barge, suitable for passenger and freight traffic on the river which is navigable for a distance of thirty miles. For particulars apply to H. Frost, Casselman, Ont. 152 8 2aw

FOR SALE—FARM. THE SUBSCRIBER, DESIRING to retire from farming, offers for sale his farm of 174 arpents, situated at Cote St. Michel (3 1-2 miles from Montreal, City limits). The farm is known as the old Ogilvie Homestead and has been in the possession of the present owner's family for 38 years. In 1895 it was awarded the silver medal granted by the Government of the Province of Quebec, and the previous year secured first prize for being the best farm in the county of Hochelaga. It has always been, and is now, in a high state of cultivation, so would require no extraordinary expenditure to put it in first class condition. The farm buildings were erected in 1890, are in good condition and are of the most modern and convenient arrangement. Apply to the proprietor, George Buchanan, Cote St. Michel, County of Hochelaga, or William Ewing & Co., Seed Merchants, Montreal. 170 6eod

The Glencairn Celebration.

Lake St. Louis Ablaze in Honor of the Canadian Boats Victory.

THE GLENCAIRN CELEBRATION.—THE SCENE AT THE ROYL ST. LAWRENCE YACHT CLUB AS SEEN FROM LAKE ST. LOUIS.

GLENCAIRN, Duggan, Shearwood and Ross were the four magic words that set Lake St. Louis ablaze last night.

And yet there were other words. "The Seawanhaka Yacht Club," for instance, which came in for their share of praise, and in whose honor and in the honor of the thorough yachtsmen that compose the club of that name; the band played tunes dear to the heart of the many citizens from the United States who were present, and dear to the hearts of the thousands of other people across the line, in whose breasts the victory of the little Canadian boat has stirred up only a feeling of respect for the yachtsmen from here who so squarely beat them, and a desire to regain the lost cup in Canadian waters next year.

The expressed disinclination of Captain Duggan's part to any personal demonstration, had of necessity cut down somewhat the programme with which it was

THE GLENCAIRN CELEBRATION.—MR. GEORGE HERRICK DUGGAN, Captain and Designer of the Glencairn, in International racing trim.

at first decided to celebrate Canada's nautical victory, but it could not prevent the yachtsmen of Lake St. Louis and their friends and sympathizers from doing honor to the man who designed and sailed the boat that won that victory or the staunch crew that aided him or the man who when the Sothis had beaten every boat of her class on the Lake encouraged her designer to try again and produce a craft which if possible would surpass her in speed and staying power.

Nor was this desire confined to the yachtsmen from Lake St. Louis. From far below the Lake and from far below the Victoria Bridge; from the Grand Trunk, from St. Lambert, from Longueuil and Boucherville, and even from St. Johns, did representatives come to show by their presence how glad they were of the victory, and French-Canadian and English-speaking yachtsmen joined in thus testifying to the sailors and the owner of the wonderful little flyer how much they appreciated their successful efforts to uphold Canada's yachting honor in United States waters.

It seemed but fit that the lake upon whose shores she had been created and upon whose bosom she so successfully stood the severe trials demanded of her should, if only for one night, put on holiday garb to welcome her home, returning as she did with the precious burden of the International Challenge Cup.

They had promised a girdle of fire and they had not promised in vain.

For a distance of sixteen miles the shore was illuminated. Thousands of Chinese lanterns and scores upon scores of bonfires vied with one another as to which could make the best show, and above them all rockets and fire balloons and roman candles and all the bright and marvellous attributes of modern pyrotechnical art lit up the sky with their brilliant colors, as if to shame the poor moon, which was vainly struggling to pierce through the heavy clouds that persistently tried to hide her.

There were hundreds and hundreds of people, who had come out from town by special train, and hundreds who, living around the lake, were going up and down the lakeshore drive to enjoy the spectacle on land, but their enjoyment could have been nothing compared to that of the few who enjoyed the sight which the shore afforded from the water.

Slowly sailing up the river from Lachine into the lake as far as Ste. Anne's it was a fairy spectacle.

The rain which came pouring down sufficiently heavy in the afternoon to knock the bottom out of the hundreds of chinese lanterns that had been put up around the Royal St. Lawrence Yacht Club-house earlier in the day, stopped just in time, and though the moon was scheduled to appear just about the hour at which the festivities were to commence the heavy clouds, by preventing her from appearing, aided to produce a most desirable darkness, only broken by the sheet-lightning which merely served to emphasize the dark outlines of the green foliage which bordered the water.

Suddenly, about half-past eight, a glimmer, which soon developed into a huge bon-fire sprang up about half a mile above the Lachine Boating Club-house, and as if it were a pre-concerted signal, similar glimmers sprang up at various points of the shore, from which as centres long lines of fire extended on either side. As the fires grew brighter, the line of light that connected them became more voluminous, and it was not long before rockets and fire balloons began to pierce the clouds from near and far. In the distance, where the shore was hidden through the bend of the river, the clouds took on a fiery hue and as one proceeded up the river, the foliage that lined its banks became alive with trembling opalescence, as if some hidden magician, with his wand, had turned the dew-drops into scintillating jewels of gigantic proportion. Garland upon garland of vari-colored undulating lights came to view, and here and there colored fire, penetrating the screen of trees and shrubs, showed the gable or front gallery of some charming country residence. Sometimes the many colored lights took the shape of a house in their outlines, sometimes that of a shield, and again they represented some graceful drapery and at each new bend of the river some new surprise was in store. Every minute the rockets began to fly higher and the fire balloons came in thicker crowds till at different places the sky fairly rained colored stars. There were not many craft on the water, but the few that silently sailed up added to the mystic appearance of it all. At Dorval Island an immense bonfire threw a fierce red glare over the river, and its light gradually melted away toward Dorval Bay, merging itself as it were in the reflection which came around the point from the illumination of the Yacht Club-house. The rounding of this point was a revelation. To the left were the grounds of Mr. Marler and those of the Forest and Stream Club, fairly covered with chinese lanterns; to the right the houses of Hon. Mr. Morris, Rear-commodore Fitzgibbon and others, showing an almost equally lavish display, and right in front the Royal Canadian St. Lawrence Yacht Club-house, entwined with flags and garlands of lan-

terns and guarded by a battery of blazing bonfires, with a gigantic burning float about a hundred yards in front. The tall flag-staff had streamers of light depending from its top, and the long pier a double line along its entire length. A dense crowd of men and women kept slowly moving up and down in front, and around the buildings and dark uncanny looking forms kept running hither and thither in the very foreground and their every movement caused some new outburst of noisy bombs, dazzling aerial stars and whistling, sizzling rockets, while from behind it all the strains of a band floated out upon the water.

Far up towards the extreme left, Valois, Lakeside and the other lake resorts kept up their fire bombardment of the sky, and so bright was the illumination that the lighthouses appeared like so many overgrown night lamps, and the pale outlines of Pointe Claire Church were plainly visible.

The crowd about the club house grounds was a gay one. Light-colored summer dresses for the ladies and navy blue yachting jackets and duck trousers of a very nautical cut were decidedly the thing, and the few men who had come in plain civil attire felt decidedly out of place, while a pleasant diversion was created by the large number of bicyclists whose knickerbocker suits added considerable variety to the scene. On the club house verandah sat or lounged the officers of the Yacht Club and their lady friends, sipping refreshing drinks and discussing the lately won victory or nursing the burns they had received while acting as amateur firework dispensers. For a short while the hero of the hour was among them, accompanied by his charming wife, but the greater part of the evening the two strolled around the grounds and hundreds of ladies who, according to their own words, repeated over and over again, "would so have loved to have shaken hands with Captain Duggan," were disappointed. Perhaps it was just as well, for if they had been given the opportunity they would have fairly smothered him in their desire to show how proud they were of him. He was attired in a dark yachting suit with yachting cap to match, and wore a white flower in his buttonhole. The loss of his beard has made a considerable change in his appearance, and a great many of those who were looking for him missed him on this account, but it only needed one person to point him out to have immediately a battery of curious and admiring eyes turned on him, which followed his every movement till he lost himself again in a crowd. Mr. Shearwood, the gallant crew, was almost as difficult to get at and as elusive as a will-o'-the-wisp. That both were overwhelmed as it was with congratulations need hardly be said, but through all these ran an undertone of regret at the absence of the popular Commodore, Mr. James Ross, Glencairn's proprietor. Refreshments for the ladies were served in the cosy club rooms, while the gentlemen found everything their heart could desire in the cheerily decorated shed behind, and kept the imported detachment of waiters which assisted the regular staff very busy. There were no speeches and no set programme, and the whole resembled more a large, very large, family party called together to celebrate an event in which all those present felt a personal interest.

During the entire day, the Club House grounds had been the scene of unusual bustle, and on account of the damage done by the rain-storm in the afternoon, it was not till late that the final preparations were finished. Almost immediately afterwards the whistle of the trains bringing the people from town was heard. It was soon shown that the afternoon rain had not discouraged them, for they poured out upon the little platform at Dorval station in crowds and the busses present were far to few to accommodate them in one trip. When they arrived at the grounds they immediately went in, the mostly fair search for Messrs. Duggan and Shearwood, only to finally give themselves up entirely to the contemplation of the pretty spectacle and consoling themselves by congratulating one another. It was about ten o'clock when the drivers of the busses blew their fish horns to announce the fact that it was time to prepare for the train, and quite a scramble occurred for seats. The time spent in waiting was shortened by the band which gave an impromptu concert on the platform, and the train came just in time to shelter the much pleased crowd from the rain, which had kindly kept off till the end and then permitted the celebration of Glencairn's victory over El Heirie to pass off in a manner that will long be remembered in connection with the history of the aquatic sports of the Dominion.

The approaches to the Club House, the Club House, and the adjoining grounds were handsomely illuminated. Hundreds of Chinese lanterns swinging in the breeze, countless colored fires, and numbers of rockets turned the place into a veritable fairyland. The Club House verandah was ablaze with lanterns, and underneath sat Montreal's fair ladies and gallant cavaliers, who, through knowledge of hitherto and such things. The fair moon smilingly peeped down now and again and then discreetly retired behind the clouds. Fair luna's light was not needed. Along the shore were a quantity of lighted tar barrels, and out in the bay was a float of lighted tar barrels, the whole casting a bright appearance over the scene.

A pretty sight was presented by a number of yachts which came down the St. Louis and anchored off the Club House pier. The yachts were covered from stem to stern with Chinese lanterns and colored fire, and as each boat passed the bay a fusilade of rockets was sent off. Mr. Angus' yacht was a mass of light and made a striking appearance as she sailed by. It was intended to have the pier in front of the Club House decorated with Chinese lanterns along its entire length. Accordingly a number of lanterns were hung along the pier yesterday afternoon. About four o'clock the wind rose and 250 lanterns were blown to pieces. Nothing daunted another supply was immediately sent for and in spite of a fresh breeze the pier was brilliantly decorated.

The decorations of the residences at Dorval were very handsome. The residences of Messrs. Morris, Marler and Fitzgibbon were illuminated in a brilliant and original manner.

The following resolutions written on parchment were presented to Mr. Duggan by the delegation present from the St. Johns Yacht Club:

"Resolutions passed at a meeting of St. Johns Yacht Club, held on Friday night, July 17:

"The members of the St. Johns Yacht Club, being desirous of showing their appreciation of the able manner in which Mr. G. H. Duggan, of the Royal St. Lawrence Yacht Club, sailed the Glencairn in the international race for half raters on Oyster Bay, N. Y., and succeeded in winning the much coveted cup for Canada, resolve that their club house be illuminated and a display of fireworks be made simultaneously with that at the Royal St. Lawrence Yacht Club house in Dorval on the night of one reception in honor of the victorious skipper; resolved that Mr. G. H. Duggan be hereby elected an honorary member of the St. Johns Yacht Club."

L. S. PARIZEAU, President.
A. LEGER, Sec.-Treasurer.

An unusually meritorious programme of music was discoursed by the Victoria Rifles Band from the club house verandah, under the direction of Mr. Quiveron.

The law and order of the club house and grounds was attended to by two young policemen, most comically attired, who declared that they were the "long and short" men of Chicago. One of them created quite a sensation by riding into the club house on a diminutive pony. The young men were carefully disguised, and their identity remained a secret.

Much disappointment was evinced at the absence of the honorary commodore of the club, Sir Donald A. Smith, and Mr. James Ross, the commodore. Both these gentlemen are at present on the high seas at home with Father Neptune far from the sailors of the Royal St. Lawrence Yacht Club.

The railway tickets to Dorval bore the legend "Duggan demonstration," and Mr. Duggan was highly amused on being presented with one of the pieces of pasteboard. He signified his intention of framing the ticket as a souvenir of the occasion.

On the arrival of the 7.35 train at Dorval the busses were waiting for passengers. Each bus was decorated with paper lanterns and soon were crowded. On the way to the club house the wind played havoc with the lanterns on the first bus and blew them from their fastenings into the group of passengers. The lanterns ignited and caused considerable excitement before they were extinguished.

Among those noticed at the Club Housewere: Mr. and Mrs. G. H. Duggan, Mr. and Mrs. E. K. Greene, Mr. and Mrs. Galletti, Mr. and Mrs. Claggett, Mr. and Mrs. Edgar McDougall, Mr. Angus Hooper, Mr. and Mrs. J. Muir, Mr. and Mrs. Henshaw, Mr. and Mrs. Tait, Mr. and Mrs. R. H. Prissic, W. Forbes, J. R. Rae, Mr. Henry May, President of the Grand Trunk Boating Club; Mr. Donald Robertson and many others.

A very large number of wheelmen rode out from Montreal to Dorval. Representatives of all the city clubs were present. The Wanderers contingent consisted of Messrs. Stewart, Magee, McDuff, J. Simmons, G. Simmons and Sharples.

The Victoria Rifles Cycle Club were represented by C. Stewart, captain; F. Irevine, J. Willick, G. McRobie, G. Addie and G. Wyness.

WHAT VALOIS DID.

In the years that Valois has been a favorite summer resort, and that has been many, there has probably never been a time when pyrotechnics were so much in evidence as they were last evening. It was a fitting celebration of an auspicious occasion and the residents spared no pains to make the most of it. From Charlebois Point on the west to Valois point on the east, the beautiful scene was a circle of fire which was started at the going down of the sun and was kept up without intermission for upward of three hours.

Every known article which could lend color to the scene was called into requisition. The tar barrel ordinarily so unsightly became for once a thing of beauty. Throughout the entire length of the bay and close to the water's edge this inflamable material had been placed at regular intervals. At 8.30 o'clock the torch was applied and the half circle of fire shone out like so much burnished gold. Back of these flaming brands the trees were brought out in strong relief while back of these again were hundreds of Chinese and Japanese lanterns intermingled with flaming torches, Greek fire of red and blue and rockets of many hues.

Stands and wooden frames had been erected along the bay shore facing the different residences, and upon these were placed torches which were kept aflame throughout the evening. In the dooryards and upon the porches and trees the residents of Valois had lanterns of every imaginable hue. At the residence of Mr. Thibault the lanterns were placed to represent a mainsail, and the effect was most striking. Mrs. Butterworth's was also elaborately decorated. Across the front of the lawn was stretched a transparency. On this were the words "Duggan-Glencairn-Ross" in bold letters. Around about it were a large number of colored lanterns, and upon the opposite side of the road and just above the lake shore was a frame work on which was displayed a circle of torches. The Club House had also its share of illumination, and was resplendent with torches and lanterns. The display at Charlebois' Point was a matter of comment throughout the evening, and the admiration of those along the lake shore.

Among those who contributed to the beauties of the scene by the generous display of lanterns and torches about their houses and grounds were Mr. Fred. Fairman, Mr. Alex. Ewing, Mrs. Armstrong, Mr. R. N. Scott, Mr. John Kay, Mr. Bowie, Mr. Hanna, Mr. George R. Prowse, Mr. J. H. James, Mr. Charlebois, Mr. F. W. Barlow, Dr. McConnell and Mr. Trombly.

The scene from the lake looking toward the bay shore was one never to be forgotten. First, the flaming brands upon the beach cast their glare out over the moving waters, and made every ripple a wave of silver sheen. Then came the vivid green of the foliage, which under the effect of the Greek fire would change as if by magic from green to blue and red, then to green again. As a background for the picture the brightly illuminated residences, full of life and joy and laughter, shone out upon the scene, and back of these again the sombre sky and its threatening clouds perfected what was a picture of vigor and beauty.

HOW DIXIE CELEBRATED.

Dixie showed to advantage beside its more ambitious neighbors, and had one of the most perfect systems of illuminations on the whole lake from:.

Chinese lanterns of all colors, sizes and shapes, from the tiny Brownie policeman to the whale, of dimensions equal to the reception of a Jonah, decorated not only houses and grounds, but fences, shade trees, and, in one case, at least, even the tennis net. The Union Jack was very much en evidence, for it not only floated from every flag staff in the village, but was tacked across the front of more than one dwelling. A dozen bon fires blazed on the beach, and green and red lights were shown from nearly every private boat house. Ex-Alderman Lyall sent out a raft loaded with tar barrels, which was lighted in the middle of the lake, and burnt right royally, while the temporary occupants of the islands responded by lighting a monster pile. The tiny bay, as viewed from the toll gate, presented a most delightful and fairy-like appearance, the illuminations forming a perfect arc of colored light, with the cottage of Mr. Ducharme on the point forming a fitting crown to the whole.

Among those whose residences were most profusely hung may be mentioned: Messrs. Dobell, Schwob, Jamieson, Silverman, Shearwood (brother of the famous "crew"), Muir, Fulton, Macpherson, Lyall, McGuigan, Claggett, Dobbin, Stewart, Davidson and Bickerdike. The fine residence of Mr. Lyall was especially noticeable on account of the scores of Chinese lanterns which encircled it, but as the ex-alderman proudly testified, it was an unusually grand occasion, and every Canadian was bound to do his best to show his pleasure at the well earned victory of Messrs. Duggan and Shearwood. "Just think," he said, "this was really the first year that they had sailed the half-raters on the lake, and after a few trials one of our own men goes off to New York and beats all the New York cracks who have been racing such boats for years past. He did something which even the English boats had not been able to do heretofore, and so I say that every Canadian who has the opportunity to show his pride in the performance should not be behind hand in doing so."

And they were not—in Dixie at least. As the bonfires began to burn out the fireworks were let off. Sky rockets and Catherine wheels, Roman candles and squibs were exploded by the hundred, while the small boy touched off the sportive cracker and asked after some reported ailment of Mr. Duggan. The crowd of bicyclists who ploughed their way through the muddy country road to Dorval assured all concerned that the gentleman in question was "all right," and the echo was taken up by the small army following behind in dog-carts, cabs and buggies.

At the mention of the hero's name, the man in the moon, who—as is well known else why so many moonlight excursions—has a special interest in Lake St. Louis and all which tends to make it famous, looked out from behind a passing cloud and winked all over his jolly round face. The smile was reflected upon the face of the lake, which shimmered and shone as the wavelets danced to the strains of "The Manhattan Beach," which was softly wafted around the point from Dorval.

One by one the Chinese lanterns went

THE GLENCAIRN CELEBRATION.—MR. ROBERT FITZGIBBON, Rear-Commodore of the Royal St. Lawrence Yacht Club.

out, and one by one the many fair maidens, with white shawls thrown negligently over their heads, went in, and night settled down upon Dixie once more. The band at Dorval could just be distinguished playing "God Save the Queen," and as "Rule Britannia" followed, the last members of the male persuasion on the sidewalk joined heartily in the chorus, promising another great visit when their friendly rivals from New York visit Lake St. Louis next summer, and followed their wives and daughters into the house.

Dixie had done its share towards making the celebration in honor of Canadian ingenuity, Canadian skill and Canadian pluck a grand success.

WHAT LACHINE LOOKED LIKE.

At Lachine the river front presented the appearance of a city thoroughfare. The wide road was jammed with buggies, carriages, waggons and vehicles all descriptions, while of bicycles there was no end. From half-past seven until nine o'clock it required all the ability of an athlete, and the courage of a hero to cross the lakeside road and successfully dodge the bicycles rolling along in an almost unbroken procession towards Dorval. Montreal and the suburbs appeared to have poured out every bicyclist they possessed on that country road, and the tinkling of bicycle bells was almost incessant. About nine the current of wheeling humanity set in in the opposite direction, and it was past midnight before "St. Joseph Street" assumed its wonted quiet.

Although Mr. Duggan won his first laurels on Lake St. Louis under the colors of the Lachine Boating Club, he and Mr. Shearwood having held the two-in-a-canoe paddling championship for a couple of years, there was no demonstration at the boat house, the members being too busy preparing for the annual regatta, to take place on Saturday, to give any attention to illuminations. The war canoe crew and all of the others of the club's racers were out, and put in some hard practice. By the way, Mr. Duggan was coxswain of the Lachine war canoe in some of the best races won by that once invincible craft.

From Lachine a magnificent view of the fireworks and illuminations at Dorval was had, and very weird and beautiful was the sight across the rippling waters of the lake.

The main features of the demonstration at Lachine were a couple of large bonfires of resin barrels arranged by Mr. R. Percy Barnes on the beach on

THE GLENCAIRN CELEBRATION.—Mr. W. A. C. HAMILTON, Secretary of the Royal St. Lawrence Yacht Club.

the western side of Stony Point at the head of Broadway avenue. Mr. John Magor lit another bonfire in front of his residence at the foot of Union avenue. Most of the Lachine demonstration was concentrated round this locality, Messrs. Baile, Lavin, and Drexell decorating their houses and grounds. On the point Mr. Stroud, who occupies Mr. Rawlings' villa, made a fine display of Chinese lanterns. Mr. Nelson's and Mr. Percy's houses also looking very handsome.

Mr. Moore, who occupies the most westerly of Mr. Chambers' cottages on Brewster avenue, had strings of Chinese lanterns festooned between the shade trees and along the verandah, the appearance of the illumination from the lake front through the trees being very effective. But for the strong south westerly breeze, the full force of which was felt at Lachine, the demonstration would have been much more general. Several residents who had provided themselves with lanterns for the occasion did not light up at all, and most of those who did had their lanterns burned for their enthusiasm.

POINT CLAIRE'S DOINGS LAST NIGHT.

Point Claire was also aglow last evening with red fire Chinese lanterns and burning tar barrels in honor of him to whom all the summer residents along the lake were showing their admiration. Although the display may not have been quite as large as that of some of the other places, the enthusiasm certainly could not be excelled. Mr. B. Goldstein vied with Mr. Bonin for the lead in the display and finished with honors about even. Mr. Goldstein kept four large fires composed of tar barrels going far into the night, and with red fire which he kept going continually made a flare that was seen for miles. His display of Chinese lanterns intermingled with the trees made a very pretty effect. The fire works which Mr Goldstein set off every few minutes added no little toward the success of the display.

Mr. Bonin's property, not being so prominent as his rival, his showing was slightly handicapped, but even so, from the water it looked like a veritable scene from the Flowery Kingdom, while the Club House looked like a fairy palace. It was also the occasion of the children's fortnightly dance, and the pretty little ladies in fetching costumes, dodging in and out amongst the lights along the verandah put one more in mind of a scene from the Arabian Nights. There was a large crowd of young people assembled at the fashionable rendezvous of the village delighted at the opportunity of being allowed to remain out and witness the Glencairn celebration on the strength of it being children's night at the Club House. All the older members who had remained behind crowded the verandah and watched the display from that point. About one-half the population of Point Claire drove to Dorval at eleven o'clock, and some went up by the launch Ruth.

THE SOUTH SHORE CLUBS.

The south shore was well represented at the celebration last night. Laprairie,

THE GLENCAIRN CELEBRATION.—THE DECORATED SHED WHERE THE NAUTICAL GENTLEMEN REFRESHED THEMSELVES.

St. Lambert, Longueuil, and Boucherville all sending their quota. The Longueuil contingent included Mr. Arthur Hersey, owner of the Good Luck; Mr. Wm. Ryan, up to recently owner of the Lulu; and a number of ladies and gentlemen. All were enthusiastic regarding the success of the demonstration. Some of them had an adventurous time getting home, the last steamer having left. They found it necessary to hire boats at Maisonneuve and only succeeded in regaining their destinations after an exciting contest with wind and wave, the storm having reached its height by that time.

NOTES.

Two car loads of tar barrels were used in the display at Valois and Lakeside.

The dimensions of the Glencairn are: 23 feet over all, 12 feet 6 inches water line, and 6 feet 3 inches beam. She is a centre-board craft, her board being of the dagger pattern. Her rudder is round; her mainsail is jib-headed.

One of the most energetic workers in preparing the demonstration was Mr. Charley Morris, the secretary of the committee, and the success of the affair is due in a large measure to Mr. Morris's hard work.

THE GLENCAIRN'S VICTORY.

Lads, a yarn I will tell of a boat you know right well,
Of a bonnie little boat upon our shore;
She's Canadian through and through, and her skipper and her crew
And her owner are Canadian to the core.

Chorus.

For the birds they are singing up aloft,
And the winds they are sighing on the lea;
While the sailor-boy, doth roam far, far from his home.
And the white caps go scudding o'er the sea.

Now it fell upon a day, she went down to Oyster Bay,
For to try and beat the Sewanhaka boat;
But every Yankee chump swore "El Heirie" was a trump,
And could knock the tar from anything afloat.

So they started in the race at a very pretty pace,
And "Glencairn" soon began to forge ahead;
Oh, the Yankees they looked blue, as she through the water flew,
And I won't repeat the naughty things they said.

When she reached the outer mark, our tight Canadian tar
Was leading by a minute and a half;
Then she beat up against the wind, with "El Heirie" far behind,
And the boys from Montreal began to laugh.

Oh, I can't begin to tell all the chances that befell
As they sailed the second time across the course;
But "Glencairn" kept her place, and she won the blooming race,
And we cheered and yelled with glee till we were hoarse.

As she passed the inner buoy, we sent up a shout of joy,
That made the Yankees shiver in their shoes;
For they'd never thought a minute that "Glencairn" would be in it,
And they'd never known what like it felt to lose.

Once again we did the trick, and it made the Yanks feel sick;
But they said our boat could never stand a blow;
So they prayed with all their might, through the watches of the night,
That the winds would rise and stormy billows flow.

Old Neptune heard their wail, so he sent them half a gale,
And his snow-white steeds went racing o'er the brine;
But the favor of the gods didn't make a bit of odds,
For the wee Canuck came first across the line.

So we won the silver cup, and the Yankees "set 'em up,"
Like the jolly dogs and sailors that they are;
And we drank with three times three to the heroes of the sea—
To the Yankee salt and to the British tar.

And now the race is o'er, and they're safely back once more,
Let us pledge the health of skipper and of crew,—
"Here's the best of luck and life to our Duggan and his wife,
And a rousing cheer for Shearwood, bold and true!"

THE COMING C. A. A. O. REGATTA AT BROCKVILLE.

[Special to the Star.]

Brockville, Ont., July 23.— For the 17th annual regatta of the C. A. A. O., to be held in Brockville on August 6, 7 and 8, the biggest and best programme ever presented is being prepared. The big events will be participated in by crews from different parts of the continent. The regatta programme proper will include the following events:

Senior fours, junior fours, senior singles, junior singles, senior doubles, junior doubles, intermediate fours, pair oars and intermediate singles.

Twenty-one elegant medals will be given for the above events. The trial heats will be rowed on the 6th and the finals on the following day. On the 8th a race for the new half-raters will take place. A large number from Montreal are expected to compete for the prize, a handsome trophy, and this special attraction will be peculiarly interesting owing to the excitement in aquatic circles that these crafts are creating. The possibility of a war canoe race is good, open to all clubs. A long list of aquatic sports will be presented in addition, including high jump, flying trapeze, greased pole, obstacle race, etc. One of the chief features of the big event will be a grand flotilla, the finest ever seen on the St. Lawrence.

The lovers of land sports will be remembered, and a grand bicycle meet will form one of the attractions. Liberal prizes will be given in every contest.

On Friday, the 7th, the Young Capitals, of Ottawa, will play an exhibition game of lacrosse with the Brockvilles, and the Mastodon Minstrels, that will accompany them, will give a performance at the Opera House in the evening.

The hotels are making preparations to accommodate a big crowd of people. The beautiful natural location of Brockville will make it a charming spot for a big aquatic event of this kind.

THE HALIFAX SUMMER CARNIVAL.

Halifax, July 23.—Edward Hanlan, the oarsman, arrived here yesterday from Toronto. Hanlan brought a single scull with him, but it was stove in at the bow while on the car, and will be repaired here. Immediately on his arrival Hanlan went to the Lorne Club, and took a spin in Hackett's single. He also saw the Gaudaur four at work, and coached them a bit. His boat was smashed through some bicycle parts being piled on it. The competitors in the single scull race next week will number at least nine, as follows: J. G. Gaudaur, Atherley, Ont.; E. D. Rogers, Schuyler, N.Y.; J. J. Casey, South Boston; George Bubear, London; William Barry, London; S. Haines, London; L. Lovett, Halifax; Edward Durnan, Toronto; Edward Hanlan, Toronto The entries for the double scull event now number four; Gaudaur and Rogers, Casey and mate, Bubear and Barry, Durnan and Hackett. There are likely to be seven crews in the principal event of the regatta, the international four-oared race for the professionals, as follows: English crew, Canadian crew, Boston crew, St. John crew, McLeod-Sullivan crew, St. John; Eedford crew, Halifax crew.

THE METEOR WON AGAIN.

Dublin, July 23.—The race for the large raters in the channel, under the auspices of the Kingstown Yacht Club, was yesterday won by the Meteor. The Ailsa was second and the Britannia third. The Satanita finished last.

THE GLENCAIRN CELEBRATION.—THE ROYAL ST. LAWRENCE YACHT CLUB HOUSE GROUNDS AS SEEN FROM THE ROAD.

WHEEL.

ONLY A BICYCLE PUMP.

From the Lewiston Journal.

A Lewiston lady has two sons. One of them was obliged to submit to a somewhat painful though not dangerous surgical operation the other day.

After the doctor had gone the lady found an instrument on the floor. She picked it up carefully, washed it in a solution of carbolic acid and sent it to the doctor with a polite little note.

The messenger came back with the instrument and a note saying: "Dear Mrs. M.— you are very kind, but the instrument is not mine. I do not know just what it is, but I have an idea that it is used to hypodermically inject oxygen, hydrogen, nitrogen and other component gases and to correct a debilitated, flabby and inchoate puncture fin of air. In other words, I think that if you show it to your other son he will tell you what it is."

She carried it to her boy and said:

"Whose is this?"

"Mine," said he.

"What is it?"

"My bicycle pump."

She tossed the nickel-plated thing at him and went away smiling.

THE GLENCAIRN CELEBRATION—DISCUSSING THE VICTORY.

THE WHEEL TEST OF LOVE.

"It must be a gratification to the feminine world," he said, "to find that there is at last a supreme test of love. There must be a great deal of satisfaction in the knowledge that it is at last possible to put a man on record and find out whether he is really and truly in love."

"I don't believe I quite follow you," returned his wife. "There have been all sorts of tests of love, but none has proved infallible so far as I can learn."

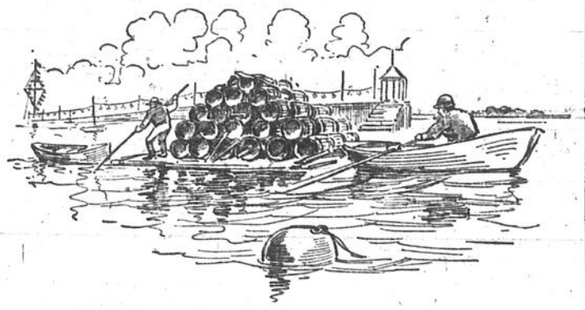

"Then you haven't given any attention to the bicycle test," he asserted.

"I don't see what test of love there is about a bicycle."

"That's because you have never tried to run around the block holding a pretty girl on one," he explained. "I've seen many a young man try it, and his face glowed with pride and pleasure—at first. It is a great joy to have the privilege of holding a pretty girl on a bicycle while she screams and throws her arms around your neck every time you let the wheel careen a little. It is good exercise, too, to run with the wheel and steady it, but there comes a time when there seems to be a degree of monotony about it that is painful. In a case where there is no real love this comes about the second trip around the block. If a man smiles at the end of that you may be sure that it is more than a mere passing fancy, and if he makes a third trip it is evidence of sincere affection at the least.

"If he keeps his appointment to repeat the performance the second day the case is unquestionably one of love, and if he is on hand the third day it is proof of the existance of a wild, weird, Ella Wheeler Wilcox poems of passion devotion that will cause the fire insurance to be canceled on every house that they may rent for their honeymoon. Oh, the bicycle as a test of love is unequaled."

"John," she said coldly, when he had finished his dissertation.

THE GLENCAIRN CELEBRATION—TOWING THE MONSTER RAFT INTO THE RIVER.

"Yes, dear."

"You know too much about the business of teaching girls to ride."

"You forget, dear, that I gave you lessons," he protested.

"One lesson," she corrected, holding up one finger to impress the number upon him, "and the second day you sent a messenger home to say that you were busy at the office and wouldn't be home till late."

He whistled softly to himself and made a hasty calculation to see whether he could afford theatre tickets and a new gown, for he knew no other combination would square him.—Chicago Post.

FOOTBALL.

SAILORS vs. THE POINT.

A very pleasant game of football was played last evening between teams from the steamship Labrador and the Point St. Charles Institute. The game was evenly contested, the result being a draw, two goals each. The Points scored a third goal, which the referee allowed, but it was disputed by the sailors, they claiming that the ball went outside. The following were the teams:

Ss. Labrador.		Pt. St. Charles In.
Jones (Capt)	Goal	Mallinson
Brighton	Full-backs	Duberry
Ingham	"	J. Burchmore
Jefferson	Half-backs	Jehu
Henshaw	"	Duncan (Capt)
Broad	"	Pritchard
Malcolm	Forwards	Lees
Leahey	"	John Smith
Benson	"	W. McQueston
Linford	"	R. Hanson

Referee—Mr. A. Clibbon.

THE IRISH CONVENTION.

A Delegate Chosen—St. Patrick's Society to Meet This Evening.

Considerable interest is manifested in this city over the coming Irish National Convention which is to be held in Dublin shortly. A meeting of St. Patrick's Society will be held to-night for the purpose of discussing convention matters and naming delegates. The plan of the convention is that the United States, Canada, Australia, England, Scotland, etc., should send their best men to advise with the representatives of Ireland as to the best means of restoring unity in the Parliamentary Party. The visiting delegates will not vote in the convention; but their presence will undoubtedly work upon public opinion both in England and Ireland, and if their views—insisting on unity—be the means of eradicating dissension from the ranks of the people, the battle will be won. With this end in view, it is proposed that the delegates from abroad, in addition to speaking in the convention, should deliver a series of addresses to the people themselves in the principal cities and towns of Ireland, and perhaps in London, Liverpool and Glasgow.

The names of a large number of prominent citizens are already mentioned to represent Montreal.

At a special meeting of the Young Irishmen's Literary and Benefit Association held last evening, Mr. Ed. Halley was appointed delegate to the convention.

A NEW ENGLISH COLLEGE.

Jesuit Fathers will Open One in September.

It has been reported for some time past that the Jesuit Fathers intended opening an exclusively English classical school in this city. The report is true, and on September 2nd everything will be in readiness for the reception of pupils.

For the present the new college will be opened to students of the grammar classes only, and the higher classes of the English classical course will be continued at St. Mary's College, Bleury street, where for the past seven years the English course has been taught and well attended.

The Fathers have rented the very suitable buildings at the corner of St. Catherine and Bleury streets, lately vacated by the Ladies of the Sacred Heart. The Rev. Gregory O'Bryan, S.J., for several years engaged in mission work throughout Canada, has been chosen president of the new college. This step has been taken at the earnest solicitation of the English-speaking clergy and laity of the city; and they have promised every help towards furthering this praiseworthy undertaking.

THREE RIVERS EXHIBITION.

Hon. J. T. Tarte, Minister of Public Works, has informed Mr. P. E. Pahneton, president of the Three Rivers Regional Exposition Company, that after consulting with the Premier, the new Government have decided to grant $5000 for the autumn exhibition with the understanding that the buildings to be erected for the dairy and Experimental Farm exhibits is to remain the property of the Dominion Government, and that the Minister of Agriculture is to be a member of the board of management. The local Government has also promised a similar amount of $5000.

ANCIENT HIBERNIANS.

At the meeting of the Hochelaga County Board of the Ancient Order of Hibernians on Monday evening, the assembly was honored by a visit from State President O'Neill, of Portland, Me. During the evening this gentleman presented the Board with photographs of the uniformed rank of Portland, who were the guests of the Montreal brethren last St. Patrick's Day, and whose presence was the grand feature of the parade. Mr. O'Neill delivered a pleasing address, which was replied to by County President Clarke.

VETERAN FIREMEN'S PICNIC.

The Montreal Veteran Volunteer Firemen's Association, at their querterly meeting last evening, Mr. William Cunningham in the chair, decided to hold the annual picnic at Isle Gros Bois, in Thursday, August 27. The general committee was authorized to make all necessary arrangements.

PAYETTE'S DEATH WAS ACCIDENTAL

SO DECIDES THE POLICE MAGISTRATE.

He Was Sick and Standing in a Dangerous Spot a Short Time Before He Fell Overboard—The Body to Be Disinterred.

"After hearing the evidence of the witnesses and weighing their testimony carefully, I have come to the conclusion that Napoleon Payette's death was accidental, due more or less to his own carelessness."

Such was Magistrate Lafontaine's decision in the Payette case this morning, thus dispelling the parents' suspicion that the young man had been murdered. As stated in yesterday's issue, an enquiry into the circumstances surrounding the affair was conducted in the Police Court. Four young men, close friends of deceased, who were near him a short time before he disappeared, were examined. Their evidence was to the effect that only a few minutes before the alarm was raised they saw Payette standing outside the main railing on the upper deck, clinging to a post. A high wind was blowing at the time. They warned their friend of his danger.

Payette's reply was that he was ill, and that he preferred that part of the boat to any other. He said he would be better directly.

After that he was never seen. The deck was very slippery, and as the boat was rocking the Magistrate considered it highly probable that he lost his hold on the post as the boat lurched and fell overboard.

Coroner Prevost, of Sorel, has written the Attorney-General asking that the body be disinterred and buried according to the rites of the Church. He also requested that all the articles found on the body at the time be sent to the deceased's father.

DIOCESAN COLLEGE.

Formal Opening to Take Place on October Twenty-First.

The new Diocesan Theological College on University street will open its doors for the reception of students on the fifteenth of September next. On this date lectures will begin in the several classes, and the active work of the college will be commenced in the new building. The formal opening will not take place, however, until the twenty-first of October, owing to the fact that the building will not be entirely finished until shortly before that date. It is proposed to make the occasion one of great interest. Invitations will be sent to the members of the Canadian Episcopate, to a large number of clergy, to the graduates, and to several of the prominent educationists of Canada and the United States. His Lordship Bishop Bond will conduct the services in connection with the formal dedication.

The handsome new building is rapidly approaching completion, although much yet remains to be done. The workmen are busy at present in placing in position the oak wainscoting in the lower corridors and in the convocation hall. The stalls, altar and rood screen have yet to be placed in the chapel, and the whole building has to be suitably tinted throughout. Mr. A. F. Gault, the generous benefactor, to whom the college authorities are indebted for their new home, is about to place in the chapel a handsome window to the memory of his brother Robert.

The Principal's house is about finished, and Canon and Mrs. Henderson are moving into their new quarters this week. Principal Henderson, who has been very ill for some months past, is improving in health, and was able to take a drive yesterday afternoon.

FRESH AIR EXCURSION.

Another Pleasant Day's Outing for Mothers and Children.

The steamer Duchess of York carried another large and joyful party of women and children excursionists off to Sherringham Park this morning. This was another of those delightful out of town trips which the charity of the contributors to the Fresh Air Fund enables so many families of the poor of the city to enjoy. The usual scenes were witnessed at the start, which was made at half-past eight punctually from the Canal Basin.

The following ladies and gentlemen kindly looked after the comfort of the young excursionists: Mr. Charles Alexander, chairman of the committee; the Rev. J. Patterson, vice-chairman; the Rev. E. McManus, and Messrs. George Simpson and Hopkins, and Mesdames Sinclair, Miller, White, Murray, Campbell, Lee, Kyle, Ohling, Wallace and Webster, and Misses McLeod, Blackwell, McManus, McSween and Reid, B.A. The Rev. John and Mrs. Nichols embarked at Seigneurs street bridge, and also lent their assistance to the other ladies and gentlemen.

God Save the Queen.

GRASSHOPPERS PLENTIFUL.

A correspondent of West Brome, Que., writes: Grasshoppers are innumerable and voracious in this section. The high lands testify to their presence by the ravages apparent on all sides. Hay and grain are being devoured with equal eagerness, and a sight not uncommon is a field of hay with the heads completely clipped off. Still the moist weather is diminishing the injury considerably.

ST. SIMON'S CHURCH.

A very gay and merry lot of children and teachers of St. Simon's Church Sunday School left St. Henri's Town Hall yesterday morning in a special car to Jacques Cartier Square for the boat to Isle Gros Bois for their annual picnic. After partaking of a very substantial dinner, games and races and distributing of prizes were the order of the day. All returned home pleased with their outing.

FARMERS FROM LEEDS.

The members of the Leeds County Farmers Institute, accompanied by their friends, making a party of between four and five hundred people, will arrive in Montreal this evening by special train. The major portion of the excursionists are expected to remain in Montreal for two or three days.

CHAS. DICKENS' THE YOUNGER.

Charles Dickens, whose death was announced from London yesterday, was the eldest son of the famous novelist and was born fifty-nine years ago. He was an amiable and intelligent gentleman, but inherited little or more of his father's peculiar genius. His bent was towards mercantile life, and in his youth he went to China in the employ of the banking house of Coutts & Co., the Baroness Burdett-Coutts having exerted her influence in his behalf. In the unfortunate domestic troubles of his family he espoused the side of his mother, but he never lost the good will of his father. Upon the death of the latter he undertook the management of All the Year Round and conducted it successfully for some time although in the end he was obliged to consent to its consolidation with Household Words, of which publication he became the editor. As a writer he did little beyond the compilation of some satisfactory hand-books of the Thames and other localities, but as a speaker he displayed no little ability, humor, and fluency, and it was this capacity which led him to undertake the experiment of giving readings from his father's works. These proved very popular, and may be best described as excellent imitations of the original. Mr. Dickens visited America in 1887, reading in Chickering Hall, New York, and elsewhere. He created a very pleasant impression both on the platform and in private.

EARLY CLOSING.

A Writ of Mandamus Issued to Compel the Recorder to Render Judgment.

Mr. Arthur Globensky took out a writ of mandamus this morning on behalf of Mr. C. E. Fournier, architect, for the purpose of compelling the Recorder to pronounce sentence in the case of Mr. J. G. R. Baker, grocer, who, being summoned, pleaded guilty to having infringed the early closing bye-law. This happened subsequently to the Recorder's having decided not to enforce the early closing bye-law, on the ground, it will be remembered, that it discriminated against certain classes of the population. It is argued, however, that the Recorder has no right to discuss the justice or injustice of a law or bye-law. If the same is within the powers of the body enacting it, the Recorder has no choice but to accept it. The Recorder's reply to the writ of mandamus will be filed in due course.

SUING THE CITY.

Alexandre Lippe, notary, has taken an action against the city for $3600, the alleged value of his land, taken by the city for the opening of Forsythe street.

PETITION DISMISSED.

Not Allowed to Proceed in Forma Pauperis.

In the case of Beaupre against Villeneuve, in which, it will be remembered, Dr. Villeneuve is being sued for $3000 damages on the alleged ground of his having conspired with the wife of Beaupre to have that party kept in confinement at St. Jean de Dieu Asylum, although cured of his insanity, Mr. Justice de Lorimier has dismissed Beaupre's petition to be allowed to proceed in forma pauperis. It appeared from an affidavit filed this morning by Dr. Villeneuve, that Beaupre had been confined in the common gaol, when Dr. Villeneuve had been requested by the sheriff to inquire into his mental condition. Dr. Villeneuve had pronounced him insane, and Beaupre had accordingly been transferred from the gaol to the asylum where, being still insane, he is still confined. Dr. Villeneuve states that there is not the shadow of a conspiracy between himself and Beaupre's wife.

Gendron Bicycle

COOPER AND SANGER

Paced by McCALL and GRATZ on their

Gendron Tandem

made the wonderful time of **1.58 2-5,** the fastest mile ridden on a Canadian track. July 21st, FRED YOUNG on his **GENDRON SINGLE WHEEL** rode one mile unpaced in **2.14,** beating the previous record of 2.18.

If you are in need of a pretty, easy-running wheel see the Gendron before purchasing. We have them for Ladies or Gentlemen in Black Enamel or Aluminum finish.

Starting from Monday, July 27, we will have a Bicycle Livery in connection with the establishment. Good wheels only of the latest designs, at reasonable prices, will be kept.

Real Summer Values At Unreal Bargain Prices

We have good reasons for them, too. We haven't the room nor the inclination to carry over any summer stock. We do have the price cutting privilege, though, and we have used it. Nothing very sensational about this sale—quiet, convincing prices not promises are reasons for our rapid clearings—but more than this, quality first, quality last and quality all the time. We'll quote some prices, you must come and see the quality.

FLANNELETTES 5 3-4c A YARD One of the most timely and most saving chances of the sale. Cool, wear worthy goods for children's dresses especially, in pretty colorings.

ENGLISH PRINTS 7 1-2c Just a bit prettier and cheaper than any other genuine English Prints we ever offered. The color wears as long as the goods—they will not fade.

BEST SCOTCH GINGHAMS 10c Another case of the real article at a very unreal price. Who would expect to get the best Zephyr Gingham less than 20c a yard. No one expects it, that's why our 10c offer is so much appreciated.

SILVER SILKS AT 29c Many don't know exactly what these silks are—firm, lustrous goods in light or dark figures or stripes. Those who know the goods hardly recognize the new sale price. The lowest worth price was 39c.

These are only suggestions. Remember price reductions are general this month and the goods quality is the best.

Children Cry for Pitcher's Castoria

Hamilton's Friday Bargain Day,
JULY 24th, 1896.

All Previous Records Eclipsed.

A SALE THAT WILL NEVER BE FORGOTTEN.

9000 LADIES' SHIRT WAISTS bought at our own price from a leading New York Waist Maker, this season's styles, high turn over 4-ply Laundried Collar and Deep Cuffs, Large Bishop Sleeves, made of fine quality Percale in dainty effects and colorings. All guaranteed perfect in fit and finish. It was, to say the least, a plucky purchase so late in the season. A big lot 9000 Waists, but the price tempted us. We saw a chance of offering the Ladies of Montreal such a gift—it is more than a Bargain that would be appreciated by them. We state without fear of contradiction that there has never been offered in Quebec, Toronto, Montreal or any other part of Canada, the style and quality of Waist we show at less than from $1.00 to $1.25. We have only till August 15th to sell them, which means we must sell them at the rate of about 450 per day. To accomplish this we have marked them at less than one-half their actual value or - - - - - 49c

Words of ours fail to describe the importance of this Wonderful Bargain Occasion. We simply ask you to call and see the GREAT PRACTICAL Demonstration in our 4 St. Catherine St. Show Windows on Friday morning, from 10 to 12, and in the afternoon from 3 to 5, when four of our young lady assistants will alternately try on these Waists, giving Ladies an opportunity of seeing the style and fit of each garment.

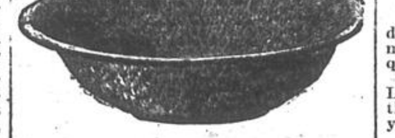

The above Waists must not be confounded with the many "cheap," small sleeves or last season Garments now being advertised. Come and get first choice on Friday.

CONFLICTING TESTIMONY.

Seaman Brown's Strong Statement Against Brane.

THE MATE SAYS THAT BROWN MUST HAVE KILLED NASH.

Evidence Given Before the American Consul in Halifax.

[Special to the Star.]

Halifax, N.S., July 23.—The Court House was packed to-day with an excited crowd, gathered to see the crew of the Herbert Fuller arraigned. The police officers experienced the greatest difficulty in keeping the crowd from surging against the Magistrate's desk.

Two desks were knocked down in the confusion, and a door was forced off its hinges. There was great disappointment when it was announced that the inquiry had been commenced in another part of the building before the American consul. The examination was of a Star Chamber nature; the press was excluded.

The most important evidence was that given by Seaman Charles Brown, who stated that he saw the first mate leave the deck and go to the chart room.

He also saw the mate Brane strike Captain Nash with an axe and knock him off the couch.

Later he heard Mrs. Nash scream. Immediately after the mate came on deck he went to Brown, who was at the wheel, and asked Brown how the ship was steering. The mate's breath smelt strongly of whiskey. Brown was afraid to ask any questions, and the mate went forward. Immediately afterwards the passenger Monck came on deck and the mate fired a piece of wood at him, and Monck raised his revolver.

The mate Brane also gave evidence. He said he had left Brown at the wheel to go forward, and during this time Brown must have left the wheel and committed the murders. Brane admitted that he threw a billet of wood at Monck, because he was afraid that he would be shot by Monck, who had a revolver.

THE LIVERPOOL CUP.

Croker's Horse, Santa Anita, Ran Unplaced.

Liverpool, July 23.—(Special.) — Lord Derby's three year old Canterbury Pilgrim won the Liverpool Cup, to-day. Lord William Beresford's Paring III was second, and Mr. J. Wallace's Spook, third. Mr. Richard Croker's Santa Anita was not placed.

The Liverpool Cup is valued at 1200 sovereigns, part in plate or the whole in specie at the winners option; the second horse receives 125 sovereigns and the third 75 sovereigns, out of the stakes. The race is a handicap for three-year-olds and upwards, one mile and three furlongs.

The Seaforth Welter Handicap of 100 sovereigns for three-year-olds and upwards, entrance three sovereigns, winner and second free, nearly six furlongs, was won by Spinning Boy, Mr. Richard Croker's Eau Gallie (formerly Utica) was second and Mogul was third.

London, July 23.—At Hintingdon today the race for the Apethrope Welter plate of 100 sovereigns, one mile, resulted in a walk over for Mr. E. Wishard's Wishard, three years old.

THE MEETING PUT OFF.

(Special to the Star.)

Ottawa, July 23.—Council was called for eleven o'clock this morning when there was some important business from the Departments of Trade and Commerce and of Marine and Fisheries to come before the Cabinet, but owing to the sudden departure of Hon. J. Israel Tarte for Montreal this morning there was no quorum. The Premier, Sir Richard Cartwright and Hon. R. W. Scott, sat for three-quarters of an hour in conversation and then adjourned. Sir Richard Cartwright leaves for South Oxford this afternoon. Hon. Wilfrid Laurier will leave the city to-morrow for St. Johns and Iberville.

NO CAMP THIS YEAR.

(Special to the Star.)

Ottawa, July 23.—It is understood that the fiat is about to issue that there will be no militia training camps this autumn. The question, it will be remembered, was referred to the Deputy Adjutants General of the various military districts to take the opinion of the commanding officers of corps. The majority of the onswers for commanding officers are now in, and on account of the lateness of the season, are adverse to the holding of camps this year.

M. SPULLER DEAD.

Paris, July 23.—Senator Seraphin Eugene Spuller, Minister of Public Instruction in the Cabinet of M. Rouvier in 1887, and later Minister of Foreign affairs in the Tirard Cabinet, died to-day at Dijon after a long illness. He was born December 8, 1835.

A REPORT DENIED.

[Special to the Star.]

Toronto, July 23. — Superintendent Morrice denied the report that the Grand Trunk shops here are to be removed to London or Stratford. He says none of the officials have heard of any such change.

MORE TAILORS OUT.

New York, July 23.—The 9000 tailors who went on strike yesterday for shorter hours, had their number increased today by 400 men employed in fifteen shops, who left work voluntarily.

A BREAK IN THE ERIE.

Albany, N. Y., July 23.—A break in the Erie Canal on the four mile level above Schenectady, was reported this morning.

DONNELLY FOR PRESIDENT.

St. Louis, July 23.—There is some talk of running Ignatius Donnelly, as a straight Populist candidate.

OBITUARY.

London, July 23.—A despatch from Cologne announces the death of Adelph Ebeling, the writer.

FOR RAISING THE GREEN FLAG.

Lawrence, July 23.— In court yesterday, Patrick O'Brien, a contractor, was fined $10 for placing an Irish flag above an unfinished public school building, in violation of the statute. O'Brien's counsel, when the case was heard, July 7, raised the point that the green flag is not an emblem of any foreign country, because Ireland is not an independent sovereignty. The judge took this point under consideration, and rendered his decision. O'Brien took an appeal to the Superior Court.

POLITICAL GOSSIP.

Those Queen's Counsel—Sir John Macdonald and Mr. Charlton.

Toronto, Ont., July 23.—(Special.)—The World's Ottawa special says: "In connect on with the proposed cancellation of the recently appointed Queen's Counsel, it may be pointed out that there is more involved than the mere rescinding of the act of the late government. Students of Ontario politics know well that Sir Oliver Mowat has all along contended that the power to appoint Queen's Counsel was vested in the provincial authorities, and not in the Federal authorities, but no action was ever taken to settle the point."

SIR JOHN'S INVITATIONS.

Toronto, July 23.—(Special)—The Globe says: "The recent statement made relating to negotiations between Sir John Macdonald and Hon. David Mills for securing a coalition Government, in which six Liberals were to have seats, calls for the mention of a fact not heretofore made public, regarding an attempt of Sir John to get Liberal aid in another direction. In 1890, acting upon the belief that the relations between Mr. John Charlton and his Liberal colleagues were somewhat strained in consequence of the position of the latter on the Jesuit Estates question, Sir John had an overture made to that gentleman by a party in his confidence asking Mr. Charlton to take a seat in his Ministry. Mr. Charlton replied that "if Sir John would abolish the franchise law of 1885 and the gerrymander act of 1882, and would go in for unrestricted reciprocity with the United States," he would take the proposal into consideration. This answer closed negotiations.

A PETITION AGAINST MR. MONK'S RETURN IN JACQUES CARTIER.

A petition against the return of Mr. F. D. Monk, Q.C., M.P., for Jacques Cartier, was filed to-day. The petitioner is Ovida Beaudoin, laborer, of the town of Lachine. Mr. F. X. Choquette, Q.C., advocate, represents the petitioner. The petition alleges the usual grounds of corruption.

POLITICAL TALK.

At a Liberal convention in Beddeck, C. B., yesterday, Hon. George H. Murray, the new Premier and Provincial Secretary, of Nova Scotia, was nominated as the party candidate in Victoria County for the vacancy in the House of Assembly.

Joseph Martin has left Ottawa for Winnipeg, and it would appear that he did not succeed in getting the interior portfolio.

ANOTHER BROOKLYN BRIDGE.

Plan for a Structure Only for Railways.

New York, July 23.—James Howell, president of the Board of Trustees of the Brooklyn bridge, has become interested in a project for the building of another bridge to connect New York and Brooklyn—a bridge which shall be designed exclusively for railway transportation. He outlined the new project as follows: "I have been requested by a number of prominent citizens to prepare plans for an all-railway bridge, and they are now under way. There will be one plan for a four-track bridge and another for a six-track bridge. I am in favor myself of a six-track bridge, for the reason that I think it will be adequate for all time to come for this part of the city, and it will thereby save the expense of changing and alterations, which have been so heavy a cost on the present structure. The cost of the all-railway bridge will not exceed $10,000,000, and the one with six tracks will be planned at a width of sixty feet and the four-track bridge forty-five feet wide. The new bridge should be situated on the north of and as close as possible to the old bridge, and would be used by the surface and elevated roads exclusively. An arrangement with the New York companies could easily be effected, so that passengers could be carried over the bridge and then carried either up or down town in New York, without changing cars. A four-track bridge could easily carry fifty thousand passengers per hour each way, and the six-track bridge could carry seventy-five thousand. I would charge a one-cent fare for passengers crossing the bridge, and, in my opinion, as soon as the bridge is completed, it would carry at least 150,000 passengers per day. Five years after completion, this number would be increased to not less than 300,000 every twenty-four hours. Now, at a one-cent fare, the first year's receipts at an average of 150,000 per day would be $550,000, and in five years' time this would be increased to over $1,000,000 yearly. For maintenance I don't think the expenses would be over $50,000 yearly, as it would consist only in repairing and painting. When the plans are completed it is intended to have them put on exhibition and called to the attention of the public, and perhaps the cities can be induced to build the bridge. If they will not, there is no doubt that capitalists will be glad to do so, and the matter will be laid before them. Of course I would rather have the cities build the bridge as I think they should own all the bridges."

FAREWELL TO "FATHER" CLARK.

Christian Endeavorers Throng People's Temple for an "Echo Rally."

Boston, July 23.—Hundreds of Christian Endeavorers assembled in People's Temple on Wednesday evening and gave a fervent farewell to "Father" Clark, the founder of the movement, who left on Thursday for a tour around the world. The meeting was also an "echo rally" of the recent convention in Washington, and the whole atmosphere was charged with enthusiasm. When Dr. Clark appeared on the platform he was greeted with a Chautauqua salute and the Christian Endeavor chorus sang "Speed away on your mission of light!"

Rev. W. E. Barton, the first speaker, told about the Washington trip, during which time, he said, there was not one grumble. Rev. Arnold Struell, of Manchester, England, gave an entertaining account of the movement in the British domains, and William Shaw, treasurer of the United Society, spoke about its financial condition; and Rev. Joseph B. Morgan, of Chester, Eng., president of the British National Council, gave some statistics showing how the work is growing and strengthening in lands across the sea. Rev. John T. Beckley also added his word of testimony for the Society, which, he said, did much to do away with the color-line in Washington.

Rev. Nehemiah Boynton, D. D., formerly of Boston and now of Detroit, spoke the "God speed" for the Endeavorers, saying: "You go with our heartfelt love. You can travel a great way from this place, but you will never pass out of our memory, our hearts or our prayers. May God bless and keep you. Take, then, these simple words: Our hearts, our hopes, our faith are all with you on your journey."

Dr. Clark had risen and grasped the extended hand of Dr. Boynton. When Dr. Clark began to speak there was a wild uproar of applause, and the Chautauqua salute was given. He said:

"Fellow Endeavorers,—I have received the right hand of fellowship from Dr. Boynton, whom we are all glad to see back in Boston. He has spoken for you, and I feel that I shall remember it as I go away for service on the other side of the water. I shall feel stronger for this meeting. We have a work to do greater than any we have done yet. That is the true meaning of the thoughts of things beyond this world. We have drawn half a dozen different denominations together. In Washington there were thirty different denominations represented. Think of it! It is not only an interdenominational society, it is an international society. We have peace and brotherhood to work for, to bring the world to the feet of the Prince of Peace."

THE QUEEN'S PRIZE.

Hayhurst Drops Down in the Second Stage.

London, July 23.—The second stage of the shooting contest for the Queen's prize at 500 yards was begun at the Bisley camp this morning. Thus far Thompson, of Edinburgh, leads in the contest with an aggregate score of 140; Hayhurst, of the Canadian team, and last year's winner of the prize, is second, with an aggregate of 139. Hayhurst scored 46 at the 500 yard range. The scores of the other Canadian marksmen at this range were: Campbell, 41; Crowe, 38; Neill, 36; Sergt. Mitchell, 40; Lavers, 37; and Munro, 40, out of a possible 50.

At the conclusion of the 600 yard stage of the shooting for the Queen's Prize, Captain Foster of the Surrey regiment was in the lead, with an aggregate of 193, thereby winning the silver medal. The scores of the Canadians at the 600 yard range were: Munroe, 58 Sergt. Mitchell, 57; Crowe and Lavers each 51; Campbell, 48; Hayhurst, 45.

The scores of the Canadians in the first two stages are as follows: Hayhurst, 181; Sgt. Mitchell, 184; Munroe, 180; Campbell, 179; Crowe, 178; Lavers, 170.

Hayhurst, Mitchell and Munro's aggregates qualify them to shoot in the final stage for the Queen's Prize on Saturday.

In the 500 yard stage of the shooting for the Daily Graphic prize, Campbell, Hayhurst and Runyons each scored 31, and Lavers and Ogg each 30.

AFTER CANADIAN WORKMEN.

Pawtucket, R. I., July 23.—The emigration authorities at Boston are investigating the case of the employees of Messrs. Heroux Freres, of Quebec, who have the contract for building the new Roman Catholic Churches at Pawtucket and New Bedford. These men live in Canada, having been employed by the same firm for many years, but it is claimed that the engagements under which they are at present working were made in the United States. Still the officials claim that these engagements constitute an evasion of the Alien Labor Law, and the matter has been referred to Washington.

CHESS AT NUREMBERG.

Nuremberg, July 23.—Up to one o'clock the time of adjournment, the following results were recorded in the fourth round of the chess tournament: Steinitz beat Maroczy in a Ruy Lopez after 24 moves; Tarrasch beat Marco in a P Q4 opening after 31 moves; Schiffers and Porges drew a French donenc after 36 moves.

A FURRIER IN TROUBLE.

Toronto, July 23.—Joseph Rogers, the well-known furrier, was committed for trial by Magistrate Kingsford this morning. In connection with Mr. Rogers' recent assignment it is shown that goods were sold and others shipped of which there was no proper record, and a charge of conspiracy to defraud was laid.

MILLAIS VERY LOW.

London, July 23.— Sir John Millais, President of the Royal Academy, who on May 10 went under the operation of tracheotomy, and has since been under medical treatment with varying results, suffered a relapse to-day and is in a very critical condition.

THE METEOR WON.

Dublin, July 23.— The Meteor won the race for the large raters in the Kingstown regatta to-day. The Ailsa was second, the Britannia third and the Satanita last.

BANANA PEEL AGAIN.

Mr. H. Daigneault, 36 years of age, residing at 12 St. Jean Lane, met with a painful accident last night which necessitated his removal to the Notre Dame Hospital. While proceeding along St. Paul Street on his way home, he slipped on a banana peel thrown on the sidewalk by some careless person and as a result was precipitated through a plate glass window. Mr. Daigneault's head was badly cut. His left ear and eye were also injured. There were also several small cuts caused by the glass.

A PRIEST'S DEATH.

Rev. Father Ernest Duguay, Prefect of Studies at St. Mary's College, died yesterday at the age of 44. He was a native of La Baie du Febvre, Yamaska County, and had been educated at Nicolet College and the Montreal Seminary. He spent some years in Europe, in England, France and Italy in various Jesuit Colleges. In 1879 he was ordained to the priesthood and was most popular with the students of the college. The funeral is to take place at the Jesu to-morrow morning at eight o'clock.

TO SAIL FOR ENGLAND.

The Dominion line steamship Labrador, sailing from this port for Liverpool on Saturday morning next, will carry a number of well-known people. Among them are Mrs. Clarke-Murray, wife of Professor Clarke-Murray, of McGill University. She will be accompanied by her daughters, Miss Greta, Miss Gracie and Miss Bessie. Mr. McCormick, Mr. G. H. Horsfall and Mr. William Ware, of this city, and Major A. E. Hay, of England, are also among those booked.

PERSONALS.

Mr. A. P. Willis, Mrs. Willis and family are spending the summer months at their beautiful place, "Idlewild," on Lake Champlain, near Rouse's Point.

Mr. George Hadrill, secretary of the Board of Trade, returned this morning from Long Island, Me., where he had been on a two weeks' holiday.

Miss Mary E. McKay, of the editorial staff of the Globe, Boston, Mass., is in town on a brief visit, staying at the Albion.

Mr. Selkirk Cross, Q. C., left for Toronto yesterday evening, by appointment with Sir Oliver Mowat, Minister of Justice.

TO SELL CITY PROPERTY.

MOUNT ROYAL PARK COMMITTEE RECOMMENDS IT.

Twenty-Five Acres at Cote des Neiges Owned by the City And Used as a Cow Pasture.

The Park Committee met this morning, Ald. Ouimet presiding, and decided to recommend to Council that the part of the Hodgson property at Cote des Neiges owned by the city be offered for sale at public auction at an upshot price of $1000 an acre.

The subject was brought up by a letter from Mr. Joseph Perrault offering to buy the property in question.

Mr. McGibbon, superintendent of the Park, explained that the property was part of an estate which had been purchased at the time it was proposed to extend Mount Royal Park to Shakespeare avenue, a thoroughfare projected to run from Cote des Neiges Road parallel with the southern boundary of Cote des Neiges Cemetery, to a point in the Park.

The properties acquired by the city consists of three sections of the original estate, the intervening portions being bought by private parties and held on speculation. Efforts to buy out the private investors had always failed, the holders insisted upon such high prices as to put them beyond the reach of the Committee. Consequently the city finds itself in possession of three pieces of land aggregating twenty-five acres, completely isolated from one another, and from the park, and useful only for cow pastures.

Ald. Prefontaine said that there could be no doubt as to the uselessness of the property.

The Morin estate which holds the property intervening between the Park and the city's detached property placed such a high value upon the land as to put its purchase out of the question. The city's property had increased considerably in value, and if it were sold the city would make a fine profit on the transaction, and the Committee would find itself with funds to water the Park roads properly and to make various needed improvements.

He moved that the Council be recommended to authorize the sale by auction of the property, reserving for the city the right of way to Mount Royal Park via Shakespeare avenue.

The motion was carried unanimously.

Mr. Badger, City Electrician, presented the report asked for at the last meeting, on the proposed lighting of Mount Royal Park at nights.

Mr. Badger estimated that it would require 124 arc lights, costing some $4612 to light the roads and park for on an average of two hours a night between the fifteenth of May and the fifteenth of September.

Mr. Badger added that to light merely the brow of the mountain as suggested by the Incline Railway Company, it would take 13 arc lights at a cost of $813.60 a season.

The report was laid on the table.

There were present at the meeting Aldermen Ouimet (in the chair), Prefontaine, Costigan and Dupre.

THE INDEPENDENCE CLUB.

To the Editor of the Star.

Sir,—The course which you have lately pursued in giving the wide publicity which your journal can do, to certain writings and sayings that have appeared in some of our city papers, and were evidently intended to reach only selected portions of the community, is apparently to be commended. The right of any person, either by writing or speaking, to suggest a course to be followed by any one section of the population, in reference to the future of this Dominion, whether the section be French or English, when such suggestions are, as far as possible, purposely withheld from the cognizance of the rest of the people, is, to say the least, very much to be questioned.

The future of Canada, every inch of it, belongs to Canadians, of every origin, race or language, that may be found within its borders, but with this one only condition, that they be faithful and loyal to the flag that waves over it, gives it rights and privileges and protects it in the fullest and freest enjoyment of such rights and privileges as are not surpassed if equalled by those of any other country in the world. If, therefore, our future is to be discussed, it should be discussed in the sight and hearing of every citizen of our common country—so that all interested, in so far as they are competent, may have opportunity to contribute their quota of knowledge or opinion for the general weal of our great Dominion.

It has betimes seemed to me that there be few who appreciate anything like its full value, what it is to be a British subject. In my humble opinion, a home under the British Crown, the security, safeth protection and liberty which Britain's constitutional government, pure unsullied courts of justice and the moral power which the British name wields all over the world is not to be exchanged for that of any other national name on earth.

The recent correspondence betwixt Lord Salisbury and Mr. Olney anent the Venezuela question and the proposed courts of national arbitration, shows how watchful and careful the Imperial authorities are over anything that can effect the person or property of a British subject, whatever his station or position in life, or wherever he may be found, so long as he is living on territory covered by the British ensign. Lord Salisbury is willing to arbitrate the bounds of disputed territory, but he will not jeopardize the rights of British subjects or submit them to the possibility of being adjudicated upon by a foreigner. Grand Old England it is no wonder that her sons and daughters never forget her.

Methinks it would be well for any cranks or traitors there may be in Canada, if there be any, to remember, that so long as the people of Canada, desire as they now undoubtedly do, to remain an integral portion of the British Empire, there is no power at present in sight, either amongst them, or north, south, east or west, that can dislodge them from their birthright inheritance, that is a home beneath the Union Jack.

W. CLENDINNENG.

TROPHY FOR THE N. R. A.

To the Editor of the Star:

Sir,— Here is a suggestion that Canada should raise a cup or trophy to be presented to the National Rifle Association of England. Are there in Canada enough dollars to offer something worthy? Leaving you to consider and arrange details,

OFFICIALS DENY THE STORY.

A despatch from Portland, Me., today states that there are rumors in that city of the discovery of frauds on a gigantic scale by travelling employes against the Grand Trunk Railway, covering the entire system for a number of years.

The officials at Point St. Charles when spoken to this morning regarding the matter smiled and said: "Simply the result of some one's overworked imagination," at the same time adding: "There is certainly no room for any gigantic frauds on the part of train or other employes, although slight discrepancies of an ordinary character may have been found as is occasionally the case."

REQUIEM SERVICE.

For Deceased Priests Ordained by Archbishop Fabre.

St. James's Cathedral presented a strange contrast this morning to that of yesterday morning, when the Archbishop was surrounded by two hundred of the priests he had ordained. To-day the cathedral was heavily draped in mourning and a huge catafalque had been erected under the large dome and was lighted up with innumerable lights. The occasion was a requiem service for deceased priests ordained by Mgr. Fabre. It was an impressive occasion and the sacred edifice was filled. The Archbishop officiated, with Rev. Canon Vaillant as assistant priest, Rev. Canon Martin and Rev. Canon Savariat as deacons and sub-deacons of honor, and Rev. Abbes Payette and Choquette as deacons and sub-deacons of office. The choir was a full one, and the music in keeping with the solemnity of the occasion.

Vicar-General Bourgeault to Act as Administrator of the Archdiocese.

Mgr. Fabre, who will leave for Rome towards the end of August, stated today that it was a visit ad limina, that is to say, to comply with the rule that all bishops must visit the Holy Father every three years or thereabouts unless dispensed, to report upon the state of religion in their respective dioceses. He stated positively that there was no other object for his visit. This is the sixth time that he has visited Europe and the fourth time as a bishop. His absence will last about four months, so that he will not return until about Christmas. While in France he will visit a number of religious institutions having branches in this country, and take part in a great French national pilgrimage which is to take place in the city of Rheims. Rev. Canon Bourgeault, vicar-general, will act as administrator of the archdiocese during his absence.

FATHER AND SON

To be Tried on Several Charges of Robbery.

Since the arrest of Joseph Mailleux and his father some time ago, Chief of Police Hebert, of Ste. Cunegonde, has been working hard piling up evidence against the pair. It will be remembered that the police found a large quantity of stolen goods at the home of the prisoners at Ste. Cunegonde, and has now succeeded in getting enough evidence against them to warrant their being placed on trial on two charges of shop-breaking and one of theft. Mr. Joseph Lalonde, merchant-tailor, identifies several pieces of cloth as having been taken from his store one night in June, when he lost over one hundred and fifty dollars worth of goods. Part of the jewellery found is supposed to belong to Mr. Joseph Sauve, whose store was broken into about the same time and two hundred dollars worth of jewellery stolen. The charge of theft is that of stealing twenty dollars in money from one Rosamond Robichan.

The men are already in gaol awaiting trial for stealing from L'Allemond's and several other places. The new charges are laid against the son only.

FOUR YEARS' IMPRISONMENT.

The Sentence Imposed on Balkin for Robbery.

Joseph Jacob, alias Balkin, the man arrested on Bleury street last Thursday night as he was stealing goods from a window which he had smashed in a clothing store, was this morning sentenced by Judge Desnoyers to four years in the penitentiary. Balkin, who is a fluent speaker, made a lengthy appeal to the Court for clemency, but as he is now known to the police, his somewhat flowery language failed to have any effect. He was not sentenced on the charge for which he was arrested, but on one which developed after he had been placed in custody—that of stealing several watches from Superior's second-hand store on Craig street. He was tried on this accusation and found guilty. To the first one he entered a plea of guilty and sentence was suspended.

ACCIDENT ON THE WHARF.

Napoleon Ducharme, aged 30, of Lanorie, Que., and Antoine Robidoux, of St. Thomas, Joliette County, also aged 30, were severely injured this afternoon while working at the wharf. Both were employed in transferring lumber from the cars to the boat, when the rope holding the truck broke, the latter descending with terrific force, burying the men beneath it. Both legs of the former were broken, while the latter suffered a fracture of the left leg and other internal injuries. The sufferers were conveyed to the Notre Dame Hospital.

CRUELTY TO A HORSE.

Inspector Ryan, of the Canadian Society for Prevention of Cruelty to Animals, this morning prosecuted Joseph Mongeur for working a horse in an unfit state.

He yesterday found a very old horse lying in a field in a miserable condition, and with the consent of the owner shot it.

MONEY AND STOCKS.

The Reserve Bolstering Movement—Quotations in Wall Street.

(Special to the Star.)

New York, July 23—The city banks that had informally agreed to turn in gold to the Sub-Treasury, were actively at work again to-day, and up to noon the total deposits aggregated $9,100,000.

President Tappen, who is looking after the details, said he expected that the Chicago banks would co-operate with the local institutions, but it could not be learned how much the Western banks will contribute. There is to be a meeting of the Philadelphia Clearing House to-morrow, and the matter will come up for discussion there.

It is estimated that when the bankers throughout the country have completed their arrangements the Government's hoard of gold will be increased in the sum of $23,000,000. No details could be obtained to-day of the plan of the committee of seven appointed by the foreign bankers yesterday. It is a fact, however, that sterling exchange was reduced 1-2 cent, and this is considered proof positive that the committee is at work. It can be stated that their plan provides for an abundant supply of long bills, and will have the assistance of the local banks if necessary.

These bills will carry remitters over until the crops move more freely and commercial acceptances press on the market in great volume. It can be asserted, therefore, that the exchange part of the bankers' programme is a success. It is practically certain that no gold will be shipped from here on Saturday.

The initial stock prices were fractionally irregular, the depression being partly ascribed to disappointing London quotations and realizations. Chicago Gas broke 1 1-2 to 53 1-2, and Manhattan Louisville & Nashville and St. Paul 3-4 per cent. There were gains of 1-4 to 3-8 per cent. in some of the low-priced shares.

Washington, July 23.—The Treasury Department has been advised that over $23,000,000 in gold can be turned into the sub-treasury by the banks, in exchange for legal tender notes, to sustain the gold reserve. Of this amount about $18,500,000 is pledged by New York bankers, $2,000,000 by Boston, and $2,000,000 by Philadelphia. Further aid is expected from Chicago, and the officials there say there is not the least excuse for another bond issue.

PRICES ALL UP.

The Market Continues Its Recovery.

The stock market this morning was fairly active and the tone much improved all round. The supporting orders from outside points has, it is stated, had much to do with the quick recovery in the more active and speculative securities. The feeling on the street is that the bulk of the speculative stocks is now in strong hands, able to keep them up. The news this morning from London and New York was also of a reassuring nature. The trading this morning on the local board was well distributed; Cable opened strong at 136 1-4, advanced to 137, and closed easier at 136 1-2; Postal changed hands at 75 to 75 1-2, and Telephone at 154. Montreal Street Railway were placed at 208 for a round lot; Gas opened at 179, declined to 178, and rallied at the close to 178 1-2; Toronto Ry. opened at 65, advanced to 65 3-4, and closed easier at 65 1-8. A lot of Duluth common found a purchaser at 4 1-8. Cottons were neglected, and Banks are steady, with small movement for investment.

The London market was reported as relatively strong for American securities, the silver scare, it is said, having petered out.

The action of the New York banks in combining to protect the treasury's gold reserve had a most reassuring effect, and American shares were in better demand.

A new loan of Burmah, guaranteed by the Indian Government, is to be brought out at once by Rothschilds in London. The amount of the loan is £3,000,000, with interest at 2 1-2 per cent.

The New York market was reported as steadier and more doing. It is said the big bears desire to wait for a day or two in order to find out just how investors, capitalists and speculators will view the action of the Morgan bankers' syndicate, which will not only tend to restore treasury reserves, but will de facto prevent gold exports until cotton bills come forward a few weeks hence in sufficient volume to turn the current of foreign exchange naturally. The Populistic convention at St. Louis commands general attention, but as a bearish factor it is decidedly on the wane.

The conference of foreign bankers at the office of Mr. Morgan adjourned about the middle of yesterday afternoon, and the understanding there arrived at was made the basis for a pronounced advance in the entire market in the final dealings. The best prices of the week were then recorded, and confidence appeared to have been materially increased. Up to the close of the market Mr. Morgan had not issued his statement of the results of his conference, but the character of the buying of stocks was such, it is said, as to satisfy the room that the bankers who handled the major part of the last bond issue so successfully believe that they have the present situation well in hand.

The following were the sales: 3 Bank of Montreal at 219; 3 Merchants at 164; 2 Commerce at 124; 100 Cable at 136 1-4, 25 at 137, 25 at 136 1-2; 25 Postal at 75; 40 at 75 1-2; 10 Telephone at 154; 50 Toronto Railway at 65, 75 at 65 1-4, 25 at 65, 14 at 65 3-4, 1 at 65 1-8, 25 at 65 1-8; 100 Duluth common at 4 1-8; 50 Gas at 179, 50 at 178 3-4, 60 at 178, 25 at 178 1-2; 250 Street Railway at 208.

London market 1-4 below our parity. This the bears will try after the opening to pound the market, but we think they will not be able to produce much effect.

London sold L. & N. on the advance.

The American Exchange Bank deposited $500,000 gold in sub-treasury this morning, total so far by the banks $8,250,000.

Market rallied on shorts covering and on report that populists won't endorse Bryan.

ROBBED AT BEAUHARNOIS.

The required evidence against William Kennedy and Henri Bennett, the two men who were arrested at the Windsor Street Station, on the arrival of the C.P.R. train from Beauharnois Saturday night, is now in the hands of the Magistrate and the trial of the men will take place on Tuesday next. It transpires that on Friday last a trunk belonging to Mr. Charles M. Harris, traveller for Messrs. Brophy, Cains & Co., of this city, was left on the New York Central platform, after the closing of the station for the night and that the next morning it was gone.

Later in the day it was found under some hay in the field with the lock broken and a quantity of dry goods missing. John Fox, a night watchman, had also been robbed of his watch while asleep.

The goods stolen from the trunk were afterwards found hidden beneath a pig pen near the house where the two men boarded. What led up to the arrest of Kennedy and Bennett was a conversation overheard by the station agent as they were leaving Beauharnois. The conductor on the train was notified, and he took them in charge until reaching Montreal.

A SUSPECTED PICKPOCKET.

William Higgins was detected this morning in the act of picking a person's pocket at the C. P. R. picnic at Ste. Rose. He was arrested and brought to this city for trial.

MONEY SAVED BY PAYING CASH.

A Great Chance During July and August.

Nearly every merchant is willing to make some discount to cash customers. Few, however, have the inclination to offer such a way up furniture stock at such a way down reduction price as I am doing during July and August for my cash customers. Responsible parties can also get lower rates than usual for credit purchases, but not quite so low as the cash customers. Just a little hint—a $70 bedroom set, in curly birch, British bevel plate mirror, 32 by 30 inches, for $43.50. F. Lapointe, 1551 St. Catherine Street.
